

Winter haze shrouds National Capital

RAJESH KUMAR ■ NEW DELHI

A bitter cold wave, and dense fog gripped Delhi-National Capital Region on Tuesday, with air quality plunging back into the 'severe' category and drastically reducing visibility across the city. The Air Quality Index (AQI) of Delhi stood at 433 while the minimum temperature was 5.9 degrees Celsius, two notches below normal while the maximum temperature settled at 24.4 degrees Celsius, two notches above normal. The AQI was expected to remain in the 'severe' category for the next two days.

Of Delhi's 35 monitoring stations, 28 recorded the air quality in the 'severe' category, with some breaching the 450 mark that is classified as 'severe plus'. Monitoring stations in Mandir Marg, Jahangirpuri,

Narela, Nehru Nagar, Patparganj, Punjabi Bagh, Rohini, ITO, Jawaharlal Nehru Stadium, DTU, Major Dhyan Chand National Stadium, Mandir Marg, Pusa, Shadipur recorded the AQI in the 'severe' category. The AQI was in the 'severe plus' category in Alipur, Anand Vihar, Ashok Vihar, Bawana, Burari, CRRI Mathura Road, North Campus, Okhla Phase 2, Sirifort, Sonia Vihar and Vivek Vihar. According to India Meteorological Department (IMD), meteorological conditions are likely to be unfavourable for effective dispersion of pollutants.

The major source of Delhi's pollution was vehicular emission, contributing 18.8 per cent of PM2.5. There was no contribution of stubble burning to Delhi's pollution and the season is over in Punjab and Haryana. PM2.5 remained

the primary pollutant, with levels recorded at 252 micrograms per cubic metre at 4 pm. Meanwhile, haze and cold wave conditions have caused severe disruption across the region. Thick fog enveloped various parts of the district, severely reduced visibility and created challenges for commuters. According to the IMD the national capital registered a minimum temperature of 4.5 degrees Celsius at 5.30 am, which later settled at an average of 5.9 degree Celsius. The temperature in certain areas of Delhi went even below 4.5 degrees Celsius. The minimum temperature in Pusa was recorded at 3.5 degrees Celsius, while in Anjanagar, the minimum temperature was recorded at 4 degrees Celsius. At Najafgarh, the minimum temperature was

slightly higher, at 6.2 degrees Celsius. As temperatures dropped further and fog reduced visibility, the Delhi airport administration implemented low visibility procedures on Tuesday. Moderate fog reported at Safdarjung airport. Safdarjung airport recorded lowest visibility 350m at 8 am, which improved thereafter becoming 400m at 8.30 am. Palam airport recorded lowest visibility 600 m during 8 am hours to 9 am hours which improved thereafter becoming 700m at 9.30 am. However, the Indira Gandhi International Airport (IGIA) authority clarified that flight operations were not affected by the current conditions. A passenger advisory was issued, urging travelers to check with their respective airlines for the latest flight updates. "Low visibility procedures are in

place at Delhi airport. Flight operations remain normal. Passengers are advised to contact their airline for updated flight details," the airport administration posted on X. Meanwhile, Delhi-NCR schools on Tuesday switched to the hybrid mode of conducting classes following the re-imposition of anti-pollution measures under the Stage IV of the Graded Response Action Plan (GRAP). According to the revised GRAP schedule, classes for students in grades VI-IX and XI in Delhi, Gurugram, Faridabad, Ghaziabad and Gautam Buddha Nagar must operate in hybrid mode (physical and online) under Stage IV. However, students of class X and XII have to attend school in-person.

You are responsible for the mess: SC tells Greater Noida Authority

PIONEER NEWS SERVICE ■ NEW DELHI

Considering the plight of the hassled homebuyers, the Supreme Court on Tuesday asked the Greater Noida Industrial Development Authority (GNIDA) to submit a proposal for grievance redressal, and imposed Rs 5 lakh cost on it for failing to file a timely response. A Bench comprising Chief Justice Sanjiv Khanna and Justice Sanjay Kumar expressed dissatisfaction over the approach of GNIDA and said, "You are responsible for the mess. Of course, developers made money from the homebuyers. But that does not condone your acts." The Bench said it may order a CBI probe into the whole "mess" if the GNIDA did not come up with a plan to redress the grievances of the homebuyers. "You come up with a plan in 10 days... otherwise we will order a CBI investigation... You will have to ensure that interests of homebuyers are safeguarded. You are also part of the problem. You allowed this mess to be created," the CJ said. The Bench suggested the GNIDA to take over the entire land, develop the projects and give the flats to the homebuyers. Seeking a detailed affidavit from GNIDA, the Bench asked it to provide information including the date of allotment of the land and the date of execution of the lease deeds in favour of the private

Photo: Ranjan Dimri

company. Besides seeking a comprehensive proposal for the homebuyers, the Bench asked the GNIDA to give information on why the allotment of land was not cancelled when the developers violated the terms of the projects. Senior advocate Shob Alam, appearing for over 800 homebuyers, said a PSU was willing to develop the stalled projects and pay up the dues to GNIDA and others, and moreover, no creditors or investors would have to suffer haircuts. The top court was hearing about 12 appeals arising out of a National Company Law Appellate Tribunal (NCLAT) judgment in relation to the insolvency proceedings of debt-ridden realty firm Earth Infrastructure. The NCLAT had declined a plea of a batch of homebuyers who challenged the NCLT's approval of Alpha Corp Development's bid to acquire Earth Infrastructure. The NCLAT had on June 8, 2021, approved the resolution plan from Alpha Corp Development. The committee

of creditor of the Earth Infrastructure had voted in favour of Alpha Corp with a majority of 99 per cent. Due to the protracted legal battle, five housing projects, three in Greater Noida and two in Gurugram, of the realty firm are stalled leaving hundreds of homebuyers in the lurch. Earlier, Alpha Corp had said it would invest around Rs 900 crore to complete the three stalled projects of Earth Infrastructure that it acquired through the insolvency process at Greater Noida. The housing projects were launched between 2010 and 2012, but were not completed in the stipulated time period. Approximately 2,900 units were to be developed in these projects. Ananta by Alpha Corp (erstwhile Earth Copia), Sector 112, Gurugram, is a housing project launched in February 2011; Earth Sapphire Court, Greater Noida, is a commercial project launched in July 2010 and Earth Techone, located on Yamuna Expressway in Greater Noida, is a mixed project launched in June 2012.

Will NEET-UG exam be conducted online soon?

PIONEER NEWS SERVICE ■ NEW DELHI

With controversies following the medical entrance exams every year, the Centre on Tuesday said the Education and Health Ministry is deliberating whether to conduct medical entrance exam NEET-UG offline, or in online mode, and a decision in this regard is expected soon. Union Education Minister Dharmendra Pradhan has held two rounds of talks with the Union Health Minister JP Nadda in this regard. Currently, NEET-UG is conducted offline, wherein students have to solve multiple choice questions on an OMR sheet. The National Eligibility cum Entrance Test (NEET) is the largest entrance exam in the country in terms of the number of candidates appearing for the test. In 2024, a record over 24 lakh candidates took the exam. While NEET was under the scanner over several irregularities, including alleged leaks, UGC-NET was cancelled as the ministry received inputs that the integrity of the exam had been compromised. Both matters are being probed by the CBI. Two other exams, CSIR-UGC NET and NEET PG - were cancelled at the last moment as a pre-emptive step. Pradhan also said the

Photo: PIB

National Testing Agency (NTA) will not conduct any recruitment exams from 2025, instead focus only on higher education entrance tests. The agency will be restructured next year and new posts are being created. The move is part of examination reforms based on the recommendations of a high-level panel set up earlier this year following alleged leaks in the National Eligibility-cum-Entrance Test (NEET) medical entrance exam and a series of cancellations of others due to suspected leaks and other glitches. "The administrative ministry of NEET is the Health Ministry and hence we are in talks with them about whether NEET should be conducted in pen and paper mode or online mode. We have had two rounds of talks

with the Health Ministry led by JP Nadda. Whatever option will be considered best suited for conducting the exam, NTA is ready to undertake the exercise," Pradhan told a Special Press briefing on the current state on primary, secondary, higher and technical education in the country. The Minister said a decision in this regard is expected soon and the reforms will be implemented in the 2025 edition of the exam. "What will be NEET's methodology, what will be the protocol...A decision is expected soon. We will notify it soon," he added. The NTA conducts the NEET every year for admission into medical colleges. A total of 1,08,000 seats are available for the MBBS course. Of the seats available for the MBBS course, approximately 56,000 seats are in government

hospitals and about 52,000 are in private colleges. Admissions to undergraduate courses in Dentistry, Ayurveda, Unani, and Siddha also utilise the results of the NEET for admission. The idea of switching to Computer Based Test (CBT) mode for NEET is not new and has been deliberated several times before. However, the push for the exam reforms came following the paper leak controversy earlier this year. In the line of fire over alleged irregularities in NEET and PhD entrance NET, the Centre had in July set up the panel to ensure transparent, smooth and fair conduct of examinations by NTA. According to the high-level panel headed by former ISRO Chief R Radhakrishnan, multi-stage testing for NEET-UG could be a viable possibility that needs to be followed up. "An acceptable framework with thresholds and test objectives of scoring and ranking at each stage, and number of attempts etc. May be evolved," the panel has recommended in its report. A DIGI-EXAM system to check impersonation, multi-stage and multi-session testing, test centre allocation policy, setting up secured test centres in each district and mobile testing centres in rural and remote areas are among the recommendations made by the high-level panel.

An Imperial legacy

STAFF REPORTER ■ NEW DELHI

The Delhi High Court on Monday disposed off a 16-year-old case relating the trademark of Delhi's iconic 'The Imperial' hotel after the members of Akoi family, who own and operate the hotel, reached a settlement. The settlement acknowledged that the trademark "Imperial" is jointly owned by Hardev Singh Akoi (50 per cent) and his brother Jasdev Singh Akoi's children, Raidev Singh Akoi (25 per cent), and Gobind Singh Akoi (25 per cent). "In terms of the settlement, the families of Hardev Singh Akoi and late Jasdev Singh Akoi admit/acknowledge that as on date, Hardev Singh Akoi [50%], Raidev Singh Akoi [25%] and Gobind Singh Akoi [25%] are the joint and exclusive owners of the trademark: Imperial and that no one will separately apply or have any rights in the trademark: Imperial or any other trade mark, trade name, copyright, whether registered or unregistered, identical or deceptively similar," said Justice Mini Pushkarna of Delhi High Court in the order. The Imperial, New Delhi, is a historic landmark that has witnessed significant events in India's history. Established in 1931, the hotel has been a favourite among dignitaries and celebrities alike. It was

founded by SBS Ranjit Singh, who passed it on to Rajdev Singh. Jasdev and Hardev were the children of Rajdev Singh. It was conceptualised in 1934 and officially opened in 1936 by Lord Willingdon, the Viceroy of India. During India's struggle for Independence, the hotel served as a meeting place for prominent leaders like Mahatma Gandhi and Jawaharlal Nehru. The Round Table Conferences, crucial discussions between British and Indian leaders, were held there. Post-independence, the hotel continued to be a hub for political and social gatherings. The HC also found the settlement terms lawful and confirmed that no other disputes related to the trademark were pending. The parties agreed not to make individual applications for or claim rights in the trademark or any deceptively similar marks.

"It is submitted on behalf of the parties that during the pendency of the present proceedings, in order to maintain family peace, harmony and goodwill, all the family members have mutually agreed to settle the present suit amicably," read the order. The HC accepted the settlement, decreeing the suit based on the agreed terms. It directed that the application, containing the original signatures of all parties, be placed in the case file. The Court also instructed that a decree sheet be drawn up and canceled all pending hearings. The dispute concerns the trademark "Imperial" and its lion logo, which were considered symbols of a prestigious hotel's goodwill. Brothers Hardev Singh Akoi and Jasdev Singh Akoi, joint owners of the hotel, disagreed over certain alterations to the trademark and its use.

Over 30 Delhi schools get bomb threats

STAFF REPORTER ■ NEW DELHI

More than 30 schools in Delhi received bomb threats through e-mails on Tuesday, marking the second such alarming incident this week and the fifth within just nine days leaving students, staff, and authorities on edge in the National Capital. According to police sources, more than 30 schools including The Indian School in South Delhi, Ambience Public School in Safdarjung Enclave, Dilshad Public School in Dilshad Garden and Crescent School in outer Delhi, reported that bomb threats were received by police authorities. On Monday, around 20 schools including DPS RK Puram, Gyan Bharati School in Saket and Ryan International School in Vasant Kunj among others had received threat emails.

Rapper Badshah caught in the wrong lane

PARVESH SHARMA ■ GURUGRAM

The Gurugram Traffic police has issued a challan of Rs 15,500 against Bollywood rapper Badshah while en route to Punjabi singer Karan Aujla's concert in Gurugram for driving on the wrong side of the road. The singer was reportedly riding a Mahindra Thar to reach Karan Aujla's concert in Gurugram on December 15, of which he was a part.

It is being said that the singer's convoy, comprising three cars, was reportedly driving on the wrong side of the road and disobeyed traffic norms, this led to outrage on social media. However, it is being said that the vehicle did not belong to the rapper and was registered in the name of a youth from Panipat. After the post went viral, Gurugram traffic police took notice and issued a challan. "3 vehicles of Punjabi singer Karan Aujla's convoy are going on the wrong side towards Airia Mall, and the bouncers are also misbehaving with the people, but Gurugram police are sleeping," an X user wrote. To this, Gurugram police replied, "Challan has been generated on 16.12.2024 against wrong side driving according to MV Act." A challan of Rs 15,500 has been issued against one vehicle remaining two of the convoy are being identified. Soon fines under the MV (Motor Vehicle) Act 2019 will be issued against them as well," said a traffic police officer on the condition of anonymity.

Omar Abdullah lays out a welcoming Wazwan

MOHIT KANDHARI ■ JAMMU

Chief Minister Omar Abdullah's warm hospitality has become the talk of the town in the corridors of power in Jammu and Kashmir. Last week when the CM hosted members of civil society at his official residence in Jammu he not only threw open the gates of his residence for the common citizens, but also invited a team of Kashmiri Chefs (Wazas) to cook sumptuous Kashmiri Wazwan, a multi-course meal. It was after a long gap the guests at the official residence of the Chief Minister were treated with non-vegetarian food in Jammu. In addition to this, the newly elected CM

also hosted members of different delegations, resource persons heading different committees, and academicians, along with other prominent citizens at his residence. Post Abrogation of Article 370 and 35-A, the gatherings at the Raj Bhawan hosted by Lieutenant Governor Manoj Sinha were commonly served

only vegetarian meals/snacks. A famous local caterer was also engaged by the Union Territory (UT) administration to organize lavish dinners and luncheon meetings to suit the taste buds of guests from different walks of life. The famous cuisines of different neighboring states of Punjab, Haryana, Rajasthan, and Uttar Pradesh were also given preference. The traditional meat Kebabs and other non-vegetarian delicacies were replaced with Veg kebabs and other culinary delights on the regular menu. Sharing his experience of breaking bread in the company of the CM, an eminent citizen told The Pioneer, "All those who

attended the meeting were escorted by the Chief Minister himself inside the dining area where a lavish meal was served. Omar interacted with almost everyone present there and gave them a patient hearing. In the past, he remained occupied with his ministerial colleagues and other VIP guests. But this time we met a different version of Omar Abdullah. He was more polite, courteous, and accommodating". Former Chief Ministers Dr Farooq Abdullah, Mufti Mohd Sayeed, Ghulam Nabi Azad, and Mehbooba Nufi were equally hospitable and frequently met guests at their residences to interact over lunch and dinner meetings.

IN BRIEF

CM announces development works at Jaunpur festival

NEW TEHRI: Chief minister Pushkar Singh Dhami announced a string of development schemes while participating in the Jaunpur Sports and Cultural Development Festival at Garkhet, Nainbagh on Tuesday. These schemes included the construction of a six km-long motor road from Dwargarh to Bhadrak Temple and construction of a permanent helipad at Garkhet. Besides, he declared the fair as a State fair. Calling the State's culture as the people's basic identity, he said that the traditional sports were being encouraged and all-out efforts were being made to stop migration through development works. He also said that self-employment was being promoted in the fields of milk, beekeeping, agriculture, horticulture and homestay and women empowerment was being boosted through assisting self-help groups.

Foundation day of Nandhaur Wildlife Sanctuary celebrated

HALDWANI: The 13th foundation day of Nandhaur Wildlife Sanctuary under Haldwani forest division was celebrated on Tuesday. Lalkuan MLA Mohan Singh Bisht and the principal chief conservator of forests Dhananjai Mohan were among those present at the event. Mohan spoke of the biodiversity of Nandhaur landscape and gave various suggestions on how to preserve it. The Kumaon chief conservator of forests Dheeraj Pandey presented special views on how to deal with the damage caused by elephants in human wildlife conflict through beekeeping. Those who won medals for the Forest department for their outstanding performance in the All India Forest Sports Competition were felicitated. Besides, citation certificates were given to the field staff of the department.

Rishikesh Yoga Festival concludes with over 500 participants from 25+ countries

RISHIKESH: The three-day Rishikesh Yoga Festival at Parmarth Niketan concluded with the participation of over 500 yoga enthusiasts from more than 25 countries. Participants engaged in transformative yoga sessions, workshops and satsangs presided over by Sadhvi Bhagawati. The festival had opened on December 14, coinciding with the birth anniversary of Yog Guru BKS Iyengar. Workshops on Iyengar Yoga, Kundalini Yoga, meditation, sound healing and Ashtanga Vinyasa were held. Over two dozen schools participated in the concluding ceremony. People were urged to celebrate World Meditation Day to be celebrated with the same zest as World Yoga Day is celebrated on December 21. The Parmarth Niketan head Swami Chidanand Saraswati said that yoga unifies the people of the world across the national boundaries. "Yoga is more than just asanas—it's a way of life that heals, unites, and uplifts," shared Sadhvi Bhagawati.

Maharaj gifts development to Chaubattakhal

PAURI: The Tourism and Culture minister Satpal Maharaj gave a development gift comprising a slew of schemes related to road, education, Panchayat and rural development to Chaubattakhal in Pauri district from where he was elected to the Assembly. He launched these schemes at two separate programmes organised at Government Inter College, Sandhar and Government Inter College, Bironkhal. Lauding the Prime Minister Narendra Modi and the chief minister Pushkar Singh Dhami for their dynamic stewardship, he said that Uttarakhand has been developing fast under all directions, adding that his constituency is tasting development too like the rest of the State. The projects he launched or laid foundation stone of included the repair work of the stretch between Bharoli and Maithana, the repair work of Bedikhal to Chorkhinda motor road and repair work of Bedikhal to Bhaurad motor road.

Deepak Rawat inspects Jamrani project, reviews progress

HALDWANI: Kumaon commissioner Deepak Rawat conducted on Tuesday a site inspection of the under-construction Jamrani Dam project and reviewed its progress. After the inspection, he said that the people of this area will benefit in areas of drinking water and irrigation on the completion of this project, adding that the drinking water scarcity that Haldwani faces in the summer would be resolved. He further said that the project being built at a cost of Rs 3,700 crore would be completed in 2029. While the height of the project would be about 150 metres the length would be up to 10 km, he said and added that at present two tunnels of 600 meters were being built and would be completed in about 16 months. He inspected the testing lab, the under-construction Jamrani Dam colony and the primary health centre.

Students receive medals, degrees at KU convocation

NAINITAL: The 19th convocation of Kumaon University was held in the DSB campus of the university during which medals were given to 89 students and degrees were given to 19, 750 students. Apart from this, the noted film actor Lalit Mohan Tiwari was presented with an honorary degree. The governor Lt Gen (ret'd) Gurmit Singh who is also the chancellor of the university said in his address that the ceremony is not just the distribution of degrees but a new stage towards the future. "The youngsters are moving ahead to make India a developed nation and a world leader," he added. The chief minister Pushkar Singh Dhami congratulated the students and researchers who received degrees and medals. The State Higher Education minister Dhan Singh Rawat dwelt on the National Education Policy and said it is proving instrumental in making India a developed nation. The vice-chancellor Prof Diwan Singh Rawat said that KU is the first in the country to implement a transparent and financially economical open tender process for confidential printing of examination material. Also, he mentioned that this year the university has secured a good rank in the National Institution Ranking Framework while the Pharmacy department has demonstrated its excellence by securing 62nd rank at the national level.

KUTA delegation raises job regularisation, salary issues with Rawat

NAINITAL: Kumaon University Teachers Association (KUTA) met the State Higher Education minister Dhan Singh Rawat here and submitted a memorandum, requesting him to ensure that the Uttarakhand government takes a decision to regularise the employees who have completed 10 years of service on the basis of the Uttarakhand High Court's ruling. Later, KUTA functionaries said that they had also raised the issue of the salary discrimination before him. While most of the universities in the country give Rs 57,700 as salary per month to the professors in compliance with the University Grants Commission directive, the State-based universities and colleges are paying them just Rs 35,000 per month. They further told the minister that the Junior Research Fellowship amount is more than the salary of these professors. The president of the union Lalit Tiwari and its general secretary Vijay Kumar led the delegation.

