Population Census takes off in 2025

RAJESH KUMAR ■ NEW DELHI

The Narendra Modi-led government is set to begin the long-delayed Population Census in 2025, with a target for completion by 2026. This will be followed by a nationwide delimitation process for Lok Sabha constituencies, expected to be finished by 2028. However, no decision has been taken yet on whether Caste Census will also be carried out along with the general Census. This development comes amid demands from several Opposition parties for a Caste Census. However, the government has not yet made a decision, and the details of the Census process are yet to be made public. The upcoming Census round is expected to include the usual surveys on religion and social class, along with counts of General, Scheduled Castes, and Scheduled Tribes. According to sources aware of the details, the Government has not yet taken any decision on the Caste Census. The process of tabulating the country's population will begin in 2025 and is expected to conclude by 2026, following which the process of carving out constituencies for the Lok Sabha through delimitation will begin. The last Census was conducted in 2011, and the following round was initially planned for 2021 but was postponed due to the second wave of COVID-19. The Census cycle is now set to follow a 10-year pattern, running from 2025 to 2035 and later from 2035 to 2045. The Office of the Registrar General and Census Commissioner had prepared 31 questions to be asked to the citizens during the Census exercise. These questions include whether the head of the household belongs to Scheduled Caste or Scheduled Tribe and other family members as asked in the previous Census. "In all probability, the work for the Census and the NPR will begin early next year and the

population data will be announced by 2026. With this, the Census cycle is likely to be changed. So, it will be 2025-2035 and then 2035-2045 and so on in future," said sources adding all these factors will have to be looked into before any decision is taken on delimitation. The 31 questions to be asked to each family under the Census exercise include the total number of persons normally residing in the household, whether the head of the household is a woman, the number of dwelling rooms exclusively in possession of the household, the number of married couple(s) living in the household among others. The questions also include whether a family has a telephone, internet connection, mobile or smartphone, bicycle, scooter or motorcycle or moped, and whether they own a car, jeep or a van. The citizens will also be asked what is the cereal they consume in the household, the main source of drinking water, main source of lighting, access to latrine, type of latrine, waste water outlet, availability of bathing facility, availability of kitchen and LPG/PNG connection, main fuel used for cooking, availability of radio, transistor, television etc. The Congress, Rashtriya Janata Dal (RJD) and several other parties have been demanding that a Caste Census be undertaken. Bharatiya Janata Party (BJP)'s alliance partners such as Janata Dal United (JDU) in Bihar have also spoken about the same, but have not put any pressure on the Centre. At the central level, the final decision has been left to Prime Minister Narendra Modi and his cabinet. The BJP's other ally, Telugu Desam Party (TDP), too is of the opinion that the Census must happen, with Andhra Pradesh Chief Minister Chandrababu Naidu actively advocating for 'Skill Census' for the benefit of the masses, especially the young population.

India, Spain partnership soars to new heights

PIONEER NEWS SERVICE ■ VADODARA

India on Monday set in motion the manufacture of C295, an ultra modern tactical transport aircraft which can carry troops and logistical supplies from main airfields to forward operating airfields of the country. The aircraft will be made in partnership with Spain, and can also operate on short unprepared airstrips as it is capable of Short Take-off and Landing (STOL). The aircraft can additionally be used for casualty or medical evacuation, performing special missions, disaster response and maritime patrol duties while it can operate from short airstrips just 2,200 feet long and can fly low-level operations for tactical missions flying at a low speed of 110 knots according to parent manufacturer Airbus. Prime Minister Narendra Modi and his Spanish counterpart Pedro Sanchez inaugurated the Tata Aircraft Complex in Vadodara, India's first private facility to build these military planes, where C295 aircraft will be produced. PM Modi and Spanish PM Pedro Sanchez on Monday inaugurated the Tata Aircraft Complex for manufacturing C295 aircraft in Vadodara. Noting that the partnership between India and Spain is finding a new direction, Modi said the project would not only strengthen the relations between the two nations but also give momentum to the mission of 'Make in India, Make for the World'. PM Modi conveyed his best wishes to the team of Airbus and Tata, and also paid tributes to the late Ratan Tata. The Airbus C295 is a medium tactical transport aircraft that

Prime Minister Narendra Modi and Spanish PM Pedro Sanchez being briefed about an aircraft as they visit the TATA Aircraft Complex after its inauguration, in Vadodara, Gujarat, Monday, October 28, 2024. Tata Sons Chairperson Natarajan Chandrasekaran is also seen

was designed and initially manufactured by the Spanish aerospace company CASA, which is now a part of the European multinational Airbus Defence and Space division. The C295 can also be used for medical evacuations, disaster response, and maritime patrol duties. The C295 aircraft factory is a reflection of the new work culture of New India, the PM said, adding India's speed from idea to the execution of any project can be witnessed at the factory, whose foundation stone was laid in October 2022. Emphasising the focus on eliminating unaccounted delays in the planning and execution of projects, PM Modi recalled the setting up of Bombardier train coach manufacturing facility in Vadodara as the Chief Minister of Gujarat. Metro coaches made in that factory are being exported, the PM said, and expressed confidence that the aircraft made in the facility inaugurated on Monday would also be exported. Quoting the famous Spanish poet, Antonio Machado, PM Modi said, "As we start treading towards the goal, the path towards the goal is created automatically." A decade ago, the priority and identity of defence manufacturing was about import and none could imagine that defence manufacturing could take place on such a large scale in India, the PM said. "Our government decided to walk on a new path and set new goals for India, whose results are evident today," he said. The transformation of India's defence sector exemplifies how a right plan and partnership can turn possibilities into prosperity, PM Modi said.

Terrorists target Army vehicle, religious place in Akhnoor

MOHIT KANDHARI ■ JAMMU

After the 1984 Operation Bluestar, the Indian Army on Monday deployed an infantry combat vehicle for the second time in Jammu and Kashmir to flush out foreign terrorists from inside a famous religious place in Akhnoor. According to ground reports, after targeting an Army vehicle in the Batala area of Akhnoor early Monday morning, a group of heavily armed foreign terrorists stormed a religious place damaging several structures. The elite commandos of the National Security Guard (NSG) were also inducted in the ongoing anti-terrorist operation to neutralise a group of foreign terrorists holed up in the basement area of a religious place. In retaliatory firing, the religious place suffered huge damage. The Army had deployed BMP-II, an Infantry combat vehicle in the operations after a gap of almost 11 years. The Army had earlier used tanks to flush out a group of fidayeen (members of a suicide squad) after they stormed inside the Samba army camp on September 26, 2013. Valiant Indian Army dog Phantom made the supreme sacrifice on Monday, during an ongoing anti-terrorist operation in the Batala area of Akhnoor. So far one terrorist has been neutralised, while the operation was still going on to flush out the remaining foreign terrorists. White Knight Corps in a post on X acknowledged the supreme sacrifice. "We salute the supreme sacrifice of our true hero-a valiant Indian Army Dog, Phantom", posted White Knight Corps on X, adding "As our troops were closing in on the trapped terrorists, Phantom drew enemy fire, sustaining fatal injuries. His courage, loyalty, and dedication will never be forgotten".

Police perform last rites of man

As relatives refuse to show up

PNS ■ BALANGIR
In a poignant display of compassion, officials of the Khaprakhol police station in Balangir district conducted the last rites of a 65-year-old elderly man. SI Laxmidhar Swain, ASI Saban Kerketa, ASI Nabin Kumar Bhoi and Home Guard Dharub Kumbhar displayed exemplary humanity by conducting the final rites of the man, whose body was com-

pletely decomposed. The deceased was identified as Nirakar Bariha of Benkera village under the Khaprakhol police limits. He had left his house on October 21 and had been missing since then. On Sunday, his decomposed body was found in a river near the village. As the body was completely decomposed, relatives and fellow villagers refused to carry the body and join in the final rites. Later, police officials joined Nirakar's son and took the body to a forest near the village and performed the last rites.

Ayodhya celebrates Ramlalla's first Diwali in new temple

BISWAJEET BANERJEE/ KAMLESH SRIVASTAVA ■ AYODHYA

The city of Ayodhya is abuzz with joy, evoking the divine splendor of Treta Yuga, as it prepares to celebrate a historic Diwali - its first since child Ram (Ramlalla) was ceremoniously enshrined in the grand temple after 500 years. The city, which holds immense significance in Hindu mythology, mirrors the jubilation of the day when Lord Ram returned to Ayodhya after 14 years in exile. Today, the festivities center around the child Ram, and for the next three days, Ayodhya will glow with joy, attracting devotees from across India to witness this unparalleled celebration. Ayodhya's grand Diwali celebration kicks off with a world record attempt, illuminating Ram Ki Paidi with 25 lakh earthen lamps on Chhoti Deepawali. Accompanying this

Photo: The Pioneer

spectacular display will be a laser show, projection mapping, and a grand fireworks display, transforming the cityscape into a visual feast. The Deepotsav festivities are further enhanced by the active participation of residents and pilgrims. The streets and landmarks of Ayodhya are adorned with vibrant decorations. The area from Ram Katha Park to Saket College, the Sarayu Ghats, and Ram Ki Paidi is a visual treat, and the Ram Mandir itself is being adorned with 50 quintals of fresh flowers. Grand Toran gates have been constructed at all four entrances of the temple, adding to the festive aura. A special highlight of the celebrations is the Ram Darbar, set up in Ram Katha Park, where Chief Minister Yogi Adityanath will assume the role of Guru Vashistha to symbolically coronate Lord Ram. As evening approaches, crowds of devotees and visitors are gathering to admire the city's grand decorations, capturing each stunning view with their cameras.

Special joint session to mark Constitution Day, November 26

PIONEER NEWS SERVICE ■ NEW DELHI

The Centre is likely to hold a special joint sitting of both Houses of Parliament on November 26, to mark the 75th anniversary of adoption of the Constitution. Sources said the Winter Session may start from November 25, and the special joint sitting is likely to be held in the Central Hall of the Samvidhan Sadan (Old Parliament Building), where the Constituent Assembly adopted the Constitution in 1949. The Constitution came into effect on January 26, 1950. The joint session is expected to feature discussions on the Constitution's role in shaping Indian democracy, with participation from leaders of various political parties reflecting on the principles of justice, liberty, equality and fraternity. President Droupadi Murmu, Prime Minister Narendra Modi and other dignitaries are expected to address the joint session.

Hoax bomb threat calls led to ₹1400 Crore loss

RAJESH KUMAR ■ NEW DELHI

As the number of hoax bomb threat messages to domestic and international flights crossed over 400, leading to financial loss up to Rs 1200 to 1400 crore to Indian carriers so far. As many as 410 domestic and international flights operated by the Indian carriers have received hoax bomb threats in the last 15 days. More than 60 flights of Indian carriers received bomb threats on Monday. Once a flight is canceled or delayed due to a bomb hoax, a ripple effect of delays and cancellations of other flights occurs adding to financial losses for not the airline but the flying public. The event is not just a safety concern but also means a costly affair for an airline. "The overall financial damage of the hoax, including costs for unscheduled landing, passenger accommodations, aircraft grounding, and crew replacements, is projected from Rs 25 lakh to Rs 4 crore per incident," said an airline executive, who spoke on condition of anonymity. The overall costs escalate when additional expenses such as unexpected landing charges, hotel accommodations for over 200 passengers and crew, compensation for missed connections, grounding the aircraft for thorough checks, and arranging a fresh crew are factored in. Meanwhile, the airline also faced financial losses from the disruption of its return flight schedule.

'Corruption won't be tolerated; wrongdoers to face jail'

Says CM Mohan Majhi

NALINI SAHU ■ BHUBANESWAR

Chief Minister Mohan Charan Majhi on Monday declared his government's "unwavering stance against corruption". Speaking during the Vigilance Awareness Week, Majhi pledged to boot out corrupt officials, vowing that offenders would be held accountable. Majhi's remarks marked a bold departure from the former Biju Janata Dal (BJD) government under Naveen Patnaik, which he accused of promoting corruption over its 24-year reign. According to Majhi, corruption thrived as officials engaged in illicit practices with

political backing, especially under the 5T initiative. "Many officers misused their positions for personal gain, and none of them will go unpunished," he vowed. Majhi cited recent arrests by the Vigilance police since his administration took office. Among those apprehended in four months were six Chief Engineers, a Joint Commissioner of Excise, an Assistant Commissioner of CT&GST and a Chief Accounts Officer of OSRTC, all facing charges from bribery to embezzling government funds. Majhi described these actions as "just a trailer," adding that a "larger picture" is underway. "No one, regardless of their influence, will be spared," he warned. Majhi also credited Prime Minister Narendra Modi's anti-corruption campaign, noting that since 2014, Modi has prioritised the fight against graft. Majhi reinforced this commitment by promising that the Odisha Government would uphold strict accountability, giving corrupt officials only two options: jail or exile. He further praised the Direct Benefit Transfer (DBT) system, introduced to streamline welfare benefits, which has helped eliminate middlemen and ensured that aid reaches intended recipients directly.

After making an aerial survey of the affected areas, Chief Minister Mohan Charan Majhi reviews the losses due to the Cyclone Dana in the districts of Kendrapada, Bhadrak, Baleswar and Mayurbhanj at a meeting in Baleswar on Monday.

Ayushman Bharat Phase II from today

NALINI SAHU ■ BHUBANESWAR

Prime Minister Narendra Modi is set to launch the Phase II of the Ayushman Bharat Pradhan Mantri Jan Arogya Yojana (AB-PMJAY) on Tuesday, bringing extensive healthcare benefits to millions of elderly citizens in Odisha and across India. Odisha Health Minister Mukesh Mahaling on Monday announced that the scheme's rollout aims to cover all citizens aged 70 and above, offering free medical treatment up

to Rs 5 lakh at any hospital registered under the Ayushman Bharat network. While the Ayushman Bharat scheme has yet to be implemented in Odisha, the State Government is working on the necessary framework to adopt it. Mahaling hoped that both Phases I and II would be launched in Odisha by the end of this financial year, targeting March or April 2025. "This will ensure medical aid to 3.5 crore of our 4.5 crore of the State's citizens," he said.

'108 Ambulance' workers threaten strike from Nov 1

In support of various demands
PNS ■ BHUBANESWAR

As many as 1,300 ambulances are likely to go off the roads from November 1 as members of the 108 Ambulance Workers' Association have warned of a State-wide strike over various demands. Demanding reinstatement of 200 of their leaders, at least 5,800 workers have called for the cease-work.

According to sources, the EMRI Green Health Services (formerly known as GVK EMRI) had got the tender of the 108 Ambulance emergency services in the State. The company reportedly hired 6,000 employees after deducting Rs 590 each from them out of

which 200 employees were made leaders of the Ambulance Workers' Association.

The leaders were selected in each district to fight for the rights of the ambulance workers and raise voices against discrimination. Meanwhile, the company has reportedly refused to rehire the 200 leaders, leading to the demand for a cease-work period starting on November 1.

ambulance Workers' Association secretary Sriramachandra Acharya.

"On October 30, we will turn off the GPS and go off roads. But we will continue to provide off-road services. If our pleas are not heard by them, we will call a State-wide indefinite strike from November 1," he added.

Off-duty employees will reportedly meet the district Collectors and the Chief District Medical Officers (CDMOs) and submit memorandums demanding fulfilment of their demands.

"If our demands are not addressed, we will provide the emergency services by switching off the GPS on October 30 and then begin the cease-work agitation from November 1," the workers warned.

Next phase of Subhadra assistance soon Says Deputy CM Parida

PNS ■ BHUBANESWAR

The first instalment of Rs 5,000 under the Subhadra Yojana would soon be credited to the bank accounts of the remaining women beneficiaries, Deputy Chief Minister Pravatī Parida informed on Monday.

The third-phase disbursement would cover those who have not received the money in the first two phases, she said, adding that more than 1 crore women have applied under the scheme, which ensures financial assistance for those aged 21-60 years, totalling Rs 50,000 over five years from 2024 to 2029.

The process is likely to begin in the first week of Novem-

ber after the October 31 deadline, by which the beneficiaries were asked to update their bank details and correct any other mistakes.

The flagship scheme of the Mohan Majhi government was launched by Prime Minister Narendra Modi on September 17. Around 60 lakh women beneficiaries have received the first instalment of Rs 5,000 in the first two phases. While around 25 lakh women received the money in the first phase, the amount was credited to bank accounts of beneficiaries in the second phase on October 9.

The second instalment is likely to be credited on the International Women's Day (March 8, 2025) and the third on Rakhi Purnima (August 9, 2025), sources said.

Nurses demand Rs 5K for baby's delivery

Authorities assure action
PNS ■ ANGUL

Nurses of a government hospital in Angul district have been accused of demanding Rs 5,000 for the delivery of a newborn. Ironically, the newborn's father, hailing from a poor family, had to borrow the money to give it to the nurses.

The shocking incident has been reported from the Khamar Community Health Centre (CHC) under Pallahara block.

According to sources, Rita Sahoo of a nearby village was admitted to the CHC after she

experienced labour. However, nurses at the CHC demanded Rs 5,000 for the delivery of the baby. With no money, Rita's husband Pratap Sahoo had to borrow it from a shopkeeper.

"I had no money; so, I borrowed it from a shopkeeper and gave it to them. However, after my complaint, they returned the money," said Pratap.

When contacted, Khamar health centre medical officer Sasikant Behera, said, "I have been made aware of the incident. I have also seen a video of them taking the money. We will make an enquiry and take necessary action against the nurses."

In Talcher Tehsildar duped of Rs 90K in cybercrime

PNS ■ TALCHER

Despite the government's awareness campaigns, the Tehsildar of Talcher in Angul district fell victim to cyber fraudsters and was duped of Rs 90,000.

According to police sources, Tehsildar Rosalini Behera received a message on her mobile phone from an unknown number on October 24. The caller identified himself to be a CBI officer. He claimed that Behera's SIM has

been misused for illegal activities. Then he sent a link.

Instead of cross-checking the number, Behera clicked on the link given in the message. Soon after, she received a message from the bank where she was operating an account. It stated that Rs 90,000 had been debited from her account.

Following this, the Tehsildar filed a complaint at the Talcher police station. The police have registered a case and started investigation, sources said.

Construction work at snail's pace 10.7-km road stretch in K'jhar town in horrible condition

While commuters suffer, admn nonchalant
NARESH PATTANAYAK ■ KEONJHAR

Commuters are facing a lot of difficulties as the road from Belda to Maligaon (earlier NH6) under the Public Works Department passing through Keonjhar town has not been completed even after expiry of its deadline.

Due to the delay in completing the work, the traffic has grown unsafe, especially during rain, but the district administration seems least concerned about it. Similarly, due to lack of proper monitoring, the quality of the road work is below par, raising questions about its sustainability. Given the rough road conditions, many small and big accidents are also taking place at in-

creasing frequency.

The roadside soil remains unsafe as at many places it is not properly rolled and lavelled. Similarly, due to non-completion of drain work, the dirty waste water of the drains within the city flows on the road, creating an unhealthy environment in the market

area. As a result, the common people and traders are suffering the most. People from Keonjhar town and villages like Ghuturu, Shankarpur, Jhabbelda, Nelung, etc., who commute on the road regularly, are the worst sufferers.

Sources said that the 10.7 km stretch of road was agreed to be completed by December 2023 at a cost of about Rs 10.55 crore. Meanwhile, even after 10 months of the contract period, the construction of roads, culverts and drains in different places remains incomplete. There are also no proper signages on the road often putting the road users in confusion and trouble.

"If the negligence to road work is so much in a district headquarters town and that too, in the constituency of Chief Minister Mohan Majhi, it is not difficult to foresee what would be the fate of road work in interior and less known areas," said former MLA Subarna Nayak. While the engineer supervising the work did not give any answer, Superintendent Engineer Er Santosh Kumar Behera said that steps would be taken to complete the remaining culvert and drain work soon.

We demand permanent job: Paramedic workers

PNS ■ BHUBANESWAR

Slogans of 'permanent job our demand' echoed at Lower PMG Square in Bhubaneswar as hundreds of contractual paramedical workers on Monday hit the streets.

Demanding job regularisation, hundreds of GNM, ANMs, Lab Technicians, Pharmacists and other members of the Odisha Government outsourcing paramedical employees association staged the agitation.

