NO CONFIDENCE IN V-P DHANKAR: OPPOSITION

PIONEER NEWS SERVICE

n a first, Congress-led INDIA Bloc of Opposition Tuesday **p**arties on submitted a notice to bring a motion in Rajya Sabha for the removal of Vice President Jagdeep Dhankhar, accusing him of "partisan" conduct as the chairman of the Upper House. Dhankar is Chairman of the Upper House. If the motion is moved, these

parties need a simple majority to get it passed, but they do not have the requisite numbers in the 243-member House. Opposition members, however, insisted that it was a "strong message to fight for parliamentary democracy". Parliamentary Affairs minister Kiren Rijiju dubbed the move as "extremely regrettable" and said the government is very proud of Dhankar.

Congress leaders Jairam Ramesh and Naseer Hussain submitted the notice signed by 60 Opposition Members of Parliament, including from the Congress, Rashtriya Janata Trinamool Congress (TMC), Communist Party of India (CPI), Communist Party of India (Marxist) CPI-M, Jharkhand Mukti Morcha (JMM), Aam Aadmi Party (AAP), Dravida Munnetra Kazhagam (DMK), Samajwadi Party (SP), to Rajya Sabha Secretary General PC

spearheaded by the Congress, comes in the wake of verbal clashes between Opposition parties and the Rajya Sabha chairman. The Opposition has been upset with Dhankhar over multiple issues. The latest trigger was allowing Bharatiya Janata Party (BJP) members to raise the allegations of links

On behalf of the Opposition, between Congress leaders and organisations backed by billionaire investor George Soros which the ruling party claims are involved in "anti-India activities".

The Opposition said his conduct of the House on December 9, 2024, was particularly one-sided and totally unfair, and said he was "encouraging_and provoking" the Treasury Benches to make outrageous remarks. INDIA Bloc parties had in August this also considered submitting a notice for moving a resolution to remove the vice president from his office.

This is the first time that a notice for bringing a motion to remove the Vice President has been moved in the Rajya Sabha. A 14-day notice has to be given and it should be approved by the Deputy Chairman before the motion is taken up.

Identify illegal Bangladeshi immigrants, orders LG

D^{elhi} Governor's secretariat has written to the Chief and Commissioner asking for initiating "strict action" against illegal Bangladeshi immigrants residing in the National Capital. According to Raj Niwas officials, the LG Secretariat has asked the Chief Secretary and the Police Commissioner to a special drive spanning over two months to identify illegal Bangladesh immigrants in Delhi and take strict action as per the extant rules in a time-bound The move comes in wake of

the representation made by the delegation of Ulemas and Muslim leaders from Dargah Hazrat Nizamuddin and Basti Hazrat Nizamuddin to Delhi Lieutenant Governor Vinai Kumar Saxena on Saturday. They had expressed deep concern about the attacks being undertaken on the Hindu and other minority communities in Bangladesh and accordingly, demanded stringent action against Bangladeshi infiltrators residing in the National Capital. Prominent Ulemas and

Muslim residents have Illegal requested that Bangladeshi infiltrators should neither be given houses on rent nor should they be given employment by any establishment. Further, they have requested that their children should not be given admission in any government or private school. The Muslim leaders have also demanded removal of illegal

infiltrators from roads, footpaths, parks and other government lands, over which they have forcefully encroached and documents like Aadhar Card, Voter ID, or any other government document illegally acquired Bangladeshi infiltrators be cancelled immediately. They have also demanded that a special drive, like in the past, should be launched to the illegal Bangladeshi immigrants in Delhi and they should be sent back immediately," the letter from the LG Secretariat read. Meanwhile, Chamber of Trade and Industry (CTI) chairman Brijesh Goyal has

urged business communities to reduce their business activities with Bangladesh. The CTI has warned that if the atrocities on Hindus in Bangladesh do not stop, then all the traders of Delhi and the country will end all trade with Bangladesh. "There is also resentment among the businessmen of Delhi against the Mohammad Yunus government of Bangladesh," he said. Security was stepped up

outside the Bangladesh High Commission here Tuesday, as hundreds of people from various organisations, including the Swayamsevak Sangh (RSS), held a protest

march at Chanakyapuri against alleged atrocities and human rights violations against Hindus and other minorities in Bangladesh. Police had put barricades on the Teen Murti Marg on both the carriageway outside the Chanakyapuri police station where hundreds of people from various organisations gathered. Traffic regulated in the area with vehicles redirected alternative routes.

There have been allegations of over 200 attacks on Hindus in various districts of Bangladesh since the fall of the Sheikh Hasina-led Awami League government

NIA arrests main accused in Laos human trafficking cyber slavery case

PIONEER NEWS SERVICE NEW DEI HI

The National Investigation Agency (NIA) on Tuesday made a major breakthrough in the Laos human trafficking and cyber slavery case with the arrest of an absconding accused, who was nabbed with support of the Delhi Police's Special Cell. Kamran Haider's arrest marked a significant step towards dismantling the international human trafficking syndicate, the NIA said in a statement. Along with his co-accused, Haider was allegedly directly involved in arranging flight tickets and documents for the victims and facilitating their "illegal border crossings" with the help of contacts in the Golden Triangle region. The Golden Triangle refers to a large, mountainous region comprising parts of Myanmar, Thailand and Laos.

SC seeks details from Allahabad HC on Justice Shekhar Kumar's speech

PIONEER NEWS SERVICE

Taking cognisance of news reports, the Supreme Court (SC) on Tuesday called for details from the Allahabad High Court on the controversial speech of Justice delivered at a Vishva Hindu Parishad (VHP) Legal Cell function at Prayagraj. "The Supreme Court has taken note of the newspaper reports of a speech given by Mr Justice Shekhar Kumar Yadav, a sitting judge of the High Court of Judicature at Allahabad. The details and particulars have been called from the High Court and the matter is under consideration (sic)," the SC statement read. Sitting judge Justice Yadav the controversial remarks on December 8 while addressing a convention of the legal cell of the Vishva Hindu Parishad in Allahabad. A day later, videos of the judge speaking on provocative issues, including the law working according to the majority, were circulated widely, triggering strong reactions from various opposition parties which questioned his reported statements and labelled it as questioned hate speech. He urged for Uniform Civil Code, blaming

It is not about speaking as a High Court Judge; rather, the law operates accordance with the (majority). bahusankvak Consider this in the context of a family or society - only what ensures the welfare and happiness of the majority will be accepted," Justice Yadav

The judge also used the term "kathmullah", a slur against Muslims. Referring to extremists as "kathmullah", he said that the country should be circumspect about them. "But these kathmullah... this

may not be the right word... but I won't hesitate to say it because they are harmful to country...they detrimental, against the nation, and people who incite the public. They are the kind of people who do not want the country to progress, and we said Justice Yadav at VHP's legal cell function. Kapil Sibal, president of the Supreme Court Association called for the

impeachment of Justice Yadav. He also urged the Prime Minister, Home Minister and Members of Parliament from the ruling party to extend support for impeaching Justice Yadav. Meanwhile, Lok Sabha MPs Ruhullah Mehdi. Ásaduddin Owaisi initiated signatures seeking Parliament,

impeachment against Justice Yadav.

Communist Party of India (Marxist) leader Brinda Karat, has written to the Chief Justice of India (CJI) Sanjiv Khanna, demanding action against the Judge. Campaign for Judicial Accountability and Reforms (CJAR) headed by Prashant Bhusnal also urged the CJI to initiate action seeking In house Inquiry and suspension of the Judge for violating the code of conduct for Judges.

No mismatch in **Maharashtra** votes polled and **VVPAT tally: ECI**

the Election Commission **⊥** of India (ECI) Tuesday said no mismatch was found between the votes polled and corresponding tally of Voter Verified Paper Audit Trail (VVPAT) slips in random counting in the last Maharashtra month's Assembly elections. The mandatory counting of VVPAT slips from five randomly selected polling stations in each assembly constituency was completed successfully, the ECI said in a statement.

