# Ajit led NCP demands 5 per cent quota for Muslims in education in Maharashtra

### T N RAGHUNATHA MUMBAI

Within days after the BJP-led National Democratic Alliance (NDA) government assumed office at the Centre, a senior leader of the Ajit-led NCP — which is a part of the NDA — on Tuesday upped the ante on the reservations issue and demanded 5 per cent quota to Muslims in education as passed by the Bombay High Court.

Alluding to the Chandrababu Naidu-led TDP, another con-stituent of the NDA, Maharashtra NCP vice president Saleem Sarang wondered: "If Telugu Desam Party (TDP) can declare a 4 per cent reservation to Muslims in Andhra Pradesh, what is stopping Maharashtra government from implementing the 5 per cent reservation to Muslims in education which

has been allowed by the High Court?

Making a strong case for "polit-ical reservations" to Muslims, Sarang said in a message put out "X": "Muslims vote but they don't get an opportunity to be voted! We could see a steep decline in Muslim candidacy by almost all the parties. Is this a conspiracy to keep Muslims deliberately away from political leadership? It seems along with

Court.-

educational reservation, Muslims must demand political reservation as well" In a statement released to the

media separately in the run-up to the Maharashtra Assembly polls to be held in October this year, Sarang said: "None of the big parties fielded any Muslim candidate. There is not a single Muslim MP from Maharashtra. There is not a single Muslim minister in the Narendra Modi

government". Sarang — whose party NCP (Ajit Pawar) is one of the three constituents in the Eknath Shindeled MahaYuti government in Maharashtra -- said that the Maharashtra government had not yet implemented the 5 percent reservation in education for the Muslim community approved by the Bombay High

"When the erstwhile Democratic Front government comprising Congress and undivided NCP was in power, the reservations had been extended to Muslims," Sarang said.

"In matters relating to education, the Muslim community is still backward due to economic constraints and figures speaks for themselves. As many as 75 per-cent of children aged six to 14 miss out on education within the first few years of school. Only two to three per cent of children receive higher education," Sarang said.

Maintaining that the proportion of Muslims below the poverty line was also high, Sarang said: "Drug addiction and criminality are increasing among uneducated, unemployed Muslim youth. The root cause of all this is education".

# Modi 3.0: Women in **Council of Ministers** four less than 2.0

### ARCHANA JYOTI NEW DELHI

The Narendra Modi 3.0 Council of Ministers consists of 72 members, featuring seven women, two of whom hold Cabinet rank-Nirmala Sitharaman and Annpurna Devi. This is a decrease of four women compared to the out-

going council of Ministers. Those dropped from the council include former Union Minister Smriti Irani, Minister of State Bharti Pawar, Sadhvi Niranjan Jyoti, Darshana Jardosh, Meenakshi Lekhi, and Pratima Bhoumik.

Jyoti, Jardosh, Lekhi, and Bhoumik were not fielded by the BJP in the recently concluded Lok Sabha elections while Irani and Pawar lost their seats in Amethi and

Dandori, respectively.

Nirmala Sitharaman, a Rajya Sabha MP who is again in the Cabinet, has previously held significant portfolios such as finance and defence while Annpurna Devi, a two-time Koderma (Jharkhand) MP, has been promoted from the Minister of State rank to a cabinet minister position, having served as the junior minister for education in the previous government.

Several areas in Delhi faced a power outage at around 2 pm on Tuesday. Power outages for long hours were reported on Tuesday afternoon from most parts of the city like ITO, Laxmi Nagar, Lajpat Nagar, Jamia, Narela, Model Town, Rohini, Gopalpur, Sabzi Mandi, Wazirpur and Kashmiri Gate. Power discom officials said several areas, largely in central and east Delhi, were affected due to the failure. Some areas in north Delhi also faced outages. "Areas likely Civil Lines, Model Town, Kashmiri Gate, Gulabi Bagh, Shakti Nagar and Vijay Nagar in North Delhi faced outages. The supply was resumed within an hour," said a discom official. He said the power supply of LG House and

Chief Minister's residence was also briefly affected. While the city Government blamed the outage on a fire at the sub-station in Mandola,

sources said a power generation unit owned by the Delhi Government also faced a snag, indicating two versions of the power failure in some areas of Delhi.

As a matter of fact, both Pragati Maidan power station and Mandola sub-station tripped almost simultaneously. The reason can be ascertained only technical after the investigation.

However, the power outage and the ruling Government blaming the BJP ruled neighbouring State is likely to further escalate the already strained relation between the and the Centre-AAP appointed Lt Governor of Delhi, VK Saxena, who are already locked in a feud for acute water crisis.

## Nadda in From Page 1

Despite its overwhelming win in the 2019 Lok Sabha polls, the BJP suffered several defeats in Assembly polls since 2018, except in Haryana where it formed а Government in an alliance with the Jannayak Janta Party. Notably, during Nadda's tenure, Assembly elections took place in 29 States and Union Territories. Of them, BJP came to power in 16 States at a strike rate of 50 per cent. This include Haryana (2019), Bihar (2020), Assam and Puducherry (2021), Goa, Uttarakhand, Manipur and Gujarat (2022), Tripura, Chhattisgarh, Nagaland, Pradesh Madhya and Rajasthan (2023), and Arunachal Pradesh, Odisha and Andhra Pradesh this year.

The losses that the BJP faced were in Maharashtra, Jharkhand (2019), Delhi

## PREETAM SRIVASTAVA

Rahul Gandhi, in a fiery address at a thanksgiving rally in Raebareli on Tuesday evening, targeted Prime Minister Narendra Modi, claiming that Modi narrowly escaped defeat in Ayodhya. Rahul said if his sister, Priyanka Gandhi, had contested from Varanasi, Modi would have lost that seat as well. He said Priyanka might have won by a margin of over 2 to 3 lakh voters. "Modi and Shah were playing with the foundation of the nation, hence the nation united against them in this election. For the first time, I saw that the Prime Minister of the country is doing politics of violence, spreading hatred amongst the public, and extending benefits to three industrialists," said Rahul. The rally saw the presence of KL Sharma, who defeated Union Minister Smriti Irani in Amethi. The venue for the rally was shifted from Amethi to Raebareli only on Monday morning. Highlighting the BJP's loss in Ayodhya, Rahul remarked, "You all saw that they lost the Ayodhya seat. The temple was built in Avodhya, but they did not invite any poor people to its inauguration. They even barred the President of India from attending. Not only in Ayodhya, but even in Varanasi, the Prime Minister somehow survived a near-certain defeat. If my sister Priyanka had contested there, Modi would have lost by a margin of 2 to 3 lakh votes," he asserted.

# Haryana informed me water being provided to city as per allocated share: LG

STAFF REPORTER NEW DELHI

A mid the water crisis grip-ping the Capital, Delhi Lieutenant Governor Vinai Kumar Saxena on Tuesday said he has spoken to Haryana Chief Minister Nayab Singh Saini who informed him that water was being provided to the national Capital as per its allocated share despite the constraints imposed on Haryana in terms of water

Haryana in terms of water supply due to the weather. "Spoke to Hon'ble CM, Haryana, Shri Nayab Saini ji yesterday. He reiterated that water was being provided to Delhi as per allocated share and assured of all possible help, despite the state's own constraints due to the ongoing heat wave" Saxena said in a post on X.

Holding Aam Aadmi Party government responsible for the water crisis, the Delhi BJP leaders demanded the resignation of Chief Minister Arvind Kejriwal.

The ruling AAP dispensa-tion has during the past fort-night repeatedly accused the BJP-ruled Haryana of stopping Delhi's share of water. The national capital has been experiencing severe water shortage amid the unprecedented summer heat. Over the weekend, Delhi

Water Minister Atishi wrote to the Harvana chief minister alleging inadequate release of water from the Munak Canal, on which the seven Water Treatment Plants in Delhi are dependent for the generation of potable water, his state government. Speaking to reporters later, Haryana CM Saini had denied these allegations.

Atishi on Tuesday once again slammed the Haryana government and alleged that it was "deliberately" and "illegally" halting the water supply to the capital. In a press conference here, Atishi alleged that the Haryana government was releasing less

water to the city because of which Delhi is unable to meet the daily water requirement. Following an inspection of two sub-canals fed by the Munak Canal in Northwest Delhi's Bawana, Atishi alleged that Delhi should ideally receive 1050 cusecs of water

per day but was receiving just 840 cusecs. "Haryana has been lying regarding the water released by them. Statistics by Haryana government show that from May 1 to May 22, they have released 719 cusec for CLC (carrier line channel) and 330 cusec in DSB (Delhi

sub-branch), as per the affidavit submitted in Supreme Court," Atishi said at a briefing. "In total, 1049 cusec water was released from May 1 to May 22. But, the supply started to decline from May 23, it dropped from 719 cusec and 309 cusec to 675 cusec

Citing an affidavit submitted by the Haryana government in the Supreme Court, the minister said, "The Haryana government has been lying that they have released adequate supply water to Delhi. Their affidavit filed in the Supreme Court presents the data on actual discharge of water which has exposed their lie."

According to the affidavit, from May 23 ahead of the elections in Delhi, the water quantities released was reduced by the Haryana government, she alleged.

"Delhi went to polls on May 25, before that for four days they (Haryana government) reduced the water supply to the city, this is shown by their own affidavit filed in the Supreme Court," she said. Even between 7 June and 10

June, Haryana released less amount of water in both subcanals of Munak Canal. This is shown by the data given to

the Supreme Court. The water released by Haryana reduces further by the time it reaches Delhi. We will also submit all these data to the Supreme Court tomorrow. We have filed an additional affidavit in the Supreme Court. I will also write a letter to the CM of Haryana regarding this," Atishi added.

The Water Minister shared that now that Delhi has been facing a water crisis for the last week and the matter is going on in the Supreme Court, Haryana is reducing the water of the Munak Canal. According to Haryana's data, on 7, 8, 9 and 10 June, Haryana was supposed to release 719 cusecs of water in CLC, instead of which only 675 cusecs of water were released, and in DSB, instead of 330 cusecs, 310 cusecs of water was released.

The minister also said that she will write a letter to Haryana Chief Minister Nayab Singh Saini regarding Supreme Court to present before it the data in the affidavit.

Atishi said Delhi was falling short of 40-45 million gallons per day of water due to the stalled water supply from Harvana.

The Delhi government's quick response team has been tasked to inspect the water distribution plants in Delhi to check for any leakages, she added.

