## Docs strike work over rape, murder in WB

ARCHANA JYOTI n NEW DELHI

Doctors at various hospitals across India began their indefinite strike from Monday, halting all elective services — scheduled, non-urgent procedures and outpatient services — until a fair investigation into the alleged rape and murder of a Kolkata doctor is concluded and their demands for safe working environment for their fraternity is met.

The trainee medico worked at the State-run RG Kar Medical College and Hospital in Kolkata, and her body was found inside the facility's seminar hall on Friday, sparking outrage within the medical community.

While pause in elective services left many patients visiting the OPDs left them high and dry, emergency care, however, remained operational, to address critical patients needs in the hospitals.

The nationwide indefinite strike is being led by the Federation of Resident Doctors' Associations (FORDA) with the Delhi Medical Association (DMA) also coming out in support of the doctors on strike.

The brutal nature of the crime has intensified calls for justice and has led to the nationwide strike as a mean of expressing solidarity with the victim and demanding systemic changes to ensure the safety of healthcare

Doctors protest against the sexual assault and killing of a postgraduate trainee doctor in Kolkata, in New Delhi, on Monday  
Ranjan Dimri/The Pioneer

workers, said Dr Sarvesh Pandey, general secretary of the RDA, RML Hospital. In its letter, FORDA listed five demands including expeditious acceptance of Residents' demands, resignation of all the responsible authorities, which include the principal, MSVP, Dean, HOD of pulmonary medicine, ACP of RG Kar MC&H police outpost, alleging that they could not perform their duty of protecting the dignity and life of a woman who was, in this case, an on-duty doctor, no police brutality, swift justice for the deceased and security protocols for healthcare workers and formation of expert committee.

Dr Aviral Mathur, FORDA president who participated in the protest at a hospital in Delhi, said, "Our cause is that the incident at RG Kar Hospital is the worst that could have happened to any on-duty doctor... rape followed by murder is deeply disturbing. "The services will remain suspended until the acceptance of demands of Kolkata's RG Kar Medical College residents as well as immediate appointment of a Central agency to investigate the case and the establishment of a Central Protection Act." The strike has garnered widespread support across the country.

## Mamata hints at handover of case to CBI

SAUGAR SENGUPTA n KOLKATA

In yet another climbdown Bengal Chief Minister Mamata Banerjee on Monday set a deadline for the police department to crack the RG Kar Medical College doctor rape and murder case but her act of bending back failed to pacify the agitating junior doctors who insisted on sustained cease work till all their demands were met throwing the health service in the entire State completely out of gear.

Mamata earlier met the parents of the victim at their Sodpur residence in the northern suburbs of Kolkata and said she would wait till Sunday for the police to crack the case failing which she would transfer the case to the Central Bureau of Investigation (CBI). Emerging from her meeting with the parents of the victim she said, "I am extremely shocked by the incident of a young lady doctor being killed in such a manner ...

this cannot be accepted... I have been told by the parents of the victim that there is an insider angle to the case... if so then I ask the police to hasten the investigation process... I give them time till Sunday to crack the case after which I will hand it over to the CBI." A postgraduate student of the department of chest medicine was in the wee hours of Friday found dead in a semi-nude condition inside the seminar hall of the hospital.

## Terror module busted in J&K

MOHIT KANDHARI n JAMMU

The Jammu and Kashmir police claimed to have busted an active terror module by arresting at least eight enemy agents responsible for providing food, shelter, and other logistic support to the Pakistani terrorists behind targeted strikes on the security forces across the Jammu region.

The terror module busted by the police is believed to be behind the recent infiltration that has resulted in increased terrorist activities and terrorist movements in the upper reaches of Doda, Udhampur, and Kathua. The police teams carrying out a detailed investigation have also managed to identify the kingpin of the module as Mohd Lateef alias Haji.

The investigations were launched by the police teams after eliminating three Pakistani terrorists in the Gandoh area of Doda district on June 26, 2024.

## Tihar jail terms Kejriwal's letter to LG abuse of privileges

STAFF REPORTER n NEW DELHI

In a strongly worded letter, the Tihar jail has taken exception to Delhi Chief Minister Arvind Kejriwal's recent letter to Lieutenant Governor Vinai Kumar Saxena seeking permission to allow Cabinet Minister Atishi to hoist the national flag on the occasion of Independence Day, terming his letter to the LG as "an abuse of privileges" granted to him under the Delhi Prison Rules.

The superintendent of Tihar's jail number 2 cited provisions of the Delhi Prisons Rules, 2018, and advised Kejriwal in a letter "to desist from any such impermissible activity" or his privileges would be curtailed. In a communication, Tihar jail official said it is surprising to note that the contents of the letter... were leaked to the media without any authority which amounts to violation of the prison rules.

Meanwhile, Delhi Cabinet Minister Gopal Rai on Monday directed the General Administration Department to make arrangements for the hoisting of the national flag on Independence Day by his Cabinet colleague Atishi.

## SC orders Shambhu border partial opening

PIONEER NEWS SERVICE n NEW DELHI

The Supreme Court on Monday asked the Punjab Government to persuade the farmers protesting at the Shambhu border since February 13 to remove tractors and trolleys from the road, saying "highways are not parking space".

A bench of Justices Surya Kant and Ujjal Bhuyan directed the police chiefs of both Punjab and Haryana to hold a meeting along with the Superintendents of Police of adjoining Patiala and Ambala districts within one week for partial reopening of the highway at the inter-State Shambhu border.

"We are not directing but we are definitely impressing upon the State of Punjab to immediately persuade the farmers to remove their tractors and trolleys. Even parking will create problems.

Now, we are seized with the issue and we are keeping it pending till some respectable, amicable and fair and just solution of all the problems are found," the bench told the Punjab Government.

Underscoring that farmers or the agricultural community don't face difficulty of any kind, the bench said, "After all, we are also concerned. Both the States are concerned and everybody is concerned about it."

"The DGPs of Punjab and Haryana and SPs of Patiala and Ambala along with Deputy Commissioners of both the districts are to meet within one week and lay down the modalities for partial opening of highway, initially for the purpose of ambulances, senior citizens, women, girl students, essential services and daily commuters of nearby areas," the court said.

## 'At Home' events lined up for icons this I-Day

PTI n NEW DELHI

Kind of those killed in the line of duty, Olympic Games participants and winners, competitive examination toppers and a host of other prominent people are part of a list shared by the Home Ministry with State Governments for extending invitation to the 'At Home' function at Raj Bhavans on Independence Day.

Those whose names were mentioned during Prime Minister Narendra Modi's "Mann ki Baat" radio broadcast, "Swachhagrahi" or foot soldiers who have played a key role in cleanliness drives and women sarpanches (village heads) are also part of the list shared by the Union Ministry of Home Affairs to be invited for the function.

Every Governor and Lieutenant Governor hosts the respective Chief Minister, Ministers, top civil, police officers, prominent citizens with high tea at their official residence —

Raj Bhavan or Raj Niwas — in the evenings of every Independence Day and Republic Day. The event is called 'At Home'.

In a communication to Chief Secretaries of all States, the Home Ministry said the 'At Home' function should be commenced after 6 pm. "This function represents a diverse

set of invitees apart from usual protocol-based invitees, on this occasion, the following indicative categories of guests could be invited," the communication said. They are 'Divyangjans'; achievers in different fields; people who made exemplary contribution to society, including during the Covid pandemic; eco-warriors; people who performed exemplary for environmental conservation; "Swachhagrahi"; references from the state and Union Territories in "Mann ki Baat"; Padma awardees; next of kin of martyrs; participants and winners in Olympic Games; and other important sports events of national and international standards. Exceptional educators, frontline health workers, children bravery awardees, women sarpanches, student toppers, best researchers and innovators may also be invited, the Ministry told the States. "At least 25-50 invites may be

reserved for such achievers. The names of such invitees should be announced in advance to enable the invitees to prepare for the occasion. The majority of the gathering could be under the category of special invitees under different categories," the communication said. The States and Union Territories were told that a system where the invitee list was generated afresh every year should be instituted so that an opportunity was given to a broad set of people.

It could be considered that a person gets an invite just once. The Ministry said special attention might be paid to the band at the Governor or the Lieutenant Governor's house. It should play patriotic songs and not simply songs from movies. A system of competition among school bands should be instituted where the winners get to perform during the reception.

## Explore Sikkim's landscape from home soon

ARCHANA JYOTI n NEW DELHI

Soon, visitors worldwide will be able to explore the marvels of the famous Dzongri trek in Gyalshing District, Sikkim in India, from their homes through an innovative Virtual Reality (VR) Ecotourism Initiative.

Aiming to promote sustainable tourism in the State which has taken various measures to be eco-friendly, this groundbreaking project from India's first Organic State merges travel delight with cutting-edge technology, offering an

immersive tour of the region's stunning landscapes and breathtaking views. By providing immersive experiences, VR technology provides a unique opportunity to experience natural environments that might otherwise be inaccessible to many travel enthusiasts to explore natural environments in a way that may not be possible due to geographical, financial, or physical limitations.

The Dzongri trek, a popular trekking route that can be completed in about 6-7 days, is a delight for tourists and adventure trekkerst with pristine views.

The VR initiative opens new avenues for experiencing the natural beauty of Sikkim and ensures accessibility to breathtaking locations regardless of adverse weather conditions or natural calamities. Users can virtually trek through the dense forests of the track, encountering zig zag trails in a realistic setting.

An official from the Union Tourism Ministry praised the State's initiative stating the project aims to contribute to the long-term growth and sustainability of the tourism sector in the region.

Family members of the victims mourn after a stampede at Baba Siddhanath temple, in Jehanabad district, Monday morning, Aug. 12, 2024. At least seven people were killed and 16 others suffered injuries in the stampede  
PTI

## Seven killed in Bihar temple stampede

PNS n JEHANABAD (BIHAR)

With the loss of over 100 precious lives in the tragic Hathras stampede still fresh in mind, report comes of shocking deaths of at least seven people, six of them women, in another stampede at Baba Siddheshwar Nath Temple in Bihar's Jehanabad district. Sixteen others were injured in the incident, an official said on Monday. The deceased, most of them Kanwariyas, have been identified as Pyare Paswan (30), Nisha Devi (30), Punam Devi (30), Nisha Kumari (21), and Sushila Devi (64). The identity of one woman remains unknown, the official added.

## Residents prepare to move out over dam collapse fear

KUMAR CHELLAPPAN n KOCHI

While people in the districts of Kottayam, Idukki, Ernakulam, Pathanamthitta and Alappuzha are getting ready for the eventuality of the collapse of Mullaperiyar Dam, the Tamil chauvinist outfits like DMK, MDMK, VCK and AIADMK are busy campaigning that the 130-year-old reservoir is safe.

Homemakers like Ganga Gopalakrishnan and Sheela Das in Perumbavoor are ready with suitcases packed with essential clothing and identification papers to move out to safer places. There is a sense of uncertainty and unease across these districts, said Anita Prakash, a municipal Councillor. But the Kerala Government is maintaining a stony silence over the warning given by CP Ramaswamy Aiyer, the then Diwan of the

erstwhile Travancore State, which together with the princely State of Kochi and Malabar, constitute the present-day Kerala.

"The agreement signed between Madras Presidency and the State of Travancore in 1886 is highly discriminatory and detrimental to the interests of Travancore. Travancore was forced to sign on the dotted line by the then Madras Governor conceding the tenancy over Periyar water to the Madras Presidency for a period of 999 years. This was a major fraud committed on a vulnerable Travancore by the British rulers," Ramaswamy Aiyer had told the then viceroy Lord Mountbaton in 1947 itself.

In his notes prepared after meeting the Viceroy, the Diwan pointed out that, while Madras Presidency (the present-day Tamil Nadu) stood to make a cool `25 lakh profit per year,

FILE PHOTO

Travancore would get a paltry amount of `40,000 per year as compensation. "This is gross injustice," Aiyer wrote in his note. The note has been reproduced ad verbatim by Prof A Sreedhara Menon, a historian of international

repute in his book "Sir CP's Role in Travancore." Professor Menon was a staunch critic of Aiyer because of his intransigent approach to all issues concerning life. His books on history of modern-day India speak a lot

about his reservations about the Diwan. But research led him to information hitherto inaccessible to all and proved the sincerity of Aiyer. A probe by P Sujathan, a chronicler of Kerala's history proves that the 1886 agreement between the two States were signed by K KV Rama Ayangar, the Tamil Nadu-born Diwan of Travancore and the Resident Collector of Madras Presidency. "The 999-year-long tenancy itself is a mystery as all such agreements are for a period of 99 years. Ayangar and other Tamils working for the Travancore Maharajah manipulated the deal in favour of Madras Presidency," Sujathan told The Pioneer.

Though by 1941 Ramaswami Aiyer argued in favour of Kerala and made the umpire appointed to arbitrate on the dispute to nullify Madras

Presidency's right to generate power from Periyar River water, the alliance governments that ruled the newly carved out State of Kerala squandered the successes won by Aiyer.

"The Mullaperiyar Dam agreement itself has lost its validity following the departure of the British from India for good. The question why the Kerala Government signed another deal with Tamil Nadu leaves much to be answered for," said P C George, veteran legislature, spearheading a battle for the decommissioning of the outdated and dangerous dam. Those who question the legality of the dam are arrested by the DMK government and jailed. "Interestingly, Tamil Nadu has done nothing to resolve its water shortage though it has spent crores on lawyers for filing cases in the apex court," said George.

# CM dedicates Transferable Development Rights web application

STAFF REPORTER ■ BHOPAL

The honorarium of elected public representatives of urban bodies will be increased by 20 percent. Chief Minister Mohan Yadav announced this while addressing the Devi Ahilyabai Holkar Women Public Representatives Conference organized at his official residence. He said that all the mayors, presidents, chairpersons, vice-presidents, and corporators will get increased honorarium from next month. The honorarium of the Mayor will be Rs 26 thousand 400, the honorarium of the Vice President will be Rs 21 thousand 600 while that of Corporator will be Rs 14 thousand 400 per month. The honorarium of a Municipal President will increase from Rs 6 thousand to

Rs 7 thousand 200 per month. Vice Presidents' honorarium will increase from Rs 4 thousand 800 to Rs 5 thousand 760 per month and that of a Corporator will increase from Rs 3 thousand 600 to Rs 4 thousand 320 per month. The Municipal Council Chairman will get Rs 5,760 instead of Rs 4,800, Vice Chairman will get Rs 5,400 instead of Rs 4,200 and the Corporator will get Rs 3,360 per month instead of Rs 2,800. Chief Minister Yadav also dedicated the Transferable Development Rights (TDR) web application and launched the certificate generation process. Chief Minister Yadav said that urban bodies will be given a special incentive amount to make them financially self-reliant. The municipality, which generates maximum income

in its division through taxes and fees will be given Rs 5 crore while the Municipal Council will be given Rs 2 crore as an incentive yearly. This amount will be used as a Corporator fund for the infrastructural works recommended by the public representatives. Chief Minister Yadav said that by preparing a gender budget, special provisions are being made in the supplementary budget for the safety and convenience of women, under which arrangements will be made for the CCTV project, special provision in city buses for local transport for women, and special pink toilets. Besides, special emphasis is being laid on schemes like special provisions on priority for women entrepreneurs in bodies and the inclusion of women's names in beneficiary-oriented schemes.

Chief Minister said that the state will celebrate 2025 as Year of Industries. Therefore, employment opportunities will be provided to women by combining small-cottage industries, women's self-help groups, and MSMEs. Regional Investors Conclave is being organized every month. Investors' conclave will be held in Gwalior in August, Sagar in September, and Rewa in October. Industries headed by women are being given priority. Remembering Devi Ahilyabai's rule, he said that she had taken effective steps for self-employment by starting Maheshwari saree weaving 300 years ago. Similarly, women representatives should play a strong role in providing employment opportunities in their respective areas. Chief Minister said that along with Raksha Bandhan events,

every possible contribution should be made to the Tiranga Abhiyan initiated by Prime Minister Narendra Modi. Every house must have the tricolour, it will be a real tribute to the freedom fighters. He said that Akhand Bharat Diwas should be celebrated with full dignity on the 14th of August. Grand and joyous programs should be organized on 15th August involving the police bands established in every district. Also, the programs should be organized in a dignified manner by including the police band in the government programs being held in the districts. Arrangements should be made to celebrate Janmashtami on a massive scale. All urban bodies must have programmes to unite society. Activities and competitions focusing on women and children should be organized on Janmashtami.

# AIIMS Bhopal secures remarkable 31st rank in NIRF

STAFF REPORTER ■ BHOPAL

The All India Institute of Medical Sciences (AIIMS) Bhopal has achieved a remarkable milestone by securing the 31st rank in the National Institutional Ranking Framework (NIRF) for the year 2024. This significant leap from last year's 38th position to 31st in the national rankings is a clear reflection of the visionary leadership and unwavering commitment of Prof. (Dr.) Ajai Singh, the Executive Director of AIIMS Bhopal. According to the data released by the Ministry of Education on Monday in New Delhi, AIIMS Bhopal has emerged as a strong contender among 182 medical institutions across the country, showcasing its excellence in various categories, including patient care, research, student per-

formance in placements, and selection for higher studies. AIIMS Delhi continues to hold the first position. This achievement is particularly noteworthy considering that AIIMS Bhopal was not even included in the NIRF rankings in previous years. The institute's ability to rise to such prominence in a relatively short span of time highlights its rapid progress and dedication to academic and medical excellence. The students of AIIMS Bhopal have excelled, securing placements in postgraduate courses at highly ranked institutions across India and prestigious universities abroad. Their success is a testament to the institute's rigorous academic environment and the quality of education imparted. Furthermore, the faculty at AIIMS Bhopal has made significant contributions to the

field of medical research, receiving over 175 research grants from national and international funding agencies. The institute has also published more than 1,000 scientific papers in reputed national and international journals, underscoring its position as a leader in medical research and innovation. The progress and accomplishments of AIIMS Bhopal under the guidance of Prof. (Dr.) Ajai Singh are a source of pride for the entire institute. His leadership has not only propelled AIIMS Bhopal to greater heights but has also set a strong foundation for continued success in the years to come. With a steadfast commitment to excellence, AIIMS Bhopal is poised to achieve even better rankings in the future, further solidifying its reputation as a premier medical institution in India.

# A portion of 5 number market demolished, shops being shifted nearby

STAFF REPORTER ■ BHOPAL

The demolition of 45-year-old buildings located in Bhopal's 5 number market started on Monday, there are a total of 225 houses and shops in these buildings which have been declared completely dilapidated. Therefore, the Housing Board started the action in the presence of police, 27 extremely dilapidated houses are being demolished in the first phase. Many people have also encroached on the roofs and verandas and this was also demolished. After the death of 9 children due to wall collapse in Sagar, Madhya Pradesh, old and dilapidated buildings are also being demolished in Bhopal. The action started in the 5 number market on Monday. Assistant Engineer Arjun

Gaur said that the building of Ravishankar Market has been declared completely dilapidated. There are a total of 225 houses and shops here. 27 houses have been selected in the first phase. Action is going on in two multist. Along with this, encroachment is also being removed. Many people had also con-

structed on the roof of the house and rented them out, but these buildings are not habitable. In such a situation, a big accident can also happen. Therefore, dilapidated buildings are being demolished. There are 165 houses and 65 shops in RSS market located at number 5 market. This

entire colony is 45 years old. The building has become dilapidated. Under the government's re-development policy, the Housing Board is demolishing it and bringing a new project here. Most of the people here have given their consent for the new project. However, the Housing Board is building temporary shops nearby for all the shopkeepers. In the new project, the Housing Board will build a house 20 percent bigger than the current house for the people here. New shops and houses will be available for free. Also, the board will also pay rent as per the collector's guidelines for the time the project is constructed. Rajiv Gandhi Technical University had done a structural stability test of the buildings of RSS Market. In

this report, this 45-50 years old building was declared completely dilapidated. The Municipal Corporation has also declared this building dilapidated. Therefore, it is being developed afresh under the re-development project. Collector Kaushalendra Vikram Singh and MLA Bhagwandas Sabnani had a meeting regarding the project recently. Under the re-development, a total of 8 towers of 20 floors each will be built here in the new project, 380 flats ranging from 1 BHK to 5 BHK and 129 shops will be built. Currently there are 65 shops and 165 houses. According to the new proposal, 80 1 BHK, 120 2 BHK, 40 3 BHK, 120 4 BHK, 20 5 BHK flats and 129 new shops will be built here. In this way, 215 flats and 64 new shops will be available for new buyers.

The theme of this year youth day was From Clicks to

Progress: Youth Digital Pathways for Sustainable Development. Gauranshi Sharma, UNICEF India youth advocate, spoke on how digital opportunities is opening new avenues for children and how sports can help provide children opportunities. She spoke on the challenge of mental health of children. Students of School of Planning and Architecture, Jagran lakecity University school of design, shared their projects to prevent child sexual abuse, menstrual hygiene for autism children,

booklet on use of millets, Sundesa - empowering children with knowledge of sustainability through interactive videos and games, child immunization drop outs, use of waste from tailoring shops, financial literacy etc. While young people from Harda shared the work, they are doing for gender justice and how they are working to provide safe spaces in Harda. Young people of Dhar shared and demonstrated the project on rain water harvesting. Cadets of NCC share the

work they do as part of the NCC training. Anil Gulati, Communication Specialist UNICEF said that Innovation by youth using digital avenues can harness and bring in sustainable development. Rajesh Bhat, Programme Director, All India Radio great to see young people working on social issues in particularly child rights and improving lives of people. Manish Shrivastava, Bureau Chief Press Trust of India, encouraged young people to take up social initiative and contribute to nation building. Sundip Puranik, Bureau Chief IANS said it is great to see youth working sharing innovations and contributing to society. Shefali Chaturvedi anchored the programme. Pushpa Awasthy, Nutrition Specialist, UNICEF, Sujan Sarkar, M4R Officer UNICEF, Dr Prashant Kumar, Health Specialist UNICEF listened to voices of young people.

