Congress, BJP spar over Ambedkar legacy

PIONEER NEWS SERVICE NEW DELHI

massive confrontation broke out between the ABharatiya Janata Partyled Centre and other ruling parties, and the Congress-led Opposition over Home Minister Amit Shah's remarks on BR Ambedkar during his speech in Parliament on Tuesday, with the Congress and other opposition parties demanding resignation of the Home Minister on grounds of insulting the architect of the Constitution.

The attack from virtually all opposition parties, including Congress, Trinamool Congress (TMC), Dravida Munnetra Kazhagam (DMK), Rashtriya Janata Dal (RJD), Left parties and Shiv Sena-UBT, led to adjournment of both Houses of Parliament and prompted the BJP, led by Prime Minister Narendra Modi, to come out in stout defence of Shah.

The hullabaloo in Parliament also spilled on to the streets of the national Capital and places as far as Maharashtra, Bihar and Tamil Nadu.

president Congress Mallikarjun Kharge and senior leader Rahul Gandhi, TMC supremo Mamata Banerjee, DMK chief MK Stalin, Shiv Sena-UBT chief Uddhav Thackeray and RJD leader Tejashwi Yadav were among those who slammed Shah for his remarks.

T N RAGHUNATHA **T**n a major mishap, as many Las 13 persons, including an Navy man, lost their lives, while more than 99 other tourist passengers on board a private ferry boat were rescued after it was hit by a speed boat belonging to the

Indian Navy in the Arabian Sea, off the Gateway of India south Mumbai on in Wednesday. Confirming that the mishap took place due to a hit by a Navy vessel, a Defence spokesperson said late in the evening: "At about 1600 hours on December 18 a Navy craft undergoing engine trials lost control and collided with a

passenger ferry Neel Kamal off Karanja, Mumbai. The ferry was carrying passengers from Gateway of India to Elephanta Island. The accident has reportedly led to the tragic loss of 13 lives including one Navy man and two Original Équipment Manufacturer (OEM) personnel onboard the Naval craft," the Defence spokesperson said. The Navy pegged the number of survivors at 99. "The survivors -- picked up by the Navy and civil craft in the area -- have been transferred to jetties and hospitals in the vicinity," the Defence spokesperson said. The private boat named "Neel Kamal" with many passengers on board was on its way from the Gateway of India to the Gharapuri Island, where there is UNESCO World Heritage Site of Elephanta Caves. The Indian Navy boat had six persons on board.

Coast Guard

Search and rescue efforts were immediately launched by the Navy in coordination with the Coast Guard and Marine Police. Four Naval helicopters, 11 Naval craft, one Coast Guard boat and three Marine Police boats are undertaking rescue efforts. Given that the collision between the two vessels was very intense, there were casualties from both the passenger boat and Navy vessel

Owing to the impact of the hit, 'Neel Kamal' broke down, overturned and sank with the passengers on board thrown into the sea. Before long, the videos of the tragedy, clicked by passengers from other ferries in the vicinity, showed ghastly shots of people screaming for help, throwing their arms and legs to remain afloat or attempting to hold their near and dear ones from sinking in chilly sea waters. The mishap took place off Uran-Karanja, which falls in

the Raigad district, at around 4 pm, immediately after which a massive multi-agency Search and Rescue (S&R) operation was launched. "Accounting of all personnel is in progress along with S&R efforts in the the chief Navy area, spokesperson said. Teams of the Indian Navy, Indian Coast Guard, Mumbai Police and Jawaharlal Nehru Port Authority are involved in the operations. Eleven Navy boats three Marine Police boats, one Coast Guard boat and four helicopters are involved in the S&R operations.

Talking to media persons, the owner of the vessel, Rajendra Padte, said that the 'Neel Kamal' had departed on its regular tourism voyage to Elephanta Islands around 3.15 pm and barely a couple of hours later the mishap was reported. He claimed that his ferry vessel had no role to play in the mishap.

NCR's noxious numbers: AQI is over 445

STAFF REPORTER NEW DELHI

Delhi woke up to yet another day of toxic air on Wednesday as the overall Air Quality Index (AQI) crossed a hazardous 445 (almost severe plus), landing in the 'severe' category. With a minimum temperature of 7.6 degree Celsius, dense fog enveloped the city, severely impacting visibility and making the already hazardous air quality even more dangerous. According to the Decision Support System for Air Quality Management, with 12.857 per cent transport sector is the key contributor to air pollution, followed by Industries (6.617 per cent), Road Constructions (1.85 per cent), Waste (1.23 per cent)

and dust (0.913 per cent). Delhi has been experiencing toxic air quality for the past few days due to drop in wind speeds, allowing local pollutants to concentrate in the atmosphere, according to experts. On Tuesday the city's 24-hour average AQI was 433 at 4 pm, against 379 on Monday.

Train services affected in **Punjab due to farmers' protest**

PNS CHANDIGARH

In the wake of farmers' protest, train services in Punjab were affected as farmers squatted on rail tracks at more than 50 places on Wednesday as part of their three-hour 'Rail Roko' protest to press the Centre to accept their various demands, includ-ing a legally binding minimum support price (MSP) for

crops. The call for the 'rail roko' was given by the Samyukta Kisan Morcha (Non-Political) and Kisan Mazdoor Morcha. Kisan Mazdoor Morcha leader Sarwan Singh Pandher said farmers blocked rail tracks at many places from 12 noon to 3 pm as both state and central governments had deliberately adopted an indifferent approach towards them.

According to railway authorities of the Ferozepur division, 12 trains were cancelled, two each were short-terminated and short-originated and 34 trains were delayed because of farmers' protest at 52 places. Among the trains can-celled were Jalandhar to Hoshiarpur, Amritsar to Qadian, Pathankot to Verka and Hoshiarpur to Jalandhar City. Trains that were delayed were stopped at places where passengers could get tea and meals, the officials said.

Protesting farmers blocked train routes at many places, including Moga, Faridkot, Kadian and Batala in Gurdaspur; Phillaur in Jalandhar; Tanda, Dasuya, Mahilpur in Hoshiarpur; Makhu, Talwandi Bhai in

Ferozepur; Sahnewal in Ludhiana; Shambhu in Patiala; Mohali; Sunam and Lehra in Sangrur, Rampura Phul in Bathinda and Devidaspura in Amritsar. The Humsafar Express from Jammu to Sealdah, Dadar Express from Amritsar to Mumbai and Shane-Punjab Express from New Delhi to Amritsar were halted at different platforms of the

Ludhiana railway station. The Shatabdi Express coming from New Delhi for Amritsar was halted at Khanna railway station. In Hoshiarpur,

farmers blocked the Jalandhar-Jammu rail track at railway stations Bhangala, Dasuya, and Tanda. They also blocked the rail-road crossing at Mandiala village and the Hoshiarpur Railway Station on the Jalandhar-Hoshiarpur section, disrupting rail traffic in the area. Due to the rail blockade, a train from Jammu to Ahmedabad was halted at

Mukerian Railway Station. In Amritsar, farmers blocked the Amritsar-Delhi rail track as they squatted on the track at Devidaspura village near the Manawala railway station. Farmer leader Pandher said the farmers were demanding a legal guarantee of MSP for crops, along with debt waiver, and pensions for farmers and labourers. He alleged that both state and central governments had "deliberately adopted an indifferent approach towards the farmers" On the Ambala-

Chandigarh railway line, hundreds of farmers squatted near Sarsini village of Punjab, about 5 km from Ambala City. Farmers under the banner of

Samyukta Kisan Morcha (Non-Political) and Kisan Mazdoor Morcha have been camping at Shambhu and Khanauri border points between Punjab and Harvana since February 13 after their march to Delhi was stopped by security forces.

For the past three weeks, Punjab farmer leader Jagjit Singh Dallewal has been on a fast-unto-death at the Khanauri border point between Punjab and Haryana to press the Centre to accept the agitating farmers' demands, including a legal guarantee of MSP on crops. A "jatha" (group) of 101

PNS CHANDIGARH

Haryana Congress leaders, legislators and workers under the leadership of former Chief Minister Bhupinder Singh Hooda on Wednesday carried out a march to Raj carried out a march to Raj Bhavan from its party head-quarters, Sector 9 in Chandigarh on farmers' demands. The Congress leaders raised the slogans by demand-ing fulfillment of farmers' demand of legal guarantee of the same promise. BJP had announced to double the demand of legal guarantee of MSP on crops and other issues.