Demand for men's commission rises amidst alleged misuse of laws

MANSI BHAMBRI ■ DEHRADUN

The demand for the establishment of a men's commission to address the numerous false accusations against men has started gathering momentum in Uttarakhand. There have been several instances where men have also experienced eve teasing, harassment and in some cases, the alleged misuse of laws meant to protect women's rights, which has caused hardships and extreme suffering to men apart from denting their reputation. A recent incident in Bengaluru in which 34-year-old Atul Subhash committed suicide after what he claimed to be years of emotional distress stemming from marital issues, numerous legal cases filed against him and his family, and harassment by his wife. In light of these circumstances, many individuals have urged the relevant authorities to conduct thorough investigations into such cases before making any decisions or enabling women to misuse their rights.

A local resident Sachin (name changed) stated that men are often held accountable in domestic violence and related cases while women are perceived as innocent. He recounted his own experience of enduring mental harassment from his wife over a five-year period. He added that shortly after their marriage, his wife asked him to transfer ownership of his property to her name and threatened to sue him and his family for dowry if he did not comply. He emphasised that she followed through with her threats, which led him to engage in a prolonged legal battle. In this context, he highlighted the significance of a men's commission as a platform for men to voice their issues. Further, he urged the legal system to adopt a balanced approach and not show leniency towards women in such cases.

Former president of the Dehradun bar association Manmohan Kandwal said that he has observed numerous instances in Uttarakhand where men have become targets of allegations from their wives or from women in live-in relationships. He noted that many of these cases are unfounded and that some women may exploit their rights to tarnish the reputation of men to their own advantage. To address this situation, he emphasised the necessity of conducting thorough investigations in such

Seven children rescued from doing child labour & beggary in Dehradun

PNS ■ DEHRADUN

The Labour department rescued a total of seven children engaged in child labour and beggary on Tuesday. Stating this, the department officials said that following the directives of the Dehradun district magistrate Savin Bansal, a campaign was launched to combat child labour and beggary. Under this drive, on Tuesday, they rescued seven children out of which two children from beggary and five child labourers from exploitative employment, they added. The officials further stated that cases have been registered against the employers who were utilising child labour at Vasant Vihar and Nehru Colony police stations. For the rehabilitation of these children, they were presented to the district Child Welfare Committee (CWC) and subsequently sent to a shelter home.

Bajaj Finserv AMC stays bullish on Pharma and Wellness sectors

PNS ■ DEHRADUN

The financial markets have experienced significant volatility over the past few months, leaving investors on edge. A sharp drop of 3,000 points was followed by a partial recovery, creating a sense of uncertainty. Yet, amidst this chaos, Sorbh Gupta, Senior Fund Manager - Equity, Bajaj Finserv AMC remains bullish on certain sectors, particularly pharma and wellness, believing they are poised for growth in the coming years. Gupta explains that the equity markets are often a blend of two key elements: reality and expectation. The reality, he notes, is somewhat changing, with disappointing GDP growth numbers and mixed signals from the world's largest economies. This shift in reality and elevated return expectations (in one and a half years) has added complexity to market predictions. However, despite the short-term fluctuations, Gupta believes that the rough patch seen in GDP numbers is likely temporary and will improve over time.

In such a volatile environment, His focus has been on identifying sectors that present opportunities. Sorbh highlights the large-cap space, which, after recent corrections, is now offering high-quality companies at attractive valuations. These companies, he believes, are well-positioned to perform well as the business cycle turns in their favor. His positive stance on consumption trends is rooted in the belief that relative to historical valuations, consumption companies are attractively priced, and he expects a cyclical uptick in consumption that will benefit them in the long run. He views the pharmaceutical industry as a key growth sector, with significant opportunities in CDMOs, US generics and domestic pharmaceuticals. As demand for healthcare and wellness products rises, these areas are well-positioned for expansion. This makes the pharmaceutical industry highly attractive, leading Bajaj Finserv AMC to maintain an overweight position in the market. Drawing from historical sector performance, he noted the cyclical nature of healthcare, emphasizing that the current market presents a nuanced investment narrative.

cases. Additionally, he suggested that judges should approach these matters with sensitivity. He further proposed that authorities consider the establishment of a men's commission, which would provide a platform for men to voice their issues regarding incidents they have endured.

"The commission has observed a few instances where women have made false allegations against men. Consequently, it is apparent that over time, some women have begun to misuse their rights. As a result, not only are the men and their families affected, but some genuinely affected women also suffer, as trust in them diminishes," said chairwoman of the Uttarakhand State Commission for Women (USCW) Kusum Kandwal.

She further emphasised that the establishment of a men's commission is not enough, adding that all authorities handling such cases must conduct thorough investigations. Additionally, she noted that the USCW has now initiated a process for men to submit applications regarding any incidents they have experienced.

CM presents appointment letters to 45 candidates selected for Home Dept & Youth Welfare Dept

PNS ■ DEHRADUN

Chief minister Pushkar Singh Dhami handed over appointment letters to 45 newly appointed candidates for Home department and Youth Welfare department here on Tuesday. The selected candidates received their letters for various positions, including 11 lab assistants under the Home department and 34 regional youth welfare officers under the Prantiya Rakshak Dal (PRD).

During his address, Dhami congratulated all the newly selected candidates. He expressed hope that the selected candidates would work with dedication and integrity in their respective fields. Dhami emphasised that starting work with a regular routine makes every path easier. He encouraged the candidates to contribute significantly to Prime Minister Narendra Modi's vision of developing India by 2047.

The CM further highlighted that over the past three and a half years, appointments have been made for more than 19,000 government positions in the state, with the recruitment process for many posts currently underway. Since implementing a strict anti-copying law, recruitment examinations have been conducted promptly and transparently, he said.

Dhami said that Uttarakhand has entered its silver jubilee year. He assured that the government is undertaking development works considering the state's needs for the next 25 years.

Further, Sports and Youth Welfare minister Rekha Arya addressed the new officers, stating that their primary goal

Transport department seeks more women participation in public transport sector

PURNIMA BISHT ■ DEHRADUN

In order to promote women's participation in the public transport sector, the Transport department is prioritising issuing new permits for CNG-fuelled auto rickshaws for women in Dehradun, Rishikesh and Haridwar. The initiative aims to increase women's representation in a traditionally male-dominated field while promoting cleaner transportation options. The department has already begun accepting applications for 250 permits for CNG-fueled auto rickshaws in Dehradun, with December 30 as the last date to apply, according to regional transport officer (Administration) of the Dehradun division Sunil Sharma. Highlighting the financial benefits of the scheme, Sharma stated that while a single permit for an auto rickshaw typically costs around Rs four lakh, these permits will be available for approximately Rs 2.5 lakh. "This is a golden opportunity, especially for women, to enter the public transport sector. We are also prepared to assist women applicants with financial aid to help them purchase the vehicles," Sharma said. He stated that applicants must purchase the CNG-fueled auto rickshaw within three months of applying for the permit. For

instance, those in Dehradun will have until March to complete their purchase after applying for permit by December 30. To qualify, applicants must be residents of Uttarakhand, over 18 years old and able to read and write clearly, he said. Sharma also encouraged interested candidates to visit room number 22 at the regional transport office in Dehradun, where officials will assist them in understanding the application process. "We are committed to supporting women throughout this process, as many face financial barriers when venturing into such initiatives," he said. He further stated that the department's plan to extend similar permits to Rishikesh and Haridwar underscores its commitment to empowering women across the region. He stated that increasing the number of women drivers in public transport has multifaceted benefits. The RTO said that in addition to enhancing gender inclusivity, it promotes safer travel options for women and families, encourages tourists to explore the region with confidence and contributes to a more welcoming and progressive transportation ecosystem. "The initiative aligns with the broader objectives of the department to ensure sustainable development by promoting CNG-fuelled vehicles and creating more employment opportunities for women. With more participation of women, it is expected to reshape the public transport sector in Uttarakhand, making it more inclusive and environmentally friendly," he said.

THE PIONEER CLASSIFIEDS PUBLIC NOTICE

My father's name has been erroneously recorded as Shiv Prasad in the military records, whereas my father's correct and real name is Shiv Prasad Painuly. Congress leader & ex-CM's former advisor faces IT heat over alleged money laundering

PNS ■ DEHRADUN

The Income Tax department conducted raids at the residence of Congress leader and property dealer Rajiv Jain, a known associate of former chief minister and senior Congress leader Harish Rawat in Dehradun on Tuesday. The IT team along with 18 vehicles of the Central Industrial Security Force (CISF) reportedly reached Jain's house in Chaman Vihar in Patelnagar area at around 4 AM on Tuesday. According to sources, the operation focussed on alleged money laundering and irregularities related to land deals. Documents of transactions reportedly worth crores of rupees and some cash were recovered during the search. Jain has been under scrutiny for his financial dealings, with suspicions of illegal transactions for the past few years. The sources said that the search extended beyond his Chaman Vihar residence, with IT department's teams

raiding his sister's home and a family-owned showroom in Majra area. During these raids, investigators also questioned family members and examined critical documents. Jain, who served as a media coordinator during Rawat's tenure as CM and was later

appointed as an advisor in 2016, has previously faced a similar investigation by the IT department in 2017-18. The officials said that the raid can potentially unravel deeper financial misconduct done by Jain in the past several years.

Raid on Jain's premises expected in view of ULB elections: Mahara

PNS ■ DEHRADUN

The Pradesh Congress Committee (PCC) president Karan Mahara has said that the raids conducted by the central agencies on the premises of the Congress leader Rajiv Jain were expected in view of the ensuing elections of Urban

Local Bodies (ULB) in the State. The PCC president told The Pioneer that the BJP government has made the central agencies such as Enforcement Directorate (ED), Income Tax department and Central Bureau of Investigation (CBI) tools to

target and harass opposition leaders. He said that Jain, whose premises were raided on Tuesday, was inactive in the Congress party since the past two to three years. Mahara added that Jain has been indisposed for the last three years

and is said to be suffering from chronic kidney disease. He said that the land dealings and other activities of the individuals irrespective of their political affiliations should be investigated and the truth should be brought out before the public.

Surcharge waiver on water and sewer bill extended till March 31

PNS ■ DEHRADUN

In a relief to the consumers, the State administration has extended the date of exemption from surcharge on payment of pending bills of water and sewer in the State. The decision of the administration follows an announcement made by the

chief minister Pushkar Singh Dhama in this regard.

The consumers will now get 100 per cent waiver of penalty on one time payment of all pending dues till March 31, 2025. The CM had

announced in November that the relief will be granted on payment of pending dues of water and sewer bills till December 31. On the fresh orders of the CM the date has now been extended till March 31, 2025.

U'khand to install rooftop solar panels on all schools & hospitals

PNS ■ DEHRADUN

Chief secretary Radha Raturi has directed the Medical Health and Family Welfare, and the School Education departments to ensure that rooftop solar panels are installed on all the government hospitals and schools in the State. In the meeting of

Taking a stern view of cost escalation of projects due to delay in completion of works, the Raturi directed the senior officers of State administration to ensure that the projects are completed within stipulated period of time. In the meeting the CS also directed

for medical facilities in Champawat district, construction of a separate parking and administrative wing will free a space in the main building, which will be used for other medical facilities.

She also approved the pro-

the expenditure finance committee (EFC) at the secretariat on Tuesday, the CS directed the Health secretary to immediately issue orders for mandatory installation of solar rooftop panels in all the health centers, hospitals and medical colleges of the State. She also directed the director general of School Education to issue an immediate order for the installation of rooftop solar panels in all the schools and hostels of the State.

the Health secretary to deploy adequate doctors in these areas after conducting a maternal death audit in sensitive areas with high maternal mortality rate.

In the meeting of EFC, the CS gave in-principle and financial approvals for construction of parking on the lower ground floor and diagnostic wing on the first and second floor and OT in district hospital Champawat. In view of the increasing demand

posals to upgrade the Community Health Centre (CHC) Purola in Uttarkashi district as a Sub District hospital.

The CS gave approval for the construction work of 50 bed Critical Care Block in Sub District hospital at Roorkee in Haridwar district.

The Health secretary R Rajesh Kumar and other senior officers were present in the meeting.

BJP leader Jugran seeks Doon mayoral candidacy

PNS ■ DEHRADUN

Bharatiya Janata Party leader and social activist Ravinder Jugran has formally expressed his desire to contest for the mayoral position in Dehradun in the upcoming municipal elections. In a detailed letter to the BJP leadership, Jugran highlighted his long-standing association with the party, beginning in 1997 under the leadership of then-state BJP president Manohar Kant Dhyani.

He emphasised his extensive political experience, including key roles such as vice chairman of the State Youth Welfare Council. He recalled his active participation in the Ram Mandir movement, leadership in stu-

dent politics and significant contributions to the Uttarakhand statehood movement, which included multiple imprisonments. Jugran also underlined his efforts in filing over 25 public interest litigations on issues like corruption, education and healthcare. A native of Tehri district, Jugran has been active in Dehradun for over three decades. Jugran said that he is known for his integrity and commitment to public welfare and is seeking the party's support to continue serving the city and its residents as mayor, pledging to uphold transparency and ethical governance.

Bhatt warns of disciplinary action against those raising ULB reservation issue outside party forum

PNS ■ DEHRADUN

The Bharatiya Janata Party State president Mahendra Bhatt has suggested that objections to the Urban Local Body reservations should be raised with the Urban Development department. He also warned that those raising the issue in public instead of doing so in the party forum will face disciplinary action. Bhatt's statement comes after senior party leader and MLA Munna Singh Chauhan objected to Vikasnagar municipal council chief's post being reserved for a Scheduled Tribe candidate while local BJP and Congress leaders objected to the Mussoorie municipal council chief's post being reserved for

an Other Backward Class woman candidate.

Bhatt said that the State government has followed all procedures while proposing the reservation in ULB posts. "Everybody has a right to opine in a democracy so if anyone has any objection, the proper arrangement has been set in place for that. Suggestions or objections should be lodged with the Urban Development department as per the set procedure. A decision will be taken by the authorities after detailed deliberations on the suggestions and objections. In such a situation, it is improper to make statements simply to

grab media headlines or spread confusion," Bhatt said.

The BJP State president clarified that the party members who have objections to the reservation proposed by the government can follow the due procedure. They can also communicate their issues to the party office bearers deputed to the ULB polls. However, raising such issues in the public instead of first approaching the party forum will be considered an act of indiscipline. Bhatt warned that all the party members who indulge in such actions will face disciplinary action.

Two-day solar fair concludes in Dehradun

PNS ■ DEHRADUN

The two-day solar fair Saur Kauthig concluded at the Rangers Ground here on Tuesday. Addressing the valedictory session, the Uttarakhand Power Corporation Limited (UPCL) managing director Anil Kumar Yadav said that the corporation is committed to fulfill the vision of net zero emission of Prime Minister Narendra Modi by the year 2027. He claimed that the UPCL has set a record by installing the targeted 100 per cent solar rooftop plants in Uttarakhand. The MD said that the installation of solar panels will play a key role in maintaining ecological balance. He said that the corporation has set up a control room at the UPCL headquarters for addressing all the grievances of the customers on solar panels.

In her address, the additional secretary and director of UREDA Ranjana Rajguru appreciated the UPCL for organising a successful solar fair which is the first of its kind

in the State. She said that a large number of people have got information about the solar panels and their benefits in the fair. The UPCL director (Operations) MR Arya, chief

engineer of the solar cell Ashish Arora, chief project manager of UREDA Manoj Kumar and others were present in the programme.

39,000 new voters added to U'khand's electoral rolls

PNS ■ DEHRADUN

In the new year about 39,000 new voters in Uttarakhand will become eligible to vote. In the special summary revision programme- 2025 of the electoral rolls underway in the State as per the guidelines of the Election Commission of India (ECI) from October 2024, the process of revision of electoral rolls is being done.

The additional chief electoral officer Vijay Kumar Jogdande informed that the ECI conducts

the process of updating the voter list every year under the special summary revision programme.

He said that as per the instructions of chief electoral officer BVRC Purushottam, the programme this year is focused on new voters and young voters and they were encouraged to register their names in the voter list. Under this campaign, a total of 1,16,428 applications were

received from across the State and out of these applications, 38,909 applicants in the age group of 18 to 19 years were received in the form of Form VI. Jogdande informed that the ECI has now fixed four eligibility dates in a year for registering names in the voter list, in which voters who have completed 18 years of age on the dates of January 1, April 1, July 1 and October 1 can get their names added to the voter list. He informed that on the orders

of the CEO, all the officers have been assigned the responsibility of super checking campaigns in different districts. In the campaign feedback is being taken from the voters by the officers themselves while doing super checking at the polling booth on a regular basis. The ACEO informed that the final publication of the voter list in the state will be done on January 6, 2025 in the special summary revision programme.

Temperature continues to fluctuate, nights in plains colder than in mountains

PNS ■ DEHRADUN

After a few days of the minimum temperatures in Dehradun, Pantnagar and other places in the plains being lower than some mountainous regions in the State, the temperatures in the plains rose by a few notches on Tuesday. However, the temperature is forecast to drop again on Wednesday. The State Meteorological Centre has forecast that the State will witness

dry weather on Wednesday. The provisional State capital Dehradun is forecast to witness a mainly clear sky with mist likely to occur during the morning hours. The maximum and minimum temperatures are likely to be about 25 degrees Celsius and six degrees Celsius respectively in Dehradun today. The maximum and minimum temperatures recorded in various parts

of the State on Tuesday were 24.8 degrees Celsius and seven degrees Celsius respectively in Dehradun, 26 degrees Celsius and 5.2 degrees Celsius in Pantnagar, 26 degrees Celsius and 6.3 degrees Celsius in Mukteshwar and 17.4 degrees Celsius and 6.5 degrees Celsius in New Tehri. The maximum temperature was three degrees Celsius above normal in Dehradun while the maximum

was four degrees above normal and the minimum was a degree below normal in Pantnagar. The minimum temperature in Pantnagar was lower than in Mukteshwar where the maximum was three degrees above normal and the minimum was two degrees above normal. The minimum temperature was two degrees above normal in New Tehri.

DM orders door-to-door survey to identify school dropout girls in Doon

PNS ■ DEHRADUN

A detailed door-to-door survey will be conducted to identify school dropouts girls between the ages of 10 and 18 years in Dehradun district. The district administration teams will investigate the reasons behind their inability to continue education and work to resolve these issues effectively. The Dehradun district magistrate Savin Bansal issued these orders to the child development programme officer at the district-level task force meeting held under the Beti Bachao, Beti Padhao scheme on Tuesday. Bansal emphasised the importance of creating impactful and sustainable initiatives that address the challenges faced by underprivileged girls. He called for a systematic approach to re-enroll dropout girls in schools and ensure their education is uninterrupted by economic hardships. He said that the administration will also provide financial assistance for those in need, including the payment of one year's school fees. Besides this, uniforms, books, stationery and hygiene kits will be distributed to support these girls in continuing their studies. The DM said that for those aspiring to develop professional skills, vocational training in fields such as architecture, medical science and computer technology will also be made available. Bansal said that education is not just a tool for individual empowerment but as a means to uplift entire families. He directed the officials to prioritise actionable plans that could serve as role models for other districts. The meeting also approved initiatives to provide exposure and inspiration to adolescent girls. Activities like educational tours to Science City, the Forest Research Institute and motivational movie screenings will be organised to help girls envision broader possibilities for their futures. The administration will also focus on monitoring the nutritional levels of adolescent girls and providing them with consistent guidance on improving

their health to ensure holistic development. Special attention will be given to dropout girls from marginalised communities, particularly those in tribal areas where Anganwadi workers will conduct targeted surveys. These efforts aim to leave no girl behind, ensuring every child has access to quality education and development opportunities. Bansal also announced steps to increase awareness about pressing social issues, including female foeticide, child marriage and domestic violence. Another key focus of the meeting was addressing the challenges faced by working mothers. Under the Palna initiative, daycare facilities

will also be introduced to provide a safe and nurturing environment for children. These centres will prioritise the nutritional, cognitive and emotional development of young children, enabling mothers to pursue their careers with greater ease and confidence, Bansal said.

