Bizarre protest at Mantralaya

PIONEER NEWS SERVICE ■
MUMBAI

In a dramatic development, tribal leaders, including Deputy Speaker Narhari Zirwal, protesting against the demand to include the Dhangar community in the Scheduled Tribe list, on Friday jumped from the third floor of Maharashtra State secretariat Mantralaya on the safety net just a floor below. The protestors said they did this act for not getting appointment with Chief Minister. No injuries were reported in the incident that saw tense moments unfolding at the six-storey Mantralaya complex. The incident occurred around 12.40 pm. Zirwal, his fellow Nationalist Congress Party (NCP) legislator Kiran Lahamate and BJP tribal MP Hemant Savara were among those who jumped from the third floor onto the safety net installed on the second floor, a precaution taken in response to previous suicide attempts at the site.

Iran's Ali Khamenei adds fuel to West Asia fires

PTI/AP ■ TEHRAN/BEIRUT

Iran's supreme leader on Friday praised the country's recent missile strike on Israel and said it was ready to do it again if necessary, state TV reported. Ayatollah Ali Khamenei, in his first appearance as leader, in about five years, at Friday prayers, called the missile strike a "shining" job by Iran's armed forces. A search operation was still underway in the area. In April, 29 Maoists were killed in Kanker district. A total of 185 Maoists have been eliminated by the security forces in separate gun battles in the Bastar division in 2024.

Peace crucial for global economy: PM Modi

Prime Minister Narendra Modi on Friday made oblique reference to the widening conflicts in the Middle East and the ongoing Russia-Ukraine war, saying the two regions were crucial for the global economy and energy security. His comments came amid fears of further escalation of conflict in the Middle East if Israel were to retaliate and attack Iran, potentially

its nuclear and oil facilities. "India is more than 85 per cent dependent on the import of crude oil, which is converted into fuels like petrol and diesel, and about half of its gas needs. A bulk of these come from the Middle East, and in scenarios of Israel-Iran getting into prolonged conflict, the supplies could be impacted," PM Modi said.

Forces eliminate 28 Maoists in Bastar hideout

STAFF REPORTER ■
RAIPUR

Dealing a major blow to Maoists, security forces on Friday gunned down 28 Naxalites in a gunfight in Chhattisgarh's Red bastion of Bastar division. The death toll could rise further as security forces believe there could be more bodies lying in nearby thick forested pockets. The fighting broke out at

around 1 pm in a forested patch between Thulhuli and Nendur villages in Abhujmaad on the Narayanpur-Dantewada inter-district border, around 400 km from Raipur, Bastar (Range) Inspector General of Police Sundarraj P said. The District Reserve Guard and the Special Task Force were involved in the operation, which turned out to be one of the bloodiest for the Maoists. After the

fighting ended, the bodies of 28 Maoists along with a cache of weapons, including an AK-47 rifle and a self-loading rifle, were recovered from the site. A search operation was still underway in the area. In April, 29 Maoists were killed in Kanker district. A total of 185 Maoists have been eliminated by the security forces in separate gun battles in the Bastar division in 2024.

PUNE HORROR

College student gangraped

TN RAGHUNATHA ■ PUNE/MUMBAI

A 21-year-old woman was gang-raped by three unidentified men. The accused attacked the woman after tying her male friend to a tree in the desolate Bopdev Ghat area in the outskirts of Pune late on Thursday night.

The victim, said to be a college student hailing from Gujarat, is being treated at the State-run Sassoon General Hospital in Pune.

The attack took place around 11 pm in the poorly lit and secluded area of Bopdev Ghat. The police came to know about the incident around 5 am on Friday.

With the incident having sparked a major public uproar in Pune, the local police swiftly arrested one person, a 36-year-old resident from Pune's Kondhwa area, in connection with the incident and launched a hunt for the two remaining suspects. The Pune police have formed 10 teams from the Crime and Detection branches to look out for the two remaining suspects.

On Friday evening, the police released the sketches of two of the three suspects involved in the alleged gang-rape. The sketches were drawn on the basis of a statement made by the victim girl to the police at the hospital. Talking to media persons, Pune's Additional Commissioner of Police Ranjan Kumar Sharma said, "As per preliminary details, the woman and her male friend had gone to the Bopdev Ghat area on late Thursday night where three unidentified persons allegedly raped her". The preliminary investigations have revealed that three suspects, posing as activists, approached the victim and her friend in a car. They asked the couple what they were doing in

that "prohibited" area. They also took photographs of the couple. After threatening them with dire consequences, one of the suspects forced the girl into a car. They tied the young man to a tree, and took turns to rape the young woman inside the car. The suspects also assaulted the victim's friend before fleeing the crime scene. The injured young man managed to take the victim to the Sassoon General Hospital for treatment. A complaint was lodged with the Kondhwa police Station at around 5 am on Friday. Happening as it did in the run-up to the State Assembly polls, the incident has snowballed into a political controversy.

Court not to be used as political battleground: SC

PIONEER NEWS SERVICE ■
NEW DELHI

The Supreme Court on Friday set up a five-member Special Investigation Team under supervision of Central Bureau of Investigation (CBI) Director to probe into the allegations of use of animal fat in making Tirupati laddus. A Bench of Justices BR Gavai and KV Viswanathan said the Special Investigation Team (SIT) will comprise two officials each from the CBI and the Andhra Pradesh Police besides a senior Food Safety and Standards Authority of India (FSSAI) official. "We clarify that we will not permit the court to be used as a political battleground. However, in order to assuage the feelings of crores of people, we find that the investigation should be conducted by an independent SIT consisting of representatives of the state police, the CBI and a representative of the FSSAI," the Bench said. "We don't want this to be turned into a political

drama. There are sentiments of crores of people throughout the world," Judges observed during the hearing. The order was on the PILs filed by BJP leader Subramanian Swamy and Tirumala Tirupati Devasthanam Board (TTD) former Chairman YV Subba Reddy asking for a court monitored probe on the allegations by Andhra Pradesh Chief Minister N Chandrababu Naidu. The CM had accused the former regime led by Jagan Mohan Reddy for the adulterated ghee used in making of laddus.

Historic Kashmere Gate is now a traffic battlefield

This stretch is notorious for being a bottleneck 24x7

BY RAJESH KUMAR

Situated close to Civil Lines, where residences of the Chief Minister, Lieutenant Governor and Delhi Cabinet ministers are located, Kashmere Gate has heavy traffic congestion daily. This stretch is notorious for being a traffic bottleneck 24x7.

Lala Hardev Marg is the main road in front of Kashmere Gate metro station and the Inter State Bus Terminal (ISBT) where the flyover coming from East Delhi areas, such as Shahdara and Dilshad Garden, merges. Netaji Subhash Marg connecting Kashmere Gate to Chandni Chowk and Daryaganj always choked due to encroachments and narrow lanes. Another major congestion point on the stretch comes between ISBT Kashmere Gate and the Chandni

Ram Akhara junction. Nityanand Marg stretch connecting Tis Hazari court is another bottleneck here. Interestingly, as the number of vehicles on roads surrounding Kashmere Gate has increased manifold, the condition of roads and traffic management remains the same.

In 2018, Delhi traffic police had identified the area around Kashmere Gate as an 'accident-prone' zone due to heavy pedestrian movement and traffic congestion. The situation has worsened since 2018. The authorities seem to be clueless here. The area has illegal parking lots, which have an unregulated private vehicle flow, huge encroachments, that add chaos to the already heavy volume of traffic on the roads. Rajni Kant Verma, former Transport Secretary of Delhi

A Traffic Jam Vehicles move on road at isbt kashmiri gate Ranjan Dimri/Pioneer

government, said that traffic congestion is the major problem at Kashmere Gate, due to heavy traffic and illegal parking of auto rickshaws and buses. "Besides,

there are also encroachments surrounding the ISBT Kashmere Gate Metro station, leading to traffic jams here", he said. According to Verma, the problem

will be solved if encroachment is removed and regulate the auto rickshaw and private vehicles. According to transport department's officials, the Delhi

government has taken steps to reduce traffic congestion in the vicinity of the ISBTs by implementing new policies. Under it, parking and bus-bay usage fees for private and govt interstate buses will now be the same to discourage private buses from parking illegally on the roadside which congests traffic. Furthermore, buses will be assigned a fixed parking time slot of 25 minutes at a predetermined rate. If a bus exceeds this allotted time, additional charges will be levied. To ensure compliance, buses without FasTags will not be permitted to enter the terminal. Delhi has three ISBTs - at Kashmere Gate, Anand Vihar and Sarai Kale Khan. Raj Niwas officials said that traffic congestion outside the ISBTs is visibly lower now, and a report from the traffic police has also

been sought to ascertain the impact of reduced turnaround timings on traffic and pedestrian movement outside the ISBTs. At ISBT Kashmere Gate, the average turnaround time has dropped from 45 minutes in August to 29 minutes after the new order, averaging 19 minutes since then. The number of buses to and from the terminal was 1,373 per day on average in August and is now 1,644 per day. Notably, the Central Road Research Institute (CRRI) has proposed several long-term modifications to the traffic diversion plan to decongest the area around Kashmere Gate Interstate Bus Terminus (ISBT). The CRRI has now suggested reducing the width of the footpath under Yudhistir Setu, which will create more space for buses.

Banned e-cigarettes worth ₹2 crore seized in Delhi

STAFF REPORTER ■ NEW DELHI

Banned e-cigarettes worth over Rs 2 crore have been seized and eight members of inter-state gangs involved in importing and selling them arrested, Delhi Police said on Friday.

On Thursday, information regarding the import and transportation of prohibited electronic cigarettes in the north district was received, they said.

These e-cigarettes were being transported from Uttar Pradesh's Gorakhpur to Delhi, the police said in a statement.

A team conducted a raid near a private hospital and upon checking, 24 cartons containing 4,740 units of e-cigarettes made in China were recovered, Deputy Commissioner of Police (north) Manoj Kumar Meena said.

DU to allow students to pursue two degree programmes simultaneously

STAFF REPORTER ■ NEW DELHI

The Delhi University has decided to allow students to pursue two degree programmes simultaneously within the university, according to an official notification.

As per the notification, the students can pursue one degree in regular mode from the DU colleges or departments and the other in Open and Distance Learning (ODL) mode from the School of Open Learning.

This includes attending classes, completing internal assessments, submitting assignments, giving presentations and meeting promotion criteria for each degree.

For instance, a student pursuing two undergraduate degrees will study the AEC language and EVS courses as part of their regular programme, while for the second ODL degree, they can either choose a different AEC language or opt for a Skill Enhancement Course (SEC) or a Value Addition Course (VAC).

Kejriwal vacates Delhi CM's residence

STAFF REPORTER ■ NEW DELHI

Former Delhi chief minister Arvind Kejriwal on Friday vacated the CM's residence - his home for nine years - and moved into bungalow number 5 on Ferozeshah Road near Mandi House in the Lutyens' zone.

Kejriwal, his wife, son, daughter and parents left in two vehicles for the new bungalow, which is officially allotted to AAP's Rajya Sabha MP from Punjab Ashok Mittal.

Meanwhile, former Delhi BJP chief Vijay Goel, along with his party workers, staged a protest against Kejriwal, accusing him of unauthorised occupation of a government bungalow allotted to his party MP.

Goel said that he would lodge a complaint with the Rajya Sabha chairman in the matter. During the protest outside Kejriwal's new residence, the BJP leader criticised the AAP chief for "betraying" his earlier promises of not using government luxuries.

TMC, BJP fight for credit on classical language status for Bangla

SAUGAR SENGUPTA ■ KOLKATA

The BJP has strongly criticised Bengal Chief Minister Mamata Banerjee for claiming credit for Bangla getting the "classical language" status.

