ARCHITECT OF INDIAN ECONOMY PASSES AWAY

PIONEER NEWS SERVICE **NEW DELHI**

Former Prime Minister Manmohan Singh, the architect of India's economic reforms, died on Thursday night. He was 92. Singh's death was announced by the All India Institute of Medical Sciences (AIIMS), Delhi, where he was admitted in the Emergency ward around 8.30 PM in a critical condition.

An AIIMS bulletin said "he was treated for age related medical conditions and had sudden loss of consciousness at home" on December 26. "Resuscitative measures were started immediately at home. He was brought to the medical emergency at AIIMS Delhi at 8.06 pm. Despite all efforts, he could not be revived and was declared dead at 9.51 pm," said the bulletin.

Singh, who was PM for two terms in the Congress-led

United Progressive Alliance (UPA) Government from 2004 to 2014, had been in poor health for the last few months. He is survived by wife Gurcharan Singh and three daughters. Congress leader Priyanka Gandhi Vadra and her mother Sonia Gandhi reached the hospital as soon as the news of his hospitalisation became known.

Singh, who was Finance Minister under the then PM PV Narasimha Rao, was the

architect and the brainchild of economic reforms in 1991 that pulled India from the brink of bankruptcy and ushered in an era of economic liberalisation that is widely believed to have changed the course of India's economic trajectory.

Singh died as the Congress party concluded its Congress Working Committee meeting at Belagavi in Karnataka, where all top party leaders were present. Party chief Mallikarjun Kharge and

Rahul Gandhi in his remarks said he lost a mentor and guide as millions like him admired Dr Singh who will be remembered with the utmost pride. "Manmohan Singh Ji led India with immense wisdom and integrity. His humility and understanding of economics inspired the nation. My heartfelt condolences to Mrs. Kaur and the family," Rahul Gandhi said.

Here is the timeline of his five-decade old career in bureaucracy and politics. 1954: Completed Master's in Economics from Panjab University 1957: Economic Tripos (3-year degree prog) from Cambridge University

from Oxford University 1971: Joins Government of India as Economic Advisor Commerce Ministry 1972: Appointed Chief Economic Advisor in Finance Ministry 1980-82: Member, Planning Commission

Congress and AAP cloud over INDIA Bloc

RAJESH KUMAR ■ NEW DELHI

n a development that could be a major setback to the India Bloc as the growing rift between the Congress and the Aam Aadmi Party (AAP) has escalated into open hostility thereby putting the alliance on shaky grounds. The AAP on Thursday threatened that it would talk to other parties of the INDIA Bloc to remove the Congress from the alliance, if it didn't take action against Delhi Congress leader Ajay Maken for making derogatory remarks against supremo Arvind Kejriwal, calling him an 'anti national'. The AAP leaders now demanded that the Congress take disciplinary action against Maken and other party leaders within 24 hours.

Slamming Congress for having crossed all boundaries, Rajya Sabha MP Sanjay Singh accompanied by Chief Minister Atishi warned that the AAP has given an ultimatum to its leadership to take immediate action against Maken within 24 hours, failing which AAP will be forced demand Congress's expulsion from the INDIA Bloc.

"We will ask the other parties in the alliance to remove the Congress," Singh said. He further alleged that the Congress's Delhi unit is working with the BJP to ensure AAP's defeat in the Delhi polls due early next year. Atishi accused the Congress's candidates' list is being prepared by the BJP, and their funding is also being provided

by them. This comes amidst rising tensions and accusations from both sides, further weakening the opposition bloc. The reason for the AAP's grouse is the Congress' FIR against Kejriwal on charges of fraud and forgery, accusing him of "misleading and deceiving" the

Launching an allout attack on the AAP supremo Arvind Keiriwal from all corners ahead of the Delhi Assembly elections 2025, NDMC Vice-Chairman Kuljeet Chahal flagged the issue of him remaining absent from the council meetings, stating that the law department has been consulted in the matter and will reply by the next weekly meeting about the legality of

the matter. The matter will be raised in the next council meeting after receiving the department's response," he said while addressing the media. A condemnation resolution was also passed in the meeting against the AAP chief. The members of the Council

new council for the fourth also passed a censure motion time since the first took place against Kejriwal on the fraud The New Delhi Municipal on November 9 and also of 'Mukhyamantri Mahila Samman' Yojna'. Chahal said, "Kejriwal is not allowing the Ayushman Bharat Yojna implemented by the Prime Minister to reach the citizens of Delhi due to his personal and political reasons."

New Delhi BJP Member of Parliament P Bansuri Swaraj, who is also a member of the NDMC, attended meeting. "Today I attended meting of the weekly meeting of NDMC with the council officials. In the meeting, a resolution condemning the neglect of public interest by former Chief Minister of Delhi Arvind Kejriwal by not implementing the Ayushman Bharat scheme in Delhi was unanimously passed," she shared in a tweet.

public with promises of nonexistent welfare schemes and derogatory remarks by senior Congress leaders Ajay Maken and Sandeep Dikshit on party's national convener.

The tension escalated during the Winter session of Parliament when murmurs arose about changing the leadership of the INDIA Bloc, with some including Rashtriya Janata Dal (RJD) chief Lalu Prasad suggesting Mamata Banerjee to take over. The INDIÁ Bloc, comprising parties like the Samajwad Party, Trinamool Congress RJD, Dravida Munnetra Kazhagam (DMK), Shiv Sena (UBT), and AAP face a crucial test of unity. The AAP's decision to hold talks with its allies could deepen the ongoing crisis.

Singh accused Maken, and Dikshit of targeting AAP instead of focusing on the BJP. Singh slammed Maken for allegedly calling Kejriwal "antinational" and urged Congress to take action against him within 24 hours. "At this point, all limits have been crossed. anti-national-such audacity from Ajay Maken and his party is unacceptable. I demand that the Congress take action against Ajay Maken within 24 hours. Otherwise, we will appeal to the other constituent parties of the INDIA Bloc to expel Congress from the alliance," asserted the AAP

Rajya Sabha MP. Ajay Maken reads the BJP script, makes statements at the BJP's behest, and targets AAP leaders on BJP's instructions. And yesterday, he crossed all limits and called our leader Arvind Kejriwal anti-nation," Singh said. The Congress or Ajay Maken have never called any BJP leader in Delhi "antinational", Singh said.

EC makes world's largest electoral dataset public

 $T^{
m he\ Election\ Commission}_{
m (EC)\ on\ Thursday\ released}$ the world's largest electoral dataset for 2024 Lok Sabha and four State Assembly polls held this year. The move was aimed at enhancing "public trust" in the country's electoral system at a time when the opposition has been raising doubts over its credibility after it changed its rules to restrict public access to CCTV footage of polling booths and other poll documents. Sources in the election

watchdog said since the One Nation One Election (ONOE) has been the Parliament and a Joint Parliamentary Committee (JPC) is monitoring it, this will help stakeholders to tread the path of ambitious simultaneous polls in the country. The EC officials asserted that such granular data is not shared by any of the election management bodies in democracies across the world. "This suo motu initiative is to enhance the public trust that constitutes the underpinning of India's electoral system," the EC said. In its 40 statistical reports related to LOk Sabha 2024 polls, released by the poll body on Thursday showed that the six national parties bagged over 63 per cent share of the total valid votes polled

in the Lok Sabha elections held this year. The Bharatiya Janata Party (BJP), Congress, Bahujan Samaj Party (BSP) Communist Party of India (Marxist) [CPI(M)], Aam Aadmi Party (AAP) and National People's Party (NPP) are the six national parties. Six recognised National parties, 47 State parties and 690 registered, unrecognised political parties contested the Parliamentary polls. Besides, 3,905 independent

candidates forfeited the deposits. Out of the 3,921 independent candidates, 279 were women, the EC noted. The datasets cover a range of variables such as detail PC/AC /State wise electors, number of polling stations, State/ PC wise voter turnout, Party wise vote share, genderbased voting behaviour. It also included State wise participation of women electors and much more.

"This suo moto initiative, is to enhance the public trust that constitutes the underpinning of India's electoral system, the poll body said in the Statement. "The release of extensive data sets is also in furtherance of the Commission's policy maximum disclosure, greater transparency and accessibility of election-related data for all stakeholders including academia, research and the general public," it added.

The Delhi Police has registered a case against four individuals in connection with forgery in Voter ID card applications for the purpose of new voter registration and address shifting after the Election office agged suspicious cases to them in southeast Delhi's Shaheen Bagh.

On Wednesday, the Election Commission flagged four such suspicious cases to the Delhi Police, following which the police registered cases under section 336 (Forgery for the purpose of cheating) and Section 340 BNS (Using forged documents as genuine). "It is to inform you that certain applicants have submitted online applications for voter registration through Form-6 and Form-8 by fraudulent means. These applicants have uploaded false documents, which have been tampered with, in support of their applications," the Election Registration Officer stated.