The paramedical employees were recruited through outsourcing agencies during Covid-19 and played a huge role in healthcare services during the pandemic. However, they are now allegedly being ignored with no re-appointment and job permanency.

continued from their jobs in districts like Ganjam, Baleswar and Jagatsinghpur.

Among their many demands are a permanent job, appointment through NHM instead of an outsourcing agency and re-appointment of those discontinued from their jobs. "Our first and topmost demand is that our brothers and sisters who were discontinued from their jobs be reinstated. We also demand to be merged with NHM instead

of an outsourcing agency and the regularisation of our jobs," a woman agitator demanded. "The top court recently stated that contractual workers are equal to regular employees. So, the government should take steps to regularise our jobs. Earlier too, the Supreme Court had directed the same salary for the same work. If the top courts have already said something, why is the government not following it," asked an agitator.

Decision to hold Rath Yatra in Nov decried

PNS ■ BHUBANESWAR

The decision of ISKCON to organise the Snan Yatra of Lord Jagannath on November 3 and the Rath Yatra on November 9 in Houston, USA, has faced opposition. Earlier, similar attempts to hold Rath Yatra in Ludhiana and Delhi were also strongly opposed by devotees of Lord Jagannath.

Gajapati Maharaja Dibyasingh Deb had also criticised this decision and requested the ISKCON not to organise it. The ISKCON agreed in 2021 to organise the Snan Yatra on Jyestha Purnima and the Rath Yatra on Ashadha Shukla Paksha Dwitiya Tithi.

Premananda Prabhu of ISKCON Bhubaneswar had assured that the organisation would inform the higher au-

thorities and follow the traditional schedule. However, despite this, the ISKCON has decided to organise the Rath Yatra on a different date.

The Odisha Culture Center, Houston, has been organising the Rath Yatra since 2008 following the traditional schedule of the Puri Jagannath Temple.

President of Puri Mukti Mandap Sabha Vishwanath

Mishra has also opposed the decision, terming it an insult to the Jagannath culture.

The Shree Jagannath Pancharatra Prachar Samiti, in a meeting presided over by its general secretary Prabhakar Mallik, has condemned the decision and requested the Odisha Government and the temple administration to take immediate action.

On BBSR outskirts Illegal firecrackers worth Rs 20L seized

City to have 25 legal firecracker shops
PNS ■ BHUBANESWAR

Ahead of Diwali, the Commissionerate police raided several illegal firecracker godowns in Bhubaneswar and seized firecrackers worth over Rs 20 lakh.

According to sources, police seized over 150 kg of gunpowder and other materials used for manufacturing firecrackers during a raid in the Balipatna area on Sunday.

City DCP Pinak Mishra on Monday said, "All police stations have been directed to keep an eye on illegal cracker manufacturing units under their jurisdiction to avoid firecracker-related mishaps. Acting on the directive, several raids were conducted in the Bhubaneswar UPD."

"Earlier yesterday, raids were conducted in the

Balipatna area and a huge cache of explosive materials including 150 kg of gun powder, and 50 kg of iron dust used in firecracker manufacturing were seized. While two separate cases were registered at Balipatna Police Station, two people have been arrested in connection with the case," Mishra added.

The DCP informed, "As many as 25 places in Bhubaneswar will have temporary firecracker shops. While 465 applications have been received to open firecracker shops, more than 200 of them have been granted permission."

"No firecracker shop will be allowed to store more than 300-kg crackers and there should be a minimum distance of 50 feet between two shops," he said.

BBSR's prolonged hot days sign of climate change

The World Cities Day falls on October 31. As local action is critical to achieve UN sustainable development goals in less than a decade's time, that's by 2030, cities are at the forefront of SDG localisation. Since the very endorsement of the 2030 Agenda, the local Governments have been working to advance SDG localisation by revisiting their existing plans and programmes.

Coming back to Bhubaneswar, the city over the last two decades has been witnessing loss of spring season; monsoon more or less dependent on low pressure or weather disturbances while an expanded summer is all that is largely felt in the temple city. This could be due to many man made factors including climate change. While many plans and programmes are

PIYUSH RANJAN ROUT

chalked out both nationally and globally, with signing of many agreements among nations to protect environment, the global community is still far from meeting the needed climate action goals. Cities like Bhubaneswar are already see-

ing the consequences.

While heatwaves affect most areas, researchers have been observing hotter temperatures in urban areas as compared to rural areas. This is because cities tend to lack natural shade. At the same time, concrete buildings and roads absorb more sunrays during the daytime, causing the release of the accumulated heat back at night. Green landscapes have a cooling effect and the lack of greenery in urban areas makes them even hotter. This phenomenon makes life in urban areas unbearable. This is called the Urban Heat Island Effect.

Considering that in next two decade 40% of the Odisha population will live in urban areas, the Urban Heat Island Effect would be impacting an increasing number of people and cities across the State. This is

also true for Bhubaneswar, which over the past two decades has seen rapid urban and population growth, yet little investment is made in green infrastructure. A recent study on the climate change effect in Bhubaneswar confirms this, saying that the city is hotter compared to areas with a higher level of vegetation, citing Bhubaneswar's population density and lack of greenery as the main contributors.

Limited green areas coupled with record-high temperatures pose health challenges to the residents, especially to vulnerable groups like the elderly, people with chronic diseases, children, pregnant women - and to people who work outdoors, such as construction workers and athletes. The risks can be serious and range

from heat exhaustion to cramps and most severely - heat strokes.

On top of the immediate health risks that heat waves pose, increased temperatures intensify existing environmental issues like pollution and poor air quality. Specifically, scientists have proven that heat waves have an impact on increased levels of ground ozone, which aggravates respiratory diseases, like asthma and chronic bronchitis. Additionally, high temperatures entail high energy consumption for cooling, which contributes to increased air pollution, especially in places like Bhubaneswar, which relies heavily on coal for energy production.

With accelerating urban growth, it is important to recognize the challenges and factors that make cities uniquely vulner-

able to climate change, air pollution and urban heat. The local Government in Bhubaneswar must work with authorities at central and local level to advance green transition. Similarly, the State Government must support local Governments in developing action plans to address air pollution and climate change, promote sustainable urban mobility as well as instal solar panels - contributing to carbon-neutral development while nurturing innovative solutions for green transition, and more sustainable and resilient systems.

Using behavioural science, Bhubaneswar must aim to reduce the number of cars in the posh areas as well as in Old town which will result in a reduction of emissions and air pollution. Similarly,

Bhubaneswar must co-create a collaborative platform enabling communities, local businesses, civil societies and municipal councils to work together towards developing green infrastructure and green areas which will reduce accumulation of heat in urban structures.

Although not easy, taking climate action to make cities sustainable and more resilient to crises - including extreme heatwaves - is possible and urgently needed to keep cities and future generations safe. By doing so, Bhubaneswar not only would be able to bring Nature back into cities, it also will enhance the overall quality of life and ensure livable urban areas for tomorrow.

In Keonjhar 20 wild boars fall into abandoned well, rescued

NARESH PATTANAYAK ■ KEONJHAR

Officials of Keonjhar forest division rescued a herd of wild boars from an abandoned well in Handibhanga village under Sadar forest range area on Monday. Later, the wild boars were released into the forest safely.

spot. The soil was dug by a machine and a passage was created to rescue the boars. Locals said that there are a

large number of wild boars in the forests and hills of the area. They survive by eating the roots, stems, etc. of the jungle. Due to lack of food in the forest, they often stray into the villages and eat paddy, corn, tubers, etc. in the farm fields. As a result, farmers suffer unspeakable losses. Many a time, conflicts occur between the wild boars and the human beings. The farmers guard their farm from the boars and drive them away when they come. Often, poachers take advantage of this and hunt by setting traps, using hand bombs, or laying electric wires on their way.

New water supply project for Sambalpur

NIMAI CHARAN SAHU ■ SAMBALPUR

Sambalpur city will soon see improvements in its water supply system with a new project aimed at modernising the old infrastructure. The Water Corporation of Odisha (WATCO) has completed its survey and is set to start the tender process within the next month and a half.

details are still being finalised. The water shortage is a major issue for Sambalpur, Hirakud and Burla with a daily demand of 98 million litres, but only 83 million litres are currently being supplied. In many areas such as Ghunguti Pada, lack sufficient water connections and contaminated water continue to be a problem. The situation is especially of concern as Sambalpur faced a jaundice outbreak in 2014 due to contaminated water, causing a public health crisis. Despite an announcement of a Rs 100-crore project then to improve water infrastructure, only a partial progress has been made so far.

50 injured in monkeys' attack in Baleswar

PNS ■ BALESWAR

Panic gripped the residents of Raghunathpur panchayat under the Singla police station in Baleswar district as a troop of more than 20 monkeys unleashed terror and left more than 50 persons injured. The monkeys attacked the residents of Sanaasti, Kunkudi, Mathakankudi and Palasahi villages under Raghunathpur panchayat. As many as 50 persons have been injured by the monkeys. At least 10 victims are undergoing treatment at various hospitals in the district after sustaining serious injuries in the monkey attack. As per the villagers, there

are few 'mad' monkeys in troop who are unleashing terror in the villages and leaving the locals injured by attacking them. "The monkey troop attacked my husband at around 7 pm while he was returning from the market. The monkeys have also bitten him. He was first rushed to the Basta hospital and later shifted to Baleswar and then Cuttack as his condition deteriorated. The monkey menace has forced us to remain indoors," said a villager. On being informed about the monkey menace, Forest Department officials reached the panchayat and efforts were on to drive away to monkeys.

Govt's zero casualty claim in cyclone false: BJD MLA

'As 3 killed in Rajnagar' RAJESH BEHERA ■ KENDRAPADA

Rajnagar MLA Dhruba Charan Sahoo on Sunday organised a Press meet here and criticized BJP's zero casualty claim post cyclone "Dana". He slammed the ruling BJP in Odisha for allegedly making a tall claim though three persons died in Rajnagar block owing to the gale.

are also yet to get fodder. It speaks volumes about the mismanagement of Mohan Majhi led BJP's government's pre and post cyclone situation, alleged MLA Sahoo in a Press conference. How legendary personality and former CM late Biju Patnaik and his son and former CM Naveen Patnaik had earlier handled the Nature's fury like cyclone in Rajnagar is still fresh in the minds of people, said Sahoo. The Naveen Patnaik led BJD government had got accolades across the country and abroad for his disaster management

Land sale fraud Sub-Registrar office staff among 3 held in B'garh

RAKESH JOSHI ■ BARGARH

Fraudulent transactions in the purchase of land have come to the fore in the Bargarh District Sub-Registrar's office. On an FIR of Sub-Collector Prasanna Kumar Pandey against the accused, the local town police arrested three persons. The arrestees are land owner Suresh Bhosagar, junior assistant working in the sub-registrar office Umes Badhei and Bidyadhar Bhoi. The trio was sent to the District Jail after their bail petitions were turned down by court.

According to information, administrative order is mandatory for the sale of land belonging to Scheduled Castes and Scheduled Tribes under Odisha Land Reforms (OLR) Act, 1960. But the land owner, Suresh, in connivance with some departmental staff, managed to get fake permission orders and sold the Dalit land to others. The buyer also divided the land and sold it to others. This came to the notice of Sub-Collector Pandey and he reported it to police. Based on the complaint, the police registered the a case. The police have also launched a manhunt to nab the others involved in the land deal.

3 families homeless in fire mishap in Ganjam

PNS ■ BRAHMAMPUR

Three families were rendered homeless after a cooking gas cylinder explosion led to a massive fire at Kamalapadar village under the Khallikote police station in Ganjam district in the wee hours of Monday. At least 10 rooms of the three families were reduced to ashes. Fortunately, all the family members had a close shave with no major injuries. The incident occurred when the family members were asleep. The three houses belong to Kampa Jena, Bhuvani Pahana and Kuntula Pahana.

Fire fighters rushed to the spot and doused the flames. While the reason for the LPG cylinder blast was yet to be ascertained, neighbours woke up after the blast and rushed to the rescue of the three families. Before people could understand anything, the fire spread to two other neighbouring houses. Valuables worth lakhs of rupees including electrical appliances, cash and groceries were gutted. "We did our best to rescue all the family members, but we could not remove the valuables inside the houses. Several important documents including certificates, were burnt in the fire," a local said.

10 kids hurt while staging play NHRC seeks ATR from Ganjam SP

PNS ■ BHUBANESWAR

The National Human Rights Commission (NHRC) has sought an action taken Report (ATR) from the Ganjam SP over 10 children getting injured when they received electrical shocks while performing a play on stage in a village in the district. The NHRC asked the authorities to submit the ATR within eight weeks. The commission passed the directions based on the petition filed by a human rights activist Pratap Chandra Mohanty. The complainant alleged that the 10 children, who were between seven to 7 to 12 years,

sustained critical injuries at Phasiguda village in Digapahandi Tehsil of the district when the stage became electrically charged. The villagers had organised the play for inauguration of a temple. The organizers, local administration and the Energy Department are responsible for this incident, said the complainant seeking the commission's intervention into the matter. On a perusal of complaint, it is observed that the allegations levelled in the complaint are of serious violations of the human rights of the victims. Hence, the Ganjam SP is directed for appropriate action, the NHRC said.

Dana effect Rains throw cold water on cracker business in K'pada

Manufacturers hit RAJESH BEHERA ■ KENDRAPADA

While common people have been hit due to the incessant rains caused by cyclonic storm Dana in Kendrapada district, the fire cracker makers, in particular, are left much worried. While just a few days remain to Diwali, crackers vendors are not coming to them for bulk purchase of the crackers.

engage themselves in making crackers a month before Diwali to make fire crackers and make bulk supply to the traders. This is the time when they expect to earn some money for the whole year. But this time, the adverse

porary stalls at designated spots in the district. The temporary cracker stalls generally open 5 days before Diwali in the district, but this time, the fire cracker stalls are yet to be opened. Meanwhile, heaps of fire crackers and other fire works lay stored in the godown and houses of the manufacturers. "We are worried a lot as we are going to face severe loss this time," said the manufacturer of fire crackers in Dhumat area. A wholesale dealer of Kendrapada says that this year's sale thus far has been only 10 per cent of what it used to be. If there is no respite from the sky tomorrow, the sales will be further hit, he added.

PM Modi to launch ₹12,850 crore development projects

PIONEER NEWS SERVICE ■ NEW DELHI

Prime Minister Narendra Modi will launch development projects worth nearly Rs 12,850 crore on Tuesday and also extend his government's flagship health insurance scheme Ayushman Bharat to all senior citizens aged 70 years and above.

Modi has chosen to unveil the major health sector push on the occasion of the ninth Ayurveda Day and the birth anniversary of Dhanvantari, considered the god of medicine.

At a separate event, he will also distribute more than 51,000 appointment letters to the youth as part of his government's 'Rozgar Mela', an official statement said.

Noting that it has been the constant endeavour of the prime minister to provide quality healthcare services in the country, another statement said Modi will inaugurate Phase II of India's first All India Institute of Ayurveda in the national capital.

It includes a Panchakarma hospital, an ayurvedic pharmacy for drug manufacturing, a sports

medicine unit, a central library, an IT and start-ups incubation centre and a 500-seat auditorium among others.

He will also inaugurate three medical colleges at Mandasaur, Neemuch and Seoni in Madhya Pradesh.

Further, the prime minister will inaugurate facility and service extensions at various AIIMS -- Bilaspur in Himachal Pradesh, Kalyani in West Bengal, Patna in Bihar, Gorakhpur in Uttar Pradesh, Bhopal in Madhya Pradesh, Guwahati in Assam and in New Delhi -- which will also include a Jan Aushadhi Kendra.

He will also lay the foundation stones of five nursing colleges in Shivpuri, Ratlam, Khandwa, Rajgarh and Mandasaur in Madhya Pradesh, 21 critical care blocks at Himachal Pradesh, Karnataka, Manipur, Tamil Nadu and Rajasthan under Ayushman Bharat Health Infrastructure Mission (PM-ABHIM), and several facilities and service extensions at AIIMS in New Delhi and in Bilaspur, Himachal Pradesh.

Among other projects, he will inaugurate an ESIC hospital at Indore in Madhya Pradesh and lay the foundation stone for ESIC hospitals at Faridabad in Haryana,

Bommasandra and Narasapur in Karnataka, Indore in Madhya Pradesh, Meerut in Uttar Pradesh, and Atchutapuram in Andhra Pradesh.

These projects will bring healthcare benefits to around 55 lakh ESI beneficiaries.

In an innovative usage of drone technology to enhance service delivery and make healthcare more accessible, Modi will launch drone services at 11 tertiary healthcare institutions.

These are AIIMS Rishikesh in Uttarakhand, AIIMS Bibinagar in Telangana, AIIMS Guwahati in Assam, AIIMS Bhopal in Madhya Pradesh, AIIMS Jodhpur in Rajasthan, AIIMS Patna in Bihar, AIIMS Bilaspur in Himachal Pradesh, AIIMS Raebareilly in Uttar Pradesh, AIIMS Raipur in Chhattisgarh, AIIMS Mangalagiri in Andhra Pradesh and RIMS Imphal in Manipur.

He will launch a helicopter emergency medical service from AIIMS Rishikesh, which will help deliver medical care speedily.

The prime minister will also launch the U-WIN portal that seeks to benefit pregnant

women and infants by fully digitalizing the vaccination process.

Among many other projects whose foundation stones will be laid are one central research institute in yoga and naturopathy each at Khordha in Odisha and Raipur in Chhattisgarh and four centres of excellence at NIPER Ahmedabad in Gujarat for medical devices, NIPER Hyderabad in Telangana for bulk drugs, NIPER Guwahati in Assam for phytopharmaceuticals, and NIPER Mohali in Punjab for anti-bacterial anti-viral drug discovery and development.

In a major boost to the Make in India initiative in the healthcare sector, the prime minister will inaugurate five projects under the Production Linked Incentive (PLI) scheme for medical devices and bulk drugs at Vapi in Gujarat, Hyderabad in Telangana, Bengaluru in Karnataka, Kakinada in Andhra Pradesh and Nagalgarh in Himachal Pradesh, the statement said.

These units will manufacture high-end medical devices, such as body implants and critical care equipment, along with important bulk drugs.

Congress blames BJP on shifting projects from Maharashtra to Gujarat

T N RAGHUNATHA ■ MUMBAI

Accusing Narendra Modi of taking away Tata-Airbus C-295 aircraft and several other important projects and government offices out of Maharashtra, the Opposition Congress said on Monday that the people of the state would give a befitting reply to the "non-biological Prime Minister" and his colleagues in the Assembly polls "for betraying the state".

The Congress' attack against the Prime Minister came on a day when Modi, accompanied by Spanish Prime Minister Pedro Sanchez, inaugurated the Tata-Airbus C-295 aircraft manufacturing facility in Vadodara.

"It (Tata-Airbus C-2950 was the same project that was supposed to be set up in Nagpur, but it was shifted to Gujarat on the eve of Gujarat assembly elections in 2022. Due to which Maharashtra was deprived of this important investment. One can certainly imagine the politics behind the scenes for that," AICC General Secretary in-charge Communications Jairam Ramesh said.

In the first combative state that came from the Congress a day ahead of the close of nominations for the State Assembly polls, Jairam Ramesh charged that under the direction of the "non-biological Prime Minister" the Centre and the BJP-led MahaYuti government had completed surrendered Maharashtra's interests in getting new projects or getting support from the Centre in that regard.

Citing other instances of how Modi "betrayed" Maharashtra, Jairam Ramesh took to micro-blogging site "X" to recall how then Prime Minister Dr Manmohan Singh of the Congress in 2006 tried to set up the International Financial

Services Center (IFSC) in Mumbai, but the current Prime Minister moved the project to his home state of Gujarat.

"The IFSC has now been set up only in GIFT City, Gujarat. In 2006 Dr. Manmohan Singh had tried to set it up in Mumbai and reserved space for the IFSC in the Bandra Kurla Complex. But those efforts were thwarted and a potential 2 lakh jobs in Mumbai were lost," Congress' Rajya Sabha member said.