# Students must maintain positive outlook, develop habit of listening

PNS ■ INDORE

The Prestige Institute of Management and Research (PIMR) in Indore organized a grand 'Deeksharambh' (orientation) ceremony to welcome the newly admitted students of BBA, the Department of Mass Communication, and the Department of Liberal Arts and Science at its undergraduate campus. The event began an exciting academic journey for the fresh batch of students. The newly admitted students were presented with Deeksharambh badges by the Chief Guest, special guests, Chairman of Prestige Education Foundation, Group Director, and Director of PIMR. The Chief Guest, Member of Parliament Shankar Lalwani, congratulated the new students and expressed his best wishes for their future endeavors at PIMR. While addressing students, Brajesh Pandey, Deputy Commissioner of Tribal Welfare, encouraged students to maintain a positive outlook. He emphasized that perseverance and a strong mindset are key to overcoming obstacles. Pandey shared the inspiring story of a tribal girl from

Khargone district who, through sheer determination, cracked the IAS exam. He stressed the importance of cultivating good thoughts and positivity, urging students to spend less time on their mobile phones and more time reading newspapers to stay informed about global happenings. Davish Jain, Chairman of the Prestige Education Foundation and Chancellor of Prestige University, advised them to embrace continuous learning, stay ahead of industry trends and technological advancements, cultivate soft skills, and actively engage with faculty, alumni, and peers. Dr. Jain highlighted the importance of participating in various events to build a strong professional network and encouraged students to view challenges as opportunities for growth. Retired Major General Rajesh Chhabra imparted valuable life lessons to the students, urging them to keep pace with changing times by learning new skills and technologies. He emphasized the significance of learning from experiences outside the classroom in addition to the academic curriculum. Noted counseling psychologist Sandip Atre provided insights into achieving success and fulfillment.

# Tiranga Yatras being taken out

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav has said that on the call of Prime Minister Narendra Modi, every street and every locality of the state has become tricolor under the Har Ghar Tiranga Abhiyan. The whole country is busy preparing for the Independence Day celebrations. Under the leadership of Prime Minister Shri Modi, the country and our state are fast moving on the path of progress. Chief Minister Yadav said this on the occasion of the inauguration of the grand Tiranga Yatra taken out from the Subhash Nagar ROB of Bhopal under the Har Ghar Tiranga Abhiyan. He congratulated the people of the state and the country for the Har Ghar Tiranga Abhiyan. Cooperatives, Sports and Youth Welfare Minister Shri Vishwas Sarang, Bhopal Mayor Malti Rai, MP VD Sharma, twice Olympic bronze medal winner of the Indian hockey team, midfielder Vivek Sagar, and two-time Olympian and Arjuna awardee Aishwarya Pratap Singh Tomar in shooting took part in the Tiranga Yatra. Both the players are also honored.

# BHEL wins order for setting up 2x800 MW thermal power project

STAFF REPORTER ■ BHOPAL

Bharat Heavy Electricals Limited (BHEL) has won a prestigious order for setting up a 2x800 MW supercritical thermal power project on EPC basis from Damodar Valley Corporation (DVC). The order for the coal-based project to be set up in Koderma district of Jharkhand, has been awarded through International Competitive Bidding (ICB). Significantly, this is the first 800 MW project of DVC and will be set up adjacent to the existing 2x500 MW units, which were also installed by BHEL on EPC basis. BHEL has a long-standing partnership with DVC and has installed more than 80% of the coal-based power stations of the utility in Jharkhand and West Bengal. BHEL's scope of work for this project includes supply, erection and commissioning, along with civil works. Key equipment for the project will be supplied by BHEL's manufacturing units at Haridwar, Trichy, Bengaluru, Hyderabad,

**BHEL is the leading power equipment manufacturer in India with a vast installed base of more than 1,68,000 MW of thermal power plants**

Bhopal and Ranipet, while the execution on site will be undertaken by the company's Power Sector - Eastern Region. The scope also includes highly efficient, state-of-the-art equipment for emission control. BHEL is the leading power equipment manufacturer in India with a vast installed base of more than 1,68,000 MW of thermal power plants in the country. BHEL is playing a crucial role in bolstering the nation's energy security and has been a major partner in the country's vision to achieve self-reliance in the power sector. The company is fully geared to meet India's growing demand for power equipment.

# Rajgarh police arrest 2 for stealing jewellery from Jaipur

STAFF REPORTER ■ BHOPAL

Rajgarh police have nabbed thieves who had stolen jewelry worth Rs 1.5 crore from Hotel Hyatt in Jaipur. Jewelry worth about Rs 1.5 crore was stolen from a wedding ceremony at Hyatt Hotel in Jaipur city of Rajasthan. Apart from the minor teenager, some other people were also involved in this theft incident and was found in the CCTV camera installed at the venue.

The Police Commissioner of Jaipur informed Madhya Pradesh's ADG Intelligence Jaideep Prasad about this theft in Jaipur city and informed that the thieves may possibly be from Rajgarh in Madhya Pradesh. After this, ADG Intelligence Jaideep Prasad informed SP Rajgarh Aditya Mishra about this and directed to trace the thieves as soon as possible. ADG Jaideep Prasad also told Rajgarh SP Aditya Mishra that minors of Kadiya village of

Rajgarh are involved in such cases of theft. SP Aditya Mishra said that after this the police raided Kadiya village near Boda at midnight. In the month of Sawan, Kanwar pilgrims pass through the district through different routes. The police had received information that these accused have joined the pilgrims in some Kanwar Yatra. Therefore, to search for the accused, the police started searching on the Agra-Mumbai National Highway at night.

# The event strengthened cultural-educational ties: Mauritius PM

STAFF REPORTER ■ BHOPAL

The grand event of Vishwa Rang 2024, dedicated to the global promotion of Hindi and literature, art and culture, has done an important job of strengthening the cultural-educational relations between India and Mauritius. The ideas that have come to us from the ideological discussions held in various sessions of Vishwa Rang, we will together take meaningful steps in that direction. The Memorandum of Understanding (MoU) between Rabindranath Tagore University (Bhopal, India) and Mahatma Gandhi Institute, Mauritius will provide opportunities for creative and innovative work for a long time with mutual coordination. Heartiest congratulations to Santosh Chaubey,

Director of Vishwa Rang and Chancellor of Rabindranath Tagore University for the historic event of Vishwa Rang and MoU! Heartiest congratulations and best wishes to the representatives from various countries as well. The above sentiments were expressed by Praveen Kumar Jagannath, Prime Minister, Republic of Mauritius while addressing the closing ceremony of Vishwa Rang 2024. On this occasion, Santosh Chaubey, Director, Vishwa Rang and Chancellor, Rabindranath Tagore University (Bhopal, India) said that in the closing ceremony of Vishwa Rang, we are not saying goodbye, we are returning to our respective countries with the resolution of meeting again on this occasion. We will meet again with new heights and new colours. The signing of the Memorandum of Understanding (MoU) between

Rabindranath Tagore University (Bhopal, India) and Mahatma Gandhi Institute, Mauritius will provide important opportunities to both the countries to promote creative work together in the direction of language, education, literature, art and culture. He further said that when he came to Mauritius in February, he had the auspicious opportunity to meet President of Mauritius, the Prime Minister and the Deputy Prime Minister. At that time, meaningful discussions were held with officials of important institutions of Mauritius, including Rabindranath Tagore University and Mauritius Government, especially Vishwa Hindi Secretariat, Mahatma Gandhi Institute, Rabindranath Tagore Institute, Hindi Speaking Union, Hindi Pracharini Sabha, Indira Gandhi Indian Cultural Centre, Mauritius Broadcasting,

Mauritius Doordarshan and Radio. It is worth mentioning that the grand, wonderful, unique organization of Vishwa Rang 2024 in Mauritius is a pleasant result of this. He further said that 'Tagore International Hindi Center' has been established in the Rabindranath Tagore University campus. Hindi acquisition course was created for teaching Hindi at the international level. The work of standardization and certification has also been done. We will connect one crore people all over the world with the Hindi teaching program. Vishwa Rang Director Santosh Chaubey announced on this occasion that from Vishwa Rang 2025, a personality working at the global level in the field of education, literature, art and culture will be honoured with the 'Afro-Asia International Vishwa Rang Samman'.

In Vishwa Rang 2024, personalities who have done important work for Hindi in different contexts were honoured by the hands of Praveen Kumar Jagannath, Prime Minister, Republic of Mauritius and Santosh Chaubey, Director Vishwa Rang and Chancellor, Rabindranath Tagore University (Bhopal, India). On this occasion, senior litterateur Dr. Laldev Anchraj (Mauritius), senior author Dr. Hemraj Sundar (Mauritius), famous folk singer Dr. Malini Awasthi (India), renowned Bengali singer Jayati Chakraborty (India), senior educationist and author Padmesh Gupta (UK), senior storyteller Divya Mathur (UK), renowned technical expert and author Balendu Dadhich Sharma (India) were honoured with 'Vishwa Rang Bhasha Samman 2024'.

## Quality engineer of pvt company at Goragaon abducted

STAFF REPORTER ■ BHOPAL

Quality engineer of Goragaon Ayush Enterprises located in Ratibad area was held hostage and assaulted in the plant, Ratibad police have registered a case and started investigation into the matter. The crime was committed by the project engineer and supervisor of Tulsi Tower located at Tulsi Nagar. The entire incident took place on Saturday afternoon. On Sunday, the complainant reached Ratibad police station and lodged an FIR against both the accused. The police have taken the accused into custody. The dispute was over the supply of poor quality cement. ASI Nand Kishore Dubey said that 30-year-old Ashish Ahirwal is originally from Damoh. Currently he lives in Goragaon Ratibad. Ayush Enterprises has a cement mixture plant in this village. Ashish works as a quality engineer in this plant. Under his leadership, cement mixture is being prepared and supplied to the 23-storey under-construction Tulsi Tower located

at number five. Poor quality cement has been supplied here continuously for the last five days. Supervisor Pratap informed the project engineer of this site, Tungal Singh Chauhan, about the supply of poor quality goods. Then he reached Ashish's plant with the intention of talking. There was a heated argument between the two. Tungal informed the owner of the mixture plant about the matter on call. Ashish was accused of knowingly supplying substandard mixture. Ashish wanted to put forth his side on this. Then Tungal and Pratap locked Ashish in a room in the plant. After some time he was taken out and Pratap beat him up. After this incident, Tungal and Pratap took Ashish to Chunabhatti police station on the charge of supplying substandard cement. There he was handed over to the police. However, the police released Ashish after interrogation. On Sunday, Ashish lodged an FIR against Tungal and Pratap in Ratibad police station for kidnapping and beating.

## Police solve Rs 12 lakh robbery case reported at Rachna Nagar Tower on August 7

STAFF REPORTER ■ BHOPAL

Bhopal police have nabbed three persons including a woman who were involved in robbery of Rs 12 lakh from the office of a liquor company in Rachna Tower on August 7, mastermind of the robbery was accountant who was fired by the company. Police has arrested three accused including the ex-accountant of this company. One accused is absconding. The accused accountant was fired from the liquor company on suspicion of embezzlement. With the intention of taking revenge, he hatched a conspiracy of robbery. The office of the liquor company is in a flat in Rachna Tower, a multi-storey building of MLAs and MPs. The accused hired two goons from Uttar Pradesh. Transferred money to their bank account. Arranged for their stay in Bhopal. They recce Rachna Tower. Along with showing them the flat from outside, he also told them the way to come and escaped using lift number 14. On the day of the incident two miscreants entered the office of the liquor company located in a flat here and pointed a gun at the manager Shyam Sundar Jaiswal and taking him hostage they escaped with bag full of money. Police announced a reward of Rs 30,000 for the arrest of the accused. Police Commissioner Harinarayan Mishra said that three accused Madan Lal Sen, Sanjay Kashyap and Sushma Raikwar have been arrested by the Crime Branch team. The place from where they were caught is considered to be the stronghold of criminals. One accused Charan Jat is absconding. Police had prepared a road

map of 25 kilometers to identify the accused. About 513 cameras installed on these routes were scanned. Out of the Rs 12 lakh of loot, Rs 6 lakh have been recovered from the accused. The remaining Rs 6 lakh are with the absconding accused. Accused Madan lives in Lalghati, Bhopal. He had assured the criminals that at least Rs 40 lakh - Rs 50 lakh cash is kept in the office. He knew that manager Shyam Sundar wakes up first in the morning. He is the oldest among the four people living in the flat. He can be targeted and robbed easily. Govindpura police said that two people reached the liquor company's office at 8.30 am on August 7. They knocked on the door. When the door did not open, they called out in the name of liquor company employee Virendra Gupta. After this, 63-year-old manager Shyam Sundar Jaiswal opened the door. The miscreants asked about Virendra Gupta. On this, the manager made both of them sit inside the office. When the miscreants asked for water to drink, the manager moved towards the kitchen. As soon as he turned, the miscreants took out a gun and pointed it at his back. Then they started asking about the cash

kept in the office. They threatened to kill him if he did not tell. The manager said that the money was kept on the first floor of the flat. The miscreants took him to the first floor. Here they picked up the bag full of money and came back down. Here they pushed the manager and ran away. At the time of the robbery, there were four employees in the flat including manager Jaiswal. The manager went to open the gate without informing the other employees sleeping in the room. All three employees were sleeping during the crime. The miscreants stayed in the flat for over 15 minutes. They locked both the rooms of the young men sleeping in them. After the crime, the complainant woke up the three companions present inside by making noise. Both the locked rooms were opened and the accused were searched in the building. After this, the police was informed. Sushma Raikwar is acquainted with Madan. She had received Rs 50000 for helping in the robbery. Her job was to drop the accused to Rachna Tower. After the incident, she dropped the two accused in her vehicle to Madan near Lalghati. After this, Madan dropped the accused to the railway station the same evening. From where they went to their village in UP.

## Sonalika surpasses 50K tractor sales

NEW DELHI

New Delhi: Starting off its Q2 FY25 leg, 'Pride of India' Sonalika Tractors has achieved a new benchmark performance to surpass 50K overall tractor sales in just 4 months of FY25 and clocked an overall YTD sales of 51,268 tractors in April-July 24. Riding the robust growth trajectory, the company has outperformed the domestic market performance and continues to be among leading market share gainers in the domestic market. The performance has also set the brand's momentum as the tractor industry prepares for the biggest season in the coming months. The central government's provision of Rs 1.52 lakh crore for the agri ecosystem and allied sector will not just increase industry's contribution to the economy but also push the demand for advanced farm machinery. The farmer demands in India vary as per regional requirements and Sonalika truly believes that no one tractor fits for all, thus makes the biggest tractor range in 20-120 HP. This customised tractor range boasts of Heavy Duty Mileage (HDM) and CRDS engines, multi speed transmissions and advanced 5G hydraulics that are designed to shape up the future of Indian agriculture.

## Doctors from all over the country protest against rape, murder of trainee doctor in Kolkata

STAFF REPORTER ■ BHOPAL

After Delhi, doctors across the country have started protesting against the rape and murder of a trainee doctor in Kolkata. All the doctors of Hamidia Hospital worked with a black band tied on their hands to register their protest. Earlier half-naked body of a trainee doctor was found late night on August 8 in RG Kar Medical College Hospital, Kolkata. According to the police, she was murdered after rape. Blood was flowing from her private part, eyes and mouth. Her neck bone was also found broken. Junior Doctor Association (JUDA) spokesperson Kuldeep Gupta said that all the junior doctors of Gandhi Medical College Bhopal worked wearing black bands

on Monday in protest against the unpleasant incident at RG Kar Medical College, Kolkata. A candle march will be held today at 7 pm for the peace of the departed soul, followed by a tribute meeting at 7:30 pm. Today, 3 lakh resident doctors across the country are on strike over the incident. OPD services have been affected in all government hospitals across the country, including AIIMS Delhi. Emergency services have been kept running. Dr. Sarvesh Pandey, General Secretary of All India Resident Doctors Association (FORDA) said - We have demanded from the Health Secretary to get the incident investigated by CBI and to make a Central Protection Act for the safety of doctors. We will continue the strike until we get a written assurance.

# BJP rejects Cong's JPC demand, says Hindenburg report plot against India

PIONEER NEWS SERVICE n NEW DELHI

The BJP on Monday rejected the Congress' demand for a JPC probe into Hindenburg's allegation against the SEBI Chairperson, saying it is a sham with an eye on weakening the Indian economy and destroying investment in the country. BJP Leader and former Union Minister Ravi Shankar Prasad reiterated the party's line that the short-selling firm's charge and the Opposition's criticism of the market regulator are part of a wider conspiracy. While India is being globally seen as a safe, stable and promising market, the Congress party wants to project that the Indian investment scenario is not safe, he alleged, suggesting that the Opposition party was seizing on the "chits" provided by foreign entities to damage economy. Billionaire investor George Soros is an investor in Hinderburg and he is known for running propaganda against the Government led by Prime Minister Narendra Modi, Prasad said. The Congress wants stock market, which has given good returns to crores of

small investors, to crash, he said. "After being rebuffed by people, the Congress, its allies and its closest ally in the toolkit gang have conspired together to usher in economic anarchy and instability in India," he told reporters. The 10-year-old rule of the Congress between 2004 and 2014 was marked by several alleged scams, Prasad noted, as he questioned why such critical reports were not brought out then. He alleged, "The Congress party Leadership is involved in creating economic anarchy based on this fictitious report." He, however, asserted that investors have come to realise the "conspiracy" and rejected the attempts to

jolt the market. "In its pathological hatred for Prime Minister Narendra Modi, the Congress, led by Rahul Gandhi and his toolkit friends, has developed hatred for India." The SEBI had sent a notice to the US-based Hindenburg as part of its probe on the Supreme Court's order following the firm's allegations of stock market manipulation against the Adani group. Hindenburg never replied but has instead launched an attack on SEBI Chairperson Madhabi Puri Buch, he said. With Rahul Gandhi spearheading his party's attack on the Government over the issue, Prasad said he has a habit of throwing unfounded charges and noted that he never

gave his phone for investigation after an investigation was ordered over the Pegasus issue. The BJP will expose the Congress, he claimed. At the press conference, he also slammed the Trinamool Congress Government in West Bengal over the rape and murder of a doctor at a State-run hospital, alleging that it was trying to cover up the incident. The BJP MP said the State Government should hand over the probe to the CBI. Amid attacks on minority Hindus in the unrest-hit Bangladesh, the BJP Leader questioned the silence of the Opposition Leaders, including Gandhi, and noted that Modi had spoken about the need to protect them. The Congress has demanded Buch's resignation and urged the Supreme Court to transfer the Adani probe to the CBI or a Special Investigation Team given the "likelihood of SEBI's compromise". The Opposition party also reiterated that the path forward is to immediately convene a Joint Parliamentary Committee (JPC) to investigate the full extent of what it described as the "Modani mega scam".

# ICG strengthens surveillance to foil illegal Bangladeshi migration via sea

PIONEER NEWS SERVICE n NEW DELHI

Considering the recent political events in the Bangladesh and emerging situation, Indian Coast Guard (ICG) has aptly positioned operational units for robust surveillance in the region and to foil any attempts of illegal migration through sea routes, officials said here on Monday. Giving details, they said surface surveillance has been enhanced along the Indo-Bangladesh International Maritime Boundary Line or IMBL by Offshore Patrol Vessels (OPVs) and Fast Patrol Vessels (FPVs). Layered surface surveillance has been instituted by additional FPVs. All units at sea have been advised to monitor/Board all fishing boats and undertake positive identification of Indian Fishermen. Sea Air coordinated aerial sur-

veillance has been augmented along IMBL by Coast Guard Aircraft especially during dawn dusk hours to track scooting contacts, if any. Additional assets are also kept on standby at Paradip and Haldia for immediate deployment/response, if any subversive activity is reported. Electronic surveillance has been promptly maintained for all close coast transferring contacts and interrogated. Necessary coordination has been maintained with agencies and stakeholders to prevent any ingress through possible infiltration/ landing points. So far, no instances of infiltration or any such activity have been reported on the maritime front. The enhanced surveillance measures will be maintained in the area until the situation improves and stabilises, they said.

# SC rejects plea against cancellation of UGC NET examination

PNS n NEW DELHI

The Supreme Court on Monday refused to entertain a fresh plea filed by some examinees challenging the Government's decision to cancel the UGC-NET examination following alleged question paper leak, saying that entertaining it at this stage will create "chaos". A bench comprising Chief Justice DY Chandrachud and Justices JB Pardiwala and Manoj Misra said the Government is conducting the exam afresh on August 21 and the students, who are around nine lakh, must have some kind of "certainty now". "The Supreme Court stepping now will have a serious effect and there will be chaos all over," the CJ said while declining to entertain the plea filed by Praveen Dabas and others. The bench said the exam was held on June 18 and was cancelled a day after that. "Entertaining the plea at the present stage would only add to uncertainty and add to utter chaos," the CJ said, adding the Central Government must be "doubly cautious after the NEET-UG fiasco and thus it was cancelled. Let this process

go on now". Earlier, the top court had dismissed a PIL on the issue, saying it was filed by a lawyer and not by aggrieved candidates. "Why are you (lawyer) coming? Let the students come here themselves," the CJ had told the lawyer, adding "while declining the above PIL, we express nothing on merits". The bench had asked advocate Ujjawal Gaur, who has filed the PIL as a petitioner, to focus on some legal matters and leave such issues for aggrieved persons. The earlier plea was also filed against the decision of the Union education Ministry and the National Testing Agency to cancel the UGC-NET exam following inputs that its integrity may have been compromised. The Ministry on June 19 had ordered the cancellation of the UGC-NET exam and handed over the matter to the CBI for an investigation.

