NIA team has joined the ongoing probe in Kanpur. Kanpur Police has detained six people, including two local history-sheeters, in connection with the case and decided to form a Special Investigation Team and will study if there are any similarities with the recent Sabarmati Express derailment in Kanpur.

"Senior officers are looking into things seriously. Whatever facts come to light, shall be shared," Uttar Pradesh DGP Prashant Kumar told The Pioneer.

This is not the first time but a similar pattern was noticed when there was an exceptional jump in "sabotage" cases with around 18 incidents reported in December

The then Railway Minister Suresh Prabhu had written to Home Minister Rajnath Singh seeking a detailed investigation by the NIA into the mishaps as the listed incidents with "possibility of criminal interference by outsiders"

Delhi Police recently arrested about 14 people of ISIS from Uttar Pradesh, Rajasthan, Madhya Pradesh and Delhi. Further, the investigating agencies have collected footage from 219 cameras and questioned over 100 individuals in connection with the Kanpur train derailment attempt.

'Temporary suspension curbing of internet and mobile data services including Lease Lines, VSATs, broadbands and VPN services (were ordered) in the territorial jurisdiction of the State of Manipur for five days with effect from 3 PM of

September 10 to till 3 PM of total curfew in Imphal East September 15," the notification said.

Meanwhile, tear gas shells were fired as student and women demonstrators on Tuesday clashed with security forces during the agitators' attempt to march towards the Raj Bhavan to press for their demands to remove the DGP and security advisor to the Government, officials said.

Hundreds of students, who their respective residences have been camping at was lifted from September 1 Khwairamband Women Market since Monday, tried to march towards the Raj Bhavan along the BT Road but were stopped by security forces near the Congress Bhavan.

The Manipur Government has clamped curfew in Imphal East and West districts and prohibitory orders under Section 163 (2) of BNSS in Thoubal district in view of the student protests.

An indefinite curfew, preventing people from coming outside their houses, was clamped in Imphal East and West districts, while prohibitory orders under Section 163 (2) of BNSS were imposed in Thoubal.

"Due to the developing law and order situation in the district, earlier orders of relaxation stand curfew cancelled with immediate effect from 11 am of September 10. Hence, there is

district with immediate effect until further orders," an order issued by the district magistrate said.

Another order issued by the district magistrate of Imphal West said, "In supersession of all earlier orders, curfew relaxation period for September 10 is hereby lifted with effect from 11 am today." "Restriction on movement of people outside

last year," it said. Earlier, relaxation September 10 was lifted from 5 am to 10 pm but was superseded by the latest order. Essential services, including media, electricity, court and health, are however exempted from the purview of the

curfew, it said. The orders from the two Imphal districts came in the wake of students planning to intensify their protests demanding the removal of the DGP and security advisor to the State Government for their alleged inability to deal with the law and order situation in the state.

The prohibitory orders in Thoubal prevented the assembly of five or more persons as police claimed that at least one personnel was hit on the thigh by a bullet fired from the protesting students in the district on Monday.

B<sup>JP</sup> and Congress engaged in a war of words following the Congress leader Rahul Gandhi's series of attack on the Modi Government, BJP and RSS during his interactions with various stakeholders in the United States.

Gandhi remarks in the US about the Sikh community, saying the Congress Leader is trying to create a "dangerous narrative" by speaking on "sensitive issues" abroad. Congress hit back at the BJP over its criticism of Rahul Gandhi's remarks in the US, saying the ruling party should not treat itself as being synonymous with the country. The principal Opposition party in the Lok Sabha also said it would keep criticising the policies of the Government. Rahul is currently on a fourday visit to the United States. His first stop was in Dallas which began on Saturday, and he arrived in Washington DC on Monday.

Union Minister Hardeep Singh Puri told a Press conference at the BJP headquarters that Rahul's remarks were "sinister" in nature as he tried to spread

falsehood among the members of the Sikh community living abroad to "eke out a living and do not have much connection with India. "I condemn in the strongest

made about Sikhs not being able to wear turbans and kadas," the BJP Leader from the Sikh community said. Americans in Herndon, a

Virginia suburb Washington DC, on Monday, Rahul Gandhi accused the RSS of considering some religions, languages and communities of being inferior to others and said the fight in India is about this and not about politics.

"First of all, you have to understand what the fight is about. The fight is not about politics. That is superficial," Rahul said as he asked one of the Sikh attendees in the front rows to give his name. What is your name, brother with the turban," he asked.

The fight is about whether a Sikh is going to be allowed to wear his turban in India or a kada in India. Or he, as a Sikh, is going to be able to go to Gurdwara. That's what the fight is about. And not just for him, for all religions," said Rahul.

Hitting out at the Congress

leader, Puri said Gandhi, of late, has been making statements sensitive issues, which "involve our national identity, unity, the strength of our unity and diversity". "I think he is terms the statement he has trying to set a new kind of narrative which I think is a dangerous narrative," he said. Union Minister Shivraj Singh BJP came down heavily on Addressing a gathering of Chouhan also slammed the Congress leader for alleged remarks accusing him of "defaming" India abroad out of his frustration due to repeated defeat in elections. "Only a frustrated person can defame the

country and spoil its image abroad. Now he is raising questions not only on the Government but also the Commission," Election Chouhan said. Rahul Gandhi is the Leader of the Opposition in the Lok Sabha and the position carries responsibility, he said. Congress' media and publicity department head

Pawan Khera said, "Since when has BJP become synonymous with India that if one condemns BJP, it is equated with condemning India. The BJP and Narendra Modi should not have this misunderstanding that condemning them is like condemning India."

The primary objective of the event was to challenge the deeply ingrained stigma associated with suicide and mental health, encouraging conversations that promote openness, compassion, and a supportive envi-

Inaugurating the programme Prof. (Dr.) Ajai Singh, Executive Director of AIIMS Bhopal, emphasized the importance of addressing mental health issues without fear or stigma "Each life lost to suicide represents not just an individual tragedy, but an irreplace-able loss that reverberates through families, friends, and communities. We must change the way society approaches suicide by fostering a culture of empathy and proactive support. At AIIMS Bhopal, we are determined to lead the charge in transforming the discourse surrounding suicide. Prof. Singh, reiterated AIIMS

Bhopal's commitment to pri-

oritizing mental health by

advocating for policies that

ensure better access to mental

health services and support for

individuals in crisis. He

stressed that institutions like AIIMS Bhopal play a pivotal role not only in medical intervention but also in educating and empowering communities to recognize and address mental health challenges.

