IRAN DECLARES WAR ON ISRAEL

This image taken from video shows projectiles being intercepted over Jerusalem, Israel, Tuesday

attack from Iran. The official spoke on condition of anonymity to discuss intelligence. Israeli military spokesman Rear Adm. Daniel Hagari also warned of consequences if Iran fired missiles into Israel. He urged the public to stay close to sheltered areas. "The Iranian strike could be widespread. Following Home Front Command guidelines can save lives," he said. Iranian officials could not be immediately reached for comment. Iran launched an unprecedented direct attack on Israel in April, but few of its projectiles reached their targets. Many were shot down by a U.S.-led coalition, while others apparently failed at launch or crashed in flight. On Tuesday morning, Israel warned people to evacuate to the north of the Awali River, some 60 kilometers (36 miles) from the border and much farther than the Litani River, which marks the northern edge of a U.N.-declared zone intended to serve as a buffer between Israel and Hezbollah after their 2006 war. The border region has largely emptied out over the past year as the two sides have traded fire. But the scope of the evacuation warning raised questions as to how deep Israel plans to send its forces into Lebanon.

West Asia meltdown to hit India's oil economy

DEEPAK KUMAR JHA ■ NEW DELHI

The ongoing geopolitical crisis in West Asia, and further escalation in the Israel-Iran-Lebanon conflict is likely to impact India soon. Industry insiders said it is certain that crude oil and Liquefied Natural Gas (LNG) imports will get dearer since the supply could hit both the international and domestic markets. India is the world's third-largest consumer of crude oil and depends on imports to meet over 85 per cent of its requirement. "Our economy is too sensitive to oil price volatility and it directly affects inflation, trade imbalance, foreign exchange reserves, and an acute fluctuation in rupee valuation. While the situation is precarious and both the government as well as business stakeholders are keeping a watch on the hourly crisis in West Asia, we are evaluating the current global oil flows as international oil prices could see an increase anytime. For India it's a festive season and it heavily impacts us," an industry source explained, on conditions of anonymity. Prime Minister Narendra Modi on Monday spoke to his Israeli counterpart Benjamin Netanyahu over the ongoing conflict in the Middle East. Modi expressed his concerns about the escalating tensions in West Asia, emphasising that "terrorism has no place in our world." According to media reports, crude oil futures on Tuesday declined 0.5 per cent to Rs 5,739 per barrel as participants trimmed their positions on low demand. On the Multi Commodity Exchange, crude oil for October delivery fell Rs 3 or 0.5 per cent to Rs 5,739 per barrel with a business volume of 17,697 lots.

AGENCIES ■ JERUSALEM

The Israeli military on Tuesday said that Iran has fired missiles at Israel, and air raid sirens sounded across the country as residents were ordered to remain close to bomb shelters. Israeli police reported a suspected "terror" shooting on Tuesday in Jaffa in south Tel Aviv, resulting in multiple casualties. Israel said both the gunmen were killed. The police said four people were killed, and seven others

sustained injuries in the attack. The shooting took place at Jerusalem Street, next to a light rail train station, as per The Times of Israel. Israel's MDA ambulance service said it received a report at 7:01 pm (9:31 pm IST) of people injured by gunfire. Medics and paramedics provided on-site medical treatment to a number of wounded people with varying degrees of injuries, including some who were unconscious, MDA was quoted as saying by Reuters.

Videos showed two terrorists armed with rifles exiting the rail before they opened fire. Civilians were seen lying flat on the ground to protect themselves. Meanwhile, sirens were sound across Israel on Tuesday night in anticipation of a missile attack from Iran. Israel Defense Forces said, "Israelis have instructed to remain alert and precisely follow the Home Front Command's instructions." Israel and the United States have warned there would be

severe consequences if Iran attacks. The orders to shelter in place were sent to Israelis' mobile phones and announced on national television. TV stations reported sirens in parts of Jerusalem as well as central Israel. The alerts were sounded after a day of rocket and missile attacks from Lebanon, and as Israel said it had begun limited ground operations in southern Lebanon. Israeli airstrikes and artillery fire pounded southern

Lebanese villages where people were ordered to evacuate, and Hezbollah militants responded by firing a barrage of rockets into Israel. There was no immediate word on casualties as fighting intensified and concerns of a wider regional war grew. A senior White House official warned of "severe consequences" should Iran launch a ballistic missile against Israel. U.S. ships and aircraft are positioned in the region to assist Israel in the event of an

Record voter turnout in J and K

MOHIT KANDHARI ■ JAMMU

Jammu and Kashmir recorded an overall voter turnout of over 62 per cent in all three phases of the maiden Assembly polls, held after the Abrogation of Articles 370 and 35-A in 2019. The entire poll process was completed peacefully amid unprecedented security arrangements. However, the 2024 Assembly polls could not breach the previous best 65.91 per cent voter turnout recorded during the 2014 Assembly polls. In 2008, a 61 per cent voter turnout was recorded across Jammu and Kashmir. The highest voter turnout of over 66 per cent was recorded across 40 Assembly segments across seven districts on Tuesday. The first and the second phases witnessed 61.38 and 57.31 per cent voter turnout respectively. The first-time voters, belonging to the West Pakistani refugee community, Valmikis, and Gorkha community danced to the polling booths in jubilation and also distributed sweets as they exercised their right to franchise for the first time in the Assembly polls. In the Jammu region, 18 out of 24 Assembly segments (across

People wait in queues to cast their votes at a polling booth during the third and final phase of Jammu & Kashmir Assembly elections, at Gurez valley in Bandipora district, J and K, Tuesday

Jammu, Samba, Kathua, and Udhampur districts) witnessed over 70 per cent voter turnout while only two assembly segments of Bahu and Jammu West witnessed less than 60 per cent polling till 5 pm. In Kashmir valley, only two Assembly segments of Gurez and Handwara witnessed over 70 per cent voter turnout while seven segments (across Bandipora, Kupwara, and Baramulla) witnessed over 60 per cent voter turnout. Five Assembly constituencies witnessed over 55 per cent voter turnout and 2 Assembly segments of Sopore and

Baramulla witnessed less than 50 per cent voter turnout on Tuesday. Stakes were high for the Bharatiya Janta Party in the final round of polling across 24 Assembly segments. Compared to 2014, the 11 Assembly segments of Jammu district witnessed approximately eight per cent less polling in 2024. The significant drop in voter turnout may alter the poll results on seats that were witnessing close contests between the BJP and the Congress/National Conference. BJP is placed comfortably in the Udhampur district.

SIT pauses Tirupati laddu probe

PNS ■ TIRUPATI

Andhra Pradesh Director General of Police (DGP) Ch. Dwaraka Tirumala Rao on Tuesday said that the Special Investigation Team (SIT) constituted by the State government will temporarily stall its probe into the alleged 'adulteration' of Tirupati laddus with animal fats. The probe has been put on hold as the matter is sub-judice in the Supreme Court. Over the last two days, the SIT has probed the procurement and sampling processes, trying to understand how it is possible to adulterate the laddus, said Rao. "First they (SIT) have to understand the process, study it and take all the information, but in the meantime, an order has come from the Supreme Court and in line with that, we have stopped it (probe)," the DGP said while speaking to reporters. When the case is being examined under the purview of the apex court, it is not appropriate to talk more, he said, hinting at the next hearing of the case in the Supreme Court on October 3. The top court was hearing a batch of pleas, including those seeking a court-monitored probe into the alleged use of animal fat in making Tirupati laddus.

Team India creates Test history

RISHABH MALIK ■ NEW DELHI

The Indian cricket team broke many records and secured a comprehensive Test series victory against Bangladesh on Tuesday. With this win India sealed the series. The game was disrupted due to heavy rain on day two and three. India pulled out a seven wicket win in a historic Test Match at Kanpur. Indian bowlers made their mark, and wiped out team Bangladesh with 233 in the first innings. Jasprit Bumrah took the charge with spin duo R. Ashwin-Ravinder Jadeja to swing the match in India's favour. With this win India broke many records in its cricket history. It is for the first time in 85 years that Indian batting did not play a single maiden over in the whole match, which indicated the attacking approach to pass the lead to Bangladesh in day's play. In 1939, at the England South-Africa match at Durban, England won without playing a single maiden over in the match. Now India and England have become the only test teams in history of Test cricket who won the Test match without playing a single maiden over in the team innings. After breaking multiple world records with their batting on Day

Indian cricket team players pose for photographers with the trophy after winning the second test cricket match between India and Bangladesh, at the Green Park stadium, in Kanpur, Tuesday

4, the hosts bowled out the visitors early on Day 5, and chased down a modest target of 95 with over a session to spare. Their aggressive batting style has led to the setting of a new 19-year-old world record. The Indian team has established a new world record for the highest team scoring rate across both innings during their impressive victory in Kanpur. In the first innings, they scored 285/9 declared in just 34.4 overs, achieving a remarkable run rate of 8.22. In the second innings, spearheaded by Yashasvi Jaiswal, they chased down the 95-run

target in 17.2 overs at a run rate of 5.65. This results in a combined run rate of 7.36 across both innings, significantly surpassing the previous world record of 6.80 set by South Africa against Zimbabwe in 2005. India has achieved an impressive streak of 18 consecutive Test series victories at home, starting with a clean sweep against Australia in 2013. The last team to beat India in a home Test series was England in 2012. Since their loss to South Africa during the 2021-22 series, India has not lost a Test series, either at home or abroad.

Actors Rajinikanth, Govinda stable

CHENNAI

The health condition of Tamil film superstar Rajinikanth is stable and the actor got admitted to a corporate hospital here for a "periodic check-up," Tamil Nadu Health Minister Ma.Subramanian said on Tuesday. The actor would return home after the check-up, the minister said. Rajinikanth was admitted to the hospital late Monday night. Tamil Nadu Governor RN Ravi said in a post on the social media platform: "I stand with the millions of devoted fans of Thiru Rajinikanth around the globe, in praying for his swift and smooth recovery." Tamil Nadu Chief Minister MK Stalin wished the superstar a speedy recovery, and scores of the top actor's fans sent their prayers on social media and wishes, too, for his quick recovery. The 73-year-old popular actor is likely to be discharged on Tuesday evening, the source added.

MUMBAI

Actor Govinda was injured in the leg on Tuesday after his revolver accidentally went off at his Mumbai residence, police said. The 60-year-old actor is out of danger and recuperating at a private hospital, a Mumbai police official said. Govinda, a favourite with audiences for his impeccable comic timing and dancing skills, later issued a statement informing his fans he is doing better. "With the blessings of my fans, my parents and god, I am doing better now. I was hit by a bullet, which has now been removed," Govinda stated. The accident happened around 4.45 am when he was about to leave home to catch a 6 am flight to Kolkata for a show, according to his manager Shashi Sinha. The trigger of the licensed revolver was pushed accidentally while the actor was keeping the gun in the cupboard, and the bullet hit his leg, police said.

A soldier's bittersweet homecoming

KUMAR CHELLAPPAN ■ KOCHI

More than five decades after he went missing in an air crash at Rohtang Pass in Himachal Pradesh, Elanthoor village in Kerala's Pathanamthitta district is getting ready to welcome the mortal remains of Thomas Cherian, a craftsman in the Corps of Electronics and Mechanical Engineers of the Indian Army and bury him near the tombs of his late parents OM Thomas and Eliyamma. It was on February 7 1968 that the then Soviet Union made AN-12 transport aircraft went missing somewhere near Rohtang Pass while it was carrying 102 troops from Chandigarh to Leh. The twin-engine aircraft with the entire passengers perished in the snowy slopes of Rohtang Pass, nearly 4000 meters above sea level.

Family 'sad and happy' as mortal remains return after 56 years

Various units of the Indian Army have been searching for the remains of the aircraft and the passengers since then. Cherian's siblings, Thomas Varghese, Thomas Thomas and Mary Thomas, are now in a dilemma. Should they cry, or be happy, over the

news that their elder brother, who would have turned 78 had he been alive, is coming home. "There was not a single day, even in happiness and sorrow, he was away from our memories. It was on February 8 or 9, 1968, that our father came home with a newspaper

which had reported that an aircraft belonging to the Air Force had gone missing, and our brother was one of the travelers in the flight," Thomas Thomas, one of the younger brothers, told The Pioneer. It took another couple of days for the family to get an official communication from the EME Center about Cherian's death. "Our parents were shattered over the news. Ours is a close-knit family and we had a strong bond. My mother who breathed her last in 1998 had always hoped that Achayan (Malayalam for elder brother) would come home one day," Mary Thomas said. She was just 12 years old when she saw Cherian for the last time. Thomas Cherian was the second son in the family of five. The elder brother late Thomas Mathew too had served the defense forces and later joined the Forest Department of Kerala. The two brothers and Mary Thomas consider the tracing of the remains of Cherian as a "miracle and gift from God Almighty." "We are choked with emotions of all kinds. God in Heaven has heard our prayers and my brother can have his eternal sleep along with our parents in the family tomb at the village church," Mary said, while Thomas Varghese sat nearby unable to speak even a word. Both Thomas Thomas and Mary expressed their gratitude to the Center for providing family pension to their mother Eliyamma till her last. "The only sorrow is that we do not have a single picture of our brother, and are dependent on the Army headquarters for retrieving a picture," Mary said, with tears rolling down her cheeks.

