INDIA AND CHINA TO THAW FROST ALONG LAC

PIONEER NEWS SERVICE ■ NEW DELHI

Signalling a thaw in strained ties between the two countries for the last four years, Foreign Secretary Vikram Misri on Monday announced that India and China have reached an agreement on patrolling arrangements along the Line of Actual Control (LAC) in eastern Ladakh. This leads to eventual disengagement of troops from both sides, Misri said.

REPRESENTATIONAL IMAGE

External Affairs Minister S Jaishankar later said, "...We can say that the disengagement process with China has been completed... We will be able to do the patrolling which we were doing in 2020. I think it's a good development..." This significant development came a day ahead of the Brazil, Russia, India, China and South Africa (BRICS) summit in Kazan, Russia. The two-day summit starts on Tuesday. Prime Minister Narendra Modi may have a bilateral meeting with Chinese President Xi Jinping on the sidelines of the meet, though there is, so far, no official word on it.

contact with each other in a variety of forums. As a result of these discussions, agreement has been arrived at patrolling arrangements along the line of actual control in the India China border areas, leading to disengagement and a resolution of the issues that had arisen in these areas in 2020. We will be taking the next steps on this," he said. The foreign secretary said the Indian and Chinese negotiators were in touch over the last few weeks to resolve the remaining issues. It is understood that the agreement pertains to patrolling in Depsang and Demchok areas. It is not immediately clear whether the agreement facilitates the restoration of patrolling rights that were in place prior to the standoff. Tensions flared up at the LAC in Eastern Ladakh in May 2020 when China unilaterally tried to change the status quo on the border. It led to a major clash between the troops of the two armies on June 15 that

year in Galwan. Twenty Indian army personnel including the commanding officer died in the clash while more than 40 Chinese troops were also killed. Both the sides then amassed troops and weaponry on their respective sides of the LAC. In fact, India, not willing to take any chances, also deployed its troops even during the winter months at the LAC. Earlier, the troops used to withdraw to their bases during the winters. At one point of time, more than 50,000 troops from each side were facing each other on friction points at the LAC. Given the situation, India and China, since 2020, held several rounds of talks at the military and diplomatic levels. While Corps Commanders of the two sides held military level talks, the diplomatic level talks were held under the aegis of Working Mechanism for Consultation and Coordination (WMCC) on India-China Border Affairs.

NIA and Delhi Police officials investigate at the site where a blast occurred on Sunday, near a CRPF school at Prashant Vihar, in Rohini area of New Delhi
Ranjana Dimri/The Pioneer

Delhi bomb investigation exploring multiple angles

SAUMYA SHUKLA ■ NEW DELHI

A suspect wearing a white t-shirt and an Improvised Explosive Device (IED), are the angles that the multi-agency probe is focusing a day after a 'bomb' blast near the Central Reserve Police Force (CRPF) public school sent shockwaves across the national capital. According to police sources, it is suspected that an IED, wrapped in a plastic bag, was hidden in a one-foot-deep pit near the CRPF school wall. A CRPF team visited the spot on Monday morning while its officials from the Institute of IED Management conducted a ground assessment. The National Security Guard's (NSG) Bomb Disposal Squad (BDS) is preparing to submit its final report to the Delhi Police.

expected to submit its initial report to the Ministry of Home Affairs (MHA). Additionally, the National Investigation Agency (NIA) and the Forensic Science Laboratory (FSL) of the Delhi Police have been assisting in the investigation. Meanwhile, shops remained shut and a usually bustling market of the Prashant Vihar area remained deserted due to fear, with businessmen left in distress who are incurring losses ahead of the festival of Diwali, which is usually a peak time for sales of items including jewellery. Moreover, the two schools near the spot, including CRPF school and Lancer's Convent, saw a low turnout of students due to the parents who are concerned for their safety. Linking the blast to a possible Khalistani angle, a purported Telegram post was being circulated on social media which claimed that the blast was carried out in retaliation to the "targeting" of pro-Khalistan separatists allegedly by Indian agents.

Hoax threat callers to have a rough landing ahead

RAJESH KUMAR ■ NEW DELHI

After unabated bomb threat messages to multiple Indian airlines in the past one week, lead to diversions, cancellations and passenger inconvenience, the Union government is planning to make hoax threat calls to Indian airlines a cognisable offence. The government is also planning to put hoax callers on a 'no fly list'.

While it (SUASCA) takes care of the offences when the aircraft is in travel, in flight, if we want to address these kinds of threats that have been happening. We want to take strict action against people who are behind this when there is a fake or hoax threat that they are trying to do, we have to cover the act on the ground and the airport also. So we are trying to make an amendment. Our legal team has worked very thoroughly on this and we are coming up with an amendment," Naidu said.

Union Civil Aviation Minister Kinjarapu Ram Mohan Naidu announced this on Monday, in the National Capital. Currently, this stringent law is invoked against people who make hoax calls and endanger the safety of an aircraft when it is in the air, not on the ground. Meanwhile, two top aviation security officers met Union Home Secretary Govind Mohan and discussed the unabated incidents of bomb threats to Indian airlines, leading to diversions, cancellations and passenger inconvenience. Naidu said amendments are being planned to aviation security rules as well as the Suppression of Unlawful Acts Against Safety of Civil Aviation Act, 1982. "We have come to the conclusion that there are two areas that we can explore - 1) Amendment in Aircraft Security Rules...one of the ideas that we want to propagate by changing these rules is that once we catch hold of the perpetrator who is behind this, we want to put them in the no-flying list... 2) Suppression of Unlawful Acts Against Safety of Civil Aviation Act...", he said.

calls began so that the people making such threats can be put on the no-fly list after they are identified. He added that the National Democratic Alliance (NDA) government at the Centre would not compromise the safety and security of passengers. The minister added that around 10 per cent security has been enhanced at airports across the country in the wake of bomb threats. In a related development, a key high-level meeting was also held in the Ministry of Home Affairs on Monday in which updates were taken from aviation security body Bureau of Civil Aviation Security (BCAS) and the Central Industrial Security Force, which is responsible for security at airports. Bureau of Civil Aviation Security (BCAS) Director General (DG) Zulfiqar Hasan and Director General of Central Industrial Security Force (CISF) Rajwinder Singh Bhatti met Mohan at the latter's office at North Block here. The three officers remained closeted for about half an hour. However, details of the meeting are not known immediately. The CISF guards 68 civilian airports in the country.

GRAP Stage-II invoked, NCR AQI 'very poor'

STAFF REPORTER ■ NEW DELHI

As Delhi's air quality continues to remain in the 'very poor' category, with an average Air Quality Index of 310, the Commission for Air Quality Management (CAQM)'s sub-committee has now invoked the 11-point action plan as per Stage-II of Graded Response Action Plan (GRAP) from Tuesday, with the forecast indicating that the air quality is likely to deteriorate in the coming days. To discourage private vehicles, the authorities can hike parking fees under the stage II GRAP. The CAQM has appealed to people to use public transport and minimise use of personal vehicles and take less congested routes even if slightly longer. It is also advised to regularly replace air filters at recommended intervals in your automobiles, avoid dust generating construction activities during months of October to January and open burning of solid waste and biomass. Data from CPCB shows that several parts of Delhi are currently grappling with "Unhealthy" levels of pollution. Anand Vihar, for example, registered an Air Quality Index (AQI) of 226, while other monitoring stations including Rohini, Sonia Vihar, Dilshad Garden, Vivek Vihar, Ashok Vihar have reported similarly hazardous levels, categorised as either "Unhealthy" or "Very Unhealthy".

agencies concerned in the NCR, in addition to the Stage-I actions already in force, from 8 am of 22.10.2024 in the National Capital Region (NCR)." The decision was taken after the sub-committee took stock of the air quality scenario and air quality forecasts for Delhi made by the India Meteorological Department and the Indian Institute of Tropical Meteorology. In the stage II of the GRAP, there is an 11-action plan meant to be implemented by various agencies including Pollution Control Boards of NCR States and the Delhi Pollution Control Committee (DPCC). These include carrying out mechanical or vacuum sweeping and water sprinkling of the identified roads on a daily basis; Ensuring water sprinkling along with use of dust suppressants (at least every alternate day, during non-peak hours) on roads to arrest road dust especially at hotspots, heavy traffic corridors, vulnerable areas and proper disposal of dust collected in designated sites/landfills; Intensifying inspections for strict enforcement of dust control measures at C&D sites; Focused and targeted action for abatement of air pollution in all identified hotspots in NCR and intensifying remedial measures for the predominant sector(s) contributing to adverse air quality in each of such hotspots; Ensuring uninterrupted power supply to discourage use of alternate power Generating sets/equipment (DG sets etc.) and Strict implementation of the schedule for regulated operations of DG sets across all sectors in the NCR including Industrial, Commercial, Residential and offices etc.

The AQI also recorded 210 (poor category) in Gurugram, 165 (moderate) in Faridabad, 252 (poor) in Noida, 183 (moderate) in Greater Noida, 257 (poor) in Ghaziabad. The CAQM's order read, "In an effort to

prevent further deterioration of the air quality, the Sub-Committee decided that all actions as envisaged under Stage II of the GRAP - 'Very Poor' Air Quality (DELHI AQI ranging between 301-400) - be implemented by all the

There is enough pollution, no firecrackers to be sold: Delhi HC

PIONEER NEWS SERVICE ■ NEW DELHI

The Delhi High Court said on Monday that it cannot allow the sale of firecrackers when there is already "enough" pollution in the national capital. The court's oral observation came while dealing with a petition by the Delhi Fireworks Shopkeepers Association, a group of traders with a "permanent" licence to possess and sell crackers. The petitioner's counsel said the grievance of the traders was with respect to the ban on the storage of firecrackers as it was allegedly resulting in harassment. During the hearing, the court said it would ask authorities to seal the traders' premises being used for storage of firecrackers to ensure that there is no pilferage. "The State must be involved in the sealing process so that there is no pilferage," said Justice Sanjeev Narula. "We are not going to allow you to sell. There is enough pollution in this city,"

the judge orally added. The petitioner's counsel said that even though no crackers were being sold by its members, soon after the ban order, the police started visiting the permanent licensees questioning why they were storing the firecrackers. The court observed that in one of the instances cited by the petitioner, there was an allegation of someone selling the crackers and said whoever acted in contravention of the law would be prosecuted. "We can't make an exception for you. If you store them, there is a possibility of (misuse). We will put a seal. It will be videographed," the court said orally. The Delhi government on September 14 imposed an immediate ban on the production, storage, sale, and use of all kinds of firecrackers across the city, effective from January 1. While making the announcement, Delhi Environment Minister Gopal Rai urged the city residents to support the government's efforts to curb air pollution.

New nuclear reactors coming up in Gujarat, Rajasthan, Haryana

PIONEER NEWS SERVICE ■ NEW DELHI

The Parliamentary Standing Committee on Science and Technology said on Monday here that at least 10 nuclear reactors are being installed in the country while two reactors in Gujarat's Kakrapar have started generating power commercially. According to sources, the new nuclear reactors coming up in states like Gujarat, Rajasthan and Haryana are of 700 MW capacity and will start operating in the next few years. The details of the new nuclear reactors were provided to the members of the Standing Committee of Parliament on Science and Technology, Environment, Forests and Climate Change during a meeting here. Congress leader Jairam Ramesh, who is a member of the committee as well as its former chairman, said members of the panel were informed during the meeting that the Kakrapar-3 and Kakrapar-4 nuclear reactors in Gujarat have been fully synchronised with the grid and are generating power commercially. "This is a major accomplishment since these are indigenously designed 700 MW reactors that were approved in 2007. Construction had begun in 2010. More such reactors are being installed at different locations," he said in a post on X. "Another example of how much continuity there is in our development — which is never acknowledged by 'El Supremo'," Ramesh said, stressing that it was during the Congress rule when the two nuclear reactors in Kakrapar were approved.

Mask up! Traffic congestion jams your lungs with poison

Vehicles spew 18 per cent PM 2.5 in the peak evening hours

BY RAJESH KUMAR

Traffic congestion is the major contributor of air pollution in the National Capital. According to the Decision Support System (DSS) of Indian Institute of Tropical Meteorology, for Air Quality Management in Delhi, emission from transportation accounts contributed to around 11.2 per cent air pollution on Monday. According to a study by IIT Kanpur, the contribution from the local on-road transport sector to diurnal mean PM 2.5 is largest (18%) during the evening traffic peak. It is dominated by

contributions from two- and three-wheelers (50%) followed by heavy-duty vehicles (30%), which also collectively represent 60-70% of the total on-road transport sector at any hour of the day. Breakdown of vehicles and ongoing construction works by agencies like Delhi Metro, Delhi Jal Board and National Highway Authority of India (NHAI) added woes to the congestion, causing inconvenience to daily office goers in the morning and deteriorating air pollution. Mehrauli-Badarpur Road, Mehrauli-Gurugram Road, Netaji Subhash Marg, Wazirabad Road, Raja Garden Road, Kashmere

Gate ISBT, Sadar Bazar, Chirag Dilli, roads surroundings major markets including Sarojini Nagar, Chandni Chowk, Lajpat Nagar, Kamla Nagar were among those areas witnessed heavy traffic on Monday. These stretches are the busiest roads known for heavy traffic flow during the week. Lakhs of people commute in and from Delhi to Gurugram, Noida, Faridabad and Ghaziabad daily. Neighbouring Noida has been consistently contributing between 10 and 11 per cent to Delhi's pollution, while Ghaziabad's share ranges from 5 to 10 per cent, as per the DSS -

Heavy evening traffic moves amidst a blanket of smog, in Gurugram, Monday

IITM data. Bulandshahr, a district in Uttar Pradesh around 110 km from Delhi, adds a noteworthy six to nine percent. Meanwhile, Gurugram and Faridabad in Haryana contribute somewhere between 1.5 and 3 percent and 3 and 5 percent, respectively. DSS, which identifies and forecasts the sources of pollution for the national capital, now has an updated inventory that would help in improving the efficiency of its forecast. As of March 31, 2023, Delhi had 79.5 lakh vehicles, including 20.7 lakh private cars. As per the Statistical Handbook 2023,

Delhi has 20,71,115 registered cars and jeeps; 52,94,900 motorcycles and scooters; 93,654 auto-rickshaws; and 1,18,506 e-rickshaws that provide last-mile connectivity. Data also shows that the number of taxis came down from 85,079 in 2021-22 to 83,278 in 2022-23. The number of vehicles in Delhi has decreased due to the Delhi government's ban on diesel vehicles older than 10 years and petrol vehicles older than 15 years. The number of vehicles in Delhi has increased by about 21 times in the last three decades, while the road length has only doubled.

Police are ready to serve the public day and night: CM

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav while addressing the programme at Police Line Ujjain on the occasion of Police Memorial Day on Monday said that Police Memorial Day is celebrated every year on 21 October in the memory of martyred policemen who set a unique example of duty-devotion by sacrificing their lives for the internal security, unity, integrity of the country. The police personnel serve the public day and night, sacrificing their lives with the motto of patriotism and public service. I salute all such martyred policemen. Police personnel help in the operation of the country's services and make the high-

est contribution to the internal security of the country. MP Anil Ferozia, MLA Anil Jain Kaluhera, Satish Malviya, Ujjain Mayor Mukesh Tatwal, Ujjain Municipal Corporation Chairperson Kalavati Yadav and senior officials were present in the programme. Chief Minister Yadav said

that during the Corona period, the police personnel remained vigilantly deployed on the altar of duty. The country and state take pride in remembering this unique contribution of the police personnel. During the Corona period, the population of the country remained safe due to the

excellent work of the policemen, health workers and sanitation workers. From independence till today, the police personnel have proved their role meaningful on many such difficult situations. He said that "You are full of courage and valour, your bold steps are bigger than every problem, salute to your bravery, tributes to your valour, you are our strength, the pride of Madhya Pradesh." In the programme, the police personnel performed a parade and saluted the brave martyrs. The parade was led by Reserve Inspector Ranjit Singh. In the programme, Chief Minister Yadav, public representatives and officials paid tribute to the brave martyr police personnel by offering floral wreaths.