Nadda attacks Congress for amending Constitution for its own benefit

PIONEER NEWS SERVICE ■ NEW DELHI

Rajya Sabha Leader of the House J P Nadda attacked the Congress on Tuesday for amending the Constitution for its own benefit and alleged that its past actions of "toppling governments" in states led to staggered polls, creating the necessity for 'One Nation One Election' bill. Participating in a debate in the Upper House on the "Glorious Journey of 75 Years of the Constitution of India", the BJP president accused the Congress of practising politics of appeasement and attempting to bring in religion-based reservations, a charge which was vociferously contested by the opposition party. Former prime minister and JD(S) leader H D Deve Gowda called upon Parliament to contemplate whether reservation should continue to be given on the basis of caste or it should be changed to economic criteria. The BJP president, meanwhile, also spoke about the Emergency, rejecting the

Congress' claim of having apologised for it. Nadda said if the Congress regrets the step, it should join in observing 'Samvidhan Hatya Divas' on June 25 next year, the 50th anniversary of the imposition of the Emergency. Nadda quoted B R Ambedkar to say "however good a Constitution may be, if those who are implementing it are not good, it will prove to be bad", and added that the "bad lot has interfered with the Constitution many times". On a day when two bills that lay down the mechanism to hold simultaneous elections were introduced in the Lok Sabha after a fiery debate, Nadda blamed the Congress for creating a situation that forced the government to take this step. "We have to bring the One Nation One Election bill because you toppled elected government in states, and elections had to be held," Nadda said. He targeted the Congress over issues ranging from Article 370 to triple talaq, and also accused it of not protecting the territorial integrity of the

country. Nadda also accused the Congress of trying to bring in reservation based on religion. The Leader of the House said Ambedkar had clearly said that reservation should not be structured in the name of religion. His remarks were objected to by Congress leader Jairam Ramesh, who raised the issue of reservation given by the Gujarat Government. Coming to Nadda's defence, Union Minister Nirmala Sitharaman said, "What Jairam Ramesh is saying now is wrong. What the Gujarat chief minister gave was on the basis of economic backwardness. Here it is mentioned religious minorities," she said, referring to a circular pur-

portedly issued by the DoPT under the then Congress-led government. She added that Ramesh is conflicting the two (reservations given by the Gujarat government and the DoPT circular) and misleading the House. BJP MP K Laxman who heads the party's OBC Morcha backed Sitharaman's claim. Counteracting Sitharaman, Ramesh said, "We (Congress) have never spoken about religion-based reservation", adding that wherever reservation has been given like in Karnataka it is on the basis of being socially and economically backward not on the basis of religion. Sitharaman responded to Ramesh, saying that he may come up with any number of clarifications but he is misleading the House on this point. Nadda also claimed that Ambedkar, during the debates of the Constituent Assembly, had said there was no need to include the words 'secular' and 'socialist' in the Preamble of the Constitution. Speaking on reservation, Deve Gowda said "The House itself has to apply its mind on what all happened in the past and whether we should give reservation only on the basis of poverty in this country," he said. People are suffering "even with the reservations that we have given in the past and it has not lifted the people who are still suffering for two-

square meals a day", he said. The former prime minister said the House should think over whether reservation should be continued to given on the same lines as in the past or "only who are suffering with most poverty" and whose living condition is bad should be given priority. "If the House thinks over and the leaders think over, this can be thought over by the prime minister (Narendra Modi) before taking any decision on the reservation," Deve Gowda said. He said the Constitution drafted by Dr Babasaheb Ambedkar has withstood the test of time. Meanwhile, Opposition members from TMC and CPI(M) on alleged that constitutional rights in Manipur had been suspended and slammed the BJP MPs for not raising the issue during the debate on the Constitution. Ram Nath Thakur, JD(U) leader and Union Minister of State for Agriculture and Farmers Welfare, said the government strives to implement the principles enshrined in the Constitution.

He congratulated Prime Minister Narendra Modi for giving Bharat Ratna to former prime ministers P V Narasimha Rao and Charan Singh as well as former Bihar chief minister Karpoori Thakur, a champion of backward empowerment, among others, in 2023, asking who stopped the Congress-party from doing the same. Criticising the BJP for frequently taking jibes at the country's first prime minister, RJD leader Manoj Kumar Jha said Jawaharlal Nehru is a symbol of parliamentary democracy against authoritarianism. In his speech, AAP's Ashok Kumar Mittal pointed out that at a time when Parliament is discussing the journey of the Constitution, a large number of people are not getting sufficient food, lakhs are searching for jobs and 40 per cent of the population do not own houses. He also stressed that despite all challenges, the Constitution has shown the way to the country and will keep doing so even in the next 1,000 years.

67 per cent of SSWs belong to SC category: Govt

PIONEER NEWS SERVICE ■ NEW DELHI

Exposing a significant disparity in the representation of Scheduled Castes (SCs) within the workforce engaged in sewer and septic tank maintenance across India, official data has revealed that a staggering 67 per cent of sewer and septic tank workers (SSWs) in India belong to the Scheduled Caste category. These government data were made available in Parliament by Union Minister of State for Social Justice and Empowerment Ramdas Athawale in a written response to a question in the Lok Sabha on Tuesday. He said that out of 54,574 validated sewer and septic tank workers profiled under the 'National Action for Mechanised Sanitation Ecosystem' (NAMASTE) scheme, 37,060 are from the SC category. The statistics further show that 15.73 per cent of the workers belong to the Other Backward Classes (OBCs),

8.31 per cent are from the Scheduled Tribes (STs), while only 8.05 per cent come from the General category. In total, 57,758 workers across 33 States and Union Territories have been profiled, out of which 54,574 have been validated. Data integration for states like Odisha and Tamil Nadu into the central NAMASTE database is currently underway. The NAMASTE scheme, launched in 2023-24 by the Ministry of Social Justice and Empowerment in collaboration with the Ministry of Housing and Urban Affairs (MoHUA), aims to mechanise sewer maintenance and eliminate the dangerous practice of manual scavenging. A total of 16,791 PPE kits and 43 Safety Devices Kits for Emergency Response Sanitation Units (ERSUs) have been distributed. Ayushman cards for health insurance have been issued to

13,604 beneficiaries. Capital subsidies totalling Rs 13.96 crore have been provided to 503 workers and their dependents for sanitation-related projects. An additional Rs 2.85 crore has been released to 226 beneficiaries from the manual scavenger category for alternate self-employment projects. To raise awareness on the hazards of unsafe cleaning practices, 837 workshops have been conducted since the scheme's launch. Efforts to mechanise sanitation work and reduce hazardous manual cleaning have also been prioritised. Under the Swachh Bharat Mission Urban (SBM-U) 2.0, MoHUA has sanctioned Rs. 371 crore to 26 states and UTs for the procurement of 2,585 desludging vehicles. Under the NAMASTE programme, the government profiled workers engaged in septic and sewer tank cleaning comprehensively and aims to fully mechanise sewer maintenance and eliminate fatalities linked to dangerous cleaning practices.

ED restored properties worth Rs 22, 280 crore to victims, says FM

PIONEER NEWS SERVICE ■ NEW DELHI

Finance Minister Nirmala Sitharaman on Tuesday said the Enforcement Directorate has restored properties worth Rs 22,280 crore to the victims or rightful claimants and asserted that the fight against economic offenders will continue unabated. Replying to a debate on the first batch of Supplementary Demands for Grants in the Lok Sabha, she said Rs 14,131.6 crore worth properties belonging to fugitive Vijay Mallya have been restored to public sector banks. As regards the Nirav Modi case, properties to the tune of Rs 1,052.58 crore have been restored to PSBs and private banks. In the Mehul Choksi case, properties worth Rs 2,565.90 crore have been attached and will be auctioned. In the National Spot Exchange Ltd (NSEL) case, Rs 17.47 crore worth properties were restored to the genuine

investors who were defrauded, said the Finance Minister. "On the PMLA, ED has successfully restored properties valued at least Rs 22,280 crore from major cases... We have not left anyone, even if they fled the country, we've gone after them. ED has collected this money and given back to the banks. "...So it is important to recognize that we have not left anybody (committing) economic offences. We are after them. We will be making sure that money, which has got to go back to banks, will go back," Sitharaman said. With regard to foreign black money, the Minister said the Black Money Act of 2015 is actually having a deterrent effect on a lot of taxpayers and they come forward on their own to disclose their foreign assets. She said the number of taxpayers disclosing foreign assets has gone up to 2 lakh in 2024-25, from 60,467 in 2021-22. Under the Act, as of June 2024, demand of more than Rs 17,520 crore has been raised in 697 cases. Total 163 prosecutions have been launched.

Concept of simultaneous polls not new in India: Minister

RAJESH KUMAR ■ NEW DELHI

Amid ruckus in Parliament over the One Nation One Election (ONOE) bill on Tuesday, the Ministry of Law and Justice said the concept of simultaneous elections is not a new idea in India. Sharing the details of ONOE, the minister said elections to the Lok Sabha and all State Legislative Assemblies were conducted simultaneously from 1951 to 1967 following the adoption of the Constitution. The first general elections to the Lok Sabha and State Assemblies were held together in 1951-52, a practice that continued for three subsequent general elections in 1957, 1962, and 1967. The ministry said however, this cycle of synchronised elections was disrupted in 1968 and 1969 due to the premature dissolution of some State Legislative Assemblies. The Fourth Lok Sabha was also dissolved prematurely in 1970, with fresh elections held in 1971. Unlike the First, Second, and Third Lok Sabha, which completed their full five-year terms, the Fifth Lok Sabha's term was extended until 1977 under Article 352 because of the declaration of Emergency. Since then, only a few Lok Sabha terms have lasted the full five years, such as the Eighth, Tenth, Fourteenth, and Fifteenth. Others, including the Sixth, Seventh, Ninth, Eleventh, Twelfth, and Thirteenth, were dissolved early. "State Assemblies have faced similar disruptions over the years. Premature dissolutions and term extensions have become a recurring challenge. These developments have firmly disrupted the cycle of simultaneous elections, leading to the current pattern of staggered electoral schedules across the

country". "The High-Level Committee on Simultaneous Elections, headed by former President Ram Nath Kovind, was constituted by the Government of India on 2nd September 2023, received over 21,500 responses, with 80% in favour of simultaneous elections. The responses came from all corners of the country, including Lakshadweep, Andaman and Nicobar, Nagaland, Dadra, and Nagar Haveli. The highest responses were received from Tamil Nadu, Maharashtra, Karnataka, Kerala, West Bengal, Gujarat, and Uttar Pradesh", it said. According to the government, 47 political parties submitted their views. Of these, 32 parties supported simultaneous elections, citing benefits like resource optimization and social harmony. 15 parties raised concerns about potential anti-democratic effects and marginalization of regional parties. The Committee consulted Former Chief Justices of India, Former Election Commissioners, and legal experts. A majority supported the concept of simultaneous elections, emphasizing the waste of resources and socio-economic disruptions caused by frequent elections. The Committee proposed amendments to Articles 82A and 324A of the Indian Constitution to enable simultaneous elections for the Lok Sabha, State Assemblies, and local bodies. The Committee recommended implementing simultaneous elections in two phases: Phase 1: Synchronizing Lok Sabha and State Legislative Assemblies elections. Phase 2: Synchronizing elections for Municipalities and Panchayats with Lok Sabha and State Legislative elections within 100 days.

'990 transgenders rehabilitated through shelter homes in last three years'

PIONEER NEWS SERVICE ■ NEW DELHI

In last three years, 990 destitute transgender persons have been rehabilitated through garima grehs (Shelter homes) and as many as 725 were imparted skill development training. At the same time, 24,015 transgender persons have been issued identity certificates through the National Portal for Transgender persons, the Government informed Parliament on Tuesday. Additionally, Transgender Welfare Boards and Protection Cells have been set up in multiple states and union territories to address the welfare and security of the community. These efforts are complemented by healthcare support through the Ayushman Bharat scheme, ensuring a more inclusive and supportive environment for transgender persons in India, said Union Minister of State for Social Justice and Empowerment BL Verma, in a written reply to a question in Lok Sabha. The Minister said that transgender welfare boards and Transgender Protection Cells have been set up in 19 and 12 States/UTs respectively for the welfare and security of the individuals from the community. The protection cells under Director General of Police aims to monitor cases of offences against transgender persons and to ensure timely

registration, investigation and prosecution of such offences, said the Minister. The TWBs have been set up in Rajasthan, Mizoram, Chandigarh, Andhra Pradesh, Pondicherry, Maharashtra, Kerala, Meghalaya, Manipur, Tripura, West Bengal, Chhattisgarh, Bihar, Gujarat, Uttar Pradesh, Assam, Tamil Nadu, Jammu and Kashmir and Andaman & Nicobar. The States where protection cell has been set up are Chhattisgarh, West Bengal,

Rajasthan, Arunachal Pradesh, Andhra Pradesh, Chandigarh, Andaman & Nicobar, Sikkim, Punjab, Mizoram, Jammu and Kashmir and Uttar Pradesh. The Minister also informed that MoU with National Health Authority (NHA) for convergence with Ayushman Bharat scheme of NHA has been done for providing health facilities under Pradhan Mantri Jan Arogya Yojna (PMJAY) scheme to transgender persons. Eighteen Garima Grehs, shelter homes for destitute transgender persons have been established in 15 States namely Andhra Pradesh, Assam, Bihar, Chhattisgarh, Delhi, Gujarat, Karnataka, Madhya Pradesh, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh, West Bengal (2 shelters) and Maharashtra (3). The main aim of Garima Greh is to provide shelter to transgender persons with basic amenities like food, medical care, and recreational facilities besides providing support for the capacity-building/skill development of the sector, added the Minister. The National Portal for Transgender Persons is an end-to-end online process where the applicant can apply for the TG certificate and also download the certificate after issue without any requirement to go to any office of issue. "This portal has more than 62 Lakh visitors and as of now, 24,015 certificates have been issued."

ED conducts fresh searches against operatives of betting website

PIONEER NEWS SERVICE ■ NEW DELHI

The Enforcement Directorate Tuesday said it has conducted fresh searches against the operatives of a betting website, owned by some Pakistani nationals, that also was involved in "illegal" broadcast of Men's T20 Cricket World Cup matches. The searches were undertaken by the federal agency between December 10-12 in Delhi, Mumbai and Pune in the case against the portal named 'Magicwin'. The ED's case, filed under the Prevention of Money Laundering Act (PMLA), is based on an FIR registered by the cyber crime unit of the Ahmedabad Police in Gujarat. Bank deposits worth Rs 30 lakh were frozen during the raids apart from seizure of "incriminating" documents, the

the APIs (application programming interface) of the original games. The agency said betting activities like deposits, placing of betting and withdrawal are "controlled" by the "owners" of Magicwin. The ED claimed its probe found that the money, deposited in the bank accounts by the players/bettors, was "diverted" through layers of "shell and mule" bank accounts and further the profit part of the owners were invested in crypto assets, withdrawn in cash or sent to Dubai through Hawala channels. The winning amounts of the players/bettors were transferred to their bank accounts through merchant accounts of various shell companies maintained with payment gateways. These amounts were also transferred to the player's bank account through domestic money transfer (DMT), it said.

Rajnath says DPSUs will carry forward modernisation, indigenisation

PIONEER NEWS SERVICE ■ NEW DELHI

Defence Minister Rajnath Singh on Tuesday here said new Defence Public Sector Undertakings (DPSU) will carry forward modernisation, indigenisation and set new dimensions by incorporating world class technologies. He made this assertion during a meeting of Consultative Committee for the Ministry of Defence (MoD). The roles and functions of the new DPSUs, created post corporatisation of erstwhile Ordnance Factory Board, were deliberated upon during the meeting. The committee members were apprised on the financial figures, modernisation, capital expenditure, exports, new products developed and ongoing R&D projects, defence ministry said. The defence minister appreci-

ated the efforts taken by the new DPSUs in indigenisation of critical products, modernisation of production facilities and promotion of MSMEs. He appreciated the fact that post corporatisation, the new DPSUs have shown improvement in productivity and quality. There has been good progress in the sales and profit of these DPSUs in a very short span of time, he added. Rajnath exuded confidence that the new DPSUs will carry forward modernisation and indigenisation, and will set new dimensions in quality, turnover, profitability and other financial parameters by incorporating world class technologies. "Our new DPSUs will make India 'Aatmanirbhar' in the field of defence production," he said. On the concerns and suggestions of some of the committee members on certain HR-related issues within the new DPSUs, the defence minister assured them that all issues emanating from the corporatisation of DPSUs are being addressed adequately in consultation with all the stakeholders. He appreciated the suggestions, and said that these would be examined for implementation. Minister of State for defence Sanjay Seth, Chief of Defence Staff (CDS) General Anil Chauhan, Secretary (Defence Production) Sanjeev Kumar and other senior officers of MoD were present in the meeting.

PM slams Congress for water disputes

STAFF REPORTER ■ NEW DELHI

Prime Minister (PM) Narendra Modi on Tuesday hit out at the Congress, saying they talk big in the name of farmers but they neither do anything for them nor let others do anything.

He also alleged the party encourages water disputes among states rather than resolving them, and said the delay in the implementation of the Eastern Rajasthan Canal Project (ERCP) is a direct proof of the Congress' intention.

The ERCP envisages intra-basin transfer of water within the Chambal basin to provide water to 13 deficient districts of eastern Rajasthan.

"The Eastern Rajasthan Canal Project (ERCP) was delayed for so long by the Congress, this is also a direct proof of the Congress' intentions. They talk big in the name of farmers but they neither do anything themselves for the farmers nor let others do anything," Modi said.

He was addressing the 'Ek Varsh-Parinaam Utkarsh' event to mark the completion of the Rajasthan government's one year in office. He also inaugurated or laid the foundation stones for 24 projects related to energy, road, railways and water worth over Rs 46,300 crore.

The PM said the Parvati-Kalisindh-Chambal Link Project will provide irrigation as well as drinking water facility to 21 districts of Rajasthan and accelerate the development of both Rajasthan and Madhya Pradesh.

On various water disputes between states, he said while the Bharatiya Janata Party's (BJP) policy is to promote dialogue, the Congress continues to fan water discords.

"The BJP's policy is of

dialogue, not of conflict. We believe in cooperation, not opposition. We believe in solutions, not disruption. Therefore, our government has approved and also expanded the Eastern Rajasthan Canal Project. As soon as the BJP government was formed in MP and Rajasthan, an agreement was reached on the Parvati-Kalisindh-Chambal project," he said.

The PM noted that he had launched a big campaign to bring Narmada water to different parts of Gujarat when he was the chief minister, and charged the Congress and some NGOs adopted various tactics to stop it.

"The Congress never wants to reduce water problems. The water of our rivers used to flow to cross the borders, but our farmers did not get its benefits. Instead of finding a solution, the Congress continued to promote water disputes between states," he said.

PM Modi also said that the BJP is getting huge public support in different states where elections were held.

"The nation has given the BJP the opportunity to serve the country for the third consecutive time in Lok Sabha. This did not happen in India in the last 60 years," he said.

"Today, the BJP's double engine governments are becoming a symbol of good governance. Whatever resolution the BJP takes, it makes honest efforts to fulfil it. Today, the people of the country are saying that BJP is the guarantee of good governance," he said, and lauded the work of Bhajanlal Sharma-led BJP government in the state.

"In the last one year, Bhajanlal ji and his entire team have worked very hard to give new momentum and direction to

PM Narendra Modi with Rajasthan CM Bhajanlal Sharma during the 'Ek Varsh-Parinaam Utkarsh' event. PTI

the development of Rajasthan. This first year has, in a way, laid a strong foundation for the many years to come," he said.

Modi said people blessed the BJP with the responsibility to serve Rajasthan for multiple terms and party did its best.

"Bhairon Singh Shekhawat laid a strong foundation of development in Rajasthan, Vasundhara Raje took the legacy forward and now Bhajanlal Sharma's government is engaged in further enriching good governance. Its impact can be seen in one year," he said.

Modi said the Central government is constantly trying to improve the economic condition of villages and focusing on promoting every means of earning there.

Rajasthan has ample potential for solar energy and it can become the leading state in the sector, he said.

The PM said north India will

get direct connectivity to Kandla from the Jamnagar-Amritsar Economic Corridor. "Rajasthan's transport sector will benefit. Big warehouses will be built and new job opportunities will be created," he said.

"The BJP makes honest efforts to fulfil every promise it makes. The BJP has been getting huge support in states. The country has given the party the opportunity to serve the country for the third time in a row in Lok Sabha," he said.

He also mentioned the victory of the party in Maharashtra and Haryana assembly elections, and bypolls in Rajasthan.

Talking about women empowerment, he said 10 crore women, including lakhs from Rajasthan, joined Self-Help Groups in the last decade. He also highlighted the government's women-specific programmes such as

the Lakhpati Didi scheme, Namu Drone Didi Scheme and Bima Sakhi Scheme.

The PM encouraged party workers to work towards water conservation and make people aware about it, saying the BJP is not just the biggest political party but a huge social movement.

CM Bhajanlal also addressed the meeting and highlighted the achievements of his government.

