Farmers block a road during the statewide 'bandh' called as part of their ongoing protest at Punjab borders, in Amritsar

PIONEER NEWS SERVICE CHANDIGARH / NEW DELH

ife was hit across Punjab due to a 'bandh' imposed by farmers who have been agitating against the Centre for a legal guarantee of a minimum support price for their crops. Rail and road traffic was crippled and commercial establishments remained shut in several places of the State. Farmers staged 'dharnas' on several roads and highways including in Patiala, Jalandhar, Amritsar, Ferozepur, Bathinda, and Pathankot as part of their bandh call from 7 am to 4 pm, throwing commuter traffic out of gear. A call for a statewide

Morcha (Non-political) and Kisan Mazdoor Morcha over the Centre not acting on the farmers' demand for a legal guarantee for the MSP. The bandh was also enforced to express solidarity with farmer leader Jagjit Singh Dallewal who has been on a fast for the last 35 days at Khanauri border protest site of farmers. Meanwhile, the Supreme Court would on December 31 examine Punjab Government's measures to provide treatment to the ailing farmer leader. A team of the Punjab Government officials on December 29 attempted to persuade the septuagenarian to take medical aid, but he declined it, fearing use of forces to oust shutdown was given over a him from the protest site.

week ago by Samyukta Kisan A high-level team of Punjab Government officials had met Dallewal requesting him to accept medical treatment irrespective of the fast continuing. A vacation bench of Justices Surva Kant and Sudhanshu Dhulia would hear the matter virtually at around 11 am on December 31. On December 28, the top court came down heavily on the Punjab Government for not moving Dallewal to a hospital and doubted the intention of the agitating farmers for resisting the administration of medical aid to their ailing leader. The Bench, however, gave the State Government time till

December 31 to persuade Dallewal to move him to a hospital, giving it the liberty to seek logistical support

from the Centre, situation warranted.

The Punjab Government said it was facing a huge resistance from the protesting farmers who had encircled Dallewal and prevented him from

being taken to a hospital. On Monday, farmers observed a sit-in at Dhareri Jattan Toll Plaza which affected vehicular movement on the Patiala-Chandigarh National Highway. At Amritsar's Golden Gate, scores of farmers staged a dharna near the city's entry point. Police there assisted some stranded foreign tourists by arranging auto rickshaws for them to reach the Golden Temple.

Farmers squatted on tracks at many places, forcing the railways to cancel several trains passing through the state and short-terminated or short-originated some trains. In Ferozepur, Jalandhar, Ludhiana, and Bathinda, seen passengers were stranded at stations. In Phagwara, farmers staged a dharna near the Sugarmill Crossing on NH-44, blocking the roads leading from Phagwara towards Nakodar, Hoshiarpur, and Nawanshahr.

Grain markets were shut in several places across the State. In the Mohali district, farmers staged a dharna at a few points throwing normal movement of vehicular traffic out of gear. Public transport remained off roads at several places, while most private bus operators suspended services, abiding by the bandh call. Many long-distance private buses and trucks carrying fruits and vegetables were held up due to the bandh.

# Falling Sensex, Rising Rupee: Where is India headed?

The din around the falling Sensex worth noting that these indices and depreciating Rupee has been hard to miss, and understandably, human nature makes us worry when markets falter. For many investors, even those with mutual fund investments, the recent market trends might feel like storm clouds on the horizon. But markets, much like seasons, naturally cycle through growth, correction,

and recovery phases. What's happening now isn't the collapse of some fear; rather, it's a moment for perspective, patience, and clarity about the underlying factors at

play. The equities landscape has seen corrections in the Sensex and and global fund reallocation than a Nifty, particularly since September loss of confidence in India's long-2024, causing unease. However, it's term growth prospects.

have been on a nine-year bull run, delivering around 9per cent growth year-to-date, even after recent declines. Much of the decline stems from significant selling by Foreign Institutional Investors (FIIs), who have offloaded over Rs 1.19 lakh crore worth of equities through exchanges this year. Interestingly, while exiting the secondary market, FIIs have invested more than

Rs 1.2 lakh crore in the primary market during 2024, including Rs 17.331 crore alone, December alone, making them net investors in India. This dual approach suggests the sell-off is more about short-term profit-booking

Global factors have also fueled this sell-off. China's aggressive stimulus measures boosted the CSI 300 index by 25per cent since the announcement, diverting significant FII flows from India. diverting Investors, however, are closely watching to see how effectively the government can address structural economic challenges and navigate concerns of potential overvaluation in the market. Weak domestic Q2 earnings, with 44per cent of companies missing profit expectations as per an analyst

report, further dampened shortin term sentiment. The year 2024 was a battleground between bulls and bears, characterised by intense volatility driven by key events such as the Indian general elections, the US presidential race, and a host of geopolitical tensions, including the

Israel-Iran conflict. Yet, India's

**PROF. GOURAV VALLABH** 

fundamentals macroeconomic remain strong with high potential bank lending, 13-year low gross non-performing assets (GNPÅ) at 2.5 per cent as of September 2024, expected inflation easing, and robust private spending. This correction, while concerning, does not signal a structural problem. Now, let's address the Rupee, another point of concern. Over

around three per cent, with approximately two per cent occurring in the last quarter against the US Dollar. The Dollar is strengthening because of Donald Trump's public pronouncements favouring universal tariff hikes (more on the import of Chinese goods), mass deportation of illegal immigrants and income tax cuts. If translated into policy, these are expected to increase the US economy's inflation. As a result, the

10-year US Treasury yield, now above 4.5per cent, has made US assets more attractive, narrowing the India-US bond yield spread to ~230 basis points, its lowest level since 2006, and has halved in 2 years. All this makes capital outflows from emerging markets, including India. Although the Rupee is hitting lows against the US Dollar, its exchange rate has scaled 2024, the Rupee depreciated by an all-time high in real terms. The

Real Effective Exchange Rate (REER) index of the rupee touched a record of 108 in November 2024, strengthening by 4.5per cent during this calendar year. The REER measures the rupee value not only against the dollar, but against the global currencies.

This was a broad dollar strengthening that reduced the attractiveness of the Indian currency, thus making it vulnerable to greater selling pressure and further depreciation. The rupee is not weakening as much as the dollar is strengthening against all currencies. The Rupee has appreciated appreciated against major currencies like the Euro, Pound, and Australian Dollar. The Euro fell from Rs 91.84 on December 31, 2023, to Rs 89.10 by December 30, 2024. Similarly, the Australian Dollar dropped from Rs 56.64 to Rs 53.33 and Swiss Franc dipped from

Rs 98.88 to Rs 94.71 over the same period. This shows the Rupee's resilience even against some of the world's strongest currencies.

Despite these challenges, India's external accounts have shown resilience. The Current Account Deficit (CAD) narrowed slightly to 1.2per cent of GDP in Q2 FY25 from 1.3 per cent in the previous year. The fiscal deficit, which had ballooned to 9.2 per cent during the pandemic, is now down to 5.6 per cent. In this context, the Rupee's movements reflect global dynamics rather than intrinsic weaknesses in India's economy. Emerging market currencies, including the Brazilian Real, Indonesian Rupiah, Chinese Yuan, and Russian Ruble, also depreciated against the Dollar, reflecting the Dollar's global strength rather than specific Rupee weakness.

ife in Punjab ground to a Life in Punjab ground to a halt on Monday as a statewide bandh called by farmers disrupted daily life, leaving residents grappling with cancelled train services, blocked highways, and shut-tered markets. The bandh, from 7 am to 4 pm, saw over 270 protest sites spring up across the State. From highways to railway tracks, farmers, supported by a wide spectrum of groups, including transport unions, employee organizations, left no stone unturned to make their voices heard in support of farmers' demands.

