ORGANISATIONS MUST ADDRESS EMPLOYEES' MENTAL HEALTH ISSUES SAYS FORMER IT OFFICIAL

SPARRING STALLS SANSAD AGAIN

PIONEER NEWS SERVICE ■ NEW DELHI

Parliament continued to be a battle-field virtually for the political parties on eleventh consecutive day on Wednesday as both ruling and Opposition benches trade charges against each other blaming neither of them are allowing smooth functioning of the Winter Session. With a brief functioning of the Lok Sabha which passed a bill to amend Railway Laws, Bharatiya Janata Party (BJP) led National Democratic Alliance (NDA) parties of the Treasury bench were at par with the Congress led Opposition INDIA Bloc in sloganeering in and out of the Lok Sabha and Rajya Sabha causing disruptions in both the Houses which ultimately led to adjournment of the day. Congress-led INDIA Bloc and BJP soon after the adjournments held Presser to flag concerns over non functioning of the Winter Session. Parliament proceedings were washed out in the first week of the winter session starting November 25 due to protests by Opposition members demanding discussion on issues like the indictment of industrialist Gautam Adani in a United States court and Sambhal violence and since last week, the ruling BJP MPs have been raising the issue of alleged nexus between Soros and the Congress posing a threat to national security. While several Opposition members alleged Rajya Sabha Chairman Jagdeep Dhankhar's "partisan" conduct which prompted them to move a

Prime Minister Narendra Modi with Defence Minister Rajnath Singh and others in the Lok Sabha during the Winter session of Parliament, in New Delhi

notice for his removal as vice president and accused him of being the "biggest disrupter" whose conduct in the House has harmed the country's dignity, BJP alleged Congress was attempting to "defame" Dhankhar and "insulting" the Jat community. Alleging that politics has taken precedence over rules in the Upper House of Parliament, Congress president Mallikarjun Kharge said the chairman's conduct has been contrary to the dignity of the high post he holds. Several Opposition MPs greeted their BJP counterparts in Parliament premises with the tricolour in one hand and a red rose in the other, as they urged the ruling party to ensure that the House functions and all issues, including the Adani matter, are discussed. This is the latest in a series of unusual daily

Lok Sabha passes Bill to amend Railway Laws

Lok Sabha on Wednesday passed a Bill to amend Railway laws with the Government insisting that it will not lead to the national carrier's privatisation. Responding to a debate on the Railway Amendment bill, Railway Minister Ashwini Vaishnaw said in the Lower House that a fake narrative was set afloat that the amendment would privatise railways. "Their (Opposition) fake narrative on the Constitution has failed... Now this will also fall flat," he asserted. The Bill was passed by a voice vote after debate which could not be held earlier due to frequent disruptions of House proceedings during the last week. "A few members have said the Bill will lead to privatisation of railways, an attempt has been made to set a fake narrative. I want to appeal to them with all sincerity not to do this, their one fake narrative about the Constitution has already failed," Vaishnaw said. The Railways (Amendment) Bill 2024 which seeks to enhance the functioning and independence of the Railway Board was introduced in the Lok Sabha during the previous Parliament session.

demonstrations led by the Congress over the Adani issue. Leader of Opposition in the Lok Sabha Rahul Gandhi also offered the tricolour in the form of a card to Defence Minister Rajnath Singh when the latter was entering the main Parliament building. Rahul also met Speaker Om Birla and urged him to expunge remarks made by BJP MPs against him, and ensure the House functions smoothly. Addressing a joint Press conference by the INDIA Bloc leaders at the Constitution Club, Kharge alleged that Dhankhar is working as a government spokesperson and acting like a school headmaster, often sermonising experienced Opposition leaders and preventing them from speaking in the House. "The Rajya Sabha chairman's conduct has been contrary to the dignity of the post he holds. He targets Opposition leaders and often praises the government," Kharge said. "The Rajya Sabha chairman's conduct in the House has harmed the country's dignity. We have no hesitation in saying that the biggest disrupter in the Rajya Sabha is the chairman himself," Kharge said. The Congress chief said since 1952, no resolution has been brought against the vice president under Article 67 of the Constitution as those who held the post previously never indulged in politics and remained unbiased. He said the Opposition parties have nothing against Dhankhar, "but he left us with no option but to go ahead with the notice for his removal".

Ensure manual sewer cleaning completely eradicated, says SC

PIONEER NEWS SERVICE ■ NEW DELHI

Observing that much needed to be done, the Supreme Court on Wednesday directed the Centre to file an action taken report on the compliance of its direction for ensuring manual sewer cleaning was completely eradicated in a phased manner. A Bench of Justices Sudhanshu Dhulia and Aravind Kumar asked additional solicitor general Aishwarya Bhati, appearing for the Centre, to call a meeting of the Central Monitoring Committee with all the stakeholders within two weeks. The Committee reviews the implementation of the Prohibition of Employment as Manual Scavengers and their Rehabilitation Act, 2013 (MS Act, 2013). "The order passed by the court (in 2023) said that considering the development of technology, it was entirely possible to eradicate manual scavenging and employment of labour for sewer cleaning. This has not been done. From the report, it appears that much needs to be done," the Bench said. Senior advocate K Parameshwar, who is assisting the SC as Amicus Curiae, submitted that 40 deaths occurred due to sewer

cleaning and cleaning septic tanks in 2024 but no FIR was filed. He flagged most of the committees as mandated under the Act were not in place, and pointed out non-compliance of the laws. The matter would come up in January, 2025. Observing a large segment of India's population, involved in manual scavenging, had remained unheard and muted, in bondage and systematically trapped in inhumane conditions, the top court in 2023 directed the Centre and states to take appropriate measures, to ensure that manual sewer cleaning was completely eradicated in a phased manner. The SC had asked the Centre to issue guidelines and directions that any sewer-cleaning work outsourced or required to be done by, or through contractors or agencies, did not require individuals to enter sewers. The SC directed that Governments pay Rs 30 lakh compensation to the next of kin of those who died while cleaning sewers. It directed all States and Union Territories to make sure all departments, agencies and corporations ensured the guidelines framed by the Centre were incorporated in their guidelines. The SC had directed in the case of sewer victims suffering from disability, the minimum compensation won't be less than Rs 10 lakh. If the disability rendered the victim economically helpless, the compensation should not be less than Rs 20 lakh, it said.

Yellow alert, cold wave conditions in Delhi: IMD

RAJESH KUMAR ■ NEW DELHI

For the first time after the shift in the season, Delhiites experienced winter chill as the minimum temperature dipped to the season's lowest on Wednesday at 4.9 degree Celsius in Safdarjung station, dropping five degrees below normal this winter. There has been a three-degree Celsius fall in the minimum temperature over Delhi-NCR during the past 24 hours. The Maximum and Minimum temperatures over Delhi are in the range of 20 to 23 degrees Celsius and four to eight degrees Celsius respectively. According to data, the lowest minimum temperature during this period was recorded on December 6, 1987, at 4.1 degrees Celsius. The IMD has issued a yellow alert, warning of similar cold wave conditions for the next two days. According to the data, in December 2023 and 2022, there were no cold wave days. However, November 2020 saw cold wave conditions with the minimum temperature plunging to 7.5 degrees Celsius.

Protests continued for the second day over alleged vandalism of a replica of the Indian Constitution, in Parbhani, Maharashtra

Protests turn violent in Parbhani city

T N RAGHUNATHA ■ MUMBAI

A replica of the Indian Constitution was vandalised by some miscreants near Dr. BR Ambedkar's statue located outside the local railway station, Parbhani city in Marathwada erupted once again on Wednesday, as protesters resorted to large-scale violence, arson and stone-pelting, amid a bandh called by the Ambedkarite activists. The protests turned violent as an angry mob broke into the District Collector's office and went on a rampage, damaging furniture and window panes, while some protesters indulged in acts of arson and stone-pelting in the neighbourhood. Agitated mobs also hurled stones near the district collector's office, while they set ablaze some vehicles, burnt tyres and garbage on the roads. Some of the violent protesters were seen moving around the place wielding sticks, rods and stones. The police burst tear-gas shells near the district collector's office to quell the irate protesters. The protesters set on fire a huge pile of PVC pipes kept in front of a shop. "The police fired tear-gas shells and dispersed the rioting mobs," Acting Superintendent of Police Yeshwant Kale said. Deputy Inspector General of Police Shahji Umap, who heads the Nanded Range, rushed to Parbhani to review and control the situation in Parbhani city.

Want a drink in Delhi? Sarkari ID proof nikalo!

RAJESH KUMAR ■ NEW DELHI

The Delhi government's excise department has directed hotels, clubs and restaurants serving liquor to verify the age of their clients through hard copies of government-issued identity proofs after violations of the legal drinking age norm were detected. In Delhi, liquor is served only to persons aged 25 years and above. Delhi is now the only metropolitan city with a high drinking age, even in Mumbai, only hard liquor is barred for those under 25, while wine and beer is allowed at 21. In major global cities such as New York and London, the drinking age is 21 and 18 respectively. Interestingly, the voting age is 18, while the minimum age of marriage for women is 18 and for men it is 21 in India. The excise department of the Delhi government, during routine inspections by its teams in recent days, found customers younger than 25 years having alcohol at bars, clubs and restaurants. The inspections also revealed that some customers were consuming liquor pretending to have completed 25 years. Complaints were also received by the department that some excise licensees were serving liquor to underage persons, according to a circular issued by the excise department. As per the data of the excise department, there are around 1,100 HCR (hotel, club, restaurant) category premises in the city including nearly 700 restobars. The hotels and clubs with excise licence number around 165 and 50. Strangely most HCR violates the drinking age norms while serving liquor. Under the Delhi Excise Act, 2009, no person or

licensed vendor or his employee or agent will sell or deliver liquor to any person apparently under the age of 25 years for personal or others' consumption. The violations of the age restriction norms were reviewed by the department. "All the licence holders of hotels, clubs, restaurants (HCR) are hereby directed to be more careful and to not serve liquor to any person under the age of 25 years without verifying the age through government-issued IDs," stated a circular issued by the department. "In this regard, attention is invited to section 23 of The Delhi Excise Act, 2009 which reads as, "Prohibition of sale to certain persons, - No person or licensed vendor or his employee or agent shall sell or deliver any liquor to any person apparently under the age of Twenty Five years, whether for consumption by self or others," Deputy Commissioner (Excise) Tanvir Ahmed said in a circular issued to hotels, clubs and restaurants. "All the license holders are advised to verify customers' age only with the

physical ID instead of virtual IDs shown on the mobile phones (except govt. portals for eg. Digilocker) to minimize the chances of verification of age through fake/edited digital IDs," read the circular. The legal drinking age was a lingering issue in Delhi as it was lower in the NCR cities of Nodia, Gurugram, Ghaziabad and Faridabad. Under the excise policy 2021-22, now scrapped, there was a plan to lower the legal drinking age to 21 years but it failed to materialise as the policy itself came under attack over allegations of corruption and violations of rules. Further, in pursuance of a campaign launched recently by Delhi to make the city drug-free in the next three years, the excise department has directed the licensees to take e-pledge on its official website and conspicuously display the certificate at the hotels, clubs and restaurants. The department has advised the licensees to create awareness among their staff and customers to cooperate in stopping drug abuse and stay away from its use to have a healthy life. "To curb the menace of drugs, it is decided to start a drive wherein all the existing licensees are requested to take e-pledge on the website www.pledge.mygov.in/againstdrugabuse/ and generate the certificate and to display the same certificate in the restaurant at conspicuous place to be viewed easily by the public/customers visiting the Hotels/Clubs/Restaurant. Further, it is also advised to all the licensees to make aware all their staff and customers to consciously cooperate in stopping drug abuse and stay away from drugs to live a healthy life," a notification said.

When criminals forget to wear a mask...

STAFF REPORTER ■ NEW DELHI

Using the advanced Facial Recognition System (FRS), the Delhi Police has arrested three people who secured a loan of Rs 75 lakh by mortgaging a property and preparing forged documents. The police arrested Pankaj Sachdeva alias Roshan Manchanda (61), who had fabricated his property documents and identification credentials to secure the loan. The arrest also exposed the involvement of two accomplices, Suhail Chauhan and Nitin Verma, who worked as freelance loan agents. According to the police, the case was registered in 2019 on the complaint of Harminder Kaur Anand, a Bengaluru-based resident, who alleged that the property she purchased in 2011 at Rana Pratap Bagh in Northwest Delhi had been fraudulently mortgaged to a private bank for a loan of Rs 75 lakh. "The woman was shocked to learn about the fraud during a visit to the property in 2018 when neighbours reported suspicious activities and her son-in-law discovered a loan notice pasted on the property," Deputy

Commissioner of Police (northwest) Abhishek Dhania said. The officer further said that the fraudsters had prepared forged documents to mortgage the property and availed the loan subsequently diverting the funds to multiple accounts under fake identities. The gang specifically targeted long-vacant properties, creating a chain of fake documents to establish ownership. They then used these forged papers to secure loans from financial institutions. The funds were swiftly transferred to various accounts to avoid detection, making it difficult to trace the money trail, he said.

Desi 'Jugaad' and more make it to a new dictionary

PIONEER NEWS SERVICE ■ NEW DELHI

As the country's youth march ahead in the fast changing digital era, 47 words like 'Blue carbon', 'Culturonomics', 'Digital nomad', '15-minute city' and 'Flox' have made it to a new dictionary acknowledging India's prowess. The dictionary is titled "India in Future Tense: 47 Words for 2047". Other words like 'Jugaad' and 'Gamification', part of everyday lingo or language in a country, have gained international recognition of sorts. This phenomenon came about following bright Indian young men and women studying and or working in elite institutions and industry in Europe and United States over the last few

years. Interaction with peers from those countries has obviously led to these words slipping into daily usage while communicating and finding wide acceptance. The dictionary, which identifies the key trends that will be dominant when India turns 100 in 2047, aims to reflect values that will define the nation's journey: "inclusivity, sustainability, and technological advancement". It is brought out by the United Nations Foundation and the Council on Energy, Environment and Water (CEEW). "It is designed to empower young minds with the knowledge and language needed to shape a sustainable and prosperous India by 2047. As we move forward, new nouns, verbs and phrases will be essential to describe our

living environment and evolving word," reads the description of the dictionary, which is a part of the initiative by the 'Next Generation India Fellows'. While 'Blue Carbon' is the carbon that is absorbed from the atmosphere and stored in the ocean, 'Culturonomics' is a portmanteau of culture and economics, which describes the global transmission of culture through varied entertainments such as entertainment, food, sports and more. Similarly, a 'Digital Nomad' is someone who uses digital technologies to work remotely while embracing a nomadic lifestyle, a '15-minute city' places all essential services within a 15-

CM launches Jan Kalyan Abhiyan to ensure benefits to citizens

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav has said that it is a happy coincidence that on the occasion of Gita Jayanti, Jan Kalyan Parv and Mukhya Mantri Jan Kalyan Abhiyan is being launched in the state. Bhoomi puja and dedication of many development works will take place in the Jan Kalyan Parv, which will run from December 11 to 26.

Under the Mukhya Mantri Jan Kalyan Abhiyan, from today to January 26, 2025, a door-to-door survey will be conducted to ensure that the benefits of 34 beneficiary-oriented schemes, 11 target-based schemes, and 63 services are provided to the poor, youth, farmers, and women by providing new opportunities. Every eligible person will be linked to public welfare

schemes through the campaign. On the inauguration of the Jan Kalyan Parv, Rs 1,572 crore was transferred to the accounts of 1 crore 28 lakh Ladli Behnas of the state, and Rs 350 crore for gas cylinder refilling was also transferred to their accounts. In the Social Security Pension Scheme also, Rs 334.38 crore was transferred to the accounts of 55 lakh beneficiaries with a single click. Chief Minister Yadav extended his best wishes to the Behnas for the Jan Kalyan Parv and Mukhya Mantri Jan Kalyan Abhiyan and Mukhya Mantri Jan Kalyan Abhiyan and transfer of funds. On the occasion of Gita Jayanti, Yadav also greeted the Acharyas and Batus who made the world record of reciting Gita.

On completion of one-year tenure of the state government, Chief Minister Yadav inaugurated the state-wide Jan Kalyan Parv and Mukhya Mantri Jan

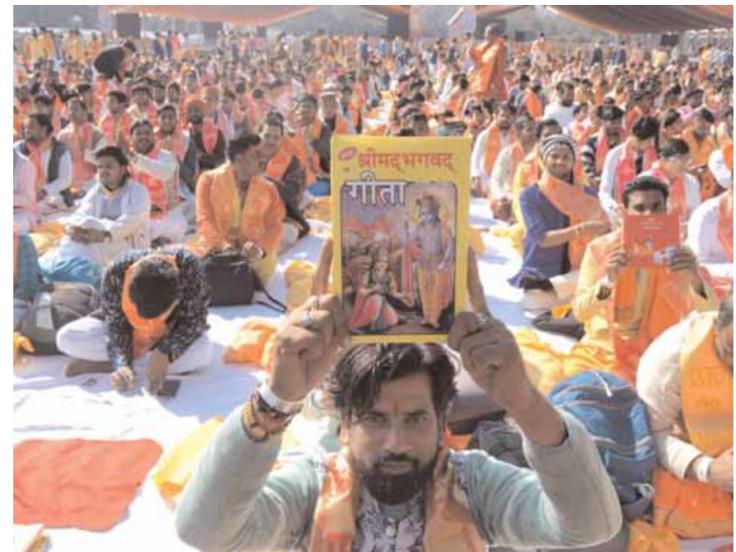

Kalyan Abhiyan by lighting the lamp from Lal Parade Ground. He also showered flowers on the saints. On this occasion, Deputy Chief Minister Rajendra Shukla, Deputy Chief Minister Jagdish Deora, Micro Small and Medium Minister Chaitanya Kashyap, Culture and Tourism Minister Dharmendra Singh Lodhi, Backward Classes and Minority Welfare Minister (Independent Charge) Krishna Gaur, Sports and Youth Welfare Minister Vishwas Sarang, Hitanand Sharma, Rameshwar Sharma, MLA Bhagwandas Sabnani, Mayor Malti Rai, MLA Municipal Corporation Chairman Kishan Suryavanshi, Sumit Pachauri, other public representatives and a large number of devotees were present. Yadav said that people of all countries are eager to get life lessons and guidance from

Shrimad Bhagwad Gita. Google search engine shows that the maximum curiosity in the world is regarding Shrimad Bhagavad Gita. Among all the religious texts of the world, Gita is the only text that gives the message of the path of action, path of devotion, and peace. Sanatan culture and Shrimad Bhagavad Gita pave the way for peace in the turmoil of life.

The sentences 'Victory to righteousness, destruction of unrighteousness, harmony among living beings and welfare of the world' express the essence of our culture. Sanatan culture envisions a religion-based lifestyle and interpersonal relationships and our culture is based on realizing it. It is important to follow the code of conduct in Sanatan life culture. Minister of State (Independent Charge) for Culture, Tourism

and Religious Trusts and Endowments, Shri Dharmendra Bhavsingh Lodhi said that on the occasion of International Gita Mahotsav under the leadership of Chief Minister Yadav, the life values and teachings of Lord Shri Krishna is being spread to the people through Shrimad Bhagwad Gita. Shrimad Bhagavad Gita is the medium of light of knowledge in life. Shrimad Bhagavad Gita gives inspiration and direction not only to India but to the entire world.

He said that Gita provides education and strength to face struggles in life. He said that such teachings have been given by Lord Shri Krishna through the religious scripture Gita. He urged everyone to take a pledge to keep Shrimad Bhagwad Gita in their home and workplace and recite it regularly.

Rape accused Dy Collector gets anticipatory bail

STAFF REPORTER ■ BHOPAL

Indore bench of Madhya Pradesh High Court has granted anticipatory bail to Bhopal's Deputy Collector Rajesh Sorte, accused in the rape case, but when will he return to office remains unclear as none of the officers of the Collectorate has answer to this.

Sorte was on leave till 30 November, he had also applied for it, but after that he remained on leave without application till December 10. Neither the application reached the Collector nor it was received by branch in-charge.

