MODI REDEFINES NDA

NEW INDIA, DEVELOPED INDIA, ASPIRATIONAL INDIA

Prime Minister Narendra Modi arrives to attend the NDA Parliamentary Party meeting at Samvidhan Sadan, in New Delhi, on Friday

NDA members dig trenches to fortify Govt

PIONEER NEWS SERVICE ■ NEW DELHI

Top leaders of the NDA- BJP, TDP, JD(U), LJP amongst others engaged themselves during the day to consolidate the process of Government formation as well as held deliberations of the shape of Council of Ministers to be led by Prime Minister Narendra Modi.

RAJESH KUMAR ■ NEW DELHI

President Droupadi Murmu on Friday appointed NDA Parliamentary Party leader Narendra Modi as Prime Minister-designate paving the way for his swearing-in as the Prime Minister for a historic third consecutive term after Jawaharlal Nehru.

leaders of the BJP-led NDA had called on Murmu and handed over letters of support for Modi, who was elected as the leader of the NDA Parliamentary Party.

exercising powers vested in her under Article 75(1) of the Constitution of India," the Rashtrapati Bhawan said in a communiqué.

of June 9. He said the Rashtrapati Bhawan will work out the details of the oath taking ceremony on Sunday by when he would hand over the list of the Council of Ministers to the President.

Earlier, at a meeting of the NDA parliamentary party in the central hall of the old Parliament House, Modi was unanimously elected by the MPs and coalition partners as the leader of the alliance.

Jayant Choudhary (RLD), Ajit Pawar (NCP), Anupriya Patel (Apna Dal-S), Pawan Kalyan (Jana Sena) supported the proposal.

New Government in a New-look Parliament

PIONEER NEWS SERVICE ■ NEW DELHI

The Parliament premises, now comprising New Building christened as Sansad Bhawan and the Old Parliament rechristened as Samvidhan Sadan, will sport a new look when the 18th Lok Sabha convenes for its maiden session shortly.

external areas, the statues of national icons, including those of Mahatma Gandhi, Chhatrapati Shivaji and Mahatma Jyotiba Phule, have been moved to a lawn near gate number 5 of the old Parliament building, which has been named as Samvidhan Sadan.

sessions, leading to blockades within the complex. The Parliament Library building and the Annexe are separated by a road that has a reception office and a row of barracks, housing security offices along a compound wall.

The statue of Babasaheb Ambedkar is located inside the Parliament complex and thousands of visitors through the premises to pay tributes to him on his birth and death anniversaries. The Red Cross Road outside the Parliament premises will also become a part of the complex as there are plans to develop offices for Lok Sabha and Rajya Sabha members on the land which currently houses the International Red Cross Society.

The row of barracks has been vacated and plans are also being made to demolish the compound wall separating the Parliament buildings from the Annexe. These offices have been shifted to the North Utility Block of the new Parliament building.

INDIA Bloc leaders in New Delhi

INDIA bloc Oppn won't be LoPsided

DEEPAK KUMAR JHA ■ NEW DELHI

As the Congress-led Opposition still hobbles for options to lead a Government at the Centre, the party is likely to take call on the nomination of 'Leader of Opposition' in the new Lok Sabha, the official status of LoP restored after a decade, at a meeting of the party's apex CWC meeting on Saturday.

Congress Working Committee (CWC) on Saturday. This will be first meeting after the great gains in just concluded LS polls and all of us looking forward to meet and greet and the leaders including high command who worked hard," said the Adhir Ranjan Choudhary who led the Congress in the outgoing Lok Sabha however lost the elections from his home turf in West Bengal this time.

Taiwan protests China 'outrage' over India bonhomie

PIONEER NEWS SERVICE ■ NEW DELHI

Taiwan on Friday said China's "outrage" over a "cordial" exchange between Prime Minister Narendra Modi and Taiwanese President Lai Ching-te is utterly unjustified as threats and intimidation never foster friendship.

BJP 'Bengal leadership to blame' for poor showing

SAUGAR SENGUPTA ■ KOLKATA

The RSS faction and the faction that came to the BJP from the Trinamool Congress have their daggers drawn out against each other putting the Bengal saffron outfit in deep trouble.

general elections. One seat was won by the Congress. Slamming the leadership for the party's poor show and raising his own issue Ghosh who too lost the polls from Burdwan-Durgapur seat said, "People fight elections to win the lost seats and not to lose the seats already won... we have done so in Bengal."

invested my time and money... but I was sent to Durgapur and the result was that we lost both the seats," Ghosh, a former MP from Midnapore said. He also said he was not called in any meetings or any programmes

president of the party said. Taking up the issue of another former MP from Raiganj Debashree Chowdhury who was sent to Kolkata South reportedly against her wishes, Ghosh said, "I had told Debashree that she had done a great job in Raiganj and would definitely win that seat ... but she was sent to Kolkata South where she was a stranger... whereas in Raiganj where she had all these five years Kartik Paul an insignificant BJP candidate who was a simple ward commissioner of a town won... just because of the good work done by Debashree ... this is the way the leadership has worked this time round.

supported by another party MP Soumitra Khan from Bishnupur who said, "the poor result of our party was because of some kind of setting between the leadership and the TMC which must be found out. "A party MLA from Bankura Niladri Shekhar Dana too slammed the BJP leadership for the poor show complaining how, "Dilip Ghosh has created the BJP in Bengal he took the party from 2 seats to 18 seats in 2019... but all that was lost this time round due to the bad politics of some leaders... you cannot compare anyone with Dilip Ghosh who is like a miniature Himalayas ... and see how he and many other leaders were victimised."

Sensex bounces back to record high

PTI ■ MUMBAI

Benchmark equity indices Sensex and Nifty climbed over 2 per cent to settle at record high levels on Friday after the Reserve Bank of India (RBI) revised upwards the GDP growth projection to 7.2 per cent for 2024-25 from 7 per cent earlier. The 30-share BSE Sensex jumped 1,720.8 points, or 2.29 per cent, to hit a new record peak of 76,795.31 in day trade. The benchmark ended at a record high of 76,693.36, up 1,618.85 points, or 2.16 per cent. The NSE Nifty climbed 498.8 points, or 2.18 per cent, to

23,320.20 during the day and is just 18.5 points from the record intraday high. The index settled with a jump of 468.75 points, or 2.05 per cent, at all-time closing high of 23,290.15. IT and interest rate-sensitive bank, realty, and auto stocks ended with sharp gains. Detailed report on Page 10

MP starts getting pre-monsoon showers at several places

STAFF REPORTER ■ BHOPAL
 With the advent of monsoon in few parts of the country, the state also started to witness pre-monsoon showers at several places while the hot and humid conditions prevailed in the state on Friday. The highest day temperature was recorded at 46 degree celsius in Chhatrapur. Damoh, Shivpuri, Khajuraho recorded day temperature over 45 degree celsius. Bhopal recorded day temperature at 41.4 degree celsius. The temperatures which soared to 48 in the state have cooled down but it is far from relief to the people of the state who are eagerly waiting for monsoon arrival. During the last 24 hours, rainfall was recorded in districts of

Bhopal, Indore, Narmadapuram, Jabalpur, Shahdol, Sagar divisions of the country and the weather remained generally dry in all the remaining districts. The day temperature fell significantly in the districts of Rewa division; increased significantly in the districts of Bhopal, Jabalpur divisions; increased significantly in the districts of Narmadapuram division and there was no significant change in the temperatures of all the remaining districts. They remained generally higher in the districts of Narmadapuram division and normal in all the remaining districts. The minimum temperature increased significantly in the districts of Bhopal division and there was no significant change in the temperatures of all the remaining dis-

tricts. They remained above normal in the districts of Bhopal, Ujjain, Gwalior, Sagar division and The rain was quite heavy in the districts of Shahdol division and the rain was common in all other districts. A cyclonic circulation is currently active from Rajasthan to Saurashtra and adjoining areas in the south-west and a cyclonic circulation is currently active over the western part of the country. From yesterday till this morning, dust storm occurred in Dewas, Indore, Burhanpur, Khandwa, Vidisha, Ashoknagar, Sehore, Mandla; thunderstorm and strong winds occurred in Khargone, Barwani, Betul, Narmadapuram, Vidisha, Raisen, North Bhopal, Sagar,

Chhindwara, Pandhurna, Seoni, Balaghat, Mandla, Dindori. Amidst the intense heat in Madhya Pradesh, the weather of many districts has changed. It has rained in Indore, Ratlam, Dhar, Chhindwara, Katni and Vidisha. Hail was also witnessed in Ratlam. Due to the rain, people got relief from the heat. The weather department has issued a storm and rain alert in 37 districts. There will be thunderstorms at some places, while it may rain at other places. At the same time, Gwalior, Bhind, Datia, Niwari, Tikamgarh, Chhatrapur, Rewa, Mauganj and Sidhi may experience intense heat till noon and thunderstorms in the evening. The Met has issued warnings

of hail storms, thundery activities and gusty winds and light rainfall in few regions. Three-day Kerala fest inaugurated in large gathering

STAFF REPORTER ■ BHOPAL
 The United Malayalee Association inaugurated the three-day Kerala Fest in Bhopal. Bhopal witnessed an enthusiastic turnout as residents congregated to immerse themselves in the rich cultural tapestry of Kerala. This cultural extravaganza, spanning three days, is organized in commemoration of the 40th anniversary of the United Malayalee Association. The entrance to the Kerala Fest depicted heritage Kerala homes, giving a princely look of olden days, with the driveway projecting life and times of Kerala. The opening ceremony, commencing at 7:15 pm, dazzled the audience with a captivating performance by the Prathibhalaya Arts Academy. The classical dance segment, meticulously choreographed by Manju and Vishal Hatvalne, paved the way

for an evening filled with enchanting performances. The dancers' graceful movements and evocative storytelling captivated the audience, showcasing the timeless beauty of India's classical dance forms. Following this mesmerizing performance, attendees were treated to a vibrant showcase of traditional Kerala art forms under the segment titled Kala Roopangal. This segment featured performances that depicted the rich cultural heritage of Kerala, offering a unique opportunity for the people of Bhopal to delve into the traditional arts of another Indian state. Distinguished guests and dignitaries shared their insights and expressed their support for this significant cultural initiative. Their speeches underscored the importance of cultural exchange and the role of such events in fostering unity and understanding among diverse communities.

The evening's main attraction was the electrifying Kalarippayattu demonstration led by the renowned K. F. Thomas Gurukkal. As the Chief Master Trainer and proprietor of Kadathanadan Kalar Sangam, Thomas Gurukkal brought his extensive expertise and passion to the stage. His journey in Kalarippayattu began under the guidance of MA Vijayan Gurukkal, the esteemed founder of Kadathanadan Kalar Sangam. Over the years, Thomas Gurukkal honed his skills under the tutelage of several esteemed masters, including Sri V. Sreenivasan Gurukkal, VP Raghavan Gurukkal, Manoj Gurukkal, and Sajevar Gurukkal. His dedication to the art form took him to Kanyakumari and Tamil Nadu, where he trained under the renowned Mani Gurukkal. Thomas Gurukkal's performance, alongside his team of 13

skilled artists, was a thrilling display of martial prowess. The team members included K K Sajevar Gurukkal, M S Ganesh Gurukkal, Vbin T G, Vijin T G, Joby Joseph, Prince Chacko, Pranav K Thomas, Sooraj K S, Abhinav, Adwaid K Thomas, Archa P P, and Theja Lakshmi. Their coordinated movements, agility, and strength left the audience in awe. The demonstration not only showcased the physical aspects of Kalarippayattu but also its philosophical and spiritual dimensions, reflecting the holistic approach of Thomas Gurukkal, who has also delved into Kriya Yoga under the guidance of Shri Soryanda Baba of the Himalayas. His holistic approach extends to his expertise in Kalari marma massage therapy, where he personally gathers and prepares Ayurvedic medicinal herbs for therapeutic oils.

One nabbed in Rs 3.70 lakh robbery from petrol pump on highway

STAFF REPORTER ■ BHOPAL
 Three miscreants robbed a petrol pump manager of Rs 3.79 lakh in broad daylight on Bhopal Indore Highway, the capital of Madhya Pradesh. Police have arrested one accused in this robbery. Many revelations were made in the interrogation that took place late at night. Police are also claiming to arrest two other accused soon. Thieves stole the two-wheeler of the councillor who helped the police in arresting the accused, which has been reported in Khajuri police station. Three unknown robbers robbed Manoj Bhavsar, the manager working at Bharat Petrol Pump. Around 3 in the afternoon, the manager was going from the opposite direction of the petrol pump

Police have arrested one accused in this robbery. Many revelations were made in the interrogation that took place late at night. Police are also claiming to arrest two other accused soon
 with cash, when three youths called out at some distance from the petrol pump, but I ignored their voices and started moving ahead. After some time, those youths came in front of me and escaped away after snatching the money bag after spitting chilli powder in my eyes. According to information received from sources, police have arrested one of the three accused, whose interrogation is going on. The accused has informed the police about the other two, in the next few days the police will arrest the other two accused and solve this robbery. Councillor Ashok Maran had parked Hero Splendor outside his house. Maran said that another motorcycle was parked next to his car, around 2:30 in the night the thieves stole the motorcycle MP040584. Maran had bought this motorcycle just a month ago, he has reported it in Khajuri police station. Along with this, another motorcycle has been stolen under Bairagarh police station, which has also been

reported by the complainant in the police station. The public is scared of the thefts happening every day. The councillor said that in the next few days he will meet the top police officials once again regarding incidents like theft and robbery and will discuss this with them. Earlier also councillor and block congress president Ashok Maran had met DCP Malkit Singh regarding the thefts that had taken place and he had assured the public representatives that night patrolling and police alert would be done regarding the thefts. The councillor had helped the police in the robbery incident with the petrol pump manager on Thursday and he himself had gone to those places where the thieves might go.

Three students from Bhopal excel at 2023-24 Olympiad Awards

STAFF REPORTER ■ BHOPAL
 Three students from Bhopal have secured top ranks in the SOF Olympiad exam for 2023-24. Bhavya Agrawal, a first-grade student from Sagar Public School, achieved the first rank in the International Mathematics Olympiad, earning an international gold medal and a merit certificate. Hitansh Jain, a third-grade student from Delhi Public School, also claimed the first rank in the International Social Science Olympiad, receiving an international gold medal and a merit certificate. Anaisha Bushal, a first-grade student from The Iconic School, also claimed the third rank in the International Mathematics Olympiad, earning an international bronze medal and a merit certificate. This year's SOF Olympiad saw participation from

approximately millions of students across 70 countries, including over 32,642 students from Bhopal. Notable schools from Bhopal, including The Sanskaar Valley School, International Public School were among the participants. The Science Olympiad Foundation hosted an awards ceremony to honor the winners, their teachers, and principals for the academic year 2023-24. The event celebrated the top three worldwide rank holders from grade 1 to 12 who participated in seven different Olympiad exams. Distinguished guests like former Chief Justice of India, Justice Dipak Misra, and renowned author and screenwriter Chetan Bhagat graced the occasion. At the ceremony, former chief justice of India, Justice Dipak Misra addressed the gathering of over 700 atten-

dees, he said, "Competition or the effort to compete doesn't end here, that is the beauty of competition in Life. When you talk about competition, success follows it because everyone competes to succeed. Success is the real achievement. He further highlighted that one may not be able to master the 'time' but they should be determined to manage time. Time management is a major step toward success. On the path of success one may, sometimes, face certain difficulties and at that time, do not react in a manner that will show weakness of mind. The young students should always keep in mind where they have studied and never forget their Alma Mater. He underscored that the unique experience and intellect of a human mind can never be replicated by artificial intelligence. During the event, 66 inter-

national rank-1 winners received a cash prize, a gold medal, and a merit certificate. The 66 rank-2 winners were given a silver medal and a merit certificate along with a cash prize, while the 66 rank-3 winners received a bronze medal, a merit certificate, and a cash prize. Additionally, the top 26 principals and top 60 teachers from 70 participating countries, whose students performed exceptionally well, were honored with monetary awards, mementos, and citations. Moreover, SOF announced the launch of International Hindi Olympiad to encourage the Hindi language among the younger generation, nurturing a deeper appreciation and proficiency in their mother tongue. This new Olympiad aims to promote linguistic and cultural pride among students globally.

AIIMS Bhopal performs about 400 brain tumor surgeries annually

STAFF REPORTER ■ BHOPAL
 In recognition of World Brain Tumor Day, AIIMS Bhopal highlights the critical importance of early detection and public awareness to combat the growing incidence of brain tumors. Professor (Dr) Ajai Singh, Executive Director of AIIMS Bhopal, emphasized that identifying brain tumors in their early stages significantly improves treatment outcomes and provides quicker relief for patients. "By raising awareness and dispelling misconceptions, we can ensure that patients receive better support and integration into society," stated Dr. Singh. "Every year, approximately 28,000 people in India are diagnosed with brain tumors, and at AIIMS Bhopal, we perform brain tumor surgeries on about 400 patients annually. Dr Sumit Raj, Additional Professor in the Department of Neuro Surgery at AIIMS Bhopal, explained the types of brain tumors: "Tumors can be benign (non-cancerous) or malignant (cancerous). Benign tumors consist of normal cells, while malignant

tumors are composed of abnormal cells that grow uncontrollably. Brain tumors develop from abnormal cells forming in any part of the brain. While the exact cause remains unidentified, prolonged exposure to radiation is believed to be a significant risk factor. Brain cancer is the second most common cause of cancer in children." Highlighting the theme for this year's World Brain Tumor Day, "Brain Health and Prevention," AIIMS Bhopal is dedicated to educating the public about the symptoms and early signs of brain tumors. Singh remarked, "Our goal is to enable more people to recognize the early symptoms and seek timely treatment, which can be life-saving." AIIMS Bhopal urges the community to take proactive steps towards brain health by being informed about the disease. Early symptoms can include persistent headaches, nausea, vomiting, blurred vision, balance issues, and cognitive or personality changes. Awareness campaigns and educational programs will be held to disseminate this crucial information.

BOB signs MoU with MP Police for life insurance

Bhopal: Bank of Baroda, Zonal Office, Bhopal signed an MoU with MP Police for life insurance package in salary account. This MoU was signed by Dr. Anshuman Agarwal, AIG, MP Police and Shri Sanjeev Menon, General Manager and Zonal Head, Bhopal Zone on behalf of Bank of Baroda. This MoU was signed in the august presence of Shri Anil Kumar (ADG). Bank of Baroda had earlier provided accident insurance facility with salary package, along with which life insurance has been included in today's MoU, under which life insurance facility of Rs 7.5 lakh and Rs. 10 lakh will be provided to the police personnel. Shri Sanjeev Menon, General Manager and Zonal Head, Bhopal informed everyone about the benefits of the insurance package. He also thanked the police for their indomitable courage, patience and continuous service with selflessness. This MoU was signed in the presence of Shri Anil Kumar (ADG). After this, the police personnel in MP will be able to easily open their salary accounts in all the branches of Bank of Baroda and will also be able to avail the benefit of life insurance facility along with various schemes of the bank.

