KEEP GODS OUT OF POLITICS: SC

SUPREME COURT SLAMS ANDHRA PRADESH CHIEF MINISTER

PIONEER NEWS SERVICE

bserving that at least Gods should be kept out of politics, the Supreme Court slammed Pradesh Chief Minister N Chandrababu Naidu for prematurely going public with the claim that previous regime of YSR Congress Party used substandard ghee containing animal fat to prepare laddus at Sri Venkateswara temple in Tirupati.

Studying the lab report produced by the Government, the Apex Court on Monday, said that the ghee that had been sent for testing was rejected and not used for making laddus.

A Bench of Justices BR Gavai and KV Viswanathan noted that the Chief Minister made the claim on September 18, even though the FIR in the matter was lodged on September 25, and a Special Investigation Team (SIT) was constituted on September 26. "It was not appropriate on the part of a higher constitutional functionary to go in public and make a statement which can affect the sentiments of crores of people," the Bench

The Bench said there is no conclusive proof yet to substantiate such a claim. It questioned the need to make a public statement on the issue

when a probe had already been ordered by the State into the allegations. Justice Gavai also asked whether there was any material with the CM to conclude definitively that animal fat had been used to prepare laddus at Tirupati

Justice Viswanathan observed that the ghee sample had been rejected as per reports. "So what was the need to go to the press at all, when you yourself ordered an investigation?" the judge asked. "At least the

The Bench was hearing the petitions filed by Bharatiya Janata Party (BJP) leader Subramanian Swamy, and former Tirumala Tirupati Devasthanams (TTD) Chairman YV Subba Reddy and historian Vikaram Sampath demanding court monitored probe on the allegations of presence of

when SIT was ordered? Prima facie there is nothing at least to show, no concrete proof to show at this stage, that the same ghee was used and procured. Even pending investigation when such statements are made by responsible functionaries then what effect it will have on the SIT? What was the material?"

The Court told Senior Advocate Siddharth Luthra, representing TTD, that he was not answering the court's queries on this aspect. "You have still not answered. There is nothing to show that ghee was used. These are processes used to justify the rejection and stop payment!"

The Bench asked Solicitor General Tushar Mehta to assist it in deciding whether the investigation by the stateappointed SIT should continue or the probe should be conducted by an independent agency. The Bench has posted the matter for further hearing on October 3.

Andhra Pradesh CM N Chandrababu Naidu claimed earlier this month that animal fat was used in preparing Tirupati laddus during the previous YS Jagan Mohan Reddy-led government in the state, triggering a massive political row. The YSR Congress has accused Naidu of indulging in "heinous allegations" for political gains.

BJP and Congress spat over remarks on PM

PIONEER NEWS SERVICE

Union Home Minister Amit Shah and Congress president Mallikarjun Kharge and their parties engaged in war of words following the latter's remarks on Prime Minister Narendra Modi at a public meeting in Jammu when he said he won't die before PM Modi is removed from power. Shah termed Kharge's remark as "absolutely distasteful and disgraceful".

At an election rally in Jasrota in Jammu on Sunday, Kharge felt dizzy and uneasy but resumed his speech after a brief pause, saying he won't die before PM Modi is removed from power. Shah said "in a bitter display of spite", Kharge unnecessarily dragged the Prime Minister into his personal health matters by saying that he would die only after removing Modi from power. Mallikarjun Kharge Ji has outperformed himself, his leaders and his party in being absolutely distasteful and disgraceful in his speech.

He said Kharge's remarks showed how much hate and fear the Congress people have for PM Modi and that they are constantly thinking of him. "As for the health of Mr. Kharge Ji, Modi Ji prays, I pray and we all pray that he lives a long, healthy life. May he continue to live for many years and may he live to see the creation of a Viksit Bharat by 2047," the Minister said. Union Minister Nirmala Sitharaman Nirmala said the Congress leadership never loses any opportunity to display their hate towards Modi. "Aptly said, Home Minister Amit Shahji," Sitaraman said in a social media post.

Kharge responded to Amit Shah's attack on him and said

the Congress president Shri the Home Minister should focus on serious issues such as the Manipur situation, census and a caste census. "Home Minister Amit Shah should focus on serious issues like Manipur, census and caste census. Your Government's own survey says that 92 percent of the employees cleaning urban sewers and septic tanks come from SC, ST, OBC categories," the Congress chief said.

"The BJP is against caste census because then it will be known by which work SC, ST, OBC, EWS and all other categories are earning their livelihood. What is their economic and social status? What kind of targeted benefits of Government schemes should they get?" Kharge said. He asserted that the Congress party is firmly committed to getting a caste census done. "We will get it done," he added.

BJP has control over Independents and small parties: Rahul Gandhi urges people to vote carefully

PNS AMBALA/CHANDIGARH

Urging people of Haryana to vote carefully, Senior Congress leader and Leader of the Opposition in the Lok Sabha, Rahul Gandhi on Monday said the control of small parties and independent candidates of the State is in the hands of Bharatiya Janata Party (BJP). Small parties, which are seeking to split anti-BJP votes, will pave the way for the BJP to return to power in the State "There is a need to be cautious of them. The electoral battle is directly between Congress and BJP," he said.

"Give every precious vote to the Congress candidates. This time in Haryana, a government of all communities, that provides justice and participation of all, is going to be formed," he promised.

Speaking at a public meeting at Narayangarh in Ambala, Rahul said the BJP Government has created two Hindustans in the country today. "One of big capitalists like Adani-Ambani, which is for only 5 percent of the people, while on the other hand, India is of 95 percent poor, labourers, farmers, Dalits and backward classes. The Modi Government is taking money out of the pockets of 95 percent people and putting it in the pockets of his few billionaire friends," he said.

"Money is going in Adani's pocket like a tsunami and money is coming out of the pockets of the poor like a storm. That is why people do not want two India, but one India with justice for all. That is why the Congress govern-

ment puts money in the pockets of 95 percent deprived classes through its welfare policies and schemes, so that the difference between the rich and the poor can end," he added.Later, the Congress leaders started a Vijay Sankalp Yatra, which would cover the Assembly segments of Ambala and Kurukshetra. Gandhi, Congress General Secretary Priyanka Gandhi, KĆ Venugopal, former Chief Minister and Leader of Opposition Bhupinder Singh Hooda, Sirsa MP Kumari Selja and Congress State President Chaudhary Udaibhan were also

present with Rahul. In his address, Rahul said respect for all sections is necessary within the government, but at the same time, their economic upliftment is also necessary. "Every section needs money for education, health and the future of children, but the BJP government puts a lot of money of the country in the pockets of billionaires like Ambani-Adani through its policies," he stated. "The policies," he stated. Congress wants that the same

amount of money should also be given to the poor, farmers, workers, Dalits and backward classes through welfare schemes. If the Modi government can waive off the loan of Rs 16 lakh crore of big capitalists, then why not of the poor and farmers? This injustice will not be tolerated. Two types of policies cannot work in the

Rahul further said that in 10 years of BJP, employment has ended in Haryana. "The youth are compelled to sell their farms and take up to Rs 50 lakh on high interest and go abroad through the Dunki route through forests and sea. Farmers' lands are being snatched in the name of development, but the government never takes the land of capi-

When three black laws were imposed on farmers, farmers were forced to take to the streets," he stated.

With a feeling of patriotism, children of farmers, workers and children of the middle class used to go to the border as soldiers. BJP has cheated lathi on them: Priyanka In her address, Privanka Gandhi said, "This land always

farmers & showered

inspires us to fight against injustice. Farmers, soldiers and wrestlers of Haryana have increased the honour of the country on every front, but the BJP disrespected the farmers and showered lathi on them," The youth of Haryana

today are feeling humiliated by unemployment. Two lakh posts are lying vacant, but the papers are leaked and recruitment does not take place. Poor families have started panicking due to inflation. The BJP has only slogans in the name of schemes. The BJP came with the Parivar Pehchan Patra, but it has become a Parivar Pareshani Patra. Today there is a wave of Congress in the state and by taking it forward, BJP has to be uprooted from its roots," she added.