LAC situation stable but sensitive amid India-China standoff: Army Chief

PIONEER NEWS SERVICE ■ NEW DELHI

The situation along the Line of Actual Control (LAC) in eastern Ladakh is stable but not normal and remains sensitive, Army chief General Upendra Dwivedi said here on Tuesday. His remarks came in the backdrop of continuing standoff between Indian and Chinese militaries in the region. Though a "positive signalling" is coming out from the diplomatic talks between the two sides, the execution of any plan depends on the military commanders on the ground, he said. In the entire gamut, the "trust" has become the "biggest casualty", General Dwivedi said at a curtain raiser event on Chanakya Defence Dialogue. "The situation is stable, but it is not normal and it's sensitive. If that be the case what are we wanting. We are wanting that the situation that was there pre April 2020 should be restored," he added. The military standoff between the two sides began in early May of 2020.

The full resolution of the border row has not yet been achieved though the two sides have disengaged from a number of friction points. "Till the time the situation is not restored, as far as we are concerned, the situation will remain sensitive, and we are fully operationally prepared to face any kind of a contingency," the Army Chief said. He listed several pending issues such as troops on ground, buffer zones along the LAC and resumption of patrolling by troops as planned. General Dwivedi also briefly touched upon the Indian military's overall approach towards China. "As far as China is concerned, it has been intriguing our minds for quite some time. And I have been saying that with China, you have to compete, you have to cooperate, you have to coexist, you have to confront and contest," he said. India and China held two rounds of diplomatic talks in July and August with an aim to find early resolution of outstanding issues in their standoff on the LAC in

eastern Ladakh. "The positive signalling is coming from the diplomatic side, but what we need to understand (is that) the diplomatic side gives options and possibilities," General Dwivedi said. "But when it comes to the execution on ground, when it relates to ground per se; it is dependent on the military commanders on both sides to take those decisions," he said, responding to a question. The Army chief also referred to disputes in Depsang and Demchok and said all the pending issues are on the table. "Whatever one can imagine is on the table along the northern front and that includes Depsang and Demchok," he said. Asked about China's construction of villages along the frontier with India, the

Army Chief said that country is carrying out "artificial immigration" and "settlements". "No problem, it is their country," he said, adding India is also having "model villages" in border areas. "But more importantly, now the state governments have been empowered to put in those resources and this is the time when the army, state governments and supervision by the central government are all coming together," he said. The model villages that are being built now will be even better, the Army Chief said. He said there is no Chinese population close to the LAC and that is the reason Beijing is carrying out the "artificial immigration". The Army Chief also cited how the Chinese fishermen first came to the South China Sea and then the military arrived. Last month, National Security Advisor Ajit Doval and Chinese Foreign Minister Wang Yi held talks in the Russian city of St Petersburg with a focus on finding an early resolution to the row. In the talks held on the sidelines of a conclave of

BRICS (Brazil-Russia-India-China-South Africa) nations, the two sides agreed to work with "urgency" and "redouble" efforts to achieve complete disengagement in remaining friction points in eastern Ladakh. In the meeting, Doval conveyed to Wang Yi that peace and tranquility in border areas and respect for the Line of Actual Control (LAC) are essential for return of normalcy in bilateral ties. The ties between the two countries nosedived significantly following the fierce clash in the Galwan Valley in June 2020 that marked the most serious military conflict between the two sides in decades. India has been maintaining that its ties with China cannot be normal unless there is peace in the border areas. The two sides have so far held 21 rounds of Corps Commander-level talks to resolve the standoff. India has been pressing the People's Liberation Army (PLA) to disengage from the Depsang and Demchok areas. The two sides held the last round of high-level military talks in February.

30 lakh defence pensioners linked to SPARSH: Rajnath Singh

PIONEER NEWS SERVICE ■ NEW DELHI

Defence Minister Rajnath Singh on Tuesday said here out of a total of 32 lakh defence pensioners, 30 lakh have been successfully linked to the SPARSH (System for Pension Administration (Raksha)) portal. He made this observation during the 277th Annual Day celebrations of Defence Accounts Department (DAD) at Bharat Mandapam. While commending DAD's focus on technology adoption, the defence minister asserted that despite numerous challenges, the department has been successful in the implementation of this web-based system, which processes pension claims and credits the pension directly into bank accounts of defence pensioners without any external intermediary. He commended the efforts of DAD towards modernisation and strengthening of the country's defence ecosystem through optimum utilisation of resources, efficiency and transparency in accounting and adoption of latest technologies. He lauded the department for focusing on every little detail, which leads to necessary improvements in defence related policies and proposals. Reflecting on the progress achieved in the defence sector in the last few years,

Rajnath Singh stated that there was a time when acquisitions were mainly dependent on imports, and the positive impact of defence expenditure on the economy was very limited. He added that due to Prime Minister Narendra Modi-led Government's efforts to attain self-reliance, India is today seen as a defence exporter. The defence minister urged the DAD to prepare a roadmap to make the department a 'Centre of Excellence' in the field of defence finance and economics. He also batted for establishing a robust and comprehensive data management system that gives analytical reports to the government on the impact of defence expenditure on the country's economy, such as the contribution of defence vendors in revenue generation and employment generation. This will prove to be helpful in establishing a holistic policy regime, which would develop a sense of 'Whole of the Government approach', he added. Tracing its roots to the appointment of the Military Pay Master in 1747, the DAD has continuously re-invented itself to provide exemplary services to the Armed Forces, and in turn to the Nation, in the fields of Internal Audit, Accounting, Financial Advice and Defence Pensions Management.

Arti Sarin appointed first woman DG of AFMS

PIONEER NEWS SERVICE ■ NEW DELHI

Surgeon Vice Admiral Arti Sarin, on Tuesday became the first woman officer to take over as the Director General, Armed Forces Medical Services (DGAfMS). The DGAfMS is directly responsible to the Ministry of Defence for overall medical policy matters which relate to the Armed Forces, defence ministry said here. Prior to assuming the appointment of 46th DGAfMS, the Flag Officer held the coveted appointments of DG Medical Services (Navy), DG Medical Services (Air) and Director and Commandant of Armed Forces Medical College (AFMC), Pune. She is an alumna of AFMC, Pune and was commissioned into the Armed Forces Medical Services in December 1985. She is an

MD in Radiodiagnosis from AFMC, Pune and Diplomate National Board in Radiation Oncology from Tata Memorial Hospital, Mumbai, complemented with training in Gamma Knife Surgery from University of Pittsburgh. In a career spanning 38 years, the Flag Officer has held prestigious academic and administrative appointments including Professor and Head, Radiation Oncology, Army Hospital (R&R) and Command Hospital

(Southern Command)/AFMC Pune, Commanding Officer, INHS Asvini, Command Medical Officer in the Indian Navy's Southern and Western Naval Commands. The Flag Officer has the rare distinction of serving in all three branches of the Indian Armed Forces, having served as Lieutenant to Captain in the Indian Army, from Surgeon Lieutenant to Surgeon Vice Admiral in the Indian Navy and as an Air Marshal in the Indian Air Force. The Flag Officer has been recently appointed as a member of the National Task Force by the Supreme Court to formulate safe working conditions and protocols for medical professionals. She has been at the forefront of motivating young women to join the Armed Forces and is a shining icon for the Nari Shakti initiative of the Government.

PM sends birthday greetings to former president Kovind

PIONEER NEWS SERVICE ■ NEW DELHI

Prime Minister Narendra Modi on Tuesday greeted former president Ram Nath Kovind on his birthday, and said he is widely respected for his service to society and con-

tribution to national progress. Kovind, who served as the President from July 2017 to July 2022, turned 79 on Tuesday. "Birthday greetings to our former President, Shri Ram Nath Kovind Ji. He is widely respected for his

service to society and contribution to national progress," Modi said in a social media post. "His insights into various subjects are also very enriching. Praying for his long and healthy life," the prime minister said.

India to support Jamaica's development in key sectors: PM

Prime Minister Narendra Modi with his Jamaican counterpart Andrew Holness prior to their meeting at Hyderabad House, in New Delhi on Tuesday. Photo By: Ranjan Dimri/The Pioneer

PIONEER NEWS SERVICE ■ NEW DELHI

India has been a "trusted partner" in Jamaica's development journey and it is ready to share expertise in a range of areas, including digital public infrastructure, biofuel, innovation and health with the Caribbean nation, Prime Minister Narendra Modi said here on Tuesday. He made the remarks after holding wide-ranging talks with Jamaican Prime Minister Andrew Holness. In his media statement, Modi said he and Holness also discussed regional and global issues and agreed that all tensions and disputes should be resolved through talks and that both sides will continue to work towards ensuring global peace and security. India and Jamaica are unanimous that reform of all global institutions, including the UN Security Council, is necessary, he said. Modi said India has been a "trusted and committed" development partner in Jamaica's growth journey and it will remain so. "We are ready to share our experience with Jamaica in areas of digital public infrastructure, biofuel, innovation, health, education and agriculture," he said. In the defence sphere, we will move forward on imparting training and capacity building of Jamaica's armed forces, Modi said. The prime minister also identified organised crime, drug trafficking, terrorism as common challenges facing both nations. India-Jamaica relations are based on shared history, democratic values and strong people-to-people ties, he added. Holness arrived here on Monday. It is the first ever bilateral visit of a prime minister of Jamaica to India.

capable of giving a befitting reply to the country's enemies by striking them deep into their territory. Under the leadership of Prime Minister Narendra Modi, we are committed to equip IAF with most advanced aircraft/platforms and make them more capable through the 'Aatmanirbhar Bharat' initiative," he said. The defence minister extended his best wishes to the air warriors, who will be part of the rally that would traverse through tough and varied terrains. The formal flag-off will take place on October eight from Thoise, which is one of the world's highest altitude air force station at 3,068m above mean sea level. The air warriors will halt at Leh, Kargil, Srinagar, Jammu, Chandigarh, Dehradun, Agra, Lucknow, Gorakhpur, Darbhanga, Bagdogra, Hasimara, Guwahati, Tezpur and Dirang, before concluding the rally in Tawang on October 29, 2024.

Experts urge NAT to enhance blood donation safety

PIONEER NEWS SERVICE ■ NEW DELHI

As India grapples with a persistent blood donation deficit, experts have advocated for the mandatory implementation of Nucleic Acid Testing (NAT) to enhance the safety of patients in need given that the rate of infections is higher in replacement donors. NAT is an additional blood safety measure in addition to ELISA screening method as it directly detects the genetic material (RNA & DNA) of the infecting organism or viruses namely HIV, Hepatitis B and Hepatitis C in reducing their window periods. On the National Voluntary

Blood Donation Day marked on October 1, the experts also stressed on an urgent call to raise awareness about the importance of blood donation and the pressing need for voluntary contributions. "Voluntary blood donation has seen growth, yet we still have a significant gap in meeting national demand," said Dr RishiRaj Sinha, Transfusion Medicine Specialist at AIIMS Delhi. Anubha Taneja Mukherjee, Member Secretary of the Thalassemia Patient Advocacy Group, emphasised that many people are unaware of the urgent need for blood, which affects their motivation to donate.

Despite a potential donor base of 402 million people, India consistently falls short of the World Health Organization's (WHO) recommendation of 1 per cent of the population donating blood.

India requires approximately 14.6 million units of blood annually but faces a shortfall of around one million units. This gap is attributed largely to myths and misconceptions about blood donation, particularly concerns over

contracting infections like HIV, as well as a general lack of awareness about the needs of patients requiring regular transfusions, said the medics. To address the safety concerns surrounding blood supply, especially for patients needing frequent transfusions like those suffering with blood disorders such as hemophilia and thalassemia, experts favoured the NAT. For instance, thalassemia patients often need transfusions every 15 to 20 days. "This (NAT) highly sensitive testing method can detect even minute amounts of viruses in donated blood, significantly improving the

safety of transfusions," said Dr Sinha. He explained that while all donated blood undergoes testing, NAT offers a crucial enhancement by reducing the risk of transmitting infections such as HIV, Hepatitis B, and Hepatitis C through early detection. VK Khanna, Director of the Institute of Child Health Preeti Tuli Thalassemia Unit at Sir Ganga Ram Hospital, Delhi too agreed that implementing NAT testing would particularly benefit patients with conditions requiring regular transfusions, such as thalassemia, sickle cell disease, and cancer.