Man throws garbage in lower lake, Mayor gets annoyed, reprimands him

STAFF REPORTER ■ BHOPAL
 Mayor Malti Rai got annoyed at a person for throwing garbage in Bhopal's Lower Lake the mayor reprimanded him. On this, the person also accepted his mistake and held his ears and said that he will not do this in future. The mayor, MIC member-councillor and officers reached Shirin river and did voluntary labour. As soon as the code of conduct of the Lok Sabha elections was lifted, the public representatives have now come into action mode. They are touring the city. At the same time, they are also taking stock of the construction works. Mayor Rai also came into the field on Friday morning. While touring for lake conservation, the mayor saw a person throwing a sack full of garbage in Lower Lake. After this, she stopped the car and reprimanded the person. The person also held his ears and said that now he will never throw garbage in the pond or any other water source. Mayor Malti Rai, Corporation Commissioner

Harendra Narayan and MIC member Ravindra Yati engaged in cleanliness campaign. Under the 'Jal Ganga Sanvardhan' campaign, special cleanliness activities are being carried out for the conservation and promotion of Bhopal's ponds, lakes, wells, stepwells and other water structures, which will run till June 15. The campaign will run from 8 to 10 am every day. In which public representatives, officers and employees will participate. Officers and councillors were also present in the cleanliness campaign along with Mayor Malti Rai, MIC member Ravindra Yati. This activity also took place on Friday morning. Collective labor was done under the lake conservation program in the Shirin river located in Kohefiza. Mayor Rai, Corporation Commissioner Harendra Narayan, MIC member Ravindra Yati, Rajesh Hingorani, Zoni President Vinita Soni, Councillor Priyanka Mishra, Additional Commissioner Tina Yadav were also present.

City's water crisis will not be solved even if HP releases water

PNS ■ NEW DELHI

Senior AAP leader and Delhi Water Minister Atishi on Friday said the city's water crisis will not be solved even if Himachal Pradesh releases water for it as Haryana has "reduced" its share a day after the Supreme Court directed the Himachal Pradesh government to provide additional water to Delhi amid water shortage and prevailing heat wave conditions.

The Minister inspected the Wazirabad barrage on Friday and said, The Haryana government is not giving the rightful due water to Delhi. Due to this, the water level has come down to 669.7 feet on June 7 as compared to 671.3 feet on June 2

to Delhi, South Delhi BJP MP Ramvir Singh Bidhuri said the Atishi is misleading the people of Delhi. Haryana has been releasing from its own quota. She is deliberately misleading on the water crisis. This government did nothing to ensure proper water supply during summer. The Minister inspected the Wazirabad barrage on Friday and said, "The Haryana government is not giving the rightful due water to Delhi. Due to this, the water level has

come down to 669.7 feet on June 7 as compared to 671.3 feet on June 2. The Supreme Court is trying to solve the water problem of the people of Delhi. Therefore, the Supreme Court is continuously hearing this matter and ordered the meeting of the Upper Yamuna River Board and will hear it again on Monday." But for the last 5 days, when the hearing is going on in the Supreme Court, the Haryana government is conspiring behind the

back of the Supreme Court," she said, claiming that since Sunday, when the issue of water reached the Supreme Court, Haryana has continuously reduced the release of water in the Yamuna towards Delhi.

"As a result, the water level in the barrage at Wazirabad was 671.3 feet on June 2, which has come down to 669.9 feet on June 7," the Minister said, adding that Delhi is dependent on the Yamuna river for its entire water supply as the water that comes into the Yamuna is the same that is released from Haryana. "The water coming into the Yamuna is supplied to Wazirabad, Chandrawal and Okhla water treatment plants. When the water supply itself will reduce and the water in the water treatment plant will reduce, when less water will come into the Yamuna from

Haryana, then from where will the water treatment plant produce water? This will affect the supply and people will face problems," she said. "On one hand, the Supreme Court is trying to solve the water problem in Delhi. Himachal Pradesh is also saying in the court that it is ready to help but the Haryana government is now hatching a conspiracy that even if Himachal Pradesh gives water, the problem of Delhiites will not be solved, that is why Haryana is constantly stopping the water that they have to send to Wazirabad," Atishi alleged. She said that we will put this entire issue before the Supreme Court and hope that Delhi will be able to get its share of water and the additional water from Himachal Pradesh without any obstruction.

India's largest ethane cracker project cum petrochemical complex to be set up in Ashta

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav approved the country's largest ethane cracker project to be set up by GAIL (India) Limited in Ashta tehsil of Sehore district. Chief Minister Dr. Yadav hoped that local employment will be created and industrialization will get a boost. Chief Minister Yadav directed the concerned authorities to allot the land required for the project.

It is noteworthy that this project involving an investment of about Rs 60,000 crore will be the country's largest ethane cracker project. A green field petrochemical complex is also proposed in this project. Under this, petrochemicals like LLDPE, HDPE, MEG and propylene will be produced. Through this project, 15,000 people will get employment during the construction period and about 5,600 people will get employment during the operation period.

A 70 hectare township is also proposed in the project. The ground breaking ceremony of the project is expected to take place by next February and commercial production is expected to start in the financial year 2030-31. Managing Director of Madhya Pradesh State Industrial Development Corporation Chandramouli Shukla and Director of GAIL (India) Limited R.K. Singhal were present.

DEMAND NOTICE

UNDER SECTION 13(2) OF THE SECURITISATION AND RECONSTRUCTION OF FINANCIAL ASSETS AND ENFORCEMENT OF SECURITY INTEREST ACT, 2002 READ WITH RULE 3 (1) OF THE SECURITY INTEREST (ENFORCEMENT) RULES, 2002.

The undersigned is the Authorised Officer of Aadhar Housing Finance Ltd. (AHFL) under Securitisation And Reconstruction of Financial Assets And Enforcement of Security Interest Act, 2002 (the said Act). In exercise of powers conferred under Section 13(2) of the said Act read with Rule 3 of the Security Interest (Enforcement) Rules, 2002, the Authorised Officer has issued Demand Notices under section 13(2) of the said Act, calling upon the following Borrower(s) (the "said Borrower(s)"), to repay the amounts mentioned in the respective Demand Notice(s) issued to them that are also given below. In connection with above, Notice is hereby given, once again, to the said Borrower(s) to pay to AHFL, within 60 days from the publication of this Notice, the amounts indicated herein below, together with further interest as detailed in the said Demand Notice(s), from the date(s) mentioned below till the date of payment and/or realization, payable under the loan agreement read with other documents/writings, if any, executed by the said Borrower(s). As security for due repayment of the loan, the following assets have been mortgaged to AHFL by the said Borrower(s) respectively.

Table with 4 columns: S. No., Name of the Borrower/Co-Borrower & Guarantor, Demand Notice Date & Amount, Description of secured assets (immovable property)

11-member cabinet committee constituted under Chief Minister

STAFF REPORTER ■ BHOPAL

An 11-member cabinet committee has been constituted by the state government under the chairmanship of Chief Minister Dr. Mohan Yadav for the works to be undertaken by various departments for Simhastha 2028. The committee will review the works done by various departments under Simhastha-2028, take decisions on post-facto approval, proposals for allocation of additional funds, etc.

In the cabinet committee, Deputy Chief Ministers Jagdish Deora, Rajendra Shukla, Urban Development and Housing Minister Kailash Vijayargiya,

Public Works Minister Rakesh Singh, Transport and School Education Minister Uday Pratap Singh, Water Resources Minister Tulsiram Silawat, Food Civil Supplies and Consumer Protection Minister Govind Singh Rajput, Energy Minister Pradyuman Singh Tomar, Minister of State (Independent Charge) for Culture, Tourism, Religious Trusts and Endowments Dharmendra Bhav Singh Lodhi and Minister of State (Independent Charge) for Technical Education, Skill Development and Employment Gautam Tetwal have been nominated as members. Chief Secretary of Madhya Pradesh Government is Secretary of the Committee.

Minister for Sports and Youth Welfare Vishwas Kailash Sarang greets Jyoti Rajoure who secured 10th rank in the state in MPPSC exams, at her residence in Bhopal on Friday.

Ather Rizta: The perfect electric scooter for the family

PNS ■ NEW DELHI

Ather Energy, one of India's leading electric scooter manufacturers, launched the Rizta, its first family scooter. The Rizta is a compelling option for those who are looking to purchase a practical electric scooter, offering ample storage, a large seat and great deal of comfort, convenience and safety. It feels easy and light to handle and has been packed with exciting features that enhance the overall riding experience. Design, Space, and Comfort The Rizta has a modern look and comes in a variety of vibrant and appealing colours. Keeping the comfort and convenience of a typical Indian family in mind, the Rizta has a large seat, massive underseat storage space and a spacious floorboard. Ather Rizta has the longest seat in the segment and is large enough for two full-grown adults and a bag. The Rizta offers a well designed 34

litres of boot space which is one of the largest in the segment. The Rizta boot can comfortably fit a full face and a half face helmet and yet have space to store some more items. The storage compartment also includes a charging slot that can be used to charge mobile and other small electronic items. The Rizta also has a small storage compartment under the seat called the joey pocket for storing small items such as a wallet, keys and a cleaning cloth. Ather has prioritised enhancing rider and pillion comfort for urban commuting with the Rizta and has introduced one of the most comfortable scooter seats in the segment. Rizta's seat has a thick and firm foam structure offering a comfortable yet stable seating posture. Enhancing pillion comfort, Ather has introduced a pillion backrest that offers excellent lumbar support and safety. The backrest will be included in both the Rizta Z variants and will be offered as an accessory on the Rizta S.

1,400 students from Delhi govt schools qualify NEET

New Delhi: More than 1,400 students from the AAP run Delhi government schools qualified for the National Eligibility cum Entrance Test (NEET) this year marking a significant jump of 2.5 times from 2020 where 569 government school students qualified. Senior AAP Leader and Delhi Education Minister Atishi called this an unprecedented accomplishment. Sharing this great achievement through a press conference, she said, "This milestone not only highlights the transformative impact of the educational reforms but also sets a new benchmark for public schooling in the entire country." The Minister shared that the students of Delhi government schools have consistently performed brilliantly in the NEET exam and after the NEET results this year, the children studying in Delhi government schools have broken their NEET records of the last several years. This year, 1414 students of Delhi government schools have qualified for the NEET exam.

Atishi stated, "The number of children qualifying for the NEET exam from Delhi government schools has been increasing every year. In 2020, this number was 569, in 2021, 2022, 2023 and now in 2024, this number has continuously increased to 1414. That is, in just 5 years, the number of children qualifying NEET has increased 2.5 times." Further, she added, "255 students of STEM specialisation of the Kejriwal government's flagship school, Dr. B.R. Ambedkar School of Specialized Excellence, appeared in NEET and 243 of them qualified for the exam, that is, 95 per cent of the students qualified for the NEET exam. I think that no school in the entire country or any big institute with big advertisements would have had such a great success rate of 95%. This year students of 12 Dr. B.R. Ambedkar School of Specialized Excellence, where students prepare for medical exams in the STEM stream, appeared for NEET and out of these, 6 schools have got 100% result, that is, every student

who appeared for NEET has qualified the exam." Expressing her gratitude to the Delhi Chief Minister Arvind Kejriwal, she said, "I congratulate all the students who qualified for the NEET exam, their parents, teachers and school principals and on behalf of all Delhiites, I thank Delhi CM Shri Arvind Kejriwal; under whose leadership such an education revolution has come Delhi in the last 10 years, in which the poorest of the poor children studying in Delhi government schools are getting the best education and are getting admission in the best higher education institutions." "Till 10 years ago, no one could have even imagined that children studying in government schools would qualify for the JEE and NEET exams. But 1414 children from poor families studying in Delhi government schools have qualified for the NEET exam and in the coming time will go to the best medical institutions of the country, bringing glory to Delhi, the country and their families," she mentioned.

Fostering inclusive economic growth is 4th pillar of our strategy: Andre

STAFF REPORTER ■ BHOPAL

Solidaridad Asia provides scalable and economically effective sustainability solutions in agriculture, mining, and leather and textiles sectors in collaboration with governments, businesses and the community. It is driving sustainability from niche to norm in Asian markets to support people, planet and profits. Andre de Freitas, Global Executive Director of Solidaridad talked to The Pioneer during his maiden visit to the State capital. Q: Solidaridad has emerged as one of India's leading sustainability organisations, supporting over 1.5 million smallholder farmers. Can you elaborate on how Solidaridad has achieved this and the impact it has had on farmers' incomes and ecological balance? Andre de Freitas: Solidaridad's emergence as one of India's leading sustainability organisations is a testament to our comprehensive and collaborative approach. Our success in supporting over 1.5 million smallholder farmers is rooted in a multifaceted strategy that integrates sustainable agricultural practices, innovative technologies, and strong partnerships with local and international stakeholders. One of our key achievements has been the establishment of the regenerati certification standard, developed in collaboration with Control Union. This certification provides a clear and verifiable

framework for regenerative agriculture, helping farmers access premium markets and receive higher prices for their sustainably produced goods. By implementing regenerative practices such as crop rotation, cover cropping, reduced tillage, and the use of organic compost, we have significantly improved soil health and water management. These practices not only boost agricultural productivity but also increase the resilience of farms to climate change. Q: What are Solidaridad's strategic priorities for fostering sustainability in India? Andre de Freitas: Solidaridad's strategic priorities in India are deeply aligned with our global mission of creating sustainable supply chains and promoting environmental stewardship. Our Multi-Annual Strategic Plan (MASP) is specifically tailored to address the unique challenges and opportunities in India. We focus on four main pillars: promoting regenerative agriculture, combating industrial pollution, fostering inclusive economic growth, and generating rural jobs. I have already shared that Regenerative agriculture is a cornerstone of our strategy. Our initiatives have successfully demonstrated that regenerative practices can lead to higher yields and reduced input costs, benefiting both the environment and the farmers. Combating industrial pollution is another critical area. We work with industries, particularly in sectors like leather and textiles,

to implement pollution reduction technologies. Q: How is Solidaridad engaging with the Indian government and private sector to advance its sustainability agenda? Andre de Freitas: Engagement with the Indian government and private sector is a cornerstone of our strategy to advance sustainability. We deploy hyper-local weather stations and soil sensors that provide farmers with precise information on weather patterns, soil moisture levels, and crop health. This data-driven approach helps farmers make informed decisions about irrigation, fertilisation, and pest management, thereby optimising resource use and improving crop yields. For instance, in our projects in Madhya Pradesh, the deployment of soil moisture sensors and weather stations has significantly improved water management practices. Farmers receive real-time alerts and advisories on their mobile phones, enabling them to apply water and nutrients more efficiently. This not

only conserves water but also reduces the reliance on chemical fertilisers, promoting soil health and sustainability. Q: What role does Solidaridad envision for itself in the future of sustainability in India, especially in terms of market impact and policy advocacy? Andre de Freitas: Solidaridad envisions itself as a key driver of systemic change in India's sustainability landscape. Our role is to catalyse market transformation and advocate for policies that support sustainable development. We believe that by influencing both market dynamics and public policy, we can create an enabling environment for sustainable practices to flourish. In terms of market impact, our goal is to mainstream sustainable practices across various sectors. This involves not only promoting sustainable agriculture but also ensuring that these practices are economically viable for farmers and attractive to buyers. We work to create demand for sustainably produced goods by engaging with companies, retailers, and consumers. By establishing clear standards and certification systems, such as regenerati, we provide assurance to buyers and incentivise farmers to adopt sustainable practices. Our efforts in the leather and textile industries illustrate our market impact strategy. By working with industry stakeholders to implement pollution reduction technologies and sustainable production practices, we help companies meet international sustainability standards.

Modi elected leader of NDA

PIONEER NEWS SERVICE ■ NEW DELHI

The National Democratic Alliance (NDA) partners including Telugu Desam Party (TDP) chief N Chandrababu Naidu, Bihar Chief Minister and Janata Dal (United) supremo Nitish Kumar, Shiv Sena chief Eknath Shinde — on Friday endorsed BJP leader Narendra Modi as the leader of the NDA with a message to balance regional aspirations and national interests.

Speaking at the NDA Parliamentary Party meeting here, BJP allies JD(S) leader H D Kumaraswamy, Shiv Sena chief Eknath Shinde, NCP chief Ajit Pawar, HAM(S) chief Jitan Ram Manjhi among others supported the proposal moved by Defence Minister Rajnath Singh to elect Modi as the leader of the NDA.

Hailing and supporting Narendra Modi's name as NDA leader, TDP chief Chandrababu Naidu said, "...Narendra Modi has a vision and a zeal, his execution is very perfect. He is executing all his policies with a true spirit...Today, India is having the right leader - that is Narendra Modi. This is a very good opportunity for India, if you miss now, we will miss forever..."

"Balancing regional aspirations and national interests must run parallelly while ensuring holistic development for all strata of society," Naidu said. Naidu said Modi's rallies in Andhra Pradesh helped the TDP win 16 seats in the Lok Sabha elections.

Kumar expressed confidence that Modi will develop India in a big way and also pay attention to Bihar. "We are confident that Modi will develop India and we will wholeheartedly support him every passing day," Kumar said.

"All the pending works of Bihar will be done. It is a very good thing that all of us have come together and we will all work together with you.... We will all work under your leadership," he said. The Bihar chief minister slammed the opposition and expressed confidence that they will be defeated in the next Lok Sabha elections.

"I have noticed that a few people have won (Lok Sabha elections) here and there by saying useless things. They haven't done any work, never served the country. Next time when you win, they all will be defeated," Kumar said.

During the occasion, in a humble gesture, Prime Minister

Narendra Modi made way for Kumar to pass in front from him when he got up to express his support for Modi's name as the leader of the alliance. Reciprocating the gesture, Kumar after expressing his support to PM Modi's name tried to touch his feet, however, the former resisted him and shook hands with the Bihar Chief Minister. The Shiv Sena chief Shinde used a line from a popular advertisement and said, "Yeh Fevicol ka jod hai, tootega nahin (this is a Fevicol bond, it's not going to break)". Shinde said in Hindi, "Today is a historic and golden day. (Senior BJP leader) Rajnath Singh has proposed making Prime Minister Narendra Modi the head of the NDA parliamentary party and, as a party that follows (Shiv Sena founder) Bal Thackeray's ideals, we support this fully."

"In the past 10 years, PM Modi

has contributed to the development of this country and ensured that India's stature has risen globally. The economy has also been strengthened. No matter how many rumours or false narratives the opposition spreads, they have been rejected by the people and PM Modi has been accepted.... What I will say about the Shiv Sena is that the party and the BJP share a common ideology and the alliance, which was formed by Bal Thackeray, is a Fevicol bond and will not break," he added.

Lok Janshakti Party (LJP) [Ram Vilas] Chief Chirag Paswan and Prime Minister Narendra Modi shared a candid moment at the NDA parliamentary party meeting. After expressing his support for PM Modi, Paswan approached him, shook his hand, and hugged him, to which the Prime Minister responded with a pat on Paswan's head.

Will work on further boosting research, innovation in third term: Modi

PIONEER NEWS SERVICE ■ NEW DELHI

Prime Minister Narendra Modi on Friday said the qualitative changes in India's education sector are reflected in the QS World University Ranking and his Government will work on further boosting research and innovation in the third term.

"Over the last decade, we have focused on qualitative changes in the education sector. This is reflected in the QS World University Rankings. Compliments to the students, faculty and institutions for their hard work and dedication. In this term, we want to do even more to boost research and innovation," the Prime Minister said in a social media message. The Indian Institutes of Technology (IITs) Bombay and Delhi are among the top 150 universities in the world, while the Massachusetts Institute of Technology (MIT) retained the top rank globally for the 13th time, according to

the QS World University Ranking-2025 announced on Wednesday.

While IIT Bombay climbed from 149 last year to 118, up by 31 ranks, IIT Delhi improved its rank by 47 points to bag the 150th position globally.