Holding the Kejriwal gov-ernment responsible for water crisis, BJP MP from South Delhi, Ramvir Singh Bidhuri led a protest at Chhatarpur Assembly Constituency. Addressing protesters, Bidhuri said the Aam Aadmi Party government has completely failed and such a government has no moral or political basis to remain in power because by the victory of BJP on all the seven seats of Delhi, the public has given its verdict.

## Water crisis deliberate conspiracy by AAP Govt: BJP **Chariot statue to adorn city**

## STAFF REPORTER NEW DELHI

Delhi BJP President Virendra Sachdeva on Tuesday here claimed that the water crisis in Delhi is a deliberate conspiracy by the Delhi government. He accused the government of turning the situation into a revenue generating avenue in connivance with its Ministers and MLAs.

Making this assertion in a news conference, he also said if Delhi residents are struggling for every drop of water today, the responsibility lies with the Water Minister, the Jal Board, its officials, its chairman, and the Delhi government.

Addressing the press conference, Media Head Praveen Shankar Kapoor highlighted that hundreds of Delhiites are posting videos showing wastage due to leaks in Jal Board pipelines. He criticized the government for misleading the public with false statements instead of addressing

pipeline leakages. Sachdeva presented some technical images and video clips revealing the theft of water by tanker mafias from the Munak Canal, facilitated government's support. by the Kejriwal government. The BJP President demon-

strated how the water released by the Haryana government for Delhi is stolen by tanker mafias between Munak Canal and Kakori with the Delhi Šachdeva showed images of tankers lined up along the

canal, filling up water and selling it at exorbitant prices in water-scarce areas of the city. He alleged that the proceeds are probably going to the Delhi Chief Minister, Water Minister, and various officials.He demanded answers from Ministers Atishi and Saurabh Bharadwaj about the presence of water tankers along the canal.

Sachdeva pointed out that on June 9, Delhi government ministers Atishi and Saurabh Bharadwaj inspected the Munak Canal area, where Jal Board officials confirmed that Haryana is supplying more than enough water. Despite this, the ministers continue to blame the Haryana government.

Sachdeva remarked that Atishi repeatedly mentions additional water from Himachal, but the reality is that the Delhi government lacks storage and treatment facilities for this water. He noted that the Delhi Jal Board can treat only 900 MGD of water, and any additional water will exacerbate theft, increasing it from 25% to 40%. He showcased another video depicting a decadelong leakage in Delhi Jal Board pipes, which has not been repaired to date.

Giving an aesthetic look to the national capital, an imposing and painstakingly carved horse-driven chariot of ParthaSarthi Krishna with Arjuna, handpicked by Lt Governor (LG) Vinai Kumar Saxena, now adorns the junc-tion of Sardar Patel Marg and the Simon Bolivar Marg in the

Diplomatic Enclave of the Capital. Giving details, officials said here on Tuesday, this sculpture was handpicked by Saxena during his visit to Dausa in Rajasthan last year. It was planned to be installed in the Capital as part of LG's initiative to adorn the city with artefacts, sculptures and fountains, .

Made out of Dholpur Stone, this 17x5x9 ft sculpture, comprising four horses and two statues was installed after much hard work by the artisans, who created it, and efforts by officials of

NDMC. The horse-driven chariot was originally planned to be installed in the run up to the G-20 Summit.

However, during its installation, the LG observed that the horses in the original sculpture were disproportionately small. Accordingly, the sculpture was remade and installed recently. Many more such aesthetic artefacts and sculptures will be coming up in different parts of

the city in coming days. Installed on a platform of 22ft diameter, this striking sculpture is surrounded by coloured geyser fountains with 25 nozzles

spread over 60ft. Reaching up to 6 ft, these fountains in 08 warm colours provide a delightful experience to passers-by in the evening. Plantation has been done all around the chariot. Total size of platform is 86x37 feet.

Delhi Irrigation and Flood Control Minister Saurabh Bharadwaj asserted on Tuesday that there will be no flooding in the Yamuna this year as the river will get a clear channel for its flow. Bharadwaj inspected the Yamuna Barrage near ITO during the day. According to an official statement, the minister was apprised of the measures being taken to manage potential flood scenarios.

STAFF REPORTER NEW DELHI

Last year, the barrage caused significant flooding in the Yamuna, leading to water logging and severe inconvenience for residents living nearby.

Bharadwaj said the amount of rainfall received last year and the volume of water released into the Yamuna from Haryana were unprecedented in decades and that resulted in the flood situation.

"Although this barrage falls under the jurisdiction of the Haryana government and its operation is their responsi-bility, this time, the Delhi irrigation and flood control department has coordinated with the Haryana government to prepare for potential issues," he said.

"The department has made preparations so that even if the same amount of water as last year flows into the Yamuna, there will be no flooding in Delhi and the Yamuna's water will not reach the roads," Bharadwaj added. The minister said work has been ongoing for the past three months and a significant amount of silt around all the barrages has already been removed

All barrages have been opened, he said, adding that some could not be opened and had to be cut and removed to ensure that there is no obstruction in the water flow.

To prevent water accumulation in the Yamuna and avoid a flood situation, a new experiment has been conducted

'Pilot Cut'. Under this experiment, small channels are dug front of the barrage extending far beyond. During this process, small islands of soil

"This time, to prevent such situations, all regulators have been repaired. Broken regulators have been replaced... All regulators have been tested," the minister said.

## **DU** modifies eligibility criteria for recruitment of **Assistant Professors**

### STAFF REPORTER NEW DELHI

The Delhi University(DU)has modified its eligibility criteria for the recruitment of assistant professors in colleges, introducing an additional layer of "presentation". The move has drawn flak from the teachers' community which has demanded a rollback.

The varsity has raised its minimum eligibility from the earlier 50 to 55 points with a relaxation of five points for SC/ST/PwD candidates in its recently notified Standard Operating Procedure (SOP) for teacher recruitment.

As per the new rules, the process for the final selection of candidates will be conducted in two stages - assessment through presentation and interview with the selection committee.The presentation will be assessed based on several factors, including "humility, passion and zeal for teaching," the notification read. Candidates will also be asked to write an essay on the day of the presentation for the assessment of their writing skills, the June 3 notification said.

# **Chandrababu** poised to take over as Andhra Pradesh CM

### PTI 📕 AMARAVATI

**¬**DP supremo N Chandrababu Naidu is set to take oath as the chief minister of Andhra Pradesh on Wednesday, marking his fourth term in that role.

Naidu is scheduled to take oath at 11.27 am at Kesarapalli IT Park near Gannavaram Airport on the outskirts of Vijayawada.

On Tuesday, the Telugu Desam Legislature Party and NDA partners elected Naidu as their leader.

the NDA Leaders of comprising TDP, BJP and Janasena would meet Governor S Abdul Nazeer and stake claim to form a government. There could be an invitation

from the Governor to form the government by Tuesday evening.

Along with Naidu, some more leaders are likely to swear-in, who could include TDP general secretary and Naidu's

PTI PUNE

country.

Nara Lokesh son and Ianasena leader N Manohar. Prime Minister Narendra Modi and several other dignitaries are expected to attend the swearing-in ceremony.

Reviewing the arrangements for the ceremony, Chief Secretary Neerabh Kumar Prasad said the prime minister is expected to leave airport at 12.40 pm and take

from Delhi for Gannavaram Airport at 8.20 am and arrive by 10.40 am on Wednesday. According to the tentative schedule, he said Modi is expected to reach the venue by 10.55 am to participate in the swearing-in ceremony from 11 am to 12.30 pm. Thereafter, the PM is expected to return to the

off for Bhubaneswar at 12.45

Naidu first became the chief minister in 1995 and went on to have another two terms. His first two terms as chief minister were at the helm of united Andhra Pradesh, beginning in 1995 and ending in 2004, nine years at a stretch while the third term came post-bifurcation of the state. In 2014, Naidu emerged as the first chief minister of bifurcated Andhra Pradesh and served it until 2019. He lost the 2019 polls to remain an opposition leader until 2024.Following a landslide victory in the 2024 elections, he is returning as the CM for the fourth term.

The NDA comprising TDP, BJP and Janasena won a landslide victory in the recently concluded simultaneous Lok Sabha and Assembly elections in the southern state with a brute majority of 164 Assembly and 21 Lok Sabha seats.

Winning Vikravandi bypoll may turn out to be cakewalk for ruling DMK

## PTI CHENNAI

Though the opposition  $T_{AIADMK}^{hough}$  has a strong presence and could turn out to be a tough contender in the Vikravandi assembly by-election scheduled for July 10, the BJP's ally, the PMK and ruling DMK's trusted ally, the VCK, could upset AIADMK's winning prospects.

The Left parties, which are aligned with the DMK, too, have a noticeable presence in the constituency. Being alone in the electoral fray may not be advantageous to the AIADMK. It remains to be seen if the

AIADMK will announce to take on the DMK or prefer to abstain in order to concentrate on the 2026 Assembly elections. The bypoll verdict has traditionally been in favour of the ruling dispensation. And winning this seat for the DMK may turn out to be a cakewalk. Vikravandi assembly

constituency in neighbouring Villupuram district is the only constituency from the five southern states that would go

to polls on July 10.

The by-poll was necessitated following the death of DMK legislator N Pugazhenthi in April this year. He won from this seat in the 2021 elections, defeating AIADMK's R The Muthamilselvan. constituency was formed during the delimitation exercise in 2007. CPI(M) candidate R Ramamurthy won in 2011 elections and DMK's K Rathamani romped home as winner in 2016. AIADMK's R Muthamilselvan registered a victory in the 2019 elections but lost to the DMK in 2021.

According to a source in the Congress, the party would not stake a claim as the seat has votes. been won by the DMK. "So, naturally the DMK should contest from here just as the Congress contested and won from Vilavancode assembly by-poll that was held along with the Lok Sabha elections, he said. Despite Congress leader S Vijayadharani switching loyalties to the BJP ahead of the Lok Sabha elections, the grand old party retained Vilavancode and proved that the seat is its bastion.Congress candidate Tharahai Cuthbert defeated

BJP's V S Nanthini and won

by a margin of 40,170 votes. Cuthbert secured 91,054

The DMK won the 2021 assembly election, ending the decade of AIADMK rule, and sent the AIADMK and BIP packing home in the Lok Sabha elections. It is confident of winning Vikravandi hands down. The PMK is unlikely to give up the seat to its ally, the BJP, as this Vanniyar dominated party has a strong presence in this district.

Meanwhile, the Tamil nationalist party - NTK - has announced to contest the byelection.

