#### RAHUL DATTA PTI/NEW DELHI/PERTH

India, on Monday, created history when it trounced Australia in the first Border-Gavaskar Trophy cricket Test match in Perth's Optus Stadium, and became the first country to beat the hosts at this Test centre. This is India's biggest ever Test win in Australia, as it lost by 295 runs.

This emphatic victory came close on the heels of a three-nil drubbing in as many Test matches at home at the hands of New Zealand a few weeks ago. Moreover, India was bowled out by Australia in the first innings for a meagre 150 runs raising doubts of its prowess to tame the mighty hosts. After setting a mammoth 534-run target, India bowled Australia out

for 238 to take a 1-0 lead in the five-match series under stand-in captain Jasprit Bumrah.

In another achievement, India washed away its New Zealand defeat by this victory and stormed back to the top of the World Test Championship (WTC) standings with 61.11 percentage points.

This victory is India's biggest ever, surpassing their previous record of 222 runs, set back in 1978 in Sydney when Australia fielded a weakened side amidst the mass exodus for the Kerry Packer World Series.

The stand-in skipper led from the front with a match-haul of 8/72 as India bowled out the hosts for 238 in 58.4 overs on the fourth afternoon of the opening Test. India are now 1-0 up in the five-Test series with regular skipper

While Yashasvi Jaiswal, Virat Kohli and KL Rahul will be among the heroes with their solid second innings batting performances, it was Bumrah's unbelievable skill-set and self belief during Australia's first innings rout that formed the cornerstone of India's win.

# **DUSU results 2024: NSUI secures President, Joint Secretary posts**

#### STAFF REPORTER NEW DELHI

Making a comeback on the presidential post after seven years, the National Students' Union of India (NSUI), the Congress-backed student body, secured the President and Joint Secretary positions in the Delhi University Students' Union (DUSU) elections on Monday. In a closely contested race, NSUI's Rounak Khatri, a 23vear-old law student, emerged victorious in the presidential race, defeating the RSS-backed Akhil Bharatiya Vidyarthi Parishad (ABVP) candidate Rishabh Chaudhary by over 1,300 votes. Khatri secured 20,207 votes, while Chaudhary, who is pursuing his studies at the Department of Buddhist Studies current-

ly, received 18,864 votes. Khatri is popularly known on campus as "Matkaman" for his unique campaigning style as he had protested against poor water quality in University, for symbolic protest he had installed matkas in campus. The last NSUI president was Rocky Tuseed, who won in 2017.

Choudhary's victory marks the first time NSUI has held the Joint Secretary position since 2016. Lokesh, a member of the Gurjar community, aims to improve campus life for all students and address the con-

cerns of marginalized communities. The last time the power was split evenly between NSUI and ABVP was in 2017, when NSUI held the President and Vice President posts, while ABVP controlled the Secretary and Joint Secretary positions.

The DUSU election results, which were initially scheduled to be announced on September 28, were delayed by nearly two months due to a Delhi High Court order. The court had stalled the declaration of results until the defacement caused during the election campaign was Ritumati campaign to raise cleaned up.

Following the results, celebrations erupted as NSUI supporters, mostly from Congress's student wing, gathered in large numbers, chanting slogans and cheering for their leaders. This victory marks a significant revival of the Congress party's presence in the influential student body after nearly a decade of dominance by ABVP.

The DUSU, the representative body for students from Delhi University's member colleges, faculties, and teaching departments, will serve a term from August 16 of each year to August 15 of the following year. The election results signal a shift in the dynamics of the student union, with both NSUI and ABVP securing strong footholds.

AP national convenor Arvind Kejriwal on Monday announced that an additional 80,000 people in Delhi are now eligible for oldage pensions, bringing the total number of beneficiaries to 5.3 lakh.

Delhi next year, 100 per cent of the elderly population will receive old-age pensions on demand, the party said. Delhi BJP president Virendra Sachdeva said, "Even after this announcement, more than half of Delhi's 10 lakh elderly residents remain uncovered. This is just a drop in the ocean." Delhi Congress president Devender Yadav said that Kejriwal's launch of a portal for the elderly to apply for pensions was a big joke to mislead the people as he would never be able to fulfil this promise, like his hollow promise of giving Rs 1000 per month under the "Mahila

Kejriwal further criticised the BJP's claim of "double-engine governments", stating, "In Delhi, where we have a single-"In engine government, senior citizens receive Rs 2,500. ieutenant Governor Vinai Lieutenant Governor Kumar Saxena has given his approval to key amendments in the Delhi Legal Metrology Rules, 2011, to align them with the central government's regulations.

The changes will shield the common consumer from fraud and cheating by introducing stricter deterrence against malpractices by retailers, wholesalers, and manufacturers, etc, Raj niwas said in a statement. Penalty on use of non-standard weight or measure will be increased from Rs 2,500 to Rs 5,000 for a retailer, Rs 10,000 for wholesale dealer and Rs 50,000 for petroleum industry/petrol pump, the statement said. The fine for manufacture of non-standard weight or measure will be increased from

Rs 2,000 to Rs 1,00,000. Similarly, the penalty for selling of non-standard packages will be increased from Rs 2,500 to Rs 5,000 for retailers and Rs 25,000 for manufacturers, it said.

This will ensure uniformity in regulatory standards across the country, streamlining compliance procedures for businesses and reducing administrative

burdens. The amendments align with the changes recently introduced by the central government under the Jan Vishwas Act, 2023 to ensure fair market practices. The changes include an amendment in Schedule XI of Delhi Legal Metrology (Enforcement) Amendment Rules, 2011 that enhances penalty on users and manufacturers of non-standard weights or measures, the statement said.

The Ministry of Consumer Affairs, Food and Public Distribution had earlier advised the state governments to prescribe the compounding fees in the enforcement rules and circulated a draft model rules in that direction.

While approving the propos-al of the legal department for amendment in the rules, the LG directed that draft notification be forwarded to the Ministry of Consumer Affairs (weight and measures division) for its approval, as mandated in the Act, it said.

The LG has also instructed that the department may process such proposals strictly in accordance with the Government of NCT of Delhi Act, 1991. Once the changes come into

effect, the Delhi government will be empowered to increase compounding fees for specific offences. Specific provisions from the Legal Metrology (Packaged Commodity) Rules, 2011, will be integrated into the Delhi rules to ensure uniformity in regulatory standards across the country, the statement said.

