# **WB** Government passes anti-rape Aparajita Bill

## SAUGAR SENGUPTA KOLKATA

n the backdrop of a Statewide agitation for justice for the Kolkata lady doctor who was raped and murdered early this month while on duty turning fast into a movement for "change of the system that harbours rapists and the corrupt," the Mamata Banerjee Government of Bengal on Tuesday got an anti-rape "Aparajita" Bill to bring in amendments to Central laws dealing with such offences.

The Opposition parties, however, called it а diversionary tactics in order to contain the Statewide unrest and assuage peoples' anit-Government feelings. Notwithstanding stringent remarks from the Opposition Chief Minister Bench. Mamata Banerjee asked Opposition leader Suvendu Adhikari to help get the Bill signed by Governor CV Ananda Bose and President Droupadi Murmu. Apart from prescribing life imprisonment until death, the

Bill, christened 'Aparajita Woman and Child Bill (West Bengal Criminal Laws and Amendment) 2024, provides for death penalty for a repeat

offender in cases of rape and for failing to act in an sexual offences that lead to a victim's death or leave her in a

vegetative state. The Bill was passed at a time when citizens including medical staff of Kolkata formed a 17-km long human chain from Patuli in South Kolkata to Ultadanga in the North. The Bill was also passed when a separate detachment of junior doctors and members of the civil society staged a joint rally in front of the Lal Bazar police headquarters demanding the resignation of Police Commissioner Vineet Goyal

# India's Air Defence gets future ready

PIONEER NEWS SERVICE NEW DELH

With a view to sustaining the modernisation drive and operational readiness of the Armed forces, ten proposals worth ₹1,45 lakh crore were given the go-ahead on Tuesday. They include Future Ready Combat Vehicles, Air Defence Fire Control Radars, Dornier-228 aircraft, Next Generation Fast Patrol and Offshere Betrefi Venerals Offshore Patrol Vessels.

Notably, of the total cost of proposals, 99 per cent is from indigenous sources under Buy (Indian) and Buy (Indian-Indigenously Designed Developed and Manufactured) categories, defence ministry said here.

Giving details, officials said Defence Acquisition Council (DAC), under the chairmanship of Defence Minister Rajnath Singh accorded Acceptance of Necessity (AoN) for 10 capital acquisition proposals amounting to ₹1,44,716 crore.

The DAC is the apex body to clear acquisition proposals of the Armed forces. The final nod is given by Cabinet Committee on Security (CCS).

**STAFF REPORTER** NEW DELHI/FARIDABAD

A 19-year-old boy, studying in Class 12 in Haryana's Faridabad, was allegedly chased in a car and shot dead by a group of five cow vigilantes who mistook him for a cattle smuggler.

The victim was identified as Aryan Mishra. The members of vigilante group have been identified as Anil Kaushik, Varun, Krishna, Adesh, and Saurabh.

A Duster car in which the boy, Aryan, and his friends Harshit and Shanky as well as two other women seated in the back of the vehicle, was chased by the members of cow vigilante group on the night of August 23 for about 30 kilometres near Haryana's Gadhpuri on the Delhi-Agra National Highway.

During interrogation, the accused revealed that on the night of August 23, they had received information that some suspected cattle smugglers driving two SUVs were doing recce in the city. They mistook the victim and his friends, Shanky and Harshit, for those cattle smugglers and followed their car, a senior police officer said.

nothing has been finalised yet. Sources said two rounds of talks between AAP MP Raghav Chadha and Congress's KC Venugopal have already been held.

The third round of meeting can be held on Wednesday. Sources said the AAP is reported to have demanded 10 seats, while the Congress is willing to give between five and seven only. The Congress is reportedly also willing to give one seat to the Samajwadi Party. The deadline for nominations is October 4 with voting on October 5.

Against the wishes of its State unit, the Congress on Tuesday said it is in talks with the Aam Aadmi Party (AAP) for an alliance in Haryana though nothing has been finalised yet. According to sources, in its Central Election Committee (CEC) meeting on Monday evening, party leader Rahul Gandhi expressed interest in exploring the possibility of alliance with AAP for Assembly elections in Haryana.

Ironically, the State Congress leaders in Haryana have rejected the possibility of any alliance with AAP in the State. Recently, senior

Leader of Opposition in Lok Sabha and Congress MP Rahul Gandhi with party president Mallikarjun Kharge and party MP KC Venugopal during meeting with party secretaries and joint secretaries, in New Delhi, on Tuesday

Congress leader in Haryana, Kumari Selja ruled out the possibility of an alliance with AAP for the Assembly polls, saying her party is strong in the State and will fight the elections on its own.

Asked about the possibility of an alliance with AAP, AICC general secretary in-charge of Haryana Deepak Babaria said, "We are in talks with the AAP, but nothing has been finalised yet. As soon as something concrete emerges, we will inform you." Responding to another question, Babaria said, We have to defeat the BJP, and therefore are against allowing anti-BJP votes to be divided."

Meanwhile, AAP leader and Rajya Sabha MP Sanjay Singh has evening.

welcomed reports claiming Rahul has shown interest in an alliance with Arvind Kejriwal-led party in poll-bound Harvana.

Polling for 90 Assembly seats in Haryana will be held on October 5 and counting of votes will be undertaken on October 8.

The Congress's Central Election Committee had met on Monday and cleared the names of 34 candidates for the Assembly polls in Haryana. "Today, a meeting was held for Haryana by the CEC. A list of 49 names was presented by the State's screening committee, out of which 34 have been approved and decision on 15 is pending," Babaria had said last

# GUEST COLUMN / DR NIRAJ KUMAR SINGH AND Ms MONA **BATTERED HIMALAYAS: Climatic Catastrophe In Uttarakhand; Predicaments And Possibilities**

Uttarakhand has faced numerous climatic disasters in recent years. Heavy rainfalls, cloudbursts, landslides, and other ecological crises have dotted the length and breadth of the state. While these events are largely due to geographical, geological, and climatic factors, human activities have also significantly contributed in altering the landscape of the region. The region, part of the seismically active Himalayas, is characterized by steep slopes and young, fragile mountains, making it particularly prone to landslides, especially during the monsoon season. This vulnerability is worsened by extensive deforestation, which began during British rule for various purposes, as well as road and dam construction, other infrastructure projects, and unplanned rapid urbanization.

Himalayas has always been prone to erosion because the rocks are loosely bound and are easily destabilized by both natural and human-induced disturbances. Steep slopes further increase the likelihood of landslides. Uttarakhand's hillv regions are particularly susceptible to concentrated rainfall during the monsoon season, leading to cloudbursts. Orographic lifting, where moist air ascends over mountains, leads to condensation and precipitation, causing heavy rainfall on the windward side of the mountains, which can trigger landslides. Additionally, climate change has resulted in changing weather patterns, leading to extreme and unpredictable rainfall, which can trigger cloudbursts. Global warming has caused glaciers to melt, forming

glacial lakes that can overflow or The fragile geology of the burst due to additional rainfall, resulting in massive floods and landslides downstream. Intense human activity has

also taken a toll on the region, leading to deforestation and land use changes. Deforestation for agriculture, infrastructure development, and hydropower projects destabilizes slopes, as forests act as natural barriers that hold the soil together. Unplanned construction of roads and other infrastructure without proper environmental assessments further increases the risk of landslides. Over time, major hydropower projects and dams have been built in the region, increasing water pressure on mountain slopes and making them prone to collapse. During heavy rainfall, water from these reservoirs is released in huge quantity, contributing to flash

floods and landslides. Development projects often involve modifying river channels, impacting natural sediment flow and leading to sediment build-up in some areas and increased erosion in others, both of which can trigger landslides.

Population growth further exacerbates these issues, increasing pressure on the land and leading to more deforestation as settlements expand into geologically unstable areas. The influx of tourists, especially during pilgrimage season, also contributes to the problem. To accommodate large numbers of tourists, extensive construction of roads, hotels, and other amenities takes place, putting immense pressure on the local environment. Two major recent projects

highlight the challenges of bal-

ancing development and environmental conservation. The Char Dham Road Project, aimed at connecting religious shrines in the hills, is a complex and contentious initiative that underscores the need for sustainable and carefully planned infrastructure development in ecologically sensitive areas. While the project promises to improve connectivity and economic opportunities, it has also sparked controversies over its environmental impact, legal challenges, and social implications. Similarly, Joshimath has been at the centre of ecological concerns due to projects aimed at improving infrastructure and boosting tourism. These projects have led to significant ecological imbalances, such as land subsidence and environmental degrada-

tion. Recent disasters illustrate

development. The Kedarnath floods of 2013, caused by an unprecedented cloudburst that breached Chorabari Lake, trig-gered massive floods and landslides, resulting in significant loss of life and property. The disaster is a stark reminder of the consequences of unplanned construction, deforestation, and inadequate disaster preparedness. The region lacked the capacity to accommodate such a large number of pilgrims who visit Kedarnath, highlighting the need for sustainable planning and better disaster preparedness. In Joshimath, continued development has led to widespread land subsidence, with parts of the town sinking. This phenomenon is attributed to geological instability, as well as the construction of a hydropower project and the

the dangers of unsustainable Char Dham Road Project. The Rishiganga Glacier Burst of 2021 and recurrent forest fires in the region further highlight the growing ecological instability.

