Cheetah project by Government gets mixed response

ARCHANA JYOTI ■ NEW DELHI

As the Modi Government's ambitious Cheetah reintroduction project at Madhya Pradesh's Kuno National Park marks its second anniversary on Tuesday, its progress has led to mixed reactions: Government officials praising the initiative for its breeding success, while activists criticising the prolonged confinement of the big cats in enclosures and raising doubts about their survival instinct in the wild.

key indicator of the success of any wildlife translocation effort. Undeterred at the flak, the Government's plan is underway to introduce a new batch of cheetahs to the expansive Gandhisagar Wildlife Sanctuary in the Northern State. At the same time, a conservation breeding Centre is also on the platter in Gujarat's Banni grasslands.

adjustments to ensuring the cubs' survival in the wild have been overcome. He took to the social media platform X, praising the project which he said was envisioned by Prime Minister Narendra Modi, as a pioneering global effort aimed at restoring lost wildlife populations and ecosystems.

on its second anniversary

released the Cheetahs brought from Namibia into their enclosures. However, wildlife activists are not excited at the project's progress. They cautioned that it may be premature to celebrate, given that of the original 20 imported cheetahs, only 12 adults remain, and of 17 births, 12 cubs have survived.

management of the project at the park, stating a "lack of coordination" between central and State Government departments as well as issues regarding expenditure. The concerns were raised in a sample audit of records - from August 2019 to November 2023 - that was made public Monday in response to an RTI filed by wildlife activist Ajay Dubey.

RISHABH MALIK ■ NEW DELHI

Indian Hockey Team claimed their fifth Asian Champions Trophy title with a fighting 1-0 victory over hosts China on their graveyard at Moqi Training Base Hulunbuir on Tuesday, Defending Champions India began as favourites in the tournament beating Korea in the Semifinals with complete dominance of young Captain Harmanpreet Singh

performances with new face of Indian goalkeeper Krishan Bahadur Pathak after the retirement of legendary goalkeeper PR Sreejesh India started the contest by defeating China 3-0 in their opening league game, remain undefeated in the tournament Defender Jugraj Singh scored a rare field goal as the defending champions toiled hard before getting the better of their opponents.

Rebels may play spoilsport for both Congress and BJP on many seats

MANOJ KUMAR ■ CHANDIGARH

With the completion of the withdrawal of nominations by the candidates of various political parties and independent candidates on September 16, the stage is now set for an intense multi-cornered electoral slugfest in Haryana where the ruling BJP under the leadership of Chief Minister Nayab Singh Saini is trying to score a 'hat-trick' and the resurgent Congress—out of power since 2014, is determined to claw back to power.

The main political parties—Congress and BJP are facing a major challenge from the rebels after several leaders who were denied tickets from the party decided to contest elections as independent candidates. These candidates are likely to affect the votes of both parties as some of the rebels enjoy massive public support.

In Congress, Chitra Sarwara, daughter of Ambala City Congress candidate Nirmal Singh, will contest as an independent against her party's candidate, Parvinder Singh Pari, and former State Home Minister and BJP candidate Anil Vij, from Ambala Cantonment. The returning officer assigned the 'whistle' as her symbol. Talking to reporters, Chitra Sarwara said, "Whistle is famous worldwide. Whistleblowers are those persons who bring forward the truth, and expose corruption. We were, are, and will remain whistleblowers of Ambala. All the corruption-related issues will be raised in Ambala by our whistle. Issues of unemployment, trade will be raised."

It is not only anti-incumbency partying BJP in the State but party rebels are also affecting its chances in the state badly with leaders from party parting ways. BJP MP Naveen Jindal's mother Savitri Jindal and former Power Minister Ranjit Singh Chautala on the last day of the withdrawal of nomination refused to withdraw their nomination as Independent candidates and will contest against the saffron party's official candidates from Hisar and Rania Assembly constituencies, respectively. Both had recently joined the BJP.

The two regional parties—the Indian National Lok Dal and its splinter group, the Jannayak Janta Party—which are struggling to stay relevant in state politics, have entered this poll in an alliance with the Bahujan Samaj Party and the Azad Samaj Party (Kanshi Ram), respectively. The Congress-Aam Aadmi Party talks for an alliance failed to mature over the sharing of seats since leaders of the Congress in the state were adamant about going it alone in the elections. The AAP could emerge as a spoiler for both the BJP and Congress, especially in urban areas.

Haryana Chief Electoral Officer (CEO) Pankaj Agarwal said that after scrutiny, 1221 nominations were found valid, while the candidatures of 338 were rejected. After the withdrawal of nominations across all 22 districts, a total of 1,031 candidates will contest the assembly elections with the highest 89 in Hisar district. There were 1351 candidates in the 2014 assembly elections and 1,169 in the 2019 Assembly polls.

During the single-phase polling on October 5, a total of 2.03 crore voters including 1.07 crore men, 95.77 lakh women, and 467 third gender will decide the fate of 1,031 candidates and which party will rule Haryana. While the Congress is banking on an "anti-government mood," the BJP is battling a strong anti-incumbency of its 10 years in rule.

Furthermore, on the last day of withdrawal of nomination, senior leaders from both BJP and Congress were actively engaged in persuading rebel candidates to withdraw their nominations throughout the day. However, despite efforts by the top brass, these two parties continue to face 'rebel trouble'. Sources in these parties said that the Congress managed to convince 72 rebels, who were running as independents on 7 seats, to withdraw, while the BJP succeeded in persuading 25 candidates to withdraw from 6 seats. About 2500 candidates have applied for Congress tickets across the 90 constituencies of the State.

Haryana CM Nayab Singh Saini and State Party unit pres-

ident Mohan Lal Badoli convinced Rajiv Jain in Sonapat, Bharti Saini in Narnaul and few other candidates in Karnal and Panipat to withdraw their nominations as Independents against BJP candidates.

Jain, former media adviser to ex-CM Manohar Lal Khattar, had filed his papers from Sonapat. Jain is the husband of Former Minister Kavita Jain. Sonapat mayor Nikhil Madan is the party candidate. On September 15, Saini and Badoli met Jain. Similarly, Bharti Saini, too, had been visited by the CM, who also spent some time with former minister and senior BJP politician Ram Bilas Sharma, who was denied a party ticket.

Another notable 'success' for the party was the withdrawal of nomination by former Deputy Speaker Santosh Yadav, who was a ticket aspirant from Ateli. The party has fielded Aarti Rao, daughter of Union Minister Rao Inderjit Singh from Ateli. Meanwhile, BJP election in charge

Haryana Assembly Election

Dharmendra Pradhan was able to mollify former Karnal Mayor Renu Bala Gupta after her husband was elevated as working district BJP president.

Meanwhile, prominent rebel candidates, who could upset the BJP apperant included Naveen Goyal who has filed nomination from Gurugram) while Devender Kadian from Ganaur, Zile Ram Sharma from Assandh, Deepak Dagar from Prithla, Kehar Singh Rawat from Hathin, Bachan Singh Arya, Jasbir Deswal from Safidon, Kehar Singh Rawat from Hathin, Kalyan Chauhan from Sohna and others. Besides, Nagendra Bhadana, who switched to the INLD after being denied the BJP ticket, will also play spoilsport for the BJP candidate Satish Fagna from Faridabad (NIT).

A BJP leader, on the condition of anonymity, said that even though the deadline for withdrawal of nominations was ended on September 16 efforts would be intensified to woo the rebels. Senior leaders are having connections with them.

"We expect that a majority of the rebels should fall in line well before the election date of October 5," he added.

For Congress, ex-MLA Jasbir Mallour, Himmat Singh, former Minister Sampat Singh and former Chief Parliamentary Secretary Ram Kishan Fauji withdrew their nominations as Independents. Former Chief Minister Bhupinder Singh Hooda and his son MP Deepender Hooda persuaded Mallour and Himmat Singh to withdraw their candidatures from Ambala City, while Sampat Singh pulled out in favour of Congress' Anil Maan in Nalwa, and Fauji from Bawani Khara.

Raj Kumar Saini, former MP and Loktantra Suraksha Party supremo withdrew his candidature from Indri following requests from representatives of backward community leaders. Talking to reporters, Saini said, "I am not extending my support to any party or candidate. My community had told me that since the CM is from the Saini community, I should not contest against the party he is associated with. I now hope that if Nayab Singh Saini becomes the CM again, he carries on my fight for the poor and backward classes."

Sources said that the BJP is now facing 19 rebels across 15 seats, while the Congress has 29 rebels on 20 seats. This internal strife among party candidates could significantly impact the outcome of the elections. This means that both major parties, BJP and Congress, face challenges from rebels, which could significantly affect their chances on many seats in the 90 Assembly constituencies.

Political observers said that in the last Assembly election, many rebels of BJP and Congress had won the election. The withdrawal of nominations by several leaders of both parties is seen as a major success for the Congress party and a boost for their electoral prospects. But the dissidents and independent candidates will add an unpredictable element to the contest. The multiple factors such as dissidents, caste combinations, and anti-incumbency are poised to impact the outcome of the polls, the Observers added.

Punjab Govt shares state agriculture policy draft, invites farmer feedback

MONIKA MALIK ■ CHANDIGARH

The Punjab Government has made a stride towards fulfilling its commitment to the farming community by drafting the much-awaited State Agriculture Policy. The draft, shared with the farmer unions and agriculture experts, invited suggestions from all stakeholders, particularly the farmers, to ensure a more inclusive and robust policy for the future of agriculture in Punjab.

The draft encompassed several progressive reforms aimed at addressing the multifaceted issues faced by the agricultural sector. One of the key highlights of the policy is the proposed legal guarantee for Minimum Support Price (MSP) for all crops, providing much-needed security to farmers. The move sought to stabilize farm incomes and mitigate the uncertainties in the pricing of agricultural products. It also aimed at empowering farmers by ensuring that they receive a fair price for their produce, thus preventing exploitation by middlemen.