Talking to reporters, Hooda said that Congress wants to draw the attention of the government towards farmers, along with all other issues. "BJP should find a solution soon by talking to the agitating farmers, because the health of farmer leader Jagjit Singh Dallewal, who has been on a hunger strike for 22 days, has become very worrying. His life is precious for everyone. Hence the government should immediately resolve his demands and end the hunger strike," he added

Hooda said Congress is in a peaceful manner," he said.

HIMACHAL GOVT INVITES SUGGESTIONS FOR BUDGET 2025-26

Shimla: The state government has started the process of formulation of the state budget for the financial year 2025-26. In order to make the budget more people-centric, participative and reflective of the views of various stakeholders in society, the government has invited suggestions from the general public, industries, trade and farmers associations on the budget. A spokesperson of the state government said that the suggestions could be sent by e-mail at budgetidea.hp@gmail.com or by letter to the Principal Secretary (Finance) in his room No: A-319, Armsdale building, HP Secretariat, Shimla by 31st January, 2025. Suggestions can also be sent on the web portal of the finance department. The suggestions can be provided on increasing revenue receipt, expenditure control and other related matters for the budget. It will promote transparency, responsiveness and a participatory approach in budget preparation.

HERC ANNOUNCES PUBLIC HEARING TO DISCUSS NEW ELECTRICITY TARIFF

Chandigarh: The Haryana Electricity Regulatory Commission (HERC) has announced a public hearing to discuss new electricity tariffs and projected revenue requirements for power companies in the upcoming fiscal. The hearing is set for January 15, next year, at the HERC headquarters in Panchkula. HERC Chairman Nand Lal Sharma will preside over the hearing, along with member Mukesh Garg, to hear arguments from stakeholders. The primary goal of the public hearing is to ensure transparency and a fair decision-making process regarding proposed revisions to elec-tricity tariffs. This hearing provides stakeholders, including consumers, with an opportunity to voice their concerns and opinions on the petitions filed by the power utilities. The commission strives to balance the financial needs of power companies with the interests of electricity consumers, promoting dialogue and ensuring that decisions are made justly and equitably. The public hearing will address petitions submitted by Haryana's key power utilities, including Haryana Power Generation Corporation Limited, Haryana Vidyut Prasaran Nigam, Uttar Haryana Bijli Vitran Nigam and Dakshin Haryana Bijli Vitran Nigam.

PUNJAB MINISTER DIRECTS TO RELEASE RS. 28 CRORE FOR PREGNANT WOMEN AND LACTATING MOTHERS

Chandigarh: Social Security, Women and Child Development Minister Dr. Baljit Kaur on Wednesday issued orders to immediately release Rs. 28 crore to about 70,000 beneficiaries to ensure the nutrition and good health of pregnant women and lactating mothers. In a statement, she mentioned that, during October 2024, financial assistance amounting to Rs. 22 crore has been transferred directly into the accounts of 65478 women beneficiaries under Matru Vandana Yojana scheme. This assistance was provided for the birth of the first child and the birth of a girl child as the second child.

Pb should hold talks with their farmers & find solutions to their problems: Hry CM

PNS CHANDIGARH

Haryana Chief Minister Nayab Singh Saini on Wednesday said that the Punjab Government should hold talks with their farmers and find solutions to their problems. Congress and their allies should prioritise giving Minimum Support Price (MSP) to the farmers' in their own states instead of politicising farmers' issues.

Talking to reporters in Bhiwani, Saini said that Congress ruled the country for many years, yet failed to work for the welfare of farmers. women, youth, and the underprivileged. If Congress had people, they would have the public's support today. Instead, they spent their time blaming and discrediting EVMs after every loss, he added. Saini said that central and state governments have implemented several schemes for the welfare of the farmers, the poor, youth, and women over the past decade, benefitting every section. Apart from this young individuals have been employed on the basis of merit without any 'Kharchi and Parchi'. in favor of AAP candidates for the municipal corporation elections, he led a roadshow with party leaders and workers, appealing to people to ensure the victory of AAP candidates.

Addressing the people, Mann outlined a comprehensive plan for Jalandhar's development and reiterated the party's promises to curb pollution in Jalandhar city and enhance public transport by introducing electric buses with modern charging stations, eliminating garbage moun-tains, and creating a better sewage system.

The roadshow saw the presence of AAP Punjab President Aman Arora, Working President Sharry Kalsi, Cabinet Ministers Mohinder Bhagat, Harbhajan Singh ETO, Dr. Ravjot Singh, along with Jalandhar's MLAs, councilor candidates and a large number of party workers.

He highlighted the government's achievements in the fields of health and education and said his government has eradicated the mafia system that had plagued Punjab for years. Taking a dig at Akali-BJP and Congress leaders, he said, "We do not take a share in sand mines, buses, and dhabas; we share the joys and sorrows of the 3.5 crore people of Punjab."

Not again!

Delhi air quality once again plummets to unbreathable 'severe' category despite GRAP IV

You may not be a smoker but you are still smoking 10 cigarettes a day if you happen to be in Delhi. This is what the doctors have to say about Delhi pollution. The capital witnessed a sharp decline in air quality on Wednesday, with the Air Quality Index (AQI) crossing the 400 mark and entering the 'severe' category once again. This alarming situation unfolded despite the implementation of Stage 4 of the Graded Response Action Plan (GRAP), which entails stringent anti-pollution measures. Monitoring Stations Report Severe-Plus AQI Out of the 37 monitoring stations listed on the Sameer app. These figures highlight the widespread and acute nature of air pollution across the city. GRAP, a tiered system of air quality management, categorises air quality into four stages based on AQI levels: Stage I (Poor, AQI 201-300) Stage II (Very Poor, AQI 301-400) Stage III (Severe, AQI 401-450) Stage IV (Severe Plus, AQI above 450) Under Stage IV, measures such as a complete ban on construction and demolition activities, including

public infrastructure projects and the prohibition of diesel trucks carrying non-essential items entering Delhi are enforced. Offices—public, municipal and private—are advised to reduce staff attendance to 50 per cent, with the rest working from home. Additional measures like the closure of colleges, non-essential businesses and odd-even vehicular restrictions are considered during such extreme conditions. Despite these restrictions, Delhi's air quality has continued to deteriorate, raising questions about the efficacy and enforcement of these measures.

However, experts feel that it is more due to metrological conditions and not a failure of GRAP. They attribute

the sudden spike in pollution levels to unfavourable meteorological conditions, particularly a significant drop in wind speeds. The stagnation allows local pollutants to accumulate, exacerbating the already critical air quality. During winters, Delhi's air pollution crisis is compounded by a combination of factors. Vehicle emissions is a primary contributor to the city's air pollution. Besides vehicular pollution, paddy straw burning adds to the pollution burden. Factories emit significant quantities of pollutants. But right now it is the dip in temperatures. During winters heavy air traps pollutants near the ground, creating a thick layer of smog. The hazardous air quality in Delhi poses severe health risks to its residents. Prolonged exposure can lead to respiratory ailments, cardiovascular issues and other chronic conditions. Vulnerable groups, including children, the elderly, and those with pre-existing health conditions, are at the highest risk. This is not the first time Delhi's air quality has entered the severe-plus category this season. In November, similar conditions led to the imposition of GRAP Stage IV. The recurrence of severe pollution highlights the cyclical nature of Delhi's air quality crisis, driven by a mix of local and regional factors. Unfortunately, authorities lack a comprehensive plan to address the issue, relying instead on knee-jerk reactions and ineffective quick fixes.

Year 2025: Prophecies, politics and progress

KALYANI **Shankar**

From hosting grand spiritual and political events to navigating economic growth and political turbulence, 2025 is poised to be a year of transformation and change

hat does the crystal ball reveal about the upcoming year 2025? The predictions are a mixed bag. Nostradamus, the famous French astrologer and seer, has made significant predictions regarding global affairs and India's future for 2025. The 16th-century seer has predicted significant events that have shaped our world, from the COVID-19 pandemic to the moon landing, lending credibility and a sense of awe to his predictions. People today are trying to interpret the 16th-century seer's prophecy, impressed by his historical accuracy. Nostradamus has predicted that the ongoing Russia-Ukraine war may end in 2025.