Defence Minister flags off car rally to celebrate IAF's 92nd anniversary

PIONEER NEWS SERVICE ■ NEW DELHI

Defence Minister Rajnath Singh on Tuesday here flagged off 'Vayu Veer Vijeta' car rally from the National War Memorial to mark the 92nd anniversary of the Indian Air Force (IAF). With the send-off, over 50 air warriors, including women, have left for Thoise in Ladakh, from where they will undertake an expedition to Tawang in Arunachal Pradesh, covering a total of 7,000 kms across nine States/Union Territories (UTs). The rally will also witness the participation of former Air Force Chiefs in different legs. Speaking on the occasion, the defence minister lauded the air warriors for serving the motherland in difficult circumstances with bravery, dedication and patriotism. "IAF has achieved significant feats in its bid to protect the country and its people. It is

The aim of the rally is to raise awareness among the people about the glorious history of IAF; the deeds of valour of the air warriors in different wars and rescue operations and attract the youth to serve the motherland. The defence minister stated that during the car rally, the air warriors will hold interactions with the youth at schools and colleges in various States/UTs, exuding confidence that the exchanges would motivate the young ignited minds to join the Armed Forces and lead the life of pride and honour. Chief of the Air Staff Air Chief Marshal AP Singh, former Chiefs RKS Bhadauria (Retired) and A Y Tipnis (Retired) and other senior officials of IAF were present on the occasion. The rally has been organised by IAF in coordination with the veterans of Uttarakhand War Memorial. The Adventure Cell of IAF is leading and coordinating the rally.

IIT Madras innovates laser heating for retinal drug delivery

PIONEER NEWS SERVICE ■ NEW DELHI

In a ray of hope for millions suffering from retinal disorders in the country, researchers at IIT Madras have developed a groundbreaking method to enhance drug delivery directly to the retina by utilising mild laser heating. The innovative approach promises to significantly improve the efficacy of treatments administered through eye injections. Published in the peer-reviewed Wiley Heat Transfer journal, the research focuses on overcoming the challenges posed by the gel-like vitreous humour in the eye, which is often replaced by less viscous fluids after retinal laser surgery. Traditional methods of drug delivery rely on slow natural diffusion, which can take hours or even days for drugs to reach effective levels at the target site. Prof. Arun Narasimhan, Department of Mechanical Engineering, IIT Madras, designed an experiment using

a glass eye mimic geometrically similar to the human eye, water, and silicone oil for the vitreous liquid and a heater to simulate laser heating. The researchers injected a dye as a drug mimic at specific points in the vitreous region of the eye, and measured concentrations at different retinal locations with and without heating the vitreous liquid. Remarkably, while natural diffusion alone took 12 hours to achieve effective concentration, the application of mild heating reduced this time to just 12 minutes. "While with natural diffusion alone, the drug mimic took 12 hours to achieve effective concentration at the target region of the retina, heating

the vitreous liquid reduced it to just 12 minutes," said Shirinvas Vibutha, Graduate Student, at IIT Madras. This research is particularly vital for the estimated 11 million individuals in India affected by retinal disorders. Since the retina is the region of the eye that contains blood vessels and nerves, such treatments must be performed carefully and with precision, the team said. "Using glass-eye experiments and bioheat simulations to analyse invasive treatments in the human eye, we have shown that mild targeted heating can enhance drug delivery to the retina. The medical community needs to take this further and implement it in treatments of retinal diseases," Narasimhan said.

PAPER WITH PASSION

Saving Ladakh

Sonam Wangchuk's foot march highlights the urgent need for ecological protection and local autonomy of Ladakh

Ladakh, a region known for its breathtaking landscapes and unique culture, is now under threat from an ecological disaster. Climate change and unchecked development are eroding its delicate environment, pushing it towards a tipping point. In the face of this growing crisis, climate activist Sonam Wangchuk has emerged as a key figure in the fight to protect Ladakh. Recently, he, along with over 100 supporters, embarked on a foot march from Leh to New Delhi to demand concrete steps for safeguarding Ladakh's fragile ecosystem and securing the region's autonomy under the Sixth Schedule of the Indian Constitution. However, upon reaching Delhi's Singhu border, Wangchuk and his supporters were detained by the police for violating prohibitory orders. Despite this setback, the march has already sparked widespread attention and support for his demands. Ladakh's environment is one of the most sensitive in India. Nestled in the Himalayan range, the region is already witnessing alarming impacts of climate change. Melting glaciers, shrinking water sources, and unpredictable weather patterns are threatening not only the ecosystem but also the livelihoods of the local population.

The rapid melting of glaciers is particularly concerning as they are the primary source of water for the region. This has caused Ladakh to face a severe water crisis, with rivers and streams drying up at an unprecedented rate. Unchecked tourism and infrastructure development further exacerbate the issue. Waste management remains a significant challenge, and the increasing construction of roads and buildings has disrupted the natural landscape. Wangchuk, who is known for his innovative environmental solutions like the 'Ice Stupa' project, has been vocal about the need for sustainable development in Ladakh.

His demands are not only about preserving the environment but also about giving the local people the power to manage their resources and protect their cultural identity. One of his primary demands is to include Ladakh under the Sixth Schedule of the Indian Constitution. The Sixth Schedule provides special protections and autonomy to certain tribal areas in India, allowing them to preserve their culture, manage their resources, and have law-making powers over local matters. Ladakh, with its predominantly tribal population and distinct cultural heritage, has been seeking similar protection. The people of Ladakh in general have expressed disappointment with the current governance structure, which is led by a Lieutenant Governor appointed by the central government. Right now the people of Ladakh have a limited say in decision making. Granting Ladakh Sixth Schedule status would empower its people to make decisions that are in line with their unique environmental and cultural needs. It would allow them to enact laws that protect their fragile ecosystem, manage resources more effectively, and ensure sustainable development. The people of Ladakh are making their voices heard. Now, it is up to the government and the rest of the nation to listen and take meaningful action.

A view of Humayun's Tomb, a UNESCO world heritage site, in New Delhi

Walking through the woods in UK

Suspension of winter fuel allowances, Starmer's push to reset relations with Europe, and the forgotten legacy of the Gorkhas are echoing in the woods of the UK

ASHOK K MEHTA

Hadlow Stair is a village in Tonbridge Kent, UK, with the Old Hadlow Road leading to it.

Tonbridge is a poorer cousin of the historic Tunbridge Wells but a great place for a walking-talking vacation this September when the sun broke through the clouds permitting invigorating small walks. Hadlow Stair is the perfect escape from rain-spoilt London, just 40 minutes away by train to Charing Cross in Trafalgar Square. Ordinary Brits have been stunned by the new Labour, suspending Pound 200 winter fuel allowance to pensioners, ostensibly to fill the Pound 22 bn deficit left by the Tories though inflation is below 3 per cent. In the village, most read newspapers only on the weekend: the talk is about Ukraine, Gaza and Lebanon and Prime Minister Keir Starmer and his wife accepting gifts. Former civil servant Sue Gray who sort of out Boris Johnson for his indiscretions during the pandemic is now the chief advisor to Starmer with a pay package of Pounds 180,000, surpassing the wages the PM gets. Modernising Britain's Continuous Sea Deterrence as well as upgrading its nuclear submarines from Vanguard to Dreadnought class is also underway. Peers in the House of Lords warned that 2.5 per cent on defence spending (at present 2.3 per cent) may not be enough to meet the challenges and fix the military.

Here too, there is a Pound 10 bn hole which is proposed to be filled up by taxes. India's spending is below 2 per cent with immeasurably bigger threats. But who cares! All this and more, John Lawson, my walking companion shares with me. Amongst all the walks the one in the undulating woods nearby is most enjoyable as John takes myriad routes and detours along the soggy earthy soil. You can do a dozen different trails here and not know they are in the same woods. Go south from Hadlow Road past the Scottish St Andrews Church across fields and through apple orchards with apples to eat and apples to cook. But there are no pickers due to Brexit, laments John.

The Chinese have invented an apple-picking machine which is yet to make its commercial debut. Here, in the fields too, John has manufactured several walking trails — the special one is along the Medway river to Tonbridge town which has everything from Marks and Spencers to Waitrose and Sainsburys to Kathmandu Valley and Dalchini restaurants to Humphrey and Bean Pub where we were privy to a brawl. There is also the Tonbridge Castle. My favourite walk though is through the Higham Woods. This I did every morning, meeting making friends with people walking their dogs. Every house here has a cat or a dog or even a horse! Almost every afternoon John and I did serious walking bringing the milometer to roughly 120 plus miles in 12 days. In his spare time, John moves auto parts and trucks in the UK and Europe where too, Brexit means cost and time overruns. At the Labour Party annual conference, Starmer said he wants to reset relations with European Union and make Brexit work with the EU reset. The biggest applause at the conference was reserved for the Home Secretary, who decried the recent racial riots. Migrants continue to sail

THE PLAN TO RAISE A THIRD BATTALION OF GORKHA RIFLES WAS ABANDONED THOUGH THREE GORKHA COMPANIES WERE RAISED FOR THE SPECIAL FORCES. ALDERSHOT IS WHERE RETIRED GORKHAS ALLOWED RESIDENCY IN BRITAIN LIVE, WHILE THE BATTALION IS FURTHER SOUTH

across the Channel and since Rwanda is a closed issue, they will be settled in Britain. I've been travelling to the UK since the 1970s and can say this: Indian or Asian or coloured are no longer looked down upon even though many of the menial jobs are still being done by them. I was horrified to learn that there is a Gorkha Cleaning Company in Kent. The Gorkhas, the Brits once worshipped in battle are all but forgotten except by the likes of Joanna Lumley. This became more evident in London where along a side lane from Whitehall Avenue resides the life-sized stone statue of the eternal Gorkha soldier. The plan to raise a third battalion of Gorkha Rifles was abandoned though three Gorkha companies were raised for the Special Forces. Aldershot is where retired Gorkhas allowed residency in Britain live, while the battalion is further south. The other battalion is in Brunei for which the Sultan pays. Sadly, very few recognise the badges of the Gorkha Regiment any more. Why blame the Brits when we have offered the poor choice of Agniveer to Nepali Gorkhas who stopped joining five years ago? The British Army is 70,000 (with a reserve of 30,000) soldiers and Infantry

less than the size of our Gorkha Brigade. The Navy and Air Force together make another 70,000 warriors but all field state-of-the-art equipment including conventional and strategic forces which are the best in Europe. The military component of the Indian High Commission in Aldwych has been downsized from three officers to just one with a Naval Commodore holding the fort instead of the Army Brigadier. Returning to my trudge on the tarmac along Whitehall Avenue, the old MoD has become Raffles Hotel, RUSI next door nattered and a few meters ahead are bronze statues of leaders who won fame in India: Field Marshals Slim, Auchinleck, and Allanbrooke. Another Indian famous is the Duke of Wellington honoured in Trafalgar Square and Wellington Corner. The Brits nurture the military and that's one reason they are respected. Thoughts that wafted during the walk in the woods. We must learn.

(The writer, a retired Major General, was Commander, IPKF South, Sri Lanka, and founder member of the Defence Planning Staff, currently the Integrated Defence Staff; The views expressed are personal)

LETTERS TO THE EDITOR

WEST ASIA TURMOIL

Madam — Apropos, 'West Asia on fire' (September 30). Israel which had vowed 'enough is enough' in the aftermath of a brutal terrorist attack by Hamas on October 7 last year, has dealt a body blow to Hezbollah, the most powerful militant and political force in Lebanon, by eliminating its head Hassan Nasrallah, who had been a global figurehead of anti-Israeli resistance for decades. He had been a prime target of Israel since the last Lebanon War of 2008. Now, Hezbollah, considered the vital part of the Axis of Resistance, is leaderless and thus rudderless. However, Nasrallah's demise may only keep Hezbollah lying down for a while. It cannot be written off. Wounded but not destroyed, it may not be long before Hezbollah tries to avenge Nasrallah by raining a barrage of missiles on Israel to keep its people from returning to the northern region. Netanyahu stakes his political fortunes on this. Meanwhile, with thousands of its citizens fleeing northern Israel in wake of Hezbollah strikes, Israel's main task remains unaccomplished. Its bombarding Lebanon may go on till Netanyahu gets war-weary and domestic pressures mount or until breakthrough on the hostage issue. It is an opportune time for the international community should it desire to prevail upon Tel Aviv to agree for ceasefire. But peace is unlikely to return to Gaza till Hamas frees hostages and a ceasefire is reached.