The event featured several key activities designed to raise awareness and equip individuals with tools to help prevent suicide. Among them was a symbolic ribbon campaign, organized by nursing students, which underscored the need for solidarity and collective responsibility in suicide prevention. The campaign aimed to remind attendees that small acts, like initiating conversations, can make a difference in breaking down the barriers that prevent individuals from

seeking help. One of the highlights of the event was the panel discussion on "Strategies Regarding Suicide Prevention in Youth. This session was chaired by Prof. (Dr.) Vijender Singh, Head of Psychiatry at AIIMS Bhopal, alongside other distinguished panelists, including mental health professionals, educators, and representatives from youth organizations. Prof. Dr Vijender stated that annually 7 lakh people commit suicide across the globe and in year 2022, one Jakh seventy one thousands of people committed suicide in India as per NCRB data. All these deaths

are preventable.

# to global issues at ANRF meeting

PIONEER NEWS SERVICE

Prime Minister Narendra Modi on Tuesday emphasised the need for addressing challenges in India's research ecosystem and focus on localised solutions to global issues, during the inaugural governing body meeting of the Anusandhan National Research Foundation (ANRF). Modi also talked about developing a dashboard where information related to research and development happening in the country could be easily tracked. The meeting focussed on discussions about India's science

and technology landscape and redesigning of research and development programmes, as per a statement issued by the Prime Minister's Office (PMO). Stating that a new beginning had been made with the first meeting of the governing body of ANRF, Modi said the country's scientific community should have faith that there would be no dearth of resources for their endeavours. Modi also talked about setting big targets, focusing on attaining them and conducting pathbreaking research. He said research should focus on finding new solutions to existing

# **Experts call for critical shift** in understanding, addressing India's suicide trend

PIONEER NEWS SERVICE NEW DELH

With no let up in the death by suicide in India particularly among youth, mental health experts have called for a critical shift in understanding and addressing the trend, emphasising the need to consider socio-economic factors alongside mental health issues.

This comprehensive approach is crucial given the country's alarming suicide statistics-171,000 lives lost in 2022 alone, said Dr Rakhi Dandona, Professor of Public Health at the Public Health Foundation of India in a new six-paper series published in The Lancet Public Health. It was released on World Suicide Prevention Day marked on Tuesday.

India's National Suicide Prevention Strategy released recently aims to reduce suicide deaths by 10 percent by 2030. While the strategy focuses primarily on mental health interventions, the authors have highlighted the importance of integrating a wider range of socio-economic factors. Police data suggests that variables like gender, employment, and stressful life events also sig-nificantly influence suicide

It includes measures such as establishing effective suicide surveillance systems and integrating mental well-being curricula into educational institutions

The series outlines six key aspects of a public health approach to suicide prevention. These include examining social determinants and a model that considers how suicide may arise from various social conditions

Dr Dandona stressed the need for national policies to mitigate economic hardships, such as maintaining minimum wage levels. She also highlighted how exposure to suicide-related information can increase risk, suggesting restrictions on media portrayals of suicide methods to reduce this risk. One paper in the series notes a correlation between poor

economic status and higher suicide rates in low- and middle-income countries (LMICs). In India, states with higher unemployment rates show increased suicide rates, especially among men, and unemployment is also a significant risk factor for women. Another paper discusses the

"transmissibility of suicide," where exposure to suiciderelated information can influence others while the fifth paper explores interventions targeting major suicide risk factors, including alcohol use, gambling, domestic violence, and suicide bereavement.

Dr. Dandona pointed out that creating a supportive environment where individuals feel comfortable sharing their struggles is crucial and stressed the need for these conversations to be taken seriously and addressed appropriately. Dr Jyoti Kapoor, Founder-Director and Senior Psychiatrist, Manasthali too echoed similar views. She noted that suicide is a major public health concern in India. The government has launched initiatives like the National Mental Health Programme and the Kiran Helpline to address the mental health crisis and prevent suicide. However, greater awareness, access to care, and addressing underlying socioeconomic issues are essential to reducing suicide rates?

She further said that there is a need to change the narrative of suicide to have open, compassionate conversations that break the stigma surrounding mental health struggles.

"We have to shift the focus from judgment to understanding, and this will eventually encourage people to seek help without fear or shame. By promoting awareness, we can build supportive communities that prioritise mental wellbeing," she added.

# Israel approaches **India for 15,000** workers to plug their skill gap

I srael has approached India to carry out recruitment drive again for 10,000 construction workers and 5,000 caregivers simultaneously to plug their skill gap in the infrastructure

and health sector. This comes on the back of a similar request made by Israel, earlier in the year, National Skill Development Corporation (NSDC)said here

The Population, Immigration, has put in a request across four specific job roles: Framework, Iron Bending, Plastering, and

Ceramic Tiling. A team from PIBA, comprising of assessors, is to visit India in the coming week to carry out the necessary skill tests for selecting those who meet their criteria and skill

requisites. The second round of recruitment drive for construction workers is to take place in Maharashtra, it said.

Further, Israel also requires 5,000 caregivers to boost its healthcare services. They have stated candidates who have completed at least their 10th standard along with holding a certificate issued by a recognised Indian institute and completing a care giving course with at least 990 hours of onthe-job training can apply.

In the first round of recruitment of construction workers for Israel, a total of 16,832 candidates appeared for skill tests in their trade out of which 10349 candidates were select

Those selected will earn a salary of Rs 1.92 lakh per month, along with medical insurance, food, and accommodation. A bonus of Rs 16,515 per month is also provided to these candidates.

The NSDC reached out to all states to carry out recruitment after the government-to-government (G2G) agreement was signed in November 2023. The first round of recruitment drive was carried out in Uttar Pradesh, Haryana and Telangana.

The agreement was signed after India and Israel initiated a Framework Agreement on Temporary Employment of Indians in May 2023.

**NEW DELHI** 

ongress General Secretary Priyanka Gandhi Vadra on Tuesday slammed the BIP over the teachers recruitment case, alleging that it was playing a "double game" with the youth from both reserved and unreserved categories and harming them socially, economically and mentally.

Her remarks come a day after the Supreme Court stayed the

Allahabad High Court order asking the Uttar Pradesh Government to prepare a fresh selection list for the appointment of 69,000 assistant teachers in the State.

