WHEN GOLDEN HOUR IS LOST IN A STUCK AMBULANCE

y father was in the ambulance, as he had just suffered a severe asthma attack. We were rushing to a hospital in South Delhi, hoping every second that we would make it in time. But as we got onto the main road, we realised we were trapped. The heavy rains in the morning had caused massive water-logging, and the traffic was completely stuck. The ambulance couldn't move an inch.

'Though, we eventually reached the hospital, the delay could have been fatal," said Ramesh Verma, echoing the helplessness of a family member stuck in a dire situation due to water-logging induced traffic snarls in the national capital.

His case is just one among many in the similar situation, highlighting systemic issues with emergency response and infrastructure, particularly during the monsoon season when water-logging is the common feature at various stretches. Despite the ongoing problems plaguing the city for years as climate change induced erratic weather plays truant, authorities continue shift responsibility, leaving the situation unresolved year after year.

There have been cases of people dying in rain-related incidents as the capital has been witnessing heavy rainfall every other day, bringing it to a standstill with streets flooded, traffic in chaos and some commuters stranded on roads. Even upscale areas of Lutyens' Delhi, arterial lanes and key tunnels like the one at Pragati Maidan were closed due to flooding.

Clearly, this reflects a broader issue where emergency services are frequently hindered by inadequate infrastructure. Incidentally, while writing this, Sawati

Das Gupta, a commuter, called up in distress. "I am stuck up at a severe traffic snarl at Bharat Mandapam near Supreme Court due to water-logging, which is also blocking two ambulances.

The vehicles with sirens blaring are honking consistently, but there's no space to move. I just can't imagine the distress of patients and their families inside the vehicle, trapped in gridlocked traffic. It's heart-wrenching. The pressure and fear of not knowing if they'll make it in time only add to their agony. The situation is further compounded by the fact that outside the vehicle, people seem unaware of the urgency," she said. Dasgupta asserted that such a situation is unacceptable and no one should have to endure this kind of helplessness.

emergency need better management and infrastructure to prevent such incidents," she strongly emphasised.

Drivers from Centralised Accident and Trauma Services (CATS), the State Government's medical emergency services too expressed their frustration, noting that their best strategy is to avoid known water-logged areas and stay updated via contacts and newspapers. Much also depends on the driving skill of the occupant behind the steering wheel, they agreed.

Jeetu (name changed), a CATS driver, emphasised the importance of the 'Golden Hour'--the critical first hour following an accident for improving survival chances.

The 'Golden Hour' principle, supported by WHO, stresses the importance of timely medical intervention to increase survival rates. Currently, traffic congestion often delays ambulances, with journeys that should take 15-20 minutes extending over an hour.

The CATS vehicles are categorised into

patient transport ambulances, basic lifesupport ambulances, and advanced lifesupport ambulances.

He also shared that CATS is in the process of updating its fleet, with plans to add over 400 new vehicles equipped with advanced facilities. The Government has also taken the services of a private firm which is playing the vehicles as 'Rakshak.' Suraj (name changed), another driver with the CAT, lamented that while the population has increased, infrastructure improvements have lagged, putting critical patients at greater risk.

Requesting anonymity, a senior official from the CATS department maintained that the old fleets are on the way out. A tender has been passed in this regard and we are looking forward to adding the new vehicles equipped with improved and sophisticated facilities including at least three Oxygen cylinders. Soon there would be more than 400 vehicles.

The official admitted that roads are constructed without properly assessing actual needs, and issues like inadequate sewage management and insufficient desilting contribute to the chaos. Ultimately, it is the people and patients who suffer as a result.

Jeetu chipped in saying that most critical are especially those injured in road accidents, while on the way to hospitals. 'I have been lucky that no patient has died in my ambulance due to heavy traffic on the road resulting in the ambulances getting stuck in traffic jams." Apart from patients of road mishaps, heart patients also needed to be rushed to hospitals in time.

However, on the brighter side, he said that people have been sensitised enough to give way to Ambulances.

According to the CAT drivers, if an ambulance gets a free lane it can cover the distance of 25 km within 15 to 20

minutes but due to traffic it generally takes more than a hour. If the waterlogging issue is sorted, delay time in a patient reaching a hospital can be cut. Delhi has several areas prone to

waterlogging, including perennial hotspots like Minto Bridge, Pul Prahladpur Underpass, Jahangirpuri Metro Station Road, under Zakhira Flyover, Loni Road Roundabout, Karala Kanjhawala, and parts of the Ring Road, such as the area opposite WHO. Other locations that frequently

experience waterlogging include ITO, RK Puram, Janpath, Parliament Street, Karol Bagh, Nauroji Nagar, Pant Marg, and various spots in South Delhi, such as Mayur Vihar, Vasant Kunj, Greater Kailash, New Friends Colony, Saket, and Malviya Nagar.

Dr Jagdish Kaur from WILGA, an NGO working for the empowerment of women expressed displeasure at the situation, saying, "I can't recall a day when I haven't seen an ambulance struggling through our chaotic traffic, which is often anything but efficient.

"We often forget that the person in the ambulance could be someone we know or even ourselves. Imagine being in that emergency vehicle while someone in a car ignores the siren's urgent wail. That siren is actually a critical signal--a "song of life or death.

Each of us plays a role in ensuring that this siren leads to life, not death. Just as the ambulance driver, doctors, and nurses are responsible for responding to emergencies, we must also take responsibility for our actions on the

Also, the authorities instead of playing blame-games must do their part. They should responsibly ensure that the roads are free of water-logging and traffic jams," Dr Kaur summed up.

SC asks HP collegium to reconsider its recommendations

PIONEER NEWS SERVICE NEW DELH

The Supreme Court on Friday asked the collegium of the Himachal Pradesh High Court to reconsider the names of two senior-most district and sessions judges for elevation as judges of the High Court. The top court observed that the High Court chief justice could not individually reconsider a recommendation and it could only be done by a High Court collegium, acting collectively. A bench of Justice Hrishikesh Roy and Justice Prashant Kumar Mishra delivered its verdict on a plea filed by the two senior-most district and sessions judges, alleging that their merit and seniority were not considered by the High Court collegium in the selection of names for High Court judgeship. "There was no collective consultation and deliberation by the members of the High Court collegium," the bench said while pronouncing its judgment. "In light of the above, the high court collegium should now reconsider the names of Chirag Bhanu Singh and Arvind Malhotra for elevation as judges of the high court, following the Supreme Court collegium decision dated January 4, 2024..." it said.

While pronouncing its verdict, the top court bench said, "The decision of the chief justice of the High Court on the suitability of the two petitioners, as conveyed in his letter dated March 6, 2024, appears to be an individual decision. The same stands vitiated, both procedurally and substantially." It said the writ petition filed by the

Paid registration facility has been provided at MP Online Kiosk, Common Service Centre Kiosk, Public Service Centre and Cyber ??Cafes run by private individuals. The Collector will issue instructions regarding receiving the fee for registration at these centres. A fee of more than Rs 50 will not be fixed for each registration. For farmer registration, it will be mandatory to properly check the land related documents and the farmer's

Aadhar card and other photo identity cards and keep their record. The facility of registration of Sikmi/Bataidaar/Kotwar and Forest Leaseholder farmer will be available only at the registration centres run by the Cooperative Society and Co-operative Marketing, Cooperative Institution. Cent percent of the farmers of this category will be verified by the Revenue Department.

The payment of the produce sold by the farmer at the support price will be made on pri-ority basis in the Aadhar linked bank account of the farmer. In case of any problem in making payment in the Aadhar linked bank account of the farmer, payment can be made in the bank account provided by the farmer in the registration. At the time of farmer registration, the farmer will have to provide

information about the bank account number and IFSC code. Inactive bank accounts, joint bank accounts and Fino, Airtel, Paytm, bank accounts will not be acceptable in registration. To get better service in the registration system, it will be necessary that the farmer keeps his bank account and mobile number updated by linking it with his Aadhar number.

All the district collectors have been directed to keep the Aadhaar registration centres established at the district and tehsil level functional so that farmers can easily go there and update their mobile number and biometrics. Aadhaar facility centres operated in post offices can also be used for this work. Coordination with banks will also be necessary to link bank account with Aadhaar number. For verification of the

farmer's Aadhaar linked bank account, a transaction of Re 1 will be done by Madhya Pradesh State Supply Corporation through e-procurement / JIT portal during registration itself.