## PAPER WITH PASSION-

# The road ahead

The depleted BJP's decision to retain key Ministries is a double-edged sword

here are a number of ways to look at the depleted-in-strength BJP decision to hold onto important Ministries within the Union Government, despite pressure from coalition partners like the Telugu Desam Party (TDP) and Janata Dal United (JDU) for a larger share of the pie. For its part, the BJP has sought to guarantee itself centralisation of power over significant policy choices by holding onto important ministries. This will obviously support upholding a constant course for policy and governance, besides facilitating the quick execution of its agenda and cutting down on red tape. Sitting in significant Ministries enables the party to present its accomplishments and capacity for governance to the public, which is essential for retaining and growing its support base. On the flip sides, disagreements within the BJP-led National Democratic Alliance (NDA) may arise from coalition partners feeling excluded. Relationship tension could result from this being seen as a lack of respect or trust by powerful region-

al parties like the TDP and JDU. The partners may utilise their ability to bargain to obtain greater sway, which could spark arguments or even inspire threats of abandoning the relationship. This might cause the partnership to become unstable, particularly since the BJP does not have the numbers to prop a Government on its own. On the other hand, it also means that the coalition will not be able to take use of the variety of perspectives and knowledge that its partners can offer. Policies as a result may be less sensitive to local quirks or inclusive. Sometimes, having all the authority in one place results in lack of accountability. Sharing Ministries within a coalition can encourage

a more balanced Government and serve as a check on decisions made by one person. In the long run, political instability could result from coalition partners feeling consistently ignored. In maintaining control, the BJP must make sure that its coalition partners are respected and feel included. However, the BJP's chances in States where these allies have sizeable support bases may suffer if coalition members leave over discontent. This might be harmful in elections that are hotly contested. Even if they do not hold important Ministries, the BJP is still able to include coalition partners in significant decision-making processes. This may lessen feelings of isolation. Keeping a stable alliance and addressing coalition partners' concerns can be achieved by regular consultations and talks. Providing them with strategic ministries or other types of political recompense might assist maintain coalition members' commitment and satisfaction. Maintaining important Ministries, therefore, is a two-edged sword for the BJP. It can guarantee policy continuity and improve governance efficiency, but it also runs the danger of upsetting coalition partners, which could result in political instability. The outcome will mostly depend on how the BJP humours its alliances and strikes a balance between inclusiveness and shared authority and centralised control.

# Let statecraft replace vicious propaganda

The BJP poll machinery's aggressive narrative proved to be counterproductive; it's now time to change the nature of dialogue from confrontation to consensus

he seamless swearing in of Prime Minister Narendra Modi for the third term, given the fractured mandate handed out by voters in the Lok Sabha elections in 2024, must have come as big relief for those who invest in the Indian market. The investor could be a small-time shareholder or a rich corporate professional.

The economic reforms launched by Dr Manmohan Singh, the Finance Minister in the Narasimha Rao Government in 1991, have tumbled on through the regimes of another five Prime Ministers, who followed Rao, including Manmohan Singh himself. The importance of the continuity of these reforms can be gauged from the fact that in the past three decades, it has lifted more than 50 crore Indians out of mortifying poverty.

From the economic point of view, the Narendra Modi Government's biggest shortcoming during its second term, which had a very strong mandate, was its inability to carry out farm reforms. It faltered in communicating to the farmers the benefits of the new agriculture laws and the profits it could accrue to the farm hands. The negative narrative perpetuated by the communication machinery of the Modi regime, which was largely taken over by the IT Cell of the Bharatiya Janata Party (BJP), proved to be an impediment not just in the implementation of the farm legislations but also failed to immerse the spirit of Hindu pride in the months following the consecration of the Ram Temple in Ayodhya.

An aggressive narrative, borrowed from the cantankerous television debates and not necessarily backed by facts, on the social media platforms prove to be counterproductive. With the rise of the fact-checking tools, the decisions to let Jawaharlal's Nehru's love stories and propaganda of similar genre oversnadow the Narendra Modi Government's achievements agreeing with proved to be one of the biggest deflating factors in the BJP's campaign of 2024, with the stand than making them fall

party falling way short of the

halfway mark. The communication battle on the farm laws, instead of focusing on the merits of the reforms, became a fight between the Hindustanis and Khalistanis. The attempt to paint those opposed to the reforms as espousing the agenda of Balkanisation was ill thought of, and the BJP has paid a heavy price for it electorally not just in Punjab but across the farmlands of the country.

Several other initiatives which could have welded people strongly in the support of the Modi 2.0, got undone by the showing of the brute power of large numbers, not as much on the ground, as in the narratives floated by the establishment's publicity arm. The whole attitude to run down the 'Argumentative Indian', an expression borrowed from the title of the bestseller by Amartya Sen, as anti-nation-

The biggest question which must be haunting the BJP leadership is that when the residents of Uttar Pradesh took an "overwhelming" part in the celebration of the consecration of the Ram Temple, why did it not endorse the party as enthusiastically when FROM THE it came to the electoral battle? The narrative so float-MANDATE, WAS ITS ed in the end created a situation where the 'homecom-**INABILITY TO CARRY** ing' for Ram Lalla got overtaken by 'Ayodhya-coming' **OUT FARM REFORMS** of the Opposition leaders.

Both the leaders did not come to Ayodhya but have come to the support of Narendra Modi 3.0. In the past, they have even called the Ramjanambhoomi Movement as a 'political project' of the BJP.

The latest narrative of the open denouncement of the voters of Uttar Pradesh by the BJP's extended family will certainly not find traction with either Kumar or Naidu. The castes and communities who did not vote for the BJP voted for Kumar and Naidu

in their respective States. The call of the hour is to change the nature of the dialogue from confrontation to consensus, not only among the National Democratic Alliance (NDA) partners but among all the stakeholders of India, that is Bharat. # India's green energy rise, including 'Green Coal'

Green coal projects reduce pollution, groundwater contamination, promote sustainability, carbon neutrality and spur economic growth

he Reserve Bank of India's latest report reflects a surge in global optimism regarding India's economic prospects, particularly in the energy sector. This year alone, green energy projects valued at approximately Rs 700 billion are set to commence, marking a significant investment milestone. By 2025-26, further project investments are anticipated to reach Rs 765.2 billion, supported by progressive policies promoting sustainable energy. India's power sector has now achieved full electrification and is integrated into a unified national grid, providing rural areas with 20 hours of electricity daily and urban areas with 23.5 hours. Additionally, India has ascended to become the world's third-largest producer of renewable energy, underscoring its commitment to sustainable development

A key innovation on the horizon is green coal, which is poised to revolutionize energy production in India. Green coal offers significant potential as a sustainable alternative to traditional coal, seamlessly integrating into existing

The success of NTPC's

Narendra Modi highlighted the company's innovative capabilities. The technology not only converts waste into a viable alternative to fossil fuels but also addresses critical waste disposal challenges. The waste-to-energy process involves the meticulous collection and treatment of MSW, followed by moisture removal and the segregation of non-combustible materials. The refined waste is then processed to produce highcalorific charcoal powder that exceeds the energy value of traditional coal. This method reduces carbon emissions, promotes carbon neutrality, and provides economic benefits by lowering the costs associated with traditional coal usage and mitigating the health risks linked to mining and waste accumulation.

## LETTERS TO THE EDITOR

## **SUNLIGHT'S INFLUENCE ON LIFE**

Madam - Apropos the news story "Sunshine on shoulders, a spring in my step!," published on June 11, this is my response. Summers have been harsh this year. I do not recall Delhi temperatures shooting to 50 degrees plus in the 26 years since we shifted to the national capital. Advisories have been issued by the state governments to avoid venturing out in the afternoons. However, a month down the line, we would forget the harrowing days and long for a glimpse of the sun as monsoon clouds darken the skies.

The sun's impact on our lives is undeniable. Reflecting on a hazy morning in east India and contrasting vacations in England highlight how sunlight influences our mood and activities. Sunshine's warmth and brightness are universally cherished, sparking joy in parks and bringing health benefits like the essential 'sunshine vitamin.' Despite modern conveniences, nothing rivals the sun's antibacterial properties for drying clothes. Beyond practical benefits, the sun inspires language and culture, as seen in phrases celebrating people as 'sunshine.' However, this fleeting sunlight also reminds us of the urgent need to combat pollution. By prioritising a cleaner environment, we can ensure future generations enjoy the sun's life-giving rays.

### **OPEN ACCESS TO GREEN ENERGY**

Madam — Apropos the news story "India's green power policies come of age," published on June 7, this is my response. As a daily reader of the newspaper, it's encouraging to see the strides being made towards green energy in India. The MNRE's Surya-Ghar initiative and other regulatory reforms highlight a significant shift towards renewable energy (RE) accessibility. The Surya-Ghar scheme aims to provide affordable electricity through rooftop solar installations, potentially benefiting millions of households by 2027. This is a commendable step towards sustainable energy for all.

## Surge in numberplate violations

propos the news story "Traffic Police Books 16,800 People for Defective Number Plates This Year," published on June 10, this is my response. As a regular reader of the newspaper, the recent spike in penalties for defective number plates in Delhi is quite striking. The Delhi Traffic Police have booked over 16,800 people this year, a stag-

Rules, 2005, highlight the government's dedication to enabling consumers to establish and maintain dedicated transmission lines, enhancing energy efficiency. The Green Energy Open Access Rules of 2022 aim to simplify approval procedures, fostering transparency and consistency nationwide. Judicial interventions are vital for ensuring proper interpretation and enforcement of laws. ## ATTITUDE SHAPES HUMAN BEHAVIOUR

Madam — Apropos the news story "Factors that influence our attitudes," published on June 10, this is my response. Reading about the Mahabharata and its timeless narratives offers profound insights into human nature. The epic, attributed to sage Veda Vyasa and transcribed by Lord Ganesha, vividly portrays the complexities of human attitudes. It showcases a spectrum of emotions and standpoints that The recent amendments to the Electricity drive actions, often influenced by exter-

The focus on high-traffic areas and the detailed breakdown of top violator zones, like Mayur Vihar and Nand Nagri, highlights the strategic approach taken by the police. It's commendable that alongside enforcement, there are awareness campaigns aimed at educating vehicle owners about the importance of compliant number plates. This holistic approach not only aims to correct current issues but also to prevent future violations. ultimately contributing to a safer and more orderly city.

nal factors. Duryodhana, a prominent character, exemplifies how arrogance and anger, fueled by his uncle Shakuni and others, lead to destructive behaviour. This mirrors historical atrocities like the Nazi genocide, highlighting the dangers of prejudice and hatred.

