thoroughly understand the surrounding these allegations and determine the appropriate steps to be taken," IOC said. The state-owned firm said it

has "always upheld and is steadfastly committed to maintaining the highest standards of governance, transparency and regulatory compliance across jurisdictions of its operations".
"We assure our stakeholders, partners and employees that we are a law-abiding company, fully compliant with all laws," India's largest oil firm said in the filing.

"The Pioneer on December 16 reported that the US Department of Justice's order dated September 28, 2023 says Albemarle Corporation bagged big contracts in Indian Corporation and companies in Indonesia and Vietnam by corrupt practices and bribing of more than 63.5 million dollars. Albemarle is

supplying refining solutions to more than 700 refineries across the world and dealing with Indian Oil Corporation (IOC) from 2009 to 2017. The 46 page order says Albermale

started paying bribes to IOC

officials to get it removed from the "Holiday List" in

2009.

"Albemarle approximately \$1.14 Million in commission to India intermediary company Indian Oil relating to Corporation business and obtained approximately \$11.14 million in profits on that business between 2009 and approximately said the Order. 2011," Albemarle was caught for bribery by US authorities in 2017 for 63.5 Million Dollars

Railways, UAE and Turkey to bag contract.

The SEC order detailing The SEC order bribery in HAL says in Moog November 2021, Moog bagged \$ 1,399,328 valued contract for parts and services related to the April 2021 contract tender. Investigation found that 2.5% commission was received as a bribe by "a HAL official." As per the eight page order, Moog Inc paid more than 5,00,000 Dollars as bribe for getting contracts in HAL and Railways.

The September 27, 2022 dated Order of Securities and Exchange Commission says that the IT giant Oracle Corporation was engaged in corrupt practices and bribery in India, UAE and Turkey. "In 2019, Oracle India sales employees also used an excessive discount scheme in connection with transportation company, a majority of which was owned by the Indian Ministry of Railways... One of the sales employees involved in the transaction maintained a spreadsheet that indicated \$67,000 was the "buffer' available to potentially make payments to a specific Indian SOE (State Owned Entity) official.

"A total of approximately \$330,000 was funneled to an entity with a reputation for paying SOE officials and another \$62,000 was paid to an entity controlled by the sales employees," states the 10page order of Securities and Exchange Commission imposing hefty fine of Rs.23 Million Dollars on Oracle, caught for bribery amount of 6.8 Million Dollars

AAP opens registration for women, seniors aid

STAFF REPORTER ■ NEW DELHI

 $S_{\text{fever and in a bid to retain}}^{\text{tepping up the election}}$ its core voter groups ahead of high-octane Delhi assembly elections, AAP Convenor Arvind Kejriwal on Sunday announced that the registration for the 'Mukhya Mantri Mahila Samman Yojana', which will provide monthly assistance of Rs 1,000 to women in the city, and 'Sanjeevani Yojana', which will provide seniors over 60 access to free medical treatment at both private and government hospitals, will begin from Monday. In its 2024-25 budget, the

Delhi government had announced this scheme to provide Rs 1,000 per month to all women aged above 18. However, Kejriwal recently announced that the amount would be raised to Rs 2,100 if his party returns to power in the assembly elections, slated for February next year.

Further, countering narrative around not Center's implementing Center's 'Ayushman Bharat Yojana' in Delhi, the ruling party announced 'Sanieevani Yojana' as a healthcare

initiative aimed at providing comprehensive medical care to senior citizens. program will offer free medical treatment at both government and private hospitals to all Delhi residents aged 60 years and above who possess a Delhi voter ID. With no income-based restrictions, the scheme is designed to benefit over 25 lakh senior citizens.

Addressing a press conference, the former Chief Minister stated, "Ever since we have announced this scheme we are getting numerous phone calls regarding the commencement of registration process for this scheme. Today, announcing that registration will begin from tomorrow itself."

"You don't need to stand in any queues or waste your time. We will come to your doorstep. Across every area of Delhi, AAP has created thousands of teams. These teams will come to your home and will do registration of all the women of the house and give them a registration card (Kejriwal Kavach Card). For your convenience we are sending our teams door to door," he

Over 100 students from **UP** stranded in jungle in dark

PTI ■ BAHRAICH (UP)

Over 100 students and school staff accompanying them were left stranded for hours in the evening in the dense Katarniaghat forests in Uttar Pradesh while returning from an educational tour, officials said on Sunday.

The children, aged 14-18, were forced to endure harsh cold during their stay under the open sky without food, water or appropriate clothing for the temperatures after school authorities defied warnings by locals to halt their journey at a safe place, they

There were 155 people in total, 130 of them children, they added. According to the district administration, the group from Gonda district had been on an educational tour organised by the New Standard Training Institute in Dhanepur.

According to local social worker Jang Hindustani, the group first attempted to cross the Rupaidiha border to Nepal but was stopped because of border regulations. After being denied entry into Nepal, the managers redirected the buses towards Katarniaghat Wildlife Sanctuary, known for its dense forests and dangerous wildlife, including leopards, tigers, and

elephants The buses traversed five forest checkpoints before reaching Amba village, deep inside the sanctuary

Tirumala eyes Al chatbot for pilgrim services

PTI ■ TIRUPATI (ANDHRA PRADESH)

The Tirumala Tirupati
Devasthanams is considering automation and the introduction of an Artificial Intelligence chatbot to "enhance transparency and efficiency in pilgrim services" at the Sri Venkateswara Temple, an official said on Sunday.

TTD Executive Officer J Syamala Rao stated that the temple administration is exploring "futuristic Annamaiah

technologies" to expedite accommodation, darshan, and other services while improving overall transparency and efficiency. "To accelerate accommodation, darshan, and other services for the multitude of visiting pilgrims and to enhance transparency and efficiency, TTD is considering automation instead of manual operations. We are also exploring the introduction of an AI chatbot for pilgrim services," Rao said while addressing reporters at Annamaiah Bhavan in

Tirumala. According to the EO, TTD's ultimate goal is to "enrich the pilgrim experience while leveraging technology", all the safeguarding while spiritual and cultural sanctity" of Tirumala for future generations.

Rao further noted that the temple administration is aligning with Chief Minister N Chandrababu Naidu's vision of blending "traditional aesthetics with modern functionality" in Tirumala's development.

Delhi's Republic Day tableau rejected, AAP slams exclusion

PIONEER NEWS SERVICE NEW DELHI/CHANDIGARH

n a surprise move, the

proposal for Delhi's tableau for the Republic Day parade has been rejected by the expert committee. committee, which responsible for selecting the tableaux for the parade, found Delhi's proposal lacking in theme, concept, design, and visual impact. According to sources, the expert committee had shortlisted 15 States and Union Territories for the parade, but Delhi's proposal failed to impress the committee. The other two union territories, Andaman and Nicobar Islands and Lakshadweep, also failed to

make the cut. On the other hand, Punjab and West Bengal, which were absent from last year's parade, have made a comeback this year. The Aam Aadmi Party (AAP) had made a big issue out of Punjab and Delhi's

exclusion from the parade last year, and it remains to be seen how the party will react to Delhi's exclusion this year. The Republic Day parade, which is held every year on January 26, is a showcase of India's cultural diversity and military might. The parade features tableaux from various states and union territories, which depict their unique culture, history, and achievements. This year, 15 states and union

territories will participate in the parade, including Bihar, Chandigarh, Dadra and Nagar Haveli, Goa, Jharkhand, Karnataka, Madhya Pradesh, Andhra Pradesh, Gujarat, Haryana, Uttar Pradesh, and West Bengal.

The expert committee, which is headed by a senior defense ministry official, had evaluated the proposals from various states and union territories based on their theme, concept, design, and visual impact.

Raje's carcade crashes in Rajasthan's Pali

PNS ■ JAIPUR

Three policemen sustained I minor injuries when a vehicle of former chief minister Vasundhara Raje's carcade overturned in an ttempt motorcycle in Rajasthan's Pali district on Sunday, police said. The accident occurred while Raje was on her way to meet former minister Otaram to express her

condolence over his mother's death. "Seven policemen were travelling in the car. Some of them have sustained minor iniuries," Pali SP Chuna Ram Iat said.

Raje left for Mundara village of Pali district by road. A police car which was escorting her between Bali and Kot Baliyan overturned while trying to save a bike rider. A BIP leader said that his car was behind the car which overturned thrice. He said he immediately got down and helped in sending the injured policemen to hospital.

A day to remember for **Indian womens' cricket**

PTI ■ KUALA LUMPUR/ VADODARA

Opener G Trisha made a doughty fifty before the left-arm troika of Ayushi Shukla, Sonam Yadav and Parunika Sisodia spun web around Bangladesh batters as India scored a 41-run win to emerge champions in the inaugural Women's T20 U19 Asia Cup here on Sunday.

Back home in Vadodara in Gujarat, stylish opener Smriti Mandhana extended her purple patch with a classy 91 off 102 balls, propelling India to 314/9 in the first Women's ODI against the West Indies, here Sunday.

On a spongy pitch, Trisha's 52 off 47 balls (5x4, 2x6) guided India to 117 for seven, but Indian spinners cut through the Bangladesh line-up to bundle them out for 76 in 18.3 overs. The biggest partnership in Indian innings, in fact in the match itself, was between Trisha and her skipper Nikki Prasad - a 41-run alliance for the fourth wicket.

India batters struggled against pacer Farjana Easmin, who took four wickets. Despite that, India were restricted to a belowpar total, and Bangladesh seemed well on track for a win once they reached 44 for two in the seventh over. However, Ayushi (3/17), Sonam (2/13) and Parunika (2/12) took over from that point as Bangladesh lost remaining eight wickets for a mere 32 runs.

Brief scores were shared as India's 117/7 in 20 overs (G Trisha 52; Farjana Easmin 4/32) while Bangladesh's 76 all out in 18.3 overs (Juairiya Ferdous 22; Ayushi Shukla 3/17, Sonam Yaday 2/13, Parunika Sisodia 2/12).

Mandhana, who recorded a 50-plus score for the fifth time in as many innings, got the bulk of the runs in her 110-run stand alongside debutant Pratika Rawal (40 off 69). The launch pad was provided

by Mandhana for the middleorder to go big and that is what the likes of Harmanpreet Kaur (34 off 23), Harleen Deol (44 off 50), Richa Ghosh (26 off 12) and Jemimah Rodrigues (31 off 19) did to take India past 300.

After dropping hard-hitting Shafali Verma, India have tried multiple batters to open alongside Mandhana and on Sunday it was the turn of Delhi cricketer Pratika, who batted at a strike rate of 57.97. The 24-year-old was also dropped at mid-off when she was batting on three in the 10th over. Her four boundaries came on the leg-side as she employed the sweep multiple times.

Mandhana, at the other end,

entertained the crowd with trademark including a cover drive and pull. India changed gears after the arrival of fit-again skipper Harmanpreet who struck at close to 150 to give the innings a timely move on. The momentum was carried by Richa and Rodrigues who has been in top form of late. For the West Indies, the pick of the bowlers was left-arm spinner Zaida James who took five wickets for 45 runs in eight overs. India could have got a lot more in the death overs but the last three overs only yielded 20 runs with James picking three

wickets in the final over.

Loan scam kingpin Bilal Lone caught in Delhi, targeted CRPF

SAUMYA SHUKLA NEW DELHI

 $F^{or \ years, \ 33 \ year \ old \ Bilal}_{Ahmad \ Lone \ spun \ a \ web}$ of deception, targeting those who dedicate their lives to the nation's security-paramilitary officers stationed in the sensitive regions of Jammu & Kashmir.

Armed with false promises of easy bank loans, Lone convinced these men to trust him, only to betray them with forged documents and fake deals. However, his endeavor came to an end when Delhi Police's Crime Branch, in a carefully orchestrated operation, tracked him down in the bustling streets of Jama

Masjid on Saturday. The police recovered seven Debit Cards of ICICI Bank

Reserves Police Force (CRPF) Personals from possession, along with a Lenovo laptop used to create fake documents, Realme phone used communication, forged stamps, including those purported to be from the J&K Bank and other official agencies and fake documents and cheque books belonging to different banks.

A 'Detention Order' was also issued against him by the District Magistrate Anantnag in Jammu & Kashmir in an order dated December 13 and the same has also been approved by Government of Jammu & Kashmir (Home Department),

December 17. Lone, ing from Kupwara, hailing Jammu & Kashmir, through his schemes defrauded many officers, exploiting them to obtain loans in their names before disappearing with the money.

He presented himself as a loan facilitator and preyed on paramilitary personnel who either were looking to buy vehicles or secure personal loans. His fraudulent activities spanned several years, with 14 cases of cheating registered against him in various police stations across Jammu & Kashmir.

The Crime Branch received intelligence from Anantnag police in Jammu & Kashmir about Lone's possible whereabouts in Delhi. "On the

Secretariat, Jammu/Srinagar basis of technical surveillance and two days hard ground work by the team, the location of above criminal was found to be in the area of Jama Masjid, Delhi. Accordingly, on December 21, the above team laid a trap at and around Jama Masjid Area and launched an operation to trace him out," Deputy Commissioner of Police (Crime) Vikram Singh said. After an intensive manhunt, the team finally succeeded to

locate him and apprehended near Jama Masjid. "Initially, he resisted and tried to create a scene but he was explained about the operation and detention order issued against by the District him Magistrate, Anantnag, Jammu & Kashmir.

NIT: Global experts converge to tackle industrial challenges

Department of Mechanical Engineering, NIT Jamshedpur organised a International Conference (3rd International and 15th National conference on Industrial Problems on Machine and Mechanisms (IPRoMM-2024) during 19 – 21 December 2024. It was started on 19th December with the Industrial Visit to TATA Steel, TATA Motor and RSB Global. The Industrial visit was a lifetime achievement for many participants as they witnessed molten steel coming out from a blast furnace, testing of trucks on difconditions (testing tracks), and precision testing facilities and development of products at RSB to name a few. The delegates were also honoured with a memento by the company they visited. The delegates gave a 5-star rating of this visit including excellent hospitality. Prof. Shalendra Kumar,

Chairman, welcomed attendees, while Prof. Sandipan Bandyopadhyay, President of Association of Machines & Mechanisms and Dr. Rakesh Bhargava, Guest

of Honor, delivered addresses Prof. Chitranjan Sahay, another Guest of Honor, and Prof. R. V. Sharma, Deputy Director of NIT Jamshedpur, shared their perspectives

Inauguration ceremony, Chief Guest Probal Ghosh, Vice-President at Tata Steel, also addressed the gathering. Prof. Sanjay, HoD and Organizing Chairman, expressed gratitude to the institute Director Dr Goutam Sutradhar for his support and encouragement in the vote of

The prestigious conference brought together global experts, academicians, and industry leaders to discuss advancements and challenges in mechanical and industrial engineering.

The three-day conference featured keynote addresses from renowned speakers, providing a comprehensive perspective on pressing industrial topics.

Bokaro, December 22, 2024: The Director (Personnel) of Steel Authority of India Limited (SAIL), K.K. Singh, concluded a two-day visit to Bokaro Steel Plant (BSL) . During the visit, several key initiatives were launched, and stakeholder engagements helped chart a progressive path for the organization.

The visit, spanning December 20-21, 2024, began with the launch and successful "Go-live" of the Human Capital Management (HCM)

been tasked with coordinating

directly with church authori-

ties regarding service timings

system at BSL. Following this, discussions were held with representatives of various trade unions and stakeholders to deliberate on collaborative strategies

second day, On the December 21, the day started with sapling plantation at JNB Park alongside BSL's Director In-Charge, B.K. Tiwari. This was followed by a visit to Temple for Jagannath prayers. At the Bokaro Nivas Lawn area, the integrated registration for the Bokaro Half Marathon 2025 was promoting inaugurated,

and performance. Reinforcing the commitment to workplace safety, the Training Equipment Area at the Pragyan Kendra CCBC in Sector 9 was inaugurated. Later in the day, detailed

discussions with senior officials of the BSL Human Resources department focused on aligning HR policies with the organization's long-term goals. The meeting included BSL's Director In-Charge, Executive Directors. Chief General Managers, and other senior officers.

Throughout the visit, a strong emphasis was placed on SAIL's dedication to innovation, employee welfare, and excellence in HR management. The engagements and initiatives highlighted the organization's commitment to fostering growth sustainability.

Server down' comes as setback to Ayushman Card preparation

PNS : DALTONGANJ

It was a setback to the all out effort of the Palamu judgeship under the aegis of the district legal services authority to get ready Ayushman Cards for the inmates of the central jail here in Daltonganj server went down.

The principal district and sessions judge Niraj Kumar Srivastav who is the chairman of the district legal services authority here and the chief judicial magistrate Ananda Singh waited for around 2 hours in the hope of server getting functioning but

The jail officials had well prepared a list of 31 inmates of the central jail here desirous of having Ayushman Card with details relevant and required for making Ayushman Card but for the server down nothing tangible

The Ayushman Mitra tried hard but in vain. The principal district and sessions judge Niraj Kumar Srivastav was too concerned about it.

could come out.

He reached the table where was Ayushman Mitra Ranjan Singh using all his wits to make out one Ayushman Card for the inmate but in vain.

A highly concerned principal district and sessions judge asked to try it tomorrow and other days too depending on the availability and functioning of the server. He made it clear the Ayushman Card work in the central jail is to take off by all means.

The chief judicial magistrate Ananda Singh got in touch with the civil surgeon in regard to this glitch in the server here today communicating to him that the princi-

pal district and sessions judge s too keen to have Ayushman Card for the inmates of the central jail said sources.

The principal district and sessions judge made it clear that Ayushman Mitra would be doing this job here in the central jail without any dislocation to this job in the MMCH Daltonganj where visitors come in great numbers for the Ayushman Card.

Central jail superintendent Bhagirath Karjee and jailer Pramode Kumar were bitterly disappointed today following this issue with the server. The duo said the team had spent hours of days for a smooth take off of the preparation for Ayushman Card but

the server let down everyone. Principal district and ses-

sions judge Niraj Kumar Srivastav who always sees hope in the midst of despair said "It didn't work out today. But other way outs are coming up. We will keep striving

The Ayushman Mitra convinced the principal district and sessions judge that some ways could be explored for inmates Ayushman Card without the biometric featuring but essentially with Aadhar Card and Ration Card matching of

the name of the inmate. A camp for Aadhar Card is to be held in the central jail here where issues plaguing Aadhar Card like wrong name, mis spelling, wrong date of birth etc are quite

changed, and officials must abandon their outdated practices or face severe consequences

Veteran journalist inspires with life lessons at Press Club lecture series

PNS: JAMSHEDPUR

Club Press Jamshedpur hosted the inaugural session of its lecture series at Sakchi, featuring veteran journalist and writer Anuj Kumar Sinha. In a thought-provoking address, Sinha shared insights from his 40-year journalistic journey, emphasizing that the end of one phase in life often marks beginning of another, much like the transition from "Pushpa One" to "Pushpa

Sinha, set to retire from Prabhat Khabar on December 31, described his upcoming retirement as the start of a new chapter. "As long as the breath flows and the mind, eyes, and hands function, the journalist and writer within me will remain alive," he affirmed, encouraging his peers to embrace transitions with renewed vigor and pur-

Highlighting the importance of preserving history, Sinha stressed the need for documenting the achievements of individuals and organizations that have contributed meaningfully to society. He noted that while Jharkhand played a pivotal role in India's independence, much of its history was overshadowed by documentation in Bihar. He credited Prabhat Khabar for shedding light on significant events, including Mahatma tours, Shibu Soren's anti-usury movement, and the unnamed heroes of the Jharkhand Nirman move-

Sinha lauded the cosmopolitan culture Jamshedpur, calling it unparalleled. "Those who leave Jamshedpur always long to return," he said, reflecting the city's deep emotional connection with its residents.

