The precious metal had closed at ₹78,650 per 10 grams in the previous session on Tuesday. Silver also followed the suit and surged ₹1,000 to ₹93,500 per kg due to fresh buying from industrial units and coin makers. On Tuesday, it had finished at ₹92,500 per kg. Meanwhile, gold of 99.5 per cent purity jumped ₹250 to hit a fresh record high of ₹78,500 per 10 grams against the previous close of ₹78,250 per 10 grams. The All India Sarafa Association attributed the rise in gold prices due to strong demand by local jewellers. Besides, the decline in equity markets also aided the rally in the yellow metal as investors moved towards the safe haven assets like gold. In futures trade on the Multi Commodity Exchange (MCX), gold contracts for December delivery climbed ₹268 or 0.35 per cent to ₹76,628 per 10 grams. PTI ISLAMABAD

Delivering a thinly veiled message to Pakistan from its soil, External Affairs Minister S Jaishankar on Wednesday said activities across borders characterised by the "three evils" of terrorism, extremism and separatism are unlikely to encourage trade, energy flows and connectivity.

In his address at a conclave of Shanghai Cooperation Organisation (SCO) chaired by Pakistan Prime Minister Shehbaz Sharif, Jaishankar asserted that trade and connectivity initiatives must recognise territorial integrity and sovereignty and it is essential to have an "honest conversation" on the lack of trust.

Jaishankar spoke immediately after Sharif's inaugural address

PTI at the 23rd meeting of the Council of the Heads of Government (CHG) of the Member States of the SCO attended among others by Chinese Premier Li Qiang. His remarks came amid the lingering military standoff between Indian and Chinese troops in eastern Ladakh and concerns over China's increasing military muscle-flexing in the Indian Ocean and other strategic waters.

"If activities across borders are characterised by terrorism, extremism and separatism, they are hardly likely to encourage trade, energy flows, connectivity and people-to-people exchanges in parallel," the exter-

The ₹150 per quintal hike in wheat support price is significant ahead of elections in states like Maharashtra, Jharkhand and Delhi. Rabi marketing season begins from April 2025. Mustard saw a hike of ₹300, bringing its MSP to ₹5,950 per quintal, while the MSP for Gram/Chana was increased by ₹210 bringing the new rate to ₹5,650 per quintal.

The higher MSP for mustard and chana is expected to provide farmers with better returns and encourage more cultivation of this oilseed, which is crucial for India's pulses and edible oil supply. Mustard is widely grown in states like Rajasthan, Haryana, and Madhya Pradesh while chana is widely consumed by a larger part of the population.

Traffic jams on the Ring Road go round and round... Severe congestions on routes along, Ashram, Sarai Kale Khan, Majnu Ka Tila, Hanuman Setu, Rajghat

BY SANJAY RAI

The traffic on Ring Road is anything but a smooth circle, if anything it resembles a 'jalebi' with two wheelers, autos and even rickshaws crossing lanes in a bid to get ahead in the bumper-tobumper traffic on the circular road. From Majnu Ka Tila to Hanuman Temple these jams are making the drivers sweat in their vehicles. There is a severe traffic jam on both sides of this route from Majnu Ka Tila to Hanuman Setu. This adds to the problems of the drivers coming to Majnu Ka Tila from Rajghat side, and those coming to Hanuman Setu from Majnu Ka Tila side.

On Tuesdays, there is a severe traffic jam on both sides in front of Hanuman temple. All efforts to reduce this jam have failed. Recently, traffic signals have been installed at the end of Hanuman Mandir Setu by Delhi Traffic Police. But this has not resulted in much improvement right now.

After the inauguration of Ashram Flyover, and Ashram Flyover Extension, people were expecting some relief from the jam, but due to the bottleneck near Sarai Kale Khan on the Ring Road, the mess remains.

As soon as one descends from the Ashram flyover to the Ring Road, the traffic jams begin, due to which it takes more than halfan-hour for people to cover the

Ranjan Dimri/Pioneer

distance of about half a kilometre to Sarai Kale Khan. This is due to the ongoing construction work of the rapid rail at Sarai Kale Khan.

Meanwhile, traffic jams continue on six roads of outer Delhi. Even emergency vehicles, ambulances and fire engines also get stuck in this jam. At the same time, due to the bottle neck near Haiderpur Badli Mod on Outer Ring Road, the traffic of sixlanes gets reduced to four lanes. The jam here is due to the narrow railway bridge. Vehicles coming without stopping from elevated road from the Pitampura get stuck in traffic as soon as they reach here. Several meetings have also been

held between the Public Works Department (PWD) and Railways. According to PWD sources the width of this bridge can be increased soon if mutual consent is reached.

Due to the construction work of Outer Ring Road Metro, there are traffic jams from Prashant Vihar to Rohini Jail Mod. it takes about 30 to 40 minutes to cover three kilometres in, whereas earlier it used to take five to seven minutes.

Vehicles coming from KN Katju route are stuck in traffic jams as soon as they reach the outer ring road. E-rickshaws and other vehicles parked haphazardly below Rithala metro station, add to the mess.

Gram Panchayat Elections in Pb records 77 pc voter turnout

PNS CHANDIGARH

Punjab witnessed a significant 77 percent voter turnout in the 2024 Gram Panchayat elections, held on Sunday, showcasing a strong participation from rural voters despite incidents of violence in certain districts. According to the data provided by the State Election Commissioner Raj Kamal Chaudhuri, the election process saw enthusiastic voter engagement across the state, with Mansa leading at an impressive 83.27 percent polling percentage, while Tarn Taran remained at the bottom with 64.40 percent.

Chaudhuri highlighted that the polling percentages across various districts reflected a wide range of participation, with districts like Bathinda (79.43 percent), Fatehgarh Sahib (78.47 percent), and Fazilka (82.31 percent) also recording high voter turnout. However, in urban centers like Jalandhar (66.30 percent) and Ludhiana (67.1 percent), participation was relatively lower. Despite these variations, the overall voter engagement was considered a success, as the election ensured the selection of 9,398 Panchayat leaders across the

State. The day was not without its challenges, as pockets of vio-lence and disturbances were reported. In Tarn Taran and Patiala, incidents of firing left

clashes involving stone-pelting were reported, resulting in injuries to a sub-inspector and several voters. In Barnala, a police officer tragically lost his life while on duty, and in Ialandhar, a teacher passed away during the election process.

