Assembly polls and bypolls is scheduled on November 20 which will see second phase of Jharkhand, single phase Maharashtra and several bypoll Assembly pockets including that in Uttar Pradesh. Counting will be held on November 23, as per the Election Commission dateline. Though these by-elections are not going to have any bearing on the governments, they are seen as a big test for the Congress and the INDIA Bloc which failed to put up a united show in the recent Harvana Assembly polls. Most of these seats fell vacant after the sitting MLAs contested the Lok Sabha elections and won while in

ED raids multiple locations in Jharkhand, WB

PIONEER NEWS SERVICE ■ RANCHI

The Enforcement Directorate (ED) on Tuesday raided multiple locations in poll-bound Jharkhand apart from West Bengal in a money laundering investigation linked to alleged illegal infiltration of Bangladeshi nationals, official sources said A total of 17 places are being covered in the two neighbouring states by the Ranchi office of the federal probe agency, a day before the first phase of polling in Jharkhand.

(CRPF) personnel positioned outside a hotel located on Bariatu Road in Ranchi and a resort in the city were captured by press teams as ED teams scoured for documents, ledger entries and financial records inside. The ED in September filed a case under the Prevention of Money Laundering Act (PMLA) to probe an instance of alleged infiltration and trafficking of some Bangladeshi women into Jharkhand leading to the generation of alleged slush funds.

Prime Minister Narendra Modi and other Bharatiya Janata Party (BJP) leaders have accused the State Government of aiding such infiltration leading to the altering of the demographic landscape of the tribal-dominated areas of Santhal Pargana and Kolhan regions during the recent poll campaign. Uttar Pradesh Chief Minister Yogi Adityanath on Monday accused the ruling Jharkhand Mukti Morcha-led coalition of converting Jharkhand into a 'dharmashala' for Rohingyas and Bangladeshi infiltrators.

Overaged vehicles choking NCR

One crore end-of-life cars are still running on Delhi's roads

RAJESH KUMAR ■ NEW DELHI

As there is no letup in worsening air pollution in Delhi and its neighbouring region as the air quality index here remains in the 'very poor' category for the past 13 days, the Commission for Air Quality Management (CAQM) directed to launch actions to remove highly polluting end-of-life (EoL) vehicles (petrol vehicles older than 15 years and diesel vehicles older than 10 years) still reported to be plying in Delhi.

The National Capital Region (NCR) still has over one 1.06 Crore 'overage' vehicles (End of Life (EoL) running on the roads illegally and adding to the pollution. Of them, only 26,064 vehicles have been seized in 2023 and 6011 till September 2024.

In Delhi, the transport sector is the most significant contributor at 15.496 per cent, as per the Decision Support System data by the Indian Institute of Tropical Meteorology (IITM). The PM2.5 concentration is currently 40.4 times the World Health Organization (WHO) annual PM2.5 guideline value.

Data shows there are 60,14,493 such vehicles in Delhi. Of them, only 24,706 have been impounded so far. A survey by the Delhi government in October estimates there are 15,0000-2,00000 EoL vehicles still on roads. An estimated 1.1 million vehicles enter and exit Delhi daily, further worsening the air quality. The traffic congestion caused by this vehicle influx also intensifies pollution, particularly nitrogen oxides (NOx), which account for 81 per cent of NOx pollution in Delhi. Data shows that during peak traffic hours (5 pm - 9 pm), when average traffic speed drops to 15 km/h, NO2 levels are 2.3 times higher than noon levels (12 pm - 4 pm) when traffic speed averages 21 km/h.

These congestion-related emissions worsen air quality, especially during winter when inversion layers trap pollutants close to the ground. According to the Ministry of Road and Transport, Haryana has over 27.50 lakh while Uttar Pradesh has over 12.38 lakh such vehicles. Rajasthan has 6.06 lakh such vehicles. Transport department Officials said that there are a large number of EoL vehicles plying on the roads, causing traffic snarls here. In an order to Delhi, the Commission has directed that EoL vehicles should be denied fuel at petrol pumps and more importantly, immediate legal action should be taken against such vehicles, including impounding and further disposal in accordance with RVSF Rules, 2021 and other extant policies of the respective State Governments and the GNCT Delhi.

"As a deterrent measure, all such EOL vehicles are identified through the Automated Number Recognition (ANPR) camera systems at petrol pumps. Delhi has piloted one such innovative and effective solution which envisages Automated Number Plate Recognition (ANPR) camera systems which are in the process of being installed at all 500+

fueling stations in the capital city". 'These cameras, besides capturing and displaying the registration details o[all the vehicles that enter the premises of the fueling station, also have a provision of integration with VAHAN database and thus the status of "EoL" vehicles or vehicles without valid Pollution Under Control Certificate "PUCC" can be readily captured by the system. The system further has a provision for an audio message which is relayed in respect of such non-compliant vehicles entering the premises of the fueling station," it said.

"In view of the high polluting nature of EoL vehicles and considering that such a large fleet, while de-registered, is still reported to be plying, NCR States / GNCT of Delhi, there is an urgent need to launch / intensify drives against such vehicles. While much more intensified "onroad" drives should be taken up to guard against such overage vehicles plying on roads or parked in public spaces, suitable technological interventions and intelligent solutions also need to be employed towards identification / detection of such EoL vehicles still running in the

Canada temple cancels event amid protest threats

 Γ he Brampton Triveni temple in Canada has cancelled a consular event after the Canadian police warned them of an "extremely high and imminent" threat level of violent protests.

The Life Certificate event, organised by the Consulate General of India, Toronto, was scheduled for November 17 at the temple premises. It was part of the consulate's many camps for issuing Life Certificates for pension purposes. On Monday, the temple authorities said the event was cancelled due to "official intelligence from Peel Regional Police, stating that there is an Extremely High and Imminent Threat Level of violent protests".

...We must make the appropriate decision to cancel to ensure the safety of Brampton Triveni Mandir devotees, community visitors, and the general public," the temple authorities said in a statement. "We are deeply saddened that Canadians now feel unsafe coming to Hindu Temples in Canada," it added.

Temple authorities called on Peel Police to address the threats being circulated against the temple and provide security guarantees to the Canadian Hindu community and the general

The cancellation came almost a week after protestors carrying Khalistani flags clashed with devotees at a Hindu Sabha temple and disrupted an event co-organised by the temple authorities and the Indian Consulate at Brampton. Last week, the Consulate General of India in Toronto said it was cancelling some of its scheduled consular camps after the Canadian security authorities conveyed their inability to provide minimum security protection to its organisers.

After the protests at the Hindu Sabha temple in Brampton on November 3, the Ministry of External Affairs said that New Delhi remains "deeply concerned" about the safety and security of Indian nationals in Canada. India condemned the attack with an

expectation that those indulging in violence "will be prosecuted".

The relations between India and Canada have come under severe strain following Prime Minister Justin Trudeau's allegations in September last year of a 'potential" involvement of Indian agents in Khalistan extremist Hardeep Singh Nijjar's killing.

New Delhi rejected Trudeau's charges as "absurd." Nijjar, a Canadian citizen, was designated a terrorist by India.