Former Chief Minister Bhupinder Singh Hooda said that our leader Rahul Gandhi had injected new energy in all the Congress workers and the people of Haryana by taking out Bharat Jodo Yatra. "Once again, he is taking out a yatra in Harvana, so this energy is increasing manifold. Now the whole country is looking towards Haryana. BJP will be completely swept away in this tsunami of Congress," he said.

Sirsa Congress MP Kumari Selja said that BJP has neither any policy nor any leader in Haryana. "Now the days of BJP are over. Congress is coming to power in Haryana with a huge majority," she said.

CM Mann advocates sustained campaign for crop residue management

PNS CHANDIGARH

As the persistent issue of stubble burning in Punjab has reached alarming levels, contributing significantly to air pollution and health hazards in the region, Minister Bhagwant Mann on Monday convened a crucial meeting to strategize effective measures for managing paddy straw and to educate farmers about sustainable practices. Over the past three years, Punjab has witnessed a noteworthy 52 percent decrease in incidents of paddy straw burning, highlighting the potential for continued progress in addressing this

environmental crisis. The Chief Minister, during the meeting, emphasized the importance of a comprehensive communication campaign aimed at raising awareness among farmers regarding the dangers of stubble burning. He underscored the necessity of informing farmers about available subsidies for straw management equipment, which can significantly reduce the costs associated with managing crop

CM Saini slams Rahul Gandhi, questions Congress' record in Haryana

PNS KAITHAL/CHANDIGARH

aunching a scathing attack Lon Congress leader Rahul Gandhi, Haryana Chief Minister Nayab Singh Saini on Monday accused him of visiting the state for "tourism" rather than addressing pressing issues. Saini claimed Rahul Gandhi's visit, accompanied by his sister Priyanka Gandhi Vadra, lacked concrete plans for Haryana's development.

At a public meeting in Kaithal, Saini highlighted the BJP government's achievements over the past decade, emphasising "Sabka Saath, Sabka Vikas, and Sabka Vishwas". He challenged Rahul Gandhi to explain why the Congress failed to deliver dur-Gandhi to respond to Haryana's youth, farmers, and ignored by the Congress government.Saini questioned the track record of the Congress on job distribution, accusing them of nepotism and bribery. He alleged that farmers' land was looted under the Congress rule, and claimed that women in the state are seeking reply to unfulfilled promises made in Himachal Pradesh.

Directions were issued to the Deputy Commissioners across the State to initiate vigorous campaigns tailored to their respective districts, promoting the hazards of stubble burning and fostering a collective movement against this harmful practice.

He revealed that under the Crop Residue Management scheme for 2024-25, the Punjab Department of Agriculture and Farmers' Welfare has already received an impressive 1.07 lakh applications through the Unnat app for subsidies on machinery.

This includes a total of 63,904 applications received by June 20, 2024, and an additional portal opening from September 13 to 19, 2024, to meet increasing demand.

Furthermore, Government aims to distribute 14,000 machines to individual farmers and establish 1,100 **Custom Hiring Centres across** districts, bolstering farmers' access to vital resources.

The launch of the 'Unnat Kisan' mobile application marks a significant step forward, providing a one-stop platform for farmers to easily access Crop Residue Management (CRM) machin-Residue erv ahead of the 2024 harvest-

ing season. With over 1.30 lakh CRM machines mapped on the app, it facilitates effortless bookings from nearby Custom Hiring Centres.

The Chief Minister proudly noted that the implementa-

tion of these initiatives has resulted in a notable decline in fire incidents linked to stubble The state recorded a 30

percent reduction in incidents for the 2022-23 season, with 71,159 fires compared to 76,929 in the previous year. Moreover, preliminary data suggests a 26 percent decrease in fire incidents for the 2023-24 season, with 49,922 reported fires thus far. Collectively, these statistics illustrate a commendable 52 percent reduction in stubble burning incidents since the 2020-21 season.

Through these comprehensive efforts, Mann seeks to transform the battle against stubble burning into a mass movement, ensuring that Punjab moves toward sustainable agricultural practices while safeguarding the environment and public health. As the government gears up for the harvesting season, the focus remains on enhancing farmers' knowledge and resources to combat the stubble-burning crisis effectively.

Amritpal Singh announces to launch new political party

PNS CHANDIGARH

Lantly impact Punjab's political dynamics, a pro-Khalistan Sikh preacher and Khadoor Sahib MP Amritpal Singh currently detained under the National Security Act (NSA) at Dibrugarh Jail in Assam, on Monday announced plans to form a new political party. He highlighted the need to save Punjab's youth from the grip of addiction and urged the formation of a party that genuinely represents their interests.

The momentum for this political initiative coincides with the second anniversary of Amritpal Singh's 'dastarbandi', or turban-tying ceremony, marking a significant milestone in his political journey. BJP leader bids Rs 2-cr to become sarpanch in Gurdaspur village

CHANDIGARH/GURDASPUR

In an unusual and unprecedented move, a bizarre bidding war has broken out in Gurdaspur district's Hardowal Kalan village as the panchayat elections approach. The village, part of the Dera Baba Nanak assembly constituency, has seen a practice emerge where aspiring sarpanch candidates bid to secure the position, not through traditional electoral votes, but by offering substantial sums of money to be spent

on the village's development. curiosity across the political landscape of Punjab.

Atma Singh, currently leading the race, has openly public welfare.

"The entire village assembly is behind this decision. It's better to bid for development than to pay politicians to rig elections," said Singh, justifying the ongoing competition. He further said that the village committee, comprising its youth, would decide how the funds are spent, ensuring transparency and alignment with the villagers' needs.

The bidding process, which was announced through the village's Gurudwara, is set to continue until a final decision is made. So far, three contenders, including Singh, Jaswinder Singh Bedi, and Nirbhair Singh, are in the running. While Singh's Rs two crore bid is the highest, there is speculation that it could go even higher as the deadline approaches.

This bizarre form of selecting a sarpanch has raised eyebrows not only in Punjab but also among political observers nationwide. Traditionally, sarpanch elections are held democratically, with candidates vying for votes from fellow villagers. The introduction of a bidding system turns the election process into a financial contest, undermining the very principles of democratic elections. Local sources have confirmed that such a bidding system has never been used in the village's history. While some villagers have expressed support for the idea, seeing it as a way to bypass corrupt practices in elections, others, including political leaders and legal experts, have voiced strong opposition.

Opposition leaders and critics have slammed the bidding process, labeling it as a form of "open corruption". Senior Congress leader and the Leader of Opposition in Punjab Vidhan Sabha Pratap Singh Bajwa called for the Vigilance Department to take immediate action. "This is not a cattle market. This is open corruption, and the government should immediately intervene," said Bajwa, demanding that those involved in the bidding war be arrested.

Legal Eagles maintained that there is no provision in the Punjab Panchayati Raj Act for such a process. "The Act clearly specifies elections, not selections based on bids. Every villager has the right to contest and vote in these elections. This practice violates the fundamental principles of democracv and could lead to human rights violations," Sidhu argued.

Within Hardowal Kalan itself, reactions to the bidding system are mixed. While some villagers believe that this process ensures that the sarpanch will be financially invested in the development of the village, others are concerned that it sidelines the voice of the common people in the electoral process.