A day after the central Government decided to confer the classical language status on Bengali along with other languages like Assamese, Marathi, Pali etc, Banerjee claimed that it was she who had "first made the move to extract the high status for the Bangla language."

Bengali speakers all over the world on this." Bengal BJP president Sukanta Majumdar soon reacted to Banerjee's statement saying it was not the Chief Minister but "two martyrs of Bengali language of recent times who should get the credit for dying for the language."

Pune Horror: College...

Dantewada all set to become 'Organic District' of country

STAFF REPORTER ■
RAIPUR

Chhattisgarh's Dantewada district is all set to be accorded the status of an organic district soon.

In the same spree, two villages in the district, Masenar and Pahurnar, were on Friday recognized by Chief Minister Vishnu Deo Sai as 'Completely Organic Villages'.

In Dantewada, organic farming is practiced by 10,264 farmers.

Currently, a comprehensive action plan is being developed by the district administration in collaboration with various departments to transform Dantewada into an organic hub.

This includes a detailed action plan for large-scale

training in organic farming, promotion, educational tours, irrigation and infrastructure development, market linkages and more.

The use of chemical fertilizers and pesticides is completely banned in the district. To further promote organic farming, 'Krishak Khet Pathshala' sessions are being organized in three phases across all 220 villages in the district.

Over 300 progressive farmers have been trained outside the state and are now prepared as organic workers and master trainers.

In this Kharif season, green manure has been applied over 1,200 hectares.

Soil Health Cards are being provided to all 23,000 farmers in the district.

CM announces interest-free education loans for Bijapur's youths

STAFF REPORTER ■
BIJAPUR

Chhattisgarh Chief Minister Vishnu Deo Sai on Friday announced the government will provide interest-free education loans to the youths of Naxal-hit Bijapur district.

He made the announcement at a 'Yuva Samvad' programme in which he held dialogue with the youths at Bijapur's Central Library.

Sai emphasised his government's commitment to provide a favourable environment and opportunities to the youths.

He added that the government was establishing new higher education institutions and libraries besides expanding facilities in the

operational ones. The students provided their

feedback to Sai. One participant, Rakesh Tati,

spoke about living in a Naxal-hit affected area and travelling to a

neighbouring village for his education.

Another, Rukhsar Khan, praised the establishment of English-medium schools, saying they have improved the education quality. She urged Sai to open B. Ed. and D. Ed. colleges.

Take Home Ration drive for severely malnourished children

STAFF REPORTER ■
MOHLA

The district's 890 Anganwadis have a total of 27,707 beneficiaries. Of which, 169 children have been identified as severely malnourished.

Authorities in Chhattisgarh's Mohla-Manpur-Ambagarh Chowki district on Friday launched a Take Home Ration distribution programme to facilitate the recovery of severely malnourished children.

Under this programme, severely malnourished children from 6 months to 5 years will receive nutritious food.

The district administration, in collaboration with the UNICEF and Abis Group, will run the programme.

On this occasion, Women and Child Development Department Secretary Shammi Abidi said that malnutrition was a huge problem in the state and one of the leading causes of death in children.

Women and Child Development Department Director Tulika Prajapati said the programme will be a meaningful step to improve the health of children.

Chhattisgarh Minister Tank Ram Verma on Friday inaugurated the state-level shooting championship at the Eklavya Shooting range at Police Lines, Raipur.

Career Development Conclave in HNLU today

STAFF REPORTER ■
RAIPUR

Chhattisgarh's Hidayatullah National Law University (HNLU) in Raipur will host the second edition of its Career Development Conclave 2.0 - Navigating New Vistas - on October 5.

The event is to be live telecast in HNLU YouTube Channel.

The conclave will have a marathon run for six months during weekends in offline and online modes with more

than 20 thematic sessions with experts from leading law firms from India and abroad and others.

The conclave is designed and curated by the Internship and Recruitment Coordination Committee schools of HNLU.

The six-month event will serve as a window of career opportunities for law students and interface them with the potential recruiters. The programme is open for HNLU and other law students by registration.

Cholesterol regulator can help treat depression, anxiety: Scientists

AGENCIES ■

Scientists on Friday revealed that a cholesterol regulator can become a surprising player in mental health research, helping treat depression and anxiety.

Called LXRB, the nuclear receptor is known for its role in cholesterol metabolism and inflammation. It is now emerging as a crucial player in neuroscience and psychiatry.

In a review, published in the journal Brain Medicine, researchers Dr Xiaoyu Song and Professor Jan-Ake Gustafsson from the University of Houston and Karolinska Institutet (Sweden) shed light on the therapeutic potential of liver X receptor beta (LXRB) in treating depression and anxiety.

This comprehensive analysis marks a significant step forward in understanding the molecular underpinnings of mental

health disorders and potentially revolutionizing their treatment. "Our analysis reveals that the receptor plays a pivotal

role in preventing central nervous system disease in experimental rodent models," said Dr Song. If these observations translate to

humans, it could emerge as a novel therapeutic target for treating neuropsychiatric disorders, particularly depression and anxiety.

According to the findings, the receptor's deficiency in female mice leads to anxiety-like behaviour and impaired behavioural responses.

The activation of the regulator in the amygdala exerts anxiolytic effects by rebalancing excitatory and inhibitory neurotransmission, it added. Its signalling also regulates neurogenesis and enhances cognitive function, which may have implications for treating depression.

The review also explores its role in autism spectrum disorder (ASD), suggesting potential connections between cholesterol metabolism, brain

development, and ASD symptoms.

Professor Gustafsson said the connection between the receptor, traditionally associated with metabolic functions, and complex psychiatric disorders like depression and anxiety, underscores the interconnectedness of biological systems.

It challenges us to think more holistically about mental health and its underlying molecular mechanisms, the professor added.

While the findings are promising, the authors caution that additional basic research and clinical trials are necessary to determine whether novel drugs targeting the receptor can be effectively utilised in treating neurological and neuropsychiatric diseases.

Jaishankar to lead Indian delegation to Pakistan for SCO summit: MEA

PIONEER NEWS SERVICE ■ NEW DELHI
External Affairs Minister S Jaishankar will lead the Indian delegation to Pakistan mid-October for the Shanghai Cooperation Organisation (SCO) summit, ministry of external affairs (MEA) spokesperson Randhir Jaiswal announced here on Friday. The last Indian external affairs minister to visit Pakistan was Sushma Swaraj. She had travelled to Islamabad in December 2015 to attend a conference on Afghanistan. Pakistan is hosting the SCO Council of Heads of Government (CHG) meeting on October 15 and 16. "The external affairs minister will lead our delegation to Pakistan to participate in the

SCO summit which will be held in Islamabad on October 15 and 16," Jaiswal said at his weekly media briefing. The spokesperson clarified that the external affairs minister is travelling to Pakistan only to attend the SCO summit. In August, Pakistan invited Prime Minister Narendra Modi to the SCO's summit. Jaishankar's visit to Pakistan assumes significance as it is seen as a major decision on New Delhi's part. The decision to send the senior minister is seen as a display of India's commitment to the SCO which has been playing a key role in boosting regional security cooperation. The ties between India and Pakistan came under severe strain after India's warplanes

pounded a Jaish-e-Mohammed terrorist training camp in Balakot in Pakistan in February 2019 in response to the Pulwama terror attack. The relations further deteriorated after India on August 5, 2019 announced the withdrawal of special powers of Jammu and Kashmir and the bifurcation of the state into two union territories. India has been maintaining that it desires normal neighbourly relations with Pakistan while insisting that the onus is on Islamabad to create an environment free of terror and hostility for such engagement. The SCO council of heads of government conclave is the second-highest platform in the grouping. The SCO heads of state summit is the top

most forum in the grouping that is generally attended by the Indian prime minister. The SCO, comprising India, China, Russia, Pakistan, Kazakhstan, Kyrgyzstan, Tajikistan and Uzbekistan, is

an influential economic and security bloc that has emerged as one of the largest trans-regional international organisations. India was the chair of the SCO last year. It hosted the

SCO summit in the virtual format in July last year. India's association with the SCO began in 2005 as an observer country. It became a full member state of SCO at the Astana summit in 2017. India has shown a keen interest in deepening its security-related cooperation with the SCO and its Regional Anti-Terrorism Structure (RATS), which specifically deals with issues relating to security and defence. The SCO was founded at a summit in Shanghai in 2001 by the presidents of Russia, China, the Kyrgyz Republic, Kazakhstan, Tajikistan and Uzbekistan. Pakistan became its permanent member along with India in 2017. Jaishankar's Pakistan visit will

take a place nearly a month after he called out the neighbouring country over cross-border terrorism at the United Nations General Assembly. "Many countries get left behind due to circumstances beyond their control, but some make conscious choices with disastrous consequences. A premier example is our neighbour, Pakistan," the minister said on September 28. "When this polity instills such fanaticism among its people, its GDP can only be measured in terms of radicalisation and its exports in the form of terrorism. Today we see the ills it sought to visit on others consume its own society. It can't blame the world. This is only karma," Jaishankar

added in a strong statement. Referring to Pakistani prime minister Shehbaz Sharif's address at the UNGA a day before, Jaishankar said, "We heard some bizarre assertions from it at this very forum yesterday. So let me make India's position perfectly clear. Pakistan's cross border terrorism policy will never succeed, and it can have no expectation of impunity. On the contrary, actions will certainly have consequences." Shehbaz Sharif while addressing the UNGA compared Jammu and Kashmir to Palestine. "Similarly, like the people of Palestine, the people of Jammu and Kashmir too, have struggled for a century for their freedom and right to self-determination."

Former MP Ashok Tanwar officially inducted into Congress

PIONEER NEWS SERVICE ■ NEW DELHI
Former MP Ashok Tanwar was officially inducted into the Congress on Friday and urged all sections, especially Dalits and backward classes, in Haryana to ensure a "big mandate" for the party in the assembly polls to send a message to the entire country. Tanwar had informally joined the Congress at Rahul Gandhi's rally in Mahendragarh district in Haryana on Thursday, dealing a setback to the BJP ahead of the October 5 assembly polls. Hours before joining the Congress, the former Sirsa MP was campaigning for the BJP candidate in Safidon assembly constituency and exhorting voters to bring it back to power for a third time. Tanwar was officially inducted into the Congress at the AICC headquarters by party treasurer Ajay Maken. Later, Tanwar, accompanied by party MP Deepender Hooda, also met Congress president Mallikarjun Kharge. "We are with 36 communities in Haryana. Our resolve is for everyone. We will always raise

the voice of Dalits, tribals, backward classes, minorities and the poor," Kharge said in a post on X. He also shared pictures from the meeting. Addressing a press conference, Tanwar said, "I began my political career with the Congress. In the last few months I was with the BJP, the environment that I saw, I was hurt over a number of issues, the faith that should be there in Babasaheb Ambedkar and the Constitution is not there (in the BJP)." "On the other hand, Rahul Gandhi is working on strengthening Babasaheb Ambedkar's Constitution and

ensuring that people get their rights and unity in the country is strengthened," he said. Tanwar credited the Congress for his political career. "I request all Dalits and backward classes of Haryana that to make the state number one and to ensure people of Haryana get their rights... All sections, I request them to give a big mandate (to the Congress) to send a message to the country," he said. The Dalit leader had on Thursday described his decision to return to the Congress as the "will of God". "It's all circumstances, destiny and will of the people. Let bygones be bygones," Tanwar

had told PTI on phone. "I am joining the Congress exactly five years after I left it. That was the will of God then, today also it is the will of God... Sometimes, there is not much in your hands," he had said. Asked on Friday about allegations of opportunism and losing from Sirsa parliamentary constituency on a BJP ticket, Tanwar said, "If Ashok Tanwar was an opportunist, he would have gone to the BJP five years ago. So, from this platform, because today we want to start on a positive note, I would not like to say anything negative but the BJP itself knows that Ashok

Tanwar did not lose there, the BJP lost there and the BJP's policy lost there." Tanwar accused the BJP of disrespecting the Constitution and Dalit leaders. Asked if there was a guarantee that he would now remain with the Congress, Tanwar replied with a Hindi idiom which loosely translates to if a person who loses his way in the morning returns home in the evening, he is not called lost. "When you also leave home, no matter where you go in the world, you will come back and stay at home. When a person leaves home, then he realises the value of home more... Now I have understood the entire political system 360 degrees and that is why today I am standing with Rahul ji," he said. At the rally in Bhowaria on Thursday, Tanwar shook hands with Gandhi and greeted former chief minister Bhupinder Singh Hooda, who welcomed him into the party fold and patted his back. Congress leaders K C Venugopal, Bajrang Punia, Rao Dan Singh and political scientist Yogendra Yadav were also present on stage.