It will be mandatory to get the Aadhaar number verified for registration and selling the crop. Verification can be done with the OTP received on the mobile number linked to the Aadhaar number or with a biometric device. Registration of the farmer will be possible only in the case when the name recorded in the farmer's land records account and Khasra will match with the name recorded in the Aadhaar card. In case of discrepancy in the name recorded in the land records and Aadhaar card, the registration will be verified from the

Simplify procedure for obtaining caste certificate: Chief Minister

STAFF REPORTER ■ BHOPAL

hief Minister Mohan Yadav has directed the ✓ simplification of the caste certificate application process in the state. He also said that the systems for obtaining birth and death certificates should be made more accessible through improved coordination among relevant departments. Dr. Yadav instructed the implementation of mess facilities and the construction of boundary walls in postmatric girls' hostels for backward classes to enhance security. Additionally, solar panels will be installed in these hostels. For the 2024-25 budget, he approved a separate scholarship portal and allocated Rs 560 crore to supplement existing provisions for backward class post-matric scholarships. These directives were issued during a review of the Backward Class-Minority Welfare and Denotified, Nomadic, and Semi-Nomadic Welfare Department at Mantralaya, where Department Minister Smt. Krishna Gaur, Chief Secretary Smt. Veera Rana, Additional Chief Secretary Dr. Rajesh Rajoura, and other officials were present. Youth should be given training in

entrepreneurship and businesses as per market demand

Chief Minister Dr. Yaday emphasized the need for ensuring regular attendance of students receiving scholarships. He also highlighted the importance of evaluating the contributions of students benefiting from the Backward Class

Foreign Study Scholarship to the state. Regarding the scheme aimed at providing employment abroad to unemployed youth from backward classes, Dr. Yadav called for intensified efforts to facilitate language proficiency in selected state divisions. Additionally, he stressed the need to align businesses and products with market demand through the Sardar Patel Employment Training Scheme and to establish centers of excellence focused on traditional backward class businesses. Dr. Yadav also underscored the necessity to expand the activities under the Chief Minister's Backward Class and Minority Enterprise and Self-Employment Scheme.

During the review of the Denotified, Nomadic, and Semi-Nomadic Welfare Department, Chief Minister Dr. Yadav said that along with the government efforts to connect the youth and next generation of Kanjar, Sansi, Pardhi and other communities with education, entrepreneurship, and development, social Institutions should also be motivated to take initiative. Necessary training should be provided to the youth of these communities for selection in police, home guards, and security-related services.

Amidst global turmoil, India needs stable Government and capable leadership: Naqvi

PIONEER NEWS SERVICE NEW DELH

Senior BJP leader Mukhtar Abbas Naqvi on Friday said amid the ongoing global turmoil, India or any other democracy needs a stable Government and capable leadership which can play the role of a "trouble shooter" and be a "flag bearer" of socio-economic and cultural empowerment.

Addressing the "Asian Brand and Leadership Conclave 2024" organised in Haryana's Surajkund, Naqvi also said artificial intelligence does not create a "perfect leader but a proxy reader". Technology is complementary and not a compulsion to confine capability and confidence, he said.

Naqvi said that a leadership emerges after being tested in the "furnace of struggle". "Our country is a witness to numerous leaders born from struggle such as Mahatma Gandhi, Dr. Ambedkar, Deendayal Upadhyaya, Ram Manohar Lohia, Lal Bahadur Shastri, Sardar Patel, Dr. APJ Abdul Kalam, Jai Prakash Narayan and Atal Bihari Vajpayee, who not only led

U-Win to be launched for permanent digital record of vaccination, medicines

PIONEER NEWS SERVICE ■ **NEW DELHI**

Online vaccine management portal U-Win will be launched later this month to maintain a permanent digital record of vaccination and medicines of more than three crore pregnant women and almost 2.7 crore children born annually, Union Health Secretary Apurva Chandra said on Friday.

The U-Win platform, a replication of the COVID-19 vaccine management system Co-WIN, is being run in a pilot mode in all States and Union territories except for West Bengal and captures every vac-cination event of all pregnant women and children under the Universal Immunization Programme (UIP).

Speaking at the national conference on "Universal Access to Healthcare: Digital Solutions" held here, Chandra said that one of the goals of the nation-

al digital mission is to increase the reach of healthcare services and reduce the disparity between rural and urban areas. The health secretary highlighted the success of the Co-WIN and Aarogya Setu apps in helping to deliver more than 220 crore vaccinations across the country He stated that the Union gov-

ernment wants to replicate the same model through its flagship scheme Ayushman Bharat Digital Mission.

Chandra also highlighted that there are already many portals operating across different segments like telemedicine, TeleManas and eRaktKosh, and the effort is to combine them in a single portal. He also informed about the upcoming launch of the U-Win portal later this month which will keep a permanent digital record of vaccination and medicines of more than three crore pregnant women and mothers and almost 2.7 crore children born annually. Dr V K Paul, Member (Health), NITI Aayog, who inaugurated the conference, highlighted that transformative changes are taking place across the health sector in

Fight against Multi-Drug-Resistant TB gets boost with Centre's nod for BPaLM regimen

PIONEER NEWS SERVICE NFW DFI HI

ndia's fight against Multi-Drug-Resistant Tuberculosis (MDR-TB) has received new ammunition with the Centre giving nod for the shorter and safer BPaLM regimen (bedaquiline, pretomanid, linezolid, and optionally moxifloxacin), with a target to eliminate the deadly disease by 2025, five years ahead of the global goal." While traditional MDR-TB regimen can last up to 20 months with severe side effects, BPaLM course can cure the drug-resistant TB in just six months with a high treatment success rate," said an official from the Union Health Ministry.

The regimen is a key component of the National TB Elimination Program (NTEP). Pretomanid has earlier been approved and licensed for use in India by the Central Drugs Standard Control Organization (CDSCO). The BPaLM regimen has been proven to be safe, more effective and a quicker treatment option than the previous MDR-TB treatment procedure, a senior official from

the Ministry said. "India's 75,000 drug-resistant

TB patients will now be able to avail the benefit of this shorter regimen," the official added. The Department of Health and Family Welfare, in consultation with the Department of Health Research ensured the validation of this new TB treatment regimen that witnessed a thorough review of evidence by in-

country subject experts. A country-wide time-bound rollout plan of the BPaLM regimen is being prepared by the Central TB Division of the Ministry of Health and Family Welfare in consultation with the States and UTs.

According to Soumya Swaminathan, principal advisor, NTEP, "the move should improve treatment outcomes and help thousands of patients." As per her statement on Social media X posted a few days ago: "India is getting ready to roll out BPaL regimen for all M/XDRTB patients — training to begin this month. This should improve treatment outcomes & help thousands of patients. Scaling up NAAT coverage will be an essential element of the strategy." Leena Menghaney, South Asia

head of Médecins Sans Frontières (MSF), called it a significant development in the fight against drug-resistant TB. She noted that the availability of generic bedaquiline has cut down treatment costs, with the BPaLM regimen priced at USD 426 (USD 130 for bedaquiline, USD 238 for pretomanid, USD 31 for linezolid, and USD 27 for moxifloxacin).

'This development marks a pivotal moment for those with drug-resistant TB, as India transitions to the more effective, safer, and shorter BPaLM regimen, which is likely to improve cure rates significantly.

BJP MLA in tears after being denied ticket

Dr. Angela Lusigi, the newly appointed Resident Representative of the United Nations Development Programme (UNDP) in India, has officially presented her credentials to the Ministry of External Affairs. In a meeting with Tanmaya Lal,

Secretary (West), Ministry of External Affairs, Dr. Lusigi expressed her gratitude for India's enduring partnership with UNDP and commended the country's leadership in achieving the Sustainable Development Goals (SDGs). Dr. Lusigi, who took office on 8 July, highlighted India's pivotal role in driving global progress toward the 2030 Agenda. "India's strides in sustainable development, particularly in public healthcare, climate action, and inclusive growth, are exemplary. The nation's innovative use of digital technology to enhance health service delivery and expand social protection, which UNDP is proud to support, is ensuring that no one is

left behind," she said. During the ceremony, Dr. Lusigi also highlighted the

strong interest from countries in learning from India's example in areas such as SDG localizsation and acceleration, SDG Finance and South-South Cooperation. She reaffirmed UNDP's dedi-

cation to supporting these efforts through the UNDP Country Programme 2023-27, which is tailored to bolster India's National priorities and global commitments. The UNDP Country

Programme 2023-27 is intricately aligned with India's Fifteen Year Vision (2017-2032), Seven Year Strategy (2017-2024), and Three Year Action Agenda (2017-2020), as well as the Government of India-UN Sustainable Development Cooperation Framework (UNSDCF) 2023-27 and UNDP's Global Strategic Plan 2022-25.

What kind of a PIL (public

The bench was hearing a petition filed by a lawyer, who had challenged the high court's June last year order disposing of his petition.

In his PIL filed before the high court, he had sought directions to the Mumbai Cricket Association and the Board of Control for Cricket in India (BCCI) to provide drinking water and other facilities to players during practice or unofficial matches on public grounds.

"Look at the photographs which you have annexed.

We concur with the view taken by the high court in paragraphs 3 and 5 of the impugned order," the bench said, while dismissing the plea. In its order, the high court had said there was no reason given by the petitioner why the players cannot seek redressal of their grievance on their own.

