

French rail sabotage ahead of Olympics

France's high-speed rail net-work was hit on Friday with widespread and "criminal" acts of vandalism, including arson attacks, paralysing travel to Paris from across the rest of France and Europe only hours before the grand opening ceremony of the Olympics.

French officials condemned the attacks as "criminal actions," and prosecutors in Paris opened a national investigation, saying the crimes could carry sentences of 15 to 20 years.

As Paris authorities geared up for a spectacular parade on and along the Seine River, three fires were reported near the tracks on the high-speed lines of Atlantique, Nord and Est, causing disruptions that affected hundreds of thousands of travellers.

Among them were two athletes German in showjumping who were on a train to Paris to take part in the opening ceremony but had to turn back in Belgium because of the closures, and will now miss the ceremony, German news agency DPA reported.

'There was no longer a chance of making it on time," rider Philipp Weishaupt, who was travelling with teammate Christian Kukuk, told DPA. French Prime Minister Gabriel Attal wrote on the social media platform X that France's intelligence services have been mobilised to find the

In a major setback to unsuccessful aspirants of NEET-ÚG 2024, the Supreme Court on Tuesday dismissed the pleas seeking cancellation and retest of the controversy-ridden exam, holding that there was no evidence on record to conclude that it was "vitiated" on account of "systemic breach" of its sanctity.

The verdict came as a shot in the arm for the embattled NDA Government and the NTA, which were facing strong criticism and protests, on streets and in Parliament, over alleged largescale malpractices like question paper leak, fraud and impersonation in the prestigious test held on May 5.

The CBI is probing alleged irregularities in NEET-UG 2024 and has lodged six FIRs. The NEET-UG is conducted by the National Testing Agency for admissions to MBBS, BDS, AYUSH and other related courses in Government and private institutions.

This was announced during the 46th World Heritage Committee session in India. With this addition, India now proudly hosts 43 World Heritage Sites. The 'Moidams' in Assam's Charaideo district with their striking pyramidlike structures captures the State's regal past, and simultaneously offers a fascinating blend of history, architecture, and folklore of the Tai-Ahom dynasty. The UNESCO tag highlights the global appreciation of the Tai-Ahom dynasty's rich cultural

heritage and historical contributions. Prime Minister Narendra Modi expressed pride and joy over the inclusion, highlighting the cultural and historical value of the 'Moidams'. while Union Culture Minister Gajendra Singh Shekhawat called the decision a "day etched in golden letters".

The Moidams are a mound burial system that served as a resting place for Ahom kings and queens. They were constructed by providing an earth cover over a hollow vault made of bricks, stone or earth.

The designated site contains 90 moidams of different sizes, which were created over a period of 600 years, and include other cultural features like ceremonial pathways and bodies of water, said a spokesperson from ICOMOS, the advisory body of the World Heritage Committee.

No expert committee to extend **Ayushman Bharat coverage: Jadhav**

PNS NEW DELHI

Union Minister of State for Health Prataprao Jadhav on Friday said that no expert committee has been set up to extend Ayushman Bharat coverage to citizens aged 70 and above.

In his response to the Lok Sabha, Jadhav stated that the existing Ayushman Bharat -Pradhan Mantri Jan Arogya Yojana (AB-PMJAY) already covers all eligible family members regardless of age, providing up to ₹ 5 lakh per family per year for hos-

years will receive free treatment under the Ayushman Bharat health insurance

scheme. This declaration was made during her address to the joint sitting of Parliament in the National Capital.

President Murmu had also highlighted the progress of the Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana (AB-PMJAY), which currently provides free health services to 55 crore beneficiaries.

However, Jadhav, in a written reply, said all members of eligible families, irrewered Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana.

Jadhav said

He said 34 insurers and third-party administrators were live and approximately 300 hospitals ramping up to start sending their claims on the National Health Claims Exchange (NHCX), which aims to streamline and fasten health insurance claim processing, as on July 21. Jadhav said the government built the NHCX gateway under the Ayushman Bharat Digital Mission.

It serves as a gateway for exchanging health claim information among insurers, health audit beneficiaries and other relevant entities and ensures interoperability, machinereadability, auditability and verifiability, making the information exchange accurate and trustworthy, the minister said. Supported by the Insurance Regulatory and Development Authority of India and the General Insurance Council, the NHCX will enable standardised and faster health insurance claim processing, Jadhav said.

He was responding to a question on whether the Government proposed to cover citizens aged 70 and above by expanding Ayushman Bharat through the launch of National Health Claims Exchange and if an expert panel had been set up to strengthen the format of the scheme for the planned expansion.

 $M_{are \ pending \ in \ various}^{ore \ than \ five \ crore \ cases}$ courts across India, with a maximum of over 1.18 core in the subordinate courts of Uttar Pradesh, according to the government's written reply in the Lok Sabha.

Law Minister Arjun Ram Meghwal said while 84,045 cases are pending in the Supreme Court, 60,11,678 were pending in the various High Courts. District and subordinate courts are the biggest contributors, with 4,53,51,913 cases pending with them, according to the minister. Meghwal said several reasons lead to the pendency of cases, including the availability of

physical infrastructure and supporting court staff, the complexity of facts involved, the nature of evidence, and the cooperation of stakeholders, including the bar, investigation agencies, witnesses and litigants. Proper application of rules and procedures also plays

a key role, he said. Other factors that lead to delays in the disposal of cases include lack of prescribed time frame by courts for disposal of various kinds of cases, frequent adjournments and lack

of adequate arrangement to monitor, track and bunch cases for hearing, the Minister added He also informed the House

that over 200 proposals sent by various High Court collegiums for High Court judgeship are at various stages of processing. In a written reply, Law Minister Arjun Ram Meghwal also cited an opinion of the Supreme Court Collegium that expression of views by a candidate does not disentitle him or her to hold a constitutional office so long as the person proposed for judgeship is a person of competence, merit

and integrity. There have been instances in the past where the Government had either held back or returned to the collegium for consideration names of persons who had expressed their views on various issues as advocates.

Meghwal told the House that the Government, as an important stakeholder in the process of appointment of Judges in the High Courts and as laid down in the Memorandum of Procedure, provides inputs which mainly contain information on the suitability, competence and integrity of the candidates under considera-

tion for appointment to high constitutional post in the judiciary. The recommendations along with inputs are then submitted to the SC Collegium for advice.

As per the procedure, the High Court collegiums send their recommendations to the Department of Justice in the law ministry which adds inputs on the candidate along with IB reports and sends it to the SC Collegium to take a call.As on date, 205 proposals recommended by the various High Court Collegiums are at various stages of processing, he said.

Appointment of SC and HC judges is a continuous, integrated and collaborative process between the Executive and the Judiciary. It requires consultation and approval from various constitutional authorities both at state and central level, he noted.

Opp criticises PM Modi over remarks on Agnipath recruitment scheme

PNS NEW DELHI

The Opposition parties on Friday criticised Prime Minister Narendra Modi over his remarks regarding the Agnipath scheme while paying tribute to martyrs on Kargil Vijay Diwas and demanded a review of the scheme. Modi said the Agnipath recruit-

ment scheme was an example of necessary reforms undertaken by the Army and accused the Opposition of playing politics over the recruitment process aimed at keeping the average age in the armed forces low.

Congress President Mallikarjun Kharge and other party leaders accused the Prime Minister of indulging in "petty politics" over the Agnipath issue and said the Prime Minister's remarks that his Government implemented the scheme at the behest of the Army was a "blatant lie".

"It is very unfortunate and deplorable that Prime Minister Narendra Modi ji is doing petty politics even on occasions like paying tribute to martyrs on Kargil Vijay Diwas. No Prime Minister has ever done this before," Kharge said.

"Modi ji is saying that his Government implemented the Agnipath scheme at the behest of the Army. This is a blatant lie and an unforgivable insult to our valiant armed forces. Modi i, it is you who is spreading lies!f he said in a social media post.

Asserting that many retired officers had strongly criticised the scheme, the Congress chief said the Agnipath scheme was endangering National Security and the aspirations of the rural youth.

All this is on record, he said and demanded that the scheme be completely scrapped.

Congress general secretary Jairam Ramesh accused Modi of "lying" even on Kargil Vijay Diwas. "He (Modi) says the Agnipath/Agniveer scheme was introduced by the Army. Chidambaram termed Agnipath an "ill-conceived scheme".

