

Over 100 feared dead in stampede at Hathras satsang

PREETAM SRIVATAVA LUCKNOW

Over 100 people were feared dead and several others injured as tragedy struck Hathras when a stampede broke out among devotees attending 'satsang' on Tuesday.

The deceased included mostly women and children. Though the district Hathras magistrate of officially reported around 60 casualties, sources claimed that over 100 died in the devotees accident.

Bereaved family members and local residents staged demonstrations in front of many hospitals, protesting delays in treatment.

Senior officers, along with police forces from all districts of the Aligarh range, were summoned to manage the demonstrators. Uttar Pradesh Chief Minister Yogi Adityanath expressed his condolences to the families of those killed in the stampede.

In a statement from the UP CM Office, Yogi also wished for the speedy recovery of the injured. He directed the district administration officials to ensure that the injured receive proper treatment and to expedite relief efforts on-site.

An investigation into the causes of the incident was

sources, a team led by the determined Agra ADG and Aligarh Commissioner has been formed to investigate the causes of the stampede.

Etah SSP Rajesh Kumar Singh said a religious programme in Mughalgarhi village of Hathras district resulted in the stampede. So far, 27 bodies, including those of 23 women, three children, and one man, had been brought to Etah hospital.

The injured are being treated at hospitals, and the being deceased are identified

However, sources claimed that 95 bodies were queued up outside the Sikandrarao CHC. The Hathras DM confirmed the death toll to be between 50-60 and said they were still managing the situation and would provide exact figures later. Senior Superintendent of

Police Rajesh Kumar Singh stated that the accident occurred in Fullerai village of Sikandrarao police station area of Hathras

district during Bhole Baba's satsang. He mentioned that religious event in Mughalgarhi village in Ratibhanpur on the Etah-Hathras border led to the stampede, resulting in many deaths, including those of

delay in the arrival of police and ambulances. Local people sent the injured to nearby hospitals. Eyewitnesses claimed that the number of dead was higher than reported, as many injured were sent to different hospitals in nearby districts, including Hathras,

Aligarh, and Etah. Meanwhile, the real name of Bhole Baba, is said to be Narain Sarkar Hari, who belongs to the Bahadur hamlet of Patiyali Tehsil in Etah.

He was an employee in the Intelligence Bureau but left the job 26 years ago to turn towards spirituality.

His followers hail from Western Uttar Pradesh, Haryana, Rajasthan , Delhi and Uttrakhand. The posters put up at the venue showed the names of organisers as Devprakash Madhukas (engineer), Mahesh Chandra, Anar Singh, Sanju Yadav, Chandradev, and

Modi takes 'balak buddhi' jibe at Rahul

PIONEER NEWS SERVICE NEW DELHI

Prime Minister Narendra Modi on Tuesday said people have given his Government a mandate for stability and continuity for the third consecutive term ping its work years and accused the Congress of trying to build a narrative that it has defeated the BJP-led NDA in the Lok Sabha polls. Replying to a two-day debate on the President's address to both Houses of Parliament, he also accused the Congress of working towards creating economic anarchy in the country. Modi also condoled the loss of lives in Hathras in between his speech.

have given us this mandate after testing us on every criterion. The people have seen our track record of 10 years. The people have seen that we have worked with dedication for the welfare of the poor, fulfilling the mantra of 'public service is God's service," the PM said.

Delhi LG smells rat in Lok Nayak Hospital project, orders probe

RAJESH KUMAR NEW DELHI

 $D_{\text{Vinai}}^{\text{elhi} \ \text{Lieutenant}} \quad \text{Governor} \\ \text{Kumar} \quad \text{Saxena} \quad \text{has}$ directed for a probe into alleged corruption in issuing a tender for construction of an additional block in Lok Nayak Hospital (LNH) in the national Capital.

In what points towards massive corruption and blatant violation of procedures, a tender worth ₹465 crore for construction of the additional block has increased surreptitiously to ₹1,135 crore, creating an unauthorised liability of approximately ₹670 crore on the Delhi Government, Raj Niwas officials said here on Tuesday. Raj Niwas has asked the Vigilance

Department to request the Central Vigilance Commission (CVC) to constitute a special team to probe the irregularities. The huge cost escalation has happened with a

clear collusion of the Delhi Government's Health Department under Saurabh Bhardwaj and the Public Works Department headed by Atishi Marlena.

The L-G has also constituted a committee headed by retired IAS officer BK Prasad to examine the procedural violations that led to cost escalation to the tune of ₹670 crore and submit its report within two months.

The committee will also examine all such on-going projects in different Delhi Government hospitals. The case pertains to construction of a new building block in LNH Hospital. The scheduled start date was 04.11.2020, with a completion period of 30 months. However, even after three and a half years, the current progress of work is only 64 per cent, even as costs have risen by 243 per cent.

The Health & Family Welfare Department of GNCTD had assigned the project to the Public Works Department (PWD). However, the work originally tendered out for ₹465 crore, ran into re-estimates and expansion of scope of work amounting to a

whopping ₹1,135 crore. The PWD attributed the cost overruns to increase in the scope of work. But while the scope of work increased by 8.61 per cent only, the cost increased by a whopping 143 per cent.

Interestingly, such huge cost over adjudication of claims/disputes,

runs were done at the level of the Engineers of the Department itself, even though it should have had gone to the Finance Department and the Cabinet. However, after the L-G flagged the matter to Chief Minister Arvind Kejriwal on 22.06.2023, the AAP Government brought a Cabinet Note in March 2024, for approval of the cost over runs, which is yet pending. "I have also noticed that during the

execution of work, certain disputes arose between PWD and M/s Swadeshi Civil Infrastructure Pvt. Ltd and in order to reach to a solution, the claims of the contractor were forwarded to Dispute Redressal Committee (DRC). Further, since M/s Swadeshi Civil Infrastructure Pvt. Ltd was not satisfied with the decision of the DRC, an Arbitral Tribunal was constituted for the

which pronounced an award ni favour of the contractor, amounting to ₹82.45 crore with 12 per cent interest plus GST. "However, the department chose not to challenge the award. The department's failure to challenge this award is beyond comprehension and has further exacerbated the financial burden. Additionally, the award was pronounced by the Arbitral Tribunal on 29.05.2023, however, the PWD did not get the mandatory concurrence from the Finance Department for the same," Saxena said in a note. "The major reason for the increase

in PE was attributed to an increase in the covered area of the building from 88040 sqm to 95620 sqm. Apparently, the covered area increased by 8.61 per cent only, whereas the revised PE was increased by 143 per cent, which appears prima facie unjustifiable, incomprehensible and even malafide.

The loss to the exchequer and public money due to the procedural violations and unauthorised liability is a very grave matter that warrants immediate and thorough investigation," the L-G noted.

Welcoming the order, the AAP Government sources said the L-G is himself saying cost escalation has happened at the level of officers without the knowledge of Government.

'We welcome any enquiry into this matter and strictest punishment if any illegality is found. These officers are directly under the control of the L-G. The Vigilance Department is directly under the L-G and he and his department should have been more proactive instead of coming into action after media reports," sources added.

Sarpanchs can now execute development projects upto Rs 21 lakh without e-tendering: Hry CM

PNS CHANDIGARH

head of the Assembly polls, AHaryana Chief Minister Nayab Singh Saini on Tuesday announced that Sarpanches can now undertake development works up to Rs 21 lakhs in their Gram Panchayats without e-tendering. Previously this limit was Rs 5 lakh. Additionally, the Chief Minister announced that Sarpanchs can now claim travel expenses at a rate of Rs 16 per kilometer when using their car or taxi for Gram Panchayat work. The bill for claiming TA/DA will now be approved at the level of the BDPO, he added.

The Chief Minister made these announcements while addressing Panchayat representatives from across the state at the State-Level Panchayati Raj and Sarpanch Sammelan organized in Kurukshetra.

Addressing the issue faced by Gram Panchayats regarding the cost of soil filling, the Chief Minister announced that once the Gram Panchayat passes and sends the resolution for soil filling, this cost will now be included in the work estimate. Previously, the cost of soil filling was not included in the work estimate, requiring the filling work to be done either through MNREGA or at the village's own expense.

To address the issue of junior engineers not preparing estimates for several months, the Chief Minister announced that once the Sarpanch uploads

a resolution passed by the Panchayat for any development work on the HEW portal, the junior engineer will be required to prepare and upload the estimate within 10 days. 5,000. This measure aims to expedite

the pace of development works. Announcing the increase the prescribed fees for lawyers handling court cases, Chief Minister said that the fee for lawyers at the district or sub-division level will be raised from Rs 1,100 to Rs 5,500, and the fee for cases in the High

Court and Supreme Court will be increased from Rs 5,500 to Rs 33,000. Additionally, the Chief Minister announced an

increase in the expenditure limit from the Panchayat Fund for events organized by the Gram Panchayat. The limit for Independence Day and Republic Day events, as well as programs organized for the visit of any special officer or minister, will be increased from Rs 3,000 to Rs 30,000. Similarly, the limit for expenses related to

purchasing the national flag, distributing sweets on national festivals, and publicizing Panchayat activities will be increased from Rs 500 to Rs

In light of government rograms to be held in villages, the Chief Minister also announced that the post of Sarpanch will now be included in the protocol list. The Sarpanch will sit with the DC and SP during such events.

On this occasion, the Chief Minister also announced an increase in the monthly honorarium of Safai Karamcharis in rural and urban areas by Rs 1000.

Describing village governance as a strong picture of democracy, the Chief Minister stated that Prime Minister Narendra Modi has set a target of making India a developed nation by the year 2047. To achieve this goal, it is crucial for every village to be developed. The Chief Minister assured that the state government will ensure there is no shortage of

PNS CHANDIGARH

funds to accelerate pace of development in the villages.

Referring to the discrimination by previous governments in village development, the Chief Minister said that they often avoided allocating funds for this purpose. Before 2014, the State Finance Commission grant for Panchayats was Rs 600 crore. Under PM Modi's leadership, this grant for Haryana has increased to Rs 2968 crore. Furthermore, Rs 7276.77 crore has been allocated for rural development in the budget for the financial year 2024-25, compared to Rs 1898.48 crore during the year 2013-14 under the previous government.