# IIT Madras top in NIRF 2024, IISc ranked best university

PIONEER NEWS SERVICE n NEW DELHI

The Indian Institute of Technology (IIT) Madras remained on the top spot in the National Institute Ranking Framework, 2024 for the sixth consecutive year, while the Indian Institute of Science (IISc) Bengaluru was ranked as the best university for the ninth year in a row, according to the Ministry of Education. The ninth edition of the rankings was announced by Union Minister of Education Dharmendra Pradhan on Monday. IISc Bengaluru has bagged the second spot in the "overall" category followed by IIT Bombay while IIT Delhi, which was at the third spot last year in the category, has slipped

to the fourth position. Eight IITs have figured in the top ten besides All India Institute of Medical Sciences (AIIMS), New Delhi and the Jawaharlal Nehru University (JNU). Among universities, IISc Bengaluru is followed by JNU and Jamia Millia Islamia. Nine IITs are in the top ten list for engineering colleges with IIT Madras being at the top for the ninth consecutive year in the category. IIT Delhi and IIT Bombay have also retained their second and third spot respectively in the category. National Institute of Technology (NIT), Tiruchirappalli is the only non-IIT in the top ten list. Among management colleges, the Indian Institute of Management (IIM)

Ahmedabad has retained its top spot, followed by IIM Bangalore and IIM Kozhikode. Two IITs Bombay and Delhi have also figured in the top ten list for management courses. In pharmacy, Jamia Hamdard rose to the top spot from its second position last year while the National Institute of Pharmaceutical Education and Research, Hyderabad slipped to the second rank. BITS Pilani has retained its third position in the category. Delhi University's Hindu

College and Miranda House have switched positions in the colleges' category with the former bagging the top spot. St Stephen's College is in the third position among colleges. Similarly for law, the National Law School of India University, Bengaluru followed by the National Law University, Delhi and NALSAR University of Law, Hyderabad have retained first, second and third spots respectively. For Architecture and Planning, IIT Roorkee has been announced as the best, followed by IIT Kharagpur and NIT Calicut. Among medical colleges, All India Institute of Medical Sciences (AIIMS), New Delhi has bagged the top position followed by PGIME, Chandigarh and CMC Vellore

at second and third spot. Among the dental colleges, Saveetha Institute of Medical And Technical Sciences, Chennai and Manipal College of Dental Sciences retained the top two positions while the third rank has been bagged by Maulana Azad Institute of Dental Sciences, New Delhi. For education, IISc Bengaluru has been acknowledged as the best followed by IIT Madras and IIT Delhi at second and third spot. For education in Agriculture and Allied Sectors, Indian Agricultural Research Institute, New Delhi is at the first spot while ICAR-National Dairy Research Institute, Haryana has bagged the second rank, followed by Punjab Agricultural University, Ludhiana.

# Centre advises news channels to add timestamps on disaster footage

PIONEER NEWS SERVICE n NEW DELHI

The Centre on Monday issued an advisory to private news channels to carry a date and timestamp on visuals of natural disasters and major accidents while reporting on such incidents. The advisory, issued by the Ministry of Information and Broadcasting, noted that television channels provide continuous coverage of natural disasters, major accidents over several days but keep showing the footage from the day the incident took place. The Ministry argued that the footage shown by television channels several days after the

accident or disaster does not necessarily reflect the real-time ground situation which leads to "unnecessary confusion and potential panic among viewers". "Therefore, to avoid any misunderstanding among viewers, all private satellite TV channels are hereby advised to ensure that visuals of disasters, natural calamity or major acci-

dents should prominently display a 'DATE AND TIME' stamp on the top of the footage," the advisory read. The display of date and timestamp will ensure that viewers are suitably informed about the exact date of the footage being telecast and the fact that it does not necessarily reflect the real time position at the location of the incident. The I&B Ministry advisory also "strongly advised" private news channels to ensure adherence to the Programme Code while telecasting such incidents. The advisory comes in the wake of extensive coverage of the landslides in Wayanad and Himachal Pradesh that claimed several lives recently.

# Centre to launch contest to designate Model Solar villages

ARCHANA JYOTI n NEW DELHI

In an ambitious new effort to promote solar energy aimed to reduce dependence of conventional energy amidst climate change threats, the Centre is launching a competitive "challenge" under the PM Surya Ghar Yojana (PMSY) to designate Model Solar Villages. In this regard, the Government has announced a central financial assistance grant of Rs one crore to the winning hamlet in each district with the highest renewable energy capacity. "The goal is to promote solar energy use and help villages become self-reliant in meeting their energy needs," said an official from the Ministry of New and Renewable Energy. The incentive comes under the 'Model Solar Village' initiative under the PM-Surya Ghar: Muft Bijli Yojana for which the Guidelines for implementation of 'Model Solar Village' under PM-Surya Ghar: Muft Bijli Yojana were notified by the Ministry on August 9, 2024. The initiative aims to inspire and support villages across India to transition to solar power and serve as models for sustainable energy practices," said the official. This scheme, which aims to expand off-grid solar solutions, is part of a comprehensive approach with three key

components: enhancing solar installations on residential properties, commercial/industrial/Government buildings, and creating Model Solar Villages. Through this challenge, villages will compete for a central financial grant, designed to accelerate their transition to solar power and establish them as beacons of sustainable energy adoption. This initiative not only seeks to boost solar energy use but also to inspire other communities to follow suit, added the official. In order to be considered a village under the competition mode, a village must be a revenue village with a population size above 5,000 (or 2,000 for special category states). The selection process involves a competitive mode where villages are assessed on their overall distributed renewable energy (RE) capacity installed 6 months after the declaration of the potential candidate by the District Level Committee (DLC). The Government had given go ahead to the PM-Surya Ghar: Muft Bijli Yojana in February this year, with the aim to increase the share of solar rooftop capacity and empower residential households to generate their own electricity. The scheme has an outlay of Rs 75,021 crore and is to be implemented till fiscal 2026-27.

# 10th India-Sri Lanka military exercise begins

PIONEER NEWS SERVICE n NEW DELHI

The 10th edition of India-Sri Lanka Joint Military Exercise Mitra Shakti commenced on Monday at Army Training School, Maduru Oya, Sri Lanka. The Exercise is scheduled to end on August 25, army said here. Giving details, officials said Indian contingent comprising of 106 personnel is being represented by a battalion of Rajputana Rifles along with personnel from other arms and services. The Sri Lankan contingent is being represented by personnel from Gajaba Regiment of Sri Lankan Army. Joint Exercise MITRA SHAKTI is an annual training event conducted alternatively in India and Sri Lanka. Last edition was conducted in Pune in November last year. Aim of the Joint Exercise is to enhance joint military capability of both sides to undertake counter insurgency operations in a Sub Conventional scenario under Chapter VII of the

United Nations Mandate. The exercise will focus on operations in the semi-urban environment. Tactical drills to be rehearsed during the exercise include Response to a Terrorist Action, Establishment of a Joint Command Post, Establishment of an Intelligence and Surveillance Centre, Securing of a Helipad/Landing Site, Small Team Insertion and Extraction, Special Heliborne Operations, Cordon and Search Operations besides employment of Drones and Counter Drone Systems, among others. The Exercise will enable both sides to share best practices in Tactics, Techniques and Procedures of conducting joint operations.

# Former Foreign Minister K Natwar cremated, leaders pay tribute

PIONEER NEWS SERVICE n NEW DELHI

The mortal remains of Former Foreign Minister K Natwar Singh were consigned to flames here on Monday as several political leaders, including External Affairs Minister S Jaishankar, joined in paying tribute to him. Natwar Singh passed away on Saturday night after a prolonged illness, according to his family members. He was 93. His funeral was held in the afternoon at the Lodhi Crematorium amid rains in Delhi. External Affairs Minister Jaishankar, Union Culture Minister Gajendra Singh Shekhawat, Rajasthan Chief Minister Bhajan Lal Sharma, National Conference Leader Omar Abdullah, Congress Leader and former Haryana Chief Minister Bhupinder Singh Hooda, and several other Leaders, besides many family members, friends and admirers

of Natwar Singh gathered at the crematorium to pay tribute. Jaishankar offered a piece of wood to the funeral pyre before Singh's mortal remains were consigned to flames. "Many political Leaders came to pay tribute to Natwar sahab," said a family friend who attended the funeral. The former Union Minister breathed his last at Medanta Hospital in Gurugram near Delhi, where he had been admitted for the past few weeks, they said. Natwar Singh was born in 1931 at Jaghina village in Bharatpur district of Rajasthan.

He was a career diplomat, who brought a wealth of experience in diplomacy to his political career, and a prolific author on subjects ranging from the life of a 'maharaja' to nuances of foreign affairs. During his distinguished career, he wore many hats, and for his service to the nation, the former external affairs Minister was awarded the Padma Bhushan in 1984. Shekhawat described the departure of Natwar Singh as an "irreparable loss" both in the fields of politics and diplomacy. "As a diplomat, the way he served the nation, and the way he worked as a politician for the interest of the nation, both shall be scripted in golden letters in the pages of history," he told reporters here. "Natwar Singh ji was a fearless and courageous man, and he always put forth his thoughts fearlessly and openly whatever was in interest of the nation and the society..."

# Priyanka concern at Bangladesh minority attacks

PIONEER NEWS SERVICE n NEW DELHI

Congress Leader Priyanka Gandhi Vadra on Monday said news of continuous attacks on minorities in neighbouring Bangladesh was disturbing and expressed hope that the Government there would ensure the safety of Hindus, Christians and Buddhists. The Congress general secretary said discrimination, violence and attacks on the basis of religion, caste, language or identity were unacceptable in any civilised society. "The news of continuous attacks on minorities in neighbouring Bangladesh is disturbing. Discrimination, violence and attacks on the basis of religion, caste, language or identity are unacceptable in any civilised society," Priyanka said in a post on X. She expressed hope that the situation in Bangladesh would soon become normal and the interim Government there would ensure the safety and respect for people following Hindu, Christian and Buddhist religions. Bangladesh's interim Leader Mohammad Yunus on Saturday condemned attacks on minority communities in the violence-hit nation, terming them as "heinous", and urged youngsters to protect all Hindu, Christian and Buddhist families from harm. A number of Hindu temples, households and businesses were vandalised, women assaulted and at least two Hindu Leaders affiliated with the Awami League party headed by Sheikh Hasina were killed in the violence in Bangladesh after she fled the country, according to community Leaders in Dhaka.

# Indian researchers create xerogel for blood clot relief

PIONEER NEWS SERVICE n NEW DELHI

Indian researchers have developed a porous composite xerogel dressing incorporating Silica Nanoparticles and calcium, that can help blood clot rapidly and provide relief for uncontrolled hemorrhage. The composite showed significant improvement in rate of blood clotting in comparison to commercial dressing, said scientists from Agharkar Research Institute (ARI) Pune, an autonomous institute of Department of Science and Technology (DST) under the Union Ministry of Science and Technology. Uncontrolled hemorrhage is one of the leading causes of traumatic death resulting from accidents or injuries and dur-

ing military or surgical operations. More than 40 per cent of trauma deaths are due to severe loss of blood. Gauze, a commonly used first aid material or the natural defences of the human body operating through reduction in blood flow to the injury site, platelet plug formation by fibrin activation and activation of blood clotting pathways are inadequate to halt severe hemorrhage. Therefore, improved hemostatic materials are urgently required to reduce blood losses. The scientists said that the highly porous spongy xerogel hemostatic dressing supplemented with substances bind to a receptor inside a cell (agonists) like silica nanoparticles (SiNPs) and calcium. They studied composite material and

found that it increased the blood clotting index by 13-fold in comparison to commercial dressing clotting capacity. The well-characterised xerogel showed presence of multiple pores of around 30 µm size that contributed to the high absorbance capacity of the dressing. The supplements improved the clotting capacity and resulted in quick absorbance of blood.

"Platelets are an important component of blood and contribute to the blood clotting process. Several factors like change in platelet shape, secretion of calcium, and activation of receptors on platelet surface play a role in the intricate pathway of blood clotting. The xerogel hemostatic dressing showed enhanced platelet aggregation due to the development of

well-formed pseudopodia in the activated platelets resulting in agglutination which play a major role in the clotting process. In addition, the composite enhanced calcium release, and its extrusion," said the authors Gokul Patil, Rutuja Pawar, and Vandana Ghormade from the institute. Furthermore, a significant increase of the active form of the protease activated receptor gene (PARI gene-- present in the platelet membranes facilitates thrombin signaling) was noted in human platelets. Platelet calcium release and upregulation of PARI on the platelet surface are critical for platelet shape change and aggregation. The study is published in the Journal Applied Polymer Science.

# Work to make India a developed nation: Mandaviya to youth

**PTI n AHMEDABAD**

Union Youth Affairs and Sports Minister Mansukh Mandaviya on Monday urged youth to work with commitment and dedication to become successful and make India a developed nation by 2047.

Addressing the "Impact With Youth Conclave 2024" here on International Youth Day, the minister said the 'Mera Yuva Bharat - MY Bharat' portal launched by the Centre will become a single window platform for the youth.

This year's International Youth Day, themed 'From Clicks to Progress: Youth Digital Pathways for Sustainable Development', emphasises the importance of digitalisation and the pivotal role young people play in this transformation.

"This is a country with a population of 140 crore. It is our collective responsibility to make India a developed nation. In such a situation, youth have a special responsibility," Mandaviya

He highlighted the significance of youth in realising the vision of a developed India by 2047, the 100th year of independence, and said the government will leave no stone unturned to ensure the financial security of the young generation.

The central government is making an effort to empower the youth of the country by creating opportunities for them, he said.

"I found two to three points common in successful

people, which I adopted in my life. One common characteristic was commitment and dedication with which they worked. Commitment and dedication, along with hard work, and the fourth is goal...Set a goal. Work with commitment and dedication to achieve the goal, and nothing can stop you from being successful," the minister said.

"Today, on International Youth Day, pledge to be successful for the country and yourselves. If you move ahead with this goal, you will become successful, and we will make India a developed nation when it celebrates the centenary year of its independence," he said.

The Union minister said around 1.5 crore people have registered themselves on 'MY Bharat', which will become a single window platform for the youth.

"In the coming days, the MY Bharat portal will become a single-window platform for youth, helping them determine their future. It will help them with career opportunities, enrolments and applications," Mandaviya told reporters later.

Users of MY Bharat will be able to connect themselves with national and international systems, he said.

"Volunteers will visit 5,000 college campuses and offer a presentation regarding MY Bharat and how youth will benefit from the internship scheme and other initiatives announced in the Union Budget," he said.

Mandaviya said in the last

# Karnataka to form expert panel to assess condition of all dams

**PTI n BENGALURU**

In the backdrop of one of the crest gates of the Tungbhadra reservoir being washed away, Karnataka Deputy Chief Minister D K Shivakumar on Monday said the state government is constituting an expert committee to assess the condition of all dams in the state.

Shivakumar, also the Water Resources Minister, said efforts are on to restore the crest gate at the dam and there is no need for anyone to worry over the issue.

One of the crest gates (19th gate) of the Tungbhadra reservoir near the district headquarters town of Koppal was washed away after its chain link snapped on Friday midnight, following which the downstream areas were put on alert, as a huge quantity of water was being released.

"Yesterday I visited the T B

(Tungbhadra) Dam, we have taken immediate action. I have spoken to contractors and we have sent the designs. In four to five days, we will try to repair it. We want to save at least one crop for our farmers, we are taking all necessary measures for it. The Chief Minister is also visiting there tomorrow. I have also discussed with the technical team," Shivakumar said.

Speaking to reporters here, he said: "I'm not denying that it was dangerous, for the first time in 70 years such a thing has happened, but there is no need for anyone including farmers to worry."

"We will form a committee for the safety of all dams and will send them to all dams. An expert committee will be formed in a couple of days and will be sent to visit all dams and seek a report from them after assessment," he said.

After visiting the dam on Sunday, Shivakumar had said that as there was a possibility of damage to the structure of the dam, all the gates were opened from where 38,000 cusecs of water is being released to neighbouring Andhra Pradesh and Telangana, while the inflow is 28,000 cusecs.

He had also said out of 38,000 cusecs of water being released, 35,000 is flowing from the 19th gate itself.

# Day after Maratha protesters' ire, Sharad meets community leaders

**PTI n PUNE**

Members of a Maratha Organisation on Monday met with NCP (SP) leader Sharad Pawar at his residence in Pune and asked him to clear his stand on the quota issue, a day after protesters stopped the SUV of the veteran politician in Solapur district and shouted slogans during his rally.

Reacting to the meeting between Maratha Kranti Thok Morcha leader Ramesh Kere Patil and Pawar, quota activist Manoj Jarange alleged Deputy Chief Minister Devendra Fadnavis and other leaders of BJP were trying to project a rift in the Maratha community.

He dubbed Kere Patil's meeting with Pawar a "trap" to divide Marathas.

"Fadnavis is dreaming to create a rift in the Maratha community, however, his dream will never become a reality," Jarange told reporters in Pune.

BJP leaders (Pravin) Darekar and Fadnavis are trying to project Marathas as a divided community on the reservation issue, Jarange alleged.

Maratha agitators Sunday stopped Pawar's vehicle in

Solapur district and later raised slogans and waved black flags at a rally being addressed by the veteran politician in Barshi town.

Protesters, seeking the reservation for Marathas in the OBC category, asked Pawar to clear his stance on the issue.

Pawar on Monday appealed to Maharashtra Chief Minister Eknath Shinde to convene an all-party meeting to discuss the quota dispute between the Marathas and Other Backward Class communities.

Talking to reporters after Kere Patil met him at his residence, Pawar said steps should be taken to ensure the social fabric of the state remains good and there is no bitterness between communities.

# Viewing districts through ethnic lens unfortunate: Manipur CM

**PTI n IMPHAL**

Manipur Chief Minister N Biren Singh on Monday criticised the mindset of communities which view district boundaries through an ethnic lens, calling it "most unfortunate and detrimental to peace and harmony".

Singh emphasised the need for "reorganisation of districts" and suggested that it should involve thorough discussions with legislators and civil society.

"It is crucial to revise district boundaries based on administrative convenience rather than ethnic lines," Singh told the Assembly.

He acknowledged complaints that some villages were incorrectly assigned to new districts and called for a statewide survey involving village authorities, community leaders, and legislators to address these issues.

Singh added that there are also calls for the rollback of some newly created districts.

Addressing concerns raised by Naga People's Front legislator Leishiyoi Keishing about the creation of new districts in 2016, Singh

acknowledged that while the stated purpose was administrative convenience, it often served political interests.

"While it is clearly mentioned that creation of districts is for administrative conveniences, it served as political conveniences as regards to some districts," the CM said.

Keishing had highlighted how the formation of the Kangpokpi district in 2016 had affected the political aspirations and other opportunities of many Tangkhul and Rongmei Nagas.

Singh noted that Naga residents in Kangpokpi and Churachandpur have alleged

# 10 names for 2 RS seats sent to central panel, says Assam BJP chief Kalita

**PTI n GUWAHATI**

Assam BJP president A Bhabesh Kalita said on Monday that 10 members have applied for nominations in two Rajya Sabha seats that have fallen vacant in the state.

All the names are being forwarded to the central parliamentary committee for a final decision, he said.

Speaking to reporters after a state election committee meeting of the party here, Kalita said, "For the two Rajya Sabha seats from the state that have fallen vacant, we have received 10 applications from our senior and esteemed members."

Among those seeking party tickets are former Union minister Rameswar Teli, ex-MPs Rajdeep Roy and Topon Gogoi, incumbent MLA Manab Deka and former MLA Mission Ranjan Das.

"The state election committee meeting, attended by Union minister Sarbananda Sonowal, CM Himanta Biswa Sarma and state in-charge

Harish Dwivedi, among others, discussed the matter in detail. We have decided to forward all the names to the central parliamentary committee for a final decision," Kalita said.

The two seats have fallen vacant following the election of Sonowal and Kamakhya Tassa to the Lok Sabha.

Assam has seven seats in the Upper House, of which six are currently held by the BJP-led ruling alliance, with the saffron party having four seats and one each by its allies AGP and UPPL. One seat is held by an Independent MP.

# Four Bangladeshis prevented from entering Assam, says Himanta

**PTI n GUWAHATI**

Assam Chief Minister Himanta Biswa Sarma on Monday said police prevented four Bangladeshis nationals from entering India illegally through Karimganj district.

"This morning at 1:30 am, Bangladeshis citizens identified as Motiur Seikh, Mushiar Mullah, Tania Mullah, and Rita Mullah attempted to enter India through the Karimganj sector of the India-Bangladesh border," he said in a post on X.

"However, police effectively intervened at the zero point and promptly repelled them, preventing their unauthorized entry," Sarma added.

The CM had earlier said that the situation in Bangladesh is

a matter of concern for the Northeast from two angles, with people likely to enter through the border and the neighbouring country might also again become a hub of insurgents from the region.

He had maintained that the borders are secure with the state government maintaining a strict vigil and, as of now, nobody has been allowed to cross into the country from Bangladesh except those who have valid passport, visa and are bonafide citizens of India.

