The attack took place around 11 pm in the poorly lit and secluded area of Bopdev Ghat. The police came to know about the incident around 5 am on Friday.

With the incident having sparked a major public uproar in Pune, the local police swiftly arrested one person, a 36-year-old resident from Pune's Kondhwa area, in connection with the incident and launched a hunt for the two remaining suspects.

The Pune police have formed 10 teams from the Crime and Detection branches to look out the two

### Historic Kashmere Gate is now a traffic battlefield

### This stretch is notorious for being a bottleneck 24x7

### BY RAJESH KUMAR

Cituated close to Civil Lines, Owhere residences of the Chief Minister, Lieutenant Governor and Delhi Cabinet ministers are located, Kashmere Gate has heavy traffic congestion daily. This stretch is notorious for being a traffic bottleneck 24x7.

Lala Hardev Marg is the main road in front of Kashmere Gate metro station and the Inter State Bus Terminal (ISBT) where the flyover coming from East Delhi areas, such as Shahdara and Dilshad Garden, merges. Netaji Subhash Marg connecting Kashmere Gate to Chandni Chowk and Daryaganj always choked due to encroachments and

narrow lanes. Another major congestion point on the stretch comes between ISBT Kashmere Gate and the Chandgi

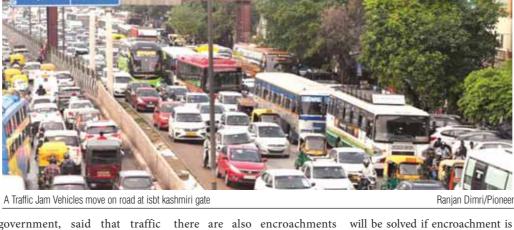

Ram Akhara junction. Nityanand Marg stretch connecting Tis Hazari court is another bottleneck here. Interestingly, as the number of vehicles on roads surrounding Kashmere Gate has increased multifold, the condition of roads and traffic management remains the same.

In 2018, Delhi traffic police had identified the area around Kashmere Gate as an 'accidentprone' zone due to heavy pedestrian movement and traffic congestion. The situation has worsened since 2018. The authorities seem to be clueless here. The area has illegal parking lots, which have an unregulated private vehicle flow, huge encroachments, that add chaos to

the already heavy volume of

traffic on the roads. Rajni Kant Verma, former Transport Secretary of Delhi

government, said that traffic congestion is the major problem at Kashmere Gate, due to heavy traffic and illegal parking of autorickshaws and buses. "Besides,

Raj Niwas officials said that traffic congestion outside the ISBTs is visibly lower now, and a report from the traffic police has

dropped from 45 minutes in August to 29 minutes after the new order, averaging 19 minutes since then. The number of buses to and from the terminal was 1,373 per day on average in August and is now 1,644 per day. Notably, the Central Road Research Institute (CRRI) has proposed several long-term modifications to the traffic diversion plan to decongest the area around Kashmere Gate Interstate Bus Terminus (ISBT). The CRRI has now suggested reducing the width of the footpath under Yudhistir Setu, which will create more space for

### 2.03 crore voters in Haryana to decide fate of candidates for Haryana's 90 seats today

#### BJP eyes hat-trick, Congress a comeback after a decade

MANOJ KUMAR ■ CHANDIGARH

bout 2.03 crore voters will Aexercise their vote at 20,632 polling booths in all the districts of the State on Saturday. The fate of Chief Minister Navab Singh Saini, Bhupinder Singh Hooda and Vinesh Phogat of the Congress besides JJP's Dushyant Chautala and 1,027 other candidates will be decided and polling will take place from 7.00 am to 6.00 pm.

A State Election officer confirmed that all the preparations related to elections have been completed with polling parties equipped with essential machinery and equipment dispatched to their respective stations. All necessary arrangements have been made for polling, including webcasting at every booth. Over 30,000 police personnel and 225 paramilitary companies have been deployed.

The ruling BJP is eyeing a hat-trick of wins in the state while the Congress is hoping to make a comeback after a decade. Counting of votes will be held on October 8.

Harvana Chief Electoral Officer Pankaj Agarwal said that 2.03 crore voters, including 8,821 centurions, are eligible to exercise their franchise. A total of 1,031 candidates are contesting in all 90 assembly constituencies, including 101 women. Among these candidates, 464 are contesting as independents. DGP Shatrujeet Kapur said the Haryana Police is fully prepared to ensure free,

fair and peaceful conduct of elections. Over 30,000 police personnel and 225 paramilitary companies have been deployed.

Bharatiya Janata Party (BJP), Congress, Jannavak Janta Party (JJP), Aam Aadmi Party (AAP) and Indian National Lok Dal (INLD) are the main parties in the state. JJP leader Dushyant Chautala is jointly contesting with Azad Samaj Party. AAP is contesting the Haryana polls on its own after its talks with the Congress over a seat-share agreement broke down.

The Congress has left the Bhiwani assembly seat for its INDIA bloc partner CPI(M) while BJP is not contesting the Sirsa seat, from where Haryana Lokhit Party chief Gopal Kanda is seeking re-election. Most seats are likely to see a direct fight between BJP and the Congress.

Prominent among those in fray include Chief Minister Saini (Ladwa), Leader of Opposition Hooda (Garhi Sampla-Kiloi), INLD's Abhay Singh Chautala (Ellenabad), JJP's Dushyant Chautala (Uchana Kalan), BJP's Anil Vij (Ambala Cantt), Capt Abhimanyu (Narnaund) and O P Dhankar (Badli), AAP's Anurag Dhanda (Kalayat) and Congress' Phogat (Julana).

From the Tosham seat, former MP Shruti Choudhry of BIP and Anirudh Chaudhary,

both cousins, are contesting. From Dabwali, Devi Lal's randson Aditya Devi Lal, an INLD candidate, is taking on JJP's Digvijay Singh Chautala, great grandson of the former deputy prime minister. BJP has fielded former chief minister late Bhajan Lal's grandson Bhavya Bishnoi from Adampur segment in Hisar while its nominee from Ateli in Mahendragarh is senior Congress leader was at his

and Chitra Sarwara (Ambala Cantt). Taking on Dushyant from Uchana is Congress' Brijendra Singh, son of former Union minister Birender Singh. A few rebels from both the Congress and BJP have also entered the fray.

#### A day before polling, leaders meet party workers

Meanwhile, Haryana Chief Minister Nayab Singh Saini along with his wife on Friday paid obeisance at the Mansa Devi Temple in Panchkula and performed 'havan yagya'. He also wished everyone on the occasion of Navratri festival. Saini also appealed to voters to come out of their homes on October 5 to ensure 100 per cent polling for strengthening democracy and said the party workers took the party's vision and 'Sankalp patra' to each home. The chief minister, who is contesting from Ladwa Assembly segment, claimed that the BJP will form the government in the state for a third time with a big mandate.