The implementation of these changes will empower con-sumers and create a level playing field for businesses. These amendments will not only strengthen consumer protection but also contribute to the overall economic growth of the region. By aligning with the Central Government's initiatives and implementing best practices, it will help establish Delhi as a consumer-friendly and business-friendly destination

The National Test Survey 2024 will be held in schools across Chhattisgarh on December 4, as proposed by the National Council of Educational Research and Training (NCERT).

The survey aims to evaluate the overall academic performance of the children to establish criteria under the National Education Policy 2020.

The NCERT has named it 'PARAKH'—Performance Assessment, Review, and Analysis of Knowledge for Holistic Development.

This time the survey will focus on students of classes 3, 6 and 9. It will not only review children's proficiency but play a vital role in the state's educational ranking.

It emphasises the overall development of students and in-depth analysis of their knowledge, moving away from traditional educational methods.

# **President Murmu to lead celebrations marking 75 years of the Constitution**

#### PIONEER NEWS SERVICE NEW DELHI

President Droupadi Murmu will lead the celebrations at the Central Hall of the old Parliament complex on November 26 to mark 75 years of India's Constitution, the government announced on Monday.

Vice-President Jagdeep Dhankhar and Prime Minister Narendra Modi and Lok Sabha Speaker Om Birla will taka part in Tugdar's will take part in Tuesday's function in the Central Hall of Samvidhan Sadan to mark the 75th anniversary of the Constituent Assembly's adoption of the Constitution.

Leaders of various opposition parties of the INDIA bloc have written to Lok Sabha Speaker Om Birla, urging him to allow leaders of the opposition in both Houses to speak during the Constitution Day celebration function. Union minister Kiren Rijiju

said Prime Minister Narendra

Modi will not be addressing the event and accused "some of the Opposition parties" of giving reactions without knowing the actual arrange-

ment. The Union minister of parliamentary affairs made the remarks during a pre-event briefing here, in response to a query on leaders of various INDIA bloc parties having written to Lok Sabha Speaker Om Birla to allow opposition leaders of both Houses to speak during the Constitution

Day function. After a presentation by Union Culture Secretary Árunish Chawla, Rijiju and Union ministers Arjun Ram Meghwal and Gajendra Singh Shekhawat interacted with media persons at the National Media Centre.

'The problem with some of the Opposition parties is that without knowing the actual arrangement. They started giving reactions. The prime minister is not even speaking

tomorrow in the function. The Speaker, the vice president and the President of India will speak," he said. "Secondly, we have made sit-

ting arrangements for the Leader of Opposition of both Lok Sabha and Rajya Sabha on the dais. Without knowing anything, this kind of reaction

on a very solemn occasion is condemnable," Rijiju said. The Union minister also said that the Constitution Day celebration was above politics

On the occasion of the 75 years of India's Constitution, we are getting an opportunity to take part in the celebrations at Parliament (complex).

Tomorrow, will be the address of the President. There will be a joint sitting of the members of both Houses. It will be a celebration of 75 years of the adoption of India's Constitution in Delhi. And, many other events will be held in various parts of the country too," he said.

'We will sit in the very same chamber where the Constituent Assembly sittings happened and the Constitution was adopted," Rijiju added. He termed the event a "historic occasion". 'I believe that it is not just an event of the judiciary, execuand legislative tive wings..Entire country has to take part in this celebrations, in full spirt and read the

Preamble," Rijiju said. The minister extolled the Constitution and said it gave rise to a "successful and vibrant democracy". And the credit goes to the founding father, the makers of the Indian Constitution, he added.

The letter written to the Lok Sabha Speaker which to the Lok Sabha Speaker which had been signed by leaders of various parties reads, "We are writing in the context of the function being held tomorrow (Tuesday) in the Central Hall of Samvidhan Sadan to commemorate the 75th anniversary of the adoption of the Constitution of India. We understand that the function will be addressed by the president, vice-president and the prime minister of India.'

The BJP on Monday slammed the opposition parties and said it was not right on their part to stall Parliament proceedings in "retaliation" to their defeat in Maharashtra assembly elec-tions and bypolls in other states

Lok Sabha and Rajya Sabha proceedings were adjourned without transacting any significant business amid uproar by the opposition members on

various issues, including indictment of Adani group chairman Gautam Adani and others in a US court on bribery charges.

"If you are frustrated over your defeat (in just concluded Maharashtra assembly polls and bypolls in various states), will you retaliate by not letting Parliament function? This is not right," senior BJP leader Ravi Shankar Prasad told reporters in Parliament complex.

Lok Sabha Speaker Om Birla parties to avoid ruckus in the House in the name of protests as the Winter Session of Parliament got off to a stormy start.

Parliamentary sources said the Lok Sabha speaker flagged the issue of disruptions during a meeting of the Business Advisory Committee and urged the floor leaders of political parties to convey their dissent in a constructive manner.

The Speaker's remarks came on a day when opposition members raised slogans and trooped to the Well of the Lok Sabha and the Rajya Sabha demanding discussion on the issue of indictment of industrialist Gautam Adani in a US court on bribery charges.

The sources said that the speaker urged members to follow the highest traditions of debate and dialogue in the House

Birla referred to 75 years of adoption of the Constitution and recalled the glorious traditions of "high quality debates by our founding fathers in the constituent assembly", they said.

In view of the Constitution Day celebrations in Samvidhan Sadan on Tuesday, Birla urged the members of various political parties to engage in a meaningful dialogue. President Droupadi Murmu is

scheduled to start the year-long celebrations to mark the 75th anniversary of adoption of the Constitution at a joint sitting of the Lok Sabha and the Rajya Sabha in the Central Hall of the Samvidhan Sadan.

The Rajasthan government on Monday opposed in the Supreme Court a plea accusing it of taking the area allotted to Sanganer open-air jail campus at Jaipur for the construction of a 300-bed hospital and termed it "sponsored litigation". A bench of Justices B R Gavai and K V Viswanathan direct-

ed the registrar of the apex court to act as a court commissioner and submit a report after inspecting the site. It was hearing a contempt plea

PTI NEW DELHI

alleging wilful disobedience by the Rajasthan authorities of the apex court's May 17 order which directed that there shall be no attempt to reduce the area of open-air camps/prisons functioning in the country.

Semi-open or open prisons allow convicts to work outside the premises during the day to earn a livelihood and return in the evening.