During this, Chief Minister Yadav honoured the family members of late martyr Lal Bahadur Singh and late Balram by presenting them shawls and shrifals. The CM got introduced to the parade commander. IG Santosh Kumar Singh said that Police commemoration day reminds us of those brave police personnel who have sacrificed their lives to protect the society and the country. 65 years ago, on 21 October 1959, 10 jawans of the patrolling party of the Central Reserve Police Force sacrificed their lives in an encounter with the Chinese armed forces at an altitude of 16 thousand feet in the snowy area of Hotspring in Ladakh. Since then, every year 21 October is celebrated as Police commemoration Day.

Model School among top 10 in World school education ranking

STAFF REPORTER ■ BHOPAL

For the third time in a row Government Model Higher Secondary School, T T Nagar, Bhopal has become the first and only school in Madhya Pradesh to make it in the top 10 of the Education World School Ranking. Model Higher Secondary school has achieved an excellent position for the third consecutive year in the ranking of government schools released by Education World. This year the model school has got seventh place in the ranking of Education World. The award distribution ceremony was organized by Education World in New Delhi from October 17 to 19, 2024. In the ceremony, the

Principal of the school, Rekha Sharma, was awarded for securing the seventh position in the country in the government sector. Education World is a portal for teachers and parents, which releases the ranking of schools every year. This ranking is based on the previous examination results of the school, cultural activ-

ities, infrastructure, availability of teachers and their output mental emotional services, sports, academic activities and other parameters. On the basis of achievements in all these areas, schools are selected from all over India and marks are given as per the prescribed standards. Marking is done

on the basis of facilities available in the school. Model Higher Secondary School, T T Nagar, Bhopal, run by the Board of Secondary Education, has been successful in making extensive improvements in the quality of education for 3 consecutive years. School Education and Transport Minister Uday Pratap Singh expressed happiness over the Model School getting a place in the world ranking on the basis of excellent performance. He said that the state government is committed to continuously improving the quality of school education. The minister also congratulated the Principal of Model School Rekha Sharma, the entire staff, teachers, Board of Secondary Education, and students.

Police should be alert, sensitive and polite with people: Guv

STAFF REPORTER ■ BHOPAL

Governor Mangubhai Patel said that in a democratic system, the police are the basis of a strong society. The efficiency and behaviour of the police make the common man feel safe. The police should be alert, sensitive, and polite towards the common people. Governor Patel was addressing a programme at Lal Parade Ground, Bhopal on Police Memorial Day. He paid floral tributes at the martyrs memorial and had a cordial meeting with the families of the martyred police personnel. Chief Secretary Anurag Jain was also present in the programme. Governor Patel said that the police are an integral part of the society. Development is impossible

without the active participation of the police. An environment of peace, harmony, and brotherhood in society is very important for growth. He said that it is a matter of pride for all of us that the Madhya Pradesh Police is counted among the best forces in the country. The state police has given meaning to the motto of 'Deshbhakti-Janseva'. It has set records with high standards of devotion to duty. Police should keep them-

selves constantly updated in the changing circumstances. Governor Patel said that it is the big responsibility of the police to maintain the integrity, social and cultural harmony of the country and the state while ensuring law and order. Maintaining coordination with the public is also an important responsibility of the police. He said that the police should constantly update themselves according to the changing circumstances. Governor Patel praised the state police for activities like planting 1.25 lakh saplings in a single day, establishment of police bands and women's police stations in all the districts, target of building 25 thousand houses for police families and establishing of 950 women energy desks. Governor Patel was handed

over the list of martyred soldiers for felicitation by the pallbearer party in the programme. All the proceedings of the parade salute were done by the party. On this occasion, Director General of Police Shri Sudhir Kumar Saxena addressed the gathering. He paid tribute to the bravery of martyrs who fought in the difficult areas of Ladakh on October 21, 1959. He also paid tribute to the martyred soldiers of Madhya Pradesh Police. Senior administrative, police officers and dignitaries paid floral tributes at the martyrs' memorial. Additional Chief Secretary SN Mishra, ADG Shapu, senior police officers, retired police and administration officers and families of martyred policemen were present in the programme.

RNTU Agriculture deptt organises daylong workshop

STAFF REPORTER ■ BHOPAL

Marking World Food Day, a one-day workshop was organized at Rabindranath Tagore University. A host of distinguished speakers addressed students and faculty members on the occasion. Held under the joint auspices of the Department of Horticulture, Agricultural Research Institute, and Faculty of Agriculture at the university, the workshop focused on "Food Security: Challenges and Solutions." In her address, Pooja Singh, Deputy Director of the Agriculture Department, Government of Madhya Pradesh, elaborated on "Madhya Pradesh: The Food Basket of India." She spoke of the significance of the processing industry in preserving

agricultural products and maintaining their quality. In his presentation, D.L. Raikwar informed the audience about advancements in mushroom production and its potential as an industry that can be initiated with minimal capital and resources. HD Verma, Dean of the Faculty of Agriculture, welcomed the audience and

emphasized the importance of the day by describing it as crucial not just for the agriculture and food sectors but for society as a whole. He underlined the need for enhancing preservation facilities to keep food grains from getting spoiled. Sanjeev Gupta, Dean of Academics, shared his thoughts on the current

state of agriculture in Madhya Pradesh and spoke of the success achieved by the Faculty of Agriculture at the university. A quiz competition related to agriculture and the food processing industry was also held for participating students. The workshop included insights into food processing and the technology of high-tech custom hiring centers. The event commenced with the address of Dr. Ashok Kumar Verma, Assistant Dean, who introduced the role of the workshop at the start of the event. In his concluding speech, Dr. Shubham Kumar Kulshreshtha expressed hope that all participants from the industry, academic fraternity, and students would benefit from the experiences shared by the distinguished speakers.

Collector asks cooperative societies to streamline fertilizer distribution process

STAFF REPORTER ■ BHOPAL

In the midst of the ongoing Rabi season, the District Collector Kaushalendra Vikram Singh on Monday asked cooperatives—engaged in the distribution of fertilisers—to streamline processes. In fresh directives to cooperative societies, Collector Singh has asked them to ensure the availability of stocks, timely remittance of payments to Markfed, and systematic disbursement of goods. The directives state that all committee managers are to ensure that the stock of fertilisers available with the society is recorded at designated locations every morning. The societies have also been instructed to ensure that accurate allocations are made to all members. Setting up a dedicated service for the supervision of this activity, the district administrative office stated that distribution will be done solely through POS machines and called for the immediate escalation of technical issues to the numbers provided by the collectorate. In a move to ensure timely distribution, the cooperatives have also been instructed to issue

The societies have also been instructed to ensure that accurate allocations are made to all members

tokens for distribution and prioritise the disbursement to farmers exclusively on a first-come, first-served basis. Amid rumours of a possible shortage of fertilisers and the resultant scramble among farmers to hoard the goods, the district administration has stated that disbursements should align with the crops. The cooperatives have also been advised to provide necessary technical advice on the use of NPK and Super Urea as alternatives to DAP and Potash. Officials have been assigned the task of monitoring the situation and ensuring compliance with the instructions. Rabi season in the district coincides with the beginning of October. The area is recognised around the world for its production of high-fibre and protein-rich Sharbati wheat.

MPTransco employee wins gold medal

PNS ■ JABALPUR

Pintu Yadav, posted in MP Transco (Madhya Pradesh Power Transmission Company), has brought laurels to Madhya Pradesh Power Transmission Company by winning gold medal in the inter-regional Electricity wrestling competition. Pintu Yadav, representing Jabalpur region in this competition held in Ujjain, won the gold medal by defeating the wrestler from Bhopal in a strong manner in the 65 kg weight category. Yadav, posted in Transmission Line Maintenance Jabalpur division, had won the gold medal in the same event last year also. Pintu Yadav has been winning the gold medal in this event continuously for the last four years. The manager of the team of Jabalpur region was Sanjay Singh (Security Officer), wrestling in-charge of Central Sports and Arts Council, Jabalpur. On this achievement of Pintu Yadav, M.P. Transco's Managing Director Engineer Sunil Tiwari has met him and given congratulations and best wishes to him for his

Burglary attempt at Transmission store of MPTransco, Jabalpur

PNS ■ JABALPUR

An attempt was made to steal valuable goods from the transmission stores of Madhya Pradesh Power Transmission Company. The attempt was foiled by the alertness and vigilance of the outsourced security personnel deployed at the transmission store located at Nayagaon. Showing courage and alertness, these security personnel caught three thieves and handed them over to the police. The event was reported even when there was not even morning light, three thieves took advantage of the darkness and stole valuable optical fiber cables and parts of the emergency restoration system used in case of damage to the transmission tower from the transmission store of Nayagaon at around 3.30 in the morning. They were trying to take it on a motorcycle. As soon as security personnel Rohit Yadav and Suresh Yadav, deployed on duty at the transmission store, realized that a theft had taken place, both of them immediately challenged the thieves and in a short struggle caught a thief red-handed. Two thieves had fled

The attempt was foiled by the alertness and vigilance of the outsourced security personnel deployed at the transmission store

and the security personnel posted at store number two, Sumit Yadav and Siddhant Yadav, having received timely information, showed their presence of mind and made them sit on their motorcycles on the pretext of giving a lift and captured them. MP Transco officials an FIR of the incident in Gorakhpur police station. During the proceedings, APS Chauhan, Jitendra Tiwari, Raju Chauhan, Saif Ali, Ankit, Sandeep and Kamlesh Turkar and the security team were present at the spot showing readiness. MP Transco Managing Director Engineer Sunil Tiwari has appreciated the excellent devotion to duty of the security personnel and congratulated them.

Police memorial parade held at Shaheed Park, Bhopal

PNS ■ BHIND

Police Memorial Parade organized in Shaheed Park on the occasion of Police Memorial Day. The policemen were martyred in the attack while on duty. Since then, 'Police Memorial Day' is celebrated every year on 21st October to

honor these martyrs and all the police personnel who died while performing their duty. Police Memorial Parade was organized on the occasion of Police Memorial Day in Shaheed Park of Police Line Bhopal. On this occasion, Superintendent of Police Bhopal Dr. Asit Yadav read

out the names of the police officers employees who were martyred in the country in the past and paid tribute to them. The martyrs were saluted in the Police Memorial Parade, followed by the parade march. Officers, employees, public representatives paid tribute to the martyred soldiers by offering flowers.

Permanent ashrams on lines of Haridwar can be built in Ujjain

PNS ■ UJJAIN

Chief Minister Mohan Yadav has said that Ujjain is identified by its seers and saints. On the lines of Haridwar, sages, saints, Mahants, Akhara heads, Mahamandaleswar, etc. will be allowed to build permanent ashrams in Ujjain. Simhastha, which is held once every 12 years, will be organized in the year 2028. Sadhus and saints require sufficient land/plots to stay in Ujjain, organize Katha, Bhagwat, etc. With this in mind, the state government has made a plan to build permanent ashrams while giving priority to the welfare of sages and saints. Sadhus, saints, and devotees face challenges while organizing such events in private hotels. Chief Minister Dr. Yadav was

talking to journalists regarding Simhastha in the auditorium of Mela Office, Ujjain on Monday. MP Anil Firojia, Rajya Sabha MP Balyogji Umeshnath Ji Maharaj, MLA Anil Jain Kaluhera, MLA Satish Malviya, Mayor Mukesh Tatwal, Municipal Corporation Chairman Smt. Kalavati Yadav, Divisional Commissioner Sanjay Gupta, IG Santosh Kumar Singh, Collector Neeraj Kumar, Singh, SP Pradeep Sharma and media representatives were present. Chief Minister Dr. Yadav said that just as proper ashrams are made for sages in Haridwar, efforts will be made to build permanent ashrams for them in Ujjain also. The plan will be given shape through the Ujjain Development Authority. In view of Simhastha, permanent infrastructure will also be built for basic facilities like roads,

electricity, drinking water, drainage, etc., so that problems caused by temporary construction do not arise. The Chief Minister said that an action plan has been prepared with all the public representatives to develop Ujjain as a religious city like Haridwar. In order to ensure smooth traffic, permanent infrastructure development work like four-lane, six-lane and bridges will be undertaken. Along with basic facilities, ashrams for the saints will be constructed parallelly. Public activities like Anna Kshetra, Dharamshala, Ashram, Medical Center, Ayurveda Center etc. will be organized on priority with the help of the Sanatan Dharma followers. Chief Minister Dr. Yadav said that the state government is working continuously for the holistic development of the

state including Ujjain. Holistic development will open the doors to prosperity for all. It is our priority to ensure that all our religious gurus should be near the places of worship. Chief Minister Dr. Yadav said that only Mahants, Akhara heads, Mahamandaleswar will be permitted for the construction of the Ashram in such a way that the building can be constructed only on 25 percent of the one-hectare plot. The remaining 75 percent of the plot will remain open, with sufficient open space for arrangements like parking, etc. This type of permission will not be given for residential and commercial use. Yadav said that ever since Mahakal Mahalok was formed, a large number of devotees come to Ujjain. The entire plan is to ensure that more such religious events are organized.

Chief Minister Dr. Yadav said that the tender process for Ujjain-Indore six-lane work has begun. Bhoomi Pujan of the Ujjain-Jaora greenfield four-lane road will be performed soon. Indore, Ujjain, Dhar, Bhopal, Gwalior, Jabalpur etc. will be developed in this plan. Development works will be undertaken while retaining the naturally religious spirit of Ujjain. Yadav said that in-principle approval has also been given to operate Indore-Ujjain metro train. Along with this, the Circle Vande Metro train will also be operated connecting Ujjain, Dewas, Fatehabad, and Indore. Its speed will be more than that of the metro train. Along with the rail route, all the routes of Ujjain are also being strengthened. All routes originating from Ujjain will be made four-lane.

Illegal sale of liquor not to be tolerated: Deora

STAFF REPORTER ■ BHOPAL

Deputy Chief Minister Jagdish Deora said that the illegal sale of liquor should be strictly banned in Madhya Pradesh and strict action should be taken against crime. Deora said this in a workshop of licensees of liquor retail shops in connection with the new excise policy/excise system for 2025-26 organized at the Institute of Environmental Studies (EPCO) in Bhopal on Monday. Deputy Chief Minister Deora also held a meeting with distillers, domestic/foreign liquor manufacturers, and bar licensees. He also discussed the achievements of the Commercial Tax Department.

Man falls from moving train

Bhopal: A person was injured after he fell off a moving train near Nijor Gate in the Gadargh area of Narasinghpur in the state on Monday. Upon receipt of information at the Dial 100 control room in Bhopal, the response vehicles swung into action and moved the 40-year-old man to the government hospital in Karel. The man, later identified as Jai Singh—a Home Guard soldier stationed in Jabalpur—was subsequently shifted to the Narasinghpur district hospital for further treatment. According to District Commandant Home Guard TR Chauhan, Singh was on his way from Jabalpur to Bhopal on official duty at the time of the accident. Staff constables Vivek Kumar and pilot Ravindra Patel led the response for the Dial 100 unit, which ensured timely medical attention for the wounded man.

BJP candidate will win Budhni: Chouhan

STAFF REPORTER ■ BHOPAL

Setting the ball rolling for the Budhni by-election, Union Minister for Farmer Welfare Shivraj Singh Chouhan on Monday convened Bharatiya Janata Party (BJP) leaders at his residence in the state capital. Expressing confidence of a BJP victory in the November 13 elections, Chouhan said, "Just as the people of Budhni have given me love and blessings, providing me the opportunity to serve, I have complete faith that they will also extend their full support to Ramakant Bhargava." The former Chief Minister expressed satisfaction that the BJP nominee, Bhargava, had started his campaign by seeking the blessing of the presiding deity at the Salkanpur temple. A number of BJP leaders, including Minister in-charge Krishna Gaur,

Bhopal Mayor Alok Sharma, former minister Rampal Singh were present at the meeting. The by-election in Budhni was necessitated by Chouhan's resignation from the Madhya Pradesh Assembly after he was elected to the Lok Sabha from Vidisha in the 2024 General Elections. Former MLA Rajkumar Patel is the Congress nominee for the by-poll. Results will be declared on November 23.