The top court also stayed the High Court verdict setting aside the selection lists of the assistant teachers issued by the State authorities in June 2020 and January 2022, which included 6,800 candidates.

'The anti-youth and anti-social justice attitude adopted by the BJP in the matter of recruitment of 69,000 teachers in UP is shocking. By playing a double game, the youth from both reserved and unreserved categories are being harmed socially, economically and mentally," she said in a post in Hindi on

"First, the reservation scam in the recruitment process took away the rights of hundreds of Dalit and backward candidates. And even now the BJP's intention is to delay and misdirect social justice.

# Siddha medicine effective in treating anaemia in adolescent girls: Ayush Ministry

ARCHANA JYOTI ■ NEW DELHI

Integrating Siddha medicine, a traditional system of healing from South India, into anaemia treatment strategies could support the flagship Anaemia Mukt Bharat programme by combating this condition among adolescent girls, the Union Ayush Ministry has stated, citing findings from a recent study.

Titled "A Combination Siddha Drug Reduces Anaemia Among Adolescent Girls in Virudhunagar District of Tamil Nadu, India," the study was conducted at a hospital in the Southern State under the Public Health Initiative to mainstream 'Siddha' drugs for anaemia treatment.

Published in the Indian Journal of Traditional Knowledge, it highlights the potential of Siddha medicine in addressing this public health challenge. The study found that a combination of Siddha drugs

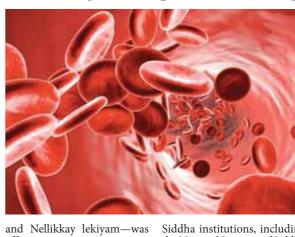

effective in improving various anaemia indicators such as haemoglobin levels, packed cell volume, and mean corpuscular hemoglobin. Anaemia in adolescent girls often stems from poor diet,

# Strategic partnership

Following PM Modi and UAE Crown Prince Al Nahyan talks, India-UAE relations reach new heights with landmark energy pacts

■ ndian diplomacy is soaring to new heights. As nations around the world eagerly welcome Indian businesses and forge strategic alliances, India is experiencing an unprecedented wave of global goodwill and influence not seen in years. The recent UAE-India energy pact is yet another case in point. UAE crown prince Sheikh Khaled bin Mohamed bin Zayed Al Nahyan is presently in India and had a meaningful dialogue with Prime Minister Modi. India and the United Arab Emirates (UAE) continue to strengthen their strategic partnership, with a significant boost in the energy sector, as both nations signed four major agreements aimed at deepening cooperation. The agreements span key sectors, including liquefied natural gas (LNG) trade, petroleum supplies, nuclear plant operations, and production concessions, marking a pivotal moment in the bilateral relationship. As both leaders emphasised, the pacts signal a broadening of collaboration, particularly in emerging areas such as nuclear ener-

gy, critical minerals, green hydrogen, artificial intelligence, and advanced technologies.

The signing of a long-term supply agreement for one million metric tonnes of LNG per annum between Abu Dhabi National Oil Company (ADNOC) and the Indian Oil Corporation Ltd (IOCL) is among the most prominent developments. This is the third such deal in just over a year, reinforcing India's energy security while further consolidating ties with one of the world's leading energy producers. In addition, a groundbreaking production concession pact was signed between Urja Bharat and ADNOC for Abu Dhabi's Onshore Block One. This marks the first instance of an Indian com-

pany holding an energy production concession in the UAE. An equally crucial development is the agreement between the Emirates Nuclear Energy Company (ENEC) and the Nuclear Power Corporation of India Ltd (NPCIL). This pact is designed to enhance collaboration in the operation and maintenance of nuclear power plants, sourcing nuclear goods from India, and fostering mutual investments in the civil nuclear domain. During their discussions, PM Modi and Crown Prince Al Nahyan acknowledged the rapid progress made under the India-UAE Comprehensive Strategic Partnership, which was first established during Modi's 2015 visit to the UAE. With about 3.5 million Indian expatriates forming the largest community in the UAE, the deepening of ties in key sectors like energy, nuclear cooperation, and trade will continue to be a cornerstone of this growing relationship. Crown Prince also paid tribute to Mahatma Gandhi at Rajghat, where he planted a sapling, continuing a tradition started by his grandfather in 1992. The crown prince's visit is more than just about pacts. It strengthens the historic ties between the two countries. The recent implementation of the Local Currency Settlement (LCS) System, which facilitates cross-border transactions in Indian Rupees and UAE Dirhams is yet another example of growing affinity between the two countries.

# 9/11: The day that changed the world

As we commemorate the lives lost and honor the bravery of those who responded, we must also commit to building a future grounded in peace, tolerance and mutual respect

n September 11, 2001, the world stood still as a series of events unfolded that would forever alter the course of history. The terrorist attacks of 9/11 not only shook the United States to its core but also had profound repercussions globally, leaving an indelible mark on international politics, security frameworks, and societal attitudes. Now, 23 years later, the legacy of that day continues to influence the world in significant

The attacks, orchestrated by 19 members of the extremist group Al-Qaeda, led by Osama bin Laden, were intended to instill fear and challenge American power. The immediate aftermath saw the U.S. respond swiftly with the launch of the "War on Terror." Just weeks later, in October 2001, the U.S. invaded Afghanistan, targeting the Taliban regime that harbored Al-Qaeda operatives. The war, which initially focused on dismantling the Taliban, expanded in 2003 to include Iraq, resulting in the toppling of Saddam Hussein's regime.

The costs of these wars, however, were staggering. Over two million people lost their lives, and the financial toll was estimated at \$4.5 trillion. The Middle East was plunged into a state of instability, with extremist groups like ISIS rising in the wake of regime collapses. The U.S. intervention, initially framed as a campaign to liberate oppressed nations, came under heavy criticism due to incidents like the torture of detainees in Abu Ghraib and Guantanamo Bay. These actions tarnished the U.S.'s reputation, fueling anti-American sentiment and exacerbating tensions between the West and the Islamic

Beyond military campaigns, 9/11 also had far-reaching societal impacts. In the U.S. and elsewhere, fear and suspicion of Muslims surged. Islamophobia became more entrenched, as communities and individuals were unfairly associated with terrorism. The clash of civilizations narrative, which framed Islam as inherently opposed to Western values, gained traction, deepening divisions and fueling preju-

dice. This legacy of suspicion and distrust continues to shape political discourse and societal attitudes today.