Conversely, the story of the Zen Master and the Thief underscores the transformative power of compassion. The Master's forgiveness and understanding helped the wayward student reform, illustrating that empathy can foster positive change. Human attitudes, shaped by social interactions and experiences, can lead to either constructive or destructive outcomes. This continuous learning process underscores the importance of compassion and understanding in shaping a better society. Harold S Geneen aptly encapsulates this, emphasising that leadership is reflected in attitudes and actions, not just words

## **FIRSTCOLUMN BLUEPRINT FOR A BETTER SOCIETY**

Every segment of society should work to fulfil the expectations of other segments

## RAJYOGI BRAHMAKUMAR NIKUNJ JI

e all dream of a better world where there is peace, happiness and harmony, don't we? No one would like degradation of the environment, loss of human lives due to wars and murders, corrosion of human spirit by crime and corruption, dehumanisation through poverty and troublesome social, economic and political conditions, embroiled with high tension and turmoil that drain human energy and make life miserable. On the contrary, all would like life to be characterised by harmony and health, well being and wealth and heavenly happiness and purity.

But the question is, what are those values and how can such a sociopolitico-economic system be established which has those values and which will enhance human experience and enable men and women to have such lifestyle as can make such a society viable? If we conduct a survey among various groups of people, we will find that their opinion would most probably crystalise around 10 or 15 major points. They would say that a better world is one in which the following exist only in milder forms or to a lesser degree than we have in the present-day world.

These major problems or causes of sufferings are wars, violence and cruelty in any form --- poverty, unemployment and social, economic and political injustice, environmental pollution and ecological imbalance, corruption, crime, indiscipline and obscenity, disease, infirmity and high mortality rate, slavery, lack of freedom or deprivation of human rights, hunger, malnutrition or starvation, wrong attitudes towards the other sex and abuse of children, addictions, intoxications, tensions and lack of happiness, hatred, suspicion, fear, cut-throat competition,

# The Garhwal Regiment's glorious military heritage

Lansdowne, steeped in military tradition since the establishment of the first Garhwal Battalion in 1887, tells a tale of valour and colonial legacy

he still air in June over the Bhawani Dutt Joshi Parade Ground carved out of Kaludanda (renamed Lansdowne after the then Viceroy) converts into an air pocket when the fourth batch of 251 Agniveers call out Jai Badri Vishal Ki Jai, the feared Garhwal regiment war cry. The raising of the first Garhwal Battalion was ordered in 1887 by C-in-C, later Viceroy, Lord Roberts. The British may owe India USD 49 Trillion as reparation but their payback was impressive: instruments of governance, strategic culture and infrastructure, including 5000 to 6000 feet high ridge-top cantonments, today's hill stations like Lansdowne whose Mall Road became the exclusive white's only- promenade, restricting locals to the windswept

'Thandi-sadak' on the reverse slope. Dotted with pine, oak and rhododendrons, the ridge lights up with the majesty of Nanda Devi towering among the distant Himalayas. The sprawling Bungalow No 6 amongst a hundred such, construct-ed in 1906 was home to Colonel Mainwaring commandant of 3/9 Royal Garhwal Rifles and was bought by MES for a princely Rs 10,053!

It was after Nepal's second invasion that Garhwal capitulated and through legendary Jung Bahadur Rana's progeny married into Garhwal's Sah ruling family. Scattered but indistinguishable descendants of erstwhile Nepalese can be found in Pathankot village as are remnants of 2/3 Gorkha Rifles also raised here which have an umbilical cord with the Garhwal Regiment. Originally Garhwalis and Kumaonis joined 5 Gorkha Rifles( Frontier Force) whose first Colonel was Bobs Bahadur, Victoria Cross winner, Lord Roberts who gave Veer Garhwali a separate identity.

The nom de plume of the Garhwali sol-dier is valour: in World War I and Waziristan, it won three Victoria Crosses (Rfn Gabbar Singh Negi -posthumously; (Nill Gabbai Shigh Negi -postiulidusiy, Naik Darwan Singh Negi and Lt David Kenny) and innumerable battle and the-atre honours and gallantry awards till 1947 that would fill this page. After independence, the Regiment bagged one Ashoka Chakra, four MVC, 18 KC, 51 SC, 52 VrC, and 375 Sena Medals. The Regiment has 22 Infantry battalions, three Rashtriya Rifle battalions and two Territorial Army attailons. To commemorate its unique achievements in operations, the Regiment was conferred the Royal title: Royal Rassi (Lanyard) in 1921 and to honour its braves and martyrs, an iconic bronze statue was built in 1923 which was unveiled by C-in-C, Lord Rawlinson. Designed by makers of Victoria Memorial Calcutta, Martin and Co, the statue on green granite is the most unique and defiant image in the worldof unknown soldiers, the Veer Garhwalis. Added later was the epic shloka from Mahabharat. Lord Krishna to Arjun: 'Lament not the death of a warrior; for one killed in battle is honoured in heaven'. It was a silver replica of this Unknown Soldier that PM Modi presented to the PM of France in 2015 to commemorate the centenary of WWI. The Darwan Singh War Museum is the grand repository of the history and achievements in war and peace of the Regiment. But the creme d la crème of Lansdowne is the Garhwali Officers Mess which is India's most spectacular, filled with collector's items. Officers and ladies

of the battalion who arrived in 1887 chose this ridge-top locale and declared it their mess which sprouted only in 1892. Its red slanting roof and miniature Victorianstyle colonnades are draped with ivy and creepers.

In the middle of the lawn is the still functional Sun Dial measuring time by the position of the sun. Carved below is: "The shadow of my finger cast divides the future from the past; Before it stands the unborn hour in darkness and beyond thy power: Behind its THE STATUE ON **GREEN GRANITE** unreturning line the vanished IS THE MOST hour no longer thine: One hour UNIQUE AND alone is in thy hand, the now of which the shadow stands." Nearby DEFIANT IMAGE IN is the ubiquitous Unknown THE WORLD — OF Soldier, covered with bushwork. The Officer's Mess initially had UNKNOWN three large rooms: the main hall, dining room and billiards room. SOLDIER. THE Add-ons were the Card room, the VEER GARHWALI Generals gallery, the indispensable bar and two libraries on either flank. Rooms are resplendent in silver trophies and walls covered by big and small game heads and skins that will draw ire from RSPCA. The Visitors' Book table is eye-popping and studded with memorabilia. The broken Chinaglass floor is laid out in a design that radiates towards four Maltese Crosses, the original crest of the

Regiment. Crocodile skin sofa sets glisten as no one sits on them. To insert the John Roberts and Co. made billiards table, the entire roof had to be uprooted while the piano from Chappells, Bond Street London (more famous for sartorial products) rests rhythmically in a corner. The glistening mahogany dining table adorning the dining hall is credited to mak-

about shedding colonial legacy and wish to retain Lansdowne. Locals say the state government is monumentally corrupt: so ex-servicemen and politicians don't mix. Still, two Generals made it good. Bhuwan Khanduri who became Chief Minister and TPS (Tipsy) Rawat many times minister while highly decorated Ajay Kothiyal KC, SC, VSM and a double Everester lost his deposit during the last state elections. Subedar Major Shailendra Mohan Bhist located at Garhwal Regiment's Kotdwar detachment is look-alike brother of Ajay Bisht more famous as Yogi Adityanath! The clock has moved a full circle: Garhwalis bhullas (brothers) are now again joining the depleting Gorkha Regiments and learning to speak Nepali. The Garhwal regimental legacy is protected by its three symbols: Lord Badrinath, the regimental deity, the iconic Unknown Soldier and the Royal Rassi. They help instil gumption and guile while invoking Jai Badri Vishal Ki Iai. els of society.

Post this survey, if we conduct another kind of survey, asking every segment of society about what efforts or improvements they expect from the other segments so that we may have a better world order, a fair enough consensus on the following lines would emerge. People would say that they want: Scientists to have an orientation of spirituality, religious leaders to have scientific temper, doctors to treat not only the body but also the mind or the soul, education to have spiritual and moral development also among its aims, women to be given proper social status and man's attitude and outlook towards them to be more spiritualised. The youth and the children should be given more love and they should give more regard and service to the elders. The society should have a balance of love and law and it should be based on the principles of justice, fair play and equality of opportunity. Now these and such other aims can be fulfilled if every segment of society works for the fulfilment of what other segments expect of it. Each individual also has to contribute of his or her talent or time to work towards raising awareness of the people so as to realise the above goals. For this global task, global cooperation is required. Hence, a new kind of bank to which each individual or institution can offer its contributions so as to build a better world is the need of the hour.

Organic renaissance: India's rapid shift towards chemical-free farming

As consumer awareness of health and sustainability surges, India is witnessing an unprecedented rise in the organic food market

here was a time in the country when everything produced was organic, the farmers used natural manures like cow dung and compost fertilisers in their fields. The yield was low but it was healthy, tasteful and above all sustainable practice. Then came chemical fertilisers which no doubt increased the yield manifold but also led to several side effects. It is not sustainable and lacks the taste of organic products and above all not as healthy as it should be. Besides the farmers are also paying the price in terms of their health and overuse of Urea and other chemicals ruining the soil quality and depleting the water table. In this scenario, organic farming is the way to go. Now with

consumer awareness about health, sustainability, and environmental impacts. As urban populations increasingly seek out healthier lifestyle options, the demand for organic food products has soared. This trend is not just limited to a niche segment; it has permeated mainstream consumer preferences, pushing organic products to the forefront of the food industry. The organic food market in India, valued at \$1,582.2 million in 2023, is expected to

Consumers today are more inclined to buy products that are sustainable and environmentally friendly. This aligns with the broader trend towards sustainable and ethical consumption, making organic foods an appealing choice for consumers. Today organic companies

The farmers must be safeguarded from any potential contaminants in their food supply so that the end users get a real organic product. There is def-initely a need to maintaining high-quality standards in organic farming else the consumer trust is broken and the industry as a whole suffers . With online registration and certification processes in place most of the fraudulent practices in the segment have been wiped off.But the field is not without challenges. However, the transition from chemical to organic is not simple. It is a painstaking process but rewards are grating takes around three years. And in places where chemical fertiliser use is rampant, it could go beyond three years. Besides, fraudsters often damage their reputations. Often prices are jacked up unrealistically.