Desist from setting up shops near electricity poles: MKVVCL advises

STAFF REPORTER ■ BHOPAL

Calling for heightened safety measures during the Diwali season, the central region power distributor on Monday advised businesses to desist from setting up shop under or near electric poles and transformers to avoid accidents. Issuing the safety advisory, the Madhya Kshetra Vidut Vitran Company (MKVVCL) has also asked citizens to exercise caution and maintain a distance from power lines while setting off fireworks. The company—responsible for power distribution in 16 districts across Bhopal, Narmadapuram, Gwalior, and Chambal divisions—further stated that consumers should remain mindful of the approved power load while choosing decorative lighting and refrain from exceeding the limits. Reminding consumers that unauthorised extensions of

the power load and electricity theft are prohibited and may result in penal action, the power distributor said that field teams consisting of vigilance officers will be on the ground to check for unauthorised use of its services under the provisions of the Electricity Act of 2023. While extending wishes to consumers, the power distributor reminded citizens that a little precaution would go a long way in ensuring a safe and happy Diwali in the region. The festival of lights, marking Lord Rama's return to his capital Ayodhya after the conquest of the demon kingdom, will be celebrated on November 29. While devotees celebrate the occasion with lights and fireworks, festivities are often marred by accidents caused by fireworks and short circuits. Several public service departments, including power distribution companies, issue safety guidelines ahead of the festival.

Equestrian Academy excels

Bhopal: Seventeen players of MP State Equestrian Academy have proved their worth by performing brilliantly in the Junior National Equestrian Qualifier-2024. These players performed excellently in various categories of dressage and jumping and confirmed their place for the national competitions. According to the major results, Aradhya Singh, Divyraj Singh Rathore, Jaywant Nawale in CHI Dressage, MD Hamza Aqeel, Vineet Parihar, Sanskar Rathore, Vineet Parihar in Junior Dressage, Bholu Parmar, Bholu Parmar, Moksh Patel in Young Rider Dressage performed excellently.

Nip in the air, night temperatures fall in Madhya Pradesh

Bhopal: Weather conditions have turned mild cold in the state, night temperatures dipped below 18 degree celsius, there will be rain in the southern parts of Madhya Pradesh, Indore, Narmadapuram and Jabalpur divisions for the next 2 days. The weather will change here due to the activity of the low pressure area. The effect of cold may increase at night from October 25. According to the Meteorological Department, the low pressure area is active towards the Arabian Sea. Its effect is also being seen in the southern districts of Madhya Pradesh. It has been raining in the region for

the last 6 days and the weather will remain the same for the next 2 days. On the other hand, the night temperature has fallen by 2 to 5 degrees Celsius in many districts of the state. The night temperature was recorded at 14.8 degree celsius on Sunday. The night was the coldest in the entire state. Nowgong in Chhatrapur district had the second coldest night. The mercury here was 17.6 degree celsius, Raisen recorded 19.8 degree celsius, Chhindwara 18.3 degree celsius, Khajuraho 19.2 degree celsius, Mandla 18.5 degree celsius, Narsinghpur 19.4 degree celsius, Rewa-Sagar 18.6 degree celsius, Tikamgarh

19 degree celsius and Umari recorded a night temperature of 19.1 degree celsius. Talking about big cities, Bhopal recorded 20 degrees Celsius, Indore 20.7 degrees, Gwalior 21.1 degrees, Ujjain 21.8 degrees and Jabalpur recorded a night temperature of 18.2 degrees Celsius. Monsoon has returned from the state on October 15, but due to the activity of the system, rain continues in many districts. During the last 24 hours, rain was recorded in Burhanpur, Narmadapuram, Ratlam, Ujjain, Dewas, Sehore, Bhopal, Raisen, Chhindwara, Pandhurna, Seoni, Balaghat, Betul, Khargone, Barwani, Jhabua.

'Vibrant Vindhya' to be held under CM's leadership

STAFF REPORTER ■ BHOPAL

Industrial development in Madhya Pradesh has got a new direction due to the visionary leadership of Chief Minister Mohan Yadav and his persistent efforts. After the success of Regional Industry Conclaves (RIC) in four divisions, the 5th RIC is being organized at Rewa on 23 October 2024, in which the "Vibrant Vindhya" Buyer-Seller Meet will be held. The vision of Chief Minister Dr. Yadav is to strengthen balanced and equitable economic development in the state. The state is developing as an industrial hub through RIC. The RIC to be held in Rewa will make an important contribution to this connection. The buyer-seller meet to be held in Rewa will promote the industrial development of Vindhya region. More than 2500 entrepreneurs will partic-

ipate in this meet which is not only a platform to promote business partnerships but will also prove to be an important platform between entrepreneurs from different states. The major attraction of this meet is the business partnerships meetings. Where local entrepreneurs of the Vindhya region and entrepreneurs from outside states will discuss business opportunities, there will be an exchange of ideas and new avenues of business will open. Entrepreneurs from more than 10 states including Uttar Pradesh, Gujarat, Rajasthan, Chhattisgarh, Maharashtra and Haryana will participate in the buyer-seller meet. This diversity will not only make the opportunity more interesting but will also strengthen the business network. Local entrepreneurs will get a chance to meet entrepreneurs from outside states directly to

discuss business opportunities. This platform will not only highlight new business possibilities but will also help in giving recognition to regional products at national and international levels. Vindhya, famous for its cultural heritage, is now becoming a major center of business opportunities. This buyer-seller meet will prove to be an important platform to take local products and services to new markets, which will further strengthen business prospects. This initiative of Chief Minister Dr. Yadav will give impetus to regional development and will help in attracting new investors. One of the highlights of the conclave to be held in Rewa will be to introduce the delegates to the rich traditional food culture of the Vindhya region. Guests will enjoy the local flavour by tasting the typical dishes of Baghelkhand, which are deli-

cious and highly nutritious. Main dishes of Baghelkhand Bagja: Jalebi-like vermicelli made from gram flour, which is prepared by dipping it in buttermilk, rich in taste and nutrition. Panbuda: Bread made from rice flour, stuffed with lentil mixture and steamed. Rikmach Ki Sabzi: Pakodas made from various pulses cooked in curd curry, a unique and nutritious dish. Rasaj ki Kadhi: A light and digestive kadhi made of gram flour and curd, which helps in maintaining the balance of taste and health. Maheri: A light and nutritious dish prepared from rice and buttermilk, which is a special food of the Vindhya region. Darbhari Puri and Gudam: Traditional sweet of jaggery with Darbhari Puri, which is considered beneficial in cold weather.

City bus driver, conductor attacked over petty dispute

STAFF REPORTER ■ BHOPAL

Auto rickshaw driver attacked and abused the driver and conductor of a city bus at Board Office Square after a dispute over a passenger in the evening on Saturday. Police said that the miscreant started beating as soon as he entered the bus. The passengers sitting inside panicked and got down and left. This is the third incident in 38 days in Bhopal in which city bus staff were attacked and the bus was vandalised. In this case, MP Nagar police station has registered a case against an auto driver who had beaten the driver over the issue of seating a passenger. The incident is of Sunday evening. This incident was captured in the cameras installed in the bus. On the report of conductor Shubham Mehra, resident of Machhli Market Bairagarh, MP Nagar police has registered a case against the auto driver. Shubham said that he is the conductor of city bus number MP04PA4329. The bus runs

from Chirayu to Aakriti Eco City Salaiya. On Sunday evening, the bus stopped at the stop located at the Board Office crossing during which an auto driver Vishal standing in front came and started abusing and kicking in which they were injured. Conductor Shubham said, auto driver Vishal was drunk, he was abusing. Passengers got scared due to the assault and boarded off the bus. Among the other two earlier incidents a youth stabbed the conductor of a city bus parked at the Board Office Square 12 days ago. The conductor said that the youth had entered the bus to extort money illegally and when he was stopped, he abused and stabbed him. The passengers sitting in the bus got scared due to this incident. Many got off the bus and left. Regarding this incident, Corporation Leader of Opposition Shabista Zaki has raised questions on the security arrangements in buses. Before this incident on September 14 a case of attacking

a conductor was reported near Pt. Khushal Sharma Hospital in Chunabhatti area, miscreants had beaten up City Bus No. MP04 PA3692 conductor Suresh Verma of Kajlikhera Kolar Road. Suresh suffered serious head injuries. His companions immediately took him to the hospital. A policeman had caught one of the miscreants. In February 2017 pickpockets had murdered Kamal Singh (22) resident of Tanda Berasia in a low-floor bus (SR-5) full of passengers. Kamal Singh had boarded a low-floor bus SR-5 (MP-04 PA 1067) that day to go to Bairagarh. In the Kohefiza area, three pickpockets attacked him with a knife and killed and fled.

PAPER WITH PASSION

Dastardly strike

As terrorists kill seven people in Central Kashmir, concerns grow over the effectiveness of security measures

A disturbing pattern of targeted violence has resurfaced in Jammu and Kashmir, with seven killed in a cowardly terrorist attack. The people killed were part of the construction team working on the Z-Morh tunnel, which connects Gagangir to Sonamarg in Central Kashmir's Ganderbal district. Yet another bomb blast occurred in the capital though no one was injured, which raises concerns about potential coordination between terrorist groups and the spread of violence beyond the Valley. While there is no direct evidence linking the incidents, the possibility of a broader security threat cannot be ignored. This latest attack is part of a troubling trend of escalating violence against migrant workers in the region, marking the fifth such incident this year. The recent killings underscore a persistent threat to life in Kashmir. This latest tragedy follows a series of deadly incidents in the Valley. The recent wave of terrorist attacks exposes critical vulnerability of security apparatus. While authorities, including J and K Chief Minister Omar Abdullah

and Lieutenant Governor Manoj Sinha, have condemned these acts and pledged to bring the perpetrators to justice, the recurrent nature of these attacks reveals deeper challenges in counter-terrorism measures and security protocols. The targeted nature of these attacks suggests a deliberate strategy to instill fear among migrant workers and disrupt ongoing development projects. By targeting migrant labourers involved in infrastructure work, terrorists aim to deter economic activities that could stabilise the region. These incidents not only hamper development but also erode the confidence of workers who play a crucial role in key infrastructure projects. Moreover, the attacks signify a broader

attempt to undermine the relative peace that has been maintained in recent years. Despite heightened security measures and the presence of the military in sensitive areas, the perpetrators have managed to carry out attacks on civilians, highlighting significant intelligence gaps and the ability of militants to exploit weaknesses in the security grid to target rather easy groups. A comprehensive review of security measures in Jammu and Kashmir is urgently needed. While military action remains essential, it needs to be complemented by robust intelligence gathering, better coordination between different security agencies and community-based approaches to countering extremist elements. The current situation also points to the need for upgrading the security apparatus around camps housing migrant workers and ensuring that projects with a high number of migrant labourers receive adequate protection. Another pressing issue is the socio-political narrative surrounding such incidents. There is a need for a unified political strategy that addresses not only the immediate security concerns but also the long-term socio-economic challenges that contribute to unrest. Investing in local economic opportunities, countering extremist ideologies through educational initiatives and strengthening intelligence network can make a lot of difference.

Global Hunger Index: Misleading metrics

The accuracy and intent behind GHI rankings are suspect. Does the GHI truly reflect India's reality, or is it a motivated attempt to malign India's image?

SANTHOSH MATHEW

The recent Global Hunger Index (GHI) report, which places India at a dismal 105th position out of 127 countries, has raised eyebrows and sparked considerable debate. While hunger and malnutrition remain pressing global issues, the methodology and conclusions of the GHI, co-authored by two non-governmental organisations—Irish-based Concern Worldwide and German Welthungerhilfe—have drawn criticism, particularly from the Indian government and sections of society.

There is a growing concern that such reports may not just reflect statistics but also carry political and geopolitical undertones aimed at tarnishing India's image on the world stage. The GHI is based on four key indicators: the prevalence of undernourishment, child wasting, child stunting, and child mortality. The scores from these factors are compiled to place countries on a scale from zero (no hunger) to 100 (extreme hunger), with countries scoring closer to zero seen as having little or no hunger issues. India's score of 27.3 puts it in the "serious" hunger category, alongside 42 other countries. Critics of the GHI have raised several concerns about the methodology used in calculating India's score.

Firstly, the reliance on child mortality and child stunting indicators as primary components of the hunger index is problematic. India is a country with a large population, and while child malnutrition is a valid concern, this issue is not unique to India but rather shared by other developing countries. By focusing heavily on this aspect, the report seems to disproportionately penalise India. Additionally, the GHI report uses outdated data from global sources such as the World Health Organisation and the Food and Agriculture Organisation (FAO). India, like many countries, has been undergoing significant improvements in food security through government initiatives such as the National Food Security Act, the Midday Meal Scheme, and public distribution system reforms. However, these efforts do not

seem to be adequately represented in the data used for the GHI. Many believe that the Global Hunger Index is not just about numbers but also about shaping narratives. By positioning India in such a negative light, the report seems to overshadow the country's genuine achievements. India's economy is among the fastest-growing in the world, and its agricultural output has been consistently high. The country's food production is more than sufficient to meet the needs of its population. India has become a net exporter of food grains and has successfully launched programs to improve access to food for its vast population. Given this backdrop, how can India be ranked lower than countries facing severe internal strife, economic collapse and war, such as Afghanistan or even smaller nations like Bangladesh and Nepal?

It's essential to question the intentions behind these rankings. Are they an honest reflection of hunger, or do they serve other interests? Reports like the Global Hunger Index can have far-reaching consequences, not just for the countries they assess but also for global perceptions. The fact that the organisations behind the GHI—Concern Worldwide (Irish) and Welthungerhilfe (German)—hail from Western countries has not gone unnoticed. It raises the question of whether the

THE RELIANCE ON CHILD MORTALITY AND CHILD STUNTING INDICATORS AS PRIMARY COMPONENTS OF THE HUNGER INDEX IS PROBLEMATIC. INDIA IS A COUNTRY WITH A LARGE POPULATION, AND WHILE CHILD MALNUTRITION IS A VALID CONCERN, THIS ISSUE IS NOT UNIQUE TO INDIA

index is truly impartial or if it subtly reflects geopolitical biases. India has made significant strides in addressing hunger and malnutrition, but it seems that these efforts are often ignored or underplayed by such indices. For instance, the Pradhan Mantri Garib Kalyan Anna Yojana, which provided free food grains to over 80 crore people during the COVID-19 pandemic, is one of the world's largest food security initiatives. The fact that India could provide this level of support during a global crisis contradicts the narrative of widespread hunger and undernourishment. To deny that hunger exists in India would be dishonest, but the situation is far more complex than a single ranking can capture. Hunger is not a static issue; it is deeply intertwined with poverty, access to education, healthcare, and infrastructure. The Indian government has been tackling these root causes of hunger through a multi-pronged approach that includes social welfare schemes, employment generation programmes like MGNREGA, and nutrition programmes targeted at women and children. Programmes such as the Integrated Child Development Services (ICDS) aim to provide supplementary nutrition to millions of pregnant and lactating women, along with children under six years of age.

Meanwhile, the Midday Meal Scheme, which serves nutritious meals to school children, has had a significant impact on reducing malnutrition. Despite these efforts, it is undeniable that India still faces challenges. The legacy of poverty, the vast size and population of the country, and regional disparities make it difficult to eliminate hunger overnight. The concerns raised by the Indian government about the Global Hunger Index are not without merit. The index, while claiming to provide an objective measure of hunger, fails to capture the ground realities of individual nations. India, being the second-most populous country in the world, is bound to face issues that smaller nations with more homogeneous populations do not. By painting India as a country where hunger is rampant, the GHI risks creating a false narrative that undermines the substantial progress made by the country. It also risks discouraging the efforts of those working tirelessly on the ground to ensure that no one goes to bed hungry.

What is needed is not biased rankings or politically motivated reports but genuine collaboration between nations to tackle the global hunger crisis. As we reflect on the GHI, one thing is clear: statistics alone do not tell the whole story.

LETTERS TO THE EDITOR

OMAR ADVOCATES STATEHOOD

Madam — Apropos of 'We will not give Kashmir' (October 20), the demand of the newly elected government of J and K under Omar Abdullah for full statehood is not at divergence with the vow of the Modi government on the floor of the Parliament for granting the statehood to Jammu and Kashmir. The only difference is the time factor looking at the highly volatile and inflammable borders infested with Pakistan-sponsored terrorists and Pakistan's propaganda against India on all international platforms. Omar Abdullah government should not vie to show down with the Centre under the political pressure of those who lost elections and whom people rejected in Assembly elections. The National Conference, while keeping Congress at bay, has a better opportunity of coordination with the Modi government for betterment and all-round growth of the State as Congress has turned itself into a sworn enemy of PM Modi and is prone to confrontation with him. People have elected the National Conference for development, education, health, industry and job creation, not for confrontation with the Centre. Terrorism is the biggest threat to the State for destabilising it, and it comes from across the border. Since the Indian army and paramilitary forces are well equipped to combat terrorism and neutralise the terrorists, the State government should restrict itself to the state administration.