Director General of Assam Police GP Singh had said that a high alert has been issued along the Indo-Bangladesh border to ensure that no person can enter the state illegally, with BSF as the first line of defence along the border and the Assam Police as the second line.

# Incessant rain affects life in Rajasthan

**PTI n JAIPUR**

Continuous rain has affected life in many districts of Rajasthan, including the capital Jaipur.

In the last 24 hours, a record 118 mm rainfall has been recorded in Jaipur and the spell is still continuing. A holiday has been declared in schools in many districts, including Bharatpur, Karauli, Dausa and Sawai Madhopur.

It has been raining intermittently in the state capital since Sunday afternoon. Heavy rains started at around 5 am on Monday in many areas and continued intermittently till 9 am. Due to this, many low-lying areas were flooded. People were virtually locked in their homes.

In view of heavy rains, the Education Department has declared a holiday in schools on Monday in many districts, including Jaipur.

According to the Meteorological Centre Jaipur,

118 mm rainfall was recorded at the Jaipur airport during the 24 hours till 8:30 am on Monday.

Amid rains in many districts of the state for many days and warnings of monsoon remaining active for the next several days, Chief Minister Bhajan Lal Sharma held a meeting of senior officials on Sunday.

He directed them to provide all possible and quick relief in the affected areas and to focus

remaining active in many parts of Jaipur, Bharatpur, Ajmer, and Kota divisions of eastern Rajasthan for the next four-five days and heavy to very heavy rains at some places.

Also, there is a strong possibility of moderate and heavy rains in most parts of the Bikaner division of western Rajasthan for the next three-four days.

From June 1 to Aug 12, Rajasthan has recorded 40 per cent more rainfall than the normal. The normal rainfall recorded during the corresponding period in the state is 283.9 mm, which has been 397.8 mm this year.

Western Rajasthan has recorded 56 per cent more rainfall than the normal, whereas eastern Rajasthan recorded 31 per cent more rainfall. According to MeT department data.

Except Dungarpur and Banswara, almost all districts have recorded normal to excess rainfall.

# MP BJP working panel member arrested after he 'misbehaves' with CM Yadav's OSD

**PTI n BHOPAL**

Madhya Pradesh BJP working committee member has been arrested after he allegedly created a ruckus and misbehaved with the Officer on Special Duty (OSD) to Chief Minister Mohan Yadav at a party function here, a police officer said on Monday.

Harendra Bahadur Singh, according to a police complaint filed by Naib Tehsildar Nimesh Pandey, hurled abuses, created rumpus and misbehaved with his boss, chief executive officer (CEO) of the Atal Bihari Vajpayee Institute of Good Governance and Policy Analysis, Lokesh Sharma, at the BJP function organised at the institute on Saturday, he said.

Besides heading the state government-run institute, Sharma is also the OSD to

CM at the secretariat, a close aide of Yadav confirmed to PTI. "We served Singh a notice after registering a case and summoned him to the police station on Sunday where we arrested him," the police officer said.

Singh has been charged with abusing, threatening and trying to obstruct a government officer in discharging his duty, Kamla Nagar police station inspector Nirupa Pandey said. Singh was produced before the Assistant Commissioner of Police's court which sent him to judicial custody the previous day.

The state BJP working committee member was upset over some issue relating to his daughter's job at a facility (run by the MP government), the police said. In the recent LS polls, the BJP won all the 29 seats in Madhya Pradesh.

# Preserving natural habitats for elephants helps reduce human-elephant conflict: Karnataka CM

**PTI n BENGALURU**

Preserving the natural habitats for the elephants will reduce the human-elephant conflicts that we are witnessing at an alarmingly high rate, said Karnataka Chief Minister Siddaramaiah on Monday.

He was speaking after inaugurating an international conference that coincides with World Elephant Day. The two-day conference on human-elephant conflict management, which aims to tackle the increased human-elephant conflicts, was

organised by the Karnataka Forest department.

The conference will see forest department officials from across India sharing knowledge with academic researchers and civil society organisations to bring about evidence-based inclusive approaches to human-elephant conflict solutions.

At the inaugural event, Siddaramaiah said Karnataka in particular is susceptible to increased human-elephant conflicts as the state has the highest elephant population with 6,395 elephants, which makes approximately 25 per

cent of the nation's total elephant population.

"With Karnataka's significant elephant population comes the inevitable challenge of human-elephant conflict. In the last 10 years, the state reported over 2,500 incidents of human-elephant conflicts, resulting in over 350 human fatalities and substantial crop losses," said the CM.

According to him, the conference is a critical platform where to exchange ideas, explore scientific solutions, and foster international collaboration to address the problem.

"As climate change raises temperatures and changes rainfall patterns, resources become even more scarce and elephants get pushed into new areas, including communal lands. Humans face their own challenges as they must move deeper into elephant territory to collect water or firewood," said Siddaramaiah. Therefore, he said this is a challenge with significant ecological, social, and economic implications.

In that context, he said the international conference presents an invaluable opportunity to learn from

one another, explore innovative scientific solutions, and discuss sustainable approaches to fostering coexistence between humans and elephants.

"I am confident that the distinguished delegates present here will contribute valuable insights and recommendations to pave the way for a harmonious coexistence between humans and elephants," he added.

Eshwar B Khandre, Karnataka's Forest, Ecology & Environment Minister who was also present for the

inaugural session on Monday, reiterated that the conference is an attempt towards developing a robust mechanism to address the pressing issue of human-elephant conflict.

"When the idea of the conference was initially floated to me, I was very intrigued by it. I was excited by the prospect that we'll have a chance to come across so many new ideas and setups, which can open up a whole lot of possibilities for us with regards to the conservation of elephants," added the minister.

PAPER WITH PASSION

## Capital of monsoon misery

Thee national capital grapples with waterlogging and a host of issues that accompany the rains

**T**S Eliot wrote, "April is the cruellest month..." in his famous poem *The Waste Land*. He was, of course, speaking of a different context and place, but one might wonder if he would have felt the same had he experienced Delhi in August. This year has brought a good monsoon, but for Delhiites, heavy downpours rarely bring good news. They must brace themselves for waterlogging, traffic snarls, a host of diseases, unclean water, power failures, and what have you. Streets turned into rivers, traffic reached a standstill, and daily life was thrown into disarray. The scene is all too familiar, a recurring nightmare that haunts the city every monsoon. But why does Delhi, with its sprawling infrastructure and resources, continue to grapple with such chaos year after year? More importantly, what can be done to mitigate this annual misery? Heavy rainfall over the past 24 hours has left several key areas in Delhi, including Connaught Place, Minto Road, and the Ring Road, severely waterlogged. Commuters faced long hours in traffic jams, and pedestrians struggled to navigate the flooded streets. The drainage system, overwhelmed by the sheer volume of water, failed to cope, leading to a cascading series of problems: halted public transport and power outages.

The residents of low-lying areas are the worst hit, with water entering homes and causing significant damage to property and belongings. Unfortunately, it's an annual ritual: heavy monsoon showers overwhelm the infrastructure, bringing the city to a standstill. The blame game ensues, followed by knee-jerk responses and funds allocated for improvements. Yet, by the next year, those efforts are washed away, leaving the city again

at the mercy of the weather gods. It is not rocket science to find the root cause of the problem and even fix it. Surely, the authorities would know that but the execution plan is missing. Despite being a metropolitan hub, Delhi's drainage system is outdated and poorly maintained. Besides, rapid and often haphazard urban development has led to the encroachment of natural water bodies and green spaces. These areas, which once absorbed excess rainwater, have been replaced by concrete structures, exacerbating the problem of water runoff. There is an urgent need to remove those encroachments and upgrade the drainage system. But unfortunately, urban planning in Delhi often happens in silos, with little coordination between different departments. This lack of an integrated approach has led to a situation where roads are built without adequate drainage. Delhi needs a multifaceted approach that addresses both the immediate challenges and long-term vulnerabilities: Utilising smart city technologies, such as real-time monitoring of drainage systems and predictive weather modelling, can help in better preparedness and response to heavy rains. While heavy rains are a natural phenomenon, the resulting waterlogging and disruption are largely man-made problems. To tackle this issue, concrete measures and decisive actions must be taken immediately.

# Progress depends on retentiveness

J S RAJPUT

Today, as political discord echoes through our democracy, I find myself reflecting on those dark days of Emergency and the enduring wounds inflicted on our nation's soul

**I**t was only in 1956 that I got some idea of how the Constitution of India was framed, and who were the major personalities that constituted the historic Constituent Assembly. The teacher who introduced me to it was a great admirer of Mahatma Gandhi and adored Pandit Nehru and Neta Ji Subhash Chandra Bose. The library had a copy of the constitution of India having the signatures of all of the members of the Constituent Assembly and also images representing Indian culture and heritage. We learnt the Preamble by heart. This teacher-created interest amongst students interested in dramatics, and after hectic preparation of a couple of weeks, a mock Constituent Assembly was enacted in the presence of a huge gathering.

This young teacher was also confident that the ancient Indian culture now be resurrected, and the entire world would know how advanced Indians were in 'thought and deed'. In 1975, I read the constitution in all seriousness, and witnessed how it was being mercilessly mutilated! After nearly five decades, as one peruses the print and electronic media, one witnesses a slugfest between the union government and the opposition, it makes one reflect on the emergency days, and one just can't avoid reflecting on the 18 months of democratic darkness that shattered the lives of millions of the people. It ruined the credibility of Indian democracy internationally. No apology could erase the wound inflicted on the constitution and the humiliation of the stalwarts who created the constitution of India. Was it not a shameless humiliation inflicted on Baba Sahib Bhim Rao Ambedkar? He had repeatedly opposed the inclusion of the term 'secular in the Preamble of the Constitution. How could any active and alert citizen forget the fact that the 44th Constitution Amendment Act was passed by a Parliament that was in its arbitrarily-extended sixth year? Practically all of the opposition stalwarts were in jail! Today, any voice that says 'I want my

original Preamble back' should be deciphered in the spirit it deserves to be comprehended in its objectivity. It could certainly be a great tribute to Dr Baba Sahib Ambedkar! This correction would offer a healing touch to persons like me who had witnessed the emergency and also - to a great extent - to those who had suffered damages of an irreversible nature. Let me narrate a personal experience. One senior academic was appointed head of a regional institute in Bhopal in December 1974. In August 1975, he was asked to report to report to his central office New Delhi next day 'for consultations'. I was number two in the institutional hierarchy and had become a full Professor just a year back in August 1974. I assisted him in preparing certain project proposals he would carry that evening for obtaining sanction from New Delhi. The next morning, I received a 'lightening call' to take over as Head of the institution immediately, as the incumbent stood removed from his position. It was shocking, and I was just not ready to comply. I was advised by all my well-wishers including those from senior bureaucracy and police services to quietly 'take over', without in any way indicating unwillingness.

NO APOLOGY  
COULD ERASE  
THE WOUND  
INFLECTED  
ON THE  
CONSTITUTION  
AND THE  
HUMILIATION  
OF THE STALWARTS  
WHO CREATED THE  
CONSTITUTION  
OF INDIA.  
WAS IT NOT A  
SHAMELESS  
HUMILIATION  
INFLECTED  
ON BABA SAHIB  
BHIM RAO  
AMBEDKAR?

On return, the summarily sacked academic described the ordeal he suffered. As he was to reach the designated office, a peon was waiting with a letter that he swiftly handed over, obtained his signatures on the peon book, and vanished! I got instructions to ensure that no one even meets him! I insisted that the head of an academic institution should not be humiliated before his students. A lady bureaucrat from the New Delhi office reposed faith in me, but told me that only I, and I alone, would be responsible for any mishap that may occur, and its consequences. The academic who was humiliated and removed never got justice during his remaining lifetime of around two decades. Those who would not like even a mention of emergency could recall how strongly India was proud of the persona of that great intellectual and jurist Nani Palakkhivala. He had refused the brief from Mrs Indira Gandhi and fought for the constitution in draconian conditions. His reflections on emergency shall remain ever-relevant: "No period in the history of our republic is of more educational value than 1975 to 1977. George Santayana said, 'Progress far from consisting

in change, depends on retentiveness... Those who cannot remember the past are condemned to repeat it. If our basic freedoms are to survive, it is of vital importance that we remember the happenings during emergency when the freedoms were suspended'. Is it necessary to 'fight facts' to negate the truth? What we witness all around us in the world of the current-day average politicians was envisioned by Sri Aurobindo in his lifetime: "The modern politician in my part of the world does not represent the soul of a people or its aspirations. What he does usually represent is all the average pettiness, selfishness, egoism, self-deception that is about him and these he represents well enough as well as a great deal of mental incompetence and moral conventionalism, timidity and pretence". All of these attributes have grown up in gigantic proportions in our times. The only way out is the sincere acceptance of diversity of every imaginable hue, and revert back to the great dialogical tradition. The adults and elders must realize what the young of India are getting from them in the years of their growing up! (Professor Rajput works in education, social cohesion and religious amity; views are personal)

## LETTERS TO THE EDITOR

### QUIT INDIA MOVEMENT REMEMBERED

**Madam** — Mahatma Gandhi's relentless efforts were instrumental in India's journey to independence. From the 1930 Dandi March to the 1942 Quit India Movement, Gandhi's leadership was pivotal in challenging British rule. On August 9, 1942, India embarked on a crucial new phase in its fight for freedom—a mass uprising against colonial rule that heralded the imminent end of the British Empire in India. Although Gandhi and the Congress leadership were imprisoned on August 8, the call to "Quit India" ignited a nationwide movement. With the leaders behind bars, the people took to the streets, driven by Gandhi's urgent call to action. Their resolve and sacrifice laid the groundwork for India's eventual independence, a testament to their undying commitment to freedom and self-determination.

Jayanthi Subramaniam | Mumbai

### PM VISIT REASSURES WAYANAD

**Madam** — On Saturday, the Prime Minister visited Wayanad, a region recently struck by an unprecedented disaster that claimed around 400 lives and forced thousands into relief camps. His visit uplifted the spirits of the disillusioned and distressed and fostered the hopes. Their eyes were filled with tears emotionally as they recounted their ordeals to him. The visit also expedited the rehabilitation process, with authorities working tirelessly to restore normalcy, as the Prime Minister promised to provide all possible assistance. This gesture has won the hearts of the people, and such initiatives are now expected in the future. In the aftermath of the Prime Minister's visit, the people of Wayanad find themselves not only comforted by his empathy but also reassured by his commitment to their recovery. The renewed hope in their eyes speaks to the power of genuine leadership in times of crisis. As the region begins to rebuild, the memory of this visit will linger, a reminder that in the face of

### Bangladesh on boil

This is in response to the news article, "Bangladesh: Uncertainty and Chaos Grip the Nation" (August 10). The recent vio-

lence in Bangladesh has tragically impacted hundreds of Hindus. The growing relationship between Bangladesh and India under Sheikh Hasina's leadership has become intolerable to Islamic fundamentalists in the region. Targeting Hindus as part of the anti-national movement in Bangladesh could backfire on the newly elected interim government led by Mohammad Yunus. This unrest is likely to have negative repercussions on the yarn trade between India and Bangladesh. Unfortunately, international human rights organizations have remained silent in the face of these atrocities against minorities. It is imperative to take immediate action to stop the violence against Hindus in Bangladesh. The call for Hindu unity is resonating strongly both within the country and abroad.

Yugal Kishore Sharma | Faridabad

### RAHUL GANDHI'S EVOLUTION

**Madam** — Apropos the article, "The Evolution of Rahul Gandhi," published on August 8, this is my response. Rahul Gandhi, once mocked by Prime Minister Narendra Modi and his supporters as "Pappu" and an "entitled dynast," staged a remarkable comeback in the 2024 general elections. He became the central figure of an alliance that successfully penetrated BJP strongholds, particularly in Uttar Pradesh. As the heir to India's renowned Nehru-Gandhi political dynasty, Rahul Gandhi led two nationwide marches against what he termed Modi's politics of hate and fear, revitalizing his Congress party and redefining his own public image. Rahul Gandhi has repeatedly emphasized that his fight against Modi's BJP is not merely about seizing power but about challenging the party's and the RSS's "Hindu-first" ideology, which contradicts India's secular principles as outlined in

Jakir Hussain | Kanpur

adversity, they are not alone. the Constitution. The results of the last general election significantly boosted Rahul Gandhi's morale, prompting people to view him more positively and take him seriously as a leader. They have come to recognize him as a leader focused on real-life issues—such as unemployment, women's safety, the violence in Manipur, NEET exam paper leaks, rising prices of gas cylinders, petrol, and diesel, and caste-related issues. Most importantly, he is seen as the one who will uphold the spirit of secularism in the nation. These factors have collectively reshaped public perception of Rahul Gandhi. Now, having emerged stronger and as the Leader of the Opposition with substantial support from Opposition MPs in Parliament, Rahul Gandhi, known for his oratory skills, is poised to present significant challenges to Mr. Modi and his party in the days ahead on various issues facing the country.

## Revamping the English literature curriculum

Once a cornerstone of intellectual pursuit, English literature studies are now facing a troubling decline in popularity among students in India

**O**nce a most demanding course among youngsters, English literature studies has seen a significant decline in the past decade. In many colleges in India seats of B.Literature remain vacant despite its huge potential in this digital age. The policymakers and academicians should brainstorm the reasons and come out with concrete plans to overcome this dilemma. In India, many students see STEM (Science, Technology, Engineering, Mathematics) as a subject of intellect and opportunities, compared to humanities. Emerging fields like data science, artificial intelligence, and digital marketing are gaining popularity among students due to their perceived relevance and lucrative opportunities. This trend reduces the appeal of traditional literary studies. The perception that a degree in English offers limited career options and lower earning potential can deter students from pursuing it. This view is compounded by a lack of clear and well-promoted career pathways specifically tied to English studies. Many

English literature programs may have curricula that have not been updated to reflect contemporary literary trends and regional and global issues. The stress on Shakespearean and other literary works doesn't get connected to present-day society. Shakespearean plays and other classical works were written in very different historical and cultural contexts. The social norms, political structures, and everyday concerns of ancient times may seem foreign to modern readers. This historical gap can make it hard for students to see how the themes and issues of these works relate to their own lives. A focus on classic literature without integrating contemporary and diverse voices may alienate students who are more interested in

modern and global literary trends. The rise of digital media and alternative forms of entertainment, such as social media, video games, and streaming platforms, has altered reading habits. Students may be less inclined to engage with traditional literature due to these competing interests. Though science education reformation forms part of national policies, literature education rarely finds its place in national policies, though NEP stresses the need to undertake literary studies. To make literature more relevant and engaging, integrate a diverse range of texts. Include contemporary works from different cultures, genres, and perspectives. For instance, introducing novels, short stories, and poetry from emerging voices around the world, alongside regional literature, can provide students with a broader view of the literary landscape. Academicians should link literature with other fields such as history, psychology, sociology, and environmental studies. For instance, studying dystopian novels alongside discussions of climate sci-

ence and environmental issues can provide students with a deeper understanding of both the literature and the real-world issues it reflects. Thrust should be given to include components that prepare students for the job market, such as resume writing, interview skills, and networking opportunities. Connecting literature studies with science and other relevant fields will enhance career prospects. In the age of bots, literature students should even be taught the fundamentals of computer programming. Revitalising the literary syllabus necessitates a deliberate strategy that incorporates current issues, embraces digital and multimedia resources, fosters interdisciplinary linkages, and emphasises practical skills. Educational institutions can establish a literary program that is relevant and exciting for 21st-century students by using a variety of texts, utilising technology, and regularly updating the curriculum. ### CELEBRATING WORLD LEFT-HANDERS DAY

This day honours the 13 percent who navigate a world designed for the right-handed

RACHNA LAKHPATRI

The 13th of August is commemorated as World Left-Handers Day, a day dedicated to the 13% of the world's population who make do in a world that wasn't meant for them. To many of us, left-handedness is just a fascinating statistic, something we mention in passing or wonder at during a discussion. However, for those of us who lean left, this is a quiet, everyday rebellion against a world that expects us to fit in when we don't quite belong. From the moment we grip our first crayon, left-handers are thrust into a world where ease can be transformed into hand-to-hand combat.

Scissors bite painfully; pens spill over the paper; spiral notebooks are a tangle of discomfort. It's completely out of tune, like music played in a different key. However, this dissonance does not weaken us, but rather it strengthens us. In a world designed for right-handers, left-handers learn to improvise, create, and, eventually, prosper. This kind of adaptability lends itself to creativity, which is sometimes cited as a virtue among lefties. To us, however, creativity is more than just an artistic talent; it is a survival ability. Being left-handed means seeing the world from a different perspective and approaching difficulties with a different mindset.

Our brains are wired to think beyond the box because, honestly, the box was never meant for us in the first place. It is no surprise that left-handers such as Leonardo da Vinci, Nikola Tesla, and Marie Curie are among history's most recognised thinkers. They did not think differently; they saw differently, creating visions that changed our per-

ception of what is possible. However, it is not only about inventiveness. Being left-handed entails a quiet fortitude, borne of years of adjusting to a world that frequently forgets to include you. Each southpaw has a story to tell: awkward contortions in class, struggles with right-handed instruments, and ink-stained palms. However, these events do not diminish us; rather, they define us. They teach us how to be resourceful, to face challenges with fortitude, and to see beauty in the unexpected. Being rare has a mystical quality about it.

Being left-handed means standing out in a crowd, but more significantly, in life. It represents the fact that normalcy can be overvalued while the difference is powerful.