Union ministers C R Patil, Bhagirath Chaudhary, Madhya Pradesh CM Mohan Yadav, Rajasthan Deputy Chief Minister Diya Kumari and Prem Chand Bairwa and other leaders were also present in the programme.

Earlier, Modi reached the meeting venue in an open jeep, flanked on his left by the CM and BJP state president Madan Rathore on his right. The vehicle was escorted by a group of women carrying 'Kalash' on head.

Fundamentalist group finds temple in Muslim majority area of Varanasi

BISWAJEET BANERJEE ■ VARANASI

A temple has been discovered in the Muslim-majority Madanpura area of Varanasi. The temple, reportedly locked for the past decade and filled with soil, came to light after a social media post highlighted its existence. Members of a Hindu fundamentalist organisation visited the site and have called for the temple to be reopened.

The group learned about the temple through a social media post that read: "Attention: A Shiva temple lies closed in the lanes of Kashi. This temple is near house number D-31 in Madanpura." Upon visiting the location, the leader of the group found the temple locked, with soil accumulated inside. Local residents were unable to provide clear information about the temple's history or the reasons for its closure.

The group has appealed to Uttar Pradesh Chief Minister

Yogi Adityanath to intervene and facilitate the reopening of the temple. The organisation is also seeking clarification on who locked the temple and why. In response to the situation, police arrived at the scene to maintain order and persuaded the gathered members to disperse peacefully.

Members of the fundamentalist group, who discovered the existence of the temple via a social media post, now claim that it is mentioned in the Kashi Khand, an ancient text detailing the sacred geography of Varanasi. According to the group, the temple is identified as Siddheshwar, located south of Pushpadanteshwar, with a nearby Siddhiteerth well. However, members of the group are clueless about the historical and cultural significance of the temple.

Gaurav Banswal, deputy commissioner of police for the Kashi Zone, stated that while the temple is indeed old and

currently locked, no one has been able to confirm ownership or provide details about its closure. The administration plans to conduct a site inspection to ascertain the facts and determine the appropriate course of action. In the meantime, police presence has been increased in the area as a precautionary measure.

The fundamentalist organisation which claims the temple is ancient, has been active in Varanasi, notably it has been involved in campaigns to remove statues of Sai Baba from temples in Varanasi, asserting that only traditional deities should be worshipped in the city's temples.

The local administration is expected to conduct a thorough inspection of the temple to verify its historical significance and assess the situation. Further actions will be based on the findings of this inspection and directives from higher authorities.

Opposition walks out of Maharashtra Assembly over custodial death

TN RAGHUNATHA ■ MUMBAI

The Opposition staged a walk out from the State Assembly after Speaker Rahul Narwekar refused to allow an immediate discussion on the recent custodial death of Sonnath Surevanshi at Parbhani and the alleged murder of sarpanch Santosh Deshmukh and slammed the Devendra Fadnavis government for human rights violations and police brutality.

On the second day of the ongoing winter session of State Legislature in Nagpur, several opposition leaders Nana Patole, Vijay Wadettiwar, Nitin Raut (all from Congress) and Sandeep Kshirsagar (Sharad Pawar-led NCP) expressed serious concern over the manner in which a Dalit youth died in police custody and the killing of a sarpanch in Beed district and demanded an immediate discussion on the issue.

Soon after the proceedings began in the House, Nana Patole raised the twin issues of custodial death of a Dalit youth in Parbhani and the killing of a sarpanch in Beed district, and asked the Speaker to suspend all the other work and hold discussion on the issue.

Opposition Members like Wadettiwar, Nitin Raut and Sandeep Kshirsagar joined Patole in his clamour for immediate discussion on the twin issues.

However, the Speaker declined to allow a discussion on the issue on Tuesday on the ground that it had already been decided to have a discussion under rule 101 on Wednesday considering the seriousness of the incident.

However, the Opposition members were not

happy with the Speaker's refused to allow immediate discussion on the issue. They walked out from the House in protest.

The gravity of the issue could be gauged from the fact even Namita Mundada, a ruling BJP MLA from Kej in Beed district also shared the Opposition's concern over the murder of a sarpanch from her Assembly constituency, contending that the incident had caused considerable anger among the people of the village where the murder had taken place in broad day-light. She urged Chief Minister Devendra Fadnavis to take immediate action for the arrest of the accused behind the murder.

After walking out from the Assembly, the Opposition members staged a protest on the State Legislature premises.

Talking to media persons outside the House, Wadettiwar came down heavily on the Speaker for trying to silence the Opposition in the House.

"Despite our repeated pleas for a discussion on the issue, the Speaker refused to let us speak. This is a clear-cut attempt to stifle the voice of dissent from the Opposition and help the government to forsake accountability for its failures," he said.

Condemning the custodial death in Parbhani and killing of a sarpanch in Beed district, Raut said: "No one who has true faith in the Constitution can allow such police brutality and murder of a sarpanch. During Parbhani disturbances, innocent citizens, including children, were detained, beaten, and one of the arrested persons died in police custody. This exposes the government's failure to protect citizens"

Yogi criticises Priyanka's bag contrasts with Indian labour in Israel

BISWAJEET BANERJEE ■ LUCKNOW

Chief Minister of Uttar Pradesh Yogi Adityanath took a swipe at Congress leader and Wayanad MP Priyanka Gandhi Vadra during the Winter Session of the state Assembly, criticising her for carrying a bag with Palestine written on it. He contrasted her action with the State government's efforts to send skilled youth from Uttar Pradesh to Israel for work.

"Yesterday, a Congress leader was seen roaming around with a Palestine bag, while we are sending the youth of Uttar Pradesh to Israel," CM Yogi remarked. He highlighted that over 5,600 youths from the state have gone to Israel for construction work, earning a monthly salary of Rs 1.5 Lakh along with free accommodation and food. He added that the Israeli ambassador had praised the skills of UP's youth and expressed interest in hiring more workers from the state.

The CM underscored the government's commitment to skill development, stating that more than 12 lakh youths in Uttar Pradesh have been trained under various programs.

The controversy erupted after Priyanka Gandhi Vadra was seen in Parliament on Monday carrying the bag. Responding to the criticism, she dismissed the remarks as patriarchal. "Who is going to decide what clothes I wear now? That's typical patriarchy. I will wear what I want," she told reporters.

The Bharatiya Janata Party's (BJP) criticism gained traction as leaders such as Rajya Sabha MP Dinesh Sharma accused the Gandhi family of promoting foreign thinking. Union Minister of State Banwari Lal Verma added, "Priyanka Gandhi came with a Palestine bag, she should carry an India bag instead."

Meanwhile, opposition leaders have rallied behind Priyanka Gandhi, defending her against what they termed an unnecessary controversy fueled by political motives.

TMC leader highlights condition of Muslims in West Bengal, calls for qualitative development

SAUGAR SENGUPTA ■ KOLKATA

Trinamool Congress (TMC) MLA and a former IPS officer Humayun Kabir has said that the condition of the Muslims particularly in West Bengal was worse than even the members of Scheduled Castes.

"I'm not a votary of quantitative growth. Rather, I favour qualitative development of Muslims. I think the condition of the Muslims particularly those in Bengal is not as it should have been. You have to visit their areas and look at the condition they live in to realise

their plight," said Kabir, a former deputy inspector general of the West Bengal Police, who joined the TMC ahead of the 2021 Assembly elections.

His statements come just amid a raging controversy over senior TMC minister and Kolkata Mayor Firhad Hakim's recent controversial remarks.

When asked to comment on Hakim's remarks Kabir said, "It is the qualitative development and not quantitative growth that matters. A family comprising the parents and two children

can sustain in a better manner than a family with five children. But in any case the family has to have the wherewithal and the education to sustain itself. I don't dishonour what a rickshawalla or for that matter a vegetable vendor does but for me the large majority of Muslims can have better qualitative life if they have access to education and economic resources, which is not the case at present. So, I think the craving should be for a qualitative development rather than quantitative growth."

Kabir's statements could have

impact on the party's Muslim vote base which has been Chief Minister Mamata Banerjee's electoral mainstay, worried insiders said.

On Kabir's anguish over the 'below par' quality of life that the Muslims of West Bengal led senior TMC leader Kunal Ghosh -- who had to clean a lot of mess left by Hakim a day before -- on Tuesday offered explanations comparing the condition of the life led by the Muslims in the past and the one they lead at present. Their lives had improved quite a bit from what it used to be even a decade ago, he said.

President Droupadi Murmu with a recipient during the first convocation of AIIMS Mangalagiri. PTI

President highlights women's role in medicine at AIIMS convocation

PIONEER NEWS SERVICE ■ AMARAVATI

President Droupadi Murmu on Tuesday said the rising participation of women in the medical profession and their significant contributions demonstrate that India is becoming a truly developed society. Addressing the first convocation of AIIMS (All India Institute of Medical Sciences) at Mangalagiri near here, she said relentless promotion of holistic health and ensuring health for all should be the guiding principle of every medical professional of this institute.

"The rising participation of women in the medical profession and their significant contributions demonstrate that we are becoming a truly developed society. This also highlighted the fact that given

opportunity, our daughters excel in every field," the President said.

The government has taken up several schemes, including Ayushman Bharat health insurance scheme and made treatment accessible for those facing difficulties in accessing treatment, she said.

Along with the government, it is also the responsibility of a conscious society to ensure that no one should be left out of medical services due to financial or other reasons, Murmu stressed.

The President said Indian doctors, based on their talent and hard work, are in the forefront in the developed nations. She said people from other countries come to India to avail healthcare services.

India is developing into an important centre in affordable medical tourism on the world

map, she said, adding doctors of the country play an important role in this regard.

She called upon young doctors to give priority to providing medical care and services to people living in rural, tribal and remote areas. Yogasan and Pranayam have also been accepted from the modern point of view in the context of holistic health care, she noted.

Andhra Pradesh Governor S Abdul Nazeer, Chief Minister N Chandrababu Naidu, Union Minister of State for Ayush (Independent Charge) Prataprao Jadhav, Andhra Health Minister Satya Kumar Yadav and other dignitaries were present.

The foundation for AIIMS-Mangalagiri was laid in 2015 and the first batch of MBBS students were inducted on August 30, 2018, which passed out today.

Protests in Kerala over man's death in wild elephant attack, locals demand action

PIONEER NEWS SERVICE ■ KOCHI

Kuttampuzha, a forest-fringe village here, witnessed a protest by local people over the death of a man who was trampled to death by a wild elephant.

The deceased man, Eldose (40), a native of Knachery here, met with the tragic end on Monday night while he was walking home after reaching the area by a KSRTC bus in Urulanthanni in Kuttampuzha panchayat.

His disfigured body was later found by a local man. Local people said Eldose was a bachelor and the only

breadwinner of his family, comprising aged parents and a sister.

Angry villagers staged a protest in the area for hours on Monday night alleging the forest officials' lack of effective interventions to address the human-animal conflict.

They did not even allow the authorities to shift Eldose's body from the place till the wee hours of Tuesday, demanding adequate compensation to his family and a permanent solution to the increasing human-animal conflict.

District Collector Umesh and people's

representatives also had to face the heat of the villagers' protest. At one point, the Collector even had to request the angry people with folded hands to allow the shifting of the body to the hospital.

He later assured a compensation of Rs 10 lakh to the deceased man's family and announced a review meeting on December 27 to address various matters in this regard.

Meanwhile, forest officials began the digging of a trench to prevent wild animals from entering the village.

The post-mortem procedures of Eldose were completed on Tuesday morning, and the

body was kept at his house for the public to pay their homage.

A people's hartal was also organised in Kothamangalam and Kuttampuzha over the incident.

Both the state government and the opposition UDF described the death of the man as "unfortunate".

While Kerala Forest Minister A K Saseendran said the protest staged by local people could not be considered as unjustified, Leader of Opposition V D Satheesan said the human-animal conflict has been increasing in forest fringe areas of the state.

BJP seeks clarity from BJD over MP's questions to President Murmu over Manipur, Sambhal, Odisha

PIONEER NEWS SERVICE ■ BHUBANESWAR

Odisha's ruling BJP on Tuesday sought a reply from BJD president Naveen Patnaik on his party MP Sulata Deo's statement in Rajya Sabha "targeting" President Droupadi Murmu.

Deo, while participating in the discussion on the 'Glorious journey of 75 years of the Constitution of India' in the Rajya Sabha on Monday had "targeted" Murmu, who hails from Odisha, BJP Odisha spokesperson Anil Biswal said.

"Honourable President is a daughter of Odisha. She has expressed her anguish over the Kar rape case. But why is she silent on Manipur which is on boil for over the last one-and-a-half years? Why is she silent on Sambhal? There have been 1,250 rapes in Odisha in the last six

BJD MP Sulata Deo questioned the President's silence over Manipur, Sambhal and rapes in Odisha. PTI

months. Where is the President? When will she break her silence? Is this what our Constitution teaches us?" Deo had said.

Reacting to Deo's statement in the Upper House of the Parliament, Biswal in a post on X said: "The manner in which a BJD Rajya Sabha MP dragged President Droupadi Murmu into petty politics, is not acceptable. She is the pride of Odisha. But, the RS MP's statement has hurt the people of Odisha."

"The question arises whether this is the personal opinion of the concerned Rajya Sabha MP or does BJD chief Naveen Babu also agree with this opinion? If there is no consensus, then why is Naveen Babu silent?" Biswal asked.

Biswal also alleged that when the BJD was in power in the state, it had "insulted" the President by causing power cuts during her programmes. "Now, there is an attempt to insult her in the Rajya Sabha. This is not the ideal sign of a political party," the BJP spokesperson said.

PAPER WITH PASSION

A timely assurance

Sri Lanka assures New Delhi that it will not permit anybody to use its territory to threaten India's security

In what must come as music to the ears of the Indian government, the Sri Lankan President has said that his country will not allow anyone to use its territory to threaten India's security. This assurance comes at a time when China is aggressively pursuing 'Mission Indian Ocean' - which targets India. In a joint statement issued, Sri Lankan President Anura Kumara Dissanayake made Colombo's position clear during his dialogue with Indian Prime Minister Narendra Modi in New Delhi. This assurance is seen as a critical development in India-Sri Lanka relations, especially given China's use of Sri Lanka's Hambantota Port for docking its naval surveillance and spy ships, including the ballistic missile tracking ship Yuan Wang 5. China's growing footprint in the Indian Ocean has raised red flags for New Delhi. The Hambantota Port, now under a 99-year lease to China following Sri Lanka's inability to service its debt, has become a hub for Chinese naval operations. Over the past two years, Beijing has stationed the Yuan Wang

5, a 25,000-tonne satellite and missile tracking ship, at Hambantota multiple times. This vessel, equipped with advanced tracking and communication systems, has been closely monitoring satellite and missile activities in the region, creating strategic challenges for India. In 2022, Sri Lanka briefly delayed the docking of Yuan Wang 5 following Indian concerns but eventually allowed the vessel to dock under the guise of 'replenishment.' Since then, Chinese surveillance ships have regularly patrolled the Indian Ocean, adding to India's apprehensions about Beijing's strategic intentions in the region. The agreement between India and Sri Lanka ensures that Sri Lankan territory, including its waters,

will not be used in any manner that could harm India's security or regional peace. This is a welcome relief for New Delhi, which views such commitments as crucial for maintaining stability in the Indian Ocean Region. This of course hasn't happened overnight. India's steadfast support for Sri Lanka during its economic crisis in 2022 has further solidified the bond between the two nations. President Dissanayake expressed gratitude for India's timely assistance, which was instrumental in stabilising Sri Lanka's economy during one of its most challenging periods. As far as China is concerned it has been courting Sri Lanka for the sole purpose of encircling India and getting a foothold in Indian Ocean. China's influence in Sri Lanka has grown significantly, particularly after Colombo defaulted on its \$1.7 billion loan for the Hambantota Port project. India has consistently raised concerns about the strategic implications of Chinese investments and activities in Sri Lanka. In this background the assurance of Sri Lankan president signals Sri Lanka's intent to balance its ties with both regional powers while safeguarding regional stability. The agreement also underscores Colombo's recognition of the importance of India's security and regional stability and paves the way for a stronger, more strategic India-Sri Lanka alliance in the years to come.

Tourists enjoy paragliding, in Manali

Nepal embraces China's BRI

Nepal's deepening ties with China through the Belt and Road Initiative (BRI) have set alarm bells ringing in New Delhi

PARUL CHANDRA

India has cause for extreme worry. In yet another indicator of China's growing sway over Nepal, the two are moving forward to implement Beijing's ambitious Belt and Road Initiative (BRI) in the Himalayan nation. India is not only opposed to this in principle on grounds of sovereignty but also fears it will enable China to increase its already considerable inroads into Nepal.

If 2017 marked Nepal's initial step to coming on board the BRI with an MoU, the year 2024 marks a giant leap for the Himalayan nation in that direction. A framework agreement for cooperation on the BRI was signed during Nepalese PM K P Sharma Oli's visit to China in early December, apart from nine other pacts. With the strategically located Himalayan nation having become a hub for Great Powers contestation, the US too would be uneasy with the latest Beijing-Kathmandu tango. While the US had managed to get Nepal on board its own Millennium Challenge Corporation (MCC) Compact to fund Kathmandu's power and transport infrastructure, the BRI seems far broader. Kathmandu is trying to play down the framework as just a continuation of the 2017 MoU. The framework, however, underlines Kathmandu and Beijing's renewed push for the BRI, an initiative on which New Delhi harbours deep suspicions for what it perceives as China's hegemonic ambitions through debt-trap diplomacy. Sovereignty is another major concern, with the China-Pakistan Economic Corridor (CPEC), another project under BRI, passing through Pakistan-occupied Kashmir. India is certainly worried about PM Oli-led Nepal once again moving into China's sphere of influence. The CPN-UML leader is widely seen as being pro-China, and bilateral ties with India were prickly during his previous stints as the PM. India has yet to host Oli since he took charge as PM in July

this year for the fourth time, with him first heading for Beijing, in a break from the tradition of visiting New Delhi. Also, showing scant regard for New Delhi's sensitivities, the Oli government recently allowed 220 Buddhist monks from China to travel to Lumbini, the birthplace of Gautam Buddha even as the Nanhai Buddhism Shenzhen roundtable was being held in Kathmandu. Oli delivered the inaugural address at this roundtable. There were also reports the China-appointed Panchen Lama would travel to Lumbini, though it did not eventually happen. The Oli government's encouragement of Beijing's concerted moves to claim Buddhism as a shared heritage will not go down well with New Delhi, which has been making its efforts to build on its shared Buddhist heritage with Nepal. Kathmandu's thrust on greater economic cooperation with Beijing - the BRI is part of this endeavour - would also whittle down India's influence over Nepal. The BRI framework agreement, incidentally, also envisages the opening of branches of Chinese banks and financial institutions in

WITH THE STRATEGICALLY LOCATED HIMALAYAN NATION HAVING BECOME A HUB FOR GREAT POWERS CONTESTATION, THE US TOO WOULD BE UNEASY WITH THE LATEST BEIJING-KATHMANDU TANGO

Nepal. India has traditionally had deep economic linkages with Nepal, nurtured in no small measure due to reasons of geography - the two neighbours share a long and porous 1,751-km-long border. This, along with the landlocked nature of Nepal, has helped India become its largest trading partner. During the 2022-23 fiscal, bilateral trade was pegged at \$8.85 billion. This included \$8 billion of exports from India to Nepal, with \$840 million of exports in the reverse direction. As per the Nepal Rastra Bank, India's share in Nepal's trade accounted for 64.1% in 2022-23. PM Oli sees cooperation on BRI as a means to forge closer economic ties with China, with the framework agreement resolving to deepen the economic partnership by "injecting new momentum to trade, infrastructure and connectivity cooperation". Not a single project under the BRI rubric has been executed in Nepal since the 2017 MoU. Nepal would be hoping that the 10 initial projects, including those meant to boost regional connectivity, will now see the light of day. India has its work cut out and should

ensure it does not come across as overbearing. India's approach in the Kalapani-Lipulekh-Limpiyadhura border dispute, where New Delhi ignored Kathmandu's request for foreign secretary-level talks, is a case in point. It led Oli, in his earlier stint as the PM, to cock a snook at New Delhi by changing his country's map showing the disputed territories as part of Nepal. Neither did New Delhi show respect due to a close neighbour when it decided to give a quiet burial to the joint 2018 Eminent Persons Group (EPG) report, which suggested that the 1950 Treaty of Peace And Friendship be replaced with a new one? Nepal has also been unhappy with India's refusal to give overflight rights for aircraft using the Chinese-built Gautam Buddha International Airport in Lumbini. India would do well to remember that its domineering approach only serves to alienate a close neighbour further and push it into China's ever-willing embrace. India should not lose sight of its strategic imperatives. (The writer is a senior journalist; views are personal)

LETTERS TO THE EDITOR

INDIA STRUGGLES IN BRISBANE TEST

Madam - While Travis Head hits a century again in the Brisbane test, it was a surprising and grave omission of the crafty and successful off-spinner Washington Sundar for the third test at Gabba. While Sundar has been among the wickets in recent tests and also did well with the bat, the head coach and the out-of-form skipper Rohit Sharma couldn't realise the need for a quality off-spinner is a blunder at the moment. The need for the quality off-spinner is mandatory when the Aussies have two solid left-handers, Travis Head and Alex Carey. When Head is the consistent match winner for the Aussies, leaving Washington Sundar out will prove costly for India in this test. Whenever there were solid left-hand batters, the formulae of the Indian team in the past from the era of Skipper Ajit Wadekar used to play Erapaali Prasanna and S Venkataraghavan proved to be of great success. After Rohit won the toss and put the Aussies to bat first, the Aussies had scored 445, and now the pressure will be on the Indian batters, who may succumb to pressure again, as proved by losing the 4 top order for a paltry 51. After having won the first test under the standby skipper Jasprit Bumrah, Rohit Sharma seems to have not yet learnt the lesson that the composition of the right combinations is important to be in the match. Missing a clever off-spinner can never be an easy task for the team to come back once they lose the grip in the first innings, which is what's happening at present in Brisbane. Bumrah alone can't take the match away from the opponents; this needs to be realised by head coach Gautam Gambhir. By dropping down in the order, Skipper Rohit is unbeaten on zero, and Rahul, with 33 against his name, has been the only consolation for the fans while rain stopped play. Rain God can be the only saviour as it looks for the team to have a sigh of relief. Rohit and Kohli must take a voluntary exit rather than bring the morale down of the team at this juncture.

