What is the real AQI?

onfusion prevails over the accuracy of the Air Quality Index (AQI) as Delhiites gasp for breath. While the Central Pollution Control Board (CPCB) on Monday recorded the Delhi' AQI at 486 at 6 am marking the worst of the season, another platform, IQAir, a Swiss air quality technology company, showed Delhi's AQI around 1,697 at 12.30 pm. It recorded 2,314 AQI at VIvek Vihar C block station, which is beyond severe, in the National Capital. An official statement issued by the Delhi Development Authority (DDA) which comes under the Lieutenant Governor Vinai Kumar Saxena also cited the AOIat

According to IQAir, the National Capital ranked at the top of the list of most polluted cities in the world. The PM2.5 concentration is recorded at 907.5 µg/m that is 182.5 times the World Health Organization (WHO) annual PM2.5 guideline value.

Another platform, AQICN.Org, shared real time data that showed AQI at 874 in the hazardous category. The India Meteorological Department has issued an Orange Alert due to dense fog in the city. With the city shrouded in dense fog and visibility severely reduced, flight and train operations have been disrupted, leading to delays.

As several platforms showing AQI at

hazardous levels beyond the severe, the Commission (CAOM) issued a Management communiqué urging to refer only to the SAMEER App or the CPCB Official Website for accurate and reliable data. These are the authorised platforms for relaying the air quality index. Please avoid relying on unofficial or unreliable sources to ensure that correct information is alone disseminated to the public," it added.

150

The Air Quality Index, is a numerical scale that measures certain pollutants and their concentration to communicate the quality of air in a specific area. It also provides information on how these numbers can affect human health and the environment. When asked officials say some platforms, like IQAir, provide realtime data, while others, like the CPCB, provide a single reading for a day. One of the reasons why the data collected by different platforms is varied is due to access to air quality monitoring stations. Since IQAir is an aggregator, it uses information from government-run sensors, which are also used by the CPCB. It also uses privately operated sensors, which may provide more localised readings.Platforms such as IQAir update the AQI of a city and its different regions much faster with real-time data, while the CPCB gives one reading which applies to the region for a day.

Enforce GRAP IV strictly: SC

PIONEER NEWS SERVICE ■ NEW DELHI

the alarming $N_{
m population}^{
m oting}$ the delays and implementation of stricter measures, the Supreme Court (SC) on Monday asked the Delhi-NCR States to immediately set up teams to enforce GRAP 4 restrictions. and said it will remain in effect even if the AQI is below 450. The SC also ordered that physical classes for all school students up to Class 12 be suspended in Delhi NCR for the time

A Bench of Justices Abhay S Oka and Augustine George Masih said it is the constitutional duty of all States to ensure all citizens live in a pollution-free environment. "We direct restrictions under stage 4 of GRAP to continue even if AQI level falls below 450," the Bench

The Supreme Court asked all National Capital Region States to immediately take a call on conducting physical classes up to Class 12 and directed the setting up of a mechanism where complaints can be made for violation of restrictions under stage 4 of the Graded Response Action Plan (GRAP). The Bench questioned the Delhi Government and the Commission for Air Quality Management (CAQM) over the delay in invoking pollution preventive measures under GRAP stages. "GRAP stages should be implemented immediately the moment the AQI level

touches alarming levels. Some sense of urgency needs to be there," the Bench said, after the counsel for the Delhi Government informed the Bench that stage 4 of GRAP has been implemented from Monday and heavy vehicles have been banned from entering the national Capital. "The moment the AQI reaches between 300 and 400, stage 4 has to be invoked. How can you take risk in these matters by delaying applicability of stage 4 of GRAP," the Bench told the counsel. The Judges said that the CAOM waited for improvement in weather conditions instead of implementing different stages of GRAP over alarming rising pollution levels. Asking the Delhi Government and neighbouring NCR States - Uttar Pradesh and Haryana - to file their compliance affidavit by November 22 on the implementation of preventive measures to check pollution, the Bench said steps may be taken besides those suggested under GRAP.

Delhi facing medical emergency: CM Atishi

*AQI SOURCE: CENTRAL POLLUTION CONTROL BOARD, NOVEMBER 18, 2024

RAJESH KUMAR/SAUMYA SHUKLA

Delhi Chief Minister Atishi on Monday raised an alarm over the severe air pollution engulfing a large swathe of North India, describing the situation as a "medical emergency" caused by rampant stubble burning in several "Bharatiya Janata Party-ruled" states. Experts have advised citizens to reduce outdoor activities, minimise exposure, wear N95 masks when outside, and decrease vehicular emissions, to minimise the impact of pollution in their day-to-day lives. Meanwhile, the India Meteorological Department (IMD) issued a warning for dense to very dense fog, saying road, train and flight services may get affected.

Fifteen flights were diverted, and around 200 were delayed at the Delhi airport on Monday as visibility reduces to 150 metres due to unfavourable weather conditions in the National Capital. Flight operations in Delhi faced disruptions on Monday as thick smog reduced visibility significantly at Indira Gandhi International Airport (IGIA). According to Flightradar24, over 200 flights, 118 departures and 43 arrivals, at Delhi Airport experienced delays due to the low visibility till 8.30 am. More than 100 flights have been rescheduled. Out of the 15 flights, 13 were diverted to Jaipur and 1 to Dehradun, the official said and added that the diversions happened

Photo: Ranjan Dimri/The Pioneer

between 8.30 am and 3 pm. Some of the pilots were not trained for CAT III operations due to which flights had to be diverted.

Complying with the measures enforced under GRAP Stage IV, the Delhi traffic police imposed a total of 4,852 challans and 4,472 challans on the nonpossession of Pollution Under Control (PUC) certificates on November 15 and 17 respectively. It also imposed 138 and 155 challans on End of Life Vehicles (ELVs) on November 15 and 17 respectively.

The police also diverted 423 nondestined trucks on November 15 while the numbers were higher for November 17 as 545 such trucks were diverted in Delhi. In adherence to the measures, the police also imposed challans on 514 Light Motor Vehicles (LMVs) (BS III petrol and BS IV diesel) on November 15. The numbers rose about 100 per cent on November 17 as 1,130 such LMVs were issued challans.

People gather outside the emergency ward after a fire broke out in the Neonatal Intensive Care Unit (NICU) of the Maharani Laxmi Bai Medical College, in Jhansi

No FIR filed 72-hours after Jhansi fire tragedy

BISWAJEET BANERJEE

Edevastating fire in the Special Newborn Care Unit (SNCU) of Rani Laxmibai Medical College claimed the lives of 12 newborns, no FIR has been registered, and accountability \ remains undetermined. The tragedy, which occurred on Friday night, left 10 newborns dead on the spot, and two more succumbed to their injuries on Sunday, and Monday.

While a preliminary investigation by the Divisional Commissioner has been completed and a report submitted to the state government, no concrete action has been taken against any staff member or official. A high-level team led by the Director General of Health Services began its probe on Monday, but legal and disciplinary actions remain pending. The inaction has fueled political outrage, with

Opposition parties lambasting the government for negligence demanding

accountability.
The tragedy has spotlighted glaring fire safety violations at the medical college. A February fire audit had flagged serious lapses in safety measures across the hospital, including in the SNCU ward. Despite these warnings, the administration failed to corrective implement measures. A proposal seeking Rs 1 crore to address these deficiencies was submitted, but no substantial progress

was made. Deputy Chief Minister Brajesh Pathak, who inspected the site on Saturday, confirmed that a mock fire drill had been conducted in June, following the audit. However, Rs 46 lakh sanctioned earlier for electrical repairs and the refilling of 126 fire extinguishers proved insufficient to prevent the

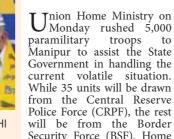

Kailash Gahlot goes to **BJP, Somesh Shoukeen** comes to AAP

RAJESH KUMAR NEW DELHI

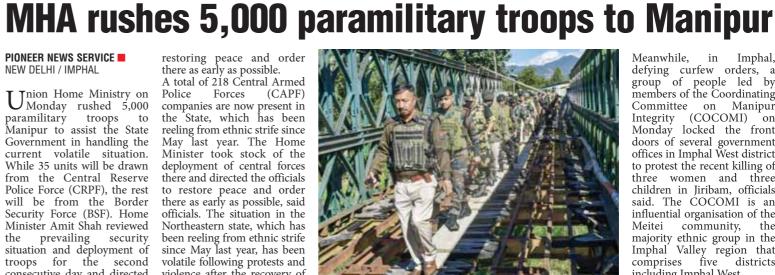

Delhi's former Transport Minister Kailash Gahlot, who called himself Arvind Kejriwal's 'Hanuman' till Sunday, and was one of the ruling Aam Aadmi Party's senior-most leaders, jumped the fence on Monday morning to join the rival Bharatiya Janata Party (BJP), a day after quitting the party. After joining the BJP, Gahlot clarified that he didn't quit Delhi's ruling party because of pressure from the Enforcement Directorate (ED) and Central Bureau of Investigation (CBI). He alleged that efforts are being made to build a false narrative that his decision to quit the AAP was the result of probe agencies pressure while AAP convener said Gahlot was free to make his choice. Speaking to reporters, he said, "He is free; he can go wherever he wants." Similarly, former Congress MLA from Matiala, Somesh Shoukeen joined the AAP in the presence of Arvind Kejriwal. This comes a day after the AAP suffered a blow with its Jat leader Kailash Gahlot resigning from the

PIONEER NEWS SERVICE NEW DELHI / IMPHAL

from the Central Reserve will be from the Border Security Force (BSF). Home Minister Amit Shah reviewed the prevailing security situation and deployment of troops for the second consecutive day and directed top officials to focus on

restoring peace and order there as early as possible. A total of 218 Central Armed Forces (CAPF) companies are now present in the State, which has been reeling from ethnic strife since May last year. The Home Minister took stock of the deployment of central forces there and directed the officials there as early as possible, said officials. The situation in the Northeastern state, which has been reeling from ethnic strife since May last year, has been volatile following protests and violence after the recovery of bodies of women and children.

Assam Rifles officers at Lailophai in Churachandpur district, Manipiur

Meanwhile, defying curfew orders, a group of people led by members of the Coordinating Committee on Manipur Integrity (COCOMI) on Monday locked the front doors of several government offices in Imphal West district to protest the recent killing of three women and three children in Iirib said. The COCOMI is an influential organisation of the Meitei community, the majority ethnic group in the Imphal Valley region that comprises five districts including Imphal West.

Campaigning draws to a close, high-stake polls next

PIONEER NEWS SERVICE MUMBAI/RANCHI/LUCKNOW

ampaigning for the high-Ustakes single phase elections in Assembly Maharashtra, and second and final phase of Jharkhand Assembly elections ended on Monday evening, for the November 20 elections. Besides intense campaigning for the nine Assembly by elections in Uttar Pradesh too concluded on Monday evening for the scheduled voting on November 20. Results for the polls scheduled on November 13 and 20 including, Wayanad Lok Sabha are set to be declared on November 23. The election campaign for the Maharashtra Assembly polls ended on Monday, with

the ruling BJP-led Mahayuti

and the Maha Vikas Aghadi (MVA) combine hoping for a strong comeback.

Polling will be held in all the 288 Assembly seats for which the campaign saw prominent leaders like Prime Minister Narendra Modi, Minister Amit Congress leaders many crisscrossing the state to garner votes for their candidates. The Mahayuti, comprising

alliance vying to retain power

Rahul Gandhi, Priyanka Gandhi and Union ministers

the BJP, Shiv Sena led by Chief Minister Eknath Shinde, and the Nationalist Congress Party led by Deputy Chief Minister Ajit Pawar, is banking on its popular schemes like Majhi Ladki Bahin for women helping it retain power. The BJP's use of slogans like

"Batenge toh katenge" and
"Ek hai toh safe hai" prompted the opposition parties to accuse the Mahayuti of polarising voters

along religious lines. The Maha Vikas Aghadi (MVA), comprising the Congress, Shiv Sena (UBT) and NCP (Sharadchandra Pawar), slammed Uttar Pradesh Chief Minister Yogi Adityanath's use of "Batenge toh katenge" and PM Modi's "Ek hai toh safe hai" slogans.

'One Earth One Family One Future' theme still relevant: PM Modi

PTI ■ RIO DE JANEIRO

The countries of the Global South are most adversely impacted by the food, fuel and fertilizer crisis caused by global conflicts and G20 must focus on addressing it, Prime Minister Narendra Modi said on Monday.

In an address at a session at the G20 summit, Modi said India's G20 theme of "One Earth, One Family, One Future" is as relevant at the ongoing summit as it was last year. "I would like to say that countries of the Global South are most adversely impacted by the food, fuel and fertilizer crisis caused by global conflicts," he said. "So our discussions can only be successful when we keep in mind the challenges and priorities of the Global South," he added. The PM made the remarks at the G20 session on 'Social Inclusion and the Fight Against Hunger

and Poverty'. Modi also called for reform of the institutions of global governance. "And just as we amplified the voice of the Global South by granting permanent membership of G20 to the African Union during the New Delhi summit, we will reform institutions of governance," he said. global

The PM said India supports Brazil's initiative for a 'global alliance against hunger and poverty' "The people-centric decisions taken at the G20

Prime Minister Narendra Modi being welcomed by President of Brazil Luiz Inacio Lula da Silva upon his arrival to attend the G20 Summit, in Rio de Janeiro, Brazil

Summit in New Delhi have been taken forward during Brazil's Presidency," he said. "It is a matter of great satisfaction that we prioritised SDG (sustainable development goals). We focused on Inclusive development, development, and youth power," he said. "And gave wings to the hopes and aspirations of the Global

South. It is clear that One Earth One Family One Future is as relevant at this summit as it was last year," he added. The theme of India's G20 presidency is drawn from the ancient Sanskrit text of Maha Upanishad.