"Mumbai and Surat have worked together to develop India's diamond industry for decades, with Surat handling cutting and polishing, and Mumbai handling trading and export. However, a new Bharat Diamond Bourse was built in Surat. It is another matter that this move has failed entirely, with many diamond merchants moving their operations back to Mumbai," Jairam Ramesh said.

"Apart from the Tata-Airbus manufacturing project, the (now failed) Vedanta-Foxconn chip project was also shifted from Maharashtra to Gujarat," he said.

"Mumbai Metropolitan Region (MMR) remains a major hub for textiles and the textile commissionerate office, which has been in Mumbai for 80 years and more, was suddenly shifted to Delhi last year for no apparent

reason," Jairam Ramesh said.

"Dattopant Thengdi National Labor Education and Development Board was also shifted from Nagpur to Delhi in 2021," he said.

Quoting an instance of how the BJP-led government at the Centre played politics in matters relating to Maharashtra, Jairam Ramesh said: "The demand for the status of a classical language to Marathi was pending with the government for ten years and was met only on the eve of the assembly elections due to persistent pressure from the Indian National Congress and civil unions in Maharashtra".

"(We) @INCIndia and Mahavikas Aghadi believe in equal development of the entire country without prejudice. New infrastructure projects, special investment zones and modern industries should benefit not just the state but all Indians," he said.

"During Gujarat's period of industrialization in the 1970s and 80s, projects such as Gujarat State Fertilizers and Chemicals Limited (GSFC), Gujarat Refinery and IPL were not poached from other states but were newly established," he said.

"The people of Maharashtra will give a befitting reply to the non-biological Prime Minister and his colleagues for betraying the state," Jairam Ramesh said.

Delhi court defers bail decision for MP Engineer Rashid

PIONEER NEWS SERVICE ■ NEW DELHI

Delhi court has adjourned the bail order of jailed Baramulla MP Engineer Rashid, noting his case could go to a special court meant to try lawmakers now that he was an MP.

Additional Sessions Judge Chander Jit Singh, who had reserved the bail order in an alleged terror funding case, underscored he would first consider the issue of jurisdiction and whether or not to transfer the case to a special court meant to try lawmakers, considering Rashid was now an MP.

The judge would consider the issue of jurisdiction on November 13 while the order has been posted on November 19.

"Since we are considering the jurisdiction issue whether the matter will be heard by this court or the designated MP/MLA court of National Investigation Agency (NIA), keep it (bail order) post that," said the court.

Rashid, in the meantime, surrendered before Tihar jail

authorities on Monday, after the completion of his interim bail period.

On September 10, the court had granted interim bail to Sheikh Abdul Rashid, alias Engineer Rashid, to enable him to campaign for the J&K assembly elections and deferred the order on his regular bail plea.

Rashid's interim bail was previously extended till October 28 on the ground of his father's poor health and after the National Investigation Agency (NIA) didn't oppose the plea after verifying documents.

The newly-elected MP has been lodged in Tihar jail since 2019 after the NIA arrested him under the provisions of the Unlawful Activities (Prevention) Act in the 2017 terror funding case.

Elections to the 90-member J&K Assembly were held in three phases between September 18 and October 1. The National Conference-Congress alliance were declared winners with 48 seats on the day of results on October 8.

Congress seeks clarity on caste enumeration and state representation in next census

PIONEER NEWS SERVICE ■ NEW DELHI

Congress on Monday sought an all-party meeting to get clarity on whether the next census would include a detailed enumeration of all castes and whether the census will be used for determining the strength of each state in the Lok Sabha.

Congress chief spokesman Jairam Ramesh said the extension of the tenure of the Registrar General and Census Commissioner has been notified and it means that the long-delayed Census that was due in 2021 will finally be conducted soon.

"But there is still absolutely no clarity on two crucial issues. Will this new Census include a detailed enumeration of ALL castes in the country, in addition to that of scheduled castes and scheduled tribes that has been done in every Census since 1951?

According to the Constitution of India, such a Caste Census is the sole responsibility of the Union Government," Ramesh said in a statement.

"Will this Census be used for determining the strength of each state in the Lok Sabha as provided for in Article 82 of the Constitution of India (which says that the first Census taken after the year 2026 and the publication of its results will be the basis of any such reconstitution)? Will this work to the disadvantage of states that have been pioneers in family planning?" the Congress leader said.

It would be most appropriate if an all-party meeting is held soon to get clarity on these two vital issues, Ramesh asserted.

The central deputation of Mritunjay Kumar Narayan, currently serving as Registrar General and Census Commissioner of India, has been extended till August

2026, paving the way for him to lead the team to carry out the much-delayed decadal census of India.

"The President is pleased to extend the central deputation tenure of Shri Mritunjay Kumar Narayan, IAS (UP:1995), Registrar General and Census Commissioner of India, Ministry of Home Affairs beyond 06.12.2024 for a period up to 04.08.2026 or until further orders whichever is earlier.

The Headquarters of Mritunjay Kumar Narayan, IAS (UP:1995) will be New Delhi," according to an official notification.

Narayan is a 1995 batch IAS officer of the Uttar Pradesh cadre and is holding the key post under the Ministry of Home Affairs since 2020.

The house listing phase of the census and the exercise to update the National Population Register (NPR) were scheduled to be carried out across the country from April 1 to September 30, 2020 but were postponed due to the COVID-19 outbreak.

The census operation continues to be on hold and the government has not yet announced the new schedule. The government is expected to announce the schedule for the much-delayed exercise soon.

Indian mountaineers create history

PIONEER NEWS SERVICE ■ DEHRADUN

A team of 20 mountaineers led by Colonel Anshuman Bhaduria has created history, scaling 11 previously unscathed and unnamed peaks in the border region of Mana in eight days.

Colonel Bhaduria is the principal of Uttarkashi-based Nehru Institute of Mountaineering. The team planned its ascent overcoming harsh weather, high winds, snow and fluctuating temperatures, NIM Registrar Praveen Kumar said.

The team climbed five 6,000-metre high mountains in just eight hours and reached the summits of all 11 peaks in eight days creating two new records in the history of mountaineering, he said.

"This accomplishment not

only highlights the technical prowess and physical fitness of the team members but also their remarkable teamwork and determination," Kumar said.

Located close to the India-China border in Chamoli district, Mana is known as the gateway to the Himalayas and has long attracted adventurers. The peaks remained unscathed because of the rugged and untamed nature of the area, the university official said.

"This expedition is significant for several reasons. It showcases the unexplored beauty of the Mana region, serves as an inspiration to aspiring mountaineers and adds a proud chapter to India's mountaineering legacy," he said.

The expedition began on July 1 and concluded on August 7.

RaGa escalates attack on Government, alleging cronyism and wealth concentration

PIONEER NEWS SERVICE ■ NEW DELHI

Stepping up his attack over conflicts of interest allegations against SEBI chief Madhabi Buch, Congress leader Rahul Gandhi on Monday said the current regime is no longer merely encouraging monopolies but actively concentrating the nation's wealth in the hands of a few.

The Leader of Opposition in the Lok Sabha, made the remarks in his post along with a video featuring him and Congress' media and publicity department head Pawan Khera in which they talk about the alleged conflicts of interest of SEBI chief Buch.

"Institutional collapse has now given way to a more dangerous form of cronyism -- Adani Bachao. The current regime is no longer merely encouraging monopolies, it's actively concentrating the nation's wealth in the hands of a few," Gandhi said.

The Madhabi Buch scandal goes deeper than initially imagined, he said, adding that it may be that Buch, entrusted with safeguarding retail investors, has been manipulating the system to protect Adani's interests and his inflated valuations.

Those entrusted with protecting common Indians

and their investments have abrogated their responsibilities and are indulging in wide scale corruption and malpractice, he alleged.

The Congress has consistently raised these issues, is investigating these scams, and exposing the truth to the public, Gandhi said.

In the video, Khera is seen explaining to Gandhi the various conflicts of interest allegations against Buch and how there were powers behind her that were at work, an apparent reference to the Adani Group.

Sharing the video, the party

said the role of SEBI chairperson is to maintain the security of the stock market and ensure investments of common Indians are not at risk.

However, when the chairperson is involved in manipulating the market to benefit a single player - like the Adani Group - then everyone's money is at risk, it said.

"That is what is happening with the Madhabi Buch Scandal. She has been placed in this position by PM Modi and HM Amit Shah to give Adani a clean chit in allegations of stock manipulation," it said.

JP Nadda calls for unity, urges participation in 'run for unity' event

PIONEER NEWS SERVICE ■ NEW DELHI

BJP president JP Nadda on Monday urged people and all public representatives, including MPs, MLAs, office bearers and workers of his party, to take part in the 'Run for Unity' event.

He asked the BJP workers to promote Sardar Vallabhbhai Patel's ideals during Tuesday's event by sharing his thoughts and contributions with the "#Sardar150" hashtag on social media.

"As Bharat Ratna Sardar Vallabhbhai Patel's jann jayanti (birth anniversary) coincides with Diwali this year, the 'Run for Unity' event will take place tomorrow, Tuesday, October 29," Nadda said in a statement.

"I urge everyone to participate in large numbers and spread the message of national unity as well as the importance of fitness," he said.

The BJP chief asked

party workers to make "every effort" to ensure the event's success.

"Additionally, I request all public representatives, including BJP MPs and MLAs, along with all party office bearers, to participate in this event and honour Sardar Patel ji," Nadda said.

"Every karyakarta, official and representative of the BJP should promote Sardar Patel ji's mantra of national unity alongside the message of fitness everywhere," he said.

SC extends interim bail to ex-Chhattisgarh CM's deputy secretary

PTI ■ NEW DELHI

The Supreme Court has extended the interim bail granted to former Chhattisgarh chief minister Bhupesh Baghel's deputy secretary, Saumya Chaurasia, who is an accused in a case linked to the alleged coal-levy scam.

A bench of Justices Surya Kant and Ujjal Bhuyan posted the hearing on November 27.

"Interim order to continue meanwhile," the bench said in its October 25 order.

The top court had on September 25 granted interim bail to Chaurasia while noting she had been in custody for over a year and nine months, and charges hadn't been framed against her before the trial could begin.

While directing the Chhattisgarh government not to reinstate Chaurasia in

collected sufficient evidence to conclude Chaurasia was actively involved in the offence of money laundering defined in Section 3 of the Prevention of Money Laundering Act.

The federal probe agency had, in 2022, alleged a "grand conspiracy" in the natural resources-rich state to perpetrate a "coal-levy scam", which saw an "extortion" of about Rs 540 crore over the previous two years.

The money-laundering case stems from a complaint lodged by the income-tax department.

The ED investigation relates to "a massive scam in which illegal levy of Rs 25 was being extorted for every tonne of coal transported in Chhattisgarh by a cartel involving senior bureaucrats, businessmen, politicians and middlemen", alleged the ED.

Sangh parivar rallies behind BJP for victory in UP By-elections

BISWAJEET BANERJEE ■
LUCKNOW

As the crucial by-elections for nine assembly seats in Uttar Pradesh approach, the Sangh Parivar has mobilised its cadre to ensure a decisive victory for the Bharatiya Janata Party (BJP). Booth-wise teams of RSS workers have been activated in the respective constituencies, working discreetly yet determinedly to lay the groundwork for BJP's success. These teams, while keeping a distance from BJP's official events, are reaching out to various communities to propagate the message of national interest and communal unity, guided by the mantra of Chief Minister Yogi Adityanath: "Katoge to batoge".

The renewed involvement of the Sangh Parivar follows a period of strained relations between the BJP and its ideological mentor, the Rashtriya Swayamsevak Sangh (RSS). The tension had escalated earlier this year when BJP President JP Nadda remarked that the party had grown strong enough to operate independently, without the need for RSS support. This statement led to a lull in the Sangh's activities, resulting in a perceived weakening of the Hindutva

agenda and a fragmentation of Hindu communities. The BJP felt the repercussions of this during subsequent electoral setbacks. However, the recent decline in the unity of Hindu voters has prompted the Sangh to reassess its strategy. According to insiders, both the RSS and BJP have realized the importance of mending their alliance to ensure a favorable outcome in the upcoming by-elections, as well as in the assembly elections in Maharashtra and Jharkhand. The BJP has since sought the support of the Sangh to reinforce its grassroots campaign in Uttar Pradesh.

Now, with a renewed sense of purpose, the RSS has re-engaged its network to prepare the electoral field for the BJP. Ground-level contact programs have been initiated to build public support. The campaign hinges on CM Yogi Adityanath's slogan, "Katoge to batoge", emphasizing the need for unity among Hindus in the face of caste divides. The Sangh's workers are focusing on small gatherings, meeting with groups of 5-10 people, where discussions revolve around national interest, Hindutva, governance, development,

and local issues. Although the Sangh's teams refrain from overtly endorsing the BJP in these meetings, the subtle shaping of public opinion aligns closely with the BJP's electoral goals. The Sangh Parivar's renewed efforts are not limited to Uttar Pradesh. Meetings held in Lucknow, as well as in other states where elections are imminent, have laid out a comprehensive strategy to replicate this approach in other regions. The blueprint reflects the success achieved in the Haryana assembly elections earlier this year, where the RSS teams conducted nearly

1.25 lakh small meetings across the state. These gatherings, aimed at countering the then Congress government's Jat-centric policies and addressing local concerns like the Agneepath recruitment scheme, played a crucial role in turning public sentiment in favor of the BJP. In Uttar Pradesh, the RSS has prepared similar teams for the 10 assembly seats that are part of the upcoming electoral contest, even though voting will occur on nine seats. The grassroots approach is designed to bolster BJP's standing among all sections of society, aiming to bridge divides and consolidate votes under a broader narrative of Hindutva and national unity. As the by-elections loom, the Sangh Parivar's behind-the-scenes efforts are expected to play a pivotal role in determining the outcome. The by-elections are widely seen as a test of the BJP's organizational strength and the resonance of its campaign themes, as well as the effectiveness of its alliance with the RSS. A victory in these by-elections would not only boost the BJP's momentum in Uttar Pradesh but could also set the tone for the party's performance in the upcoming assembly elections in other states.

UP CM meets custody death victim's family

PIONEER NEWS SERVICE ■
LUCKNOW

Uttar Pradesh Chief Minister Yogi Adityanath on Monday met the family members of trader Mohit Pandey, who died in police custody due to alleged assault, and announced a compensation of Rs 10 lakh for them, officials said. The government will also take care of the education expenses of the children of the deceased, they said. Pandey (30) died on Saturday after being allegedly beaten by police personnel following his arrest in connection with a case, according to his family. Following an uproar, the authorities on Sunday ordered an FIR against the police station's personnel on charges of murder and criminal conspiracy. The in-charge of the police station, among those booked, has been suspended. According to a statement, the chief minister offered his condolences to the bereaved family members and instructed officials to provide them with an ex gratia of Rs 10 lakh, housing, free education for the children and access to various government schemes. He also assured the family that those responsible for Pandey's death would face strict consequences and promised that the culprits would not be spared. The opposition has been attacking the BJP government in Uttar Pradesh over the recent incidents of custodial death. On Monday, Samajwadi Party chief Akhilesh Yadav fired a fresh salvo. "I wish those who take life could give life in

compensation. Those who have extinguished the light of someone's house on Diwali, it is hoped that they will not light the lamps of lies, they will not try to remove the deep darkness of their rule with false light. The public is asking, will a bulldozer be used on the person who died in custody? Condemnable! Yadav posted on X in Hindi. Pandey's mother Tapeshwari Devi along with his wife and children visited the chief minister's official residence on Monday morning. After the meeting, the family expressed a sense of relief. "We are satisfied after meeting the chief minister. He assured us that he was fully aware of the case and that there would be no leniency. Once the investigation is complete, strict action will be taken against those found guilty," said Tapeshwari. Bakshi Ka Talab MLA Yogesh Kumar Shukla and councillor Shailendra Verma were also present during the meeting. Pandey, a resident of Jainabad in the Chinhat area, died at a hospital in police custody. His family members have claimed that police brutality was the cause of his death. The incident has triggered a major political furor, with the Samajwadi Party, the Congress and the Bahujan Samaj Party

slamming the BJP government. Earlier Sunday, Akhilesh Yadav had said the term "police custody" should be changed to "torture house", while Congress leader Priyanka Gandhi Vadra alleged the BJP has "established such a jungle raj in the state where police have become synonymous with brutality". BSP chief Mayawati termed the incident "highly condemnable" and said the government must take effective steps to provide justice to the victim's family. According to the police, Pandey was rushed to a community health centre after he became unwell at the police station. From there he was referred to a bigger facility where he died, they said. However, Shobharam, the victim's brother who claimed that he was also briefly held in custody, alleged that the police thrashed Pandey "mercilessly" in front of him and sent him to the hospital only after he died. A CCTV clip surfaced on the Internet on Sunday, purportedly showing Pandey lying inside the lockup. The family members of the deceased accused the police of deliberately leaking only a small portion of the footage to save their back, claiming that Pandey was beaten to death.

Mahila congress chief demands legal action against Irfan Ansari

PIONEER NEWS SERVICE ■
RANCHI/ NEW DELHI

Mahila Congress chief Alka Lamba on Monday condemned the alleged derogatory remarks by her party leader and Jharkhand minister Irfan Ansari against BJP's Sita Soren and demanded legal action over the matter. She said that the Congress governments in various states have made strict laws for crimes against women. Soren, who is contesting from Jamtara assembly constituency against Ansari, on Sunday broke down while speaking about the derogatory remarks allegedly made by Ansari. Ansari allegedly made the derogatory remark about Soren after filing his nomination papers on Thursday. Asked about Ansari's

remarks, Lamba told reporters, "Whether it is a person inside the party or outside, crime should be seen as crime. If you have said something verbally, caused physical harm, all kinds of laws have been made in the Congress government after the Nirbhaya incident. "We never support this (comment). Whether it is Irfan Ansari, the woman belongs to any party, we

condemn this (comment), oppose it, demand legal action on it," she said. Lamba said when the next government is formed, the Congress will ensure a fair action and punishment in this case. The Jharkhand BJP on Friday filed a complaint with the Election Commission against Ansari for allegedly making derogatory remarks against Soren who is a prominent figure in the tribal community. The BJP's complaint claimed that Ansari's remarks insult both the tribal community and widows in the state. The party requested the commission to prevent Ansari from filing his nomination and to register a criminal case against him. Soren shared a video of the alleged remarks on X, requesting an apology from the Congress minister.

Pappu Yadav seeks enhanced security from Amit Shah on threat call from Bishnoi gang

PIONEER NEWS SERVICE ■
PATNA

Bihar Lok Sabha MP Rajesh Rananjan alias Pappu Yadav has written to Home Minister Amit Shah, seeking enhanced security in view of a "threatening call from the Lawrence Bishnoi gang". The Patna MP shared with the media his two-page letter to Shah, copies of which have been marked to the chief minister of Bihar and other top officials in the state. The letter, dated October 21,

was made public on Monday when a section of the media also played an audio clip of the call from a purported aide of Bishnoi "made from a Dubai number". Besides seeking upgradation of his 'Y' security cover to 'Z', Yadav also demanded "police escort" at all functions he attends across Bihar, warning "if I get murdered, the blame shall fall upon the Centre as well as the state government". Meanwhile, Patna SP Kartikeya Sharma said, "We have come to know about the

MP's charge through the media. We are looking into it, and also ensuring that arrangements are made for his safety in accordance with his 'Y plus' security cover". Yadav, a gangster-turned-politician, claimed that the caller was upset over his social media outbursts against Bishnoi, who is lodged in a Gujarat jail. After the assassination of NCP leader Baba Siddiqui in Mumbai, Yadav had declared on X that "if permitted by law", he would "finish off within 24 hours the entire network" of Bishnoi, who is alleged to have been behind the killing. A few days later, he twisted the knife by expressing solidarity with Bollywood actor Salman Khan, who is in the cross hairs of Bishnoi over killing of blackbucks, which are held sacred by the community to which the jailed gangster belongs.