Despite these setbacks, the elections proceeded smoothly in most areas, reflecting the strength of grassroots democracy in the State. Punjab's rural electorate turned up in large numbers, defying fears and asserting their democratic rights. Notably, AAP-backed candidates reportedly made significant gains, winning in more than half of the Panchayats, indicating a shift in local political dynamics. With districts like Sangrur

(79.45 percent), Pathankot (79.20 percent), and Ropar (77 percent) registering robust turnouts, the elections were marked by intense competition, but largely peaceful voting was observed in the majority of the constituencies.

The election outcome is expected to shape the governance of rural areas in Punjab, bringing new faces and renewed energy to the state's grassroots administration. Warring Claims Cong

PPCC president Amarinder Singh Raja Warring expressed his pride in the Congress's performance while condemning the ruling Aam Aadmi Party (AAP) for alleged attempts to manipulate the

However, he emphasized that these attempts failed as the people of Punjab stood firm, electing Congress-backed candidates in a majority of the state's villages. "The people of Punjab have sent a powerful message today," said Warring. 'Despite AAP's relentless

manipulation and misuse of power, Congress has emerged victorious, winning the confidence of the people in over half the villages.

Warring pointed out that the results reflect not only Congress's hard work but also the public's disillusionment with AAP's governance. "For the past two and a half years, AAP has deceived the people of Punjab with hollow promises and poor administration," he remarked. "Their attempt to interfere in these elections

democracy, but the people have made it clear: they reject AAP's failed governance and have placed their trust in Congress.

He further underscored that the Panchayat elections are a preview of the upcoming by-elections and the 2027 Vidhan Sabha elections, predicting that this trend of Congress victories will continue. "The Panchayat elections are just the beginning. This success, combined with our achievements in the Lok Sabha elections, proves that the people of Punjab recognize the Congress party as the true representative of their aspirations."

Highlighting the Congress's role in addressing key issues like farmer protests, unemployment, and healthcare, Warring added, "The Congress party has stood with the people, raising our voice against the injustices of this government. The overwhelming support we've received in these elections is a testament to that." Warring vowed to safe-

guard Punjab's democracy from any further interference by AAP. "Bhagwant Mann's government has been shown the door. Congress will continue to work for the progress and prosperity of Punjab, ensuring that the democratic rights of the people are protected. This victory is only the start of a brighter future for our shows their lack of respect for state?

Punjab mandis to Shut Indefinitely: Arhtiyas Protest Slow Lifting

MONIKA MALIK 🔳 CHANDIGARH

Punjab's mandis (grain mar-kets) have been shut down indefinitely as the state's arhtiyas (commission agents) on Wednesday expressed their mounting anger towards the government. The decision to close the markets comes amid growing frustration over the slow lifting of paddy, shortage of gunny bags (bardana), and the alleged mistreatment and arrest of Federation of Arhtiyas Association Punjab's president Vijay Kalra by the police.

The protest is being led by commission agents across the state, with major grain markets, including Asia's largest grain market in Khanna, joining the strike.

The protest has drawn attention to the ongoing challenges faced by Punjab's arhtiyas in the midst of the paddy procurement season. Harbans Singh Rosha, president of the Arhtiya Association at Khanna Grain Market, voiced deep dissatisfaction with the current situation, highlighting the difficulties caused by the Central Government's policies.

Rosha pointed out that the Central Government has set a moisture limit of 17 percent for paddy procurement. However, due to the widespread use of combine harvesters, which often increase the moisture content by two to three percent, the paddy moisture level generally ranges from 19 to 22 percent.

were more controlled, but the use of modern machinery and variable weather conditions have contributed to this challenge. "Despite repeated requests to relax the moisture norms, the Government has turned a deaf ear to our concerns. This, combined with a shortage of storage space, has exacerbated the situation, leading to delays in lifting the paddy from markets," said Rosha. He emphasized that the arhtiyas will not reopen the grain markets until the pace of lifting improves. The protest has gained momentum with arhtiyas from various districts joining the cause. In Sirhind, a crucial meeting of the commission agents was held, where Federation of Arhtiyas Association Punjab vice president

Sadhu Ram Bhattamajra condemned the actions of the police in Makkhu.

Bhattamajra said that their Union president Vijay Kalra was subjected to harassment and misbehaviour by the police, which led to his arrest. Bhattamajra warned that unless strict action is taken against the responsible police officers, the grain markets in Punjab will remain closed indefinitely.

"The entire arhtiya community stands united in protest," said Bhattamaira. "We are not just fighting for better procurement terms but also demanding justice for the way our leader was treated." He further stated that a del

egation of the state federation would head to Makkhu for a

In the past, when paddy was hand-harvested, moisture levels meeting to decide the next course of action.

In addition to the slow pace of lifting, the shortage of gunny bags has added to the troubles faced by the arhtiyas. Commission agents in Samrala, led by Union president Alamdeep Singh Malmajra, voiced their frustration over this issue, stating that the inefficiencies in the system have left them with no option but to protest. "We are grappling with both the lifting issues and the bardana shortage. Additionally, we stand firmly against the unjust arrest of our state president," he said.

The protest by Punjab's commission agents has put the government under significant pressure, as the indefinite closure of grain markets is expected to severely impact the procurement process during the crucial paddy season.

Farmers to Make All Toll Plazas in Punjab Free on today

In a bold escalation of their protests, the Bharatiya Kisan Union (Ekta-Ugrahan) on Wednesday announced that all toll plazas across Punjab will be made free on Thursday (October 17). The decision comes as part of the ongoing agitation against the failure of the State and Central Governments to ensure smooth procurement of paddy on Minimum Support Price (MSP).

Furthermore, on October 18, farmers plan to stage sit-ins outside the homes of prominent

leaders from the Bharatiya Janata Party (BJP) and the Aam Aadmi Party (AAP), including BJP leader Arvind Khanna, former Union Minister Preneet Kaur, and all AAP Ministers and legislators. The protests have been sparked by what farmers see as the mishandling of the paddy procurement process, with leaders accusing both the Central and Punjab Governments of failing to address their grievances. The farmers have vowed to keep the protests running day and night until their demands are met, marking another wave of farmerled movements in the state that has been at the forefront of agri-

cultural protests. Farmer leader and BKU Ekta-Ugrahan president Joginder Singh Ugrahan and general secretary Sukhdev Singh Kokrikalan said that the five-member state leadership team of the BKU Ugrahan has taken the decision to intensify the protests. "The agitation will continue non-stop, day and night, with our farmer brothers and labourers leading the charge. We will not rest until our demands are taken seriously by the authorities," said Ugrahan.

