arliament continued to be Partialite contract of the political parties on the political parties on eleventh consecutive day on Wednesday as both ruling and Opposition benches trade charges against each other blaming neither of them are allowing smooth functioning of the Winter Session. With a brief functioning of the Lok Sabha which passed a bill to amend Railway Laws, Bharatiya Janata Party (BJP) led National Democratic Alliance (NDA) parties of the Treasury bench were at par with the Congress led Opposition INDIA Bloc in sloganeering in and out of the Lok Sabha and Rajya Sabha causing disruptions in both the Houses which ultimately led to adjournment of the day. Congress-led INDIA Bloc and BIP soon after the adjournments held Presser to flag concerns over non functioning of the Winter Session.

Parliament proceedings were washed out in the first week of the winter session starting November 25 due to protests Opposition members demanding discussion on issues like the indictment of industrialist Gautam Adani in a United States court and Sambhal violence and since last week, the ruling BJP MPs have been raising the issue of alleged nexus between Soros and the Congress posing a threat to national security.

While several Opposition members alleged Rajya Sabha Chairman Jagdeep Dhankhar's "partisan" conduct which prompted them to move a

notice for his removal as vice president and accused him of being the "biggest disrupter" whose conduct in the House has harmed the country's dignity, BJP alleged Congress was attempting to "defame" Dhankhar and "insulting" the Jat community.

Alleging that politics has taken precedence over rules in the Upper House of Parliament, Congress president Mallikarjun Kharge said the chairman's conduct has been contrary to the dignity of the high post he holds. Several Opposition MPs greeted their BJP counterparts in Parliament premises with the tricolour in one hand and a red rose in the other, as they urged the ruling party to ensure that the House functions and all issues, including the Adani matter, are discussed. This is the latest in a vote after debate which could series of unusual daily

Responding to a debate on the Railway Amendment bill, Railway Minister Ashiwni Vaishnaw said in the Lower House that a fake narrative was set afloat that the amendment would privatise railways. Addressing a joint Press conference by the INDIA Bloc leaders at the Constitution Club, Kharge alleged that Dhankhar is working as a government spokesperson and like a school acting headmaster, often sermonising experienced Opposition leaders and preventing them from speaking in the House. The Congress chief said since 1952, no resolution has been brought against the vice president under Article 67 of the Constitution as those who held the post previously never indulged in politics and remained unbiased. He said the Opposition parties have nothing against Dhankhar, "but he left us with no option but to go ahead with the notice for his removal".

 $O_{\text{needed to be done, the}}^{\text{bserving}}$  that much Supreme Court on directed the Wednesdav Centre to file an action taken report on the compliance of its direction for ensuring manual sewer cleaning was completely eradicated in a phased manner. A Bench of Justices Sudhanshu Dhulia and Aravind Kumar asked additional solicitor general Aishwarya Bhati, appearing for the Centre, to call a meeting of the Central Monitoring Committee with all the stakeholders within two weeks.

The Committee reviews the implementation of the Prohibition of Employment as Manual Scavengers and their Rehabilitation Act, 2013 (MS Act, 2013). "The order passed by the court (in 2023) said that considering the development of technology, it was entirely possible to eradicate manual scavenging and employment of labour for sewer cleaning. This has not been done. From the report, it appears that much needs to be done," the Bench said.

Senior advocate Parameshwar, who is assisting the SC as Amicus Curiae, submitted that 40 deaths occurred due to sewer

cleaning and cleaning septic tanks in 2024 but no FIR was filed. He flagged most of the committees as mandated under the Act were not in place, and pointed out noncompliance of the laws. The matter would come up in January, 2025. Observing a large segment of

India's population, involved in manual scavenging, had remained unheard and muted, in bondage and systematically trapped in inhumane conditions, the top court in 2023 directed the Centre and states to take appropriate measures, to ensure that manual sewer cleaning was completely eradicated in a phased manner. The SC had asked the Centre

to issue guidelines and directions that any sewercleaning work outsourced or required to be done by, or through contractors or agencies, did not require individuals to enter sewers. The SC directed that Governments pay Rs 30 lakh compensation to the next of kin of those who died while cleaning sewers.

It directed all States and Union Territories to make sure all departments, agencies and corporations ensured the guidelines framed by the Centre were incorporated in their guidelines. The SC had directed in the

case of sewer victims suffering from disability, the minimum compensation won't be less than Rs 10 lakh. If the disability rendered the victim economically helpless, the compensation should not be less than Rs 20 lakh, it said.

Aday after a glass-encased replica of the Indian Constitution was vandalised by some miscreants near Dr. BR Ambedkar's statue located outside the local railway station, Parbhani city in Marathwada erupted once again on Wednesday, as protesters resorted to largescale violence, arson and stone-pelting, amid a bandh called by the Ambedkarite activists.

The excise department of the Delhi government, during routine inspections by its teams in recent days, found customers younger than 25 years having alcohol at bars, clubs and restaurants. The inspections also revealed that some customers were consuming liquor pretending to have completed 25 years. Complaints were also received by the department that some excise licensees were serving liquor to underage persons, according to a circular issued by the excise department.

With Thursday being the last date for filing nominations for the urban local bodies elections, the ruling Aam Aadmi Party (AAP) on Wednesday announced its first list of 784 candidates. These polls, scheduled for December 21, will cover 87 municipal corporations and committees, alongside 49 byelections to fill vacant seats, involving a total of 977 wards.

Making the announcement, Punjab AAP president Aman Arora, accompanied by working president Amansher Singh Sherry Kalsi and other senior leaders, emphasized the party's robust and transparent candidate selection process. Arora revealed that AAP had received an overwhelming response, with over 5,000 applications for 977 wards. "This reflects the immense public trust in our governance and policies. In many wards, we received 15-20 applications per seat, showapplications per seat, show-casing the enthusiasm among people to align with AAP's mission of development-ori-ented governance," he said. Arora detailed the party's grassroots approach to select.

grassroots approach to select-ing candidates, explaining that screening committees at the zonal and district levels meticulously reviewed applications to ensure fairness and inclusivity. Consultations with district and Lok Sabha in-charges further reinforced the transparency of the process.