Former chief minister and Leader of Opposition in Haryana assembly Bhupinder Singh Hooda met his party workers in Rohtak. After following the gruelling schedule of poll campaigning by crisscrossing assembly constituencies, the and booth workers, one of his aides said. Hooda is contesting from Garhi Sampla Kiloi Assembly seat.

Former Home minister and senior BJP leader Anil Vij was in the party office in Ambala and met party workers ahead of the polling day, his close aide said. Indian National Lok Dal

(INLD) leader Abhay Singh Chautala, who is contesting from Ellenabad seat, also met party workers

#### Congress asks its boothlevel teams to be vigilant during polling

Congress on Friday reviewed poll preparations and asked its booth-level teams to ensure maximum polling and keep an eye on all the affairs during polling. The grand old party also deployed legal teams in every assembly seat to tackle any instances of poll code violations immediately. Talking to reporters, a senior Congress leader said, "We are confident of forming the next government. We are concerned over the misuse of administrative machinery by the ruling BJP. Hence, we have reviewed the election preparedness and asked all the booth-level teams to focus on the mobilisation of voters on October 5. A heavy polling will go in our favour."

"We have also deployed teams of lawyers in all the assembly seats to immediately tackle any instances of violation of the model poll code by any of the rival parties. These lawyers will immediately take up the cases with the district magistrates, who will act as chief election officers," he said. The party insiders further said the

#### Farmer activists intensified their efforts to rally opposition against ruling

On the eve of the polls, farmer activists intensified their efforts to rally opposition against the ruling BJP, citing issues from the death of young farmer Shubhkaran to the use of force during the 2020-21 farm law protests and the February 2024 Dilli Chalo' agitation. Mandeep Nathwan, president of the Pagd Sambhal Jatta Kisan Sangharsh Samiti, also issued a video message accusing the BJP of being responsible for the deaths of 750 farmers during the 2020-21 protests. He said the BJP passed laws designed to suppress agitators, urging farmers to vote against the ruling party.

Meanwhile, the Haryana

BJP has downplayed the impact of the farmer protests, arguing that the issues have been resolved. Chief Minister Navab Singh Saini said the BJP has introduced policies beneficial to farmers, unlike the Congress, which he claimed left farmers without proper compensation for crop damage. Saini insisted that despite opposition propaganda, farmers recognise the positive steps taken by the BJP, such as direct payments for crop purchases. BJP spokesperson Sanjay Sharma dismissed the protests as politically driven, blaming Punjab's AAP government, and highlighting the state's commitment to buying 24 crops

BJP ramps up preparations for Punjab

MONIKA MALIK - CHANDIGARH

As Punjab braces for bye-elections in key constituencies, the Punjab unit of Bharatiya Janata Party (BJP) is intensifying its campaign efforts across Gidderbaha, Barnala, Chabbewal, and Dera Baba Nanak assembly constituencies. The BJP, aiming to make significant inroads in these assembly constituencies, has formed dedicated teams of in-charges, co-in-charges, and mandal coordinators to boost grassroots-level operations. The intensive mobilization comes at a time when the state unit is navigating internal uncertainty, as state president Sunil Jakhar has reportedly offered to step down, casting a shadow over the party's leadership ahead of the polls.

Despite the leadership flux, BJP's state secretary Sunil on Friday announced that seasoned leaders will lead the campaign efforts. Former MP Avinash Rai Khanna, former Minister Manoranjan Kalia, former state president Shwait Malik and . Pathankot MLA Ashwani Sharma have been appointed as in-charges of Gidderbaha, Barnala, Chabbewal, and Dera Baba Nanak respectively, with their teams carefully structured to ensure efficient coordination across the four constituencies.

At the heart of the BJP's efforts is strengthening its organizational framework. In all 18 mandals of these four constituencies, the party has appointed coordinators and co-coordinators, a strategy aimed at ensuring seamless communication between the leadership and grassroots workers. These teams will focus on mobilizing voters, Aadmi Party (AAP) and the Congress.

Former Minister Rana Gurmeet Singh Sodhi, former MLA Harjot Singh Kamal, former MLA Saroop Chand Singla, and Inder Iqbal Singh Atwal will manage Gidderbaha's key mandals. In Barnala, Jagdeep Singh Nakai and Mangat Rai Bansal will oversee operations, while Shwait Malik's team in Chabbewal includes experienced coordinators such as KD Bhandari and Jangi Lal Mahajan. In Dera Baba Nanak Ashwani Sharma's efforts will be bolstered by leaders like Ashwani Sekri and Fatehjung

The upcoming by elections are pivotal for the BJP as it seeks to gain a foothold in a state where it has historically struggled to secure significant electoral success. These byelections - triggered by the resignation of sitting MLAs, representing the AAP and Congress, who won the 2024 parliamentary elections - represent a key opportunity for the BJP to expand its influence in Punjab, especially following its split with the Shiromani Akali Dal (SAD).

These seats, which span

key agricultural and border regions, are seen as politically sensitive. Gidderbaha and Dera Baba Nanak, in particular, have been focal points for debates on cross-border smuggling and drug trafficking, making these bypolls critical not only for electoral gains but also for shaping future policies in the region. The BJP's strategy revolves

around engaging local communities and addressing region-specific concerns, par-

drug abuse, unemployment, and farmer welfare. These issues are likely to dominate the campaign narrative as the party seeks to counter the ruling AAP and the Congress in these constituencies. The BJP hopes to capitalize on the ongoing discontent with the State Government's handling of agricultural policies and the drug crisis, which has deeply affected Punjab's border districts.