The bandh was organized on the call given by Sanyukt Kisan Morcha (SKM), Non-Political, and Kisan Mazdoor Morcha in support of farmer leader Jagjit Singh Dallewal's 35-day long hunger strike demanding farm reforms, including legal guarantee on the Minimum Support Price (MSP), a comprehensive debt waiver for farmers, and justice for victims of the Lakhimpur Kheri violence.

KMM convenor and farmer leader Sarwan Singh Pandher described the bandh as a "resounding success", claiming that Punjabis across all walks of life stood united.

The scale of the protest was unparalleled, with major arterial roads, including the Amritsar-Jalandhar, Amritsar-Jammu, and Jalandhar-Panipat highways, completely blocked by agitating farmers. The ripple effects were felt in cities and towns alike, as public transport came to a standstill, university exams were postponed, and essential supplies like fruits, vegetables, milk, and fuel faced delays. Additionally, seven trains were partially cancelled, 14 regulated, and 13 rescheduled. Railways implemented short-originating and shortterminating measures for 37 trains. The office of Ferozepur Divisional Railway Manager (DRM) maintained that the number of trains affected due to the bandh is likely to go up.

Major railway stations such as Jalandhar, Amritsar, and Ludhiana turned into hubs of frustration as passengers scrambled for information. The Pune-Jammu Tawi Jhelum Express was stopped at Jalandhar Cantt, while several long-distance trains were either short-terminated or diverted. The disruptions extended to freight services, compound-

ing the economic impact. Bulk SMS alerts were sent to passengers, and additional ticket counters were set up to handle refunds. However, for many, the inconvenience was unavoidable. Highways and Toll

commuters heading to Punjab faced overcrowded buses and long waits. Many daily commuters to cities like Chandigarh and Zirakpur struggled to find alternatives, with some turning to taxis at inflated fares.

rocketed on Monday with prices soaring nearly six times the usual rate amid the statewide Punjab Bandh. The bandh's impact was felt in the heart of Punjab's cities and towns as markets and even malls remained eerily silent. In Ludhiana, major hubs like Chaura Bazaar, Vishwakarma Chowk, and Gill Road saw limited activity. However, some areas like Ludhiana's Chaura Bazaar attempted to remain open, leading to altercations between shopkeepers and protesters.

All universities, including Punjab University-Chandigarh, Kumar said that buses were not Guru Nanak Dev University-Amritsar, postponed exams and from Haryana, Himachal scheduled for the day. Government offices witnessed were also impacted as buses thin attendance, while banks remained open but largely Private transport operators inactive due to the absence of customers.

The disruption extended to agriculture and trade. Grain

markets across Punjab were shut, and truckloads of fruits and vegetables were stranded, delaying supplies to neighbouring states. Fuel stations in several districts also closed, adding to the inconvenience for commuters.

While the bandh was largely peaceful, there were sporadic instances of tension and altercations with farmers. In Ludhiana's Khanna area, a car driver allegedly attempted to run over a protesting farmer. The individual was detained and claimed that it was an accident. In Jalandhar, altercations were reported between pedestrians and farmers blocking roads.

Despite these incidents, the farmer leaders ensured that emergency services and critical travelers, such as those heading to hospitals or airports, for interviews and even wedding processions, were given free passage. "Our protest is against injustice, not against ordinary citizens," said Pandher, emphasizing that the bandh was aimed at pressuring the government to address

farmers' demands. Neighbouring States Feel the Heat

The bandh's impact was not confined to Punjab. In Harvana's Ambala and Himachal Pradesh's districts bordering Punjab, transport services were disrupted as buses avoided entering Punjab. Commuters traveling between states faced detours and delays, affecting daily schedules. Traffic movement was also disrupted in Jammu and Kashmir's Lakhanpur, which is considered the gateway and entry point of entire surface transport to the state of Jammu and Kashmir from outside the

### Traders Slam Bandh, Cite Economic Losses The statewide bandh in

Punjab drew sharp criticism from the trading and industrial community, who highlighted its crippling impact on the state's economy. Factory owners and traders in Ludhiana, the industrial hub of Punjab, decried the disruptions caused by roadblocks and cancelled transport services, which left workers stranded and produc

tion lines stalled. "We sympa-thize with the farmers' demands but strongly oppose their methods, as these protests are paralyzing industries and inflicting economic losses on a state already grappling with financial challenges," said All Industries and Trade Forum convenor Badish Jindal. Many traders argued that while the farmers' plight deserves attention, the frequent bandhs and roadblocks are not only alienating allies but also jeopardizing livelihoods, supply chains, and investor confidence in

### Punjab's industrial sector. Successful Punjab Bandh: Pandher

KMM convenor Pandher, addressing a press conference after the bandh, said that the residents of Punjab have extended their support to the statewide shutdown "wholeheartedly" and more than 280 blockades were installed which disrupted road and rail services in the state. "We had appealed to three crore Punjabis to support Punjab bandh. As per the information I am getting, peo-ple have supported this bandh. Since morning, almost 90-99 percent traffic was not on the roads. It means, Punjabis have extended their support to this bandh wholeheartedly. It's a successful 'Punjab Bandh," said Pandher. "All establishments were closed. Punjabis have shown their unity today and they extended full support...Train services were also suspended and no train was entering Punjab," he said, while claiming that their strike has received strong support from transporters, employee unions, traders and religious bodies.

Meanwhile, AAP MP Malvinder Singh Kang has strongly condemned the Central Government for its persistent inaction regarding the demands of farmers protesting at the Punjab-Haryana border. He called for immediate dialogue to address their legitimate concerns, particularly the alarming health of farmer leader Dallewal, who has been on a hunger strike for over a month.

### **Commuters in Haryana** face heat of Punjab Bandh

The impact of the 'Punjab Bandh' called by farmers was felt in adjoining areas of Haryana including Ambala. The protesting farmers blocked the Ambala-Chandigarh expressway at Dappar toll plaza, hitting traffic on the key Chandigarh-Delhi highway on Monday.

The agitators gathered in large numbers at the toll plaza near Gholu Majra village in Dera Bassi town of Mohali district at 7am. To avoid inconvenience to commuters, Ambala police issued a traffic advisory for those travelling on the Chandigarh-Delhi, Hisar-Chandigarh and Ambala-Chandigarh routes. Earlier, travellers were advised to take the alternative route via Panchkula, Barwala, Mullana, Yamunanagar, Radaur, Ladwa and join National Highway-44 at Pipli or at Karnal. The Ambala-Chandigarh rail sec-tion was also blocked near Lalru station in Mohali district.

In view of the protest, the Northern Railways on Sunday issued a list of 221 trains that would be impacted due to protests in Punjab. It cancelled 150 trains operating under its Delhi, Ambala and Ferozepur divisions involving trains operating in Punjab, Haryana, Chandigarh, Jammu and Kashmir, Himachal Pradesh and Uttar Pradesh. The railways had cancelled the Kalka-New Delhi Shatabdi Express (12006), Chandigarh-New Delhi Shatabdi Express 22 trains. Officials at the Ambala division said that no train is moving beyond Ambala Cantt station due to the blockade at Lalru and Shambhu stations. Due to the disruption, passengers were left to bear the brunt of delays and cancellations in the harsh cold. Hundreds of daily commuters travelling through buses from Ambala to Chandigarh, Mohali, Patiala and other nearby cities of Punjab were thrown off stride because of the shutdown. Amrita Singh, who commutes every day from Ambala to Zirakpur for her work, was witnessed waiting

for a bus at Ambala Cantt in Haryana. All buses going towards Chandigarh from Ambala were too crowded, she said. Many outsiders studying in various coaching centres in Chandigarh faced a tough time reaching their destinations. Hundreds of farmers have been protesting at the Punjab-Haryana border demanding a legal guarantee of a minimum support price (MSP) for crops.