Another major feature of the policy is the introduction of pension benefits for small and marginal farmers, especially those with less than five acres of land, as well as farm labourers. Farmers above the age of 60 will be eligible for pensions, thereby offering financial support during their senior years. This provision is seen as a step towards improving the welfare of Punjab's farming community, which has long struggled with financial insecurities due to fluctuating incomes and high input costs.

Additionally, the draft policy recommended the launch of the "Pani Bachao Paise Kamao" scheme, which incentivizes the farmers to save electricity and water. Given the critical depletion of groundwater in the State, this initiative promotes the use of efficient irrigation practices, while simultaneously offering farmers financial rewards for saving water and electricity.

The policy also pushed for more sustainable agricultural practices by encouraging organic farming and crop diversification. It emphasized the importance of moving away from water-intensive crops like paddy and promoting crops such as cotton, maize, sugarcane, and horticultural crops such as fruits and vegetables, which consume less water.

The policy draft also suggested prohibiting the cultivation of long-duration paddy varieties in 15 critical groundwater-depleted blocks, where water withdrawal exceeds 300 percent of the replenishment rate. The goal is to reduce water consumption in these areas and prevent the further depletion of groundwater resources.

The policy advocated for transitioning these regions to alternative crops like cotton, maize, sugarcane, vegetables, and orchards to safeguard the land from becoming barren in the future. To make this transition attractive, the policy proposed compensating farmers in these blocks to ensure they earn more from growing alternative crops than they would from paddy cultivation.

Despite these innovative suggestions, the draft is notably silent on one of the most politically sensitive issues—subsidized electricity for farmers. However, it does propose a roadmap to gradually reduce power subsidies by up to 35 percent. This would be achieved by implementing micro-irrigation systems, solarization of farm pump sets, and

encouraging the use of canal water for irrigation instead of groundwater. The policy suggested that over time, traditional water-guzzling techniques should be phased out, and renewable energy options should take precedence.

With a strong focus on water conservation, the draft policy envisioned reducing the state's total water demand by at least 30 percent, saving approximately 20 billion cubic meters (BCM) of water annually. This ambitious goal is deemed crucial to avert a looming water emergency in Punjab, which heavily relies on agriculture for its economy.

A member of the committee drafting the policy, requesting anonymity, told The Pioneer that there is dire need for immediate action to avert a "water crisis." "Punjab is staring at a water emergency, and the government must set a policy goal to save at least 30 percent of the state's total water demand. If steps are not taken now, we risk rendering large swathes of Punjab barren," he said.

The policy also called for reforms in the Public Distribution System (PDS) to ensure better delivery and access to food grains, particularly for the underprivileged. It recommended that the Punjab Government take these concerns to the Central Government to seek further improvements to the PDS system. For small farmers, the policy suggested measures like loan waivers to ease the financial burden. While Punjab has long grappled with farmer indebtedness, the policy aimed to mitigate this issue by providing debt relief to farmers who own less than five acres of land.

Additionally, the draft policy promoted women's empowerment by exploring ways to grant land ownership rights to women and prioritizing female farmers when leasing out village common lands.

To further encourage the shift toward crop diversification, the policy proposed establishing 13 centers of excellence (CoEs) for various crops across the State, which would focus on horticulture and promote the cultivation of crops such as potatoes, pulses, sugarcane, lemons, pears, peas, and chilies. By growing crops in their natural agro-climatic zones and organizing progressive farmer groups, the policy envisioned better management of resources and higher yields. In case of price volatility after harvest, the policy recommended creating a price stabilization fund to protect farmers from losses.

Addressing wheat cultivation, the draft suggested cultivating variety-specific and nutrient-rich wheat varieties, such as PBW 1 Chapati, PBW RS1, and WHD 943. These high-quality varieties would be processed and marketed under various consumer-specific brands, providing farmers with better access to niche markets and increasing their profits, stated the policy.

Punjab Chief Minister Bhagwant Mann, who recently held extensive consultations with the protesting farmers, had promised that the draft agriculture policy would be released before September 30. The policy reflected months of engagement with farmer groups and experts, aiming to tackle long-standing issues in Punjab's agrarian economy. In light of the widespread protests led by organizations like the Bhartiya Kisan Union (BKU), Ekta-Ugrahan, Mann assured the farmers that their input would be crucial in shaping the final policy.

Recommendations in Draft Agri Policy

- Legal Guarantee for MSP for all crops
- Pension benefits for small and marginal farmers with less than 5 acres of land and farm labourers
- 'Pani Bachao Paise Kamao' scheme to incentivize farmers to save electricity and water through a rewards scheme
- Promote organic farming practices and crop diversification
- Ban cultivation of long-duration paddy varieties in 15 groundwater-depleted blocks
- Replace paddy cultivation in critical blocks with crops like cotton, maize, sugarcane, and vegetables
- Gradually reducing electricity subsidies by up to 35% through micro-irrigation systems, solarization of farm pump sets
- Aim to reduce state's total water demand by at least 30%
- Improve delivery and access to food grains via PDS
- Debt relief and loan waivers for farmers owning less than 5 acres of land
- Explore ways to grant land ownership rights to women
- Prioritize female farmers for leasing village common lands.
- Establish 13 Centers of Excellence (CoEs) for horticulture and crop diversification
- Create Price Stabilization Fund to protect farmers from price volatility

20 industries collaborate with PSDM to generate 50k jobs in Punjab

PNS ■ CHANDIGARH

Punjab Skill Development Mission (PSDM) on Tuesday achieved a major milestone by signing Memorandums of Understanding (MoUs) with 20 industries and industry associations, paving the way for 50,000 job opportunities in the State. The breakthrough was announced by the state's Employment Generation, Skill Development and Training Minister Aman Arora at the Chief Executive Officers (CxO) Meet-2024, organized to foster collaboration among industry leaders, policymakers, and stakeholders.

During the event, MoUs with 20 industries, including National Association of Software and Services Companies (NASSCOM), Industry Associations from Mohali (SAS Nagar) Amritsar, Ludhiana and Patiala were inked. Arora digitally inaugurated 23 training centres comprising 750 candidates statewide. Additionally, the Minister felicitated 100 winners of the World Skills Competition with medals and certificates.

Addressing the gathering, Arora emphasized that skill development is crucial at present, highlighting Punjab's accomplishments in this area while acknowledging that there is still a long journey ahead to achieve the desired goals. He also urged the industry to actively participate in the mission of empowering the youth of the state with enhanced employability skills.

Principal Secretary, Employment Generation, Skill Development and Training, Jaspreet Talwar spoke about the initiative that focuses on fostering collaboration and dialogue among senior executives in the skill development sector. The main objective of the event was centred around aligning skill development programs with industry requirements, enhancing employment opportunities, and fortifying the skill ecosystem in the state, she said.

Punjab's e-auction of properties yields Rs 2,945-cr in a single day

PNS ■ CHANDIGARH

Punjab's real estate market witnessed a significant boost as the state's development authorities collectively amassed a staggering Rs 2,945 crore in a single day from an e-auction of various properties. The auction, held on September 16 (Monday), is being hailed as a testament to its investor-friendly policies by the government, which has been actively promoting development and creating opportunities for citizens.

The e-auctions, which began on September 6, featured a wide range of properties including group housing, multiplexes, commercial chunks, residential plots, and small commercial establishments like booths and shops. The Punjab Urban Planning and Development Authority (PUDA) and several regional authorities, such as Greater Mohali Area Development Authority (GMADA), Ludhiana, and Bathinda Development Authorities

(BDA), facilitated the auction, which saw enthusiastic participation from individuals and businesses alike.

Chief Minister Bhagwant Mann praised the public's overwhelming response and highlighted the government's efforts in creating an investor-friendly environment. "The massive turnout for these auctions reflects the people's faith in our pro-development policies. Every penny generated from these auctions will be reinvested into infrastructure projects to further improve the quality of life in Punjab," Mann said.

The auction results were particularly impressive, with GMADA alone contributing Rs 2,505 crore to the state's coffers by successfully auctioning two commercial chunks of Sector 62—one each situated in Eco City-1 and Aerocity; three group housing sites located in Sector 66, Ecocity-2, and Medicity respectively; besides 16 SCOs and 12 booths situated in different sectors of Mohali.

PUDA	Rs 224.11 crore
GMADA	Rs 2,505.45 crore
GLADA	Rs 108.59 crore
BDA	Rs 46.29 crore
PDA	Rs 21.39 crore
JDA	Rs 20.63 crore
ADA	Rs 19.25 crore
Total	Rs 2,945.71 crore

PUDA, which conducted the sale of 162 optimum Utilization of Vacant Government Lands (OUVGL) properties, earned Rs 224 crore; while GLADA brought in Rs 108 crore by auctioning 32 properties. The remaining revenue came from BDA, ADA, PDA, and JDA, all of which successfully auctioned several plots.

As per information shared, BDA was able to auction 23 properties, ADA and JDA found bidders for 34 and 22 properties respectively and

PDA auctioned 17 properties. Mann said that the successful bidders would be allotted the sites on depositing the 10 percent payment and possession would be handed over to them on payment of 25 percent of the total bid amount.

Officials lauded the smooth and transparent auction process, attributing its success to the professionalism and dedication of the staff involved. These properties are expected to attract further investment and spur economic growth in the region.

PM MODI TO ADDRESS RALLY IN SONEPAT ON SEPT 26

Chandigarh: Prime Minister Narendra Modi will address a rally in Sonapat on September 26, his second for the BJP in the State Assembly elections, BJP's State unit chief Mohan Lal Badoli said on Tuesday. Union Home Minister Amit Shah would release the party's poll manifesto for Haryana on Wednesday, he said while exuding confidence that the BJP would retain power in the state. "Prime Minister Modi ji will address a rally under Sonapat Lok Sabha on September 26," he told reporters in Rohtak, adding that the PM would address a couple of more rallies in the days to come, including one under the Hisar Lok Sabha seat.

