Final countdown for AAP

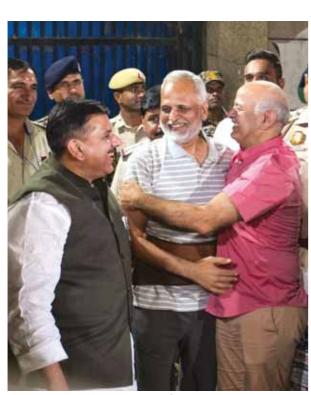

RAJESH KUMAR NEW DELHI

iving a booster dose to Aam Aadmi Party (AAP), a city court on Friday granted bail to Delhi's health minister Satyendar Jain in the Rs 4.81 crore money laundering case, after 18 months in jail. Jain is the fourth senior AAP leader to come out of prison in the last five months.

The party's national convener Arvind Kejriwal, and senior Manish Sisodia and Sanjay Singh had secured bail in the last few months. The AAP leadership is expected to campaign extensively for the Delhi Assembly elections due early next year, to retain the AAP government. The turmoil within the party arising out of the 'liquor gate' scandal forced Kejriwal to hand over the Chief Minister baton to Atishi. Jain and Sisodia were Ministers at the time of going to jail.

Jain's bail comes at a time when the entire AAP leadership is trying to regain the public perceptions about their politics ahead of the assembly polls in Maharashtra and Jharkhand after massive defeats in two states-Haryana and Jammu and Kashmir. After debacle in the Lok Sabha polls in May and assembly polls in Haryana, the performance pathetic and all the candidates forfeited the deposit.

Granting bail to Jain, Special Judge Vishal Gogne of Rouse Avenue Court said: "Considering the delay in trial and long incarceration of 18 months, and the fact that trial will take long to start, let alone conclude, the accused is favourably suited for the relief." The judge granted the relief on a bail bond Rs 50,000 with two sureties of like amount

The court also relied on the August 9 Supreme Court judgement that granted bail to former Delhi deputy chief minister Manish Sisodia in cases linked to the alleged

excise policy scam. Jain was the first AAP leader and Health minister in the Kejriwal government till he arrested by Enforcement Directorate (ED) on May 30, 2022, on the charge of laundering money through four companies allegedly linked to him. He was granted an interim bail a year later, in May 2023, by the Supreme Court on medical grounds. Jain returned behind the bars in March this year, after the

Supreme Court turned down his request for a regular bail. All senior AAP leaders who were jailed on corruption charges, are out on bail. Last month, Kejriwal was granted bail by the Supreme Court in a CBI case linked to the alleged liquor scam. Sisodia was granted bail by the top court in August this year, after spending 17 months in Tihar jail in cases related to the Delhi excise policy case. In April this year, the SC had granted bail to AAP Rajya Sabha MP Sanjay Singh after ED didn't oppose his plea in the Delhi excise policy case.

The moment the judge pronounced the order, Jain's

wife Poonam and daughter Shreya, who were present in the courtroom, broke down. Shreya spoke to media persons later and said Diwali had arrived early for the family. The CBI had initially

registered a case under Sections 13(2) (criminal misconduct by public servant) read with 13(e) (disproportionate assets) of the Prevention of Corruption Act, 1988 against Jain. The case was registered on the allegation that Jain had acquired movable properties in the name of various persons between 2015 and 2017 which he could not satisfactorily account for.

Later, the ED also registered a case and alleged several companies beneficially owned and controlled by him received accommodation entries amounting to Rs 4.81 crore from shell companies against cash transferred to Kolkata-based entry operators through a hawala route.

According to ED, Jain transferred money to Kolkata through the hawala channel and got it back from dummy companies in the form of accommodation entries, even though he could not show the source of the money received. He was earlier granted bail by the trial court in the case registered by CBI in September 2019. He was then granted interim bail by the SC on May 26 last year, which ended on March 18 this year, after the Supreme Court rejected his plea for regular

Supreme Court steps in against Child Marriage

PIONEER NEWS SERVICE NEW DELHI

The Supreme Court on Friday said the Prohibition of Child Marriage Act (PCMA) cannot be stunted by traditions under any personal law and observed marriages involving children violate the free will to choose a life

A Bench comprising Chief Justice of India (CJI) D Y Chandrachud and Justices J B Pardiwala and Manoj Misra further issued a slew of guidelines for the effective implementation of the law on prevention of child marriages in the

The Bench, however, noted the issue of whether the PCMA would prevail over personal laws was pending with the Parliament for consideration. The Centre had urged the apex court to hold the PCMA to prevail over personal laws. The CJI highlighted that a "very extensive" sociological

analysis was made in the judgement. "While the PCMA seeks to prohibit child marriages. It does not stipulate big social malaise of marriages fixed in the minority of a child which also have the effect of violating the rights to choice...It takes away from them, their choice of partner and life paths before they mature and form the ability to assert their agency...," the CJI said.

The court noted that child marriages require an intersectional approach that acknowledges the overlapping vulnerabilities experienced by children, especially girls, from marginalised communities. "Intersectionality involves sectionality involves considering factors like gender, caste, socioeconomic status and geography, which often increase the risks of early marriage" the CJI said.

Preventive strategies should be tailored to the unique needs of various communities besides focusing on addressing the root causes of child marriage, such as poverty, gender, inequality, lack of education, the judgement said. "The PCMA as a social legislation will only succeed through the collective efforts of all stakeholders to address the issue within a broader social framework, which emphasises the need for multi sectoral coordination," it added. According to the SC, the scenario

necessitated the enhancement of reporting mechanisms, expansion of public awareness campaigns and investment in the training and capacity building of law enforcement. "The implementation of these guidelines is to prioritise prevention before protection and protection

before penalisation. We are cognisant of the impact that criminalisation has on families and communities. To ensure effective use of the penal provisions in the PCMA, it is imperative that there is widespread awareness and education about child marriage and the legal consequences of its commission," it said. The SC, however, clarified that it

should not be understood that prosecution of those who commit illegal acts is discouraged. Further, it opined the law enforcement machinery ought to make best efforts to prevent and prohibit child marriage and not solely focus on prosecution. The judgement came on a PIL filed by Society for Enlightenment and Voluntary Action seeking effective implementation of the law to prevent child marriages.

SC recalls 2022 verdict on benami law provisions

PTI ■ NEW DELHI

 $I^{\rm n}$ a significant development, the Supreme Court on Friday recalled its 2022 verdict that had declared as unconstitutional two provisions of the law on prohibition of benami property transactions that restrains such deals and acquisition of properties by authorities.

Allowing the Centre's review of the August 23, 2022 verdict, a Bench Chief Justice of India (CJI) D Y Chandrachud, Justices P S Narasimha and Manoj Misra recalled the judgement delivered by a three-judge Bench headed by former CJI N V Ramana.

In its August 2022 verdict, the top court had then held that Sections 3(2) and 5 of the Prohibition of Benami Property Transactions Act, 1988 being "manifestly arbitrary" were unconstitutional.

While Section 3 of the Act deals with prohibition of benami (a property held by a person through proxies) transactions, Section 5 pertains to property of benami liable to acquisition-. On Friday, the top court agreed with the submissions of Solicitor General Tushar Mehta, who appeared for the Centre, that the validity of these two provisions were not under challenge before the erstwhile Bench.

"In this view of the matter, the review would have to be allowed. It is trite law that challenge to the constitutional validity of a statutory provision can't be adjudicated upon in the absence of a live lis and contest between the parties," said the Bench.

The top court consequently allowed the review petition. It said the civil appeal, on which the August 2022 verdict was delivered, will stand restored to the file for a fresh adjudication before a Bench nominated by the chief justice on the administrative side.

In its August 2022 verdict, the apex court had held that the benami law did not have a retrospective application and the criminal prosecution or confiscation proceedings for transactions entered into prior to when the legislation came

into force. The top court was dealing with a legal question -- whether the 1988 Act, as amended by the Benami Transactions (Prohibition) Amendment Act, 2016

had a prospective effect. The 2022 verdict was delivered on an appeal of the Centre challenging a Calcutta High Court judgement, which held that the amendment made in the 1988 Act in 2016 would be applicable

prospectively The Centre had contended that the 2016 Act would be applicable retrospectively. The benami law was enacted to prohibit such transactions and enforce the right to recover properties held to be "benami". The law punishes a violator with a three-year jail term or

The bustling areas around Chirag Delhi and Mehrauli-Badarpur (MB) road in south Delhi are notorious for perennial heavy traffic congestion, often turning peak hours into a nightmare for commuters. In response to these ongoing challenges, the Delhi Traffic Police has revealed that both immediate and long-term solutions are in the works to alleviate the situation at these key traffic junctions.

At Chirag Delhi intersection, two major carriageways including J B Tito Marg and Lal Bahadur Shastri Marg merge. This road starts from Moolchand flyover and ends under Chirag Delhi while Lal Bahadur Shastri Marg starts from Khanpur T Point and ends under Chirag Delhi flyover.

To provide relief to the commuters, the traffic department has written a letter to Public Works Department (PWD) for widening the IB Tito

Marg near Chirag Delhi flyover to get more space for traffic intending to turn on Outer Ring road help to decongest the traffic. PWD staff has done ground inspection and they will do this work soon," Gupta stated.

For a more permanent solution, the construction of an underpass beneath the Chirag Delhi flyover is under consideration, with the project currently pending approval by the PWD.

Another pain point in the city remains Mehrauli Badarpur road which is 3.5 KM stretch from Karni Singh Shooting range T point up to Khanpur T point and falls under the jurisdiction of Sangam Vihar circle, which witnesses frequent traffic congestion.

hours, manual regulation of signals is carried out to manage the traffic

told The Pioneer that during peak

Additional Commissioner of Police of Traffic Zone 2 Dinesh Gupta flow as efficiently as possible.

However, this intervention often falls short of providing lasting relief to commuters. "During peak hours staff regulate traffic by operating signals manually and clear the traffic as per available space ahead,"

he said.