The first list includes candidates for key cities such as Ludhiana (94 wards), Patiala (56 wards), and Amritsar (74 wards). The remaining candidates will be announced later in the evening after further deliberations

AAP expressed confi-dence in its electoral prospects, citing its consistent performance in recent panchayat and by-elections, where it achieved an 80-85 percent success rate. Arora attributed this success to the party's focus on urban and rural development under Chief Minister Bhagwant Mann's leadership. "Our track record

These elections will give us another opportunity to strengthen governance at the grassroots level," he remarked. The party also celebrated

high-profile defections from rival camps, highlighting the growing support for its agen-da. The Bharatiya Janata Party (BJP) suffered a setback in Handiaya, Barnala, after its two-time councilor and former district president Gurmeet Singh joined AAP along with other leaders, including BJP state executive member Harinder Singh Sidhu, Charanpreet Singh,

and Buta Singh.

The BJP on Wednesday leveled serious allegations against the rulingAAP, accusing it of misusing Punjab Police to influence the upcoming Urban Local Bodies elections. The BJP has submitted letters to the Punjab State Election Commission and the state Director General of Police (DGP), seeking immediate intervention to ensure

fair and transparent elections. The controversy erupted after BJP candidate Gautam Sood, contesting from Ward 2 of Ghanaur Nagar Panchayat, was allegedly detained by police early on December 11. According to BJP Punjab general secretary Anil Sarin, the arrest occurred shortly after Sood's candidature was announced. Sarin revealed that Ghanaur Station House Officer (SHO) failed to provide any credible complaint or details about the complainant, raising questions about the legality of the action.

In another incident, BJP candidate Vipin Pubby from Ward 8 in Dharamkot was reportedly obstructed from filing his nomination. Sarin claimed that an individual snatched away his nomination file and authority letters for other BJP candidates in the presence of Punjab Police officers. Despite bringing these

Union Minister Ravneet Singh Bittu also lashed out at the government officers to avoid partisanship. Bittu, addressing a press conference in Patiala along with former Union Minister and senior BJP leader Preneet Kaur, Bittu warned that strict action would be taken against any officer found indulging in unlawful activities. "Your cadre is with the Central Government, not with Bhagwant Mann or Arvind Kejriwal. If evidence of misconduct surfaces, FIRs will be lodged through the Election

Commission," Bittu cautioned. Responding to the allegations, BJP state media head Vineet Joshi remarked, "The way AAP is misusing Punjab Police clearly indicates their admission of defeat. They know they cannot win on merit, so they are resorting to

undemocratic methods." 22 IAS Deputed as Election **Observers in Different** Districts

To ensure that necessary arrangements for the conduct of free, fair, and peaceful elections have been made as per provisions of law and to oversee the electoral process with strict vigilance, Punjab's State Election Commission on Wednesday deputed 22 IAS officers as Election Observers in different districts of the State. Out of these, five officers will oversee elections in five Municipal Corporations with one officer in each urban body.

Commission's official spokesperson said that remaining observers will supervise Municipal Council or Nagar Panchayat elections in different districts of the State. These Observers have been directed to reach their allotted districts latest by 11 am on December 12, 2024, that is the last day of nominations, to review all arrangements and necessary activities pertaining to the elections.

Himachal Pradesh Chief Minister Sukhvinder Singh Sukhu on Wednesday launched six new schemes and distributed financial assistance to beneficiaries during an event at Luhnu Ground, Bilaspur, marking the completion of two years of the present state

government's tenure. Aiming to promote natur-al farming, Sukhu introduced "Him Bhog Atta," prepared from maize grown using natural farming practices. The government procured 398 metric tonnes of maize from 1,506 farmers of ten districts of the State and transferred Rs. 1.20 crore directly to their bank accounts. With Himachal Pradesh offering the highest support price in the country for wheat (Rs. 40 per kg) and maize (Rs. 30 per kg), over 1.98 lakh farmers across 35,000 hectares were engaged in natural farming. To further encourage this Rajiv Gandhi Natural Farming Start-up Scheme under Rs. 680 crore Rajiv Gandhi Start-up Scheme was integrating 36,000 new farmers this year.

To benefit small farmers and livestock owners and fulfil the Guarantee enshrined in Congress Pratigya Patra, Sukhu launched a scheme to purchase organic compost and vermin-compost at Rs. 300 per quintal. Payments of Rs. 1 lakh were distributed to 100 farmers via direct benefit transfer (DBT). This initiative aims to boost farmer's incomes thereby strengthening the rural economy

He also handed over keys to 16 electric taxi owners under the Rajiv Gandhi Self-Employment Start-up Scheme 2023. Beneficiaries received a 50 percent subsidy for purchasing the e-taxis with the

vehicles leased to government offices for five years. This arrangement guarantees a stable monthly income for taxi owners. The state government aims to provide around 150 permits to e-taxi owners in the first phase.

Sukhu also rolled down Indira Gandhi Sukh Shiksha Yojana by disbursing Rs. 1.38 crore to the eligible 5145 beneficiaries of the State and also provided them eligibility certificates. The scheme aims to cover 23 thousand children's education and well-being of the widows, destitute women, divorced women and disabled parents, offering them financial assistance for their higher edu-

cation and well-being. He also launched Rs.1292 crore Himachal Pradesh Subtropical Horticulture, Irrigation and Value Addition Project (HP Shiva) to expand horticulture development across seven districts. The initiative would cover 6,000 hectares, promoting the cultivation of fruits like oranges, guavas, litchi and plums, benefiting over 15,000 farming families directly. It was expected to produce 1.3 lakh metric tonnes of fruit annually by 2032 with a market value of Rs. 400 crore.

Sukhu flagged off five mobile Ayush healthcare units to serve remote tribal regions, including Kinnaur, Lahaul & Spiti, Chamba and Shillai block of Sirmaur district. Each unit would have an experienced medical team offering Ayurveda, Unani, or Homeopathy treatments based on local needs. This initiative aims to improve healthcare access in underserved areas.

The Chief Minister also extended financial aid amounting to Rs. 1.90 crore under the Mukhyamantri Sukh-Ashray Yojana (MMSAY) to 197 beneficiaries in Bilaspur district.

# **Race for Delhi**

With the Delhi Assembly elections on the horizon, the political temperature in the capital is rising

s the Delhi Assembly Elections 2025 draw closer, the political landscape of the national capital is abuzz with activity. Major players-the incumbent Aam Aadmi Party (AAP), the Bharatiya Janata Party (BJP), and the Congress—are gearing up for what promises to be a fiercely contested battle. With 70 seats at stake, every party is refining its strategies to sway the electorate in its favour. The Aam Aadmi Party, led by Arvind Kejriwal, remains a dominant force in Delhi politics. In the 2020 elections, AAP swept the polls, securing 62 out of 70 seats, while the BJP managed only 8, and Congress failed to open its account. However, the 2025 elections present new challenges for the party, including anti-incumbency sentiments and a more aggressive opposition. One of the most intriguing aspects of AAP's strategy is the decision to field senior leader Manish Sisodia from the Jangpura constituency. Political analysts suggest this move reflects a calculated attempt by AAP to strengthen its presence in

South Delhi, which has traditionally been a mixed battleground. Sisodia's administrative acumen and popularity could be pivotal in securing a win in this crucial region.