Despite severe ecological crises that have gripped the region in recent years, construction and development works continue unabated. It is crucial for governments to be more sensitive to ecological impacts and adopt sustainable practices when planning major infrastructure projects, particularly in ecologically sensitive areas. Comprehensive environmental impact assessments should be conducted to protect the environment, including flora, fauna, water resources, and local communities. Wider public consultation, especially with local communities, is also essential. Eco-friendly construction techniques should be adopted to

minimize land disturbance, and sustainable building materials and techniques should be used to reduce the environmental footprint of construction.

In addition to sustained conservation activities such as afforestation and reforestation, sustainable ecological practices, disaster-resilient infrastructure. sustainable urban planning, renewable energy integration, biodiversity conservation plans, waste management, and pollution control are all necessary. A balance must be struck between our infrastructural and environmental needs. Ultimately, we have a responsibility to pass on a secure and liveable future to future generations.

# Intense lobbying, rebel issue behind AAP MLA Slams Own Govt, Accuses delay in B.IP. Cond list of candidates Officials of Ignoring Minister's Orders delay in BJP, Cong list of candidates

## MANOJ KUMAR 📕 CHANDIGARH

s political parties gear up to Afinalise candidates for 90 Assembly Constituencies in Haryana, aspiring leaders have started campaigning to muster support within the ranks. During election season, it is common to see leaders quitting one party to join the other. With both the main parties -Bharatiya Janata Party (BJP) and Congress yet to name their candidates, senior leaders fear turncoats may ruin their chances of getting the nomination. In fact, the entry of the turncoats seems to have delayed the first list of candidates of both parties, which have already held multiple meetings to finalise ticket allo-

cation. The nomination process for the upcoming Haryana Assembly elections will begin from September 5, with candidates allowed to submit their nomination papers until September 12. According to sources, both the parties BJP and Congress are likely to announce their first list of candidates by Wednesday, a day before the start of nomination.

Indian National Lok Dal (INLD), which has forged an alliance with Bahujan Samaj Party (BSP), has announced its first list of candidates on seven seats recently. Senior Jannavak Janata Party (JJP) leader Dushvant Chautala said that he will file his nomination from Uchana Assembly Constituency on September 5 (first day of the nomination). JJP leadership is working on shortlisting candidates and will soon be released, he added. Moreover, many leaders of

JJP have recently joined the BJP in the hope of getting a ticket. A BJP ticket aspirant said that he feared that the entry of "outsiders" on the eve of the polls would adversely affect the

A BJP leader said, "Our karyakartas are always electionready, motivated by a clear purpose and commitment to the party's principles. For every BJP Karyakarta, the candidate is always decided—there is no ambiguity. The focus is always on making the Lotus win, as it symbolises the collective effort and unwavering commitment of the BJP family to serve the people

Talking to reporters, BJP Haryana State president Mohan Lal Badoli made it clear that the party's focus is on merit and nput from grassroots workers. "This approach underscores the

work and dedication, rather than favouring candidates based on family legacy. Our party firmly believes that those who have earned the respect and trust of grassroots workers are best positioned to represent the people and drive meaningful change," Badoli added. Badoli further said that

there is a long list of candidates and the process to shortlist candidates for Assembly elections in the State is taking time as suggestions from every level of the party are being taken, after which the central leadership will take a final decision.

that the party will prioritise candidates with strong community ties and a proven record of serving the public. The aim is to choose leaders committed to the welfare of the people, able to address complex constituency challenges.

criteria for candidate selection are straightforward: "The ticket will be awarded to dedicated party workers who have bravely faced the anti-people policies of the BJP government over the past 10 years and who have strengthened the party at every booth during the Lok Sabha elections. The party has also conducted internal surveys and the names of those who have proven their commitment will be given priority. "As for the new leaders who have

recently joined the party, the Congress will be cautious in considering their candidacy," he Sources in Congress said added Talking to reporters, AICC's Haryana in-charge Depak Babaria said that a final list would be released together by Wednesday. The speculation surrounding Vinesh Phogat would also be laid to rest soon. A list of 49 names

was presented by the State's screening committee, out of which 34 have been approved and 15 are pending, Babaria further said,

Names of 22 (sitting) MLAs have also been cleared and hopefully the final list will be announced on Wednesday. The criteria for candidatures was based on the winnability of leaders whose names came up in surveys and who had not lost elections more than two times? An Aam Aadmi Partv

leader said that clean image, alignment with party ideology and "winnability" to be the key factors for the party in selecting the party candidates for Haryana polls.

Political Observer opines that the rebellion is not limited to any one party; all those who are denied tickets in their party are in rebellion. BJP and Congress are navigating ticket distribution to avoid a "huge rebel problem".

He further said that in politics, party loyalty is often considered a fundamental principle for elected officials. However, there are instances when political leaders choose to switch parties, leaving their original political affiliation behind. Such occurrences, commonly known as partyswitching or party-rebelling, can have significant implications for both the leaders themselves and the voters who elected them. In recent years, there have been notable examples of political leaders switching parties, rebelling against their own party's established norms and ideologies. These instances can happen at any level. The reasons for party-switching can vary, including differences in policy positions, personal beliefs, or dissatisfaction with their current party's leadership. It is crucial for political parties to address internal dissent and ensure that their leaders feel heard and valued. Failure to do so can result in significant losses for the party, both in terms of leadership and voter support, Observer added.

## MONIKA MALIK 📕 CHANDIGARH

AP MLA from Kunwar AVijay Pratap Singh's stinging critique of his own party's government has sent shockwaves through the ruling party, leaving the Aam Aadmi Party (AAP) Government in a tight spot on Tuesday. A cop-turnedlegislator, representing Amritsar North, has boldly accused the city's administra-tive officials of blatantly ignoring the directives of their own Minister, suggesting a deeprooted inefficiency within the local governance system.

During a discussion on the state of basic civic services in Amritsar, Kunwar Vijay highlighted the dire condition of essential amenities like sewage management and water supply. According to him, the lack of attention to these critical services has left residents

frustrated and in a constant state of distress. Despite repeatcivic matters and ensuring that public grievances are addressed ed assurances from the Local Bodies Minister Balkar Singh, the situation has shown little to no improvement.

Kunwar Vijay's critique didn't stop at local officials; he also hinted at a broader issue within the AAP Government, suggesting that the Ministers themselves are not being taken seriously by their departments. He emphasized the need for Ministers' instructions to be followed without question, to ensure that governance remains effective and responsive to the

needs of the people. In response to Kunwar Vijay's remarks, Local Bodies Minister Balkar Singh attempted to downplay the situation, asserting that officials do indeed follow the directives given to them. However, he assured that within two weeks, he would visit Amritsar personally to address and resolve the pressing issues that have been raised.

Kunwar Vijay's statements have cast a harsh spotlight on the internal workings of the AAP Government in Punjab, raising concerns about the efficacy of its leadership and the commitment of its officials to serve the public. Notably, Kunwar Vijay, who led the probing team in 2015 sacrilege and related firing incidents, is already airing his grievances in open against his own party government's inaction in the matter.

Lawrence Bishnoi's controversial jail interview took center stage in the Punjab Vidhan Sabha on Tuesday as the Leader of Opposition and senior Congress

me matter called for the formation of a committee similar to a Joint Parliamentary Committee (JPC) to probe the involvement of police officers in facilitating the interview, which has raised serious questions about the integrity of the state's police force.

Raising the matter during the zero-hour on the second day of the monsoon session, Bajwa expressed deep concern over the impact this case has on Punjab's reputation. He highlighted the gravity of the situation by recalling the notorious involvement of the Bishnoi gang in the murder of popular Punjabi singer Sidhu Moosewala. "The case has not only tarnished the state's image but has also shaken public confidence in the administration's ability to ensure justice,"

Bajwa highlighted that the infamous Bishnoi gang continues to wield influence, with recent reports of shootings targeting singers even abroad. The controversy reached new heights when a national television channel aired a one-hour interview with Bishnoi, allegedly conducted from inside a Punjab jail. This broadcast has sparked outrage and demands for accountability, as it suggested possible collusion between police officials and the gangster.

He pointed out that when the interview first surfaced, the State Government initially denied that it was conducted in Punjab. However, a report submitted to the Punjab and Haryana High Court by the state's Special DGP

"The responsibility for this gross misconduct must be fixed, and those involved should face the full force of the law," Bajwa asserted. He further suggested that Special DGP Prabodh Kumar, who uncovered the involvement of police officials in facilitating the interview, should be tasked with leading the investigation. "This is a matter that goes beyond individual misconduct; it speaks to the very credibility of our law enforcement and judicial processes," Bajwa added.

Taking a direct swipe at Punjab Chief Minister Bhagwant Mann, who also holds the Home portfolio, Bajwa accused him of failing to take effective action against those responsible. "The Chief Minister has not only been ineffective in addressing this issue but has also misled the public about the details of the case, including regarding the inter-view's location," Bajwa alleged.