Presence of heavy vehicles also makes the situation worse. "The frequency of DTC buses is very high since the Ambedkar Nagar bus terminal is also situated at MB

Road near Khanpur and the entry and exit of buses also creates congestion on this road," Gupta said, elaborating on the reasons behind the traffic

An office-goer, who frequently

faces jams while going to work, urged the traffic department to solve the issue and said, "Please address the heavy morning traffic jams from Moolchand towards Chirag Delhi and Pushpa Bhawan. It's causing significant delays for employees heading to work. I get late for work even though I leave on time from my home. Immediate action on traffic management would be highly appreciated!" Although the stretch between 'W'

Point and Chirag Delhi is signalfree, there's only a single pedestrian signal at the Sadiq Nagar cut, which does little to manage the heavy flow of vehicles. The traffic coming from the W Point side accumulates at Chirag Delhi intersection during evening peak hours and creates congestion. The situation will likely be the same since the expected time of completion of this metro work is December 2026.

Ever since the construction of the metro began, the area has become people living on the side of the streets making the situation worse. For a local living near the area, the situation is unimaginable," a resident of Sainik Farms said. Traffic bottlenecks are further

chaotic. Moreover, you will also see

compounded by the bus stand on Lal Bahadur Shastri Marg, where the narrower road width than IB Tito Marg causes significant slowdowns when buses stop, creating a ripple effect of congestion. Busses, pedestrians, cars all jostle

to get into a narrow road resulting in crawling of traffic and bumperto-bumper jams on the roads, as the construction work of Delhi Metro has left only one lane available at some stretches for the movement of traffic, causing major inconvenience to the public. This road is also surrounded by densely populated localities including Sangam vihar, Tigri, Devali, Khanpur, Dakshin puri, Ambedkar Nagar and Madangir.

CM Saini fulfils poll promise of free Haryana CM Saini and newly inducted ministers assume office dialysis for chronic kidney patients

Haryana Chief Minister Nayab Singh Saini on Friday announced all government hospitals in Haryana will offer free dialysis services to chronic kidney patients, fulfill-ing the ruling BJP's first poll

Addressing a press conference after presiding over the first meeting of his cabinet, the chief minister said the state will also implement the Supreme Court's decision empowering states to make sub-classifications within the Scheduled Castes for granting reservation "today itself". Saini said his cabinet has decided to implement the decision of the Supreme Court which held that states are constitutionally empowered to make sub-classifications within the Scheduled Castes for granting reservation. "In the first meeting, our cabinet has decided to implement the decision from today itself,'

The decision will ensure a fair distribution of benefits within the existing reservation system, it said. Currently, there is a 15 per cent reservation for SC and a 7.5 per cent reservation for Scheduled Tribe communities. With this decision, Haryana will be able to allocate specific quotas within this 22.5 per cent reservation to those sub-groups within SCs and STs that have

The Supreme Court on August 1 ruled that a sub-classification First Cabinet Meeting would be permissible within reserved category groups for providing benefits of

affirmative action. Saini, who was sworn in as chief minister for a second time on Thursday, said the people of Haryana defeated the Congress'

However, he believed that

more needs to be done, and

financial support for farmers is

essential for a long-term solu-

narrative of lies and efforts to provoke farmers and the poor by bringing the BJP back to power for a third

time. By big mandate to the BJP, people put their stamp of approval on the policies of Prime Minister Narendra Modi, he said.

The chief minister said all government hospitals in the state will start offering free dial-

patients, he said. "The first file that I signed (after assuming charge) was regarding the decision pertaining to kidney patients. We had also made this promise in the elections. The cost of dialysis is nearly Rs 20,000 to Rs 25,000 per month. Now, the Haryana government will bear the expenses," he added. The chief minister also asked

criminals in the state to mend their ways. "I warn those involved in criminal activities that they should either leave the state or mend their ways," he

On government job recruitments, Saini slammed the previous Congress government, accusing it of treating job distribution as a business. Regarding the Assembly session, he said the Cabinet discussed the matter, and a date would be finalised, post-festive season, within one to two days. Saini reassured the farmers that every grain of their crop would be purchased at the minimum support price (MSP). He further said that the results of the recruitment examination for 24,000 government jobs in the state were declared.

Committed to procure every single grain produced by

Saini said that the state government is committed to pro-

cure every single grain produced by farmers. The Chief Minister said that so far, 30 lakh MT of paddy has arrived in the Mandis, of which 25,55,319 MT have been purchased at the Minimum Support Price (MSP). Furthermore, payments amounting to Rs. 3,056 crores have already been directly credited to the farmers' accounts for the purchase of paddy. Additionally, 13,90,199 MT of paddy have been lifted from the mandis, Saini added.

The Chief Minister said that during the current Kharif season, 3.47 lakh MT of Bajra has arrived in the mandis, of which 3.05 LMT have already been purchased. Furthermore, 1,14,358 MT have been lifted from the mandis. He also informed that Rs. 331 crores have been directly credited to farmers' accounts for the purchase of Bajra.

Responding to a question regarding incidents of stubble burning, the Chief Minister said that there has been a reduction in stubble burning incidents in Haryana. The Supreme Court has also praised the state's farmers on this issue. He said that the State government has been continuously raising awareness among farmers to prevent stubble burning and is providing various subsidized equipment for stubble management to fully

control these incidents. Cong MLAs authorise party high command

The newly inducted Cabinet Ministers of Haryana also took charge of their respective offices in the presence of Chief Minister Saini at the Haryana Civil Secretariat in Chandigarh. The Chief Minister first made Cabinet Minister Anil Vij take charge and congratulated him by presenting a bouquet and sweets.

Vij, while interacting with the media, expressed happiness on the occasion and said the present government will not only run non-stop like the previous two terms but will do so at the "speed of the metro". In response to a question, he said whatever responsibility was given to him in the past, he had fulfilled it with full devotion and will continue to do so in the future as well.

Vij said the result of exams for about 25,000 jobs that has come out is being discussed not only in the state but in the entire country as well. People are writing on social media that youths of their village have got jobs without any recommendation or bribe. He termed jobs being given on merit as a revolution in the country.

While talking to the media, Cabinet Minister Krishan Lal Panwar said, "Our government has fulfilled its promise of providing employment to the youth as soon as it took charge. Tn a charged atmosphere ■marked by escalating tensions, protesting farmers in Punjab, under the banner of the Samyukt Kisan Morcha (SKM), on Friday accepted the invitation of Chief Minister Bhagwant Mann for talks, while refusing to back down from their demand for swift paddy procurement. The farmers, along with rice millers and arhtiyas (commission agents), have made Kisan Bhawan in Chandigarh their center of protest, vowing to stay until their demands are met.

The protest, sparked by delays in paddy procurement at government mandis (grain markets) across the State, had been gaining momentum for days. Farmers, rice millers, and arhtiyas (commission agents) tinue their agitation until they each representing critical stakeholders in the paddy procure-ment process — came together to march towards the Chief Minister's residence in Chandigarh. However, their plans were thwarted early on Friday when Punjab Police detained several prominent farm

Meanwhile, rice millers have refused to mill the paddy, citing various logistical challenges, though they have offered their storage space to the government to help with the procurement backlog. Arhtiyas are demanding that their commission rate be restored to 2.5 percent of the minimum support price (MSP) of paddy, a rate that was capped at Rs 46 per quintal a few years

Govt's Response

In response to the mounting pressure, Punjab Chief Minister Bhagwant Mann extended an invitation for talks to the leaders of the SKM and the protesting associations. However, the Chief Minister was in Delhi for official engagements related to the state's education sector, and the talks were scheduled for the following evening. While the farmers agreed to meet with Mann, they made it clear that they would not leave Chandigarh until concrete actions were taken to address the

procurement delays. "The CM has invited us for

come was clear.

The stand-off has brought to light the deeper tensions brewing within Punjab's agricultural sector. While the government has lifted over 10 percent of the 11.10 lakh tonnes of paddy that reached grain markets by mid-October, farmers argued that this is far from adequate, given that paddy was sown on 32 lakh hectares this year, with an estimated total production of 230 lakh tonnes.

As the protestors hold their ground, the situation remains fluid. With barricades surrounding Kisan Bhawan and police forces on alert, both the protestors and the Government are walking a tightrope. The outcome of the talks between the SKM leaders and Chief Minister is expected to determine the future course of action, with the stakes for Punjab's farmers, millers, and commission agents hanging in the balance.

Punjab Police Unravels Gurpreet Singh Murder Case, Links Amritpal Singh to the Conspiracy

PNS CHANDIGARH

Punjab Police has made a significant breakthrough in the murder case of Gurpreet Singh, the former cashier of the pro-Khalistan outfit 'Waris Punjab De' (WPD), who was shot dead on October 9, 2024, in Faridkot.

The state Director General of Police (DGP) Gaurav Yadav on Friday revealed that the mastermind behind the crime is gangster-turned-terrorist Arshdeep Singh, alias Arsh Dalla. In a further twist, evidence has surfaced implicating Amritpal Singh, the 'jailed' Khalistani sympathizer, Khadoor Sahib MP, and WPD's current head, in the conspiracy.

Gurpreet Singh, also known as 'Hari Nau' or 'Bhodi', was killed while riding his motorcycle back home from a local gurdwara. Tensions had been brewing within WPD after differences arose between Amritpal Singh and Gurpreet following the death of WPD founder Deep Sidhu. Gurpreet had publicly voiced his opposition to Amritpal on social media, which led to threats against him.

DGP Yadav, in a press conference, detailed how the police had meticulously gathered evidence, including extensive analysis of CCTV footage along a 125-km stretch, to trace the movements of the assailants. The police also used mobile tower dumps and advanced big data tools to analyze the digital footprint of those involved. The investigation team, which included officials from Faridkot and the State Special Operations Cell, worked diligently to piece together the various elements of the conspiracy. According to DGP Yadav,

three individuals linked to the reccee (surveillance) module were arrested — Bilal Ahmed alias Fauji, Guramardeep Singh alias Pontu, and Arshdeep Singh alias Jhandu. These individuals, managed by Canada-based handler Karamveer Singh alias Gora, conducted surveillance on

Gurpreet Singh and passed the information to the shooter module. The killers' identities have been established, and the police are actively searching for them, he said.

The involvement of Amritpal Singh came to light during the investigation, with recorded statements suggesting that the murder was carried out at his behest. This revelation has sent shockwaves across Punjab, where the WPD movement has previously attracted controversy. Amritpal Singh's role as the key figure in WPD has already been scrutinized for his controversial actions and rhetoric, but this murder accusation could have far-reaching legal and political consequences.