From deep sea, to outer space, **Indian explorers will make history**

PIONEER NEWS SERVICE ■ HYDERABAD

As India is gearing up for its first space Amission in 2026, plans are afoot to send a human into the deep sea the same year thereby showcasing the country's prowess in frontier scientific endeavours. Disclosing this, Union Minister of State(Independent Charge) for Science, Jitendra Singh said on Thursday "... One Indian up there, and one Indian in the deep sea. That will be once again, a record of sorts." He also emphasised the increasing importance of oceanic exploration in the country's journey toward becoming a 'Viksit Bharat'.' The Centre is planning to send a human into

the deep sea with the mission likely to coincide with the human space mission in early 2026, Singh said while speaking at the Commemoration of the 20th anniversary of the 2004 Indian Ocean Tsunami' at the Indian National Centre for Ocean Information Services (INCOIS). The minister recalled that Prime Minister Narendra Modi had mentioned the Deep Sea Mission in the past Independence Day address.

"We are also planning to send a human into the deep sea. I was telling Ravichandran (Secretary, Ministry of Earth Sciences) that it would be a strange coincidence-one human in space and another in the deep sea. This will

The human space mission, initially planned for 2025, may not take place next year, but is now expected in early 2026, he added.

Advocating for the sustainable exploration and conservation of India's 7,500-kilometre coastline and its abundant marine resources, the minister said the government is working to create an ecosystem to support these

He told a news agency that the services and information provided by INCOIS are not only relevant to coastal communities along India's shoreline but also to people worldwide.

Beware the gangs Gurugram, 200 gangsters arrested so far PARVESH SHARMA

🗖 n a major crackdown against **L**active gangs involved in various crimes, the Gurugram police have arrested 200 members of 80 gangs, between January 1 to December 13 this year. While revealing the data, police said a number of 406 cases were also registered against them, and Rs 3.67 Crore were also recovered from their possession.

The arrested accused were mainly involved in robbery, house-breaking, theft, vehicle theft, snatching, ATM fraud, murder and others. The Gurugram police's crime branch teams and police station teams work hard to nab these criminals and recover huge amounts from them" Vikas Arora, Commissioner of Gurugram Police, said.

Meanwhile, police said a special drive was initiated against these criminals at the direction of the Gurugram Police Commissioner. Many among the apprehended

offenders, were evading arrest for a long time. "We identified such offenders by collecting data from courts, sources and other inputs to keep an eye on the movements and activities of the criminals and anti-social elements. We believe such elements can be a threat to the city and disrupt law and order situation or execute any crime, Varun Dahiya, ACP (Crime), said.

He said that such operations against the Proclaimed Offenders (POs), bail jumpers and as well as other dreaded culprits will be continued in future to further ensure a sense of security and safety among the people. Dahiya said that specific information and public cooperation are very important when it comes to tackling and preventing crime. Apart from that, he emphasised that cooperation between police and the public plays a significant role in investigating and prosecuting criminals engaged in different offences. "They were arrested

after receiving information

from specific resources to keep an eve on the movements and activities of the criminals and anti-social elements. We believe such elements can be a threat to the city and disrupt law and order situation or execute any crime," he said. Apart from this, the Gurugram police had also recovered Rs 83.41 crores from 1,658 Cyber Fraudsters, including 22 bank officials of different banks in just 11 months from January 2024 to 30 November 2024, the Gurugram police said.

Senior police officers of the Gurugram claimed that the police are closely working with other agencies and organisations to counter these

frauds. "The cyber fraudsters commit fraud by luring people with good profits, investing in the stock market, reducing electricity bills, in the name of buying/selling cheap goods online, sextortion through video calls on WhatsApp, morphing, sending links

through various means, posing as a customs officer/police officer in the name of implicating false case, in the name of issuing a No-Objection Certificate, digitally arresting people by showing the fear of implicating them in a criminal case, etc," Priyanshu Diwan, ACP (cybercrime),

Cyber fraudsters call people

and pretend to be police officers and commit fraud by telling them that any of their acquaintances or relatives have broken any law or that any of their relatives or acquaintances are ill, police said. They also dupe people; when people search for customer care numbers on Google for online hotel booking, wine delivery or for taking loans, cyber fraudsters keep their numbers there so that people call cyber fraudsters, and cyber fraudsters cheat them by taking them into confidence," Diwan said.

"As per the instructions of the Gurugram police chief, and to create awareness about cyber crimes, officials of RWA of residential societies, schools, companies and various institutions in Gurugram are being made aware by giving information about cyber crimes. We appealed to the public to steer clear of such dubious callers and advised caution in sharing personal details to strangers stalking them online," he added.

Senior journalist Brij Bhushan Singh commended the efforts of 'Atal Vichar Vahini,' calling the initiative to honor Atal Ji's legacy "commendable." The program saw participation from senior BJP leaders, journalists, community representatives, and dignitaries from various fields. Speakers Singh, included Neeraj Jaiprakash Rai, Anjani Pandey, MP representative Kumar, and Ravindra of Rashtriya Swayamsevak Sangh, who

shared their insights on Atal Ji's multifaceted personality and his contributions to nation-building.

The event also honored several dignitaries, including Parishad member Devvani Murmu, Kusum former District President of Mahila Morcha Rajpati Devi, and others, with shawls and mementos. The dignitaries emphasized Atal Ji's pivotal role in shaping modern India and urged everyone to carry forward his vision.

The program's dignified execution, managed by Dhanurdhar Tripathi, drew a large gathering from various sections of society, reaffirming Atal Ji's enduring legacy. The event concluded with a collective resolve to carry forward his vision and ideals for a better and stronger India.

Lok Sabha MP Kaushalendra Kumar seeks Government intervention in Tata Sons case over Listing Requirement

PNS : RANCHI

Sabha Member of Parliament Kaushalendra Kumar has called for government intervention in the alleged ongoing controversy surrounding Tata Sons' attempt to bypass the Reserve Bank of India's (RBI) public listing require-

In a letter to Union Finance Minister Nirmala Sitharaman the four time MP has requested to look into the matter as it may adversely impact the image Government of India and institutions like RBI.

Tata Sons, the holding company of the Tata Group, was classified as a systemically important entity under Scale-Based Regulation (SBR) framework in September 2023. This classification mandates the company to list its shares pub-

However, reports suggest that Tata Sons is seeking to deregister itself as a Non-Banking Financial Company (NBFC), effectively avoiding the public listing require-

In the past some analysts have raised concerns that this move could set a dangerous precedent and undermine the transparency and governance objectives of the SBR framework. A legal notice was also sent to RBI by an individual early this month.

Complicating the matter is the dual role of Venu Srinivasan, the Chairman of Tata Trusts and a director at Tata Sons, who also serves as a director at the RBI. Critics argue that Srinivasan's influence in both entities could create a conflict of interest, potentially impacting regulatory decisions in favor of Tata Sons.

In response to these concerns and citing reports in the media, the MP in the letter said "Government should ensure the integrity of the RBI's regulatory processes and prevent any undue influence from corporate interests." The MP's call for intervention highlights the need for fairness and transparen cy, especially when it comes to the regulation of systemically important entities like Tata Sons.

This case is seen as a critical test for the RBI's commitment to maintaining a robust and transparent financial system. The outcome will have significant implications for future regulatory oversight and governance standards for large financial entities in India.

'No Helmet, No Petrol' Rule Implemented in Bokaro

PNS: BOKARO

The Bokaro district administration has enforced the "No Helmet, No Petrol" rule under the leadership of District Transport Officer Vandana Shejwalkar. Petrol pump operators have been directed operators to deny fuel to tworiders wheeler helmets without and display promi-

nent signage about the mandate. The initiative, part of a statewide directive by the Jharkhand Transport Department. aims to reduce traffic accidents by ensuring helmet usage for both riders and pillion passengers. Regular inspections will be conducted to ensure compliance, with non-adhering petrol pumps facing penalties or legal action. DTO Sheiwalkar emphasized the importance of the rule, stating it is a step toward fostering a culture of road safety and responsibility. Public awareness campaigns involving schools, colleges, and local communities are also underway to educate citizens about the necessity of helmets.

With a rise in road accidents in the growing industrial and urban district, this measure aims to curb fatalities and set an example for other regions in Jharkhand. The administration hopes this initiative will encourage safer commuting practices

and protect lives across the district.

treatment can be ensured. He also directed the Community Health Center and District Hospitals to take initiative towards providing better and state-of-the-art facilities.

The CM directed the officials to provide the services of specialist doctors in all the district hospitals. He said that steps should be taken to ensure such arrangements in community health centres as well. He said that having specialist doctors in district hospitals will also help in relieving patients from being unnecessarily referred to medical college hospitals.

The CM said that complaints of mismanagement in hospitals are often received through various mediums.

Patients coming to hospitals for treatment have to face many kinds of problems. Some patients are not able to get beds in hospitals, while others face inconvenience in getting tests done. There is a crowd of patients in OPD. To avoid such mismanagement in the hospital, strengthen and improve the hospital management, so that patients can get all the information related to treatment easily. Take the services of professionals for better manage-

ment of hospitals. The CM took information from the officials about the progress of construction work of five new medical colleges and hospitals in the state. He said that all these

BJP warns Govt against hike in petrol prices

BJP state president Babulal Marandi has raised questions about the preparations for increasing petrol and diesel prices. Babulal has written on Instagram that preparations are underway to increase the prices of petrol and diesel by 2 to 3 rupees per liter by imposing cess. After the CM's instructions to increase revenue, the officials are trying to fill the government treasury by burdening the pockets of the public. Babulal has asked the CM

to immediately withdraw this anti-people decision, as it can lead to a lot of inflation in everyday things. This absurd decision will have a bad effect on public life.