Jakhar's Absence from Crucial Punjab BJP Meeting Sparks Fresh Resignation Speculation; Party Deny Rumours

MONIKA MALIK CHANDIGARH

 $P_{\text{Jakhar was notably absent}}^{\text{unjab BJP president Sunil}}$ from a crucial party meeting held in Chandigarh on Monday, chaired by the state's affairs in-charge Vijay Rupani. Jakhar's absence has once again sparked rumours of his resignation, a topic that has been swirling in political circles for

Despite his absence adding fuel to the speculation, party leaders, including Rupani, have firmly denied these claims. Rupani stated that Jakhar remains committed to his role as the state president and had only missed the meeting due to "personal commitments" in Delhi. "Jakhar ji has not resigned. He is currently in Delhi on personal work and will resume his responsibilities shortly," said Rupani, emphasizing that Jakhar's leadership continues to be vital for the

Jakhar's non-participation in today's meeting has only intensified speculation that he may have offered to resign, following reports that he had earlier expressed his willingness to step down if the party leadership found his style of functioning misaligned with their goals. According to insiders, Jakhar had recently met BJP national president JP Nadda and discussed his potential departure from the

Though party leaders have repeatedly dismissed the idea of Jakhar stepping down, the fact that he has not made any public statements refuting these rumours has further fueled the uncertainty. Sources indicated that Jakhar has conveyed to senior party leaders, including the Prime Minister Narendra Modi, several times that he is ready to resign if his leadership is not considered effective, but these discussions have remained private.

Adding to the intrigue is Jakhar's absence from two earlier meetings held in Bathinda and Amritsar, which were organized to strategize for bypolls in the key constituencies of Barnala, Gidderbaha, Chabbewal, and Dera Baba Nanak. These constituencies will soon face by-elections following the resignation of sitting MLAs who have now assumed

During Monday's meeting, chaired by Rupani, the focus was on shaping the BJP's strategy for the upcoming byelections and the local body polls. The party reviewed feedback from district-level leaders and assessed the political landscape, particularly in light of the ongoing farmer protests, which remain a challenge for the BJP in Punjab's rural regions. The first phase of the BJP's

membership drive, which concludes on Monday (September 30), was another key topic of discussion. The drive aimed at increasing the party's presence across the state, and party leaders expressed optimism about the success of their outreach efforts. The second phase of this campaign is set to launch on October 1 (Tuesday), targeting a broader section of the electorate.

Despite the party's reassurances, Jakhar's absence continues to raise questions. His non-attendance at pivotal meetings, coupled with strategic silence combined with the persistent rumours of internal friction, has kept the spotlight on his future within the party. However, sources within the BIP indicated that any decision regarding Jakhar's leadership is unlikely to be made until after the upcoming by-elections and polls in neighbouring states, including Haryana and Jammu and Kashmir. Party insiders suggested

that the BJP is focused on the immediate electoral challenges and will reassess the situation after October 5, once these electoral processes have concluded. Jakhar's leadership, while under scrutiny, may not face any official review until the results of these elections are in.

The by-elections for the four assembly constituencies — Gidderbaha, Barnala, Chabbewal, and Dera Baba Nanak — are seen as a crucial test for Punjab BJP, which is looking to strengthen its presence in the State.

Historically, the party has struggled to gain significant traction in Punjab, and the bypolls are viewed as a critical opportunity to solidify its position. The constituencies, previously held by Congress and Aam Aadmi Party (AAP), became vacant after the MLAs resigned to take on roles as The Road Ahead

Though Sunil Jakhar's future as Punjab BJP president remains uncertain, the party leadership is keen to project stability. Vijay Rupani and other senior leaders stressed that Jakhar is very much still in charge and that his absence from today's meeting should not be misinterpreted. They emphasized that Jakhar would soon rejoin party activities and continue to lead the BJP through the upcoming electoral challenges. For now, the Punjab BJP's

attention is firmly on the upcoming bypolls and local body elections.

As the party gears up for these key contests, the speculation surrounding Jakhar's leadership remains in the background but is unlikely to disappear entirely until an official announcement is made.

The coming weeks are expected to be pivotal for both Sunil Jakhar and the Punjab BJP. Whether he continues to lead the party or steps aside, his absence from today's meeting has kept the political rumour mill turning, leaving party workers and political observers waiting to see how the situation

The highest bidder in this unconventional race is BJP leader Atma Singh, who has pledged a whopping Rs two crore for the coveted role of sarpanch (village head). With panchayat elections scheduled for October 15, this unusual method of selection has stirred a mix of surprise, criticism, and

admitted to offering the Rs two crore bid, claiming that the amount will be entirely used for the development of Hardowal Kalan village. According to Singh, this bid will be in addition to the government's standard panchayat grant, creating a separate pool of resources aimed at improving village infrastructure, education, and

Cauldron boiling

West Asia is once again on the precipice of a larger conflict, as tensions between Israel, Hezbollah and Iran reach a boiling point

he situation in the West Asia is becoming critical and it would not be surprising if the region is embroiled in a full-fledged war. The assassination of Hezbollah's longstanding leader, Hassan Nasrallah, marks a significant escalation in the ongoing conflict between Israel and the Lebanese militant group. This development could pull not only Iran but also the United States into a broader and potentially devastating confrontation. Hezbollah, reeling from the assassination of its leader and the destruction of much of its command structure, finds itself at a critical juncture. With over a dozen of its top commanders eliminated and its communications infrastructure crippled, the group faces significant operational challenges. However, expecting Hezbollah to capitulate is unrealistic. The group, which has thousands of fighters and a sizable arsenal of longrange, precision-guided missiles capable of hitting major Israeli cities, has vowed revenge. With pressure mounting from within its ranks, there is a strong likelihood that Hezbollah

will attempt to launch a major offensive against Israel, potentially overwhelming Israeli air defences. If such an attack takes place and results in significant civilian casualties, Israel's response is expected to be swift and devastating, targeting Lebanon's infrastructure or even expanding the conflict to Iranian territory. Such a scenario could ignite a much wider conflict that drags the entire region into chaos.

For Iran, the loss of Nasrallah is as much of a blow as it is for Hezbollah. Iran, which has yet to respond to the assassination of Hamas political leader Ismail Haniyeh, is now facing heightened pressure from hardliners to retaliate. Iran's influence extends across the

region through a network of militias known as the 'Axis of Resistance,' which includes Hezbollah, the Houthis in Yemen, and various groups in Syria and Iraq. While Tehran will likely use these proxies to increase pressure on Israel, its response is expected to be measured to avoid triggering a full-scale war. Israel's intentions are now clearer than ever. The assassination of Nasrallah signals that Israel has no interest in halting its military campaign, despite international calls for a 21-day ceasefire, including one from its closest ally, the United States. Israel believes it has Hezbollah on the defensive and aims to continue its offensive until the group's missile threat is neutralised. A broader war would have catastrophic consequences, not only for the parties directly involved but for the entire region. Lebanon, already on the brink of economic collapse, could be devastated and any escalation could disrupt global oil supplies, sending shockwaves through the international economy. The coming weeks will be crucial in determining whether this conflict spirals into a wider regional war or if diplomatic efforts can halt the violence before it escalates further. As of now, this volatile region stands on the edge of a conflict with no clear resolution in sight. This is high time for the UN to step in and the West to make efforts for rapproachment else this region is going to burn for sure.

