MANIPUR UNDER PRESIDENT RULE

Manipur Chief Minister N Biren Singh submits his resignation to Governor AK Bhalla, in Imphal on February 9 File Photo: PTI

PIONEER NEWS SERVICE ■ NEW DELHI/IMPHAL

In a quick turn of events in a strife torn Manipur, President's rule was imposed in the State on Thursday and the State Assembly put under suspended animation. This comes days after Chief Minister N Biren Singh resigned from his post that led to political uncertainty in the northeastern state and within a month of taking over of bureaucrat turned Governor Ajay Kumar Bhalla. The Manipur Assembly, which has tenure till 2027, has been put under suspended animation, according to a notification issued by the

Ministry of Home Affairs. Singh, who was heading the BJP government in Manipur, resigned as chief minister after nearly 21 months of ethnic violence that has claimed over 250 lives so far. Singh resigned on February 9 and submitted his resignation to Governor Ajay Kumar Bhalla in Imphal, hours after his meeting with Union Home Minister Amit Shah in the national Capital. The Congress which has been continuously raising the issue of Manipur at every platforms including the Parliament, rued the fact that President's rule in the state came after fabric of state's society was allowed to be severely damaged, if not destroyed. "President rule

imposed in Manipur after Home Minister Amit Shah clearly failed to manage state, a task entrusted by Prime Minister. BJP, allies got majority in Manipur in 2022, but their politics led to 'colossal tragedy' 15 months later," the Congress said in a statement. The decision to impose the Central rule was taken after the governor sent a report to President Droupadi Murmu. "After considering the report and other information received by me, I am satisfied that a situation has arisen in which the government of that state cannot be carried on in accordance with the provisions of the Constitution of India," the notification said.

New I-Tax bill to be simpler

PIONEER NEWS SERVICE ■ NEW DELHI

Union Finance Minister Nirmala Sitharaman introduced the Income Tax Bill, 2025, in the Lok Sabha on Thursday and urged Speaker Om Birla to refer it to a select committee of the House. The much-anticipated Bill will replace terminologies such as "assessment year" and "previous year" with the easier-to-understand "tax year" as part of a move to simplify language while removing provisos and explanations. Following introduction, the Bill was referred to the select committee of the Lok Sabha, which is mandated to submit its report by March 10. Responding to the objections raised by some Opposition members at the introduction stage of the bill, the Finance Minister said Manish Tewari

Union Finance Minister Nirmala Sitharaman speaks in the Rajya Sabha during the Budget session of Parliament, in New Delhi PTI

of the Congress and NK Premchandran of the Revolutionary Socialist Party (RSP) were incorrect in stating that the new bill has more sections in comparison with the existing income tax law. Finance

Minister said that while in 1961 the present law had fewer sections, after a series of changes over the years it now has 819 sections. The proposed Act only has 536 sections. The simplified Income Tax Bill,

which is half the size of the 1961 Income Tax Act, seeks to achieve tax certainty by minimising the scope of litigation and fresh interpretation, said the Income Tax Department, after tabling of the new bill. The new bill, introduced in the Lok Sabha, has a word count of 2.6 lakh, lower than 5.12 lakh in the I-T Act. The number of sections is 536, as against 819 effective sections in the existing law. The number of chapters has also been halved to 23 from 47, according to the FAQ issued by the I-T department. The Income Tax Bill 2025, has 57 tables, compared to 18 in the existing Act and removed 1,200 provisos and 900 explanations. Provisions relating to exemptions, and TDS/TCS have been made crispier in the bill by putting them in a tabular format.

Modi, Gabbard talk counter-terrorism

PTI ■ WASHINGTON

Prime Minister Narendra Modi met the newly appointed Director of National Intelligence in the Donald Trump administration Tulsi Gabbard, and discussed India-USA friendship, of which he said, she has been a "strong votary". Modi also congratulated Hindu-American Gabbard on her confirmation as the nation's top intelligence official. She was confirmed on Wednesday. "Met USA's Director of National Intelligence, @TulsiGabbard in Washington DC. Congratulated her on her confirmation. Discussed various aspects of the India-USA friendship, of which she's always been a strong votary," Modi posted on X. Discussions also focused on enhancing intelligence cooperation in counter-terrorism, cybersecurity and emerging threats, Ministry of External Affairs official spokesperson Randhir Jaiswal said in a post on X.

Prime Minister Narendra Modi with USA's Director of National Intelligence, Tulsi Gabbard in Washington DC PTI

"PM @narendramodi held a productive meeting with US Director of National Intelligence @TulsiGabbard in Washington DC today. Discussions focused on enhancing intelligence cooperation in counter-terrorism, cybersecurity & emerging threats," the post said. Modi arrived in the US capital on Wednesday around 5.30 pm (Thursday, 4 am IST) after a visit to France where he had co-chaired the Artificial Intelligence Action Summit with French President Emmanuel Macron. Modi and Trump will hold bilateral discussions in the White House on Thursday. "Our nations will keep working closely for the benefit of our people and for a better future for our planet," Modi said on X. On Wednesday, Gabbard was sworn in as director of national intelligence on Wednesday in the Oval Office, hours after the Senate confirmed her, The Hill reported.

Attorney General Pam Bondi administered the oath of office to Gabbard, who Trump called "an American of extraordinary courage and patriotism." He noted that she was deployed three times in the Army National Guard and that she is a former Democratic congresswoman, riffing "Can you believe that?" Gabbard, 43, a former Democratic congresswoman from Hawaii, had faced bipartisan scepticism about her suitability for overseeing the spy agencies. Gabbard thanked the president for his trust in her and vowed to "refocus our intelligence community" after she was sworn in. "Unfortunately, the American people have very little trust in the intelligence community, largely because they've seen the weaponization and politicization of an entity that is supposed to be purely focused on ensuring our national security," the new intelligence chief said.

Waqf Bill report sparks protests

PIONEER NEWS SERVICE ■ NEW DELHI

The report of the joint committee of Parliament on the Waqf bill was tabled in Rajya Sabha and Lok Sabha amid uproar on Thursday, with the proceedings briefly adjourned following a heated debate between the treasury and the Opposition benches. In Rajya Sabha the Opposition MPs led by Leader of Opposition Mallikarjun Kharge alleged that dissent notes were deleted from the report. Later in Lok Sabha Home Minister Amit Shah asserting the BJP has no objection to the Opposition's dissent notes being included without redaction, and asked the Speaker decide according to procedures. When panel chairman Jagdambika Pal rose to table the report, Opposition members shouted slogans, which were countered by thumping of benches by the Treasury side. The Opposition members then staged a walkout, raising slogans against Pal. Amid noisy protests by the Opposition, Shah said, "Some opposition members have objected to their dissent notes not annexed fully. I wish to request you on behalf of my party that whatever their objections you can attach the same to the report as per parliamentary practice as you feel appropriate." "My party has no objection to it," he added. The Joint Committee of Parliament (JPC) on the Waqf (Amendment) Bill adopted the report on the draft legislation by a 15-11 majority vote. Earlier, reacting to Mallikarjun Kharge's charges, at a press conference in Parliament House complex, Minority Affairs Minister Kiren Rijiju said that certain portions which amounted to casting aspersions on the panel itself were

Members protest in the Lok Sabha during the Budget session of Parliament PTI

redacted. "Some of the points which amount to casting aspersion on the committee itself have been removed. The chairman of the committee has powers to do so," he said, asserting, "Everything has been done as per rules," he said. Later redacted portions were also submitted to Rajya Sabha. The report on the Waqf (Amendment) Bill was tabled in Rajya Sabha by BJP member Medha Vishram Kulkarni, a member of the panel. The tabling of the report was followed by uproar by members from the Opposition benches. The clamour continued as Chairman Jagdeep Dhankhar tried to read out a message from President Droupadi Murmu. "Don't show disrespect to the President of India..." Dhankhar said and urged Kharge to ask the Opposition members to take their seats. As the uproar continued, the Upper House was adjourned till 11:20

am. When the Upper House reconvened, the chairman read out the message from the president that she had received the expression of thanks by members of the Rajya Sabha on her address to a joint sitting of Parliament on January 31. When the chairman tried to proceed with the Zero Hour, Opposition members continued to protest and some MPs trooped into the well of the House. Leader of the House JP Nadda regretted that the Rajya Sabha was not in order when the president's message was read out. Chairman Dhankhar said Samirul Islam, Nadimul Haque and M Mohamed Abdulla "created chaos and disruption in the House". Kharge was then called to speak. The Congress chief said dissent notes from the Opposition MPs to the Waqf bill were redacted from the report."The report of the joint

committee of Parliament on Waqf... in which several members had given their dissent note has been taken out. Bulldozing the report by only keeping the views of the majority members is not right. It is condemnable, anti-democratic," he said. Calling it a "fake report", he said it should be withdrawn and sent back to a committee. The MPs are protesting not for personal reasons but because of the injustice being done to a community, he said. "This is not about any individual... These MPs are not protesting for their own sake, they are protesting for the community against which injustice is being done," Kharge said. DMK's Tiruchi Siva and AAP's Sanjay Singh also objected to the alleged removal of dissent notes from the report. Parliamentary Affairs Minister Rijiju, however, denied the charge. "There is no deletion or removal of any part of the report. Don't mislead the House. Opposition members (are) making unnecessary issues. The allegation is false," he said. Union ministers Bhupender Yadav and Nirmala Sitharaman also accused the opposition parties of misleading the Upper House, prompting another heated exchange between the treasury and the opposition benches. The Congress' Syed Nasir Hussain accused Rijiju -- who is also the Union Minority Affairs Minister -- of misleading the House and said, "My own dissent note has been redacted." TMC member Saket Gokhale said it was not a "religious" but a "Constitutional issue". Rijiju reiterated that the report had all annexures and nothing was taken out. The opposition MPs then staged a walkout and the House proceeded with the Question Hour.

MP to dominate drone sector: CM

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav said that a comprehensive action plan has been developed to establish Madhya Pradesh as a major drone manufacturing and technology hub. To support this initiative, the state government has approved the Madhya Pradesh Drone Promotion and Use Policy-2025, aimed at attracting investment in the drone sector. The policy focuses on promoting innovation, economic prosperity, and creating employment opportunities through the safe and efficient use of drones. As part of the policy, a drone data repository will soon be created to enhance the use of drone technology across the state. This repository will serve as a centralized platform for managing the government's drone data and imagery, aligned with the Prime Minister's Gati Shakti initiative. The drone data repository will facilitate cross-departmental data sharing and collaboration. It will support the development of advanced monitoring mechanisms using GIS-based planning and analytical tools. By providing real-time, up-to-date monitoring, the repository will enable accurate resource allocation and support infrastructure development. Additionally, it will improve coordination, enhance deci-

sion-making, optimize cost and time management, and streamline project review processes. The Department of Science and Technology will ensure the secure management of the drone data repository and maintain proper arrangements with collaborating partners. The state government will guarantee that all drone data collected by state agencies is stored in compliance with data protection laws and regulations, as outlined in the National Geospatial Policy-2022 or any subsequent amendments or policies. Advanced secure data storage and transmission technologies will be employed to safeguard sensitive information. The use of drones is expected to increase rapidly in the future, revolutionizing various fields with their pilotless nature. Drones offer innovative solutions, significantly reducing the need for human labor while ensuring timely data collection. They are particularly effective in accessing difficult-to-reach areas with high accuracy and efficiency. By utilizing modern technology, drones are becoming invaluable tools across multiple sectors. Drones can help assess crop health, detect diseases early, and evaluate crop yields with precision. Drones can also spray fertilizers and pesticides accurately, reducing waste and minimizing environmental impact. Additionally, they

can identify areas that require more or less water, aiding in the efficient use of irrigation methods. Drones are locating affected people in disaster-hit areas using thermal imaging and high-resolution cameras. Detailed images of affected areas are helping in rescue efforts. Reconstruction efforts and insurance claims are being authenticated. In emergencies, drones are delivering medical supplies and food items to hard-hit areas. Drones are playing a crucial role in inspecting bridges, buildings, and other infrastructure, performing maintenance and safety assessments with greater efficiency. They provide real-time updates on construction progress. In wildlife conservation, drones are used to monitor animal activities and ensure their safety without causing disturbance. They are also deployed for monitoring of forest health, detecting illegal logging, and assessing the impact of forest fires. Madhya Pradesh will establish drone schools under its new drone policy to promote drone technology and develop a skilled workforce for drone operations. These schools will be set up through public-private partnerships. The initiative aims to provide comprehensive training and education in drone technology, equipping both students and professionals to meet the growing industry demand.

Wedding crashers: Leopard joins baraat; sends guests running for cover

BISWAJEET BANERJEE ■ LUCKNOW

What was supposed to be a grand wedding celebration in Uttar Pradesh's capital turned into an action-packed thriller when an uninvited guest-a leopard-decided to join the festivities. Akshay Srivastava and Jyoti Kumari's wedding at MM Lawn was in full swing on Wednesday night, with music, laughter, and clinking glasses setting the mood. That was until, at around 11 PM, a four-legged gate crasher made a dramatic entry, turning the dream wedding into a scene straight out of a survival movie. "I thought it was part of the decor at first-until it moved!" said one stunned guest, still catching his

breath. What followed was pure chaos. Guests abandoned their plates and fled in all directions. Some made a beeline for the gate, while one particularly panicked guest decided that jumping off the first floor was a better idea-unfortunately, he ended up with injuries. "I could not believe my eyes. One moment we were enjoying the wedding, and the next, we were running for our lives," said Rajesh Verma, a family friend of the groom. Meanwhile, the bride and groom, proving their teamwork skills early in their marriage, sprinted to their car and locked themselves inside. On the other hand, the leopard,

A leopard is seen in the left image after it entered a banquet hall amid an ongoing wedding, while the bride and others are seen on the right image running to save their lives, in Lucknow

The bride and others are seen on the right image running to save their lives, in Lucknow

confused by the flashing lights and the screaming people, darted around the venue, looking for an

escape. Forest officials and police arrived after an urgent SOS and began

what turned into a five-hour game of hide-and-seek with the big cat. To locate the leopard, the

authorities then deployed a drone. The live footage confirmed that the animal was on the roof, crouching in a corner. As the forest department's team cautiously climbed the stairs to approach the leopard, the animal, sensing danger, suddenly leaped down. "It all happened in seconds. One moment the leopard was on the roof, and the next, it was charging toward us. It roared and pounced on our officer," said Mukul Yadav, a police constable. The leopard was eventually located on the first floor, crouching in a room, probably wondering why no one had offered it any biryani. As forest official Muqaddar Ali approached the feline intruder,

the animal made its objections clear-by swiping at him with its paw. The next moment, Ali's left hand was covered in blood. "That leopard had no wedding invitation, but it sure had sharp claws," Ali later said, holding his bandaged hand. Finally, at around 3:30 AM, the leopard was safely captured, allowing everyone to exhale for the first time in hours. Two camerapersons, caught up in the chaos, also suffered minor injuries. By morning, with the drama behind them and the leopard safely out of the picture, the wedding rituals resumed-though guests were likely keeping one eye on the mandap and the other on the exits.

Vikramotsav-2025 to begin on Mahashivratri: Chief Minister

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav announced that Vikramotsav-2025 will commence in Ujjain on the occasion of Mahashivratri on February 26 and will continue until Varsh Pratipada on March 30, marking the beginning of the cosmic cycle. The festival will focus on Emperor Vikramaditya's era, India's advancement, renaissance, and Indian wisdom traditions. The festival will include literary and cultural programs, along with astronomy discussions, intellectual seminars, history and science conventions, Vikram Trade Fair, and activities based on folk and tribal culture. Additionally, the event will feature the launch of the Vikramaditya Vedic Clock App, exhibitions of handicrafts, traditional cuisine, textiles, hand-

loom equipment, and a festival of regional and mythological films, including special screenings dedicated to Lord Krishna. The event will also host an All India Kavi-Sammelan, the release of research-based books and texts, and the publication of the Vikram Panchang (almanac). Vikramotsav, which integrates cultural, social, and economic activities, is a unique celebration of heritage and progress. Chief Minister Dr. Yadav addressed the Vikramotsav-2025 Organizing Committee meeting at Samatva Bhavan (CM's residence) and also unveiled the Vikramotsav calendar. Yadav emphasized that Vikramotsav should reflect the grandeur of Emperor Vikramaditya's multifaceted legacy. Since the festival is approaching soon, all depart-

ments must ensure that preparations are completed ahead of schedule through coordinated efforts. He instructed that all scholars, artists, and distinguished guests be welcomed with the spirit of "Atithi Devo Bhava" and that devotees visiting Ujjain for Mahashivratri should not face any inconvenience. The Chief Minister also directed that exhibitions focused on Emperor Vikramaditya, India's ancient scientific traditions, and Devi Ahilyabai be organized across Ujjain and other locations. Various activities will be conducted to spread awareness about India's wisdom traditions, and poets from tribal languages like Bhili and Gond will be included in the Kavi-Sammelan. Chief Minister Dr. Yadav stated that songs, poetry, and literary works centered on Emperor

Vikramaditya will be honored during Vikramotsav. He also announced that the National Science Conference, part of Vikramotsav, will feature events such as drone and robotics shows. Additionally, he directed that science conferences be organized in the Mahakaul, Bundelkhand, and Baghelkhand regions. Scientists from ISRO and other renowned research and scientific institutions will be invited to participate in these conferences. Speaking about Vikram Samvat, CM Dr. Yadav emphasized that the establishment of a calendar system is based on strength and good governance. To spread awareness about the various facets of Emperor Vikramaditya's legacy, he directed that activities be conducted to educate the masses. Furthermore, he instructed that

a grand theatrical production on Emperor Vikramaditya, similar to "Jaunata Raja" (a renowned historical play), be staged in various cities across Madhya Pradesh and other major cities in India. Vikramotsav will have a Grand Inauguration on Mahashivratri with statewide inaugurations of Shivratri fairs. A Kalash Yatra (sacred urn procession) in Ujjain, accompanied by vintage cars, sports bikes, and tribal artists' performances. A special exhibition will be commenced focused on the 84 Mahadevas. CM Dr. Yadav will Launch of the Vedic Clock App, based on ancient Indian timekeeping. A framework for Simhastha-2028 (Kumbh Mela in Ujjain) will also be outlined. Cultural performances by tabla maestro Shivamani and folk singer Hansraj Raghuvanshi will be organized.