Babulal wrote that seeing the proposal of increase in electricity rates first and now the indication of increase in petrol and diesel prices, the public has understood how big a fraud you have done with them by making imprac-

tical election promises. 'Your decision being taken in a hurry to increase revenue is creating huge discontent among the public. It is hoped that all the public representatives will also rise above politics and take initiative to reverse this decision which has adversely affected the common man's life, Marandi said

Jharkhand BJP? BJP is calling the possibility of Raghuvar Das coming into active politics as a strength for the party. At the same time, JMM is attacking him by calling him a spent car-tridge. JMM General tridge. Secretary Supriyo Bhattacharya said that he will himself tell about the subject on which he has resigned. Resignation is taken only when someone fails to do his work. The central government must have felt that he failed as a governor, so he must have taken the resignation. Even earlier, when Raghuvar Das was here, nothing happened. When the river is in a storm, animals like elephants and horses get swept away.

On this, former state president of Congress Rajesh Thakur said that this is the decision of BJP. After the way they were humiliated in the Jharkhand elections, their central leadership must have felt that they lost the elections because of the joker, now they must want something new. But it is completely beyond understanding that a person who is the governor of a state has to be brought back into politics. It is understandable what the condition of the party has become.

Prime Minister Narendra Modi on Thursday stressed the need for a futuristic approach to equip youngsters with skills in emerging technologies like artificial intelli-gence and machine learning, as he highlighted the crucial role they play in the country's progress. Speaking at an event to mark

Veer Bal Diwas, Modi underscored the need to adapt to rapid changes and challenges across various fields, emphasising the government's "youthcentric" policies and efforts to move in that direction with the start of the new education policy. With his government marking the journey of the Constitution's 75 years in a major way, Modi said the Constitution's principle of equality aligns with the teachings of gurus who advocated the welfare of all. Modi said his government is committed to supporting young talent and fostering their self-confidence. "This era has moved beyond machines to machine learning. AI is taking centre stage, and we can see its application replacing conventional software. It is essential to make our youth future ready to tackle

these challenges," he said. He urged the youth to work towards making their respective sectors, be it railways, semiconductors, travel or astronomy, the best.

Remembering the "unparalleled" sacrifice of Guru Gobind Singh's sons, the Sahibzadas, he said they chose "unwavering courage and faith over submission to the Mughal Empire's oppression"

Yogi Adityanath's 2024: A year of fiery rhetoric and political messaging

BISWAJEET BANERJEE

LUCKNOW

 I^{n} a year marked by political contests and cultural debates, Uttar Pradesh Chief Minister Yogi Adityanath's speeches in 2024 transcended electoral rallies, becoming rallying cries that resonated deeply across India. His carefully crafted remarks, blending critique of opposition parties with appeals for unity among followers of Sanatan Dharma, cemented his position as a mass leader with a vision for a unified and culturally proud India. Among his most impactful

slogans was "Katenge Toh

Batenge, Ek Rahenge Toh Nek Rahenge," delivered in Agra in August. This phrase, urging unity among communities, gained traction nationwide as a symbol of his call for solidarity and shared purpose. It underscored a year where Adityanath repeatedly sought to redefine narratives on governance, culture, and justice. Throughout 2024, his speeches targeted the opposition, particularly the Samajwadi Party (SP) and Congress, accusing them of fostering division, lawlessness, and pseudo-secularism. In Etawah, he raised the issue of justice for the families of victims of mafia violence, including the widows

Phrases like "No Sadbhavna for Mafia and Goons, only the Bullet Train of Justice" captured his administration's stance on women's safety and law enforcement, while "SP ki Topi Laal, Kaarname Kaale" evoked allegations of corruption and criminality against his political opponents. In Haryana, during an election rally, Adityanath cri-

tiqued Congress leaders as "Accidental Hindus raised in Roman culture," a remark aimed at reinforcing BJP's Hindutva narrative. His comments drew sharp criticism but also bolstered his party's

core supporters. Adityanath's speeches also highlighted his focus on cultural pride and historical legacy. At the unveiling of Rashtraveer Durgadas Rathore's statue in Agra, he called for national unity by reflecting on the lessons of divided nations like Bangladesh. His oneliner: "Batenge to katenge, ek rahenge to nek rahenge" (August 26, Agra) became the theme of election campaign in Haryana and

Adityanath painted a narrative of a strong, unified, and culturally rooted Uttar Pradesh, countering what he described as the opposition's failures and divisive politics. As the year closes, his rhetoric has not only solidified his political standing but also ensured his voice continues to echo in the state's political and cultural discourse.

UP Government mandates property disclosure for employee promotions

LUCKNOW

¬he Uttar Pradesh govern-I ment has made it mandatory for all state employees to disclose details of their movable and immovable properties to be eligible for promotion. Employees failing to comply with this directive will not only forfeit their promotion prospects but may also face disciplinary action, officials confirmed on Thursday.

In a directive issued by the state government, employees have been instructed to submit property details via the Manav Sampada portal by January 31, 2025. The information will include disclo-

sures for the year 2024, which must be updated starting January 1, 2025.

"Failure to provide property details within the stipulated time will disqualify employees from consideration for

Additionally, disciplinary action will be initiated under

(Discipline and Appeal) Rules," the government stated in its letter.

Departments have been tasked with ensuring strict compliance with this directive. Officers have been instructed to monitor the updates on the Manav Sampada portal and ensure that all employees adhere to the rules.

The government emphasized that transparency in property declarations is crucial for maintaining accountability and integrity among public servants.

Employees who do not update property details may face disciplinary actions, including penalties under the Uttar Pradesh Government Appeal) Rules.

These measures aim to enforce adherence to the government's commitment to transparency and integrity in governance.

This initiative underscores the state government's focus on fostering accountability among its workforce. By linking property disclosures to promotions, the administration aims to ensure that all employees adhere to ethical standards and operate transparently in their official capacities.

State employees have been

urged to complete the process promptly to avoid repercussions and ensure their eligibility for career advancement.

Yogi Govt accelerates land allocation for Mahakumbh

BISWAJEET BANERJEE LUCKNOW

As Mahakumbh 2025 draws nearer, prepara-tions in Prayagraj are in full swing, with the Yogi Adityanath-led Uttar Pradesh government expediting the land allocation process. Chief Minister Yogi Adityanath, during a recent review meeting, instructed officials to complete all allocations by December 31. Responding promptly, authorities have so far allocated land to over 4,000 organizations, with an estimated 8,000 to 10,000 participants expected to partake in the grand event. One of the event's key high-

lights is the establishment of Akharas, which is progressing steadily. While several Akharas have already set up their camps, the Mela Authority has successfully allocated land to most Akharas and associated organizations. Pending allocations, including for new applicants, are expected to be finalized within the stipulated deadline.

According to the Mela Authority, the land allocation

process is nearly complete for Akharas and their followers, Mahamandaleshwars, Khalsa, Dandiwada, Acharyawada, and Khakachowk. Allocations for Prayagwal groups and new organizations are underway and will be concluded by December 31.

Thus far, a total of 4,268 organizations have received land, including 19 allocations for Akharas and their subMahamandaleshwars, 750 for Khalsa, 203 for Dandiwada, 300 for Acharyawada, 300 for Khakachowk and 1,766 for other organizations

Additionally, 450 allotments have been made to Prayagwal groups, with their allocation process, which began on December 12, scheduled to continue until month-end. Allocations for new organizations, which commenced on December 16, are progressing simultaneously.

The allocated areas have turned into hubs of activity, with tents being erected and traditional decorations underway. Kerala Govt declares two-day mourning as mark to respect MT Vasudevan

KUMAR CHELLAPPAN ■ KOCHI

Kerala bade a tearful farewell to M T Vasudevan Nair, the numero uno of Malayalam literature who breathed his last on late rate hospital in Kozhikode, a city which was immortalized by his presence. He has been honored with Jnanpith Award in 1995 for his comprehensive contributions to Malayalam literature. The President of India had decorated him with Padma Bhushan in 2005.

Ninety-one year old MT (as he is known) was ailing for some time due to age related issues and a team of doctors were attending to him on a round-the clock basis. M T is rated as the last of the titans of Malayalam literature . In addition to short stories, novels, and travelogues, he left the characteristic "MT Touch" in six feature films which he directed, by walking away with the best director award (three times) in the National Film Festival). One has lost count of the number of times he bagged the Kerala State Film Awards as a director and

Full support to Telugu film industry but no compromise on law and order: Telangana CM

PTI HYDERABAD

Telangana Chief Minister A I Revanth Reddy on Thursday made it clear to a visiting Telugu cinema industry delegation that there would be no compromise on law and order in the state and that it applies to everyone including the film fraternity. The CM also conveyed to the delegation of Telugu film personalities led by ace producer and Telangana Film Development Corporation (FDC) Chairman Venkata Ramana Reddy, that a Cabinet Sub-Committee will be constituted to resolve the problems of the film industry and suggested to them to set up an

in-house panel as well. The meeting between the CM and the film personalities was held at the Police Integrated Command Control Centre here, and in the wake

of actor Allu Arjun's recent arrest that had led to speculations of 'strained' ties between the ruling dispensation and the cinema industry post the police action against the 'Pushpa' star.

