# Sukhbir appears before Akal Takht, submits | Punjab CM holds public **explanation on pardon to Ram Rahim**

PNS ■ CHANDIGARH

Shiromani Akali Dal (SAD) president Sukhbir Singh Badal on Wednesday made a noteworthy appearance at the Sikhs' highest temporal seat — Akal Takht Sahib in Amritsar, delivering a detailed written explanation in response to a series of serious allegations made by a faction of rebel leaders within his party. Sukhbir's visit comes amid heightened scrutiny and internal dissent, marking a significant chapter in the ongoing tur-

moil within the SAD. Sukhbir arrived at the Golden Temple complex at around 1:20 pm, accompanied by senior party leaders Daljit Singh Cheema, Balwinder Singh Bhundar, and Harcharan Bains. Prior to presenting himself at the Akal Takht, he visited the Golden Temple to offer prayers and partake in the customary offering of karah prashad. This was followed by his formal appearance before Akal Takht's head priest Jathedar Giani Raghbir Singh.

The Akal Takht, the supreme temporal seat of Sikhism, had issued summons to Sukhbir on July 15, demanding that he address allegations made by a group of rebel SAD

accused Sukhbir of failing to uphold and represent the core sentiments and values of the Sikh community. The rebellion within the party, led by prominent leaders such as Prem Singh Chandumajra, Bibi Jagir Kaur, and other discontented leaders, had already escalated tensions, leading to a formal apology and accusations being presented to the Akal Takht earlier this month.

During his visit, Sukhbir submitted his written explanation in a sealed envelope to Jathedar Giani Raghbir Singh. The meeting, which lasted around 20 minutes, was held in the presence of Shiromani Gurdwara Parbandhak Committee (SGPC) president Harjinder Singh Dhami, who also provided clarification on behalf of the SGPC.

Despite the gravity of the situation, Sukhbir chose not to address the media or make any public statements, opting instead to leave quietly after the submission.

In his address to the media, Jathedar Giani Raghbir Singh confirmed that Sukhbir's explanation would be reviewed by the Panj Singh Sahibans — a council of five high-ranking Sukhbir of using his influence Sikh priests. This council is to secure the pardon for Ram

explanations and making a determination on the next steps. The Jathedar emphasized that this process is integral to maintaining transparency and accountability within Sikh institutions.

The backdrop to this highprofile appearance involved a series of allegations from the rebel faction, who, on July 1, had presented an apology letter detailing grievances against Sukhbir's tenure as SAD president and Deputy Chief Minister. Their letter cited several contentious issues, including the mishandling of the 2015 sacrilege incidents, the controversial pardon of Dera Sacha Sauda chief Gurmeet Ram Rahim Singh, and allegations of financial mismanagement. The letter also pointed to what the rebels described as misuse of SGPC funds for advertising campaigns aimed at justifying these decisions.

The sacrilege incidents of 2015, which involved the desecration of Sikh religious texts, and the decision to pardon Ram Rahim Singh, who had been implicated in blasphemous acts, were particularly contentious. The rebels accused

Rahim Singh for political gains despite widespread opposition from the Sikh community. They also criticized the SAD government's failure to take action against those responsible for the sacrilege and the subsequent police firings at Kotkapura and Behbal Kalan.

In response to these serious allegations, the Akal Takht had directed both Sukhbir and the SGPC to provide clarifications. The SGPC's response also addressed concerns about alleged expenditures on advertisements aimed at defending controversial decisions made during Sukhbir's tenure.

Notably, just a day before his scheduled appearance, Sukhbir had dissolved the party's core committee including key members of the rebel faction — a move seen by many as an attempt to restructure and possibly purge dissent within the party ranks.

As the Sikh community and political observers await the outcome of the Singh Sahibs' meeting, the future direction of the SAD remains uncertain. The party, already reeling from recent electoral defeats and internal discord, now stands at a critical juncture, with its leadership under intense scrutiny and its unity in jeopardy.

# **Balancing growth with populism**

Though the budget 2024 is growth-centric, it has populist overtones and addresses concerns of NDA allies

inance Minister Nirmala Sitharaman presented the first Union Budget for Modi 3.0 government on July 23, 2024, aiming to bolster India's economic growth while addressing social equity and the interests of the NDA allies. This budget is an exercise in balancing economic growth with political dividends. This budget outlines allocations for infrastructure, green energy initiatives, and the digital economy, reflecting a comprehensive approach to development. The Union Budget 2024-25 focuses on macroeconomic growth and fiscal stability but offers limited welfare for the poor, relying on effective policy implementation for success. While the fiscal deficit has improved to 4.9% of GDP, significant disparities persist, with increased capital expenditure intended to boost private investment but widening rural-urban and income divides. The budget maintains a similar outlay as the interim budget, prioritising agriculture, rural development, housing, and MSMEs to create jobs. New measures include direct payments for first-time

employees and incentives for employers to increase hiring. The budget does not adequately address rising inflation, which stands at 5.08%. To support manufacturing, the government has introduced initiatives like the Credit Guarantee Scheme for MSMEs and increased Mudra Loan limits, along with developing industrial parks enhancing agricultural practices through Digital Public Infrastructure (DPI) and increasing support for natural farming. Despite these efforts, the success of the budget depends on effective implementation and addressing broader economic chal-

The Union Budget 2024 outlines a comprehensive plan to deal with the rising unemployment by increasing the skill set of the youth. It plans to provide skills to 20 lakh youth over five years. As part of this initiative, 1,000 Industrial Training Institutes will be upgraded into hub and spoke arrangements with a focus on outcome orientation. The course content and design will be aligned with the skill needs of the industry. The budget's positives include the significant investment in infrastructure, expected to create jobs and stimulate economic growth. However, the budget also presents challenges. The ambitious spending plans may widen the fiscal deficit, posing challenges to macroeconomic stability and inflation control. Effective implementation of the proposed schemes and projects remains a critical concern, given historical delays and inefficiencies. The 2024 budget reflects a populist approach, aimed at addressing the concerns of its allies — Nitish Kumar and Chandrababu Naidu and has generously allocated funds for their states. The BJP has learned from its performance in the recent Lok Sabha elections, where it faced criticism for not adequately addressing issues like rural distress, job creation, and social equity. By focusing on infrastructure development, rural welfare, and social sector spending, the budget seeks to win back the support of these crucial demographics.