Addressing his journalist peers, Sinha underscored the importance of ethical integrity in their profession. "Personal friendships should never interfere with professional duties," he advised. Drawing from his experiences, he recounted moments like the BDO Naxalite kidnapping and the tragic accident of journalist Sanjay Ojha, emphasizing the role of journalists in saving lives and driving meaning-

The event began with

Press Club General Secretary Vikas Kumar Srivastava presenting a biography of Sinha, followed by a warm welcome from Prabhat Khabar's senior editor Sanjay Mishra. Former Health Minister Dr. Dinesh Sarangi highlighted Sinha's attachment Jharkhand, while Press Club President Sanjeev Bhardwaj

expressed gratitude in his

vote of thanks.

The lecture was attended by prominent figures, includ-ing former MP Shailendra Mahato, BJP State Spokesperson Amarpreet Singh Kale, Jharkhand State Amarpreet Bar Council Vice President Rajesh Kumar Shukla, and representatives from various social organizations. Social worker Dr. Vinni Sarangi, Advocate Sudhir Kumar Pappu, and several journalists were also present in large numbers, making the event a memorable gathering of intellectuals and changemakers.

Christmas frenzy sweeps Steel City with festive joy and tight security

PNS: JAMSHEDPUR

The Steel City is alive with the spirit of Christmas as residents prepare to celebrate the birth of Jesus Christ with joy and fervor. Streets are adorned with festive lights, churches are bustling with activity, and security measures have been ramped up to ensure peaceful celebrations on December 25.

The city's traffic police have imposed restrictions on heavy vehicles, barring their entry from 6:00 am to 11:00 pm on Christmas Day to ease traffic congestion and ensure smooth movement. Police officials have also been directed to maintain heightened vigilance near churches and other

public gathering spots.
An estimated 300 police personnel, including officers plain clothes, will be deployed across the city, particularly near major churches. Local police stations have to streamline security arrangements. "Our focus is on ensuring a safe and joyous Christmas for everyone. All traffic police outposts, including those in Bistupur, Sakchi, grandeur at various churches, Golmuri, Mango, and Jugsalai, including St. Mary's Church in are on alert to check reckless Bistupur, Church, and St. Anthony's driving and other violations, said a senior traffic official. Church in Pursudih. Churches across Jamshedpur are gearing up to welcome thousands of worshippers for Christmas services. Early morning services, starting from 8:00 am, are expected to draw large crowds at prominent churches like Beldih Baptist Church and St.

A grand ceremony is proposed to be organized at the Army Ground located in Namkum on December 28

PNS: RANCHI

ood news for the women of Jharkhand, the process of getting an amount of Rs 2500 under the Mainiya Samman Yojana is going to start. According to the information, a grand ceremony is proposed to be organized at the Army Ground located at Kutiyati Chowk in Namkum on December 28, for which the department has started preparing. About five lakh women are expected to this According to the information, women from far-flung districts like Sahibganj, Dumka of Santhal Pargana division will also come to attend this program. Proper arrangements are also being made for their stay. In this program, Chief Minister Hemant Soren will give an installment of Rs 2500 Mainiya Samman amount to the accounts of 55

lakh women of the state.

This scheme helps to make self-reliant and empower them economically. This will improve the social status of women in rural areas. The rural economy will also be strengthened by the money coming into the hands

Riding on poll promises of giving Rs 2500 in the account of women, Hemant Soren led JMM/ Congress alliance government came in power. However, the immediate task at hand for Hemant and his cabinet will be to roll out the revised monthly stipend of Rs 2,500 to nearly 50 lakh women beneficiaries of the state under the ongoing Mukhyamantri Samman Yojana — a poll assurance the govt made soon after BJP said it would also a similar scheme titled, 'Go go Didi Yojana'.

decision has already been

approved by the cabinet before the model code of conduct kicked in. The revised monthly stipend will be disbursed from next month onwards," JMM general secretary-cum-national spokesperson Bhattacharya said.

To meet financial requirement, the State government has even demanded Rs 1.36 lakh crore dues from Centre. The Jharkhand government has reportedly initiated legal proceedings to recover the Rs 1.36 lakh crore in coal royalties from the Centre. Jharkhand Chief Minister

Hemant Soren today reiterated that the demands for Central dues raised by the State government were genuine and that the government would definitely reclaim its money, as it is the right of every resident of Jharkhand.

In response to allegations by BJP State president Babulal Marandi, who claimed that the JMM was making baseless and misleading allegations about Rs 1.36 lakh crore in arrears from the Central government, Soren asserted that the demand was not baseless

Marandi had stated that if the JMM had any concrete evidence regarding the figure of Rs 1.36 lakh crore in Central dues, they should present it to the public with complete documents and facts. Notably, the Central government has clarified in the Lok Sabha that there are no dues owed to Jharkhand, particularly regarding the demand for Rs 1.36 lakh

crore in royalty.

The JMM had also made this a major issue during the Assembly elections. Large hoardings were put up across the state, demanding the Rs 1.36 lakh crore from the

promise of expediting JPSC and JSSC recruitment faces another challenge - that of harmonising it with another key poll promise, which is the implementation of a domicile policy based on 1932 records. The issue of domicile has gained new urgency with the Bharatiya Janata Party (BJP) alleging that the tribal character of the State was being altered by the influx of foreigners. Changes in domicile law will require the approval of the Centre too, and the JMM has accused the BJP of stalling them. Mr. Soren will have to work with the Centre on this as well as on many other governance issues in the State. Prime Minister Narendra Modi has promised to support the State's aspirations but the BJP's political calculations may hinder Mr.

Apart from meeting the

financial requirement, the

CBI celebrates Foundation Day

PNS: RANCHI

Central Bank of India (CBI) Regional Office Ranchi celebrated the 114th Foundation Day of the Bank.

The program was started by Regional Head Sunil Kumar by garlanding the portrait of the founder late Sir Pochkhanawala. Addressing the guests present on the occasion, Mr. Kumar said that Central Bank of India is the first indigenous bank of the country. The foundation of Central Bank of India was laid by Sir Sorabji Pochkhanawala December 1911.

Kumar said that at present it has about 5000 branches all over India. "Through these branches, the bank is spreading its services to the remote areas and the poorest population. Various public utility and attractive products of deposit and loan are benefiting the people," he said. While discussing the glorious history of Central Bank, the Regional Chief said that during the British rule, Shri Sorabji had laid the foundation stone of this bank to connect the Indian citizens deprived of banking services with bank-

the bank is operating about 75 percent of its branches in rural and semi-urban areas. On the occasion of Foundation Day, the Sukhdev

Nagar branch of the local Central Bank of India was inaugurated in a new building by Kumar by cutting the ribbon. In this sequence, while presenting certificates to the branch managers who have shown excellent performance in various banking parameters in the current financial year among the 47 branches under Ranchi region, Shri Kumar called upon all the branches to successfully fulfill

the responsibility of taking the bank towards progress by working in this manner continuously.

the occasion of 0n Foundation Day, a loan of about 52 crores was sanctioned by the branches under the regional office.

Various types of colorful programs were organized in the program and people celebrated the Foundation Day enthusiastically

songs and music. The officers and employees of the Regional Office Ranchi played an important role in the successful conduct of the programme.

No shivering cold on Christmas this year

This time there will be no shivering cold on Christmas in Jharkhand. On this day, the maximum temperature of Ranchi will be around 25 degrees and the minimum temperature will be around 12 degrees Celsius. The reason behind this is

The Meteorological Center Ranchi has given clear indications that there will be no change in the minimum temperature in the next four-five days. On Saturday, the mood of the weather of Jharkhand seemed changed. It was cloudy. There was also light drizzle in some parts including East Singhbhum. Due to cloud cover, the minimum temperature increased by 4.7 degrees Celsius. The minimum has gone above 10 degrees in all

The Meteorological Center has said in the forecast that there will be no change in the minimum temperature in the next fourfive days. The temperature of the capital Ranchi has risen in the

This change in temperature has been up to 5 degrees. Where the minimum temperature was 7.9 degrees Celsius on December 16, it became 12.8 degrees Celsius on December 21. Due to the low pressure area formed in the Bay of Bengal, light rain has occurred at some places in the Kolhan division.

The Meteorological Department has said in its forecast that there may be dense fog in some places in the north-eastern, central and southern parts of Jharkhand in the morning. For this, the Meteorological Department has issued a yellow alert.

There may be dense fog in some places in the morning in Deoghar, Dhanbad, Dumka, Giridih, Godda, Jamtara, Pakur Sahibganj, East Singhbhum, West Singhbhum, Saraikela-Kharsawan, Simdega Ranchi, Bokaro, Hazaribagh, Ramgarh, Khunti, Gumla districts. For this, the Meteorological Department has issued a warning.

Positive change possible with one Nation, one election: Dr. Abhishek Singh

PNS: RANCHI

These days the issue of One Nation, One Election is hot in the political corridors of the

Recently, the bill related to One Nation, One Election was approved in the Union Cabinet. Thereafter, it was introduced in the Lok Sabha by Union Law Minister Arjun Ram Meghwal. With this, the issue of one nation, one election remains a topic of discus-

I believe that conducting Lok Sabha and Assembly elections simultaneously will strengthen democratic institutions. The pace of development in the country will accel-

The committee headed by former President Ram Nath Kovind had given suggestions in March 2024 itself. By approving it and presenting it in Parliament, the Union Cabinet has made its intention clear that the government has taken a step forward towards implementing the system of one nation one election. One Nation, One Election will not only help in effective implementation of government policies, but will also help in furthering reforms related to various ystems. One nation, one election will bring about a change in the current politics.

The system of one nation, one election will also give voters an opportunity to reach a consensus with the state government on national issues. Apart from this, governments will be able to work on longterm plans easily. This will strengthen the economy. At the same time, democracy will also be strengthened. With the Lok Sabha and state assembly elections being held simultaneously, the work will

be less affected by the code of conduct implemented from time to time. It will be easy to formulate policies and take decisions in the state and national interest. This will also curb the cases of MLAs and MPs luring voters by giving them incentives. The tendency of leaders to change parties frequently will also

One nation, one election in India means that along with the lower house of Parliament i.e. Lok Sabha elections, assembly elections of all states should also be held. Along with this, elections of local bodies i.e. Municipal Corporation, Municipal Council, Nagar Panchayat and Gram Panchayat should also be held simultaneously One nation, one election in

India means that along with the Lok Sabha elections, the house Parliament, the assembly elections of all the states should also be held.

This is not a new thing for Indian democracy. Since independence, the emphasis has been on holding simultaneous elections in the country.

of the years 1952, 1957, 1962 and 1967 are examples of this. At the same time, after the year 1968, some states new states also came into existence. Apart from this, many times the political circumstances became such that the Lok Sabha also had to be dissolved.

Due to this, the cycle of simultaneous elections was broken. The process of dissolving the assemblies from the year 1968 changed the entire situation. After this, the elections of Lok Sabha and Assembly started being held separately. As a result, there was an unexpected increase in the government and nongovernment expenditure on elections. Many problems started arising due to separate elections.

However, after the Modi government came to power at the center, the discussion on one nation, one election started from the year 2014. In the year 2017, the niti Aayog also agreed to this and while addressing the joint session of Parliament in the year 2018, the then President Ram Nath Kovind also called it the right step. In September 2023, a six-member committee was constituted under the chairmanship of former President Ram Nath Kovind. This committee submitted its report to
President Draupadi Murmu in President Draupadi Murmu in March 2024

With this step of the central government, it is being speculated that the elections of the year 2029 will be held under the new system i.e. one nation, one election. The Election Commission also seems mentally prepared for One Nation One Election. However, the Election Commission and the governments will have to work hard to implement this new system. But once this process starts, it will be considered a good sign for democracy.

Overwhelming response to the Second Edition of Jam@Street

PNS: JAMSHEDPUR

The much-anticipated second edition of Jam@Street was successfully held at the Tata Motors Township (Telco Area) today, attracting over 25,000 enthusiastic participants from across the city. Organized by Tata Steel UISL in collaboration with Tata Motors and Tata Cummins, the event transformed the stretch from Labour Bureau

Roundabout to the Dealers Hostel into a vibrant hub of fun, fitness, and celebration. The event was graced by the special presence of Chanakya Chaudhary, Vice President, Corporate Services, Tata Steel; Ritu Raj Sinha, Managing Director, Tata Steel UISL; Sunil Tiwary, Plant Head, Tata Motors; and Ramphal Nehra, Plant Head, Tata Cummins. Their encouragement and active participation added to the excitement of the day. Also, Ananya Mittal, DC, Jamshedpur along with her wife attended the event and enjoyed and honoured the program. Jam@Street offered a plethora of activities, ensuring something for everyone.

Fitness enthusiasts enjoyed Zumba workouts and badminton sessions, while families indulged in delicious healthy food and live musical performances. Other highlights included basketball and demonstrations, adventure sports, painting sessions, temporary tattoo booths, and the ever-energetic Jumba dance sessions.

The event underscored the spirit of community and brought together people from all walks of life, creating a shared space for recreation and bonding. Participation in Jam@Street was free, further emphasizing inclusivity and the organizers' commitment to fostering community spirit.

'Gaatha' annual function cum prize distribution at SCS

PNS : RANCHI

Surendranath Centenary School celebrated its Annual Function cum themed Distribution. 'Gaatha', with great fervor and enthusiasm, marking 36 glorious years of academic excellence. The event was graced by Prof. (Dr.) Gopal Pathak, Director General, Sarala Birla University, as Chief Guest, and Dr. Neelima Pathak, Dean, Faculty of Humanities & Linguistics, as Guest of Honour.

The programme commenced with the lighting of the lamp followed by the Annual Report which was read by the Principal Madam Samita Sinha, highlighting the school's achievements and progress for the session 2023-

The thematic show featured a mesmerizing welcome dance and song, followed by a vibrant dance performance "Mile Sur Mera Tumhara" by students of KG to II. The main attraction of the evening was the colourful dance drama "Ahilyabai - Itihaas Ke Panno Se", which brought to life the inspiring story of the brave visionary Ahilyabai Holkar, showcasing the talent and creativity of students from Class III to XII.

The "Music Fiesta" and "Zorba", a Greek dance form, were notable highlights. The instrumental music performance "Yaadein" was a treat for the audience.

The prize distribution ceremony recognized students for their academic excellence. co-curricular achievements. and special talents. Notable awardees of session 2023-24 included Ananya Rai, the Science Topper for the "Ranadeb Chaudhuri Award", Samridhi Kumari, Commerce Topper for the "Mira Chaudhuri Award", and Suprita Kumari of class X for

the "Amala Goswami Award". The event also witnessed the release of the school magazine "Expressions". Leopard House bagged the Champion House trophy for their outstanding performance throughout the year.

Distinguished including Abhay Kumar Singh, Principal, Army Public School, and Paromita Saha, Principal, Loyola Convent School, also graced the occasion. In his address, the Chief Guest emphasized the importance of taking immediate steps to control climate change and applauded the teachers, "the stakeholders", for their immense contribution to the school's growth.

The event concluded, leaving behind memories of a spectacular evening that celebrated the school's commit-

Criminals set fire to three trucks

PNS: RANCHI

In the early hours of Sunday, criminals set fire to 3 coal-laden trucks to spread panic in the Khalari area of the capital. This

incident took place near Nirmal Mahato Chowk at around 4 am. The criminals stopped the vehicles by firing, pulled out the drivers and cleaners and beat them up. After this, one by one, all the three trucks were set on fire.

In the early hours of Sunday, criminals set fire to 3 coalladen trucks to spread panic in the Khalari area of the capital. This incident took place near Nirmal Mahato Chowk at around 4 am. The criminals stopped the vehicles by firing, pulled out the drivers and cleaners and beat them up. After this, one by one, all the three trucks were set on fire.

Police station in-charge Vijay Kumar Singh said that it is being investigated whether this incident has been done by the Naxalites or is the work of some other criminal gang. The police have started a search operation in the area and efforts are on

Meanwhile, the growing strength of the security forces in Jharkhand is reducing the support base of the CPI (Maoist). During the last seven years, the Maoists have suffered a huge loss in Jharkhand in the encounter with the security forces. During this period, 109 top Maoists were killed. On the other hand, the security forces have also suffered losses in this incident. During this period, 41 soldiers have been martyred.

Due to the deployment of security forces and intelligence gathering in Jharkhand, the Maoist problem has been limited to a few districts. Whereas a decade ago the issue of Maoists was the biggest concern for the police and security agencies.

Jharkhand has been included amongst the top five states of the country in the National Eco- Creativity and Innovation Hackathon organised at NDMC Convention Centre, New Delhi. It was organized by the

Ministry of Environment, Forest and Climate Change (MoEFCC), Government of India in collaboration with Amazon Future Engineers and P Jam Foundation. More than 4 lakh student from across the country participated in this Eco-Creativity and Innovation Hackathon and presented more than 1.9 lakh innovative ideas, highlighting solutions for environmental sustainability, conservation and climate

Misleading advertisements: CCPA imposes ₹ 2 lakh penalty on Shubhra Ranjan IAS Study

PNS NEW DELHI

The Central Consumer 1 Protection Authority (CCPA) has imposed a penalty of Rs 2 lakh for misleading advertisements on Shubhra Ranjan IAS Study. The decision was taken to protect and promote the rights of consumers as a class and ensure that no false or misleading advertisement is made of any goods or services which contravenes the provisions of the Consumer Protection Act,

In view of the violation of the Consumer Protection Act, 2019, the CCPA, headed by Chief Commissioner, Nidhi Khare, and Commissioner Anupam Mishra has issued an Order against Shubhra Ranjan IAS Study for misleading advertisement regarding UPSC Civil Service Exam

Coaching Institutes and

online edtech platforms use pictures and names of successful candidates to influence prospective aspirants (consumers), without disclosing the courses opted by such candidates or the fees paid by them & length of the course so attended.

The institute's ads claimed "13 students in the top 100", "28 students in the top 200", and 39 students in the top 300" in the UPSC CSE 2023, and prominently displayed successful candidates' names and photos, an official statement

The CCPA found that Shubhra Ranjan IAS Study Institute concealed important information about the courses taken by students it claimed had cleared the prestigious Indian Civil Services Exam (CSE) in its advertise-

Shubhra Ranjan IAS Study prominently displayed suc-

cessful candidate's names & pictures and simultaneously advertised various types of courses provided by them on its official website. However,

the information with respect to the course opted by the said successful candidates in UPSC Civil Service exam

abovementioned advertise-

The institute used terms like "Shubhra Ranjan IAS" and

IAS" in its advertisements and letterheads, creating a deceptive impression that Shubra Ranjan is/was an IAS officer, it added.

"Institute used terms such as Shubhra Ranjan IAS" and 'Students of Shubhra Ranjan IAS" in its advertisements and letterheads, creating a deceptive impression that Mrs. Shubhra Ranjan is/was an IAS officer. This constitutes a misrepresentation and unfair trade practice under Consumer Protection Act 2019, thereby misleading the public and potential students into believing that the services or guidance provided by them are directly associated with the credibility of an IAS officer. The Institute submitted that it was a clerical mistake, which is not tenable as the term Shubhra Ranjan IAS or @shubhraranjanias has been frequently used on its letterheads and in its advertise-

ments. Institute utilized deceptive practices to create a perception of exceptional quality and success. An advertisement should be truthful & honest representation of facts by making disclosures in such a manner that they are clear, prominent and extremely hard to miss for viewers to notice," the CCPA said.