Branch in-charge and Joint Collector Iqbal Mohammad said Deputy Collector Sorte's leave application was till 30 November. The branch has not received the application after this.

After the victim's complaint a case has been registered against Deputy Collector Sorte in Pachor

police station of Rajgarh district on November 14 on the charge of rape. A woman had complained against Sorte on October 25. The police had taken the matter under investigation and when police failed to register a case even after 19 days, on November 14, the victim lodged an e-FIR on the portal.

The Deputy Collector was not coming to the office since the case was registered. His leave application was also not received after November 30. On the other hand, his chamber opens every day, but the chair remains vacant. An anticipatory bail petition was filed by Deputy Collector Sorte in the Sarangpur court. It was rejected by the court. After getting information about the case, the former Chief Minister had issued letters. After this, a petition was filed in the High Court. From here, anticipatory bail was granted on December 10.

The case has been registered, so information was not given. If the officers are to be believed, they have come to know about the case being registered against Sorte through the media only. No official information has been received from the police.

However, since the case was registered, the charge of Sorte has been handed over to other officers, so that the work is not affected. Other works including public hearing were the responsibility of Sorte.

Former Chief Minister Digvijay Singh has issued two letters in this case demanding arrest and suspension. He has written one letter to the Additional Chief Secretary of Madhya Pradesh Government and the other letter to Rajgarh SP.

In this, he had demanded suspension of the Deputy Collector by conducting a departmental inquiry for violating the Civil Services Conduct Act.

43-year-old woman sexually assaulted by live-in partner

STAFF REPORTER ■ BHOPAL

A 43-year-old woman in Bhopal has filed a complaint against her live-in partner who continued to sexually assault her and refused to marry her.

A young man who studied with her during college days stayed with her promising marriage. After being in a relationship for 14 years, the accused has now refused to marry her. Recently, the accused deceived the woman and prepared to marry another girl. When the woman came to know about this, she lodged a complaint in the women's police station. The police said that the 43-year-old woman is originally from Pipariya in Hoshangabad district, 18 years ago in 2006, she came to Bhopal to study engineering and took admission

in a private engineering college. During her studies, she fell in love with a classmate named Tejnarayan Sharma. The accused started living in a live-in relationship with the victim by promising marriage. After completing their studies, both of them went to Pune, Bangalore and Hyderabad to work where they lived in a live-in relationship. Tejnarayan kept sexually exploiting the girl by giving false promises of marriage. Recently, the girl came to know that Tejnarayan is preparing to marry another girl.

As soon as the woman came to know about the preparations for marriage, she pressured Tejnarayan to marry her, but he refused to marry her. After this, the girl came to Bhopal and complained about the matter in the women's police station.

Houses constructed for 8.25 lakh beneficiaries

STAFF REPORTER ■ BHOPAL

Construction of houses for 8 lakh 25 thousand needy beneficiaries has been completed under Pradhan Mantri Awas Yojana Urban in Madhya Pradesh so far. In the first phase of Pradhan Mantri Awas Yojana, 9 lakh 45 thousand houses have been approved in the state.

Madhya Pradesh has remained at the leading position in the country during the entire period of implementation of the first phase of Pradhan Mantri Awas Yojana Urban. Many urban bodies of Madhya Pradesh and the state have also received awards at the national level for effective implementation of the scheme. The credit for the effective implementation of Pradhan Mantri Awas Yojana Urban in the first phase goes to the many

innovations made by the state government to provide housing at minimum rates. A total amount of Rs 23 thousand 600 crore including central share and state share grant of Rs 19 thousand 700 crore for the construction of sanctioned houses and Rs 3 thousand 900 crore as interest subsidy for the Credit Linked Subsidy Scheme (CLSS) component has been approved. Rs 22 thousand 800 crore has been released to the beneficiaries so far.

The Urban Development and Housing Department has launched the Pradhan Mantri Awas Yojana Urban 2.0. The benefit of this scheme will be given to those beneficiaries who have not received the benefit of the housing scheme due to some reason. Urban Development and Housing Minister Kailash Vijayvargiya has given instructions to the field staff of the department

for the effective implementation of the scheme. Information related to the application of Pradhan Mantri Awas Yojana Urban 2.0 can be obtained from the nearest urban bodies.

For wide publicity of the scheme, the Central Government has also uploaded the information on the Unified Web Portal. There are 4 types of components in Pradhan Mantri Awas Yojana Urban 2.0. Therefore, beneficiaries can select the component as per their eligibility and requirements while applying. A scheme-related directory can also be obtained from https://pmyamis.gov.in/PMA_YMIS2_2024/PmyaDefault.aspx. Under Pradhan Mantri Awas Yojana Urban 2.0, a target has been set to construct one crore houses in the country and 10 lakh houses in Madhya Pradesh.

Member of gang selling bank accounts arrested

STAFF REPORTER ■ BHOPAL

Bhopal police have arrested member of a gang that sells bank accounts to cyber criminals, accused used to sell bank accounts for Rs 10,000 each. These bank accounts are opened on the documents of poor labourers.

On Wednesday, the police produced the arrested accused Atif Khan (35) in the court and sought his remand. He was released on bail by the court.

Atif is a resident of Lalitpur in Uttar Pradesh. His gang leader Ajay Sharma and member Pankaj Sen are absconding. Both are residents of Jhansi (Uttar Pradesh).

It is being claimed that two mobile phones, bank kits of accounts opened fraudulently, passport and other documents have been recovered from accused Atif. However, his getting bail easily has also

raised questions on the police investigation.

Ayodhya Nagar police station TI Mahesh Lillare said, 'Accused Atif is a fraudster of a cyber thug gang and a gang that exchanges currency fraudulently. During interrogation, he told that he has been living on rent in the Kolar area of Bhopal for 1 year.

He used to take documents of people living in slum areas by luring them to get loans at low interest rates. After this, he used to open accounts in their name in Federal Bank MP Nagar and sell them. Police have seized passbooks of four bank accounts opened fraudulently, fake SIM, passport copy from him.

Accused Atif had come to Bhopal on Ajay's behest. Ajay had told him to develop trust and influence the slum dwellers and target Ren Basera and laborers' pitha (where laborers gather). Obtain their documents by

promising to get them loans at low rates.

The accused was doing the same. He used to deceive the labourers that he will open an account on their documents, and in return for using this account, they will be given Rs. 5000 per month. All the documents related to the bank account will be returned after the work is over.

The accused used to come to the shop located near Meenal Gate No. 2 in the city for the past several days and was luring the labourers. Two labourers agreed to open accounts under his influence. Both of them handed over their documents to the accused.

On the information of the informer, the police arrested the accused on Tuesday. The police said that information is being gathered about how many accounts the accused has sold in the past by opening them fraudulently.

CM greets Indian team on its unprecedented performance

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav has extended heartfelt greetings and good wishes to the Indian team for its unprecedented performance and winning 55 medals at the 10th Asia-Pacific Deaf Games 2024 in Kuala Lumpur. This competition was held from 1 to 8 December.

Chief Minister Yadav said that the talented players of India have won a total of 55 medals by giving the best performance in the Asia Pacific Deaf Games, which has enhanced the pride of the country. Chief Minister Yadav has wished the Indian team to continue its success streak uninterrupted.

AIIMS treats Chronic Thromboembolic Pulmonary Hypertension case

STAFF REPORTER ■ BHOPAL

The AIIMS Bhopal has achieved a significant milestone by successfully performing a rare and complex surgery to treat a 27-year-old patient diagnosed with Chronic Thromboembolic Pulmonary Artery Hypertension. This procedure highlights AIIMS Bhopal's role as the only state-run hospital in Madhya Pradesh capable of handling such complex cases. The patient initially admitted with sudden shortness of breath and a persistent cough at a local hospital.

Despite symptomatic management, his condition did not improve, prompting his referral to AIIMS Bhopal. The diagnosis revealed Chronic Thromboembolic Pulmonary Artery Hypertension (CTEPH). CTEPH is a rare and serious condition in which blood clots that have formed in the lungs over time cause high blood pressure in the lungs.

This leads to strain on the heart, affecting its ability to pump blood efficiently. If not treated, CTEPH can result in severe complications, including heart failure. AIIMS Bhopal ED Prof Ajai Singh emphasized the impor-

ance of this achievement, saying, "This successful surgery is a testament to our team's dedication and expertise in advanced cardiac care. As the only government hospital in Madhya Pradesh equipped with ECMO (Extracorporeal Membrane Oxygenation), we are setting new benchmarks in patient care. The use of ECMO in such complex surgeries underscores our commitment to adopting cutting-edge medical technologies for saving lives."

During the surgery, the patient's blood circulation was completely stopped to enable precise intervention. Post-surgery, the patient was placed on ECMO to support his lungs and heart during recovery.

This critical support system ensures vital organ function, particularly during complex cardiac procedures. The surgery was carried out under the supervision of Head Cardiothoracic Surgery Department Dr. Yogesh Niwariya. The surgical team included Dr. M. Kishan, Dr. Surendra Yadav, Dr. Rahul Sharma, Dr. Vikram Watti and Dr. Aditya Sirohi. From the anaesthesia team, Ms. Pooja Singh and perfusionists Mr. Vedant Inamdar as well as Miss Sushma Singh were part of this operation.

Schools to open after 9 AM

Bhopal: In a move that brings relief to students, the district administration on Wednesday told school principals to ensure that their institutions do not open before 9 AM.

The orders come amidst an intensifying cold wave that left young scholars shivering as they queued up at their bus stops in the morning. Making it mandatory for all schools in the district, the orders stated that "all government, private, CBSE, and other board-affiliated schools" must comply.

The orders, however, made an exemption for examinations, which will be held in accordance with pre-decided schedules. While most parents welcomed the move, some others said that the shift in school timings will disrupt schedules and force them to seek alternative transport arrangements for their wards.

Speaking to The Pioneer, District Education Officer (DEO) Narendra Kumar Ahirwar said that refusal to abide by the new schedule will result in action against the schools. "As the orders come into force tomorrow (Thursday) morning, we will monitor the situation and forward reports of non-compliance to the District Collector for further action." After days of slightly warmer conditions caused by cyclone Fengal, the state capital has witnessed a considerable drop in the mercury this week.

Patwaris on mass leave to protest suspension of colleagues

STAFF REPORTER ■ BHOPAL

Two days after Collector Kaushalendra Vikram Singh placed three Patwaris under suspension, over 100 of their colleagues went on mass leave in protest of what they termed as 'unilateral action' on the part of the district administration.

The protest by the Patwaris comes in the wake of the suspension of their colleagues Kishor Dangi, Pawan Shukla, and Nidhi Nema.

The three were allegedly operating out of private offices, where they sought bribes from landowners to fulfil official responsibilities. Patwaris have long remained the favourites of the outdated land revenue system, which places immense power in their hands. Their unbridled control of the land revenue system had Chief Minister Mohan Yadav remark that they wielded more power in their jurisdictions than even senior bureaucrats.

Entrusted with the upkeep of land records at the Circle or 'Halqa' level for centuries, booming real estate in urban areas has seen Patwaris emerge as deal-makers for land sharks who create large packets of real estate known as 'Chaks' before passing

them on to developers.

It is an open secret that not even the most straightforward land record or revenue work can be completed without greasing the palms of these frontline revenue functionaries, who often stall proceedings using their in-depth knowledge of real estate intricacies.

Despite being cognisant of their murky dealings, successive governments have chosen to look the other way, rather than taking on the herculean task of freeing the revenue system from their ever-expanding tentacles.

Meanwhile, members of the Prantiya Patwari Sangh, a union of the revenue functionaries, said that 110 Patwaris were on a three-day mass leave as Collector Singh issued suspension orders without giving their colleagues a chance to present their side of the story.

Youth Parliament organised at Demonstration School

Bhopal: Youth Parliament was organized at the Demonstration Multipurpose School, Regional Institute of Education (RIE), Bhopal, under the auspices of the Pandit Kunjjilal Dubey Rashtriya Sansadiya Vidyaapeeth, Bhopal. The event witnessed the gracious presence of the Honourable Pradhman Gobil, Councillor Bhopal Municipal Corporation, as the Chief Guest. The jury panel comprised Dr.

Pratima Yadava, Director, Pandit Kunjjilal Dubey Rashtriya Sansadiya Vidyaapeeth; Ramesh Mahajan, Deputy Secretary, MP Vidhan Sabha Secretariat; Shri Rajeshwar Natha Pathak, Assistant Director, Directorate of Public Instruction; and Mrs. Anita Gandhi, Yuva Sansad Incharge. Dr. Ishwant Kaur, Headmistress of the school, welcomed the Chief Guest and dignitaries. During the program, students

enthusiastically assumed roles such as Prime Minister, Speaker, Council of Ministers, Opposition Leaders, and Members of Parliament. They engaged in debates, discussions, and voting procedures that accurately reflected the workings of the Indian parliamentary system. The primary objective of the event was to provide students with a practical understanding of democracy, governance, and civic responsibilities.

MP shivers with biting cold, Pachmarhi records 1.8 degrees

STAFF REPORTER ■ BHOPAL

Shivering with severe cold, the state recorded temperatures nearing freezing in Pachmarhi at 1.8 degree Celsius on Tuesday, and several regions experienced intense cold day conditions on Wednesday. The Met has issued warning of cold wave and cold day conditions at Rajgarh, Bhopal, Vidisha, Raisen, Sehore, Indore, Shajapur, Tikamgarh, Niwari districts while sold wave at Isolated Places in Narmadapuram, Khandwa, Barwani, Dhar, Agar, Guna, Shahdol, Jabalpur, Seoni, Sagar Districts.

According to the Meteorological Department, the night temperature remained below 9 degrees in the last 10 years. At the same time, 58 years ago, on December 11, 1966, the mercury had reached 3.1 degrees, which is an overall record. In the year 2021, the temperature was 3.4 degrees. While the nights were cold in the last 10 years, the temperature remained high during the day. In the year 2020, the temperature reached 32.6 degrees on December 7. At the same time, the day temperature remained more than 30 degrees in five out of 10 years. This time the effect of cold is also during the day. During the last 24 hours the dry weather was witnessed in all the divisions of the state. Impact of Cold wave prevailed in Bhopal, Rajgarh, Dhar, Khandwa, Girwar (Shajapur), Shahdol, Jabalpur, Seoni, Sagar,

of schools in Bhopal has been increased by 1 hour. Now no school will start before 9 am. DEO NK Ahirwar issued these instructions for all government-private schools on Wednesday. This instruction will also be for all CBSE, ICSE and other board affiliated schools. After the order of Collector Kaushlendra Vikram Singh, all schools will start at a new time from Thursday. In the last 5 days, the night mercury dropped to half. The temperature on the night of December 6 was 14 degrees, which reached 6.9 degrees last night. Only once in December, the temperature has reached 15.8 degrees Celsius. There is a trend of severe cold in the second fortnight of December in Bhopal, but this time severe cold has started in the first fortnight itself.

According to the Meteorological Department, the night temperature remained below 9 degrees in the last 10 years. At the same time, 58 years ago, on December 11, 1966, the mercury had reached 3.1 degrees, which is an overall record. In the year 2021, the temperature was 3.4 degrees. While the nights were cold in the last 10 years, the temperature remained high during the day. In the year 2020, the temperature reached 32.6 degrees on December 7. At the same time, the day temperature remained more than 30 degrees in five out of 10 years. This time the effect of cold is also during the day. During the last 24 hours the dry weather was witnessed in all the divisions of the state. Impact of Cold wave prevailed in Bhopal, Rajgarh, Dhar, Khandwa, Girwar (Shajapur), Shahdol, Jabalpur, Seoni, Sagar,

Tikamgarh, Guna, Raisen, Sehore, Kalyanpur (Shahdol), Talun (Barwani), Prithvipur (Niwari). Impact of Severe cold wave prevailed in Pachmarhi (Narmadapuram). It was a cold day in Bhopal, Dhar, Ratlam, Girwar (Shajapur), Ujjain, Sidhi, Tikamgarh, Betul, Raisen, Talun (Barwani), Prithvipur (Niwari), Marukhedha (Neemuch). It was a severe cold day in Rajgarh, Indore. Day temperatures fell appreciably in districts of Rewa, Shahdol, Sagar divisions and no significant changes in the districts of remaining divisions. They fell markedly below normal in districts of Bhopal, Ujjain divisions; fell appreciably below normal in districts of Indore, Narmadapuram, Gwalior, Rewa, Shahdol, Sagar divisions; fell below normal in districts of Jabalpur division.

Budding cricketer killed in mishap

STAFF REPORTER ■ BHOPAL

A aspiring cricketer and class 12 student died in the morning while undergoing treatment who was injured on his way to school with his elder sister on Tuesday morning after a speeding auto rickshaw hit their scooter in Chola Mandir area. Police said that on Tuesday morning, a speeding auto rickshaw hit a brother and sister going on a scooter in the hospital, the police have registered a case and started an investigation. According to the police, Nikhil Kushwaha (17) of Semra Gate Bajariya, was a class 12 student

while his 24-year-old sister Rukmani worked in D Mart. On Tuesday morning, the sister was going to drop her brother Nikhil to school on her scooter and on their way to school near Kalyan Nagar, a speeding auto rickshaw hit her scooter and fled. As soon as the news of the accident was received, the police reached the spot and admitted the injured brother and sister to the hospital for treatment. On the basis of the number, the accused driver has been traced and taken into custody and was found drunk at the time of the accident. Nikhil used to play cricket from an academy, he was a great all-rounder. He wanted to make a future in cricket. He had a dream of joining the national team, he was working very hard for this, said family.

Cheat nabbed in Indore

Indore: Crime Branch Indore arrested a fraudster who duped crores of rupees from many sugar traders of the city in the name of advance payment and never provided the goods. Indore's trader firms, including Darshan Enterprises, Radhakrishna Traders, Chanchal Traders, Shri Krishna

Traders, P. Yogeshchand & Company, Nakoda Sugar Broker, Aagam Traders, Rajendra Kumar Ajit Kumar Sarvodaya Chowk (Bina, MP), and Mahavir Kirana Bhandar, had lodged a complaint. In the complaint, it was alleged that Mitesh Nahata, proprietor of M/s Bhuleshwar and Sajan Panchpote, director of Sajan Sugar Private Limited, com-

mitted fraud of a total of Rs 2.61 crores in the form of advance payment in the name of providing sugar. Based on the complaint a case was registered against the accused in the police station Crime Branch Indore. The crime branch team traced the location of Mitesh Nahata in Pune and boarded a flight from Mumbai to Delhi.

DGP reviewing working of different branches of PHQ

STAFF REPORTER ■ BHOPAL

Director General of Police Kailash Makwana, after assuming charge, has started an intensive review of all branches of police from December 9 to tighten the entire police system with the aim of strengthening peace and law and order in the state and to provide quick relief to the victim side and to instill fear of law among the criminals. The DGP reviewed the Administration Branch on Monday, Special Branch on Tuesday December 10 and in this sequence, CID, Vigilance and Technical Services branches on Wednesday December 11 and gave necessary instructions. The branches will be

reviewed till December 26. The DGP directed that the use of cyber forensics, data analytics, and GPS technology should be increased in the investigation of crimes and investigation officers should be provided continuous training for the use of the latest technology. SDOP and CSP level officers should improve supervision. It

should be ensured that all cases are investigated on time and impartially. Necessary resources should be properly managed for the resolution of cases. He said that CCTV, databases and various techniques should be used to find missing persons and action should be taken on priority basis in missing cases. Also, a dedicated team should be formed to study the successful policies and procedures of other states of the country and implement best practices in the state. The DGP directed a special campaign for settlement of pending cases. For quick resolution, the concerned branches were asked to make a list of pending cases and direct them for quick action.