Maldives President to visit India to restore strained ties

PIONEER NEWS SERVICE ■ NEW DELHI
Maldives President Mohamed Muizzu will pay a five-day visit to India beginning Monday with an aim to reset ties that came under some strain since November last year. Though the Maldivian president attended Prime Minister Narendra Modi's swearing-in ceremony in June, it will be his first bilateral visit to India. The ties between India and the Maldives came under severe strain since Muizzu, known for his pro-China leanings, took charge of the top office in November. Within hours of his oath, he had demanded the withdrawal of Indian military personnel from his country. Subsequently, the Indian military personnel were replaced by civilians. The Ministry of External Affairs (MEA), announcing Muizzu's trip, said it is expected to lend further momentum to cooperation and robust people to people ties between the two countries. "President of the Republic of

Maldives Mohamed Muizzu will be travelling to India on a state visit from October 6 to 10," it said. During his visit, Muizzu will hold discussions with Modi on bilateral, regional and international issues of mutual interest, it said. Muizzu is also scheduled to meet President Droupadi Murmu. Besides Delhi, he will also visit Mumbai and Bengaluru where he will be attending business events. "The Maldives is India's key maritime neighbour in the Indian Ocean Region and holds a special place in the prime minister's vision of 'SAGAR' (Security and Growth for All in the Region) and India's

"Neighbourhood First Policy," the MEA said in a statement. External Affairs Minister S Jaishankar paid a three-day visit to the Maldives in August that prepared the grounds for Muizzu's upcoming trip. "The visit of President Muizzu to India after the recent visit of the external affairs minister to Maldives is testimony to the importance that India attaches to its relations with the Maldives," the MEA said. The Maldives is one of India's key maritime neighbours in the Indian Ocean Region and the overall bilateral ties including in areas of defence and security witnessed an upward trajectory under the previous government in Male.

Moon replica to be unveiled in Assam to commemorate success of Chandrayaan mission

PIONEER NEWS SERVICE ■ NEW DELHI
A stunning 10-meter high replica of the moon is set to be unveiled in Guwahati in Assam to commemorate the success of the Chandrayaan mission, coinciding with the four-day India International Science Festival (IISF) from November 30. This 1:50,00,000 scale model will be prominently displayed in the city, crafted by British artist Luke Jerram, said a statement here by the Union Ministry of Science and Technology. Measuring seven meters in diameter, the moon features intricate 120dpi NASA imagery of its surface, with each centimeter of the illuminated sculpture representing five kilometers of the lunar landscape. He said that the festival aims to

This is for the first time the Ministry is holding the IISF at the Northeast to be hosted at IIT Guwahati. The event is a testimony to the Government's commitment to the Northeast and aligns with Prime Minister Narendra Modi's focus on the region as a key player in India's growth story, said Science and Technology Minister Jitendra Singh here at a press conference. He said that the festival aims to

celebrate India's achievements in science and technology. The much-sought after event will attract participants from around the globe, featuring discussions on visions for a developed India by 2047, specialized sessions on science and technology in the Northeast, workshops for educators. The event will also have a focus on nuclear energy for self-reliance, alongside a science literature festival.

Rajnath Singh reaffirms Government's commitment to empower India's defence industry

PIONEER NEWS SERVICE ■ NEW DELHI
Defence Minister Rajnath Singh on Friday reaffirmed the Government's commitment to empower India's defence industry by working hand-in-hand with them, and realise Prime Minister Narendra Modi's vision of making the country a global manufacturing hub. Addressing the seventh annual session of Society of Indian Defence Manufacturers (SIDM) here, he described the ongoing Russia-Ukraine conflict as a reminder to build a strong defence industrial base, which can be bolstered and expanded with time. The defence minister asserted that the Government, in its third consecutive term, will provide a renewed thrust to its ongoing efforts towards developing a robust, innovative and self-reliant defence ecosystem. He enumerated

the steps taken to attain 'Aatmanirbharta' in defence, including creation of defence industrial corridors in Uttar Pradesh & Tamil Nadu, issuance of positive indigenisation lists (PILs), corporatisation of Ordnance Factory Board, handholding of private industries by DRDO, and unveiling of Defence Acquisition Procedure 2020. On the 10 PILs notified with

over 5,500 items, he stated that the idea is to equip the Armed Forces with platforms/equipment manufactured on Indian soil. Terming the lists as dynamic & not static, he exhorted the industry to achieve complete self-reliance for these items within the stipulated time, and keep shortening the list. He also urged them to assess and identify products that

can be added to the PILs in view of the rapid changes being witnessed in the field of defence across the globe. The defence minister emphasised that due to the Government's efforts, an environment conducive to ease of doing business in the country has been created, and a target set for making India's defence industry export-oriented. While he lauded the major contribution of the private sector in taking the defence exports to a record high of over Rs 21,000 crore in Financial Year (FY) 2023-24, he called upon the industry to keep in mind the export and import figures, and strive to reduce the ratio between the two with a target-oriented approach. Recognising the potential of small & medium enterprises (SMEs) and start-ups in the defence sector, he acknowledged the challenges they face in achieving ease of doing

business. He urged SIDM to work closely with the government to address ground-level issues & help these enterprises to play a larger role in defence manufacturing. "It is important to ensure that our policies translate into ease of doing business at the ground level. SIDM can help in identifying the practical challenges faced by start-ups and SMEs so that we can address them," he said. Rajnath urged the industry to invest more in cutting-edge technologies, such as artificial intelligence (AI), cyber defence, & autonomous systems. "India's defence industry must keep pace with global trends and focus on high-end technology. There is a need to increase investments in areas like AI & autonomous systems, which will define the future of warfare. The government is ready to provide all necessary support," he said.

Government introduces Ecomark certification to promote environment friendly goods

PIONEER NEWS SERVICE ■ NEW DELHI
To promote environmentally friendly products, the Government has introduced the 'Ecomark' certification, aimed at a variety of categories, including cosmetics, food items, and electronics. The move aims to empower consumers to make informed choices while encouraging manufacturers to adopt sustainable production practices, ultimately fostering the growth of green industries. The initiative also aims to prevent misleading claims about a product's environmental impact, according to a statement from the Union Environment Ministry issued on Friday here. "Eco-labelling of products enables consumers to make informed purchase decisions as well as encourage manufacturers to transition to the production of environment-friendly products, leading to the promotion of green industries," said the notification

signed by Union Environment Ministry Joint Secretary Nameeta Prasad. The Ecomark initiative which aligns with the 'LIFE' (Lifestyle for Environment) principle, focusing on lower energy consumption, resource efficiency, and the promotion of a circular economy will cover a wide range of products. "These include products that reduce pollution by minimising or eliminating the generation of waste and environ-

mental emissions; products that are recyclable or made from recycled material or both. "...products that reduce the use of non-renewable resources, including non-renewable energy sources and natural resources; and products that reduce the use of any material that has adverse impacts on the environment," as per the notification issued last month. These include cosmetics such as skin powders, tooth pow-

der, toothpaste, creams, oils, shampoos, soaps, nail polish, and lipsticks and soaps and detergents, food items will cover edible oils, tea, and coffee to name a few while electric/electronic goods include TVs, refrigerators, food mixers, geysers, irons, toasters, and fans. Textiles will cover sustainable fabric products. Once granted, the Ecomark will remain valid for three years, with annual reports required from holders to ensure continued compliance. A dedicated Steering Committee, headed by the Union Environment Secretary, will oversee the implementation of the Ecomark rules, recommend products for certification, and periodically review the criteria to support ongoing research and development in sustainable practices. While developing criteria for the grant of 'Ecomark' to a product, the production process, including the source of raw material, will be considered.

Apart from this, the use of natural resources, environmental impact, the effects and extent of emissions or waste arising from the production process, the utilisation of waste and recycled materials, the suitability for recycling, and the use of non-hazardous substances in place of hazardous substances will also be considered. Talking about the implementation procedure, an official said that an application for 'Ecomark' will be required to be made to the CPCB. After that, the Board will, either by itself or through a verifier, verify whether the product complies. Once this is done, a report will be prepared. Once the Board is satisfied that the product meets the conditions mentioned in the guidelines, it may grant 'Ecomark'. This mark will be valid for 3 years or until there is a change in criteria, whichever is earlier. The certificate can be renewed, as per the notification.

ICMR inks pact with NVVN to harness solar power across its institutes nationwide

PIONEER NEWS SERVICE ■ NEW DELHI
In a move aimed to cut down carbon footprint and energy costs as the Government sets a target of Net Zero Carbon emission by 2070, the Indian Council of Medical Research (ICMR), has inked a pact with NTPC Vidyut Vyapar Nigam (NVVN), aiming to harness solar power across its institutes nationwide. Under the agreement, NVVN will provide, install, test, and maintain rooftop solar panels at 15 ICMR institutes, totaling a capacity of 4,559 KW. Additionally, a Power Purchase Agreement (PPA) will secure a fixed solar tariff for the next 25 years, enhancing long-term cost efficiency and sustainability for ICMR operations. Last year's total electric unit consumption of ICMR institutes was 24,181,811 kwh, as per the ICMR official. The move to empower these institutes with solar power is the part of the Modi-led

Government at the Centre to achieve the target of adding 50 gigawatts (GW) of renewable energy capacity every year for the next five years i.e. 2030. A senior official from the ICMR said that the emphasis is on energy conservation and pollution-free environment aiming to reduce the dependence on conventional sources of energy, and replacing them with renewable sources. Seven institutes are already benefiting from solar power under earlier projects, and the MoU with NVVN will extend solarisation efforts to additional facilities. States are already stepping up

efforts to help significantly reduce their carbon footprint and energy expenditure. For instance, Rajasthan is expected to attract investments worth Rs 5 lakh crore in the energy sector over the next five years, Minister of State Heera Lal Nagar said recently at the Renewable Energy India (REI) Expo 2024 organised by Informa Markets in India. The Minister said that, "Rajasthan has transformed its geographic challenges into an energy boon. Currently, we produce 20,000 MW of solar energy, of which only 5,000 MW is used locally, while the rest is supplied across the country. Additionally, we have taken steps to further scale this, with planned investments of Rs 5 lakh crore in the energy sector over the next 4-5 years," Nagar said. Meanwhile, Madhya Pradesh has taken initiatives for 600 MW of solar and 880 MWh of battery storage, aiming to integrate renewable energy with energy storage solutions.

Independent, nominated members can be kingmakers in J and K

MOHIT KANDHARI ■ JAMMU
Ahead of the declaration of Assembly election results on October 8, speculations are going on as to who will form the next Government in Jammu and Kashmir.

While the Bharatiya Janta Party is hoping to come closer to the magic numbers the pre-poll alliance partners - the National Conference and the Congress Party are keeping their fingers crossed. However, the political grapevine in the region suggested independent candidates along with five nominated members (with voting rights) are set to play a pivotal role in the Government formation in the region.

Rough estimates suggested more than half a dozen independent candidates and five nominated members are most likely to play the role of kingmakers along with small political parties after the poll results are declared in Jammu and Kashmir.