He warned that both nations could face climate change and floods. According to the New York Post, Turkey and France could significantly facilitate the peace process between Ukraine and Russia. Nostradamus also foretold an 'ancient plague' in England in 2025, indicating a resurgence of a historical dis-ease and the resolution of Brazil's involvement in the Russia-Ukraine conflict and various natural disasters. Additionally, Nostradamus has predicted that the earth may be

hit by a asteroid. He said 'From the cosmos, a fireball will rise, a harbinger of fate,' could engage us in potential future events with profound and concerning implications.

As for India's future, the year begins with the 2025 Republic Day parade. The theme is Swarnim Bharat: Virasat aur Vikas. It is yet to be finalised who will be the chief guest. On the religious side, the next Maha Kumbh Mela will be held in Prayagraj, Uttar Pradesh, from January 13, 2025, to February 26, 2025. The Mela is a grand and holy spiritual gathering every 12 years at a rotating location. Millions of pilgrims rush to the venue to

nificant improvements in technology education and renewable energy. These efforts and chances for economic development give a positive outlook for India's future prosperity. India is becoming more critical globally by working closely with other major economies in trade, defence, and climate efforts. This shows India's growing political power. At the domestic level, a critical issue facing the Opposition coalition, INDIA, is its cohesion. Already, some tensions have emerged. The Trinamool Congress and the Aam Aadmi Party (AAP) have distanced themselves from the alliance. The AAP plans to contest the Delhi Assembly elections independently.

The cracks within were visible in the latest Haryana, Maharashtra, and Jharkhand Assembly polls. While the Congress has done poorly in Haryana and Maharashtra, it is in coalition in Jharkhand with the JMM. The partners in the coalition are unhappy about the Congress's dismal performance. They are watching how Congress performs in the upcoming Deini

AND RENEWABLE ENERGY of political realignment. Delhi will hold Assembly elections in February, with the BJP looking to unseat Aam Admi Party chief Arvind Keiriwal. The AAP has faced many

challenges, including corruption allegations against several leaders in the recent past. As a tactic, the AAP has appointed Athishi as a temporary chief minister for the polls. The AAP and Congress were partners in the Lok Sabha elections. While AAP performed reasonably well, the Congress got no seats.

Bihar will also have elections this year. It is politically a critical state. The ruling NDA, led by Chief Minister Nitish Kumar, may face intense competition from the Mahagathbandhan, headed by Rashtriya Janata Dal (RJD) leader Tejashwi Yadav. The BJP and the JD(U) are working to retain the state.

Two political organisations the Rashtriya Swayam Sevak Sangh (RSS) and the CPI will celebrate their birth centenary. The RSS will complete 100 years in September,

politics and society now making it hard for future governments to weaken their power. At the same time, communist parties have less impact now, as right-wing parties are becoming more popular. On international affairs, India will hold the Quad Summit, originally scheduled to be held in New Delhi this September, which was relocated to New York due to a scheduling conflict among the attending leaders. Now, India will host the QUAD summit in 2025.

The US President Trump will likely visit New Delhi for the summit, further revealing India's position in international affairs. Another important visit is that of Russian President Putin, in the first half of next year. The Kremlin has said it will set a date early next year. It will be Putin's first visit since the Ukraine conflict began.

Overall 2025 will be a mixed year for India. The economy is progressing well, and foreign relations are stable, but the political situation remains unclear. By next year, Congress could recover, or the BJP and the regionai satrap s would have a fur ther hold on the electorate. (The writer is a popular columnist; views expressed are personal)

Preparations underway in Prayagraj for Mahakumbh 2025

BINOD TAKIAWALA

Prime Minister Modi visits the Triveni Sangam, offers prayers and reviews the arrangements for the world's largest spiritual gathering

Tear 2025 is going to wit-ness the largest religious gathering of humanity at Prayagraj -Mahakumbh. The prepara-

tions are already in full swing. Prime Minister Narendra Modi reached the holy city of Prayagraj, the land of pilgrimage, to oversee preparations for the grand Mahakumbh. This becomes even more significant at the confluence of three holy rivers-Ganga, Yamuna, and the mythical Saraswati. At this Triveni Sangam, the auspicious gathering of saints and sages during Mahakumbh elevates it into a grand event. The significance of Mahakumbh lies in its occurrence every 12 years, an event described in depth in our religious texts and Puranas.

According to the estimates of government of Uttar Pradesh, over 45 crore people will attend the Mahakumbh Mela 2025. This makes it the world's largest religious gathering. Though everybody would like to take a dip at Sangam, but there are other centre of attractions too. Among the ancient temples of Prayagraj, the Nag Vasuki Temple holds a special place. DISTRACTING FORM ISSUES

Madam -- The introduction of 'One Nation One election' bill is a conscious attempt to waste the precious time of the parliament, and it is definitely timed to divert the attention of all from crucial issues like Manipur, serious allegations over Adani Group's misconducts, inflation, declining growth rates, the stunningly widening gap between the haves and the have-nots, and the fast deteriorating relationship with many countries. The ruling dispensation, in spite of being aware of a lack of enough strength to get this amendment bill through, tabling it in the parliament displays the intention behind its introduction. Moreover, the reasons counted upon to place this bill do not sound either logical or rational.

Losing majority support and deciding to refer the bill to the Joint Parliament Committee is a preplanned act deliberately meant to divert the course. It has already been explained by many quarters that the very idea of this proposal runs against democratic norms, as the demands of the people vary from a state and central government and are altogether different from local bodies. The narratives of national parties are sure to sway over the elections of state assemblies and the local bodies. The claims about expenditure do not deserve to be considered. Claims of hurdles to development programmes are not correct, as the restrictions are only for the launching of new projects during the notified period. Above all, the inability of the Election Commission to hold such a huge project is visible from the time schedule it keeps up to hold elections. Therefore it is not good to waste huge resources and take away the time of parliament sessions.

oa's Liberation Day is celebrated on December 19 and has its importance in the history of Goa. This is the day when Goa got her freedom from the dominant rule of the Portuguese with the help of the Indian armed forces and the navy. The Liberation of Goa was rather a historic event. She has rightly said that it is the moral responsibility of every rightthinking individual, including all those Israeli citizens who do not believe in hatred and violence and every government in the world, to condemn the Israeli government's genocide actions and force them to stop. On her first day speech in Parliament, she raised the issues of Bangladesh and Modi's government's failure to negotiate with Bangladesh.

In her 32-minute speech, she talked about key issues like the BJP's alleged attempt to change the constitution, the growing monopoly of the Adani Group, atrocities on women, incidents of violence in Sambhal and Manipur, and the demand for a nationwide caste census. She has also met the victims of the Unnao rape case, the father of the Hathras rape case, and the Sambhal violence victims. She has also raised the iconic frame of India's greatest military victory, a painting of the Pakistan army signing the instrument of surrender in Dhaka on December 16, 1971. We

Towards the end of 1961, after various unsuccessful talks, the Indian government deployed armed forces.

On December 17, 1961, more than 30,000 Indian ground troops with the help of the Indian Air Force and the army conquered the 3,000member ill-prepared Portuguese navy. There were a few more armed acts following that. The rest of the Portuguese colonies of Daman and Diu were also overpowered. The complete buildup of the Portuguese colonies shaped the Union Territory of Goa. Daman and Diu. The total army operation-'Operation Vijay'-was' performed almost without any violence. DILJIT WANTS BETTER CONCERT INFRA

Madam — Punjabi superstar Diljit Dosanjh recently announced during his performance in Chandigarh that he would not hold any concerts in India until the government improves the country's concert infrastructure. India boasts a large number of talented singers who represent the nation globally and deliver phenomenal performances in international concerts. However, within their own country, they face inadequate concert infrastructure and a lack of basic facilities. This is concerning, as well-organised concerts could serve as a significant source of revenue and provide livelihoods to thousands. It is high time that the government recognises the potential of the music industry and invests in developing world-class infrastructure to support artists and their audiences.

POSITIVITY

By embracing spiritual self-reflection and cultivating positivity, we can rise above turmoil

RAJYOGI BRAHM KUMAR NIKUNJ JI

owadays there seems to be a crisis, disappointment and conflict of duality at every step of life. How do we deal with this? How do we prevent the self from becoming pessimistic or disheartened? Today the great modern disease of human consciousness is all about looking outward to find means to derive happiness without examining the inner self, values, attitudes and motives; relying and depending more on the external signals and hoping for the best. However, in practicality, life cannot be created with such hopes, as there are no shortcuts to achieving happiness. In today's world, no individual and nothing can create a permanent state of wellbeing within us, as it is our prerogative and responsibility. The external factors can contribute, guide and inspire us but ultimately our life is what we make out of it.