According to the coveted ranking published by the London-based higher education analyst, Quacquarelli Symonds (QS), the University of Delhi stood out for the employability of its graduates and has been ranked 44th globally in the category of "employment outcomes".

Boasting 46 universities in this edition of the rankings, the Indian Higher Education system is the seventh most represented globally and the third in Asia, trailing only Japan (49 universities) and China (Mainland) (71 universities). From 46 institutions compared to 11 in 2015, India has increased its representation by 318 per cent in the last decade, registering the highest growth among G20 nations, QS officials said.

Modi's third term unprecedented in last six decades: Dhankhar

PIONEER NEWS SERVICE ■ NEW DELHI

Vice-President Jagdeep Dhankhar on Friday here acknowledged the historical significance of the Government's third term, unprecedented in last six decades.

Emphasising the rarity of such an accomplishment, he stated "It is for the first time since 1962 that a Prime Minister has got a third term".

Addressing the participants of the Rajya Sabha Internship Programme at Vice President's enclave, Dhankhar urged the interns to harness the power of social media to express their views and remain vigilant against pernicious tendencies in democracy.

Emphasising the role of constructive debate, dialogue and discussion in the Parliament for positive growth, Dhankhar urged the interns to mobilize public opinion if they see any deviation from these principles.

He further exhorted that Bharat is not a sleeping giant, instead we are a country on move that is rising every day and every moment.

Emphasising the significance of consulting the Indian Constitution for clarity, the Vice President advised the interns to text of Indian Constitution whenever in doubt about.

Describing the internship programme as a "Parliamentary Startup" that would provide a new direction and urge to engage with the country's democratic processes, Dhankhar highlighted how citizens can indirectly participate and raise public issues through petitions, without being a member of Parliament. Dr Sudesh Dhankhar, Deputy Chairman, Rajya Sabha Harivansh, Secretary General, Rajya Sabha P.C. Mody, Secretary to Vice President, Sunil Kumar Gupta, Secretary Rajya Sabha, Rajit Punhani and other senior officials were present.

Four Indian medical students drown in Russian river, says MEA

PIONEER NEWS SERVICE ■ NEW DELHI

Four Indian students, who were studying at a university in Russia's Veliky Novgorod region, drowned in the Volkhov river, the Ministry of External Affairs (MEA) said on Friday.

A fifth Indian student was saved from drowning and is currently receiving medical attention, it said, adding two students are missing and search for them continues.

Local emergency services have so far recovered two bodies from the Volkhov river.

"Four Indian students who were studying at the Yaroslavl-

the-Wise Novgorod State University located in Veliky Novgorod, Russia, drowned in an unfortunate incident in the Volkhov river," the MEA said.

The four students were identified as Harshal Anantrao Desale, Jishan Ashpak Pinjari, Jia Firoj Pinjari and Malik Gulamgous Mohammad Yakub from Maharashtra. The name of the student rescued is Nisha Bhupesh Sonawane.

The MEA said the Indian consulate in St Petersburg remained in contact with the university and local authorities and is providing all possible assistance.

"Local emergency services have so far recovered two dead bod-

ies from the Volkhov river. We offer our condolences to the families," the MEA said in a statement.

It said the search for the remaining two missing students continues. "The five students involved in the incident belong to the Jalgaon district of Maharashtra. Our Consulate in St Petersburg is coordinating with local authorities for the repatriation of the mortal remains," the MEA said.

It said the Indian consulate continues to be in contact with the families and the district administration in Jalgaon, Maharashtra.

The Indian consulate in St Petersburg said it is working

together with the local authorities of Veliky Novgorod to send the mortal remains to the relatives as soon as possible.

"The bereaved families have

been contacted and assured of all the possible help," it said on X.

It said proper medical care including psychological treat-

ment is being provided to the girl student who was saved.

"These students were pursuing medical education in Veliky Novgorod State University. Sincere condolences to the bereaved families," it said.

According to a report by PTI from Jalgaon, Jishan Ashpak Pinjari, one of the four Indian students who drowned in the Volkhov river in Russia, was on a video call with parents when he and the three others drowned in the river, a family member said on Friday.

The four, Harshal Anantrao Desale, Jishan Ashpak Pinjari, Jia Firoj Pinjari and Malik Gulamgous Mohammad Yakub, students of the Yaroslav-

the-Wise Novgorod State University, were taking a walk along the Volkhov river, when they entered the waters, an official said.

Another student, Nisha Bhupesh Sonawane, survived. Now she is under the care of local medical staff, the official said.

Jalgaon district collector Ayush Prasad said arrangements are being made to bring the bodies to India. Jishan and Jia were siblings and hailed from Amalner in Jalgaon district of Maharashtra. Harshal Desale belonged to Bhadgaon, also in Jalgaon district.

"When they entered the Volkhov river, Jishan made a video call to his family. His

father and other family members were pleading with Jishan and others to come out of the river waters when a strong wave swept them away," a family member told local media.

In a message to the Indian envoy to Russia, the administration of Yaroslavl-the-Wise Novgorod State University has expressed condolences over the tragedy. "The students were taking a walk near the city's beach along the Volkhov river, in the evening, during their study-free time. The tragedy was accidental and unexpected. Nisha Bhupesh Sonawane survived. Now she is under the care of medical staff," a university official said.

Priyanka slams Modi Government for irregularities in NEET entrance exam

PIONEER NEWS SERVICE ■ NEW DELHI

Congress leader Priyanka Gandhi Vadra on Friday slammed the Modi Government over alleged irregularities in the NEET medical entrance exam and called for resolution of students' "legitimate complaints" through an investigation.

Several aspirants of the medical entrance exam NEET have alleged inflation of marks which led to a record 67 candidates bagging the top rank, including six from the same exam centre.

The National Testing Agency (NTA), however, denied any irregularities and said the changes made in the NCERT textbooks and grace marks for losing time at the examination centres are some of the reasons behind the students scoring higher marks.

In a post in Hindi on X, Priyanka said, "First the NEET exam paper was leaked

and now the students allege that there has been a scam in its results as well. Serious questions are being raised on 6 students of the same centre getting 720 out of 720 marks and many kinds of irregularities are coming to the fore."

There are reports of many children committing suicide across the country after the results were announced, Gandhi said and added that

this is very sad and shocking. "Why is the government ignoring the voice of lakhs of students? Students want answers to legitimate questions related to the rigging in the NEET exam results," the Congress general secretary said.

Is it not the government's responsibility to resolve these "legitimate complaints" by conducting an investigation, she asked.

151 paintings portraying Shivaji's life displayed at NGMA

ARCHANA JYOTI ■ NEW DELHI

Timed with the 350th coronation anniversary of Chhatrapati Shivaji Maharaj, a captivating collection of 115 larger than life oil paintings, portraying a journey through the life and legacy of one of India's most iconic historical figures and the great Maratha ruler has been opened for public at the National Gallery of Modern Art (NGMA) in the national capital till June 21.

The Maratha warrior king was crowned on June 6, 1674, at the fort from where he had laid the foundation of "Hindavi-Swaraj" or self-rule of Hindu people. The inauguration day was timed with the 350th anniversary of Shivaji's coronation.

The Union Culture Ministry plans to take this exhibition, 'Chhatrapati Shivaji Maharaj: Celebration of the 350th Anniversary of the Great Coronation' on a nationwide

tour to raise awareness about the iconic leader, said Union Culture Secretary Govind Mohan after inaugurating the exhibition on Friday.

Painted by Marathi father-son artist duo, Shrikant Chougule and Gautam Chougule, each painting vividly portrays key moments from Shivaji's life—from his early days receiving the saffron flag from his father Shahaji to his strategic military triumphs and the establishment of the Maratha kingdom. Through their skillful artistry, the Chougules bring to life the courage,

determination, and resilience of Shivaji, inviting viewers to reflect on the great Maratha leader's profound legacy. Shivaji is also known for his maritime skills, having launched Maratha Navy at Durgadi Fort Kalyan Year OCT 1657.

Mohan, said that Deepak Gore who collected the paintings has "agreed to gift" the "treasure" to the Union Culture Ministry, and there is a plan to give it a permanent space at Indira Gandhi National Centre for Art (IGNCA) in Delhi.

Third gender voter turnout in 2024 LS poll higher than 2019

ARCHANA JYOTI ■ NEW DELHI

Reflecting their growing awareness and interest in exercising their democratic rights, third gender voters are increasingly making their presence felt as has been revealed by the data released by the Election Commission (EC) which said, the voter turnout in 2024 from this marginalised community stood at 25 per cent, a notable increase from the 14.58 per cent recorded in the previous Lok Sabha polls.

The EC's phase-wise data shows that while the first phase saw a turnout of 31.32 per cent, subsequent phases also witnessed considerable participation, ranging from 18.67 per cent to 34.23 per cent. This indicates a consistent engagement of the third-gender community throughout the electoral process, reflecting their growing awareness and interest in exercising their democratic rights.

"The increased voter turnout underscores the importance of

addressing the needs and concerns of our community within the electoral framework. The trend also highlights the need for continued efforts to enhance accessibility, eliminate discrimination, and promote inclusivity in the electoral process," said Rajan Singh, who identifies as a transwoman and was the national candidate's first transgender candidate. With the slogan, Sauchalay se, Sansad tak', Singh contested from the South Delhi constituency and received 325 votes, according to the EC data.

Though Singh's electoral journey may not have resulted in victory, he said, his candidacy signifies a voice in the democratic process, advocating for meaningful change and representing the aspirations of their constituency.

Narela-resident Pooja, also a transgender, who was in the fray from North-West Delhi and got 509 votes said "the participation was an experience for me."

Statues shifted from Parliament premises to ensure Opposition cannot hold protests: Congress

PIONEER NEWS SERVICE ■ NEW DELHI

The Congress on Friday alleged that statues of Mahatma Gandhi, B R Ambedkar and Chhatrapati Shivaji among others have been relocated within Parliament premises to ensure that Opposition parties cannot hold democratic protests, and said such "stunts" cannot save Prime Minister Narendra Modi's "unstable government" from falling.

Congress general secretary Jairam Ramesh termed the Lok Sabha secretariat's explanation for relocating the statues as "wholly bogus," and said there has been no discussion with any political party on the matter.

In a statement, the Lok Sabha Secretariat said Thursday that

due to their location at different places in the Parliament premises, visitors were not able to see these statues conveniently.

"For this reason, all these statues are being respectfully installed in a grand 'Prerna Sthal' in Parliament House premises. This 'Prerna Sthal' is being developed in such a way that the visitors coming to visit the Parliament complex view the statues of these great persons conveniently and get inspired by their life experiences," the statement said.

The Lok Sabha Secretariat had asserted that the Parliament House complex comes under the jurisdiction of the Lok Sabha Speaker and earlier also, statues were shifted inside the complex with the permission of the Speaker.

lamming the shift of statues,

Ramesh said, "Yesterday at 2:30 PM, I had highlighted how the Modi regime was shifting the statues of Chhatrapati Maharaj, Mahatma Gandhi, and Dr. Ambedkar away from prominent places they now occupy in front of Parliament House."

"Rattled by photographs of these shifts that were also put out, late last night, well after 8PM, the Lok Sabha Secretariat was forced to issue a wholly bogus and clearly manufactured explanation for the shift. There has been NO discussion with any political party on these shifts," he said in a post on X. The real reason for the shifts can now be revealed, Ramesh said, adding that these statues were places where for the past 10 years Opposition parties - including the TDP and JDU - would stage peace-

ful and democratic protests against the Modi Government.

"Clearly the incoming one-third PM wants no place next to where Parliament meets where protests, even in a Constitutional manner, against him and his government can take place. Such stunts can no longer save him and his unsta-

ble Government from falling," Ramesh said.

In its statement, the Lok Sabha secretariat said the arrangements are also being made to provide visitors with detailed information about the life and contribution of these great persons and freedom fighters through modern technology at

this 'perna sthal' so that the people visiting can get inspired by their life and thoughts.

The Parliament premises will sport a new look when the 18th Lok Sabha convenes for its maiden session in June as work is underway to integrate the entire complex, comprising four different buildings.

As part of the redevelopment of external areas, the statues of national icons, including those of Gandhi, Shivaji and Jyotiba Phule, were to be moved to a lawn near Gate No 5 of the old Parliament building, which has been named as Samvidhan Sadan.

This would pave the way for the creation of a vast lawn in front of the Gaja Dwar, which is used by the President and the prime minister to enter into the new Parliament building. The lawn can also be used for

official ceremonies such as the President's address to the joint sitting of Parliament, usually during the Budget Session.

CPI general secretary D Raja has called the move to remove the statues from their original place a contempt of the ideals of freedom, liberty and equality.

"The arbitrary and unilateral decision to shift the statues of Mahatma Gandhi, Dr. Ambedkar and Chhatrapati Shivaji in the Parliament House premise is condemnable. All statues in the Parliament House are erected in the honour of individuals who significantly contributed to our national life," Raja said in a post on X.

Trinamool Congress MP Jawhar Sircar has said the government must explain why

this was done. "Who dared to remove statues of Mahatma Gandhi (our traditional protest site) and Babasaheb Ambedkar - from their hallowed sites in our Parliament compound? Has the statue of Shivaji also been removed? Are statues of (Nathuram) Godse & (Narendra) Modi coming up? The Government must explain," he said in a post on X on Thursday.

Working president of NCP-SCP Supriya Sule said this is very "infuriating". She also said "All these statues were erected by Indian citizens out of love for national heroes in the Parliament building area. The government has insulted all the countrymen by removing these statues. What is special is that today is the 350th anniversary of the coronation day of Shivaji."

Power play: Andhra Pradesh BJP unit eyes Cabinet berth

PTI ■ AMARAVATI

Buoyed by the outcome of the recent Assembly and Lok Sabha polls, the Andhra Pradesh BJP unit is seeking at least one cabinet berth at the Centre, amid reports that there will be "ample" representation from the state.

BJP sources said the state unit has already sent a message to the top brass through Shiv Prakash, national joint general secretary of the saffron party, requesting a cabinet berth for at least one Lok Sabha member of the party from the state if possible.

"This is an opportune time to expand the party in Andhra Pradesh and send a message to the masses that BJP is serious about the state. A request has been sent to the senior leadership of the party," the BJP sources told PTI.

The first choice would be State BJP President D Purandeswari who won from Rajamahendravaram Lok Sabha constituency by a margin of nearly 2.40 lakh votes, defeating her nearest rival G Srinivas of YSR Congress, they said.

The saffron party has performed impressively in the state by improving its vote share to 11.28 per cent in the recent polls,

winning three Lok Sabha and eight assembly seats, from a minuscule less-than-one per cent in 2019.

As part of a seat-sharing deal among NDA partners, the TDP contested 144 assembly and 17 Lok Sabha constituencies while BJP put up candidates in six Lok Sabha and 10 assembly seats in Andhra Pradesh.

Janasena contested two Lok Sabha and 21 assembly seats. The TDP won 135 seats in the assembly polls. Its allies BJP and Janasena got 8 seats and 21 seats respectively. In the LS polls, the TDP won 16 seats, BJP three and Janasena two seats.

The BJP had two Lok Sabha members between 2014 and 2019 — Kambhampati Hari Babu

(Visakhapatnam) and Gokaraju Ganga Raju (Narsapuram) — and none during 2019-24.

The party also hopes that some leaders from the YSR Congress party, which was routed in the assembly polls, may opt to join the saffron party as they could not align with TDP.

During the recently concluded assembly and Lok Sabha polls, the party fielded several leaders who switched over to it, causing heartburn among old timers.

According to political observers, by giving party tickets to new entrants, the BJP was trying to send a message or signal to disgruntled leaders of other parties that it would generously offer seats to contest polls to turncoats.

68% of candidates in JK polled fewer than NOTA votes

PTI ■ SRINAGAR

Sixty-eight per cent of the total 100 candidates in the fray on Jammu and Kashmir's five Lok Sabha seats polled fewer than None Of The Above (NOTA) votes, according to Election Commission data.

Cumulatively, 34,788 voters pressed the NOTA button in the five seats, showing their rejection of the candidates fielded by parties.

The maximum 12,938 NOTA votes were polled in the Udhampur constituency of Jammu region, a seat retained by BJP candidate Jitendra Singh.

There were 11 other candidates in the fray from Udhampur, and NOTA polled more votes than nine of them. In the neighbouring Jammu seat, 4,645 voters pressed the NOTA button, which is more than votes individually garnered by 18 candidates. There were 22 candidates in the fray from the seat which has been retained by the BJP's Jugul Kishore. In the Srinagar seat, the number of NOTA votes was 5,998. There were 24 candidates in the fray from the constituency and most of them — 18 — got fewer votes than NOTA.

In the Anantnag-Rajouri constituency, 6,223 voters

favoured NOTA. There were 20 candidates were in the fray from the seat, and nine of them secured fewer than

NOTA votes. In the Baramulla seat, 4,984 voters used the NOTA option. There were 22 candidates in

the fray and 14 of them polled fewer votes. Thus, out of the total 100, 68 candidates have secured fewer votes than NOTA, an analysis of the EC data shows.

Meanwhile, in the Ladakh Union territory, which was part of the erstwhile state of Jammu and Kashmir until the Centre divided J-K into two Union territories and abrogated Article 370 in August 2019, NOTA was favoured only by 912 voters. Ladakh is the sole Parliamentary constituency in the UT. There were only three candidates in the fray and all of them got more votes than NOTA.

Amaravati capital city project comes to fore in Andhra Pradesh

PTI ■ AMARAVATI

Following the stellar triumph of the TDP in Andhra Pradesh Assembly elections, the Amaravati capital city project, which was shelved by the outgoing YSRCP government, is now expected to be revived.

As the first chief minister of the bifurcated state between 2014 and 2019, TDP supremo N Chandrababu Naidu had floated Amaravati as the capital city.

The greenfield capital city was envisioned to be an environmentally sustainable one, located between Vijayawada and Guntur cities, covering up to 29 villages. Naidu had acquired up to 30,000 acres of land from farmers for Amaravati capital city construction through land pooling.

Prime Minister Narendra Modi had taken part in its foundation-laying ceremony on October 22, 2015, and former Telangana CM K Chandrasekhari Reddy had also attended it.

However, this brainchild of Naidu suffered a setback in 2019 when the TDP lost power and Y S Jagan Mohan Reddy-led YSRCP won a landslide victory. Naidu's successor poured cold water on the Amaravati capital city plans and propounded a new theory of three capitals, which could now become a dead concept now that he has suffered a humiliating defeat in the 2024 polls, whereas Naidu is expected to take over as the CM soon.

The massive victory of the

NDA alliance of TDP, BJP and Janasena has injected new life into Amaravati, which is poised to see brisk activity.

While releasing the election manifesto on April 30 at his Andhra Pradesh residence in Undavalli, Naidu vowed that Amaravati will be developed as the capital city of the state. Talking to reporters, TDP General Secretary Nara Lokesh, who won from the Mangalagiri assembly segment, said on June 4 that the incoming government was committed to developing Amaravati as the single capital of the state.

TDP Spokesperson Jyothsna Tirunagari said that building Amaravati would be the first priority of the new government.

"Amaravati reconstruction is our first priority, there is no doubt about that. We have done a lot of development during our regime (2014-2019). After Jagan Mohan Reddy took over, in fact he destroyed everything and demolished most of the things," Tirunagari told PTI.