The senior leadership of the BJP and the National Conference are secretly maintaining a close watch on the independent candidates likely to emerge victorious in both regions.

According to the Jammu and Kashmir Reorganization (Amendment) Bill, 2023, the Lieutenant Governor of Jammu and Kashmir has been granted powers to nominate five persons to the Assembly including two each Kashmiri Pandits (migrant) and Women and one PoJK

refugee with voting rights, taking the effective strength of the House to 95. Following this development, the majority mark in the Legislative Assembly will be 48.

to political pundits, the voters across Jammu and Kashmir are most likely to throw a fractured mandate. Since the 2002, Assembly polls no political party has won more than 28 Assembly seats. The National Conference and the PDP have won a maximum

number of 28 seats in the previous polls while BJP has touched the tally of 25 in the 2014 Assembly polls. Congress has touched 20 before hitting the lowest number of 12 seats in 2014. The like-minded political parties will have no other option but to join hands together to cobble up a majority. Meanwhile, Congress has strongly objected to the move of the ruling BJP to get five of its leaders nominated to the Legislative Assembly, from LG before the process of Government formation in J and K and termed any such move as undemocratic and against the mandate of people and asked the LG to desist from any such move.

Smoke rises after bombs were allegedly hurled at the office-cum-residence of BJP leader Arjun Singh, in North 24 Parganas district, Friday, October 4, 2024. Singh alleged that a group of people threw stones, hurled bombs and fired multiple gunshots around 8.30 am on Friday

Ex BJP MP's house attacked with bombs, bullets in Bengal

SAUGAR SENGUPTA ■ KOLKATA
Bombs were hurled and gunshots fired at the residence of former MP and senior BJP leader's Bhatpara residence in North 24 Parganas about 50 km off Kolkata, the politician on Friday alleged.

referred to be a strongman of the area said. "They hurled about 15 bombs one after the other ... they terrorised the locals and the members of my family but the administration did nothing," he said.

Former Minister Harshvardhan Patil to quit BJP, join NCP (SP)

T N RAGHUNATHA ■ MUMBAI

The ruling BJP suffered yet another setback ahead of the Maharashtra Assembly polls on Friday, as former Minister and its senior leader from western Maharashtra Harshvardhan Patil announced his decision to quit the saffron party and join the Sharad Pawar-led NCP.

Patil's announcement came a day after he met NCP (SP) chief Sharad Pawar at the latter's "Silver Oak" residence in south Mumbai. Patil, it may be recalled, had quit the Congress and joined the BJP in the run-up to the October 2019 State Assembly polls.

"I had a detailed discussion with Fadnavis...since the Indapur seat is going to the sitting MLA from Maha Yuti (Bharne), he (Fadnavis) assured me of another option. Though the option would have been feasible for me, it would not have been acceptable to my supporters and people from my constituency," Patil said.

Defence Minister reiterates India's stand for rules based on international order

PIONEER NEWS SERVICE ■ NEW DELHI

Defence Minister Rajnath Singh on Friday here reiterated India's stand on having a rules based international order and respect for international laws and said "India advocates for a peaceful resolution to disputes and seeks to promote cooperation among nations in Indo-Pacific."

India matching up to China by improving airfields: IAF chief

PIONEER NEWS SERVICE ■ NEW DELHI

China is rapidly developing infrastructure on its side across the Line of Actual Control (LAC) and India is also matching up by improving its airfields in the border areas, IAF chief AP Singh said here on Friday.

Chief of the Air Staff (CAS) Air Chief Marshal Amar Preet Singh addresses a press conference at Akash Air Force Mess, in New Delhi on Friday

different Air Forces they interact with and how many do we interact with. As far as human angle is concerned, people behind the machine are concerned we are way ahead of them," he said.

"We have done our analysis. We don't have a design to go offensive unnecessarily. Only when we are pushed, we will do something... We have our plans in place. One place I can positively say is we are training much better than them. We have exposure much better than them. We get to know... how they train and how many

Thousands bid final farewell to Thomas Cherian

KUMAR CHELLAPPAN ■ KOCHI

Thousands of people had gathered at Elanthur St Peters Church to bid farewell to Thomas Cherian, a craftsman in Indian Army's elite Corps of Electronics and Mechanical Engineers who had laid down his life at the altar of the nation in an air crash on February 7, 1968 in Rohtang Pass in Himachal Pradesh.

onlookers shouted "Thomas Cherian Amar Rahen". His mortal remains were recovered from the crash site last week after a 56 year long search operation carried out by the rescue team of Indian Army. The body was flown to Thiruvananthapuram by a special IAF aircraft and was received by the officers and jawans of the Pangode Brigade of the Army, stationed in the suburb of the capital city.

special vehicle that carried the coffin which was draped in the national tricolors. The body was kept in his ancestral home for two hours before the cortege accompanied by hundreds of people left for the church.

and prayers from Holy Bible. There was a message from Leader of Opposition Rahul Gandhi which was read out by the church representative. Wreaths were placed on behalf of the Kerala Government as well as the district administration.

to Cherian who had come back from the snow clad Himalayas to the arid soil of this village. All we could offer right now is our tearful goodbye," said Gopalakrishnan, who was in attendance at the Thomas's Odalil Home from morning till the last post was sounded by the Army buglers.

Sedentary lifestyle main cause for heart disease, back pain, diabetes: Study

PIONEER NEWS SERVICE ■ NEW DELHI

As work from home becomes a common lifestyle particularly post-Covid pandemic, many of us find ourselves spending excessive hours sitting, whether at our desks or on the couch, often slouched over our laptops and phones.

65 with metabolic syndrome - a cluster of conditions that increase the risk of heart disease, stroke, and diabetes. Flaggering the detrimental effects of a sedentary lifestyle on back pain, especially on the ones who are overweight and physically inactive, she said that the unhealthy habit can lead to serious long-term health issues.

between 40 and 65 years-old who were overweight or obese. The participants were further divided into two groups - one group was asked to reduce their sitting time and include light exercise in their routine, while the other group was asked to carry on with their normal routine.

PAPER WITH PASSION

How secular is India?

As India grapples with internal strife and external criticism, the debate surrounding its commitment to secularism intensifies

India, a nation characterised by its rich tapestry of religious diversity, has long championed the values of secularism and pluralism. However, the landscape of religious freedom in the country has come under scrutiny, particularly with the recent designation by the US Commission on International Religious Freedom (USCIRF) of India as a "Country of Particular Concern." This designation has ignited a contentious debate, leading to a sharp rebuke from the Indian government, which labeled the USCIRF a "biased organisation with a political agenda." In its 2024 report, the USCIRF highlighted alarming trends regarding religious freedom in India. The commission reported instances of violence against individuals based on their religious identity, citing cases of killings, beatings and lynchings carried out by vigilante groups. It also noted the arbitrary arrests of religious leaders and the demolition of homes and places of worship, characterising these actions as severe violations of religious freedom. The report further pointed to changes

in India's legal framework that, according to the USCIRF, target and disenfranchise religious minorities. These changes include the controversial Citizenship Amendment Act (CAA) and the implementation of a uniform civil code. Such measures, the USCIRF argues, contribute to a climate of fear and marginalisation for non-Hindu communities. In response to the USCIRF's assertions, the Indian Ministry of External Affairs firmly rejected the report. Spokesperson Randhir Jaiswal described the commission's narrative as a "motivated" misrepresentation of facts aimed at maligning India's image on the global stage. The ministry's statement emphasised that the USCIRF's reporting is unscientific and driven by an agenda that fails to reflect the realities of India's democracy.

It is true that no external agency or country has right to give us lessons in religious freedom and tolerance as we have practiced it since ancient times. Moreover, they have skeletons in their own cupboard which they would better take care first. The trigger happy policemen in the US don't think twice before shooting a black guy for not pulling over his car. But having said that it is time for us to reflect and introspect. To be fair, religious freedom has eroded in the recent years. There have been lynching incidents and that is not a made up thing. We may say that they are isolated incidents but they are enough to send a message to the community. Moreover, the attacks on churches and other religious places have been reported from across the country all this while the police looked the other way or just took mild action. It is time to ensure one and all that India is safe as it has been for ages for people of all religions and castes. And India as a State does not discriminate people for the religion they practice or food they eat. The concerns raised by the USCIRF may be exaggerated and they may make isolated incidents look mainstream but the government must maintain zero tolerance for such incidents so that no outside agency dare raise a pointing figure at us.

NATO's eastward march threatens Asian stability

For Asia, aligning with NATO's expansionist policies risks destabilising the region and eroding cultural values of peace and coexistence

NILANTHA LANGAMUWA

NATO's expansion into Asia poses a monumental danger that threatens not only regional stability but also the core values of peace and coexistence that many Asian countries uphold. The recent change in NATO leadership, with Mark Rutte taking the helm, may suggest a potential for new strategies, but the underlying policies and militaristic attitudes of the alliance remain unchanged. The illusion of progress is merely that—an illusion—while NATO's intentions to maintain a prolonged battlefield in Ukraine serve as a reflection of its true objectives. As observed, the US weapons sales surged dramatically in 2023, reaching a record total of \$238 billion as the demand for arms skyrocketed due to the ongoing conflict. Profiting from the sale of weapons on one hand and exploiting the suffering of unarmed civilians across Europe and West Asia is becoming increasingly reprehensible. This reflects a strategic mindset where war is not an unfortunate circumstance but an industry. This is, however, not a new phenomenon. This is how we "civilisations" behave. The history of military alliances has consistently illustrated a paradoxical truth: nations often proclaim peace while simultaneously preparing for war and engaging in it.

The recent rise of Japan's Prime Minister Shigeru Ishiba, who has advocated for an 'Asian NATO,' is nothing but a sign of a looming storm ahead. Ishiba's call for deeper ties among Asian nations and the establishment of a NATO-like grouping echoes sentiments that prioritise militarisation over diplomacy. This vision stands in stark contrast to the scepticism expressed by India's External Affairs Minister S Jaishankar, who highlighted India's unique historical position and its reluctance to embrace the treaty alliances that such a framework would entail. Ishiba's proposition to station Japanese troops on the US soil and share control of nuclear weapons highlights the extreme lengths to which some leaders are willing to go in the name of security, yet it has not received significant backing from

the US administration, signalling the complexities and limitations of this vision. While NATO presents itself as a bastion of defence, its actions betray a far more sinister agenda.

The alliance has not only prolonged conflicts but has also turned them into battlegrounds for competing ideologies and geopolitical power plays. This relentless devastation not only lays waste to nations but also serves the insatiable appetites of the arms industry, which reaps substantial profits from the chaos of ongoing warfare. Evidence reveals that the US government perceives conflicts as lucrative ventures rather than humanitarian crises. Nations that align themselves with NATO risk becoming collateral damage in a power struggle that has little regard for their sovereignty or cultural identity. The allure of NATO's promises can be enticing, but history teaches us that aligning with powerful military alliances often leads to disastrous outcomes. Karl Marx posited that "history repeats itself, first as tragedy, second as farce." NATO's past interventions, from the Balkans to Afghanistan, and today's Ukraine showcase a pattern of destruction that is all too familiar.

The question remains: will Asia fall into this trap once again, sacrificing its autonomy

for the sake of Western agendas? Moreover, the political discourse surrounding NATO often ignores the implications of its militarisation on social stability and development. This is particularly relevant as Asian nations find themselves increasingly pressured to align with NATO's militaristic strategies. The focus on military expenditure detracts from addressing pressing social issues, economic development, and environmental sustainability. The growing arms race in Asia, driven by NATO's expansion, threatens to spark regional conflict with catastrophic consequences, echoing the historical precedent set before World War I.

