# Winter haze shrouds National Capital

### RAJESH KUMAR - NEW DEI HI

bitter cold wave, and Adense fog gripped Delhi-National Capital Region on Tuesday, with air quality plunging back into the 'severe' category and drastically reducing visibility across the city. The Air Quality Index (AQI) of Delhi stood at 433 while the minimum temperature was 5.9 degrees Celsius, two notches below normal while the maximum temperature settled at 24.4 degrees Celsius, two notches above normal. The AQI was expected to remain in the 'severe' category for the next two days. Of Delhi's 35 monitoring

stations, 28 recorded the air quality in the 'severe' category, with some breaching the 450 mark that is classified as 'severe plus'. Monitoring stations in Mandir Marg, Jahangirpuri, the season is over in Punjab and Haryana.PM2.5 remained

Narela. Nehru Patparganj, Punjabi Bagh, Rohini, ITO, Jawaharlal Nehru Stadium, DTU, Major Dhyan Chand National Stadium, Mandir Marg, Pusa, Shadipur recorded the AQI in the 'severe' category.

The AQI was in the 'severe plus' category in Alipur, Anand Vihar, Ashok Vihar, Bawana, Burari, CRRI Mathura Road, North Campus, Okhla Phase 2, Sirifort, Sonia Vihar and Vivek Vihar. According to India Meteorological Department meteorological (IMD), conditions are likely to be unfavourable for effective dispersion of pollutants". The major source of Delhi's pollution was vehicular emission, contributing 18.8 per cent of PM2.5. There was no contribution of stubble burning to Delhi's pollution as

the primary pollutant, with levels recorded at 252 micrograms per cubic metre at 4 pm.

Meanwhile, haze and cold wave conditions have caused severe disruption across the region. Thick fog enveloped various parts of the district, severely reduced visibility and created challenges for commuters. According to the IMD the national capital registered a minimum temperature of 4.5 degrees Celsius at 5.30 am, which later settled at an average of 5.9 degree Celsius. The temperature in certain areas of Delhi went even below 4.5 Celsius. The degrees minimum temperature in Pusa was recorded at 3.5 degrees Celsius, while in Ayanagar, the minimum temperature was recorded at 4 degrees Celsius.At Najafgarh, the minimum temperature was

slightly higher, at 6.2 degrees Celsius.

As temperatures dropped further and fog reduced visibility, the Delhi airport administration implemented low visibility procedures on Tuesday. Moderate fog fog reported at Safdarjung airport. Safdarjung airport recorded lowest visibility 350m at 8 am, which improved thereafter becoming 400m at 8.30 am. Palam airport recorded lowest visibility 600 m during 8 am hours to 9 am hours which improved thereafter becoming 700m at 9,30 am. However, the Indira Gandhi

International Airport (IGIA) authority clarified that flight operations were not affected by the current conditions. A passenger advisory was issued, urging travelers to check with their respective airlines for the latest flight updates. "Low visibility procedures are in

place at Delhi airport. Flight operations remain normal. Passengers are advised to contact their airline for updated flight details," the airport administration posted on X.

Delhi-NCR Meanwhile, schools on Tuesday switched to the hybrid mode of conducting classes following the re-imposition of antipollution measures under the Stage IV of the Graded Action Plan Response (GRAP). According to the revised GRAP schedule, classes for students in grades VI-IX and XI in Delhi, Faridabad, Gurugram, Ghaziabad and Gautam Buddh Nagar must operate in hybrid mode (physical and online) under Stage IV. However, students of class X and XII have to attend school in-person.

## You are responsible for the mess: **SC tells Greater Noida Authority**

### PIONEER NEWS SERVICE NEW DELHI

Considering the plight of the hassled homebuyers, the Supreme Court on Tuesday asked the Greater Noida Industrial Development Authority (GNIDA) to submit a for proposal grievance redressal, and imposed Rs 5 lakh cost on it for failing to file a timely response.

A Bench comprising Chief Justice Sanjiv Khanna and Justice Sanjay Kumar expressed dissatisfaction over the approach of GNIDA and said, "You are responsible for the mess. Of course, developers made money from the homebuyers. But that does not condone your acts." The Bench said it may order a CBI probe into the whole "mess" if the GNIDA did not come up with a plan to redress the grievances of the homebuyers. "You come up with a plan in 10 days. otherwise we will order a CBI investigation... You will have to ensure that interests of homebuyers are safeguarded. You are also part of the problem. You allowed this mess to be created," the CJI said.

The Bench suggested the GNIDA to take over the entire land, develop the projects and give the flats to the homebuyers. Seeking a detailed affidavit from GNIDA, the Bench asked it to provide information including the date of allotment of the land and the date of execution of the lease deeds in favour of the private

The idea of switching to Computer Based Test (CBT) mode for NEET is not new and has been deliberated several times before. However, came following the paper leak controversy earlier this year. In the line of fire over alleged irregularities in NEET and PhD entrance NET, the Centre had in July set up the panel to ensure transparent, smooth and fair conduct of examinations by NTA. According to the high-level panel headed by former ISRO Chief R Radhakrishnan multi-stage testing for NEET-UG could be a viable possibility that needs to be followed up. "An acceptable framework with thresholds and test objectives of scoring and ranking at each stage, and number of attempts etc. May be evolved," the panel has recommended in its report. A DIGI-EXAM system to check impersonation, multistage and multi-session testing, test centre allocation policy, setting up secured test centres in each district and mobile testing centres in rural and remote areas are among the recommendations made by the high-level panel.

PARVESH SHARMA GURUGRAM

The Gurugram Traffic police has issued a challan of Rs 15,500 against Bollywood rapper Badshah while en route to Punjabi singer Karan Aujla's concert in Gurugram for driving on the wrong side of the road. The singer was reportedly riding a Mahindra Thar to reach Karan Aujla's concert in Gurugram on December 15, of which he was a part.

It is being said that the singer's convoy, comprising three cars, was reportedly driving on the wrong side of the road and disobeyed traffic norms, this led to outrage on social media.

However, it is being said that the vehicle did not belong to the rapper and was registered in the name of a youth from Panipat. After the post went viral, Gurugram traffic police took notice and issued a challan.

"3 vehicles of Punjabi singer Karan Aujla's convoy are going on the wrong side towards Airia Mall, and the bouncers are also misbehaving with the people, but Gurugram police are sleeping," an X user wrote

To this, Gurugram police replied, "Challan has been generated on 16.12.2024 against wrong side driving according to MV Act." "A challan of Rs 15,500 has been issued against one vehicle remaining two of the convoy are being identified. Soon fines under the MV (Motor Vehicle) Act 2019 will be issued against them as well," said a traffic police officer on the condition of anonymity.

## Day 22 of Hunger Strike: Dallewal's Health Worsening; Farmers Refuse Talks with SC Panel

### MONIKA MALIK **–** CHANDIGARH

The ongoing farmers' protest took a sharp turn on Tuesday as the farmers rejected any engagement with the Supreme Court-appointed committee, insisting that dis-cussions would be held only with the Central Government. The decision came as the health of farmer leader Jagjit Singh Dallewal, who has been on an indefinite hunger strike for 22 days demanding a legal guarantee on Minimum Support Price (MSP), has worsened to the critical levels. Adding to the rising tension, farmer unions have announced to hold a statewide 'Rail Roko' agitation on Wednesday (December 18).

The unrest has intensified at the Shambhu border, where clashes with the Haryana Police, in the recent past, left over 40 farmers injured while they were making attempts to cross the border proceeding towards Delhi.

The farmers' agitation has also reached a critical juncture as the Supreme Court is all set to hear two pivotal petitions on Wednesday (December 18) one, seeking the reopening of the Shambhu border, blocked for over 10 months; and another, addressing Dallewal's alarming health condition.

Despite the Apex Court's intervention and the establishment of a mediation commit-

tee, farmers have expressed disillusionment, accusing the panel of insensitivity and lack of concrete action.

### Farmers' Firm Stand Against talks with SC Panel

In a strongly-worded letter addressed to the SC committee head Nawab Singh, farmer leader Dallewal and his team outlined their reasons for refusing to engage in talks. The letter, penned by the Sanyukt Kisan Morcha (non-political) and Kisan Majdoor Morcha (KMM) amid its leader Dallewal's hunger strike, highlighted four major grievances of the farmers.

Dallewal, in his two-page letter, reminded the committee of his 22-day hunger strike, initiated on November 26 at the Khanauri border, underlining the deteriorating medical updates shared with them. "Despite my worsening condition, the committee made no efforts to address my concerns or visit the protest site," said Dallewal.

The letter also condemned police brutality against farmers attempting, thrice, peaceful march at the Shambhu border. Over 40 farmers were injured in the three separate incidents. The letter accused the panel of neglecting their responsibility to ensure fair treatment and dia-

trust, he added. Lastly, the letter unequivocally stated that future talks would only occur with the Central Government, Farmers expressed disappointment over the Committee's "insensitivity", emphasizing that their focus remains on achieving justice and tangible results, not on symbolic gestures.

### **Dallewal's Worsening** Health Sparks Alarm

As Dallewal's hunger strike entered its 22nd day, his condition has become precarious, with alarming medical reports raising fears of irreversible damage. A medical bulletin issued by a team of doctors at the protest site revealed severe dehydration, muscle weakness, and dangerously low blood pressure. Doctors warned that

his organs, including the liver and kidneys, are showing signs of strain, and any further delay in medical intervention could prove fatal Dr Sukhman, leading the

medical team monitoring Dallewal, expressed grave concerns, noting that his recovery

Dallewal also criticized the might still be challenging even

if the hunger strike ends immediately. "His body has weakened significantly, and the risk of a silent heart attack is high. We are urging immediate medical care," the doctor stated.

Despite the medical warnings, Dallewal has shown no signs of relenting, reinforcing his commitment to the farmers' cause. Farmer unions, while supporting his resolve, have urged the government to act swiftly to prevent a tragedy. "The Government will bear full responsibility if anything happens to Dallewal," warned fellow leader and KMM coordinator Sarwan Singh Pandher.