Rs 5,000 spot fine on Sulabh Centre

Bhopal: In the face of continuing disregard for his instructions calling for enhanced sanitary conditions at public utilities, Municipal Commissioner Harendra Narayan on Wednesday levied a Rs 5,000 spot fine on the Sulabh centre at Bhabhada Road. The Bhopal Municipal Corporation (BMC) official was inspecting cleanliness arrangements at various localities in the state capital. He urged civic health officials and sanitation staff to keep in mind the Swachh Survekshan benchmarks while setting enhanced cleanliness standards. Narayan directed the collection of a Rs 5,000 spot fine and also ordered improvements to the facilities at the public convenience. He also directed the efficient and

systematic use of CNG-operated vehicles, keeping in mind pollution control and diesel savings. The Municipal Commissioner also visited the Bhabhada Dam and instructed the cleaning of water hyacinth and weeds from a nearby pond. The inspection was conducted at Suraj Nagar, Neelbad, Bharatmata Chauraha, Bhabhada Road, Kerwa Dam Road, and the vicinity of the Sai Sports Centre to assess cleanliness arrangements. He further instructed, through both direct and VC (video conferencing) methods, that cleanliness work should be conducted in accordance with Swachh Survekshan standards. Narayan said that CNG-operated vehicles should be better organised for pollution control and diesel saving.

3500 RC cards pending with Dewas RTO

Dewas: Dewas district residents are grappling with significant delays in the issuance of Registration Certificates (RC) for vehicles. Over 3,500 RC cards are reportedly pending with the Dewas Regional Transport Office (RTO). Vehicles have been delivered to buyers from show-rooms, but the RTO has failed to provide the neces-

sary RC cards to owners, creating numerous difficulties for vehicle users. According to sources, the backlog of RC cards has been building since Diwali, leaving vehicle owners frustrated. The RC card is a critical document proving vehicle ownership and contains essential details such as the registration number, engine

and chassis numbers, model, and color of the vehicle. Without an RC card, vehicle owners face trouble during police checks, especially when traveling outside their local areas. Many have alleged that obtaining an RC card requires payment of bribes at the Dewas RTO. Reportedly, the bribes range from ₹300 for two-wheelers, ₹1,000 for four-wheelers, and ₹1,500 for tractors. It is further alleged that the

process has been streamlined for those willing to pay bribes through agents connected to the RTO. These agents reportedly gain access to the One-Time Password (OTP) required for the registration process. The OTP is entered into the official RTO computer system, and digital RC cards are issued swiftly. Sources also claim that Dewas RTO Jaya Vasava has been posted in the district for more than five

years and is often unavailable in the office. It is alleged that she spends most of her time at her residence in Indore, leaving the public without proper access to services. The situation has caused widespread dissatisfaction among vehicle owners in the district, who are demanding immediate action to resolve the delays and ensure transparency in the RC card issuance process.

CM's one year in office: Miles to go with impressive gains

PUSHYAMITRA BHARGAV

Honble. CM Dr Mohan Yadav's one year in office has set an extremely positive tone of governance with his prompt decision-making for the greater common good. His profounder commitment to inclusive development is demonstrative in all his initiatives. Beyond question, eventful one year as Chief Minister remains full of achievements. In a year of transformative decisions, Chief Minister Dr. Mohan Yadav has made his vision clear. His focus is on pro-people governance, economic development and employment generation. His 365 days in office have been full of commendable achievements. Dr Yadav emerges as a leader of commitment and determination, who cares every section of the society and responds promptly to the needy. A Humanitarian Leader CM's sensitivity towards the working class deserves special mention. For decades, the laborers of Indore's iconic Hukumchand Mill were denied their rightful dues. Despite repeated attempts to bring justice to them. This long-standing issue was ultimately unresolved.

However, on my humble request, the Honorable CM took cognizance of the whole matter. He finally brought justice to 4,800 workers, ensuring their rightful entitlements. This reflects his deep empathy and unwavering commitment to the uplifting of the underprivileged. Top Priority - Job Creation In the present time, employment is an urgent need. Hon. Dr. Yadav has taken proactive steps to create job opportunities for the youth. Realizing the potential impact of the Bangaluru water crisis for industries, he acted swiftly to attract businesses to the state, offering them streamlined, one-stop solutions. A Regional Industry Conclave in Ujjain brought substantial investment commitments and set the stage for similar initiatives across the state. Additionally, the creation of over 46,000 new positions in the health sector underscores his focus on addressing employment challenges. He is now planning to open massive recruitments in Government sector. PM Shri Paryatan Vayu Seva - Affordable for All One of the CM's standout initiatives is the launch of PM Shri Paryatan Vayu Seva,

which has improved air connectivity across smaller cities in Madhya Pradesh. This enables people to travel affordably between cities like Bhopal, Jabalpur, Indore, Ujjain, Gwalior, Khajuraho Singrauli, and Rewa. It is a significant step towards integrating the state's urban centers and boosting regional mobility. PM Shri Ambulance Seva - A Life-Saving Service Hon. Dr. Yadav's compassion extends to healthcare, where his government introduced a free air ambulance service for critically ill patients. This service, available free of cost to Ayushman Bharat cardholders, ensures that even the most remote corners of Madhya Pradesh have access to advanced medical care. By bridging the gap between rural areas and specialized hospitals across the country, this initiative has saved countless lives and provided immense relief to needy families. Futuristic Approach to Infrastructure Building HCM's vision for development is epitomized by the approval of the ambitious Ken-Betwa River Linking Project. Touted as the world's largest river-linking initiative, this project promises to address water scarcity, boost

agriculture, and energize the state's economy. It is a testament to his ability to think big and execute larger-than-life projects that benefit generations to come. Economic Milestones Under Hon. Dr. Yadav's leadership, Madhya Pradesh has recorded an impressive surge in growth in GST collections, reflecting the state's expanding economic activity. Furthermore in just 365 days, his administration managed to reduce the state's debt burden by over 2%, showcasing sound fiscal management. These achievements underline his commitment to steering Madhya Pradesh towards sustained economic prosperity. The recent visit to UK and Germany was a tremendous success. Madhya Pradesh got investment proposals worth Rs 78 thousand crore. A Pioneer of Technological Advancement The Chief Minister's first cabinet meeting set the tone for a tech-savvy governance model. The implementation of Cyber Teshil across the state has revolutionized property registrations by enabling instant transfer of ownership. Entire revenue governance system got overhauled. This bold step has not only streamlined administrative processes but also redefined

efficiency and transparency in governance, making Madhya Pradesh a leader in e-governance. A People-First Approach Hon. Dr. Mohan Yadav's governance is characterized by his ability to prioritize the needs of the common people while balancing the demands of speedy development. His emphasis on labour welfare, youth employment, infrastructure development, and technological advancement makes him a champion of people-focused leadership. As the Mayor of Indore, I have personally witnessed his commitment to our city and state. His empathetic approach, decisive actions, and bold initiatives have laid the foundation for a brighter, more prosperous Madhya Pradesh. With leaders like Hon. Dr. Mohan Yadav at the helm, the state is not only progressing but is also setting benchmarks for the entire nation. As we fairly examine and analyse impactfully one year, let us celebrate commitment of a leader who has dedicated himself to the service of the people, moulding challenges into opportunities and aspirations into achievements. (The author is Mayor of Indore)

Motion against VP only to divert attention from Soros issue: BJP

PIONEER NEWS SERVICE ■
NEW DELHI

The BJP on Wednesday alleged that the Congress was attempting to "defame" Jagdeep Dhankhar and "insulting" the Jat community by initiating a motion to remove him from the Vice President's post only to deflect public attention from the Gandhi family's "links" with George Soros.

Keeping up its offensive against the Congress, the ruling party also alleged that the connection between US-based billionaire Soros and the Nehru-Gandhi family runs deep, extending beyond Sonia Gandhi's 'role' as co-president of the Forum of Democratic Leaders - Asia Pacific (FDL-AP).

"Fori Nehru, a Hungarian like Soros, was married to B K Nehru, Jawaharlal Nehru's

cousin, making her the aunt of Rahul Gandhi, former Congress President and Leader of the Opposition," the BJP said in a social media post.

George Soros is documented to have visited Fori Nehru and maintained "extended correspondence" with her and their association traces back to the time when B K Nehru served as India's ambassador to the United States, the party claimed.

"This raises questions about the extent to which the Nehru-Gandhi family may have compromised India's strategic interests, over the decades, to benefit their extended family's financial and entrepreneurial pursuits, as well as the interests of the deep state, they have been aligned with," it said.

The BJP also slammed the Congress over the decision of

the opposition INDIA bloc in Maharashtra to move the Supreme Court over allegations of manipulation of electronic voting machines (EVMs) in the state assembly elections held recently, saying it shows they do not have any respect for the Constitution. Addressing a press conference at the BJP headquarters, BJP MP and national spokesper-

son Sambit Patra termed the opposition parties' notice for a "no-confidence motion" against Dhankhar and INDIA bloc's decision to move Supreme Court on the EVM issue as "painful and disturbing".

"The Congress takes the issue of EVM to the Supreme Court again and again and returns defeated. Every time it tried to cause and drag the Election Commission, it faced embarrassment... Yet the Congress is going to move the Supreme Court on the issue," he said.

This shows that Congress does not have "any respect" for the Constitution of India, he charged.

Patra alleged that the Congress along with its allies in the opposition gave a notice for initiating a motion to remove Vice President Dhankhar "in a hurry" on Tuesday after the BJP raised,

both inside and outside Parliament, the issue of "Gandhi-Nehru family's link with George Soros and the conspiracy to destabilise the country taking fund from the George Soros Foundation", "Sonia Gandhi and Rahul Gandhi - the entire Nehru-Gandhi family - are involved in it," he claimed.

The BJP leader said it is sad that the Congress has sought initiation of a "no-confidence motion" against Dhankhar who comes from a "humble background".

"It's an insult to a farmer's son, a man who comes from a humble background," he said, adding, "And you (Congress) talk about caste?"

Patra said the Congress and its allies have brought the notice against Dhankhar knowing very well that it will fall flat on the floor of the

House as they do not have enough numbers in their favour.

However, the party has brought such a kind of notice for the first time in Rajya Sabha against its chairperson "just to insult the Jat community", he charged.

"Jats are patriots. Jats have shed their blood for the freedom of Hindustan and for Hindustan. Today you are making such allegations against a Jat Vice President. Somewhere you are trying to defame him by saying that he is not doing his work properly," Patra said.

"Let me tell you that a farmer's son, a Jat, never bows down. He will never bow down. And the respect of Jats will always remain intact and firm in India... Parliament will give a reply. People will give a reply," he added.

Secure messaging apps big challenge to counter online radicalisation: Govt

PIONEER NEWS SERVICE ■
NEW DELHI

The use of secured messaging applications like Signal, Telegram, Viber and the dark Web besides end-to-end encrypted WhatsApp by radical elements to connect with like-minded individuals is proving to be a "major challenge" for security agencies to counter online radicalisation, government said on Wednesday.

Replying to a question in the Rajya Sabha, Minister of State for Home Affairs Nityanand Rai said as the extensive use of cyber technology is the main tool for propagating radical ideology, cyberspace is being monitored ceaselessly.

The minister said at present, apart from state police, the NIA is investigating 67 cases relating to online radicalisation. In these cases, 325 accused have been arrested, 336 accused have been charge-sheeted and 63 accused have been convicted so far.

"Cyber patrolling is done on a regular basis to identify and monitor such content and entities which are target-

ing gullible/depressed/alienated youth," the minister said. He said websites and accounts involved in communal and anti-India propaganda affecting the sovereignty and integrity of India are being identified and sent to the Ministry of Electronics and Information Technology (MeitY) for action.

During 2024, MeitY has issued directions for blocking

9845 URLs (which also include radical content) till October 2024, he said.

"In addition, u/s 79(3) (b) of IT Act, 2000, Indian Cyber Crime Coordination Centre (I4C), Ministry of Home Affairs, has also been authorised/designated as an agency to issue 'Take Down Notices' for intermediary/Platform to remove unlawful content," he said.

Rai said regular meetings are

being held with all stakeholders and law enforcement agencies for sharing of information including inputs on radical organisations for collectively addressing multiple risk factors associated with radicalisation in a holistic and coordinated manner and to establish effective mechanisms and strategies to tackle radicalisation.

"The use of more secured

messaging applications like Signal, Telegram, Viber and dark Web apart from WhatsApp with end-to-end encryption by radical elements to connect with other likeminded elements has proved to be a major challenge for security agencies in its efforts to counter radicalized individuals online," the minister said.

He said the CBI, as National Central Bureau for India, continues to be engaged with INTERPOL for combating Online Radicalisation.

"During the 90th INTERPOL General Assembly held in New Delhi from 18-21st October 2022, the INTERPOL unveiled the first ever Metaverse which is specifically designed for law enforcement worldwide," he said.

Rai said in January 2024, the INTERPOL released a whitepaper on a law enforcement perspective on Metaverse and identified the issue of radicalisation, while noting that terrorists may exploit the Metaverse for online recruitment, radicalisation, training and indoctrination of individuals.

India evacuates 75 nationals from Syria after rebels overthrow Assad Govt

PIONEER NEWS SERVICE ■
NEW DELHI

India evacuated 75 of its nationals from Syria two days after rebel forces overthrew President Bashar Assad's authoritarian government.

The evacuation, coordinated by the embassies of India in Damascus and Beirut, was put into effect following an assessment of the security situation, the Ministry of External Affairs (MEA) said.

"The Government of India today evacuated 75 Indian nationals from Syria, following recent developments in that country," it said in a late-night statement on Tuesday.

"The evacuees included 44 'zairren' from Jammu and Kashmir who were stranded at Saida Zainab. All Indian nationals have safely crossed over to Lebanon and will return by available commercial flights to India," it said.

The MEA said the government accords the highest priority to the safety and security of Indian nationals

abroad.

"Indian nationals remaining in Syria are advised to stay in touch with the Indian Embassy in Damascus," it said. "The government will continue to monitor the situation closely," the MEA added.

The Syrian government collapsed on Sunday as the rebels seized control of the capital Damascus after capturing several other prominent cities and towns. Assad fled the country after the rebel group Hayat Tahrir al-Sham (HTS)

took control of Damascus, marking the end of his family's 50-year rule.

Russian state media reported that Assad is in Moscow and will be given asylum. His nearly 14-year tenure was marked by civil war, bloodshed and brutal crackdown on his political opponents.

The MEA on Monday said it is monitoring the unfolding developments in Syria and advocated a peaceful and inclusive Syrian-led political process going forward in that country.

Azam Khan slams INDI Alliance, accuses it of ignoring Muslims

BISWAJEET BANERJEE ■
LUCKNOW

Senior Samajwadi Party (SP) leader and former minister Azam Khan has sharply criticized the INDI alliance, accusing it of ignoring the concerns of Muslims.

He urged the alliance to raise the issue of crime and alleged destruction in Rampur in Parliament, just as it did with Sambhal.

"Sambhal was targeted only after the experiment in Rampur succeeded," Khan claimed. "The INDI alliance remained silent on this. If this continues, we will be compelled to reconsider the future of Muslims," he warned.

Azam Khan, currently lodged in Sitapur Jail, expressed his concerns through a letter handed to Rampur SP district president Ajay Sagar, who visited him. Sagar later released the contents of the letter to the public.

Khan accused the INDI alliance of working to eliminate Muslim leadership. "The alliance stood as a silent spectator while Rampur was destroyed. It must clarify its stance or we will be forced to reconsider our future," he wrote.

He further alleged that Muslims are being politically marginalized. "The Muslim vote has become meaningless. Their right to vote is being reduced to a tool for genocide. If this continues, we will have to decide whether retaining the right to vote is even worth it."

Khan criticized attempts to destroy religious sites by declaring them controversial. "Other communities cannot be wiped out under the guise of removing disputed places of worship. People conspire and feign sympathy," he said.

Azam Khan's political influence in Uttar Pradesh has been significant. He was

elected as an MLA 10 times and served as an MP once from Rampur. His wife, Tanzeen Fatima, also became an MLA, while his son, Abdullah Azam, was elected twice.

During the SP government, Khan wielded immense influence, rivaling even that of a Chief Minister. The state aircraft was often used to transport him to Rampur, which many considered a secondary seat of power.

However, his political dominance began to decline after 2017. His troubles escalated in the 2019 Lok Sabha elections when he made a controversial remark targeting bureaucrats at a rally in Rampur. "Don't fear these collectors and officers; they are just salaried employees. If Allah wills, I will make them clean my shoes after the elections," he reportedly said.

The remark triggered a wave of legal troubles. Investigations linked to land acquisition for Jauhar University led to over 100 cases being filed against Khan and his family. He was declared a land mafia, and both he and his wife were imprisoned.

The legal onslaught began when Anjaneya Kumar was the district magistrate in Rampur. Following complaints from farmers about alleged illegal land acquisitions for Jauhar University, the administration initiated inquiries that snowballed into multiple cases. Khan and his family have since faced prolonged legal battles and jail terms.

69 per cent reduction in malaria cases in India from 2017-2023: WHO report

PIONEER NEWS SERVICE ■
NEW DELHI

India has made significant progress in combating malaria with the number of estimated cases of infection dropping to 2 million in 2023, a 69% reduction from 6.4 million cases in 2017, according to the latest World Malaria Report by the World Health Organization (WHO), released Wednesday.

Similarly, malaria deaths decreased by 68%, from 11,100 in 2017 to 3,500 in 2023, as per the report. As a result, India officially exited the WHO's High Burden to High Impact (HBHI) group in 2024, a key milestone in the country's efforts to reduce malaria, said the WHO.

The HBHI initiative, aimed at

accelerating malaria elimination in countries with high malaria burdens, was launched in India in 2019, targeting four states: Chhattisgarh, Jharkhand, Madhya Pradesh, and West Bengal.

Despite these advances, India still accounted for half of all estimated malaria cases in the WHO South-East Asia Region in 2023. The region as a whole reported 4 million cases and 1.5% of global malaria deaths. P. vivax was responsible for over 48% of cases in the region.

Over the course of the past two decades, malaria cases in South-East Asia have dropped by 82.4%, from 22.8 million in 2000, and incidence fell by 87%, from 17.7 to 2.3 cases per 1,000 population at risk.

A significant portion of this decrease was due to India, which saw a reduction of 17.7 million cases and a 93% decrease in incidence.

India and Indonesia together accounted for about 88% of the malaria deaths in the region in 2023, though other countries like Bhutan and Timor-Leste reported zero malaria deaths since 2013 and 2015, respectively. Sri Lanka was certified malaria-free in 2016.

The WHO also emphasised the continued need for accelerated efforts in malaria elimination, particularly in countries where malaria persists. Globally, the WHO reported that 2.2 billion cases and 12.7 million deaths have been averted since 2000, but malaria remains a significant health

challenge, particularly in the WHO African Region. In 2023, there were 263 million estimated malaria cases and 597,000 deaths worldwide.

Saima Wazed, Regional Director WHO South-East Asia cautioned against any complacency. "We must not forget that the risk of malaria not only persists but could increase due to factors such as climate change. We must continue to do all we can to accelerate our progress against malaria." At the same time, Dr Tedros Adhanom Ghebreyesus, WHO Director-General added, "An expanded package of lifesaving tools now offers better protection against the disease, but stepped up investments and action in high burden countries are needed to curb the threat."

CENJOWS signs MoU with NDMA

PIONEER NEWS SERVICE ■
NEW DELHI

In a significant step towards bolstering India's disaster management capabilities, the Centre for Joint Warfare Studies (CENJOWS), the only tri-services think tank under Headquarter Integrated Defence Staff, Ministry of Defence signed a Memorandum of Understanding (MOU) with the National Disaster Management Authority (NDMA).

The MoU was signed by Lt General Syed Ata Hasnain (Retired), Member, NDMA and Major General (Dr) Ashok Kumar (Retired), Director General of CENJOWS. The signing ceremony marked the beginning of a strategic partnership to address critical challenges in disaster mitigation, preparedness, and response to develop the 'whole of the nation' approach, defence ministry said on Wednesday.

The MoU outlines a framework for joint initiatives, including Collaborative Research:

Undertaking studies on disaster management, HADR operations, and disaster diplomacy to provide policy inputs to the Government of India. Capacity Building: Organizing seminars, workshops, and training programs for stakeholders, including armed forces personnel, NDMA officials, and other key agencies. Awareness Campaigns: Promoting disaster preparedness and risk mitigation through nationwide awareness initiatives. International Engagements: Facilitating global collabora-

tion on disaster management, aligning with India's foreign policy objectives. Speaking on the occasion, Major General (Dr) Ashok Kumar emphasized the importance of leveraging joint research to infuse development of actionable policy recommendations that enhance disaster resilience at both national and international levels. Lt Gen Syed Ata Hasnain, member NDMA highlighted the shared vision of both institutions to create a safer and more disaster-resilient India.