However, as the BJP gears up for these crucial by elections, it faces a significant internal challenge with Jakhar reportedly distancing himself from the party's activities. Jakhar, a former Congress stalwart, was instrumental in bringing the BJP a broader base after the fallout of the farmers' protests. Yet, his strained relationship with the central leadership has led to speculation about his future in the party. Jakhar has reportedly expressed dissatisfaction over being sidelined in important decisions related to Punjab, and sources suggest he may step down from his post

Jakhar's absence from party meetings has raised eyebrows, particularly as the BJP prepares for these high-stakes byelections. His potential departure could weaken the party's already fragile standing in the State, where it is struggling to establish a stronghold against AAP's rising influence. Reports indicate that Jakhar has voiced his frustration to the central leadership, including Prime Minister Narendra Modi and Union Home Minister Amit Shah, about the lack of attention given to Punjab's critical border issues. The central BJP, however, has yet to make any formal announcements regarding Jakhar's role or his poten-

Chandigarh: Punjab Government has committed to ensure sufficient storage space during the ongoing paddy procurement season. In a significant move, the Food Corporation of India (FCI) plans to shift 15 Lakh Metric Tonnes (LMT) of rice out of Punjab by the end of October. This operation will involve 20 trains, three containers, and smaller trucks, as announced by Punjab's Food, Civil Supplies and Consumer Affairs Minister Lal Chand Kataruchak. Kataruchak on Friday elaborated that by December 31, 2024, nearly 40 LMT of rice will be transported from the state godowns, addressing current storage constraints. This strategic decision comes amid Punjab's efforts to manage the overwhelming influx of paddy in government godowns. In addition to transferring stock, the State has begun constructing new godowns through Public Private Partnerships (PPP) to meet longterm storage needs. By March next year, the state aims to create an additional 90 LMT of storage capacity, ensur-

Day was the school band and parade followed by OS celebri-Punjab Police busts international drug syndicate using jackets to smuggle narcotics PNS CHANDIGARH/SAS NAGAR SAS Nagar Police dismantled an international drug syndicate employing innovative methods to smuggle nar-

cotics into Punjab. The operation culminated in the arrest of two operatives who were using jackets to conceal heroin. The state Director General of Police (DGP) Gaurav Yadav on Friday announced the successful operation, stating that the police recovered three half-sleeve jackets, each containing 500 grams of totaling heroin,

kilograms. The arrested individuals have been identified as Sukhdeep Singh alias Raja, a resident of Bhana in Faridkot; and Krishan, hailing from Ajaib in Rohtak. In addition to the drugs, police seized their white Hyundai Aura (HR 12 AT 7091), which they were using to transport narcotics disguised as a taxi.

Yadav revealed that preliminary investigations have uncovered connections between the arrested duo and an Afghan national based in Delhi, suggesting links to international drug cartels. "These drug consignments were bought from an Afghan national based in Delhi, exposing their network with their clever tactics of hiding heroin in jackets to evade detection," said the DGP.

of the syndicate — hiding heroin in jackets — indicate a high level of sophistication aimed at evading law enforcement. The investigation revealed that Sukhdeep and Krishan had smuggled four separate consignments of heroin over the past two months in collusion with a notorious drug smuggler from Kotkapura, Lakhwinder Singh.

Lakhwinder Singh, who is currently evading arrest, is believed to be the mastermind behind this drug trafficking network, having previously faced at least 10 cases under the Narcotic Drugs and Psychotropic Substances (NDPS) Act. The recent consignment of 10 kilograms of heroin was reportedly 2024, has been registered acquired in mid-September, under sections 21 and 29 of intended for distribution in Moga. The police are actively pursuing leads to apprehend Lakhwinder Singh and further dismantle this extensive drug network.

DIG Ropar Range, Nilambari Jagdale, provided insights into the operation, detailing how the police acted on a reliable tip-off regarding the two suspects traveling

### **How secular is India?**

As India grapples with internal strife and external criticism, the debate surrounding its commitment to secularism intensifies

India, a nation characterised by its rich tapestry of religious diversity, has long championed the values of secularism and pluralism. However, the landscape of religious I freedom in the country has come under scrutiny, particularly with the recent designation by the US Commission on International Religious Freedom (USCIRF) of India as a "Country of Particular Concern." This designation has ignited a contentious debate, leading to a sharp rebuke from the Indian government, which labeled the USCIRF a "biased organisation with a political agenda." In its 2024 report, the USCIRF highlighted alarming trends regarding religious freedom in India. The commission reported instances of violence against individuals based on their religious identity, citing cases of killings, beatings and lynchings carried out by vigilante groups. It also noted the arbitrary arrests of religious leaders and the demolition of homes and places of worship, characterising these actions as severe violations of religious freedom. The report further pointed to changes

in India's legal framework that, according to the USCIRF, target and disenfranchise religious minorities. These changes include the controversial Citizenship Amendment Act (CAA) and the implementation of a uniform civil code. Such measures, the USCIRF argues, contribute to a climate of fear and marginalisation for non-Hindu communities. In response to the USCIRF's assertions, the Indian Ministry of External Affairs firmly rejected the report. Spokesperson Randhir Jaiswal described the commission's narrative as a "motivated" misrepresentation of facts aimed at maligning India's image on the global stage. The ministry's statement emphasised that the USCIRF's reporting is unsci-

entific and driven by an agenda that fails to reflect the realities of India's democracy. It is true that no external agency or country has right to give us lessons in religious freedom and tolerance as we have practiced it since ancient times. Moreover, they have skeletons in their own cupboard which they would better take care first. The trigger happy policemen in the US don't think twice before shooting a black guy for not pulling over his car. But having said that it is time for us to reflect and introspect. To be fair, religious freedom has eroded in the recent years. There have been lynching incidents and that is not a made up thing. We may say that they are isolated incidents but they are enough to send a message to the community. Moreover, the attacks on churches and other religious places have been reported from across the country all this while the police looked the other way or just took mild action. It is time to ensure one and all that India is safe as it has been for ages for people of all religions and castes. And India as a State does not discriminate people for the religion they practice or food they eat. The concerns raised by the USCIRF may be exaggerated and they may make isolated incidents look mainstream but the government must maintain zero tolerance for such incidents so that no outside agency dare raise a pointing figure at us.

# NATO's eastward march threatens Asian stability

For Asia, aligning with NATO's expansionist policies risks destabilising the region and eroding cultural values of peace and coexistence

ATO's expansion into Asia poses a monumental danger that threatens not only regional stability but also the core values of peace and coexistence that many Asian countries uphold. The recent change in NATO leader-ship, with Mark Rutte taking the helm, may suggest a potential for new strategies, but the underlying policies and militaristic attitudes of the alliance remain unchanged. The illusion of progress is merely that—an illusion—while NATO's intentions to maintain a prolonged battlefield in Ukraine serve as a reflection of its true objectives. As observed, the US weapons sales surged dramatically in 2023, reaching a record total of \$238 billion as the demand for arms skyrocketed due to the ongoing conflict. Profiting from the sale of weapons on one hand and exploiting the suffering of unarmed civilians across Europe and West Asia is becoming increasingly reprehensible. This reflects a strategic mindset where war is not an unfortunate circumstance but an industry. This is, however, not a new phenomenon. This is how we "civilisations" behave. The history of military alliances has consistently illustrated a paradoxical truth: nations often proclaim peace while simultaneously preparing