A 35-year-old woman died at Sandhya Theatre here in a stampede where Allu Arjunstarrer 'Pushpa 2' was screened on December 4, leading to his subsequent arrest on December 13 and release.

"As the Chief Minister, it is my responsibility to enforce the laws. I do not have any personal preferences. Let us all develop the film industry together without confining ourselves to Telugu only. Government is ready to extend all support to the film industry," official sources quoted the CM as saying. Asserting that the cinema

"So, the view of the CM is that the film industry should give suggestions to government to see that, not just Indian films but Hollywood films are also shot in Hyderabad," he told reporters after the meet-

Asked for the government's stance on allowing benefit shows and hiking ticket prices on special occasions, Dil Raju said they are only a "small part" of the issue and that the

bigger vision is how to take Telugu cinema to the international level and to make Hyderabad city an "international hub'

"Time would throw light on all that," he said.

When contacted, producer Daggubati Suresh who was part of the delegation which called on Revanth Reddy, told PTI that permission for benefit shows and ticket price hike during the initial days of film release is not a necessary requirement for all filmmakers, but an individual production house.

A blow to regional peace

The fragile peace of South Asia faced a severe setback when Pakistan conducted airstrikes in Afghanistan

n the night of December 24, 2024, a series of airstrikes conducted by Pakistan in Afghanistan's Barmal district of Paktika province claimed the lives of at least 15 civilians, including women and children. The strikes targeted seven villages, causing significant destruction, particularly in areas like Murg Bazaar and Laman, where an entire family of five was killed. This incident has further strained relations between Pakistan and Afghanistan, raising serious concerns about the stability of South Asia. The airstrikes appear to be a direct response to Pakistan's growing concerns over the activities of the Tehreek-e-Taliban Pakistan (TTP). Pakistan has justified the strikes as a necessary measure to eliminate TTP hideouts and secure its borders. However, the Afghan Taliban strongly denies these allegations, claiming instead that the airstrikes targeted civilians, including Waziristani refugees who had previously fled military operations in Pakistan's tribal areas. The implications of this attack extend far beyond the imme-

diate violence, casting a shadow over peace and security in South Asia. The airstrikes, coupled with the Taliban's vow to retaliate, risk escalating into a broader conflict between Pakistan and Afghanistan. Such hostilities could destabilise the region, which is already grappling with insurgencies, cross-border terrorism, and long-standing disputes.

In addition to the geopolitical ramifications, the humanitarian impact is profound. Afghanistan, a nation still recovering from decades of war, now faces further devastation. Civilian populations, particularly refugees, are bearing the brunt of this violence, with villages like Murg Bazaar reduced to rubble and count-

less families displaced. The destruction exacerbates an already dire humanitarian crisis, highlighting the urgent need for international aid and support. This conflict also undermines ongoing peace efforts in the region. Dialogues involving Afghanistan, Pakistan, and other stakeholders, essential for fostering stability, risk being derailed by such incidents. Additionally, it hinders cooperative initiatives against terrorism, a shared threat that requires coordinated regional action. The situation further complicates geopolitics in South Asia, prompting countries like India, China and Iran to reassess their strategies. Pakistan's actions, though driven by immediate security concerns, may strain its relationships with traditional allies and global powers advocating for peace in the region. To address this growing crisis, both countries must prioritise dialogue and cooperation. Constructive bilateral engagement is crucial to resolving mutual concerns, particularly regarding the TTP and border security. Neutral mediators, such as the United Nations, could play a vital role in facilitating these discussions. Beyond bilateral efforts, regional cooperation is essential. A unified initiative led by organisations like the South Asian Association for Regional Cooperation (SAARC) could encourage collective action against terrorism and promote economic interdependence, reducing the incentives for conflict.

Jordan's ambivalent stance on Palestine

While maintaining a façade of solidarity, Jordan's actions often reveal a pragmatic, if controversial, approach to safeguarding its own interests in a volatile region

ordanian reality towards the Palestinians J ordanians have had a wounded, complicated, and manipulative history. House of Hashim or the Hashemite dynasty rules Jordan with the current King Abdullah II, as the 41st generation of the direct descendants of Prophet Muhammad. While Hashemites were the Sharif and Emir of Mecca with rule over larger Hejaz, they were violently ousted from the control over the same by the rival Saud family. This military loss led to the loss of the symbolically vital title of the 'Custodian of the Two Holy Mosques" to the Saud family, of modern-day Saudi Arabia. Hashemites were also to lose monarchial claim of rule on lands of Syria, Lebanon, Palestine and Iraq and were left with only the Jordanian swathes – which unlike other Arab lands was bereft of oil, natural resources, ports, or any other meaningful lever of power. They had to be creative in dealing with the situation and remaining relevant and protected. Geographical contiguity to Palestinian lands led to Jordan demonstrating fluctuating concern that oscillated from supporting the Palestinian cause to willynilly, acting against the same. During the Arab-Israeli War of 1948, Jordan occupied the West Bank and East Jerusalem (which it annexed in 1950), only to lose the same to Israel in the Six-Day War of 1967. Historians often note the unique

culture of "back channels" (facilitating clandestine meetings) between the Jordanians and Israelis that led to counterintuitive accommodations, even amid war. In the subsequent Arab-Israel War of 1973 (Yom Kippur War), Jordan had curiously avoided joining Arab ranks against Israel. Jordanian King Hussein had secretly flown to Tel Aviv to warn Israeli Prime Minister Golda Meir of the impending Arab plans to attack Israel. Ultimately when Jordan was morally forced to support the war against Israel, declassified accounts confirm that it was only to preserve Jordans image in the Arab world and that it had already entered into a tacit agreement with Israel that it would not attack Israeli elements.

IN THE **SUBSEQUENT** ARAB-ISRAEL WAR OF 1973 (YOM KIPPUR WAR), JORDAN HAD CURIOUSLY **AVOIDED JOINING** ARAB RANKS **AGAINST ISRAEL**

signed a formal Peace Treaty (the second Arab nation after Egypt) and normalised relations with Israel. Odd public bickering on issues like Al Aqsa Mosque aside, the top leadership of both countries kept meeting discretely, whilst Jordan kept maintaining the façade of support towards Palestine. Practically, they engaged and operated as allies. Post the Hamas terror attack (7th Oct 2023) on Israel and the subsequent and disproportionate bludgeoning of the Gaza Strip, the Jordanians had no choice but to expel the Israeli ambassador to maintain face in the Arab world. However, as it was only Iran and its proxies like the Syrian Bashar Al Assad government and the Lebanese Hezbollah who were offering any meaningful resistance to the Israelis - then the Jordanians did the unthinkable in favour of the Israelis when they shot down Iranian drones attacking Israel. Practically, the Jordanians weighed in favour of the Israeli military (all perfunctory con-

a long, Jordanian King Abdullah had warned against the spectre of a rising "Shia Crescent" (assertion of Shiite rule in Iran, Iraq, Syria and Lebanon).

He therefore would be presumably pleased to see the decimation of the sectarian rivals, which coincidentally also ended the last modicum of challenge to Israelis.Beyond vacuous words, the practical conduct of the Jordanians has been suspiciously two-faced on the ostensible redlines as defined by King Abdullah i.e., "No to abandoning the guardianship of Jerusalem and the holy sites, no to the one-state solution, and no for Jordan to be an alternative homeland for the Palestinians".

The picture has perhaps never been further from the socalled Jordanian redlines, as now, the fate of Palestinians, Jerusalem, and the possibility of a two-state solution, is at its lowest. History will judge the conduct of Arab monarchies and their lip-serving commitment towards Palestine, but perhaps none as ambidextrously as the Jordanians, who often fancy themselves to be of the highest order.

Malnutrition among children in India stands as a pressing public health challenge, intricately linked to poverty, systemic inequalities and environmental hurdles

alnutrition among children remains a critical public health issue in India, deeply intertwined with poverty, systemic inequalities, and environmental challenges. Despite the nation's economic progress, the persistent issues of undernutrition and micronutrient deficiencies continue to hinder India's overall growth and development, casting a shadow over its aspirations for a healthier future.

The 2023 Global Hunger Index paints a grim picture, with India ranked 111th out of 125 countries and a score of 28.7, indicating a "serious" hunger situation.

Tackling poverty, improving education, expanding healthcare access, and ensuring sanitation are critical steps toward sustainable progress. Collaborative efforts among policymakers, non-governmental organisations, and local communities are essential to create meaningful change.

True progress is reflected in the wellbeing of every individual, especially the youngest members of society. By prioritising nutrition and equity, India can foster a healthier, well-nourished generation and pave the way or sustainable development.