The farmers' key demand is the uninterrupted procurement of paddy at MSP, a critical issue given the state's reliance on agriculture. However, they have also raised several other demands related to farmer welfare and agricultural policies, which they argue have been ignored by both the BIP-led central government and the AAP-led Punjab gov-

ernment.

-PAPER WITH PASSION-

Election time

The elections in the two states, along with by-elections, will provide a clear snapshot of the public sentiment

t is election time once again. The last round of elections in 2024 would be held in November. The Election Commission has announced that Assembly elections in Maharashtra and Jharkhand will begin on November 13. Jharkhand will go to the polls in two phases, on November 13 and 20, while Maharashtra will hold a single-phase election on November 20. The votes for both states will be counted on November 23. Additionally, dates for several Lok Sabha by-elections, including in Wayanad, Kerala, where a bypoll is needed after Rahul Gandhi vacated the seat, have been announced. The Assembly elections in Maharashtra and Jharkhand are critical for both the ruling and the Opposition parties, as they serve as key battlegrounds to gauge their standing. In Maharashtra, the Bharatiya Janata Party (BJP) faces a formidable challenge from the Maha Vikas Aghadi (MVA) coalition, comprising the Shiv Sena (UBT), the Nationalist Congress Party (NCP) and the Congress.

The MVA aims to capitalise on public dissatisfaction over issues like economic distress and governance failures while projecting a united front despite internal tensions.

In Jharkhand, the contest is equally poised, with the incumbent Jharkhand Mukti Morcha (JMM)-Congress alliance seeking to fend off the BJP's challenge. The ruling coalition is banking on Chief Minister Hemant Soren's popularity and social welfare schemes to retain power. However, the BJP is expected to emphasise issues like law and order and tribal rights to swing the vote in its favour. Apart from the Assembly polls, by-elections will be con-

ducted on November 13 for four Assembly seats in Punjab-Dera Baba Nanak, Chabbewal (SC), Gidderbaha, and Barnala. These bypolls are seen as indicators of the prevailing political sentiment in the regions, potentially setting the tone for broader electoral battles. In addition, the by-election for the Wayanad Lok Sabha seat in Kerala presents another crucial contest. Speculation is rife that Priyanka Gandhi Vadra may make her electoral debut from this constituency, adding a significant dimension to the Congress's campaign strategy. Elections in India are not only a period of heightened activity for political parties but also a monumental task for the Election Commission and government machinery. Conducting elections in the country is no small feat, as ensuring a peaceful, free and fair process presents significant challenge. The upcoming assembly elections in Maharashtra and Jharkhand, along with the bypolls, will serve as critical indicators of India's evolving political dynamics. As the states prepare for high-stakes battles, various political scenarios could unfold, influenced by factors like coalition strategies, regional issues and leadership challenges. But ultimately it would be the unpredictable and elusive voters who would decide the fate of the political parties.

Haryana setback exposes cracks in INDIA Bloc

he Grand Old Congress Party faces criticism from its INDIA coalition partners for mishandling the recent Haryana Assembly polls, allowing the BJP to win for a third time despite ten years of anti-incumbency. Most exit polls had predicted a clear win for the Congress, but the BJP secured 48 out of 90 seats, a victory even the BJP itself was surprised by. A win in Haryana would have boosted the Congress resurgence story. However, Congress lost this fifth Assembly election recently due to internal conflicts, adding to its previous losses in Punjab, Uttarakhand, Madhya Pradesh and Chhattisgarh. It is uncertain whether the partners will be united in fighting against the BJP. Questions like whether an alliance with AAP would have favoured Congress to win in the Haryana polls are being debat-ed. Secondly, the defeat would impact the upcoming elections in Maharashtra and Jharkhand. The immediate impact of the Haryana result is likely in seat sharing in the forthcoming Assembly elections in Delhi, Maharashtra and Jharkhand. Thirdly, it is uncertain whether the Congress and AAP will have an alliance. The AAP has already said it will go solo. The INDIA bloc performed well in the 2004 Lok Sabha polls due to its adaptability and compro-mise. The main aim of the Coalition was to give a one-toone fight with the BJP and not split the anti-BJP votes. The Coalition put irritable issues on the back burner and managed to work well. They functioned with the sole aim of defeating the BJP and, to a certain extent, succeeded. The BJP majority was reduced, and the government had to be formed with the help of JD (U) and TDP.

The Harvana defeat has altered the situation within the Coalition, with the INDIA bloc getting an edge over the Congress. The partners would probably deal with a slightly more restrained and sobered Congress. No one has said so far that the INDIA bloc is finished. the Congress, the Shiv Sena

On the contrary, Samajwadi Party leader Akhilesh Yadav's statement a day after the defeat indicated that the alliance with Congress would continue. Akhilesh said, "I want to say that the INDIA bloc will be there. The UP and Congress alliance will remain intact..." The Aam Admi Party has said it will go THE COALITION WAS solo in the Delhi Assembly poll, while it allied with the Congress in the Lok Sabha polls three months ago. Congress won no seat. The other allies criticise Congress for its overconfidence and rigid attitude

toward seat sharing. The resurgent Congress, which had doubled its tally in the Lok Sabha polls, weakened after its Haryana shocker. Most exit polls suggested an astounding win for Congress in Haryana because the BJP faced a 10-year anti-incumbency and dealt with a section of disgruntled people. However, the BJP sprung a surprise and registered its most impressive victory in

(Uddhav) and the Nationalist Congress Party Maharashtra. Congress needs to be more responsive to the seat-sharing formula and Sena's demand for Thackeray to be projected as the CM's face even before the polls. The AAP won no seat in the THE MAIN AIM OF Haryana election but got roughly 1.78 per cent of the votes. TO GIVE A ONE-TO-

It would have undoubtedly added to the INDIA bloc's ONE FIGHT WITH kitty if Congress had allied with AAP. According to Shiv Sena leader Sanjay Raut, the THE BJP AND NOT SPLIT THE Congress ignored the smaller parties and their offers for ANTI-BJP VOTES. collaboration. Leaders from THE COALITION PUT the Trinamool Congress, AAP, Shiv Sena (Uddhav), IRRITABLE National Conference, RJD, Nationalist Congress Party, **ISSUES ON** and others were critical of the THE BACK BURNER Congress for messing up the Haryana polls. Shiv Sena AND MANAGED mouthpiece Saamna said, "No one thought the BJP TO WORK WELL government would be elected in Haryana again. It seems Congress's overconfidence and arrogance of local