True happiness or a lack of it does not come from external things but from what is inside oneself. For example, money is not the means to happiness nor is it the cause of one's unhappiness. In reality, it is our attitudes and values that determine the use or misuse of external instruments, whether that is money, a person, an event or an object. A life that has value and is worthy of living is only possible when there is a reflective examination through which there can be illuminating change. So, to reorientate our consciousness, we would require a consciousness based on self-knowledge i.e the knowledge of the spiritual self which creates self-respect and positivity, enabling us to gain the right perspective on life which in turn would help us to deal with any kind of negativity in a balanced and less painful way. Accordingly, with positivity, we

experience inner strength to cope with external issues affecting the sense of balance in our lives. When we are more positive towards ourselves, obviously we express the same attitude towards others and in all situations. Inner strength also comes when we interact with others in such a way that love, peace and happiness are honestly expressed and experienced.

The pivotal point is "honesty" because there cannot be a sense of fulfilment through falsehood, imitation or duality expressed through attitude. Hence the need of the hour is to live a life based on "Eternal Spiritual Principles" that would allow us to keep a positive attitude towards the self and others, thereby making our life joyful rather than conflicting or a bundle of confusion. Spirituality is not a system or technique of worship or ritual, it is in essence, knowing how to lead a life and through this knowing there is happiness. A spiritual person has found that spark of eternal reference within, which gives him or her not only deep contentment but also a sense of purpose. The first prerequisite for spirituality is a life that functions appropriately and thinks and cares about one's self in the most decent way. Thinking and caring about one's self inappropriately creates too much dependence on others, too many needs, too many demands, too much possessiveness. So the right way to proceed is to first examine oneself and then acknowledge the positive abd the negative traits within us. By doing so, we get the courage to change whatever needs to be transformed without any kind of fear and, without pretence. The basis of successful change for betterment is to understand the attitudes, feelings and motives that drive us for the change by accepting the original positivity of the self, the immortal goodness of the soul. It is this goodness of the self that forms the foundation of our dignity as human beings. The expression of this original goodness in our life is what is called 'divinity' which makes us truly human. So let us awaken the expression of the divine within us to live a fulfilling joyful life amidst all the chaos & crisis around

Education: From Kothari Commission to NEP-2020-

analys \$ 07

The educators and policymakers are called upon to transcend ideological divides and lead India toward inclusive progress and innovation

he most comprehensive initiative in education in post-inde-pendence India was the report of the National Commission on Education, usually referred to as the Kothari Commission. İt submitted its report entitled "Education for National Development' on June 29, 1968. The first two sentences say it all: "The destiny of India is now being shaped in its classrooms. This, we believe, is no rhetoric." It was this report that led to the first national education policy of 1968. For the first time, science and mathematics became compulsory for both boys and girls up to tenth standard!

Yes, it was generally believed that only boys could handle the tough subjects of science and mathematics, and girls could opt for lighter options of spinning weaving, home science; and the like! The compulsory study of science and math was resisted and opposed as being unjust and unfair to girls! This one change transformed the lives of millions of girls and has brought global accolades to the Indian advancements in the world of science, technology, ICT and space research. Policies once formulated and formalised deserve support in vigilant implementation, persistent monitoring, and scrutiny based on their relevance 'in the great enterprise of national reconstruction'. India today has great challenges ahead, both national as well as global. It has the manpower and enough experience to confront these successfully. In the third decade of the 21st century, it's the quality of education and skill acquisition that would equip India shall remain its prime contributory tool against every challenge. The content and process of education shall have to specifically equip itself against nurtured negativity, increasing mutual distrust and ballooning bitterness in public life. Solutions shall certainly not emerge from those that thrive only on negativity and are illequipped to see light and positivity around them

Who must come forward and accept responsibility to normalise such an unacceptable socio-cultural environment? Why not ask the Gandhi ji? Once, before independence, one Dr Mote posed a query to Mahatma Gandhi: what he thought was the greatest prob-lem facing his country! The expected answer could have been, in those days, related to slavery, poverty, illiteracy, ill health, or in the social context. THE CONTENT

While narrating it in his Gandhi AND PROCESS Katha, Narayan Desai tells the audience: that the answer was the OF EDUCATION callousness of the intellectuals'! SHALL HAVE Narayan Desai Goes ahead: "Give it a thought. If we stand by and TO SPECIFICALLY watch the poor blaming their poverty on fate, Gandhi is rele-EQUIP ITSELF AGAINST lousness of the intellectuals, then Gandhi is relevant today. What NURTURED are the problems according to intellectuals? NEGATIVITY, 'Why X or Y has become Vice-Chancellor and not me'! They INCREASING think only of this and are MUTUAL unaware of other social issues". Their concerns for critical social, DISTRUST, cultural, social cohesion and reli-AND gious amity are minimal. One's obvious inference would be BALLOONING that solutions to major national concerns shall - and must -BITTERNESS emerge from institutions and the IN PUBLIC educated and the learned responsible for attaining their stated LIFE objectives. It includes the dilapidated structures running Sarkari schools, much sought-after private schools, and the universities. It also includes the glittering campuses of national institutions that have brought international repute to our educational enterprise.

professors of the universities, and researchers working in institutions of science, technology, psychology, social sciences and every other area.

One wishes each one of them recalls the assessment of Gandhi shuns away the dreaded callousness and strives to create centres of dialogue and discussions on improving the life and living standards of our people, partic-ularly the 'last man in the line' who was so dear to the Mahatma! At first glance, the existing climate makes such a transforma-

tion rather impossible! Despite all the odds, sincere attempts must be launched to create institutional think tanks with open boundaries that provide for healthy academic, scholarly and intellectual deliberations, not constrained but individual ideological affiliations. For an academic, who shapes the lives of numerous individuals, it is the well-being of others that must precede his own! And this is no rhetoric or a cliché in the Indian context and culture. For a broad-minded person, this becomes a must, an integral part of his thought and action and hence, an achievable premise. This is the main task of every teacher preparation institution, from where it shall percolate to schools via teachers trained there, and then to the establishment and the society. After the education policies of 1968, 1986 and 1992, and a gap of around three decades, another policy formulation comes before the nation in the shape of the National Education Policy; NEP-2020. It has been under implementation

been associated with the implementation and also policy formu-lations, one could venture to infer that the NEP-2020 was prepared with unprecedented enthusiasm from teachers, scholars academics institutions, organisations and individuals.

As the process was long overdue and rightly very extensive, it inspired active participation from practically every section of soci-ety. Unfortunately, its implementation stands hampered in certain states on grounds that may not necessarily be academic.

India has a developed well-knit interactive system of the national and state-level bodies and institutions that have learnt over the years how to arrive at a national consensus in the sectors of education and teacher education. This institutional strength of consultation, collaboration and cohesion need not be diluted in cases where the union and state governments belong to different deological affiliations. Intellectuals in education and research must convincingly internalize that they are making the future of individuals and creating the future of India. No one else is destined and better placed than them to reconstruct India. The moment each one of them expands his horizons, thinks holistically, and takes a long-term view, the road ahead would emerge very clearly; how to proceed individually and also collectively to sed the intellectual callousness and lead the nation on the right path.

Guarding digital India: The urgent need for cybersecurity in a rapidly evolving digital space

India has the potential to lead the world in cybersecurity innovation, but achieving this requires more than technological solutions

n the fast-evolving digital landscape of India, a silent ▲battle is being fought—not with traditional weapons but through malicious code, complex algorithms, and increasingly sophisticated cyberattacks. As the country embraces its "Digital India" initiative, the rise of cyber threats demands immediate attention. Protecting the digital future requires strong cybersecurity frameworks, skilled professionals, and widespread public awareness. The call for "Digital Guards" or "Cyber Warriors" has never been more urgent.