India is 'top sender' of students to America United States. The number of to 1,426 students, according to the

PIONEER NEWS SERVICE NEW

With more than 3.3 lakh Indians studying in the United States, it has become the "top sender" of international students for the first time in 15 years, according to the Open Doors Report 2024 released on Monday. In the academic year 2022-23, the leading "source country" for international students in the US

was China followed by India. According to the latest Open Doors Report, the number of Indian students studying in the US in the academic year 2023-24 is at an "alltime high" at 3,31,602, a rise of 23 per cent from 2022-23 when the number stood at 2,68,923.

"India is now the leading country of origin for international students in the United States, accounting for 29 per cent of the total international student population," according to a note shared by the US Embassy on the Open Doors Report 2024.

According to official data associated with the latest report, the top five source countries for international students in the US for 2023-24 are: India, China (2,77,398), South Korea (43,149), Canada (28,998) and Taiwan

(23,157)."India is the top sender of international students (for the first time since 2008/2009) with over 3,31,602 students studying in the experienced a 28 per cent decline

Indian students is at an all-time high," the US Embassy's note read. Normally, the academic year in the US begins in September and runs through May. India also "remained the largest

sender" of international graduate (masters and PhD level) students to the US for the second year. The number of Indian graduate students increased by 19 per cent to reach 1,96,567, it said.

The number of undergraduate students from India also increased by 13 per cent to 36,053 while the number of non-degree students

report. The release of the Open Doors Report marked the beginning of International Education Week

(IEW), which celebrates the benefits of international education and exchange worldwide. The report is published by the

Institute of International Education. The IIE has been International conducting an annual statistical survey on international students in the US since its founding in 1919 and in partnership with the US Department of State's Bureau of Educational and Cultural Affairs

Oppn attacks BJP Govt on shortage of DAP; CM says no shortage of fertilizer in State

The Opposition parties on Monday launched a blistering attack on the Government in the Haryana Assembly, accusing the Bharatiya Janata Party (BJP) led State Government of being cut off from the ground reality of shortage of diammonium phosphate (DAP) fertilizer in the State but treasury benchers hit back, saying that there Was no shortage of fertilizer in the

On the third day of Haryana Vidhan Sabha's winter session, the opposition members once again raised the issue of shortage of DAP in the State after the Indian National Lok Dal (INLD) MLA Aditya Devi Lal Chautala raised the issue by moving the Calling Attention Motion. Leaders of Congress, INLD, and BJP indulged in a war of words over this issue in the Assembly.

Congress MLAs Aftab Ahmed, Jassi Petwar and Sheeshpal Keherwala had also moved the same motions on the issue of DAP shortage, which the Speaker Harvinder Kalyan combined into one.

Speaking in the favour of the motion, Aditya Chautala accused the State Government of being cut off from the ground reality of DAP shortage in the State. "At various places in the districts, farmers are compelled to stand in queue to procure fertilizers; while at many places, fertilizers are being provided to farmers in the presence of police forces. There is rampant black marketing of fertilizers in the State. Only seven cases have been registered against those involved in black marketing of fertilizers," he said.

Replying to the motion, Chief Minister Nayab Singh Saini reiterated that there is no shortage of DAP fertilizer in the State and the farmers are being intentionally misled by spreading rumours related to shortage.

He informed the House that the data regarding the availability of DAP at the Agriculture Primary Cooperative Societies (PACS) in the state was available with the government and if any member requires information on this, it will be provided. CM Saini assured that there is currently no shortage of DAP in

"Being a farmer's son, I deeply understand the challenges farmers face regarding the availability of fertilisers. For

Channi has once again found

himself at the center of a con-

troversy — this time for mak-

ing derogatory remarks about

women during an election

rally. Intervening swiftly, the

Punjab State Women's

Commission on Monday

issued a notice to Channi after

his comments sparked outrage

across political circles and

among women's rights groups.

Notably, Channi, while

total of 110,200 metric tonnes of DAP has been allocated," said the Chief Minister.

In response to a question about the availability of DAP stock in Sirsa, the Chief Minister informed the House that on October 1 the initial stock of DAP in Sirsa was 1,063 metric tonnes, and as of today there are 2,217 MTs available. Similarly, in Hisar district, there is still 2,087 MTs of DAP available. A total of 216 MTs of DAP, more than the previous year, has already been provided to farmers, said Saini.

The state's Agriculture and Farmers' Welfare Minister Shayam Singh Rana informed the House said that the State Government is administratively capable of making arrangements for all types of fertilizers and their proper distribution as per the requirements of farmers in the State. He informed that the Government of India assesses the seasonal and monthly requirements of fertilizers, prepares a plan and sends it to the concerned State. "The Agriculture and Farmers' Welfare Department of Haryana also monitors the requirement, supply, sales and stock position of urea and DAP and other fertilizers on a daily basis. The Centre also reviews the supply plan with the State including fertilizer suppliers through video con-ferencing every Tuesday," he added. Minister informed that sowing of oilseed crops has almost completed and wheat

sowing is in full swing.
The Phosphatic fertilizers are used or drilled during sowing and urea is generally used as a spray in the crops. Last year, the sale of DAP in the Rabi season was 2.30 lakh metric tonnes and the same is expected to be sold in the current Rabi season 2024-25. The Centre has allocated 2.60 LMTs

This Year Opposition members and BJP members sparred in the Assembly over the issue of rising Dengue cases in the state. INLD MLA Arjun Chautala moved the calling attention motion on the increasing number of dengue patients in the state and the lack of preventive measures by the government. Speaking over this issue, Chautala alleged that the government has failed to control dengue cases in the State as no steps were taken to prevent it.

Chief Minister Saini, while replying, assured the House that the Health Department is fully prepared for the prevention and control of dengue in the State, and continuous fogging is being carried out throughout the state.

"In view of the changing weather, directions have been issued to speed up the fogging across the state," he said. Saini clarified that the government never and will not hide any data regarding this issue.

The arrangements for

Section 10 of the Punjab State

Women Commission Act,

state as compared to last year.

In the last year in 2023, there

were 8081 dengue cases, which

Haryana Government on Monday withdrew the Organized Crime Control Bill, 2023, following discrepancies flagged by the Centre. Chief Minister Nayab Singh Saini tabled a resolution in the Assembly to retract the bill alongside the Haryana Honourable Disposal of Dead Body Bill, 2024, citing the need for revisions.

Initially passed in March 2023, the Organized Crime Control Bill aimed to curb criminal syndicates but faced repeated hurdles. Earlier versions of the bill, introduced in 2019 and 2020, were withdrawn due to conflicts with central laws such as the Drugs and Narcotic Psychotropic Substances Act. The 2023 iteration, sent for the President's assent, encountered similar issues when the Union Ministry of Law and Justice and the Ministry of Home Affairs (MHA) highlighted dis-

The MHA suggested the state reconsider the legislation and resubmit a revised version. Opposition parties, particularly Congress, had previously raised concerns over the bill's "draconian provisions" and sought its referral to a select committee. Former Chief Minister Bhupinder Singh Hooda noted this was the third withdrawal of the legislation.

Congress MLA BB Batra emphasized the Bill's contentious history, while MLA Geeta Bhukkal criticized the government for overlooking opposition objections during its passage. Saini assured the Assembly that a revised version would address all concerns.

The Haryana Honourable Disposal of Dead Body Bill, which proposed penalties for misuse of corpses in demonstrations, faced similar scrutiny. The Union Ministry of

prompting its withdrawal. The introduction of new central criminal laws in July, including the Bharativa Nyaya Sanhita, 2023, may have influenced the decision. Two lakh regular jobs

Saini said that the state government has decided to secure the services of 1.2 lakh employees engaged under the Haryana Kaushal Rozgar Nigam (HKRN) and outsourcing policy until their retirement and for this, The Harvana Contractual Employees (Security of Service) Bill, 2024 has been passed in the Vidhan Sabha. Furthermore, a separate bill would be introduced to secure the services of employees having a monthly salary above Rs 50,000 per month, said the Chief Minister while replying to the questions raised by the Opposition regarding this Bill

Vidhan Sabha.

HSGMC polls soon:

in the ongoing session of the

Chief Minister Saini assured the Assembly that elections for the Haryana Sikh Gurdwara Management Committee would be held soon, with voter registration underway. During discussions on the Haryana Sikh Gurdwara Management (Amendment) Bill, 2024, Saini highlighted changes to the Haryana Sikh Gurdwara Judicial Commission. The amended bill allows the Commission's chairperson to be either a High Court or District Judge, removing the earlier upper age limit of 65 years. Saini emphasized that the government has not restricted the committee's elections but has formed a separate body to oversee the process. He reiterated the government's commitment to upholding Sikh religious and administrative rights, ensuring fair and efficient electoral proceedings. Seven Bills Passed

Seven bills were passed after discussion in the Assembly, including The Haryana Panchayati Raj (Amendment) Bill, 2024; The Haryana Village Common Lands (Regulation) Amendment Bill, 2024, The Harvana Municipal (Amendment) Bill, 2024; The Harvana Municipal Corporation (Amendment) Bill, 2024; The Harvana Development and Regulation of Urban Areas (Amendment) Bill, 2024; The Haryana Sikh Gurdwaras (Management) Amendment Bill, 2024; and The Haryana Contractual Employees (Security of Service)

Channi's remarks, calling them a clear reflection of his "low mentality" towards women. She criticized his comments for being disrespectful not only to women but also to Jats and Brahmins, accusing him of attempting to play divisive politics. Jai Inder has urged the Election Commission and the Women's Commission to take

strict action against Channi. AAP's Gidderbaha candidate Hardeep Singh 'Dimpy' Dhillon, also denounced Channi's comments, particularly highlighting the fact that Amrita Warring, a female candidate, was present during the rally when Channi made the remarks. Dhillon called for immediate action against Channi, stating that such language has no place in modern

SAD working committee appeals for unity. Defers decision on Sukhbir's resignation To seek feedback from district chiefs, SGPC members

MONIKA MALIK CHANDIGARH

Shiromani Akali Dal (SAD) working committee on Monday unanimously passed a resolution urging the party president Sukhbir Singh Badal to reconsider his resignation. Asserting their unwavering confidence in his leadership, the committee members declared that they would resign en masse if he stepped down.

The pivotal decision, made during the SAD working committee's marathon three-hour meeting in Chandigarh, highlighted the party's effort to rally behind its leader amid growing internal and external challenges. SAD working president Balwinder Singh Bhunder announced that the committee would seek feedback from grassroots leaders, including district presidents, halqa in-charges, and the members of the Shiromani Gurdwara Parbandhak Committee (SGPC) to ensure a collective and democratic decision-making process.

Sukhbir, who has led the SAD since 2008, had submitted his resignation following growing dissent within the party and criticism over decisions made during his tenure, including unresolved issues related to the 2015 sacrilege incidents. The Akal Takht Sahib had also declared Sukhbir "tankhaiya" (guilty of religious misconduct), further complicating his position within the party.

Notably, Sukhbir had appointed Balwinder

Singh Bhunder as SAD's working president on August 29 this year—a day before the Sikhs' highest temporal seat, Akal Takht, declared him "tankhaiya" for alleged lapses during his tenure between 2007 and 2017.

These lapses, according to the Akal Takht, caused significant harm to Sikh interests and tarnished the panth's image. The charges included failing to take action against those responsible for the 2015 sacrilege incidents and granting pardon to Dera Sacha Sauda chief Gurmeet Ram Rahim Singh in a 2007 blasphemy case.

The "tankhaiya" status remains unresolved as the Akal Takht has yet to pronounce a formal "tankhah" (punishment) to Sukhbir.

However, the Committee made it clear that his leadership was indispensable at this critical juncture. "Sukhbir Badal is not just a leader; he is the symbol of our party's resilience. His resignation would render us vulnerable to conspiracies aimed at dismantling our unity," said takes.

Bhunder, emphasizing the need for collective

"In a democratic setup, decisions must reflect collective opinion. We will conduct district and constituency-level meetings to ensure every leader's voice is heard," said Bhunder, while addressing the media following the meeting.

He added, "We will be calling the district heads, constituency in-charges, and SGPC members to the party head office on separate dates to get their feedback. Afterwards, a col-

lective decision will be taken. **Grassroots Support for Sukhbir** Youth Akali Dal president Sarabjeet Singh

Jinjher and several other loyalists expressed unwavering support for Sukhbir, warning of a cascading effect of resignations if his decision was accepted. Senior leaders such as former MLA NK Sharma and Ludhiana (Urban) president Bhupinder Singh Bhinda have already tendered their resignations in solidarity, underscoring the deep emotional connection many leaders share with Sukhbir.

SAD spokesperson Daljeet Singh Cheema remarked, "This is not just about an individual but the collective strength of the party. The emotions of our cadre are intertwined with the legacy of our leaders.

Bhunder said that he has been flooded with calls from party leaders who have expressed shock at the turn of events and he has accordingly decided to schedule meetings of district presidents, constituency in-charges and SGPC members to allow them to convey their sentiments to the party. A History of Leadership Struggles

Calls for leadership change in the SAD date back to 2017 when the party suffered a major defeat in the Puniab Assembly elections, after ruling Punjab for a decade, winning two consecutive elections under Parkash Singh Badal's leadership. The trend of diminishing vote share con-

tinued through subsequent elections — 2019 Lok Sabha elections, 2022 assembly polls, and finally parliamentary polls early this year — fueling mands for introspection and reform.

The formation of a rebel faction, Akali Dal Sudhar Lehar, earlier this year intensified pressure on the leadership, with the group demanding accountability and an apology for past mis-

Amid Election Campaign, Rahul Gandhi's **Spiritual Pause at Golden Temple**

Tn the midst of a whirlwind Lelection campaign, where back-to-back press conferences define the day, Congress leader Rahul Gandhi on Monday carved out a moment of calm at the Golden Temple in Amritsar. Arriving at the revered Sikh shrine late in the evening after a jam-packed schedule, he took a brief pause from his political duties to offer a humble service to the devotees - offering them drinking water. His visit reflected a personal connection to the Sikhs' holiest shrine that has grown over time.