The growth of organic products in India is a testament to the changing consumer landscape and increasing aware-ness about health and sustainability

Still, the market share of organic products is just one per cent but the growth is exponential. This sector is growing at the rate of 20 per cent which shows the growing demand for organic food and people's interest in them. (The writer is confounder of Natureland Organics; views are personal)

# **UNSC** adopts Gaza ceasefire resolution

#### AP JERUSALEM

The UN Security Council on Monday overwhelmingly approved its first resolution endorsing a cease-fire plan aimed at ending the eightmonth war between Israel and Hamas in Gaza. The US-sponsored resolution welcomes a cease-fire proposal announced by President Joe Biden that the United States says Israel has accepted. It calls on the militant Palestinian group Hamas to

accept the three-phase plan. The resolution - which was approved with 14 of the 15 Security Council members voting in favour and Russia abstaining - calls on Israel and Hamas "to fully implement its terms without delay and without condition".

Whether Israel and Hamas agree to go forward with the plan remains in question, but the resolution's strong support in the UN's most powerful body puts added pressure on both parties to approve the proposal.

Monday, where he urged Prime Minister Benjamin Netanyahu to accept the plan for postwar Gaza as he pushed for more international pressure on Hamas to agree to the cease-fire proposal. Netanyahu has been sceptical of the deal, saying that tled. Israel is still committed to

destroying Hamas. Hamas said it welcomed the adoption of the resolution and was ready to work with mediators in indirect negotiations with Israel to implement it. The statement was among the strongest from Hamas to date, but it stressed the group would continue its struggle against Israeli occupation and work on setting up a "fully sovereign" Palestinian state.

"Efforts are continuing to study and clarify some matters to ensure implementation by the Israeli side," Hamas spokesperson Jihad Taha said Tuesday. He said Israel was "stalling and procrastinating and creating obstacles in order to con-

US Secretary of State Antony tinue the aggression." Blinken was in Israel on A senior Israeli diplomat did not directly mention the resolution, telling the council Israel's position is unwavering: 'We will continue until all of the hostages are returned and until Hamas' military and governing capabilities are disman-

"This also means that Israel will not engage in meaningless and endless negotiations, which can be exploited by Hamas as a means to stall for time, Minister Counsellor Reut Shapir Ben Naftaly said. US Ambassador Linda

Thomas-Greenfield reiterated, however, that Israel has accepted the cease-fire deal, which is supported by countries around the world. The resolution's adoption, she

said, "sent a clear message to Hamas to accept the cease-fire deal on the table." "The fighting could stop today, if Hamas would do the same," Thomas-Greenfield told the council. "I repeat, this fighting could stop today." US deputy ambassador

Robert Wood told reporters earlier on Monday that the United States sees the deal as "the best, most realistic opportunity to bring at least a temporary halt to this war".

Earlier Monday, Hamas and Palestinian Islamic Jihad leaders met in Qatar to discuss the proposed cease-fire deal and said later that any deal must lead to a permanent cease-fire, a full Israeli withdrawal from Gaza, reconstruction and "a serious exchange deal" between hostages in Gaza and Palestinians held in Israeli jails. Russia's UN Ambassador Vassily Nebenzia said Moscow abstained because details of the three-phase plan haven't been disclosed and "we have a whole host of questions".

"Hamas is called upon to accept this so-called deal, but still there is no clear clarity regarding official agreement from Israel," Nebenzia said. "Given the many statements from Israel on the extension of the war until Hamas is completely defeated ... what specifically has Israel agreed to?' Algeria's UN Ambassador Amar Bendjama, the Arab rep resentative on the council, said that while the text isn't perfect, "it offers a glimmer of hope to the Palestinians, as the alternative is (the) continuing killing and suffering of the Palestinian people"."We voted for this text to give diplomacy a chance to reach an agreement that will end the aggression against the Palestinian people that has lasted far too long," Bendjama said.

The war was sparked by Hamas' surprise Oct 7 attack in southern Israel in which militants killed about 1,200 people, mainly Israeli civilians, and took about 250 others hostage. About 120 hostages remain, with 43 pronounced dead. Israel's military offensive has

killed more than 36,700 Palestinians and wounded more than 83,000 others, according to the Gaza Health Ministry. It has also destroyed about 80% of Gaza's buildings, according to the UN.

## French opposition parties seek alliances ahead of snap polls

European elections, France's far-right National Rally on Tuesday hit the national campaign trail running with its star leader, Jordan Bardella, promising supporters "the largest possible majority" at the upcoming parliamentary elections.

Opposition parties on the left and the right have been scrambling to form alliances and field candidates in the snap national elections called by President Emmanuel Macron after his party suffered a crushing defeat by the far right in the European Union vote on Sunday. While sharp differences between parties on both sides of the political spectrum remain, prominent figures calling for a united front in both camps appear to have one thing in common: They don't want to cooperate with Macron. Despite their divisions, left-wing parties agreed late Monday to form a new alliance that includes the Greens, the Socialists, the

Communists and the far-left France Unbowed of Jean-Luc Melenchon. Leaders have not agreed on who will head the new coalition nor on its program. In light of the European polls, politicians on the left are focused on closing ranks to prevent a win for the National Rally that could result in the French far right leading a government for the first time since World War II. For now they have also vowed not to join forces with Macron's cen-

trists. In a joint statement, the alliance called on all forces on the left, including the influential labor unions, to unite behind a "new popular front" to form an "alternative to Emmanuel Macron and to fight against the racist project of the far right." The National Rally leader Marine

Le Pen is working to consolidate power on the right ahead of the two-round elections that will take place on June 30 and July 7. Le Pen's niece, Marion Marechal, who won a seat in the European Parliament on Sunday as a member of the rival

Reconquer! party of Eric Zemmour, on Monday visited National Rally headquarters in Paris to negotiate a far-right alliance at the upcoming elections.

Le Pen also met with members of the conservative Republicans party to discuss a united front. Some conservative lawmakers have supported some of Macron's bills in the National Assembly since the pres ident lost a majority in the lower house of the French parliament following the 2022 general election. "We have a historic chance to allow the national camp to put France back on track," Le Pen said in an interview with the French public broadcaster on Monday evening. She said the National Rally and the conservatives could agree on several policy goals, including an economic recovery plan, boosting purchasing power and curbing immigration. Bardella, Le Pen's 28year-old protege and the face of the far right's European triumph, also urged French conservatives to ride the wave of popularity with the National Rally.

# Blinken meets Netanyahu in Israel

## AP JERUSALEN

US Secretary of State Antony Blinken met Monday with Israeli Prime Minister Benjamin Netanyahu during his latest trip to the Middle East, where America's top diplomat urged approval of a cease-fire proposal that faced new uncertainty following Israel's hostage rescue operation that killed many Palestinians and turmoil in Netanyahu's government.With no firm public response yet from Hamas or Israel to the proposal they received 10 days ago, Blinken started his eighth visit to the region since the conflict began in October by meet-ing with President Abdel Fattah el-Sissi of Egypt, a key mediator with the militant Hamas group. He then flew to Israel for talks with Netanyahu and other Israeli officials.

Blinken once again called on Hamas to accept the plan, which he said has wide international support.

"If you want a cease-fire, press Hamas to say yes," he told reporters before leaving Cairo on the trip that also will take him to Jordan and Qatar.

Blinken said Israel has accepted the proposal, though Netanyahu has expressed skep-"I know that there are those who

are pessimistic about the prospects," Blinken said, putting the onus on Hamas. "That's understandable. Hamas continues to show extraordinary cynicism in its actions, a disinterest not only in the wellbeing and security of Israelis but also Palestinians?

While President Joe Biden, Blinken and other US officials have praised the rescue of four Israeli hostages on Saturday, the

push by emboldening Israel and hardening Hamas' resolve to carry on fighting in the war that started with its October 7 attack in Israel.

Blinken said the plan is the "single best way" to get to a ceasefire, release the remaining hostages and improve regional security In his talks with el-Sissi, Blinken

also discussed plans for postconflict governance and reconstruction in Gaza. "It's imperative that there be a plan, and that has to involve security, it has to involve governance, it has to involve reconstruction," Blinken said.

Netanyahu and his government have resisted calls for any "day after" plan that would bar Israel from having some form of security presence in the territory Blinken said he would urge Israel to come up with alternatives that would be acceptable. "It would be very good if Israel

put forward its own ideas on this, and I'll be talking to the government about that," he said. But one way or another, we've got to have these plans, we've got to have them in place, we've got to be ready to go if we want to take advantage of a ceasefire."The three-phase plan calls for the release of more hostages and a temporary pause in hostilities that will last as long as it takes to negotiate the second phase, which aims to bring the release of all hostages, a "full withdrawal of Israeli forces from Gaza" and "a permanent end to hostilities," according to an American-drafted resolution put before the U.N. Security Council. The third phase calls for reconstruction in Gaza

## 'Israeli and Palestinian armed forces accused of war crimes'

Geneva (AP): The UN human rights office is citing possible war crimes by Israeli forces and Palestinian armed groups in connection with a deadly raid by Israeli forces that freed four hostages over the weekend.

Office spokesman Jeremy Laurence expressed concerns about possible violations of rules of proportionality, distinction and precaution by the Israeli forces in Saturday's raid at the urban Nuseirat refugee camp. Palestinian health officials say at least 274 Palestinians, including dozens of women and children, were

killed in the operation. Laurence said Palestinian armed groups who are holding hostages in densely populated areas are putting the lives of nearby civilians and the hostages at "added risks" from the hostilities.

**7** ealand authorities offered La reward and immunity from prosecution on Tuesday to anyone who can help their search for three children who have been missing since their father vanished with them from a remote rural community more than two years ago. The December 2021 disappearance of Tom Phillips and his children — now aged 8, 9 and 10 — has confounded investigators. They are not believed to ever have travelled far from the remote rural settlement where they lived, but there have been no credible sightings of the family for months. Police officers converged on

the township, Marokopa, population 69, to seek fresh leads in a case that has fascinated the country of 5 million people. Phillips is accused of

committing an armed bank robbery while on the run in May 2023. He allegedly shot at a member of the public and fled on a motorbike with a passenger who investigators believe was one of his children.

Phillips no longer has legal custody rights for his chil-dren, Acting Detective Inspector Andrew Saunders said at a news conference in the city of Hamilton, south of

Auckland, on Tuesday. 'These are not the actions of a good father," said Saunders. The children have not had access to formal education or healthcare since they went missing, he added, and police have concerns "for the welfare of the children who have been living in isolation for the

(USD 49,000) — large by New Zealand standards and an offer of immunity from prosecution is targeted at people who already know the family's whereabouts. The authorities have long said they believe that Phillips has had help concealing hifamily.