"In these circumstances, the appropriate course of action would be to call upon respondent nos. 1 and 2 (Mumbai Cricket Association and BCCI) to consider the PII as suggestions made and if it is feasible for them to do so, proceed to implement the same. We make it clear that our order is not to be construed as direction to respondent nos. 1 and 2 to grant relief as sought for by the petitioner but only as suggestions," it had said.
The high court had also

clarified that if and when this cause would be raised by any aggrieved player, the same would be considered on its own merits.

Army being roped in to plug Budameru breaches in Vijayawada, says Andhra CM

PTI ■ AMARAVATI

Andhra Pradesh Chief Minister N Chandrababu Naidu has said that Army teams are being roped in to plug the Budameru rivulet breaches to control the flood situation in Vijayawada.

Addressing a press conference at the NTR district collectorate in Vijayawada on Thursday, Naidu, who was accompanied by Union Agriculture Minister Shivraj Singh Chouhan, said Chouhan had been apprised about the catastrophe.

Chouhan earlier in the day conducted an aerial survey of the flood-hit areas in Vijayawada.

The Army is also coming to close the breach...We are putting in all efforts we need to do," said Naidu.

According to the CM, a technical team has arrived to the situation. following unprecedented rains and floods in the centrally located commercial

Naidu noted that the deluge had ravaged all the houses in its path, destroying vehicles, household appliances and many other things.

He also said that there is a need to raise the capacity of Prakasam Barrage to discharge up to 15 lakh cusecs of floodwaters, noting that it can withstand only up to 11.9 lakh cusecs. Union Minister Chouhan said that the situation is bad in the flood-hit areas, adding that he has never seen such a

situation before. He said 400 mm rainfall at one time is a major catastrophe, but appreciated the efforts being put in by the chief minister and the government machinery.
He appreciated that drones

-PAPER WITH PASSION-

India the peacemaker

With Putin now suggesting that India could mediate in peace talks, India's role on the global stage continues to grow

he Russia-Ukraine war, which erupted in February 2022, has resulted in devastating human and economic losses, with no clear end in sight. What began as a territorial conflict over Ukraine's desire to align itself more closely with Western institutions like NATO and the European Union has turned into a prolonged military engagement with Russia, leading to mass displacement, thousands of casualties, and significant global economic disruptions. In recent months, efforts to find a peaceful resolution have gained renewed attention. One potential pathway for peace emerged when Russian President Vladimir Putin suggested that countries like India, China, and Brazil could act as mediators in peace talks. This proposal points to a potential role for these major Global South nations in shaping the future of negotiations. Russian President Vladimir Putin's recent remarks on peace efforts are significant, especially in light of earlier failed negotiations. In the initial weeks of the war, a preliminary agreement was reached between

Russian and Ukrainian negotiators during talks in

Now, Putin suggests that this could serve as a basis for future discussions, with mediation from nations like India, China, and Brazil, which have historically maintained neutral or balanced positions in the conflict. These nations, particularly India, could bring fresh perspectives to the table. India's long-standing policy of nonalignment and its diplomatic clout as a leader among Global South countries make it a credible mediator in a highly polarised international arena. India has consistently advocated for peace in the ongoing conflict, calling for both Russia and Ukraine to engage in dia-

logue. Prime Minister Modi's diplomatic stance has been underscored by his visit to Ukraine last month. During this historic visit, PM Modi met with Zelenskyy, who proposed that India could host the second Ukraine peace summit. This proposal, Zelenskyy said, was due to India's position as a major democracy and its efforts to remain neutral in the conflict. India's position as a potential mediator offers several advantages. First, India's diplomatic relations with both Russia and Ukraine have been strong over the years. Second, India's neutrality in the conflict positions it as an acceptable mediator to both sides, which have faced varying degrees of global isolation and support. For Russia, India remains a crucial partner, and for Ukraine, India's growing global influence makes it a key player in any future peace talks. Third, India's active participation in global multilateral forums, including the G20 and BRICS, gives it a platform to influence discussions on peace efforts at a broader level. While the potential for peace talks with India, China, and Brazil as mediators is promising, challenges remain. The conflict has seen entrenched positions from both sides, with Ukraine's territorial integrity at the center of any resolution. The success of such mediation will ultimately depend on the willingness of both Russia and Ukraine to make compromises and find common ground for peace.

Sexism in politics: The unfinished battle

The recent disparaging remarks by Donald Trump against Kamala Harris have once again spotlighted the rampant sexism entrenched in politics

he Republican presidential nominee Donal Trump's recent disparaging comments against her Democratic rival, Vice President Harris about her 'appearance', re-established the fact that 'sexism is very much alive in American politics. His party, however, had denied that it had anything to do with race or gender. Harris, on the other hand, urged Trump to commit to debating her, 'if he got something to say. Such sexist vilification, many believe, is on the expected lines in a country that had no women, and only one person of colour as president, which is now, for the first time, having a woman of colour running for the presidency on a major party ticket. Harris' entry into the presidential battle has unleashed a wave of misogyny, and personal attacks on her marriage and stepchildren. She is also accused of leaning into 'being Black for political expediency. Republican vice-presidential nominee Cyrus Vance's remarks that the Democratic Party is dominated by 'childless cat ladies', with no 'direct stake' in America's future, is also a dig at Harris's life choic-

While, early this year, Nikki Haley, the first woman governor of South Carolina, when encountered the race for the 2024 Republican presidential nomination, she was dismissed as a 'token' candidate, and her achievements hardly got any attention. In 2016, Hillary Clinton had to undergo similar ordeals with apprehensions about her health and integrity, and even for her political ambitions. In 2008, Sarah Palin wasn't spared, she was constantly jeered at for her looks, personal life and intelligence, while her policy positions and records were overlooked. While only a relatively small share of the US adults (18%) consider that it is important that a woman be elected as president in their lifetime, most (64%) say this is not too or not at all important or that the president's gender doesn't matter. Overall, 62% of Americans believe that the media focuses too much on the physical appearance of women contesting for high elected offices, and there is not most widely spread, and, now, more on social media, affected 81.8 per cent of the responenough attentiveness to their views on key policy matters (Pew (61.5 per cent) believed that

'Many of the politicians may be progressive in their policy beliefs, but, when it comes to equity, their socialisation around gender stereotypes and expectations is quite stubborn, commented Kelly Dittmar, professor, of political science, at Rutgers University. In the USA, women hold only 27.9 per cent of seats in Congress, while, there is currently no Black woman in the Senate.

A 2016 IPU study on the experiences of fifty-five women members of national parliaments from 39 countries across the continents of Africa, Europe, Asia-Pacific, the Americas and Arab countries, confirmed that 'sexism, harassment and violence against women parliamentarians are very real and rampant'. such behaviour and/or violence was intended primarily to dissuade them from continuing in politics. While 'young and feminist women parliamentarians are particularly targeted, said an Asian parliamentarian. A parliamentarian from sub-Saĥaran Africa underscored that 'men need to be educated about the benefits of women's presence in parliament'. While, many opined that an increase in the number of women in parliament and solidarity among them, can help change such a political culture. While, in India, women parlia-

mentarians, a minuscule minority, just 13.63% of the elected strength of the Lower House, much less than the 33% that the Women's Reservation Act, 2023, proposes to put into effect, face sexist comments from all corners, their colleagues, rivals or voters, and their achievements reduced to their gender only, rued a women's rights activist. An erstwhile woman Union minister lamented that 'when a woman is attacked, she gets attacked for her character, but never for her policymaking'. Women politicians, cutting across party lines, seem to agree on the issue of character assassination, and consider that it 'reflects the larger psyche of the society'. Many also complain that 'women politicians aren't taken seriously..., and male members have been often preferred for speaking on serious issues, while, women are only expected to raise soft issues'. Outright misogynist remarks are quite the norm in political discourse.

Recently, a senior woman Rajya Sabha MP expressed discomfort with her identity being tied to her husband's name by the Chair. Globally, only 26.9 per cent of parliamentarians in single or lower houses are now women (IPU). Many countries have resorted to women's quotas and reserved shares. But, that's not enough. What is needed is a nuanced approach to addressing the issues of sexism and double standards existing within the political parties and parliament.

Political parties must have an internal assessment mechanism to look into the gaps in all areas of internal practices and operations. A parliament must also ensure inclusivity in its work processes and outputs, with the help of a strong regulatory framework. Gender parity and pluralism are essential in electoral politics for the greater good.

The death of window shopping: How e-commerce stole the joy

Spontaneity has given way to algorithms, and the sensory delights of browsing have been replaced by sterile scrolling

nce upon a time, I was a passionate windowshopper. I could spend hours gallivanting in a mall or a market, viewing and trying out things I didn't need, but often ended up purchasing. Not any longer.

During my latest visit to a mall this week after several months, I realised how my appetite for browsing and buying had nearly died. Our family now happily gets everything delivered to our doorstep: from Apple to Android phones.Shopping had long been a cherished ritual, offering an experience that transcended mere transactions. It tapped into emotions and senses, creating memories, fostering relationships, and offering solace in unexpected ways.

