ailing the Constitution as a "living stream", Prime Minister Narendra Modi on Tuesday said the sentiment of 'nation will Constitution alive centuries to come. Recalling the words of President Rajendra Prasad in his concluding address to the Constituent Assembly on November 26, 1949, PM Modi said he had stated that India does not need anything more than a group of honest people who will keep the country's interests above their own.

Addressing an event marking Constitution Day celebrations at the Supreme Court, Modi the Constitution has now been fully implemented in Jammu and Kashmir and Constitution Day celebrated there for the first time there. "Our Constitution makers knew that India's aspirations, India's dreams will reach new heights with time. They knew that the needs of Independent India and its citizens will change, challenges will change. That is why they did not leave our Constitution as just a mere book of laws. Rather, they made it a living, continuously flowing stream," Modi said, adding that the Constitution is acting as a "guiding light" at a time when India is going period through a

Justice of India Sanjiv Khanna tried any encroachment. I have tried to put forward my views within the boundaries. Only a hint is enough here, there is no need to say much. Chief Justice of India Sanjiv Khanna elaborated concerns in the judiciary, including backlog of cases, delays, costs of litigation, access to justice, and trust deficit in the system. He elaborated on some of these issues while highlighting efforts to address them. He highlighted the backlog of cheque-bouncing cases, which constitute nine per cent of pending cases in courts. He also highlighted the limited success of plea bargaining, compounding, and probation, as an area requiring legislative intervention.
"The backlog of check

bouncing cases in our district courts have reached an alarming proportion - nearly nine per cent of the cases pending in the trial court. Data also reveals bargaining has been a nonstarter. Compounding and probation have not gained acceptance. Perhaps these require legislative interference," CJI Khanna

The CJI also drew attention to the disparity between the judicial workforce and the prison population. With approximately 20,000 judges at the district level and 750 High Court judges, the judiciary handles a prison population of 5.23 lakh. Despite this disparity, data reflects efficient handling, he said.

Bangladesh police on Monday arrested Das, the leader of the Hindu group, Sammilita Sanatani Jote, from the Hazrat Shahjalal International Airport area in Dhaka.

In a statement, the Ministry of External Affairs (MEA) said it has noted with "deep concern the arrest and denial of bail" to Das who is also the spokesperson of Bangladesh Sammilit Sanatan Jagran Jote. "This incident follows the multiple attacks Hindus and other minorities by extremist elements in Bangladesh," it

There "several documented cases" of arson and looting of minorities' homes and business establishments, as well as theft and vandalism and desecration of deities and temples, the MEA flagged.

"It is unfortunate that while the perpetrators of these incidents remain at large, charges should be pressed against a religious leader presenting legitimate demands through peaceful gatherings," the statement

It also directed that he be religious granted all during privileges detention. He was arrested on charges of disrespecting the Bangladeshi flag during a rally he addressed in October, according to Bangladeshi

SC asks for creative ways to deal with unruly air passengers

PIONEER NEWS SERVICE ■ **NEW DELHI**

 $T^{\text{he Supreme Court on}}_{\text{Tuesday called for creative}}$ ways to deal with unruly air passengers, while directing the Centre and Directorate General of Civil Aviation (DGCA) to frame more comprehensive guidelines to control unruly air passengers guidelines in accordance with the international norms.and observed "something creative" had to be done. A Bench of Justices B R Gavai and KV Viswanathan was hearing a plea filed by a 73-year-old woman, on whom a male co-passenger allegedly urinated in an inebriated condition on board an Air

India flight in November,

2022. Interestingly, during the hearing, Justice Viswanathan recalled an incident involving drunk passengers on a flight while travelling with another Supreme Court judge, Justice Surya Kant . "We had a recent experience during air travel. Two male passengers were fully drunk. One went to the washroom and slept off. The other one, who was outside and had a bag to vomit. The crew was all women. For 30 to 35 minutes no one could open the door. The crew then requested my co-passenger to open the door and take him out to the seat. It was a 2.40 hours flight," the judge revealed.

EVMs are tampered when you lose, and fine if you win: SC

PIONEER NEWS SERVICE NEW DELHI

The Supreme Court on Tuesday **I** indicated that a level of hypocrisy is attached to criticism about the Electronic Voting Voting Machine (EVM), saying "EVMs are tampered when you lose and fine if you win". The oral remark was made Justice Vikram Nath dismissing a petition filed by evangelist KA Paul, who sought a judicial order to return to paper ballots. As the petitioner pointed out that even prominent leaders like Chandrababu Naidu and YS Jagan Mohan Reddy had raised concerns Mohan Reddy nau 141504 School about tampering with EVMs, the SC remarked. "When Bench remarked, "When Chandrababu Naidu or Mr Reddy lost, they said that EVMs were tampered and when they won, they didn't say anything. How can we see this? We are dismissing this. This is not the place where you argue all of this." Petitioner KA Paul referenced Elon Musk's remarks who had suggested that EVMs could be tampered with.

Apart from ballot paper voting, the plea sought several directions including a directive to the Election Commission to disqualify candidates for a minimum of five years if found guilty of distributing money, liquor or other material inducement to the

voters during polls. When petitioner-in-person KA Paul said he filed the PIL, the Bench said, "You have interesting PILs. How do you get these brilliant ideas?". The petitioner said he is the president of an organisation which has rescued over three lakh orphans and 40 lakh

"Why are you getting into this political arena? Your area of work is very different," the Bench retorted. After Paul revealed he had been to over 150 countries, the Bench asked him whether each of the nations had ballot paper voting or used electronic voting.

The petitioner said foreign countries had adopted ballot paper voting and India should follow suit. "Why you don't want to be different from the rest of the world?" asked the Bench.

There was corruption and in June 2024, the Election Commission announced they had seized Rs 9,000 crore, Paul responded. "But how does that make your relief which you are claiming here relevant?" asked the Bench, adding "if you shift back to physical ballot, will there be no corruption?".

Paul claimed CEO and co-founder of Tesla, Elon Musk, stated that EVMs could be tampered with and added TDP chief N Chandrababu Naidu, the current chief minister of Andhra Pradesh, and former state chief minister YS Jagan Mohan Reddy had claimed EVMs could be tampered

Farmer leader Dallewal's detention ahead of his hunger strike sparks outrage

A passage at Shambhu border may be given to farmers to move towards Delhi on foot

PNS CHANDIGARH

The recent forcible detention of prominent farmer leader Jagjit Singh Dallewal from the Khanauri border has ignited a storm of outrage among farmers and political leaders across India. Dallewal, who had announced his intent to launch a fast-unto-death protest, from Tuesday, to demand a legal guarantee for Minimum Support Prices (MSP) for crops, was taken away by the Punjab police in the early hours of Tuesday. The farmer leader was subsequently transported to a Dayananda Medical College and Hospital in Ludhiana for a medical checkup, sparking fierce criticism from farmer groups and political parties alike.

