PAPER WITH PASSION

Deliver tangible results

With 2024 set to be the hottest year on record, the stakes for COP29 are higher than ever

The 29th annual UN climate summit, COP29, has officially begun in Baku, Azerbaijan. This year's conference brings together diplomats, climate experts, activists, and political leaders from nearly 200 countries to address critical issues in the fight against climate change. However, the event is already facing challenges, both from the host country's fossil-fuel-centered economy and the re-election of Donald Trump as US President, which could impact future climate commitments from one of the world's largest emitters. COP29 is being held in Azerbaijan's capital, Baku, a decision that has sparked criticism from environmentalists worldwide, with activists like Greta Thunberg referring to the summit as a "greenwash conference." This year's COP has been dubbed the "Finance CoP" due to its focus on securing adequate funding for climate action. Low-and middle-income countries are advocating for significant financial support to help them reduce greenhouse gas emissions and transition to renewable energy. The UN estimates that developing countries, excluding China, need more than \$2 trillion annually by 2030 to make meaningful progress.

The current debate centers on who will finance these initiatives. In 2009, wealthier nations pledged \$100 billion annually in climate financing for developing countries, a goal they only reached two years behind schedule. Now, many of these recipient countries are calling for a new target of at least \$1 trillion per year to effectively address climate challenges. Countries such as China and the UAE, which are still classified as "developing" but are major emitters and fossil-fuel producers, face pressure to contribute more substantially

to the climate finance fund. Another core issue at COP29 is the review of Nationally Determined Contributions (NDCs), the plans each country submits outlining their goals to reduce greenhouse gas emissions. With the next round of NDC updates due in early 2025, this summit is a crucial opportunity to solidify targets that align with the Paris Agreement's goal of limiting global temperature rise to 2 degrees Celsius by 2100. The hope is that countries will commit to more ambitious emission reductions and be transparent about their paths toward net-zero emissions. COP28, held in Dubai in 2023, marked the first time a COP agreement openly called on countries to transition away from fossil fuels. However, progress has been inconsistent. The International Energy Agency's (IEA) tracking tool, established in April 2024, shows mixed results, with many countries struggling to meet their renewable energy targets. COP29 in Azerbaijan faces substantial challenges, from balancing climate goals with fossil fuel interests to addressing the financial needs of developing nations. If COP29 is to be a success, it must result in tangible commitments to climate finance, renewable energy, and unity among nations. This will be essential to ensuring that COP29 is remembered as a turning point in the global response to climate change—not as a missed opportunity.

Domestic tensions add to Oli's predicament

Amid a mounting internal criticism, Nepal's Prime Minister KP Oli faces daunting challenges, from managing a coalition to dealing with China

ASHOK K MEHTA

My Diwali and Tihar vacation in Nepal is continuing. Here is a flash report from Pokhara. After a turbulent 18-month rule, in which former Prime Minister Prachanda had to seek a vote of confidence five times, the two leading parties Nepali Congress and Unified Marxist Leninist unholy alliance ended CPN(Maoist) kingmaker Prachanda's rule of just 32 seats in a 205-member house. PM KP Oli-led coalition is short of a two thirds majority. They share 4 to 3 in NC's favour in ruling the seven provinces. The promise of Ram-Rajya is unlikely to materialise. Two things stand out: an uneasy stability in government; and Oli's apparent unpopularity. Oli's only claim in his first 100 days is a positive stock market. And breaking the tradition of a Nepalese PM's first overseas visit to India by going first to China from 2 to 6 December, which high profile foreign minister Arzu Rana is organising. India not inviting Oli to become PM is a deliberate omission which was served to late PM Sushil Koirala also a decade ago.

Oli's standing as a leader has diminished because he is a junior partner to NC which is seen favoured by India, and due to his apparent loss of control and power over UML. A front-page report in Kathmandu Post (5 November) illustrates this. But alleged corruption cases against him and his supporters including the super department store chain Bhat Bhateni owner Min Bahadur Gurung have dimmed his reputation. On occasions, he was greeted with the chant "Oli chor, desh chhod". Still, Oli retorted: "wait and watch my party perform during 2027 elections". He is hoping to resuscitate his image from his visit to China. His stock with India is low. While Rana was given a red carpet welcome in India - meeting PM Modi, NSA Ajit Doval and Secretary to Prime Minister PK Misra - Oli's meeting with Modi on the sidelines of UNGA was low-key. The China visit will have the Oli hallmark. He will meet President Xi Jinping, his counterpart Li

Qiang and Foreign Minister Wang Yi. He will try to convert the USD 250m loan from the Exim Bank of China for the China-constructed Pokhara International Airport - a white elephant like Hambantota in Sri Lanka - to grant though China has insisted it is part of the BRI loan. Oli is expected to sign the BRI implementation plan which China has been pressing but so far, Nepal has resisted as Kathmandu wants BRI to come under a grant scheme and not a high-interest loan. The BRI deal has been pending since 2020. Oli during his 2018 China visit had outlined 35 projects which were trimmed to nine projects under BRI. If Oli can persuade China of his 'grant scheme for BRI' or place some of the nine projects under it, he will have made a big breakthrough. Strangely few protest about Chinese intrusions in the north. The Jeevan Bahadur Shahi report which had recently mapped Chinese encroachments, missing border pillars and illegal construction, has been quashed. Nepali leaders willingly oblige Beijing over the One China policy that has ensured the 'Great Wall of China' on the border to prevent Tibetan infiltration and migration to Dharamsala. Only one or two Tibetans slipped through this year. China wants Nepal to sign and ratify 'the Border

OLI'S ONLY CLAIM IN HIS FIRST 100 DAYS IS A POSITIVE STOCK MARKET. AND BREAKING THE TRADITION OF A NEPALESE PM'S FIRST OVERSEAS VISIT TO INDIA BY GOING FIRST TO CHINA FROM 2 TO 6 DECEMBER, WHICH HIGH PROFILE FOREIGN MINISTER ARZU RANA IS ORGANISING