The consumer regulator said the advertisements violated provisions of the Consumer Protection Act of 2019 related to misleading advertisements by "deliberately concealing important information"

The lack of proper disclosure about successful students' course details deprived consumers of making an informed choice while selecting coaching institutes, the CCPA said, asking Shubhra Ranjan IAS Study to discontinue the misleading ads. On November 22, CCPA

on Vajirao & Reddy Institute for misleading advertisements regarding the results of the UPSC CSE 2022. Vajirao & Reddy Institute in its advertisement claimed "617 selections out of 933 in UPSC CSE 2022" and "We are ranked at 1st position among the list of top UPSC Coaching Institutes in India". CCPA has so far issued 45 notices to various coaching institutes for misleading ads and imposed a penalty of Rs 63.60 lakh on 20 coaching institutes, directing them to discontinue the misleading advertisements.

The Department Consumer Affairs, through the National Consumer Helpline, has successfully intervened at a pre-litigation stage to ensure justice for students and aspirants who enrolled for the UPSC Civil Services, IIT and other entrance examinations.

Dhankhar calls for accountability of lawmakers

Against the backdrop of Parliament witnessing poor productivity due to disruptions, Vice-President Jagdeep Dhankhar on Sunday called for accountability of lawmakers and said people would force them to think why they were sent to Parliament. He also said that for any democracy to succeed, expression and dialogue must go hand in hand with great responsibility on both sides. Dhankhar is the Rajya Sabha's ex-officio chairman.

Calling for accountability among parliamentarians, he said, "... Make no mistake, I am referring to parliamentarians. People have learned to take disorder as order. There is no sense of revulsion." Hopefully, people will write and their thoughts will move, the vice-president said, according to an official statement. "People will force you

to think, why did you go there (Parliament)?" he said. Addressing awardees of the Chaudhary Charan Singh Awards - 2024, the vice-president said agriculture was the spine of rural development. "Unless agriculture develops, the rural landscape cannot be

changed. And unless the rural landscape changes, we cannot aspire to have a developed nation," he said.

For India to be a developed nation by 2047, people's income must increase eightfold that, he said, was a

Dhankhar also laid stress on the need for strengthening the village economy.

The greatest market we have is agricultural produce, yet farming communities are hardly involved with it. The farming sector must be prioritised by governments for it

to become an engine of economic development," he added. The Chaudhary Charan Singh Awards - 2024 were presented for contributions to agriculture, rural development and journalism. A statement by the Kisan Trust said the awards were present-ed on Saturday and the event was attended by Union ministers Dharmendra Prradhan and Jayant Chaudhary. Inaugurating the event on Saturday, Pradhan lauded Charan Singh's legacy that, he said, continued to inspire those working tirelessly for the uplift of India's farmers and rural communities.

Union minister Chaudhary said the current policies of the Narendra Modi government reflected the vision of Charan Singh. His vision on procurement prices, debt relief for farmers, land reforms and the uplift of landless people is still relevant, he said, according to the Kisan Trust.

Will SC conduct further inquiry, asks Surjewala after Pegasus spyware case verdict in US

PIONEER NEWS SERVICE **NEW DELHI**

ongress general secretary Randeep Surjewala on Sunday claimed that the Pegasus spyware case verdict in the US proved how 300 WhatsApp numbers of Indians were targeted and asked if the Supreme Court would now conduct a further inquiry in view of the judgment.

Surjewala shared a media report which said that, for the first time, a court in the US had held Israel's NSO Group liable for its intrusive spyware Pegasus. "The Pegasus spyware case verdict proves how 300 WhatsApp numbers of Indians were targeted in the illegal spyware racket," Surjewala said in a social media post.

He said it was time for the Narendra Modi government to answer who the 300 names targeted were. "Who are the two Union ministers? Who are

Who is the constitutional authority? Who are the journalists? Who are the business persons? What information was retrieved by the BJP government and agencies? How was it used - misused and to what consequence?" the Congress leader asked.

He also questioned if appropriate criminal cases would now be lodged against the political executive or officers in the present government and the company owning NSO. "Will the Supreme Court

Technical Experts on Pegasus Spyware, submitted to it in 2021-22?" Surjewala said. Questioning if the Supreme Court would now conduct a further inquiry in view of the judgment affirming the targeting of 1,400 WhatsApp numbers, including 300 from India, he asked, "Will the Supreme Court now ask Meta to submit to itself the 300 names to meet the ends of justice in the Pegasus case?"

take note of the judgment of

the US court in Meta v/s

NSO? Will the Supreme Court

proceed to make public the

report of the Committee of

'Shouldn't Facebook (now Meta) now have responsibility to release the names of 300 Indians targeted by Pegasus, considering WhatsApp and Facebook have the biggest subscriber base in India and they have 'duty of care and disclosure' to its clients in India?" the Congress leader asked.

Communal Muslim alliance behind Rahul, Priyanka's win in Wayanad, says CPI(M) leader

PIONEER NEWS SERVICE NEW DELHI/ THIRUVANANTHAPURAM

→PI (M) Politburo member A Vijayaraghavan's recent controversial remarks regard-Rahul Gandhi and Priyanka Gandhi Vadra from the Wayanad constituency have drawn sharp criticism from Congress and Indian Union Muslim League (IUML) leaders on Sunday.

Congress leaders accused the

senior CPI (M) leader of making the comments to "please" the Sangh Parivar, while their United Democratic Front (UDF) ally, the IUML, alleged that he was attempting to provoke majority communalism in society. During a party event in Wayanad on Saturday, Vijayaraghavan reportedly claimed that Rahul Gandhi secured victory in the highrange segment twice with the support of communal forces and that extremist elements were present at Priyanka Gandhi's campaign rallies.

AICC General Secretary K C Venugopal strongly criticised Vijayaraghavan, accusing him of using "communal" language that even the Sangh Parivar might hesitate to employ against Rahul Gandhi. Venugopal also questioned whether the CPI (M)

shared the same opinion. "How can someone holding the position of a Politburo member of the CPI (M) speak in such a communal manner?" Venugopal asked. "This is part of a deal to please the

This is not just a CPI (M) statement—it is a BJP quotation aimed at crucifying Rahul Gandhi," he alleged. Leader of Opposition V D Satheesan echoed similar sentiments, charging the CPI (M) with pushing the same communal agenda propagated by the Sangh Parivar. "Post-Parliamentary elections, the CPI (M) is engaged in majority appeasement. This is an effort to gain favour with the Sangh Parivar and escape scrutiny from approach in Kerala."

central agencies," Satheesan told reporters in Kochi. He further alleged that only Vijayaraghavan would claim Priyanka Gandhi won the Wayanad Lok Sabha seat by over four lakh votes with the support of terrorists. IUML leaders P K Kunhalikutty and

describing them as "cruel" and "baseless" "Claiming that Rahul Gandhi and Priyanka Gandhi's victories were due to minority communalism is an attempt to stoke majority communalism," Kunhalikutty said, adding, "This mirrors the BJP's political tactics across India. The CPI (M) is experimenting with the same

Gurugram Police cyber crime team arrests Malaysian national for fraud of Rs 2.81 crore

STAFF REPORTER ■

cyber crime team of the A Cyber crime team of the Gurugram police has arrested a Malaysian national for allegedly duping a man of investing stock market, police said.

Police said on Sunday that they received a complaint regarding cheating of about Rs 2.81 crore for investing in the stock market. On the complaint, a case was registered under the relevant sections in Police Station Cyber West, Gurugram.

During the investigation, a cyber crime police team led by Priyanshu Diwan, ACP (cybercrime) nabbed the accused from Tamil Nadu on Friday.

The accused was identified as Mohammad Jameel bin Mohammad Iqbal a resident of Malaysia.

"During the probe, the investigation team found that the mother of the accused is from Tamil Nadu and he is also married in Tamil Nadu, due to which he knew the Tamil language.

The above accused had come to India with another Malaysian partner, and he had taken the Indian SIM card used in committing the fraud from another accused, Some other SIM cards pro-

arrested by Gurugram Police. 04 accused have already been arrested in this case, he said. The investigation team has

also been used in the fraud

cases," Priyanshu Diwan,

Police then circulated a

lookout notice against the

accused, and the accused had come to Tamil Nadu to

attend a wedding ceremony,

after which the accused was

ACP (cybercrime), said.

recovered a Malaysia passport, an international driving license, a Malaysia identity card, a health card, a debit card, a Malaysia driving license, a mobile phone, a SIM card, a ring and foreign and Indian currency

from the possession of the accused.

Further action will be taken in the case as per the rules. The case is under investigation, he added. Diwan said the Gurugram

police cyber crime teams are constantly taking necessary action against cyber crimi-

It may be noted that the Gurugram police have recovered Rs 83.41 crores from 1,658 Cyber Fraudsters, including 22 bank officials from different banks, in just 11 months from January 2024 to 30 November 2024.

He said that the Gurugram police is closely working with other agencies and organisations to counter these frauds.

NDA to contest 2025 Bihar Assembly polls under leadership of Nitish, Modi: Deputy CM

PIONEER NEWS SERVICE NEW DELHI

 $B_{\text{Minister and BJP leader}}^{\text{ihar Deputy Chief}}$ Samrat Choudhary said on Sunday said NDA will contest the assembly polls in Bihar next year under the leadership of Chief Minister Nitish Kumar and Prime Minister Narendra Modi,

"There is no confusion," he said during a Press conference at the BJP headquarters in the national Capital when asked to comment on speculation that the National Democratic Alliance (NDA) could do a rethink on projecting Kumar as its leader in the polls.

He was responding to Union Home Minister Amit Shah's recent interview to a news channel in which he was asked if the NDA could go to the polls in Bihar without declaring a chief ministerial candidate, like it recently did with great success in

Maharashtra. Shah, a former BJP president who is still regarded as the party's principal strategist, had replied after a pause, "We will sit together and decide. We will let you know after we have made a decision." The cryptic response had led to furious speculation that the BJP could insist on not projecting Kumar in the 2025 pólls.

Dismissing the speculation, Choudhary said, "The NDA is working under the leadership of Nitish Kumar and Prime Minister Narendra Modi in Bihar and we will continue to contest elections under the leadership of both leaders.'

Modi Government's 'calibrated erosion' of EC's integrity: Kharge on election rule

PIONEER NEWS SERVICE ■ **NEW DELHI**

Congress president Mallikarjun Kharge on Sunday hit out at the government for tweaking an election rule to prevent public inspection of certain electronic documents, alleging it is part of the Modi government's "systematic conspiracy" to destroy the institutional integrity of the Election Commission.

Kharge also said the Modi government's "calibrated erosion" of the ECI's integrity is a frontal attack on the Constitution and democracy. The government has tweaked

electronic documents such as CCTV camera and webcasting footage as well as video recordings of candidates to prevent their misuse. Based on the recommendation of the Election Commission of India (ECI), the Union law ministry on Friday amended Rule 93(2)(a) of the Conduct of Election Rules, 1961, to restrict the type of "papers" or documents open to public inspec-

While Congress general secretary in-charge communications Jairam Ramesh indi-

an election rule to prevent cated the grand old party public inspection of certain would legally challenge the amendment, Lok Sabha MP and Congress general secretary (organisation) KC Venugopal said the poll panel had chosen opacity and a pro-government attitude in its dealings thus far. Reacting to the develop-

ment, Kharge said Modi government's audacious amendment in the Conduct of Election Rules is another assault in its systematic conspiracy to destroy the institutional integrity of the Election Commission of India. "Earlier, they had removed the Chief Justice of

India from the Selection panel which appoints Election Commissioners, and now they have resorted to stonewall electoral information, even after a High Court order," he said in a statement.

Everytime the Congress party wrote to the ECI, regarding specific poll irregularities such as voter deletions and lack of transparency in EVMs, the ECI has responded in a condescending tone and chosen not to even acknowledge certain serious complaints, Kharge said. "This again proves that the ECI, even though it is a quasi-judicial

body, is not behaving independently," he said.

The Modi government's calibrated erosion of ECI's integrity is a frontal attack on the Constitution and Democracy and we will take every step to safeguard them," Kharge said.

According to Rule 93, all "papers" related to elections shall be open to public inspection. The amendment inserts "as specified in these rules" after "papers". Law ministry and ECI officials separately explained that a court case was the "trigger" behind the amendment.

While documents such as

ment of election agents, results and election account statements are mentioned in the Conduct of Election Rules, electronic documents such as CCTV camera footage, webcasting footage and video recording of candidates during the Model Code of Conduct period are not covered. "CCTV coverage, webcasting

nomination forms, appoint-

of polling stations are not carried out under Conduct of Election Rules but are the result of steps taken by the ECI to ensure a level playing field," a former ECI official explained.

Mohali building collapse: death toll rises to two, probe suggests adjacent plot digging led to incident

The death toll in the Mohali building collapse climbed to two with the body of a 29-yearold man recovered from under the rubble on Sunday, even as a preliminary probe suggested that digging in an adjacent plot led to the incident.

The multi-storey building collapsed on Saturday evening in Sohana village of Punjab's Mohali district, with at least five people trapped under its Rescue continued overnight to find possible survivors

Sub-Divisional Magistrate, Mohali, Damandeep Kaur said one male body was recovered during the ongoing rescue operation. He was identified Abhishek Dhanwal from Ambala.

Earlier in the day, Abhishek's father told reporters at the site that his son, who used to visit a gym in the building, was missing and his phone was not reachable. Abhishek worked in the IT sector and used to live in a nearby area, his father

Earlier, a 20-year-old woman

died in the incident on that, "A three-storey building Saturday evening. The woman Himachal from Pradesh, died after she was pulled out of the debris of the building. She was rescued from the rubble in a critical condition and was rushed to a hospital, but she succumbed to injuries. Police have booked two building owners in the incident. Viraj S Tidke, officiating deputy commissioner, said on Sunday

collapsed yesterday. rescue operation continued overnight. So far, two bodies have been recovered". The building also had a basement. Several excavators have been pressed into service as part of the rescue operation. National Response Team (NDRF), Army, state rescue teams have been working since Saturday evening to address the crisis. Medical

along with teams, ambulance, have also been deployed at the site since Saturday evening.

As the operation continued at the site, required equipment and machinery have been made available to the rescuers, in addition to those brought by the NDRF and Army. Preliminary information suggests that the building, which also had a gym, collapsed due to digging in an Mohali Senior Superintendent of Police Deepak Pareek told reporters at the site on Sunday that as per preliminary investigations the owner of the building, which collapsed, had a plot of land adjacent to it on which digging work to construct a basement was on construct a basement was on. 'However, no permission was taken and no concerned agency was informed about the unauthorised digging,"

Pareek said.

Leader of Opposition in Punjab Assembly Partap Singh Bajwa slammed the Mohali district administration over the incident. Bajwa, a senior Congress leader, who visited the site, told reporters that he has learnt that some structures have been built in the area in flagrant violation

"Accountability should be fixed in the matter. As head of administration, personally, I hold the Deputy Commissioner responsible," said adding administration should take necessary measures to ensure such incidents are not repeated in the future.

Home Minister Amit Shah slams left parties for turning Tripura into backward state, credits BJP for bringing development

PIONEER NEWS SERVICE

Home Minister Amit Shah on Sunday hit out at Left parties for turning Tripura into a "backward" state during their 35-year rule and said it could witness progress only after the BJP assumed power in 2018.

Addressing a public meeting after visiting a village where displaced Bru tribals were rehabilitated, Shah said that Tripura remained behind on all parameters of development during the communist rule but is now moving forward on the path of progress. For 35 years, the communists

ruled Tripura. communists claimed that they worked for the welfare of the poor. The Congress also ruled Tripura for a considerable time. But the people of the state always remained poor. It was when the BJP came to power that Tripura could witness development," he said.

Shah said when he visited Tripura in 2017 as BJP president and stayed for five days, only 11 people took party membership. "Gradually we started our work. We worked hard and could oust the communists from power" after

The home minister said during the Left rule, just 2.5 per cent of the people used to get piped drinking water and now 85 per cent get potable water. Under the communist rule, there was no free foodgrains for the poor but now each person gets 5 kg rice and everyone is getting free treatment of up to Rs 5 lakh, he said.

Shah said investments have come to Tripura and people are getting free power and LPG connections. Now the school drop rate is less than 3 per cent while enrolment is 99 per cent, But during the Left rule it was very poor, he said.

Tripura is now peaceful following the signing of peace accords with insurgents. With the blessings of Maa Tripurasunderi, Tripura will be one of the most developed states in the country. Today, I am getting immense happiness," he said. Referring

to the settlement of Bru refugees, the home minister said the BJP governments at the Centre and the state decided to rehabilitate 40,000 displaced people. "The Brus were living in sub-human conditions. But the Left government never took any action to improve their condition. Now we are addressing it and already 11 villages have been set up while one more is in the works," he

Shah said the Brus are now getting all the freedoms enjoyed by any other Indian citizen. They now have an Aadhar card, they are enrolled in the voter list, they have ration cards and all these were ensured by the government, he said.

He said the rehabilitated people were given Rs 1.5 lakh for the construction of their houses, Rs 4 lakh as fixed deposits and Rs 5000 for 24 months as monthly expresses. Bru migrants from three districts of Mizoram - Mamit, Lunglei and Kolasib districts came to North Tripura district in 1997, 1998 and 2009 due to serious ethnic violence in Mizoram between Bru and

Mizo communities.

Assam's forest cover shrinks by 83 square kilometre: **ISFR** report 2023

PIONEER NEWS SERVICE

ssam's forest cover has Adecreased by over 83 sq km between 2021 and 2023, with the total area under forest and tree cover in the state now at 30,415.01 sq km, according to the India State of Forest Report (ISFR) 2023.

Minister Environment, Forest and Climate Change, Bhupendra Yadav, had launched the report at the Forest Research Institute in Dehradun on Saturday, with a nationwide increase of 1,445 sq km in total forest and tree cover recorded since 2021. The total forest area in this

north eastern state is 28,313.55 sq km, which is 36.10 per cent of the state's total area, while area under tree cover is 10,718.28 sq km, bringing the total forest and km. The ISFR reported a decrease of forest and tree cover area by 83.92 sq km in

the state. Altogether 4.07 per cent area of the state's forest cover is under very dense forest (VDF), 12.45 per cent under moderately dense forest (MDF) and 19.58 per cent under open forest (OF), as per the report. Assam is among the five states which have shown maximum decrease of forest cover inside the recorded forest area (RFA)/ green wash (GW) category. Tripura has recorded the maximum decreased (116.90 sq km), followed by Telangana (105.87 sq km), Assam (86.66 sq km), Andhra Pradesh (83.47 sq km) and Gujarat (61.22 sq km).

As per the report, between 2021 and 2023 MDF inside RFA/GW for Assam has decreased by 134.32 per cent and scrub by 18.41 per cent. However, VDF has gone up by 43.63 per cent, OF by 4.03 per cent and non-forest (NF) area by 105.07 per cent.

BJP secures third consecutive term in Arunachal Pradesh, wins 46 Assembly seats **PTI** ■ ITANAGAR

Arunachal Pradesh's political landscape underwent a major shift in 2024 as the BJP secured a third consecutive term, winning 46 out of 60 assembly seats in the simultaneous Lok Sabha and state elections. In addition to political developments, the state faced a dark chapter with disturbing revelations of widespread sex trafficking involving

The victory included 10 uncontested wins, attributed to the party's focus on development under Prime Minister Narendra Modi's leadership. Among its allies, the NPP retained five

three, and the People's Party of Arunachal (PPA) claimed two. Three independents were also elected.

The Congress suffered a devastating blow, winning just one of the 19 seats it contested. While Chief Minister Pema

Khandu credited the BJP's success to development initiatives under the NDA government, gress state president Nabam Tuki acknowledged the defeat, saying the party will continue to fight for the rights of the people. In the Lok Sabha

elections, the BJP secured both parliamentary seats. Besides politics, the state faced a dark chapter in 2024 with assembly seats, the NCP won revelations of widespread sex

trafficking involving minors. A major case surfaced in August when survivors bravely came forward to expose the exploitation. Police arrested nine people who allegedly operated the racket

for years. The Arunachal Pradesh State Commission for Protection of Child Rights (APSCPCR) intervened, recommending stringent action, including dismissing three government employees, among them a police officer, for their involvement.