The reward, approved by New Zealand's Commissioner of Police, expires in two weeks, Saunders said. "We don't want them waiting

months and months to decide," he said. "Come forward and tell us where the children are. It is not the first time Phillips prompted national news headlines after disappearing with his children.

The family went missing in September 2021, provoking a past two and a half years, with 3-week land and sea search after Phillips' truck was found no connection to others". abandoned on a wild beach Saunders said that a reward of 80,000 New Zealand dollars near where he lived.

## Malawi's vice president, 9 others die in plane crash Blantvre (Malawi) (AP):

Malawi's vice president and nine others were killed in a plane crash, the country's president said Tuesday. The wreckage of the military plane carrying Vice President Saulos Chilima was located in a mountainous area in the north of the country after a search that lasted more than a day. There were no survivors of the crash, Malawian President Lazarus Chakwera said in a live address on state television. Hundreds of soldiers, police officers and forest rangers had been searching for the plane

that also carried a former first lady after it went missing Monday morning while making the 45-minute flight from the southern African nation's capital, Lilongwe, to the city of Mzuzu, around 370 kilometers (230 miles) to the north. Air traffic controllers told the plane not to attempt a landing

at Mzuzu's airport because of

bad weather and poor visibility and asked it to turn back to Lilongwe, Chakwera said. Air traffic control then lost contact with the aircraft and it disappeared from radar, he said. Seven passengers and three military crew members were on board. The president described the aircraft as a small, propeller driven plane operated by the Malawian armed forces. The tail number he provided shows it is a Dornier 228-type twin

propeller plane that was delivered to the Malawian army in 1988, according to the ch-aviation website that tracks aircraft information. Around 600 personnel were

involved in the search in a vast forest plantation in the Viphya Mountains near Mzuzu, authorities said. Chilima was serving his second

term as vice president. He was also in the role from 2014-2019 under former President Peter Mutharika.

Melbourne (AP): Chinese China's leadership, in seven Premier Li Qiang will visit New Zealand, Australia and Malaysia starting Thursday, officials said. Li will visit the three countries from June 13 to 20, a Chinese Foreign Ministry statement said Tuesday.

Australia earlier announced that Li would land in the Australian city of Adelaide on June 15 and leave Perth on June 18

Australian Prime Minister Anthony Albanese and Li are to hold an annual leaders' meeting at Parliament House in the Australian capital, Canberra, during the visit. The New Zealand and Malaysian governments have vet to announce Li's itinerary in their countries.

Li's visit to Australia and New Zealand will be the first by a Chinese premier, the second most powerful official in oned Australian democracy blogger Yang Hengjuno to be freed.

'Premier Li Qiang's visit to Australia is an important opportunity to engage direct-ly on key issues for both our nations," Albanese said. "Australia continues to pursue a stable and direct relationship with China, with dialogue at its

core," he said. New Zealand officials say their discussions with Li will focus on their aim to double the value of the nation's exports to

China in a decade. New Zealand has traditionally sought to balance its trade relationship with China with the interests of its Western allies in the Five Eyes intelligence sharing partnership, who have more assertively decried China's growing influence in the region. Malaysia has similarly resisted taking sides in the US-China rivalry.

# Zelenskyy appeals for help with **Ukraine's energy network**

## AP BERLIN

Ukrainian President Volodymyr Zelenskyy appealed for short-term help in repairing his country's electricity network and long-term investment in its energy system as a conference to gather support for Ukraine's recovery from the destruction wreaked by Russia's war opened on Tuesday.

Starting a week of intense diplomacy that will also see him travel to the Group of Seven summit of Ukraine's leading Western allies in Italy and a global peace summit in Switzerland, Zelenskyy also renewed his calls for more help in repelling missile attacks by Russian forces.

The two-day Ukraine Recovery Conference in Berlin follows up on a similar gathering in London a year ago.

The German hosts say it is bringing together 2,000 people from national and local politics, business and other areas, arguing that the task of supporting Ukraine's recovery is too big for governments alone.

Among other immediate problems, sustained Russian attacks on Ukraine's power grid in recent weeks have forced energy companies to institute nationwide rolling blackouts. Zelenskyy told the conference that, in the coming month, Ukraine needs equipment for heating and electricity plants that are currently out of action. "This will allow us to respond to the situation here and now, he said.

According to the president, nine gigawatts of electricity generating capacity have been destroyed — including 80 per cent of thermal power and one-third of hydroelectric power — while the peak consumption in Ukraine last win-ter was 18 gigawatts. Energy, he said, continues to be "one of (Russian President Vladimir) Putin's main targets.'

Looking beyond Ukraine's immediate problems, Zelenskyy said foreign investproblems,

ments in energy would be mutually beneficial. "Ukraine has all the natural foundations for modern ener-

gy, but without your financing and investments, we won't be able to realize this," he said. 'This is not about grants, but about high-yield investments for your companies, about a large market for your equipment, about loan programs for your institutions," all of which could create tens of thousands of new jobs, he added.

That message was echoed by German Chancellor Olaf Scholz, who said the World Bank has estimated that rebuilding and modernizing Ukraine will require invest-ments of nearly USD 500 billion over the next 10 years. "The reconstruction of

Ukraine is and also must be a business case," Scholz told participants. He said that is illustrated by Ukraine having exported excess electricity to the European Union since 2022 "that makes clear what goes for the reconstruction of Ukraine as a whole: it benefits all concerned".

Scholz, whose country has become Ukraine's secondbiggest weapons supplier after the United States, appealed anew to other allies to help strengthen Ukraine's air defense, "because the best reconstruction is that which doesn't have to take place".

Since Russia launched a spring offensive around Kharkiv, Zelenskyy has insisted Ukraine urgently needs seven more USmade Patriot air defence systems. The Berlin conference also focuses on support for reforms that Ukraine has embarked on in its bid to join the EU. On Monday, the head of the State Agency for Restoration of Ukraine, Mustafa Nayyem, announced his resignation on Facebook

He cited "systemic obstacles that prevent me from exercising my powers effectively" and accused the government of bogging his agency down in red tape. Ukraine hasn't had a minister dedicated to reconstruction since Oleksandr Kubrakov was dismissed in May. Nayyem complained that Ukraine's prime minister barred him from attending the Berlin conference.

Zelenskyy, making his third visit to Berlin since Russia's fullscale invasion started in February 2022, is also expected to make a speech to the German parliament, or Bundestag. He made a video address to lawmakers a few weeks after the war started. The Ukrainian president last visited in mid-February, when he signed a bilateral security agreement with Scholz, one of a string of such accords that allies have reached with Kyiv to signal their long-term backing.

# Russia, Belarus launch second stage of drills to train troops

## AP MOSCOW

Russia and its ally Belarus on Stage of drills intended to train their troops in tactical nuclear weapons, part of the Kremlin's offort to diacourse the West efforts to discourage the West from ramping up support for Ukraine.

In announcing the nuclear maneuvers last month, the Russian Defense Ministry said they were in response to provocative statements and threats of certain Western officials regarding the Russian Federation".

The Kremlin has expressed outrage after French President Emmanuel Macron said he doesn't exclude deploying troops to Ukraine, and the US and some other NATO allies allowed Kyiv to use the weapons supplied by them for striking targets on the Bussian striking targets on the Russian territory.

Speaking to reporters Tuesday, Kremlin spokesman Dmitry Peskov noted that "such drills and maintaining combat readi-

ness" are important in view of the "hostile decisions and actions" by the US and its allies in Europe and their "daily provocations".

During the second stage of the drills that began Tuesday, Russian and Belarusian troops will undergo joint training in non-strategic nuclear weapons used in combat, the Defence Ministry said. It noted that the exercise is aimed at maintaining readiness of personnel and equipment to ensure "sovereignty and territorial integrity" of the alliance of Russia and Belarus.

The first stage of the exercise last month envisaged a preparation for nuclear missions and deployment for launches, according to the Defense Ministry. The Russian military had trained separately during the initial stage of the maneuvers before joint drills with Belarusian forces. Last year, Russia moved some of its tactical nuclear weapons into neighbouring Belarus, which also borders Ukraine and

NATO members Poland, Latvia and Lithuania. Belarus' authoritarian President Alexander Lukashenko has

relied on close ties with Russia and provided his country as a staging ground for the war in Ukraine.

Tactical nuclear weapons include air bombs, warheads for short-range missiles and artillery munitions and are meant for use on a battlefield. Usually they are less powerful than the strategic weapons – massive warheads that arm intercontinental ballistic missiles and are intended to obliterate entire cities.

Russian President Vladimir Putin has noted, however, that even Russia's battlefield nuclear weapons are much more powerful than the two atomic bombs the US dropped on Japan at the end of World War

Last week, Putin declared that the West is wrong to proceed from the assumption that Russia will never use its atomic arsenal.

**US envoy calls for** Japan's help to replenish missile inventory, repair warships

## АР 📕 ТОКҮО

The United States needs Japan's help to quickly replenish missile inventory and repair warships as conflicts in the Middle East and Ukraine continue and Washington seeks to keep its deterrence credible in the Indo-Pacific, the US ambassador to Japan said.

"It is clear that the United States military industrial base cannot meet all the strategic challenges that we have and obligations we have," Ambassador Rahm Emanuel said on Monday. He spoke as Japan and the US held their first talks to accelerate military industrial cooperation, two months after an April agreement between Japanese Prime Minister Fumio Kishida and US President Joe Biden.

This week's talks in Tokyo are between US Under Secretary of Defence for Acquisition and Sustainment William LaPlante and his Japanese counterpart, Masaki Fukasawa, head of the Acquisition, Technology and Logistics Agency.

They agreed to establish work ing groups for missile co-production and for maintenance and repair of US Navy ships and Air Force aircraft in the region, the Japanese Defence Ministry said in a statement. There will be also a group to discuss a stronger supply chain. On Tuesday, the two countries held the first meeting of the Japanese shipyard repair work-ing group, which will help US shipbuilders focus on new ships while allowing ships to be repaired in Japan for greater efficiency and deterrence. Fukasawa, in his opening remark at the meeting, said he hoped regional repair of US Naval ships will help strengthen the Japanese defence industry, whose customers are largely limited to Japan's Defence Ministry and Self-Defence Force. Recent changes to defense policies are seen to be creating new business opportunities, however.

Lee gave no further details. But South Korean media reports said that about 20-30 North Korean soldiers had entered South Korean territory about 50 metres (165 feet) after they likely lost their way. The reports said most of the North Korean soldiers were carrying pickaxes and other construction tools. The 248-kilometer (155-mile) -long, 4-kilometer (2.5-mile) wide DMZ is the world's most heavily armed border. An estimated 2 million mines are peppered inside and near the border, which is also guarded by barbed wire fences, tank traps and combat troops on both sides. It's a legacy of the 1950-53 Korean War, which ended with an armistice, not a peace treaty.