DGP Yadav emphasized that the murder was part of a larger conspiracy. According to police findings, there were plans to target other individuals as well, and this wider plot is still under investigation. He reassured the public that the the safety and security of the State and will continue to investigate all angles of the case. "Our commitment to mak-

ing Punjab a safe and secure state is unwavering," DGP Yadav said, noting that the police had acted swiftly in this case, using both physical and digital evidence. The DGP stressed that law and order would be maintained, and no person or group would be allowed to disturb Punjab's peace and harmony.

sections of the Bharatiya Nyaya Sanhita (BNS) and the Arms Act, marks another instance of the Punjab Police's ongoing battle against organized crime and terrorism. The involvement of foreign handlers, including those based in Canada, highlights the transnational nature of the conspiracy.

As investigations continue, more arrests are expected, and the police remain focused on uncovering the full scope of this complex crime.

Balancing act

SC upholds Section 6A of Citizenship Act, balancing

humanitarian concerns with indigenous rights of Assamese people

n a landmark judgement the Supreme Court of India has upheld the constitutional validity of Section 6A of the Citizenship Act, 1955. In a 4:1 majority verdict, the bench led by Chief Justice of India D Y Chandrachud endorsed the provisions that grant citizenship to people who migrated from Bangladesh between January 1, 1966, and March 25, 1971. The decision comes amidst long-standing debates over immigration in Assam. Section 6A was introduced in 1985 as part of the Assam Accord, an agreement between the Indian government and Assam's agitating groups to address the issues arising from illegal immigration. Those who arrived after March 25, 1971, are not eligible for citizenship and are considered illegal immigrants under Indian law. The Assam Accord aimed to balance the humanitarian concerns of migrants with the socio-economic and cultural interests of the indigenous Assamese population. The cut-off date of March 25, 1971, corresponds to the beginning of 'Operation Searchlight,'

a military crackdown by the Pakistani Army in then-East Pakistan (now Bangladesh), which triggered a significant influx of refugees into India. In the majority ruling, Chief Justice Chandrachud noted that Section 6A does not violate the fundamental rights guaranteed under Articles 6 and 7 of the Constitution, which pertain to the conferring of citizenship to migrants from East and West Pakistan at the commencement of the Constitution on January 26, 1950. The court held that the legislation sought to address specific historical and demographic realities in Assam, making the separate cut-off date for the state reasonable and justifiable. However, While uphold-

ing the constitutional validity of Section 6A, the Supreme Court expressed concerns over the inadequate implementation of immigration laws in Assam. Indeed the porous borders and incomplete fencing have allowed a continuous influx of migrants, which exacerbates demographic challenges. Besides, existing mechanisms, including the Foreigners' Tribunals, are insufficient for effectively identifying and deporting illegal immigrants. The Supreme Court's decision has far-reaching implications for the socio-political landscape in Assam. The ruling, while affirming the validity of Section 6A, also recognises the concerns of petitioners who argued that cultural and demographic tapestry of Assam has changed by mandating better enforcement of immigration laws. If the directives for stricter border controls and timely identification of illegal immigrants are implemented effectively, it could help address long-standing grievances regarding demographic changes in Assam. On the other hand, striking down Section 6A would have rendered many residents, who have lived in Assam for decades, effectively stateless, leading to potential humanitarian crises. The court's ruling ensures that such individuals retain their citizenship rights, thus preventing large-scale displacements and unrest.

Unveiling Canada's hidden history of injustice

ILANGAMUWA

A contradiction in Canada's identity—championing human rights and multiculturalism while perpetuating deep injustices against its most vulnerable

hanie Wenjack was a 1 2 - y e á r - o l d Anishinaabe boy who attended the Cecilia Jeffrey Residential School in Kenora, Ontario, in the 1960s. Like many Indigenous children, he was forcibly removed from his family and placed in the school, where the goal was to assimilate him into Canadian culture. Chanie was lonely, abused, and homesick. In 1966, he ran away from the school, trying to find his way home—over 600 kilometres away. Chanie set out on foot, without proper clothing or food, and tried to follow a set of railway tracks that he believed would lead him back to his family. After days of walking in the freezing October weather, Chanie died from exposure and hunger. His body was found on October 22, 1966, curled up beside the tracks. He was clutching matches and a frozen lump of sugar in his pocket. He was just a child, lost in a hostile world that had torn him from his family.

This tragic narrative, among hundreds of thousands of similar cases swept under the carpet of history, encapsulates a fundamental contradiction within Canada's national identity—a nation that presents itself as a bastion of multiculturalism, tolerance, and human rights while simultaneously perpetrating profound injustices against its Indigenous peoples. From the brutal implementation of the residential school system to contemporary systemic racism, Canada's historical contradictions are glaring and demand serious examination. The Truth and Reconciliation Commission of Canada (TRC) reported that many children experienced physical, emotional, and sexual abuse while at these schools—a grim testament to a system that was, in its essence, a form of cultural genocide. This system did not simply end with the closing of these schools; the effects are still felt today, manifesting in intergenerational trauma and systemic discrimination against indigenous communities.

As the well-known Canadian writer John Ralston Saul aptly notes, "Canada's story is one of The recent rise in anti-Asian

contradiction; we celebrate diversity while practising exclusion and denying the full citizenship of Indigenous peoples," adding, "the unconscious civilisation is the one in which we have lost our sense of the individual, in which the individual has become a statis-

While Indigenous peoples face systemic discrimination, the Canadian government has also engaged in doublespeak regarding human rights. Canada often positions itself as a global leader in advocating for human rights, yet its track record reveals a different reality. For instance, Canada's participation in international human rights agreements contrasts starkly with its treatment of Indigenous populations. The United Nations has repeatedly criticised Canada for its failure to uphold the rights of Indigenous peoples, pointing to issues such as the lack of access to clean water, adequate housing, and educa-

The disparity between Canada's self-image and the lived experiences of marginalised communities highlights persistent hypocrisy. Systemic discrimination in Canada impacts not only Indigenous communities but also various racialised groups, who encounter significant barriers in employment, education, and nealthcare. This inequitable access reinforces cycles of poverty and marginalisation.

DISCRIMINATION IN CANADA IMPACTS NOT ONLY **INDIGENOUS COMMUNITIES BUT** ALSO VARIOUS **RACIALISED** GROUPS, WHO **ENCOUNTER SIGNIFICANT BARRIERS IN** EMPLOYMENT, **EDUCATION AND**

pervasive nature of racism in Canadian society, with hate crimes against Asian Canadians increasing sharply. This alarming trend high-lights the fragility of Canada's multicultural narrative and reflects a broader pattern of scapegoating marginalised groups, revealing the inade-quacies of government responses that often fail to deliver meaningful action. It is quite unfortunate to see how Canada has become a sanctuary for extremist movements, allowing groups like the Khalistani separatists and Tamil Tiger sympathisers to thrive within its borders. This situation raises alarming questions about the nation's complicity in international terrorism. Critics argue that the Canadian government's leniency towards violent nationalists and separatists not only enables these ideologies but also positions Canada as a breeding ground for extremism that threatens global security. The government's failure to confront these dangerous ideologies casts doubt on its commitment to combating terrorism and upholding

ther exposes the hypocrisy of a government that engages in doublespeak while attempting to deflect attention from its

shortcomings. While Canada positions itself as a supporter of human rights and development, its actions frequently tell a different story. For example, Canadian mining companies operating in Africa have been criticised for their exploitative practices and the environmental degradation they cause.

The extraction of resources often comes at the expense of local communities, whose rights and livelihoods are compromised in the name of profit. This contradiction is starkly illustrated in countries like the Democratic Republic of the Congo (DRC), where Canadian companies have faced allegations of human rights abuses and complicity in violence against local popula-

The quest for justice is not just a collective responsibility but a relentless commitment to truth and accountability. Only then can Canada build a future where dignity is not a privilege but a right for every citizen, thus challenging the very essence of what it means to be Canadian? As Gabor Maté, a well-known Canadian physician and author, states, "the question of who we are is deeply embedded in the culture we are raised in and the stories we tell ourselves."

A call to secure a leadfree future for children

As the world marks the twelfth International Lead Poisoning Prevention Week, the spotlight is on eliminating lead from paints

the world is observing the twelfth International Lead Poisoning Prevention Week (ILPPW) from October 20-26, 2024. This year's theme, "Bright Futures Begin Lead-Free", echoes the grave danger that the presence of lead in paints has on the environment and human health, and more specifically on chil-

Lead, a potent neurotoxin, has long been recognised as a serious public health threat, particularly to children, and pregnant and lactating women. Exposure to lead can cause irreversible damage to the brain and nervous system, leading to cognitive impairment, learning disabilities and developmental delays. It negatively affects children's intellectual ability, attention span and academic performance.

Further lead exposure can have a huge bearing on the economy of the nation. According to a study, childhood lead exposure in lowand middle-income countries resulted in economic losses amounting to \$977 billion annually, representing 1.2 per cent of the global GDP in 2011. According to the World Health Organisation (WHO), there is no known safe level of lead exposure in the human body. The UN agency has classified lead as one of the top ten chemicals of primary public health con-

Efforts are being made globally and nationally to phase out lead from different sources, as it directly and indirectly, harms human health. The phase-out of lead from gasoline has been a remarkable success, but lead in paints remains a key source of lead poisoning, and more so in developing and the least developing countries. ued sale and use of lead paint Nevertheless, lead-based paint in over 100 countries without

is a common source of lead poisoning in children.

They ingest and inhale lead particles even when they are in the safe confines of their homes. Lead paints are more harmful when they deteriorate, releasing dust and flakes that contaminate indoor environments and pose a direct risk to human health, particularly to children.

Many countries have introduced regulations to control or ban the use of lead in paints, but it is still a problem in low- and middle-income countries where such regulations are either absent or poorly enforced. The continbinding legal limits, exacerbates the threat. India has restricted the use of lead up to 90 PPM in household and decorative paints through a regulation, but challenges in implementing the regulations in small and medium-scale industries, persist.