Yet another aspect is Kejriwal's decision to go solo. Despite initial speculations about a possible alliance between AAP and Congress, Arvind Kejriwal has now said that AAP would have no electoral alliance with Congress. The strained relationship between the two parties, fueled by ideological differences and a history of rivalry, seems to have outweighed any potential advantages of a partnership. Additionally, AAP's leadership might perceive a tie-up with Congress as

a liability, given the latter's diminished presence in Delhi politics. But it also diminishes its own chances as vote split in this scenario is imminent. Congress has dedicated vote bank in Delhi and that could hurt AAP. On the other side, the BJP, aiming to reclaim its footing in Delhi, is expected to focus on its core voter base and polarising issues to galvanise support. The party has intensified its outreach efforts and is likely to emphasise nationalistic themes and the central government's achievements under Prime Minister Modi. However, its challenge remains breaking through AAP's stronghold on key urban constituencies. Congress faces an uphill battle as it tries to regain relevance in Delhi's political scene. The party's lack of significant organisational groundwork and leadership issues have kept it on the sidelines in recent years. However, Congress might attempt to consolidate minority vote and traditional voters to make a dent in the electoral outcome. The decision to avoid an alliance with Congress underscores AAP's confidence but also raises questions about its ability to counter a potentially consolidated opposition. As candidates hit the campaign trail, the capital is set to witness a clash of ideologies, promises and personalities. For now, all eyes are on the unfolding strategies as Delhi gears up for another defining electoral battle.

complexities, with far-reaching implications for presidential clemency

ast week, Americans and people worldwide were stunned by the news that President Joe Biden pardoned his son, Hunter Biden. This clemency controversy was significant because Hunter Biden, a family member, contributed to the debate surrounding the pardon. The pardon ensures that Hunter will not be sentenced for his alleged crimes and will not go to prison.

The judges handling his cases will likely cancel the sentencing hearings scheduled for December 12 for the gun case and December 16 for the tax case. Also, the President is no longer running for office. He made his no-pardon pledge before dropping out of the June presidential race. Presidential pardons in the United States have often sparked controversy; however, some decisions-such as President Biden pardoning his son-have led to more criticism than others. Constitutionally, the President can grant pardons, a power previous presidents have used. Traditionally, US presidents dole out pardons as they leave office.

However, Joe Biden's 'complete and unconditional' pardon of his son adds a layer of complexity and public scrutiny to the issue, a historical context that is important for the public to understand. It is important to understand why Joe Biden acted as he did. Joe Biden has faced many difficulties in his life.

He has faced significant personal challenges. He was caught between saving his son and the public criticism. Everyone knows that he is loyal to his family. His baby daughter and first wife died in a car accident, which also injured his sons, Beau and Hunter. Biden wanted Beau to become President, but Beau sadly died from brain cancer in 2015. This focus on the Biden family's struggles aims to create empathy from the public. According to the

ical and supportive. While some think it is fair, others consider it not justified. This mixed reaction from the public, as well as from Biden's party colleagues, adds a laver of complexity to the issue. Presidents from both parties have used their pardon power, which has raised eye-

brows. George Washington used the power to pardon some people. Presidents often use their pardon powers for friends and allies. A controversial case was former President Richard Nixon, who Gerald Ford pardoned on September 8, 1974. Nixon faced possible prosecution for the Watergate scandal.

In late 1992, President George H W Bush pardoned six men implicated in the Iran-contra affair, including former Defense Secretary Weinberger. Bill Clinton, who, despite stating he would not, pardoned his half-brother Roger for past cocaine charges. Similarly, Donald Trump pardoned his son-inlaw Jared Kushner's father for tax evasion and for retaliating against a cooperating witness. Both had already served their

prison sentences.

said in a statement, "I have admitted and taken responsibility for my mistakes during the darkest days of my addiction — mistakes that have been exploited to publicly humiliate and shame me and my family for political

sport." Îhe case against Hunter Biden has spanned several years, involving allegations of tax crimes and gun fences. He was convicted in June and pleaded guilty to tax evasion in September. Biden said Hunter was 'selectively and unfairly prosecuted' and pointed out that the charges were politically motivated. The immediate impact of the pardon is that it makes it harder for Democrats to criticise Trump.

He stated Hunter was singled out only because Hunter was his son. President Biden has pardoned 25 individuals, none directly connected to him. Typically, presidents

Clinton signed 140 pardons on January 20, 2001-his final day in office. Many lawmakers are worried about the potential bad precedent for the future.

One way of solving the problem could be to amend the Constitution. Still, it is a lengthy process, and neither party has the number to carry it through in Congress. The critics argue it could set a dangerous precedent and erode public trust in the justice system. Recent Supreme Court rulings have made it more difficult to charge a president for actions taken while in office.

They limit the avenues for holding a president accountable for any potential misuse of the pardon power. After Hunter's clemency, President Biden is considering granting broad pardons to protect his aides and officials. ## Bridging the educational divide through computer-based testing

A successful classroom isn't just about books and resources; it's about creating an environment where students feel valued, heard and empowered to succeed

n populous and diverse countries like India, the Leducational landscape often mirrors the stark contrasts between urban and rural regions. Urban areas benefit from advanced infrastructure and access to extensive educational opportunities, while rural regions often struggle with limited resources and opportunities. This disparity significantly affects students in rural communities, restricting their career prospects and perpetuating cycles of poverty. However, innovative solutions like computer-based testing (CBT) hold the potential to bridge this divide, fostering enhanced employability and socioeconomic progress

Empowering Through Certification: Educational centres play a pivotal role in fostering socioeconomic growth by equipping individuals with skills that lead to employment and entrepreneurship. Online learning initiatives and CBT offer equitable access to quality education, providing rural learners with opportunities comparable to their urban counter-

initiatives by enabling a broader range of courses and certifications, including technical skills like coding and data analysis and soft skills such as communication and leadership.

Certifications that are nationally or globally recognised add value to individuals' skillsets, making them more competitive in the job market. As more people upskill and secure employment, communities experience economic upliftment. Educated individuals often share knowledge within their communities, creating a ripple effect that promotes continuous learning and development.