The scale of the digital threat is staggering. The Indian Computer Emergency Response Team (CERT-In) recorded 53,117 security incidents in 2017. By October

VINAY PATHAK

2023, this number soared to an alarming 1.32 million-a twentyfold increase that exposes critical national vulnerabilities. Globally, the situation is no less concerning. Operations like INTERPOL and AFRIPOL's 2024 Operation Serengeti, which arrested over 1,000 cybercriminals across 19 African nations, underscore the scale of the problem. These operations identified over 35,000 victims and uncovered underscoring cybercriminals'

financial losses nearing \$193 growing ingenuity. million, demonstrating the

global reach and devastating impact of cybercrime. Phishing remains a primary weapon for cybercriminals, accounting for 22 per cent of all incidents. These attacks

manipulate victims into revealing sensitive information or downloading malicious software. Credential theft, responsible for 16 per cent of incidents, further exposes individuals and organisations to system breaches, financial fraud, and corporate espionage. Emerging threats like mobile app malware are amplifying risks. For instance, 15 SpyLoan malware apps on Google Play, downloaded over 8 million times, went beyond data theft to harass and extort victims,

The economic toll of these attacks is devastating. About 65 per cent of Indian enterprises have been forced to pay ransoms to recover critical data, with average demands reaching \$4.8 million. Recovery costs add another \$1.35 million per incident, straining even large corporations. Smaller businesses, lacking resources for robust cybersecurity measures, are particularly vulnerable. This systemic vulnerability has been termed the "cybersecurity poverty line," where approximately 60 per cent of Indian companies lack the infrastructure and expertise to defend themselves against cyber threats. High-traffic online shopping periods, such as Black Friday and Cyber Monday, are prime

targets for cybercriminals. During these events, fraudsters employ phishing scams, fake ecommerce websites, and malware to exploit consumers and businesses alike. Recent high-profile incidents highlight these vulnerabilities. In November 2024, a ransomware attack on Blue Yonder disrupted Starbucks' operations, forcing a return to manual processes. Similarly, McLeod Russel's system com-

promise sent shockwaves through the corporate sector, emphasising the interconnect-edness of digital systems and the widespread disruptions that a single attack can cause. India's cybersecurity prepared-ness is worryingly insufficient. Only 4 per cent of Indian enterprises have robust infrastructure capable of withstanding advanced attacks. This shortfall is a national security concern, as cyberattacks transcend corporate interests, threatening essential services and critical infrastructure.

Initiatives like the Cyber Challenge 2024, a joint effort by the Delhi Police and CyberPeace Foundation, offer hope. This programme engages developers, engineers, and cybersecurity experts to

craft innovative solutions using cutting-edge technologies such as AI, blockchain, and quantum computing. Collaboration with institutions like DRDO, MeiTY, and the National Forensic Science University underscores the comprehensive approach needed to address these challenges. Experts emphasise that cybersecurity must move beyond being an IT department's responsibility to become a core component of every organization's strategy. This shift involves continuous employee training, regular security audits, investments in advanced technologies, and fostering a culture of vigilance. Drawing inspiration from global models like the

European Union's GDPR,

India could implement strin-

gent cybersecurity standards, offering subsidies for small and medium-sized enterprises (SMEs) to invest in security measures and penalising negligence in cyber protection. As digital transformation accelerates across sectors such as finance, healthcare, education, and government services, robust cybersecurity is no longer optional-it is a fundamental necessity. The path forward demands a collaborative effort. Government agencies, private enterprises, educational institutions, and cybersecurity professionals must unite to build a resilient digital ecosystem.

Trump says India charges lot of tariff, threatens to impose reciprocal tax

PTI WASHINGTON

S President-elect Donald Trump has said that India charges "a lot" of tariff, reiterating his intention to impose reciprocal tariffs in retalia-tion for what New Delhi will impose on the import of certain American products.

Trump made these remarks on Tuesday and also said that India and Brazil were among countries that impose high tariffs on certain US products.

"Reciprocal. If they tax us, we tax them the same amount. They tax us. We tax them. And they tax us. Almost in all cases, they're taxing us, and we haven't been taxing them," Trump told reporters on Monday.

He made the remarks while responding to a question on a potential trade agreement with China. Trump said India and Brazil were among countries that impose high tariffs on certain US products.

"The word reciprocal is important because if somebody charges us — India, we don't have to talk about our own — if India charges us 100 per cent, do we charge them nothing for the same?," Trump said.

"You know, they send in a bicycle and we send them a bicycle. They charge us 100 and 200. India charges a lot. Brazil charges a lot. If they want to charge us,

that's fine, but we're going to charge them the same thing," Trump said at a news conference at Mar-a-Lago. Responding to a question, his Commerce Secretary pick Howard Lutnick said "reciprocity" is something that is going to be a key topic for the Trump administration. "H o w the Trump administration. you treat us is how you should expect to be treated," he said. During his election campaign in October, Trump has

claimed that India imposes the highest tariffs on foreign products. But they do it with a smile. "Perhaps the most important element of my plan to make America extraordinarily wealthy again is reciprocity. It's a word that's very important in my plan because we generally don't charge tariffs. I started that process, it was so great, with the vans and the small trucks, etc," Trump had said Thursday in October.

In 2019, Trump has repeatedly claimed that India is a "tariff king" and impos-es "tremendously high" tariffs on

American products. He has criticised India's "big tariffs" on American paper products and the icon-ic Harley-Davidson bikes.

The US is the largest trading partner of India in 2023-24. India's exports stood at USD 77.51 billion, while imports aggregated at USD 42.2 billion in the last fiscal.

During April-October this fiscal, the country's exports to America rose by 6.31 per cent to USD 47.24 billion, while imports grew by 2.46 per cent to USD 26 billion

Between FY 2020 and FY 2024, India's merchandise exports to America rose by 46 per cent from USD 53.1 billion to USD 77.5 billion.

Imports from the US also grew to USD 42.2 billion last fiscal from USD 35.8 billion in 2019-20. On the other hand, trade in services between the two nations expanded 30.3 per cent from USD 54.1 billion in 2018 to an estimat-

ed USD 70.5 billion in 2024. India is also a key destination for American businesses such as professional, scientific, and technical services, manufacturing, and IT. Washington is the third largest investor. India received USD 66.7 billion of FDI inflow between April 2000 and June 2024.

Sunita Williams' Hundreds of N Korean troops **B'desh HC commutes ULFA** killed in Ukrainian battles return delayed leader's death sentence till late March

AP WASHINGTON

Acouple hundred North Korean Atroops fighting alongside Russian forces against Ukraine have been killed or wounded during battle in the Kursk border region, a senior military official said Tuesday.

The official didn't provide details on exactly how many have been killed, but said the North Korean forces don't appear to be battle-hardened, which contributes to the number of casualties they've had. The official was providing the first significant estimate of North Korean casualties, which comes several weeks after Ukraine announced that North Korea had sent 10,000 to 12,000 troops to Russia to help it in the almost 3-year war.

The White House and Pentagon on Monday confirmed that the North Korean forces have been battling on the front lines in largely infantry positions. They have been fighting with Russian units and, in some cases, independently around Kursk.

The casualty disclosure comes as the Biden administration is pressing to

send as much military aid as possible to Ukraine before President-elect Donald Trump takes over. But a senior defense official told reporters Tuesday that the Defense Department may not be able to send all of the remaining USD 5.6 billion in Pentagon weapons and equipment stocks intended for Ukraine before Jan. 20, when Trump is sworn in. Both officials spoke on condition of anonymity to provide a US assessment of the war.

According to the Pentagon, there is about USD 1.2 billion remaining in longer-term funding through the Ukraine Security Assistance Initiative, which is used to pay for weapons contracts that would not be delivered for a year or more. The official said the administration anticipates releasing all that money by the end of this year. The USD 5.6 billion is in presidential drawdown authority (PDA), which allows the Pentagon to take weapons off the shelves and send them quickly to Ukraine. That is a substantial amount of money, the defense official said, and while the US will continue to

provide weapons to Ukraine until Jan 20, there may well be funds remaining that will be available for the incoming Trump administration to spend.

Trump has talked about getting some type of negotiated settlement between Ukraine and Russia, creating some unease about whether he will provide Ukraine all the weapons funding approved by Congress. Ukrainian and Russian forces have

been in a fierce battle around Kursk. and the official said Russia has been able to take back about 20% of the territory gained there by Kyiv. They said it will be possible for Ukraine to hold ground there for some time, but it will depend on how the rest of the fight is going, including the long-range strikes that Kyiv has been launching. The officials said it's not clear if

Moscow has asked Pyongyang for additional forces, but acknowledged that Russia continues to lose as many as 1,200 troops a day in casualties including both dead and wounded. But so far, Russia has been able to generate enough forces to replace them.

PTI DHAKA

A Bangladeshi High Court on Wednesday commuted the death sentence of ULFA leader Paresh Barua to life imprisonment and acquitted a former junior minister and five others in a 2004 case of attempted smuggling of weapons to the separatist outfit in northeast India.