PM Modi releases compendium on complete works of Subramania Bharati

PIONEER NEWS SERVICE ■
NEW DELHI

Prime Minister Narendra Modi on Wednesday released the compendium of complete works of great Tamil poet and freedom fighter Subramania Bharati and hailed his contributions, saying a personality like him comes once in centuries.

Modi said Bharati's thoughts and intellectual brilliance continue to inspire people even today. The prime minister released the compendium at his 7, Lok Kalyan Marg residence.

"Subramania Bharati Ji was a profound thinker dedicated to serving Maa Bharati. A personality like Subramania Bharati comes once in centuries. Subramania Bharati Ji's thoughts and intellectual brilliance continue to inspire us even today," Modi said as he paid homage to the great poet on his birth anniversary.

The 23-volume set has been compiled and edited by Seeni Viswanathan and published by Alliance Publishers. It contains details of the editions, explanations, documents, back-

ground information and philosophical presentation, among others, of the writings of Bharati. "In our country, words are not considered mere expressions. We are part of a culture that talks about 'Shabda Brahma', talks about the infinite power of words," Modi said at the function.

"My government with the intention of 'kartavya' has taken Subramania Bharati's contribution to the people," the prime minister said. He said there is a live connection between Bharati and him which is Kashi. "He came to attain

knowledge in Kashi and stayed back," Modi said. The Prime Minister represents Varanasi (Kashi) in the Lok Sabha.

Modi hailed Bharati as a "visionary poet, writer, thinker, freedom fighter and social reformer". "His words ignited the flames of patriotism and revolution among countless people. His progressive ideals on equality and women's empowerment are equally inspiring," the prime minister said. The literary works of Mahakavi Bharati are a treasure of the Tamil language, Modi said.

UP cuts stubble-burning by over 50 per cent, boosts farmers' income

BISWAJEET BANERJEE ■ LUCKNOW

The Uttar Pradesh government has achieved remarkable progress in agriculture and environmental management by significantly reducing stubble-burning incidents over the past seven years. In 2017, the state reported 8,784 cases of stubble burning, a figure that dropped to just 3,996 in 2023, marking a decline of over 50%. This success is attributed to policy measures encouraging farmers to treat crop stubble as a valuable resource rather than waste, providing both economic benefits and environmental protection. Acting on Chief Minister Yogi Adityanath's directives, Chief Secretary Manoj Kumar

Singh recently reviewed the state's stubble management efforts. The review highlighted that Uttar Pradesh generates 2.096 crore metric tons of stubble annually, of which 34.44 lakh metric tons are used as fodder, while another 16.78 lakh metric tons are utilized in various industries. Additionally, 1.58 crore metric tons are managed through in-situ and ex-situ methods, helping to reduce pollution and improve air quality. The state government's initiatives have industrialized stubble usage, generating employment in rural areas and creating new revenue streams for farmers. Paddy straw is now used in the production of various products, turning agricultural

residue into a source of income. Simultaneously, the promotion of organic farming and the application of Leaf Cum Post Waste (LCV) have enhanced soil fertility, enabling farmers to access new markets and boost their earnings. Districts such as Maharajganj, Jhansi, Kushinagar, and Fatehpur have emerged as role models by implementing effective stubble management practices and conducting awareness campaigns. With a comprehensive approach that addresses both economic and environmental concerns, the Yogi government has successfully curbed pollution, strengthened the rural economy, and set a sustainable example for others to follow.

SM Krishna cremated with state honours

People pay their last respects as mortal remains of former union minister SM Krishna are being taken to his hometown, in Bengaluru. PTI

PIONEER NEWS SERVICE ■ MANDYA

Ex-Chief Minister of Karnataka and former External Affairs Minister S M Krishna was cremated on Wednesday with full state honours in his ancestral village Somanahalli in this district. The 92-year-old veteran politician, who had also served as the Maharashtra Governor, died at his residence in Bengaluru on Tuesday after prolonged illness. Karnataka Chief Minister Siddaramaiah, his deputy and Krishna's relative DK Shivakumar, Central and state ministers, several MLAs, MPs, opposition BJP and JD(S) leaders and top government officials in the

state were present during the final rites. Along with them, the pontiff of the Adi Chunchanagiri Math Nirmalanandanatha Swamiji along with others paid respect. Krishna's wife Prema, daughters Malavika and Shambhavi too paid their homage with teary eyes. The mortal remains of SMK, as Krishna was fondly addressed, was brought to the venue in a palanquin decorated with flowers. His body was wrapped in the Indian tricolour and decked with garlands. The police gave a gun salute to the departed leader. Amid chants of Vedic hymns by a team of priests, Krishna's grandson Amartya lit the pyre comprising 1,000 kg of sandalwood.

Mamata urges Center to protect Bangladesh minorities

SAUGAR SENGUPTA ■ KOLKATA

With the Opposition Bharatiya Janata Party (BJP) repeatedly firing salvos at the West Bengal state government amid the Bangladesh crisis, Chief Minister (CM) Mamata Banerjee once again urged the Union government to take steps to protect minorities of the violence-hit country. "We want minorities in Bangladesh protected. The Union government must act. It should also bring back those who want to return to India," said Banerjee, who had earlier told the state

Assembly of her readiness to receive the persecuted Hindus of Bangladesh should they decide to migrate. She also said that the vested interests should stop posting fake videos if they were doing so. Banerjee had early this week said, "We will eat less and have one roti if required but we will host the distressed people who come to this side of the border," warning the Bangladesh leaders against issuing provocative slogans. Reacting to statements made by a senior Bangladesh Nationalist Party leader that they would lay their claims on Bengal, Bihar and Odisha which formed the parts of Nawab Siraj ud Daulah's kingdom, Banerjee said that those who were issuing provocative statements should stay calm and have mental rest. "I advise them mental peace and rest but I must remind them that we will not lick lollypops, when they will mount an attack on India," she said. Opposition leader Suvendu Adhikari too warned the warmongers from the other side of the border against making statements "that do not suit their capabilities."

PM's time wasted on elections, says Chauhan while pitching for 'One Nation, One Election'

PIONEER NEWS SERVICE ■ CHANDIGARH

Making a strong pitch for 'One nation, one election', Union agriculture minister Shivraj Singh Chouhan on Wednesday contended that frequent polls were creating hurdles in the nation's progress. Addressing an event in Kurukshetra as part of the ongoing International Gita festival, Chouhan said India is moving ahead rapidly under the leadership of Prime Minister Narendra Modi. A glorious, prosperous and powerful India is being built under the leadership of the PM. Soon, India will become the "Vishwa Guru" (world leader) in front of our eyes. There is no doubt about it, and the whole world knows it, he said. "But there is one hurdle in India's progress and development, which is frequent elections. Any other thing may be happening or not in the country, but election preparations continue for

twelve months all five years," he said. When Lok Sabha elections get over, Assembly elections come. Haryana, Jammu and Kashmir, Maharashtra and Jharkhand are done, now Delhi Assembly polls are coming," Chouhan said. "Then there will be elections in Bihar and when we will deal with it, there will be another round of elections. All political parties prepare for elections all five years and in that public welfare works and development works get left behind," he said. "Chunav jeeetne ki chinta mein, sare dalon ke neta lage rehne hai (Leaders of all parties remain engaged in the race of winning the elections)," the Union minister said in the presence of Haryana chief minister Nayab Singh Saini. "Now I am the agriculture minister, but if elections come, I remain engaged in election campaigning for three months continuously," he said. A lot of time of the PM, CM, ministers, MPs, MLAs, officers and other employees is wasted and all development works are

impacted, the minister charged. "Public welfare works are left behind," he said, while adding that expenditure is involved in conducting elections while poll expenses are also incurred by those contesting. "The Election Commission also spends, it is public money and then political parties also spend. How much time is wasted? Now, when elections will be held in other states, Nayab Saini ji (will go there for campaigning etc), the Haryana government officials will be put on duty (by the Election Commission) as observers. Your work here will be stalled for two-three months... (frequent polls). It obstructs our development," he said. Chouhan said frequent elections will keep taking place and therefore by amending the Constitution, all the assembly and Lok Sabha elections should be held together once in five years. "We must create public awareness for this," he said at the event attended by seers and students who gathered for the global recitation of the Bhagavad Gita.

National law school to offer three-year BA

PIONEER NEWS SERVICE ■ NEW DELHI

The National Law School of India University, which has pioneered and developed an integrated five-year BA LLB (honours) degree that transformed Indian legal education, has now come up with a three-year (honours) BA course with an option of an additional fourth year. The first cohort of the programme will be admitted in July 2025, the NLSIU said. "We are looking to develop something that is responsive to 2025, but is completely different," the NLSIU Vice Chancellor Sudhir Krishnaswamy said at the launch of the programme. He said the university will teach the social sciences and humanities programme with a 'strong professional orientation'. "So we are very clear in our minds as we start that the BA degree is the only degree that a student will need. It's a terminal degree," he explained. "The BA programme is an organic development from 35 years of experience in offering the integrated 5-year BA LLB (Hons.) programme," the University said in a statement. According to the University, the course builds on existing faculty expertise that can be delivered without having to

develop an entirely new faculty. "The NLS BA (Hons.) programme has been developed by the University's Faculty Teams from August 2023 and was approved by the governing bodies earlier in 2024," it said. Before launching the programme, it had held an extensive stakeholder consultation with eminent academics and practitioners who advised on the curriculum. The BA programme is open to all candidates who have completed their higher secondary education, which means 10+2 or equivalent. The general category must have a minimum of 55 per cent aggregate marks while for the SC/ST category, the minimum aggregate marks is 45 per cent. Candidates in their final year of higher secondary education may also apply, provided they meet the academic criteria upon completion. An integral part of the curriculum is the opportunity to learn a selection of Indian languages. Further, the students will engage in hands-on learning through practice courses in emerging fields like Artificial Intelligence and machine learning, film-making, business consulting, user experience research, digital journalism, creative writing, entrepreneurship, policy advocacy and analysis.

PM Modi remembers ex-president Pranab Mukherjee

PIONEER NEWS SERVICE ■ NEW DELHI

Prime Minister Narendra Modi remembered former President Pranab Mukherjee on his birth anniversary on Wednesday. Calling him a statesman par excellence, Modi hailed him as an administrator and admired his contributions to the country's development. "Remembering Shri Pranab Mukherjee on his birth anniversary, Pranab Babu was a one-of-a-kind public figure—a statesman par excellence, a wonderful administrator and a repository of wisdom. His contributions to India's development are noteworthy. He was blessed with a unique ability to build consensus across the spectrum and this was due to his vast experience in governance and his deep understanding of India's culture as well as ethos. We will keep working to realise his vision for our nation," Prime Minister Modi wrote in a social media post.

Odisha exempts Rs 4097.67 Crore electricity dues for industries

PIONEER NEWS SERVICE ■ BHUBANESWAR

The Odisha government has exempted electricity dues amounting to Rs 4097.67 crore for 14 industries under various schemes during the last 10 years, Deputy Chief Minister Kanak Vardhan Singh Deo told the Assembly on Wednesday. In a written reply to a question from senior Congress MLA Taraprasad Bahinipati, the Deputy CM, who is in charge of the energy department, said the electricity duty for these 14 industries was exempted since the financial year 2015-16 under schemes such as the Industrial Policy Resolution (IPR) and the Special Economic Zones (SEZ) Policy. According to the statement submitted by Singh Deo, the Odisha government exempted the highest electricity dues of Rs 3599.88 crore for Vedanta Ltd, Jharsuguda, under the SEZ Policy-2015, while the central PSU, Indian Oil Corporation

Ltd (IOCL), Paradip, received an exemption of Rs 314.03 crore. Additionally, Angul-based Jindal Steel and Power Ltd (JSPL) was granted a waiver of Rs 103.16 crore in electricity duty. Apart from these exemptions, the Deputy CM further informed the House that the state government has also exempted electricity dues (through rebate on interest for pending bills) amounting to Rs 1324.83 crore for 36 industries under the One-Time Settlement Scheme, 2022 of the energy department. Under this scheme, the government waived electricity dues of Rs 550.12 crore for Rourkela Steel Plant (RSP), a unit of SAIL, Rs 440.12 crore for IMFA Ltd, Choudwar, and Rs 203.91 crore for the central PSU National Aluminium Company (Nalco), the Deputy CM said. Among others, the power bills of JSPL, Angul (Rs 35.76 crore), Aditya Aluminium Ltd,

Sambalpur (Rs 17.79 crore), Tata Steel Ltd, Kalinganagar (Rs 16 crore), and Vedanta Ltd, Lanjigarh (Rs 10.13 crore) were also exempted by the Odisha government, he informed. According to data provided by the engineer-in-chief-cum-principal chief electrical inspector, power dues worth Rs 1096.32 crore were pending against 23 industries as of October this year, Singh Deo added. The largest outstanding amount of Rs 285.02 crore is pending from Jindal India Thermal Power Ltd, Talcher in Angul district, followed by Visa Steel Ltd, Jajpur, which has not paid Rs 246 crore in electricity dues, he stated. Similarly, Dhenkanal-based GMR Kamalanga Energy Ltd, Maithan Ispat Nigam Ltd, Jajpur, and Shyam Metalics & Energy Ltd, Sambalpur have not paid power bills of Rs 179.35 crore, Rs 85.31 crore, and Rs 83.25 crore, respectively.

Jammu and Kashmir Chief Minister Omar Abdullah during an interaction with members of the civil society at his official residence. PTI

CM Omar Abdullah Promises to Restore 'Darbar Move'

MOHIT KANDHARI ■ JAMMU

Striking a chord with the members of the civil society in Jammu, Chief Minister Omar Abdullah Wednesday announced his government was committed to restoring the practice of the 'Darbar Move'. Omar made this announcement after attending a three-hour-long meeting with the members of the civil society in Jammu at his official residence. The meeting was attended by prominent citizens from different sections of the society. This is the second major policy decision in which the popular government has decided to reverse the decision of the Union Territory administration headed by Lieutenant Governor (L-G) Manoj Sinha. Soon after taking charge, the Omar government reversed the academic calendar in the Kashmir Valley by switching from the March session to the traditional November session in the winter zones of the Union Territory. Darbar Move is a bi-annual shifting of the Civil Secretariat and other offices of the state government from Jammu to

Srinagar in summer, and vice versa in winter. The practice was discontinued in November 2021. The practice, introduced by Dogra rulers nearly 150 years ago, was stopped by Lt Governor Manoj Sinha in June 2021, citing the administration's complete transition to e-office which could help save Rs 200 crore per year. However, the decision came up for sharp criticism from various quarters including the Jammu business community and politicians who termed the exercise as a bond between the two regions. Briefing media persons at his residence Omar maintained, "Darbar move is an issue which I fail to understand why it was not projected during campaigning for assembly polls. The issue gained momentum only after the election result although we have mentioned it in our manifesto and meetings," Abdullah said. "We assure you that the Darbar move will be restored. Jammu has its own importance and we will not allow its uniqueness to diminish," he told reporters.

Punjab farm leader Dallewal's fast enters 16th day over demands of MSP legal guarantee

PIONEER NEWS SERVICE ■ CHANDIGARH

Punjab farm leader Jagjit Singh Dallewal's fast unto death at the Khanauri border point to press the Union government to accept farmers' demands, including a legal guarantee on the Minimum Support Price (MSP) for crops, entered the 16th day on Wednesday. According to a farmer leader at Khanauri, Dallewal has lost more than 11 kg weight and his blood sugar levels are fluctuating. A team of doctors is monitoring his vital parameters. Farmers on Wednesday held prayers for the success of their agitation going on at the Shambhu and Khanauri border points between Punjab

and Haryana in support of their various demands and for the good health of Dallewal. Farmers under the banner of Samyukta Kisan Morcha (Non-Political) (SKM) and Kisan Mazdoor Morcha (KMM) have been camping at Shambhu and Khanauri since February 13, after their march to Delhi was stopped by security forces. The protesting farmers have formed a security ring around Dallewal to prevent authorities from removing him from the protest site. The Punjab Police had forcibly removed Dallewal from Khanauri on November 26, hours before he was going to start his fast unto death. Farmer leader Abhimanyu Kohar urged people to skip dinner on Thursday in

Farm leader Jagjit Singh Dallewal. PTI

support of Dallewal, who is 70-years-old. He also appealed to people to burn effigies of the Bharatiya Janata Party-led Union government on December 13. Meanwhile, speaking on the farmers' protest, Union minister Ravneet Singh Bittu reiterated his willingness to engage in dialogue with the protesters.

"Dialogue is the only way forward. I appeal to the farmers with folded hands to come forward for discussions. Prime Minister Narendra Modi has always been considerate of Punjab's farmers and already implemented significant MSP hikes," he said while talking to reporters in Patiala. Bittu also expressed concern over Dallewal's health. Punjab minister and the Aam Aadmi Party's (AAP) state unit chief Aman Arora urged the Union government to understand the intensity of the farmers' movement and hold talks with the protesters to resolve their issues. To a question on Bittu's statement, Arora said, "If you see his (Bittu) previous statements, this is a 360-

degree turnaround. Sometimes he uses bad language against farmers and sometimes, he says he is with them. "He (Bittu) should take the farmers in his vehicle and arrange a meeting between them and the prime minister. Nothing will happen by just making statements." Farmer leader Sarwan Singh Pandher had said on Friday that there was no message from the Centre on holding talks and that the farmers would resume their foot march to Delhi on December 14. A group of 101 farmers under the banner of the SKM (Non-Political) and KMM made two attempts to enter Delhi on foot on December 6 and December 8. The farmers were not

allowed to proceed by security personnel in Haryana. The farmers had earlier attempted to march towards Delhi on February 13 and February 21 but were stopped by security forces deployed at the capital's border points. Besides a legal guarantee on the minimum support price (MSP) for crops, the farmers are demanding a debt waiver, pension for farmers and farm labourers, no hike in the electricity tariff, withdrawal of police cases and "justice" for the victims of the 2021 Lakhimpur Kheri violence. Reinstatement of the Land Acquisition Act, 2013 and compensation to the families of the farmers who died during a previous agitation in 2020-21 are also part of their demands.

PAPER WITH PASSION

Race for Delhi

With the Delhi Assembly elections on the horizon, the political temperature in the capital is rising

As the Delhi Assembly Elections 2025 draw closer, the political landscape of the national capital is abuzz with activity. Major players—the incumbent Aam Aadmi Party (AAP), the Bharatiya Janata Party (BJP), and the Congress—are gearing up for what promises to be a fiercely contested battle. With 70 seats at stake, every party is refining its strategies to sway the electorate in its favour. The Aam Aadmi Party, led by Arvind Kejriwal, remains a dominant force in Delhi politics. In the 2020 elections, AAP swept the polls, securing 62 out of 70 seats, while the BJP managed only 8, and Congress failed to open its account. However, the 2025 elections present new challenges for the party, including anti-incumbency sentiments and a more aggressive opposition. One of the most intriguing aspects of AAP's strategy is the decision to field senior leader Manish Sisodia from the Jangpura constituency. Political analysts suggest this move reflects a calculated attempt by AAP to strengthen its presence in

South Delhi, which has traditionally been a mixed battleground. Sisodia's administrative acumen and popularity could be pivotal in securing a win in this crucial region.