Rural education needs reform

For a majority of Indian school children, especially from rural pockets, a feeling of uneasiness sets in when they hear something in English. They find it difficult to listen to and understand the English language. In a country like India, classes of mixed-ability

groups are a feature of every small village. While the teaching-learning process is done in the local language in rural villages, most of the competitive examinations are held in the English language. The rural atmosphere doesn't provide these students the opportunity to speak and learn English. In fact, in many northern villages, English becomes the third language, with the local language and Hindi as the first and second languages, respectively. The policymakers have to bridge the urban-rural divide when it comes to English teaching. An English teacher, teaching in rural schools, has to come up with innovative strategies in the classrooms. Skilled and committed teachers need to be appointed at the primary level, and they should be upgraded and trained to meet the problems faced by the learners.

R Sivakumar | Gandhi Nagar

HEALTHCARE REFORMS FOR PUBLIC

Madam - If the AAP government has done one good thing for society by making Mohalla clinics, the BJP has done another by making Jan Aushadi chemist shops. One can now get a free consultation from the AAP clinic and get medicines at nearly one-fifth the rate from a Jan Aushadi shop, thereby catering to the health aspect of a common man. The prominent good work visible on the ground needs to be applauded for both. The belief that a drug in a normal chemist shop is better than the generic drug being sold by a Jan Aushadi shop (popularly known as 'Modi ki Dukaan' in Patiala) is a myth that can be best removed by the doctors to their patients depending on the degree of moral courage they have to refuse obligations of pharmaceutical companies and give priority to generic rather than trademarked medicines to their patients. The fleeing private pharmacies need to be brought down to their knees in the interest of the public for their overinflated rates of medicines.

R S Narula | Patiala

PURCHASING POWER DECLINES

Madam - For the success of any economy, a vibrant market with sound and sustained demands is imperative, as production and market cannot flourish in a dry market. To vibrate the market, people's purchasing power should be increased by ensuring employment and a viable wage. The Indian economy is driven with an objective of enriching the rich, leaving the 81 crore poor in a lurch to manage sustaining life with 5 kgs of free rice per month. Even the small employed section is left without a reasonable increase in wage and faces the untamed inflation. The changes being pushed through in the name of labour reforms are going to pull down demands and create telling effects on the already volatile economy. Such a programme inevitably leads to dwindling demands. Course correction is inevitable to ensure bridging the gap between the poor and the affluent.

Why reading and writing matter more in the age of AI

As AI grows increasingly sophisticated, our commitment to these skills will determine whether we remain active participants in innovation—or passive consumers

BIJU DHARAMAPALAN

In an era increasingly defined by technological innovation, reading and writing—cornerstones of human intellect—are facing a profound transformation. While artificial intelligence (AI) bots like OpenAI's ChatGPT and Google Bard redefine the boundaries of information generation, the necessity of cultivating human literacy has never been more crucial. The transition from Neanderthals to modern humans (Homo sapiens) involved significant cognitive and cultural advancements, but Neanderthals themselves did not read or write. Reading and writing developed after modern humans became the dominant hominin species. These are not merely communication tools but exercises that keep our cognitive faculties sharp and resilient. When we read, our brains decode symbols, conjuring vivid images, emotions, and concepts. This intricate process activates the left temporal cortex, which is responsible for language processing, and strengthens neural connectivity. Studies

underscore that reading enhances memory, concentration, and analytical thinking. Engaging with diverse genres deepens empathy and broadens perspectives, fostering a nuanced understanding of the world. Writing, on the other hand, is an intellectual partner to reading. Crafting words—whether in a journal, essay, or story—requires us to organise thoughts, synthesise ideas, and express them clearly. This process activates the prefrontal cortex, the brain's hub for decision-making and problem-solving. Writing is more than an intellectual task; it is therapeutic. Research shows that expressive writing can alleviate stress, enhance mood,

and even bolster the immune system. The tactile act of writing also strengthens memory, embedding information deeply within our minds. Reading and writing foster neuroplasticity, enabling the brain to adapt and form new connections. They are antidotes to cognitive decline and shields against neurodegenerative diseases like Alzheimer's. Regular engagement with these skills cultivates intellectual independence, creativity, and emotional depth—uniquely human attributes. Yet, as AI bots revolutionise the way we consume and produce information, there is an alarming decline in human literacy. Tools like Book AI, which transforms any book into a conversational chatbot, exemplify AI's capacity to digest and reproduce complex information effortlessly. AI lacks the intrinsic human qualities of creativity, empathy, and ethical judgment. As AI literacy surges, the stagnation of human literacy risks creating a dangerous imbalance. Over-reliance on AI can diminish critical think-

ing and communication skills, weakening the very attributes that distinguish humans from machines. While the fear of displacement is understandable, the answer lies in shifting our perspective. AI is not an adversary but a powerful partner that can amplify human capabilities and drive innovation. Individuals can leverage their unique strengths to complement AI capabilities by prioritising the development of reading and writing skills. In an environment controlled by artificial intelligence, these abilities are necessary to navigate complicated concepts, understandably articulate them, and affirm human importance. The development of artificial intelligence highlights the significance of human expertise rather than diminishing it. By committing to studying throughout our lives, we can ensure that technology will not replace our humanity but rather improve it. REDISCOVER HAPPINESS

Happiness is a state of mind that transcends life's adversities

RAVI VALLURI

A couple first met in an estimable business school in India where they were conferred reputable degrees in management. The couple soon migrated to the land of El Dorado in search of greener pastures, seeking professional and economic security. They were a happy couple as the angels showered gargantuan benediction. Soon, a new dimension to their lives arrived in the form of angelic twins. When the twins turned six months old, it was time to visit the hometown of their parents. They were received by sentimental and misty-eyed grandparents.

The sojourn concluded the mother and twins were afloat on a flight back to their home. However, fate had other plans and a double whammy struck the family. The father never reached the airport as he was killed in a car crash on the way to the airport. The disconsolate woman became a mental wreck, her moments of happiness fastened only in her memory bank and the picture album. The alluring woman was transfigured into stone. A cousin empathised with her distraught mental state and robustly suggested that she undertake the Happiness Course of the Art of Living. After considerable blandishment and extensive persuasion, she enrolled for the course and deposited all her emotions and feelings while undergoing the unique rhythmic breathing technique of Sudarshan Kriya. Life need not be tragic if only we realise that happiness is a state of mind that can

be achieved independent of material success.

As per ancient Japanese mythology, the light from Tsukuyomi, the Shinto God of the moon could induce illusions and delusions. Hecate, the Greek Goddess of the dark moon bestowed visions, but also caused humans to be afflicted with insanity. The human body is made up of seventy per cent of water elements. Full moon water recharges the body, mind and spirit and bestows harmony on our thought processes. Therefore, practising the Full Moon Meditation has a consequential and noteworthy influence on the mind, whereby one is suffused with efficacious thoughts and purges nugatory ones. It was a cathartic experience for the young single mother to emerge from her traumatic experience by unflinchingly practising this technique. It is an established fact that the Sakyan prince, Siddhartha, upon attaining enlightenment on the full moon day metamorphosed into the Compassionate One, Gautama Buddha and made a prescient statement, "Thousands of candles can be lit from a single candle, and the life of the candle will not be shortened. Happiness never decreases by being shared." How does one define an efficacious emotion called happiness? Happiness is a state of well-being, jollity, blitheness and primarily to be contented in life. The amphitheatre of the mind is a veritable nuclear reactor, where waves of thoughts and emotions arise and subside. These in turn determine our happiness quotient and consequentially the quality of our lives.

There once lived a farmer, who grew apples. He perpetually grumbled that there was not adequate produce to sustain the family. Providentially, there was a spurt in production and apples grew in plenitude. Still dissatisfied, the farmer cavilled that he was now laden with gruelling work, apples were rotting and prices now plunged! Sage Patanjali in his Yoga Sutras has postulated certain cardinal principles to live harmoniously, encompassed in happiness. These are non-violence, truthfulness, no regrets, not accepting invectives or salutations hurled by people, physical cleanliness of the body, inner contentment, forbearance or penance, self-study or examination of the mind and development and finally love and surrender to the supreme cosmic force.

Pesticides are poisoning the Punjab soil

AS MITTAL

Punjab's agriculture is facing a harrowing reality—its lifeblood, the soil, is being contaminated by toxic pesticide residues at alarmingly high levels

It's time to face the disturbing truth about Punjab's agriculture—and it's a nightmare. In districts like Bathinda, Mansa, and Ludhiana, up to 60 per cent of farm soil samples are infested with toxic pesticide residues—including the deadly chemicals endosulfan and carbofuran—at levels far beyond what's even remotely safe. This isn't just a warning; it's a full-blown crisis, a ticking time bomb, the result of irresponsible, reckless pesticide and fertiliser abuse running rampant in our fields.

On World Soil Day—December 5th—we're forced to confront the cold reality of a rapidly disintegrating agriculture system, while the world's been talking about "Caring for Soils: Measure, Monitor, and Manage"! The consequences of this madness are devastating. Our once fertile land is transforming into a barren wasteland, and that's only the beginning. These toxic chemicals aren't just staying in the soil. They're seeping into our food chain—contaminating every bite we take and slowly poisoning us all. But it doesn't stop there. These toxic residues are embedding themselves into our very DNA, passing down a legacy of genetic mutations to our children and grandchildren.

We are breeding a future full of compromised health and genetic decay. This is a catastrophe that will echo across generations. We're not just destroying our present health; we're condemning our children to inherit the consequences of our stupidity and greed. The survival of future generations is at risk, and the clock is ticking—every moment of inaction is a moment closer to irreversible genetic damage. It's time to wake up, stop burying our heads in the sand, and confront this crisis head-on before it's too late for the survival of future generations.

The Pesticide Management Bill, 2020: India's regulatory framework for pesticides, established in 1968, is woefully outdated and incapable of addressing the modern-day challenges posed by the rampant overuse of agrochemicals. Although efforts to amend this framework have been ongoing since 2008, significant gaps remain in safeguarding farmers, consumers, and the environment. The legislation—still governed by the Insecticides Act of 1968 and the Insecticides Rules of 1971—requires comprehensive reforms to address the multifaceted risks associated with pesticide overuse. The Pesticide

Management Bill (PMB) 2020 was introduced to replace outdated legislation, but critical concerns must be addressed. While the bill outlines pesticide registration and licensing procedures, it must protect farmers more adequately from hazardous exposure. Statistics from Pesticide Action Network (PAN) International paint a grim picture: approximately 11,000 deaths globally are attributed to accidental pesticide poisoning annually, with India accounting for a staggering 6,600 fatalities. These numbers highlight critical deficiencies in pesticide usage protocols and safety measures.

Farmers and rural communities often bear the brunt of chemical exposures, especially in agriculturally intensive regions. For instance, Punjab, which heavily depends on rice and wheat cultivation, reports alarming pesticide consumption rates. With an average usage of 77 kg/hectare, significantly above the national average of 62 kg/hectare, Punjab ranks third in India after UP and Maharashtra for pesticide consumption.

A study by the Central Soil Salinity Research Institute (CSSRI) revealed that 6.74 million hectares of land in India are affected by salinity, a condition exacerbated by the overuse of agrochemicals. Persistent pesticide application has been found to reduce microbial biomass by 30-50 per cent, compromising soil fertility and diminishing the land's ability to provide essential nutrients to crops.

A Call for Robust Regulation Pesticides—insecticides, fungicides, or herbicides—play a vital role in modern agriculture. However, their toxic nature necessitates stringent oversight throughout their lifecycle, from production to disposal. The current regulatory framework lacks provisions for periodic review of registered pesticides based on emerging toxicological data. This oversight exposes the public to significant health risks, particularly in a country where improper handling of pesticides is widespread.

Training and Awareness: A Neglected Imperative Over the past three decades, the indiscriminate use of pesticides has surged, often driven by aggressive marketing strategies that portray chemical inputs as indispensable for high crop yields.

The limited scale of training initiatives highlights the need for more current efforts. Between 1994-95 and 2021-22, the Plant Protection Department of Agriculture and Farming Welfare Ministry trained only 585,000 farmers in Integrated Pest Management (IPM), a dismal figure in a nation with over 150 million farmers. According to the International Code of Conduct on Pesticide Management, governments and industry stakeholders must provide comprehensive training and information to farmers and retailers. Yet, the implementation of these guidelines still needs to be more robust. Retailers often serve as farmers' sole point of contact, and in many cases, they disseminate misleading or incomplete information. Data Collection: Bridging Critical Gaps The absence of robust data collection mechanisms further undermines India's regulatory ecosystem.

The National Crime Records Bureau (NCRB) documents pesticide poisoning deaths only if they are registered as medico-legal cases, excluding countless instances of non-institutional exposure and chronic health effects. This data void impedes effective policymaking and perpetuates a lack of accountability among stakeholders.

Addressing Weak Grievance Mechanisms: One of the most glaring deficiencies in India's pesticide regulation is the lack of accessible grievance redressal systems. Farmers and agricultural workers exposed to pesticides face prohibitive costs and lengthy procedures when seeking justice. Meanwhile, state governments can impose only temporary bans on hazardous pesticides, typically lasting 60 days, exposing vulnerable communities to ongoing risks.

Personal Protective Equipment: A

Forgotten Necessity The Pesticide Management Bill 2020 neglects the safety of small-scale farmers, who often lack access to affordable, climate-appropriate personal protective equipment (PPE). Farm workers face heightened health risks without mandatory provisions requiring them to supply adequate protective gear, especially in hot and humid agricultural regions. Labelling and Consumer Protection India's pesticide labelling standards fall short of both domestic and international norms. Safety information is frequently crammed into illegible leaflets, leaving farmers ill-informed about risks and proper usage.

Although the Consumer Protection Act theoretically covers farmers, legal recourse against manufacturers for misleading labels or substandard products is rarely pursued. The Way Forward India can no longer afford to ignore the human and environmental toll of unsafe pesticide practices. Establishing a robust, farmer-centric legal framework aligned with international standards is the only way forward to ensure safe and sustainable agriculture. A gradual shift towards agro-ecological farming methods that emphasise non-chemical pest management is imperative. The government must phase out hazardous pesticides and promote environmentally friendly alternatives to safeguard farmers' health and ensure consumer food safety. Addressing the gaps in the Pesticide Management Bill 2020 and adopting proactive measures, such as mandatory training and the provision of accurate information on pesticide usage and risks, are critical steps towards securing safe and healthier future generations.

INDIA'S REGULATORY FRAMEWORK FOR PESTICIDES, ESTABLISHED IN 1968, IS WOEFULLY OUTDATED AND INCAPABLE OF ADDRESSING THE MODERN-DAY CHALLENGES POSED BY THE RAMPANT OVERUSE OF AGROCHEMICALS

India@2024: A resilient economy on the fast track to growth

But challenges such as persistent inflation, a slowdown in the banking sector and environmental concerns continue to pose hurdles

India has firmly established itself as the fastest-growing economy among the G20 nations, with a projected GDP growth rate of 6.5 per cent-7 per cent for the fiscal year 2024-25. This remarkable trajectory underscores the nation's economic resilience and immense potential despite global challenges. The year 2024 presents a vivid picture of India's economic landscape, marked by notable achievements and emerging challenges.

KAJLEEN KAUR

direct investment (FDI) has also shown a dramatic surge, rising 45 per cent year-on-year to USD 29.79 billion in the first half of 2024-25, with key inflows in services, telecom, and pharmaceuticals. Complementing this momentum, India's foreign exchange reserves swelled to \$704.89 bil-

lion, driven by an \$87.6 billion increase this year alone. This growth includes a \$10.468 billion boost in foreign currency assets and a \$2 billion rise in gold reserves, which now stand at \$65.7 billion.

India's fintech sector continues to shine on the global stage, ranking as the third-largest fintech economy after the USA and the UK. The country also boasts the fourth-largest stock market in the world, with a market capitalisation of \$4.33 trillion, surpassing Hong Kong. A significant milestone in digital payments was achieved with the Unified Payments Interface (UPI), which saw transaction values soar to an astounding Rs 200 trillion in 2024, compared to Rs 139 trillion in the previous year. India even showcased its

UPI prowess on a global stage, introducing the system at the Eiffel Tower in Paris as part of a digital payments agreement with France.

The Goods and Services Tax (GST) revenue collection also reached unprecedented levels, hitting Rs 2.10 lakh crore—a substantial 12.4 per cent increase from the previous year. This growth was driven by a robust 13.4 per cent rise in domestic transactions and an 8.3 per cent increase in imports, showcasing the strength of India's tax infrastructure.

Amid these promising figures, certain challenges continue to loom. Inflation, as measured by the Consumer Price Index (CPI), remains persistently high, exceeding 5 per cent. The banking sector has

witnessed a slowdown, with credit growth declining to 11 per cent in November 2024 from 20.6 per cent the previous year. Deposit growth also moderated, with banks adding Rs 13.8 lakh crore in deposits compared to Rs 16.1 lakh crore during the same period

last year. In response, the Reserve Bank of India (RBI) reduced the cash reserve ratio (CRR) by 50 basis points to 4 per cent in December to improve liquidity and stimulate credit growth.

Qualitative indicators present a mixed picture. India climbed 14 ranks on the UNDP

Gender Inequality Index, highlighting significant strides in bridging the gender gap. It also improved its position on the Global Innovation Index, rising from 40th to 39th among 133 global economies, driven by entrepreneurial activity, vibrant startups, and successful public-private partnerships. The Human Development Report 2023-24 placed India at 134th among 193 countries, reflecting gains in life expectancy, education, and Gross National Income. However, no progress was seen in the Happiness Index, where India remains at 126th, largely due to dissatisfaction among older citizens, perceived discrimination, and poor health metrics. Moreover, India continues to struggle in environmental performance,

ranking 176th out of 180 countries. Challenges such as air quality, biodiversity loss, and greenhouse gas emissions demand urgent attention.

As India navigates these complexities, it is also undergoing key transitions. The US economy has entered a new phase, and India sees a shift in RBI leadership, with Sanjay Malhotra taking over as the 26th Governor after Shaktikanta Das's tenure. While the final assessment of FY2024-25 remains pending, India's growth story offers optimism for a brighter future and a strong foundation for the vision of 'Viksit Bharat@2047'.

Russian general killed by bomb in Moscow

AP ■ MOSCOW

A senior Russian general was killed Tuesday by a bomb hidden in a scooter outside his apartment building in Moscow, a day after Ukraine's security service levelled criminal charges against him. A Ukrainian official said the service carried out the attack.

Lt. Gen. Igor Kirillov, the chief of the military's nuclear, biological and chemical protection forces, was killed as he left for his office. Kirillov's assistant also died in the attack.

Kirillov, 54, was under sanctions from several countries, including the UK and Canada, for his actions in Moscow's war in Ukraine. On Monday, Ukraine's Security Service, or SBU, opened a criminal investigation against him, accusing him of directing the use of banned chemical weapons.

An official with the SBU said the agency was behind the attack. The official, who spoke on condition of anonymity because they were not authorised to release the information, described Kirillov as a "war

criminal and an entirely legitimate target." The SBU has said it recorded more than 4,800 occasions when Russia used chemical weapons on the battlefield since its full-scale invasion in February 2022. In May, the US State Department said that it had recorded the use of chloropicrin, a poison gas first deployed in World War I, against Ukrainian troops.