The deceptive facade of China's military

Despite technological advancements, setbacks like the Zhou-class submarine sinking, reveal a widening gap between China's military claims and actuality

eception is at the heart of Chinese strategy and operations, especially on matters, the military. Ancient Sinological philosophers like Sun Tzu (The Art of War) had propounded extensively on cheating (likening it to a 'magic weapon') as a vital underpinning of deceptive warfare. The Chinese PLA Navy Submarine Academy has formally distilled four examples of deception in war (under the manual, Essentials of Sun Tzu and the Art of War and Submarine Operations'). Firstly 'Show yourself to intimidate the enemy, then 'Show the false to confuse the enemy, thirdly 'Create momentum to harass the enemy and lastly 'Deceive to obstruct the enemy'. Herein, untruth is a natural necessity as per their established treatise. India would be well versed in how the Chinese would talk about the 1962 Indo-China War but remain conspicuously silent on the reversal of fortunes about the 1967 Nathu La and Cho La border clashes. While an estimated 340 Chinese soldiers had died then (88 on the Indian side) true to their downplaying style, they only accepted a figure of 32 fatalities. The Chinese are similarly circumspect or lying about the essential outcomes of the China-Vietnam War of 1979. This deliberate fudging of facts was to repeat itself in the 2020 India-China skirmishes on the Line of Actual Control (LAC). While India acknowledged the loss of its Bravehearts in the

bloody encounters, the Chinese shied away from acknowledging any of their own – this when the US pegged the Chinese fatalities as 20-35, the Russians estimated Chinese loss of about 45, whereas the Australians insisted at least 41 Chinese killed.

Almost a year later, the Chinese sheepishly admitted four fatalities killed in the Galwan clashes, as they gave away gallantry awards. True to their practised instincts, the Chinese always overstated their gains and downplayed their osses to deceive the onlookers (especially their citizenry) to Zhou-class of attack submarine retain 'manufactured' optics of infallibility and invincibility, even service, speaks volumes of the when the reality was a lot more gap between purported tech-

It routinely manifests in their claims of making advancements in technologies, weaponry and platforms that are ostensibly cutting-edge and even ahead of peers like the United States or Russia. The reality is essentially predicated on reverse-engineering technologies that could be brazenly stolen or surreptitiously acquired - but the claim of 'homegrown' is gleefully posited.

A lot of 'fifth generation' fighters, Intercontinental Ballistic Missiles, Hypersonic technologies to Chinese nuclear submarines remain in public news but are essentially untested or unsubstantiated in live combat. While it has a considerable industrial base and budgetary allocation granted to its Defence Industry, like everything else in the Chinese realm, claims remain more impressive than reality. With this murky backdrop, came the recent news of the sinking of the latest Chinese nuclear submarine. The fact that the sank even before going into

nological advancements as opposed to factual efficacy. Incidentally, the US Deputy Secretary of State, Kurt Campbell, had confirmed that the Russians were helping China develop this submarine technology and that it too wasn't necessarily homegrown, as claimed. While this sinking of the submarine is believed to have happened in May earlier, it was never owned up by the Chinese and it took satellite images to unravel the sinking of the first-in-class nuclear-powered Chinese submarine. It is certainly a major setback for China's priority weapons programs that is key to its expansionist and hegemonic aspira-

As if on the rebound and to stitch a counternarrative, China is believed to have fired an Intercontinental Ballistic Missile into the Pacific Ocean, in a move that seems designed to distract and deflect from the embarrassing news of its sunk submarine and to reiterate its prowess and capability. Russia's decline on the global stage as a military supplier has not resulted in an automatic transfer of business to the Chinese manufacturers, as earlier thought and the growing perception of 'Made in China' has a lot to do with the reactions. With the US returning to the Pakistani arms market (Islamabad accounts for over 50 per cent of Chinese exports), and the overall pressures of economic slowdown haunting the Chinese economy – Beijing is in a tight spot to invest, innovate, and deliver weaponry that truly delivers what it claims. The challenges of parenting in the age of technology

While the challenges are real, so too are the solutions — adaptation and patience remain the cornerstones of successful parenting in these digital times

onversations these days are rife with the refrain ✓of how challenging life has become and how surfing the turbulent seas is not as easy as it used to be previously. It amuses me that we endorse this view readily despite the conveniences the modern world has introduced to us.

The all-round improvement in quality of life has done nothing much in terms of bringing us the sense of gratification that material accumulation is perceived to bring. Instead, we have only become crazier and more complaining. Among the things that we whine about there is one that stands out – the difficulty of being a parent in these times.

It is not like how it used to be when we were kids, they assert and are at a loss to keep their children under control, be it about the use of gadgets or their demands for new-age comforts or following well-meaning advice. Children these days have a way of growing up that parents can't seem to get a grip over, and parents are at their wit's end. Has parenting become so tough now, tougher than what games—all these distractions raising children to be 'good'

it used to be for our parents

Before we delve into why it seems more difficult now than ever before, it is important to recognise that parenting has always been tough. Our grandparents may not have had to deal with social media addiction or the anxiety of being on constant alert, but they had their own set of worries—scarcity, lack of information, and fewer opportunities. Yet, they managed, just as we try to manage today. What, then, has changed so significantly that parents now feel a near-constant sense of overwhelm? For one, the digital age has transformed not only how we live but also how we raise chil-

Social media, YouTube, video

are not just forms of entertainment; they shape the way children think, act, and even perceive reality. Parents often feel powerless in the face of this digital onslaught, unsure how to manage screen time without seeming authoritarian or disconnected from their children's world.

This struggle is exacerbated by the speed at which technology evolves. By the time parents get a handle on one app or platform, their children have already moved on to the

Then, there's the issue of peer pressure, not just on children but on parents too. The 'Instagram-perfect' life adds a layer of stress to parenting that previous generations didn't face. Parents today are not just competing with them-selves to be the best versions of their upbringing—they are competing with a curated version of perfection they see online. The pressure to enrol children in extracurricular activities, make sure they're developing emotional intelligence, cultivate leadership skills, and create future 'success stories' can be crushing. Our grandparents' idea of

has been replaced with a need to raise 'achievers,' and this shift in focus can leave parents feeling like they're running a race with no finish line. Despite these challenges, parenting isn't a lost cause. It is, and always will be, a journey of trial and error. The key is finding balance and knowing that perfection is neither attainable nor necessary. A good place to start is by building a stronger connection with your children. Parents also need to accept that they cannot fight all battles alone.

They must seek help. Many of the challenges we face today are new and unfamiliar, but that doesn't mean they are insurmountable. Just as previous generations found solutions to their problems, so too can we, but it will require adaptation, learning, and, most importantly, patience. After all, our children are not just products of their environment-they are reflections of the love, support, and wisdom we give them, no matter how fast the world around them changes. PERILS OF MUSI PROJECT

Madam - Congress government's extravagant plan to spend a staggering Rs 1.5 lakh crore on the Musi river beautification project. This expenditure raises serious questions about the government's priorities and its commitment to the welfare of the people of Telangana. As KTR has rightly pointed out, the government's focus on this project while neglecting the Palamuru-Rangareddy project, which is nearing completion, is a clear indication of their misplaced priorities. The Palamuru-Rangareddy project has the potential to transform the lives of countless farmers in the region, yet it seems to be overshadowed by the Musi project, which appears to be more about political gain than public welfare. It is also alarming to note that the estimated cost of the Musi project has tripled from Rs 50,000 crore to Rs 1.5 lakh crore, suggesting a significant financial scan-

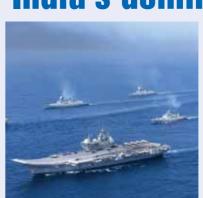

The government must provide a transparent explanation for this drastic increase in expenditure and ensure that the funds are used efficiently and for the benefit of the people. Furthermore, the government has failed to provide clear details about the expected benefits of the Musi project, such as the number of acres of farmland that will benefit, the amount of water that will be stored, and the anticipated industrial benefits. Without such information, it is difficult to justify the massive investment being made in this

HEZBOLLAH LEADER ASSASSINATED

Madam— The unstoppable Israel has once again inflicted another severe wound on Iran when Hezbollah chief Hassan Nasrallah was assassinated in airstrikes by the Israeli defence forces at Lebanese capital Beirut. His death gave jolts to his shell shocked sympathisers in Iran, like the death of Hamas political leader Ismail Haniyeh. But at the same time a cause for celebration for the north-

he Australian think tank 'Lowy Institute' ranked India as the third strongest Asian power in the Asia Power Index. US and China occupied the first and second position

western Sunni population in Syria for his atrocities and war crimes during the Al-Assad regime in the Civil War. The backto-back war between Hezbollah and Israel has spoilt the hope of a ceasefire and wreaked havoc on civilians through constant shelling in various human settlements for more causality.