Madam — Recently, Prime Minister Narendra Modi has laid the foundation stone of the Ken-Betwa river linking project, the first initiative under the national river linking policy, at Khajuraho in Madhya Pradesh. It is really a welcome step in solving the water crisis in India. Nearly 65 lakh people of Madhya Pradesh and Uttar Pradesh will get drinking water, and more than 7 lakh farmer families of 2000 villages will benefit from the project. Also, it has been proposed to generate 103 MW of hydropower. The project aims to transfer surplus water from the Ken River in Madhya Pradesh to Betwa in UP to irrigate the drought-prone Bundelkhand region.

Under the project, a 77 m high and 2.13 km long Daudhan dam and two tunnels will be constructed on the Ken River. Interlinking rivers can control both floods and droughts. This river linking project can have significant ecological consequences, can impact the biodiversity of the region, and can affect Panna Tiger Reserve too. Even then the project will create many employment opportunities as well as boost the rural economy. Ken-Betwa is the first river linking project under the National Perspective Plan (NPP) for the linking of rivers. The National Water Development Agency should identify a few more river linking projects to avoid floods and to cultivate more lands in drought-prone areas in

he Government of India's One Nation-One Subscription (ONOS) initiative aims to transform education, research, and innovation by ensuring equitable access to academic resources. Announced in 2022 by Prime Minister Narendra Modi, it aligns with the National Education Policy (NEP) 2020 to create a knowledge-based society. With a Rs 6,000 crore budget allocated for 2025-2027, ONOS will provide subscriptions to international research

reduces dependency on physical materials, supporting environmental sustainability and the objectives of the Digital India campaign, Despite its promise, ONOS faces challenges, including concerns over its high cost and limited digital infrastructure in rural areas, which could restrict access. Critics caution that without transparent implementation, the initiative may primarily benefit larger institutions

Our parliamentarians decided to cherrywhich will be the motherland of not this pick the words of our founding fathers, like B R Ambedkar, J L Nehru, K M Munshi, etc., to suit their own narrative. The constituent assembly had various

members with varying views. Each motion was debated and voted in favour of or against, and ultimately the majority carried, but to now selectively pick up each and every sentence and comma from their speeches to paint a narrative is a disservice to the memory of our founding fathers. It is necessary to remember the words of two members of the Constituent Assembly who went on to forge different paths later in life-one Minoo Masani, a parsi who joined Sawtantarta Party and became Leader of Opposition in Lok Sabha who said, Where the state belongs to the people, the state is subordinate to the people and only then does the state serve the people" and Shyama Prasad Mukherjee, a devout hindu who served in Nehru's cabinet who said , "We shall go ahead with our work $% \left\{ 1\right\} =\left\{ 1\right\} =\left\{$

in spite of all obstacles and help to cre-

community and that, not of this class Or that but of every person, man, woman and child inhabiting this country. KHEL RATNA CONTROVERSY

Madam —It is baffling that Manu Bhaker, who made history by bagging two medals in a single Olympics in Paris, is absent from the list of Major Dhyan Chand Khel Ratna awardees. If any athlete deserves to be given this award this year, it is Manu Bhaker. Her father is absolutely right: Manu has done her part by giving huge laurels to the country where we have only a handful of individual medal winners; now it is up to the GoI to recognise her feat and reward it.

ACHIEVERS NEVER QUIT

Achievers are not born but forged by their ability to ignite their natural talents over time

KUMARDEEP BANARJEE

ack Croushore was a charismatic leader, a successful steel magnate and an achiever, who never called it quits, regardless of the Usituation that confronted him. He was also equally adept in adopting the strategy of using kid gloves when situations so required. Over a period, his mind learnt that situational factors influence leadership effectiveness. Successful leaders are high-end achievers, those who do not quit. They are blessed with halcyon days in life, which provide them with joyful moments, and there may be woebegone incidences that fortuitously do not cripple their passion to climb the ladder of prosperity. Nancy Gibbs says, "High achievers, we imagine, were wired for greatness from birth. But then you must wonder why, over time, natural talent seems to ignite in some people and dim in others." Recall the talismanic movie 3 Idiots. Aamir Khan, Sharman Joshi and R. Madhavan essayed the prin-

They were euphemistically called the 3 idiots by the director of the institute. Among them, Rancho (Aamir Khan) was an achiever blessed with natural talent, out-of-the-box thinking and revolutionary ideas. There is a poignant scene in the movie where Ali Fazal, who played the role of Joy Lobo, snuffs out his life as he was unable to meet the deadline for completing the assigned project work and thus became a laggard. He was working on a battery-operated 'flying machine', which could capture various events through its magical eyes and features. Alas, his attempts were abortive, while the consummate Rancho was successful in designing the machine...and during a test flight, he and the entire college were witnesses to the shocking tragedy of Joy Lobo taking his life. Dismayed at the turn of events, Lobo prominently wrote on the walls of his room - I QUIT

The scene graphically recorded the miscarriage of the project and the abject subjugation of the character who was not an achiever. Once, some superiors decided to cashier an employee for a lacklustre performance. He decided to quit all relationships and his spirituality, and in sheer desperation informed God that he had decided to abandon his life. God asked him to look around in a forest for ferns and bamboo. When God planted ferns and bamboo seeds, he took special care of them and protected them from all the vagaries of weather. Within a year the ferns became resplendent and iridescent, covering the entire floor space, while the bamboo seeds showed no growth.

Over the following four years, the forest became verdant with the everexpanding ferns and yet there was no sign of the bamboo growing or developing into a tree. In the fifth year, the bamboo seeds began to sprout. Within the next six months, the bamboo shoots rose to a height of a hundred feet, lording over the fern plantation. God smiled at the man and said that he never gave up on the bamboo seeds over five years. During this timeframe, the roots of the bamboo tree were growing. Our period of struggle is akin to the development of the roots of the bamboo tree. Both the fern and the bamboo grew at their own pace, as willed by the universe and nature. They complemented each other's growth and were not competitors. Happiness makes us sweet and trials fortify us; sorrows when encountered should make us strong and success ought to make us grateful and radiant. In the ultimate analysis, it is only a positive disposition and thoughts that keep us ticking so that achievers do not lower their guard and thereby do not quit.

The key to shaping inclusive future

As automation, artificial intelligence and globalisation reshape industries, lifelong learning and adaptability are essential to staying competitive

n an era of rapid technological advancements and shifting economic landscapes, the conversation around skill development has never been more relevant. Skills are no longer just tools for employment; they are the chisels and hammers that sculpt our collective future, shaping individuals and nations. Historically, skills were tied to tradition and geography. A farmer learned the trade from generations before, and an artisan honed their craft through years of apprenticeship. But the 21st century has shattered these boundaries. Today, the Advent of automation, artificial intelligence, and globalisation demands a workforce that can continuously adapt, innovate, and learn. Skills are not static; they evolve, and the pace of this evolution is accelerating. At the heart of this transformation lies the understanding that skill development is no longer a one-time event but a lifelong journey. The future belongs to those who embrace this mindset. A software engineer may need to transition to being a data analyst tomorrow. A marketer should delve into behavioural psychology or artificial intelligence. The world is moving toward a gig economy, where flexibility, creativity, and adaptability are not just assets but necessities. Those who rest on their laurels risk being left behind in a world where change is the only constant. India has the brain power needed to rise in the skilled world. Governments, educational institutions, and private enterprises all play a role in fostering a skill development culture.

Traditional education systems, built to serve industrial-era needs, must undergo a radical shift. The focus should be more than rote learning or degree acquisition, fostering critical thinking, problem-solving, and technical competencies. Initiatives like coding boot camps, vocational training, and online learning platforms have already begun to disrupt the status quo, democratising access to quality education. But more must be done to ensure inclu-

sivity and widespread reach.
When we talk of skills, we mean making one employable to earn a livelihood quickly and decently. As per the National Policy of Skill Development and Entrepreneurship 2015, We had the target to impart various skills to 40 crore people by the end of 2022. However, around 4 crore people have been trained. Still, there is a massive opportunity for varied stakeholders to come forward and arm our men and women with employable skills. It is nothing but aligning the entire skilling ecosystem with the demands of employers. Today, a considerable gap exists between the demand for a skilled workforce and their availability in the mar-

Among 150 million young people in developing countries, around 33 per cent are skilled but unemployed, as their employability quotient could be better. Government policy interventions can bridge the gap between demand and supply in the workforce market. Incentivising employable skill development through subsidies, tax benefits, or public-private part-nerships can empower citizens to upskill or reskill. Furthermore, governments must create frameworks encouraging lifelong learning, such as subsidised courses or learning credits for professionals looking to update their skills. Meanwhile, industries must recognise their role in cre-

Corporate training programs, mentorship initiatives, and collaborations with educational institutions are not just investments in employees but investments in the future of the business itself. Companies that foster a culture of continuous learning often enjoy higher productivity, better employee retention, and a competitive edge in their industries. Moreover, the private sector can lead the way in identifying future skills by

This empowerment extends beyond individuals to communities and provided the state of the provided populations. INTERVENTIONS entire societies. Skilled populations are better equipped to address local challenges, from improving infrastructure to boosting small businesses.