The concept was introduced to assimilate the convicts with society and reduce psycho-logical pressure as they faced difficulties in leading normal lives outside.

Solicitor General Tushar Mehta, appearing for

Rajasthan, said the state has neither reduced nor there is any attempt to reduce the area

of Sanganer open-air camp. 'This is the constituency of the chief minister (of Rajasthan) where there are interested people who do not want a hospital to come up," the top law officer said.

He said the plea had been filed by a "public-spirited man" from Assam.

Mehta said as per the government revenue records, the area allotted to the Sanganer openair jail campus is around 1.78 hectares and neither the allotted area has been reduced nor there is any proposal or decision to reduce it.

He said the area allotted for the construction of a 300-bed government hospital was totally

outside the actual allotted area for the open-air prison.

When Mehta said it appeared to be a "sponsored litigation", the bench asked, "Who can be behind this? It is not as if that somebody has any commercial interest'

"I know the reason, I do not wish to say. Let us not go into it. The purpose is that direction of the court must be complied with," the solicitor general

said. "The hospital construction should not be stayed. That is the intended purpose," he said. Senior advocate S Muralidhar, appearing for the petitioner, said the open-air prison should be allowed to function as it is and nobody was objecting to the construction of the hospi-

# 2017-18: Environment Minister

#### PIONEER NEWS SERVICE NEW DELHI

Ninety-seven of the 130 cities targeted under the National Clean Air Programme have shown improvement in air quality as compared to 2017-18, with 55 recording more than 20 per cent reduction, the Environment Ministry said

on Monday. Responding to a question in the Lok Sabha, Environment Minister Bhupendra Yadav said the National Clean Air Programme (NCAP) aims to reduce particulate matter (PM10) pollution by up to 40 per cent or achieving national air quality standards by

2025-26. As of 2023-24, 97 of the 130 cities targeted have shown improvement in air quality as compared to 2017-18, with 55 recording reduction exceeding 20 per cent, the minister said.

However, concerns about pollution remain in the coal mining regions, particularly in Jharkhand, he added.

Launched in January 2019 by the Ministry of Environment, Forest and Climate Change, NCAP covers 130 cities across 24 states and Union Territories.

The programme has seen notable successes, with cities like Varanasi and Dhanbad achieving PM10 reductions of 68 per cent and 56 per cent, respectively, the min-

istry said. These improvements have been supported by city-specific action plans targeting the sources of pollution such as vehicular emissions, road dust, and industrial pollution.

Financial backing under the 15th Finance Commission's Air Quality Performance Grants has been instrumen-

tal, with Rs 11,211.13 crore allocated between 2019-20 and 2023-24.

This funding has been complemented by resources from Central and state government initiatives, including the Smart City Mission and the Swachh Bharat Mission. In Jharkhand, the govern-ment has undertaken specific measures to combat pol-lution caused by coal mining

operations. These include constructing greenbelt-protected coal transport roads, installing mechanised transportation systems, and implementing

continuous air quality monitoring. However, despite these efforts, the challenges persist. For example, the key mining hubs of Dhanbad, Ranchi and Jamshedpur continue to struggle with pollution levels despite the allocation of Rs

279.44 crore under the NCAP for targeted interventions

Steps like intensified regulatory oversight, installation of fog cannons, and dissem-ination of weekly air quality bulletins aim to enhance public awareness and accountability among the mining players.

However, more rigorous implementation of environmental compliance measures and public engagement will be critical to sustaining these gains

VHP joint general secretary Surendra Jain also demanded that the culprits and their supporters be also booked under NSA and all of them should be made to compen-sate for the damage caused in the violence.

Three people were killed and scores of others, including around 20 security personnel and four personnel of the

# BIS in process of developing standards for 214 critical medical devices

#### PIONEER NEWS SERVICE NEW DELHI

In line with the National Medical Device Policy, 2023 and aiming to address the growing need for reliable and affordable medical assistive technology, the Bureau of Indian Standards (BIS) is in the process of developing stan-dards for 214 critical medical devices.

The national standards body is globally competitive. These efforts build trust among expected to develop standards for innovative products such as "therapeutic footwear, portable ramps, braille displays, and fall detectors". The standardissumers, and international ation will be developed by December 2025, the Union Ministry of Consumer Affairs, Food & Public Distribution said on Monday.

The 214 critical medical devices, identified in consultation with the Department of Pharmaceuticals (DoP), also "includes septal closure devices, plasma sterilisers, and phototherapy machines".

Currently, there are over 1,700 standards for the medical sector, covering specialties such as cardiology, neurology, orthopaedics, ophthalmology, and more.

Of these, around 1,200 standards specifically focus on medical devices critical to healthcare.

This includes life-saving devices like cardiac pacemakers, heart valves, ventilators, and haemodialysis machines; advanced diagnostic tools like X-ray machines, CT scanners, MRI systems, and blood glucose monitors; and assistive technology tools like hearing aids, wheelchairs, Jaipur Foot, and tactile pathways for visu-ally impaired individuals.

All the losses caused by them should also be recovered from them."

Police on Monday said they have lodged seven FIRs in connection with the violence, naming Samajwadi Party MP Zia-ur-Rehman Barq and local SP MLA Iqbal Mehmood's son Sohail Iqbal as accused.

Addressing a press confer-ence, Superintendent of Police Krishan Kumar said six people, including Barq and Iqbal, were named in these FIRs and 2,750 others have

been mentioned as unidentified.

"Due to Barq's statement earlier, the situation became worse here," he added.

The district administration has already imposed prohibitory orders and barred the entry of outsiders into

Sambhal till November 30. Internet services are suspended in Sambhal tehsil and the district administration declared Monday a school holiday.

Tension had been brewing in Sambhal since November 19 when the local Jama Masjid was first surveyed on the court's orders following a petition claiming that a Harihar temple had stood at the site.

# **Celebrating Constitution Day**

The Indian Constitution is not just a legal document; it is the soul of the nation, guiding India through its complexities

very year, on November 26, India celebrates Constitution Day, also known as Samvidhan Divas'. This day commemorates the adoption of the Indian Constitution in 1949, a landmark event that laid the foundation for India's democratic ethos. As we reflect on this momentous occasion, it is imperative to understand the making, functioning and future challenges of this legal document that has been the guiding force for the world's largest democracy, India. The drafting of the Indian Constitution was an extraordinary achievement, considering the diversity and complexities of India. Following independence in 1947, the Constituent Assembly, comprising 299 members, undertook the monumental task of framing a constitution for a newly liberated yet diverse nation. Dr BR Ambedkar, the architect of the Indian Constitution, chaired the drafting committee, ensuring that the document reflected justice, equality, liberty, and fraternity. The Assembly took 2 years, 11 months and 18 days to complete

the drafting process, during which it conducted exhaustive debates and deliberations. Drawing inspiration from the constitutions of various nations, such as the United States, Ireland and Canada, the Indian Constitution incorporated the best practices while tailoring them to Indian realities.