70-year-old Dallewal was preparing to sit on a hunger strike to press for a legal assurance of MSP, which farmers argued is essential for their survival. The Kisan Mazdoor Morcha has condemned the Government's actions, labeling the forceful detention as a grave injustice. The group accused the authorities of treating Dallewal like a criminal, rather than a peaceful protestor fighting for farmers' rights. Despite the intervention, farmer leaders vowed to continue their struggle, with plans for a large-scale demonstration set for December 6, next Friday, aiming to take their demands directly to Delhi.

One of the farmer leaders confirmed that Dallewal, who has not eaten since his detention, is fine. After Dallewal's detention, it has been decided that another farmer leader and a former soldier Sukhjeet Singh Hardo will begin hunger strike at Khanauri. He declared that in case he dies during the fast, his body will remain there at the border, and another farmer will take his place.

Meanwhile, the senior officials from Haryana and Punjab agreed to open a four-foot section of the Shambhu border for farmers to pass without tractors and trolleys. However, the formal announcement is pending.

Dallewal Detained at 2:30 AM

The tension at the Khanauri border, a focal point of the farmers' ongoing agitation, escalated early on Tuesday when the Punjab police arrived at around 2:30 am to detain Dallewal. He had been preparing to begin his fast-unto-death protest, a move he had declared in his address the previous day. The police action has been described as aggressive, with allegations of damage to the protest camp (pandal). According to several farmer leaders, Dallewal was taken away in an abrupt and forceful manner, without being given the chance to prepare for the hunger strike.

The fellow farmer leaders maintained that Dallewal was not allowed to wear adequate clothing during the detention. A farmer, who was with Dallewal at the time, noted that the leader was only in his kurta, and was denied warm clothing despite the cold night. "This is nothing short of an attack on farmers' rights and their peaceful protests," said the farmer leader, adding that if Dallewal were to fall ill during the fast, another leader would take his place and continue the hunger

Patiala Range DIG Mandeep Singh Sidhu said that Dallewal had declared a fast unto death. "Due to his age and health, the administration is concerned. Usually, the crowd gathers during such declarations, hindering access to healthcare. Therefore, the Administration decided to conduct a medical examination and brought him to Ludhiana DMC," he added.

Farmer Leaders Respond

The Samyukta Kisan Morcha and Kisan Mazdoor Morcha have been at the forefront of the protests, demanding a legal guarantee of MSP for crops, which they claim is vital for ensuring the livelihood of farmers. The groups had previously announced plans to intensify their agitation, and Dallewal's planned hunger strike was seen as the next step in their ongoing

The political fallout from Dallewal's detention has been swift and intense. Union Minister Ravneet Singh Bittu distanced the Central Government from the incident, stating that the arrest was solely the responsibility of the AAP-led Punjab Government. The detention of Dallewal is orchestrated by the Bhagwant Mann-led Punjab Government," Bittu stated, emphasizing that no central agencies were involved. He criticized the Punjab Government for trying to shift the blame onto the central authorities and undermining the real issue of farmers' demands.

SAD leader and former Minister Bikram Singh Majithia also condemned Dallewal's detention, calling it an unconstitutional act. "Dallewal has been fighting for farmers' rights for years. His peaceful protest should have been respected, not suppressed," Majithia said, while criticizing the Government's use of police force to quell the farmers voices, calling it an affront to

The incident has further fueled tensions between the farmers and the government, with leaders calling for a nationwide response to this act of "injustice". The Haryana Governing L Committee, led by Chief Secretary Vivek Joshi on Tuesday approved the draft Detailed Project Report (DPR) for the Haryana Clean Air Project for Sustainable Development (HCAPSD). Funded by the World

Bank, this ambitious initiative aims to combat air pollution and promote sustainable development across Haryana. The project is set for implementation over six years (2024-25-2029-30), with Rs 3,600 crore allocated for its first phase. The project adopts a phased approach to address emissions across multiple sectors. In the first phase, Gurugram and Faridabad will be the primary focus areas, targeting institutional strengthening, agriculture, and household emissions. Priority clusters across the state will be identified to implement proposed interventions aimed at reducing pollution in agriculture and household sectors, said the Government

spokesperson. During the meeting, Joshi stressed the importance of inter-departmental coordination and timely execution to ensure the project's success. The Haryana Cléan Air Project for Sustainable Development is a significant step towards creating a sustainable future, improving air quality and setting a benchmark for other states to follow.

Speaking during the meet-

Environment, Forests and Wildlife Anand Mohan Saran, stated that detailed discussions were held with senior officials from each department during the preparation of the project report. A series of meetings were conducted to finalize interventions for the project, along with extensive field visits and stakeholder consultations to identify challenges in implementing the proposed

measures across sectors.

The first phase includes strategies to reduce emissions through a combination of policy measures, technological interventions, and capacitybuilding programmes. Joshi emphasized the importance of this initiative in addressing air pollution challenges in the NCR while balancing development and environmental conservation. Key interventions under the project cover several critical areas. To manage construction and demolition (C&D) waste, the state plans to streamline collection systems, process legacy waste and enhance capacity through training and Standard Operating Procedures (SOPs). Dust emissions will be mitigated through mechanized road sweeping, paving of unpaved roads, and increasing green cover. In the transport sector, the project will promote the electrification of public buses, incentivize the adoption of electric three-wheelers, and expand charging infrastruc-ture. Efforts will also focus on phasing out old, polluting vehicles through Automated Testing Stations (ATS), said the

The Haryana government is continually advancing democratic principles through its progressive social and economic policies, guided by the core values of the Constitution, Haryana Chief Minister Nayab Singh Saini said during the Constitution Day celebrations here on Tuesday.

Addressing a state-level celebration of the 75th anniversary of the adoption of the Constitution, Saini said the decision to abrogate Article 370 is a true tribute to BR Ambedkar, Sardar Vallabhbhai Patel and Syama Prasad Mookerjee.

Paying homage to Dr B R Ambedkar and others who played a key role in drafting and framing the country's Constitution, the chief minister said it was a proud day for every citizen. 'We the People' in the Preamble of the Constitution represents India's collective voice, a pledge of unity and integrity, and a manifestation of people's trust in the Republic, he said.

Haryana is also committed to realising Pandit Deendayal Upadhyaya's vision of "integral humanism" and "Antyodaya" while adhering to the prime minister's philosophy of 'Sabka Saath, Sabka Vikas, Sabka Prayas, and Sabka Vishwas', Saini said. Lauding Ambedkar's contribution in drafting the Constitution, Saini said: "While the Constitution gives us rights, it also emphasises the importance of duties. We must strike a balance between duties and rights." He said the Constitution has woven a nation of diverse cultures into a thread of unity. "India's ancient tradition of self-governance was realised through the adoption of the Constitution 75 years ago. It established a Republic founded on equality, justice, and high ideals while ensuring freedom of thought and equal opportunities for all,"

the chief minister said. The Constitution's Amrit Mahotsav provides an opportunity to reflect, understand, and

adopt its values in daily life, demonstrating true citizenship and reverence for Constitution," he added.

Govt plans to develop Ladwa as a model Assembly constituency: CM
In another event during

thanksgiving programmes in the villages of Mathana and Ladwa, Saini said that the State Government is working on a plan to develop the Ladwa constituency as a model constituency. Under this initiative, gradual development will take place across Ladwa, with each village and ward being developed in line with the people's suggestions. The state government will prioritize and address all collective demands of the citizens of the region, he added.