Yet another aspect is Kejriwal's decision to go solo. Despite initial speculations about a possible alliance between AAP and Congress, Arvind Kejriwal has now said that AAP would have no electoral alliance with Congress. The strained relationship between the two parties, fueled by ideological differences and a history of rivalry, seems to have outweighed any potential advantages of a partnership. Additionally, AAP's leadership might perceive a tie-up with Congress as

a liability, given the latter's diminished presence in Delhi politics. But it also diminishes its own chances as vote split in this scenario is imminent. Congress has dedicated vote bank in Delhi and that could hurt AAP. On the other side, the BJP, aiming to reclaim its footing in Delhi, is expected to focus on its core voter base and polarising issues to galvanise support. The party has intensified its outreach efforts and is likely to emphasise nationalistic themes and the central government's achievements under Prime Minister Modi. However, its challenge remains breaking through AAP's stronghold on key urban constituencies. Congress faces an uphill battle as it tries to regain relevance in Delhi's political scene. The party's lack of significant organisational groundwork and leadership issues have kept it on the sidelines in recent years. However, Congress might attempt to consolidate minority vote and traditional voters to make a dent in the electoral outcome. The decision to avoid an alliance with Congress underscores AAP's confidence but also raises questions about its ability to counter a potentially consolidated opposition. As candidates hit the campaign trail, the capital is set to witness a clash of ideologies, promises and personalities. For now, all eyes are on the unfolding strategies as Delhi gears up for another defining electoral battle.

Monkeys huddle together on a chilly day, in New Delhi

For Joe Biden it is family first

Biden's decision to pardon his son is rooted in political and emotional complexities, with far-reaching implications for presidential clemency

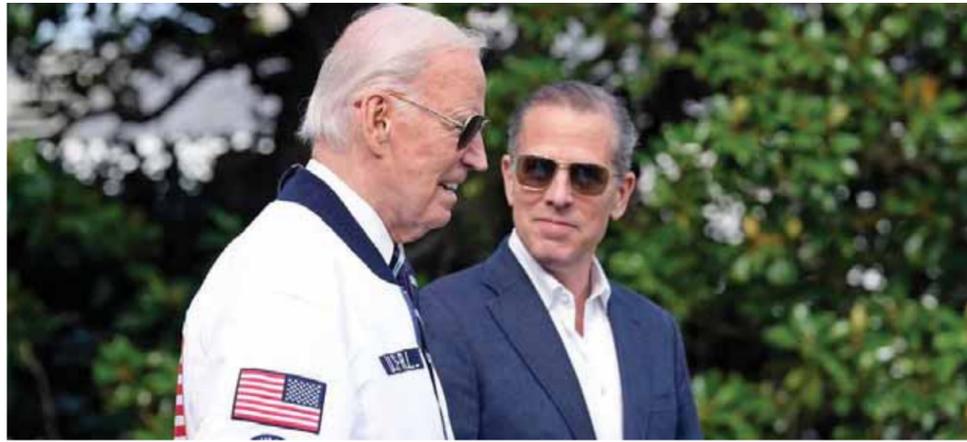

KALYANI SHANKAR

Last week, Americans and people worldwide were stunned by the news that President Joe Biden pardoned his son, Hunter Biden. This clemency controversy was significant because Hunter Biden, a family member, contributed to the debate surrounding the pardon. The pardon ensures that Hunter will not be sentenced for his alleged crimes and will not go to prison.

The judges handling his cases will likely cancel the sentencing hearings scheduled for December 12 for the gun case and December 16 for the tax case. Also, the President is no longer running for office. He made his no-pardon pledge before dropping out of the June presidential race. Presidential pardons in the United States have often sparked controversy; however, some decisions—such as President Biden pardoning his son—have led to more criticism than others. Constitutionally, the President can grant pardons, a power previous presidents have used. Traditionally, US presidents dole out pardons as they leave office.

However, Joe Biden's 'complete and unconditional' pardon of his son adds a layer of complexity and public scrutiny to the issue, a historical context that is important for the public to understand. It is important to understand why Joe Biden acted as he did. Joe Biden has faced many difficulties in his life. He has faced significant personal challenges. He was caught between saving his son and the public criticism. Everyone knows that he is loyal to his family. His baby daughter and first wife died in a car accident, which also injured his sons, Beau and Hunter. Biden wanted Beau to become President, but Beau sadly died from brain cancer in 2015. This focus on the Biden family's struggles aims to create empathy from the public. According to the American media, Biden's second wife persuaded Joe to make a final decision. The public reaction to the Presidential pardon is both crit-

ical and supportive. While some think it is fair, others consider it not justified. This mixed reaction from the public, as well as from Biden's party colleagues, adds a layer of complexity to the issue. Presidents from both parties have used their pardon power, which has raised eyebrows.

George Washington used the power to pardon some people. Presidents often use their pardon powers for friends and allies. A controversial case was former President Richard Nixon, who Gerald Ford pardoned on September 8, 1974. Nixon faced possible prosecution for the Watergate scandal. In late 1992, President George H W Bush pardoned six men implicated in the Iran-contra affair, including former Defense Secretary Weinberger. Bill Clinton, who, despite stating he would not, pardoned his half-brother Roger for past cocaine charges. Similarly, Donald Trump pardoned his son-in-law Jared Kushner's father for tax evasion and for retaliating against a cooperating witness.

Both had already served their prison sentences. During the latter part of his first term, Trump issued pardons to various individuals who had engaged in wrongdoing. A relieved Hunter

THE PUBLIC REACTION TO THE PRESIDENTIAL PARDON IS BOTH CRITICAL AND SUPPORTIVE. WHILE SOME THINK IT IS FAIR, OTHERS CONSIDER IT NOT JUSTIFIED. THIS MIXED REACTION FROM THE PUBLIC, AS WELL AS FROM BIDEN'S PARTY COLLEAGUES, ADDS A LAYER OF COMPLEXITY TO THE ISSUE

said in a statement, "I have admitted and taken responsibility for my mistakes during the darkest days of my addiction — mistakes that have been exploited to publicly humiliate and shame me and my family for political sport."

The case against Hunter Biden has spanned several years, involving allegations of tax crimes and gun fences. He was convicted in June and pleaded guilty to tax evasion in September. Biden said Hunter was 'selectively and unfairly prosecuted' and pointed out that the charges were politically motivated. The immediate impact of the pardon is that it makes it harder for Democrats to criticise Trump.

Also, it has given Trump a chance to pardon people charged with the January 6 events. Biden's change of heart after initially declaring he would not pardon Hunter had his reasons. One of them was his wife, who persuaded Biden to do so.

He stated Hunter was singled out only because Hunter was his son. President Biden has pardoned 25 individuals, none directly connected to him. Typically, presidents approve several clemency requests toward the end of the term. Still, the pardon "damages the public's trust in the presidency. President Bill

Clinton signed 140 pardons on January 20, 2001—his final day in office. Many lawmakers are worried about the potential bad precedent for the future.

One way of solving the problem could be to amend the Constitution. Still, it is a lengthy process, and neither party has the number to carry it through in Congress. The critics argue it could set a dangerous precedent and erode public trust in the justice system. Recent Supreme Court rulings have made it more difficult to charge a president for actions taken while in office.

They limit the avenues for holding a president accountable for any potential misuse of the pardon power. After Hunter's clemency, President Biden is considering granting broad pardons to protect his aides and officials. White House Press Secretary Karine Jean-Pierre stated that before leaving the White House, Biden plans to issue additional Pdonns.

However, in his second term, Trump declared he would pardon the 2021 clash in Congress while Biden took the oath. Trump must be careful before doling out Presidential pardons if they respect public opinion.

LETTERS TO THE EDITOR

SYRIAN REBELS CONQUER DAMASCUS

Madam —The manner in which Islamic rebels conquered Syria's capital Damascus and forced President Bashar al-Assad to flee the country is not only surprising, but it may also mark the start of a new era of uncertainty for West Asia as a whole. The excitement with which Syrians welcomed the opposition soldiers demonstrates that Bashar al-Assad has become even more unpopular. His disfavour stemmed from his brutal governance over Syria. Syria has been dealing with insecurity and upheaval for nearly 13 years. Iran has suffered a significant setback with the seizure of Syria by rebel forces. It is dubious that Iran will sit in peace after the demise of the administration it sponsored in Syria. Even if the rebels win Syria without massive violence, the chances of durable peace are slim because Turkey wants to administer the country its way. Although India's economic ties with Syria have not grown significantly, both countries have joined forces in the battle against terror. Not only that, but Bashar al-Assad has always supported India about Kashmir. Syria has even stated that the elimination of Article 370 in Kashmir is a domestic matter for India and that any country has the right to take the necessary steps to safeguard its residents on its territory. It remains to be seen what kind and how much Syria's posture will alter considering the new circumstances. Indian-Turkish relations have recently improved. While its attitude on Kashmir has softened, India has not attempted to block Turkey's membership in BRICS.

LEGACY OF SHAKTIKANTA DAS

Madam—The outgoing pro-reformist RBI Governor Shaktikanta Das leaves a legacy of stability and consistency in monetary policy in the most difficult and challenging times of COVID and geopolitical turbulence consequent upon the trade and tariff war of the US and China while the country is poised to be the third largest economy. The persuasive approach and preemptive policy decision-making with

Congress faces challenges

The knives are out in Opposition to INDIA block, especially after the drubbing suffered by the Congress-led Maha Vikas Aghadi at the hands of the BJP-helmed Mahayuti in Maharashtra. The grand old party's poor show has dented its predominant position in India, prompting West Bengal CM Mamata Banerjee to throw her hat into the ring. Dissatisfied with the bloc's functioning, Mamata has signalled her

intention to take charge of the alliance if given the opportunity. She has found support from NCP stalwart Sharad Pawar, who has called her a "prominent leader" of the nation.

It's apparent that Rahul Gandhi, Leader of the Opposition in the Lok Sabha, is losing ground as the face of INDIA. There are three Gandhis in Parliament now—with Priyanka being the latest entrant—but this dynastic milestone has not enthused the voters or Congress' allies. Though party president Mallikarjun Kharge is also the chairperson of the bloc, it is no secret that the Gandhi family is calling the shots. But this arrangement is strengthening neither the Congress nor INDIA. The Congress has no option but to pay heed to its partners. In case of no course correction, the alliance might implode sooner or later, leaving the field open for the BJP and PM Modi.

N Sadhasiva Reddy | Bengaluru

immediate action marked the success story of the outgoing RBI Governor. Issuing perfunctory warnings and advisories was not his work culture.

The economic impact of demonetisation on trade and business was smoothly handled in his tenure. In such a vast country facing multiple challenges, the new RBI Governor faces the toughest test of the sustaining economy and people expect a daring chief banker who sails against the winds. The new incumbent Revenue Secretary, Sanjay Malhotra, as RBI Governor, knows his job well, as he is already at the helm of economic affairs and is fully conversant about how the economic policies of the government and RBI move and work at ground level. The new RBI Governor faces the trilemma of growth, inflation, and stabilisation of rupees while keeping banks' NPAs low, controlling the mis-selling of health and life insurance policies, maintaining FDI and FPI inflows, and managing the impacts of US-China confrontations. The new US President, Donald Trump, may also throw significant challenges on RBI's monetary policy and val-

uation of the rupee. Cryptocurrency is also one of the major concerns for RBI.

RBI MOOTS FOR BETTER WAGES

Madam — The Chief Economic Advisor (CEA) to the Government of India has emphasised the need for better employee compensation growth, especially when India Inc is experiencing record profit growth. With the rising prices of education fees, medical fees, vegetables, grocery items, and daily necessities, there is a strong need to raise the compensation growth of employees, as their salary/wages are their primary source of living. This downfall in compensation growth is also affecting GDP growth, as employees are controlling their expenditures for survival. Government agencies need to address this issue by implementing policies that promote fair compensation practices for the overall well-being of India.

Bridging the educational divide through computer-based testing

A successful classroom isn't just about books and resources; it's about creating an environment where students feel valued, heard and empowered to succeed

MATHEW POYIADGI

In populous and diverse countries like India, the educational landscape often mirrors the stark contrasts between urban and rural regions. Urban areas benefit from advanced infrastructure and access to extensive educational opportunities, while rural regions often struggle with limited resources and opportunities. This disparity significantly affects students in rural communities, restricting their career prospects and perpetuating cycles of poverty. However, innovative solutions like computer-based testing (CBT) hold the potential to bridge this divide, fostering enhanced employability and socioeconomic progress.

initiatives by enabling a broader range of courses and certifications, including technical skills like coding and data analysis and soft skills such as communication and leadership. Certifications that are nationally or globally recognised add value to individuals' skillsets, making them more competitive in the job market. As more people upskill and secure employment, communities experience economic upliftment. Educated individuals often share knowledge within their communities, creating a ripple effect that promotes continuous learning and development.

Addressing Skills Gaps: The demand for tech skills is on the rise globally. The World

Economic Forum's Future of Jobs Report 2023 highlights that technology and IT roles constitute 16 of the top 100 rising jobs, reflecting the growing importance of tech-related expertise. Conversely, the Global Talent Shortage report by Manpower Group reveals a significant skills gap, with 77 per cent of employers struggling to find qualified talent. Bridging this gap is critical to meeting current and future market demands, particularly through IT and tech-focused courses.

According to Pearson VUE's 2023 Value of IT Certification Candidate Report, professionals who earned IT certifications gained confidence in their abilities, with 81 per cent feeling empowered to explore new job opportunities. Educational centres with CBT capabilities enable individuals in rural areas to acquire certifications that align with market needs, thereby promoting quality education and employability across the nation.

The Broad Reach of Computer-Based Testing: The flexible nature of CBT offers unique advantages over traditional testing methods.

Candidates can choose convenient testing locations and time slots, reducing stress and improving performance. This approach proved invaluable during the COVID-19 pandemic, allowing individuals to take exams remotely. The 2023 Value of IT Certification Report underscores the tangible benefits of certifications: 35 per cent of Indian candidates experienced job promotions, while 37 per cent secured new opportunities within their industry, and 20 per cent transitioned to different fields. **Bridging Urban-Rural Disparities:** The increasing availability of CBT centres in remote areas is a step toward addressing regional disparities in education and employment. These centres provide a pathway for individuals to upskill, earn recognised certifications, and improve their career prospects. As India continues to expand its CBT infrastructure, the nation moves closer to realising equitable educational opportunities and fostering inclusive socioeconomic growth.

PREPARATION FOR THE NEXT LIFE

Our journey through birth and death is inevitable, we must therefore detach ourselves

AJIT KUMAR BISHNOI

We should do it because evidence is overwhelming that we are eternal souls. We are in a birth and death cycle getting different bodies life after life. What will you say about Shanti Devi's rebirth? She was born in Delhi but recalled details of her past life in Mathura. Her recollections were so compelling that Mahatma Gandhi got interested. He appointed a committee of 15 prominent persons to study the case. They took Shanti Devi to Mathura and she was able to recollect all the relevant details even though she had never been to Mathura in her present life. Dr Ian Stevenson, a leading authority on reincarnation, came to India to interview her. He wrote that at least 24 statements of her memories matched verifiable facts.

These days TV channels have become interested in the rebirth phenomenon. They are producing evidence from all over the world to confirm the same. Then, the Bhagavad-Geeta – the book of eternal wisdom is full of detailed information about us being souls. I will cite just one verse. "Just as childhood, youth and old age are changes in the body of this soul, getting another body is a similar change. (2.93) And the ultimate confirmation is God saying it. Isn't He omniscient, who knows past, present and future also? Having convinced ourselves of this reality, let us see how we can prepare for a transfer or relocation from our present life. There are two main parts. The first one is getting mentally ready. Personally speaking, when the time came for me to go to the USA for higher

studies, I visualised how my life would change for the better in the coming years. I also realised that there will inevitably be many challenges in the new country. The second was to take with me whatever I could to make my life there as comfortable as possible. I took the necessary clothes and a little money, which was allowed at that time. But mainly it was my certificates and what I had learnt by that time. Similar preparations are required for the bodily change, though they are quite different in detail. The first one has to be the mental preparation for such a change. We should accept the fact that such a change is inevitable. And it can be a lot better than our present. Lord Krishna has assured, "Those who have begun their spiritual journey take birth in a family of pure and prosperous." (6.41) Therefore, it is essential that we do so too before our time comes to leave the present body. We must be in the shelter of God at that time by doing spiritual activities.

Surely, we must be following dharma in our activities as far as possible. We should be mainly in the mode of goodness, which is illuminating and free from diseases on account of purity. (14.6) We should be in control of bad emotions like lust, greed, anger, hate, etc. We should have accumulated a lot of good 'karmas' (acts) because this is all we are allowed to take with us. But we shouldn't put too much pressure on ourselves because we can make improvements gradually only. Whatever, we are presently doing, we should do it better. As the present determines the future, the present has to be safeguarded fully. Are we inclined to make the necessary preparations? We should get started right away at least mentally. It will be such a shame not to do so when we have time to do so. Those wanting to do so are encouraged by God; one will succeed.

Rebel forces oust Assad as Damascus falls

The fall of Assad's regime signals a new chapter in Syria's tumultuous history, raising critical questions about the country's path to stability

B K SINGH

Syrian President Bashar al-Assad's government has been fighting rebel groups with the support of Russia, Iran, Lebanese and Hezbollah right from 2011. Within ten days of rebels getting control over northwestern city of Aleppo and further capturing Hama and Homs, the capital Damascus also fell under their control on December 8. President Assad along with his wife and three children fled the country before rebel forces could reach him. He has been granted asylum in Moscow. His younger brother was tipped to succeed his father as President, died in a road accident.

He was called back from London, where he was practising ophthalmologist, to succeed his father as President of Syria. In the initial months after taking over the Presidency in the year 2000 he was seen as a reformist and pro-people in sharp contrast to his father Hafez al-Assad's three-decade rule with iron hands. Once pro-democracy protests erupted in 2011, he followed the brutal tactics of his father to crush dissent. The conflict escalated into civil war and he was seen unleashing his military to blast opposition-held territories. All supporters of the Assad regime have considerably weakened their backing on account of the ongoing war they are engaged in. Russian forces have a challenging battle in Ukraine. Owing to the high level of casualties of soldiers in the battle, Russia has withdrawn its forces from Syria partially and is even further recruiting foreign nationals in the force to keep the war going, which has already been continuing for a quarter to three years. Hamas's terror attack on Israel on October 7, 2023 and Israel's response to Gaza opened several dimensions of the West Asia conflict.

Iran's supported terror groups like Hezbollah in Lebanon, and Houthis in Yemen have denounced Palestinians suffering in Gaza on account of Israeli bombardment and it opened additional fronts for Israel in the conflict. This has also weakened Iran and Hezbollah to provide adequate support to Assad's regime. In addition, 13 years of Syrian civil war has exhausted the Syrian Army. Owing to the corruption in the bureaucratic and political circle of the Syrian government, and the series of Western sanctions, the economy

THE CONFLICT ESCALATED INTO CIVIL WAR AND HE WAS SEEN UNLEASHING HIS MILITARY TO BLAST OPPOSITION-HELD TERRITORIES. ALL SUPPORTERS OF THE ASSAD REGIME HAVE CONSIDERABLY WEAKENED THEIR BACKING ON ACCOUNT OF THE ONGOING WAR THEY ARE ENGAGED IN

has been hardly afloat. Further President Erdogan in Ankara, is facing the heat on account of three million Syrian migrants living in Turkey and more so because Syria dismisses his proposal for deportation of migrants alleging that his country has illegally occupied Syrian areas along the border. There was an option for Assad to join the Arab League last year, but he did not accept making Arab nations also opposed to him. Earlier with the help of Iran and Russia, he had survived the Arab Spring Rebellion against him, which originated in Tunisia in 2011. The next question is about the future of Syria. Hayat Tahrir al-Sham (HTS) is a Sunni Islamist militant group, that played an important role in the Syrian civil war. It is this group that has led other rebel groups to occupy Damascus.

The US, UK and UN have designated it as a terrorist organisation. A bounty of \$10 million was on its chief Abu Mohammad al-Golani's head. UK has indicated lifting the ban on HTS if it delivers on promises like protecting minorities and people's rights. Turkey has backed some other rebel groups in the Syrian civil war, which do not have good ties with HTS. US-backed Kurdish YPG militia has established control in Syria's northeast, also known as the Kurdish democratic union party (PYD) does not enjoy good and workable relations with HTS. There are separate rebels in Syria's southwest.

It is quite difficult for all the groups to come together and be partners in Syria's new regime. 900 strong military men are maintained by the US in northeastern Syria. The US has maintained this presence in the name of countering ISIS, but its actual goal was the regime change in Syria. The US has now emerged clear winner. As rebels have asserted control over Syria and its capital Damascus, uncertainties remain about the future of the country.