### Patiala DC, SSP Visit Dallewal

Patiala Deputy Commissioner Dr Preeti Yadav and SSP Nanak Singh visited the border protest site on Tuesday to check on farmer leader Dallewal. Concerned about his health, doctors have restricted public access to Dallewal's room due to increased risk of infection.

To allow supporters to see him safely, Dallewal is being shifted to a glass cabin. The Deputy Commissioner and SSP entered his room wearing masks and spent some time speaking with him. Dallewal's deteriorating health has drawn widespread attention, adding urgency to his demands.

## 15 LAKH PEOPLE REACHED DE-ADDICTION CENTERS IN 5 YEARS FOR DRUG TREATMENT, ALLEGES BHUPINDER HOODA

Chandigarh: Former Chief Minister Bhupinder Singh Hooda on Tuesday alleged that the ruling BJP Government has turned Haryana, a land of milk and curd, into a hub of drugs, opium, synthetic drugs, heroin, brown sugar, smack, hashish, ganja, cocaine, bhang and sulpha. "Ever since BJP has come to power in the state, drug dealers have been having a field day and they have fearlessly spread their network all over the state. Today, drugs have reached every village, street and locality of the state," he stated. Senior Congress leader said that the extent to which drug addiction has increased in the state can be gauged from the fact that in the last 5 years, about 15 lakh people from different districts of the state have reached the OPDs and de-addiction centres of government hospitals. He said that the figure can be many times bigger than this as lakhs of people trapped in the quagmire of drug addiction do not come forward for treatment and ruin their

### ORGANISE TRADE FAIRS AT DISTRICT LEVEL, HARYANA CS TELLS OFFICIALS

Chandigarh: Haryana Chief Secretary Vivek Joshi on Tuesday directed the Trade Fair Authority of Haryana (TFAH) to explore opportunities for organizing trade fairs at the state level in collaboration with foreign countries, with support from the Ministry of External Affairs (MEA). These trade fairs will showcase the cuisine, culture, and products of the partner countries, alongside the products manufactured by Haryana's local industries. Presiding over the 35th Governing Body Meeting of the HTFA here in Chandigarh, Joshi, who also serves as the Chairman of the Trade Fair Authority of Haryana, emphasized the need to boost local industries. He directed officials to develop a comprehensive plan for organizing district-level trade fairs to provide crucial platforms for local artisans and traders to market and sell their products. Joshi also stressed the importance of utilizing these events to promote various central and state government schemes, ensuring the public is made aware of their benefits. He instructed officials to submit a detailed report on the revenue generated, employment opportunities created and the footfall recorded at these trade fairs.

pre-dawn explosion rocked Athe Islamabad Police Station in Amritsar on Tuesday reigniting concerns over security threats targeting law enforcement establishments in Punjab. The incident, which occurred at around 3:15 am, has been linked to gangsters and pro-Khalistan elements, with gangster Jeewan Fauji claiming responsibility in a widely circulated audio message on social media.

Punjab DGP Gaurav Yadav, who visited the site hours after the blast, confirmed the attack and assured the public of a comprehensive investigation. He emphasized the importance of leveraging both human and technical intelligence to identify and apprehend the perpetrators. "This act of violence is not just an attack on the police but a challenge to the rule of law high-level meeting with senior police officials in Amritsar. ### Strengthening Security Measures

In response to the escalating threats, DGP Yadav has directed law enforcement to adopt a multi-pronged approach to counter-terrorism. During his visit to Amritsar, Yadav chaired a strategy session with officers from border districts, emphasizing the need for scientific investigation methods, use of forensic tools, and a focus on organized crime. DGP Yadav also highlighted the significance of community cooperation in combatting such threats. ## TEWARI RAISES ISSUE OF BAN ON SHARE WISE PROPERTY IN CHANDIGARH IN LOK SABHA

CHANDIGARH: Senior Congress leader and Chandigarh MP Manish Tewari on Tuesday raised the issue of ban on share wise property in Chandigarh in Lok Sabha. When the Supreme Court Judgement does not explicitly bar the sale or sharewise sale of Property why has the Chandigarh Administration banned it? He said, rather than giving a straight answer, the Government unfortunately chose to hide behind the doctrine of sub judice. The rule of sub judice was there for Jury Trials, he pointed out while observing, in any case if the Government implements the letter of the Supreme Court Judgment the other legal proceedings will automatically abate. Tewari had asked whether it is correct that the Supreme Court judgment does not explicitly ban share-wise property sales in Chandigarh. He also asked whether the Government was aware that many Chandigarh residents with property shares cannot sell except to co-owners, devaluing their assets and causing financial hardship for urgent needs like medical treatment or family events. Tewari had also asked for the reasons as to why has the Chandigarh Administration not rescinded the February 9, 2023 notification or sought Supreme Court clarification on whether the January 10, 2023 judgment prohibits share-wise property sales, reasons there for.

Haryana Chief Minister Nayab Singh Saini on Tuesday said the state government is taking initiatives to conserve endangered species of birds and animals.

Speaking at a function after releasing 25 vultures at the Jatayu Conservation Center in Pinjore, the Chief Minister said that the conservation and promotion of nature is the responsibility of every individual as deforestation has led to a shortage of shelter for animals and birds. Every person should commit to planting as many trees as possible and contributing to environmental conservation efforts, he added. The Chief Minister said that every living being, whether in the sky, water, or on land, plays a vital role in maintaining the balance of nature. Environment, Forests and Wildlife Minister Rao Nabir Singh was also present on this occasion. In line with these efforts,

the state government has given special attention to the protection of the endangered vulture species. To support this initiative, a Jatayu conservation and breeding center was established in Pinjore. Currently, the center is home to 378 vultures.

Saini said that in the 1990s, the vulture population was in the crores, but it gradually decreased to lakhs. The primary cause of this decline was

the use of diclofenac injections in dairy animals. When vultures consumed the carcasses of these animals, the residual effects of the drug began to harm the vultures, pushing the

species to the brink of extinction, he added. He said that for vulture conservation, the Bombay Natural History Society entered into an agreement with the

Haryana government and took on the mission of increasing the vulture population in Pinjore, Haryana, through both natural and artificial breeding methods. "Today, this center is not only the largest of its kind in the country but also in Asia. The center houses 97 whitebacked vultures, 219 longbeaked vultures, and 62 thinbeaked vultures.

As of November 2024, a total of 404 chicks from these species have been born at the center. Today, 25 white-backed vultures were released into the open sky. The center is equipped with 8 nursery aviaries, 6 colony aviaries, 8 holding aviaries, 2 display

aviaries, 4 hospital aviaries, 8 breeding aviaries, 1 green aviary, and 1 release aviary, from which 25 vultures were released," he added.

The Chief Minister praised the efforts of the Jatayu Conservation Breeding Center team, urging them to extend their conservation work to Goriya sparrows as well. He assured that the government would provide full support for this initiative. He also mentioned that a Pakshi Niwas had been inaugurated on Monday at the Mata Mansa Devi Complex. During the event, a short film showcasing the Piniore Vulture Reserve and the Jatavu Conservation Breeding Center was also screened.

These activities are conducted with the support of 1,522 Special Police Officers (SPOs) who are overseeing the programs across the state. During these events,

the youth are not only encouraged to stay away from drugs but are also educated about their harmful effects. Through these sports activities, a total of 2,27,458 youth in Haryana have been engaged so far. In addition, district-level competitions are held periodically to ensure that the youth remain physically

> The DGP further said that the anti-drug campaign led by the State Police is beginning to show positive results, with an increasing number of people participating across the State. A recent example of this success was seen in Charkhi Dadri district, where the panchayats of nine villages have turned the initiative into a people's movement. These villages have not only declared themselves drugfree but have also put up signs at their entrances proclaiming, "Hamara Gaon Nasha Mukt Hai" (Our Village is Drug-Free). The villagers are actively working to ensure that no youth falls victim to drugs and that no drug-related activities, including buying and selling, occur in the village, he added.

# A timely assurance

Sri Lanka assures New Delhi that it will not permit anybody to use its territory to threaten India's security

In what must come as music to the ears of the Indian government, the Sri Lankan President has said that his country will not allow anyone to use its territory to threaten India's security. This assurance comes at a time when China is aggressively pursuing 'Mission Indian Ocean' - which targets India. In a joint statement issued Sri Lankan President Anura Kumara Dissanayake made Colombo's position clear during his dialogue with Indian Prime Minister Narendra Modi in New Delhi. This assurance is seen as a critical development in India-Sri Lanka relations, especially given China's use of Sri Lanka's Hambantota Port for docking its naval surveillance and spy ships, including the ballistic missile tracking ship Yuan Wang 5. China's growing footprint in the Indian Ocean has raised red flags for New Delhi. The Hambantota Port, now under a 99-year lease to China following Sri Lanka's inability to service its debt, has become a hub for Chinese naval operations. Over the past two years, Beijing has stationed the Yuan Wang

5, a 25,000-tonne satellite and missile tracking ship, at Hambantota multiple times. This vessel, equipped with advanced tracking and communication systems, has been closely monitoring satellite and missile activities in the region, creating strategic challenges for India. In 2022, Sri Lanka briefly delayed the docking of Yuan Wang 5 following Indian concerns but eventually allowed the vessel to dock under the guise of 'replenishment.' Since then, Chinese surveillance ships have regularly patrolled the Indian Ocean, adding to India's apprehensions about Beijing's strategic intentions in the region. The agreement between India and Sri Lanka ensures that Sri Lankan territory, including its waters,

will not be used in any manner that could harm India's security or regional peace. This is a welcome relief for New Delhi, which views such commitments as crucial for maintaining stability in the Indian Ocean Region. This of course hasn't happened overnight. India's steadfast support for Sri Lanka during its economic crisis in 2022 has further solidified the bond between the two nations. President Dissanayake expressed gratitude for India's timely assistance, which was instrumental in stabilising Sri Lanka's economy during one of its most challenging periods. As far as China is concerned it has been courting Sri Lanka for the sole purpose of encircling India and getting a foothold in Indian Ocean. China's influence in Sri Lanka has grown significantly, particularly after Colombo defaulted on its \$1.7 billion loan for the Hambantota Port project. India has consistently raised concerns about the strategic implications of Chinese investments and activities in Sri Lanka. In this background the assurance of Sri Lankan president signals Sri Lanka's intent to balance its ties with both regional powers while safeguarding regional stability. The agreement also underscores Colombo's recognition of the importance of India's security and regional stability and paves the way for a stronger, more strategic India-Sri Lanka alliance in the years to come.