Management System' which Kathmandu has not done so far. But Beijing hopes Oli will. China-Nepal relations were upgraded to Strategic Partnership during Xi's historic 2019 visit. The Xi visit was unique because none of the agreements signed had been implemented. A power trade agreement may be facilitated now after the completion of the 220 KVA transmission line from Rasuwagarhi to Kirung to sell power from Chinese hydro projects. It is in the energy sector that Nepal will eventually prosper. Bangladesh, Nepal and India signed a tripartite agreement for the 40MW sale of Nepal electricity to Bangladesh in the rainy season. India holds the key to the development of Nepal's power sector. Nepal is complaining about the Bureau of Indian Standards withholding certification of exports, especially with Chinese components which will hit Kathmandu, not Beijing. The opposition is in disarray with former Home Minister, once a rising star, Rabi Lamichhane, back in jail for the Pokhara Cooperative fraud. His party and his image have taken a beating though independents like Kathmandu Mayor, Balen Shah and Dharan Mayor, Harka Sampang, are progressing relentlessly to clean politics. While King Gyanendra's pop-

ularity may appear to be rising, a return to constitutional monarchy is unlikely despite his recent visit to Bhutan which triggered unusual speculation. It is India that is making quiet gains, the embassy keeping a low profile, letting PMO Delhi run the show. Lingering negativity about Indian interference has all but vanished. On Agniveer, the feeling among Indian Gorkha ex-servicemen is that Nepal should lift the embargo on it. "Something (even four years service) is better than nothing". Foreign Minister S Jaishankar's remarks in July on Agniveer (relating to Nepal) were clear. "India's foreign policy is determined by its national interest. Not by any other country". The message reportedly conveyed to Arzu Rana in Delhi was: "no change in terms of engagement on Agniveer" even as a review is ongoing. COAS Gen Dwivedi is arriving here on November 21 for a ceremonial appointment as Honorary Chief of Nepal Army which has lost its lustre because not a single Nepali has been recruited in the Indian Army for five years. (The writer, a retired Major General, was Commander, IPKF South, Sri Lanka, and founder member of the Defence Planning Staff, currently the Integrated Defence Staff; the views expressed are personal)

LETTERS TO THE EDITOR

CHADRACHUD'S IMPACTFUL TENURE

Madam — Apropos your editorial, "A rich legacy," published on November 11. Justice DY Chandrachud's tenure as the CJI of India, which concluded on last Sunday, was marked by transformative rulings and substantial reforms, carving out a unique legacy in the Indian judicial history. The list of judgements penned by him is long and covers almost all aspects of law. They blend scholarship and jurisprudence and are likely to inform both future decisions and how the law is studied. Striking down the Electoral Bonds Scheme and upholding the abrogation of Article 370 are among his influential verdicts that stand pillars of his legacy. His decisions resonate not only within the corridors of the Supreme Court but also in the lives of countless Indians whose rights and freedoms he defended. Through humour, resilience, and an unwavering dedication to constitutional ideals, Chandrachud exemplified judicial leadership. As India's judicial landscape evolves, his tenure will be remembered as a testament to the power of law to uphold equality, integrity, and the spirit of democracy. Ranganathan Sivakumar | Chennai

PRIORITISE MENTAL WELLBEING

Madam—Apropos to "Creating a workplace culture that truly supports mental health," published on November 11. It is good that they chose to focus on mental health in the workplace on Mental Health Day on October 10. Because the way few professionals in both the private and government sectors have taken their lives due to undue work pressure in the last few months is alarming, to say the least. Now a days, whoever is entering the corporate world is expected to be mentally strong to cope with the rising pressure and huge mismatch in work-life balance, but how would we justify the death of a young girl who has done well academically to clear CA and get into one of the top 4 consulting firms in the country and was forced to take her life in Pune? We in India have a very abysmal psychiatrist-patient

A boost to women entrepreneurs

The Finance Minister launched five Nari Shakti branches of Union Bank of India for women entrepreneurs in a step to boost women's power. Union Finance Minister Nirmala Sitharaman virtually inaugurated five Nari Shakti branches of Union Bank of India

from Bengaluru. She urged the bank to develop technology-driven, cluster-based schemes specifically tailored to support women, aiming to empower female entrepreneurs and strengthen financial inclusion for women across the country. Furthermore, she encouraged women entrepreneurs to make use of these schemes and contribute to job creation. The Nari Shakti operates with a focus on extending credit to women entrepreneurs. In addition to financing women-owned manufacturing and service units, the bank will also focus on advisory services, workshops on start-ups, skill development programs, mentorship, networking, and collaborations. Union Bank of India has opened Nari Shakti branches in Bengaluru, Chennai, Visakhapatnam and Jaipur. It is a right step in the right direction. Akhilesh Krishnan | Mumbai

ratio. We have 0.75 psychiatrists per 100,000 mental patients against the prescribed 3 psychiatrists. Though things are changing a bit and people are approaching mental health professionals after many celebrities have opened up about this, we still need to cover a long distance in terms of enhancing mental health infrastructure and speak openly about this. Go! would need to go all out to open thousands of mental health education institutes and hospitals to bridge this huge gap and encourage young students to take up this profession. We will have to teach our children about the importance of mental and emotional health and need to bring a drastic change in our society when it comes to talking about mental health issues. There should not be any stigma attached to it. Bal Govind | Noida

SMOKING BAN

Madam — The decision of the Karnataka government to ban smoking and tobacco consumption in government offices

and on its premises, though laudable, boils down to its efficacious implementation. Moreover, the state government circular has said precious little about the punishment for flouting rules. Having said that, the move is indeed praiseworthy because it will send a strong message to all stakeholders about the perils of smoking and chewed tobacco. Furthermore, passive smokers can have a sigh of relief as they stand to suffer as well from smoke. It is also time the Centre revisits COTPA and contemplates better execution of the Act. By "The Cigarette and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act 2003," also referred to as COTPA, smoking and consumption of other tobacco products in public places is prohibited nationwide. This Act also encompasses other requirements like displaying signage and enforcement. Ganapathi Bhat | Akola

Organic farming: Cultivating a climate-conscious future

Organic farming is emerging as a sustainable agricultural solution, offering an eco-friendly alternative to conventional farming practice

With a growing focus on environmental issues, organic farming has emerged as a powerful ally in the fight against climate change. As global temperatures climb and natural ecosystems deteriorate, there is a shared conviction among scientists, environmental activists and farmers about the pressing need to create sustainable methods for food production. Organic agriculture holds significance not just for cultivating food without synthetic pesticides and fertilisers, but also for fostering farming systems that harmonise with nature. Could organic farming be the answer to the climate crisis?

because of the organic matter used." Healthier soil retains more moisture and serves as a carbon sink, effectively capturing CO₂ from the atmosphere. Organic farming promotes a rich variety of life forms. The importance of biodiversity cannot be overstated when it comes to creating resilient ecosystems. Traditional monoculture farming strips the soil of essential nutrients, reduces the diversity of habitats, and leaves crops vulnerable to numerous pests and diseases. Organic farming often embraces a variety of crops, fosters the growth of wild plants in and around the farm, and supports pollinators like bees and butterflies. Organic farms can have as much as 30 per cent greater

species richness than conventional farms, allowing for a greater diversity of birds, insects, and other wildlife to flourish alongside agricultural activities. This is similarly true regarding the conservation of water. Organic farms utilise techniques such as mulching and crop rotation to effectively conserve water. These methods enhance the soil's composition and increase its ability to retain moisture. This is why the organic farm is more adept at managing droughts, as numerous regions impacted by climate change are grappling with this issue. Through organic farming, we're cultivating more than just crops; we're fostering a sustainable water cycle. While there are several advantages to consider, some contend that relying solely on organic farming may not suffice to nourish the global population, as it tends to produce lower yields compared to traditional practices. Incorporating organic practices, such as crop rotation and minimising reliance on chemicals, into extensive agricultural operations significantly impacts the fight against climate change. Organic farming may not be a perfect solution, yet its environmental advantages are clear: reducing carbon emissions, conserving water, and boosting biodiversity are integral components of a comprehensive strategy in sustainable agriculture. As consumers, we can contribute by opting for organic products whenever we have the chance. Together, we can achieve significant strides towards a more sustainable world. The path to achieving climate resilience is intricate; nonetheless, by embracing organic farming, we can certainly sow the seeds for a greener future. BLESSINGS OVER BILLIONS