# Gokul Setia, who lost narrowly to Gopal Kanda in 2019, joins Congress

Chandigarh: Gokul Setia, grandson of five-time MLA and veteran leader Lacchman Dass Arora, joined the Congress party in the presence of former Chief Minister and Congress legislative party leader Bhupinder Singh Hooda, party affairs incharge of Haryana Deepak Babaria, Haryana Congress president Udai Bhan and screening committee's chairman Ajay Maken on Tuesday. Considered to be a strong contender against Haryana Lokhit Party's Gopal Kanda in the Sirsa assembly constituency, Setia had contested as an Independent candidate in the 2019 Assembly polls. Although he had lost to Kanda, the margin was as low as 602 votes.

# Punjab Assembly Passes Landmark Bill: No e uired or Plots **00** s yards p to

## PNS CHANDIGARH

 $\mathbf{P}_{\text{Tuesday}}^{\text{unjab Vidhan Sabha on}}$ passed 'The Punjab Apartment and Property Regulation (Amendment) Bill, 2024' — a landmark piece of legislation designed to overhaul property registration procedures and curb the proliferation of illegal colonies. The new Bill removes the requirement for a 'No Objection Certificate' (NOC) for registering land deeds, providing significant relief to property owners and streamlining the process for those with plots up to 500 square yards. The bill aimed at addressing the longstanding issues associated with unauthorized developments and offer a more straightforward approach for legalizing property ownership.

Chief Minister Bhagwant Mann, tabling the Bill in the House on the second day of the monsoon session, emphasized its importance for ordinary citizens. Mann highlighted that the amendment would simplify the registration process for many landowners who previ-ously struggled with the bureaucratic hurdles imposed by NOC requirements.

Explaining further, he said that the Bill would allow property owners with agreements or power of attorney documents dated up to July 31, 2024, to register their land without needing a NOC. This change is intended to reduce the complications associated with property registration and discourage

the creation of new illegal ment is committed to genuine reform. He sharply rebuked colonies.

"This bill represents a historic shift towards better governance in property management," said Mann, while highlighting the new provisions that mandate severe penalties for unauthorized colonizers, including imprisonment of up to 10 years and fines ranging from Rs 25 lakhs to Rs five crores.

Mann also used the opporas a corrective force, arguing tunity to launch a verbal assault on the opposition leaders, that his administration's deciaccusing them of failing to sion was a necessary step to address the issue of illegal colonies in their tenures. He rectify past mistakes. He patted his own back for introducing a novel measure involving claimed that previous governments had repeatedly regularcolour-coded stamp papers, ized unauthorized colonies designed to help investors despite promising not to, thus secure necessary permissions and ensure that land is used for perpetuating the problem.

The legislation is seen as a direct response to the rampant illegal colonization under previous administrations. Mann, positioning himself as a seasoned leader, argued that unlike his predecessors, his governilar problems do not arise in the future. Ayali's remarks highlighted the need for transparency and effective policy measures to tackle the root causes of unauthorized development. Mohinder Bhagat, AAP MLA from Jalandhar West, supported the bill, describing it as a significant step forward for

Punjab. He praised the bill for its potential to eliminate the colonies, thereby exploiting and misleading the public. "Apologies may be offered for cumbersome NOC requirement and prevent the creation of new illegal colonies. Bhagat pointed out that similar regulations in the neighbouring states had not been as effective, making the Punjab amendment a noteworthy advancement. He also stressed the importance of the bill in protecting citizens from the issues associated with unauthorized property developments.

However, Independent MLA Rana Inder Pratap Singh raised concerns about the financial implications of the bill. He questioned who would bear the costs associated with developing the newly regularized colonies and suggested that the responsibility should lie with the developers rather than local councils, which are already facing financial constraints

## East War Awards Bill Passed

The House earlier passed 'The East War Awards (Amendment) Bill, 2024'. Presenting the Bill, Defence Services Welfare Minister Chetan Singh Jouramajra said that the Punjab Government has decided to amend the 1948 Act to enhancing the financial assistance from Rs 10,000 to Rs 20,000 per annum. The Minister pointed that the Punjab Government provides War Jagir as financial assistance to those parents whose only child or two to three children had served in the Indian Army during the Second World War, National Emergency 1962 and 1971 under 'The East Punjab War Awards Act 1948'. "Presently, 83 beneficiaries are availing benefits under this

policy...Punjab has announced that financial assistance to those parents whose only child or two to three children had served in the Indian Army during the Second World War, National Emergency 1962 and 1971 under 'The East Punjab War Awards Act 1948' will be

increased from Rs 10,000 to Rs 20,000 per annum," he added. Water Contamination in

# Majha Region

Independent MLA Rana Inder Pratap Singh highlight-ed recent findings from IIT Mandi, which revealed deteriorating water quality in Punjab. A report from Pondicherry University further corroborated this, indicating high levels of

across Amritsar, Tarn Taran, and Gurdaspur in the Maiha region. He emphasized the need for an in-depth investigation to determine the cause, whether geological or otherwise, and to assess its impact on human health, livestock, and crops

## Address Farmers' Issues to End Protest in Chd: Bajwa to Govt

Congress leader Pratap Bajwa raised concerns about the farmers' protest in Chandigarh, urging the formation of a cross-party delegation to engage with the farmers and resolve their

issues. He also highlighted an incident where farmer leaders were denied boarding a flight, suggesting it needed to be addressed with the Central Civil Aviation Minister. The Speaker acknowledged the seriousness of the matter.

## National Highway Projects and Flood Risk

The Assembly discussed challenges related to National Highway projects, which have led to water flow disruptions and potential flood risks in Punjab. Issues such as inadequate drainage systems and lack of access roads for farmers were highlighted. The need for these concerns to be addressed in meetings with the National Highway Authority of India was empha sized to prevent future flooding and support farmers.

# A strategic pivot

Amid rising regional tensions, Indo-US defence ties are strengthening, marking a significant strategic shift in South Asia

| ndia has solidified its defence partnership with the United States through two pivotal agreements, signaling a deepening American commitment to South Asia at a time when China's military influence is expanding across the region. The agreements, secured during Indian Defence Minister Rajnath Singh's recent four-day visit to the United States, include a Security of Supply Arrangement (SOSA) and a Memorandum of Agreement on the Assignment of Liaison Officers. These developments underscore a significant shift in the dynamics of Indo-US relations, with both nations moving closer in their defence cooperation. The SOSA, a non-binding bilateral pact, is designed to prioritise support for defence-related goods and services between the two countries. This agreement is particularly crucial in addressing supply chain vulnerabilities that are critical to national security. Under the SOSA, India will receive assurances from Washington's Defence Priorities and Allocations System,

while Indian companies will provide priority support to the United States. India's inclusion in the elite group of 18 SOSA partners, which includes nations like Australia, Canada, and Britain, marks a significant step in defence cooperation.

In effect it means if either of two nations ended up in combat with an adversary, the SOSA could help accelerate the delivery of crucial weapons and materials required for defence, thereby ensuring robust supply chains in times of crisis. India and the United States have already established several key strategic agreements, including the Logistics Exchange Memorandum of Agreement (LEMOA) signed in 2016

and real-time intelligence sharing since 2018 under the Communications Compatibility and Security Agreement (COMCASA). These agreements, alongside the new SOSA, create a framework for expedited deliveries of contracted goods and services, potentially streamlining defence commerce between the two nations. In 2019, the signing of the Industrial Security Annex marked another significant step, allowing the sharing of classified US information with private Indian defence firms-a departure from previous restrictions. The Reciprocal Defence Procurement Agreement could further streamline defence commerce, enabling private companies in both countries to bid on each other's contracts. Indeed, a technologically advanced Indian military aligns with American interests. The recent Indo-US defence agreements mark a significant milestone in the evolving relationship between the two nations. As China's influence continues to grow across South Asia, particularly in Islamabad and the Maldives, these agreements provide a foundation for enhanced collaboration and a shared commitment to regional stability. With these developments, India and the United States are poised to further deepen their defence ties, building a partnership that could play a crucial role in shaping the future of the region.

The recent visit of a bipartisan delegation of U S lawmakers to New Delhi and Dharamshala marks a significant moment in the US diplomacy in the region

Tibet festival started on 3 September at India International Centre New Delhi ■to celebrate its rich Buddhist heritage, culture and identity. The Sikyong (head) of Central Tibet Administration, Penpa Tshering, will preside over various activities to highlight Tibet's geo-strategic, spiritual and cultural importance for India.

His Holiness Dalai Lama at 89, is in a New York hospital for medical treatment but is considered in good health. US Special Coordinator on Tibet, Uzra Jeya met him which elicited "immediate (solemn) protest from China". Foreign Affairs spokesperson Mao Ning said: we don't allow Dalai Lama to engage in political activities in the US". Backchannel talks between the Dalai Lama envoy and China have been going on for an undisclosed period though Beijing does not confirm them. Talks are being pushed by the US House Resolution Resolve Tibet Act July 2024 which calls for restoration of its full autonomy.India needs to add its voice for Tibet's autonomy both internally and externally as part of a broader coalition. India's recognition of full Chinese sovereignty over Tibet was based on Beijing granting and implementing Tibet's autonomy. Instead, China has quashed Tibet's autonomy and trade treaties opening for India to take a more nuanced position.