for war and engaging in it. The recent rise of Japan's Prime Minister Shigeru Ishiba, who has advocated for an 'Asian NATO,' is nothing but a sign of a looming storm ahead. Ishiba's call for deeper ties among Asian nations and the establishment of a NATO-like grouping echoes sentiments that prioritise militarisation over diplomacy. This vision stands in stark contrast to the scepticism expressed by India's External Affairs Minister S Jaishankar, who highlighted India's unique historical position and its reluctance to embrace the treaty alliances that such a framework would entail. Ishiba's proposition to station Japanese troops on the US soil and share control of nuclear weapons nighlights the extreme lengths to which some leaders are willing to go in the name of security, yet it has not

limitations of this vision. While NATO presents itself as a bastion of defence, its actions betray a far more sinister agen-The alliance has not only pro-

longed conflicts but has also turned them into battlegrounds for competing ideologies and geopolitical power plays. This relentless devastation not only lays waste to nations but also serves the insatiable appetites of the arms industry, which reaps substantial profits from the chaos of ongoing warfare. Evidence reveals that the US government perceives conflicts as lucrative ventures rather than humanitarian crises. Nations that align themselves with NATO risk becoming collateral damage in a power struggle that has little regard for their sovereignty or cultural identity. The allure of NATO's promises can be enticing, but history teaches us that aligning with powerful military alliances often leads to disastrous outcomes. Karl Marx posited that "history repeats itself, first as tragedy, second as farce." NATO's past interventions, from the Balkans to Afghanistan, and today's Ukraine showcase a pattern of destruction that is all too familiar.

The question remains: will Asia fall into this trap once received significant backing from again, sacrificing its autonomy

for the sake of Western agen-

das? Moreover, the political

ing the historical precedent set before World War I. The belief that increased military presence fosters stability is fundamentally flawed, often leading to insecurity and competition as nations rush to arm themselves against perceived threats. This environment heightens the risk of miscalculations and unintended escalations, with incalculable costs in human lives and economic stability. Additionally, engagement in militaristic alliances under NATO's banner risks placing Asian nations in a moral quagmire, contradicting the region's philosophies that prioritise peace, harmony, and cooperation, as espoused by Confucianism, Hinduism,

years of suffering and the sacrifices of millions, must be protected and promoted, as aligning with NATO may ultimately undermine these cultural values in favour of a destructive path centred on military solutions.

Moreover, the consequences of such an alignment are not limited to immediate military conflicts. Long-term geopolitical ramifications could destabilise the entire region, further entrenching power struggles that lead to conflict. Embracing a militaristic alliance may offer a temporary illusion of security but ultimately leads to self-inflicted wounds-akin to harakiri. The path toward a more peaceful and stable future lies not in militarisation but in diplomacy, cooperation, and mutual respect. Instead of succumbing to the pressures of NATO's warmongering agenda, Asian countries should seek to forge their paths, grounded in their cultural philosophies and values that prioritise harmony and coexistence. The rhetoric of security and defence masks a more insidious agenda one driven by the militaryindustrial complex that thrives on conflict and arms sales. For Asian nations, the choice to align with NATO is a perilous one, iraugnt with the potential for self-destruction.

This can lead to feelings of inadequacy and comparison, as individuals may feel pressure to measure up to the perceived perfection of others. Additionally, the constant stream of information and updates can make it difficult to maintain deep and meaningful connections with

loved ones. Social media can also contribute to the breakdown of relationships. The anonymity and lack of accountability that the internet provides

can create a breeding ground for cyberbullying, harassment and online infidelity. These behaviours can erode trust, damage relationships and have a devastating impact on men-

tal health. Furthermore, the constant pressure to be online and connected can lead to feelings of anxiety and stress. The fear of missing out (FOMO) can drive individuals to spend excessive amounts of time scrolling

through social media feeds,

neglecting their relation-

aspects of their lives. This can lead to feelings of isolation, loneliness and low self-esteem.

The impact of social media on mental health can be particularly severe for young people, who are often heavy users of these platforms. Studies have shown that excessive social media use can be linked to increased rates of depression, anxiety, and even sui-

cidal thoughts. This is in part due to the exposure to negative content, such as cyberbullying ships and other important and hate speech, as well as

the constant comparison to others. On the other hand, social media can also have positive effects on relationships and mental health. It can provide a platform for connecting with like-minded individuals, building supportive communities, and sharing experiences. Social media can also be a valuable tool for staying in touch with friends and family who live far away .To mitigate the negative impacts of social media on relationships and mental health, it is important to

use it mindfully. Set limits on your social media usage, be mindful of the content you share, take breaks from social media, prioritize real-life connections, and seek support if needed.By using social media in a healthy and balanced way, individuals can reap its benefits while minimising its risks.

TEN YEARS OF SWACHH BHARAT

of the first programmes announced by Prime Minister Narendra Modi after he took office in 2014, completes 10 years on October 2. The aim was to equip all households with individual toilets, ensure communities have cluster toilets to eradicate the open defecation system followed in villages, and ensure that schools and anganwadi toilets have waste management systems for both solid waste and liquid waste. To achieve this, the government's assistance was increased from Rs 10000 to Rs 12000 under the SBM scheme. Amazingly, over 10 million toilets have been constructed in rural households in 6 lakh villages till date, benefiting 50 million people, and many of these villages have been designated as open-defecation-free, which is essential for a healthy environment. Before launching SBM, unsafe sanitation caused an estimated 199 million cases of diarrhoea annually, with

3 lakh deaths. Also, a UNICEF report indicates that women in Indian villages feel safer after the installation of toilets in rural households. Also in villages declared ODF, the risk of groundwater contamination due to human waste has been reduced a lot. Though villages benefitted a lot due to the Swachh Bharat Mission, a survey has emphasised the urgent need for action against plastic pollution and air pollution in rural and urban lands. Motivating the communities against air pollution and water pollution for adopting a proper sanitation model for a healthy life is the urgent need of the

The unfortunate Lawrence episode points to the chaos the Communist ideology can create in a Communist family by vertically dividing its members into two warring factions.It also shows that even the deceased Communist may not be allowed to rest in peace by the comrades merely to accommodate their political ideology, what may to the grieving family.Once an individual is bitten by the Communist ideology, there is no escape from it, even if she/he desires to change his ideology after being convinced about the utopian Communist goals. ### THE POWER OF INTELLIGENCE, **KNOWLEDGE AND WISDOM**

The human mind should be open to positivity and confidence, to harness intelligence and knowledge

wo thousand five hundred years ago, a prince from the formidable Sakya dynasty, in the quest for reality and truth, discarded his monarchical apparel to adorn ochre robes and went on to become Gautama the monk. He and his mind incessantly wandered till the attainment of truth and insight. Upon attaining enlightenment after performing arduous tapas, Gautama the monk became Buddha the Enlightened and Compassionate One. The mind of the prince turned Bhikkhu had become hollow and empty from within and without realise the pristine verisimilitude. There is also the story of Agnes Gonxha Bojaxhiu.