Yet, the rise of e-commerce has drastically altered this landscape, leading to the erosion of the joys of traditional shopping. The sensory overload of colours, smells, and sounds has been replaced by the sterile, one-dimensional world of online shopping. We now scroll through product images on a screen, devoid of any real human

once an opportunity to step out of our daily routines, to wander through aisles with no particular destination in mind, and to let our imaginations run wild as we browsed items we didn't know we needed until we saw them. This spontaneity is all but lost in the algorithm-driven world of e-commerce, where every click is tracked and every recommendation is based on past behaviour, leaving little room for surprise or

serendipity Moreover, shopping in physical stores offered a tactile connection to the products we bought. We could feel the fabric of a garment, test the weight of a book in our hands, or smell the aroma of freshly baked bread before making a decision. These sensory experiences are interaction. Shopping was deeply rooted in our memo-

ries and play a significant role in our attachment to the items we purchase.

Online shopping, in contrast, offers a purely visual experience, reducing our interaction with products to mere images on a screen. The absence of this tangible connection often leads to a lack of emotional attachment to the items we buy, turning shopping into a mechanical process rather than an enjoyable pastime. In the past, shopping was as

much about the experience as it was about the purchase. The thrill of discovery, the joy of window shopping, and the satisfaction of finding that perfect item after hours of searching were all part of the journey. However, it would be unfair to dismiss the advantages of e-commerce entirely. The convenience of shopping from the comfort of our homes and the ability to compare prices across multiple retailers are undeniable benefits. For those with busy schedules or physical limitations, online shopping has been a game-changer, providing opportunities that would

have been unimaginable a few decades ago. Yet, as we embrace these con-

veniences, we must also consider what we are losing in the process. The act of shopping is not just a means to an end but a valuable experience in itself. It is a chance to connect with our communities indulge our senses, and find joy in the unexpected. As we move towards a digital future, it is worth considering how we can preserve these intangible aspects of shopping that bring richness and depth to our lives.

In the end, the choice is not about rejecting technology or clinging to the past, but about finding a balance that allows us to enjoy the best of both worlds. We can find ways to reintroduce the joy of discovery, the pleasure of the tactile, and the warmth of human connection into our shopping experiences, even as we click our way through the digital aisles.In my case, I attribute my loss of interest to a feeling of satiety, a recognition that I have more than I need and it's time for me to stop indulging in senseless accumulation of material things. Period.

FALL FROM GRACE

Madam — Malayalam film Industry has been in a crisis since the release of Hema Committee report which has recorded sexual exploitation by senior artistes/technicians over the women artistes/technicians. The women artiste/ technicians in their enthusiasm/eagerness/greed approach the other side for a favor, over looking the others who score over them on merits in the industry and offer /submit to them with what would please them for grabbing the chance. If the person who is the so called perpetrator of the crime which is sexual exploitation in this case is wrong the lady who has approached him for favor of a chance and offering/accepting to entertain him is considered an abettor of the crime. It is a quid pro quo though apart from crime also unethical on the part of the grantor of the chance. Such quid pro quos exist not only in film industry and every other industry and in fact it is a universal phenomenon in today's world.

While this affects the only individuals concerned and to a limited extent the industry or the corporate concerned, the political leaders /parties accepting bribes in any form say organized /un organized methods including through the electoral bonds route is also a quid pro even as per SC ruling and more harmful as it harms the nation as a whole.

TEACHERS' CONTRIBUTION TO THE SOCIETY The interruption of the Madam— Covid had been epochal and served to direct our focus on education, across the globe. It would be a great pity should we fail to subsequently comprehend the vital role of teachers, pe se. A greater tragedy if we still look to stitch up patchwork approach in education that is rendered more complex as the stakeholder base is vast. So are its key elements of content, quality and efficiency of

transmission. In each of these there

ith environmental concerns gaining too much ground, many of the well wishers of Lord Ganesha in the city have

emerges a rare opportunity for a seminal rethink or even reinvent with greater imagination and resolve.

While planners and social scientists devise the content of education in a time horizon, its quality is entirely determined by the calibre, training and upgrade of the teachers and their leadership, creativity and innovation.

We seldom realise how teachers have helped and guided our value systems and attitudes. They would seed visions of the limitless achievements ahead as gurus, train us to meet failures to then rise even higher. This profession, from time immemorial, though respected stays hardly recognised and adequately compensated.

They need to be now firmly placed on higher pedestals, sustained by training and incentives and given greater autonomy. It is they who shape the future in real sense of the word. Our education system and polity need to do much more. Our gurus must be zealously

FOR THE LOVE OF FOOTBALL

Madam — Rarely do our politicians talk sense. It was heartwarming therefore, to hear the CM of UP, Yogi Adityanath, announce that a number of football stadia as well as a large number of football grounds will be prepared to give a boost to the "beautiful game". This is far better than sponsoring temples that cater only to a particular religious constituency. To quote Nelson Mandela, "Sport has the power to change the world. It has the power to inspire, it has the power to unite people in a way that little else does. It speaks to youth in a language they understand. Sport can create hope, where once there was only despair.

It is more powerful than governments in breaking down racial barriers. It laughs in the face of all types of discrimination." Yogi's done well, in bending it like Beckham.

FINDING PEACE AMIDST THE CHAO

Embrace divine shelter to overcome life's struggles

AJIT KUMAR BISHNOI

t may sound very insulting, but this is what most of us, if not almost all of us routinely do. Because it is so natural to do. We have a deep desire for something considered most dear. Or, we may not want to lose something considered crucial for our existence. So what do we do? We keep on thinking about it. Yes, we also do whatever we can to ensure it or should. What happens in most cases? We fall short because we are small, and helpless in the ultimate sense.

God keeps control of Himself regarding the fruits of our actions. (The Bhagavad-Geeta 2.47) We have only been given the right to desire and do. (2.47) But we either don't give up trying by ourselves or with the help of others, if we choose to do that. Now worry sets in because we have set our hearts on it. And we hurt ourselves both in terms of mental health and physical health because they are so intertwined. Are we doomed? No, we are not, if we choose to do what we are expected to do, which is to approach God. That is why our scriptures, especially the Bhagavad-Geeta, persuade us to do that. I will cite some verses in this connection. The verse #18.62 goes like this, "In all respects take shelter of God only. By His mercy, you will achieve supreme peace." What does this mean? We will not suffer from mental problems, by which a quarter and more in the world are suffering. (9.22) Isn't what we want? You get started on this path and start becoming deserving. God will respond suitably. But our natures won't allow us to do what God wants us to do to qualify for His 'kripa' (grace).

Even if we somehow curb our natures, our egos come in the way. For

us human beings, our egos are everything; we cannot imagine taking unconditional shelter from anyone including God of course. So we remain in the shelter of worry. Exalted personalities have surrendered to God and reaped all kinds of benefits from Him. Sanjaya of the Mahabharata fame illuminates, "Where there is the yogeshwar Shri Krishna and where there is a devotee of God (as Arjuna was), there will be opulence (saubhagya), victory (success), wealth and definite principles (dharma)." (18.78) God is unlimited and He can give what we cannot even imagine. Swami Vivekananda went to America in 1843. Not only did Swamiji give an iconic speech on Hinduism at the World's Religious in Chicago on September 11, 1843, but introduced Hinduism and Indian spirituality to the Western world.

We just have to get started and achieve what these exalted personalities achieved after several lives. It is not so difficult, but requires determination. What is so difficult to pray? All we have to ensure that whatever we pray for is according to dharma. God will respond in a way He decides about what we deserve. Then, doing 'naman' (namaskar) to a Deity of God in a temple shouldn't be so difficult. God, being what He is, cannot be a debtor ever. He will give something, again what He feels is good for us. What is wrong with chanting God's names? This activity appears so innocuous but people of all religions for ages have been chanting Ohm and God's names. It must be useful, otherwise it would have been discontinued a long time back. What is so difficult to thank God if something good happens? We know how thanking helps us to make friends even with strangers. Then, how it must benefit if we thank God. 'Dhyan' (meditation) is catching attention worldwide. Why? Because it is extremely useful. Remembering God is another spiritual activity, for which God rewards handsomely. I can go on. Believe that these spiritual acts are highly beneficial, and can be done by one and all. Spiritual acts help in this regard and change us for the better. Then, why take shelter from worry, anxiety, depression, sadness, etc.? Take shelter from the omnipotent, omniscient, omnipresent, controller and owner of the Creation and say goodbye to negative emotions.

Bangladesh: Terrorism redivivus?

HIRANMAY KARLEKAR

Some developments since the installation of the interim Government provides cause for concern

everal developments in Bangladesh since the ouster of Sheikh Hasina raise the question: Is that country set to become a fundamentalist Islamist state and a cradle and exporter of Islamist terrorism? As of now, none of what the students who led the Anti-Discrimination Students' Movement (ADSM) have said indicates that they support fundamentalist Islam or terrorism. It is, however, not clear what they stand for. A report in the *Dhaka Tribune* (datelined August 16, 2024) quoted Nahid Islam, one of the coordinators of the ADSM and an THE QUESTION IS advisor in the interim government, as saying, "The spirit of the movement was to create a new Bangladesh, one where no fascist or autocrat can return." The same reported quoted him as saying that structural reforms were needed to achieve this aim, and that would require time.