The Global Alliance to Eliminate Lead Paint, formed by WHO and the United Nations Environment Programme (UNEP) in 2009, aims to phase out lead from paints worldwide by 2025. However, considering the current pace of developments, that seems far from being achieved if the movement is not accelerated. This year's theme "Bright future begins lead-free", can perhaps be catalysed as an action-oriented approach to eliminate lead from paints. There is only a year to go, so all stakeholders including government, industries, and civil society must join hands in this global effort to eliminate lead from paints and keep the future genera-

CONGRESS FACES SETBACKS

Madam — The article 'Haryana setback exposes cracks in INDIA Bloc' (October 17) has exposed chinks in the opposition armour. The tussle for the opposition face never settled even before Lok Sabha elections but after the Congress debacle in Jammu and Kashmir and Haryana elections, the severe infighting has surged on the ground. Rahul Gandhi has lost not just credibility in the opposition but even the Congress cadre has a trust deficit in him. All enthusiasm appears lost for the Jharkhand and Maharashtra Assembly elections and bypolls. The blame game on EVMs has already commenced even before poll campaigns.

The allies of the INDIA bloc are marginalising Congress on seat sharing. The Udhav Thakre-led Shiv Sena has completely sacrificed its Hindu ideology and its stand on Article 370 and Veer Savarkar, so Shiv Sena (UBT) relinquished its distinct identity and space in Maharashtra politics. The opposition in the INDIA bloc and other alliances are chasing minority votes as its vote bank leaving Hindus for the BJP. The entire opposition is numbed on terrorism-related killings, illegal waqf claims on government owned properties, temples and their lands, anti-India tirades abroad, insults heaped on Sanatan and our Gods and faiths, Bengal carnage and massacres

of Hindus in Bangladesh. The National Conference boldly gave up Congress in his cabinet for better coordination with the Modi government, certainly for more empowerment of his governance. Haryana's verdict is a big blow to Congress for the fallacy of Rahul Gandhi's typical campaigning based on narratives, hypes and unsubstantiated allegations on the Modi government and the lack of good governance in Congress-ruled states. **Vinod Johri** | *Delhi*

PM MODI'S **ASEAN OUTREACH**

This strong diplomatic push comes as India emphasises ASEAN centrality

KUMARDEEP BANERJEE

rime Minister Narendra Modi's visit to Lao PDR last week to attend the India-ASEAN summit was an important message for allies in the Indo-Pacific region regarding shared interests and common goals. PM Modi laid out a ten-point action agenda plan for upgrading relations with the ASEAN member countries, covering technology cooperation, trade, people-to-people ties, education, health, green energy and a focus on the global south bunch of nations. This comes at a time when External Affairs Minister S Jaishankar visited Pakistan (a first-in-line visit by any Indian External Affairs minister in the past 9 years) to attend the Shanghai Cooperation Organisation (SCO) summit. PM Modi during his inaugural address at the ASEAN India summit mentioned "Ten years ago, I announced India's 'Act East' policy. Over the past decade, this initiative has revitalised the historical ties between India and ASEAN countries, infusing them with renewed energy, direction and momentum. Giving importance to ASEAN centrality, we launched the Indo-Pacific Oceans Initiative in 2019." Clear references were made regarding the Indo-Pacific's centrality for India's foreign policy interests. India has under the current government's foreign policy priorities, kept the Indo-Pacific as a centrepiece. It has joined one of the most significant multilateral platforms, QUAD with the US, Australia and Japan and also entered into an economic partnership framework with the US and several countries in Asia under IPEF (Indo-Pacific Economic Framework).

The QUAD even though not a security alliance is focussed on maintaining a rules-based order in the Indo-Pacific region. India managed to include several crucial pointers inserted in the Chairman HE Mr Sonexay Siphandone's, (also, the Prime Minister of the Lao People's Democratic Republic) statement during the summit. The statement read "We reaffirmed the importance of maintaining and promoting peace, security, stability, safety, and freedom of navigation in and overflight above the South China Sea.

We reaffirmed the need to enhance mutual trust and confidence, exercise self-restraint in the conduct of activities that would complicate or escalate disputes and affect peace and stability and avoid actions that may further complicate the situation. We further reaffirmed the need to pursue peaceful resolution of disputes in accordance with the universally recognised principles of international law, including the 1982 UNC-LOS. We emphasised the importance of self-restraint in the conduct of all activities by claimants and all other states, including those mentioned in the 2002 Declaration on the Conduct of Parties in the South China Sea (DOC) that could further complicate the situation and escalate tensions in the South China Sea.

We underscored the importance of the full and effective implementation of the DOC in its entirety and committed to maintaining and promoting an environment conducive to the negotiations of an effective and substantive Code of Conduct in the South China Sea (COC) that is in accordance with International Law, including the 1982 UNCLOS." Meanwhile as expected India did not engage in any bilateral dialogue with the SCO host country, Pakistan. Relations with Pakistan have been on the edge, for nearly a decade now, with an escalation, when India removed Article 370, regarding a special status for Kashmir. A couple of Pakistan-based terror attacks and India's surgical strike on terrorists on Pakistan soil ensured the relationship has been frosty. Meanwhile, Pakistan's national economy has plummeted in a post-Covid era. The guardian country for Pakistan in the region is India's other real problem, China. However, the binding economic packages China offers, are sure to make Pakistan a colony in the long run. While EAM's visit to Pakistan could be seen as a good goodwill gesture, in the long run, economic bilateral ties and the human bridge between the two nations, would be the only saviour for Pakistan.

Bangladesh reforms: Exaggerated importance HIRANMAY KARLEKAR

As scepticism mounts and electoral timelines remain vague, questions about the interim government's long-term ambitions are becoming harder to ignore

he latest buzzword in Bangladesh is reform. A report by Reuters, datelined August 16, 2024, and carried in the Dhaka Tribune under the heading. "Student protestors plan new party to cement their revolution," quoted Nahid Islam, a coordinator of the Anti-Discrimination Students Movement and an advisor to the interim government, as saying, "The spirit of the movement was to create a new Bangladesh, one where no fascist or autocrat can return," and adding that to ensure that "we need structural reforms, which will definitely take some time." The government, he further said, was not considering calls from the Awami League and BNP to hold fresh polls as

According to a report in The Daily Star, datelined August 18, 2024, and carried under the heading "No option but to such ceed: Yunus," the interim government's chief advisor said, while addressing foreign diplomats during a "Meet and Greet" session at a hotel in Dhaka, that the interim government would hold a free, fair and participatory election as soon as it could complete its mandate to carry out vital reforms in the election commission, judiciary, civil administration, security forces and media. He added that the students wanted meaningful and deep reforms, which would turn Bangladesh into a "real and thriving democracy".

Things have been moving. In his address to the nation on September 11, 2024, Yunus announced the names of the heads of six commissions of reform along with the areas of governance they would address. Thus, Shahdeen Malik would lead the Constitutional Reform Commission; Justice Shah Abu Naim Mominur Rahman, the Judicial Reform Commission; Badiul Alam Majumdar, the Election System Reform Commission; Abdul Muyeed Chowdhury, the Public Administration Reform Commission; Safar Raj Hossain, the Police Administration Reform Commission; and Iftekharuzzaman, the Anti-

Yunus stated in his 32-minute speech that ELECTIONS COULD the commission. the commissions were expected to start their work from October 1 and finish within the next three months. Thereafter, the interim government would, on the basis of their report, organise discussions with major political parties and, in the final stage, hold comprehensive consultations, spread over three to seven days, with representatives of student bodies, civil society, political parties and the government. He added, "This discussion will finalise the outline of the reform plan and provide an idea on how it will be imple-

There was, however, a stumble as early September 18, 2024, when it was announced that the Constitutional Reform Commission was to be headed by Ali Riaz, a Distinguished Professor at Illinois State University in the United States, and not Shahdeen Malik who, one learnt subsequently, had himself opted out, citing his own work load.

Even if the move does not make much of a difference in the commission's work, it indicates inefficiency and thoughtlessness. The interim government should have got Malik's consent before announcing his name as the head of the Constitution Reforms Commission. Besides, work has not been progressing fast enough. A

report in the Dhaka Tribune, datelined October 14, 2024, and carried under the heading "Badiul Alam: Election Reform Commission reviewing laws, regulations," quotes Badiul Alam Majumdar, head of the Constitutional Reform Commission, as saying that laws, regulations, and rules were [being] reviewed as a part of the election review process, "to gain a clear understanding of electoral reforms." The implication is that the commission had yet to get a clear understanding of its task. At this rate, it is unlikely to finish its work within 90 days of starting it. Delay is almost certain to happen because the introduction of the proportional representation sys-tem is being considered. According to Riadul Karim in his piece, "Proportional system scheme in discussion," in Prothom Alo English (updated on October 15, 2024), the proceedings of a a virtual discussion meeting showed that while the BNP opposed the decision and the Awami League's view was not known, both 'eminent personalities" and the other political parties favoured it. Given the BNP's opposition, there is bound to be heated discussions and delays if the Constitutional Reform Commission considers proposing such a change.

Given the difficult and con-

tentious nature of the political and administrative terrains to be covered, progress in the other sectors of reform would also be slow unless the commissions

mend and the members have agreed. Hence, the urgency of the question, when would the elec-tions be held? The urgent need for an answer is sharply underlined by the absence of the announcement of a timeframe, to say nothing of dates, for holding elections to the new Jatiya Sangsad or National Parliament. Continued silence on the matter is bound to raise the question: is the interim government planning to become permanent? Some may regard this as an

unwarranted question. The complete overhaul of the civil administration, foreign ministry, judiciary, police and military under way, is, however, significant in this context. The plea is that these have to be rid of those complic-it in the Sheikh Hasina-led Awami League government's gross human rights violations. Given, however, the very large number of people shunted to sinecures, sacked or compulsori-ly retired before time, the question arises whether all of them were actually guilty, or the interim government is staffing the administration, judiciary, police and military with people who would support its bid to stay indefinitely in power.

The prospect must worry the BNP. With the Awami League being sought to be systematically crippled through murder and large-scale imprisonment, it has every chance of sweeping the par-liamentary elections, which have become due following the dismissal of the former parliament on August 6, 2024. It might also

ask whether the reforms are so important as to make their completion a pre-requisite for holding elections.

The argument, articulated ad nauseum, that reforms are need for holding free and fair elections and preventing the return of an autocrat to power, is ridiculous. If free and fair elections could be held earlier under caretaker governments, these can be held again under a caretaker government whose composition is sanctioned by all or a majority of parties in Bangladesh.