Two issues require GoI's prompt attention: the Dalai Lama succession; and the border issue including restoration of peace and tranquillity and full disengagement in east Ladakh. The visit of a bipartisan US delegation of lawmakers to Dharamsala and Delhi and being received both by Dalai Lama and Prime Minister Narendra Modi was significant. China baiter Nancy Pelosi had some unpleasant things to say about President Xi Jinping that drew Chinese ire. On the ground, the sinicisation process

By 2011 Tibet Autonomous Region advertised for 2500 police stations with 458 designated for Lhasa alone. By 2016, this grid-style social management of Tibet had recruited thousands of Han Chinese and some Tibetan policemen.

A Chinese Communist Party (CCP) political secretary has always kept a hawk-eye vigil over Tibet which is run by the CCP from Beijing. Internal policing has resulted in fostering a feeling of 'otherness' by the surveillance drive. There are reports that attempts are being made to recruit Tibetans into the PLA includsome forcible intake. The day is not far when some Nepalese might opt to join Chinese into Tibet along with PLA for other than the South neutralization of Tibetan West Theatre Command in

The Chinese Renaming Campaign has resulted in what Forum for Non-Violent Alternatives (FNVA) has called 'Thread of Beads: an analysis of renaming 62 locations in India's Arunachal Pradesh since 2017'. China claims that 90 per cent of Zangnan (Arunachal Pradesh) is illegally occupied by India. Chief Minister Assam, Himanta Biswa Sarma, has suggested renaming 62 locations in Tibet. This is not likely to irk the Chinese. The Chinese renaming drive was done in four phases in 2017, 2021, 2023 and 2024.

the mushrooming of predatory journals, fake research publications, and manipulated citations compromises the integrity of academic research. In the latest NIRF 2024 rankings, serious concerns were raised regarding the dropping ranking of many prestigious national institutions. Many mediocre institutions climbed to a higher level than institutions of national repute. Though the purpose of accreditations and rankings is to improve the quality of each institution through a competitive spirit, one major point of concern is that many institutions climbed the ladder through a single parameter, the publication metrics. The over-emphasis on publication spoils our country's academic and research environment

Even people who don't know how to write a paper properly publish one paper per month. There was a time when a researcher used to publish one or two papers per year. Even at the international level, people have expressed reservations about citation metrics. In a recent issue of Nature (published on non is especially widespread

20th August), a team of researchers led by Yasir Zaki explicitly shows that a citation black market is operating in our society. The citation black market is the unscrupulous act of exchanging citations to enhance research articles' perceived influence unduly. The citation black market functions through the following mechanisms.

1. Citation Cartels: Citation cartels are groups of researchers who agree to quote each other's work a lot, even if it has nothing to do with the current topic. These cartels can change citation metrics in a big way, giving the wrong impression of how important and influential the study is.

# LETTERS TO THE EDITOR

**TIP OF THE ICEBERG** 

Madam — The Justice Hema Committee report was only the tip of the iceberg against the sexual harassment. What we need is the solution and not confrontation anymore to the ongoing unpalatable issue. The time has changed and we are in the midst of gender equality. The world has become thickly competitive and along with freedom comes the package of jealousy, comparing with each other and at the end taking the pressure of enhancing the social status which is at times caused by giving up their own personal liberty and rights. The ongoing sexual harassment is not just there in one particular industry.

It's a rapid fire spreading across industries and globally. Cinema industry is in the eyes of the public because the glamour attached to celebrities is coming to light quickly. Today our culture has changed and values eroded. The Hon'ble Supreme Court permits living together and there are couples united this way. Some relationship breaks lead to mental turmoil by physical assault. The ratio of hate, love changed overnight, ending up in a divorce. All this is happening only because of economic independence of the once a weaker sex. There's no more weaker sex as we can conclude and in many places women are the stronger sex challenges men in many fields.

Where is the actual problem then? The problem starts with the anticipation by comparison to improve upon the social status. Even the luxuries became needs from wants under the current trend. When the background to the issue is such, how can we fix men alone as the reasons for the harassment? It was surprising to observe that a very senior artist after having acted in more than 200 movies has come out with her grievances that can't be taken at face value. One thing is to be noted that when someone is looking for an opportunity they shouldn't try it out as a chance since the very word 'Chance' dilutes the talents and ends up in a com-

## **RAINS WRECK HAVOC IN TELEGU STATES**

Madam — The heavy rains have wreaked havoc in both Telugu states. The way Vijayawada has been inundated leaving lakhs of people got vacated to safe places and scores of people dead is unprecedented. The state governments have geared up

thier relief operations. The centre should come forward with all its might to help out the states in thier most trying times. The seasons in India have been acting extreme with a regularity. The hot summer with abnormal levels of temperatures is now followed by rainy season with heavy down pours. There should be proper preparedness to mitigate the fury of nature. Raising green cover and decreasing carbon print will help in long run.

# **BREAK ON RELIGIOUS BREAK**

Madam — While it may be true that the promise and thereby the merits is taking CM of Assam has not done justice to his

extension of free ration because of the government's failure to conduct the long-due population census. A government cannot function without updating necessary and detailed data on the population of the country every ten years. So, census and caste census should immediately and simultaneously be undertaken. A caste census will not add to the cost of conducting a census. A caste census can be done only by adding a question or two to the questionnair for the census. Caste hatred and caste nepotism are like fractures in our society. After a suspected fracture, a doctor always takes decisions after doing at least an X-ray. Any action on caste reservation must similarly be taken after collecting necessary data by conducting a caste census.

constitutional post on numerous occasions vis- a- vis the Muslims of the state, his move to put a brake on the two-hour break for Friday prayers in the state Assembly can hardly be compared with Hitler's treatment of the Jews. Hitler wanted a total extermination of the Jews and was unapologetic about targeting millions of them.

Has Sarma given a similar call to eliminate Muslims from the state of Assam? All that he has done is to put an end to a practice that allowed Muslims to avail of a two-hour break as a matter of right, in order to fulfil their religious obligations

Imagine the chaos that would ensue if professionals of other denominations were to press for similar breaks in the course of their duties? Is there anything that is more holy and sacred and pleasing to one's Creator than the performance of prescribed duties?

# **GENERATION Z'S FASHION DILEMMA**

Can Gen Z find a sustainable balance between personal style and financial responsibility?

SHAINY SHARMA

ashion has always been a form of self-expression and identity, but for Millennials or Generation Z (Gen Z); Generation Alpha (Gen Alpha) and many more, it has taken on new dimensions. The generation, growing up in the digital age, is deeply influenced by social media, fast fashion and the need for constant reinvention. Moreover, the spending habits of Gen Z on fashion are notable not just for the frequency of purchases but also for the psychological and financial implications. While many in this generation are still students or early in their careers, they tend to spend a substantial portion of their disposable income on clothing and accessories.

The constant bombardment of new trends and must-have items can create a sense of urgency and FOMO, leading to impulsive purchases, driven by the fear of missing out on trends or sales, which is a common behaviour among the current generation. This generation is also more likely to engage in buy now, pay later schemes, which can further lead to debt accumulation if not managed carefully.

The desire to maintain a certain image can result in financial strain, as spending on fashion takes precedence over saving for the future. Algorithms on social media platforms are designed to show users content that aligns with their interests, including fashion. This means that as users scroll, they are often presented with targeted ads and influencer promotions that encourage them to buy more, even if they don't need anything.Social media is a major driver of contemporary fashion, influ-

encing how trends are created, spread and consumed.

While it has democratized fashion, giving individuals more influence and visibility at the same time it has also contributed to the challenges of fast fashion, overconsumption and sustainability issues. Thus, while social media is not solely responsible for fashion, it is undoubtedly one of the most powerful forces shaping the industry today. As a result, fashion has become both a passion and a source of significant expenditure for the generation, driving new consumer behaviours and reshaping the fashion industry. Fashion is not just about clothing rather it is a vital tool for expressing individuality and belonging. In a world where social media plays a dominant role, the clothes one wears are often seen as an extension of one's brand.

Platforms like Instagram. TikTok and Pinterest allow users to curate and showcase their style to a global audience, reinforcing the importance of fashion as a form of self-expression. The desire to create a unique and ever-evolving identity pushes this generation to frequently update their wardrobes. Mindless scrolling for fashion is a double-edged sword. While it provides entertainment and easy access to the latest trends, it can lead to impulsive buying, overconsumption and a detachment from sustainable and ethical practices. Being mindful of how much time is spent on these platforms and making conscious decisions about purchases can help mitigate these effects. The need to stand out while simultaneously fitting in with peer groups creates a paradoxical demand for both originality and conformity, leading to increased spending on fashion items. Fast fashion brands, have capitalized on this behaviour by offering affordable, trendy clothing that changes frequently. These brands release new collections at a rapid pace, allowing consumers of every generation to keep up with the latest styles without breaking the bank-at least in the short term. However, the low prices and frequent purchases add up, leading to significant overall spending. As this generation continues to mature, it will be interesting to see how their fashion consumption evolves and whether a balance can be struck between the desire for personal style and the need for ethical, sustainable practices. Unified Pension Scheme promises a guaranteed pension for long-serving employees, but at a significant fiscal cost to the exchequer

he old pension scheme (OPS) has been a big burden on the union and states' budget of the country. In one of the economic reforms, it was shelved for employees joining government services in 2004 and later. The new scheme was called the National Pension Scheme (NPS), where the employee had to con-tribute 10% of the salary during the entire period of service. Initially, the government too was to make a matching contribution of 10%, which was later increased to 14%. The corpus generated THE NEW SCHEME for pension this way was invested in government securities, shares and corporate WAS CALLED THE bonds, which had daily net asset value like mutual funds. At the time of retirement, at least 40% of the corpus is to be PENSION SCHEME used for purchasing an annuity. The NPS scheme does not guarantee a monthly pension equivalent to 50% of the last salary drawn.