A total of 10 truckloads of weapons were seized in April 2004 despite alleged efforts of certain "influential quarters" for its safe passage to United Liberation Front of Asom (ULFA) hideouts in northeastern India through Chattogram, which was then spelled as 'Chittagong'. The seized weapons included

over 27,000 grenades, 150 rocket launchers, over 11 lakh ammunition, 1,100 sub machine guns and 11.41 million bullets

Hoque, former additional secretary of industries ministry Nurul Amin and Iamaat-e-Islami leader Motiur Rahman Nizami.

The plant site was said to have been used for trans-shipment of weapons for ULFA.

Former chief of Bangladesh's National Security Intelligence ex-brigadier general Abdur Rahim, a former DGFI director as well, was also sentenced to death but he died a normal death in prison as the appeal and death hearing process was underway.

Nizami, a former minister in the past Bangladesh Nationalist Party (BNP)-Jamaat alliance government, however, was hanged several years ago on charges of crimes against humanity during Bangladesh's 1971 Liberation War siding with the Pakistani troops while his party was opposed to the country's independence.

next mission has been bumped more than a month, according to the space agency. Battered by regional tensions and energy crisis, Iran's rial hits record low NASA's next crew of four was supposed to launch in February, followed by Wilmore and Williams' return home by the end of that month alongside two other astronauts.

AP 📕 TEHRAN

The Iranian rial on Wednesday fell its lowest level in history, losing more than 10% of its value since Donald Trump won the US presidential election in November and signalling new challenges for Tehran as it remains locked in the wars raging in the Middle East. The rial traded at 777,000 rials to the dollar, traders in Tehran said, down from 703,000 rials on the day Trump won.

Most space station missions last six Iran's Central Bank has in the past months, with a few reaching a full year.

flooded the market with more hard currencies as an attempt to improve the rate.

In an interview with state television Tuesday night, Central Bank Gov. Mohammad Reza Farzin said that the supply of foreign currency would increase and the exchange rate would be stabilised. He said that \$220 million had been injected into the currency market.

The currency plunged as Iran ordered the closure of schools, universities, and government offices on Wednesday due to a worsening

energy crisis exacerbated by harsh winter conditions. The crisis fol lows a summer of blackouts and is now compounded by severe cold,

snow and air pollution. Despite Iran's vast natural gas and oil reserves, years of underinvestment and sanctions have left the energy sector ill-prepared for seasonal surges, leading to rolling blackouts and gas shortages.

In 2015, during Iran's nuclear deal with world powers, the rial was at 32,000 to \$1. On July 30, the day that Iran's reformist President

Masoud Pezeshkian was sworn in and began his term, the rate was 584,000 to \$1.

Trump unilaterally withdrew

America from the accord in 2018, sparking years of tensions between the countries that persist today. Iran's economy has struggled for years under crippling international sanctions over its rapidly advancing nuclear program, which now enriches uranium at near weaponsgrade levels.

Pezeshkian, elected after a heli-copter crash killed hard-line President Ebrahim Raisi in May, came to power on a promise to reach a deal to ease Western sanctions.

Tensions still remain high between the nations, 45 years after the 1979 US Embassy takeover and the 444-day hostage crisis that followed. Before the revolution, the rial traded at 70 for \$1.

Iran remains deeply involved in the Middle East conflicts that have roiled the region, with its allies battered - including the militant groups and fighters of its selfdescribed "axis of resistance," such as Palestinian Hamas, Lebanon's Hezbollah and Yemen's Houthi rebels.

Russia says suspect detained in killing of senior general

AP MOSCOW

 $R^{ussia \mbox{'s security service said}}_{\mbox{Wednesday that it has}}$ detained a suspect in the killing of a senior general in Moscow. The suspect was described as an Uzbek citizen recruited by Ukrainian intelligence services. Russia's Federal Security Service, or FSB, didn't name the suspect, but said he was born in 1995. According to a statement by the FSB, the suspect said himself that he was recruited by Ukrainian special services.

Lt. Gen. Igor Kirillov was killed Tuesday by a bomb hidden in a scooter outside his apartment building in Moscow, a day after Ukraine's security service levelled criminal charges against him. His assistant also

died in the attack. A Ukrainian official said the service carried

out the attack. The FSB said the suspect had been promised a reward of USD 100,000 and permission to move to a European Union country in exchange for killing Kirillov.

The agency stated that, acting on instructions from Ukraine. the suspect travelled to Moscow, where he picked up a homemade explosive device. He then placed the device on an electric scooter and parked it at the entrance to the residential building where Kirillov

lived. The suspect then rented a car to monitor the location and set up a camera that livestreamed footage from the scene to his handlers in the central

Ukrainian city of Dnipro. Once Kirillov was seen leaving the building, the suspect detonat-

ed the bomb. According to the FSB's statement, the suspect faces "a sentence of up to life imprisonment. Kirillov, 54, was the chief of the

military's nuclear, biological and chemical protection forces and was under sanctions from several countries, including the UK and Canada, for his actions in Moscow's military operation in Ukraine. On Monday, Ukraine's Security Service, or SBU, opened a criminal investigation against him, accusing him of directing

the use of banned chemical weapons. Russia has denied using any

chemical weapons in Ukraine and, in turn, has accused Kyiv

of using toxic agents in combat. Kirillov, who took his current job in 2017, was one of the most high-profile figures to level those accusations. He held numerous briefings to accuse the Ukrainian military of using toxic agents and planning to launch attacks with radioactive substances claims that Ukraine and its Western allies rejected as pro-

paganda. The bomb used in Tuesday's attack was triggered remotely, according to Russian news reports. Images from the scene showed shattered windows and scorched brickwork.

Russia's top state investigative agency said it's looking into Kirillov's death as a case of terrorism, and officials in Moscow vowed to punish Ukraine.

Netanyahu says Israeli troops will occupy a buffer zone inside Syria for the foreseeable future

AP JERUSALEM

Prime Minister Benjamin Netanyahu said Tuesday that Israeli forces will stay in a buffer zone on the Syrian border. seized after the ouster of Svria's President Bashar Assad, until another arrangement is in place "that ensures Israel's security." Netanyahu made the comments from the summit of Mount Hermon — the highest peak in the area — inside Syria, about 10 kilometers (6 miles) from the border with the Israel-held Golan Heights.

It appeared to be the first time a sitting Israeli leader had set foot that far into Syria. Netanyahu said he had been on the same mountaintop 53 years ago as a soldier, but the summit's importance to Israel's security has only increased given recent events.

Israel seized a swath of southern Syria along the border with the Israeli-annexed Golan Heights days after Assad was ousted by rebels last week.

Israel's capture of the buffer zone, a roughly 400-squarekilometer (155-square-mile) demilitarised area in Syrian territory, has sparked condemnation, with critics accusing Israel

with Defense Minister Israel Katz.Katz said he instructed the Israeli military to quickly establish a presence, including fortifications, in anticipation of what could be an extended stay in the area. "The summit of the Hermon is the eyes of the state of Israel to identify our enemies who are nearby and far away," he

said An Israeli military official, who spoke on condition of anonymity in line with military regulations, said there is no plan to evacuate the Syrians living in villages within the buffer zone. The buffer zone between Syria and the Israeli-controlled Golan Heights was created by the U.N. after the 1973 Mideast war. A UN force of about 1,100 troops

Gold falls Rs 200 to Rs 79,100 We have to wait and watch to see how it pans out: Official on Trump's tariff threat per 10 gm; silver rises Rs 500

PTI 🗖 NEW DELHI

Gold prices fell Rs 200 to Rs 79,100 per 10 grams in the national capital on Wednesday amid a firm trend in international markets, according to the All India Sarafa Association.

The precious metal of 99.9 per cent purity settled at Rs 79,300 per 10 grams in the previous session.

Snapping a three-day losing run, silver climbed Rs 500 to Rs 92,000 per kg on Wednesday. It closed at Rs 91,500 per kg on Tuesday. In the last three sessions, the white metal plunged Rs 5,500

per kg.

The price of gold of 99.5 per cent purity slipped Rs 200 to Rs 78,700 per 10 grams from the previous close of Rs 78,900 per 10 grams on Tuesday.

Gold remains on the defensive as the market braces for the outcome of the US Federal Reserve's (Fed) meeting, which can provide forward guidance for bullion prices, experts said.