Dhananjay Munde faces Maratha challenge in Parli elections

PTI ■ CHHATRAPATI SAMBAHAJINAGAR

Maharashtra agriculture minister Dhananjay Munde will have to effectively counter the Maratha vote consolidation in Parli assembly segment, the hometown of late Gopinath Munde which interestingly won't have a BJP nominee in the fray after decades. Elections to Maharashtra assembly will be held on November 20 and votes will be counted three days later. Just four months ago, the Maratha factor contributed to the narrow defeat of BJP candidate Pankaja Munde, cousin of Dhananjay, from the Beed Lok Sabha constituency which includes the Parli constituency. The Maratha quota sentiment remains a strong factor to reckon with in Parli, a rural constituency dominated by issues like MSP for soybean crops and unemployment. Political observers feel Dhananjay will have to ensure the support of the OBC community to blunt the resentment in Marathas against the BJP-led government. In a strategic move, Sharad Pawar has fielded Rajeshaheb Deshmukh as NCP (SP) nominee against Dhananjay Munde, an Ajit Pawar loyalist and NCP candidate. Parli is the hometown of the late Gopinath Munde, credited for expanding BJP's footprint in the Marathwada region. With BJP nominating Pankaja as an MLC and Dhananjay already a member of the NCP camp, the Parli constituency won't have a BJP representative this time. Pankaja Munde had scored two victories in Parli in 2009 and 2014 polls. She missed a hat-trick in 2019 when Dhananjay Munde defeated her by 30,701 votes. The brother and sister duo have buried their differences over the last five years. NCP (SP) nominee Deshmukh claimed Dhananjay had failed to resolve farmers' issues in Parli. He alleged local people are living in an atmosphere of fear and insecurity. Dhananjay, however, feels that the intensity of the Maratha factor has reduced over the months. Speaking to PTI, he said the caste politics witnessed in the Lok Sabha elections was an aberration, highlighting the victory of candidates of various castes from the Beed

parliamentary constituency in the past. He acknowledged that Beed is not unaffected by Maratha quota agitation, without mentioning reservation leader Manoj Jarange. "My fight for Maratha reservation was not considered during Lok Sabha polls. Reservation was not the only issue. There are other factors including a limited discontent among farmers," Dhananjay said analysing the Lok Sabha poll outcome. "The intensity of the quota agitation that existed in general elections has decreased," he claimed. Queried on whether Beed district witnessed maximum suicides by farmers, the minister listed various initiatives undertaken by the agriculture ministry headed by him. "The government has paid the insurance premium for farmers. I have also demanded that the import duty on soybean oil be raised. The government has also started centres for purchasing soybeans from farmers," he added. Sharad Pawar-led NCP (SP) is confident to maintain the momentum it got in the recent general elections. NCP (SP) candidate Bajrang Sonawane had defeated Pankaja from Beed by a thin margin of around 6,000 votes. The consolidation of Maratha votes in favour of Sonawane is evident as the BJP and the NCP (SP) each had secured the lead from three out of six assembly segments under the Beed parliamentary seat. Deshmukh said he would establish the rule of law if elected from Parli. He alleged local businessmen are relocating as fake offences are being registered. When asked about Pankaja securing a lead in votes from the Parli assembly constituency, Deshmukh said Lok Sabha and assembly elections are distinct. "Factors like Pankaja Munde's work and sympathy for being Gopinath Munde's daughter benefited her. On the contrary, Dhananjay Munde had betrayed Gopinath Munde. Dhananjay has done no work. Farmers are awaiting payment of crop insurance for years," he claimed. Parli resident Chetan Saundale feels the Maratha quota issue won't affect the electoral outcome.

Nitish Kumar hosts NDA meeting ahead of Bihar elections

PIONEER NEWS SERVICE ■
PATNA

Aiming for a fifth consecutive term in office, Bihar's longest-serving Chief Minister Nitish Kumar on Monday hosted a meeting of the ruling NDA to ensure "better coordination" in the run-up to state assembly polls due next year. Leaders of all five NDA partners in the state, BJP, Lok Janshakti Party (Ram Vilas), Hindustani Awam Morcha and Rashtriya Lok Morcha, besides the JD(U) that Kumar heads, turned up at 1, Anne Marg, the Chief Minister's official residence, on the occasion. Emerging from the meeting that lasted for over an hour,

leaders told journalists that Kumar urged the attendees to ensure that similar interactions be henceforth held regularly in all districts and assembly constituencies. "The chief minister has vowed to lead the NDA towards another victory in 2025. He has also called for exposing the opposition Mahagathbandhan, stating that he felt cheated by that coalition," State BJP president and minister Dilip Jaiswal said. Notably, Kumar had walked over to the Mahagathbandhan in August 2022, alleging that the BJP had tried to weaken his party with the help of the then LJP chief Chirag Paswan, now a Union minister who had

staged a revolt during the assembly polls of 2020, causing the JD(U)'s tally to crash. Kumar also played a pivotal role in bringing together, from across the country, parties opposed to the BJP, which led to the formation of the INDIA bloc but grew disillusioned and returned to the NDA in January this year. His key aide and JD(U) working president Sanjay Kumar Jha said, "The chief minister has thanked the Narendra Modi government at the Centre for its generous assistance to the state. He has urged all leaders present at the meeting to apprise the people, especially youngsters who may not be aware of the state's dismal past, of the

great leap the state has taken ever since the NDA came to power." The JD(U)-BJP combine had first achieved power in Bihar in 2005 when it had ended the decade-and-a-half rule of Lalu Prasad's RJD. NDA leaders emerging after the meeting shared the enthusiasm of the chief minister, now 73 years of age, who called upon the coalition to aim for a tally of "200 plus" in the 243-strong assembly. Those who attended the meeting included Rashtriya Lok Morcha president Upendra Kushwaha, a Rajya Sabha MP who quit the JD(U) last year alleging that Kumar had capitulated before the RJD, his then ally, by virtually declaring the then

Deputy CM Tejashwi Yadav as his successor. Another ally who turned up at the meeting was Union minister and Hindustani Awam Morcha founder Jitan Ram Manjhi, who had quit NDA two years ago expressing solidarity with Kumar but returned last year alleging that the JD(U) supremo was putting pressure for a merger of the party, a move which helped his son Santosh Suman getting re-inducted into the state cabinet in January this year. NDA leaders remained tight-lipped over the absence, at the meeting, of former Union minister Pashupati Kumar Paras, who heads Rashtriya Lok Janshakti Party and has been sidelined since the Lok

Sabha polls which saw weightage being given to Chirag Paswan, his nephew with whom he has a running feud. However, Raju Tiwari, who is the state president of Chirag Paswan's Lok Janshakti Party (Ram Vilas), assured journalists that the young leader's brinkmanship was a thing of the past and lauded Kumar for giving a clear signal to cadres of all parties, well in advance of the assembly polls'. Other prominent leaders who attended the meeting were Union ministers Rajiv Ranjan Singh "Lalan" (JDU) and Giriraj Singh (BJP), Deputy Chief Ministers Samrat Choudhary and Vijay Kumar Sinha (both BJP).

Muslim poets recite urdu Ramayana in Bikaner

PTI ■ JAIPUR

In a unique event leading up to Diwali that has been fostering goodwill for over a decade, Muslim poets in Bikaner recite an Urdu version of the Hindu epic Ramayana that was composed 89 years ago. Dr Ziya Ul Hasan Quadri, an Urdu teacher and poet, who along with two other Muslim poets recited the Urdu Ramayana at a function on Sunday said that the objective of the event is to give a positive message of harmony and brotherhood. "Paryatan Lekhak Sangh" and

"Mehfil-e-Adab" jointly organise the event 'Urdu Ramayan Vaachan' every year in Bikaner

since 2012. Quadri said that the couplets vividly describe scenes from

Ramayana like Lord Ram's exile, victory against Ravan and his return to Ayodhya, capturing the emotions depicted in the epic which is greatly appreciated by audiences in the city. Maulvi Badshah Hussain Rana Lakhnavi of Bikaner composed the poetic version of Ramayana in Urdu language in 1935 for a competition organised by the Banaras Hindu University (BHU) on the birth anniversary of Tulsidas. It won the gold medal following which the erstwhile ruler of Bikaner, Maharaja Ganga Singh, organised a ceremony to listen to Rana Lakhnavi's version.

Tej Bahadur Sapru presented the gold medal to Rana Lakhnavi on behalf of the BHU in this programme. The poets, who take part in the recitation in Rajasthan's Bikaner before Diwali, now want to take the practice at the national level and plan to organise the recitation programme in the national capital next year. "Things have drastically changed from the time when it was composed. Today, communal harmony is under threat. Lord Rama is revered by all and belongs to all, but today he has been limited which is disappointing," Quadri said.

He said that Muslim poets recite the Urdu Ramayana and the audience comprises of both Hindus and Muslims. Quadri said that initially, the event used to be organised in the open but later the venue changed and now it is held in a hotel so that things are well arranged. He said that Maulvi Badshah Hussain Rana Lakhnavi worked for Maharaja Ganga Singh from 1913 to 1919, during which he translated orders issued by the Mughal rulers from Persian to Urdu. In 1920, he was appointed as the teacher at Dungar College by Ganga Singh.

PAPER WITH PASSION

Scammed!

An increasing number of people are falling victim to online scammers who exploit fear to extort money

Digital scams are evolving into a growing menace, targeting people across India and robbing them of their hard-earned money. As more people rely on online platforms for communication and transactions, fraudsters are exploiting the digital landscape to orchestrate sophisticated schemes. A recent warning from Prime Minister Narendra Modi has highlighted the alarming rise of a new scam known as the 'digital arrest.'

This scam involves tricking victims into believing they are under legal scrutiny for their misdeeds and asking them to remain isolated. The victims are placed under a 'digital arrest,' by the fraudster posing as a police officer. To get out of this they must cough up the money to drop the fabricated charges. The 'digital arrest' scam preys on fear and confusion. The term 'digital arrest,' sounds like a legitimate legal procedure. Recognising the severity of the issue, Prime Minister Modi issued a national warning to educate citizens about this fraudulent scheme. He clarified that the concept of a 'digital arrest' does not exist under Indian law, and no government agency would ever request personal details via phone or video call.

PM Modi also provided a three-step action plan for anyone targeted by digital scammers: Victims should not panic but try to record the interaction if possible, which could help authorities trace the criminals later. No official agency will threaten or make demands online. Any such approach should be treated with suspicion. And lastly, Citizens should immediately report the incident to the national cyber helpline and local police. Several cases of 'digital arrests' have emerged across the country, underlining the scam's rapid spread. Recently, Malayalam film actor Maala Parvathi fell victim to the scheme when fraudsters, posing as Mumbai police officers, accused her of smuggling drugs to Taiwan. Fortunately, she recognised the ruse before any money was exchanged.

The cases of digital arrest scams are just tip of the iceberg. Everyday millions of people are getting calls from scamsters and losing their money. Digital scams like the 'digital arrest' are effective because they exploit common fears about the legal system. The scammers often impersonate authoritative figures such as police officers, Central Bureau of Investigation officials, or representatives from the central bank, making their threats seem credible. The use of deepfake technology, fake ID cards, and well-crafted backdrops adds to the authenticity of their claims, convincing many to comply out of fear. PM Modi's alert is timely, however the efforts must be made by the enforcement agencies to ramp up cyber security and nab these fraudsters. Cyber security must be given top priority at the highest level as it also concerns national security as well. The Government and law enforcement agencies must put their act together to combat the surge in digital scams. Awareness campaigns, cybercrime helplines, and increased collaboration with technology companies must be employed to take on these scamsters.

Chasing votes at the cost of social harmony

J S RAJPUT

In a nation as diverse as India, the relentless pursuit of electoral gains has overshadowed efforts to foster genuine unity and social cohesion

It is indeed disconcerting that every aspect of life in India is impacted by the process of garnering votes in the next election, and the unscrupulous politician never hesitates to use it to create a wedge between people of varied religious pursuits. I say this as I reflect upon the Bahraich clashes, these were indeed communal whether we like to use that term or not! And these are a continuation. Reports of stone pelting on religious processions are now considered routine, except by the real victims, no one cares much about what media reports with adequate caution. It is indeed disappointing to recall that the culture of wasting time and human resources that could better be utilised for deliberations on national concerns and issues is deliberately wasted, for presumed petty political gains.

When parliament is disrupted, when the Supreme Court finds time to listen to frivolous repeated petitions from politicians who fight cases on public funds, the national interest ipso facto gets relegated to the background. One could go on citing instances of the decline in the conduct of leaders - exceptions apart - who enter politics just to look after themselves, their family and their clan! They hardly care for the loss of public credibility of the elected representatives amongst people and the public! Not many would even be aware of the resignations of KD Malaviya, TT Krishnamachari and Lal Bahadur Shastri? Over the last seventy-five years people have learnt to comprehend the real intentions of the politicians of different hues, their proclamations notwithstanding, they know who is communal and who is not! This incisive analytical skill emerges from the realisation that India abounds in the presence of diversity, be it of races, climate, language, cultures, flora and fauna, and most prominently and importantly, of religions and faiths. The beauty lies in the presence of harmony, bonhomie and lasting unity that makes this nation unique in multiple ways. It is a robust democracy that was ushered in after independence and has survived a couple of upheavals, uncertainties and even the dreaded Emergency of 1975-

77. What makes India click? It is the eternal strength of the ancient culture that guides the organisation of the personal and social lives of individuals, families and communities through high moral, ethical and philosophical inputs that possess the strength to accept the universal unity of humankind. It prepares people to value caring for others including nature, the learned of the past and present, and remain ever grateful to the family, parents, community and the nation. The culture so strengthened exhorts the individual to remain ever prepared to sacrifice personal good for the community good. The Indic religions accepted, and propagated the philosophy of the 'Search for Truth' - the ultimate human pursuit of the ultimate perfect - by each religion being one of the many available paths to reach the same goal! If one accepts this premise, then there is no scope for any bitterness or any of the induced, lured or enforced religious conversions! Every Indian, irrespective of his religious persuasion, needs to realize that conversions were not part of ancient Indian philosophy and thought, as acceptance of diversity based on equality makes it irrelevant and irrational. Organised efforts to convert people to one's religion were non-existent before the arrival of the Abrahamic religions. The tragedy of the current-day

WHY NOT FOCUS ON THE ESSENTIALS OF DEMOCRACY, POSITIVE AND FORWARD-LOOKING ASPECTS OF THE NATIONAL POLICIES THAT WOULD BETTER THE LIVES OF THE LAST MAN IN THE LINE WHO WAS THE FOCUS OF GANDHI?

political discourse in India is its total concentration on irrelevant negativity and its total targeted focus on votes in elections. Gandhi ji had mentioned in 1922 that 'defects of elections' would weigh heavily on our people once the British left India! The citizens realise it, but politicians do not! Why not focus on the essentials of democracy, positive and forward-looking aspects of the national policies that would better the lives of the last man in the line who was the focus of Gandhi? The right path to be followed is known to all those in power, and also those eagerly awaiting people's mandate to grab the power again! Thus, the fact remains that apart from the memories of invasions communal hatred persistently ignited by the British, India could maintain social cohesion and religious amity. It is also a fact that to disrupt it, sustained attempts by the inept religious leaders to widen the wedge persist. They exploit the chilling scars of partition to augment the perceptions of 'being different' between the two communities. There are external agencies that openly interfere in disrupting the religious fabric of India. India opted for a secular state while Pakistan, created on communal lines, opted to become a theocratic state, mischievously pretending to give equal rights to the followers of other religions. The

partition of Pakistan created the possibility of minorities being treated better in Bangladesh. It has proved a myth after the recent change of government here. Hindus are being subjected to targeted killing and violence. Overall, it seems to be an irretrievable, human ingenuity could always find a way out, and it must do so. I interact with intellectuals who practice Islam and know its basic philosophy. They are convinced that Islam is being wrongly understood not only by persons of other faiths but unfortunately by numerous practitioners of Islam, including the devout religious persons! This they tell me unhesitatingly, is because of the firm foothold of the clergy unwilling to accept that times are changing fast, and dynamism is a compulsory component of human civilisation. May be, universal spread of modern education could help. Educated young persons shall have to shoulder a big responsibility. It is the initial home and family education that sows the seeds of acceptance of diversity in the child's psyche, and that determines his future approach and attitude towards other religions. It is well known that Pakistan is seriously deficient on this count. India too has worked to do on this front. (The writer works in education, social cohesion and religious amity. He is an Atal fellow with the PMML, New Delhi; views are personal)

LETTERS TO THE EDITOR

DHARMA NEEDS REFORM

Madam — The Vice President of India has said that inequities have no place in a society ruled by Dharma (October 27). This statement requires a wider range of discussions and even debates. If his statement holds good, then the scene prevailing in the country disproves his statement. As per Puranas, the society in the country since ancient times has been under Sanatana Dharma. Social and economic inequalities were there, perhaps in their worst forms, that the persons from certain castes were not entitled to even enter the areas where the people of upper castes were living. The majority of the people were living under poverty, and dharma recommends providing alms as an integral part of life. The ruling dispensation of this day firmly believes in Sanatana Dharma. But inequities are abnormally present on the social as well as economic front. This negates the statement that links Dharma and inequities. This also means propagating Dharma is just an academic course and has nothing to do with ruling or shaping society. In most of the countries, religious scriptures are quoted but not adhered to. Such discourses seem to be to numb the victims and keep them under fear of being punished for raising voices of dissent. Therefore, if the society has to remain in peace, the social inequalities should be removed without any of their traces left unattended and the policy of the rulers should be shaped to ensure equal distribution of national wealth, unlike the present scene marked by producing one billionaire every five days and leaving 81 crore poor to continue to live in poverty with just 5 kg of free rice a month. Religion is an innate affair, but ruling is a public affair. Let us not confuse ourselves.

A G Rajmohan | Anantapur

HIGH POLLUTION LEVELS IN DELHI

Madam — It is with reference to the news article "BJP Chief hospitalised after taking dip in toxic Yamuna" (October 27). In the months of October and November, Delhi grapples with the stark dual challenge of

Threats disrupt flights

Since October 14, airlines have been receiving threats through social media and other platforms. IndiGo, Air India, Akasa, and Vistara Airlines are still receiving these threats, causing confusion at airports and delayed flights. Due to these rumours, a total of 255 flights have been affected, leading to an estimated loss of 600 crore rupees in the aviation sector. This seems to be the first time such frequent threats have been heard. As

a result, the number of air marshals at airports has increased. The rise in social media usage has also led to an increase in "social issues" or problems, as those issuing threats are utilising these platforms. The Ministry of Civil Aviation is considering adding individuals identified for issuing bomb threats to a "no-fly" list. But what about the 600 crore loss? There should be a mechanism to recover damages by seizing the assets of those individuals or organisations responsible for such threats. Stringent action is expected against those who deliberately disrupt national transportation. Additionally, platforms like X and Meta play a role in spreading such rumours, so it's time for us to decide how much we should trust social media.

Dattaprasad Shirodkar | Mumbai

CONGRESS ACCOMMODATES SP

Madam — Having lost the Haryana polls to the BJP in the recently held Assembly elections, Congress has announced giving up claims for its share of seats in favour of SP, the lead partner in the INDI alliance in the state. The withdrawal can be termed a tactical move from the alliance point of view, as the Congress hardly has any presence in the state, holding just two seats out of 403 seats in the UP Assembly. The reason advanced for the move that it wants to defeat the BJP to save the constitution and reservation does not hold any water as they have not followed the same strategy in Kerala in choosing to contest against CPI (M), their alliance partner in INDI alliance where as the alliance winning Lok Sabha seat is more important for their declared objective of 'saving the constitution and saving the reservation'. Congress's priority seems to be projecting Priyanka Vadra to the limelight.