This led to resentment among the government employees and opposition parnity to keep the BJP-led central govern-ment in the dock. Among several free-bies, Congress also promised in the election manifesto to revert to OPS in states they came to power. Montek Singh Ahluwalia has gone on record to bring home the point that the economy of the country will be ruined if OPS is revived for employees who joined service in and after 2004. Many experts have also concurred with the views. Congress won the Himachal Pradesh Assembly election on the promise to revert to OPS but did not implement it. Subsequently in the Telangana election and also in the Lok Sabha 2024 election, the revival of OPS was not again brought up in the manifesto. BJP having disappointed with the Lok Sabha results in Maharashtra, Rajasthan, Haryana and Uttar Pradesh had to make a tightrope walk and find a middle ground between OPS and NPS. The central government now proposes a United Pension Scheme (UPS) for employees whose service lasts for 25 years

or more to get a pension of 50% of the average of the preceding twelve months' salary before the super annulation. The pension amount will be inflation-adjusted in dearness allowance twice a year. It has also a provision for a 60% family pension, for all dis-eased employees. The scheme does not benefit those who served for less than ten years. However, a monthly pension of Rs 10,000 has been guaranteed for employees who retired after serving for at least ten years. An additional sweetener has also been brought in the provision for the payment NATIONAL of a lump sum amount linking it with the duration of service in the government.

Economic Advisory

Since the corpus is not large enough to earn 50% of the average of the last twelve months' salary, the government's matching contribution has been increased from 14% to 18.5%. Cabinet Secretary TV Somanathan on UPS said, "definitely fiscally more prudent." "It remains within the same architecture of contributory funded scheme. This is the critical difference. The

OPS is unfunded, non-contributory scheme, this is funded, contributory scheme. The only difference in the changes made is to give an assurance and not leave things to the vagaries of market forces

But otherwise the structure of UPS has best elements of both (OPS and NPS)", he said. Economists think that UPS balances the fiscal cost and the aspiration of the employee. The increased cost of living will be taken care of because the real pension would not change as it is indexed to inflation. In NPS, if inflation goes up real pension comes down. Nevertheless, the scheme would put an extra burden of Rs 6250 crores on the government in the first year. This has been done to satisfy 23 lakh beneficiaries, who are vocal political constituencies and no political party would easily ignore their demand. It is expected that most states would adopt UPS, without bothering for additional financial burden. With the announcement of UPS, opposition parties are stepping up their demand for restoration of OPS. Economists have been consistently warning against the restoration; it has the potential to make the growth sluggish and hamper the progress of the rities, 15% in equities and the nation. It also impacts the lives of

Council to the Prime Minister has suggested that reverting to OPS will be catastrophic for poor populations and would crowd out private investments in states that revert to it. Reserve Bank of India in January 2023 had flagged concerns about the government finances for states opting to revert to OPS last year.

RBI had already cautioned that the move would lead to accumulation of liabilities, which can become a major risk in future. RBI had also said that states were expected to incur a 16% rise in pension expenditure at Rs 4,63,436 Crores as against Rs 3,99, 813 crores in the previous year. Pension outgo under NPS is Rs 4 lakh crores, which would be Rs 17 lakh crores if OPS is reverted. At present Rajasthan, Chhattisgarh and Punjab have reverted to OPS. Since then BJP has come back to power in Rajasthan and Chhattisgarh and it is hoped that both governments will continue with NPS and opt for UPS with effect from 1st April 2025. Punjab is governed by AAP and their main agenda is to remain in power and not to be concerned about the state's finances. UPS itself is causing a financial burden on the Central government of Rs 6250 crores in the first year. If all the states opt for it, the total economic burden on central and all state governments would be of the order of Rs 25,000 crores in the first year. Let there be no politics and political parties be conscious of maintaining fiscal discipline. # Policy rollbacks: The unseen cost of ignoring stakeholder consultation

There have been a number of high-profile policy rollbacks, underscoring the need for consultation and consensus-building before implementing major reforms

Since the Modi Government 1.0, India has witnessed a series of high-profile policy rollbacks that highlight a critical issue in governance: the need for broader consultation and consensus-building before introducing significant reforms. The latest example is the rollback of the lateral entry scheme, which sought to bring professionals from outside the traditional civil services into government roles

While the merits and demerits of such a policy can be debated, the rapid reversal following its announcement points to a deeper, more systemic issue-the lack of comprehensive stakeholder engagement. This pattern is not new. The government's

JAIDEEP VAIDEESWAR

attempts to implement sweeping reforms have repeatedly stumbled due to insufficient consultation. The Land Acquisition Bill, the Citizenship Amendment Act (CAA) paired with the National Register of Citizens (NRC), and the Farm Laws all serve as prime examples. In each case, the policies were introduced with minimal input from those most affected—be it farmers, minority broader

ments. The predictable outcome has been an intense public backlash, forcing the government to either backpedal or face prolonged

The repeated lack of consensus-building not only undermines the effectiveness of policies but also erodes public trust in governance. It creates an environment where well-intentioned even reforms are viewed with scepticism, and the potential benefits are overshadowed by the immediate backlash. This is particularly damaging in a country as diverse as India, where the success of any policy hinges on its acceptance across different regions, communities, and economic strata. Furthermore, these repeatinternational reputation, as global investors and partners begin to view the country as an uncertain policy environment. This uncertainty not only affects domestic stakeholders but also risks deterring foreign investment, which is crucial for driving economic growth and development in a rapidly globalizing world.

Moving forward, the gov-ernment must adopt a more inclusive approach to policy-making. This means going beyond the corridors of power in New Delhi and engaging with stakeholders at the grassroots level. It means recognizing that the voices of citizens, small business owners, and regional leaders, are not just peripheral-they are tion of the new Tax Clearance ed rollbacks damage India's central to the success of any

reform. It also means being open to feedback and willing to make adjustments before policies are finalized, rather than being forced into a retreat after the fact.India's growth story is too important to be derailed by avoidable missteps in policy formulation.

By fostering a culture of consultation and consensus, the government can ensure that its reforms not only achieve their intended goals but also enjoy the support and trust of the people. The lesson from recent rollbacks is clear: no matter how well-conceived a policy may be, it cannot succeed without the buy-in of those it is meant to serve.  $R^{ussian\ President\ Vladimir}_{Putin\ visited\ Mongolia\ on}$ Tuesday with no sign that the host country would bow to calls to arrest him on an international warrant for alleged war crimes stemming from the Russian invasion of Ukraine. The trip is Putin's first to a member country of the International Criminal Court since it issued the warrant about 18 months ago. Ahead of his visit, Ukraine called on Mongolia to hand Putin over to the court in The Hague, and the European Union expressed concern that Mongolia might not execute the warrant.

vivid red and blue uniforms styled on those of the personal guard of 13th century ruler Genghis Khan, the founder of

the Mongol Empire. He and Mongolian President Khurelsukh Ukhnaa walked up the red-carpeted steps of the Government Palace and bowed

before a statue of Genghis Khan before entering the building for their meetings. A small group of protesters who tried to unfurl a Ukrainian flag before the welcome ceremony were taken

away by police. The two governments signed agreements for a feasibility study and the design of an upgrade to a power plant in Ulaanbaatar and to ensure the continuous supply of aviation fuel to Mongolia. Putin also outlined plans to develop the rail system between the two rail system between the two countries. He invited the Mongolian president to attend a summit of the BRICS nations - a group that includes Russia and China among others — in the Russian city of Kazan in late October. Khurelsukh accepted, according to Russian state news agency RIA Novosti. On Monday, the EU expressed concern that the ICC warrant might not be executed and said it had shared its concern with authorities. Mongolian "Mongolia, like all other countries, has the right to develop its international ties according to its own interests," European Commission spokeswoman Nabila Massrali said. But she added, "Mongolia is a state party to the Rome Statute of

the ICC since 2002, with the

legal obligations that it entails." More than 50 Russians outside the country have signed an open letter urging the government of Mongolia to "immedi-ately detain Vladimir Putin upon his arrival".

The signers include Vladimir Kara-Murza, who was freed from a Russian prison in August in the biggest East-West prisoner swap since the Cold War. Dmitry Medvedev, the deputy secretary of Russia's Security Council, denounced the warrant against Putin as "illegal" in an online statement Tuesday and those who would try to carry it out as "madmen". Putin, on his first visit to Mongolia in five years, will join a ceremony to mark the 85th anniversary of a joint Soviet and Mongolian victory over Japan's army that controlled Manchuria in northeast China. Thousands of soldiers on both sides died in 1939 in months of fighting over the border's location between Manchuria and Mongolia.