MNS candidate withdraws from fray for Maharashtra council elections

PTI ■ MUMBAI

Maharashtra Navnirman Sena (MNS) candidate Abhijeet Panse has withdrawn from the fray for the upcoming state legislative council election from the Konkan Graduates' constituency, a party leader said on Friday.

The party had last month announced filmmaker Panse's candidature for the legislative council elections slated to be held on June 26.

"Panse will not be in the fray from the Konkan Graduates' constituency," said party spokesperson Sandeep Deshpande.

The development comes after Maharashtra Deputy Chief Minister Devendra Fadnis met MNS chief Raj Thackeray last week. BJP MLC Niranjana Davkhare currently represents the constituency, and the party has renominated him.

The biennial elections to four legislative council seats — Mumbai Graduates, Konkan Graduates, Mumbai Teachers and Nashik Teachers — became necessary as the terms of sitting members are expiring in July.

The last date for filing the nominations is June 7. Voting will be held on June 26, and results will be declared on July 1.

The Maharashtra legislative council is a 78-member house. The Uddhav Thackeray-led Shiv Sena has named MLC Anil Parab and party functionary J M Abhyankar as candidates for the Mumbai Graduates' and Mumbai Teachers' constituencies, respectively, and the Congress has announced the candidature of Ramesh Keer from the Konkan Graduates' constituency.

The Shiv Sena has fielded Deepak Sawant from the Mumbai Graduates' constituency, while the BJP has fielded Kiran Shelar. The BJP is backing Shivnath Darade, the candidate of Maharashtra Rajya Shikshak

Parishad, for the Mumbai Teachers' constituency. The Mumbai Teachers, Mumbai Graduates and Nashik Teachers constituencies are currently represented by Kapil Patil of the JD(U), Vilas Potnis of the Shiv Sena (UBT) and independent MLC Kishore Darade, respectively.

Out of 78 seats in the legislative council, the Shiv Sena (undivided) has 11 members, NCP (undivided) 9, Congress 8, and BJP 22. The JD (U), Peasants and Workers Party, and Rashtriya Samaj Paksha have one member each, while four are Independents, and 21 seats are vacant.

CPI(M) shocked by BJP opening account in Kerala

KUMAR CHELLAPPAN ■ KOCHI

While Sitaram Yechury, the CPI(M) general secretary and Pinarayi Vijayan, the chief Minister, are upset over the victory of Suresh Gopi, the BJP candidate from Thrissur Lok Sabha constituency, the duo is silent about the mammoth wins registered by Muslim League from the constituencies of Malappuram and Ponnani. Suresh Gopi won by 75,000 votes relegating the Congress candidate K Muraleedharan to the third position.

Reacting to Suresh Gopi's victory, the first by a BJP candidate from Kerala in the State's electoral history, Yechury said it was an unfortunate development. Vijayan said in a statement that the BJP opening account in Kerala should be viewed seriously which means the coming months will see a rise in political murders in the State.

E T Mohammed Basheer, the Muslim League candidate who contested from Malappuram polled 6.44 lakh votes defeating his CPI(M) rival by more than 3,00,000 votes. Abdusamad Samadani, the Muslim League candidate at Ponnani won by a margin of 2,35, 760 votes. Interestingly, no candidates other than Muslims have won from these two constituencies.

Both the constituencies (known in local parlance as Kerala's Pakistan) have emerged as the monopoly of Muslim League despite the fact that there is no development of any kind in the region. "Wherever the Muslim community constitutes more than 10 per cent of the population, there is Muslim consolidation but the secular and liberal brigade are silent about this phenomenon," said a veteran political commentator.

Samadani hogged national limelight for the conversion of famous author Kamala Das from Sanatana Dharma to Islam. The Muslim League leader had promised to marry her if she got converted to Islam. The easily gullible Kamala Das believed him and got converted to Islam, changing her name to Kamala Surayya and started wearing burqa. After a month long honeymoon, Samadani cried off from the deal leaving Kamala Surayya high and dry. This was the first ever high

profile Love Jihad in the State. Kamala, shocked and shattered, left Kerala to stay with her youngest son at Pune and did not come back to the State while she was alive.

Though she had told her close friend Leela Menon, a nationally acclaimed journalist, that she was cheated by the lover and expressed her desire to get reconverted to Sanatana Dharma, that remained unfulfilled. There are thousands of Samadanis who have played the role of Romeos to trap Hindu girls by promising them heaven after marriage only to dump them as sex slaves in ISIS territories.

Mohammed Basheer, whose son was caught cheating a nationalised Bank in Kozhikode by not paying back loan worth hundreds of crores availed during the UPA regime (2004-2014) is another Islamic extremist. No persons other than Islamic Jihadis could win from these two constituencies and the 14 assembly constituencies that constitute them.

"The former parliamentarians, late Ibrahim Sulaiman Sait and late Ghulam Mohammed Banatwala visited these constituencies only for filing the nomination papers and this had earned them the title "migratory birds". The Muslim League is a constituent of the Congress-led UDF in the State while it is with INDI Alliance in the national politics. There are possibilities of the League switching over to the CPI(M) camp at the right time," said P Sujathan, author and political critic.

P Rajeev, CPI(M) leader and Kerala's industry minister had declared that Muslim League should have been allocated six Lok Sabha seats. "Had they been with us, the party would have won more seats," he had said. The religious demography of Kerala is so placed that only candidates who are at the mercy of Muslim community could dream of winning elections in the State.

Kangana Ranaut airport incident: Farmer outfits throw their weight behind CISF woman constable

PTI ■ CHANDIGARH

Some farmer outfits on Friday threw their weight behind the CISF woman constable who allegedly slapped actor and BJP MP-elect Kangana Ranaut, saying the entire sequence leading to the incident needs to be properly investigated.

Ranaut, in a video message, had on Thursday said she was hit in the face and abused by the constable during security check at the Chandigarh airport, the ugly fracas breaking out two days after she was elected to the Lok Sabha from Mandi in Himachal Pradesh.

The Samyukta Kisan Morcha (Non-Political) and the Kisan

Mazdoor Morcha were among the prominent outfits which said they stand in support of the Central Industrial Security Force (CISF) woman constable.

The constable, who appeared to be upset with Ranaut over her stance on the farmers' protests, has been suspended and an investigation has been launched. The CISF, tasked with providing security at airports, had also ordered a court of inquiry into the incident.

SKM (Non-Political) leader Jagjit Singh Dallewal and Kisan Mazdoor Sangharsh Committee general secretary Sarwan Singh Pandher said they will meet Punjab's Director General of Police

(DGP) Gaurav Yadav for a proper investigation into the matter.

"We will demand a proper investigation and we will tell him that there should be no

injustice with the woman constable," Dallewal said addressing a press conference here with Pandher and some other farmer leaders.

On June 9 in Mohali, an

"Insaaf march" to Mohali the senior superintendent of police's office will be taken out "to demand that no injustice be done in this case with the constable", he said.

In a video statement titled "Shocking rise in terror and violence in Punjab" posted on X after she landed in Delhi after the incident on Thursday, Ranaut said she was safe and fine.

The constable, Ranaut had said, came towards her from the side. "She hit me in the face and started abusing me. I asked her why she did it and she said she supports the farmer protests."

"I am safe but my concern is that terrorism and extremism are increasing in Punjab...

How do we handle that?", Ranaut had said.

Another video doing the rounds of social media had shown the agitated constable talking to people presumably after the incident.

"Kangana made a statement (earlier) that farmers were protesting in Delhi because they were paid Rs 100 or Rs 200. At the time, my mother was one of the protesters," she said in the purported video.

The brother of the constable on Thursday said they learnt about the incident through the media.

The constable's brother, who is based in Kapurthala, had said his sister has been in service for the past 15 years and had served at many places

including Kerala, Chennai and Amritsar.

Dallewal and Pandher said the constable's brother was active in farmer movements and was part of their organisation.

Farmer leader Sarwan Singh Pandher alleged that Ranaut had hurt sentiments with her comments against farmers, elderly women and Punjabis in the past.

Both Dallewal and Pandher lashed out at the actor for stating that terrorism was increasing in Punjab.

Dallewal said from various reports what they have come to know is that there was some argument from Ranaut's side during security check when her purse and mobile-phone was being put for checking.

If this is so, then the constable is not to be blamed, she was doing her duty, he said.

"And everyone knows the previous track record of Ranaut and the kind of language she has used towards farmers. There must have been an argument and the result of which must have led to the incident. All these things need proper investigation," he said.

Taking on Ranaut over her "terrorism" and "extremism" remark, Dallewal said, "In Punjab, communities of all faiths are peacefully co-existing. We demand that a case should be filed and courts should take suo motu cognisance of the wordings used by the BJP MP."

PAPER WITH PASSION

Balancing act

Regional allies driving a hard bargain will test Modi's skills in running a coalition Govt like never before

The BJP-led National Democratic Alliance (NDA) has emerged as the most potent coalition to form the next Government under the leadership of Narendra Modi. Central to its strength is the support of regional parties for maintaining a parliamentary majority. Nevertheless, the hard bargaining by these allies, though politically essential for them, affects the Government's policy formulation exercise and the nation's progress. The NDA's regional allies, such as the Chandrababu Naidu-led TDP, Nitish Kumar's Janata Dal (United) and others, are engaging in intense negotiations to secure their interests. The JD(U) has already demanded a special status for Bihar while Naidu has a long list of demands. Coalition Governments, by their very nature, are unstable and we have had a long history of coalitions that failed to complete their term. Regional parties serve as the voice of their respective States, advocating for localised interests that might otherwise be overlooked in the Union Government's broader agenda. This ensures a more inclusive approach to governance, reflecting the diverse needs and aspirations of different parts of the country. However, this hard bargaining can have several negative implications for policy making. The need to accommodate the diverse, and sometimes conflicting, demands of various regional partners can lead to fragmented policies. Instead of a coherent national strategy, policies may become a patchwork of compromises, weakening their overall impact. Prolonged negotiations and the need to achieve consensus among coalition partners can slow down the decision-making process.

No doubt coalition Governments have played a significant role in governance, especially in the 1990s. One of the most notable coalition Governments was led by Atal Bihari Vajpayee, who not only faced numerous challenges but also set a precedent for future coalition politics in India. Vajpayee's Government was an alliance of more than 20 parties, each with its agenda and demands. Managing such a diverse coalition required significant diplomatic skill and often led to compromises on policy decisions. Following the nuclear tests, India faced international sanctions, which posed a significant challenge to the economy. The Government had to navigate these sanctions while continuing to pursue economic growth and development. The Kargil conflict with Pakistan in 1999 was another major challenge for the Vajpayee Government. The conflict tested the Government's ability to manage national security issues while maintaining internal political stability. The Government's response to the 2002 riots was seen as inadequate by many, raising concerns about the coalition's ability to address communal harmony and human rights issues. It was only Vajpayee's leadership and statesmanship that pulled off a near-impossible feat and completed full term. It remains to be seen if Modi can do the same.

The general parliamentary Lok Sabha elections 2024 have been held smoothly in Punjab without any noticeable wave or enthusiasm in favour of any political party. There has been a mysterious silence among the people raising unpredictability and allowing every party to have high hopes on the one side but hold fear in their hearts. Most political parties except the CPI-CPIM had fielded their candidates in every constituency claiming for their victory on all the thirteen seats. The voting has been lower than in the previous elections and the current national voting percentage. There could not be alliances between the political parties because of their illusory hopes for their victory independently which pushed them into the game of engineering party-switch of the leaders. The long-time allies Shiromani Akali Dal (SAD) and Bhartiya Janta Party (BJP) fell apart and fielded independent candidates with the BJP importing its candidates from the state Congress top brass and Aam Admi Party (AAP) and Indian National Congress (INC), who are in alliance at the national level, could not agree on seat sharing and fielded their candidates in each constituency. Other political parties such as Bahujan Samaj

Punjab quietly yields surprising results

Punjab's voters remained uncharacteristically silent, leaving political parties hopeful yet uncertain about the election outcome, which ultimately did not favour any single party

SUKHDEV SINGH

Party (BSP) and Akali Dal (Maan), CPI-CPIM had also fielded their candidates. But the voters surprised most of them by electing seven congresses, three AAP, one SAD and two independent raw candidates. The ruling party in the state, the AAP, has won only three seats with a vote share of 26.02%, reduced from 42% in 2022 against its claim for all the thirteen in the state; it has managed to lead only in 32 assembly segments against its victory in 92 assembly constituencies in 2022 state assembly elections. Some of its candidates holding state government ministerial portfolios have trailed behind opponents in their assembly segments. All this is a matter of serious concern for the AAP to introspect. The ruling party in the Centre, the BJP, has not been able to win any seats though it was quite hopeful for their victory with a team of the top brass of the state Congress 'taken over' by it on its side. Of course, to its satisfaction, it has succeeded in raising its vote bank share to 18.56% and leading in 23 assembly segments. The Congress has won 7 seats and has gained the lead in 38 assembly segments against its victory only in 18 assembly

constituencies in 2022. It has succeeded in managing the vote share of 26.3%, winning seven out of 13 seats in this election despite the unexpected defection by almost all its senior leaders to the BJP and other parties. The two independent candidates who were neither very big leaders nor supported by any political party, have won by defeating the established leaders of established political parties by sizable margins. The voters of Punjab have spelt out that although they maintain their identities, their political and interpersonal behaviour is predominantly secular and prejudice-free. Although it is a fact that Punjab's population is majority Sikh and rural, its other population being 40% Hindu, one-third Dalit and other horizontal and social categories, it has distributed its representation neither based on religion, nor region and social hierarchies, but based on local issues of development. Secondly, in the absence of sound trust in the political class, its choice reflects a rejection of the other 'not chosen', who is or has been in power, rather than the choice itself. The voters in Punjab have painted their character and power by maintaining

THE VOTERS OF PUNJAB HAVE SPELT OUT THAT ALTHOUGH THEY MAINTAIN THEIR IDENTITIES, THEIR POLITICAL AND INTERPERSONAL BEHAVIOUR IS PREDOMINANTLY SECULAR AND PREJUDICE-FREE

silence before voting but exercising their power independently and wisely on the day of voting. They have rejected the dominant discourses of religion, caste and urban/rural polarization, the discourse of victimization justifying non-performance. They have voted for Congress on its promise of MSP for agricultural produce, a promise to pull agriculture out of distress since it is agriculture that is the spleen of Punjab's economy so far. Whether a Hindu or a Sikh, whether an urban or a rural person, whether an upper caste or a Dalit-everybody, as a part of their collective consciousness, understands the relevance of agriculture in the state. It has chosen independent candidates exercising their rejection of all others and expressing their sympathy for their 'condition' against the state power. Thus, their victory can be attributed to local sentiments and political dynamics rather than any other radical ideology influencing voter preferences. In fact, for them, it would be a difficult choice between the Congress and the BJP.

Overcoming child sexual abuse stigma

The profound and lasting impacts of child sexual abuse necessitate dismantling systemic barriers and fostering supportive environments

According to the latest National Crime Records Bureau (NCRB) data, 64,469 victims were reported in 2022 under the POCSO (Protection of Children from Sexual Offences) Act. Despite the alarming prevalence of reported cases of Child Sexual Abuse, it remains hidden behind layers of denial, silence, stigma and shame as the issue is deeply rooted in societal structures, such as patriarchy and gender bias, which often prioritize family honour and silence over confronting abuse. Research suggests that 90 per cent of the perpetrators are known to the child, such as family members, trusted neighbours, or teachers. These individuals often hold positions of trust and responsibility, making it even more challenging to address the issue. Child Sexual Abuse (CSA) is a serious issue that affects many individuals. Research highlights the profound and lasting impacts of CSA, including detrimental effects on mental health, emotional stability and social functioning, which can persist into

adulthood if not properly addressed. Addressing child sexual abuse requires dismantling these systemic barriers and promoting an open, supportive environment that prioritizes the well-being and rights of children. **Recognizing the Signs of Sexual Abuse:** Understanding the signs that a child may have been subjected to sexual abuse is the first step in addressing this grave issue. Sudden changes in behaviour can be indicative of underlying abuse. Children may exhibit a range of physical and emotional behavioural changes like: *Unexplained injuries or bruises in the genital or anal area. *Sudden changes in behaviour such as withdrawal, unusually quietness, aggression, or depression. *Nightmares or bedwetting. *Displaying knowledge or interest in sexual acts beyond

their age. *Avoidance of specific people or places. *Sudden decline in academic performance. These signs may vary depending on the child's age, personality and the nature of the abuse. It's essential to be alert to these changes and maintain open communication with a child, create a safe environment for disclosure and take any disclosure seriously. **Preventing The Abuse:** Preventing child sexual abuse (CSA) demands a collective effort where the responsibility doesn't solely fall on children. There are steps parents, caregivers and trusted adults can take to minimize the risk and empower their children in navigating this complex world. The stigma and shame attached to sex and sexuality often translate into not having open conversations with children and giving them the appropriate vocabulary to express such concerns. On one hand, it makes it difficult for them to articulate if they've experienced abuse and on the other it hinders prevention. It is important to start conver-

sations about body autonomy, boundaries and consent from an early age. Teaching children the proper names for their body parts and emphasizing the power of saying "no" to any touch that feels uncomfortable or unwanted is important. However, the onus of preventing CSA cannot and should not solely rest on the child. Building a foundation of open communication is equally essential from the parents' side. This is possible only when adults create a safe and nurturing environment where a child feels comfortable expressing any concerns or discomfort they may have. Adults must take responsibility for creating safe spaces and intervening when they suspect abuse may be occurring. Child sexual abuse shatters a child's sense of safety and trust. It can leave them feeling confused, ashamed and isolated. As a caregiver, the first step is to acknowledge the gravity of the situation. Recognising the abuse and validating their experience is crucial. (The writer is executive director, Sakshi- a rights-based NGO; views are personal)

SMITA BHARTI

MORE VOTERS BUT LOWER ENGAGEMENT

Madam — Apropos the news story "More voters but lower turnout in 2024, confirms EC," published on June 7, this is my response. As a daily newspaper reader, it's heartening to see the Election Commission lifting the model code of conduct following the announcement of election results and the beginning of government formation. The overall voter turnout in the 2024 Lok Sabha elections was 65.79 per cent, which, although slightly lower than 2019's 67.40 per cent, still indicates robust democratic engagement. Notably, the data reveal a significant surge in women voter participation, with a turnout of 64.72 per cent compared to men's 63.11 per cent. This trend is particularly pronounced in states like Himachal Pradesh, Jharkhand and Odisha, where women's turnout surpassed men's by notable margins. This increase in female voter engagement is a positive sign of growing political awareness and empowerment among women, which can lead to more inclusive governance. The turnout of the third gender, although low at 22.33 per cent, suggests there is still work to be done to ensure their full participation in the democratic process. Overall, these elections highlight the evolving dynamics of voter engagement in India, reflecting a more diverse and representative electorate. Ananya Sharma | Nashik

LETTERS TO THE EDITOR

Taiwan greets Modi, China fumes

Regarding the news story "China lodges protest with India over PM Modi's response to Taiwan President Lai's greetings on his poll victory," published on June 7, here are my thoughts. As a regular newspaper reader, the recent diplomatic spat between China and India over Prime Minister Narendra Modi's social media interaction with Taiwan President Lai Ching-te is quite intriguing. Modi's expression of enthusiasm

for strengthening ties with Taiwan, following Lai's congratulatory message, has irked China, which sees Taiwan as a breakaway province. China's swift protest underscores its sensitivity to any international recognition of Taiwan's sovereignty. The geopolitical chessboard in the Indo-Pacific region is complex and Modi's statement hints at India's potential shift towards deeper engagement with Taiwan, especially in trade and technology. This could be a strategic move to counterbalance China's growing influence. However, it also risks straining India-China relations, which have already been tense. China's insistence on the One China policy and its warning against Taiwan's "political calculations" highlight the delicate nature of this issue. As an observer, I see this as a significant moment that could reshape regional alliances and economic partnerships in the coming years. Kabir Patel | Rajkot