Addressing Skills Gaps : The demand for tech skills is on parts. CBT enhances these the rise globally. The World traditional testing methods.

Jobs Report 2023 highlights that technology and IT roles constitute 16 of the top 100 rising jobs, reflecting the growing importance of techrelated expertise. Conversely, the Global Talent Shortage report by Manpower Group reveals a significant skills gap, with 77 per cent of employers struggling to find qualified talent. Bridging this gap is critical to meeting current and future market demands,

particularly through IT and tech-focused courses. According to Pearson VUE's 2023 Value of IT Certification Candidate Report, professionals who earned IT certifications gained confidence in their abilities, with 81 per cent feeling empowered to explore new job opportunities. Educational centres with CBT capabilities enable individuals in rural areas to acquire certifications that align with market needs, thereby promoting quality education and employability across the nation.

The Broad Reach of Computer-Based Testing: The flexible nature of CBT offers unique advantages over

Economic Forum's Future of Candidates can choose convenient testing locations and time slots, reducing stress and improving performance. This approach proved invaluable during the COVID-19 pandemic, allowing individuals to take exams remotely. The 2023 Value of IT Certification Report underscores the tangible benefits of certifications: 35 per cent of Indian candidates experienced job promotions, while 37 per cent secured new opportunities within their industry, and 20 per cent transitioned to different fields. Bridging Urban-Rural Disparities: The increasing availability of CBT centres in remote areas is a step toward addressing regional disparities in education and employment. These centres provide a pathway for individuals to upskill, earn recognised certifications, and improve their career prospects. As India continues to expand its CBT infrastructure, the nation moves closer to realising equitable educational opportunities and fostering inclusive socioeconomic growth. #### SYRIAN REBELS CONQUER DAMASCUS

Madam — The manner in which Islamic rebels conquered Syria's capital Damascus and forced President Bashar al-Assad to flee the country is not only surprising, but it may also mark the start of a new era of uncertainty for West Asia as a whole. The excitement with which Syrians welcomed the opposition soldiers demonstrates that Bashar al-Assad has become even more unpopular. His disfavour stemmed from his brutal governance over Syria. Syria has been dealing with insecurity and upheaval for nearly 13 years. Iran has suffered a significant setback with the seizure of Syria by rebel forces. It is dubious that Iran will sit in peace after the demise of the administration it sponsored in Syria.

Even if the rebels win Syria without massive violence, the chances of durable peace are slim because Turkey wants to administer the country its way. Although India's economic ties with Syria have not grown significantly, both countries have joined forces in the battle against terror. Not only that, but Bashar al-Assad has always supported India about Kashmir. Syria has even stated that the elimination of Article 370 in Kashmir is a domestic matter for India and that any country has the right to take the necessary steps to safeguard its residents on its territory. It remains to be seen what kind and how much Syria's posture will alter considering the new circumstances. Indian-Turkish relations have recently improved. While its attitude on Kashmir has softened, India has not attempted to block Turkey's membership in BRICS. Abhijit Roy | Jamshedpur

immediate action marked the success story of the outgoing RBI Governor. Issuing perfunctory warnings and advisories was not his work culture.

The economic impact of demonetisation on trade and business was smoothly handled in his tenure. In such a vast country facing multiple challenges, the new RBI Governor faces the toughest test of the sustaining economy and people expect a daring chief banker who sails against the winds. The new incumbent Revenue Secretary, Sanjay Malhotra, as RBI Governor, knows his job well, as he is already at the helm of economic affairs and is fully conversant about how the economic policies of the government and RBI move and work at ground level. The new RBI Governor faces the trilemma of growth, inflation, and stabilisation of rupees while keeping banks' NPAs low, controlling the mis-selling of health and life insurance policies, maintaining FDI and FPI inflows, and managing the impacts of US-China confrontations. The new US President, Donald Trump, may also throw significant chal-

It's apparent that Rahul Gandhi, Leader of the Opposition in the Lok Sabha, is losing ground as the face of INDIA. There are three Gandhis in Parliament now-with Priyanka being the latest entrant-but this dynastic milestone has not enthused the voters or Congress' allies. **RBI MOOTS FOR BETTER WAGES** 

Madam — The Chief Economic Advisor (CEA) to the Government of India has emphasised the need for better employee compensation growth, especially when India Inc is experiencing record profit growth. With the rising prices of education fees, medical fees, vegetables, grocery items, and daily necessities, there is a strong need to raise the compensation growth of employees, as their salary/wages are their primary source of living.

This downfall in compensation growth is also affecting GDP growth, as employees are controlling their expenditures for survival. Government agencies need to address this issue by implementing policies that promote fair compensation practices for the overall well-being of India.

## **PREPARATION FOR** THE NEXT LIFE

Our journey through birth and death is inevitable, we must therefore detach ourselves

#### AJIT KUMAR BISHNOI

e should do it because evidence is overwhelming that we are eternal souls. We are in a birth and death cycle getting different bodies life after life. What will you say about Shanti Devi's rebirth? She was born in Delhi but recalled details of her past life in Mathura. Her recollections were so compelling that Mahatma Gandhi got interested. He appointed a committee of 15 prominent persons to study the case. They took Shanti Devi to Mathura and she was able to recollect all the relevant details even though she had never been to Mathura in her present life. Dr lan Stevenson, a leading authority on reincarnation, came to India to interview her. He wrote that at least 24 statements of her memories matched verifiable facts

These days TV channels have become interested in the rebirth phenomenon. They are producing evidence from all over the world to confirm the same. Then, the Bhagavad-Geeta - the book of eternal wisdom is full of detailed information about us being souls. I will cite just one verse. 'Just as childhood, youth and old age are changes in the body of this soul, getting another body is a similar change. (2.93) And the ultimate confirmation is God saying it. Isn't He omniscient, who knows past, present and future also?

Having convinced ourselves of this reality, let us see how we can prepare for a transfer or relocation from our present life. There are two main parts. The first one is getting mentally ready. Personally speaking, when the time came for me to go to the USA for higher

studies, I visualised how my life would change for the better in the coming years. I also realised that there will inevitably be many challenges in the new country. The second was to take with me whatever I could to make my life there as comfortable as possible. I took the necessary clothes and a little money, which was allowed at that time. But mainly it was my certificates and what I had learnt by that time. Similar preparations are required for the bodily change,

Rebel forces oust Assad as Damascus falls

analys \$ 07

The fall of Assad's regime signals a new chapter in Syria's tumultuous history, raising critical questions about the country's path to stability

yrian President Bashar al-Assad's government has been fighting rebel groups with the support of Russia, Iran, Lebanese and Hezbollah right from 2011. Within ten days of rebels getting control over northwestern city of Aleppo and further capturing Hama and Homs, the capital Damascus also fell under their control on December 8. President Assad along with his wife and three children fled the country before rebel forces could reach him. He has been granted asy-lum in Moscow. His younger brother was tipped to succeed his father as President, died in a road accident.