"Modern warfare and modern military campaigns require a professional army which is tremendously technology oriented. Agniveer scheme neither gives training nor does it give Commission. It does not equip a soldier for modern warfare," he said.

Karnataka CM rebuts Opp charge over MUDA scam

Karnataka Chief Minister Siddaramaiah on Friday strongly defended himself in connection with the alleged fraudulent allotment of sites to land losers by Mysuru Urban Development Authority (MUDA), including to his wife Parvathi, and asserted that neither he or his family has any role in

He accused the opposition BJP and JD(S) of making politically motivated allegations against him out of "hate and revenge", with an intention to "put a black mark on his image", as they are unable to digest that he has become Chief Minister for the second time.

Siddaramaiah also said that the Governor Thaawar Chand Gehlot has sought a report from the government the regarding alleged irregularities in MUDA and a report will be sent "as everything is totally and absolutely legal."

"Is there any role of either mine or my wife or my brother-in-law in this? Our land was taken (by MUDA), sites were made and they were allocated to others. So MUDA gave us (alternate sites) as given to others, after accepting their mistake. What is illegality in this? " Siddaramaiah asked while giving a detailed statement to the allegations made against him by BJP-JD(S).

Speaking to reporters here, he said: "Absolutely my role is not there. It is totally and absolutely legal. BJP and JD(S) are indulging in false propaganda for the sake of politics and trying to defame me personally, unable to

digest that I have become the Chief Minister for the second time, and as they have lost the 2023 assembly polls and faced a setback in 2024 Lok Sabha polls."

It is alleged that compensatory sites were allotted to Siddaramaiah's wife in an upmarket area in Mysuru, which had higher property value as compared to the location of her land which had been "acquired" by the MUDA. The MUDA had allotted plots to Parvathi under a 50:50 ratio scheme in lieu of 3.16

acres of her land, where developed MUDA The residential layout. controversial scheme envisages allotting 50 per cent of developed land to the land loser in lieu of undeveloped land acquired for forming layouts.

Urban Development Minister Byrathi Suresh said several leaders from the opposition parties or their family members or relatives or friends or supporters have also been given alternative sites, and they included Union Minister and JD(S) state chief H D Kumaraswamy, BJP MLC Manje Gowda, JD(S) MLA and former Minister G T Deve Gowda, BJP MLC and former Minister

Vishwanath, former JD(S) MLA Sa Ra Mahesh. "I'm not saying all of this was

Chief Minister, I have been in politics for more than 40 years, it is 40 years since I became Minister first, so far there is no single black spot on my name (image). My political life is an open book." Responding to charges questioning the legality of 3.16 acres of his wife's land that was acquired by MUDA, he said, BJP and JD(S) say this land attracts provisions of Karnataka Scheduled Castes and Scheduled Tribes (Prohibition of Transfer of Certain Lands) Act, known as

the PTCL Act, which is "totally false", as Ninga alias Jawara, the earlier owner of the land, had purchased it through auction in 1935.

The 3.16 acres is a "self acquired" property, which later came to Ninga's third son Devaraj and he became the absolute owner of the property with the consent of other family members and siblings, he said. From him, Mallikarjuna Swamy (CM's wife Parvathi's acquired this land. brother) Η

Over 2,500 people died in five years in human-elephant conflicts: Govt data

PTI NEW DELHI

Human-elephant conflicts resulted in 2,853 human deaths during the past five years, with the number of fatalities reaching a five-year high of 628 in 2023, according to government data.

Responding to a question in the Rajya Sabha, Union Minister of State for Environment Kirti Vardhan Singh on Thursday said "elephants caused" 587 human deaths in 2019, 471 in 2020, 557 in 2021, 610 in 2022 and 628 in 2023

The data revealed that Odisha recorded 624 such deaths during this period, followed by Jharkhand with 474, West Bengal with 436, Assam with 383, Chhattisgarh with 303, Tamil Nadu with 256, Karnataka with 160 and Kerala with 124.

The minister said the management of wildlife habitats was primarily the responsibility of state governments and Union Territory administrations and that the central government provided financial and technical support under the centrally sponsored Project Tiger & Elephant scheme for the protection of animals, their habitats and corridors, addressing human-animal conflict, and for the welfare of

captive elephants. In February 2021, the ministry issued an advisory on dealing with humanwildlife conflict, recommending coordinated

inter-departmental action, identification of conflict hotspots, adherence to hotspots, standard operating procedures, and establishment of rapid

response teams. In June the following year, the environment ministry issued guidelines to states and Union Territories on managing human-wildlife conflicts, including damage to crops. The guidelines promote the cultivation of crops in forest that are fringe areas unpalatable to wild animals, and the use of agroforestry models incorporating cash crops such as chilies,

lemongrass, and Khus grass, mixed with tree and shrub

species. In coordination with state forest departments, the ministry has also ground 150 elephant validated corridors across 15 elephant range states and asked states and Union Territories to take necessary steps to protect and conserve these corridors.

The Union power ministry issued guidelines to all discoms and transmission companies in September 2022 to mitigate the impact of power transmission lines and other infrastructure on elephants and other wildlife. A permanent coordination committee has also been established between the railways and the environment ministries to prevent elephant deaths in train accidents.

More than 2,500 evacuated amid heavy rain in south Gujarat

PTI NAVSARI

More than 2,500 people were shifted out of their homes as several villages were inundated due to heavy rains in south Gujarat, officials said on Friday.

At least 2,200 people were relocated from villages and low-lying areas in Navsari, while 500 persons were evacuated in neighbouring Tapi district following heavy rains in 24 hours, they said. "Purna River passing through Navsari district has been flowing at 28 feet, well above the danger mark of 23 feet, due to heavy rains in the district and its upstream basin in 24 hours," Navsari collector Kshipra Agre told reporters here.

As many as 2,200 persons living in Navsari town and other surrounding areas have been shifted to shelter houses, where 15 medical teams were deployed, she said.

At least 70 internal roads and four main roads were closed for vehicular traffic due to waterlogging, she said.

In Tapi district, 500 persons from villages in Valod taluka were shifted to shelter houses due to flooding, the district

disaster management cell said.

Villages in Valod, Vyara, Dolvan and Songadh talukas were waterlogged, and 113 internal roads were closed, it said in a statement.

As per data from the State Emergency Operations Centre (SEOC), Dolvan taluka received 173 mm of rainfall in 24 hours, ending at 6 am on Friday.

Subir in Dangs district received 164 mm of rain, followed by Navsari taluka with 160 mm, Uchchhal in Tapi with 141 mm, Mahuva in Surat with 133 mm, Jalalpore in Navsari with 130 mm, Gandevi in Navsari with 123 mm and Valod in Tapi with 109 mm, the data stated. In its latest forecast, the India Meteorological Department (IMD) predicted heavy to very heavy rains at some places in south Gujarat on Friday and Saturday.

Rashtriya Janata Dal (RJD) leader Sunil Kumar Singh was expelled from the Bihar Legislative Council on Friday, following an incident of unruly behaviour in the House earlier this year.

The motion for Singh's expulsion was passed by voice vote, a day after the Ethics Committee submitted its report to acting chairman Awadhesh Narain Singh.

Singh, a close aide of RJD president Lalu Prasad and his family, was charged with raising slogans against Chief Minister Nitish Kumar on February 13, during a heated

In addition to Singh's expulsion, another RJD Member of the Legislative Council (MLC), Mohd Qari Sohaib, who also engaged in disruptive behaviour on the same day, has been suspended for two days. PAPER WITH PASSION-

Honouring the heroes

Kargil Vijay Diwas marks India's triumph over adversity and the enduring spirit of its armed forces

wenty-five years ago, India won a war that was thrust upon it. The war with Pakistan was won by some exemplary soldiers who fought valiantly and many laid their lives for the honour of the country. Kargil Vijay Diwas, commemorating the victory in the Kargil War against Pakistan in 1999 is celebrated on July 26. Prime Minister Modi paid rich tributes to the martyrs on the Vijay Diwas at Kargil Memorial. This year is special as the nation celebrates the silver jubilee of the victory. Prime Minister Modi visited the Kargil War Memorial in Drass, Jammu and Kashmir, to pay homage to the brave soldiers. However, the Indian borders are still far from secure. Terrorist activities are on the rise. So the big question is where do we stand today? Have we learnt our lessons? The Kargil War took place in the months of May and July 1999 and was a result of Pakistan's infiltration into the Indian side of the Line of Control (LoC). Pakistani soldiers, disguised as militants, occupied strategic heights in the Kargil sector of Jammu and

Kashmir. This unexpected intrusion led to Operation Vijay; a historic military campaign launched by India to reclaim the occupied territories. Despite the adverse circumstances, the Indian Armed Forces displayed unparalleled bravery and strategic acumen. The conflict culminated on July 26, 1999, with India successfully regaining control over the occupied regions. The Kargil expedition of Pakistan was indeed an eye-opener. India came to know of it rather late and that too from the locals who reported suspicious activity in the hills.