Key suspects, Chaya Dulom, a health department worker, and her husband David Dulom, a water resources department surveyor, were accused of coercing young girls into the sex trade.

In the same month, an interstate trafficking ring was busted at Ziro in Lower Subansiri district, rescuing four victims, including two minors.

In May, police uncovered another trafficking network involving five minor girls from Dhemaji, Assam. This led to the arrest of 22 people, including traffickers and pimps. Protests against the proposed 12,500 MW Siang Upper Multipurpose Project (SUMP) gained momentum throughout 2024, indigenous communities in Siang and Upper Siang districts environmental and cultural

On October 5, hundreds of residents gathered in Geku village to oppose NHPC's ongoing surveys. NHPC identified three potential sites for the dam, sparking fears of displacement and loss of agricultural land.

Siang Indigenous Farmers (ŠIFF) Forum General Secretary Donggo Libang project, criticized the warning, "It will submerge paddy fields and strip locals of their land rights." Protests escalated after the Upper Siang district administration issued notices to government employees and village heads joined demonstrations.

The Cabinet Committee on Economic Affairs (CCEA) approved investments worth Rs 3,689 crore for two hydropower projects in Shi Yomi district - the 186 MW Tato-I and the 240 MW Heo projects. These projects aim to strengthen Arunachal Pradesh's power supply and integrate it with the national grid. Deputy Chief Minister Chowna Mein, who oversees portfolio, power announced plans for 11 major hydropower projects scheduled to commence between 2025 and 2027.

"These projects will secure the state's economic future by creating jobs and boosting power generation," Mein said. a bid to improve governance, the stateappointed 10 guardian

Tigress on the move: Zeenat's journey from Odisha to West Bengal

PIONEER NEWS SERVICE KOLKATA/BHUBANESWAR

orest personnel are moni-**⊥** toring the movement of a tigress which strayed from Odisha's Similipal Reserve Bengal's Purulia district.
West Bengal's Chief Wildlife
Warden Debal Roy informed

the three-year-old tigress brought from Maharashtra to Similipal Reserve Forest is fitted with a radio collar and is currently located in the Bandwan area of Purulia district. It earlier crossed over to West Bengal from neighbouring Jharkhand and roamed around in Jhargram and Paschim Medinipur district, all parts of the forested 'Jangalmahal' belt. Asked about reports that another tigress from Similipal which had escaped around the same time and roamed around the forested corridor

of three neighbouring states has already headed back to her old habitat, Roy said "We don't have information about two tigresses escaping from Simlipal and having strayed into West Bengal." "Whether you call her Zeenat

Jamuna, we have information about one tigress leaving Similipal, entering Jharkhand and now having

crossed over to our state for the past three days. Our men are keeping a constant vigil on her movement," he said He said forest personnel from

Odisha are also working with their Bengal counterparts in monitoring the movement of the big cat which has so far not shown any signs of aggression. The tigress had covered not less than 50 km after straying from Similipal in Odisha but such behaviour is normal for tigers who wander several kilometres in search of a new territory, another forest official said. "Probably the forest belt of neighbouring states, having similar habitat, became a corridor for her and she is trying to set up a new territory. We are at work to

drive her away to Similipal

through the same route or if

back into the reserve forest in Odisha. We are hopeful there is no man-animal conflict," the senior state forest official said.
"The prey base is low in the

areas where it is presently located. So, we hope she turns back to the reserve since there is more prey there," he said. Meanwhile, the authorities of the Similipal Tiger Reserve (STR) on Sunday said that it was not averse to putting the tigress under sedation in order to bring her back to the core area of the National Park.
STR field director Prakash
Chand Gogineni said "Tigress
(Zeenat) is moving in West
Bengal. The Odisha and West Bengal forest departments are tracking and moving with it. It is fit and fine. Efforts are being made to bring it back by tranquilisation," Gogineni

PATNA/KOLKATTA/NEW DELH

Centre has informed the National Green Tribunal (NGT) that West Bengal and

Bihar are impacted the most by

arsenic contamination of

groundwater. The tribunal is

hearing the issue of rice being

susceptible to arsenic contam-

ination because it absorbs more

of the toxic semi-metallic ele-

ment from water and soil

Earlier, it sought a reply from

In an order dated December

Claiming that tigress Zeenat, which walked into Jharkhand on the northern side of the Similipal, later moved into West Bengal forests on Friday. He said forest department personnel of both the states signals from her radio collar and efforts are underway to guide her back into Similipal. However, if the animal does not return to her habitation in the core area of the Similipal, the authorities may apply tranquilization alternative mode to bring her back, he said, adding that the three-year-old tigress Zeenat and two-and-half-year-old Jamuna were brought from Tadoba-Andhari Tiger Reserve (TATR) in Maharashtra with the goal of introducing a new gene pool

to the tiger population. Jamuna was brought from Maharashtra on October 27, while Zeenat arrived on November 15 and was released into the wild on November 24. While Jamuna was roaming the Similipal landscape in good health, Zeenat walked into Zeenat Jharkhand and later to West Bengal forest which was connected through forests. Odisha Forest officials said that Zeenat was also in good

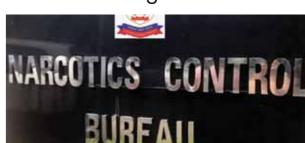

Ahmedabad seizes two kilogram ketamine PIONEER NEWS SERVICE

The Narcotics Control Bureau international drug syndicate with the seizure of two kg ketamine and arrested four persons, including three Nigerian nationals, the NCB said on Sunday.

The accused conspired to traffic ketamine from India to foreign countries through courier parcels, the NCB said in a release, detailing the significant crackdown of the organised drug organised drug crime operating from the Indian soil. The value of the seized contraband was not specified. Ketamine is a highly valued and sought after contraband in USA and also used as a "date rape" drug, the release said. The NCB Ahmedabad received an initial input on December 3 that nearly two kg of ketamine concealed in spice packets of various brands was being shipped to the US through courier agencies, it said.

technical surveillance coupled with human intel led the drug law enforcement agency to zero in a person, Adnan

Extensive

Furniturewala, who resided in Pune but later moved to the US, it said. It further came to light that Furniturewala was deported to India after being booked in three cases of drug trafficking in the US, the NCB said. While being in India, the accused was booked in another case under the Drugs and Substances Narcotic Psychotropic (NDPS) Act by the NCB Mumbai last year and was currently out on parole, it said. "In the present case, he was always a step ahead of authorities and continuously kept on changing his hideout and employed numerous tactics so as to dodge the agency," the release said.

"However, in a precisely executed operation that spanned through states of

arsenic exposure in the non-

endemic population," it noted. The tribunal noted that,

PIONEER NEWS SERVICE

Moviegoers watching a latenight show of "Pushpa 2" at a multiplex in Maharashtra's Nagpur witnessed a real-life action scene as police stormed the cinema hall and arrested a man wanted in murder and drug cases.

The dramatic arrest of Vishal Meshram shortly after midnight on Thursday left the packed audience stunned, but police assured them that they could continue enjoying the movie as they nabbed the accused and took him away. Meshram was on the run for 10 months and was eventually tracked down after

police learnt about his interest in the recentlyreleased film, an official from Pachpaoli police station said on Sunday. The gangster had 27 cases

against him, including two of murder and drug trafficking, and was known for his violent tendencies, even attacking police in the past, he said. Authorities had been pursuing him relentlessly, using cyber surveillance and tracking his movements in a new sports utility vehicle (SUV), the official said.

After tracking him on Thursday, police deflated the vehicle's tyres outside the cinema hall, located in central part of the city, to Bengali and Malayalam.

prevent his escape, he said. When police personnel entered the hall during the movie's climax, Meshram was engrossed in the film. The police surrounded him

and made the arrest swiftly, giving him no chance to resist, the official said. Meshram is currently lodged in the Nagpur Central Jail and will soon be transferred to a prison in Nashik, the police said. "Pushpa 2: The Rule", the blockbuster movie starring Allu Arjun, is a sequel to 2021's Telugu film "Pushpa: The Rise".

Hindi,

16, a bench of NGT Chairperson Justice Prakash Shrivastava and expert member A Senthil Vel noted Shrivastava It was released on December that the Union Ministry of Agriculture and Farmers Welfare had filed its reply after 5 with dubbed versions in Tamil, Kannada, seeking inputs from the İndian

the Centre on it.

Council of Research (ICAR). Council Agricultural "States of West Bengal and Bihar are reported to be most affected contamination of groundwater

arsenic irrigation by contaminated groundwater is the major route for arsenic entry into agricultural soil which ultimately leads to its entry

into the food chain," the Centre said in its reply. There can be a "significant build-up" of the toxic element in rice as it is a water-intensive crop, the reply stated. "Transport of arsenic-contaminated rice grain grown in arsenicendemic areas to nonendemic sites and consequent dietary intakes will also spread

in plant parts generally followed the order of roots, stems and leaves. "The edible parts of leafy (spinach, fenugreek etc.) underground vegetables (beet, radish etc.) contained much higher arsenic as compared to vegetables with fruit as edible part (brinjal, beans, ladies' finger, tomato etc.). In general, fruit/grain of plants showed less accumulation of arsenic compared to root, stem and leaf," it noted. The reply also suggested various remedial measures to minimise the effect of arsenic in the soilplant system. These include replacing water-intensive rice

intensive crops and relatively arsenic-tolerant rice varieties, growing non-edible and leguminous crops during the dry season in the hotspot areas, application of biochar (modified charcoal produced from burning biomass sources), and increased use of green manures and application of silicate fertilizers. The reply also suggested other remedial measures, such as storing arsenic-contaminated groundwater in ponds and subsequent dilution with rainwater along conjunctive use of ground and surface water to dilute the arsenic content. The tribunal then impleaded the ICAR as a respondent and sought its response. It will hear the matter next on April 15.

Outreach to Kuwait

With a focus on economic cooperation and cultural exchange, PM Modi's Kuwait visit strengthens the ties between the two nations

rime Minister Narendra Modi's recent visit to Kuwait marked a historic moment, as he became the first Indian Prime Minister to visit the Gulf nation in over four decades. The visit, at the invitation of Kuwaiti Emir Sheikh Meshal Al-Ahmad Al-Jaber Al-Sabah, underscores a renewed commitment to strengthening the ties between India and Kuwait. With a focus on economic collaboration, cultural exchange, and mutual prosperity, the visit paves the way for a deepened strategic partnership. India and Kuwait share a relationship that dates back centuries, built on the foundations of trade and cultural exchanges. Over time, this bond has evolved into a robust partnership, encompassing energy, trade and people-to-people connections. Today, Kuwait is a significant energy supplier for India, while Indian expertise and manpower have become indispensable for Kuwait's development. Prime Minister Modi highlighted the enduring solidarity between the two nations, citing instances of mutual

support during times of distress. With over one million Indian expatriates residing in Kuwait, the Indian diaspora has played a crucial role in Kuwait's growth, contributing to various sectors including healthcare, engineering and education.

Addressing the expatriate community, Modi praised their efforts, stating, "Their energy, love, and unwavering connection to India are truly inspiring. Proud of their role in strengthening ties between our nations." The economic relationship between India and Kuwait is ripe for expansion. Kuwait, as a key energy supplier, holds strategic importance for India's energy security. Simultaneously, India, with its bur-

geoning market and investment opportunities, offers Kuwait an attractive destination for its sovereign wealth fund. During his discussions, PM Modi noted the shared aspirations of both nations: building a prosperous 'New Kuwait' and transforming India into a developed nation by 2047. By aligning these goals, the two countries can establish a partnership that drives mutual growth. Modi's visit was not limited to economic discussions; it also celebrated the cultural ties that bind the two nations. The Prime Minister met with individuals who have contributed to fostering Indo-Kuwaiti relations, including Abdullah Al-Baroun, a translator who brought Indian epics like the 'Ramayana' and 'Mahabharata' to Arabic-speaking audiences. As India and Kuwait look to the future, the visit has set the stage for a relationship that goes beyond traditional energy ties. The integration of India's technological expertise with Kuwait's developmental ambitions holds the promise of transformative progress. Furthermore, the strong presence of the Indian diaspora serves as a bridge, fostering deeper connections and mutual understanding. By strengthening this partnership, India and Kuwait are not only enriching their bilateral relationship but also contributing to stability and development in the region.

Guardians of nature: Saving the planet

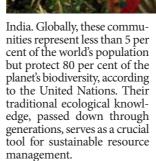

As the world grapples with the escalating impacts of climate change, the wisdom of indigenous communities shines as a vital resource for environmental preservation

he Role of Indigenous Knowledge Combating Climate Change: A Legacy of Hope The discourse on climate change dominated discussions at COP 2024, the United Nations Climate Change Conference, held in Baku, Azerbaijan, from November 11 to 22, 2024. Rising global temperatures, depleting natural resources, and rampant environmental degradation have emphasised the urgency of adopting sustainable practices and advancing conservation efforts. Amid this pressing crisis, the role of indigenous communities in preserving the environment emerges as a beacon Often referred to as the "guardians

of nature," these communities have safeguarded ecosystems for centuries through their traditional knowledge, sustainable practices, and deep connection to the land. One exemplary figure embodying this harmonious relationship with nature was Padma Shri Tulsi Gowda. Known as the "Encyclopedia of the Forest" and affectionately called the "tree goddess" by her Halakki Vokkaliga tribe in Karnataka, Tulsi Gowda's life and work illustrate the profound impact of indigenous wisdom on environmental preservation. With an unwavering commitment to nature, she planted 30,000 saplings during her lifetime, nurturing them with meticulous

Tulsi Gowda passed away on December 16, 2024, at the age of 86, leaving behind an inspiring legacy of environmental stewardship. Growing up in poverty, Tulsi Gowda's love for plants and forests remained unparalleled. From an early age, she worked in plant nurseries, demonstrating extraordinary skill in nurturing saplings. Her unique ability to identify the 'mother tree" of any species exemplified her deep ecological understanding.

Tulsi Gowda herself believed, "It's not important how many plants you have planted; what matters is now much care you ve taken of those saplings." The contribution of indigenous communities to environmental conservation extends far beyond

For instance, the Kayapo tribe in Brazil has successfully defended the Amazon rainforest from logging, mining, and industrial agriculture, preserving a vital carbon sink. Brazilian environmentalist and politician Dr. Marina Silva emphasised, "The Kayapo teach us that protecting forests is not just about climate, but about life itself."

Similarly, the Sámi people of Scandinavia maintain ecological balance in Arctic regions through sustainable reindeer herding practices. In New Zealand, the Maori concept of kaitiakitanga (guardianship) promotes a cultural commitment to environmental stewardship, influencing national policies. The Ogiek of Kenya, through

sustainable honey harvesting, continue to conserve the Mau Forest, a critical water catchment area. This echoes Wangari Maathai's belief tha "The future of our forests lies in the hands of those who understand them best indigenous communities."

MOVEMENT OF THE 1970S, WHERE VILLAGERS IN UTTARAKHAND **HUGGED TREES TO PREVENT** DEFORESTATION. DREW INSPIRATION FROM THE BISHNOI'S SACRIFICE. IN 2021, A SIMILAR INITIATIVE

SAVED OVER 500 SACRED OAK TREES IN JAAKHNI VILLAGE, UTTARAKHAND, **NEAR FORESTS** DEDICATED TO THE LOCAL GODDESS OF **JUSTICE**

India, too, has a rich tradition of indigenous environmental stewardship. The Bishnoi community of Rajasthan, one of the earliest champions of conservation, exemplifies this ethos. Their sacrifice during the 1730 Khejarli Massacre, where 363 Bishnois gave their lives to protect sacred Khejri trees, remains a cornerstone of ecological movements. Similarly, the Dongria Kondh tribe of Odisha has valiantly defended the Niyamgiri Hills from destructive mining activities, preserving their sacred land and biodiversity.

The Apatani tribe of Arunachal Pradesh showcases innovative sustainability through wet-rice cultivation and fish farming, while the Soliga tribe of Karnataka safeguards the Biligiriranga Hills using indigenous forest management techniques. Such efforts have inspired broader environmental movements. The Chipko Movement of the 1970s, where villagers in Uttarakhand hugged trees to prevent deforestation, drew inspiration from the Bishnoi's sacrifice. In 2021, a similar initiative saved over 500 sacred oak trees in Jaakhni village, Uttarakhand, near forests dedicated to the local Goddess of

From the hills of Uttarakhand to the sacred groves of Meghalaya, these movements highlight India's enduring envi-

ronmental heritage. Despite their invaluable contributions, indigenous communities face significant challenges, including marginalisation, land dispossession, and exploitation. Empowering indigenous communities to take leadership roles in environmental management has already shown promising results. For example, joint forest management initiatives have demonstrated effective resource management and biodiversity conservation. Combining indigenous knowledge with modern scientific approaches can create innovative strategies for addressing environmental challenges. Practices like the Zuni tribe's waffle gardens in New Mexico, which conserve water in arid regions, exempli-

nous ecological wisdom. In an era of environmental crises, humanity must embrace the profound knowledge of indigenous communities to forge a sustainable future. Their traditions, deeply rooted in respect for nature, hold the key to restoring ecological balance. By integrating their wisdom into global conservation strategies, we can create a world that honors the delicate harmony between humanity ana the naturai worid.

lenges builds stakeholder

Implementing CSR initiatives effectively presents significant challenges, ranging from a lack of clear objectives to complexities in measuring their impact

orporate Responsibility (CSR) ✓ is a fundamental aspect of modern business strategy, reflecting a company's commitment to social equity, environmental sustainability and ethical practices.

In India, CSR became a legal requirement in 2013, and companies are now expected to integrate these principles into their operations. However, while CSR initiatives are vital for societal and environmental progress, accounting for them presents unique challenges that businesses must address to achieve compliance and maximise impact.

Challenges in CSR Accounting: 1. Lack of Clear Objectives Many companies undertake CSR without clearly defined goals, resulting in misaligned initiatives that fail to resonate with stakeholders or address critical social issues. 2. Insufficient Stakeholder **Engagement:** CSR initiatives often overlook the input of key stakeholders such as employees, customers, and community members. For instance, a clothing brand

leading to low adoption and minimal impact.

3. Limited Resources

Smaller businesses face budget constraints and lack expertise to implement effective CSR programmes. A local coffee shop, for example, might abandon a recycling initiative due to insufficient funds for bins or awareness campaigns, missing the chance to enhance its brand. 4. Fund Utilisation Issues Companies often face compliance challenges regarding the disbursal of funds to implementing agencies. Under Section 135(5), mere fund transfer does not qualify as

the funds appropriately.

Companies must plan and

comes of CSR initiatives is complex, as many lack standardised metrics to measure their social and environmental impact. For example, a manufacturing firm may struggle to quantify carbon emission reductions from a green energy project, making it harder to demonstrate suc-

6. Reputation Risks

Greenwashing or poorly executed initiatives can damage a company's credibility. For instance, a beverage company that markets itself as environmentally friendly while engaging in unsustainable practices risks losing consumer trust and suffering long-term reputational harm. Strategies to Overcome CSR Challenges

1. Define Clear Objectives Companies should set SMART (Specific, Measurable, Achievable, Relevant, Time-bound) goals for their CSR initiatives.

