SC demolishes 'bulldozer justice'

erming 'bulldozer justice' as illegal, the Supreme Court (SC) on Wednesday laid down pan-India guidelines and said no property should be demolished without a prior show cause notice and the affected must be given 15 days to respond. The Executive cannot assume Judicial powers to punish citizens by demolishing their properties without following due process, the SC said while terming such excesses "high-handed and arbitrary" and ruling that they need to be dealt with the "heavy hand of the law", said the Bench of Justices BR Gavai

Season's signature smog has arrived

RAJESH KUMAR **NEW DELHI**

Dense smog blanketed Delhi for the first time this season on Wednesday pulling the visibility down to zero at the Indira Gandhi International Airport (IGIA), and the lack of a strong breeze continued to prevent the dispersion of pollutants deteriorating the air quality to the top of the "severe" category at 418 AQI. Of the 36 monitoring stations in Delhi, 30 reported air quality in the 'severe' category, according to the Central Pollution Control Board (CPCB).

The first smog of this winter season affected multiple flight operations leading to diversion and delays at Delhi airport as well as several airports in north India. Meanwhile, the Delhi BJP has asked the Delhi government to urgently close all schools up to Class 5, as the national capital has turned into a gas chamber. According to IGI airport sources, at least 10 flights

subject here on Wednesday.

These guidelines were drafted in the wake of growing concerns about false/misleading claims, exaggerated success rates, and unfair contracts that coaching institutes often impose on students. Such practices have

been found to mislead

decisions by concealing important information and giving false guarantees.

The guidelines will apply to every person engaged in coaching, meaning not just the coaching centres, but also any endorsers or public figures through advertisements. Endorsers, who lend their

name or reputation to coaching centres, will now be responsible for ensuring that the claims they endorse are and truthful. accurate Endorsers who endorse coaching institutes must verify the claims they are promoting If they support false success rates or misleading guarantees, they will be held accountable alongside the coaching centres.

The guidelines explicitly prohibit coaching institutes from making false claims related to the courses offered, duration, faculty qualifications, fees, and refund policies. Selection rates success stories, exam rankings, and job security promises.

Trade Fair's unfair traffic scene

SAUMYA SHUKLA NEW DELHI

While the wedding season, which began on Tuesday, has already added to the National Capital's traffic woes, more awaits the city, especially Central Delhi which will likely remain choked from Thursday as the India International Trade Fair (IITF) at Pragati Maidan will add amid traffic restriction being imposed in different areas for the event which will continue for a

fortnight. It is expected that around 60,000 visitors will visit the fair on each day with the number going as high as 1.5 lakh per day during weekend and holidays leading to massive traffic jams along Mathura Road, Bhairon Marg, Ring Road, Shershah Road and Purana Quila Road. These important passages, which already see a rush of vehicles during peak hours, will further be packed with extra commuters trying to make their way to the IITF, resulting in choke points and traffic snarls.

The Delhi Traffic Police Department has requested people not visiting the trade fair to avoid or bypass these roads to ensure hassle-free journey. But,

office-goers and commuters who take the same route everyday will have to take the pain of going through diversions and leaving early for at least 14 days to avoid any delay.

'While travelling from Mayur Vihar to Bhagwan Dass road, which is usually my route every day, I'll have to now take alternative routes which will cost me extra time and fuel, that too for about 14 days when there is wedding already wedding season disrupting traffic flow every now working professional. Only business visitors will be allowed into the IITF from November 14 to 18, while the fair will be open for the general public from November 19 to 27 at 9.30 am to 07.30 pm. Mann's Swipe at Pakistani Punjab **CM Over Pollution 'Blame Game'**

¬urning the smoke-filled worthy and thought-provoking affair, Punjab Chief Minister Bhagwant Mann on Wednesday took a playful jab at Pakistani Punjab Chief Minister Maryam Nawaz Sharif following her call for a diplomatic dialogue between two nations on air pollution.

Addressing the "Punjab Vision 2047" conclave on the second and concluding day, Mann's wit and humour sparkled as he responded to Maryam Nawaz's recent remarks about Lahore suffering from pollution allegedly drifting over from Indian Punjab. "Everyone's blaming us," Mann quipped. "Delhi says our smoke is ruining their air; now Maryam Nawaz...daughter of Nawaz Sharif....she says it's Lahore. It seems our Punjab smoke is on a world tour," he laughed, leaving the audience in stitches. The light-hearted comment came with a call for unity rather than finger-pointing over the pollution crisis.

Mann's remarks didn't stop at the "letter" Maryam Nawaz suggested she might send him to formally blame Indian Punjab. Tongue firmly in cheek, Mann welcomed the "letter", saying, "Maryam, do write to me about your woes!" and further joked about earlier controversies involving a "Pakistani friend" of former Chief Minister Capt Amarinder Singh, without taking any names. "Earlier also, we were troubled by one Pakistani lady...now Maryam wants to add to our headaches. Go ahead, join the line," Mann chuckled, bringing a bit of levity to a serious topic.

But under the humour lay a pointed message. The pollution crisis, often exacerbated by stubble burning in Punjab and Haryana, has sparked tension as Delhi blames these states for worsening air quality. Mann acknowledged the seasonal smoke issue and explained the complex situation farmers face post-harvest when they burn paddy residue to quickly prepare fields for the next crop. However, he emphasized that tackling air pollution should involve collaboration, not just accusations. "It's not just Punjab's problem; it affects Madhya Pradesh, Uttar Pradesh, Haryana, and beyond," Mann noted.

questions, Mann championed crop diversification as a longterm solution, encouraging farmers to shift from paddy to

less water-intensive and more environmentally friendly crops like maize and millet. The government, he said, must ensure farmers receive equal earnings from these alternative crops, so they aren't financially penalized for making a sustainable switch. "Our farmers must be empowered to choose options beyond paddy - which isn't even a staple in Punjab," he added.

CENTRE MUST INCENTIVIZE FARMERS TO CURB STUBBLE BURNING:

Taking a strong stance on issues plaguing Punjab's agri-cultural sector, particularly stubble burning and the Centre's inadequate support for farmers, Mann underscored the need for collaboration with the Centre to address regional concerns and ensure Punjab's progress. Mann highlighted the ongoing controversy over stubble burning, where Punjab's farmers are frequently blamed for contributing to air pollution, especially affecting Delhi. When food is needed,

farmers are hailed as 'annadata', but when they burn stubble due to lack of alternatives, FIRs are filed against them," Mann said, criticizing the punitive approach taken against farmers rather than offering viable solutions. Mann argued for a sustainable mechanism to tackle stubble burning, noting that farmers are often forced into it because of the rapid crop rotation between paddy and wheat.

Mann called on the Centre to either provide a subsidy of Rs 2,000 per acre to help farmers manage crop residue or to implement Minimum Support Price (MSP) for alternative crops, which would motivate a switch from water-intensive paddy cultivation.

Punjab is bearing the environmental costs of feeding the that each kilogram of rice con- arm, providing food security; sumes around 3,500 liters of now it is time for the Centre to water, severely depleting hold Punjab's arm," Mann urged,

"Punjab is not just giving rice but also our precious water," he stressed, advocating for better incentives to reduce dependency on paddy and move towards crop diversification. The Chief Minister emphasized that solutions require the cooperation of neighbouring states and the Union Government to address a cri-

sis affecting the entire north-

Mann shifted focus to the strides made by the State Government in education, with the establishment of 'Schools of Eminence' and significant progress in government school achievements. He proudly cited the success of 158 government school students clearing the prestigious JEE exams, which he attributed to Punjab's improved educational standards. "Our students are like planes; the Government just needs to provide them a launch pad to soar high," he said, while outlining plans for opening eight hi-tech centers across Punjab to prepare students for competitive exams, with a vision to place more youth in top administrative positions.