If we want to be happy, then we should earn blessings which is our real wealth

RAJYOGI BRAHMA KUMAR NIKUNJ JI

We all love money ...don't we? It's a fact that money makes the world go round because it can make the impossible possible and the unimaginable real. Hence, it won't be an exaggeration to say that money can do almost everything. (At least those who have it feel so for sure) There is a famous Hindi film song that says "The whole thing is that ki bhayi Sabse Bada Rupaiya". We all have experienced how money can make people change their moods and colours in a jiffy. Haven't we? It can close the eyes, seal the mouth and deafen the ears wherever needed. We have seen in many scenes of movies how witnesses of crime turn a blind eye and a deaf ear and maintain a stony silence even though they know the truth.

Similarly in the world of business, money is the prime force behind the movers and shakers of mega deals, mergers and break-ups. Whether it's sports, entertainment or any other business, money can make cut-throat competitors get into cooperative mode in mutual interest. Money can match the mismatched, miss targets and change roles. At present it is observed that money has a considerable clout even in matters of faith. Like, it can gain you easy access to the holy citadels of godmen who may anoint you as their ardent follower. With money, you can also have a quick darshan of your favourite lord at the temple without having to wait in long queues. The list is unending. In short, money can buy anything and everything under the sun that can be bought. Though money creates this illusion that we are living in paradise money cannot

do any of the following for us. Like, money can buy us a beautiful house but not a happy home; it can buy us delicious food and expensive healthcare but not good health; it can provide us with high security but it cannot guarantee even minimum safety; it can buy us countless things for entertainment but not cheer and joy; it can buy us a comfortable bed but not sound sleep; it can buy name and fame but not real respect; it can buy the best contacts and relations but not true and honest love; it can buy crowns and thrones but not real power; it can buy good education but not intelligence and wisdom & lastly it can bail us out from the worst crimes but it cannot help us escape divine justice & buy us liberation from our sins and sufferings.

So, no matter if money does make the world go round, at the end of all the going round, we reach nowhere and get nothing substantial and real and end up being more impoverished than ever. Since ages, our scriptures and sages have spoken about the vices and virtues. Of all the vices like lust, anger, attachment, greed and ego, the most dangerous and subtle is "Greed". It is said that greed is such a kind of hunger that's never satisfied. Our desire for food ends when our hunger is appeased, our anger also subsides when its purpose is achieved, but! Greed is not satisfied even if we get the kingdom of the whole world.

Hence, it is this tendency, which is created by wealth, in a person who possesses it, that leads to corruption at all levels. So, does it mean one should not recognise the importance of money? Not really! Instead, we must understand that money or wealth is merely a tool that has to be used wisely and without greed, attachment or selfishness to create happiness for all. Hence, as long as we use it as a master's, it will bring us benefit and happiness. As soon as we become slaves to it, it will bring loss and misery. An enlightened person would always use money for the maximum good of a maximum number of people, whereas for a spiritually empowered soul, money becomes a tool to create good karma and a good destiny for the self and others. So, the story's moral is that money has never made man permanently happy, nor will it. Hence if we want to be happy, then we should earn blessings which is our real wealth and which would go along with birth after birth. Think about it!

IFFI 2024: A global stage for cinema, culture and talent

CHAITANYA K PRASAD

This year's edition reaffirms IFFI's role as a powerful force in global cinema, connecting storytellers, industry leaders and audiences in a shared appreciation of the cinema

The 55th International Film Festival of India (IFFI) is set to bring a fresh wave of cinematic celebration to the scenic coast of Goa from November 20th to 28th, 2024. This year's festival promises to be more than just a film showcase; it's a convergence of global cultures, a launchpad for emerging voices, and a profound tribute to India's cinematic legacy. IFFI 2024 is a bold step forward, not only in its evolution but as a distinctive international film festival that celebrates both India's vibrant culture and the art of cinema on a global stage. This year, IFFI spotlights Australia as its "Country of Focus," emphasising the festival's commitment to bridging cultures and fostering international understanding. This section invites Indian audiences to dive into the heart of Australian cinema, exploring a curated selection of films that range from gritty dramas to adventurous comedies and reflective documentaries.

Through this focused lens, audiences will experience the unique and evolving cinematic language of Australia, making IFFI a powerful platform for cross-cultural appreciation and dialogue. In doing so, IFFI 2024 goes beyond traditional film screening to create an immersive experience that positions the festival as a bridge between the stories, people, and cultures of the world. IFFI 2024's newest addition, the "Best Debut Director of Indian Feature Film" award, shines a spotlight on the next generation of Indian filmmakers. This award isn't just a recognition; it's a pivotal moment in a young director's career, marking a path for fresh perspectives in Indian cinema.

By dedicating this category to first-time directors, IFFI signals its commitment to nurturing innovative voices and helping them gain visibility in an increasingly competitive industry. While many international film festivals focus on established talents, IFFI's recognition of debut filmmakers reflects its dedication to fostering growth and embracing the future of Indian cinema. This year's festival also pays homage to four towering icons of Indian cinema: Raj Kapoor,

WITH OVER 200 FILMS FEATURED IN ITS VIEWING ROOM, FILM BAZAAR IS WHERE STORIES FIND INVESTORS, FILMS CONNECT WITH DISTRIBUTORS, AND COLLABORATIONS ARE BORN

Tapan Sinha, Akkineni Nageswara Rao (ANR), and Mohammed Rafi. These legends shaped India's cinematic legacy and captured the hearts of audiences across generations. By featuring restored classics and specially curated presentations, IFFI brings their artistry to life for a new generation and provides international attendees with a meaningful glimpse into India's rich cinematic history. This tribute serves as a reminder of the depth of Indian cinema, its transformative impact on culture, and the enduring relevance of these trailblazers. IFFI's Film Bazaar, now in its 18th year, stands out as a dynamic marketplace that brings together filmmakers, financiers, distributors, and international industry leaders.