DEMAND AND In this way, skill development catalyses innovation and self-SUPPLY IN THE reliance, reducing dependency on external aid and fostering sustainable growth. Communities MARKET investing in their human capital often see a ripple effect, where often see a ripple effect, where increased productivity and prosperity lead to better healthcare, education, and quality of life. As we addressing the challenges it pre-

sents is also critical. The digital divide, for instance, threatens to exclude those who lack access to technology or internet connectiv-

Rural areas and underserved regions often bear the brunt of this inequity, leaving millions without the tools to participate in the modern economy. Bridging this gap requires a concerted effort from the public and private sectors, including infrastructure investments, affordable technology, and localised training programs catering to specific regional needs. Similarly, a one-size-fits-all approach to skills training is likely to fail. Each individual's journey is unique, shaped by their aspirations, context, and potential.

Personalised, learner-centric approaches must become the norm. Adaptive learning technologies powered by artificial intelligence can significantly tailor educational content to suit individual needs and learning styles. This ensures that skill development is essential, practical, engaging, and relevant. Moreover, we must shift the narrative around failure in skill acquisition. Learning a new development. Understanding the implications of artificial intelligence, data privacy, and sustainability is as crucial skill often involves trial and error, and creating an environment where individuals feel encouraged to experiment and grow without fear of judgment is essential. Employers and educators must foster a culture that values resilience and continuous improvement over perfection. The metaphor of skill as a sculptor is apt. Like marble, raw talent has limitless potential. But becoming something remarkable requires the right tools, guidance, and effort.

Skill development chisels away ignorance carves out opportunities and polishes the rough edges of human potential. It bridges the gap between dreams and reality, between where we are and where champion skill development, we aspire to be. As we look to the

of skills to redefine what is possible. Whether combating climate change, revolutionising healthcare and wellness, or exploring the frontiers of space, skilled individuals will be at the helm of every breakthrough. By investing in skill development today, we are not just preparing for tomorrow but shap-

The urgency of this investment cannot be overstated. The COVID-19 pandemic served as a wake-up call, highlighting the vulnerabilities of unskilled or under-skilled workers in a volatile economy. Millions faced job losses, and industries struggled to adapt to new remote work and digital operations norms. Yet, it also demonstrated the resilience of those equipped with the right skills to pivot and thrive in uncertain times. The lessons learned must guide our approach, emphasising the importance of resilience, adaptability, and futureproof skills.Furthermore, as technology evolves, ethical considerations must be integrated into skill

as mastering technical competencies. This holistic approach ensures rapid and responsible progress, fostering a future where innovation aligns with human values and societal well-being. In conclusion, skill development is more than a response to economic demands; it is a transformative force that shapes our world. It empowers individuals, drives innovation, and fosters inclusive growth. By investing in skills, we invest in people, and by investing in people, we invest in the

Witch-hunting in India: A persistent plague claiming women's lives

Despite legal interventions, witch-hunting remains a grim reality in parts of India, targeting marginalised women

n 2014, Partners for Law in Development (PLD), a Llegal resource group working on social justice and women's rights, carried out a study to understand the reasons behind rising violence against women in the name of witch hunting in Bihar, Chhattisgarh and Jharkhand. They found that women were blamed for illness, death and even a bad crop and branded as witch-

The targets of this belief system were largely middleaged married women with little formal education, from lower economic strata and marginalised castes and communities. Moreover, victims and perpetrators were, more often than not, close-

tices. Ten years later, nothing seems to have changed. Witch hunting continues to claim women's lives even in 2024. Over 663 were killed for allegedly practising witchcraft during 2015 and 2021 according to the National Crime Research Bureau (NCRB).

Worryingly, the main perpetrators of this violence also remain the same, says Nirantar Trust, a NGO working on gender and education, Findings of the Trust's recent survey on witch hunting in 114 villages across 10 dis-tricts in Bihar showed 43 per getted by members from their own family. Their study, released earlier this ly related to each other and, ation of witch hunting prac- cant proportion of the raise their voices against the

women victimised as witches were between the age group 45 to 60. Moreover, 73 per cent of the victims had never been to school. Nirantar also found that more than single women or widows, it was married women who were branded as witches, corroborating the findings of the 2014 PLD study. In many instances, perpetra-

tors were related to the male kin of the husband and thus negated the traditional belief that married women were than women. Another grave concern raised in the 2024 study is the targeting of women from marginalised backgrounds who have shown agency and the courage to

The inability of the government to sensitise men while pushing for women's

gered many women in leadership roles. One of the easiest ways to show the woman her place has been to brand her as a witch. Of the 44 per empowerment has endan- cent of women who faced

accusations of witchcraft from castes other than their own, the majority were from the upper caste. Nirantar found that most women preferred not to report this mental and physical assault as they were afraid it would lead to increased violence, greater social ostracisation and humiliation.

They also lacked trust in the sincerity and efficacy of law enforcement agencies. The inability to provide timely justice can be fatal was found by Action Aid Association. The NGO, which detailed 102 case studies from Odisha's 12 districts reporting maximum witch-hunting incidents in 2021, found that despite the law, more than 30 per cent of the total cases had led to the death of the

woman branded as a witch. Chhutni Mahto, the firebrand social activist from Jharkhand, who received the Padma Shri in 2021 for her role in rescuing over 100 women accused of witchcraft, knows the pain because she too, was targetted as a witch. She survived and embarked on a mission to help others.

But why is the onus only on survivors? NCRB data shows that since 2000, over 2,500 women have been killed for being witches. How many more women need to die before action against such inhuman acts is given the priority it deserves? (The author is a journalist

China approves world's largest dam over Brahmaputra river

PTI ■ BEIJING

hina has approved the construction of the /world's largest dam, stated to be the planet's biggest infra project costing USD 137 billion, on the Brahmaputra River in Tibet close to the Indian border, raising concerns in riparian states — India and Bangladesh. The Chinese government has approved the construction of a hydropower project in the lower reaches of the Yarlung Zangbo River, the Tibetan name for the

official statement quoted by state-run Xinhua news agency on Wednesday

The dam is to be built at a huge gorge in the Himalayan reaches where the Brahmaputra river makes a huge U-turn to flow into Arunachal Pradesh and then to Bangladesh. The total investment in the

dam could exceed one trillion yuan (USD 137 billion), which would dwarf any other single infrastructure project on the planet including China's own

The applicant should not be debarred from entering into legally binding contract under any prevailing law

Any person can apply, however, preference will be given to PMAY beneficiaries, including their spouse or dependent children, identified by the Urban Local Bodies Department, Haryana, under the "Pradhan Mantri Awas Yojna for All" program. First priority shall be given to the identified beneficiaries of the state of Haryana. Thereafter, for the remaining flats, preference will be given to persons, including their spouse or dependent children, who do not own any flat/plot in any HUDA developed Colony/sector or any licensed colony in the urban areas in Haryana, UT of Chandigarh, and NCT.

Last date of submission of application form is 30/12/2024 23:59

Any applicant can submit only one application. A successful applicant under this policy shall not be eligible for the allotment of any other flat under this policy in another colony In the event that he/she is successful in more than one colony, he/she will have the choice to retain only one flat. Supportive affidavits and certificates suggesting eligibility are mandatory to be uploaded on the TCP website while submitting the application for allotment.

The allotment of apartments shall be done through e-draw of lots in the presence of a committee consisting of Deputy Commissioner or his representative (at least of the cadre

of Haryana Civil Services), Senior Town Planner (Circle Office), DTP of the concerned district and the representative of colonizer concerned.

After fixation of date for draw of lots, an advertisement shall be issued by the Developer informing the applicants about the details regarding date/time and venue of the draw

of lots in the same newspapers on which the original advertisement was issued.

For detailed criteria and time-frame to be adopted for scrutiny and allotment, the applicants may also refer to the details in the Affordable Housing Policy, 2013 including the

amendments thereof notified vide No.PF-27/48921 dated 19.08.2013 (Available at the Department website i.e. www.tcpharyana.gov.in).

provides India with hydrological information on the Brahmaputra river and Sutlej river during the flood seasons. Data sharing of trans-border rivers figured in the talks between India, China Special Representatives (SRs) for border question, NSA Ajit Doval and Chinese Foreign Minister Wang Yi, held here on December 18. The SRs "provided positive directions for cross-border cooperation and exchanges' including data sharing on transborder rivers, a statement by the

said. The Brahmaputra Dam presents enormous engineering challenges as the project site is located along a tectonic plate boundary where earthquakes occur. The Tibetan plateau, regarded as the roof of the world, frequently experiences earthquakes as it is located over the tectonic plates.

Ministry of External Affairs

The official statement on Wednesday sought to allay concerns about earthquakes, saying that the hydropower project is safe and prioritises ecological protection.

Through extensive geological explorations and technical advancements, a solid foundation has been laid for the science-based, secure, and highquality development of the proiect, it said.

Rupee plunges 12 paise to close at 85.27 against US dollar

The rupee stayed weak for the third straight session and fell 12 paise to settle at a fresh all contents. fresh all-time low of 85.27 (provisional) against the US dollar on Thursday, amid a strong greenback and rising crude oil prices.