N Sadasiva Reddy | Washington

NON BJP STATES WITHDRAW CBI CONSENT

Madam — Karnataka has joined the long list of states that have withdrawn general consent to the CBI to conduct investigations relating to corruption, economic offences and crime or violence in that particular state. The Delhi Special Police Establishment (DSPE) Act, 1946, under which the CBI was setup, has defined general consent and

Women education empowers India

Vice President Jagdeep Dhankhar made insightful remarks on the significance of women's education. He said that a developed India is incomplete without women's empowerment, which is a powerful reminder of the crucial role they play in our society. Women constitute a substantial portion of our

population, and their active participation in all spheres of life is essential for holistic development. By investing in women's education, we not only unlock their individual potential but also empower their families and communities. Educated women are more likely to make informed decisions regarding health, nutrition, and child-rearing, leading to healthier and more prosperous families. Moreover, women's education is a catalyst for economic growth. When women have access to education and employment opportunities, they contribute to the workforce, boost GDP, and reduce poverty. Their participation in decision-making processes ensures that diverse perspectives are considered, leading to more inclusive and equitable policies.

Fiza Fatima | Hyderabad

POTHoles OF CORRUPTION

Madam —No matter which party is in power, the conditions of the roads all over the nation are pathetic. It requires no rocket science to understand why this is happening. Corruption is the root cause as inferior quality materials are used due to cuts taken by everybody from top to bottom in passing tenders and clearing bills. Therefore, it is hard to be enthused about the promise of pothole free roads by the CM of Delhi Atishi Marlena. Accidents caused by bad roads have come at a great cost including injury and sometimes fatality with no accountability fixed for the loss, what is worse, it is not just potholes but literally craters the vehicles are expected to navigate. Recently, there was a container truck that was completely swallowed by the road. This despite the vehicle owners being made to pay all kinds of taxes for permission to park their vehicles on such roads!

Remembering Gandhi: A journey of justice and simplicity

Gandhi's transformative journey, which began with racial discrimination in South Africa, helped shape his lifelong pursuit of justice, equality and nonviolence

RAJDEEP PATHAK

On September 11, 2024, Union Minister for Culture, Gajendra Singh Shekhawat, inaugurated a restored railway coach at Gandhi Darshan, Rajghat, New Delhi. This coach, donated by the Ministry of Railways and painted in brown with a "III" marking for third class, represents Mahatma Gandhi's simple lifestyle and his close relationship with the Indian railways. A life-size sculpture of Gandhi stepping off the train further emphasises his connection with the masses. Organised by the Gandhi Smriti and Darshan Samiti, the exhibition offers an immersive experience of Gandhi's rail journeys. Shekhawat, in his address, highlighted how Gandhi turned the freedom struggle into a mass movement, remarking that the coach will inspire future generations to uphold the values of justice, equality, and peace for which Gandhi stood.

Gandhi's association with the railways was deeply symbolic and formative in his transformation from an ordinary lawyer to the leader of India's independence movement.

A key moment occurred on June 7, 1893, in Pietermaritzburg, South Africa, when Gandhi, then a young barrister, was forcibly removed from a first-class train compartment despite having a valid ticket. This act of racial discrimination left a lasting impact on Gandhi and ignited his lifelong dedication to justice and nonviolent resistance. He often referred to this incident as the turning point that set him on the path toward becoming the Mahatma.

Gopal Krishna Gandhi, Gandhi's grandson, poignantly reflected on this moment. He wrote that when Gandhi was thrown off the train, an Indian fell, but when Gandhi rose, both India and South Africa rose with him. The experience transformed Gandhi, turning a personal

Gandhi, trains were a means to engage with ordinary people and understand their struggles firsthand.

The challenging conditions he faced—overcrowded compartments, unsanitary surroundings—only strengthened his resolve to fight for social justice. His decision to travel third class symbolised his commitment to egalitarianism and helped transform the freedom struggle into a mass movement that resonated with the broader population.

Gandhi traveled by train from Calcutta to Delhi and stayed at Birla House where he spent the last 144 days of his life. During this time, he tirelessly worked for peace amidst the communal violence of Partition.

His assassination in January 1948 ended a life devoted to nonviolence and service to humanity. As we celebrate Gandhi Jayanti today as the International Day of Nonviolence, we are reminded of Gandhi's self-sacrifice, dedication, and compassion.

FIRST COLUMN

SLEEP, SPIRITUALITY AND THE MODERN MIND

Reclaiming quality sleep requires reconnecting with spiritual practices

AJIT KUMAR BISHNOI

In the famous poem "Childhood", Ravindra Nath Tagore bemoans the loss of innocence as a child grows up. One thing we can all agree that to sleep like a child is a great asset. But as we grow up our minds begin to play havoc with our sleep. Before I go any further let us understand the basics of sleep. Sleep is one of the most important biological functions and inadequate sleep can cause many problems. Sleep is the time when the body rejuvenates itself. Sleep restores physical well-being and removes fatigue related to emotional activities.

Our brains are beehives of activities during sleep, including the time when one is dreaming. How much sleep is required? It depends on each individual according to age, type of activities, level of activities, etc. Lord Krishna has mentioned sleep as one of the four activities, which must be appropriate. (The Bhagavad-Geeta 6.17) We need sleep excellence. What does the modern man do? There are three types. One cuts on sleep and another cannot fall asleep and resorts to drinks and drugs.

The third sleeps too much wasting precious human life. Taking up the busy ones, they have no respect for rules made by God – the Creator of our bodies. They feel that they can do with less sleep and nothing adverse will happen. But they get harmed in many ways.

The first causality is the energy level; it goes down. Physical health is affected in many ways, but it takes a long; one feels that he is fine until hit by some serious health problem. Performance declines; cognitive ability reduces; memory consolidation is affected as does mental health. You cannot copy someone else, because, as stated earlier,

er, it is, person specific – a bodily necessity. The second group suffers no less, if anything substantially more in the long term.

One thinks that he can order the body to sleep whenever one wants. Have you tried to postpone sleep? What happens? Circadian rhythms are 24-hour cycles that are part of the body's internal clock. Its primary function is sleeping and waking.

We cannot take charge; it controls us. So what does the modern man do? He resorts to artificially induced sleep by taking drinks and drugs. We all know what drinks do to our liver. And drugs are similarly harmful to the brain. Both are habit forming. One is stuck once this is continued over some time. Why is one unable to fall asleep, when bodily and mentally tired? Because we have allowed our minds to take charge of our lives.

We have unlimited desires for a sense of enjoyment, power, fame, etc. We are being driven by emotions like lust, greed, anger, hate, etc. By the way, drinks and drugs do not stop bad and scary dreams from coming, which leave a very bad feeling upon waking up.

The third kind harms oneself in more ways than one by making sleep one's shelter. Let us come to our senses. Shelter is available in God. There are simple spiritual practices, which connect one to God. He will help us curb our wrong tendencies, as only God can. But one has to first accept that one is wrong; one has to give up overblown ego.

It is quite strange that a small, ignorant and helpless soul has such a big ego. What is the conclusion? There is only one shelter, as instructed by Lord Krishna. You will get plenty of sleep and of good quality too sans bad dreams.

(The writer is a spiritual teacher; views are personal)

Transforming lives of the Indian farmers

SHIVRAJ SINGH CHOUHAN

Through modern infrastructure, expanded credit support, and sustainable farming methods, PM Modi's policies are revolutionising Indian agriculture

Prime Minister Narendra Modi's deep concern and sensitivity towards farmers is visible in the decisions, policies and plans taken for the farming community. Transforming the lives of our food providers (Annadata) is the first and foremost goal of our Prime Minister. This is the reason why agriculture and farmers remained the top priorities in the first 100 days of the third term of the NDA government. Under his leadership, the government is making unprecedented efforts for the empowerment and upliftment of the agriculture sector. We are committed to increasing farmers' income, which is reflected in schemes such as the Agriculture Infrastructure Fund (AIF), and PM AASHA. Post-harvest losses in India are a major challenge, which threatens the production capacity of the agricultural sector and it also adversely impacts the hard work put in by lakhs of farmers. According to the latest estimates, about 16-18 per cent of the total food production is affected every year in India due to this.

These losses can be attributed to various stages of agriculture such as harvesting, threshing, storage, transportation and processing. Lack of proper storage, cold chain, inadequate processing units, and lack of efficient logistics contribute to these huge losses, as a result of which the overall food security of our country gets affected.

Keeping all these factors in mind, the Modi government is working with renewed enthusiasm towards strengthening this. Under the able leadership of Prime Minister Narendra Modi, the government is making efforts to take the research of scientists from lab to land, due to which the cost of production has reduced considerably and profits have increased for farmers. The Prime Minister with a visionary approach launched the Agriculture Infrastructure Fund (AIF) way back in July 2020 as a transformative initiative under the 'Atmanirbhar Bharat' initiative. Its objective is to increase the income of farmers and address post-harvest management issues through farm assets to reduce food wastage. These challenges have to be addressed by promoting new projects and new age technologies. Under AIF, banks provide interest subvention of 3 per cent per annum with an interest cap of 9 per cent and financial institutions will provide loans up to Rs 2 crore with credit guarantee coverage under CGTMSE (Credit Guarantee Fund Trust for Micro and Small Enterprises) for loans. Through this initiative, the government aims to not only increase production to preserve quality and quantity, but also help farmers access markets more efficiently, and as a result, their income will also increase.

Due to the able leadership of the Prime Minister, the benefits of the scheme, till August 2024, the amount sanctioned under this scheme has crossed Rs 47,500 crore. Of this, more than Rs 30,000 crore has already been disbursed for various projects. Notably, 54 per cent of the projects that were sanctioned are linked to farmers, cooperative societies, agricultural production organisations and self-help groups (SHGs), which is in line with the Prime Minister's vision. It reflects the strong participation of farmers in providing farm-gate level infrastructure. Prime Minister Modi is very committed towards strengthening farm gate infrastructure to solve the major problem post-harvest losses in agricultural produce. He prioritised the development of infra-

structure in storage (dry and cold), transportation, etc., so that farmers could be protected from such crop loss. In terms of dry storage, in comparison to food grain production, India has an infrastructure in terms of 1,740 lakh metric tonnes of storage capacity, and at present, there is a shortage of 44 per cent in the storage capacity for the overall grain production in India, which is very concerning.

Similarly, for horticulture produce, about 441.9 lakh metric tonnes of cold storage is available in India, while the cold chain capacity is only 15.72 per cent of the production of fruits and vegetables in the country. AIF initiative has helped bridge the storage capacity gap by approximately 500 lakh metric tonnes. Contributing to saving about Rs 5,700 crore post-harvest losses for the nation. Furthermore, under the leadership of the Prime Minister, the development of proper cold storage facilities has reduced the loss of horticulture products by 10 per cent, due to which 3.5 lakh metric tonnes of produce is being secured post harvest and about Rs 1,250 crore is being saved every year. This commitment of the Prime Minister towards the agriculture sector and farmers will not only ensure economic empowerment but also raise their standard of living. Under the guidance of the Prime Minister, the AIF is providing new impetus to the growth and development of agricultural infrastructure. As of August 2024, as many as 74,695 agriculture infrastructure-related initiatives across the country have been approved under AIF. These include 18,508 custom hiring centres, 16,238 primary processing centres, 13,702 warehouses, 3,095 sorting and grading units, 1,901 cold stores and cold chains, and 21,251 other types of infrastructure facilities. These 74,695 projects have attracted a total investment of Rs 78,702 crore in the agriculture sector since 2015, which marks significant progress in the sector. Prime Minister Modi has encouraged entrepreneurship among farmers, as approximately 50,000 new agricultural enterprises have been set up in the country. These efforts have helped create more than 8,00,000 employment opportunities, and this number will only increase in the future, even-

tually leading to the creation of 2.5 million jobs, directly or indirectly. The Prime Minister's welfare policies have brought about positive changes in the working style of farmers. The creation of advanced infrastructure on farms has facilitated farmers to sell directly to a wider consumer base, thereby enhancing price realisation and increasing their overall income. Due to modern packaging and cold storage systems, farmers can time their market sales more strategically, resulting in better value realisation.

On average, this infrastructure initiative has enabled farmers to get 11-14 per cent higher prices for their produce. Prime Minister Modi's policies will not only encourage the development of agricultural infrastructure but also reduce credit risk. Through credit guarantee support and interest subvention, lending institutions can give loans with minimal risk, thereby helping their customers. This helps in expanding their base and portfolio diversification. Significantly, this fund is involved in the creation of agricultural infrastructure in collaboration with the refinancing facility of NABARD, reducing the effective interest rate for Primary Agricultural Cooperative Societies (PACS) to 1 per cent.

This has brought significant benefits to thousands of farmers associated with such PACS. Under AIF, 9,573 PACS projects have been approved with a loan amount of Rs 2,970 crore to date by NABARD. In an important step under the leadership of Prime Minister Narendra Modi, the central government has approved the progressive expansion of the ambitious Agriculture Infrastructure Fund scheme, making it more inclusive and substantially more influential. The make agriculture a profitable business we have come up with a six-point strategy to increase the income of farmers, such as increasing production, reducing the cost of farming, fair prices for production, providing the appropriate amount of relief during natural disasters, diversification of agriculture and natural farming.