With over 200 films featured in its Viewing Room, Film Bazaar is where stories find investors, films connect with distributors and collaborations are born. This dedicated platform sets IFFI apart from other festivals focused solely on screenings by creating opportunities for projects to grow and flourish beyond the festival circuit. For both Indian and international filmmakers, Film Bazaar represents a gateway to global audiences and a rare chance to network and secure support for future projects. The Indian Panorama section of IFFI has become a hallmark of the festival, offering audiences a diverse selection of contemporary Indian cinema. With 25 feature films and 20 non-feature films selected for their cinematic excellence, thematic resonance and aesthetic creativity, Indian Panorama showcases the vibrancy and diversity of Indian storytelling.

For international attendees, it provides an authentic insight into India's socio-cultural landscape, spotlighting everything from regional narratives to avant-garde experiments. This section rein-

forces IFFI's mission to present Indian cinema in all its depth and diversity, making it an invaluable part of the global film conversation. One of IFFI 2024's standout initiatives is "Creative Minds of Tomorrow" (CMOT), a program me by the Ministry of Information and Broadcasting and the National Film Development Corporation (NFDC) dedicated to nurturing young filmmakers. CMOT provides a platform for emerging voices to showcase short films, documentaries and animations, facilitating connections with seasoned industry professionals. Through CMOT, IFFI is not only showcasing young talent but also empowering the next generation of Indian filmmakers with the resources and connections to succeed.

This initiative solidifies IFFI's role as a festival that goes beyond celebration to become a nurturing ground for creativity and growth. In line with the essence of Bharat Parv, which captured the world's attention at Cannes 2024, IFFI brings forth a celebration of India's diverse cultural heritage. Bharat Parv, a campaign highlighting India's rich traditions and unity in diversity, finds its cinematic expression at IFFI, where films, events, and programming reflect India's multifaceted identity. This celebration of Indian culture provides international visitors with an immersive experience and a deeper understanding of India's story, offering a window into its heritage through the powerful lens of cinema.

IFFI 2024 arrives at a transformative moment for Indian cinema, serving as a platform to elevate Indian filmmakers onto the world stage. The festival's emphasis on emerging talent, global collaboration, and cultural exchange aligns with India's aspirations to be a global leader in the arts. IFFI's unique combination of industry

initiatives, recognition of fresh voices and celebration of cinematic heritage enables it to play a pivotal role in the growth of Indian cinema and its reception on the global stage. This year's edition promises to leave an indelible impact on the industry, redefining IFFI as a festival that doesn't just reflect India's cinematic culture but actively shapes its future. For international filmmakers, IFFI 2024 offers an unparalleled opportunity to connect with India's vibrant cinematic landscape.

By providing exposure to a diverse Indian audience, access to Film Bazaar's resources and engagement with sections like the Australian showcase, IFFI offers international filmmakers insights into India's tastes, trends, and opportunities. IFFI's homage to iconic Indian artists also provides a rich cultural context that enables international guests to appreciate the legacy and contributions of Indian cinema. Through these interactions, IFFI creates a unique, collaborative environment that enriches both Indian and global cinema.

The 55th IFFI is a festival that seamlessly merges tradition with forward-thinking innovation, paying tribute to the giants of Indian cinema while embracing the voices of tomorrow. From the spirit of Bharat Parv to the debut of a new award for emerging talent, IFFI 2024 embodies the evolving nature of cinema and celebrates the power of storytelling as a tool for connection. As the festival draws international filmmakers, industry leaders, and audiences together, it positions India as a key player in global cinema and reaffirms IFFI as a festival of lasting impact and vision.

Staying grounded: Lessons from the 1984 elections and anti-Sikh riots

Both politicians and journalists risk misjudgment when they distance themselves from the realities on the ground

The 1984 election results were a shock to many. Rajiv Gandhi won a record-breaking 414 seats, toppling major political figures. Veteran leaders like Atal Bihari Vajpayee and Chandra Shekhar faced unexpected defeats—Vajpayee in Gwalior and Chandra Shekhar in Ballia. But this story is less about the triumphs or losses and more about a crucial lesson this journalist learned from an open-hearted conversation with Chandra Shekhar. In an interview, this journalist asked the seasoned leader if he had anticipated the wave that swept away even stalwarts like himself. Chandra Shekhar replied candidly: "To be honest, I had become

MANOJ RAGHUVANSHI

disconnected from the grass roots. I didn't realise there was such a wave." This realisation left a lasting impact on the journalist, shaping their perspective going forward.

The same kind of shock had reverberated through the nation during the 1977 elections, but in the opposite direction. Indira Gandhi was

ousted from power, losing her own seat in Rae Bareilly, while her son Sanjay Gandhi lost in Amethi. The Congress party was routed, failing to win a single seat in Uttar Pradesh or Bihar. Despite her stature and the counsel of her closest advisors, Indira Gandhi had also become detached from grassroots sentiment. This disconnect was something this journalist later witnessed in the field of journalism itself. During the 1984 anti-Sikh riots, this journalist returned from the field after witnessing the violence firsthand. His editor, Ayub Syed, was discussing the events with a senior journalist, OP Sabherwal, who was analysing the riots from afar.

Sabherwal likened the situation to 1947, predicting that the riots would continue indefinitely. The journalist respectfully intervened, sharing what he had observed in RK Puram: a Gurdwara under attack, granthis being rescued by the army, looters scattering when a single soldier raised his hand, and a crowd dispersing with just a shout. He explained to his seniors that the violence was being stoked by the Congress government, with rioters emboldened by police assurances of impunity. The journalist conveyed that the riots were far from uncontrollable and could be stopped whenever the government chose. And he was proven right; the violence

ceased once the government decided it had gone too far. The lasting lesson? Whether a politician or a journalist, detachment from reality clouds judgment. Without a connection to the ground, even the most obvious forces at play can go unseen.

The 1984 election and subsequent events taught a vital lesson about staying connected to the grassroots. Rajiv Gandhi's landslide victory, which swept aside prominent leaders like Atal Bihari Vajpayee and Chandra Shekhar, highlighted how even seasoned politicians could lose touch with public sentiment.

In a candid interview, Chandra Shekhar admitted his own disconnect from the grassroots, mirroring

the misjudgment that cost Indira Gandhi the 1977 election. This theme resonated again during the 1984 anti-Sikh riots, where a journalist's firsthand observations clashed with distant analyses in the newsroom. The violence, stirred by political agendas, was ultimately controllable when authorities chose to act.

The takeaway? For both politicians and journalists, a disconnect from on-the-ground realities can obscure clear judgment, leaving critical forces unrecognized. Staying rooted is essential to understanding and addressing the true dynamics at play in any situation.

Amsterdam police warn of fresh unrest a day after rioters torch tram

AP THE HAGUE

A senior police officer warned Tuesday of calls for more rioting in Amsterdam, after dozens of people armed with sticks and firecrackers set a tram on fire Monday night as the city faces tensions following violence last week targeting fans of an Israeli soccer club.

In this image taken from video, police officers patrol in riot gear on the streets of Amsterdam as the city is facing tensions following violence last week. AP/PTI

Police said the fire Monday was quickly extinguished and riot officers cleared the square. Images online showed people damaging property and setting firecrackers. There were no reports of any injuries.