The first day was marked by arsenals, looting of shops and banks, and emptying prisons followed by a night curfew, but the second day saw normalcy slowly returning to the capital and other cities. The main rebel commander al-Golani met Assad's PM Mohammad Jalali and Vice President Faisal Mekdad to install a transitional government in Syria. Further, Golani has announced publicly that they would bring out a list of government officials responsible for torturing the citizens.

In the meantime, there have been air strikes in Syria by Israeli, US and Turkey forces to protect each of their interests. Iran and Russia have suffered major setbacks with the fall of Assad's government. Both countries have lost their key allies. As Sunni Islamic groups are going to be in control of Syria, Iran a predominantly Shia population is more vulnerable to Israeli attacks. When rebel forces took control of Aleppo about a week earlier, both Iran and Russia could not extend adequate defence leading to the fall of even Damascus. Iran was exposed in recent Israeli direct attacks, and Hezbollah was also decimated, no significant support came from Assad. In recent months, Assad's Syria and Iran could not support each other when exigencies arose. Syria is the only state that had joined Iran's 'Axis of resistance' against the US and Israel.

The axis has become weak; even Hezbollah's downfall could not be prevented. Hezbollah has signed a ceasefire deal with Israel ahead of any Gaza deal. The action of the state of Iran and the Iranian Revolutionary Guards Corps (IRGC) to defend Assad did not go well with the people of Iran. It had political and economic costs. The fall of Assad sends a disturbing signal to Iran's supreme leader Ayatollah Khamenei, who now understands that the axis of resis-

tance can no longer protect the allies. Assad's fall has also emboldened opposition groups in Iran. Besides these, women are protesting for their rights.

All these may lead to regime change in Iran too. If the Supreme Leader realigns himself with the US by reviving/softening its stand on the 2015 nuclear deal, then regime change in Iran can be avoided. The last two weeks of violence that culminated in Assad's fleeing Syria, also saw the Shia population enthusiastically taking measures to secure the tomb of Sayyeda Zainab, the daughter of Hazrat Ali and Fatima and granddaughter of Prophet Muhammad. This holy site signifies great importance for Shia Muslims worldwide. To guarantee the security of this precious shrine, Shias from Iran, Iraq and Pakistan are also moving to Syria. The shrine is located in al-Sitt, south Damascus.

Since 1979 Iranian government has provided financial support for the management of the shrine. Several Shia scholars and celebrities are buried in the shrine and surrounding cemeteries. Since 2012 the town has been under attack from armed militants in neighboring Sunni towns. Many Shia families were driven out of their homes in southern Damascus.

Rockets landing on random places was quite common. Sunni Muslims comprise 74 per cent of Syria's population, whereas Shias are only 3 per cent. Shias hold quite a strong sentiment for the shrine; the issue can be a potential flash point between the two sects and would also determine the rivalry between rebel groups.

Will Syria's transition to democracy be smooth? It is possible only when different rebel groups learn to share power.

(The writer is Principal Chief Conservator of Forests-Head of Forest Force- Karnataka; views expressed are personal)

Empowering India's solar revolution: Navigating challenges and embracing opportunities

As energy demands are set to double by 2030, addressing these gaps is essential to transforming India's solar aspirations into reality

India has been declared as the third-largest energy-consuming country, thanks to the rising income and improving standards of living. In response to the escalating energy demand, India has set ambitious targets for solar energy capacity, aiming to reach 280 GW by 2030 (the highest among all renewable sources). And owing to the rise in awareness surrounding solar energy solutions, the country has achieved 70.10 GW of solar energy capacity by June 2023, which is 70.1 per cent of the target of 100 GW set in the year preceding. The rising awareness of solar solutions among consumers, particularly rooftop solar solutions, is a notable trend in the solar energy market. This trend has been driven by

PREETI BAJAJ

various factors, including technological advancements, innovation, digital revolution to unlock more of the sun's potential and support from the Central Government. Community leaders, particularly in rural and non-metro areas, have also emerged as crucial drivers in promoting the adoption of solar energy solutions. However, despite this awareness, a significant gap exists between the aware-

ness of the advantages of solar energy and its widespread adoption. The adoption rate remains relatively low. Reportedly, the country fell short of its renewable energy target for 2022 by 32 per cent, with an installed capacity of 119 GW compared to the target of 175 GW. Financial and cost considerations, geographical limitations, and perception issues further cause a challenge to solar energy adoption in India. To understand the potential consumers, Luminous initiated a large, nationwide survey to delve further into the perceptions, awareness, adoption, and challenges concerning solar energy among respondents in India. The initial analysis of the survey data suggests that while

people are increasingly aware of alternatives to traditional energy sources, a majority of consumers in India face three primary challenges in their adoption: Accessibility, Skill shortage, and Perceived cost implication, as discovered in the 'Solar Spectrum of New India' research. For instance, over two-quarters of the respondents (54 per cent) in the 'Solar Spectrum of New India' research rate their knowledge about solar energy solutions as high, however, nearly a quarter of the respondents (24 per cent) say solar energy solutions are inaccessible to them. In fact, according to the Council on Energy, Environment and Water (CEEW), 59 per cent of respondents do not possess

even a basic understanding of solar energy. Therefore, while awareness is spreading, concerns linger about the accessibility of solar infrastructure. Another challenge that came to the fore, is the shortage of specialised skills in the solar energy sector. The boost in the solar energy sector is facing a shortage of trained personnel for the effective implementation and maintenance of solar infra-

structure. According to the COO of the Skill Council of Green Jobs, there will be a requirement of 30,000 skill-certified human resources in the manufacturing segment by the end of FY 2024, and only 10,000 skill-certified jobs will be added by the end of this financial year. As per the 'Solar Spectrum of New India' survey data also, despite the acknowledgement of skill requirements, nearly half of the respondents (45 per cent) believe that skilled labour for implementing solar energy solutions is unavailable in their area, suggesting a mismatch between demand and supply of qualified personnel. While the government has introduced various policies and incentives to promote solar adoption- including

financial incentives, tax advantages, subsidies for solar power generation, net-metering regulations, basic customs duty, Production Linked Incentive (PLI), and the Aatmanirbhar campaign, perceived costs remain a significant deterrent for many individuals. Thus, the Solar Spectrum of New India presents both challenges and opportunities on the path towards a sustainable energy future. By addressing issues of accessibility, skill shortages, and perceived costs, stakeholders can work together to accelerate solar adoption trends and pave the way for a brighter, cleaner future for India.

It's also imperative because the demand for reliable power in urban and rural areas will double by 2030. This surge in

demand will be powered by increased industrial, economic, and domestic consumption activities throughout the country. Moreover, according to the National Electricity Plan, the projected all-India peak electricity demand and electrical energy requirement is 277.2 GW and 1,907.8 BUs for the year 2026-27 and 366.4 GW and 2,473.8 BUs for 2031-32, respectively. However, the absence of power line infrastructure and distribution utilities' lag in supplying power around the clock indicates the need for significant changes in existing energy infrastructure and the availability of alternate sources.

Ex-defense chief in South Korea tried to kill himself after being arrested over martial law

AP ■ SEOUL (SOUTH KOREA)

South Korea's previous defence minister was stopped from attempting suicide while in detention over last week's martial law declaration, officials said Wednesday, as President Yoon Suk Yeol's office resisted a police attempt to search the compound. The main liberal opposition Democratic Party plans to introduce a new motion to impeach Yoon for his December 3 declaration that imposed martial law in South Korea for the first time in more than four decades. Its first impeachment attempt failed after Yoon last Saturday resigned after ruling party lawmakers boycotted the vote. The party said it plans to submit the new motion on Thursday to set up a vote on Saturday. Yoon's ill-conceived power grab has paralysed South Korean politics, frozen its foreign policy and rattled financial markets. On Wednesday, rival

North Korea's state media for the first time reported about the turmoil across the border, but the country hasn't showed any suspicious activities. Shin Yong Hae, commissioner general of the Korea Correctional Service, told lawmakers that former Defense Minister Kim Yong Hyun tried to kill himself the previous night at a detention centre in Seoul. He said correctional officers stopped him and that he was in stable condition. Kim was arrested early Wednesday after a Seoul court approved a warrant for him on allegations of playing a key role in a rebellion and committing abuse of power. Kim became the first person formally arrested over the martial law decree. Kim, one of Yoon's close associates, has been accused of recommending martial law to Yoon and sending troops to the National Assembly to block lawmakers from voting on it. Enough lawmakers eventually managed to enter a parliament chamber and they unanimously

rejected Yoon's decree, forcing the Cabinet to lift it before daybreak on December 4. Kim said in a statement on Tuesday that he "deeply apologises for causing significant anxiety" to the public. He said all responsibility for the martial law imposition rests with him and pleaded for leniency for soldiers deployed to enforce it. Prosecutors have up to 20 days to determine whether to indict Kim. **Yoon's office hampers search of presidential compound:** Later Wednesday, police detained National Police Agency Commissioner General Cho Ji Ho and Kim Bong-sik, head of Seoul's metropolitan police. They were accused of deploying police forces to parliament to block lawmakers from voting. The main focus of investigators is finding whether Yoon, Kim and others involved in imposing martial law committed rebellion. A conviction on the charge of rebellion carries a

maximum death sentence. South Korean police said they sent officers to search Yoon's office on Wednesday to look for any evidence related to the martial law introduction. But investigators failed to enter the office as of Wednesday evening, about six hours after their arrival, senior police officer Lee Ho-young said in parliament. Some observers earlier said that the presidential security service won't likely permit searches of Yoon's office, citing a law that prohibits searches of sites with state secrets without approval from those in charge of those areas. Yoon on Saturday apologised over the martial law decree, saying that he won't avoid legal or political responsibility for it. He said he would leave it to his party to chart a course through the country's political turmoil, "including matters related to my term in office."

The leader of Yoon's ruling party later vowed to arrange the president's stable exit from office, saying the party will coordinate with Cabinet members over state affairs and that Yoon will be sidelined from duties. The comments were criticised as unrealistic and unconstitutional, but caused widespread questions about who is in charge of South Korea and its military at a time of heightened tensions with North Korea. The Justice Ministry on Tuesday banned Yoon from leaving the country as he faces investigations. Vice Defense Minister Kim Seon Ho reiterated Wednesday that Yoon remains in charge of the military. But Yoon hasn't been involved in any major official activities since lifting martial law, except for accepting resignation offers by officials involved in the martial law case and appointing the head for the country's Truth and Reconciliation Commission. **A view from North Korea:** A Wednesday article from the North's state news agency reported about the South

Korean political chaos and protests triggered by Yoon's martial law decree. The report mostly attempted to explain the South Korean events, though it called Yoon "a traitor" and his military "gangsters." Many experts say North Korea is sensitive to the domestic spread of news on major anti-government protests in foreign countries, because its own people have no official access to international news and could be affected by such events. The US State Department said Monday that the US-South Korean alliance remains "iron-clad" and that Washington is committed to the peace and security of the Korean Peninsula. In his martial law announcement, the conservative Yoon stressed a need to rebuild the country by eliminating "shameless North Korea followers and anti-state forces," a reference to his liberal rivals who control parliament. Since taking office in 2022, Yoon has had near-constant friction with the

Democratic Party, which introduced motions to impeach some of his top officials and launched a political offensive over scandals involving Yoon and his wife. Opposition parties and many experts say the martial law decree was unconstitutional. They say a president is by law allowed to declare martial law only during wartime or similar emergency situations, but South Korea wasn't in such a predicament. They argue that deploying troops to seal the National Assembly to suspend its political activities amounted to rebellion because the constitution doesn't allow a president to use the military to suspend parliament in any situation. If Yoon is impeached, his presidential powers would be suspended until the Constitutional Court decides whether to restore his powers or remove him from office. If he is dismissed from office, a new presidential election would be required.

Iran blames US, Israel for fall of Assad govt

AP ■ TEHRAN

Iran's Supreme Leader Ayatollah Ali Khamenei says the recent events in Syria, including the fall of its government, were part of a joint plan by the United States and Israel. "There should be no doubt that what has happened in Syria is the result of a joint American and Zionist plan," Khamenei said in a speech in Tehran on Wednesday that was broadcast on state TV. "We have evidence, and this evidence leaves no room for doubt." The Supreme leader added: "A neighbouring state of Syria has played a clear role in this matter, and it continues to do so. Everyone can see this." Khamenei also rejected speculation by analysts who have said that Iran will be weakened by the fall of Syrian President Bashar Assad's government. "Those ignorant analysts are unaware of the meaning of resistance. They think that if resistance weakens, Islamic Iran will also weaken. But I say, with the help and power of God — by the will of Almighty Allah — Iran is powerful and it will become even more powerful," he said.

Taliban refugee minister killed in Afghan blast

AP ■ ISLAMABAD

A suicide bombing in the Afghan capital on Wednesday killed the Taliban refugee minister and two others, Interior Ministry officials said. The explosion struck inside the ministry, killing Khalil Haqqani, the refugee minister, officials said. The officials provided no further details. They spoke on condition of anonymity because they were not authorised to speak to the media. Haqqani was the most high-profile casualty of a bombing in Afghanistan since the Taliban returned to power three years ago. There was no immediate claim of responsibility for the blast. Khalil Haqqani is the uncle of Sirajuddin Haqqani, the acting interior minister who leads a powerful network within the Taliban. The Islamic State group's affiliate, a major rival of the ruling Taliban, has carried out previous attacks across Afghanistan. In early September, a suicide bomber in the southwestern Qala Bakhtiar neighbourhood in Kabul killed at least six people and wounding 13 others. IS had claimed responsibility for the attack.

Israeli strikes on Gaza kill at least 29

AP ■ DEIR AL-BALAH (GAZA STRIP)

Israeli strikes on the Gaza Strip killed at least 29 people overnight and into Wednesday, including one that hit a home where displaced people were sheltering in the isolated north, killing 19, according to Palestinian medical officials. The Israel-Hamas war has raged on with no end in sight, even after Israel reached a ceasefire with Lebanon's Hezbollah and attention shifted to the overthrow of Syrian President Bashar Assad. Both the outgoing and incoming US administrations have said they hope to end the war before the inauguration but months of ceasefire talks have repeatedly stalled. The strike that killed 19 occurred in the northern town of Beit Lahya near the border with Israel, according to the nearby Kamal Adwan Hospital, which received the bodies. Hospital records show that a family of eight was among those killed, including four children, their parents and two grandparents. The hospital said another strike near its entrance on Wednesday killed a woman and her two children. Another strike in the built-up Nuseirat refugee camp in central Gaza killed at least seven people, according to the Awda Hospital. The dead included two children, their parents and three relatives, it said. There was no immediate comment from the Israeli military. The military says it tries to avoid harming civilians and accuses militants of hiding among them, putting their lives in danger. Militants in central Gaza meanwhile fired four projectiles into Israel on Wednesday, two of which were intercepted, the

military said. The other two fell in open areas, and there were no reports of casualties. The military ordered the evacuation of a five-block area of the built-up Maghazi refugee camp in central Gaza, saying the rockets had been fired from there. The orders indicated that Israel would soon carry out strikes in the area. The war began when Hamas-led militants stormed into Israel on October 7, 2023, killing some 1,200 people, mostly civilians, and abducting around 250 people, including children and older adults. Around 100 hostages are still inside Gaza, at least a third of whom are believed to be dead. Israel's retaliatory offensive has killed over 44,000 Palestinians in Gaza, according to local health officials. They say women and children make up more than half the dead but do not distinguish between fighters and civilians in their count. Israel says it has killed over 17,000 militants, without providing evidence. Thousands more Palestinians have gone missing during the war, some after encounters with Israeli troops. Israel has been waging a renewed offensive against Hamas in Gaza's isolated and heavily destroyed north since early October. Troops have surrounded Beit Lahya, Beit Hanoun and the urban Jabaliya refugee camp, allowing in almost no humanitarian aid and ordering tens of thousands to flee to nearby Gaza City. Israeli officials have said the three communities are mostly deserted, but the United Nations humanitarian office said Tuesday that it believes around 65,000 to 75,000 people are still there, with little access to food, water, electricity or health care. Experts have

warned that the north may be experiencing famine. Sigrid Kaag, the senior UN humanitarian and reconstruction coordinator for Gaza, told reporters at the UN on Tuesday that civilians trying to survive all across Gaza face an "utterly devastating situation." She pointed to the breakdown in law and order and looting that has left the UN and many aid organisations unable to deliver food and other humanitarian essentials to hundreds of thousands of Palestinians in need. Kaag said she and other UN officials keep repeatedly asking Israel for access for convoys to northern Gaza and elsewhere, to allow in commercial goods, to reopen the Rafah crossing from Egypt in the south, and to approve dual-use items. The Israeli military says it allows in enough humanitarian aid and blames UN agencies for not distributing it, saying large amounts of aid have accumulated just inside Gaza's borders. UN officials say Israeli restrictions, the breakdown of law and order and ongoing fighting make it difficult to access the aid and distribute it, and have repeatedly called for a ceasefire. The United States, Egypt and Qatar have been mediating talks between Israel and Hamas for nearly a year, and diplomats say those efforts have recently gained momentum. But Hamas has said it will not release the remaining hostages without an end to the war and a full withdrawal of Israeli troops. Israeli Prime Minister Benjamin Netanyahu has pledged to continue the war until Hamas is destroyed and all the hostages are returned and has said Israel will maintain a lasting military presence in some areas.

Global chemical arms monitoring watchdog convenes meeting to discuss Syria situation

AP ■ THE HAQUE

The global chemical weapons watchdog will hold an emergency meeting on Thursday to discuss the situation in Syria over concerns about the country's stockpile of toxic chemicals. The Organisation for the Prohibition of Chemical Weapons told Syria on Monday it is under obligations to comply with rules to safeguard and destroy dangerous substances, such as chlorine gas, after rebels entered the capital Damascus at the weekend and overthrew the regime of President Bashar Assad. The meeting was called by the organisations executive council to

discuss the current situation in Syria as well as the status of ongoing investigations in the country. Members of the ousted Syrian government plan to gradually transfer power to a new transitional cabinet headed by Mohammed al-Bashir, who reportedly headed the rebel alliance's "salvation government" in its southwest Syrian stronghold. Outgoing officials met for the first time Tuesday with al-Bashir, who told reporters that the transitional period would last until the beginning of March. Assad's regime denied using chemical weapons, but the OPCW has found evidence indicating their repeated use by Syria

in the country's grinding civil war. Earlier this year, it found the Islamic State group had used mustard gas against the town of Marea in 2015. The US has said it will recognise and support a new Syrian government that renounces terrorism, destroys chemical weapons stocks and protects the rights of minorities and women. "When it comes to this question of inspections and verifications, it is the responsibility of that organisation to conduct verification efforts under its mandate, not any of the member states or the United States or other states. That, the OPCW will do," State Department spokesperson Matthew Miller told reporters in

Washington on Tuesday. Israel said it has carried out more than 350 strikes in Syria over the last 48 hours, hitting "most of the strategic weapons stockpiles" in the country to stop them from falling into the hands of extremists. The Israeli military acknowledged pushing into a buffer zone inside Syria but it remained unclear if Israeli soldiers had gone beyond that area, which was established more than 50 years ago. Israel denied that it was advancing on the Syrian capital of Damascus. The Kremlin said Sunday that Russia had granted political asylum to Assad, a decision made by President Vladimir Putin.