Meanwhile, in futures trade on the MCX, gold contracts for February delivery went up Rs 74, or 0.1 per cent, to trade at Rs 76,945 per 10 grams. "Gold continues to trade

within a range as market participants await the Fed's policy announcement tonight, with increased focus on the 2025 outlook and concerns surrounding the job market," Jateen Trivedi, VP Research Analyst of Commodity and Currency, LKP Securities, said.

In MCX, gold is trading near Rs 76,950. The policy

statement is expected to set the tone for the next leg of movement in gold prices,

Trivedi added. However, silver contracts for March delivery slipped Rs

Imposing reciprocal duties violates global trade rules but one has to follow a "wait and watch" approach to US President-elect Donald Trump's remarks on imposing reciprocal tariffs, a senior official said on Wednesday.

US President-elect Donald Trump has said that India charges a lot of tariffs, reiterating his intention to impose reciprocal tariffs in retaliation for what New Delhi will impose on the import of certain American products.

Trump made these remarks on Tuesday and also said that India and Brazil were among countries that impose high tariffs on certain US products. "It will be very difficult to decipher from one or two sentences which Mr Trump makes but if I understood from what he was saying. His main intent is that reciprocity will matter in future. So if you are putting a tax on Harley-Davidson (bikes) we will also put a tax on your motorbike exports. So from that point of view, this will be in clear violation of the WTO (World Trade Organization) norms but there are instances when Mr Trump has used measures like Section 232 of the Tariff Act which allows the US to take unilateral measures against countries on national security grounds.

"So one will have to wait and watch and see," Director General of Foreign Trade (DGF) Santosh Kumar Sarangi said here at CII's export competitiveness event.

He said that there are many the dollar and provide some areas where India has tariff impetus to the gold price, they peaks but the country does not necessarily export those to the

Vinícius Júnior and Aitana Bonmati win FIFA best player of the year awards

AP DOHA

Real Madrid star Vinícius Júnior finally got his hands on a big global player award on Tuesday.

Vinícius was named the men's player of the year at the FIFA's "The Best" awards, where awards, where Barcelona playmaker Aitana Bonmati continued to clean up in the prizes for women's soccer.

The 24-year-old Vinícius was so disappointed to lose out to Manchester City midfielder Rodri for the Ballon d'Or in October that he and his Madrid team snubbed the ceremony in Paris in protest.

This time Rodri ended up second to Vinícius by five points. The Brazil forward was at the FIFA ceremony to collect his award having travelled to Doha on Monday with Madrid for the Intercontinental Cup final against Pachuca.

"I don't even know where to begin," Vinícius said in begin," Portuguese. "It was so far away that it seemed impossible to get

here. I was a kid who only played football barefoot on the streets of São Gonçalo, close to poverty and crime

"Getting here is something very important to me. I'm doing it for many children who think that everything is impossible and who think they can't get here."

Vinícius echoed those sentiments in an Instagram post, where he took a thinly-disguised dig at presumably the Ballon d'Or voters - journalists from the top 100 countries in the FIFA rankings.

Today I am writing to that boy who saw so many idols lift this trophy... Your time has come," he wrote. "Or rather, my time has come. The time to say... Yes, I am the best player in the world and I fought hard for it.

They tried and still try to invalidate me, to diminish me. But they are not prepared. No one is going to tell me who I should fight for, how I should behave."

Vinícius has been subjected to racist abuse in Spain and at one point earlier this year said he was "losing my desire to play" but

"I am grateful to receive this award. Ås I always say, this is a team effort," Bonmati said. "It was a great year, very difficult to repeat. I am grateful to the people who help me to be better every day, from the club, to my teammates, who always help me to be better" to be better"

FIFA said the award winners were decided by an "equally weighted voting system" by fans, the current captains and coaches of all national teams, and media representatives.

There was an 11-player shortlist for both awards, with the contenders selected based on

their performances from Aug. 21, 2023, to Aug. 10. 2024. Vinícius had the best season of his career, scoring 24 goals in 39 appearances for Madrid and helping the Spanish team to a record-extending 15th European Cup — and his second Cup — and his second Champions League trophy.

He also netted in the final, becoming the youngest player to score in two Champions League finals. Madrid teammate Jude Bellingham was third, ahead of Dani Carvajal and Lamine Yamal, with Lionel Messi - who had won the award the previous two vears — sixth.

Madrid manager Carlo Ancelotti was named best men's coach, and United States coach Emma Haves took the women's prize.

Hayes steered the USWNT to Olympic gold in Paris in August. Their shotstopper, Alyssa Naeher, was given the women's goalkeeper award. Aston Villa and Argentina goalkeeper Emiliano Martínez won the men's prize for the

second straight year. Alejandro Garnacho won the FIFA Puskás Award for the best goal, for his sensational overhead strike for Manchester United against Everton in November 2023.

Marta won the award that is named after her — the inaugural FIFA Marta Award — for her goal for Brazil against Jamaica in June.

India look to make all-round amends against West Indies

PTI NAVI MUMBAI

India will look to make amends in all areas and counter the West Indies' power game when the two teams face off in the decider of the women's T20I series on Thursday, with regular skipper Harmanpreet Kaur's participation still shrouded in

uncertainty. A comprehensive 49-run win in the series opener helped India extend their domination in the format to fitness update: Smriti Mandhana nine consecutive victories but West Indies crushed the hosts by nine wickets to level the ms in the second game The manner in which West Indies cruised to win with 26 balls and nine wickets to spare, hitting a total of 27 fours and two sixes, the visitors left India scrambling for answers. None of the Indian bowlers could pose any threat as heavy dew made their job only tougher. On their part, the West Indies used the conditions to their benefit. They send the balls to the ropes more times rather than attempting to hit sixes which also worked in their favour. The conditions aren't expected to change much in a day's time but India will be required to change a lot in terms of their collective batting and bowling, aside concerns over the from

outings. Stand-in skipper Smriti Mandhana's second fifty of the series gave India a platform to push on for a competitive total but the rest of the batters could not carry their form from the first game in which they had put a

collective show. A visible improvement in the West Indies' tactics to bowl tighter lines and not give width made the batters' job difficult but beyond Mandhana and Richa Ghosh (32) no one el could find their way through a phase where the ball was also losing pace off the surface.

Harmanpreet Kaur's participation in India Women's T201 series decider here on Thursday is under doubt after the regular captain was sidelined from the second match having suffered a niggle in her knee during the first game.

Smriti Mandhana, who stood in for Kaur as the West Indies levelled the series 1-1 on Tuesday, said the team is awaiting update on Kaur's availability for the third match.

'Harman's fitness, (the) BCCI medical team is observing on day-to-day basis. They'll be at a better place to answer that question. I think we'll have to wait for the update from their side," Mandhana told media after India's crushing nine-wicket loss here on Tuesday.

Kaur, who turned up for practice here last Saturday with her knee strapped, scored 13 not out in India's big total of 195/4 but she did not take the field in the seriesopener here.

'Harmanpreet Kaur sustained a niggle in her knee while batting during the first T20I against West Indies. Hence, she remains unavailable for selection for the second T20I. The BCCI Medical Team is monitoring her progress," the team issued a statement ahead of the second T20I

here. Mandhana, meanwhile, brushed aside any concerns regarding her after she copped a blow to her hand towards the end of the second match.

DRERMI

"I think (the) finger is fine now. Just that initial impact, where you think that 'oh, it can be wrong', but it's all good now," Mandhana said

Mandhana, who struck a 41-ball 62 to lead India's charge, said her side did not bowl enough dot balls to put pressure on the free-flowing West Indies batters.

"We did try everything to stop them. But Hayley (Matthews) is definitely a quality

player. The executions were not at the mark," she said after her counterpart Matthews hit a 47-ball 85.

"As a as a bowling unit, our execution can be better. The only way we can get them out is to put pressure by dot balls. We couldn't do that, even in the start or maybe even after six overs. We couldn't create a lot of dot balls and the pressure was never there?

"As a bowling unit we did give a lot of width," Mandhana added.

Windies skipper Matthews hailed West Indies' nine-wicket win as a "massive feat". "I think that's our first win against India, as far as I remember probably since (the) 2016 World Cup here, so that's a massive feat for us. However, we feel like it's just the beginning. These are the kind of performances we want to be consistent with," she said.

Matthews, who cracked 17 fours in her knock in a brutal display of power-hitting, emphasised on hitting boundaries for a long innings.