With 31 deadline for his hospitalization approaching, security around the protest site has been intensified. Farmers, apprehensive of a potential eviction operation under the cover of darkness, have also reinforced their presence, determined to protect Dallewal from being forcibly removed. With time running out, tensions at Khanauri remain high. The farmers' determination to protect Dallewal and the Government's obligation to comply with judicial directives have created a deadlock. There were also reports that Punjab Chief Minister Bhagwant Mann may also visit Khanauri to meet the farmer leader. Notably, most of the Cabinet Ministers, including Harpal Singh Cheema, Aman Arora, have already visited Dallewal.

repeated efforts to persuade Dallewal to accept medical treatment have, so far, been unsuccessful. A state delegation, led by retired Additional DGP Jaskaran Singh, has made multiple visits to the protest site, urging him to accept medical aid. ## Himachal Govt plans to spend Rs. 1570 crore to revolutionize the health sector: CM Sukhu

### PNS SHIMLA

Himachal Pradesh Chief Minister Sukhvinder Singh Sukhu on Monday said that the State Government will revolutionize the healthcare sector with an estimated capital expenditure of Rs. 1570 crore to be spent on the procurement of state-of-art medical equipment and machineries to benefit the people of the State.

In a statement, he said that annually 9.50 lakh patients are travelling out of the State for diagnostic and treatment resulting in a loss of Rs. 1350 crore of GDP per year.

"This is a serious concern and the present State Government is prioritizing strengthening healthcare infrastructure in the State to save the valuable money and time of the thousands of patients, " he added.

Sukhu said that medical colleges are being upgraded with the facility of robotic surgery in Neurology, Oncology, orthopedics and other departments as this will reduce the workload of the doctors and would also benefit the patients receiving treatments.

He said that the process for installing mod-

ern PET Scan and MRI machines in IGMC Shimla and Dr. Rajendra Prasad Government Medical College, Tanda, district Kangra is underway and this would be dedicated short-

He said that a Cancer Care Centre of Excellence would also be set up in Dr. Radhakrishnan Government Medical College, Hamirpur with ultramodern facilities with an estimated cost of Rs. 300 crore, adding that this facility would have State's first cyclotron machine along with the facility of radiation and nuclear medicine therapy. He said that this centre would have 150 dedicated beds for the cancer patients.

Sukhu also directed to upgrade and strengthen the 69 healthcare facilities with enhanced level of care in the State by adding specialty beds and diagnostic capabilities in these hospitals.

These health facilities will also be strengthened for secondary care, emergency services, equipment abilities and facility safety measures including fire fighting infrastructure and improvement in internal mobility etc.

He said that special focus would be laid to establish in-house laboratories for enhancement of diagnostic and treatment facilities at Zonal Hospitals, Regional Hospitals, District Hospitals and Community Health Centres.

He said that modular operation theatres would be established in Zonal Hospitals and Civil Hospitals under this plan.

He said that these measures would go a long way in preventing the migration of patients to other States for diagnostic and treatments while boosting medical tourism in the State.

The Chief Minister instructed the officers to accelerate the process of upgrading the health-care facilities in the State and said that there is no dearth of money for this and the State Government would provide additional funding if required.

## Exercise for revision of BPL fam-ilies list from April next year: CM

Himachal Chief Minister Sukhvinder Singh Sukhu on Monday presided over a review meeting of the Rural Development and Panchayati Raj department and said the exercise for revision of the list of below poverty line (BPL) fam-

During the meeting, he directed the officers to ensure that only genuine families appear in the BPL list and to formulate a new criteria in this regard. Sukhu instructed the department to formulate this criteria before January 5, 2025 followed by the Cabinet's approval.

"The new guidelines will be shared with the general public in the Gram Sabha scheduled in January 2025," he said.

The chief minister also directed to constitute a two-member committee at the sub-divisional level comprising the SDM and BDO to verify the lists of the BPL families recommended by the Gram Sabha to ensure transparency.

Sukhu emphasized on a robust mechanism to identify the deserving BPL families so that they are not deprived of the benefits and said the state government is considering revision of the annual income for selecting BPL families.

The chief minister said any objections against the final BPL families' list can be submitted to the respective deputy commissioner and divisional commissioner, who will have the authority to review and address these grievances. "A comprehensive website will also be launched for showcasing and home delivery of various products prepared by Women Self Help Groups thereby strengthening the economy of the womenfolk," he added.

### Haryana Chief Secy reviews crime tracking system

### PNS CHANDIGARH

Haryana Chief Secretary Vivek Joshi on Monday said that the State has consistently topped the PRAGATI Dashboard 29 times in the past 39 months, showcasing the sustained excellence and commitment of the state police force since June 2021.

The portal is supervised by the Union Ministry of Home Affairs (MHA) and the National Crime Records Bureau (NCRB) for all states and union territories.

In addition, State Police has also achieved a perfect 10/10 score on the RTS dashboard for citizen services provided

through the HarSamay portal. As of December 26, 2024, Haryana Police has completed over 64,57,071 applications, processing them within the prescribed timelines.

This performance has placed Harvana Police at forefront among all departments in the state, with the highest number of applications processed through the SARAL portal, Joshi said after presiding over 29th meeting of the

State Apex Committee for Crime and CCTNS here in Chandigarh.In the meeting it was informed that e-Summon facility has been successfully implemented in Sirsa district which was selected for this pilot project.

# **Country shamed**

The victim blaming and procedural lapses in the Anna University rape case underscores the urgent need for reform

he recent sexual assault case involving a 19-year-old student at Anna University has once again brought shame upon the nation, highlighting the pervasive nature of gender-based violence and the systemic failures in addressing it. The horrifying incident, compounded by the insensitivity of law enforcement, has triggered widespread outrage and calls for accountability. On December 23, Gnanasekaran allegedly raped the student on the university campus after threatening to release videos of her. The accused confined the survivor for over an hour and recorded the assault. While the Chennai Police Commissioner, A Arun, claimed swift action by apprehending the accused within 24 hours, the Madras High Court highlighted glaring lapses in the police's handling of the case. Particularly damning was the revelation that the First Information Report (FIR) published on the police website disclosed the victim's details, leading to further victim shaming and mental agony. The High Court's rebuke of the police was

scathing. A Bench of Justices SM Subramaniam and V Lakshminarayan criticised the language used in the FIR, terming it misogynistic and reflective of victimblaming attitudes. Such lapses, the Court noted, breach the victim's fundamental rights under Article 21 of the

Constitution, which guarantees dignity. To address these lapses, the Court ordered the formation of a Special Investigation Team (SIT) comprising senior IPS officers to probe the case. It also directed the Tamil Nadu government to provide interim compensation of Rs 25 lakh to the victim and ensure her protection. The Court has rightly underscored the necessity of sensitising police personnel to handle such

cases with empathy and professionalism. This case is not an isolated incident but a grim reminder of the larger problem of sexual violence that plagues India. Despite constitutional guarantees of equality and dignity, women continue to face systemic discrimination and violence. The societal tendency to blame victims, coupled with institutional apathy, exacerbates their trauma. The High Court's poignant questions — "Why can't a woman walk freely, dress as she wishes, or speak to a man without being judged?" - resonate deeply in a society still grappling with entrenched patriarchy. The Court rightly emphasised that the onus is on the State and society to protect women without perpetuating stigma or blame. The incident also exposed lapses in campus security at Anna University. The university, which allows unrestricted access to outsiders, failed to prevent the accused from entering the premises. The police's approach also came under scrutiny for prematurely ruling out the involvement of additional suspects. The Court directed the State to examine whether rules were violated during these proceedings. This tragic case underscores the urgent need for systemic reforms. Law enforcement must be trained to handle cases of sexual violence with sensitivity. The media, too, must exercise restraint in reporting such cases to avoid amplifying the victim's trauma.