This was indeed a glaring intelligence failure that cost more than five hundred lives of soldiers. The war under-

scored the need for better intelligence and surveillance. India has since fortified its intelligence network and improved border security to prevent such infiltrations. The Kargil War also highlighted the importance of modern weaponry and equipment. In response, India has made significant investments in modernising its military capabilities. But the biggest lesson learnt by the Indian army was to prepare itself for high-altitude warfare. The conflict emphasised the need for specialised training for high-altitude warfare. The Indian Army has since established dedicated training programs and infrastructure to prepare soldiers for such challenging environments. The war also showcased the significance of international diplomacy. India effectively garnered global support against Pakistan's actions, leading to increased diplomatic pressure on Islamabad. The lessons learnt from the conflict have led to significant advancements in military strategy, technology, and international relations. However, we have a long way to go as the strained relations with two neighbours — Pakistan and China — can anytime erupt into a war. Indeed, Prime Minister Modi's visit to the Kargil War Memorial serves as a reminder of the nation's gratitude and respect for its armed forces. It also reinforces the commitment to safeguarding the nation's integrity and sovereignty. Jai Hind!

Urban violence: Human nature vs city life

HIRANMAY KARLEKAR

Urban violence and crime persist globally, often blamed on policing and socio-economic factors. However, the deeper cause is the conflict between urban life and human nature

rban violence and crime have been matters of continuing global concern. While the quality and adequacy of policing, and some social and economic factors, have been discussed in this context, the basic, underlying cause has escaped sufficient attention. It is the conflict between the very character of urban life and the orientation of the human ethos as it has evolved. The matter has been dwelt upon comprehensively by Desmond Morris in The Human Zoo. His focus has not been on crime but on the wider consequences of the conflict in terms of the future of human beings. His observations, however, have implications which no serious researcher in urban violence and crime can ignore. The primary cause of conflict between urban life and human ethos, according to Morris, is overcrowding caused by popu-lation growth. He describes two vastly different scenarios at the very beginning of the book. In the first, people are members of a tribe, comprising a "compact group" of 60, living in a piece of land 20 miles long and 20 miles wide, which is forested and inhabited by "animals, small and large." In the second, they live in an area of the same dimensions but which is "civi-

lized, inhabited by machines and buildings," and where there are a "compact group of six million human beings," a "hundred thousand individuals for everyone in the first scene. The change has taken place in the course of the past few thousand years, which, says Morris,

is "almost instantaneous" in evolutionary terms. Human beings have adapted themselves so brilliantly to their new environment that they have come to believe this to have been a gradual process, and they are biologically fully equipped to cope with a mass of strangers deal with it. This is not the case. Biologically, humans remain our tribe. It was something the simple, rural animals we had to learn to do, but it

tive violence. Also, tussles for leadership lead to attempts to garner support by resorting to competitive encouragement of violence. Equally, individual members of mobs can try to stand out in a crowd by perpetrating or calling for singularly violent acts.

Even without mobs and gangs, trivial causes spark violence when overcrowding grates on one's nerves. Instances of "road rage" are examples of this. Things are going to get worse as rising temperatures, cloudbursts, flash floods, cyclones, tornados and massive tidal waves, become increasingly frequent as a result of climate change--thereby severely affecting cities and towns.

There has to be a serious global discourse on all aspects of urban life including law and order. There can doubtless be no question of reversing the course of history and returning to tribal life. One can, however, think of devising patterns of community existence which consciously addresses this problem, encouraging inter-personal contacts and diminishconflicts. Unfortunately, no

One only has to travel in a train to understand these bonds. No sooner are you settled, when the friendly cotraveller wants to know the place that you belong to. The ice breaker is enough for complete strangers to explore more intimate details and search for relatives in case of a shared caste, or neighbours or even mutual friends otherwise.

I remember a few interesting incidents. I was around 8, when our teacher asked us our castes. I was not aware and was tasked to inquire from my parents. The next day as I excitedly raised my hand to blurt out the response, the teacher stumped me with yet another googly - my sub caste. SC MUST INTERVENE Madam — At last, the Supreme Court of India has stepped in to play a crucial role in involving the state governments of Punjab and Haryana to find a positive solution to the ongoing farmer protests at the Sambhu border. The Court has suggested forming a committee of independent individuals to negotiate with the farmers. It is indeed frustrating that the farmers, the "annadata" (food providers) of our country, are back on the streets fighting for a legal guarantee of the Minimum Support Price (MSP) for crops and other demands to reach the NDA government.

Currently, the Centre, under Prime Minister Narendra Modi, seems to have turned a blind eye to the plight of farmers, particularly in Punjab and Haryana. The prolonged standoff between the Haryana government and protesting farmers, which began on February 13, has led to road blockades, disrupted public life, and traffic movement, compelling the Supreme Court to act.

The Centre has yet to address or resolve the farmers' issues, leading to renewed protests with uncertainty. The Congress has only offered hollow assurances and remained a passive observer. It is hoped that the recent meeting between farmer leaders and Rahul Gandhi in Parliament, along with the Apex Court's efforts, will lead to a resolution of the issue without further delay.

BUDGET: THE GOOD BAD AND THE UGLY

Madam — The Union Budget for 2024-25 can be viewed in three layers. increased savings interest rates or provided health support through government schemes.

Despite Modi 3.0 winning with the support of young and senior citizens, the government seems to have prioritized coalition partners from Andhra Pradesh and Bihar, neglecting these crucial demographics. This budget highlights a troubling trend of prioritising political alliances over national interests. The government could have showed more concerned to the marginalised groups and given them more concessions in the budget rather than pleasing its allies. The budget is supposed to be for the entire nation not for the politcal allies, so it should take care of all.

CONCERNS OVER PM POSHAN SCHEME

Madam - Lakhs of underprivileged schoolchildren struggling with anemia and malnutrition have benefited from the "PM POSHAN scheme," which complete disregard for senior citizens, addresses both hunger and education

The Honorable Supreme Court has taken a constitutional, legal, and practical stance by issuing an interim stay on the Yogi government's order regarding name plates along the Kanwar route.

The order from the Yogi government appears to have been issued to protect the sentiments of Kanwar Yatris. However, there are differing opinions on this issue within society. Creating a false identity or concealing one's caste, religion, or creed can be considered condemnable, anti-social, and illegal. Currently, the matter is under review by the Honorable Supreme Court, and all related aspects will be examined, taking into account social, religious, and legal provisions.

as the Finance Minister has not challenges. India is among the few countries that provide schoolchildren with one nutritious meal a day. However, a scheme as extensive as POSHAN (formerly the midday meal scheme) is vulnerable to issues such as lethargy, corruption, and poor implementation. Reports of food adulteration and poisoning have surfaced, including a 2019 incident in Uttar Pradesh where a roti was served with just salt.

Recently, a dead snake was found in a "dal-khichdi" packet served at an anganwadi government school in Maharashtra's Sangli district. The godown storing the food packets has been sealed, but more actions are needed, including holding contractors accountable for these lapses. It is crucial to ensure such incidents are prevented to restore trust in the midday meal program and ensure children feel safe consuming these meals.