Referring to the various powers provided to Panchavati Rai institutions, Chief Minister stated that the current government is continuously working to strengthen these institutions. In addition to providing 50 percent representation to women, the state's educated Panchayats are being made smarter. The present govern-

ment has appointed 3,000 computer operators in Gram Panchayats. Additionally, Gram Panchayats are now permitted to purchase a desktop, printer, and UPS through GeM from their own funds, enabling them to become IT-enabled and modern, and to operate central and state-level portals effectively He further mentioned that

to expedite development works, the state government has decided that unregistered contractors will now be able to undertake work up to Rs 50 lakhs in a year. If these works are completed on time, these contractors will be eligible to take on projects worth Rs 1

crore the following year. Approves 43% stipend increase for MBBS Interns

In another event, Saini sanctioned a 43% increase in the stipend for MBBS interns of all Govt. and private Institutions affiliated to Pt BD Sharma UHS, Rohtak. Now the interns will receive Rs 24,310 which is a significant increase from the present stipend of Rs. 17000. Giving more information in this regard, an official spokesperson informed that the last revision in the internship stipend was done in 2018, from Rs. 12,000 to Rs 17,000 per month. Considering the above factors, the revised stipend for MBBS interns is proposed to be Rs. 24,310 per month, which includes the DA adjustment over the period from 2018 to 2024.

MONIKA MALIK 🗖 CHANDIGARH

Punjab's political landscape on Tuesday witnessed a dramatic turn of events as Surjit Kaur, the Shiromani Akali Dal (SAD) candidate for the Jalandhar West bypoll, briefly joined the Aam Aadmi Party (AAP) only to return to her original party by evening. The unexpected sequence unfolded just days after the Akali Dal withdrew its support for Kaur and instead backed the Bahujan Samaj Party (BSP) candidate, setting the stage for intense political drama ahead of the July 10 polling.

The day began with a surdeadline for withdrawing nomprise announcement as Surjit inations had passed, complicat-Kaur met with Punjab Chief Minister Bhagwant Mann and formally joined the AAP. The Chief Minister welcomed her at tug-of-war. Former MLA Wadala his residence in Jalandhar, sigexplained that Kaur had been naling a major boost for AAP in under immense pressure and her the run-up to the bypoll. brief defection to AAP was a result of high blood pressure and

However, as the day progressed, the situation took an unexpected twist. By the evening, Surjit Kaur had rejoined SAD, with her re-induction facilitated by senior party leaders Bibi Jagir Kaur and Gurpartap Singh Wadala — hailing from the rebel Akali faction. This rapid reversal left political observers and constituents bewildered.

fleeting alliance with AAP, Surjit Kaur's decision to inialleging that she had been tutored by Bhagwant Mann to tially leave SAD stemmed from internal conflicts within the make statements in favour of AAP policies. "I was tutored by party. Despite being nominated as the SAD candidate, she faced Bhagwant Mann to say that I opposition from the party, while liked AAP's policies and hence a rebel faction, comprising senior leaders including Prem Singh joined it," she confessed, adding a layer of intrigue to the unfold-Chandumajra, Bibi Jagir Kaur, ing drama. and former MLA Gurpartap Singh Wadala, supported his candidature. The rebel group Jagir Kaur and Wadala, rallied around Kaur, emphasizing the

community's support and the emotional connection she held with the party's legacy. "Her Sirkiband Rajput community is waiting to welcome her back after getting disillusioned this morning. We are getting calls from abroad to support Surjit Kaur," Wadala said, underscoring the diaspora's involvement.

Bibi Jagir Kaur said that district SAD chief had already played mischief with Surjit Kaur and she was so upset. "May be her son was pressurized by the government...May be Sukhbir Badal has helped Bhagwant Mann...I am proud of this family for having returned to the party despite all the pressure," she said.

Urging the voters "to get united again for her cause", Bibi Jagir Kaur minced no words to say, "Sukhbir made fun of her poverty and Mann misused her plight...They are the descendents of the family of Baba Bachitar Singh who had fought against a 'mast' elephant".

"I apologize for whatever we did this morning," says Surjit Kaur's son Deep Singh Rathore, adding that "assi gumrah ho gye (we were misled)".

Chief Minister Bhagwant Mann, who had earlier celebrated Kaur's induction into AAP, criticized the Akali Dal's treatment of her. "Surjit Kaur and her family have fought for Punjab and Punjabivat. It is unfortunate that after announcing her as their candidate, the Akali Dal refused her any support," he remarked. As the dust settles on this day of political upheaval, Surjit Kaur's journey from SAD to AAP and back to SAD highlights the volatile nature of Punjab's political arena.

Haryana Permits Stilt plus Four-Floor Construction Amritpal's oath soon: Punjab sends his case to Lok Sabha Speaker

MONIKA MALIK CHANDIGARH

In a move poised to stir politi-Lcal waters, the Punjab government has submitted a parole request for National Security Act (NSA) detainee Amritpal Singh to the Lok Sabha Speaker Om Birla to allow the pro-Khalistan Sikh preacher to take his oath as a Member of Parliament (MP) from Khadoor Sahib. Currently, Amritpal is detained under the stringent

NSA in Assam's Dibrugarh Jail. The development comes a day after the National Investigating Agency (NIA) had given the go-ahead to the Baramulla MP-elect Sheikh Abdul Rashid, popularly known as Engineer Rashid, to take oath. Jailed since 2019 in Delhi's Tihar Jail after he was charged by the NIA under the Unlawful Activities (Prevention) Act for his alleged involvement in a terror lodged in Tihar jail, Rashid has been granted two-hour custody parole to take oath as a Lok Sabha MP on July 5. Amritpal, on the other hand, has been detained under the NSA since April 2023, with the State Government extending his detention for another year. Despite his detention, Amritpal contested Lok Sabha polls from the jail and went on to secure a resounding victory from the Khadoor Sahib parliamentary seat defeating Congress candidate Kulbir Singh Zira with nearly two lakh votes. Amritpal's case is unique as he was elected, with over four lakhs votes polled in his favour, while being in jail, underscoring the public support he commands.

His advocate and also a for- $M_{\rm Country\ Planning\ and}^{\rm inister\ of\ Town\ \&}$ mer MP Rajdev Singh Khalsa said that the initial application was submitted to Amritsar Urban Estates in Haryana, JP Deputy Commissioner. "As the Dalal, on Tuesday announced case registered in Amritsar, we that the state government has moved for parole through the now permitted stilt plus four-District Magistrate, who then forfloor (S+4) constructions warded it to the Punjab Home throughout the state. Highlighting the urgency of the matter, Khalsa noted that an elected member has just 60 days to take the oath. "As of now, the Lok Sabha Speaker has not acted on the application, but we remain hopeful for a swift response," he said, adding that Amritpal Singh's case has been a point of contention due to its political and legal implications. He added that Amritpal's family has also sought an audience with the Lok Sabha Speaker to expedite the parole process. "We requested a meet-

setback of 1.8 meters (On all floors) being maintained from adjoining plots. However, the government has made a provision that if adjoining plot owners do not consent to S+4 construction, they themselves will be ineligible for S+4 construc-

Furthermore, if the entire row constructed at once for building plan approval and construction, permission for constructing the common wall will be granted. In no case will basement construction be allowed on plots less than 10 meters in width and 250 sqm in area. He stated that plot owners who meet the conditions of 1.8 meters side setback or neighbor's consent can either construct S+4 or request a refund of the purchasable development rights (PDR). If a plot owner does not wish to construct S+4 and opts for a lower PDR benefit, they are eligible for a refund with 8% interest from the date of the refund application. This refund application can be made with-

in 60 days from the date of the refund order issuance. Similarly, if the plot is not eligible for 3 or 4-floor construction, the allottee is eligible to get back the entire auction amount with 8% interest from the date of the refund request. This application must also be made within 60 days from the refund order issuance.

Funds Collected for S+4 Approvals to Be Used for Infrastructure Enhancement

Dalal said that an amount of Rs. 1178.95 crore has been collected in lieu of S+4 approvals by various agencies, including Rs. 689.8 crore by the Town and Country Planning Department, Rs. 466.3 crore by HSVP, Rs. 2.62 crore by HSI-IDC, and Rs. 20.23 crore by the Urban Local Bodies Department. This amount will be utilized for enhancing the infrastructure in all ated that the department will establish a portal to address issues related to S+4 matters and to make various information public, including permissions related to S+4 floors from time to time. He mentioned that to eliminate the practice of covering the stilt area, in the future, when approving building plans or granting occupation certificates, a condition will be imposed that if the stilt area is fully or partially covered, the building plan approval or occupancy certificate will be deemed withdrawn. The minister said that a standard operating procedure has been prepared for all cases where S+4 construction has been carried out without building plan approval to date. According to these, individuals who have undertaken such unauthorized construction can apply for composition of offenses to the competent authority. In cases where no objection was recorded by the neighbouring plot owners at the time of construction, the permission will be granted within 90 days of receiving the composition of offense application by recovering the composition fee.

However, where objections were recorded by neighboring plot owners at the time of construction, an additional opportunity will be given to present a mutual agreement/consent. If the applicant is unable to obtain the consent of the complainant, the case will be decided by passing a speaking order. Such composition of offenses can be permitted by charging a fee ten times higher than the prescribed rate for 'construction without building plan

HRY MINISTER FLAGS OFF 'SPECIAL PUBLICITY VAN' IN HISAR

Chandigarh: To spread information related to Government's welfare policies to the people of the State, Haryana, Health, Medical Education and Research, AYUSH, and Civil Aviation Minister Kamal Gupta on Tuesday said that a Special publicity campaign has been organised by the Department of Information, Public Relations, Languages, and Culture. This campaign will continue until July 31. Gupta said that the publicity programme will widely promote the facilities, services, and schemes provided by the Haryana government from time to time, along with other public welfare achievements. He said that under the leadership of Director General, Information, Public Relations, Language and Culture Department Mandip Singh Brar, the month-long special publicity campaign will cover both urban and rural areas of Hisar district. The campaign will use Haryanvi folk style to inform the public about the government's welfare schemes and achievements. Each day, a Bhajan party will effectively conduct an awareness programme in a different village.

issuance of a non-bailable warrant against him. Amritpal went into hiding on March 18 and was subsequently arrested by Punjab Police in Moga on April 23. Since then, he has been detained in Dibrugarh Jail in Assam, accused of supporting Khalistani ideology. In response to the parole request, the Lok Sabha Speaker Om Birla is expected to coordinate with the Union Ministry of Home Affairs (MHA) to ensure the necessary security arrangements are in place for Amritpal to take his oath.