The Chief Minister also highlighted Punjab's industrial potential, revealing that major corporations, including Tata Steel, are investing in the State. Mann explained that Punjab's economic strategy includes encouraging the food processing industry to enable farmers to generate higher profits and create more job opportunities locally.

Centre's Funding Hurdles

Expressing frustration with what he called a "step-motherly" treatment from the Centre, Mann lamented the delayed release of funds owed to Punjab under the Rural Development Fund (RDF) and the National Health Mission (NHM). "Punjab stressing the need for timely

Jobs for Youth Key to Curb Drug Addiction, Lawlessness: Punjab Governor

Chandigarh: Punjab Governor Gulab Chand Kataria on Wednesday emphasized the critical need for youth employment to tackle rising drug addiction and lawlessness in Punjab during his address at the closing session of the "Punjab Vision 2047" Conclave. The two-day event, organized by Rajya Sabha MP Dr Vikramjit Singh Sahney, International President of the World Punjabi Organisation, in collaboration with the Punjab Development Commission and Panjab University, highlighted strategies to propel Punjab towards balanced development

Reflecting on Punjab's pivotal role in addressing India's food crisis after the 1965 war, Kataria remarked, "Punjab not only addressed our hunger needs but also fed other nations. With our rich history, Punjab is uniquely positioned to lead India to uniform development." However, he noted that law and order issues hinder the region's growth, deterring potential investors

Kataria, addressing the contentious issue of paddy straw burning, called for a practical approach beyond legislation. "When the time between harvesting and sowing is minimal, expecting farmers to clear fields without straw burning is unrealistic," he said, stressing the need for environmentally friendly solutions. He also called for advancements in organic farming methods to limit agricultural chemicals without sac-

Kataria emphasized that improved education and vocational training are critical to equipping youth for meaningful employment, which in turn deters antisocial activities and drug addiction. "Employment is not only a solution for economic stability but also a remedy for social issues like addiction," he

Meanwhile, Rajya Sabha MP Dr Vikramjit Sahney highlighted the importance of reopening the Wagah border for trade, which would boost exports to Central Asia, benefiting Punjab's economy. He also advocated for increased international flights from Amritsar and Mohali to expand Puniab's industrial reach. Dr Sahney stressed the necessity of support prices for alternative crops like maize to reduce the ecological burden caused by wheat and paddy cultivation.

Environmental activist and Rajya Sabha MP Balbir Singh Seechewal lamented the deteriorating state of Punjab's air, water, and soil, underscoring the need for sewage treatment plants to recycle wastewater for irrigation. He emphasized that costeffective sewage treatment can help curb pollution, a view supported by former Special Task Force member Col Jasjit Singh Gill, who stressed the need to eliminate corruption within the Punjab Pollution Control Board.

funding to support state initiatives in healthcare, infrastructure,

AAP's Rajya Sabha MP World Punjabi Organisation president Dr Vikramjit Singh Sahney reinforced Mann's stance, advocating for a united effort among Punjab's MPs to push for timely fund disbursements in the upcoming parliamentary session. Dr Sahney suggested that expanding trade routes, like opening the Wagah border for commerce with Pakistan and Central Asia, would further strengthen Punjab's economic prospects and address trade

Celebrating Punjab's Global Impact and Legacy

In a moment of pride, Mann lauded the global noting their indelible contributions across various sectors worldwide. "From top engineers at Boeing to the CEOs of

Flipkart and Mastercard, Punjabis have made a mark globally," he said, reflecting the state's rich heritage of resilience and hard work.

Mann also made a firm statement on protecting Panjab University from attempts to alter its status, asserting that Punjab would not allow Haryana to intrude into its educational legacy. "Panjab University is part of our cultural and emotional heritage; no backdoor entry into its Senate will be allowed," Mann declared, underscoring the University's importance to Punjab's educational landscape.

Path Ahead: A Vision of **Collective Growth**

Mann reiterated his commitment to Punjab's progress through education, economic responsibility, calling on intellectuals, academicians, and industry leaders to join him in transforming Punjab into a frontrunner state. His message was clear: Punjab's future is bright, but it requires unified action across state and national lines to achieve its full

Himachal HC declares 2006 CPS Act unconstitutional

PNS SHIMLA

The Himachal Pradesh High L Court on Wednesday struck down a 2006 law that allowed Members of the Legislative Assembly (MLAs) to be appointed as Chief Parliamentary Secretaries (CPSs). The Double Bench, led by Justices Vivek Thakur and Bipin Chander Negi, declared the Himachal Pradesh Parliamentary Secretaries (Appointment, Salaries, Allowances, Powers, Privileges, and Amenities) Act, 2006 "void ab initio" — meaning it was legally invalid from its inception. This decision has farreaching implications, effectively annulling the appointments of six CPSs and impacting the state government's administrative framework.

The High Court ruling marked a significant setback for Chief Minister Sukhvinder Singh Sukhu, who had appointed six CPSs in January 2023 to support the Cabinet following his party's victory in the state elections. The nullified appointments include those of prominent Congress MLAs such as Sanjay Awasthi (Arki), Sunder Singh (Kullu), Ram Kumar (Doon), Mohan Lal Brakta (Rohru), Ashish Butail (Palampur), and Kishori Lal (Baijnath). The court order mandated the immediate withdrawal of all privileges, salaries, and allowances afforded to these CPSs, classifying their appointments as unconstitutional and their positions as usurpations of public office.

Will challenge decision in SC: Himachal A-G

Himachal Pradesh Advocate-General Anoop Ratna said that the State Government intends to challenge the ruling in the Supreme Court. He argued that Himachal's CPS Act was distinct from the Assam law referenced in the judgment, noting that the powers assigned to CPSs in Himachal were supposedly more limited.

Ratna's remarks underscored the government's belief that a nuanced interpretation of the CPS role may yet uphold its validity, and the move to the Supreme Court seeks to clarify this legislative prerogative.

However, not all government voices are aligned. Technical Education Minister Rajesh Dharmani expressed doubts about the decision to pursue an appeal, calling it potentially unwise. Dharmani suggested that the administration should respect the High Court's ruling and avoid further legal entanglements, positing that any re-interpretation of the CPS role could destabilize the legitimacy of legislative appointments.