# The unfulfilled promise of Ram Rajya

The BJP's electoral setback in Ayodhya and UP, despite the grand Ram Temple inauguration, necessitates introspection on the foundations of cultural nationalism

ovenanting for deity, indifferent to the movementSidharth Mishra In Hindu tradition, Lord Shiva is the symbol of faith, always speaks the truth, and is Trikaldarshi(knows the past, present and future). In Goswami Tulsidas' Ramcharitramanas, there is a reference to Shiva telling his wife Sati, "Hohi Soi Jo Ram Rachi Rakha," meaning what happens has been designed by Ram himself. Shiva explains to his wife that Ram is Param Brahma (ultimate creator), and writes the fate of a person based on his or her deeds. To the followers of Ram, this couplet forms the essence of Ram's divinity and majesty. The starting lines of the couplet are followed by Tulsidas saying, "Ko Kari Tark Badhave Sakha" that is why disputes his decision with inane discussions and then completes the couplet saying "As Kahi Lage Japan Harinama; Gai Sati Jahan Prabhu Sukhdhama, the essence of this being that in seeking refuge in Ram one attains solace as did Sati, Shiva's

Though Tulsidas demands faith in Ram nowhere he mentions that a human being's own 'karma' (deeds) would not have a bearing on Ram's 'rachna' (creation). To those for whom Ram is the symbol of the revival of cultural nationalism, it's time to retrospect on their 'karma' which led to Ram's 'rachna' of the setback that they received in the just concluded Lok Sabha polls. Defeat in Ayodhya is indeed the symbol of the setback, which is spread across Ram's territory of Awadh and beyond it.Ramjanambhoomi movement played an important role in the revival and strengthening of the concept of cultural nationalism.

The consecration of the statue of Lord Ram at the much-awaited temple should have proved to be the culmination of people's faith in Ram and its natural expression in the electoral gains for the Bharatiya Janata Party (BJP). It did not happen.Celebrated electoral setback. English poet TS Eliot writes in his epochal poem, Hollow Men, nationalism, the reason for 'This is the way the world 'shadows between the con-

the way it did, not with a bang

but with a whimper.

The inauguration of the Ram temple in January this year was the event of the century. The fluttering flags bearing Ram symbols across the states, and the cultural buildup through popular Bollywood renditions had even the sceptics once believed in the movement bearing the soul of our culture and nature. It was complete with immaculate camera coverage, with itinerary being unveiled with clockwise precision, weather at its shinning best in generally a gloomy climate and a massive build-up of expectation of dawning of Ram Rajya (the rule of Ram, the ideal form of governance). The event, however, surprisingly did not bring good electoral tidings for the BJP. The party strategists were left befuddled at the morally

TO THOSE FOR WHOM RAM IS THE SYMBOL OF THE **REVIVAL OF CULTURAL** NATIONALISM, IT'S TIME TO RETROSPECT ON THEIR 'KARMA' WHICH LED TO RAM'S 'RACHNA' OF THE SETBACK THAT THEY RECEIVED IN THE JUST CONCLUDED LOK

ception and creation, between the emotion and the response' will not be known until they decide to come out of the echo chamber of the 'VIP route' and have a 'darshan' of Ram Lalla by joining the milieu of the masses. Rama Rajya has been defined as the ideal state of society as intended by Lord Ram, comprising perfect harmony, justice, dharma and prosperity, where people live in peace and happiness. Gandhi took the interpretation forward, saying that true Ram Rajya would be to ensure equal rights to both prince and pauper.

Ask the Ram Bhakts standing in the line of the paupers, for the darshan of Ram Lalla, if an ideal state had dawned. The management of the whole 'darshan' process at the Ramjanambhoomi temple today is a prototype of how it's a case study of not being the Ram Rajya model. The uncarpeted red sandstone floor of the pathway from the temple entry to the sanctum sanctorum in the heat of the summer leaves the Bhakts with blisters, cursing the temple management for their scorn.

Providing carpets to cover the hot stone floor, functional air coolers on the pathway to beat the sultry weather or water coolers to quench the

thirst from standing in a queue is something that should not be beyond the command of 'caring' temple management. But then that care is lacking.

The whole environment at the temple grapples with the attitude of Suraksha (security) rather than sewa (service). The teeming throng of untrained private security guards stands out as a sore thumb. The curt replies by these guards to the simple queries of the devout wor-shipper are all adding to the dwindling goodwill about the temple movement, though not for the temple deity.

Ram lives in all humans, as notable lyrist Sahir Ludhianvi penned (mere rom rom mein basne wale ram) for Bollywood super hit Neel

This song over the years has become the anthem for all the Ram worshippers. If the attitude of disdain at the Ram temple is not replaced with that of service, Ram Bhakts would continue to vow for their deity albeit without much goodwill for those associated with the temple move-

#### **BUDGET REACTIONS** Madam — It is not unusual for mixed

opinions to arise on budgets presented by Central or State Governments. While ruling parties typically praise the budget, opposition parties are quick to criticize it. Congress leader Pawan Khera claims that the job-related schemes are merely copied from the Nyay Patra. If this is true, Congress might feel validated for having their scheme adopted. However, this could simply be Khera's personal view. What the opposition says often has little impact on the central government. Opposition parties have labeled the budget as specific to Bihar and Andhra Pradesh. It is natural for the opposition to be disappointed with the budget, especially since it does not upset the Chief Ministers of Bihar and Andhra Pradesh. They had hoped that by denying special status to these states, discontent would grow, possibly leading to a withdrawal of support from Nitish Kumar and Chandrababu Naidu.

The budget allocates Rs. 15,000 crore for the development of Andhra Pradesh's capital and grants for its backward regions. Bihar receives Rs. 26,000 crore for various road projects and Rs. 21,000 crore for power.