The point needs to be made because the importance of reforms as a means of ensuring a "real and thriving democracy," is highly exaggerated. The impecca-bly democratic constitution of the Weimer Republic could not pre-vent Hitler's ascent to power through the electoral process. No constitutional safeguard can prevent a legally-elected leader becoming a tyrant, or a military coup, or a violent mass-movement forcing the ouster of an existing government, a telling example of which has recently been provided by Bangladesh itself!

The harsh reality is reflected in the sage words of late Justice Learned Hand of the United States who said, "Liberty lies in the hearts of men and women; when it dies there, no constitution, no law, no court can save it; no constitution, no law, no court can do even much to help."

The need for regulatory action on public conduct is imperative

The Delhi High Court's recent decision to suspend the counting of votes for the DUSU elections over public property defacement underscores civic responsibility

⊣he High Court recently halted and deferred the counting of votes for the Delhi University Students' Union (DUSU) elections on the issue of public property defacement. Additionally, the court mandated that Delhi University recover costs incurred in repairing the public property from the candidates and reimburse the civic authorities including the Municipal Corporation of Delhi, government departments, and Delhi Metro. This landmark decision has brought two grave issues to the fore, viz., citizens' ignorant and irresponsible behaviour and the need for regulation by authorities in issues of national interest

Hamas confirms Sinwar's death, vows new phase in war with Israel

amas confirmed Friday that its leader, Yahya Sinwar, was killed by Israeli forces in Gaza, and the militant group reiterated its stance that hostages taken from Israel a year ago will not be released until there is a cease-fire in Gaza and a withdrawal of Israeli

"Those prisoners will not return to you before the end of the aggression on Gaza and the withdrawal from Gaza," said Khalil al-Hayya, who was Sinwar's Qatar-based deputy and headed up the group's delegation during several rounds of cease-fire negotiations mediated by the US, Qatar and Egypt.

In a statement, Hamas heralded Sinwar as a hero who "ascended as a heroic martyr, advancing and not retreating, brandishing his weapon, engaging and confronting the occupation army at the forefront of the ranks." The statement appeared to refer to a video the Israeli military circulated of Sinwar's apparent last

chair in severely damaged building, badly wounded and covered in dust. In the video, the man raises his hand and flings a stick at an approaching Israeli drone.

Sinwar's killing, in what appeared to be a chance front-line encounter with Israeli troops on Wednesday, could shift the dynamics of the Gaza war even as Israel presses its offensive against Hezbollah with ground troops in southern Lebanon and airstrikes in other areas of the country. Hezbollah has fired rockets into Israel nearly every day since the Israel-Hamas war began. Both Hamas and Hezbollah are backed by Iran, which hailed Sinwar as a martyr who can inspire others

in challenging Israel.
Israel has pledged to destroy Hamas politically in Gaza, and killing Sinwar was a top military priority. Photos which were apparently taken by Israeli troops on the scene showed the body of a man who appeared to be him, half-buried in rubble and with a gaping wound in his head.

Israeli Prime Minister Benjamin

Netanyahu said in a speech announcing the killing Thursday night that "our war is not yet

But many, from the governments of Israel's allies to exhausted residents of Gaza, expressed hope that Sinwar's death would pave the way for an end to the war.

In Israel, families of hostages still held in Gaza demanded the Israeli government use Sinwar's killing as a way to restart negotiations to bring home their loved ones. There are about 100 hostages remaining in Gaza, at least 30 of whom Israel says 'We are at an inflection point where

the goals set for the war with Gaza have been achieved, all but the release of the hostages," Ronen Neutra, father of the Israeli-American hostage Omer Neutra, said in a video statement. "Sinwar, who was described as a major obstacle to a deal, is no longer alive." Netanyahu was planning to convene a special meeting Friday to discuss hostage negotiations, an Israeli official with knowledge of the negoti-

ations said. The official spoke on the condition of anonymity to discuss confidential information.

Iran's mission to the United Nations issued a statement honoring Sinwar, emphasizing that he died on the battlefield and not in hiding, unlike the their former enemy Iraqi leader Saddam Hussein, who was hanged

disheveled Saddam Hussein out of an underground hole, he begged them not to kill him despite being armed. Those who regarded Saddam as their model of resistance eventually collapsed," the statement said. "However when Muslims look up to martyr Sinwar standing on the battlefield — in combat attire and out in the open, not in a hideout, facing the enemy - the spirit of resistance will be strengthened."

More than 1 million people on both

sides were killed during the brutal Iran-Iraq war in the 1980s that began when Hussein launched an invasion of Iran.

In Lebanon, the militant Hezbollah group, which has been firing rockets into Israel since the war in Gaza erupted in October last year, issued a statement early Friday saying its fighters have used new types of precision-guided missiles and explosive drones against Israel for the first time in recent days.

Hezbollah's statement appeared to refer to an explosives-laden drone that evaded Israel's multilayered "When US forces dragged a air-defense system and slammed into a mess hall at a military training camp deep inside Israel last Sunday, killing four soldiers and wounding dozens.

The group also announced earlier this week that it fired a new type of missile called Qader 2 toward the suburbs of Tel Aviv.

The Israeli military said it would activate an additional reserve brigade to the north of its country to support troops battling in southern Lebanon.

Hezbollah said its fighters were working according to "plans pre-pared in advance" to battle invading Israeli troops in several parts of south Lebanon. It also announced several missile and artillery attacks on Israeli forces operating in villages in southern Lebanon's border area overnight and Friday morning. In one case, the group said it fired

a heavy missile barrage at Israeli soldiers who were trying to evacuate those wounded in an earlier strike. The group also said it had fired "large missile salvos" at a military barracks in the Israeli-annexed Golan Heights and at the Zvulun Earlier this week, Hezbollah's acting leader Naim Kassem warned the group will continue to target wider

areas of Israel, which it has attacked with rockets nearly every day since Hamas' deadly incursion last year. As Israel fought militants in Lebanon and in Gaza, its military said Friday that its forces had killed two militants who crossed into Israeli territory south of the Dead Sea from neighboring Jordan.

Such infiltrations are relatively rare, especially as Israel has ramped up border security since the Hamas attack in October 2023.

On October 7, 2023, Hamas-led militants blew holes in Israel's security fence and stormed in, killing some 1,200 people, mostly civilians, and abducting another 250. Israel's offensive in Gaza has killed over 42,000 Palestinians, according to local health authorities, who do not distinguish combatants from civilians. The war has destroyed vast swathes of Gaza and displaced about 90 per cent of its population of 2.3 million people.

South Korean intelligence has found that North Korea has dispatched 12,000 troops including special operation forces to support Russia's war against Ukraine, news reports said Friday.

The NIS didn't immediately confirm the report, but South Korea's presidential office said in a statement that President Yoon Suk Yeol had presided over an emergency meeting earlier Friday to discuss North Korea's troop dispatch to

Singapore detains teenager for planning terror attacks

Singapore has detained a 17-year-old self-radicalised supporter of terror group ISIS under the Internal Security Act (ISA) mere weeks before his planned attack on non-Muslim males in a public housing estate.

The teenager, purportedly influenced by the ongoing Hamas strikes and developnents around Syria use either a kitchen knife or a pair of scissors from his home as his weapon, said the Internal Security Department (ISD) in a press release on Friday.

It was a "very close shave as he could have easily gone on a rampage", Singapore's Minister for Law and Home Affairs K Shanmugam said. "I would say this is one of the ones where it was quite close, fairly close," Shanmugam said on the duration between the teen's arrest and the planned attack. Shanmugam pointed out that

the area that the teen had intended for the attack was frequented by "thousands of people" every day, including senior citizens and young children, and that it would be even more crowded during the school

holidays being a main housing estate area with shopping malls and leisure facilities. Since 2020, the ISD has detained five self-radicalised vouths who wanted to carry out attacks in Singapore using such easily accessible weapons. Such attacks require little time and preparation to execute, said the department. In this particular case, the youth was determined to follow through with is plan and was le month away from executing it at the time of his arrest in August, it added.

He had planned to attack non-Muslim males near Tampines West Community Centre, during the school holidays in September. Following his arrest, the teenager was issued a two-year detention order in September as well, the Channel News Asia reported on Friday. The youth chose the Tampines location as it was crowded and within walking distance from his home, said the ISD. Tampines is one of the major housing estates built, owned and managed by the stateagency Housing Board.

He also took "concrete steps" to prepare himself for the attack, the agency added. A knife or

scissors was his weapon of choice because he felt he could wield them effectively and inflict "maximum damage" on his targets.

'To ensure that he could kill or grievously wound his targets, he planned to stab them in the neck, and practised stabbing motions using different grips with the scissors," said the ISD. In June, he conducted a walkthrough of the route he would the attack. The ISD added that the youth was determined to be killed by the police or passersby in the course of his attack. as this would fulfil his aspiration to become a "martyr".

"He felt a sense of pride knowing that his planned attack if successfully executed would be the first terrorist attack in Singapore in recent decades," the release said. He crafted a declaration of armed jihad or struggle against non-Muslims, which he planned to release before his attack in the "hope of inspiring other Muslims to engage in armed violence", the ISD said. The ISD said the student became exposed to the teachings of foreign radical preachers in August 2023 while searching for religious knowledge

Yoga in Saudi Arabia dominated by women: Padma Shri Nouf Marwaai

PTI RIYADH

The Saudis accepted yoga "unhesitantly" seven years ago and now this ancient Indian practice is quite popular in Saudi Arabia and is dominated by women, says the country's first certified yoga instructor and the first Arab recipient of Padma Shri award Nouf Marwaai.

She says Saudis love anything that is good for health and well-being.

Marwaai played an instrumental role in introducing yoga in Saudi Arabia in 2017 and was awarded the Padma Shri by the Indian government in 2018. She now heads the Saudi Yoga Committee, established in 2021, and is the founder and president of the Arab Yoga Foundation.

She says yoga today is dominated by women in Saudi Arabia.

At the second Saudi Open Yoga Asana Championship held in Mecca by Al-Wahda Club and the Saudi Yoga Committee this January, there were 56 girls and 10 boys, she says.

Marwaai was just 17 when she was diagnosed with an autoimmune disease

called Lupus Erythematosus. The doctors told my parents I won't live

long. I was asked not to go to school and that is when I learnt yoga at home in Riyadh. My health condition surprisingly started improving. Finally, I decided to go to India to learn more about yoga,"

she recalls her tryst with yoga. "In 2008, I went to India to study yoga and ayurveda and it was a big shift that happened in my life," she adds.