Central to the court's decision is the contention that the 2006 Act violated constitutional provisions, particularly Article 164(1-A), which limits the size of the Council of Ministers. The court referred to a 2017 Supreme Court ruling in the Bimolangshu Roy case, in which a similar law in Assam was invalidated for extending ministerial-like powers to CPSs, thus violating constitutional restrictions on the executive's structure. The Himachal High Court emphasized that the CPSs, though not designated as Ministers, wielded significant governmental power, which blurred the line between CPSs and cabinet

Justice Negi noted that the CPSs enjoyed privileges akin to those of Ministers, such as the right to access official files, participate in decision-making, and even fly the national flag on their vehicles. These pow ers, the court argued, enabled CPSs to wield influence in governance despite not being Cabinet Ministers — a role that the Constitution limits. This dilution of executive responsibilities breached the principles of constitutional governance, making the CPS Act indefen-

In addition to quashing the law, the Court dismissed the protections offered by the Himachal Pradesh Legislative Assembly Members (Removal of Disqualifications) Act, 1971. The 2006 Act had sought to shield CPSs from disqualification by classifying them as outside the "office of profit." However, the court clarified that these protections were equally unconstitutional, dismantling the legal foundation that had allowed CPSs to operate without threat to their

Tensions flared at Punjab University on Wednesday as students, protesting over the delay in Senate elections, were lathi-charged by Chandigarh Police, leaving 10 students injured. The protest unfolded at the varsity campus at a time when the 'Punjab Vision 2047' conclave was underway, where Punjab Chief Minister Bhagwant Mann was addressing the gathering at the Law Auditorium. The students, protesting

under the banner of 'Panjab University Bachao Morcha' over the delay in conducting Senate elections, had decided to march towards the Vice-Chancellor's residence, but later changed their plan and started um, where the Chief Minister was present along with PU Vice-Chancellor Prof Renu

Punjab to Launch New IT Policy, Creating 55k Jobs

Chandigarh: Punjab is gearing up to unveil a new IT policy aimed at transforming the State into a tech hub, providing employment opportunities for 55,000 professionals. Sharing this at the "Vision Punjab 2047" session on Wednesday, Punjab's Industry and Commerce Minister Tarunpreet Singh Sond announced that Mohali is set to emerge as North India's premier IT destination, attracting leading tech firms to the state.

Highlighting Punjab Government's commitment to lined that Punjab has already secured over Rs 86,000 crore in investments over the past two and a half years, with efforts ongoing to drive this number even higher. The forthcoming IT policy, he assured, will be a game-changer for business, with various reforms making it easiwhich led to a confrontation. er and more attractive for com-

panies to set up operations in

In a major boost to small and medium enterprises, Sond proudly noted that the "Invest Punjab" portal leads the country in performance, with 58,000 industries already registered. As part of an infrastructure upgrade, five focal points across the State will be equipped with world-class facilities, setting a benchmark for industrial standards. Sond also discussed a comprehensive plan to revitalize Punjab's tourism sector. Emphasizing religious shared that significant promotional efforts are underway to make Punjab a prominent destination. Addressing environmental concerns, he confirmed that the long-awaited cleanup and

Historic Mandate Reflects Trust in Govt's Development Agenda in Hry: Guv

PNS CHANDIGARH

Haryana Governor Bandaru Dattatreya on Wednesday said that the historic hat-trick of the Bharatiya Janata Party (BJP) in the recent assembly elections was an expression of the people's trust in the development programmes of the Chief Minister Navab Singh Saini-led State government.

Extending a special welcome to all the members, the Governor, while addressing the first session of the Vidhan Sabha, said: "This is for the first time in the history of Haryana that people have shown trust in a government for the third consecutive time. It indicates that people support a corruptionfree and transparent administration and inclusive development.

In the polls conducted on October 5, the BJP secured an unprecedented third term in the state, winning 48 seats in the 90-member Assembly. The Congress bagged 37 seats, the INLD two while three Independents also won.

In his 38-minute address on the opening day of the three-day winter session of the assembly, the Governor said that among the 90 members of the 15th Assembly, there are 40 members who have been elected for the first time. In the 14th Assembly only nine women members were elected, but this time, their number has increased by nearly one and half times, reaching 13.

The Governor said that this House is the flagbearer of

people of the state. "Now, it is the utmost responsibility of every MLA to meet the expec-

Dattatraya said that for fair and peaceful elections, the vigilant voters, the Election Commission and all officers and employees associated with the election process deserve appreciation. The 2024 election has been an election based on trust in 'Neeti, Niyat, Nishtha aur Nirnay' (policy, intent, integrity, and decisions).

"I feel immense satisfaction in saying that my government, over the past 10 years, has worked beyond the narrow mindset of regionalism and family-based politics," he said, praising the state's efforts towards promoting "shiksha, swasthya, suraksha, swavalamaur swabhimaan (Education, health, security, self-reliance, and self-respect)" as part of its development

One of the significant achievements mentioned was the improvement in the gender ratio thanks to the 'Beti Bachao-Beti Padhao' campaign initiated by Prime Minister Narendra Modi from Panipat in 2015. "The gender ratio has risen from 871 in 2014 to over 900, a reflection of the state's commitment to gender equality and women's empower-

development schemes and

ment," he said. By following the guiding principle of 'Sabka saath, sabka vikas, sabka vishwas' given by Prime Minister Narendra Modi, his government provided equal opportunities to everyone to progress in the

state, said the Governor. "The Prime Minister considers the poor, youth, women,

and farmers as the four pillars of a 'Viksit Bharat' (developed India). My government has oriented its policies toward strengthening these pillars," he

Outlining the government's goals, the Governor said employment, safety and empowerment would remain priorities. The government is planning new policies to support women employees, including assigning Group-C and Group-D women staff to their preferred districts and providing safe transport options for women working night shifts.

Reflecting on the state's economic progress, the Governor noted that Haryana has advanced significantly in per capita income, industrial development, and innovation in agriculture. "The State has made a strong national presence across all sectors," he said, attributing this progress to the administration's emphasis on leveraging science and technology in agriculture.

Concluding his address, the Governor affirmed that the government's vision is not just aspirational but also achievable. "This mandate represents the people's will for continued development, a Haryana where everyone benefits from the fruits of progress," he added.

Referring to the agriculture sector, the Governor said that the State Government had abolished the outstanding 'abiana' (canal water irrigation charge). The government is giving a minimum support price on 24 crops, he said.

High stakes battle

Jharkhand election is a crucial test for the ruling coalition as well as for the BJP, which seeks to reclaim its hold

The Jharkhand Assembly elections commenced with the first phase of voting on November 13, with 43 seats across 15 districts up for grabs. This election marks a pivotal moment in the state's political landscape, where two key coalitions—the BJP and the INDIA bloc led by the Jharkhand Mukti Morcha (JMM) and Congress—are locked in a fierce battle for control of the Assembly. With high-profile candidates, pressing issues and a focus on tribal constituencies, the stakes are incredibly high for both camps. Jharkhand, carved out of Bihar in 2000, has been a battleground for various political parties, with the BJP historically dominating the state. However, in the last Assembly elections in 2019, the BJP lost power, managing to secure only 25 seats out of the total 81. The JMM emerged as the largest party, winning 30 seats and subsequently forming a coalition government with the Congress, which won 16 seats and the RJD, which held one. This alliance brought Hemant Soren of the JMM into the Chief Minister's seat,

where he has served for the last five years. Hemant Soren's tenure, however, has faced turbulence, including a brief removal from office after his arrest by the Enforcement Directorate in a corruption case. Despite these setbacks, Soren has returned to the political stage with a renewed campaign to lead the INDIA bloc's bid for re-election.

The election campaign has highlighted multiple contentious issues. One of the most polarising topics has been "Bangladeshi infiltration." Assam Chief Minister Himanta Biswa Sarma, who is spearheading the BJP's campaign in Jharkhand, has accused the Hemant Soren-led administration of facilitating illegal migration

from Bangladesh for political benefits. Soren, in response, has accused the BJP of sowing communal discord in the state, with support from Congress's national leadership. His counter-campaign has focused on emphasising the BJP's alleged divisive politics and positioning the JMM-led INDIA bloc as a safeguard for Jharkhand's communal harmony and tribal rights. The first phase features several high-stakes contests with major political figures. Among these is the Seraikella seat, where former Jharkhand Chief Minister Champai Soren, who recently left the JMM after four decades to join the BJP, will contest. In Jamshedpur East, Congress's Ajoy Kumar faces off against BJP's Purnima Das Sahu. In Jamshedpur West, Congress Health Minister Banna Gupta is up against JD(U) leader Saryu Roy, who gained fame after defeating Raghubar Das in 2019 when Das was the sitting Chief Minister. For the BJP, regaining control in Jharkhand is crucial in their larger national strategy to consolidate power in eastern India, especially given their historical dominance in the state. The INDIA bloc, however, views retaining Jharkhand as a cornerstone for strengthening their coalition at a national level. Ultimately, it is the voter sentiment on the ground and the influence of tribal constituencies which are likely to play decisive roles in Jharkhand elections.