An industrial center is planned for Gaya, and there is a welcome initiative to revive Nalanda University. On the fiscal front, the current budget lacks encouragement for savings. The government seems to believe people have no choice but to deposit their money in nationalized banks, thus avoiding tax deductions for savings. It would have been fair if the Finance Minister had emphasized savings as well.

This would seem to have come about a little late, a mere four months before the decisive election. For Democrats there are two options. This inhumane action raises serious questions about women's safety under the current government.On one hand, we hear slogans like "Nari Shakti" and "Beti Bachao, Beti Padhao," but on the other hand, women are being harassed and buried alive. Is this what we call women's safety, freedom, and security? How long will such incidents continue to occur? The nation cannot tolerate such atrocities.

Authorities must address this matter urgently and find a solution to prevent such incidents from happening again. urge the government to prioritize women's safety and take immediate action to address this issue.

### A BOOST TO THE GDP

Madam — This refers to the front page article, "India's GDP to surge 6.5 - 7 in 2024-25: Economic Survey", (July 23) this is my response. The economic sur-

dates at the upcoming convention mount the podium and vigorously debate as to how they intend to run the nation rather than run for office. The party convention must set exemplary tenor and substance by navigating through issues on hand than throwing mud on a Teflon coated Trump, on whom nothing will stick.

Under extreme pressure and for want of time on its hands, the party could find great sense in gathering both its wits and resolve to have Kamala as their candidate. Kamala is one person who is most suited to take on Trump. Remember Trump carries a heavy baggage of his own and the recent episode can but blur some of his glaring nega-

surge of 6.5 to 7 % in the year 2024-25. The evangelist numbers are welcoming for speeding up the growth trajectory of India, to make it a 5 trillion dollar econ-

omy as soon as possible. Although the inflation figures are stressing, as it burdened the pockets of the locals. But the growth figures are surely welcoming for each one of us. This will also help India to target 'Vikshit Bharat' vision, and help ensure balanced regional development for all together. Sectoral growth with equality from agriculture to export will power boost India to practically visualize these figures in real life. There are provisions in the budget which will definitely lead to the spurt in economic activity, especially the push for employment and skill development is likely to create more jobs and give boost to manufacturing sector. However, it will all depend upon the execution of these schmes.

# UNION BUDGET 2024: POINT COUNTER POINT

**CHATURVEDI** 

# Transformative changes for the middle class

he middle class in India has long been the backbone of the nation, driving consumption, innovation, and overall economic growth. Under Prime Minister Narendra Modi's leadership, India has witnessed transformative changes that have sig-nificantly impacted this demographic. In the last decade, we have moved from a Low Growth, High Inflation Nation to a High Growth, Low Inflation Nation. Currently, we are the only large economy in the world to have High Growth and Low Inflation. The GDP growth rate consistently outpaced other major economies, with 8.2% growth in FY 2023-24 compared to 7.0% in FY 2022-23. These economic improvements have directly benefited the middle class. Primarily, what the middle class expects from a Budget is more disposable income in hand, Quality jobs for the next generation, and an improved quality of life. More Disposable Income in Hand

Generally, the government tries to increase the middle class's disposable income by controlling inflation or by giving tax relief to the personal income tax category. This budget and government fiscal policies provide relief by both instruments. Inflation manage ment has been crucial, with the Modi government adopting an inflation-targeting regime in 2016.

This approach stabilized and lowered inflation, which has averaged 5% since 2014, never breaching the 8% mark. In June 2024, retail inflation was 5.08%, with core inflation at its lowest in over 12 years, providing further relief to the middle class and enhancing their purchasing power.

In addition, the budget brings significant tax relief for the middle class.FM has rationalized slab rates under the new tax regime and allowed an additional standard deduction of Rs 25,000, effectively making the total standard deductions Rs 75,000 effective from AY 25-26. The new tax regime continues to be the default tax regime of tax-

annum. In other words, after these changes, there will be no tax till income from the Salary of Rs 7.75 Lakh under the new tax regime.

**Empowering the Backbone of India** 

The Union Budget 2024-25, presented by Finance Minister Nirmala Sitharaman, introduces a series of measures aimed at empowering the middle class and ensuring inclusive growth. This budget focuses on employment, skilling, MSMEs, and infrastructure, which are all pivotal for middle-class prosperity. The budget allocates Rs2 Lakh Crore for education, employment, and skilling, directly benefiting the middle class by facilitating job opportunities for 4.1 crore youth over five years. Schemes like the Employment Linked Incentive provide direct benefits to first-time employees, boosting job creation in the manufacturing sector.

Additionally, a new centrally sponsored skilling scheme will train 20 lakh youth, aligning their skills with industry needs and ensuring the middle class remains competitive in the job market.Under the PM Awas Yojana Urban 2.0, the housing needs of 1 crore urban poor and middle-class families wiii de addressed with an investment of Rs 10 lakh crore. This will include the central assistance of Rs2.2 lakh crore in the next 5 years.

A provision of interest subsidy to facilitate loans at affordable rates is also envisaged.For small business owners within the middle class, the budget introduces a comprehensive package for MSMEs, including a credit guarantee scheme for machinery and equipment purchases and support during stress periods.

A Brighter Future

The measures outlined in the budget are set to have profound implications for the middle class. Increased employment opportunities, enhanced skilling programs, and support for MSMEs ensure stable incomes and improved

Affordable housing initiatives make homeownership more accessible to the middle class, and the focus on infraclass to the extent of Rs 17,500 per structure development creates a con-

ducive environment for businesses, fostering economic growth and stability.Let us understand this with the help of an example - The story of a middle-class family. Sachin is a middle-class professional living in Delhi. With the recent changes introduced in the budget, his yearly take-home salary has seen an increase of Rs17,500 due to the new tax benefits.

This increment has allowed Sachin to invest more in his children's education and save for the future. The constant control of inflation also eased his household expenses, making it more affordable for his family to maintain their standard of living. Sachin's son, Amit, recently graduated and was worried about finding a job.

However, with the government's focus on creating employment opportunities, Amit secured a position in a manufacturing firm that benefits from the Employment Linked Incentive scheme. This job provides Amit with a stable income and gives him the confidence to contribute to the family's finances. The government's commitment to skilling programs has also allowed Amit to enrol in a training course that enhances his skills, making him more etitive in the job market.