Opposition parties in the state had questioned the integrity of Electronic Voting Machines (EVMs) after the ruling BJP-led Mahayuti coalition won a landslide victory in the November 20 elections. The counting of VVPAT slips aims to verify the tally of votes recorded EVMs against the corresponding VVPAT slips, the ECI said, adding representatives of candidates were present throughout the process.

SC upholds enhanced compensation for KMP expressway landowners

PIONEER NEWS SERVICE

The Supreme Court on Tuesday upheld an order enhanced compensation payable to some owners whose land in Haryana was acquired for Kundli-Manesai A Bench of expressway. Justices BR Gavai and KV Viswanathan set aside a November 2021 verdict of the Punjab and Haryana High Court quashing an order of the district revenue officercum-land acquisition collector (LAC), Jhajjar enhancing the compensation. The LAC, in an order passed on September 15, 2020, enhanced the compensation to Rs 19,91,300 per acre along with statutory benefits as awarded earlier by the High Court to similarly-placed land owners. The Court delivered its verdict on an appeal filed by some land owners challenging the high court's November 2021

verdict. The Bench noted by a November 2004 notification under the Land Acquisition Act, 1894, the land of the appellants in Jhajjar district was acquired for the expressway and by an award in March, 2006, a compensation of Rs 12.50 lakh per acre was determined. It

noted that aggrieved by the award, some similarly-placed land owners preferred a reference for enhancement of compensation before the additional district judge, Ihajjar but the same was dismissed.

The Bench further noted such land owners approached the high court, which in May, enhanced 2016, compensation to Rs 19,91,300 per acre along with statutory benefits. The Bench said on June 30, 2016, the appellants filed an application under Section 28-A of the Act before the LAC, Jhajjar, which held that appellants were entitled to benefit of the high court's May, 2016 verdict and enhanced the compensation. Section 28-A of the Act pertains to re-determination of amount of compensation on the basis of award of the

The matter again came up

before the high court which set aside the LAC's order. Referring to a previous verdict delivered by the court, the Bench noted it was held that statement of objects and reasons of Section 28-A would reveal that the object underlying the enactment of the provision was to remove inequality in payment of compensation for same or

similar quality of land. The Court said it was not in dispute that the first appeal, which was allowed by the high court in May, 2016, was with respect to the land covered by the same notification under which the appellants' land was also covered. "We are, therefore, inclined to allow the appeal. The impugned judgment and order of the high court dated November 25, 2021 is quashed and set aside and the order of the LAC dated September 15, 2020 is upheld," the Bench said.

Patiala House Court summons actor Dharmendra

Group of 101 farmers will resume Delhi march on Dec 14

PNS ■ CHANDIGARH

 $P^{\text{unjab farmers, steadfast in}}_{\text{their pursuit of justice, have}}$ resolved to rekindle their march to Delhi on December 14, sending a group of 101 farmers, named as "Marjeevda Jatha" (meaning martyrs' brigade). The decision was taken on Tuesday during a meeting of the Samyukta Kisan Morcha (SKM) and Kisan Mazdoor Morcha (KMM) at the Shambhu border, after receiving "no message" from the Central Government for holding talks.

The efforts, to breathe new life into the farmers' protests against unaddressed grievances, comes against a backdrop of escalating tensions and solidarity actions. December 11 has been declared as 'Ardas Divas', with prayers to be held at religious sites across Punjab for the well-being of farmer leader Jagjit Singh Dallewal, who has been observing fast since November 26; and the success of the movement.

At the same time, the farmers have urged Punjabi singers, religious preachers, and community leaders to amplify the cause during public gatherings and programs.

become a pressing concern as his hunger strike enters its 15th day. Dallewal, who has been fasting at the Khanauri border, is now experiencing critical health complications, including an 11 kg weight loss and strain on his liver and kidneys. His fluctuating blood sugar levels and declining stamina have prompted doctors to warn of an impending medical emergency. Despite this, Dallewal remains resolute, terming the protest an "all-ornothing" battle for farmers'

In solidarity with Dallewal, no meals were cooked at the Khanauri border on Tuesday. Farmers joined him in observing a hunger strike, reinforcing their collective resolve.

The December 14 march follows two thwarted attempts to reach Delhi earlier this month. On December 6 and 8, the farmers faced strong resistance from Haryana security forces, who deployed tear gas, water cannons, and barricades. Farmers sustained injuries, leaving half a dozen seriously injured, yet their determination remains unshaken.

KMM's head Sarwan Singh Pandher, a key leader of the ongoing movement, criticized

lack of engagement, calling it "confused" in its approach. Pandher lamented the absence of meaningful dialogue, despite the farmers demonstrating their willingness to negotiate.

"Prime Minister Narendra Modi did not speak a word during his visit to Haryana," said Pandher, while seeking all out support from all quarters for Kisan Andolan 2.0. "We did not want farmers

to be blamed for not wanting to hold talks to find a way out. We gave time...but there has been no message from the government side alks...Now, the decision taken by both the forums is that our next jatha of 101 farmers will leave on December 14 for Delhi," he said.

Farmers have appealed to the public to join the struggle by participating in events on December 13, marking 10 months of protests at the Shambhu and Khanauri borders. In a symbolic gesture, farmers undertook a cleanup drive at the Shambhu border, clearing debris from the clashes, including remnants of tear gas shells. Pandher highlighted the lingering effects of the tear gas used by security

Kultar Singh Sandhwan has also voiced support, urging the Prime Minister Narendra Modi to open channels for dialogue and address the farmers' demands, including legal guarantees for Minimum Support Prices (MSP), debt waivers, and justice for victims of the 2021 Lakhimpur Kheri violence. "The government should engage in talks with farmers immediately, considering the deteriorating condition of farmer leader Jagjit

Farmers have been camping at Shambhu and Khanauri border points between Punjab and Haryana since February 13 after their march to Delhi was stopped by security forces. Besides a legal guarantee to MSP for crops, the farmers are demanding a debt waiver, pension for farmers and farm labourers, no hike in electricity tariff, withdrawal of police cases, and "justice" for the victims of the 2021 Lakhimpur Kheri violence. Apart from this Electroweb Company would work on developing the Shimla-Hamirpur-Chamba Green Corridors. As part of the project, the companies would establish EV charging stations, way-side amenities and supermarkets at 41 strategic locations along these corridors within a

Sukhu said that for e-buses, e-trucks and other electric vehicles the charging facility would be made available in these 41 locations. Apart from this public amenities such as toilets and restaurants would also be established in these places and

model state for e-Vehicles. "This initiative would play a vital role in reducing carbon emissions and promoting a sustainable environment for future generations," Sukhu said, adding that the state government would transit the fleet of Himachal Road Transport Corporation (HRTC) to electric buses in a phased manner.

Deputy Chief Minister Mukesh Agnihotri said that the state government was steadfast in its commitment to environmental preservation and working with utmost dedication and was also planning to procure 350 e-buses to achieve its goal. He said that due to the efforts of the state government, the State Transport Department providers such as plumbers,

became the first department in the country to operate an entirely electric vehicle fleet. He said that the establishment of these green corridors would also encourage private vehicle owners to switch to electric

Google to collaborate with Himachal govt to develop people empowerment platform: CM

To leverage artificial intelligence (AI) and modern technology for public benefit, Chief Minister Sukhvinder Singh Sukhu on Tuesday asked tech giant Google to consider investing in the state.

He said that the state government plans to develop a Empowerment 'People Platform" in collaboration with Google through the Labour and Employment Department.

nect citizens with skilled service

"This platform would con-

electricians and carpenters that would ensure convenience while generating employment opportunities for the youth of the state in the unorganised sector," he added. Google India Head Ashish Wattal called on the chief minister to explore collaborations on AI-driven initiatives aimed at transforming public services in Himachal Pradesh. During the meeting, they

discussed integration of advanced technology into agriculture, health, education and public grievance redressal to ensure prompt service delivery and improve lives of people. The chief minister said that to enhance grievance redressal, the government intends to upgrade the Mukhyamantri Seva Sankalp Helpline-1100 with generative AI. He said the aim of this initiative was to provide faster and more effective solutions while ensuring consumer satisfaction.