Madhya Pradesh Chief Minister Mohan Yadav and Finland Ambassador Kimmo Lahdevirta witness the signing of an MoU between the officials of MP Tourism Board and Finland's organization V Real, at CM's residence in Bhopal on Thursday.

Rural Education initiative from Narmadapuram bags SKOCH Award

PNS ■ NARMADAPURAM

The 'Siti Bajao, Bachhe Bulao' (Whistle and Call the Children) initiative, launched by Collector Sonia Meena to encourage rural children to attend school regularly, has been recognized at the national level. The initiative will be honored with the prestigious SKOCH Award. Collector Sonia Meena and District Project Coordinator (DPC) Rajesh Jaiswal have been invited to Delhi on February 15 to receive the award at Heavyweight Center. DPC Rajesh Jaiswal explained that under Collector Meena's guidance, the District Education Center conducted a study to identify factors affecting educational quality in rural schools. The findings revealed that due to a lack of awareness among rural families, many children

did not attend school regularly, which directly impacted their learning levels. To tackle this issue, the district education team introduced the unique "Whistle and Call the Children" campaign in five schools where attendance was as low as 30%. Under this initiative, teachers and a student team—led by a whistle captain—would visit the homes of absent children and blow a

whistle outside. The sound of the whistle soon became a symbol in villages, signifying that children should get ready for school. Parents and villagers actively participated, leading to a significant rise in school attendance from 30% to 70%. This innovative initiative was nominated for the SKOCH Award by NIPUN professional Yogesh Singh from the District Education Center. After suc-

cessfully clearing three selection stages, including project reports and online presentations, the initiative made it to the final round, competing against 22 prestigious projects nationwide. In the semifinals, it was chosen as one of the top three projects to be honored with the award. Following its success, the initiative is now being implemented in several other schools to boost attendance ahead of exams, proving to be a valuable intervention in improving academic performance. The District Education Center team, including Pradeep Singh Chauhan, Vinod Kerkatta, Surendra Wasnik, Balwant Singh Rajput, Nitin Dubey, Sarika Sharma, Deepak Verma, APC Vineet Sahu, and Jaydeep Patankar, has received congratulations from district officials for their commendable efforts in making this initiative a success.

Sarang launches sanitation campaign

Bhopal: Cooperative Minister Vishwas Kailash Sarang has said that by imbuing the message of cleanliness of Prime Minister Shri Narendra Modi, make your work area clean as well. Positivity is transmitted only through cleanliness. Just as we maintain cleanliness in and around the house, in the same way, a cleanliness campaign is being run on a fixed date every month for cleanliness at our workplace. Sarang on Thursday launched the Swabhaav Swachhata, Sanskar Swachhata campaign being run under the International Cooperative Year-2025 by sweeping and cleaning the Apex Bank headquarters premises. This campaign was run simultaneously in the premises of more than 10 thousand cooperative institutions across the state.

Virtual tour will provide information on the State

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav presided over a meeting between the MP Tourism Board and Finnish organization V Real on Thursday to discuss the application of modern technology at tourism sites, historical heritage locations, and museums in Madhya Pradesh. An MoU was signed during the meeting. Yadav said that the virtual tour initiative will allow people interested in tourism, history, and culture to explore the rich heritage and glorious history of Madhya Pradesh from the comfort of their own countries. This initiative is expected to promote the state's tourism sites and historical landmarks on a global scale, increasing international tourist visits. The Chief Minister welcomed

Finnish Ambassador to India, Shri Kimmo Lahdevirta, with a shawl and bouquet at Samatva Bhavan, located at the Chief Minister's residence, and presented a coffee table book showcasing the state's cultural heritage. Principal Secretary of Tourism and Culture, Sheoshekhar Shukla, shared that Finnish company V Real has been preserving history, culture, and heritage through advanced technology by producing high-quality videos. These virtual tours are made accessible on their platforms, which are avail-

able to the general public, including tour and travel institutes as well as educational institutions worldwide. With the MoU signed today, up-to-date information on the history and culture of Madhya Pradesh will be readily available in virtual form globally, enhancing the state's global visibility. Additional Managing Director of the Tourism Board, Sushri Bidisha Mukherjee, along with CEO of V Real Institute Shri Johannes Swordstorm and other officials, were present at the MoU signing event.

Preparations underway for the Global Investors Summit at Indira Gandhi Rashtriya Manav Sangrahalaya (IGRMS) in Bhopal on Thursday. Prime Minister Narendra Modi will inaugurate the business meet on Feb 24 and Union Home Minister Amit Shah will conclude the meet on February 25. Pioneer photo

13th annual 'IABSCON 2025' concludes at AIIMS Bhopal

STAFF REPORTER ■ BHOPAL

The Department of Biochemistry of AIIMS Bhopal successfully concluded the XIII Annual International Conference of the Indian Academy of Biomedical Sciences (IABSCON 2025), held from February 11-13, 2025. The conference opened new doors for possibilities in the field of health sciences through scientific discussions, international collaborations, and presentations of the latest research. This platform brought together scientists, industry experts, and young researchers, covering significant topics such as cancer biology, precision medicine, immunology, metabolomics, nanotechnology, and biomedical engineering. The final day program began with a lecture by Prof. Vipul Bansal

(Australia), who highlighted the emerging use of nan enzymes and nanomaterials in diagnostics and therapeutics. Other key speakers included Prof. Antonio Cheung (Taiwan), who explained that BIRCS plays a crucial role in cancer cells, and its regulation could lead to revolutionary changes in cancer treatment. Prof. Peter van de Wustijne (Netherlands) mentioned that advanced surgical techniques could make the treatment of congenital heart diseases in children more effective and safer. Meanwhile, Prof. N. B. Ramchandra (University of Mysore, India) shared his thoughts, stating that the progress made in this field over the past 20 years has greatly improved our understanding of the genetic causes of heart diseases. On the final day, sessions focused on cancer biology,

immunology, nano-biotechnology, smart biomaterials, and precision medicine. Prominent presentations included Prof. Rakesh K. Maji (IIT Kanpur) discussing the role of ion channels and GPCRs in cancer immunotherapy. Dr. Ali Alizadeh (Iran) presenting his research on "AI-powered predictive modeling for personalized cancer treatment," and Dr. Denis Shashurin (Russia) discussing the development of implantable systems for photon-counting CT scanning. In an industry-related session, Dr. Wahid Wali (Abbot India Pvt. Ltd.) delivered a lecture on "Pharmaceutical Innovation and Biomarker-Based Therapy." Additionally, the General Body Meeting of IABS was held, where future research plans were discussed. On this occasion, Executive Director of AIIMS Bhopal Prof. Ajai Singh stated, "This

Seven injured as high-speed Range Rover collides with four bikes on Chetak Bridge

STAFF REPORTER ■ BHOPAL

Over half a dozen people were injured after a high speed Range Rover car (MP 04 CN 5575) hit 4 bikes on Chetak Bridge. On Thursday afternoon around 12:30 pm, after this, the car hit the divider and overturned, a woman among the injured is reportedly critical. The car was damaged in the accident. The driver was also injured and was sent to the hospital. The car belongs to JS Duggal, a tyre businessman in MP Nagar. He was present in the car at the time of the accident, although he was not driving the car. Injured Dharmendra Singh Gurjar said that the car was coming from the wrong side and hit his scooter from behind. After this, the car also hit some other vehicles and finally hit the divider and overturned. According to eyewitnesses, there were two people in the car. The driver also vomited after hitting the divider. After the accident, there was a long jam on both lanes on the bridge. After

The car belongs to JS Duggal, a tyre businessman in MP Nagar. He was present in the car at the time of the accident

the accident, there was a long jam on both lanes of the bridge. Vehicles were stuck in the jam for about over an hour. After this, the traffic police reached the spot and cleared the jam. According to eyewitnesses, after the accident, an ambulance was called from number 108, but the ambulance reached the spot with a delay of about 40-45 minutes. In the meantime, people had taken the injured to the hospital. At the same time, the traffic police had also removed the vehicle damaged in the accident from the spot. When the ambulance driver was asked about the delay, he said that he had come from Berasia. Nearby vehicles were already on call.

BHEL bags order for Supercritical Boiler Package at Raghunathpur

STAFF REPORTER ■ BHOPAL

Bharat Heavy Electricals Limited (BHEL) has secured a significant order for installing the Steam Generator (Boiler) island package based on supercritical technology at the 2x660 MW Raghunathpur Thermal Power Station (TPS) Phase-II, in Purulia district, West Bengal. The order has been placed on BHEL by Damodar Valley Corporation (DVC) under International Competitive Bidding (ICB). Notably, BHEL is already executing the Turbine & Generator package of this supercritical project. BHEL's scope of work in the project encompasses design, engineering, manufacturing, supply, erection, testing and commissioning of the Steam Generator Island Package, and associated auxiliaries along with electrical, civil and structural works. The scope also includes the supply of highly efficient equipment for SOx emission control. The company has installed over 75% of DVC's coal-based power generation capacity across the country, marking decades of successful partnership.

Bharat Bhavan, a beacon of Arts and Culture: Chief Minister

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav emphasized the significance of arts, stating that they not only speak for themselves but also manifest through human behavior and emotions. He highlighted Madhya Pradesh's rich artistic heritage, noting that many globally acclaimed artists have emerged from the state. Bharat Bhavan, a cultural hub, has played a crucial role in establishing Madhya Pradesh as a center of artistic excellence. Speaking at the State Shikhar Samman ceremony on Bharat Bhavan's open-air stage on Thursday, Dr. Yadav expressed immense pride on the occasion of Bharat Bhavan's 43rd anniversary. During the event, the State Shikhar Samman for 2022 and 2023 was conferred upon 15 distinguished artists for their exceptional contributions to music, dance, theater, tribal and folk art, and literature. Each awardee received a shawl, coconut, plaque, and a cash honorarium of ₹2 lakh. Yadav extended his best wishes to the awardees and reiterated the government's commitment to preserving and promoting

Madhya Pradesh's cultural heritage. He acknowledged that artists are the soul of society, and honoring them reflects the state's deep respect for the arts. To mark Bharat Bhavan's 43rd foundation day, CM Yadav made a major announcement—reviving Rangmandal, a key theater initiative. He stated that the return of Rangmandal would infuse new energy into the theater world, benefiting young artists and enriching the state's cultural landscape. The announcement was met with enthusiasm from theater lovers and artists, who celebrated the long-awaited revival. For years, Rangmandal served as a major platform for theater artists in Madhya Pradesh but had become inactive. Its revival promises new opportunities for emerging talent and is expected to strengthen the performing arts scene in the state. Culture, Tourism, Religious Trust, and Dharma Minister (Independent Charge) Shri Dharmendra Singh Lodhi lauded Bharat Bhavan as a pillar of artistic and cultural preservation. He emphasized that Madhya Pradesh is not only nurturing its artistic roots but also empowering the next generation of artists.

People for the Ethical Treatment of Animals (PETA) and Animals with Humanity (AWH) activists hold sign that reads 'Have a Heart: Go Vegan' during an awareness campaign to show compassion for animals switching to vegan eating, on the eve of Valentine's Day at Boat Club in Bhopal on Thursday. Man molesting minor girl caught on camera, nabbed

STAFF REPORTER ■ BHOPAL

Katara Hills police arrested the accused who molested minor girls in broad daylight in the state capital, a 15-year-old minor girl had filed a case against the accused in Katara Hills police station on Tuesday. After this, the accused was arrested on Wednesday. The accused's act was also seen in the CCTV

camera. During interrogation, he has admitted to doing obscene acts with five minors in the last 15 days. However, only one victim has reached the police so far. The accused is the brother of a hotel businessman. The police arrested the accused youth and sent him to jail. Police station in-charge Brijendra Nigam said that 15

days ago, a minor girl who came with a complaint of bad touch told that a scooter rider had touched her indecently and ran away. In 15 days, the police received five complaints of molestation. Based on the continuous complaints, the police watched more than 30 CCTV footage around the crime scene, which identified the accused and arrested him.

Madhya Pradesh emerging as India's 'Food Basket'

STAFF REPORTER ■ BHOPAL

Madhya Pradesh's fertile land is not just producing abundant crops but also opening new doors for innovation, sustainable development, and global investment. The government is inviting investors from around the world to be part of this transformative initiative. Leveraging its rich agricultural tradition and advanced farming techniques, the state has positioned itself as the "Food Basket" of India. Madhya Pradesh has won seven Krishi Karman Awards so far, showcasing its strength in the agricultural sector. The White Revolution is rapidly expanding in Madhya Pradesh. Between 2012 and 2023, the state has witnessed a significant rise in milk production. This growth has been

strengthened by initiatives such as the Dairy Investment Accelerator, which fosters a favorable environment for investors and promotes the dairy industry. Madhya Pradesh is steadily improving its national ranking in milk production and availability. The state's per capita milk availability (591 grams per day) places it in sixth position nationally. The state's CAGR (Compound Annual Growth Rate) of 8.60% surpasses the national average of 6.18%. In 2023, Madhya Pradesh contributed 8.73% to India's total milk production. The state government is actively promoting Micro, Small, and Medium Enterprises (MSMEs) in food and dairy processing through various incentive schemes. These include industrial development subsidies, financial support for

patents and quality certifications, and electricity tariff rebates. Under the Pradhan Mantri Formalization of Micro Food Processing Enterprises (PMFME) Scheme, food processing units are receiving credit-linked subsidies, which are boosting new investments in the sector. The state government is offering special incentives to large industries investing over ₹50 crore. These incentives include benefits for export-oriented units, support for green industrialization, and infrastructure development in food processing, such as cold chain and warehousing facilities. These efforts are propelling the food and dairy industry in Madhya Pradesh to new heights, strengthening the state's economy, and making a significant contribution to India's food and dairy processing sector.

Cong concerned over condition of Narmada

STAFF REPORTER ■ BHOPAL

Madhya Pradesh Congress Media Department President Mukesh Nayak raised concerns over the deteriorating condition of the Narmada River, calling it a severe environmental crisis. Addressing a press conference, he stated that the river, often regarded as the lifeline of Madhya Pradesh and Gujarat, is facing ecological imbalance and degradation from Amarkantak to the Gulf of Khambhat. According to experts, the water level of the Narmada is falling, its quality is deteriorating, and it is becoming unfit for human consumption. Nayak pointed out that illegal sand mining and human activities have disrupted the river's ecosystem, altering its natural flow. Referring to a recent Lok Sabha debate, Nayak highlighted that

BJP MP Darshan Singh Choudhary has also raised serious concerns regarding illegal sand mining, water quality, erosion, and the river's flow. He remarked that while the opposition had been raising these issues for a long time, now even members of the ruling party are questioning the impact of illegal mining in the Narmada Valley. He further emphasized that geologists have warned about the Narmada region's high vulnerability to seismic activities, stretching 1,200 kilometers from Amarkantak to the Gulf of Khambhat. If underground disturbances occur, it could lead to a massive humanitarian disaster. Nayak also stated that 25 tributaries of the Narmada, including the Hiran, Betwa, Ken, Kaith, and Kopra rivers, have dried up, causing severe disruption to the river's ecosystem.

Class 10 student commits suicide

STAFF REPORTER ■ BHOPAL

A 10th class student committed suicide by hanging with the ceiling in Katara Hills area late in the night on Wednesday, reason of the suicide remained unclear. Police handed over the body to the family after postmortem on Thursday afternoon. The deceased was the grandson of former MLA Naresh Singh Patel. Police have registered a case and started an investigation. Station in-charge Brijendra Nigam said that the student's father passed away a long time ago. The deceased used to live with mother, elder brother and younger sister. On Wednesday night, the student was in the inner room and the rest of the members were talking in the other premises of the house. Meanwhile, the student hanged

himself by making a noose with a rope. The student did not come out of the room for a long time. The brother and sister came to call him. As soon as they opened the door of the room, they found the brother's body hanging on the noose and they raised the alarm. The mother who rushed to the room found her son hanging. Hearing the screams, people from the vicinity came. The student was rushed to the hospital, where doctors declared him dead. The station in-charge said that it has come to light that the student was quiet. The family members have told this in their statement to the police. The student was under some kind of stress regarding studies. The police are verifying this. The student's social media account is also being searched. The mobile has been seized from the spot.