In addition, Sachin's wife, Priya, who runs a small business, has benefited from the support extended to MSMEs. The credit guarantee scheme has enabled her to purchase new machinery, increasing her business's productivity and profitability. The Union Budget 2024-25 is a testament to the government's commitment to fostering inclusive growth and empowering the middle class.

By addressing key areas such as employment, skilling, MSMEs, housing, and infrastructure, the budget paves the way for sustained economic growth and prosperity. As the middle class continues to thrive, it will undoubtedly propel India towards becoming a global economic powerhouse, realizing the vision of a 'Viksit Bharat' in 2047. # The budget skips pressing issues

he Union Budget of the newly elected alliance government pre-sented its first budget. Smt Nirmala Sitharaman as the Finance Minister of India presented her 7th budget, and a new record was made too. Considering a lot of promises were made to the people of India and lots of challenges they face – unemployment, price rise, stagnant income one would have hoped that BJP would, after its underperformance in the general election have learnt some lessons and course correct. However it was disappointing to see the same mistake of ignoring the Jann ki Baat, Madam Minister also like the Prime Minister delivered her Mann ki Baat speech.

This was to be the Union Budget but now can easily be titled PradhanMantri Sarkar Bachao Yojana announcement where huge financial packages have been earmarked for states that are run by their alliance partners and whose crucial support they need for their government to run uninterrupted- JDU in Bihar and TDP in Andhra Pradesh. While a package worth 59000 crores was announced for Bihar, it was 15000 crores for Andhra Pradesh.

However, their demand for special status has so far not been addressed. Making specific politically motivated state budget allocations over other states' interests sets a wrong precedent for future governments to follow. These funds aren't addressing the requirements but rather addressing their political commitments. Alliancerun Maharashtra, a state that pays the highest taxes to the centre got no specific allocation from the PMSBY (PradhanMantri Sarkar Bachao Yojna) besides many opposition-run states. It is a shame that the centre has blatantly disregarded the principle of equality but chosen to discriminate between states. Maharashtra seeks new airports, a GIFT city like dedicated business /smart city, highways and roads but all of this was ignored. The real BJP hate for Maharashtra stands exposed yet again. The opposition-led state has now made their displeasure over this discrimination obvious by choosing to boycott an upcoming

NITI Ayog meeting to be chaired by the Prime Minister.In the budget, the Finance Minister introduced an apprenticeship program for youth between 20-30 years of age and committed 1 crore internship programmes for youth in the top 500 companies of India. That would mean every company will have to absorb 20000 interns at Rs 5000/pm stipend earmarked from their CSR. This also means that graduates/postgraduates who are part of the record 9.2% unemployment rate and looking for meaningful employment will have to be content with this program, what it doesn't address is creating jobs or entrepreneurial opportunities for the highly skilled youth.

This is the corporate Agniveer programme not meant to address the elephant in the room which is unemployment but rather mock the plight of the

Similarly, FinMin spoke of women-led development but fell short of offering anything that would help address the gender pay gap, bring them more jobs, incentivise savings through tax breaks or ease their burden of inflation in running family budgets. SAMBAL is an umbrella scheme that includes Beti Bacaho Beti Padhao, One Stop Centre, Nari Adalat, Mahila Police Volunteer, Women's Helpline etc. In 2020-21, when these schemes were separate, the BE for just four of those included under SAMBAL was ?640 crores, which is more than what has been allocated in the BE for 24-25 (?629 crores).

The Finance Minister and the entire government have been patting themselves on the back for maintaining fiscal prudence and keeping fiscal deficit under check but it is a classic case of operation successful but patient dead with Aam Janta not having enough savings, enough money to invest and consumption growth amongst its weakest

The fact that private final consumption growth was just 4% in2023-24 against the overall GDP growth rate of more than 8% shows this clearly. The Government has once again managed to turn a deaf ear to the plight of farm-

and using tear gas shells to stop the farmers from protesting was not enough, the Union Budget has no mention of a legal guarantee on minimum support price (MSP) for farmers or any support for farm loans through waivers or lower interest rates. With billionaires continuing to have thousands of crore weddings and stamped-like situations occurring over jobs by unemployed youth, the Union Budget has missed out on addressing wealth inequality at large. While packages for youth employment have been introduced, the Budget does not address reducing the gap between the poorest and the richest sections of the population. Despite the economic survey pointing out the disparity in income with the top 10% accounting for onethird of the income, measures to uplift farmers, and labourers or increase wealth taxes are absent. The Finance Minister's announcement of the reduction of tax on long-term capital gains (LTCG) is a bane in disguise. While seemingly, the tax on LTCG has reduced from 20% to 12.5%, the indexation benefits have been eliminated. This means that profits on sales of operty, gold and other unlisted assets will not be adjusted to inflation and a higher amount would be taxable, thus effectively increasing the tax burden on investors, and making investments in property, gold and shares unprofitable. essential allies. The needs of the public, the opposition, and most states have been ignored. While ignoring the concerns of 90% of the nation is not new for this Government, it is disappointing to see it continue after the BJP's performance in the General Elections. One can, however, be hopeful that the increased representation and enthusiasm of the opposition members in Parliament can lead to fruitful deliberations and additions to the Union Budget this session.

# ESG: The key to sustainable business in a post-pandemic world

### Environmental, social, and governance considerations are crucial for sustainability in an era marked by environmental degradation

→he interest in Environmental, Social, and Governance (ESG) considerations isn't merely a trend-it's a critical pivot towards sustainability in an era marked by environmental degradation and widening social gaps. At its core, ESG represents a comprehensive framework guiding businesses towards practices that not only ensure profitability but also address pressing global challenges.

As we advance in the postpandemic landscape, collaboration and cooperation are more crucial than ever. For India, these priorities align with ambitious climate targets, a rapidly growing digital economy, and global trade aspirations. Amid climate change and environ

mental degradation, there is

growing recogni

tion that businesses play a vital role in promoting sustainable development. Last year, Business 20(B20) was one of most prominent Engagement Groups in India's presidency of G20. It has become an increasingly important forum for private sector leaders to deliberate on subjects such as the adoption of ESG standards. One of the sole goal for investors or

B20 Action Councils has focused on encouraging the rapid and broad implementation of ESG principles among businesses of all sizes and economic contexts.