It proves the hypocrisy of Prime Minister Benjamin Netanyahu, who pretends to gather international support for isolated Israel in the UN General Assembly but on the contrary continues to provoke Iran for a wide-scale regional war and long-running conflict results in vicious ramifications. CM, which has proven the pervasiveness of dynastic politics and the prioritising of family interests over public welfare. It is easy for a son, daughter, or close relative of a leader to take over the political baton, while others have to spend a significant amount of time in the rough and tumble of politics. Political observers say that there is no harm if a political leader's son or daughter, or close relative, chooses to enter politics, but there is a thin line that separates dynasty politics and a worthy kin's choice to take a plunge.

But when we look into the pros and cons of dynastic politics, it highlights the deficiency it could bring to the ideals of democracy, questioning its legitimacy. The trend of dynastic politics will lead to the perpetuation of an elite class that transcends generations and will hamper the smooth inflow of capable, meritori-

FIRST COLUMN THE SPIRITUAL **MEANING OF ZERO**

The symbol of zero holds profound meaning, it symbolises eternity

RAJYOGI BRAHMA KUMAR NIKUNJ JI

ero is the number people often feel, more so than one, isn't it true? Because more zeroes means more prosperity. However from a spiritual perspective, zero is the point from which all other numbers spring forth. Even visually the number zero is symbolic of a seed, womb or egg from which pure potential emerges. Since the zero also visually resembles a circle, it symbolises eternity, evolution, and infinity. Like an atom is to the physical world and a soul to the spiritual world, the zero is symbolic of both worlds.

Pythagoras viewed the sign of the zero as the container for all things and the birthing place of all other values. The discovery of zero changes the way we calculate, compute and communicate. All these tasks affect almost all fields of human activity today. Zero is counted as an even number along with positive and negative integers. It is important in the number-value system because it defines the value and place of a digit in a number as a thousand, hundred, ten or a million. In a way, it is a symbol that defines nothingness.

While zero is valuable in terms of its contributions to the myriad spheres of human life, it has been used to describe mystical concepts in religious and spiritual philosophies. In Hindi zero is called 'shunya' meaning a void, the supreme state of awareness where everything comes to nothingness. Spiritual seekers perceive this state as 'mukti' or nirvana in which the soul is restored to its original state free from all impressions, influences and impurities of the earthly life. Zero looks like an elliptical circle representing infinity the eternal cycle of cre-

ation. Everything returns to zero or nothingness before being created anew. Hence, most spiritual teachers emphasise attaining the zero state i.e. emptying the mind of all worldly thoughts and detaching from the awareness of the physical body to attain liberation and peace. The egg shaped symbol of the Soul or Supreme Almighty as a point of light surrounded by an oval aura also resembles a zero. In its original state, every soul is like a zero & it has no worldly identity or role but like a seed, it has infinite power and qualities merged within, which

manifest when the soul enters the field of karma in this world. The Supreme Almighty is the eternal seed who always exists in the zero state of awareness, detached from everything yet filled with infinite divine qualities and powers that support the whole creation. It is from this supreme state of nothingness that HE creates a perfect new world whenever the creation becomes degraded and old. Like zero, the soul essentially has an even or positive character. Just as the negative of 2 is - 2 which means lacking in 2, the lack of awareness of

positive qualities manifests as negative or odd traits in the soul. The number zero has very special functions in the calculation. Anything added or subtracted to zero remains unchanged. Any number multiplied by zero gives zero while any number divided by zero gives infinity. Interestingly, when we add zeros after a number, its value grows ten times. These specialities can be ascribed to the Almighty Supreme who remains unchanged in the cycle of eternity

He does not enjoy the fruits of karma and nothing can be added, subtracted, multiplied or divided from his powers. When we multiply our powers by linking ourselves with him, we too become a zero like him filled with all divine virtues. So let us try our best to remain in the Zero state and achieve a higher state of consciousness to live a life that is minus all worries, tension & stress.

Revive shallow aquifers for urban water woes in India

Indian cities, plagued by over-extraction of deep groundwater must turn to the ancient underground reservoirs writes S VISHWANATH and ISHLEEN KAUR

n India, groundwater plays a critical role in meeting urban water demands. These aquifers, found at relatively shallow depths, have served as vital sources of water for centuries. At a time when transporting water across long distances was inconceivable, communities turned to shallow aquifers to meet their water needs.

Found at accessible depths, they offered a cost-effective and reliable water supply for the growing populations. The dug wells and step wells, still standing today, are reminders of a time when water scarcity was addressed by harnessing rainwater to recharge shallow aquifers. However, as modern cities grew, the humble dug wells, once a ubiquitous part of the landscape, began to vanish. These wells have now largely been replaced by deep bore wells tapping into groundwater reserves at alarming depths.

India is the world's largest user of oundwater, consuming more than the United States and China combined. Urban areas, in particular, have increasingly relied on groundwater to supplement their needs, leading to a significant depletion of shallow aquifers, and for too long, groundwater management has been side-lined in urban planning. However recent climate challenges-unpredictable rainfall, flash floods, and urban water crisishave sparked renewed interest in groundwater management. Increasingly, rainwater harvesting and urban waterbody rejuvenation projects

are turning toward these natural underground reservoirs as a solution. Aquifers are now being studied for their potential to store excess rainwater and mitigate flooding. The launch of AMRUT 2.0 in 2021 marked a paradigm shift in water management, with groundwater finally being prioritized at the 'urban' scale. The mission recognised the need for cities to not only rely on groundwater but to actively manage

sion, the Shallow Aquifer Management (SAM) pilot project was initiated in 2022 in 10 cities. This initiative aimed to raise awareness among city officials and communities about the importance of shallow aquifers and demonstrate effective recharge structures to tackle critical issues like groundwater depletion, contamination and urban flooding. It sought to create an environment where cities could integrate shallow aquifer management into broader water strategies. By emphasising both simple and scientifically sound recharge methods, it aimed to revive approaches that have been overlooked in the pursuit of modern infrastructure. The project has yielded valuable insights for cities on effective shallow aquifer management.

inis initiative has led to the development of 12 unique approaches and designs for recharge structures, tailored to local aquifer conditions. These ranged from the revival of existing wells and step wells in Dhanbad, Hyderabad, and Bangalore to catchment treatment of areas showing high recharge potential in Pune.

Cities such as Gwalior and Rajkot have undertaken detailed mapping of aquifer systems, and groundwater depths, and created an inventory of recharge structures at the city scale, facilitating informed groundwater management decisions. The project has also shown promising results in showcasing the sustainable use of these recharge structures to supplement water needs for local communities.

Similarly, in Thane's Yeoor Village, tribal communities are benefiting from water sourced from desilted and retrofitted wells. In Dhanbad and Rajkot, where peri-urban areas heavily depend on shallow wells, the initiative has begun to expand beyond its pilot phase.
Rajkot Municipal Corporation

has initiated work on constructing more than 100 additional recharge structures city-wide based on the SAM mapping, showing the renewed awareness and commitment to scale up shallow aquifer management. The project has been able to draw the attention of larger voices in the climate resilience and water security space.