SENIOR BJP LEADER VIRK JOINS CONGRESS

Chandigarh: Ahead of the Assembly elections, senior BJP leader and former Chief Parliamentary Secretary (CPS) Bakhshish Singh Virk on Tuesday joined the Congress in the presence of state party president Udai Bhan and former CM Bhupinder Singh Hooda in New Delhi. Virk was denied a ticket for the upcoming elections, causing discontent among his supporters. His step is seen as a major boost for the Congress, particularly in the Assandh Assembly segment, where Congress candidate Shamsheer Singh Gogi is contesting. Virk, a prominent Sikh leader, had earlier expressed his disappointment after being denied the BJP ticket, but had maintained that he would remain in the party and not contest the election. However, after consultations with his supporters, he has decided to align with the Congress. Virk was first elected from the Assandh constituency in 2014 during the Modi wave. He had won the seat by a margin of 4,608 votes. Meanwhile, JJP district spokesperson Yashkaran Rana also joined the Congress in Delhi on Tuesday. He had recently resigned from the post and started campaigning for Congress candidates in Karnal and Gharanda.

STATEWIDE SEIZURES OF ILLEGAL LIQUOR, NARCOTICS & VALUABLES WORTH RS 26.82 CRORE SO FAR: HRY CEO

Chandigarh: Haryana Chief Electoral Officer Pankaj Agarwal on Tuesday said that from August 16 to September 16, 2024, a total of Rs. 26.82 crore worth of illegal liquor, narcotics, cash, and valuable items have been seized in the state. To prevent voters from being influenced by any form of inducement, the Commission is maintaining a rigorous stance, and various agencies are closely monitoring the movement of illegal liquor, narcotics, and cash in the state. Agarwal said that Haryana Police, along with other agencies, is continuously maintaining strict vigilance. Since the Model Code of Conduct came into effect, actions have been taken by the Police Department, Income Tax Department, Excise and Taxation Department, State Goods and Services Tax, Railway Protection Force, and Narcotics Control Bureau. Agarwal further informed that over Rs. 4.73 crore in cash have been seized by the police, Income Tax Department, and State Goods and Services Tax departments. In addition, various agencies have seized more than 3.26 lakh litres of illegal liquor worth over Rs. 9.82 crore. This includes over 2.39 lakh litres of illegal liquor worth more than Rs. 7.80 crore seized by the Haryana police, and over 86,121 litres worth more than Rs. 1.96 crore seized by the Excise and Taxation Department. Apart from this, other agencies have seized 725 litres of illegal liquor worth over Rs. 4 lakh.

OVER 29,000 POLICE PERSONNEL AND 225 PARAMILITARY COMPANIES TO BE DEPLOYED IN HRY ASSEMBLY POLLS: DGP KAPUR

Chandigarh: Director General of Police (DGP) Shatruej Kapur on Tuesday said that the State Police is fully prepared to ensure the smooth, free, fair, and peaceful conduct of the Assembly elections scheduled for October 5. More than 29,000 police personnel, along with 225 paramilitary companies, will be deployed across the state, with 70 paramilitary companies already stationed in various regions. The police are maintaining a strict vigil to ensure adherence to the Model Code of Conduct. Kapur further said that each aspect of maintaining law and order during the election process has been meticulously examined. He informed that a total of 20,629 polling booths will be set up at 10,495 polling locations across the state, where an adequate police presence will be maintained. Among these, 3,460 polling booths have been classified as critical, and 138 have been deemed vulnerable, necessitating additional security measures. DGP Kapur further highlighted that 155 interstate and 143 intra-state checkpoints have been established, where police teams will monitor movements closely. To maintain law and order and ensure compliance with the Model Code of Conduct, the state has also formed 480 flying squads, 419 static surveillance teams, and 32 quick response teams. Additionally, 1,128 patrolling parties are actively monitoring the situation day and night. Regarding licensed arms, DGP Kapur shared that a total of 1.32 lakh arms licenses have been issued in the state, of which 1.05 lakh licensed weapons have been deposited at police stations in view of the elections. So far, 52 licensed arms have been confiscated for violations of the Model Code of Conduct, and 1,080 arms licenses have been revoked.

INLD, JJP & HLP ARE B TEAM OF BJP: BHUPINDER HOODA

Chandigarh: Former Chief Minister and Leader of Opposition Bhupinder Singh Hooda on Tuesday said that INLD, JJP and HLP are the B team of BJP. "Their Jugalbandi has also become public in Sirsa. All the opposition parties of Congress are helping each other. These parties have also distributed tickets accordingly and are now doing the drama of withdrawing nominations," he said. Sirsa BJP candidate Rohtash Jangra on Monday withdrew his nomination from Sirsa Assembly seat and said that he has extended his support to Haryana Lokhit Party chief Gopal Kanda. Talking to reporters, the senior Congress leader said, "But now, no matter how many conspiracies BJP and its allies make, all communities of the state have made up their mind to bring Congress to power with a huge majority. Soon there will be big rallies of senior Congress leaders in the state and on October 8, the mandate will come in favor of the party." "When the Congress government is formed, we will give a pension of Rs 6,000 per month to the elderly, domestic gas cylinder for Rs 500, one lakh permanent jobs in the first year, 300 units of free electricity to every family, Hooda added.

PUNJAB WATER RESOURCES MINISTER INSPECTS BHAKRA DAM, EMPHASIZES OPTIMAL WATER USE

Chandigarh/Nangal: Punjab Water Resources and Soil and Water Conservation Minister Chetan Singh Jouramajra on Tuesday conducted an inspection of Bhakra Dam on Tuesday to evaluate its maintenance and current water levels. He emphasized the State Government's commitment to conserve groundwater by maximizing canal water usage for drinking, irrigation, and industrial purposes. The Minister closely reviewed the dam's maintenance procedures, interacted with the officials, and provided key directives for improving canal water utilization. He stressed that timely repairs and enhancements to the canal system are a top priority to ensure efficient water distribution across the state. During a media briefing, Jouramajra reaffirmed the State Government's dedication to fulfilling its obligations with the Bhakra Beas Management Board (BBMB), including completing the recruitment of Punjab's share of posts in BBMB. The Minister also toured various facilities at the dam, including the power generation unit, infrastructure, and the modern museum. His visit concluded with a symbolic tree-planting ceremony, underscoring the government's focus on environmental sustainability.

PAPER WITH PASSION

First 100 days of Modi 3.0

As PM Modi marks 100 days, his Govt has achieved significant milestones, but new challenges demand nuanced approach

As the Narendra Modi-led NDA Government completes 100 days in office, a reflective assessment reveals notable accomplishments, emerging challenges, and key shifts from its earlier tenures. The Government continues to advance its vision of a "New India," driven by development, global leadership, and inclusive growth. However, the complexities of governance and the evolving political landscape have also introduced fresh hurdles that demand careful navigation. The biggest shift has been in the composition of the Government. Though PM Modi retained his previous cabinet with minor changes but the reliance on allies makes his third term depart from his earlier two terms where he had complete say in governance and policy making. The coalition compulsions led to roll back on 'lateral entry' and rethink on 'broadcast bill.' However, there is continuity in the policies. One of the key achievements of Modi's third term is the continued expansion of India's global footprint. His high profile visit to Ukraine and Russia where he implored the two sides to "to sit down and talk" won him praise. Besides, furthering his "Act East" initiative got a push through his visit to Singapore and Brunei. Indeed, the government has also taken bold steps in shaping foreign policy, such as balancing its relations with the US, Russia, and China.

In its first 100 days the Government approved projects worth Rs 3 lakh crore, focusing on roads, railways, ports, and airways. Capital expenditure was raised to Rs 11.11 lakh crore to spur job creation. Significant efforts were made in the agriculture sector, with Rs 20,000 crore distributed to 9.3 crore farmers under the PM Kisan Samman Nidhi scheme, while MSP hikes benefited 12 crore farmers. The GENESIS program was launched to support startups in Tier-II and Tier-III cities, alongside a Rs 2 lakh crore package for youth employment, targeting 41 million over five years. Women empowerment saw the recognition of over 1 crore 'Lakhpati Didis.' On security front, a peace deal was brokered in Tripura, and steps were taken to counter cybercrime with initiatives like the 'Samanvay' platform and a Cyber Fraud Mitigation Center. Despite big ticket announcements and policy decision the Government will have to be mindful of the challenges that must be addressed immediately. Despite a development push, India faces rising inflation, particularly in food prices, affecting the average citizen. The political climate has become increasingly polarised. The government is facing opposition over economic policies, controversial legislative moves like the Uniform Civil Code, and rising social tensions. The upcoming assembly elections, especially in Jammu and Kashmir would be a referendum of its policies. The Government did well to built upon the successes of its earlier terms, but now it faces new challenges that demand nuanced responses. From fortifying India's global position to tackling domestic concerns like inflation, economic growth, and social unity, the Government's approach will be crucial for shaping the future of the nation.