2. Engage Stakeholders Early Regular engagement with stakeholders ensures CSR initiatives address their needs and receive their support.3. Start Small and Scale Up Small businesses can begin

with low-cost, high-impact

Conclusion: Proactively addressing these issues helps businesses enhance their reputation, strengthen stakeholder relationships, and make meaningful societal contributions. Successful CSR initiatives ultimately benefit both companies and communities, driving sustainable

SC CONDEMNS WITCHCRAFT PRACTICES Madam —Recently the Supreme Court

reprimanded the Patna High Court for staying proceedings in a case involving the abuse of women accused of witchcraft, highlighting the issue as a violation of Constitutional values. The Court condemned the practice of witchcraft as rooted in superstition and patriarchal control, urging for protective measures and social change to combat such discrimination against vulnerable women. The Supreme Court took a strong stance against the victimisation of vulnerable women under the guise of witchcraft, calling it a "blot" on the

constitutional spirit. SC has rightly said that the incident that took place in the 21st century was shocking and underlined the failure of legislative, executive and judicial measures to protect vulnerable sections of society. In India, witchcraft allegations are often directed at women who are either widows or elderly. The Court has also observed that the incidents against women accused of witchcraft go against the spirit of the Constitution because they undermine dignity. SC has expressed shock at cases where women have been physically abused and directed in public over witchcraft allegations. The number of witchcraft-related cases reported to the NCRB has been increasing in recent years. The Prevention of Witch Practices Act in Jharkhand criminalises accusations of women as witches. Criminalisation and punishment of those involved in witch hunting is the most appropriate way to end superstition and harmful practices and provide redress to

BJP has got over 40,000 suggestions, which shows public state, and per capita income is much high-

Dhaka takes anti-India stance

ndia's relations with Bangladesh are passing through a difficult phase after the Sheikh Hasina government succumbed before violent protests led by students in the first week of August. All development after her fall is quite worrisome for New Delhi. No doubt it was a foregone conclusion that Dhaka will no longer follow a pro-India policy. But Bangladesh is hell-bent upon destroying the cordial and bilateral relations that New Delhi crafted with the Sheikh Hasina regime. The ouster of the liberal Sheikh Hasina regime has embold-

also Sufi shrines and the press. Unfortunately, the Muhammad Yunus government is only interested in flaring up anti-India sentiments in the country instead of containing sectarian violence. The arrest of Hindumonk Chinmoy Krishna Das on sedition charges shows its true colours. Internationally too, Dhaka is interested in joining hands with anti-India forces, particularly China and Pakistan, and Yunus's second meeting with Shahbaz Sharif in the last four months. The anti-India approach of the Yunus government can be measured by a post of Yunus' close aide, Mahfuz

Alam, in which he threatened to "annex" parts of

India. Before Dhaka intends to go to Islamabad's

way, it must not forget that New Delhi holds sig-

nificant leverage over it in terms of both econo-

are now targeting not only religious minorities but

my and geopolitics Manoj Parashar | Ghaziabad

association with its manifesto. BJP has a large number of MLA aspirants, so the delay in the declaration of candidates is directly proportional to the number of candidates. The manifesto should target the new generation and focus on implementations of the New Education Policy 2000, which echoes in the Lt. Governor's initiative in Samvad@Rajnivas.

DDA, MCD and NDMC may be associated in setting up government libraries across Delhi for students and teachers. Traffic jam is the perennial issue for Delhiites, and it is easy to spot the trouble areas. Delhi needs more flyovers across Dwarka and East Delhi. The pollution in Delhi is also a serious concern, and antifogging machines need to be installed on major roads. The waste and garbage dumps, particularly in Gazipur Chowk and Janakpuri, deface and stink Delhi. Delhi Government needs to implement the plans. The beggar problem at road crossings is a nuisance. Illegal colonies and Bangladeshi and Rohingya immigrants are a big bane for Delhi. Delhi is not a poor

er than in other states, so the freebies like free rations and electricity are not required, and the funds should be allocated to building the infrastructure of flyovers, schools, and hospitals.

Vinod Johri | Delhi

FOCUS ON CONSTRUCTIVE DEBATES

Madam — The parliamentarian should understand that they need to be more productive, constructive, and prolific during the start of the session of the houses. As the winter session of the 18th Lok Sabha ended with the least possible outcomes that Parliamentarians could deliver, causing a scuffle between the members themselves It should be the moral and fundamental duty to abide by the constitution to uphold the dignity of the Parliament houses and meant it for possible constructive discussion on each and every issue rather than politicising them on personal and party grounds.

MAKE A DIRECT CONNECT WITH GOD

Our approach to the Divine has been shackled by rituals, often muddling the true essence of spiritual connection

s a monolithic organisation, railway bureaucracy was once fossilised and adopted an ostrich-like approach while dealing with its internal and external customers and also with rivals till it adopted technology in attracting passenger and freight segments.

This cardinal principle of competitive advantage and adaptability also applies in our relationship with religion, spirituality and almighty God. Humans have been prisoners to an outdated pedagogy while approaching God. The transaction between the Divine and the bhakta has been constrained as the transmission of knowledge and blessings have been clogged in drain pipes, as the seeker and the devout feels impotent and weak.

Can we recall two path-breaking movies from a few years back, OMG - Oh My God! and PK, wherein the relationship of humans and God was explored?

In OMG a petty trader, Kanji challenges the orthodoxy of the religious establishment by suing the Creator for the ruination of his business, much to the chagrin of the priestly and spiritual class. Similarly, PK- an alien who is marooned on planet Earth, as his spaceship leaves without him - questions various religious and spiritual institutions with his childlike curiosity, only to attract disapprobation.

If it was Lord Krishna's flute and discus in the case of Kanji, it became the symbolic wrong number in the case of PK to dispute the indurate thought processes of a shambolic order. A distraught PK was unable to connect with the Divine forms of various religious denominations and all his trials ended in a sandbox of wrong numbers. So, what is the right number? It is a Wi-Fi to God.

Let us for a split second assume that human beings and all the other manifestations of this grand design are like computers, smartphones or other electronic devices. Almighty God can be likened to the World Wide Web possessing the repository of knowledge, of course with the faculty of creation and destruction.

In the wired world all gizmos are connected to the internet through a Wi-Fi. Aberrations or disruptions in the communication do take place, when the battery power is low, or due to software glitches (this can be attributed to low prana levels). The intermediaries, in the form of the priestly class, astutely blame these muddles faced by the gizmos, either in the hands of God or lack of tapas by the seeker. For centuries across the world, as humans evolved from the inception as mere nature worshippers, to established religions, the febrile human mind has always been inquisitive about the acceptable and bizarre theories of existence. Almighty God in all his manifestations and myriad forms is approachable to bestow benedictions. However, tragically it is the gizmo (humans) and the channel (Wi-Fi) that have transfigured and remodeled since per-

haps, the Big Bang! The Wi-Fi is symbolic of a direct connection with the Divine. A true bhakta does he require an emergency quota to board the heavenly train. There is no need to perform rituals, consult tarot card readers, visit places of worship out of fear, beseeching for mercy or boons. A chip is embedded in the DNA to ensure the divine communion which needs to be activated. The regular practice of yogic postures is essentially Hatha Yoga and a tonic for the physical body. The meditation that humans practice is to fortify and safeguard the comfort of our minds, but it is our true inner self, which pines for nourishment. The ordinary mortal today too can be in this state of spiritual reverie through the power of breath. This brings us closest to our inner self. This is the unalloyed Wi-Fi to connect with the Divine.

Slowdown in growth: Is it a temporary blip?

This temporary slowdown, attributed to reduced government spending, raises broader concerns about the structural challenges underpinning India's growth story

he GDP (gross domestic product) growth during the second quarter of the current financial year (FY) ending September 30, 2024, decelerated to 5.4 per cent down from 8.1 per cent achieved during the corresponding period of FY 2023-24. It was the lowest in seven quarters and well below the Reserve Bank of India's (RBI) forecast of 7 per cent. It was even lower than the 6.7 per cent recorded during the first quarter of the current FY ending June 30, 2024.

Union Finance Minister Nirmala Sitharaman observed that deceleration was not a "systemic slowdown"; that it was a temporary blip caused by a reduction in government expenditure (courtesy, elections ended in the June quarter when many projects came to a standstill due to the model code of conduct). She exuded confidence that expansion during the third quarter would make up for the lost momentum. The Ministry of Finance (MoF) expects full-year GDP growth to be 6.5 – 7 per cent. Coming on top of growth of 8 per cent plus achieved during the previous three consecutive years, 6.5 – 7 per cent during the current FY is indeed pressive. Even at this lower level, the Indian economy continues to be the fastest-growing in the world. Then, why should it worry us?

Nearly 70 per cent of India's GDP is driven by domestic consumption; the remaining 30 per cent is driven by investment and export. Domestic consumption includes government consumption and private consumption. Likewise, investment consists of capital spent by the government and private investment. During the last five years, the Central Government has done the heavy lifting especially when it comes to investment. An idea of this can be gauged from its budget outlay 2020-21: Rs 30.42 lakh crore; 2021-22: Ŕs 34.83 lakh crore; 2022-23: Rs 39.45 lakh crore; 2023-24: Rs 45.03 lakh crore; 2024-25: Rs 48.20

The Centre's capital spend during these years was 2020-21: Rs 4.39 lakh crore; 2021-22: Rs 5.54 lakh crore; 2022-23: Rs 7.50 lakh crore; 2023-24: Rs 10.01 lakh crore; 2024-25: Rs 11.11 lakh crore. The Central government has also been helping the states

UNION FINANCE **MINISTER** NIRMALA

SITHARAMAN OBSERVED THAT DECELERATION WAS NOT A "SYSTEMIC SLOWDOWN"; THAT IT WAS A TEMPORARY BLIP CAUSED BY A REDUCTION IN **GOVERNMENT EXPENDITURE**

to boost their capital spend. During 2022-23, it provided them with 50-year Rs 100,000 crore interest-free loans.

During 2023-24, such transfers were Rs 130,000 crore. For the current FY, the transfers are kept at Rs 150,000 crore. It has also given incentives to promote investment in the private sector. The mother of all incentives was a reduction in the corporate tax rate to 15 per cent for new manufacturing enterprises and 22 per cent for existing enterprises. In this year's budget, the corporate tax rate on foreign firms was reduced from 40 per cent to 35 per cent.

The Centre has also done its bit to give a boost to private consumption. In the budget for 2024-25, Sitharaman has given relief in personal income tax (PIT) of around Rs 17,500/- annually by changing the tax slabs under the New Income Tax regime and increasing in standard deduction by Rs 25,000/-. Less tax means higher disposable income in the hands of the people hence the scope for more spending. But, initiatives by the government alone can't ensure high growth on a sustainable basis. To achieve high sustainable growth, it is necessary to give a boost to private consumption. The dip to 5.4 per cent during the second quarter of the current FY when the decline in urban demand took a toll even as heavy lifting by the Centre was not available (due to elections) should serve as a warning signal. This brings us to a systemic problem that has hampered growth for decades.

This has to do with inequalities in the distribution of income and wealth. According to an Oxfam report, 'Inequality Kills', the collective wealth of India's 100 richest people in 2021 hit a record high of US\$ 775 billion or over 25 per cent

Conclave, Arvind Panagariya, Chairman, of the 16th Finance Commission said: "The inequality in the sense of the top 1 per cent as a proportion of the bottom 5 percent, yes, that inequality has gone up". Thomas Piketty, a professor at the Paris School of Economics (he is known for his groundbreaking research on economic inequality, wealth distribution, and the dynamics of capitalism) says "the share of India's top 10 percent population is current-

Times Network India Economic

ly at 55-60 per cent". According to him, this should be 30-40 per cent. Whichever source one looks at, we can't wish away the fact that India is home to glaring inequalities in income distribution.

This, in turn, has to do with the manner in which fruits of development are shared amongst the people. Unambiguously, the sharing is unequal. According to an analysis of the financials of India's largest companies – those comprising the BSE 500 index - over five years, the profits of corporations included in this index more than doubled from Rs 480,000 crore during 2017-18 Rs 1000,000 crore during 2021-22, whereas their revenue growth was only 47 per cent.

This means that payments to factors of production other than the owners of capital such as to employees/workers, etc., have been kept under a tight leash, resulting in a disproportionate boost to profits. A big slice of these profits has gone to the pockets of the shareholders of these firms.

Thus, the aggregate dividend paid by them increased from Rs 176,000 crore during 2017-18 to Rs 302,000 crore during 2021-22, which is an increase of 72 per cent. In those five years, cumulatively, they paid 34 per cent of aggregate net profit as dividends. This is an unusuof India's GDP. In conversation ally high payout ratio - even highwith ET Now at the recently held er than 30 per cent paid by the

world's largest companies in America's S&P 500. Whether profits to the firms or high dividends to shareholders, it has been paid for or come at the cost of millions of others. Rs 1,000,000 crore profits of firms in the BSE 500 index during FY 2021-22 came at the cost of undermining the purchasing power of millions of consumers.

Likewise, the mammoth dividend fills the coffers of a few - the money that merely adds to their idle cash balances or is spent on a few luxury items - denying millions of workers decent income. The tendency to appropriate a disproportionate share of the proceeds of wealth generation by a few persons at the top can be seen even amongst the owners of small and medium enterprises (SMEs) who ape large enterprises when it comes to making payments to their workers.

The SMEs being employment intensive, a general belief is that giving a boost to them would help in creating more jobs hence, lead to a more equitable income distribution. But, their owners' paying less to workers militates against this objective.

Even the millions of small and marginal farmers who by nature of their occupation play the role of owner as well as worker don't get to earn a good income as a handful of traders buy their crops at throwaway prices even as the minimum support price (MSP) notified by the government remains mostly on paper. When, the enterprise-owning class no matter which occupation it is in and the scale of its operation is intrinsically prone to sharing less with those who are at the receiving end, inequalities are inevitable. In such a scenario, how can we expect a big push to the demand needed for sustained growth?

The allure and impact of Reels: A double-edged sword

In an age where digital connectivity reigns supreme, short-form content like reels has taken centre stage, captivating millions with its addictive allure

n today's digital era, people from all walks of life are Lincreasingly drawn to the virtual world, spending countless hours glued to their screens rather than engaging in real-world activities. Social media platforms, online gaming, and streaming services have created an engaging yet addictive digital ecosystem. Among these, reels have emerged as a dominant form of entertainment, captivating users with short, visually stimulating content that ranges from dance challenges and comedy skits to educational snippets and senseless videos. While initially sought as a break from daily routines, reels often trap users in an endless cycle of mindless scrolling that detracts from productivity and long-term goals.

Reels are crafted with algorithms and driven by artificial intelligence to provide instant gratification. However, this seemingly harmless indulgence is contributing to a concerning decline in social and emotional wellbeing. The short bursts of content, typically lasting a few seconds to a minute, are often paired with catchy music, effects, and fil- health. For parents, the drive

ters to maximise engagement. These features captivate both creators and viewers, fostering an obsession that has surpassed earlier trends like the

The statistics are staggering. In 2023, India had approximately 24 crore Instagram users, accounting for nearly 17 per cent of its population—the highest globally. Children as young as five years old are consuming reels, while parents take pride in showcasing their kids' talents online. Although reels highlight creativity and talent, they come with significant risks. Overexposure to adult themes, unsolicited criticism, and the pressure to perform for likes and shares can severely impact a child's self-esteem and emotional

for online validation often overshadows the responsibility to provide age-appropriate environments for their chil-

The dopamine rush triggered by watching reels creates a cycle of instant gratification, making it difficult for users to focus on meaningful achievements that require sustained effort. The infinite scroll feature exacerbates this issue, leading to binge-watching that consumes valuable time and energy. For youth, who are particularly vulnerable, this translates to lost opportunities for personal growth, skill development, and building genuine relationships.

Reels and Social Dynamics The cultural impact of reels extends beyond individual habits, influencing societal

norms and behaviors. Content creators often sensationalise material to attract more viewers, blurring the lines between private and public domains. This trend has led to the normalisation of inappropriate content, including vulgarity, obscenity, and indecent practice. tices, which are being readily adopted by impressionable audiences.

The effects are troubling. Incidents of cyberbullying, harassment, and social media-

driven disputes are on the rise. The dopamine-induced focus on short-term gratification undermines hard work and perseverance, fostering a culture of mediocrity. Youth, in particular, are losing precious productive years to the reel marathon, trading real-life interactions for virtual valida-

Physical and Cognitive Consequences

The overconsumption of reels is not only detrimental to mental health but also poses physical and cognitive risks. Prolonged screen time leads to issues such as poor concentration, memory deficits, sleep disturbances, and decreased academic or professional performance. Lifestyle disorders like obesity, diabetes, and hypertension are becoming more prevalent, exacerbated by sedentary habits encouraged by excessive reel consumption. **Breaking the Cycle**

Addressing the negative impact of reels requires a collective effort. At an individual level, self-discipline is crucial. Setting clear limits on screen time and prioritising meaningful activities can help break the cycle. Families play a pivotal role, as parents must lead by example, fostering environments that encourage "family time" and shared activities. Introducing hobbies and alternative forms of entertainment can also reduce reliance on

digital distractions. From a societal perspective, stringent regulations are necessary to monitor and control the type of content being created and shared. Governments

and tech companies should collaborate to design features that promote responsible platform usage.

The Way Forward

They must be used responsibly to avoid their harmful consequences. Striking a balance between virtual and realworld experiences is essential for leading a fulfilling life. Individuals need meaningful relationships, emotional support, and real-life achievements to thrive. By fostering awareness and

adopting healthier digital habits, we can harness the ben-efits of technology without compromising our wellbeing. (The writer has an experience of 17 years of teaching the under graduate students of Sri Guru Gobind Singh College of Commerce; views are personal)

2 US Navy pilots shot down over Red Sea in apparent 'friendly fire' incident

¬wo US Navy pilots were shot down Sunday over the Red Sea in an apparent "friendly fire" incident, the US military said, marking the most serious incident to threaten troops in over a year of America targeting Yemen's Houthi rebels.

Both pilots were recovered alive after ejecting from their stricken aircraft, with one suffering minor injuries. But the shootdown underlines just how dangerous the Red Sea corridor has become over the ongoing attacks on shipping by the Iranian-backed Houthis despite US and European military coalitions patrolling the

The US military had conducted airstrikes targeting Yemen's Houthi rebels at the time, though the US military's Central Command did not elaborate on what their mission was and did not immediately respond to questions from The Associated Press. The F/A-18 shot down had just flown off the deck of the USS Harry S. Truman aircraft carrier, Central Command said. On December 15, Central

Command acknowledged the Truman had entered the Mideast, but hadn't specified that the carrier and its battle

group was in the Red Sea. "The guided missile cruiser USS Gettysburg, which is part of the USS Harry S. Truman Carrier Strike Group, mistakenly fired on and hit the F/A-18," Central Command said in a statement.

From the military's description, the aircraft shot down was a two-seat F/A-18 Super Hornet fighter jet assigned to the "Red Rippers" of Strike Fighter Squadron 11 out of Naval Air Station Oceana, Virginia.

It wasn't immediately clear how the Gettysburg could mistake an F/A-18 for an enemy aircraft or missile, particularly as ships in a battle group remain linked by both radar and radio communication. However, Central Command

said that warships and aircraft earlier shot down multiple Houthi drones and an anti-ship cruise missile launched by the rebels. Incoming hostile fire from the Houthis has given sailors just seconds to make decisions in the past. Since the Truman's arrival, the

US has stepped up its airstrikes targeting the Houthis and their missile fire into the Red Sea and the surrounding area.

However, the presence of an American warship group may spark renewed attacks from the rebels, like what the USS Dwight D. Eisenhower saw earlier this year. That deployment marked what the Navy described as its most intense combat since World War II. On Saturday night and early Sunday, US warplanes con-

Sanaa, the capital of Yemen that the Houthis have held since 2014. Central Command described the strikes as targeting a "missile storage facility" and a "command-and-control facility,"

ducted airstrikes that shook

without elaborating.
Houthi-controlled media reported strikes in both Sanaa and around the port city of Hodeida, without offering any casualty or damage information. In Sanaa, strikes appeared particularly targeted at a mountainside known to be home to military installations. The Houthis later acknowledged the aircraft being shot down in the Red Sea. The Houthis have targeted

about 100 merchant vessels with missiles and drones since the Israel-Hamas war in the Gaza Strip started in October 2023 after Hamas' surprise attack on Israel that killed 1,200 people and saw 250 others to be a surprise at the same than the sa ers taken hostage.