Punjab's 'Aam Aadmi Clinics' Set for Rebranding to Secure NHM Funding

MONIKA MALIK ■ CHANDIGARH

am Aadmi Party (AAP) led APunjab Government's ambitious project - Aam Aadmi Clinics (AACs) — are set for a transformation as part of an agreement reached with the Centre to unlock nearly Rs 650 crore in withheld National Health Mission (NHM) funds. The change, a result of negotiations between the AAP-led Punjab Government and the BJP-controlled Centre, aimed at harmonizing the state-run healthcare clinics with the Central Government branding

For months, Punjab Government had faced funding obstacles from the Centre, which argued that the AAP Government's rebranding of Ayushman Bharat-Health and Wellness Centres to Aam Aadmi Clinics went against NHM guidelines. Sources revealed that around 400 out of the state's total 870 AACs will soon adopt a cobranded identity, merging elements of the original Ayushman Bharat design with Aam Aadmi Clinic features.

Under the same agreement, the pictures of Punjab Chief Minister Bhagwant Mann, prominently displayed on the removed. In exchange, Punjab expects to receive NHM funds in installments, bringing muchneeded support to the state's healthcare infrastructure.

Since early 2023, the Union Government had withheld NHM funding, totaling Rs 650 crore, citing branding conflicts. Additionally, Punjab's requests for a special assistance grant of Rs 1,100 crore also remained stalled due to the branding impasse. The Centre insisted that the clinics conform to the Ayushman Bharat identity, which includes specific colour schemes, logos, and standardized facades.

Sharing information on the sidelines of the 'Punjab Vision 2047' event at Punjab University on Tuesday, Punjab Health and Family Welfare Minister Dr Balbir Singh confirmed that a mutual agreement has now been reached, enabling a joint rebranding strategy that retains the state's autonomy over certain clinics while allowing others to incorporate Ayushman Bharat

Dr Balbir explained, "The clinics set up in state-owned buildings, primarily under the existing healthcare framework. will retain their original name and branding if fully state-fundship under the NHMs 60:40 funding model, however, a cobranded approach will be adopt-

Punjab Government's journey to establish AACs began shortly after the AAP came to power, emphasizing accessible healthcare. These clinics provide free consultations, 80 'free' diagnostic tests, and essential medications, primarily targeting underserved communities However, the rapid expansion of AACs led to friction with the Centre, as the AAP Government repurposed existing health centers and updated them with state-centric branding, sparking a funding dispute. Yellow-painted facades featuring Chief Minister Mann's photograph soon became a symbol of AACs' localized healthcare, but they also marked a deviation from the NHM's co-branded design requirements.

While the new co-branded format marks a compromise, it also signaled a significant win for Punjab's administration, which managed to secure both NHM and Ayushman Bharat recognition. These clinics will now prominently display Avushman Bharat logos and incorporate traditional art and motifs, aligning with the

clinics, especially those solely state-funded or housed in donated premises, will continue under the original AAC

branding.
Sources familiar with the discussions highlighted that the MoU between the Union Health Ministry and the Puniab Government, initially signed in 2021, had mandated strict adherence to Ayushman Bharat guidelines. Clauses outlined co-branding and local language compliance, yet Punjab's AAC transformation had strayed from the mandate, necessitating this recent intervention. Despite these challenges, the AAP Government argued that the clinics' rebranding as AACs enhanced their visibility and encouraged community engagement, supporting the broader mission of equitable healthcare.

With this compromise, Punjab's government expects to receive NHM funds in phased installments, amounting to approximately Rs 650 crore, aimed at scaling healthcare access across the State. Dr Balbir anticipated that the phased release will commence within the fiscal quarter, breathing new life into Punjab's healthcare

Haryana govt prepares blueprint to provide 2 lakh low-income people 100 s yard plots

PNS CHANDIGARH

'The successful implementation of the scheme will enhance the living standards of poorer families, allowing them to lead safe and dignified lives in their own homes, Ganesan said. a crucial step to safeguarding the future of agriculture in the adopting these new practices.
In his address, Mann sounded the alarm over the Mann, speaking at the International Conference on unsustainable water usage for rice cultivation, revealing that growing just one kilogram of rice requires 3,000 liters of 'Transforming AgriFood Systems in the Face of Climate water. He pointed out that the state's extensive reliance on groundwater, pumped using energy-intensive motors, had contributed to the depletion of water resources. "This situation is unsustainable and threatens the very foundation of Punjab, a state that is named after five rivers," he said.

To combat this, the Chief Minister advocated for the introduction of alternative water-saving crops, urging scientists to work with farmers to make the transition easier and more viable. "We must adopt proactive measures to address the growing water crisis and ensure that Punjab's agriculture remains sustainable for future generations," he said, adding that failing to act would have dire consequences for both the environment and the agricultural economy.

He emphasized that agriculture is not just an economic activity for the state, but a way of life for millions of its people, and therefore, protecting it must be a top priority.

PNS CHANDIGARH

Punjab Chief Minister Bhagwant Mann on Tuesday called for immediate conduct of Senate elections in Panjab University, Chandigarh, and sought the intervention of Vice President of India Jagdeep Dhankhar to resolve the matter. Mann, in a letter to Dhankhar, highlighted the delay in holding the elections, despite the current Senate's term expiring on October 31, 2024.

Mann emphasized the emotional and cultural significance of Panjab University for the state, which was established under the Punjab University Act, 1947, to compensate for the loss of the Lahore University post-partition. He stressed that since the University's inception, elections to the Senate have been held every four years, typically in August or September. However, this year, the elections have yet to be conducted, causing widespread discontent Chandigarh to ensure timely

The Chief Minister expressed concern over the potential replacement of the democratic election process with nominations — a move he believed would undermine the University's democratic principles and diminish the role of the graduate electorate. EC Transfers DSP Amid Allegations of Gangster Influence in Dera Baba Nanak

PNS CHANDIGARH

The Election Commission of India (ECI) has taken swift action in response to serious allegations surrounding the ongoing by-election in the Dera Baba Nanak assembly constituency in Gurdaspur district, transferring the Deputy Superintendent of Police (DSP) Jasbir Singh of Dera Baba Nanak to the Punjab Police headquarters in Chandigarh. plaints made by Congress MP Sukhjinder Singh Randhawa, who accused gangster Jaggu Bhagwanpuria, currently incarcerated in Haryana's Kurukshetra Jail, of influencing voters to back the AAP candidate in the November 20 elec-

The ECI has approved the name of Joga Singh, Kapurthala DSP, to take over as DSP of Dera Baba Nanak. Randhawa, a former Deputy Chief Minister and the husband of Congress candidate for Dera Baba Nanak Jatinder Kaur, filed a complaint with the Election Commission on Friday, claiming that the "jailed gangster" Jaggu Bhagwanpuria was using video calls from prison to intimidate voters and Congress workers, urging them to vote for the AAP candidate Gurdeep Singh Randhawa.