Police, according to Amsterdam's mayor. Pro-Palestinian demonstrators were banned by local authorities from gathering outside the stadium. Before the match, Maccabi fans also tore a Palestinian flag off a building in Amsterdam and chanted anti-Arab slogans on their way to the stadium.

The suspects are men aged 18 to 37 and are from Amsterdam or surrounding cities. Four are still in custody; the fifth has been released but remains a suspect.

continues. Two of those are minors, a 16-year old and a 17-year old from Amsterdam. The other two men are from Amsterdam and a nearby city. Police said they have identified over 170 witnesses and have taken forensics evidence from dozens. Prime Minister Dick Schoof said they were also examining videos posted to social media. Schoof was meeting with community leaders Tuesday afternoon to discuss antisemitism.

Reports of antisemitic speech, vandalism and violence have been on the rise in Europe since the start of the war in Gaza, and tensions mounted in Amsterdam ahead of Thursday night's match.

Amsterdam risk zones where police can stop and check anyone. Dozens were detained on Sunday for taking part in a pro-Palestinian demonstration in central Amsterdam that had been outlawed. A small demonstration was ended by police Tuesday outside Amsterdam City Hall during a debate about the unrest, Dutch broadcaster NOS reported.

Deepika's brace hands India 3-2 win over South Korea

PTI ■ RAJGIR (BIHAR)

Striker Deepika converted a penalty stroke three minutes from the final hooter to lead India to a tense 3-2 win over South Korea in the women's Asian Champions Trophy, here Tuesday.

India raced to a 2-0 lead in the first half through goals from Sangita Kumari (3rd minute) and Deepika (20th, 57th) before Korea mounted a strong comeback in the third quarter and drew parity with goals from Yuri Lee (34th) and skipper Eunbi Cheon (38th).

The match headed for an exciting finish with both teams pushing for that deciding goal and it was Deepika, who scored from the spot to seal India's second consecutive victory in the tournament.

India had defeated Malaysia 4-0 in their tournament-opener on Monday. The hosts will next play Thailand on Thursday.

In the first match of the day, minnows Thailand held Japan to a 1-1 draw, while reigning Olympic silver medalist China defeated Malaysia 5-0 to register their second consecutive win.

The Indians started from where they left on Monday and continued to play attacking hockey from the onset.

India's dominance can be gauged by the fact that the Koreans didn't have a single shot at the Indian goal in the first two quarters.

India, on the other hand, attacked the Korean defence relentlessly and created chances which resulted in two field goals.

It didn't take long for the Indians to surge ahead as they opened the scoring in the third minute through Sangita.

Neha Goyal initiated the move and passed it on to Navneet Kaur, who found Sangita inside the circle. The striker beautifully received the ball, sidestepped her marker and then found the back of the net with a fine reverse hit. India kept up the pressure on the Korean defence and their efforts bore

fruit in the 20th minute when Deepika slammed one home from close range from Beauty Dung Dung's pass from the right flank.

A minute later Preeti Dubey's reverse hit was saved by an outstretched right leg of Korean goalkeeper Seoyeon Lee. In the 24th minute, Sangita came tantalisingly close to scoring her second goal of the day, but her push from a Deepika pass went just wide of the post.

If the first half belonged to India, Korea came out all guns blazing after the change of ends and secured back-to-back penalty corners in the 34th minute and Lee pulled one back for her side from a rebound.

Motivated by the goal, the Koreans put pressure on the Indian defence and four minutes later secured a penalty stroke after an Indian defender unnecessarily brought a Korean striker inside the circle. Skipper Cheon stepped up and made no mistake to level the scores. Penalty corner conversion continued to haunt the Indians as they failed to make use of the eight set pieces they secured in the match -- four consecutively in the 39th minute. In the last match also India earned as many as 11 penalty corners but converted just three.

Held to a 2-2 draw, the Indians decided to throw numbers upfront and mounted raids after raids on the Korean citadel and in the process secured penalty corners in quick succession but they lacked variation from the set pieces and the efforts were mostly one dimensional.

But the Indians got a chance in the 57th minute in the form of a penalty stroke, which Deepika converted with ease.

World's first high-altitude parasports centre to come up in Leh ahead of 2028 Paralympics

PTI ■ LEH (LADAKH)

The world's first high-altitude para sports centre will be established in Leh, Ladakh, aiming to advance the skills and confidence of athletes ahead of the 2028 Paralympics.

A Memorandum of Understanding (MoU) to this effect was signed by the Ladakh Autonomous Hill Development Council (LAHDC), Leh, and the Aditya Mehta Foundation (AMF).

"It is a very proud feeling for us that Leh will be establishing the world's first-ever high-altitude centre for para sports. Indian para-athletes have won 29 medals, including seven gold, in the 2024 Paralympics in Paris and it is a testament of the talent we have in our country," said Advocate Tashi Gyalson, Chief Executive Councillor (CEC) of LAHDC.

Till the time the centre is getting completed, the AMF

will identify 15 Children with Special Needs (CWSN) from the Leh-Ladakh UT region and they will undergo screening, counselling and training at their Infinity Parasports Academy and Rehabilitation Centre in Hyderabad.

"The opening of Leh Ladakh as a hub for para sports marks a new era not just for the region, but for India's future in international competitions," said Aditya Mehta, Founder, AMF.

List of Sports to be included: Para Sports: Archery; Athletics; Badminton; Blind Football; Boccia; Canoeing; Cycling; Equestrian; Goalball; Judo; Powerlifting; Rowing; Shooting; Volleyball; Swimming; Table Tennis, Taekwondo; Triathlon; Wheelchair Basketball; Wheelchair Fencing; Wheelchair Rugby and Wheelchair Tennis.

Winter Games: Para Alpine Skiing; Para Biathlon; Para Cross-Country Skiing; Para Ice Hockey; Para Snowboard and Wheelchair Curling.

Alcaraz struggles with stomach issue in loss to Ruud at ATP Finals

AP ■ TURIN (ITALY)

Carlos Alcaraz struggled with a stomach issue and looked far from the player who won two Grand Slams this year while losing to Casper Ruud 6-1, 7-5 at the ATP Finals. It marked Ruud's first victory over Alcaraz in five career meetings, and the result could make it difficult for Alcaraz to advance from the round-robin stage at the season-ending event for the top eight players.

"I didn't feel well on court," Alcaraz said. "A few days before coming here, I got sick at home. ... This morning, I feel uncomfortable in the stomach."

Rublev 6-4, 6-4. The top two finishers from each group advance to the semifinals.

On Sunday, top-ranked Jannik Sinner and U.S. Open finalist Taylor Fritz beat Alex de Minaur and Daniil Medvedev, respectively, in the other group.

Alcaraz won the French Open and Wimbledon to boost his career total to four Grand Slam titles. But he also struggled at the Paris Masters recently and dropped behind Zverev to No. 3 in the rankings this week.