Israel's grinding offensive in Gaza has killed more than 45,000 Palestinians, local health officials say. The tally doesn't distinguish between combatants and civilians combatants and civilians.

The Houthis have seized one

vessel and sunk two in a campaign that has also killed four sailors. Other missiles and drones have either been intercepted by separate US- and European-led coalitions in the Red Sea or failed to reach their targets, which have also included Western military vessels. The rebels maintain that they target ships linked to Israel, the US or the United Kingdom to force an end to Israel's campaign against Hamas in Gaza. However, many of the ships attacked have little or no connection to the conflict, including some bound for Iran.

The Houthis also have increas ingly targeted Israel itself with drones and missiles, resulting in retaliatory Israeli airstrikes.

Israeli strikes across Gaza kill at least 20

Israeli strikes across the Gaza Strip overnight and into Sunday killed at least 20 people, including five children, Palestinian medical officials

Israeli authorities meanwhile allowed Cardinal Pierbattista Pizzaballa, the leader of the Catholic Church in the Holy Land, to enter Gaza and cele-

Al-Aqsa Martyrs Hospital, which received the bodies. A man and his wife were killed in a strike in the southern city of Khan Younis on Sunday, just after midnight, according to the nearby Nasser Hospital. A strike on a car in Gaza City killed two people, according to the Health Ministry.

There was no immediate comment from the military on of the places where the light is," Pizzaballa said.

The buzz of Israeli drones circling overhead, a sound that has grown ubiquitous across Gaza during the war, could be heard throughout the Mass. The rare visit to Gaza by the Latin Patriarch came a day after Pope Francis had again criti-

cized Israel's actions in Gaza.

Holocaust, adamantly rejects such allegations. It says it has made great efforts to spare civilians and is only at war with Hamas, which it accuses of genocidal violence in the attack that ignited the war.

38 dead, over 100 missing in Congo after ferry capsizes in Busira river

Thirty-eight people are confirmed dead, and over 100 remain missing in Congo after an overloaded ferry — full of people returning home for Christmas — capsized in the river Busira late on Friday night, according to local officials and eye-witnesses. The boat sank less than four days after another one in the northeast of the country capsized, killing 25.

Twenty people are confirmed to have been rescued so far.

The boat was travelling in the northeast of the Congo as part of a convoy of other vessels, and the passengers were primarily merchants returning home for

of Ingende, the ferry contained "more than 400 people because it made two ports, Ingende and Loolo, on the way to Boende, so there is reason to believe that there were

Congolese officials have often warned against overloading and vowed to punish those violating safety measures for water transportation. However, in remote areas where most passengers come from, many cannot afford public transport for the few available roads.

At least 78 people drowned in October when an overloaded boat sank in the country's east while 80 lost their lives in

a similar accident near Kinshasa in June. The latest accident prompted anger at

town of Mbandaka, the capital of the Equateur province where the ferry sank, said he condemned the authorities for not

properly handling the recent capsizings.
"How can a ship navigate at night under the watchful eye of river service agents? And now we are recording over a hundred deaths," lamented Mr Bonina. The capsizing of overloaded boats is

also becoming increasingly frequent in this central African nation as more people are giving up the few available roads in favour of wooden vessels crumbling under the weight of passengers and their goods for security reasons.

The roads are often caught up in the deadly clashes between Congolese secu-Christmas, said Joseph Joseph
Kangolingoli, the mayor of Ingende, the last town before the site of the accident.

According to Ndolo Kaddy, a resident

Tity forces and rebels that sometimes block major access routes. Hundreds have already been killed or declared missing in such accidents so far this year.

brate a pre-Christmas Mass with members of the territory's small Christian community.

A strike on a school housing displaced people in Gaza City killed at least eight people, including three children, according to Gaza's Health Ministry. The Civil Defense, first responders affiliated with the Hamas-run government, had earlier said four children were among those killed.

The Israeli military said it carried out a precise strike on Hamas militants sheltering

A strike on a home in the central city of Deir al-Balah late Saturday killed at least eight people, including three women and two children, according to

those strikes.

Israel has continued to carry out daily strikes in Gaza more than 14 months into the war with Hamas. It says it only targets militants, accusing them of hiding among civilians, but the bombings frequently kill women and children.

Vatican envoy celebrates Mass with Gaza's Christians: Dozens of worshippers gathered in the Holy Family Church in Gaza City as Pizzaballa and other clergy celebrated Mass. A Christmas tree was decorated with golden ornaments and twinkling white lights, and altar boys wearing red and white robes held candles.

"For Christmas, we celebrate the light and we are wondering

Francis said Saturday that his envoy had been unable to enter the territory because of Israeli bombing. "Yesterday children have been

bombed. This is cruelty, this is not war," Francis said during his annual Christmas greetings at the Vatican. The pope recently called for an

investigation to determine if Israel's actions in Gaza constitute genocide, a conclusion later reached by Amnesty International and Human Watch. Rights International Court of Justice is investigating genocide allegations brought against Israel by South Africa.

İsrael, which was founded as a

ple, mostly civilians, and abducting around 250. Around 100 hostages are still in Gaza, at least a third of whom are believed to be dead.

Israel's subsequent bombardment and ground invasion have killed over 45,000 people in Gaza, more than half of them women and children according to the Gaza Health Ministry, which does not distinguish between fighters and civilians in its count.
The offensive has caused wide-

spread destruction and displaced some 90% of Gaza's 2.3 million people, often multiple times. Hundreds of thousands are packed into squalid tent camps along the coast as the

out of race to be Florida senator

AP WASHINGTON

ara Trump, the daughter-in-Llaw of President-elect Donald Trump, said on Saturday that she is removing herself from consideration to be a Florida senator — ending speculation that she could replace Republican Senator Marco Rubio, who has been tapped to be the incoming administration's secretary of state. "After an incredible amount of thought, contemplation, and encouragement from so many, I have decided to remove my name from consideration for the United States Senate," Lara Trump posted on X. Instead, she promised a "big announcement to share in

January". The announcement comes weeks after Trump announced that she was stepping down as co-chair of the Republican National Committee, a move which raised questions about

whether she might be vying for a Senate seat. If Rubio is confirmed, his replacement — who would be chosen by Republican Florida Governor Ron DeSantis would serve for two years until the next regularly scheduled election in 2026. Elected as RNC co-chair in March, Trump was a key player in the GOP retaking the White House and control of the Senate, while maintaining a narrow House majority. What she does next could shape Republican politics, given her elevated political profile and her ties to the incoming president.

The idea of placing a Trump family member in the Senate had been backed by some Republicans, including Maye Musk, mother of Tesla and SpaceX CEO Elon Musk, who Trump has named co-head of a group tasked with reducing federal spending and regulations during his second term as

Lara Trump drops | Donald Trump taps 'Apprentice' producer Mark Burnett as special envoy to UK

 $M_{
m producer}^{
m ark}$ Burnett, the power producer who helped reintroduce Donald Trump to a national television audience with "The Apprentice", is being tapped by the president-elect as special envoy to the United Kingdom in his upcoming administration.

"With a distinguished career in television production and business, Mark brings a unique blend of diplomatic acumen and international recognition to this important role," Trump announced on Saturday.

Burnett, who was born in London, helped produce hits like "Survivor" and "The Voice", but is perhaps best known for teaming up with Trump for "The Apprentice", which first aired on NBC in 2004.

Trump had been well-known in real estate and pop culture circles for decades. But the show helped again make him a household name — though

in 2015, the same year he launched his first White House

The selection of Burnett continues Trump's trend of filling out his incoming administration with people who have high-profile backgrounds in television or politics, or both including his choice to be defence secretary, Pete Hegseth, a former co-host of "Fox and Friends Weekend", and ex-television doctor and unsuccessful candidate Pennsylvania, Mehmet Oz.

Trump's first campaign in 2016 was rocked by allegations about his conduct on "The Apprentice" and other appearances during his association with NBC, notably in footage in which he said he could sexually assault women and get away with it because he was a

Almost a decade after he left his reality TV role, Trump's television career remains central to rise. The show presented Trump Tower to tens of millions of people as a symbol of power and success before Trump launched his first campaign from the building's lobby. 'Mark is known for creating and producing some of the biggest shows in Television History," Trump wrote in his statement on Burnett, listing many of his biggest hits before adding, "most notably, 'The Apprentice" and noting that Burnett "has won 13 Emmy Awards!"

Special envoys are usually picked by presidents for the world's traditional hotspots, including the Middle East where Trump has already said he would like Steven Witkoff to fill the role. The United Kingdom, which has long enjoyed a "special relation-ship" with the US that makes it one of Washington's strongest global allies, is not typically a candidate for such posts.

AP WEST PALM BEACH (US)

Trump severed ties with NBC his biography and political But Trump has appounced a series of special envoy positions to several top loyalists ahead of Inauguration Day on January 20, including his former ambassador to Germany Richard Grenell who he chose as envoy for special missions. That announcement joined previous ones including Adam Boehler as special presidential envoy for hostage affairs, and Keith Kellogg to serve as special envoy for Ukraine and Russia. Trump also announced on December 2 that he was picking billionaire investment banker Warren Stephens for the more standard role of US ambassador to Britain. That might raise questions about how a special UK envoy could overlap duties, but the president-elect said in his statement that Burnett "will work to enhance diplomatic relations, focusing on areas of mutual interest, including trade, investment opportunities, and cultural exchanges".

Pickup truck driver killed by cops in Texas

AP KILLEEN

Apickup truck driver fleeing police careened through the doors of a JCPenney store in Texas and continued through a busy mall, injuring five people before he was fatally shot by officers, authorities said.

The truck crashed into the department store in Killeen, about 68 miles (109 kilometres) north of the state capital Austin around 5.30 pm Saturday and continued into the building, striking people as it went, Sgt. Bryan Washko of the Texas Department of Public Safety said in an evening news brief-

Emergency medical services transported four victims from the mall to area hospitals and another travelled to a hospital separately. They ranged in age from 6 to 75 years old and their conditions were not immediately known, he said.

The chase began around 5 pm on Interstate 14 in Belton, about 20 miles (30 kilometres) from Killeen, after authorities received calls about an erratic driver in a black pickup, Ofelia Miramontez of the Killeen Police Department said. The driver then pulled off the

road and drove into the parking lot of the mall.
"The suspect drove through the

doors and continued to drive through the JCPenney store, striking multiple people," Washko said.

'The trooper and the Killeen police officer continued on foot after this vehicle, which was driving through the store, actively running people over. He travelled several hundred vards."

Officers from the state public safety department, Killeen and three other law enforcement agencies "engaged in gunfire to eliminate this threat," Washko

Sunak exits Downing Street, successor Starmer revives hope for FTA with India

PTI LONDON

The year earmarked for general elections in both India and the UK was destined to throw up many new scenarios on the political front. Among them was a decision to relaunch a "mutually beneficial" Free Trade Agreement (FTA) between the two coun-

Just as India's mammoth democratic exercise edged towards its phased conclusion in 2024, Britain's first Indian-origin prime minister Rishi Sunak surprised many within his own Conservative Party by calling an earlier-than-expected election on July 4 - exactly a month on from a third term win for Prime Minister Narendra Modi's National Democratic Alliance.

This meant the FTA talks, having entered their 14th round of intense negotiations, slipped

into a more uncertain phase until the new Labour Party-led government committed itself to deepening our bilateral ties". "We agreed to raise the ambition of our UK-India compre-

hensive strategic partnership... Crucially, this work will start with trade and investment, and I am pleased to say that we agreed to relaunch Free Trade Agreement negotiations early in the new year," said newlyelected British Prime Minister Keir Starmer after his first meeting with Modi on the sidelines of the G20 Summit in Brazil last month.

It mapped out a clearly defined landscape for the future of the India-UK trade ties, which official UK government statistics clock at GBP 42 billion a year in the 12 months to June

Sunak may not have succeeded in getting the FTA over the line, but, as he admitted in his Commons with a record of

resignation speech at the doorstep of 10 Downing Street, British voters had given a "clear signal" in favour of change.

The 44-year-old leaves behind quite the legacy despite presiding over the Conservatives' worst electoral performance in history. His words that "one of the most remarkable things' about modern Britain is just how "unremarkable" his migrant roots were to the top ob will resonate with many, not least a 1.8-million-strong Indian diaspora.

Having resigned after the bruising election defeat, Sunak served as interim Opposition leader before handing over the reins to Kemi Badenoch as the new Tory leader.

A fellow British Indian leadership hopeful, Priti Patel, soon returned to the frontbenches of Parliament as shadow foreign secretary in a House of

nearly 30 parliamentarians of Indian heritage – including Lisa Nandy as Culture Secretary and Seema Malhotra as immigration minister. Under Malhotra, the UK intro-

hiked minimum salary cut-offs. A simmering anti-immigration sentiment was behind a flurry of riots triggered by misinformation around the Welsh-born suspect behind a

UNITED KINGDOM

duced measures to curb rising migration, including giving an independent body more power to reduce reliance on foreign labour and expedite the return of illegal immigrants.

She has a tough task ahead of digitising the entire UK visas extended until March 2025. Indian students and profession-

government's clamp down on

accompanying spouses and

and immigration system, the deadline for which has been als are among those impacted, even as their numbers began registering a steady decline this year with the previous fatal stabbing of three schoolgirls in Southport, north-west England, at the end of July. While anti-racism activists turned out for large counterprotests, the issue of migration

will continue to dominate the news agenda in the new year even as businesses struggle to meet skills requirements across different sectors

It was against this backdrop that the BT Group, back in August, welcomed Bharti Global's acquisition of a significant stake in the British telecom major as "great vote of confidence". Chairman Sunil Bharti Mittal described the investment in an "iconic" British company as "significant milestone" for Bharti Enterprises. Another Indian multinational,

Tata Steel, also hit a major milestone as it shut down its furnaces at the UK's largest steelworks in Port Talbot, Wales, to transition towards greener steelmaking.

It came just before Tata Group icon Ratan Tata, behind setting the course for several cross-sector India-UK tie-ups, breathed his last in Mumbai on October Business and Trade Secretary Jonathan Reynolds led the tributes in the UK to "truly a titan of the business world and someone who played a huge role in shaping British industry"

The two-way flows were reflective across different areas beyond business and trade, especially over Diwali - celebrated widely across UK government corridors.

Starmer followed in the footsteps of his Hindu predecessor to light diyas on the doorstep of Downing Street but courted controversy when meat and alcohol were served during the festivity. "We understand the strength of feeling on this issue and so would apologise to the community and assure them it will not happen again," his spokesperson said.

The apology came just before Starmer met with Modi, who also raised the issue of longpending extradition requests including fugitive diamond merchant Nirav Modi, who remains behind bars at Thameside, south-east London, after another failed bail attempt

in May this year. Sanjay Bhandari, a consultant in the defence sector wanted in India on alleged tax evasion and money laundering charges, won a High Court appeal against his extradition order which is to Also expected in 2025 is King Charles III's return to Bengaluru for a wellness retreat where the 76-year-old monarch and wife Camilla made a private stopover in October on their way back from the Commonwealth Heads of Government Meeting (CHOGM) in Samoa. It came at the close of a tough

conclude in the new year

year for the royals with Charles and his daughter-in-law, Kate Middleton, revealing their cancer diagnosis earlier. However they are both back on official duties following their treatment and looking ahead to a packed schedule in the new year. As 2024 comes to a close with both nations reaffirming their commitment to deepening trade, business, and cultural ties, 2025 holds promise for a stronger partnership and new opportunities on the global

German authorities received tipoffs last year about suspect in Christmas market attack

AP ■ MAGDEBURG (GERMANY)

erman authorities said Tthey received tipoffs last year about the suspect in a car attack at a Christmas market in Magdeburg as more details emerged on Sunday about the

chiatry and psychotherapy. Authorities say he does not fit the usual profile of perpetrators of extremist attacks. He described himself as an ex-Muslim who was highly critical of Islam and in many posts on social media

Saudi Arabia in November 2023, which led authorities to launch "appropriate investiga-"The man also published a huge number of posts on the internet. He also had contact with various authorities, made insults and

year. "This was taken seriously, like every other of the numerous tips," the office said. But it also noted that it is not an investigative authority and that it referred the information to the responsible authorities. It gave no other

which is about 130 kilometres west of Berlin, and beyond. The suspect was on Saturday evening brought before a judge, who behind closed doors ordered him to be kept in custody on allegations of murder and attempted murder. He is facing a possible indictment.

The horror triggered by yet another act of mass violence in Germany make it likely that

migration will remain a key issue as the country heads toward an early election on February 23. A deadly knife attack in Solingen in August pushed the issue to the top of the agenda, and led the gov-ernment of Chancellor Olaf Scholz to tighten border security measures. Right-wing figures from across Europe have criticised German authorities for having allowed high levels

of migration in the past and for what they see as security failures now.

Hungarian Prime Minister Viktor Orbán, who is known for a strong anti-migration position going back years, used the attack in Germany to lash out at the European Union's migration policies and described it as a "terrorist act." At an annual press conference in Budapest on Saturday, Orbán insisted that "there is no doubt that there is a link between the changed world in Western Europe, the migration that flows there, especially illegal migration and terrorist acts.'

Orbán vowed to "fight back' against the EU migration policies and alleging without evidence that "Brussels wants Magdeburg to happen to Hungary, too."

Candles, flowers and wreaths sit in front of the entrance to St. John's Church early Sunday, in Magdeburg, Germany, after a car drove into a crowd at a Christmas market

five people killed.

Authorities have identified the suspect as a Saudi doctor who arrived in Germany in 2006 and had received permanent residency.

Police haven't publicly named the suspect, in line with privacy rules, but some German news outlets have identified him as Taleb A. and reported that he was a specialist in psy-

expressed support for the faranti-immigrant Alternative for Germany (AfD) party.

He is being held in custody as authorities investigate him. The head of the Federal Criminal Police Office, Holger Münch, said in an interview on the German broadcaster ZDF on Saturday that his office received a tipoff from

even threats. However, he was not known to have committed acts of violence," said Münch, whose office is the German equivalent of the FBI.

He said that the warnings, however, proved to be very unspecific. The Federal Office for Migration and Refugees also said Sunday on X that it received a tipoff about the suspect in the late summer of last details.

Police in Magdeburg, the capital of the state of Saxony-

were injured, including 41 in serious condition. were being treated in multiple

Zionist regime and those who accompanied them."

Prominent Lebanese figure visits Syria, hoping for post-Assad reset in troubled relations

AP BEIRUT

Aprominent Lebanese politician held talks on Sunday with the insurgent who led the overthrow of Syria's President Bashar Assad, with both expressing hope for a new era in relations between their countries.

Druze leader Walid Jumblatt was a longtime critic of Syria's involvement in Lebanon and blamed Assad's father, former President Hafez Assad assassination of his own father decades ago. He is the most prominent Lebanese politician to visit Syria since the Assad family's 54-year rule came to an end. He held talks with Ahmad al-Sharaa, formerly known as Abu Mohammed al-Golani, who led the Sunni Islamist rebels who swept into Damascus earlier this month and forced the younger

Assad from power. "We salute the Syrian people for their great victories and we salute you for your battle that you waged to get rid of oppression and tyranny that lasted over 50 years," said Jumblatt, a key figure in Lebanon's Druze minority and the former leader of a leftist

He expressed hope that Lebanese-Syrian relations "will return to normal?