He announced a contribu-

tion of Rs. 21 lakh for the development of Mathana village and assured that the government would meet all the demands of both Mathana and Ladwa and expressed his gratitude to the people for their continued support, which has allowed him to serve as the Chief Minister for the second time and as a representative of the state government for a third term. Yet another flashpoint

All stakeholders must demonstrate utmost restraint to prevent any escalation of communal tensions in Sambhal

The town of Sambhal in Uttar Pradesh has become the epicentre of intense communal tension following a violent confrontation over a court-mandated survey of the historic Shahi Jama Masjid. The incident, which unfolded on Sunday, has claimed three lives, injured numerous others and raised pressing concerns about the fragile communal harmony in the region. The Shahi Jama Masjid, situated in Chandausi, Sambhal, is a centuries-old structure recognised as a 'Monument of National Importance' by the Archaeological Survey of India (ASI). Protected under the Ancient Monuments Preservation Act, 1904, the mosque became the subject of legal contention following a petition filed on November 19. The petitioners, a group of eight individuals including advocate Hari Shankar Jain and Mahant Rishiraj Giri, alleged that the mosque was built by demolishing a Shri Hari Har Temple in the 16th century under the orders of Mughal Emperor Babur. They claimed that the temple held immense religious significance for Hindus as the proph-

esied site of Lord Vishnu's Kalki avatar.

lives were lost, and several were injured, including police officers and administrative personnel. The violence has since been condemned across the political spectrum, though it has also sparked a heated debate over the motivations behind the survey and its handling. Samajwadi Party chief Akhilesh Yadav accused the ruling Bharatiya Janata Party (BJP) of instigating communal divisions. BJP spokespersons, however, defended the legal process. The situation in Sambhal remains tense, with heightened security measures in place to prevent further unrest. But are we seeing a pattern here? Some politically motivated individuals deliberately file petitions raking up controversy where none exists. Communal tension ensues and some people and party backs up the claim and polarisation is complete for politicians to exploit the situation. We have had enough of communal violence and surely this one can be avoided as 'The Place of Worship (Special Provisions) Act, 1991' is clear that all places of religion must be preserved as they were at the time of independence. The Shahi Jama Masjid row reflects the broader challenges of navigating historical grievances, communal sensitivities and legal mandates in a pluralistic society. The need for restraint and dialogue among all stakeholders is crucial to restoring peace and preventing further loss of innocent lives.

K P Sharma Oli walks a tightrope on China

Will Oli's stance on the BRI and his decision to prioritise China over India define his political legacy or deepen Nepal's internal divides?

n Kathmandu, I observed that Nepal Prime Minister KP Oli's visit to China has become a hot potato in the chilly Kathmandu valley. The China visit is being portrayed by his Unified Marxist Leninist Party (UML)-led coalition government as a bold initiative by Oli to resolve the long-pending BRI Implementation plan. The BRI Framework Agreement 2017 signed by Nepal figured during the maiden visit of President Xi Jinping in 2019 when Xi announced NC Rs 60 bn in grants under BRI. Since 2008, China has announced NC Rs 80 bn in grants. It seems the government could not use the aid for projects under BRI due to some

Several delegations from both countries have interacted over the BRI Implementation plan for a long but the plan has not been

Oli last visited China in 2016 after the Indian blockade and signed several agreements including energy trade but almost none has materialised. China is insisting that BRI projects that were truncated at Beijing's request from 35 to 9 be under loan whereas Nepal, especially Nepali Congress, the senior coalition partner, wants them under grant. There were fears Oli might sign in to please the Chinese which resulted in considerable squabbling between them. A high-level task force of the two parties has been meeting to arrive at a consensus. Opposition lawmakers wanted all the agreements signed so far to be made public and discussed in Parliament and with civil society. At a UML meeting, Oli recently announced he would not sign BRI for the sake of coalition unity.

Chinese envoy Chen Song who had been lobbying with lawmakers to sign the BRI plan has clarified that Chinese-built Pokhara airport would not be converted from loan to grant. Foreign Minister Arzu Rana is going to China on November 28 to prepare for Oli's visit with some plans on BRI.

The other troubling issue was the first where – China or India' visit of Oli. Traditionally barring two exceptions - Prime Ministers Tanka Prasad Acharya and founding father of Nepal,

Oli had said some pretty undiplomatic, even unkind things about **2016 AFTER** THE INDIAN India during his second term as PM after he had internation-**BLOCKADE** alised the Kalapani dispute and made it into a national issue. Prithvi Narayan Shah had described as a yam between two boulders. Geography and social and cultural factors have favoured India. The dethroned Maoist leader and four-time PM Prachanda, Oli's erstwhile short-term partner, accused him in an interview with an Indian journalist who had come for the Kantipur Conclave, of playing the China card. UML was incensed by the allegation, demanding an apology from Prachanda.

At the Kantipur Conclave, Prachanda informed the audience that he was happy he was no longer heading the government as he could atone for his party's mistakes and serve the people better. He clarified that with 32 seats, he had never sought power but others (NC and UML) had come to him to form the government.

He asserted he had made a

direct assault on corruption the no 1 bane of Nepal - and put many corrupt leaders including members of his party, and those who had supported his government in jail. This included the newsmaker and former Home Minister, Rabi Lamichhane from the Rashtriya Swatantra Party who is at present in jail, being investigated for fraud. In Kathmandu, I discovered that Lamichhane has created a problem for the government

protests by his supporters. They took him to the Terai towns but not to his citadel in Chitwan and brought him back to Pokhara as they were unable to present him before a Kathmandu court to avoid creating law and order issues. Every other day there are massive traffic jams in Kathmandu over some issue or the other. Oli was cool about Rabi, saying at the Kantipur Conclave that he had 'once given Rabi a job (in Nepal Television)' but did not know much about his case. The parliamentary probe that was ordered on him as demanded by the Nepali Congress was at the behest of PM Prachanda and Rabi himself who was the Home Minister in the coalition government. He added: "let law take its course". Oli's China conundrum was grabbing headlines. By declaring he won't sign the BRI Implementation plan on Chinese terms for coalition unity he has taken the fizz out of the champagne that was to

Prasar Bharati unveils WAVES app amid criticism and challenges

Prasar Bharati launched its much-anticipated app, WAVES touted as a strategic leap for India's national broadcaster

In a vibrant ceremony during the 55th International Film Festival of India (IFFI) in Goa, Prasar Bharati unveiled its long-awaited app, WAVES. Marking a strategic step forward for India's national broadcaster, the launch was graced by Goa Chief Minister Pramod Sawant.

However, the event's significance was overshadowed by the absence of central ministers, drawing criticism that this oversight represented a missed public relations opportunity.