In the education sector, AIbased teaching modules would be piloted in two government senior secondary schools in the state to improve learning outcomes and modernise teaching methods, he added. The chief minister said that advanced technology has the potential to revolutionise agriculture and disaster preparedness. The accurate weather forecasting could minimize loss of life and property by enabling better planning and response from local admin-

istrations.

welve years after the myste-Twelve years and the my rious death of a 22-year-old woman from Karnal, the Punjab Police has filed an FIR against prominent Sikh preacher Raniit Singh Dhadrianwale on the charges of rape and murder. The case, registered at Passiana police station in Patiala on December 7, came following the directives from the Punjab and Haryana High Court, which criticized the police for their initial inaction and failure to investigate the allegations promptly.

The FIR invoked Sections 302 (murder), 376 (rape), and 506 (criminal intimidation) of the Indian Penal Code (IPC). The development came after a scathing rebuke from the High Court, which called the police's previous handling of the case "illegal and unconstitutional" for prioritizing a preliminary inquiry over the registration of an official case based on the complaint filed in 2012.

With the FIR now registered, the Patiala police have recorded statements from the victim's brother and are expected to take action against the police officials who failed to act in 2012.

The case dates back to April 22, 2012, when the 22-year-old woman, who had visited the Gurdwara Parmeshwar Dwar in Patiala with her family, was circumstances. A postmortem revealed that her death was caused by poisoning. However, the victim's family alleged that she was raped and then murdered by administering poison.

Dhadrianwale in 2012 Rape and Murder Case

While authorities at Parmeshwar Dwar claimed that the woman died outside the premises and that Ranjit Singh Dhadrianwale was abroad at the time, the victim's brother filed a petition in the Punjab and Haryana High Court seeking a probe into the case by either the Central Bureau of Investigation (CBI) or a Special Investigation Team (SIT) led by a senior IPS

Chief Justice Sheel Nagu of the Punjab and Haryana High Court played a pivotal role in ensuring that justice was pursued. During hearings, the Court expressed dismay over the police's handling of the case, stating that the delay in filing an FIR highlighted a "sorry state of affairs". It criticized the police for embarking on a preliminary inquiry instead of immediately registering a case based on the victim's family's complaint in May 2012.

The Court directed Punjab's Director General of Police (DGP) to file an affidavit explaining the reasons for the initial inaction and to outline measures to prevent such lapses in the future. It also sought details of actions taken against the then Station found dead under suspicious House Officer (SHO) and scourge of drugs.

PAPER WITH PASSION-

It is getting hot!

Global warming is becoming reality as 2024 set to be the hottest year on record

s global temperatures soar to unprecedented levels, 2024 is shaping up to be the hottest year on record, a grim milestone that underscores the accelerating Crisis of climate change. European Union scientists have confirmed that the first eleven months of 2024 have set a new high, making this year the warmest since records began. This will be the first year where the global average temperature surpasses 1.5°C above pre-industrial levels, a threshold that world leaders have long warned could trigger catastrophic climate impacts. With this alarming reality, the world faces a rapidly intensifying climate emergency, one that requires immediate and drastic action. The impacts of global warming are already being felt around the world. In 2024, extreme weather events have ravaged communities, causing widespread devastation. Severe droughts have gripped Italy and South America, while fatal floods in Nepal, Sudan and Europe have displaced thousands. Heatwaves in regions like

Mexico, Saudi Arabia and Mali have killed thousands of people, while cyclones have torn through the United States and the Philippines. These events are not just random occurrences; scientific studies confirm that they bear the unmistakable fingerprint of human-caused climate change.

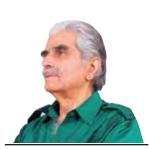

The overwhelming cause of global warming is carbon dioxide emissions from burning fossil fuels. These emissions trap heat in the atmosphere, causing global temperatures to rise at an alarming rate. The most effective way to curb this warming is by reducing emissions to net-zero levels, a goal that many nations have pledged to achieve in the com-

ing decades. However, despite these green pledges, global CO2 emissions are on track to hit record highs this year. This contradictory trend highlights the gap between political promises and the real, tangible actions needed to mitigate climate change. This year's UN climate talks produced a \$300-billion deal aimed at addressing the global climate crisis. However, poorer countries have criticised this deal, arguing that it is insufficient to cover the soaring costs of climate-related disasters. While this deal may have made some progress, it is clear that the global response is not yet enough to prevent further warming. The rise of climate change deniers, particularly within the political sphere, has made it even harder to combat this crisis. US President-elect Donald Trump, in particular, has consistently downplayed the severity of global warming and rolled back numerous environmental regulations during his previous term. Under Trump's leadership, the US withdrew from the Paris Agreement, a global pact aimed at reducing emissions and limiting global temperature rise. Such actions would undoubtedly exacerbate the climate crisis, making it even harder to reduce emissions and avoid the most catastrophic effects of global warming. The time to act is now, and the window for meaningful change is rapidly closing.

Philippines confronts Chinese assertiveness

The South China Sea remains a flashpoint of escalating tensions as China intensifies its aggressive maritime activities, targeting nations like the Philippines

NS Admiral Dinesh Tripathi during his customary briefing of media before Navy Day last expressed concern about Chinese maritime activities in the South China Sea, all of which China claims. Two countries it especially targets in SCS are Taiwan and the Philippines in whose waters it has indulged in offensive naval actions. It signed a defence agreement with the US in 1951; last month it signed an intelligence and technology agreement facilitating satellite intelligence and access to high-grade US weaponry following President Marcos promulgating Maritime Zone Act and Archipelago Sea Lanes Act that China denounced and summoned its envoy. US Defence Secretary Llyod Austin told his counterpart Gilberto Teodoro: We are more than allies; we're family.

The week-long ASEAN summit in Vientiane, Laos from 6 to 12 October witnessed stern exchanges between China, the US and the Philippines especially over the South China Sea at a time when the West is seized with Ukraine and West Asia crises, even as President-elect Trump is issuing multiple threats. While Chinese Premier Li Qiang blamed 'external forces" for interfering in regional affairs, US Secretary of State Antony Blinken said the US is concerned about increasingly dangerous and unlawful activities of China in disputed SCS. Marcos complained to ASEAN leaders that his country continues to be subjected to Chinese bullying and intimida-

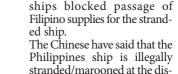

Earlier that week PM Narendra Modi attended the 19th India-ASEAN meeting and made a powerful presentation of Delhi's Act East policy and criticised China for its expansionist policy in SCS. Taiwan continues to face periodic challenges as China relentlessly violates the 2016 UNCLOS ruling that the Philippines secured over China's illegal claim to the South China Sea under its 9dash line. During my interaction with Philippines security experts in Manila in June, clashes over the resupply of a marooned vessel in Thomas Shoal 2 had reached the climax; and some suggested it could be a feint for Taiwan. The incident had ruffled feathers in Manila with calls for invoking the US Mutual Defence Agreement which gets triggered only during armed external attack.

Clashes have occurred between the two sides and despite talks and a hotline, no compromise was reached. On September 28 Chinese Navy missile boat fired laser beams at a Philippines Cessna Patrol aircraft while Filipino coast guard vessels continued to be supervision and in a mid-

stranded/marooned at the disputed Thomas Shoal atoll which it owns as part of its claim to SCS. China calls it Xianbin Reef which is 150 km west of the Philippines island of Palawan. As before, it had repeatedly said it would promulgate its maritime laws including the use of firearms and arrest offenders in defence of its sovereignty and national interest. Teodoro said at the end of August that Thomas Shoal is a sovereignty issue of the Philippines.

According to South China Morning Post (September 16), Admiral Samuel Paparo, US Indo-Pacific Command accompanied by Gen Romero Brawner, Chief of Philippines armed forces, said there is a range of options as countermeasures for the Chinese grey zone tactics adding the US is ready to escort Philippines ships in SCS in event of a spike in hostilities. Brawner said they would seek help if the Chinese blocked food supplies and soldiers were dying of hunger. In Manila, I was asked whether re-supply by other means like helicopters was feasible and had suggested discussing it with their US allies. Meanwhile, Paparo took a video call with Gen Wu Yanan, PLA Southern Theatre Commander responsible for

SCS and Taiwan.