Permission Required from **Neighbors in Old Colonies** and Sectors

Dalal said that in colonies and sectors where the layout plan is approved with three dwelling units per plot, S+4 construction will be allowed with certain conditions for residential plots that derive access from a 10 meters or wider road. In such colonies, if a person wishes to construct S+4, submission of a mutual consent agreement with all adjoining plot owners is required except those who have already obtained S+4 approval or side and in accordance with the provisions of the Haryana Building Code.'

Punjab extends last date for OTS for recovery of outstanding dues to Aug 16 Chandigarh: Puniab

Government on Tuesday announced to extended the last date for filing applications under the Punjab One Time Settlement (Amendment) Scheme for recovery of outstanding dues to August 16, 2024. Revealing this, the state Finance, Planning, Excise, and Taxation Minister Harpal Singh Cheema said that the extension of the scheme's deadline is aimed at reducing the compliance burden of legacy cases and enabling the trade and industry to enhance their compliance under the GST regime. The Punjab One Time Settlement Scheme for Recovery of Outstanding Dues, 2023, implemented from November 15, 2023, offers a one-time opportunity for taxpayers to settle their outstanding dues. The scheme was initially valid till June 30, 2024. Taxpayers, whose assessments were framed till March 31, 2024, and all rectification, revision, or assessment after remand orders passed till March 31, 2024, under the relevant Acts with a total demand (tax, penalty, and interest as per the original assessment order) up to Rs one crore as of March 31, 2024, are eligible to apply for settlement under this scheme, said Cheema. Key benefits of the scheme include complete waiver of tax, interest, and penalty in case of arrears up to Rs one lakh as of March 31, 2024, and waiver of 100 percent interest, 100 percent penalty, and 50 percent of the tax amount in cases with demands ranging from Rs one lakh to Rs one crore. Dealers can submit original statutory forms under CST Act, 1956, at the time of applying under OTS-2023, and waiver will be calculated

UT ADMN STARTS SURVEY TO IDENTIFY & ADDRESS ENCROACHMENT OF GOVT LANDS

Chandigarh: The UT Administration on Tuesday started a comprehensive survey to identify and address the encroachment of government lands by unauthorized occupants. Deputy Commissioner cum Estate Officer UT Chandigarh Vinay Pratap Singh, announced that the Administration is operating in mission mode, utilizing advanced technologies and satellite imagery in collaboration with Revenue authorities to pinpoint illegal encroachments year by year. The Estate Office is leveraging GIS technology to detect and track the progressive encroachment on government lands. Pratap Singh emphasized the critical importance of land in a planned city like Chandigarh, highlighting the detrimental effects of illegal occupation, including unplanned urban growth and significant financial losses due to high land prices. A robust stance is being taken against encroachers. Deputy commissioner cited the recent action against the Furniture Market, where approximately 10-12 acres of land, valued at over Rs 1500 Cr, had been encroached upon for the past 30 years. On the last Sunday, nearly 2 acres of this land, worth more than Rs 200 Cr, were reclaimed from illegal occupants.

BLACK SPOTS TO BE ELIMINATED FROM HARYANA: MINISTER

Chandigarh: Haryana Minister of State for Transport and Women & Child Development Aseem Goel on Tuesday announced that all black spots on national highways in Haryana will be eliminated to reduce the risk of accidents. He shared this information today after meeting Union Minister for Road Transport and Highways Nitin Gadkari, in New Delhi. The Transport Minister also met Union Minister for Labour and Employment Mansukh Mandaviya, to discuss the allocation of funds for a 100-bedded ESI hospital in Ambala city. Goel informed that he discussed the issue of black spots on national highways in the state with Gadkari. He highlighted that Sultanpur Chowk and Jadot Chowk in Ambala district have become critical zones for accidents, with frequent road mishaps leading to significant loss of lives. These locations have been identified as black spots, where the risk of accidents is particularly high. He emphasized the urgent need for constructing underpasses and elevated overbridges at these spots to ensure the safety of commuters and reduce the incidence of fatal accidents.

Punjab Police's Twin Blow to trans-border Narcotic Network; 10-kg heroin recovered in Amritsar

PNS CHANDIGARH/AMRITSAR

In a significant victory against trans-border narcotic smuggling networks, Punjab Police has made substantial recoveries in Amritsar, seizing 10 kg of heroin in two separate incidents. The operations resulted in the arrest of four individuals involved in drug trafficking, delivering a major blow to the illegal drug trade in the region.

In the first operation, the Amritsar Commissionerate Police arrested Lakhwinder Singh, also known as Lakha, from Khemkaran, and recovered five kg of heroin from his possession. The state Director General of Police (DGP) Gaurav Yadav said that Lakha was in direct contact with a Pakistan-based drug smuggler named Ali. The consignment was transported using drones, a method increasingly employed by traffickers to evade border security. Police teams also seized a

In a parallel operation, the Counter Intelligence (CI) Amritsar apprehended three drug smugglers - Rasal Singh of Naushehra in Tarn Taran; Jaskaran Singh of Vanieke in Amritsar; and Amritpal Singh of Sahura in Amritsar. The arrest led to the recovery of another five kg of heroin, bringing the total heroin seized in Amritsar to approximately 27.2 kg in less than a week's time. The trio was intercepted at

Baghdhian Morh in Ranike village after CI Amritsar received intelligence that they had retrieved a narcotics consignment dropped by drone at Dhanoe village near the border. The police also impounded a Yamaha scooter used by the smugglers, bearing registra-tion number PB-02-DW-4187.

DGP Gaurav Yadav emphasized that the trio had direct connections with Pakistan-based drug smugglers. The search and seizure operation was similarly documented in the presence of a Gazetted Officer. tions underscore the ongoing efforts of the Punjab Police under the directives of Chief Minister Bhagwant Mann in their war against drugs. The coordinated actions of the police teams and the use of reliable intelligence have proven effective in curbing the activities of drug trafficking networks operating across the India-Pakistan border.

The DGP reiterated the commitment of the Punjab Police to continue its rigorous crackdown on narcotics smuggling, ensuring that those involved are brought to justice. The investigations remain active, aiming to dismantle the broader networks and hold accountable all those connectaccordingly. ed to these illegal activities.

Launch of SBI's 2nd Global NRI Centre in

Patiala to Enhance Customer Experience

OR BLACK AND WHITE ADS CONTACT: 9417419351

State Bank of India, the largest bank of the country, recognizes the importance of Indian diaspora spread across the globe from the point of view of global visibility and their contribution to the growth story of our nation. A Global NRI Centre (GNC) has been inaugurated at Patiala (Punjab) by SBI Chairman, Shri Dinesh Khara on 01.07.2024 for serving the Bank's NRI clientele in a better way. The GNC at Patiala is the 2nd such establishment. First GNC is operational at Ernakulam (Kerala) since February 2018 and has been serving as a centralised backoffice for handling entire gamut of non-financial NRI business of the Bank.

Our dedicated GNCs symbolize our deep commitment to foster stronger ties with the global Indian community. Both GNCs will be a hub of excellence for serving NRI customers. SBI has a network of 434 specialized/intensive NRI branches in India, Foreign Offices in 29 countries, tie-up with 45 Exchange Houses & 5 Banks in GCC countries to facilitate services to NRI customers.

Reclaiming Dehradun: Battling tourism woes

Once an idyllic retreat and educational hub, Dehradun is now grappling with unchecked tourism, threatening its serene character

n the pantheon of the leaders belonging to the Bharatiya Janata Party (BJP), the name of the late Manohar Parrikar would always be taken with a lot of respect. A Goan and an IITan, Parrikar was never happy with the stereotypical image of his state being a tourist destination for cheap alcohol, drugs and also sex.While Goa attracted tourists for its natural beauty and cultural magnetism, since the 1990s, there has been a noticeable increase in visitors drawn to the state for its permissive environment regarding alcohol, drugs, and sex tourism. Manohar Parrikar was vocal about his reservations concerning this shift in the tourist profile. He believed that such trends would tarnish Goa's image and disrupt the social fabric of the state once and for all.A leaf could be taken out from the books of Parrikar by the current Chief Minister of Uttrakhand, Pushkar Singh Dhami regarding a similar crisis being faced by the Himalayan state.

Take a drive from Clock Tower in Dehradun on the legendary Rajpur Road to Mussoorie, you will realise that all the cars parked on the roadside are doubling up as bars. This 'car-o-bar' would often be a vehicle with a Haryana, UP and Punjab number plate. The two days that one was in the Doon Valley recently, as these bars roared in the costly model cars, one could not find a single soul in the police uniform to check them. Somewhere it seemed that the absence of the cops on this road was deliberate to let these bars prosper.Dehradun was once known as the bakery capital of India. These bakery shops lining Rajpur Road have been overtaken by wine shops with glitzy lights announcing prominently what they sell. Well, one cannot protest about the shops but buying bottles and drinking outside on the roads have to be surely protested.Author Ratna

town swell. These aliens from outer states come in obscenely big cars, they drive nasty, trying to edge us locals in our sensible little cars off the road, showing the finger on occasions and mouthing expletives, throwing rubbish out of their windows, drinking on unlit highways, and then crashing their cars into unsuspecting locals," says Manucha. Things get worse during the weekends as the Rajpur road gets clogged. The 'tourists' really don't mind spending hours in the serpen-

tine queues. However, the residents of Doon living either on the arterial road or the smaller roads prefer staying at home lest their plan to visit somebody gets wasted in the jam. Dehradun till about 10 years back was not like this. It was still an idyllic town preferred by people to live a retired life. In broadening the roads to accommodate ever-increasing traffic flow, trees have been cut. Given the winter pollution in Delhi-NCR, a large number of people have bought apartments in Doon Valley to spend the winter months. This demand has given rise to the building of

green.Dehradun till some years back did not need the use of air-conditioners. The hotels with the ACs largely used them during the winter months for room heating purposes. But you can now see the topography of the valley with houses having airconditioners jutting out of their windows.This 'hor-rorscape' is not just limited to the summer tourist season. But shouldn't Dhami be concerned about the image of Uttarakhand like Parrikar was for Goa?The late leader streamlined things in Goa without really tinkling with the existing laws. Parrikar emphasized the need for a robust law enforcement framework to tackle alcohol

and drug tourism. He increased police patrolling in tourist hotspots and enhanced coordination with central agencies.Second Parrikar pushed for regulations to control the sale and consumption of liquor in tourist areas. This included measures such as restricting liquor outlets and promoting responsible drinking through awareness campaigns.Dhami government in Uttarakhand too needs to make the presence of the cops more effective and control the misery that the residents of the city are being made to face. Brace for a deluge