One does not know what structural reforms they have in mind and the policies they intend to pursue. The Tribune report in question quotes Tahmid Chowdhury, another student leader, as saying that they were still working out their programme, which would Reuters reported on August 16, 2024, that FUNDAMENTALIST rooted in secularism and free speech. the students were contemplating forming their own party to carry their movement forward and bring a closure on the history of the last three decades when Bangladesh was governed either by the Awami League or the Bangladesh Nationalist Party. Not much has been heard about the matter since then. The question is whether the overwhelming majority of them share their leader's views. One needs to ask this as fundamentalist Islamist and terrorist organisations have THEIR TENTACLES been increasingly spreading their tentacles inside Bangladesh's colleges and universities. Consider the case of North South University (NSU), one of that country's bestknown private universities. Professor Gias Uddin Ahsan, Dean of the School of Health and Life Sciences, and acting Pro-Vice Chancellor, was arrested on July 16, 2016, along with two of his associates, for renting out his flat, and not informing the police about the fact of its being rented out and details of the tenants-which he was required to do. The flat was subsequently used by the

perpetrators of the terror attack at Holey Artisan Bakery restaurant in Dhaka on July 1, 2016. The University has suspended Professor Ahsan after his arrest. Earlier, it had dismissed four teachers for their links with the terrorist outfit, Hizb-

Nibras Islam, one of the six identified as those attacking the Holey Artisan Bakery and killed by the police in the encounter that followed, was one of its students. Abir Rahman, one of those who attacked a police post guarding Bangladesh's largest eid prayer congregation at Sholakia in Kishoreganj on July 7, 2016, and was killed, was a student of NSU. The attack, which was repelled, led to three deaths. Quazi Mohammad Rezwanul Ahsan Nafis, who, in 2012, was convicted on the charge of attempting to blow up the New York Federal Reserve Bank, and of coming to the United States for waging jihad, had also been a student of NSU. Besides, all the voung men-Sadman Yasir Mamun, Faisal Bin Nayeem Dwip, Ehsan Reza Rumman, Maksudul Hasan Anik, Nayeem Irad and Nafiz Imtiaz- arrested for killing the blogger and Ganajagaran Mancha activist, Ahmed Rajib Haidar, in 2013. were its students.

There has been large-scale irregular inundation of educational institutions by fundamentalist elements. A report by Ekramul Huq Bulbul and Masud Milad in the Bengali daily Prathom Alo of August 12, 2004. States, "The allegation has been levelled of the jama'atification of the Chittagong University by violating all rules. Most applicants were not appointed as teachers despite getting four first classes in their educational life. Yet there has been the unprecedented occurrence of appointment of the supporters of Jamaat-e-Islami, a partner in the present four-party coalition government headed by Begum Khaleda Zia of the Bangladesh Nationalist Party (BNP) despite their being without a single first class." The report further stated that investigations by Prathom Also revealed that of the 122 teachers appointed during this period, 57 had been appointed by ignoring the recommendations of the Departmental Planning Committee and the number of posts advertised.

Whether all this has caused a significant section of students to be influenced by militant fundamentalist Islam need to be seen, given the continued operations of terrorist organisations. A number of Bangladeshis had fought the Soviet forces occupying Afghanistan. The Soviet Union's defeat at the hands of the Mujaheedin and withdrawal from the country in February, 1989, had boosted their morale as also that of militant Islamists the world over. Osama bin-Laden, who had been involved in the jihad and who harboured the vision of establishing sharia rule worldwide, helped the establishment of the Harkat-ul-Jihad-al-Islami Bangladesh (HUJIB) in 1992. The formation of Jama'at-ul-Mujahideen Bangladesh (JMB) and Jagrata Muslim Janata Bangladesh JMJB), followed.

Pressure from the United States and other Western countries following the large-scale violence unleashed by these organisations, compelled the Khaleda Zia government to act against them. More resolute action followed the ascent to power of the second Awami League-led government, with Sheikh Hasina as prime minister, in 2009. Nine Islamist terrorist groups were banned during her prime ministership. These included the JMB, Shahadat-e al-Hikma, Hizb ut-Tahrir, HuJI-B, Ansarullah Bangla Team and the last-named's subsequent reincarnation, Ansar al-

Ansar Fil Hindal Sharqiya formed in 2018. Another seven Islamic extremist groups were blacklisted during her regime. These were Ulama Anjuman E Al Bayyinat, Neo-JMB, Dawlatul Islam Bangladesh, Hezbut Tawheed, At-Tamkin, Tamiruddin-Bangladesh and Towhidi Trust.

Particularly active among these was the Ansar al-Islam, which played a major role in the murder of the bloggers, which began with the killing of Ahmed Rajib Haider in Dhaka on February 15, 2013 and continued until 2015. The Neo-JMB, however, is believed to have been behind the attack on the Holey Artisan Bakery which killed 23 persons, including three Bangladeshis, seven Japanese, nine Italians and one Indian. The tough measures that followed,

had kept Islamist terrorism more and less under control. Following Sheikh Hasina's ouster, the Hizb-ut Tahrir (Hijb-ut) has been staging rocessions in different parts of Bangladesh and putting up posters articulating its ideology. On August 9, 2024, it held a rally in Dhaka demanding the establishment of an Islamic Caliphate in Bangladesh. Also, the statues of two police officers who died fighting the terrorists at the Holey Artisan Bakery, have been destroyed and a Hijb-ut Tahrir poster has been found at the site. On its part, the interim government has released Jashimuddin Rahmani, the chief of the Ansarullah Bangla Team, now Ansar al-Islam. Neither all this nor the very cordial meeting Muhammad Ýunus has had with leaders of the Jama'at and Hefazat-e-Islam, of course, indicates that the interim government sup-Islamist militancy. Nevertheless, skating on thin ice is better avoided.

The United Nations' struggle for relevance in a changing global order

The United Nations faces unprecedented challenges that threaten its relevance in the modern world writes NAND KISHOR and AMAL CHANDRA

¬he United Nations (UN), a symbol of global cooperation since its founding in 1945, now finds itself at a pivotal moment. Established to promote international peace, security, and development, the organization faces growing pressure to reform in response to the ever-changing global landscape. However, despite widespread recognition of the need for restructuring, numerous obstacles hinder the reform process. Political, institutional, financial, legal, and socio-cultural barriers make consensus among member states difficult to achieve, thus stalling efforts to enhance the UN's relevance and effectiveness. Three critical areas demand attention—representation, effectiveness, and operational efficiency. Without

addressing these, meaningful reform remains elusive. One of the most significant barriers to UN reform is the veto power held by the five permanent members (P5) of the Security Council: China, France, Russia, the United Kingdom, and the United States. This power enables any of these nations to block resolutions, including those aimed at restructuring the UN. The P5's vested interest in maintaining their influential status has led to repeated failures to expand the Security Council to include new permanent members, such as India, which is the world's

largest democracy. India's exclusion from permanent membership, despite its growing global influence, highlights a major flaw in the build the broad consensus

Similarly, other responsible powers, such as Japan and Germany, have long called for permanent seats on the Council. The reluctance of the P5 to share their privileged status stifles efforts to make the UN more representative of today's geopolitical realities. Another complicating factor is the principle of state sovereignty enshrined in the UN Charter. Many member states, particularly smaller or less powerful nations, are wary of reforms that they perceive as infringing on their sovereignty. These states fear that in a restructured UN, their voices might be drowned out by larger, more powerful countries. This divergence in priorities complicates efforts to

UN's current structure. necessary for substantial reform. While some states advocate for a more democratic and inclusive Security Council, others focus on regional issues or specific conflicts, making agreement difficult. The UN's effectiveness in

addressing global challenges has been called into question, further complicating the reform debate. Public opinion and trust in the organization are crucial to its ability to implement meaningful changes. However, repeated failures to effectively address major crises, such as those in Afghanistan and Palestine, have eroded public confidence in the UN's capacity to respond to contemporary challenges. UN peacekeeping missions, a cornerstone of the organiza-

tion's efforts to maintain global peace, have also come under fire. Critics argue that these missions have often failed to prevent conflicts or protect civilians adequately. To enhance the effectiveness of peacekeeping operations, reforms must focus on improving the mandates, training, and resources available to peacekeepers. Additionally, addressing allegations of misconduct, including sexual

abuse and exploitation by peacekeepers, is essential to restoring the organization's credibility and ensuring accountability.