Russia has denied using any chemical weapons in Ukraine and, in turn, has accused Kyiv of using toxic agents in combat. Kirillov, who took his current job in 2017, was one of the most high-profile figures to level those accusations. He held numerous briefings to accuse the Ukrainian military of using toxic agents and planning to launch attacks with radioactive substances — claims that Ukraine and its Western allies rejected as propaganda.

The bomb used in Tuesday's attack was triggered remotely, according to Russian news reports. Images from the scene showed shattered windows and scorched brickwork.

Russia's top state investigative agency said it's investigating Kirillov's death as a case of terrorism, and officials in Moscow vowed to punish Ukraine.

Dmitry Medvedev, deputy head of Russia's Security Council chaired by President Vladimir Putin, described the attack as an attempt by Kyiv to distract public attention away from its military failures and vowed that its "senior military-political leadership will face inevitable retribution."

Over the past year, Russia has been on the front foot in the war in Ukraine, grinding deeper into the eastern region of Donetsk region despite heavy losses. Ukraine tried to change the dynamic with an incursion into Russia's Kursk region, but it has continued to slowly lose ground on its own territory.

Since Russia invaded, several prominent figures have been killed in targeted attacks believed to have been carried out by Ukraine.

Darya Dugina, a commentator on Russian TV channels and the daughter of Kremlin-linked nationalist ideologue Alexander Dugin, died in a

Investigators work at the place where Lt. General Igor Kirillov, the head of Russia's Nuclear, Biological, and Chemical Defence Forces and his assistant were killed by an explosive device planted close to a residential apartment's block in Moscow on Tuesday

2022 car bombing that investigators suspected was aimed at her father.

Vladlen Tatarsky, a popular military blogger, died in April 2023, when a statuette given to him at a party in St. Petersburg exploded. A Russian woman, who said she presented the figurine on orders of a contact in Ukraine, was convicted in the case and handed a 27-year sentence.

In December 2023, Illia Kiva, a former pro-Moscow Ukrainian lawmaker who fled to Russia, was shot and killed near Moscow. The Ukrainian military intelligence lauded the killing, warning that other "traitors of Ukraine" would share the same fate.

On December 9, an explosive device was placed under a car in the Russian-occupied Ukrainian city of Donetsk, reportedly targeting Sergei Yevsyukov, the former head of the Olenivka Prison where dozens of Ukrainian prisoners of war died in a missile strike in July 2022. One other was injured in the blast. Russian authorities said they detained a suspect in the attack.

Bangladesh official belittles India's role in 1971 Liberation War

PTI ■ DHAKA

Bangladesh interim government's Law Adviser Asif Nazrul has criticised Prime Minister Narendra Modi's post on X commemorating Victory Day saying, "India was merely an ally in this victory, nothing more."

Victory Day or "Bijoy Dibosh" is commemorated every year on December 16 when the Pakistan military surrendered to Indian forces in 1971, bringing about the liberation of Bangladesh.

Nazrul's comment was reposted by the office of Chief Adviser Muhammad Yunus.

A screenshot of Modi's post that paid tribute to Indian soldiers for their role in the historic victory in 1971, Nazrul wrote on Facebook in Bengali on Monday, "I strongly protest. December 16, 1971, marks Bangladesh's Victory

Day. India was merely an ally in this victory, nothing more." Yunus' Press Secretary Shaiful Alam shared Nazrul's post. The Daily Star newspaper reported on Tuesday.

Anti-Discrimination Student Movement Convener Hasnat Abdullah also criticised Modi's post.

Abdullah wrote on Facebook that this was Bangladesh's Liberation War and it was for the country's independence against Pakistan. He said Modi has claimed it was solely India's war and their achievement, disregarding Bangladesh's existence in their narrative.

"When India claims this independence as their achievement, I see this as a threat to our independence, sovereignty and oneness. It's necessary for us to fight against this threat by India. We need to carry on this fight," he wrote.

Modi, in a post on X, had said,

"Today, on Vijay Diwas, we honour the courage and sacrifices of the brave soldiers who contributed to India's historic victory in 1971. Their selfless dedication and unwavering resolve safeguarded our nation and brought glory to us."

"This day is a tribute to their extraordinary valour and their unshakable spirit. Their sacrifices will forever inspire generations and remain deeply embedded in our nation's history."

Chief Adviser Yunus led Bangladesh Monday in marking the 54th Victory Day, his speech making no mention of founding leader Mujibur Rahman while calling deposed prime minister Sheikh Hasina's administration the "world's worst autocratic government".

Rahman's daughter Hasina was ousted from power on August 5 after massive student-led protests against her Awami

League government.

There was also no mention of India's role in Yunus' address to the Nation on Bijoy Dibosh. India commemorates December 16 as Vijay Diwas when over 90,000 Pakistani soldiers surrendered before the Indian Army, leading to the creation of Bangladesh.

India had also backed Bengali guerrillas in the fight against Pakistan Army after West Pakistan's leadership refused to acknowledge the 1970 election victory of Mujibur Rahman's Awami League.

President Droupadi Murmu and several Indian political leaders too had paid homage Monday to the heroes of the 1971 war.

"A grateful nation remembers the ultimate sacrifice of our brave-hearts whose stories inspire every Indian and shall remain a source of national pride," Murmu said on X.

Trump says it was 'stupid' for Biden to let Ukraine use US weapons to strike deeper into Russia

AP ■ PALM BEACH

President-elect Donald Trump on Monday suggested that he may reverse President Joe Biden's recent decision to allow Ukrainian forces to use American long-range weapons to strike deeper into Russian territory.

Trump called the decision made by Biden last month "stupid." He also expressed anger that his incoming administration was not consulted before Biden made the move.

With the loosening of the restrictions, Biden gave Ukraine long-sought permission to use the Army Tactical Missile System provided by the US to strike Russian positions hundreds miles from its border.

"I don't think that should have been allowed, not when there's a possibility — certainly not just weeks before I take over," Trump said during

at a wide-ranging news conference at his Mar-a-Lago resort. "Why would they do that without asking me what I thought? I wouldn't have had him do that. I think it was a big mistake."

Trump's withering criticism of the Biden administration's move comes as the Democratic administration aims to push every last dollar already designated for Ukraine out the door to help repel Russia's invasion before Trump takes office on Jan. 20, with future aid uncertain.

But even as Biden tries to surge weaponry and other aid to Ukraine in his final five weeks in office, the moment underscored that it's Trump who holds the most significant influence over how Ukraine can use its US-provided arsenal in the long run. It's a critical piece of leverage he could use to try to follow through on his campaign pledge to bring

about a swift end to the conflict.

Asked if he would consider reversing the Biden administration decision, Trump responded: "I might. I think it was a very stupid thing to do."

The White House pushed back on Trump's criticism, noting that the decision was made after months of deliberations that started before last month's election.

"All I can assure you is that in the conversations we've had with them since the election, and we've had at various levels, we have articulated to them the logic behind it, the thinking behind it, why we were doing it," White House national security spokesperson John Kirby said of the current administration's coordination with the outgoing administration.

Trump's relationship with Russian leader Vladimir Putin has been scrutinised since his

2016 campaign for president, when he called on Russia to find and make public missing emails deleted by Hillary Clinton, his Democratic opponent. Trump publicly sided with Putin over US intelligence officials on whether Russia had interfered in the 2016 election to help him, and Trump has praised the Russian leader and even called him "pretty smart" for invading Ukraine.

Vice President-elect JD Vance has said that while the US has differences with Russia, it was counterproductive to approach Moscow as an enemy.

Trump on Monday reiterated his call on both Ukrainian President Volodymyr Zelenskyy and Russian President Vladimir Putin to negotiate an end to the war, calling the death and despair caused by the conflict "car-nage."

Australian state proposes ban on protests at places of worship

AP ■ MELBOURNE

An Australian state government on Tuesday proposed new restrictions on protesters in response to rising anti-semitism, including a ban on demonstrations outside places of worship.

Victoria Premier Jacinta Allan proposed the new laws after arsonists damaged a Melbourne synagogue this month and protesters kept fearful worshippers trapped inside a Sydney synagogue for three hours a week earlier.

"That's not peaceful protest. It's menacing behaviour," Allan said.

"Antisemitism is a cancer and we must leave no stone unturned to fight the evil of antisemitism, to fight the evil of this racism in all of its forms and also to continue to work to help heal our multicultural community, to help build on that social cohesion and continue to support our strong, united Victoria," she added.

The new laws would protect the

right of people to "gather and pray free from fear, harassment and intimidation," her office said in a statement.

The proposed laws, which will be voted on by the state legislature early next year, would establish safe access areas around places of worship and prohibit disturbances of religious gatherings.

The laws would also ban protesters flying flags and displaying symbols of groups listed by Australia as terrorist organisations. Face masks used by protesters to conceal their identities and protect against capicum spray would also be banned.

Anti-Defamation Commission chair Dvir Abramovich, a leading opponent of antisemitism in Australia, welcomed the proposed law.

"Today, the Victorian government has declared war on hate and antisemitism — and it's about time," Abramovich said in a statement.

"Victoria has drawn a line in the sand and sent a thunderous

message to the hate-mongers, the graffiti cowards, the fire-bombers, and the social media trolls: Your days of terrorising our communities are over," he added.

The arson attack on Adass Israel Synagogue on December 6 marked an escalation in targeted assaults in Australia since the war between Israel and the militant Hamas group started over a year ago in the Gaza Strip. Authorities have declared it a terrorist act, which increases resources available to investigators.

A federal law passed in January banned the Nazi salute and the public display of Nazi symbols in response to growing anti-semitism, and the government appointed special envoys this year to combat antisemitism and Islamophobia.

Australia is an increasingly multicultural society. The latest census in 2021 found that Australians born overseas or with a parent born overseas formed a majority for the first time.

China executes official involved in country's largest corruption case

PTI ■ BEIJING

China on Tuesday executed Li Jianping, a former official in the north Inner Mongolia Autonomous Region, who was convicted in the largest-ever corruption case in the country totalling to over USD 421 million.

The death sentence of Li, former secretary of the ruling Communist Party working committee of the Hohhot economic and technological development zone, was initially issued in September 2022 and upheld on appeal in August 2024.

Tuesday's execution followed the approval of the Supreme People's Court and was carried out by a court in Inner Mongolia, state-run Xinhua news agency reported.

Li, 64 was found guilty by an intermediate court earlier of embezzling a staggering three billion yuan (over USD 421 million) in illegal gains — the largest sum involved in a single corruption case in China's history, according to earlier reports in the Chinese official media. Since he came to power in 2012, Chinese President Xi Jinping made the anti-corruption campaign the main plank of his governance model.

Official media accounts say over a million party officials, including two defence ministers and dozens of military officials, were punished and prosecuted in the campaign.

In his speech delivered at the plenary session of the Central Commission for Discipline Inspection (CCDI) in January this year, contents of which were released for the first time on Sunday by party theoretical magazine Qishui, 71-year-old Xi has called on cadres to confront corruption head-on so that interest groups cannot prey on the ruling Communist Party.

Pope reveals apparent bombing plot during his 2021 visit to Iraq

AP ■ ROME

Pope Francis turned 88 on Tuesday and marked the occasion with revelations that he almost didn't make it. According to excerpts of his upcoming autobiography, suicide bombers had planned to attack him during his 2021 visit to Iraq, but were killed before striking.

Italian daily Corriere della Sera on Tuesday ran excerpts of "Hope: The Autobiography," written with Italian author Carlo Musso, which is being released in more than 80 countries next month. The New York Times ran other excerpts Tuesday, Francis' 88th birthday.

In the Italian excerpts, Francis recalled his historic March 2021 trip to Iraq, the first ever by a pope. COVID-19 was still raging and security concerns were high, especially in Mosul. The devastated northern city had been the headquarters of Islamic State militants, whose horrific reign had largely emptied the region of its Christian

Francis urged Iraq's Christians to forgive the injustices against them by Muslim extremists and to rebuild.

In the book, Francis said he later asked his Vatican security detail what became of the suicide bombers.

"The commander replied laconically They're no longer here," Francis writes. "Iraqi police had intercepted them and made them explode. This struck me as well: Even this is the poisonous fruit of war."

The book, originally planned to be published after Francis' death, is coming out at the start of the Vatican's big Holy Year, which Francis will officially inaugurate on Christmas Eve.

According to Italian publisher Mondadori, "Hope" is the first autobiography ever published by a pope. Francis, however, has published other first-person, memoir-style books or book-length interviews with biographers and journalists, including "Life: My Story Through History," published earlier this year.

Grassroots funding for Ukraine's military declines as groups look for creative ways to raise money

AP ■ KYIV

The concert took place in an old movie studio in Kyiv, the location kept secret until the final moment in case it was the target of a Russian attack. More than 1,000 soldiers and young people gathered to listen to the artists who joined forces with a military brigade in an innovative effort to raise funds for Ukraine's embattled troops.

This was the first and only live performance of the charity album "Epoch," a collaboration between the 3rd Assault Brigade and eight Ukrainian bands.

The project's ambitious target is to raise 50 million hryvnias (about USD 1.2 million) to buy an M113 armoured personnel carrier to help get infantry to

the front and evacuate the wounded for medical treatment. Since it launched on streaming platforms a month ago, the initiative has raised 9 million hryvnias (around USD 214,000).

Grassroots fundraising for Ukrainian fighters dates back to 2014, the year Russia first annexed the southern region of Crimea and Moscow-backed separatists launched an uprising in eastern Ukraine. At that time, Ukraine's defence was made up of a regular army supported by volunteer battalions who weren't financially supported by Kyiv's government. Self-funding was critical.

Now, advertisements pasted along the sidewalk in Kyiv ask for donations to help fill financial gaps across the military. By

scanning a QR code, people can help buy anything from body warmers and drones to armoured cars for soldiers defending the nearly 1,000-kilometre front line.

But some charities are seeing a decline in individual donations in part because of the economic situation in the country. Oleksandr Borodyn, one of the project's organisers, says the idea for the collaboration came from the challenge of continuing to drum up funds to support troops as the war is on the cusp of marking a three-year milestone.

"To raise the same amount of money as at the beginning of the war, you need much more effort. That's why we came up with the idea that a musician could donate his or her art, and

that art would earn money for the army," said Borodyn, a press officer for the 3rd Assault Brigade. The initiative comes as US President Joe Biden is rushing out billions of dollars more in military aid before Washington's support for Kyiv's defences is thrown into question when Donald Trump takes office next month.

Monobank, one of the largest platforms to process donations, says that in the first 1,000 days of war, nearly 10.5 million unique users made donations totalling around 77 billion hryvnias (about USD 1.8 billion) to various fundraising organisations.

But some charity groups are finding that voluntary funding isn't what it was in the first year of the full-scale invasion. The

Come Back Alive foundation supports troops with anything from military training to buying drones and electronic warfare to repel attacks. In the first year of the conflict, they raised more than 5.7 billion hryvnias (USD 184 million). So far in 2024, the figure is nearly 3.6 billion hryvnias (USD 89 million).

"Many people report a worsening financial situation, which limits their ability to contribute to supporting the military," said Oleh Karpenko, deputy director of the Come Back Alive Foundation.

Three years of war has had a devastating impact on Ukraine's economy. According to a World Bank report released in May, the number of Ukrainians living in poverty has grown by 1.8 million since

2020 to about 9 million, or 29 per cent of the population.

To help the most vulnerable, the government launched a winter support programme at the beginning of December and within days, around 6.5 million people had applied to receive the one off 1,000 hryvnia (USD 24) payment to help cover utilities, medical services and cell-phone costs.

According to Karpenko, local initiatives and smaller-scale fundraising efforts mean many people direct their contributions toward helping specific soldiers or military units they know personally. That reduces the amount received by larger organisations, which he says can promptly address urgent battlefield needs that the government can't meet.

"International support also plays a significant role in donation levels," Karpenko said. "When aid from international partners decreases, it strongly demotivates Ukrainian society. People lose motivation to donate when they perceive a lack of willingness from partners to actively supply weapons." Staring up at the large monitors set up on either side of the stage in the form of the three diagonal line symbol of the 3rd Assault Brigade, 26-year-old Oksana Kalenchenko thinks that events like the concert are hugely important in continuing to generate support.

"It's a reminder to somebody that there is a war going on in Ukraine, let's keep donating, let's keep doing everything we can," Kalenchenko said.

The collaboration album features young artists from Ukraine's rock, rap and alternative scene, and many of the lyrics reflect events and the reality of living through the conflict.

"We want to show the reflection of contemporary artists to the situation in Ukraine, and in general to Ukraine at war ... That's why the project is called Epoch, because it is a transmission of the era we are living in," Borodyn said.

What also unites all the songs is language. Since the start of the full-scale invasion on February 24, 2022, Ukrainian music has experienced somewhat of a revival with many artists shunning the traditional Russian pop scene that dominated the post-Soviet era.

Political strife erupts over South Korean court as it is set to determine fate of impeached Yoon

South Korea's acting leader vowed Tuesday to convey to the world that things are back to normal following parliament's impeachment of conservative President Yoon Suk Yeol, but rival parties began squabbling over the mechanics of a court ruling to determine whether to formally unseat or reinstate him.

Yoon faces allegations of rebellion and abuse of power over his martial law introduction. Investigative authorities want him to appear for questioning later this week, but officials at Yoon's office and residence on Monday refused to receive requests for his appearance.

Judge rejects Trump's bid to dismiss hush money conviction because of SC immunity

A judge Monday rejected a President-elect Donald Trump's bid to have his hush money conviction dismissed because of the U.S. Supreme Court's recent ruling on presidential immunity. But the case's overall future remains unclear.

Trump's lawyers then cited the Supreme Court opinion to argue that the hush money jury got some improper evidence, such as Trump's presidential financial disclosure form, testimony from some White House aides and social media posts made while he was in office.

Taipei mayor urges China to lessen confrontation

The China-friendly mayor of Taiwan's capital, Taipei, on Tuesday called for less confrontation between the sides, even as Beijing continues to send warships and fighter jets to intimidate the self-governing island democracy.

Yoon faces allegations of rebellion and abuse of power over his martial law introduction

Investigative authorities want him to appear for questioning later this week, but officials at Yoon's office and residence on Monday refused to receive requests for his appearance.

Signal & Telecom Works in Kathihar Division

Tender Notice No. N-2024-K-27. Date: 13-12-2024. E-Tender are invited by the undersigned for the following work: Name of the Work : S&T work in connection with Upgradation of goods yard facilities like CCTV, lighting arrangement, circulating area development and drainage along with other ancillary works at Kathihar & Ranipatra.

Public Notice

Notice is hereby given that my client Sushil Tandon is the owner as well as Partner of M/s. Dooon Caterers in process to sell the working capital against his property bearing No. XXV Corporation No. 5198 (Part) in Ward No. XI, area measuring 80 sq. yds., situated at Gali Bal Kishan Dass Bazar, Road, Pahar Ganj, New Delhi-110055 purchased from Prem Gupta and Krishna Gupta, vide Sale Deed dated 02.03.2002 (Doc. No. 4153). He confirmed that below mentioned Sale Deed is not available in original with him and for the same, he already done a FIR on dated 3/5/2005.

Corrigendum - 1 Against E-Tender Notice

No. : KYQ-CDO-ETP-02-24-25; DATED: 30-11-2024

Public Notice

It is to inform to the public at large that Mrs. Jehlu Nisha had acquired Built-up Plot bearing No. 40-43, area 50 sq. yds., Kharsa No. 18/22, situated in the area of Village Razapur Khurd Colony known as Nohan Garden, Block-A2, R-II, New Delhi vide G.P.A. Dt. 17.03.2004 along with AT&S and regd. will executed by Mr. Sagri Ahmad and Mr. Naushad Ali and Now Mrs. Jehlu Nisha is the undisturbed owner of the said property.

Earthquake causes damage in Vanuatu

A powerful magnitude 7.3 earthquake struck just off the coast of Vanuatu on Tuesday, causing widespread destruction in the South Pacific island nation as the injured began arriving at a hospital and unconfirmed reports of casualties emerged.