# India's forest cover grows, but grim realities linger

KOTA SRIRAJ

While India's State of Forests Report highlights an increase in forest cover, it also raises concerns about troubling trends such as increase inforest fires and allegations of inflated data

ndia's State of Forests Report (ISFR) 2023, a biennial report published by the Forest Survey of India (FSI) under the Union Ministry of Environment, Forest, and Climate Change is finally out after a delay of almost one year. The report is being hailed as a harbinger of good news as it announced an increase in India's forest and tree cover by 1,289 Sq.km. since 2021 reaching 25.17 per cent of the total geographical area in 2023, which puts India's forest cover at 7,15,342.61 sq.km. But the report also highlights some grim aspects of India's state of forests.In the recent past, the incidence of forest fires has disturbingly gone up, especially in the hill states. These fires have destroyed many hectares of dense forests thereby ruining fragile ecosystems and irreplaceable Himalayan biodiversity. The ISF report echoes the same

and observes a sharp spike in forest fires especially in the mountain states of Himachal, Uttarakhand, and Jammu and Kashmir. The data collected using the Visible Infrared Imaging Radiometer Suite (VIIRS) presented in the report, showed that Himachal Pradesh witnessed an increase of forest fires by a stunning 1,339 per cent, while Jammu & Kashmir saw a rise in forest fire by a staggering 2,822 while Uttarakhand was relatively better off with 293 per cent rise in forest fire incidents. What the government was doing as the pristine forests turned to ashes, is a burning question. On the other hand, the report also highlighted the rapidly dwindling forest cover. Between 2003 and 2023, more than 24,000 sq km of dense forests — half the size of Punjab - have disappeared. More concerning is the fact that the loss has occurred in ecologically fragile zones such as the Western Ghats and The Nilgiris over the past decade. The Western Ghats recognised as UNESCO World Heritage Biodiversity Hotspot suffered an overall loss of 58.22 sq km in forest cover. On the other hand, the Nilgiris reported the tions such as rubber, eucalyp-steepest decline of 123 sq km. The tus, acacia and mango, report also showed a decrease of coconut, areca nut and shade 327.30 sq km in forest cover in the northeastern region. This irre-

placeable loss of dense forests sadly was not seen as a wakeup call for the authorities even though the forest cover in the hill districts is just 40 per cent of their geographical area against the Forest Policy mandated 66.6 per cent. This is very alarming as the increased number of landslides and floods can be traced to the loss of forest cover in the hills. < The maintenance of the soil health, ecological stability, and ability to counter landslides and floods depend on adequate forest cover in the hills. The biennial ISF report has since its inception in 1991 served as a reference point for the nation to assess its forest wealth and understand the problems plaguing India's afforestation efforts. But this year's report has been criticised by experts who have pointed out discrepancies and have labelled the data as "inflated." Several experts for instance have criticised the inclusion of bamboo plantations, coconut groves, and orchards among others as part of the forest cover, as these are agroforestryrelated and make no meaningful contribution towards the environment.

The experts opine that the inclusion of agroforest planta-

But the reality is that these categories of trees are grown for commercial purposes and are harvested in time therefore not providing any ecological value for biodiversity, wildlife conservation or acting as effective FOREST LANDS carbon sinks. Moreover, the fact that the report does not **DIVERTED FOR** establish a correlation between forest areas or areas designat-ed as forests in government DAMS, ROADS, **RAILWAYS AND** records and forest cover also adds to the problem. **OTHER SUCH** Additionally, the experts also observed that the report failed PERMANENT to comply with the Supreme CONSTRUCTIONS Court order in the Lafarge case which called for digitisation of OVER TIME ARE forest maps, geo-referencing of Recorded Forest Areas (RFA), LOST FOREVER BUT and documentation of divert-ARE NOT DELETED ed forest lands. tree cover which can absorb an additional amount of 2.5 billion to 3 billion tonnes of carbon dioxide equivalent by 2030.

The government could have done well to ensure the presentation of accurate data that was based on actual tree census and not plantations, groves, and orchards. The government should have also removed those forest lands from its database that have been permanently diverted for non-forest purposes.

The ISF report has immense significance for India as it is widely used as a primary information source by the central and state governments. Additionally, forestry profes-sionals of State Forest Departments rely on the report for the effective discharge of their responsibilities. The inputs and data provided by this report regarding forest resources of India help in the evaluation and formulation of forest-related policies, programmes, and legislation. Given the crucial role played by the ISF report, the government must revisit the recent report and ensure that the questions and doubts raised by experts are effectively addressed. The

These are the teachers who shape our lives. The earliest I remember are two schoolteachers from my classes 5 to 7. Miss Kumar taught us English; Miss Singh was the Arithmetic teacher.

It is no wonder that I developed a liking for the unlikeliest combination of English and Maths. Another was my mathematics teacher from classes 10 to 11.

I was a favourite student, probably because I could discuss with him complex problems on the move while cycling to and from school. My love for communication and thinking on my feet were firmly entrenched in my psyche by him. In later years, I could not have navigated my professional journey but for the few outstanding bosses, I worked with. I joined my first job in a leading government manufacturing company. ### **RELIEF FOR MIDDLE-CLASS**

Madam —As the new year approaches, salaried employees are likely to face significant tax deductions from their salaries for the financial year 2024-2025. While taxes are deducted throughout the year, the months leading up to March 2025 will see an increased burden, further aggravating the financial challenges of India's middle class. Reduced take-home pay diminishes purchasing power, leading to decreased spending by the salaried class, which, in turn, impacts the economy.

Considering these challenges, the government is reportedly exploring measures to boost consumer spending. One such measure under consideration for the financial year 2025-2026 budget is making personal income up to Rs 15 lakh per annum taxfree. Speculations suggest that the government is actively working in this direction, and the decision on tax cuts in the upcoming budget appears almost certain. Taxation is currently governed by two systems: the old tax regime (OTR) and the new tax regime (NTR). A reduction in tax liability would particularly benefit salaried employees, increasing their disposable income. This would lead to higher consumer spending, ultimately helping the economy recover from its slowdown. For the financial stability and development of middle-class families, the central government's decision to make personal income up to Rs 15 lakh per annum tax-free in the 2025-2026 budget is crucial. This move would play a vital role in ensuring better financial planning and stability for the middle class.

### **PROFIT OVER HUMANITY**

Madam — The article on caring for the stars and being careless to earth (December 30) presents worth considering arguments. The basic problem lies in the economic order in vogue in most parts of the world. The essence of the order is commodifying everything and chasing profit in every activity. In the process, small players arebeing gulped by the big

### **Koneru wins World Rapid Chess Champion**

The recent chess title victory by Koneru Humpy as World Rapid Chess Champion is another feather in India's Chess success. We all know that the year 2024 has been a marvellous year for India, particularly as we successfully managed to lift so many titles in the sport of Chess. The grit and brilliance of

fish to monopolise the field and then search for opportunities elsewhere with the State's help to emerge as an imperial force is the basic activity found all over. Leaving millions of people to starve to enrich the minuscule super-rich is the prioritised programme of the order in vogue

Instead of political force deciding the economic course it is the economic force that decides the political course. The policies of the governments are designed to favour this ultra-rich section. If policies are not changed to its favour, the giants are capable of changing the government itself. Poverty, climate-related hostilities and human destruction due to induced and perverted conflicts between nations, faiths, races and the greedy groups are simply the fallouts of the empirical power money has gained over the human being instead of helping its inventors. Caring the stars and other planets while being cruel to fellow beings struggling around us is like searching for fuel sticks in a desert lot. Course change is imminent.

Indian Chess Champions has marvelled the entire world, be that the moment of India becoming the FIDE Chess Olympiad 2024 winner in Budapest, D Gukesh becoming the World Chess champion at the age of 18 in Singapore, and now Ms Koneru Humpy clinching her second FIDE World Rapid Crown in New York. This year in 2024 particularly, India spent a considerably wonderful time at the podium top stairs, enjoying many titles and trophies.