Sensex's impressive jump to 75,078.70 points and the NSE Nifty climbing to 22,799.50 signal a strong market reaction to Modi's impending third term as Prime Minister. The gains in companies like NTPC, State Bank of India and Tata Steel reflect a broader bullish sentiment, though some laggards like Hindustan Unilever and Nestle temper the overall enthusiasm. It's noteworthy that despite the positive domestic sentiment, Foreign Institutional Investors are still cautious, selling off equities amid high valuations in India compared to Chinese stocks. This juxtaposition of political stability and cautious foreign investment paints a complex but intriguing picture of the current market dynamics. Ishani Malhotra | Gwalior

EMBRACING SOCIAL WORK
Madam — Regarding the news story "Rejuvenating Indian social work, culturally," published on June 7, here are my thoughts. Every profession is unique and essential for societal growth and develop-

ment. Social work, however, carries an added responsibility - to serve people and communities, striving to uplift them. It involves working with people and their surroundings, considering external and internal factors simultaneously. Social work is not just about empathising with others' circumstances but also about reflecting on potential solutions and alternatives. In today's India, social work as a profession is emerging as one of the crucial sectors. Over the last decade, this profession has expanded its horizon and established itself across the country. It is encouraging to see a growing number of young professionals choosing this career path. India needs more such young minds and professionals who can work on the ground and formulate policies to address critical societal issues. However, it is essential to question whether we are truly fulfilling this need. Ishita Verma | Bhopal

COALITION GOVERNMENT AND DIPLOMACY

Recalibration of diplomatic priorities due to coalition compulsions is on the cards

KUMARDEEP BANERJEE

India has voted and the verdict is out. It has brought back the era of coalition governments, the pressures of alliance partners weighing in on key policy matters, back to India's polity after a decade. The era of robust, single-source decisions is most likely over and may not return for a decade. The voter's verdict will have long-reaching impact on India's foreign policy and diplomatic trajectory for a long time to come. The relations with the US which were nurtured by the Modi Government in the past decade and which have reached a certain stable platform, are unlikely to be disturbed. The technology partnership added to the existing trade partnership, has bipartisan support in Washington. This means in the eventuality of Trump returning to in the US, towards the year's end, it won't be a spoiler in India US bilateral relationship. India and the US have in the past, shown enough maturity in discussing sensitive issues, such as the alleged hit plan on India-designated terrorist G S Pannun, behind closed doors. Most US businesses operating in India may be relieved, with a coalition verdict, as it could, take away many concerns (expressed by their US-based colleagues behind closed doors) regarding the overreach by a PM, with a brute majority. They may be relieved to find several pockets of influence, with more alliance partners coming in the Government, weighing on crucial policy decisions. The US and global capital would feel safe in India as a market, as long as it is business as usual, no surprise protectionist regulations and there is a growth market. In a coalition government, with several checks and balances, the scope for unilateral decisions, is less likely. Also, as many experts mentioned to this author, the US would be happy to have a peaceful democratic ally in Asia, to counter

an aggressive China in the Indo-Pacific. Joint exercises, with Indian defence forces, sharing of crucial intelligence of strategic importance (even though India is not part of the five eyes network), sharing and empowering India on semiconductors, close co-creation of standards and regulations on critical and emerging technologies such as AI are not likely to be impacted. India and the US on plurilateral platforms such as QUAD, the I2U2 and on wider UN etc would not be impacted. However, pompous, state visits and hosting each other's leaders on a grand scale (reference Trump in 2019 and Indian PM state visit to the US in 2023) could move to more sober, away from the camera, diplomatic conversations. Despite an occasional criticism of India, by mainly US think tanks and policy experts, primarily on human rights, polarising speeches, freedom of speech and religion in India etc, there is bipartisan support for India and deep relations between the two nations and it is not likely to change. If the India-US civil nuclear deal proved to be the cause of a weak coalition government (due to the withdrawal of support by a crucial ally from the UPA government 1.0), there exist no such threats to the bilateral relationship currently. Even with a coalition Indian government at the centre. Washington and New Delhi have successfully managed to educate their senior lawmakers/politicians/think tanks/experts on either side of the aisle, regarding the strategic importance of the relationship. President Biden, even though faces occasional criticism from his party colleagues or pressure groups, regarding being a bit too lenient approach towards India on several issues, he understands the relevance of this relationship in the current context. There is likely to be a new Indian ambassador to the US (the former ambassador post-retirement unsuccessfully contested elections in 2024) in the next few months. The Indian ambassador to the US does most of the heavy lifting on building consensus across the aisle on several mutual bilateral issues. The choice of the next ambassador would be a space to watch out for.

Indian electorate ushers in a new political era

NILANTHA LANGAMUWA

By rejecting divisive politics and reducing the BJP's dominance, voters have endorsed a new era of coalition politics favouring regional and smaller parties

The outcomes of the recently concluded Indian Lok Sabha elections signal promise for the region, prompting nations to reconsider and reassess their democratic political frameworks. In a resounding declaration of democracy's resilience, the once seemingly invincible fortress of the Modi-Ka Parivar lies shattered. The echoes of this strong message from the public reverberate louder than the emotional sensationalism, resonating with the collective voice of a nation that has spoken unequivocally for the power of balance. Despite the relentless onslaught of propaganda and fervent efforts to manufacture public opinion, the Indian electorate has delivered a decisive blow, reclaiming their power and rejecting the facade of religious fervour masquerading as governance. Narendra Modi, the erstwhile political juggernaut, now stands at the precipice of his last tenure, his aspirations of perpetual rule dashed against the rocks of reality. His grandiose ambitions of global dominion and spiritual leadership lie in tatters, mere relics of a bygone era marked by hubris and delusion.

The BJP's significant loss, laid bare in the aftermath of the election, paints a stark portrait of defeat. With 92 seats lost out of their previous 303, including once impregnable strongholds in rural heartlands and urban bastions like Mumbai, the party finds itself relegated to the sidelines of political discourse. The myth of invincibility shattered, the BJP stands exposed, its veneer of infallibility stripped away to reveal the inherent flaws and fallacies of its governance model. The result also exposes the impact of heavy spending on AI-driven social media manipulation. Government agencies outspent political parties on Google ads leading up to India's national elections, with the BJP ranking second. This stark contrast in spending highlights the influence of advertising in shaping democratic norms, serving as a stark reminder of democracy's vulnerability to manipulation.

Yet amidst the debris of defeat lies the triumph of democracy. The people have spoken, their voices resonating with clarity and conviction, reaffirming their allegiance not to religious ideologies or cults of personality, but to the principles of democracy and secular governance. This electoral upheaval serves as a clarion call for change, a witness to the indomitable spirit of a nation that refuses to be swayed by divisive verbiage or empty promises. As the dust settles on the frontline of Indian politics, the narrative of triumph and victory spun by the BJP and its leader Narendra Modi stands starkly contrasted against the reality of their electoral performance. Despite Modi's impassioned spiel and grandiose claims of India's newfound global prominence, the truth remains irrefutable: the BJP's grip on power has weakened, its once impregnable fortress breached by the resolute will of the Indian electorate. The BJP's electoral arithmetic, touted as proof of its enduring popularity, belies a deeper truth of diminishing returns and waning support. While the party managed to retain a significant portion of its 2019 tally, the loss of 92 seats, coupled with the failure to secure the predicted landslide victory, exposes the chinks in its armour and the vulnerabilities lurking beneath the

surface of its facade.

Modi's campaign discourse has taken a sharp turn towards foreign affairs and diplomacy, perhaps as a tactic to deflect attention from his administration's domestic shortcomings. By emphasizing India's global ascendancy and economic strength, Modi aims to eclipse the harsh realities of mounting unemployment, economic disparity and social turmoil within the nation. Amidst his grandiose assertions of India's international accomplishments, including hosting global summits and economic growth, Modi's narrative conveniently obscures governance failures and policy deficiencies. Despite his celebrations of India's elevated global standing, the everyday struggles of citizens remain overshadowed by political oratory, highlighting a growing disparity between political narratives and lived experiences.

THE PEOPLE HAVE SPOKEN, THEIR VOICES RESONATING WITH CLARITY AND CONVICTION, REAFFIRMING THEIR ALLEGIANCE NOT TO RELIGIOUS IDEOLOGIES OR CULTS OF PERSONALITY, BUT TO THE PRINCIPLES OF DEMOCRACY AND SECULAR GOVERNANCE

Facing electoral setbacks and a reduced mandate, Modi and the BJP confront a populace increasingly demanding accountability and change. The rejection of empty promises signals a call for transparent, people-centric governance, underscoring the need for a political shift away from complacency towards accountability.

Modi's foreign policy rhetoric aligns with his domestic agenda, framing a narrative of "us-vs.-them" and emphasizing resolve against perceived threats like Pakistan and China, particularly in combating terrorism. Despite clashes with Pakistan and the 2020 China confrontation showcased as symbols of national strength, critics challenge Modi's response to Chinese aggression, while BJP members rally behind his assertive stance. Yet, beneath this facade, lie intricate geopolitical complexities and diplomatic hurdles. India's navigation among

global powers demands a nuanced approach, prioritizing national interests amidst turbulent international dynamics.

Accusations against the BJP for prioritising foreign affairs over domestic concerns challenge Modi's nationalist narrative, despite his claims of India's global ascendancy. Opposition voices condemn the party's erosion of democratic norms, yet Modi's firm stance resonates with many voters, reflecting a desire for a stronger international presence. However, mounting criticism of the BJP's handling of issues like inflation and unemployment casts doubt on its commitment to democracy. Recent electoral setbacks, notably in Uttar Pradesh, reveal deep-seated discontent, with opposition framing the BJP's governance as a threat to constitutional rights, leading to disillusionment among both critics and former supporters.

The symbolism of Ayodhya, from the demolition of the Babri mosque in 1992 to the consecration of the Ram temple in 2021, epitomizes the BJP's journey to power and its subsequent challenges. While Modi's imprint on Varanasi is undeniable, with infrastructure development projects transforming the city's landscape, the cost of progress has been the erosion of its unique identity, lamented by many locals.

The electoral panorama in Uttar Pradesh unveils a complex interplay of shifting loyalties and deep-rooted grievances, particularly within marginalized communities such as the Dalits. Despite Modi's enduring popularity, evidenced by his victory in Varanasi albeit with a notably reduced margin, the BJP's electoral fortunes have been tempered by various concerns, notably regarding constitutional rights and social equi-

ty. The BJP's ambitious electoral slogan, promising an overwhelming triumph, stirred apprehensions among the Dalit populace, raising fears of potential amendments to the constitution.

This apprehension, as the media reports asserted, stemming from the fear of diluting protections advocated by Bhimrao Ambedkar, prompted numerous Dalit voters to align with the opposition INDIA alliance, which adeptly mobilised a coalition of marginalised groups. Modi's language targeting Muslims as "infiltrators" further galvanised opposition to the BJP, particularly among Dalit and Muslim communities, despite the party's efforts to allay Dalit fears and disavow any intentions of rescinding their constitutional privileges. The electoral terrain in Uttar Pradesh reflects a shifting paradigm, with marginalized communities asserting their voices and demanding accountability from political incumbents.

The narrative of disillusionment and disenchantment highlights the intricate nature of Indian politics and the hurdles confronting the BJP as it navigates the evolving currents of public opinion. Despite facing electoral setbacks, the BJP remains a potent political force, positioned to forge the next government alongside its allies. However, the undercurrents of discontent and unmet assurances could potentially influence the trajectory of Indian politics in the years ahead. The resounding voice of the nation echoes: it's now up to the government, poised to lead for the next five years, to heed the lessons of tolerance spoken by the populace of the world's most populous country.

Soaring milk prices may hit affordability, health

Growth in the dairy industry necessitates ethical, accessible and safe milk production; without these, milk could become inaccessible to the general public

For ages, milk has been universally acknowledged as an excellent source of nutrition, especially for children. A good sign that milk & dairy production in our country is increasing fast. However, if the trend of consistently rising milk prices is not held up, it may be hard for the common man to afford it, thus impinging on the health of their family. Whole milk price of popular brands is presently hovering around Rs. 66 a litre. Nutritionists recommend routine intake of milk and its derivatives to maintain a balanced diet. So ironic that the legendary repository of milk, 'a country with rivers overflowing with milk' is now concerned with feeding safe milk to its people!

HARISH BARTHWAL

India has been consistently atop in milk production since 1997 and contributes about 25% to the global milk output. In 2023, India produced 231 million metric tonnes of milk with a decadal compound annual growth rate (CAGR) of 6%. More important than NITI Ayog's prediction of achieving the 300 million metric tonnes mark by 2030 is the need to ensure that this staple nutrition is accessible to

the countrymen at large. The fault lines must be identified and addressed in time. Beyond just a fluid secreted by the mammary glands of female mammals for nourishing their young ones, cow milk and cows are special to India, sacred and pure since the Vedic era. Along with its other holy derivatives like curd and ghee, it is a routine offering to Gods at religious observances particularly during Shivaratri and Nag Panchami festivals. To Hindus, the cow is sacrosanct, at par with Gods. As against other milch animals, buffalo, sheep, goats and camel, the cow is also a symbol of motherhood, fertility, prosperity, health and strength. It has had sanctity in other faiths as well. Egyptians

accorded cow the status of goddess of milk, 'Ita' due to its association with nurturing attributes. Among early Christians, milk was figuratively used for abundance, blessings, spiritual food and purity. Prophet Muhammad said, "The milk of the bovine (cow) contains healing, its fat is a medicine and its meat a cause for sickness." This is despite most milk in India being derived from buffalo, which is valued for its higher fat content and its use as a draught animal. In our country, 60% of the milk is produced by the unorganised sector, remaining 40% is from the organised sector, mostly dairy cooperatives and private players. However, the scenario is set to reverse and in a few years the milkman of

the unorganised sector may have to shift the profession for numerous reasons. For one, the city folks prefer value-added or packaged milk & dairy wrapped in pouches or packets made of LDPE, LLDPE, HDPE or EVA; cans and tetra packs. Admittedly, the products from the organised sector are superior; pasteurised (i.e. heating for a while up to 700C to minimise infection, then cooling) and sticking to certain quality specifications yet it has its pitfalls partly the deliberate ones. I recall the description of the Vijaya brand milk tetra pack of an Andhra Pradesh dairy in the early 80s while I was in Bhopal. It guaranteed freshness without refrigeration for up to six months in any ambient temperature - decades

after, we witnessed Amul, Britannia and other popular brands taking the cue. Mind that the milk in the pouch procured from the booth degenerates when heated just in 10 to 15 minutes, it is so delicate. There is more to tetra packs than tetrahedron texture to keep its non-degradability intact for long. It is toxic preservatives like formaldehyde and other additives in play to extend the shelf life of milk and its derivatives. Studies have already shown serious health consequences like food poisoning, gastrointestinal and cardiac issues, hepatic and renal failure and even cancer. It is like lethal insecticides being spread 400 times more than the permitted doses on maturing crops to avert food-

grain loss and ensure enhanced shelf life. Also, witness many popular desi ghee brands selling at Rs. 450 a litre while in villages it costs between Rs. 1200 to Rs. 2400 although dairy people confide that per kg cost of desi ghee is Rs. 500 to Rs. 600. Indian dairy business is incessantly growing at 4.5% annually. The organised milk sector is elated at the growing international and domestic demand and business prospects. Yet it must be monitored that the ethical aspects are not compromised and the domestic consumers are not taken for a ride. Fodder availability for large milch cattle, education & training and technology improvement are the other formidable issues in dairy to

be addressed. Our young ones also must be made to learn that saying no to milk is saying no to nutrition and that almond milk, soy milk, rice milk and coconut milk are poor substitutes. Amul Federation, the undisputed leader has planned expansion activity abroad and is targeting one Rs one lakh crore business now. Dairy supports the livelihoods of one billion people worldwide. As we celebrate Milk Day, an FAO initiative, to recognise the importance of milk as a global food let us not overlook that the common people are not deprived of this staple nutrition.

'Houthi rebels detain 9 UN staff in sudden crackdown'

AP ■ DUBAI

At least nine Yemeni employees of United Nations agencies have been detained by Yemen's Houthi rebels under unclear circumstances, authorities said Friday, as the rebels face increasing financial pressure and airstrikes from a US-led coalition. Others working for aid groups also likely have been taken.

The detentions come as the Houthis, who seized Yemen's capital nearly a decade ago and have been fighting a Saudi-led coalition since shortly after, have been targeting shipping throughout the Red Sea corridor over the Israel-Hamas war in the Gaza Strip. But while gaining more attention internationally, the secretive group has cracked down at dissent at home, including

recently sentencing 44 people to death.

Regional officials, speaking to The Associated Press on condition of anonymity as they were not authorised to brief journalists, confirmed the UN detentions. Those held include

The UN declined to immediately comment.

The Mayyun Organisation for Human Rights, which similarly identified the UN staffers held, named other aid groups whose employees were detained by the Houthis across four provinces the Houthis hold — Amran, Hodeida, Saada and Saana. Those groups did not immediately acknowledge the detentions.

"We condemn in the strongest terms this dangerous escalation, which constitutes a violation of the privileges and immunities of United Nations employees granted to them under international law, and we consider it to be oppressive, totalitarian, blackmailing practices to obtain political and economic gains," the organisation said in a statement.

Activists, lawyers and others

also began an open online letter, calling on the Houthis to immediately release those detained, because if they don't, it "helps isolate the country from the world."

Yemen's Houthi rebels and their affiliated media organisations did not immediately acknowledge the detentions. However, the Iranian-backed rebels planned for weekly mass demonstrations after noon prayers Friday, when Houthi officials typically speak on their actions. It's unclear what exactly sparked the detentions. However, it comes as the Houthis have faced issues with having enough currency to support the economy in areas they hold — something signalled by their move to introduce a new coin into the Yemeni currency, the riyal. Yemen's exiled government in Aden and other nations

criticised the move as the Houthis turning to counterfeiting. Aden authorities also have demanded all banks move their headquarters there.

"Internal tensions and conflicts could spiral out of control and lead Yemen into complete economic collapse," warned Yemeni journalist Mohammed Ali Thamer in an analysis published by the Carnegie Endowment for International Peace. Bloomberg separately reported Thursday that the US planned to further increase economic pressure on the Houthis by blocking their revenue sources, including a planned USD 1.5 billion Saudi payment to cover salaries for government employees in rebel-held territory. The war in Yemen has killed more than 150,000 people, including fighters and civil-

ians, and created one of the world's worst humanitarian disasters, killing tens of thousands more. The Houthis' attacks on shipping have helped deflect attention from their problems at home and the stalemated war. But they've faced increasing casualties and damage from US-led airstrikes targeting the group for months now. Thousands have been imprisoned by the Houthis during the war. An AP investigation found some detainees were scourched with acid, forced to hang from their wrists for weeks at a time or were beaten with batons. Meanwhile, the Houthis have employed child soldiers and indiscriminately laid mines in the conflict. The Houthis are members of Islam's minority Shiite Zaydi sect, which ruled northern Yemen for 1,000 years until 1962.