The seeds of 9/11 were planted decades earlier during the Cold War, when the U.S. supported Islamist fighters in Afghanistan to counter Soviet influence. Figures like Osama bin Laden, initially seen as allies in the fight against communism, turned against the U.S. after the Soviet withdrawal. Bin Laden's growing resentment of U.S. involvement in the Middle East culminated in the deadly attacks on September 11, a day that redefined global security priorities.

In response to 9/11, the Bush administration implemented a range of measures to protect national security. The Department of Homeland Security was established, and stringent airport security protocols became the norm worldwide. The U.S. also adopted the Bush Doctrine, which justified preemptive strikes against nations that harbored or supported terrorists. This doctrine underpinned the invasions of Afghanistan and Iraq and marked a significant shift in

U.S. foreign policy.

However, the invasions, especially that of Iraq, became highly controversial. While the Bush administration ini-

tially claimed that Saddam Hussein possessed weapons of mass destruction (WMDs), none were found, leading to widespread skepticism about the true motives behind the war. The failure to uncover WMDs highlighted the dangers of misinformation and flawed intelligence, further eroding public trust in the government

In the years that followed, 9/11 and its aftermath shaped not only U.S. foreign policy but also the broader international order. Counterterrorism became a global priority, with governments implementing new laws to enhance surveillance and prevent further attacks. However, this focus on security often came at the expense of civil liberties, as governments expanded their powers to monitor citizens, raising concerns about privacy and individual freedoms. The physical site of the World Trade Center has since been rebuilt, with the One World Trade Center standing as a symbol of resilience. At the base of the original towers, a memorial and museum have been constructed to honor the victims. Yet for many, the emotional scars remain. Survivors, first responders, and the families of victims continue to grapple with the trauma of that fateful day.

sure to toxic debris have plagued many first responders, and the psychological toll remains deep.

As we reflect on the 23rd anniversary of 9/11, it is clear that the world has changed in profound ways. The attacks prompted the U.S. and its allies to rethink their approach to security, while also creating new challenges, such as the rise of extremism and the erosion of trust between nations and communities. Today, as the global community faces new threats, including cyberterrorism and shifting geopolitical alliances, the lessons of 9/11 remain relevant. The need for global unity, cooperation, and understanding is as pressing as

Ultimately, 9/11 is not just a moment in American historyit is a moment that transformed the world. As we commemorate the lives lost and honor the bravery of those who responded, we must also commit to building a future grounded in peace, tolerance, and mutual respect. The resilience shown in the face of adversity on that day offers hope for a better world, one where such tragedies are prevented and where humanity comes together to heal, and move forward.

# Fintech: Paving the way for sustainable development

As India's fintech landscape continues to experience unprecedented growth, it is not only transforming the financial sector but also advancing sustainability

intech, or financial tech-→ nology, is revolutionising the financial sector by expanding accessibility, reducing costs, and boosting efficiency while fostering an equitable financial environment. It has assisted in overcoming the shortcomings of traditional financial services.

India is presently witnessing a fintech transformation marked by an impressive growth trajectory. With a market size of \$50 billion in 2021, it is expected to surge to \$150 billion by 2025. It boasts 17 Fintech Unicorns, making it the third largest fintech ecosystem globally.

The regulatory landscape is robust, with the government's initiatives and support in mobile connectivity; policies like Direct Benefit Transfer and Atal Pension Yojna have accelerated the digital revolution, bringing citizens, especially in rural areas within the digital financial services domain. The Reserve Bank of India (RBI) Payments Vision 2025 outlines ambitious goals including a substantial increase in digital and payment transactions. The fast expansion of Fintech puts

bers, it can also be pivotal in advancing sustainability by leveraging digital innovations to promote environmentally and socially responsible financial practices.

India's fintech ecosystem per se has seen significant growth initiatives that support sustainable development goals, enhance financial inclusion and foster green economic activities. The path of Green Financial Measures encompassing green investment tax credits, mandatory environmental disclosure and reporting, and development of sustainable financial standards has experienced a steady and robust expansion from 188 to 784 Measures and a Year-to-Year growth from 40 per cent to 100 per cent between 2015

and 2022. Financial institu-

Furthermore, there is also provision of crowdfunding for renewable and green projects particularly solar and wind energy initiatives.
The banking sector, which

plays an instrumental role in funds dispersion is increasingly incorporating green investment policies, such as providing sustainable loans and adopting environmentally friendly banking practices. Similarly, insurance companies are integrating environmental risk assessment into forth optimistic growth num- criteria in their investment their underwriting processes

The government has launched several schemes and initiatives to promote green financing such as the Green Energy Finance Scheme and the National Clean Energy Fund. The RBI has also issued guidelines for green bonds, which are designed to finance environmentally sustainable projects. The SEBI has issued guidelines for sustainability reporting by listed companies, where companies must disclose their ESG performance for greater transparency and accountability. India's fintech sector is lead-

ing the way in advancing sustainability through the development of novel financial services that promote social and environmental objectives. Given the favourable regulatory environments and ongoing technical progress, the fintech industry is in a strong position to increase its influence on sustainable development in India.

### **WARRIORS OF INDIA** Madam —Apropos to "Paralympics:

Warriors of India write history and victory " published on 9th September-24, here is my response. Kudos to Indian Paralympics athletes for winning the best medal haul in the history of games. Each of these 29 medal winners in the Paris Paralympics games have an inspiring story of resilience, grit and perseverance. Avani, Preethi, Nitesh , Sumit, Kapil, Parnav, Dharmabir and Kapil all have shown what one can achieve through sheer will power. They need to be given the same grand welcome, recognition and honor that we bestowed upon the likes of Manu Bhaker and Neeraj Chopra and other Olympics medal winners.

What is really incredible is the fact that not only these Paralympics athletes have won medals but few of them broke their personal best and Paralympics games records in the process. In a few events we even won two out of three medals to be won, which itself is historic.

Some accident or tragedy may have taken some of these athlete's limbs but their steely resolve remained intact. And if ever GoI needed any reason to increase the budgetary allocation to disability rights groups, the ever highest medal tally achieved by our Paralympics medalists is that reason.