# Nepal embraces China's BRI

Nepal's deepening ties with China through the Belt and Road Initiative (BRI) have set alarm bells ringing in New Delhi

ndia has cause for extreme worry. In yet another indicator of China's growing sway over Nepal, the two are moving forward to implement Beijing's ambitious Belt and Road Initiative (BRI) in the Himalayan nation. India is not only opposed to this in principle on grounds of sovereignty but also fears it will enable China to increase its already considerable inroads into Nepal.

If 2017 marked Nepal's initial step to coming on board the BRI with an MoU, the year 2024 marks a giant leap for the Himalayan nation in that direction. A framework agreement for cooperation on the BRI was signed during Nepalese PM K P Sharma Oli's visit to China in early December, apart from nine other pacts. With the strategically located Himalayan nation having become a hub for Great Powers contestation, the US too would be uneasy with the latest Beijing-Kathmandu tango. While the US had managed to get Nepal on board its own Millennium Challenge Corporation (MCC) Compact to fund Kathmandu's power and transport infrastructure, the BRI seems far broader. Kathmandu is trying to play down the framework as just a continuation of the 2017 MoU. The framework, however, underlines Kathmandu and Beijing's renewed push for the BRI, an initiative on which New Delhi harbours deep suspicions for what it perceives as China's hegemonic ambitions through debt-trap diplomacy. Sovereignty is another major concern, with the China-Pakistan Economic Corridor (CPEC), another project under BRI, passing through Pakistanoccupied Kashmir.

India is certainly worried about PM Oli-led Nepal once again moving into China's sphere of influence. The CPN-UML leader is widely seen as being India's influence over Nepal. China, and bilateral ties The BRI framework agree with India were prickly during ment, incidentally, also his previous stints as the PM. India has yet to host Oli since branches of Chinese banks he took charge as PM in July and financial institutions in

this year for the fourth time, with him first heading for Beijing, in a break from the tradition of visiting New Delhi.Also, showing scant regard for New Delhi's sensitivities, the Oli government recently allowed 220 Buddhist monks from China to travel to Lumbini, the birthplace of Gautam Buddha even as the Nanhai Buddhism Shenzhen roundtable was being held in Kathmandu.

Oli delivered the inaugural address at this roundtable. There were also reports the China-appointed Panchen Lama would travel to Lumbini, though it did not eventually happen.

The Oli government's encouragement of Beijing's concerted moves to claim Buddhism as a shared heritage will not go down well with New Delhi, which has been making its efforts to build on its shared Buddhist heritage with Nepal.

Kathmandu's thrust on greater economic cooperation with Beijing - the BRI is part of this endeavour would also whittle down envisages the opening of

Nepal. India has traditionally had deep economic linkages with Nepal, nurtured in no small measure due to reasons of geography - the two neighbours share a long and porous 1,751-km-long border.

This, along with the landlocked nature of Nepal, has helped India become its WITH THE STRATEGICALLY largest trading partner. During the 2022-23 fiscal, LOCATED bilateral trade was pegged at \$8.85 billion. This included \$8 billion of exports from HIMALAYAN NATION HAVING India to Nepal, with \$840 million of exports in the **BECOME A** reverse direction. As per the Nepal Rastra Bank, India's HUB FOR GREAT share in Nepal's trade POWERS accounted for 64.1% in 2022-23.PM Oli sees cooperation CONTESTATION, on BRI as a means to forge closer economic ties with THE US TOO China, with the framework WOULD agreement resolving to deepen the economic partnership **BE UNEASY** by "injecting new momentum to trade, infrastructure WITH THE and connectivity coopera-LATEST BEIJINGtion".

Not a single project under the BRI rubric has been executed in Nepal since the 2017 MoU. Nepal would be hoping that the 10 initial

point. It led Oli, in his earlier stint as the PM, to cock a snook at New Delhi by changing his country's map showing the disputed territories as part of Nepal.

Neither did New Delhi show respect due to a close neighbour when it decided to give a quiet burial to the joint 2018 Eminent Persons Group (EPG) report, which suggested that the 1950 Treaty of Peace And Friendship be replaced with a new one?

Nepal has also been unhappy with India's refusal to give overflight rights for aircraft using the Chinese-built Gautam Buddha International Airport in Lumbini.

India would do well to remember that its domineering approach only serves to alienate a close neighbour further and push it into Chinas ever-willing embrace India should not lose sight of its strategic imperatives. (The writer is a senior journalist; views are personal)

## Why reading and writing matter more in the age of AI

DHARAMAPALAN

As AI grows increasingly sophisticated, our commitment to these skills will determine whether we remain active participants in innovation-or passive consumers

n an era increasingly defined by technological L innovation, reading and writing-cornerstones of human intellect—are facing a profound transformation. While artificial intelligence (AI) bots like OpenAI's ChatGPT and Google Bard redefine the boundaries of information generation, the necessity of cultivating human literacy has never been more crucial. The transition from Neanderthals to modern humans (Homo sapiens) involved significant cognitive and cultural advancements, but Neanderthals themselves did not read or write. Reading and writing developed after modern humans became the dominant hominin species. These are not merely communication tools but exercises that keep our cognitive faculties sharp and resilient. ### **INDIA STRUGGLES IN BRISBANE TEST**

Madam -- While Travis Head hits a century again in the Brisbane test, it was a surprising and grave omission of the crafty and successful off-spinner Washington Sundar for the third test at Gabba. While Sundar has been among the wickets in recent tests and also did well with the bat, the head coach and the out-of-form skipper Rohit Sharma couldn't realise the need for a quality off-spinner is a blunder at the moment. The need for the quality off-spinner is mandatory when the Aussies have two solid left-handers, Travis Head and Alex Carey. When Head is the consistent match winner for the Aussies, leaving Washington Sundar out will prove costly for India in this test.

Whenever there were solid left-hand batters, the formulae of the Indian team in the past from the era of Skipper Ajit Wadekar used to play Erapaali Prasanna and S Venkataraghavan proved to be of great success. After Rohit won the toss and put the Aussies to bat first, the Aussies had scored 445, and now the pressure will be on the Indian batters, who may succumb to pressure again, as proved by losing the 4 top order for a paltry 51. After having won the first test under the standby skipper Jasprit Bumrah, Rohit Sharma seems to have not yet learnt the lesson that the composition of the right combinations is important to be in the match. Missing a clever off-spinner can never be an easy task for the team to come back once they lose the grip in the first innings, which is what's happening at present in Brisbane. Bumrah alone can't take the match away from the opponents; this needs to be realised by head coach Gautam Gambhir. By dropping down in the order, Skipper Rohit is unbeaten on zero, and Rahul, with 33 against his name, has been the only consolation for the fans while rain stopped play. Rain God can be the only saviour as it looks for the team to have a sigh of relief. Rohit and Kohli must take a voluntary exit rather than bring the morale down of the team at this juncture.

### **HEALTHCARE REFORMS FOR PUBLIC**

Madam- If the AAP government has done one good thing for society by making Mohalla clinics, the BJP has done another by making Jan Aushadi chemist shops. One can now get a free consultation from the AAP clinic and get medicines at nearly one-fifth the rate from a Jan Aushadi shop, thereby catering to the health aspect of a common man.

The prominent good work visible on the ground needs to be applauded for both. The belief that a drug in a normal chemist shop is better than the generic drug being sold by a Jan Aushadi shop (popularly known as 'Modi ki Dukaan' in Patiala) is a myth that can be best removed by the doctors to their patients depending on the degree of moral courage they have to refuse obligations of pharmaceutical companies and give priority to generic rather than tradenamed medicines to their patients. The fleecing private pharmacies need to be brought down to their knees in the interest of the public for their overinflated rates of medicines

groups are a feature of every small village. While the teaching-learning process is done in the local language in rural villages, most of the competitive examinations are held in the English language. The rural atmosphere doesn't provide these students the opportunity to

speak and learn English. In fact, in many northern villages, English becomes the third language, with the local language and Hindi as the first and second languages, respectively. The policymakers have to bridge the urban-rural divide when it comes to English teaching. An English teacher, teaching in rural schools, has to come up with innovative strategies in the classrooms. Skilled and committed teachers need to be appointed at the primary level, and they should be upgraded and trained to meet the problems faced by the learners.

### **PURCHASING POWER DECLINES**

Madam — For the success of any economy, a vibrant market with sound and sustained demands is imperative, as production and market cannot flourish in a dry market. To vibrate the market, people's purchasing power should be increased by ensuring employment and a viable wage. The Indian economy is driven with an objective of enriching the rich, leaving the 81 crore poor in a lurch to manage sustaining life with 5 kgs of free rice per month. Even the small employed section is left without a reasonable increase in wage and faces the untamed inflation. The changes being pushed through in the name of labour reforms are going to pull down demands and create telling effects on the already volatile economy. Such a programme inevitably leads to dwindling demands.Course correction is inevitable to ensure bridging the gap between the poor and the affluent.

### Happiness is a state of mind that transcends life's adversities

### RAVI VALLURI

couple first met in an estimable business school in India where they were conferred reputable degrees in management. The cou-Ple soon migrated to the land of El Dorado in search of greener pastures, seeking professional and economic security. They were a happy couple as the angels showered gargantuan benediction. Soon, a new dimension to their lives arrived in the form of angelic twins. When the twins turned six months old, it was time to visit the hometown of their parents. They were received by sentimental and misty-eyed grandparents

The sojourn concluded the mother and twins were afloat on a flight back to their home. However, fate had other plans and a double whammy struck the family. The father never reached the airport as he was killed in a car crash on the way to the airport. The disconsolate woman became a mental wreck, her moments of happiness fastened only in her memory bank and the picture album. The alluring woman was transfigured into stone. A cousin empathised with her distraught mental state and robustly suggested that she undertake the Happiness Course of the Art of Living. After considerable blandishment and extensive persuasion, she enrolled for the course and deposited all her emotions and feelings while undergoing the unique rhythmic breathing technique of Sudarshan Kriya.Life need not be tragic if only we realise that happiness is a state of mind that can

be achieved independent of material success.