On January 26, 1950, the Constitution came into effect, marking the birth of the Republic of India. The Indian Constitution, with its 448 articles, 12 schedules and numerous amendments, is one of the most detailed constitutions in the world. Its core strength lies in its 'flexibility' and 'adaptability.' While being rigid in its foundational principles, it allows amend-

ments to address evolving socio-political challenges. Since its adoption, the Constitution has guided the nation through numerous challenges, including partition, economic crises, and social upheavals, ensuring continuity and stability. Despite its success, the Indian Constitution faces several challenges. India faces growing tensions between the Centre and states over resource allocation, legislative powers and administrative autonomy, while concerns about judicial activism and transparency persist despite the judiciary's role as a constitutional custodian. Issues such as money power, criminalisation of politics and declining voter turnout demand urgent reforms. At the same time, caste-based discrimination, gender inequality and regional disparities continue to undermine the nation's progress, despite constitutional safeguards. Balancing individual freedoms with national security has become increasingly challenging in the digital age. As India approaches its centenary as a Republic, there is a pressing need to reaffirm commitment to the Constitution's ideals by strengthening institutions for accountability and transparency, fostering participatory democracy, upholding the secular and pluralistic ethos and ensuring that constitutional amendments preserve its core principles.

onstitution Day, known as 'Samvidhan Divas' in Hindi, is celebrated annually on November 26 in India. This day commemorates the adoption of the Indian Constitution, which was formally approved by the Constituent Assembly on November 26, 1949. It later came into effect on January 26, 1950, marking the birth of India as a sovereign democratic republic.

In 2015, the Government of India officially recognised November 26 as Constitution Day through a gazette notification issued on November 19. This followed Prime Minister Narendra Modi's announcement during the foundation-laying ceremony of the 'B R Ambedkar Statue of Equality' memorial in Mumbai on October 11, 2015.

#### The Vision Behind the Indian Constitution

The Indian Constitution is more than a legal charter; it is a visionary framework that upholds the values of justice, liberty, equality, and fraternity. It reflects the collective aspirations of a diverse population, drawing inspiration from Mahatma Gandhi's philosophy of truth, non-violence, and grassroots empowerment. Gandhi's ideals of swaraj (selfrule) emphasised moral values, social equity and the welfare of all, which deeply influenced the Constitution's framers.

Although Gandhi and Dr BR Ambedkar had differences on certain issues, they shared a commitment to social justice and local self-governance. This shared vision is evident in foundational aspects of the Constitution, such as the Preamble, Directive Principles of State Policy and Fundamental Duties. The Preamble: Soul of the

lifelong struggle against colonial oppression and social inequality. Historian Judith Brown aptly stated, "Gandhi's struggle was not just for legal justice but for ethical and humanistic justice that transcends caste, creed and gender." The Preamble remains a guiding light for India's pursuit of a just and inclusive society. **Directive Principles: A Vision** for Social Equity

Part IV of the Constitution, the Directive Principles of State Policy, articulates a vision of economic equity, social justice, and upliftment of marginalised communities. Gandhi's influence is evident in provisions like Article 40, which advocates for the Panchayati Raj system, and Article 43, promoting cottage industries. Historian Anthony Parel observed that these principles are "the most visible articulation of Gandhi's socio-economic vision aimed at eradicating poverty and ensuring dignity

Fundamental Duties: Rights and Responsibilities

Mahatma Gandhi emphasised the interconnectedness of rights and duties, asserting that rights derive their meaning from duties well-performed. Reflecting this philosophy, the 42nd Amendment introduced Fundamental Duties in 1976. These duties,

#### Modern Context As India navigates contemporary challenges, the values

rooted in Gandhian philosophy remain profoundly relevant. Nobel laureate Amartya Sen, in 'The Idea of Justice', highlights that justice involves removing barriers that prevent marginalised communities from realizing their potential. Gandhi's vision of Sarvodaya (welfare of all) aligns with this principle, urging inclusive growth and equitable resource distribution. In geopolitics, Gandhi's com-

mitment to peace and 'Ahimsa' (non-violence) resonates globally. His campaigns, from the Salt March to the Quit India Movement, demonstrated how unity and empowerment can coexist in a diverse society. Historian Ramachandra Guha remarked, "Gandhi's AS THE idea of fraternity, rooted in empathy and non-violence, BEDROCK offers a moral compass for OF THE modern democracy." Decentralized Governance

#### **BJP'S STRONG COMEBACK**

LETTE

Madam -- In just five months, the momentum in Indian politics has shifted dramatically. Following the BJP's underwhelming performance in the last Parliament elections, questions were raised about its durability and PM Modi's pan-national acceptability. Now, it's the opposition INDIA block that is looking fragile. The reason for the shift is a series of unexpected electoral reverses suffered by the INDIA bloc. The most significant of these setbacks occurred in Maharashtra, the second most consequential state in the Indian union. By handing the NDA a mammoth victory, Maharashtra voters have given the alliance a pretext to dismiss the Lok Sabha election jolt as an aberration.

A reversal triggered more by a "fake narrative" spun by a desperate Opposition than any discernible anti-incumbency. In Maharashtra, the BJP with allies not only smashed a five-decade-old electoral record, but it has also come astonishingly close to winning the election on its own steam. The party has been able to reunite its coalition of disparate castes. Add to this, the BJP has been better able to present itself as the emissary of "political nationalism and economic welfarism." Meanwhile, this victory is a stepping stone to the validation it needs to push ahead with its governance agenda.

nation attained independence is now reduced to a deplorable level of contribution, hardly 14 per cent.