"I am very delighted about Putin's visit to Mongolia," said Yansanjav Demdendorj, a retired economist, citing Russia's role against Japan. "If we think of the ... battle, it's Russians who helped free Mongolia." Putin has made a series of overseas trips in recent

# China-linked network mimics Americans to influence US politics

Washington (AP): When he first social media users designed to mimic emerged on social media, the user known as Harlan claimed to be a New Yorker and an Army veteran who supported Donald Trump for president. Harlan said he was 29, and his profile picture showed a smiling, handsome young man. A few months later, Harlan underwent a transformation. Now, he claimed to be 31 and from Florida. New research into Chinese disinformation networks targeting American voters shows Harlan's claims were as fictitious as his profile picture, which analysts think was created using artificial intelligence.

As voters prepare to cast their ballots this fall, China has been making its own plans, cultivating networks of fake

Americans. Whoever or wherever he really is, Harlan is a small part of a larger effort by US adversaries to use social media to influence and upend America's political debate.

The account was traced back to Spamouflage, a Chinese disinformation group, by analysts at Graphika, a New York-based firm that tracks online networks. Known to online researchers for several years, Spamouflage earned its moniker through its habit of spreading large amounts of seemingly unrelated content alongside disinformation.

"One of the world's largest covert online influence operations — an operation run by Chinese state actors — has become more aggressive in its efforts to infiltrate and to sway US political conversations ahead of the election," Jack Stubbs, Graphika's chief intelligence officer, told The Associated Press.Intelligence and national security officials have said that Russia, China and Iran have all mounted online influence operations targeting US voters ahead of the November election. Russia remains the top threat, intelligence officials say, even as Iran has become more aggressive in recent months, covertly supporting US protests against the war in Gaza and attempting to hack into the email systems of the two presidential candidates.

China, however, has taken a more cautious, nuanced approach. Beijing sees little advantage in supporting one presi-

dential candidate over the other, intelligence analysts say. Instead, China's disinformation efforts focus on campaign issues particularly important to Beijing such as American policy toward Taiwan — while seeking to undermine confidence in elections, voting and the US in general. Officials have said it's a longer-term effort that will continue well past Election Day as China and other authoritarian nations try to use the internet to erode support for democracy. A message left with the Chinese Embassy in Washington was not immediately returned. Compared with armed conflict or economic sanctions, online influence operations can be a low-cost low-risk means of flexing geopolitical power.

The warrant comes just over a month after election officials declared President Nicolás Maduro the winner of an election that his opponents

Ruling party-loyal electoral authorities declared Maduro the victor of the July 28 election, hours after polls closed. They did not show any detailed results to back up their claim as they had offered in previous

presidential elections. The lack of transparency has drawn international condemnation against Maduro and his allies.

The opposition, however, managed to obtain more than 80% of vote tally sheets, which are printed by every electronic voting machine, and said they show Maduro lost by a wide margin against González.

González was summoned to the prosecutor's office as recently as Friday. Attorney General Tarek William Saab opened the investigation against González after he and opposition leader María Corina Machado revealed what they said were the results shown in the tally sheets and

published them online. Maduro's ruling party and the National Electoral Council have refused to publish their copies of tally sheets that the electronic voting machines printed after polls closed.

Instead, as international pressure mounts to release a breakdown of results, Maduro asked the country's high court to audit the electoral process. The Supreme Tribunal of Justice, stacked with Maduro loyalists, concluded on Aug. 22 that the vote counts published by the opposition were false and certified Maduro's victory. González, 75, has not made any public appearances since the day after the election. His campaign did not immediately respond to a request for comment from The Associated Press. González has questioned the

prosecutors' actions for lack of due process guarantees and accused Saab, a longtime Maduro ally, of being a "polit-ical accuser" who "condemns in advance." He rejected the interview summons arguing, among other issues, that they did not specify the condition under which he was expected to appear.

They have lost all sense of reality," Machado, referring to Maduro's government, wrote on X after the attorney general's office published the warrant request on Instagram. "By threatening the President Elect, they only manage to unite us more and increase the support of Venezuelans and the world for Edmundo González."

# Senior Balochistan leader resigns

# PTI ISLAMABAD

Pakistan's veteran politician and Balochistan National Party-Mengal chief Sardar Akhtar Mengal Tuesday resigned from Parliament, complaining that the restive province has consistently been marginalised and ignored by the House. The 61-year-old leader was elected as a member of the National Assembly in the February 8 general elections from his native Khuzdar area. His resignation - which awaits acceptance - comes amid heightened security tensions in Balochistan after recent attacks and increased protests over the past months against

enforced disappearances. Citing frustration over the lack of interest in Balochistan's issues, Mengal announced his resignation during a press briefing outside the Parliament House.

"Today, I had decided to speak in the National Assembly about

More than 50 people, including over 10 security personnel, were killed on August 26 in one of the worst days of violence in Balochistan.

Balochistan, bordering Iran and Afghanistan, is home to a long-running violent insurgency. The province faces a double threat by the banned Tehreek-e-Taliban Pakistan and Baloch militants.

Baloch insurgent groups have previously carried out several attacks targeting the USD 60 billion China-Pakistan Economic Corridor (CPEC)

projects. The separatist Balochistan Liberation Army (BLA) is opposed to China's investments in Balochistan and accuses China and Pakistan of exploitation of the resource-rich province, a charge rejected by the authorities.

# Pak's veteran politician to hold talks with army to end political stalemate

# PTI ISLAMABAD

Dakistan's veteran politician 🕻 Mehmood Khan Achakzai has stunned his foes and friends alike by saying that he is ready to hold talks with the powerful military establishment to end the current political stalemate in the country. Achakzai, the president of the Pakhtun-khwa Milli Awami Party (PkMAP), made the announcement on Monday on the floor of the National Assembly. "I will hold negoti-ations. I will talk to every institution. I will also talk to the establishment," Achakazi said, adding that the talks with the establishment will "not be held to seek their guidance but to give them a passage for honourable retreat".

Achakzai's statement came as Defence Minister Khawaja Asif during a heated debate in the parliament spoke about Pakistan Tehreek-e-Insaf party's (PTI) effort to hold talks with the establishment.

and asked if the Pakhtunkhwa Milli Awami Party (PkMAP) leader was ready to have a dialogue with the army. Asif hoped the ethnic Pashtun politician would reply negatively due to his lifelong oppo-

sition to the role of the army in politics. Achakzai, appointed as leader of the recently created opposition alliance Tehreek Tahafuz Ayeen-e-Pakistan (TTAP), has been mandated by the Pakistan Tehreek-e-Insaf party to hold talks with the powerful military. Jailed former prime minister Imran Khan's PTI dominates the TTAP, the alliance for the protection of the constitution of Pakistan.

The PTI opposes talks with Prime Minister Shehbaz Sharif-led government but is keen upon holding a dialogue with the army to end its polit-ical plight. Khan, who on Monday said he was ready to hold talks with the army, had earlier mandated Achakzai to hold talks with anyone. "We

will tell the establishment that you are our establishment. You are dear to us. You are our army, our institution. Please be kind to us and [it's] enough. Sit with us," Achakzai said.

The supremacy of the Constitution is the only solution and this whole house has consensus on this, the grandold politician said, adding that even Pakistan Muslim League-Nawaz (PML-N) chief Nawaz Sharif and President Asif Zardari agree on this. Achakzai further said the

politicians the army and everyone was responsible for the present situation facing the country and that the time had come to move forward. "Come, sit together, including

the Chief of Army Staff. We should sit together to find the solution to the prevailing crisis, which has not descended from the sky," he said.

The issue of talks with the PTI has been in the air for quite some time with the government, time and again, precon-

ditioning the talks with 71-year-old Khan's apology for the May 9 violence.

The PTI, however, main-tained that it would hold talks only with the army.

There is a difference of opinion on the approach to the dialogue as the government wants the PTI to accept the outcome of the February 8 elections and cooperate in tackling economic, political and security challenges facing the country. In contrast, the PTI asserts the government came to power through a bogus electoral process by stealing its mandate and insists that any talks will focus on giving the party its due share in the government. Khan's party claims that it won majority seats in the election and holds the right to form the government. The majority of PTI leaders, including Khan, face cases linked with corruption as well as last year's May 9 violence and the government scares them by holding their military trial.

Since taking office in 2022, Yoon has focused on resolving historical disputes with Japan as part of broader efforts to beef up South Korea's military alliance with the United States. The countries have strengthened their military and diplomatic cooperation in the face of North Korean nuclear threats.

Ties between Seoul and Tokvo have long been complicated by grievances related to Japan's brutal rule of the Korean Peninsula from 1910 to 1945.

North Korean test photos showed a white drone with Xshaped tails and wings supposedly crashing into and destroying a target resembling South Korea's main K-2 battle tank Most combat drones stand off from targets and fire missiles. The North's official Korean Central News Agency said Saturday's test involved various types of drones built to fly different ranges to attack enemy targets on land and sea and flew along various routes before accurately hitting test targets.

# Pope begins Asia tour, celebrating religious freedom

Jakarta (AP): Pope Francis arrived in Indonesia on Tuesday at the start of the longest trip of his pontificate, hoping to encourage its Catholic community and celebrate the tradition of interfaith harmony in a country with the world's largest Muslim population.