As per ancient Japanese mythology, the light from Tsukuyomi, the Shinto God of the moon could induce illusions and delusions. Hecate, the Greek Goddess of the dark moon bestowed visions, but also caused humans to be afflicted with insanity. The human body is made up of seventy per cent of water elements. Full moon water recharges the body, mind and spirit and bestows harmony on our thought processes. Therefore, practising the Full Moon Meditation has a consequential and noteworthy influence on the mind, whereby one is suffused with efficacious thoughts and purges nugatory ones. It was a cathartic experience for the young single mother to emerge from her traumatic experience by unflinchingly practising this technique. It is an established fact that the Sakyan prince, Siddhartha, upon attaining enlightenment on the full moon day metamorphosed into the Compassionate One, Gautama Buddha and made a prescient statement, "Thousands of candles can be lit from a single candle, and the life of the candle will not be shortened. Happiness never decreases by being shared." How does one define an efficacious emotion called happiness? Happiness is a state of well-being, jollity, blitheness and primarily to be contented in life. The amphitheatre of the mind is a veritable nuclear reactor, where waves of thoughts and emotions arise and subside. These in turn determine our happiness quotient and consequentially the quality of our lives. There once lived a farmer, who grew apples. He perpetually grumbled that there was not adequate produce to sustain the family. Providentially, there was a spurt in production and apples grew in plenitude. Still dissatisfied, the farmer cavilled that he was now laden with gruelling work, apples were rotting and prices now plunged! Sage Patanjali in his Yoga Sutras has postulated certain cardinal principles to live harmoniously, encompassed in happiness. These are non-violence, truthfulness, no regrets, not accepting invectives or salutations hurled by people, physical cleanliness of the body, inner contentment, forbearance or penance, self-study or examination of the mind and development and finally love and surrender to the supreme cosmic force.

# Pesticides are poisoning the Punjab soil

analysis

Punjab's agriculture is facing a harrowing reality-its lifeblood, the soil, is being contaminated by toxic pesticide residues at alarmingly high levels

t's time to face the disturbing truth about Punjab's agriculture—and it's a nightmare. In districts like Bathinda, Mansa, and Ludhiana, up to 60 per cent of farm soil samples are infested with toxic pesticide residues— including the deadly chemicals endosulfan and carbofuran—at levels far beyond what's even remotely safe. This isn't just a warning; it's a full-blown crisis, a ticking time bomb, the result of irresponsible, reckless pesticide and fertiliser abuse running rampant in our fields.

On World Soil Day-December 5thwe're forced to confront the cold reality of a rapidly disintegrating agriculture sys-tem, while the world's been talking about "Caring for Soils: Measure, Monitor, and Manage"! The consequences of this madness are devastating. Our once fertile land is transforming into a barren wasteland, and that's only the beginning. These toxic chemicals aren't just staying in the soil. They're seeping into our food chaincontaminating every bite we take and slowly poisoning us all. But it doesn't stop there. These toxic residues are embedding themselves into our very DNA, passing down a legacy of genetic mutations to our children and grandchildren.

We are breeding a future full of compromised health and genetic decay. This is a catastrophe that will echo across generations. We're not just destroying our pre-sent health; we're condemning our chil-dren to inherit the consequences of our stupidity and greed. The survival of future generations is at risk, and the clock THE MODERN-DAY is ticking-every moment of inaction is a moment closer to irreversible genetic damage. It's time to wake up, stop burying our heads in the sand, and confront this crisis head-on before it's too late for the survival of future generations. The Pesticide Management Bill, 2020: India's regulatory framework for pesticides, established in 1968, is woefully outdated and incapable of addressing the modern-day challenges posed by the rampant overuse of agrochemicals. Although efforts to amend this framework have been ongoing since 2008, significant gaps remain in safeguarding farmers, consumers, and the environment. The legislation-still governed by the Insecticides Act of 1968 and the Insecticides Rules of 1971—requires comprehensive reforms to address the multifaceted risks associated with pesticide overuse. The Pesticide

FRAMEWORK FOR ESTABLISHED IN WOEFULLY OUTDATED AND INCAPABLE

Management Bill (PMB) 2020 was introduced to replace outdated legislation, but critical concerns must be addressed. While the bill outlines pesticide registration and licensing procedures, it must pro-tect farmers more adequately from hazardous exposure. Statistics from Pesticide Action Network (PAN) International paint a grim picture: approximately 11,000 deaths glob-ally are attributed to accidental pesticide poisoning annually, with India accounting for a staggering 6,600 fatalities. These numbers highlight critical deficiencies in pesticide usage protocols and safety measures.

Farmers and rural communities often bear the brunt of chemical exposures, especially in agriculturally intensive regions. For instance, Punjab, which heavily depends on rice and wheat cultivation, reports alarming pesticide consumption rates. With an average usage of 77 kg/hectare, significantly above the national average of 62 kg/hectare, Punjab ranks third in India after UP and Maharashtra for pesticide consumption.

A study by the Central Soil Salinity Research Institute (CSSRI) revealed that 6.74 million hectares of land in India are affected by salinity, a con-dition exacerbated by the overuse of agrochemicals. Persistent pesticide application has been found to reduce microbial biomass by 30-50 per cent, compromising soil fertility and diminishing the land's abil-ity to provide essential nutrients to crops.

Training and Awareness: A Neglected Imperative Over the past three decades, the indiscriminate use of pesticides has surged, often driven by aggressive marketing strategies that portray chemical inputs as indispensable for high crop yields.

The limited scale of training initiatives highlights the need for more current efforts. Between 1994-95 and 2021-22, the Plant Protection Department of Agriculture and Farming Welfare Ministry trained only 585,000 farmers in Integrated Pest Management (IPM), a dismal figure in a nation with over 150 milion farmers. According to the International Code of Conduct on Pesticide Management, govern-ments and industry stakeholders must provide comprehensive training and information to farmers and retailers. Yet, the implementation of these guidelines still needs to be more robust. Retailers often serve as farmers' sole point of contact, and in many cases, they disseminate misleading or incomplete information. Data Collection: Bridging Critical GapsThe absence of robust data collection mechanisms further undermines India's regulatory ecosystem. The National Crime Records Bureau (NCRB) documents pesticide poisoning deaths only if they are registered as medico-legal cases, excluding countless instances of non-institutional exposure and chronic health effects. This data void impedes effective policymaking and perpetuates a lack of accountability among stakeholders. Addressing Weak Grievance Mechanisms: One of the most glaring deficiencies in India's pesticide regulation is the lack of accessible grievance redressal systems. Farmers and agricultural workers exposed to pesticides face prohibitive costs and lengthy procedures when seeking justice. Meanwhile, state governments can impose only temporary bans on hazardous pesticides, typically lasting 60 days, exposing vulnerable communities to ongoing risks. Personal Protective Equipment: A

Forgotten NecessityThe Pesticide Management Bill 2020 neglects the safety of small-scale farmers, who often lack access to affordable, climate-appropriate personal pro-tective equipment (PPE). Farm workers face heightened health risks without mandatory provisions requiring them to supply adequate protective gear, especially in hot and humid agricultural regions. Labelling and Consumer ProtectionIndia's pesticide labelling standards fall short of both domestic and international norms. Safety information is frequently crammed into illegible leaflets, leaving farmers ill-informed about risks and proper usage.

Although the Consumer Protection Act theoretically covers farmers, legal recourse against manufacturers for misleading labels or substandard products is rarely pursued. The Way ForwardIndia can no longer afford to ignore the human and environmental toll of unsafe pesticide practices.

Establishing a robust, farmer-centric legal framework aligned with international standards is the only way forward to ensure safe and sustainable agriculture. A gradual snin towards agro-ecological farm ing methods that emphasise nonchemical pest management is imperative. The government must phase out hazardous pesticides and promote environmentally friendly alternatives to safeguard farmers' health and ensure consumer food safety. Addressing the gaps in the Pesticide Management Bill 2020 and adopting proactive measures, such as mandatory training and the provision of accurate information on pesticide usage and risks, are critical steps towards securing safe and healthier future generations.

Call for Robust RegulationPesticides—insecticides, fungicides, or herbicides-play a vital role in modern agriculture. However, their toxic nature necessitates stringent oversight throughout their lifecycle, from production to disposal. The current regulatory framework lacks provisions for periodic review of registered pesticides based on emerging toxicological data. This oversight exposes the public to significant health risks, particularly in a country where improper handling of pesticides is widespread.

senior Russian general was killed Tuesday by a **D**bomb hidden in a scooter outside his apartment building in Moscow, a day after Ukraine's security service levelled criminal charges against him. A Ukrainian official said the service carried out the attack.

Lt. Gen. Igor Kirillov, the chief of the military's nuclear, biological and chemical protection forces, was killed as he left for his office. Kirillov's assistant also died in the attack.

Kirillov, 54, was under sanctions from several countries, including the UK and Canada, for his actions in Moscow's war in Ukraine. On Monday, Ukraine's Security Service, or SBU, opened a criminal investigation against him, accusing him of directing the use of banned chemical weapons. An official with the SBU said

the agency was behind the attack. The official, who spoke on condition of anonymity because they were not authorised to release the information, described Kirillov as a "war

criminal and an entirely legit-imate target." Russia's top state investigative agency said it's investigating The SBU has said it recorded

more than 4,800 occasions when Russia used chemical weapons on the battlefield since its full-scale invasion in February 2022. In May, the US State Department said that it had recorded the use of chloropicrin, a poison gas first deployed in World War I, against Ukrainian troops.