On Sunday, South Korea resumed anti-Pyongyang pro-

His family said Lawson died on Sunday after a short illness in Los Angeles, where he spent decades working as a pastor, labor movement organizer and university professor. Lawson was a close adviser to the Rev Martin Luther King Jr, who called him "the leading theorist and strategist of nonviolence in the world". Lawson met King in 1957, after spending three years in India soaking up knowledge

The two Black pastors both 28 years old - quickly bonded over their enthusiasm for the Indian leader's ideas, and King urged Lawson to put them into action in the American South.

Lawson soon led workshops in church basements in Nashville, Tennessee, that prepared John Lewis, Diane Nash, Bernard Lafayette, Marion Barry, the Freedom Riders and many others to peacefully withstand vicious

responses to their challenges

of racist laws and policies.

Lawson's lessons led Nashville

gate its downtown, on May 10, 1960, after hundreds of well-organised students staged lunch-counter sit-ins and boycotts of discriminatory businesses. Lawson's particular contribution was to introduce Gandhian principles to people more familiar with biblical teachings, showing how direct action could expose the immorality and fragility of racist white power structures.

Gandhi said "that we persons have the power to resist the racism in our own lives and souls", Lawson told the AP. "We have the power to make choices and to say no to that wrong. That's also Jesus." Years later, in 1968, it was Lawson who organized the sanitation workers strike that fatefully drew King to Memphis. Lawson said he was at first paralyzed and forever saddened by King's assassination. "I thought I would not live beyond 40, myself," Lawson said. "The imminence of death was a part of the discipline we lived with, but no one as much as King. Still, Lawson made it his life's

mission to preach the power of nonviolent direct action. "I'm still anxious and frustrated," Lawson said as he marked the 50th anniversary of King's death with a march in Memphis. "The task is unfinished.

"What good did that do, Jimmy?" his mother asked. That simple question forever changed his life, Lawson said. # India reports sixth strongest hiring outlook Sebi to hire 49 officers; and the sentember marter says survey invites applications globally in September quarter, says survey

## PTI 📕 NEW DEI H

India ranks sixth globally for tits employment outlook for September quarter 2024, with 30 per cent of businesses planning to increase their staff over the next three months, according to a global survey by workforce solutions company ManpowerGroup. India's Net Employment Outlook (NEO), calculated by subtracting employers planning reductions versus those planning to hire, stood at 30 per cent. It weakened from the previous quarter and the same time last year by 6 per cent, as employers are

cautious in their hiring intent for the next three months. India ranks sixth globally for its employment outlook, 8 points above the global average. The survey was

conducted in 42 countries. Globally, Costa Rica reported hiring strongest the expectation for July-September at 35 per cent, followed by Switzerland (34 per cent), Guatemala (32 per cent), Mexico (32 per cent) and South Africa (31 per cent). On the other hand, Argentina

and Romania reported the weakest NEO at 3 per cent. In the Asia Pacific region, the country has the strongest outlook. India (30 per cent) and China (28 per cent) continue to report the strongest outlook in the region. Most cautious outlooks were reported by employers in Hong Kong (8 per cent) and Japan (12 per cent).

In the latest edition of the ManpowerGroup Employment Outlook Survey, 3,150 employers in India were asked about their third quarter hiring intentions. The global slowdown has been impacting the IT sector

Added to the circumstances, is the political uncertainty looming over the country due to general elections during data collection of this survey Clearly, employers are being cautious in their short-term resource planning," said ManpowerGroup's India and Middle East Managing Director Sandeep Gulati.

The real estate sector, however, has seen an increased investor interest with a capital inflow to the tune of USD 1.1 billion led by the residential sector. 'We hope the gap between the

in North India stood at 36 per cent, followed by West (31 per cent), South (30 per cent), and East (21 per cent).

Hiring sentiments across all sectors however declined when compared to the same period last year.

Going by the industry size, large organizations (with 1.000-4.999 employees) indicate strongest optimism in hiring with NEO of 42 per cent followed by small (50 -249 employees) and medium (250-999 employees) organizations (34 per cent) and large enterprises (30 per cent).

Sector-wise, the financials and real estate sector and healthcare and life sciences continue to dominate the market with strongest hiring intentions.

The weakest outlook is indicated in communication services and transport, logistics and automotive, the survey said.

More than 62 per cent of employers have adopted AI including generative conversational AI with 80 per cent of the senior leadership team optimistic about the positive impact of AI on overall business, as opposed to 68 per cent of frontline and factory workers.

Capital markets watchdog Sebi on Tuesday initiated the process to hire 49 officers in different departments this year, a move that will help in faster and more effective execution of its regulatory role.

This came after the Securities and Exchange Board of India (Sebi) invited applications in March for the 97 senior-level posts

The link for submitting the application online was originally scheduled to open on April 13. However, it was decided to postpone the same due to the schedule of the General Elections.

Now, in a fresh notice on Tuesday, Sebi has invited applications for 49 posts of Officer Grade A (Assistant Manager) for General, legal, technology, information engineering electrical, research and official language streams.

The link for submitting the application online will be open till June 30. The regulator is looking to fill

34 positions in the General stream, 10 in information technology, two in the legal team and one each in engineering (electrical), research and official language departments.

Selection will be carried out in three phases beginning July

years. In July 2022, the regulator invited applications for 25 senior-level executives in the information technology department.

In January 2021, the markets regulator invited applications for the recruitment of 120 Officer Grade A (Assistant different Manager) in streams.

In March 2020, the regulator invited applications for 147 senior-level officials and around 1.4 lakh people applied for these positions.

Formed by the government in 1988, Sebi was given statutory powers following the passage of the Sebi Act in 1992 after Sebi has been beefing up its headcount over the last few hit the Indian markets. As per

its preamble, Sebi is mandated to protect the interests of investors in securities as well as promote and regulate the securities markets.

It regulates business in stock exchanges and other securities markets, registers and regulates various market intermediaries, including brokers, merchant bankers registrars, portfolio managers and investment advisers, as well as foreign portfolio investors, credit rating agencies, mutual funds and venture capital funds.

Besides, Sebi is mandated to check fraudulent and unfair trade practices, insider trading and other manipulative activities.

# RIFLE, PISTOL TEAM FOR OLYMPICS ANNOUNCED; BHAKER PICKED IN TWO INDIVIDUAL EVENTS

omen's pistol ace W Manu Bhaker was the only one to be picked in two individual events after her excellent run of form in selection trials as the national shooting federation on Tuesday announced a 15member Indian rifle and pistol team for the Paris Olympics.

The team was finalised during a selection meeting held virtually. The squad has eight rifle shooters and seven in pistol discipline.

The selectors decided to give precedence to trial results, shutting the door on the likes of world champion Rudrankksh Patil, who has been pleading considered to be despite underwhelming scores in his pet 10m air rifle event as he had won the quota.

In shooting, quotas are won countries and not individual athletes. All the team members, along

with the coaches and

support staff, are currently in a camp in Volmerange-Les-Mines, France, mainly aimed at "acclimatisation and hard-training" before they come back home for a two-week break. The shotgun squad will be announced after the ISSF World Cup in Lonato, Italy,

competitions in which start from Wednesday and go on till June 18. The Paris Games will be held from July 26 to August 11. Indian shooters managed to secure a record 21 of the 24

possible quotas, including a full allocation of eight each in rifle and pistol events. This is India's best-ever

quota haul in shooting at any edition of the Olympics, eclipsing the 15 from Tokyo Games. This means the athlete who

clinched the quota can be replaced by another, leading up to the Games on the basis of scores in the selection trials conducted by the national federation.

Sharing his thoughts, National Rifle Association of

India's (NRAI) senior vice president Kalikesh Narayan Singh Deo, said, "The selection committee met and deliberated at length. After deliberating at length, we feel we have selected the best team on current form as per merit and sticking to the policy.

We are confident that everything has been put in place for the team to deliver. Given our depth in rifle and pistol, some very good shooters are not part of the squad. However, they will have a chance to make a comeback. We wish the squad all the very best." Deo is right as the

performance of the shooters in the trials underlined India's depth and bench strength in rifle and pistol shooting but that is no guarantee for a rich haul at the Olympics. For proof, one can go back to the Tokyo and Rio Games,

where India fielded 12 and 15-member teams and returned empty-handed on both occasions.

# On behalf of the federation, Deo thanked the Government of India, the Government of India, the Sports Ministry, and the Sports of Authority of India, who have "guided and supported us in every step of the preparations." Besides all 16 possible shots at a medal, in eight individual rifle and pistol events, India will also have a record five starts across the four individual shotgun events. Additionally, India will also field five mixed will also field five mixed

teams, two each in rifle and pistol and one in shotgun. K Sultan Singh, secretary general at NRAI, said, "The team is in good form and battle ready, consisting of as many as four Olympians and other senior shooters as well as a lot of extremely promising, confident and

promising, confident and matured young talent. "They have been training very systematically for a long time under the guidance and support of the entire training squad of the HPD (High-Performance Director), foreign coaches,

national coaches, the sports science team, the physios etc. Who have been steadfastly and minutely working towards one goal and that is to have a successful podium finish."

The NRAI will also be looking to exchange the spare quota place which has freed up because of Bhaker making it to two events, appropriately as per ISSF (International Shooting Sport Federation) rules.

# Euro 2024 will not feature Europe's top striker: Who else is missing?

## PTI LONDON

Gealkeepers and defenders: Exhale.

The most feared striker in Europe won't be playing at the European Championship.

That's because Erling Haaland's Norway didn't qualify.

Haaland's goal-scoring statistics with both club and country are staggering: 90 goals in 98 matches across all competitions in two seasons with Manchester City, and 30 in 32 matches for Norway since

his national team debut in 2019. But Halaand produced "only" five goals in six qualifying matches for Norway, which finished third in Group A behind Spain and Scotland and didn't even reach the playoffs.

Norway's absence also means that Arsenal and Norway captain Martin Odegaard won't be at the tournament in Germany.

Norway won only three of eight qualifiers and finished six points behind group runner-up Scotland. A look at some other top players who won't be at Euro 2024, which starts Friday

THIBAUT COURTOIS Thibaut

make two key saves during the first half of the Champions League final and help Real Madrid to another

title. But the Belgium goalkeeper announced in December that he would miss the Euros and has not backpedaled on his decision despite returning to full fitness for Madrid

after a long-term knee injury. There's also this: There are ongoing

tensions between Courtois and Belgium coach Domenico Tedesco. Courtois questioned Tedesco's "reality" after the coach accused him of abandoning his teammates and faking an injury before a qualifier last year.