And the least local civic authorities and local administration across the cities can do is to create infrastructure sensitive to the needs of differently abled people. It is the least we can do as a society to make them feel better and equal, so that they do not look upon complex or inferiority.

# TRANSFORMING DISLIKE **INTO COMPASSION**

By viewing people positively, we can create a more harmonious fulfilling life

RAJYOGI BRAHMAKUMAR **NIKUNJ JI** 

Il of us are born with strong feelings of likes and dislikes. These feelings shape our personality from childhood itself. That's why today, we see new mothers making statements like, "My child doesn't like green colour, he gets irritated if he sees yellow dal, he doesn't like his scout uniform," etc. It won't be an exaggeration to say that one of the greatest causes of tension, burden, and conflict in our lives is the feeling of dislike for others.

The question is, why do we allow ourselves to collapse into such an ultimately unwanted experience? Is it mandatory for us to dislike someone because they are wrong or perhaps because they are of a displeasing disposition? Why can't we change our perspective in such a way that our inner reaction changes from negative to positive? For this, we need to wear the right kind of glasses that would enable us to maintain a positive vision for all. By doing so, we would be able to see good traits and positive virtues in others rather than their defects and weaknesses. Once we learn this technique of seeing only virtues in others, life will become easier on both sides

The technique is very simple, and it begins with self. If we reflect over the years, we can easily make out that the periods in which we have been most unhappy with others were the times when we were dissatisfied with ourselves. When we are dissatisfied from within, we will be inclined to be dissatisfied with just about everyone and everything, without knowing that this dissatisfaction is directly related to the perspec-

So, we must first begin by asking ourselves, "What is the perspective I have of myself?" or "How do I see myself in the mirror?" These introspective questions can reveal a lot about our inner state. Modern-day psychologists have proven that people who are unhappy with themselves are often unable to find peace with those around them. It means that they project their inner unhappiness onto others, making relationships and interactions more difficult than they need to be. So, if we are not positive about ourselves, then on what basis can we be positive about

The only way out of this problem is to ensure that we have a positive lves first. Learning to appreciate who we are—our strengths, talents, and positive qualities—creates a ripple effect in our lives. It becomes easier to extend the same kindness and understanding to those around us. Moreover, when we foster a healthy relationship with ourselves, we also develop the emotional strength needed to accept and navigate the imperfections in others without being weighed down by judgment or negativity. So, start by liking yourself first, enjoy others, and develop new and desirable qualities within yourself. This inner work creates a foundation for healthier relationships and a more peaceful life. Remember! dislikes and grudges drain our energy, while positivity and understanding elevate us, giving us the power to approach others with compassion and love. As we focus on cultivating a positive self-view, our interactions with the world will naturally transform. We must remember that our perspective shapes our reality.

So, by consciously choosing to view ourselves and others positively, we can create a more harmonious, fulfilling life. The key lies in the ability to see beyond faults and embrace the goodness that exists in all of us. So come on let's commit to wearing the 'right glasses'-ones that allow us to see virtues rather than weaknesses, strengths rather than flaws. It's time to replace our inner dissatisfaction with inner contentment, paving the way for a more compassionate and peaceful existence. # India needs to excel in 'Olympics of skilling'

DINESH SOOD

We must explore the potential of specific skill sets to excel as the standardised competition environment guarantees a level playing field

he 47th edition of the biannual WorldSkills Competition-2024 is set to begin in Lyon, France. The competition featured a 60-member young contingent from the WorldSkills India Team competing in 52 skill categories against participants from over 70 countries. Often considered the "Olympics of Skilling", this international skilling competition is expected to attract over 2.5 lakh participants and will take place from September 10-15. It will include more than 1,400 competitors and 1,300 experts. The WorldSkills Competition is a platform that celebrates excellence in a wide range of skills, from construction and manufacturing to information technology and creative arts.

The 60-member India team, with 20 per cent women, is a breakthrough in this edition as they will compete in traditionany maie-dominated fields like welding plumbing, and heating. They have received rigorous training supported by leading corporations in the manufacturing sector and expertise from industry leaders and institutions across the country. Unfortunately, the same approach is missing in the female-dominated (67%) beauty and wellness sector, as its skills potential still needs to be appropriately recognised in the current contingent in the WorldSkills Competition.

It would be a significant step forward if the National Skill Development Corporation (NSDC) and CSR funds could rigorously support these skills also in the India Skills competition, the country's most important competition aiming to demonstrate the highest skilling standards, offers a platform for young people to showcase their talent in various skills.

financial constraints do not hinder access to skill development. Models for financial aid, scholarships, and low-interest loans must be explored to support individu-als in pursuing skilling programs, particularly in the beauty and wellness sector, which plays a significant role in shaping India's future. The regulatory framework for skill development needs refinement to adapt to changing industry needs and technological advancements.

Streamlining and simplifying the accreditation and certification processes are areas that require attention. However, the true power lies in collaboration.

The involvement of academia, industry, and training providers TRAINING is crucial to achieving India's skilling objectives. Together, we can significantly impact the future of skill development. To make India a global skill capital, we must focus on eleven major paradigms and enablers: aspiration and advocacy, capacity, quality, synergy, mobilisation and engagement, and international partner-

Each stakeholder has a unique role to play in this collaborative effort. Together, we can shape a skilled workforce at a global level that meets the world's evolving MARK needs and could be a game-changer for India. Currently, India's performance in the beauty and wellness sector in global skill competitions is not at par with that of other countries.

There is a need to provide more exposure and high-standard training for our boys and girls in global skill competitions so that WorldSkills Competition 2022,

Miss Universe have created a differentiator, diluting earlier misconceptions about the fashion industry and fueling a unique recognition. Similarly, the beauty and wellness sector has unlimited potential and can showcase skilled talent globally. However, our approach towards honing the skills of our beauty and wellness skilled individuals needs focused improvement so that they can leave their indelible mark in international competi-

WorldSkills Competition hosts global championships of skills every two years, attracting young people worldwide to compete and win medals in their chosen skill. Competitions span various industries, from joinery floristry, hairdressing to electronics, auto-body repair to bakery, beauty and wellness, and more. Competitors are selected from skills competitions held in WorldSkills member countries and regions, representing the best of their peers. The increased visibility of skilled professional education is one of the legacies of WorldSkills competitions, serving as a social and economic transformation tool.