The left-handed intellect does not only accomplish what most others avoid; it frequently forges a new path where none previously existed. In art, science, sports, or leadership, a left-hander will do things differently, deviate from the norm, and transform the ordinary into remarkable. As we commemorate World Left-Handers Day, let us remember that being left-handed is much more than a biological quirk; it is a way of life, a sign of creativity, perseverance, and inventiveness that stems from a worldview that sees things not as they are, but as they could be.

Left-handers, living in a right-handed society, remind us that magic sometimes happens in the opposite direction. Here's to the lefties—the visionaries who prove that being different is not only acceptable but also remarkable. In celebrating World Left-Handers Day, we honor more than just a minority group—we recognize a testament to human adaptability and creativity. Left-handers remind us that thriving often means forging our own path, embracing differences, and finding strength in what sets us apart.

As we acknowledge the challenges lefties face, we also celebrate the unique perspective they bring to the world. Here's to the left-handers, whose quiet resilience and innovative spirit show us that being different isn't just okay—it's extraordinary.

# Can Muhammad Yunus micro manage Bangladesh

NILANTHA LANGAMUWA

As the world watches, the implications of this power shift resonate far beyond Dhaka's borders; the once peaceful country has plunged into anarchy

South Asia's youngest nation has been thrust into a new era following a four-day power vacuum, decisively crossing a point of no return. A new messiah has emerged to rule over 171 million people, arriving from Paris in a full-circle moment. Had Hasina remained in power, he would have been sentenced to life for corruption on the very day Hasina fled the country she had ruled for over 15 years. Nobel laureate Muhammad Yunus has assumed the role of head of the interim government. A 14-member interim government including a Hindu psychiatrist and a Buddhist human rights activist led by Prof. Yunus has taken charge.

Alarming, most of these members are heads of Western-funded NGOs, exposing the true manipulators behind the scenes. It was a nightmare for them to run their NGOs during Hasina's tenure, with many facing harassment, intimidation, and even imprisonment. Now, they have set their yardstick. Nobel laureate Prof. Yunus, who has received the Congressional Gold Medal and the Presidential Medal of Freedom, the highest civilian honours in the United States, illustrates the adage that, as Americans say, there's no such thing as a free lunch. The coming months will reveal how Dhaka's political shifts will reverberate across borders. Nearly 300 people have been killed in the post-Hasina period, with rampant looting, attacks on minorities, and intimidation of state institutions. Images show disturbing violence, including the burning of Hindu temples. The riots go beyond protests against the Awami League, revealing deeper conflicts. Simultaneously, one should not overlook the deep-rooted anti-India sentiments in Bangladesh and its diaspora, exacerbated by the 'India Out' campaign. Unfortunately, Delhi policymakers may have underestimated this sentiment and placed undue trust in Hasina.

It was a bloodbath, and the incidents that unfolded suggest it was a well-planned political scheme, executed promptly to overthrow Hasina—a time-tested leader, though surrounded by controversies. The humiliating destruction of Bangabandhu's statue starkly echoes the fall of Saddam Hussein's statue in Baghdad. Sheikh Mujibur Rahman, known as Bangabandhu, laid the foundation of Bangladesh with his political ideology and dedication during the struggle for independence. Despite overcoming initial challenges, fear has once again taken hold in the country. The chaotic situation exemplifies a state of total anarchy. This is not a revolution; revolutions are meant to improve the lives of people, not to indulge in bloodlust against unarmed citizens with opposing political viewpoints or religious beliefs. However, given the nation's violent history even before its inception, it seems to be passing through yet another despicable period.

Is this merely a student uprising, or is someone manipulating them behind the scenes to exploit the situation? When the political intelligentsia abstains from protests, reducing them to mere emotional outbursts, it fosters an environment ripe for the creation of new, equally monstrous situations. This cycle will inevitably doom us to repeat the same failures. The harrowing video of an unemployed youth wearing a black t-shirt being shot by a policeman only deepened the unrest. Hasina bears blood on her hands; whether direct-

DESPITE OVERCOMING INITIAL CHALLENGES, FEAR HAS ONCE AGAIN TAKEN HOLD IN THE COUNTRY. THE CHAOTIC SITUATION EXEMPLIFIES A STATE OF TOTAL ANARCHY. THIS IS NOT A REVOLUTION; REVOLUTIONS ARE MEANT TO IMPROVE THE LIVES OF PEOPLE, NOT TO INDULGE IN BLOODLUST AGAINST UNARMED CITIZENS

ly or through those who ordered lethal force against protesters, accountability is imperative. Thanks to India, Hasina narrowly escaped a fate akin to Muammar Gaddafi's. In the January elections, she set a trap with her abuse of power and legislative misogyny, even denying medical treatment to opponents. Her opponents seized on the quota issue as the tipping point. Although she addressed it, she failed to recognise it was merely a façade. Her inability to understand that 15 years is too long for any democracy to be managed alone highlights a grim historical lesson. However, history teaches us a valuable lesson: despite Ferdinand Marcos' ousting, his family's influence persisted, and in 2021, his son made a notable comeback in the Philippines. That's the nature of politics. Consequently, whoever comes to power next will face a challenging situation.

The manipulations behind these shocking events, which unfolded within a month while the Prime Minister was in China, may be revealed in the future, much like how America tried to obscure the genocide in Bangladesh (then East Pakistan) during the early 60s, with Henry Kissinger maintaining a political alliance with General Yahya Khan of Pakistan as a secret route to engage with China. Commenting on the situation, Secretary of State Antony Blinken, reflecting his country's global ambitions, urged the Bangladeshi people to ensure that 'any decisions made by the interim government need to respect democratic principles, uphold the rule of law, and reflect the will of the people.' This statement came shortly after the arrival of F-16 fighter jets in Ukraine, continued arms supplies to Israel, and the brutal killing of

Black woman Sonya Massey by law enforcement in her own home—just a few examples that highlight the contradictions in America's respect for the rule of law and international norms. Ironically, many have started comparing the situation in Bangladesh with Sri Lanka. However, there are significant differences between the unprecedented exit of the Bangladeshi Prime Minister this week and the relinquishment of power by President Gotabaya Rajapaksa in Sri Lanka two years ago. One key factor was India's attitude, which was drastically different in these cases.

Reliable sources with knowledge of the events in Sri Lanka have asserted that India believed Gotabaya Rajapaksa should not resign but should stay in power. This stance resulted in no airlift facilities being provided for a safe exit, forcing the then-President to flee to the Maldives in an over-50-year-old Air Force plane. In contrast, Prime Minister Sheikh Hasina of Bangladesh received swift support from India. Second, Gotabaya Rajapaksa came to power through free and fair elections with a significant majority, whereas Sheikh Hasina was re-elected after a series of repressions against opposition political parties. Her handling of the elections reflected growing public displeasure. Winning over regional powers and maintaining their support certainly made her powerful and influential.

Her development projects offered to India, China, Russia, and Japan highlighted bold decisions in her foreign policy. She effectively balanced both India and China, showcasing her capability more effectively than any other South Asian leader in contemporary political history. However, a com-

mon trait between these two leaders is their stance on China. Despite unprecedented pressure from the West, both leaders continued to work harmoniously with China. For instance, when Mike Pompeo, then Secretary of State and former CIA Director, criticised China during his visit to Colombo, President Rajapaksa directly told him that "the opinion held by America against China in Sri Lanka is factually wrong." Since then, Rajapaksa's politics began to crumble, pointing to the decisions he made and the protests that followed.

Similarly, after successfully concluding a visit to India right after Modi's re-election, Hasina flew to China to initiate more Chinese-funded development projects. By then, her fate at home was already sealed. In this context, Elon Musk's recent comment on Venezuela is apt: 'We will coup whoever we want! Deal with it.' Amidst the social media spectacle dominated by profit-driven motives and emotionally manipulative politics, the unemployed youth who ignited change in Bangladesh may soon face this harsh reality. Western ambitions in unstable countries often focus on destruction and manipulation through proxies rather than genuine improvements in livelihoods. The new interim government may well understand this realpolitik. With Hasina's downfall, the direction of the interim government's foreign policy and its approach towards the Global South, including BRICS, remains uncertain. While it may be premature to fully assess this interim arrangement, the situation poses a significant challenge for India, China, and Asia as a whole.

## Pushpanjali Medicon 2024: Top doctors share insights on health and wellness

This unique medical conference covered topics ranging from liver health to the often-overlooked connection between sex and wellness

It's not every day that you see India's top medical professionals gathering under one roof to discuss various health conditions and offer advice on leading a healthy life. This rare opportunity drew people of all ages in large numbers to the capital, eager to hear the insights and wisdom of these renowned doctors.

VIVEK SHUKLA

Acute Kidney Injury, Headache Management, the Mystery of Dizziness, Suicide Prevention, Fatty Liver, and issues of reproductive health.

The event saw the participation of leading doctors from the capital and various states such as Mumbai, Punjab, Tamil Nadu, Uttar Pradesh, Haryana, and beyond. One of the most anticipated sessions was led by Dr. Shiv

Kumar Sarin, a distinguished clinician and gastroenterologist, who captivated the audience with his talk on maintaining liver health. Dr. Sarin emphasised the liver's critical role as the controller and fulcrum of our metabolic well-being, comparing it to a chartered accountant that keeps a meticulous record of our body's intake and expenditure. He highlighted how any surplus, whether from genetic factors or excessive calorie consumption, can lead to fatty liver disease.

This condition forces the pancreas to produce more insulin, which can eventually result in diabetes. Moreover, the excess fat in the liver doesn't just stay there; it circulates through-

out the body, potentially leading to complications such as gallstones. Another notable speaker, Dr. Rajeev Sood, the newly appointed Vice-Chancellor of Baba Farid University of Health Sciences and former Dean of Dr. Ram Manohar Lohia Hospital and PGIMER in Delhi, shared his expertise on managing prostate health. His session provided valuable insights into a topic that is often overlooked but crucial for men's health, particularly as they age.

One of the most engaging sessions was on the topic "Sex Has No Expiry Date," delivered by Dr. Deepak Jumani, a Mumbai-based expert in sexual health. Dr. Jumani spoke with remarkable eloquence on a subject

that is rarely discussed openly, especially in such forums. He stressed the undeniable link between sex and overall health, arguing that sexual activity is one of the

most vital biological functions, essential for a fulfilling life. Addressing a packed audience, Dr. Jumani asserted that sexual pleasure is both a personal business

and a fundamental right, emphasizing that all sexual dysfunctions can be managed, allowing individuals of all ages to lead a sexually satisfying life.

The success of this unique health conference, where top doctors interacted with both medical professionals and the general public, is indeed a great achievement. The importance of conferences like Pushpanjali Medicon 2024 cannot be overstated.

Similar events must be held across the country. Dr. Aggarwal argues that such gatherings are vital for fostering closer ties between doctors, patients, and medical professionals. Healthcare conferences like Pushpanjali Medicon are

more than just formal events; they are epicenters of innovation and collaboration within the medical field. These gatherings offer invaluable networking opportunities with industry peers, critical for both personal and professional growth.

They also provide continuing Medical Education (CME) sessions that are essential for staying updated with the latest advancements in healthcare. Beyond the educational value, these conferences are inspiring and refreshing, offering a chance to recharge while gaining new insights and connections.

# Russians urged to flee Ukraine's cross-border attack

AP n KYIV

An official in the Kursk border region of Russia on Monday urged more residents to evacuate due to the "very tense situation" in the area, where Russian forces are still scrambling to respond to a surprise Ukrainian attack after almost a week of fierce fighting. Russia's emergency authorities say more than 76,000 people have fled their homes in areas of Kursk, where Ukrainian troops and armour poured across the border on August 6, reportedly driving as deep as 30 kilometers (19 miles) into Russia and sowing alarm. Ukrainian forces swiftly rolled into the town of Sudzha about 10 kilometers (6 miles) over the border after launching the attack. They reportedly still hold the western part of the town, which is the site of an important natural gas transit station. The Ukrainian operation is taking place under tight secrecy, and its goals — especially whether Kyiv's forces aim to hold territory or are staging a

raid — remain unclear. The stunning maneuver that caught the Kremlin's forces unawares counters Russia's unrelenting effort in recent months to punch through Ukrainian defences at selected points along the front line in eastern Ukraine. Russia has seen previous incursions into its territory during the nearly 2 1/2-year war, but the foray into the Kursk region marked the largest attack on its soil since World War II, embarrassing President Vladimir Putin and constituting a milestone in the hostilities. The advance has delivered a blow to Putin's efforts to pretend that life in Russia has largely remained unaffected by the war. State propaganda has tried to play down the attack, emphasizing the authorities' efforts to help residents of the region and seeking to distract attention from the military's failure to prepare for the attack and quickly repel it. Retired Gen. Andrei Gurulev, a member of the lower house of the Russian parliament, criticised the military for failing to

In this image from a surveillance camera provided by the Ukrainian Presidential Press Office, smoke rises from a cooling tower of the Zaporizhzhia Nuclear Power Station in a Russia-controlled area in the Enerгодар, Zaporizhzhia region of Ukraine. AP/PTI

properly protect the border. He noted that while the military has set up minefields in the border region, it has failed to deploy enough troops to block enemy raids. "Regrettably, the group of forces protecting the border didn't have its own intelligence assets," he said on his messaging app channel. "No one likes

to see the truth in reports, everybody just wants to hear that all is good." Pasi Paroinen, an analyst with the Finland-based Black Bird Group open-source intelligence agency, which monitors the war, said the toughest phase of Ukraine's incursion is likely to begin now as Russian reserves enter the fray.

He said that "if the Ukrainians are going to advance any further from where they are now, it's going to be a tough battle, unlike the opening moments of this offensive". Ukraine's progress on Russian territory "is challenging the operational and strategic assumptions" of the Kremlin's forces, according to the

Institute for the Study of War. It could compel Russia to deploy more military assets to the long border between the two countries, the Washington-based think tank said in an assessment late Sunday. It described the Russian forces responding to the incursion as "hastily assembled and disparate". The International Atomic Energy Agency said a fire near Ukraine's Russian-occupied Zaporizhzhia Nuclear Power Plant had "no impact" on the facility's safety. Radiation levels are unchanged at what is one of the 10 biggest nuclear plants in the world, the UN body said. Russia and Ukraine blamed each other for the blaze at a cooling tower outside the plant's perimeter, and the IAEA chief said late Sunday that the war continues to imperil the Zaporizhzhia facility. "These reckless attacks endanger nuclear safety at the plant and increase the risk of a nuclear accident. They must stop now," Rafael Mariano Grosse said.

# Putin: Attempt to stop Moscow's offensive

AP n KYIV

Russian President Vladimir Putin said on Monday that the Ukraine army's incursion into the Kursk region, which has caused more than 100,000 civilians to flee, is an attempt by Kyiv to stop Moscow's offensive in eastern Ukraine's Donbas region. Speaking at a meeting with top security and defense officials, Putin said the attack that began last Tuesday appeared to reflect Kyiv's attempt to gain a better negotiating position in possible future talks to end the war. He argued that Ukraine may have hoped to destabilize the domestic situation in Russia, adding that it has failed to achieve the goal, and claimed that the number of volunteers to join the Russian military has increased. He said the Russian military is driving on with its eastern Ukraine offensive. Russia has seen previous incursions into its territory during the nearly 2 1/2-year war, but the foray into the Kursk region

marked the largest attack on its soil since World War II, embarrassing President Vladimir Putin and constituting a milestone in the hostilities. It is also the first time the Ukrainian army has spearheaded an incursion rather than pro-Ukraine Russian fighters. The combat inside Russia rekindled questions about whether Ukraine was using weaponry supplied by NATO members. Some Western countries have balked at allowing Ukraine to use their military aid to hit Russian soil, fearing it would fuel an escalation that might drag Russia and NATO into war. Though it's not clear what weapons Ukraine is using across the border, Russian media widely reported that US Bradley and German Marder armoured infantry vehicles were there. It was not possible to independently verify that claim. Ukraine has already used US weapons to strike inside Russia.

# Pentagon moves submarine to Middle East

AP n WASHINGTON

US Defense Secretary Lloyd Austin has ordered a guided missile submarine to the Middle East and is telling the USS Abraham Lincoln aircraft carrier strike group to sail more quickly to the area, the Defense Department said Sunday. The moves come as the US and other allies push for Israel and Hamas to achieve a cease-fire agreement that could help calm soaring tensions in the region following the assassination of Hamas political leader Ismail Haniyeh in Tehran and a senior Hezbollah commander in Beirut. Officials have been on the lookout for retaliatory strikes by both Iran and Hezbollah for the killings, and the US has been beefing up its presence in the region. Maj. Gen. Pat Ryder, Pentagon press secretary, said in a statement that Austin spoke with Israeli Defense Minister Yoav Gallant earlier in the day, and reiterated America's commitment "to take every possible step to defend Israel and noted the strengthening of US military force posture and capabilities throughout the Middle

East in light of escalating regional tensions." The Lincoln, which has been in the Asia Pacific, had already been ordered to the region to replace the USS Theodore Roosevelt aircraft carrier strike group, which is scheduled to begin heading home from the Middle East. Last week, Austin said the Lincoln would arrive in the Central Command area by the end of the month. It wasn't clear Sunday what his latest order means, or how much more quickly the Lincoln will steam to the Middle East. The carrier has F-35 fighter jets aboard, along with the F/A-18 fighter aircraft that are also on carriers. Ryder also did not say how quickly the USS Georgia guided missile submarine would get to the region. He said Austin and Gallant also discussed Israel's military operations in Gaza and the importance of mitigating civilian harm. The call comes a day after an Israeli airstrike hit a school-turned-shelter in Gaza early Saturday, killing at least 80 people and wounding nearly 50 others, Palestinian health authorities said, in one of the deadliest attacks of the 10-month Israel-Hamas war.

# Israel widens evacuation orders in southern Gaza

AP n DEIR AL-BALAH

The Israeli military ordered more evacuations in southern Gaza early Sunday, a day after a deadly airstrike on a school-turned-shelter in the north killed at least 80 Palestinians, according to local health authorities. The airstrike was one of the deadliest attacks in the 10-month war. Hamas appeared to push back against resuming negotiations on Thursday on any new cease-fire proposals. In a statement, it urged mediators United States, Egypt and Qatar to submit a plan to implement what was agreed on last month, based on US President Joe Biden's proposal, "instead of going to more rounds of negotiations or new proposals that provide cover for the occupation's aggression." Israel has repeatedly ordered mass evacuations as its troops return to heavily destroyed areas where they previously battled Palestinian militants. The vast majority of Gaza's population of 2.3 million people have been displaced, often multiple times, in the besieged territory 25 miles (40 kilometers) long by about 7 miles (11 kilometers) wide. The latest evacuation orders

apply to areas of Khan Younis, Gaza's second-largest city, including part of an Israeli-declared humanitarian zone from which the military said rockets had been fired. Israel accuses Hamas and other militants of hiding among civilians and launching attacks from residential areas. The humanitarian zone has steadily shrunk during the war with the various evacuation orders. Hundreds of thousands of people have crammed into squalid tent camps with few public services or sought shelter in schools, though the United Nations says hundreds of those have been directly hit or damaged. Khan Younis suffered widespread destruction during an air and ground offensive earlier this year. Tens of thousands fled again last week after an evacuation order. The new order came in leaflets dropped from the sky. As smoke rose on the horizon, hundreds of families carrying belongings in their arms left homes and shelters, seeking elusive refuge. One child carried a stuffed Hello Kitty doll as others walked through rubble-filled streets. "We don't know where to go," said Amal Abu Yahia, a moth-

er of three, who had returned to Khan Younis in June to shelter in their severely damaged home. It was the fourth displacement for the 42-year-old widow, whose husband was killed when an Israeli airstrike hit their neighbors' house in March. She said they went to Muwasi, a sprawling tent camp along the coast, but couldn't find space. Ramadan Issa, a father of five in his 50s, fled Khan Younis with 17 members of his extended family, joining hundreds of people walking toward central Gaza. "Every time we settle in one place and build tents for women and children, the occupation comes and bombs the area," he said, referring to Israel. "This situation is unbearable." Gaza's Health Ministry, which doesn't distinguish between civilians and combatants, says the Palestinian death toll from the war is approaching 40,000. Aid groups have struggled to address the staggering humanitarian crisis, while international experts have warned of famine. The war began when Hamas-led militants burst through Israel's defenses on October 7 and rampaged through farm-

ing communities and army bases near the border, killing around 1,200 people — mostly civilians — and abducting around 250 people. Of the roughly 110 remaining hostages, Israeli authorities believe around a third are dead. The conflict has threatened to trigger a regional war, as Israel has traded fire with Iran and its militant allies across the region. "I hope that they will think this through and won't get to a point where they will force us to cause significant damage and increase the chances of war breaking out on additional fronts," Israeli Defense Minister Yoav Gallant said Sunday. US Defense Secretary Lloyd Austin spoke to Gallant on Sunday, reiterating America's commitment to defend Israel and noting the strengthening of the US military force posture and capabilities in the region, according to the Defense Department. It noted Austin has ordered a guided missile submarine to the Middle East and is telling the USS Abraham Lincoln aircraft carrier strike group to sail more quickly to the area. The Lincoln was expected in the region by month's end.

# Pro-democracy HK activists fail to get relief in 2019 case

AP n HONG KONG

Seven of Hong Kong's most prominent pro-democracy activists lost their final bid to overturn their convictions at the city's top court on Monday over their roles in one of the biggest anti-government protests in 2019. Jimmy Lai, founder of the now-defunct Apple Daily newspaper; Martin Lee, the founding chairman of the city's Democratic Party; and five former pro-democracy law-makers were found guilty in 2021 of organising and participating in an unauthorised assembly. Their convictions dealt a blow to the city's flagging pro-democracy movement during a political crackdown on dissidents following the protests. Last year, the activists partially won their appeal at a lower court, with their convictions quashed over the charge of organising an unauthorised assembly. But their convictions over taking part in the assembly were upheld and they continued their legal battle at the city's top court. On Monday, judges at the Court of Final Appeal ruled against their appeal over the remaining convictions.