Wu attended an International conference at the Indo-Pacific command in Hawaii in September even as Teodoro took the contingency of escalation to the next level, of the Chinese towing away the grounded Sierra Madera which would constitute an act of war; invoking a defence pact with the US. der with China that Beijing has refused to resolve as it would put a stop to grey zone tactics and salami slicing. India has voiced clear support for the Philippines during the June 17 clash with the Chinese coast guard and Foreign Minister Jaishankar has been on a goodwill visit. Delhi has sold Brahmos anti-ship missiles to Manila, the first country to buy them. Former Defence Secretary, Giridhar Aramane was in Manila recently for the fifth Joint defence cooperation dialogue. While Taiwan may not be on the cards, Thomas Shoal 2 could end up in Chinese possession as Mischief Reef 24 km north of it did in 2012.

Childhood Wounds: The hidden force behind life's struggles

Whether it's self-doubt at work or struggles in relationships, the roots often trace back to unresolved childhood wounds

ave you ever wondered why life keeps pulling you back, no matter how hard you try to move forward? Maybe you find yourself repeating the same mistakes in relationships, doubting your abilities at work, or battling the constant ache of "not being enough."

It's easy to blame bad luck or personal failure. But often, these struggles run deeper-in unresolved childhood wounds. Childhood is when we learn how to love, trust and value ourselves. But not all childhoods are built on safety and support. Even seemingly small moments can leave deep

A parent saying, "Stop crying, you're embarrassing me," or a teacher comparing you to someone else may seem insignificant at the time but can shape how we see ourselves for years to come. Take Radhika, for example. At 35, she thrived in her career but couldn't maintain a relationship. Every time someone got close, she would pull away, convinced they would leave her eventually. Therapy revealed that her fear of abandonment stemmed from her father leaving when she was six. Her emotional walls weren't about keeping others out; they were about protecting herself from feeling that pain again. Then there's Arjun, 28, who struggled to hold a job. His pattern was predictable: procrastinate, miss deadlines and eventually lose the role.

He believed he lacked discipline, but therapy uncovered a deeper truth. He had grown up under relentless criticism—nothing he did was ever good enough. That this cycle ends. It's not about

internalised voice followed him into adulthood, leading him to self-sabotage before anyone else could judge him. These aren't isolated stories. Many of us carry invisible wounds from our childhood.

A parent's absence, constant comparisons, or even a single harsh word can create emotional patterns fear of intimacy, perfectionism, or shrinking ourselves to avoid rejection. Over time, these patterns create setbacks that seem external but are deeply internal. Therapy is where

blaming our parents or reliving the past. It's about understanding why we feel stuck and learning how to let go of the pain. Imagine carrying a heavy bag for years, thinking it's just part of life-then discovering you can put it down. That's

what healing feels like. One client described the process beautifully: "For the first time, I understand myself. I'm not broken. I've just been carrying pain I didn't know was there." Your setbacks aren't failures; they're signals that something inside you needs attention. Healing childhood wounds allows you to stop reacting from a place of fear and start living from a place of freedom. It's not an easy journey, but it's one worth taking. The truth is, you deserved love and safety as a child, and you still do

Healing isn't about erasing the past—it's about reclaiming your future. If this resonates, consider giving yourself the gift of therapy. You're not broken-you're healing.

CONTROVERSY AT IIT KHARAGPUR

Madam —I have never heard of any controversy in the teaching campus of IIT Kharagpur. But now it is happening. For the last six months, open differences have started coming to the fore between the director and the teaching staff. The Indian Institute of Technology has issued show-cause notices to 90 faculty members in response to allegations against its director V K Tiwari of bias, "retaliation in faculty selection," and failure to set up the promised hospital on campus. In addition, three department heads have also been replaced

The controversy began in September when the IIT 'Teachers' Association wrote a letter to Union Education Minister Dharmendra Pradhan accusing Tiwari of arbitrary recruitment processes and other irregularities. About 100 faculty members have protested by wearing black bands and participating in silent marches on campus. The faculty is reportedly now considering legal action. On December 2, the administration replaced the heads of the departments of mathematics, artificial intelligence, and biosciences and biotechnology. I want to say that when the education minister was informed about the arbitrary behaviour of director VK Tiwari five months ago, why did he not

take any action? Why was the director not removed from his post with immediate effect? This means that the environment of this great educational institution is being deliberately spoiled so that this institution can be defamed. IIT Kharagpur is the first IIT to be established by the Government of India. The institute was formally inaugurated on 18 August 1951 by Maulana Abul Kalam Azad. IIT was established to provide trained technical personnel for India. Pandit Jawaharlal Nehru took the initiative to establish IIT, he believed that science and technolo-

END OF ASSAD RULE

Madam—The turn of political events in Syria raises fears of a new wave of regional instability, following the ouster of Bashar al-Assad by the militant group Hayat Tahrir al-Sham (HTS), ending his family's despotic rule for over 13 years. It marks a turning point for Syria, shattered by years of civil war that has turned cities into rubble, killed hundreds of thousands of people, and forced millions to go abroad as refugees.

Western governments, which have shunned the Assad-led state for years, must decide how to deal with a new administration in Syria in which HTS looks set to have greater influence. HTS, which spearheaded the rebel advances across western Syria, was formerly an al-Qaeda affiliate. The Syrians, therefore, will obviously remain fearful as this militant group will impose draconian Islamist rule or instigate reprisals. As Syria will go to polls, it would require a smooth transition in a country with complex competing interests.

diverse sectors, including power, finance, taxation, information technology, and mines. Currently he has been serving as secretary (revenue) in the ministry of finance, he previously held the position of secretary in the department of financial services under the min-

Every note ever printed carries the signature of the RBI governor. The RBI Governor also monitors and facilitates the flow of credit to rural, agricultural and various MSME sectors. TIKTOK'S NEGATIVE EFFECTS

Madam — Tensions have been escalating in the US over the impact of TikTok. The US Court of Appeals has also cited a notice to China-based ByteDance to sell the social media app by January 19 or face an effective ban in the US. Banning TikTok is not the ultimate solution, as it will hit hard many businessmen for whom TikTok is a source of income generation. They use social media for promotion of their products or of their business, but we cannot forget its negative impact on the minds of children.

There is a need to adopt such a solution that will be beneficial for both businessmen and society. Businessmen should create accounts in the name of their business, and e-verification of those accounts should also be done to maintain their originality, and accounts registered under the age of 16 should be banned so the app will be less harmful.

FIRST COLUMN TRANSFORMING ORGANISATIONAL BEHAVIOR

As technology reshapes the world at breakneck speed, organisations must evolve to stay relevant

RAVI VALLURI

t would be worthwhile to examine how organisations are structured and articulated. In the long haul organisations blessed with individuals willing to experiment, innovate and embrace technology will be the ones that survive. At the pace that technology with its variants is fashioning itself, numerous applications are unravelling virtually by the minute, and the level of obsolescence and attrition of equipment is becoming extraordinarily high. In such a scenario, humans and organisations will be subsumed by various products and their variants. The human mind can no longer remain in the typewriter mode. The garden of Organisational Theory and Behaviour is dotted with eminent scholars. Three pioneers, Adam Smith, Charles Babbage and Robert Owen provided the ballast and the basic groundwork.

Adam Smith advanced the argument that countries and organisations would profit by adopting the tenets of division of labour, what is now termed as specialisation. Charles Babbage in his seminal work postulated: Through the division of labour, the time required for learning a job or skill gets drastically reduced. Right at the stage of infancy wastage of material gets minimised and diminishes. The mind is propelled to take up serious tasks upon attaining superior skills. Way back in 1789, Robert Owen at 18 went on to acquire a factory. He was a utopian, way ahead of his times. In 1825, he promulgated regulated working

hours, child labour laws, public education and business involvement in various community projects – a precursor to CSR. In today's wired world, individuals work from their dwellings. Places with the latest technology and gizmos at their disposal. Over the last decade, the entire paradigm of organisational behaviour has metamorphosed. Technology stares at organisations with peering eyes, the complexity and dynamics of structures having undergone a complete metamorphosis. Let us look at the Indian Railways. There was a time when the operating and manufacturing departments held sway in the decision-making process. Today, it is the technical departments that are the game changers. The concept of fixed work hours is history.