KALYANI **Shankar**

The Opposition may not be able to withstand any more shocks. Congress must focus on the 286 seats in a direct fight with the BJP. The 2024 polls proved the Congres' strike rate against the BJP rose to 29 per cent from 8 per cent in 2019. Significantly, the number of seats in which the Congress fought with the BJP was 286, down from 370 in 2014.Congress came to power in 2004 and 2009 because of its cordial relationships with the partners. The onus for keeping the alliance is broadly on the Congress. It must realise that every partner, small or big, is essential. Congress has had introspection sessions, and Panchmadi and Shimla are

Why Indian women deserve support, not judgement

RACHNA LAKHPATI

We must start questioning the unrealistic expectations placed on women and inculcate a culture that promotes shared responsibilities and duties

ndian women are increasingly taking on obliga-Lions that exceed 55 hours per week. They manage to pursue their professional careers while also managing a household-what one may refer to as the "second job." It reveals an unsettling fact about the intimidating pressure on women to perform above their capabilities. Although this problem between job and private life affects women all over the world, it is especially difficult for Indian women due to cultural expectations, societal standards and the long-held conviction that they "must do it all?

The question arises: why is there so much pressure on Indian women to push themselves beyond their breaking point? The answer lies in deeply ingrained gender roles and societal expectations. While strides have been made in women's empowerment, the onus of managing the household and caring for children continues to largely fall on their shoulders, even as they excel in their careers. As more women enter the workforce and pursue professional goals, the expectation

to continue fulfilling traditional roles has not diminished. Instead, it has expanded, creating an unsustainable juggling act.

Are women taken for granted? In many ways, yes. The concept that women are born to balance this act manifests itself in the belief that they can easily handle a high-demanding profession while also serving as primary carers, homemakers, and support for the rest of the extended family. However, such an assumption ignores the impact on their physical and mental wellbeing. Each woman's drive is influenced by the societally imposed "superwoman" image, which puts undue pressure on them. And when Should she be judged for

they falter, they are unfairly judged.

But why should society judge women for trying to manage the impossible? The expectations placed on women often come with little recognition or appreciation for the sacrifices they make. Instead, when women struggle or choose to prioritise one aspect of their life over another, they are met with criticism rather than compassion. This is especially true for those who lack a strong support system. If a woman does not have family members willing to share the load of child-rearing or household management, she is left to carry an even heavier burden.

this? Absolutely not. Let us not forget that many Indian women are also teachers, a profession that requires nurturing, patience and a relentless dedication to the betterment of future generations.

These women are shaping young minds in the classroom while simultaneously caring for their own families at home. The least society can do is give them the space and freedom they deserve, without the weight of judgement. It's time we, as a society, recognise that women's worth

is not measured by their ability to "do it all." We must start questioning the unrealistic expectations placed on them and, instead, advocate for a culture that promotes shared responsibilities. Supporting women in their endeavorswhether in their careers or at home-by giving them the freedom to make choices without judgment is essential. Only then can we begin to alleviate the unnecessary pressures that have, for too long, weighed on the shoulders of Indian women. (The author is a motivation-

LETTERS TO THE EDITOR

INDIA-CANADA DIPLOMATIC CRISIS

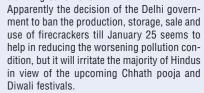

Madam - Apropos to the article 'Souring relations,' on October 16. India is withdrawing its High Commissioner from Canada after Canadian PM Justin Trudeau again accused India of masterminding the June 18, 2023, killing of Khalistani terrorist Hardeep Singh Nijjar outside the Guru Nanak Gurdwara in Surrey, British Columbia. Trudeau's accusation and mischaracterisation of India is based on the American intelligence's raw data supplied to Canada.

But, Sikh militants in both Canada and California are deeply involved in organised crime and gang violence. Perhaps, Trudeau believed the volume and frequency of the accusation could trump the truth. He also may believe that doubling down on Sikh militants might win him votes in key districts. On both points, he is wrong. After Khalistani ter-rorists blew up Air India Flight 182, ignorance can be no excuse about the movement's lethality. Left unchecked, the Khalistani extremists Trudeau's government shelters can be as lethal as Al Qaeda. The movement would be impotent without funding, however. Here, Canadian banks are as complicit as the Arab and Somali hawala agents who ultimately helped move money around prior to Al Qaeda's 1998 East Africa embassy bombings and the September 11, 2001, terror attacks in New York and Washington. Hence, Canada is guilty of

END COMMUNAL VIOLENCE

Madam- It is indeed a matter of concern that communal clashes are again showing their ugly faces. No religion can recommend violent reactions for any reason. But every religion suggests being patient even under utter provocation. Therefore, clash in the name of God and religion is only an organised attempt to disturb peace and take undue advantage of it. But the history is clear with

Firecracker ban insufficient alarming conditions.

The State BJP President Virendra Sachdeva has raised a valid question to the Delhi government that the main reasons for pollution are the burning of stubble in the neighbouring state of Punjab and dust is flying on many broken roads. Delhi Pradesh Congress Committee President Devendra Yadav has argued the bitter truth that the arrangements made to control pollution have been inadequate. It would be better to discourage the use of firecrackers in social and religious events. Yugal Kishore Sharma | Faridabad

People often find themselves endlessly scrolling through content without any specific purpose. We must try to acknowledge that this scrolling addiction can lead to a decrease in cognitive ability leading to various psychological disorders, or sometimes it may also hamper the mental well-being of an individual, resulting in a reduction and a lack of focus and attention while doing any job or specific task. Scrolling might give us temporary pleasure, but at what cost?

We are just making ourselves more vulnerable and slowly becoming a puppet of social media and mobile phones. Setting a limit on scrolling, planning a digital free period, and bringing offline leisure activities into our daily routine can help an individual to alleviate this dangerous addiction. So, don't lose yourself for some momentary pleasure because ultimately health is wealth.