Why small steps matter in the battle against plastic

Many of us struggle to take even the simplest steps—like avoiding single-use plastic or segregating waste — essential for sustaining our planet

The natural resources of the planet are a treasure directly impacting our environment and climate. We need to withdraw judiciously and invest wisely for sustained growth. We can incorporate daily practices to grow this wealth. We live in a high-rise condominium complex. There was an animated discussion on the community WhatsApp group about a few residents feeding cows immediately outside the main exit. This causes the cattle to assemble when officegoers are in a hurry to exit. It is a potential traffic hazard. One gentleman rightly pointed out that the food dumped in plastic bags was also a health hazard. A few vehement voices of protest were raised. For them, feeding the bovine was an age-old tradition. We need to think differently to address issues of concern. A national campaign for a complete ban on single-use plastic was launched a few years back. Many of our smaller states have been conscious of the need for a long time. I travelled to

Sikkim a few years back. The shopkeeper rummaged through his shelves. He could barely manage a few old newspapers to wrap my provisions. Plastic bags have been banned in the state since 1998. We were also advised to bring empty bottles since packaged mineral water bottles were banned in north Sikkim. Individually we fail to be responsive to the urgent needs. Many residents in our complex still demand plastic bags from the fruit and vegetable vendors and the grocery stores. Despite repeated instructions, many stores refuse to do away with single-use plastic. My wife has been carrying cloth bags for the last 15 years whenever she steps out to buy groceries or vegetables, and even to the malls. Municipal

authorities in several cities have successfully implemented the management of segregated waste at the household level. I stayed in Indore for a couple of days a few years back. I was intrigued by a song following me when I stepped out for the morning walk. I noticed people coming out of homes with garbage bags in their hands. It was the garbage collection vehicle playing the melodious song. The song exhorted residents to segregate waste. The song was also a knock on the door about the van's arrival. I had heard so much about the unique model of Indore towards a cleaner and environment-friendly city. This was the living proof. I was surprised to notice construction and demolition debris stacked in front of the houses under construction or renovation. I was told that the municipal department collected waste from the doorstep and disposed of the same at designated sites. All of this has not happened overnight. Someone took the first step. Others joined, to make it a mass

movement. We have been struggling to implement waste segregation within our society for the past 8 years. The rules mandate it. We still manage to find reasons to justify inaction. Even the neighbours are not doing it, segregation is cumbersome, the timing for waste collection does not fit into the routine, and an individual cannot make a difference, are only a few of the excuses for not doing it. The first step is the most difficult to take. We spent a couple of days recently in Alibaug. My wife is passionate about the cause and does not get disheartened easily. I was surprised when she remarked, "It seems that we might not see a cleaner country in our lifetime!" I would remind her and others about Barack Obama's words, "We are the first generation to feel the impact of climate change and the last generation that can do something about it." WORKPLACE BULLYING: THE SILENT EPIDEMIC

It often leads to a toxic work culture that diminishes productivity and erodes employee morale

SAKSHI SETHI

Various studies have quite often revealed that around 30 per cent of employees experience bullying at every step they take at their workplace, while a significant portion of the workforce witnesses it without intervening. Unlike harassment, which is more likely to be reported due to the legal and policy frameworks that exist around it, bullying often lacks formal channels for redress. Workplace bullying is a serious and pervasive issue that affects individuals and organisations across various industries. It has become a silent epidemic where the victim's personal life as well as professional performance are often declined regarding mental health resulting in loss of self-esteem. Not only does the employee suffer but for the organisation too the consequences are equally severe. The stress of enduring repeated harassment results in physical health issues such as headaches, insomnia and a weakened immune system leading to decreased employee engagement and productivity. Now, workplace bullying manifests in numerous ways, from overt actions like public humiliation to covert tactics such as excluding someone from important meetings or withholding critical information. It may also involve power dynamics, where a manager targets a subordinate or senior staff and manipulates their junior colleagues. Unlike occasional conflicts or disagreements, this type of bullying is systematic and persistent, leading to a toxic environment for the targeted individuals. However, the psychological impact of bullying can be profound. Victims often experience stress, anxiety, and depression because of the ongoing harassment. This stress further manifests

in physical symptoms that include headaches, fatigue and even cardiovascular issues, as the body's stress response becomes consistently triggered. In extreme cases, the trauma can even lead to severe mental health conditions, affecting victims' self-esteem and overall sense of well-being. Over time, employees or the victim may develop symptoms of post-traumatic stress disorder (PTSD) if the harassment is severe or prolonged. The victim may start avoiding their workplace altogether, resulting in absenteeism and some cases, may even resign to escape the toxic atmosphere.

This stigma, combined with the fear of being perceived as weak or incapable, can even prevent them from reaching out for help. The resulting isolation allows bullying to continue unchecked and causes the victims to suffer without the support they need. This isolation further perpetuates the silence surrounding workplace bullying, thereby turning it into a pervasive yet hidden problem. This reduction in productivity doesn't only affect the targeted individual but can also disrupt team cohesion, workflow, and project timelines. This culture of fear can sooner or later result in a breakdown of trust and respect among team members, reducing collaboration and open communication. As more employees become disengaged or demoralised, the organisation's overall culture will suffer, leading to lower employee satisfaction and retention rates. It can't be ignored that workplace bullying is a pervasive issue with wide-reaching effects on individuals, team dynamics and organisational success. Clear anti-bullying policies, coupled with effective reporting mechanisms, can empower employees to come forward without fear of retaliation. Organisations should also invest in regular training to help employees recognise and address bullying behaviours in themselves and others, fostering a workplace culture that discourages mistreatment. Only when an organisation emphasises respect, accountability, and open communication, can the incidence of bullying be reduced thereby leading to a more positive, productive and healthy work environment. preventing workplace bullying will benefit not only the victims but the organisation too, reinforcing a work culture that values employee well-being and mutual respect.

India-China border pact: A cautious step forward

PARUL CHANDRA

India's path to restoring normalcy with China is fraught with challenges, including a significant trust deficit and complex border disputes

Now that India and China have reached an agreement on disengagement and patrolling in Depsang and Demchok in a step towards resolving the over four-year-long military confrontation in eastern Ladakh, can New Delhi sit back with a quiet sense of achievement? More importantly, can China be trusted to do what it has promised during bilateral meetings, including the recent one between Prime Minister Narendra Modi and President Xi Jinping on the margins of the recent BRICS summit? The answer is a firm 'No'. For, even though the two Asian giants have seemingly buried the hatchet for now with the new pact being endorsed by their top leaders at Kazan in Russia on October 22, the yawning trust deficit that now marks bilateral ties is unlikely to be bridged any time soon. To be sure, there is not going to be a repeat of the bonhomie witnessed during the Modi-Xi informal summit meetings in Wuhan and Mamallapuram in 2018 and 2019, respectively. When the two leaders met in Kazan, there was expectedly none of the warmth seen during the informal summits. The thaw may have happened, but a long road lies ahead for bilateral ties to warm up. Instead, what Beijing has to deal with now is a hard-nosed New Delhi that's wised up to China's perfidious territorial aggression. India has done well in standing up to Chinese belligerence in eastern Ladakh and in conveying to Beijing that it cannot be business as usual in the face of its brazen flouting of all bilateral border accords. The ongoing eastern Ladakh military confrontation, part of the larger boundary dispute along the 3,488 km long Line of Actual Control (LAC), is nowhere near de-escalation to the pre-April 2020 situation. While the phased disengagement at

WHAT HAS BEEN EQUALLY WORRYING FOR NEW DELHI IS CHINA'S TERRITORIAL AGGRESSION WITH NEIGHBOURING BHUTAN TOO. IT HAS SOUGHT TO BULLY THE TINY HIMALAYAN KINGDOMS AND APPROPRIATE ITS TERRITORY

Depsang and Demchok is a welcome development, New Delhi should not let its guard down. It can do so only at its peril, given Chinese machinations along the LAC and its "salami-slicing" tactics to grab disputed territories. In any case, disengagement is just the first step with de-escalation and finally de-induction of troops being part of India's roadmap for the restoration of status quo ante. It's also laid out the red line for Beijing - the need for "peace and tranquility on the border". What has been equally worrying for New Delhi is China's territorial aggression with neighbouring Bhutan too. It has sought to bully the tiny Himalayan kingdoms and appropriate its territory. With such moves posing a strategic threat to India, the Indian Army stepped in to block Chinese troops from building a road in the Doklam plateau area near the Sikkim-Bhutan-Tibet trijunction in 2017. The rival troops had disengaged after a 73-day face-off, but China has permanently deployed troops in north Doklam since then. What the Chinese PLA sought to do in eastern Ladakh with multiple incursions in the summer of 2020 too was part of its salami-slicing tactics. Bilateral ties went into a deep freeze soon after the bloody clashes in Galwan on June 15, 2020, which left 20 Indian soldiers and an unspecified number of Chinese personnel dead. With the slight easing of tensions now, India will need to tread cautiously. Normalcy in ties seems a long way off but even some measure of stability in the relationship between the two Asian rivals will be a positive development.

For India, this is especially important as it also has a nuclear-armed hostile neighbour in Pakistan on its western borders. A two-front military challenge can bog India down in the region, hobbling its aspiration to be a global powerhouse. The China-Pakistan collusive axis queers the pitch for India. With frosty ties with Pakistan, New Delhi must begin mending ties with Beijing. Towards this end, Modi and Xi have agreed to resume the meetings of the Special Representatives (SRs) of the two countries "to oversee the management of peace and tranquility in border areas and to explore a fair, reasonable and mutually acceptable solution to the boundary question". The SRs mechanism was set up in 2003, with 22 rounds of talks being held till now. It has not been met since 2019. However, given the complexity of the boundary question and Beijing's own feet dragging on a resolution, the SR mechanism at best serves as a means for the two sides to remain in dialogue. As New Delhi and Beijing work to bring down tensions, the boundary question will continue to bedevil ties. India's level of mistrust of China will remain high given that it has failed to adhere to previous agreements to maintain peace and tranquility on the border. Beijing, on its part, will remain watchful and wary of India's deepening ties with the US as well as other Quad members. Its active role in the Indo-Pacific construct and Quad - both seen as a counter to China's growing hegemony - has Beijing worried. That said, India knows it has no

option but to deal with China, owing to its geographical proximity as well as Beijing's economic-industrial clout. The bilateral economic and trade relations are heavily tilted in China's favour. India imported \$101.7 billion worth of goods from China in 2023-24, way more than from any other country. On the other hand, India's exports to China were worth only \$16.7 billion, a mammoth trade deficit for New Delhi. India depends heavily on imports from China in many sectors, like industrial machinery, telecom, electronics, electrical equipment, chemicals, pharmaceuticals, iron, steel and the like. In certain sectors, like pharmaceuticals, Indian manufacturers will find it difficult to operate without imports from China. Despite many steps and policy decisions taken by the Indian government to move towards greater balance in trade, more so after the current border problem erupted, the imbalance has only further accentuated. In this, economics is trumping politics or national sentiment. On the military front, India should not slacken in dealing with China with a firm hand, as it has done since the Galwan clashes. It should also redouble efforts to push for a resolution of the different issues, including the border question. With the festering territorial dispute having long-term strategic implications for India, it needs to strike the right balance between rebuilding trust and proceeding with caution.

Embracing Ayurveda: Bridging tradition with modernity on Ayurveda Day

Rooted in the principles of balance and harmony, Ayurveda guides individuals to achieve holistic wellness

World Ayurveda Day, celebrated each year on the auspicious occasion of Bhagwan Dhanvantari Jayanti, offers a profound opportunity to honour Bharat's rich heritage of health and well-being. This year, on October 29, 2024, we come together to recognise Ayurveda—not just as an ancient healing practice but as a living tradition that continues to inspire and transform lives worldwide. Rooted in the principles of balance and harmony, Ayurveda guides individuals to achieve holistic wellness by understanding their unique mind-body constitution and aligning with nature's rhythms. Its timeless knowledge promotes preventive care, natural treatments, and a lifestyle that sup-

PRATAPRAO JADHAV

ports physical, mental, and spiritual health. Ayurveda's reach has grown from ancient India to touch people across the globe, embodying Bharat's gift of wellness to the world. As we celebrate Ayurveda Day, let us commit to embracing and preserving this invaluable heritage. Ayurveda, the revered "science of life," represents one of the oldest and most comprehensive systems of

holistic medicine. Originating in ancient India, Ayurveda focuses on achieving balance within the body, mind, and spirit. In recent years, Ayurveda has gained remarkable global recognition, a testament to PM Modi's visionary approach to integrating AYUSH practices, including Ayurveda, with modern healthcare. His leadership, underscored by the establishment of the Ministry of AYUSH as an independent entity in 2014, set the stage for Ayurveda's transformation into a mainstream, globally respected healthcare approach. The government has since pioneered several initiatives to promote and expand Ayurveda's reach. Through partnerships with research institutions, academic centres,

and healthcare organisations worldwide, India has emphasised evidence-based studies, technological advancements, and policy support to bring Ayurveda to a broader audience. Moreover, the government's efforts to encourage innovative collaborations and cross-cultural exchanges have fostered an international appreciation of Ayurveda's preventive and holistic benefits. As we witness Ayurveda's evolution on a global scale, its emphasis on wellness, natural healing, and preventive care resonates more than ever, addressing modern health challenges and reasserting Bharat's invaluable contribution to the world of medicine and wellness. Ayurveda, often regarded as the "science of life," is deeply rooted in

ancient Indian philosophy, drawing from the foundational ideas of Sanatan philosophical schools around the 2nd century BCE. Its development was heavily influenced by the Vaisheshika school, known for its focus on natural principles and the categorisation of elements, and the Nyaya school, which emphasised logic, reasoning, and structured analysis. These schools laid a framework that allowed Ayurveda to

develop a systematic approach to health, emphasising diagnosis, observation, and inference based on natural laws. Furthermore, Ayurveda's conceptual foundation aligns with Samkhya philosophy, a school that delves into the nature of existence, consciousness, and the duality of mind and matter. Samkhya's insights into the interaction between Purusha (consciousness) and Prakriti (matter) provided Ayurveda with a comprehensive understanding of the body-mind connection, integral to its approach to health and wellness. Together, these philosophical influences cultivated Ayurveda's holistic view of human life, wherein health is perceived as an intricate balance between mind, body, and environment.

This synthesis not only strengthened Ayurveda's theories of doshas (biological energies) but also fostered an awareness of how lifestyle, diet, and mental states directly impact physical well-being. Thus, Ayurveda emerged as an interdisciplinary science, rooted in empirical observation yet deeply philosophical, ultimately offering a framework of healing that remains both relevant and insightful in understanding modern health. Prime Minister Narendra Modi has been a pivotal force in promoting the integration of Ayurveda with contemporary health sciences, fostering a healthcare model that values both preventive and holistic approaches. His vision underscores a sustainable healthcare framework where traditional

systems of medicine, such as Ayurveda, play an essential role in enhancing the quality of life. This approach aligns with his broader agenda of sustainable health solutions for all, recognising Ayurveda's unique preventive and curative strengths rooted in millennia-old wisdom. Central to this vision are initiatives like the National AYUSH Mission and the establishment of Ayush Health and Wellness Centres (AHWCs), now known as Ayush Arogya Mandirs. These initiatives aim to reshape India's healthcare landscape, making AYUSH a socially viable, affordable, and complementary alternative to allopathic medicine.

Israel says it detained 100 suspected militants in raid on Gaza hospital

AP ■ JERUSALEM
Israel's military said it detained 100 suspected Hamas militants in a raid on a hospital in northern Gaza over the weekend. Israeli forces raided Kamal Adwan Hospital in Beit Lahiya on Friday, detaining 44 male staff, according to the World Health Organisation. Palestinian medical officials said the hospital, which was treating some 200 patients, was heavily damaged in the raid. Israel has raided several hospitals in Gaza over the course of the year-long war, saying Hamas and other militants use them for military purposes. Palestinian medical officials deny those allegations and accuse the military of recklessly endangering civilians. The Israeli military has called on Palestinians to evacuate northern Gaza, where it has been waging a large offensive for more than three weeks. The UN said earlier this month at least 400,000 people are still in northern Gaza

X suspends new account of Iran's supreme leader

AP ■ JERUSALEM
The social platform X has suspended a new account on behalf of Iran's Supreme Leader Ayatollah Ali Khamenei that posted messages in Hebrew.
The account was suspended early Monday with a brief note appended to it saying: "X suspends accounts which violate the X Rules".
It wasn't immediately clear what the violation was. The Elon Musk-owned social media company did not respond to a request for comment from The Associated Press.
The move came after Israel openly attacked Iran for the first time this weekend. Khamenei said in a speech on Sunday that Israel's strikes — in response to Iran's ballistic missile attack this month — "should not be exaggerated nor downplayed", while stopping short of calling for retaliation. The X account opened Sunday with a message in Hebrew reading: "In the name of God, the most merciful," a standard Islamic greeting.
Khamenei's office has maintained multiple accounts for the 85-year-old supreme leader on X for years and has sent messages in a variety of languages in the past.
A second message corresponded to a speech Khamenei gave on Sunday and was sent on his English account as: "Zionists are making a miscalculation with respect to Iran. They don't know Iran. They still haven't been able to correctly understand the power, initiative, and determination of the Iranian people." The message referred to Israel's attack Saturday on Iran.
This isn't the first time Khamenei has seen a suspension or removal from social media. In February, Meta removed Facebook and Instagram accounts for the supreme leader over his support of the militant group Hamas after its October 7, 2023, attack on Israel.
Social media platforms like X and Facebook have been blocked in Iran for years, requiring Iranians to use virtual private networks to access them.

Macron visits Morocco after change in his Western Sahara plan

AP ■ RABAT (MOROCCO)

French President Emmanuel Macron arrived Monday in Morocco, where he is expected to meet with the North African kingdom's leaders and discuss partnerships regarding trade, climate change and immigration.
During the president's three-day visit to Rabat, he is scheduled to meet with King Mohammed VI and Prime Minister Aziz Akhannouch and address Morocco's Parliament.
It comes months after Macron changed France's long-standing public position and backed Morocco's autonomy plan for the disputed Western Sahara. The move endeared the country to Morocco and alienated it from Algeria, which hosts refugee camps governed by the pro-independence Polisario Front and has long pushed for a UN-organised referendum to solve the conflict.
In the days leading up to the visit, Moroccan publications lauded the "warm reunion" and a "new honeymoon" between the two countries while French flags were hung throughout Rabat.
France and Morocco have historically partnered on issues ranging from counterterrorism to Western Sahara. Morocco is the top destination for French investment in Africa and France is Morocco's top trade partner. Morocco imports French cereals, renewable ener-

gy infrastructure like turbines and weapons. Morocco exports goods to France including tomatoes, cars and airplane parts.
Moroccans are among the largest foreign-born communities in France, where North African immigrants are a key political constituency and a focal point of debates about the roles of Islam and immigration in French society. In recent months, France's new Interior Minister Bruno Retailleau has pushed for the country to take a hard-line approach toward immigration and seek deals with countries like Morocco to better prevent would-be migrants from crossing into Europe.
On Macron's last visit to Morocco, he and King Mohammed VI inaugurated Al Boraq, Africa's first high-

speed rail line, made possible by French financing and trains manufactured by the French firm Alstom.
Despite close ties, relations have at times been fragile between France and Morocco, which was a French protectorate from 1912 to 1956. In 2021, Morocco suspended consular relations France momentarily reduced the number of visas offered to Moroccans in protest of its refusal to provide documents needed to deport people who migrated to France without authorisation.
Relations between the two countries soured further that year when a 2021 report revealed Morocco's security services had used Israeli spyware to infiltrate the devices of activists and politicians, including Macron. Morocco denied and sued over the allegations.