The chess prowess of Indians need no introduction today, thanks to our chess masters and grandmasters. Especially the young chess players deserve the epitome of appreciation for their wonderful game spirit, patience and sincere grit behind every move of check and mates.

### **INDIA'S LIBERALISATION ARCHITECT**

Madam — From being an economist of great repute to RBI Governor, Deputy Chairman of the Planning Commission, Finance Minister and then becoming Prime Minister of India, not many can walk in his shoes. When the economy was stuttering and license raj was the order of the day and there was a suffocating environment for industrialists, Dr. Manmohan Singh became the architect of liberalisation in 1991 along with late PV Narsimha Rao, who allowed our country to take a great leap forward. The Victor Hugo moment of our 1991 budget was doctored by him, which led to India emerging as an economic powerhouse. He may have been called an accidental Prime Minister but during those 10 years at the helm he did his job with aplomb under the given circumstances of compulsions of coalition politics.

# **FIRSTCOLUMN OVERCOMING THE GRIP OF FEARFUL THOUGHTS**

Fearful thoughts often take hold of our minds, leading to obsession with worst-case scenarios

### AJIT KUMAR BISHNOI

e routinely become obsessed with fearful thoughts. The word obsession is defined as a persistent disturbing preoccupation with an often unreasonable idea or feeling. We don't stop there; we think of the worst. What is the probability of that happening? But that does not prevent us from this common flaw; we do it willingly. There are several reasons for succumbing to this. We have many attachments. We are desperate for something like a good result, and a few like we shouldn't get sick. Unfortunately, these are decided by the Divine Authority based on our past 'Karmas' (deeds). We have no say in it, and they manifest at their designated times. Fortunately, they are very rarely the worst we think of. If so, life would be hellish, which it is not. This earth's planet is a place of misery (The Bhagavad Geeta 8.15) alright, but is not a concentration camp by any standard. But our imagination has no bounds.

The next big offender is a refusal to be prepared to tolerate. We want zero tolerance. Is it possible? Everything is changing like the weather. Bad 'Karmaphalas' (results of bad deeds) will manifest for sure because this is no Vaikuntha; we have most certainly a past with many bad karmas. How else are we here, not even in Heaven? We feel that we are intelligent, but hardly anyone escapes making this mistake. Yes, we are supposed to get fearful, because that protects us from acting foolishly, but excessive fear is due to faulty assessment. Due diligence is required.

The fourth offender is greed. Our desires are open-ended. Is it wise? The evidence shows that downfalls occur due to being too greedy.

But to become greedy and then fear the consequences makes zero sense. Over-stress also causes fearful thoughts, especially about health. It is better to avoid to lessen this possibility. We want to control and are unable to. We act stupidly and then fear the worst. The same problem exists in acting big, which no one can ever become; we are intrinsically small and will remain eternally so. Acting as the sole doer also evolves fearful thoughts. Giving control of our minds to fearful thoughts is making ourselves our enemies. Lord Krishna has warned about it (4.6). Similarly, intelligence is supposed to curb this tendency but, again, we find some justification in harming ourselves. This is also a sad commentary on our knowledge, about which we are so proud. A soul has severe limitations, as we realize; he must remain in the shelter of God. This is the only worthwhile solution. I am sorry to be so stern, but the proliferation of mental diseases points to it only. God controls the Creation (9.10) and He, therefore, has to guide and help to deal with it. By ourselves, we are quite helpless really. How it works? It is quite simple, but a very long drawn exercise, because this problem involves our 'svabhava' (nature). This is what I do. The moment a fearful thought crosses my mind, I pray sincerely for guidance and help, because I need to know a way out. I need exact guidance for my actions.

# Assessing efficacy and challenges of compensatory afforestation

With ecosystem at stake, the nation's approach to monetising and restoring nature demands careful evaluation and sustainable strategies write BKP SINHA and ARVIND KUMAR JHA

ompensatory Afforestation (CA) relates to the mitigation of environmental damage caused by the diversion of forest land for non-forestry purposes and is a mandatory requirement for obtaining clearances under the Forest Conservation Act, 1980; now Van (Sanrakshanevam Samvardhan) Adhiniyam (VSSA) 1980 and Rules. The Government of India guidelines state that normally CA must be carried out on a suitable non-forest land equal to the forest area proposed for diversion and for minimizing the adverse impact on the micro-ecology, such land should be located as near as possible to the diverted area. If suitable non-forest land is unavailable, CA may be carried out on degraded forest land equal to twice the area of the diverted forest land. The unavailability of non-forest land in a district is certified by the District Collector and in the exceptional case of its unavailability in the whole state/union territory (UT), the chief secretary has to certi-fy accordingly and CA land may be identified preferably in a neighbouring state/ UT.As regards CA, the Government of India guidelines of 2017 and 2019 emphasised compensation for loss of land by land and that of trees by trees.

They indicate that at least 1000 plants are to be planted in one hectare and in case 1000 plants are not possible to be accommodated, the balance may be planted in some other government forest identified by the state government. The states having more than 75% forest cover, however, are exempted from the task of procuring non-forest land for CA. Their CA can be taken up in states with deficient forest land/cover. As regards size, lands smaller than 5 hectares can also be accepted for CA if it is contiguous to a wildlife conservation area like National Parks and Wildlife Sanctuaries.Area equivalence criterion often leads to an understanding that any forest can be equated with tree plantations of any kind but the concept of Net Present Value (NPV) is additionally used to calculate the worth of diverted forests by attaching a monetary value to a whole range of goods and services provided by them. This amount is recovered from the project proponent.

The World Bank's 2002 strategy elaborates the NPV to include goods and ser-vices like wood and non-wood items, ecosystem services, support to wildlife, climate regulation, soil & water conservation and flood prevention, carbon sequestration, nutrient cycling, health support systems and non-material benefits which may be spiritual, inspirational, recreational, aesthetic, educational etc. Its value thus extends far beyond economics and considering the interest of different stakeholders, the values of different components may also vary, such as the cultural significance of a tree species versus its commercial value as timber. The January 2022 guidelines of the Ministry of Environment, Forest and Climate Change (MoEFCC) have clubbed the forests of India into six Ecoclasses to realize NPV instead of diverted forest land. Out of them, class I includes Tropical Wet Evergreen Forests, Tropical Semi Evergreen Forests, and Tropical Moist Deciduous Forests, while class II contains Littoral and Swamp

analys \$ 07

Interestingly, the per hectare value of NPV for both these classes has been kept the same, an equality that appears surprising.It is crucial to arrive at a monetized figure for a unit of Nature/biodiversity and ensure that investing in it will offset the loss caused by diversion. Simultaneous sustainable development of biodiversity is of course a formidable challenge. Accordingly, HOLISTIC any oversimplification of biodiversity assessment can lead to inaccu-**DEVELOPMENT OF** racies and undermine genuine conservation efforts.

ing that planting native species in arid landscapes and near urban areas is of greater ecological value. Talks are said to be on with the Madhya Pradesh government for situating the balanced CA area. The CA in Aravali's arid/semi-arid region, approximately 2,400 kilometres away, to compensate for the loss of pristine rainforests of Great Nicobar is a significant departure from the guideline regarding the positioning of CA land. Reportedly, the CA with ?3000 crore's investment is expected to be mostly a revival plan to improve the soil texture and fertility and to make stone boundary walls since the proposed area already has root stock requiring just protection and sup-plemental planting wherever required.

Indicative of the natural limits imposed by edaphic, geographical, and climatic factors, the Forest Survey of India (FSI) 2021 report on forest status shows that the carbon stock per hectare in A&N forests is fourth highest in the

shrubs indicate a vibrant ecosystem wherein approximately half of the mammals, a third of the birds, a quarter of the reptiles, and over a tenth of flowering plants are endemic. A crucible for the habitat rights of the Shompen tribe notwithstanding, it is home to the endangered Nicobar Megapode and Leatherback Turtle, and has over twenty thousand coral reefs in its vicinity. In 1989. The UNESCO declared a significant portion of the island as a biosphere reserve. Despite such uniqueness, distinc-tive parameters, and ecological significance; its NPV per hectare is exactly equal to the forests in Ecoclasses I and II. GIN is just one project.