India's tax overhaul: Why

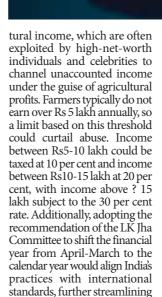

simplification is the key

There is an urgent need for structural reform, streamlining tax rates and enhanced digital transaction incentives to bring clarity, efficiency and fairness to tax regime

he Indian tax system is notoriously complex and outdated, rooted in the six-decade-old Income Tax Act of 1961, which has undergone numerous amendments. These frequent, piecemeal adjustments have created a convoluted tax structure, leaving both taxpayers and administrators struggling with a lack of clarity. Similarly, the Goods and Services Tax (GST) system, introduced in 2017 as a landmark reform to streamline indirect taxes, has also accumulated a variety of confusing provisions and multiple tax rates, making compliance challenging and costly for businesses. This layering of amendments and patchwork reforms in both direct and indirect tax regimes highlights the need for a comprehensive overhaul that simplifies the tax structure. A unified, streamlined tax regime

should be introduced, minimising the countless exemptions that are prone to misuse. Implementing the recommendations of the Raja Chelliah Committee to cap the highest income tax rate at 30 per cent in alignment with global norms-had previously succeeded in reducing black money transactions. However, with the reintroduction of additional surcharges and cess, this advantage has largely been negated. Restoring the 30 per cent cap on the highest tax slab would encourage more individuals to report their income accurately, avoiding tax evasion. An alternative solution could be to establish a permanent Voluntary Disclosure Scheme (VDS). Such a system would bring informal transactions, especially in highvalue sectors like real estate, into the official economy if accompanied by a reduction in property registration fees to around 3 per cent. To foster transparency and discourage tax evasion, names of taxpayers disclosing income under this scheme could be made public on a government website. Rationalising income tax exemptions would also help simplify the tax landscape. The baseline exemption limit should be set at Rs 5 lakh, removing exemptions Increased credit card usage for charitable donations, political contributions and even agricul-

the tax system. One glaring inefficiency in the tax system is the reliance on cash transactions, particularly for smaller amounts. All transactions above Rs10,000 should be conducted through banks. To encourage this, transaction fees on credit card payments should be reduced to 0.5 per cent-exempt from GST- and absorbed by the central government, which would also discontinue incentives for credit card purchases. This reduced fee would significantly increase credit card usage and thus bring more transactions into the formal economy. Currently, the high 2 per cent transaction fee often deters traders from using cards, especially in sectors with would generate substantial tax revenue and boost the income

STRUCTURE WITH JUST THREE TAX SLABS-6 PER CENT, 12 PER CENT AND 30 PER CENT -WOULD BE FAR MORE MANAGEABLE THAN THE **CURRENT** SYSTEM WITH MULTIPLE RATES. INDIA REMAINS ONE OF THE FEW COUNTRIES WITH SUCH A **FRAGMENTED** GST SYSTEM. BEWILDERING

FOR BUSINESSES

of banks issuing cards, despite the lower transaction fee. To facilitate smooth payments, every GST-registered dealer should maintain at least two card-swiping machines and those refusing to accept cards should face strict penalties.

Another significant concern is

the Input Tax Credit (ITC) mechanism in the GST regime, which has become a hotbed for tax evasion, especially in manufacturing. Unsold GST invoices are often purchased by manufacturers seeking ITC, who then receive cash back from sellers. This practice has exacerbated the currency-in-circulation issue that demonetization sought to address. To prevent misuse, an annual forensic audit could be mandated for all ITC claims. An even better solution might be to eliminate the 18 per cent GST slab and restrict ITC eligibility to specific sectors like tradable goods, which would streamline GST compliance for manufacturers and reduce tax evasion.

with just three tax slabs-6 per cent, 12 per cent and 30 per cent-would be far more manageable than the current system with multiple rates. India remains one of the few countries with such a fragmented GST system, which is often bewildering for businesses. Over time, the 6 per cent and 12 per cent slabs could be consolidated into a single 10 per cent rate. Essential raw materials such as agricultural products, fish and cotton yarn, which require further processing, could remain

A simplified GST structure

exempt. High-value items like cars, appliances, and electronics should fall under the 30 per cent GST bracket, while parts for these items could be taxed at 12 per cent. The existing system, which categorises similar items under different rates, such as clutch plates at 18 per cent and clutch bearings at 28 per cent, causes unnecessary confusion. Similarly, edible items sold by confectioners are subject to different rates, with sweets, biscuits and snacks varying between 5 per cent and

Jewelry is another area that

could benefit from rationalisation. The GST on gold jewelry could be split into two parts-one for the metal content and the other for making charges. Cess on luxury items could be replaced with additional GST slabs, ideally bringing petroleum products under the GST regime to standardise fuel prices nationwide. Further reforms should address inconsistencies in applying GST to government transactions, postal services, and foreign mail tariffs. It is counterintuitive for government payments to incur GST, as this creates unnecessary accounting complexities, merely transferring funds between government departments. Similarly, postal rates, both domestic and international, require a more logical pricing structure with consistent incre-

Diverse, climate-responsive design is key to net-zero goals

As cities push toward net-zero targets, it is crucial to consider how climate-responsive design can drive a sustainable future

iversity is the rule of nature. Unfortunately, globalisation has made uniformity a common rule of thumb. This uniform culture not only erodes the cultural diversity we used to observe in every corner of the world but also harms the environment. It is imperative to look closely at how building architecture contributes to the stability of the environ-

The universalisation of building architecture poses a significant challenge to achieving net-zero targets. Though widely adopted for efficiency and branding purposes, this "one-size-fits-all" approach may ultimately hinder the push for sustainable, regionally adaptable and carbon-neutral construction.

Different regions possess unique climatic and environmental conditions, from the humidity of tropical areas to the aridity of deserts and the chill of temperate zones. The universal approach to architecture fails to acknowledge these variations, leading to buildings that are fundamentally out of sync with their surroundings. For example, glass buildings are highly roofs of clay tiles that usual- buildings that achieve high

energy-intensive in hot climates, requiring powerful air conditioning to maintain comfort levels. Traditional architecture provides a blueprint for climate-responsive design. Indigenous buildings reflect local knowledge of materials and climate, demonstrating how structures can achieve comfort with minimal energy input. For example, the traditional architecture of Kerala, the nalukettu style (four-sided ettukettu(eight-sided) or even

structure with a central open courtyard), a pathinarukettu (sixteensided) layout brings in natural light and ventilation, creating a cooling effect within the home. The steep, sloping ly adorn the traditional architecture allow rainwater to run off efficiently during Kerala's monsoon season. This roof style not only serves to prevent waterlogging but also helps keep the interiors