A Shift from OTT to App: A Branding Challenge

Originally envisioned as an OTT platform, WAVES has undergone a rebranding as an app. This shift has sparked speculation that the change may be linked to limited new content. Critics have argued that the current branding does little to leverage Doordarshan's rich legacy, potentially alienating audiences, particularly in rural areas where Doordarshan's identity is

deeply entrenched. Many users remain unclear about the relationship cials in key roles.

between Prasar Bharati and

Doordarshan, adding to the confusion about accessing

Delays and Controversies The WAVES launch comes after multiple postponements, with its original debut planned for August 15. These delays have raised questions about Prasar Bharati's preparedness to compete in the fast-paced digital media environment. Observers have highlighted internal issues, including allegations of favouritism mismanagement. Notably, the consultancy hired to guide WAVES has faced criticism for lacking expertise in the OTT domain and allegedly sidelining experienced offiAdding to these challenges are unresolved trademark issues surrounding the "WAVES," which could further complicate the app's rollout. Private broadcasters, wary of potential regulatory challenges, have shown reluctance to collaborate with the platform, dampening its industry reception.

Content and Vision Despite the hurdles, WAVES aims to differentiate itself in the competitive Indian media landscape. Offering over 65 live channels and content in 12+ languages, the app seeks to combine nostalgia with

fresh appeal. Iconic Doordarshan programmes like 'Ramayan' and 'Mahabharat' are set to feature alongside new productions such as 'Fauji 2.0.' WAVES also plans to support emerging talent by showcasing student films and works by National

Creator Awardees. Operating on a revenuesharing model, WAVES aspires to empower creators while ensuring the protection of intellectual property. However, standing out against global giants like Netflix and Amazon Prime Video, known for their vast libraries and advanced technology, pre-sents a formidable challenge.

The Road Ahead

The launch of WAVES is a critical juncture for Prasar Bharati, offering a chance to redefine public broadcasting in the digital era. However, success will hinge on resolving internal discord, addressing operational concerns, and crafting a user experience that resonates with audiences. While the launch at IFFI has created a momentary buzz, sustaining momentum will require robust strategies, consistent content quality, and a clear brand identity.

As WAVES ventures into the competitive digital media space, its journey will be closely watched. For Prasar Bharati, the app represents both a bold opportunity and a test of its capacity to adapt and thrive in an evolving media ecosystem.

"Team India rises like a phoenix at Perth" (November 26). Kudos to Team India! After the drubbing from the Kiwis in our own backyard 0-3, India dominated the first Test in Perth, crushing Australia by a massive 295 runs. Chasing a daunting 534, Australia crumbled for 238. This historic win marks India's largest victory by runs in Australia, surpassing their 222-run win in Melbourne in 1977. What is more redeeming is the way the Indian team played the 2nd innings. Not many teams have come back after being 150 all out on the first day, but this Indian team has time and again shown that it is built differently. Bumrah, leading in only his second Test, was left with a lot to do and fewer options to work with.

While Yashasvi Jaiswal, Virat Kohli and KL Rahul will be among the heroes with their solid second innings batting performances, it was the stand-in skipper Jaspreet Bumrah's unbelievable skill set and selfbelief during Australia's first innings rout that formed the cornerstone of India's win. Hope, after this Test, players should be retained based on their current performance, not on past achievements. The selection process should send a clear message that no player is above the team's performance standards. If a replacement player has excelled, they should be given priority and retained for their contributions. Senior players, regardless of their past glory, must earn their place back through demonstrated performance. This ensures that performance, consistency, and fairness drive the selection process, keeping the

HOUSE ADJOURNED OVER ADANI Madam— On the first day of the winter session, i.e., Monday, the House was adjourned due to the demand for a discussion on Adani. Now it does not seem that much work or meaningful discussion will be done in this session. Because of the kind

SC rejects plea challenging Preamble

n a landmark ruling, the Supreme Court has dismissed a batch of petitions challenging the inclusion of the terms 'Socialist and Secular' in the Preamble to the Constitution as per the 42nd Amendment passed in 1976. The Preamble declares India a Sovereign, Socialist, Secular and Democratic republic. The objectives of the Preamble are to secure justice, liberty and equality for all citizens and promote fraternity to main-

Gautam Adani and his entire team in America, it is obvious that the Opposition of the country will raise its voice on it. Now our Prime Minister wants to defeat every solid allegation through his electoral victory (Maharashtra). That is why when the House was not functioning on Monday, he told the Opposition that "those who have been rejected by the people are indulging

in hooliganism in the House." Is this really so? Obviously, the people who are sitting in the Opposition are sitting there because they are in the minority. Does minority mean that they should not even talk about such a big stain on the country's reputation? Why does this government repeatedly stand in favour of Adani? Charge sheets have been filed in a New York court against Adani Group chairman Gautam Adani, his nephew Sagar Adani and six others. It is impossible to file a charge sheet there without proof. The US Securities and Exchange Commission has alleged that Gautam Adani and his associates paid a bribe of more than \$250 million, i.e., about two thousand crore rupees, of allegations that have been made against for their renewable energy company in

tain the unity and integrity of the nation. The Preamble is considered the soul and spirit of the Constitution. It still plays an important role when there is ambiguity in Articles' provisions or when an interpretation of the Constitution becomes confusing

The Preamble, which highlights guiding principles and some fundamental values of the bases of which the Indian Constitution was written, will become invalid and insignificant when important terms 'Sovereign, Socialist, Secular' are removed from the Preamble. Knowing the importance of the Preamble, in 1973, in the Kesavananda Bharati case, a 13-judge bench of the Supreme Court declared that the Preamble would be considered as part of the Constitution. In the 1995 Union Government vs LIC of India case, the Supreme Court once again held that Preamble is an integral part of the Constitution. P Victor Selvaraj | Tirunelveli

SAMBHAL MOSQUE DISPUTE

Madam — The horrific incident that occurred in Sambhal highlights the authorities' alarming reaction, where, without conducting a proper hearing or trial, they initiated a survey within just two hours. The incident has spread a curtain of fear

and horror across the country. The assertion of replacing a mosque with a temple is intensifying over time, threatening the diversity and unity of our nation. Mohan Bhagwat's statement should be taken into account: it is not right to dig beneath every mosque in search of a Shivling and claim it as a temple. Such actions are detrimental to the harmony of society. Early recognition can help us to take immediate measures to limit any dam-

FIRST COLUMN LESSONS IN HUMILITY AND FAITH

Are we ready to confront the truth of our smallness in the grand scheme of existence?

AJIT KUMAR BISHNOI

ave we realised that we are intrinsically small souls? That we only play small roles, yes, of different levels, but always small. I will cite many examples to substantiate this fact in this article. The only big is God, who is omnipresent, omnipotent and omniscient. He controls everything. We shouldn't be surprised by the reality of us being small. What did we expect? There are billions of us and all interdependent.