Family members not allowed to meet Saurabh, others

Bhopal: The Enforcement Directorate (ED) court recently rejected the application filed by the family members of former Transport Department constables Saurabh Sharma, Chetan Singh Gaur, and Sharad Jaiswal. The family members had sought permission to meet the accused during their remand with the ED, but the court declined the request on Wednesday evening. According to the court's order, only the lawyers of the accused will be allowed to meet them during the remand, if necessary. Family members will not be granted access. Saurabh Sharma, a former millionaire constable of the RTO, along with his associates Chetan Singh Gaur and Sharad Jaiswal, was handed over to ED custody on remand until February 17 by the court on Tuesday. The trio is being questioned in connection with a case involving the seizure of 52 kg of gold, ₹11 crore in cash, and other properties worth crores of rupees, which were found in a car from the Mendori jungle.

Bhopal Municipal Corporation steps up revenue campaign, citizens cry foul

STAFF REPORTER ■ BHOPAL

Stepping up a campaign to increase the collection of revenues from citizens, the cash-strapped Bhopal Municipal Corporation (BMC) is sending repeated reminders to defaulters on their registered mobile numbers. The messages, which include details of their bills and outstanding amounts, respectfully ask those who owe property taxes, water cess, and other amounts to the BMC to clear their dues by the stipulated dates to avoid penalties and inconvenience. The BMC requires citizens to pay their dues on time, as the civic body claims to spend the

money on maintaining citizen services and amenities. Residents, however, refute this contention, alleging favouritism and partisan behaviour by BMC officials and workers. Recently, a group of residents in Koh-e-Fiza pooled resources and financed the repair of the road outside their houses after repeated requests to the civic body fell on deaf ears. Large parts of the neighbourhood, one of the toniest addresses in the old city, remain submerged in darkness due to faulty streetlights, which have become the biggest grievance against the municipal corporation in the area. Residents say that the mongrel

menace persists despite complaints to municipal authorities. The situation is especially bad on the road that connects the BMC swimming pool to Ahmedabad Palace Road. They question the authority of the BMC for charging high taxes in the area despite the visible breakdown in municipal services provided. Municipal officials state that the taxes charged in a particular area are commensurate with land and rental values. They point to the ongoing road building and repair activities on Ahmedabad Palace Road to counter the claims made by residents. Only recently, Mayor Malti Rai visited the area and performed

the groundbreaking for several road repair and construction projects. Meanwhile, the BMC has issued seizure notices to house owners in several of the city's neighbourhoods after they failed to clear municipal dues. According to a communiqué released to the media on Wednesday, seizure notices have been issued to six property owners in Ward 26 of Zone 21. A similar notice was also issued against one property in Ward 41 under Zone 11. The defaulting homeowners owe municipal amounts ranging from ₹100,000 to ₹550,000. The municipal revenue collection drive traditionally picks up in the months leading to the balancing of its half-yearly and

annual accounts in October and March each year. To give the civic body its due, the revenue campaign suffers significant setbacks as a large number of immensely valuable properties in the old city are either in adverse possession of tenants or caught in legal disputes that can last for decades before a settlement is reached. As per provisions, the municipal corporation can only charge taxes from bona fide property owners within the municipal precincts of the city. In light of the revenue losses suffered by civic bodies across Madhya Pradesh, the state government has been mulling amendments to tenancy laws for decades. The move, however, is yet to conclude.

Sanitation workers, family members benefit from health camps

STAFF REPORTER ■ BHOPAL

The District Health Administration, in collaboration with the Bhopal Municipal Corporation (BMC), is holding health camps to screen sanitation workers and their families. The initiative involves health camps at garbage transfer stations, aimed at benefiting sanitation workers and local residents. Launched on January 27, these camps have already served over 1,100 sanitation workers across several locations, including Dana Pani, Jat Khedi, Bhadbhada, and

others. These camps, offering free health tests, screenings, eye check-ups, and the creation of Ayushman cards and AABHA IDs, are set to continue until March 5. Chief Medical and Health Officer (CMHO) Dr Prabhakar Tiwari says the camps are crucial steps in providing essential health-care services to workers and their families. So far, cataracts have been found in 26 individuals, and 47 others have been diagnosed with various eye conditions. Additionally, blood pressure and diabetes screenings have identified health concerns in several participants,

with follow-ups arranged for necessary treatments. Meanwhile, the district health office said that a two-day orientation and training programme for the Muskan initiative will be held at the city campus of the All India Institute of Medical Sciences (AIIMS) on Friday. On February 15, training under the same initiative will continue at Dr Kailash Nath Katju Hospital. The Muskan initiative aims to improve child health services in the district by bringing together paediatricians, nursing officers, and feeding demonstrators to share expertise and improve care standards.

Businessman's son abducted, released

Gwalior: The six-year-old son of a local businessman, who was abducted in broad daylight by unidentified bike-borne men in Morar town, Gwalior district, was released late in the evening at Morena. The child Shivay, a UKG student, was waiting with his mother, Arti Gupta, for his school van around 8:10 AM on Thursday near their house in CP Colony when the crime took place. According to eyewitness accounts, two unidentified men suddenly appeared on a motorcycle, stopped near the mother and child, and executed a pre-planned attack. One of them

threw chili powder into Arti Gupta's eyes, snatched the child from her hands, and fled with his accomplice on the bike. "We were waiting for the school van when a man approached me, threw chili powder in my eyes, pushed me down, and kidnapped my son," said Arti Gupta. "I tried to chase them, but they sped away," she added. The entire abduction was captured on CCTV footage from a camera near the crime scene. Police said that soon after the crime was reported, intensive search was launched in Gwalior and neighbouring districts. Under pressure, the miscreants left the boy at a place and fled.

Patchy lighting, Gutkha stains mar ill-planned Ambedkar Flyover

KISHAN SINGH RANA ■ BHOPAL

A month after its inauguration, Public Works Department (PWD) officials and workers are continuing their futile efforts to rid the Ambedkar Flyover of flaws that point towards negligence in the design and construction phases of the mega project. Construction workers were seen conducting patchwork on the sides of the flyover on Wednesday, a month after the ambitious multi-core project was opened amid great fanfare, after years of delays. Tired of defending the badly designed elevated road, PWD officials are now beginning to admit that the design of the flyover has flaws that are leading to traffic melees, especially at the Shaheed Smarak end of the road. Though speaking on the condition of anonymity, the acceptance of shortcomings in the design lends huge credence to reporting by The Pioneer, which was the first newspaper to point out the

flaws in the project blueprint. Parts of the flanks of the flyover remain pitch dark, especially as the shadows from the retaining abutment walls flare, after years of delays. Tired of defending the badly designed elevated road, PWD officials are now beginning to admit that the design of the flyover has flaws that are leading to traffic melees, especially at the Shaheed Smarak end of the road. Though speaking on the condition of anonymity, the acceptance of shortcomings in the design lends huge credence to reporting by The Pioneer, which was the first newspaper to point out the

piers (pillars) supporting the structure. With only months to go before the onset of the monsoons, civil engineers warn that this may be the last chance to correct any flaws in the water drainage systems, as a failure to do so could result in massive waterlogging in the area, with the mega structure acting as a catchment for rainwater. They say that a 2015 National Green Tribunal (NGT) order makes it mandatory for flyovers to include water harvesting systems. The engineers also call for better coordination between the PWD and the Bhopal Municipal Corporation (BMC) to ensure sufficient drainage systems

for the massive gushes of rainwater during the monsoon months. Meanwhile, motorists taking the road say that the flyover continues to remain an uncomfortable ride due to its uneven surface, resulting in traffic bottlenecks that defeat the very purpose of the project, which was initially designed to decongest vehicular movement in the MP Nagar area. They rue the unsanitary conditions, with gutkha stains already starting to appear on the margins of the mega-core project, which stakeholders

had touted as a gamechanger for the city. The promises had sent aspirations skyrocketing in the commercial district of MP Nagar, where traders are now beginning to question the viability of the mega expenditure that has turned its main arterial road into a badly lit tunnel of metro and flyover pillars. Responding to the criticism, key officials at the PWD say they took over the project years after its inception, which was approved by their predecessors in the pre-Covid era, many of whom have since retired.

Government to keep inflation in check: Finance Minister

PIONEER NEWS SERVICE ■ NEW DELHI

Finance Minister Nirmala Sitharaman on Thursday said the government will continue to take measures to check inflation and ensure that citizens are not burdened. Replying to the discussion on the Union Budget in the Rajya Sabha, the minister said the retail inflation based on Consumer Price Index (CPI) reduced to 4.31 per cent in January from 5.22 per cent in December and is moving towards the 4 per cent target given to the Reserve Bank of India.

The House witnessed several instances of altercations between the Opposition and the treasury benches over issues like Budget allocations to Telangana, West Bengal, Tamil Nadu, and Kerala. Several Opposition parties staged walkout from the House during the minister's reply, even though Sitharaman stressed that the Modi government has never discriminated against any state.

On Budget proposals, she said they seek to "accelerate growth, secure inclusive development, and invigorate private sector investments", and there has been no decrease in capital expenditure for the next fiscal year. Sitharaman told the House that the Budget was prepared

Finance Minister Nirmala Sitharaman speaks in the Rajya Sabha during the Budget session of Parliament New Delhi PTI

during a challenging time, with serious external challenges beyond estimates or forecasts and there has been reduction in sectoral allocations. Despite this, the government has tried to keep the assessment as accurate as possible, keeping India's interests paramount, she said. "There are no models that you can build and understand how the trends will be because they are very dynamic... Despite that, we have tried keeping the assessments as

close as possible, keeping India's interests as topmost... this immense uncertainty is still playing out and many Indian imports which are very critical for our economy to grow are also going to be left with uncertainty," she said. On inflation, she said data showed steep correction in prices of tomato, onion and potato prices, and even pulses. "So food inflation, which gets triggered when you have an adverse weather condition, and supply chain disruptions

are being managed by a group of ministers who are ensuring that timely import happens if there is a shortfall in supply," the minister said. The Reserve Bank of India is keeping a watch on volatility in the Indian rupee, she said. Sitharaman listed out the steps proposed in the Budget to boost agricultural production in the country. "So it is clear that government's attempt to remove the stress of price rise is actually being received in the ground. The efforts will

continue. We shall make sure that price should not be a burden on the ordinary citizens," Sitharaman said.

The minister, who presented her record eighth Budget in a row, also said the Modi government's Budget numbers are always realistic and neither conservative nor overestimated.

Sitharaman told the House that the first advance estimates from National Statistics Office (NSO) has projected India's economy will grow 6.4 per cent in real terms and 9.7 per cent in nominal terms. So for the Budget, "we have kept our goals" such that we are able to accelerate growth, secure inclusive development, invigorate private sector investments, she said.

The minister also highlighted that the government steered the economy very well during the Covid crisis, and the country emerged as the fifth largest major economy in the world. She also recalled that after the global financial crisis of 2008, India was termed as among the "fragile five" economies.

The minister also rebutted opposition parties' assertions that income tax incentives would only benefit rich people. She said income tax liability of the middle will significantly come down. The House was adjourned for a recess and will meet again on March 10 to continue the Budget session.

RS Chair asserts Parliament's jurisdiction on HC judge removal

PIONEER NEWS SERVICE ■ NEW DELHI

Rajya Sabha Chairman Jagdeep Dhanekar on Thursday asserted that only Parliament has the jurisdiction to constitutionally remove a high court judge, saying a notice for removal of Justice Shekhar Yadav of Allahabad High Court is pending with him.

Speaking in the House, the chairman also asked the Rajya Sabha Secretary General to share with the Secretary General of the Supreme Court the information that 55 members of the upper house had given a notice to the Chairman for removal of Justice Yadav in December.

"I am seized of an undated notice for motion received on 13 December 2024, bearing 55 purported signatures of the members of the Rajya Sabha seeking removal from office of Justice Shekhar Yadav of Allahabad High Court under Article 124(4) of the Constitution.

The jurisdiction for the stated subject matter constitutionally lies in exclusivity with the Chairman Rajya Sabha and in an eventuality with the Parliament and Hon'ble President," Dhanekar said.

"Taking note of public domain information and inputs available, it is expedient that the Secretary General, Rajya Sabha shares this for information with the Secretary General, Supreme Court of India," he said.

Rajya Sabha Chairman Jagdeep Dhanekar reacts during the Budget session of Parliament, New Delhi PTI

The Supreme Court had sought a report from the chief justice of the Allahabad High Court on the remarks made by Justice Yadav and had later asked him to appear before senior judges of the court.

Members of several opposition parties had moved the notice in Rajya Sabha on December 13, 2024 for impeachment of Justice Yadav over his alleged controversial remarks at a recent VHP event, sources said.

The notice was signed by Kapil Sibal, Vivek Tankha, Digvijaya Singh, John Brittas, Manoj Kumar Jha and Saket Gokhale among others.

These MPs met the Rajya Sabha secretary general and handed over the notice for impeachment a few minutes before the start of the day's proceedings, the sources said. Other MPs who signed the notice included P

Chidambaram, Randeep Surjewala, Pramod Tiwari, Jai Ram Ramesh, Mukul Wasnik, Naseer Hussain, Raghav Chadha, Fauzia Khan, Sanjay Singh, AA Rahim, V Sivadasan and Renuka Chowdhury.

The notice for the motion was moved under the Judges' (Inquiry) Act, 1968, and Article 218 of the Constitution, seeking initiation of proceedings for impeachment of Justice Yadav. The notice mentioned that the speech/lecture delivered by Justice Yadav during the VHP-organised event prima facie showed that he "engaged in hate speech and incitement to communal disharmony in violation of the Constitution of India". The notice also mentioned that the judge prima facie showed that he targeted minorities and displayed bias and prejudice against them.

Delhi HC seeks status on DFI forgery case

PIONEER NEWS SERVICE ■ NEW DELHI

Delhi High Court has directed the Directorate General of Civil Aviation (DGCA) & Ministry of Corporate Affairs (MCA) to submit Status Reports on why FIR was not filed against Drone Federation India (DFI) for forging DGCA documents with the signature of the Director General.

Delhi High Court on Wednesday expressed displeasure with the Ministry of Corporate Affairs (MCA) and Directorate General of Civil Aviation (DGCA) while issuing notice on a public interest litigation (PIL) filed against the Drone Federation of India over allegations of forgery.

The bench led by Chief Justice Devendra Kumar Upadhyay, also comprising Justice Tushar Rao Gedela, orally remarked that the DGCA should have filed a complaint and registered an FIR regarding the forgery.

Court also directed DGCA, MCA and other authorities to submit separate reports on the status of the investigation. The court fixed the matter for March 19, 2025 for detail hearing.

The bench also orally observed how a private entity could protect itself by presenting itself as a government organisation.

During the hearing, the counsel representing concerned ministries of Union of India submitted that the we looking at the complaint and seriously perusing it. It was also stat-

ed that MCA suspected the authenticity of the provided No Objection Certificate (NOC) and subsequently sent a letter to DGCA.

The concerned ministry stated that an inspection was initiated, which eventually led to an investigation. Senior Advocate PV Dinesh, representing petitioner RTI activist Tej Pratap Singh, stated that the Drone Federation of India (DFI) forged an NOC to bypass legal hurdles and rebrand the organisation.

The fraudulent document was allegedly submitted to the MCA, misleading the public into believing the organisation had official government endorsement. The petition was filed by Advocate Piyo Harold Jaimon.

The plea further alleged that DFI has in collusion with Pioneer Flying Academy (Respondent) issued drone pilot certifications to two individuals, without securing any approval or authorisation from the Directorate General of Civil Aviation or Ministry of Civil Aviation. These certifications were

issued to individuals associated with one, M/s Quiddich Innovation Labs (Respondent), to operate drones. Since the certified pilots had used these certifications for covering Indian Premier League held in Dubai, senior officer of Dubai Civil Aviation Authority (DCAA) had written to DGCA to verify the authenticity of these certifications, it said.

However, DGCA has failed to initiate any enquiry and has even refrained from cooperating with DCAA. The entity has not only escaped from the investigations but also organised the Bharat Drone Shakti Event at the Air Force Station, Hindan, Uttar Pradesh, where DFI used pilots without valid licenses for flying drones in the Red Zone, plea added.

According to the petitioner, the body, by forging a letter from the regulatory authority, is not only attempting to project patronage from the Government of India but has also evaded accountability for its actions as described above.

PIONEER NEWS SERVICE ■ NEW DELHI

Prime Minister Narendra Modi will inaugurate the first edition of the SOUL Leadership Conclave by the School of Ultimate Leadership here on February 21, officials said on Thursday.