"I have no experience playing on indoor courts," Alcaraz said. "I'll be a really good player on indoor courts, I'm sure about it. But I think it's about time, about getting experience. ... A lot of players are better than me on indoor court."

Ruud reached the 2021 semifinals and 2022 final in his first two appearances at the finals. But he has struggled recently, too, losing his first or second match in his last seven events.

"I'm not full of confidence," Ruud said. "A match like today might be able to change it." Alcaraz was broken when he served for the second set at 5-4. Alcaraz led 25-16 in winners but committed 26 unforced errors to Ruud's 10. Ruud converted all four of his break points while Alcaraz was just one of six in that category.

"I'm tired mentally," Alcaraz said. "Obviously a lot of matches, really tight schedule, really demanding year with not too many days off." ZVEREV ROLLING AFTER

PARIS MASTERS TITLE

Zverev, who won the finals in 2018 in London and 2021 in Turin, extended his winning streak to six matches following a title run at the Paris Masters.

Rublev is making his fifth consecutive appearance at the finals but hasn't won a match at the event since 2022.

Zverev served nine aces and dropped only 10 points on his serve in 10 service games.

"He served wide 220 (kph) on the deuce side," Rublev said. "Normally everybody serves slice and it's 190. He find(s) a way to serve 220 wide on the deuce side. It's not easy."

"Even if you catch the direction, when the flat serve comes 227, slice serve comes 219, 215, it's tough to just see the ball."

SINNER RECEIVES NO. 1 TROPHY

Before the Zverev-Rublev match, Sinner received the trophy for finishing the year at No. 1 in the rankings.

"There's no place better to celebrate this trophy," Sinner said as his mom, Siglinde, looked on in tears. "Thanks for all of your support."

Sinner is playing at home for the first time since it was announced before his U.S. Open title that he tested positive in two separate drug tests this year. A decision to clear Sinner of wrongdoing was appealed by the World Anti-Doping Agency in September.

Sinner awarded trophy for finishing year at No. one in the ATP rankings

AP ■ TURIN (ITALY)

Jannik Sinner was awarded the trophy for finishing the year at No. 1 in the rankings before his home fans at the ATP Finals. Sinner beat Alex de Minaur in his opening match on Sunday at the year-ending event for the top eight players and meets Taylor Fritz on Tuesday in a rematch of the U.S. Open final.

Sinner is playing at home for the first time since it was announced before his U.S. Open title that he tested positive in two separate drug tests this year.

A decision to clear Sinner of wrongdoing was appealed by the World Anti-Doping Agency in September.

"I think he's the man to beat for a long time," said former No. 1 Boris Becker, who took part in the trophy presentation.

Sinner beat Alex de Minaur in his opening match on Sunday at the year-ending event for the top eight players and meets Taylor Fritz on Tuesday in a rematch of the U.S. Open final.

Sinner is playing at home for the first time since it was announced before his U.S. Open title that he tested positive in two separate drug tests this year.

A decision to clear Sinner of wrongdoing was appealed by the World Anti-Doping Agency in September.

Manassero looks to cap career revival in Dubai as McIlroy eyes season-ending title

AP ■ DUBAI

Matteo Manassero quit golf five years ago at the age of 26, tormented by a sport that gave him so many highs but was no longer making him feel happy. On Sunday, he could punch a ticket to play across the Atlantic on the lucrative PGA Tour and be back in the big time, where so many think his game belongs.

The 31-year-old Italian will look to cap his career revival this week by becoming one of 10 players from the European tour to be eligible to claim dual membership and a PGA Tour card for the 2025 season. The season-ending World Tour Championship starts on Thursday in Dubai and only an unlikely turn of events will deny Rory McIlroy from being crowned as the European tour's best player for a sixth time, leaving him two off Colin Montgomerie's record haul.

There will be more suspense elsewhere, though, notably in that race for those PGA Tour cards — a structural tweak created in 2022 in the wake of the so-called strategic alliance between the European tour and PGA Tour in the face of mounting pressure from the breakaway LIV Golf series.

The presence of Manassero in the 10-man list, as it stands, only elevates the interest levels.

Blessed with a smooth swing and a deft touch, Manassero was a golfing prodigy, winning the British Amateur in 2009, the silver medal at the British Open for low amateur the same year, and also becoming the No. 1 amateur in the world. By 2013, he'd won four events on the European tour — including the BMW PGA Championship, the flagship event on the tour, to move into the world's top 25. Then came the career dip, which plunged him into self-

doubt and ultimately retirement — albeit for only a few months while he assessed where to go with his life.

He eventually decided to give golf another go, beginning his rebuild on the lowly Nordic Golf League and the Alps Tour, which is on the third tier of European golf.

His talent shone through and last year he sealed a return to the European tour with a win at the Jonsson Workwear Open in March being universally celebrated in the golf fraternity.

That helped to put him in a strong position to claim the end-of-season bonus of a PGA Tour card, and he headed to Dubai in fifth place among non-exempt players, behind Thriston Lawrence, Rasmus Hojgaard, Paul Waring — the winner in Abu Dhabi last week — and Niklas Norgaard. Jesper Svensson, Thorbjørn Olesen, Rikuya Hoshino, Sebastian Söderberg and

Jordan Smith make up the list, though the tour says any non-exempt player in the 50-man field can, statistically, break into the top 10.

Robert MacIntyre is living proof of how life-changing that can be. He was one of the 10 to claim a PGA Tour card after last year's World Tour

Championship and he has blossomed, winning two big PGA events — the Canadian Open and the Scottish Open — and rising to a career-high

15th in the world in August. He is No. 16.

"Career-changing, 100%," MacIntyre said on Tuesday. "I've now got to the top level of professional golf, the top 25% of professional golfers."

"You can then pick your schedule and you're in all the major events and you're in all the top events you can play in and you can pick and choose, and that's where you want to be."

"I think," MacIntyre added, "the majority of golfers out here have got that dream, as well."

If Hojgaard secures his PGA Tour card, he will join his twin brother Nicolai in the United States.

McIlroy on brink Lawrence leads that list of PGA Tour hopefuls but has other things on his mind. The South African is the only player who can prevent McIlroy from winning the Race to Dubai title — formerly the Order of Merit

— and join the late Seve Ballesteros on six.

Lawrence has to win — nothing less is good enough — and then needs McIlroy to finish tied for 11th or lower.

"Rory has been an idol for me since growing up as a youngster," the 27-year-old Lawrence said, "and being able to clinch it this week would be the cherry on the cake for myself."

The smart money, however, is on McIlroy, who has shown extraordinary consistency in collecting a win — at the Dubai Desert Classic in January — as well as four runner-up finishes and three more top fives in his 12 European tour events this season.