Rahul Gandhi's day had started with a press conference at 10 am in Mumbai addressing the Maharashtra elections, followed by another one at 3 pm in Ranchi, where he spoke about the upcoming elections time constraints, he reached Amritsar in the evening and visited the Golden Temple, performing sewa at 8 pm. He is scheduled to stay overnight at Amritsar.

This wasn't his first sewa (service) visit to the Golden

Temple. On October 2, 2023, Rahul Gandhi had stayed for three days, immersing himself in the sewa activities — working alongside volunteers in the langar, chopping vegetables, washing dishes, and distribut-

ing food to the masses. His commitment to serving the devotees even extended to managing shoes at the shoe storage area, a small yet significant gesture that drew praise. This year, his visit was shorter but just as meaningful. Rahul Gandhi was seen holding a young child as he offered

izing a blend of compassion and humility.

The timing of his visit was significant. Punjab is gearing up for elections, with voting set for November 20 across four assembly constituencies. As the electioneering came to a halt at 6 pm on November 18, Rahul Gandhi's visit to the Golden Temple served as a reminder of his spiritual connection amidst the political

This visit to Amritsar is part of Rahul Gandhi's broader engagement with Punjab, where he has frequently made stops, including during the Bharat Jodo Yatra, though Amritsar wasn't initially part of the route. On that occasion, he had made an unscheduled visit, donning a pagri (turban) and offering his respects at the Golden Temple.

Fierce Battle for Punjab Bypolls: AAP, Cong, BJP Clash Over 4 Key Seats in SAD's absence

MONIKA MALIK

CHANDIGARH Campaigning for the November 20 Punjab Assembly bypolls ended on a high note as political heavyweights, including AAP, Congress, and BJP, on Monday made last-ditch efforts to mobilize voters across the four contested seats of Gidderbaha, Dera Baba Nanak, Chabbewal (SC), and Barnala. The bypolls, necessitated by the election of sitting MLAs to the Lok Sabha earlier this year, will see a triangular contest, with SAD's absence, that promises to reshape political equations in

Punjab. Three of the four constituencies — Gidderbaha, Dera Baba Nanak, and Chabbewal — were Congress bastions, while Barnala was held by the ruling AAP. This election holds significance as it pits dynastic politics, turncoats, and established faces against each other, testing the sway of regional and national

Key Contests and **Prominent Candidates**

In Gidderbaha, Congress' Amrita Warring - wife of Punjab Congress president and Ludhiana MP Amarinder Singh Raja Warring - is locked in a high-stakes battle against BJP's Manpreet Singh Badal a seasoned politician hailing from Badal family who has held portfolios in both Congress and Akali-BJP governments and had been fivetime MLAs, and AAP's Hardeep Singh 'Dimpy' Dhillon - a former Akali leader. The constituency saw star-studded roadshows, with Warring joined by Balkaur Singh, father of slain singer Sidhu Moosewala; and AAP leaders led by Ministers Aman Arora and Gurmeet Singh

Dera Baba Nanak is witnessing a clash between Jatinder Kaur – wife of former Deputy Chief Minister and Gurdaspur MP Sukhjinder Singh Randhawa, AAP's

Gurdeep Singh Randhawa, and parties over Punjab's electorate. BJP's Ravikaran Singh Kahlon. Jatinder, banking on her husband's legacy, faces stiff competition as both AAP and BJP aim to capitalize on anti-

exercising its powers under major scandal when he was

Ex-CM Channi once again embroiled in

controversy over derogatory remarks

Congress. In Chabbewal, an SCreserved constituency, AAP's Ishank Kumar Chabbewal son of Hoshiarpur MP Dr Raj Kumar Chabbewal – is vying against Congress' Ranjit Kumar a BSP turncoat, and BJP's Sohan Singh Thandal, a late entrant and former SAD Minister who joined the BIP days before filing his nomina-

Barnala, meanwhile, is set for a three-way contest between AAP's Harinder Singh Dhaliwal, Congress' Kuldeep Singh Dhillon, and BJP's Kewal Singh Dhillon — all aiming to claim this strategically vital

Campaign Dynamics The bypoll campaign saw aggressive narratives from all parties. AAP focused on show-

Bhagwant Mann, highlighting achievements such as free electricity, 'Aam Aadmi Clinics', 48,000 merit-based governincumbency against the ment jobs, among others. AAP supremo Arvind Kejriwal lent star power, addressing rallies across the four constituencies and urging voters to trust AAP's governance model.

The Congress, riding high after securing seven of Punjab's 13 Lok Sabha seats earlier this year, directed its attack at AAP over alleged deteriorating law and order, unfulfilled promises, and the lingering drug menace. Party stalwarts, including former Chief Minister Charanjit Singh Channi and Leader of Opposition in Vidhan Sabha Partap Singh Bajwa, amplified these concerns during exten-

sive campaigns. For the BJP, the bypolls signify an opportunity to consolidate its presence in Punjab. Union Minister Ravneet Singh Bittu, former Union Minister

Anurag Thakur, and Gujarat's former Chief Minister Vijay Rupani led the charge — criticizing AAP's handling of paddy procurement and law enforcement. BJP, with its state president Sunil Jakhar remaining conspicuously absent, also relied on its recent recruits, all turncoats, to establish credibility in constituencies where its traditional influence has been limited

Familial Ties and Turncoats Dominate Candidatures

The elections reflect Punjab's enduring reliance on political dynasties and the resurgence of turncoats. Congress' Amrita Warring and Jatinder Kaur represent prominent political families, while AAP fielded Ishank Chabbewal, son of a sitting MP, and candidates with past affiliations to other parties. Notably, all four BJP nominees are former members of rival parties, underscoring its strategic bet on fresh faces with proven electoral traction.

SAD's Absence and **Its Implications**

For the first time in 32 years, the Akali Dal is abstaining from the elections, citing the Akal Takht's reprimand over past governance errors and its president Sukhbir Badal declared "tankhaiya".

This withdrawal marked a significant shift in Punjab's political landscape, traditionally dominated by SAD-Congress rivalries, and could open opportunities for other players to fill the void in rural constituencies. In the Congress stronghold of Dera Baba Nanak, SAD's strategic move to throw its full support behind AAP candidate has significantly intensified the contest, raising the stakes for all con-

tenders.
The Stakes and Road Ahead

The bypolls, with 6.96 lakh eligible voters across 831 polling stations, will determine the political trajectory of Punjab ahead of future electoral battles. AAP, currently

enjoying a formidable majority with 91 of 117 Assembly seats, sought to reaffirm its dominance. Meanwhile, Congress aimed at capitalizing on public discontent, and the BJP is eager to stake a claim as a serious contender in Punjab

As Punjab awaits the results on November 23, the bypolls promise not just to decide the fate of 45 candidates but also to reshape alliances and strategies for upcoming electoral contests in the polit-

politics.

ically dynamic state. PUNJAB GEARS UP FOR BYPOLLS; CEO ASSURES SMOOTH **POLLING**

Chandigarh: Punjab Chief Electoral Officer (CEO) Sibin C on Monday confirmed that all arrangements are in place for the upcoming bye-elections in four assembly con-

stituencies. The polling, scheduled for November 20 from 7 am to 6 pm, will see 6,96,965 voters cast their ballots at 831 polling

and transparency measures. To ensure peaceful elections, 17 companies of Central Armed Police Forces (CAPF) and 6,481 Punjab Police personnel have been deployed. Additionally, 3,868 polling staff will oversee the process. Critical polling stations across the constituencies will be monitored through 100 percent live webcasting and CCTV surveillance.

stations under strict security

Vote counting will commence on November 23 in designated centers across constituencies.

The CEO emphasized the provision of voter-friendly amenities, including drinking water, waiting areas, and accessible toilets at polling stations. Special arrangements have also been made for polling staff's comfort and safety.

Urging citizens to particiate in the democratic process, Sibin C appealed to voters to exercise their right without fear or inducement, ensuring robust voter turnout.

G20: Delhi to Rio

It is yet another crucial opportunity for world leaders to bridge divides and collaborate on creating a better future

rime Minister is in Rio de Janeiro to attend the G20 Summit, which is one of the biggest platforms for the world leaders to make collective decisions for the betterment of the world and address the issues confronting the humanity. The 19th G20 Summit brings together world leaders to address some of the most pressing global challenges. Hosted by Brazil, this year's Summit builds on India's successful presidency, which left a lasting impact by inducting the African Union as a permanent member and fostering consensus on divisive issues such as the Ukraine conflict. The summit will feature prominent leaders, including Indian Prime Minister Narendra Modi, US President Joe Biden and Chinese President Xi Jinping. In Brazil, Modi attends the summit as a member of the G20 Troika, alongside Brazil and South Africa, reflecting India's continued influence in shaping global discourse. The summit's agenda is wide-ranging, reflecting the multifaceted chal-

lenges the world faces today. Economic recovery remains a critical priority as nations grapple with the lingering effects of the COVID-19 pandemic and global geopolitical tensions. Issues such as inflation, debt crises and financing for sustainable development are likely to dominate discussions.

Simultaneously, climate action will take centre stage, with a focus on enhancing climate financing, accelerating the transition to renewable energy, and achieving the commitments of the Paris Agreement. The geopolitical landscape, particularly the ongoing Ukraine conflict is another focal point. While the issue remains divisive, leaders will seek to find com-

mon ground on mitigating its impacts on global food and energy security. The summit is also likely to explore the role of technology in bridging development gaps, emphasising responsible use of artificial intelligence and fostering digital cooperation. For India, the summit is an opportunity to reinforce its leadership on the global stage. As part of the G20 Troika, Modi brings India's vision of "One Earth, One Family, One Future" to the table, advocating for greater inclusivity and collaboration. His interactions with leaders such as Joe Biden and Xi Jinping on sidelines are expected to address key issues like trade, defence partnerships and technology sharing, furthering India's bilateral and multilateral engagements. India's presidency last year emphasised the importance of representing the Global South, a theme that Brazil is expected to continue. This focus on equitable development resonates with nations across Africa, Asia and Latin America, underscoring the need for a more balanced global governance system. For India and Prime Minister Modi, it is a moment to showcase the nation's growing influence and commitment to global solutions, setting the tone for the future of multilateral cooperation. This is one of the big opportunity to bring about meaningful change, hope it is not wasted.

Riders take part in the MRF MOGRIP Supercross Championship 2024, in Bengaluru

New tentacles of international terrorism

Proactive leadership is crucial for implementing strategic plans, while swift judicial reforms are needed to handle terrorism cases more effectively

he recent wave of terrorist attacks in Jammu and Kashmir, following the formation of a new state government, has reignited concerns over transnational terrorism. These incidents, marked by escalating violence in vulnerable areas, highlight a disturbing evolution in militant strategies. This resurgence is rooted in multiple factors, each revealing the complexities of the situation.

Firstly, the attacks aim to signal that despite the abrogation of Article 370 and the central government's efforts to stabilise the region, Jammu and Kashmir remain unstable. Secondly, Jammu's expansive forested terrains have become a haven for militants, offering natural cover for guerrilla warfare and hindering security forces. Thirdly, the improved law and order in Kashmir has shifted insurgent focus to Jammu, where vulnerabilities are being exploited. Fourthly, while terrorist activities were temporarily subdued, the resurgence of militancy underscores the persistence of deeprooted threats. Lastly, despite the successful

Assembly elections and the formation of Omar Abdullah's government, the region continues to grapple with relentless attacks. The situation in Jammu and Kashmir resonates with broader developments in the West Asia. Recent events, such as the targeting of an Israeli ship by Iranbacked Houthi groups in the Red Sea and subsequent retaliatory strikes by Israel, the UK and the US on Houthi positions in Yemen, have heightened regional tensions. The involvement of Hamas and Hezbollah in supporting the Houthis underscores a dangerous convergence of terrorist alliances. The killing of prominent figures like IRGC General Sayyed Razi Mousavi and Hamas Deputy Leader Saleh-al-Arouri has added to the volatility, while Houthi leader Abdul-Malik al-Houthi's aggressive strategies have intensified attacks.

Adding to these concerns are the January 3, 2024, twin blasts in Karman, southern Iran, which left over 85 dead and hundreds injured. This violence has spread

to Lebanon and Syria, where terror networks have previously used locations like Sana, Yemen, as bases for planting explosives in international airports. These incidents reveal two critical trends: the increasing potential for transnational terrorism and the extension of terror operations into global trade routes and economies. Modern terrorist networks demonstrate an unsettling capacity for precision in choosing targets and timings.

The persistence of global terrorism is not new. Tragic events, from the Oklahoma City bombing that claimed over 200 lives to the Tokyo subway gas attack, which killed 12 and hospitalised thousands, reveal its devastating history. Other instances, such as the long-running insurgency of the Liberation Tigers of Tamil Eelam in Sri Lanka, have inflicted severe casualties and losses. Nations worldwide-be it Russia, Spain, the UK, Italy, Israel, or China-face the unrelenting specter of terrorist vio-

Social inequities, global economic disparities and historical grievances contribute to the conditions that foster extremism. The post-Cold War global order, shaped by power dynamics of major nations, has exacerbated thes tensions. For instance, the power network established by the US and its allies in West Asia has sparked resistance in

THE PERSISTENCE OF

GLOBAL TERRORISM IS NOT NEW. TRAGIC EVENTS, FROM THE OKLAHOMA CITY **BOMBING THAT CLAIMED OVER 200** LIVES TO THE TOKYO SUBWAY GAS ATTACK, WHICH KILLED 12 AND HOSPITALISED THOUSANDS, **REVEAL ITS** DEVASTATING

many regions, deepening conflicts and animosities.

In an interconnected world, socio-economic conditions in one region influence those in another, creating a fertile ground for transnational grievances. The rapid dissemination of advanced weaponry and transportation networks has further facilitated the expansion of terrorist activities. Suicide squads and other modern militant tactics have left security apparatuses reeling. It is imperative to reject narratives that romanticise terrorists as freedom fighters and foster cooperation between local communities and law enforcement to dismantle these networks.