But sharpening the frictions and promoting clashes should be understood by the people as anti-social acts that aim at reaping advantages for the self or the group. If any group plans to promote its cause by promoting differences and violent reactions, it should remember that the results of such activities will be only negative in the long run and the gains, if any, will be purely ephemeral. A family can transform a person into an achiever by right encouragement and support

RAJYOGI BRAHMA KUMAR NIKUNJI

C mall family, Happy family (Chhota Parivar-Sukhi Pariwar) & 'Hum Do Hamare', these two jingles coined by the administration had Changed the family planning scenario in India over the years. But it's so ironic that despite becoming the first country to adopt a national policy for limiting a great Indian proclivity, India is expected to overtake China in 2034. At the time of independence, there were 345 million Indians. The world took 454 years to go from 345 million in 1310 AD to a billion, but India took just 52 years. Looking at the above facts and figures one wonders as to what would be the societal structure in a country that takes the burden of a population of a billion people. Sadly, the situation is guite grim, because today we see fewer families and more individuals living their lives on their terms with an 'I care a damn attitude' which is quite common in the metropolis

Our forefathers were brought up with strong family values, but with passing time and ever-changing scenarios, today those core values have been left behind to adopt new so-called modern values. It's so unfortunate that today very few of us know the importance of living or growing up in a family. One must understand the fact that a family is the first school where the literate and the illiterate have got their first lessons in the art of living and values, traditions, customs and conventions. Also in a family, everyone feels secure and protected. Everyone feels strong because of the strength of the family. Everyone feels that others welcome him or her. Everyone feels a kind of support, sustenance and encourage-

ment. It is, therefore, essential to help and facilitate the growth of good supportive families for foundation as a family tradition rather than promoting an individualistic lifestyle for the sake of the next Gen & future to come

There is some kind of magnetic force that holds the members of a family together. In other words, it is a feeling of closeness and belongingness in the mind of every person and the feeling of acceptance on the part of the whole group that gives it the nomenclature of a family. This feeling of acceptance is always based on the feeling of mutual love, loyalty and trust and also understanding and accommodation. Today we see that families are splitting up.

Certain values like mutual affection, love & genuine caring that make a family work are vanishing because everyone wants to live an independent life without any kind of family interference. However, if the younger ones continue to give regard to the elders and the elders continue to give love to the younger ones, then the family life will continue to be undisturbed and everyone will act responsibly. But, if each one gives up their responsibility and the feeling of concern for others, then cracks would appear and get deeper. Hence to preserve the family structure & tradition, one needs to have tolerance, sobriety & humility because family is very essential to civilised life, be it a spiritual family or the society as a family or of nations. Hence we should consider family as a place where we can work for physical, mental, moral and spiritual growth and can create an environment where others also can grow. A family can change a person into a great leader, disciplinarian, soldier, criminal or scholar by encouraging or discouraging, supporting or condemning certain positive or negative traits in him.

Stubble burning crisis needs practical solutions

analys s 07

Without swift and sustained efforts, northern India would face yet another year of deteriorating air quality, leaving millions to grapple with bad air quality

he Supreme Court has taken a strong stance against the Commission for Air Quality Management (CAQM) for its failure to control stubble burning, a major contributor to air pollution in Delhi-NCR. The court's rebuke, delivered during a hearing on October 3, emphasised the need for effective ground-level interventions and questioned why the Commission had not implemented any provisions of the rele-vant Act to curb pollution from crop residue burning. Stubble burning, especially in the northern states of Punjab, Haryana and Uttar Pradesh, has been a major environmental challenge for years. Farmers often resort to burning crop residue after harvesting paddy and wheat due to the increasing mechanisation of farming, the use of combined harvesters, a shortage of labour, and rising labour costs. This practice, prevalent in October and November following the paddy harvest, results in the release of lar amounts of particulate matter into the atmosphere, contributing to the hazardous air quality in Delhi-NCR. The Supreme Court's criticism of the CAQM reflects a broader frustration over the Commission's inability to effectivelv tackle this issue. Despite being set up three years ago to address pollution in the National Capital Region and surrounding areas, the CAQM has been criticised for its slow pace and lack of tangible outcomes. The court particularly highlighted that the Commission meets only once every three months, a frequency deemed inadequate for addressing a recurring crisis like stubble burning. Moreover, the Commission has issued only 82 directives since its inception, a number that the court described as insufficient to deal with the scale of the problem. A significant concern raised by the Supreme Court is the lack of adequate staffing within the pollution control boards of Delhi-NCR and other affected states, including Uttar Pradesh. The

court ordered that these vacant posts be filled by April 30, 2025, to improve monitoring and enforcement capabilities. Effective staffing is critical for implementing measures on the ground, particularly when deal-ing with farmers who rely on burning crop residue as a quick and cost-effective way to clear their fields.

Despite repeated interventions from both the National Green Tribunal (NGT) and the Supreme Court, stubble burning incidents continue to surge. Last year alone, more than 33,000 incidents of stubble burning were recorded in Punjab, even after explicit instructions to engage with farmers to explore alternatives. The lack of a coordinated effort between the state governments and the CAQM has only exacer-MECHANISATION bated the pollution crisis during

material for the CBG process. In this way, stubble has shifted from being a burden to becoming a valuable asset in Uttar Pradesh's rural economy. As of last year, Uttar Pradesh led the country in CBG production, with ten oper-ational plants. Currently, 24 CBG units are active, and another 93 are under construction. The state aims to have more than 100 CBG plants operational soon, a goal endorsed by Union Petroleum and Natural Gas Minister Hardeep Singh Puri. During a March 2024 announcement, he highlighted the state's plan to double its bio-coal and biodiesel production by 2025. The success of CBG production in Uttar Pradesh has been bolstered by the Uttar Pradesh State Bio-Energy Policy 2022, which offers various incentives for establishing bio-

a crucial role in the energy sector. By reducing the practice of stubble burning, the state is making strides in environmental protection. The Yogi Adityanath government has expressed confidence that the enhanced produc-tion of bio-coal and biodiesel will help reduce air pollution in the region over the next five years. The Supreme Court's critique of the CAQM underscores the urgency of finding a balanced approach to stubble burning that respects both environmental concerns and the practical chal-lenges faced by farmers. Uttar Pradesh's model of converting stubble into a resource could serve as a blueprint for other states grappling with similar issues. However, the broader challenge remains: implementing such solutions at scale requires

We must, therefore, pay attention to the transformation of families because families are the breeding grounds for good or bad human beings. So, let us awaken people to observe family values such as mutual love, trust, acceptance, accommodation, consideration and care for the wellbeing of others, the spirit of adjustment, tolerance, responsibility and cooperation because if these family values flourish, the nation and the whole humankind will flourish too.

the winter months. Turning Stubble into a OF FARMING, THE

Resource: While the focus USE OF remains on the failures of the COMBINED CAQM and the continued challenges in states like Punjab, Uttar HARVESTERS, A Pradesh has emerged as a notable SHORTAGE OF example of how stubble can be managed more sustainably. The LABOUR, AND state has successfully implemented initiatives that transform stub-**RISING LABOUR** ble into an energy resource and natural fertiliser, benefiting both COSTS the environment and the agricultural community.