As India transitions from the scorching summer heat to the monsoon season, a dramatic shift in weather is on the horizon

s the rumbling in clouds becomes louder and the humidity rises, it is time for monsoon. It is welcome as it brings much relief from the scorching heat and a lot of Adiscomfort that comes with it but as the monsoon progresses it also becomes a challenge, exposing our inadequacies and unpreparedness to meet this annual phenomenon. The monsoon season, while a welcome relief from the summer heat, brings with it significant challenges. The Indian Meteorological Department (IMD) has issued a red alert for heavy rainfall in seven states: Maharashtra, Gujarat, Kerala, Karnataka, Uttarakhand, Goa, and Madhya Pradesh. Residents of these areas are advised to brace for severe weather conditions, including the potential for flash floods, particularly in Uttarakhand, Goa, and Karnataka. This year's monsoon is expected to be more severe than usual. The IMD has warned of extremely heavy rainfall over the next few days, which could lead to significant disruptions and pose serious risks to life and property. It is just a mat-

ter of days before Delhi will wear a Venice look as water logging is a norm that repeats every year. The people living on the banks of Yamuna would be rendered homeless as if it were their destiny. And after the waters recede it would be life as usual for the people and the Government alike. But a lot of misery is in store for Uttarakhand where flash floods are predicted. Uttarakhand faces an elevated risk of flash floods. The steep slopes and narrow valleys can quickly channel rainwater, leading to sudden and severe flooding. Goa is also vulnerable to heavy rains and flash floods during the monsoon. The state's infrastructure can become quickly overwhelmed, leading to waterlogging and dis-

ruption of services. Karnataka is expected to experience torrential downpours. The Western Ghats, which run along the western edge of the state, can intensify the rainfall, increasing the risk of floods and landslides.

It is not just the monsoon, but its aftermath is equally challenging. The waterborne diseases and spectre of epidemics loom large while authorities watch it happening as mute spectators. Indeed it is high time authorities in the affected states take proactive measures to mitigate the impact of the heavy rains and prepare for the possible evacuation of vulnerable populations to safer areas. Issuing regular updates and warnings to keep the public informed and safe. Ensuring that critical infrastructure, such as dams and drainage systems, are prepared to handle the increased water levels. Many bridges in Bihar have collapsed even before the monsoon, airport Terminal T1 in Delhi collapsed and several highways have caved in, if these are not warning signals then what is? Blaming the monsoon is certainly lame. It is not sudden or unexpected. It happens every year yet we are ill-prepared for it. Besides, we so much depend upon it for irrigating our fields and providing drinking water. One can find so many pains when the rain is falling but then Without the rain, there would be no rainbow!

The need for music and life skills in modern education

SONAD

To ensure holistic development and equal opportunities for all children, music must become an integral part of the school curriculum

riven on one side by developments in technology and on the other by changes to the global social order, we face tectonic shifts in the future of the workforce and challenges such as climate change and conflict. With this as a backdrop in mind, there is an urgent need to ensure that we can equip today's youth with the skills and mindsets to thrive in this dynamic environment.Education for the last 200 years has largely been based on imparting knowledge

With increasing levels of specialization through the Industrial Revolution, knowledge became more valuable; however, today, soft skills, also known as Life Skills, have become much more needed. Without these skills, it is difficult to survive and succeed.More importantly, character building becomes imperative if we are to be prepared to tackle the global challenges facing us. We must define leadership not by position but as "Strength of Character" and "Sense of

INDIA'S PHOENIX MOMENT:

Madam - India's Phoenix Moment: A T20 World Cup TriumphIndia's cricket team exhibited remarkable determination and resilience, clinching the T20 World Cup 2024 title with a breathtaking comeback in the final five overs. Rising like a phoenix from the ashes, India soared to victory, proving their mettle on the grandest stage. In the thrilling conclusion, Hardik Pandya's final over was nothing short of brilliant, and a spectacular catch by Suryakumar Yadav (SKY)—who went beyond the boundary and timed his leap perfectly to secure the catch on his second attempt-played a crucial role in sealing India's victory. Earlier in the match, King Virat Kohli's solid 76 runs and Akshar Patel's crucial 47 provided stability to the Indian innings, setting a record-high T20 Cup final total of 176. Despite this, the South African team, the Proteas, responded with a strong performance, reaching a respectable score and losing just four wickets.

However, with only 30 runs needed from the last 30 balls and six wickets in hand, the Proteas faltered under immense pressure. Boundaries that were expected to seal the win for them turned into catches or mere singles, proving that "luck did not favor them" in those decisive final overs. Yes, indeed, a blend of luck and daring spirit won the game for India. Team India deserves all the praise for its fantastic performance. **PVM Nivriti** Secunderabad

SELECTIVE OUTRAGE

Madam — Apropos the report titled "Flogging of couple: BJP seeks resignation of Didi" (July 2); if the TMC leader Tajemul Islam has indeed beaten up a youth and a woman with sticks, he must be awarded exemplary punishment according to law. But by which temerity can the leaders of BJP dare to act as "moral guardians" of the country and atrociously demand the resignation of

Unjustified opposition to new criminal laws

he recent introduction of the Bharatiya Nyaya Sanhita (BNS), the Bharatiya Nagarik Suraksha Sanhita (BNSS), and the Bharativa Sakshya Adhiniyam (BSA) has sparked mixed reactions from experts. Some members of the legal community suggest continuing with the old laws for another 20 years, a recommendation that is both impractical and counterproductive. It's unreasonable to speculate on future circumstances even one or two years ahead, let alone 20 years. This suggestion essentially advocates for delay-

When Kuki women got paraded naked in Manipur before gang rape, why didn't the BJP leaders demand the resignation of N Biren Singh immediately? Why didn't the resignation of Pushkar Singh Dhami get demanded after a lady receptionist was murdered in Uttarakhand? When Bengali migrant labourer Afrazul Khan was burnt alive to death in Rajsamund in 2017, did the BJP leaders ask Vasundhara Raje to resign?

Hardly two weeks ago, street vendor Aurangzeb had been brutally lynched to death in full view of the Aligarh public! This argument holds no water. Their absence during the discussions and debates in the previous session was not justified, and they missed an opportunity to contribute meaningfully. No one prevented them from participating; they chose not to, and that cannot be a valid reason to stall the implementation of these new laws.

The custodians of the law, who are highly educated and capable individuals, can certainly understand and implement these new legal frameworks. Union Home Minister Amit Shah aptly stated that these laws are created by Indians, for Indians, and by the Indian Parliament, marking the end of colonial criminal justice laws.

MONSOON IS A CHALLENGE

Madam — In the past few days, the number of rain-related deaths in the nation's capital has reached 11, with six deaths reported on Saturday alone. The heavy rainfall on Friday caused widespread waterlogging in Delhi. In response, the New Delhi Municipal Council (NDMC) has expanded its staff to address waterlogging issues. To effectively tackle urban waterlogging, a holistic approach is needed, incorporating infrastructure improvements, sustainable urban design, and active community engagement. By implementing these strategies, cities can mitigate the impacts of heavy rains and enhance their resilience for the future. Neha Tomar | Ujjain

FIRSTCOLUMIN EMBRACING THE PRESENT WITH MINDFULNESS

True peace and creativity flourish when we fully engage with the present

RAJYOGI BRAHMAKUMAR NIKUNJ JI

ost of us might have heard the proverb 'You only know what you've got when it's gone' many times in our lives. But, in spite of that, many of us realize the fortune we had, only when we lose it. The stream of life flows on and every second the water in the stream is changing. At any given moment the water at the same spot in the stream is different. What is present now will move on to the next moment, so every moment life is unfolding and something new is being presented. Life unfolds in the present. But so often, we let it slip away, allowing time to rush past unobserved and unseized, and squandering the precious seconds of our lives as we are lost in the past or caught up in the future.

It's very common for most of us to fantasize about things like shopping or going to a movie while we are at work. And while we are actually in a movie theatre, we worry about the work piling up on our desks, isn't it ironic? We are trapped by intrusive memories of the past or fret about what may or may not happen in the future and in this whole struggle, we don't appreciate the Present because we identify ourselves with our thoughts, beliefs and emotions strongly. We forget the fact that we need to live in the Present i.e. the NOW, and for that, we need to be very still inside but we are constantly distracted by our thoughts linked to the past and future. Most of us think in a conditioned, addictive way

We are addicted to the patterns and beliefs we created in the past which keep driving our thoughts in the present. Instead of thinking consciously and with full awareness, we are controlled by our thoughts of the past. To change this pattern we need first to pause and observe what's going on in our mind. We need to step back and watch and then steer our thoughts towards the present moment and creative goals. We need to focus on being before thinking, judging, analysing and doing. Living in the present is a state of active, open, intentional attention to the present. When we become aware of what's going on inside our mind, we realize that we are not our thoughts; we are the observer of our thoughts from moment to moment and stop judging them. It is like watching waves rising and falling on the surface of the ocean. Spiritual wisdom makes

us aware and realise that we are souls --- sentient points of light and purity, peace, joy and love are our original state of being. As the noise and chatter of the mind slow down, we can experience our true nature and just relax in our state of being. Then we are connected to the now not influenced by the past, future or anything out there. We are in a highly creative state when our pure awareness creates pure energy of love, joy and peace in every moment and shapes our destiny. Under such a stage, we are flowing with life without grasping, chasing, wanting, needing or holding on to anything. We are in a truly liberated state and truly powerful and creative. There is fresh energy in every thought and action. Living in the present reduces impulsive and reactive behaviour. Those who live in the moment can hear negative feedback without feeling threatened They are more accepting, accommodating and flexible, as a result of which they have easy and satisfying relationships. It is very important for all of us to realize that we are now in the most important and beneficial age when the Almighty Himself is bestowing His treasures of wisdom, love and powers upon humanity. Hence, by becoming soul conscious we can live in the present and make the best out of each second of this valuable period. Being aware of the self as a soul and of being connected to the Supreme liberates us in a second and we are able to flow with life with ease and lightness. So, don't look back because you are not going that way.