A diversified approach, integrating technical expertise and on-the-ground insights, is essential. Specialised training programmes for security personnel to anticipate and respond to emerging threats are crucial. Countering terrorism requires a multifaceted approach, beginning with detailed analysis of major incidents to formulate actionable strategies. Advanced communication networks must be established to intercept terrorist communications effectively, while enhanced intelligence gathering, supported by strengthened local sources, is essential for generating actionable insights. Investment in cutting-edge technology for maintaining secrecy and secu-

rity, along with training specialists in counter-terrorism tactics, is vital to address evolving threats. Dedicated think tanks should be created to develop innovative solutions, and comprehensive training programs for police, intelligence, and military personnel must be prioritised. Proactive leadership among security officials is crucial for implementing strategic plans, while swift judicial reforms are needed to handle terrorism cases more effective-

These measures must be accompanied by the political will to enforce them effectively. Public awareness and grassroots support play pivotal roles in countering terrorism. Localised insights should inform security measures to ensure they are contextually appropriate and effective. Ultimately, combating terror-

ism requires a coordinated global effort.

Nations must share intelligence, align strategies, and foster international cooperation to address this pervasive menace. Time is of the essence, as modern terrorists continuously adapt their tactics. Without addressing the underlying socio-political and economic factors that nurture terrorism, efforts will only provide

ing values. A minister in one

of the states defended the

decision of a medical college

to ask the female candidates

not know

believe that we are a sum total of experiences. While **⊥**most are pleasant, a few leave us red-faced at the very best. It is for us to make the choice to introspect and evolve into a better person. My wife and I gingerly stepped out of the confines of our home after the restrictions imposed during the difficult COVID times had been relatively relaxed.

We thought we had crossed the hurdle. Our optimism was misplaced. We observed many vigilantes hanging out on their balconies to catch the hapless walkers at any time of the day or night and call the PCR. The police would necessarily have to come since a complaint had been raised and then go back, irritated at the complainant. We were still terrified enough to wear a mask. However, a few had to be nudged.

My wife would good-naturedly point at her mask as a request to those not wearing one. We encountered a young lady walking with no mask, not even one dangling around her ears. The sensibilities of my wife aroused, she stopped the lady and requested her to comply with the regulations.

My wife was rudely brushed aside. The lady stopped us during the next round, to let us know that she was a doctor who spent long hours in the hospital with a mask on, and her lungs needed fresh air, uninterrupted by a mask. Unaware of a different set of rules for medical professionals, I inquired from a few doctor friends. They were unequivocal in their judgement, the lady in question is an idiot.We have all been guilty of an occasional faux pas at some time or the other. I attended a literature festival at a university, a few days

before the lockdown, to speak about my book. I made a point that communication amongst people should never stop, even if it means communicating on to declare their virginity in the admission form because, "Virgin, as per the dictionary, means an unmarried and pure girl. So, all these words are not objectionable."

A senior leader observed that electricity must be provided in all villages so that people spend more time watching television than procreating. Another leader mentioned that crimes against women are happening in urban India and not in the villages since we are losing our culture in the cities. The anecdotes narrated above may appear disjointed at a cursory glance. The common thread I detect is the misplaced value system of authority: 'My word is supreme.

Nothing gives one the right to dispense half-baked wisdom, not follow the rules, or make discriminatory statements. Our experiences should evolve us. Brazilian educator and philosopher, Paulo Freire, has said aptly, "No one is born fully-formed: it is through self-experience in the world that we become what we are."

CLOUDS OF WAR Madam —Apropos of the article 'US-

Iran tensions: War clouds over West Asia' (November 16), the analysis of the geopolitics, particularly in the West Asian context, shows warmongering in West Asia in a long-distant future. Beyond doubt, US-Iran tensions are extremely deep-rooted, and no solutions are visible in the near future. The advent of Donald Trump in his second tenure may be seen as intolerant of any terrorism-oriented politics of West Asian countries where Iran, Pakistan, Iraq, Afghanistan, Lebanon, Syria, Palestine, etc., with hundreds of militia, deep state forces, and terrorist organisations, who have no obligations of following or adhering to any international, UNO, or multilateral treaties, conventions, agreements, norms and regulations. Bangladesh is the new entrant

of the explosive block. Such organisations have tacit financial, army and logistic support from these nations while their regular armies execute and control their plans, attacks, hijacks and other disruptive, destabilising and assassination activities. The USA is not solely to blame for West Asian problems and war-ridden Islamic governments rattling guns and bombs as their mainstream administration and geopolitical politics. Obviously, all these countries are devastated and ruined by the compelling influx of illegal immigration from these countries in all European countries, the US, and also India. While Hamas carried out the most sinister attacks on Israel on Oct 7. 2023, the self-annihilation of Hamas and its supportive Hezbollah was on the cards. But the truth is that such organisations supported by their sponsoring governments will never be extinct. These are the façades of the regular armies. It may be seen in European countries that unrest over illegal immigrants is growing. US-Iran enmity is only one of the factors. The world is

smarting under the threats of terrorism soil. Yet, the sad fact is that the poor

Madam — Farmers' issues continue to haunt the Government and the fallout from the UPA government's time continues. Blame games are played just to find an escape route for decades. Instead of punishing farmers, the government should find ways of empowering them so that they can explore alternative ways of destroying stubble. High pollution levels affect the locals. Stubble burning is environmentally hazardous, and it should be prevented.

The Supreme Court seems to think that if stubble-burning is halted, the air quality in Delhi would improve dramatically. It has asked the neighbouring states to take appropriate action to prevent it. True, there are safer ways of disposing of stubble, but they are costly. The farmers do not have the financial capacity to pluck out the stubble and bury it in the fields where it will become part of the

government suspended Internet and mobile data services in seven affected districts of the valley, which is dominated by the non-tribal Meiteis and the surrounding hills, where the tribal Kuki-Zos are in a majority. A curfew was clamped in the three valley districts of Imphal East, Imphal West and Bishnupur.

Among the houses of the MLAs targeted was that of Rajkumar Imo Singh, the son-in-law of Chief Minister Nongthombam Biren Singh, whose personal residence on the outskirts of Imphal was also reportedly attacked by a mob on Saturday night. Large groups of people went about asking MLAs to quit if the government was unable to ensure peace and punish killers of women and

SANJU'S CENTURY STREAK

Madam — Sanju Samson has etched his name in the record books by becoming the first player to score three T20I centuries in a calendar year. This remarkable achievement cements his status as one of the most explosive batters in the shortest format of the game. Samson's stellar run began with his maiden T20I hundred against Bangladesh in Hyderabad on October 12. He reached the century mark in just 40 balls, the second-fastest hundred by an Indian in T20I cricket. His innings was a masterclass in power-hitting, as he smashed 111 off 47 balls, including 11 boundaries and 8 sixes, dismantling the Bangladeshi

FIRST COLUMN SEPHORA KIDS SYNDROME

By promoting safe practices, the parents and society can ensure that this trend benefits rather than exploits

•he beauty industry is continuously evolving, with brands adapting to trends, demographics and consumer behaviour. A notable trend is the rising interest in skincare and beauty among younger audiences, including children and pre-teens, popularly referred to as 'Sephora Kids'. While Sephora does not have a specific kids line, the term reflects a cultural shift as children become active participants in the beauty and

The idea of 'Sephora Kids' is tied to the increasing exposure of children to social media, beauty tutorials and influencers. Platforms like TikTok and YouTube have normalised beauty routines for younger audiences. making skincare and makeup accessible and aspirational. Pre-teens, often labelled as "Generation Alpha," are drawn to the beauty industry as a way of self-expression and social connection.

Parents too play a role in this trend, with some encouraging early skincare habits to prevent future issues like acne. Additionally, brands targeting this demographic such as Bubble and Florence by Mills, offer gentle, age-appropriate skincare, further validating the interest of young consumers? Beauty brands have now recognised the buying power of younger audiences and their families.

Marketing campaigns often focus on inclusivity, fun packaging and social media visibility to attract children and pre-teens. For instance, kid influencers and beauty creators promote skincare routines and products, dri-

ving trends among their peers while brands like Bubble and BTWN emphasise safe, dermatologist-approved products for younger skin. Moreover, platforms like TikTok and Instagram amplify the trend by showcasing beauty routines and promoting luxury brands. This has contributed to an increase in spending among tweens and teens on beauty products, with estimates showing annual expenditures ranging from \$119 to \$140 per child for skincare and makeup.

Not only this, but many parents also express concerns about the safety of children using advanced skincare products with potent ingredients like retinol and acids, which may not be suitable for young skin. Dermatologists report an increase in skin issues, such as irritations and allergic reactions, linked to these products. Parents too worry about the psychological impact, such as the pressure to conform to unrealistic beauty standards and premature exposure to consumer culture?.

They note that participating in beauty routines can boost their children's confidence and serve as a creative outlet. However, the same comes with the risk of adopting harmful skincare habits, overspending and feeling pressured by societal beauty ideals? The rise of Sephora Kids raises ethical questions about how much influence the beauty industry should exert over children. On one hand, critics argue that marketing beauty products to young audiences exploits their impressionability and perpetuates consumerism while on the other hand, advocates believe that when managed responsibly, it can foster creativity and self-care. Brands and regulators must emphasise transparency, safety and age-appropri-

Parents, too at times must guide their children in understanding the importance of moderation and self-acceptance. There is no denying that the concept of 'Sephora Kids' symbolises a cultural and generational shift in the beauty industry. While it opens doors to creativity and self-expression for younger audiences, it also demands careful navigation of ethical and developmental implications. By promoting safe practices and fostering positive self-images, the beauty industry, parents and society can ensure that this trend benefits rather than exploits young consumers. Redesigning education for real-world skills

By integrating practical lessons on earning, saving and managing money, education can better prepare students for real-world challenges

t is a truism to state that the world is becoming an increasingly complex proposition to deal with and the methods of coping with it need to be structured and understood. This alone will avoid increasing grief and bewilderment on the proposition of the proposition to deal with a proposition to deal with and the methods of coping with a proposition to deal with and the methods of coping with a proposition to deal with and the methods of coping with a proposition to deal with and the methods of coping with a proposition to deal with a the way matters are working in the world one is surrounded by. An illustration from the area of finance may illustrate the situation. It is an obvious matter to point out that everyone needs finance to survive and finance has to be obtained if not earned from somewhere. This business of understanding finance or earning requires the ability to understand what finance is and how it can be earned.

Finance comes in many shapes and colours. A common factor in all finance is that it is putting a monetary value to one's effort and it is compensation for what one does to keep a sys tem going. Finance sets the equation between effort and its compensation and finance in turn becomes a tool for both purchasing and obtaining the needs of life beyond purchase. To do so, one needs to understand currency, its equivalence and how currency is measured in effort.

It is one of the enigmas of our prevailing school and college system that these matters are rarely explained through a curriculum or, for that matter, in a formal situation. Much is learned about finance through observation and the domestic environment in which one has grown, that is converted into transactions in operational life and early enough in one's life one learns that one needs to have capabilities to earn money and therefore deal with finance. Each system has its methods of equivalence between efforts and compensation and the forces that determine it are very often referred to as market forces.

FINANCE COMES IN MANY SHAPES AND COLOURS. A **COMMON FACTOR** IN ALL FINANCE IS THAT IT IS **PUTTING A**

TO ONE'S EFFORT AND IT IS COMPENSATION FOR WHAT ONE DOES TO KEEP A SYSTEM GOING

MONETARY VALUE

sometimes simply and frequently through trial and error. Thus, it is that finance is not only tricky, but it leads to comprehend and yet it remains one of the cornerstones of anyone's life. Taking the conversation further, it needs to be realised that finance has some basic constituents like earning, saving, investing, converting into tangible assets and more. Each area has over time become a specialised field of learning and indeed happiness or otherwise of one's existence.

There are forces in finance in the higher classes of the school where certain basic concepts are explained and certain essential foundational ideas on finance are shared. What is needed is giving it a practical orientation and teaching people through field-work, the value of finance and its central role in human life.

Most classrooms have not graduated to that stage of thinking, or in that way of thinking which means very simply that most people pass through the completion of their schooling without getting the correlation between the essentials of finance and the foundation of living.

A situation becomes more complex when one graduate from the college or university level and then unless one is doing a specific course in finance, one may never learn anything beyond what one has learned in school about finance.

This is a loss because, as enumerated above, what is taught in school about finance does not go very far in the practice of finance. What everyone needs to know is

worth in handling skills and information and how this is compensated in financial terms by the environment.

This by itself is a tricky proposition and, as suggested earlier, needs fieldwork. Then there are final areas of finance that cannot be learned unless exposed to the practical world and that is not a matter that can be brought into the classroom. Also, in a normal education system, there are again gaps where this learning goes by default and people are left to pay for themselves through trial and

This causes not only immense problems but complications of one variety or another. One can be shortchanged or one may not know that services cannot, in many cases, be provided without some type of compensation and that compensation very often has to be in terms of money. It will be a worthwhile approach to explain to people the relationship between money, finance and

Such a perspective will help make the curriculum of not only the schools but also the colleges worthwhile and more practical in one's own life. As matters stand, if one specialises in physics, chemistry, history, psychology, geography, or whatever else, one hardly realises that beyond the so-called specialisation, there is a general education one needs. This general education can be in behaviour concerning others, management of self, understanding income, understanding expenditure, understanding savings, and so on. Putting it simply, there is a need

to also focus on the range of learning before one crosses into adulthood and becomes a financially viable entity. As indicated earlier, much of this is happening through trial and error, embracing a method; that works in certain cases but not in others. There is a clear need to reduce the treasury for adjustment to actu-al life through formal inputs before one graduates into adulthood and is thrown into the open sea – as it were to take care of oneself.

The time has come to establish a philosophy of education, self-formation, and teaching that can stand on its feet and be related to the requirements of life.