Randhawa further alleged that Bhagwanpuria's mother, Harjit Kaur, was visiting the homes of Congress-supporting Sarpanches in the constituency, threatening them to support AAP or face the consequences from her son. Despite reporting the matter to local police authorities, Randhawa claimed that no action was taken, suggesting that the gangster was operating with government

Vigilance on 'Gangster' In response to these allegations, Punjab Chief Electoral Officer (CÉO) Sibin C has written to the Harvana Prisons Department, requesting height-ened surveillance of Bhagwanpuria in Kurukshetra Jail. The request came after serious concerns were raised by Batala Senior Superintendent of Police (SSP) Suĥail Mir Qasim regarding potential illegal communication by the gangster from prison. The CEO's letter emphasized the importance of immediate action, including a thorough inspection of Bhagwanpuria's jail cell and the

Gidderbaha Returning Officer (RO) Jaspal Singh Brar confirmed that both politicians have been given

Deployment of Paramilitary

In a bid to ensure free and fair elections, the Election Commission has deployed two companies of Central Armed Paramilitary Forces (CAPF) to maintain peace and security in Dera Baba Nanak constituency. Randhawa had earlier requested the deployment of

paramilitary forces to safe-

guard against the alleged influence of gangsters in the election process. The by-election in Dera Baba Nanak, set for November 20, is crucial for Randhawa, whose wife, Jatinder Kaur, is vying for the seat. The seat became vacant after Sukhjinder Randhawa was elected as the MP for Gurdaspur earlier this year. Despite the gravity of the accusations, a district police official mentioned that no direct evidence had been found to substantiate the claims, as no voters or Congress workers came forward to confirm they had received threatening calls from Bhagwanpuria. Nonetheless, the case has raised significant concerns about the influence of organized crime on the electoral process in Punjab.

Manpreet Accused of Promising Govt Jobs to

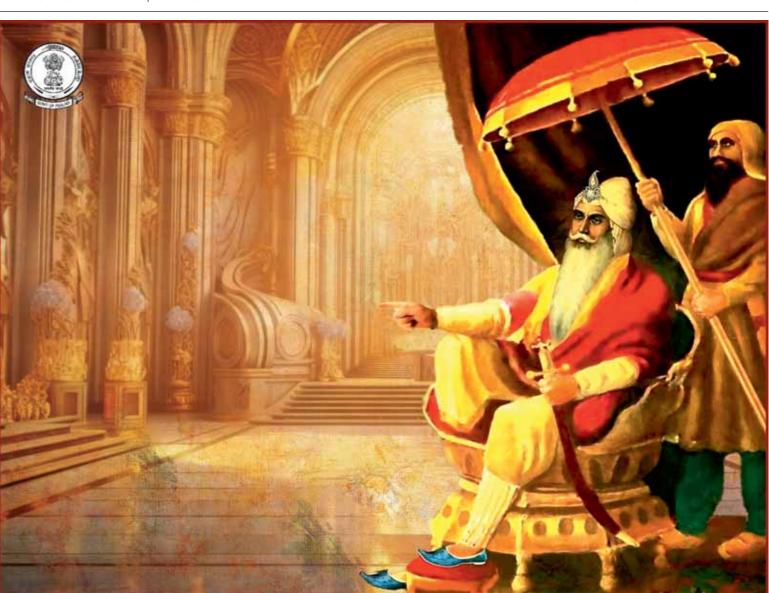

The complaint against BJP candidate Manpreet Singh Badal, who is contesting the Gidderbaha seat for the sixth time, came after a video surfaced on social media. In the video, Manpreet was seen addressing a crowd, claiming

The video quickly went viral, prompting the Muktsar District Public Relations Officer to submit a formal complaint to the Election Commission. The allegation was that Manpreet was attempting to sway the rural electorate by promising them government jobs in return for their support. However, the BJP leader clarified the issue on social media, explaining that he was only offering guidance to rural youth regarding job opportunities and suggesting institutions that could help prepare them for the competitive exams required for government positions. Despite the clarification, both Congress and AAP have raised concerns about the potential breach of the model code of conduct.

Warring Accused of Electioneering at Mosque

In another development, Punjab Congress president Warring has been served a notice for allegedly violating the Religious Institutions (Prevention of Misuse) Act. The complaint, lodged by Punjab BJP leaders, stemmed from Warring's visit to a mosque in Gidderbaha on Sunday, where he reportedly addressed a gathering during the campaign in support of his wife Amrita. The issue arose when Warring posted photos of the event on his social media account, showcasing him addressing voters at the mosque. BJP leaders accused him of using religious spaces for political purposes which for political purposes, which they claimed goes against the principles outlined in the Religious Institutions (Prevention of Misuse) Act. Deliver tangible results

With 2024 set to be the hottest year on record, the stakes for COP29 are higher than ever

he 29th annual UN climate summit, COP29, has officially begun in Baku, Azerbaijan. This year's conference brings together diplomats, climate experts, activists, and political leaders from nearly 200 countries to address critical issues in the fight against climate change. However, the event is already facing challenges, both from the host country's fossil-fuel-centered economy and the re-election of Donald Trump as US President, which could impact future climate commitments from one of the world's largest emitters. COP29 is being held in Azerbaijan's capital, Baku, a decision that has sparked criticism from environmentalists worldwide, with activists like Greta Thunberg referring to the summit as a "greenwash conference." This year's COP has been dubbed the "Finance CoP" due to its focus on securing adequate funding for climate action. Low-and middle-income countries are advocating for significant financial support to help them reduce greenhouse gas emissions and transition to renewable energy. The UN esti-

mates that developing countries, excluding China, need more than \$2 trillion annually by 2030 to make meaningful progress.

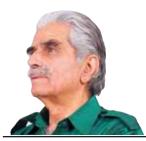

The current debate centers on who will finance these initiatives. In 2009, wealthier nations pledged \$100 billion annually in climate financing for developing countries, a goal they only reached two years behind schedule. Now, many of these recipient countries are calling for a new target of at least \$1 trillion per year to effectively address climate challenges. Countries such as China and the UAE, which are still classified as "developing" but are major emitters and fossil-fuel producers, face pressure to contribute more substantial-

ly to the climate finance fund. Another core issue at COP29 is the review of Nationally Determined Contributions (NDCs), the plans each country submits outlining their goals to reduce greenhouse gas emissions. With the next round of NDC updates due in early 2025, this summit is a crucial opportunity to solidify targets that align with the Paris Agreement's goal of limiting global temperature rise to 2 degrees Celsius by 2100. The hope is that countries will commit to more ambitious emission reductions and be transparent about their paths toward net-zero emissions. COP28, held in Dubai in 2023, marked the first time a COP agreement openly called on countries to transition away from fossil fuels. However, progress has been inconsistent. The International Energy Agency's (IEA) tracking tool, established in April 2024, shows mixed results, with many countries struggling to meet their renewable energy targets. COP29 in Azerbaijan faces substantial challenges, from balancing climate goals with fossil fuel interests to addressing the financial needs of developing nations. If COP29 is to be a success, it must result in tangible commitments to climate finance, renewable energy, and unity among nations. This will be essential to ensuring that COP29 is remembered as a turning point in the global response to climate change—not as a missed opportunity.