These limitations highlight the urgent need for innovation and reform within the UN. Building and maintaining public trust is essential to securing the political and financial support necessary for any restruc-

turing efforts. Efforts to improve the UN's operational efficiency, such as those initiated by former Secretary-General Kofi Annan, have demonstrated the institutional challenges of reform. While some administrative changes have been implemented, resistance from within the organization and differing priorities among member states have limited the scope of these reforms. The UN's extensive bureaucra-

cy presents a major obstacle to

meaningful Established procedures and norms are deeply ingrained, making it difficult to implement significant reforms. Bureaucratic inertia often leads to resistance from within the organization, as staff and officials may be reluctant to change familiar processes and structures. Moreover, the UN's broad mandate, which covers peace and security, development, and human rights, adds complexity to any reform effort. This wide scope can lead to overlapping functions and responsibilities among different UN bodies, resulting in inefficiencies. Reforming the UN also

Israeli forces appear to withdraw from Jenin Telegram CEO addresses

AP JENIN REFUGEE CAMP

Israeli forces appeared to have withdrawn from three refugee camps in the occupied West Bank by Friday morning, after a more than weeklong military operation that left dozens dead and a trail of destruction.

Overnight, Israeli armoured personnel carriers were seen leaving the Jenin refugee camp from a checkpoint set up on one of the main roads, and an Associated Press reporter inside the camp saw no evidence of any remaining troops inside as dawn broke early Friday morning. During the operation, Israeli military officials said they were targeting

militants in Jenin, Tulkarem and the Al-Faraa refugee camps what the United Nations called and the Al-Faraa refugee camps in an attempt to curb recent attacks against Israeli civilians they say have become more sophisticated and deadly.

Troops were pulled out of the Tulkarem camp by Friday morning and had left Al-Faraa earlier, but in a statement the Israeli military suggested the operation was not yet over. "Israeli security forces are continuing to act in order to achieve the objectives of the counterterrorism operation," the military said in a statement. Hundreds of Israeli troops have been involved for more than a week in what has been their deadliest operation in the occupied West Bank since the Israel-

"lethal war-like tactics". The main focus has been the Jenin refugee camp, a stronghold of Palestinian militancy that has grown since the Hamas attack on Israel that started the war in Gaza nearly 11 months ago. Fighting in Jenin accounts for 21 of 39 Palestinians who local health officials say have been killed during the Israeli push in the West Bank - most of

lances evacuating the wounded have been slowed on their way to nearby hospitals, as Israeli soldiers search for militants.

During the operation, Israeli

forces sent military bulldozers into the camp, ripping up roads in search of buried explosives. When asked by an AP reporter about the infrastructure damage caused to the Jenin camp an Israeli military official acknowledged the destruction but said it was a result of a militant strategy planting explosives in civilian areas. The official spoke on condition of anonymity in line with military regulations.In the quiet morning Friday, Jenin residents took advantage of the lull to rummage through the rubble of destroyed buildings and take stock of the damage. Twisted rebar protruded from the concrete of collapsed buildings, and walls still standing were pockmarked by bullets and shrapnel.

In the Tulkarem camp, resident Ziad Abu Tahoun looked with dismay at the torn up streets and crumbled buildings all around him."Look at the condition of the camp, the camp is in a deplorable state," he said. 'They've set us back 60 years.' In southern Gaza, health workers resumed vaccinating children against polio, continuing the second phase of a largescale immunisation campaign.Children lined up early in the morning outside a United Nations health centre in Khan Younis to receive the vaccine, which was being administered by local health care crews in coordination with UNICEF and the World Health Organisation.

The first phase started Sunday in hospitals and medical locations in the central Gaza Strip. The final phase was to focus on the north, finishing September

The operation was undertaken as an urgent measure to prevent a large-scale polio outbreak after health officials confirmed the first reported polio case in 25 years, in a 10-month-old boy who is now paralysed in

French charges

Paris (AP): Telegram founder and CEO Pavel Durov promised to step up efforts to fight criminality on the messaging app, his first public comments since French authorities handed him preliminary charges for allegedly allowing the platform's use for

criminal activity.
In a Telegram post late
Thursday, Durov defended himself against the French judicial investigation, suggesting that he shouldn't have been targeted personally.

'Using laws from the pre-smartphone era to charge a CEO with crimes committed by third parties on the platform he manages is a misguided approach," the

post said. "Building technology is hard enough as it is. No innovator will ever build new tools if they know they can be personally held responsible for potential abuse of those tools." While insisting that Telegram is not "some sort of anarchic paradise," Durov said surging numbers of Telegram users "caused growing pains that made it easier for criminals to abuse our platform." "That's why I made it my personal goal to ensure we significantly improve things in this regard. We've already started that process internally, and I will share more details on our progress with you very soon," he

Rupee rises two paise to settle at 83.95 against US dollar

The rupee gained 2 paise to I close (provisional) against the US dollar on Friday amid a weak greenback in overseas markets.

However, negative domestic markets, rise in crude oil prices, and outflow of foreign capital capped sharp gains, forex traders said.

At the interbank currency market, the local unit opened at 83.97 and witnessed an

high of 83.91 intra-day against American range of 83.91-83.97, finally settled at 83.95 (provisional), registering a gain of 2 paise. It had closed at 83.97 on Tuesday.

"Indian rupee recovered today on weak US dollar. However, weak domestic markets capped sharp gains," Anuj Choudhary, Research Analyst at Sharekhan by BNP Paribas, said.

"We expect rupee to trade with a slight negative bias on weak global equities and

> 73.11 per barrel in futures trade. In the domestic equity markets, Sensex tanked 1,017.23 points to settle at

concerns over global economic growth," he said, adding that the USD-INR spot price is expected to trade in a range of Rs 83.70 to Rs 84.20.

Traders may take cues from non-farm payrolls report and speeches by the US Federal Reserve's rate-setting panel members, he added. Meanwhile, the dollar index,

which gauges the greenback's

strength against a basket of

six currencies, was down 0.14 per cent to 100.96 points. Brent crude, the international benchmark, gained 0.58 per cent to USD

81,183.93, while Nifty slumped 292.95 points to Nifty 24,852.15.

Revisiting Sri Lanka's debt sustainability assessment can derail IMF programme: Finance Ministry

PTI ■ COLOMBO

Any attempt to revisit Sri Lanka's debt sustainability assessment (DSA) can derail the ongoing IMF programme bailout, the finance ministry said on Friday.

"Any country can of course stand its ground and refuse to move forward based on the IMF's DSA if it disagrees with the outcomes of the model and the IMF's assessment," the Ministry of Finance said in a statement titled "Clarifications on Debt Restructuring and the Debt

It added that a standoff in such a scenario would only delay an agreement on a financing programme for several months if not years. The statement highlighted the International

Sustainability Analysis".

Monetary Fund (IMF) cannot proceed with a financing programme if a country's debt

statement asserted that Sri Lanka's agreement with creditors for sovereign debt restructuring needed IMF endorsement "to confirm as the independent actor that the negotiated terms indeed provide the required debt relief to comply with the debt targets".

The ministry's warning on DSA aligns with incumbent president Ranil Wickremesinghe's narrative that the current bail-out

programme requirements must persist for Sri Lanka to achieve complete recovery. The opposition parties have heavily criticised

Wickremesinghe's steer of the economy since the island nation declared its bankruptcy in April 2022, announcing its first-ever sovereign default. Wickremesinghe was able to

revive the negative growth of six successive quarters with the help of international partners of recovery.

However, his reforms at the behest of the IMF, which sent the cost of utilities high, have made him unpopular.

Anura Kumara Dissanayake, the NPP candidate, believes he leads in the unofficial polls to win the election over Wickremesinghe and the main opposition challenger Saiith Premadasa.

The two main contenders, however, did not directly pledge to reverse them.

Prozeal Green Energy, Golyan Power sign JV pact for solar projects in Nepal

PTI ■ New Delhi

Ahmedabad-based Prozeal Green Energy and Nepalese firm Golyan Power have inked a joint venture agreement for setting up solar power projects in the Himalayan nation.

The agreement was signed on Tuesday at Golyan Group headquarters in Kathmandu, marking a significant milestone companies' commitment to advancing renewable energy solutions, a statement said. The agreement was signed by Shobit Rai, Director of Prozeal Green Energy, and

Akshay Golyan, Director of

Golvan Power. The partnership underscores a shared vision to contribute meaningfully to a cleaner and greener future for Nepal. The joint venture -- Prozeal Green Energy Nepal -- aims to establish over 500 MW of solar energy projects across multiple locations in Nepal over the next 18 months. Prozeal Green Energy will hold a 60 per cent stake in the JV and Golyan Group will own the remaining 40 per cent.

Rai said this joint venture represents powerful ance between enal and

India, uniting our expertise to lead the global decarbonisation movement. Together, we're setting new benchmarks for clean energy and sustainability in Nepal". Golyan Power director Akshay Golyan said, "Nepal

partnership will open up new avenues for both entities. We have come together through our shared vision and the massive possibilities ahead." The joint venture will develop both solar rooftop and ground-mounted photovoltaic (PV) solar

THE STORY BEHIND ON MY MIN **AN AUTHOR'S PERSPECTIVE**

Discover the inspirations, experiences and insights behind VIKRAM NANJAPPA'S compelling wildlife narratives in Kabini on my Mind: Musings of a Naturalist

BY SHARMILA CHAND

ikram Nanjappa likes to be described as an interested and wellinformed amateur. He draws inspiration from the band of men called the Orientalists, most of whom were amateurs. Like them, his field of inquiry is 'Man and Nature; (with an emphasis on Nature) whatever is performed by the one or produced by

Vikram's first exposure to wildlife came through the shikar tales he had heard from his friends while studying at Mayo College in Ajmer in Rajasthan, one of the country's oldest and celebrated institutions of learning. Vikram cites the writings of Billy Arjan Singh and Jim Corbett as having played a pivotal role in inclining him passionately and committedly towards wildlife.