The time is right for some fundamental thinking on such matters, and the sooner it's done, the better. Similarly, similar reflections are needed in making him a person through his childhood, teenage, and other phases of his life about the nature and content of what is technology. This is so because technology

touches every aspect of our lives, from not just the glasses that one may have to wear to correct one's sight but to everything else that has become such an essential part of one's livelihood and existence.Including and understanding the basic nature of technology in the curriculum of schools and colleges also needs attention. However, that may be a subject matter that needs to be treated separately and indepen-

Cloud seeding, urbanisation, global warming: Where is the world headed?

Amid the climate challenges plaguing urban life, innovative approaches like cloud seeding offer promising solutions for a better future

⊣he impact of global warming and pollution is transforming urban life, turning once vibrant towns into places that are becoming less and less livable.

Across the globe, urban landscapes, particularly in India, are evolving into concrete jungles, where the struggle for survival frequently resembles an arduous challenge. Once viewed as a shining example of culture and a centre for economic pursuits, Delhi and Mumbai now display AQI scores that seem almost stag-

Heavy with contaminants, the noxious air has transformed into an environmental concern, leaving inhabitants struggling to breathe

while suffering from respiratory conditions. Have these cities become uninhabitable? In Delhi, pollution levels frequently fall into the "severe" category, with AQI readings often exceed-

The outcomes are dire: children attending school only part-time; elderly individuals confined indoors; and cost of progress come at the Nonetheless, its use as a hefty price tag, and the long-hospitals inundated with expense of the health and means to reduce pollution term effects on the environ-

cases of asthma, bronchitis and various other respiratory ailments. In Mumbai, the oppressive humidity intensifies the situation, transforming the already polluted air into a dangerous mix for its 20-million-strong populace. Economic growth challenges the conventional use of various facilities and personal vehicles: although development fosters prosperity, it comes with significant expenses. Alongside factories and vehicles, construction sites contribute to the GDP; however, they also transform cities into perilous

environments. The alarming rise in disease cases compels us to confront a difficult reality: does the

wellbeing of the populace? Now, comes cloud seeding, a game changer in this catastrophic scenario. The practice of introducing particles like silver iodide or salt into the atmosphere to encourage rainfall can be celebrated for its potential to cleanse the air and replenish water resources through cloud seeding. Thus, it could indeed be the

virtue that aids in easing the challenges faced by cities: pollution and water scarcity. Countries such as China and the United Arab Emirates have been exploring this technology, while India has intermittently implemented it during droughts.

remains largely uncharted. Is cloud seeding the answer to the escalating air quality crisis in India?

Some argue that cloud seeding is not an extraordinary solution. It comes with a

ment remain uncertain. What truly matters is that addressing pollution at its source—minimising industrial emissions, promoting sustainable urban growth,

and shifting to clean ener-

gy-continues to be the pri-

Delhi struggle and suffocate under the weight of toxic air, these short-term measures, like cloud seeding, may provide a fleeting but vital relief. The entire conversation regarding urban development requires a complete transformation. Advancement must not

jeopardise the wellbeing of the local population. It is essential for those in posi-tions of authority to champion sustainable practices and enforce rigorous pollution controls to achieve a harmonious relationship between advancement and environmental stewardship. The stakes have never been higher.

The choice before us is stark: continue on a path that sufmary goal. As cities like focates our cities or embrace

ity to breathe life back into urban spaces. The future of millions depends on the decisions we make today. Conclusion:

The intersection of urbanisation, global warming, and pollution demands urgent action. Short-term fixes like cloud seeding can offer relief, but true progress requires systemic change curbing emissions, adopting clean energy, and prioritising sustainable urban growth. The future of our cities and the well-being of millions depend on decisive, forward-thinking measures taken today.

Biden authorises Ukraine to use US Russia chides US over nod to hit missiles for strikes inside Russia

AP MANAUS (BRAZIL)

President Joe Biden has authorised Ukraine to use US-supplied missiles to strike deeper inside Russia, easing limitations on the longer range weapons as Russia deploys thousands of North Korean troops to reinforce its war, according to a US official and three other people familiar with the matter.

The decision allowing Kyiv to use the Army Tactical Missile System, or ATACMs, for attacks farther inside Russia comes as President Vladimir Putin positions North Korean troops along Ukraine's northern border to try to reclaim hundreds of miles of territory seized by Ukrainian forces.

Biden's move also follows the presidential election victory of Donald Trump, who has said he would bring about a swift end to the war and raised uncertainty about whether his administration would continue the United States' vital military support for Ukraine.

The official and the others knowledgeable about the matter were not authorized to discuss the US decision publicly and spoke on condition of

anonymity. Ukrainian President Volodymyr Zelenskyy's reaction Sunday was notably

"Strikes are not made with words," he said during his

things are not announced. The missiles will speak for them-

Zelenskyy and many of his Western supporters have been pressing Biden for months to allow Ukraine to strike military targets deeper inside Russia with Western-supplied missiles, saying the US ban had made it impossible for Ukraine to try to stop Russian attacks on its cities and electrical grids.

Zelenskyy's statement came shortly after he posted a message of condolence on Telegram following a Russian attack on a nine-story building that killed at least eight people in the northern city of Sumy, 40 kilometers (24 miles) from the border with Russia

Russia also launched a massive drone and missile attack. described by officials as the largest in recent months, targeting energy infrastructure and killing civilians. The attack came as fears are mounting about Moscow's intentions to devastate Ukraine's power generation capacity before the

"And this is the answer to everyone who tried to achieve something with Putin through talks, phone calls, hugs and appeasement," Zelenskyy said. The comment appeared to be a dig at German Chancellor Olaf Scholz, who spoke Friday with Putin in the first such call with a sitting head of a major

nightly video address. "Such Western power in nearly two vears.

Some supporters have argued that the limitation and other U.S. constraints could cost Ukraine the war. The debate has become a source of disagreement among Ukraine's NATO allies.

Biden had remained opposed, determined to hold the line against any escalation that he felt could draw the US and other NATO members into direct conflict with nucleararmed Russia.

Putin has warned that Moscow could provide long-range weapons to others to strike Western targets if NATO allies allow Ukraine to use their arms to attack Russian territo-

News of Biden's decision followed meetings over the last two days with the leaders of South Korea, Japan and China. The addition of North Korean troops was central to the talks. which took place on the sidelines of the Asia-Pacific Economic Cooperation summit in Peru.

Biden did not mention the decision during a speech at a stop in the Amazon rainforest in Brazil on his way to the Group of 20 summit.

Asked about the decision, UN Secretary-General Antonio Guterres told reporters that the UN position is "to avoid a permanent deterioration of the war in Ukraine?

"We want peace, we want fair peace," Guterres said Sunday replenish its dwindling before the summit in Rio de weapons stockpiles. Janeiro. He didn't elaborate.

The White House agreed in May to allow Ukraine to use US-provided weaponry for limited strikes just across the border with Russia.

its soil with long-range weapons

AP ■ MANAUS (BRAZIL)

Dresident Joe Biden's decision to let Ukraine strike targets inside Russia with US-supplied long-range missiles was met with ominous warnings from Moscow, a hint of menace from Kyiv and nods of approval from some Western

Biden's shift in policy added an uncertain and potentially crucial new factor to the war on the eve of its 1,000-day milestone. News of Biden's change came on the day a Russian ballistic missile with cluster munitions struck a residential area of Sumy, a city in northern Ukraine, killing 11 people, including two children, and injuring 84 others.

On Monday, another Russian missile attack started fires in two apartment blocks in Odesa,

in southern Ukraine. At least eight people were killed and many more were injured, Ukrainian lawmaker Óleksii Honcharenko said in a video he posted on Telegram from the site of the attack.

Washington is easing limits on what Ukraine can strike with US-made weaponry, US officials told The Associated Press on Sunday, after months of ruling out such a move over fears of escalating the conflict and bringing about a direct confrontation between Russia and NATO.

The scope of the new firing guidelines isn't clear. But the change came after the US, South Korea and NATO said recently that North Korean troops are in Russia and apparently are being deployed to help the Russian army drive Ukrainian troops out of Russia's Kursk border region.

Russia is also slowly pushing Ukraine's outnumbered army backward in the eastern Donetsk region. It has also conducted a devastating and deadly aerial campaign against civilian areas in Ukraine.

Kremlin spokesman Dmitry Peskov on Monday referred iournalists to a statement made by Russian President Vladimir Putin in September, in which he said allowing Ukraine to target Russia would significantly raise the stakes in the conflict. It would change "the very nature of the conflict dramatically," Putin said at the time. "This will mean that NATO countries - the United States and European countries - are at war with Russia.

Peskov claimed that Western countries supplying long-range weapons also provide targeting services to Kyiv. "This fundamentally changes the modality of their involvement in the conflict," Peskov said.

Last June, Putin warned that Russia could provide longrange weapons to others to strike Western targets in response to NATO allies allowing Ukraine to use their arms to attack Russian territory. He also reaffirmed Moscow's

readiness to use nuclear weapons if it sees a threat to its

sovereignty. President-elect Donald Trump, who takes office in about two months' time, has raised uncertainty about whether his administration would contin-

ue the United States' vital mil-

itary support for Ukraine. He

has also vowed to quickly end the war. President Ukrainian Volodymyr Zelenskyy gave a muted response to the approval that he and his government have been request-ing of Biden for more than a year. "Today, much is being said in the media about us receiving permission for the relevant actions," Zelenskyy said in his nightly video

address Sunday.
"But strikes are not made with words. Such things are not announced. The missiles will speak for themselves," he said. The foreign minister of NATO member Lithuania, Gabrielius Landsbergis, said he's not "opening the champagne" yet as it remains unclear exactly what restrictions have been lifted and whether Ukraine has enough of the US weapons to make a

Trial to begin in human smuggling case after deaths of Indian family at Canada-US border

AP ■ FERGUS FALLS (US)

criminal network stretching from India to A stretching from man. Canada made money smuggling families seeking better lives in the United States, including a man who died holding his 3-year-old son in gusting snow and bone-chilling temperatures two years ago, federal prosecutors plan to argue at a trial starting Monday in Minnesota.

Prosecutors have accused Indian national Harshkumar Ramanlal Patel, 29, of running the scheme and Steve Shand, 50, of Florida of waiting in a truck for 11 migrants, including the couple and two children who died after they tried to walk across the border to the US. Prosecutors say Patel

recruited Shand at a casino near their homes in Deltona, Florida, just north of Orlando. Jagdish Patel, 39, died along with his wife, Vaishaliben, who was in her mid-30s, and with their 11-year-old daughter, Vihangi and their 3-year-old son Dharmik. Patel is a common Indian surname and the victims were not related to Harshkumar Patel, who has pleaded not guilty, as has Shand.

The family, from the village of Dingucha in Gujarat state, is believed to have spent hours wandering fields in blizzard conditions as the wind chill reached minus 36 Fahrenheit (minus 38 Celsius). Canadian authorities found the Patels' frozen bodies on the morning of Jan. 19, 2022. Jagdish Patel

was holding Dharmik, who was wrapped in a blanket. Federal prosecutors say Patel and Shand were part of an operation that scouted clients in India, got them Canadian student visas, arranged transportation and smuggled them into the US, mostly through Washington state

Minnesota.

The US Border Patrol arrested more than 14,000 Indians on the Canadian border in the year ending Sept. 30. By 2022, the Pew Research Center estimates there were more than 725,000 Indians living illegally in the US, behind only Mexicans and El Salvadorans. Harshkumar Patel's attorney, Thomas Leinenweber, told The Associated Press that his client came to America to escape

poverty and build a better life for himself and now "stands unjustly accused of participating in this horrible crime. He has faith in the justice system of his adopted country and believes that the truth will come out at the trial." Attorneys for Shand did not return messages. Court documents filed by prosecutors show Patel was in the US illegally after being refused a US visa at least five times. Over a five-week period, court documents say, Patel and Shand often communicated about the bitter cold as they smuggled five groups of Indians over a quiet stretch of border. One night in December 2021, Shand messaged Patel that it was "cold as hell" while waiting to pick up one group,

Canadian PM admits his govt made 'mistakes' in immigration policy

the region.

Panadian Prime Minister UJustin Trudeau has admitted that his government made "mistakes" in its immigration policy which led to "bad actors" like "fake colleges" and big corporations exploiting the system for their vested interests. Trudeau's statement on Sunday came amidst his Liberal Party's denting popularity ahead of the 2025 general election in Canada. The prime minister is facing intense public criticism due to his policies leading to housing shortage, inflation, and deteriorating health and transport systems in the country. The opposition Conservative Party has also The

been accusing his government

of mismanagement and failure

to prioritise Canadian citizens'

needs. In a video message posted on his YouTube channel, Trudeau said, "In the last two years, our population has grown really fast, like a baby boom...Increasingly bad actors like fake colleges and big chain corporations have been exploiting our immigration system for their own interests.

To combat this, "we are reducing the number of immigrants who are coming to Canada for the next three years," he said. "We made some mistakes and that's why we are taking this big turn," he said, justifying his

government's action. Outlining the government's latest immigration strategy, Immigration Minister Marc Miller said last month that Canada will admit approximately 3,95,000 permanent residents in 2025, marking a drop of nearly 20 per cent from the 4,85,000 expected this year.

The plan also sets a target for temporary immigrants, including international students and foreign workers. Their numbers are expected to drop to about 4,46,000 in 2025 and 2026, down from roughly 8,00,000 this year.