Their primary suggestions include creating universally applicable ESG standards and ensuring transparent, comprehensive, inclusive, and equitable disclosures across all regions ESG goals are typically a set of operational standards that require companies to adhere to better governance, ethical practices, environmentally friendly measures, and social responsibility. It emphasizes non-financial factors as a metric for guiding investment decisions in a world where only finan-

cial returns are no longer the

employees. ESG enables businesses to have a long-term vision instead of a myopic vision. The horizon of ESG has evolved significantly over the years. It is more than simply checking a box on the compliance checklist. Accelerating a shift to cleaner energy carriers and other efficient technologies can improve global standards of life while also contributing to long-term decarbonization goals. For instance, ESG can align with tradition-

al medicine to forge an environmental path by promoting the use of natural, organic, and sustainable resources in Ayurveda, Yoga and Naturopathy, Unani, Siddha, and Homoeopathy (AYUSH) practices, thus reducing the environmental footprint. To

promote greater adherence to ESG standards, businesses must be transparent about their practices and their impact on the environment and society. This can include initiatives such as reporting on greenhouse gas emissions, disclosing supply chain practices and engaging with stakeholders to address concerns about labour standards and human rights.The path to a universally embraced ESG that combines financial

framework is fraught with

challenges. Diverse and sometimes conflicting definitions and standards set by various entities have led to inefficiencies in reporting and general sluggishness in adopting responsible practices on a global scale. The solution lies in harmonizing ESG frameworks for disclosure, reporting, and rating. Such a unified approach would streamline efforts, making it easier for companies of all sizes to participate in the global movement towards sustainability. Companies that address ESG risks tend to experience fewer disruptions, gain more trust, and achieve consistent financial results, adhering to a triple-bottom-line strategy

returns with environmental

and social norms. Progressive ESG reporting standards, multi-stakeholder partnerships, and dialogue between businesses and civil society can address these challenges. Indian corporations are increasingly incorporating ESG considerations into their business decisions, with several asset management firms launching ESG funds. These ESG-indexed companies have outperformed non-ESGindexed companies, as per data from the National Stock Exchange (NSE).[1]Investors in India are using novel tools to fund social and environmental initiatives

The Ghaziabad Municipal Corporation, which is also listed on the Bombay Stock Exchange, issued India's first green bond (BSE). The Corporation raised ?150 crores in capital to help fund the water treatment plant and tertiary sewage. According to a survey conducted by Singapore-based bank DBS and Bloomberg Media Studios, 92% of Indian SMEs said ESG measures are a high priority for their business, compared to 83% of SMEs across Asia. The corporate world is align-

ing with climate science, with thousands of businesses adopting initiatives like the Science-Based Targets. (The writer is member Invest

# Netanyahu looks to boost US support, faces boycotts

sraeli Prime Minister Benjamin Netanyahu speaks Congress Wednesday in hopes of bolstering US support for continuing Israel's offensives against Hamas and other adversaries. But boycotts of his appearance by some Democratic lawmakers and expected protests outside are highlighting how his hard-line government's conduct of the devastating war in Gaza is opening fissures in longstanding American support for his country.

Netanyahu is assured a warm welcome from Republican lawmakers who arranged his speech in the House chamber, an appearance making him the first foreign leader to address a joint meeting of Congress four times, surpass-

ing Winston Churchill. Many Democrats and political independent Bernie Sanders plan to boycott Netanyahu's appearance. But the most notables absence will be behind him: Vice President Kamala Harris, who serves as president of the Senate and traditionally would sit behind whatever dignitary is speaking, says a long-scheduled trip will keep her away Wednesday. And the next Democrat in line, Sen. Patty Murray of Washington, is declining to attend.

Republicans targeted the absence of Harris, the new Democratic front-runner for the presidency, as a sign of disloyalty to an ally. However, former President Donald

Trump's running mate, JD Vance, said campaigning would also make him a noshow for the Israeli leader's speech.

And outside the Capitol, demonstrators angry over the deaths of nearly 40,000 Palestinians, or over Netanyahu's inability to free Israeli and American hostages taken by Hamas and other militants in the first hours of the Israel-Hamas war, are promising massive protests. In anticipation, House Speaker Mike Johnson warned of a "zero-tolerance policy" for any signs of disturbances in the Capitol building. # Indian-origin Canadian MP receives threat from Khalistani extremists

PTI OTTAWA

Aprominent Canadian MP of Indian origin on Wednesday said the country was being "polluted" by Khalistani extremists who were "abusing" the freedoms guaranteed under the Charter of Rights, days after a Hindu temple was vandalised in Edmonton.

Amidst rising Hinduphobia in Canada, the BAPS Swaminarayan Mandir was vandalised with alleged hateful and anti-India graffiti on Monday morning in Edmonton in Alberta state, about 3,400 km west-northwest of here.

Chandra Arya, a Member of Parliament from Nepean in the House of Commons, said in a post on his X account that separatist Gurpatwant Singh Pannun of Sikhs for Justice

released a video demanding that Arya and his Hindu-Canadian friends go back to India after he (Arya) condemned the vandalism of the Hindu temple and other acts of hate and violence by Khalistan supporters in Canada.

'We Hindus have come to our wonderful country Canada from all parts of the world. From every country in South Asia, many countries in Africa and Caribbean, and many other parts of the world, we have come here and Canada is our land," Arva, a member of Canadian Prime Minister Justin Trudeau's Liberal Party,

'We have made and continue to make immense positive and productive contributions to the socio-economic development of Canada. With our long history of Hindu culture and heritage, we have enriched the

multicultural fabric of Canada, he said.

"Our land is being polluted by Khalistani extremists abusing our freedoms guaranteed by our Canadian Charter of Rights," Arya added.