The Green Revolution has helped in increasing the yield but the other aspects of the farmers, like input cost, subsidies and MSP, in spite of being vital, are not considered favourably but changes are made hostile to the farmers' needs and benefits. The policies of the successive governments are focusing on the industrial sector. A lot of incentives, like concessions, exemptions, and extending huge loans to write off or waive off, and PLI are extended to the industrial sector, though the desired results, like a substantial increase in employment and exports, are not forthcoming. Such apathy in the approach of the government towards agriculture has resulted in millions of farmers resorting to suicide, getting plunged in unbearable debt and small farmers deserting their fields and seeking livelihood in cities.

# **FIRSTCOLUMIN CORPORATE** CAREWASHING

Many organisations falsely present themselves as socially responsible

#### SAKSHI SETHI

owadays we often see that companies are engaged towards launching mental health awareness campaigns while maintaining toxic work environments or failing to provide meaningful employee support; at times companies celebrate diversity during cultural moments without addressing systemic inequities, such as unequal pay or a lack of diverse leadership. But the question arises are the employees getting benefitted or are still victims?

In an age where ethical responsibility and social consciousness are increasingly demanded of corporations, governments and individuals, a troubling phenomenon termed carewashing has emerged. The term refers to the practice of falsely presenting an organisation, business or individual as socially or ethically responsible, particularly in areas of caregiving or support, to improve their reputation or deflect criticism. Much like its environmental counterpart greenwashing, carewashing also exploits emotional appeals to mask the absence of genuine commitment to caregiving causes.

Several factors such as modern consumers increasingly seeking brands that align with their values, create pressure for organisations to appear socially conscious or social platforms that provide both positive as well as failures, thereby encouraging companies to capitalise on social causes for visibility and if that not enough then such organisations outshine its competitors by attracting customers and talent with minimal invest-

ment in genuine reform contribute to the rising of carewashing. While these pressures reflect positive shifts in societal values, they also incentivise performative actions over authentic efforts. It is believed that when carewashing is exposed, it damages trust between organisations and their stakeholders as it is often when the dissonance between claims and actions becomes apparent. Employees who witness discrepancies between an organisation's statements and its actions often feel disillusioned

This alienation leads to reduced morale, engagement and retention, especially among those drawn to the organisation by its purported values. Quiet often we hear once the trust is lost, rebuilding it is a slow and costly process. Exposure to carewashing through whistleblowers, investigative journalism, or public criticism can lead to significant reputational harm. By co-opting social causes for profit, carewashing trivializes important issues, potentially reducing the urgency of addressing them authentically. To counteract carewashing, organisations must prioritise authenticity and accountability. This involves providing measurable, verifiable data on social and environmental efforts rather than vague claims; including employees in shaping policies and initiatives to ensure alignment with internal realities; conducting regular audits and feedback loops that will help organisations stay true to their commitments and correct shortcomings and public statements should be backed by tangible actions, such as policy changes or resource allocation. There is no denying that carewashing is a symptom of the growing demand for ethical behaviour in business and society, but it represents a shortcut that sacrifices trust and authenticity for superficial gains. While it may offer short-term visibility, its long-term consequences are overwhelmingly negative, eroding credibility and alienating stakeholders. Organisations must recognise that true social responsibility requires meaningful actions, transparency and a commitment to sustained progress. Only by moving beyond carwashing can businesses and institutions genuinely contribute to a better world while earning the loyalty and respect of their communities

# Food subsidy: Go for direct transfer to curb leakages

analys s 07

Despite extensive measures implemented by the government, including digitisation, pilferage persists, revealing systemic flaws in how food subsidies are administered

ccording to a Study titled 'Rationalising Public Distribution System in India' done by the Indian Council For Research On International Economic Relations (ICRIER), there was grain leakage under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) of 20 million tons (17 million ton of rice and 3 million ton of wheat) which is 28 per cent of the 71 million ton of grain offtake by states (that included 52 million ton of rice and 19 million ton wheat) during August 2022 - July 2023. The Study estimates the annual fiscal cost of this leakage to be around Rs 70,000 crore. Under the PMGKAY, the Union Government asks the Food Corporation of India (FCI) and other state agencies to procure food from the farmers at MSP (minimum support price) and organise its distribution to around 820 million people for free.

The entire cost i.e. MSP paid to farmers plus handling and distribution cost (HDC) is reimbursed to the FCI/other state agencies as a subsidy. The money comes from the Union Budget's allocation for 'food subsidy'. While, the PMGKAY has been in force since January 1, 2023, before that, the Centre was giving food to 820 million persons (7 kg of cereals per person per month to 120 million poorest of the poor persons covered under the Antyodaya Anna Yojana or AAY families and five kilograms of cereals per person per month to the remaining 700 million) at a heavily subsidised price of Rs 2/3/1 per kg for wheat/rice/coarse cereals under the National Food Security Act (NFSA). In addition, since April 2020, it has given 5 kg of food per person per month for "free" to all 820 million beneficiaries under PMGKAY to mitigate the consequences of the COVID-19 pandemic.

From January 1, 2023, it merged the free part of PMGKAY with the regular food security schemes under NFSA. Now, food is available to all 820 million beneficiaries for free under the new incarnation of NFSA, the PMGKAY. As Prime Minister Narendra Modi announced in November 2023, this arrangement will continue for five years until the end of CY 2028. During the financial year (FY) 2022 23, the Centre's expenditure on food subsidy was Rs 272,000 crore. Apart from expenses under PMGKAY for the whole of that FY, this amount also included the subsidy on food grain given under NFSA at the subsidised price of Rs 2/3/1 per kg for wheat/rice/coarse cereals from April to December 2022. Within this total expenditure, how much money was lost due to pilferage? How does the Study reach Rs 70,000 crore? The authors look at the 'economic cost' (EC) of rice and wheat. This is the MSP paid to farmers plus HDC. During 2022-23, this was Rs 36.7 per kg or Rs 36,700 per ton for rice and Rs 25.9 per kg or Rs 25,900 per ton for wheat. Multiply the pilfered quantity of rice 17 million tons by its EC, we get the cost of its pilferage Rs 62,390 crore. Likewise, multiply 3 million tons of pilfered wheat by its EC, and the cost comes to Rs 7770 crore. Thus, the total cost was around Rs 70,000 crore. This

is around 26 per cent of the food subsidy expenditure of Rs 272,000 crore for 2022-23.

Taken as a percentage of the sub-sidy given under PMGKAY alone (the budget doesn't provide this figure; a back-of-the-envelope calculation using annual off-take of 55 million tons, EC for rice and wheat given above and their use in 75:25 ratio, yields Rs 187,000 crore), this is much higher at 37 per cent.