Asked how difficult it was to introduce yoga in Saudi Arabia, the birthplace of Íslam, Marwaai told PTI, "I think the part.

Šhe says yoga is vast and the philosophy itself is an ancient one.

I believe there is no harm in studying any philosophy and learning for you to improve your life. Of course, the Vedic philosophy and yoga coming from a background like the Vedas is actually something ancient and something lived for thousands of years for humanity," she

According to Marwaai, there was no opposition as such from Saudi people, but from those outside. "The Saudis love different cultures, they

love to explore, they know their faith. If something doesn't conflict, they are not very hesitant. And anything that is good for health and well-being, people in Saudi Arabia love it," she says.

Last year, on the international day of yoga, we had 10,000 people including Saudis participating, she says, adding this year, in spite of the Haj vacation, there were 8,000 people who took

The report by the UN Development Programme and the Oxford Poverty and Human Development Initiative at the University of Oxford also said that more than 83 per cent of poor people live in rural areas — and the same percentage live in sub-Saharan Africa

and South Asia.
The UN Development
Programme and Oxford have

According to the index, 1.1 billion people live in acute poverty, with nearly half in five countries: India with 234 million impoverished people, Pakistan with 93 million, Ethiopia with 86 million, Nigeria with 74 million and Congo with 66 million.

Over half of the people living in poverty — 584 million — are children under the age of 18, with 317 million in sub-Saharan Africa and 184 million in South Asia, it said. In Afghanistan, where poverty has increased, the proportion of impoverished children is even higher — nearly 59 per cent. UNDP and Oxford said this year's report focused on poverty amid conflict because 2023 saw more conflicts than at any time since World War II and that an all-time high of 117 million people were forced to

flee their homes due to conflict,

disasters and other factors.

Programme office that produces its annual Human Development Report, said: "By overlaying conflict data with global MPI data for the first time, the report reveals the stark realities of those simultaneously enduring conflict and poverty.'

"A staggering 455 million people, both multi-dimensionally poor and living in contexts of conflict, face significantly harsher deprivations — three to five times more severe — when it comes to basic needs like nutrition, water and sanitation, electricity, and education, compared to those in poverty who live in more peaceful settings, he said in a statement to The Associated Press. Sabina Alkire, director of the

Oxford initiative, said it's intuitive that reducing poverty is easier in peaceful settings than for these 455 million people, representing nearly 40 per cent of the 1.1 billion poor.

UN envoy proposes partitioning | EU leaders look at ways to tighten **Western Sahara to end conflict**

The UN envoy to Western Sahara suggested dividing the territory between Morocco and the pro-independence Polisario Front as a way to settle the decades-long conflict. Staffan de Mistura proposed partition as one potential way to satisfy both sides and give residents a chance to decide under who they want to live, according to a briefing provided to a closed meeting of the U.N. Security Council on Wednesday, which was obtained by The Associated

"Such an option could allow for the creation on the one hand of an independent state in the southern part, and on the other hand the integration of the rest of the Territory as part of Morocco, with its sovereignty over it internationally recog-

The idea of partition isn't new. In a never-enacted agreement, Mauritania ceded the southern part of Western Sahara to Polisario when it withdrew in 1979. Former envoy James Baker floated partition more than two decades ago. De Mistura called the idea

worthy of consideration. He said some countries involved "expressed some interest" though both Morocco and Polisario showed "no sign of willingness to consider exploring it further."

Partition along historic lines would place Laayoune — the disputed territority's largest city — in the north, and Dakhla its second largest — in the south. Though it could allow both Moroccan autonomy over some of the land and Sahrawi independence, it satisfies neither side's long-standing con-

ditions. Morocco's position is to not negotiate on the disputed territory's sovereignty and Polisario's position is to demand self-determination via a referendum

The United Nations has attempted to resolve the territorial dispute since the 1970s and helped negotiate a settlement in 1991 that called for a staged peace process beginning with a cease-fire and the establishment of a UN peacekeeping mission tasked with organizing an eventual vote on the former Spanish colony's future status. Polisario said Thursday in a statement that it told De Mistura in an Oct. 3 meeting that any compromise that disregarded international law or was "contrary to the mandate of the United Nations Mission for the referendum" was a non-

not respond to questions about De Mistura's proposal. Negotiations have not yielded

progress under multiple UN envoys who preceded De Mistura. In his briefing on Wednesday, the Italian diplomat said he planned to continue to pursue progress for six more months before returning for consultations next year. The absence of progress, he said, "might rightly raise ques-

tions as to the future modalities of the United Nations facilitation of the political process on Western Sahara" and lead him to suggest to the Security Council to reassess "whether there is space and willingness for us to still be useful." Western Sahara is a region in

northwest Africa that the United Nations has considered a "non-self-governing" territory since 1963, when it was a Spanish colony.

borders in wake of far-right surge

European Union leaders on Thursday lauded a groundswell of support for tightening their borders and making the bloc a more hostile destination for migrants and asylum seekers following a recent surge in support for the extreme right, which has fomented opposition to for-

They also backed Poland's moves to rein in migration after Warsaw said it wants to temporarily suspend the right to asylum because it feels Russia and Belarus are seeking to create chaos by pushing migrants across the EU border as a form of hybrid warfare targeting the 27-nation bloc.

At the end of a summit dominated by migration issues, EU leaders were already fostering

plans to speed up initiatives to get migrants not eligible to stay in the EU out of the bloc and process asylum applications far outside their borders, seeking to buttress a reputation as a "Fortress Europe." Echoing comments from many

quarters, Danish Prime Minister Mette Frederiksen said that Things are changing in the European Union. Now the majority of leaders are saying the same: that we cannot continue. The numbers are too high. We have to return those who should not be protected in Europe." "We see that there is a different mood in Europe," said Dutch Prime Minister Dick Schoof, who heads a government dominated by the party of far-right firebrand Geert CANCELLATION OF TENDER

The tenor of the debate is a far

cry from 2015, less than a decade ago, when the EU was faced with a migration crisis. Well over a million migrants and refugees sought help then, mainly from the Middle East and Afghanistan. German Chancellor Angela Merkel, the EU's dominant national leader at the time, famously said, "We

can manage that."

Now, EU leaders want to manage and seal off their borders ever more tightly, embracing initiatives that would have looked unacceptable only a few years ago.

BRICS not anti-West, only 'non-West': Putin

Days ahead of the BRICS Summit in his country, Russian President Vladimir Putin on Friday asserted that the grouping is not "anti-West", but is just "non-West", also recalling that this is member state India's stand. Prime Minister Narendra Modi will visit Russia on October 22-23 to attend the 16th BRICS Summit in Kazan.

At an interaction with a group of foreign journalists here, Putin said the doors of BRICS were not closed to new members. He said as the grouping develops even the non-member countries will benefit economically.

He accused the United States of trying to stem development in China. "It's like telling the sun not to rise," he said. Asked if there was a timeline for the war in Ukraine to end, Putin said setting one will be difficult and counterproductive. He said Russia will prevail.

Meanwhile, China on Friday announced that Chinese President Xi Jinping will attend

The backbone of Star Air's growth: RCS-UDAN scheme

SINGH TIWANA

¬he Government of India's Regional Connectivity
Scheme (RCS) - UDAN (Ude Desh ka Aam Naagrik) has been pivotal to Star Air's journey and growth. Since our inception, we've been dedicated to Connecting Real India, and UDAN has enabled us to do exactly that-connecting the underserved and unserved regions of the country, ensuring affordable air travel for everyone.

When we launched our first two route in January 2019, between Hubli to Bengaluru and Hubli To Tirupati, it was a significant milestone for us. It symbolized the beginning of our mission to enhance regional connectivity, starting with this crucial route. Today, I am proud to say that since that first flight, we've flown over 1.3 million passengers by fulfilling dreams of many who had tasted flight for the first

Today powered by the UDAN scheme we operate to 22 airports Karnataka, Andhra Pradesh, Gujarat, Madhya Pradesh, Rajasthan, Uttar Pradesh, and Maharashtra. Through this initiative, Star Air was awarded 44 routes under UDAN 2 and 3-8 routes under UDAN-2 and 36 routes under UDAN-3. Further, we have been awarded 44 more routes under UDAN 5, giving us the opportunity to bring air connectivity to even more

The UDAN scheme has been instrumental in providing the necessary support for us to operate routes that otherwise may not have been viable. Through the infrastructural development that came along UDAN, allowed us to expand steadily into tier 2 and tier 3 cities, bringing us closer to our goal of Connecting Real India. We have seen the joy in the eyes of many as they took to sky for the first time. We are see many business come up to support this new air connectivity. Clearly proving the economic multiplier Air Connectivity is.

our aspirations. What started with one Embraer E145 aircraft in 2019 has now expanded to five E145s and four Embraer E175s. This growth has enabled us to launch new routes, access more destinations, and serve an even larger number of passengers.

Thanks to the RCS-UDAN initiative. Star Air is well on its way to realizing its vision of providing swift, affordable, and comfortable air travel to every corner of India. The backbone of our success has been this visionary scheme UDAN, which continues to empower regional carriers like us to play an essential role in India's aviation landscape.

We look forward to many more milestones as we continue to build on these solid foundation.

Ashneer Grover withdraws oppression and mismanagement plea against BharatPe management

PTI NEW DELHI

Ashneer Grover, co-founder and former managing BharatPe, director withdrew his plea from the National Company Law Tribunal (NCLT), in which he had alleged oppressive conduct and mismanagement by the board of the fintech

firm. The withdrawal of the plea from the NCLT's Delhi bench came after Grover reached a settlement with the company

on September 30, 2024. A copy of the settlement agreement was also placed before the NCLT by the counsel appearing for Grover, who had filed an application for withdrawal of the petition. .. During the pendency of the said petition, parties have arrived with settlement and also executed the settlement agreement dated September

placed on record and in view of the settlement applicant (who ispPetitioner in the main company petition) has sought liberty to withdraw the company petition," the NCLT order dated October 14, 2024, noted.

It further said: "Liberty is granted to the applicant to company withdraw the petition... And the same is dismissed as withdrawn. The 30, 2024, a copy of which is present IA is disposed of."

Besides, on October 17, Grover also withdrew a plea from the National Company Appellate (NCLAT), where he had sought an early hearing of the case in NCLT.