We cannot exist without the support of others right from our birth. Ravana was puffed up because he thought that he was big, having defeated important entities. But he was made to bite the dust and he accepted that his highly bloated ego was his undoing. Hitler thought that he was big and was going to control the world. What happened? He committed suicide having realised his smallness. Nixon was President of the USA – a large and prosperous nation. He was forced to resign, because of his underhanded activities. Napoleon was similarly humiliated when he was banished from his country to live in Elba - an Italian island, away from his dear coun-

Smallness is only one of our handicaps; ignorance is another. Despite the vast knowledge Ravana possessed, he was ignorant like most of us; he ignored the reality of God. Only the most fortunate like

Sant Tulsidas transcend the barrier of ignorance. What will you call Kansa? He kept on trying to kill the child Krishna without realising that the Lord cannot be killed. Ultimately, Lord Krishna had to kill him. Duryodhana saw so much of Lord Krishna, but somehow it didn't sink in that the Lord was different; He was God. He saw how the Lord protected Draupadi from being disrobed; how Arjuna was protected by bringing back sunlight; and many such instances. His ignorance was quite deep-seated. What will you call persons, who outwardly pretend to be servants of God, but molest unsuspect-

Their depth of darkness, which engulfs their consciousness does not let them see that punishment is coming. Only after they are hit with severe punishments they realise that they are quite helpless really. Draupadi realised it and cried for the Lord's help, which the merciful Lord provided. Arjuna knew in his heart that he was enjoying the protection of the Lord. That is how he was able to triumph over very powerful adversaries. In the modern era, famous film stars have committed suicide.

We become very impressed by the fame they enjoy but little do we realise that they are just as helpless as we are. Wealthy people are no better when they are hit with mental trauma as a result of extraordinarily stressful events, which shatter their sense of security, making them feel insecure in this dangerous world we live in. Yes, this world is a place of misery (The Bhagavad-Geeta 8.15), as long as one does not take shelter from God. Both external and internal dangers exist. Demonic forces are out there to harm us in order to gain some pecuniary advantage like by stealing from us.

Then, one does not know what is in store due to our past sinful acts. The smart thing is to come under the protection of God. So, what do I do? Having done my duty, I try to leave it to my Lord. Believe me, He takes care of me better than I could have imagined. It sounds like a fairy tale, but I am one of millions, who are benefiting in the present and have benefited thus in the past

Realigning India's economic strategy

Achieving the ambitious goal of becoming a developed nation by 2047 demands a decisive overhaul of current economic policies

he world is undergoing rapid political changes. With these geopolitical changes underway, it becomes imperative to relook at the current strategy for economic development to meet the declared target of achieving a developed nation status by 2047. It becomes necessary to realign and readjust the policy points with the changing circumstances. Countries become rich by producing and selling globally valuable and value-added products. India's share in global trade has to grow rapidly from the present measly 1.8 per cent in goods exports and 2.8 per cent in goods imports. In the service sector too, India needs to enhance its share of delivered services upwards from the present 6 per cent. How will this happen? We need to take quantum measures and hard steps without caring for internal political expediency. Global political scenario may affect the choice of strategic steps but it can have, at best, limited effect if we as a nation are determined, focused and forthright. Nothing can come in the way if we act

united and our government performs its actions without fear or favour. The government's backtracking on the Agriculture and Farm Bills of 2019 was an unfortunate incident. Such incidents should not recur. The government buckled under the fake protests by agro market middlemen masquerading as farmers who created a false show of protests to put spokes in the wheel of the Bills and sabotage them. The government, under fear of bourgeoning vandalism by antinational elements to prevent the promulgation of Bills, backed by foreign enemy countries capitulated and rolled back the Bills. This should not have happened. The country paid a heavy price for this as agriculture is still the mainstay of India's economy. If only those important Bills had been passed, we would have witnessed an economic growth rate increase of at least 2 per cent over the existing. Let our government bring back those Bills at the earliest appropriate time to provide a vital booster to our economy. The other important area

that needs the urgent attention of the government is the MSME sector which continues to lie stagnant. This sector is the prime driver of employment growth and needs steps to facilitate the establishment of new units and expansion of the existing ones. These steps are bureaucratic reforms to cut red tape and reduce unnecessary regulatory compliances that engender corruption and impede growth. To boost Indigenous manufacturing and increase the share of manufacturing in the national GDP from 16 per cent (almost stagnant since 2015) to upwards of 20 per cent, rebooting the entire Make in India program is needed.
The blueprint of this otherwise visionary plan was, alas, not implemented seriously.

Too much dependence on foreign capital and FDI was never forth-coming and efforts should have been made to utilise domestic capital. The central sector and state sector Public Sector Undertakings (PSUs) should have taken the initiative in enhancing domestic manufacturing. Also, Make in India should have emphasised Make by India. Bureaucratic reforms, an increase in domestic manufacturing especially by PSUs by increasing import tariffs and further increasing fiscal concessions are some of the steps needed. Good work has been done in the area of defence and space in this context by encouraging and promoting startups.

sectors of the economy. Valueadded manufacturing in agriculture, food, healthcare and education will go a long way in boosting indigenous manufacturing and even exports. It is quite a pity that in spite of the wonderful success of the BJP government in the cleanup of the Banks, its benefit has not percolated to domestic manufacturing. Why out of the

This should be extended to other

2014, only about 20 have seen the light of the day and that too partially? The establishment of special economic zones and specialised product production zones was blueprinted but its implementation has also got stuck in the legislative and bureaucratic quagmires. Bureaucratic reforms, I reiterate, are an emergent necessity. Large imports from China over the last ten years have indeed prevented the growth of MSMEs in the country. Many pre-existing factories faced closure and many manufacturers turned traders. India's exports to China in 2023-24 were USD 16.65 billion, while imports stood at USD 101.75 billion, leaving a trade deficit of more than USD 85 billion. Efforts were made by the ruling NDA government to contain Chinese imports. But most of the curtailment took place in lower-end consumer goods and less dent could be made in import of industrial goods. Irrespective of oncy, if our country men had decided to boycott Chinese goods that can be produced in India, we would have made a huge dent in Chinese imports and facilitated the growth of the domestic manufacturing industry. But this did not happen. The land acquisition Amendment Bill was presented in Parliament on 10 March 2015 but could not be passed due to opposition by non-BJP lawmakers in the Rajya Sabha where the ruling NDA lacked a clear majority in numbers. The opposition party MPs called the proposed amendments antifarmer and anti-poor. The pro-posed amendments sought to remove requirements for approval from farmers to proceed with land acquisition under five broad categories of projects. Its passage continues to hang fire. It is the foundational base of the Make in India program. When will it be

100 smart cities conceived in

passed? Political expediency has been truly the bane of our country and the main impediment to our fast-track economic progress. In the above context, it would be appropriate to mention that strongly nationalistic citizens can collectively create conditions conducive to the growth of the domestic industry. The economic resurgence of Germany and Japan post World War 2 are case in point. Though the USA lent economic support to these countries, their citizens were patriotically driven to establish their domestic manufac-turing base and the countries developed into major industrial and economic powers in a period of barely two decades following their defeat and total devastation in 1945, the end year of the war. Both these countries lay stress on manufacturing, innovation and technology development. Their emphasis was on production and value-added exports. A similar strategy is needed. India has been tne world's major economic power for millennia and in keeping with its inherent potential; it is capable of a long-term economic growth rate of 12 per cent.

For this to happen, the aforesaid steps brook no delay. In the destiny of nations, there are some phases when it becomes necessary to take bold steps in line with progressive principles of economic development rather than get bogged down by over-strategising and political expediency. Our revered political and economic scholar Chanakya had stated that Dharma (righteousness) should take precedence over everything else in governance and even strategy should be aligned with universal divine Dharma. We need to proceed further in our economic ourney accordingly.