T20 cricket is a game where it's probably very boundary oriented. Anytime you are scoring 80 plus, you're probably going to have a lot of boundaries. It's quite motivating coming down here after the first game especially, and being able to level the series one all," she added.

In Kaur's absence, the seniors in Jemimah Rodrigues and Deepti Sharma will have to shoulder extra responsibility in the middle order which featured debutant Raghvi Bisht at the number 4 slot in the second game.

India will also have to watch out for the all-round threat posed by West Indies veteran Deandra Dottin, who has made a strong impression on this series. The pair of Hayley Matthews and Qiana Joseph provide West Indies a lot of firepower at the top, which again will be a challenge for India to manage.

"It would mean a lot to the group if we were able to win this series. But we know in order to do that, we've got to come back and play just as good as we played today or even better. We know it's not going to be easy work," Matthews said after the second game.

Will await with interest India's bid for 2029 World Championships: WA chief Coe

PTI 📕 NEW DELHI

World Athletics President Sebastian Coe says his organisation will "await with interest" India's expected bid for the 2029 World Championships but indicated that there will be tough competition from other countries to get the hosting right of the showpiece. The Athletics Federation of

India (AFI) is set to formally express its interest to host the 2029 World Championships when the process is launched in the next few months, in line with the country's plan to stage a series of high-profile events to mount a serious bid for the 2036 Olympics. World "The 2029

Championships, look, we will await with interest (India's

expected bid). I have to tell you, we've got a lot of interest in those Championships already, and the process will open shortly," Coe replied to a PTI question during a virtual conference with the global media.

It was in December last year when the AFI first revealed its intention to bid for the 2029 World Championships. The bidding process is expected to start in January-February 2025 along with the publication of a time-line.

World Athletics is expected to announce the host city in 2026. Distance running

powerhouse Kenya has also declared its interest to host the 2029 World the Championships while Britain, which staged the showpiece officials.

in 2017 when the legendary Usain Bolt ran his last international race in London, has also done the same, though not formally.

The bidding process for the 2027 World Championships to be held in Beijing, China, began in January 2023 and the announcement of the host city was made in March 2024. The 2025 World Championships will be held in Tokyo.

Earlier, the AFI officially submitted its expression of interest to host the World U20 Championships in 2028 when Coe made a two-day visit to

India last month. He met Prime Minister Narendra Modi and Sports Minister Mansukh Mandaviya, besides AFI

Coe, who is one of the frontrunners to become Olympic International Committee president in the March 2025 elections, said Indian athletics is moving ahead in the right direction, with javelin superstar Neeraj Chopra's achievements being the key to its growth.

A few days back, the AFI announced that India will host its maiden World Athletics Continental Tour event -- a bronze level meet --August 10 in on Bhubaneswar, and Coe said he is delighted with the development.

Continental Tour is an annual series of track and field

competitions held under the aegis of World Athletics and it forms the second tier of international one-day meetings after the prestigious Diamond League.

"While I was in Mumbai just recently, I received a letter of intent for the the Under 20 World Championships in 2028.

Third Test between India and Australia ends in a draw

PTI BRISBANE

ndia escaped with a crucial draw in the weather-hit third Test against Australia after intermittent rain wiped out majority of play on day five, leaving the five-match series tantalisingly locked at 1-1.

CHANDIGARH | THURSDAY | DECEMBER 19, 2024

Resuming the day at 252 for nine, India batted for 24 balls and were all out for 260 in their first innings. With limited time left in the day to

force a result after majority of the morning session was rained out, the Australian batters came out all guns blazing and stuttered to 89 for seven in 18 overs before making a brave declaration, giving India at least 54 overs to chase down 275.

Bad light and rain forced an early tea break soon after with India at 8 for no loss in 2.1 overs. The rain got heavier as the time passed and no play was possible thereafter. The absorbing series is nicely poised going into the Boxing Day

Test in Melbourne. India would have fancied chasing 275 on day five but weather

helped them immensely in the game controlled by Australia. Jasprit Bumrah (3/18) was brilliant as usual in the second

the pioneer

innings with Mohammed Siraj (2/36) and Akash Deep (2/28) offering good support. Australia's approach in the second essay was brave and questionable at the same time.

Nathan McSweeney (4) and Marnus Labuschagne (1) went after balls outside the off-stump and perished while Usman Khawaja (8) and Mitchell Marsh (2) fell to good deliveries.

Wickets falling in a heap did not impact Australia's approach as they kept going for the big hits. Skipper Cummins chipped in with two sixes and as many fours before the declaration.

In the morning session, lightening and subsequent rain allowed only 24 balls to be bowled.

The warning of severe weather was flashed on the digital scoreboard at the Gabba shortly after India were bowled out for 260 in their first innings, handing Australia a lead of 185 runs. Akash Deep (31) was the last man

out, stumped off a Travis Head delivery, bringing an end to a 47-run stand with Jasprit Bumrah (10 not out).

The duo had done well to avoid the follow-on on day four. Players were asked to remain in the dressing room and fans were

requested to take shelter away from the fence after the visitors were all out. The forecast was largely clear for Brisbane from Thursday onwards but the entire game has been adversely impacted by bad weather with rain forcing multiple stoppages for four out of five days. Only day two of the game was not impacted by weather as Australia coasted to 405 for seven on the back of memorable hundreds

from Head and Steve Smith. Going into the fourth Test beginning December 26, India have major concerns in both batting and bowling department which they must address. Barring K L Rahul, who has been

India's standout batter on the tour, the star-studded line up has not found a way to negotiate the threats posed by the Australian pace attack.

Skipper Rohit Sharma has been woefully short of runs and after the hundred in Perth, superstar Virat Kohli has struggled with ball outside the off-stump.

Majority of the batters have been guilty of playing away from their bodies in challenging conditions. They will need to curb their white-ball instincts to make an impact at MCG.

On the bowling front too, it has been effectively a one man show with Jasprit Bumrah doing the heavy lifting in all the games.

Mohammed Siraj bowled in the Brisbane Test with a niggle, leaving a question mark over his fitness ahead of the Melbourne game.

Akash Deep, who played ahead of Harshit Rana, bowled well in the game but did not have a lot of luck, especially against Smith. He is expected to retain his place the eleven.

Indian skipper Rohit Sharma hailed the resilience of the lower-order batters after his team managed to salvage a crucial draw in the rain-hit third Test against Australia here on Wednesday, saying the side it has given the side renewed confidence for the remaining series.

With the five-match Border-Gavaskar Trophy now tied 1-1, Rohit believes the team's morale will be high during the Boxing

Despite the challenges posed by intermittent rain and lightning on the final day, India's bowlers held their own in the second inning particularly Bumrah was brilliant, taking 3/18, while Akash Deep and Mohammed Siraj chipped in with two wickets each. Australia's bold approach in the second innings saw them declare at 89/7, setting India a target of 275 in 54 overs, but bad light and rain ensured no further play was possible after the early stages of the chase. Santner, who has represented New Zealand in 243 internationals, will takeon the permanent leadership mantle of both the ODI and T20 sides. Santner has previously led the team in 24 T20s and four ODIs

The 32-year-old will begin his full-time captaincy tenure in the upcoming T20 and ODI series against Sri Lanka in late December and early January.

The Sri Lanka marks the beginning of a heavy run of white ball cricket for the side, including an ODI Tri Series in Pakistan in February, followed by the ICC Champions Trophy and a home T20 and ODI series against Pakistan to conclude the home summer.

Mitchell Santner replaces Williamson

"It's obviously a huge honour and a privilege to be asked," said Santner in a NZC statement.

"When you're a young kid the dream was always to play for New Zealand but to have the opportunity to officially lead my country in two formats is special. "It's a new challenge and I'm excited to

Santner, who most recently led the side in last month's T20 and ODI series in Sri Lanka, is one of just four players to have represented New Zealand over 100 times in both ODI and T20I cricket and is widely regarded as one of the top white ball bowlers in world cricket.

He first led the side in a T20 against West Indies at Bay Oval in November 2020 and became New Zealand's 24th ODI captain when he led the side in the only ODI against Scotland in Edinburgh in 2022.

New Zealand head coach Gary Stead said Santner was a great fit for the role. 'Mitch is a fantastic team man and leads by example in all facets of the game," said

Stead. "He's an incredibly calm and collected personality and he has a huge amount of respect in the changing room, which will serve him well.