At present, some promising projects for agricultural asset development, such as hydroponic farming, mushroom cultivation, vertical farming,

aeroponic farming, polyhouse and greenhouse, are reserved for only farmer groups and collectives. Now by expanding the scheme coverage to include integrated processing projects, farmers will get better prices for their produce through the creation of integrated processing plants, which include both primary and secondary processing. In addition to this, component A of PM-KUSUM (Pradhan Mantri Kisan Urja Suraksha Evam Utthaan Mahabhiyan) Yojana provides the facility for the installation of solar power plants up to 2 MW on barren, fallow, cultivable, pasture or marshy lands, and it can be easily converged with the AIF scheme. This strategic convergence will help individual farmers and empower farmer groups, enhancing their role from being 'Annadata' (food givers) to 'Urjadata' (energy providers). The dedicated credit guarantee cover window, which was exclusively kept for FPOs, i.e. NAB Sanrakshan Trustee Company Private Limited, will remain open for AIF beneficiaries as well, where they will be eligible for guarantee fee reimbursement. These changes will increase processing capabilities, diversify food production, and increase and improve the quality of the yields.

They will increase the shelf life of the produce, boost transport capacity and improve rural supply by linking it to the urban demand. Additionally, these changes will help in generating rural employment opportunities. Under the leadership of Prime Minister Narendra Modi, the Agriculture Infrastructure Fund is making a significant contribution towards the development of the agriculture sector and empowerment of Indian farmers, by providing a sustainable solution. Due to the visionary leadership of Prime Minister Narendra Modi, even the minutest problems faced by farmers are being resolved, intense communication and combined efforts have brought a new dawn in the context of farmers' welfare, and this will prove to be a key milestone to fulfil the dreams of a developed agriculture sector of a 'Viksit Bharat'.

(The writer is the Minister of Agriculture and Farmers Welfare, Rural Development; views are personal)

THE PRIME MINISTER WITH A VISIONARY APPROACH LAUNCHED THE AGRICULTURE INFRASTRUCTURE FUND (AIF) WAY BACK IN JULY 2020 AS A TRANSFORMATIVE INITIATIVE UNDER THE 'ATMANIRBHAR BHARAT' INITIATIVE

Navigating manufacturing landscape: Bridging growth, disparities, and industrial ambitions

India stands as the world's fifth-largest manufacturing powerhouse, generating nearly \$560 billion in goods annually

India is the world's fifth largest manufacturing powerhouse producing nearly 560 Billion Dollars' worth of goods per year but our share in global manufacturing output is below 3 per cent. And the share of manufacturing in India's Gross Value Added (GVA) is stuck at just 17 per cent, not far ahead of the share of agriculture. It is often stated that India seems to be transitioning directly from a primary sector-dominant economy into one dominated by the service sector.

The question often asked is whether manufacturing is going to play its part in India's often paradoxical and counter-intuitive growth story. However, one element of India's industrial landscape is quite predictable. The concepts

RAJESH KUMAR SINGH

of growth poles first propounded by the French Economist Perroux along with its accompanying concepts of the inevitability of unbalanced regional growth in industrial clusters, with an agglomeration effect that will accentuate regional diversity, seems pretty close to India's development experience. Thus, even where India had set up new industrial townships in

places like Rourkela, Bokaro or even Jamshedpur in an earlier era, these do not appear to have led to broader regional development, with the nearby hinterland areas remaining under-developed for the most part.

The broader issue of regional disparities that have emerged in India has been sought to be addressed institutionally by the various Finance Commission's devolution formula which gives overwhelming weightage to per capita income and, therefore, ensures higher resource flows into backward areas.

The market, on the other hand, has responded to these disparities by the movement of migrant labour to the faster growing parts of the country, with the migrant labour being

the unsung hero of the construction and manufacturing growth in these areas. The concepts of growth poles and growth centres are now being supplemented by the phenomena of port-led industrial growth with major ports, old and new, serving as growth centres in many countries. The National Industrial Corridor Development Programme (NICDP) takes on the challenges of accelerating India's manufacturing growth, creating multiple industrial growth foci and linking industrialisation to transport nodes, head-on.

The NICDP has focused on the development of industrial townships adjacent to 11 key transport corridors. Eight such townships had been approved till the current

year, four of which are shovel-ready with the industrial plots being allotted, and four others are being implemented with trunk infrastructure being set up. As against eight projects implemented or under implementation over the last 17 years, the Government has recently approved twelve such smart industrial cities in 10 States, at one go, with a big bang approach which is characteristic of PM Modi's style which focuses on Speed and Scale.

All these sites have been validated using the geospatial data on the PM Gati Shakti National Platform to minimise disturbances to existing habitations and ecology, with prioritisation to availability of land parcels with the State Governments, covering land of relatively lesser agricultural value, with proximity to major transport modes for multi-model connectivity.

A new aspect of using PM Gati Shakti to not only ensure the enhancement of transport infrastructure for improved connectivity but also to combine such network planning with an area planning approach by asking States to start filling social infrastructure gaps (schools, Anganwadis, ITIs, accommodation) concurrently with pro-

ject implementation, has been initiated.

This combination of transport network planning and area planning should lead to these green field industrial cities getting plug and play infrastructure and multi-model transport links ahead of demand for the private sector and particularly for foreign investors who wish to participate in India's growth story. It may be recalled that India's Ease of Doing Business (EoDB) ranking had improved from 143 in 2014 to 63 in 2020, in the last year that such rankings were published by the World Bank. While contract compliances and improvement are linked to the broader issue of judicial reform, the NICDP programme will substantially address, along with

parallel initiatives by the States, the issues of land availability and its transparent administration, for any investors seeking industrial sites in these cities. The NICDP Programme also de-risks the investor from one key compliance burden that new investors are concerned about, the issue of environmental clearances by ensuring that full environmental clearance for the entire township is already in place and is backed up by a full spectrum of utility services like power, sewage and waste treatment, roads etc., in a smart city with state-of-the-art infrastructure and digitized grievance redressal mechanisms.

School bus in Bangkok catches fire, more than 20 feared dead

AP ■ BANGKOK A bus carrying young students with their teachers caught fire in suburban Bangkok on Tuesday, with more than 20 of those on board feared dead, officials and rescuers said.

plumes of black smoke pouring out as it stood on the side of the road. Bodies were still inside the bus hours after the fire. The students on the bus were reported to be in elementary and junior high school.

Road ahead may be stormy, Xi warns as China celebrates 75th National Day

PTI ■ BEIJING China celebrated its 75th National Day Tuesday, with President Xi Jinping issuing a stern warning that the road ahead for the Communist nation won't be smooth as it is weighed down by economic headwinds coupled with intensifying rivalry with the US and growing tensions with neighbours, including India.

Party, the military and the Presidency. 71-year-old Xi is currently in his unprecedented third five-year term and expected to continue life-long in power. The People's Republic of China (PRC) was formed in 1949 after the Communists headed by Mao Zedong seized power in the civil war while the nationalists led by Chiang Kai-shek retreated to Taiwan, which over the years emerged as the self-governing island adhering to a democratic system.

seas, even stormy seas," Xi said at a banquet on the eve of the anniversary as China tries to regain economic momentum amid an increasingly challenging set of geopolitical headwinds. "We must be vigilant in times of peace, plan ahead, and rely closely on the entire (Communist) Party, the entire army, and people of all ethnic groups across the country," he said.

ed to Taiwan, which over the years emerged as the self-governing island adhering to a democratic system. But 75 years on Taiwan's integration with the mainland continues to be an unfinished agenda for China's Communist Party, especially for Xi, who has been vowing to reunify it with China.

Public Notice To be known to all that, Smt. Promila Raweri wife of Late Shri Satish Kumar Raweri, R/o 4/63, First Floor, Ramesh Nagar, New Delhi-110015, is the absolute owner/mutah of physical possession of D.A. BUILT-UP 5F5 FLAT NO. 101, 7th Floor, Block-06-1, SITUATED AT PASCHIM VIHAR, DELHI-110063, which has been allotted by DDA vide File No. F-66(8846)93/95/1941 dated 15.01.1984 and applied for conversion from lease hold into free hold of said flat in D.D.A. The Original Allotment cum Demand Letter/Possession Letter, Possession Slip and NOC for Water & amp; Electricity Connection and other related documents of said flat have been lost. An F.I.R. to this effect has been lodged. Also, wrong computation in finance bid will be liable for rejection. For reference Estimate is enclosed. Detastimate for sweeping of streets, collection of garbage, cleaning of drains & lifting of garbage from Ward No. 1 to 15 of Patnagarh NAC

South Korea unveils its most powerful missile

AP ■ SEOUL South Korea unveiled its most powerful ballistic missile and other weapons that could target North Korea during a massive Armed Forces Day ceremony on Tuesday, as the South's president warned the North's regime would collapse if it attempts to use nuclear weapons. South Korea's weapons displays and warning against North Korea came after its northern rival recently rose regional animosities by disclosing its uranium-enrichment facility and test-ed missiles ahead of the US presidential election in November. "If North Korea attempts to use nuclear weapons, it will face the resolute and overwhelming response of our military and the (South Korea)-US alliance," President Yoon Suk Yeol told thousands of troops gathered at a military airport near Seoul. "That day will be the end of the North Korean regime." "The North Korean regime must abandon the delusion that nuclear weapons will protect them," Yoon said. During the ceremony, the South Korean military displayed about 340 military equipment and weapons systems. Among them was its most powerful Hyunmoo-5 ballistic missile, which observers say is capable of carrying an 8-ton conventional warhead that can penetrate deep into the earth and destroy underground bunkers in North Korea. It was the first time for South Korea to disclose that missile. The United States flew a long-range B-1B bomber during the

ceremony in an apparent demonstration of its security commitment to its Asian ally. South Korea also flew some of its most advanced fighter jets. Later Tuesday, South Korea paraded its troops and weapons through the streets of Seoul, the country's capital, as part of efforts to boost military morale and demonstrate its deterrence capabilities against potential North Korean aggressions. Since taking office in 2022, Yoon, a conservative, has put a stronger military alliance with the US and an improved trilateral Seoul-Washington-Tokyo security cooperation at the centre of his security policies to cope with North Korea's advancing nuclear programme. In recent years, North Korea has performed a provocative run of missile tests and threatened to use nuclear weapons preemptively in potential conflicts with South Korea and the United States. Last month, concerns about North Korea's bomb programme further grew after it published photos of a secretive facility to enrich uranium for nuclear weapons. It was North Korea's first unveiling of a uranium-enrichment facility since it showed one at the country's main Yongbyon nuclear complex to visiting American scholars in 2010. South Korean officials say North Korea will likely try to further dial up tensions with high-profile weapons tests ahead of the US election to increase its leverage in future diplomacy with a new US government. Experts say North Korea likely thinks an expanded nuclear arsenal would help it win bigger US concessions like extensive sanctions relief.

NORTHERN RAILWAY OPEN TENDER NOTICE The Divisional Engineer-I, Northern Railway, DRM Office, Delhi Division, State Entry Road, New Delhi-110055, for and on behalf of the President of India invites sealed open electronic tenders for under noted work-

E-AUCTION PROGRAMME FOR THE MONTH OF OCTOBER 2024 E-Auction programme for Sale of Railway Scrap material under jurisdiction of Dy.CMM/NFR/New Jaipalguri for the month of OCT 2024 is hereby fixed as under:

GOVERNMENT OF GOA National Vector Borne Disease Control Programme. Directorate of Health Services, Campal, Panaji, Goa 403 001. Phone: 0832-2225837, Fax 0832-2222037 Email: nvbdpegoo@gmail.com No: DHS/NVBDCP/CYP/2024-25/636 Dated: 17/10/24

Several notices have been sent to the Allottee, but no response has been received to date. The Allottee has failed to adhere to the terms and conditions of the Builder Buyer Agreement.

India's manufacturing growth hits eight months low in September

PTI ■ NEW DELHI
India's manufacturing sector growth fell to an eight-month low in September amid softer increase in factory production, sales and new export orders, a monthly survey said on Tuesday. The seasonally adjusted HSBC India Manufacturing Purchasing Managers' Index (PMI) fell from 57.5 in August to 56.5 in September, registering the weakest pace of growth since January. In PMI parlance, a print above 50 means expansion, while a score below 50 denotes contraction. "Momentum in India's manufacturing sector softened in September from the very strong growth in the summer months. "Output and new orders grew at a slower pace, and the deceleration in export demand growth was

especially evident as the new export orders PMI was the lowest since March 2023," Pranjul Bhandari, Chief India Economist at HSBC, said. The September PMI data revealed a mild setback in manufacturing growth across India. For the third straight month, rates of expansion in factory production and sales receded. Morevoer, international orders rose at the slowest pace in a year-and-a-half.

intensifying the compression on manufacturers' margin. "Weaker profit growth might have an impact on companies' hiring demand, as the pace of employment growth slowed for a third month," Bhandari noted. Hiring growth also receded in September, reflecting a reduction in the number of part-time and temporary workers. Going ahead, the overall level of business confidence fell to its lowest since April 2023. Around 23 per cent of Indian manufacturers forecast output growth in the year ahead, while the remaining firms predict no change. The HSBC India Manufacturing PMI is compiled by S&P Global from responses to questionnaires sent to purchasing managers in a panel of around 400 manufacturers.