Bangaiores Climate Action Plan has now incorporated groundwa-ter management as a vital aspect of making Bangalore climate

Pune has even established a dedicated groundwater cell in the municipal corporation to ensure that shallow aquifer management remains a priority in the city's future water plans. In FY 2024-2025, the Pune Municipal Corporation has allocated a dedicated budget of INR 1 crore for aquifer recharge structures, showing significant action in this direction. Despite the progress made through the SAM project, much work remains.

Cities need to acknowledge that deep aquifers hold vast reserves of water accumulated over centuries and must be typically reserved for emergencies, such as droughts.

In contrast, shallow aquifers hold

immense potential as the first line of defence for daily water needs, making them essential for urban areas. However, as cities grow, the natural processes that recharge these aquifers are being disrupt-

In the current situation, where urban development is increasingly characterised by impermeable surfaces, inhibiting rainwater infiltration and preventing natural recharge, cities need to make conscious interventions towards artificial recharge of shallow aquifers including rejuvenation of lakes, wetlands and river floodplains.

Îndia's groundwater crisis is complex, but the solution may lie beneath our feet. By managing shallow aquifers, cities can foster a more resilient and sustainable future. The SAM project provides a blueprint for this approach, but its lessons must de scaled up and implemented nationwide.

As India faces the dual challenges of urban growth and water scarcity, it is time to embrace the wisdom of our ancestors and integrate it with the science of hydro-

By restoring shallow aquifers and making them a part of an integrated urban water management ecosystem, cities can ensure that this invaluable resource remains a dependable source of water for generations to come. In the words of Kabir: The well is one, and the water is the same. Let us remember that the water we draw today must sustain us tomorrow.

Right-wing and challenge for Indian Muslims: The path to reform and reconciliation

Indian Muslims must embrace internal reforms that align with a modern, secular framework, helping to bridge societal divisions

¬he rise of right-wing politics in India seems to have solidified its presence, and the deepening of Hindu-Muslim fault lines is likely to persist. While liberal and secular parties may win several State elections, an increase in their numbers in Parliament or State legislatures is unlikely to mend the fragile communal ties. The division between communities has now reached a deeper societal level, presenting a grave challenge for Indian Muslims. To minimise this damage and repair the social fabric, it is essential to promote a counter-narrative grounded in secularism. Indian Muslims must focus on internal reforms that promote secularisation within their own societal framework. While some right-

wing claims about Muslim life may be exaggerated or entirely untrue, certain aspects warrant closer introspection by the community itself. Although the issues have intensified since 2014, their roots can be traced back to much earlier times.

As Muslims, it is critical to rework the internal narrative and processes within the com-

values. The painful legacy of India's partition, drawn along communal lines, has left a heavy burden on the Muslim community. In response, Indian Muslims need to go above and beyond to heal the sentiments and emotions of the majority community. Despite constitutional protections and safeguards, the community needs to focus on changing perceptions at both societal and communal levels. One step toward this change is to reform Muslim personal laws and harmonize them with a modern, progressive social order. Instead of framing personal law reforms as a Hindu-Muslim conflict, Muslims should see these reforms as standalone processes that benefit the communimunity to align with secular ty. A close examination of

some outdated practices will reveal that reforms have already taken place in many Muslim-majority countries. The All India Muslim Personal Law Board missed a crucial opportunity to declare triple talaq un-Islamic before the government passed legislation against it. Similarly, the Shah Bano case harmed the Muslim community's interests and fueled the resurgence of rightwing mobilisation. The Muslim Personal Law Board has exacerbated the community's challenges by opposing every proposed reform instead of acting as a forward-thinking, responsible institution. Another significant issue facing Indian Muslims is the lack of leadership from within the intelligentsia. With few excep-

tions, Muslim leadership has

been monopolised by the clergy, leaving the community without enlightened, visionary, and progressive guidance. The void left by Maulana Abul Kalam Azad has remained largely unfilled. Even leaders like Asaduddin Owaisi, despite their education and goodwill, have failed to adopt a liberal and secular approach in addressing legitimate community concerns. An aggrieved community must commu-

nicate in a conciliatory manner, rather than adopting a

confrontational stance. The Muslim leadership's approach to the Hijab controversy clearly illustrates this failure. While Muslim women are entitled to wear the Hijab as a matter of choice and religious freedom, elevating the issue to the extent of students quitting their studies was unwise. It is essential for religion to be separated from public life and confined to the private domain. Although this holds true for all communities, Indian Muslims must make this move more emphatically due to historical reasons. The community needs to create a secular platform to address its concerns. The severe political and socio-economic challenges facing Muslims today

tive step in this direction has been the recent initiative by a group of retired civil servants from Delhi who attempted to engage with leaders from the Rashtriya Swayamsevak Sangh (RSS). However, the initiative failed to gain traction as it was undertaken individually without an organizational framework. To be successful, such efforts must be scaled up to a national-level dialogue with a clear agenda involving eminent citizens from various levels, including state and central governments. It is imperative to address the widespread perception that the Muslim community is resistant to reform, reconciliation, and compro-

cannot be ignored. One posi-

Before the Hindu-Muslim fault lines in India reach a danger-

ous level, the country urgently needs a period of cooling off. Many right-wing grievances against Muslims lack substance and truth. In a society governed by constitutional principles and the rule of law, a community cannot be punished for the historical wrongs committed by its ancestors. To address the right-wing narrative effectively, the Muslim community must launch a secular, modern, and progressive narrative based on evidence, rather than countering with equally polarizing rhetoric. it is the only viable (The writer has been associat-

Le Pen denies wrongdoing in **EU fund embezzlement trial**

French far-right leader Marine Le Pen denied violating any rules as she and her National Rally party and two dozen others went on trial on Monday, accused of embezzling European Parliament funds, in a case that has the potential to derail her political ambitions. Arriving at the court in Paris, Le Pen said she remained confident as "we have not violated any political and regulatory rules of the European Parliament" and vowed to present the judges with "extremely serious and extremely solid arguments".

Le Pen and other National Rally members casually greet-ed each other before sitting down in the first three rows of the packed courtroom.

The nine-week trial will be closely watched by Le Pen's political rivals as she is a strong contender in the race to succeed Emmanuel Macron when the next presidential election takes place in 2027.

It comes as a new government dominated by centrists and conservatives just came into office in the wake of June-July legislative elections. Some observers expect the trial could prevent National Rally lawmakers, including Le Pen herself, from fully playing their opposition role in Parliament as they would be busy focusing on the party's defense.

Since stepping down as party leader three years ago, Le Pen has sought to position herself as a mainstream candidate capable of appealing to a broader electorate. Her efforts have paid off, with the party making significant gains in recent elec-tions at both the European and

dict could seriously undermine her bid to take the Elysee. The National Rally and 27 of its top officials are accused of having used money destined for EU parliamentary aides to pay staff who instead did political work for the party between 2004 and 2016, in violation of the 27-nation bloc's regulations. The National Rally was called National Front at the time. Le Pen, whose party has softened its anti-EU stance in recent years, denies wrongdoing and claims the case is politically driven.

"Parliamentary assistants do not work for the Parliament. They are political assistants to elected officials, political by definition," she previously said.

'You ask me if I can define the tasks I assigned to my assistants; it depends on each person's skills. Some wrote speeches for me, and some handled logistics and coordination."

If found guilty, Le Pen and her co-defendants could face up to 10 years in prison and fines of up to 1 million euros (USD 1.1 million) each. Additional penalties, such as the loss of civil rights or ineligibility to run for office, could also be imposed, a scenario that could hamper, or even destroy, Le Pen's goal to mount another presidential bid after Macron's term ends. Le Pen was runnerup to Macron in the 2017 and 2022 presidential elections.