Jumblatt's father, Kamal, was killed in 1977 in an ambush near a Svrian roadblock during Syria's military intervention in Lebanon's civil war. The younger Jumblatt was a critic of the Assads, though he briefly allied with them at one point to gain influence in Lebanon's ever-shifting political alignments.

"Syria was a source of concern and disturbance, and its interference in Lebanese affairs was negative," al-Sharaa said, referring the Assad government will no longer be a case of negative interference in Lebanon," he said, pledging that it would respect Lebanese sovereignty.

Al-Sharaa also repeated longstanding allegations that Assad's government was behind the 2005 assassination of former Lebanese Prime Minister Rafik Hariri, which was followed by other killings of prominent Lebanese critics of Assad.

Last year, the United Nations closed an international tribunal investigating the assassination after it convicted three members of Lebanon's Hezbollah — an ally of Assad — in absentia. Hezbollah denied involvement in the massive February 14, 2005 bombing, which killed Hariri and 21 others

Govt to infuse ₹500 Crore in IFCI to improve its financial health

The government has decided to infuse Rs 500 crore capital in state-owned IFCI to improve its fine raid, beath, about the financial health ahead of the company's proposed restructuring and consolidation into a group.

With the infusion, the government of India's holding in the company is expected to further increase from existing 71.72 per cent as on September 2024.

The capital infusion plan for IFCI was approved through the passage of the first Supplementary Demand for Grants for 2024-25 in Lok Sabha last

The Supplementary Demand for Grants for 2024-25 made an allocation for an additional amount of Rs 499.99 crore for 'Subscription to the Share Capital of Industrial Finance Corporation of India (IFCI). "Taking into account savings of Rs 50.07 crore available in the same section of the grant, the remaining amount of Rs 449.92 crore will be met from surrender of savings available in the capital section of Demand No.30-DEA and it will not entail any additional cash outgo," the Supplementary Demand for Grants

issuance of equity shares to the government.

The Industrial Finance Corporation of India was set up by the government on July 1, 1948 as the Development Institution in the country.

In the second quarter ended September 2024, IFCI had booked a loss of Rs 22 crore and in the first half of FY24, a loss to the tune of Rs 170 crore.

Earlier this year, IFCI had raised Rs As part of the revival and 500 crore capital through the restructuring, the Department of

Financial Services (DFS), Ministry of Finance, last month in-principle approved 'Consolidation of IFCI Group' which entails merger/amalgamation of IFCI and StockHolding Corporation of India Limited and

other group companies. As per the proposal, StockHolding Corporation of India Ltd, IFCI Factors Ltd, IFCI Infrastructure Development Ltd and IIDL Realtors Ltd will merge with IFCI Ltd. Further, StockHolding Services Ltd, IFCI Financial Services Ltd, IFIN Commodities Ltd and IFIN Credit Ltd will be merged into a single entity, which will be a direct subsidiary of the consolidated listed

entity.

Additionally, StockHolding
Document Management Services
Ltd, StockHolding Securities IFSC
Ltd, IFIN Securities Finance Ltd,
IFCI Venture Capital Funds Ltd and
MPCON Ltd shall be direct
subsidiaries of the consolidated listed entity that is IFCI.

Established in 1948 as a statutory corporation, IFCI currently has many subsidiaries and joint ventures and associates under its fold. By the early 1990s, it was recognised

that there was a need for greater flexibility to respond to the changing financial system. It was also felt that IFCI should directly access the capital markets for its funding needs. It is with this objective that the constitution of IFCI was changed in 1993 from a statutory corporation to company under the Indian Companies Act, 1956.

Subsequently, the name of the company was also changed to 'IFCI Ltd' with effect from October 1999. However in 2015, the government again raised its stake in the firm to over 51 per cent, making it a public

After two weeks of buying, FPIs turned net sellers in Indian equities this week, with a net withdrawal of Rs 976 crore amid a strengthening US dollar and steady rise in US 10-year bond yields, impacting investor sentiment.
Foreign Portfolio Investors (FPIs) began the week on a positive note, investing Rs 3,126 crore in equities during the first two trading sessions (December 16-20).

However, the trend reversed in the latter half of the week, with FPIs offloading equities worth over Rs 4,102 crore in the subsequent three sessions. This resulted in an overall net outflow of Rs 976 crore during the week, data from National Securities Depository Limited showed.

this short-term Despite reversal, the broader December trend remains positive. FPIs have infused Rs 21,789 crore into Indian equities so far this month, reflecting continued confidence in India's economic growth potential and its resilient markets.

meeting and uncertainty about

above 108) and steady increase in the US 10-year bond yields to 4.5 per cent contributed to the FPIs selling.

"India-specific issues like slowing growth concerns and flat corporate earnings in Q2 also contributed to the FPIs selling. The strength of the US economy, good corporate earnings growth, and strong dollar are factors favouring the US," VK Vijayakumar, Čhief Investment Strategist, Geojit

Financial Services, said. FPI selling has brought down the prices of certain large-cap segments, such as banking, making valuations more attractive. Investors can take advantage of this market downturn to invest in quality

Leather exports likely to grow by over 12 per cent to USD 5.3 bn this fiscal: CLE

PTI ■ NEW DELHI

The country's leather and footwear exports are expected to grow by over 12 per cent to USD 5.3 billion in the current financial year on account of healthy demand in key global markets, CLE Chairman Rajendra Kumar Jalan has said.

He also said several global companies, including from the US, are showing keen interest in setting manufacturing bases

"Our exports were USD 4.69 billion in 2023-24, and this fiscal, we are expecting it to increase to USD 5.3 billion. Order books are good for the coming months," Jalan said, adding that "huge demand is coming from the US and

exporters Indian opportunities in Africa as

He informed that the providing employment to about 42 lakh people. The sector has a total turnover of about USD 19 billion, which includes exports of USD 5

"The sector has the potential to reach a total turnover of

production of USD 25 billion and export turnover of USD 13.7 billion," Jalan said.

He also requested the government that roduction - Linked Incentive Scheme (PLI) be extended to the sector as it will help achieve the USD 47 billion export target and create additional jobs for -8 lakh neor

When asked about Budget expectations, he said the council has urged the finance ministry to consider removing export duty on wet blue and crust from 20 per cent at present.
"We have also requested to

USD 47 billion by 2030, remove import duty on

which includes the domestic finished leather," Jalan said. Talking about the sector, Kanpur-based Growmore Ltd MD International Yadvendra Singh Sachan said that for Indian exports, the US and EU markets are recording healthy growth

> "I request the domestic industry to work on increasing scale as it will shipments," he said.

Sachan suggested that there is a need to brand Indian leather goods in the global and domestic markets. On challenges, he said the

Front-running case: Sebi bans nine entities from market, impounds illegal gains of over ₹21 Crore

PTI ■ NEW DELHI

Markets regulator Sebi has uncovered a frontrunning scheme involving PNB MetLife India Insurance Company equity dealer Sachin Bakul Dagli and eight other entities, who generated illegal gains of Rs 21.16 crore. The front-running by these entities continued for more than three years.

Sebi, through an interim order, prohibited Sachin Bakul Dagli and eight other entities from the securities market and impounded the unlawful gains made by them. In a statement on Sunday, PNB MetLife stated that it has fully cooperated with Sebi in the investigation and taken disciplinary action against the individual involved.

"In line with our internal processes, we have taken disciplinary action. PNB MetLife is committed to upholding the highest standards of corporate and integrity," the statement

Sebi had conducted an examination into the suspected front running of the trades undertaken by the Big Client, PNB Metlife Índia Insurance, by certain entities. The focus of the investigation

suspected entity(ies) had front-run the trades of Big Client in connivance with other entities, including and/or managers, if any, and thereby violated the provisions of the SEBI's PFUTP (Prohibition of Fraudulent and Unfair Trade Practices) rules and SEBI Act. The investigation period has been taken from January 1, Distributors Pvt. (WDPL) 2021, to July 19, 2024. In its and Pragnesh Sanghvi. investigation, Ssbi found that Directors of DRPL and most of the trading decisions WDPL, including Arpan Metlife PNB delegated to Sachin Dagli for execution. The regulator, in interim

passed on Friday, noted that Sachin Bakul Dagli (equity dealer, PNB MetLife) and his brother Tejas Dagli (equity Investec) trader,

public information about impending trade orders of PNB MetLife and Investec's institutional clients.

They used this information to make trading decisions and shared it with Sandeep Shambharkar, who executed front-running trades through the accounts of Dhanmata Realty Pvt. (DRPL), Worthy

Kirtikumar Shah, Kabita Saha, and Jignesh Nikulbhai Dabhi, were also involved in facilitating this scheme.

This group colluded to create and execute a fraudulent front-running scheme, violating the SEBI Act and Prohibition of Fraudulent and

Unfair Trade Practices Regulations, resulting in unlawful profits. Trades were executed using non-public information shared via chat platforms. A Buy-Buy-Sell or Sell-Sell-Buy trading pattern was used to profit from market movements caused by large client trades.

"Altogether, 6,766 instances of such front-running trades were observed in the account of DRPL, WDPL and Pragnesh Sanghyi and resultantly, unlawful gains of Rs 21,15,78,005 were made by these entities," Sebi noted. The front-running activities

through the accounts of suspected entities DRPL, WDPL and Pragnesh Sanghvi have continued for a significantly long period of more than three years, it added. Accordingly, Sebi has restrained these entities "from buying, selling or dealing in securities, either directly or indirectly, in any manner orders".

Additionally, "an amount of Rs 21,15,78,005 being the total unlawful gains earned from the alleged front running activities, impounded, jointly and severally" from the entities, the regulator said.

Akasa Air expects to add few more

planes this fiscal

PTI ■ NEW DELHI

 $A^{\rm kasa \ Air \ is \ in \ continuous}_{\rm discussions \ with \ Boeing}_{\rm on \ aircraft \ deliveries \ and}$ expects to add a few more planes to its fleet in the current fiscal ending March 2025, the airline's chief Vinay Dube has said. The carrier, which started

flying in August 2022, currently has a fleet of 26 Boeing 737 MAX planes and 200 aircraft are on order. In a recent interview to PTI,

Dube said that 2024 has been a good year for the airline and will continue to build on it in

On the service excellence we have provided, I think consumers look at Akasa as being a kind and gentler empathetic. We will continue to treat our travellers in a kind, gentle manner," he said and added that the airline also continues to make sure

Earlier this month, some pilots flagged concerns about alleged training and safety issues, and the airline had rejected them as baseless and untrue. This year, the carrier has inducted 4 planes into its

valued firms slumps ₹4.95 lakh Crore

The combined market valuation of all the top-10 most valued firms plunged Rs 4,95,061 crore last week, in line with a bearish trend in equities, where Consultancy Services and Reliance Industries faced the sharpest erosion

Last week, the BSE benchmark tanked 4,091.53 points or 4.98

The Indian equity market recorded its steepest weekly decline since June 2022, with the Nifty losing 4.77 per cent. The week began with the US Federal Reserve's which announcement, significantly altered market

sentiment. "Led by Chair Jerome Powell, the Federal Reserve revised its

outlook to only two rate cuts in 2025 instead of the previously anticipated four. This shift in policy dampened market confidence," Pravesh Gour, Senior Technical Analyst, Swastika Investmart Ltd, said.

The market capitalisation (mcap) of Tata Consultancy Services (TCS) slumped Rs 1,10,550.66 crore to Rs 15,08,036.97 crore.

The valuation of Reliance tumbled Industries to Rs 91,140.53 crore 16,32,004.17 crore.

HDFC Bank's market eroded valuation by 76,448.71 crore 13,54,709.35 crore and that of Bharti Airtel tanked Rs 59,055.42 crore 8,98,786.98 crore.

The mcap of State Bank of India plunged Rs 43,909.13 crore to Rs 7,25,125.38 crore and that of ICICI Bank diminished by Rs 41,857.33 crore to Rs 9,07,449.04 crore. The valuation of Infosys plummeted Rs 32,300.2 crore to Rs 7,98,086.90 crore and that of Life Insurance Corporation of India (LIC) fell by Rs 20,050.25 crore to Rs 5,69,819.04 crore. Hindustan

Unilever's mcap declined by Rs 12,805.27 crore to Rs 5,48,617.81 crore and that of ITC went lower by Rs 6,943.5 crore to Rs 5,81,252.32 crore. In the ranking of the top-10 firms, Reliance Industries retained the most valued firm title followed by TCS, HDFC Bank, ICICI Bank, Bharti Airtel, Infosys, State Bank of India, ITC, LIC and Hindustan Geneva

Mcap of top-10 most India has potential to be key sustainable aviation fuel producer, says IATA official

PTI ■ GENEVA/NEW DELHI

design development.

India has the potential to be La key producer of sustainable aviation fuel by utilising its ethanol supplies and availability of lipids feedstocks like non-edible industrial oils, according to a senior official at the global airlines' grouping IATA.

With decarbonisation in focus, efforts are being made to reduce emissions and over the years, Indian carriers have operated some flights with a blend of Sustainable Aviation Fuel (SAF) and traditional Aviation Turbine Fuel (ATF). Hemant Mistry, Director of Net Zero Transition at the International Air Transport Association (IATA), said the ecosystem for SAF has developed but there is more

work to be done. "There are some very good opportunities for India right now. One is in terms of SAF feedstocks like agricultural waste... There is a growing understanding on what to do for SAF production. We are talking to a number of companies to understand how we can collaborate... Oil companies," Mistry told PTI in a recent interview in

International Transport Association (IATA) represents around 340 airlines, including Indian carriers, that account for more

than 80 per cent of the global air traffic

"India, the third largest ethanol producer consumer today, has the potential to emerge as a key SAF producer utilising its existing and advanced ethanol

"At IATA, we see sustainable, low-carbon-intensity ethanol as a promising feedstock to propel India's aviation sector growth," Mistry said.

This year, global production is estimated at 1 million tonnes (1.3 billion litres), lower than the earlier projection of 1.5 million tonnes (1.9 billion litres) but

higher than the volume of 0.5 million tonnes (600 million litres) recorded in 2023, according to IATA. As the aviation sector pursues

ambitious

efforts

decarbonisation, IATA has

said SAF production growth is disappointingly slow.
While noting that India is

poised to emerge as the world's third largest aviation market, Mistry said there is also the opportunity for the country to emerge as a SAF hub in the region.

"The position can be further strengthened by the early adoption of innovative global accounting practices where India's SAF supplies can cater to the global aviation market, a true mark of act local, think global" he noted global," he noted.

India is one of the world' fastest growing civil aviation markets and airlines are expanding their fleets as well as networks to cater to the rising traffic demand. On mandating use of SAF, Mistry pointed out that the

"You can't have a mandate without technology maturity. That is a big risk

In 2025, IATA expects SAF production to touch 2.1 million tonnes (2.7 billion

India has the availability of lipids feedstocks like nonedible industrial oils, animal fats and tallows where the supply chains are not well developed with limited supply for biodiesel production, Mistry said.

The country's surplus annual biomass availability is estimated to be more than 200

With multiple options available for road fleets, lipidsbased feedstock must be used for India's SAF value chains. These oily feedstocks can be utilised at existing refineries by ASTM-qualified HEFA coprocessing pathways, Mistry said. Consultancy Deloitte, in a report in October this year, said India has the potential to produce 8-10 million tonnes of Sustainable Aviation Fuel (SAF) by 2040, and investments worth USD 70-85 billion will be required to achieve the production.

On the priorities under the SAF umbrella, Mistry said it is question about more support to get the technologies to maturity and mandate is a work for scale enable some sort of market but that can only come later. development.

CII seeks reforms in India's priority sector lending framework

PTI ■ NEW DELHI

Industry body CII has proposed reforms in India's Priority Sector Lending (PSL) framework, suggesting inclusion of emerging sectors and high-impact sectors like digital infrastructure, green initiatives, healthcare, and innovative manufacturing. Arguing that

Development Finance Institutions (DFIs) like SIDBI and NaBFID (National Bank for Financing Infrastructure and Development) have their roles cut out as they have earmarked sectors to finance, the chamber also suggested setting up of a high level committee to look at the revision of PSL norms and explore the need for any new DFIs to cater to some of the

new and emerging sectors. Priority Sector Lending is a policy tool aimed at ensuring that key sectors crucial to the nation's development receive adequate financial support. Mandated by the Reserve Bank of India (RBI), PSL obligates banks to allocate a specified proportion of their loans to sectors such as agriculture, education, housing,

industries. The framework ensures equitable credit distribution,

contributing to the socioeconomic growth underserved areas.

Despite its massive success, the PSL framework requires recalibration to relevant. This regular remain recalibration is essential to ensure that the financial resources are optimally distributed, in harmony with our vision of Viksit Bharat

2047, CII stated. For instance, agriculture contributes 14 per cent of the GDP today, its PSL allocation remains at 18 per cent, unchanged from when its GDP share exceeded 30 per cent.

Similarly, sectors like infrastructure and innovative manufacturing lack adequate PSL focus despite their potential to drive economic growth, the chamber pointed

Chandrajit Banerjee "Sectors like remarked, agriculture have reduced contribution to GDP from 30 per cent in 1990s to about 14 per cent now.

Hence, it is time that Priority Sector Lending (PSL) framework be reviewed every 3-4 years to align based on emerging priorities and PSL allocations should be in line with GDP contributions and sectoral growth potential.

Mindful snacking can keep you satisfied, nourish your body, and help you avoid unhealthy choices if you embrace nutritious options like pecans to indulge wisely and guilt-free, writes **KAVITA DEVGAN**

inter is here, and so is the temptation to indulge in comforting treats! With the chilly weather encouraging cosy evenings and festive gatherings, snacking often takes center stage. But mindless munching, especially on unhealthy snacks, can derail your health and lead to unwanted weight gain. Instead of avoiding snacks altogether, the key is to snack smart and make choices that nourish your body while satisfying your cravings.

WHY SMART SNACKING **MATTERS**

Snacking isn't inherently bad—it's what and how you snack that matters. Smart snacking can fill nutritional gaps, keep hunger in check, and even prevent overeating during main meals. On the other hand, poor choices, like fried or sugary snacks, can add empty calories, lead to guilt, and make

season difficult.

SMART SNACKING RULES

staying healthy during the

PLAN YOUR SNACKS: Snacks aren't extras—they should be part of your daily meal plan. Choose nutrient-rich options that complement your meals. A great addition to your winter snack list is American pecans. Packed with over 19 vitamins and minerals, they're now easily available in India and are a

nutritious, satisfying option.
MIND PORTION SIZES: Snacking isn't feasting. A proper snack should be small but fulfilling. For instance, 30 grams of pecans (about 19 halves) offer 200 calories, 3 grams of protein, and fibre to keep you

SATISFY YOUR CRAVINGS THOUGHTFULLY: Identify what

sweet—and choose a healthier alternative. If you love crunchy snacks, roasted pecans are an excellent choice. They retain their nutritional profile and are rich in antioxidants, even after

roasting SNACK TO CURB HUNGER, NOT BOREDOM: Snack mindfully when you're hungry, not out of habit or boredom. Avoid overindulging and you're craving-crunchy, salty, or balance high-calorie snacks with

lighter choices during other meals. A handful of pecans paired with fresh fruits can be a delicious and balanced winter snack.

BE PREPARED: Keep healthy snacks handy-store nuts in your bag, desk drawer, or even your car. Pecans are a fantastic non-perishable option for when hunger strikes unexpectedly. This way, you'll avoid grabbing unhealthy, convenient options.

SNACKING IN STYLE DURING FESTIVITIES

☐ Roasted pecans can be your go-to snack for cosy evenings. They're also perfect for hosting guests during winter celebrations.

☐ Looking for gifting ideas? Ditch traditional sweets and consider gifting American pecans. They're healthy, innovative, and sure to be appreciated by health-conscious friends and family.