Car sales fluctuate in September

PNS ■ NEW DELHI

The Indian automotive market has showcased a diverse performance among key players in September, reflecting varying consumer preferences and market conditions. Talking about the stats, Mahindra & Mahindra reported a notable 24% surge in SUV sales, achieving 51,062 units compared to 41,267 units in the same month last year. The company also saw overall sales, including commercial vehicles (CVs) and three-wheelers, rise 16% year-on-year to 87,839 units. As the festive season approaches, Mahindra is also set to launch the much-anticipated Thar RoXX on October 3. Conversely, JSW MG Motor India experienced an 8% decline in retail sales, with only 4,588 units sold compared to 5,003 units in September 2022. The automaker noted that new energy vehicles (NEVs) accounted for 49% of their total sales, emphasizing a shift in consumer interest amidst market challenges.

Toyota Kirloskar Motor reported a 14% increase in wholesales, reaching 26,847 units, up from 23,590 units last year. The brand's success is attributed to significant growth in its SUV, MPV, and small car segments, bolstered by strategic operational

improvements that reduced waiting periods for popular models. Hyundai Motor India faced a 10% dip in total sales, down to 64,201 units from 71,641 units in the previous year. Domestic dispatches also fell by 6%, with exports down 25%. The company noted that SUVs now comprise 70% of its overall sales and introduced new models to attract consumers during the festive season. In addition the domestic dispatch of vehicles to dealers saw a 6 per cent dip to 51,101 units last month from 54,241 units in the year-ago period. Finally, Maruti Suzuki India showcased a slight 2% increase in total sales, reaching 1,84,727 units, up from 1,81,343 units a year prior. Sales of compact cars, including Baleno, Celerio, Dzire, Ignis, Swift, Tour S and WagonR, however, declined to 60,480 units as compared to 68,551 units in the year-ago month. However, domestic passenger vehicle sales declined by 4%, despite growth in utility vehicle sales. Exports showed positive momentum, rising to 27,728 units from 22,511 units last September. Overall, the fluctuating sales figures reflect a complex landscape in the Indian automotive market, influenced by consumer trends, economic conditions, and the approaching festive season.

Andhra Pradesh notifies new liquor policy

PTI ■ VIJAYAWADA

The Andhra Pradesh government has notified a new liquor policy, allowing private retailers to sell spirits on the lines of Haryana and others with the state expecting to rake in Rs 5,500 crore revenue. In a complete overhaul of excise policy based on best practices from other states, Andhra Pradesh has decided retail sales of liquor through 3,736 notified private shops across the state. The new policy will take effect from October 12, 2024, as per the notification dated September 30, 2024. The permission to sell IMFL (Indian-made foreign liquor) and FL (foreign liquor) will be granted to private persons or entities through a selection process, the notification said. The period of licence for

selling IMFL and FL by shops shall be from October 12, 2024 to September 30, 2026, it added. Out of the total number of shops to be licensed in 2024-26, as many as 3,396 will be in the open category, while 340 shops will be reserved for allocation to 'Geetha Kulalu'

(a toddy tapping community) with a view to empower them and promote equity and social justice. The selection process for granting licence will be through a draw of lots and an applicant can apply for more than one shop. There shall be no restriction on the number

of shop licences a person can hold, it added. Applicants will have to deposit a non-refundable fee of Rs 2 lakh for each shop. As per the notification, the retail excise tax (RET) ranges from Rs 50 lakh for locality with population of 10,000 to Rs 85 lakh per annum for a

municipality or municipal corporation having population above 5 lakh during the fiscal 2024-2025. It will be increased by 10 per cent for 2025-26. The overall exercise is estimated to result in the state government raking in Rs 5,500 crore. The RET per annum shall be paid in six equal advance instalments as applicable for each year during the licence period 2024-26. As per the notification, the retailer margin will be 20 per cent on issue price across all categories of IMFL and FL, including beer, wine and RTDs (ready to drink). For the premium stores, the notification said, "In order to provide an enhanced and high-end retail experience within the state of Andhra Pradesh, a total of 12 Premium Store Licences shall be granted as a separate

category." These premium stores shall be strategically located across major municipal corporation cities namely Vijayawada, Visakhapatnam, Rajamahendravaram, Kakinada, Guntur, Nellore, Kurnool, Kadapa, Anantapur or any other city as notified by the state government from time to time, it added. A cabinet sub-committee of the state government had studied the excise policies of states such as Telangana, Karnataka, Tamil Nadu, Kerala, Rajasthan and Uttar Pradesh and also took extensive feedback from key stakeholders, before framing the latest policy. It had assessed the performance of the existing policy with respect to public health impact and other critical metrics including revenue generation efficiency, the state government said.

SEBI to enhance F&O regulations

PTI ■ NEW DELHI

Capital markets regulator Sebi is expected to take measures regarding the Futures and Options (F&O) segment very soon, in a bid to enhance investor protection, its senior official said on Tuesday. In addition, Sebi has urged the government to introduce tax breaks for subscribers of municipal bonds, which are crucial for funding infrastructure development. The regulator will make a case for a tax break for municipal bonds during a meeting with the finance commission, the regulator's whole time member Ashwani Bhatia said here. Since 1997, municipalities have raised Rs 2,700 crore through bonds for infrastructure projects. Talking about F&O, Bhatia said, "Sebi is very soon going to do something about F&O. Study has come (recently)". The regulator, in its consultation paper recently, proposed seven measures to tighten the rules for index derivatives-- revise the minimum contract size and require upfront collection of option premiums intra-day monitoring of position limits, rationalisation of strike prices, removal of calendar spread benefit on expiry day and increase in near contract expiry margin. If implemented, these measures

would help in improving risk management and increase transparency in the derivatives market. In its consultation paper, the regulator had suggested to revise the minimum contract size for index derivatives in two phases, considering market growth. In phase 1, the minimum contract value at the time of introduction should be between Rs 15 lakh and Rs 20 lakh. After six months, phase 2 will raise the minimum value to between Rs 20 lakh and Rs 30 lakh. The current minimum contract size of Rs 5 lakh to Rs 10 lakh was last set in 2015. A recent study by Sebi revealed that 93 per cent of over 1 crore individual F&O traders incurred average losses of around Rs 2 lakh per trader (inclusive of transaction costs) during the three years from FY22 to FY24. The aggregate losses of individual traders exceeded Rs 1.8 lakh crore over the three-year period between FY22 and FY24.

CAG: Development of hinterland essential for India's goal of Viksit Bharat by 2047

PTI ■ NEW DELHI

Without the development of hinterland, India cannot become Viksit Bharat or a developed nation by 2047, Comptroller and Auditor General of India (CAG) Girish Chandra Murmu said on Tuesday. Noting that decentralisation of power has not taken to the extent it should have happened, he said, gram sabha or rural bodies are yet to get its due importance in the federal structure. "Without the development of grassroots level at the local level, we cannot achieve

Viksit Bharat. More than 50 per cent people live in rural area, and until their governance, their development, their administration, their resources are not augmented, we will not be able to reach (Viksit Bharat goal). As our prime minister says that if everyone take one step, we will have 1.4 billion steps... That is why Jan Bhagidari is important," he said. There are about 2,60,000 panchayats and 7,000 urban local bodies in the country. He emphasised the need for strengthening of local bodies

so that efficiency of government schemes are achieved and the sooner it happens, the better it is for the country. Sustainable Development Goals (SDGs) cannot be achieved without strengthening local bodies, he said, adding, that accounting and auditing play important roles in flow of funds to the local bodies. With regard to urban local bodies, the CAG said, municipal corporations cannot be given permission to raise resources from market if they have not followed proper accounting norms.

Lenders recover ₹ 3.5 lakh crore through IBC: IBBI Chairperson

PTI ■ NEW DELHI

Lenders have recovered Rs 3.5 lakh crore through resolution of stressed assets under the insolvency process in the last eight years, a period during which NCLT approved 1,000 resolution plans, IBBI Chairperson Ravi Mital said on Tuesday. The Insolvency and Bankruptcy Code (IBC) provides for a market-linked and time-bound resolution of stressed assets. The National Company Law Tribunal (NCLT) and the Insolvency and Bankruptcy Board of India (IBBI) are key

institutions in the IBC ecosystem. In the last two years, NCLT has cleared 450 resolution plans. This accounts for 45 per cent of the 1,000 such plans approved in the last eight years, Mital said at a function to mark the eighth foundation day of the IBBI. According to him, Rs 3.5 lakh crore has been recovered

directly by lenders, of which Rs 1 lakh crore was in the last two years. Under the IBC, the recovery is about 84 per cent of the assets' fair value, as per official data. Chief Economic Advisor V Anantha Nageswaran said a continuously improving and evolving bankruptcy system is important for economic growth.

Digi Yatra to be made available in regional, international languages

PTI ■ NEW DELHI

Digi Yatra, which seeks to provide seamless movement at airport check points, will be made available in regional and international languages, according to a senior official. The facility is now available at 24 airports and is expected to be rolled out at 4-5 more airports in the coming months. Digi Yatra Foundation CEO Suresh Khadakbhavi on Tuesday said a pilot project is likely by June next year for connecting two countries with Digi Yatra. Under the pilot project, foreign citizens will be able to use Digi Yatra. Speaking at the CAPA India Digital Aviation Summit in the national capital, Khadakbhavi said a campaign will be started to sensitise passengers about the facility. While Digi Yatra is slowly gaining traction, concerns have been expressed in various quarters about the privacy of data of the passengers. He said Digi Yatra will be made

available in regional and international languages. Based on Facial Recognition Technology (FRT), Digi Yatra provides for contactless, seamless movement of passengers at various check points at airports. A not-for-profit entity, the foundation is the nodal agency for Digi Yatra, which was introduced in December 2022. The shareholders of the foundation are Airports Authority of India (AAI), Cochin International Airport Ltd (CIAL), Bangalore International Airport Ltd (BIAL), Delhi International Airport Ltd (DIAL), Hyderabad International Airport Ltd (HIAL) and Mumbai International Airport Ltd (MIAL).

Jet fuel prices cut, LPG hiked

PTI ■ NEW DELHI

Jet fuel, or ATF, price was on Tuesday reduced by 6.3 per cent to its lowest level this year, while the rate of commercial LPG used in hotels and restaurants was hiked by Rs 48.5 per 19-kg cylinder in the monthly revision done in line with international oil price trends. Aviation Turbine Fuel (ATF) price was cut by Rs 5,883 per kilolitre, or 6.29 per cent, to Rs 87,597.22 per kl in the national capital, according to state-owned fuel retailers.

This is the lowest price of jet fuel this year. The price reduction, the second in a month, will help ease the burden of airlines for whom fuel makes up for almost 40 per cent of the operating cost. Prices were on September 1 cut by Rs 4,495.5 per kl, or 4.58 per cent. The ATF rate in Mumbai was reduced to Rs 81,866.13 per kl on Tuesday from Rs 87,432.78 previously. Prices differ from state to state depending on the incidence of local taxes. Alongside, oil firms increased the price of commercial LPG

Reliance Infra approves US \$ 350 million fundraise

PNS ■ NEW DELHI

The Board of Directors of Reliance Infrastructure Limited (Reliance Infrastructure) on Tuesday approved raising of funds upto US\$ 350 million (INR 2,930 cr) to VFSI Holdings Pte. Limited, an affiliate of Värde Investment Partners, LP, a leading global alternative investment firm. The FCCBs will be unsecured and will have ultra-low cost coupon of 5% p.a. with a long maturity of 10 years. The FCCBs will be convertible into Equity Shares at INR 330 per share. The Board of Directors also approved an Employees Stock Option Scheme (ESOS) for all employees of the Company and its subsidiaries. ESOS provides for grant of upto 2,60,00,000 fully paid-up equity shares of INR 10 each, representing approximately 5% of the Company's fully diluted capital.