Vinod Johri | Delhi

INDIA'S HUNGER CHALLENGE

Madam — The 2024 Global Hunger Index report, in which India ranks 105 among 127 countries, must not be ignored. The nutrition indicators for children under 5 years show that 1 out of 3 children (35.5 per cent) is a victim of stunting. Now, how can a country compete with others when the growth of more than one third of its future workforce has been stunted for not getting enough food to eat? A study says that

Mitigate climate Change

Climate change refers to a long-term shift in temperature and weather conditions. These shifts may be natural but since the 1800s, human activities have been the main driver of climate change. Burning coal, oil and gas to generate electricity and heat or to make goods like cement, steel and electronics produces carbon dioxide and other greenhouse gases that pollute the air to

a large extent. As temperature rises, more moisture evaporates, which exacerbates extreme rainfall and flooding causes more destructive storms. Climate change also changes water availability, making it scarcer in more regions. According to the Climate Change Act 2017, local bodies must consider climate change when preparing their municipal health and wellbeing plan. Local bodies must raise awareness about climate change and how to adopt and mitigate its effects. They must encourage electric vehicles within city limits. Establishing minimum energy for housing infrastructure and renewable energy by creating ordinances and bylaws to help the community adopt climate change is the urgent work of the urban local bodies.

P Victor Selvaraj | Tirunelveli

many gig workers in India have to work for 10 to 14 hours daily for their employers to earn less than Rs 10,000 per month. While overwork damages their health, the poor wage makes their children and family members compromise on food intake.

This is nothing but exploitation. The Centre should allocate more funds for introducing breakfast in addition to the midday meal for all government and aided schools from the nursery level. It is highly commendable that some states and union territories provide additional items such as milk, eggs, and fruits to students from their own resources. But why should not the centre itself allocate the funds for the same for giving those nutritious food items to students all over the country? Otherwise, students of all the states in India will not get those additional, nutritious food items.

KIWIS STUN INDIA

Madam — It's double the joy of winning overseas and certainly for New Zealand,

this victory is so special since they won a test after 36 years to claim 1-0 up in this series at Bengaluru. When Indians were dismissed for a paltry 46 in the first inning, the hope of skipper Rohit Sharma was diminished, but the ray of hope was enlightened by the scintillating 150 by young Sarfaraz Khan along with the swashbuckling knock of 99 from Rishab Pant in the second inning.

Though the Indian scored 462, the later order failed to capitalise on their complacent batting. A target of 107 for the Kiwis to chase became a customary one and Rachin Ravindra's high-powered 134 in the first and an unbeaten 39 in the second innings brought the Kiwis a comfortable win at the end. The gesture from Ravindra's father came by way of his thanksgiving to CSK Academy, where Ravindra took his week-long practice just before this series is worth observing for this young gun's success.

The quiet struggles and shifting realities of ageing

Having left the traditional joint family behind, we now face loneliness and the stark realities of ageing in a world that moves rather fast

SANJAY CHANDRA

Recently, I sat sipping my cup of tea in quiet contemplation as life moved around me. Unbidden, a strange thought struck me. In my younger days, I often felt that the old were more rigid in their approach. I am in my mid-sixties. I still judge those older than me. In the olden days, in my age, I would have been expected to move out of the household to spend time in quiet meditation.

Not any longer. We continue to enjoy the worldly pleasures of life, with the added baggage of rigidity in attitude. We are more self-centred. There are many like me in the age group that we call seniors. I did not have to look far to seek reasons for these changes. I was in the hospital a few months back attending to the admission and discharge formalities for my father. I was told it was essential for an attendant to be present to sign various documents at different stages of the hospitalisation. I do not know if these are mandated rules or if hospitals do this to comply with

medico-legal requirements. These have serious implications for many ailing single seniors with children in distant lands. We do not contemplate a life of dependence on others when we are young. Having led a life on our terms for decades, it is difficult to adjust to a life with rules not set by us. We belong to the generation that has moved out of the age-old joint family milieu to set up unit families. The interaction with even the immediate family is limited to meeting at festivals. One gets to meet the extended family only during family weddings, busy as they are in the daily grind of their units. It is not surprising that we now find ourselves at a crossroads. The young have their own lives and cannot be expected to be available for each ache and pain. A few years back I met a younger acquaintance over coffee. The seniors within his community encouraged young professionals to join the governing body of the community welfare association extending unconditional support. As things settled, the young lot no longer needed to consult the old for each decision. The seniors felt rebuffed, and relationships soured. I recently flew with a medical professional who established a thriving chain of pathology clinics. Approaching 60, he has sold his business. He is now working towards establishing old age homes for the seniors. I was apprehensive because of the stigma attached to these facilities. The old feel a sense of abandonment; the young feel guilty. To face these challenges, he is starting daycare centres for seniors, to spend a few hours engaged in activities of their choice, with adequate medical facilities available. As my medical friend expounded, the

major challenge for the old is loneliness resulting in inadequate communication, which in time may lead to dementia. I would have attributed obsession with self to insecurities over the advancing age, had I not witnessed the same even in the young. A feeling of inadequacy can strike anyone irrespective of age. We are yet to evolve into a society that respects and cares for all. It is the responsibility of each member of the community to help others feel loved and cherished. American author and motivational speaker, Felice Buscaglia, known as 'Dr Love', said, "It is not enough to have lived. We should be determined to live for something. May I suggest that it be creating joy for others, sharing what we have for the betterment of personkind, bringing hope to the lost and love to the lonely." FIRST COLUMN

THE FEAR OF LOSS AND THE QUEST FOR INNER PEACE

Accepting life's impermanence may be the key to transcending fear

RAVI VALLURI

Humans are intrinsically fearful of loss. Misplacement can assume several dimensions. Say mislaying of property, wealth, recognition, position, power, pelf, health and most importantly, life. John's (name changed) steely voice suddenly trembled and quivered as he answered the pretentious cell phone. Rachel (name changed), his daughter had met with a grievous car crash and was wheeled into the ICU of an estimable hospital. Death is the action or fact of dying or being killed, the end of life of a person or an organism. Several years ago, a Japanese warrior was captured by his adversaries and was confined to a dungeon. That fateful night he tossed and turned restlessly and was unable to sleep, fearing the following day when he would be interrogated, tortured and eventually executed. He was staring death in its face. Then suddenly he remembered the priceless words of his Zen Master: "Tomorrow is not real. It is an illusion. The only reality is now." Heeding these esoteric words, the warrior overcame the exacting condition he was encountering and soon his mind became tranquil and he fell asleep. Suffering and fear arise in our minds when humans confront ailment or impending death. No one wishes to pass from being to non-being.

The credo of the human mind is the desire to remain eternally immortal. Millions of cells in the human body perish and are regenerated. But we are not mindful or wakeful of this reality. Do humans compose dirges or elegies like Catullus or Propertius for the dead cells? Or do we carouse and indulge in delirium on the birth of new cells and recite 'Happy Birthday'

songs? "No one wants to die. Even the people who want to go to heaven do not want to die to get there! And yet death is the destination we all share. No one has ever escaped it." Be it Rachel or the Japanese warrior no one has ever attained perpetuity or everlastingness; however bare-knuckled a person may be, he remains a glass jaw to the reality.

Yet youngsters today cannonaded by gizmos and technology become weary and bored of life at the young ages of twenty, thirty and hotfoot to snuff out their lives. Life is indeed holy and hallowed, too valuable and will remain a mystery that should not be recklessly given up. Yet there is no covenant or magic potion which guarantees deathlessness. Identifying and unravelling this mystery has confronted the minds of spiritualists, religious congregations and those of scientists and technocrats alike. A Zen Master was unwell and desired to cast away his body. His pupils implored him that he ought to live longer and disseminate the profound knowledge. It so happened that one disciple remarked, "Whether it is life or death, let it be." The Master was ecstatic with the response and passed away. "Let it be" is much more than a mere aphorism, it is a state of mind.

Our shastras impress that the human mind is influenced by place, time, food, past impressions and associations and the actions of individuals. The footprints bear both efficacious and antipathetic impacts on the human mind. Humans are enslaved by the above-mentioned factors and habits and, as a result, involuntarily superintendents our perceptions, attitudes and behaviour.

And over a period if we are not aware of these negative emotions they compound into anxiety, anger, aggression, covetousness, low self-esteem, and fear. Knowledge about the impermanence of life and variegated dimensions can be gained only through regular practice of pranayama, Sudarshan Kriya, meditation, or mindful observation of breath. This is the secret and the only truth.

Unlocking the full potential of GatiShakti

UTTAM GUPTA

The PM GatiShakti initiative is revolutionising India's infrastructure by integrating digital planning tools to expedite project completion and improve multimodal connectivity

According to the Secretary of the Department for Promotion of Industry and Internal Trade (DPIIT), Amardeep Singh Bhatia, as many as 208 big-ticket infrastructure projects including roads (101), railways (73), urban development (12) and oil and gas (4) worth Rs 1539,000 crore have been recommended for approval under the PM GatiShakti initiative so far. These projects have been recommended by an inter-ministerial group known as the Network Planning Group (NPG) constituted under the PM GatiShakti National Master Plan (NMP). Launched in October 2021, the PM Gati Shakti NMP is a transformative Rs 100 lakh crore initiative aimed at revolutionising the infrastructure in India over the next five years.

Its vision is to create a world-class integrated infrastructure that improves the ease of living, boosts economic growth and makes Indian businesses more competitive. It does so by expediting project completion, reducing timelines, enhancing multimodal connectivity, boosting efficiency across sectors, benefiting logistics (a jargon for handling, storage and transportation) creating jobs and fostering innovation. How does it work? The PM GatiShakti NMP has been developed as a Digital Master Planning tool. It works on a dynamic Geographic Information System (GIS) platform wherein data on specific action plans of all the 16 Ministries/Departments dealing with infrastructure sectors as well as of the States have been incorporated within a comprehensive database.

The NMP portal has over 1,600 layers of geospatial data, showing all physical and social infrastructure of an area viz land, ports, forests, and highways and so on. The NMP revolves around seven primary sectors that are fundamental to economic growth and ensuring seamless connectivity. These sectors are roads, railways, ports, airports, mass transport, waterways and logistics infrastructure.

These are further supported and complemented by sectors like energy (all fuels such as petrol, diesel, ATF, natural gas and power etc) transmission, IT communication, bulk water and sewerage, and social infrastructure. The inter-ministerial NPG has representations from the connectivity infrastructure ministries/departments, involving their heads of network planning division to ensure unified planning and integration of the proposals.

The NPG meets every fortnight and appraises infra projects to ensure multi-modality (a term used to connote several different modes of transportation to get cargo from the factory/port/warehouse to a client's front door), synchronisation of efforts, and comprehensive development in and around the project location. All logistics and connectivity infrastructure projects worth over Rs 500 crore are routed through the NPG. The NPG's approval is required even before making a DPR (Detailed Project Report) at the planning stage. Thereafter, the project follows the normal procedure of approval by the Public Investment Board (PIB) or Department of

AS MANY AS 156 GAPS IN INFRASTRUCTURE TO PORTS AND FOR MOVEMENT OF BULK COMMODITIES LIKE COAL, CEMENT, FERTILIZERS AND FOOD GRAINS, HAVE BEEN IDENTIFIED FOR INTERVENTION UNDER THE PM GATI SHAKTI INITIATIVE

Expenditure under the Ministry of Finance (MoF) and the Cabinet.

Put simply, NMP provides on a centralised portal, a 360-degree view of all the existing projects/initiatives, those under implementation as well as projects under planning stage across all ministries and departments and offers visibility into all critical data relevant to efficient planning and execution. It helps in the identification of critical gaps in infrastructure, helping to select the most efficient routes for transportation, reducing costs, and minimising delays.

As many as 156 gaps in infrastructure to ports and for movement of bulk commodities like coal, cement, fertilisers and food grains, have been identified for intervention under the PM GatiShakti initiative.

The plan also helps in prioritising projects more effectively by leveraging cross-sector interactions, ensuring that the ministries work in harmony to align the projects and allocate resources optimally - based on national priorities - avoiding duplication and redundancies.

The upfront approval by the NPG even before the ministry prepares the DPR can help it in making the RIGHT choices, prevent delays and avoid colossal wastage of resources that were germane to the earlier dispensations when the ministries and departments were working in silos - in an uncoordinated manner - unaware of the happenings and work in progress in other departments and bereft of the crucial data on KEY parameters. The PM GatiShakti is a robust system working on real time basis in a dynamic framework to guide project planning and execution (monitoring through satellite imagery ensures that the ministries can track progress and make necessary

adjustments to keep projects on schedule).

The phenomenal increase in the capacity in all crucial areas such as ports, airports, railways, highways, roads and so on is a testament to the success of efforts made under PM GatiShakti. But, we have a long way to go.

The target of Rs 100 lakh crore investment for building the infrastructure over five years was set by Finance Minister Nirmala Sitharaman in her maiden Budget for 2019-20 (out of this, 39 per cent or Rs 3900,000 crore was to come from the Centre and an equal amount from States and the balance Rs 2200,000 crore from the private sector).

Against this, the investment covered under PM GatiShakti is Rs 1539,000 crore which is just about 15 percent. Even when we take this as a proportion of the investment commitment by the Centre (presumably all projects under PM GatiShakti are centrally sponsored), this works out to 40 per cent. As for the States, they are far behind in meeting their overall investment target of Rs 3900,000 crore.

And, very few of them such as Uttar Pradesh, and Gujarat have boarded the PM GatiShakti platform.

The platform by ensuring visibility, identification of bottlenecks and better coordination can help expedite approvals but it can't be a substitute. The approvals have to be given by the concerned authorities at the central and State levels. Here, projects face long delays especially when it comes to getting environmental and land clearances.

Local protests exacerbate the delays. 'Working in silos' syndrome doesn't go away just because Modi has given a platform to the bureaucrats in various Ministries to sit together and thrash out issues. Sticking to their stance, especial-

ly when it comes to staking their claim to resources (such conflicts are seen more in major projects like roads and railways) often leads to delays. Further, a lack of coordination with the states, as seen in the Sagarmala and Bharatmala projects, has led to slower progress.

Outdated or incomplete data is a major bottleneck. For instance, while land records are digitised in 13 states, the rest lag. This hampers the implementation of projects in states where land records are not digitised as well as roads/highways projects, power transmission lines, and oil and gas pipelines passing through these states.

Even as the PM GatiShakti platform allows for real-time tracking, the authorities don't always make project updates regular, which delays completion. This is particularly true of rural road projects in many districts leading to slow progress.

The investment by the private sector is nowhere near the target of Rs 2200,000 crore set by Sitharaman. In the roads/highways sector, even as the government has asked private players to come under public-private partnerships (PPPs) mode, the latter's response isn't encouraging leaving it to the former to take on the load.

The bottlenecks lead to continuing project delays and cost overruns which cause high tariff/service charges across all sectors highways, railways, ports, airports, power transmission, fuel transportation etc.

These come in the way of making Indian businesses more competitive and ease of living for the common man. All Stakeholders particularly the States should work to surmount the bottlenecks to enable PM GatiShakti to deliver its full potential.

How India's workforce can benefit from the world's growing demand

Tapping into this opportunity requires a systematic approach to connect Indian talent with international employers

India's labour force is one of its greatest assets, with millions of skilled workers spread across various industries, including healthcare, construction, information technology and engineering. However, despite this abundance of talent, many of these workers struggle to find suitable employment within the country. The global labour market, on the other hand, is increasingly facing shortages in these same sectors. Bridging this gap has been a significant challenge.

ADITI BANERJEE

changing work preferences, and evolving technological needs have driven these regions to seek out talent from countries like India. Healthcare, construction, IT, and logistics are some of the industries experiencing the most pressing shortages. We need to recognise this demand early on and respond by connecting skilled Indian professionals with global employers. This will help in aligning the

skill sets of Indian workers with international standards and job requirements, offering thousands secure employment overseas.