Reaping our demographic dividend: Can skilling be the secret sauce?

With coordinated action, innovative strategies and a commitment to scalable skill development, India can emerge as a global economic and workforce leader

ith a staggering 1.44 billion people 68 per cent of them between the ages of 15 and 64, India stands to gain from an immense, globally unmatched, demographic dividend that presents an unprecedented opportunity for economic growth amidst global challenges of declining birth rates and labour shortages. The vast labour force positions India to realise the government's vision of becoming the world's third-largest economy and the skills capital of the

This, coupled with the global shift towards diversifying talent supply chains - particularly to countries like India - can significantly enhance our geopolitical standing. East Asia offers compelling evidence of

reaping the demographic dividend. UNFPA reported that Korea saw its per-capita gross domestic product grow about 2,200 per cent between 1950 and 2008, and Thailand's GDP grew 970 per cent.

The pressing question now is whether India can fully capitalise on this demographic dividend, and can the skills ecosystem be the key to unlocking this potential. The To leverage India's demograph-

Challenge Effectively leveraging the demographic dividend requires addressing several critical challenges. The primary challenge is the need to create sufficient job opportunities to absorb the increasing number of young people entering the workforce.

Another key challenge is to bridge the 'skills gap' - the discrepancy between the skills that job seekers possess and the skills that employers require, thereby creating opportunities for meaningful employment. This must be achieved on a large scale as the country is already home to 103 million youth categorised as NEET (not in education, employment or training) and millions of youth enter working age annually. Crafting Scalable Solutions ic dividend effectively, scalable solutions for skill development are imperative. This involves creating an ecosystem support large-scale skill enhancement initiatives. Firstly, systemic change cannot occur in isolation; there-

fore, it is vital for government bodies and private companies to collaborate and pool resources, expertise and fund-

Therefore, fostering public-private partnerships (PPPs) is essential for expanding skill development initiatives. It is important to align training programs with market demands, focus on outcomebased skilling, leverage technology and design effective, replicable, and adaptable programs. This collaboration can significantly contribute to cre-

ating a more resilient and practical skill development ecosystem.

Several initiatives in the realm of skill development highlight the transformative impact of targeted training and strategic partnerships. One such initiative is Project AMBER, a unique public-private partnership (PPP) where each stakeholder-government,

vate sector (philanthropy) contributes to the model. This initiative aims to enhance overall employment and retention outcomes by prioritising the quality of training, mentoring, and retention. Such initiatives not only help achieve success at an individual level but also lay the groundwork for broader systemic changes that can redefine the impact of the skilling ecosystem.

Secondly, aligning skilling programs with market demand is crucial. Collaborating with businesses provides valuable input on course content which ensures that learners are trained on skill sets that are relevant for the industry. Employer feedback mechanisms enable continuous adjustments to training proindustry requirements. This approach addresses the skills gap by equipping learners with relevant skills, helping them adapt effectively to the workplace. Ultimately, this strategy offers a solution to talent scarcity and unemployment by bridging the gap between workforce skills and market demands.

To ensure training programmes remain dynamic, it's important to integrate datadriven insights to evaluate the progress of the trainees. Thirdly, focusing on outcome-based skilling is essential as it prioritises employment and retention rather than just training. Outcome-based skilling is an approach to training that focuses on achieving specific, measurable outcomes rather training partners, and the prigrams, which are in sync with than merely completing a set

curriculum or an instructional programme.

Finally, with the right use of technology, we can design skill development programmes that are both effective and scalable and create significant impact. Technology can greatly expand the reach and accessibility of these programmes through online learning platforms, virtual classrooms, and mobile-friendly resources, even in remote areas. At the same time, standardised models like 'train-the-trainer' programmes ensure that rapid expansion does not come at the cost of quality, maintaining consistency across differ-

Sri Lanka to present interim budget on Dec 5

The interim budget of the new government will be presented on December 5 while the full budget for 2025 would be presented on February 17, the government announced on

Tuesday.
"There would be a submission of an interim budget to the Parliament for the continuation of government functions and debt servicing from January to April 2025," government spokesman and Minister Nalinda Jayathissa told

The interim budget would be presented on December 5 and would seek parliament's approval on December 6, he said referring to a cabinet decision on Monday.

He also announced that the full budget for 2025 would be presented in parliament on February 17 next year.

Earlier last week, the new parliament of Sri Lanka – the 10th parliament since 1978 was convened on Thursday for the first session after the ruling National People's Power's (NPP) landslide electoral victory. Soon after his presidential victory in September, President Anura Kumara Dissanayake had announced parliamentary polls. The ruling NPP created history in the November 14 election by winning 159 seats

in the 225-member assembly. Meanwhile, Sri Lankan

President Anura Kumara Dissanayake plans to visit China following his proposed official trip to India, Cabinet spokesman Nalinda Jayathissa

said on Tuesday.

Jayathissa said an official invitation has been handed to Dissanayake by the Chinese Ambassador in Colombo.

Dissanavake's first overseas visit will take place in the third week of December to India, a Cabinet spokesman said, adding that no dates have been fixed.

On November 18, Foreign Minister Vijitha Herath said that Dissanavake will visit India at the invitation of the Indian government in mid-December.

External Affairs Minister S

Jaishankar who became the first foreign dignitary to call on Dissanayake when he was elected President in September had extended the invitation.

Jaishankar visited Sri Lanka in October since the National People's Power (NPP) government led by Dissanavake came to power on September 23.

On Monday, a top Chinese delegation led by Sun Haiyan, the Vice Minister of the International Department of the Central Committee, met Dissanavake in Colombo.

The Chinese delegation reaffirmed China's willingness to assist Sri Lanka and Dissanayake expressed his gratitude to China for steadfastly assisting Sri Lanka.

Rutte, a former Dutch prime minister who took over as NATO chief last month, met Greek Prime Minister Kyriakos Mitsotakis in Athens and thanked him for Greek support for Ukraine that includes weapons and ammunition, as well as training for F-16 pilots and technicians. "Our support for Ukraine has kept them in the fight, but we need to go further to change the trajectory of the conflict," Rutte said.

powerful rebel group has Aseized a key trading town in northeastern Myanmar on the Chinese border, taking control of a lucrative rare earth mining hub in another setback for the military-led government, according to witnesses.

The apparent loss of Kanpaiti to the Kachin Independence Army leaves Myanmar's military in control of only one town with a border crossing, Muse, and deprives it of potential profits from the mines that provide China with rare earth minerals critical for electric motors and wind turbines, as well as hightech weapons and a broad range of electronics

Neither Col Naw Bu, the KIA's spokesperson, nor Thet Swe, spokesperson for the military, responded to multiple requests for comment, but several local media outlets reported that Kanpaiti fell last week. The ongoing civil war and military restrictions make travel for journalists

Video clips circulating on social media, which could not be independently verified, showed what was said to be a KIA member raising the group's flag at the tunnel through the mountain to China. Other clips showed a vast quantity of weapons allegedly captured by the KIA.