Kejriwal's resignation: Theatrics at its best

Beneath Kejriwal's impassioned speech lay contradictions, omissions, and questionable parallels aimed at swaying the electorate

Kejriwal's expertise in political charade was on show when he spoke to his party members on 15th September, two days after being released from Tihar jail on interim bail granted by the Supreme Court subject to stringent, limiting conditions. He made this out to be an acquittal when it was only a reprieve and an initial indictment. He started with Vande Mataram, Bharat Mata ki Jai, and Inqalab Zindabad, invoking Hindutva, patriotism, and the anti-government revolutionary sentiment of our freedom struggle. He likened himself to Bhagat Singh by quoting from his diary and drawing parallels with the legendary freedom fighter. He sought the sympathy of the electorate by making out the Central Government to be more cruel than the British rulers and to be wanting to destroy him and AAP. He made himself out to be the Messiah of Democracy trying to save the Constitution, which is why, he claimed, he had not resigned earlier. The coup de grace was his

announcement that over the next two days, he would quit as Delhi's CM and not sit on the CM's chair until and unless the public judges him to be honest. He reminded his audience of the Agnipareekshathat Sita had to undergo, after Lord Rama's 14 years-long exile, to prove her innocence. He was, he said, willing to undergo a similar trial-by-fire to prove his innocence by seeking the public's mandate. Not even once, did he name the BJP or Modi; both were subsumed in the innocuous pronoun "they". It was a masterly performance of demagoguery. In the hoodwinking of the Indian masses, Kejriwal is miles ahead of other politicians. He evokes emotions and

obscures facts, sometimes even twisting them. Consider these omissions and contradictions. If Kejriwal wanted the people's verdict, to assuage his "conscience", he should have resigned much earlier, when he was sent to Tihar. Why do it after the SC has severely limited your powers as CM? Bhagat Singh was fighting for the country's independence and was accused of sedition, Kejriwal for his political survival after being found prima facie guilty of corruption by court. Bhagat Singh was hanged by the British rulers. GoI is unlikely to do that with Kejriwal. The parallel drawn was specious, the basis given — of the undelivered letter to LG — crafty. He boasted of the freebies he has been able to give because of his uncorrupted government — free electricity and free bus travel for women — unmindful of the burden that the honest taxpayer has to bear to fund his vote-buying spree and the damage it does to the national capital's exchequer.

His claim of improved medical care and better government school education would be contested by many Delhi-ites. His mohallaclinics are ministered to by unqualified doctors who visit on an ad hoc basis. Many government schools are short of teachers and have poor infrastructure. As always, he appealed to the emotions of the gullible electorate of the slums, announcing that he would not sit on the CM's chair unless and until the public judges him to be honest by voting him into power in the next assembly elections. Surely, he would have known that, given the serious corruption charges against him, his honesty would be judged not by the common man on sentiment but by erudite judges, well-versed in law, based on concrete evidence admissible in law. (The writer, a former banker, has turned in his mellow years to column-writing out of his love for nonviolence, social harmony and universal brotherhood; views are personal)

PRADEEP BAJPAI

Myanmar Junta on the backfoot

For the first time, the military junta is losing ground to a powerful alliance of Ethnic Armed Organisations and the People's Defence Force

ASHOK K MEHTA

On 3 September, the palace in Mandalay, (HQ Central Command), the second biggest city in Myanmar after Yangon, faced its first rocket attack. The Southwest Rakhine state could fall shortly with two strategic ports overlooking the Bay of Bengal-Sittwe leased to India and Kyaukphu leased to China- and Manaung left in Junta's possession in Rakhine. Military coups in the past have not failed in Myanmar. It has the biggest military in southeast Asia not unfamiliar with coups. Thailand holds the dubious record of 32 coups since 1932. More than nearly four years later, Gen Min Aung Hlaing-led Junta in Myanmar is fighting a losing battle but this time not against Buddhist monks and civil society but against a well-coordinated alliance of Ethnic Armed Organisations (EAO), local militia and the new People's Defence Force born out of ousted Aung San Suu Kyi's National League for Democracy which is calling itself the National Unity Government (NUG). They are the Resistance.

Thailand. Junta has had to abandon trade routes to China in the northern Shan state; along the Karenni National Army-controlled border with Thailand at Myawaddy; in Rakhine state with Bangladesh and parts of Mizoram in Chin state and in Sagaing region opposite all of Manipur except Ukhrul and Moreh that PDF controls. The Kuki-Zo-Chin people in Chinland are ethnically similar to Mizos. Chinese have had active links with the Arakan Army in Rakhine state which traverses India's Multi-Modal Kaladan river connectivity project originating in India-operated Sittwe Port in Rakhine, the key to India's Act East policy. So, with the Junta forced out of Chin, Rakhine, Sagaing and Magwae, contiguous with the Indian border, New Delhi must engage these new power wielders. But it is dithering which could lead to Chinese fishing in troubled waters in a region where Manipur is breaking into a new dangerous phase of inter-ethnic conflict. Earlier in September embattled Gen Hlaing warned civilians in territory captured by Resistance that it will soon counterattack to regain ground. He also declared the Three Brotherhood Alliance in Shan state as a terrorist organization. It is these groups including the Arakan Army, that have captured the prestigious Army's North East Command at Lashio and in

THE JUNTA IS A FORMIDABLE TRISERVICE FORCE ADEPT IN COUNTER-INSURGENCY. FOR IT TO BE FLAILING IS SURPRISING. BATTLEFIELD LOSSES HAVE BEEN UNPRECEDENTED IN BOTH TERRITORY AND MANPOWER THROUGH BATTLE FATIGUE AND FIGHTING ITS PEOPLE HAS BEEN TAXING ON THE PSYCHE OF SOLDIERS AND GENERALS

Shan state and now Mandalay's Central Command headquarters, is threatened. How much longer the junta can fight on multiple fronts is unclear even as Gen Hlaing has continually extended the emergency while advocating holding of election which is most unlikely. He is disinclined to use the good offices of pro-Junta countries in ASEAN like Laos, its current chair, Cambodia and Thailand to start a dialogue which the PDF and EAOs will reject as they see the balance of advantage with them. With the economy in grave distress, this war cannot go on indefinitely. China has and continues to play a crucial role in supporting the Junta and selected EAOs in the north and west. China and Russia are the junta's main sources of military hardware though India too has provided non-lethal military equipment. Army tanks, artillery and small arms are Chinese. So are most of the transport and fighter aircraft. The same goes for the Navy though India has provided Coast Guard vessels. Russian MiG 29 and Su30 aircraft have been serviced by HAL and India has provided aviation fuel which is a sanctioned item. New Delhi has called for a ceasefire and a return to a democratic process but its support for the Junta is undiminished as it burnt its fingers two decades ago in supporting NLD in preference to

the Junta which led to Chinese ascendancy. Although the Junta has a love-hate relationship with Beijing it is forced to take its support due to its proximity and domination of the economy. Still, India must review its policy due to the changed ground reality and engage the forces that control the border areas. A working relationship with the Arakan Army and Chinland authorities is essential to restore stability to troubled Manipur. It should also consider establishing humanitarian corridors to provide succour and relief to people bombed out of their habitat. India can keep reciting the import of its Act East policy to Asian neighbours but its implementation is contingent upon the operationalisation of connectivity projects like the trilateral highway through Myanmar to Thailand and the Multi-Modal Kaladan river project from Sittwe Port to Paletwa and on to Mizoram. India's eastern and western flanks are both vulnerable especially the east which is sandwiched between Bangladesh and Myanmar. A triangulation of threats from Pak-China-Bangladesh can not be ruled out. LETTERS TO THE EDITOR

KEJRIWAL'S RESIGNATION

Madam — The Delhi CM Arvind Kejriwal's decision to resign to the post is not surprising since the Supreme Court's bail conditions have restricted his access both to the physical office to the CM office and its official authority. But Kejriwal's strategy to face elections and secure fresh mandate in order to get the "certificate of honesty" from the people isn't easy. Last time Kejriwal resigned as CM, he returned to office with a landslide win. Much water, and waste, has flown in the Yamuna since. Over it, hangs almost a decade's worth of anti-incumbency. This can't simply be wished away by replaying the resignation card. AAP has tasted success by getting accorded as national party. While it has a super majority in the Punjab assembly and five seats in Gujarat, Delhi is crucial to further its political base and Kejriwal's ambitions. In BJP, it has a relentless opposition and the party remains in good health. In the other hand, AAP doesn't have this luxury at all. As its principal campaigner, Kejriwal has to deliver big. But he now doesn't enjoy the unblemished image being an accused in multi crore excise scandal. Only time will decide the fate and future of the Kejriwal and his party. But in all this drama, the capital's citizens find themselves lost and unheard. At the end of elections, the national capital will hope to have a normal govt. N Sadasiva Reddy | Washington

AMIT SHAH CAMPAIGNS IN JAMMU

Madam — Reference: HM shah to wrap up first round of High voltage campaign in Jammu (September 16). The conclusion of HM Shah's high-voltage campaign in Jammu marks a significant moment in the region's political landscape. This campaign has seen fervent discussions on development, security, and local concerns, bringing national attention to the area. However, it's crucial that the energy from this campaign translates into tangible actions that address the everyday struggles of the people. Priya Gupta | Kishinagar

India brokers peace

As a further escalation in the Russia-Ukraine conflict appears likely, India's possible role in peace negotiations have come into sharp focus, in the wake of recent diplomatic activity, mainly of External Affairs Minister S. Jaishankar and National Security Ajit

Doval. Given India's unique placement on the spectrum of positions on the conflict, based on its historic, strong ties with Russia, can New Delhi belatedly step up as a possible peacemaker in the conflict persisting for well over two years? The Ukraine's Ambassador to India Oleksandr Polishchuk said that Ukraine President Volodymyr Zelenskyy had proposed a retrospective move by India to join the peace process ahead of plans for a second Peace Summit in October or November this year, and that Ukraine had more "ambition" than for India to play "post office" between the leaders. We hope that PM Modi's visit to Ukraine and conversations with President Zelenskyy indicate India's support for the peace-building effort. Jayanthi Ramani | Coimbatore

Promises made should be followed by clear timelines and transparent policies, ensuring that the political enthusiasm doesn't fade post-election. The people of Jammu need long-term solutions, not just campaign rhetoric. It's vital that this momentum is maintained, and leaders remain accountable to the commitments they've made during this charged political engagement. As the campaign wraps up, eyes will be on the next steps and whether real progress follows the promises made. Priya Gupta | Kishinagar

in Railway Banking Postal sectors. Hindi is so "friendly" with others that it enjoys more Central fund for its "promotion" than the amount allotted for rest of the Indian languages put together! Yet, it remains the fact that there lies no provision of any "National Language" in the Indian Constitution. Hindi is just another language of this multi-lingual India; the latter's right over the country is neither superior nor inferior to the other languages. Thus, those who zealously project Hindi as "numero uno" and imposing it over all are merely assailing the very basis of the Constitution - posing a fatal assault upon all norms of democracy and equality. The Government should see to it that all funds related to promotion of languages do not get usurped by Hindi. Thus if an equitable distribution of Central resources is ensured, it would benefit the cause of all languages and dialects to a great extent. Kajal Chatterjee | Kolkata