"Rory is held to a higher standard than pretty much everybody else in the world of golf," Tommy Fleetwood said. "But, I think he's shown amazing golf again this year, and he's shown why he's one of the best to ever do it."

3rd T20I: India eye batting revival against SA at Centurion

PTI ■ CENTURION

Indian batting line-up needs to get its mojo back against a resurgent South Africa to regain the lost ground on rather unfamiliar SuperSport Park conditions when the two teams clash the third T20I here Wednesday. Since 2009, India have played only one T20I at this venue, which they lost by six wickets in 2018 and have only one survivor from that squad in this side -- Hardik Pandya. Along with that unfamiliarity factor, India will also grapple with the ordinary form of their batters, particularly when the pitch here is touted to be similar to the one at Qqeberha -- quick and bouncy. In the second T20I, India batters struggled against South African pacers upfront, getting restricted to 124 for six, and Centurion has similar characteristics. The problem starts from the top -- more precisely with Abhishek Sharma, whose extended lean run with the bat has now snowballed

into a serious concern. He is in desperate need of a good outing here before the management thinks of juggling the combination. Even now, they can think of giving the job of partnering Sanju Samson at the top to Tilak Varma and bring in Ramandeep Singh in the middle to add more muscle to the unit. However, the senior batters like skipper Suryakumar Yadav, Pandya and Rinku Singh too cannot absolve themselves of the blame entirely for India's struggles. Both Suryakumar and Rinku have shown only fleeting images of their prowess here while Pandya made 39 in the second match but he consumed 45 balls for it. In fact, the power-hitter took 28 balls to find his first boundary and, again, could not find the ropes between balls 39 and 45. So, these three batters will have to chip in more to support in the in-form Samson or to carry India to a strong total even when the Kerala man has a vapid day.

Similarly, pacers Arshdeep Singh and Avesh Khan had two contrasting games. Arshdeep returned with figures of 1 for 25 at Durban, but in the second game he had stats of 1 for 41. The left-arm pacer's third and fourth overs which went for 28 runs -- including four fours in an over against Tristan Stubbs -- made a deep impact on the low-scoring match. So, they will be eager to change the script here, unless the management looks at other options such as Yash Dayal or Vysakh Vijaykumar. However, the efforts of Varun Chakravarthy, who bagged a maiden fiver in the previous match, and Ravi Bishnoi over the last two matches have been outstanding and the spinners will be looking for an encore in the third match to hand back the advantage to India. The expected bounce and pace on the pitch here will be an encouraging factor as well for the Indian duo. From a batting perspective, South Africa too face a similar issue as

senior pros skipper Aiden Markram, David Miller and Heinrich Klaasen are yet to fire in this series. They required runs from less-pedigreed batters Tristan Stubbs and Gerald Coetzee to get over the line in the second contest, and the Proteas will certainly cherish a heftier contribution from their veterans, especially against Indian spinners. Teams (from): India: Suryakumar Yadav (c), Abhishek Sharma, Sanju Samson (WK), Rinku Singh, Tilak Varma, Jitesh Sharma (WK), Hardik Pandya. Axar Patel, Ramandeep Singh. Varun Chakravarthy, Ravi Bishnoi, Arshdeep Singh, Vijaykumar Vyshak, Avesh Khan, Yash Dayal. South Africa: Aiden Markram (c), Ottneil Baartman, Gerald Coetzee, Donovan Ferreira, Reeza Hendricks, Marco Jansen. Heinrich Klaasen, Patrick Kruger. Keshav Maharaj, David Miller, Mhlangeni Mpongwana, Nqaba Peter, Ryan Rickelton. Andile Simelane. Lutho Sipamla, Tristan Stubbs.

Perth pitch to have really good pace and bounce: Curator cautions India

PTI ■ PERTH

India will be accorded a tough welcome to Australia as the Optus Stadium pitch for the opening Test of the Border-Gavaskar Trophy has been prepared to offer "good bounce and pace" true to the tradition of the fiery tracks in Perth. India will enter the Perth Test, beginning from November 22, without playing any practice match as the visitors had cancelled an intra-squad side game that was scheduled to be played behind closed doors from November 15 to 17. Now, India will focus on centre-wicket training at the nearby WACA stadium, where Australia will also polish their skills. "This is Australia, this is Perth... I'm setting ourselves up for really good pace, really good bounce and really good carry," Western Australia Cricket head curator Isaac McDonald told ESPNcricinfo. McDonald is trying to prepare a pitch that has similar traits of the one

that he readied for the first Test against Pakistan in December last year. In that match, Pakistan were bundled out for 89 in the second innings as the Aussies celebrated a massive 360-run victory. The pitch too had developed cracks as that match wore on and batters like Marnus Labuschagne copped blows on their hands. Overall, the three Aussie pacers -- Pat Cummins, Josh Hazlewood and Mitchell Starc -- grabbed 12 of the 20 Pakistan wickets. More recently, Pakistan pacers Shaheen Shah Afridi, Naseem Shah and Haris Rauf

tore through Australian line-up, bowling the hosts out for 140 in the third ODI here. McDonald said he is looking to leave some grass on the pitch to make it a bit spicier. "It's (10 mm) a good starting point. Ten millimetres was pretty comfortable with the conditions that we had (last year) and that held the conditions together nicely for the first few days. Live grass on the pitch is speed. "Both bowling units (Australia and Pakistan) were pretty rapid last year and hoping for much the same this year (for India match)," he added.

Australian opener McSweeney braces for 'unique' Bumrah challenge

PTI ■ ADELAIDE

Australia opener Nathan McSweeney, who is set to debut against India in the Border-Gavaskar Trophy, said he has been preparing for the "unique" challenge of facing star pacer Jasprit Bumrah. McSweeney was drafted into the Australia squad after a slew of impressive performances in the Sheffield Shield tournament and in the recent 'A' series against India. The 25-year-old South Australian will partner Usman Khawaja at the top in the series opener in Perth and during the upcoming five-Test series. "There's probably not (much) I can do to replicate how Bumrah bowls). Obviously, he's got a unique action. He's one of the best bowlers in the world." So, it's going to be hard to mimic that. I'm just looking forward to all of that and I can't wait," McSweeney told SEN. McSweeney, who captained

the Australia A side in the 2-0 series win against India A, said he has been watching the bowling clips of Indian quicks including Bumrah and Mohammed Siraj to be hard to mimic that. "I'll definitely dive a lot deeper into it when I get to Perth. I've looked at a few clips of what they're bowling

attack stacks up like. I'm just trying to visualise how I'm going to go about it. Facing a new bowler can be a slight challenge to just pick up their action," he said. "I've got a whole week before I head off to Perth, so, I can get mentally ready and I guess it starts now in preparation to hopefully start

really well," he added. However, a quiet confidence runs through the young batter ahead of the important series. "In the last month or so I really feel like I'm batting the best I ever have. I think I'm the best I've ever been prepared to take this opportunity, so hopefully I

can do that. "No doubt there's plenty of learning and experiences that I haven't experienced yet and I'm looking forward to learning all about the challenges of Test cricket and challenging my game against the very best," he said. McSweeney will step into the shoes of David Warner, who retired from international cricket after the home Test series against Pakistan in January this year, and the Adelaide man realises the enormity of the job. The right-hander has a plan for it. "Being an opening batter, it's making sure I'm leaving the ball well and making the bowlers are bowling to me. Then being ready and positive to score when they miss is as simple as I want to make it. "If I'm reacting well and doing those things well, hopefully, it equates to me spending time in the middle and chipping away at the scoreboard," he said.