A Systematic Approach to Global Mobilisation. The workforce mobilization model should ensure that the process is smooth and transparent for both the workers and the employers. The organisation focuses on several key stages: **Talent and Skill Gaps:** We should conduct thorough assessments of candidates, ensuring they meet international job requirements. By collaborating with top training institutes, they also provide upskilling opportunities to candidates who need it. **Job Matching:** With established relationships with employers in countries such as

Germany, Canada, and the UAE, organisations can ensure that candidates are placed in roles that match their qualifications and aspirations.

Navigating Complexities: Overseas job placement is fraught with regulatory hurdles, but offering complete support with visas, documentation, and legal compliance, ensures candidates can focus on building their careers without administrative delays.

Supporting Worker Welfare: The organisation provides post-placement assistance, offering support with relocation and helping candidates adjust to new cultural environments. This ensures long-term success for workers abroad. Shaping the Industry's Future Beyond individual place-

ments, the organisation's work is in shaping the broader landscape of international labour migration. There has to be a system for fair recruitment practices and the protection of workers' rights. This is critical in an industry that is often plagued by stories of worker exploitation and unethical recruitment agencies. A transparent process ensures that workers are fully informed of the terms of their

contracts before they travel abroad. This approach not only safeguards the interests of Indian workers but also builds trust with global employers. The global demand for skilled labour is at an all-time high, and India has the talent to meet this need. Many organisations have pitched in to fill this gap. 'Magic Billion' creates dignified, well-paying employment opportunities for Indian workers overseas. Since starting in 2018, it has facilitated over 4,000 Indian workers being placed in global roles. It is just not helping individuals find jobs; we're building sustainable careers that elevate both the worker and their families.

Women Empowerment: A particularly noteworthy aspect of such an organisation's work

is its focus on women and young professionals. The global job market offers unique opportunities for these groups, particularly in industries like healthcare and hospitality. Targeted programs need to aim at empowering women to enter these fields and secure high-paying jobs abroad. This is especially significant in a country like India, where barriers to women's employment are still prevalent in many sectors. The organisation's efforts to provide training and certification for nursing professionals, for example, have opened up opportunities for hundreds of women to work in countries where there is a growing demand for healthcare workers. This not only benefits the individual but also creates ripple effects

for their families and communities.

Economic Benefits: India's skilled labour force is not only contributing to the economies of the countries where they work but also bringing significant benefits to India itself. Remittances sent home by overseas workers are a major source of foreign exchange and play a crucial role in the economic development. By placing workers in global jobs, we can help alleviate some of the domestic unemployment pressures. This is especially important for sectors like construction where there is a surplus of skilled labour in India.

Lebanon assesses damage after wave of Israeli strikes on Hezbollah-run financial institution

AP ■ BEIRUT

Lebanese were surveying the damage on Monday after overnight Israeli strikes hit nearly a dozen branches of a Hezbollah-run financial institution that Israel says is used to fund attacks but where many ordinary people keep their savings. The strikes targeted Al-Qard Al-Hassan branches in the southern neighbourhoods of Beirut, across southern Lebanon and in the Bekaa, where Hezbollah has a strong presence. One strike flattened a nine-story building with a branch inside it. Smoke was still rising from several locations on Monday and bulldozers were removing the debris. The Israeli military had issued evacuation warnings ahead of

the strikes, and there were no reports of casualties. Israel invaded Lebanon earlier this month, saying it aims to push Hezbollah back from the border after more than a year of rocket, missile and drone attacks that began after Palestinian Hamas militants launched their surprise October 7, 2023, attack into Israel from the Gaza Strip. Israeli airstrikes have pounded large areas of Lebanon for weeks, forcing over a million people to flee their homes. Avichay Adraee, the Arabic language spokesman for the Israeli military, said warplanes targeted several locations "used to store money for the military arm of Hezbollah", including Al-Qard Al-Hassan, which he said finances arms purchases and is used to pay Hezbollah fighters.

He said Hezbollah stores hundreds of millions of dollars in the branches, without providing evidence, and that the strikes were aimed at preventing the group from rearming. In a series of tweets late Sunday, the Israeli military released maps noting the locations of the branches it planned to target, asking residents nearby to evacuate. Thousands of people fled, jamming streets in the capital. Local Lebanese TV networks sought to reassure the public that areas in central Beirut were not listed as targets after a map issued by the Israeli military indicated it would target an upscale mall that was incorrectly labelled as the location of a branch. The Israeli military did not target the site. The institution, which has more than 30 branches across Lebanon, tried to reassure cus-

tomers, saying it had evacuated all its branches and relocated gold and other deposits to safe areas. The registered non-profit, sanctioned by the United States and Saudi Arabia, has long served as an alternative to Lebanon's banks, which have imposed restrictions in the face of a severe financial crisis that began in 2019. Its name in Arabic means "the benevolent loan", and Hezbollah has used it to entrench its support among the Shiite population in a country where state and financial institutions have failed in recent years. Still, many of its customers are civilians unaffiliated with Hezbollah. The strikes came after US Defence Secretary Lloyd Austin called civilian casualties in Lebanon "far too high" in the Israel-Hezbollah war, and

urged Israel to scale back some strikes, especially in and around Beirut. In a separate development, the Israeli military apologised for a strike on Sunday in southern Lebanon that killed three Lebanese army soldiers. It said it targeted a vehicle in an area that Hezbollah had recently used for attacks without realising it belonged to the Lebanese military. The military said it is "not operating against the Lebanese Army and apologises for these unwanted circumstances". Lebanon's army is a respected institution within the country, but it is not powerful enough to impose its will on Hezbollah or defend Lebanon from Israel's invasion. The army has largely kept to the sidelines as Israel and Hezbollah have traded blows over the past year.

Rescue workers use a bulldozer to remove rubble of destroyed buildings at the site of an Israeli airstrike on Sunday night that hit several branches of the Hezbollah-run Qard al-Hassan Association in Beirut's southern suburb, Lebanon, on Monday. AP/PTI

BRICS remains a positive, stable force: China

PTI ■ BEIJING

Ahead of the BRICS summit in Russia, China on Monday said the bloc representing emerging economies has remained a positive and stable force committed to upholding multilateralism. The summit of Brazil, Russia, India, China and South Africa (BRICS), which now has expanded with five additional members Egypt, Ethiopia, Iran, Saudi Arabia, and the UAE, will be held in the Russian city of Kazan from October 22 to 24. Prime Minister Narendra Modi, Chinese President Xi Jinping along with other leaders are due to attend it. "Let me reaffirm that this year marks the beginning of greater BRICS cooperation," Chinese Foreign Ministry spokesman Lin Jian told a media briefing here, elaborating on China's view of the BRICS. This summit is the first one after the expansion of BRICS, which draws widespread attention from

the international community, he said. "Since its founding, BRICS has followed the spirit of openness, inclusiveness and win-win cooperation, remained true to its founding purpose of seeking strength through solidarity, stayed committed to upholding multilateralism and become a positive and stable force for good in international affairs," he said. During this summit, President Xi Jinping will have in-depth exchanges of views with other leaders on the international landscape, the BRICS practical cooperation, the development of the BRICS mechanism and important issues of mutual interest, he said. "China stands ready to work with other parties to strive for the steady and sustained development of greater BRICS cooperation, open a new era for the Global South to seek strength through solidarity and jointly promote world peace and development," he said.

Meanwhile, China's Foreign Ministry on Monday parried questions on a possible meeting between Prime Minister Narendra Modi and President Xi Jinping on the sidelines of the BRICS summit in Russia this week. "We will keep you posted if anything comes up," Chinese Foreign Ministry spokesman Lin Jian said while replying to a question at a media briefing here. Both Modi and Xi are attending the BRICS Summit in Kazan, Russia, which begins Tuesday. The ties between India and China nosedived following the fierce clash in the Galwan Valley in June 2020 that marked the most serious military conflict between the two sides in decades. China last Friday announced that Xi will attend the BRICS Summit in Russia, where he will work with other parties to open a new era for the Global South to seek strength through solidarity. BRICS originally consisted of Brazil, Russia, India, China and

South Africa, Egypt, Ethiopia, Iran, Saudi Arabia, and the United Arab Emirates have been admitted as new members. The theme of this year's Summit is Strengthening Multilateralism for Just Global Development and Security. The spokesperson of the Ministry, Mao Ning, said that Xi will attend small-group and large-group meetings, BRICS Plus Dialogue and deliver important addresses. Xi will also have in-depth exchanges with other leaders on the international landscape, the BRICS practical cooperation, the development of the BRICS mechanism and important issues of mutual interest, she said. "China stands ready to work with other parties to strive for the steady and sustained development of greater BRICS cooperation, open a new era for the Global South to seek strength through solidarity and jointly promote world peace and development," she said.

Pak limits Chief Justice's term to 3 years

PTI ■ ISLAMABAD

Following an overnight debate, Pakistan's National Assembly passed the controversial judicial amendment bill early on Monday, capping the chief justice's tenure to three years. The National Assembly passed the 26th Constitution Amendment Bill, which the opposition alleges is aimed at watering down the powers of the independent judiciary, at 5 am with 225 members in the 336-member house supporting the bill. The Pakistan Tehreek-e-Insaf (PTI) and the Sunni-Ittehad Council (SIC) opposed the amendment, but six independent members who held their seats with the support of the PTI supported the bill. The government needed 224 votes to pass the amendment. The Senate on Sunday night voted 65-4 to approve the amendment with the required two-thirds majority. The ruling coalition needed the support of 64 members in the upper house of the parliament. Following its passage in both Houses of Parliament, the

Constitution (Twenty-Sixth Amendment) Act, 2024 will now be sent to the president for assent under Article 75 of Pakistan's Constitution and become law after his signatures. The bill, comprising a set of constitutional amendments, including a special commission to appoint a chief justice out of three senior-most judges of the Supreme Court, was approved by the cabinet on Sunday with a consensus among the ruling coalition partners. Law Minister Azam Nazeer Tarar who presented the bill in the Senate said the 'new-face' commission would consist of the Chief Justice, four senior-most Supreme Court judges, two senators and two national assembly members — one of each from the opposition. He said the changes would help expedite the dispensation of justice by the apex court. The amendment blocked the automatic rise of the senior-most Supreme Court judge to the post of chief justice after the incumbent CJP retired. Speaker Ayaz Sadiq presided over the proceedings in the

National Assembly. According to a statement from the Prime Minister's Office (PMO), Prime Minister Shehbaz Sharif has signed the advice for President Asif Ali Zardari to ratify the 26th constitutional amendment. Following the bill's passage, Shehbaz said in the parliament: "Today's amendment, the 26th, is not just an amendment, but an example of national solidarity and consensus. A new sun will rise, emanating across the nation." The opposition alleged the entire exercise was aimed at blocking Justice Mansoor Ali Shah's appointment from becoming the chief justice on the retirement of current CJP Qazi Faez Isa on October 25. PTI leader Hammad Azhar termed the amendment "a death blow to the independence of the judiciary", and explained how giving the power to appoint judges to the apex court and high courts to the government would politicise the judiciary. Another PTI leader Salman Akram Raja called the moment the "bleakest in our parlia-

ment's history", terming it a handover of the control of the judiciary to the executive. PTI leader Ali Zafar, the first to speak in the Senate on the bill, said his party's lawmakers were being forced to vote in favour. He said his party senators were absent as they feared abduction. "It is against the law and morality that coercion is being applied to get the amendment approved," Zafar said, urging the Senate chairman not to count the vote of any PTI senator. Zafar came to the house to give his party's position despite his party saying in a statement that its political committee decided to boycott the voting process in both houses of Parliament. Pakistan People's Party chief Bilawal Bhutto-Zardari, who made elaborate efforts for the passage, said the government would move forward with the amendment whether the PTI voted in favour or not. "We have waited for as long as we could, and today, under any circumstance, this work will be completed," Bilawal told the media.

Seoul wants N Korean troops to leave Russia

AP ■ SEOUL

South Korea on Monday demanded the immediate pullout of North Korean troops allegedly deployed in Russia as it summoned the Russian ambassador to protest deepening military cooperation between Pyongyang and Moscow. South Korea's spy agency said Friday it had confirmed that North Korea sent 1,500 special operation forces to Russia earlier this month to support Moscow's war against Ukraine. Ukrainian President Volodymyr Zelenskyy earlier said his government had intelligence that 10,000 North Korea soldiers were being prepared to join invading Russian forces. During a meeting with Russian Ambassador Georgy Zinoviev, Vice South Korean Foreign Minister Kim Hong Kyun "condemned in the strongest terms" North Korea's troop dispatch that he said poses "a grave secu-

urity threat" to South Korea and the international community, the South Korean Foreign Ministry said in a statement. Kim said that South Korea in collaboration with the international community will mobilise all available means to deal with an act that threatens its vital national security interests. Zinoviev replied he would relay South Korea's position to his home government, according to the South Korean statement. The Russian Embassy quote Zinoviev as saying that the Russian-North Korean cooperation is conducted in accordance with international laws and is not aimed against the security interests of South Korea. The US and NATO haven't confirmed that North Korean troops were sent to Russia. But the reports of their presence have already stoked concerns in South Korea that Russia might provide North Korea with sophisticated technologies that can sharply enhance its nuclear and missile

programs in return for the troops. North Korea's advancing nuclear arsenal is a major security threat to South Korea. North Korean leader Kim Jong Un recently took steps to permanently terminate all relations with South Korea and threatened to use nuclear weapons preemptively. Some observers say South Korea will likely consider supplying weapons to Ukraine if Russian transfers of high-tech nuclear and missile technologies to North Korea are verified. South Korea has joined US-led sanctions against Moscow over its invasion of Ukraine in February 2022. But it hasn't directly provided arms to Kyiv, citing a longstanding policy of not supplying weapons to countries actively engaged in conflicts. Russia has earlier denied using North Korean troops in its war with Ukraine. North Korea's state media hasn't commented on the matter.

Temple being reconstructed after 64 years in Pak's Punjab

PTI ■ LAHORE

A budget of Pakistani Rs 10 million has been allocated to re-construct a Hindu temple in the Punjab province of Pakistan, marking the first phase of restoration 64 years after it was rendered dysfunctional, a media report said on Monday. The Evacuee Trust Property Board (ETPB), the federal body overseeing minority worship places in Pakistan, has started the construction of the Baoli Sahib temple in Zafarwal town of Narowal, a city on the western bank of river Ravi in Punjab, after the place of worship was rendered dysfunctional in 1960, Dawn News reported. Currently, there is no Hindu temple in Narowal district, forcing the Hindu community to perform their religious rituals at home or travel to temples in Sialkot and Lahore. Ratan Lal Arya, former president of the Pak Dharamsthan Committee, said the ETPB's control over the Baoli Sahib temple rendered it non-functional

and the Hindu community, which numbers over 1,453 in Narowal, lacked a dedicated place for worship. After the establishment of Pakistan, the Narowal district had 45 Hindu temples but all of them have over time fallen into disrepair. For the past 20 years, the Pak Dharamsthan Committee has advocated for the restoration of Baoli Sahib temple, Arya said. The government has taken steps to restore the temple to address Hindu community demands, he said. The ETPB is overseeing the construction at the four kanals of land where the boundary wall is the priority. Once completed, the temple will be handed over to the Pak Dharamsthan Committee. Shoaib Siddal, chairman of the One Man Commission of the Supreme Court, and Manzoor Masih, member of the National Commission of Human Rights, have played pivotal roles in this restoration effort.