The key to this transformation has been the establishment of Compressed Biogas (CBG) plants that convert crop residue into energy and high-quality compost. This approach has not only addressed environmental concerns but has also created an additional income stream for farmers, who sell stubble as raw

CNG and CBG units using agricultural waste.

The policy aims to set up CBG plants in every district, providing local solutions for managing stubble while promoting energy self-sufficiency. A significant milestone in this journey was the inauguration of a CBG plant in Dhuriyapar, Gorakhpur, on March 8, 2023, by Union Petroleum Minister Hardeep Singh Puri and Chief Minister Yogi Adityanath. The plant, built for Rs 165 crore, processes 200 metric tonnes of straw, 20 metric tonnes of press mud, and 10 metric tonnes of cattle dung daily. It produces 20 metric tonnes of biogas and 125 metric tonnes of organic manure, contributing to higher agricultural yields while reducing dependency on chemical fertilisers. This initiative allows farmers to diversify their income sources and play

consistent policy support, ade quate resources, and a willingness to engage with farmers directly. The court's directive for the CAQM to improve its approach and for state governments to fill vacant posts by 2025 is a step towards accountability.

Yet, the real test will lie in translating these directives into action before another winter brings the familiar, suffocating haze back to the skies of Delhi-NCR. The question remains whether the CAQM, in partnership with state governments, can adapt and adopt innovative solutions like those seen in UP. Without swift and sustained efforts, the region risks facing another year of deteriorating air quality, leaving millions to grapple with the health consequences of inaction.

Urbanisation and youth: Building a healthier future amid rapid growth

By 2050, with 70 per cent of the global population expected to live in cities, engaging youth in shaping sustainable urban future is more crucial than ever

rbanisation, an engine for economic prosperity and resources, sits at the centre of modernity and impacts health outcomes. With rapid urbanisation, the UN projects that by 2050, 7 of 10 people will live in cities, and the youth will likely be the most dominant population. The future will be forged by the ever-increasing global youth, who are integral to playing a dynamic and revolutionary role in creating and building strong, prosperous, sustainable, and vibrant societies. In recent years, international organisations have emphasised the meaningful involvement of youth as vital to accelerating progress towards the SDGs while development continues to grow globally.

These substantial regional disparities affecting urban youth's

Israel strikes southern suburbs of Beirut for the first time in nearly a week

sraeli jets struck the southern súburbs of Beirut early Wednesday for the first time in six days, Lebanese state media reported. The casualty count was not yet clear.

The attack comes just one day after caretaker Prime Minister Najib Mikati said the United States government gave him some assurances of Israel easing its strikes in the Lebanese capital.

Israel says it is striking Hezbollah assets in the suburbs, where the militant group has a strong presence, but it is also a busy residential and commercial area. The Israeli military said the Wednesday strike hit a weapons warehouse under a residential building.

The Israeli military posted an evacuation warning on the X platform saying it is target-ing a building in the Haret Hreik neighborhood. An Associated Press photogra-pher who witnessed the strikes said there were three in the area. The first strike was documented less than an hour after the notice.

Hezbollah began firing rockets into Israel on Oct. 8 in solidarity with the Palestinian militant group Hamas, following their surprise attack on southern Israel. A year of low-level fighting escalated

Zelenskyy's 'victory plan' includes big hurdle for West **'NATO membership for Ukraine'**

AP 📕 KYIV

Ukrainian President Volodymyr Zelenskyy said Wednesday his plan to win his country's fight against Russia's invasion could bring peace next year, but it contains a step that some crucial Western allies have so far refused to countenance: inviting Ukraine to join NATO before the war ends.

"If we start moving according to this victory plan now, it may be possible to end the war no later than next year," Zelenskyy told his country's parliament.

He has recently been trying to win approval for the plan from Western partners, who so far have stopped short of publicly voicing their support for it. The first point in Zelenskyy's five-

point plan that was presented in a speech to the Verkhovna Rada, Ukraine's parliament, is perhaps the most ambitious and the most likely to make Western allies balk: letting Ukraine into NATO while the fighting continues.

Zelenskyy said granting Ukraine membership in the alliance would be a "testament of (allies') determination" to support Ukraine. It may, however, be too ambitious a step.

At least 100 killed as gasoline tanker **explodes in Nigeria**

AP ABUJA

More than 100 people have been killed and 50 others injured after a gasoline tanker overturned in Nigeria and sparked an explosion as dozens of people rushed to the vehi-cle to scoop up the fuel, police said Wednesday. The explosion occurred past midnight in Jigawa state's Majiya town after the tanker driver lost control of the vehicle while

Deadly tanker accidents are common in Nigeria, Africa's most populous country, where traffic regulations are not strictly enforced in many places and there is a lack of alternatives such as an efficient railway system to transport cargo.

It is also common for people to salvage fuel after such acci dents, especially with Nigeria's soaring fuel prices.

Residents who heard about the latest accident rushed to the scene and were scooping up fuel, "sparking a massive inferno that killed 94 people on the spot," Adam said.

Videos that appeared to be from the scene showed a massive fire stretching across the entire area, with what appeared to be bodies littered at the scene.

Mexican president acknowledges killings of 3 civilians by military

AP MEXICO CITY

Mexico's new president acknowledged Tuesday that three civilians including a child died in two shootouts involving the military last week in a violent border city. President Claudia Sheinbaum

said a soldier was killed in one of the shootouts, as well as two adults and an 8-year-old girl. She said the events on Friday and Saturday are under investigation. But Sheinbaum gave no sign of backing away from the outsized role that she and her predecessor have given to the armed forces. The events in Nuevo Laredo, across the border from Laredo, Texas, started Friday when a nurse, her husband and son found themselves on a road where soldiers were pursuing suspects' vehicles. The husband, Víctor Carrillo Martínez, told local media there was a confrontation and his wife died in the crossfire. Sheinbaum said the soldier was

apparently killed in an exchange behavior by any member of the of gunfire "It had to do with criminals who guard or the army, or any official,

she said. "It is very important to say that Nuevo Laredo is where criminal groups have carried out the most attacks on the army and the National Guard." The city has long been in the grip of the Northeast Cartel, an offshoot of the old Zetas gang. The second incident in Nuevo

Laredo happened Saturday, when the 8-year-old and her grandmother were driving to a store and were caught in the middle of a pursuit by soldiers or National Guard officers.

The grandmother told reporters that a military vehicle was pursuing an SUV and her car got stuck between them and the military opened fire.