In his petition, Grover had sought his reinstatement as Managing Director of the company and the changes in the management of the

Innovations Pvt Ltd, which is doing business as BharatPe, to be declared "illegal".

He had also requested the NCLT to order an inspection and audit of the company by the Ministry of Corporate Affairs and revocation of termination of his wife Madhuri Jain by the board of BharatPe.

As per the settlement, the

former co-founder will neither be associated with the company in any capacity nor be a part of its shareholding. Grover was removed from the position of managing director of BharatPe by the company's board in March 2022. Since then, both parties have been involved in legal disputes. Following the agreement, certain shares of Grover will

be transferred to the Resilient Growth Trust for the benefit of the company and his company by altering the remaining shares will be board of the Resilient managed by his family trust.

Homebuying decision may be impacted if mortgage rates cross nine per cent: FICCI-Anarock survey

PTI MUMBAI

Nearly 90 per cent of respondents feel that their decision to buy residential properties will be significantly impacted if mortgage rates exceed 9 per cent, according to a survey conducted by FICCI and Anarock.

Industry body FICCI and real estate consultant Anarock on Friday released their joint 'Homebuyer Sentiment Survey', with a sample size of 7,615 people, at a real estate

conference here. "In a recent survey, over 71 per cent of respondents indicated that their homebuying decisions would remain unaffected if rates stay below 8.5 per cent. However, if rates exceed 9 per cent, then it will have a significant impact on over 87 per cent of respondents. For rates between 8.5 per cent and 9 on their choice," the report

Among other findings, the survey found that real estate is the most preferred asset class for investment for over 59 per cent of respondents. The Indian residential market

continues to predominantly driven by endusers, with over 67 per cent of survey participants buying properties for self-use. The survey revealed that the

budget range of Rs 45-90 lakh continues to be the most favoured option for over 35 per cent of prospective homebuyers. Currently, over 28 per cent of survey respondents stated their preference for homes priced between Rs 90 lakh and Rs 1.5

Top homebuyer demands are timely project completion (98 cent),

per cent, about 54 per cent construction quality (93 per expect a moderate influence cent), and well-ventilated homes (72 per cent).

Addressing a FIICI event, Pramod Rao, Executive Director, SEBI, underscored the importance of regulatory frameworks in driving sustainable growth in the real estate sector.

"Investor confidence is vital for the industry's long-term success, and SEBI's focus on transparency and governance has been key in building this trust," Rao said, according to a FICCI statement.

Rao emphasised that strong compliance and better disclosures will be crucial in attracting institutional investments

He also highlighted SEBI's initiatives, including a single dashboard data bank to streamline processes and efforts to convert real estate investments into tradable improved financial instruments,

Development and Real Estate,

and CMD, Somany Impresa

Group, said, "The Indian real

estate sector has shown

remarkable evolution. The

significant shift in consumer

preferences away from ready-

to-move homes towards

under-construction properties indicates growing confidence in developers and the regulatory environment." This trend reflects a maturing market and the positive impact of regulatory measures like RERA, he added.

Raj Menda, Chairman, FICCI Committee on Urban Development and Real Estate Chairman of the Sanjay Dutt, Managing

Supervisory Board, RMZ Corporation, said, "India's economic growth is driving rapid expansion in the real estate sector, with the residential market projected to reach USD 1.04 trillion by 2029, growing at a 25.6 per cent CAGR. This growth is fuelled by rising demand for ultra-luxury properties and significant investments. The commercial real estate

sector is also thriving, supported by 1,600 Global Capability Centers and emerging secondary markets, Menda said.

Anarock Chairman Anuj Puri said the consumer sentiment survey is timely and important, as it gauges contemporary homebuyers' preferences in the current market environment and highlights currently significant trends in Indian residential real estate.

Director and CEO of Tata Realty and Infrastructure, highlighted the significant evolution of the real estate sector, particularly with the shift from traditional REITs to smaller-scale REITs (SM REITs). emphasised

advantages of fractional ownership, noting how it allows investors to access high-quality assets with lower capital commitments, democratising real estate investment.

Pandey, Gaurav Chairman of the FICCI Committee on Urban Development and Real Estate and Managing Director and CEO of Godrej Properties, stated, "Institutional investors are increasingly focused on wealth creation through the development of better-quality products in the real estate

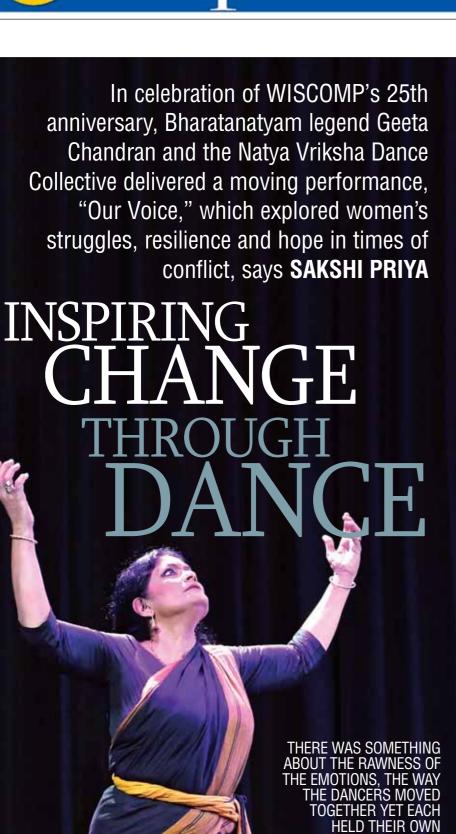

He highlighted the distinct

growth stories of various cities, noting that Pune stands out as a frontrunner in this regard.

Pandey emphasised that sustainability has become a critical priority for all large developers, reflecting a collective commitment to responsible and eco-friendly practices that will shape the industry's future.'

In his address, Vipul Roongta, Co-Chairman of the FICCI Committee on Urban Development and Real Estate and Managing Director and CEO of HDFC Capital Advisors Ltd emphasized on the critical importance of investing in skilled labour and workforce development to drive progress. Additionally,

underscored the essential role of the private sector in creating impactful, scalable solutions to meet the growing demand in the industry.

he hall was utterly still, a silence so real that it felt as though the entire audience had collectively held its breath. Not a single whisper broke the stillness. The audience was captivated by the intensity of the performance unfolding before them. As the final movement came to an end, the applause burst forth. It wasn't a brief acknowledgment, but a wave of appreciation that seemed to last forever.

At the heart of it all was none other than Padma Shri awardee Geeta Chandran, a living legend in the world of Bharatanatyam. As she performed, she commanded the stage with a presence so powerful it drew in every single spectator, binding them to her every move. It was not just a performance; it was an experience, one that resonated deeply with everyone in the room. Chandran, true to form, paid meticulous attention to every detail. Every gesture, every glance, every step was deliberate, contributing to a performance that was nothing short of spectacular.

INDIVIDUAL POWER, THAT STRUCK A CHORD.

CHANDRAN'S ABILITY TO TAKE SUCH COMPLEX, PAINFUL THEMES AND

BEAUTIFUL, SO EVOCATIVE, IS NOTHING SHORT OF GENIUS

DISTIL THEM INTO

SOMETHING SO

This evening was particularly special as it marked WISCOMP's (Women in Security, Conflict Management, and Peace) 25th anniversary. The event, Our Voice, was a collaboration between Chandran and the Natya Dance Collective, commissioned by WISCOMP itself. Held at the C.D. Deshmukh Auditorium in New Delhi, the performance centred on the themes of women, war, and peace. Through the expressive language of Bharatanatyam, Chandran told a story that resonated deeply, not just because of its artistry, but because of its urgent relevance. made 'Our Voice' so

compelling was the way it wove together the struggles of women with such authenticity and emotion. Chandran's portrayal of these themes was both profound and deeply human. It was not just a dance but a narrative, a reimagining of the ageold battles women have fought, battles against patriarchy, oppression and a world that too often refuses to hear their voices. Yet, this was not a lament. It was a celebration of resilience, strength, and the quiet but relentless pursuit of peace.

I've seen many performances, but few have moved me as deeply as this one. There was something about the rawness of the emotions, the way the dancers moved together yet each held their own individual power, that struck a chord. Chandran's ability to take such complex, painful themes and distil them into something so beautiful, so evocative, is nothing short of genius.

In the words of Chandran herself, Our Voice was a deeply personal project, one that took her out of her comfort zone. She explained how the process of creating this piece began with conversations about women's issues, particularly the price women pay in times of war. However, it wasn't just about war in the literal sense; it was about the daily battles women face, the constant struggle to find space for their agency in a world that often seeks to diminish it. From these discussions, the script evolved into something larger, a movement, performance that speaks not only of women's suffering but of their incredible capacity for endurance and hope.

And it was this hope that

stayed with me long after the

final bow. Hope, not as a vague or distant ideal, but as something real, something these women, these dancers, brought to life before our very eyes. Dr. Meenakshi Gopinath, Founder and Director of WISCOMP, captured this sentiment perfectly when she said that Chandran's performance was "sheer poetry in motion on the audacity of hope." It's true. There was something bold about the performance, not in its defiance, but in its belief that, despite everything, peace is possible. That women, even in the face of conflict, trauma and violence, continue to fight not just for survival, but for a better world.

This was not the first time Geeta Chandran has tackled such themes. Our Voice is a continuation of her earlier work, Her Voice, performed 25 years ago. While the original piece focused on Draupadi's personal losses from the Mahabharata, this newer work took on a broader scope, exploring the universal struggles of women against patriarchal forces. Chandran's use of water as a metaphor for women's lives, fluid,

powerful, yet constrained was especially poignant. It was a reminder of how often women's potential is stifled societal expectations, but also of how, like water, they continue to find ways to flow, to push forward.

wasn't Chandran's individual brilliance that made evening powerful, though. The Natya Vriksha Dance Collective, a group of dancers entirely trained by

Chandran, added a richness and depth to the performance that was undeniable. There was an unspoken trust and connection between the dancers, a shared understanding that made their movements feel like a conversation, not just between themselves, but with the audience. Each dancer brought something unique to the performance while contributing to the overall harmony of the piece.