Sunak apologises for skipping D-Day ceremony

London (AP): British Prime Minister Rishi Sunak apologised on Friday for leaving D-Day commemorations in France early to return to the election campaign trail — a decision slammed as disgraceful by his political rivals. Sunak, who is fighting to keep his job in Britain's July 4 election, said that, "on reflection" the decision was a mistake.

Sunak was not alongside leaders including US President Joe Biden, French President Emmanuel Macron, German Chancellor Olaf Scholz and Ukrainian leader Volodymyr Zelenskyy for the major memorial event at Omaha Beach in Normandy on Thursday. Former Prime Minister David Cameron, who is now foreign minister, represented the UK. Labour Party leader Keir Starmer, the current favorite to win the election, attended and was pictured meeting Zelenskyy and other leaders. Sunak had earlier attended a ceremony at the British memorial in Normandy alongside King Charles III and surviving World War II veterans. He also attended a commemoration in Portsmouth, England, the day before. Sunak wrote on X, formerly Twitter, that the 80th anniversary of the Allied invasion that helped free Europe from the Nazis "should be about those who made the ultimate sacrifice for our country. The last thing I want is for the commemorations to be overshadowed by politics". He added: "On reflection, it was a mistake not to stay in France longer — and I apologise," he wrote.

The prime minister recorded an interview with broadcaster ITV on Thursday after returning from France, though he said that was not the reason he cut short his trip. Sunak insisted he "stuck to the itinerary" that had been laid out for him for D-Day weeks before he called the election. "On reflection it was a mistake not to stay longer and I've apologised for that, but I also don't think it's right to be political in the midst of D-Day commemorations," he said. "The focus should rightly be on the veterans and their service and sacrifice for our country." A clip released from the inter-

'Actions against Philippines in SCS threaten global security'

AP ■ MANILA

Sweden's defense chief has expressed alarm over Beijing's repeated dangerous maneuvers against Philippine vessels in the South China Sea, saying such actions threaten security, undermine stability and underscore the need to invest "for our security and freedom." Defense Minister Pål Jonson spoke Thursday night in a diplomatic reception in Manila for Sweden's national day after meeting his Philippine counterpart, Gilberto Teodoro Jr., on expanding defense relations. Sweden is one of the possible sources of supersonic fighter jets that the Philippines plans to acquire as its military shifts focus from decades of fighting communist and Muslim insurgencies to territorial defense.

"Let me express my deep concern on the repeated dangerous maneuvers against Philippines vessels that have been taking place in the West Philippine Sea and the South China Sea, Jonson said. He did not mention China in his speech but drew applause from an audience that included top Philippine military

and security officials and Western and Asian diplomats. Jonson used the name the Philippines has adopted for the stretch of waters called the exclusive economic zone extending from its western coast to the South China Sea, which Beijing claims virtually in its entirety and guarded closely with its coast guard, navy and other ships.

Confrontations between Chinese and Philippine government ships over two disputed shoals have flared alarmingly since last year, causing collisions. China's use of powerful water cannons had damaged Philippine vessels, injured several Filipino navy personnel, and strained diplomatic relations. Manila has filed diplomatic protests and publicized Chinese actions against the Philippine coast guard and navy vessels in an effort to gain international support.

"These acts put human lives at risk, they undermine regional stability and international law and they threaten the security in the region and beyond," Jonson said. "These are not only threats to your national security but threats to our common global

security?" The Philippines coast guard belatedly reported Friday that one of its high-speed boats was blocked and surrounded by Chinese coast guard vessels as it approached a Philippine territorial outpost in the Second Thomas Shoal on May 19 to get a sick Filipino military sailor from a navy boat deployed near the shoal outpost.

"Despite informing the Chinese coast guard via radio and public address system about the humanitarian nature of our mission for medical evacuation, they still engaged in dangerous maneuvers and even intentionally rammed the Philippine navy boat while transporting the sick personnel, the Philippine coast guard said.

Despite the dangerous blockings, the Philippine coast guard said the medical evacuation was carried out successfully. Chinese officials had no immediate comment on Jonson's remarks and the Philippine coast guard report, but in the past they have accused the Philippines of instigating the hostilities by repeatedly straying into what they say are Chinese territories.

'Fewer women, children died in Israeli strike on school than reported earlier'

AP ■ DEIR-AL-BALAH

The hospital where bodies were brought after an Israeli strike on a school-turned-shelter in the Gaza Strip has amended its records to show that fewer women and children were among those killed. The Israeli military says it carried out a precise strike early Thursday on three classrooms in the U.N.-run school where it says around 30 Palestinian militants were planning and orchestrating attacks. It said it has confirmed killing nine militants.

The Al-Aqsa Martyrs Hospital initially reported that nine women and 14 children were among 33 people killed in the strike on the school. The hospital morgue later amended those records to show that the dead included three women, nine children and 21 men. It was not immediately clear what caused the discrepancy.

An Israeli strike early Thursday on a school sheltering displaced Palestinians in central Gaza killed more than 30 people, including 23 women and children, according to local health

officials. The Israeli military said that Hamas militants were operating from within the school.

It was the latest instance of mass casualties among Palestinians trying to find refuge as Israel expands its offensive. A day earlier, the military announced a new ground and air assault in central Gaza, pursuing Hamas militants it says have regrouped there. Troops repeatedly have swept back into parts of the Gaza Strip they have previously invaded, underscoring the resilience of the militant group despite Israel's nearly eight-month onslaught. Witnesses and hospital officials said the predawn strike hit the Al-Sardi School, run by the United Nations agency for Palestinian refugees known by the acronym UNRWA. The school was filled with Palestinians who had fled Israeli operations and bombardment in northern Gaza, they said.

Ayman Rashed, a man displaced from Gaza City who was sheltering in the school, said the missiles hit classrooms on the second and third floor where families were sheltering. He said he helped carry out five dead,

including an old man and two children, one with his head shattered open. "It was dark, with no electricity, and we struggled to get out the victims," Rashed said.

Rear Adm. Daniel Hagari, the spokesman for the Israeli military, said it carried out a "precise strike" based on concrete intelligence that militants were planning and conducting attacks from inside three classrooms. He said only those rooms were attacked.

"We conducted the strike once our intelligence and surveillance indicated that there were no women or children inside the Hamas compound, inside those classrooms," he said.

Hagari said there were around 30 suspected militants in the three rooms. He said the military had confirmed killing nine of them, and displayed a slide showing their names and photos. He provided no other evidence to substantiate the military's claims. Casualties from the strike arrived at the Al-Aqsa Martyrs Hospital in nearby Deir al-Balah, which had already been overwhelmed by a stream of constant ambulances since the central Gaza

incursion began 24 hours earlier, said Omar al-Derawi, a photographer working for the hospital. Videos circulating online appeared to show several wounded people being treated on the floor of the hospital, a common scene in Gaza's overwhelmed medical wards. Electricity in much of the hospital is out because staff are rationing fuel supplies for the generator.

"You can't walk in the hospital — there's so many people. Women from the victims' families are massed in the hallways, crying," he said.

Hospital records and an Associated Press reporter at the hospital recorded at least 33 dead from the strike, including 14 children and nine women. Another strike on a house overnight killed six people, according to the records. Both strikes occurred in Nuseirat, one of several built-up refugee camps in Gaza dating to the 1948 war surrounding Israel's creation, when hundreds of thousands of Palestinians fled or were driven from their homes in what became the new state.

South African opp parties holding crunch talks on ANC's unity plan

AP ■ JOHANNESBURG

South African opposition parties were meeting Friday and will continue crunch talks into next week to consider the ruling African National Congress' offer to become part of a government of national unity.

ANC failed to secure a majority in last week's highly contested election, but some opposition parties are already rejecting the party's offer because of deep-seated divisions.

Senior officials of the main opposition Democratic Alliance, or DA, will meet on Monday to discuss the centrist party's approach to the negotiations. The top leadership of the leftist Economic Freedom Fighters, or EFF, party were holding talks on Friday.

Parties are under pressure to conclude negotiations and reach an agreement by June 16, because South Africa's constitution requires them to do so

within 14 days after the declaration of the election results.

South African President Cyril Ramaphosa, who is ANC leader, announced on Thursday that the party had decided to form a government of national unity and had invited all parties to join, a process that is expected to be complex considering vast divisions among the opposition parties themselves. Most of the opposition parties don't differ only with the ANC on various socioeconomic policies, but are also at extreme odds with each other on economic policies like land redistribution and affirmative action.

Opposition party ActionSA has already declared it won't be part of the negotiations, saying that it refuses to work with the ANC.

In what looks likely to be a government of national unity reminiscent of a path taken by the Nelson Mandela-led ANC after the country's first democratic

election in 1994, the party has decided to invite a myriad of opposition parties to be part of the government.

While Mandela insisted on a unity government despite the ANC having won by an overwhelming majority with nearly 63 per cent of the national vote, the ANC has been forced into the current situation by its worst electoral performance ever, dropping from the 57.5 per cent it got in the 2019 election to 40 per cent this year, a decline of 17.5 per cent. Shortly after Ramaphosa's announcement, the EFF's leader took to X to reject Ramaphosa's proposal of a government of national unity and accused the ANC of arrogance despite failing to win a majority.

The EFF is among the top five parties after the election with just over 9 per cent of the national vote, having declined from the 11 per cent it garnered in 2019 but is expected to

form a crucial part of the eventual outcome of the negotiations.

"The arrogance continues even after the South African voters issued warning signs. You can't dictate the way forward as if you have won elections," EFF leader Julius Malema said. "We are not desperate for anything, ours is a generational mission. We can't share power with the enemy," Malema said.

In 2023, DA declared the Economic Freedom Fighters as its No. 1 enemy. DA, which got just over 21 per cent of the national vote to remain the second-biggest party, said its highest decision-making body, the Federal Council, would meet on Monday to consider its options. "I can't say now what the position of the DA is, we have a whole negotiation team and we are meeting as the federal council on Monday. We will have a framework for negotiations that we will release this

weekend," Democratic Alliance federal chairperson Helen Zille said Friday.

The fifth-biggest party with nearly 4 per cent of the national vote, the Inkatha Freedom Party, on Friday expressed willingness to be part of the government of national unity, but was also set to discuss the matter with its party structures over the next few days.

"In principle, the IFP is not averse to a GNU (government of national unity). However, the devil is in the details, which will become clearer in the coming days ... enabling the IFP to make a well-considered decision," IFP spokesman Mkhuleko Hlengwa said. The uMkhonto weSizwe Party led by former President Jacob Zuma, who left the ANC, was the latest to enter the negotiations, with the party confirming on Thursday that it had begun talks with the ANC after initially failing to respond to the party's invitation.

SNP leader John Swinney, centre, and parliamentary candidate Chris Stephens, right, are shown the kitchens during their visit to the Glasgow Gurdwara, while on the General Election campaign trail, in Glasgow, Scotland, Friday. AP/PTI

Boeing's astronaut capsule arrives at space station after thruster trouble

AP ■ CAPE CANAVERA

Boeing's new capsule arrived at the International Space Station on Thursday, delayed by last-minute thruster trouble that almost derailed the docking for this first test flight with astronauts. The 260-mile-high (420-kilometer-high) linkup over the Indian Ocean culminated more than a day of continuing drama for Boeing's astronaut flight debut carrying NASA test pilots Butch Wilmore and Suni Williams.

Boeing plans to keep Starliner at the space station for at least eight days before guiding it to a landing in the western US. "Nice to be attached to the big city in the sky," Wilmore said once the hooks between the two spacecraft were tight.

Williams entered the space station first, dancing on the way in to music. Wilmore followed, snapping his fingers. They embraced the seven space station residents. "It was such a great welcome,

a little dance party," said Williams. "That's the way to get things going." The Starliner capsule already had one small helium leak when it rocketed into orbit with two NASA astronauts Wednesday. Boeing and NASA managers were confident they could manage the propulsion system despite the problem and that more leaks were unlikely. But just hours into the flight, two more leaks cropped up and another was discovered after docking. Later, five of the capsule's 28 thrusters went down. The

astronauts managed to restart four of them, providing enough safety margin to proceed. By then, Starliner had passed up the first docking opportunity and circled the world for an extra hour alongside the station before moving in. The thrusters problems were unrelated to the helium leaks, NASA's commercial crew program manager Steve Stich said after the docking. Going forward in the flight, "we have some tools in our tool kit to manage this," Stich said. Earlier in the day, before the thrusters malfunctioned, offi-

cialists stressed that the helium leaks posed no safety issues for the astronauts or the mission. Helium is used to pressurize the fuel lines of Starliner's thrusters, which are essential for maneuvering. Before liftoff, engineers devised a plan to work around any additional leaks in the system. A faulty rubber seal, no bigger than a shirt button, is believed responsible for the original leak. Boeing program manager Mark Nappi said there should be plenty of helium in reserve for the trip home.

After the space shuttles retired, NASA hired Boeing and SpaceX to ferry astronauts to and from the space station. SpaceX's taxi service began in 2020. Boeing was supposed to start around the same time, but was held up for years by safety concerns and other troubles. Stich said none of the problems so far would require a repeat of an astronaut test flight before certifying the capsule for regular use.

Records tumble in US as temp soar well into triple digits and 122 in Death Valley

AP ■ RENO

Records tumbled across the Southwest United States as temperatures soared past 110 degrees Fahrenheit (43 degrees Celsius) from southeast California to Arizona, where the region's first heat wave of the year was expected to maintain its grip for at least another day. Although the official start of summer is still two weeks away, roughly half of Arizona and Nevada were under an excessive heat alert, which the National Weather Service said it was extending until Friday evening. The heat alert for Las Vegas was extended through Saturday. "It's so hot," said Eleanor Wallace, 9, who was visiting Phoenix from northern Utah Thursday on a hike celebrating her birthday with her mother, Megan Wallace. The National Weather Service in Phoenix, where the new record high of 113 F (45 C) on

Thursday leap-frogged the old mark of 111 F (44 C) set in 2016, called the conditions "dangerously hot."

There were no immediate reports of any heat-related deaths or serious injuries. But at a campaign rally for presumptive Republican presidential nominee Donald Trump in Phoenix, 11 people fell ill from heat exhaustion by late afternoon and were taken to the hospital, where they were treated and released, fire officials said. And in Las Vegas, with a new record of 111 (43.8 C) Thursday that also equaled the earliest time of year the high reached at least 110 (43.3 C), the Clark County Fire Department said it had responded to at least 12 calls for heat exposure since mid-night Wednesday. Nine of those calls resulted in a patient needing hospital treatment.

Several other areas of Arizona, California and Nevada also broke records by a degree or

two, including Death Valley National Park with a record high for the date of 122 (50 C) topping the 121 (49.4 C) dating to 1996 in the desert that sits 194 feet (59 meters) below sea level near the California-Nevada line. Records there date to 1911. The heat has arrived weeks earlier than usual even in places farther to the north at higher elevations — areas typically a dozen degrees cooler. That includes Reno, where the normal high of 81 F (27 C) for this time of year soared to a record 98 F (37 C) on Thursday. Records there date to 1888.

The National Weather Service forecast mild cooling region-wide this weekend, but only by a few degrees. In central and southern Arizona, that will still mean triple-digit highs, even up to 110 F (43 C). On Thursday in Phoenix, the unseasonably hot weather did not prevent Oscar Tomasio of Cleveland, Ohio, from propos-

ing to his girlfriend, Megan McCracken, as they sweltered to the peak of a trail on Camelback Mountain with 3 liters of water each in tow.

"It was a grueling hike," Tomasio told The Associated Press. "It was extra hot, so we started extra early."

"The views were beautiful. We didn't make it quite to the top because she was a little nervous with the heat," he said. "So, I proposed to her when the sun rose."

McCracken confirmed they'd planned a sunrise hike and awoke about 5 a.m. in an effort to beat the heat and an impending closure of the trail. "Probably not early enough," she said. Megan Wallace, mother of the birthday girl from Utah who also came packing water bottles, said: "We started just a few minutes after 6 and it's like we came prepared, but we got through all of our water and it was hot — was hotter than we're used to."

‘Russia’s economy growing despite heavy sanctions’

ST. PETERSBURG
President Vladimir Putin said on Friday that the Russian economy is growing despite heavy international sanctions and the country has expanded economic ties with countries in Africa, the Middle East and Asia, as he sought to court investors. Addressing the leaders of Bolivia and Zimbabwe and business leaders at the St. Petersburg International Economic Forum, Putin said Russia “remains one of the key participants in world trade”, despite the fact that the country is under sweeping sanctions for sending troops in Ukraine. The forum has been used by Russia for decades as a showcase for touting the country’s development, though Western officials and investors have steered clear of the session since sanctions cut off much of Russia’s trade with Western Europe, the US and their allies. The main driver

ver of Russia’s economic growth is the fighting in Ukraine — now as important to the Kremlin economically as it is politically. Russians are finding a few

Russians, with massive state spending for military equipment and hefty payments to volunteer soldiers giving a strong boost to the economy. Putin has heavily controlled his media appearances since sending his forces into Ukraine but he took questions Wednesday from international journalists, including some from Western countries he has criticized, on the sidelines of the forum. At that meeting, Putin warned that Russia could provide long-range weapons to others to strike Western targets in response to NATO allies allowing Ukraine to use their arms to attack Russian territory. He also reaffirmed Moscow’s readiness to use nuclear weapons if it sees a threat to its sovereignty. Last year, journalists from countries that Russia regards as unfriendly — including the US, the UK and the European Union — were not invited to the forum.

4 Indian medical students drown in St. Petersburg

PTI ■ MOSCOW
Four Indian medical students drowned when they entered a fast-flowing river near St Petersburg in Russia, authorities said on Friday, in the worst tragedy to hit the Indian student community in the country. The four students from Maharashtra — Harshad Anant Rao Desale, Jishan Ashpak Pinjari, Jia Firoj Pinjari and Malik Gulamgous Mohammad Yakub, were studying at the Novgorod State University in Veliky Novgorod city. A fifth student, Nisha Bhupesh Sonawane, was rescued. The Ministry of External Affairs in New Delhi termed it an unfortunate incident. “Four Indian students who were studying at the Yaroslav-the-Wise Novgorod State University located in Veliky Novgorod, Russia, drowned in an unfortunate incident in the Volkhov river. In the incident, a fifth Indian student was saved from drowning and is presently receiving medical attention,” it said.

US to send new \$225 mn aid package to Ukraine: Officials

AP ■ WASHINGTON
The new aid package comes as President Joe Biden used his speech Thursday at the American cemetery in Normandy on the 80th anniversary of D-Day to vow that the U.S. “will not walk away” from the defence of Ukraine and allow Russia to threaten more of Europe. To do so, he said, would mean the U.S. has forgotten “what happened here on these hallowed beaches.” Biden is expected to meet with Ukrainian President Volodymyr Zelenskyy in Paris on Friday. On Wednesday, a Western official and a U.S. senator said Ukraine has used U.S. weapons to strike inside Russia. And a June 3 report from the Institute for the Study of War suggests that Ukrainian forces used a HIMARS system to strike a Russian S-300/400 air defense battery in the Belgorod region in recent days. The new aid package is being provided through presidential drawdown authority, which pulls systems and munitions

from existing U.S. stockpiles so they can go quickly to the war front. Officials said the aid package also includes missiles for the HAWK air defense system, Stinger anti-aircraft missiles, Javelin and AT-4 anti-armour systems, 155mm Howitzers, armoured vehicles, trailers, patrol boats, demolition materials and a wide range of other spare parts and equipment. Ukrainian officials have pressed the U.S. to allow Kyiv’s forces to conduct operations against attacks originating from Russian territory. Kharkiv, Ukraine’s second-largest city, sits just 20 kilometers (12 miles) from the Russian border and has come under intensified Russian attack. In response to NATO allies allowing Ukraine to use their arms to attack Russian territory, Russian President Vladimir Putin warned on Wednesday that Russia could provide long-range weapons to others to strike Western targets.