Domestic tensions add to Oli's predicament

Amid a mounting internal criticism, Nepal's Prime Minister KP Oli faces daunting challenges, from managing a coalition to dealing with China

Diwali and Tihar vacation in Nepal is continu-Here is a flash report from Pokhara. After a turbulent 18month rule, in which former Prime Minister Prachanda had to seek a vote of confidence five times, the two leading parties Nepali Congress and Unified Marxist Leninist unholy alliance ended CPN(Maoist) kingmaker Prachanda's rule of just 32 seats in a 205-member house. PM KP Oli-led coalition is short of a two thirds majority. They share 4 to 3 in NC's favour in ruling the seven provinces. The promise of Ram-Rajya is unlikely to materialise. Two things stand out: an uneasy stability in government; and Oli's apparent unpopularity. Oli's only claim in his first 100 days is a positive stock market. And breaking the tradition of a Nepalese PM's first overseas visit to India by going first to China from 2 to 6 December, which high profile foreign minister Arzu Rana is organising. India not inviting Oli to become PM is a deliberate omission which was served to late PM Sushil Koirala also a decade ago. Oli's standing as a leader has

diminished because he is a junior partner to NC which is seen favoured by India, and due to his apparent loss of control and power over UML. A front-page report in Kathmandu Post (5 November) illustrates this. But alleged corruption cases against him and his supporters including the super department store chain Bhat Bhateni owner Min Bahadur Gurung have dimmed his reputation. On occasions, he was greeted with the chant "Oli chor, desh chhod". Still, Oli retorted: "wait and watch my party perform during 2027 elections". He is hoping to resuscitate his image from his visit to China. His stock with India is low. While Rana was given a red carpet welcome in India – meeting PM Modi, NSA Ajit Doval and Secretary to Prime Minister PK Misra – Oli's vith Modi on the sidelines of UNGA was low-key. The China visit will have the Oli hallmark. He will meet President Xi Jinping, his counterpart Li sign and ratify 'the Border

The Xi visit was unique because none of the agreements signed had been implemented. A power trade agreement may be facilitated now after the completion of the 220 KVA transmission line from Rasuwagarhi to Kirung to sell power from Chinese hydro projects.It is in the energy sector that Nepal will eventually prosper. Bangladesh, Nepal and India signed a tripartite agreement for the 40MW sale of Nepal electricity to Bangladesh in the rainy season. India holds the key to the development of Nepal's power sector. Nepal is complaining about the Bureau of İndian Standards withholding certification of exports, especially with Chinese components which will hit Kathmandu, not Beijing. The opposition is in disarray with former Home Minister, once a rising star, Rabi Lamichhane, back in jail for the Pokhara Cooperative fraud. His party and his image have taken a beating though independents like Kathmandu Mayor, Balen Shah and Dharan Mayor, Harka Sampang, are progressing relentlessly to clean politics.

ularity may appear to be rising, a return to constitutional monarchy is unlikely despite his recent visit to Bhutan which triggered unusual speculation. It is India that is making quiet gains, the embassy keeping a low profile, letting PMO Delhi run the show. Lingering negativity about Indian interference has all but vanished. On Agniveer, the feeling among Indian Gorkha ex-servicemen is that Nepal should lift the embargo on it. "Something (even four years service) is better than nothing". Foreign Minister S Jaishankar's remarks in July on Agniveer (relating to Nepal) were clear. "India's foreign policy is determined by its national interest. Not by any other country". The message reportedly conveyed to Arzu Rana in Delhi was: "no change in terms of engagement on Agniveer" even as a review

Organic farming: Cultivating a climate-conscious future

Organic farming is emerging as a sustainable agricultural solution,

offering an eco-friendly alternative to conventional farming practice

ith a growing focus on environmental issues, organic farming has emerged as a powerful ally in the fight against climate change. As global temperatures climb and natural ecosystems deteriorate, there is a shared conviction among scientists, environmental activists and farmers about the pressing need to create sustainable methods for food production.

Organic agriculture holds significance not just for cultivating food without synthetic pesticides and fertilisers, but also for fostering farming systems that harmonise with nature. Could organic farming be the answer to the cli-

mate crisis? The fundamentals of organic farming lies in its significant potential to greatly diminish greenhouse gas emissions. The production of these, in conjunction with chemical pesticides, demands significant amounts of fossil fuels, whereas organic farms prioritise natural fertilisers and composts that enhance soil health over time. Environmental scientists, states, "Soil in organic farms often contains more carbon

because of the organic matter used." Healthier soil retains more moisture and serves as a carbon sink, effectively capturing CO? from the atmos-

Organic farming promotes a rich variety of life forms. The importance of biodiversity cannot be overstated when it comes to creating resilient ecosystems. Traditional monoculture farming strips the soil of essential nutrients, reduces the diversity of habitats, and leaves crops vulnerable to numerous pests and diseases. Organic farming often embraces a variety of crops, fosters the growth of wild plants in and around the farm, and supports pollinators like bees and butterflies. Organic farms can have as

species richness than conventional farms, allowing for a greater diversity of birds, insects, and other wildlife to flourish alongside agricultural activities. This is similarly true regarding the conser-

vation of water. Organic farms utilise techniques such as mulching and crop rotation to effectively conserve water. These methods enhance the soil's composition and increase its ability to retain moisture. This is why the organic farm is more adept at managing droughts, as numerous regions impacted by climate change are grappling with this issue. Through organic farming, we're cultivating more than just crops; we're fostering a sustainable water cycle.

much as 30 per cent greater While there are several advan-

tages to consider, some contend that relying solely on organic farming may not suffice to nourish the global population, as it tends to produce lower yields compared to traditional practices. Incorporating organic practices, such as crop rotation and minimising reliance on chemicals, into extensive agricultural operations significantly impacts the fight against climate change. Organic farming may not be

a perfect solution, yet its environmental advantages are clear: reducing carbon emissions, conserving water, and boosting biodiversity are integral components of a comprehensive strategy in sustainable agriculture. As consumers, we can contribute by opting for organic products whenever we have the chance. Together, we can achieve significant strides towards a more sustainable world. The path to achieving climate resilience is intricate; nonetheless, by embracing organic farming, we can cer-

Madam — Apropos your editorial, "A rich legacy," published on November 11. Justice DY Chandrachud's tenure as the CJI of India, which concluded on last Sunday, was marked by transformative rulings and substantial reforms, carving out a unique legacy in the Indian judicial history. The list of judgements penned by him is long and covers almost all aspects of law. They blend scholarship and jurisprudence and are likely to inform both future decisions and how the law is studied. Striking down the Electoral Bonds Scheme and upholding the abrogation of Article 370 are among his influential verdicts that stand pillars of his legacy.

His decisions resonate not only within the corridors of the Supreme Court but also in the lives of countless Indians whose rights and freedoms he defended. Through humour, resilience, and an unwavering dedication to constitutional ideals, Chandrachud exemplified judicial leadership. As India's judicial landscape evolves, his tenure will be remembered as a testament to the power of law to uphold equality, integrity, and the spirit of democracy. Ranganathan Sivakumar | Chennai

PRIORITISE MENTAL WELLBEING

Madam—Apropos to "Creating a workplace culture that truly supports mental health," published on November 11. It is good that they chose to focus on mental health in the workplace on Mental Health Day on October 10. Because the way few professionals in both the private and government sectors have taken their lives due to undue work pressure in the last few months is alarming, to say the least.

Now a days, whoever is entering the corporate world is expected to be mentally strong to cope with the rising pressure and huge mismatch in work-life balance, but how would we justify the death of a young girl who has done well academically to clear CA and get into one of the top 4 consulting firms in the country and was forced to take her life in Pune? We in India have a very abysmal psychiatrist-patient co consumption in government offices

Shakti branches of Union Bank of India for women entrepreneurs in a step to

ratio. We have 0.75 psychiatrists per 100,000 mental patients against the prescribed 3 psychiatrists. Though things are changing a bit and people are approaching mental health professionals after many celebrities have opened up about this, we still need to cover a long distance in terms of enhancing mental health infrastructure and speak openly about this

GoI would need to go all out to open thousands of mental health education institutes and hospitals to bridge this huge gulf and encourage young students to take up this profession. We will have to teach our children about the importance of mental and emotional health and need to bring a drastic change in our society when it comes to talking about mental health issues. There should not be any stigma attached to it.