Once a young evangelist who cast away the traditions and rituals of the Catholic order, only to serve the poor and infirm (particularly those afflicted by leprosy), she was first to become a sister, then Mother Teresa, after rendering selfless yeoman service to the populace of Kolkata (then Calcutta) and humanity at large. She was the fourth Indian to be canonised on September 4, 2016, and was set in stone as St Teresa of Calcutta by Pope Francis for the phenomenal work and the miracles that have taken place. Buddha and St Teresa were not confined to monasteries and convents respectively to live their lives as ascetics in contemplation, meditation, chastity and poverty. Both were prototypical individuals who transcended boundaries to carve a niche for themselves by providing an alternative ideology

Meanwhile, way back in the year 1943 a young Swedish national, Ingvar Kampard set up a company called IKEA. IKEA is an acronym for Ingvar Kampard Elmtaryd at Agunnaryd. Today it is one of the largest readyto-assemble furniture companies in the world. These are individuals, who with their mettlesome moves hold the ordinary traveller's gaze in askance. What differentiates them from the rest of the pack? It is not the opaci-

ty of their thought process, but looking for out-of-the-box solutions. While IKEA sets up furniture in our households, and Jio and WhatsApp provide the necessary seamless connectivity in communication, it is intriguing to decipher the letters of the acronym IKW.

I stand for Intelligence, K signifies Knowledge and W represents Wisdom. Intelligence, Knowledge, and Wisdom need to be harnessed by humans in ample measure to metamorphose our minds and lives to become true achievers. In the wired world today, we are girdled with far superior technology in comparison to a few decades ago and are surrounded by a plethora of gizmos at our disposal. The product and service should necessarily be flexible, adaptable, and positively meant for the public good. Only in such a scenario will the longevity of the article in question be

Siddhartha with his superior intelligence grasped that he was encumbered by misery and suffering; he gained knowledge through the various techniques of pranayama and meditation and ultimately wisdom dawned on him in the form of enlightenment. Today a seeker without living in the monastic order, living like any ordinary individual could attain and experience bliss and enlightenment by practising the technique of

Similarly, in the Art of Living, through the regular practice of the Sudarshan Kriya, a seeker can live in the present moment by banishing antipathetic thoughts. St. Teresa of Kolkata too possessed enormous intelligence, knowledge, and wisdom to establish the order of the Missionaries of Charity to serve the distressed sections of humanity. The human mind should be developed into a sacred place, which is malleable to embrace positivity and confidence to harness the skills of intelligence and knowledge so that the Gods bestow us with a bounty of wisdom.

# Bangladesh's interim Govt's crackdown on secularists

HIRANMAY KARLEKAR

Shahriar Kabir's arrest, amid controversial charges linked to his long-standing fight for secularism reflects Bangladesh fundamentalists working behind the interim government

t is important to examine in some detail Shahriar Kabir's arrest in Dhaka on September 17, 2024, and the subsequent related developments, to understand the forces driving Bangladesh's interim government and direction in which it is taking the country. To start with, one must briefly look at who Kabir is. Author, journalist, film-maker and an internationally respected champion of human rights, secularism and democracy, he has also been at the forefront of the struggle to bring to justice those who had collaborated with the Pakistanis during Bangladesh's liberation war of 1971 and were their accomplices in the perpetration of crimes against humanity including mass murder and rape. He played an important role in the formation of the Ekattorer Ghatak Dalal Nirmul Committee (Committee for the Uprootment of the Killers and Collaborators of Seventy-One) under the leadership of Jahanara Imam whose husband and one of whose sons were savagely killed by the Pakistanis in 1971. Kabir, who subsequently became the organ- INTERNATIONALLY the-scenes effort. sations president, was, at the time of his arrest, president of its advisory committee. Second, one needs to look at the circumstances of his arrest, the charges against him and his accusers and their ties with the interim government. According to a report in The Dhaka Tribune, datelined September 17, 2024 and carried under the heading "Shahriar Kabir arrested in Dhaka," Mufti Harun Izhar Chowdhury, joint secretary of the Hefazat-e-Islam (Hefazat), filed, on August 20, 2024, a complaint with the International Crimes Tribunal (ICT) in Dhaka, against Sheikh Hasina and 23 others—one of them being Kabir--accusing them of crimes against humanity and mass murder in connection with a rally by Hefazat on May 5, 2013.

Further, according to a report in The Daily Star, datelined September 18, 2024, and carried under the heading "Shahriar Kabir placed on 7-day remand", Kabir, along with Mozammel Babu, was produced before the court with a 10-day remand plea by the police, in a case concerning the death of a domestic help, Liza Akter, during the quota

reform protests. The report cited a sub-inspector of police present in the court as saying that Dhaka's Additional Chief Metropolitan Magistrate, Md Sanaullah, passed the orders remanding him custody

for seven days.
A report datelined September 17, 2024, and published in *Prothom Alo* English under the heading, "Shahriar Kabir, Nurul Islam arrested," cited sources as saying that Kabir was an accused in several murder cases filed with Jatrabari and other police stations in Dhaka. According to information available with this writer, seven murder cases have so far been levelled against him besides the one the ICT. The levelling of murder charges against a person of Kabir's stature is not only laughable but suggests, as in a number of other cases, planned and coordinated behind-

As seen, the case before the 1C1 has been filed by Mufti Harun Izhar Chowdhury, joint secretary of the Hefazat-e-Islam (Hefazat) accusing Sheikh Hasina and 23 others, including Kabir, of crimes against humanity and mass murder in connection with a rally by Hefazat on May 5, 2013.

According to a report in The Dhaka Tribune (August 19, 2024) under the heading "Hefazat rally in Shapla Chattar: Odhikar publishes list of killed people," Odhikar, a human rights organisation, published on Monday (August 19) a list of people allegedly killed during the Awami League-led government's crackdown on the Hefazat's rally on May 5-6, 2013, at Shapla Chattar in Dhaka. The list, originally published in 2013, had led to action against the organisation by the Awami League government.

Citing persecution by the latter gov-

report, urged the interim government to immediately form an independent inquiry commission headed by a Supreme Court judge and conduct an impartial investigation into the extrajudicial killings committed on May 5 and 6 of 2013 and bring the perpetrators to justice.

The Dhaka Tribune report did not mention whether Odhikar had

named the perpetrators. As seen above, Hefazat's complaint was filed on August 20, 2024, the day after Odhikar's post. Three questions arise here. What was the number of people killed? Was the rally peace-

What was the context in which it was held and what were the Hefazat's demands? Against the Odhikar's figures, a BBC report, datelined May 6, 2024, stated that at least 27 persons had been killed and dozens hurt in the clashes. It also said that at least two of the dead were policemen. Also, the fact that the police, according to the report, "used stun grenades and rubber bullets" to disperse the protestors indicates an effort to keep the casualties to minimum.