The two-day event at Bharat Manadpam will bring together leaders from across politics, sports, arts and media, public policy, business, the social sector and the spiritual world to talk about their personal leadership journeys, engaging in insightful conversations and sharing transfor-

mative experiences to inspire a new generation of thinkers. The conclave will feature speakers such as Rail Minister Ashwini Vaishnaw, former Chief Justice of

India D Y Chandrachud, former Reserve Bank of India governor Shaktikanta Das, Spiritual Leader of the Brahma Kumaris BK Shivani, chess world champion D

Gukesh, Piramal Group chief Ajay Piramal, and Bharti Enterprises Chairman Sunil Bharti Mittal, among others.

"Leadership is not just about guiding others. It is about inspiring them to act with vision, purpose and integrity -- towards the greater cause of public good. Our imperative at SOUL is to help broaden the landscape of political leadership in India through formal training and to include those who rise through merit, commitment and passion for public service and not just from political lineage," said Saurabh Johri, director in-charge, School of Ultimate Leadership (SOUL).

"The SOUL Leadership Conclave offers a unique opportunity to spark meaningful dialogue on leadership and its profound impact on society, creating a platform where new ideas can flourish and the next generation of leaders can find inspiration," he added.

Located on the periphery of GIFT City in Gandhinagar, SOUL is a privately-funded leadership institution, designed to equip government and public sector leaders with access to tools, skills and expert insights necessary to navigate the complex challenges of leadership in today's world.

President urges Government to embrace emerging technologies

PIONEER NEWS SERVICE ■ NEW DELHI

It is essential for government departments to modernise their systems by making the best use of emerging technologies to cater to the ever-rising expectations of the public for efficiency in service delivery, President Droupadi Murmu said on Thursday.

Addressing a group of probationers from different government services, she asked them to keep abreast of advanced technologies, skills and strive to create more citizen-centric, efficient and transparent governance systems.

The probationers from the Indian Civil Accounts Service, Indian Post and Telecommunication (Finance

and Accounts) Service, Indian Railway Management Service (Accounts) and the Indian Postal Service had called on the president at the Rashtrapati Bhavan.

There is an ever-rising expectation among the public for greater speed and efficiency in service delivery, along with increased transparency and accountability, the president said. "To cater to these requirements, it is essential for government departments to modernise and digitise their systems by making the best use of emerging technologies," she said. Such technologies include machine learning, data analytics, blockchain technology and artificial intelligence, she added.

Addressing the probationers from the Indian Civil Accounts Service, Indian Post and Telecommunication (Finance

and Accounts) Service and the Indian Railway Management Service (Accounts), the president said a strong public financial management system was the foundation of good governance.

"Keeping pace with the fast-changing technology is another area of challenge. You have to take measures to make accounting and payment systems smooth and effective," she said. Their role goes beyond optimising the use of financial resources and "involves analysing the impact of policies and suggesting inputs to improve governance systems, including the financial management systems", President Murmu added.

Speaking to the probationers from the Indian Postal Service, she appreciated the efforts of India Post Payments Bank for

financial inclusion, particularly for rural and under-served populations.

"You have the unique opportunity to make the postal department and services more customer-centric, innovative, digitised, inclusive and sustainable. You have to ensure that the postal network continues to serve as a big uniting factor in a vast and diverse nation as ours," the President said.

"You should remember that you will be able to play a vital role in empowering citizens, especially the less privileged, through enhanced connectivity and financial inclusion," she added.

She expressed hope that the officers would make all efforts not only to excel in their individual careers but contribute to effective delivery of government services.

UPSC introduces new online application module for 2025

PIONEER NEWS SERVICE ■ NEW DELHI

A new module of registration and online application form replacing the Detailed Application Form (DAF)-I and DAF-II has been introduced by the UPSC in civil services examination-2025, Union Minister Jitendra Singh said on Thursday.

The primary objective for implementing this module is to enhance convenience for the candidates, streamline the application process and optimise the examination cycle, he said in the Rajya Sabha.

The civil services examination (CSE) is conducted by the Union Public Service Commission (UPSC) annually in accordance with the CSE rules notified by the Department of Personnel & Training, said Singh, the Minister of State for Personnel.

"A new module of registration and online application form replacing the Detailed

Application Form (DAF)-I and DAF-II has been introduced by UPSC in CSE-2025," he said in a written reply to Rajya Sabha.

Singh cited sections of the notified rules that make it mandatory for the applicant to submit requisite information and supporting documents towards various claims, such as date of birth, reservation category and educational qualification among others along with the online application form.

"The failure to provide the required information/documents along with the registration and online application form will entail cancellation of candidature for the examination," read the rules.

The civil services examination is conducted annually by the UPSC in three stages - preliminary, main and interview - to select officers of the Indian Administrative Service (IAS), Indian Foreign Service (IFS) and Indian Police Service (IPS), among others.

India to procure 1,000 surveillance helicopters for high-altitude operations

PIONEER NEWS SERVICE ■ NEW DELHI

The government has begun the process to procure nearly 1,000 surveillance helicopters with accessories capable of operating up to an altitude of 5,500 metres above sea level and both during day and night time, as a Request for Information (RFI) was issued.

The RFI says the surveillance helicopters, along with the accessories, are planned to be procured in the spirit of the 'Make in India' and 'Atmanirbhar Bharat' programmes. "The preferred categorisation for the project as per provisions of Chapter-II of DAP-2020 may be indicated by the vendors with due justification," it adds.

The defence ministry intends to procure an "approximate quantity of 1,000 surveillance copters (high altitude area) with accessories", according to the RFI document. This RFI is being issued to "finalise SQRs (Service Qualitative Requirements), decide procurement category

and identify probable Indian vendors who are capable to supply surveillance copter (HAA) along with accessories".

The first part of the RFI incorporates the intended use of the equipment and the operational requirement that should be met by the surveillance copter with accessories. The RFI also mentions the terrain conditions under which the "surveillance copters" will be employed primarily in high altitude (up to 5,500 metres), mountainous terrain in India. The surveillance copters with accessories should be operational by day and night and in

commonly encountered weather conditions in all kinds of terrains in the country, the RFI says. "Surveillance Copter (High Altitude Area) be modular in design, thereby lending itself to future upgrades through simple modifications, not leading to design or structural change. It should also facilitate integration and installation, without impacting the performance of any system/sub-system," it added.

The Indian Army is also planning to procure 50 "heavy crawler rock drill" with the government on Wednesday issuing a draft RFI. "The RFI intends to achieve aim

and objectives as per Paragraphs 2 to 4 of Chapter II of DAP 2020," it said.

The Indian Army deployment in Northern, Eastern and Central Commands comprises inaccessible areas with some of the most difficult and treacherous terrain, the document reads.

"Creating sustainable infrastructure in these areas in the shortest time frame is an inescapable operational necessity. Quick development of suitable lines of communication (L of C) is the most critical element of this aspect," it said.

"A self-propelled heavy-duty crawler-based rock drill with an on-board compressor shall be used extensively for moving and positioning the drill machine to the initial formation site for drilling and road cutting in hard rock strata, powering pneumatic/hydraulic motors fitted on the rock drill. "It shall be used for quarry operations and initial road formation cutting by drilling bench holes, toe holes for charging and blasting in mountains," it said.

Aditya Thackeray meets Rahul, Kejriwal on INDIA Bloc unity

PIONEER NEWS SERVICE ■ NEW DELHI

Shiv Sena (UBT) leader Aditya Thackeray met Congress leader Rahul Gandhi and AAP convener Arvind Kejriwal, days after their losses in the Delhi assembly polls, with a message to strengthen the fight for free and fair elections.

Aditya Thackeray, on a whirlwind tour of the national capital, also met the party's parliamentarians amid reports of dissent in the ranks and some leaders planning to join the Eknath Shinde-led Shiv Sena.

He met Rahul Gandhi late on Wednesday and called on Kejriwal, the former Delhi chief minister, whose party faced defeat in last week's assembly elections on Thursday. "Is there any difference between the BJP and the Election Commission (EC)?... I don't even know where my vote goes. There needs to be more clarity on EVMs (electronic voting machines) and VVPATs (voter-verifiable paper

audit trail)," Aditya Thackeray said.

After calling on Kejriwal, Aditya Thackeray described the meeting as a gesture of friendship. "Governments keep coming and going but relationships continue. We met Kejriwal as a gesture of friendship. However, our democracy is not free and fair. Elections are not free and fair," he told reporters after the meeting.

He was accompanied by party MPs Sanjay Raut, Arvind Sawant, Priyanka Chaturvedi, Sanjay Dina Patil and Bhausaheb Wakchaure, among others.

The Congress, Shiv Sena (UBT) and the NCP (SP) had alleged irregularities in the conduct of last year's Maharashtra assembly election, claiming that there were more registered voters in the state than its total adult population. The three parties, which formed the Maha Vikas Aghadi (MVA) grouping, claimed 39 lakh new voters were added between the Lok Sabha elections in May and the November assembly polls.

Smooth traffic ensures seamless holy dip in Sangam for pilgrims

BISWAJEET BANERJEE ■
MAHAKUMBH NAGAR

Prayagraj's traffic remains smooth despite the massive Magh Purnima rush, as effective administrative arrangements ensure a hassle-free pilgrimage to the Sangam.

According to the Fair police, traffic is moving smoothly on all major routes, including Malak Harhar (Lucknow), Mirzapur Road, Rewa Road, Sahson (Jaunpur), Phaphamau (Lucknow), Andawa (Varanasi route), and Kaushambi.

In view of Mahakumbh, security forces and traffic police have been strategically deployed on all major routes to ensure devotees do not face any inconvenience. The Traffic department has urged devotees to adhere to the instructions issued by the administration and avoid unnecessary halts on any route.

Chhattisgarh Governor, CM, cabinet take holy dip. On Thursday, a 166-member Chhattisgarh delegation, led by Governor Ramen Deka, CM

Thousands of devotees gathered to take holy dip at Sangam during ongoing Maha Kumbh Mela 2025, Prayagraj PTI

Vishnu Deo Sai, and Speaker Dr. Raman Singh, also joined, along with several opposition MLAs. Chief Minister Vishnu Deo Sai expressed his heartfelt gratitude to Uttar Pradesh Chief Minister Yogi Adityanath for the divine and grand organization of Mahakumbh. Along with taking a dip in Triveni Sangam, he prayed for

the welfare and prosperity of the people of Chhattisgarh. Later, CM Sai visited the Chhattisgarh Mandap in Sector 7 to check on the well-being of devotees from his state and review the arrangements made for them.

Vishnu Deo Sai, accompanied by his wife Kaushalya Sai, Governor Ramen Deka,

Assembly Speaker Raman Singh, MPs, and MLAs, reached Arail Ghat for the holy bath.

The entire delegation took a dip in the Sangam together. CM Sai expressed his gratitude to CM Yogi Adityanath, saying, "Today, the Governor, MLAs, MPs, and my entire cabinet have come to take this sacred

dip of faith. We are deeply thankful to Uttar Pradesh Chief Minister Yogi Adityanath for inviting us to this divine event." Following the holy bath, CM shared his experience on social media, writing, "Today, I took a dip in the Triveni Sangam at Tirthraj Prayag, seeking the happiness, prosperity, and well-being of three crore people of Chhattisgarh.

Mahakumbh is a grand festival of divinity and spiritual energy in Sanatan Dharma, where faith transforms into nectar and unites the soul with the divine."

Chhattisgarh Assembly speaker Dr Raman Singh emphasized the privilege of participating in the Mahakumbh, saying, "It is a matter of great fortune for the leadership of our Chief Minister, we along with the Governor, ruling party MLAs, and even opposition MLAs have come together to take this sacred bath. Mahakumbh is a blessing for the peace, prosperity, and well-being of our state.

Captain Karamjit Singh Bakshi cremated with honors

Bereaved family members of martyr Captain Karamjit Singh Bakshi are seen as his mortal remains are being brought to his home, Hazaribagh, Jharkhand PTI

PIONEER NEWS SERVICE ■
HAZARIBAG/JHARKHAND

The mortal remains of Captain Karamjit Singh Bakshi, an army man who was killed in Jammu and Kashmir, were consigned to flames in Jharkhand's Hazaribagh on Thursday.

The 27-year-old army man who belonged to Punjab Regimental Centre was among two defence personnel killed after suspected terrorists set off an improvised explosive device (IED) near the Line of Control (LoC) in Akhnoor sector on

Tuesday.

The air was thick with grief as the body of the man was cremated at the burning ghat in Khirgaon here in the presence of his teary-eyed parents and other people. Bakshi's fiancée, an Army doctor stationed in Jammu, whom he was supposed to marry in April, also stood silently among the crowd.

Earlier, Captain Bakshi's body was received by his family. His parents, Sardar Ajinder Singh Bakshi and Neelu Bakshi stood still as they watched their only son embark on his final

journey wrapped in a tricolour. The streets were lined with mourners, many of whom knew Captain Bakshi since his childhood.

The town that had celebrated Karamjit's engagement a few days ago. His uncle Sardar Amarjit Singh Bakshi told PTI, "Karamjit was like Kohinoor for family and friends. A very charming youth who was always there for people. He had come to Hazaribagh for a week and left on January 24 for Akhnoor where he was posted."

The uncle said the deceased was due to be married in Jammu on April 5. "When we were expecting a celebration, we received such a setback," his other uncle Sardar Devinder Singh said.

The Army Captain is survived by his mother, father and sister. Jharkhand Governor Santosh Kumar Gangwar, Finance Minister Radha Krishna Kishore and a large number of Army and Civil officials paid tributes to the fallen soldier at the Birsu Munda Airport on Wednesday. Chief Minister Hemant Soren condoled the death of Bakshi and an army jawan in the IED blast.

Haryana cracks down on illegal mining, seizes 324 vehicles

Photo: File photo

PIONEER NEWS SERVICE ■
CHANDIGARH

The Mines and Geology Department, Haryana has stepped up its efforts to combat illegal mining in the state, with district-level officials inspecting 3,950 locations across the state under a special drive, an official statement said on Thursday.

The extensive effort from January till February 10 led to the seizure of 324 vehicles involved in illegal mining, it said.

According to the statement, the department has set up a robust enforcement strategy including inspections, monitoring, and the use of cutting-edge technology, to conserve natural resources and stopping unauthorized mining activities. Additionally, drones and other advanced tools are being deployed to detect illegal mining operations, while vehicles associated with illicit activities are being seized, it said. The statement said that FIRs are being registered and

hefty fines are being levied on violators.

Acting swiftly on a complaint of illegal mining in Bhagwapur village of Yamunanagar district recently, the department conducted an inspection of the area.

Investigations revealed that boulders, gravel, sand, and ordinary soil were illegally mined over approximately two acres of land. A fine of Rs 65,37,732 was imposed, and an FIR was registered on February 11, the statement added.

As per the guidelines of the mining department, regular inspections are ongoing in every district of Haryana. Notably, in Yamunanagar district, 123 vehicles have been seized, and 116 FIRs have been registered for illegal mining activities during the months of January and February (till February 10).

"The department remains committed to fully eradicating illegal mining to ensure the responsible exploitation of the state's natural resources and prevent revenue loss," it said.

Change of Odisha government in 2024 was a declaration of faith: Odisha Governor

PIONEER NEWS SERVICE ■
BHUBANESWAR

Odisha Governor Hari Babu Kambhampati on Thursday said the people of the state opted for a change of government in 2024 general elections and it was not just a political decision, but a "declaration of faith".

The people changed the nearly two-and-half decade long government in the state with a vision for the future and hope of a transformation in their lives, he said.

The governor said this while addressing the Budget Session of Odisha Assembly which commenced on Thursday. He said the state, despite its glorious past and abundant

human resources, struggled to fulfil its immense potential. "The state's promises often remained unrealised. The people of Odisha, with hope in their hearts and a vision for the future, opted for change over continuity in the 2024 general elections," the governor said.

Noting that they were tired of waiting for a transformation that never seemed to come, the governor said: "They (people) embraced the promise of my government that they would listen, understand and act. Their vote was not just a political decision, it was a declaration of faith." The people entrusted his government with the hope of the poor, aspirations of youths,

dreams of farmers and aims of women believing that change would usher in a new era, an era of unmatched prosperity, he said.

Kambhampati said that with the mandate of the people and a determined vision for the future, the new government shouldered the onerous responsibility of taking the state forward in the path of prosperity. He said it is just eight months of assuming responsibility and during such a short span of time, the new government has taken various landmark decisions, launched numerous schemes and hosted several programmes in the interest of the people.

"The government implemented its flagship

scheme 'Subhadra' which is poised to benefit about a crore of women of the state, rolled out the 'Samrudha Krushak Yojana' to provide input assistance of Rs 800 per quintal of paddy over and above the MSP, opened the 'Ratna Bhandar' of Shree Jagannath Temple honouring the demands of devotees and took up many initiatives to revive Odia Asmita (pride).

The governor also highlighted the state government hosting the DG/JGP conference, 18th Pravasi Bharatiya Divas, visit of Singapore President and Utkarsh Odisha-Make in Odisha conclave. He said the state government has received three lakh suggestions for 'Vision 2036' which aspires to

build a developed Odisha targeting a 500 USD billion economy by 2036.

Starting his speech by chanting 'Jai Jagannath', the governor said poor, youth, women empowerment are the main pillars of the state government. He said the state has implemented the National Education Policy, Ayushman Bharat in the health sector, Kamadhenu scheme for dairy farmers and others.