The belief that increased military presence fosters stability is fundamentally flawed, often leading to insecurity and competition as nations rush to arm themselves against perceived threats. This environment heightens the risk of miscalculations and unintended escalations, with incalculable costs in human lives and economic stability. Additionally, engagement in militaristic alliances under NATO's banner risks placing Asian nations in a moral quagmire, contradicting the region's philosophies that prioritise peace, harmony, and cooperation, as espoused by Confucianism, Hinduism, Islamism, and Buddhism. The very qualities that were undermined by colonialism, after

years of suffering and the sacrifices of millions, must be protected and promoted, as aligning with NATO may ultimately undermine these cultural values in favour of a destructive path centred on military solutions.

Moreover, the consequences of such an alignment are not limited to immediate military conflicts. Long-term geopolitical ramifications could destabilise the entire region, further entrenching power struggles that lead to conflict. Embracing a militaristic alliance may offer a temporary illusion of security but ultimately leads to self-inflicted wounds—akin to harakiri. The path toward a more peaceful and stable future lies not in militarisation but in diplomacy, cooperation, and mutual respect. Instead of succumbing to the pressures of NATO's warmongering agenda, Asian countries should seek to forge their paths, grounded in their cultural philosophies and values that prioritise harmony and coexistence. The rhetoric of security and defence masks a more insidious agenda—one driven by the military-industrial complex that thrives on conflict and arms sales. For Asian nations, the choice to align with NATO is a perilous one, fraught with the potential for self-destruction.

THE HISTORY OF MILITARY ALLIANCES HAS CONSISTENTLY ILLUSTRATED A PARADOXICAL TRUTH: NATIONS OFTEN PROCLAIM PEACE WHILE SIMULTANEOUSLY PREPARING FOR WAR AND ENGAGING IN IT

LETTERS TO THE EDITOR

TEN YEARS OF SWACHH BHARAT

Madam — Swachh Bharat Mission, one of the first programmes announced by Prime Minister Narendra Modi after he took office in 2014, completes 10 years on October 2. The aim was to equip all households with individual toilets, ensure communities have cluster toilets to eradicate the open defecation system followed in villages, and ensure that schools and anganwadi toilets have waste management systems for both solid waste and liquid waste. To achieve this, the government's assistance was increased from Rs 10000 to Rs 12000 under the SBM scheme. Amazingly, over 10 million toilets have been constructed in rural households in 6 lakh villages till date, benefiting 50 million people, and many of these villages have been designated as open-defecation-free, which is essential for a healthy environment. Before launching SBM, unsafe sanitation caused an estimated 199 million cases of diarrhoea annually, with 3 lakh deaths.

Also, a UNICEF report indicates that women in Indian villages feel safer after the installation of toilets in rural households. Also in villages declared ODF, the risk of groundwater contamination due to human waste has been reduced a lot. Though villages benefitted a lot due to the Swachh Bharat Mission, a survey has emphasised the urgent need for action against plastic pollution and air pollution in rural and urban lands. Motivating the communities against air pollution and water pollution for adopting a proper sanitation model for a healthy life is the urgent need of the hour.

LAWRENCE'S FUNERAL CONTROVERSY

Madam — Aprosop of the story 'The battle over CPI (M) leader M M Lawrence's final journey,' October 3, 2024. The Communists globally are political chameleons with unequal rules for the comrades. Most of the Communists,

Indian PhD system needs revamp

The Indian education system, especially the higher and research-oriented education system, has gone through so many structural changes from the past till now. But the research-oriented PhD programme still lacks somewhere to provide ease to the people vis-à-vis their admission to the doctoral program. There exist some of the undoubted systematic flaws in the UGC-NET examination score as a mandatory requisite

for taking admission in a PhD. The research work and PhD are all about deep understanding instead of memory strength of the very field of students' specialisation and interest area, in which root learning from UGC-NET could merely assist.

Already, the PhD course demands a minimum of a five-year time period for its completion, and mandating a UGC NET score as a prerequisite to taking admission in a PhD only extends the time period for aspirants interested in becoming research scholars. UGC needs to make either systematic changes in its examination pattern or needs to enhance critical thinking and innovative thinking tests for the students interested in doing PhDs from the reputed academic institutions of India. Otherwise, India will continue to bear the cost of losing some fantastic minds to non-Indian universities that offer research ease, especially at the time of admission.

Dimple Wadhawan | Kanpur

though they claim to be non-believers in God in public, may be passionate believers in God in private. The unfortunate Lawrence episode points to the chaos the Communist ideology can create in a Communist family by vertically dividing its members into two warring factions. It also shows that even the deceased Communist may not be allowed to rest in peace by the comrades merely to accommodate their political ideology, what may be to the grieving family. Once an individual is bitten by the Communist ideology, there is no escape from it, even if she/he desires to change his ideology after being convinced about the utopian Communist goals. If the die-hard comrades learn a lesson or two from the unfortunate Lawrence episode and the Party's insensitive handling of the entire episode, it would be better for the Comrades.

Bichu Muttathara | Pune

STARVATION AMID GROWTH

Madam — India is the fifth-largest economy in the world. At the same time,

the Global Hunger Index-2023 ranked India 111th out of 125 countries, with the level of hunger falling in the serious category. Though the Union government had rejected this index as erroneous, it cannot be rejected altogether, as evidently West Bengal agricultural migrant labourer Samar Khan, 35, died of starvation in Chennai as he reportedly did not have money to buy food. He was admitted to Rajiv Gandhi Government Hospital after he collapsed owing to starvation. He had not eaten for six days.

His colleague, another agricultural labourer, Satya Pundit is still in the hospital. Even having a buffer stock; people dying of starvation is a slur on the country, especially when we are talking of the fifth largest economy in the world. Besides, hollow slogans of the government that nobody will be allowed to die of starvation are belied.

Double-edged sword of social media: Impact on relationships

While it offers the promise of community and instant communication, the allure of curated perfection can lead to unrealistic expectations and strain relationships

Social media has become an integral part of modern life, connecting people from all corners of the globe. While it offers numerous benefits, such as facilitating communication and fostering community, it also poses significant challenges to relationships and mental health.

One of the most significant ways social media can impact relationships is by creating unrealistic expectations.

The carefully curated images and posts that people share online often portray an idealised version of their lives. This can lead to feelings of inadequacy and comparison, as individuals may feel pressure to measure up to the perceived perfection of others. Additionally, the constant stream of information and updates can make it difficult to maintain deep and meaningful connections with loved ones. Social media can also contribute to the breakdown of relationships. The anonymity and lack of accountability that the internet provides

can create a breeding ground for cyberbullying, harassment and online infidelity. These behaviours can erode trust, damage relationships and have a devastating impact on mental health. Furthermore, the constant pressure to be online and connected can lead to feelings of anxiety and stress. The fear of missing out (FOMO) can drive individuals to spend excessive amounts of time scrolling through social media feeds, neglecting their relationships and other important

aspects of their lives. This can lead to feelings of isolation, loneliness and low self-esteem. The impact of social media on mental health can be particularly severe for young people, who are often heavy users of these platforms. Studies have shown that excessive social media use can be linked to increased rates of depression, anxiety, and even suicidal thoughts.

This is in part due to the exposure to negative content, such as cyberbullying and hate speech, as well as

the constant comparison to others. On the other hand, social media can also have positive effects on relationships and mental health. It can provide a platform for connecting with like-minded individuals, building supportive communities, and sharing experiences. Social media can also be a valuable tool for staying in touch with friends and family who live far away. To mitigate the negative impacts of social media on relationships and mental health, it is important to use it mindfully.

Set limits on your social media usage, be mindful of the content you share, take breaks from social media, prioritize real-life connections, and seek support if needed. By using social media in a healthy and balanced way, individuals can reap its benefits while minimising its risks. THE POWER OF INTELLIGENCE, KNOWLEDGE AND WISDOM

The human mind should be open to positivity and confidence, to harness intelligence and knowledge

RAVI VALLURI

Two thousand five hundred years ago, a prince from the formidable Sakya dynasty, in the quest for reality and truth, discarded his monarchical apparel to adorn ochre robes and went on to become Gautama the monk. He and his mind incessantly wandered till the attainment of truth and insight. Upon attaining enlightenment after performing arduous tapas, Gautama the monk became Buddha the Enlightened and Compassionate One. The mind of the prince turned Bhikkhu had become hollow and empty from within and without realise the pristine verisimilitude. There is also the story of Agnes Gonxha Bojaxhiu. Once a young evangelist who cast away the traditions and rituals of the Catholic order, only to serve the poor and infirm (particularly those afflicted by leprosy), she was first to become a sister, then Mother Teresa, after rendering selfless yeoman service to the populace of Kolkata (then Calcutta) and humanity at large. She was the fourth Indian to be canonised on September 4, 2016, and was set in stone as St Teresa of Calcutta by Pope Francis for the phenomenal work and the miracles that have taken place. Buddha and St Teresa were not confined to monasteries and convents respectively to live their lives as ascetics in contemplation, meditation, chastity and poverty. Both were prototypical individuals who transcended boundaries to carve a niche for themselves by providing an alternative ideology.

Meanwhile, way back in the year 1943 a young Swedish national, Ingvar Kampard set up a company called IKEA. IKEA is an acronym for Ingvar Kampard Elmtaryd at Agunnaryd. Today it is one of the largest ready-to-assemble furniture companies in the world. These are individuals, who with their mettlesome moves hold the ordinary traveller's gaze in askance. What differentiates them from the rest of the pack? It is not the opaci-

ty of their thought process, but looking for out-of-the-box solutions. While IKEA sets up furniture in our households, and Jio and WhatsApp provide the necessary seamless connectivity in communication, it is intriguing to decipher the letters of the acronym IKW.

I stand for Intelligence, K signifies Knowledge and W represents Wisdom. Intelligence, Knowledge, and Wisdom need to be harnessed by humans in ample measure to metamorphose our minds and lives to become true achievers. In the wired world today, we are girdled with far superior technology in comparison to a few decades ago and are surrounded by a plethora of gizmos at our disposal. The product and service should necessarily be flexible, adaptable, and positively meant for the public good. Only in such a scenario will the longevity of the article in question be ensured and assured.

Siddhartha with his superior intelligence grasped that he was encumbered by misery and suffering; he gained knowledge through the various techniques of pranayama and meditation and ultimately wisdom dawned on him in the form of enlightenment. Today a seeker without living in the monastic order, living like any ordinary individual could attain and experience bliss and enlightenment by practising the technique of Vipassana.

Similarly, in the Art of Living, through the regular practice of the Sudarshan Kriya, a seeker can live in the present moment by banishing antipathetic thoughts. St. Teresa of Kolkata too possessed enormous intelligence, knowledge, and wisdom to establish the order of the Missionaries of Charity to serve the distressed sections of humanity. The human mind should be developed into a sacred place, which is malleable to embrace positivity and confidence to harness the skills of intelligence and knowledge so that the Gods bestow us with a bounty of wisdom.

Bangladesh's interim Govt's crackdown on secularists

HIRANMAY KARLEKAR

Shahriar Kabir's arrest, amid controversial charges linked to his long-standing fight for secularism reflects Bangladesh fundamentalists working behind the interim government

It is important to examine in some detail Shahriar Kabir's arrest in Dhaka on September 17, 2024, and the subsequent related developments, to understand the forces driving Bangladesh's interim government and direction in which it is taking the country. To start with, one must briefly look at who Kabir is. Author, journalist, film-maker and an internationally respected champion of human rights, secularism and democracy, he has also been at the forefront of the struggle to bring to justice those who had collaborated with the Pakistanis during Bangladesh's liberation war of 1971 and were their accomplices in the perpetration of crimes against humanity including mass murder and rape. He played an important role in the formation of the Ekattorer Ghatok Dalal Nirmul Committee (Committee for the Uprootment of the Killers and Collaborators of Seventy-One) under the leadership of Jahanara Imam whose husband and one of whose sons were savagely killed by the Pakistanis in 1971. Kabir, who subsequently became the organisation's president, was, at the time of his arrest, president of its advisory committee. Second, one needs to look at the circumstances of his arrest, the charges against him and his accusers and their ties with the interim government. According to a report in The Dhaka Tribune, datelined September 17, 2024 and carried under the heading "Shahriar Kabir arrested in Dhaka," Mufti Harun Izhar Chowdhury, joint secretary of the Hefazat-e-Islam (Hefazat), filed, on August 20, 2024, a complaint with the International Crimes Tribunal (ICT) in Dhaka, against Sheikh Hasina and 23 others—one of them being Kabir—accusing them of crimes against humanity and mass murder in connection with a rally by Hefazat on May 5, 2013.