Russia has denied using any chemical weapons in Ukraine and, in turn, has accused Kyiv of using toxic agents in combat. Kirillov, who took his current job in 2017, was one of the most high-profile figures to level those accusations. He held numerous briefings to accuse the Ukrainian military of using toxic agents and planning to launch attacks with radioactive substances claims that Ukraine and its Western allies rejected as propaganda.

The bomb used in Tuesday's attack was triggered remotely, according to Russian news reports. Images from the scene showed shattered windows and scorched brickwork.

Kirillov's death as a case of terrorism, and officials in Moscow vowed to punish Ukraine.

Dmitry Medvedev, deputy head of Russia's Security Council chaired by President Vladimir Putin, described the attack as an attempt by Kyiv to distract public attention away from its military failures and vowed that its "senior military-political leadership will face inevitable retribution."

Over the past year, Russia has been on the front foot in the war in Ukraine, grinding deeper into the eastern region of Donetsk region despite heavy losses. Ukraine tried to change the dynamic with an incursion into Russia's Kursk region, but it has continued to slowly lose ground on its own territory. ince Russia invaded, several prominent figures have been killed in targeted attacks believed to have been carried out by Ukraine.

President-elect Donald Trump on Monday suggested that he may reverse President Joe Biden's recent decision to allow Ukrainian forces to use American longrange weapons to strike deeper into Russian territory.

Trump called the decision made by Biden last month "stupid." He also expressed anger that his incoming administration was not consulted before Biden made the move. With the loosening of the restrictions, Biden gave Ukraine long-sought permis-sion to use the Army Tactical

Missile System provided by the US to strike Russian positions hundreds miles from its border. "I don't think that should

have been allowed, not when there's a possibility — certain-ly not just weeks before I take over," Trump said during

at a wide-ranging news con-ference at his Mar-a-Lago resort. "Why would they do that without asking me what I thought? I wouldn't have had him do that. I think it was a big mistake.

Trump's withering criticism of the Biden administration's move comes as the Democratic administration aims to push every last dollar already designated for Ukraine out the door to help repel Russia's invasion before Trump takes office on Jan. 20, with future aid uncertain.

But even as Biden tries to surge weaponry and other aid to Ukraine in his final five weeks in office, the moment underscored that it's Trump who holds the most significant influence over how Ukraine can use its US-provided arsenal in the long run. It's a critical piece of leverage he could use to try to follow through on his campaign pledge to bring

about a swift end to the conflict.

Trump says it was 'stupid' for Biden to let Ukraine

use US weapons to strike deeper into Russia

Asked if he would consider reversing the Biden administration decision, Trump responded: "I might. I think it was a very stupid thing to do." The White House pushed back on Trump's criticism, noting that the decision was made after months of deliberations that started before last month's election. "All I can assure you is that in

the conversations we've had with them since the election, and we've had at various levels, we have articulated to them the logic behind it, the thinking behind it, why we were doing it," White House national security spokesperson John Kirby said of the current administration's coordination with the outgoing

administration. Trump's relationship with Russian leader Vladimir Putin has been scrutinised since his

2016 campaign for president, when he called on Russia to find and make public missing emails deleted by Hillary Clinton, his Democratic opponent. Trump publicly sided with Putin over US intelligence officials on whether Russia had interfered in the 2016 election to help him, and Trump has praised the Russian leader and even called him "pretty smart" for

invading Ukraine. Vice President-elect JD Vance has said that while the US has differences with Russia, it was counterproductive to approach Moscow as an

enemy. rump on Monday reiterated his call on both Ukrainian President Volodymyr Zelenskyy and Russian President Vladimir Putin to negotiate an end to the war, calling the death and despair caused by the conflict "car-

Victoria Premier Jacinta Allan proposed the new laws after arsonists damaged Melbourne synagogue this month and protestors kept fearful worshippers trapped inside a Sydney synagogue for three hours a week earlier.

"That's not peaceful protest. It's menacing behaviour," Allan said.

"Antisemitism is a cancer and we must leave no stone unturned to fight the evil of antisemitism, to fight the evil of this racism in all of its forms and also to continue to work to help heal our multicultural community, to help build on that social cohesion and continue to support our strong, united Victoria," she added. hina on Tuesday executed Li Jianping, a former official in Uthe north Inner Mongolia Autonomous Region, who was convicted in the largest-ever corruption case in the country totalling to over USD 421 million.

The death sentence of Li, former secretary of the ruling Communist Party working committee of the Hohhot econom ic and technological development zone, was initially issued in September 2022 and upheld on appeal in August 2024.

Tuesday's execution followed the approval of the Supreme People's Court and was carried out by a court in Inner Mongolia, state run Xinhua news agency reported.

Li, 64 was found guilty by an intermediate court earlier of embezzling a staggering three billion yuan (over USD 421 million) in illegal gains — the largest sum involved in a single corruption case in China's history, according to earlier reports in the Chinese official media. Since he came to power in 2012, Chinese President Xi Jinping made the anti-corruption campaign the main plank of his governance model.

Official media accounts say over a million party officials, including two defence ministers and dozens of military officials, were punished and prosecuted in the campaign.

In his speech delivered at the plenary session of the Central Commission for Discipline Inspection (CCDI) in January this year, contents of which were released for the first time on Sunday by party theoretical magazine Qiushi, 71-year-old Xi has called on cadres to confront corruption head-on so that interest groups cannot prey on the ruling Communist Party.

Pope Francis turned 88 on Tuesday and marked the occasion with revelations that he almost didn't make it. According to excerpts of his upcoming autobiography, suicide bombers had planned to attack him during his 2021 visit to Iraq, but were killed before striking.

Italian daily Corriere della Sera on Tuesday ran excerpts of "Hope: The Autobiography,"

written with Italian author Carlo Musso, which is being released in more than 80 countries next month. The New York Times ran other excerpts Tuesday, Francis' 88th birthday. In the Italian excerpts, Francis recalled his historic March 2021 trip to Iraq, the first ever by a pope. COVID-19 was still raging and security concerns were high, especially in Mosul. The devastated northern city had been the headquarters of Islamic State militants, whose horrific reign had largely emptied the region of its Christian

Francis urged Iraq's Christians to forgive the injustices against them by Muslim extremists and to rebuild.

In the book, Francis said he later asked his Vatican security detail what became of the suicide bombers.

The commander replied laconically They're no longer here," Francis writes. "Iraqi police had intercepted them and made them explode. This struck me as well: Even this is the poisonous fruit of war."

The book, originally planned to be published after Francis death, is coming out at the start of the Vatican's big Holy Year, which Francis will officially inaugurate on Christmas Eve. According to Italian publisher Mondadori, "Hope" is the first autobiography ever published by a pope. Francis, however, has published other first-person, memoir-style books or book-length interviews with biographers and journalists, including "Life: My Story Through History," published

earlier this year.

## Grassroots funding for Ukraine's military declines as groups looks for creative ways to raise money

### AP KYIV

The concert took place in an l old movie studio in Kyiv, the location kept secret until the final moment in case it was the target of a Russian attack. More than 1,000 soldiers and young people gathered to listen to the artists who joined forces with a military brigade in an innovative effort to raise funds for Ukraine's embattled troops This was the first and only live performance of the charity album "Epoch," a collaboration between the 3rd Assault Brigade and eight Ukrainian bands.

The project's ambitious target is to raise 50 million hryvnias (about USD 1.2 million) to buy an M113 armoured personnel carrier to help get infantry to

the front and evacuate the scanning a QR code, people wounded for medical treatment. Since it launched on streaming platforms a month ago, the initiative has raised 9 million hryvnias (around USD 214,000

Grassroots fundraising for Ukrainian fighters dates back to 2014, the year Russia first annexed the southern region of Crimea and Moscow-backed separatists launched an uprising in eastern Ukraine. At that time, Ukraine's defence was made up of a regular army supported by volunteer battalions who weren't financially supported by Kyiv's government.

Self-funding was critical. Now, advertisements pasted along the sidewalk in Kviv ask for donations to help fill financial gaps across the military. By

can help buy anything from body warmers and drones to armoured cars for soldiers defending the nearly 1,000kilometre front line.

But some charities are seeing a decline in individual donations in part because of the economic situation in the country. Oleksandr Borodyn, one of the project's organisers, says the idea for the collaboration came from the challenge of continuing to drum up funds to support troops as the war is on the cusp of marking a three-year milestone.

To raise the same amount of money as at the beginning of the war, you need much more effort. That's why we came up with the idea that a musician could donate his or her art, and

that art would earn money for the army," said Borodyn, a press officer for the 3rd Assault Brigade. The initiative comes as US President Joe Biden is rushing out billions of dollars more in military aid before Washington's support for Kyiv's defences is thrown into question when Donald Trump takes office next month

Monobank, one of the largest platforms to process donations, says that in the first 1,000 days of war, nearly 10.5 million unique users made donations totalling around 77 billion hryvnias (about USD 1.8 billion) to various fundraising organisations.

But some charity groups are finding that voluntary funding isn't what it was in the first year of the full-scale invasion. The

Come Back Alive foundation 2020 to about 9 million, or 29 supports troops with anything from military training to buying drones and electronic warfare to repel attacks. In the first year of the conflict, they raised more than 5.7 billion hryvnias (USD 184 million). So far in 2024, the figure is nearly 3.6 billion hryvnias (USD 89 million). "Many people report a worsening financial situation, which limits their ability to contribute to supporting the military," said Ôleh Karpenko, deputy director of the Come Back Alive Foundation. Three years of war has had a devastating impact on

Ukraine's economy. According to a World Bank report released in May, the number of Ukrainians living in poverty has grown by 1.8 million since ernment can't meet.

per cent of the population.

To help the most vulnerable, the government launched a winter support programme at the beginning of December and within days, around 6.5 million people had applied to receive the one off 1,000 hryvnia (USD 24) payment to help cover utilities, medical services and cellphone costs.