Stating that 1.5 lakh government jobs to be filled in five years duration, the governor said as many as 65,000 posts to be filled in two years. More than 24,000 posts have been filled in 2024-25. The governor also said the state government will

empower 25 lakh women as 'Lakshmi Didi' by 2027. He said the state government has proposed a new scheme 'Swachha Odisha' to enhance solid, liquid and wastewater management in cities.

The state has also launched a new scheme 'Urban Mobility' to ensure seamless transportation in urban areas, and secured approval for development of Hirakud and Satkosia projects to elevate them to a global standard tourist destination, he said. "My government remains committed to a people first approach in delivering essential services, creating livelihood opportunities and developing infrastructures," the governor said.

Centre dispatches teams to tackle bird flu outbreak in Andhra Pradesh

PIONEER NEWS SERVICE ■
AMARAVATI

Andhra Pradesh Animal Husbandry Minister K Atchannaidu said on Thursday that the Central Government has dispatched teams to assess the Avian Influenza situation in the state following the outbreak of the viral disease in three districts.

Over the past 45 days as many as 5.4 Lakh chickens have died in the southern state due to the disease, prompting the Animal Husbandry Department to begin culling birds and creating restricted zones in the affected areas.

Photo: File photo

Badampudi village in Eluru district reported the death of 2.2 Lakh chickens, Velpuru in West Godavari district

recorded 2.5 Lakh deaths, Kanuru Agraharam in East Godavari district reported 65,000 deaths and

Gampalagudem in NTR district saw 7,000 deaths.

"The Chief Minister spoke in detail with senior scientists in Bhopal and the Central Government secretary. Following this, the Central Government secretary dispatched teams to Andhra Pradesh," Atchannaidu said at a press conference at the secretariat.

The minister also noted that a senior official from the Centre will visit Andhra Pradesh on February 14.

In addition to declaring the affected poultry farms as bio-secure zones, the senior TDP leader stated that officials have been deputed to these areas to ensure the

strict implementation of containment measures.

He added that the culling of chickens has been completed at three affected poultry farms and will be completed at the remaining two farms today.

According to the minister, officials are monitoring the situation on an hourly basis. Reiterating that there is no harm in consuming boiled eggs and cooked chicken, Atchannaidu assured people that they can eat them without fear.

He urged restraint against unnecessary rumour-mongering about the disease on social media and mainstream media.

Criminal with ₹10,000 bounty arrested at India-Nepal border

STAFF REPORTER ■
GURUGRAM

A criminal with a bounty of ₹10,000 was arrested from the India-Nepal border, who was absconding after out of jail on parole on Wednesday, police said.

The accused was identified as Surender alias Choti, a resident of the village Bans Aliyar district Gurugram.

According to the police, on September 9, a complaint was received at Police Station Sector-7 IMT Manesar, Gurugram from District Jail Gurugram that an inmate Surender, who was serving a life sentence on murder charges District Jail Gurugram was sent on parole for four weeks on 14.08.2024 and was asked to surrender in District Jail Gurugram on 12.09.2024. The prisoner did not surrender in the jail even after the expiry of parole. On this complaint, a case was registered under the Haryana Good Conduct Prisoners (Temporary Release) Act at Police Station Sector-7 IMT Manesar, Gurugram. During swift action, the police team led by Sub-Inspector Lalit, Incharge Crime Branch Manesar, Gurugram, nabbed the absconding accused from the India-Nepal border on Wednesday.

According to the jail records, about 80 charges were registered against the criminal under burglary, attempt to murder, murder and the criminal and he was sentenced to life imprisonment for killing his wife. "The accused was residing in Nepal to avoid police action. Further action is being taken by the police team as per the rules in the matter. The case is under investigation," Sandeep Kumar, spokesperson of the district police said. Apart from this, the Gurugram police have also arrested 6 people from different locations here in the city for possession of illegal liquor.

Will not allow fudging voters list: TMC general secretary Abhishek Banerjee

SAUGAR SENGUPTA ■
KOLKATA

The Trinamool Congress continued to attack the BJP Government for manipulating elections and warned of adequate counter measures against all efforts to tamper with electoral rolls ahead of next year's Bengal Assembly elections.

Questioning the "doubtful appearance or disappearance of names" in and from the electoral rolls in Delhi Assembly seat "which might have been a cause for Aam Aadmi Party's defeat" TMC general secretary Abhishek Banerjee on Thursday said that in "Bengal all such moves would be thwarted." "More than 4 Lakh doubtful new names were added in the electoral rolls in the eight months - from June to

Photo: File photo

January - before the Delhi Assembly elections which is unprecedented....four Lakh votes made the difference," Banerjee said. Adding how "in New Delhi seat alone 20,000 names disappeared whereas in some other place 30,000 suspicious names appeared ... this trend has no satisfactory answer and arouses suspicion ... this

election process was not genuine ... and the failure of AAP is that they could not handle it ... but in Bengal such things will not be allowed to take place." In Kolkata senior TMC leader and Parliamentary Affairs Minister Sobhandeb Chatterjee warned the BJP against trying to make a mess of the electoral rolls.

"They have used this formula in a number of States ... now they are trying to do it in Bengal by allowing online registration of names in the voters' list but we will not allow these names to be finalized until there is a physical verification with relevant credentials ... we are taking this up with utmost priority," Chatterjee said. Earlier, Chief Minister Mamata Banerjee too had slammed the BJP for winning elections by fudging electoral rolls. "How will you explain the ghost voters that swell the voters' lists causing you to win elections ... from where 40 Lakh voters came in Maharashtra," Banerjee on Wednesday said alleging that the BJP has been "taking the help of the Election Commission."

Alleging that the voters' lists were manipulated in Haryana and Maharashtra Banerjee said that the Election Commission was made to look the other way. "And if anyone will protest you will send ED and CBI to frighten them ... and here I have reports that the voters' lists are being fudged thousands of names are being added from Bihar we have alerted our people and the administration ... we will thwart all your attempts and once again you will be defeated here," Banerjee said.

The TMC leadership's strong comments not with standing the Opposition came out with a sharp reply saying "fear is gradually settling in their hearts ... the Chief Minister and other TMC leaders are afraid of losing elections in 2026."

Accused arrested for ₹20,000 reward in ₹2 Crore ganja seizure case

STAFF REPORTER ■
GURUGRAM

An accused was arrested from Mathura for allegedly carrying a reward of ₹20,000 in connection with a drug peddling case, police said.

The police on August 8, had recovered with more than a tonne of ganja valued at about ₹2 Crore from the suspect hideout from a locked house in Gurugram's Pataudi area.

The alleged drug was being transported from Odisha, police said on Thursday. The arrested accused was identified as Deshraj, a resident of Kuni Daulatabad village here in Gurugram. During police interrogation, it was found that the recovered ganja was brought by the accused in a truck from Orissa and was hidden in his closed house. "The estimated cost of the ganja was found to be ₹2 Crore. The ganja was sold in small packets to the customers. Gurugram Police had dealt a tough blow to the smugglers of ganja by seizing such a huge consignment of illegal ganja.

Before this drug could be supplied to various places, Gurugram Police had taken major action against the smugglers and recovered

the illegal contraband," Sandeep Kumar, spokesperson of the Gurugram police said.

The accused has been produced in the court for further interrogation and was taken on 8 days police remand.

During the remand period police will ascertain the whereabouts other members of the accused. Whatever facts emerge in the proceedings being conducted by the police team," the spokesperson said.

The investigation team earlier had said that, the crime branch DLF Phase-IV had received secret inputs from their reliable sources that a huge quantity of Ganja was stocked in the Pataudi area. Based on the information a team from the crime branch reached the disclosed spot but found that the house was locked. Meanwhile, the police team somehow manage to trace the owner of the house who gave us in writing to open his house.

Police then in the presence of duty magistrate and village head (Sarpanch) opened the house and recovered the huge quantity of illegal contraband. The illegal contraband was stuffed in at least 21 plastic bags.

Arunachal's Tawang district faces power, communication disruptions amidst heavy snowfall

PIONEER NEWS SERVICE ■
ITANAGAR

Tawang district in Arunachal Pradesh has been experiencing heavy snowfall since Tuesday evening, throwing life out of gear in the border district. The entire district has been covered under a thick blanket of snow, district officials said. While snowfall is not

uncommon in the region, the prolonged and heavy nature of this spell has led to disruptions in essential services, including electricity, water supply, and communication. Uprooted trees and the accumulation of thick snow on power and communication lines have caused service disruptions in some areas. Although most shops

remained open, footfall is low as residents step out only to purchase daily necessities.

Attendance in educational institutions has significantly reduced, as vehicles are not plying. Various departments, including power, public health engineering, Border Roads Organisation, PWD, and rural works department are working

tirelessly to restore and maintain essential services, officials added.

Police and army personnel are actively assisting stranded tourists and commuters at Sela and Jaswant Garh areas.

According to the latest weather forecasts, snowfall is likely persist for the next few days. "If the situation continues, further disruptions to

normal life may occur. However, as of now, no reports of significant damage or accidents due to snowfall have been received," the officials informed.

The district administration has advised citizens of the border district to take necessary precautions, avoid unnecessary travel, and stay updated with official advisories.

PAPER WITH PASSION

Revamping the tax regime

Nirmala Sitharaman introduces the Income Tax Bill 2025 in Parliament, aiming to replace the 1961 Act with a more taxpayer-friendly framework

Finance Minister Nirmala Sitharaman introduced the Income Tax Bill 2025 in Parliament on Thursday. This new bill aims to replace the Income Tax Act, 1961, which has become cumbersome due to numerous amendments over the last six decades. The bill focuses on simplification, clarity and ease of compliance for taxpayers while retaining the fundamental structure of the tax system. The bill consists of 536 sections, 23 chapters and 16 schedules within 622 pages, making it significantly more concise than the 880-page 1961 Act. One of the major changes is the replacement of the term 'previous year' and 'assessment year' with 'tax year,' eliminating confusion regarding tax filing timelines. To further enhance clarity, ambiguous terms such as 'notwithstanding' have been replaced with 'irrespective.' The new bill also introduces tables and formulae for key calculations, such as TDS, presumptive taxation, salary taxation and deductions for bad debts. Complex explanations and provisos have been omitted, making the law more comprehensible and user-friendly.

A formal Taxpayer's Charter has been included, outlining rights and responsibilities to promote transparency and fairness in tax administration. All TDS-related provisions have been consolidated under a single clause using simple tabular formats, reducing complexity and improving compliance. Additionally, the bill integrates key court rulings from the last 60 years, providing more legal certainty and reducing disputes. The tax treatment for employee stock options has been refined, offering a more transparent taxation structure to ensure fair and predictable tax treatment for employees receiving stock options. To make tax exemptions clearer,

income that does not form part of total income has now been moved to dedicated schedules instead of being scattered throughout the Act. These changes are expected to bring multiple benefits, such as simpler compliance, a clear taxation structure, reduced litigation, an easier TDS framework and greater predictability for employees with stock options. Despite these advantages, the bill faces certain challenges. Taxpayers and businesses will need time to adapt to the new terminologies and provisions. The removal of 'previous year' and 'assessment year' may cause temporary confusion during the transition. Additionally, the introduction of tables and streamlined TDS clauses will require updates in income tax return (ITR) forms, software utilities and reporting systems. The Income Tax Bill 2025 marks a significant step toward a more transparent, efficient and taxpayer-friendly system. While it does not introduce new taxes, its simplification of language, removal of redundancies, and integration of judicial precedents will reduce compliance costs and tax disputes. If successfully implemented, this bill could enhance tax administration efficiency and encourage better voluntary compliance among taxpayers. After deliberation by the Parliamentary Standing Committee on Finance, it is expected to come into effect from April 1, 2026. How it will actually work will only be clear then.

Russia combines diplomatic strategy with military tactics

NISHAKANT OJHA

Russia's military philosophy extends beyond traditional warfare, incorporating hybrid tactics that blend Eastern endurance with Western innovation

Russia's military strategy has long been shaped by its geopolitical position, straddling both Europe and Asia. This dual identity has led to a warfare doctrine that merges Western technological advancement with Eastern strategic depth and endurance. The ongoing evolution of Russian military tactics provides valuable insight into its approach to global conflicts, shaped by a fusion of European and Asian influences. From the European side, Russia has historically adopted a professionalised military structure similar to Western armies, particularly during the Imperial era and through Soviet reforms. Its command structures have evolved to centralise authority while enabling flexibility on the battlefield. The modernisation of weaponry has also followed Western advancements, integrating precision-strike capabilities and network-centric warfare. Drawing lessons from NATO conflicts, Russia has enhanced its rapid manoeuvre warfare strategies, incorporating elements of German Blitzkrieg and modern NATO doctrines, which were evident in its campaigns in Georgia and Ukraine.

On the other hand, Russia's Eastern influences are deeply rooted in its strategic patience and attritional warfare, a legacy of the Mongol conquests and Soviet-era endurance strategies. Rather than seeking swift victories, Russia often engages in prolonged, resource-draining conflicts that wear down its adversaries over time. Its embrace of asymmetric and hybrid tactics aligns with guerrilla warfare methods, employing unconventional approaches such as cyberattacks, disinformation campaigns and proxy warfare. This strategic approach mirrors the methods used by China and other Eastern powers, relying on destabilisation rather than direct confrontation. Furthermore, Russia's influence in regional conflicts extends beyond conventional military engagements, utilising mercenaries like the Wagner Group and supporting separatist movements, a strategy similar to

Iran's and China's use of regional proxy forces.

Russia's military doctrine extends its influence over neighboring states, shaping their security and geopolitical dynamics. Ukraine has been the epicenter of Russia's hybrid warfare, where cyberattacks, military incursions, and disinformation campaigns have been employed to destabilise the country. Belarus remains a critical ally, hosting Russian forces and acting as a logistical facilitator for military operations. The Baltic states—Estonia, Latvia, and Lithuania—are under constant Russian influence, facing frequent cyber intrusions and political destabilisation efforts, despite their NATO membership. In Central Asia, Russia maintains a military and economic presence in former Soviet republics like Kazakhstan, Uzbekistan and Kyrgyzstan, ensuring their alignment within its sphere of influence. Similarly, in the Caucasus, Russia has engaged in military conflicts, as seen in Georgia, and continues to exert influence in Armenia and Azerbaijan through peace-keeping operations and strategic alliances. Beyond its immediate borders, Russia balances relationships with China and India, maintaining military cooperation with the former while supplying arms to the latter, ensuring its strategic autonomy amid shifting glob-

DRAWING LESSONS FROM NATO CONFLICTS, RUSSIA HAS ENHANCED ITS RAPID MANOEUVRE WARFARE STRATEGIES, INCORPORATING ELEMENTS OF GERMAN BLITZKRIEG AND MODERN NATO DOCTRINES, WHICH WERE EVIDENT IN ITS CAMPAIGNS IN GEORGIA AND UKRAINE

al alliances. The geopolitical strategy of the United States in the Russia-Ukraine war has been pivotal in countering Russian aggression through military, economic, and diplomatic means. One of the most significant aspects of US involvement has been its military support for Ukraine. The US has supplied Ukraine with advanced weaponry, including Javelin anti-tank missiles, HIMARS rocket systems, and Patriot air defence systems, significantly enhancing its defensive and offensive capabilities. Another key aspect of the economic strategy has been reducing Europe's dependence on Russian oil and gas. The US has increased its liquefied natural gas exports to Europe and supported alternative energy sources to mitigate Russia's ability to use energy as a political weapon. Additionally, billions of dollars in direct economic aid have been provided to Ukraine to stabilize its economy and sustain its military operations. India, as a key global player, has maintained a delicate balancing act in the Russia-Ukraine war due to its historical ties with Russia and its growing partnerships with the West. Economically, India has continued its energy cooperation with Russia, increasing imports of Russian oil at discounted prices to mitigate global energy inflation. At the same time, India is expanding

its trade partnerships with Western nations to ensure diversification and avoid over-reliance on any single economic partner. In the geopolitical sphere, India has positioned itself as a neutral entity, abstaining from several UN votes condemning Russia and advocating diplomatic dialogue over sanctions. India's military procurement strategy reflects this balance, as it continues to acquire Russian military hardware such as S-400 missile systems while simultaneously strengthening defense ties with the US and France to modernise its armed forces. The broader Indo-Pacific security landscape remains a key concern for India, as it remains wary of deepening Russia-China military ties. Given China's aggressive posturing in the region, India has increased its engagement with Western powers, particularly through the QUAD alliance with the US, Japan and Australia, to counterbalance Chinese influence. Russia's military philosophy extends beyond traditional warfare, incorporating hybrid tactics that blend Eastern endurance with Western innovation. Cyber and information warfare play a significant role in Russia's strategy, heavily influenced by China's cyber tactics.

LETTERS TO THE EDITOR

COUNSELLING CENTRES FOR COUPLES

Madam — Recently, many cases of divorce rocked the nation. The case of Atul Subhash, who ended his life, giving up due to the mental agony faced by his wife during divorce and another incident where a Karnataka woman demanded Rs 6.16 lakh per month as alimony, raised doubts among youth on the institution of marriage. To curb the rising cases of divorce, the Odisha government has come up with a welcome initiative to open a pre-marriage counselling centre in the state. CM Mohan Charan Majhi, following a proposal from National Commission for Women (NCW) Chairperson Vijaya Rahatkar, took this thoughtful initiative. With the changing times, the mindset of the young couples is changing. The word 'divorce' is becoming very common in the country these days.