Further, according to a report in The Daily Star, datelined September 18, 2024, and carried under the heading "Shahriar Kabir placed on 7-day remand", Kabir, along with Mozammel Babu, was produced before the court with a 10-day remand plea by the police, in a case concerning the death of a domestic help, Liza Akter, during the quota

TO START WITH, ONE MUST BRIEFLY LOOK AT WHO KABIR IS. AUTHOR, JOURNALIST, FILM-MAKER AND AN INTERNATIONALLY RESPECTED CHAMPION OF HUMAN RIGHTS, SECULARISM AND DEMOCRACY

reform protests. The report cited a sub-inspector of police present in the court as saying that Dhaka's Additional Chief Metropolitan Magistrate, Md Sanaullah, passed the orders remanding him custody for seven days.

A report datelined September 17, 2024, and published in *Prothom Alo* English under the heading, "Shahriar Kabir, Nurul Islam arrested," cited sources as saying that Kabir was an accused in several murder cases filed with Jatrabari and other police stations in Dhaka. According to information available with this writer, seven murder cases have so far been levelled against him besides the one the ICT. The levelling of murder charges against a person of Kabir's stature is not only laughable but suggests, as in a number of other cases, planned and coordinated behind-the-scenes effort.

As seen, the case before the ICT has been filed by Mufti Harun Izhar Chowdhury, joint secretary of the Hefazat-e-Islam (Hefazat) accusing Sheikh Hasina and 23 others, including Kabir, of crimes against humanity and mass murder in connection with a rally by Hefazat on May 5, 2013.

According to a report in The Dhaka Tribune (August 19, 2024) under the heading "Hefazat rally in Shapla Chattar: Odhikar publishes list of killed people," Odhikar, a human rights organisation, published on Monday (August 19) a list of people allegedly killed during the Awami League-led government's crackdown on the Hefazat's rally on May 5-6, 2013, at Shapla Chattar in Dhaka. The list, originally published in 2013, had led to action against the organisation by the Awami League government.

Citing persecution by the latter government, Odhikar, according to the

report, urged the interim government to immediately form an independent inquiry commission headed by a Supreme Court judge and conduct an impartial investigation into the extrajudicial killings committed on May 5 and 6 of 2013 and bring the perpetrators to justice.

The *Dhaka Tribune* report did not mention whether Odhikar had named the perpetrators. As seen above, Hefazat's complaint was filed on August 20, 2024, the day after Odhikar's post. Three questions arise here. What was the number of people killed? Was the rally peaceful?

What was the context in which it was held and what were the Hefazat's demands? Against the Odhikar's figures, a BBC report, datelined May 6, 2024, stated that at least 27 persons had been killed and dozens hurt in the clashes. It also said that at least two of the dead were policemen. Also, the fact that the police, according to the report, "used stun grenades and rubber bullets" to disperse the protestors indicates an effort to keep the casualties to minimum.

The rally was extremely violent. The report cites one witness as saying that the demonstrators "were very aggressive, some people were throwing stones and the situation quickly become violent... the police had no option but to respond". The witness further told the BBC, "Rioters vandalised markets and set fire to bookshops where the Holy Koran is sold. Thousands of Koran and religious books burned. They also attacked the ruling party's political office and national mosque."

The Hefazat's 13-point programme includes the enactment of an anti-blasphemy law with provision for death penalty, exemplary punishment to all bloggers and others who "insult Islam," cancellation of

Bangladesh's policy for women's development, bans on the erection of sculptures in public places, the mixing of men and women in public, candlelight vigils, and "shameless behaviour and dresses," besides declaring Ahmadiyas as "non-Muslims." Nadia Sarmin, covering its rally for ETV, was mercilessly beaten for daring to be a woman "in a men only" event. Grievously injured, she was rescued by other journalists.

It is not surprising if all this reminds one of the Taliban's agenda, a DW report (May 9, 2013) by Graham Lucas under the heading "Bangladesh Chaos," cited Maulana Habibur Rahman, one of the Hefajat leaders, as boasting of his role in the 1980s Afghan war and his support to the former al Qaeda leader Osama bin Laden.

The interim government has close and warm relations with the Hefazat. It has lifted the ban on the organisation. The advisor for religious affairs, AFM Khalid Hossain, is the latter's Nayeb-e-Amir. Chief Advisor Mohammad Yunus had a long and cordial meeting on August 31, 2024, with Mamunul Haque, the organisations head. The Hefazat is holding rallies and processions all over the country.

It is in this context that one has to see Shahriar Kabir's arrest and continued detention, in the teeth of demands for his release by international human rights activists and organisations.

The idea is to send a clear message to people in Bangladesh: do not champion secular democracy and humanism and oppose Islamic fundamentalism. If we can send Shahriar Kabir to jail, we can also send you there.

Legal tussles over EWS quota violations undermine RTE Act in Delhi

The violation of the Economically Weaker Section quota under the Right to Education Act continues to plague India's education system

The consistent violation of the Economically Weaker Section (EWS) quota under the Right to Education (RTE) Act has become a troubling issue across India, particularly in major cities like Delhi. Despite clear legal mandates, several private schools continue to deny admissions to children who rightfully qualify under this provision, creating a barrier to equal educational opportunities for underprivileged communities.

Recent legal proceedings in the Delhi High Court have once again brought this issue to the forefront, highlighting the need for stricter enforcement of the law to safeguard the rights of EWS students. A case in point is Master Ayan

B K JHA

Saifi, a 4-year-old son of Shahid who had been allotted a seat through a computerised draw of lots conducted by Delhi's Directorate of Education (DoE) for the academic year 2024-25. But, a leading private Senior Secondary School in Rohini denied the admission and that ensued a legal tussle. Shahid approached to Delhi

High Court with his plight and sought justice. It is misconception that lawyers are reluctant to take up such cases especially for people coming from lower strata of society. Credit goes to a young Delhi lawyer Aman Sharma who took up the case for the kid and secured provisional admission for Ayan Saifi to the school.

The Delhi High Court, under the guidance of Justice Swarana Kanta Sharma, acknowledged the violation of the RTE Act and in an interim order granted provisional admission to the child, emphasising the school's legal obligation to comply with the EWS quota. The RTE Act 2009 is a landmark legislation that ensures free and compulso-

ry education for all children aged 6 to 14. One of its key provisions mandates that 25 per cent of seats in private unaided schools be reserved for children from EWS and disadvantaged groups (DG). This quota is intended to promote inclusive education and bridge the gap between socio-economic disparities. However, despite the importance of this provision, its implementation has been met with resistance from many private schools, not only in Delhi but schools across the country.

The refusal of admission highlights the ongoing challenge in enforcing this law. It violates a child's fundamental right to education under Article 21-A of the Constitution. "Denying chil-

den from economically weaker sections the education they are entitled to, despite a confirmed allotment, not only goes against the spirit of the Right to Education Act but also creates unnecessary hurdles for families already facing socio-economic challenges," argues advocate Sharma.

A pattern of non-compliance

can easily be seen and unfortunately, it has become pervasive across private educational institutions. Ayan's case is not an isolated incident. Private schools in Delhi have repeatedly been found guilty of disregarding the EWS quota, prompting legal battles that seek to restore the rightful educational opportunities for

underprivileged children. In March 2024, the Delhi High Court revised the income threshold for EWS admissions, reinforced eligibility criteria and offered clearer guidance. However, schools have continued to evade their responsibilities. A similar ruling in 2022 in the case of Rameshwar Jha v. Principal Richmond Global School set a precedent for punitive action against schools that refuse EWS admissions.

The Delhi High Court had then warned that schools could face severe consequences under the Delhi School Education Act, 1973, for non-compliance with the RTE Act. Yet, schools still engage in tactics that delay or deny admission to EWS

students, forcing families to take the matter to court.

The larger issue at hand is the erosion of trust in educational institutions and the judiciary's role in upholding constitutional rights. Advocate Sharma urges the Directorate of Education (DoE) and the Judiciary to take stringent actions against schools that defy the RTE Act, calling for penalties and stricter enforcement measures.

It becomes imperative for policymakers, educators, and civil society to collaborate in upholding the principles of the RTE Act and to work towards a more inclusive education system.

Dockworkers' pause strike until Jan 15

Detroit (AP): Some 45,000 dockworkers at East and Gulf coast ports are returning to work after their union reached a deal to suspend a strike that could have caused shortages and higher prices if it had dragged on.

Shortages could have driven up prices and reignited inflation. The union went on strike early Tuesday after its contract expired in a dispute over pay and the automation of tasks at 36 ports stretching from Maine to Texas.

Boston College, said the agreement to halt the strike means that the two sides are close to a final deal. "I'm sure that if they weren't going anywhere they wouldn't have suspended (the strike)," he said.

Melania says she supports abortion rights, putting her at odds with GOP

Melania Trump revealed her support for abortion rights on Thursday, ahead of the release of her upcoming memoir, exposing a stark contrast with her husband, Republican presidential nominee Donald Trump, on the crucial election issue.

individual freedom. What does 'my body, my choice' really mean? The video appears to confirm excerpts of her self-titled memoir reported by The Guardian on Wednesday.

Nobel Prizes to be announced next week

Wars, a refugee crisis, famine and artificial intelligence could all be recognised when Nobel Prize announcements begin next week under a shroud of violence.

Perhaps it would be right to draw attention to that by withholding the peace prize this year." Withholding the Nobel

Peace is not new. It has been suspended 19 times in the past, including during the world wars. The last time it was not awarded was in 1972.

Modi releases 18th installment of ₹ 20,000 crore under PM-KISAN

PTI ■ NEW DELHI

Prime Minister Narendra Modi will release Rs 20,000 crore as the 18th instalment of the PM-KISAN scheme on Saturday, benefiting over 9.4 crore farmers across the country. Disbursements will be through Direct Benefit Transfer (DBT) during an event in Washim, Maharashtra, an official statement said. Maharashtra farmers will receive an additional Rs 2,000 crore under the state's Namu Shetkari Mahasnan Nidhi Yojana. With the 18th instalment, the total amount disbursed under PM-KISAN will exceed Rs 3.45 lakh crore, supporting more than 11 crore farmers nationwide. The PM-KISAN scheme, launched on February 24, 2019, provides Rs 6,000 annually to landholding farmers in three equal

instalments. Maharashtra has received about Rs 32,000 crore in 17 instalments, benefiting around 1.20 crore farmers, the second highest among all states. Around 91.51 lakh farmers in Maharashtra will receive over

Rs 1,900 crore in the 18th instalment. Modi will also launch an indigenous sex-sorted semen production technology, aimed at reducing costs by approximately Rs 200 per dose. The Prime Minister will introduce a Unified Genomic Chip for cattle and buffalo, developed by the Animal Husbandry Department. Five solar parks with 19 MW capacity will be dedicated under the MSKVY 2.0 scheme, providing farmers daytime electricity and additional income through land leasing. The event will see the dedication of 9,200 Farmer Producers Organisations (FPOs) and e-distribution of awards for 3,000 MW under the KUSUM-C scheme. Maharashtra Governor C P Radhakrishnan, Union Ministers Shivraj Singh Chouhan and Rajiv Ranjan Singh, Chief Minister Eknath Shinde, and Deputy Chief Ministers Ajit Pawar and Devendra Fadnis will attend the event. Around 2.5 crore farmers will participate through webcasts at various centres nationwide. States and UTs will celebrate the day as PM-KISAN Utsav Divas.