She served as party president from 2011 to 2021 and now heads the group of RN law-makers at the Fronch National makers at the French National

Despite her denial, her party has already paid back 1 million to the European Parliament, the Parliament's lawyer Patrick Maisonneuve said. Of that directly linked to Marine Le Pen's alleged misuse of funds. The legal proceedings stem from a 2015 alert raised by Martin Schulz, then-president of the European Parliament, to French authorities about possible fraudulent use of European funds by members of the National Front.

Schulz also referred the case to the European Anti-Fraud Office, which launched a separate probe into the matter.

The European Parliament's suspicions were further heightened when a 2015 organizational chart showed that 16 European lawmakers and 20 parliamentary assistants held official positions within the party — roles unrelated to their supposed duties as EU parliamentary staff.

A subsequent investigation found that some assistants were contractually linked to different MEPs than the ones they were actually working for, suggesting a scheme to divert European funds to pay party employees in France.

Investigating judges concluded that Le Pen, as party leader, orchestrated the allocation of parliamentary assistance budgets and instructed MEPs to hire individuals holding party positions. These individuals were presented as EU parlia-mentary assistants, but in real-ity, were allegedly working for the National Rally in various capacities.

The European Parliament's legal team is seeking 2.7 million euros in compensation for financial and reputational damages. This figure corresponds to the 3.7 million euros allegedly defrauded through the scheme, minus the 1 million euros already paid back. During the

National Front won a record 24 MEP seats, finishing first with 24.8 per cent of the vote, ahead of the centre-right and the Socialists. This surge resulted in a substantial financial windfall for the party, which faced severe financial problems at the

An audit of the party's accounts between 2013 and 2016 revealed that it was running a deficit of 9.1 million euros by the end of 2016. Yet, the party still had a cash balance of 1.7 million euros and had lent 1 million euros to Le Pen's 2017 presidential campaign, while also holding 87,000 euros in loans to Cotelec, its funding association.

At the time, the party was also indebted to a Russian bank for 9.4 million euros, a loan taken out in 2014 for 6 million euros. The investigation uncovered many irregularities involving prominent party members.

Thierry Legier, the long-time bodyguard of Le Pen's father Jean-Marie, was listed as his parliamentary assistant. But his resume did not reference this role, and he made no mention of it in his 2012 autobiography.

Legier admitted during the investigation that he was not interviewed and signed his employment contract without fully understanding his official Jean-Marie Le Pen, who led the

National Front from 1972 to 2011, will not appear in court alongside his former colleagues due to health concerns. Now 96, he was deemed unfit to testify by a court in June. He has 11 prior convictions

11 Ukrainian regions as it steps up drone attacks

Kviv (AP): Russia fired missiles and drones at 11 regions of Ukraine, the Ukrainian air force said on Monday, in a 33rd consecutive night of aerial attacks behind the front line and set a new monthly record

of drone barrages.

In Kyiv, multiple explosions and machine gun fire could be heard throughout the night as the Ukrainian capital's air defences fought off a drone attack for five hours.

No casualties were reported in Kyiv or elsewhere, though a "critical infrastructure object" caught fire in the southern Mykolaiv region, Gov. Vitalii Kim said, without elaborating.Russia has increasingly deployed Shahed drones rather than more expensive missiles, in its aerial bombardment of Ukrainian cities since its full-scale invasion of its neighbour in February 2022. It launched more than 1,300 Shahed drones at Ukraine in September alone – the highest number of drone attacks in a single month since the war began.

Ukraine, too, has developed a new generation of drones for the battlefield and for long-range strikes deep inside Russia. More than 100 Ukrainian drones were shot down over Russia on Sunday, Russian officials said.

Also Monday, Russian President Vladimir Putin released a video marking the second anniversary of the annexation of four Ukrainian territories and again accused the West of turning Ukraine into "a military base aimed at

BharatPe, Ashneer Grover settle dispute, end months of legal battle

Fintech firm BharatPe has reached a settlement with its former co-founder Ashneer Grover, ending months of acrimonious legal and public dispute, the two sides said on As part of the settlement

agreement, Grover will not be associated with BharatPe in any capacity nor be a part of the shareholding of the company.

Grover will transfer a part of

his shareholding to the BharatPe board and the rest will be managed by a family trust, keeping him off the company's capital table. Also, the two sides will not pursue legal cases, BharatPe and Grover said in separate statements. The settlement comes days after the Economic Offences Wing (EOW) of the Delhi Police arrested Deepak Gupta on charges misappropriation of fintech Unicron's funds. Gupta is the husband of Madhuri Jain Grover's sister.

'Certain number of shares held by him will be transferred to the Resilient Growth Trust for the benefit of the company and his remaining shares will be managed by his family

leave following allegations of using abusive language against Kotak Mahindra Bank staff and fraudulent practices, which he denied.

BharatPe had roped in SAM, Alvarez and Marsal (A&M) and PwC for governance review in February 2022 after sending Grover on leave.

In a report by A&M, it was alleged that Madhuri Jain Grover and her family members, brother Shwetank Jain and brother-in-law Deepak Jagdishram Gupta were involved in financial irregularities at the company. BharatPe sacked its head of controls and Grover's wife Madhuri Jain Grover on February 23, 2022, for alleged financial irregularities ranging from producing fake invoices to billing the company for personal beauty treatment and trips abroad.

These followed allegations of illegitimate payments to bogus human resource consultants linked to Madhuri Jain's brother Shwetank Jain. Also, there were allegations of

payments through through vendors, transactions in input-tax credit, illegal payments to travel agencies, forged invoices etc. Grover quit as managing director of the firm on March 1, 2022, after an emergency arbitrator in the Singapore International Arbitration Centre held that there was no ground to stop governance review at the fintech firm. That followed months of bickering by both sides. Grover in a post on X said, "I have reached a decisive settlement with BharatPe. I repose my faith in the management and board, who are doing great work in taking

BharatPe forward in the right direction. I continue to remain aligned with the company's growth and success. I will no onger be associated with BharatPe in any capacity, nor be part of the capital table." Grover, who had previously accused the BharatPe board of mismanagement, ended the post with "Peace!".

Coal will remain part of India's energy mix for decades: Experts

PTI ■ NEW DELH

s the UK officially shut Adown its last remaining coal power plant on Monday policy experts said coal will continue to be a part of India's energy mix for the next few decades, given that it is still a developing country with significant energy needs. The UK on Monday closed its

last coal power becoming the first G7 nation to do so amid calls for a global coal-free energy system by

The world's first coal power plant opened in London in 1882, and until 2012, coal accounted for 39 per cent of electricity UK's

Global energy think tank Ember said the closure of the UK's last coal plant means that more than a third of OECD countries are now coal-free, with three-quarters expected to eliminate coal power by 2030, in line with global climate goals aimed at limiting warming to 1.5 degrees Celsius.

The International Energy Agency's (IEA) "Net Zero by report recommends that developed countries phase out unabated coal by developing while countries should aim to do so by 2040 to remain on track for global net-zero emissions by

The term "unabated" in this context refers to electricity production that does not use technologies designed to capture and reduce greenhouse gas emissions.

These developments occur as developed countries push their counterparts in the developing world to accelerate the phase-down of unabated coal power.

India, the world's secondlargest consumer of coal for

electricity generation after China, saw the share of coalfired power generation rise to 75 per cent in 2023-24 from

per cent in 2019-20. According to the IEA, while coal consumption fell in Europe and the US in 2023, it rose by 8 per cent in India and 5 per cent in China.

for power generation began several decades later than that of developed nations. While the UK's first coal power plant opened in 1882, India established its first major thermal power plant, the Hussain Sagar Thermal Power Station in Hyderabad, in 1920. Policy experts say India is focusing on a long-term energy transition, where coal will continue to be part of the energy mix for the next few

Sunil Dahiya, an independent analyst, said that while coal will not disappear in the near future, India must reduce harmful emissions from the sector by deploying advanced pollution control technologies and improving efficiency to curb carbon emissions

According to climate activist Harjeet Singh, India has made remarkable progress in renewable energy, but the remarkable intermittent nature of these sources and the lack of scalable battery storage mean that coal still underpins its power supply and industries like steel and cement.