In case of any conflict, be it external or internal, without giving a second thought, the married couple is straightaway heading for a divorce, just like returning a defective product to a shop. Due to a lack of guidance and understanding, some couples don't even put effort into fixing their marriage, which later leads to affairs and family disputes. This practice needs to change; this is where the pre-marriage counselling centres will help the couples. There are some conflicts that can be resolved under proper guidance and advice that the pre-marriage counsellors will provide to couples. This initiative will pave the path for young couples to take the right call at the right time without falling prey to any misjudgments and misunderstandings. The initiative from the Odisha government is a commendable approach to curb divorce cases and to ensure the mental and emotional wellbeing of married couples.

IAF CHIEF CRITICISES HAL

Madam — Indian Air Force Chief Air Marshal Amar Pratap Singh has said his confidence in defence PSU Hindustan Aeronautics Ltd (HAL) continues to

Supreme Court slams freebies

Recently, during the hearing of a PIL seeking shelter for the homeless in Delhi, the Supreme Court's bench deprecated the distribution of freebies ahead of elections and remarked that it would be better if the homeless were sought to be integrated into mainstream society so that they could contribute to the nation. The order has been passed in the backdrop of a chart handed over in the court by a petitioner in person, which showed the statewide position with regard to the number of homeless persons, the

number of shelters available, and the number of persons who could be accommodated in the said shelters. The Supreme Court expressed concern over political parties promising freebies and asking whether it was not "creating a class of parasites" instead of bringing people into the mainstream workforce who could contribute towards the nation's development.

The bench has also remarked that people are not willing to work due to the lure of cash transfer schemes like "Ladkhi Behin" and free rations. Shooting down his submission, Justice B R Gavai recounted his personal experience of how agriculturists in Maharashtra were not getting labourers as they were getting things free at home. SC's strong observation comes at a time when political parties go all out to woo voters by promising freebies like free electricity and water with little concern for state finance.

INVEST IN AI

Madam — The Chinese DeepSeek has motivated the major countries including India seeking deep into the Artificial Intelligence pursuit. China surprised the world with its latest AI application but it is the hard work of their government, fund managers, institutions, regulatory authorities for two decades with the investment of billions of US Dollars. The global cooperation in developing the latest AI technology to excel ahead of DeepSeek is welcome. Our 23 IITs and 26 IIITs, IISC have thousands of students, researchers and the most competent faculty who can synergise their efforts, resources and infrastructure to develop our own advanced AI. The Government should immediately thrust their concerted efforts with the regulatory framework, funding and infrastructural resources and pool our top and globally prestigious engineering institutions to develop our own AI at a fast pace.

The true cost of 5G: Why prices are high now—but will not stay that way

GAURAV GANDHI

New technologies start costly but become more affordable as adoption grows. With economies of scale, 5G costs will drop, unlocking new opportunities for businesses

The 5G technology is widely recognised for its ability to deliver lower latency, faster speeds and improved connectivity, supporting a vast number of devices simultaneously. However, many consumers perceive 5G as an expensive innovation, primarily due to the high cost of chipsets, while overlooking broader cost factors. Although chipset expenses are a component, they do not represent the complete financial picture. The Cost of 5G Hardware When considering 5G, it is common to focus on the price of chips. While 4G chips are priced below \$10, 5G chips currently exceed \$100. However, focusing solely on chipset costs ignores the larger financial framework. The primary expense of 5G stems from the extensive infrastructure required to support the network. Telecom providers must invest in building new base stations, fibre-optic networks, and antennas to enable 5G connectivity. Historically, new technologies such as cloud computing and smartphones were expensive when first introduced.

However, as demand grew and adoption increased, prices gradually decreased. A similar trend is anticipated with 5G.

The Inevitable Drop in 5G Costs

Technological progress consistently follows a pattern: initial prices are high, but they decline over time. A case in point is the smartphone market, where the average cost dropped from \$443 in 2011 to \$372 in 2013. Similarly, cloud computing services have become significantly cheaper over the past decade. The same economic principles apply to 5G. As technology advances and adoption rates increase, costs will inevitably decrease.

Economies of Scale and Cost Reduction

One of the key drivers of cost reduction in 5G is economies

of scale. As more telecom providers, businesses and consumers adopt 5G, the cost of deployment will continue to decline. The larger the global 5G network, the more cost-effective its implementation becomes. Research by Juniper predicts that global 5G connections will surge from 5 million in 2019 to 1.5 billion by 2025. Mass production plays a crucial role in reducing costs. Increased production volumes lead to lower prices for 5G hardware, including chips, antennas, and base stations. The 5G base station market is expected to grow from \$37.44 billion in 2025 to \$132.06 billion by 2030, at a CAGR of 28.67 per cent, according to Mordor Intelligence. These massive investments will drive economies of scale, further lowering the cost of private 5G network deployment for businesses.

Affordable 5G Handsets and Private Networks

The competition in chipset manufacturing is already pushing down 5G handset prices. As these prices drop, the overall cost of related hardware and services will follow, accelerating global 5G

The Future of 5G Affordability

As adoption scales up, deployment costs will decline, making 5G a more democratised technology. This affordability will allow businesses of all sizes to embrace 5G, fostering innovation in artificial intelligence, augmented reality, and beyond. The widespread availability of 5G will enable businesses to stay competitive in the digital world.

INDIA'S AI DIPLOMACY

India's plan to host the fourth global AI summit in Delhi underscores its strategic push for leadership in AI innovation

KUMARDEEP BANERJEE

Prime Minister Narendra Modi's recent visits to Paris and Washington, where he engaged with two of the most influential leaders from the developed world, come at a crucial juncture of shifting geopolitical dynamics. The central theme of these high-level bilateral discussions revolved around advanced technology cooperation in an increasingly fragmented world. India played a significant role as the co-chair of the AI Action Summit in Paris, alongside host nation France. This marked the third global event dedicated to artificial intelligence, drawing comparisons to the Kumbh Mela of technology—bringing together policymakers, corporate leaders, experts, and world leaders.

The summit's primary focus was on leveraging the transformative potential of AI, a technology that has been likened to groundbreaking human advancements such as the invention of the wheel and the mastery of fire. Meanwhile, China introduced DeepSeek, a nimble generative AI tool, posing a serious challenge to the near-monopolistic dominance of US tech giants that have invested billions in AI research and development. Compounding the complexities of global AI governance, former US President Joe Biden, during his final week in office, passed an executive order known as the Interim Final Rule (IFR) on the Framework for Artificial Intelligence Diffusion.

This order imposed export restrictions on critical software and hardware essential for AI development, targeting nations deemed adversarial to US interests—chiefly China—but also impacting close allies

such as India. Global technology stakeholders have since urged the new US administration to maintain consistency with the previously established Regulatory Freeze Order. They have called for the suspension of the AI Diffusion Rule until further review and stakeholder consultations ensure that the regulations align with both national security and international trade interests.

Despite industry appeals, President Donald Trump has yet to overturn the executive order signed by his predecessor. However, his administration issued a fresh executive order on January 23, signalling a possible shift in approach. Within days of assuming office, President Trump reaffirmed the United States' commitment to AI leadership, stating that the country has historically been at the forefront of AI innovation due to its robust free-market economy, world-class research institutions, and entrepreneurial drive. His directive emphasized eliminating barriers that could hinder American AI progress, revoking certain existing AI policies, and reinforcing the US's global leadership in AI. He further asserted that sustaining AI dominance was vital for human advancement, economic competitiveness, and national security. India, aiming for a prominent role in global AI governance, innovation and development, has set forth an ambitious AI mission of its own.

This vision, however, is heavily reliant on high-end semiconductor chips and Graphics Processing Units (GPUs) currently controlled by US technology firms. Any restrictions on access to these critical processors could pose significant challenges to India's AI aspirations. Modi's engagements in Paris, India's announcement to host the fourth global AI summit in Delhi, and his discussions with President Trump and other world leaders signal a strategic move toward securing India's place at the forefront of global AI advancements. These diplomatic efforts mark an essential step in navigating the rapidly evolving AI landscape and ensuring India's stake in shaping the future of this transformative technology.

Will 'Jan Vishwas 2.0' deliver real reform

A S MITTAL

While initiatives like upcoming Jan Vishwas 2.0 aim to ease regulatory burdens, deeper reforms are essential to cut red tape and curb the menace of bribery

Despite concerted efforts to combat corruption, red-tapism and bribery remain formidable barriers to business growth in India. The recent "India Business Corruption Survey 2024" presents a troubling picture: 66 per cent of business entities admit to paying bribes, with 54 per cent stating they were coerced to expedite government processes, obtain permits, ensure compliance, or acquire duplicate licenses. The problem is most acute in sectors governed by over-reaching officials in labour, GST, income tax, pollution, provident funds, property registration, drug and health departments. The economic impact is undeniable.

A survey by EY-FICCI reveals that four out of five respondents believe corruption is a significant deterrent to foreign direct investment (FDI). This underscores the urgent need to overhaul India's compliance framework to foster a transparent, fair, and predictable regulatory environment. While the government initiated compliance reforms two years ago, progress has been sluggish.

The Jan Vishwas Act of 2023 was a step forward, decriminalising 180 provisions related to imprisonment clauses that burden businesses and entrepreneurs. However, Finance Minister Nirmala Sitharaman's 2025 budget announcement about 'Jan Vishwas 2.0' aims to further decriminalise around 100 provisions. While this is a welcome step, it barely scratches the surface—over 20,000 provisions with imprisonment clauses remain untouched.

The Constant Flux of Compliance Rules

For Indian businesses, compliance is already a complex challenge, but its intersection with corruption makes it nearly insurmountable. Regulatory officials often wield compliance provisions as tools to extract bribes. Many businesses report that unofficial payments are still required to secure regulatory approvals, even when all necessary compliances are met. A significant flaw in the system is

FOR INDIAN BUSINESSES, COMPLIANCE IS ALREADY A COMPLEX CHALLENGE, BUT ITS INTERSECTION WITH CORRUPTION MAKES IT NEARLY INSURMOUNTABLE

the enormous subjectivity granted to inspectors, who can threaten imprisonment or factory shutdowns without accountability.

Another pressing issue is the overwhelming frequency of compliance updates, which fosters inefficiency and corruption.

Over the past year alone, there have been 9,420 compliance updates—an average of 36 daily changes. This staggering rate of change indicates either regulatory incompetence or a deliberate design to create systemic corruption pipelines. A bureaucracy that needs to update rules at such an erratic pace is either incapable of foresight or complicit in fostering an environment where bribes become inevitable.

The Food Safety and Standards Authority of India's (FSSAI) recent directive is a promising initiative to curb this chaos. Effective this January, changes to food label regulations will be announced only once a year, offering a model for predictable regulatory changes. Similar measures should be extended across all regulatory bodies.

Labour Laws: The Elephant in the Room

A significant portion of compliance-related imprisonment clauses stem from labour laws, which fall under the Concurrent List of the Constitution. While India has replaced 29 colonial-era labour laws with four modern labour codes, they remain in limbo, awaiting implementation. Without this critical step, the long-touted "biggest labour reforms in independent India" remain mere rhetoric. State governments must act swiftly to operationalise these reforms.

Simplifying Business Permits: A Digital-First Approach

Establishing a factory in India

requires submitting hundreds of self-attested and notarised documents across more than 40 government departments.

This archaic system breeds corruption and inefficiency. A digital-first approach could transform the process. Imagine a scenario where entrepreneurs can apply for factory permissions using a single business identifier, granting regulators access to verified documents via an entity called Digi Locker. Such a tamper-proof, authenticated repository could cut approval times from months to days, mirroring the success of India's Digi Yatra in streamlining airport security.

One Nation, One Business Identity

India's Digital Public Infrastructure (DPI) has revolutionised governance, but business compliance remains fragmented. Entrepreneurs must navigate at least 23 identity numbers issued by various Union and state authorities—from PAN, GSTIN, and CIN to professional tax numbers and factory licenses. Each identifier has its lifecycle, requiring periodic renewals and payments, leading to inefficiencies and corruption. A unified One Nation, One Business Identity system could dramatically simplify compliance, reducing bureaucratic friction and the opportunities for corrupt practices.

A small budgetary allocation toward this initiative could streamline regulatory interactions, enhancing India's appeal as a business destination.

A Global Perspective: The US Efficiency Threat

The global competition for investment and talent is intensifying. The United States is advancing governance reforms, including the proposed

Department of Government Efficiency (DOGE), to make business operations seamless. If the world's largest economy (GDP: \$27 trillion) becomes even more business-friendly, why would investors choose India's \$4 trillion economy, where red tape and corruption persist? The answer is simple: they won't. As American efficiency attracts global capital, India risks losing out on both investment and entrepreneurial talent, a fundamental driver of its knowledge economy.

The Way Forward

The time for complacency is over. What was an opportunity yesterday is now an urgent necessity. To sustain its economic momentum, India must dismantle bureaucratic hurdles, create a predictable compliance environment, and eradicate corruption. A clear, well-structured compliance framework—ushered in through Jan Vishwas 2.0—is not just about ease of doing business; it's about safeguarding India's economic future.

The government must act decisively to attract global companies and empower Indian entrepreneurs to innovate, expand, and create jobs without fear or unnecessary regulatory friction. India stands at a crossroads. Whether the High-Level Committee for Regulatory Reforms embraces a bold compliance overhaul or hesitates, the stakes are high. The choice is clear: modernise or risk being left behind in the global economic race.

Making road safety a national priority: A targeted mission to save lives

To achieve meaningful change and save lives, India must move beyond symbolism and adopt a mission-driven approach, treating road safety as a national imperative

Every year, India observes Road Safety Month, during which various events and programmes are organised by the government and civil society organisations at national and regional levels. These initiatives focus on raising awareness and educating the public on ways to reduce road casualties.

While this acknowledgment is a step forward, the critical question remains—has road safety truly become a national priority? Unfortunately, our approach is often reactive, addressing the issue only after tragic accidents occur, rather than proactively implementing global best practices to prevent them.

A Grim Reality: What the Data Reveals

Road accident statistics paint

a stark picture, suggesting that road safety is yet to be treated as a priority by Indian citizens. Road accidents are an everyday occurrence in India, and there is rarely a day when one does not hear about a fatal crash.

According to the Ministry of Road Transport and Highways (MoRTH) report for 2022, India witnessed 461,312 road crashes, resulting in 168,491 deaths and 443,366 injuries. Alarmingly, nearly 70 per cent of these fatalities involved young individuals—many of whom were the primary earners of their families.

While the 2023 report is yet to be released, officials have already indicated a steep rise in casualties, making Indian roads even more hazardous. The United Nations Decade of

ASHIM SANAYAL

Action for Road Safety aims to reduce road deaths by 50 per cent by 2030, and India is a signatory to this ambitious goal. However, despite past commitments, the recent MoRTH report shows an 11.9 per cent increase in accidents, with deaths rising by 9.4 per cent and injuries by 15.3 per cent compared to 2021. This translates to an average of 1,264 accidents and 462 deaths

per day, or 53 accidents and 19 deaths every hour. Achieving the 50 per cent reduction target by 2030 seems increasingly difficult unless immediate and sustained action is taken at both central and state levels.

Strengthening Laws and Enforcement

The introduction of the Motor Vehicles (Amendment) Act, 2019, was a significant step toward improving road safety, imposing stricter penalties and regulations. Initially, the law was taken seriously, but its impact faded over time due to inconsistent enforcement. Socio-cultural factors often override the fear of legal consequences, making road safety a neglected concern. The reality is that road crashes are preventable, and the

term "accident" itself is misleading.

The Urgent Need for Action

Adopting a structured and data-driven approach to road safety is imperative. Studies indicate that focusing on key risk factors—such as speeding, non-compliance with seatbelt and helmet laws, and unsafe road designs—can significantly reduce casualties. Speeding alone contributes to approximately 73 per cent

of all road accidents in India. Scientific speed limits should be enforced on expressways, highways, urban roads and even rural areas where mobility is increasing rapidly. Non-compliance with safety measures is another major concern. In 2022, over 16,715 people lost their lives due to not wearing seatbelts, and more than 50,000 two-wheeler riders died because they were not wearing helmets. These numbers highlight the urgent need to enforce safety regulations strictly and create widespread awareness about their importance.

Road Safety as a National Mission

Prime Minister Narendra Modi has successfully led multiple national missions, including Swachh Bharat

Abhiyan, Skill Development, Yoga for Fitness, Immunisation Programmes, and Child Health Initiatives. These programmes achieved remarkable success through targeted policies, funding and regular progress reviews. Given the scale of road safety concerns, India must adopt a similar mission-driven approach. Declaring road safety a National Mission would ensure the allocation of dedicated budgets, the establishment of clear targets, and continuous monitoring at both central and state levels. Regular progress reviews, monthly reports, and rigorous enforcement mechanisms would motivate authorities to take proactive steps toward improving road safety.