The rally was extremely violent. The report cites one witness as saying that the demonstrators "were very aggressive, some people were throwing stones and the situation quickly become violent... the police had no option but to respond". The wit-ness further told the BBC, "Rioters vandalised markets and set fire to bookshops where the Holy Koran is sold. Thousands of Koran and religious books burned. They also attacked the ruling party's political office and national mosque."

The Hefazat's 13-point programme includes the enactment of an antiblasphemy law with provision for death penalty, exemplary punishment to all bloggers and others who "insult Islam," cancellation of

Bangladesh's policy for women's development, bans on the erection of sculptures in public places, the mixing of men and women in public, candlelight vigils, and "shameless behaviour and dresses," besides declaring Ahmadiyas as "non-Muslims." Nadia Sarmin, covering its rally for ETV, was mercilessly beaten for daring to be a woman "in a men only" event. Grievously injured, she was rescued by other iournalists.

It is not surprising if all this reminds one of the Taliban's agenda, A DW report (May 9, 2013) by Graham Lucas under the heading "Bangladesh Chaos," cited Maulana Habibur Rahman, one of the Hefajat leaders, as boasting of his role in the 1980s Afghan war and his support to the former al Qaeda leader Osama bin Laden.

The interim government has close and warm relations with the Herazat. It has lifted the ban on the organisation. The advisor for religious affairs, AFM Khalid Hossain, is the latter's Nayeb-e-Amir. Chief Advisor Mohammad Yunus had a long and cordial meeting on August 31, 2024, with Mamunul Haque, the organisations head. The Hefazat is holding rallies and processions all over the country.

It is in this context that one has to see Shahriar Kabir's arrest and continued detention, in the teeth of demands for his release by international human rights activists and organisations.

The idea is to send a clear message to people in Bangladesh: do not champion secular democracy and humanism and oppose Islamic fundamentalism. If we can send Shahriar Kabir to jail, we can also send you there.

### Legal tussles over EWS quota violations undermine RTE Act in Delhi

### The violation of the Economically Weaker Section quota under the Right to Education Act continues to plague India's education system

he consistent violation of the Economically Weaker Section (EWS) quota under the Right to Education (RTE) Act has become a troubling issue across India, particularly in major cities like Delhi. Despite clear legal mandates, several private schools continue to deny admissions to children who rightfully qualify under this provision, creating a barrier to equal educational opportunities for underprivileged

communities. Recent legal proceedings in the Delhi High Court have once again brought this issue to the forefront, highlighting the need for stricter enforcement of the law to safeguard the rights of EWS students.A case in point is Master Ayan

Saifi, a 4-year-old son of Shahid who had been allotted a seat through a computerised draw of lots conducted by Delhi's Directorate of Education (DoE) for the academic year 2024-25. But, a leading private Senior Secondary School in Rohini denied the admission and that ensued a legal tussle. Shahid approached to Delhi ensures free and compulso-

High Court with his plight ry education for all children and sought justice. It is misconception that lawyers are reluctant to take up such cases especially for people coming from lower strata of society. Credit goes to a young Delhi lawyer Aman Sharma who took up the case for the kid and secured provisional admission for Ayan Saifi to the school.

The Delhi High Court, under the guidance of Justice Swarana Kanta Sharma, acknowledged the violation of the RTE Act and in an interim order granted provisional admission to the child, emphasising the school's legal obligation to comply with the EWS quota. The RTE Act 2009 is a landmark legislation that aged 6 to 14. One of its key provisions mandates that 25 per cent of seats in private unaided schools be reserved for children from EWS and disadvantaged groups (DG). This quota is intended to promote inclusive education and bridge the gap between socio-economic disparities. However, despite the importance of this provision, its implementation has been met with resistance from many private schools, not only in Delhi but schools across the country.

The refusal of admission highlights the ongoing challenge in enforcing this law. It violates a child's fundamental right to education under Article 21-A of the Constitution. "Denying chil-

dren from economically weaker sections the education they are entitled to, despite a confirmed allotment, not only goes against the spirit of the Right to Education Act but also creates unnecessary hurdles for families already facing socioeconomic challenges," argues

advocate Sharma.

can easily be seen and unfortunately, it has become pervasive across private educational institutions. Ayan's case is not an isolated incident. Private schools in Delhi have repeatedly been found guilty of disregarding the EWS quota, prompting legal battles that seek to restore the rightful educa-

underprivileged children. In March 2024, the Delhi High Court revised the income threshold for EWS admissions, reinforced eligibility criteria and offered clearer guidance. However, schools have continued to evade their responsibilities. A similar ruling in 2022 in the case of Rameshwar Jha v. Principal Richmond Global School set a precedent for punitive action against schools that refuse EWS

The Delhi High Court had then warned that schools could face severe consequences under the Delhi School Education Act, 1973, for non-compliance with the RTE Act. Yet, schools still engage in tactics that delay A pattern of non-compliance tional opportunities for or deny admission to EWS

students, forcing families to take the matter to court. The larger issue at hand is the erosion of trust in educational institutions and the judiciary's role in upholding constitutional rights. Advocate Sharma urges the Directorate of Education (DoE) and the judiciary to take stringent actions against schools that defy the RTE Act, calling for penalties and stricter enforcement measures. It becomes imperative for

policymakers, educators, and civil society to collaborate in upholding the principles of the RTE Act and to work towards a more inclusive education system. (Author is a senior journal-

### Dockworkers' pause strike until Jan 15

Detroit (AP): Some 45,000 dockworkers at East and Gulf coast ports are returning to work after their union reached a deal to suspend a strike that could have caused shortages and higher prices if it had dragged on.

The International Longshoremen's Association is suspending its three-day strike until Jan 15 to provide time to negotiate a new contract. The union and the US Maritime Alliance, which represents ports and shipping companies, said in a joint statement that they have reached a tentative agreement on wages.

A person briefed on the agreement said the ports sweetened their wage offer from about 50% over six years to 62%. The person didn't want to be identified because the agreement is tentative. Any wage increase would have to be approved by union members as part of the ratification of a final contract.

Talks now turn to the automation of ports, which the unions says will lead to fewer jobs, and other sticking points.

Industry analysts have said that for every day of a port strike it takes four to six days to recover. But they said a short strike of a few days probably wouldn't gum up the sup-

ply chain too badly.
The settlement pushes the strike and any potential shortages past the November presidential election, eliminating a potential liability for Vice President Kamala Harris, the Democratic nominee. It's also a big plus for the Biden-Harris administration, which has billed itself as the most union-friendly in American history. Shortages could have driven up prices and reignited inflation.