Similarly, the thatched houses made from palm leaves, straw, or reeds provide excellent thermal insulation, making the interiors naturally cool. These traditional designs, often overlooked or deemed "outdated," hold valuable lessons for sustainable construction. These structures rely heavily on artificial heating, ventilation, and air conditioning systems by ignoring local environmental factors, resulting in increased energy consumption and carbon emissions. Incorporating regional adaptations into building codes can encourage architects and developers to consider climate-responsive designs. Municipalities and urban planners play a critical role by mandating energy-efficient designs aligned with the local environment. Additionally, incentive structures—such

as tax breaks or subsidies for

environmental ratings using regional materials an-could drive more developers toward climate-responsive practices. Achieving net zero requires a fundamental shift in how we conceive, design, and construct buildings. Global architectural firms and developers must recognise that regional adaptation is not a limitation but an opportunity for inno-

A glass-and-steel tower may look sleek, but its environmental footprint should be minimised by integrating green roofs, indigenous materials, and passive climate strategies. Ultimately, the transition to net zero requires a new paradigm where buildings are no longer static, universal symbols of modernity but dynamic, responsive structures that work withrather than against—their environment. Embracing diversity in architecture is not just about aesthetics or cultural representation; it is an essential strategy for sustainable living in a warming

YUNUS FACES CHALLENGES Madam— Bangladesh's interim govern-

ment led by Muhammad Yunus, which has shown very few signs of effectively tackling major problems confronting the country, intends to approach Interpol to arrest and bring back former premier Sheikh Hasina and other members of her administration. The people in Bangladesh remain concerned about the high cost of living, law and order and the return of Islamist forces suppressed under Hasina. The world community has its concerns about violence against minority communities, especially Hindus, who make up 8 per cent of the country's population. The Yunus-led setup needs to rethink its priorities if it wants a healthy electoral democracy for Bangladesh, especially at a time when members of the caretaker

administration appear to be working at

The Yunus government is also seeking to impose a ban on the Awami League. An election without the Awami League will be a sham; it will be the same kind of controlled democracy Hasina imposed on Bangladesh to prevent her rivals from participating in electoral politics. Yunus, an unelected caretaker, should provide the healing touch of reconciliation rather than letting radical colleagues, some with dubious antecedents, dictate the politics of revenge. At the same time, Yunus should not let political chaos return to Bangladesh, harming relations with neighbours and derailing the positive economic path the country had been pursu-

While the Israeli army has expanded the range of its bombing, it is now raining death bombs on Lebanon and Yemen as well. were badly wounded and injured. They are not getting proper and adequate medical help either. Obviously, they are also sure to die. Israel is claiming that Trump has become president again, so Israel will now take over the West Bank and Gaza Strip. Will the Arab countries take some concrete steps to stop the Israeli oppression cycle, or will they keep praying with folded hands in front of it? t is said that a person who is beaten does not listen to words. RENEW CRICKET TIES

Madam — It will be nice if the BCCI reconsiders its decision of not sending the Indian cricket team to Pakistan to participate in the Champions Trophy to be held there next year.

Unlike politics, sports enable people to channel emotional impulses through victory and defeat, which may help explain why some key India-Pakistan cricket games have helped both nations move closer diplomatically in tense geopolitical environments. Through phased timelines and subnational trustbased initiatives, India and Pakistan can certainly resume cricketing ties and normalise their political relations. The Champions Trophy 2025 provides a great opportunity to realise the same.

MAKE A HABIT OF PRAYING

Praying is the easiest and best way to take shelter from God

AJIT KUMAR BISHNOI

e, souls, are intrinsically small, quite ignorant, unsafe and mostly helpless. God is omnipotent, omniscient and controller. God is quite prepared to guide and help, but we have to pray for His guidance and help. God won't do it on His own, because that will encroach upon our free will. So, what is the wise thing to do? Just pray. It is as simple as that. Not praying is not really an option. Otherwise, we will begin to speculate and, yes, worry. Why does one not pray? There are two main reasons.

One is ignorance about its benefits. The other is a feeling that one doesn't need God's help; I can manage. We don't till we get in trouble. We can pray anytime; God doesn't mind. Strangely, we request favours from so many, but not from God, who is the source of everything. (The Bhagavad-Geeta 10.41) Praying is a positive act. This is linked with our desires, which define us. Did you not know that all worship is praying only? All schools worldwide start with prayers. Prayers are of three types. One is for what we feel we need. (9.22) The second is for the protection of what we have like health. (9.22) The third and most important is to protect us when there are good

Lord Krishna has commended those who can tolerate 'sukha' just as one tolerates 'duhkha' (2.14, 2.38 and 12.13) Because all big mistakes are generally made in happy times only when one feels that one cannot do any wrong. This is when lust raises its ugly head the most. The mind becomes super active prodded by senses. (15.7) God can

help as only He can. But before doing that ego has to be curbed. We have to accept that someone can be superior to us and to such an extent that we must take His shelter. This is how we get started. You begin praying and start becoming deserving of favours by God, because praying is a spiritual act, as it links us with God. Does being connected with the rich and powerful not bring some benefits? Then, God

Yes, it is all His; we get it to use for a limited period only. Then, we are relocated. Now I will list what all we can pray for. This is not an exhaustive list, but it will be a good beginning. The first must be for guidance because direction is all important. Who is better placed than God, who is omniscient and knows past, present and future also. The second on my list is help from God. Who again is better placed than God - the omnipotent?

Don't we get in trouble helplessly? God can help. (18.58) The third must be for 'shakti' (strength) of five kinds, which are inner strength (Atma Bala), intellectual strength, mental strength, physical strength and strength to be able to tolerate. We need all of them, especially the toleration part because we must tolerate what cannot be avoided. (2.10) Aren't we living in 'duhkhalaya' (place of miseries) (8.15) Material wealth is on everyone's list. This is possible if we remain in contact with God. (18.78) Not only wealth but success is there to be had if we pray and pray sincerely for all our 'dharmasangat' (according to 'dharma') activities. (18.78)

The conclusion is that praying is the easiest and best way to take shelter from God. And as we receive what we crave for, and we can thank gratefully. What this will do is make us deserving of more rewards from God. Life will be nicely set. Keep praying.

Are e-commerce giants violating FDI norms?

As policymakers consider future regulatory steps, the ongoing ED investigation may serve as a pivotal moment in clarifying the regulatory framework for e-commerce operations in India

eportedly, on October 7, 2024, the Enforcement Directorate (ED) raided the offices of half a dozen sellers operating on the e-commerce platforms of Amazon and Walmart-owned Flipkart for alleged violations of Foreign Investment norms and Prevention of Money Laundering Act (PMLA). The intent behind the searches was to gather evidence on complaints that these sellers have been importing products from China but routing them through other locations to avoid paying higher import duties and longer time in getting the consignment cleared at the ports (that would be the case if the products were imported directly from China involving higher import tariff and more security-related checks). The agency also wanted to verify if the firms had indulged in 'under-invoicing', a practice that involves understatement of the true value of goods to save on payment of import duty. Establishing such violations will be less of a headache for the enforcement authorities although proving them in the court will remain a challenge apart from the process being long drawn. However, the big headache relates to proving violations of the norms relating to foreign direct investment (FDI). E-commerce, put simply, is the practice of buying and selling goods or services using the Internet. Amazon and Flipkart essentially operate the "marketplace" model of e-commerce - a special dispensation carved out by the Narendra Modi Government under which 100 per cent FDI is permitted. The Department for Promotion of Industry

and Internal Trade or DPIIT in the Ministry of Commerce and Industries issued a Press Note (PN) in 2016 detailing the guidelines in this regard. The "market-place" is a platform where vendors sell their products to consumers even as its owner (say, Amazon) merely acts as a facilitator. The marketplace owner books orders, raises invoices, arranges deliveries, accepts payments, handles rejections, warehousing and so on. But, he can't own and control the inventory of goods and undertake "direct selling" to the consumer.