FIRST COLUMN BLESSINGS OVER BILLIONS

If we want to be happy, then we should earn blessings which is our real wealth

RAJYOGI BRAHMA KUMAR NIKUNJ JI

e all love money ...don't we? It's a fact that money makes the world go round because it can make the impossible possible and the unimaginable real. Hence, it won't be an exaggeration to say that money can do almost everything. (At least those who have it feel so for sure) There is a famous Hindi film song that says "The whole thing is that ki bhaiya Sabse Bada Rupaiya". We all have experienced how money can make people change their moods and colours in a jiffy. Haven't we? It can close the eyes, seal the mouth and deafen the ears wherever needed. We have seen in many scenes of movies how witnesses of crime turn a blind eye and a deaf ear and maintain a stony silence even though they know the truth.

Similarly in the world of business, money is the prime force behind the movers and shakers of mega deals, mergers and break-ups. Whether it's sports, entertainment or any other business, money can make cutthroat competitors get into cooperative mode in mutual interest. Money can match the mismatched, miss targets and change roles. At present it is observed that money has a considerable clout even in matters of faith. Like, it can gain you easy access to the holy citadels of godmen who may anoint you as their ardent follower. With money, you can also have a quick darshan of your favourite lord at the temple without having to wait in long queues. The list is unending. In short, money can buy anything and everything under the sun that can be bought. Though money creates this illusion that we are living in paradise money cannot

do any of the following for us. Like, money can buy us a beautiful house but not a happy home; it can buy us delicious food and expensive healthcare but not good health; it can provide us with high security but it cannot guarantee even minimum safety; it can buy us countless things for entertainment but not cheer and joy; it can buy us a comfortable bed but not sound sleep; it can buy name and fame but not real respect; it can buy the best contacts and relations but not true and honest love; it can buy crowns and thrones but not real power; it can buy good education but not intelligence and wisdom & lastly it can bail us out from the worst crimes but it cannot help us escape divine justice & buy us liberation from our sins and sufferings.

So, no matter if money does make the world go round, at the end of all the going round, we reach nowhere and get nothing substantial and real and end up being more impoverished than ever. Since ages, our scriptures and sages have spoken about the vices and virtues. Of all the vices like lust, anger, attachment, greed and ego, the most dangerous and subtle is "Greed". It is said that greed is such a kind of hunger that's never satisfied. Our desire for food ends when our hunger is appeased, our anger also subsides when its purpose is achieved, but! Greed is not satisfied even if we get the kingdom of the whole world.

Hence, it is this tendency, which is created by wealth, in a person who possesses it, that leads to corruption at all levels. So, does it mean one should not recognise the importance of money? Not really! Instead, we must understand that money or wealth is merely a tool that has to be used wisely and without greed, attachment or selfishness to create happiness for all. Hence, as long as we use it as a master's, it will bring us benefit and happiness. As soon as we become slaves to it, it will bring loss and misery. An enlightened person would always use money for the maximum good of a maximum number of people, whereas for a spiritually empowered soul, money becomes a tool to create good karma and a good destiny for the self and others. So, the story's moral is that money has never made man permanently happy, nor will it. Hence if we want to be happy, then we should earn blessings which is our real wealth and which would go along with birth after birth. Think about it!

Staying grounded: Lessons from the 1984 elections and anti-Sikh riots

Both politicians and journalists risk misjudgment when they distance themselves from the realities on the ground

he 1984 election results were a shock to 👢 many. Rajiv Gandhi won a record-breaking 414 seats, toppling major political figures. Veteran leaders like Atal Bihari Vajpayee and Chandra Shekhar faced unexpected defeats-Vajpayee in Gwalior and Chandra Shekhar in Ballia. But this story is less about the triumphs or losses and more about a crucial lesson this journalist learned from an open-hearted conversation with Chandra Shekhar. In an interview, this journalist asked the seasoned leader if he had anticipated the wave that swept away even stalwarts like himself.

Shekhar replied candidly: "To be honest, I had become

disconnected from the grass

roots. I didn't realise there was such a wave." This realisation left a lasting impact on the journalist, shaping their perspective going for-

The same kind of shock had reverberated through the nation during the 1977 elections, but in the opposite

ousted from power, losing her own seat in Rae Bareilly, while her son Sanjay Gandhi lost in Amethi.

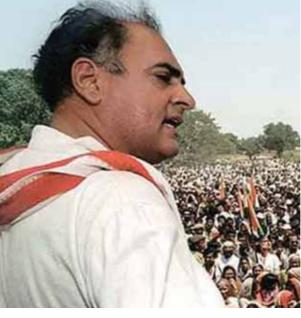

The Congress party was routed, failing to win a sin-gle seat in Uttar Pradesh or Bihar. Despite her stature and the counsel of her closest advisors, Indira Gandhi had also become detached from grassroots sentiment. This disconnect was something this journalist later witnessed in the field of journalism itself. During the 1984 anti-Sikh riots, this journalist returned from the field after witnessing the violence firsthand.

His editor, Ayub Syed, was discussing the events with a senior journalist, OP Sabherwal, who was

Sabherwal likened the situation to 1947, predicting that the riots would continue indefinitely.

The journalist respectfully intervened, sharing what he had observed in RK Puram: a Gurdwara under attack, granthis being rescued by the army, looters scattering when a single soldier raised his hand, and a crowd dispersing with just a shout. He explained to his seniors that the violence was being stoked by the Congress government, with rioters emboldened by police assurances of impunity. The journalist conveyed that

the riots were far from uncontrollable and could be stopped whenever the government chose. And he was direction. Indira Gandhi was analysing the riots from afar. proven right; the violence

ceased once the government decided it had gone too far. The lasting lesson? Whether a politician or a journalist, detachment from reality clouds judgment. Without a connection to the ground, even the most obvious forces at play can go unseen.

The 1984 election and subsequent events taught a vital lesson about staying con-nected to the grassroots. Rajiv Gandhi's landslide victory, which swept aside prominent leaders like Atal Bihari Vajpayee and Chandra Shekhar, highlight-ed how even seasoned politi-cians could lose touch with

public sentiment. În a candid interview, Chandra Shekhar admitted his own disconnect from the grassroots, mirroring

the misjudgment that cost Indira Gandhi the 1977 election. This theme resonated again during the 1984 anti-Sikh riots, where a journalist's firsthand observations clashed with distant analyses in the newsroom. The violence, stirred by political agendas, was ultimately controllable when authorities chose to act.

The takeaway? For both politicians and journalists, a disconnect from on-theground realities can obscure clear judgment, leaving critical forces unrecognised. Staying rooted is essential to understanding and addressing the true dynamics at play in any situation.

Amsterdam police warn of fresh unrest | UK supports India for a day after rioters torch tram

senior police officer Awarned Tuesday of calls for more rioting in Amsterdam, after dozens of people armed with sticks and firecrackers set a tram on fire Monday night as the city faces tensions following violence last week targeting fans of an Israeli soccer club. Olivier Dutilh, of the Amsterdam police force, told a court hearing that "we have signals that there are calls for similar" unrest in the west of the

Police said the fire Monday was quickly extinguished and riot officers cleared the square. Images online showed people damaging property and setting firecrackers. There were no reports of any injuries.