LEARNING IS A LIFELONG PROCESS

Life is a continuous education, every experience shapes our understanding

RAJYOGI BRAHMAKUMAR NIKUNJ JI

From the time we are born till the day we die; we keep on learning something in life. Irrespective of whether we want it or not, we can't stop learning because there is no existence of life without the process of learning. Our whole life is a bundle of experience and in turn, an education, where we all are in ever learning mode, every moment and everywhere. As conscious beings, having sense organs, also known as the five doors of knowledge, we, by our very nature, cannot remain without creating perception. Our ears are always open, so we are constantly listening. The words that go through our ears to our brains are like lessons that we receive constantly. Similarly, we see the whole world through our eyes which also results in learning good things as well as bad things. The electrical impulses that we receive through our skin or taste buds, reach our brain which is also a kind of learning for us. However, one must understand the fact that all the above mentioned processes of learning take place by awareness or consciousness that is present in our brain without which learning is next to impossible. Once we finish our studies, we feel that the education phase of our life is finally over and now it's time for us to go out in the world & attain the highest level of success. But doesn't this sound too casual & an odd idea? That only a quarter of our lives should be devoted to learning, and then we should simply rest on our laurels for the remaining part of our lives? Well!! It is said that learning never exhausts the mind, so why do we restrict the process of learning until we are pursuing formal education? Just because you've

finished your formal education, doesn't mean that your education is over! It's quite an erroneous idea, but unfortunately, the majority of us have absorbed it subconsciously. ? Remember !! It is only a dead body that ceases to participate in the process of learning & not the ones who resonate with life. Our life is a series of experiences, each one of which makes us enlightened, even though many times it is hard to realize this. We must always remember that the setbacks and grieves that we endure help us in our marching onward. Hence, we must always make it a point to learn something about everything and everything about something. Throughout our journey of life, we constantly learn some such lessons that result in the formation of sanskaras according to our karma. Hence, if we know clearly that learning is unavoidable and that we are always learning good or bad things, resulting in good or bad sanskaras that lead to happiness or sorrow, then we will never say that we have no time or no interest in learning. Likewise, if we know that our sanskaras go along with our life after life, then we will be more careful in learning good things and in giving up bad things because education seems to be an elixir that can bring us a healthy mind & body along with a lasting fruitful life. We all need to be enlightened & we urgently need to improve the quality of our thoughts, speech and actions. Since we cannot avoid learning, even if we wish, why don't we then learn to inculcate, in us, moral values, virtues or good qualities so that we may make progress towards perfection? What do we gain by making lame excuses, saying that we have no time or that we are not interested? What is it that we are interested in? Are we interested in our downfall, decay or doom? In sinking and drowning deep down in the quagmire of vices, evils and mud? Remember !! The more we delay, the worse will be our condition and the more difficult it will be to rectify our ways. The process of learning, as was said earlier, is ceaseless and continuous and hence someone has rightly said "we learn everyday & shed the ego and the perception that I know everything". Hence we cannot stop it even if we try our best, putting all our might into it. So why not remain alert & follow the right path that saves us from tragedies, traumas, tensions and turmoil of life? The answer lies within us.

Karnataka's dilemma: Conservation vs development

B K SINGH

Buffer zones, designed to protect water bodies, biodiversity, and forest ecosystems, are under threat as development pressures in Karnataka intensify

The buffer Zones are contemplated to secure the core area of streams, water bodies and biodiversity sites and definitions in each case are supported by respective statutes, government guidelines and Court orders. The flow of water in stormwater drains and urban lakes needs to be regulated at the time of cloud bursts in the city causing flooding. Karnataka State Board for Prevention and Control of Water Pollution was amended in December 2021 to locate red industries beyond 500 meters from the centre of the stream and also at the same distance from the outer boundary of the lake. 75 meter buffer Zone is fixed for orange industries and 30 meters for non-polluting green establishments. Zonal regulation of Bangalore Development Authority also prohibits any development within 30 meters from the outer boundary of the lake and similarly primary, secondary and tertiary drains have a buffer zone of 50, 25 and 15 meters from the centre on either side. Karnataka government is contemplating utilising barren buffer Zone areas for development and this would not go well with the environment conservation ethos and would have wide ranging repercussions like destroying the natural drainage pattern of the landscape and would bring misery to the people at the time of flash floods. It is recommended to evict encroachments from buffer areas and plant up with native tree species. To protect the integrity of the forests and to minimize the interference of communities around, rule 41 of Karnataka Forest Rules, 1969 specifies a buffer Zone of 100 meters from the periphery of Reserved Forests. The rule in effect prohibits the grant of any revenue land within 100 meters from the fringes of the forests without express approval from the Forest Department. Legislatures in 1969 knew that if revenue land abetting forests is granted to any individual or used for community projects, the forests would be subjected to anthropogenic pressure and

THE GROUP OF POLLUTING INDUSTRIES LIKE MINING, QUARRYING, ETC HAS BEEN PROHIBITED IN ESZ, WHILE SOME BUSINESSES LIKE RESORTS, TREE FELLING ETC ARE TO BE REGULATED AND ECO-FRIENDLY ACTIVITIES LIKE AGRICULTURE AND HORTICULTURE DEVELOPMENT ARE TO BE PERMITTED

would be encroached and degraded. Today we find that the provision has not been implemented in true spirit and there has been large-scale unauthorized occupation of forest lands after plundering the tree growth. Revenue lands are also lost in the process. If the provision is not properly regulated, even the deemed forests will be plundered and tree growth and lands will be lost. Forests are the mothers of rivers. The origin and catchments of many rivers are notified by Tiger Reserves (TRs). The original TRs that have been carved out of forests, Sanctuaries and National Parks are its core areas. By an amendment in the Wildlife (Protection) Act, 1972 in 2006, it was mandated to include areas surrounding the core, as buffer areas. In respect of several TRs, buffer areas have already been notified, but many more are still pending. The buffer areas of the TRs include forest areas, sometimes even part of the Sanctuaries and National Parks interspersed with villages and agricultural lands. With the apprehension that the area commands a higher degree of protection and it may be difficult to divert any portion of it for public projects later, many state Governments are holding back the notification. Buffer for Nagarhole TR in Kodagu district of Karnataka has not been notified even after 18 years of amendment. Cores and buffers of TRs comprise luxuriant forests and are an important source of water, air, carbon sequestration, and controlling disease-spreading viruses necessary for the survival of humans and all other forms of life on earth. Taking a cue from the Environment (Protection) Act, 1986, the

Supreme Court of India earlier laid down an 'Eco Sensitive Zone' (ESZ) of 10 km from the periphery of National Parks and Sanctuaries, which are not TRs. It led to a huge public outcry and that resulted in several state Governments moving the Court for modification. Finally, the Court has relented and prescribed a minimum width of 1 km. The Ministry of Environment and Forests has categorized industries into three groups. The group of polluting industries like mining, quarrying, etc has been prohibited in ESZ, while some businesses like resorts, tree felling etc are to be regulated and eco-friendly activities like agriculture and horticulture development are to be permitted. Mining and quarrying lobby located on the fringes of National Parks and Sanctuaries, who aspire to expand the activities, prevail on public representatives and government to lower the width of the strip and postpone ESZ notification. Many ESZ proposals are caught in the crossfire and are held back either by respective state governments or central governments, making the conservation of biodiversity and protection of soil and water more difficult. This makes National Parks and Sanctuaries insecure. Anshi National Park and Dandeli Sanctuary of Uttar Kannada district of Karnataka have ESZ strip of zero meter width along some portion of the boundary. The origin of river Kali, on which we are dependent for power, is kept out of ESZ and made insecure. To make way for the Saravathi pump storage project near Jog Falls, the width of the ESZ strip around Saravathi Sanctuary is reduced from the proposed 2 km

to 1 km. Energy experts have questioned the viability of such projects, where excess power generated during the night time is utilized to pump the same water to the upper reservoir, which in turn can again be utilized for power generation by allowing it to flow down to the lower reservoir under gravity. We have also to sacrifice 200 ha of virgin forests of the Western Ghats in this case. This author had an opportunity to visit a similar project site "Purulia Pump storage project" in West Bengal in 1993 while working in the Government of India. Against the recommendation, the project was approved by the Ministry of Environment and Forests. We destroyed 200 ha of wonderful Sal forests and today the project is a failure. Sal forests are the source of artisan wells and we lost them. The tragedy in Wayanad in the wee hours of 30th July 2024 is also attributed to the diversion of wooded areas for tea plantations and mining causing a major shift in land use pattern and exposing the earth rich in clayey soil to absorb water during incessant rains, swell sufficiently to become unstable and prone for landslides. Expert Committees headed by Madhav Gadgil and Kasturirangan have recommended Western Ghats areas be notified as Eco-Sensitive Areas (ESA) so that environmentally hazardous activities like deforestation and diverting lands for mining, industries etc are prohibited. Both the states of Karnataka and Kerala have not come on board to notify section of Western Ghats areas in the state as ESA. (The writer is retired Principal Chief Conservator of Forests, Head of Forest Force, Karnataka; views are personal)

India must address the growing crisis of spinal cord injuries

As India faces an alarming rise in spinal cord injuries, the call for a comprehensive support system has never been more urgent

As India faces the staggering reality of thousands of fatalities and with 15 lakh people living with spinal cord injuries (SCIs), the call for a robust support system is now more critical than ever. On the occasion of SCI Day (September 5), the healthcare experts and leaders geared up to strongly advocate for a holistic and inclusive solution that includes surgical interventions and comprehensive rehabilitation programs. According to the WHO reports every year, between 250,000 and 500,000 people suffer a spinal cord injury (SCI). The majority of SCIs are due to preventable causes such as Road Traffic Accidents (RTAs), Falls or Violence. As many as 1.2 lakh die and