MANE LEADS AIR RIFLE DOMINANCE WITH DOUBLE GOLD

PTI ■ NEW DELHI
It was double delight for Parth Rakesh Mane as he was crowned junior world champion in 10m air rifle and also claimed a team gold to lead India's impressive performance at the ongoing ISSF Junior World Championship in Lima, Peru. In a thrilling 24-shot final, the 16-year-old Mane overcame a field oozing class with consummate ease, shooting 250.7 to edge out reigning junior Asian champion Huang Liwanlin of China by 0.7 points. Braden Peiser of the USA took the bronze medal. Paris Olympic silver medallist Victor Lindgren of Sweden was fourth while reigning double junior world champion Romain Aufrere was sixth. Parth's own compatriots, the in-form Ajay Malik and the seasoned-at-15 Abhinav Shaw finished fifth and seventh

respectively. Ajay went down in shoot-off to Lindgren to finish with 186.7 while Abhinav bowed out in seventh with 144.2. Mane also won the men's team event alongside Ajay Malik and Abhinav Shaw. India's third gold of the day came when Gautami Bhanot, Sambhavi Kshirsagar and Anoushka Thakur also picked up the junior women's 10m air rifle team title. Earlier in the 62-strong qualification round, Malik secured second place with a score of 628.8, followed by Mane in fourth with 627.7, and Shaw in sixth with 627.0 after 60 shots. Their combined total of 1883.5 easily surpassed teams from the USA (1877.6) and Germany (1873.9) to win the team gold. Two other Indians in the fray Umamahesh Maddineni (625.5) and Talwar Singh (625.2) finished 13th and 14th respectively.

INDIA SURGES AT LIMA JUNIOR WORLDS

Three Indians also made the junior women's air rifle final but missed out on individual medals. Gautami Bhanot finished second in the 90-strong qualification field with a score of 634.7 as China's Wang Zifei topped with a junior world record score of 635.7. Shambhavi Kshirsagar finished fourth (632.6) and Ojasvi Thakur (631.4) qualified in fifth place. Anoushka Thakur was 17th with 627.5, while Saumya Khedkar was 20th with 627.4. Gautami then finished fourth in the final, going down to the bronze-winning US athlete by 0.2 after the 20th shot. She finished with a score of 209.3. Shambhavi (188.4) was fifth and Ojasvi (146.1) bowed out in seventh place. Gautami and Shambhavi, however, combined effectively with Anoushka Thakur to clinch the team competition, bossing USA with a junior world team record score of 1894.8. Norway was third. Indians also competed in the junior men's and women's skeet competition at the shotgun ranges but couldn't reach the finals. Gurfateh Singh Sandhu finished 29th with a score of 112 in qualification, while Bhavtegh Singh Gill shot the same score in the junior men's skeet to finish 31st on countback. Harmehar Singh Lally was 44th with 107. In junior women's skeet, Mansi Raghuvanshi was the best placed Indian in shotgun. Her score of 109 giving her 8th place as she missed out on qualification by a point. Mufaddal Dessawala and Shivani Raikwar shot scores of 98 each to finish in 30th and 31st positions respectively. With five gold medals till date, India continues to lead the overall medal tally at the championship.

HI announces 40 probables for national camp to prepare for home series against Germany

PTI ■ NEW DELHI
Hockey India on Tuesday announced a 40-member core probable squad for the senior men's national coaching camp in Bengaluru to prepare for the upcoming two-match home series against world champions Germany. The team for the two matches against Germany to be played at Major Dhyan Chand National Stadium here on October 23 and 24 will be selected from the camp. The camp will run from October 1 to 19. The team heads into this camp following their recent successes that include a second consecutive bronze medal at the Paris Olympics and a successful title defence at the Asian Champions Trophy in China. The focus will be on honing

skills of the players and strategies during matches, a Hockey India release said. India captain Harmanpreet Singh said the camp will help in ensuring that the team is well-prepared and in peak condition before facing Germany. "Playing against the world champions is a tremendous opportunity for us to showcase our abilities, and having an exciting mix of players in this camp will allow us to improve our strategies and build the cohesion needed," he said. "Each player in this core group brings unique strengths and varying levels of experience and we'll be focusing on how to harness these individual talents and help us grow as players. "Our objective is to create an environment where everyone pushes each other and by the end of this camp, we want to be an even stronger and better coordinated team."

- Goalkeepers:** 1. Krishan Bahadur Pathak; 2. Pawan; 3. Suraj Karkera; 4. Mohith
Defenders: 1. Jarmanpreet Singh; 2. Amit Rohidas; 3. Harmanpreet Singh; 4. Sumit; 5. Sanjay; 6. Jugraj Singh; 7. Amandeep Lakra; 8. Nilam Sanjeev Xess; 9. Varun Kumar; 10. Yashdeep Siwach; 11. Dipsan Tirkey; 12. Mandeep Mor
Midfielders: 1. Rajkumar Pal; 2. Shamsheer Singh; 3. Manpreet Singh; 4. Hardik Singh; 5. Vivek Sagar Prasad; 6. Nilakanta Sharma; 7. Moirangthem Rabichandra Singh; 8. Mohammed Raheel Mousen; 9. Vishnukant Singh; 10. Rajinder Singh; 11. Poovanna CB
Forwards: 1. Abhishek; 2. Sukhjeet Singh; 3. Lalit Kumar Upadhyay; 4. Mandeep Singh; 5. Gurjant Singh; 6. Angad Bir Singh; 7. Aditya Lalage; 8. Bobby Singh Dhami; 9. Sudeep Chirmako; 10. S. Karthi; 11. Maninder Singh; 12. Shilanand Lakra; 13. Dilpreet Singh.

Pegula out of China Open after a 4th round loss to Badosa

AP ■ BEIJING
Paula Badosa reeled off 11 of the last 12 games in a 6-4, 6-0 victory over US Open finalist Jessica Pegula at the China Open on Tuesday to reach her eighth career quarter-final at a WTA 1000-level event. From 3-1 down in the opening set, former No. 2-ranked Badosa dominated in her first-ever win over third-ranked Pegula. "She's one of the players I never want to face -- she's very solid, hits very flat, changes very well direction," said Badosa, who was 0-3 previously against Pegula. "I prepared myself for a battle, but I think today everything worked pretty well. "Every point was very important for me, especially against Jessica, because she can come back at any moment." Badosa next faces 35-year-old Chinese player Zhang Shuai, who continued her resurgence with a 6-4, 6-2 win over Magdalena Frech of Poland. Zhang entered the China Open on a 24-match losing streak and ranked No. 595, but she's yet to drop a set in four matches this week. That includes eliminating US Open semi-finalist Emma Navarro in straight sets for her first win over a Top 10 player in two years. Zhang is now in her first women's tour quarter-final since Tokyo in 2022, and her first at a WTA 1000 tournament since Cincinnati in the same year. Later Tuesday, No. 14-ranked Anna Kalinskaya was scheduled to meet Yulia Starodubtseva of Ukraine, before the marquee women's match of the day between four-time major winner Naomi Osaka and sixth-ranked Coco Gauff. It will be the first meeting between the two Grand Slam champions in over two years, with the head-to-head series tied at 2-2. On the men's side, Carlos Alcaraz was playing fifth-ranked Daniil Medvedev in the first semi-final, with the Spaniard holding a 5-2 advantage in their head-to-head history. Defending champion and top-ranked Janner Sinner was set to face No.

Ronaldo scores winner for Al-Nassr in AFC Champions League Elite

AP ■ RIYADH
Cristiano Ronaldo scored the winning goal as Al-Nassr of Saudi Arabia defeated Al-Rayyan of Qatar 2-1 in the AFC Champions League Elite group stage on Monday. The five-time Ballon d'Or winner missed Al-Nassr's opening 1-1 draw against Al-Shorta of Iraq two weeks ago because of a viral infection. On Monday, he had a goal ruled out for offside, but his shot into the top corner with 14 minutes remaining in Riyadh proved to be decisive. Former Liverpool forward Sadio Mane headed home for Al-Nassr just before the break and the points seemed secure when Ronaldo added a second. Al-Rayyan came back in the game three minutes from the end when Roger Guedes scored from close range. Al-Nassr, seeking a first Asian

Mumbai City FC hope happy homecoming against high-flying Bengaluru FC

PTI ■ MUMBAI
Mumbai City FC would look to notch their first win in the Indian Super League (ISL) this season and move up the points table when they face high-flying Bengaluru FC in a clash between two heavyweights here on Wednesday. Bengaluru have made a commanding start, winning all their three outings so far to sit atop the points table, while Mumbai are surprisingly placed at 11th after two away matches, with just one point. Mumbai have found the back of the net in their previous eight matches at home and are looking to equal their longest such ISL run, having done so in nine meetings between October 2022 and February 2023. Interestingly, they have also won their previous three matches versus Bengaluru. Bengaluru have scored one-third of their goals in the competition this year within the opening 15 minutes, the highest such rate for any team so far. Mumbai City head coach Petr Kratky said his team needs to avoid conceding goals from set-pieces. "We need to get better in the area where it's hurting us. And, we have to stop it as soon as possible because, in two games, we conceded five goals and four goals from set-pieces, which is unacceptable for me," he said.

"We have to keep working and keep going. We need to analyse and identify what's (going) wrong and have to find why. The 'why' is very important. "If we know why we're conceding, why we're losing, or why we're not getting the points, then we can figure out what to fix. So, this is our and my first goal." On the other hand, BFC head coach Gerard Zaragoza expressed his happiness at the impressive start but admitted that they cannot afford to slow down yet. "Let me enjoy. Three games, three wins, and we are happy. But it's too early," he noted. "Mumbai City FC will be there, and Odisha FC will be there. We are going to Mumbai, and it will be difficult there." The two sides have faced each other on 16 occasions in the tournament, with Mumbai winning on eight instances, as against seven victories for Bengaluru. One match ended in a draw. Meanwhile, Bengaluru FC legend and former India captain Sunil Chhetri has netted nine times versus Mumbai City in the competition. He will be aiming to become the first Indian to score on 10 occasions against a single opponent in the ISL.

Women's soccer on a high as new Asian Champions League launches

AP ■ KUALA LUMPUR
Women's soccer is on a high in Asia after some World Cup performances that captivated nations, raising expectations for the new AFC Champions League. North Korea's win over Japan in the women's Under-20 World Cup last month has the women's game back in focus across the continent. Australia's run to the semi-finals at the Women's World Cup it co-hosted last year with New Zealand drew record crowds and attention to the talent in the region. Now, the continental club championship has been revamped and the group stage of the Women's Asian Champions League launches this week with the Urawa Red Diamond Ladies flying the flag for Japan. The Reds defeated South

The Group C games will take place in Vietnam as each group is played in a single venue over nine days, with the top two advancing to the quarter-finals next March along with the two best third-placed teams. The semi-finals and final will be held in May of 2025. Australia's Melbourne City is in Group B and kicks off

against Iran's Bam Khatoon in Thailand. Melbourne City who will also face Kaya-Iloilo of the Philippines and Thailand's College of Asian Scholars. "For women's football in general in Asia, it's a great opportunity," Melbourne City coach Michael Matricciani said. "To be in the inaugural campaign, it's an honor for us representing Australia, and also an opportunity for silverware and to test ourselves against the best in Asia." Incheon Red Angels are in Group A along with Sabah of Malaysia, China's Wuhan Jiangda and Abu Dhabi Country Club from the United Arab Emirates. The Asian Football Confederation has confirmed that the champion will receive at least USD 1.3 million in prize money. "We are confident that the

competition will empower women in Asian football, contributing to gender equality and breaking down societal barriers, to make a positive impact on the growth of the women's game," AFC president Sheikh Salman bin Ebrahim Al Khalifa said in a statement. With varying degrees of professionalism in the women's game across the continent, going deep into the tournament can make a difference financially. There are concerns, however, that the new tournament does not reflect the reality of women's soccer in Asia. FIFPro Asia/Oceania, part of a worldwide organization representing 65,000 soccer players, compiled a report on the tournament in August based on 88 players who participated in the pilot Women's Club Championship. It found that just 62% of players in the tournament identified as professional, less than half earned more than USD 10,000 from soccer per season and a quarter reported that the sport was not their primary income. FIFPro wants more co-operation between the AFC and other stakeholders. "Whilst the potential of the women's game in Asia is immense, we must ensure it is developed in a way that is responsive to the lived realities illustrated in this report," said Kathryn Gill, a FIFPro board member and former Australia international. "This can only occur through establishing a genuine partnership between the AFC, leagues, clubs and players, and not through unilaterally overlayering regulations that are fit for men's competitions onto female competitions.

We were willing to get all out for 100: Rohit on India's boldplay in Kanpur Test

PTI ■ KANPUR

India were willing to take the risk of being bowled for 100-odd in its bold push for a result in the weather-hit second Test against Bangladesh, said Rohit Sharma after the hosts pulled off a dramatic win here on Tuesday.