After an overnight flight from Rome, Francis was wheeled off the plane in his wheelchair and onto the tarmac for a welcoming ceremony under Jakarta's perennial hazy, humid and polluted skies

Two children wearing traditional clothes handed him a bouquet of vegetables, fruits, spices and flowers

Francis planned to rest for the remainder of the day, given the rigors of an 11-day voyage zigzagging across time zones that will also take him to Papua New Guinea, East Timor and Singapore.

However, the Vatican said the 87-year-old pope met with a group of refugees, migrants and sick people at the Vatican residence in Jakarta.

Outside the residence, he was greeted by well-wishers eager to catch sight of the first pope to visit since St. John Paul II in 1989.

"When I saw him in the car I was so touched, goosebumps," said Fanfan, a 49-year-old housewife from West Jakarta who uses only one name. "I hope he will hopefully appear in front of me to wave his hand

again. Francis' first full day of activities begins Wednesday with visits to the country's political leaders and meetings with Indonesian clergy who are helping to fuel the growth of the Catholic Church in Asia. Indonesian President Joko Widodo welcomed the pope, saying in a broadcast statement

that "Indonesia and the Vatican have the same commitment to fostering peace and brotherhood, as well as ensuring the welfare of human-The highlight of Francis' first

stop will be his participation Thursday in an interfaith meeting in Jakarta's iconic Istiqlal mosque with repre-

sentatives of the six religions that are officially recognised in Indonesia: Islam, Buddhism, Confucianism, Hinduism, Catholicism and Protestantism.

The mosque, the largest in Southeast Asia, sits across a piazza from the capital's main Catholic cathedral, Our Lady of Assumption, and the two are so close to each another that the Muslim call to prayer can be heard during Mass.

Their proximity is not coincidental, but strongly willed as a symbol of religious freedom and tolerance that is enshrined in Indonesia's Constitution. The buildings are also linked by an underground "Tunnel of Friendship" which Francis will visit with the grand imam, Nasaruddin Umar, before they sign a joint declaration. While Francis will want to

highlight Indonesia's tradition of religious tolerance, the country's image as a moderate Muslim nation has been undermined by flare-ups of intolerance. In 2021, a militant Islamic couple blew themselves up outside a packed Catholic cathedral on Indonesia's Sulawesi island during a Palm Sunday Mass, injuring at least 20 people. "We have no problem with the

visit. He's a guest and we will welcome him," said Eldy, a 64vear-old retired government worker who uses one name and was out walking during a car-free day in Jakarta on Sunday.

"He wants to visit our Istiqlal mosque, he can do it."

Even though Catholics make up only 3 per cent of Indonesia's population, the sheer number of Indonesians

275 million — makes the archipelago home to the thirdlargest Christian community in Asia, after the Philippines and China.As a result, thousands are expected to throng to Francis' events this week, which include a Mass on Thursday afternoon at Jakarta's main stadium expected to draw some 60,000 people.

City authorities have urged residents to work from home that day given roadblocks and crowds.

Reserve Bank Governor Deputy Michael Debabrata Patra on Tuesday said domestic saving has financed largely the investment needs of the

economy and will remain the top net lender in coming decades. In a keynote address at the Financing 3.0 Summit: Preparing for Viksit Bharat organised by the Confederation of Indian Industries (CII) here, the deputy governor said that recently, the net financial savings of households has almost halved from 2020-21 levels due to behavioural changes in the form of unwinding of prudential savings accumulated during the pandemic and shifting from financial assets to physical assets like housing. Going forward, boosted by rising incomes, households will likely build back their

financial assets. This process has already begun. Households' financial assets have increased from 10.6 per cent of GDP during 2011-17 to 11.5 per cent during 2017-23 (excluding

the pandemic year)," Patra said

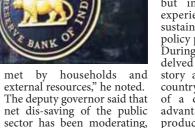

Their physical savings have also risen in the postpandemic years to over 12 per cent of GDP and could rise further, he said, adding they had reached 16 per cent of GDP in 2010-11.

"Accordingly, households will remain the top net lenders to the rest of the economy in the coming decades," the senior RBI official said. He further said the private

corporate sector has drastically reduced its net borrowings from the rest of the economy, reflecting a combination of rising internal accruals and subdued capacity creation.

Looking ahead, Patra said its net borrowing requirement is likely to rise on the back of a revival in the capex cycle.

"These financing requirements will largely be

The deputy governor said that net dis-saving of the public sector has been moderating, albeit unevenly. This sector will remain a net borrower in the economy, given the critical role envisaged for fiscal policy in shaping India's future.

If the nation, as a whole, has a deficit, it borrows from the rest of the world and the inflow of foreign savings helps finance its investment needs, he added.

For India, domestic savings have largely financed the overall investment requirements of growth, with external financing playing a supplemental role as reflected in overall modest current account deficits.

"As the productive capacity of the economy rises and its ability to absorb foreign

resources expands, volume of external financing and its composition may undergo fundamental shifts, but in the light of past experiences, external debt sustainability will remain a policy priority," Patra said. During his address, Patra also

delved into India's growth story and the fact that the country is riding on the cusp of a distinct demographic advantage.He said productive workforce is critical for value creation in an economy, while capital would play an important supportive role.

CII Director General Chandrajit Banerjee, in his welcome address, lauded the performance of India's external sector and underscored the role of the RBI in ensuring that its financing is stable, sustainable, and aligned with the country's economic policies.He said greater investment can be useful to garner more financing in physical infrastructure, components for the digital economy, as well as emerging sectors like renewable energy ,warehousing, semiconductor ecosystem, and data centres.

# Gold and silver price slip

## PTI 🗖 NEW DELHI

Gold prices slipped Rs 50 to Rs 74,050 per 10 grams in the national capital on Tuesday, according to the All India Sarafa Association.

The precious metal of 99.9 per cent purity had finished at Rs 74,100 per 10 grams in the previous session on Monday. Silver prices also slumped by Rs 250 to Rs 85,250 per kilogram on Tuesday. It had closed at Rs 85,500 per kg in the previous close. Additionally, gold of 99.5 per cent purity fell by Rs 50 to Rs

73,700 per 10 grams. On the global front, Comex gold is trading at USD 2,531.40 per ounce, up by USD 3.80 per ounce or 0.15 per cent. "Gold fluctuated in a narrow

range on Tuesday as traders remained sidelined ahead of US job market data that may

influence the US Federal Reserve's (Fed) interest rate-cutting path," Saumil Gandhi, Senior Analyst of HDFC Commodities at Securities, said.

However, silver was quoted 1.81 per cent lower at USD 28.62 per ounce in the international markets.

During the week, traders will focus on various job reports, including Jolts job openings, ADP Non-farm employment change, non-farm payrolls and unemployment data, which will impact the Fed's policy decision and could provide direction for gold

prices, Gandhi added. Anticipation of an interest rate cut at the upcoming US Fed meeting would likely keep gold prices elevated, according to Angel One's Prathamesh Mallya, DVP-Research of Non-Agri prices Commodities and Currencies.

# **'SWEET' SACRIFICE AND SLEEPLESS NIGHTS** PTI PARIS me, and I didn't feel that much

# arrying a back injury for more than a year, history-making Indian javelin thrower Sumit Antil's path to Paralympic glory was

paved with a 'sweet sacrifice' and several sleepless nights. The 26-year-old faced a tough choice in the build-up to the Paralympics — give up his favourite sweets or put his career at risk due to rapid weight gain and a back injury that troubled him before the Para Games in Asian Hangzhou last year where he won a gold.

On the advice of his physio, Antil grudgingly gave up sweets, followed a strict training regimen and shed around 12 kilograms in just two months. His sacrifice paid off on

Monday when the Sonepat-lad became the first Indian man and only the second Indian overall to defend a Paralympic title, clinching gold in the F64 category with a record throw of 70.59m.

This new mark bettered his previous Paralympic best of Tokyo 68.55m set in Paralympics three years ago. "I've reduced around 10-12

kilos. My physio, Vipin Bhai, told me that the weight was putting pressure on my spine. So, I cut out sweets, which are my favourite, and focused on eating right," he revealed in a media interaction here.

Fixing his back by taking adequate rest is the first thing Antil will do after his return to India

India. "I was not at 100 per cent. I had to take a painkiller before my throw, and even during training, I haven't been at my best. The first priority is to fix my back after we return to India because rest is crucial with the type of injury I have with the type of injury I have. "With competitions so close, I haven't been able to rest properly and have constantly taken precautions to protect my back. I've been careful with every movement to avoid aggravating it further," he

added. He also thanked his coach (Arun Kumar) for always knowing what he needed, staying up nights to plan his chodulo and putting in schedule, and putting in tremendous effort. He said his coach had worked even harder than him.

"I also started doing CrossFit workouts, sprints, and trained hard. It's been two years with my coach, and he's like an elder brother to me. He knows exactly what I need and when I need it. "I've seen him stay up nights to plan my schedule. My team has put in a tremendous effort for me, and I feel truly blessed to have them," he said. "Once you reach a certain level, the responsibility on you increases, and all eyes are on you. Hopefully, after this, I'll finally get some rest. I've been continuously on the field for

the past two to three years." He said he sustained the injury in 2023 ahead of the Asian Para Games and kept competing in back-to-back tournaments.