FIRSTCOLUMN THE GOD IS **OMNIPRESENT**

The intimate relation with God reflects in true peace; joy stem from a deep connection with the divine

AJIT KUMAR **BISHNOI**

n od is omnipresent. Therefore, His company is available everywhere Jall the time. However, if someone is very keen on the company of God, He manifests in a 'murti' (idol). This is mostly true for temples, where God is worshipped routinely in a prescribed manner. But God even manifests in murtis kept in home or a photo of God, if He decides that someone deserves this favour. Many sadhus, genuine ones, carry their worshipable God in some form with them. I had the privilege of seeing a sadhu in a park take out His Lord's photo and he worshipped Him before eating his meal. Lord Krishna has stated, "For the conqueror of self, who is blissfully peaceful in cold and heat, in pleasure and pain as well as in honor and dishonor also, he is accompanied by God." (The Bhagavad-Geeta 6.7)

Before I go any further, let us understand our relationship with God. Lord Krishna states, "An eternal soul is my part only." (15.7) God is our Swami (Master) and we are His 'sevaks' (servants). God is prepared to give a lot to those who serve Him because He has so much to offer. But God is never attached to anyone. Lord Krishna says, "I am similarly inclined towards all beings, no one is hateful for Me; and no one is dear. However, those who worship Me with devotion, they are in Me, and I am also in them." (9.29)

God is not like a parent; we can only make a place in God's heart. Do you realize what this means? This is the only place where there is unmixed joy. What does a company of God feel like? God is watching us all the time. Obviously, His presence can be experienced subtly only, even though He may have manifested in a murti or a photo. Similarly, God communicates mainly in a subtle way except in a rarest or rare case like for a highly advanced devotee such as Sant Tulsidas. We get intuitions. How do we know that these are not our thoughts; the communication could only have come from God? For example, I pray for guidance and help in a medical matter. The answer comes, which could not have been known to me. My Lord has shown His 'kripa' (grace). Then, God uses mediums to communicate. These are people close to His devotees. They come forward and provide the needed information. In rare cases, God speaks

in dreams or when we are not in deep sleep, generally around 4 AM. The timing is a big indicator that it is God, who has spoken, not what we have imagined. Whatever God states will also be corroborated in a scripture like the Bhagavad-Geeta.All this happens because a devotee of God has taken the 'chintan' (meditation) option. What does God communicate or what benefits do we derive from such communications? First of all, we begin to become peaceful. Because without peace no enjoyment is possible. If our minds are disturbed, we cannot enjoy even in the most comfortable circumstances. As God is the only source of real peace, not freedom from noise, we become entitled to it. 'Sukha' or genuine happiness follows even in not-so-opulent surroundings. This feeling leads to unmixed joy as our connection with God is strengthened by sustained practice. Our prayers for guidance and help will be answered. Progressively, God becomes the guiding light of our lives. Help, as needed, will become available, God finds mediums, who can provide such assistance. For example, a competent doctor will become available to treat us. It all sounds so easy; it is.Not only will we be healthy but the necessary energies of all kinds will be ours too. One will feel secure, comfortable, relaxed, good, etc. The best emotions like hope, satisfaction, patience and tolerance will become parts of our psyche. Our consciousness will become better, i.e. spiritual over some time. In short, life will become highly enjoyable. Worrying, sadness, depression and anxiety will be gradually replaced by superior emotions. It is up to us to choose between chintan about God or 'chinta' (worry) about material objects, goals, etc.God is the owner of whatever there is.

Israel and Palestine seek solutions amid global strife-

China's growing role as a mediator in international conflicts hints at a shifting power dynamic, challenging the traditional Western dominance in international diplomacy

e flew to Washington; they went to Beijing. While leaders soar through the skies, ordinary civilians are engulfed in the flames of war. Their children scream not for the luxury of education, but for the sheer will to survive amid the relentless rains of bombs. Famine devastates their lives, and in Gaza and beyond, people are not just yearning for food but for the basic necessity of drinking water. This grim reality highlights the stark polarization in the global order, as non-Western nations struggle with age-old problems made worse by those wielding power. Harvard-educated former combat soldier of Sayeret Matkal in the IDF, Prime Minister of Israel Benjamin Netanyahu, commonly known by his nom-de-guerre Bibi, flew to the United States to address Congress, followed by a meeting with President Joe Biden, who, battling COVID-19 for the third time, was expected to announce his inability to run for a second term officially. Amidst thou-sands of protesters and a boycott by dozens of Congress members, Netanyahu addressed Congress. Meanwhile, representatives from fourteen Palestinian organisations flew to Beijing to sign a peace agreement. The presence of fourteen organisations for a population of just over 5 million highlights the profound divisions within this land, once a nation-state ravaged by intricate schemes.Following the horrific October 7 attack, where thousands of Israelis were brutally killed and many more kidnapped by Hamas, the region's conflict landscape has been irrevocably altered.

This incident has significantly hampered Israel's efforts to normalise relationships with neighbouring countries. In response, China swiftly intervened, brokering an unprecedented rapprochement between Saudi Arabia and Iran. This diplomatic achievement was monumental during Ebrahim Raisi's presidency, although tragically overshadowed by the helicopter crash that claimed the lives of Raisi and his dynamic Foreign Minister while returning from a joint irrigation project inauguration in Azerbaijan province.In his recordbreaking address to Congress, Prime Minister Netanyahu outlined his vision for peace, affirming that he would not cease fire until victory was achieved—a notion that seems illusory given the ground realities. Ironically, before the speech, his entourage hinted that he would present "a vision" for the future of Gaza and the region. Ultimately, that vision consisted of "a demilitarized and deradicalized" Gaza. Netanyahu, who struggles to convince his ultra-Orthodox partners to teach their children basic math, now claims to plan on educating "a new generation that must be taught not to hate Jews." This plan remains unclear, but he quickly shifted to slogans about an "Abraham Alliance" between Israel and "moderate" Arab nations, conveniently ignoring his coalition's refusal to even utter the words "two-state solution," the very foundation for this alliance."Following our victory, with the help of regional partners, the demilitarisation and deradicalisation of Gaza can lead to a future of security, prosperity, and peace. That's my vision for Gaza," he proclaimed to Congress. He continued, "A new generation of Palestinians must no longer be taught to hate Jews but to live in peace with us. Those

twin concepts, demilitarisation and deradicalisation, were applied to Germany and Japan after World War II, leading to decades of peace, prosperity, and security."Despite his lofty words, peace, Netanyahu's visit was not about peace but about expanding the war towards Iran, a country he mentioned twenty-seven times in his 52-minute, record-breaking fourth address. Tragically, there was not even the slightest hint of how he plans to extricate Israel from the tragic impasse it is trapped in under his watch.Israeli analysts expose these hyperboles, stating, "The goal of Benjamin Netanyahu's trip to Washington, including his appearance before the U.S. Congress, is not and never was to advance a diplomatic agreement to bring home the Israeli hostages safely and to end the fighting and suffering. Rather, it is designed to enlist domestic American support to keep waging the war." Another analyst remarked, "Netanyahu may have won 52 standing ovations from the rapturous, majority-Republican audience, but his rhetoric, which so impressed Washington, offered nothing for Israelis watching back home." Meanwhile, in Beijing, 14 Palestinian groups, including

and independence. The significance of the Beijing Declaration is profound, echoing ancient and contemporary sentiments on diplo-macy and conflict resolution. Chinese scholar Zhu Weilie aptly noted, "The Beijing Declaration represents the mainstream opinions of various Palestinian fac-tions," marking a critical step toward Palestinian statehood.

Historical divisions between factions like Fatah and Hamas, ongoing since the late Yasser Arafat's era, have long impeded progress. The success of this meeting, which saw all factions in attendance for the first time, symbolizes a break-through in Palestinian unity and reflects the global south's emerging solidarity and cooperation. The strength of a nation derives from the integrity of the home. The impact of the Beijing Declaration extends beyond Palestinian internal politics. It poses significant implications for the protracted Israeli-Palestinian conflict. While Palestine moves towards internal unity, Israel's political trajectory appears increasingly extreme and radical.