But, this is happening.
The charge has been levelled by none other than the Union Commerce and Industry Minister Piyush Goyal. At the launch of the Pahle India Foundation's report 'Net Impact

of E-Commerce on Employment and Consumer Welfare in India' on August 21, 2024, Goyal took a shot at Amazon, for selling products directly to consumers and indulging in "predatory pricing". That could lead to massive growth of e-commerce capturing half of the Indian retail market ten years from now. This would adversely impact an estimated 100 million small retailers across the country. Predatory pricing involves setting prices for a product at an unrealistically low level to undercut the competition and gain market share.

Generally practised by a new player, predatory pricing violates antitrust laws even as it seeks to create a monopoly. Goyal opines that Amazon is selling products on its ecommerce platform at unrealistically low prices which results in heavy losses estimated to be about a billion dollars annually. To fund these losses, it brings the money from its parent but camouflages it as FDI. Pertinently, he levelled these charges in 2020 also.

Apart from the top brass in the political establishment being fully seized of the matter, it has engaged the attention of the judiciary up to the level of the country's top court. In 2019, Delhi Vyapar Mahasangh (DVM) complained to the Competition Commission of India (CCI) alleging anti-competitive behaviour by Amazon Seller Services (ASS) and Flipkart Internet Private Limited (FIPL)

It argued that ASS and FIPL had entered into exclusive sales agreements with smartphone makers to sell certain phones through a small number of preferred sellers and offering to pay for part of the discount that such sellers would offer during key sales periods such as Flipkart's big billion day and Amazon's Prime Day.
Prima facie, the CCI agreed with

DVM's contention and ordered a probe by the Director General FIPL went up to the Supreme Court (SC) to get the order quashed. In August 2021, dismissing their appeal, the SC ordered "the CCI – DG will complete the probe. In its recent findings, the CCI-DG has charged ASS and FIPL with indulging in 'predatory pricing' and violation of antitrust laws. Has Amazon/Flipkart violated FDI norms also?

To answer this let us look at the fine print. While allowing 100 per cent FDI in a market-place model of ecommerce, the PN (2016) had prescribed two main riders viz., (i) the entity can't permit more than 25 per cent of total sales on its platform from one vendor or its group companies". (ii) it can't directly or indirectly influence the sale price. The first condition didn't specify that a firm connected with the owner of "market-place" (say its subsidiary or its joint venture or JV with an Indian company) couldn't be a vendor.

Thus, contrary to the real intent of the policy which disallowed the edirect selling to individual consumers, the fine print permitted them to do so. Putting a cap of 25 per cent on each such entity led to a bizarre scenario whereby four JVs or subsidiaries of Amazon could control all of the sales on its plat-

And, having permitted it as a direct seller, you can't prevent him from deciding/influencing the price. Thus, the second condition becomes redundant.

Meanwhile, the extant policy permits FDI in business-to-business or B2B segments in physical/offline format. This has enabled Amazon and Flipkart to set up offline stores. From these stores, they sell products to sellers (many of such entities are the darlings of the duo or JVs set up in collaboration with them), who in turn, sell those products on their marketplace platform.

So, it was a well-crafted policy framework intended to enable e-

commerce majors to do all that is necessary to control inventory and undertake direct selling to consumers on their own marketplace platform. Meanwhile, in a note issued on December 26, 2018, the DPIIT clarified that "the owner of the marketplace or its subsidiary or its JV with Indian company can't have ownership of the seller." Further, "a seller on the platform can't source more than 25 per cent of its inventory from a firm connected with the latter. The above clarification has prompted e-commerce majors to rework strategies in a manner such that their links with the 'preferred' sellers are not clearly visible.

Meanwhile, the enforcement agencies are in full action mode raiding the latter's premises, looking at the documents with the intent to identify and expose such links. But, this won't lead them anywhere. The government should face the facts head-on.

If, its original intent was to ensure commerce platform owners from that the marketplace can't have any connection whatsoever with the seller whether by way of ownership or sourcing of the latter's inventory, that should have been mentioned in the guidelines issued in 2016. Anything done subsequently even

if it comes by way of a clarification will be considered a retrospective change of policy and send a wrong

Instead of going back, the government should clearly say '100 per cent FDI is permitted in direct selling to consumers alongside running a marketplace model'. It should also allow 100 per cent FDI in retail in all forms, single-brand or multibrand retail (MBR), online or offline sans any riders. All these distinctions should go. This will enable millions of Indian retailers to have 'unrestrained' access to foreign capital thereby ensuring a level playing

Taiwan and India: A partnership in climate action and sustainable development

This partnership is poised to make meaningful contributions to net-zero transitions, green finance and climate adaptation, paving the way for a resilient future

A s climate change reshapes our world, Taiwan and India, like many other nations, find themselves grappling with the profound challenges it brings. As major economies in the Indo-Pacific, Taiwan and India not only bear responsibility for their environmental welfare but also share a commitment to addressing the

global climate crisis. Our cooperation on climate change holds immense potential, as Taiwan and India pursue a shared vision of green growth, innovation and sustainable development. In recent years, Taiwan has faced severe impacts from climate change, including the worst drought in a century, unprecedented rainfall and powerful

typhoons. Under the leader-

ship of President Lai Chingte, Taiwan has outlined a comprehensive strategy for achieving net-zero emissions

This vision includes advancing a second energy transition, accelerating the development of geothermal, hydrogen, biomass, solar and ocean energy, fostering a dual digital and green transformation of industries, and promoting sustainable lifestyles. Taiwan's for new collaborations with

net-zero journey prioritises fairness, ensuring that every individual benefits from this transformative process. In June, Taiwan established the National Climate Change Committee under the Office of the President. This highlevel initiative strengthens policy transparency and public engagement, aligning Taiwan's efforts with global

climate goals. With a focus on seven key areas—including pathways to net-zero, diverse carbon reduction technologies, green finance and sustainable living—the committee provides a solid foundation for both domestic and international climate action. Taiwan's commitment to climate governance offers an opportunity India on issues of mutual interest. India has demonstrated its ambition to become a global leader in clean energy, possessing rich resources for renewable energy develop-Taiwan, a world leader in

green technology, climate adaptation and low-carbon innovation, complements India's strengths, allowing both countries to accelerate their sustainable development goals. Taiwan has integrated its 2050 net-zero target into the Climate Change Response Act and will implement a carbon fee system starting in

This initial carbon fee of approximately USD 10 per ton of carbon dioxide equivalent (tCO2e) will gradually increase, aligning with inter-

national standards of USD 40 to USD 60 per tCO2e by 2030. Additionally, Taiwan plans to introduce an emissions trading system within the next four years, enhancing its role in the global carbon market. This framework presents a robust platform for cooperation in carbon markets, policy exchanges, and technolosharing. Taiwan is launch-

Additionally, long-term investments in energy-saving, circular economy, and net-zero sectors will be supported by the Green Finance Innovation Fund, backed by the insurance and finance

The Taiwan Net-Zero Fund will collaborate with highemission industries, venture capital, and financial institutions to invest in advanced carbon reduction technologies. Taiwan's efforts will attract greater green investment, strengthen international competitiveness and deepen its climate partnership with India. In the realm of climate adaptation, Taiwan released its latest National Climate Change Science Report in

This report provides essential scientific data to assist local governments in planning effective short- and medium-term adaptation measures, enhancing urban resilience.

It underscores the need for early-warning systems and disaster prevention mechanisms that integrate prediction, response and recovery. Taiwan's adaptation initiatives align with Article 7 of the

As Taiwan advances carbon pricing and green technologies, we look forward to deepening cooperation with India in renewable energy, net-zero transition, and technological innovation, contributing together to global climate governance.