Biden apologises to Zelenskyy

PARIS
US President Joe Biden on Friday for the first time publicly apologised to Ukraine for a monthlong congressional holdup in American military assistance that let Russia make gains on the battlefield. Biden met in Paris with Ukrainian President Volodymyr Zelenskyy, who appealed for bipartisan US support going forward “like it was during World War II.” A day earlier, the two had attended ceremonies marking the 80th anniversary of the D-Day landings in Normandy, where Biden had drawn common cause between the allied forces that helped free Europe from Nazi Germany and today’s effort to support Ukraine against Russia’s invasion and Zelenskyy had been greeted with a rapt ovation. “I apologise for those weeks of not knowing what’s going to happen in terms of funding,” Biden said, referring to the six-month holdup by conservative Republicans in Congress to a \$61 billion military aid package for Ukraine. Still, the Democratic president insisted that the American people were standing by Ukraine for the long haul. “We’re still in. Completely. Thoroughly,” he said. The apology — and Zelenskyy’s plea for rock-solid support akin to the allied coalition in WWII — served as a reminder that for all of Biden’s talk of an unflagging U.S. commitment to Ukraine, recalcitrance among congressional Republicans and an isolationist strain in American politics have exposed its fragility. And, although unremarked upon, the specter of Donald Trump’s candidacy

loomed over the discussion, as the Republican former president and the presumptive nominee has spoken positively of Russian President Vladimir Putin and sparked Ukrainian concerns that he would call for it to cede territory to end the conflict. Zelenskyy pressed for all Americans to support his country’s defense against Russia’s invasion, and he thanked lawmakers for eventually coming together to approve the weapons package, which has allowed Ukraine to stem Russian advances in recent weeks. “It’s very important that in this unity, United States of America, all American people stay with Ukraine like it was during World War II,” Zelenskyy said. “How the United States helped to save human lives, to save Europe. And we count on your continuing support in standing with us shoulder to shoulder.” The United States is by far Kyiv’s biggest supplier of wartime support, and Ukraine is trying to fend off an intense Russian offensive in eastern areas of the country. The push is focused on the Ukrainian border regions of Kharkiv and Donetsk, but Ukrainian officials say it could spread as Russia’s bigger army seeks to make its advantage tell. The offensive is seeking to exploit Kyiv’s shortages of ammunition and troops along the roughly 1,000-kilometer (620-mile) front line. The slow pace of delivery of pledged Western weaponry has long frustrated Zelenskyy, as has Biden’s hesitation over supplying more hardware for fear of provoking Russian aggression. Ukraine depicts its fight against the Kremlin’s forces as a clash between Western

The U.S. will send about \$225 million in military aid to Ukraine, Biden announced Friday. The latest package includes munitions for the High Mobility Artillery Rocket System, or HIMARS, as well as mortar systems and an array of artillery rounds, U.S. officials said Thursday. A Ukrainian strike on its partially-occupied Luhansk region using U.S.-made ATACMS missiles killed three people and injured 35 others Friday, local Moscow-appointed authorities said. Biden cast the additional aid in his meeting with Zelenskyy as money to “reconstruct the electric grid” in Ukraine, a reference aide said was to additional air defense and missile defense systems in the new package. Easing their stance amid Russia’s most recent onslaught and with Ukraine’s army reeling, some NATO allies including the U.S. said last week they would allow Ukraine to use weapons they deliver to Kyiv to carry out limited attacks inside Russia. That step brought a furious response from the Kremlin, which warned that Europe’s biggest conflict since World War II could spin out of control. Biden and Zelenskyy attended the anniversary events of D-Day in Normandy, northern France, on Thursday, along with European leaders who have supported Kyiv’s efforts in the war. Biden pledged “we will not walk away” from Ukraine, drawing a direct line from the fight to liberate Europe from Nazi domination to today’s war against Russian aggression. Ukraine depicts its fight against the Kremlin’s forces as a clash between Western

democratic freedom and Russian tyranny. Russia says it is defending itself against a menacing eastward expansion of the NATO military alliance. In a 20-minute speech Friday at the National Assembly, the lower house of the French parliament, Zelenskyy drew a parallel with the sacrifices made during World War II and his country’s current fight. “This battle is a crossroads,” Zelenskyy said. “A moment where we can now write history the way we need it. Or we can become victims of history as it suits... our enemy.” Zelenskyy, who spoke in Ukrainian, was frequently interrupted by lawmakers’ applause and cheers. He prompted a standing ovation when he said in French: “Dear France, I thank you for standing by our side as we defend life.” French President Emmanuel Macron, meanwhile, announced late Thursday that France will provide Ukraine with its Mirage combat aircraft. Macron has been a vocal supporter of Ukraine. He said in February that putting Western troops on the ground in Ukraine is not “ruled out.” Zelenskyy began a day of meetings in Paris with an official welcome ceremony at the golden-domed Invalides monument, site of Napoleon’s tomb. During the day, Zelenskyy skipped a scheduled visit to the Nexter arms manufacturer in Versailles, which makes the Caesar self-propelled howitzers that are among the weapons provided by France to Kyiv’s forces. He went instead to France’s military headquarters with defense manufacturers, and his delegation signed defense agreements.

China’s exports grow 7.6%, despite trade tensions

HONG KONG
China’s exports in May grew at their fastest pace in more than a year despite trade tensions, though imports fell short of analyst expectations, according to customs data released on Friday. Exports jumped 7.6 per cent in May from the same month last year to USD 302.35 billion, rising at the fastest pace since April 2023. Imports rose by 1.8 per cent to USD 219.73 billion, missing estimates of about 4 per cent growth. The uptick in exports is also partly due to a lower base in the same period last year, when exports declined 7.5 per cent. In comparison, exports grew by 1.5 per cent in April compared with the same period last year, while April imports rose by 8.4 per cent. The strong exports caused China’s trade surplus to widen to USD 82.62 billion, up from April’s USD 72.35 billion. The growth in exports comes as China faces escalated trade tensions with the US and Europe. The US is ramping up tariffs on Chinese-made electric cars while Europe is considering levying similar tariffs. Tariffs are unlikely to immediately threaten exports; if anything, they may boost exports at the margin as firms speed up shipments to front-run the duties,” said Zichun Huang of Capital Economics in a note.

Huang also said that exports would be supported by a weaker real effective exchange rate. “Import volumes were little changed last month, but they will probably rise soon, with increased government spending supporting the import-intensive construction sector,” she said. The 10 nations of the Association of Southeast Asian Nations remained the largest destination for Chinese products, with exports to ASEAN growing 9.7 per cent from year-on-year in the January to May period to USD 50.83 billion. Exports to the US grew just 0.2 per cent in the January through May period compared with the same time last year, while shipments to the European Union declined, slipping 3.9 per cent year-on-year. Steel, automobiles, home appliances and ships have been the fastest growing categories of Chinese exports this year. Automobiles have climbed at the fastest rate, with China exporting 2.4 million vehicles in

the first five months of the year, up 26.8 per cent compared with the same period last year. China is facing accusations from the US and the European Union of overproducing and flooding overseas markets with cheap electric vehicles. Both have worked to impose tariffs on such vehicles. Meanwhile, China is also concerned that duties imposed on its EVs would reduce exports amid weakening demand at home. Lynn Song of ING Economics said that should tariffs on Chinese strategic exports and automobiles be aggressive, there is “potential for retaliation and escalation of trade friction.” “We remain cautious about the trade outlook for the second half of the year and expect its contribution to growth to decline,” Song said.

China & Pak vow to protect CPEC from ‘adversaries’

ISLAMABAD/BEIJING
Pakistan and China on Friday vowed to protect the China-Pakistan Economic Corridor (CPEC) from its “detractors and adversaries”, as Prime Minister Shehbaz Sharif met his Chinese counterpart Li Qiang and assured Beijing of providing complete security to Chinese personnel working on the USD 65 billion project. Sharif is currently on a visit to China at the invitation of President Xi Jinping, seeking to upgrade cooperation under the multi-billion dollar China-Pakistan Economic Corridor (CPEC), a key part of Beijing’s Belt and Road Initiative. In a statement, the Pakistan Prime Minister’s Office said during the meeting, the two sides discussed the significance of Gwadar as an important pillar of the CPEC and agreed to expedite the timely completion of all related infrastructure projects to transform Gwadar in Balochistan province into a regional economic hub. “They also expressed their firm commitment to protect CPEC from its detractors and adversaries and to upgrade

CPEC in the form of enhanced cooperation,” the statement said. The two leaders reaffirmed unwavering support for each other on core issues and expressed continued commitment and support for the high-quality development of the CPEC, Geo News reported. They also emphasised the timely completion of all ongoing projects with a special focus on industrial development, agriculture modernisation, Science & Technology and the development of Special Economic Zones for mutually beneficial and socio-economic development of Pakistan. Sharif also reaffirmed Pakistan’s unflinching resolve to ensure the safety and security of Chinese personnel and projects in Pakistan. Chinese investment and financial support since 2013 have been key for the South Asian nation’s struggling economy, including the rolling over of loans so that Islamabad can meet external financing needs at a time when foreign reserves are critically low.

PPGCL
PRAYAGRAJ POWER GENERATION COMPANY LIMITED

Regd Office: Shatabdi Bhawan, B12 & 13, Sector 4, Gauram Budh Nagar, Noida, Uttar Pradesh-201301

RBI keeps interest rates unchanged; policy committee more divided

PTI ■ MUMBAI

The Reserve Bank of India (RBI) left its key interest rates unchanged on Friday as expected, keeping the focus on inflation amid robust economic growth that is likely to provide the new Modi government headroom for manoeuvring reforms. The Monetary Policy Committee, consisting of three RBI and an equal number of external members, kept the repo rate unchanged at 6.50 per cent for an eighth straight policy meeting and stuck to its relatively hawkish stance of “withdrawal of accommodation”, Governor Shaktikanta Das said in his statement. However, there were signs of a more divided policy committee, with one additional member voting for a softening in stance as well as policy direction. Two external members, Ashima Goyal and Jayanth Varma, voted for a

cut, compared to one in the previous meeting. The decision comes just days ahead of Narendra Modi assuming the office of the Prime Minister of India for the third straight time but with a smaller-than-expected election victory that forced his party BJP to share power in a coalition government. The slim majority, according to global rating agencies, may delay more far-reaching elements of economic and fiscal reforms like land and labour, and impede progress on fiscal consolidation. With the Indian economy, Asia's third-largest, growing faster than expected in the previous year, the RBI raised its GDP growth projection for the current fiscal through March 2025 to 7.2 per cent from 7 per cent while maintaining its inflation forecast at 4.5 per cent. India's real GDP grew by 8.2 per cent in the 2023-24 (April

2023 to March 2024) fiscal year, while inflation was 4.83 per cent in April, above the RBI's target. The FY24 growth was helped by a faster-than-expected pace of 7.8 per cent in the March quarter. Das said while the MPC took note of the disinflation achieved so far without hurting growth, it remains vigilant to any upside risks to

would set strong foundations for a period of high growth.” The RBI, he said, will continue to be nimble and flexible in its liquidity management through fine-tuning operations in repo and reverse repo. “We will deploy an appropriate mix of instruments to modulate both frictional and durable liquidity so as to ensure that money market interest rates evolve in an orderly manner, which preserves financial stability.” The governor hinted that the RBI may be willing to move before the US Federal Reserve pivots a rate cut, saying the central bank's monetary policy actions are determined by domestic growth and inflation conditions. “I'd like to unambiguously state while we do keep a watch on whether clouds are building up or clearing out in the distance horizons, we play the game according to the

local weather pitch conditions,” he said. Commenting on the MPC decisions, Radhika Rao, Executive Director and Senior Economist, DBS Bank, said there were signs of a more divided policy committee, with one additional member voting for a softening in stance. “The majority retained their cautious stance to guide inflation towards the 4 per cent target on a durable basis, despite recent signs of disinflation.” The MPC also signalled that they will not react to the upcoming base-effect-driven correction in inflation in 2Q FY25, lowering the probability of a shift in 2H 24. In all, the mix of strong growth and above-target inflation does not make a case for a shift to a less restrictive policy setting yet, validating our view that rate easing is not on the cards this year. Political developments are not expected to sway the

monetary policy direction or outlook,” she said. Suman Chowdhury, Chief Economist and Head-Research, Acuite Ratings & Research said there were no surprises in the RBI decision. “The RBI has continued to reaffirm its commitment to sustainable disinflation and price stability without providing any indication on the monetary policy pivot. The central bank would continue to watch out for any upward risks in food inflation in the near term, despite the forecast of an ‘above normal’ monsoon. Further, it may also monitor the revised upcoming Union Budget to track the possible increases in welfare spend and its potential impact on inflation, although the high RBI dividend of Rs 2.1 trillion will mitigate the potential risks for now.” On liquidity, Chowdhury said the high dividend of Rs 2.1 lakh crore by the RBI to the

government has been positive for short-term interest rates. “But we expect the RBI to calibrate system liquidity appropriately and facilitate better monetary transmission through absorption of any excessive liquidity portion that may arise after the restart of government spending and the expected inflows from debt FPIs amidst India's inclusion in the JPM bond indices.” Given the tone of the MPC statement and the expectation of stronger domestic growth, there is a low likelihood of any rate cut by the RBI in the current calendar year, he added. Among other decisions, the RBI raised the bulk deposit limit to Rs 3 crore from Rs 2 crore currently and allowed the inclusion of payments like replenishment of balances in Fastag in e-mandates for recurring payments as well as automatically replenishing UPI Lite wallets.

RBI raises GDP growth projection to 7.2 per cent for FY25

PTI ■ MUMBAI

The Reserve Bank of India on Friday revised upwards the GDP growth projection for the current fiscal to 7.2 per cent from 7 per cent on rising private consumption and revival of demand in rural areas. Unveiling the bi-monthly monetary policy, RBI Governor Shaktikanta Das said estimates released by the National Statistical Office (NSO) placed India's real gross domestic product (GDP) growth at 8.2 per cent in 2023-24.

growth for 2024-25 is projected at 7.2 per cent with Q1 at 7.3 per cent, Q2 at 7.2 per cent, Q3 at 7.3 per cent, and Q4 at 7.2 per cent. The risks are evenly balanced,” Das said. He also emphasised that the healthy balance sheets of banks and corporates, the government's continued thrust on capex, high capacity utilisation, and business optimism augur well for investment activity. External demand should get a fillip from improving prospects of global trade, the governor said. The developments relating to growth and inflation are unfolding as per “our expectations”, he noted. When the projected GDP growth of 7.2 per cent for 2024-25 materialises, it will be the fourth consecutive year with growth at or above 7 per cent. On global economic growth, Das said the growth is sustaining its momentum in 2024 and is likely to remain resilient, supported by a rebound in global trade.

Also, global inflation is easing, but the final leg of this disinflation journey may be tough. Central banks remain steadfast and data-dependent in their fight against inflation. Market expectations regarding the timing and pace of interest rate cuts are also changing with incoming data and central bank communication, the governor said. “There is a view that in matters of monetary policy, the Reserve Bank is guided by the principle of ‘follow the Fed’.” “I would like to unambiguously state that while we do keep a watch on whether clouds are building up or clearing out in the distant horizon, we play the game according to the local weather and pitch conditions,” Das said. In other words, he said, “While we do consider the impact of monetary policy in advanced economies on Indian markets, our actions are primarily determined by domestic growth-inflation conditions and the outlook”.

Sensex, Nifty hit all time closing high levels

PTI ■ MUMBAI

Benchmark equity indices Sensex and Nifty climbed over 2 per cent to settle at record closing high levels on Friday after the Reserve Bank of India (RBI) revised upwards the GDP growth projection to 7.2 per cent for 2024-25 from 7 per cent earlier. The 30-share BSE Sensex jumped 1,720.8 points, or 2.29 per cent, to hit a new record peak of 76,795.31 in day trade. The benchmark ended at 76,693.36, up 1,618.85 points, or 2.16 per cent. The NSE Nifty climbed 498.8 points, or 2.18 per cent, to 23,320.0 during the day and is just 18.5 points from hitting its record high level. It settled with a jump of 468.75 points, or 2.05 per cent, at 23,290.15.

IT and interest rate-sensitive bank, realty, and auto stocks ended with sharp gains. The RBI left its key interest rates unchanged on Friday as expected, keeping the focus on inflation amid robust economic growth that is likely to provide the new Modi government headroom for manoeuvring reforms. The Monetary Policy Committee, consisting of three RBI and an equal number of external members, kept the repo rate unchanged at 6.50 per cent for an eighth straight policy meeting and stuck to its relatively hawkish stance of “withdrawal of accommodation”, Governor Shaktikanta Das said in his statement. With the Indian economy, Asia's third-largest, growing faster than expected in the previous year, the RBI raised

its GDP growth projection for the current fiscal through March 2025 to 7.2 per cent from 7 per cent while maintaining its inflation forecast at 4.5 per cent. “The anticipation of stability within the coalition government at the centre, coupled with the RBI's upward revision of its growth forecast for FY25 to 7.2 per

Mahindra, Bharti Airtel, Infosys and Tata Steel emerging as the biggest gainers. In Asian markets, Seoul, and Shanghai settled with gains while Tokyo and Hong Kong ended lower. European markets were trading lower. US markets ended on a mixed note on Thursday. Global oil benchmark Brent crude climbed 0.04 per cent to USD 79.95 a barrel. Foreign Institutional Investors (FIIs) offloaded equities worth Rs 6,867.72 crore on Thursday, according to exchange data. Regaining the 75,000 level, the BSE benchmark jumped 692.27 points, or 0.93 per cent, to settle at 75,074.51 on Thursday. The Nifty climbed 201.05 points, or 0.89 per cent, to 22,821.40.

RBI brings 100 metric gold reserve from UK to India; nothing more should be read into it: Das

PTI ■ MUMBAI

The Reserve Bank of India has brought 100 metric tonnes of gold reserve from the UK to India as there is enough domestic storage capacity, and nothing more should be read into it, Governor Shaktikanta Das said on Friday. The RBI moved 100 metric tonnes of its gold stored in the UK to domestic vaults in FY24. This is one of the biggest movements of gold undertaken by the country since 1991, when pledging a substantial part of the gold holding to tide over a foreign exchange crisis resulted in its movement out of vaults. The quantum of gold stored outside was static for a long time, Reserve Bank of India Governor Das said here. “In recent years, the data shows that the Reserve Bank is buying gold as a part of its reserves, and the quantum was going up. We have domestic (storage) capacity,” he said. Therefore, it was decided to move part of the reserve outside India to be stored within the country, he said, adding, “That's it. Nothing more should be read into it.” The country's overall gold holding increased by 27.46

metric tonnes in FY24, and it stands at 822 metric tonnes, as per official data. A substantial part of the precious commodity is stored abroad, the sources said, adding that India also had its holding with the Bank of England like other countries. The movement of 100 metric tonnes into India has taken the overall quantity stored locally to over 408 metric tonnes of gold, which means the local and foreign holding is now split almost evenly. As per the annual report of the central bank for FY24 released last month, over 308 metric tonnes of gold is held in India as backing for notes issued, while another 100.28 tonnes is held locally as an asset of the banking department. Of the overall gold reserves, 413.79 metric tonnes are held abroad, the annual report said.