Forex traders said, increased month-end as well as year-end dollar demand from importers and fear of an aggressive import tariff by the Donald Trump administration lifted the American currency.

At the interbank foreign exchange, the rupee opened weak at 85.23 and touched the lowest-ever level of 85.28 against the greenback during intraday trade.

The unit finally ended the session at its lifetime low closing level of 85.27 (provisional) against the dollar, registering a loss of 12 paise from its previous close. The rupee fell 4 paise to settle

at 85.15 against the US dollar on Tuesday, a day after losing 9 paise on Monday.

The forex market was closed on Wednesday for Christmas. According to Anuj Choudhary, Research Analyst at Mirae Asset Sharekhan, the rupee fell to a fresh all-time low on strong dollar and rising US treasury yields that are at the highest levels in seven months.

Also, he said the surge in crude oil prices, month-end/year-end dollar demand and FII outflows may also weigh on the rupee.

"However, any intervention by the RBI may support the rupee at lower levels. Traders may take cues from weekly unemployment claims data from the US. USD-INR spot price is expected to trade in a range of 85.10 to 85.45," Choudhary added.

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading marginally lower by 0.09 per cent but remained elevated at 107.93, amid soaring US Treasury yields (4.61 per cent) and the fear of delayed interest rate cuts by the US

Federal Reserve.
Brent crude, the global oil benchmark, rose 0.56 per cent to USD 73.99 per barrel in futures trade.

In the domestic equity market, the 30-share BSE Sensex closed almost flat at 78,472.48 points, while Nifty inched up 22.55 points, or 0.10 per cent to close at 23,750.20 points.

West Bengal's 2024 economy: Story of growth amid challenges

PTI KOLKATA

West Bengal's economic narrative in 2024 was one of striking contrasts steady growth and fresh investments juxtaposed with fiscal concerns and a worrying trend of industry flight from a perceptively "non-investor friendly" state. The state demonstrated a significant economic expansion outlook, with its State Domestic Product (GSDP) projected to surge by 10.5 per cent in the 2024-25 fiscal, significantly outpacing the national average of 7.32 per cent and reinforcing its position as the fourth-largest economy in India, according to state industries minister Shashi

The manufacturing sector played a crucial role in this upward trajectory during the year, achieving a robust growth rate of 7.8 per cent, exceeding the national average. This growth was growth propelled substantial across investments across various sectors

Infosys inaugurated a Rs 426 crore development centre, spread over 3,20,000 sq ft, in over 4,000 employees and focus on cloud computing and digital services. Chief Minister Mamata Banerjee, calling it "A New Year gift to

West Bengal", expressed hope for increased IT investments in the state.

The manufacturing sector's strong performance was mw underscored inauguration of two major projects with investments totalling Rs 2,100 crore -Shyam Steel's integrated steel facility and Dhunseri Poly Films' venture. These projects are expected to create over 5,000 jobs, providing a significant boost to the state's industrial health.

age for India beckons: Tata Sons chief to staff

PTI ■ NEW DELHI

With global supply chains continuing to shift in India's favour as the world's largest businesses strike a new balance between resilience and efficiency, manufacturing has the potential to transform the country's economy, Tata Sons Chairman N Chandrasekaran said on Thursday.

In his New Year message to employees of the salt-toconglomerate, software Chandrasekaran termed it as "a new manufacturing golden age for India" and said he was looking ahead to 2025 "with a sense of hope and optimism" after 2024, a year marked by the loss of Tata Group Chairman Emeritus Ratan "While AI-led breakthroughs

in healthcare and mobility can help the whole of humanity, manufacturing has potential to transform our economy in India," he wrote. Elaborating, he said, "Global supply chains continue to shift in India's favour as the world's largest businesses strike a new balance between resilience and efficiency. What might have seemed like a short-term reaction to the pandemic has proved much more enduring." Amid relentless geopolitical instability, Chandrasekaran said, "The equation has tilted

firmly toward resilience and India, with our vast talent pool and growing manufacturing capacity, is poised to benefit." Reiterating Tata Group's plans to create 5 lakh manufacturing jobs over the next half decade, he said these will come in part from investments in facilities across India's "factories and projects that will produce batteries, semiconductors, vehicles, electric equipment and other critical hardware destined to play a central role in the economy of tomorrow".

He said ground-breaking ceremonies and construction began at over seven new manufacturing plants, including India's first including India's first semiconductor fab in Dholera, Gujarat, and a brand new semiconductor OSAT plant in

"There is the electronics assembly plant in Narasapura, Karnataka, an automotive plant in Panapakkam, Tamil Nadu, and new MRO facilities in Bengaluru, Karnataka," Chandrasekaran said. He further said, "We also have

EXPLORING THE TIMELESS CHARM OF NOVELS, THEIR UNIQUE STORYTELLING AND THE PROMISING VOICES SHAPING INDIA'S LITERARY LANDSCAPE IN 2024, SAYS KUMAR CHELLAPPAN

t is not without reason that the word novel has been assigned two meanings. Although the English language can often be amusing with its many words having multiple meanings, the term novel has a significant connection to its different interpretations. The dictionary defines novel as "an invented prose narrative that is usually long and complex and deals especially with human experience through a usually connected sequence of events." The word also has another meaning - something that is new, original, and never seen, used, or even thought of before. A novel, as a literary form, tells a story and features multiple characters interconnected through a sequence of events. Each novel offers a new, fresh and unprecedented experience. What makes a novel truly special is its readability and the ease with which it allows readers to identify with the characters it presents. Let us reflect on the novels of the past. Timeless classics like War and Peace, Anna Karenina (Leo Tolstoy) The Mother(Maxim Gorky), Gone with the Wind (Margaret Mitchell), The Far Pavilions (M. M. Kaye), and Crime and Punishment(Fyodor Dostoevsky) continue to resonate with readers. These masterpieces transport us to a different world through their narrative, characters, and the time and space they depict. It is rare to encounter someone who feels these novels fall short of their expectations.

The first novel to grace bookshelves in India was Rajmohan's Wife by Bankimchandra Chatterjee in 1864. This makes the novel as a literary genre relatively new in this region. India has produced remarkable writers like Tarasankar

Bandyopadhyay, whose works include Ganadevata and Arogya Niketan, the latter being particularly popular. Bankimchandra Chatterjee's Anandamath (1882), set against the backdrop of the Great Bengal Famine of 1770, is widely regarded as the finest novel ever written in the subcontinent.

During my school days, our language teacher, P. Ú. Madhavan, emphasised the importance of reading these classics. He was our gateway to the world of literature. Years later, at university, we studied a prose piece by A. J. Cronin, the renowned Scottish novelist, about the art of writing a novel. Cronin often told his wife that he would write a novel loved by all. During a period of recovery from illness, Cronin wrote Hatter's Castle, a landmark in English literature. He abandoned his medical career to pursue writing full-time. Cronin's success, along with that of other novelists, lies in their ability to tell compelling stories. Ponniyin Selvan (Son of Ponni) by Kalki Krishnamurthy, for instance, is

Arulmozhivarman, a 10th-century Chola prince. Reading this book is akin to watching a film projected on a Vistarama screen, the most advanced film projection system I've ever seen.

based on the life of

Novels, poems and stories resemble rivers and streams flowing from mountains, meandering through valleys, plains and plateaus. A wellwritten novel provides the sensation of sailing smoothly down a serene river. Conversely, a poorly written one feels like driving on a pothole-filled road. Unfortunately, contemporary Indian literature in English often lacks the quality we once enjoyed with authors like R. K. Narayan, Raja Rao and Shobhaa De. These authors wrote straight from the heart. Today, however, publishers often dictate the content to maximise sales. In India, literary works that criticise certain religions or spiritual figures tend to attract significant attention and awards.

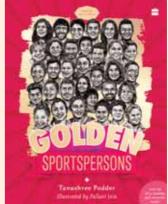

While we lack the likes of Mitchell, Tolstoy and Kaye, a few noteworthy works of fiction emerged in 2024, offering hope for the novel genre. Swallowing the Sun, the debut novel by Lakshmi Murdeshwar Puri, was a breath of fresh air. Puri masterfully narrates India's freedom struggle and the emancipation of women from societal constraints. The protagonist, Malati, guides readers through a vivid journey across the Konkan region and Bombay, where she and her sister Kamala break into a male-dominated world. Thrilling and vibrant, Swallowing the Sun feels like a long-awaited monsoon, refreshing and full of intensity. Another standout author is Harinder S. Sikka, a former Indian Navy commander known for Gobind, Vichhoda and Calling Sehmat. Drawing on his naval experiences, Sikka crafts authentic stories, earning him the title of "India's Jeffrey Archer." Readers eagerly await more from writers like Puri and Sikka, who draw inspiration from real life. As Malayalam literary rebel Keshava Dev once said, "You will understand life only if you learn how to live. That experience will guide you in writing novels and stories. No university can teach you this.

Thank you, Lakshmi Puri and Harinder S. Sikka, for giving us hope. And thank you, 2024, for these promising voices in

Top order hepls Australia score 311/6, Bumrah keeps battle alive

asprit Bumrah's knack of coming up with magic deliveries in crunch situations kept India alive after Australia's top-order, headlined by teen debutant Sam Konstas' stroke-filled half-century, guided the hosts to 311 for 6 on the opening day of the fourth Test here on Thursday.