The convictions were linked to their involvement in a rally in August 2019 that drew an estimated 1.7 million people onto Hong Kong's streets to call for greater police accountability and democracy. The march was relatively peaceful compared to other protests that often morphed into violent clashes between police and protesters that year. Hong Kong, a former British colony, returned to China in 1997. Its mini-constitution, the Basic Law, guarantees its people freedom of assembly. When sentencing the seven activists in 2021, a judge at the District Court ruled that the right to such freedom is not absolute and is subject to restrictions ruled constitutional. She ordered Lai, Lee Cheuk-yan, Leung Kwok-hung and Cyd Ho to be jailed between eight and 18 months. Martin Lee, Margaret Ng and Albert Ho were given suspended jail sentences. When the appellate court partially overturned their convictions in 2023, it quashed part of the sentences for the four who were given jail terms on the record. The decision was made after they already served out their sentences.

# Harris gains ground in key states, continues her fundraising spree

PtI n WASHINGTON

Democratic presidential candidate Kamala Harris has voiced confidence in winning the November 5 general elections against her Republican rival Donald Trump, as she gained ground nationally and in several key battleground states. US Vice President Harris, who is of both Indian and African origin, continues to be on a fundraising spree, taking her campaign coffers to an unprecedented level. The 59-year-old Democratic leader has also been attracting a record crowd in her rallies. "We will win this election," Harris told a fundraiser in San Francisco on Sunday in which she amassed USD 12 million

more for her presidential bid. The fundraiser was attended by around 700 donors, including several prominent Indian-Americans. In less than a month of her being on top of the Democratic Party ticket, after incumbent President Joe Biden decided to withdraw from the race, Harris has nearly wiped out the national lead of her Republican rival and former president Trump. According to Real Clear Politics, which monitors all the major national and state polls, Harris is now leading Trump by 0.5 percentage points in an average of all the national polls. Harris has also surged ahead in two battleground states, Wisconsin and Michigan,

where Biden was trailing earlier, as per Real Clear Politics. The latest poll by The New York Times said that Harris is leading in three key states - Pennsylvania, Wisconsin and Michigan — by four percentage points. Harris told the donors in San Francisco that she is not taking any chances. Speaking about the enthusiasm behind her campaign, Harris said she's "never been one to really believe in the polls, whether they're up or they are down." Still, "what we know is the stakes are so high. And we can take nothing for granted at this moment," she said. "It's really been a good couple of weeks, but we have a lot of work to do," Harris said.

"The people are ready to use their power," she said. The energy around the country is "undeniable," she added, arguing, "The press and our opponents like to focus on our crowd size, and, yes, the crowds are large." But even better is that attendees are signing up for volunteer shifts in the thousands, she noted. On Saturday, Harris and her running mate, Minnesota Governor Tim Walz, addressed more than 12,000 Nevadans — one of the largest political rallies in modern Nevada political history. The rally marked the final stop on a weeklong tour of battleground states launched after she picked Walz to be her running mate.

# Major wildfire rages out of control on fringes of Greek capital

AP n ATHENS

A major forest fire was raging out of control on the northern fringes of the Greek capital Monday, triggering numerous evacuation orders for Athens suburbs and outlying areas as strong winds hampered the efforts of hundreds of firefighters and dozens of water-dropping planes. The blaze that began Sunday afternoon was racing through pine forests left tinder-dry by repeated heat waves this summer. June and July of this year were the hottest months ever recorded in Greece, which also recorded its warmest winter ever. Authorities were faced with "an exceptionally dangerous fire, which we have been fighting for more than 20 hours under dramatic circumstances," Climate

Crisis and Civil Protection Minister Vassilis Kikilias said mid-morning Monday. The fire was burning mainly on two separate fronts, with some parts in particularly difficult to reach areas on a mountain northeast of Athens, Kikilias said. The fire department said 685 firefighters, backed by 27 teams specially trained to tackle wildfires and including more than 80 armed forces personnel, were battling the flames. More than 190 vehicles were deployed, while 17 water-dropping planes and 16 helicopters were providing aerial support. A children's hospital, a military hospital, two monasteries and a children's home were evacuated early Monday, while more than two dozen emergency push alerts were sent to cellphones in the area. Several homes were burned, although the

exact number was not immediately clear. More evacuation orders were issued for suburbs of the capital as strong winds continued unabated. Fire Department spokesperson Col. Vassileios Vathrakogiannis said authorities had been faced with more than 40 flareups of the blaze since the early hours of Monday in areas where the flames had somewhat abated. Three Athens hospitals were put on heightened alert to treat any potential injuries. Paramedics and ambulances provided treatment to two firefighters — one for light burns and the other for breathing problems — while 13 civilians were also treated for breathing problems from the thick smoke, Vathrakogiannis said. Greece's coast guard ordered all ferries going to and from the

nearby port of Rafina, which serves mainly the Cycladic islands and Crete, to be diverted to the port of Lavrion due to the fire. Authorities in nearby suburbs opened at least one sports hall and were providing rooms in hotels for evacuees, while yet more suburbs were put on stand-by for potential evacuation. The police department said 380 police officers with 77 vehicles, 36 motorcycles, three buses and four vans were assisting in the evacuations, and by mid-morning had helped move more than 250 people away from the path of the flames. It posted a video on its social media channels showing police officers carrying elderly people in their arms out of houses and to waiting vehicles, against a backdrop of a night sky turned red from the flames and smoke.

# Democrats launch first paid ad campaign for the Harris-Walz ticket

AP n WASHINGTON

With a solidified presidential ticket stumping across the country and a massive amount of money to spend, the Democratic Party is targeting seven critical battleground states with paid advertising for Vice President Kamala Harris and Minnesota Gov. Tim Walz. The Democratic National Committee announced the Harris-Walz advertising push on Monday, which includes more than 70 billboards across the key battleground states: Arizona, Georgia, Michigan, North Carolina, Nevada,

Pennsylvania and Wisconsin. It's the ticket's first paid advertising blitz since Walz joined the campaign — and the first of many to come in areas that are poised to determine the outcome of the presidential election in November. The billboards will be in sever-

al key urban areas across the battleground states, such as Atlanta, Detroit, Charlotte and Philadelphia, according to the DNC. Many are set up along major interstates and highways, including Interstate 95 and Interstate 10. There is also an advertisement

— both in English and Spanish — in the Las Vegas strip, according to the DNC. "The DNC is blanketing the battlegrounds with a clear message: Vice President Harris and Governor Tim Walz are fighting for working people, and Donald Trump and JD

Vance are only out for themselves," DNC spokesperson Abhi Rahman said in a statement. The Harris-Walz campaign boasts significant fundraising numbers, pulling in USD 310 million in July and entering August with USD 377 million on hand. The Trump campaign in comparison raised more than USD 138 million last month and has USD 327 million to spend. The advertising push comes after Harris and Walz completed their battleground state tour last week, attracting exuberant crowds in places such as Pennsylvania, Wisconsin and

Arizona along the way. Their stop in North Carolina was postponed due to inclement weather from Tropical Storm Debby. Donald Trump's running mate JD Vance shadowed the Democratic pair throughout the week by holding news conferences in many of the same cities Harris and Walz visited. Meanwhile, Trump hosted one rally last week in Montana. The Trump campaign also launched its own barrage of advertisements at the end of July, pushing television ads that focus on Harris' record on immigration, and call her a "border czar."

# Man held in London for stabbing 2 persons

AP n LONDON

A man has been arrested after an 11-year-old girl and a 34-year-old woman were stabbed in central London, London's Metropolitan Police said on Monday. The attack occurred in Leicester Square, a magnet for tourists with its shops, theatres and cinemas. The square and surrounding area have an estimated 2.5 million visitors every week. Police said the two victims were taken to a major trauma

centre. The extent of their injuries was not immediately clear. The stabbing occurred as Britain is on edge after violence for the past week as crowds spouting anti-immigrant and Islamophobic slogans clashed with police. The disturbances have been fuelled by right-wing activists who used social media to spread misinformation about a knife attack that killed three girls during a Taylor Swift-themed dance event. It was not immediately clear whether the stabbing had any link to the unrest.

# New B'desh CJ warns of stern action against 'misdeeds' by judiciary

PTI n DHAKA

Bangladesh's newly appointed Chief Justice Syed Refaat Ahmed on Monday warned of stern action if anybody from the judiciary was found to be involved in any "misdeeds". Speaking at a reception hosted by the Attorney General's Office and the Supreme Court Bar in the Appellate Division, Ahmed commemorated those killed in the student protests that resulted in the toppling of the government led by Sheikh Hasina last week. "I extend my congratulations to the students and the people of the entire country. I also congratulate those who supported this movement," he said. "The students have sparked a great awakening against inequality. Due to the revolution of the students and the public, I have been entrusted with this responsibility, which I will carry out. At this moment, we are standing on the ruins. We have to start anew while standing on this destruction," he said. The Daily Star newspaper reported the chief justice warned that no irregularity would be tolerated in the judiciary. He added that "stern action would be taken if anybody from the judiciary was

found to be involved in any misdeeds as the policy of oppression that prevailed for so long instead of justice was now over."

"I will work with devotion and honesty. I will do everything to establish justice in the society after the mass upheaval. Our sense of justice has been destroyed over the years," he said.

Bangladesh Chief Justice Syed Refaat Ahmed

Ahmed was sworn in as Bangladesh's new chief justice on Sunday, a day after Obaidul Hassan stepped down as the top judge following an ultimatum by the protesters demanding a revamp of the judiciary. Hassan and five other judges of the apex Appellate Division on Saturday tendered their resignation, five days after the fall of Hasina's regime amid massive street protests. His resignation came as protesters of the Anti-Discrimination Student Movement gathered at the apex court premises.

President Mohammed Shahabuddin administered the oath to the chief justice, an event also attended by Chief Adviser Prof Muhammad Yunus, who was sworn in on Thursday as the head of an interim government following the ouster of Hasina in the protests that left more than 200 persons dead.

# Protestors told to surrender arms

PTI n DHAKA

Bangladesh interim government's Home Affairs Adviser Brigadier General (retd) M Sakhawat Hussain on Monday asked protesters to surrender by August 19 all illegal and unauthorised firearms, including the rifles looted from law enforcers during the recent violence, according to a media report. Hussain said that if those arms were not returned to nearby police stations, then the authorities would undertake a search and if anyone is found in possession of unauthorised weapons, charges would be lodged against them. The Daily Star newspaper reported.

Hussain was talking to reporters at the Combined Military Hospital here after visiting the paramilitary Bangladesh Ansar members who suffered injuries during the mass protest that led to the ouster of Prime Minister Sheikh Hasina. Hasina resigned and fled to India last week leaving the country in turmoil

following deadly protests against her government over a controversial quota system in jobs.

Hussain said that around 500 people, including students, were killed and several thousand others were injured during the protest.

"A youth was seen in the video taking away a 7.62 mm rifle. That means the rifle was not returned. If you did not hand over (out of fear), hand over the firearms through anyone else," he said. Hussain said they would investigate to identify the youth in civilian clothes who opened fire at Ansar members. However, he toned down yesterday's comments about shutting down media outlets if they publish or broadcast false or misleading news.

"I said it out of anger. It is not my job," he said. "I never support shutting down any media."

Last Thursday, Nobel laureate Muhammad Yunus took oath as the head of an interim government replacing Hasina. A 16-member council of advisers was announced to assist Yunus in running the state's affairs.

# Hundreds join 'Save Hindus in Bangladesh' vigil in Houston

PTI n HOUSTON

In a powerful yet peaceful display of solidarity, over 300 Indian-Americans and Bangladeshi-origin Hindus gathered at Sugar Land City Hall in Houston to protest the horrific acts committed by Islamist extremists targeting Hindus and other minorities in Bangladesh. The air was thick with emotion as attendees united for a cause on Sunday morning that resonated deeply with their identities and beliefs. Organisers passionately called on the Biden Administration to

Houston Hindu groups, including Maitri in Houston, Vishwa Hindu Parishad of America, HinduAction, HinduPact, Houston Durgabari Society, Global Kashmiri Pandit Diaspora, and many more. Participants raised their placards high, bearing passionate messages demanding an end to the violence and atrocities against Hindus in Bangladesh. The crowd erupted with fervour as slogans like "Stop Hindu Genocide," "Stand Up and Speak Out Now," "Hindu Lives Matter," and "We Won't Run, We Won't Hide, Stop Hindu Genocide" rang out.

HinduPACT. "With the coup in Bangladesh, the 10 million Hindus are sitting on a ticking bomb of genocide," she warned. "Reports from within Bangladesh reveal unimaginable torture, killings, and the burning of Hindu temples, alongside harrowing stories of women subjected to unspeakable abuse," she said. "This instability poses a grave danger not only to Hindus but also to the very foundations of democracy in countries like India and the US. It is an inevitable threat to Hindus in Pakistan as well. We need the

take immediate and decisive action to prevent further atrocities and to protect vulnerable minority communities in Bangladesh.

The recent surge in violence against Hindu communities poses an urgent and alarming threat to peace and stability in the region, and the time to act is now. The organisers passionately called for immediate protection and safety for all religious minorities in Bangladesh, urging the US government to refuse to remain a silent bystander as these heinous crimes against humanity unfold.

They encouraged Bangladeshi Hindus to stay vigilant and unite in monitoring the ongoing situation, taking necessary initiatives collectively in any emergency. The vigil, titled "Save Hindus in Bangladesh," was organised by the Global Voice for Bangladesh Minorities, an umbrella organisation representing major

echoing their urgent plea for justice.

Quoting the timeless words of Mahatma Gandhi, "To forgive and accept injustice is cowardice," along with the poignant words of Martin Luther King Jr, the organisers passionately declared, "Injustice anywhere is a threat to justice everywhere." Achlesh Amar, one of the speakers representing VHP and HinduAction, addressed the packed crowd and said, "We strongly condemn the assault on the Hindu community for their pluralistic beliefs. We stand united in unwavering solidarity with our brothers and sisters in Bangladesh. We demand immediate action from the Bangladeshi government to bring the perpetrators to justice and ensure the safety and security of all its citizens, regardless of their religious beliefs!"

Amar also shared a heartfelt statement from Deepti Mahajan, co-convenor of

eyes and ears of all Western nations focused on this crisis in Asia, and we demand safety for all minorities in Bangladesh!" A Bangladeshi-origin American woman present at the vigil spoke with palpable emotion, her voice breaking as she shared, "The horrific acts of violence back home are devastating. When we call home and hear about these brutal acts every single day, it tears us apart. So many innocent lives have been lost! Places of worship have been burned or vandalised, and women have been horrifically abused. This must stop now! We cannot stand idly by while our people suffer." The gathering was a powerful reminder that the struggle for justice knows no borders. United by love and compassion, they stood together to demand action, to raise their voices against oppression, and to ensure that the plight of Hindus in Bangladesh does not go unheard.

# Businesses in B'desh hit by cash supply drought

PTI n DHAKA

Businesses in Bangladesh are facing a liquidity crunch as the central bank has capped the withdrawal of cash from banks at Tk 2 lakh amid uncertainty in the country following the fall of the Sheikh Hasin-led government, a media report said on Monday. The Bangladesh Bank set a cash withdrawal limit of Tk 2 lakh (Rs 1.42 lakh approximately) per account on Saturday, increasing it from the Tk 1 lakh announced earlier. The central bank decided this due to security concerns as police are yet to return to work fully, following the clashes between police and students during the widespread protests against Hasina's Awami League-led government over a controversial quota system in

jobs. Interim Finance and Planning Adviser Salehuddin Ahmed on Sunday also said that the limit on cash withdrawals was required given the current situation. Businesses, especially those mainly dealing with cash transactions, said they would be in a tough situation if the cash crisis lingers and restrictions remain next week. The Daily Star newspaper reported.

Ahmed, a former governor of Bangladesh Bank has said that the top priority of Bangladesh's interim government is to bring the economy back on track and restore the people's trust in the banks. Talking to reporters on Saturday for the first time after assuming office, Ahmed said the government's priority is to restore the trust of common

people in the banks while resuming the operations of the central bank. Business owners said their operations have halted since the second half of July when the widespread protests erupted.

Abu Bakar Siddique, an oil wholesaler in one of the largest kitchen markets in Dhaka, Karwan Bazar, said his bank would not allow more than Tk 1 lakh to be withdrawn. "This is a big problem. As a result, the normal pace of business is being disrupted," the report quoted him as saying. He said most business transactions are being conducted through bank-to-bank transfers or real-time gross settlements. Taslim Shahriar, deputy general manager of a major commodity importer and processor, said not all businesspeople

accept cheques. "We have to pay in cash too, but now, transactions are only taking place through bank-to-bank transfers and cheques. The sooner this problem is resolved, the better for us," Shahriar said. A senior official of another major commodity importer and processor said, "As such, I am unable to pay the full salaries to those who are daily wage earners. I told the workers to wait this week as there is no way I can manage cash now."

Asserting that daily wage earners are facing a very difficult situation, the official said, "It's inhumane for them. If this situation persists for long, it will be very difficult to conduct business." Riad Mahmud, managing director of National Polymer

Group, said he believes the situation will hamper business if it persists, according to the report.

However, he said it will not substantially hinder activities if it lasts a short time.

Over 230 people were killed in Bangladesh in the incidents of violence that erupted across the country following the fall of the Hasina government last week, taking the death toll to 560 since the anti-quota protests first started in mid-July.

An interim government was formed after the fall of the Hasina-led government. Nobel laureate Prof Muhammad Yunus was sworn in as the head of an interim government last week following the ouster of Hasina.

He announced the portfolios of his 16-member council of advisors on Friday.

# Indonesian leaders hold meeting in future capital

AP n JAKARTA

Indonesian President Joko Widodo held his first cabinet meeting in the future capital of Nusantara, amid miles of construction sites and doubts about the sustainability of the ambitious mega project. Widodo began working from the city two weeks ago, using an office inside the construction site of the massive new palace in the form of the mythical eagle-shaped Garuda, the symbol of the country. The city is set to hold its first Indonesian Independence Day celebration in less than a week.

Appearing with his successor, President-elect Prabowo Subianto, in front of the palace, Widodo insisted that the controversial USD 33 billion construction effort will be worth it. "The Nusantara capital is a canvas that carves the future. Not all countries have the opportunity and the ability to build their capital city starting from zero," Widodo said.

In this photo released by Indonesian Presidential Palace, Indonesian President Joko Widodo (centre) talks with Indonesian Defense Minister and president-elect Prabowo Subianto (left) and Indonesian Vice President Ma'ruf Amin (right) in the new capital city Nusantara in Penajam Paser Utara, East Kalimantan, Indonesia, on Monday. AP/PTI

Subianto vowed that his administration will continue work on the new city after it takes office on October 20.

"We will definitely finish it, although the outline plan is dozens of years long, like other capital cities also took a very long time. We should not force it, but I am optimistic that in

five years I think it will function very well," Subianto said. Monday also saw groundbreaking ceremonies for the vice presidential palace, as well as a number of privately funded buildings.

The government expects to pay only 20 per cent of the planned USD 33 billion budget,

relied heavily on private sector investment to build key infrastructure and public facilities. In a bid to lure investment, earlier this month Widodo granted investors in the new capital incentives, including land rights of up to 190 years. Construction of the new city began in mid-2022, after

Widodo announced a plan to relocate the capital from Jakarta. The metropolis suffers from pollution and congestion, and is rapidly sinking. Officials say it will be a futuristic green city centred around forests and parks that utilises renewable energy sources and smart waste management, spread over an area of about 1000 square miles (2,600 square kilometres). "Cool air, clean air, as we dream of that we want a green capital city, be it its energy, electric vehicles, environment, air and everything," Widodo told reporters.

But the project, which is using land carved out of Borneo's jungle, has been dogged by criticism from environmentalists and Indigenous communities, who say it degrades the environment, further shrinks the habitat of endangered animals such as orangutans, and displaces Indigenous people who rely on the land for their livelihoods.

# Former ISI chief Faiz Hameed taken into military custody

PTI n ISLAMABAD

In an unprecedented move, the Pakistan Army on Monday announced that it has arrested former ISI chief Lt Gen (retd.) Faiz Hameed and initiated court martial proceedings against him in connection with a housing scheme scandal.

"Complying with the orders of the Supreme Court of Pakistan, a detailed court of inquiry was undertaken by Pakistan Army, to ascertain correctness of complaints in Top City Case made against Lt Gen Faiz Hameed (Retd.)" the Inter-Services Public Relations (ISPR) - the media wing of the army - said in a statement.

"Consequently, appropriate disciplinary action has been initiated against Lt Gen Faiz Hameed (Retd.), under provisions of the Pakistan Army Act," it said. "In addition, multiple instances of violation of the Pakistan

Army Act post-retirement have also been established. The process of Field General Court Martial has been initiated and Lt Gen Faiz Hameed (Retd.) has been taken into military custody," it added. Lt Gen (retd.) Hameed was considered extremely powerful when he headed the spy agency from 2019 to 2021.