Judge delays ruling on Trump's conviction

A judge on Tuesday postponed a decision on whether to undo President-elect Donald Trump's conviction in his hush money case as prosecutors consider how to proceed in light of last week's election and his lawyers argue for dismissal so he can run the coun-

the Supreme Court ruled that expresidents can't be prosecuted for actions they took in the course of running the country, and prosecutors can't cite those actions even to bolster a case centered on purely personal conduct.

Trump's lawyers cited that ruling to argue that the hush money jury got some evidence it shouldn't have, such as Trump's presidential financial disclosure form and testimony from some White House

Prosecutors disagreed and said the evidence in question was only "a sliver" of their case.

Trump's criminal conviction was a first for any ex-president. It left the 78-year-old facing the possibility of a fine, probation or up to four years in prison.

The case centered on how Trump accounted for reimbursing a personal attorney for the Daniels payment. The then-lawyer, Michael Cohen,

recouped it through a series of payments that Trump's company logged as legal expenses. Trump, by then in the White House, signed most of the checks himself. Prosecutors said the designation was meant to cloak the true purpose of the payments and help cover up a broader effort to keep voters from hearing unflattering claims about Trump during his first campaign

Trump said that Cohen was legitimately paid for legal services, and that Daniels' story was suppressed to avoid embarrassing Trump's family, not to influence the electorate.

Trump was a private citizen, campaigning for president, when Cohen paid Daniels in October 2016. He was president when Cohen was reimbursed, and Cohen testified that they discussed the repayment arrangement in the Oval Office.

Russia launches first missile attack on Kyiv in months as NKorean troops fight in Kursk

Russia attacked the Ukrainian capital Kyiv with a sophisticated combination of missiles and drones for the first time in 73 days on Wednesday, authorities reported, as the Pentagon said most of the North Korean troops sent to help Moscow's war effort are fighting to drive Ukraine's army off Russian soil in the Kursk border region. Air raid warnings blared for hours as Russia targeted eight regions of Ukraine, firing six ballistic and cruise missiles and 90 drones, the Ukrainian air force said. Air defences downed four missiles and 37 drones, and another 47 drones were stopped by electronic jamming, the statement said. The damage was being assessed.

The air assault came as most of the more than 10.000 North Korean troops sent by Pyongyang to help Moscow in the war are engaged in combat in Russia's Kursk border region, according to the Pentagon. A Ukrainian army incursion into Kursk three months ago has succeeded in holding a broad area of land and has embarrassed the Kremlin.

Russia's military has trained the North Korean soldiers in artillery, drone

skills and basic infantry operations, including trench clearing, Pentagon deputy spokesperson Vedant Patel told a briefing Tuesday. The cooperation faces challenges, according to the Pentagon, including how to achieve military interoperability and overcoming the language barrier.

Kyiv officials say Russia has deployed around 50,000 troops to Kursk in a bid to dislodge the Ukrainians.

Russia has in recent months been assembling forces for a counteroffensive in Kursk, according to the Institute for the Study of War think tank. though the timescale of the operation is not known.

Russia's plans in Kursk and Ukraine's efforts to hold back a Russian onslaught in the eastern Donetsk region coincide with political uncertainty over how a US administration under Donald Trump will change Washington's policy on the war. US military aid is vital for Ukraine, but Trump has signalled he doesn't want to keep giving tens of billions of dollars to Kviv.

President Ioe Biden intends to bolster US military support to Ukraine in the final months of his administration, US Secretary of State Antony Blinken said on Wednesday.

British author Samantha Harvey wins Booker Prize

 $B^{\text{ritish author Samantha Harvey}}_{\text{has won the 2024 Booker Prize}}$ for her ambitious and beautiful 'Orbital', which becomes the first novel set in space to win the 50,000pound literary prize selected from a historic shortlist that was dominated by women this year.

'Orbital', the biggest-selling book on the shortlist in the UK, takes place over a single day in the life of six astronauts and cosmonauts aboard the International Space Station who observe 16 sunrises and sunsets on Earth spinning past continents and cycling past seasons.

It was named the winner at a ceremony at Old Billingsgate in the City of London on Tuesday evening after the judges described it as a compact yet beautifully expansive novel which invites readers to

reflecting on the individual and collective value of every human life. "I originally thought, 'Why on earth would anybody want to hear from

a woman at her desk in Wiltshire writing about space, imagining what it's like being in space when people have actually been there," said Harvey, who dedicated her award to everybody who "speaks for and not against the Earth".

"I thought of it as space pastoral a kind of nature writing about the beauty of space," said the nearly 50year-old author. She is the first British writer since 2020 to win the prestigious Booker.

At just 136 pages long, the winning title is the second-shortest book to win the prize and covers the briefest time frame of any book on the shortlist, taking place over just 24 hours.

'Samantha Harvey has written a observe Earth's splendour whilst novel propelled by the beauty of 16

sunrises and 16 sunsets. Everyone and no one is the subject, as six astronauts in the International Space Station circle the Earth observing the passages of weather across the fragility of borders and time zones. With her language of lyricism and acuity, Harvey makes our world strange and new for us," said artist-author Edmund de Waal, chair of the 2024 Booker

'All year we have celebrated fiction that inhabits ideas rather than declaiming on issues, not finding answers but changing the question of what we wanted to explore. Our unanimity about 'Orbital' recognises its beauty and ambition. It reflects Harvey's extraordinary intensity of attention to the precious and precarious world we share," he said.

The judging panel included award-winning British Indian musician

Nitin Sawhney, novelist Sara a dramatic increase in global sales Collins, fiction editor of 'The and a career transformed Guardian' newspaper Justine Jordan and Chinese American writer and professor Yiyun Li.

The female-dominated shortlist this year included American author Rachel Kushner for the spy thriller 'Creation Lake', Canadian Anne Michaels for her familial tale 'Held', Australian Charlotte Wood for her philosophical 'Stone Yard Devotional' and Yael van der Wouden, the first Dutch author to be shortlisted, for her debut novel 'The Safekeep'. American writer Percival Everett was the only male among this year's finalists announced in London this week for his Mark Twain ode 'James'. Each of the shortlisted authors will receive GBP 2,500 and a bespoke bound edition of their book. As the winner, Harvey can expect

instant international recognition,

The Booker Prize trophy, presented to Harvey, was originally designed by children's author and illustrator Jan Pienkowski in 1969 and was reinstated in 2022. A lifesized replica of the trophy named Iris, after Booker winner Iris Murdoch, was displayed for the first time at the Booker Prize 2024 ceremony and will be moved to Waterstones bookstore at Piccadilly

in central London.

Stage set for parliamentary polls in Sri Lanka today

Sri Lanka is set to hold on Thursday its snap parliamentary election - first after the 2022 economic crisis – amid deployment of nearly 90,000 security personnel across the country.

Voting will take place at over 13,314 polling stations across the country, from 7 am to 4 pm local time with over 17 million voters from the island's 21 million population eligible to vote for the 225 member parliament for a five-year term.

Nearly 90,000 security personnel from the police and the military would be deployed to provide security at the election venues. There will also be mobile police patrols, police spokesman Niĥal Thalduwa

Director General of the Elections Commission Saman Sri Ratnayaka on Tuesday said that all ballot boxes and other equipment needed at the polling stations would be dispatched on Wednesday.

"The polling station officials will

Dubai approves first aerial taxi vertiport, set for 2026 launch

 $D_{\text{struction of its first aerial}}^{\text{ubai has approved the construction of its first aerial}$ International Airport, marking a major step towards becoming the first city to offer urban aer ial transport.