The workforce must be alert 24x7. Thus, employees need to brush up on their skill sets to brace for the challenges of the virtual world. Let us examine the model of direct teaching through online classes- oneon-one, between the teacher and the tutee. The very paradigm may affect teaching techniques in schools and universities. Similarly, qualified doctors instruct their colleagues through Skype or other means during complex surgeries. Be it surgical strikes or wars, instructions are being disseminated to the foot soldiers through the latest technology, like the usage of GPS coordinates and Real-Time Imagery.

In such a scenario, scores of organisational structures, government or those in the private sector must adapt radically in order to survive. The workforce must continuously upgrade their skill set or face extinction. Perhaps emotions of warmth may be lost in the maze of technological evolution. The philosophy of an organisation, its goals and objectives and the behavioural pattern between the structure and the workforce have been stranded in a traffic jam of the kind one encounters in major cities of India like Gurugram. Stephen Hawking has in a rather depressing prognosis, predicted that life would be extinct on this planet on four grounds - nukes, global warming, man-made viruses or robots. Thus, the human mind should reinvent itself and current organisational behaviour and theories or prepare a blueprint to discover a sister planet to inhabit. Aristotle wrote, "We are what we repeatedly do." This paradigm will have to change for organisations to survive.

A roadmap for modernising India's security framework

A comprehensive approach to urban mobility, affordability and infrastructure is the need of the hour to reclaim Delhi's air and ensure a healthier, sustainable future

he recent 2 days 59th All India Conference of Director Generals of Police in Bhubaneshwar augurs very well for drawing a future roadmap of policing in India. Prime Minister Narendra Modi's call for a SMART way of policing has once again brought forward the need for modernisation of Indian Police and Security Agencies which can help India move on the path of high-powered police technology with the most efficient and latest technologies. Recent challenges to the security of India bring to light an important fact that India needs to diversify its strategies to counter the challenges it faces lately from digital frauds, artificial Intelligence misuse and cyber crimes. Prime Minister emphasised the need to come together and closely cooperate in fighting the latest threats by developing strategies for the establishment of an extremely capable intelligence system to ensure such threats can be encountered at early stages.

SMART POLICING appears to be the EXPERTISE BASED only solution for protection against the multiple threats from diverse and very intense new waves of terror, cyder crim inals, drug traffickers, economic offenders, smugglers, criminals, naxals, arms dealers and insurgents. It would provide a platform for multi-layered security cooperation that would deal with various issues related to terrorism — right from the funding of terrorist activities, policing cooperation, dealing with cyber threats, secrecy through enhancing technological innovations and tightening the border to maritime security information-

gathering exercise. Cooperation and coordination in communication capabilities and management of security arrangements to deal with any kind of threat are the main objectives of his call. Besides, a modernisation of the Police is also imperative given the possible threats from religiously motivated bands of distraught minds. The Prime Minister has called for a smart way of policing and usage of interoperable and transferable technologies such as drones that would open a new gateway to meet complex security chal-

THE CRIME. THE **ENTIRE SOCIETY** SHOULD MAKE **SUBSTANTIAL** lenges. Over the years a great deal of literature has appeared on India's police and the need for reforms. Policies are being made to enable the force to adapt to the challenging environment and efficiently implement recommendations suggested by the panels on reforms. As the threats today are more severe and enemies more organised than ever before, new concepts of safety and security need to be followed. Whereas globalisation has provided a concept of a global village deeply interwoven in a comprehensive view of society, market, freedom, choice, empowerment, peace, opportunities, linkages and politics, its impact has created a socio-political quagmire, particularly in developing societies. In this context, there is a growing global consensus on addressing critical issues in policing by focusing on the following key areas:

Bridging Theory and Practice: Linking traditional policing theories to the evolving challenges But this alone will not benefit experience in maintaining internal faced by law enforcement today Analyzing Pressures: Developing fresh insights into the various areas of concern and the mounting pressures on police forces.

Role of Police in Market Dynamics: Defining the role of police in navigating market forces while maintaining impartiality and

Implementing Reforms: Demonstrating how the reform models proposed by various commissions can be effectively applied in real-world scenarios, in alignment with democratic principles, environmental considerations,

globalization, and governance. **Driving Change:** Exploring innovative policing methods to foster change and build public trust and confidence.

Global Knowledge Integration: Leveraging the latest global research and advancements in the field of policing to modernise and upgrade

Police being a State subject under Article 246, at times the force becomes a matter of battle of wits.

Apart from undertaking counterterrorist operations, police also have to play a crucial role as pro-tector of the day-to-day law and

This has increased pressure on them to get quick results. Besides, the prevailing level of dissatisfaction among the subordinate level, police officers have adversely affected the attitude of police towards problems. Police are often asked to fight a low-cost war where the enemy is their countrymen. Calling the police to put down civil disturbances is a tedious job. Many scientific methods and modern changes have been introduced in policing in India ever since the police commission report was drafted many years ago. Police are an extremely vital source of security for the commu-

unless people are sensitised about the achievements of positive policing. Some experts on policing are of the view that the values, attitudes, methods, aspirations commitment, etc, of these services need overhauling. Some are of the view that the quality and efficiency of the security forces largely depend on their service conditions, cooperation, training, practice, level of interaction with the general masses and strict methods of appointment. It is, therefore, in the interest of the Government to recruit and attract personnel of high integrity and great calibre.

For successful training of personnel of paramilitary and police forces, certain parameters of prerecruitment education, experience, proportion of insiders and outsiders, methods of recruitment, postings, and length of service must be reviewed. There is also a need for more productive relation-

ships among paramilitary forces, Intelligence agencies, local police, the Army, and the local population. The Government has made all efforts towards sensitisation of police by inculcating a humane approach in policing and introducing the study of human rights legislation in training. Certain suggestions can go a long way in driving better results for policing: (a) There should be initiative in implementing development plans in consultation with experts from various other branches; (b) Development of capability to anticipate foreboding and security needs; (c) This is possible by conducting specialised courses for monitoring security situations. Globalisation and its negative implications are putting forward a challenging environment for

Therefore, the police need to diversify its activities by bringing together technical and professional expertise based on many decades of security. It is nigh time we realised that police alone cannot stop the crime, the entire society should make substantial efforts towards ensuring the safety and security of fellow citizens.

The police also need to play an important role as crime preventers and in this regard, developing qualities such as a high level of diligence, intelligence, dedication, determination and the ability to grasp complex situations is a must. It is high time we realised that the police alone cannot stop crime; the entire society should make substantial efforts towards it. The SMART Police and modernised ways of policing hold the key to the future of the security and safety of every

India's sovereignty in the crosshairs: Navigating global challenges

Modi's administration combines diplomacy with strength to safeguard national independence and challenge Western-centric ideologies

s India rises as a global power, it faces a barrage of challenges and accu-sations of foreign interference, echoing the complexities of a world where sovereignty is contested. The ruling BJP has identified actors like the "American deep state," billionaire George Soros, and organisations such as the Rockefeller Foundation as orchestrators of campaigns aimed at destabilising Prime Minister Narendra Modi's government.

These claims highlight a critical tension between India's assertion of its independence and the entrenched interests of global powers accustomed to shaping narratives. Prime Minister Modi's administration epitomises Teddy Roosevelt's principle: "Speak softly and carry a big stick."

SANTHOSH MATHEW

Modi's approach combines diplomacy with firm resolve to safeguard India's sovereignty, particularly against those attempting to influence domestic politics. The BJP asserts that international networks target India for challenging the dominance of Western-centric ideologies Jaishankar, symbolises an ide-

through policies like Atmanirbhar Bharat and calls for a multipolar world. The "American deep state," a nexus of the Pentagon, CIA, and corporate elites, according to the BJP, exemplifies hidden forces working to maintain global hegemony

Allegations against prominent business figures and reports from groups like the OCCRP are seen as attempts to tarnish India's image and weaken Modi's leadership. Critics of these claims argue that they serve as distractions from domestic challenges, but the BJP cites historical precedents of covert interventions by such networks to justify its position. George Soros, often labelled a "dangerous" figure by Indian External Affairs Minister S

ological assault on national sovereignty. His public criticism of Modi's policies and financial involvement in liberal causes worldwide add fuel to the BJP's assertion that foreignfunded campaigns aim to destabilise India's democratic

Similarly, the Rockefeller Foundation is accused of furthering a neoliberal agenda at odds with India's self-reliance and policy independence. This dynamic reflects the larger struggle of emerging powers like India to navigate a world influenced by philanthropic and corporate entities wielding soft power. Modi's resistance to their influence positions his administration as a bulwark against globalist impositions, a stance that resonates with his nationalist electorate.