Aid to N Gaza blocked for last 2 months: UN

AP ■ UNITED NATIONS

Humanitarian aid to North Gaza, where Israel launched a ground offensive on October 6, has largely been blocked for the past 66 days, the United Nations has said. That has left between 65,000 and 75,000 Palestinians without access to food, water, electricity or health care, according to the world body. In the north, Israel has continued its siege on Beit Lahya, Beit Hanoun and Jabaliya with Palestinians living there largely denied aid, the UN Office for the Coordination of Humanitarian Affairs, known as OCHA, said on Tuesday. Recently, it said, about 5,500 people were forcibly displaced from three schools in Beit Lahya to Gaza City. Adding to the food crisis, only four UN-supported bakeries are currently operating throughout the Gaza Strip, all of them in Gaza City, OCHA said. Sigrid Kaag, the senior UN humanitarian and reconstruction coordinator for Gaza, told reporters after briefing the UN Security Council behind closed doors Tuesday afternoon that civilians trying to survive in Gaza face an "utterly devastating situation"

TikTok challenges Canadian government order to dissolve business in country

AP ■ OTTAWA

TikTok has challenged a Canadian government order to shut down the Chinese video-sharing app's business operations in the country that was imposed over national security concerns. The company said Tuesday that it filed an application for a judicial review with the Federal Court in Vancouver on December 5, which seeks to set aside the order for TikTok to wind-up and cease its business in Canada. The Canadian federal government last month announced it was ordering the dissolution of TikTok Technology Canada Inc. after a national security review of its Chinese parent company ByteDance Ltd. The government is not blocking access to the TikTok app, which will continue to be available to Canadians. TikTok said it has 14 million users in Canada, which is about a third of the population. It has offices in Toronto and Vancouver. The wildly popular platform is owned by ByteDance, a Chinese company that moved its headquarters to Singapore in

The Canadian federal government last month announced it was ordering the dissolution of TikTok Technology Canada Inc. after a national security review of its Chinese parent company ByteDance Ltd. 2020, but is under increasing pressure in the West. It's facing a possible ban in the US and intensifying scrutiny in Europe over issues including election influence campaigns allegedly coordinated by Moscow. TikTok argues in its court application, which was posted online, that Industry Minister François-Philippe Champagne's decision was "unreasonable" and "driven by improper purposes." It says the order is "grossly disproportionate" and the national security review was "procedurally unfair." The review was carried out through the Investment Canada Act, which allows the

government to investigate foreign investment with potential to harm national security. Champagne said in a statement at the time that the government was taking action to address "specific national security risks," but did not elaborate. His office said in response to the filing that the government's decision was informed by a "thorough national security review and advice from Canada's security and intelligence community." TikTok said Champagne "failed to engage with TikTok Canada on the purported substance of the concerns" that led to the order. It argues the government ordered "measures that bear no rational connection to the national security risks it identifies" and that the reasons for the order "are unintelligible, fail to reveal a rational chain of analysis and are rife with logical fallacies." The platform says there were "less onerous" options than shutting down its Canadian business, which it said would eliminate hundreds of jobs, threaten business contracts and "cause the destruction of significant economic opportunities."

Trump mocks Justin Trudeau

PTI ■ WASHINGTON

US President-elect Donald Trump took a jab at Canadian Prime Minister Justin Trudeau on the social media platform Truth Social, describing him as the "Governor of Canada." Trudeau flew to Mar-a-Lago last week for a dinner with Trump to discuss the President-elect's warning to impose a 25 per cent tariff on Canada if its government failed to stop the flow of illegal immigrants and illicit drugs from the country into the United States. In a post on Truth Social mocking the Canadian prime minister, Trump said, "It was a pleasure to have dinner the other night with Governor Justin Trudeau of the Great State of Canada." During the dinner, when Trudeau said that such a tariff would destroy the Canadian economy, the President-elect reportedly told him to make Canada the 51st state of the United States. Trump repeated this in an interview with NBC News over the weekend and again in the post on Tuesday. "I look forward to seeing the Governor again soon so that we may continue our in depth talks on Tariffs and Trade, the results of which will be truly spectacular for all! DJT," Trump said in his post.

22 held, 150 booked for propagating against Pak Army on social media

PTI ■ LAHORE

Pakistani authorities have booked 150 suspects and arrested 22 of them, mostly belonging to Imran Khan's party, for allegedly propagating against the army on social media on the killings of the party workers in Islamabad on November 26, an official said on Wednesday. According to the Pakistan Tehreek-e-Insaf (PTI), at least 12 party workers were killed and hundreds wounded when law enforcers opened fire on the protesters in Islamabad on November 26. It also claims that around 105 party workers have been missing since then. Following the incident, Khan's supporters started blaming the Pakistan Army for opening fire on the peaceful protesters. The Shehbaz Sharif-led government denied that the law enforcers opened fire on the protesters and pledged to take strict action against those propagating on social media. The government formed a special task force headed by the Federal Investigation Agency (FIA) chief to NAB such elements.

Amnesty had sought a transparent investigation of the state's "deadly crackdown" to disperse PTI supporters from Islamabad's D-Chowk where they had gathered for the release of their leader Imran Khan. "Subsequently, the FIA cyber-crime wing booked some 150 suspects and arrested 22 social media activists across the country," an FIA officer said. He said that the FIA made 117 raids, mostly in Punjab, to arrest the suspects involved in the propaganda against the state institutions. The suspects (social media activists) have been booked under different sections of the Prevention of Electronic Crimes Act (PECA). Earlier, Amnesty International had demanded a transparent investigation of the state's "deadly crackdown" to dis-

perse PTI supporters from Islamabad's D-Chowk where they had gathered for the release of their incarcerated leader and former prime minister. More than 10,000 protesters surged into Islamabad on Nov 26, defying a ban on public gatherings and a lockdown to skirmish with 20,000 security forces enlisted to turn them back. As Khan supporters inched towards the heavily barricaded D-Chowk, the police and security forces used intense teargas shelling to disperse the protesters. Interior Minister Mohsin Naqvi had said the law enforcers had "bravely repulsed the protesters" without using firearms. Khan's party harshly criticised the interior minister for his statements and blamed him for the alleged violence against its supporters, claiming multiple deaths. Condemning the violence, Amnesty demanded a "prompt, thorough, impartial, effective and transparent investigation" into the deaths and injuries of protesters as well as the unlawful use of force, including lethal and less-lethal weapons, by security personnel.

Man accused of killing UnitedHealthcare's CEO shouts on way to courthouse, fights extradition

AP ■ ALTOONA (US) The man charged with murder in the killing of the CEO of UnitedHealthcare made it clear he wasn't going to make things easy on authorities, shouting unintelligibly and writhing in the grip of sheriff's deputies as he was led into court and then objecting to being brought to New York to face trial.

"insult to the intelligence of the American people" while deputies pushed him inside a courthouse. A law enforcement bulletin obtained by The Associated Press said that at the time of his arrest, Mangione was carrying a handwritten document expressing anger with what he called "parasitic" health insurance companies and a disdain for corporate greed and power. He wrote that the US has the most expensive health care system in the world and that profits of major corporations continue to rise while "our life expectancy" does not, according to the bulletin.

prosecutors said he was too dangerous to be released. He mostly stared straight ahead at the hearing, occasionally looking at papers, rocking in his chair or looking back at the gallery. "You can't rush to judgment in this case or any case," Dickey said afterward. "He's presumed innocent. Let's not forget that." Mangione was arrested in Altoona, Pennsylvania, about 230 miles (about 370 kilometers) west of New York City, after a McDonald's customer recognised him and notified an employee, authorities said. New York police officials have said Mangione was carrying a gun like the one used to kill Thompson and the same fake ID the suspected shooter had used to check into a New York hostel, along with a passport and other fraudulent IDs. A law enforcement official who wasn't authorised to discuss the investigation publicly and spoke with The Associated Press on condition of anonymity said a three-page, handwritten document found with Mangione included a line in which he claimed to have acted alone.

B'desh court rejects plea to advance hearing of Hindu monk's bail plea

PTI ■ DHAKA A Bangladesh court Wednesday rejected a plea to advance the hearing of arrested Hindu monk Chinmoy Krishna Das' bail petition in a sedition case, ruling that it would be heard as previously fixed on January 2. Court officials said Chattogram Metropolitan Session Judge Saiful Islam rejected the plea as the lawyer who filed the petition seeking the advanced hearing did not have the power of attorney from the monk.

official said. In his plea, Goshe said Das was arrested in a "false and fabricated case" while he had been suffering from diabetes, asthma and other issues. The lawyer, however, admitted that he did not go to the prison to obtain a signed power of attorney from Das. "I will visit Chinmoy in the prison now and obtain the Vakalatnama (power of attorney)," he said. The hearing was due to be held on December 3 when the court deferred the date to January 2, 2025, on a prosecution side suggestion as no lawyer appeared on his behalf.

monk, fearing threats and pressure from a "politically motivated lawyers' group". Das, a former ISKCON leader, was arrested at the Hazrat Shahjalal International Airport in Dhaka on November 25. The next day, a court in Chattogram sent him to jail, rejecting his bail petition as he was accused of a sedition charge for allegedly disrespecting the country's flag.

PUBLIC NOTICE This Notice is hereby given to general public that My client Mr. Javed Ojha who claimed to be absolute and sole owner and in possession of the Residential House bearing No. 136-A/10, area measuring 110 sq. yds. Ward No. X, Chhatra Lal Mahar, Darya Canal, Delhi-110002, was the owner by virtue of the Registered Deed dated 16.10.2017, having Doc. No. 8331, & through GPA, ATS and Will, now they were approached All Smart Finance Bank Ltd., for financial assistance and therefore the property shall be mortgaged with the said Bank. Hereby by giving this public notice that if any person having any claim/objection regarding ownership and/or creating mortgage of the said property or any part of the said property in favour of All Smart Finance Bank Ltd., is/are hereby requested to notify the same in writing to undersigned with supporting documentary evidence at the address mentioned in publication of this notice, failing which any claim, if any, of such persons will be considered to have been waived and/or abandoned and our client shall proceed with the disbursement of loan against the said property and subsequent creation of Mortgage in respect of said property is/are hereby requested to intimate in writing to the undersigned within 07 days at below address:

Organisations must address employees' mental health issues says former IT official

PTI ■ CHENNAI

Organisations need to prioritise addressing employees' mental health issues, as only happy employees can perform their jobs with dedication, leading to exceptional results, said R Chandrasekaran, former Executive Vice Chairman of Cognizant. "Many tools and platforms are available to identify mental health issues. Organisations that address these challenges will benefit both individuals and the companies themselves," Chandrasekaran said while speaking at an event. Delivering the address at the launch of Ewolv, a platform supporting the holistic well-being of working women

across various life stages, he highlighted the importance of mental health. "Many organisations focus on technical, managerial, and

cross-functional skills, but they often miss the critical aspect of mental health, which forms the foundation for success," he stated.

The Ewolv platform, with its tailored solutions, aims to help organisations create inclusive environments where women can thrive both personally and professionally. Referring to reports of students allegedly committing suicide due to peer pressure, Chandrasekaran also the former Chairman of information technology industry body NASSCOM (National Association of Software and Service Companies) pointed out that stress begins at a young age and persists in professional life. "All of us are familiar and have been part of various organisations and we all know what level of stress one endures as they build their career.

So, the most important thing we need to address is the stress aspect, mental health aspect," he said. He also emphasised that companies should assess employees' mental health alongside their professional skills. "Tools are available to identify individual strengths and weaknesses. Recognising and resolving stress-related issues early benefits everyone involved," he remarked. "Happier employees are key to a company's success, and organisations need to realise this. Employees who work with heart deliver outstanding results," he added. The event also featured the presentation of the Ewolv Awards 2024 to successful women from various sectors.

Centre further tightens wheat stock limit for wholesalers, retailers and processors

PTI ■ NEW DELHI

The government on Wednesday further tightened wheat stock holding norms for wholesalers, small and big chain retailers, and processors to curb hoarding and check price rise. "As part of continuous efforts to moderate prices of wheat, the central government has decided to revise the wheat stock limit applicable until 31st March 2025," the food ministry said in a statement. According to the revised norms, wholesalers are now allowed to maintain wheat stock up to 1,000 tonne instead of 2,000 tonne, retailer can hold 5 tonne for each outlet instead of 10 tonne, while big chain retailer can hold 5 tonne for each outlet instead of 10 tonne earlier. Processors will be allowed to maintain 50 per cent instead of

60 per cent of their monthly installed capacity multiplied by the remaining months till April 2025. The stock limits on wheat were first imposed on June 24 and later revised to tighten the norms on September 9 in order to manage the overall food security and to prevent hoarding and unscrupulous speculation. The ministry said all wheat stocking entities are required to register on the wheat stock limit portal

(<https://evegoils.Nic.In/wsp/lo gin>) and update the stock position every Friday. If the stocks held by entities are higher than the prescribed limit, they should bring the quantity to the prescribed stock limits within 15 days of the issue of the notification. Any entity which is found to have not registered on the portal or violates the stock limits will be subject to suitable punitive action under the Essential Commodities Act, 1955.

Coca-Cola sells 40% stake in bottling arm HCCBL to Jubilant Bhartia Group

PTI ■ NEW DELHI

Global beverages major Coca-Cola has sold 40 per cent stake in its India bottling business Hindustan Coca-Cola Beverages Pvt Ltd (HCCBL) to Jubilant Bhartia Group. Though the company has not disclosed the amount of the deal, some media reports have pegged it at around Rs 10,000 crore. "The Coca-Cola Company today announced that it has reached an agreement with Jubilant Bhartia Group, a multi-billion conglomerate with global presence in diverse sectors, to acquire 40 per cent stake in Hindustan Coca-Cola Holdings Pvt Ltd, the parent company of the largest Coca-Cola bottler in India, Hindustan Coca-Cola Beverages Pvt Ltd," a joint statement said. These changes and investment represent a significant milestone for Coca-Cola as the company continues to pursue its purpose to refresh the world and make a difference,

the statement said. Commenting on the development, Coca-Cola India President Sanket Ray said: "We welcome Jubilant Bhartia Group to the Coca-Cola System in India. With its diverse experience in various sectors, Jubilant brings decades of rich experience that will help accelerate the Coca-Cola system, enabling us to win in the market and provide greater value to local communities and consumers." India is the fifth largest market of Coca-Cola globally. The Atlanta-headquartered firm is divesting bottling operations globally as part of its asset-light strategy. "This strategic investment represents an important milestone in our journey. Jubilant Bhartia Group's expertise, complements our strengths, ensuring that we continue delivering exceptional value to our stakeholders while driving innovation and sustainable progress," Hindustan Coca-Cola Beverages CEO Juan Pablo Rodriguez said.

India's EVs, ancillary industries may see ₹3.4 Lakh Crore investment by 2030: Colliers India

PTI ■ NEW DELHI

Domestic and foreign firms have announced a whopping Rs 3.4 lakh crore investment in India's electrical vehicles (EVs) and ancillary industries over the next five years, Colliers India on Wednesday said while expressing concern over "tardy progress" towards achieving the goal of 30 per cent electric mobility by 2030. Real estate consultant Colliers India on Wednesday released a report "EVs in India: Renewed Vigour in Electric Mobility", highlighting that an overall EV penetration rate in India stood at 8 per cent. It estimated sales of around 2 million (20 lakh) EVs in 2024. "Although the pace of EV adoption in the country has been commendable, it has not been as brisk as anticipated," the consultant pointed out. The report mentioned that individual companies across the EV landscape have announced plans to invest USD 40 billion (Rs 3,40,000 crore) in a phased manner till 2030. Out of this, USD 27 billion is planned for lithium-ion battery manufacturing and USD 9 billion for OE (Original Equipment) and EV manufacturing. When asked about the investments made in India's EVs and ancillary industries so far, the consultant said the data was unavailable. "The deployment of planned investments over the next 5-6 years can open up multiple real estate opportunities, especially in the industrial &

warehousing sector. Investments can potentially accelerate land acquisition and expedite setting up of EV and OE manufacturing units including lithium-ion batteries," the report said. Colliers India noted that India has set an ambitious target to achieve 30 per cent electric mobility with 80 million EVs on roads by 2030. "However, despite steady growth in sales volumes and focused government efforts, the progress has been tepid till now," it said. A current penetration rate of 8 per cent and total EV stock of just over 5 million, necessitates an exponential growth in EV adoption across categories over the next few years, the consultant said. Interestingly, the report mentioned that EV adoption has been the highest in 3-wheelers (predominantly e-rickshaws used for last-mile public commute), where operational expense reduction offsets higher one-time expenses upon purchase of EV variants. To expedite EV adoption in personal vehicles including 2 and 4-wheelers, further

impetus on domestic manufacturing should help in eliminating fixed costs of EV purchase, the report suggested. "Given the tardy progress and estimated 2 million annual EV sales in 2024, it is unlikely that we can witness an overall 6x growth in average annual sales from 2025-2030," Colliers said. However, focused demand and supply side measures can result in slightly delayed and eventual completion of set targets, it hoped. Apart from subsidies, tax incentives and domestic manufacturing impetus, the consultant said that quantum improvement in charging infrastructure can potentially drive EV sales across vehicle categories and expedite partial accomplishment of 2030 targets. Moreover, a multifold increase in EV sale volumes can be fast-tracked by the narrowing of the price differential between EV and Internal Combustion Engine (ICE) variants (currently 20-50 per cent across 2,3 & 4-wheelers and heavy vehicles), the report said.

ADB lowers India's GDP growth forecast to 6.5 per cent for FY25

PTI ■ NEW DELHI

The Asian Development Bank (ADB) on Wednesday lowered India's economic growth forecast to 6.5 per cent for the current financial year from its earlier estimate of 7 per cent due to lower-than-expected growth in private investment and housing demand. The multilateral development bank has also lowered India's growth forecast for 2025-26 financial year. Changes in US trade, fiscal, and immigration policies could dent growth and add to inflation in developing Asia and the Pacific, according to the latest edition of Asian Development Outlook (ADO). The report also said Asia and the Pacific's economies are projected to grow 4.9 per cent in 2024, slightly below ADB's September forecast of 5 per cent. "India's outlook is adjusted downward from 7 per cent to 6.5 per cent for this year, and from 7.2 per cent to 7 per cent next year, due to lower-than-expected growth in private investment and housing demand," ADB said. Last week, the Reserve Bank also significantly lowered the growth projection for current fiscal year to 6.6 per cent from 7.2 per cent earlier and hiked the inflation forecast to 4.8 per cent in view of slowdown in economic activity as well as stubborn food prices. India's GDP growth fell to a 7-quarter low of 5.4 per cent in July-September period of

current financial year 2024-25 as against RBI's own projection of 7 per cent. India's growth will remain robust, with the economy supported by higher agriculture output resulting from the summer (or kharif) crop season (which will also put downward pressure on food prices); continued resilience of the services sector; and lower-than-expected Brent crude prices in 2024 and 2025, ADB added. It further said strong forward-looking and labour market indicators, such as PMI for industry and services, urban labour force participation and Reserve Bank of India's industrial outlook, suggest that economic momentum will recover in the coming quarters. The report further said Southeast Asia's growth outlook has been raised to 4.7 per cent this year from a previous forecast of 4.5 per cent, driven by stronger manufacturing exports and public capital spending. The forecast for next year is unchanged at 4.7 per cent. The Manila-headquartered bank has kept the growth forecast for China unchanged at 4.8 per cent this year and 4.5 per cent next year. According to the report, Asia and the Pacific's economic growth will remain steady this year and next, but expected US policy changes under the incoming administration of President-elect Donald Trump are likely to affect the region's long-term outlook.

Reliance NU Suntech wins India's largest 930 MW solar project

PNS ■ NEW DELHI

Reliance NU Suntech, an arm of Reliance Power, has won country's single largest 930 MW solar project with 1,860 MWh battery energy storage system from SECI. The subsidiary has secured the solar with storage project in an e-reverse auction held by SECI on Monday, parent Reliance Power said in a statement. "Reliance NU Suntech has won 930 MW solar energy contract from SECI. This is the single largest project of solar and battery storage system in India," the company said. As per the terms of the tender, Reliance NU Suntech will also have to install a minimum storage capacity of 465 MW/1,860 MWh charged by solar power. An energy storage system of 465 MW/1,860 MWh means 465 MW of battery energy can provide power backup for four hours, giving a total output of 1,860 MW. Reliance NU Suntech has won the project at a tariff of Rs 3.53/kWh. The Letter of Award (LoA) is awaited from SECI. Reliance NU Suntech will develop the project on a build-own-operate basis and connect it to the interstate transmission system (ISTS) in compliance with Central Electricity Regulatory Commission (CERC) regulations for interconnection with the ISTS. SECI's Tranche XVII auction was for a total capacity of 2,000 MW of ISTS connected solar power projects with 1,000 MW/4,000 MWh energy storage systems. Solar Energy Corporation of India (SECI) is one of the nodal agencies to implement RE projects in India.