Arva's statement comes against the backdrop of severe strain in India-Canada ties over the killing of Khalistan extremist Hardeep Singh Nijjar, who was gunned down in Surrey, British Columbia, in June last

The relations between the two countries came under severe strain following Trudeau's allegations in September last year of a "potential" involvement of Indian agents in Nijjar's killing. India has been maintaining that the main issue between the two countries is that of Canada giving space to pro-Khalistan elements operating from Canadian soil with impunity.

India has repeatedly conveyed its "deep concerns" to Canada and New Delhi expects Ottawa to take strong action against those elements.

Meanwhile, the vandalism a the BAPS temple was criticised by other local elected representatives too.

The Consulate General of India in Vancouver had said in a post on X on Tuesday: "We condemn the defacing of BAPS Shri Swaminarayan Mandir in #Edmonton with anti-India graffiti. We have requested the Canadian authorities to investigate the incident and take prompt action against the perpetrators.

The federal charge comes after Matar earlier this month rejected an offer by state prosecutors to recommend a shorter prison sentence if he agreed to plead guilty in Chautauqua County Court, where he is charged with attempted murder and assault. ### TRUMP TO TURN HIS FULL FOCUS ON HARRIS

Donald Trump is holding his first public campaign rally since President Joe Biden dropped out of a 2024 matchup that both major parties had spent months president to direct his ire toward his likely new opponent, Vice President Kamala Harris

Trump is expected to turn his full focus on Harris as he stops Wednesday in North Carolina, a swing state that Trump has carried in the past, but Democrats have seen as pivotal. # SCO conducts anti-terror drills | B'desh crawls back to normalcy with member states in China

Security officials from the member states of the Shanghai Cooperation Organization (SCO) held a joint anti-terrorism drill in China focussing on live drills and specialised operations such as the "eradication of terrorist" groups," China's Ministry of Public Security has said. The 'Interaction-2024' counter-terrorism exercises were held recently in northwest China's Xinjiang Uygur Autonomous Region, the Ministry said. "The exercise marks the first time the relevant agencies from all SCO member states have participated in a joint counter-terrorism live drill," state-run Xinhua news agency reported on Tuesday. A small Indian delegation took part in the drill.

Since terrorist threats often spill over to other countries and flow around the globe, the latest large-scale SCO exercise was held to enhance the member states' capabilities and interoperability in joint anti-terrorism operations, Global Times report said.

The latest exercise has established a new model for joint live drills by relevant agencies and enhanced the joint operational

capabilities of the SCO member states' authorities, the Ministry of Public Security said, adding, in response to significant terrorist threats, the exercise included specialized operations such as "the eradication of terrorist groups." Photos released by the staterun media showed that soldiers and police officers fully armed with assault rifles, pistols, and riot shields launching an assault some via armoured and allterrain vehicles and some via helicopter with aerial drones and robot dogs - also deployed in the exercise. SCO Secretariat, and the Executive Committee of the SCO Regional Anti-Terrorist Structure observed the exercise. The Beijing-based SCO has emerged as one of the largest trans-regional international organisations focussing on deepening security-related cooperation with its Regional Anti-Terrorism Structure (RATS), which specifically deals with issues relating to security and defence.

Earlier this month, Belarus became the 10th official member state of the SCO that already has China, India, Iran, Kazakhstan, Kyrgyzstan,

The Philippines and Singapore signed a defense pact Wednesday that will allow their militaries to broaden their engagement, but few details were given about how the agreement could help address their security concerns in a region rife with conflicts. Defense Secretary Gilberto Teodoro Jr signed the memorandum of understanding with his counterpart in Singapore, Ng Eng Hen, in a ceremony that coincided with the anniversary of the establishment of diplomatic ties between the two countries. The agreement, which was not immediately made public, "serves as a framework to guide existing interactions and promote cooperation in areas of mutual interest such as military education and anti-terrorism," Singapore's Defense Ministry said in a brief state-

It could allow joint but limited drills such as "tabletop exercises" simulating responses to humanitarian crises and natural disasters with agreed terms of engagement, according to the officials, who spoke on condition of anonymity because they were not authorized to discuss the matter publicly. Philippine President Ferdinand Marcos Jr's administration has taken steps to forge new security alliances with a number of Asian and Western countries and allowed a US military presence at more Philippine bases under a 2014 defense pact since territorial hostilities between China and the Philippines surged last year at two hotly disputed shoals in the South China Sea. China has said such alliancebuilding and actions by the US and its allies, including the Philippines, are provocative, aimed to contain Beijing and endanger regional such Chinese criticism. He said in a speech in May that "terming these cooperative activities with like-minded

nations as a containment or a provocation is disinformation and evidence of paranoia of a closed political system." In his state of the nation

address before the Philippine Congress on Monday, Marcos stressed that his country would not back down in the territo-

rial disputes but stressed his administration would only use peaceful means to resolve any dispute and would continue building security alliances with friendly countries. "In the face of challenges to our territorial sovereignty, we will assert our rights and interests in the same fair and pacific way that we have always done," Marcos said, adding that efforts were continuing "to strengthen our defense posture, both through developing self-reliance and through partnerships with like-minded states." Earlier this month, the Philippines and Japan signed a defense pact named the Reciprocal Access Agreement allowing the deployment of their forces in each other's territory for joint military exercises as both countries face an increasingly assertive China. Japan and the Philippines

have separate maritime terri-torial disputes with China. The agreement will take effect after it is ratified by the latures. The Philippines is holding separate talks with Canada, New Zealand and France on similar defense agreements, the two Philippine officials said. Japan and the Philippines are treaty allies of the United States and their leaders held three-way talks in April at the White House, where President Biden renewed Washington's "ironclad" commitment to defend them.

# N Korean balloon drops litter on South's presidential compound

Trash from at least one North Korean balloon fell on the South Korean presidential compound Wednesday, raising worries about the security of key South Korean facilities from North Korean provocations

The rubbish that fell on the ground at the compound in central Seoul contained no dangerous material and no one was hurt, South Korea's presidential security service said in a statement. North Korea's latest balloon launches came days after South Korea boosted its frontline broadcasts of K-pop songs and propaganda messages across der. Their tit-for-tat Cold Warstyle campaigns are inflaming tensions, with the rivals threatening stronger steps and warning of grave consequences.