The continuous violence and rising death toll highlight the urgent need for a ceasefire and renewed peace efforts. Yet, Israel's alignment with U.S. interests and electoral politics hinders progress. In con-trast, Palestine's willingness to engage with China's diplomatic initiatives offers a hopeful pathway towards reconciliation and peace, reminiscent of Sun Tzu's assertion that "the supreme art of war is to subdue the enemy without fighting."China's role as a mediator and leader in global conflicts is likely to expand. The successful reconciliation between Saudi Arabia and Iran under China's mediation last year, followed by the current Palestinian unity efforts, signals a shift in West Asian diplomacy. China's "active actions," characterized by leadership and initiative, have garnered widespread acceptance and support from various countries the in region.Concurrently, Ukraine's Foreign Minister Dmytro Kuleba,

during his visit to Beijing this week,

informed China's Foreign Minister

that "Ukraine is ready and willing to engage in dialogue and negotiations with Russia" aimed at a permanent settlement. Kuleba is in China to secure their assistance in future negotiations with Russia. He emphasised that the negotiations should be rational and lead to lasting peace. There is no mention of NĂTO, the US, or the UK being involved, but they cannot be pleased with the prospect of peace in Europe being facilitated by China.

This could drive President Volodymyr Zelenskyy to rethink his approach to destructive promises he was given by his "masters" behind the screen. These develop-ments indicate that Beijing is emerging as a new pivotal key player in global conflicts, advocating its strategic ambitions. As regional powerhouses in Asia, both India and China have the potential to elevate the Global South to new heights. Not only Beijing but also Delhi, with Prime Minister Modi's first foreign visit to Russia after his third election, shares this strategic vision. In this context, it is important to consider the words of Sergey Lavrov, Russia's Minister of Foreign Affairs: "It is also obvious that the United States is trying to drag India into its anti-China project. Both China and India are much more deeply involved in the Western system of globalisation in terms of the volume of financial, investment, and trade agreements and many other things. But the fact is that just like us (Russia), China and India are fully aware of the discriminatory nature of what the West is doing." Transcending political affiliations and beliefs, the most noble and imperative pursuit, as Albert Camus profoundly stated, is the fight for peace. Humanity prevails when, at such critical moments, we forge a united front against the relentless forces of conflict and injustice. Humanity triumphs when, at pivotal moments, we unite resolutely against manufactured conflicts and unyielding forces of injustice, setting aside political differences to stand together.

Venezuelan voters face crucial choice: Reelect Maduro or give Opp a chance

AP CARACAS

The future of Venezuela is on the line. Voters will decide Sunday whether to reelect President Nicolas Maduro, whose 11 years in office have been beset by crisis, or allow the opposition a chance to deliver on a promise to undo the ruling party's policies that caused economic collapse and forced millions to emigrate.

Historically fractured opposition parties have coalesced behind a single candidate, giving the United Socialist Party of Venezuela its most serious electoral challenge in a presidential election in decades

Maduro is being challenged by former diplomat Edmundo González Urrutia, who represents the resurgent opposition, and eight other candidates. Supporters of Maduro and Gonzalez marked the end of the official campaign season Thursday with massive demonstrations in the capital, Caracas Maduro and his allies have traditionally fended off challenges by barring rivals from elections and painting them as out-of-touch elitists in league

with foreign powers. But this time, the ruling party is allowing the Unitary Platform, the

coalition of the main opposition parties, to participate in the election A deal that allowed the oppo-sition coalition to participate in

the election won Maduro some relief from crippling economic sanctions imposed by the United States. But that respite was short-lived. President Joe Biden's administration reimposed the sanctions, citing mounting government repression of real and perceived adversaries, including blocking the candidacy of opposition powerhouse María Corina Machado. Here's what to know

about Venezuela's upcoming presidential election. Who is the opposition candidate?

The most talked-about name in the race is not on the ballot: María Corina Machado. The former lawmaker emerged as an opposition star in 2023, filling the void left when a previous generation of opposition leaders fled into exile. Her principled attacks on government corruption and misman-

agement rallied millions of Venezuelans to vote for her in the opposition's October primary But Maduro's government

declared the primary illegal and opened criminal investigations against some of its orga nizers. Since then, it has issued warrants for several of Machado's supporters and arrested some members of her staff, and the country's top court affirmed a decision to keep her off the ballot.

Yet, she kept on campaigning holding rallies nationwide and turning the ban on her candidacy into a symbol of the loss of rights and humiliations that many voters have felt for over a decade.

She has thrown her support behind Edmundo González Urrutia, a former ambassador who has never held public office, helping a fractious opposition unify.

They are campaigning together on the promise of econom-

ic reform that will lure back the millions of Venezuelans who have migrated since Maduro

became president in 2013. González began his diplomatic career as an aide to Venezuela's ambassador in the US. In the late 1970s. He was posted to Belgium and El Salvador, and served as Caracas' ambassador to Algeria. His last post was as ambassador to Argentina during Hugo Chávez's presidency, which began in 1999. More recently, González

worked as an international relations consultant and wrote a historical work on Venezuela during World War II. Why is the current president

having trouble? Maduro's popularity has dwindled due to an economic crisis caused by a drop in oil prices, corruption and government

mismanagement. Maduro can still bank on a cadre of die-hard believers, known as Chavistas, including millions of public employees and others whose businesses or employment depend on the state. But the ability of his party to use access to social pro-

grams to make people vote has diminished as the economy has fraved.

He is the heir to Hugo Chávez, a popular socialist who expanded Venezuela's welfare state while locking horns with the United States.

Sick with cancer, Chávez handpicked Maduro to act as interim president upon his death. He took on the role in March 2013, and the following month, he narrowly won the presidential election triggered by his mentor's death.

Maduro was reelected in 2018, in a contest that was widely considered a sham. His government banned Venezuela's most popular opposition parties and politicians from participating and, lacking a level playing field, the opposition urged voters to boycott the election.

That authoritarian tilt was part of the rationale the U.S. Used to impose economic sanctions that crippled the country's crucial oil industry

But days later, authorities said the opposition's primary was against the law and began issuing warrants and arresting human rights defenders, journalists and opposition members.

A UN-backed panel investigating human rights violations in Venezuela has reported that the government has increased repression of critics and opponents ahead of the election, subjecting targets to detention, surveillance, threats, defamatory campaigns and arbitrary criminal proceedings.

The government has also used its control of media outlets, the country's fuel supply, electric network and other infrastructure to limit the reach of the Machado-González campaign. The mounting actions taken against the opposition prompted the Biden administration earlier this year to end the sanctions relief it granted in October.

Harris urges Netanyahu to end war

West Bank Hamas leader dies in Israeli custody

Ramallah (West Bank): A Hamas leader in the occupied West Bank died in Israeli custody Thursday evening after a deterioration in his health, according to a Palestinian prisoners rights group. Sheikh Mustafa Abu Arra, 63, was arrested in October and was recently transferred from Ramon Prison to Soroka hospital where he died, the Palestinian Prisoners Club said. The rights group said Abu Ara was subjected to "torture and starvation" during his detention, and did not receive adequate medical treatment. The group did not elaborate further. İsrael's prison authorities have not commented on the circumstances of Abu Ara's death, and could not immediately be reached. Abu Ara was arrested shortly after the start of the latest Israel-Hamas war under a process known as administrative detention, the group said, whereby detainees can be held indefinitely for security reasons | ly endorse Harris following without trial and charge. *AP* | President Biden's announce-

PTI WASHINGTON Kamala Harris will be a "fan-tastic President of the United States," former president Barack Obama said on Friday, as he and his wife Michelle endorsed her and vowed to do "everything we can" to enable her to win the high-stakes elections against Donald Trump in November.

Harris, 59, launched her presidential campaign hours after President Joe Biden said he would be forgoing his bid for a second term.

The decision came after Biden faced weeks of mounting pres-sure to step aside following his startling debate performance against rival and former president Trump last month, which raised concerns about his fitness for a second term and ability to defeat his Republican opponent in November.

Obama, who didn't immediately endorse Harris following

"Michelle and I couldn't be prouder to endorse you and to do everything we can to get you through this election and into the Oval Office," the 62-year-old former president told Harris on a phone call joined by his wife. Australia and New Zealand issued a joint statement Friday on the need for an urgent ceasefire in Gaza and the risk of expanded conflict between Hezbollah and Israel. "The situation in Gaza is catastrophic. The human suffering is unacceptable. It cannot continue," the statement from the three prime ministers said.

"Israel must listen to the con cerns of the international community. The protection of civilians is paramount and a requirement under international humanitarian law. Palestinian civilians cannot be made to pay the price of defeating Hamas. It must end," the statement said The PMs said they were "gravely concerned" about the prospect of further escalation across the region and condemned Iran's mid-April attack on Israel. They also called on Iran to refrain from further destabilizing actions in the Middle East and demanded that Iran and its affiliated groups, including Hezbollah, cease their attacks.