Sanjay Malhotra takes charge as RBI's 26th Governor

PTI ■ MUMBAI

Sanjay Malhotra on Wednesday took charge as the 26th Governor of the Reserve Bank of India. Malhotra, a career bureaucrat, arrived at the central bank's headquarter this morning, where he was welcomed by senior RBI staffers. The central bank confirmed Malhotra's appointment through a post on the microblogging site "X" and also shared a few pictures. Malhotra, who recently served as the Revenue Secretary, signed the documents to take the charge of the important institution that performs a variety of roles. Deputy Governors Swaminathan J, M Rajeshwar Rao, and T Rabi Sankar were present when he assumed charge. Malhotra, an IAS officer of the Rajasthan cadre comes at the helm of RBI at a very critical juncture, where growth and inflation balance has "unsettled" as per his predecessor Shaktikanta Das. GDP Growth declined to a seven-quarter low of 5.4 per cent in the September quarter while the October headline inflation was above the 6 per cent mark set for the central bank by the government. Analysts are expecting the RBI to cut interest rates at the forthcoming policy review in February, and are of the opinion that Malhotra's appointment "cements" the possibility.

SEBI to launch survey on risk awareness, increasing retail participation in capital marketing

PTI ■ NEW DELHI

Market regulator SEBI will conduct a pan India survey on how to bring more people into the capital market, create risk awareness and bridge the gaps in the ecosystem, a Sebi official said on Wednesday. Sebi whole time member Ananth Narayan G said that volatility in the Indian markets is low and USD 14 billion FPI outflow in

October-November was matched by an equivalent

amount of inflow by the domestic investors, like mutual funds. He, however, cautioned that there is no room for complacency. "While we celebrate the growth of domestic investors, it does not mean we do not need foreign investments. We need foreign investment. We have to ensure that we remain an attractive destination to draw in investment across the globe so that we can fund future growth,"

Narayan said at the CII Global Economic Policy Forum 2024. He also said that this inflow from retail and fresh investors should not be taken for granted. "We have to nurture the golden goose. We are worried about young people, many of them have not seen investment cycle or capital market downside (investing in market), Narayan said while

wondering that if there is adequate risk awareness. The regulator, he said, is working with AMFI, exchanges and clearing corporations to increase investor awareness. Narayan also said that Sebi will be launching a pan-India survey on how to bring more people into the capital market ecosystem. How to make them risk aware. And also, the gaps in the system and how to bridge the gap.

Maruti Suzuki eyes 8,000 overall service touchpoints by 2030-31

PTI ■ NEW DELHI

Car market leader Maruti Suzuki India on Wednesday said it plans to increase its overall service network to 8,000 touchpoints by 2030-31, with an aim to reach closer to its customers. The company, which on Wednesday opened the 500th service touchpoint for its premium retail outlet NEXA, currently has 5,240 touchpoints across NEXA as well as ARENA - the mass market retail chain. "Our aim is to consistently deliver convenience and superior car ownership experience to our customers. One way is by reaching closer to our customers so that they

have assurance of finding a Maruti Suzuki service touchpoint nearby," Maruti Suzuki India MD & CEO, Hisashi Takeuchi said in a statement. He further said, "Going forward as we plan to substantially increase our annual production and sales, we will simultaneously strengthen our service network. Our plan is to expand our service network, including ARENA and NEXA service touchpoints, from about 5,240 to 8,000 by FY 2030-31." Maruti Suzuki opened its first NEXA service workshop in July 2017. Since then it has steadily expanded the touchpoints and added 90 such NEXA service touchpoints in 2023-24 alone, the highest in a year. So far this fiscal, the company has already added 78 new NEXA service touchpoints. The 500th NEXA service touchpoint milestone was reached in a span of 7 years and 5 months.

Need to blend commercial considerations with economic priorities, strategic needs: Finance Minister Nirmala Sitharaman

PTI ■ NEW DELHI

Finance Minister Nirmala Sitharaman on Wednesday stressed that India Inc's commercial considerations should blend with the economy, nation's priorities and strategic needs. Asking the industry to "realign and reset" itself based on the lessons learnt in the last decade, Sitharaman said the supply chains should be widespread lest geopolitical risks disrupt it. "Economic and commercial considerations today will have to blend (with) economy and its priorities with politics and strategic needs," Sitharaman said at the CII Global Economic Policy Forum 2024 here. Outlining the priorities of the economy for the next decade, Sitharaman said the industry should work with small and medium enterprises to explore how they can support large units, while equally contributing to

job creation. "When we talk about restoring supply chains to frictionless supply chains, let's not forget it's not just economics, it's more than that... We have to build in our own decision making not just in economic sense but also in a political and strategic sense. "Supply chains will have to be restored but you would have to reset it, realign it, you will have to make sure that it is spread so much that it is not geopolitical or strategic risks will threaten our wellbeing," Sitharaman said. Learning from the last decade are that the country will have to now realign, and industry will have to realign itself not just on economic principles. Sitharaman said the attempt of both industry and governments everywhere should be to restore global calm and normalcy. There can nowhere be enough justifiable reason for skirmishes or war, she said.

"The global priority for this decade should be to restore normalcy. They are the main cause for disruptions in supply chain, inflation and other global challenges," the Minister said. Stating that the benefits of economic success will be spread properly only through technology, India's Digital Public Infrastructure (DPI), ONDC (Open Network for Digital Commerce) and technology stack for agriculture have been democratised access. "Farmers are now able to access the global markets due to the advantage of technology. I'm sure that 'Agri Stack' will be the next big thing you will hear coming out of India," she added. "The world is facing challenges which are reflected in the economy," the Minister said. Industry will have to look at ways to adapt with newer challenges, she said, adding scale cannot be the only criteria.

FIFA prepares to give host of 2034 World Cup to Saudi Arabia

SAUDI ARABIA will be confirmed by FIFA as host of the men's soccer 2034 World Cup on Wednesday, giving the oil-rich kingdom its biggest prize yet for massive spending on global sports driven by Crown Prince Mohammed bin Salman. The decision completes a mostly opaque 15-month bid process which FIFA president Gianni Infantino helped steer toward Saudi Arabia without a rival candidate, without taking questions, and which human rights groups warn will put the lives of migrant workers at risk. FIFA and Saudi officials say hosting the 2034 tournament can accelerate change, including more freedoms and rights for women. A fast-track path to victory was cleared last year by FIFA accepting a three-continent hosting plan for the 2030 World Cup led by Spain, Portugal and Morocco. That bid also will win Wednesday in a combined approval for the 2030 and 2034

The kingdom plans to spend tens of billion of dollars on projects related to the World Cup as part of the crown prince's sweeping Vision 2030 project that aims to modernize Saudi society and economy. At its core is spending on sports by the \$900 billion sovereign wealth operation, the Public Investment Fund, which he oversees. Critics have called it "sportswashing" of the kingdom's

reputation. The prince, known as MBS, has built close working ties to Infantino since 2017 — aligning with the organizer of sport's most-watched event rather than directly confronting the established system as it did with the disruptive LIV Golf project. The result for Saudi Arabia and FIFA has been smooth progress toward the win Wednesday with limited pushback from soccer officials, though some from women international players. The steady flow of Saudi cash into international soccer is set to increase. FIFA created a new and higher World Cup sponsor category for state oil firm Aramco, and Saudi funding is set to underwrite the 2025 Club World Cup in the United States that is a pet project for Infantino. North American soccer body CONCACAF signed a multi-year deal with PIF, Saudi stadiums host Super Cup games for Italy and Spain, and nearly 50 FIFA member federations have signed working agreements with Saudi counterparts. Lavish spending by PIF-owned Saudi clubs in the past two years buying and paying players — including Cristiano Ronaldo, Neymar, Karim Benzema and Sadio Mané — put hundreds of millions of dollars into European soccer. That influence could be key in talks to agree which months to play the 2034 World Cup. The November-December slot taken by Qatar in 2022 to avoid extreme midsummer heat is complicated in 2034 by the holy month of Ramadan through mid-December and Riyadh hosting the multi-sport Asian Games. Still, January 2034 could be an option — and likely better for European clubs and leagues — after the International Olympic Committee said it saw few issues in clashing with the Salt Lake Winter Games opening Feb. 10, 2034. The IOC also has a major commercial deal with Saudi Arabia, to host the new Esports Olympics.

Vandana Katariya hopes Women's HIL will boost confidence, talent flow

PTI ■ BENGALURU

Star Indian forward Vandana Katariya believes the inaugural Women's Hockey India League will strengthen the talent flow to the national team, besides offering the players a never-before opportunity to "mingle with international players." Returning after a seven-year hiatus, the league, to be held from December 28 to February 5, will feature a women's competition for the first time. "As everyone can see in the previous editions, the men's team got a chance to mingle with international players, raise their confidence levels and it has helped the team immensely and they are getting medals on a consistent basis now," Vandana said in an HIL release. "I expect the same effect when the Women's HIL begins with four teams this year. This will be a good opportunity for players who could not make the cut for the National Camp to showcase their potential and grow under different coaches. It will also help strengthen the conveyor belt of talent coming into the Indian women's hockey team." A veteran of 317 matches with 158 goals, the 32-year-old will lead the forward line of Shachi Ramh Bengal Tigers in the inaugural edition. "When the HIL was running

Not taking a break after Olympics left me emotionally drained: Tanisha Crasto

PTI ■ NEW DELHI

Tanisha Crasto described her turbulent Olympic debut in Paris as a period of heartbreak, admitting she made the "mistake" of not taking a break afterward, but said reuniting with Ashwini Ponnappa with a renewed approach led to their triumph at the Guwahati Masters. Tanisha and her seasoned partner Ashwini, who endured three lopsided losses on the trot to make a group stage exit in Paris, bounced back to put up a dominant performance and defend their Guwahati Masters Super 100 title on Sunday. "It's been a tough transition after the Olympics for everyone, including me and Didi (Ashwini). I made the mistake of not taking a break, and it left me emotionally drained. But Didi took a huge break, and when we reunited, we focused on enjoying the game," the 21-year-old told PTI Videos. "We decided not to think about results, just to go out there and enjoy ourselves. And when we did that, the

game battle at the Syed Modi International Super 300 event in Lucknow earlier this month. "We had a very tough draw since the first match. For Dhruv (Kapila), who was recovering from an ankle tear, to pull through until the finals and defeat good pairs is something I'm really proud of." "They (Dechapol and Supissara) really caught us off guard in the final two games. And they really changed the whole game."

India loses to Australia, suffer 0-3 whitewash

PTI ■ PERTH

Opener Smriti Mandhana's elegant century went in vain as India lost to Australia by 83 runs in the third Women's ODI to suffer a 0-3 series whitewash here on Wednesday.

Opting to field after winning the toss, India had Australia on the ropes at 78 for four before middle-order batter Annabel Sutherland's scintillating 95-ball 110, and brisk half centuries from Ashleigh Gardner (50) and skipper Tahlia McGrath (56 not out), lifted the hosts to a competitive 298 for six in the allotted 50 overs at WACA.

In reply, India were bowled out for 215 in 45.1 overs. In pursuit of a stiff target of 299, the stylish Mandhana anchored the innings beautifully during her 105 off 109 balls and as long as the southpaw was at the crease, the visitors were in with a chance.

However, her dismissal at a crucial juncture put paid to India's hopes of earning a consolation win. The problem with the Indian innings was that the senior

batter lacked support from the others after Alana King ended a 118-run partnership between Mandhana and Harleen Deol (39 off 64 balls) by dismissing the latter.

During her stay in the middle, Mandhana found the fence 14 times and cleared it once, leading the team's recovery after the swashbuckling Richa Ghosh's (2) early departure. Spin bowling all-rounder Gardner completed a fine match by taking five wickets for 30 runs after her contribution with the willow. Besides Ghosh, captain Harmanpreet Kaur (12 off 22 balls) and Jemimah Rodrigues (16 off 11 balls) failed with the bat, and it did not help India's cause.

Senior all-rounder Deepti Sharma too flopped, getting out for a duck.

Earlier, Australia survived a stellar spell from India pacer Arundhati Reddy to post a challenging total in the final match of what has been a one-side series dominated thoroughly by the formidable home team. Sutherland led Australia's recovery after Reddy struck

four times in quick succession for career-best figures in limited-overs cricket.

Having already lost the series, India opted to bowl at the iconic WACA ground but did not get the required breakthroughs in the first powerplay with Phoebe Litchfield (25 off 33) and Georgia Voll (26 off 30) going strong.

However, Reddy, playing only her fifth ODI, changed the course of the game in one over by removing the openers in a space of four balls.

Unlike Renuka Thakur and Saima Thakor, Reddy got the ball to swing back from a fuller length which led to the fall of last match's centurion Voll, who saw her stumps disturbed.

Left-handed Litchfield was caught behind chasing an away swinger and all the momentum gained by Australia was suddenly lost.

Next to depart was star all-rounder Elysse Perry who had no answer to a beauty from Reddy that held its line to hit the top of off-stump. When Beth Mooney departed, Australia were

reduced to 78 for four from 58 for no loss.

Sutherland and Gardner then showed the enviable depth of the Australian batting by sharing a 96-run stand for the fifth wicket. Sutherland was the aggressor in the partnership and especially pounded the spinners, smashing two fours and a six off Deepti in the 40th over.

India's catching left a lot to be desired as they grassed three tough chances. McGrath joined Sutherland in the 35th over and the duo pushed the score towards 300.

Matthew Hayden advises Indian bowlers to target fourth, fifth stump

PTI ■ BRISBANE

Former Australia opener Matthew Hayden has advised the Indian bowlers to target the "fourth, fifth stump line" and make use of the natural bounce offered by the Gabba surface in the third Test of the Border-Gavaskar Trophy starting here on Saturday.

The five-match series is locked at 1-1 after Australia's emphatic win in the pink Test in Adelaide. India won the opener by 295 runs at Perth.

Hayden shared his views on how to dismiss the Australian batters at Gabba.

"India, when they do get a chance to bowl, they need to rely on hovering in that fourth, fifth stump line a bit more. And most importantly, they need to use their bounce," Hayden told Star Sports.

"It's a key arsenal as part of a fast bowling unit in Brisbane. The red ball will definitely be more familiar in terms of Test match cricket. Australia have the running with the pink ball, they won so much with it."

The 53-year-old left-hander asked the Indian bowlers to apply themselves in challenging conditions.

"India must bat better, they must bat

for time. They must bat a day of Test match cricket. Under a day, unacceptable. Has to be in that 350 zone. India should bat first even if there are challenging conditions," Hayden said.

"Brisbane, different ball game! It's a home game, but it's actually a very good game for India as well because they've got memories of the last time they encountered Australia in the BGT."

In 2021, the visitors beat Australia by three wickets at the Gabba to record a famous 2-1 series win, which is still fresh in the minds of Indian fans.

Alcaraz has best of Nadal, Djokovic, Federer, but he can't do what they did: Agassi

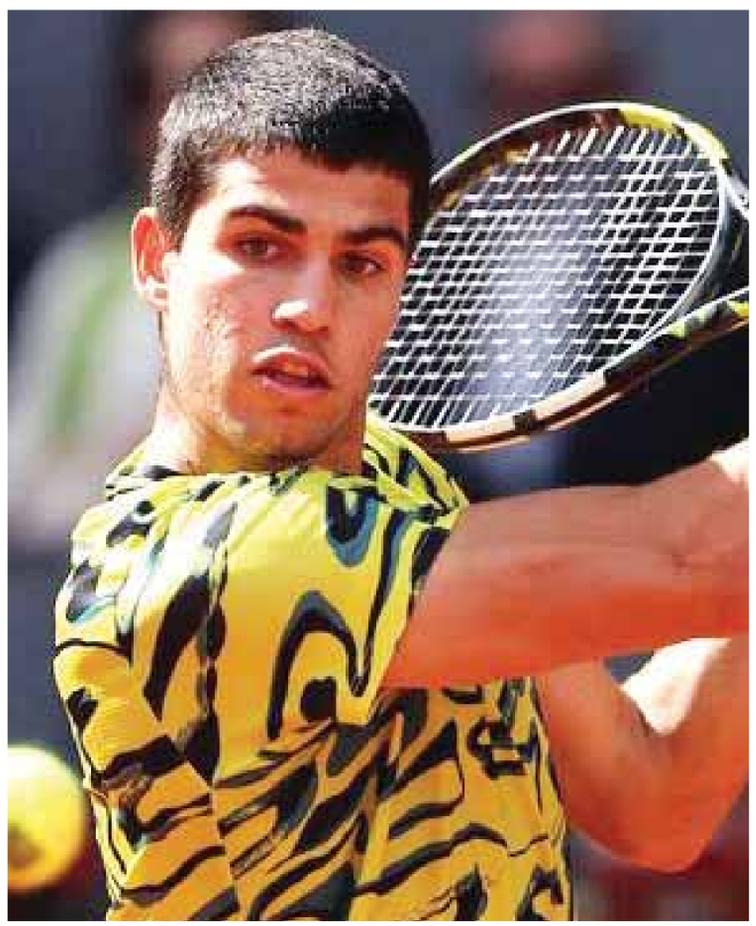

PTI ■ BENGALURU

Legendary Andre Agassi

said Carlos Alcaraz combines the best qualities of Novak Djokovic, Roger Federer and Rafael Nadal but cautioned the tennis world

run out of the energy for it more than the capability of it, I would imagine.

"It cannot be easy, especially when the people you came to the dance with have left." The American explained his thoughts further.

against expecting the Spaniard to repeat the incredible feats of the 'Fab Three.'

Federer, Nadal and Djokovic have a combined tally of 66 Grand Slams and Alcaraz, 21, has so far bagged four majors.

"I'm not a genius and I don't have a crystal ball. What I can tell you is Alcaraz defends like Novak, has power and spin like Nadal and has hands and finesse like Federer," said Agassi during a talk session during the Marathon Mindset at the TIE Global Summit.

Agassi, himself an eight-time Slam champion, then outlined the reason to not place a massive load of expectations on Alcaraz.

"Just because he has the best of all those three doesn't mean he can do what they did because there're so many other parts to the game, which mean decision-making, injuries, you know, luck," he said.

At 37, Djokovic too is closer to his retirement and Agassi said the Serbian will now find it even tougher to remain competitive in the absence of the retired Nadal and Federer.

"He's already done so much, so long, and it's hard to imagine longer. I think he'll

"When Pete (Sampras) retired, it was a blow to me. It set me back a little bit. It made me have to rediscover my inspirations on some level.

"And he's (Djokovic) lost the guys that he's made history with. So, it's probably emotionally going to get tougher and tougher quickly, but I would never bet against him. Bet against him at your own peril," said Agassi.

To prolong his career, Djokovic has hired former British player Andy Murray as his coach, and Agassi remained curious about the future of their alliance.

"They've been fierce rivals on court, and now Murray will be coaching Djokovic. Well, in any coaching student relationship, you need trust. Trust can take time.

"I think there's an asset to their history as competitors, but any success of a relationship is based on (9:07) complete buy-in." Agassi backs American players

The 54-year-old from Las Vegas said the new generation of American players have the ability to bring the country back to the top layers of the

tennis world, like it was in the 80s and 90s.

"I was the first one to turn pro. I made (Michael) Chang, Pete, (Jim) Courier believe they could do it. And then Chang was the first one to win (Grand Slam), Pete believed that he could win, and made Courier believe that he could win, and then Courier said, well, I can not only win, I can be number one in the world.

"And I was saying, wait a second, what the hell about me? So we all helped each other in a lot of ways, and I think these Americans now are starting to prove to the other Americans that not only they can do it," he detailed.

Agassi also reminisced how he clawed back from a series of setbacks in life to find a second wind in the latter half of his career.

"I hit rock bottom probably at a time when people thought I was on top of the world. And then I just spiraled. I gave up on myself. But one thing that's good about rock bottom, you can bounce off something.

"So, I kind of recognized that, well, tennis wasn't my choice. So, I turned my attention towards helping kids that don't have choice or any hope. So, I forced myself to use tennis.

"I think that was an underlying inspiration and reason for me having a second chance at my career," he signed off.