The Human Rights Commission of Nuevo Laredo said a young man's tortured body was found nearby in a truck that the army and National Guard had been pursuing. Sheinbaum confirmed the two deaths, saying the shoot-ings had involved the militarized National Guard. "In case there has been any mis-

opened fire on an army vehicle," it will be punished," she said. The Defense Department, which controls the National Guard, said it had no immediate com

ment on the shootings. Last week, the army was involved in another shooting that killed six migrants and wounded 10. In the incident near Tapachula, close to the border with Guatemala. sol diers claimed they heard "detonations" and opened fire on a truck carrying migrants from Egypt, Nepal, Cuba, India, Pakistan and El Salvador.

The dead included an 11-yearold Egyptian girl. The area is often used by migrant smugglers, but warring drug cartels also operate in the region.

Former president Andrés Manuel López Öbrador, who left office Sept. 30, gave the military an unprecedentedly wide role in public life and law enforcement. He created the militarized Guard and used the combined forces as the country's main law enforcement agencies, supplanting olice. But critics say the military is not

trained to do civilian law enforce ment work.

Hong Kong cuts liquor tax in effort to reignite its nightlife industry

AP HONG KONG

Hong Kong's leader announced a cut to liquor tax Wednesday as the Asian financial hub hopes to revive its reputation as a travel destination with a vibrant nightlife and dining scene.

After fulfilling Beijing's longstanding imperative to enact a homegrown national security law, Chief Executive John Lee now faces challenges with economic competitiveness against regional rivals like Singapore, Japan, and mainland Chinese metropolises.

Changes in residents' lifestyles and a wave of middle-class emigration during the COVID-19 pandomic here 1 19 pandemic have dampened local demand. Many residents now prefer to spend their weekends in mainland China, attracted by its lower prices and a wider variety of entertainment options. Visitors from the mainland are also spending less in the city than before.

Vacant shops are commonly seen in the city's most popular shopping districts, and rev-

enue at the city's bars were down about 28% in the first half of 2024 from the same period in 2019, preliminary official data showed.

In his annual policy address, Lee said the duty rate for liquor with an import price of more than 200 Hong Kong dollars (about \$26) would be slashed from 100% to 10% for the portion above that price starting Wednesday. He hoped the policy would foster the logistics, storage, tourism and high-end dining industries. The government previously told lawmakers that after wine duties were abolished in 2008. imports jumped 80% in a year and the city welcomed hundreds of new wine-related businesses.

Lee, a former security chief handpicked by Beijing to lead Hong Kong, pushed through the new security law in March. Critics fear the law will further curtail the civil liberties promised to the former British colony when it returned to Chinese rule in 1997.

That law follows similar nation-al legislation Beijing imposed al legislation beijing imposed in 2020 to quell huge anti-gov-ernment protests. Since that law took effect, many of the city's leading activists have been prosecuted, forced into self-exile or silenced. The Hong Kong government said the security laws are necessary for

the city's stability. But in the wake of these dramatic political changes, many middle-class families and young professionals have emigrated to Britain, Canada, Taiwan and the United States.

To attract more wealthy migrants, Lee also revised a scheme that awards residency to applicants who invest a minimum of 30 million Hong Kong dollars (\$3.9 million) in certain types of assets. Starting Wednesday, purchases of homes valued at 50 million Hong Kong dollars (\$6.4 million) or more can be counted for up to a third of the requirement, he said.

Senior US official warns of N Korean nuclear threats AP SEOUL

US Deputy Secretary of State Kurt Campbell said on Wednesday that Washington and its allies are "alarmed" by North Korea's nuclear and missile threats as well as its increasing military support for Russia's war in Ukraine, but said he couldn't confirm Ukrainian claims that Pyongyang was also sending soldiers to fight for Moscow. Campbell spoke with reporters following discussions with South

Korean and Japanese counterparts on reinvigorating an international pressure campaign against North Korea, which faltered in recent years amid a deepening divide at the UN Security Council.

Earlier on Wednesday, Washington, Seoul and Tokyo announced plans with eight Western governments to launch a new multinational team to monitor the enforcement of sanctions against North Korea. Russia in March vetoed a UN res-

Ukrainian President Volodymyr Zelenskyy has claimed that North Korea is sending military personnel to help Russia's war effort without providing details. Ukrainian media reported earlier this month that six North Koreans were among those killed after a Ukrainian missile strike on October 3.

North Korea has also been making increasingly provocative threats against rival South Korea, including accusing the South of infiltrating drones to drop anti-North Korean propaganda leaflets over Pyongyang and threatening to attack the South if it happens again.

North Korea also on Tuesday blew up the northern sections of unused road and rail routes that once linked it with South Korea. in a choreographed demolition aimed at demonstrating its growing anger with South Koreas conservative government.

TRAI chief highlights balanced satcom spectrum consultation

PTI NEW DELHI

As battlelines are being drawn over the Adrawn over the modalities of allocating satcom spectrum, TRAI Chairman Anil Kumar Lahoti Wednesday said on consultation process is currently on and that the telecom regulator will consider all inputs put before taking a considered view.

The regulator's comments came as Starlink CEO Elon Musk and Indian tycoons are locked in a standoff over satellite spectrum. Jio recently sought a revision

of a consultation paper on recommending norms for "terms and conditions for the assignment of spectrum for certain satellite based commercial Communications services". "We have received reference

from the Telecom Department and we have initiated consultation process in response to reference that has been received from DoT and it covers issue that have been referred to TRAI by the DoT... The consultation process is on, we will consider all inputs and views that are received during consultation process and we will come out

with considered our recommendations," TRAI Chairman Anil Kumar Lahoti told reporters on the sidelines of IMC.

Asked about the demand by Reliance Jio that the TRAI consultation paper be revised to ensure a level playing field between terrestrial and satellite players, TRAI satellite players, TRAI chairman said, "different stakeholders raise different demands on the consultation process, and we consider all these viewpoints and inputs and take a considered view.

World's richest man Elon Musk has taken on Indian billionaires Mukesh Ambani and Sunil Bharti Mittal over the allocation of spectrum used in wireless communication using satellites, calling their demand for the auction of

such airwaves "unprecedented". While Ambani's Reliance Jio has been vocal about the need

to allocate such spectrum through an auction to give a fastest-growing level-playing field to legacy operators who buy airwaves and set up infrastructure like telecom towers, Mittal on Tuesday articulated the need for satellite companies harboring any urban

ambitions to buy spectrum as not auctioned.