Awent well beyond his predecessors in fulfilling Israeli Prime Minister Benjamin Netanyahu's top wishes from the United States. Yet by the time Trump left the White House, relations between the two had broken down after Netanyahu rapidly congratulated Joe Biden on his 2020 presidential victory.

On Friday, the two men will meet face-to-face for the first time in nearly four years in a test of whether the relationship can be mended. Both have an interest in getting past their differences.

For Trump, now the Republican presidential nominee, the meeting could cast him as an ally and statesman, as well as sharpen efforts by Republicans to portray themselves as the party most loyal to Israel.

That's as divisions among Americans over US support for Israel's war against Hamas in Gaza open cracks in what has been decades of strong bipar-

United States to address Congress and meet with Biden, repairing relations with Trump is imperative given the prospect that he may once again become president of the United States, Israel's main arms supplier and protector.

For both men, Friday's meeting at Mar-a-Lago will highlight for their home audiences their depiction of themselves as strong leaders who have gotten big things done on the world stage, and can again.

One political gamble for Netanyahu is whether he could get more of the terms he wants in any deal on a Gaza cease-fire and hostage release, and in his much hoped-for closing of a normalisation deal with Saudi Arabia, if he waits out the Biden administration in hopes that Trump wins.

Benjamin Netanyahu has spent much of his career in the last two decades in tethering himself to the Republican Party," said Aaron David Miller, a former US diplomat for ArabIsraeli negotiations, now a senior fellow at the Carnegie Endowment for International Peace.

For the next six months, that means "mending ties with an irascible, angry president", Miller said, meaning Trump. Trump broke off with Netanyahu in early 2021. That was after the Israeli prime minister became one of the first world leaders to congratulate Biden for his presidential election victory, disregarding Trump's false claim he had

"Bibi could have stayed quiet," Trump said in an interview with an Israel newspaper back then. "He made a terrible mistake." Netanyahu and Trump last met at a September 2020 White House signing ceremony for the signature diplomatic achievement of both men's political careers. It was an accord brokered by the Trump administra-tion in which the United Arab Emirates and Bahrain agreed to establish normal diplomatic relations with Israel.

In public postings and statements after his break with Netanyahu, Trump portrayed himself as having stuck his neck out for Israel as president, and Netanyahu paying him

back with disloyalty. He also has criticised Netanyahu on other points, faulting him as "not prepared" for the October 7 Hamas attacks that started the war in Gaza, for example. In his highprofile speech to Congress on Wednesday, Netanyahu gave recognition to Biden, who has kept up military and diplomat-ic support for Israel's offensive in Gaza despite opposition from within his Democratic Party. But Netanyahu poured praise on Trump, calling the regional accords Trump helped broker historic and thanking him "for all the things he did for Israel".

In consecutive days this week, China brokered a deal between rival Palestinian factions and hosted Ukraine's foreign minister at a moment when pressure is mounting on the country to negotiate an end to the grinding war there. While it's unclear if the agreement between Hamas and Fatah will succeed where others have failed and there is little concrete progress towards peace in Ukraine, China emerged a winner, further cementing its role as a diplomatic force on the global stage, not just an economic powerhouse.

As Beijing and Washington vie for influence around the world, China is increasingly playing a role that had previously been the domain of world powers like the US and Russia. Earlier this month, Western countries called some of China's activities worrying and labelled Beijing a troublemaker. But the events of this week — and the China-brokered deal last year to reestablish relations between Iran and Saudi Arabia — show that international players are seeking Beijing's help, an acknowledgment that it is a diplomatic force to reckoned

US influence with key Middle East players remains substantial, but there is a new player in the game who is entirely comfortable dealing with Iran and Hamas," Russel said, referring to the 2023 rapprochement between archrivals Iran and Saudi Arabia, widely seen

Washington, meanwhile, is grappling with discontent at home over its position on the war in Gaza and its hosting of Israeli Prime Minister Benjamin Netanyahu this week, and even its allies have doubts about US foreign policy commitments as a presi-dential race draws closer. Vietnam Communist Party chief funeral draws thousands

AP HANOI

Thousands of mourners gathered in Hanoi on Friday for the second day of the funeral of the man who dominated Vietnamese politics for over a decade, Communist Party general secretary Nguyen Phu Trong. His death, at 80, last week in Hanoi marked the start of a succession struggle within the party that will likely to contin-

ue until the all-important National Party Congress of Vietnam's Communist Party in 2026. Trong's coffin, draped in the

red and yellow of Vietnam's flag, was laid beneath his smiling portrait and dozens of medals at the National Funeral House in Hanoi on Thursday. All flags in the southeast Asian nation flew at half mast during

the two-day period of nation-al mourning, while all sports and entertainment were sus-pended. He will be buried at Mai Dich cemetery, the final resting place for military heroes and senior party officials, later on Friday.

Top Communist Party offi-cials paid tribute, including President To Lam, who took over as caretaker general secretary a day before Trong's death was announced. Thousands of people, many of whom who had travelled from far-flung provinces, queued up in Hanoi late into Thursday to light incense and pay their respects.

Politburo member Luong Cuong said Thursday that his death was "an extremely huge, irreparable loss to the Party, the state, the people and his family."

'Agreement with Russia is deal with devil'

Signing an agreement with Russia to stop the war with Ukraine would amount to signing a deal with the devil, a top adviser to Ukrainian President Volodymyr Zelenskyy said, as pressure mounts on the country to seek an end to more than two years of fighting.

A deal would only buy time for Russian President Vladimir Putin to strengthen his army and usher in another, potentially more violent chapter in the war, Mykhailo Podolyak told The Associated Press in an interview Thursday.

"If you want to sign a deal with the devil, who will then drag you to hell, well, go for it. This is what Russia is," Podolyak said when asked about the prospects for a peace deal for Kyiy, whose forces are locked in a bloody war of attrition with Moscow's troops in eastern Ukraine.

"If you sign anything today with Russia, that will not lose the war and will not be legally responsible for mass crimes, this will mean that you have

Sri Lanka will hold the pres-idential poll on September 21, the election commission announced on Friday, ending the months-long speculation over the key contest which is likely to determine the future of economic reforms in the

cash-strapped country. This will be the first election to be held in Sri Lanka after it plunged into economic bankruptcy in 2022.

The government gazette issued on Friday said in terms of Article 31 (3) of the Constitution the election would take place on September 21 while the nominations would be accepted on August 15.

The announcement of the much-awaited election ended months-long speculation that the election would be post-poned to extend the term of the incumbent Ranil Wickremesinghe.

Opposition parties had expressed concern that the election might not be held at all. The government, however, repeatedly insisted that the

ment set to end the balance term of former President Gotabaya Rajapaksa, who was ousted in mid-2022 in a popular public uprising. Rajapaksa had been elected with a record near 7 million votes in November 2019 when the last presidential election was held. Tens of thousands, who took to the streets, in early 2022 demanded Rajapaksa step down for his failure to tackle the island's gravest economic crisis since 1948. Rajapaksa was forced to flee the country on July 9, 2022, and incumbent Wickremesinghe, who was the crisis prime minister at that time, was elected through parliament to succeed Rajapaksa. Wickremesinghe, 75, undertook the difficult task of reviving the bankrupt economy by tapping a bail-out facility from the International Monetary

Fund (IMF). India provided Sri Lanka with a lifeline of USD 4 billion in the first quarter of 2022 which paid for food and essential imports in the balance of payment cri-

sis. By mid-April, Sri Lanka had declared its first sovereign default. A year later came the IMF's first tranche of the nearly USD 3 billion facility to be extended over four years. However, the stringent reforms

attached to the programme made the government unpopular. Wickremesinghe stood firm in his commitment to implement reforms and has vowed to steer the country out of bankruptcy.

He is expected to vie for his return as the president. Wickremesinghe has yet to officially announce his candidature.

Field Marshal Sarath Fonseka, Sri Lanka's former Army chief and the architect of the military offensive that led to the anni hilation of the LTTE, on Thursday formally declared his candidacy for the election. China's plan to raise retirement US arrests two leaders of age sparks public resentment Mexico's Sinaloa cartel

AP WASHINGTON

Tsmael "El Mayo" Zambada, a Llongtime leader of Mexico's Sinaloa cartel, and Joaquín Guzmán López, a son of another infamous cartel leader, were arrested by US authorities in Texas on Thursday, the US Justice Department said.