VIKAS TANDON

another 12 lakhs are seriously injured in road accidents in India. India has 15 lakh people with SCIs and nearly 20,000 people are added each year. SCI is devastating, with morbidity not only limited to physical aspects but emotional, social, and vocational life areas too. Violence stands as one of the top three causes of SCIs in India, according to a recent study by the Indian Spinal

Injuries Centre (ISIC). Analyzing data from 2012 to 2022, the study revealed that road RTAs accounted for 44% of SCIs, followed closely by falls from heights at 38.3%. Violent incidents, including stabbings and shootings, also significantly contributed, highlighting the diverse factors leading to these life-altering injuries. The study encompassed 1,537 SCI patients admitted between 2012 and 2022, maintaining consistency with earlier findings from 2002 to 2010, which reported RTAs at 45% and falls at 39.64%. In the last 10 years, the Centre treated nearly 200 SCI patients who were victims of violence. This year's theme of SCI Day is "End Violence - Protect Spinal Cord." It is very crucial

to intensify awareness and preventive and curative efforts. Spinal cord injuries are not just physical afflictions; they profoundly alter every aspect of life, including emotional well-being, social interactions, and vocational capabilities. Addressing these issues requires a comprehensive, multifaceted approach that includes policy recognition, accessibility, enhanced safety measures, and robust treatment and rehabilitation services. Rehabilitation is vital for improving the functional abilities of persons with SCIs. This multifaceted process includes physiotherapy, occupational therapy, peer counselling, plastic surgery, psychological mentorship, nursing care, assistive technology, uro-

logical care, and vocational support—often essential following surgical stabilization of the spinal column. Rehabilitation, which is critical in teaching patients to adapt to their new normal post-injury, remains inadequately covered under existing government schemes and

insurance plans. Unfortunately, rehabilitation costs are rarely covered by government schemes like CGHS, DGEHS, and ECHS, nor by many insurance companies, posing significant financial challenges for SCI patients. The Delhi High Court's 2023 directive to include disabled

persons in insurance schemes is a significant step toward equality, especially for SCI patients facing ongoing medical expenses. The 2016 Disabilities Act expanded recognized disabilities but excludes spinal cord injury (SCI) as a separate category. Including SCI would grant patients access to key benefits like reservations and vocational support. Despite progress in accessibility under the Accessible India Campaign, universal access and vocational opportunities for SCI patients remain incomplete. On the treatment and care part, all solutions under one roof are needed with highly experienced, internationally trained, and dedicated spine surgeons. The Centre has also established India's first dedicated

neuro-urology department to take care of SCI patients who suffer considerably after spine surgery and are neglected. Institutions like ISIC provide essential surgical, rehabilitation, and vocational training, but gaps remain in broader societal support, particularly in accessibility and long-term healthcare affordability. It should be a mission to create holistic and inclusive solutions for those battling spinal cord injuries, aiming to build a society that truly values diversity and inclusivity. There is a need to provide more facilities and services for all SCI patients, including those who are victims of violence. (The writer is chief of Spinal Services, Indian Spinal Injuries Centre, New Delhi; views are personal)

Government has implemented several farmer-friendly policies: Amit Shah

PTI ■ NEW DELHI

The government has implemented several farmer-friendly policies in its first 100 days of the third term with focus on improving agricultural productivity and exports, Cooperation Minister Amit Shah said on Tuesday.

Addressing a press conference on the completion of 100 days of the Modi 3.0 regime, Shah said the government has implemented policies worth Rs 15 lakh crore across 14 sectors.

Listing works initiated for the welfare of the farmers, he also said the Modi government has launched the agriculture fund to support startups and rural enterprises, driving agricultural innovation.

The minister said the Agriculture Infrastructure Fund has been expanded to enhance agricultural infrastructure and support to farmers, and Rs 14,200 crore has been allocated across seven schemes to improve farmers' lives and livelihoods. The minister highlighted key achievements in the farm sector, including the disbursement of Rs 20,000 crore to 9.3 crore farmers under the Pradhan Mantri Kisan Samman Nidhi (PM-KISAN) scheme.

"Prime Minister Narendra Modi's first decision of his third term was disbursement of Rs 20,000 crore to 9.3 crore farmers under the 17th instalment of PM Kisan Nidhi. So far, Rs 3 lakh crore has been disbursed to 12.33 crore farmers," Shah said.

The PM-KISAN offers an annual benefit of Rs 6,000, distributed in three equal instalments of Rs 2,000 every four months, directly into the bank accounts of eligible farmers through the Direct Benefit Transfer (DBT) system.

The minister said that farm policies are being implemented keeping in mind the welfare and

prosperity of the farming community.

"This will help boost the country's foodgrains production and exports, thereby improving farmers' plight," he added.

Highlighting the government's commitment to farmers, Shah said, "Compared to the UPA regime, the Modi government has procured more crops at MSP. This shows that the NDA government is committed towards the farmers".

The MSP for Kharif crops has been increased for the 2024-25 season, ensuring that the farmers get fair prices for their produce. They will

receive Rs 2 lakh crore through MSP, he added.

He also said the government will construct wheat silos with a combined capacity of 3.4 million tonnes (MT) across the country. This will reduce grain losses and extend shelf life.

The minister said special Di-Ammonium Phosphate (DAP) subsidy packages have been provided at Rs 3,500 per MT to P&K fertiliser companies to ensure affordable soil nutrient availability for farmers.

He said five integrated aquaparks will be set up in the country to strengthen the fisheries sector.

A total of 109 climate-resilient and biofortified high-yielding crops were dedicated to boosting productivity and bridging the gap between lab and land.

Under the 'Mission Mausam' with Rs 2,000 crore outlay, the government will help create a weather-ready and climate-smart Bharat, directly benefitting the agriculture sector.

He said under the Digital Agriculture Mission, farming will be modernised through digital technology.

To boost ethanol production, the minister said sugar mills are being converted into multi-feed distilleries.

"Now, mills can make ethanol not only from sugarcane juice but also from maize. Ethanol will be made from maize when sugarcane juice is required for making sugar in the country.

Ethanol from sugar juice will be made when there is higher sugar production," he explained.

Besides, he said, Rs 12,100 crore has been sanctioned by the government for Polavaram Irrigation Project to boost irrigation capacity. Under the Clean Plant Programme with a budget of Rs 1,765 crore, the government will enhance fruit crop standards and establish nine state-of-the-art clean plant centres and 50 multi-product irradiation facilities for helping preservation of fruits and vegetables, he said.

In a move to support exports, the minister said the minimum export price (MEP) on onion and basmati rice has been scrapped.

These policies are part of the government's broader strategy to enhance farmer welfare and boost India's agricultural exports, Shah said. Shah was flanked by Information and Broadcasting Minister Ashwini Vaishnav at the press conference.

Wholesale inflation falls a four month low in August

PTI ■ NEW DELHI

Wholesale inflation fell to a 4-month low of 1.31 per cent in August due to a decline in prices of vegetables and fuel, even though onion and potato prices spiked, according to official data released on Tuesday.

Wholesale price index-based inflation fell for the second straight month in August after it hit a high of 3.43 per cent in May. Inflation in July was 2.04 per cent. In August last year, WPI inflation was (-) 0.46 per cent.

"Positive rate of inflation in August 2024 is primarily due to an increase in prices of food articles, processed food products, other manufacturing, manufacture of textiles and manufacture of machinery & equipment etc," the Commerce and Industry Ministry said in a statement.

Inflation in food items was 3.11 per cent in August against 3.45 per cent in July. This was led by declining prices of vegetables, which dropped 10.01 per cent in August.

Inflation in potatoes and onions continued to be high at 77.96 per cent and 65.75 per cent, respectively, in August.

Barclays in a note said the slowing in August WPI was driven by a sequential decline in food (vegetable) prices. The continued climb in non-perishable food prices needs to be watched.

ICRA Senior Economist Rahul Agrawal said while Kharif sowing has been healthy so far, the surplus rainfall in the ongoing month can potentially delay the Kharif harvesting and/or impact such yields, even as reasonably healthy reservoir storage at pan-India level is likely to boost the sowing of rabi crops.

"The WPI inflation eased to a four-month low of 1.3 per cent in August 2024, with the fuel and power, core (non-food manufacturing), and crude petroleum and natural gas sub-groups together pulling down the headline WPI print by as much as 70 bps in the month vis-à-vis July 2024," Agrawal said.

Barclays said lower manufactured costs owing to the fall in energy and metal prices reduce the risk of spillover to core consumer price inflation.

Inflation in manufactured products was 1.22 per cent in August.

The fuel and power category witnessed deflation of 0.67 per cent in August against

inflation of 1.72 per cent in July.

ICRA said global commodity prices have remained benign through September 2024 so far, which is likely to contain the sequential momentum in the non-food WPI.

Additionally, the price of the Indian basket of crude oil has averaged 6 per cent lower in September 2024 on a sequential basis, while touching the lowest levels in 33 months, which would also help contain the uptick in the headline WPI inflation print in the month.

Overall, ICRA expects the WPI inflation to rise to 2 per cent in September 2024 from 1.3 per cent in August.

Data released last week showed retail inflation was at 3.65 per cent in August on higher prices of vegetables. This was higher than 3.60 per cent in July. Given the slight acceleration in the August CPI inflation, we think the RBI is likely to remain on a cautious hold at the October meeting and assess the impact of the monsoon on food prices, before considering monetary easing. We expect rate cuts to begin in December 2024," Barclays said.

He Reserve Bank of India (RBI), which mainly takes into account retail inflation while framing monetary policy, kept the benchmark interest rate or repo rate unchanged for the ninth consecutive time in August at 6.5 per cent.