About 1 per cent fall in Sensex, Nifty amid tensions in West Asia

PTI ■ MUMBAI

Equity benchmark indices Sensex and Nifty slumped nearly 1 per cent in a topsy-turvy trading session on Friday, dragged by intense selling in FMCG, auto and energy stocks amid escalating tensions in West Asia and persistent foreign capital outflows. Besides, a spike in global crude prices on supply uncertainty due to geopolitical tensions dented market sentiments, traders said. Falling for the fifth day running, the BSE Sensex tumbled 808.65 points or 0.98 per cent to settle at 81,688.45. The benchmark hit a low of 81,532.68 and a high of 83,368.32 during the day, reflecting a wild swing of 1,835.64 points. The NSE Nifty slumped 235.50 points or 0.93 per cent to 25,014.60. Intra-day, it hit a low of 24,966.80 and a high of 25,485.05. From the 30 Sensex firms, Mahindra & Mahindra, Bajaj Finance, Asian Paints, Nestle,

Bharti Airtel, UltraTech Cement, Hindustan Unilever, ITC, and HDFC Bank were the major laggards. In contrast, Infosys, Tech Mahindra, Tata Motors, Axis Bank, Tata Consultancy Services and State Bank of India were among the gainers. Foreign Institutional Investors (FIIs) offloaded

markets ended lower on Thursday. "The last three days have witnessed huge FII selling of Rs 30,614 crore in the cash market. FIIs are moving money from expensive India to cheap Hong Kong on expectations that the monetary, and fiscal stimulus being implemented by the Chinese authorities will stimulate the Chinese economy and improve the earnings of Chinese companies. "It remains to be seen how this Chinese recovery hopes to play out," said VK Vijayakumar, Chief Investment Strategist, Geojit Financial Services. Global oil benchmark Brent crude climbed 0.99 per cent to USD 78.39 a barrel. Falling for the fourth straight session on Thursday, the BSE benchmark Sensex tumbled 1,769.19 points or 2.10 per cent to settle at 82,497.10. During the day, it plummeted 1,832.27 points or 2.17 per cent to 82,434.02. The Nifty slumped 546.80 points or 2.12 per cent to 25,250.10.

US, India Dialogue advances semiconductor, minerals cooperation

PTI ■ WASHINGTON

Minister of Commerce and Industry Piyush Goyal and US Commerce Secretary Gina Raimondo held the 6th Commercial Dialogue here on Thursday during which they reviewed the progress made in semiconductors supply chains, innovation handshake, energy-industry network and the Indo-Pacific Economic Framework for Prosperity. A day earlier, the two leaders signed a new memorandum of understanding (MoU) to expand and diversify critical minerals supply chains, with the aim of leveraging the two countries' complementary strengths to ensure greater resilience in the critical minerals sector. Priority areas of focus include identifying equipment, services, policies and best practices to facilitate the mutually-beneficial commercial development of the US and Indian critical minerals exploration, extraction, processing and refining, recycling and

recovery, a media release said. During the commercial dialogue, Goyal and Raimondo praised the two sides' continuing efforts to facilitate resilient, secure and sustainable semiconductor supply chains. Since the signing of the MoU establishing a semiconductor supply chain and an innovation partnership under the framework of the US-India Commercial Dialogue, the US Semiconductor Industry Association and the India Electronics Semiconductor Association have completed their private sector "readiness assessment",

benefit both countries, the Department of Commerce said in a statement. The two leaders welcomed the success of the two roundtables convened in San Francisco in November 2023 and in New Delhi in March 2024, bringing the two countries' startup ecosystems closer together and carrying forward their ambitions under the MoU to enhance innovation ecosystems through an innovation handshake under the framework of the US-India Commercial Dialogue. They praised the work done on the EIN Roundtable organised during the Clean EDGE and Environmental Technologies Business Development Mission in New Delhi in March. The trade mission brought 12 US companies to India to help grow sustainable and secure clean energy markets and accelerate the adoption of environmental solutions in India. Views exchanged during the EIN Roundtable helped inform the US-India Strategic Clean Energy Partnership

(SCEP) ministerial convened by the US secretary of energy and the Indian minister of petroleum and natural gas in Washington on September 16, the media release said. They also commended the significant progress announced at the virtual IPEF ministerial meeting last month, including the work being done to improve supply chain resilience under the IPEF Supply Chain Agreement for the IPEF partners. They highlighted their commitment to collaborate initially in the critical areas of semiconductors, chemicals, critical minerals with a focus on batteries, and potentially healthcare products, as agreed to by the IPEF Supply Chain Council. Goyal and Raimondo reviewed other joint efforts that have been made, including under the India-US Strategic Trade Dialogue and the Standards and Conformance Cooperation Program (SCCP). Looking ahead, they discussed several priorities for future collaboration, including critical minerals.

Apple to open four new stores in India

PTI ■ NEW DELHI

iPhone maker Apple on Friday said it will open four more stores in India, located in Pune, Bengaluru, Delhi-NCR and Mumbai. The company said it will also roll out its first-ever "made in India" iPhone 16 Pro and iPhone 16 Pro Max series devices this month. "We're thrilled to build our teams as we plan to open more stores in India because we're inspired by the creativity and passion of our customers across this country. We can't wait for them to have even more opportunities to discover and shop for our amazing products and services, and connect with our extraordinary, knowledgeable team members," Apple's senior Vice President of Retail, Deirdre O'Brien, said in a statement. In April 2023, Apple opened its two stores in India, one in Delhi and the other in Mumbai. "Future Apple Retail stores are planned in Bengaluru, Pune, Delhi-NCR and

Mumbai," the statement said. According to people aware of the development, the stores are likely to be opened next year. The company announced that it will now manufacture iPhone 16 series smartphones in India. "Apple is now manufacturing the entire iPhone 16 lineup, including iPhone 16 Pro and iPhone 16 Pro Max, in India," the statement said. Apple began manufacturing the iPhone in India in 2017. "Manufactured in India iPhone 16 Pro and Pro Max will soon be available for our local customers and for export to select countries across the world," the statement said. According to sources, supplies of the high-end, Made-in-India iPhone 16 Pro and Pro Max are expected to begin this month.

PFC secures record foreign loan

PTI ■ NEW DELHI

State-owned Power Finance Corporation (PFC) on Friday announced that it has secured the largest-ever foreign currency term loan of USD 1.265 billion. This landmark transaction was executed through a facility agreement with multiple banks based in IFSC GIFT City, Gandhinagar, a company statement said. According to the statement, PFC announced successful closing of issuance of largest-ever foreign currency term loan from an Indian PSU amounting to USD 1.265 billion. The loan will primarily be deployed towards financing

assets other than thermal generation projects, furthering PFC's strong commitment to decarbonization and the transition to green energy. The multi-currency funding will enable PFC to expand its operations, enhance its market presence, diversify its funding sources and maintain a competitive edge. The floating rate loan, presently at an average rate of 4.21 per cent per annum, denominated in G3 currencies -- USD, EUR, and JPY -- has a 5-year tenor and is linked to external benchmark rates such as Secured Overnight Financing Rate (SOFR) for USD, Euro Interbank Offered Rate (EURIBOR) for EUR, and Tokyo Overnight Average Rate (TONA) for JPY.

BMW group sales rise in India

PTI ■ MUMBAI

German luxury carmaker BMW Group on Friday said its BMW and MINI brands recorded a 10 per cent year-on-year increase in sales, at 10,556 units in India during the January-September period of 2024. The number of cars (BMW and MINI) sold in the nine months of 2023 was 9,580 units. Besides, the group also sold 5,638 units of Motorrad brand of motorcycles, the group announced here on Friday. BMW Group comprises three brands BMW, Mini and Motorrad. Of the 10,556 units, BMW Group said, it sold 10,056 units of BMW and the remaining 500 units of the

MINI brand. "The highest ever car deliveries during January to September this year, reflects the synergy between a successful strategy and an unparalleled customer experience," said Vikram Pawah, President and CEO at BMW Group India. BMW Group India is changing the game with its long wheelbase product portfolio and a strong electric mobility offensive, he added. Key models like the BMW 7 Series Long Wheelbase, BMW 3 Series Long Wheelbase and BMW X1 are leading in their segments and demand for the new BMW 5 Series Long Wheelbase is overwhelming, Pawah stated. BMW Group India maintains its top position in the electric mobility space with 725 units of fully electric BMW and MINI cars getting delivered YTD (Year To Date) Q3 2024, it said.

Home cooked meal prices rise in September

PTI ■ MUMBAI

Home-cooked meals became dearer in September compared to a year ago as prices of onion, potato and tomatoes shot up, a report said on Friday. A vegetarian meal cost went up 11 per cent over year to Rs 31.3 in September from Rs 28.1 in September 2023, and inched up from Rs 31.2 in the preceding August, as per the report by domestic rating agency Crisil. Attributing the rise to firming up in the vegetable prices that account for 37 per cent of a thali cost, the "roti, rice, rate" report elaborated on the factors affecting the overall cost. "Prices of onion, potato and tomato rose 53 per cent, 50 per

cent and 18 per cent on-year, respectively, in September because of lower onion and potato arrivals, while heavy rainfall impacted tomato output in Andhra Pradesh and Maharashtra," it explained. Prices of pulses jumped 14 per cent on year due to a drop in production, while fuel dropped 11 per cent due to a price cut earlier in the year, the report said. In the case of a non-vegetarian thali, the meal cost dropped by 2 per cent on year to Rs 59.3 on a 13 per cent decline in broiler prices which have a 50 per cent weightage. A non-veg meal cost, which also includes the payouts on vegetables but dal gets replaced with broiler, was flat compared to the rate in August, the report said.

A NIGHT OF MUSICAL TRIBUTE

CELEBRATING JAGJIT SINGH'S GHAZALS

The timeless melodies of Jagjit Singh continue to resonate with audiences, and the recent concert, *Salaam-e-Jagjit*, featuring Nisschal Zaveri at the Siri Fort Auditorium in Delhi, celebrated his enduring legacy. Fans united to honour the ghazal maestro, reliving the magic of his songs in a heartfelt evening of nostalgia, says

SAKSHI PRIYA

How often we chhu lo tum, mera geet amar kar do" - these beautiful lyrics by Jagjit Singh capture the heart of his music, expressing deep love and emotion. As a master of ghazals, he transformed Indian music with his soulful voice and meaningful lyrics, creating a legacy that continues to touch people today. His songs are anthems of love and nostalgia, connecting listeners across generations. During *Salaam-e-Jagjit*, the excitement in the auditorium was visible, reminding everyone that they were celebrating a beloved artist whose music resonates with their own stories. The recent concert, *Salaam-e-Jagjit*, held at the Siri Fort Auditorium in Delhi, was a powerful tribute to the legendary Jagjit Singh. From the moment the audience entered, there was a noticeable excitement in the air, a sense of collective anticipation that hinted at the emotional journey they were about to embark on. It was clear that everyone present had come not just to enjoy music but to celebrate the legacy of an artist who had touched their hearts.