A leader of the powerful Sinaloa cartel for decades alongside Joaquín "El Chapo" Guzmán, Zambada is one of the most notorious drug traffickers in the world and known for running the cartel's smuggling operations while keeping a lower profile. A Mexican federal official told The Associated Press that Zambada and Guzmán López arrived in the United States on a private plane and turned themselves in to authorities. The official spoke on the condition of anonymity because he was not authorised to discuss the matter.

The US government had offered a reward of up to USD

15 million for information leading to the capture of Zambada, who eluded authorities for decades. Zambada and Guzmán López oversaw the trafficking of "tens of thousands" of pounds of drugs into the United States, along with relat-ed violence", FBI Director Christopher Wray said, adding that now they will "face justice in the United States".

"Fentanyl is the deadliest drug threat our country has ever faced, and the Justice Department will not rest until every single cartel leader, member, and associate responsible for poisoning our communities is held accountable," Attorney General Merrick Garland said in a statement.

Mexican authorities didn't immediately comment on the arrests. US officials have been seeking Zambada's capture for years, and he has been charged in a number of US cases. He was charged in February in the Eastern District of New York

with conspiring to manufacture and distribute the synthetic opioid. Prosecutors said he was continuing to lead the Sinaloa cartel, "one of the most violent and powerful drug trafficking organizations in the world". Zambada, one of the longestsurviving capos in Mexico, was considered the cartel's strategist, more involved in day-to-day operations than his flashier and better-known boss, "El Chapo" Guzmán, who was sen-

tenced to life in prison in the US in 2019 and is the father of Guzmán López.

Zambada is an old-fashioned capo in an era of younger kingpins known for their flamboyant lifestyles of club-hopping and brutal tactics of beheading, dismembering and even skinning their rivals. While Zambada has fought those who challenged him, he is known for concentrating on the business side of trafficking and avoiding gruesome cartel violence that would draw attention.

The ruling Chinese Communist Party's plan to raise the retirement age of the working population to cope with the rapidly ageing population has created ripples of resentment among the public.

According to the present structure, the retirement age for male workers in urban areas is 60 years while that for female workers is 50 or 55 depending on their occupation.

The recently concluded third plenum of the Communist Party of China (CPC) has unveiled comprehensive reforms to advance the modernisation of the economy - plagued by a deepening demographic crisis, sluggish growth and mounting local government debt.

The powerful body also discussed plans to raise the country's retirement age in a "voluntary and flexible" manner.

The World Population Prospects 2024 report released on July 11 said that China's population, currently 1.41 billion in 2024, will fall to 1.21 billion in 2054 and further decline to 633 million by 2100.

"It is anticipated that China, the country currently with the world's second-largest population, will likely experience the largest absolute population loss between 2024 and 2054 (204 million)," the report said, adding, "Longer-range population projections are more uncertain for China.'

The population and its composition by the end of year 2023, according to the National Bureau of Statistics of China, states that the population aged 60 and above was 21.1 per cent (296.97 million) of the total and of which, aged 65 and above was 15.4 per cent (216.76 million). The population in the working age bracket, i.e. between 16 and up to 60 years is 61.3 per cent (864.81 million). The official document approved by the plenum, held here last week, listed over 300 policy measures as part of the wide-ranging reforms to be completed by 2029. However, the CPC has not officially announced any schedule to implement the plan to increase the retirement

According to the document, the government would move to increase the retirement age in an "orderly" and "gradual" way and seek to develop the "silver economy" to create diverse jobs for older people.

But the plan, which has been in the works for several years, has generated a backlash in Chinese social media with people expressing their dissatisfaction over the prospect of delayed access to their pensions while younger employees averring that the rise of the retirement age will leave them with fewer jobs if the older work ers stay.

UN calls for efforts as 'extreme heat epidemic' breaks records

AP UNITED NATIONS

fter three of Earth's hottest Adays ever measured, the United Nations called for a flurry of efforts to try to reduce the human toll from soaring and searing temperatures, calling it "an extreme heat epidemic." "If there is one thing that

unites our divided world, it's that we're all increasingly feeling the heat," United Nations Secretary-General Antonio Guterres said Thursday at a news conference where he highlighted that Monday was the hottest day on record, surpassing the mark set just a day earlier. "Earth is becoming hotter and more dangerous for everyone, everywhere." Nearly half a million people a year die worldwide from heat related deaths, far more than

More than 1,300 people died during this year's annual Haj

pilgrimage after walking in scorching heat. Earlier this year, India's prolonged heatwaves resulted in the deaths of at least 100 people. However, health experts say heat deaths are likely undercounted in India and potentially other countries. Last year, the United States had its most recorded heat deaths in more than 80 years, according to an Associated Press analysis of Centers for Disease Control and Prevention data. The death certificates of more than 2,300 people mentioned excessive heat, including 874 deaths in Arizona. Deadly heat is not new, but scientists say it has been amplified in scale, frequency and duration with climate change.

Extreme heat, wildfires, floods, droughts and ever more fierce hurricanes are symptoms and Buontempo said.

"we need to fight the disease," Guterres said. "The disease is the madness of incinerating our only home. The disease is the addiction to fossil fuels. The disease is climate inaction?

'Many things are being done, but too little, too late," he said. 'The problem is that climate change is running faster than all the measures that are now being put in place to fight it." Before July 3, 2023, the hottest day measured by Copernicus was 16.8 degrees Celsius (62.2 degrees Fahrenheit) on August 13, 2016. In the last 13 months that mark has now been beaten 59 times, according to Copernicus.

India to get 12 new industrial Gold, silver prices bounce cities to boost manufacturing

PTI NEW DELHI

The country will have 12 new industrial cities in different states like the ones developed in Greater Noida, Uttar Pradesh and Dholera in Gujarat to further boost domestic manufacturing, a top government official said. Out of this, two are coming up in Andhra Pradesh and one in Bihar.

Trunk infrastructure has been created in four cities -Dholera (Gujarat), Auric (Maharashtra), Vikram (Madhya Udyogpuri Pradesh) and (Andhra Krishnapatnam Pradesh) and allotment of land plots is underway for the industry.

Addressing the company's Annual General Meeting (AGM) Jindal said several countries have already raised barriers against steel imports. The Indian steel industry is also engaged with the government to ensure a level playing field.

The domestic steel demand increased 13.6 per cent in FY24, outpacing economic growth This was driven bv infrastructure development and robust demand from all major steel-consuming sectors, he said.

"However, global steel demand remains weak, leading to rising imports into India and affecting domestic steelmakers' margins. This is mainly because of elevated Chinese production and exports, pressuring global steel markets," he said addressing the sh ehol rs of JSW Steel. Moreover, healthy demand for steel in the country also makes the domestic market vulnerable to imports amid weak global demand. Sharing business updates for JSW Steel in FY24, Jindal said the company achieved its highest-ever crude steel

utilization of 92 per cent during the year. JSW Steel met 100 per cent of its production and sales guidance

for FY24. Its revenue from operations reached Rs 1,75,006 crore, with an earnings before interest, taxes, depreciation, and amortization (EBITDA) of Rs 28,236 crore and a profit after tax of Rs 8,973 crore.

Fitch Ratings on Friday said India's post-election post-election budget confirms that the new administration remains committed to reducing the fiscal deficit for FY25 and FY26, despite demands of the coalition government. In the FY25 budget, the

government has lowered the Centre's fiscal deficit target for the year ending March 2025 to 4.9 per cent of GDP, from 5.1 per cent in

February's interim budget. The government's fiscal deficit target for FY25 is significantly below the 5.4 per cent that the ratings agency anticipated when it affirmed India's 'BBB-' rating, with a stable outlook, in January 2024.