EFFORTS

The return of Donald Trump to the US presidency adds another layer to India's geopolitical calculations. While Trump's "America First" policies and transactional diplomacy brought moments like "Howdy Modi" and "Namaste Trump," his administration's

interests and erratic decisionmaking created tensions. Described by Noam Chomsky as "the most dangerous man in

Yet, his strategic deals, such as his outreach to India, underscored his unconventional but calculated foreign policy. Trump's presidency also invoked the Bush Doctrine's rhetoric of "You are either with us or against us," highlighting the stark divisions in global alliances. While Modi's government has maintained a deft balance, the BJP sees this dichotomy as emblematic of the pressures India faces from global powers demanding allegiance to specific blocs.

India's geopolitical strategy involves rejecting the narrative of dependency that organisaalignment with corporate tions like the Rockefeller

Foundation propagate. Blood may be thicker than water, but Índia's external relationships prioritise sovereignty over sentimentality. The BJP's framing of its sover-eignty struggle as a broader battle for multipolarity reflects a vision of India not just as a rising power but as a protector of global balance. While domestic critics downplay the likelihood of coordinated foreign efforts against India, the

different story. Examples abound of covert interventions justified under the banner of democracy or human rights.

BJP argues that history tells a

Modi's government, embodies the Rooseveltian ethos of combining tact with strength, ensuring that India's voice remains firm in the shifting

balance of global power. The allegations against figures like Soros, the American deep state, and philanthropic organisations symbolise the challenges India faces as it redefines its place on the world

Whether these claims represent genuine threats or political posturing, they underscore the complexities of a world where the boundaries of influence, power, and sovereignty remain contested. India's ascent highlights a fundamental truth: the struggle for sov-ereignty in a globalised world demands not only resilience but also an unwavering belief in one's capacity to walk softly while wielding the proverbial big stick.

About 87,000 people were being evacuated in a central Philippine region Tuesday a day after a volcano briefly erupted with a towering ash plume and superhot streams of gas and debris hurtling down its western slopes.

The latest eruption of Mount Kanlaon on central Negros island did not cause any immediate casualties, but the alert level was raised one level, indicating further and more explosive eruptions may occur.

Volcanic ash fell on a wide area, including Antique province, more than 200 kilometers (124 miles) across seawaters west of the volcano, obscuring visibility and posing health risks, Philippine chief volcanologist Teresito Bacolcol and other officials said by telephone.

At least six domestic flights and a flight bound for Singapore were cancelled and two local flights were diverted in the region Monday and Tuesday due to Kanlaon's eruption, according to the Civil Aviation The mass evacuations were

Equity MFs inflow drops 14% in Nov; SIP figure remains flat at Rs 25,320-cr

Equity mutual funds witnessed an inflow of Rs 35,943 crore in November, marking a drop of 14 per cent on a month-on-month basis, amid heightened volatility in stock markets driven by various macroeconomic factors, geopolitical events and US election results.

Despite this, it marked the 45th consecutive month of net inflows into equity-oriented funds, reflecting the growing popularity of mutual funds among investors, according to data from the Association of Mutual Funds in India (AMFI) released on Tuesday.

Moreover, monthly contributions from the Systematic Investment Plan (SIP) remained flat at Rs 25,320 crore last month against Rs 25,323 crore in October.

"There was heightened volatility due to various macroeconomic factors, geopolitical events and the US election results. This resulted in investors opting for a wait & watch approach while allocating larger amounts and thus decline in lumpsum flows including flattish SIP numbers for November 2024, Akhil Chaturvedi, CBO, Motilal Oswal AMC, said.

Overall, the mutual fund industry experienced an inflow of Rs 60,295 crore in the month under review, which was way lower than Rs 2.4 lakh crore in October. This could be due to a huge decline in inflows in debt funds to Rs 12,915 crore in November from Rs 1.57 lakh crore in the preceding month.

Despite the decline, the industry's net assets under management rose to Rs 68.08 lakh crore last month from Rs 67.25 lakh crore in October.

"Defying a tumultuous month in the equity market, the mutual fund industry's assets reached a new pinnacle of Rs 68.08 lakh crore, driven primarily by robust inflows into growth-/equity-oriented schemes. The unwavering SIP inflows remained above Rs 25,000 crore in November, showcasing the investors' long-term vision and commitment to

their financial goals, despite the short-term market fluctuations," Venkat Chalasani, Chief Executive, AMFI, said. As per the data, equity-oriented schemes witnessed an inflow of Rs 35,943 crore in November as compared to record inflow of Rs 41,887

"Weak global cues, China's recent economic stimulus, and escalating tensions between Ukraine and Russia impacted Indian equity markets in November 2024, which witnessed relentless selling by foreign portfolio investors. The impact of this was seen on the Indian mutual fund

industry as well, which witnessed 14.19 per cent drop in equity inflows in November on a month-on-month basis," Ashwini Kumar, Senior Vice President and Head Market Data, ICRA Analytics, said. Within the equity schemes, sectoral or thematic category attracted investors with the highest net inflow of Rs 7,658 crore during the month under review. However, flow in the segment was less compared to Rs 12,279 crore in October and Rs 13,255 crore in September. This was followed by flexi cap funds which saw inflow of Rs 5,084 crore last

month. Inflows into large-cap funds declined 26 per cent to Rs 2,548 crore in November from Rs 3,452 crore in the preceding month, while mid and small cap funds registered month-on-month growth of 4.3 per cent to Rs 4,883 crore and 9 per cent to Rs 4,112 crore, respectively. crore, respectively.
The month saw 18 new fund

offerings (NFOs) collecting Rs 4,052 crore while October saw 29 NFOs garnering Rs 6,078 crore. Of this, new index funds launched in November were 10 as compared to 17 launched in October, Mayukh Datta, Chief Business Officer, ITI Mutual

There has been a shift from low-risk categories like largecap and hybrid funds to higher-risk options like small-cap

slowed down last month. With regards to debt-oriented funds, Deepak Ramaraju,

Senior Fund Manager, Shriram AMC, said that the category saw a 92 per cent month-on month plunge in inflow to Rs 12,916 crore in November on the back of withdrawal from liquid funds due to tighter liquidity conditions and possible tax payments.

Overall, 9 out of 16 debt mutual fund categories recorded net inflows in November. Liquid funds experienced the highest outflows, amounting to Rs 1,779 crore.

"Meanwhile, investors showed a strong preference for categories like low-duration funds, ultra-short-duration funds, money market funds, corporate bond funds, and overnight funds. Together, these categories accounted for about 85 percent of the inflows across nine categories that recorded positive figures, highlighting a strong preference for lowrisk, highly liquid investment options," Nehal Meshram,

Research, Morningstar Investment Research India,

Further, investor interest in active duration strategies, such as Gilt Funds, led to inflow of Rs 1,803 crore. This can be attributed to rising expectations of interest rate

cuts in the near future, she

added.

Gold continues to glitter with investors showing their affinity towards yellow metal in November as well. Gold ETF category witnessed a net inflow of Rs 1,257 crore in November, which was lower than Rs 1,961 crore seen in the preceding month. "While the fund mobilized was less compared to October, the redemption number was higher. This signifies that investors would have chosen to book profits with gold trading at elevated levels and impending marriage season, where the demand for physical gold is high," Himanshu Director- Manager Research, Morningstar Investment Research India, said.

Bihar Ambassadors' meet strengthens global investment ties

PTI ■ NEW DELHI

A head of the second edition Of the Bihar Business Connect 2024 summit, the Department of Industries of the Bihar government showcased the state's strategic initiatives, reforms and investment opportunities to select diplomats.