India's exports tumble 9.3 per cent in August

PTI ■ NEW DELHI

India's merchandise exports in August declined 9.3 per cent to USD 34.71 billion from USD 38.28 billion in the year-ago month, according to government data released on Tuesday. Imports increased by 3.3 per cent to USD 64.36 billion in August against USD 62.3 billion a year ago.

The trade deficit, or the gap between imports and exports, during the month under review ballooned to USD 29.65 billion.

India's merchandise exports dipped by 1.5 per cent in July. Exports during April-August this fiscal increased 1.14 per cent to USD 178.68 billion, and imports grew 7 per cent to USD 295.32 billion.

Air India to upgrade its legacy A320 neo aircraft by mid-2025

PTI ■ NEW DELHI

Air India on Tuesday said it expects to complete the upgradation of its 27 legacy A320 neo aircraft by mid-2025, following which all its narrow body planes will have the three-class configuration of business, premium economy and economy seats.

Under the USD 400 million refit programme that commenced on Monday, the Tata Group-owned airline will upgrade all the 67 legacy narrow body and wide body aircraft, including 40 Boeing planes.

The upgradation has started with the single-aisle A320 neo aircraft and after prototyping and necessary regulatory approvals, the plane VT-EXN

is expected to re-enter commercial service in December 2024.

"Following VT-EXN, between three and four aircraft per month will undergo retrofit, with upgradation of the full narrow body fleet expected by the middle of 2025," the airline said in a release.

The refit of the first wide body aircraft will commence in early 2025, subject to supply chains. The carrier's legacy wide body fleet comprises B787 and B777 planes.

The refit project will be coordinated by Air India's Engineering team with leading global OEMs (Original Equipment Manufacturers) such as Collins, Astronics and Thales.

The exercise will see the installation of over 15,000 next generation seats across business, premium economy and economy class, the release said.

Passengers have been complaining about some service issues with the airline's legacy fleet, including those related to inflight entertainment systems.

According to the airline, the refitted A320 neo aircraft will feature 8 business class seats, 24 premium economy seats and 132 economy seats. Among other facilities, these planes will have portable electronic device holders and USB ports.

Air India said the final preparations continue for the full interior upgradation of the 40 legacy wide body aircraft.

"The commencement of interior refit of the narrow body fleet is an important step in our journey of

enhancing the flying experience of our customers. Over time, all the legacy wide body aircraft will also be refitted," Air India Chief Executive Officer and Managing Director Campbell Wilson said.

Currently, Air India has a fleet of 142 planes, including around 60 wide body aircraft. The fleet also includes 11 B 777 planes and 25 A320 family aircraft taken on lease.

After taking over the loss-making Air India in January 2022, Tata Group has put in a place a transformation road map for the airline, which is now expanding its fleet as well as network. The carrier has also started operating wide body A350 planes on various routes.

India, UK may hold next round of talks on proposed FTA in October

PTI ■ NEW DELHI

India and the UK are expected to hold the next round of talks for a proposed free trade agreement in October to resolve the pending issues and close the negotiations, a senior official said on Tuesday.

Commerce Secretary Sunil Barthwal said the officials of the UK are briefing their new ministers about the proposed free trade agreement (FTA).

The two sides have already taken stock of the progress of talks at secretary and minister levels.

"The briefings are going on in the UK...They are briefing their new ministers and based on that, the negotiations will start. We are hoping that in October, the negotiations should resume," Barthwal told reporters here.

He also said India is progressing on all FTAs, but there are certain things which are not in control of anyone.

The India-UK talks for the proposed FTA began in January 2022. The 14th round of talks stalled as the two nations stepped into their general election cycles.

Due to the elections in India and Britain, both the countries lost that period. There are pending issues in both the goods and services sectors. The Indian industry is demanding greater access for its skilled professionals from sectors like IT and healthcare in the UK market, besides market access for several goods at nil customs duty.

On the other hand, the UK is

seeking a significant cut in import duties on goods such as scotch whiskey, electric vehicles, lamb meat, chocolates and certain confectionary items.

Britain is also looking for more opportunities for UK services in Indian markets in segments like telecommunications, legal and financial services (banking and insurance).

The two countries are also negotiating a bilateral investment treaty (BIT).

There are 26 chapters in the agreement, which includes goods, services, investments and intellectual property rights. The bilateral trade between India and the UK increased to USD 21.34 billion in 2023-24 from 20.36 billion in 2022-23. The Labour Party's election manifesto for the recent polls also committed to clinching the deal. A virtual meeting between Commerce and Industry Minister Piyush Goyal and Jonathan Reynolds, UK Secretary of State for Business and Trade was held on July 11 to discuss next steps on the pact. Talking about the trade agreement with Australia, the secretary said that the two sides are looking at ways to conclude the negotiations before December.

Gold imports surge record high

PTI ■ NEW DELHI

Gold imports more than doubled in August to a record high of USD 10.06 billion, mainly on account of a drastic cut in customs duty and ongoing festive demand, according to the Commerce Ministry data.

Gold imports stood at USD 4.93 billion in August 2023. On record high imports, Commerce Secretary Sunil Barthwal said that the tariff rates on gold have been reduced drastically so that smuggling and other activities can come down.

"And this is the time when jewellers start stocking for their inventories to be sold in the festive season," he told reporters.

In the Budget, the government slashed the duty from 15 per cent to 6 per cent.

India's gold imports, which have a bearing on a country's current account deficit (CAD), dipped by 4.23 per cent to USD 12.64 billion during April-July 2024-25. In 2023-24, India's gold imports surged by 30 per cent to USD 45.54 billion.

Switzerland is the largest source of gold imports, with about 40 per cent share, followed by the UAE (over 16 per cent) and South Africa (about 10 per cent).

The precious metal accounts for over 5 per cent of the country's total imports.

The jump in gold imports pushed the country's trade deficit (difference between imports and exports) to USD 29.65 billion in August.

India is the world's second-biggest gold consumer after China. The imports mainly take care of the demand by the jewellery industry.

India recorded a current account surplus of USD 5.7 billion or 0.6 per cent of GDP in the March quarter. For FY24, the current account deficit narrowed to USD 23.2 billion or 0.7 per cent of GDP against USD 67 billion or 2 per cent of GDP in FY23.

A current account deficit occurs when the value of goods and services imported and other payments exceeds the value of the export of goods and services and other receipts by a country in a particular period.

India is seeking review of certain provisions of the free trade agreement with the UAE, which came into force on May 1, 2022.

The review assumes significance as experts have raised serious concerns over the spurt in imports of precious metals from the UAE under the trade agreement.

NIA ties up with Statiq for EV charging infrastructure

PTI ■ MUMBAI

Noida International Airport (NIA) on Tuesday announced a strategic partnership with Statiq to provide EV charging infrastructure at the airside.

As part of the collaboration, Statiq will set up, operate, and maintain the airside electric vehicle charging infrastructure for round-the-clock operations, the company said.

All concessionaires and airport vehicles will have access to this EV charging network, designed to support the airport's sustainability initiatives and reduce emissions across its operations.

The charging infrastructure will allow all airport partners to deploy electric ground support equipment (GSE) and other electric vehicles within the airport.

In the first phase of this partnership, Statiq will install a mix of 7.4 kW AC chargers for smaller EVs, and 120 kW and 240 kW chargers for high-powered, rapid-charging needs, it said.

enhancing the flying experience of our customers. Over time, all the legacy wide body aircraft will also be refitted," Air India Chief Executive Officer and Managing Director Campbell Wilson said.

Currently, Air India has a fleet of 142 planes, including around 60 wide body aircraft. The fleet also includes 11 B 777 planes and 25 A320 family aircraft taken on lease.

After taking over the loss-making Air India in January 2022, Tata Group has put in a place a transformation road map for the airline, which is now expanding its fleet as well as network. The carrier has also started operating wide body A350 planes on various routes.

India, China imports up 15.55 per cent in August

PTI ■ NEW DELHI

India's exports to China dipped by 22.44 per cent to USD 1 billion, while imports rose by 15.55 per cent to USD 10.8 billion in August, according to the commerce ministry data.

Cumulatively, during the April-August 2024-25, exports to the US increased 5.72 per cent to USD 34 billion, while imports grew 3.72 per cent to USD 19 billion, leaving a trade surplus of USD 15 billion. Similarly, the country's imports from Russia dipped by about 40 per cent to USD 2.57 billion in August. During April-August 2024-25, imports grew by 6.39 per cent to USD 27.35 billion, due to crude oil imports. In 2023-24, the US was India's largest trading partner, followed by China.

Thailand, Vietnam and Taiwan, recorded growth.

According to the data, India's exports to the US declined 6.29 per cent to USD 6.55 billion while imports from that country dipped by 6.3 per cent to USD 3.82 billion in August.

Cumulatively, during the April-August 2024-25, exports to the US increased 5.72 per cent to USD 34 billion, while imports grew 3.72 per cent to USD 19 billion, leaving a trade surplus of USD 15 billion. Similarly, the country's imports from Russia dipped by about 40 per cent to USD 2.57 billion in August. NEW SUPPORT STAFF WILL HAVE DIFFERENT PERSPECTIVE, BUT NO PROBLEM AS OF NOW: ROHIT SHARMA

PTI ■ CHENNAI

India captain Rohit Sharma on Tuesday said head coach Gautam Gambhir's style is different from his predecessor Rahul Dravid but insisted he shares a good rapport with the new appointee, and the rest of his fresh set of support staff. Gambhir, a World Cup-winning former opener, took charge of India in July during a white ball tour to Sri Lanka, and will now helm the team in its first Test series under his tutelage against Bangladesh, beginning here from Thursday. In Gambhir's first outing as coach, India swept the T20 series against the Islanders 3-0, but lost the ensuing ODI series 0-2. "Obviously, Rahul bhai, Vikram Rathour (former batting coach) and Paras Mhambrey (former bowling coach) were a different team and it is only acceptable that the new support staff will bring different perspective," Rohit said in the pre-series press

conference here on Tuesday. "But the matches that we engaged in (with the new staff) in Sri Lanka, they seemed to be sensible and understanding. They began to learn things pretty quickly within the team," he added. Dravid's tenure ended after India's T20 World Cup triumph in the West Indies and he will next be seen heading the coaching staff of IPL side Rajasthan Royals. Rathour and Mhambrey were replaced by Abhishek Nayar (assistant coach) and South African Morne Morkel (bowling coach), while former Dutch all-rounder Ryan ten Doeschate also joined as an assistant coach. While Nayar joining the team was largely a given, Morkel and Doeschate, who worked with Gambhir at the Kolkata Knight Riders in the IPL, beat former pacers R Vinayakumar and L Balaji in the race to spots among the India support staff. Rohit used his long association with Gambhir during the latter's playing days, and with

Abhishek Nayar in the Mumbai dressing room to underline his comfortable working relation with them. "It's a new (support) staff for sure, but I have known Gautam

Gambhir and Abhishek Nayar long enough. Every support staff has its operating style, and that's what we were expecting. "I have worked with different coaches over 17 years of my

career, and it's vital to understand that all of them have a unique perspective (about cricket), and it's a must that you adjust with them," said Rohit.