By 2027, Canada will accept just 17,400 new non-permanent residents, the new policy suggested. Canada also ended the popu-

lar fast track study visa programme, SDS, a major policy decision that is likely to impact scores of international students, including from India. According to the Indian High Commission here, India is the largest source country of foreign students with an estimated 4,27,000 Indian students studying in Canada. Trudeau said for years,

Canada's immigration system only focussed on Permanent Immigration where people come with family to settle in Canada and the government decides the number of permanent residents that it wants to admit each year. However, in doing so, it missed "the other pathway — the temporary immigration", which involves international students, temporary workers and so on. "After the (coronavirus) pan-

demic, our economy came

roaring back quickly. We want-

ed more workers fast. We were

in the midst of a huge labour

shortage. Temporary foreign

workers became such a signif-

choice and it worked, Trudeau emphasised. "Our economy Restaurants and stores reopened, businesses kept running, but most importantly, in

spite of lots of economists' predictions, we avoided the worst-case scenario — a recession," he said. However, the prime minister

icant part of our workforce...So,

we brought in more workers,"

he said. And it was the right

said, some saw that as an opportunity to profit, to game the system. "We have seen way too many large corporations doing this. Far too many colleges and uni-

versities used international stu-

dents to raise their bottom

line, because they could charge

these students tens of thou-

sands of dollars more for the same degree. "And then there are really bad actors who outright exploit

people who target vulnerable immigrants with promises of jobs, diplomas and easy pathways to citizenship promises that would never come true," he said. "Looking back when the post pandemic boom cooled and the businesses no longer needed the additional workforce, as a federal team, we could have acted quicker and Trudeau admitted.

turned off the taps faster," Canada's new immigration plan is "straightforward — lower the number of immigrants — both permanent and temporary," he said, adding that the government is prioritising perma-

nent residents with the skills it

needs like healthcare and construction workers.

Trudeau said the cut on the cap on immigrants coming to Canada was necessary to address its housing crisis and

cost-of-living issues "The goal is to help stabilise population growth while housing stocks catch up, and then to consider gradually increasing immigration rates once again," he said, adding that this pause is going to "give our economy and our communities the chance to catch up with things like our plan to build more

homes". Some temporary residents may turn to our asylum system when their visa expires...Those claims will be analysed and processed, and if their claim fails, they'll be sent home,"

India-Canada ties remain deeply troubled over the North American country's alleged support to Khalistani sepa-

ratists and its accusation of India's involvement in the killing of Hardeep Singh Nijjar, a Canadian citizen who has been designated a terrorist by

India rejected Trudeau's charges as "absurd" and expelled six Canadian diplomats. India also withdrew its High Commissioner in Canada Sanjay Kumar Verma after dismissing Ottawa's allegations. India has been maintaining that the main issue between the two countries is that of Canada giving space to pro-Khalistan elements operating from Canadian soil with impunity.

Finish probe against Sheikh Hasina US, Philippines sign pact to secure shared by next month, investigators told

special tribunal in ABangladesh on Monday told investigators they have one month to complete their work on ousted former Prime Minister Sheikh Hasina and her close aides who face charges of crimes against humanity after hundreds of people were killed in a mass uprising this summer. Golam Mortuza Majumdar, the head judge of the threemember International Crimes Tribunal, set Dec 17 for investigators to finish their work. as the tribunal heard updates Monday from police about what the country's security agencies have done to arrest Hasina and her close aides.

The decision came after prosecutors sought more time for the investigation.

Hasina has been living in exile in India since Aug 5 when she fled the country amid the student-led protests. The Dhakabased International Crimes Tribunal on Oct. 17 issued arrest warrants for Hasina and 45 others including former

as he was in custody for police interrogation in a separate case. Another six people will appear on Wednesday, tribunal officials said. At least 20 suspects have been arrested in the case. The tribunal will also seek updates from police on their progress in arresting the other

The chief prosecutor of the tribunal has already sought help from Interpol through the country's police chief to arrest Hasina. On Sunday, Yunus said in an address to the nation that his administration would seek Hasina's extradition from India.

Authorities say hundreds of people were killed during the uprising in July and August mainly by security agents seeking to quell the initial protests over government jobs. The violence intensified as the protests morphed into an antigovernment movement with more bloodshed, ending Hasina's 15-year rule. Hasina had also earlier sought an investigation into the killings.

military intelligence, weapons technology

The United States and the The United States and Philippines signed an agreement on Monday to secure the exchange of highly confidential military intelligence and technology in key weapons the US would provide to Manila Defence Secretary Lloyd Austin

and his Philippine counterpart, Gilberto Teodoro, signed the legally binding General Security of Military Information Agreement in Manila at a time when the longtime treaty allies have boosted their defense and military engagements, including large-scale joint combat drills, largely in response to China's increasingly aggressive actions

The outgoing Biden administration has taken steps to strengthen an arc of military alliances across the Indo-Pacific region to better counter China. including in any future confrontation over Taiwan or in the disputed South China Sea, which Beijing has claimed

That has dovetailed with Philippine President Ferdinand Marcos Jr's thrust to strengthen his country's external defenses given an alarming escalation of territorial confrontations between Chinese and Filipinos forces in the South China Sea.

The Department of National Defense in Manila said the agreement aims to ensure the security of classified military information that would be exchanged between the U.S. and the Philippines. It will "allow the Philippines

big-ticket items from the United States," the Philippine defense department said. Neither side provided more

access to higher capabilities and

details or released a copy of the agreement. Two Philippine security offi-

cials, however, have told The Associated Press that such an agreement, similar to ones Washington has signed with other allied countries, would allow the U.S. to provide the Philippines with higher-level

intelligence and more sophisticated weapons, including missile systems.

It would also provide the Philippine military access to US satellite and drone surveillance systems with an assurance that such intelligence and details about sophisticated weapons would be kept highly secure to prevent possible leaks, the two Philippine officials said on condition of anonymity because they were not authorized to discuss the sensitive

issue publicly. Philippine efforts to obtain sophisticated weapons from the US military in the past have been hampered by a lack of such an intelligence deal, including when Filipino forces were scrambling to fight a 2017 siege by Filipino and foreign militants aligned with the Islamic State group in southern Marawi city. Philippine forces, backed by US and Australian spy planes, quelled the uprising

after five months. Austin and Teodoro also attended a groundbreaking ceremony for a center where the

would coordinate future joint operations, including the exchange of information. Austin said the center "will be work side-by-side to respond to regional challenges."

a place where our forces can Austin renewed the US commitment to the Philippines as

an ally and told Teodoro that "we are more than allies. We are family. The coordinating center, Teodoro said, would provide "a unified picture of the

shared areas of responsibility and common approaches to threats against both our securities."

"I'm sure it will benefit future generations of both our peoples to come because although we may change people, the values don't change," Teodoro said. The Philippine defense chief reiterated the crucial need for the US security presence in the region, citing Marcos's repeated statements that such a presence "is essential for maintaining peace and stability in this

Sir Lanka President opts for smaller Cabinet with fresh faces

PTI ■ COLOMBO

Sri Lankan President Anura Kumara Dissanayaka on Monday appointed a 21-member Cabinet in the new NPP government, keeping with his pre-election promise to streamline the governance system and ease the burden on taxpay-

The National People's Power (NPP) has been advocating a smaller government to reduce costs for the public. Since the NPP won the presidential election in September, the government functioned with just 3 ministers, including the President.

RBI Governor Shaktikanta Das urges banks to strengthen governance to curb unethical practices

 R^{BI} Governor Shaktikanta Das on Monday asked bank boards to strengthen internal governance framework to curb unethical practices, such as mis-selling of products or opening of accounts without proper KYC verification.

Das also said that the incentives for bank staff should be carefully structured so as not to encourage them to indulge in unethical practices. "While such practices may vield short-term gains, ultimately expose the bank to significant long-term risks, reputational damage, supervisory scrutiny

and financial penalties," he said in a keynote address at the Conference of Directors of

which is replete with opportunities as well as risks and challenges. "The banking sector remains strong and stable.

transitioning through a time

All the financial indicators have improved since we met in May last year, reflecting the efforts of the various

participants of the banking

sector, including their management and boards," he To keep the resilience of the banking system intact, the governor emphasised that strong fundamentals ought to be leveraged to reinforce and fortify the defences. "Good after all, are the

best times

resilience sustainably," he added. Das also said that in the rapidly environment, organisations face significant challenges and risks.

Factors like technological advancements, the rise of new-age fintech entities, third-party dependencies and climate change are reshaping the economic landscape, he

Amid these shifting tides, bank boards should serve as a lighthouse for lenders and provide steady guidance to help navigate these challenges and steer towards safe and prosperous shores, he said.

SC issues notice to Centre over vacancies in 11 Debt Recovery Tribunals

PIONEER NEWS SERVICE ■ NEW DELHI

The Supreme Court on Monday sought a response from the Ministry of Finance on a PIL highlighting critical vacancies in 11 Debt Recovery Tribunals (DRTs) across India.

The DRTs are set up under the Recovery of Dues to Financial and Institutions Act of 1993 to enable banks and financial institutions recover bad debts from borrowers.

"Eleven DRTs remain unmanned which is creating issues. In view of the grant of additional charges and also the complications, notice be served including 'dasti', counter affidavits (reply) be filed in five weeks and the rejoinder to be filed within three weeks after the response," said a bench comprising Chief Justice Sanjiv Khanna and Justice Sanjay Kumar. The PIL, filed by Ghaziabad

resident Nischay Chaudhary, was argued by senior advocate K B Sounder Rajan along with lawyer Sudarshan Rajan.

According to the PIL, as of September 30, 2024, 11 DRTs are without presiding officers, severely impacting their ability to resolve cases

efficiently. The PIL raised concerns that nearly one-third of the 39 DRTs in the country are currently non-functional due to the absence of presiding officers, undermining their core objective of expediting debt recovery for banks and financial institutions. The petitioner argues that this inaction frustrates the purpose of the 1993 law, which was enacted to ensure timely adjudication and recovery of debts. The plea said various DRTs

at Jaipur, Chennai, Mumbai, Aurabgabad, Ahmedabad, Coimbatore, Ranchi, Bengaluru and Lucknow have vacancies.

The PIL also emphasises that speedy justice is a fundamental right under Articles 14 and 21 of the Constitution, as recognised by the Supreme Court in the case of District Bar Association Dehradun vs Ishwar Shandilya in 2020.

The PIL sought a direction to the Ministry of Finance to produce records relating to selection appointment of presiding

officers in DRTs to evaluate the government's seriousness in addressing these vacancies.

It also sought a direction to the Centre to mandate the timely filling up of existing vacancies and establish mechanisms to prevent delays appointments.

As interim measures, it sought a direction that the powers of non-functional DRTs are vested in other tribunals prevent

disruption of services "Issue any further orders to safeguard the efficient functioning of DRTs in the interest of justice," the PIL

"For instance, the Presiding Officer, DRT Patna has been given additional charge of the Ranchi DRT (22.07.2024) and Lucknow

DRT (17.09.2024). The charge of DRT Jaipur has now been with DRT Delhi for almost a year.

'This stopgap arrangement is no respite; rather causes practical difficulties to the concerned practising in the particular DRTs and further and decelerates the disposal of the other DRT as we," the plea said.

In view of the additional charge given to such DRTs, only urgent matters are taken up and normal matters are not considered, it said.

The pendency is on the increase in such DRTs. The irony is that a specific time schedule ranging from 60 to 180 days has been stipulated in the Act whereas the DRTs remain nonfunctional due to nonappointment of Presiding

Officers beyond the above

time range," the PIL said.

Rupee recovers from all-time low to settle six paise higher at 84.40 against US Dollar

The rupee recovered from its all-time low level and settled with a gain of 6 paise at 84.40 (provisional) against the US dollar on Monday, backed by a retreating American

Forex traders said, the recovery in the local unit was capped by the unabated withdrawal of foreign funds amid lacklustre sentiment in the domestic equity markets as well as an upward movement in crude oil prices. At the interbank foreign exchange, the rupee opened at 84.42 and touched the intra-day high of 84.37 against the greenback during the session. It finally settled at 84.40 (provisional) against the dollar, up 6 paise from its previous close.

On Thursday, the rupee fell 7 paise to settle at its all-time low of 84.46 against the US dollar. The Forex market was closed on Friday on account of

"This minor support for the rupee was further aided by a reduction in FII selling activity with in recent days, expectations that sell-off pressure will remain limited

due to the upcoming state elections in Maharashtra.

"The rupee is expected to find support in the 84.45-84.52 range, while resistance is projected around 84.25-84.30," said Jateen Trivedi, VP Research Analyst -Commodity and Currency, LKP Securities.

LKP Securities.
Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading lower by 0.06 per cent at 106.55.
Brent crude, the global oil benchmark, rose by 0.79 per cent to USD 71.60 per barrel in futures trade

futures trade. In the domestic equity market,

the 30-share BSE Sensex declined 241.30 points, or 0.31 per cent, to close at 77,339.01 points, while Nifty fell 78.90 points, or 0.34 per cent, to settle at 23,453.80 points.

Foreign Institutional Investors (FIIs) were net sellers in the capital markets on Thursday, as they offloaded shares worth Rs 1,849.87 crore, according to exchange data. On the macroeconomic front, India's merchandise exports in October rose by an impressive 17.25 per cent yearon-year, highest in over two years, to USD 39.2 billion, while the trade deficit widened to USD 27.14 billion on a sequential basis, according to the latest government data Meanwhile, the country's forex reserves dropped by USD 6.477 billion to USD 675.653 billion for the week ended November 8, the Reserve Bank of India said on Friday.

SBI to open 500 more branches in FY25, take overall network to 23,000: Finance Minister

 $F_{ ext{Sitharaman on Monday}}^{ ext{inance Minister Nirmala}}$ said SBI will open another 500 branches to take its overall network to 23,000 by the end of FY25.

Das further said that the Indian banking sector is

Speaking at an event to mark the 100th anniversary of the state-owned lender's main Mumbai, branch Sitharaman recalled that the size of the bank has increased substantially since 1921 when three presidency banks merged to form the Imperial Bank of India (IBI).

The government passed an Act of Parliament to form SBI in 1955 out of what used to be

IBI, and what was a network of 250 branches in 1921 has grown to 22,500 now, she said. "SBI today has grown to become 22,500 branches, and I understand that another 500 branches are going to be opened in FY25.