A Collective Commitment to

Saving Lives
Road safety is not just about reducing casualties; it is about safeguarding the wellbeing of every citizen, strengthening the economy, and securing the future of India's youth. The financial burden of post-crash medical care, loss of productivity and emotional distress on families is immense. As a global signatory committed to saving lives, India must take decisive steps to ensure road safety is not merely a campaign but an integral part of governance. The time to act is now—by adopting a mission-mode approach, enforcing existing laws and making road safety a top national priority, we can create safer roads for all.

Erdogan urges India, Pak to resolve Kashmir issue

PTI ■ ISLAMABAD

Turkish President Recep Tayyip Erdogan on Thursday said that the Kashmir issue should be resolved through dialogue between India and Pakistan, with due consideration for the aspirations of the Kashmiri people.

President Erdogan, who is in Pakistan on a two-day visit, made the comments after holding one-on-one and delegation talks with Prime Minister Shehbaz Sharif.

The leaders also witnessed the signing ceremony of 24 agreements and a Memorandum of Understanding between the two sides.

Following this, they read statements to the media, expressing resolve to strengthen their bilateral ties, during which Erdogan also talked about the Kashmir issue.

"The Kashmir issue should be addressed according to the UN resolution through dialogue and keeping in mind the aspirations of the people of Kashmir," Erdogan said.

"Our state and our nation, as in the past, stands in solidarity with our Kashmiri brothers today," he added.

India has repeatedly emphasised that the Union Territories of Jammu and Kashmir and Ladakh were, are, and "shall forever" remain an integral part of the country.

The ties between the two countries nosedived after India abrogated Article 370 of the Constitution, revoking the spe-

President Erdogan, who is in Pakistan on a two-day visit, made the comments after holding one-on-one and delegation talks with Prime Minister Shehbaz Sharif.

cial status of Jammu and Kashmir and bifurcating the State into two Union Territories on August 5, 2019.

In his statement, President Erdogan also showed keen interest in promoting ties with Pakistan. "In the seventh session of our council, which we just concluded, we have agreed to further strengthen our relationship," he said.

In the 7th Pakistan-Turkiye High-Level Strategic Cooperation Council meeting, the two countries agreed to continue their efforts to achieve the goal of a USD 5 billion trade volume.

At its conclusion, the two leaders signed a joint declaration to further deepen, diversify and institutionalise their Strategic Partnership.

"Within the framework of this visit, we have signed a total of 24 agreements and MoUs in the fields of trade, water resources, agriculture, energy, culture, family, and social services, along

with science, banking, education, defence, and health." Speaking on the occasion, Shehbaz said that Pakistan was the second home of the Turkish leader and added that it was wonderful to have him back after five years.

"The people of Pakistan are extremely happy today to see you, along with your delegation, visiting your brotherly country," he said.

He thanked Turkiye for standing by Pakistan "through thick and thin" during earthquakes and floods. "Your visit to Pakistan today has given a new level to our brotherly relations," Shehbaz said.

He also called Erdogan an important and highly respected leader of Islamic world. "You have also led from the front, speaking for the problems and speaking for the rights of oppressed people, be it people of Gaza, Palestine or Kashmir," Sharif said. "When you speak, not only millions of people in Islamic world hear you very attentively but the globe hears you when you speak," he added.

The prime minister and President Asif Ali Zardari received Erdogan at the Nur Khan airbase when he arrived early in the morning.

The Turkish president was accompanied by First Lady Emine Erdogan and a delegation of investors and business leaders. A formal welcome ceremony was held in Erdogan's honour at the Prime Minister's House, where a contingent of armed forces presented him with a guard of honour. He was also honoured with a fly-past by F-16 fighter jets.

Erdogan and Shehbaz also planted a sapling at the PM House. Later, Chief of Army Staff General Asim Munir also met Erdogan and extended greetings on his visit.

ERDOGAN LASHES

OUT AT ISRAEL

Turkiye's President Recep Tayyip Erdogan lashed out at Israel during a visit to Pakistan on Thursday, speaking up in defence of Palestinians in Gaza and condemning ideas to forcibly displace them from their land.

Speaking at a business forum, Erdogan accused Israel of failing to keep to a ceasefire agreement, warning that the region was being dragged "toward blood and tears again."

Erdogan reiterated his opposition to President Donald Trump's proposal to relocate Palestinians from Gaza. "Gaza belongs to our Gazan brothers and sisters and will remain so forever," he said in a televised speech at a business forum in the capital, Islamabad. Erdogan arrived on a two-day visit on Wednesday night. "The homeland for which the Palestinians have sacrificed tens of thousands of their children is not up for bargaining," he added. Earlier on Thursday, Erdogan held talks on Gaza and bilateral Turkiye-Pakistani trade and cooperation with Prime Minister Shehbaz Sharif. "Alongside Pakistan, we strive to provide every effort possible to support to the just cause of our Palestinian brothers, both within the United Nations, the Organisation of Islamic Cooperation and other platforms," Erdogan also said.

"We must strengthen this determined stance, especially at a time when there are unlawful and morally unacceptable proposals such as tearing our Gazan brothers from their homeland," he added.

Melbourne (PTI): Australia protested Thursday what it described as an unsafe and unprofessional interaction over the South China Sea where a Chinese fighter is accused of releasing flares that endangered an Australian military surveillance plane. Chinese J-16 fighter released flares on Tuesday that passed within 30 meters (100

feet) of a P-8 Poseidon surveillance jet in daylight and in international air space, Defense Minister Richard Marles said on Thursday.

The Australian plane usually carries eight or nine crew. The plane was not damaged and no crew member was injured, Marles said. "The J-16 was so close that there's no way you

could have been able to ensure that the flares did not hit the P-8," Marles told Sky News. "Had any of those flares hit the P-8, that would have definitely had the potential for significant damage to that aircraft," he added.

China's foreign ministry spokesperson Guo Jiakun in turn accused the Australian military aircraft of "deliberately" intruding into airspace over the disputed Paracel Islands, which China claims.

"China's measures to drive away the aircraft were legitimate, law-between Chinese and Australian forces that Australia has disclosed in nine months. Australia accused the pilot of a Chinese J-10 fighter of unsafe and unprofessional behaviour over the Yellow Sea in May last year by dropping flares in the path of an Australian navy Seahawk helicopter. Australia said the helicopter pilot had to take evasive action

ful, professional and restrained" Guo said.

Australia has protested in its capital Canberra and in Beijing on Wednesday and Thursday, Marles said.

The protest accused the two Chinese pilots of an "unsafe and unprofessional maneuver that posed a risk to the aircraft and personnel," a statement said. The protest highlights that while bilateral diplomatic and trade relations have improved, relations between the two militaries remain dangerous. The interaction is the first significant clash to avoid the flares.

There were no injuries or damage, although experts warned the helicopter could have been forced to ditch at sea if a flare had struck an engine.

China protested at the time that the helicopter had flown close to Chinese airspace and had attempted to carry out reconnaissance on a Chinese navy training exercise.

NATO allies insist Ukraine, Europe must be in peace talks

PTI ■ BRUSSELS

Several NATO allies stressed Son Thursday that Ukraine and Europe must not be cut out of any peace negotiations as US Defence Secretary Pete Hegseth denied that the United States is betraying the war-ravaged country. European governments are reeling after the Trump administration signalled that it is planning face-to-face talks with Russia on ending the Ukraine war without involving them, insisted that Kyiv should not join NATO, and said that it's up to Europe to protect itself and Ukraine from whatever Russia might do next.

"There can be no negotiation about Ukraine without Ukraine. And Ukraine's voice must be at the heart of any talks," UK Defence Secretary John Healey told reporters at NATO headquarters, as the organisations' 32 defence ministers met for talks on Ukraine. German Defence Minister Boris Pistorius said: "For me, it's clear ... that Europe must be involved in the negotiations — and I think that's very easy to understand," particularly if

Europe is "supposed to play a central or the main role in the peace order."

Europe "will have to live directly" with the consequences, he added.

Hegseth denied that the US has betrayed Ukraine by launching negotiations about its future without Kyiv's full involvement. After talks with Putin and then Zelenskyy, Trump said on Wednesday he would "probably" meet in person with the Russian leader in the near term, possibly in Saudi Arabia.

"There is no betrayal there. There is a recognition that the whole world and the United States is invested and interested in peace. A negotiated peace," Hegseth told reporters. The European Union's foreign policy chief, Kaja Kallas, expressed surprise that Hegseth and Trump had listed what appeared to be concessions to Russia even before talks have begun in earnest.

"We shouldn't take anything off the table before the negotiations have even started, because it plays to Russia's court," she said. "Why are we giving them everything that they want even before the

negotiations have been started? It's appeasement. It has never worked."

Hegseth warned that the war in Ukraine must "be a wakeup call" for NATO's European allies to spend more on their own defence budgets. Twenty-three of the 32 member countries were forecast to have met the organisation's guideline of spending 2 per cent of gross domestic product on their national defence budgets last year, but a third still do not.

But Hegseth's French counterpart, Sebastien Lecornu, described the wrangling over greater defence spending as "a false debate," saying that governments and parliaments across Europe are already approving more weapons purchases and bigger military budgets while helping Ukraine staff off an invasion.

Lecornu warned that the future of NATO itself is now in question. "To say that it's the biggest and most robust alliance in history is true, historically speaking. But the real question is will that still be the case in 10 or 15 years," he said, after the US — by far NATO's biggest and

most powerful member — signalled that its security priorities lie elsewhere, including in Asia.

NATO Secretary-General Mark Rutte, who was chairing Thursday's meeting, said that whatever agreement is struck between Russia and Ukraine, it is crucial that the "peace deal is enduring, that Putin knows that this is the end, that he can never again try to capture a piece of Ukraine." Touting Europe's investment in Ukraine, Swedish Defence Minister Pal Jonson said European nations provided about 60 per cent of the military support to Kyiv last year and must be involved, especially given US demands that Europe take more responsibility for Ukraine's security in the longer term. His Estonian counterpart, Hanno Pevkur, underlined that the European Union has driven sanctions against Russia, has invested heavily in Ukraine's defence, and will be asked to foot the bill for rebuilding the war-ravaged country. "We have to be there. So there is no question about it. Otherwise this peace will not be long lasting," Pevkur warned.

Aus accuses Chinese fighter of endangering surveillance plane over South China Sea

Melbourne (PTI): Australia protested Thursday what it described as an unsafe and unprofessional interaction over the South China Sea where a Chinese fighter is accused of releasing flares that endangered an Australian military surveillance plane. Chinese J-16 fighter released flares on Tuesday that passed within 30 meters (100

feet) of a P-8 Poseidon surveillance jet in daylight and in international air space, Defense Minister Richard Marles said on Thursday.

The Australian plane usually carries eight or nine crew. The plane was not damaged and no crew member was injured, Marles said. "The J-16 was so close that there's no way you

could have been able to ensure that the flares did not hit the P-8," Marles told Sky News. "Had any of those flares hit the P-8, that would have definitely had the potential for significant damage to that aircraft," he added.

China's foreign ministry spokesperson Guo Jiakun in turn accused the Australian military aircraft of "deliberately" intruding into airspace over the disputed Paracel Islands, which China claims.

"China's measures to drive away the aircraft were legitimate, law-between Chinese and Australian forces that Australia has disclosed in nine months. Australia accused the pilot of a Chinese J-10 fighter of unsafe and unprofessional behaviour over the Yellow Sea in May last year by dropping flares in the path of an Australian navy Seahawk helicopter. Australia said the helicopter pilot had to take evasive action

ful, professional and restrained" Guo said.

Australia has protested in its capital Canberra and in Beijing on Wednesday and Thursday, Marles said.

The protest accused the two Chinese pilots of an "unsafe and unprofessional maneuver that posed a risk to the aircraft and personnel," a statement said. The protest highlights that while bilateral diplomatic and trade relations have improved, relations between the two militaries remain dangerous. The interaction is the first significant clash to avoid the flares.

There were no injuries or damage, although experts warned the helicopter could have been forced to ditch at sea if a flare had struck an engine.

China protested at the time that the helicopter had flown close to Chinese airspace and had attempted to carry out reconnaissance on a Chinese navy training exercise.

Rescued from virtual slavery in Myanmar, Indians among 260 foreigners being repatriated

PTI ■ BANGKOK

Some 260 people, including some Indians, believed to have been trafficked and trapped into working in online scam centres are to be repatriated after they were rescued from Myanmar, Thailand's army announced Thursday.

In a fresh crackdown on scam centres operating from Southeast Asia, the Thai army announced Thursday it is coordinating an effort to repatriate some 260 people believed to have been victims of human trafficking after they were rescued and sent from Myanmar to Thailand.

Myanmar, Cambodia and Laos, which share borders with Thailand, have come to be known as havens for criminal syndicates who are estimated to have forced hundreds of thousands of people in Southeast Asia and elsewhere into helping run online scams including false romantic ploys, bogus investment pitches and illegal gambling schemes.

Such scams have extracted tens of billions of dollars from victims around the world, according to UN experts, while the people recruited to carry them out have often been tricked into taking the jobs under false pretenses and trapped in virtual slavery.

An earlier crackdown on scam centres in Myanmar was initiated in late 2023 after China expressed embarrassment and concern over illegal casinos and scam operations in Myanmar's northern Shan state along its border. Ethnic guerrilla groups with close ties to Beijing shut down many operations, and an estimated 45,000 Chinese nationals suspected of involvement were repa-

triated.

The army said that those rescued in the most recent operation came from 20 nationalities — with significant numbers from Ethiopia, Kenya, the Philippines, Malaysia, Pakistan and China.

There were also nationals of Indonesia, Nepal, Taiwan, Uganda, Laos, Brazil, Burundi, Tanzania, Bangladesh, Cambodia, Sri Lanka, Nigeria, Ghana and India. They were sent across the border from Myanmar's Myawaddy district to Thailand's Tak province on Wednesday.

Reports in Thai media said a Myanmar ethnic militia that controls the area where they were held, the Democratic Karen Benevolent Army, was responsible for freeing the workers and taking them to the border. Myanmar's military government exercises little control over frontier areas where ethnic minorities predominate.

Several ethnic militias are believed to be involved in criminal activities, including drug trafficking and protecting call-center scam operations.

The Thai army statement said the rescued people will undergo questioning, and if determined to be victims of human trafficking, will enter a process of protection while waiting to be sent back to their countries.

Deputy Prime Minister Phumtham Wechayachai, who is also defense minister, said Wednesday that there might be many more scam workers waiting to be repatriated from Myanmar through Thailand, but that Thailand would only receive those that are ready to be taken back right away by their country of origin.

Notes :

- Ratios have been computed as follows :
 - Earning per share (Basic & Diluted) = Profit after Tax / Weighted average number of equity shares
 - Debt Equity Ratio = Debt (Amount due to Debenture Holders) / Equity (Equity share capital + share premium + quasi equity i.e. Short term borrowing)
 - Interest Service Coverage Ratio = Profit before interest, prior period items, tax, extraordinary items and depreciation / (Total Interest Expense).
 - Debt Service Coverage Ratio = (Net Profit after taxes + non-cash operating expenses + interest + tax expense) / (Total Interest Expense + Long Term Debt Principal repayments)
 - Current Ratio = Current Assets/ Current Liabilities
 - Long Term Debt to Working Capital= Non- Current borrowing including current maturities of Non-current borrowings/ (Current Assets - Current Liabilities excluding current maturities of Non-Current borrowings)
 - Bad debts to Accounts Receivable Ratio= Bad debts / Average Trade receivables and Average unbilled Revenue
 - Current Liability Ratio = Current Liabilities/ Total Liabilities
 - Total Debts to total Assets= Total outstanding debts/ Total Assets
 - Debtors turnover= Revenue from operation/ Average trade receivables and Average unbilled Revenue
 - Inventory Turnover= Revenue from operations/Average inventories
 - Operating margin(%)= (Profit before tax + Finance costs - Other income)/ Revenue from operations
 - Net Profit Margin (%) = Net profit after Tax/ Revenue from Operations
 - Asset Coverage Ratio = (Total Assets) / Debt (Amount due to Debenture Holders)
- The above is an extract of the detailed format of quarterly financial results filed with the BSE Limited (BSE) under regulation 52 of the Listing Regulations. The full format of the quarterly financial results is available on the websites of the Stock Exchange and the Company - <https://renew.com>.
- For the other line items referred in regulation 52(4) of the Listing Regulations, pertinent disclosures have been made to the BSE and can be accessed on the URL <https://www.bseindia.com/>.
- The company is in the business of operation and maintenance of wind and solar power plants. There is only one segment (business and/or geographical) in accordance with the requirements of IND AS - 108 "Operating Segments".
- The above financial results of the Company for the quarter and nine months ended 31 December 2024 have been approved by the Board of Directors of the Company at the meeting held on 13 February 2025.

Income Tax Bill aims to achieve tax certainty: IT dept

PTI ■ NEW DELHI

The simplified Income Tax Bill, which is half the size of the 1961 Income Tax Act, seeks to achieve tax certainty by minimising the scope of litigation and fresh interpretation, the Income Tax department said on Thursday. The new bill, introduced in the Lok Sabha, has a word count of 2.6 Lakh, lower than 5.12 Lakh in the IT Act. The number of sections is 536, as against 819 effective sections in the existing law.