He was appointed to the coveted post when then ISI chief and current Army chief Lt Gen Asim Munir was prematurely removed from the post. It was reported then that then prime minister Imran Khan was not happy with Munir. Later, the army decided to replace Hameed, a move vehemently opposed by Imran Khan and it is believed that it was the beginning of souring of his ties with the powerful military. The Top City case made headlines when on November 8, 2023, Moez Ahmed Khan, the

owner of Top City, filed a petition in the Supreme Court in which he accused Hameed of misusing his authority. He stated in the petition that on May 12, 2017, at the behest of Gen Hameed, ISI officials raided the top city office and his house and seized valuables, including gold, diamonds and money. He also stated that Sardar Najaf, the brother of Hameed, also contacted him to resolve the issue later. The petition also claimed that Gen Hameed later personally met him to resolve the issue. He alleged that the ISI officials extorted Rs 4 crore cash from him. A three-judge bench of the Supreme Court, which included Chief Justice of Pakistan Justice Qazi Faiz Isa, Justice Attar Minullah and Justice Aminuddin, heard the case and decided to send it to the Ministry of Defence for probing the allegation.

# Chinese Bharatnayam dancer makes history; performs 'Arangetram'

PTI n BEIJING

Lei Muzi, a 13-year-old school student scripted history when she performed Bharatanatyam "Arangetram" in China, a landmark in the journey of the ancient Indian dance form that is gaining popularity in the neighbouring country. Lei made her solo debut here on Sunday in front of the celebrated Bharatanatyam dancer Leela Samson, Indian diplomats and a large audience of Chinese fans. For ardent Chinese fans of Indian classical art and dance forms who devoted their lives to learning and performing them for decades, her debut was a moment of history and a milestone as it was the first-ever "Arangetram" — Bharatnayam's graduation ceremony — in China. For the performers of the ancient dance from South India, Arangetram, as it is

called in Tamil, is their debut performance on stage in front of teachers and experts besides the audience.

Only after Arangetram are the students allowed to perform on their own or train aspiring dancers. "This is the first-ever Arangetram by a student fully trained in China and performed in China," said T S Vivekanand, the First Secretary of the Indian Embassy in charge of culture who attended the event. It was a properly done Arangetram in a very traditional way, he told PTI here.

"Lei's Arangetram is the first time that Chinese students trained by a Chinese teacher have completed in China, which is a landmark in the history of Bharatanatyam inheritance," noted Chinese Bharatanatyam dancer Jin Shan Shan, who trained Lei. Shrutu Rawat, the wife of Indian Ambassador Pradeep Rawat,

Shrutu Rawat, wife of Indian Ambassador to China Pradeep Rawat, with Lei Muzi, the Chinese Bharatanatyam dancer who performed her Arangetram in Beijing on Sunday PTI

was the chief guest at Lei's Arangetram.

The event was attended by a large crowd of fans who cheered her over the two-hour-long performance during which she danced to several classical numbers.

Besides Leela Sampson, a team of musicians who were flown in from Chennai sang the classical numbers for Lei to perform. She is due to perform in Chennai later this month. Lei was trained for over 10 years at the Bharatanatyam school run by Jin, who herself was the first accomplished Bharatanatyam dancer to have held her Arangetram in 1999 in New Delhi. Jin was one of the numerous Chinese students who were trained by eminent Chinese dancer Zhang Jun.

Lei, also known as Dudu, says she fell in love with Bharatanatyam since she joined Jin's school in 2014. "I completely fell in love with it. I kept dancing till now. For me,

Bharatanatyam is not only a beautiful art and dance form but also the embodiment of Indian culture," she told PTI.

"This fascinates me greatly, as well as the gorgeous and graceful movements during a dance item. Overall, I extremely love Bharatanatyam. For me, it is already a daily activity to do, and I am truly interested in the culture of India," she said. Jin, who is widely known in China and India and has held numerous performances, said she is proud to see one of her students complete her Arangetram.

"Bharatanatyam has brought us close together. For ten years, Lei has come to my home every weekend to attend classes, which not only let me witness her growth but also made us family," she said. "It reminds me of how my guru, Leela Samson, taught me when I did my Arangetram," she said. Sunday's Arangetram is a festival for us, Jin said.

# ICC monitoring events in Venezuela

AP n THE HAGUE (NETHERLANDS)

International Criminal Court prosecutors said on Monday that they are "actively monitoring" events in Venezuela, where security forces have launched a crackdown on the opposition in the aftermath of the nation's disputed presidential election. Forces loyal to President Nicolás Maduro have rounded up more than 2,000 people for demonstrating against the president or casting doubt on his claims that he won a third term in the July 28 election despite strong evidence he lost the vote by a more than two-to-one margin. In a written statement to reporters, the office of ICC Prosecutor Karim Khan said it is "actively monitoring the present events and has received multiple reports of instances of violence

and other allegations following the presidential election of 28 July in Venezuela."

The statement said that Khan's office has "engaged with the Government of Venezuela at the highest-level to underline the importance of ensuring that the rule of law is adhered to in the present moment and emphasize that all persons must be protected from violations that may constitute Rome Statute crimes". The Rome Statute is the court's founding treaty and outlines the crimes over which it has jurisdiction. Maduro has called on Venezuelans to denounce election doubters via a government-run app originally created to report power outages. He also said the government was refurbishing two gang-dominated prisons to accommodate an expected surge in jailing of opponents.

# Stock markets close marginally lower

PTI n MUMBAI

Stock markets closed marginally lower in highly volatile trade on Monday as gains in private banks helped benchmark Sensex recoup some of the early losses inflicted by allegations against Sebi chief Madhabi Puri Buch and her husband by the US short-seller Hindenburg Research. The 30-share Sensex closed lower by 56.99 points or 0.07 per cent at 79,648.92 with 18 of its constituents ending with losses and 12 with gains. The index had declined by 479.78 points or 0.60 per cent to a low of 79,226.13 in morning trade due to losses in Adani group shares and blue-chips like Reliance Industries. The benchmark later staged a sharp recovery climbing around 880 points from the day's lows to hit a high of 80,106.18. But at the day-end, the BSE benchmark slipped into the negative territory and closed lower. The NSE Nifty dipped 20.50 points or 0.08 per cent to 24,347. Intra-day, it hit a low of 24,212.10 and a high of 24,472.80.

The Indian market concluded relatively flat, with its initial path being eclipsed by the continuation of the Adani-Hindenburg-SEBI saga. However, the market tried to brush away these noises, taking positive cues from global markets," said Vinod Nair, Head of Research, Geojit Financial Services. From 30 Sensex firms, Adani Ports, NTPC, Power Grid, State Bank of India, Nestle, Mahindra & Mahindra, Reliance Industries and Tata Consultancy Services were the biggest laggards.

Axis Bank, Infosys, JSW Steel, Tata Motors, HDFC Bank and Kotak Mahindra Bank were among the gainers from the blue-chip pack. Hindenburg Research on Saturday alleged that SEBI chairperson Madhabi Puri Buch and her husband had undisclosed investments in obscure offshore funds in Bermuda and Mauritius, the same entities allegedly used by Vinod Adani - the elder brother of group chairman Gautam Adani - to round-trip funds and inflate stock prices. Buch and her husband issued

a statement calling Hindenburg's latest tirade an attack on the credibility of SEBI and attempted "character assassination". In the broader market, the BSE smallcap gauge climbed 0.51 per cent and midcap index went up marginally by 0.04 per cent. Among the indices, utilities declined 1.04 per cent, FMCG by 0.67 per cent, power by 0.62 per cent, and services by 0.41 per cent. Consumer Durables, realty, oil & gas, metal and IT were the gainers. A total of 2,126 stocks declined while 1,941 advanced and 118 remained unchanged on the BSE. In Asian markets, Seoul and Hong Kong settled in the positive territory while Shanghai ended lower. Markets in Tokyo and Bangkok were closed for a holiday. European markets were trading mostly higher. The US markets ended higher on Friday. Foreign Institutional Investors (FIIs) turned buyers on Friday after days of offloading equities. They bought equities worth Rs 406.72 crore, according to exchange data.

still determine the broader market mood," Prashanth Tapse, Senior VP (Research), Mehta Equities Ltd, said. In the broader market, the BSE smallcap gauge climbed 0.51 per cent and midcap index went up marginally by 0.04 per cent. Among the indices, utilities declined 1.04 per cent, FMCG by 0.67 per cent, power by 0.62 per cent, and services by 0.41 per cent. Consumer Durables, realty, oil & gas, metal and IT were the gainers. A total of 2,126 stocks declined while 1,941 advanced and 118 remained unchanged on the BSE. In Asian markets, Seoul and Hong Kong settled in the positive territory while Shanghai ended lower. Markets in Tokyo and Bangkok were closed for a holiday. European markets were trading mostly higher. The US markets ended higher on Friday. Foreign Institutional Investors (FIIs) turned buyers on Friday after days of offloading equities. They bought equities worth Rs 406.72 crore, according to exchange data.

## Major domestic appliances market sees 18% value-based growth in first half of 2024, says report

PTI n NEW DELHI

The market of major domestic appliances saw an 18 per cent value-based growth in the first half of 2024, helped by a strong demand for essential household items, according to a report from GfK. The growth in MDA (major domestic appliances) market was led by Key categories such as air-conditioners and refrigerators, which reported a growth of 30 per cent and 7 per cent, respectively. "This growth is 3X of growth in 2023 over the previous year," said the report from GfK, which is now an NIQ Company, a leading global market and consumer intelligence firm. The small domestic appliances market recorded a 29 per cent increase in value, reflecting heightened consumer interest in home convenience products, according to the report. The report also added that customers are now looking for feature-rich and premium

products, which is fuelling the value growth in the appliance segment. Now washing machines with capacities of 9kg or above have recorded an "impressive growth rate of 30 per cent", which is driven by consumers seeking enhanced performance and innovative features. Similarly, the air-conditioner segment is benefiting from similar trends, where demand for energy-efficient and high-performance models has grown by 59 per cent in the split inverter and 5-star segments. "Cooling appliances (refrigerator) have seen an 11 per cent increase in the side-by-side, French door, and 3/4 door segments," it said. The report also suggests that despite such gains, the relatively low penetration of these products presents significant opportunities for industry expansion. The smartphone and mobile phones segment had a 6 per cent reduction in volume, it was offset by a substantial 10 per cent increase in overall value.

## Gold rises `200, silver rallies `1,000 per kilogram

PTI n NEW DELHI

Gold prices rose by Rs 200 to Rs 72,350 per 10 grams while silver prices rallied by Rs 1,000 per kg in the local market here on Monday amid firm global trends. In the previous session, the yellow metal of 99.9 per cent purity had closed lower at Rs 72,150 per 10 grams on Saturday, according to the All India Sarafa Association. Silver prices jumped by Rs 1,000 to Rs 83,500 per kg from Rs 82,500 per kg in the previous close. Meanwhile, gold of 99.5 per cent purity also climbed by Rs 200 to Rs 72,000 per 10 grams. In the previous trade, it had ended at Rs 71,800 per 10 grams on Saturday. Traders attributed the rise in gold prices to increased demand from local jewellers and a strong trend in the overseas markets. On the global front, Comex gold is trading at USD 2,481.80 per ounce, up by USD 8.40 per ounce. "Gold prices rose on Monday as persisting geopolitical concerns about Middle Eastern crises boosted the safe-haven demand for precious metal," Saumil Gandhi, Senior Analyst of Commodities at HDFC Securities, said. Apart from that, traders also increased their bets on the US Federal Reserve's (Fed) aggressive interest rate cuts this year after recent weak macro data provided further support for the yellow metal, Gandhi added. According to Manav Modi, Senior Analyst of Commodity Research at Motilal Oswal Financial Services, gold prices held steady after a sharp rise in the previous session, bolstered by a dip in US Treasury yields, as investors grew confident that the Fed would lower interest rates in September this year. Silver is up at USD 28.01 per ounce in the international markets. Traders shifted their focus to the US consumer price index data, due next week, for insights into the Fed's likely monetary policy path, Modi said. As per Jateen Trivedi, VP Research Analyst - Commodity and Currency, LKP Securities, gold prices are largely driven by escalating tensions in the Middle East, particularly concerns over a potential attack by Iran on Israel.

## Govt approves 20% premium for gas from new wells for ONGC

PTI n NEW DELHI

The government has approved a 20 per cent premium over the regulated or APM price for any natural gas that ONGC will produce from new wells, the company said on Monday. Currently, two pricing regimes govern the majority of the domestic production of natural gas, which is used to generate electricity, produce fertiliser, turn into CNG for running automobiles and piped to households for cooking. Gas produced from legacy fields given to state-owned Oil and Natural Gas Corporation (ONGC) and Oil India Ltd, on nomination basis, is priced at 10 per cent of the prevailing price of crude oil that India imports. This price, subject to a cap price of USD 6.5 per million British thermal units, is called regulated or APM price. So, at the current Indian basket price of USD 77 per barrel, the APM price for gas produced from ONGC's Mumbai High and Bassein fields in the western offshore should come to USD 7.7 per mmBtu, but it is paid the cap

price of USD 6.5. Gas produced from difficult fields, such as those in the deep sea, is governed by a different formula and paid a higher rate because of the higher cost involved in its production. That price for six months starting April 1 is USD 9.87 per mmBtu. When these formulas were adopted last year, it was decided that gas produced from new wells, even in legacy fields, would be paid a premium of 20 per cent over the APM price. Now, that has been notified. "As per guidelines for domestic gas pricing,

domestic natural gas price (APM price) was fixed at 10 per cent of the Indian crude basket price as announced by Petroleum Planning and Analysis (PPAC) on a monthly basis. It was provided in the guidelines that for the gas produced from new wells or well intervention in the nomination fields of ONGC/Oil India Limited, there would be a premium of 20 per cent over APM prices - a total of 12 per cent of Indian crude basket price for new gas. "The modalities for the same had to be worked out by the

Directorate General of Hydrocarbon (DGH) for approval of the Ministry of Petroleum and Natural Gas (MOPNG)," ONGC said in a statement. The ministry, it said, has now notified the allocation of gas produced from new wells or well interventions from nominated fields of ONGC/OIL at a 20 per cent premium over the APM price. "The enhanced price for new gas will make the new gas development projects viable and help the ONGC to augment the production of natural gas from nominated fields in challenging areas that require higher amounts of capital and technology. "This will enhance the investment capacity in the company to take up development projects, which are otherwise capital intensive and involve a higher degree of risks requiring commensurate prices," it said. ONGC Board has recently approved the Daman Upside Development project in its nominated field of Mumbai High for Rs 7,800 crore for increasing domestic gas production, and the job has already been awarded for execution.

## Rupee falls 2 paise to close at 83.97 against US dollar

PTI n MUMBAI

The rupee consolidated in a narrow range and settled for the day lower by 2 paise at 83.97 (provisional) against the American currency on Monday, as market participants remained on the sidelines ahead of the release of key domestic macroeconomic data. Forex traders said the Indian rupee declined on a positive tone in the US dollar and a surge in crude oil prices. At the interbank foreign exchange market, the local unit opened at 83.95 and touched an intraday low of 83.98 and finally settled at 83.97 (provisional) against the American currency, lower by 2 paise from its previous close. The local unit had slumped 37 paise to settle at an all-time low of 84.09 against the US dollar on August 5.

On Friday, the rupee settled for the day higher by 2 paise at 83.95 against US dollar. "We expect the rupee to trade with a slight negative bias on strength in the US dollar and rising global crude oil prices. Selling pressure from foreign investors and geopolitical tensions in the Middle East may further pressurise the rupee," said Anuj Choudhary - Research Analyst at Sharekhan by BNP Paribas.

confidence data from the US this week. "USD-INR spot price is expected to trade in a range of Rs 83.75 to Rs 84.25," Choudhary added. Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 0.05 per cent higher at 103.18. Brent crude, the global oil benchmark, advanced 0.85 per cent to USD 80.34 per barrel.

## Hindenburg claims baseless, misleading: REITs Association

PTI n NEW DELHI

Indian REITs Association on Monday said that claims made by the US-based short seller Hindenburg Research suggesting that the REIT framework made by markets regulator Sebi serves the interests of a select few are "baseless and misleading". In fact, the association has commended Sebi and its leadership for crafting a "rigorous regulatory environment" that includes comprehensive periodic reporting requirements,

mandatory independent valuations, and strict governance standards. These measures are designed to enhance transparency and protect investor interests, it added. The statement came after the Hindenburg report on Saturday alleged that recent amendments to Sebi's REIT Regulations 2014 were made to benefit a specific multinational financial conglomerate. In this regard, the markets regulator stated that Sebi (REIT) Regulations, 2014 has been amended from time to time.

In a statement, the association said that since the introduction of REIT (Real Estate Investment Trust) regulations in 2014, India has established a strong and transparent regulatory framework that aligns with global best practices. "Developed in consultation with all market participants, this framework ensures the highest levels of investor protection for both --domestic and international institutional investors, as well as retail investors," it said. Hindenburg Research on

Saturday launched a broadside against market regulator Sebi chairperson Madhabi Puri Buch, alleging she and her husband had stakes in obscure offshore funds used in the alleged Adani money siphoning scandal. Sebi chairperson Buch and her husband Dhaval denied the allegations as baseless and asserted their finances are an open book. Her husband Dhaval Buch is a senior advisor with Blackstone. The Adani Group termed the latest allegations malicious and based on manipulation of

select public information. The company said it has no commercial relationship with the Sebi chairperson or her husband. Indian REITs Association, which counts Brookfield India Real Estate Trust, Embassy Office Parks REIT, Mindspace Business Parks REIT, and Nexus Select Trust -- as their founding members, said that the sector's growth has drawn significant interest and participation from prominent global institutional investors. These investors' participation not only strengthens the trust

and credibility of India's financial system but also provides investors with a dependable and transparent avenue to engage in the country's expanding real estate market. Currently, there are four listed REITs on the Indian stock exchanges, collectively managing assets worth over Rs 1.4 lakh crore and serving over 2.4 lakh crore unitholders. These REITs have distributed over Rs 18,000 crore, with the market capitalisation of the asset class reaching about Rs 80,000 crore.

## Automation Expo to showcase use of AI in manufacturing sectors

PIONEER NEWS SERVICE n NEW DELHI

India's largest exhibition for the automation industry, Automation Expo 2024, slated from August 21 to 24 is all set to be a pivotal event in showcasing how Artificial Intelligence (AI) and Robotics are driving transformative changes across manufacturing and production sectors. The integration of AI with traditional robotics is revolutionising the industry by advancing predictive maintenance, reducing material waste, and improving demand forecasting. Attendees will experience a comprehensive display of the latest technologies and solutions, featuring both innovative startups and established industry leaders, said Dr M Arokiaswamy, Founder & Chairman of IED Communications. The exhibition to be held at the Bombay Exhibition Center (BEC), Nesco, Mumbai is supported by various associations including the Technology Development Board, National Small Industry Corporation (NSIC), All India Manufacturers' Organization (AIMO), among others. Dr BR Mehta, Director Projects at Waaree Group, emphasised the expo's importance in exploring

technologies that can revolutionise manufacturing processes and foster industry collaboration while Dr. Kartik Fojdar, Head - CoE Engineering Instrumentation at Reliance Industries Ltd., spoke about the expo's potential to provide innovative solutions that drive operational excellence. Dr Keyur Vora, Advisor and HOD (C&I) at Adani-Petrochemical Business, underscored the opportunity for discovering new technologies and forging strategic partnerships to enhance operational efficiency. At the same time Dr VP Raman, Engineering Consultant, noted that the expo will offer a unique platform for engaging with leading vendors and system integrators to explore solutions that boost operational efficiency. India's industrial automation sector is on a significant growth trajectory, with projections indicating a rise from over USD 15 billion to USD 29.5 billion by 2029.

## Naveen appointed Director (Operations) POWERGRID

PNS n NEW DELHI

Naveen Srivastava has been appointed as Director (Operations) of Power Grid Corporation of India Limited (POWERGRID), a Maharatna CPSE under Ministry of Power, Government of India. Prior to his joining as Director (Operations), he worked as Executive Director (NR-III) handling challenging and flagship works & delivered results consistently in dynamic business environment. "He brings a wealth of expertise to the table. He is an accomplished electrical engineer, having graduated in Electrical Engineering (Hons) from the prestigious National Institute of Technology-Durgapur, and has honed his leadership skills through a

General Management Programme at the Management Development Institute, Gurgaon, and the Harvard Manage Mentor program at Harvard Business School," said a statement issued by the firm. With over two decades of experience in operations,

Srivastava has consistently driven success across multiple facets, including Operations and Maintenance (O&M), Testing and Commissioning (T&C), and cutting-edge SCADA and communication technologies, it said. His leadership was instrumental in completing the renowned underground cabling project in Old Kashi (Varanasi), which garnered accolades from the Chief Minister and international dignitaries, it said. Further, he played a pivotal role towards commissioning of 765kV Pooling Substation at Bilaspur along with adaptation of new Technologies such as Remote Operation of HVDC Rihand-Dadri Link and others, said the company in a statement.