Police said it was not clear who started the unrest and whether it was related to what happened last week. Some rioters could be heard on video shared on social media using slurs against Jewish people

Police noted the tense atmosphere since five people were treated in the hospital and dozens detained Thursday following a Maccabi Tel Aviv-Ajax match. Youths on scooters and on foot went in search of Israeli fans, punching and kicking them and then fleeing to evade

Reports of antisemitic speech, vandalism and violence have been on the rise in Europe since the start of the war in Gaza, and tensions mounted in Amsterdam ahead of Thursday night's match.

The mayor has banned all demonstrations in the city and declared several parts of Amsterdam risk zones where police can stop and check anyone. Dozens were detained on Sunday for taking part in a pro-Palestinian demonstration in central Amsterdam that had been outlawed. permanent UNSC seat

The UK has reiterated its The or has remainent membership for India in the United Nations Security Council (UNSC) as part of an expansion of the international panel to ensure it can continue to rise to the pressing challenges faced by the world. In an address to a UN General

Assembly plenary in New York on Monday, UK Ambassador to the General Assembly Archie Young reflected upon Prime Minister Keir Starmer's statement at the UNGA back in September calling for UNSC reforms to ensure the global multilateral system is "more representative and more responsive".

Besides India, Young stressed that the UK wants permanent representation for Africa,

Brazil, Germany and Japan. "The UK believes that a reformed Council, coupled with a collective, renewed commitment to the UN Charter, would strengthen the Council, so it can continue to rise to the challenges the world is facing; that is why we remain a strong supporter of UN Security Council Reform. The Council must be expanded, to better reflect the world today," said

"We continue to support an expansion in both the permanent and non-permanent categories of membership to a total in the mid-twenties. We want to see permanent African representation, and permanent seats for Brazil, Germany, India and Japan," he said.

Reflecting on the 2023 Security Council reform agenda at the UN General Assembly, Britain's UN representative recalled the perilous and dangerous state of the world at the time and the challenge this posed to the

multilateral system.

He noted: "A year later, the situation is even more acute, and the need to strengthen our multilateral system through reform, ever more pressing During his address to the UN General Assembly September, my Prime Minister

reflected on the increasingly complex and interconnected challenges the world, and our multilateral system, are facing," he said. "Conflict touches more countries now than at any time in the history of the United Nations, exacting a terrible human toll in Ukraine, Gaza, Sudan, and elsewhere in the world. The Security Council's role - and its responsibility for international peace and security – is as important now as it has ever been," he added.

Young admitted that agreeing on a model of reform for the Security Council will be "difficult" but asserted the importance of tackling the issue.

"It is incumbent on all of us to work together, in the spirit of compromise, to deliver the change we know is needed. The UK is committed to doing just that, and we look forward to detailed and constructive discussions in the intergovernmental negotiations, which we hope will move us forward towards text-based negotiations," he added.

The UK's intervention came as Permanent India's Representative to the UN Parvathaneni Harish also focussed his address at the plenary session on urgent UNSC reform

"As we begin this year's deliberations, we note that the reform of the UN Security Council was once again identified as a critical and immediate priority at the summit of the future discussions by our leaders. However, in spite of several decades of collective reiteration of this sentiment, it is disheartening that we have had no results to show in this regard since 1965 when the Council was last expanded in the nonpermanent category alone," he

Haiti's main airport shuts down as gang violence surges

AP PORT-AU-PRINCE

Haiti's international airport shut down on Monday after gangs opened fire at a commercial flight landing in Port-Au-Prince, prompting some airlines to temporarily suspend operations as the country swore in a new interim prime minister who

promised to restore peace. The Spirit Airlines flight headed from Fort Lauderdale, Florida, to Port-Au-Prince was just hundreds of feet from landing in Haiti's capital when gangs shot at the plane striking a flight attendant, who suffered minor injuries, according to the airline, the U.S Embassy and flight tracking data. The flight was diverted and landed in the Dominican Republic.

Photos and videos obtained by The Associated Press show bullet holes dotting the interior of a plane.

part of what the US Embassy called "gang-led efforts to block travel to and from Portau-Prince which may include armed violence, and disruptions to roads, ports, and airports." Spirit, JetBlue and American Airlines said Monday they were cancelling flights to and from Haiti. In other parts of Haiti's capi-

tal, firefights between gangs and police broke out. Rounds of gunfire echoed through the streets as heavily armed officers ducked behind walls and civilians ran in terror. In other upper-class areas, gangs set fire to homes. Schools closed as panic spread in a number of

The turmoil comes a day after a council meant to reestablish democratic order in the Caribbean nation fired the interim prime minister Garry Conille, replacing him with businessman Alix Didier Fils-Aimé. The council has been marked by infighting and three members were recently accused of corruption. As he was sworn in, Fils-Aimé said restore peace to the crisis-

stricken nation and hold elections, which haven't been held in Haiti since 2016.

There is a lot to be done to bring back hope," he said before a room of suit-clad diplomats and security officials. "I'm deeply sorry for the people ... that have been victimized, forced to leave everything they own.

The country has seen weeks of political chaos, which observers warned could result in even more violence in a place where bloodshed has become the new normal. The country's slate of gangs has long capitalized on political turmoil to make power grabs, shutting down airports, and shipping ports and stirring

 $S_{vulnerability}^{potlighting} \ \ {}^{a} \ \ {}^{critical}_{the}$ cybersecurity landscape, a recent report has said while Indian businesses actively looking to capitalise on AI and investments are rising, only 39 per cent of them are prepared to survive a prolonged ransomware

Cybersecurity firm Sophos on unveiled "Cybersecurity Playbook for Partners in Asia Pacific and Japan", which stressed the urgent need for enhanced measures organisations increasingly face sophisticated cyber threats, especially those augmented by artificial

The findings revealed that while 70 per cent of Indian organisations have implemented cloud security strategies and over half of the respondents surveyed are in AI-driven investing measures, significant gap remains in

overall preparedness. "Only 49 per cent have established security maturity frameworks and 44 per cent report meeting security standards. Additionally, just 39 per cent feel prepared to withstand a prolonged ransomware underscoring the ongoing need for robust cybersecurity advancements," the report

While Indian businesses are embracing AI to enhance they recognise its dual nature both as an asset and as a potential security risk, it added.

The research, conducted in 2024, surveyed 900 companies across India, Australia, Japan, Malaysia, the Philippines, and Singapore, of which 200 were from India.

Commenting on the dual nature of AI in cybersecurity, Sunil Sharma, Vice President of Sales for Sophos in India, said enterprises are taking AI seriously, both as a powerful ally and a potential threat. "The fact that organisations

are significantly boosting their cybersecurity budgets is a great sign that the country is committed to protecting its digital infrastructure. growing investment in key areas such as threat detection, incident recovery, and data protection not only reflects businesses but also highlights their readiness to tackle the complex challenges posed by AI-driven cyber risks," he

Further, the survey revealed that only 5 per cent of Indian firms depend on a single security vendor, while 71 per cent utilise three or more to handle their cybersecurity demands.

Multi-vendor setups are anticipated to increase as businesses look specialised, adaptable solutions.