At the global level, one key deterrent to India's dominance in global skill competitions is the need for a more international approach to our various skill sets. This crucial aspect needs immediate attention and action, as it could significantly enhance India's standing in the global skill development arena.In the they can leave their mark. contests such as Miss World or received only 13 medallions for appreciation and was positioned 11th, while China was top-ranked with 11 gold, eight silver, and nine bronze medals.

Although India has never won any gold medals, young professionals have immense potential to excel in various skill sets and win medals in global competitions, fostering international exposure and instilling optimism about India's future in skill development.Need to revisit strategy: An enabling atmosphere has to be created in the training institutes, where there is an uninterrupted exchange of information and best practices regarding industry and professional education.

New ideas and processes inspire school-aged youth to dedicate themselves to technical and cre ative careers to build a better future. If our skilled participants are not winning medals in the 'Olympics of Skills,' it's a clear sign that we must revisit our strat-

egy.
We must explore the potential of specific skill sets to excel, as the standardised competition environment guarantees that participants from across the globe compete on a level playing field. This reiteration of the need for continuous improvement and adaptation should make the audience feel the importance of these aspects in skill development.

# The silent crisis: Rising suicide cases demand urgent attention

# As mental health continues to be overshadowed by the pursuit of success, it is crucial to provide support to those who need it most

¬he rising number of suicides in India, especially among young people and businessmen, is an alarming and heart-wrenching issue that demands serious attention. News about students and entrepreneurs ending their lives after facing failure or distress has become all too frequent. It is high time that society, including teachers, psychiatrists, and responsible citizens, reflects on why these individuals are so prone to taking such extreme measures in moments of despair.

In recent years, the suicide epidemic has gained prominence, particularly among students preparing for competitive exams. The pressure to succeed, exacerbated by societal expectations and the fear of failure, has devastating conse-

of academic expectations, many crumble. According to data presented in identify solutions to this crisis.

the Lok Sabha, over 35,000 students in India committed suicide between 2019 and 2021. In 2019, the number of student suicides stood at 10,335, which increased to 12,526 in 2020 and further to 13,089 in 2021. These figures paint a grim picture of the pressures that students face. The constant comparison to peers, the relentless competition, and the desire to meet the high expectations of parents, teachers, and society often leave young individuals feeling trapped, hopeless, and unable to cope with failure. Former president of the Indian Medical Association, Dr. Vinay Aggarwal, emphasizes that merely expressing concern over the rising number of sui-

cides is insufficient. He argues

that there is an urgent need to

On World Suicide Prevention Day, which falls on September 10th, a seminar will be held in New Delhi to discuss the causes behind youth, businessman, and other suicides. The event will bring together psychiatrists, journalists, and social workers who will share their experiences and insights. Following this, strategies will be developed to curb the rising suicide rates.

In the realm of student suicides, efforts are being made by some coaching centers to ease the pressure on students. Counseling services have been introduced, and parents are being engaged in the process to ensure students' well-being. These initiatives aim to reduce the intense stress associated with high-stakes examinations. However, more compre-

at both institutional and societal levels to alleviate the crushing burden placed on students.

The National Crime Records Bureau (NCRB) reports that in 2020, a student committed suicide every 42 minutes. This statistic is both shocking and indicative of the mental health crisis that young people are facing. It underscores the need for parents, teachers, and society to create an environment of success.

that allows students to pursue their academic goals without undue pressure. Social worker Brother Solomon George of the Delhi Brotherhood Society (DBS) echoes this sentiment. He stresses that students should not be subjected to unnecessary comparisons or interrogations about their family background, income, or caste. Such actions, often unwittingly, can weaken a child's self-esteem and lead to despair. George advocates for a holistic approach to education that nurtures the child's mental health alongside academic success. He also emphasizes that children should have the freedom to choose careers that align with their interests and abilities, rather than being forced into predefined molds

The suicide epidemic is not limited to students. Businessmen, too, have been increasingly taking their lives due to financial losses.

The NCRB also reveals that in 2020, during the peak of the Covid-19 pandemic, 11,716 businessmen in India committed suicide. This marked a 29% increase from 2019 when 9,052 business-related suicides were recorded. The economic turmoil brought on by the pandemic dealt a severe blow to businesses, particularly small and medium-sized enterprises (SMEs). These enterprises, already vulnerable to financial shocks, were further burdened by debt and losses. Karnataka recorded the highest number of suicides by businessmen in 2020, with 1,772 deaths—a staggering 103% increase from

the previous year. Maharashtra and Tamil Nadu also reported significant increases in suicides by businessmen, with 1,610 and 1,447 cases, respectively. The plight of India's business community, especially SMEs, is often overlooked in discussions about mental health. The issue of suicide among students, businessmen, and others cannot be ignored any It is imperative that both the

government and society at arge take concerted action to address the mental health challenges facing these vulnerable groups. Preventive measures, including counseling, mental health awareness, and creating supportive environments, must be prioritised.

Ukrainian troops are up against Russia's larger and better-equipped army. The two sides

are especially contesting parts of eastern Ukraine's Donetsk

region, fighting over towns

and villages that are bombed-

out wrecks, while Ukraine last

month launched a bold incur-

sion into Russia's Kursk border

region. In Moscow on Monday

night, drone debris fell on a

private house on the outskirts

of the city, but no one was hurt,

Mayor Sergei Sobyanin said. He

counted over a dozen drones

heading toward Moscow that

were shot down by air defences

as they were approaching the

city.Overall, Russia's Defence

Ministry said it "intercepted

and destroyed" 144 Ukrainian

drones over nine Russian

# **US** accuses Iran of sending ballistic missiles to Russia

The United States formally accused Iran on Tuesday of supplying shortrange ballistic missiles to Russia for its war in Ukraine and will take measures to punish those involved. US Secretary of State Antony Blinken, speaking alongside British Foreign Secretary David Lammy during a visit to London, said that sanctions would be announced later Tuesday.

"Russia has now received shipments of these ballistic missiles and will likely use them within weeks in Ukraine, against Ukrainians, Blinken said. "The supply of Iranian missiles enables Russia to use more of its arsenal for targets that are further from the front line." His comments came as he and Lammy prepare to make a joint visit to Ukraine on Wednesday and as the Kremlin tries to repel

Ukraine's surprise offensive that has claimed hundreds of miles of territory in Russia's Kursk region.