President Muizzu introduces UPI payment service to boost economy

PTI ■ MALE

Maldives President Mohamed Muizzu has taken "necessary steps" to introduce India's Unified Payments Interface (UPI) in the archipelago nation, slated to benefit the Maldivian economy substantially. Developed by the National Payments Corporation of India (NPCI), UPI is an instant real-time payment system for facilitating inter-bank transactions through mobile phones. Muizzu on Sunday set up a consortium to introduce UPI in the country and appointed TradeNet Maldives Corporation Limited as its leading agency, according to a press release by the President's Office. The president also suggested the participation of the country's banks, telecom companies and fintech companies in the consortium. He "decided to take the necessary steps" on the recommen-

dation of the Cabinet, the press release said. "This move is expected to bring significant benefits to the Maldivian economy, including increased financial inclusion, improved efficiency in financial transactions, and enhanced digital infrastructure," it said. Muizzu also constituted an inter-agency coordination team comprising the Ministry of Finance, the Ministry of Homeland Security and Technology and the country's Monetary Authority to lead the Ministry of Economic Development and Trade in overseeing the establishment of the UPI in the Maldives. The agreement to introduce UPI in Maldives was signed during External Affairs Minister Sri Jaishankar's three-day official visit to the country in August. Earlier this month, dollar-starved Maldives floated a new foreign currency regulation,

limiting types of transactions allowed in foreign currency and imposing mandatory foreign currency exchange controls on tourism establishments and banks. The Maldivian economy appears to have taken a hit after calls to Indian tourists to avoid the picturesque island nation as a response to President Muizzu's 'India Out' campaign last year. Muizzu won the presidential election last year on an 'India out' campaign and asked New Delhi to withdraw its military personnel posted in the archipelago nation by May this year. However, Muizzu has since toned down his anti-India stance and visited India on his first state visit to the country earlier this month. Tourism is the main source of economic activity for the Maldives, contributing nearly 30 per cent of the GDP and generating more than 60 per cent of foreign exchange.

Subianto swears in Indonesia's largest Cabinet since 1966, with 109 members

AP ■ JAKARTA

Newly inaugurated President Prabowo Subianto swore in Indonesia's largest Cabinet since 1966 on Monday, with 109 members representing his pledge for a strong government. He announced the lineup late Sunday and named his Cabinet of ministers, vice ministers and head of national agencies the "Red and White Cabinet," referring to the colours of Indonesia's flag. Subianto became the eighth president of Southeast Asia's largest economy on Sunday. The Cabinet of Subianto's predecessor, Joko Widodo, had 34 ministers and head of government agencies. Subianto's Cabinet is the largest since 1966 when Indonesia's first President Sukarno formed a lineup of 132 ministers in an extremely tense political situation after a failed 1965 coup.

Indonesian President Prabowo Subianto, front centre, and Vice President Gibran Rakabuming Raka, front row fourth from right, pose for a group photo with newly-appointed cabinet ministers after their swearing-in ceremony at Merdeka Palace in Jakarta, Indonesia, on Monday. AP/PTI

The so-called Dwikora Cabinet 2 was dismissed a month later. Subianto has said earlier that he needs a strong administration, even though analysts said that his "fat" Cabinet would bloat the bureaucracy. "I want to create a strong government that would unite our multicultural society and diverse political interests," Subianto said before inviting more than 100 people for interviews at his residence last week. "It must be a big coalition, and some will say my Cabinet is fat." The Cabinet features politicians from a coalition of seven parties who supported his victory in the February election, and figures allied with Widodo's Cabinet, who were reappointed to continue their jobs under Subianto's presidency. Analysts said the move was a political reward to Widodo for the latter's tacit support in the election. Subianto was sworn in with his

new vice president, 37-year-old Surakarta ex-Mayor Gibran Rakabuming Raka. He chose Raka, who is Widodo's son, as his running mate, with Widodo favouring Subianto over the candidate of his own former party. The former rivals became tacit allies, even though Indonesian presidents don't typically endorse candidates. Subianto was a longtime rival of the Widodo, who ran against him for the presidency twice and refused to accept his defeat on both occasions, in 2014 and 2019. But Widodo appointed Subianto as defence chief after his reelection, paving the way for an alliance despite their rival political parties. During the campaign, Subianto ran as the popular outgoing president's heir, vowing to continue signature policies like the construction of a multibillion-dollar new capital city and limits on exporting raw materials intended to boost domestic

industry. Backed by Widodo, Subianto swept to a landslide victory in February's direct presidential election on promises of policy continuity. Subianto reappointed nearly half of Widodo's Cabinet members, including Finance Minister Sri Mulyani Indrawati, making her the first person to hold the ministry under three different presidents. Indrawati, 62, who has served as the executive director of the International Monetary Fund and managing director of the World Bank, is one of Indonesia's longest-serving finance ministers, having held the post for long stretches under Presidents Susilo Bambang Yudhoyono and Joko Widodo. She has earned considerable respect in international circles, particularly for her reforms of the chaotic Indonesian taxation system and her role in steering

Indonesia through the global financial crisis and the COVID-19 pandemic. "We regularly consulted with each other to discuss strategies for strengthening the Finance Ministry and the state finances to support his programmes," Indrawati told reporters after meeting with Subianto last week. Other ministers from Widodo's Cabinet include Interior Minister Tito Karnavian, Trade Minister Zulkifli Hasan, Energy Minister Bahli Lahadalia and State-Owned Enterprises Minister Erick Thohir. Subianto has announced an ambitious goal of increasing annual economic growth to 8% by the end of his five-year term, and embarking on an ambitious spending programme, including an increase in defence spending, hikes in civil servants' salaries, and a programme to give 83 million children free meals.

'Gives us what you stole from us,' Australian senator yells at King Charles

AN Indigenous senator told King Charles III that Australia is not his land and Prime Minister Anthony Albanese said the monarch is not needed as the country's head of state as the British royal visited Australia's parliament on Monday.

You destroyed our land. Give us a treaty. We want a treaty. King Charles spoke quietly with Prime Minister Anthony Albanese while security officials stopped Senator Thorpe from approaching.

"Throughout my life, Australia's First Nations peoples have done me the great honour of sharing so generously their stories and cultures. I can only say how much my own experience has been shaped and strengthened by such traditional wisdom," Charles added.

Australian public to decide," the Buckingham Palace letter said. Earlier Monday, Charles and Camilla laid wreaths at the Australian War Memorial then shook hands with well-wishers on the second full day of their visit.

Attack on Trump was preventable, finds House panel report

Members of both the House and Senate have repeatedly questioned why the Secret Service, an agency tasked with protecting the country's top leaders, didn't do a better job of communicating with local authorities during the campaign rally, particularly when it came to securing the building that was widely agreed to be a security threat but that ultimately was left so unprotected that gunman Thomas Matthew Crooks was able to climb up and shoot.

Service for the security breakdown. "Federal, state, and local law enforcement officers could have engaged Thomas Matthew Crooks at several pivotal moments," the report stated. Lawmakers added that throughout the afternoon, "as Crooks' behaviour became increasingly suspicious, fragmented lines of communication allowed Crooks to evade law enforcement" and climb onto the unsecured roof where he would eventually open fire.

Moldovans secure country's path toward EU membership

Moldovans voted by a razor-thin majority in favour of securing the country's path toward European Union membership, electoral data showed Monday, following a ballot that nearly caused a major setback for the pro-Western president, who accused "criminal groups" of trying to undermine the vote.

In Brussels, the European Union's executive branch, the European Commission, said that its services had also noted Russian interference in Moldova, and it underlined its continued support for Moldova on its EU accession path.

Vietnam appoints army general as new president after turmoil

Vietnam elected Luong Cuong, a military general, as its new president on Monday, the fourth official to fill the role in 18 months. Cuong, 67, was elected by the National Assembly to replace Tu Lam, who remained president even after he was formally appointed as the general secretary of the ruling Communist Party in August.

lence, said Nguyen Khac Giang, a visiting fellow in the Vietnam Studies Programme at Singapore's ISEAS—Yusof Ishak Institute. "Luong Cuong's appointment represents a deliberate attempt to restore balance between Vietnam's military and security functions, particularly ahead of the 2026 Party Congress," he said.

PM MITRA, PLI schemes to attract investment

PTI ■ NEW DELHI

India's textiles sector is expected to attract investments to the tune of Rs 95,000 crore from the seven PM MITRA mega textile parks and the PLI scheme for man-made fabrics and technical textile products in the next 3-5 years, Textiles Secretary Rachna Shah said on Monday.

Apart from the two schemes, the textiles sector will also draw investments from several other channels like FDI (foreign direct investment), she shared, highlighting the government's focus on promoting "sunrise sectors" of man-made fabric, apparel and technical textile.

The textiles secretary informed that "much more substantive outcomes" are being envisaged from the Bharat Tex 2025 mega textiles event to be held in February next year, in terms of not only MoUs but also investments and business generation.

"We are having 7 textile parks so each of them is expected to generate something like Rs 10,000 crore of investment,

that's about Rs 70,000 crore and another Rs 25,000 crore under the PLI scheme for technical textiles and MMF fibre.

"Some of the investment under PLI has already been grounded and in the next 3-5 years or so we should have these large investments coming under the schemes itself. Apart from the schemes, of course a lot of other investment will also be happening, of course there would be FDI and investment

and investments, etc. Happening," Shah said on Bharat Tex.

The government approved the Rs 10,683 crore PLI scheme for the textiles sector in 2021, aiming to promote the production of man-made fabric and technical textile products over five years.

"Bharat Tex 2025 to be held in February is expected to be even bigger than Bharat Tex 2024. We invite you to join Bharat Tex not only as attendees but also as partners and to explore joint ventures for investments and to explore sourcing opportunities. The event represents a chance to experience first-hand energy and creativity of Indian textiles while gaining access to Indian market and export channels world-wide," Special Secretary in the Ministry of External Affairs P Kumaran said.

He was addressing an interaction between the government and foreign missions in India to drive engagement on Bharat Tex 2025, slated to be held from February 14-17.

Indian apparel exporters to post 9-11 per cent revenue growth

PTI ■ NEW DELHI

Indian apparel exporters are expected to register a 9-11 per cent revenue expansion in FY25 aided primarily by gradual liquidation of retail inventory in key end markets and a shift in global sourcing to India, ratings agency ICRA on Monday.

The long-term prospects for Indian apparel exports are favourable, aided by enhanced product acceptance in end markets, evolving consumer trends and a boost from the government in the form of the production-linked incentive (PLI) scheme, export incentives, the proposed free trade agreement with the UK and the EU, among others, ICRA said in a statement.

The expected growth this fiscal follows a tepid performance in FY24 when exports were affected because of high retail inventory, sluggish demand from the key end markets, supply chain issues, including the Red Sea crisis and heightened competition from neighbouring countries, it added.

With the revival in demand, ICRA said it expects the capex spending to increase in FY2025 and FY2026 and may stay in the range of 5-8 per cent of the turnover.

"After a marginal decline (down 2 per cent) in FY24, Indian apparel exporters are estimated to report a 9-11 per cent revenue growth in FY25, benefitting from de-risking strategy adopted by various customers and replenishment of retail inventory in key end markets, especially the US and the EU regions," ICRA Senior Vice President & Co-

Group Head Corporate Ratings Srikumar Krishnamurthy said.

Nevertheless, he said challenges around demand uncertainty persist in a few key markets amid a subdued macroeconomic environment and geopolitical issues.

"Despite the revenue growth, associated operating leverage benefits and softer raw material prices, the industry's operating margins are expected to contract by 30-50 bps on a YoY basis in FY25 with increasing labour costs, freight costs and rise in

other operating expenses," Krishnamurthy added.

ICRA said the recent geopolitical tensions in Bangladesh could result in capacity additions outside the country, including India. Yet, availability of labour at competitive costs and preferential duty access, given its least developed country status for another two years on exports to the US and the EU help Bangladesh to remain competitive against most other developing countries, it added.

"Apart from the benefits to be derived from the fresh capacity additions under the PLI scheme. PM Mega Integrated Textile Region and Apparel scheme is expected to strengthen India's presence in the global apparel trade by providing scale benefits and strengthening the country's presence in the man-made fibre value chain," Srikumar said.

ICRA anticipates the culmination of these schemes to enable Indian apparel exporters to increase their share of the pie in the global apparel trade, he added.

Data leaks: Irdai insurers to conduct IT systems audit

PTI ■ NEW DELHI

Insurance regulator Irdai has directed two insurers to carry out audits of their IT systems following concerns over the recent instances of policyholders' data leaks.

The regulator is also in touch with their management to address the vulnerabilities. Without naming the insurers, the Insurance Regulatory and Development Authority of India (Irdai) said it takes data breaches very seriously and ascertains that it will continue to engage with the companies to ensure that the policyholders' interests are fully protected.

Star Health Insurance had recently admitted data breach. The name of the second insurer could not be immediately ascertained.

"There have been reports of data leaks from two insurers recently," the regulator said. In a release, the Irdai said it is closely monitoring the situation in the case of the concerned insurers and has been in touch with their management.

Regular updates are being obtained to ensure that the policyholders' data and interests are fully protected and the company is taking all steps to arrest the threat posed by this breach, the regulator said.

Irdai said it will continue to engage with the insurance companies to ensure that the policyholders' interests are fully protected.

"The concerned insurers have been instructed to appoint an independent auditor to undertake a comprehensive audit of the company's IT landscape with the aim that there are no vulnerabilities and the IT system are adequate to meet the scale and complexities of their operations," the release said.

As part of the standard operating procedures of the concerned insurers, they reported the cyber incident to the government and Irdai, it added.

It also said the concerned insurers have ring-fenced the impacted IT system by isolating it and at the same time, appointed an external IT security company to undertake root cause analysis.

"The audit firm reported vulnerabilities in the company's IT system and the methodology used by the threat actor to exploit the same, which were acted upon by insurers. The Containment, Eradication and Recoverability plan as suggested by the audit firm is being implemented by the insurers," Irdai said.

Further preventive steps outlined in the report are in the process of implementation to keep the policyholders' data safe and secure. System upgrades over immediate, short and medium periods, will be acted upon by the insurers, Irdai said.

Also, the application programming interface (API)

vulnerabilities, gap assessment, vulnerabilities assessment and penetration testing issues are at an advanced stage of rectification.

"The insurers have filed a criminal complaint with the law enforcement agencies against the threat actors. It served legal notice on the social media platform to prevent the threat actor from selling the policyholders' data," the regulator said.

Further, Irdai has issued an advisory to all insurers to check their IT systems for vulnerabilities and take necessary steps to protect the policyholders' data.

The regulator said it considers data security as very important and takes data breaches, cyber-attacks on IT systems of insurance companies, etc very seriously. Cyber security guidelines for insurance companies are in place, which require insurers to put in place robust IT and cyber security frameworks for carrying out their operations, it added.

NCLAT upholds order to allow govt to takeover Delhi Gymkhana Club's management

PTI ■ NEW DELHI

Appellate tribunal NCLAT has upheld an order to allow the central government to take over the management of the prestigious Delhi Gymkhana Club.

The National Company Law Appellate Tribunal (NCLAT) set aside the petition filed by the erstwhile management members against the order passed by the Principal Bench of the NCLT.

On April 1, 2024, the NCLT allowed the plea filed by the Ministry of Corporate Affairs for taking over the Delhi Gymkhana Club management citing "violations" of the Company Law and said there was "sufficient material" for holding that, as it is a case of mismanagement.

In its 149-page order, the NCLT had also allowed the ministry to nominate 15 persons as directors on the club's general committee as well as manage the affairs of the club.

The said order was challenged before the appellate tribunal, which has been now upheld on Monday by a two-member bench, comprising Chairperson Ashok Bhushan and Member Arun Baroka.

However, the NCLAT bench also directed the government to carry out all remedial measures as mandated by the NCLT, by March 31, 2025.

The committee has further been directed to conduct an election at the club three months after March 31, 2025. The order was pronounced in the open court on Monday morning and a detailed order is still awaited.

"The NCLAT upheld the NCLT's order holding that Union of India's intervention in the affairs of the Delhi Gymkhana Club was necessitated in view of the mismanagement by the erstwhile general committee. The current committee has been asked to take necessary remedial measures by 31st March and conduct elections thereafter," said Advocate Raunak Dhillon, who appeared for the Central government.

In April 2020, the government through the Ministry of Corporate Affairs (MCA) moved the NCLT

Institutional investment in real estate went up 31 per cent

PTI ■ NEW DELHI

Institutional investments in the Indian real estate sector increased 31 per cent year-on-year to USD 4.61 billion in January-September 2024 amid strong consumer demand, according to Vestian.

Real estate consultant Vestian on Monday released its report on 'Investment in Indian Real Estate', observing that funds' inflow from institutional investors in the first nine months of 2024 has already surpassed the total for 2023.

"Investors have shown confidence in India's growth story on the back of robust GDP growth. As a result, the real estate sector witnessed increased participation from foreign investors which led to institutional investments touching a billion mark in Q3 2024," Shrinivas Rao, CEO of Vestian said.