Without the Madrid 'keeper, Tedesco's choices in goal are: Matz Sels (Nottingham Forest), Koen Casteels (Wolfsburg) and Thomas Kaminski (Luton).

KARIM BENZEMA Benzema retired from France's national team the day after "Les Bleus" lost the 2022 World Cup final without the striker.

Then last year he left Real Madrid for Saudi Arabian club Al-Ittihad and now, at age 36, his days at the top seem finished.

Benzema was awarded the Ballon Courtois was healthy enough to d'Or as the world's top player in

2022 but then missed the World Cup in Qatar that year after tearing left thigh muscle in pre-

tournament training. He also didn't play in France's victorious 2018 World Cup campaign because he was still exiled from the national team for his alleged role in a sex-tape scandal

with teammate Mathieu Valbuena. France coach Didier Deschamps has plenty of options up front without Benzema, led by captain Kylian Mbappé. France's other forwards include Bradley Barcola, Ousmane Coman, Kingsley Dembélé, Olivier Giroud, Randal Kolo Muani and Marcus Thuram.

Two more former France starters missing are midfielder Paul Pogba, who is serving a doping ban, and defender Lucas Hernandez, who recently underwent surgery after rupturing his left ACL

MARCUS RASHFORD The Manchester United striker paid the price for a disappointing season at

the club level and failed to make the cut for England coach Gareth Southgate's initial 33-man selection. Rashford managed just eight goals for a United team that suffered its lowest-ever Premier League finish eighth.

The omission comes only two seasons after Rashford had a careerbest campaign, scoring 34 goals for club and country.

Jack Grealish, Harry Maguire and Jordan Henderson - who all played in the final when England lost to Italy in a penalty shootout in 2021 were also left out by Southgate.

"These are difficult calls, you are talking about players who are very good players, who have been an important part of what we have done," Southgate said. "With Marcus, I feel players in the same area of the pitch have had better seasons, it's as simple as that." MATS HUMMELS Reaching the

the squad for host Germany. Hummels made a strong case for inclusion with his inspirational performances in Borussia Dortmund's run in Europe. But Germany coach Julian Nagelsmann said there were "1,000 components"

to the decision not to include the veteran defender. Nagelsmann sees Real Madrid's Antonio Rüdiger and Bayer Leverkusen's Jonathan Tah as his preferred central defensive pairing - and anyone else would need to be content with a backup role.

defender Nico Dortmund Schlotterbeck is evidently content to take the reserve role and did make the squad.

Bayern Munich midfielder Leon Goretzka was also left out, despite a strong finish to the Bundesliga season

SANDRO TONALI Newcastle midfielder Sandro Tonali is serving a 10-month ban for betting on teams he played for - ruling him out of consideration for defending

champion Italy. It leaves coach Luciano Spalletti without his top choice at playmaker but opens space for the likes of Jorginho and Lorenzo Pellegrini.

Tonali had seemed poised to inherit the role that once belonged to Andrea Pirlo by setting the pace and directing the attack for Italy's squad. Several other Italy players are out injured: Domenico Berardi, Nicolò Zaniolo, Francesco Acerbi and Giorgio Scalvini

# INDIA VS MINI INDIA: ROHIT & CO EYE BETTER BATTING SHOW AGAINST USA

### PTI NEW YORK

ndia's batting prima donnas would want to unchain themselves from the vagaries of a much-maligned drop-in track and chance their arms freely against an impressive-but-inexperienced USA in their group league game of the T20 World Cup here on Wednesday.

India, who are classified as A1 (irrespective of points), need just one more win to ensure their Super Eight berth and despite the two-paced nature of the Nassau County track, they wouldn't like a repeat of the match against Pakistan where they lost their last seven wickets for 28 runs.

Against USA, the approach could be a high-risk one like Pakistan but perhaps with higher dividends. Their dreams of wearing the

But unlike tactician-par-excellence Mahendra Singh Dhoni, who could bench him during CSK's bowling in the IPL, national skipper Rohit Sharma doesn't have such luxury and needs to hide him in areas of the field where the ball is expected to travel less. Dube is a monstrous hitter of spinners on good flat decks and his military medium seam-up stuff does give the Indian skipper cushion to manoeuvre with the bowling combination.

# Australia face Namibia with an eye on Super Eight; SL in must win situation against Nepal

## PTI NORTH SOUND (ANTIGUA)

Living up to the favourites tag with two consecutive wins, a confident Australia will aim to secure a Super Eight berth when they face lowerranked Namibia in their Group B T20 World Cup clash here on Wednesday.

Australia fired in unison to become the first team in this edition of the tournament to score 200-plus runs in a onesided 36-run win over arch-rivals England in their last group league match.

It was their second win from as many matches, having started off with a 39-run triumph over Oman. Beating Nambia will be enough for them to make the cut before they take on Scotland in their concluding

Group B league fixture. Scotland lead the table with five points and along with Australia, are firmly ahead in the race to make the Super Eight at the expense of defending champions England who have one point from two matches. Their opening game against Scotland was a washout.

Australia defeated Namibia by seven wickets after restricting their opponents to 119/9 in their only T20 meeting, albeit back. Playing his last World Cup for Australia, David Warner has been in splendid form with one half century and it was his 16ball 39 that set the tone for their 201/7 against England. Warner incidentally scored a fifty in the warm-up against Namibia as well. He has 97 runs in the tournament at a fine strike rate of 141.79. Warner's opening partner Travis Head has also been at his explosive best and the duo will look to give the team a fiery start. Namibia will expect their veteran all-rounder David Wiese to step up after he Africa and they are now faced starred in their Super-Over with a do-or-die clash against

win against Oman. The globe-trotting all-rounder has the experience of facing Australia four times in T20Is

# I am truly sorry: Akmal apologises for inappropriate comments against Arshdeep

## PTI LAHORE

Aday after being called out for making disrespectful comments against India pacer Arshdeep Singh, former Pakistan wicketkeeper-batter Kamran Akmal apologised for his "inappropriate" remarks while analysing the recent T20 World Cup clash between the two sides in New York.

In a viral video, Akmal was seen making fun of Arshdeep's Sikh religion, prompting a furious response from ace Indian cricketer-turned-commentator Harbhaian.

"I deeply regret my recent comments and sincerely apologise to Harbhajan Singh and the Sikh community. My words were inappropriate and disrespectful. I have the utmost respect for Sikhs all over the world and never intended to hurt anyone. I am truly sorry. #Respect #Apology," Akmal

in their chase of 120. Left-arm pacer Arshdeep performed the task to perfection, sealing a six-run win over the arch-rivals. Akmal, while

analysing the match on ARY News, made the controversial comments on

Arshdeep before he came in to bowl. "Kuch bhi ho sakta hai... Dekhe last over karna Arshdeep Singh ne hai. Waise uska rhythm nahi laga. 12 baj gaye hai (Anything can happen. The last over will be bowled by Arshdeep Singh; he hasn't looked in a great rhythm. And It is already 12)," he said. In the video reposted by Harbhajan, Akmal was also seen laughing with other panellists on the show. The Indian off-spinner lashed out at Akmal. "...You should know the history of sikhs before u open ur filthy mouth. We Sikhs saved ur mothers and sisters when they were abducted by invaders, the time invariably was 12 o'clock. Shame on you guys.. Have some Gratitude."

The win at the Nassau County International Cricket Stadium in New York put India at the top of Group A with four points from two wins.

PTI CHENNAI

The Colombian striker brings a wealth of experience and skill to the club, having been part of ISL for two seasons.

Wilmar made his ISL debut with NorthEast United FC in 2022. He then continued his impressive journey with ISL debutants Punjab FC the following season, scoring eight goals in 15 appearances.

Joining Chennaiyin on a oneyear deal, Jordan's arrival marks the club's fifth signing for the 2024-25 season and their third foreign acquisition, following Elsinho Dias and Chima Chukwu. The club had earlier announced an extension for captain Ryan Edwards.

"Wilmar has had a fantastic career and scored goals everywhere he has been. Scoring 24 goals in 33 appearances between NorthEast and Punjab is a great ratio for a striker. We are delighted to add that kind of firepower to our attack, coach Öwen Coyle said. Throughout his career, Wilmar

has excelled on various stages,

"I am very happy to be part of this great club and team, and very grateful for this great opportunity they have given me. With a lot of work, humility, and sacrifice, we can fulfill all the objectives we set for our-selves and win the title," Wilmar said.

In 2011, he joined Gyeongnam FC in South Korea before heading to Bulgarian side Litex Lovech in 2013, where he once again topped the scoring charts with 20 goals.

He has also had stints with Chinese Super League club Tianjin Teda, U.A.E. Side Emirates Club on loan, Portuguese club Chaves, and Colombian side Atletico Huila.

## It was not a good call for us: Hridoy on Bangladesh losing 4 leg byes due to DRS rule

PTI NEW YORK

The on-field umpire's The on-neid difference decision to adjudge veteran batter Mahmudullah Riyad LBW, which was subsequently overturned in a review, was a bad call that cost Bangladesh the match against South Africa, their young batter Towhid Hridoy has said. Bangladesh ended at 109/7 while chasing a target of 114 against South Africa. A contentious ICC rule saw them lose four leg bye runs when Mahmudullah was given out leg before by on-field umpire Sam Nogajski off an Ottneil

It doesn't look like the Caribbean Baartman delivery. The ball had crossed the

boundary ropes but it was deemed dead as Mahmudullah opted for DRS and got the decision overturned. As per ICC rules, no extra runs

(leg-byes or byes) can be given if on-field umpire gives a batter out LBW even if the decision is overturned by the third umpire. However, leg-bye runs can be awarded if the on-field umpire's decision of not out stays after a review.

"Actually, to be honest, that wasn't a good call. It was a tight

match. So, I think in my point of view, umpire gave out, but it's bit hard for us because those four runs would have changed the match scenario.

"So, I don't have anything to say about it," Hridoy said when asked about the four runs that Bangladesh didn't get.

The 23-year-old Hridoy, however, chose to side-step the query when asked whethe he agrees with the rule.

See, the rule, what the ICC has done is not in my hands but at that time those four runs were very important for us. I think the umpire has given the call and the umpire can give a call. They are also human beings and they could have made a

mistake. "But we had two-three more So, in a match like this, where