Modi Govt's imperative for employment growth

analys \$ 07

Despite the country's emerge as a major manufacturing hub, the sector has seen limited progress, contributing to a rising unemployment rate among the youth

 here has been a long-standing vision to make India a global
 manufacturing hub to create millions of jobs. However, considering India's size and status as one of the world's fastest-growing economies, it's perplexing how the potential for job creation and growth in the manufacturing sector has been overlooked for so long. The new government must imple-ment a new industrial policy having deci-sive measures to address current structural constraints and reshape India's manufacturing sector in response to global supply chain shifts. This is crucial for achieving a GDP of \$5 trillion and making India the world's third-largest economy by 2027. It's alarming that unemployment among young people with graduate degrees is at an all-time high of 29 per cent as India moves towards becoming the third-largest economy.In 2019, manufacturing was the second-largest employer in India after agriculture, but it has now fallen to fourth place behind the construction sector, trade, and hospitality.

The National Sample Survey Organisation(NSO) data shows that 45.5% of the workforce is employed in agriculture, 12.4% in construction, and only 11.6% in manufacturing, despite its potential to create a multitude of job opportunities. Manufacturing still employs around 60 million people in India, effective action is needed to unlock its full potential for job creation at large.India's impressive growth is hindered by the lacklustre performance of the manufacturing sector, which has shown limited expansion over the past 25 years. Unlike other countries, India's production structure has shifted directly from agriculture to services-driven growth, resulting in a stagnant contribu-tion of manufacturing to India's GDP at 15-17%, significantly lower than in East and South-East Asian countries. China has a 31.63% share of global manufactur-ing, the US has 15.87%, Japan 6.52%, Germany 4.78%, and India 2.87%. This highlights the urgent need for India to address the challenges in its manufacturing sector.

The reasons for this stagnation could be diverse, such as high tax burden, overburdened regulatory compliances, inadequate infrastructure and connectivity, unreliable electricity, lack of access to credit or a skilled workforce, and insufficient focus on research, development, and technology adoption. Despite these obstacles, Indian manufacturers are now more emboldened to transcend their comfort zones and align with the nation's goal of becoming a global player.

It is imperative to reduce current logistics costs from 8-10 per cent to 6 per cent of GDP by 2030. This requires a \$1.2 billion investment in industry-focused corridors. To provide a level playing field to the northern India manufacturing hubs, away from sea-ports, especially land-locked bor-der states like Punjab needs policy-backed support to combat over double freight burden in comparison to southern-western

The Way Forward: A thriving and self-reliant domestic manufacturing sector is essential for India to achieve inclusive growth and effective reform agenda and navigating geopolitical risks and climate change-driven calamities. It is crucial to ensure that the recent promises made in the poll can be fulfilled to transform India into a global manufacturing hub, resulting in employment generation and tangible progress. India has the capacity and resources to excel in this area, and it's time for the new government to make it happen.

Areas to be addressed:

Focus on sectors of strength: There are strong capabilities in various sectors such as automobiles (especially e-vehicles, to raise its current share from 7% to over 30%), pharmaceuticals and chemicals, textiles and apparel, engineering goods, farm-implements, and bicycles. However, there are significant gaps in mega-scale facilities that can anchor large-scale exports. The petrodollar system and its influence on global finance and geopolitics

A more multipolar financial ecosystem that accommodates a diverse array of currencies and economic influences is taking shape

he petrodollar system, inaugurated in 1974, has long been a linchpin of global finance and geopolitics. Established through an agreement between the United States and Saudi Arabia, it stipulated that the kingdom would exclusively sell its oil in US dollars. This arrangement not only guaranteed a consistent demand for the dollar but also directed oil revenues back into the US economy through investments in US Treasury

assets. As a result, the system created a significant source of funding for the US government and solidified the dollar's status as the world's primary reserve currency.Geopolitically, the petrodollar system forged a symbiotic relationship between

the US and oil-exporting nations, particularly those in the Middle East. In exchange for security assur-

bonds and other financial ances and economic assistance, these countries committed to conducting oil transactions in dollars, thereby granting the US significant sway over global oil markets and the broader economy. This symbiosis reinforced the US's geopolitical influence and allowed it to project power in the petrodollar system, under-

the strategically vital Middle East, ensuring the uninterrupted flow of oil, which is critical for the global economy. Recent developments suggest a potential departure from

this long-standing arrangement. On June 9, Saudi Arabia declared its intention to discontinue exclusive oil sales in

cance. Kissinger's negotiations with Saudi Arabia in the 1970s not only secured American dominance in global finance but also assured protection for Saudi Arabia and other Gulf states, cementing their alliance with the US through military cooperation and strategic part-US dollars. For oil-importing countries, this shift could offer more stable pricing if transactions are conducted in their own currencies or other stable alternatives.In conclusion, Saudi Arabia's strategic pivot signifies a significant evolution in global financial systems.

While it may not immediately dismantle the petrodollar's influence, it signals a transition towards a more multipolar economic order, where multiple currencies could assume pivotal roles in global trade and finance. This transformation is anticipated to unfold gradually, with profound mplications for international relations and economic strategies worldwide.

Throughout decades, the petrodollar system has upheld the dollar's global dominance, intertwining economic power with geopolitical influence.ConclusionThe petrodollar system's historical context and its prospective decline illustrate the dynamic nature of global financial and geopolitical landscapes.

The shift in Saudi Arabia's pol-

This move is emblematic of a broader global trend toward economic diversification and the quest for greater financial sovereignty among oil-producing nations.

The gradual erosion of the petrodollar system could herald the rise of alternative financial paradigms, challenging the entrenched supremacy of the US dollar. As countries explore new avenues for conducting international trade and finance, the world may witness an increase in currency diversification, potentially leading to a more balanced and less US-centric global econo-

Congress & CPN-UML strike deal to oust PM Prachanda

PTI KATHMANDU

In a dramatic political devel-opment, Nepal's two largest parties - Nepali Congress and CPN-UML - have inked a midnight power-sharing deal to form a new 'national consensus government' to replace the coalition government led by Prime Minister Pushpa Kamal Dahal "Prachanda", who on Tuesday refused to resign. Nepali Congress President Sher Bahadur Deuba and Communist Party of Nepal-Unified Marxist Leninist (CPN-UML) chairman and former prime minister K P Sharma Oli reached an understanding on forming a new coalition on Monday midnight, according to former foreign minister Narayan Prakash Saud. Deuba, 78 and Oli, 72, agreed to share the Prime Ministerial position on a rotation basis for the rest of the term of the Parliament, said

Saud, who is also a Nepali Congress central member. Nepali Congress, the largest party in the House of Representatives (HoR), has 89 seats at present, while CPN-UML has 78 seats. The combined strength of the two large parties is 167, which is sufficient for a majority of 138 seats in the 275-member HoR. The two leaders also met on Saturday to lay the ground for a potential new political alliance between the two par-ties, following which Oli's CPN-UML ended its association with the Prachanda-led government barely four months after extending sup-port to it. In a meeting of the Communist Party of Nepal (Maoist Centre) office-bearers held in Baluwatar, Prachanda said he would rather face a vote of confidence in Parliament than resign from the post, the party Secretary Ganesh Shah

told PTI. Prachanda, 69, has won three votes of confidence in Parliament during his one-and-a-half-year term. Nepal has had 13 governments in the last 16 years, indicating the fragile nature of the Himalayan nation's political system. Under the agreement that is likely to be finalised on

Tuesday, the CPN-UML chief Oli will lead the government in the first phase of the remaining term of Parliament. The two leaders have agreed to share the premiership for one and a half years, turn by turn, Saud said

The two leaders tentatively agreed to form a new government, amend the Constitution and work out a power-sharing formula, which they reportedly shared with a few confidants, media reports said, quoting multiple senior leaders from both parties.

The ministers belonging to the CPN-UML in the Prachanda-led Cabinet are likely to resign en-mass in the afternoon, sources close to the CPN-UML said. CPN-UML secretary Shanker Pokharel has told media persons that an agreement was reached with the Nepali Congress to form a national government led by Oli, a former prime minister. The new government will be formed to maintain political stability in the country and make necessary amendments to the Constitution.

France's far-right National Rally to lead govt only with absolute majority

AP PARIS

The star president of France's National The star president of Frances T Rally will take the helm of government only if the party wins an absolute majority in Sunday's second round of legislative elections, the leading far-right figure Marine Le Pen said Tuesday. The National Rally, under party president Jordan Bardella, secured the most votes in the first round of the surprise legislative elections on June 30 but not enough to claim overall victory. "We cannot accept going into government if we cannot act," Le Pen said in an interview Tuesday with public broadcaster France Inter. "It would be the worst betrayal of our voters."

Round one on Sunday propelled the National Rally closer than ever to government but also left open the possibility that voters could yet block its path to power in the second and final round on July 7.

Le Pen's party and its opponents in the leftwing alliance of the New Popular Front as well as President Emmanuel Macron's weakened centrists are all seeking to deny the far right an absolute majority by rallying supporters in high-stakes campaigning this week.

The National Rally and its allies could secure a working majority in parliament in the final round on Sunday. Or they could fall short, stymied at the last hurdle by opponents who still hope to prevent the formation of France's first far-right government since World War II. Both scenarios are fraught with uncertain-

ty for France and its influence in Europe and beyond.

With the stakes high and the time frame compressed, the election has overshad-owed preparations for Paris to host the Olympic Games, which open in less than a month. To block the far right's ascent to government, some leftist and centrist candidates who did not win outright in round one but qualified for round two have stepped aside. Candidates have until 6 pm Tuesday to decide whether to stay in the race or withdraw. By pulling out, opponents of the National Rally might divert votes to other candidates better positioned to beat the far right on Sunday.

We have one objective today (and that) to deny an absolute majority to the

National Rally," said François Ruffin of the hard-left France Unbowed party that is part of the new National Front alliance along with French greens, Socialists and Communists

Macron dissolved the National Assembly and called the snap election on June 9, after a stinging defeat at the hands of the National Rally in French voting for the European Parliament. The deeply unpopular and weakened president gambled that the far right would not repeat that success when the country's own fate was in the balance. But Macron's plan backfired. He is now accused, even by members of his own camp, of having opened a door for the National Rally by calling voters back to the ballot box, especially when so many are angry over inflation, the cost of living, immigration and at Macron himself.