As Nisschal Zaveri took to the stage, the auditorium erupted with applause, a heartfelt welcome from fans eager to honour Jagjit Singh's memory. Dressed impeccably, Zaveri carried an aura of confidence and reverence, and the love for Singh's music shone through every performance. With his first notes of "Pyaar Ka Pehla Khat," he immediately captivated the audience. They sang along, creating a beautiful chorus that filled the auditorium, merging their voices with his in a shared

ONE PARTICULARLY TOUCHING MOMENT WAS WHEN ZAVERI PAID TRIBUTE TO LATA MANGESHKAR BY SINGING "LAG JA GALE" IN HONOUR OF HER BIRTHDAY. THE AUDIENCE RESPONDED WITH ENTHUSIASM, MANY SINGING ALONG AND CLAPPING TO THE RHYTHM, AS IF THEY WERE AT A CLOSE FRIEND'S GATHERING RATHER THAN A CONCERT

celebration of the beloved ghazal. When Zaveri transitioned into "Aahista Aahista," the mood shifted. The audience fell silent, completely absorbed in the haunting melodies and poignant lyrics that had defined Jagjit Singh's music. At that moment, time seemed to stand still. Each word resonated, and the emotional weight of the song was felt throughout the hall. It was a moment that bridged generations, as listeners, young and old, connected with the timeless themes of love and longing that Jagjit Singh so eloquently expressed.

The presence of notable figures like Ustaaad Amjad Ali Khan and his wife, Mrs. Subhalaxmi Khan, added to the

significance of the evening. Their appreciation for Zaveri's performances was unmistakable. Ustaaad Khan stood in support, leading the audience in a standing ovation as the final notes echoed through the auditorium. This act of respect and admiration encapsulated the spirit of the night, a powerful acknowledgment of Jagjit Singh's enduring impact on music and culture.

One particularly touching moment was when Zaveri paid tribute to Lata Mangeshkar by singing "Lag Ja Gale" in honour of her birthday. The audience responded with enthusiasm, many singing along and clapping to the rhythm, as if they were at a close friend's gathering rather than a concert. This gesture highlighted the interconnectedness of these legendary artists, demonstrating the deep respect they had for one another and how their legacies intertwine.

As the evening progressed, it became clear that *Salaam-e-Jagjit* was more than just a concert; it was a heartfelt tribute to Jagjit Singh's contributions to Indian music. The audience's engagement, singing along, applauding and responding to the music, highlighted how deeply Singh's work resonates with people across generations. It was touching to see how music can bring everyone together in celebration of a shared love, creating a sense of community among fans.

The concert concluded with a wave of applause and appreciation, with the audience clearly moved by the performances. Zaveri's heartfelt connection to Jagjit Singh's music was evident as he expressed, "Performing Jagjit Saheb's music is always a deeply moving experience for me." The crowd's reactions showed that they weren't just passive listeners; they were engaged participants, each clapping and cheering as a tribute to their love for Singh's work.

As the concert drew to a close, the audience remained in the moment, enveloped in a sense of nostalgia and gratitude. The evening served as a reminder of how music can touch our lives in profound ways. *Salaam-e-Jagjit* was a fitting celebration of not just the songs of Jagjit Singh but also the very spirit of an artist whose influence remains ever-present. The shared claps, cheers and emotional responses from the audience spoke volumes about the lasting legacy of Jagjit Singh, reminding everyone that music has the power to unite and heal. It was an unforgettable evening that will continue to inspire all who were fortunate enough to be part of it.

Taiwan and India Unite Through Music

BY TEAM VIVA

The India Habitat Centre was alive with the sounds of both East and West in a concert that crossed cultural boundaries. The Taipei Philharmonic Chamber Choir and The Neemrana Music Foundation came together for an evening titled "Eastern & Western Music Treasures", filling the Stein Auditorium with music that connected continents and traditions. More than 50 singers from Taiwan and India performed a stunning blend of Western classical pieces alongside Indian and Taiwanese musical traditions. It wasn't just a concert, it was a celebration of shared human experience, showing how music can unite us, no matter our origins. This extraordinary event was made possible with the support of the Taiwan Electrical and Electronic Manufacturer's Association and the India Habitat Centre. Their collaboration ensured the evening was an unforgettable success. Ferdinand Ta-Ming Ting, Executive

Director of the Taipei Philharmonic Foundation, captured the spirit of the event perfectly, saying, "Music transcends borders and through this collaboration, we hope to deepen the cultural bond between Taiwan and India." Since its founding in 1988, the Taipei Philharmonic Foundation has represented Taiwanese music on the global stage, performing in over 30 countries. Meanwhile, The Neemrana Music Foundation has been pivotal in promoting Western classical music in India, nurturing young talent and bridging cultures through the arts. Aude Priya Wacziarg, Managing Trustee of The Neemrana Music Foundation, reflected on the collaboration, "This concert is a beautiful testament to the longstanding friendship between Taiwan and India. It's an honour to bring our musicians together in this celebration of unity." The evening was not just about music, it was a celebration of how art unites people, breaking down borders and creating connections beyond words.

MYSTIC MINIATURES

A Journey of Introspection

BY TEAM VIVA

Anuj Prasad's solo exhibition, *Mystic Miniatures*, is an evocative dive into the realms of spiritual reflection, displayed at the India Habitat Centre's Visual Art Gallery. With intricate precision and an ethereal touch, Prasad offers viewers a chance to encounter mysticism in a way that feels personal rather than grandiose. As visitors enter the gallery, they are immediately transported into the artist's inner world, where the 150 artworks in ink, watercolour and oil invite a deeper exploration of self. Each piece, though small in scale, possesses a monumental capacity to provoke thought and contemplation. The exhibition showcases Prasad's ability to distill complex ideas into minute details, encouraging the viewer to engage intimately with each artwork.

At first glance, the intricate lines and vibrant colours create a sense of overwhelming complexity. However, as one spends time with the pieces, the seemingly chaotic forms begin to reveal hidden patterns and meanings. This slow unfolding mirrors the process of self-reflection, where confusion gradually gives way to clarity. The exhibition invites viewers to embark on a journey of discovery, probing the hidden meanings and symbolism work into each piece. The tactile nature of Prasad's work enhances this experience, allowing visitors to connect with the depth and intricacy of his artistry on a personal level. Prasad's connection to mysticism is evident in his exploration of spiritual themes through art. He describes mysticism as a natural instinct and each piece reflects this

belief. The artworks exude a quiet spirituality, inviting viewers into a dialogue rather than demanding their attention. The miniature scale of the works compels intimacy, urging visitors to lean in and engage, promoting a sense of stillness that feels almost radical in today's fast-paced world. Nature serves as a significant influence in Prasad's artistic practice. His use of organic shapes and textures reveals a deep reverence for the environment, reflecting an understanding of the interconnectedness of all living

things. This appreciation for the natural world is evident in every stroke, as Prasad captures the minutiae of life with a deft hand. The handmade textures of his paintings further emphasise this connection, inviting viewers to consider the beauty in the smallest details.

The titles of Prasad's artworks add another layer of meaning, prompting viewers to engage with the themes presented. Names such as "Soul Gateway," "Duality," and "3 Layer Orbit" hint at deeper spiritual explorations, while "Treasure Hunt" and "Balloon Above the Sky" evoke a sense of adventure and freedom. Other titles like "Net Zero," "Moving Goals," and "Boundary-less" challenge viewers to contemplate concepts of balance, change and the fluidity of existence. Each title serves as an invitation to interpret the work through one's own experiences, making the exhibition a deeply personal journey.

Mystic Miniatures go beyond the traditional art exhibition; it serves as an invitation to slow down and reflect on the often-overlooked details of life. In a world that constantly demands our attention, Prasad's work acts as an antidote to the fast pace of modern living. His unique artistic vision encourages audiences to immerse themselves in the spiritual and meditative verses present within each piece. By doing so, he reminds us that profound discoveries often lie in the intricate details we may overlook if we do not take the time to look closely. Through *Mystic Miniatures*, Prasad invites viewers not only to appreciate art but also to engage in a transformative exploration of their inner selves.

WE CAN SENSE EACH OTHER'S FEELINGS JUST BY OUR FACIAL EXPRESSIONS: SHAFALI ON MANDHANA

PTI ■ DUBAI

Shafali Verma, the significant other of the blockbuster Indian opening pair, says her no-holds-barred approach goes well with Smriti Mandhana's elegance and both can "sense each other's feelings just by our facial expressions" while batting.

One of the factors behind the Indian women's cricket team's dominance in recent times has been the success of its openers, and Shafali admits they know how "important" they are to the team's fortunes.

"I've been opening with Smriti for the past two-three years, and now we can sense each other's feelings just by our facial expressions while batting. We know each other's strengths and weaknesses, and we give each other positive vibes," Shafali told Star Sports when asked about her on-field relationship with Mandhana.

"We understand how

important we both are to the team, especially during the powerplay, so we try to perform well for ourselves, our teammates, and the country."

The younger partner added, "Smriti di is an exceptional timer of the ball, and she knows how to build an innings. These are the two things I admire most about her batting -- her timing and her ability to construct a big innings."

India will begin their campaign in the ongoing Women's T20 World Cup with a game against New Zealand

on Friday, and Shafali said it has been a dream of skipper Harmanpreet Kaur to win the tournament, in which they finished runners-up in the 2020 edition.

"Harmanpreet di is very passionate about the game. Winning the World Cup has always been a dream for her, and I hope we can make that dream come true. She's a great player, a great teammate, and a fantastic captain who inspires and motivates us all the time," Shafali said of the skipper.

Shafali made her World Cup debut as a 16-year-old and

having missed the trophy by a whisker then, she is hoping to change that this time around.

"It was a big deal for me to debut at 16, and I loved being in Australia. It wasn't just the cricket; I also enjoyed exploring the country.

"The tournament was special, and I performed well for the team. Thinking back to that World Cup always brings a smile to my face. We were so close to winning, but hopefully, we can change that this time around."

Playing the final against home team Australia, in front of a packed crowd at the iconic MCG, is an experience that has helped her in learning to handle pressure better.

"I couldn't hear anything because of the massive crowd. It was a completely new experience for me to play in front of such a big audience.

"I was lost in the atmosphere and the noise, but I've learned to focus more now. I wouldn't feel the same pressure if I were in that situation again."

No. 1 Iga Swiatek parts ways with coach Tomasz Wiktorowski

AP ■ WARSAW

Top-ranked Iga Swiatek is separating from her coach Tomasz Wiktorowski.

The Polish tennis player announced the split Friday, saying the decision was taken together.

During the three years Swiatek worked with Wiktorowski, the Polish player won four of her five Grand Slam titles and rose to the top of the women's rankings.

"After 3 years of the greatest achievements in my career, together with my coach Tomasz Wiktorowski we decided to part way," Swiatek wrote in a post on Instagram. "I want to start with a big thank you and appreciating our work together."

Swiatek appointed Wiktorowski as coach at the end of the 2021 season. He helped her capture 19 of her 22 career titles and an Olympic bronze medal in Paris in August.

"Coach Wiktorowski joined

my team for three seasons, when I strongly needed changes and a fresh approach to my game," Swiatek continued.

"His experience, analytical and strategic attitude and enormous knowledge about tennis helped us to achieve things I've never dreamed of only a few months after we started working together."

"Our main goal was to become No. 1 player in the world and coach Wiktorowski was the one who said it first."

Swiatek hasn't competed since losing to Jessica Pegula in the quarterfinals of the U.S. Open. She withdrew from this week's China Open in Beijing - where she would have been defending champion - citing personal reasons. The 23-year-old Swiatek also pulled out of the

recent Korea Open in Seoul, citing fatigue.

"Due to this important change on my team, I give myself a couple of weeks to start a cooperation with a new coach," Swiatek wrote.

"I'm in the middle of first talks with coaches from abroad (non-Polish) because I'm ready to take the next step of my career. I will let you know when I make a decision."

Wiktorowski was voted the WTA's Coach of the Year by his peers last year.

"Coach, THANK YOU, I wish you all the best," Swiatek wrote. "I know that you would like to rest after these 3 years of hard work and traveling a lot and spending some well deserved time with your loved ones and I hope you'll get what you need."