An in-depth analysis of forest land diversion cases can provide, in addition to actionable issues related to limitations and risks in offsetting just through the prevalent CA and NPV model, important insights into ways to minimize harm to Nature, redeemability of loss to forest ecosystems, correct determination of NPV, efficient investments in Nature recovery and restoration initiatives, handling of habitat rights of the primitive tribes and pre-agricultural communities, and regulations needed to ensure accountability. Nature's monetization and biodiversity markets are fast emerging as potential funding sources for conservation. Their effectiveness demands an honest valuation of diverted forests and a strict implementation of conservation strategies. The outcomes depend on those having the power to decide. Only time will tell, but the decisions made today will echo through the annals of history shaping the destiny of our coun-try and of humanity itself. investment will divert 130.75 sq. km. of forest land for infrastructure development that includes a transshipment port, an airport, a power plant, a defence base, an industrial park, and a township. The project involves the felling of an estimated one million trees with habitat destruction that would also impact the life, livelihood, and forest rights of the Shompen; a particularly vulnerable hunter-andgatherer tribal group. The MoEFCC claims to have incorpo-

country; next only to Himachal, Sikkim, and J&K while Haryana has the second lowest; next only to Delhi.

This fact does raise questions regarding the possibility and efficacy of compensating adequately Nicobar's loss of carbon stock and biomass by investing CA money in Haryana. Considering the aspect of NPV, it is worth noting that Nicobar Island forests are more like that of Malaysia and Indonesia while the Andaman Islands' flora is more akin to the species found in Myanmar, Thailand, and rated into the project some exemplary mitigation measures, includ-ing compensatory afforestation, Northeast India. # Indian agriculture and climate change: Challenges and strategies

India is forging a path toward climate-resilient agriculture, leveraging innovative strategies, integrated farming practices and government-led initiatives

he agriculture and allied sectors play a central role in the sustainable growth and development of India's economy. These sectors not only ensure food and nutritional security for the country's 1.4 billion people but also contribute significantly to production, employment, and demand generation through various backward and forward linkages. While agriculture constitutes about 16% of India's GDP, it supports nearly 49% of the workforce (Economic Survey, 2018). However, with over 50% of India's cultivated land dependent on rainfed irrigation, the sector is highly vulnerable to climate variability. The ongoing challenges to sustain the natural resource base further

PRAVESH SHARMA

amplify the adverse impacts of climate change, which disproportionately affect the poor. Challenges Posed by Climate Change on Agriculture 1. Rainfall Variability: The increasing intra-seasonal vari-ability of rainfall has emerged as a major concern. Rainfall patterns are becoming increasingly skewed, characterized by fewer rainy days with higher intensity. This results in sig-

nificant soil erosion and exacerbates the length of dry spells. Deviations in the hydrological cycle are contributing to extreme events, such as floods caused by intense rainfall or droughts triggered by pro-longed dry spells, impacting different parts of the country. 2. Temperature Rise: Rising temperatures pose a greater

threat to tropical countries like India, which already operate near the higher end of the temperature spectrum. Elevated temperatures influence various climatic factors, adversely impacting crop production. For instance, extreme heat reduces fruit setting in citrus crops and increases transpiration losses in vegetables. 3. Livestock and Poultry **Impact:** Climate variability also affects animal production

and reproduction. Increased temperatures and higher temperature-humidity index levels lead to reduced feed intake lower milk yields, and decreased meat and egg quality. Poultry, in particular, suffers from heat stress, resulting in thinner eggshells and increased egg breakage.

4. Pests and Diseases: Climate change influences the population, survival, and geographic distribution of pests and diseases. Rising temperatures and humidity levels create favorable conditions for pest proliferation, making control measures more challenging and unpredictable.

### Mitigation and Adaptation Strategies

Adaptation to climate change involves anticipating adverse impacts and taking proactive

measures to minimize damage or leverage emerging opportunities. Given that most Indian farmers are smallholders with limited coping capacity, building resilience is key.

Water Resource Management:Enhancing rainwater productivity through scientific rainwater harvesting, recycling, and precision water use is essential. Improved irrigation techniques and water budgeting can mitigate the impact of erratic rainfall.

2. Integrated Farming Systems:Combining crop cul-tivation with livestock, fish-eries, and plantations offers diverse income streams and reduces climate vulnerability. Contingency planning for alternate crops and activities based on agro-climatic conditions further strengthens resilience.

3. Technology and Innovation: Developing stress-tolerant crop varieties, conserving agro-biodiversity, and promoting resource-efficient technologies are critical. Pest forecasting models, weather-based advisories, and agricultural risk management systems should be expanded to aid farmers in decision-mak-

4. Community Involvement and Education: Engaging local communities in production system management and raising awareness about climate-resilient practices is vital. Farmers, consumers, and markets must be educated to embrace sustainable agriculture practices that align with cultural and social contexts. Government Initiatives to Address Climate Change

The Government of India has taken several steps to combat climate change.

National Action Plan on Climate Change (NAPCC): Guided by the Prime Minister's Council on Climate Change, the NAPCC includes the National Mission for Sustainable Agriculture (NMSA), focusing on resource conservation, soil health, integrated farming, and water-use

efficiency.

National Innovations on **Climate Resilient Agriculture** (NICRA): This initiative provides scientific and technical guidance for sustainable agricultural development.Key Program Interventions: Policies like the Pradhan Mantri Krishi Sinchayee Yojana, National Food Security Mission, and Soil Health Card Scheme aim to enhance soil health, water efficiency, and farm productivity.

Agricultural District Contingency Plans: These plans provide integrated solu-tions for crop, livestock, and fishery challenges arising from weather anomalies, supporting farmers during extreme conditions.

Book on historical monuments by Lehnaaz Rana and Noor Dhillon released

Chandigarh: 'The Time Capsule' written by two class twelfth students Lehnaaz Rana and Noor Dhillon was released here in which the duo have shared the story of their journey through some of Punjab's most important yet lesser-known historical sites. Over the past year and a half, the duo have traveled to various locations across the state, including the Kapurthala Palace, Lodhi Fort, Burail Fort, Manauli Fort, Sanghol Stupa and others such historical monuments and have recorded the history in a book form with imposing pictorial references. Their detailed accounts cover forts and palaces they visited, as well as the royal iewels of the Patiala, Kapurthala, and Faridkot families, revealing the connections between local history and European craftsmanship. A number of monuments in the state for a long time have remained hidden out of public view. The monuments speak of rich historical landmarks and witness the long passage of time, cultural ethos and heritage of Punjab. When we visited these monuments we were overwhelmed and decided to record it in book form," said Rana and her co-author Noor. Historian and educationist Shekhar Dutt who released the book said that it is an eye opener and going through the book takes the reader to a tour of these monuments.

# South Korean authorities seek warrant to detain impeached President Yoon in martial law probe

### AP SEOUL

South Korean law enforce-ment officials requested a court warrant on Monday to detain impeached President Yoon Suk Yeol as they investigate whether his short-lived martial law decree on December 3 amounted to rebellion.

The Corruption Investigation Office for High-Ranking Officials, which leads a joint investigation with police and military authorities into the power grab that lasted only a few hours, confirmed it requested the warrant from the Seoul Western District Court. They plan to question Yoon on charges of abuse of authority and orchestrating a rebellion.

Yoon Kap-keun, the president's lawyer, denounced the detention attempt and filed a challenge with the same court, arguing that the warrant request was invalid. He also claimed the anti-corruption agency lacked the legal authority to investigate rebellion charges. Still, he evaded answering how the legal team would respond if the court approved the warrant for the president's detainment.