The vertiport, designed to blend seamlessly with Dubai's skyline, will provide passengers a unique, efficient, and comfortable travel experience in the skies.

Crown Prince and The Executive Council Chairman Hamdan Sheikh Mohammed bin Rashid Al Maktoum authorised the project, according to a press release.

Spanning 3,100 square metres, the vertiport will feature dedicated take-off and landing zones, aircraft charging stations, a taxi apron, and parking areas, with the capacity for 42,000 landings and 170,000

passengers per year. Built to top global safety standards, the air-conditioned facility will be a collaboration with international partners: Joby Aviation, responsible for aircraft manufacturing and operations, and Skyports, overseeing vertiport infrastructure design and management. Dubai's Roads and Transport Authority (RTA) will govern the project and integrate it with other transit systems. The service is expected to launch in early 2026.

on Wednesday," Ratnayaka said. Thursday's vote would be the first major test of the popularity of the ruling party, National People's Power, led by President Anura Kumara Dissanayake. Having failed to secure 50 per

cent of the vote at the September 21 presidential election, Dissanayake is pleading for a stronger parliament with well over a simple majority of 113 seats in order to implement his anti-corruption accountability reformist programme.

This will be the first parliamentary election since Sri Lanka plunged into an economic crisis when the island nation declared sovereign default in mid-April of 2022, its first since gaining independence from Britain in 1948. Almost civilwar-like conditions and months of public protests led to the fleeing of the then president Gotabaya Rajapaksa.

Since assuming office, Dissanayake has stayed on course with his predecessor Wickremesinghe's

Olaf Scholz to seek trust vote in Dec

erman Chancellor Olaf Scholz has announced that he will Gask for a vote of confidence on December 16, paving the way forward for an early parliamentary election in February.

Scholz declared his plans for a vote of confidence during a speech in parliament on Wednesday, one week after his three-party coalition government collapsed.

He had initially wanted to have an early election only by late March — before the vote that is regularly scheduled for September 2025. However, the centre-right Christian opposition pushed for a quicker vote in the parliament to speed up the next election. In the end, party leaders across the political spectrum agreed on Wednesday on the two dates for the vote of confidence and the new election.

The developments come after the collapse of Scholz's three-party coalition last week, at a time when the leaders of Europe's biggest economy have been grappling with ways to revive Germany's anemic economic growth.

Experts predict the economy will shrink or at best stagnate this year, due to external shocks and homegrown problems including red tape and a shortage of skilled labour.

Scholz had previously announced that he would seek a vote of confidence on January 15 that could lead to an election as soon as March. The vote had otherwise been due next September.

Onion prices increase to ₹ 70 per kilogram, Odisha asks NAFED to intervene

PTI BHUBANESWAR

With onion prices reaching Rs 70 per kg in the market, the Odisha Wednesday government said it has asked the Agricultural Marketing Cooperative Federation of India Limited (NAFED) to sell the vegetable at the rate of Rs 30 per kg in the state. State Food Supplies and

Consumer Welfare Minister K C Patra attributed the price rise to the market situation at Nasik in Maharashtra from where the onions are procured.

Arvindar Singh Sahney to be new chairman of Indian Oil PTI ■ NEW DELHI

Arvindar Singh Sahney will be the new chairman of Indian Oil Corporation, the nation's largest oil firm, according to an order issued by the petroleum ministry on Wednesday. Sahney, 54, is currently

Executive Director (Business Development Petrochemicals), Indian Oil Corporation Ltd (IOC).

He was in August selected to be the company's director for business development but has now been appointed as the chairman of the firm.

"The Appointments Committee of the Cabinet (ACC) has approved the proposal of this ministry for appointment of Arvindar Singh Sahney, Executive Director, IOC to the post of Chairman, IOC, for a period of five years with effect from the date of his assumption of charge of the post, or till the date of his superannuation, or until further order, whichever is the earliest," the Ministry of Petroleum and Natural Gas said in an order.

The post of chairman IOC fell vacant after Shrikant Madhav Vaidya completed his extended tenure on August 31, 2024.

Currently, Satish Kumar (Director, Vaduguri Marketing, IOC), is holding the additional charge of chairman of the Fortune 500 company.

Sahney will be the second person after B Ashok to be elevated to the top job of the company without a board experience

Ashok too was Executive Director (Retail) when in July 2014 he was appointed IOC chairman.

A three-member searchcum-selection-committee in mid-August interviewed about a dozen candidates for the top job at IOC.

Later vigilance profiles of four internal candidates -Arvind Kumar (Director, Refinery, IOC), Sahney, Parasher Sanjay Marketing, IOC) and Saumitra Srivastava (ED, IOC) Marketing and head of Maharashtra region, IOC) were sought. After clearance by the anticorruption watchdog CVC, Sahney's name was approved for the top job at IOC. Sahney has been with the

company for over three decades now. Schooled in Lucknow, he is a chemical engineer from Harcourt Butler Technical

University, Kanpur. He joined IOC in 1993 following a brief stint at Tata Chemicals.

He was appointed executive director of the company in February 2022.

He was picked among a dozen candidates by the government headhunter Public Enterprise Selection Board (PESB) on August 20 for the job of Director (Business Development),

Prior to that on August 11, he was among the 11 candidates who were interviewed by a search-cum-selection committee for the top job at

Those interviewed that day included GAIL chairman and managing director Sandeep Gupta (who previously was Director (Finance) at IOC), IOC Director (Marketing) interview.

Satish Kumar Vaduguri and IOC Director (Refineries) Arvind Kumar.

Petroleum Bharat Corporation Ltd (BPCL) Director (marketing) Sukhmal Kumar Jain as well as company's director (refineries) S Khanna were director also interviewed.

Petroleum Hindustan Corporation Ltd (HPCL) director (marketing) Amit Garg had also appeared.

The panel was tasked to look for a replacement for Shrikant Madhav Vaidya, whose one-year extension beyond his retirement age of 60 years ended on August 31. The age eligibility cut off has been set at not more than 58 years for internal candidates and 57 years for outsiders with 60 years as the retirement age.

But this was relaxable in the case of deserving candidates. This discretion was used in the case of Gupta, who has less than two years before retirement in February 2026, and Satish Kumar Vaduguri, who had only 11 months of service left at the time of the

The Professional Golf Tour of India (PGTI) on Wednesday announced the appointment of Amandeep Johl as its new Chief Executive Officer (CEO) from January 2025.

A respected name in Indian golf, Johl brings extensive experience to his new

The appointment comes alongside another recent significant leadership addition, with the legendary cricketer Kapil Dev assuming the role of PGTI President in June this year. Johl replaces Uttam Singh Mundy, who has essayed a key role in the organisation since its inception.

Johl, who until recently was on the PGTI board, will take charge from

Welcoming Johl's elevation to CEO, Kapil Dev said: "Amandeep has been on the Indian and Asian golf circuit for nearly 34 years and it is just apt that somebody who is so entrenched in the sport leads the PGTI.

These are exciting times for golf in India and with Amandeep at the helm, PGTI looks forward to strengthening its presence, in India and around the world."

The legendary all-rounder hailed the outgoing CEO for his contribution to PGTI and Indian golf.

'Uttam Mundy's commitment and vision have been instrumental in establishing PGTI as the premier professional golf tour in India, and his contributions are deeply appreciated," he said.

Johl, who holds a degree in mechanical engineering, has been an integral part of Indian golf since in 1985 and four years later