He noted that domestic investors are also actively participating, supported by the rapid infrastructure development across the country.

During the latest July-September quarter, institutional investments in real estate rose 41 per cent to USD 960.8 million from USD 679.9 million in the year-ago period.

The inflow however fell sharply from June quarter that saw an investment of USD 3,116.3 million.

"Amid prevailing geopolitical challenges, India's robust economic growth continues to attract both foreign and domestic investors. Rising prominence of work-from-office policies and growing office markets are expected to boost investor confidence, setting a positive tone for coming quarters," Vestian said.

Despite this significant quarterly decline of 69 per cent, the consultant said that the outlook remains positive. Chennai received the highest investments during Q3 2024 with 48 per cent share. Majority of investments in the city were concentrated in industrial & warehousing, commercial, and residential sectors, the report said.

Aadhaar helped people avail government benefits: Nobel laureate Paul Romer

PTI ■ NEW DELHI

Nobel laureate Paul Romer on Monday said Aadhaar is the most important technological system in the world right now and it has laid the foundation of a platform to enable people to avail government benefits, including direct benefit transfer.

Speaking at the NDTV World Summit, Romer said that a similar platform could not be set up successfully in the US because they were monopolised by the private sector.

"Aadhaar is the most important technological system in the world right now. Aadhaar solved only one problem. Present a person to me, and I will tell you what that person's number (is). ... But with that foundation, you can then build all of these fantastic services that you now enjoy," he said.

The 2018 Nobel Prize for Economics recipient noted that the government in India

was not afraid to indicate how it would be used in something like Unified Payment Interface (UPI) and Direct Benefit Transfer (DBT).

"What people in India saw is that they could build a platform of Aadhaar that was controlled by the government and could be used for the benefit of the people, not to generate wealth for just a...small subset of people," he said.

Romer pointed out that despite many cases in the Supreme Court against the

Aadhaar scheme, the government in India pushed this idea forward and did not let the judges hamstring them, and they achieved this remarkable success.

"In the West, we are too hamstringing by the judiciary," he said.

Romer noted that urban centres are locations where GDP gets produced all over the world and India needs to take advantage of the potential there.

"The challenge with urbanisation is land assembly.

If you can assemble a large enough parcel of land, you can take that land which is worth very little and turn it into land which is phenomenally valuable by creating a modern city there," he suggested.

The former chief economist at the World Bank also said both China and Russia want to function as empires, in a bid to increase influence.

"China and Russia both want to go back to a world of empires...They think of empires as having the ability to meddle and you know influence their whole sphere of influence, and the national border is not important," he said.

According to Romer, India needs to decide.

Does it wants to be on the side of the empire or wants to stand up for the importance of the sovereign state as the organising principle going forward in the world.

"India should be able to say we don't like empires. India's stand could decisively tip the balance," he said.

Emaar India to invest ₹ 2,000 cr in Mumbai region

PTI ■ NEW DELHI

UAE-based realty developer Emaar is planning to invest up to Rs 2,000 crore in Mumbai and its surrounding areas in the next six-to-seven years, a top official said on Monday.

The group, known for projects like Burj Khalifa, has stayed away from the Mumbai Metropolitan Region (MMR) despite being present in India for nearly two decades.

Emaar India's Chief Executive Kalyan Chakrabarti said there is no specific reason to stay away from Mumbai for so long. He added that the group is attracted to the megapolis because it considers it as the deepest and strongest realty market which will be vibrant for decades to come.

The company is aware about the market realities in the space-crunched city, and is open for looking at both societies and slum redevelopments along with any fresh development proposals, he said.

The company plans to invest

USD 1.85 billion (around Rs 15,500 crore) in realty developments across the country in the same time period, he said, adding that capital is not a constraint for it given the backing of a parent company willing to invest.

Therefore, it is not keen to aggressively pursue opportunities on the capital markets, including an initial public offering or sponsoring a Real Estate Investment Trust (REIT).

Elaborating on strengths of Mumbai, Chakrabarti said Mumbai is home to one of the best talent bases in the country, neatly linked to the global trade and offers a great opportunity for realtors when

coupled with the massive infrastructure being created in the megapolis.

The company will continue to serve the mid-market to luxury opportunity in the financial capital as well, wherein an apartment unit will typically cost upwards of over Rs 4 crore, he said.

The Gurugram-headquartered company already has a presence across various other Indian cities including Hyderabad, Indore and Mohali.

Around 85 per cent of its revenues come from the residential segment while the commercial segment accounts for the rest at present, he said, adding that

the company will have over 8 million square feet of space under construction by December, which will have to be delivered in four years.

The company announced its maiden venture into the Mumbai market, with a 84-villa community in nearby Alibag, which is a weekend getaway for Mumbaiers.

Chakrabarti said the company will be investing Rs 400 crore for constructing the villas, which will be spread over 25 acres of land. He, however, did not disclose the cost of buying the land.

Over three-fourths of the land in the Alibag project christened 'Casa Venero' will be free of any structures, he said, adding that costs for a three-bedroom villa will go upwards of Rs 9 crore while a four-bed one will go up to Rs 16 crore.

He said the company chose Alibag for its maiden project in the city due to the connectivity which it offers after the construction of the transharbour link and the new airport.

STRONG INDIAN CONTINGENT FOR WORLD BRIDGE GAMES

PTI ■ NEW DELHI
A strong Indian contingent, led by Vinay Desai, will compete in all four categories of the 16th World Bridge Games to be held in Buenos Aires from October 22 till November 3. The contingent comprises several stalwarts, including 2018 Asian Games gold medalist in men's pairs Pranab Bardhan (seniors), Raju Tolani and Jaggy Shivdasani (Open category), among others. A total of 34 countries are in the fray in the 'Open' section, while in the women's section, there are 24 nations. An all-play-all round-robin will take place in Stage 1 with the qualifying teams to play in the round-of-16 knockout round. The competitions will be held in 'Open, seniors, women's and mixed categories.

India will take on Canada in the Group B opener in the 'Open' category, while in the senior section, they will square off against Turkey. The Indian women will play Brazil in the opener, while in the mixed section, they will compete against Germany. The last time South America hosted the competition was in 2009 when it was organised in Sao Paulo. The tournament is held every four years and every country can enter their team, without any pre-qualification. "The WBF (World Bridge Federation) is introducing several new measures to ensure that our motto 'Zero Tolerance for Bad Behavior' is respected, for the enjoyment of all participants," said Jan Kamras, president, WBF in a statement. The qualification round will conclude on October 26, with the round of 16 scheduled on

October 28. The finals and playoffs will be held on November 2-3.
INDIAN TEAMS:
Open: Sanjit Dey, Ajay Khare, Binod Kumar Shaw, Jaggy Shivdasani, Sandeep Thakral, Raju Tolani, Vinay Desai (captain).
Seniors: Arun Bapat, Pranab Kumar Bardhan, Badal Chandra Das, Ravi Goenka, Kamal Krishna Mukherjee, Vibhas Todi, Girish Bijoer (captain).
Women: Puja Batra, Devi Muthu Bhatnagar, Bharati Dey, Alka Jain, Alka Kshirsagar, Asha Sharma, Anal Shah (captain).
Mixed: Himani Khandelwal, Rajeev Khandelwal, Bindiya Kohli, Kiran Nadar, Thondiculam Venkatraman Ramani, Bachiraju Satyanarayana, Vinay Desai (captain).

India to host Special Olympics Asia Pacific Bocce & Bowling Competition next month

PTI ■ NEW DELHI
Over 250 athletes from 15 countries will be vying for honours when India hosts the Special Olympics Asia Pacific Bocce & Bowling Competition for the first time here from November 18 to 23. In the lead-up to this prestigious event, Shivani, who clinched three gold medals at the Special Olympics World Games in Berlin last year, has been named the athlete ambassador. "I am proud to represent Special Olympics Bharat as the athlete ambassador. My journey in sports has transformed my life; it's truly a blessing," said Shivani. "I hope to inspire others with intellectual disabilities to pursue their passions and never give up. Inclusion in sports can break down barriers and help us all reach our true potential." Athletes from regions including East Asia, Europe Eurasia, and Asia Pacific will participate, with countries like Australia, Bangladesh, Macau, Thailand, Hong Kong, Philippines, Indonesia, Myanmar, Uzbekistan, and Singapore. The competition will focus on older athletes with intellectual and developmental disabilities (IDD), aged 22 and above. While the women's team has been finalised, the men's team selection is still underway. Events will include singles, doubles, mixed, and team

formats. Dr Mallika Nadda, president of Special Olympics Bharat, unveiled the event jersey, emphasising the significance of inclusion in sports.

"Inclusion revolution is our moto and during this competition we will witness stories of courage, determination and triumph as athletes, their families and supporters come together in a powerful display of inclusion and friendship," she said. In the lead-up to the competition, a 'Run for Inclusion' event is scheduled for November 9, alongside a health summit on November 18 which will address issues faced by IDD athletes. A carnival featuring exhibitions will also take place. Last year, 198 Indian athletes participated in the World Summer Games, returning with an impressive 202 medals, including 76 gold, 75 silver, and 51 bronze.

Carlsen star attraction at next month's Tata Steel Chess India

PTI ■ KOLKATA
World No. 1 Norwegian Grandmaster Magnus Carlsen will be the star attraction in the sixth edition of Tata Steel Chess India to be held here from November 13 to 17. It will be Carlsen's second appearance in the tournament. He had earlier participated in 2019 and had gone on to clinch the title. A strong Indian contingent, following its golden performance at the Chess Olympiad in Budapest recently, will see the likes of Arjun Erigaisi, R Praggnanandhaa and Vidit Gujrathi among others competing in the prestigious event. Nihal Sarin and S L Narayanan are the other Indian players who will be in action in the 'Open' category. Like previous editions, the tournament will have the 'Open' and women's categories with same the format — rapid and blitz — and will have equal prize money for both sections. India will be represented by Koneru Humpy, R Vaishali, D. Harika, Divya

Deshmukh and Vantika Agrawal in the women's category. Chess legend Viswanathan Anand will continue his association with the tournament as its ambassador.

"I am particularly excited that the women's event will have the best of Indian chess. This year has been a celebration of finding chess and this event will be a fitting tribute." Chanakya Chaudhary, vice-president, corporate services, Tata Steel said, "We are excited to host the sixth edition of Tata Steel Chess India, which marks the return of world No. 1 Magnus Carlsen. Members of the Indian men's and women's squads, following their gold medal wins at the Chess Olympiad, will also join the tournament alongside top global players." **The line up for this year's tournament is as below:**
Open: Magnus Carlsen, Nodirbek Abdusattorov, Wesley So, Vincent Keymer, Daniil Dubov, Arjun Erigaisi, R Praggnanandhaa, Vidit Gujrathi, Nihal Sarin, S L Narayanan.
Women: Aleksandra Goryachkina, Kateryna Lagno, Alexandra Kosteniuk, Nana Dzagnidze, Valentina Gunina, Koneru Humpy, R. Vaishali, D. Harika, Divya Deshmukh, Vantika Agrawal.

Time running out for Norris to catch Verstappen in F1 title chase as series heads to Mexico City

AP ■ AUSTIN (TEXAS)
Time is running out for Lando Norris' Formula 1 title chase of Max Verstappen. Norris and McLaren leave Texas for the Mexico City Grand Prix further adrift from Verstappen after a disappointing United States Grand Prix weekend. The Red Bull driver won the sprint race, then took the final podium spot in the Sunday main event when Norris was penalized for leaving the track to pass him in the final laps. The penalty will be debated in the garages and paddock until next season. That won't help Norris in the standings now. Verstappen is chasing a fourth consecutive season championship. Norris is trying to win his first, and Texas gave him another taste of just how hard, if not impossible, it can be to take the title from the Dutch driver. Norris had the faster car in the late stages Sunday. He got stuck behind a stubborn Verstappen who refused to yield the place as the drivers battled over every inch of the track. When Norris finally made his move to third with about four laps to go, race stewards determined he improperly left the track to gain the position. He was given a five-second penalty. Norris crossed the finish line in third. Officially, he was fourth and Verstappen took the final podium spot. The penalty and the head-to-head battle with Verstappen, left Norris clearly frustrated. "He defends by going off-track, he overtakes by going off-track. But I'm not going to complain. Max drove well and he defended well, we had a good race together. But the rules are the rules," Norris said. At least he finished the race this time. When those two tangled in Austria, a late-race collision knocked Norris out of the race and dropped Verstappen from first to fifth. That tussle proved to be a taste of things to come. Norris has been in a months-long charge after Verstappen, who hasn't won a grand prix since June after a dominant start to the season. Norris and Verstappen finished 1-2 in Singapore, but Norris won the race by 21 seconds just before the four-week autumn break. Red Bull and Verstappen appear to have at least closed

that gap. Verstappen won the Texas sprint race for his first victory of any kind since the sprint race in Austria. And even if

Sunday's finish had been reversed, Norris would have come out of the weekend of any kind closer to the championship.

Yet Verstappen's weekend wasn't as good as he had hoped it would be. Red Bull brought a trove of upgrades to a car that Verstappen has alternately

called "undrivable" and "a monster" this season. The car looked good in the sprint and again in qualifying when Verstappen barely missed out on pole position, which Norris won. But the sprint race victory proved a bit of a mirage. The Red Bull had nowhere near the pace of the Ferraris over a regular race distance, and was passed by Norris at the end. It was still good enough to squeeze the title chase just a bit tighter. And Verstappen had no sympathy for McLaren's complaints Sunday about losing the podium. "They complain about a lot recently," Verstappen said. "The battle with Lando at the end was cool as we were racing hard and it was actually a lot of fun. You cannot overtake outside the white line and I have lost a podium here for overtaking outside the track." And he'll take any result that stretches his lead in the championship. "We are going in the right direction. It is still not enough," Verstappen said. "Ultimately the fact that we have extended the gap is the biggest thing for us.

Inter beats Roma but loses two key players to injuries

AP ■ MILAN
Shortly after Inter Milan president Giuseppe Marotta lamented that the fixture list needed to be cut in order to safeguard the players, the Nerazzurri lost two key members of its team to injury. Hakan Calhanoglu and Francesco Acerbi were both forced off with muscular issues in the first half of Inter's match at Roma. Inter went on to win 1-0, thanks to a 60th-minute strike by Lautaro Martinez, to move back to within two points of Serie A leader Napoli, which had earlier beaten Empoli 1-0. The match was the first of seven in 21 days in an intense period for Inter, which will also play more games than almost any other club this season. As well as the Italian league, Inter is involved in the Champions League, the Italian Cup and Italian Super Cup, and has qualified for the newly expanded Club World Cup. "We have to live with the constant stress of so many games that the players are struggling to handle ... we need to safeguard their health," Marotta said before Sunday's match. "It is not an easy situation ... but we need to sit around a table and recognize that the fixture list

same place. Both sides hit the woodwork in the first half. A cross from Lorenzo Pellegrini bounced out of the arms of Yann Sommer and onto the post but the Inter goalkeeper managed to catch the rebound. Former Roma midfielder Henrikh Mkhitaryan sent a powerful effort off the crossbar shortly afterward. Inter broke the deadlock when Davide Frattesi raced down the right flank on the counterattack and his low cross was deflected to Lautaro to thump into the back of the net. **CONTE INSPIRES NAPOLI:** Whatever Antonio Conte told his players at halftime must have worked as Napoli was much improved after the break. Empoli was far the better team in the first period but it was to regret its missed opportunities as it was Napoli that took the lead in the 63rd minute after Tino Anjorin fouled Matteo Politano in the area.

has to be cut back." Less than 12 minutes into the match, Calhanoglu asked to come off after experiencing discomfort in his left thigh and he was followed 15 minutes later by Acerbi who also appeared to have an injury to a muscle in the

NEW ZEALAND WHITE FERNS SPLIT \$ 2.3 MILLION AFTER WINNING T20 WORLD CUP

AP ■ WELLINGTON

Members of the New Zealand White Ferns cricket team which beat South Africa by 32 runs in the final of the women's Twenty20 World Cup in Dubai on Sunday will split prize money of around USD 2.3 million.

That works out at around USD 155,000 or NZD 256,000 per team member, a life-changing windfall for players who for years have struggled for years to achieve financial parity with their male counterparts.