The far right tapped into voter frustration with inflation and low incomes and a sense that many French families are being left behind by globalisation. Le Pen's party campaigned on a platform that promised to raise consumer spending power, slash immigration and take a tougher line on European Union rules.

Mulino sworn in as Panama's new pres Biden and Democrats raise \$264 mn in second quarter AP PANAMA CITY

AP WASHINGTON

President Joe Biden's reelec-tion campaign and the Democratic National Committee reported raising USD 264 million in the year's second quarter, an impressive haul that may help them calm fears within their own party about last week's shaky debate performance.

The total announced Tuesday includes USD 127 million collected during June alone, when the campaign says it took in more than USD 33 million on the day of the debate and in its aftermath. Biden also has USD 240 million in cash on hand, outpacing the USD 212 million it reported having last month.

Biden campaign manager Julie Chavez Rodriguez called the totals "a testament to the committed and growing base of support-ers standing firmly behind the president."The announced totals come as Biden's campaign continues to scramble to quell panic among some Democrats, who have questioned whether the president can win November's election after a debate where he appeared raspy, trailed off and at times gave convoluted answers.

Some of the campaign's top lead-ers have held multiple calls since the debate, preaching patience to donors and top surrogates.

Campaign officials nonetheless insist there's been no discussion "whatsoever" of Biden exiting the race nor of any staff shakeups. Former President Donald Trump, who is set to accept the Republican presidential nomination at the party's convention this month in Milwaukee, has yet to announce the quarterly fundraising totals for his campaign and affiliated entities. A spokesman said they would release them "when we're ready." Biden enjoyed a large fundraising advantage over Trump in the early

stages of the race, but the former president has narrowed the gap more recently. In April, which is included in Tuesday's full second

quarter totals, Biden and the DNC reported raising more than USD 51 million. That was well short of the USD 76 million that Trump and the Republican Party reported taking in for that month. Trump also reported raising USD 141 million in May, padded by tens of millions of dollars in contributions that flowed in after Trump's guilty verdict in his criminal hush money

trial Biden's most recent quarterly total was enhanced by a glitzy June fundraiser in Los Angeles that he held with superstars George Clooney and Julia Roberts and former President Barack Obama. That event took in more than USD 30 million, a record for a Democratic candidate. The president's campaign said

nearly half of the donations that came after the debate were from first-time donors. It said 95 per cent of all second-quarter donations were under USD 200, and more than 1.5 million total donors made over 2.8 million contributions.

Tosé Raúl Mulino was sworn in Monday as Panama's next president, facing pressure to slow irregular migration through the Darien Gap that connects his country with Colombia. The 65-year-old former security minister has promised to shut down migration through the jungle-clad and largely lawless border.More than half a million people traversed the corridor last year and more than 190,000 people have crossed so far in 2024, with most of the migrants hailing from Venezuela, Ecuador, Colombia and China."I won't allow Panama to be an open path for thousands of people who enter our country illegally, supported by an international organisation related to drug trafficking and human trafficking," Mulino said Monday, after he was sworn in. "I understand that there are deep-rooted reasons for migration, but each country has to resolve its problems."Last week on a visit to the Darien, Mulino announced he would seek an agreement with the United States government to aid in deporting migrants who crossed into Panama. US Homeland Security Secretary

Alejandro Mayorkas was among those who attended his inauguration. The US role would largely be covering the cost of deportation flights. Panama's Foreign Affairs Minister-designate Javier Martínez Acha said Sunday that the US would help cover the costs, but that the amounts were not yet set."As the key issue on his agenda, Mulino has promised to end irregular immigration through the Darien Gap," said Michael Shifter, adjunct professor at Georgetown University. "The new president appears to be supremely committed to this idea." "However, it won't be easy to carry out this policy, groups and interests can be expected to come out against it," Shifter

said. The US government will have to shoulder the costs of deportation, he said. Panama's active efforts to stop and deport migrants would be a massive shift. Under the outgoing administration, Panama had sought to help migrants cross the country quickly and in an orderly fashion. Migrants emerge from the jungle, register with authorities and are swept across the country to the Costa Rican border. The presidents of Costa Rica and Colombia also attended the inauguration.

Strengthening enforcement efforts in Panama could potentially reduce the number of migrants reaching the US border, at least for a time until new routes are established. But it could also force migrants to riskier paths and be a boon for smugglers. Mulino won the election in May in a crowded field with more than 30 per cent of the yote. He replaced cent of the vote. He replaced former President Ricardo Martinelli as candidate after the former leader was banned from running after being sentenced to 10 years in prison for money laundering. In addition to migration, Mulino will have to manage one of the world's key trade routes, the Panama Canal which was forced to limit traffic this year by persistent drought. He will also have to than

find a way to plug a hole in Panama's budget caused by the scrapping of a major mining concession after popular protests. On Monday, Mulino criticised the outgoing administration of President Laurentino Cortizo for leaving him a limping economy and high levels of public debt. "I will have an administration mainly focused on resolving the problem of the great majority of Panamanians," Mulino said. That doesn't mean getting rid of wealth, but rather combating poverty." He promised to launch a programme aimed at youth employment and an effort to rebuild the country's swears in new govt

Geneva (AP): The UN weather agency said Tuesday that Tropical Cyclone Freddy, a deadly Indian Ocean storm that lashed eastern Africa last year, was confirmed to be the longest-lasting cyclone ever recorded at 36 days. Freddy topped the previous record held by Hurricane John, which struck Hawaii and lasted almost 30 days in the northern Pacific three decades ago, the World Meteorological Organization (WMO) said as it released a study which began as Freddy waned in March last year. It was also the second-longest in terms of distance traveled, at some 12,785 kilometers (7,945 miles) — while John was more than 13,000 kilometers, the agency said. In the wake of Freddy, more than 1,200 were reported dead or missing in Malawi while more than 180 people died in Mozambique, the WMO said.

Pezeshkian further questioned his opponent on what plans he would have for reaching a nuclear deal, with Jalili respond-ing he would approach it "based on strength not weakness," without providing details. Jalili accused Pezeshkian of having no plans for managing the country, saying his presidency would drive the country to a "backward position," as it was under relatively moderate former President Hassan Rouhani (2013-2021). The United Nations General Assembly adopted a Chinesesponsored resolution with US support urging wealthy developed nations to close the widening gap with poorer developing countries and ensure that they have equal opportunities to use and benefit from artificial intel-

ligence. The resolution approved Monday follows the March 21 adoption of the first UN resolution on artificial intelligence spearheaded by the United States and co-sponsored by 123 countries including China. It gave global support to the international effort to ensure that AI is "safe, secure and trustworthy" and that all nations can take advantage of it. this powerful new technology and have been cooperating on these first important international steps. The adoption of both resolutions by consensus by the 193member General Assembly shows widespread global support for their leadership on the issue. China's UN Ambassador Fu Cong told reporters Monday that the two resolutions are complementary, with the US measure being "more general" and the just-adopted one focusing on "capacity building." He called the Chinese resolution, which had over 140 sponsors, "great and far-reaching," and said, "We're very appreciative of the positive role that the US has played in this whole process? Fu said AI technology is advancing extremely fast and the issue has been discussed at very senior levels, including by the US and

fying our cooperation with the United States and for that matter with all countries in the world on this issue, which ... will have far-reaching implications in all dimensions," he said.

The Chinese ambassador, how ever, strongly criticized the US Treasury Department's proposed rule, announced on June 21, that would restrict and monitor US investments in China for artificial intelligence, computer chips and quantum computing. "We are firmly opposed to these sanctions," Fu said. China doesn't believe the rule will be "helpful to the healthy development of the AI technology per se, and will, by extension, divide the world in terms of the standards, and in terms of the rules governing AI." He called on the US to lift the sanctions. The Chinese resolution calls on the international

community "to provide and pro-

mote a fair, open, inclusive and non-discriminatory business environment," from AI's design and development to its use. Fu said China doesn't think the US actions foster an inclusive business environment. Both the US and Chinese resolutions focus on the civilian applications of AI, but Fu told reporters the military dimension of artificial intelligence is also very important. "We do believe that it is necessary

for the international community to take measures to reduce the dangers and the risks posed by the development of AI," he said China is actively participating in negotiations in Geneva on controlling lethal autonomous weapons, Fu said, adding that some countries are considering proposing a General Assembly resolution this year on the military dimension of AI — "and we are in broad support of that initiative?

Hungarian Prime Minister Viktor Orbán was in Kyiv on Tuesday for talks with Ukrainian President Volodymyr Zelenskyy, his first visit to the neighbouring coun-try since Russia's full-scale invasion in February 2022 as Budapest has repeatedly broken ranks with the rest of the European Union and leaned toward Moscow.

Orbán's visit was a rare gesture in a relationship that has long been marred by tensions. Known as Russian President Vladimir Putin's closest EU ally, Orbán has routinely blocked, delayed or watered down EU efforts to extend assistance to Ukraine and to sanction Moscow over its war, frustrating both Zelenskyy and

other EU leaders. Meanwhile, on the war's front line, Kyiv's forces are scrambling to hold at bay a Russian push in eastern Ukraine. Delays in the provision of crucial Western military aid left the Ukrainian army at the mercy of the Kremlin's bigger and better-

equipped forces. Orbán's press chief, Bertalan Havasi, who confirmed the visit early Tuesday to Hungarian news agency MTI, said the meeting will be an opportunity for building peace as Ukraine fights off Russia's invasion. photo issued by Orbán's А press office showed the two men by themselves, facing each

tle real power but can be used to set the tone of the bloc's agenda. Hungarian officials have indicated that they will act as "honest brokers" in the role despite worries from some EU lawmakers that Hungary's democratic track record makes it unfit to lead the bloc.

Kremlin spokesman Dmitry Rremlin spokesman Dinka, Peskov played down the impor-tance of the visit, saying Hungary "must fulfill (the) functions" of its EU presidency and adding that Moscow had no particular expectations for its outcome.