23,00 branches," Sitharaman said. The finance minister said this growth of SBI should be a global record", particularly in the context of India being repeatedly "taunted" for

income disparities. She said SBI commands a 22.4 per cent share in the overall deposits in the country, nearly one-fifth in advance and over

customers Sitharaman said the digital investments are "robust" at the bank, and it can handle up to 20 crore UPI transactions a

This is a long way from the objective of the merger of three presidency banks in Sitharaman said, pointing out that one of the stated aims of the century-old consolidation move was to extend banking services to

The Mumbai main branch is housed in a heritage building inaugurated in 1924 and currently handles nearly a fourth of all the deposits in

Gold and silver prices rebound because of ongoing wedding season buying, global cues

PTI ■ NEW DELHI

Gold and silver prices rebounded on Monday in the national capital mainly on the back of ongoing wedding season buying by jewellers and retailers as well as strong global trend, according to the All India Sarafa Association.

Snapping a four-day losing streak, gold of 99.9 per cent purity rose by Rs 400 to Rs 77.450 per 10 cm. 77,450 per 10 grams in the local markets. The precious metal had

closed at Rs 77,050 per 10 grame on Thursday Šilver also climbed Rs 1,810 to reclaim the Rs 92,000 per kg-mark against previous close of Rs 90,190 per kg on Thursday. Price of gold of 99.5 per cent

at Rs 76,650 per 10 grams. said Traders wedding season demand from jewellers and retailers,

INBRIEF

GURU NANAK DEV UNIVERSITY POSTPONES EXAMS SCHEDULED FOR NOVEMBER 20

India look to play to their strength, start as favourites against Japan

confident and unbeaten India Awill back their strategy of attack and defense at appropriate times when they take on Japan in the semifinal of the women's Asian Champions Trophy hockey tournament here Tuesday. Hosts and defending champions India will undoubtedly enter the semifinal as clear favourites against a side which they trounced 3-0 in

their final league game. World number nine India have registered five wins from as many games, including 3-0 victory over Olympic silver medallist and world number six China.

India's chief coach Harendra Singh also emphasised on the need to continue in the same vein in the tournament.

"We know what are their strengths and weaknesses. For us, this tournament is about working on our strengths and build a formidable style of play for Indian women's hockey team. It's a mixture of attacking and defensive," Harendra

"So far the girls have executed really well. I am satisfied with their decision making but semifinal will be a different ball game."

The Indians must guard against complacency, as a single mistake could shatter their dreams of retaining the crown.

The top four sides qualified for the semifinals of the six-team continental tournament. In the other

semifinal China will be up against

The Indians might have defeated Japan hands down in the league stage, but Harendra is in no mood to take their opponents lightly in the knock-out match.

"Of course we are expecting a tough fight from Japan because the training game and pool matches are different. It's a semifinal and every team prepares according to their

We are going to face some resistance from Japan for sure. They have a good side but we have to do our homework. We need to focus on how we want to play rather than focussing on the opponent," he said. After a cagey start, India quickly found their rhythm, elevating their performance dramatically and excelling in every aspect of the

One of the most encouraging aspects of India's success here has been the stellar performance of their backline, led brilliantly by Udita, Sushila Chanu, and Vaishnavi Vitthal Phalke.

The Indian defense has been so solid that goalkeepers Savita Punia and Bichu Devi Karibam have hardly been tested in the tournament thus

the Indians were guilty of rushing the play and failing to identify the right options inside the opposition circle, a shortcoming acknowledged by Harendra

But it seems the hosts have gotten over that bad habit in the last few matches. Not only have they managed to play full press hockey, but they've also displayed improved decision-making inside the circle, resulting in some fine field goals.

Penalty corner conversion was also an area of concern but over the last few games, the likes of Deepika and Manisha Chauhan have risen to the occasion on that front.

India have got a fine striker and a fierce dragflicker in young Deepika. Her exploits in the tournament can be gauged from the fact that she is leading the goal scorers chart with 10 strike which includes four field goals, five penalty corne conversions and one from the spot. corner Other Indian forwards like Sharmila Devi, Sangita Kumari Preeti Dubey and Lalaremsiami have also contributed immensely in the home

team's campaign so far. Skipper Salima Tete has been the centre point of the Indian midfield in the company of Neha Goyal, vice-captain Navneet Kaur and Beauty Dung Dung.

The only concern going into the business end of the tournament for chief coach Harendra would be the lack of action of his goalkeepers Savita and Bichu as they hardly were far. seen in action, given
In the first part of the tournament, performance of the defenders.

Nelly Korda rallies in Florida for her seventh LPGA win of the year

AP ■ BELLEAIR (US)

Nelly Korda was back to competition for the first time in nearly two months and didn't miss a beat. She ran off five straight birdies on the back nine to stage another comeback, closing with a 3-under 67 to win The Annika for her seventh LPGA Tour title this year.

Korda had a rough start and said she didn't have many happy thoughts when she made the turn at 2 over for the day, two shots behind Charley Hull. Starting with a birdie on No. 11, she made five in a row on her way to a three-shot victory.

The only big surprise was seeing her younger brother, Sebastian, who has been charting his own career in tennis that kept him from seeing his sister win until Sunday at Pelican Golf Club. Korda, who earlier this year tied an LPGA record with five straight victories, became the first player to win seven times in a season since Yani Tseng in 2011. No other American had won seven times in a season since Beth Daniel in 1990.

Korda now has won four times this year when trailing going into the final round. Hull, going for a wire-towire win, simply couldn't keep up with Korda's birdie blitz. Coming off her first win worldwide two weeks ago in Saudi Arabia, Hull closed with a 1-over 71 and tied for second with LPGA rookie Jin Hee Im (68) and Weiwei Zhang (70). Zhang moved up 24 spots to

No. 82 in the Race to CME Globe to keep her card for next year. The top 60 advance to the CME Group Tour Championship next week in Naples, where the winner gets \$4 million. Carlota Ciganda moved up three places to secure the final spot.

Korda last played Sept. 22 in Ohio. She was planning to play twice during the Asian swing until a minor neck injury kept her at home. She was eager to get back in time to play Pelican, where she had won two of the previous three years.

"After taking some time off with an injury, it feels great to be back out here," Korda said. "Nothing like being in the hunt, the adrenaline feeling on the back nine, and being in contention. I love it so much."

The victory puts her over \$4 million for the year, and she can nearly match that with a win next week at Tiburon Golf Club. The ranking does not matter for the season finale — all 60 players have the same shot at one of the biggest prizes in women's

Britain knocks out defending champion Canada to advance to Billie Jean King Cup semifinals against Slovakia

AP ■ MALAGA (SPAIN)

Britain kept alive its hopes of winning the Billie Jean King Cup for the first time by defeating defending champion Canada in the quarterfinals in Malaga. Katie Boulter clinched the 2-0 victory with a 6-

2, 6-4 win over Leylah Fernandez after Emma Raducanu defeated Rebecca Marino 6-0, 7-5 in the first singles match of the tie.

"I think we have got a great team. We've always got a great chance," Boulter said. "I think every single day anything can happen. We're just going to keep believing, keep trusting it, and just keep enjoying it. I think that's really important. It's worked so well for us so far." Four-time finalist Britain is yet to win the title.

though it's the second time in three years that it has made it to the last four. Canada clinched

its first title last year. "You know what? We can't win them all, and I think credit to Team Great Britain, because I think both girls played complete matches today," Canada captain Heidi El Tabakh said. Britain next faces Slovakia in the semifinals.

"It's fantastic. It really is a brilliant achievement for the team," Britain captain Anne Keothavong said. "But like I said on court, you know, the job is far from over." SLOVAKIA KEEPS MOMENTUM

Slovakia followed up its win over the United States with a 2-0 victory against Australia to reach the last four.

Rebecca Sramkova cruised to a 6-1, 6-2 win over Ajla Tomljanovic to clinch Slovakia the victory after Viktoria Hruncakova rallied to defeat Kimberly Birrell 7-5, 6-7 (4), 6-3 for her sixth straight BJK Cup win counting singles and doubles.

Slovakia had beaten the U.S. — the competition's most successful nation — in the first round of the finals in Malaga. Iga Swiatek's Poland, seeking its first title, will face Italy in the other semifinal.

Omkar Salvi named RCB's bowling coach

PTI ■ BENGALURU

 $R_{\text{Bengaluru}}^{\text{oyal}} \quad \begin{array}{c} \text{Challengers} \\ \text{on Monday} \end{array}$ Challengers announced the appointment of Omkar Salvi as the IPL franchise's bowling coach, a reward for guiding Mumbai to Ranji Tropy and Irani Trophy titles last season.

A well-known name on the domestic circuit, Omkar has in the past worked as assistant coach with Kolkata Knight Riders.

"Omkar Salvi, current Head Coach of Mumbai, has been

appointed as RCB's Bowling the franchise tweeted

"Omkar, who has won the Ranji Trophy, Irani Trophy and the IPL in the last 8 months, is excited to join us in time for #IPL2025, after completion of his Indian domestic season duties."

He is expected to join RCB after the end of the ongoing Ranji season, which will resume on January 23.

In between, he will also oversee Mumbai's campaign in the Syed Mushtaq Ali T20 2008.

tournament. Omkar, who is the younger

brother of former India player Avishkar Salvi, has played just one List-A game for Railways in 2005. He is contracted with the Mumbai Cricket Association (MCA) until March 2025. This will be Salvi's second

IPL stint after his tenure at

RCB have never won an IPL title despite participating in it since the tournament's inaugural edition way back in

China Masters: Satwik-Chirag return to action in BWF World Tour

PTI SHENZHEN (CHINA)

Tndia's premier men's doubles Lpair of Satwiksairaj will make a highly-anticipated return to action at the China Masters Super 750 badminton tournament, starting here on following Tuesday, disappointing Paris Olympics campaign. The former world number

one duo had been sidelined from competitive action post the Paris Olympics due to Satwik's shoulder injury. Their absence from the circuit

led them to miss several highprofile tournaments. including the Arctic Open, Denmark Open, and China

Fresh off a lengthy recovery, Satwik and his Asian Games gold medal-winning partner Chirag will aim to regain their momentum, despite having

been without a coach since Mathias Boe's departure in

Satwik and Chirag, who finished runner-up in the last editions, will start their campaign against Chinese Taipei's Yang Po-Hsuan and Lee Jhe-Huei in the opening round.

Elsewhere, P V Sindhu and Lakshya Sen will look to overcome their

struggles and aim improved performances as they continue their quest for consistency and form

Both the players, who took a long break after their campaign at the Paris Games ended in early August without a medal, have struggled to regain their best form since the Olympics.

Since his semifinal loss in recent Paris, Lakshya has endured Super 500 and Denmark her campaign Open, and the trend Thailand's another first-round exit from the Kumamoto Masters Japan. He will kick off his campaign against seventh-seeded Malaysian Lee Zii Jia.

The 23-year-old possesses the ability to beat any opponent, but his mental toughness has been questioned following his agonising near-miss at the Tokyo Olympics, where he slipped from a medal position in a heartbreaking loss.

Two-time Olympic medallist Sindhu bounced back from her shock opening-round loss to Canada's Michelle Li in Finland, reaching quarterfinals in Odense.

However, Li proved to be a hurdle once again, defeating Sindhu in the round of 16 last

early exits at the Arctic Open The unseeded Indian begins Supanida continued last week, with the Katethong, whom she leads 5competing in the women's singles event will be promising young talents Aakarshi Kashyap and

Malvika Bansod. Aakarsi will face Tomoka Miyazaki of Japan in her opener while Malvika will take on Line Højmark Kjaersfeldt in the first round. The women's doubles team of Treesa Jolly and Gayatri Gopichand, that made a first round exit from the Kumamoto Masters Japan, will also be in action. The Indian duo will square up against the second seeded Chinese combination of Liu Sheng Shu and Tan Ning.

B Sumeeth Reddy will partner Sikki Reddy in the mixed doubles event.

Sinner opens up about his doping case after winning ATP Finals trophy before his home fans

AP ■ TURIN (ITALY)

Sleepless nights. Constant thoughts of what went wrong — and how it could have been prevented.

Jannik Sinner opened up about his ongoing doping case after beating U.S. Open runner-up Taylor Fritz 6-4, 6-4 on Sunday for the ATP Finals trophy before his home

Sinner tested positive in two separate drug tests in March and a decision to clear him of wrongdoing was appealed by the World Anti-Doping Agency in September. A final ruling is expected from the Court of Arbitration for Sport early next year.

Sinner's explanation was that the banned performanceenhancer entered his system unintentionally through a massage from his physiotherapist, who had used a spray containing the steroid to treat his own cut

"I've kept on thinking about where we went wrong and what we could have done

better," Sinner said in Italian. "I had days where I wasn't feeling great; nights when I didn't sleep well.

"But when I put my hat on, I don't think about what's going on beyond the court," Sinner added. "I'm fortunate to have people around me who keep me stable. Thanks to them we've continued to work hard every day like there's no tomorrow and we've even improved in this

SINNER'S PERFORMANCE HAS APPROACHED DOMINATION LATELY

Sinner's victory in Turin was the latest big achievement in a year full of them following his first two Grand Slam titles at the Australian Open and U.S. Open and clinching the

year-end No. 1 ranking. Sinner has won 26 of his last 27 matches and ends the ATP season with eight titles and an overall record of 70-6.

"The work will never stop. We know we still have room for improvement," Sinner said. "But it's been an no better place to finish the season than here."
SINNER ALSO BEAT FRITZ

IN THE US OPEN FINAL AND THE GROUP STAGE Sinner maintained his recent mastery over Fritz, having also beaten the American in the U.S. Open final in September and in the group stage this week at the elite event for the year's top eight players.