Tata Steel introduces India's first all-women shift at Jharkhand iron mine

PTI ■ JAMSHEDPUR
Tata Steel has operationalised an all-women shift at its Noamundi iron mine in Jharkhand's West Singhbhum district, an initiative introduced in the country for the first time, a company statement said. Women employees were engaged in all the mining activities of the shift, including heavy earth moving machinery, shovel, loader, drill and dozer operators, and shift supervision, it said. "This initiative, the first of its kind in India, underscores the company's unwavering commitment to creating an equitable workplace and empowering women in traditionally male-dominated industries," the steelmaker said in a statement on Monday. The all-women shift was flagged off by Mines Safety Deputy Director General (SE Region, Ranchi) Shyam Sundar Prasad on Monday,

marking a new beginning of support of the government in promoting an equitable workplace, it said. Prasad emphasised the commitment of the government to a progressive workplace and mentioned that the decision by the Director General of Mines Safety to permit the deployment of women in all shifts in mining in 2019 was a key step in the right direction. He also appreciated Tata Steel's effort in taking the lead as a responsible corporate house in promoting such a cause. Tata Steel vice president (raw material) D B Sundara Ramam said, "This all-women shift represents a landmark achievement not

only for the company but also for the Indian mining industry. It is a testament to the resilience and capability of women breaking stereotypes. It is also a reflection of our belief that diversity and inclusion are essential for driving innovation and operational excellence." He said the steelmaker will continue to create more opportunities for women, especially in the mining ecosystem. "This initiative marks a significant addition to the 100 glorious years of mining at Noamundi," he said. The journey began in 2019 with the launch of Tata Steel's flagship diversity initiative, "Women@Mines", making it the first company in India to deploy women in all shifts at its mines, following the Centre's landmark relaxation of the Mines Act, 1952, the statement said. The steelmaker had launched initiatives to recruit and train women from local communities to operate heavy earth-moving machinery and participate in the mining ecosystem. The initiatives were met with overwhelming enthusiasm and women were deployed across roles such as dumper, shovel, dozer, grader, and drill operators, the company statement said. They underwent extensive training, including technical and operational skills, simulator sessions, safety protocols, and physical fitness, before joining the workforce in April 2022. Over 2,100 applications were received by the company and 24 operators were selected, according to the statement. In a groundbreaking move earlier this year, the authorities of the Noamundi Mine diversified its workforce by inducting nine transgender operators of heavy earth-moving machinery, reinforcing the steelmaker's commitment to inclusion and equality.

UM Nitin Gadkari hails food delivery economy as key job creator, eyes 2.5 Crore employment by 2030

PTI ■ NEW DELHI
Union Minister Nitin Gadkari on Tuesday said the food delivery economy is very important for India as it generates large-scale employment. Addressing Zomato's 'Sustainability and Inclusivity: Role of the Platform Economy' conference, the road transport and highways Minister said that at present India has 77 lakh delivery workers and this number is likely to touch 2.5 crore by 2030. "Giving employment to 2.5 crore youths of this country is really a big thing for the country. The most important priority for all of us is to create jobs," he said. The minister also appreciated online food delivery platform Zomato for providing employment to a lot of unemployed youth of the country. He also expressed concerns about the number of road accidents and said the delivery boys have high chances of meeting accidents as they have to deliver the items in a limited time frame. Gadkari said that in India, 45 accidents and 20 deaths take place per hour. The maximum lives lost are between the age bracket of 18 to 45. "The two-wheeler deaths are 80,000...and deaths due to non-usage of helmet is 55,000," he said. He further said 10,000 deaths take place due to driving on the wrong side. The Road accidents can be avoided by providing proper training, the minister said and congratulated Zomato for training 50,000 drivers.

Bharti's acquisition of 24.5 per cent stake in BT approved by UK government

PTI ■ LONDON
The UK government has approved Bharti Global's acquisition of a 24.5 per cent stake in BT following a detailed national security assessment of the process since the Indian multinational and British telecom major announced the deal back in August. The Cabinet Office said its decision comes into force on Monday after an assurance that BT would set up a National Security Committee to oversee strategic work. The order noted that Bharti Televentures UK Limited acquired 24.5 per cent of the issued share capital of BT - 9.99 per cent on August 12, 2024, and 14.51 per cent on November 18, 2024. "Following a detailed national security assessment, the Chancellor of the Duchy

of Lancaster has made a Final Order pursuant to section 26 of the National Security and Investment Act 2021, which comes into force on 16 December 2024," the Cabinet Office said in a statement. "The Acquisition is a trigger event under section 8(8) of the Act. The Chancellor of the Duchy of Lancaster has approved the Acquisition, on the basis that BT will establish a National Security Committee within BT to oversee strategic work that BT performs which has an impact on or is in respect of the national security of the United Kingdom," it said. The Chancellor of the Duchy of Lancaster, which refers to Cabinet Office Minister Pat McFadden, stated that the final order is "necessary and proportionate" as it mitigates the risk to national security in relation to BT's role in supporting the UK

CBDT launches campaign to intimate taxpayers on mismatch in ITR filed and AIS

PTI ■ NEW DELHI
The income tax department on Tuesday said it is sending SMS and emails to taxpayers and non-filers where it has identified mismatch between transactions reported in Annual Information Statement (AIS) and income disclosed in ITRs for the financial years 2023-24 and 2021-22. In a statement, the Central Board of Direct Taxes (CBDT) said it has launched an electronic campaign to assist taxpayers in resolving mismatches between the income and transactions reported in the AIS and those disclosed in Income Tax Returns (ITRs) for the financial years 2023-24 and 2021-22. This campaign also targets individuals who have taxable income or significant high-

value transactions reported in their AIS but have not filed ITRs for the respective years. The initiative is part of the implementation of the e-Verification Scheme, 2021. As part of this campaign, informational messages have been sent via SMS and email to taxpayers and non-filers where mismatches have been identified between transactions reported in AIS and ITRs filed. Annual Information Statement (AIS) is comprehensive view of information for a taxpayer. Taxpayers can access AIS on the income tax department portal and provide feedback on information displayed in AIS. AIS shows both reported value and modified value (i.e. Value after considering taxpayer feedback). The CBDT said that the purpose of this campaign is to remind and guide individuals who may not have fully disclosed their income in their ITRs to take this opportunity to file revised or belated ITRs for FY 2023-24, the last date of which is December 31.

For cases pertaining to FY 2021-22, taxpayers can file updated ITRs by the limitation date of March 31, 2025. Taxpayers can also provide their feedback, including disagreeing with the information reported in the AIS, through the AIS portal accessible via the e-filing website. Last month, the CBDT launched a campaign under which messages were sent to taxpayers who have not disclosed high-value foreign income or assets in their ITRs for AY 2024-25. These messages were intended for individuals identified through information received under bilateral and multilateral agreements, suggesting that they may hold foreign accounts or assets, or have received income from foreign jurisdictions.

Sugar output down 17 per cent due to late start of factories

PTI ■ NEW DELHI
Sugar production declined 17 per cent to 61.39 lakh tonnes till December 15 of the current marketing year that started in October, mainly due to fall in output in Maharashtra, according to industry body ISMA. The production data excludes the diversion of sugar towards ethanol. Sugar production till December 15, 2024, in the current 2024-25 marketing year (October-September) reached 61.39 lakh tonnes as against 74.05 lakh tonnes in the corresponding period of the preceding year, Indian Sugar and Bio-Energy Manufacturers Association (ISMA) said in a statement. Notably, this year sugar factories in Karnataka started late by around 7-12 days while in another major state Maharashtra, mills started late by 15-20 days, as compared to last year. As per the data, sugar production in Uttar Pradesh increased to 23.04 lakh tonnes from 22.11 lakh tonnes. In Maharashtra, the output declined 16.78 lakh tonnes from 24.45 lakh tonnes. Karnataka saw a decline in sugar production to 13.85 lakh tonnes from 17.56 lakh tonnes. ISMA said that "this year sugar diversion towards ethanol is estimated to be higher at around 40 lakh tonnes against around 21.5 lakh tonnes diverted last year".

Sebi mulls service platform for tracking inactive, unclaimed mutual fund folios

PTI ■ NEW DELHI
Markets regulator Sebi on Tuesday proposed developing a service platform for investors to trace inactive and unclaimed mutual fund (MF) folios. The proposed service platform called Mutual Fund Investment Tracing and Retrieval Assistant (MITR) would be developed by the Registrar and Transfer Agents (RTAs), Sebi said in its consultation paper. The proposed platform would encourage investors to search for forgotten MF investments, update KYC as per the current norms and

incorporate safeguards to reduce the risk of fraudulent redemptions. Additionally, it would lead to reduction in the unclaimed mutual fund

folios and contribute towards building a transparent financial ecosystem. The regulator noted that over a number of years, mutual fund investors sometimes lose track of their investments considering investments might have been made in physical form with bare minimum KYC details. The investments in open-ended growth option mutual fund schemes may remain invested perpetually until and unless the investor/his nominee/legal heir approaches the concerned asset management company for redemption/transfer. Due to the non-availability of PAN, email ID or valid address, it is also possible that these MF folios may not appear in the unitholder's Consolidated Account Statement. Thus, inactivity in mutual fund folios could be on account of investors losing track of their investment, demise and such inactive folios may become susceptible to fraudulent redemptions. To address the concern, Sebi said, "The service platform is proposed to be developed by the RTAs to provide investors with a searchable database of inactive and/or unclaimed mutual fund

folios at an industry level". The platform can be hosted jointly by the two Qualified RTAs - ComputerAge Management Services Ltd (CAMS) and KFin Technologies Ltd as agents of AMCs - and can be available through a link on the website of MF Central, AMCs, AMFI, the two QRTAs and Sebi. The QRTAs should be jointly and severally responsible for compliance with all the applicable regulations, including system audit and cyber security audit. Further, they should ensure that the platform complies with the guidelines for Business Continuity Plan

Gold jewellery consumption to grow 14-18 per cent in FY25 in value terms: Report

PTI ■ MUMBAI
The domestic gold jewellery consumption in value terms is expected to continue its growth momentum in the current financial year and is likely to witness an on-year rise of 14-18 per cent, a report said on Tuesday. Rating agency Icr in a report said in FY25, gold jewellery consumption growth is pegged at 14-18 per cent in value terms, led by favourable realisations. In 2023-24, gold jewellery consumption growth had witnessed a growth of 18 per cent in 2023-24, primarily driven by realisations even as volume growth was subdued. According to the report, while gold prices were volatile, improving consumer sentiments and festive-led demand aided consumption growth in the recent months. Moreover, a sharp 900 bps cut in import duty in the Union Budget in July 2024, and consequent correction in gold prices for a brief period led to some pre-buying of jewellery as well as

bars and coins during the second quarter of FY25, which is generally a seasonally weak quarter, it said. This, coupled with higher number of auspicious and wedding days, and favourable monsoons aiding better rural output, is likely to help jewellery demand growth in H2 FY25, it added. The organised market is projected to record a healthy YoY expansion of 18-20 per cent in FY25. Planned store additions with focus on tier II and III cities, rising gold prices, shift in preferences towards branded jewellery and some likely pre-buying in the fourth quarter of FY25 on account of higher number of auspicious days in the first quarter of FY26 shall drive growth. "The customs duty cut is also expected to disincentive unofficial imports, thus supporting the growth in organised trade," Icr Vice President and Sector Head - Corporate Ratings, Sujoy Saha said. Revenue growth for organised jewellery in FY24 had been supported by

Reliance NU Suntech wins 930 megawatt solar project, 465 megawatt battery storage deal

PIONEER NEWS SERVICE ■ NEW DELHI
Reliance Power on Tuesday said its arm Reliance NU Suntech has secured a solar project of 930 MW and 465 MW battery energy storage system (BESS) project from Solar Energy Corporation of India (SECI). The project will see the second largest deployment of grid storage batteries at a single site in Asia, after China, a company statement said. According to the statement, Reliance Power subsidiary, Reliance NU Suntech Private Ltd (Reliance NU Suntech) received a Letter of Award from SECI for its proposed Solar 930 MW and 465 MW/1860 MWh BESS projects. The competitive tariff with an assured supply of peak power for 4 hours daily will be a relief for DISCOMs that have had to consistently buy power from the power exchanges during peak hours at the cap of Rs 10 per unit. Reliance NU Suntech won the 930 MW solar energy contract in an e-reverse auction held on December 9,

2024. As per the terms of the tender, Reliance NU Suntech will also install a minimum storage capacity of 465 MW/1,860 MWh charged by solar power. The company, among India's leading power generators, secured the largest individual allocation out of the five companies vying for a total quoted capacity of 2,000 MW of Inter State Transmission System (ISTS) connected solar power projects with 1,000 MW/4,000 MWh energy storage systems. SECI will enter into a power purchase agreement with Reliance NU Suntech for 25 years and the solar power procured will be sold to multiple discoms in India. Reliance NU Suntech will develop the project on a build-own-operate basis. Reliance Power Limited, part of the Reliance Group, is one of India's leading private sector power generation companies. The company has an operating portfolio of 5,300 MW, which includes 3,960 MW Sasan Power Ltd - the world's largest integrated coal-based power plant).

Parliamentary panel urges government to implement legally binding MSP for farmers

PIONEER NEWS SERVICE ■ NEW DELHI
A parliamentary panel on Tuesday recommended the government implement a legally binding minimum support price (MSP) for agricultural produce, arguing that such a measure could significantly reduce farmer suicides and provide crucial financial stability. The Standing Committee on Agriculture, Animal Husbandry and Food Processing, headed by Congress MP Charanjit Singh Channi, submitted a comprehensive report to Parliament highlighting the potential benefits of a legally guaranteed MSP. "The committee strongly recommends that the Department of Agriculture and Farmers Welfare declare a roadmap for implementing MSP as a legal guarantee at the earliest," the report stated. Currently, the government fixes MSP for 23 commodities based on the Commission for Agricultural Costs and Prices (CACP) recommendations. The panel argued that a legally binding MSP would not only safeguard farmers' livelihoods but also promote rural economic growth and enhance national food security. The committee's key recommendations include: implementing a robust MSP system to mitigate farmer suicides, providing compensation to farmers for managing crop residue, establishing a National Commission for Minimum Living Wages for Farm Labourers, introducing a debt waiver scheme for farmers and farm labourers, and renaming the agriculture department to include farm labourers. The committee emphasized that assured income through MSP would encourage farmers to invest in agricultural practices, potentially increasing productivity and sustainability. The panel also suggested the government provide a statement in Parliament after each crop season, detailing the number of farmers selling produce at MSP and the gap between MSP and market prices. It may be noted that a legal guarantee of MSP for agricultural produce was one of the key demands of protesting farmers in 2021 that forced the government to withdraw three farm laws and set up a committee on MSP to look into the matter.

Spain drawn with Italy, Belgium and Portugal in Euro 2025 group

AP ■ LAUSANNE
World Cup winner Spain will chase a sweep of major women's soccer titles at the 2025 European Championship after drawing a group with Italy, Belgium and Portugal. A European title would complete the set for Spain women after winning the inaugural UEFA Nations League in February for coach Montse Tomé, who took over when the team and federation was in turmoil after the 2023 world title win in Sydney. Tomé is the only female coach in Spain's Euro 2025 group. Euro 2025 host Switzerland will open the 16-nation tournament against Norway on July 2 in Basel. The group also includes Iceland and Finland. The past two European champions, titleholder

England and Euro 2017 winner the Netherlands, landed in a strong group with top-seeded France and Wales. France and England reunite next July 5 in Zurich after coming through the same qualifying group, in which they traded away wins in a five-day spell and France finished on top of the standings. "We had some beautiful matches in May and June. It's a very good challenge," France coach Laurent Bonadei said. Germany, the record eight-time European champion, was drawn with Denmark, Poland and Sweden, the inaugural winner in 1984. Basel's St. Jakob Park stadium also will host the final on July 27. More than 700,000 tickets are publicly available for the 31 games being hosted in eight Swiss cities. Switzerland has the responsibility to continue the

momentum in European women's soccer after three successful major tournaments. France hosted the 2019 Women's World Cup, won by the United States; host England won the Euro 2022 final against Germany watched by more than 87,000 fans at Wembley Stadium; and Spain and England played for the 2023 world title at the first 32-team tournament, hosted by Australia and New Zealand. "For me it is the perfect moment for this tournament to come here," said retired Swiss great Lara Dickenmann, a two-time Champions League winner with Lyon. "It will be a game-changer for us," Dickenmann told The Associated Press. "It's going to be really important for the Swiss population but also for the Swiss media, Swiss politics, on any level that takes part in football." Switzerland will start against Norway — which lost the 2023 World Cup opening game against New Zealand — one month after the same teams meet in a Nations League group that also includes Iceland. Switzerland coach Pia Sundhage said she aimed to field her best team in what will be a final competitive warmup for Euro 2025. "Confidence can take any team anywhere," said Sundhage, the Swedish veteran who led the U.S. To back-to-back Olympic titles in 2008 and 2012. England coach Sarina Wiegman has won the past two Euros titles, after leading her native Netherlands to the 2017 title, and suggested it will be an open and exciting tournament in Switzerland. "It's not just three or four countries" who can win, Wiegman said.

FIFA set to announce its top players in men's and women's soccer in 'The Best' awards

AP ■ DOHA
Real Madrid star Vinicius Junior is about to find out if he'll be finally getting his hands on a big global player award. FIFA's "The Best" awards take place on Tuesday, when the top men's and women's soccer players of 2024 will be announced based on voting by fans, the current captains and coaches of all national teams, and media representatives. It is FIFA's version of the older and more prestigious Ballon d'Or prize. Vinicius is on an 11-player shortlist for the best men's player, having been so disappointed to lose out to Manchester City midfielder Rodri for the Ballon d'Or in October that he and his Madrid team snubbed the ceremony in Paris in protest. The FIFA ceremony starts at

1700 GMT in Doha, where Madrid and Vinicius traveled on Monday for the Intercontinental Cup final against Pachuca. Rodri is also on the shortlist, along with Kylian Mbappé and Lionel Messi — last year's winner of the FIFA prize on a tiebreaker over Erling

Haaland. Barcelona playmaker Aitana Bonmati won the best women's player for 2023 and is seeking back-to-back FIFA prizes as one of four Spain players on the 16-woman shortlist. Bonmati has won the Ballon d'Or for two straight years, and won the Spanish league, Spanish cup and Champions League with Barcelona in 2024. The contenders have been selected based on their performances from Aug. 21, 2023, to Aug. 10, 2024. FIFA said the award winners have been decided by an "equally weighted voting system" between fans, the captains and coaches, and the media. The best men's and women's coaches and the best men's and women's goalkeepers will also be announced, along with the best men's and women's 11s and the Marta and Puskás Awards for the best goals in women's and men's soccer, respectively. Among those attending the gala dinner at the Aspire Academy in Doha will be FIFA President Gianni Infantino.

Americans now paid to play in Ryder Cup

AP ■ WASHINGTON
Americans will be paid to play in the Ryder Cup for the first time under a new PGA of America program that gives them a \$200,000 stipend and \$300,000 for them to distribute to charity. The \$500,000 directed to each of the 12 players and the captain is an increase from the \$200,000 — strictly for charity — that began when the pay-for-play issue first arose in 1999 ahead of the Brookline matches. U.S. Captain Keegan Bradley said in a text he would be giving his entire allocation to charity. "We added the \$200,000 stipend out of respect for the players... So the players could have a say in where the money goes. It's recognition for all the players have done for the Ryder Cup over the years," President Don Rea said in a letter to past Ryder Cup captains, noting the stipend

would be separate from what players get for expenses. The PGA of America board met in person last week and approved the payment scheme. "We've had so many meetings for a long time and it hasn't gone up since 1999. We're talking 25 years that it's been at \$200,000," Rea said in a telephone interview, adding that \$500,000 "seemed like the right place to land." "Everyone is appreciative of what the players are doing for the Ryder Cup." That appreciation now

includes direct payment for their services, a change not only in the amount but 40% of it without stipulation where it goes. The original deal in 1999 was \$200,000 for each player, with half of that going to a college golf program and the other half to a charity of the player's choice. For the Rome matches in 2023, the entire \$200,000 went to whatever charity or foundation the players chose. Rea noted in his letter to past Ryder Cup captains that it was similar to what the PGA Tour does for the Presidents Cup. The Presidents Cup changed from players choosing a charity to players and captains getting \$250,000 without stipulation starting in 2022. The PGA of America announced its decision in a statement on its social media channels. "The players and captains, past and present, are responsible for the Ryder Cup becoming the most special competition in golf and one of the most in-demand events on the international sports scene," the PGA said. "While no players asked to be compensated, the PGA of America Board of Directors has voted to increase the allocation to the members of the U.S. Ryder Cup team from \$200,000 to be directed to charities — a figure unchanged since 1999 — to \$500,000, with \$300,000 of that to be directed to the charity or charities of the players' choice. The balance is a stipend."

Rohan Jaitley re-elected as DDCA president

PTI ■ NEW DELHI
Incumbent Rohan Jaitley comfortably defeated former India cricketer and Lok Sabha MP Kirti Azad to be elected as the President of the Delhi and Districts Cricket Association (DDCA) for a third successive term. The 35-year-old Rohan, son of former Union Minister late Arun Jaitley, secured 1,577 votes compared to Azad's 777 in the race to the top position, which comes with a three-year term. His father had served as DDCA president for 14 years. As many as 2,413 votes were cast from among the 3748 members, and 1,207 votes

were required to win. In 2020, Rohan was elected unopposed after Rajat Sharma resigned midway during his term. A year later, he defeated advocate Vikas Singh to claim a full three-year run. Rohan had the backing of former BCCI acting president CK Khanna, who is considered an influential figure in Delhi cricket as he controls more than 1,000 votes. Khanna's daughter Shikha Kumar (1,246 votes), defeated Rakesh Kumar Bansal (536) and Sudhir Kumar Agarwal (498) to claim the vice-president's post.