Orbán has previously accused Kyiv of mistreating an ethnic Hungarian minority in Ukraine's western region of Zakarpattia, a community he has used to justify his refusal to provide weapons to Ukraine or allow their transfer across the two countries' shared border. The self-described "illiberal" leader has long been accused by his European partners of dismantling democratic institu-tions at home and acting as an obstinate spoiler of key EU policy priorities. The bloc has frozen more than \$20 billion in

funding to Budapest over alleged rule-of-law and corruption violations, and Orbán has conducted numerous anti-EU campaigns depicting it as an overcentralised, repressive organisation.

Orbán's visit also comes as he seeks to recruit members into a new nationalist alliance that he hopes will soon become the largest right-wing group in the European Parliament. On Sunday, Orbán met in Vienna with the leaders of Austria's farright Freedom Party and the main Czech opposition party, announcing the formation of the new group, "Patriots for Europe"

The trio would need to attract lawmakers from at least four more EU countries to successfully form a group in Europe's new parliament, which held elections in June. Right-wing nationalist parties across Europe strengthened their position in the elections, but ideological differences over the war in Ukraine and cooperation with Russia have often prevented deeper alliances among some of the parties.

Hurricane Beryl roared through open waters on Tuesday as a monstrous Category 5 storm on a path that would take it near Jamaica and the Cayman Islands after earlier making landfall in the southeast Caribbean, killing at

least two people. A hurricane warning was in effect for Jamaica and a hurri-cane watch for Grand Cayman, Little Cayman and Cayman Brac. Beryl was forecast to start losing intensity on Tuesday but still to be near major hurricane strength when it passes near Jamaica on Wednesday, the Cayman Islands on Thursday and Mexico's Yucatan Peninsula on Friday, according to the National Hurricane Center.

was expected to bring lifethreatening winds and storm surge to Jamaica, where officials warned residents in floodprone areas to prepare for evacuation.

Jamaicans to take the hurricane as a serious threat," Prime Minister Andrew Holness said in a public address late Monday. "It is, however, not a time to panic.

Beryl is the earliest Category 5 storm ever to form in the Atlantic, fueled by record warm waters. Early Tuesday, the storm was located about 300

miles (485 km) southeast of Isla Beata in the Dominican Republic. It had top winds of 165 mph (270 kph) and was moving west-northwest at 22 mph (35 kph).

"Beryl remains an impressive Category 5 hurricane," the National Hurricane Center said.

A tropical storm warning was in place for the entire southern coast of Hispaniola, an island shared by Haiti and the Dominican Republic.

As the storm barreled through the Caribbean Sea, rescue crews in the southeast Caribbean fanned out across the region to determine the extent of the damage that Hurricane Beryl inflicted after landing on Carriacou, an island in Grenada, as a Category 4

One person was reported killed in Grenada and another in St. Vincent and the Grenadines, officials said. The fatality in Grenada

occurred after a tree fell on a house, Kerryne James, minister of climate resilience, environment and renewable energy, told The Associated Press. She said the nearby islands of Carriacou and Petit Martinique sustained the greatest damage, with water, food and baby

formula a priority. There is no communication whatsoever," she said. "The prime minister is doing his best to get people over there to render assistance." An emergency team was expected to travel to Carriacou on Tuesday morn-"The situation requires ing. our immediate attention, and all efforts must be made to support our sister islands," said Grenadian Prime Minister Dickon Mitchell.

Meanwhile, Ralph Gonsalves, prime minister of St Vincent and the Grenadines, promised to rebuild the archipelago in a statement early Tuesday. He noted that 90% of homes on Union Island were destroyed, and that "similar levels of devastation" were expected on the islands of Myreau and Canonan

The last strong hurricane to hit the southeast Caribbean was Hurricane Ivan 20 years ago, which killed dozens of people in Grenada.

Beryl has broken several records, including marking the farthest east that a hurricane has formed in the tropical Atlantic in June, according to Philip Klotzbach, Colorado State University hurricane

researcher. The storm strengthened from a tropical depression to a major

hurricane in just 42 hours, which only six other Atlantic hurricanes have done, and never before September, according to hurricane expert Sam Lillo. Beryl is the second named storm in the Atlantic hurricane season, which runs from June 1 to Nov 30

Pakistan CJ comes to EC rescue on reserved seats Islamabad (PTI): Amidst

legal tussle on the reserved

seats in Pakistan's legislatures, Chief Justice Qazi Faez Isa has ruled that the election commission was not a subordinate institution to the Supreme Court or the government but an independent authority conferred with a constitutional role to conduct elections.

He was heading a full court of the Supreme Court (SC) hearing on Monday on a set of app-eals by the Sunni Ittehad Council (SIC) against the denial of reserved seats to women and non-Muslim candidates, the Dawn newspaper reported on Tuesday. The top judge said the Supreme Court can only exercise its jurisdiction if it is convinced that the commission has gone beyond its constitutional role, pointing out that ideally, all institutions should fun-ction within their own pre-scribed domain.

The Supreme Court ordered the Election Commission of Pakistan (ECP) to do a calculation by applying the formula of allotting reserved seats among poli-tical parties based on the election results of 2018 by excluding, as well as including, independents to understand the difference, the report bench intend to understand the actual calculations of allocation of reserved seats applied to the results of the February 8 elections, the report said. UN group has demanded Athe immediate release of Pakistan's jailed former prime minister Imran Khan, saying at least two cases slapped on him were "politically motivated" and aimed to exclude him from the country's political scene. The United Nations Working Group on Arbitrary Detention adopted its opinion on the 71vear-old Pakistan Tehreek-e-Ínsaf (PTI) party founder's detention in its 99th session from March 18-27 in Geneva. The UN body said that Khan's detention and prosecution in the first Toshakhana corruption case and cipher cases were "politically motivated" to exclude him from competing in the political arena. The UN group also said that it was "without legal basis", the Dawn newspaper reported. The case alleges that Khan had

Debt restructuring deal gives breathing space for Lanka's economic revival: President

Colombo (PTI): President Independence from Britain in Ranil Wickremesinghe on Tuesday said "substantial progress" has been achieved in Śri Ľanka's debt restructuring, which he said provided the much-needed breathing space for the cash-strapped country to transform its bankrupt economy into a resilient and stable one. Briefing Parliament on the country's resulting benefits of the correct course of action, President Wickremesinghe also countered the Opposition's criticism of the debt restructuring agreement with major bilateral creditors and promised to table all agreements and documents related to it to a Parliamentary panel. In April 2022, the island nation declared its first-ever sovereign default since gaining

1948. The unprecedented finan-cial crisis led President Ranil Wickremesinghe's predecessor Gotabaya Rajapaksa to quit office in 2022 amid civil unrest. Earlier last week, President Wickremesinghe announced that debt restructuring agreements were finalised with bilateral lenders, including India and China, in Paris on June 26 and described it as a "significant milestone" for bolstering international trust in the debt-ridden economy. On Tuesday, while making a special statement ment in Parliament, Wickremesinghe said: "Sri Lanka's external debt now totals USD 37 billion, which includes USD 10.6 billion in bilateral credit and USD 11.7 billion in multilateral credit.

hina and the Philippines Cheld a crucial meeting Tuesday to try to ease escalating tensions following their worst confrontation in the disputed South China Sea that sparked fears of a wider conflict that could involve Manila's ally the United States. There was no mention of any

major agreement to try to prevent a repeat of the chaotic June 17 clash at Second Thomas Shoal that caused injuries to Filipino navy personnel and damaged two military boats. The shoal off the northwestern Philippines has emerged as the most dangerous flashpoint in the disputed waters, which China claims virtually in its entirety. Chinese naval and civilian vessels have surrounded the

Philippine marines aboard a grounded ship, tried to prevent their resupply and demanded the Philippines pull out.

The Chinese and Philippine delegations "affirmed their commitment to de-escalate tensions without prejudice to their respective positions," the Department of Foreign Affairs in Manila said in a statement late Tuesday. "There was substantial progress on developing measures to manage the situation at sea, but significant differences remain." Philippine Foreign Undersecretary Theresa Lazaro told her Chinese counterpart, Vice Foreign Minister Chen Xiaodong, "that the Philippines will be relentless in protecting its interests and upholding its sovereignty, sovereign rights, and jurisdiction" in the South China Sea, according to the Philippine

side An agreement was signed to improve communications during emergencies at sea and both sides agreed to continue talks on

enhancing ties between their coast guards but no details were provided. There was also another confidence-building plan to convene an academic forum among scientists and academics to improve marine scientific cooperation.

Ahead of the meeting, the Philippines planned to formally ask China's delegation to return at least seven rifles that Chinese coast guard personnel seized during the June 17 faceoff at the shoal and pay for damage, a Philippine official told The Associated Press on condition of anonymity for lack of authority to discuss the sensitive matter publicly.

International toy fair to begin on July 6; over 100 foreign buyers to participate

PTI NEW DELHI

More than 300 domestic companies and over 100 foreign buyers from the US, Germany and other countries are expected to participate in the four-day international toy fair beginning on July 6 in the national capital, a statement said on Tuesday.

More than 250 Indian brands will display their products during the fair, which is being organised at Pragati Maidan here, Toy Association of India senior vice-president Naresh Kumar Gautam said in the statement

Gautam said that the 15th Toy Biz International B2B Expo 2024 is the largest fair in South Asia

"It is a big platform for Indian toy makers to showcase their products and capabilities to the global audience. It helps us attract new customers and partners, expand market reach for our toys and boost exports," he said.

In addition, he said, Toy Biz also provides a platform for industry players to network and connect with each other, which can help foster collaborations, partnerships and joint ventures.

Gautam, who is also the CEO of Noidabased Little Genius Toys Pvt Ltd, also suggested the government provide fiscal support to manufacturers in organising these fairs

"At least Rs 1 lakh should be given to all the stalls in these fairs. At present, we are providing hotel accommodation to foreign buyers and ticket cost up to Rs 1 lakh," he added.

He said that the expo can also help raise awareness about the importance of the Indian toy industry, both domestically and internationally.

Wooden toy maker Gautam said that different categories of toys will be showcased to buyers such as electronics, soft toys, playground equipment and

board games

The country's toy exports declined

marginally to USD 152.34 million in 2023-24 from USD 153.89 million in the previous financial year, according to a report by economic think tank GTRI.

India has taken several steps since 2020 to curb the inflow of substandard toy imports, especially from China, and strengthen the domestic toy industry.