Seoul officials earlier said North Korea had used the direction of winds to fly balloons toward South Korea, but some of the past balloons had timers that were likely meant to pop the bags of trash midair. The security service gave no

further details about the rubbish found at the presidential compound, like whether balloons were discovered along with the trash. If North Korea is found to have

used timers or any other device to deliberately dump trash on key South Korean facilities like the presidential office, it would certainly invite strong response by South Korea. But experts say dropping balloons at ground targets is extremely sophisticated technology and that North Korea would certainly lack such an ability. The security service refused to

South Korea said Sunday it was ramping up its anti-Pyongyang propaganda broadcasts from its loudspeakers at all major sites along the land border because North Korea was continuing launches of trash-carrying balloons. South Korea last Thursday restarted its louder broadcasts for the first time in about 40 days in retaliation for North Korea's previous balloon activities.

Typhoon Gaemi's outer skirt was bringing heavy rain to much of Taiwan, where a direct landfall was expected later on Wednesday in the northern county of Ylan. Fishing boats were recalled to port amid turbulent seas, while air travelers were rushing to board overseas flights before the storm arrives, amid numerous cancellations. One person was reported killed and dozens injured by trees that were toppled by the storm, while shelters were opened in vulnerable areas, particularly in Taiwan's mountainous center and east where heavy rainfall is prone to cause landslides and flooding. # Sudan paramilitary leader to attend ceasefire talks

Geneva(AP): Sudan's paramilitary leader has announced plans to attend cease-fire talks in Switzerland next month arranged by the United States and Saudi Arabia.

Gen. Mohammed Hamdan Dagalo, head of the Rapid Support Forces fighting Sudan's army, expressed hope on social media late Tuesday that the talks would pecome "a major step" toward peace and stability in Sudan and create a new state pased on "justice, equality and federal rule." We share with the international community the goal of achieving a full cease-fire across the country and facilitating humanitarian access to everyone in need," he said on X, formerly called Twitter,

The talks are expected to begin August 14 at an as-yet unspecified location in

Switzerland. There was no immediate public indication whether Gen. Abdel-Fattah Burhan, the head of the Sudanese armed forces, or another top envoy from the military would also attend.

The US State Department said the talks will aim to build on discussions between the two sides that broke down late last year in Jeddah, Saudi Arabia.

It said the African Union, Sudan's neighbour Egypt, the United Arab Emirates — which has supported Dagalo's forces — and the United Nations would act as observers.

The talks in Switzerland aim to reach a nationwide cessation of violence, enabling humanitarian access to all those in need and develop a robust monitoring and verification mechanism to ensure implementation of any agreement," US Secretary of State Antony Blinken said in a statement Tuesday announcing the talks

"These talks do not aim to address broader political issues," he added.

Sudan plunged into conflict in mid-April 2023 when long-simmering tensions between its military and paramilitary lead ers broke out in the capital, Khartoum, and spread to other regions including Darfur. The UN says over 14,000 people have been killed and 33,000 injured. Rights activists say the toll could be much higher. The war has also created the world's largest displacement crisis with over 11 million people forced to flee their homes, as well as allegations of rampant sexual violence and possible crimes against humanity.

# Zubin Bharucha helping us, Lankans should take advantage of Indian retirements: Jayasuriya

**PTI** PALLEKELE

Sri lanka's interim head coach Sanath Jayasuriya on Wednesday revealed that IPL side Rajasthan Royal's high performance director Zubin Bharucha has helped his batters prepare for the upcoming T20 series against India where he expects them to take advantage of the recent retirements by stars like Rohit Sharma and Virat Kohli.

Rohit, Kohli and all-rounder Ravindra Jadeja retired from the T20 Internationals after India's World Cup triumph last month. The T20 series against Sri Lanka will get underway here on July 27.

Jayasuriya revealed despite some of the Sri Lankan players' involvement in the Lanka Premier League, they have held a six-day camp with Bharucha.

"We just started the sessions just after the LPL. Most of the players are playing the LPL, so they were busy with cricket and what we wanted (for them) was to play cricket as much as possible," he said.

"We got Zubin from Rajasthan Royals and we had about six days of work and also with the other cricketers who finished with the LPL. I hope the players have learnt what you (management) wanted to do in terms of practice and their

technique.

'The preparation was good, and we have two more days in Kandy before the T20 starts," he added.

Jayasuriya said the sessions with Bharucha were intense and the players have been able to learn a lot from him.

"It is important to learn as international cricketers new techniques, new approaches shot making to be effective," he said.

India also have a new captain in Suryakumar Yadav for T20Is and Jayasuriya, while acknowledging the struggles of his side, urged them to make the most of the opportunity.

"Rohit Sharma and Virat Kohli are best players in the world.

on Friday at Edgbaston.

Looking at their talent and the kind of cricket they have played we all know where they belong, along with Jadeja," Jayasuriya was quoted as saying by Associated Press

during a press meet. "Their absence will be loss to the Indian team and we have to take maximum advantage out of that," he said.

Heads rolled in the top management of Sri Lanka team after the debacle in the T20 World Cup in the Americas.

After Sri Lanka made a preliminary round exit, upon return the team captain Wanindu Hasaranga, head coach Chris Silverwood and high performance consultant Jayawardena all

resigned

When asked about Sri Lanka's current state, Jayasuriya hoped the players are able to develop themselves.

"It is up to the players, we have been doing all the work in terms of practice, we have given training, we have got best coaches. I think Sri Lanka Cricket has provided most of the things and now it is up to the players," he said.

"For the present cricketers to come to that level, we have been doing all the necessary work and I hope in next two years there will be a lot of development in these boys," the batting great added.

"We need to give a little bit of time. I know, for the cricket-loving public it is frustrating

sometimes but be patient, give us time, we are working ion it. It is really hard work on it with the players and they will do

The 1996 World Cup winner said Sri Lanka have enough talent in ranks to come out of troubled times acknowledging the frustration of the fans.