He was called back from London, where he was practising ophthalmologist, to succeed his father as President of Syria. In the initial months after taking over the Presidency in the year 2000 he was seen as a reformist and pro-people in sharp contrast to his father Hafez al-Assad's three-decade rule with iron hands. Once pro-democracy protests erupted in 2011, he followed the brutal tactics of his father to crush dissent. The conflict escalated into civil war and he was seen unleashing his military to blast opposition-held territories. All supporters of the Assad regime have considerably weakened their backing on account of the ongoing war they are engaged in. Russian forces have a challenging battle in Ukraine. Owing to the high level of causalities of soldiers in the battle, Russia has withdrawn its forces from Syria partially and is even further recruiting foreign nationals in the force to keep the war going, which has already been continuing for a quarter to three years. Hamas's terror attack on Israel on October 7, 2023 and Israel's response to Gaza opened several dimensions of the West Asia conflict. Iran's supported terror groups like Hezbollah in Lebanon, and Houthis in Yemen have denounced Palestinians suffering in Gaza on account of Israeli bombardment and it opened additional fronts for Israel in the conflict. This has also weakened Iran and Hezbollah to provide adequate support to Assad's regime. In addition, 13 years of Syrian civil war has exhausted the Syrian Army. Owing to the corruption in the bureaucratic and political circle of the Syrian government, and the series of Western sanctions, the economy

has been hardly afloat. Further President Erdogan in Ankara, is facing the heat on account of three million Syrian migrants living in Turkiye and more so because Syria distribution of migrants alleging that his country has illegally occupied Syrian areas along the border.

Syrian areas along the border. There was an option for Assad to join the Arab League last year, but he did not accept making Arab nations also opposed to him. Earlier with the help of Iran and Russia, he had survived the Arab Spring Rebellion against him, which orig-instad in Tunicia in 2011. The part inated in Tunisia in 2011. The next THE CONFLICT question is about the future of Syria. The first day was marked by arsenals, looting of shops and banks, and emptying prisons followed by a night curfew, but the second day saw normalcy slowly returning to the capital and other cities. The main rebel commander al-Golani met Assad's PM Mohammad Jalali and Vice President Faisal Mekdad to install a transitional government in Syria. Further, Golani has announced publicly that they would bring out a list of government officials responsible for torturing the

citizens. In the meantime, there have been air strikes in Syria by Israeli, US and Turkey forces to protect each of their interests. Iran and Russia have suffered major setbacks with

the fall of Assad's government. Both countries have lost their key allies. As Sunni Islamic groups are going to be in control of Syria, Iran a predominantly Shia population is more vulnerable to Israeli attacks. When rebel forces took control of Aleppo about a week earlier, both Iran and Russia could not extend adequate defence leading to the fall of even Damascus. Iran was exposed in recent Israeli direct attacks, and Hezbollah was also decimated, no significant support came from Assad. In recent months, Assad's Syria and Iran could not support each other when exigencies arose. Syria is the only state that had joined Iran's 'Axis of resistance' against the US and Israel. The axis has become weak; even Hezbollah's downfall could not be prevented. Hezbollah has signed a ceasefire deal with Israel ahead of any Gaza deal. The action of the state of Iran and the Iranian Revolutionary Guards Corps (IRGC) to defend Assad did not go well with the people of Iran. It had political and economic costs. The fall of Assad sends a disturbing signal to Iran's supreme leader Ayatollah Khamenei, who now understands that the axis of resis-

tance can no longer protect the allies. Assad's fall has also emboldened opposition groups in Iran. Besides these, women are protesting for their rights.

All these may lead to regime change in Iran too. If the Supreme Leader realigns himself with the US by reviving/ softening its stand on the 2015 nuclear deal, then regime change in Iran can be avoided. The last two weeks of violence that culminated in Assad's fleeing Syria, also saw the Shia population enthusiastically taking measures to secure the tomb of Sayyeda Zainab, the daughter of Hazrat Ali and Fatima and granddaughter of Prophet Muhammad. This holy site signifies great importance for Shia Muslims worldwide. To guarantee the security of this precious shrine, Shias from Iran, Iraq and Pakistan are also moving to Syria. The shrine is located in al-Sitt, south Damascus.

Since 1979 Iranian government has provided financial support for the management of the shrine. Several Shia scholars and celebrities are buried in the shrine and surrounding cemeteries. Since 2012 the town has been under attack from armed militants in neighboring Sunni towns. Many Shia families were driven out of their homes in southern Damascus. Rockets landing on random places was quite common. Sunni Muslims comprise 74 per cent of Syria's population, whereas Shias are only 3per cent. Shias hold quite a strong sentiment for the shrine; the issue can be a potential flash point between the two sects and would also determine the rivalry between rebel groups.

though they are quite different in detail. The first one has to be the mental preparation for such a change. We should accept the fact that such a change is inevitable. And it can be a lot better than our present. Lord Krishna has assured, "Those who have begun their spiritual journey take birth in a family of pure and prosperous." (6.41) Therefore, it is essential that we do so too before our time comes to leave the present body. We must be in the shelter of God at that time by doing spiritual activities.

Surely, we must be following dharma in our activities as far as possible. We should be mainly in the mode of goodness, which is illuminating and free from diseases on account of purity. (14.6) We should be in control of bad emotions like lust, greed, anger, hate, etc. We should have accumulated a lot of good 'karmas" (acts) because this is all we are allowed to take with us.