### How has the Study arrived at the quantum of leakage?

The Study picked up monthly off-take (albeit "reported") data from the FCI from August 2022 to July 2023 and saw this in juxtaposition with "actual household consump-**REFERS TO A** tion levels" taken from the Housenoid Consump Expenditure Survey (HCES) 2022-23. While the former was taken as an approximation for the quantity of food grain sent for distribution amongst the PMGKAY beneficiaries, the latter was taken as a proxy of the quantity received. Based on the above comparison, it was concluded that as against 52.4 million tons of rice that were sent, 35.7 million tons were received suggesting a shortfall of 16.7 million tons. Likewise, against 19 million tons of wheat that was sent, 16 million tons were received pointing toward a shortfall of 3 million tons. Thus, a total of 19.7 million tons or IS HIGH close to 20 million tons was pilfered from the public distribution system (PDS). But, there is a flaw in such a comparison. At the Off-take level, it can't be surmised that the quantities that from multiple sources, such as

left the FCI warehouses and were picked up by states were 'entirely' meant for PDS stocks to be used for distribution (actual con-sumption) by the PMGKAY beneficiaries.

Off-take figures also include food stocks in transit, buffer stock, operational reserves and cereals set aside for social welfare schemes and commercial sales by the government. Each of these serves a specific purpose. For instance, 'buffer stock' refers to a strategic stock for smoothening out price fluctuations —buying a commodity when the price is low and releasing it in the market when the price is high. Likewise, 'operational reserves' are kept as a backstop which can

private purchases or state-specific schemes and not just the quantities available under PMGKAY etc. Therefore, it won't be on all fours to directly correlate with PDS off-take.

To conclude, there are leakages from the PDS though not on a scale indicated by the Study. Its root cause has to do with how food subsidy is administered. Under the extant system, the subsidy is built into the price which under this Scheme is Zero. Herein lies the rub.

The availability of a mammoth of around 55 million tons (the quantity distributed under the PMGKAY) in the supply chain with zero price tag is an open invitation to dubious operators to sipnon off and sell in the open market raking in a moolah. Howsoever, foolproof one may make the system (Modi - government has done an exemplary job getting PoS (point of sale machines) installed at 530,000 fair price shops across the country; digitisation of supply chain from procurement to distribution; authentication of beneficiaries with their Aadhaar numbers and so on), as long as subsidy is routed through the State agencies, unscrupulous characters will always find ways to circumvent even the best of technology interventions aimed at curbing pilferage. Pilferage can be eliminated only when the government gives subsidies directly to the beneficiaries and allows the food markets to function competitively and efficiently.

be used quickly in the case of an unplanned event/emergency. Similarly, stock in transit can't be considered as part of food grain meant for PDS consumption within a given time frame.

The quantities meant for all such purposes need to be excluded from the grains that left FCI warehouses and only the net figure available for PDS consumption should be compared with actual household consumption levels as read from the Consumption surveys. It seems, the Study hasn't done it.

This is also corroborated by the fact that the annual distribution of free food for PMGKAY beneficiaries is normally 55 million tons; against this, the Study uses 71 million tons. At the beneficiary's end also, the

actual household consumption level includes cereal consumed

# Addressing rural housing challenges in India: A case study of PMAY-G PMAY-G has transformed rural housing in India, delivering not just shelter but also dignity and opportunity to millions

ousing is a fundamental challenge for rural India, where a significant portion of households live in kutcha structures made of non-durable materials such as mud and bamboo. Transparency in beneficiary selection is another critical strength of PMAY-G. Beneficiaries are identified using the 'Socio-Economic and Caste Census (SECC) 2011' and 'Awaas+ 2018' lists, verified through Gram Sabhas and an appellate process. The program also uses the 'Awaas+2024 Mobile App', which enables households to self-survey and update their housing status. Recently, facial recognition systems were introduced to further improve oversight, ensuring fairness and reducing fraudulent claims.

al challenges that need attention. A significant issue is the lack of awareness among many eligible beneficiaries, particularly in remote areas, about the programme's eligibility criteria, highlighting the need for better information dissemination. Additionally, the program would benefit from stronger feedback mechanisms to address potential blind spots and improve implementation efficiency. Another concern is the uneven progress across states, with some exceeding their targets while others fall behind. Achieving balanced implementation will require greater political consensus and more equitable resource allocation

# **Hezbollah ceasefire deal could come 'within days'**

#### AP 📕 JERUSALEM/DUBAI

The Israeli ambassador to Washington says that a cease-fire deal to end fighting between Israel and the Lebanon-based Hezbollah could be reached "within days." Ambassador Mike Herzog told Israeli Army Radio on Monday that there remained "points to finalize" and that any deal required agreement from the government. But he said "we are close to a deal" and that "it can happen within days."

Among the issues that remain is an Israeli demand to reserve the right to act should Hezbollah violate its obligations under the emerging deal. The deal seeks to push Hezbollah and Israeli troops out of southern Lebanon

Hezbollah did not adhere to a UN resolution that ended the 2006 war between the sides that made similar provisions, and Israel has concerns that it could stage a Hamas-style cross-border attack from southern Lebanon if it maintains a heavy presence there. Lebanon says Israel also violated the 2006 resolution. It is not clear whether Lebanon would agree to the demand. The optimism surrounding a deal comes after a top US envoy held talks between the sides last week in a bid to clinch a deal.

Hezbollah began attacking Israel on October 8, 2023, a day after Hamas' raid on southern Israel, setting off more than a year of fighting. That escalated into all-out war in September with massive Israeli airstrikes in Lebanon and later

Western security officials suspect that Russian intelligence is plane descending normally as it carrying out sabotage against their nations in retaliation for their approached the airport before sunrise, and then exploding into support for Ukraine — including a huge ball of fire behind a buildarson attacks, disinformation and by putting incendiary devices in ing. The moment of impact could packages on cargo planes. In July The crash occurred at a time that one caught fire at a courier hub in Germany and another ignited in

a warehouse in England. Polish prosecutors said last month that parcels with camouflaged explosives were sent via cargo companies to EU countries and Britain to "test the transfer channel for such parcels" that were ultimately destined for the US and Canada Lithuanian officials acknowledged that one line of inquiry will be whether Russia played a role given its suspected involvement in

other cases of sabotage although they stressed that there is no evidence pointing to that yet. "Without a doubt, we cannot rule out the terrorism version," said Darius Jauniškis, chief of Lithuanian intelligence. "We see Russia becoming more aggressive," he said. "But for now,

we really cannot make any attributions or point fingers at anyone, because there is no information about it."