"Yet, the cost of coal goes far beyond emissions destroys ecosystems, displaces communities, and deepens environmental injustice. Îndia must urgently shift away from coal, and the international community must provide the financial and technological support needed for a just and the planet," he said.

Montek Singh Ahluwalia former deputy chairman of Planning the erstwhile Commission, said in a webinar organized by the think tank Centre for Social and Economic Progress last week that India can't cut down coal immediately and it is hypocritical in the West to focus solely on coal while ignoring oil and natural gas. However, if we are going to

achieve net-zero emissions by 2070, we must recognise that we need to phase out thermal power.We should indicate to world that India's emissions will increase for a while, then peak, and eventually decline. Right now, there's misunderstanding in the West about India's willingness to reduce emissions, which is not

true," he said. Sunita Narain, the director general of the Centre for Science and Environment, echoed this sentiment, saying that India is currently dependent on coal, as it remains the cheapest form of energy available.

USHA SLAMS EC MEMBERS FOR NOT FELICITATING OLYMPIC MEDALLISTS

ndian Olympic Association (IOA) President PT Usha on Monday said it is "deeply concerning" that the Executive Committee members failed to honour Olympic medallists and accused the Finance Committee of blocking funds intended to support Indian athletes' preparation for the Paris Games

India secured six medals, including two historic bronze by young shooter Manu Bhaker, but Usha said the "EC does not want to celebrate their success" and it makes her "very sad."

"These athletes have made the nation proud, and it is the responsibility of the IOA to celebrate their achievements with the respect they deserve. It is deeply concerning that, even after returning home in mid-August, the EC has failed to discuss or take any steps towards organizing a formal felicitation ceremony," she said in a

She revealed that a proposal for a

preparatory grant of Rs 2 lakh for each Olympic-bound athlete and Rs 1 lakh for each coach had been blocked by the Finance Committee, notably by IOA Treasurer Sahdev Yadav.

"I strongly believe that this grant would have given our athletes and their coaches the support they needed in the crucial period leading up to the Olympic Games.

The refusal to disburse these funds reflects a lack of understanding of the needs of athletes and shows a complete disregard for their preparation and well-being," she

Highlighting the contrast with previous leadership, Usha pointed out that a successful felicitation ceremony was organised for the seven medallists from the Tokyo 2021 Olympics, even amid the COVID-19 pandemic.

"If my predecessors could celebrate the achievements of our athletes during a global pandemic, what is stopping the current EC members from doing the same? These medallists have worked tirelessly to

they deserve to be acknowledged." Usha questioned the commitment of some EC members, particularly those who are former athletes.

"As someone who has represented India on the world stage, I understand the importance of recognising the hard work, sacrifices, and victories of our athletes. It is disheartening to see that others in positions of power, especially those who have also worn the national colours, are failing to

uphold this duty." The IOA had planned to award each individual medallist between Rs 50 lakh and Rs 1 crore, with coaches receiving Rs 15 lakh to Rs 25 lakh as part of the official felicitation.

"By not following through on these plans, the IOA is letting down the athletes who have made our country proud. I urge the Executive Committee to take immediate action and ensure that our athletes receive the honours and recognition they deserve?

She reaffirmed her commitment to stand by the athletes, saying: "Our

Indian sport. I will not rest until they are given the due respect, support, and acknowledgment they have earned."

On Saturday, 12 members of the Executive Council had sent a letter to senior International Olympic Committee (IOC) official Jerome Poivey, accusing Usha of running the organization in an "autocratic' manner after she rejected their demand to remove Raghuram Iyer as IOA CEO during a contentious meeting.

Usha called the accusations "malicious and false," asserting that they aimed to undermine her leadership and the efforts to improve Indian sports. On Sunday, she criticized the dissenting council members for prioritizing personal power and financial gain over the welfare of the sport.

In a press release, Usha on Sunday alleged that several of these EC members have questionable track records, including accusations of gender bias and instances of sexual harassment against them.

Arteta talks up Enrique's 'unbelievable power' as | Chennaiyin FC aim for strong show Arsenal hosts PSG in Champions League game

AP ■ LONDON

Days after professing his "love" and "respect" for Pep Guardiola, Arsenal manager Mikel Arteta has spoken in an equally effusive manner about another influential Spanish coach he will face in the Champions League on Tuesday.

Luis Enrique takes his Paris Saint-Germain team Emirates Stadium for the most high-profile fixture in the second round of games in the new-look competition.

Arteta and Enrique go way back, having been together at Barcelona in the late 1990s and early 2000s when Arteta was starting out his professional career and Enrique was coming toward the end of his. Arteta said he "learnt a lot of things" from Enrique as a player and now as a coach, saying Monday his compatriot "brings a smile on my face."

"I am a huge admirer of him," Arteta said. "I remember his personality, huge character, huge energy, very supportive of his young players. What I love about him is that wherever he has been, as a player or as a manager, his fingerprints are all over place. You can see it's

his team. "He has this unbelievable power ... Then there's his approach to life, his profession - it's something to really look at and I learnt a lot of things from him."

Arteta spent much of last week talking about Guardiola and Manchester City amid the fallout from Arsenal's feisty 2-2 draw at the Premier League champions that appears to have ignited a rivalry between the teams.

He has long been viewed as a protégé of Guardiola, yet it seems that Enrique has been an influence, too.

"I love his honesty - he is very straightforward, he looks you in the eyes and tells you what he thinks," Arteta said. "I think in the end, players appreciate

Arteta described PSG, where he enjoyed a spell on loan in 2000-01 alongside players like Ronaldinho and Nicolas Anelka, as a team "probably at the highest level you can find in European football.

Enrique's side leads the French league with five wins and a draw from the opening six games of its title defense and began the Champions League with a 1-0 win over Girona albeit courtesy of a 90thminute own-goal.

Arsenal started with a 0-0 draw at Atalanta.

Arteta said Arsenal will check on the fitness of fullbacks Ben White and Riccardo Calafior on Monday.

Sporting. Hyderabad have a strong defensive structure that could trouble Chennaiyin. The two teams have clashed against each other on 10 occasions in the ISL and have registered four wins each, while two matches ended in a draw.

Meanwhile, CFC have scored in their previous four away matches. Their previous longest goal-scoring run in away games was 16 contests between January 2020 to

February 2023. Ahead of Tuesday's fixture, Hyderabad head coach Thangboi Singto hoped to draw inspiration from last when his side triumphed over Chennaiyin. "I can see that the boys have gelled with each other in the

last few weeks of training. So far, we have played only away games, and our next match will be at home," Singto said on the eve of the game.

"Chennaiyin FC were the only team that we beat last season. Are we going to defeat them again? I wish.

'It won't be easy because of the kind of foreigners that they have brought in, and the Indian players are there; they are much better in terms of physicality and experience. It will be tough, but the only thing we can do is train and keep trying."

Chennaiyin head coach Owen Coyle said while their start has been better than the last season, there are still some grey areas that need to be worked upon. "I'd love to be sitting here with

six points, for sure. We're obviously on three, which is better than we were this time last year. But six was achievable. So, we have to take that punch to the nose and look to bounce back quickly," he stated.

Farukh Chennaiyin's Choudhary has taken eight shots from inside the box this season. Hyderabad's Abdul Rabeeh's 50 touches inside the opposition's box since the beginning of the year is the most by any player from the side so far.