The union went on strike early Tuesday after its contract expired in a dispute over pay and the automation of tasks at 36 ports stretching from Maine to Texas. The strike came at the peak of the holiday season at the ports, which handle about half the cargo from ships coming into and out of the United States.

Most retailers had stocked up or shipped items early in anticipation of the strike. "With the grace of God, and the goodwill of neighbours, it's gonna hold," President Joe Biden told reporters Thursday night after the agreement. In a statement later, Biden applauded both sides "for acting patriotically to reopen our ports and ensure the availability of critical supplies for Hurricane Helene recovery and rebuilding".

Biden said that collective bargaining is "critical to building a stronger economy from the middle out and the bottom up".

The union's membership won't need to vote on the temporary suspension of the strike. Until Jan 15, the workers will be covered under the old contract, which expired on

The union had been demanding a 77% raise over six years, plus a complete ban on the use of automation at the ports, which members see as a threat to their iobs. Both sides also have been apart on the issues of pension contributions and the distribution of royalties paid on containers that are moved by workers.

Thomas Köhler, who teaches labour and employment law at ment, according to the person.

Boston College, said the agreement to halt the strike means that the two sides are close to a final deal "I'm sure that if they weren't going anywhere they wouldn't have suspended (the strike)," he said. "They've got wages. They'll work

out the language on automation, and I'm sure that what this really means is it gives the parties time to sit down and get exactly the language they can both live with." Kohler said the surprise end to the strike may catch railroads with cars, engines and crews out of position. But railroads are likely to work quickly to fix that. Just before the strike had begun, the Maritime Alliance said both sides had moved off their original wage offers, a tentative sign of progress. Thursday's deal came after Biden administration officials met with foreign-owned shipping companies before dawn on Zoom, according to a person briefed on the day's events who asked not to be identified because the talks were private. The White House wanted to increase pressure to settle, emphasizing the responsibility to reopen the ports to help with recovery from Hurricane Helene, the person said. Acting Labour Secretary Julie Su told them she could get the union to the bargaining table to extend the contract if the carriers made a higher wage offer. Chief of Staff Jeff Zients told the carriers they had to make an offer by the end of the day so a manmade strike wouldn't worsen a natural disaster, the person said. By midday the Maritime Alliance members agreed to a large increase, bringing about the agree-

### Melania says she supports abortion rights, putting her at odds with GOP

 $M^{
m elania}$  Trump revealed her support for abortion rights on Thursday, ahead of the release of her upcoming memoir, exposing a stark contrast with her husband, Republican presidential nominee Donald Trump, on the crucial election issue.

In a video posted to her X account on Thursday morning, the former first lady defended women's "individual freedoms" to do what they want with defended their bodies — a position at odds with much of the Republican Party and her own husband, who has struggled to find a consistent message on abortion while wedged between anti-abortion supporters within his base and the majority of Americans who support abortion rights.

"Individual freedom is a fundamental principle that I safeguard," Melania Trump said in the video. "Without a doubt, there is no room for compromise when it comes to this essential right that all women possess from birth:

individual freedom. What does 'my body, my choice' really mean? The video appears to confirm excerpt of her self-titled memoir reported by

The Guardian on Wednesday.

Melania Trump has rarely publicly expressed her personal political views and has been largely absent from the campaign trail. But in her memoir, set to be released publicly next Tuesday, she argues that the decision to end a pregnancy should be left to a woman and her doctor, "free from any intervention of pressure from the government", according to published excerpts.

Why should anyone other than the woman herself have the power to determine what she does with her own body?" she wrote, according to The Guardian. "A woman's fundamental right of individual liberty, to her own life, grants her the authority to terminate her pregnancy if she wishes." Melania Trump writes that she has "carried this belief with me throughout my entire adult life".

### Nobel Prizes to be announced next week

Wars, a refugee crisis, famine and artificial intelligence could all be recognised when Nobel Prize announcements begin next week under a shroud of violence. The prize week coincides with the Oct 7 anniversary of the Hamas-led attacks on Ísrael, which began a year of bloodshed and war across the Middle East.

As well as events roiling the war in Sudan and risk of famine there, the ongoing conflict in Ukraine, and his institute's research showing that global military spending is increasing at its fastest pace since World War II.

"It could go to some groups which are making heroic efforts but are marginalised, Smith said. "But the trend is

### US, India Dialogue advances semiconductor, minerals cooperation

**PTI** ■ WASHINGTON

Minister of Commerce and Industry Piyush Goyal and US Commerce Secretary Gina Raimondo held the 6th Commercial Dialogue here on Thursday during which they reviewed the progress made in semiconductors supply chains, innovation handshake, energyindustry network and the Indo-Pacific Economic Framework for Prosperity. A day earlier, the two leaders

signed a new memorandum of understanding (MoU) to expand and diversify critical minerals supply chains, with the aim of leveraging the two countries' complementary strengths to ensure greater resilience in the critical minerals sector. Priority areas of focus include

identifying equipment, services, policies and best practices to facilitate the mutually-beneficial commercial development of the US and Indian critical minerals exploration, extraction, processing and refining, recycling and recovery, a media release said. During the commercial dialogue, Goyal and Raimondo ing efforts to facilitate resilient,

secure and sustainable semicon-

ductor supply chains. Since the signing of the MoU establishing a semiconductor supply chain and an innovation partnership under the framework of the US-India Commercial Dialogue, the US Semiconductor Industry Association and the India Electronics Semiconductor Association have completed their private sector "readiness assessment", launched under the US-India initiative on critical and emerging technology to identify near-term industry opportunities and facilitate longer-term strategic development of complementary semi-

conductor ecosystems. Goyal and Raimondo pledged to continue working under the MoU to facilitate collaboration between US and Indian companies towards mutually-beneficial business opportunities, such as investments, joint ventures and technology partnerships, and

to promote talent and workforce development to benefit both countries, the Department of Commerce said in a statement. The two leaders welcomed the success of the two roundtables convened in San Francisco in November 2023 and in New Delhi in March 2024, bringing the two countries' startup ecosystems closer together and carrying forward their ambitions under the MoU to enhance innovation ecosystems through an innovation handshake under the framework of the US-India Commercial Dialogue.

They praised the work done on the EIN Roundtable organised during the Clean EDĞE and Environmental Technologies Business Development Mission in New Delhi in March. The trade mission brought 12 US companies to India to help grow sustainable and secure clean energy markets and accelerate the adoption of environmental

solutions in India. Views exchanged during the EIN Roundtable helped inform the US-India Strategic Clean Energy Partnership (SCEP) ministerial convened by the US Indian minister of petroleum and natural gas in Washington on September 16, the media release said.