The Lithuanian airport authority identified the aircraft as a DHL cargo plane arriving from Leipzig, Germany, a major freight hub, and one of the injured was a German citizen.

The German transportation ministry said that experts from the German Federal Bureau of

Aircraft Accident Investigation would be sent to Lithuania to help with the investigation. Officials there also cautioned against trying to draw conclusions before all the evidence has been examined. 'No statements can yet be made about the cause of the accident. Whether it was an accident or whether another cause led to the crash of the cargo plane is the subject of the current investigation, German Interior Ministry spokesperson Mehmet Atta said at a briefing in Berlin.

The head of Lithuania's firefighting service said that the plane skidded a few hundred meters (yards), and photos showed smoke rising from a damaged structure in an area of barren trees.

#### AP 📕 SEOUL

Couth Korean opposition Sleader Lee Jae-myung was acquitted on Monday on charges that he persuaded a witness to lie in court to understate Lee's past criminal conviction, in a rare moment of relief from broad legal troubles that threaten to derail his political career.

Lee thanked the Seoul Central District Court judge after the ruling for "bringing back truth and justice." The prosecution didn't immediately say whether it would appeal.

The same court earlier this

month sentenced Lee to a suspended prison term for violating election law by making false public statements while running for president in the 2022 election, which he narrowly lost to conservative rival Yoon Suk Yeol.

If that conviction stands, Lee would be unseated as a lawmaker and barred from running for president in the next election, for which polls now show him to be the favourite. But Lee, who is facing five different trials over corruption and other charges, will likely challenge any guilty verdict he receives, and it's uncertain

whether the Supreme Court would decide on any of the cases before the vote in March 2027. The ruling Monday at the Seoul court was about whether Lee pressured a former employee of Seongnam city into giving false testimony in court in 2019. The testimony was meant to downplay Lee's 2002 conviction that, as a lawyer, he had helped a journalist of KBS television to impersonate a prosecutor to secure an interview with then-Seongnam Mayor Kim Byungryang over corruption suspicions regarding the allocation of new apartments.

# **Education, opportunities pull Indian students to US univs**

Washington

Globalisation, enormous opportunities in the US and a large Indian diaspora are the main attractions for students from India coming to America for higher education, especially in STEM, according to educationists. STEM courses are the ones that fall under the disciplines of science, technology, engineering, and mathematics. "The growth of the Indian youth and their enthusiasm Chander Puri to Subhash Puri for education and the opportu-Which is reflected in my nities in the United States are very much a pull," Marvin PD(972)C Krislov, President of Pace

#### (**PTI**): University, told PTI in an interview. A recent report by the International Educational Exchange revealed that last year, India surpassed China as the top place of origin for international students, with a record 3,31,602 Indian students in the US in 2023-2024. This was a 23 per cent increase from the previous year.

'There's a large Indian-American community that is part of the attraction. People enjoy having those close connections to the Indian community. There are also just enormous opportunities and so

many Indians have come here and gotten their education. Some of them have stayed at least for a while and have had enormous success," Krislov said. According to the report, Indian enrolments increased primarily at the graduate (1,96,567, +19 per cent) and Optional Practical Training (OPT) academic levels (97,556, +41 per cent). OPT is a temporary work permit that allows F-1 international students to gain practical experience related to their field of study.

According to Raj Echambadi, President of Illinois Tech, there

are two fundamental reasons for this. "One, from a US educational perspective, the quality of the Indian students is extraordinarily high. Close to about 60 per cent of them, about 2,00,000 of them are in the graduate programmes in the US out of the 3,30,000 (Indian students in the US)?

"Because our undergraduate infrastructure in India is phenomenal and most of these students are in STEM fields, so there is a natural fit...That fit is what is driving a lot of admissions towards Indian students, Echambadi told PTI in an interview The second broader reason is from the US perspective. When you think about the two major countries, it has been China and India. Roughly about 60 per cent of the student base in the US international student base comes from these two countries. Obviously, over the last few years, there has been a very strong relationship between the Indian government and the US government and it has not been the same (with China). That is actually what is accounting for this disparity, if you will," he added.

**Orsi becomes new** president of Uruguay

AP MONTEVIDEO (URUGUAY)

Uruguay's leftist opposition candidate, Yamandu Orsi, became the country's new president in a tight runoff Sunday, ousting the conservative governing coalition and making the South American nation the latest to rebuke the incumbent party in a year of landmark elections worldwide.

Even as the vote count continued, Alvaro Delgado, the presidential candidate for the center-right ruling coalition, conceded defeat to his challenger while surrounded by sullenlooking family members and colleagues. "The country of liberty, equality and fraternity has triumphed once again," Orsi said to sprawling crowds of supporters that waved flags and shouted their support. "I will be the president who calls for national dialogue again and again, who builds a more integrated society and country."

As initial exit polls began showing Orsi, 57, a working-class former history teacher and twotime mayor from Uruguay's Broad Front coalition, holding a lead over Delgado, cheers rang out across Montevideo's beaches.

Delgado told supporters gathered at his own party's headquarters in the capital of Montevideo that he had lost. The crowd was hushed.

A political heir to former President Jose "Pepe" Mujica, an ex-Marxist guerilla who became a global icon for transforming Uruguay into one of the most liberal and environmentally sustainable nations in the region, Orsi rode to power on promises of safe change and nostalgia for his left-wing party's redis-tributive social policies. He struck a conciliatory tone, vowing to unite the nation of 3.4

million people after such a tight vote. "Let's understand that there is another part of our country who have different feelings today," he said, as fireworks erupted over his stage overlooking the city's waterfront. "These people will also have to help build a better country. We need them too." With nearly all the votes count

ed, electoral officials reported that Orsi won 49.8% of the vote, ahead of Delgado's 45.9%, a clear call after weeks in which the opponents appeared tied in polls. The rest cast blank votes or abstained in defiance of Uruguay's enforced compulsory voting. Turnout in the nation with 2.7 million eligible voters reached almost 90%.

# India's economic outlook for coming months **`cautiously optimistic': Finmin Report**

#### PTI NEW DELHI

ndia's economic outlook for the coming months is 'cautiously optimistic, with agriculture likely to benefit from favourable monsoon conditions, increased minimum support prices and adequate supply of inputs, the finance ministry said in a report.