"An incumbent president cannot be prosecuted for abuse of power," the lawyer said. "Of course, there are differing academic opinions on whether a president can be investigated for abuse of power and some assert that investigations are possible. But even when investigations are allowed, the pre-

vailing opinion is that they should be exercised with the utmost restraint."

The anti-corruption agency didn't immediately respond to the lawyer's comments. Han Min-soo, spokesperson of the liberal opposition Democratic Party, called for the court to issue the warrant, say-

ing Yoon Suk Yeol's detainment would be the first step toward "ending the rebellion and restoring normalcy." The warrant request came after Yoon dodged several requests by the joint investigation team and public prosecutors to appear for questioning and also blocked searches of his

offices. While Yoon has the presidential privilege of immunity from criminal prosecution, such protections don't extend to allegations of rebellion or treason. It's not clear whether the court will grant the warrant or whether Yoon can be compelled to appear for question-

Under the country's laws, loca tions potentially linked to military secrets cannot be seized or searched without the consent of the person in charge, and it's unlikely that Yoon will voluntarily leave his residence if he faces detention. There are also concerns about possible clashes with Yoon's presidential security service if authorities attempt to forcibly detain him. Yoon's presidential powers were suspended after the National Assembly voted to impeach him on Dec. 14 over his imposition of martial law, which last-

ed only hours but has triggered weeks of political turmoil, halted high-level diplomacy and

rattled financial markets. Yoon's fate now lies with the Constitutional Court, which has begun deliberations on whether to uphold the impeachment and formally remove Yoon from office or reinstate him The National Assembly voted

last week to also impeach Prime Minister Han Ducksoo, who had assumed the role of acting president after Yoon's powers were suspended, over his reluctance to fill three Constitutional Court vacancies ahead of the court's review of Yoon's case. The country's new interim leader is Deputy Prime Minister Choi Sang-mok, who

is also finance minister. To formally end Yoon's presidency, at least six justices on the nine-member Constitutional Court must vote in favour. Three seats are currently vacant following retirements and a full bench could make conviction more likely.

Choi, who has been handling the government's response to a plane crash on Sunday that killed 179 people, has yet to say whether he intends to appoint the Constitutional Court justices.

In a separate criminal investigation of Yoon, authorities have already arrested his defense minister, police chief and several other military commanders involved in the attempt to enforce the martial law decree, which harkened back to the days of authoritarian leaders the country hasn't seen since the 1980s.

In theory, the authority to investigate rebellion charges lies solely with the police, following a 2021 reform that redistributed investigative powers among law enforcement agencies and removed rebellion from the list of crimes prosecutors and the anti-corrup-tion office could pursue. But those agencies have still been investigating rebellion accusations against Yoon, allegedly linked to charges related to abuse of power, a type of crime they are authorized to investigate. Yoon and his military lead-

ership have been accused of attempting to block the National Assembly from

Yoon's orders.

Yoon has defended the martial law decree as a necessary act of governance, portraying it as a temporary warning against the liberal opposition Democratic Party, which he has described as an "antistate" force obstructing his agenda with its majority in the National Assembly. Yoon has claimed he had no intention to paralyze the functioning of the assembly, saying that the troops were sent to maintain order, and also denied planning to arrest politicians. Yoon's claims have been

denied by Kwak Jong-keun, the now-arrested comman-

# German govt seeks to downplay Musk's backing of far-right party ahead of poll

#### AP BERLIN

The German government on Monday sought to downplay efforts by tech entrepreneur Elon Musk to get involved in the country's general election campaign by again endorsing the far-right Alternative for Germany, or AfD, party.

Musk caused uproar over the weekend after backing the AfD in an opinion piece in a major newspaper, leading to the resignation of the paper's opinion editor in protest.

"Freedom of expression also includes the greatest nonsense," government spokesperson Christiane Hoffmann said, adding that should wouldn't comment further on Musk's statements. She did, however, say that "it is indeed the case

through his statement."

# **UP unveils ambitious five year export policy to boost** share to 7.5 per cent: Industry Minister Gupta

### PTI 📕 NEW DELHI

Pradesh Uttar ¬he government is gearing up to unveil a five-year export policy to boost its share in the country's overall outward shipments to 7.5 per cent and help the state become a USD 1 trillion economy.

The new export policy for 2025-30 will replace the existing five-year policy. The

state government provides a host of incentives and hand-holds the exporters to push shipments from the state.

Uttar Pradesh Minister for Industrial Development, Export Promotion, NRI, and Investment Promotion Nand Gopal Gupta 'Nandi' said the state government is working on the 2025-30 export policy, with a focus on enhancing capabilities export to promote overall development. "The new export policy is being

formulated with a target to increase the state's share from 4.71 per cent in 2023-24 to 7.5 per cent. This policy also accelerating growth and job creation," Gupta said in an email interview. The focus on enhancing export

driving aims at economic added.

capabilities will propel Uttar Pradesh towards becoming a USD 1 trillion economy, revenue and fostering development, he "Since the state government

has adopted export as well as investment-friendly policies, with continuous along

development of smooth logistics facilities in the state, hence this will boost the export from the state and contribute significantly to make the state a USD 1 trillion economy," Gupta noted. During the April-September period of the current financial year, Uttar Pradesh's share in the country's total exports was estimated at 4.89 per cent. The minister also informed that the state is already providing incentives to the exporters under Marketing Development Assistance, Gateway Port Scheme, and Air Freight Rationalisation plans.

He further said that the upcoming Jewar Airport will enhance connectivity to exporters with overseas destinations.

The airport will help in saving time and expenditure on freight charges. Gupta also said the one-district-

one-product scheme has played a pivotal role in creating employment and upskilling traditional artisans engaged in various traditional arts of different

districts. The state government is providing providing training to upgrade the skills of artisans and toolkits to artisans to enable them to establish their own enterprises. Since the inception of the scheme, the government has trained 1,33,472 artisans across the state, Gupta said. The scheme was launched in In escience was raunched in January 2018 with the objective of promoting the traditional arts and crafts being practised in different districts by identifying district-specific products for all 75 districts of Uttar

Pradesh. India's goods and services exports may cross USD 800 billion in 2024-25. It was USD 778 billion in 2023-24.

### Silent firing' on a rise with rapid technological advancement: Report

### PTI MUMBAI

With rapid technological advancement, silent firing - a strategy by companies to indirectly push employees to leave their roles - has picked up pace, with 10 per cent of employers preferring layoffs for redundant positions, a report said on Monday.

The report by staffing solutions and HR services provider Genius Consultants said that silent firing is often intertwined with technological advancements, with employers adopting varied strategies to navigate the evolving workplace

"I think we sort of all want the same thing," he suggested in the video on his Take Take Take chess app's YouTube channel. "We want the players to be comfortable, sure, but also relatively presentable?

The events began when Carlsen wore jeans and a sportcoat Friday to the Rapid World Championship, which is separate from but held in conjunction with the blitz event. The chess federation said Friday that longstanding rules prohibit jeans at those tournaments, and players are lodged nearby to make sartorial

switch-ups easy if needed. An official fined Carlsen \$200 and asked him to change pants, but he refused and wasn't paired for a ninth-round game, the federation said at the time. The organisation noted that another grandmaster, Ian Nepomniachtchi, was fined earlier in the day for wearing sports choes in the day for wearing sports shoes, changed and continued to play.

Carlsen has said that he offered to wear something else the next day, but officials were unyielding. He said "it became a bit of a matter of

# Paulo Fonseca fired by AC Milan

### AP MILAN

Paulo Fonseca has been fired by AC Milan, with the club confirming the decision Monday morning after the Portuguese coach was informed following a 1-1 draw at home to Roma the previous night.