We need to create more heroes to make India a sports superpower: Vijender

World Cup." also drive a cultural change, encouraging more young profession. We have to create heroes to change the culture," the former Olympic and world championships bronze medalwinning boxer, who is now a BJP leader, told PTI editors at its headquarters in an interaction here. His comments were in response to a query on whether the government's stated goal of making India a sports superpower by 2047 was realistic. "Over the years, the hunger to do well has kept increasing among our youth, especially those from the rural belt. So, when they see a Neeraj Chopra, they want to be like him. They want to have all that he has, and that drives them to excel," Vijender pointed out referring to the javelin throw gold-medallist from the Tokyo Ölympics. "When kids see his picture on a peanut butter container, it makes an impact. When I started out, I merely wanted a government job, that's all but today, athletes want more," he added. The Bhiwani-man also said that improvement in the country's sports infrastructure is crucial to ensure the overall progress . "We don't have good infrastructure or good stadiums. If we are serious, we need to improve that. You can't just make one cricket stadium and leave it at that. "You need to have training centres for other sports as well Otherwise someone (in Delhi) who wants to learn boxing has no option but to go to Sonepat and train there," he said. Vijender said the change has to start at the basic level, in schools, where kids are allowed just one devoted sports or physical education period. "We aren't taught sports in school. There is only one PT period but eight periods for academics. For us, sports is time pass, not a career. Drawing a parallel with cricket, Vijender, the first boxer from

World champions India look to maintain dominance in new era of SKY, Gambhir

PTI PALLEKELE

ndia's newly-forged coachcaptain combination of Gautam Gambhir and Suryakumar Yadav will look to make instant impact against a Sri Lankan team is disarray when the familiar South Asian rivals face off in a limitedovers series, starting with three T20Is, here on Saturday. Two-time World Cup winner Gambhir is now at the helm of the ship as India's head coach while the T20I reigns have been handed over to one of the best batters in the format, Survakumar.

Gambhir, who has built his coaching reputation in the corridors of IPL with three title wins for Kolkata Knight Riders - twice as captain and once as mentor - succeeds the immensely popular Rahul Dravid. The new coach has his task cut

out given that the team under his predecessor reached the final in each of the ICC events in their respective last editions

Gambhir's tenacity as well as his intense approach will make him a different coach to work along for the players, who will also have to learn the ways of the new T20I skipper Survakumar.

Suryakumar's elevation came as a slight surprise given he leapfrogged Hardik Pandya for the job. The selectors also ignored his comparative lack

of experience as captain. Ajit Agarkar and Co. Made it clear that they wanted a captain who was on the park captain who was on the park "more often than not" and went by "dressing room feedback" while hitting the reset button on the T20I side. Table tennis player Zeng Zhiying left China in 1989, the same year of the Tiananmen Square massacre, to teach the sport in northern Chile. Fast-forward 35 vears, she will debut in the Olympic Games at age 58 under the name she adopted in the South American nation: Tania.

Tania Zeng, who became famous in Chile after winning a bronze medal at the Pan American Games in Santiago last year, retired from table tennis long ago. Though the sport brought her to Chile, she stopped playing to have more time to dedicate to a business she opened and eventually start a family. Her dream of becoming a professional athlete returned during the pandemic. Her pinnacle will be reached in Paris."I never imagined (making it to the Olympic Games) because I took it up for entertainment, to do some sport," Zeng said in an interview with The Associated Press at the country's Olympic training centre.

"I gained confidence by playing a lot. Since "Virat Kohli and Rohit Sharma I always won, I liked playing more and are still doing extremely well and there is no question of an more.

"Qualifying for an Olympics is a big, gigantic dream, and being able to fulfill it at that age is a huge happiness,' said Zeng, the oldest athlete in her country's delegation.

Born in Foshan, in southern China, Zeng is the daughter of a local table tennis coach. As a child, she used to follow her mother to professional table tennis training sessions. For a decade, the Chinese-Chilean athlete was a highperformance player.

But her life took a turn in 1989, when she

accepted an invitation to teach the sport to young athletes in Arica, in the far north of Chile. She married soon afterward and moved to Iquique, also in northern Chile, another city where Chinese presence was unlikely at the time.

Zeng is currently the 151st-ranked table tennis player. She is part of Chile's national team, beating Dominican Eva Peña Brito in her debut in the women's singles table tennis tournament at the Pan American Games. She lost to American Lily Ann Zhang in the following round but still managed to win the bronze in the team competition.

Zeng's life is now split between Iquique and Santiago, fuelled by the appetite for the game and the affection of the fans. "Everyone knows me, greets me, wants a photo and for me it's just joy," she said. " am already Chilean in heart and soul, everything. They are going to bury me here?

Zeng will play in Paris with more experience and the same determination to fulfill a lifelong dream. She hopes no injuries affect her performance at the Olympics, which is a concern for any older athlete.

"I don't think his job is to coach the Indian team. His job is to help the Indian team," Patil told PTI Videos in an exclusive interview here. "That's how it works at the top

"He has done it and I am sure he will continue to do the same with the Indian cricket team," said Patil on the sidelines of an event organised by Shrachi Rajasthan Tigers.

Patil, a member of India's World Cup winning team in 1983, hoped Gambhir will continue to have success at international level after excelling in the IPL.

Canada women's soccer coach removed by Canadian Olympic Committee over drone controversy

AP PARIS **⊓**he Canadian Olympic **L** Committee removed women's national soccer head coach Bev Priestman for the

remainder of the Paris Games following an alleged drone spying scandal. The COC said in a statement released early on Friday that assistant coach Andy Spence would lead the defending gold medalists for the remainder of

the tournament. Canada's camp was thrown into disarray this week after two team staffers were sent home for allegedly using a drone to spy on a New Zealand practice. denied Priestman any

general secretary Kevin Blue said in the COC release "additional information has come to our attention regarding previous drone use against opponents, predating the Paris 2024 Olympic

Games." He added Priestman was suspended from her duties until the end of the and tournament the completion of the organization's independent external review.

The COC said on Wednesday that assistant coach Jasmine Mander and analyst Joseph Lombardi were "sent home immediately," and that it had accepted Priestman's decision to remove herself from coaching the opening match. Priestman held a brief media availability on Wednesday after guiding her team through a one-hour practice.

'My reaction was you feel like this program has let the country down," the 38-year-old Priestman said.

Serbia's Djokovic will compete

in singles only Nadal in doubles only and Alcaraz in both. Nadal and Alcaraz are teammates in doubles for Spain and will face Maximo Gonzalez and Andres Molteni of Argentina at Court Philippe Chatrier during the night session.

Nadal's singles debut will come on Sunday against Marton Fucsovics of Hungary. If he wins, and Djokovic wins his first-round match against Matthew Ebden on Saturday, the two rivals will face each other in the second round of what could be the final event of the 38-year-old Nadal's career. Djokovic owns 24 Grand Slam titles. Nadal has 22, plus two Olympic golds - one in singles in 2008 and in doubles in 2016. When Djokovic played in the French Open, he tore the meniscus in his right knee and needed surgery in Paris on June 5. He recovered in time to compete at Wimbledon, where

involve top-ranked Iga Swiatek of Poland, who has won four of the past five championships in that stadium at the French Open, against Irina-Camelia Begu of Romania. That will be followed by Djokovic vs Ebden. After Nadal and Alcaraz start the night session, the day's program concludes with a pair of former No. 1 players who

own multiple major titles: Naomi Osaka of Japan vs Angelique Kerber of Germany. Jasmine Paolini of Italy, the runner-up to Swiatek at the French Ôpen in June and to Barbora Krejcikova at Wimbledon this month, opens play at Court Suzanne Lenglen against Ana Bogdan on Romania.

That will be followed by Alcaraz, who is coming off trophies at the French Öpen and Wimbledon, against Hady Habib of Lebanon.

The Tokyo Games silver and bronze medallists -New Zealand and Argentina - were knocked out, however.

In the semifinals on Saturday, Fiji plays Australia, and France meets South Africa. South Africa lost to New

the opening try and, late in the half, countered from a dropped New Zealand pass in front of the South Africa tryline. Davids hacked and dribbled and popped up for Tristan Leyds to score. Leyds converted both.

But deep in added time, New Zealand kept the ball alive and Moses Leo slipped Rosko Specman to cross for a converted try.

Instead, France ground out the meters, and in the last seconds replacement Antoine Dupont quick-tapped to himself and scooted 25 meters untouched to put the result to bed.

Selesitino Ravutaumada broke out from his 22, and was at the other end to offload for Joji Nasova to score and for Fiji to trail by three.

At the restart, Ireland missed the catch, Baleiwairiki slapped the ball back and Waisea Nacuqu put Fiji back in front with a try converted by Terio Tamani Veilawa.