SIMPLE WAYS TO ROAST **PECANS**

BASIC ROAST

 Spread pecans evenly on a baking sheet.

☐ Bake at 180°C for 7-10 minutes, stirring occasionally for even roasting. SPICED ROAST

☐ Toss pecans with a mix of olive oil, paprika, and a pinch of salt.

Roast at 180°C for 10 minutes for a flavourful twist.

This winter, embrace mindful snacking by making smart choices like pecans.

The author is a nutritionist and has taken inputs from American Pecan

HOLISTIC APPROACH TO **COMBAT DISEASES**

By **DR SHIFALIKA GOENKA**

hronic diseases like diabetes, high blood pressure, heart attacks, ✓ strokes, and obesity are rapidly rising in India. The good news is that more than half of these conditions are preventable through actions taken through multi-sectoral policy action, simplified generic drug policies, community action, and empowered individuals.

The most potent ammunition to protect from chronic diseases is a healthy lifestyle. A healthy lifestyle consists of a diet rich in locally available and inexpensive fruits and vegetables, whole grains, pulses, nuts, and seeds, with extreme moderation in salt and sugar, refined foods, and sugar-sweetened beverages. Additional steps include avoiding tobacco and alcohol. Exercise produces endorphins and is addictive. Leisure and physical activity should be part of everyone's life. All these require an empowered community, an enlightened individual, and an energetic polity.

SPECTS OF THE ECOSYSTEMS THAT NEED TO BE PART OF THE

Social norms and policies must achieve the following for a health-promoting

Healthy Eating: Healthy foods such as fruits and vegetables in their raw forms (and cooked), cheap, nuts, seeds, pulses, whole grains, and healthy oils must be made safer, cheaper, and more readily available, accessible, and affordable across access points such as public transport, at the workplace, and in educational institutes.

Controlling portion sizes is critical. Large portions of unhealthy foods and beverages, especially at discounts, have been proven to push people to eat more. Large servings, large plates, supersized meals, and bottomless drinks must be de-incentivised, and smaller portions must be incentivised. Children must be protected from unhealthy foods and beverage advertising onslaught. Also, targeting children by extolling children to persuade them into unhealthy behaviours, food, and beverages should not be allowed.

Eliminating trans fats and tobacco and decreasing artificial sugar and refined foods are universal goals from a scientific perspective.

The unorganised sector dominates the Indian food market and is pricesensitive. Lower taxes on healthy oils, higher taxes on unhealthy oils, and cheaper fresh fruits and vegetables will boost healthy food production and consumption.

Health Promoting Town Planning Critical to Healthier Communities

Scientific research shows that providing wide sidewalks, large parks, and green forests within a 0.5 km radius of every household improves health in many ways, including preventing more than 50 chronic diseases and improving mental health for the residents and families staying in the vicinity. Trees also act as natural filters, reducing air pollution and creating a healthier environment.

A study published in JACC Advances has shown that living in high-traffic, congested localities alongside highways increases the local population's blood pressure and chronic diseases. High air pollution is a public health crisis. Preventing air pollution should be a top priority across all ministries, as well as housing and development. High air pollution can shorten life- spans by 1.7 years and increase chronic diseases like diabetes, high blood pressure, lung diseases, and asthma, among those exposed to high levels of air

The holistic way to address the challenge of chronic diseases is to create a grid environment conducive to healthy eating and healthy living through multiple sectors. This leads to a healthy country, systems, societies, and happy people.

The author is the Deputy Director & Head, Health Promotion, Physical Activity & Obesity Prevention, Centre for Chronic Disease Control (CCDC)

SOLUTION TO POLLUTION

By **Arun Duggal**

elhi once again finds itself enveloped in a thick blanket of smog with AQI touching an AQI of 349 or 'very poor' category and hapless Delhites are turning to humorous memes for solace. One popular tweet went like this: "Time to give Delhi new namesi: Pollutyens Delhi, Haze Khas, Dhua Kuan

and Chandni Choke." Apart from the stress busting mirth, citizens of the Capital are hostage to an annualised feature when air pollution swerves between 'very poor to severe' levels as the winter sets in, leading to permanent health issues. Delhi has the unfortunate distinction of being the world's worst polluted capital city. The air is unbreathable, thanks to fully dispersed harmful pollutants - around 40% which comes from vehicular emissions. One survey pegs the financial losses to the Delhi NCR at a very conservative Rs 100 crore/day due to poor air quality.

BEEN THERE, DONE THAT

To be fair, the state government has tried its best. In 2001, it moved public transport to CNG as fuel, levied charges on commercial ICE vehicles, banned 10-year-old diesel and 15-year-old petrol vehicles and introduced the oddeven car numbers initiative The Delhi EV Policy was framed to encourage greater use of public transport and a viable supply-chain ecosystem through a combination of fiscal and non-fiscal incentives. Initiatives like "Switch Delhi," unveiled

in early 2021 to create mass awareness and the ongoing 'Red Light On, Gaadi Off' campaign are well intended. Yet, Delhiites continue to bear the brunt of pollution emanating from within and from nearby states.

DELHI STRUGGLES TO MEET EV TARGETS

Despite a target of 25% EVs in new vehicle registrations by 2023-24, Delhi could manage around 12% in the fiscal. While higher than other states, it's a poor record given the pollution levels. Even after compulsory scrapping of old diesel and petrol vehicles in 2021, the city still has 472 vehicles per 1,000 people. Between 2012- 2024, the share of personal vehicles registered was around 92%, but EV 4-wheelers, with just 3% share, have struggled to take off.

Regulatory action and financial incentives are inducing some growth in commercial EV segments, but this has to be accompanied by a parallel or superlative growth in personal EVs, to address the pollution crisis.

LOOK EAST, LOOK WEST

New Delhi can take a few cues from Norway and Nepal - countries that have notched up amazing results in pollution reduction and long-term environmental benefits with their commitments to EV adoption. Norway, a country with a population of 5.5 million and an oil and gas producer, has achieved a 35% reduction in C02 emissions since 2012, improving both air quality and public health. Oslo has the highest per capita number of EVs in the world due to a strict adoption target, generous tax rebates and strategic incentivisation of EV users. With EVs accounting for over 90% of its new car registrations, the world will have to scale up the EV adoption roughly as fast as Norway, if it must meet any net zero targets.

Closer home, EVs account for 50% of Nepal's overall vehicle sales (as of FY24) thanks to sustained incentives and low taxes amid a nationwide urgency to cut down energy imports. With nearly all its energy coming from renewable river-fed

hydroelectricity, Nepal is focusing on infrastructure development to support EV ownership.

REAL SOLUTION TO POLLUTION KEPT AT BAY

With the fast-growing economy creating higher disposable income for its huge middle-class, each passing year, the desire for personal mobility will always be on the rise. One perpetual casualty will be air quality. A Central Pollution Control Board (CPCB) study in Delhi, Kanpur, Bengaluru, Pune, Chennai, and Mumbai categorically concludes that the transport sector will continue to emit most of the Nox, and around 50% of PM2.5 emissions in these cities, if we keep away from greener

transportation. Studies show that subsidies are not a magic bullet unless the switch to EV is made too good to ignore for a customer. Starting with attractive subsidies, customers can be lured by parking benefits, besides manufacturer-offered incentives for upgrades. Most importantly, a modern EV policy with a strong commitment to achieving targets from all authorities would comfort buyers in areas like charging infrastructure. Since many are not fully aware of the need to switch to EVs, regular campaigns must be undertaken. Big cities may pollute more, but smaller and emerging ones are not far behind; every year new towns in Tier 2 and Tier 3 India are making to the WHO's mostpolluted cities list. Unless there's collective will to fast-track EV adoption, Delhi's air pollution will always get tossed around in inter-state bickering and internal political rivalries with fewer solutions.

Rohit should change his tactics, be more attacking batting at No. 6: Shastri

PTI ■ MELBOURNE

rith skipper Rohit Sharma struggling to decipher a way to score runs in the Border-Gavaskar Trophy, former India coach Ravi Shastri says the stylish batter should go in with a clear mindset, change his tactics, and attack the bowlers.

Rohit missed the opening Test Down Under to be with his family for the birth of his second child. He was expected to reclaim the opener's spot but KL Rahul's impressive 77 in India's win at Perth prompted a rejig of the batting order with Rohit moving down to No.6.

The change though has not been fruitful for Rohit as he has managed 10, 3 and 6 runs in the last three innings, while Rahul has encashed on the opportunity by notching up a fine 84 in the first innings at Brisbane in the third

"I would like to see Rohit Sharma, his tactics change a bit because he can still be extremely dangerous at that number (six)," Shastri opined on ICC Review.

"I think he's got to be very clear in his mindset to go out there and take the attack to the opposition and not worry about anything the cricketer-turnedcommentator added.

Shastri felt Rohit should shun the defensive mindset.

The last thing you want is him to be in two minds whether to defend or attack. In his case, it should be attack. He picks up length quickly, he should take the opposition on at that number.

"Because if he gets away in the first 10-15 minutes, in any way, he's not got past that 15-20 minutes, half an hour. So why don't you play a natural game, go and take the attack to the opposition and take it from there?

Shastri felt it's the best way for

Rohit to get back into form and win games for India, adding that the best No.6 batters in the world are those who have the ability to counter-attack.

"I think that is his best way of not just coming back into form, winning a game for India as well. Because that number is a crucial number."

The best No.6s in the world are the guys who know how to have the ability to counter-attack. They read the situation well. Yes, if a lot of wickets have fallen, maybe for a little while. You might have to be circumspect, but the intent has to be far sooner than later.

"Especially when you have that kind of ability and especially when you open the batting for India and you have all the shots for Australian conditions.

Rohit had made his Test debut in 2013 at No. 6 position, marking the occasion with a century. Shastri backed Rahul to retain the opener's slot in the fourth Test following his two half-centuries so far in the five-Test series.

"I would have asked him (Rohit) to open in the last Test match (Brisbane) but then the way Rahul has batted, he was a joy to watch and the way he's batting, I believe he struck a purple patch," Shastri

"It could be a position he might just want to keep and enhance the way he's playing because his technique was faultless," said

Shastri. The former India captain said Rahul was currently at the top of his game and his confidence level

too was very high.
"The way he left the ball, the way he allowed the ball to come onto the bat, some of his cover drives were as good as any played by anyone in world cricket at the moment. And so I think when there's that much confidence there, you know, let it be?

Wasn't looking to save the follow-on that day in Brisbane: Akash Deep

"If you look at it, it's 50-50. even though we were behind in the last match. But the Akash Deep and Jasprit Bumrah saved India the confidence we built on the last day, we still have that blushes during the Brisbane confidence. So, I can say it's Test with a resolute 10th wicket partnership but the 50-50, and this Test match (Melbourne) is very important for both the rookie pacer on Sunday said his focus was on wholesome contribution to the team Akash did not feature in the playing XI for the first two Tests against Australia but made his way into the team for the third Test. rather than looking to "merely save the follow-on." With the Indian batters, barring KL Rahul and Ravindra Jadeja, failing once

again, the obstinate 47-run partnership between Bumrah and Akash took India past the follow-on mark during the Gabba Test, which ended in a draw.

"We come to bat lower down the order, so contributions of 20-25-30 runs are very valuable. My mindset is just to contribute. I wasn't looking to save the follow-on that day; I was just looking

not to get out. My mindset was this, God willing, we were able to save the followon," Akash told reporters here. Akash smashed

Cummins for a four to avoid the follow-on as the Indian dressing room broke into celebrations on day four.

"When you save the match Head: Akash from such a situation, the Travis Head continues to be entire team gets the confidence and our dressing a thorn in India's flesh. After being dismissed for 11 in his room reflected just that. first innings of the series, he Everyone was having fun has gone on to score 89, 140 and enjoying. and 152 in his next three

Salvaging a draw after being on the brink of losing in Brisbane, the Indian team is now filled with confidence, feels Akash.

Joe Root returns to England's ODI squad for India tour, Champions Trophy

Veteran batter Joe Root's V return to 50-over format after more than a year headlined England's squad announcement for the ODI tour to India and the ICC Champions Trophy.

Root's previous assignment in the format was the 50-over World Cup held in India in

All-rounder and Test skipper Ben Stokes was not considered for selection as he has been recovering from a left hamstring injury sustained during the third Test against New Zealand earlier this month. Seasoned batter Jos Buttler

will lead the side, and the Lancashire man will also captain England in the T20I series against India, which precedes the ODIs.

England will play five T20Is and three ODIs during the

white ball tour to India. Leg-spinner Rehan Ahmed, who made his Test debut against India earlier this year, was included in the T20I

In-form Harry Brook will get another chance to play international bilateral cricket in India after pulling out of the Test series earlier this year due to personal reasons.

England ODI squad: Jos Buttler (Captain), Jofra Archer, Gus Atkinson, Jacob Bethell, Harry Brydon Carse, Ben Duckett, Jamie Overton, Jamie Smith, Liam Livingstone, Adil Rashid, Joe Root, Saqib Mahmood, Phil Salt, Mark

stuns Barcelona

AP ■ MADRID

Atletico Madrid coach Diego Simeone ran down the touchline in joy while Barcelona players sunk to the turf in dismay. Super sub Alexander Sørloth

struck again deep in stoppage time to hand Atletico a 2-1 comeback win at Barcelona and ensure Atletico will spend La Liga's short winter break on top of the table. Atletico's 12th straight win in

points above Barcelona.

Simeone, coaching Atletico

winning at Barcelona for the first time "We finally did it," Atletico

goalkeeper Jan Oblak said. We are playing well, we started poorly but we knew our chances would come. And in the last minute Sørloth came through. Thanks to him we finally won here. He is the striker we needed."

It was a much more impressive performance from Barcelona, which dominated for long periods and took a deserved lead in the 30th minute.

Pedri started and ended the move, playing a one-two with Gavi, and firing an angled shot into the bottom right corner. Raphinha almost doubled

lobbed the goalkeeper but the ball came off the crossbar. Robert Lewandowski got to the rebound but sent it onto the head of Axel Witsel, who needed treatment. Barcelona was made to rue its

fashion in the 57th when he

missed opportunities when Atletico levelled just three minutes later, partly thanks to a defensive blunder.

Barcelona midfielder Marc Casadó tried to clear Julián Álvarez's cross but passed it straight to Rodrigo De Paul, who fired into the bottom right corner. Casadó put his hands to his head and dropped to his knees in dismay.

Worse was to come for Barcelona as, in the sixth Nahuel Molina made a fantastic run to latch onto a through ball and cross in for Sørloth to fire into the back

of the net. It was Sørloth's eighth goal of the season, five of them after he's come off the bench.

BILBAO'S UNBEATEN RUN Athletic Bilbao came from behind to beat Osasuna 2-1 and extend its unbeaten run to 14 matches and remain just five points behind Atletico. Gorka Guruzeta and Alex Berenguer sealed the comeback win for fourthplaced Bilbao after Lucas

Torro gave Osasuna a 25thminute lead at El Sadar. Guruzeta headed Bilbao level in the 31st and Berenguer struck the winner in the 74th.

incident in Brazil soccer semifinal all competitions lifted it three Barcelona has only two wins AP SAO PAULO 'The organisation reaffirms in its last nine games and could find itself third on its anti-racist stance and $F_{\text{players were arrested by}}^{\text{our River Plate women's}}$ Sunday if Real Madrid beats emphasises that it will never tolerate such incidents. Sao Paulo police and accused Paulo's public security told secretariat Associated Press.

On Friday, a Brazil Ladies Cup soccer semifinal between Argentina's River Plate and Brazilian team Grêmio was stopped in the first half after River Plate's Candela Díaz was accused of making monkey gestures to a ball boy, according to broadcast footage and local media reports.

Díaz was detained along with teammates Juana Cangaro, Milagros Naiquen Diaz, and Camila Ayelen Duarte, the players' lawyer, Thais Sankari, told The AP. They remained in custody on Saturday. Sankari said the River Plate

players reacted only after being provoked. "We see in this decision a

great arbitrariness and the Brazilian judiciary's desire to send a message. They used this case for that purpose," she said.

After Díaz's gestures on Friday, the Grêmio players walked off in protest. The referee showed red cards to six River Plate players following an on-field fight and ended the match because there was no longer the minimum number of players required to continue. The score was 1-1 but the

referee awarded the match to Grêmio, which will play in the tournament final on Sunday.

Manchester City crisis deepens after lossing to Aston Villa 2-1 in the Premier League

AP MANCHESTER

Manchester City's stunning slump deepened after losing to Aston Villa 2-1 in the Premier League.

Goals from Jhon Duran and Morgan Rogers at Villa Park consigned the four-time defending champion to a ninth defeat in 12 games in a season that is unravelling. Pep Guardiola's team has won just once during that run.

"We don't have a defense for the results. They are not good," Guardiola said.

Third-placed Arsenal closed the gap on league leader Liverpool to three points with a 5-1 win at Crystal Palace, but has played two games more. City dropped to sixth in the standings, nine points below Liverpool, and has played two straight title, a place in the top games more.

The 28-year-old gave a good account himself, and was

outings.

It's about what I can do with my people to get the results back and continue," Guardiola said. "If there is a moment that I cannot overthink, it is right now. Try to be simple, stick to my principles and give certainty to the team."

TITLE HOPES FADING After winning six titles in years and an unprecedented four in a row, City's remarkable fall shows little sign of stopping. Guardiola admitted last week he had not been good enough to turn his team's form around.

City was without a win in any of its last eight away games in all competitions. While it looks unlikely to win a fifth been even more emphatic

four and Champions League qualification could also be in eopardy after fourth-placed Nottingham Forest won at Brentford 2-0 to move four points clear of City. Only once under Guardiola

has City managed to win the title when losing six times in the league. That was in 2021, when it lost two of its last three games, having already been confirmed as the champion. City lost nine times when Liverpool won the title in 2020, but its sixth defeat didn't come until February. Guardiola also lost six times in his first season in English soccer in 2016-17 and City

from a dominant Villa, which moved up to fifth. Duran scored his sixth goal in as many starts in the 16th

Duran had a goal disallowed for offside in the second half and Rogers hit the post before doubling Villa's lead in the minute from Rogers' assist.

Phil Foden pulled a goal back for City in stoppage time, but it wasn't enough to spark a late comeback. We have to stay positive, even

though it's difficult, and we have to keep working hard," City striker Erling Haaland JESUS STREAK

It's five goals in a week for Gabriel Jesus against Crystal Palace.

After scoring a hat trick in Arsenal's 3-2 comeback win against Palace in the English League Cup quarterfinals on Wednesday, the Brazil striker hit another two goals when the teams met again on Saturday.

Going into Wednesday's game, Jesus had only scored once for Arsenal since the end of

Jesus struck twice in a frantic start at Selhurst Park. He opened the scoring in the sixth, with Ismaila Sarr leveling five minutes later.

Jesus restored Arsenal's lead n the 14th and was denied backto-back hat tricks when hitting the post and then having another close range effort saved by Palace goalkeeper Dean Henderson. Kai Havertz, Gabriel Martinelli and Declan Rice

also scored for Arsenal. FOREST FLYING HIGH If City's demise is a surprise story of the season, so is

Forest's rise. After battling relegation for much of last term, Forest is in contention to qualify for the

Champions League and

having already won at Anfield and Old Trafford this year. ISAK TREBLE Alexander Isak hit a hat trick

Facing a Brentford team that

was unbeaten at home, goals from Ola Aina and Anthony Elanga secured another

statement win on the road for

Nuno Espirito Santo's side,

in Newcastle's 4-0 win at Ipswich. The Sweden international,

who has 10 goals in his last 11 games, wrapped up his treble inside 54 minutes at Portman Road, including one in the opening minute. Murphy also scored.

Brighton was 1-0 up at West Ham through Mats Wieffer, but Mohammed Kudus levelled for the draw.