The Bihar Business Connect 2024 - Ambassadors' Meet presented the policies and initiatives of the state government to the global audience as a precursor to the Summit scheduled for December 19-20, 2024, in Patna, according to an official statement.

The event had Bihar Deputy Chief Minister and Finance Minister Samrat Chaudhary, Industry and Tourism Minister Nitish Mishra, State Chief Secretary Amrit Lal Meena, and Bandana Preyashi, Secretary of the Industries Department.

The roadshow saw diplomats from around 30 foreign missions in India as also international trade associations and trade promotion bodies participate.

Foreign guests present at the event included Nguyen Thanh Hai, Ambassador, Embassy of the Socialist Republic of Vietnam; Mariano Agustin Caucino, Ambassador, Embassy of the Argentine

Pasquini, Commercial Officer of the US Embassy, alongside prominent trade bodies such as the Indo-German Chamber of Commerce, TPCI, FIEO, AEPC, US-India Business Council, and UK-India Business Council.

Speaking at the event, Chaudhary highlighted Bihar's rapid strides in industrial development and sustainability and said, "Policy, population, and water make Bihar special. Here we are working on policies which are sector-specific like leather, IT, start-up, etc. Our demographic dividend is our strength. This not only makes Bihar a big market but also an epicentre for human resources.

Ignacio, Ambassador, Embassy of production. In the coming The ease of doing business is tremendous opportunity, a state we've invested in.'

will be seen in Bihar, which will definitely make the state more favourable for investment." Industry and Tourism Minister

Nitish Mishra emphasised the state's untapped potential, saying, "All the facilities required for investment anywhere are present on a large scale in Bihar. Here land, infrastructure, connectivity, electricity, water, human resources and market are all available, which makes Bihar investment-friendly. Today, as we are working to achieve the goal of Viksit Bharat in 2047, it becomes necessary that we take advantage of the immense opportunities available in Bihar.

Meena emphasised the statistics that define Bihar as the hub "Abundance of water makes the of investors and said, "Bihar is

the focal point of Bihar. There is massive focus on agriculture where production has gone up

exponentially.
"Our CAGR of per capita power consumption is 16 per cent, which is the highest in the country, and now there's complete focus on renewal energy. Data consumption has gone up by 2000 per cent, which talks about the growing economy. With aspiring youth, Bihar is clearly the future.'

Reaffirming Bihar as a premier global investment destination, Preyashi said, "Bihar is fast emerging as an industrial land, where both small and big investors are investing. Almost 100 per cent electricity, huge market, abundant water, friendly policies and better infrastructure are some of the aspects that make Bihar investment-friendly and attract investors.

We are continuously working to improvise and bring sectorspecific policies. We are also making the path easier for investors by providing various types of incentives, such as capital investment subsidy, export subsidy, and interest subven-

Highlighting the strategic investment opportunities in Bihar in his opening remarks, Jaideep Ahuja, Chairman, CII Delhi Chapter, stated, "We stand on the threshold of vision to foster partnerships and open new doors for investments in the vibrant dynamic state of Bihar. Bihar growth story is one of resilience, transformation and promise. The state has established itself as a promising hub for investments and industries, and I am delighted to witness the momentum that is building in the collaborative spirit that defines today's economic environment."

Rajneet Kohli, CEO, Britannia Industries, which has two manufacturing plants in Bihar, said, "Bihar, with its growing population of 140 million, offers a captive market for our products. The state's robust GDP growth, the second-highest in the nation, further fuels our expansion. We've created over 3,000 jobs and reached 7,500 villages, establishing 1,000+ rural outlets and 55,000+ urban outlets."

Kamal Oswal, Managing Director, Nahar Group, mentioned while addressing the other dignitaries, "We're starting our new Logistics Park in Bihar, a massive 1 million square foot facility. This USD 15 million investment will generate 4,000 jobs, making it one of India's largest logistics hubs. Our experience in Bihar has been exceptional, with all approvals processed swiftly

Rupee settles on a flat note near all-time low at 84.85 against US dollar

PTI ■ MUMBAI

The rupee settled for the day on a flat note higher by just 1 paisa at 84.85 (provisional) against the US dollar on Tuesday, a tad above its all-time low level, as change of guard at the Reserve Bank of India raised expectations of a shift in the central bank's monetary policy.

The government on Monday appointed Revenue Secretary Sanjay Malhotra as the 26th Governor of the Reserve Bank of India.

Forex traders said markets now expect a rate cut in the

upcoming monetary policy in February. While a weak tone in the domestic markets and a surge in the US dollar index further pressurised the rupee.

At the interbank foreign exchange, the rupee opened at 84.80 and touched the lowest level of 84.86 against the greenback during intra-day trade. The unit ended the session at 84.85 (provisional) against the dollar, higher by just 1 paisa from its previous

close.
On Monday, the rupee saw its steepest fall in over a month and plunged 20 paise to settle at lowest-ever level of

84.86 against the US dollar.

'We expect the rupee to trade with a negative bias on strength in the US dollar and overnight gains in crude oil prices. However, recent FII inflows may support the rupee at lower levels," said Anuj Choudhary – Research Analyst at Mirae Asset Sharekhan.

Choudhary further said that any intervention by the RBI may also support the rupee. "Investors may remain cautious ahead of US inflation data on Wednesday. Inflation is expected to be higher than the previous month. USD- INR spot price is expected to currencies, was trading high-trade in a range of 84.65 to er by 0.13 per cent at 106.28. 85.10," he said.

Shaktikanta Das, who will demit office as the Governor of the Reserve Bank of India on Tuesday, was the key man behind the planning and execution of the demonetisation drive and roll-out of the landmark goods and services tax (GST). At the RBI, he steered India's monetary policy response during the challenging period of the pandemic.

The dollar index, which gauges the greenback's strength against a basket of six

Brent crude, the global oil benchmark, fell 0.36 per cent

to USD 71.88 per barrel in

futures trade. On the domestic equity market front, the 30-share benchmark index Sensex closed on a flat note at 81,510.05, higher by just 1.59 points. The Nifty fell 8.95 points, or 0.04 per cent, to 24,610.05 points. Foreign Institutional

Investors (FIIs) were net buyers in the capital markets on Monday, as they purchased shares worth Rs 724.27 crore, according to exchange data.

IGL announces 1:1 bonus share issue

PTI NEW DELHI

 $\mathbf{I}^{ ext{ndraprastha}}$ Gas Ltd on Tuesday announced a 1:1 bonus share - one free share for every share held by shareholders as India's biggest city gas retailer looks to increase retail investor participation and reward shareholders.

This is IGL's maiden bonus

The Board of Directors of IGL in a meeting on Tuesday approved "issuance of bonus shares to the shareholders of the company in the ratio of 1:1, i.E. 1 (one bonus equity Shares of face value of Rs 2 each fully paid up for every 1 (one) existing equity shares of face value of Rs 2 each fully paid up, to the eligible shareholders of the company as on the record date," the firm said in a stock

exchange filing. The share capital of the company will increase from Rs 140 crore to Rs 280 crore postbonus issue. Rs 140 crore

would be capitalized from free reserves to implement the bonus issue.

"The company has a total balance of Rs 8,411.74 crore as free reserves for capitalization," IGL The bonus share is likely to be

credited within two months. IGL retailers CNG to automobiles and pipes natural gas to household kitchens and industries Delhi and its adjoining cities of Noida, Greater Noida, Ghaziabad and Gurugram. It also retails in few

Rajasthan and Uttar Pradesh. It meets fuel requirements of over 1.7 million vehicles running on CNG through a network of 882 CNG stations. IGL has connected over two and a half million households in these cities with PNG.