According to Karpenko, local initiatives and smaller-scale fundraising efforts mean many people direct their contributions toward helping specific soldiers or military units they know personally. That reduces the amount received by larger organisations, which he says can promptly address urgent battlefield needs that the gov-

"International support also plays a significant role in dona-tion levels," Karpenko said. "When aid from international partners decreases, it strongly demotivates Ukrainian society. People lose motivation to donate when they perceive a lack of willingness from partners to actively supply weapons." Staring up at the large monitors set up on either side of the stage in the form of the three diagonal line symbol of the 3rd Assault Brigade, 26vear-old Oksana Kalenchenko thinks that events like the concert are hugely important in continuing to generate support. "It's a reminder to somebody that there is a war going on in Ukraine, let's keep donating, let's keep doing everything we can," Kalenchenko said.

The collaboration album features young artists from Ukraine's rock, rap and alternative scene, and many of the lyrics reflect events and the reality of living through the conflict.

'We want to show the reflection of contemporary artists to the situation in Ukraine, and in general to Ukraine at war . That's why the project is called Epoch,' because it is a transmission of the era we are living in," Borodyn said.

What also unites all the songs is language. Since the start of the full-scale invasion on February 24, 2022, Ukrainian music has experienced somewhat of a revival with many artists shunning the traditional Russian pop scene that dom-inated the post-Soviet era.

## **Political strife erupts over South Korean court** as it is set to determine fate of impeached Yoon

### AP SEOUL

South Korea's acting leader vowed Tuesday to convey to the world that things are back to normal following parliament's impeachment of conservative President Yoon Suk Yeol, but rival parties began squabbling over the mechanics of a court ruling to determine whether to formally unseat or reinstate him.

The country's liberal opposition-controlled parliament voted to impeach Yoon last Saturday over his short-lived December 3 martial law imposition, suspending his presidential powers until the Constitutional Court determines whether to uphold or overturn the decision. If Yoon is dismissed, a national election must be held to pick his successor within two months

Prime Minister Han Ducksoo, who became acting leader, has taken steps to reassure the US and other countries and stabilise markets. Presiding over a Cabinet Council meeting on Tuesday, Han said he will "continuously do my utmost to inform the international society that Republic of Korea is fast regaining stability and maintain confidence with partners

But the country's intense political strife appears to be far from over, as the rival parties began bickering over whether to fill three vacant justices' seats at the Constitutional Court.

To formally end Yoon's presidency, the nine-member court panel needs support from at least six justices. But since three seats remain vacant following retirements, a unani-

mous decision in favour of chances to return to office, as Yoon's impeachment is required to throw him out of office for good. Three of the court's nine jus-

tices are directly appointed by the president. Three others are nominated by the Supreme Court head and another three by the National Assembly, and their formal appointments by the president has widely been a formality. The three seats that are currently open are to be nominated by the National

Assembly - two by the Democratic Party and the other by Yoon's ruling People Power Party. The court can rule on Yoon's case only with the current six justices. But the main liberal opposition Democratic Party,

which led the impeachment efforts against Yoon, has said it would speed up the process of restoring the court's nine-justice system to promote fairness and public confidence in its

ruling. But PPP floor leader Kweon Seong-dong, a Yoon loyalist, created a stir Tuesday as he voiced his objection to a Democratic Party push to fill the three vacancies. He said it would be inappropriate for Han, the acting leader, to appoint justices nominated by parliament, saying such authorities solely rest with the president.

"An acting president can appoint Constitutional Court justices when there is a presidential vacancy, but not when the president's duties are just suspended," Kweon said. Many observers say the court's

current six-member configuration is advantageous for Yoon's

it would only require a single justice rejecting the parliament impeachment. They note Cheong Hyungsik, one of the six justices, is a clear conservative who was directly appoint-

ed by Yoon. The Democratic Party quickly dismissed Kweon's argument as "absurd and utterly nonsensical" and urged PPP to abide by a November agreement between the rival parties to nominate the three Constitutional Court justices. Party lawmaker and spokesperson Jo Seoung-lae said PPP has "blatantly revealed their true intention to obstruct the con-

stitutional trial." There was no immediate response from Han, who during the Cabinet meeting stressed that the government will cooperate with the ruling and opposition parties to stabilize the economy.

There is no clear definition about what an acting president can and cannot do over the appointments of court justices. The Democratic party accuses PPP of trying to drag out the impeachment trial at the Constitutional Court, which has up to 180 days to determine Yoon's fate.

Time is a crucial issue for Democratic Party leader Lee Jae-myung, who is favored by polls to win a presidential byelection in the event of Yoon's ouster but grapples with his own legal troubles. Lee could possibly be prohibited from running for president if the appellate and Supreme courts

uphold his lower court conviction for election law violation in November.

Yoon faces allegations of rebellion and abuse of power over his martial law introduction. Investigative authorities want him to appear for questioning later this week, but officials at Yoon's office and residence on Monday refused to receive requests for his appearance.

The martial law declaration, the first of its kind in more than 40 vears, drew hundreds of troops who tried to encircle parliament and prevent lawmakers from voting on the decree. Many lawmakers still man-aged to get inside a National Assembly chamber and voted to overturn Yoon's decree unanimously, forcing Yoon's Cabinet to lift it. Yoon's decree, which harkened back to an era of past military-backed dictatorships, has sparked massive street protests calling for his ouster and resulted in his approval rating plummeting. Yoon's defense minister, police chief and several other senior military commanders have been arrested over their roles in the martial

law enforcement. Supporters of Yoon worry that his early exit would severely hamper the country's conservatives and cause them to likely lose a presidential by-election to the liberals, like they did in 2017, when then-impeached conservative President Park Geun-hye was ousted and arrested over a corruption

scandal. PUBLIC NOTICE

Ajudge Monday rejected President-elect Donald Trump's bid to have his hush money conviction dismissed because of the U.S. Supreme Court's recent ruling on presidential immunity. But the case's overall future remains unclear. Manhattan Judge Juan M. Merchan's decision eliminates one potential off-ramp from the case ahead of Trump's return to office next month. His lawyers have raised other arguments for

dismissal, however. Prosecutors have said there should be some accommodation for his upcoming presidency, but they insist the conviction should stand.

Judge rejects Trump's bid to dismiss hush money conviction because of SC immunity Trump's lawyers then cited the Even if prosecutors had error records related to a USD 130,000

hush money payment to porn actor Stormy Daniels in 2016. Trump denies wrongdoing.

The allegations involved a scheme to hide the payout to Daniels during the final days of Trump's 2016 presidential campaign to keep her from publicising — and keep voters from hear-ing — her claim of a sexual encounter with the married thenbusinessman years earlier. He says nothing sexual happened between them.

A month after the verdict, the Supreme Court ruled that expresidents can't be prosecuted for official acts — things they did in the course of running the country - and that prosecutors can't cite those actions to bolster a case centred on purely personal, unof ficial conduct.

### Taipei mayor urges China to lessen confrontation between the sides.

### AP TAIPEI (TAIWAN)

The China-friendly mayor of Taiwan's capital, Taipei, on Tuesday called for less confrontation between the sides, even as Beijing continues to send warships and fighter jets to intimidate the selfgoverning island democracy. Chiang Wan-an was speaking Tuesday at the 15th Taipei-Shanghai Twin-City Forum, which is not sanctioned by Taiwan's government, whose official position is that Taiwan is already an independent country with no reason to unify with China.

Chiang put a somewhat romantic twist on his remarks, saying "I am a Taipei mayor by the peo have high expectations for whether there is peace, tension, or development across the strait. I think there should be more . lights on fishing boats at dawn and less noise of (war) ships and (war) planes." Between Monday and Tuesday, China sent 10 military aircraft and seven aircraft toward Taiwan, according to Taiwan's Defence Ministry. Four of the aircraft crossed the middle line of the Taiwan Strait that forms an unofficial border

of its territory, to be brought under its control by force if necessary, although economic ties between the sides – especially with China's finan cial hub of Shanghai — remain robust, with an emphasis on high-tech. Shanghai's repre-sentative, Vice Mayor Hua Yuan, told the 102 participants that, "the people of the two sides are all one family.

reporters from the gathering, saying they were superfluous along with a Shanghai official for Taiwan affairs, in response to new, harsh new penalties targeting "diehard Taiwan independence separatists." Mainland Affairs

### AP WELLINGTON (NEW ZEALAND)

Apowerful magnitude 7.3 Aearthquake struck just off the coast of Vanuatu on Tuesday, causing widespread destruction in the South Pacific island nation as the injured began arriving at a hospital and unconfirmed reports of casualties emerged.

A tsunami warning was called off less than two hours after the guake. With communications still down hours later and official information scarce, witness accounts of casualties began to surface on social media and through patchy phone calls. The earthquake happened at just before 1 pm at a depth of 57 kilometres and was centred 30

kilometres west of Port Vila, the largest city in Vanuatu — a group of 80 islands that is home to about 3,30,000 people. It was followed by a magnitude 5.5 aftershock near the same location, with tremors continuing throughout the afternoon and evening.

It was not immediately clear how much damage was caused as phone lines and government websites remained down. In the first official information published on social media, the Geohazards Department said its monitoring systems remained

Enhancing Safety Standards in the Chemicals and Petrochemicals Sector under Viksit Bharat@2047

As part of the Government of India's 100-Day Action Plan for Viksit Bharat@2047, the Department of Chemicals and Petrochemicals, Ministry of Chemicals and Fertilizers, has taken the initiative for improving safety standards in the chemicals and petrochemicals sector a top priority by focusing on enhanced training programs. This initiative underscores the government's firm commitment to safety, sustainability, and responsibility, aimed at creating a secure and environmentally-conscious industrial environment. Acknowledging the significant role of the chemicals and petrochemicals industry in driving economic growth, the program also addresses the risks associated with hazardous substances by ensuring the implementation of strong safety protocols to protect lives and the environment. As part of this initiative, a two-day residential training program on "Chemical and Petrochemical Industrial Safety" took place on December 16-17, 2024, at FICCI, New Delhi. Organized by CIPET: IPT Murthal, the program specifically focused on Major Accident Hazard (MAH) units. The event was attended by 118 participants from 58 chemical industries, including MAH units.