Industry. The report has proposed a comprehensive strategy aimed at developing India's toy industry and boosting exports. It has suggested steps such as developing a robust domestic ecosystem, encouraging global toy brands to manufacture in toy brands to manufacture in India, learning from China, and localise production of key inputs.

The report recommended setting up specialized toy

manufacturing hubs to reduce costs and efficiency; modernising increase traditional Indian toys while preserving their cultural value to create unique products.

It has also asked for making separate strategies for each group of toys such as plush toys like stuffed animals (world trade is about USD 7 billion); educational toys (world trade is about USD 6 billion); construction toys like LEGO (USD 10 billion); action figures and dolls (USD 10 billion); electronics (USD 15 billion); board games and puzzles (USD 9 billion); and outdoor and sports toys (USD 5

billion) In 2022, the global market imported toys valued at about USD 60.3 billion.

Dominating this market, China exported toys worth USD 48.3 billion, securing an 80 per cent share of the global exports. Other significant contributors to the global toy export market include the Czech Republic with exports of USD 3.2

billion, the European Union with USD

and Hong Kong with USD 1.1 billion. In contrast, India's share in the global toy export market is minimal, totalling USD 167 million, which represents only 0.3 per cent of the global exports, ranking it 27th, the report said.

2.7 billion Vietnam with USD 1.7 billion

On the import side, India ranks even lower, at 61st, with toy imports amounting to USD 60 million.

The US is the largest importer of toys with a total procurement of USD 22.2 billion. It is followed by the European Union (USD 9 billion), Japan (USD 2.8 billion), and Canada (USD 1.6 billion). India raised import duties on toys beginning in February 2020. The basic

Rupee falls 6 paise to close at 83.50 against US dollar Electronics industry body ICEA calls for lower input tariffs in Budget

PTI 🗖 NEW DELHI

A head of the Union Budget, India Cellular & Electronics Association (ICEA) has recommended reduction in input tariffs for building strong а components ecosystem. ICEA based its recommendations on a "tariff

study" it conducted across seven competing economies, including India.

...High tariffs on inputs limit the very engine of growth that would lead to higher production. High tariffs on inputs reduce exports because they become uncompetitive, leading to lower production of the final product, i.E., mobile phones. Addressing this requires a reduction in tariffs on inputs. "We recognise that developing the domestic supply chain is extremely critical but the right way is not by protecting with high tariff but drastically reducing disabilities by creating

competitiveness and infuse incentive schemes wherever there are gaps," the report,

which was released on Tuesday, said. To attract global value chains (GVCs) and increase the

scale of production, ICEA said all tariff lines that increase costs significantly, including components of subassemblies, complex should be brought down to

zero. It also suggested removal of 2.5 per cent tariff on subassembly parts and inputs. "These tariffs don't serve any purpose. They fail to build a domestic industry while increasing costs, complexity and compliance for legitimate manufacturers," it said. The industry body further

said the e-government should provide appropriate policy and financial support for building large-scale components and subassembly ecosystem, with a gestation longer and incentive period.

The rupee depreciated 6 paise to settle at 83.50 (provisional) against the US dollar on Tuesday, weighed down by a strong greenback in the overseas market and elevated global crude oil prices.

Besides, a muted trend in domestic equities and foreign fund outflows dented investor sentiments, forex traders said.

At the interbank foreign exchange market, the local unit opened at 83.51 and hit the intraday high of 83.47 and a low of 83.56 against the American currency during the session.

It finally settled at 83.50 (provisional) against the dollar, 6 paise lower than its previous close.

On Monday, the rupee depreciated 10 paise to settle at 83.44 against the US dollar.

Groww Asset Management, trustee settle case with Sebi PTI NEW DELHI

Groww Asset Management Indiabulls Asset Management Company Ltd) and its trustee have settled with markets watchdog Sebi a case pertaining to alleged violation of regulatory norms after paying Rs 9 lakh.

This came after the applicants Groww Asset Management Company and Groww Trustee Ltd (earlier known as Indiabulls Trustee Company Ltd) — proposed to settle the alleged violation by "neither admitting nor denying the findings of fact". "It is hereby ordered that any

proceedings that maybe initiated for the violations...Are settled in respect of the applicants," the Securities and Exchange Board of India (Sebi) said in its settlement order passed on June 28.

The applicants have submitted that on account of change in control of Indiabulls Asset Management Company and Indiabulls Trustee due to the acquisition of these entities by

Nextbillion Technology Pvt Ltd, the entities are now known as Groww Asset Management and Groww Trustee with effect from May 3, 2023.

applicants, in the The settlement application, stated that during April 2020 to March 2022, certain schemerelated expenses were being paid by the AMC and were not paid from the schemes. This resulted in the AMC bearing the expenses towards running their schemes thereby violating Sebi's rule.

The Sebi's rule mandates that all scheme-related expenses, including commission paid to distributors, need necessarily be paid from the scheme only within the regulatory limits and not from the books of the AMC, its associate, sponsor, trustee or any other entity through any route.

Epic penalties drama for Ronaldo ends with Portugal beating Slovenia

AP ■ FRANKFURT (GERMANY)

o one does high N drama in international soccer to such an operatic extent as Cristiano Ronaldo.

Portugal is heading to a blockbuster quarterfinal with France at the European Championship after its star captain generated compelling viewing on center stage of the victory over Slovenia on Monday.

Winning a penalty shootout 3-0 after a 0-0 game against the 57th-ranked team in world soccer might not sound much.

But there were tears, lots of them, from Ronaldo; an apology in prayer-form to his fans, who responded with adulation; extravagant arm gestures of anger, frustration and exasperation; chances wasted and denied to make more tournament history; a renewed duel with an old rival goalkeeper; and ultimately redemption and victory.

Ronaldo's mother was in the stadium and TV pictures showed her crying, too, after he missed his penalty.

"Sometimes it's hard and difficult to score penalties," Ronaldo told Portuguese broadcaster RTP after the match, getting emotional again. "I've scored more than 200 penalties in my career.

Sometimes it's a mess.' Still, the last act of Monday's show gave Portugal what it

Deschamps isn't Didier concerned - his team is into the quarterfinals. "It's beautiful," the France

coach said after Les Bleus relied on the ninth own-goal scored at Euro 2024 to squeeze past Belgium 1-0 in the round of 16 on Monday.

A heavyweight match between neighbors and teams ranked No. 2 (France) and No. 3 (Belgium) failed to live up to its billing, and the nature of the only goal proved to be fitting. Randal Kolo Muani, on as a

second-half substitute, turned in the area and sent in a shot in the 85th minute that deflected off Belgium defender Jan Vertonghen and looped over stranded goalkeeper Koen Casteels.

"I was lucky enough to get my shot on target," he said of his decisive intervention. "It was blocked but it went in. We're very, very happy and very, very proud

UEFA thought differently about the destination of Kolo Muani's shot and put it down as an own-goal, the latest in a tournament full of them.

It's the second own-goal earned by France while there

has also been a penalty by Mbappé. It means a France player has yet to score from open play.

"Êven if today that goal was enough to get us to the quarterfinals, we have the capability to score more," Deschamps said. France will play Portugal or Slovenia in the last eight on

Friday. Mbappé, again wearing a mask to protect his broken nose sustained against Austria in France's opening match, had five of France's 20 shots but none were on target. He played mostly on the left wing

and was well-marshalled by a Belgian defensive set-up that included Kevin De Bruvne the team's most creative player deployed as a deep-lying midfielder.

De Bruyne had more clearing headers than incisive passes before being pushed further forward for the final half-hour of the game. Back in his favored position, he created Belgium's best chance when

was big moment at a major tournament came when he bore down on goal in the last seconds of extra time in the

2022 World Cup final against Argentina. His shot was saved by Emi Martinez, when a goal would surely have won the title for France.

France's overall display will do little to stop the growing dissent among many of its fans who feel more can come from a talented bunch of players headlined by Mbappé, playing on the day he officially became a Real Madrid player.

Deschamps, however, was happy with his pragmatic tactics, saying: "We were intelligent, playing the waiting game and not falling into their trap.

Mbappé will be playing in his first ever quarterfinal at the European Championship, with France having lost on a penalty shootout to Switzerland in the last 16 at the last tournament in 2021. As for the Belgians, they head home after a fairly miserable Euro 2024, during which the players were jeered loudly by their own fans following a 0-0 draw with Ukraine at the end of the group stage.

Error-prone Nagal makes first Gutted, tough pill to swallow: Miller on T20 World Cup final loss round exit from Wimbledon

PTI LONDON

India's top singles player Sumit Nagal committed 44 unforced errors as he made a first round exit from the Wimbledon, going down in four sets to Miomir Kecmanovic of Serbia here.

Making his maiden appearance in the men's singles main draw, Nagal toiled hard for two hours 38 minutes and even managed to take a set off world number 53 Kecmanovic before conceding a 2-6 6-3 3-6 4-6 defeat on

video shared by BCCI on

Had he not received a phone call from India skipper Rohit Sharma, requesting him to continue after the ODI World Cup final defeat, Rahul Dravid wouldn't have been a part of history, the outgoing head coach revealed in his farewell speech to the team after it was crowned T20 world champion here.

Dravid's tenure had ended with the ODI World Cup after India lost to Australia in the final 10-match winning run, but the coaching staff got an extension till the end of the T20 World Cup that concluded on Saturday last. While Dravid has not reapplied for the role after India's second T20 World Cup win, he mentioned Rohit's role in urging him to continue as the coach during his speech in the Kensington Oval dressing room after the team's win seven-run win in the final against South Africa on Saturday.

Cup final loss to India was a tough blow, but the expressed confidence that despite enduring pain the resilient South African team would continue pushing boundaries.

Tues "I think it's been such a privilege and a pleasure to work with each and everyone of you, but Ro, also thanks for the time...There is a lot of time we have to chat, we have to discuss, we have to agree, we have to disagree at times, but thank you so very much, Dravid said as Rohit laughed. Dravid praised the players for putting up collectively solid performances through the tournament and urged them to

celebrate the achievement as much as they would like.

With BCCI secretary Jay Shah in attendance, Dravid also spoke about the sacrifices that people close to each and every player made in order to allow them the spotlight they are now enjoying. "So many sacrifices that each and everyone of you make, to

"This journey was an incredible one, with highs and lows throughout the entire month. We have endured pain, but I know this team has the resilience and will keep raising the bar," he wrote.