The increasing investments in cybersecurity and the preference towards multiple expert vendors present a significant opportunity for MSPs to help enterprises improve their customers' defences with a customised approach, Sharma said.

TROPHY

Before the Zverev-Rublev match, Sinnner received the trophy for finishing the year at No. 1 in the rankings.

"There's no place better to celebrate this trophy," Sinner said as his mom, Siglinde, looked on in tears. 'Thanks for all of your support."

Sinner is playing at home for the first time since it was announced before his U.S. Open title that he tested positive in two separate drug tests this year.

A decision to clear Sinner of wrongdoing was appealed by the World Anti-Doping Agency in September.

Tannik Sinner was awarded the trophy for finishing the year at No. 1 in the rankings before his home fans at the ATP Finals.

Sinner won the Australian Open and U.S. Open for his first two Grand Slam titles. He mathematically secured the year-end No. 1 a month

"There's no place better to celebrate this trophy," Sinner said as his mom, Siglinde, looked on in tears. "Thanks for all of your support." The 23-year-old Sinner is

Manassero looks to cap career revival in Dubai as McIlroy eyes season-ending title

AP DUBAI

 $M_{
m golf}$ five years ago at the age of 26, tormented by a sport that gave him so many highs but was no longer making him feel happy.

On Sunday, he could punch a ticket to play across the Atlantic on the lucrative PGA Tour and be back in the big time, where so many think his

game belongs.
The 31-year-old Italian will look to cap his career revival this week by becoming one of 10 players from the European tour to be eligible to claim dual membership and a PGA Tour card for the 2025 season. The season-ending World Tour Championship starts on Thursday in Dubai and only an unlikely turn of events will deny Rory McIlroy from being crowned as the European tour's best player for a sixth time, leaving him two off Colin Montgomerie's

record haul.

There will be more suspense elsewhere, though, notably in that race for those PGA Tour cards — a structural tweak created in 2022 in the wake of the so-called strategic alliance between the European tour and PGA Tour in the face of mounting pressure from the breakaway LIV Golf series. The presence of Manassero in

the 10-man list, as it stands, only elevates the interest Blessed with a smooth swing and a deft touch, Manassero

was a golfing prodigy, winning the British Amateur in 2009, the silver medal at the British Open for low amateur the same year, and also becoming the No. 1 amateur in the world.

By 2013, he'd won four events on the European tour — including the BMW PGA Championship, the flagship event on the tour, to move

into the world's top 25. Then came the career dip, which plunged him into self-

and ultimately doubt retirement — albeit for only a few months while he assessed where to go with his life. He eventually decided to give

golf another go, beginning his rebuild on the lowly Nordic Golf League and the Alps Tour, which is on the third tier of European golf. His talent shone through and

last year he sealed a return to the Éuropean tour with a win at the Jonsson Workwear Open in March being universally celebrated in the golf fraternity.

That helped to put him in a strong position to claim the end-of-season bonus of a PGA Tour card, and he headed to Dubai in fifth place among non-exempt players, behind Thriston Lawrence, Hojgaard, Paul Rasmus Waring — the winner in Abu Dhabi last week — and Niklas Norgaard.

Jesper Svensson, Thorbjørn Olesen, Rikuya Hoshino, Sebastian Söderberg and

Jordan Smith make up the list, though the tour says any nonexempt player in the 50-man field can, statistically, break into the top 10.

Robert MacIntyre is living proof of how life-changing that can be. He was one of the 10 to claim a PGA Tour card after last year's World Tour

Championship and he has blossomed, winning two big PGA events — the Canadian Open and the Scottish Open — and rising to a career-high 15th in the world in August. He is No. 16.

"I've now got to the top level of professional golf, the top 25% of professional golfers.
"You can then pick your schedule and you're in all the

schedule and you're in all the major events and you're in all the top events you can play in and you can pick and choose, and that's where you want to

"I think," MacIntyre added, "the majority of golfers out here have got that dream, as

McIlroy on brink Lawrence leads that list of PGA Tour hopefuls but has other things on his mind. The South African is the only player who can prevent McIlroy from winning the Race to Dubai title formerly the Order of Merit

and join the late Seve Ballesteros on six. Lawrence has to win nothing less is good enough — and then needs McIlroy to

finish tied for 11th or lower. "Rory has been an idol for me since growing up as a youngster," the 27-year-old Lawrence said, "and being able to clinch it this week would be the cherry on the

cake for myself."

The smart money, however, is on McIlroy, who has shown extraordinary consistency in collecting a win — at the Dubai Desert Classic in January — as well as four runner-up finishes and three more top fives in his 12 European tour events this season.

"Rory is held to a higher standard than pretty much everybody else in the world of golf," Tommy Fleetwood said. But, I think he's shown amazing golf again this year, and he's shown why he's one of the best to ever do it.

3rd T201: India eye batting revival against SA at Centurion

Indian batting line-up needs to get its mojo back against a resurgent South Africa to regain the lost ground on rather the familiary Songe Foot and Park unfamiliar SuperSport Park conditions when the two teams clash the third T20I here Wednesday.

Since 2009, India have played only one T20I at this venue, which they lost by six wickets in 2018 and have only one survivor from that squad in this side --Hardik Pandya.

Along with that unfamiliarity factor, India will also grapple with the ordinary form of their batters, particularly when the pitch here is touted to be similar to the one at Gqeberha – quick and bouncy.

In the second T20I, India batters struggled against South African pacers upfront, getting restricted to 124 for six, and Centurion has similar characteristics

The problem starts from the top more precisely with Abhishek Sharma, whose extended lean run with the bat has now snowballed

desperate need of a good outing here before the management juggling combination.

Even now, they can think of giving the job of partnering Sanju Samson at the top to Tilak Varma and bring in Ramandeep Singh in the middle to add more muscle to the unit.

However, the senior batters like skipper Suryakumar Yadav, Pandya and Rinku Singh too cannot absolve themselves of the entirely for India's struggles.

Both Suryakumar and Rinku have shown only fleeting images of their prowess here while Pandya made 39 in the second match but he consumed 45 balls In fact, the power-hitter took 28

and, again, could not find the ropes between balls 39 and 45. So, these three batters will have to chip in more to support in the inform Samson or to carry India to a strong total even when the Kerala man has a vapid day.

balls to find his first boundary

Similarly, pacers Arshdeep Singh and Avesh Khan had two contrasting games. Arshdeep returned with figures of 1 for 25 at Durban, but in the second game he had stats of 1 for 41.

The left-arm pacer's third and fourth overs which went for 28 runs – including four fours in an over against Tristan Stubbs – made a deep impact on the lowscoring match.

So, they will be eager to change the script here, unless the management looks at other options such as Yash Dayal or

Vysakh Vijaykumar.
However, the efforts of Varun
Chakravarthy, who bagged a maiden fifer in the previous match, and Ravi Bishnoi over the last two matches have been outstanding and the spinners will be looking for an encore in the third match to hand back the advantage to India.

The expected bounce and pace on the pitch here will be an encouraging factor as well for the Indian duo.

From a batting perspective, South

Markram, David Miller and Heinrich Klaasen are yet to fire in this series.