Blind T20 WC: Indian team eyes clearance from MHA, MEA; Sports Ministry clears travel to Pakistan

PTI ■ NEW DELHI/KARACHI

The Sports Ministry has given NOC, with no cost to the government, to a 17-member Indian cricket team to travel to Pakistan to participate in the T20 World Cup for the Blind, and the side now awaits clearance from Home and External Affairs ministries. The fourth edition of the Blind World Cup, in which India are the reigning champions, is scheduled to be played at Lahore and Multan from November 22 to December 3. Upon receiving the clearance from the ministries concerned, the squad is scheduled to travel to Pakistan via the Wagah Border on November 21. The development came in the backdrop of the Board of Control for Cricket in India (BCCI) informing its Pakistan counterpart that the Men in Blue will not travel to the neighbouring nation for next year's Champions Trophy. The BCCI sent a mail to the International Cricket Council to that

effect, leaving the future of the marquee event in limbo. Meanwhile, Shailender Yadav, General Secretary of the Cricket Association for Blind in India (CABI) said the 17-member Indian squad for the T20 WC was picked after 26 players underwent a 12-day selection trials in Gurugram. "The team has been training in

Gurugram. The players now await an NOC from the Ministry of External Affairs and remain hopeful for a positive response," said Yadav. Apart from India and Pakistan, the T20 World Cup features teams from Afghanistan, Bangladesh, South Africa, Nepal and Sri Lanka. India won the three previous events, defeating

Pakistan twice and Bangladesh once. Tournament as scheduled: PBCC The Pakistan Blind Cricket Council (PBCC) said the tournament will go ahead on schedule irrespective of India's participation. "Pakistan will be hosting the event on schedule and it makes no difference whether the Indian team comes or not," PBCC chairman Syed Sultan Shah said. Shah said arrangements for hosting the World Cup had been completed by the PBCC. "All the other teams in the event have also sent confirmation that they have no issues playing in Pakistan," he said. Indian team for T20 Blind WC: Ajay Kumar Reddy, Debaraj Behera, Nareshbhai Tumda, Nilesh Yadav, Sanjay Kumar Shah, Praveen Kumar Sharma, Venkateswara Rao, Pankaj Bhue, Loksha, Rambir Singh, Irfan Diwan, Durga Rao Tompaki, Sunil Ramesh, Sukhrum Majhi, Ravi Amitti, Dineshbhai Rathva, Dhingar Gopu.

Mohammad Nabi to retire from ODIs after 2025 Champions Trophy

PTI ■ SHARJAH

Afghanistan all-rounder Mohammad Nabi has announced that he will retire from One-Day Internationals after next year's Champions Trophy in Pakistan. After Afghanistan's 2-1 series win over Bangladesh here on Monday, the 39-year-old said he had been pondering about quitting the format since last year's ODI World Cup. "In my mind, from the last World Cup, I was retired. But then, we qualified for the Champions Trophy, and I felt if I could play that, it would be great," he told the official broadcaster after being adjudged the Player-of-the-Series.

Nabi has featured in 167 ODIs since 2009, scoring 3,600 runs in 147 innings at an average of 27.48 and a strike rate of 86.99, including two centuries and 17 fifties, with a top score of 136. With the ball in hand, he has bagged 172 wickets in 161 innings at an average of 32.47 and an economy of 4.27, including four four-

wicket hauls and a fiver (5/17). Afghanistan qualified for the Champions Trophy, thanks to their sixth-place finish during last year's World Cup. It would also be Afghanistan's first-ever appearance in the eight-team competition scheduled to be held in Pakistan in February next year.

Players believing in our style of play is the key, says Manolo Márquez

PTI ■ HYDERABAD

Indian football team head coach Manolo Márquez on Tuesday said it is critical for his players to follow a synchronised approach while representing the country, in order to start getting results in the international arena. The Indian senior men's national team began its training camp ahead of the friendly match against Malaysia on November 18 in Hyderabad. With the Indian Super League going into a break with the start of the November FIFA international window, the Blue Tigers checked into the city on Monday and will have a total of six days of training sessions before the match. "We were supposed to play two

games last month but due to external reasons, Lebanon couldn't come. For people, more games is better. But it's difficult to train the day before and after the match. We need to train tactically as well. "I feel it's necessary to prepare for not just the game against Malaysia but the official matches which will come in March," Márquez said. Márquez had a rough start to his coaching stint with the national team as India were held 0-0 by Mauritius in September and beaten 0-3 by Syria in the Intercontinental Cup, also in Hyderabad. His boys put up an improved showing, especially in the second half, against Vietnam in a 1-1 draw last month in Nam Ð?nh. The Spaniard has continued the trend of calling up new players in

each FIFA window so far. This time, Hmingthanmawia Ralte, Vibin Mohanan, Irfan Yadwad and Thoiba Singh Moirangthem earned their first national team call-ups. The latter was a last-minute arrival after Anirudh Thapa suffered an injury during the match between Mohun Bagan Super Giant and Odisha FC on Sunday. Since taking charge in July, Márquez's priority has been to utilise the friendly matches and training sessions to find the best group of players for the 2027 AFC Asian Cup Qualifiers, scheduled to start in March 2025. "It's true that we want to check some new players. But obviously it's impossible to change the whole group and call 40 players in March.

It's true that we are finding the group. It means that we have maybe 14, 15, 16 players who will be there, but we don't know exactly. And there are a lot of players who can get there," the coach said. "Obviously, it's still four months, and the situation can change with a lot of things unfortunately with injuries and the players' domestic form. But, I repeat again, as a coach you need to find the group which can play the style that we want. "I am fully focussed on the Malaysia match at the moment. In a way, it's a dangerous game because the players are in the middle of the fight for the ISL and this is just one friendly game in November, and the next match will be in four months. "But I am very confident in this

group and I feel we will have a good performance next Monday," said Márquez. Still awaiting his first win with India, Márquez remains patient. For now, the key is to find the groove with the right bunch and get results where they matter the most. "Obviously everyone wants to win every game. But the feeling we got after the draw with Vietnam was completely different from what we got after drawing with Mauritius or losing to Syria. "In some moments, we played superb. The one key thing is that the players have to believe in our style of play. I want to win every game and even every training session. The Malaysia game is the last friendly window before the official games."