Scindia said the Telecom Act telecom companies do. Starlink is of 2023 passed in December demanding administrative allotment of licences in line has put the matter in 'Schedule 1', which means that for satcom spectrum will with the global trend, as it be allocated administratively. looks to tap into the world's "... Spectrum does not come mobile telephony and internet market. This has found some without a cost. What that cost is and what the formula backing in Telecom Minister of that cost is going to be, will not be decided by you or me ... Jyotiraditya Scindia, who said on Tuesday that such airwaves It will be decided by Trai... will be given out through administrative allocation and And there is a paper that has already been circulated by

Trai, and we have a regulatory authority for telecom, and that regulatory authority has been empowered by the constitution to decide what that administrative pricing is going to be," he had said. The minister had said that he is very confident that Trai will come up with the best pricing that should be adopted, provided that it is being given in an administrative manner. "Satellite spectrum across the world is allocated administratively. So, India is not doing anything different from the rest of the world. Conversely, if you do decide to auction it then you would be doing something, which is different from the rest of the world." the minister said. world," the minister said.

Pointing out that satellite spectrum is shared airwaves, Scindia said, "If the spectrum is shared then how can you price it individually". Musk first termed the

demand made by Jio last week for shunning sector regulator Trai's consultation paper on satellite broadband being allocated and not auctioned as "unprecedented", and then asked if it was "too much trouble" to allow Starlink to provide internet services in Îndia.

India reiterates opposition to China's Belt and Road Initiative

PTI ISLAMABAD

India on Wednesday once again refused to endorse China's ambitious 'One Belt Road' initiative, One becoming the only country in the Shanghai Cooperation Organisation (SCO) not to support the controversial connectivity project.

joint A joint communique unveiled at the end of the SCO's Council of Heads of Government conclave hosted by Islamabad said Russia, Belarus, Iran, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan and Uzbekistan reaffirmed their support for the Chinese connectivity initiative.

It said the countries noted ongoing work on the implementation of the project, including efforts to link the Eurasian Economic Union with the One Road One Initiative (OBOR). India has been refusing to endorse OBOR in previous

SCO conclaves as well. India has been severely critical of the OBOR, previously known as the Belt and Road Initiative (BRI), as the project includes the socalled China-Pakistan Economic Corridor (CPEC) that passes through Pakistanoccupied Kashmir.

There has been growing global criticism against the OBOR as a number of countries are reeling under the burden of debt while implementing projects relating to the initiative.

In his address at the SCO conclave, External Affairs Minister S Jaishankar said, "debt is a serious concern" but did not elaborate further. "Collaborative connectivity can create new efficiencies,

he said. The joint communique said the heads of delegations noted the proposal to create a Eurasian 'Greater Partnership' with the participation of the SCO, Eurasian Economic Union, Association of Southeast Asian Nations as well as other states interested and multilateral associations.

"The heads of delegations, reaffirming their desire to ensure stable economic and social development in the SCO region, noted the importance of implementing SCO the Economic Development Strategy for the period up to 2030 and the programme of multilateral trade and economic cooperation of the SCO

member states," it said. "They stressed the need for coordinated efforts through

the mechanisms of relevant cooperation in order to implement the respective action plans," it added. The SCO conclave was chaired by Pakistan Prime

Minister Shehbaz Sharif. the Besides Jaishankar, conclave was attended by Chi-n-ese Premier Li Qiang, Belarus Prime Minister Golovchenko, Roman PM Kaza-kh Olzhas Bektenov, Russian PM Mikhail Mishustin, Tajik PM Kohir Rasulzoda, Uzbek PM Abdulla Aripov, Kyrgyzstan's Cha-i-rman of Ministers Cabinet Zhaparov Akylbek and Iran's First Vice Pres-ident Mohammad Reza Aref.

Messi, who missed two rounds of the competition in October due to a right ankle injury, played from start to finish on Tuesday in front of raucous fans at the Monumental de Nuñez Stadium, who chanted his name after he opened the scoring in the 19th minute.

Its archrival Brazil, whose coach Dorival Júnior was under pressure earlier this month, got some relief with a convincing performance in a 4-0 home win against Peru.

Argentina remained as leaders of the round-robin competition with 22 points after 10 matches, three points clear of secondplace Colombia, who earlier beat Chile 4-0. Uruguay, which earlier had a goalless draw with Ecuador, and Brazil come next with 16 points.

The Uruguayans are in third position on goal difference. Ecuador and Paraguay follow, with 13 points each, but the Ecuadorians have one more win to take the fifth position. The top six teams in the region will secure automatic berths in the next World Cup. The seventh-place team, currently Bolivia, will play in an international playoff for a spot in the tournament in 2026. Two more rounds of South

American World Cup qualifying will be played in November. MESSI IN STRONG FORM **ON RETURN:** Messi's first goal came after a mistake by a Bolivian defender, who missed a pass and allowed the 37-yearold Messi to run freely and finish unchallenged in front of goalkeeper Billy Viscarra. Messi assisted on Lautaro Martínez's goal in the 42th minute and gave a decisive pass once again in added time on a goal by Julián Alvarez.

Argentina appeared to slow its pace after the break, but scored again with Thiago Almada in the 69th minute. The striker scored from close range after a low cross by Nahuel Molina. Messi's show had two great finishing touch es from the edge of the box, the first in the 84th and the second in the 86th minute.

"We enjoyed this, we are happy seemed low in matches against to be here playing in Argentina," said Messi, who once again refused to say whether he will play in the next World Cup in 2026. "This could be one of the last (matches in front of the Argentinian crowd)." Bolivia, which is seeking to

131001 will be shifted to below mentioned address from or around 18th November 2024

Opposite S M Hindu High School, Jain Bagh Colony, Sonepat, Distt- Sonepat-131001 (Haryana)

As a part of shifting of the branch, the locker safes at the branch too would be physically shifted to the new building. While all possible care would be taken while shifting the locker to the new premises and we do not apprehend any damage to the contents of the locker, it is remotely possible that the lock combination gets disturbed. If you so prefer, you may have your items removed from the locker cabinet before the shifting of the locker and then have them kept back in the locker after the installation at the new premises. Please intimate us of your preference before 14th November 2024. We will then advise you of the exact date of shifting by when you can have the items removed from the locker. If we do not receive any intimation from you before 14th November 2024, it would be presumed that you do not wish to remove the items from the locker cabinet while it is being shifted to the new premises.

Please send your response by e mail to the attention of Sh Yogesh, Sr. Manager, SDM School, Sonepat at bo4061@pnb.co.in with the subject as Shifting of Locker.

We regret the inconvenience being caused to you in this regard and solicit your co-operation to make the shifting exercise smooth. Please revert for any further clarification/ suggestions in this regard.