New Zealand's first-ever victory in the World Cup of cricket's shortest format was a massive surprise. The White Ferns had lost 10 consecutive T20 matches before beating South Africa in a warm-up match.

That pre-tournament success proved a turning point for New Zealand who beat India, Sri Lanka and Pakistan, losing only to Australia on the way to the semifinals.

South Africa ousted six-time champion Australia in a massive upset in the semi in which New Zealand beat the West Indies.

New Zealand made 158-5, batting first in the final, helped by Suzy Bates who made 32, Amelia Kerr who made 43 and Brooke Halliday who made 38. Kerr then took 3-24 and Rosemary Mair 3-25 as New Zealand restricted

South Africa to 126-9.

"Pretty unbelievable to be honest," Mair said. "Coming into the tournament all the odds were against us so for the group to bounce back like they have is unbelievable. "We just care so much about each

other. We've been through a lot of lows in the last 18 months, and we've just stuck by each other and kept working hard for each other." Captain Sophie Devine was leading the New Zealand team for the last time. She and Bates have played in all

nine T20 World Cups since the first in 2009. New Zealand reached the final of the first two tournaments in 2009 and 2010, losing to Australia on both occasions. "This means everything to us," Bates said. "When you play team sport, you

want to be a world champion. "We've fought our way back to the top. (Devie) has been so outstanding leading this team... So calm and believing in us. We'll probably have a cuddle for even longer later because there's been some dark times that only the people in the (locker room) understand."

New Zealand was coached to victory by Australian Ben Sawyer and former Black Caps batters Dean Brownlie and Craig McMillan.

The White Ferns' success was praised Monday by New Zealand Sports Minister Chris Bishop. It came at the end of a weekend in which New Zealand also retained sailing's America's Cup and in which the New Zealand men's cricket team beat India in a test in India for the first time in 36 years.

"And then to round out a truly amazing sporting weekend, at 3am Monday morning (NZT) the White Ferns, led by Sophie Devine, stepped up to face South Africa in the women's T20 World Cup final in Dubai and absolutely smashed it, bringing home their first World Cup since the One Day International in 2000," Bishop said.

"Amelia Kerr's 43 runs off 38 balls and then taking 3 wickets for 24 set our team up for their magnificent performance.

I am pain-free, need to play domestic cricket to make strong case for Australia tour: Mohammed Shami

PTI ■ GURUGRAM

Seasoned India pacer Mohammed Shami on Monday declared himself pain-free but insisted on proving his fitness in domestic cricket by playing at least "one or two" games to make a strong case for selection for the marquee tour of Australia starting next month.

Shami, who has not played since the ODI World Cup final last November, bowled full tilt in the nets after India's opening Test against New Zealand in Bengaluru on Sunday.

This was a few days after skipper Rohit Sharma revealed that he had swelling in his knees which has affected his rehabilitation from an ankle injury sustained last year.

"The only thing on my mind is to ensure that I am fit and how strong I can be for the Australia series. I can see what kind of attack we need in Australia."

INJURIES TEACH YOU PATIENCE: Shami was forced out of action for more than a year after suffering a knee injury during the 2015 ODI World Cup. The 34-year-old is now in a similar phase and he feels injuries only make you stronger.

"2015 also I was away for that long. Injury teaches you to fight against yourself, you have to keep frustration at bay, focus on fitness and game. It is difficult to get back on track after an injury.

"Injuries teach you patience and add purity to your game. After your comeback the main thing is if you can maintain your fitness. Yes rhythm is important but your skills won't leave you.

"You need to fight for regaining fitness," said Shami, who has taken 229 wickets in 64 Tests and 195 wickets in 101 ODIs.

While he was recovering from his ankle injury, India were able to end their ICC trophy drought in the Caribbean. Did Shami, who was the standout bowler for India in the ODI World Cup at home last year, miss being part of the triumphant T20 World Cup squad?

"It depends on luck as well. I feel one should not be disappointed as you gave your best for the country. You can't fight your luck. If you get injured there is nothing you can do about it," he said.

India have already started preparing the next line of pacers through the likes of Shami, Jasprit Bumrah and Mohammed Siraj still have a lot of cricket left in them. Asked about his thoughts on the transition, Shami had only one advice for the next generation of fast bowlers.

"It is a circle and will keep going on. Whether it is Mayank Yadav, Akash Deep Mukesh Kumar, Harshit Rana, I would only advise them to talk at length with the seniors in the nets, that teaches you a lot.

"Last 8 to 10 years, we have bowled as a unit. Before that, we never had 140 plus pacers playing at the same time.

"From those to the ones on the bench also bowl at 145kmph. So opponents don't get to relax and that creates fear. We all have different skills and that is what we have shown at home and overseas conditions."

Can India win their third series in a row in Australia? "The conditions suit us. All our fast bowlers are different type and if we get bounce it only makes us better. Batters need to score a bit, rest we will manage (laughs)," Shami added.

Mumbai cruise to nine-wicket win over Maharashtra to earn full points

PTI ■ MUMBAI

Defending champions Mumbai got their Ranji Trophy campaign back on track with an emphatic nine-wicket win over Maharashtra in their second group A league game here on Monday, offsetting the heavy loss to Baroda in the opening game.

Needing 74 to win, Mumbai went into the final day at 13 for no loss.

While Ayush Mhatre's (15) dismissal robbed them off a bonus point, Prithvi Shaw (39 not out off 36 balls) and Hardik Tamore (21 not out off 26 balls) earned six points for the team in just 13.3 overs.

This was after the 42-time champions lost to Baroda by 84 runs in the opening Ranji Trophy fixture but in the second match at the BKC ground, Mumbai excelled in all departments of the game.

The match was won and lost on the first day itself when Mumbai bowled out Maharashtra for 126 in their first innings and then rode on 17-year-old Mhatre's smashing 176 and Shreyas Iyer's belligerent 142 to score 441.

While Maharashtra fared much better in the second innings with centuries from Ruturaj Gaikwad and veteran Ankit Banwe, apart from a 98 from former India U-19 batter Sachin Dhas, the damage was already done.

BRIEF SCORES
In Mumbai: Maharashtra 126 and 388. Mumbai 442 & (Target 74) 75/1 (Prithvi Shaw 39 not out). Points: Mumbai 6; Maharashtra 0.

In Shillong: Tripura 1st Innings 377/8. Meghalaya 222 and 138. Tripura won by an innings and 17 runs.

Pressure on Siraj after only 19 wickets from 13 Tests in India

PTI ■ NEW DELHI

Indian skipper Rohit Sharma believes in consistency when it comes to team selection but he will have to take a leap of faith to retain speedster Mohammed Siraj in the playing eleven for the second Test against New Zealand considering his poor run in home conditions.

The match starts in Pune from October 24 and inclusion of spin bowling all-rounder Washington Sundar as the fifth slow bowler is an indication that coach Gautam Gambhir and Rohit might go for the jugular on a spin-friendly track.

The 30-year-old Hyderabad has so far taken 80 wickets in 30 Test matches but 61 of those scalps have come in 17 away Test matches in three of the SENA countries (South Africa, England, Australia).

Only 19 wickets after bowling 192.2 overs in 13 home Tests are figures that imply that Siraj has struggled in sub-continental conditions unlike

Jasprit Bumrah and Mohammed Shami, who have had the ability to throw pitch and conditions out of equation. To be fair to Siraj, in those 13 Tests, he went wicket-less in four with a couple of them against Australia last year played on rank turners in

consistent enough to get initial breakthroughs leaving Bumrah with all the heavy-lifting to do with the new ball. PTI spoke to a coach, who has worked extensively with some of the current national team bowlers, and he thinks that Siraj's length is erroneous for Indian conditions. He explained the technical flaw that has cropped up in his bowling.

"If you see Siraj's record, he has five-wicket hauls in Australia and South Africa where there is more bounce. The six to eight metre length away from the batter is considered to be ideal Test match length. But it varies from country to country depending on the bounce," the coach, who was a top domestic performer during his time, told PTI on condition of anonymity.

"The ideal length in Australia is eight metres, it is around six metres in England and on low bounce Indian wickets, it is 6.5 metres. If you pitch it around 6.5 metres and get

movement, you are in business for both outside edge, bowled and leg before.

"Siraj is bowling around eight metre length and in India with that length, you can't hit top of off (stump). He isn't pitching it up enough," he further explained.

However, the coach is confident that once Siraj goes Down Under, for the five-match series starting November 22, he will again find his mojo as the length. Which he is hitting here, will work like magic in those conditions. "When you are hitting eight metre length on Indian tracks which are devoid of pace, the batter has more time to gauge the line and it becomes hittable.

"I am not sure how effective he will be in Pune or Mumbai although latter was the only venue where he looked menacing against New Zealand in 2021. Problem is when you play white ball, this back of length in Indian conditions can still fetch you wickets," he reasoned.

Reports say hockey set to be axed from 2026 Glasgow CWG; CGF, FIH mum

PTI ■ MELBOURNE

Hockey is set to be axed from the 2026 Commonwealth Games as the host city of Glasgow looks to cut costs, several media reports here stated but both the International Hockey Federation (FIH) and the Commonwealth Games Federation (CGF) remained tight-lipped on the matter.

Hockey has featured in each CWG since making its debut in 1998, but according to reports here, the Glasgow Games organisers want to drop it from the schedule along with net ball and road racing to ensure a trimmed programme that would be easy on the budget.

Scotland stepped in to save the 2026

Games after the Australian state of Victoria pulled out due to rising costs. The schedule is due to be unveiled on Tuesday.

When reached out by PTI, the International Hockey Federation (FIH) declined comment till the roster was officially out.

"In a couple of days, the situation will be clear - you will get the information accordingly. From our side, until there is any official communication from CGF, we are not in a position to provide you any comment," an official said.

"The CGF also gave a similar response. "The sports programme for the 2026 Commonwealth Games will be confirmed tomorrow," read a statement from the body when it was approached for a clarification on the media reports.

Hockey's probable omission could also be down to the fact that the Games, to be held from July 23 to August 2, are being organised close to the World Cup that is scheduled two weeks later from August 15 to 30 in Wavre, Belgium and Amstelveen, Netherlands.

To cut costs, the Glasgow Games organisers have reduced the number of

sporting disciplines from 19 (in 2022 Birmingham) to 10 with only four proposed venues - Commonwealth Arena and Sir Chris Hoy Velodrome, Scotstoun Stadium, Tollcross International Swimming Centre and Scottish Events Campus.

None of these venues have a hockey turf.

Hockey's exclusion from the Games would be a major blow for India as their men's team is a three-time silver-winner and two-time bronze-medallist in the sport. The women have won three medals, including a gold in the 2000 edition.

The biggest hit would be to Australia, which has won the men's gold for a record seven times and the women's top honours in four editions.

Ronaldo and Al-Nassr's ACL game moved amid Iran security fears

AP ■ WASHINGTON

Cristiano Ronaldo and Al-Nassr's AFC Champions League Elite game with Esteghlal of Tehran on Tuesday will be as closely watched in India as it is in Saudi Arabia and Iran.

The Asian Football Confederation (AFC) said in a statement released last Tuesday that Esteghlal had to move its home fixture with Al-Nassr to the United Arab Emirates city of Dubai due to the security situation in Iran.

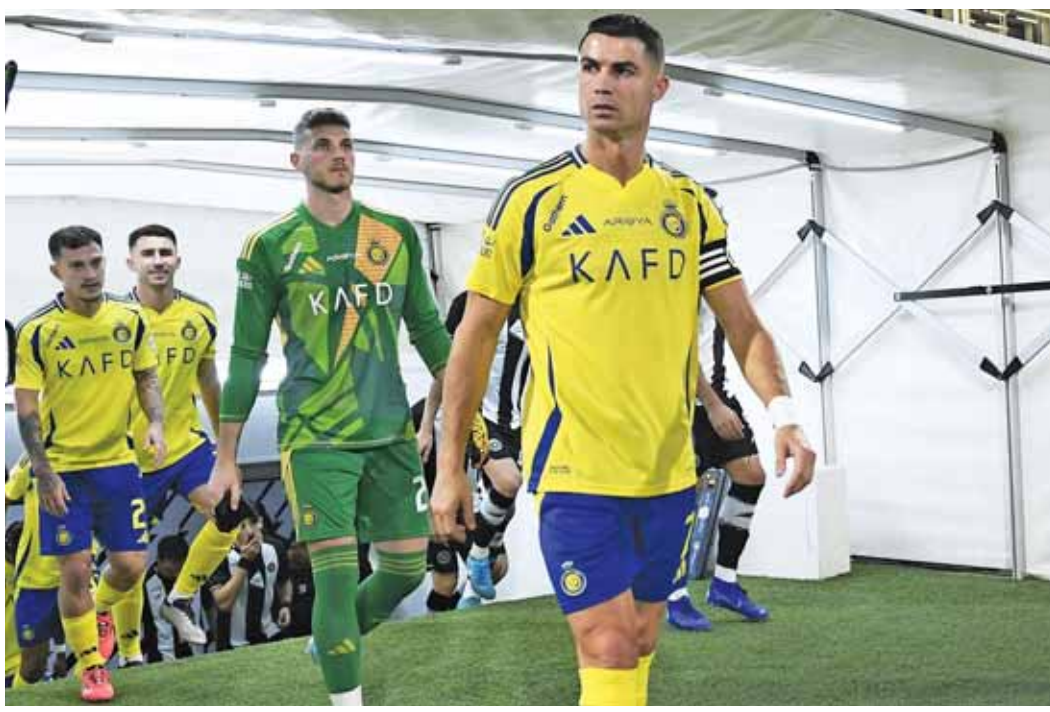

The decision was greeted by surprise in India as, on Oct. 7, the AFC ruled that Mohun Bagan Super Giants of Kolkata had been "considered to have withdrawn" from the second tier AFC Champions League Two for refusing to travel to Iran to play its Oct. 2 fixture against Tractor SC in the northwestern city of Tabriz.

It is not only Al-Nassr's game that has been relocated. Tractor's home game against Ravshan of Tajikistan, scheduled for

Wednesday, has been switched to become an away tie. Iran's national team also had to move its Oct. 15 World Cup qualifier against Qatar to Dubai.

"...(Mohun Bagan) notes that the AFC has indeed recognised the volatility of the situation in Iran and as such, has rescheduled or shifted venues for several games," a spokesperson for Mohun Bagan told Associated Press, adding that the confederation had taken the same geopolitical instability into account that the club had. "Failing to apply the same standard to Mohun Bagan would result in unequal treatment by the AFC."

According to the spokesperson, Mohun Bagan had made a request to the AFC that the game's date or venue be changed before it decided not to travel. "We consistently communicated concerns about the volatile and unsafe conditions in and around Iran, particularly regarding the safety of players and staff," the official added.

The Indian Super League club said that it had appealed the decision to the relevant AFC committee and hoped to be reinstated into the tournament.

The AFC did not reply to an invitation to comment.

Al-Nassr has four points from the first two games and can take a big step towards the second round with a win. The revamped tournament now consists of two groups of 12 - divided into west and east geographic zones - with the top eight from each advancing to the Round of 16.

Nassr is going well in the Saudi Pro League with a 97th minute penalty from Ronaldo giving the team a 2-1 win over Al-Shabab on Friday to stay in third place.

"There are a lot of games at the moment and it is not easy," said Stefano Pioli, Al-Nassr's coach. "We will do our best to maintain our performances in the Asian Champions League."

Saudi Arabia has three of the four top teams in Group A. Al-Hilal is

first and the four-time winner meets defending champion Al Ain of the United Arab Emirates and could welcome Neymar back to action after a year out through injury. Jeddah club Al-Ahli also has maximum points and travels to Qatar to face Al-Rayyan.

FRONT RUNNERS MEET IN EASTERN ZONE: In the eastern zone the top two meet. Gwangju FC of South Korea is making its first ever appearance in Asian competition and is the only team with two wins from two. It takes on Johor Darul Ta'zim of Malaysia.

Australia's Central Coast Mariners has lost both games so far and head to China to take on Shanghai Port, coached by former Australian international Kevin Muscat, also seeking a first win.

Last season's defeated finalist Yokohama F. Marinos also travels to China and meets Shandong Tiashan while three-time winner Pohang Steelers of South Korea faces Thailand's Buriram United.