As the performance ended, the applause was not just a formality. It was a recognition of something greater, a shared experience that had left everyone in the room changed in some way. The clapping didn't just end; it stayed with us, persistent and filled with emotion. It was as if the audience didn't want to let go of what they had just witnessed, as if by continuing to applaud, they could hold on to the feeling a little longer. Reflecting on the evening, I realised that what moved me most wasn't just the technical skill or the beauty of the dance, though both were extraordinary. It was the way in which the performance so perfectly captured the essence of WISCOMP's mission. For 25 years, WISCOMP has worked to promote women's leadership in peace and security, and this collaboration with Geeta Chandran was a powerful tribute to that legacy.

Art has always been a way to explore difficult subjects, provoke thought and inspire change. 'Our Voice' did all of that and more. It reminded us that the struggles of women are not confined to history books, but are ongoing and very real. Yet, in the face of these struggles, there is also incredible strength, resilience and most importantly, hope. As I walked out of the auditorium that night, I carried that hope with me.

Step into a World of Melody and Peace

The Guru Bhola Nath Music Utsav at Kamani Auditorium celebrated the legacy of Pandit Bhola Nath Prasanna through captivating performances of Indian classical music

BY TEAM VIVA

¬he sound of melody filled the air, bringing with it a sense of 'SUKOON', a deep, soothing peace that only music can offer. This was the essence of the Guru Bhola Nath Music Utsav at Kamani Auditorium. The annual festival, honouring the legendary flautist Pandit Bhola Nath Prasanna, was a tribute to the timeless beauty of Indian classical music, celebrating the sacred bond between guru and disciple. As the audience settled into their seats, it became clear that the evening would be more than just a series of performances; it would be a journey into the heart of India's musical heritage.

The evening began with a breathtaking violin recital by Padma Bhushan N. Rajam, a maestro known for unparalleled mastery of the instrument. Accompanied by her equally talented disciple, Nandini Shankar and the skilled Pandit Abhishek Mishra on tabla, the performance was a seamless fusion of tradition and artistry. Rajam's

a soundscape that transported the audience into a world of tranquillity. The synergy between the artists was remarkable, each note resonating with precision and emotion, setting the perfect tone for the night ahead.

The atmosphere was further enriched by the vocal magic of Padma Shri Shubha Mudgal, whose performance was nothing short of mesmerising. Her powerful voice, violin flowed effortlessly, creating rich with emotion, filled the

auditorium, captivating every listener. Supported exceptional ensemble of musicians, Pandit Aneesh Pradhan on tabla, Ustad Murad Ali on sarangi and Vinay Mishra on harmonium, Mudgal's rendition of classical ragas showcased her deep understanding and passion for the art form. As the performances drew to a close, the hall remained filled with the gentle echoes of the night's music. The sense of Peace that the audience had experienced was unmistakable, a peaceful calm that stayed long after the final note had been played. The Guru Bhola Nath Music Utsav was not just a tribute to a musical legend, but a reminder of the profound power of music to touch the soul.

This festival, with its line-up of extraordinary artists and heartfelt performances, brought together the essence of Indian classical music in a way that felt timeless. The sound of melody, the rhythm of the tabla, the beauty of the ragas, this was the magic of the Guru Bhola Nath Music Utsav. It was an evening of pure musical bliss, one that left the audience with a deep sense of peace, or as the performers might say, **SUKOON**

ROHIT, KOHLI, SARFARAZ FIFTIES TAKE INDIA TO 231/3 AT CLOSE ON DAY

counter-attacking India kept alive the hopes of a **M**miracle turnaround through free-flowing fifties from the troika of Virat Kohli, Rohit Sharma and Sarfaraz Khan, reaching 231 for three in their second innings on the third day of the first Test against New Zealand here on

Kohli (70), who completed 9,000 Test runs during the course of his knock, got out to Glenn Phillips off the last ball of the day, edging him to Tom Blundell, leaving Sarfaraz (70) at the crease at close. The deficit at the end of an overcast day was a less intimidating 125. Kohli and Sarfaraz added 136 runs for the third wicket after skipper Rohit did the early running with a fluent 52.

This was after New Zealand posted a total of 402 all out to gain a massive lead of 356 runs thanks to Rachin Ravindra (134) and Tim Southee (63), who added precious 134 runs for a flowing eighth wicket

The largest deficit India has overturned to win a Test in their cricketing history is 274 during the iconic Kolkata Test against Australia in 2001.

distance away, but hopes will be flickering after the day's effort with the bat.

the pioneer

Amid the more coruscating fifties by Rohit and Sarfaraz, Kohli's effort still stood out for its personal and situational significance.

It was his first Test half-century of 2024, and he could not have timed his 31st in the longest format better -- literally and figuratively.

Seldom a shot describes the touch of Kohli better than the cover drive, and the moment he executed one off pacer William O'Rourke, the 35year-old was in full flow. He took 15 balls to get off the

The Mumbai man punished all bowlers with disdain and leftarm spinner Ajaz Patel was shunted off the park for two successive sixes.

Then there was a daring upper cut for maximum off O'Rourke and fortune also blessed him as a couple of edges fell inches short of Ajaz at gully and wide of third slip. Before Kohli and Sarfaraz ran

roughsho, another old-young combination of Rohit and Yashasvi Jaiswal (35) gave India a solid start. Jaiswal went through an early

uncertain play-and-miss phase but he overcame that to play some sparkling shots. Rohit had no such issues. The right-hander flicked and drove

New Zealand pacers to reach a fifty off just 59 balls, and also thrilled the crowd with that patented swivel pull on one leg. But his tenure in the middle unfortunate in circumstances. Rohit offered a forward defensive shot to Ajaz, but the ball trickled back onto his stumps after taking a deflection from his bat.

A few minutes before that, Jaiswal's decision to give a charge to Ajaz resulted in him getting stumped by Tom Blundell, after adding 72 for the opening wicket with Rohit. The recovery was impressive but it could not overshadow what New Zealand what New Zealand accomplished earlier in the

Resuming the day at 180 for three, the Kiwis were halted to an extent by Ravindra Jadeja (3/72) and the other Indian bowlers who took some early wickets to reduce them to 233

They lost Daryl Mitchell, Glenn Phillips, Blundell and

Henry in this period. Jasprit Bumrah snaffled Blundell while Mohammed Siraj had the number of Mitchell. Phillips and Henry

perished to the crafty Jadeja. The Blackcaps were ahead by 187 runs at that point and it was imperative for them to stretch the lead at least till the 250-mark to maintain their

edge. Ravindra and Southee exceeded the expectations during their partnership to take the lead past the 300-run mark.

Ravindra started cautiously but unfurled his full range once he and the pitch settled down past the first-hour mark.

The 24-year-old, who has his family roots in Bengaluru, showed the correct method of playing Indian spinners, either staying on the front foot or making a shimmy down to nullify the turn. A cleanly swept four off Ravichandran Ashwin carried him to his second Test hundred.

Southee, who hammered a couple of his trademark sixes, solid company to Ravindra and duly completed his seventh Test fifty immediately after the lunch.

Pakistan seals 152 run win in second test

AP MULTAN (PAKISTAN)

Noman Ali and Sajid Khan claimed all 20 wickets on a recycled turning pitch as Pakistan ended a long wait for a home win with a 152-run victory over England in the second test on Friday.

Left-arm spinner Ali took 8-46 to finish with a match haul of 11 wickets and England was bowled out for 144 inside the first session on Day 4 on a tailor-made dry wicket

Off-spinner Khan took 2-93 to innings as both spinners bowled unchanged and ran through the tourists' batting lineup after Pakistan had set up a daunting target of 297 runs.

The win was first for captain Shan Masood, who lost six tests in a row since being elevated as red-ball skipper last year and also ended Pakistan's winless 11-match home run that included four losses against England.

England capitulated against Khan and Ali for the second time in the match after it

resumed on 36-2 and needed a further improbable 261 runs for victory of a tricky turning

Khan gleefully accepted a return catch from Ollie Pope on his second ball of the day before Ali cut through by claiming all the remaining seven wickets as the tourists failed to counter the spin through their sweeps and reverse sweeps.

Captain Ben Stokes, who returned to lead the side after recovering from a torn on-scored before falling in a bizarre fashion. Stokes charged down the wicket to Ali, but the bat flew out of England captain's hand to backward square leg and he was stumped.

Brydon Carse smashed three sixes against Khan and scored 27 before he edged Ali in the slips as England couldn't counter the spinners on a wicket which had plenty of cracks and turn.

England won the first test by an innings and 47 runs last week after posting a record-breaking 823-7 declared.

Arjun crushes Maxime to win WR Chess Masters

PTI ■ LONDON

Indian Grandmaster Arjun Erigaise secured the WR Chess masters title after defeating Maxime Vachier-Lagrave of France in the Armageddon game following two draws in Classical chess during the final during the final.

Arjun displayed great form and precision throughout the event to bag the winner's prize of 20000 Euros. He defeated his friend R Praggnanandhaa in the semifinals of the knock out event before eventually getting past Vachier-Lagrave. The 16-player tournament

saw Arjun scoring a 2-0 victory over Sivananda Bodhana of England who is Sivananda known to be the youngest ever to play in the Chess Olympiad for her country. Fellow Indian Grandmaster

Vidit Gujrathi also fell to Arjun, who won the second game in the two-games minimatch by 1.5-0.5 margin. Against Praggnanandhaa in

the semis, Arjun took an early lead by winning the first game as white and did well to draw the second game to win the match 1.5-0.5

In the final, Vachier-Lagrave put up stiff resistance against

the World number four Indian but eventually crumbled in

The first game ended in an easy draw for Arjun as black, while the second game featured wild complex play out of a Sicilian Najdorf opening where the Indian played white.

The dust subsided on the 21st move leading to a tricky endgame post the queen trade and the game was drawn.

Vachier-Lagrave had 10 minutes on his clock with white pieces in the finale against Arjun's 6 minutes and 58 seconds. However, as is the law, the Frenchman needed a

Arjun navigated the opening well despite less time out of a Petroff defense and reached a balanced position

Vachier-Lagrave sacrificed two minor pieces for a rook to make some threats around Arjun's King but the Indian remained on guard. The game could have been a draw through repetition but that would have won the match for Arjun anyway.

The Queens were traded but Arjun was never in trouble as Vachier-Lagrave fought in vain for 69 moves before calling it a day.

With this victory, Arjun moved closer to the coveted 2800 ELO rating mark, though he will need to wait for his next event to achieve it.