After completing his Bachelor's in History and Political Science from St. Stephen's College in New Delhi, Vikram joined the tea plantations. It was during the thirteen years he spent in Kerala and the Duars of West Bengal that he found the opportunity to hone his twin hobbies of wildlife and photography. In 2002 he moved to Kabini and took up organizing wildlife tours full time. He is one of those rare gems who managed to turn his passion into a rewarding and fulfilling vocation.

After leaving Kabini, in a manner of natural progression, Vikram ventured into the field of wildlife conservation

Organization Management) with the Asian Nature Conservation Foundation for a few

years. He also explored the world of fashion as a freelance writer and as a photographer. His current avatar is

that of a marketing professional.

Vikram avers that traditional knowledge and field skills coupled with good science and common sense is the best way to understand, expose and preserve our wildlife, which is alarmingly on the decline. He strongly disapproves of what he calls the 'tabloid portrayal' of wildlife, where aberrant animal behaviour is highlighted to reinforce false myths and stereotypes. This has to be eclipsed by an attitude of respect and reverence for the animal kingdom if we are to continue enjoying sightings of our wild brethren in their natural

In an informal chat, he talks about his book and more

Firstly, let's hear about your book.... In the winter of 2002-03 I found

myself in Kabini managing a farmhouse that was taking its first baby steps towards becoming a wildlife resort and if you had asked me a year earlier if that was where I saw myself a year hence, I would have laughed in your face. As the 1900s turned to the 2000s I was happily living on the Bhutan border, managing a tea estate and indulging in my love of photography and

I did not know then that the previously dreaded but now forgotten Y2K problem would culminate in me reaching Kabini in the middle of the night to discover that my quarters had an outdoor toilet without a door. Not wishing to make a fuss, I decided to tackle the problem in the morning

ABOUT THE BOOK Book: 'Kabini on my Mind:

Musings of a Naturalist' by **VIKRAM NANJAPPA Publisher:** Notionpress

by catching the first available transport out. As day broke and I got my first look ... the rest, as they say, is

was shortly joined by my wife Gowri, my daughter Tara and our dog (a St Bernard mix) Bernie. We later added another member to our family - Bruno, a dachshund. In Kabini I eagerly embarked on the next phase of my wildlife journey, exploring the forests and honing my skills as a Naturalist. Up until then I had been happily engrossed in tackling the human-elephant conflict prevailing in the Duars and keeping track of the resident leopards on the estate. I enjoyed my wild life in the Duars, observing elephants and, to a lesser degree, leopards.

We stayed in Kabini for nearly ten years, finally leaving in 2011 when I had become the Chief Naturalist at Evolve Back, and Kabini had become one of the premier wildlife destinations in India.

This book is a compilation of various musings, natural history notes, opinions and incidents that occurred in Kabini during my stint there. While they are arranged in no particular order, they were written as

they occurred and accurately reflect my mood, opinions and emotions as the incidents played out. A lot of water has flowed by since but I have resisted the temptation to 'update' them as I feel hindsight is not always a good thing - it can be unfair to those who actually lived through the

How did you get the idea or let's say inspiration behind the book?

During my childhood my interest in wildlife was fueled by wildlife books written by various authors. Most of these books were written by western authors and were mostly about Africa. As I grew up, I realized that a lot of researchers from the west were writing and publishing 'popular' books about their research experiences while at the same time imparting knowledge on wildlife in a very easy to absorb manner. This unfortunately was missing in India and information on Indian wildlife was difficult to get. Sometime ago I realized that instead of complaining maybe I should write a book on my experiences as a naturalist in Kabini.

What is the target audience for the book?

The book is a compilation of various incidents that occurred during my stint and written in a very easy to read manner – the aim was to cater to both young adults and adults. It is also targeted at those who are not into wildlife as well as those who are. It's not really targeted at hardcore wild lifers - but I am sure they will enjoy

Any specific aim of writing on this subject?

The idea is to get young people interested in wildlife by presenting facts in an easy to read format. The chapters are independent of each other and easy to digest, the book can be read at leisure – it's not a heavy and laborious read. With today's declining attention span this was a deliberate move on my part.

Your favorite chapters?

I love elephants and I think that comes out very strongly in the book. My favorite parts are the ones about elephants - the following chapters in particular:

Spirit of Kabini A Trunk Full of Tales A Tale of Two Giants The Amphitheatre of Life and Death

You had mentioned the book is not

tiger centric? I have purposely not focused too much on the tiger – I feel that too our tourism industry is too tiger centric to the detriment of other species. There is much more to Indian wildlife and therefore I have given more attention to other lesser known and charismatic species.

Any personal opinions / beliefs you have shared in the book?

Yes, I have also touched upon my personal beliefs which are not quite conventional but at the same time tried not to sensationalize aberrant animal behavior reinforce false myths and stereotypes.

Are you a Critique of current trends in wildlife guiding?

It ends with a mild critique (Last Chapter: The Mystic Naturalist) of the current trends in wildlife guiding which I feel is getting too 'professional 'with scripted storytelling and more. I hope that this critique will be taken in the spirit it is intended and lead to a more mindful approach to guiding.

Is this your first book? Were you always into writing? You wanted to be an author?

Yes, it's my first book. I have always enjoyed writing and maintaining an online blog for a long time. I also briefly freelanced as a writer, writing articles on wildlife and men's style. Also dreamt of writing a book so one dream was fulfilled.

Why Kabini?

I spent nearly ten years of my life in kabini. I know it very well and it's my home jungle. It's my karma Bhoomi as far as wildlife goes

How and when did you become a naturalist?

I became a naturalist in 2003 when I decided to quit my job as a tea planter and work in the wildlife field. As I was not 'qualified' to do research it was the only viable option for me.

How has your journey been as a Naturalist? Pls share a couple of milestones or anecdotes to share.

It was great. The biggest learning was when my boss Krishan Prasad or KP for short who is a great wildlifer himself advised me to ditch my camera for a pair of binoculars. Best advice I ever received- the learning that followed was stupendous. Also getting the opportunity to interact with Dr Ullas Karanth and

other such greats. My outlook and philosophy towards

wildlife was formed and greatly influenced by these individuals. What did you enjoy the most about

Writing it. I love to write.

What next? Which book? What

the book?

subject? Nothing definitive but I would like to

write something from a foresters perspective about the day to day challenges of managing a national park in India.

Journey of Self-Discovery and Courage

Niharika Nigam's debut novel, Joy of Missing Out, explores the transformative journey of Nanki Mehta, a young woman searching for meaning and fulfillment beyond societal expectations. Through an unexpected adventure, Nanki learns to embrace uncertainty, redefine purpose and take a leap of faith towards a more authentic life, says SAKSHI PRIYA

Toy of Missing Out by Niharika Nigam is a deeply engaging novel that explores the themes of selfdiscovery, existentialism and the quest for a meaningful life. Nigam, an entrepreneur with years of experience in the adventure sports industry, brings a unique perspective to her storytelling, blending personal insights with a broader commentary on modern life.

The novel centers around Nanki Mehta, a thirty-two-year-old brand strategist from Delhi, whose seemingly perfect life feels increasingly unfulfilling. Nanki's struggle is relatable, she grapples with societal expectations and a sense of stagnation in her career, marriage and personal life. Nigam paints a vivid portrait of a woman in crisis, yearning for something more than the mundane routines that have come to define her existence. Her portrayal of Nanki's internal conflict is rich and nuanced, making her journey of self-discovery both engaging and thought-provoking.
A turning point in the novel comes

when Nanki stumbles upon a Bungy Jumping ad for Rishikesh, a place tied to her childhood memories. This ad becomes the catalyst for Nanki's journey towards transformation. Her interactions with River, a Bungy Jump Master, add a fresh dimension to her life. River's outsider perspective challenges Nanki to reconsider her own beliefs, offering new ways of thinking about purpose and fulfillment. This friendship serves as a mirror for Nanki's own soulsearching, encouraging readers to reflect on their own lives.

One of the novel's most effective elements is its use of Bungy

Nigam's own experience in the adventure sports sector gives the book an authentic feel, especially in the scenes set in Rishikesh. Her understanding of courage, risk and the human desire for freedom adds depth and realism to Nanki's journey. The novel also delves into challenges of

entrepreneurship, showing how Nanki uses her business acumen to support a local NGO, blending purpose with practicality.