Sebi recognised for innovative regulatory practices

PTI ■ NEW DELHI

Sebi has been given ‘Best SConduct of Business Regulator’ award in Asia Pacific by The Asian Banker for its role in enhancing the regulatory framework for securities markets in India. The award was received by Sebi's Whole Time Member Kamlesh Chandra Varshney in a ceremony held in Hong Kong. “This authority (Sebi) has been actively working towards instantaneous settlement. In 2021, T+1 settlement was introduced in a phased manner, which was fully implemented from January 2023. This move has provided investors with faster access to their funds following trade execution and settlement, enhancing market efficiency and liquidity,” The Asian Banker said in a statement. Through rigorous enforcement and innovative regulatory practices, Sebi has significantly improved the conduct of business in the country's financial markets, it added.

India's strong growth leading to trend of reverse flipping for startups

PTI ■ NEW DELHI

India's strong growth is leading to a trend of ‘reverse flipping’ as domestic startups that once used to move abroad for capital access and tax benefits are now returning home, a top government official has said. Commerce Secretary Sunil Barthwal also said that the digital economy along with emerging technologies like AI and the rise of data centres were key to future Indian growth. He was speaking at an event in Singapore organised by the commerce ministry to showcase various investment opportunities in India. It was organised on the sidelines of the inaugural Indo-Pacific Economic Framework for Prosperity (IPEF) Clean Economy Investor Forum in Singapore. Barthwal stressed how India's growth rate is nearly double that of other emerging market economies. “He remarked on how this strong growth is also leading to a trend of ‘reverse flipping’, where Indian startups that

once moved abroad for capital access and tax benefits are now returning home,” the ministry said in a statement on Friday. India's economy grew by 8.2 per cent in the fiscal year that ended in March 2024, cementing the country's position as the fastest-growing major economy in the world. The country has over one lakh government-recognised startups. The meeting attracted more than 60 participants, including global investors from the US, Singapore, Japan, Australia, Korea, and other countries, as well as India's private sector and government officials. The event brought together

investors and financial institutions from IPEF Member countries like those of Temasek, Global Infrastructure Partners, GuarantCo, Private Infrastructure Development Group (PIDG), Goldman Sachs, I Squared Capital, Mizuho Bank Ltd, Advantage Partners, Nomura, DBS Bank and Citi Bank. The Indo-Pacific Economic Framework for Prosperity (IPEF) was launched in May 2022 and currently includes 14 partners — Australia, Brunei Darussalam, Fiji, India, Indonesia, Japan, the Republic of Korea, Malaysia, New Zealand, Philippines, Singapore, Thailand, the US and Vietnam.

Saudia Group keen to offer MRO services for Indian airlines

PTI ■ NEW DELHI

Saudia Group is keen to increase the number of flights connecting Saudi Arabia and India as well as provide MRO services to Indian carriers. Saudia Airlines, part of the group, currently operates 54 weekly flights connecting seven destinations in India, including Delhi, Mumbai and Hyderabad. An executive of the group said on Thursday it has also set up a Maintenance, Repair and Overhaul (MRO) facility in Saudi Arabia and is keen to provide MRO services for the aircraft of Indian carriers. The facility will be fully operational next year. Around 1.5 million tourists from India visited Saudi Arabia last year and expectations are that the count will rise to 7.5 million by 2030, Saudia Group Director General Ibrahim Alomari said.

Speaking at the CAPA India Aviation Summit 2024, he said the group will increase the frequencies of flights between Saudi Arabia and India and want Indian airlines to increase their flights. “We need to work together,” he said while mentioning about Indian and Saudi carriers. Meanwhile, Riyadh Air is set to be launched next year with its hub in Riyadh. The group had discussions with Air India about the MRO village, which can accommodate 48 aircraft at a time. The MRO village can do the work for A320 and B787 planes as well as for LEAP engines. It will also have the assembly lines for Brazil's plane maker Embraer and Italy's helicopter manufacturer Leonardo, according to Saudia Group's GM Corporate Communication and Media Affairs Abdullah M Alshahrani.

Navigate financial market dynamics with HDFC Multi Asset Fund

PNS ■ MUMBAI

Investors often fall prey to recency bias, a tendency to favour asset classes that have recently performed well. This inclination can lead to chasing momentum and making investment decisions at inopportune times. Given the unpredictable nature of market and the varying performance of asset classes across economic cycles, attempting to time the market becomes challenging. Hence, a prudent strategy involves diversification across negatively correlated or less correlated asset classes. HDFC Multi-Asset Fund emerges as a dynamic choice, offering investors a pathway that aims towards balanced growth and stability. Crafted for those seeking long-term capital appreciation and

income generation, HDFC Multi-Asset Fund presents an avenue for investment across diverse asset classes. The Multi-Asset Allocation Funds are particularly well-suited for investors aiming to diversify their portfolios and manage risk effectively, they not only help in mitigating portfolio volatility but also reduce reliance on any single asset class for generating returns. With a strategic allocation to equity, debt, and gold-related instruments, the fund aligns with the goal of achieving better returns while mitigating volatility. By seamlessly blending growth opportunities with risk management, HDFC Multi-Asset Fund positions itself as a good option for investors navigating the financial landscape with prudence and foresight.

China's exports grow 7.6 per cent in May

AP ■ HONG KONG

China's exports in May grew at their fastest pace in more than a year despite trade tensions, though imports fell short of analyst expectations, according to customs data released on Friday. Exports jumped 7.6 per cent in May from the same month last year to USD 302.35 billion, rising at the fastest pace since April 2023. Imports rose by 1.8 per cent to USD 219.73 billion, missing estimates of about 4 per cent growth. The uptick in exports is also partly due to a lower base in the same period last year, when exports declined 7.5 per cent. In comparison, exports grew by 1.5 per cent in April compared with the same period last year, while April imports rose by 8.4 per cent. The strong exports caused

China's trade surplus to widen to USD 82.62 billion, up from April's USD 72.35 billion. The growth in exports comes as China faces escalated trade tensions with the US and Europe. The US is ramping up tariffs on Chinese-made electric cars while Europe is considering levying similar tariffs. “Foreign tariffs are unlikely to immediately threaten exports; if anything, they may boost exports at the margin as firms speed up shipments to front-run the duties,” said Zichun Huang of Capital Economics in a note. Huang also said that exports would be supported by a weaker real effective exchange rate. “Import volumes were little changed last month, but they will probably rise soon, with increased government spending supporting the

import-intensive construction sector,” she said. The 10 nations of the Association of Southeast Asian Nations remained the largest destination for Chinese products, with exports to ASEAN growing 9.7 per cent in May year-on-year to USD 50.83 billion. Exports to the US grew just 0.2 per cent in May compared with the same time last year, while shipments to the European Union declined, slipping 3.9 per cent year-on-year. Steel, automobiles, home appliances and ships were the fastest growing categories of Chinese exports. Automobiles climbed at the fastest rate, with China exporting 569,000 cars at a growth rate of 26.8 per cent compared with the same time last year.

ENGLAND EYE IMPROVED BOWLING EFFORT TO HALT FORMIDABLE AUSSIES

PTI ■ BRIDGETOWN (BARBADOS)

Defending champions England will look to restitch their T20 World Cup campaign through an improved bowling effort when they face 'old' rival Australia in a Group B match here on Saturday. England's opening game against Scotland was rained off after the latter made 90 for no loss in 10 overs, forcing the teams to take home a point each. But even those 60 balls showed the need for England to buckle up in the bowling department, to begin with. Scottish openers George Munsey and Michael Jones scored freely against all England bowlers, and Australia carry far more lethal guns in their line-up. David Warner and Marcus Stoinis showed the extent of damage they can do while outclassing Oman in their tournament opener. Once again, there will be a lot of focus on Jofra Archer, who gave away 12 runs in two overs against Scotland, as the pacer continues his comeback trail into top-flight cricket. But bowling is just one part, as the English batters under

skipper Jos Buttler, who had a good run in the IPL 2024, will have to fire in unison against the Aussie attack. The Australian bowlers were potent against Oman even without Pat Cummins, who had a reasonable outing for Sunrisers Hyderabad in the IPL. Nathan Ellis played ahead of Cummins in that game, but Australia might bring back the premier pacer against a much more formidable opponent. While Australia's batting looks settled, the misfiring Glenn Maxwell remains a missing link. After enduring a shipwreck of an IPL campaign with Royal Challengers Bengaluru recently, the 'Big Show' got out for a first-ball duck against Oman. The 2021 champions will be eager to see Maxwell return to his best at the earliest, and a match against England offers him a perfect occasion.

TEAMS (FROM):
Australia: Mitchell Marsh (c), Ashton Agar, Pat Cummins, Tim David, Nathan Ellis, Cameron Green, Josh Hazlewood, Travis Head, Josh Inglis, Glenn Maxwell, Mitchell Starc, Marcus Stoinis,

Matthew Wade, David Warner, Adam Zampa. Travelling Reserves: Jake Fraser-McGurk, Matt Short.
England: Jos Buttler (c), Moeen Ali, Jofra Archer, Jonathan Bairstow, Harry Brook, Sam Curran, Ben Duckett, Tom Hartley, Will Jacks, Chris Jordan, Liam Livingstone, Adil Rashid, Phil Salt, Reece Topley, Mark Wood.
Match starts at 10.30 PM IST.

SA FACE COURAGEOUS DUTCH: South Africa might have trotted past Sri Lanka in their first match, but they have a tricky opponent in Netherlands in their second group D match in New York on Saturday. The scars from their 38-run loss against the Dutch in last year's 50-over World Cup might still be fresh in the minds of the Proteas. The Aiden Markram-led side

would certainly want a reversal this time around. The most encouraging signal from their win over Sri Lanka was the form of Anrich Nortje. The pacer, who was a shadow of his intimidating self in the IPL, seemed to have regained his rhythm on a spicy New York pitch while grabbing four wickets against the Islanders. Along with Kagiso Rabada,

SA FACE NETHERLANDS

Nortje forms a strong combination upfront, and SA will require them in full flight against Netherlands, who started with a six-wicket win over Nepal. They also ticked a few boxes in that match as frontline batter Max O'Dowd made a fifty while leading pacers Tim Pringle and Logan van Beek took three wickets apiece. The Dutch side will be

hoping for another clinical outing from their top players to bruise their fancied opponent once more.

TEAMS (FROM):
South Africa: Aiden Markram (c), Otttniel Baartman, Gerald Coetzee, Quinton de Kock, Bjorn Fortuin, Reeza Hendricks, Marco Jansen, Heinrich Klaasen, Keshav Maharaj, David Miller, Anrich Nortje,

Kagiso Rabada, Ryan Rickelton, Tabraiz Shamsi, Tristan Stubbs.
Netherlands: Scott Edwards (c), Aryan Dutt, Bas de Leede, Kyle Klein, Logan van Beek, Max O'Dowd, Michael Levitt, Paul van Meekeren, Ryan Klein, Saqib Zulfiqar, Sybrand Engelbrecht, Teja Nidamanuru, Tim Pringle, Vikram Singh, Viv Kingma, Wesley Barresi. Travelling reserve: Ryan Klein.

New Zealand face Afghanistan test

PTI ■ PROVIDENCE (GUYANA)

New Zealand will have no room for complacency when they begin the T20 World Cup campaign against a gutsy Afghanistan side full of IPL stars in a Group C fixture here on Saturday. New Zealand find themselves in a difficult group with two-time champions West Indies and Afghanistan also vying for the top two spots. With rain restricting their training sessions, New Zealand's preparation for the marquee event have been less than ideal. Additionally, they take on Afghanistan and West Indies in their opening two games. Come Saturday, Kane Williamson and Co. Will have to get the better of a side that is not only warmed up but has also registered a morale-boosting win and know the conditions here well. However, New Zealand's strength in ICC events has been their adaptability, they always manage to turn up, reaching the latter stages, And with a wealth of experience as well as an exuberance of youth in the likes of Finn Allen and Rachin Ravindra in the side, they will be expected to get past the Afghans.

On paper, New Zealand have all bases covered, they have depth in batting and variety in bowling. Trent Boult will look dominate with the new ball, with Lockie Ferguson and Tim Southee complementing him. Left-arm spinner Mitchell Santner has a phenomenal record in the Caribbean, averaging under 17 with the ball at an economy of 5.5 and he will be look to outsmart the Afghans. Meanwhile, Afghanistan secured a thumping victory over Uganda in their opener. If the opening duo of Rahmanullah Gurbaz and Ibrahim Zadran provided the team a great start with the bat, pacers Fazalhaq Farooqi, Naveen-ul-Haq, and skipper Rashid Khan exhibited exceptional prowess with the ball. But apart form Gurbaz and Zadran none of the other batters manage to stick around and against a formidable Kiwi side, they will need to do better.

TEAMS (FROM):
New Zealand: Kane Williamson (c), Finn Allen, Trent Boult, Michael Bracewell, Mark Chapman, Devon Conway, Lockie Ferguson, Matt Henry, Daryl Mitchell, Jimmy Neesham, Glenn Phillips, Rachin

SRI LANKA TAKE ON BANGLADESH

Ravindra, Mitchell Santner, Ish Sodhi, Tim Southee.
Afghanistan: Rashid Khan (c), Rahmanullah Gurbaz, Ibrahim Zadran, Azmatullah Omarzai, Najibullah Zadran, Mohammad Ishaq, Mohammad Nabi, Gulbadin Naib, Karim Janat, Nangyal Kharoti, Mujeeb Ur Rahman, Noor Ahmad, Naveen-ul-Haq, Fazalhaq Farooqi, Fareed Ahmad Malik. Reserves: Sediq Atal, Hazratullah Zazai, Saleem Safi.
Match starts 5am IST

defending 77 against South Africa and the Islanders would fancy their chances against an out of form Bangladesh side. Bangladesh have struggled in the shortest format this year. The have had series losses against Sri Lanka and USA. They were handed a comprehensive defeat by India in their warm up game as well.

TEAMS (FROM):
Sri Lanka: Wanindu Hasaranga (c), Charith Asalanka, Kusal Mendis, Pathum Nissanka, Kamindu Mendis, Sadeera Samarawickrama, Angelo Mathews, Dasun Shanaka, Dhananjaya De Silva, Maheesh Theekshana, Dushmantha Chameera, Nuwan Thushara, Matheesha Pathirana, Dilshan Madushanka. Travelling Reserves: Asitha Fernando, Vijayakanth Vijayakanth, Bhanuka Rajapaksa, Janith Liyanage.
Bangladesh: Najmul Hossain Shanto (c), Taskin Ahmed, Litton Das, Soumya Sarkar, Tanzid Hasan Tamim, Shakib Al Hasan, Tawhid Hridoy, Mahmud Ullah Riyad, Jaker Ali Anik, Tanvir Islam, Shak Mahedi Hasan, Rishad Hossain, Mustafizur Rahman, Shoriful Islam, Tanzim Hasan Sakib. Travelling reserves: Afif Hossain, Hasan Mahmud.

SRI LANKA-BANGLADESH RENEW RIVALRY: In Dallas, Sri Lanka and Bangladesh will renew their rivalry in a bid to improve their chances to reach the Super Eights. Group D or the 'Group of Death' features three full members — South Africa, Sri Lanka, Bangladesh — the Netherlands, who are capable of pulling of upset wins and Nepal. And wins and margin of victories could play a vital role towards the end of the group stage. Sri Lanka will have to bounce back from their crushing defeat to South Africa in their opener. Their batters will be expected to show better shot selection and greater match awareness. The bowlers did well while

Newcomers USA record historic win over Pakistan in T20 World Cup

PTI ■ DALLAS (USA)

Newcomers USA on Thursday shocked former champions Pakistan via the Super Over to record their biggest win in a T20 World Cup match that reflected the shambolic state of affairs in the Asian giants' cricket. The result was reminiscent of Pakistan's three-wicket loss to Ireland in the 2007 ODI World Cup in the West Indies, which knocked them out of that tournament. USA thus jumped to the top of

Group A with two wins from as many games ahead of the clash against India. USA had defeated Canada by seven wickets in their opener. Opting to field, left-arm spinner Nosthush Kenjige scalped three wickets for 30 runs as Pakistan found it difficult to press the accelerator and were restricted to 159 for seven. While chasing, USA ended on the same score, reaching 159 for 3 with skipper Monank Patel (50 off 38), Aaron Jones (36 not out of 26) and Andries

Gous (35 off 26) leading from the front. In the Super Over bowled by Mohammad Amir, USA piled up 18 runs, eight of which came from extras. Saurabh Netravalkar then kept his cool and bowled brilliantly to give away just 13 runs for a famous win. In another embarrassment for Pakistan, they took longer time than usual to come out to bat in the Super Over, keeping the USA fielders waiting and getting the on-field umpires involved.

Earlier, USA's decision to bowl first worked as Mohammad Rizwan was dismissed in the second over, caught by Steven Taylor off Netravalkar (2/18). USA started their chase on a bright note, scoring 44 runs in the powerplay. Patel led from the front as he played his shots to pick up consecutive boundaries off Shaheen Shah Afridi in the fourth over. Naseem Shah gave Pakistan the first breakthrough when Taylor nicked one to Mohammad Rizwan behind the stumps.

Pressure was on Pakistan, knew crowd support will backfire on them: USA skipper Patel

PTI ■ DALLAS

After scripting a win for the ages against Pakistan, USA captain Monank Patel said his team did not feel any pressure during the nerve-racking Super Over as the crowd was mostly behind Babar Azam's men, which ended up backfiring on the visiting side in their T20 World Cup clash here. Patel made a composed 50 as co-hosts USA shocked 2009 champions Pakistan via Super Over here on Thursday. "I thought we should have finished the game (in regular time) and we should have never gone to Super Over. I mean the way we kept our nerves...and in the Super Over particularly, scoring 18 runs gave us a big upper hand to defend the target," Patel

said in the post-match press conference. So, what was the talk inside the team huddle at that crucial juncture? Were there any queasy stomachs? "In the huddle we talked about - there's no pressure for us. All the pressure is in front of Pakistan. We knew that we didn't have enough support from the crowd. Pakistan had more support from the crowd. "I thought it will backfire on them, and if we play good cricket, they'll be more under pressure," said Patel. Patel, who was born in Anand, Gujarat, said his side bowled brilliantly in the Power Play segment and kept Pakistan batters on a tight leash. "The way we bowled in the first six overs, I felt we didn't give them enough

opportunity to score runs and we kept them under more pressure and it helped us," he said. Patel said USA were always in the game once they restricted Pakistan to 159. "The plan was to win the toss and bowl first. We knew the initial first half an hour would help pace bowlers and the way we kept them quiet and took the crucial wickets in the power play, it helped really well. "And yeah, 160 on this wicket with one side short boundary,

I felt we were always in the game," he explained. The home side threw a surprise by handing the responsibility of bowling the Super Over to Saurabh Netravalkar instead of the more pedigreed Ali Khan. But the left-arm pacer successfully defended 18 runs to guide his side to a memorable victory. "The plan was we wanted to make sure that we utilise the condition. The condition was left-arm bowler bowling cutters and wide yorkers from left-arm over. "Ali Khan usually hits the stump and we wanted to make sure that we make them play outside the off-stump. And as a left-hander, the angle helps it. Saurabh had a good day, and I backed Saurabh, and yeah, that was the decision," he explained.