Ashok Sharma (893) became the secretary, while Harish Singla (1328) was elected for the treasurer's post and Amit Grover (1189) won the joint secretary position. All office-bearers are elected for a three-year term. Anand Verma (985), Manjit Singh (1050), Navdeep M (1034), Shyam Sharma (1165), Tushar Saigal (926), Vikas Katyal (1054), Vikram Kohli (939) claimed the directors' post, which goes to polls every year. A member of the 1983 World Cup-winning team Azad, who represents Bardhaman-Durgapur constituency for the Mamata Banerjee-led Trinamool Congress party, had alleged corruption in the DDCA in the run up to the polls. He had alleged that the DDCA spent as much Rs 17.5 crore on installing floodlights when the much bigger Narendra Modi Stadium in Ahmedabad did the same for Rs 7.5 crore. He had also accused the incumbent DDCA administration of spending only a fraction of the approximately Rs 140 crore it received from the BCCI in the last financial year.

Hockey India League announces free entry for matches in Rourkela and Ranchi

PTI ■ NEW DELHI
Hockey India on Tuesday announced free entry for fans for both men's and women's matches of the Hockey India League to be played at Rourkela and Ranchi. The eight-team men's HIL in a new format will start on December 28 at Rourkela's Birsas Munda Stadium and will conclude on February 1, 2025. The women's edition comprising four teams will be held at Ranchi's Marang Gomke Jaipal Singh Munda Astro Turf Stadium from January 12-26. Additionally, HI said select

matches of both men's and women's categories will be held at alternate venues to "expand the league's reach." "By foregoing revenue from ticket sales, Hockey India aims to build a stronger connection between the sport and its passionate supporters, encouraging more people to experience the thrill of live hockey," HI said in a media release. HIL governing committee chairman Dilip Tirkey said, "By offering free tickets, we are ensuring that everyone, regardless of financial status, has the opportunity to experience live hockey at its best."

West Ham share points with Bournemouth after late drama on England's south coast

AP ■ BOURNEMOUTH
Enes Ünal scored a superb free kick in the last minute of normal time to rescue a point for Bournemouth in a 1-1 home draw against West Ham in the Premier League. Both sides struggled to break down their opponent and goalkeepers made timely saves at each end. But in the 87th minute, just when it looked like a 0-0 draw was on the cards, West Ham took the lead thanks to a VAR-assisted penalty. After a video review, referee Chris Kavanagh adjudged the ball to have struck Tyler Adams' hand and Lucas Paqueta made no mistake from 12 meters. That would have been hard on Bournemouth, which enjoyed the better of the second half but came up against the man of the match in West Ham goalkeeper Lukasz Fabianski. But in the 90th minute, Ünal curled a free kick into the top corner to give the Cherries a deserved share of the points.

"Credit to him, big moment, especially the reaction as well, I thought the boys were brilliant," Bournemouth forward Ryan Christie told broadcaster Sky. "And it was a moment of magic to get us level." There will be debate over the penalty decision and Christie lamented what he said was inconsistent decision-making from officials. "I thought it was harsh," Christie said. "I know his hand is high but he's so close to the ball. We didn't get one last week against Ipswich from a similar scenario. "It's a bit frustrating because we dominated. But it's good to get a point in the end." The comeback was another example of Bournemouth's late resilience. The south coast side has picked up nine points from losing positions this season, better than everyone bar Aston Villa and Manchester City. Bournemouth climbed into sixth place, just two points behind Manchester City, while West Ham was 14th.

A year of chaos and heartbreaks for Indian wrestling but not without hope for future

PTI ■ NEW DELHI
In an ideal world, politics and sport are not meant to be mixed. But then the world of Indian wrestling was far from ideal in 2024 with Vinesh Phogat's Olympic dejection and the never-ending administrative chaos pulling down a once flourishing sport. From the time when Wrestling Federation of India elections were held, exactly a year back, to the recent National Championships in Bengaluru, Indian wrestling has seemed like a rudderless ship. Not too long ago, wrestling had developed into a sport that promised unprecedented Olympic success but cut to Paris 2024, Aman Sehrawati's bronze medal was what saved the delegation the blushes

after Phogat's seemingly destined gold slipped through her grasp due to a cruel twist of fate. She was, for better or for worse, the most intriguing story of Indian wrestling this year. She punished herself to fight in a lower weight category after her preferred class was already booked for the Olympics, downed the then unbeaten Japanese legend Yui Susaki in her opening round in Paris and then ended up National Championships in Bengaluru, Indian wrestling has seemed like a rudderless ship. Not too long ago, wrestling had developed into a sport that promised unprecedented Olympic success but cut to Paris 2024, Aman Sehrawati's bronze medal was what saved the delegation the blushes

Haryana's khap panchayats, Phogat joined the Congress party, fought the state assembly elections and managed to become an MLA in her maiden electoral outing from Julana constituency. She wasn't the only one in her fraternity who decided on politics as future. Bajrang Punia too joined the Congress but he did not get the same returns as Phogat. His position was that of a Kisan morcha head and his wrestling career was left stalled after coping a four-year ban for failure to submit dope samples during training camps. This was after he failed to qualify for Paris, a new low in the career of the celebrated grappler, who fetched a bronze in the Tokyo Games. The two maintained all along that their fight against alleged

sexual harassment of women wrestlers by former WFI head Brij Bhushan Sharan Singh was an apolitical one. But their fellow protestor and Rio Olympics bronze-winner Sakshi Malik sought to dispute that soon after they joined congress. She went on to allege in her book that the duo's "greed" punctured their protest against Sharan Singh. Next generation affected by chaos The likes of Anshu Malik and Antim Panghal, who were touted as the next big thing in

Indian wrestling, cut a sorry figure in Paris but Aman carried forward the rich legacy of the Chhatrasal stadium by winning the men's freestyle 57kg bronze. It was a category which 2020 Tokyo Games silver-medallist Ravi Dahiya made his own. But Dahiya vanished from the scene due to spate of injuries that affected his form. The Tokyo campaign, which yielded two medals in wrestling, should have been the catalyst for better infrastructure and coaching for Indian wrestler. However, the developments in the last 24 months have prevented growth. The potential is still there and the biggest example was Indian U17 women team's world championship victory in Amman, Jordan in September.

The country had been aiming for a podium finish for long and the dream finally materialised this year. Out of 10 possible medals, India won eight medals, including five gold medal and one silver. Finishing ahead of powerhouse Japan and impressive Kazakhstan is no mean feat. However, the unending litigations have tied the hands of WFI which is now struggling to carry out day to day affairs of the body. The team led by Sanjay Singh, that won the elections, stands suspended by the Sports Ministry. The ground of suspension is announcing Nationals without following a 15-day notice period in December 2023. But the fact remains that if WFI had followed the notice period, wrestlers

would have lost a crucial year because by the time the 15-day period would have completed, year 2024 would have started. WFI was forced to withdraw the team from the senior World Championship owing to pending litigation by Sakshi and her wrestler husband Satyawart Kadian. Eventually after government's intervention a team was finally sent. No proper coaching camp has been organised in the last two years, the efforts to revive the Pro Wrestling League are on hold, grants and sponsorships have stopped, no foreign/personal coaches have been engaged and there is no planning to take the sport forward. If the situation could be summed up in a line, Indian wrestling is stagnant for now.

Rahul, Jadeja fifties help India avoid follow-on in Brisbane Test

PTI ■ BRISBANE
KL Rahul and Ravindra Jadeja were determination personified as their fighting fifties helped India avoid the follow-on on the fourth day of the weather-hit third Test against a menacing Australia that seems meandering towards a draw. Jadeja (77, 123b, 7x4, 1x6) and Rahul (84, 139, 8x4) were the heavy-lifters in India's 252 for nine when bad light forced an early close to the day. Jasprit Bumrah (10) and Akash Deep (27), who showed appreciable gumption, are holding the fort for India. The visitors trail Aussies by 193 runs. But they wouldn't mind that one bit as Australia will now have to bat again and forcing a result in three sessions looks an improbable target, considering the Brisbane weather pattern. The city is bracing up for rain and a thunderstorm or two on Wednesday. A quick word of appreciation is also required for No. 10 Bumrah

and No. 11 Akash Deep for knocking down the 33 runs required to go past the follow-on mark of 246. The much-awaited moment came when Akash crunched Pat Cummins over gully for a boundary. When these two joined forces, India were reeling at 213 for 9 after Jadeja was dismissed off a Cummins' snorter. But while resuming from a wafer-thin overnight score of 51 for four, India needed someone to offer fight, and Rahul, India's standout batter in this series so far, did precisely that. Rahul displayed admirable technical nous to withstand the stern test posed by the Australian bowlers to take the game deep into the day. A nine toes down Rahul and an equally feisty Jadeja added 67 runs for the sixth wicket, and it was the first sign of India's fight. There was a moment of massive fortune too for Rahul when Smith spilled a regulation catch at second slip off the first ball of the

day from Cummins. Rahul was on 33 then. A quick look upwards and a silent prayer showed how much he valued that

reprieve, which he exploited to the hilt, notching his 17th Test fifty. Once he woke up from a bit of morning haziness, Rahul looked a

class apart from the rest of his colleagues. The Aussies employed three slips and a gully, leaving the vast

expanse of the ground to play his favourite shot -- drive through the cover or in front of the point. It was a dangerous proposition as there was enough movement and bounce for the Aussie pacers. But Rahul was prudent enough to see through that ruse. He did not bring out that shot until the bowlers pitched the ball well up in his driving arc. The Bengaluru man's sagacity shone in how he defended too -- all soft hands and playing close to the body. Cummins tested him with that fifth stump line outside off, but Rahul either left the ball wisely or merely tucked his bat behind his pads. However, a remarkable redemption catch by Smith at slip off Nathan Lyon ended his stay. But Jadeja carried on and he added 53 runs for the seventh wicket with Nitish Reddy to keep India afloat. The 36-year-old scored a good chunk of runs either down the ground or square of the wicket, enabling him to collect runs

New Zealand beat England by 423 runs in the 3rd test

AP ■ HAMILTON
Captain Ben Stokes was unable to bat because of a hamstring injury on Tuesday as England slumped to a 423-run loss to New Zealand before tea on the fourth day on the third cricket Test. Stokes strained his left hamstring while bowling on the third day and could not take the field as England was bowled out for 234 as it chased an impossible target of 658 for victory. New Zealand's winning margin matched its largest test win by runs of a 423-run win over Sri Lanka in 2018 and prevented England from completing a series whitewash. England had an unassailable 2-0 lead in the series after winning the first test by eight wickets and the second by 323 runs. "You can't fault any of the energies or efforts we put into this game, particularly in the field," Stokes said. "It's obviously not ideal to end the tour on this note but we've come here against a New Zealand team which is very strong and full of confidence after beating India in India 3-0. So to come here and lift that trophy at the end proves we played some very good

cricket." England resumed its second innings Tuesday at 18-2 after losing the wickets of Ben Duckett and Zak Crawley late on day three after New Zealand, leading by 204 on the first innings, was dismissed for 453. Joe Root made 54 and Jacob Bethell 76 in a 104-run partnership for the third wicket which briefly fanned England's hopes that it might somehow endure for two full days to draw the match. But dogged perseverance is not a feature of England cricket in the "Bazball" quick-scoring era and instead it maintained a policy of all-out attack before the final wicket fell midway through the second session. After lunch Gus Atkinson blasted 43 from 41 balls with seven fours and a six and Ollie Pope made 17 but wickets fell steadily and the result became inevitable. "I think anytime you finish a series with a win when you've been behind is pleasing," New Zealand captain Tom Latham said. "We weren't at our best in those first two games but the way we came here on a wicket that was slightly different to the first couple and we adapted was very

pleasing." New Zealand's win owed a great deal to the contribution of Mitchell Santner in the first innings who made 76 batting at No. 8 and worked with Matt Henry, Tim Southee and Will O'Rourke to add 116 runs for New Zealand's three wickets. That allowed New Zealand to reach 347 after losing the toss and being sent in. Santner's last-wicket stand with O'Rourke which lasted 77 minutes at the end of the first day and the start of the second was a display of resilience which had been missing from New Zealand's performances in the first two tests. Santner then took 3-7 while New Zealand's presumptive new-ball pairing of Henry and O'Rourke shared seven wickets as England was bowled out for 143 in a session and a half in its first innings. Southee has been the spearhead of New Zealand's attack for many years, mostly in combination with Trent Boult. But this was his 107th and final test before his retirement from international cricket and Boult no longer is contracted by New Zealand Cricket.

Mandhana moves to top three in both ODI and T20I rankings

PTI ■ DUBAI
India's vice-captain Smriti Mandhana has surged three places to second in the latest ICC Women's ODI rankings while climbing one spot to third among T20I batters, following her stellar displays against Australia and the West Indies. The left-hander struck 105 in the final match of the series against Australia in Perth and 54 in the first game of the ongoing T20I rubber against the West Indies in Mumbai to headline the latest rankings update released here on Tuesday. Mandhana is the lone Indian batter in the top 10 as her skipper Harmanpreet Kaur moved down two spots to 13th while Jemimah Rodrigues climbed six places to 15th and Harleen Deol moved up nine rungs to 64th. Among bowlers, Deepti Sharma has slipped two spots

to five. India seam bowler Arundhati Reddy has shot up 48 places to 51st after a haul of four for 26 while Renuka Thakur has moved up from 28th to joint 26th. England opener Tammy Beaumont advanced two places to 11th after an unbeaten 65 helped clinch the South Africa series 2-1. Ashleigh Gardner has moved up one place to 16th with a 50 in Perth, Tahlia McGrath has progressed from 32nd to 24th

with an unbeaten 56, and Annabell Sutherland is up 15 places to 29th after a match-winning 110. Gardner is also up two places to a career-best-equaling third position in the bowling rankings with a haul of five for 30 and has moved up from fourth to second in the all-rounders' list. Sutherland is in the top 20 of the bowling rankings. Others to move up in this list include South Africa's

Vettori admits Indian tailenders partnership foils Australia's plans

PTI ■ BRISBANE
Australia assistant coach Daniel Vettori admitted that a resilient partnership between Indian tailenders Jasprit Bumrah and Akash Deep foiled their plans to enforce a follow-on, while also defending the decision not to declare the home team's first innings in the third Test which seems heading towards a draw. With the Indian batters, barring KL Rahul and Ravindra Jadeja, failing once again, it was the obstinate 39-run unbeaten partnership between Bumrah and Akash Deep that saved India the blushes as the tourists avoided a follow on a rain marred day four on Tuesday. "I think the only way to force the game was to force the follow-on," Vettori said at the post-day press conference. "There was a desperation to get that final wicket. We thought we had a really good chance when Jadeja was dismissed, but it was a real fighting partnership from Bumrah and Deep. "Unfortunately, just the amount of time that's been lost from the game has made it difficult," he added. Akash Deep, making his debut in Australia, walked in to bat at 213 for 9, with India still needing 33 runs to avoid the follow-on that could have cost them the game. Alongside pace spearhead Bumrah, he guided India to 252 for 9, frustrating the home team. Australia had ended day three on 405 for 7 but chose to bat, consuming a considerable amount of game time on a rain affected day four rather than declare their innings.

Josh Hazlewood likely to miss Test series against India due to calf injury

PTI ■ BRISBANE
Australia pacer Josh Hazlewood is likely to miss the remainder of the Border-Gavaskar Trophy against India due to a right calf strain that he sustained during the ongoing third Test at the Gabba, Cricket Australia said on Tuesday. The niggles has also ruled Hazlewood out of the Brisbane Test, weakening Australia's bowling attack. "Josh Hazlewood has sustained a right side calf strain which will prevent him from playing any further part in the Test match against India in Brisbane," Cricket

Australia said in an official statement. "He is likely to miss the remainder of the Test series." On Tuesday, the New South

Wales player bowled just one over before walking out of the field following a discussion with captain Pat Cummins, senior cricketer

Steven Smith and team physio Nick Jones. Hazlewood later underwent scans to ascertain the severity of the injury. The 33-year-old had nicked off star India batter Virat Kohli on Monday, the third day of the match, with a fine delivery outside the off-stump. Hazlewood made his return to the side for the third Test after missing the Pink Ball Test at Adelaide due to a side strain. He had replaced fellow pacer Scot Boland, who played in the day-night Adelaide Test, in the Australia eleven for the ongoing Brisbane Test.

Can 'Guru' Gambhir and Nayar offer cogent solutions to technical flaws in batters?

PTI ■ NEW DELHI
Rohit Sharma and Virat Kohli are rapping maximum criticism for being walking wickets during the ongoing Test series against Australia but even Shubman Gill, Yashasvi Jaiswal and Rishabh Pant haven't shown the patience needed to survive Down Under, indicating a larger problem. Patience is a virtue that one develops over time and Kohli had once showed how it's done during his golden phase between 2014 and 2019. KL Rahul, blessed with sound technique, has displayed that during the current series with scores of 77 and 84 in Perth and Brisbane. In case of Jaiswal, save his second innings knock of 161 at Perth, a shuffle across the crease is making him a candidate for leg-before. Gill loves to play on the rise outside the off-stump and away from his body and could be impatient when one bowls the stump and even for Pant, a compulsive stroke player, the ball that leaves him from five metre length with adequate bounce, is creating issues. So, will head coach Gautam Gambhir and his deputy Abhishek Nayar, who is highly regarded in Mumbai cricket circuit for being a

"Mind Coach and Life Coach rolled into one", do anything about it? A former India great, who didn't wish to be named, offered his perspective. "Not all great players or players of repute happen to be great coaches. They might have done some incredible things as players and knew what to do and how to react during a particular situation," the veteran of 100-plus Tests said. "But coaching is science and not many can tell why certain things need to be done. Even Gautam used to play with hard hands and dab towards slips in Australia and England. "You can still work with younger guys but difficult to mould the older ones who don't get enough time to work on their game in a packed calendar," he added. Watching the dismissals of especially Kohli in Australia, which seemed like a replay of previous ones, has led to growing concerns. Everyone understands the technical flaw, but can anyone provide the corrective measures to break the rut? Rohit, barring the England tour in 2021, he does not really have a track record in SENA countries in Tests. But with Kohli, the problem of reaching for deliveries on and

outside the off-stump has resurfaced once again and has been a persistent issue for quite some time. Sanjay Manjrekar's tweet is worth taking note of. "I guess the time has come to

scrutinise the role of a batting coach in the Indian team. Why major technical issues have remained unresolved for so long with certain Indian batters?" he asked. Manjrekar's view raises questions on the role of Sanjay Bangar, Vikram Rathour, and now Nayar. Their official designation might be assistant coach, but they essentially are batting coaches. Devang Gandhi, who was a touring selector between 2016-17 to 2020-

21, had a more nuanced take compared to the veteran India star. "It would be very easy to target Nayar as a low hanging fruit or for that matter Gautam," Gandhi, who has coached the Delhi Ranji team and Bengal U-19, told PTI during a conversation. "But they have just come into system. To discuss or nudge a player, first you need to be around for some time and once there is some kind of mutual trust between the two, you can offer him solutions. But at this level, it is more about the experienced player's own mental make-up." So what is Kohli's problem? Gandhi, a former Test opener and an NCA Level-2 coach, believes it's all about his mental approach. "If you watch his training videos that are available for public, I find him doing all the right things. During training he is playing close to his body. But the moment it is the match situation, the hands are moving towards those channel deliveries like conditioned reflex or muscle memory," he explained. Gandhi then blamed it on the rising T20 engagements. "The moment his bat is away from the body, the bat-face will open up towards cover. Now this is a white ball problem of hitting through the

line. In India the ball will hit the bottom of the bat but in Australia, it will towards the upper part. "What solution can Gambhir or Nayar possibly give, apart from telling him to not play those deliveries? "After 30 Test hundreds, Virat doesn't need to be told that but at 36, does he have that patience to accept that now if he scores a hundred, it will be off 200 balls and not 140 like earlier times? Can he bid those extra 60 balls?" Gandhi questioned. Sachin Tendulkar's epic 241 in the 2004 New Year's Test in Sydney is often cited as a prime example of patience. He didn't hit a single cover drive until he scored his double hundred. "It's about controlling the mind. You can be a sounding board for players like Tendulkar and Kohli but at this stage, you can't coach them. Coaching happens at junior level," Gandhi added. But can a Gambhir or Nayar help Kohli find a solution? "Of course, at some point, honest conversations are necessary. But first, they should ask him what his corrective options are and then offer their own if they have something different to contribute," Gandhi concluded.