Security Council schedules emergency meeting

AP ■ UNITED NATIONS

The UN Security Council scheduled an emergency meeting Monday afternoon at Iran's request on Israel's air strikes against the country.
Switzerland, which holds the council's rotating presidency, announced the meeting on Sunday and said the Iranian request was supported by Russia, China and Algeria, the Arab representative on the council.
Meanwhile, in Dubai, head of Iran's paramilitary Revolutionary Guard made his first public comments Monday after Israel's weekend attack on the country.
Gen. Hossein Salami, in a condolence message to Iran's regular military, called Israel's strike "illegitimate and illegal." Four soldiers in Iran's air

defense network were killed in the attack on Saturday, as was one civilian, Iranian state media say.
The attack was "a sign of miscalculation and the inability" of Israel on the battlefield with Iranian-backed militants "particularly in Gaza and Lebanon."
The "bitter consequences will be beyond the imagination of the occupiers," Salami added, referring to Israel.
Iranian president vows to respond appropriately' to Israeli strikes: Iran's President Masoud Pezeshkian says his country will respond to Israel "appropriately", after Israel openly attacked Iranian military sites for the first time this weekend.
"We are not seeking war, but we will defend the rights of our nation and country and

will respond appropriately to the Zionist regime's aggression," Pezeshkian was quoted by state TV on Sunday as saying. Pezeshkian also said the US had promised Iran to stop the war in Gaza and Lebanon if Iran restrained. "They had promised to end the war in response to our restraint, but they did not keep their word," he said.
The Iranian president also warned tensions will escalate if Israel's aggression continues, adding, "We know that the United States is encouraging Israel to commit these atrocities."
Meanwhile, Iran announced on Sunday that a civilian had been killed in Israel's attack on the country, without offering any details on the circumstances of his death.
The state-run IRNA news

agency identified the dead man as Allahverdi Rahimpour and said he lived in a suburban area of southwestern Tehran.
While offering no details on what he was doing or where he was killed, IRNA made a point to say he was not a member of Iran's armed forces.
Iran has offered few details on the attack and the damage caused by them so far.
Iraq submits protest to UN saying Israel violated its airspace in Iran attack: Iraq has submitted a memorandum of protest to the Secretary-General of the United Nations and the UN Security Council saying Israel violated its airspace in carrying out its attack on Iran over the weekend, the Iraqi prime minister's office said in a statement.
The statement said that Israeli "aggressor aircraft violat-

ed Iraq's airspace and sovereignty and used Iraqi airspace to carry out the attack on the Islamic Republic of Iran on October 26."
It added that Iraqi Prime Minister Mohammed Shia al-Sudani had directed Iraq's foreign minister to discuss the matter with the United States. The two countries recently reached an agreement to begin winding down the mission of a US-led coalition formed to fight the Islamic State militant group and to withdraw many of the US troops who remain in the country.
On Sunday, the Iran-backed Iraqi militia Kataib Hezbollah issued a statement accusing the US of coordinating with Israel to use Iraqi airspace to launch the attack on Iran and threatening retaliation against US forces.

Four Indians killed in road mishap in Canada

PTI ■ OTTAWA

Four Indian nationals were killed and one injured when the car they were travelling in crashed and burst into flames in Canada's Ontario province, authorities said.
The accident occurred last week on Thursday in the Lake Shore Boulevard East and Cherry Street area of Toronto city, police said in a press release. The five people, between the ages of 25-32, were travelling in a Tesla when it "lost control and struck the guard rail and then a concrete pillar" before bursting into flames, the press release said.
"We have gathered some evidence so far to suggest that speed was a factor," Toronto Police Duty Inspector Phillip Sinclair was quoted as saying by the Toronto Sun newspaper.
Four of the car occupants were pronounced dead on the scene by the police officials responding to the accident, the press release said. The fifth occupant, a 25-year-old woman, was transported to a hospital with non-life-threatening injuries.
She was rescued by a passing motorist who stopped to help, according to the report.
"Heartfelt condolences on tragic loss of Indian nationals in car accident that took place yesterday in Toronto," the official handle of the Indian Consulate in Toronto said in a post on X.
The post added that the consulate was in regular touch with local authorities and affected families in Canada and India.

Georgia's oppn to protest against poll outcome

AP ■ TBILISI (GEORGIA)

Opposition supporters in Georgia planned to hold a protest in the country's capital on Monday against the official results of a weekend parliamentary election in which the governing party was declared victorious amid voting irregularities and allegations of Russian meddling.
Georgian President Salome Zourabichvili said Sunday she did not recognise the official results and that the country had fallen victim to a "Russian special operation" aimed at pulling it back into Moscow's orbit and derailing its plan to join the European Union.
Zourabichvili, a fierce critic of the governing party, urged Georgians to rally on the main street of the capital, Tbilisi, on Monday night to protest what she called a "total falsification, a total stealing of your votes", raising the prospect of more political turmoil in the South Caucasus nation.
US Secretary of State Antony Blinken said on the social media platform X that "the Georgian people embraced democracy yesterday" and urged Georgia's political leaders to "respect the rule of law, repeal legislation that undermines fundamental freedoms, address deficiencies in the electoral process, and move Georgia toward its Euro-Atlantic future." The Central Election Commission said Sunday that the governing

Georgian Dream party received 54.8 per cent of Saturday's votes with almost all ballots counted. The party — established by Bidzina Ivanishvili, a shadowy billionaire who made his fortune in Russia — has become increasingly authoritarian over the past year, adopting laws similar to those used by the Kremlin to crack down on freedom of speech.
The EU suspended Georgia's membership application process indefinitely because of a Russian-style "foreign influence law" passed in June. Many Georgians viewed Saturday's vote as a pivotal referendum on the opportunity to join the EU.
The election campaign in the nation of 3.7 million people, which borders Russia, was marked by a bitter fight for votes and allegations of a smear campaign. European electoral observers said the election took place in a "divisive" environment marked by intimidation and instances of vote buying, double voting and physical violence.
During the campaign, Georgian Dream used "anti-Western and hostile rhetoric... promoted Russian misinformation, manipulations, and conspiracy theories," said Antonio López-Istúriz White, the head of the European Parliament monitoring delegation.
The election observers said instances of intimidation and electoral violations were particularly noticeable in rural areas.

Seven killed in Nigerian building collapse

AP ■ ABUJA

At least seven people died when a building collapsed in a suburban area of Nigeria's capital over the weekend, a local official said Monday.
"We have called off search and rescue because we excavated and there was nobody left in the rubble," said Nkechi Isa, a spokesperson for the Abuja city emergency department.
Building collapses are becoming increasingly common in Nigeria, with more than a dozen such incidents recorded in the last two years. Authorities often blame such disasters on failures to enforce building safety regulations and on poor maintenance. The building that collapsed Saturday, located in the Sabon-Lugbe area, had already been partly demolished and its structure was further compromised by scavengers looking for scrap metal.

UK to support India hub for female-led businesses as part of C'wealth drive

PTI ■ LONDON

The UK has unveiled a package of measures designed to boost intra-Commonwealth trade and investment, including a Commonwealth Investment Network and a hub in India to support female-led businesses.
At the conclusion of the Commonwealth Heads of Government Meeting (CHOGM) in Samoa last week, the Foreign, Commonwealth and Development Office (FCDO) in a statement on Sunday set out Britain's vision to increase "shared prosperity" for the 56-member organisation made up of some of the world's fastest-growing economies.
Prime Minister Keir Starmer and Foreign Secretary David Lammy attended the summit which concluded on Friday.
"UK announcements included funding for a Commonwealth Investment Network to encourage greater investment within

small and climate-vulnerable Commonwealth countries, and support to establish hubs in India and Sri Lanka to support female-led businesses," the FCDO said.
The UK has also indicated plans to increase its military and economic presence in the Indo-Pacific to support regional stability, including proposals for increased navy patrols to boost maritime security, combat illegal fishing and respond to natural disasters in the region. "My visit to the Pacific this week has only reinforced how important this part of the world is to the United Kingdom's prosperity and security, and I know across business, trade and defence we play a vital role in supporting the region too," Starmer said in a statement.
"As responsible international players, we cannot turn a blind eye to the challenges faced by our friends and partners on the other side of the world, so my message today is clear: this is

just the beginning of our commitment to the Indo-Pacific," he said.
With a focus on empowering young people with access to education and skills, supporting democratic governance, human rights and the rule of law and helping protect vulnerable countries from the impacts of climate change, the UK's package of measures also includes additional funding for technical support from trade advisers to help small and vulnerable Commonwealth member states negotiate within the World Trade Organisation (WTO).
A new scheme to train tax advisors to help developing Commonwealth economies boost their domestic tax revenue, support for Powering Renewable Energy Opportunities in six Pacific Island Countries, testing the application of clean energy technologies, and a new commitment to promote food security, climate resilience and eco-

nomical growth in the Caribbean through the Inter-American Development Bank's new One Caribbean fund are among some of the other measures. Funding for a Commonwealth programme supporting countries to ratify the United Nations Agreement on the conservation and sustainable use of marine biological diversity in areas beyond national jurisdiction (BBNJ) and increased UK support for the Commonwealth's work to support democratic governance and the rule of law, which includes the deployment of election monitoring missions in Commonwealth countries, have also been finalised.
Meanwhile, in a joint communique issued by Commonwealth leaders at the end of the summit, it was agreed that the "time has come" for a conversation about reparations for the slave trade and holding "inclusive conversations" to address the wrongs of the past.

NATO confirms N Korea sent troops to join Russia's war

AP ■ BRUSSELS

NATO on Monday confirmed that North Korean troops have been sent to Russia to aid in its almost three-year war against Ukraine and that some have already been deployed in Russia's Kursk border region, where Russia has been struggling to push back a Ukrainian incursion.
"Today, I can confirm that North Korean troops have been sent to Russia, and that North Korean military units have been deployed to the Kursk region," NATO Secretary-General Mark Rutte told reporters.
Rutte said the move represents "a significant escalation" in North Korea's involvement in the conflict and marks "a dangerous expansion of Russia's war."
His remarks came after a high-level South Korean delegation

including top intelligence and military officials as well as senior diplomats briefed the alliance's 32 national ambassadors at NATO headquarters in Brussels.
Rutte said NATO is "actively consulting within the alliance, with Ukraine, and with our Indo-Pacific partners," he said, and that he is due to talk soon with South Korea's president and Ukraine's defence minister. "We continue to monitor the situation closely," he said.
Adding thousands of North Korean soldiers to Europe's biggest conflict since World War II will pile more pressure on Ukraine's weary and overstretched army, as well as stoking geopolitical tensions in the Korean Peninsula and the wider Indo-Pacific region, including Japan and Australia, Western officials say.
Russian President Vladimir

Putin is keen to reshape global power dynamics. He sought to build a counterbalance to Western influence with a summit of BRICS countries, including the leaders of China and India, in Russia last week.
Ukrainian President Volodymyr Zelenskyy, citing intelligence reports, claimed last Friday that North Korean troops would be on the battlefield within days.
He previously said his government has information that some 10,000 troops from North Korea were being readied to join Russian forces fighting against his country.
Days before Zelenskyy spoke, American and South Korean officials said there was evidence North Korea had dispatched troops to Russia.
The US said around 3,000 North Korean troops had been deployed to Russia for training.

Trajectory of Ukraine war hangs on outcome of US election

AP ■ KYIV

There is no doubt that the US election will determine the trajectory of the war in Ukraine.
The status of military aid from Kyiv's chief international backer is dependent on who becomes president, as is any prospect for a cease-fire that could benefit Ukraine.
Some in Kyiv say the country's very existence hinges on who wins the White House.
As Americans vote, exhausted and outmanned Ukrainian soldiers are holding defensive lines under constant Russian fire, knowing the results will dictate their future.
The war in Ukraine is one of the most divisive issues of the November 5 election: Former President Donald Trump, the Republican nominee, and Vice President Kamala Harris, the Democratic nominee, advocate very different views on how much support the US should continue to give Ukraine.

After a whirlwind Western tour, Kyiv's leaders have tried to promote their version of what President Volodymyr Zelenskyy calls his "victory plan." They hope key decisions will be made — including Ukraine's bid for NATO membership — by the new administration.
For now, they have no choice but to wait.
"We believe that regardless of the last name of the future president of the US, the country of the United States will not give up global dominance, global leadership as such. And this is possible only through the support of Ukraine and through the defeat of the Russian Federation," said Mykhailo Podolyak, an adviser to Zelenskyy.
Harris would likely continue Biden's policies: Harris, who has decried President Vladimir Putin's "brutality," would likely carry on President Joe Biden's policy of support, albeit within the strict limits on Ukraine's ability to strike deep inside

Russian territory that have frustrated Kyiv's leaders.
"President Biden has made it clear from the beginning of this conflict that his top priority has been to avoid an all-out war with Russia. I think that remains the top American priority," said Malcom Chalmers, deputy director general at the Royal United Services Institute in London.
The US has provided Ukraine more than USD 59.5 billion in military weapons and assistance since Russia invaded in February 2022. But throughout, Kyiv has been captive to fraught American politics that often undermined its battlefield potential.
Ukraine lost territory and manpower as weapons stocks dwindled during the six months it took the US Congress to pass an aid package. Even promised military assistance has failed to arrive on time or in sufficient quantities.
Ukraine is still hoping for Western approval of strikes inside Russian territory with

longer-range weapons supplied by its allies. It also holds hundreds of square kilometres in Russia's Kursk region after an incursion in August.
Still, Biden's commitment to support Ukraine has never wavered. Defence Secretary Lloyd Austin announced a USD 400 million package during his recent visit. Zelenskyy said he expects another worth USD 800 million, the first tranche for Ukraine's production of long-range capabilities. Still another USD 8 billion is expected by the end of the year.
Trump's vague vows and praise for Putin: Trump has repeatedly taken issue with US aid to Ukraine, made vague vows to end the war and has praised Putin.
He also is considered highly unpredictable.
Some Ukrainian officials even privately welcome this quality, saying it could bring about results quicker. But so much is unknown about what decisions Trump would make.

"He has emphasised that he has a very different approach to Ukraine than Kamala Harris. And if what he's saying now is translated into action, then it's going to be a very rocky period for Ukraine," Chalmers said.
"Donald Trump is raising the very distinct probability that the United States will cut off most if not all military aid to Ukraine, which given that the situation on the ground, although deadlocked, is one which Russia currently has the advantage, could tip the balance in Russia's favour," he added.
Podolyak said Trump "understands the logic" of Zelenskyy's plans after meeting with him. "Mr. Trump realised that there is no way to agree on something in this war, because it is necessary to ensure Russia's compulsion to understand what a war is, what consequences Russia will have in this war. That is, Russia can be forced to do something, but not asked."

US voters concerned about post-election violence, efforts to overturn results: AP-NORC poll

AP WASHINGTON

American voters are approaching the presidential election with deep unease about what could follow, including the potential for political violence, attempts to overturn the election results and its broader implications for democracy, according to a new poll.

transfer of power. About 4 in 10 registered voters say they are "extremely" or "very" concerned about violent attempts to overturn the results after the November election.

Republican National Committee, which he reshaped, have filed lawsuits around the country that are a potential prelude to post-election legal challenges should he lose.

Nearly 9 in 10 voters said the loser of the presidential election is obligated to concede once every state has finished counting its votes and legal challenges are resolved, including about 8 in 10 Republicans.

divided on who would weaken democracy: Members of both parties have broad concerns about how American democracy might fare depending on the outcome of the November election.

weaken democracy at least "somewhat" if elected. Kaye, a retired health care system worker, called Trump an "existential threat to the Constitution".

"Why should we pay taxes if we're just sending it away?" That lack of concern also includes the border, she said, adding that a Harris win would be "the end to the Border Patrol".

information that they're given", leading to another such attack. Giovanna Elizabeth Minardi of Yucaipa, California, said other issues are more important in this year's election.

Trump's event features crude, racist insults

AP NEW YORK

Donald Trump hosted a rally featuring crude and racist insults at New York's Madison Square Garden, turning what his campaign had dubbed as the event where he would deliver his closing message into an illustration of what turns off his critics.

ised by Harris' campaign as it competes with Trump to win over Puerto Rican communities in Pennsylvania and other swing states. Puerto Rican music superstar Bad Bunny backed Harris shortly after Hinchcliffe's appearance.

as calling her "lazy," long a racist trope used against Black people. The event was a surreal spectacle that included former professional wrestler Hulk Hogan, TV psychologist Dr. Phil McGraw, former Fox News host Tucker Carlson, politicians including House Speaker Mike Johnson and Reps. Byron Donalds and Elise Stefanik, and an artist who painted a picture of Trump hugging the Empire State Building.

India and Saudi to discuss ways to boost cooperation

PTI ■ NEW DELHI

The global economic commerce and industry minister Piyush Goyal will discuss ways to increase cooperation with Saudi Arabia in areas like renewable energy, digital infrastructure, and manufacturing during his two-day visit, an official statement said on Monday. The visit to Riyadh will begin from Tuesday. The commerce and industry ministry said Goyal will participate in the Future Investment Initiative (FII) in Riyadh, a crucial platform that brings together global leaders, investors, and innovators. His participation will highlight India's rapid economic growth, its focus on sustainable development, AI, and the immense opportunities in sectors like renewable energy, digital

infrastructure, and advanced manufacturing, it said. On the sidelines of the FII, the minister will engage with prominent global investors. "These interactions aim to strengthen investor confidence, facilitate investment flows, and promote India as a preferred global investment destination," it said. He will also hold bilateral meetings with key Saudi ministers, including the Minister of Commerce, Minister of Industry and Mineral Resources, Minister of Investment, and Minister of Energy, to discuss collaborative efforts in energy transition, digital transformation, and trade facilitation. Further, he will co-chair the second ministerial meeting of the Economy and Investment Committee under the India-

Saudi Strategic Partnership Council, focusing on sectors like agriculture, food security, energy, technology, and infrastructure. India is the second largest trade partner for Saudi Arabia whereas Saudi Arabia is India's fourth largest trading partner. The bilateral trade between the two countries stood at USD 43 billion in 2023-24 as against USD 53 billion in 2022-23. Over 2,700 Indian companies are registered as joint ventures/100 percent owned entities, with investments worth about USD 2 billion in the Kingdom. Major Indian companies and corporate groups such as L&T, TATA, Wipro, TCS, TCIL, Shapoorji & Pallonji have established a strong presence in Saudi Arabia. Saudi direct investments in

India amounted to USD 3.22 billion during April 2000 and June 2024. Major Saudi investment groups include ARAMCO, SABIC, ZAMIL, E-holidays, and Al Batterjee Group. The strengthening of India's financial sector. The soundness of our banking system marked by low levels of NPAs (nonperforming assets) and enhanced provisioning for bad loans reflects the reforms we have undertaken to improve asset quality," she said. She added that by 2047, as India celebrates 100 years of independence, "we will have a chance to define a new era of prosperity, not just for our own citizens, but for the global community as well. India's role in the world is expanding, and we stand ready to engage constructively with the international community, sharing our innovations and contributing to global peace and prosperity," she said, as she cited the example of the COVID-19 pandemic during which India supplied vaccines developed and manufactured by it to nations across the world. "The coming decades will be defined by how effectively India manages its demographic dividend, strengthens its global partnerships, and navigates the complexity of a rapidly changing world," she said.

Transformer steel shortage could impact India's energy ambitions: GTRI

PTI ■ NEW DELHI

Shortage of Cold-Rolled Grain-Oriented (CRGO) steel used for making transformers and electric motors could impact India's ambitious power sector expansion plans, think tank GTRI said on Monday. The Global Trade Research Initiative (GTRI) said that India's power sector is facing a 30 per cent shortage of CRGO steel, essential for electric motors and transformers. With domestic production meeting only about 10-12 per cent of demand, India relies heavily on imports, it added. It said the immediate cause of the CRGO steel shortage is import uncertainty caused by the delayed license renewals by the Bureau of Indian Standards (BIS) for many foreign suppliers from Japan, South Korea and China. Many of the licenses are set to expire soon, causing shortages and uncertainty in the power sector, it said, adding that foreign suppliers require BIS certification under a Quality Control Order, which ensures quality but restricts options to a few approved grades and vendors. The entire BIS process needs an urgent review by independent auditors, the think tank said. "In the long term, India must prioritise local production, as CRGO is now considered a strategic material, and supply may remain limited. Without action, this shortage could

jeopardise India's ambitious energy goals," GTRI Founder Ajay Srivastava said. CRGO's grain orientation reduces energy loss, making it essential for transformer cores, which are central to India's power distribution network. In FY 2024, India, one of the largest consumers of CRGO steel, required 400,000 tonnes. With only 50,000 tonnes produced domestically, it had to import 239.2 thousand tonnes from countries like China, Japan, Russia and South Korea. After exporting 11.4 thousand tonnes, only 277.8 thousand tonnes were available for local use, leaving a shortfall of 122.2 thousand tonnes, or 30.6 per cent of total demand, it said.