"We have enough of talent. What we want (from them) is to go out in the middle and deliver -- it is not easy, we know that," he said.

"We have delivered when we were playing and now the time has come, people are waiting for this present team to perform and with what we are doing at the moment they will deliver very soon," he added.

# Indian women team's mantra has been to take one game at a time: Deepti

PTI DAMBULLA (SRI LANKA)

Senior player Deepti Sharma Said India's mantra in the Women's T20 Asia Cup has been to take one game at a time as conditions haven't really changed from the last time the team played here.

India marched into the semifinals with a thumping 82run win over Nepal on Tuesday after fireworks with the bat from Shafali Verma (81 off 48 balls) and Deepti's impressive 3/13 with the ball.

India amassed 178 for 3 after batting first and then restricted Nepal to a paltry 98 for 9 in their 20 overs.

"From the first game we are

pretty confident about each (match) and every situation and the condition as well. We are looking forward to semi-final as well," Deepti told the media after the match.

She said not much has changed in terms of the nature of the pitches and conditions in Sri Lanka from the team's previous tour to the island nation in June 2022.

"Nothing (has) changed, just keep it very simple and just focus for another match. I played (here) last time also and yeah, nothing changed," she said. "We (are) only backing ourselves and you know, conditions are really (the)

The right-arm off-spinner is topping the bowling charts with eight wickets in three matches and she credited her success to her readiness to bowl in all situations.

"I (am) always ready to bowl in any kind of situation. I like to take the challenges from the front. (It's) nothing, just (that) I'm enjoying each and every match, plan accordingly and what we discussed in the meeting, I just apply myself," she said.

"If we win the toss, it's (a) positive (approach) from the upfront. As a batting unit also, we are doing really well from the game one and we finished

## Ollie Pope reckons England can make 600 Test runs in a day's play Trent Bridge, Nottingham last

Ollie Pope reckons England can breach the 600-run mark inside a day's play in Test cricket while ruling out any let up to their ultra aggressive 'Bazball' approach with the bat. England hold the record for the most runs scored in a day when they piled up 588 for 6 on the second day of the Manchester Test against India in 1936, and Pope believes the current side under Ben Stokes

can eclipse that. "Sometimes we might score 280 to 300 in a day but that's OK and probably because we're reading situations. There might also be a day where we go and get 500 to 600 at some point in the future as well. And that's a cool thing to have," Pope was quoting as saying by 'BBC Sport'.

In December 2022, England smashed 506 runs on the opening day of the first Test against Pakistan in Rawalpindi. England are currently 2-0 up in the three-match Test series against the West Indies after they followed up a victory by an innings at Lord's with a comprehensive 241-run win at

# Mind Games: The psychological challenge of being Olympian movement, recognising that

Human excellence is often closely linked to human fortitude and Olympics is the prime example of it.
The Paris Games, starting on

Friday, will be a gathering of 10,500 athletes, 117 of them from India, competing for a mere 329 medals

Needless to say, talent alone won't decide who finishes on the podium. It will also boil down to the mind and how one can discipline it to cope with the grandeur and pressure of the big moments.

Visualisation, blocking out the noise and being focussed are among the techniques that are often talked about but are they as easy to implement in a competitive

There is a lot of pressure (already) in sports and when you compete at the Olympics, you have to be someone who has gone through a lot of highs and lows as well," explains Dr Divya Jain, a sports psychologist with Fortis Healthcare. "In sports, you're confronted with winning and losing on a day-to-day basis, so it's not about winning every time; it's about how you recover, how quickly you bounce back from a mistake," she said while explaining the difference between Olympians

There is public scrutiny, staying away from family, the noise of the Games... All of these are aspects that athletes have to cope with at a psychological level," she added.

and other athletes.

For the next few weeks athletes will try to be at the peak of their form. To do that, they have trained physically and mentally but the medal winners will be those who are a tad more tenacious and focussed than the rest.

"Not only do they have their own high expectations, but they also carry the hopes of their entire country and scrutiny of a global audience," a sports psychologist and president of the Indian Sport

Psychologists Association. "Being away from families, friends and home is a part of sportspersons' lives but in Olympics, with all eyes on

them, it could lead to further stress and anxiety. "Olympians often have to deal with extensive travel and long periods away from family and friends, which can be really isolating. This combination

can take a serious toll on their mental health, making it crucial for them to have strong support systems and access to mental health resources," she adds.

And to ensure that Indian athletes have calmer minds the a first of its kind specialised medical team is accompanying

the contingent, featuring wellness specialists, and a sleep scientist among the regular medical staff.

"Representing and competing for one's country can instil a deep sense of responsibility and pride but that also adds an additional layer of pressure as athletes at the Olympics often feel that they are competing for national glory," says Dr Nanaki Chadha, a Sport and formance

Dealing with distractions is something that every athlete needs to learn since focussing on the 'here and now' goes a long way. "It's also about being able to

harness that pressure because it's natural for anyone to be in a high-stress situation, to have certain responses to that pressure. Your heart rate may increase, muscle tension may change, your rhythm may change," explains Dr Divya

"So you need to train yourself to work through that pressure and also to harness that pressure to help do better, actually become stronger, (to) more

that's the body we are preparing, rather than clearing that kind of competition situation," she explains.

That mental health is a crucial

aspect of an athlete's overall competitive preparedness has been stressed quite often by India's first individual Olympic gold-medallist Abhinav Bindra. Bindra has often tlaked about his own struggles before the Beijing top finish.

WHAT SEPARATES AN

MEDALLIST OLYMPIC FROM OTHERS?: "Medallists have an extraordinary ability to maintain unshakeable focus and concentration, even in the most intense situations," Keerthana says, "They can block out

distractions - whether it's the pressure of the moment, or the actions of their competitors and stay entirely present in their performance," she adds. It is something that Bindra and some of other top Indian sportspersons have also often pointed out. Being flexible to last-minute changes and selfassurance are also an important aspect.

They trust in their training, abilities and preparation, which helps them take risks when necessary and push their limits without fear of failure. This self-assurance also acts as a buffer against the pressure and expectations they face, enabling them to perform at explosive their peak," Keerthana says.