The military seized power from the elected government of Aung San Suu Kyi in February 2021, triggering intensified fighting with long-established armed militias organised by Myanmar's ethnic minority groups in its border regions which have struggled for decades for more autonomy. The once-mighty armed forces, known as the Tatmadaw, have suffered a series of unprecedented defeats over the past year, especially in areas to the east near the Chinese border and in the western state of Rakhine, after an alliance of three powerful militias

Since then, other militias organised along ethnic lines have joined in, including the KIA in the northern state of Kachin.

In Kachin's so-called Special Region 1, where Kanpaiti is located, the KIA since late September has been increasing assaults on a rival ethnic militia, the New Democratic Army-Kachin, which is allied with the government military and had provided border guard forces.

The NDA-K also controlled the web of small, unlicensed operations where heavy rare earth elements are mined, then sold directly to China's big stateowned mining conglomerates or through intermediaries.

There are more than 300 unregulated mines in the area, producing most of the USD 1.4 billion in rare earths for sale to China last year "at a terrible cost to the environment and local communities, according to a report issued by London-based environmental group Global Witness in May. First generation entrepreneur and Essar group co-founder Shashi Ruia dies

Shashikant Ruia, a first-generation entrepreneur who turned a small construction business into an infrastructure conglomerate, died after a prolonged illness. He was 80.

Shashi Ruia, as he was fondly called, co-founded the metals-to-technology conglom-erate Essar with his brother

Ruia, who would have turned 81 next month, died in Mumbai around midnight. He had returned from the US, where he was undergoing treatment, about a month

"It is with profound grief that we inform of the passing of

Patriarch of the Ruia and Essar Family," the Ruia family said in a statement.

He is survived by his wife Manju and two sons Prashant and Anshuman.

Starting his career in 1965 under the guidance of his father Nand Kishore Ruia, Shashi and his brother Ravi laid the foundation of Essar in 1969 when they bagged a Rs 2.5 crore order from the Madras Port Trust for the construction of an outer breakwater in the port.

In the early years, Essar focused on construction and engineering projects and built a number of bridges, dams and power plants. In the 1980s, Essar diversified into

acquisition of oil and gas

A decade later, it became a significant player in steel and telecommunications, setting up a large steel plant in Gujarat, and rising to become India's second-largest telecom operator in a joint venture with Hutchison. It also went on to build an oil refinerv in Gujarat despite funds being stopped because of business rivals.

Later, it exited the telecom business, sold the oil refinery to a consortium led by Russia's Rosneft and had to let go of steel plants to ArcelorMittal when insolvency proceedings were initiated to recover unpaid loans.

Today, Essar Global Fund structure, energy, metals and Ltd, which oversees the businesses co-founded by the Ruia brothers, manages assets across sectors such as infra-

The Delhi High Court has stayed clean energy agency SECI's decision to bar Anil Ambani group firm Reliance Power Ltd from participating in auctions for three years, the company said on Tuesday.

PSU banks to launch new products in 3-4 months to ramp up credit growth: Banking Secy

enhancing, and we want to push as much credit as possible because we have a huge number of young people," he said while addressing the Financial Inclusion and Fintech Summit organised by CII here. Public sector banks are going to launch new products in the next 3-4 months to push credit for all sectors, including MSME, he said.

Over the last few years, the government has already taken multiple steps to improve credit availability to small borrowers, including announcing a new credit model in the Budget to lend to borrowers with no previous financial records.

Though the banking sector is robust, Nagaraju said rising digital frauds are posing a risk to financial sector stability, and banks should focus on

addressing this challenge. Both digital innovations and financial literacy will help mitigate this, he added.

Speaking on the sidelines, Nagaraju also said the Banking Amendment Bill tabled in Parliament during the monsoon session will likely be moved in the ongoing winter session. The amendments are aimed at bringing changes to banking regulations, including redefining substantial interest for directors, increasing the number of nominees for bank deposits and changing compliance reporting dates. Speaking on Fintech, he said

While bigger banks have benefited from greater digitisation, cooperative banks and regional rural banks may not have reaped the benefits of digitisation to a similar extent, Shaji added.

Given that these banks may not have sufficient funds to invest in new technologies, it is important that all stakeholders make a greater effort to include RRBs and cooperative banks in new digital endeavours, he

Gen Zs (people born between the mid-to-late 1990s and early 2010s) adopt a more deliberate approach, seeking clarity and purpose in their careers, unlike those from previous generations for whom financial stability was the primary concern, said a report by jobs and professional networking platform apna.Co.

The report is based on a survey carried out among 10,000 Gen Z professionals during October and November to explore their professional

preferences and workplace expectations.

Positive work environment emerged as a critical factor for 74 per cent of respondents, indicating the importance of inclusivity, respect and active engagement, it said.

While people of earlier generations often overlooked mentorship and structured learning, Gen Zs demand continuous feedback, collaboration, and recognition.

Gen Zs reject working in isolation or receiving occasional acknowledgement. Instead, they value workplaces that align personal and professional growth, it stated.

TN GOVERNOR ADDRESSES NATIONAL SYMPOSIUM

Chennai: The Honourable Governor of Tamil Nadu Mr. R.N. Ravi on Tuesday appealed to youth, especially students of law, to take Constitution outside the confines of institutions and to the masses across India "Constitution is the crystallisation of dreams of millions of people – freedom fighters, martyrs who laid down their lives to realise the aspirations of India, and it needs to be celebrated," Mr. Ravi said, while speaking at the Symposium on National Law Day organised by Saveetha School of Law. The Constitution reflects the ideals and dreams to ensure that every citizen got social, economic, and political justice, with a right to dignified life. The Constitution, he said, also gave the direction to achieve goals of founding fathers of this great nation. Now that it has been 76 years since independence, it was now time to take a pause and recall if the ideals of social justice was taken all across the country. Pointing out even in a progressive State like Tamil Nadu, where there were incidents of human waste being discharged into a drinking water tank, and untouchability, the Governor said that social justice could not be ensured through implementation of law alone, and that it had come from within every individual, and youth had to be at the forefront of this great cause. He said that India, which was among the wealthiest nations, had also at the same time suffered a lot due to centuries of colonisation and foreign

Moody's cuts outlook on Adani firms to negative; Fitch puts some Adani bonds on negative watch

PTI ■ NEW DELHI

 $R^{\text{atings agency Moody's said}} \\ \text{Con Tuesday that it has cut}$ the outlook on the ratings of seven Adani entities to 'negative' from 'stable', citing the US indictment of Chairman Gautam Adani and others on alleged bribery charges, while Fitch Ratings put some bonds of the conglomerate on negative watch.