# Spain drawn with Italy, Belgium and Portugal in Euro 2025 group

### AP LAUSANNE

women's soccer titles at the 2025 European Championship after drawing a group with Italy, Belgium and Portugal.

A European title would complete the set for Spain women after winning the inaugural UEFA Nations League in February for coach Montse Tomé, who took over when the team and federation was in turmoil after the 2023 world title win in Sydney. Tomé is the only female coach in Spain's Euro 2025

group. Euro 2025 host Switzerland will open the 16-nation tournament against Norway on July 2 in Basel. The group also includes Iceland and Finland.

The past two European champions, titleholder

England and Euro 2017 winner the Netherlands, landed in a strong group with top-seeded France and Wales. France and England reunite next July 5 in Zurich after coming through the same qualifying group, in which they traded away wins in a five-day spell and France finished on top of the

standings. "We had some beautiful matches in May and June. It's very good challenge,' а coach France Laurent Bonadei said.

Germany, the record eighttime European champion, was drawn with Denmark, Poland and Sweden, the inaugural winner in 1984. Basel's St. Jakob Park stadium also will host the final on July

27. More than 700,000 tickets are publicly available for the 31 games being hosted in eight Swiss cities. has the Switzerland responsibility to continue the

momentum in European women's soccer after three successful major tournaments.

France hosted the 2019 Women's World Cup, won by the United States; host the United States; host England won the Euro 2022 final against Germany watched by more than 87,000 fans at Wembley Stadium; and Spain and England played for the 2023 world title at the first 32-team tournament, hosted by Australia and New Zealand. 'For me it is the perfect moment for this tournament to come here," said retired Swiss great Lara Dickenmann, a two-time Champions League winner with Lyon.

"It will be a game-changer for us," Dickenmann told The Associated Press. "It's going to be really important for the Swiss population but also for the Swiss media, Swiss politics, on any level that takes part in football." Switzerland will start against Norway - which lost the 2023 World Cup opening game against New Zealand one month after the same teams meet in a Nations League group that also includes Iceland.

Switzerland coach Pia Sundhage said she aimed to Pia field her best team in what will be a final competitive warmup for Euro 2025.

"Confidence can take any team anywhere," said Sundhage, the Swedish veteran who led the U.S. To back-to-back Olympic titles in 2008 and 2012.

England coach Sarina Wiegman has won the past two Euros titles, after leading her native Netherlands to the 2017 title, and suggested it will be an open and exciting tournament in Switzerland. "It's not just three or four countries" who can win, Wiegman said.

### AP DOHA

Real Madrid star Vinícius Júnior is about to find out if he'll be finally getting his hands on a big global player award.

FIFA's "The Best" awards take place on Tuesday, when the top men's and women's soccer players of 2024 will be announced based on voting by fans, the current captains and coaches of all national teams, and media representatives. It is FIFA's version of the older and more prestigious Ballon d'Or prize. Vinícius is on an 11-player shortlist for the best men's player, having been so disappointed to lose out to Manchester City midfielder Rodri for the Ballon d'Or in October that he and his Madrid team snubbed the ceremony in Paris in protest. The FIFA ceremony starts at

The contenders have been selected based on their performances from Aug. 21, 2023, to Aug. 10. 2024.

FIFA said the award winners have been decided by an "equally weighted voting system" between fans, the captains and coaches, and the media. The best men's and women's

coaches and the best men's and women's goalkeepers will also be announced, along with the best men's and women's 11s and the Marta and Puskás Awards for the best goals in women's and men's soccer, respectively.

## Hockey India League announces free entry for matches in Rourkela and Ranchi

PTI 🗖 NEW DELHI

Hockey India on Tuesday fans for both men's and women's matches of the Hockey India League to be played at Rourkela and Ranchi.

The eight-team men's HIL in a new format will start on December 28 at Rourkela's Birsa Munda Stadium and will conclude on February 1, 2025. The women's edition comprising four teams will be held at Ranchi's Marang Gomke Jaipal Singh Munda Astro Turf Stadium from January 12-26.

Additionally, HI said select

matches of both men's and women's categories will be held at alternate venues to "expand the league's reach".

"By foregoing revenue from ticket sales, Hockey India aims to build a stronger connection between the sport and its passionate supporters, encouraging more people to experience the thrill of live hockey," HI said in a media

release. HIL governing committee chairman Dilip Tirkey said, "By offering free tickets, we are ensuring that everyone, regardless of financial status, has the opportunity to experience live hockey at its best."

Both sides struggled to break down their opponent and goalkeepers made timely saves at each end. But in the 87th minute, just when it looked like a 0-0

draw was on the cards, West Ham took the lead thanks to a VAR-assisted penalty.

After a video review, referee Chris Kavanagh adjudged the ball to have struck Tyler Adams' hand and Lucas Paqueta made no mistake from 12 meters.

That would have been hard on Bournemouth, which enjoyed the better of the second half but came up against the man of the match in West Ham goalkeeper Lukasz Fabianski. But in the 90th minute, Ünal curled a free kick into the top corner to give the Cherries a deserved share of the points.

"Credit to him, big moment, especially the reaction as well, I thought the boys were Bournemouth brilliant," forward Ryan Christie told broadcaster Sky. "And it was a moment of magic to get us level."

There will be debate over the penalty decision and Christie lamented what he said was inconsistent decisionmaking from officials.

"I thought it was harsh," Christie said. "I know his Bournemouth climbed into sixth place, just two points hand is high but he's so close behind Manchester City, to the ball. We didn't get one while West Ham was 14th.

## A year of chaos and heartbreaks for Indian wrestling but not without hope for future

### PTI 📕 NEW DELHI

In an ideal world, politics and sport are not meant to be mixed. But then the world of Indian wrestling was far from ideal in 2024 with Vinesh Phogat's Olympic dejection and the neverending administrative chaos pulling down a once

flourishing sport. From the time when Wrestling Federation of India elections were held, exactly a year back, to the recent National Championships in Benglauru, Indian wrestling has seemed like a rudderless ship.

Not too long ago, wrestling had developed into a sport that promised unprecedented Olympic success but cut to Paris 2024, Aman Sehrawat's bronze medal was what saved the delegation the blushes

after Phogat's seemingly destined gold slipped through her grasp due to a cruel twist of fate.

She was, for better or for worse, the most intriguing story of Indian wrestling this vear.

She punished herself to fight in a lower weight category after her preferred class was already booked for the Olympics, downed the then unbeaten Japanese legend Yui Susaki in her opening round in Paris and then ended up disqualified for being 100gm overweight on the morning of the final.

A day later, she gave up on her sporting career, declaring that the fight had left her. She wasn't done though. Following an emotionally overwhelming homecoming which included a custom-made gold medal from that their fight against alleged

from Julana constituency. She wasn't the only one in her fraternity who decided on politics as future.

Bajrang Punia too joined the Congress but he did not get the same returns as Phogat. His position was that of a Kisan morcha head and his wrestling career was left stalled after coping a fouryear ban for failure to submit dope samples during training camps. This was after he

failed to qualify for Paris, a new low in the career of the celebrated grappler, who fetched a bronze in the Tokyo

It was a category which 2020 Tokyo Games silver-medallist Ravi Dahiya made his own. But Dahiya vanished from the scene due to spate of injuries that affected his form.

The Tokyo campaign, which yielded two medals in wrestling, should have been the catalyst for better infrastructure and coaching for Indian wrestler. However, the developments in the last 24 months have prevented growth.

The potential is still there and the biggest example was Indian U17 women team's world championship victory in Amman, Jordan in

The ground of suspension is announcing Nationals without following a 15-day notice period in December 2023. But the fact remains that if WFI had followed the notice period, wrestlers would have lost a crucial year because by the time the 15day period would have completed, year 2024 would have started.

WFI was forced to withdraw the team from the senior World Championship owing to pending litigation by Sakshi and and her wrestler husband Satyawart Kadian.

Eventually after government's intervention a team was finally sent.

No proper coaching camp has been organised in the last two years, the efforts to revive the Pro Wrestling League are on hold, grants and sponsorships have stopped, no foreign/personal coaches have been engaged and there is no planning to take the sport forward. If the situation could be summed up in a line, Indian wrestling is stagnant for now.

# Rahul, Jadeja fifties help India avoid follow-on in Brisbane Test

### PTI BRISBANE

L Rahul and Ravindra Jadeja were determination personified as their fighting fifties helped India avoid the follow-on on the fourth day of the weather-hit third Test against a menacing Australia that seems

meandering towards a draw. Jadeja (77, 123b, 7x4, 1x6) and Rahul (84, 139, 8x4) were the heavy-lifters in India's 252 for nine when bad light forced a early close to the day.

Jasprit Bumrah (10) and Akash Deep (27), who showed appreciable gumption, are holding the fort for India.

The visitors trail Aussies by 193 runs. But they wouldn't mind that one bit as Australia will now have to bat again and forcing a result in looks three sessions an improbable target, considering the Brisbane weather pattern. The city is bracing up for rain and

thunderstorm or two on Wednesday. A quick word of appreciation is

also required for No. 10 Bumrah

and No. 11 Akash Deep for knocking down the 33 runs required to go past the follow-on mark of 246.

The much-awaited moment came when Akash crunched Pat Cummins over gully for a boundary.

When these two joined forces, India were reeling at 213 for 9 after Jadeja was dismissed off a Cummins' snorter.

But while resuming from a waferthin overnight score of 51 for four, India needed someone to offer fight, and Rahul, India's standout batter in this series so far, did precisely that.

Rahul displayed admirable technical nous to withstand the stern test posed by the Australian bowlers to take the game deep into the day.

A nine toes down Rahul and an equally feisty Jadeja added 67 runs for the sixth wicket, and it was the first sign of India's fight.