If Konstas' audacious 60 off 65 balls enthralled the near sell-out crowd of over 80,000 at the MCG during a humid morning session, Bumrah's (3/75 in 21 overs) deception of length to dismiss Travis Head (0) also had its takers as chants of 'Boom, Boom, Boooomraaaaaah reverberated through the

Coming into the Test with back-to-back hundreds, Head couldn't judge the length of a Bumrah delivery that was pitched slightly fuller than what the batter expected. He shouldered his arms trusting the bounce but the 66.2 overs old Kookaburra nipped back to clip the off-bail.

In the next over, he removed an out-of-form Mitchell Marsh (4), having got Usman Khawaja (57 off 121 balls) with the half-tracker in the post-lunch session.

The first two sessions, however, belonged to Australia with senior players Khawaja, Marnus Khawaja, Marnus Labuschagne (72 off 145 balls) and Steve Smith (68 batting, 111 balls) scoring half-centuries.

The final session was all about Bumrah magic. The Indian spearhead didn't let the hosts completely walk away with the game which they threatened to do at one

The morning was owned by the precocious 19-year-old

from New South Wales. Konstas didn't show any nerves during his scintillating knock, which comprised of two sixes off Bumrah

He also didn't mind a good scrap with India's superstar Virat Kohli, whose shoulder

brush with the 19-year-old led to a brief confrontation. In fact, Bumrah was hit for a six for the first time in a Test since Cameron Green hit him for one back in 2021. The gap between Konstas' first six, which was a lap scoop, and

the one that Green hit three years ago was 4000 legal Test match deliveries.

After a conventional lap scoop for maximum, Konstas also hit a reverse lap scoop towards third man for another boundary.

second six was pummelled over mid-on.

The way he attacked the Indian bowling with gusto gave his veteran opening partner Khawaja a chance to

annoyed with himself as he couldn't time a pull shot off a Bumrah half-tracker, which went straight into KL Rahul's hands in the post-lunch session.

The duo added 89 runs in such quick time that Labuschagne and last match's centurion Smith didn't need

to show any urgency.
For Konstas, it all began with
a few play and misses off Bumrah's opening over but as

soon as the teenager got his first couple of runs, things changed dramatically.

The fearlessness of youth stood out on the big stage as Konstas pulled off the lapscoon against Bumrah before scoop against Bumrah before smashing him over mid-on for another maximum.

The fans and experts alike were forced to think the last time Bumrah (1/50 in 15 overs) was hit for two sixes in his first spell of a Test match. They couldn't because it never happened in a first

The stump mic caught Bumrah saying "Beginner's Luck" but Konstas seemed to have enough wares to answer his probing queries. And it was laced with a lot of spunk as he got into a verbal duel shoulders brushed

crossing each other. He often shuffled towards leg-stump to make room and on one occasion, crunched

Bumrah past cover. Mohammed Siraj was welcomed into the attack with a loud round of boos as he sledged the youngster due to his unconventional hitting

In all, Konstas hit six fours apart from the two maximums. Only Akash bowled a good channel among the pacers as Siraj was guilty of going too full or too

As Australia scored at more than a fair clip, skipper Rohit Sharma had to introduce Ravindra Jadeja (1/33 in 11 overs) in the 16th over to at least stem the flow of runs before it went out of hand. The decision did pay dividends as the seasoned spinner got an arm ball to skid through with the angle

to trap Konstas in front. Khawaja and Labuschagne then added 65 for the second wicket with the Pakistanborn opener hitting Akash for a couple of boundaries to complete his first fifty of the

Former Zimbabwe captain Andy Pycroft on Pycroft Thursday became only the fourth official in the history of men's Test cricket to complete 100 games as a match referee with the Boxing Day contest between India and Australia that

began here on Thursday.

The exclusive list is led by

former Sri Lanka player Ranjan Madugalle as the referee with 225 Tests. followed by New Zealand's Jeff Crowe (125) and England's Chris Broad (123). The 68-year-old Pycroft played three Tests and 20 ODIs for Zimbabwe from 1983-1992.

"Pycroft, who has also officiated in 238 men's ODIs, 174 men's T20Is and 21 women's T20Is since 2009, said he has enjoyed every minute of the journey to 100 matches as a match referee, the ICC said on its website. India needed Rohit to open, Washington's variation at MCG, says Nayar on axing Gi

PTI MELBOURNE

India's assistant coach Abhishek Nayar on Thursday defended axing Shubman Gill from the Boxing Day Test, saying it was in team's best interest to not only have Rohit Sharma back to his usual opening slot but also add some sting to the attack by drafting in spin all-rounder Washington

Gill, who missed the first Test due to a finger injury, scored 31 and 28 in the Pink Ball Test and looked the most assured among Indian batters. He, however, got out for a duck in Brisbane. With Rohit Sharma opening the innings and KL Rahul coming at No. 3, Gill had to make way for a third specialist all-rounder in Washington.

"Yes, Rohit will come up in the order and more likely than not, he will open the innings. That was the thought process. Unfortunately for Gill, just how things

spanned out, he had to miss out," Nayar said at the end of the day's play.
"I just feel for a young player in a position

like that, a big day, he wants to make his mark. He understands it's the team's requirement and it's unfortunate, but I wouldn't say that he's been dropped per se. It's just unfortunate that he couldn't find his place in this game," the former Mumbai stalwart said but the explanation lacked conviction.

He elaborately explained why playing Washington at the MCG made sense ahead of Gill.

"A lot of the decisions when they are made, and the process of it being made, the communication is always there and transparency is there. It's pretty obvious that we felt in these conditions, looking at the pitch, having Washy in the bowling attack will give us that variation, especially towards the end once the ball gets old," he

"Post the 50 overs, we felt that was an area that we wanted to get better at. We felt Washy could give us that solidarity with Jaddu (Ravindra Jadeja), especially the way Travis Head and Alex Carey were getting runs lower down. So we felt having an offie in the ranks will provide us with that."

Virat Kohli fined 20 per cent match fees for altercation with Sam Konstas

"I was just doing my gloves

PTI ■ MELBOURNE

Virat Kohli and Australian **V** youngster Sam Konstas were on Thursday involved in a physical altercation because of which the Indian superstar was fined 20 per cent of his match fee and handed a demerit point even though it was played down as an accidental bump by the 19vear-old debutant.

The brief showdown took place after the 10th over of the Australian innings on the opening day of the fourth Test here when the players were crossing over. Kohli and Konstas bumped shoulders while moving across the pitch in the face off that was initiated by the travelling star. Kohli was eventually charged

with breaching Level 1 of the ICC Code of Conduct by onfield umpires Joel Wilson and Michael Gough, third umpire Sharfuddoula Ibne Shahid and fourth umpire Shawn Craig. He accepted the sanctions proposed by match referee Andy Pycroft at the end of day's play. "Virat Kohli has been fined 20

percent of his match fee and awarded one demerit point for breaching Level 1 of the ICC Code of Conduct," the ICC said in a statement. "No formal hearing was

and I think he accidentally bumped me. I think that's just cricket and can happen with tension," said the teenager. "I think the emotions got to both of us," Konstas had told 'Channel 7' during the second

session. The ICC's Code of Conduct states that "any form of inappropriate physical contact is prohibited in cricket. Without limitation, players

will breach this regulation if

they deliberately, recklessly

and/or negligently walk or run

into or shoulder another player or umpire". Kohli's match fee for the game was to be Rs 15 lakh but that amount would be reduced to Rs 12 lakh owing to the fine. This is the first demerit point

that Kohli has logged since Konstas might have dismissed 2019. Four demerit points over a period of two years lead to a suspension of one Test.

Konstas, who was batting on 27 at the time, went on to hit Jasprit Bumrah for two boundaries and a six in the next over. The teenager scored a stunning fifty on debut before Ravindra Jadeja trapped him leg before wicket. India assistant coach Abhishek Nayar, who addressed the media in the end-of-day press conference, also brushed aside the incident as nothing big.

"When you play a game, there will be emotions but it is not as big as it seems. I wasn't aware of what happened and don't know what was said," he said in response to queries. Kohli criticised for his actions

it as routine but former Australian skipper Ricky Ponting blamed Kohli for instigating the exchange. He went to the extent of saying Kohli could face that disciplinary action for it. "Have a look where Virat

walks. Virat's walked one whole pitch over to his right and instigated that confrontation. No doubt in my mind whatsoever," Ponting said on Channel 7 while watching the replay of the incident.

"I have no doubt that the umpires and the referee will have a good look at that. Fielders should be nowhere near the batsman at that stage. "It looked to me that Konstas looked up really late, wouldn't

even know anyone is in front of him. That man on-screen there (Kohli) might have a few questions to answer," Ponting added. Former India head coach Ravi

during Kohli's captaincy, said the run-in was unnecessary. "There is a line and you don't want to overstep that line. That's unnecessary, totally unnecessary. You don't want to

see that. You know Virat is a