It added that India's CRGO demand is expected to grow by 10-12 per cent annually, driven by the expanding power sector and the goal to integrate 500 GW of renewable energy into the grid by 2030. Srivastava said that the demand will also grow as the Bureau of Energy Efficiency has mandated a star-label upgrade for distribution transformers starting January 1, 2025, pushing the industry to seek higher-grade CRGO steel. "This CRGO shortage could impact energy and manufacturing targets. This shortage also limits India's transformer and motor exports. Micro, Small and Medium Enterprises (MSMEs), who

need small amounts of this steel, are hit hardest, as prices have soared due to uncertain supplies," he added. To address the CRGO steel shortage, immediate and long-term measures are essential, he said, adding that the BIS should expedite its approval process for CRGO imports to prevent license expirations and ensure a steady supply. Additionally, BIS should expand the list of approved CRGO grades and suppliers to support smaller manufacturers and MSMEs, who are the most vulnerable to these shortages, he added. "At the government level, support for domestic production is crucial, and allowing zero-duty imports of raw materials for CRGO production, as seen in countries like China, the US and Germany, could boost local output," it said. Building a CRGO plant would require significant investment of around USD 400-USD 600 million for a facility with an annual capacity of 100,000-150,000 tonnes and could take 3-5 years to complete, with potential government incentives supporting this development, it said. The Quality Control Order (QCO) for CRGO steel, implemented by the Bureau of Indian Standards (BIS) in 2020, mandates that all CRGO steel imported for use in India must meet specific performance standards under BIS certification, it added.

Consumers exploring both luxury, sustainable mobility alternatives: Survey

PTI ■ NEW DELHI

Consumers are exploring both luxury and sustainable alternatives, setting the stage for a new era in the Indian automotive sector, according to a survey by Grant Thornton Bharat. As per the survey -- "Shifting Gears: Understanding Passenger Vehicle Market Trends", 85 per cent of the respondents were considering premium models and there is an increasing preference for hybrid vehicles over electric vehicles (EVs). The survey gathered insights from over 3,500 respondents across the country. According to the survey, 40 per cent of respondents now prefer hybrid vehicles, compared to only 17 per cent favouring EVs. In contrast, 34 per cent still lean toward petrol vehicles, reflecting the transitional nature of the market, it said. This growing alignment with hybrids suggests that consumers are exploring sustainable options, while waiting for more robust EV infrastructure and incentives, the survey found. Therefore, with hybrid vehicles gaining traction, they are expected to act as a bridge, building consumer familiarity

with alternative technologies and ultimately accelerating future EV adoption, it opined. This trend underscores the need for automakers to focus on both hybrid and electric solutions to meet evolving consumer expectations and prepare for a sustainable automotive future, as per the survey findings. "As market dynamics evolve, automakers must adapt to shifting consumer preferences," Grant Thornton Bharat Partner and Auto & EV Industry Leader Saket Mehra said. Elaborating on further findings, he noted that the festive season, which typically accounts for 30-40 per cent of annual sales, is critical for the Indian automotive industry. However, high inventory levels, weather disruptions, and regional elections have tempered growth this year, he added. The utility vehicle (UV) and

sports utility vehicle (SUV) segments have continued to drive the market, witnessing 13 per cent year-on-year growth and now making up 65 per cent of passenger vehicle (PV) sales, he said. Despite a muted first half of FY25, with overall domestic sales rising by just 0.5 per cent, the sustained demand for SUVs and UVs reflects the growing consumer preference for versatile vehicles, Mehra said. However, inventory levels remain a challenge, with 7.9 lakh units worth Rs 79,000 crore stockpiled as of September 2024, he added. Automakers have an opportunity to meet rising consumer demand through substantial festive discounts, with nearly 90 per cent of respondents expecting such offers, Mehra said. The survey also found that subscription models launched by companies are also gaining traction. Besides, there is an increased demand for safety features in the car models. Growing consumer awareness has shifted the focus to vehicle safety, with advanced safety features becoming a top priority for buyers, overtaking traditional factors like design or performance, it said.

Waaree Energies' shares make remarkable debut

PTI ■ NEW DELHI

Shares of solar panel maker Waaree Energies Ltd on Monday listed with a premium of nearly 70 per cent against the issue price of Rs 1,503. The stock made its market debut at Rs 2,550, reflecting a jump of 69.66 per cent from the issue price on the BSE. It further surged 72.98 per cent to Rs 2,600. At the NSE, the stock listed at Rs 2,500, surging 66.33 per cent. The company's market valuation stood at Rs 67,866.35 crore. The initial public offer of Waaree Energies Ltd garnered 76.34 times subscription on the last day of share sale on Wednesday, helped by strong participation from institutional buyers. The Rs 4,321.44-crore initial share sale had a price band of Rs 1,427 to Rs 1,503 per share. The IPO was a combination

of a fresh issue of equity shares aggregating to Rs 3,600 crore and an Offer-for-Sale (OFS) of 48 lakh equity shares worth Rs 721.44 crore, at the upper end of the price band, by a promoter and existing shareholders. Proceeds from the fresh issue will be used for setting up the 6 GW (gigawatt) of the Ingot Wafer, Solar Cell and Solar PV module manufacturing facility in Odisha. Besides, a portion will be used for general corporate purposes. Waaree Energies, one of the major players in the solar energy industry in India, is focused on PV module manufacturing with an aggregate installed capacity of 12 GW as of June 30, 2023. It operates five manufacturing facilities with one factory each, located at Surat, Tumb, Nandigram and Chikhli in Gujarat, and the IndoSolar Facility, in Noida, Uttar Pradesh.

Air India gets DGCA nod to carry out in-house modifications of aircraft interiors

PNS ■ NEW DELHI

The Directorate General of Civil Aviation (DGCA) approved a proposal from Air India to carry out modifications in aircraft interiors in-house as the Tata Group-owned airline works on revamping its fleet and expanding operations. The full-service carrier has a collaboration with Tata Technologies to enhance aircraft interiors in its fleet. In a release on Monday, Air India said the Design Organisation Approval (DOA) from the Directorate General of Civil Aviation (DGCA) will enable the airline to independently make design changes in-house and implement modifications to its aircraft interiors more efficiently. "DOA is a transformative step towards enhancing Air India's in-house capabilities, which has been bolstered by decisions to set up its own engineering, maintenance and training facilities. This will enhance operational efficiency and make the airline more self-reliant," it added. An official said the approval will also allow Air India to offer the services to other

Indian airlines in the future. Air India is the first Indian airline to attain this level of authorisation, accelerating its ability to execute restoration tasks for continuous improvement of its fleet, the release said. Air India Chief Executive Officer and Managing Director Campbell Wilson said the approval reaffirms its capabilities to maintain the fleet and commitment to enhancing the customer experience of its aircraft interiors. "By leveraging our global aerospace expertise, we are committed to delivering next-generation aircraft interiors that not only meet the highest standards of functionality and safety but also enhance customer satisfaction," Tata Technologies Chief Executive Officer and Managing Director Warren Harris said. The approval also comes at a time when Air India is retrofitting its legacy planes

and has also placed significant orders for new aircraft. According to the release on Monday, the partnership with Tata Technologies will help Air India streamline its operations by integrating innovative digital thread solutions and smart maintenance, repair, and overhaul (MRO) services. "This will improve operational efficiency, reduce downtime, and ensure that Air India's fleet remains fit to fly, further enhancing passenger safety, comfort and operational reliability," the release said. Tata Air India Group has three airlines -- Air India, Air India Express and Vistara, which is a joint venture between Tatas and Singapore Airlines. Air India and Air India Express together have more than 230 planes. Vistara, which has a fleet of 70 planes, is set to be merged with Air India on November 11.

India remains highly dependent on imports of critical minerals: Report

PTI ■ NEW DELHI

India remains highly dependent on imports for minerals critical to accelerating its energy transition, with a full reliance on shipping in lithium, cobalt and nickel, according to a report released Monday. The report, published by the Institute for Energy Economics and Financial Analysis (IEEFA), said that India's demand for critical minerals is expected to more than double by 2030, while domestic mining operations may take over a decade to start producing. It stresses that India needs a carefully crafted import strategy to mitigate potential trade risks while balancing international relationships to secure these essential minerals. IEEFA's report examines five critical minerals (and their compounds) - cobalt, copper, graphite, lithium and nickel - from the perspectives of import dependency, trade dynamics, domestic availability, and global price

fluctuations. The findings show that India remains largely import-dependent for these minerals and their compounds, with 100 per cent import reliance for minerals like lithium, cobalt, and nickel. "India should strive to de-risk its critical minerals sourcing by identifying new international resources and expediting domestic production. A concerted effort to partner with and foster bilateral relations with mineral-rich nations should be a priority for India," said the report's co-author Charith Konda, Energy Specialist, IEEFA. "The country can also explore investment opportunities in resource-rich, friendly nations, such as Australia and Chile, as well as African countries like Ghana and South Africa," he added. The report said India depends heavily on China for synthetic graphite and natural graphite and it should explore cooperation initiatives with countries like Mozambique, Madagascar,

Brazil and Tanzania which are some of the highest graphite producing countries. "As part of the Global South cooperation initiatives, these countries could be favourable partners for India for graphite trading," said the report's co-author Kaira Rakheja, Energy Analyst, IEEFA. India is also highly import-dependent for copper cathodes and nickel sulphates from just two countries - Japan and Belgium. The report suggests India could look at the US, the fifth

largest producer of copper in the world, to diversify its suppliers and enhance supply security. For minerals like lithium oxide and nickel oxide, the dependency is low on one country, but overall imports largely come from Russia and China, both countries with potential trade risks. "Developing domestic lithium refining capacity will help India integrate with the global lithium supply chain," said Rakheja. The report also notes the significant efforts that the

Indian government is making to improve domestic production of critical minerals with the auctions by the Ministry of Mines and the planned Critical Minerals Mission. "The critical minerals mining block auctions can serve as an opportunity for India to focus on building refining and processing capabilities to emerge as a global value-adding hub," said Rakheja. "Government support in the form of viability gap funding and technology development will help promote such auctions and ultimately the domestic production of critical minerals. A stable supply of critical minerals is imperative for India to achieve its renewable energy goals," Konda said. India has committed to achieving 500 gigawatts (GW) of non-fossil fuel-based electricity installed capacity by 2030. Currently, the country's renewable energy installed capacity stands at 201 GW, with solar energy accounting for 91 GW.

This Dhanteras, buy: Hallmark for purity

PNS ■ NEW DELHI

The Bureau of Indian Standards (BIS) urged consumers to adopt a more thoughtful approach to gold and silver buying that is backed by the enduring trust of Hallmark. Traditionally, Dhanteras marks the time when families invest in gold, a symbol of good fortune, wealth, and future security. BIS has been instrumental in driving this transformation, encouraging consumers to make informed purchases by promoting the importance of hallmarked gold and silver jewellery. Pramod Kumar Tiwari, Director General, BIS said "We are committed to safeguarding consumers' gold investments during Dhanteras and beyond with BIS HUID based Hallmark. With BIS Hallmark and the easy-to-use BIS CARE App, consumers can be assured of the authenticity of their jewellery purchases."

INBRIEF

DRIBBLING TOWARDS A BRIGHTER FUTURE

PATPARGANJ: BSES' mission extends beyond delivering electricity. Through its CSR initiatives, the company is committed to energizing the future of its communities. In line with this vision, BSES has launched the BSES Basketball Academy, in partnership with Dribble Academy. This initiative aims to inspire, engage, and empower young athletes, both boys and girls, to reach their full potential.

CEREMONY FOR MBBS BATCH 2024 AT SRM MEDICAL COLLEGE

KATTANKULATHUR: We are pleased to share the highlights from the recent welcome ceremony for the MBBS Batch of 2024 at SRM Medical College Hospital and Research Centre (SRM MCH&RC). This event underscored our commitment to delivering world-class medical education and nurturing compassionate, skilled healthcare professionals.

OBSERVATION OF VIGILANCE AWARENESS WEEK AT NFR

MALIGAON: N. F. Railway will be observing the 'Vigilance Awareness Week' from 28th October to 03rd November, 2024, throughout all its Divisions, Workshops and Construction field units. The theme that will lead this awareness week of 2024 will be based on "Culture of Integrity for Nation & Prosperity". The oath will be administered by Shri Chetan Kumar Shrivastava, General Manager, Northeast Frontier Railway and Shri Arun Kumar Chaudhary, General Manager, N. F. Railway (Construction) at the premises of GM's office, Maligaon and GM (CON)'s office,

CHIRAG CHIKKARA CLINCHES GOLD AS INDIA SHINES WITH NINE MEDALS

PTI ■ TIRANA (ALBANIA)

Chirag Chikkara became only the third Indian to become Under-23 world champion as India capped a rich haul of nine medals, including a gold and silver each, at the age group tournament here. Chikkara, competing in the men's freestyle 57kg category, eked out a narrow 4-3 in the closing seconds of the final win over Abdymalik Karachov of Kyrgyzstan. He becomes the second Indian man, after Paris Olympics bronze medallist Aman Sehrawat, to win the gold at the U23 Championships. Sehrawat had achieved the feat in the same category in the 2022 edition of the meet while Reetika Hooda had become the first Indian woman to bag a gold at the tournament when she won in the 76kg category

last year. Ravi Kumar Dahiya had also won a silver in the U23 World Championships in 2018. Chikkara reached the final after a series of dominant performances, defeating Gaokoto Ozawa 6-1 in the quarterfinals, Lunus Iavbatirov 12-2 in the last eight stage and Allan Oralbek 8-0 in the semifinals. India's medal haul in the men's freestyle category also included two bronze medals, placing the nation fourth in the team standings with 82 points, trailing Iran (158), Japan (102), and Azerbaijan (100). India also won two more bronze in men's freestyle taking the country's medal count in the category to four that secured the nation a fourth place in the team rankings. Iran topped the team rankings with 158 points followed by Japan (102), Azerbaijan (100)

and INida (82). Vicky defeated former U20 World Championships silver medalist and European junior champion Ivan Prymachenko of Ukraine with a convincing 7-2 margin to win bronze in the men's 97kg freestyle event. It is the highest weight category at which India have medalled at this tournament. Vicky had defeated Merab Suleimanishvili of Georgia via fall in round of 16, Radu Lefter of Moldova 5-0 in quarterfinal before losing to Mahdi Hajiloueian Morafah of Iran in semifinals. Having narrowly missed a final berth the other day, Sajeet Kalkal bounced back from being 0-4 down to beat Mustafa Akhmedov of Tajikistan 13-4 and win bronze in men's 70kg freestyle. Sajeet had beaten Georgi Antoanov Zhizgov 10-0 in round of 32, Tugsjargal Erdenebat 7-4 in pre-quarters, Narek Pohosian 6-1 before losing to eventual gold medallist Magomed Basir Khaniev 4-8 in the final seconds of the semifinal. Abhishek Dhaka had earlier won a bronze as India finished with four medals (one gold and three bronze), bettering their previous year's performance where they had bagged two bronze in the freestyle category. The Indian women's wrestling team also excelled earlier, bringing home one silver and three bronze medals: Anjali claimed silver in the 59kg category, while Neha Sharma (57kg), Shiksha (65kg), and Monika (68kg) each secured bronze. Additionally, Vishvajit More earned a bronze in the men's 55kg Greco-Roman category, rounding off India's impressive tally at the championships.

Salima Tete named India Captain for women's Asian Champions Trophy

PTI ■ NEW DELHI

Salima Tete was named captain of the 18-member Indian women's hockey team announced on Monday for the Asian Champions Trophy scheduled to be held from November 11 to 20 at the newly-developed Rajgir Hockey Stadium in Bihar. Navneet Kaur will serve as Tete's deputy. India enter the competition with high expectations, having clinched the title at last year's edition in Ranchi. The team will face stiff competition from five other nations, including reigning Olympic silver-medallists China, Japan, Korea, Malaysia, and Thailand, in the battle for continental supremacy. India will open their campaign against Malaysia on November 11. Speaking on the team selection and their preparation for the tournament, dynamic midfielder Tete said: "It's an incredible feeling to lead the team into another major tournament, especially as defending champions. "We have trained rigorously and have a strong unit with both experienced players and young talent. Our goal is to defend our title and play with the same passion and determination we showed last year." The goalkeeping duties will be shared between the experienced Savita and rising talent Bichu Devi Kharibam. The defence will be anchored

by a solid line-up, featuring Uditia, Jyoti, Ishika Chaudhary, Sushila Chanu Pukhrambam, and Vaishnavi Vitthal Phalke. In the mid-field, captain Tete will be supported by Neha, Sharmila Devi, Manisha Chauhan, Sunelita Toppo, and Lalremsiami, all known for their dynamic play. The forward line-up boasts firepower with Navneet Kaur, Sangita Kumari, Deepika, Preeti Dubey, and Beauty Dungdung leading the charge. Notably, Sushila and Beauty Dungdung make their return to the team after successfully completing their rehabilitation. "We are confident in our preparation and the chemistry we've built within the team. Playing in front of our home crowd is a huge boost, and we are ready to face tough competition from the best teams in Asia," vice-captain Navneet said. "Working alongside Salima has been great, and we are determined to make this tournament a memorable one," she added.

INDIA:
Goalkeepers: Savita, Bichu Devi Kharibam.
Defenders: Uditia, Jyoti, Vaishnavi Vitthal Phalke, Sushila Chanu Pukhrambam, Ishika Chaudhary.
Midfielders: Neha, Salima Tete, Sharmila Devi, Manisha Chauhan, Sunelita Toppo, Lalremsiami.
Forwards: Navneet Kaur, Preeti Dubey, Sangita Kumari, Deepika, Beauty Dungdung.

Perez job in jeopardy as Red Bull boss refuses to confirm Mexican driver will finish F1 season

AP ■ MEXICO CITY

Sergio Perez climbed into his car for the Mexico City Grand Prix as nearly 155,000 fans at his home race shouted "Checo! Checo! Checo!" in adoration of the wildly popular Formula 1 driver. It was a critical race for the slumping Perez - he said repeatedly all weekend it is his favorite event of the year - and he knows his job is in danger because of his lack of performance. Alas, Perez could not deliver for his hopeful fans or for Red Bull Racing. After a 17th-place finish Sunday, team principal Christian Horner would not guarantee Perez will finish the season. Horner had been emphatic two days earlier that the contract extension Perez signed earlier this year was valid for 2025. But he has performance clauses in his existing contract, and when The Associated Press asked Horner directly if Perez would finish this season, Horner refused to endorse the driver for the final four races. "There comes a point in time that difficult decisions have to be made," Horner said. "We're now third in the constructors championship." Horner did say Perez would be in the car next weekend in Brazil. Horner admitted the Mexican "had a horrible weekend" that started when he was eliminated in the first round of Saturday qualifying, relegating him to an 18th-place starting position. Perez was then outside his box at the start and received a five-second penalty. He later got into a wheel-to-wheel battle with Liam Lawson of Red Bull sister team RB, and the contact caused damage that made Perez's car

uncompetitive. A win by Carlos Sainz moved Ferrari ahead of Red Bull for second in the lucrative constructor standings and the two-time reigning champions of the prize that pays an estimated \$150 million is now a longshot to win it for the third consecutive year. Red Bull's slip in that category is largely because of Perez's failures. He's eighth in the standings, winless on the year, and crashed out of three races. "He knows Formula 1 is a results-based business, and you know, inevitably, when you're not delivering, then the spotlight is firmly on," Horner said. "When anyone is underperforming, there is always going to be scrutiny on that. You know, as a team, we need to have both (drivers) scoring points."

Max Verstappen has scored 362 points this season; Perez has scored just 150. "We're working with him as hard as we can to try and support him," Horner said. "We've done everything that we can to support Checo, and we'll continue to do so in Brazil next weekend. But there comes a point in time that you can only do so much." Perez, although disappointed with his weekend, didn't sound like a driver worried about his job. "This has been a complicated weekend," he said. "I always say it's my dream to win the grand prix in Mexico and I'll try again next year. After all of the support from all of these fans, it's incredible. They have given me so much, it's all worth it for them. We'll try again for them next year stronger."