While Rohit has never worked alongside Morkel and Doeschate, the 37-year-old said he has enough knowledge of them from their days as cricketers to strike a comfortable equation. "I have also played matches against Morne Morkel and Ryan ten Doeschate. I have some close encounters with Morkel, but not so much with Ryan, may be a couple of matches. But that doesn't matter. "As of now, there have been no issues or problems as such (with the new set of support staff). We have a great understanding of each other. "Good understanding is important, and I have that with them," he added on his dynamics with the new head coach and his team. In his first media interaction after taking charge in July, the 42-year-old Gambhir had also rejected apprehensions about his equation with the team's senior players by citing his familiarity with them during his playing days.

Playing against India is the best challenge you get nowadays: Bangladesh coach

PTI ■ CHENNAI

Bangladesh head coach Chandika Hathurusingha feels playing against cricketing powerhouse India will give his team a fair assessment of where it stands internationally, as he looks forward to relishing the challenge against Rohit Sharma's side in the two-Test series commencing on Thursday. Bangladesh are coming off a triumphant 2-0 away Test-series win against Pakistan, having annihilated the Shan Masood-led side by 10 wickets in the opening game, following which they won the second match by six wickets. However, India, currently leading the World Test Championship (WTC) table, are expected to pose a much stronger challenge to Bangladesh despite the eastern neighbours riding high on confidence.

"We are encouraged by playing the best team in the world, and coming to India and playing against them is the best challenge you get nowadays. Playing against the best always gives you the perception of where you stand, and as sports persons, we always look forward to it," said Hathurusingha, the former Sri Lankan all-rounder, who was appointed Bangladesh coach early last year, during a pre-match press conference on Tuesday. Bangladesh, following the two-Test series against India, will also play three T20Is starting October 6. Hathurusingha, when asked if the Test series whitewash of Pakistan had created pressure of expectation on his side coming into the series against India, said that though the victories had boosted the team's confidence, it also knew its strengths and weaknesses.

"It's (win against Pakistan) certainly given us a lot of confidence coming into this series. Keeping the outcome aside, the way we played the series and we handled certain situations, like lagging and coming back, and the people who contributed to it -- all give us a lot of belief for this series." "Pressure (of playing against India) is

a privilege. We understand where we stand, along with our strengths and limitations," he said. The Bangladesh squad comprises eight specialist batters, six bowlers and two all-rounders and Hathurusingha called it the "most rounded" side across departments. "This is probably the most rounded team produced by Bangladesh. We have covered a lot of bases and have got a lot of fast bowlers," he said. "We also have an experienced spin attack, besides also having a great depth in our batting. Also, two of our spinners are genuine batters with Test hundreds. It all gives a great balance to our side, along with confidence." Bangladesh will continue to have the services of veterans like Shakib Al Hasan, Mushfiqur Rahim and Mehidy Hasan Miraz. While Shakib was decent across departments in Pakistan, Mushfiqur

emerged as the side's highest run-scorer in the series, while Miraz was their top wicket-taker. "Shakib has always played a huge part in Bangladesh cricket, and he always gives us the luxury to balance the team the way we want, thanks to his all-round abilities," he said. "His adaptability and experience add to it. He is coming off a county stint and is in good shape. Miraz has been the most-improved Bangladesh cricketer in the last 5-6 years and is ready to take over whenever Shakib moves out. "He has been batting well, and his bowling has always been his number one strength, while he has also been great on the field lately," added the Sri Lankan. Speaking about the track, which has a fair sprinkling of red soil, Hathurusingha said it looked like a "sporting wicket".

ICC delegation to review security and other arrangements for Champions Trophy

PTI ■ KARACHI

A five-member delegation of the International Cricket Council (ICC) will land in Karachi on Tuesday for an inspection visit for next year's Champions Trophy in Pakistan. Top officials of ICC's Events and Security Departments and the General Manager Cricket and Production Manager are part of the delegation. Andy Atkinson, the ICC Pitch Consultant, had also visited Pakistan on

three different occasions since April. According to details, the ICC delegation would discuss the tentative schedule of the tournament which was prepared and sent by the Pakistan Cricket Board to them some months back. "The tentative schedule is important because it involves the Indian team being based in Lahore and playing all their matches in the city," a well-informed source said. The source said a scenario where the Indian government does not allow the

Indian travel to Pakistan will also be discussed. The delegation would inspect the ongoing construction work in Karachi and the team hotel arrangements before flying to Islamabad and Lahore for the same purpose. "The delegation which includes their ICC Security Manager would also get briefings from security officials in Pakistan." The source said it is entirely up to the ICC when they decide to finalise and announce the tournament schedule.

Massive hike in Women's T20 WC prize fund as ICC announces pay parity

PTI ■ DUBAI

In a landmark decision, the International Cricket Council on Tuesday announced equal prize money for men and women in World Cups, starting with next month's women's T20 showpiece, the purse for which has been hiked by a staggering 225 per cent to USD 7.95 million. The winners of the women's T20 World Cup will walk away with USD 2.34 million from this fund, a 134 per cent increase on the USD one million awarded to Australian women when they clinched the title in South Africa in 2023, said the ICC in a statement. Men's T20 World Cup champions India had received USD 2.45 million in cash prize earlier this year. "The ICC Women's T20 World Cup 2024 will be the first ICC event where women will receive the same prize money as their male counterparts, marking a significant milestone in the sport's history," said the ICC. The decision ensures that the ICC reached its prize money equity target seven years ahead of its schedule of 2030. The runners-up at the showpiece event next month will get USD 1.17 million, an increase of 134 per cent in comparison to the USD 500,000 South Africa received for reaching the final on home soil at Newlands Cricket

Ground. The two losing semi-finalists will earn USD 675,000 (up from USD 210,000 in 2023), with the overall prize pot totalling USD 7,958,080, a massive increase of 225 per cent from last year's total fund of USD 2.45 million. Each win during the group stages will see teams take home USD 31,154, while the six teams who fail to reach the semi-finals will share a pool of USD 1.35 million depending on their finishing positions. In comparison, the equivalent pool for the six teams in 2023 was USD 180,000, shared equally. Teams who finish third or fourth in their group will take USD 270,000 each while the teams who finish fifth in their group will both receive USD 135,000. "This move is in line with the ICC's strategy to prioritise the women's game and accelerate its growth by 2032. Teams will now receive equal prize money for the equivalent finishing position at comparable events as well as the same amount for winning a match at those events," the ICC added. The ninth edition of the tournament will take place across two venues in the UAE - Dubai and Sharjah - from October 3 to 20. All group matches will be completed before October 15. The semi-finals are scheduled for October 17 and 18, followed by the final on October 20.

MLC franchisee keen on signing James Anderson: Report

PTI ■ LONDON

Former England pacer James Anderson could return to T20 cricket after a decade following a Major League Cricket team's interest in hiring his services for the upcoming 2025 season. The 42-year-old, who retired

from international cricket in July, has not played any white-ball cricket since 2019. His last T20 match was the 2014 NatWest Blast final for Lancashire while his last T20 assignment for England was in 2009. However, "senior figures with at least one MLC team have

had their interest pricked by Anderson's comments last month about a return to white-ball cricket," according to a 'BBC Sports' report. The franchise is looking to hire the services of England's all-time leading Test wicket-taker for the third edition of the T20 league in United States next year.

The short stint in MLC could make Anderson, who took 704 wickets in 188 Tests, richer by 135,000 pounds (approx 1,49,00,000). Last month, Anderson had said he is "still fit enough" to continue his cricket career and will consider a move into white-ball cricket.

Gillespie backs Australia bowlers to do the job against red-hot India

PTI ■ MELBOURNE

Australia's formidable bowling attack featuring Pat Cummins, Mitchell Starc, Josh Hazlewood and Nathan Lyon "can do the job" against "red hot" India in the Border-Gavaskar Trophy later this year, believes head coach of Pakistan's Test team Jason Gillespie. Since 2014-15, Australia have failed to lay their hands on the Border-Gavaskar Trophy with India winning four consecutive series, including the historic triumphs Down Under in 2018-19 and 2020-21. But Gillespie, who claimed 259 wickets in 71 Tests, feels Australian bowlers can reverse the trend. "I will be backing them in and I am sure they can do the job," the former Australian pacer told 'Fox Sports'. "They are the best bowlers in the

country. Their records speak for themselves. This quartet, including Nathan Lyon, is the best possible bowling attack that Australia can put out in the park," he added. The Rohit Sharma-led Indian team hasn't lost a series in the ongoing WTC cycle with India defeating West Indies (away) and England (home) and holding South Africa (away) to a draw. However, Gillespie is confident that Australia can beat the visitors. "They are red-hot, they are playing some good Test cricket for a while now. Even though they have beaten Australia in recent times, I think Australia have a chance to beat India this time around," he said. The series, a part of the World Test Championship, gets underway from November 22 in Perth.