## IIP growth slows to 5-month low of 4.2% in June: Govt data

PTI n NEW DELHI

India's industrial production slowed to a five-month low of 4.2 per cent in June 2024, mainly due to poor performance of the manufacturing sector, though power and mining sectors continue to perform well, as per official data released on Monday. The factory output growth, measured in terms of the Index of Industrial Production (IIP), was 6.2 per cent in May, 5 per cent in April, 5.6 per cent in March, 5.6 per cent in February and 4.2 per cent in January 2024. During the April-June period this fiscal, the IIP growth was 5.2 per cent against 4.7 per cent in the same period of the

preceding financial year. India's Index of Industrial Production grew by 4 per cent in June 2023, according to a statement by the Ministry of Statistics & Programme Implementation. As per the data, the mining output growth accelerated to 10.3 per cent in June against a 7.6 per cent expansion in the year-ago month. The manufacturing sector's growth decelerated to 2.6 per cent in June compared to 3.5 per cent a year ago. The power generation increased by 8.6 per cent in June against a growth of 4.2 per cent in the same month of the last year. As per use-base classification, the capital goods segment growth fell to 2.4 per cent in

June 2024 from 2.9 per cent in the year-ago period. In June this year, consumer durables output expanded 8.6 per cent compared to a 6.8 per cent contraction in June 2023. Consumer non-durable goods production contracted 1.4 per cent during the reporting month against a growth of 0.5 per cent in May 2023. According to the data, infrastructure/construction goods reported a growth of 4.4 per cent in June 2024, down from a 13.3 per cent expansion in the year-ago period. The data also showed that the output of primary goods logged a 6.3 per cent growth in June this year, up from 5.3 per cent a year earlier.

# US WOMEN'S BASKETBALL FUTURE LOOKS BRIGHT

AP n PARIS

The USA women's basketball players have been saying for years that winning in the Olympics isn't easy and France showed at the Paris Games that their comments are more than just rhetoric to keep fans interested. The rest of the world is catching up to the U.S., though Olympic gold should continue to run through America. The future for USA Basketball looks bright with A'ja Wilson and Breanna Stewart in their prime. Then there also is an extremely talented young group of players who say they want to be in the pipeline, led by Caitlin Clark, Angel Reese, Paige Bueckers and Juju Watkins. They could help anchor the national team, which is in a bit of a transition with the retirement of Diana Taurasi, who finished her career with a record six gold medals. The Americans captured their record eighth Olympic gold medal Sunday by the narrowest of margins with a 67-66 victory over France. The

U.S. won its six games in the tournament by an average of 15.7 points - the lowest during its streak. "The parity of women's basketball is just only continuing to grow," Stewart said. "So I think, you know, we know it's not easy." France became the first team to come within a hair of beating the U.S. in the Olympics during its record 61-game winning streak that dates back to the 1992 Barcelona Games. Only two other teams had come within single digits of the Americans in those 32 years. "Maybe they won't say it's just easy and we walk in and just win gold," said U.S. Center Brittney Griner. Who broke down in tears when she was presented her third gold medal. "Maybe they'll stop saying that, because, like I said, we see everybody's best shot. And we saw the shot that France gave us." The U.S. will get homecourt during the 2028 Olympics, which will be held in Los Angeles. The Americans had played the last two gold medal games against teams from the host nation.

Griner said "we'll see" when asked if she'll be playing in the Los Angeles Games. Even if she doesn't decide to play - she'll be 37 at that point the U.S. Should return its top two stars Stewart and Wilson, who are only 29 and 28 years old respectively. The pair could potentially play in a few more Olympics. With the exception of Taurasi, no one on this year's Olympic team would be older than 37 by the time the 2028 Olympics happen. "I think being able to learn from a lot of the veteran players here, knowing it's kind of my time and a lot of our times that, this younger generation is able to kind of take this legacy and continue to push forward and go for nine," said Sabrina Ionescu, who earned her first Olympic gold medal. "This is a program that has always sort of made it look easy. But I always said it's not." The major question potentially is who will be coaching the team in Los Angeles. Cheryl Reeve could come back to coach the team, although it's

extremely rare that a coach does a second stint. Only Geno Auriemma, who coached in 2012 and 2016, has done that. If the U.S. Goes another direction, there's a few potential candidates. Assistant Kara Lawson, who won gold as a player in 2008 and also guided the inaugural 3x3 U.S. Team in 2021 to first place could be on the list. A trio of WNBA coaches have experience with USA Basketball: Curt Miller, Stephanie White and Tanisha Wright also could be considered. A dark horse could be Las Vegas Aces coach Becky Hammon. She hasn't been involved with USA Basketball at all yet and played for Russia in the 2008 Olympics. Yet no WNBA coach has been more successful the last few years than Hammon, who has led the Aces to back-to-back WNBA championships. With the Aces' core of Wilson, Kelsey Plum, Chelsea Gray and Jackie Young potentially back in 2028, Hammon would certainly have their endorsement.

## Indian shuttlers sign off Paris Games on dismal note

India became so used to a notable bright spot with a fourth-place finish, but the Indian badminton team, including medal contenders such as PV Sindhu and Satwiksairaj Rankireddy and Chirag Shetty, returned empty-handed from the Olympics for the first time in over a decade. The hopes of a medal were not misplaced, Sindhu was there again eyeing a hat-trick of medals, the ever-tenacious HS Prannoy (men's singles) had finally made it to his debut Olympics, and Ashwini Ponnappa and Tanisha Crasto (women's doubles) seemed in decent form. As for Lakshya and Satwik-Chirag, they were seen as potential podium finishers even before the first match was held. During the Paris cycle, badminton received considerable support too, including 13 national camps and 81 foreign exposure trips, funded under the Target Olympic Podium Scheme (TOPS). The Sports Authority of India's (SAI) Mission Olympic Cell allocated Rs 72.03 crore, the second-largest funding among the nearly Rs 470 crore spent on India's Olympic preparations across 16 disciplines. Despite the significant investment, the results in Paris fell short of expectations, highlighting the unpredictable nature of Olympic competition and also the mental aspect of playing at such an event. Nothing demonstrated it more than Lakshya's implosion first in the semifinals against Viktor Axelsen and then in the bronze play-off against Lee Zii Jia of Chinese Taipei. Sindhu, who had received Rs 3.13 crore in support, was unable to progress beyond the pre-quarterfinals, missing the chance to become the first Indian to win three Olympic medals. "I am a little disappointed as he could not finish it. I am disappointed that we could not even win one medal in badminton. The government, SAI, and TOPS have done their bit. It is high time some of the players also need to take some responsibility," Lakshya's coach and former All England champion Prakash Padukone.

The unexpected defeat of former world number one Satwik and Chirag was the most shocking of all and added to the dismay, as they were considered gold-medal contenders. The government had backed the players extensively, including Rs 26.60 lakh and Rs 9.33 lakh sanctioned for Sindhu and Lakshya's training in Germany and France, respectively. Sindhu, a silver and bronze winner from the past two editions, had a 12-member support team in Saarbrücken during her training ahead of the Games but she failed to overcome He Bingjiao of China. Satwik and Chirag had won two titles in four BWF World Tour finals this year and numerous medals in major events such as 2023 Asian Games, 2022 Commonwealth Games and the 2023 Asia Championships. The government spent a total of Rs 5.62 crores on the celebrated Indian duo for the Paris cycle but they were upset by Malaysia's Aaron Chia and Soh Wooi Yik in the quarterfinals, prompting their Danish coach Mathias Boe to quit coaching. Prannoy, a bronze-medallist at the 2023 World Championships and Asian Games, received Rs 1.8 crore for training but was hindered by Chikungunya ahead of the Games, leading to a loss in the pre-quarterfinals. Ashwini and Tanisha, who received Rs 1.5 crore each in support, exited the tournament after failing to win any match in the group stage. Despite the setbacks, Lakshya demonstrated resilience and skill, finishing fourth -- a notable achievement for an Indian male shuttler. His victories over Indonesia's Jonatan Christie and Chinese Taipei's Chou Tien Chen were commendable, though his losses to eventual champion Axelsen and Zii Jia from comfortable positions exposed some major frailties. As one looks ahead to the Los Angeles Games in 2028, it remains to be seen whether the 29-year-old Sindhu can maintain her fitness. However, there is optimism that Satwik-Chirag and Lakshya will leverage their Paris experience. With emerging talents like Priyanshu Rajawat and Treesa Jolly-Gayatri Gopichand poised to make an impact, India's badminton prospects remain promising for the next four years.

## From Paris to Los Angeles: How city preparing for 2028 Olympics

AP n LOS ANGELES

It's Los Angeles' turn for the torch. Mayor Karen Bass accepted the Olympic flag at the Paris closing ceremony Sunday, before handing it off to a key representative of L.A.'s local business - Tom Cruise - who in a pre-recorded trek via motorcycle, plane and parachute kicked off the countdown to 2028. The city will become the third in the world to host the games three times as it adds to the storied years of 1932 and 1984. Here's a

look forward and back in time at the Olympics in LA. LA'S OLYMPIC TRILOGY: Los Angeles got the 2028 games as a consolation prize when Paris was picked for 2024. Back in 1932, LA hosted its first Olympics. The city was the only bidder for the games at a time marred by the Great Depression and the absence of several nations. Yet memorable sport moments came from athletes including American athlete Babe Didrikson Zaharias, who won golds in the new women's events

of javelin and hurdles. Financial and cultural success gave 1984 a reputation as the "good" Olympics" which made seemingly every major world city want their own. Emphasizing both the modern and the classical with a hand from Hollywood, the games opened with decathlon champion Rafer Johnson lighting the torch, a guy in a jetpack descending into the Memorial Coliseum and theme music by "Star Wars" maestro John Williams.

# New Zealand pick 5 spin options for Tests against Afghanistan, Lanka

PTI n AUCKLAND

New Zealand on Monday named a strong squad, which includes five spin bowling options, for next month's one-off Test against Afghanistan and the ensuing two-match rubber against Sri Lanka.

While the one-off Test against Afghanistan will be played in Greater Noida, India, from September 9-13, the Black Caps will fly to Sri Lanka for the two ICC World Test Championship matches, starting September 18 and 26, respectively.

Veteran pacer Tim Southee will lead the side which includes the likes of Kane Williamson, Devon Conway, Glenn Phillips and Rachin Ravindra, while Tom Latham continues to be the vice-captain.

However, head coach Gary Stead hinted that if conditions call for a different balance, the skipper too may have to sit out for a game or two.

"Test tours to the sub-continent can ask some really tough questions of pace bowlers due to the nature of the pitches and the heat and humidity," Stead said.

"While we're going over with an open mind around conditions, there is an understanding that all our bowling options may be needed across the different Tests.

"Tim and I have discussed this, and the need during these overseas tours to balance the work-loads of the pace

bowlers, including himself, to ensure the team is best served," he added. Spin bowling all-rounder

Michael Bracewell returned to the squad for the first time in 18 months after an Achilles injury, which was followed by a

broken finger in February, had kept him out of action. Bracewell will shoulder the spin duties alongside left-

armers Mitchell Santner, Ajaz Patel and part-timers Glenn Phillips and Ravindra. "Michael had to show plenty of

resilience to rehabilitate from his injuries and force his way back into the BLACKCAPS across all three formats," Stead

said. "His all-round skills, and ability to take the ball away from the left-hander make him

a great asset, especially on what we expect will be turning wickets in India and Sri Lanka," he added.

Pacers Will O'Rourke and Ben Sears have been rewarded with maiden overseas Test call-ups. The 23-year-old O'Rourke claimed 11 wickets in his first two Test outings, including the best match-figures by a New Zealander on Test debut (nine for 93 v South Africa in February) before a groin injury ruled him out of the second Test against Australia.

Sears, on the other hand, debuted in the second Test against Australia in March, claiming four for 90 in the second innings.

New Zealand currently occupy the third spot in the ICC WTC points table behind last edition's finalists, Australia and India.

"We know how important the points in Sri Lanka will be to our chances of pushing for a final spot in England next year. We managed one win from the two Test series in challenging conditions in Bangladesh last December and are keen to build on that.

"The whole squad is looking forward to test their skills in the longest form of the game in the sub-continent," he said.

**SQUAD:** Tim Southee (captain), Tom Blundell, Michael Bracewell, Devon Conway, Matt Henry, Tom Latham, Daryl Mitchell, Will O'Rourke, Ajaz Patel, Glenn Phillips, Rachin Ravindra, Mitchell Santner, Ben Sears, Kane Williamson, Will Young.

## Duleep Trophy first round match shifted to Bengaluru; stars barring Ashwin, Bumrah to play

PTI n BENGALURU

With some of the India regulars, except pacer Jasprit Bumrah and senior spinner Ravichandran Ashwin, likely to appear in the first round of the Duleep Trophy, the BCCI has decided to shift one of the opening matches from Anantapur to Bengaluru. Senior batters Virat Kohli and Rohit Sharma also might get an exemption, and the choice of appearing in the tournament is entirely on them.

The Duleep Trophy was earlier scheduled to kick-off with two sets of first round matches at Anantapur in Andhra Pradesh from September 5, but now one of those games has been shifted to the M Chinnaswamy Stadium here to reduce the

logistical inconveniences. Anantapur is approximately 230 kms away from Bengaluru and the city is not connected via flight.

"The decision has been made to accommodate some of the top players, so that they get a feel of the red-ball cricket ahead of the (Test) series against Bangladesh," a source close to the development told PTI. India are slated to play two Test matches against Bangladesh - from September 19 at Chennai and from September 27 at Kanpur.

While it is up to Rohit and Kohli to play in the event, some other prominent players such as Ravindra Jadeja, Axar Patel, KL Rahul, Shubman Gill, Shreyas Iyer Kuldeep Yadav etc are expected to be available for this tournament fully or

partially. However, Bumrah and Ashwin are unlikely to take part in the tournament at any stage as they are expected to join the India squad directly ahead of the Bangladesh series.

The selectors are also deciding on giving a go to Rishabh Pant in the Duleep Trophy, and if it happens then this will be his first red-ball assignment after coming back from that horrific car accident in 2022. Since his return, Pant has been a part of India's white-ball set-up and the wicketkeeper batter also donned the national jersey in the T20 World Cup.

Mohammed Shami, who has been recuperating from a surgery, will not feature in the tournament.

However, the availability of the top players will also be subject to the dates of the preparatory camp that the team management is mulling to hold in Chennai ahead of the Tests against Bangladesh.

But the decision to shift the match also align with the shared vision of the BCCI and the team management that the top players should feature in domestic cricket competitions whenever they are free from national duty.

It may be recalled that India's T20I skipper Suryakumar Yadav (Mumbai) and out-of-favour wicketkeeper batsman Ishan Kishan (Jharkhand) have made themselves available to play the Buchi Babu Trophy, starting from August 15.

## Graham Thorpe took his own life after battling with depression and anxiety, reveals wife

PTI n LONDON

Former England cricketer Graham Thorpe took his own life after a struggle with depression and anxiety fuelled by his failing health in the last two years, his wife Amanda has revealed.

The 55-year-old passed away on August 5. Thorpe's demise was announced by the England and Wales Cricket Board and now his wife has revealed in an interview to former England captain Michael Atherton that he had a long mental and physical battle with himself before he took his own life.

"Despite having a wife and two daughters whom he loved and who loved him, he did not get better," Thorpe's wife was quoted as saying by "The Times". "He was so unwell in recent times and he really did believe that we would be better off without him and we are devastated that he acted on that and took his own life."

A ceremony was held before the start of a match between the Farnham Cricket Club and the Chipstead Cricket Club last Saturday in memory of Thorpe, which was attended by his wife and their daughters Kitty (22) and Emma (19).

"For the past couple of years, Graham had been suffering from major depression and anxiety. This led him to make a serious attempt on his life in May 2022, which resulted in a prolonged stay in an intensive care

unit," she said. His wife revealed that despite his work assignments, Thorpe continued to suffer.

"Despite glimpses of hope and of the old Graham, he continued to suffer from depression and anxiety, which at times got very severe. We supported him as a family and he tried many, many treatments but unfortunately none of them really seemed to work," she said. The report added that the family is now considering starting a foundation in his name.

Thorpe's daughter Kitty said he was "not the same person" after a point and that he "could not see a way out". "He had loved life and he loved us but he just couldn't see a way out. It was heartbreaking to see how withdrawn he had become," she said.

"It was strange to see this person trapped in the body of Dad. That's why we've been so happy that the many reflections have been about his life before this illness took over. "I am glad that's how everyone does remember him, rightly so, as the complete character he was," Kitty added.

## South Africa and West Indies settle for a draw in rain-hit 1st test

AP n PORT OF SPAIN (TRINIDAD)

Both South Africa and West Indies had hopes of winning the rain-hit first Test before having to settle for a draw.

South Africa set West Indies a target of 298 runs on the fifth and final day at Queen's Park Oval, with Alick Athanaze leading the hosts' chase with 92.

West Indies finished on 201-5 in its second innings as each team started to run out of overs to get the required runs or wickets amid light checks in the evening session.

South Africa had earlier resumed on 30-0 from five overs in its second innings - an overall lead of 154 - and declared at 173-3 from 29

overs. Tristan Stubbs hit 68 and was bowled by Kumar Roach on the last ball before the declaration, which came in the morning session.

Rain had affected every day so far - only 15 overs were bowled on the first day - and lunch was called five minutes early Sunday with West Indies 11-1. The start of the afternoon session was also delayed and, despite Athanaze reaching his half-century, a draw still seemed the likeliest result with West Indies 121-3 at tea. The hosts needed 177 more runs in a maximum of 34 overs remaining.

West Indies quickly lost Kavem Hodge, caught behind for 29 in a wicket maiden for left-arm spinner Keshav Maharaj.

Jason Holder came out to join

Athanaze at 127-4 and the pair shared a 65-run partnership before Maharaj effectively ended the chase having Athanaze caught for 92 after top-edging to Ryan Rickelton. With no more than 10 overs left and West Indies at 192-5, still 106 runs from victory, the hosts proceeded to score only three runs in the next three overs.

The draw was agreed after Holder (31 not out) smashed a six to lift the West Indies to 201-5.

Maharaj took 4-88 in 26.2 overs. South Africa scored 357 in its first innings and West Indies 233.

The second and final Test starts on Thursday at Providence, Guyana.

# High hopes, disappointing show: Indian boxers come a cropper at Paris

PTI n NEW DELHI

The Indian boxing contingent, that featured two reigning world champions in Nikhat Zareen and Lovlina Borgohain, entered the Olympics hoping for an unprecedented medal haul, only to crumble under pressure, leaving behind a trail of disappointment in a medal-less campaign.

Boxing became a medal hope for India after Vijender Singh's historic bronze at the 2008 Beijing Games. MC Mary Kom added a women's bronze to it in 2012.

Although the 2016 Rio Games saw the boxers return without a medal, Borgohain clinched a bronze at the Tokyo Olympics to revitalise the sport.

Expectations were high from Paris and observers of the game felt at best one, if not two medals, could be expected from the six boxers who qualified.

Two-time world champion Zareen (50kg), Borgohain (75kg), and 2023 world champion bronze-

medallist Nishant Dev (71kg) were all seen as strong podium contenders.

**POOR SHOW:** But when it came to actual competition, the Indians never seemed to have the momentum needed to go deep into the tournament.

With the exception of Nishant, who was denied a podium finish after a contentious result in his quarterfinal, the rest struggled with Borgohain and Zareen unable to overcome formidable opponents, and Amit Panghal (51kg) failing to match his previous form. Borgohain, Panghal and Nishant needed just two wins to secure medals.

Although Borgohain and Zareen were handed challenging draws, with both encountering formidable opponents in their second rounds. However, given that they entered as reigning world champions, the two were expected to overcome such challenges or, at the very least, put up a resilient fight.

However, they succumbed rather meekly to their Chinese counterparts.

Zareen, who was considered a potential gold medallist, was markedly off-colour in the second round and later revealed that she had been taking some extreme measures to stay inside the prescribed weight limit, that left her exhausted for actual competition.

She opened her campaign with a scrappy win and then lost to Wu Yu in the second round. Borgohain once again fell to old foe Li Qian, who seems to have the Indian's number, having defeated her in three of their four meetings. Among the men, Panghal looked a pale shadow of his

sharp and aggressive self against Zambia's Patrick Chinyemba, who lost in the very next round. Jaismine Lamboria, who came in after dropping down to 57kg weight class from her more comfortable 60kg division, expectedly lost to Tokyo Olympics silver-medallist

Nesthy Petecio. Nevertheless, Preeti Pawar (54kg) delivered a commendable performance in her bout against reigning world silver-medallist Yeni Marcela Arias.

**GOVERNMENT FUNDING:** A total of 17 national camps and 23 foreign exposure trips

were conducted in the build-up to the Paris Olympics for nine core TOPS (Target Olympic Podium Scheme) boxers and 20 development pugilists. Sports Ministry spent Rs 60.93 crore on this.

Significant funds were also allocated to individual athletes, most notably Rs 91.71 lakh for Zareen, Rs 81.76 lakh for Borgohain, Rs 65.90 lakh for Panghal, and Rs 65.86 lakh for Nishant.

**COACHING INSTABILITY AND SELECTION POLICY:** The Boxing Federation of India's inability to provide a stable environment was a key issue in the build-up to the Games. Since the Tokyo Games, coaches have come and gone, denying the boxers the stability that is crucial to an Olympic campaign.

Director Raffaele Bergamasco was the first to depart right after Tokyo followed by men's HPD Santiago Nieva in May 2022. Narendra Rana succeeded CA Kuttapa as the men's head coach, only for Kuttapa to be

reinstated later. Bhaskar Bhatt was briefly appointed as the women's head coach before he quit the position in June 2023 while HPD Bernard Dunne, who was appointed in October 2022, stepped down from his post four months before the Olympics, leaving Indian boxing in a lurch. Foreign coach Dmitriy Dmitruk was the last coach appointed in February last year.

The new selection policy that replaced the trial system was also a talking point. Panghal remained out of the national team until the last qualifier with Deepak Bhoria getting the nod based on the assessment system that relied on camp performance as well as competitive results to evaluate the boxers. However, Panghal was sent to the final qualifier, and while he secured a quota, the Haryana boxer struggled to shake off the rustiness after being away from international competition for an extended period.