His future - or lack of one in F1 - could be a problem for the Mexico City race, which heads into the final year of its current contract seeking an extension. The race this weekend drew a record 404,958 spectators and was sold out for the ninth consecutive year. But many of the fans who attend come to see Perez, and attendance could slip if he or another Mexican driver isn't on the F1 grid. Event president Alejandro Soberon said tickets for this weekend went on sale two weeks after Perez crashed out of last year's race seconds after it started and still sold out in two hours. Tickets for 2025 will again go on sale in two weeks, and it is unclear if Perez's status for next year will be determined even though Horner

had been adamant Friday he was under contract for 2025. Soberon believes the race will have high demand. "There's very few races who have a local driver. Everybody of course would love to have a local driver, but the first year we did the race here 50% of the fans were in a red T-shirt, so Ferrari has a wonderful following here," he said. "We have no more capacity. We could have drawn 600,000 if we had unlimited capacity, we could have another 200,000 here, but we cannot put them. "That's why it sold out so fast in one year in advance. Probably without Checo maybe a drop of 20%, 25%, naturally, (but) still would be a sellout." Soberon also said the Mexico City Grand Prix is so unique - it embraces the Mexican culture and incorporates it in the paddock and throughout the venue - and is a destination race for F1 fans outside of the country. He noted that the event is a boon for the local economy, with everything from hotels, restaurants and transportation services fully booked all week. "The Mexican crowd, the fandom, is very strong for F1 in general. Obviously, Checo is a great enhancement for this," he said. "But Mexico has been very close to the heart of F1. We have a much better show on track today to what we had five years ago. I think competition and quality of the spectacle at the track is going to be enough to sustain the interest of the crowd, so we as a promoter of the race, we're very excited trying to figure out a way to extend our (F1) contract regardless of Checo.

AP ■ MUNICH

Harry Kane scores his 15th goal of the season as Bayern Munich cruises to 5-0 win at Bochum

Harry Kane scored his 15th goal of the season as Bayern Munich eased to a 5-0 win over Bochum in the Bundesliga to lift some of the gloom from its heavy midweek loss at Barcelona. Jamal Musiala scored a header and set up Kane's goal in Musiala's first start since Oct. 2 following a hip injury in a win that looked like a return to Bayern following one win from its previous five games in all competitions. "We just want to take a step forward in every game and we enjoy scoring goals," Musiala told broadcaster DAZN. Of the 4-1 loss to Barcelona on Wednesday, he added: "It was really bitter and it hurt us, but we're looking ahead." Michael Olise got Bayern

started when he lofted a free kick over the wall and into the net in the 16th minute, before Musiala headed in for 2-0 soon after. Musiala dribbled past a defender and passed for Kane to score in the 57th. The England captain has nine Bundesliga goals this season, making him the league's joint-top scorer with Eintracht Frankfurt's Omar Marmoush. Leroy Sané, who's struggled for fitness in recent months, came off the bench to score his first Bundesliga goal in nearly a year in style with a drive into the top-left corner. Kingsley Coman made it five with a shot that bounced in

off the crossbar. Bayern reclaimed top spot on goal difference ahead of Leipzig, which had moved up

to first Saturday with a 3-1 win over Freiburg. A 3-2 loss at Bochum last season helped lose Bayern

Munich the title, and the home team nearly took a shock lead early in Sunday's game. Moritz Broschinski beat Kim Min-Jae to a long pass and shot past goalkeeper Manuel Neuer, but his effort was so lacking in power that Kim was able to chase it down and clear it before it crossed the line. In the end, it was more misery for a team which is last in the Bundesliga and on Sunday marked exactly five months since its last win in a competitive game. Bochum fired coach Peter Zeidler last week after eight games and no wins in all

competitions, and has named coaches Markus Feldhoff and Murat Ural in joint charge "until further notice." **UNION BERLIN MISSES OUT:** A tight video-review offside call in added time denied Union Berlin a potential winner that would have sent it to third place in the Bundesliga. Union was held to a 1-1 draw with 10-man Eintracht Frankfurt. Mario Götze had given Frankfurt the lead early on but Benedict Hollerbach leveled the score for Union - though only after VAR overturned an offside call. Frankfurt lost defender Arthur Theate to a second yellow card in the 77th. Union is fourth and Frankfurt sixth. Also Sunday, Heidenheim is 10th after drawing 0-0 with 15th-place Hoffenheim.

Liverpool fights back for draw at Arsenal after Man United loses again

AP ■ LONDON

As the weeks go by, Liverpool is showing the quality and resilience to be Manchester City's chief title rival in the Premier League this season. Liverpool twice came from behind to draw 2-2 at Arsenal on Sunday, with Mohamed Salah scoring the second equalizer in the 81st minute at Emirates Stadium. It's just one loss in 13 games in all competitions for Liverpool under new manager Arne Slot this season. A testing past week has seen the Reds beat Chelsea 2-1 in the league, eke out a 1-0 win in Leipzig in the Champions League, and now battle back for a draw at Arsenal - the other likely challenger for City's crown. If Liverpool's inner belief is

growing, then doubts might be increasing about Arsenal's durability in the title race after finishing runner-up to City for the past two seasons. The biggest concern might be the list of injuries, to which defenders Gabriel and Jurrien Timber were added after they came off in the second half. With defensive linchpin William Saliba missing through suspension, Arsenal finished the game with a makeshift back four and paid the price as a long ball forward from Trent Alexander-Arnold found Darwin Nunez, who crossed for Salah to sidefoot home. It left Liverpool in second place, a point behind City, and Arsenal five points off the pace after nine games. Arsenal winger Bukayo Saka said his teammates were a "bit

disappointed." "We just felt we didn't show our best selves for the 90 minutes," said Saka, who opened the scoring in the ninth minute on his return from a hamstring injury. Virgil van Dijk equalized with a header from a corner, only for Spain midfielder Mikel Merino to head in Declan Rice's free kick to put Arsenal back in front. Saka's equalizer meant he has scored against Arsenal in eight straight seasons and remains Liverpool's man for the big occasion. As for Arsenal manager Mikel Arteta, he was left to bemoan his team's lack of "courage" in the second half as the attacking intent faded and defensive injuries told. By the end, a midfielder, Thomas Partey, was playing at

right back and 18-year-old rookie Myles Lewis-Skelly was at left back. Arteta said Gabriel, who went down with a left knee injury, "can't run" and would be assessed. **TEN HAG FRUSTRATED:** If seeing a player miss an open goal wasn't bad enough for Erik ten Hag, the Manchester United manager then had to endure the VAR overturning an on-field decision to give a stoppage-time penalty that plunged his team to a 2-1 defeat at West Ham. Jarrod Bowen converted a highly disputed penalty in the second minute of added-on time after a foul by Matthijs de Ligt as United counted the cost of a string of wasted chances, notably when Diogo Dalot sidefooted over when faced with an empty net in the first

half. "We have to score, we created so many chances," said Ten Hag, whose United team has lost four of its nine games and is languishing in 14th place in the 20-team standings. Crysencio Summerville put West Ham ahead against the run of play in the 74th before Casemiro equalized for United at Olympic Stadium. **PALMER SHINES:** With an exquisite pass and the winning goal, Cole Palmer shone again for Chelsea in a 2-1 victory over Newcastle. It was the England playmaker's curling 50-meter pass behind Newcastle's defense that sent away Pedro Neto down the left to set up Nicolas Jackson for Chelsea's 18th-minute opener. Alexander Isak equalized but Palmer drove home his seventh goal of the season in

the 47th to secure the victory for Chelsea at Stamford Bridge. With five assists, too, Palmer has a league-leading 12 goals involvements this campaign. "It is the reason why people pay (to come), they want to see that kind of player," Chelsea manager Enzo Maresca said of Palmer. **PALACE FINALLY WINS:** Crystal Palace finally claimed its first league win of the season by beating Tottenham 1-0 thanks to Jean-Philippe Mateta's goal to climb out of the bottom three. It lifted the pressure on manager Oliver Glasner, whose arrival in February inspired Palace to a strong finish to last season but who struggled to get the best out of the team in the first two months of this campaign.

INDIA WOMEN NEED TO RESOLVE BATTING VULNERABILITIES TO SEAL SERIES AGAINST NZ

PTI AHMEDABAD
India will be hoping to resolve their batting brittleness in their quest to win the third and final women's ODI and seal the series against New Zealand here on Tuesday.
It was clear from the first match, which the hosts won by 59 runs through a fine effort by the bowlers, that India's batting is not in top shape, and the second one-dayer underscored that reality. India's batting went a notch down on Friday as they were bundled out for 183 while chasing 260.
It was a tough target indeed, but not improbable in nature as Indian batters succumbed to spot-on White Ferns bowlers and to their own indiscretions. It required a record ninth-wicket stand of 70 runs between Radha Yadav and Saima Thakor to add a touch of

respectability to India's run chase. Even the overall picture is not a rosy one, as Indian batters are yet to score an individual fifty across two matches. Radha's 48 in the second ODI is the highest individual score from India's side during this series, and the home team will require a drastic turnaround in the final match. For that, India's power troika upfront -- openers Smriti Mandhana, Shafali Verma and skipper Harmanpreet Kaur -- will have to fire in unison. It can have a ripple effect in a strong-on-paper middle-order consisting of Jemimah Rodrigues, Deepti Sharma and

Tejal Hasabnis. Mandhana's form continues to be a bit of concern as she hardly looked a pale shadow of her customary gracefully dominant batter. She is yet to reach two-figure score against New Zealand, and a series decider could be a perfect occasion for her to rewrite the script. On the other hand, Indian bowlers continued their good effort despite conceding 259 in the previous match. At one stage, the visitors were 87 for 3 in 14 overs and 139 for 3 in 30 overs, but the Indian bowlers did well to rein them back and limit to a total less than 280-290 that at one stage looked achievable. The left-arm spinner Radha has once again been impressive with a four-wicket haul to go with the three wickets she plucked in the first game. She will need to be at her best once more to keep the free-

flowing New Zealand batters in check. New Zealand have also been bolstered by the presence of veteran pacer Lea Tahuhu who replaced injured Moly Penfold in the eleven and immediately impressed with a three-wicket haul.
THE TEAMS (FROM):
India: Harmanpreet Kaur (C), Smriti Mandhana, Jemimah Rodrigues, Shafali Verma, Deepti Sharma, Richa Ghosh (WK), Pooja Vastrakar, Renuka Thakur Singh, Radha Yadav, Meghna Singh, Devika Vaidya, Amanjot Kaur, Anjali Sarvani, Taniyaa Bhatia, Yastika Bhatia.
New Zealand: Sophie Devine (C), Suzie Bates, Maddy Green, Lauren Down, Brooke Halliday, Katey Martin (WK), Hayley Jensen, Jess Kerr, Fran Jonas, Hannah Rowe, Molly Penfold, Lea Tahuhu, Izzy Gaze, Georgia Plimmer.

Gary Kirsten resigns as Pakistan's limited-overs coach

PTI KARACHI
Pakistan's white-ball coach Gary Kirsten on Monday stepped down after developing a rift with the country's cricket board within six months of his appointment. The 56-year-old South African, who coached India to victory at the 2011 ODI World, was appointed by the PCB (Pakistan Cricket Board) in April end this year. "The Pakistan Cricket Board today announced Jason Gillespie will coach the Pakistan men's cricket team on next month's white-ball tour of Australia after Gary Kirsten submitted his resignation, which was accepted," the PCB posted on 'X'. Red-ball coach Gillespie, however, has made it clear to the PCB that he can only manage things for the white-ball tour of Australia which starts November 4 and is not interested in a permanent role as the limited overs coach, a reliable source aware of the development said. "Gillespie has informed the board they should look for a replacement for Kirsten for the white ball games in Zimbabwe and onwards," he added. Though the PCB didn't give the reason for Kirsten's sudden resignation, the source confirmed that it was because he was not involved when the board announced the squads for the Australia and Zimbabwe tours and the new captain of the white ball format on Sunday. The PCB has withdrawn the coaches selection powers. Selection is now exclusively the domain of the selection committee. "Kirsten was not happy with the abrupt manner in which the board took away his powers in selection and other team matters and made this very clear to Chairman Mohsin Naqvi on Sunday before sending in his resignation," another insider said. He expressed fear that even Gillespie might end up resigning soon as he is also not happy with the current shift in how teams are selected now solely by the selection committee and coaches have no role in this. Kirsten had been working as a batting coach with the Indian Premier League franchise Gujarat Titans before taking up the role in Pakistan. The team is riding high on a come-from-behind 2-1 triumph over visiting England in a Test series that concluded last week.

Rayhan Thomas finishes seventh in Thailand

PTI BANGKOK
India's Rayhan Thomas registered a second top-10 finish on the Asian Tour, ending up tied-seventh at the International Series Thailand after being three off the lead after 54 holes. The UAE-based golfer was unable to replicate the magic of the second and third rounds of 63-64 as he shot 2-under 68 on the final day to total 16-under. He had four birdies, three of them between the 14th and the 17th. Among the other Indians, Gaganjeet Bhullar (67) finished tied 19th and Karandeep Kochhar (67) tied-24. Chinese-Taipei's Lee Chieh-pou finally claimed his maiden title on the Asian Tour after sensationally overtaking hot favourite Peter Uihlein at the very end. Lee birdied the final two holes at the Thai Country Club to beat Uihlein, after the American had led from the second day. The champion, playing in the penultimate group, fired a seven-under-par 63 to finish on 21-under, while Uihlein closed with a 67 to tie for second place with Canadian Richard T. Lee, who carded a 62. The 29-year-old grew up playing golf with Kevin Yu, a winner on the PGA Tour this year, and sees him as an inspiration. For Richard T. Lee it was yet another near miss. Since the Tour resumed after the global pandemic, he finished second twice, third on three occasions and has been in the running on numerous occasions. Last week's winner of the Black Mountain Championship Michael 'MJ' Maguire closed with a 62 to tie for fourth, three behind the winner, along with fellow Americans Paul Peterson, in with a 63, and Christian Banke, who fired a 64. The action shifts to next week's BNI Indonesian Masters where India's Gaganjeet Bhullar is the defending champion.

T20I Australia Captain vs Pakistan yet to be name

PTI SYDNEY
Australia have rested their Test regulars for their home T20I series against Pakistan with a captain yet to be named, choosing to focus on the marquee Border-Gavaskar series against India next month. Australia host Pakistan for three ODIs starting November 4, followed by the three-match T20I series, from November 14. The series concludes on November 18, just four days before the first Test against India in Perth. With T20I captain Mitchell Marsh, Travis Head and ODI and Test skipper Pat Cummins unavailable, Australia are yet to appoint a captain for the series. None of the players named in the squad announced on Monday have captained Australia in any format before but he

likes of Glenn Maxwell, Adam Zampa, Matthew Short and Aaron Hardie have led their sides in the Big Bash League. Josh Inglis is also in the mix to lead the side. Pacers Xavier Bartlett (side strain), Nathan Ellis (hamstring) and Spencer Johnson (side strain) return to the squad after recovering from injuries. "It is particularly encouraging to have Xavier, Spencer and Nathan back in the national setup," said selection chief George Bailey. "It's another opportunity for them to continue to show their ability on the international stage, as they have done in the past." Andre Borovec will serve as the coach for the team, a position he held during a five-match T20I series against India that followed last year's ODI World Cup.
AUSTRALIA T20I SQUAD
Sean Abbott, Xavier Bartlett, Cooper Connolly, Tim David, Nathan Ellis, Jake Fraser-McGurk, Aaron Hardie, Josh Inglis, Spencer Johnson, Glenn Maxwell, Matthew Short, Marcus Stoinis and Adam Zampa.

Inglis 'in mix' for Test debut in Border Gavaskar Trophy: Chief selector Bailey

PTI SYDNEY
In red-hot form, Australian white-ball wicketkeeper-batter Josh Inglis is "in the mix" to make his Test debut as a specialist batter in the upcoming Border-Gavaskar Trophy next month, hinted chief selector George Bailey on Monday. India, unbeaten in the marquee series on the previous four occasions, will face Australia in a five-Test series beginning in Perth on November 21. "There's no doubt that the form is really fantastic at the moment... The ability to jump back into domestic cricket and dominate has been fantastic," Bailey told reporters. "I think in different series at different times of the year, he would firmly come into the mix purely as a batter the way he's been going." "If the right opportunity opened up throughout the summer, in the spots where we think he's most capable of performing, I think he'd be firmly in that conversation as well." The 29-year-old, who is Australia's incumbent keeper in ODI and T20Is, has scored four centuries in last seven Sheffield Shield matches. But with Australian Test wicketkeeper Alex Carey in rich form, Inglis has emerged as a specialist middle-order batter, but not for the vacant opening slot, Bailey said. Australia's move to promote Steve Smith at the top following David Warner's retirement did not work out and with Cameron Green ruled out of the India series because of a back injury, there's a vacancy alongside

Usman Khawaja. However, Bailey has ruled out Inglis for the opener's role. "I've spoken to Josh on this. Not in the short term, I don't think that he's someone that we would be looking to place at the top of the order," Bailey said. Inglis, in fact, is one of the contenders to lead Australia's T20I side in the upcoming three-match series against Pakistan. All-format players, including regular T20 skipper Mitchell Marsh,

are sitting out of the Pakistan series to prepare for the Border-Gavaskar Trophy. "We've been really clear that we are prioritising the preparation for individuals around the Test summer and that will be the first time that we get that group together," said Bailey. "So, rather than switching guys in and out and becoming quite messy, it was just deemed more appropriate for a number of reasons to separate them out." This will be Australia's first Test series in the ongoing WTC cycle since defeating New Zealand 2-0 in a two-match away series in March.

Man United fire manager Erik ten Hag after troubled start to season

AP MANCHESTER
Manchester United fired Erik ten Hag on Monday after a troubled start to the season left the 20-time English champions in 14th place in the Premier League and the club's new leadership unimpressed with the pace of change under the Dutchman. Ten Hag, who was hired in 2022, paid the price for leading United to just three wins in nine league games in the opening months of the campaign. There have been four defeats, the 2-1 loss at West Ham on Sunday being his last game in charge. United finished in eighth place last season, its lowest in the Premier League era, and appears to have little hope of challenging for the title this campaign. It already leaves the storied team in danger of missing out on qualification for the lucrative Champions League once again. "We are grateful to Erik for

everything he has done during his time with us and wish him well for the future," said United, which added that Ruud van Nistelrooy, one of Ten Hag's assistants, would be taking over as interim head coach while a permanent head coach is recruited. Ten Hag joined from Ajax and was tasked with the responsibility of bringing the good times back to a club that has been in decline since former manager Alex Ferguson retired in 2013. Despite winning the League Cup and the FA Cup in Ten Hag's first seasons at Old

Trafford, United was showing no sign of improving on its worst league campaign in 34 years. Ten Hag only held onto his job following an unexpected victory over fierce rival Manchester City in the FA Cup final in May and an extensive end-of-year review by United. He was then handed a one-year extension to his contract to 2026. His departure comes amid a period of major change at United under new minority owner Jim Ratcliffe. The British billionaire has taken over control of United's soccer operations, with a new CEO, sporting director and technical director all installed in recent months. Ten Hag was United's fifth permanent manager since Ferguson's departure, following David Moyes, Louis van Gaal, Jose Mourinho and Ole Gunnar Solskjaer. United's next game is at home to Leicester in the English League Cup on Wednesday.

Government of Odisha, Forest, Environment & Climate Change Department
Office of the Divisional Forest Officer, Chilika Wildlife Division, Balugaon,
Email: - dfo.chilikaw@odisha.gov.in
Bid Identification No. 02 / 2024-25

1. Divisional Forest Officer Chilika Wildlife Division, Balugaon, on behalf of Governor of Odisha invite percentage rate bids in Single Cover in offline mode for the Construction works as detailed in the table, from the class of eligible contractors as mentioned in column - 6 below registered with State Government/Central Government / MES / Railways having valid license from competent authority for execution of works as detailed below.

Sl. No.	Name of the work	Approximate value of work (in Rs.)	Concerned Tender Inviting Authority	Cost of bid document through D.D (in Rs.)(Non-refundable)	Class of Contractor	Period of Completion.
1	Construction of Forester quarter at Rajhans in Satapada WL Range under Chilika Wildlife Division.	22,00,000/-	DFO, Chilika Wildlife Division Balugaon	6,000/-	"D" & "C"	03 (Three calendar month)

3. Bid documents consisting of plans, specification, the schedule of quantity and the set of terms and condition of contract and other necessary documents can be available in the office of the DFO, Chilika Wildlife Division, Balugaon.

4. Bid documents will be available in O/o the DFO, Chilika WL Division, Balugaon from 29.10.2024 to 21.11.2024 upto 3.00 P.M. for offline bidding and it will be opened on the same day i.e 21.11.2024 at 4PM.