But we shouldn't put too much pressure on ourselves because we can make improvements gradually only. Whatever, we are presently doing, we should do it better. As the present determines the future, the present has to be safeguarded fully. Are we inclined to make the necessary preparations? We should get started right away at least mentally. It will be such a shame not to do so when we have time to do so. Those wanting to do so are encouraged by God; one will succeed

## Empowering India's solar revolution: Navigating challenges and embracing opportunities

As energy demands are set to double by 2030, addressing these gaps is essential to transforming India's solar aspirations into reality

ndia has been declared as the third-largest energy-L consuming country, thanks to the rising income and improving standards of living. In response to the escalating energy demand, India has set ambitious targets for solar energy capacity, aiming to reach 280 GW by 2030 (the highest among all renewable sources). And owing to the rise in awareness surrounding solar energy solutions, the country has achieved 70.10 GW of solar energy capacity by June 2023, which is 70.1 per cent of the target of 100 GW set in the year preceding. The rising awareness of solar solutions among consumers, particularly rooftop solar solutions, is a notable trend in the solar energy market. This trend has been driven by

PREETI **BAJAJ** 

#### various factors, including technological advancements, innovation, digital revolution to unlock more of the sun's potential and support from the Government. Central Community leaders, particularly in rural and non-metro areas, have also emerged as crucial drivers in promoting the adoption of solar energy solutions. However, despite

this awareness, a significant

ness of the advantages of solar people are increasingly aware energy and its widespread adoption. The adoption rate remains relatively low. Reportedly, the country fell

short of its renewable energy target for 2022 by 32 per cent, with an installed capacity of 119 GW compared to the target of 175 GW. Financial and cost considerations, geograph-

ical limitations, and perception issues further cause a challenge to solar energy adoption in India. To understand the potential consumers, Luminous initiated a large, nationwide survey to delve further into the perceptions, awareness, adoption, and challenges concerning solar energy among respondents in India.

The initial analysis of the surgap exists between the aware- vey data suggests that while respondents do not possess

of alternatives to traditional energy sources, a majority of consumers in India face three primary challenges in their adoption: Accessibility, Skill

shortage, and Perceived cost implication, as discovered in the 'Solar Spectrum of New India' research. For instance, over two-quarters of the respondents (54 per cent) in the 'Solar Spectrum of New India' research rate their knowledge about solar energy solutions as high, however, nearly a quarter of the respondents (24 per cent) say solar energy solutions are inaccessible to them.

In fact, according to the Council on Energy, Environment and Water (CEEW), 59 per cent of

even a basic understanding of solar energy. Therefore, while awareness is spreading, concerns linger about the accessibility of solar infrastructure. Another challenge that came to the fore, is the shortage of specialised skills in the solar energy sector.

The boost in the solar energy sector is facing a shortage of trained personnel for the effective implementation and maintenance of solar infra-

structure. According to the COO of the Skill Council of Green Jobs, there will be a requirement of 30,000 skill-certified human resources in the manufacturing segment by the end of FY 2024, and only 10,000 skill-cer-tified jobs will be added by the

end of this financial year. As per the 'Solar Spectrum of New India' survey data also, despite the acknowledgement of skill requirements, nearly half of the respondents (45 per cent) believe that skilled labour for implementing solar energy solutions is unavailable in their area, suggesting a mismatch between demand and supply of qualified personnel. While the government has introduced various policies and incentives to promote

solar adoption- including

financial incentives, tax advantages, subsidies for solar power generation, net-metering regulations, basic customs duty, Production Linked Incentive (PLI), and the Aatmanirbhar campaign, perceived costs remain a significant deterrent for many individuals. Thus, the Solar Spectrum of New India presents both challenges and opportunities on the path towards a sustainable energy future. By addressing issues of accessibility, skill shortages, and perceived costs,

stakeholders can work together to accelerate solar adoption trends and pave the way for a brighter, cleaner future for India. It's also imperative because the demand for reliable power in

urban and rural areas will

double by 2030. This surge in

GW and 1,907.8 BUs for the year 2026-27 and 366.4 GW and 2,473.8 BUs for 2031-32, respectively. However, the absence of power line infrastructure and distribution utilities' lag in supplying power around the clock indicates the need for significant changes in existing energy infrastructure and the availability of alternate sources.

## Ex-defense chief in South Korea tried to kill himself after being arrested over martial law Iran blames US, Israel

#### AP 📕 SEOUL (SOUTH KOREA)

South Korea's previous defence minister was stopped from attempting suicide while in detention over last week's martial law declaration, officials said Wednesday, as President Yoon Suk Yeol's office resisted a police attempt to search the compound.

The main liberal opposition Democratic Party plans to introduce a new motion to impeach Yoon for his December 3 declaration that imposed martial law in South Korea for the first time in more than four decades.

Its first impeachment attempt against Yoon last Saturday failed after ruling party law-makers boycotted the vote. The party said it plans to submit the new motion on Thursday to set up a vote on Saturday

South Korean police said they sent officers to search Yoon's office on Wednesday to look for any evidence related to the martial law introduction. But investigators failed to enter the office as of Wednesday evening, about six hours after their arrival, senior police officer Lee Ho-young said in parliament.

Some observers earlier said that the presidential security service won't likely permit searches of Yoon's office, citing a law that prohibits searches of sites with state secrets without approval from those in charge of those areas.

Yoon on Saturday apologised over the martial law decree, saying that he won't avoid legal or political responsibility for it. He said he would leave it to his party to chart a course through the country's political turmoil, "including matters related to my term in office."

The leader of Yoon's ruling party later vowed to arrange the president's stable exit from office, saying the party will Korean political chaos and coordinate with Cabinet members over state affairs and that Yoon will be sidelined from duties.

The comments were criticised as unrealistic and unconstitutional, but caused widespread questions about who is in charge of South Korea and its military at a time of heightened tensions with North Korea. The Justice Ministry on Tuesday banned Yoon from leaving the country as he faces investigations.

Vice Defense Minister Kim Seon Ho reiterated Wednesday that Yoon remains in charge of the military. But Yoon hasn't been involved in any major official activities since lifting martial law, except for accepting resignation offers by officials involved in the martial law case and appointing the head for the country's Truth and Reconciliation Commission. A view from North Korea: A

Wednesday article from the North's state news agency reported about the Šouth

protests triggered by Yoon's martial law decree. The report mostly attempted to explain the South Korean events, though it called Yoon "a traitor" and his military "gangsters."

Many experts say North Korea is sensitive to the domestic spread of news on major antigovernment protests in foreign countries, because its own people have no official access to international news and could be affected by such events. The US State Department said Monday that the US-South Korean alliance remains "ironclad" and that Washington is committed to the peace and security of the Korean

Peninsula In his martial law announcement, the conservative Yoon stressed a need to rebuild the country by eliminating "shameless North Korea followers and anti-state forces," a reference to his liberal rivals who control parliament. Since taking office in 2022, Yoon has had nearconstant friction with the

Democratic Party, which introduced motions to impeach some of his top officials and launched a political offensive over scandals involving Yoon and his wife.