Antil dreamed of becoming a wrestler and was inspired by Olympic bronze-medallist

Vogeshwar Dutt. However, in 2015, his life changed when a tractor accident led to the amputation of his left leg below the knee. Undeterred, Sumit was introduced to para-sports in 2017 by a fellow athlete from

his village. Despite the pain and challenges of training with a prosthetic leg, he found his new passion in javelin. Under coach Naval Singh's guidance, Sumit's relentless dedication transformed him his village.

World Para Championship silver medallist Pooja Jatyan beat Yagmur Sengul of Turkey in straight sets to storm into the quarterfinals of recurve women's open archery competition at the Paris Paralympics on Tuesday.

The 27-year-old, who got a bye into the pre-quarters after finishing inside top-9 in the ranking round, won 6-0 and will face Tokyo Paralympics bronze medallist Wu Chunyan of China in the quarters later in the day.

The second-seeded Chunyan defeated Oyun-Erdene Buvanjargal of Mongolia in her pre-quarterfinal match.

Pooja took the first set by hitting three 9s in a row. Continuing her stronghold, she totalled 26 points while her

# No. 1 Jannik Sinner gets past Tommy Paul to set up quarterfinal against Daniil Medvedev

## AP NEW YORK

 $T^{\mathrm{op}\text{-}\mathrm{seeded}}_{\mathrm{reached}}$  Jannik Sinner quarterfinals by shaking off a slow start and coming through in the clutch at the end of tiebreakers that decided the first two sets, then pulling away to get past No. 14 Tommy Paul 7-6(3) 7-6(5) 6-1.

Two weeks removed from being cleared in a doping case stemming from two positive tests in March, Sinner moved into a showdown against 2021 champion Daniil Medvedev, the only past winner at Flushing Meadows still in the men's field.

Sinner, a 23-year-old from Italy, claimed his first Grand Slam title at the Australian Open in January by defeating Medvedev in five sets in the final after dropping the first two. They also met in the Wimbledon quarterfinals in July, and Medvedev won that

"It's going to be a lot of running," Sinner said, "so

hopefully (I'll) be ready physically? Against Paul on Monday night,

Sinner was not at his best at the outset, falling behind by a double-break at 4-1 after 20 minutes at Arthur Ashe Stadium. "That's where you want to be. ... It's definitely different than any other setting," Paul said. "It's electric." A loud crowd was backing the American, to no one's surprise. As the match went on, plenty of chants of "U-S-A!" or "Let's go, Tommy! Let's go!" rang out. There also were several moments where spectators

clapped after faults by Sinner considered poor etiquette in tennis, that drew repeated admonishments from the chair umpire, who pleaded for no noise between first and second serves.

Sinner finished the initial set with 15 unforced errors on the forehand side alone, but he cleaned that up quickly and closed the match with just six the rest of the way.

won "There are some ups and

downs, obviously, in best-offive. That's normal to have," Sinner said.

"But finding my rhythm in the end of the match hopefully helps ... In the next match." Everything hinged on the tiebreakers. The first was tied

3-all, before Sinner grabbed the last four points. Paul led 5-4 in the second, but Sinner took the last three points. That meant Sinner has now

14 of his past 15 tiebreakers, a stretch that dates

to a tournament in Halle, Germany, in June. The lone exception was one he lost against Medvedev at Wimbledon.

Sinner dropped the first set he played at the US Open, but he's won the next 12.

Paul was trying to get his third career quarterfinal and first at Flushing Meadows. He also was trying to become the first American to beat a man ranked No. 1 at the US Open since Andre Agassi eliminated Lleyton Hewitt in 2002. Instead, Paul fell to 0-6 at majors against players ranked in the top 10.

Sinner improved to 32-2 with four titles on hard courts in 2024 and he's now reached at least the quarterfinals at all

6-0 6-1 6-3 victory over Nuno Borges that briefly was interrupted early in the third set when the electronic linecalling system was shut down because of a fire alarm.

The other quarterfinal on the top half of the men's bracket will be No. 10 Alex de Minaur vs No. 25 Jack Draper. De Minaur beat Jordan Thompson 6-0 3-6 6-3 7-5 in an all-Australian matchup, while Draper became the first British man in the US Open quarterfinals since Andy Murray in 2016 by defeating Tomas Machac 6-3 6-1 6-2. # **IT'S TIME TO MAKE AMENDS: PAT CUMMINS ON TEST SERIES AGAINST INDIA**

ustralian captain Pat Cummins is looking at the Aupcoming five-match rubber against India as a chance to "make amends" for the successive Test series defeats at home against their fierce rivals.

He said the next Border-Gavaskar Trophy, which will start on November 22 in Perth, promises to be a 50-50 affair.

India retained the trophy in the last four series, from 2016-17 to 2022-23. India had defeated Australia in their own backyard in the last two series in 2018-19 and 2020-21.

Cummins said Australia are hoping to draw confidence from their win over India in the World Test Championships Final at London last

year. "The last two series here in Australia, we haven't been successful, so it's been a long time. Hopefully, it's time to make amends," Cummins told Star Sports.

You know, we've played them (India) plenty of times where they've beaten us, but we've also had plenty of wins against them as well, which we'll draw confidence from. The most recent Test match was, of course, the World Test Championship in neutral conditions, and we came out on top in that match.

"It's always fiercely competitive, and it always feels like it's 50-50. I'm 10 out of 10 excited for the Border-Gavaskar Trophy," he added.

Senior batter Steve Smith agreed with been playing really good cricket the the skipper and said it will a "big summer" for Australia against a "well-balanced" Indian team. "...You know, it's going to be a great

series. You know, India have been playing outstanding cricket. We've

last couple of years. You know, we haven't beaten India in the last two times they've come out here," he said. "Obviously got a terrific side, very well-balanced team, all bases covered. So, you know, they've played

really good cricket out here. They've played good cricket when we've been over in India as well, where we know they're very, very difficult to beat. So it's going to be a big summer. It's going to be an exciting one." Pacer Mitchell Starc highlighted the

importance of the rivalry by keeping it at par with the Ashes.

"For Australian cricket, you've got the Ashes and then you've got the Border Gavaskar Trophy in there. I mean there's a long history in the Ashes but that Border Gavaskar rivalry, if you like, has just grown from strength to strength over each series.

"And now we see it as a five Test match series which is fantastic for not only the rivalry but for the Test series as well. Whether it's the calibre of player, the calibre of matches that we see as fans and as cricketers just continues to grow strength on strength each series," he said.

"Now (with) India obviously winning a number of series in a row, it's created even a bigger rivalry between the two countries. I mean both teams are well known to one another, we play each other very often across the formats, so I'm sure it'll be another exciting series," Starc added. All-rounder Glenn Maxwell said an

India-Australia contest in any format has become a must-watch affair now. "I think over the last few years, definitely, it feels like the two teams sort of swap places in the rankings quite a bit. Whichever format it is, you will always see these two teams at number one at some stage around the world," Maxwell said.

The different contests we've had in both countries across all formats certainly provide a lot of highlights for the rest of the world. It's always must-watch cricket whenever these two teams are playing."

retain its Asian Champions Trophy title in Hulunbuir, China this month.

Under Harmanpreet's leadership, India won a second successive bronze medal for the first time in over half-a-century at the Olympics in Paris recently. But Harmanpreet said it's time to move and start afresh after a deserving break for the Asian showpiece to be held from September 8 to 17.

"With a brief break after the Paris Olympics, the team is ready to take on the best hockey playing nations in Asia and prove its mettle.

"We had a good outing in Paris but hockey is a very close game, we cannot rest on our laurels, the skipper said before leaving for China in the early hours on Tuesday

"The aim will be to play high-octane hockey and retain our title."

Besides India, the Asian Champions Trophy will feature Korea, Malaysia, Pakistan, Japan and hosts China.

India will begin their campaign against China on September 8, followed by a match against Japan on September 9.

After a one-day break, India will take on Malaysia on September 11, followed by Korea on September 12 and arch-rivals Pakistan on

September 14

The top four teams will advance to the semifinals slated for September 16, with final scheduled for September 17.

India are the most successful team in the tournament with four titles, followed by Pakistan (3)

India won the last edition in Chennai, beating Malaysia 4-3 in the final

Vice captain Vivek Sagar Prasad said the side has a few new players in the team this time around, who have immense potential and are eager to perform.

"We will do our best to create a nurturing environment for them on the way to our title defence," he said

# FIFA says \$6.5 billion of international spending in transfer window

## AP ZURICH

Spending on transfer fees in Dinternational men's player deals cooled off during the mid-year trading period, according to International Federation of Association Football (FIFA) research published on Tuesday.

FIFA said clubs committed to spend USD 6.46 billion on buying players in cross-border deals during the June-to-September transfer window - down from USD 7.43 billion in the same period a year ago. The average transfer fees paid by

clubs in Europe, by far the richest market, was USD 3.13 million compared to USD 3.8 million a year ago.

The FIFA study is not a complete guide because it does not count the biggest transfer deal of the European offseason, nor does it include moves by players between two clubs in the