"Yes, it's true. I'm out," Fonseca told reporters when he lowered his car window as he left San Siro following Sunday's match. "That's life. ... I did everything I could."

Milan is expected to hire Sergio Conceicao, another Portuguese coach, as Fonseca's replacement. The Serie A club released a short statement confirming Fonseca's dismissal.

"AC Milan announces that Paulo Fonseca has been

relieved from his duties as as Milan coach was to be sent head coach of the men's first team," it said. "The club extends its gratitude to Paulo off for dissent in the first half of Sunday's match. Milan is eighth in Serie A, trailing leaders Atalanta and Napoli by 14 points — far worse than the second place result earned under Stefano for his great professionalism and wishes him the very best in his future endeavours." Fonseca was hired in June and produced only 12 wins in 24 Pioli last season. Pioli left the all club at the end of the matches across competitions. His last action campaign after a near fiveyear stint that included the 2022 Serie A title.

Milan has fared better in the Champions League lately following four straight wins, including a 3-1 result at Real Madrid. The Rossoneri are in 12th place and on course to qualify for the knockout playoff round.

Fonseca was already under pressure early in the season after just one victory in his first five matches in charge but that eased following a derby victory over Inter Milan.

There were protests from fans before and during the match against Roma but the chants were mainly aimed at the club's American owners, with the supporters RedBird founder urging Gerry Cardinale to sell up.

Carlsen.

### AP WELLINGTON

Four-time Grand Slam champion Naomi Osaka made a winning return to the court after an almost three month absence Monday in the first round of the ASB tennis classic in Auckland, undeterred by protests outside the stadium against her Israeli opponent.

Osaka beat qualifier Lina Glushko 6-4, 6-4 in a tight contest in her first match since October when a back injury at the China Open ended her 2024 season.

All the hallmarks of Osaka's game were present Monday: the powerful serve, forceful ground-strokes particularly from the forehand side and the aggression. She looked relaxed and comfortable on court with no sign of her recent injury. Osaka had to deal with a swirling wind

on center court and with delays in play caused by the chants of a small group of protesters which were clearly audible

within the stadium. There was a longer break as Osaka was poised to serve out the first set when Glushko had to leave the court for treatment to a hip injury. "I had no idea what the score was most of the time," Osaka said. "I just kept trying to tell myself one point at a time and trying not to get discouraged. "Thankfully it came out in my favor in

the end."

Osaka was supported at courtside by her new coach Patrick Mouratoglou who previously had a long-term association with Serena Williams. She broke Glushko in the third game of the first set and held comfortably to

win 6-4.

The second set was tighter. Osaka broke Glushko in the third game but Glushko converted her only break point of the match to level at 2-2.

Glushko held to love in the seventh game to lead 4-3 but Osaka seemed to step up at that point, held with two aces for 4-4, broke for 5-4 and held serve to love to clinch the win

Her serve was solid throughout. She sent down seven aces and won 74 percent of first serve points. Her first serve averaged around 180kmh (111mph) and her slice around 140kmh (87mph).

"I think she's a really amazing opponent. I've never played her before," Osaka said.

# Australia beat India by 184 runs in fourth Test

### PTI MELBOURNE

ndia slumped to a demoralising 184-run loss to Australia in the fourth Test here on Monday with contemporary greats Rohit Sharma and Virat Kohli failing to come good yet again, signalling that their walk towards the exit door is not too far.

Chasing a near improbable target of 340, both Rohit (9 off 40 balls) and Kohli (5) failed to battle their technical frailties and mental cobwebs as India lost seven wickets for 34 runs in just 20.4 overs in the final session to be all out for 155 in 79.1 overs.

Australian captain Pat Cummins (3/28 in 18 overs) was superb as usual and Scott Boland was also magnificent (3/39 in 16 overs) in his every spell.

Nathan Lyon (2/37 in 20.1 overs) took advantage of variable bounce while Mitchell Starc (1/25 in 16 overs) got the prized scalp of Kohli. This was after an 88-run fourthwicket stand between Yashasvi Jasiwal and Rishabh Pant. "Pretty disappointing. We wanted

to fight but we could not do it," a dejected Rohit said in the postmatch presentation

"We tried everything but they fought hard. We did not grab our chances," he conceded.

Australia now lead the series 2-1 and unless India draw level in Sydney, a third successive World Test Championship final could become a distant dream. Even to retain the Border-Gavaskar Trophy, India would need to post a win.

Save Jaiswal (84, 208 balls), whose controversial caught-behind in which the third umpire overruled technology to adjudge him out, none of the other batters performed well enough to save the team.

"They batted well in the middle session. We knew that we had to get one breakthrough and anything can happen and that proved to be the case.

"We had plenty of runs to play with, we had plenty of fielders with the helmet around," a beaming Cummins, who was also adjudged player of the match for his haul of

six wickets, said in the presentation ceremony. The art of saving Test matches has

slowly become extinct but India would have depended on their two

senior-most players, who are also fighting to save their legacy and reputation built over nearly two decades. In case of Rishabh Pant, it was one came to a naught.

bad shot too many after a full session in which he concentrated. He got a rank long hop from Travis Head but after a 103-ball vigil, it all

Even Jaiswal's guts and grit couldn't prevent a once highly-rated, but currently a trifle over-rated, Indian batting line-up from implosion with over-the-hill seniors and young superstars unable to handle the pressure.

The defeat could have severe repercussions as there seems to be no light at the end of the tunnel for skipper Rohit.

As for Kohli, despite all his white-ball exploits, the problems outside the off-stump will stick out like a sore thumb. For Rohit, his ultra-defensive

approach in the opening slot, is causing India to stare down the barrel with alarming regularity.

Rohit did all the hard work during the first hour before opposition skipper Cummins got his bunny for the 10th time in Test matches. Kohli could never control his urge of playing the cover drive again and was caught at first slip after Mitchell Starc pushed one across with the angle.

Rahul was out without troubling the scorers after getting a second good ball in the game.

Rohit's decision to bat up the order backfired and it also tinkered with Rahul's mindset despite him being perfectly fine opening the innings. The captaincy was pedestrian as he let the game drift on occasions and there were lot of phases that led to India's defeat but none more telling than the final wicket partnership between Scott Boland and Nathan Lyon where the target went out of reach on Sunday.

Save Jasprit Bumrah, who once again toiled manfully for 50 overs and took nine wickets, and find-ofthe-series Nitish Reddy, who scored a gritty hundred, there are no positives to be taken from this defeat.

The batting, save for the second innings in the opening Perth Test, has been absolutely below par and India won't be doing themselves any favours if they have walking wickets at the top of the order. The team is going through a tough transition and it is now time that their feisty head coach Gautam Gambhir shows some spark along with chairman of selectors Ajit

Agarkar.

# India's peerless fast bowler Jasprit Bumrah nominated for ICC Cricketer of the Year award

### PTI DUBAI

Operating at a level rarely seen in the game before, India's peerless fast bowler Jasprit Bumrah was on Monday nominated for the ICC Men's Cricketer of the Year award and also featured in the list for the best player in the Test format.

Bumrah, who has left the Australian batters scrambling for survival with his incredible display of fast bowling in the ongoing fivematch series Down Under, has been nominated for the top award, named after legendary West Indies allrounder Sir Garfield Sobers, alongside England's prolific duo of Joe Root and Harry Brook, with swashbuckling Australian batter Travis Head completing the list.

Besides Bumrah, who has been at the top of his game throughout 2024, Root, Brook and Sri Lanka's Kamindu Mendis featured in the list for the ICC Test Cricketer of the Year award.

Bumrah has been the best bowler in Test cricket in 2024 with 71 wickets from 13 matches at an average of 14.92 and a strike rate of 30.16, the Tests. best figures for any bowler.

the calendar year, Bumrah

delivered his best-ever annual 71 wickets tally finishing the year with more Test wickets than any of his counterparts," the ICC said on its website.