"This strategic decision further underscores the company's unwavering commitment to enhancing shareholder value while reinforcing investor confidence in IGL's robust financial performance and future growth trajectory," IGL later said in a statement. The record date for determin-

ing eligible shareholders will be decided later. "This announcement aligns with IGL's enduring philoso-phy of rewarding its share-

holders, underpinned by strong financial fundamentals and consistent growth," the firm The bonus issuance not only reflects the company's healthy reserves but also its optimism in sustaining its leadership

position in India's clean ener-

gy ecosystem, IGL said. Commenting on the issue, Kamal Kishore Chatiwal Managing Director, IGL, said, "The bonus share issue is a testament to our continued focus on creating long-term shareholder value. I reinforce our confidence in the company's potential to scale new heights

while rewarding our investors

PNS ■ NEW DELHI

The 10th edition of ALU-CAST® EXPO, India's premier biennial international conference and exhibition on die casting technology, commenced on December 5, 2024, at Yashobhoomi, India International Convention & Expo Center, Dwarka, Delhi. Spanning three days, the event hosted over 200 exhibitors and 300+ brands from nations such as Germany, the USA, Japan, and Spain, drawing more than 8,000 visitors from 20+ countries.

Organized by the Aluminium Casters' Association (ALU-CAST)* and NürnbergMesse India, the event highlighted India's emerging leadership in aluminum die casting. Keynote speeches by industry leaders, including Mr. Prasan Firodia, President of

ALUCAST, showcased India's advanced manufacturing capabilities, such as its 4,400ton aluminum die-casting machine. Ms. Sonia Prashar, Managing

Director of NürnbergMesse India, emphasized the sector's growth beyond automotive applications to include aerospace, consumer electronics, and electrical equipment. The conference featured over 2.5 days of technical sessions on innovations like semi-solid casting, AI integration, and workforce reskilling.

World Chess Championship: Nerves to play crucial role as Gukesh, Liren head for close finish

A handy lead has slipped through his grip but Indian Grandmaster D Gukesh will rely on his steely resolve to bounce back when he takes on enigmatic defending champion Ding Liren in the 13th game of the World Chess Championship that has been quite a roller-coaster ride for the players.

The 18-year-old Gukesh, who is the youngest challenger to the title, and the 32-year-old defending champion from China have been locked in an intriguing battle in which both have held leads for not too long. They will resume on Wednesday after a day of

The scores are currently tied at 6-6 with the first to reach 7.5 assured of the coveted crown.

After squandering away a full point lead with just three games to go, the 12th round loss was heartbreaking for the young Indian and many experts believe that he will go for an aggressive approach in his last game with white pieces under Classical time control.

It won't be off the mark to say that nerves are likely to play a crucial role in the final stretch.

The scores were tied 5-5 after game

10 but the last two decisive games thereafter have breathed new life into an otherwise well-contested match in which both players have had their chances

After what he described as a see-saw victory in the 11th game, Gukesh was simply not himself in the 12th game and his idea to play a new position for the first time backfired spectacularly. If the scores are still tied in the USD 2.5 million championship, tie-break games of shorter duration will be played to determine the winner.

Generally a smooth operator, Liren looked a pale shadow of himself after the 11th game and the case was no different for Gukesh when he was

completely outplayed for the first time here on Monday.

To regain composure is the name of the game here and Gukesh has shown resolve in the past.

Liren, on the other hand, was in a similar situation in the last world championships match against Ian Nepomniachtchi that he won,

rallying as many as three times before eventually clinching the tiebreaker. Liren's precision immaculate in the 12th game. Gukesh did not look the same player

and the Chinese took advantage of the situation right from the word go to earn high praise from many in the elite chess circles.

Five-time world champion across formats, Viswanathan Anand, called it a "very impressive game" while Liren himself said, "it was the best game that I have played in recent

While the mind games will go on in the last two games and a potential tiebreaker, American Hikaru Nakamura and world number one Magnus Carlsen feel that the balance had tilted slightly in Liren's favour.

"Ding did not have to calculate a single line in this whole game, he is being able to play the game based on positional understanding where he is very good," said Carlsen on his new voutube channel.

It might be a tightrope walk for Gukesh but the young Indian is likely to go out there and give his best in the penultimate game.

In case of another draw, there is a decent chance that the chess buffs will get to see the tie-break games.

desperate for a win revive campaign struggled for consistency,

Chennaiyin, Hyderabad

Struggling at the bottom-half of the table both Chennaiyin Hyderabad FC will look to revive their campaign when they clash in the Indian Super League here on Wednesday.

The two teams are in an urgent need for a shift in momentum, with two-time former champions

Chennaiyin FC dropping to ninth in the standings following one draw and three defeats on the trot. A win can take them to the seventh spot. Hyderabad FC have also suffered three losses in a row to be one place ahead of the laggards Mohammedan Sporting with seven points from 10 games.

The Owen Coyle-coached Marina Machans endured a challenging run, going three games without a goal, a streak they'll aim to break in front of their home crowd.

Despite scoring 16 goals in 11 this matches season, Chennaiyin's attack faltered recently, and they have failed to score in their last two meetings with Hyderabad.

Head coach Owen Coyle, on the verge of completing 50 ISL matches in charge, will be eager to mark the milestone with a victory. Connor Shields will have to

play a key role in the midfield as his delivery from the flanks will be crucial in supplying chances to forwards like Daniel Chima Chukwu, who has a strong record against Hyderabad, including five goals in previous encounters. Hyderabad FC has also

conceding 11 first-half goals this season -- more than any other team.

Their defensive frailty often force them into catch-up disrupting their mode, rhythm.

On the attacking front, Hyderabad have failed to score in four of their last six games. Their only wins in this stretch came when they found the net, underscoring the importance of converting chances.

Their English-born Japanese midfielder Cy Goddard has been the bright spot, contributing a goal and an assist this season while creating 15 goal-scoring opportunities.

Hyderabad will count on his ability to unlock Chennaiyin's defense and deliver in the final third.

"Hyderabad FC have some very good players and some talented Indian players. A lot of them have done well. We are very respectful of the game tomorrow night. We will be very positive and try to win the game from the very first minute," Coyle said. Hyderabad FC assistant coach

Shameel Chembakath hoped that his team will be storming back into form, mentioning that they are working well on that the areas improvement.

When the results are disappointing, we are fully aware of the areas we need to improve upon. Football is a game of ups and downs. Training is going well. We are taking this challenge positively and we will be bouncing back," Chembakath

Tennis legend Andre Agassi on Tuesday emphasised the importance of keeping sports as a part of education, stating that sports teach children the value of losing. Agassi was discussing the future of sports and education as a foundation for excellence at the TiE Global Summit 2024 in Bengaluru.

"Even when you have a failure, you have to get up and play again the next day. So, what sports is teaching you is that focusing on winning and losing is really a distraction from what we need to be thinking about. We need to be thinking about how to get better," he said. Agassi, who has been today.

shared that he has helped build 130 schools for about 80,000 kids in the United States, a feat he attributes to pushing himself to stay ahead

of challenges. He credited his ability to stay on course—and course-correct when needed—to his gruelling tennis career.

Sports is all about problemsolving. Tennis taught me how to navigate a very intense environment and maintain my objectivity and problemsolving abilities. It forces me to be present, but also to understand the context of what I'm doing," Agassi said. Speaking about his rebellious phase, Agassi said it was something he had to go through to reach where he is today. "Vulnerability is investing in education for the essential for growth, and I "disadvantaged" since 2001, think vulnerability eventually

leads to humility," he added. The session, called Marathon Mindset, also featured Aakash Chaudhry, Co-Founder and

Chief Mentor of Aakash **Educational Services Limited** (AESL), who discussed the future of EdTech in India.

World Cup hosting decisions set to kick off a decade of scrutiny on Saudi Arabia and FIFA VI announced his nation would seek the 2030 World biggest prizes in world sports four weeks.

AP ■ GENEVA

The inevitable result has been clear since last year: Saudi Arabia will be confirmed by FIFA as the 2034 World Cup host on Wednesday. The 2030 World Cup also will

be awarded to a six-nation, three-continent project led by co-hosts Spain, Portugal Morocco. It gives a single game each at South American neighbors Argentina, Paraguay and Uruguay, the first host in 1930.

Two men's World Cups, one candidate for each, both a shoo-in to win.

The outcome will be as FIFA and its president Gianni Infantino intended in October last year. Then, on the same day, the 2030 race was effectively decided and the 2034 one surprisingly