India managed to win the game comfortably on day five despite two full days were lost due to wet outfield at the Green Park Stadium. Even on day one, only 35 overs possible. After bowling out Bangladesh for 233, India batted in T20 mode to smash 285 in 34.4 overs before declaring their first innings. Having lost two batters overnight, Bangladesh were bowled out in their second innings at stroke of lunch and India ended the game in the second session.

"Once we lost two and a half days, when we came on day 4 we wanted to get them out as quickly as possible and see what we can do with the bat. When they got bowled out for 230, it wasn't about the runs we

get but the overs we got at them," said Rohit at the post-match presentation.

"To make a game out of it on that pitch was a superb effort. It was a risk we were willing to take because when you're trying to bat like that, you can be bundled out for a low score. But we were ready for it even if we got bowled out for 100-120. It was India's record extending 18th series win in a row at home. Among the new players, Rohit was pleased by Akash

Deep's relentless effort. "He's been good (Akash Deep). Lot of domestic cricket he has played. When you come up through the ranks like that, there are a lot of overs in the legs. He has the quality and the skill. Good body as well - can bowl long spells. You have to make sure you prepare your bench strength," said the skipper.

It was the first Test series under new head coach Gautam Gambhir who overtook the

responsibility from Rahul Dravid. "We had a fantastic time (with Dravid) but life moves on. Gautam Gambhir, I've played with him and know what sort of mindset he comes in with," said Rohit.

Ashwin was named player of the series for his all-round show. He rated the improbable win as "massive" in the context of World Test Championship. "When we bowled them out

yesterday, it was little after lunch. Rohit was keen that we needed 80 overs to bowl at them.

"And the moment he came inside out and gave that talk where we're going to go after it even if we get out under 230. It's not only him saying it, he went out there and hit his first ball for six. He set the tone that way," said the premier spinner.

Opposition skipper Najmul Hasan Shanto said that team's batting through the two Test series let them down. "Both the Tests we didn't bat well. In these conditions we need to bat well. If you look at our batters - we played 30-40 balls and got out. It's important in a Test match, when batsmen get in, you should look to score big runs," said Shanto.

"The way Ashwin and Jaddu batted at that time (in Chennai after India were six down) - they batted really well. As a bowling unit we need to look at those moments - how we can get those wickets. That partnership cost us that game," added Shanto.

ASHWIN TIES MURALITHARAN MAN OF THE SERIES MARK

RISHABH MALIK ■ NEW DELHI

Indian off-spinner Ravichandran Ashwin has etched his name in the records book once again, equalling the most number of Player of the Series in Test cricket's history, with his stellar performances in Bangladesh series Ashwin now stands with Sri Lankan spinner Muttiah Muralitharan.

They both now shares the 11 Player of the Series accolades. Ashwin performance in the Bangladesh series conquered many records in history of cricket. Ashwin's took 11 wickets and scored 114 runs in both the innings two Test matches.

Ashwin performances throughout his test career gave many cherish moments for India. In first test match in Chennai his crucial knock of 113 runs gave team a fighting total and took 6 wickets in second innings for winning the Test match.

Ashwin awarded his 11th number of Player of the Series. Back from his Test debut in 2011 he has only played in 42 series so far. On the other

hand Sri Lankan legend Muralitharan featured in a total of 61 series for Sri Lanka during his 18-year-long career and won the Player of the Series award on 11 occasions. In the list of most number of Player of the Series Ashwin alongside with muralitharan tops the list followed by Jacques kallis (South Africa)-9, Imran Khan (Pakistan)-8, Richard Hadlee(New Zealand)-8, Shane Warne (Australia)-8.

For India Sachin Tendulkar and Virender Sehwag are second in the list of India players with most Player of the Series awards in Tests five number of occasions they were rewarded. Virat Kohli has three Player of the Series awards to his name in Tests, whereas Kapil Dev, Anil Kumble, Harbhajan Singh, and Rahul Dravid in their careers with four Player of the Series awards each.

Ashwin who considered as an All-rounder batting at number eight scored six centuries allowed him to match New Zealander Daniel Vettori who scored five centuries batting at lower order for their team. The 38

year old spinner currently ranks number two in ICC Test All-rounder rankings. Ashwin's heroic show in the second Test against Bangladesh has tossed him to the top of the wicket-takers list in the ongoing 2023-25 World Test Championship (WTC) cycle.

He has taken 53 wickets from 10 matches at an average of 21.18 and a strike rate of 37.30, surpassing Josh Hazlewood, who is second in the list of most wicket takers with 51 wickets.

It would be an epic battle to see in the upcoming Border Gavaskar Trophy later this year in Australia which might be his last Border Gavaskar feat in Australia currently he is second most wicket taker after Nathan Lyon in Border Gavaskar Trophy.

This achievement further highlights Ashwin's crucial role in India's Test cricket success marks as one of the greatest spinners of his generation. Ashwin's ability to adapt to different conditions and bowl effectively in all phases of the game and made him a nightmare for batsmen worldwide.

Whenever it comes to the team, I go and give my life out there: Rodrigues

PTI ■ DUBAI

Jemimah Rodrigues feels adaptability and maintaining a team-first mentality will be key for India to achieve their dream of claiming a maiden ICC title at the T20 World Cup beginning here on Thursday.

India, who reached the finals of the women's T20 World Cup in 2020, will start their campaign in the ninth edition of the tournament against New Zealand on October 4.

"For me, it's all about assessing the conditions and playing the situation. I just want to keep it simple and do whatever it takes to help the team win and whatever the team needs," Rodrigues, who hit a 52 in the first warm-up game against West Indies, told Star Sports.

"When I put things in that perspective, it gets the best out of me and motivates me. For me, whenever it comes to the team, I go and give my life out there. That gets me more passionate, energetic, and enthusiastic. I want Team India to win. We, as a unit, want Team India to win. For me, it's all about keeping it in that perspective."

The 24-year-old from Mumbai emphasised on the importance of playing to the situation irrespective of the bowler.

"For me, it's not about specific bowlers but about playing to the situation. Bowlers can have off days, and as a

batter, I need to assess which bowler to attack and when to hold back. The satisfaction comes from playing smart and doing what's best for the team."

In other ICC events, India has reached the finals of ODI World Cups in 2005 and 2017 but never gone the distance. Harmanpreet Kaur and Co, meanwhile, made a good start by winning the first warm-up match against West Indies by 20 runs.

"For this team, it's a mix of absolute youngsters and some like me who have had experience. Richa (Ghosh) and Shafali (Verma) have also played World Cups before, so we are young but not inexperienced," Rodrigues said.

"Then we have Harman and Smriti (Mandhana), who have played more World Cups than all of us. That coming together is the strength of this team. This team is special. There's something in this team, a fire to win, and at the same time, an energy and bond that's very special.

"We keep talking about sticking to our processes in team meetings and doing whatever it takes to help Team India win. That's the entire goal of this team."

Talking about New Zealand legend Sophie Devine, Rodrigues said: "I remember watching her hit five sixes in a row at my first Under-19 camp at Chinnaswamy Stadium. It was

incredible, and since then, I've always admired her game. We've prepared well to bowl against her, and now it's just about executing our plans."

India will face Australia in a Group A clash in Sharjah on October 13, and Rodrigues stated that execution will be key against the former champions.

"I love playing against Australia because you have to bring your A-game. There's no other option if you want to win. The rivalry has been intense over the years, and it brings out the best in us.

"We've prepared well and put in the work. Now it's time to execute our plans."

Rodrigues lavished praise on senior colleagues - opener Mandhana and skipper Harmanpreet.

"What stands out about Smriti is her maturity. Even though she's young, she understands the game and her role so well. As the vice-captain, her inputs are invaluable, and she's developed a great understanding of players. She doesn't just tell you to do something her way; she puts herself in your shoes and offers advice that works for you."

"Harman di is a big-match player. We've seen it time and again - from her 171 in the World Cup to her performances in key matches. As a team, we know how much this World Cup means to her, and we want to win it for India and for her. If I see her lifting the trophy, I know I'll start crying."

Associate nations might abandon 'costly' red-ball cricket: Whatmore

PTI ■ SHARJAH

World Cup-winning coach Dav Whatmore voiced concerns about the sustainability of the ICC's multi-million dollar initiative to support Test cricket suggesting that several countries, especially associate nations, may abandon the "costly" red-ball format entirely.

The International Cricket Council is mulling a dedicated fund of at least USD 15 million for Test cricket that would increase the minimum match payment for Test players and cover the cost of sending teams on overseas tours.

"Saving Test cricket is one of the challenges. The ICC is very keen to maintain some sort of status in Test match cricket. They have created a pool of money to assist countries that are struggling. A step in the right direction, but I'm not sure how sustainable that is," Whatmore told PTI on the sidelines of the Cricket Predicta Conclave here.

"There are a number of countries, particularly the Associates, which may abandon the red ball and focus on the white ball," he added.

The dedicated fund would support national boards that struggle to compete with the wages offered in global T20 competitions.

"It is a very costly format of the game. A number of countries do it really well, and they're very successful at it, but there's also many who are struggling. India, Australia, and England appear to be the only three countries prioritising Test cricket, with India

reaching the finals of the World Test Championship on both occasions. Whatmore attributes this success to the presence of a strong red-ball domestic calendar.

"It appears as though those three countries are very strong in their domestic red ball tournaments, and that reflects internationally," he said.

"New Zealand played in the

championship not all that long ago. They're also keen to be active in that format, but they're struggling when they travel to the subcontinent. They'll be tested again when they come to India."

The 70-year-old, who coached Sri Lanka to the World Cup in 1996, lauded India for its robust domestic calendar while adding that the IPL

and the under-19 program contribute significantly to accelerating player development.

"Well, it's very robust. It's a very good, strong, healthy domestic calendar that throws up very good new cricketers that come along, and then you add IPL onto that. It really does accelerate development for a lot of youngsters.

"Add to that the Under-19 program, which is always successful. There's always been one or two boys that continue on with a very good form from every second year in the World Cup, and they've been successful in winning the World Cup too on many occasions. So all in all, it's a very good one."

While Bangladesh registered a historic Test series victory against Pakistan and host Sri Lanka defeated New Zealand, the two struggled against India and England respectively.

Whatmore, who has coached both the teams in the past, feels they need to be more consistent.

"Sri Lanka were reasonably competitive in England, and they come back to their own conditions, which they are very familiar with and having won some very important tosses in Galle, makes it very difficult for touring teams, particularly the Western countries.

"So they're doing well, and so is Bangladesh. They did well against Pakistan, but then they had a real tough time in Chennai in the first against India.

"So overall, they're very encouraging performances, but you've got to have consistency, and that's what will separate the teams," he added.

Sabalenka extends winning streak, Osaka to play Gauff at China Open

AP ■ BEIJING

Aryna Sabalenka's dominant hard-court season showed no signs of slowing down as she cruised to a 6-2, 6-2 win over Ashley Krueger at the China Open on Monday for her 14th consecutive victory.

The three-time Grand Slam winner started her streak with a title at Cincinnati in August and continued with a run to the championship at the U.S. Open earlier this month. She also won the Australian Open earlier in the year.

The second-ranked Sabalenka converted five of her seven breakpoint opportunities in a lopsided contest against Krueger and will next face Madison Keys, hoping to equal her career-best 15 consecutive victories set in 2020-21.

Keys had a 6-3, 6-3 win over Beatrice Haddad Maia of Brazil. Haddad Maia won the Korea Open last week but

struggled to combat the baseline power of Keys.

Former No. 1 Naomi Osaka continued her positive start with new coach Patrick Mouratoglou with a 6-3, 6-2 victory over Katie Volynets, advancing to a round of 16 match against sixth-ranked Coco Gauff.

It will be the first meeting between the two Grand Slam champions in more than two years, with the head-to-head series tied at 2-2.

"It's going to be a really cool test for me," Osaka said. "She's played really well this year. I'm excited to play the match, and I know people are excited to watch the match."

Osaka, who returned from maternity leave at the start of this season and is No. 73 in the current rankings, fired five aces and produced three service breaks.

The four-time major winner joined Mouratoglou shortly

before the China Open after splitting with Wim Fissette. Her run here so far is the first time since May that Osaka has had three consecutive wins.

Also, No. 14-ranked Anna Kalinskaya was leading 3-6, 6-3, 3-1 when Peyton Sterns retired from their match. She will next play Yuliia Starodubtseva of Ukraine.

Karolina Muchova beat Jaqueline Cristian 6-1, 6-3 and will play the winner of the match between Cristina Bucsa and 24th-seeded Elise Mertens in the fourth round.

In the men's draw, Andrey Rublev beat Alejandro Davidovich Fokina 6-4, 7-5 in a match that was carried over from Sunday because of a rain delay.

No. 6-ranked Rublev had six aces and 21 winners to extend his career record against Davidovich Fokina to 5-0.

The fifth-seeded Russian will play local favorite No.