Moody's affirmed the ratings on all seven entities -- Adani Ports and Special Economic Zone Ltd, two limited restricted groups of Adani Green Energy Ltd, Adani Energy Transmission Step-One Ltd, Transportation Adani Restricted group 1 (AESL RG1), Adani Electricity Mumbai Ltd and Adani

International Container Terminal Pvt Ltd. "These rating actions follow the indictment of Adani Green

Energy Ltd's (AGEL) chairman Gautam Adani and several senior management team members by the US Attorney's Office in a criminal case and the filing of charges by the US Securities and Exchange Commission (SEC) in a civil case," Moody's said. The charges and allegations

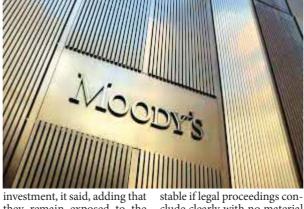

include bribery of Indian government officials, securities and wire fraud; conspiracy to violate the US Foreign Corrupt Practices Act and obstruct justice; false statements made in annual reports, and false statements made to the US government in relation to its investigation into the group.
"The change in the outlook on

the seven Adani entities to negative considers the indictment of Adani and other senior Adani executives on bribery and other charges, which will likely weaken Adani Group's access to funding and increase its capital costs," it said. The rating action, Moody's

said, recognises the possibility of broader weaknesses in the governance structure across the rated Adani group entities as well as potential operational disruptions, including on their capital spending plans, while legal proceedings are going.

'Although the allegations and the charges made by US Attorney's Office and SEC pertain to AGEL's chairman and senior management team members, we believe they could have a broader credit impact on all rated Adani Group issuers, given Gautam Adani's prominent role as chairman of each of the rated entities or their parent companies as well as the controlling shareholder," it said.

The project finance entities of the group are not exposed to refinancing risk and do not require any substantial capital

they remain exposed to the potential governance weakness and the risks that could arise from any negative findings in the ongoing legal proceedings. Stating that an upgrade of the ratings is unlikely in the near term, given the negative outlook on all seven issuers, Moody's said it could

change the rating outlooks to

clude clearly with no material negative credit impact.

"A stable outlook will also be predicated on the group maintaining appropriate financial metrics for the respective ratings, demonstrating its retained access to funding to meet growth initiatives and refinancing requirements, and strengthening its governance

practices across the group entities," it added. "We could downgrade the ratings of the group entities if the legal proceedings lead to a material disruption to their operations or access to capital. A downgrade is also likely if the group is unable to address or rectify governance issues associated with the ongoing legal proceedings". Separately, Fitch placed ratings

on Adani Energy and Adani Electricity Mumbai on negative watch list following the bribery charges and indictment of certain board members of Adani Green Energy Limited (AGEL) by the US Securities and Exchange Commission and Department of Justice.

This, it said, "reflects increased corporate governance risk and potential contagion risk that could affect the funding access and liquidity.

"While the US indictment

significantly weaker corporate governance practices of the group and lead to negative rating actions. Two of the indicted board members belong to the founding shareholders of Adani group, and one of them is a trustee and beneficiary in the SB Adani Family Trust, which effectively owns a majority of shares in both AESL and AEML," it said. Fitch said it will monitor the

Increased reliance on onshore funding could heighten refinancing risk over the medium term, and a material rise in borrowing costs could reduce operating cash flow generation," it said. "The impact of a material dete-

rioration in the group's funding access is likely to be limited for AEML, as regulations allow for pass-through of operating and interest costs, limiting the impact on the credit profile even in the event of rising borrowing costs, it said."

The United States is headed to Europe for a match against England at Wembley Stadium on Saturday and on Dec. 3 against Netherlands in The Hague.

In addition to her save at the Olympics, Naeher has had many other memorable moments. In the 2019 Women's World Cup Women's World semifinals against England, stopped Steph Houghton's penalty kick in the 83rd minute. The Americans won 2-1 before downing the Netherlands 2-0

West Ham surprise Newcastle with 2-0 away win at St James' Park

Newcastle's winning run in the English Premier League came to an abrupt end when goals from Thomas Soucek and Aaron Wan-Bissaka gave West Ham a surprise 2-0 win at St. James'

The Hammers rose into 14th place and the pressure on coach Julen Lopetegui was eased. The London club has been inconsistent all season and fourth in 12 league games.

West Ham was worth it in the end but the three points came courtesy of slack defending by the home side. Emerson whipped in an out-swinging corner after 10 minutes and with Newcastle defenders rooted to the spot, Soucek stole in to nod home the opener.

Then eight minutes into the second half, captain Jarrod Bowen found Wan-Bissaka in the penalty box and he was left unchallenged and had time to fire an angled drive past Nick Pope. "The second goal... If you settle on a lead it can come back to haunt you," Bowen said. Newcastle brought on Harvey Barnes, and then Callum Wilson returned from a longterm back injury to make his

first appearance of the season, but to no avail.

"I said we needed a performance and we did that," Bowen said. "Newcastle always score at home so to keep them to a clean sheet and score twice... It's a tough place to come to. We did that perfectly."

The defeat ended a three-game winning streak for Newcastle and left the Saudi Arabiaowned club in ninth place, four points outside the top four.

F1 expands grid to add General Motors' Cadillac brand, new American team for 2026 season **AP** ■ LAS VEGAS Michael Andretti posted on

 $F_{\text{expand its grid in 2026 to}}^{\text{ormula 1 at last said it will}}$ make room for an American team that is partnered with General Motors.

"As the pinnacle of motorsports, F1 demands boundary-pushing innovation and excellence. It's an honor for General Motors and Cadillac to join the world's premier racing series, and we're committed to competing with passion and integrity to elevate the sport for race fans around the world," GM President Mark Reuss said. "This is a global stage for us to demonstrate GM's engineering expertise and technology leadership at an entirely new level."

The approval ends years of wrangling that launched a U.S. Justice investigation into why Liberty Media, the commercial rights

holder of F1, would not approve the team initially started by Michael Andretti. in Andretti September stepped aside from leading his namesake organization, so the 11th team will be called Cadillac F1 and be run by new Andretti Global majority owners Dan Towriss and Mark Walter. The team will use Ferrari engines its first two years until GM has a Cadillac engine built for competition in time for the 2028 season.

Towriss is the the CEO and president of Group 1001 and entered motorsports via Andretti's IndyCar team when he signed on financial savings platform Gainbridge as a sponsor. Towriss is now a major part of the motorsports scene with ownership stakes in both Spire Motorsports' NASCAR team and Wayne

Taylor Racing's sports car Walter is the chief executive

of financial services firm Guggenheim Partners and the controlling owner of both the World Series champion Los Angeles Dodgers and Premier League club Čhelsea. "We're excited to partner with General Motors in bringing a dynamic presence to Formula

1," Towriss said. "Together, we're assembling a worldclass team that will embody American innovation and deliver unforgettable moments to race fans around the world."

Mario Andretti, the 1978 F1 world champion, will have an ambassador role with Cadillac F1. But his son, Michael, will have no official position with the organisation now that he has scaled back his involvement with Andretti

Global. 'The Cadillac F1 Team is made up of a strong group of people that have worked tirelessly to build an American works team,"

social media. "I'm very proud of the hard work they have put in and congratulate all involved on this momentous next step. I will be cheering for you!

The approval has been in works for weeks but was held until after last weekend's Las Vegas Grand Prix to not overshadow the showcase event of the Liberty Media portfolio. Max Verstappen won his fourth consecutive championship in Saturday night's race, the third and final stop in the United States for the top motorsports series in the world.

Grid expansion in F1 is both infrequent and often unsuccessful. Four teams were granted entries in 2010 that should have pushed the grid to 13 teams and 26 cars for the first time since 1995. One team never made it to the grid and the other three had vanished by 2017.