The emotional core of the story is further enriched by Nanki's relationship with her grandfather, Nanu, whose illness and eventual death force her to confront her fears and redefine her understanding of loss and resilience. This subplot adds emotional weight to the narrative, making Nanki's journey even more sense of purpose.

compelling. Joy of Missing Out is a novel that challenges readers to reflect on

their own paths and the choices they make. It captures the tension between societal expectations and personal fulfillment, urging readers to take their own leaps of faith. Nigam's writing is insightful and empathetic, making this a book that resonates with anyone who has ever felt the need to step away from the familiar in search of a deeper

Neeraj Chopra qualifies for Diamond League season finale in Brussels

PTI ■ NEW DELHI

ndia's two-time Olympic I medal-winning javelin throw star Neeraj Chopra has qualified for this month's season finale of the prestigious Diamond League finishing fourth in the overall standings at the end of its 14 series meetings across the

The season finale will be a twoday affair on September 13 and 14 in Brussels. Chopra accumulated 14 points from his two second-place finishes in the one-day meets held in Doha and Lausanne.

He skipped the last series meet in Zurich on Thursday.

The 26-year-old is two points adrift of Czechia's Jakub

Vadlech. Grenada's Anderson Peters and German star Julian Weber occupy the top two spots with 29 and 21 points respectively. Peters had pipped Weber in the Zurich meet.

Chopra, who won gold in the Tokyo Olympics in 2021 and added a silver to his kitty in the Paris edition last month, has been struggling with his fitness

The Haryana-lad has talked about a groin injury troubling him since before the Olympic Games that has come in the way of his quest to hit the 90m

The Indian finished second in the Lausanne Diamond Leg, bested by Peters, who threw 90.61m. In Paris Olympics, Pakistan's Arshad Nadeem had

taken the gold with a monster throw of 92.97m. "First goal, go to the doctor

and make my groin 100 per cent fit and also I will be technically better and try to throw far again," he had said last month about his plans for this year and the coming one. Chopra had won the Lausanne leg in 2022 and 2023 and finished second behind Vadlejch in the winner-takes-all finale in Eugene, USA, last

Each Diamond League season finale champion is awarded a prestigious "Diamond Trophy", USD 30,000 prize money and a wild card for the World Athletics Championships. The DL finale will mark the end of Chopra's season.

India's fast bowling makes them difficult to beat in Australia: Marnus Labuschagne

PTI MUMBAI

Star batter Marnus Labuschagne reckons fast bowlers make India a "difficult" side to beat in Australian conditions as the hosts look to end their barren run in Border-Gavaskar Trophy which has lasted nearly a decade.

India have won every bilateral Test series against Australia since losing 1-2 in an away affair in 2014-15. They have recorded identical 2-1 series wins in 2018-19 and 2020-21 Down Under to remain on top.
"India's fast bowling is very good, which is really what brings them in Australian conditions and make them such a tough team to beat in Australian conditions," Labuschagne told Star Sports. The middle-order mainstay

termed the rivalry as 'tough' irrespective of where they are always high There

anticipation. To these two teams, it doesn't matter where we're playing, if it's in England, Australia, or India, it's always a tough contest," he said.

Australia spinner Nathan Lyon termed Indian players as "superstars" while hoping to revive his on-field rivalry with India spinner Ravichandran Ashwin. "I've always said throughout

my whole career (that) I want to compete against the best and you look through the whole Indian line-up, the whole squad, there's absolute superstars everywhere," he

"I know Ashwin, we debuted around similar times and we've competed against each other in reckoned the five-Test series

a number of series. I have got nothing but respect for him. He is an absolute master in the craft of off-spin bowling and it's been an absolute privilege to play against him and learn off him," said Lyon.

between India and Australia starting on November 22 at Perth could be a "preview" for the final of the World Test

Championship next year. India lead the WTC table for 2023-25 cycle with 68.52 percentage points and 74 points, followed by Australia

with 62.50 percentage points

and 90 points. The WTC final will be played at Lord's from June 11-15 next year and could feature both the current top two teams once

India have featured in the summit clashes of the WTC on both occasions but have lost to New Zealand (2019-21) and Australia (2021-23).

"Every single point is pretty crucial for the World Test Championship. Any way you can kind of (or) get an idea of (to) how to get one up on your opponent, we'll try and take," Green said.

"If it is a bit of a preview for a World Test Championship final again, yeah, we've been trying to get as much information out of India and see how we can win it again,

Vikram Rathour, Rangana Herath added to New Zealand coaching staff

Former India batting coach Vikram Rathour and Sri Lanka spin great Rangana Herath were on Friday added to New Zealand's coaching staff ahead of Tests against Afghanistan and Sri

New Zealand will play a one-off Test against Afghanistan before heading to Sri Lanka for a two-Test series. The one-off Test against the Afghans will be held at the Greater Noida Sports Complex Ground from September 9 to

The Kiwis are also due to play a three-Test series against India in October-November. While Herath has been appointed for

Tests against Afghanistan and Sri Lanka as New Zealand's spin bowling coach, Rathour will be with the Kiwi side only for the contest against Afghanistan.

Rathour had a successful run as India's batting coach under head coach Rahul Dravid. His tenure ended after India's T20 World Cup win in June this year. The addition of Rathour and Herath

was announced by New Zealand Cricket on their website. "Sri Lankan spin maestro Rangana

Herath has been appointed as spin-bowling coach for the three upcoming

Tests in Asia, replacing former Pakistan spinner and coach Saqlain Mushtaq who was originally announced to fill the temporary role before pulling out to take up a position with the Pakistan Cricket Board," New Zealand Cricket said in a statement. Head coach Gary Stead said, "We're really excited to introduce Rangana

and Vikram into our Test group."
"Both men are held in high regard in the world of cricket and I know our players are really looking forward to the opportunity to learn from them." Stead hoped Herath's expertise as a left-arm spinner will help New Zealand's Ajaz Patel, Mitchell Santner and

Rachin Ravindra. "For our three left-arm orthodox spinners in particular, Ajaz, Mitch and

Rachin, having the chance to work with Rangana across three Tests on the sub-continent will be beneficial," he said.

ondon Games bronze London Games and medallist shooter and India's Chef de Mission at the Paris Olympics, Gagan Narang on Friday heaped praise on the country's para athletes for their performance in the ongoing Paralympics.

Paralympic Indian contingent has already bagged a record 25 medals in this edition of the quadrennial showpiece with 5 gold, 9 silver and 11 bronze and is currently placed at the 16th position in the medal tally

When asked about his analysis of the Paris Olympic Games, the former shooter said he hasn't done it yet.

"I haven't done my analysis of the Paris Olympics yet, everybody has spoken about it. But the most important thing right now is that in the

Paralympics we are performing well, we are on the 16th position today.
"A fantastic effort by our

Paralympians. They surpassed the Tokyo Paralympics medal tally, looking forward for more medals," Narang told PTI Videos on the sidelines of the Media Photojournalist Trust's photo exhibition event at the Press Club of India.

Narang also shared his thoughts on his love for photography and expressed his admiration for the photos he saw at the exhibition.

"Fantastic exhibition indeed, photographers are lifeline of journalism. They give us a perspective and no AI (Artificial Intelligence) can replace them. I wish, pray and help the association to do this function every year. Fantastic effort and great pictures," he

Sara Errani and Andrea Vavassori won the U.S. Open mixed doubles title with a 7-6 (0), 7-5 victory Thursday over Taylor Townsend and Donald Young, who fell just short of a Grand Slam title in his final match before retiring.

Errani, who won a career Grand Slam in women's doubles with fellow Italian Roberta Vinci, added her first career mixed doubles title to the Olympic gold medal in women's doubles she won last month with Jasmine Paolini.

"It's incredible for me this year. It's amazing," Errani said.

Townsend and Young, who have been friends since they were kids, were given a wild card into the event for what was the 35-year-old Young's final tournament. The former top-ranked junior hadn't

played much in recent years, having made

doubles title in Young's final match before retiring

"Obviously wasn't the result we wanted," Young said, "but I can't think of a better spot, place to go out in, having watched that as a kid, and playing with someone I've known our whole life. It's pretty cool for

He and Townsend made their way through the draw, knocking off defending champions Anna Danilina and Harri Heliovarra in the quarterfinals.

But Errani and Vavassori, the No. 3 seeds, dominated the tiebreaker and then won the match by breaking Townsend's serve. Errani hadn't played a mixed doubles event for eight years before partnering with Vavassori at Wimbledon. They were knocked out in the first round, then

reached the quarterfinals at the Olympics before coming to New York. Young's parents coached Townsend, who lost in the women's doubles semifinals with Katerina Siniakova after they won the

Wimbledon title.

The 28-year-old Townsend said after the match that she hoped fans seeing two Black players in the finals, after Coco Gauff won the women's title in Flushing Meadows last year and Frances Tiafoe is in the men's semifinals Friday, would inspire more of them to play. Young was then presented with a framed collage of photos of himself playing at the U.S. Open.