"Bright agricultural production prospects make the inflation outlook benign, despite existing price pressures in select food items," the October edition of Monthly Economic Review released by the Department of Economic Affairs on Monday said. Early November trends signalled

moderation in key food prices, though geopolitical factors may continue to impact domestic inflation and supply chains, it said. A bumper kharif harvest is expected

to lower food inflation in the coming months, it said, adding that a favourable monsoon, adequate reservoir levels and higher minimum support prices are likely to boost rabi sowing and production.

Amidst a clouded global background, said. and after a brief period of softening momentum over the monsoon

months, the report said, many highfrequency indicators of economic activity in India have shown a rebound in October.

These include indicators of rural and urban demand and supply side variables like Purchasing Managers' Index and E-way bill generation, it

On the employment front, it said, the formal workforce is expanding, with

India's forex reserves increased by USD 64.8 billion so far during 2024, the second-largest increase after China amongst major forex reserve-holding countries, it said.

S&P Global Ratings on Monday revised down its estimate for India's economic growth in the next two financial years as high interest rate and lower fiscal impulse temper urban demand.

In an update to its economic forecast for Asia-Pacific economies after US election results, the rating agency projected a 6.7 per cent GDP growth rate in 2025-26 financial year (April 2025 to March 2026) and 6.8 per cent in the following fiscal year, down from 6.9 per cent and 7 per cent, respectively in previous projections. # Govt to lift ban on commodity futures trading

Edible oil industry SEA on Monday called on the government to lift a ban on futures trading in key agricultural commodities, including crude palm oil and soyabean, citing significant financial impact on its members.

The ban, first implemented in December 2021 on seven agricultural commodities, has been extended multiple times with the current extension running through December 20, 2024.

The report is based on primary and secondary research, taking inputs from 1,307 employers across 23 industries in 20 cities. These findings reveal a dynamic hiring

landscape where industry-specific demands and macroeconomic factors are significantly shaping employment trends, the report added.

This growth will mainly be driven by sectors including logistics, EV & EV infrastructure, agriculture and agrochemicals, and ecommerce, which are heavily investing in infrastructure and technological advancements, it said.

Logistics, for instance, stands out with a 14.2 per cent net employment change, as 69 per cent of companies in the sector look to increase headcount.

This growth is attributed to the sector's adoption of 5G logistics, green supply chain initiatives, and benefits from National Logistics Policy implementations, it noted.

Logistics is followed by EV and EV Infrastructure (12.1 per cent), agriculture and agrochemicals (10.5 per cent), and ecommerce and tech startups (8.9 per cent), where startups are capitalising on AI-enabled customer insights, Web 3.0 applications, and seasonal demand from the festive period, it said.

As technology continues to evolve, the automotive industry is also seeing 8.5 per cent growth, spurred by integrated smart technologies, while the retail sector's 8.2 per cent growth reflects the popularity of

Meanwhile, National Industrial Corridors aim to generate 1 million direct jobs and 3 million indirect jobs in manufacturing and logistics. The semiconductor mission seeks to add 80,000 jobs by 2025 through an investment of Rs 1.25 lakh crore, underscoring India's drive toward high-tech manufacturing.

The employment landscape is increasingly shaped by technology and policy-driven shifts. Our latest findings underscore the diversity in job growth across India, from established urban hubs to emerging cities, and reveal a workforce that is evolving rapidly to meet demands in sectors like logistics, EV, and tech startups," TeamLease Staffing CEO Kartik Narayan said.

External service providers have expressed concerns about the new tender and are seeking clarity on the scope of work, especially given the CIL's reliance on its internal system.

We've sought greater clarity on the expected business in the tender, as our revenue depends on the number of auctions we conduct. Currently, most e-auctions are being handled internally by CIL. It remains unclear whether external providers will serve merely as a backup or whether there will be an assured revenue model. We have not yet decided whether to participate or not," said a top official from one of the two main service providers, requesting anonymity.

 $R^{\mathrm{eal}}$  Madrid playing Liverpool Liverpool Liverpool League has twice in recent years been a final between arguably the two best teams in the competition.

Their next meeting, however, finds two storied powers in starkly different positions at the midway point of the 36-team single league standings format. One is in first place and the other a lowly 18th.

It is not defending champion Madrid on top despite adding Kylian Mbappé to the roster that won a record-extending 15th European title in May.

Madrid has lost two of four games in the eight-round opening phase — and against teams that are far from challenging for domestic league titles: Lille and AC Milan.

The 2020 finalists also will be reunited this week, when Bayern Munich hosts Paris Saint-Germain in the stadium that will stage the next final on May 31.

# I automatically want to put myself in tough scenarios: Jasprit Bumrah

#### PTI PERTH

asprit Bumrah said on Monday that he relishes absorbing the pressure in tight situations as captain and bowler which can make the job of his less experienced colleagues much easier.

The ace pacer was India's standout bowler with an eight-wicket haul in the Perth shaping Test, India's 295-run humongous drubbing of Australia.

"Whenever the tough scenarios come, I look at myself to see how I can contribute, even when I'm not the captain. So, whenever tough scenarios are there, I look at answers - if I'm going to bowl at this moment, what can I do? I automatically want to put myself in tough scenarios," said Bumrah in the post-match press conference here.

His fighting spirit found resonance in young bowlers like Harshit Rana and Nitish Kumar Reddy as all contributed at crucial junctures at the Optus Stadium.

"I was trying to put myself in

that tough scenario to make the job a little bit easier for the new guys coming in. Because, you know, it's not very easy in the first tour to take a lot of responsibility. "So, I was trying to do that and very happy to be on the positive side," he added.

Despite the historic win, Bumrah will have to vacate the top seat when Rohit Sharma returns for the Adelaide Test to lead India. So, how will he tackle a rather personal tough spot? Bumrah offered a cheeky reply

n a reverential tone, India skipper Jasprit Bumrah on Monday paid a massive compliment to Virat Kohli, saying the team needs his support more than the batting mainstay needs theirs.

Kohli's 30th Test century, an unbeaten 100, played a big part in India's epochal 295run win over Australia at Perth after getting rolled over for a paltry 150 in the first innings.

'Special win, first win as captain. We were put under pressure and we showed the character.

"We can take confidence from this game but we need to start fresh in the second Test. We need to carry forward the learnings as well to Adelaide," Bumrah added.