Opposition parties and many experts say the martial law decree was unconstitutional. They say a president is by law allowed to declare martial law only during wartime or similar emergency situations, but South Korea wasn't in such a predicament.

# **Israeli strikes on Gaza** kill at least 29

#### AP 📕 DEIR AL-BALAH (GAZA STRIP)

Israeli strikes on the Gaza Strip killed at least 29 people overnight and into Wednesday, including one that hit a home where displaced people were sheltering in the isolated north, killing 19, according to Palestinian medical officials. The Israel-Hamas war has raged on with no end in sight, even after Israel reached a ceasefire with Lebanon's Hezbollah and attention shifted to the overthrow of Svrian President Bashar Assad. Both the outgoing and incoming US administrations have said they hope to end the war before the inauguration but months of ceasefire talks have repeatedly stalled.

The strike that killed 19 occurred in the northern town of Beit Lahiya near the border with Israel, according to the nearby Kamal Adwan Hospital, which received the bodies. Hospital records show that a family of eight was among those killed, including four children, their parents and two grandparents

The hospital said another strike Israel has been waging a near its entrance on Wednesday killed a woman renewed offensive against Hamas in Gaza's isolated and

and her two children. Another strike in the built-up heavily destroyed north since early tral Gaza killed at least seven people, according to the Awda Hospital. The dead included two children, their parents and three relatives, it said. There was no immediate comment from the Israeli military. The military says it tries to avoid harming civilians and accuses militants of hiding among them, putting their lives in danger. Militants in central Gaza meanwhile fired four projectiles into Israel on Wednesday, two of which were intercepted, the

military said. The other two fell in open areas, and there were

no reports of casualties. The military ordered the evacuation of a five-block area of the built-up Maghazi refugee camp in central Gaza, saying the rockets had been fired from there. The orders indicated that Israel would soon carry out strikes in the area.

The war began when Hamasled militants stormed into Israel on October 7, 2023, killing some 1,200 people, mostly civilians, and abducting around 250 people, including children and older adults. Around 100 hostages are still inside Gaza, at least a third of whom are believed to be dead.

Israel's retaliatory offensive has killed over 44,000 Palestinians in Gaza, according to local health officials. They say women and children make up more than half the dead but do not distinguish between fighters and civilians in their count. Israel says it has killed over 17,000 militants, without providing evidence.

Thousands more Palestinians have gone missing during the war, some after encounters with Israeli troops.

The Israeli military says it allows in enough humanitarian aid and blames UN agencies for not distributing it, saying large amounts of aid have accumulated just inside Gaza's bor-ders. UN officials say Israeli restrictions, the breakdown of law and order and ongoing fighting make it difficult to access the aid and distribute it, and have repeatedly called for a ceasefire.

## Aid to N Gaza blocked for last 2 months: UN AP UNITED NATIONS

Tumanitarian aid to North HGaza, where Israel launched a ground offensive on October 6. has largely been blocked for the past 66 days, the United Nations has said. That has left between 65,000 and 75,000 Palestinians without access to food, water, electricity or health care, according to the world body.

In the north, Israel has continued its siege on Beit Lahiya, Beit Hanoun and Jabaliya with Palestinians living there largely denied aid, the UN Office for the Coordination of Humanitarian Affairs, known as OCHA, said on Tuesday. Recently, it said, about 5,500 people were forcibly displaced from three schools in Beit

## Justin Trudeau PTI WASHINGTON

US President-elect Donald Crump took a jab at Canadian Prime Minister Justin Trudeau on the social media platform Truth Social, describing him as the "Governor of Canada" Trudeau flew to Mar-a-Lago last week for a dinner with Trump to discuss the President-elect's warning to impose a 25 per cent tariff on Canada if its government failed to stop the flow of illegal immigrants and illicit drugs from the country into the United States.

In a post on Truth Social mocking the Canadian prime minis-ter, Trump said, "It was a pleasure to have dinner the other night with Governor Justin Trudeau of the Great State of Canada."

During the dinner, when Trudeau said that such a tariff would destroy the Canadian economy, the President-elect reportedly told him to make Canada the 51st state of the United States. Trump repeated this in an interview with NBC News over the weekend and again in the post on Tuesday. I look forward to seeing the Governor again soon so that we may continue our in depth talks on Tariffs and Trade, the results of which will be truly spectacular for all! DJT," Trump said in his

As Khan supporters inched towards the heavily barricaded D-Chowk, the police and security forces used intense teargas shelling to disperse the protesters.

## Man accused of killing UnitedHealthcare's CEO shouts on way to courthouse, fights extradition

#### AP ALTOONA (US)

The man charged with mur-der in the killing of the CEO of UnitedHealthcare made it clear he wasn't going to make things easy on authorities, shouting unintelligibly and writhing in the grip of sheriff's deputies as he was led into court and then objecting to being brought to New York to face trial. The displays of resistance

Tuesday weren't expected to significantly delay legal pro-ceedings for Luigi Nicholas Mangione, who was charged in last week's Manhattan killing of Brian Thompson, the leader of the United States' largest medical insurance company. Little new information has come out about possible motivation, though writings found in Mangione's possession hinted at a vague hatred of corporate greed. In his first public words since he was arrested at a McDonald's in Pennsylvania after a five-day search, the 26year-old Ivy League graduate from a prominent Maryland real estate family emerged from a patrol car shouting about an "insult to the intelligence of the American people" while deputies pushed him inside a

courthouse A law enforcement bulletin obtained by The Associated Press said that at the time of his arrest, Mangione was carrying a handwritten document expressing anger with what he called "parasitic" health insurance companies and a disdain for corporate greed and power. He wrote that the US has the

most expensive health care system in the world and that profits of major corporations continue to rise while "our life expectancy" does not, according to the bulletin. Mangione remained jailed in

Pennsylvania, where he was initially charged with possession of an unlicensed firearm, forgery and providing false identification to police. Manhattan prosecutors were

beginning to take steps to bring Mangione to New York, but at a brief hearing Tuesday, defence lawyer Thomas Dickey said his client will not waive extradition and instead wants a hearing on the issue. Mangione was denied bail after claimed to have acted alone.

prosecutors said he was too dangerous to be released. He mostly stared straight ahead at the hearing, occasionally

looking at papers, rocking in his chair or looking back at the gallery. "You can't rush to judgment in this case or any case Dickey said afterward. "He's presumed innocent. Let's not forget that?

Mangione was arrested in Altoona, Pennsylvania, about 230 miles (about 370 kilometres) west of New York City, after a McDonald's customer recognised him and notified an employee, authorities said.