President Ukrainian Volodymyr Zelenskyy also has ramped up pressure on the US and other allies to allow his country to use Western-supplied missiles to strike deep inside Russia and hit sites from which Moscow launches aerial attacks.

Lammy called the Iranian missile transfers to Russia "a troubling pattern that we're seeing. It is definitely a significant escalation."

Iran has denied providing Russia with weapons for its war in Ukraine.

"Iran considers the provision of military assistance to the parties engaged in the conflict — which leads to increased human casualties, destruction of infrastructure, and a distancing from ceasefire negotiations — to be inhumane," according to a recent statement from Iran's

Nations. "Thus, not only does Iran abstain from engaging in such actions itself, but it also calls upon other countries to cease the supply of weapons to the sides involved in the conflict.

Over 140 Ukrainian drones targeted multiple Russian

regions overnight, including Moscow and surrounding

areas, killing at least one per-

son, officials said Tuesday, in

one of the biggest drone attacks

on Russian soil in the 2 1/2-

vear war. A woman died and

three people were injured in the

town of Ramenskoye, just out-

side Moscow, where drones

hit two multistory residential

buildings and started fires,

Moscow region Gov. Andrei

Vorobyov said. Five residential

buildings were evacuated due to falling drone debris,

Vorobyov said. The attack

also prompted the authorities

to temporarily shut down three

airports just outside Moscow

— Vnukovo, Domodedovo and

Zhukovsky. A total of 48 flights

were diverted to other air-

ports, according to Russia's

civil aviation authority,

It was the second massive

Ukrainian drone attack on

Russia this month. On

September 1, the Russian mil-

itary said it intercepted 158

Ukrainian drones over more

than a dozen Russian regions in

what Russian media described

as the biggest Ukrainian drone

barrage since the start of the

war. Russia's Investigative

'This is a scourge. We know

The Australian government on Tuesday promised to legislate this year to enforce a minimum age for children to access social media, but it has vet to announce how ages will be verified.Prime Minister Anthony Albanese said the government would soon trial age verification technology with a view to banning children from opening social media accounts. The line would be drawn between the ages of 14 and 16.

Several countries and US states are attempting to legislate to spare children harm from social media, including bully-

The Australian move comes as parents increasing call for their children to be protected online and with the opposition party promising a social media ban for children under 16 if it wins elections due by May next year.

Benchmark indices Sensex and Nifty ended higher on Tuesday, marking their second straight day of gains following a rebound in the US markets and fresh foreign fund inflows. The 30-share BSE Sensex climbed 361.75 points or 0.44 per cent to settle at 81,921.29 driven by gains in IT, telecom and select banking shares. During the day, it jumped 637.01 points or 0.78

per cent to 82,196.55. The NSE Nifty surged 104.70 points or 0.42 per cent to 25,041.10.

Among the 30 Sensex firms, NTPC, HCL Technologies, Bharti Airtel, Tech Mahindra, Power Grid, Axis Bank, Tata Consultancy Services and Adani Ports were the biggest gainers.

Bajaj Finserv, Bajaj Finance, Hindustan Unilever, Mahindra & Mahindra, Tata Motors and State Bank of India were among the laggards.

In Asian markets, Shanghai and Hong Kong settled higher while Seoul and

Tokyo ended lower. European markets were trading on a mixed note. The US markets ended significantly higher on Monday. Foreign Institutional Investors (FIIs)

bought equities worth Rs 1,176.55 crore on Monday, according to exchange data.

Domestic Institutional Investors (DIIs) also bought equities worth Rs 1,757.02 crore. Global oil benchmark Brent crude declined 1.39 per cent to USD 70.84 a barrel.

"With an overnight rebound on Wall Street, strong net buying from both FIIs and DIIs, and sluggish oil prices, bullish traders are expected to pursue bargains," Prashanth Tapse, Senior VP (Research), Mehta Equities Ltd, said. The BSE benchmark Sensex rebounded 375.61 points or 0.46 per cent to settle at 81,559.54 on Monday.

The NSE Nifty went up by 84.25 points or 0.34 per cent to finish at 24,936.40 after three days of fall.

# Rupee falls two paise against US\$

Authorized Officer - Axis Bank LTD.

PTI ■ NEW DELHI

The rupee traded in a narrow range on Tuesday and depreciated 2 paise to close at 83.97 (provisional) against the American currency, weighed down by the strengthening of the American currency in the overseas market.

Forex traders said the US dollar recovered amid mixed nonfarm payrolls data. The slight recovery in crude oil prices also weighed on the rupee. However, a surge in the domestic markets cushioned the downside.

At the interbank foreign exchange market, the local unit opened at 83.95 against the American currency and finally settled at 83.97 (provisional) against the US dollar, down 2 paise from its previous

close. On Monday, the rupee traded in a narrow range and closed flat at 83.95 against the American currency.

# LED BY YOUNG STRIKERS, INDIA AIM TO MAINTAIN WINNING RUN IN ASIAN CHAMPIONS TROPHY

PTI HULUNBUIR (CHINA)

ndia's new-found ability to score field goals will be crucial as the defending champions will look to extend their winning streak when they face Malaysia in the Asian Champions Trophy hockey tournament here on Wednesday.

Field goal conversion was a key concern during India's medal-winning campaign at the Paris Olympics last month, where they netted 15 goals but managed only three from

open play. It even prompted the legendary goalkeeper PR Sreejesh, who retired after the Games, to stress the need for improvement in this area.

"If we are thinking about the next level for the Indian hockey team and want to consistently win Olympic medals, we need to score more field goals because our defence has its limitations,"

Sreejesh had remarked. Coming into the tournament after securing their successive bronze wins at the Olympics, India are looking a more enterprising side, grabbing opportunities up front with a rock solid defence in place.

India started their title defence with a 3-0 win over hosts China before thrashing Japan 5-1 in their next league match on Monday.

Out of the eight goals India have scored, seven have come September 16.

from open play, with young drag-flicker Sanjay converting a penalty corner against Japan.

Young striker Sukhjeet Singh, who was part of the Paris Olympics squad, has been phenomenal, scoring three field goals, while Abhishek and Uttam Singh have added two each from open play.

Going by world status and current form, India are favourites to reclaim the title having won the tournament four times before.

The first two matches witnessed strong performances from the young Indian forwards, which meant star dragflicker and skipper Harmanpreet Singh had to do very little so far.