There was a moment of massive Rahul was on 33 then. A quick fortune too for Rahul when Smith spilled a regulation catch at second slip off the first ball of the look upwards and a silent prayer showed how much he valued that

day from Cummins.

reprieve, which he exploited to the hilt, notching his 17th Test fifty. Once he woke up from a bit of morning haziness, Rahul looked a

expanse of the ground to play his favourite shot -- drive through the cover or in front of the point.

It was a dangerous proposition as there was enough movement and bounce for the Aussie pacers. But Rahul was prudent enough to see through that ruse. He did not bring out that shot until the bowlers pitched the ball well up in his driving arc.

The Bengaluru man's sagacity shone in how he defended too -all soft hands and playing close to the body.

Cummins tested him with that fifth stump line outside off, but Rahul either left the ball wisely or merely tucked his bat behind his pads. However, remarkable

redemption catch by Smith at slip off Nathan Lyon ended his stay. But Jadeja carried on and he added 53 runs for the seventh wicket with Nitish Reddy to keep India affect India afloat.

The 36-year-old scored a good chunk of runs either down the ground or square of the wicket, enabling him to collect runs

without the risk of getting caught behind or in the cordon.

Jadeja brought up his 22nd fifty in Test cricket off 89 balls and the innings was also dotted with sweep shots that he effectively employed against off-spinner Lyon.

Nitish should also be patted for giving some solid company to Jadeja as batting for time was more important than the volume of runs considering the weather situation in this Test.

However, a slice of misfortune ended Nitish's stay as he dragged Cummins' climbing delivery back onto his stumps. Jadeja also soon departed while trying to farm the strike with Bumrah. He looked to smash Cummins

rising delivery out of the ground but Mitchell Marsh settled nicely under the ball to give a heap of frayed nerves to Indian fans.

partnership foils

Australia's plans

Australia assistant coach Daniel Vettori admitted that a resilient partnership between Indian tailenders

Jasprit Bumrah and Akash Deep foiled their plans to

enforce a follow-on, while also defending the decision

not to declare the home team's first innings in the

third Test which seems heading towards a draw.

But Bumrah and Akash added 39 runs to put the smiles back on their faces, as Aussies dearly missed the metronomical Josh Hazlewood, who was ruled out of the series with a calf injury.

## New Zealand beat England by 423 runs in the 3rd test

### AP HAMILTON

aptain Ben Stokes was Unable to bat because of a hamstring injury on Tuesday as England slumped to a 423run loss to New Zealand before tea on the fourth day on the third cricket Test. Stokes strained his left hamstring while bowling on the third day and could not take the field as England was bowled out for 234 as it chased an impossible target of 658 for victory.

New Zealand's winning margin matched its largest by runs of a 423-run win over Sri Lanka in 2018 and prevented England from completing a series whitewash. England had an unassailable 2-0 lead in the series after winning the first test by eight wickets and the second by 323 runs. "You can't fault any of the energies or efforts we put into this game, particularly in the field," Stokes said. "It's obviously not ideal to end the tour on this note but we've come here against a New Zealand team which is very strong and full of confidence after beating India in India 3-0. So to come here and lift that trophy at the end proves we played some very good

England resumed its second innings Tuesday at 18-2 after losing the wickets of Ben Duckett and Zak Crawley late on day three after New Zealand, leading by 204 on the first innings, was dismissed for 453.

Joe Root made 54 and Jacob Bethell 76 in a 104-run partnership for the third wicket which briefly fanned England's hopes that it might somehow endure for two full days to draw the match. But dogged perseverance is not a first day and the start of the feature of England cricket in second was a display of the "Bazball" quick-scoring resilience which had been era and instead it maintained a policy of all-out attack before the final wicket fell midway through the second session. After lunch Gus Atkinson blasted 43 from 41 balls with seven fours and a six and Ollie Pope made 17 but wickets fell steadily and the result became inevitable. "I think anytime you finish a series with a win when you've been behind is pleasing," New Zealand captain Tom Latham said. "We weren't at our best in those first two games but the way we came here on a wicket that was slightly different to the first couple and we adapted was very Cricket.

pleasing." New Zealand's win owed a great deal to the contribution of Mitchell Santner in the first innings who made 76 batting at No. 8 and worked with Matt Henry, Tim Southee and Will O'Rourke to add 116 runs for New Zealand's three wickets. That allowed New Zealand to reach 347 after losing the toss and being sent

Santner's last-wicket stand with O'Rourke which lasted missing from New Zealand's performances in the first two tests.

Australia pacer Josh Hazlewood is likely to miss the remainder of the Border-Gavaskar Trophy against India due to a right calf strain that he sustained during the ongoing third Test at the Gabba, Cricket Australia said on Tuesday. The niggle has also ruled Hazlewood out of the Brisbana Test weakening

Brisbane Test, weakening Australia's bowling attack.

"Josh Hazlewood has sustained a right side calf strain which will prevent him from playing any further part in the Test match against India in Brisbane," Cricket

Australia said in an official statement

"He is likely to miss the remainder of the Test series." On Tuesday, the New South Cummins, senior cricketer

Wales player bowled just one over before walking out of the field following a discussion with captain Pat

Steven Smith and team physio Nick Jones. Hazlewood later underwent scans to ascertain the severity of the injury.

The 33-year-old had nicked off star India batter Virat Kohli on Monday, the third day of the match, with a fine delivery outside the offstump.

Hazlewood made his return to the side for the third Test after missing the Pink Ball Test at Adelaide due to a side strain.

He had replaced fellow pacer Scot Boland, who played in the day-night Adelaide Test, in the Australia eleven for the ongoing Brisbane Test.

Akash Deep, making his debut in Australia, walked in to bat at 213 for 9, with India still needing 33 runs to avoid the follow-on that could have cost them the game. Alongside pace spearhead Bumrah, he guided India to 252 for 9, frustrating the

home team. Australia had ended day three on 405 for 7 but chose to bat, consuming a considerable amount of

game time on a rain affected day four rather than declare their innings.

## Can 'Guru' Gambhir and Nayar offer cogent solutions to technical flaws in batters?

### PTI 📕 NEW DELHI

Robit Sharma and Virat Kohli are maximum criticism for being walking wickets during the ongoing Test series against Australia but even Shubman Gill, Yashasvi Jaiswal and Rishabh Pant haven't shown the patience needed to survive Down Under, indicating a larger problem.

Patience is a virtue that one develops over time and Kohli had once showed how it's done during his golden phase between 2014 and 2019. KL Rahul, blessed with sound technique, has displayed that during the current series with scores of 77 and 84 in Perth and Brisbane.

In case of Jaiswal, save his second innings knock of 161 at Perth, a shuffle across the crease is making him a candidate for leg-before.

Gill loves to play on the rise outside the off-stump and away from his body and could be impatient when one bowls the stump and even for Pant, a compulsive stroke player, the ball that leaves him from five metre length with adequate bounce, is creating issues.

So, will head coach Gautam Gambhir and his deputy Abhishek Nayar, who is highly regarded in

"Mind Coach and Life Coach rolled into one", do anything about it? A former India great, who didn't wish to be named, offered his perspective.

"Not all great players or players of repute happen to be great coaches. They might have done some incredible things as players and knew what to do and how to react during a particular situation," the veteran of 100-plus Tests said.

"But coaching is science and not many can tell why certain things need to be done. Even Gautam used to play with hard hands and dab towards slips in Australia and England.

"You can still work with younger guys but difficult to mould the older ones who don't get enough time to work on their game in a packed calender," he added.

Watching the dismissals of especially Kohli in Australia, which seemed like a replay of previous ones, has led to growing concerns. Everyone understands the technical flaw, but can anyone provide the corrective measures to break the rut?

Rohit, barring the England tour in 2021, he does not really have a track record in SENA countries in Tests. But with Kohli, the problem of Mumbai cricket circuit for being a reaching for deliveries on and

outside off-stump the has resurfaced once again and has been a persistent issue for quite some time.

Sanjay Manjrekar's tweet is worth taking note of.

scrutinise the role of a batting coach in the Indian team. Why major technical issues have remained unresolved for so long with certain Indian batters?" he asked

"I guess the time has come to Manjrekar's view raises questions

on the role of Sanjay Bangar, Vikram Rathour, and now Nayar. Their official designation might be assistant coach, but they essentially are batting coaches.

Devang Gandhi, who was a touring selector between 2016-17 to 2020-

21, had a more nuanced take compared to the veteran India star. "It would be very easy to target Nayar as a low hanging fruit or for that matter Gautam," Gandhi, who has coached the Delhi Ranji team and Bengal U-19, told PTI during a conversation.

"But they have just come into system. To discuss or nudge a player, first you need to be around for some time and once there is some kind of mutual trust between the two, you can offer him solutions. But at this level, it is more about the experienced player's own

mental make-up." So what is Kohli's problem? Gandhi, a former Test opener and an NCA Level-2 coach, believes it's all about his mental approach. "If you watch his training videos that are available for public, I find him doing all the right things. During training he is playing close to his body. But the moment it is the match situation the hands are

the match situation, the hands are moving towards those channel deliveries like conditioned reflex or muscle memory," he explained.

Gandhi then blamed it on the rising T20 engagements.

The moment his bat is away from the body, the bat-face will open up towards cover. Now this is a white ball problem of hitting through the

line. In India the ball will hit the bottom of the bat but in Australia, it will towards the upper part.

"What solution can Gambhir or Nayar possibly give, apart from telling him to not play those deliveries?

"After 30 Test hundreds, Virat doesn't need to be told that but at 36, does he have that patience to accept that now if he scores a hundred, it will be off 200 balls and not 140 like earlier times? Can he bide those extra 60 balls?," Gandhi questioned.

Sachin Tendulkar's epic 241 in the 2004 New Year's Test in Sydney is often cited as a prime example of patience. He didn't hit a single cover drive until he scored his double hundred.

"It's about controlling the mind. You can be a sounding board for players like Tendulkar and Kohli but at this stage, you can't coach them. Coaching happens at junior level," Gandhi added.

But can a Gambhir or Nayar help Kohli find a solution?

"Of course, at some point, honest conversations are necessary. But first, they should ask him what his corrective options are and then offer their own if they have something different to contribute," Gandhi concluded.