By sweeping all five of his matches en route to the trophy, Sinner earned \$4.8 million — the largest winner's prize on the men's tour. Sinner became the first

Italian to win the finals and he went one step further than last year, when he lost the championship match to Novak Djokovic, who withdrew this time. And he did so without dropping a set which accomplished by Ivan Lendl

in 1986. "I just tried to understand whatever works best for each opponent," Sinner said. "It was a very high-level incredible season and there's tournament from my side. At

times, I couldn't play better."
THE CROWD WAS
DECKED OUT IN ORANGE SINNER'S THEME COLOR

The crowd inside Inalpi Arena included multiple clusters of fans wearing orange — a tribute to Sinner's red- and orange-colored hair, customary chant of "Ole, Ole,

during a match. There were orange carrot costumes, orange wigs, orange hats, jackets and plenty of other orange items, too.

Some fans even had carrots in their mouths. The crowd broke into its

Sinner produced a drop-shot winner to break for a 4-3 lead in the first set.

Sinner faced a break point while serving for the first set but saved it with a big serve out wide that Fritz couldn't return. Then he served an ace — his 10th of the set — to close it out. Another break by Sinner

early in the second and the match was virtually over. SINNER LED 14-8 IN ACES FRITZ GAVE HARDLY ANY CHANCES Sinner served better than he had all week, leading 14-8 in aces without any double-

"He served absolutely lights out. So many lines," Fritz said. "He placed the serve great. He took a lot of risk on the second serve as well.

faults.

I think that was probably one of his main game plans, to not let me attack his second

FRITZ WILL STILL RISE TO A CAREER-HIGH NO. 4 Fritz was attempting to become the event's first American champion since Pete Sampras beat Andre

Agassi in the title match 25 Still, Fritz will rise to a careerhigh No. 4 in the rankings on Monday after beating No. 2 Alexander Zverev in a thirdset tiebreaker in the semifinals on Saturday. That ranked American man since Andy Roddick was No. 4 in August 2007. It's the latest in a series of

will make him the highest-

achievements for Fritz, whose run in New York made him the first American man to reach a Grand Slam singles final since Roddick lost to Roger Federer at Wimbledon in 2009

"I feel like I've gone up a level and I'm much more confident in my game," Fritz said. At the start of the week, Fritz

told The Associated Press that his "career has always been a very steady progression and just progression improving a little bit each DAVIS CUP AND NADAL'S RETIREMENT ARE NEXT

Both Sinner and Fritz will conclude their seasons representing defending champion Italy and the defending United States, respectively, in the Davis Cup finals, which start Tuesday in Malaga, Spain, and which will also Rafael mark Nadal's retirement.

'Hungry' Virat's record in Australia will give him confidence: Gavaskar

PTI ■ NEW DELHI

Tirat Kohli will be "very, very hungry" for runs following his lean patch against New Zealand, according to former Indian captain Sunil Gavaskar, who feels the veteran batter's strong track record Down Under will boost his confidence heading into the upcoming Test series against

Kohli has faced a challenging patch in all formats over the past few months. In his last 60 Test innings, he has managed just two centuries and 11 half-centuries.

This year, he has averaged only 22.72 across six Tests, and in the three games against New Zealand,

he could manage only 93 runs.
"Because he hasn't scored runs against New Zealand, he'll be very, very hungry," Gavaskar told Star Sports. "Even in that Adelaide Test, where

India was bowled out for 36 in the second innings, Kohli scored 70plus runs in the first innings before being run out," he added.

Despite these recent struggles, Kohli has an outstanding record in Australia. The right-hander, who has been part of four tours Down Under, averages a stellar 54.08.

Gavaskar believes these stats will provide a significant confidence boost as Kohli prepares for the upcoming five-match series,

starting with the first Test in Perth on Friday.
"He has consistently performed in Adelaide, a ground he knows well.

Before Adelaide, it's Perth, where Kohli played one of his finest Test centuries in the 2018-19 series — a "Having performed on these grounds, he'll feel an extra bit of confidence. Of course, you need a bit of luck at the start, but if he gets off to a good beginning, he will score big runs," Gavaskar added. As the series approaches, all eyes will be on Kohli, who will look to

bounce back with his trademark resilience and continue his fine record in Australia.

Kohli knows what's coming: Manirekar Former India cricketer Sanjay

Manjrekar also weighed in on how Australia might target Kohli.

"I think Virat knows exactly what's coming," Manjrekar said.

"They'll start with a line outside the off stump to assess his mindset. These days, he often leaves balls outside off and looks to drive anything pitched up. Australia may try to cramp him for room and attack his body, especially since he likes to get forward. New Zealand

used this tactic effectively."
Manjrekar continued, "If he's focused on balls outside off stump, bowlers like Josh Hazlewood could target the middle-stump line, much like Vernon Philander used to do. Australia will experiment with different strategies, and Virat Kohli is well aware of that."

the year and get straight into it, but it'll be intriguing to see

how both sets of players settle on that first day when they're

playing the longer form.
"The modern player maybe

believes that they don't need (tour matches). They think

they get enough cricket throughout the year and they

can react and just adapt. I just

like to see teams win and stick a marker down," he added.

Sri Lanka beats New Zealand in 2nd ODI to win another home series

AP ■ PALLEKELE (SRI LANKA)

usal Mendis hit a patient 74 Knot out as Sri Lanka beat New Zealand by three wickets under the DLS method with six balls remaining in the rain-hit second ODI.

Sri Lanka took an unassailable 2-0 lead in the three-match series with the final game also at Pallekele on Tuesday. Sri Lanka won the first one-day international by 45 runs — also by DLS — after rain disrupted that game at Dambulla.

It was Sri Lanka's fifth ODI series win at home in 2024 after it had beaten Zimbabwe, Afghanistan, India and West Indies. Sri Lanka couldn't qualify for next year's Champions Trophy after finishing ninth at last year's 50-over World Cup in India, but has since then lost just one ODI series in Bangladesh while win-

ning five at home. "It is really tough for batters to score runs here," Sri Lanka captain Charith Asalanka said.

"This is just another series. As a team, we are moving towards a big goal and we have to achieve that, this is a process." Mendis followed his career-best 143 in the series opener with a determined 102-ball knock as Sri Lanka reached 210-7 in 46 overs.

The match was cut to 47 oversa-side after two rain interruptions when New Zealand batted and was bowled out for 209 in 45.1 overs. Sri Lanka was set a target of 210.

Off-spinner Michael Bracewell's first four-wicket ODI haul (4-36) gave New Zealand a sniff when Šri Lanka slipped to 163-7 before Maheesh Theekshana (27 not out) shared a match-winning 47-run stand with Mendis and car-

ried the team home. Earlier, Sri Lanka grassed a few hard chances but Avishka Fernando took three spectacular catches after Asalanka won the toss and elected to field.

Mark Chapman ended his strug gling batting form with 76 off 81 balls, but his dismissal in the 37th over would see New Zealand lose its last six wickets for 36 runs. Mitchell Hay made a well composed 49 off 62 balls and shared a 75-run stand with Chapman. Hay was the last man to be dismissed.

New Zealand struggled against a four-pronged spin attack with Theekshana (3-31) and Jeffrey Vandersay (3-46) sharing six wickets. Left-arm spinner Dunith Wellalage, the only change Sri Lanka made from the team which won the first game, and Asalanka took one wicket

Bracewell mopped up the top order but Mendis stood firm as he completed his half century off 84 balls with four boundaries. He added 39 runs with Janith Liyanage and another 31 with Wellalage, who struck three successive boundaries in his 18-run knock against Nathan Smith before holing out at mid-on to give Bracewell his fourth wicket.

India name 20-member team for men's Junior Asia Cup

release.

PTI ■ NEW DELHI

Defender Amir Ali will lead a 20-member Indian squad in the men's Junior Asia Cup hockey tournament starting in Muscat from November 26. India have won this tournament for a record four times, including 2004, 2008, 2015 and 2023. They beat nemesis Pakistan 2-1 in the final last year to lift the title. This year, the event will have 10 teams from the continent divided into two pools with India, Chinese Taipei, Japan, Korea and Thailand clubbed

in pool A Bangladesh, Malaysia, China, Oman and Pakistan are in Pool B.

The tournament is also a qualifying event for next year's FIH Junior World Cup and India have automatically qualified for it by virtue of being hosts.

However under the guidance of coach PR Sreejesh, the team will be looking to build on its recent success at the Sultan of Johor Cup. Rohit will serves as Amir

Ali's deputy. "The Sultan of Johor Cup was

Cup.
"The players have been putting in a lot of hard work

at the ongoing national camp in SAI, Bengaluru and we have made certain changes to our game to be more effective in defence and efficient in converting goals," he added. Squad:

many of the players, yet they

showed great spirit in doing

well and I am quite pleased

with how they performed,"

Sreejesh said in a media

The team will be taking

confidence from that

performance and will be

working towards a successful

outing in the Junior Asia

Vaughan shocked by India's call to skip warm-up matches ahead of Australia series 'They're playing 12 months of

 $\begin{array}{ccc} B_{\text{to head into the high-}} \\ B_{\text{to head into the high-}} \\ B_{\text{order-Gavaskar}} \end{array}$ Trophy against Australia without a proper warm-up game, former England captain Michael Vaughan has raised concerns about how the tourists would get into a "competitive mindset' without match practice.

India decided against playing a match against an Australian domestic side in the run up to the five-match Test series, starting in Perth from November 22, marking a departure from their approach on the previous two tours of Australia.

"I can't get my head around a team like India only wanting to play an intra-squad game leading into a series against Australia in their own backyard," Vaughan told 'Fox

"I just can't see how you get vourself in that competitive mindset of consequence by playing an intra-squad game.

Time will tell." But India have also called off their scheduled three-day intra-squad match with their 'A' team. They have instead opted to focus on centrewicket training at the WACA in Perth. The Indian think tank believed that the bounce of the WACA centre strip closely mirrors that of the Perth Stadium pitch. As a result, they felt it would be beneficial for all top-order batters to spend more time in

the midd "I'm surprised that this Indian probably side didn't want at least one

game of cricket, and the WACA's the perfect venue because it's a similar pitch to Optus (Stadium), so you get used to the bounce," Vaughan

Australia had also skipped warm-up matches before last year's Test tours of India and England, citing issues with scheduling and a lack of trust local curators as contributing factors.

'These players have a different kind of mindset to needed more games," Vaughan continued.

IOA gets involved as India host first Kho Kho World Cup from January 13-19 ident PT Usha expressed the among participants and fos-

The Indian Olympic Association (IOA) on Monday confirmed its partnership with the Kho Kho Federation of India as the country gets to ready to host the first-ever Kho Kho World Cup, to be held here from January 13 to 19.

The IOA has pledged its "unwavering support" for the event to be organised at the at the IGI Stadium. In a statement to KKFI chief

association's strong commitment to elevating indigenous sports like Kho Kho. Usha said, "We recognise the

significance of this event in celebrating our cultural heritage and promoting traditional sports, and we look forward to collaborating with Kho Kho Federation of India to ensure the success of the tournament.

"Together, we aim to make this event memorable and impactful, encouraging the spirit of sportsmanship

tering a deeper appreciation for Kho Kho worldwide." Mittal said the partnership between IOA and KKFI will

be a "game-changer" for Kho "The support of the IOA, led by President PT Usha, is a

game-changer for Kho Kho. This collaboration is pivotal in putting Kho Kho on the global map, and we're thrilled to be hosting the first-ever Kho Kho World Cup, a truly historic event for the sport," Mittal said.

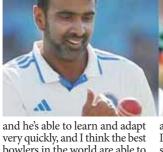

a first-time experience for and Chandan Yadav. Sudhanshu Mittal, IOA pres-Ashwin, an incredibly smart bowler, has taught me a lot: Nathan Lyon

Teteran Australian spinner Nathan Lyon believes that rival players often serve as the "best coaches", acknowledging that his Indian counterpart Ravichandran Ashwin has "taught" him a great deal through their faceoffs since 2011-12.

Having made their Test debuts in the same year, Lyon and Ashwin will face each other for the eighth time in the longest format during the Border-Gavaskar Trophy five-Test series beginning in Perth on November 22.

"Ash (Ashwin) is an incredible bowler. I've gone head-to-head with him for basically my whole career, so I've learned a lot from Ash," Lyon told Fox Cricket.

"He's an incredibly smart bowler,

and he's able to learn and adapt bowlers in the world are able to do that. He used his skills to ben-

efit himself and his team. "So, you've got to give credit where credit's due, he was the best bowler (in 2020/21), as he usually is. So, hats off to Ash." It will be Ashwin's fifth Test tour of Australia, where he has claimed 39 wickets in 10 Tests at

an average of 42.15. Lyon further admitted to having studied Ashwin's bowling close-

ly, especially before Australia toured India in the last few years. "He's taught me a lot," Lyon said. "I'm a big believer in the players that you play against are your best coaches that you eventual-

ly come across." T've watched a lot of his footage heading over to India, the way he goes about it here in Australia, see if I can pick up anything. "The way I look at cricket is that

I've never met anyone who has conquered the game, never played against or with anyone who's conquered the game.

"There's so much to learn in this great game, and there's so much for me to learn from Ash. He's a world-class bowler. He's taken over 500 Test match wickets, and he should be extremely proud of

Ashwin (21.76) outshines Lyon (30.81) in terms of having the best Test bowling average in Asia. However, the Australian has better bowling figures outside Asia -- Lyon: 30.09, Ashwin:

Asked if they could face again post this tour, Lyon reckoned, "Spin bowling is a craft that the

older you get, the better you get with age.

"There's definitely no limit for me, and I don't think there should be a limit for us as well. He's absolutely world-class, and there's a series in a couple of years' time. So, who knows?"

Asked the secret of his success on non-spinning tracks, Lyon quipped: "I know Jadeja reads all of this stuff, so I can't really share all my secrets?

"My big thing is spinning up the back of the ball and getting bounce, but it's a hard craft to be able to do that in Australia. Your size for error is extremely small, he said. They may not have won a Test series against India in nearly a decade, but Lyon feels their World Test Championship final triumph last year would give them the edge

India's got the wood over us in the past few series, but if you're looking at the World Test Championship (final) in England, we were able to beat them there, and I know that should give us a bit of confidence heading into (this summer)," Lyon said.