In contrast, last-edition's runners-up Malaysia are languishing at penultimate position with one loss and a draw. Despite the strong start, the Indians can ill afford to take any side lightly as they begin a new Olympic cycle.

India's new first goalkeeper Krishan Bahadur Pathak, who replaced the talismanic Sreejesh following his retirement after the Paris Games, too had a decent outing so far in the tournament, conceding just one goal.

After the round-robin league among the six teams, the topfour sides will qualify for the semifinals to be played on

# Twin titles for Shubhi Gupta in chess meet

PTI ■ NEW DELHI

India's Shubhi Gupta underlined her prowess as Gupta she clinched the girls U-16 gold and girls U-20 bronze medals in the just-concluded Commonwealth Chess Championships in Kalutara, Sri Lanka.

A Women FIDE Master and the reigning U-19 girls' national champion, Shubhi left a lasting impression with her performance in the U-16 category, securing seven wins and two draws. With an exceptional score of

eight points out of a possible nine, she outclassed her competition, finishing ahead of compatriots Mrittika Mallick (7 points) and Yashvi Jain (6.5 points), who took second and third place respectively.

Shubhi further showed her competitive spirit in the Open category, competing against seasoned Grandmasters, International Masters, and

Women Grandmasters. She scored 4.5 points to finish

in third place in the U-20 girls' division, securing her a bronze medal.

Reflecting on her success, Shubhi said: "It was a fantastic experience, playing against some of the top international players. I am happy that I could perform consistently in both U-16 and the Open

category.
"Winning the Commonwealth U-12 title and the World Cadet Championship were important milestones in my journey, and this latest success has boosted my confidence further." Shubhi won a prize purse of Rs

1 lakh.

The young talent from Ghaziabad was first introduced to chess by her father and has consistently delivered outstanding performances on the national and international platforms.

She previously won the U-12 gold at the Commonwealth Youth Chess Championship and claimed the World Cadet Championship title in the same age category two years

# **NO PLAY ON 2ND DAY AS DDCA SENDS COVERS**

traditional tarpaulin to protect outfield, electric fans to dry wet patches, loaning ground cover from one state unit and super sopper from the other while deploying untrained ground staff, the Greater Noida Authority encountered colossal failure in not being able to get second day's play underway in the one off Test between Afghanistan and New Zealand. For the second successive day, not a single ball could be bowled at the Shaheed Vijay Singh Pathik Sports complex here putting the venue under scanner and making it an international embarrassment.

The game, the first between two nations, was scheduled to begin on Monday but no play was possible as the umpires cited players safety" as a concern. While there was no rain throughout the day, there was a downpour for about an hour on Monday evening, affecting the start of play on Tuesday, which was scheduled to

commence half an hour earlier than the original start time of 10 am.

While the skies remained clear on Tuesday, the field couldn't even be readied for a curtailed day's play despite best efforts.

The mid-on and midwicket areas remained a cause of concern as the groundsmen were bringing in dry sections of grass from the practice area to "transplant" it to the mid

wicket area.
Additionally, three table fans were used to dry patches of grass on the offside as the groundsmen continued to work all day.

Officials from the Greater Noida Authority, under which the stadium falls, were also in attendance, supervising the

Umpires conducted three inspections before calling off play on the second day.

According to the stadium officials, there are five super soppers -- two automatic and three manual. However, all throughout only two have been used, that too sparingly. If sources are to be believed, the Greater Noida Authority

had requested Uttar Pradesh Cricket Association (UPCA) for a couple of super soppers and they send it from their Meerut Stadium for logistical

Similarly during day time, traditional marriage shamiyana (tent) was used to cover the outfield and in the evening when heavy rains started, they used tarpaulin as DDCA authorities were rushing their outfield cover from Kotla.

If this wasn't enough, the Greater Noida Authority didn't have enough trained groundstaff and apparently used their untrained labour for the work.

While the pitch area remained pristine, the outfield has been the issue on both days.

The BCCI had given the Afghanistan Cricket Board a few options including Kanpur, Bengaluru and Greater Noida. However, the ACB opted for Greater Noida for logistical reasons.

'The venue has always been Afghanistan's home venue. If we talk about back from 2016, we have been playing games here," ACB International cricket manager Menhaj Raaz said.

The area is receiving incessant rainfall for the past two weeks,

which the ACB claim has played spoilsport. 'It is because of the rain. Yesterday also, it rained. We had a three-day game here with one of the local teams

which went well. We didn't face any issue. But when the rain started and all of this happened." Afghanistan Cricket Board has hosted 11 white-ball international games here

before. The other Indian ground where they have hosted games is Dehradun. We had conducted a recce four to six months back, and

even the visiting team had done their recce. So there was no issue Raaz added that ACB considered moving the match to a different venue but the monsoon made it impossible.

"We tried working on a solution to shift the game and they said that because of the same rain, you will not be able to, you know, actually prepare the venue for you in the coming next 24 hours.

# F1 car design great Adrian Newey to join Aston Martin after leaving Red Bull

**AP** ■ SILVERSTONE (ENGLAND)

Formula 1's most influential designer. Adrian designer, Adrian Newey, is joining Aston Martin in March 2025 after leaving Red Bull, ending months of speculation over a backroom figure who seemed more in-demand than any driver.

Newey has spent nearly two decades with Red Bull and is widely credited with putting the team on its path to dominance in F1. Now he's joining a team that has big ambitions to challenge for the title and the backing of billionaire Lawrence Stroll but no race wins yet.

# Keen tussle on cards

as Women's Pro Golf

PTI ■ NEW DELHI

The cream of Indian women's **▲** golf including Hitaashee Bakshi, Sneha Singh, and Tvesa Malik will be back in action as the Hero Women's Pro Golf Tour resumes with the 11th leg at the Delhi Golf Club.

The field is huge with 46 players and the purse is a handsome sum of Rs.14 lakh.

Led by the leader on the Hero Order of Merit, Hitaashee, and last year's No. 1 Sneha Singh, the field includes almost all the stars barring Diksha Dagar, Pranavi Urs and Vani Kapoor who have opted to rest before playing on the Ladies European Tour later this month.

Hitaashee and Sneha will need to contend with proven names like Tvesa, Amandeep Drall, Ridhima Dilawari, Neha Tripathi and Seher Atwal, all of whom have international experience and aspirations of going on to the LET and further. While the Tour resumes after a gap of almost six weeks, the plavers have been playing in international events and some other