New York police officials have said Mangione was carrying a gun like the one used to kill Thompson and the same fake ID the suspected shooter had used to check into a New York hostel, along with a passport and other fraudulent IDs.

A law enforcement official who wasn't authorised to discuss the investigation publicly and spoke with The Associated Press on condition of anonymity said a three-page, handwritten document found with Mangione included a line in which he

Centre further tightens wheat stock limit for wholesalers, retailers and processors

#### PTI NEW DELHI

The government on Wednesday further tightened wheat stock holding norms for wholesalers, small and big chain retailers, and processors to curb hoarding and check price rise.

"As part of continuous efforts to moderate prices of wheat, the central government has decided to revise the wheat stock limit applicable until 31st March 2025," the food ministry said in a statement. According to the revised norms, wholesalers are now allowed to maintain wheat stock up to 1,000 tonne instead of 2,000 tonne, retailer can hold 5 tonne for each outlet instead of 10 tonne, while big chain retailer can hold 5 tonne for each outlet instead of 10 tonne earlier.

Processors will be allowed to maintain 50 per cent instead of

60 per cent of their monthly installed capacity multiplied by the remaining months till April 2025.

The stock limits on wheat were first imposed on June 24 and later revised to tighten the norms on September 9 in order to manage the overall food security and to prevent hoarding and unscrupulous speculation. The ministry said all wheat

stocking entities are required to register on the wheat stock portal limit

(https://evegoils.Nic.In/wsp/lo gin) and update the stock position every Friday. If the stocks held by entities

are higher than the prescribed limit, they should bring the quantity to the prescribed stock limits within 15 days of the issue of the notification. Any entity which is found to

have not registered on the portal or violates the stock limits will be subject to suitable punitive action under the Essential Commodities Act,1955.

The Asian Development Bank (ADB) on Wednesday lowered India's economic growth forecast to 6.5 per cent for the current financial year from its earlier estimate of 7 per cent due to lower-than-expected growth in private investment and housing demand.

The multilateral development bank has also lowered India's growth forecast for 2025-26 financial year.

Changes in US trade, fiscal, and immigration policies could dent growth and add to inflation in developing Asia and the Pacific, according to the latest edition of Asian Outlook Development (ADO)

The report also said Asia and the Pacific's economies are projected to grow 4.9 per cent in 2024, slightly below ADB's September forecast of 5 per cent.

"India's outlook is adjusted downward from 7 per cent to 6.5 per cent for this year, and from 7.2 per cent to  $\dot{7}$  per cent next year, due to lower-thanexpected growth in private investment and housing demand," ADB said.

Last week, the Reserve Bank also significantly lowered the growth projection for current fiscal year to 6.6 per cent from 7.2 per cent earlier and hiked the inflation forecast to 4.8 per cent in view of slowdown economic activity as well as stubborn food prices. # FIFA prepares to give host of 2034 World Cup to Saudi Arabia

#### AP ZURICH

S audi Arabia will be confirmed by FIFA as host of the men's soccer 2034 World Cup on Wednesday, giving the oil-rich kingdom its biggest prize yet for massive spending on global sports driven by Crown Prince Mohammed bin Salman. The decision completes a mostly opaque 15-month bid process which FIFA president Gianni Infantino helped steer toward Saudi Arabia without a rival candidate, without taking questions, and which human rights groups warn will put the lives of migrant workers at risk. FIFA and Saudi officials say hosting the 2034 tournament can accelerate change, including more freedoms and rights for women.

Since then Australia have lost to the West Indies at the 'fortress' and no wonder the players prefer to play at the Gabba at the start of the summer and not at end of it. rating points, one more than Root, and joins Indian legend Sachin Tendulkar with the equal 34th highest rating of all time for Test batters.

Root had held on to the top spot since July this year when he displaced former New Zealand skipper Kane Williamson from the No.1 position.

Brook scored 123 and 55 in England's massive 323-run victory over New Zealand,

## Alcaraz has best of Nadal, Djokovic, Federer, but he can't do what they did: Agassi

#### PTI BENGALURU

egendary Andre Agassi said Carlos Legendary Anure Against sure Alcaraz combines the best qualities of Novak Djokovic, Roger Federer and Rafael Nadal but cautioned the tennis world against expecting the Spaniard to repeat the incredible feats of the 'Fab Three.'

Federer, Nadal and Djokovic have a combined tally of 66 Grand Slams and Alcaraz, 21, has so far bagged four majors.

"I'm not a genius and I don't have a crystal ball. What I can tell you is Alcaraz defends like Novak, has power and spin like Nadal and has hands and finesse like Federer," said Agassi during a talk session during the Marathon Mindset at the TiE Global Summit.

Agassi, himself an eight-time Slam champion, then outlined the reason to not place a massive load of expectations on Alcaraz.

"Just because he has the best of all imagine.

those three doesn't mean he can do what they did because there're so many other parts to the game, which mean decision-making, injuries, you know, luck," he said.

At 37, Djokovic too is closer to his retirement and Agassi said the Serbian will now find it even tougher to remain competitive in the absence of the retired Nadal and Federer.

"He's already done so much, so long, and it's hard to imagine longer. I think he'll run out of the energy for it more than the capability of it, I would "It cannot be easy, especially when the "I think there's an asset to their history people you came to the dance with have left?

The American explained his thoughts further.

'When Pete (Sampras) retired, it was a blow to me. It set me back a little bit. It made me have to rediscover my inspirations on some level.

"And he's (Djokovic) lost the guys that he's made history with. So, it's probably emotionally going to get tougher and tougher quickly, but I would never bet against him. Bet against him at your own peril," said Agassi

To prolong his career, Djokovic has hired former British player Andy Murray as his coach, and Agassi remained curious about the future of their alliance.

"They've been fierce rivals on court, and now Murray will be coaching Djokovic. Well, in any coaching student relationship, you need trust. Trust can take time.

as competitors, but any success of a relationship is based on (9:07) complete buy-in?

Agassi backs American players The 54-year-old from Las Vegas said the new generation of American players have the ability to bring the country back to the top layers of the tennis world, like it was in the 80s and 90s.

"I was the first one to turn pro. I made (Michael) Chang, Pete, (Jim) Courier believe they could do it. And then Chang was the first one to win (Grand Slam), Pete believed that he could win,

and made Courier believe that he could win, and then Courier said, well, I can not only win, I can be number one in the world.

'And I was saying, wait a second, what the hell about me? So we all helped each other in a lot of ways, and I think these Americans now are starting to prove to the other Americans that not only they can do it," he detailed.