They also commended the significant progress announced at the virtual IPEF ministerial meeting last month, including the work being done to improve supply chain resilience under the IPEF Supply Chain Agreement for the IPEF partners. They highlighted their commitment to collaborate initially in the critical areas of semiconductors, chemicals, critical minerals with a focus on batteries, and potentially healthcare products, as agreed to by the IPEF Supply Chain Council. Goval and Raimondo reviewed other joint efforts that have been made. including under the India-US Strategic Trade Dialogue and the Standards and Conformance Cooperation Program (SCCP) Looking ahead, they discussed several priorities for future collaboration, including critical

# MYSTIC MINIATURES A Journey of Introspection

### BY **TEAM VIVA**

nuj Prasad's solo exhibition, Mystic Miniatures, is an evocative dive into the realms of spiritual reflection, displayed at the India Habitat Centre's Visual Art Gallery. With intricate precision and an ethereal touch, Prasad offers viewers a chance to encounter mysticism in a way that feels personal rather than grandiose.

As visitors enter the gallery, they are immediately transported into the artist's inner world, where the 150 artworks in ink, watercolour and oil invite a deeper exploration of self. Each piece, though small in scale, possesses a monumental capacity to provoke thought and contemplation. The exhibition showcases Prasad's ability to distill complex ideas into minute details, encouraging the viewer to engage intimately with each artwork.

At first glance, the intricate lines and vibrant colours create a sense of overwhelming complexity. However, as one spends time with the pieces, the seemingly chaotic forms begin to reveal hidden patterns and meanings. This slow unfolding mirrors the process of self-reflection, where confusion gradually gives way to clarity. The exhibition invites viewers to embark on a journey of discovery, probing the hidden meanings and symbolism work into each piece. The tactile nature of *Prasad's* work enhances this experience, allowing visitors to connect with the depth and intricacy of his artistry on a personal level.

Prasad's connection to mysticism is evident in his exploration of spiritual themes through art. He describes mysticism as a natural instinct and each piece reflects this

belief. The artworks exude a quiet spirituality, inviting viewers into a dialogue rather than demanding their attention. The miniature scale of the works compels intimacy, urging visitors to lean in and engage, promoting a sense of stillness that feels almost radical in today's fastpaced world.

Nature serves as a significant influence in *Prasad's* artistic practice. His use of organic shapes and textures reveals a deep reverence for the reflecting environment, an understanding of the interconnectedness of all living

things. This appreciation for the natural world is evident in every stroke, as Prasad captures the minutiae of life with a deft hand. The handmade textures of his paintings further emphasise this connection, inviting viewers to consider the beauty in the smallest details.

The titles of Prasad's artworks add another layer of meaning, prompting viewers to engage with the themes presented. Names such as "Soul Gateway," "Duality," and "3 Layer Orbit" hint at deeper spiritual explorations, while "Treasure Hunt" and "Balloon Above the Sky" evoke a sense of adventure and freedom. Other titles like "Net Zero," "Moving Goals," and "Boundary-less" challenge viewers to contemplate concepts of balance, change and the fluidity of existence. Each title serves as an invitation to interpret the work through one's own experiences, making the exhibition a deeply personal journey.

Mystic Miniatures go beyond the

traditional art exhibition; it serves as an invitation to slow down and reflect on the often-overlooked details of life. In a world that constantly demands our attention, Prasad's work acts as an antidote to the fast pace of modern living. His unique artistic vision encourages audiences to immerse themselves in the spiritual and meditative verses present within each piece. By doing so, he reminds us that profound discoveries often lie in the intricate details we may overlook if we do not take the time to look closely. Through Mystic Miniatures, Prasad invites viewers not only to appreciate art but also to engage in a transformative exploration of their inner selves.

### Man United has been revamped by Ratcliffe but it's the same old story for Ten Hag

**AP** ■ MANCHESTER (ENGLAND)

It feels like Groundhog Day for Manchester United and Erik ten Hag.

Another season has hit crisis point after only a few games. Perhaps that's why the United manager was so dismissive of the renewed pressure on him after last week's humbling 3-0 loss to Tottenham.

"Nothing is easy, but this is nothing for me to panic about because I experienced it so often with my teams during seasons that you are facing those problems," he said this week. He is right.

United's record of three losses after six English Premier League games is in keeping with his two previous campaigns at Old Trafford.

In 2022, he lost his opening two and three of the first seven. In 2023 it was even worse, as United lost three of five at the

Defeat against Villa would intensify questions about Ten Hag's position ahead of the October international break, which has traditionally been a time when clubs look to make managerial changes.

managerial changes.

Emery's success at Villa is evidence of what can be achieved in a short period of time. Villa was three points above the relegation zone when he was bired. In his first when he was hired. In his first full season, he led the Midlands club to fourth, eight points ahead of United and qualified for the Champions League. He is yet to deliver silverware, but the trajectory is clearly upward.

United is 13th heading into the weekend, having finished last season in eighth and the previous year third.

Ten Hag kept his job only after an extensive review by United's new hierarchy put in place by minority owner Jim Ratcliffe. But even if he was given a vote of confidence and a one-year extension to his contract, he remains a legacy of a failing operation that Ratcliffe is trying to overhaul since buying a 27.7% stake in the club in February.

What's more, the decision to keep Ten Hag was made before new CEO Omar Berrada and sporting director Dan Ashworth officially took up their positions in the offseason. Both insisted in September the Dutchman had their full backing, but managers are ultimately judged by results on the field and the sight of United fans leaving early and some booing at the end of the Tottenham game highlighted growing dissatisfaction again around the club.

With the lawsuit still going through Belgian courts, the case was referred to the European Court of Iustice for a ruling.

Although the court said FIFA transfer regulations can help maintain a form of stability within professional squads and help guarantee the regularity of competitions, it insisted that in Diarra's case "the rules in question nevertheless seem, subject to verification (by the Belgian court) in a number of respects, to go beyond what is necessary to pursue that objective.

The Diarra case, which is supported by the global players' union FIFPro, went through FIFA judicial bodies before the 2016 election of FIFA president Gianni Infantino, who has made it a priority to modernize transfer market rules.

Concerning competition rules, the court slammed FIFA's rulings for restricting and preventing cross-border competition between European clubs.
"The Court recalls that the

possibility of competing by recruiting trained players plays an essential role in the professional football sector and that rules which place a general restriction on that form of competition, by immutably fixing the distribution of workers between the employers and in cloistering the markets, are similar to a no-poach agreement," it said.