They required runs from less-pedigreed batters Tristan Stubbs and Gerald Coetzee to get over the line in the second contest, and the Proteas will certainly cherish a heftier contribution

from their veterans, especially

against Indian spinners. Teams (from):

Perth pitch to have really good pace and bounce: Curator cautions India

India will be accorded a tough welcome to Australia as the Optus Stadium pitch for the opening Test of the Border-Gavaskar Trophy has been prepared to offer "good bounce and pace" true to the tradition of the fiery tracks in Perth. India will enter the Perth Test,

beginning from November 22, without playing any practice match as the visitors had cancelled an intra-squad side game that was scheduled to be played behind closed doors from November 15 to 17.

Now, India will focus on centre-wicket training at the nearby WACA stadium, where Australia will also polish their

"This is Australia, this is Perth... I'm setting ourselves up for really good pace, really good bounce and really good Western Australia Cricket head curator Isaac McDonald told 'ESPNcricinfo'.

McDonald is trying to prepare a pitch that has similar traits of the one that he readied for the first Test against Pakistan in December last year.

In that match, Pakistan were bundled out for 89 in the second innings as the Aussies celebrated a massive 360-run victory. The pitch too had developed cracks as that match wore on and batters like Marnus Labuschagne copped blows on their hands.

Overall, the three Aussie pacers – Pat Cummins, Josh Hazlewood and Mitchell Starc – grabbed 12 of the 20 Pakistan wickets. More recently, Pakistan pacers Shaheen Shah Afridi, Naseem Shah and Haris Rauf tore through Australian line-up, bowling the hosts out for 140 in the third ODI here. McDonald said he is looking to leave some grass on the pitch to make it a bit spicier.

"It's (10 mm) a good starting point. Ten millimetres was pretty comfortable with the conditions that we had (last year) and that held the conditions together nicely for the first few days. Live grass on the pitch is speed.

"Both bowling units (Australia and Pakistan) were pretty rapid last year and hoping for much the same this year (for India match)," he added.

Australian opener McSweeney braces for 'unique' Bumrah challenge

Australia opener Nathan McSweeney, who is set to debut against India in the Border-Gavaskar Trophy, said he has been preparing for the "unique" challenge of facing star pacer Jasprit Bumrah. McSweeney was drafted into

the Australia squad after a slew of impressive performances in the Sheffield Shield tournament and in the recent 'A' series against India.
The 25-year-old South Australian will partner Usman Khawaja at the top in the series opener in Porth the series opener in Perth and during the upcoming five-Test series.

'There's probably not (much I can do to replicate how Bumrah bowls). Obviously, he's got a unique action. He's one of the best bowlers in the world."So, it's going to be

looking forward to all of that and I can't wait," McSweeney told SEN. McSweeney, who captained the Australia A side in the 2-0 series win against India A, said he has clips of what they're bowling been watching the bowling clips of Indian quicks

Mohammed Siraj to be mentally ready for the task. "I'll definitely dive a lot deeper into it when I get to attack stacks up like. I'm just trying to visualise how I'm

going to go about it. Facing a new bowler can be a slight challenge to just pick up their action," he said.

"I've got a whole week before I head off to Perth, so, I can get mentally ready and I guess it starts now in preparation to hopefully start

really well," he added. However, a quiet confidence runs through the young batter ahead of the important

"In the last month or so I really feel like I'm batting the best I ever have. I think I'm the best I've ever been prepared to take this opportunity, so hopefully I can do that can do that.

"No doubt there's plenty of learning and experiences that I haven't experienced yet and I'm looking forward to learning all about the challenges of Test cricket and challenging my game against the very best," he said. McSweeney will step into the shoes of David Warner, who retired from international cricket after the home Test series against Pakistan in January this year, and the Adelaide man realises the enormity of the job.

Blind T20 WC: Indian team eyes clearance from MHA, MEA; Sports Ministry clears travel to Pakistan

The Sports Ministry has given NOC, with no cost to the government, to a 17member Indian cricket team to travel to Pakistan to participate in the T20 World Cup for the Blind, and the side now awaits clearance from Home and External Affairs ministries.

The fourth edition of the Blind World Cup, in which India are the reigning champions, is scheduled to be played at

November 22 to December 3. Upon receiving the clearance from the ministries concerned. the squad is scheduled to travel to Pakistan via the Wagah Border on November 21. The development came in the

backdrop of the Board of Control for Cricket in India (BCCI) informing its Pakistan counterpart that the Men in Blue will not travel to the neighbouring nation for next year's Champions Trophy

The BCCI sent a mail to the International Cricket Council to that effect, leaving the future of the marquee event in

Meanwhile, Shailender Yadav, General Secretary of the Cricket Association for Blind in India (CABI) said the 17member Indian squad for the

players underwent a 12-day selection trials in Gurugram. 'The team has been training in Gurugram. The players now await an NOC from the Ministry of External Affairs and remain hopeful for a positive response," said Yadav. Apart from India and Pakistan, the T20 World Cup features teams from Afghanistan, Bangladesh, South Africa, Nepal and Sri Lanka. India won the three previous events,

Players believing in our style of play is the key, says Manolo Márquez

PTI ■ HYDERABAD

Indian football team head coach Manolo Márquez on Tuesday said it is critical for his players follow synchronised approach while representing the country, in order to start getting results in the international arena.

The Indian senior men's national team began its training camp ahead of the friendly match against Malaysia on November 18 in Hyderabad. With the Indian Super League

going into a break with the start of the November FIFA international window, the Blue Tigers checked into the city on Monday and will have a total of six days of training sessions before the match.

"We were supposed to play two games last month but due to external reasons, Lebanon couldn't come. For people, more games is better. But it's difficult to train the day before and after the match. We need to train

tactically as well. "I feel it's necessary to prepare for not just the game against Malaysia but the official matches which will come in March," Márquez said

Márquez had a rough start to his coaching stint with the national team as India were held 0-0 by Mauritius in September and beaten 0-3 by Syria in the Intercontinental Cup, also in Hyderabad.

His boys put up an improved showing, especially in the second half, against Vietnam in a 1-1 draw last month in Nam Đ?nh.

The Spaniard has continued the trend of calling up new players in each FIFA window far. This time, Hmingthanmawia Ralte, Vibin Mohanan, Irfan Yadwad and

Thoiba Singh Moirangthem earned their first national team call-ups. The latter was a lastminute arrival after Anirudh Thapa suffered an injury during the match between Mohun Bagan Super Giant and Odisha FC on Sunday.

Since taking charge in July, Márquez's priority has been to utilise the friendly matches and training sessions to find the best group of players for the 2027 AFC Asian Cup Qualifiers, scheduled to start in March 2025.

"It's true that we want to check some new players. But

obviously it's impossible to change the whole group and call 40 players in March. It's true that we are finding the group. It means that we have maybe 14, 15, 16 players who will be there, but we don't know exactly. And there are a lot of players who can get there," the coach said.

"Obviously, it's still four months, and the situation can change with a lot of things unfortunately with injuries and the players' domestic form. But, I repeat again, as a coach you need to find the group which can play the style that we want.

"I am fully focussed on the Malaysia match at the moment. In a way, it's a dangerous game because the players are in the middle of the fight for the ISL and this is just one friendly game in November, and the next camp will be in four months.

"But I am very confident in this group and I feel we will have a performance next Monday," said Márquez. Still awaiting his first win with India, Márquez remains patient. For now, the key is to find the groove with the right bunch and get results where they matter the most.