The number of chapters has also been halved to 23 from 47, according to the FAQ issued by the I-T department. The Income Tax Bill 2025, has 57 tables, compared to 18 in the existing Act and removed 1,200 provisos and 900 explanations. Finance Minister Nirmala Sitharaman, while introducing the Bill in the Lok Sabha, had said that "substantial changes" have been made in the Bill. The number of words have been halved from 5.12 Lakh, and sections reduced from 819 to 536. Following introduction, the Bill was referred to the select committee of the Lok Sabha and mandated to submit its report by March 10. Provisions relating to exemptions, and TDS, TCS have been made crisper in the Bill by putting them in a tabular format, while the

chapter for not-for-profit organisations has been made comprehensive with use of plain language. As a result of this, the word count has come down by 34,547. "While undertaking simplification exercise, a conscious attempt has been made to minimise the scope of litigation and fresh interpretations," it said to a query on whether principles of Tax Certainty were followed in drafting of the new bill. Key words, phrases, especially where courts have given rulings, have been retained with minimal modifications. Provisions have been made clear to minimise scope of multiple interpretations and

tax certainty has been ensured with regard to various sections of international taxation. The FAQ further said that while "no major policy-related changes" or tax rates changes have been made in the IT Bill, "material" changes are being proposed in the existing law. The bill consolidated provisions pertaining to salary at one place for ease of understanding so that the taxpayer does not have to refer to separate chapters for filing return of income. Deductions, like gratuity, leave encashment, commutation of pension, compensation on VRS and retrenchment compensation, are now part of the salary chapter itself.

"The drafting style of the new bill is straightforward and clear, making the provisions easier to understand... This (Tables) minimises cross-references and conflict by aggregating all applicable provisions related to a single scenario in one place," the FAQ said. A significant aspect of the bill is the elimination of the concepts of "previous year" and "assessment year". As a taxpayer had to track two different periods, it presented difficulties in complying with the provisions of the Act, especially for a new taxpayer who had to keep track of "previous year", "assessment year" as well as the "financial

year", the FAQ said. It said provisions involving the same issues, which were present in different chapters in the current Act, have now been consolidated. In case of provisions relating to non-profit organisations (NPOs), it has been consolidated and structured into seven sub-parts. The FAQ further said the current Income Tax Act was enacted in 1961 and came into existence with effect from April 1, 1962. It has been amended nearly 65 times with more than 4,000 amendments. Concerns were expressed over the accumulation of amendments, intricate language, detailed provisions, redundancies and the heavy structure of the IT Act and hence the government decided to come out with a new law. Consultations were held with various stakeholders, including Australia and the UK where tax laws were rewritten in the past. A total of 20,976 online suggestions were received. Also, references were drawn from the 2009 Direct Taxes Code as also the 2019 report of the government constituted six-member committee to redraft the IT law. The FAQ said 150 officials of the IT department were involved in drafting of the Income Tax Bill, 2025, and more than 60,000 man hours were dedicated in its drafting.

India's white-collar hiring grows by 32 per cent: Report

PTI ■ MUMBAI

Hiring for white-collar jobs witnessed a 32 per cent year-on-year surge in January, driven by industries such as semiconductors, energy, waste management and manufacturing in India, a report said on Thursday. The growth in hiring is attributed to surging consumer demand, strategic incentives outlined in the Union Budget 2025-26 and an increased focus on sustainability initiatives, according to foundit Insights Tracker. There was a 32 per cent year-on-year jump in hiring for January 2025, signalling renewed confidence in the market, it said. The report revealed that green jobs stood out in January, witnessing a 41 per cent increase over the last two years led by expanding clean energy initiatives. Sectors like semiconductors, energy, and waste management are leading this growth, fuelled by global net-zero emission targets, the report said. Bengaluru, Delhi and Pune are emerging as key hubs for these roles, which demand specialised skills in areas like energy auditing and sustainability strategy, it added. Demand for green jobs is

projected to rise another 11 per cent in 2025, driven by renewable energy, EVs, and green hydrogen initiatives. "India's job market continues to grow at a strong pace, with hiring surging across key industries. Sectors like travel, retail, and green jobs are seeing sustained momentum, reflecting business confidence and evolving industry priorities," foundit Chief Revenue and Growth Officer Pranay Kale said. Government policies, including key budget provisions, are accelerating this shift - especially in renewable energy, EVs, and sustainability-focused industries. "As hiring expands beyond metro cities, Tier II hubs are also emerging as key employment centres, reinforcing India's transition to a future-ready, greener economy," Kale said. Further, the report added that the travel and tourism sector recorded a 17 per cent increase in hiring growth in January 2025, driven by strong consumer demand and favourable government initiatives. This trend is evident across aviation, luxury, and e-commerce segments, and new roles emerging in travel technology that leverage AI and data analytics, the report said. Similarly, the retail sector saw a 24 per cent year-on-year surge, driven by rising consumer spending and digital transformation, it added. Consequently, demand for skilled professionals in supply chain management, customer experience, and AI-driven retail analytics is rising, according to the report.

Rupee settles three paise higher at 86.92 against US dollar

PTI ■ MUMBAI

The rupee settled almost flat with a gain of just 3 paise at 86.92 (provisional) against the US dollar on Thursday as the support from soft American currency and easing crude oil prices overseas was negated by a lacklustre trend in domestic equities. According to forex traders, the unabated outflow of foreign funds weighed on the Indian currency and capped its recovery even though the greenback weakened after the US data showed higher-than-expected inflation, trimming hopes of a rate cut by the Federal Reserve. At the interbank foreign exchange, the rupee opened stronger at 86.82, touched a high of 86.77 during intraday trade. However, the unit pared its most gains and touched the day's low of 86.94 before ending the session at 86.92 (provisional) against the American currency, higher by just three paise from its previous close. On Wednesday, the domestic unit closed 16 paise lower at 86.95 against the dollar. In the preceding session on Tuesday, the rupee had

appreciated 66 paise, logging the maximum single-day gain since March 3, 2023, to close at 86.79 against the greenback. Anuj Choudhary, Research Analyst at Mirae Asset Sharekhan, said the rupee traded flat to positive on Thursday amid weak US dollar index and selling pressure from FIIs. He said the rupee is expected to trade with negative bias amid overall weakness in the domestic equities and underlying strength in the US dollar. "FII selling may also weigh on the rupee. However, any further intervention by the RBI may support the rupee at lower levels. Traders may take cues from PPI data from the US," Choudhary said and

projected the \$-INR spot price in a range of ₹86.60 to ₹87.30. Meanwhile, the US dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 0.33 per cent lower at 107.47. Brent crude, the global oil benchmark, dropped 1.17 per cent to \$ 74.30 per barrel in futures trade. In the domestic equity market, the 30-share BSE Sensex declined 32.11 points, or 0.04 per cent, to settle at 76,138.97, while the Nifty fell 13.85 points, or 0.06 per cent, to 23,031.40 points. Foreign institutional investors (FIIs) offloaded equities worth ₹4,969.30 crore on net basis on Wednesday, according to exchange data.

IOC signs long-term LNG import deal with UAE firm

PTI ■ NEW DELHI

Indian Oil Corporation (IOC), the nation's largest oil firm, has signed a \$7.9 Billion deal to import LNG from UAE on a long-term 14-year contract. IOC signed a long-term deal to receive 1.2 Million tonnes per year of LNG from the United Arab Emirates beginning 2026 for 14 years. "ADNOC Gas has signed a 14-year sales and purchase agreement with Indian Oil Corporation Ltd (IOC) for the export of up to 1.2 Million tonnes per annum (mtpa) of Liquefied Natural Gas (LNG) to India's largest integrated and diversified energy company which will be supplied from Das Island liquefaction facility," ADNOC Gas said in a statement. The deal was signed on the sidelines of India Energy Week here. "The agreement, valued in the range of \$7 Billion to \$9 billion over its 14-year term signifies a major step forward in the partnership with IOC and we look forward to supporting India's plans to make gas 15 per cent of its primary energy basket by 2030," it added. The deal with IOC is the second LNG supply deal that the UAE giant signed with an Indian firm at the IEW. It

signed a deal with Bharat Petroleum Corporation Ltd (BPCL) to supply 2.4 Million tonnes of LNG over a period of 5 years, starting April 2025. The agreement is extendable by another 5 years with mutual consent. Separately, French energy giant TotalEnergies signed a deal to sell 4,00,000 tonnes a year of LNG to Gujarat State Petroleum Corporation Ltd (GSPC) for 10 years starting 2026. The LNG, sourced from TotalEnergies' global portfolio and delivered to terminals on India's west coast, will primarily serve GSPC's industrial customers. It will also supply Indian households for domestic use, businesses, and service stations for vehicles running on Compressed Natural Gas (CNG), such as auto-rickshaws. TotalEnergies had in June last year signed a deal to sell 8,00,000 tonnes a year of LNG to state-owned Indian Oil Corporation (IOC) for 10 years starting 2026. While GSPC has an LNG import facility at Mundra in Gujarat, IOC can import the LNG at Dahej in Gujarat or at its Ennore terminal in Tamil Nadu. ADNOC Gas plc and its subsidiaries signed a 14-year sales and purchase agreement

(SPA) with IOC which converts the last year's Heads of Agreement signed by them. First deliveries will begin in 2026. Fatema Al Nuaimi, ADNOC Gas CEO, said, "This agreement strengthens our long-standing partnership with IOC and is a testament to the dynamic and robust energy ties between the UAE and India. As a reliable and responsible supplier of lower-carbon gas, ADNOC Gas looks forward to supporting India's plans to make gas 15 per cent of its primary energy basket by 2030." The agreement builds on ADNOC Gas' strategy to expand its customer base, following a series of LNG agreements signed over the past two years. These deals range from 0.4 Million tonnes

per annum to 1.2 Million tonnes. They are for periods ranging up to 14 years and reinforce its position as a leading supplier of reliable, lower-carbon LNG to key growth markets in Asia, such as India. The LNG will be supplied from ADNOC Gas' Das Island liquefaction facility, which has a production capacity of up to 6 million tonnes per annum. As the world's third longest-operating LNG plant, Das Island has shipped over 3,500 LNG cargoes worldwide since starting operations. Other agreements signed at IEW include BPCL inking an optional term contract with Brazil's Petrobras for the import of Brazilian crude grades up to 6 Million barrels. This is another milestone towards India's energy security and diversification of its sources. Also, India signed its first LNG export agreement when the IOC signed a sales agreement with Yogya Holdings Nepal for the export of around 1,000 tonnes of LNG to Nepal. It will be the first-ever sale of LNG to Nepal from India by dhramic trucks through Chyagan Terminal in Odisha. Contract for 5 years with an annual quantity of 240 tonnes per annum. BPCL has also partnered with Eco Wave Power to develop India's first wave energy pilot project, leveraging the nation's substantial wave energy potential as a sustainable and commercially viable renewable resource. The proposed system for BPCL will utilise Eco Wave Power's proven wave energy converter technology, demonstrating wave energy in Mumbai through a 100 kW pilot installation. BPCL also signed a MoU with the National Sugar Institute (NSI), Kanpur, UP. The National Sugar Institute (NSI), Kanpur, renowned for its expertise in sugar and allied industries, has successfully demonstrated the potential of sweet sorghum for bioethanol production at its in-house facility.

Gold rises ₹140 to reclaim ₹88,000 per 10 grams

PTI ■ NEW DELHI

Gold prices rose ₹140 to ₹88,100 per 10 grams in the national capital on Thursday amid strong trends in the international markets, according to the All India Sarafa Association. The precious metal of 99.9 per cent purity had closed at ₹87,960 per 10 grams on Wednesday. Gold of 99.5 per cent purity went up to ₹87,700 per 10 grams from the previous close of ₹87,560 per 10 grams. "Gold recovered from a recent swing bottom and traded higher on Thursday, as haven demand remains intact in response to multiple disruptive tariff announcements by President Trump that are scheduled to be implemented shortly," Saumil Gandhi, Senior Analyst - Commodities at HDFC Securities, said. Silver prices also jumped ₹800

to ₹98,000 per kg on Thursday. The white metal had settled at ₹97,200 per kg in the previous trading session. Investors remain worried that US President's trade tariffs might trigger a global trade war, which continues to act as a tailwind for safe-haven metals like gold, Gandhi said. In futures trade on the MCX, gold contracts for April delivery climbed ₹364 to trade at ₹85,845 per 10 grams. "Gold prices gained once again despite the US CPI (Consumer Price Index) data not rising significantly and the US Federal Reserve indicating no urgency in cutting rates," Jateen Trivedi, VP Research Analyst - Commodity and Currency at LKP Securities, said. The safe-haven appeal of gold continues to support its strength, keeping the broader bullish sentiment intact, Trivedi added.

NSDC plans to set up 50 new Future Skills Centres

PIONEER NEWS SERVICE ■ NEW DELHI

National Skill Development Corporation (NSDC) on Thursday announced a significant expansion in its skilling footprint across India with plans to set up 50 new Future Skills Centres and 10 NSDC International Academies to advance skill development and training programs. Addressing the annual press conference, Ved Mani Tiwari, CEO, NSDC and MD, NSDC International, shared his roadmap to skill and upskill the Indian youth for domestic and global job markets. "The number of industry-aligned programs will increase beyond 300, covering 12 major emerging technologies. The goal is to train over 2 lakh candidates and establish over 2.70 Lakh square feet of training infrastructure, further strengthening employability and workforce readiness," he said. The industry aligned programs aim to bridge the gap between theoretical knowledge and practical skills by aligning education with emerging technologies and industry needs. So far, 33 global corporations have partnered, and 21 Future Skills Centres have been established in

Higher Education Institutions (HEIs). Over 200 industry-aligned programs have been assessed and certified by corporations, covering 9 major emerging technologies. More than 27,000 candidates have been trained, with over 1.20 lakh square feet of training space developed. NSDC aims to make quality education accessible to students from tier 2 and 3 colleges by addressing challenges in emerging technologies through collaborations with Institutes of National Importance. So far, 11 premium institutions have partnered to launch 17 micro-credential programs, awarding more than 75,000 credits and training over 5,000 candidates. Looking forward, NSDC plans to collaborate with 15 premium institutions, introduce over 30 micro-credential programs, and

award around 1,80,000 credits, further enhancing access to quality education and skill development. Students will receive specialised training in emerging technologies across key industry verticals such as aerospace, automotive, mining, and infrastructure. The OEMs' tools and curriculum will be integrated into structured guided pathways, supporting different proficiency levels and leading to job opportunities across various domains. As part of the Job-as-Skills model, Tiwari said, "There are plans to onboard 1 million students, establish MoUs with leading OEMs, bring in training partners, select industry-specific tools, design career progression pathways, implement joint certification with NSDC and OEMs, and introduce new industry verticals in a phased manner."

Ensure fair treatment to customers: RBI Governor to NBFCs

PTI ■ MUMBAI

RBI Governor Sanjay Malhotra on Thursday asked NBFCs to ensure customers are treated fairly and put in place a mechanism for quick redressal of grievances. The governor met with managing directors and chief executive officers of select non-banking financial companies (NBFCs) across all layers, including government NBFCs, housing finance companies and micro-finance institutions. These NBFCs constitute nearly 50 per cent of the total assets of the NBFC sector. Malhotra, in his opening remarks, underscored the role played by NBFCs in credit intermediation, particularly in making credit available for small businesses

and niche segments, the Reserve Bank of India (RBI) said in a statement. Highlighting the collaborative efforts required between the Reserve Bank and the NBFCs, the Governor stressed upon balancing growth aspirations with sound practices for ensuring inclusive development, customer protection and financial stability. "He also underscored the significance of ensuring fair treatment to customers and putting in place a prompt grievance redress mechanism," the RBI said. Urging the NBFCs to further their contribution towards financial inclusion, the Governor requested them to become part of Unified Lending Interface (ULI) being put in place by the Reserve Bank.

Paytm Money settle market norms violation case with Sebi

PTI ■ NEW DELHI

Paytm Money, an arm of fintech firm One97 Communications, on Thursday settled with markets regulator Sebi a case pertaining to alleged violation of norms after paying ₹45.50 Lakh in settlement amount. The case stemmed from alleged violations of Sebi's technical glitch framework outlined in its circular dated November 25, 2022. The order came after Paytm Money filed a settlement application in September last year, proposing to settle the instant proceedings initiated against it, without "admitting or denying the findings of facts and conclusions of law". "The instant adjudication proceedings initiated against the noticee vide SCN dated July 24, 2024, is disposed of in terms of the settlement regulations," SEBI's adjudicating officer Asha Shetty said in the order. The Securities and Exchange Board of India (SEBI) initiated adjudication proceedings against Paytm Money Ltd for the alleged violation.

Shreyas was never supposed to be benched: Gambhir

PTI ■ AHMEDABAD

India head coach Gautam Gambhir has rubbished speculation that Shreyas Iyer was being side-lined from the ODI set-up despite his brilliant form, saying that the consistent right-hander was always in the "scheme of things" and will be an important player in this month's Champions Trophy (CT). Iyer displayed excellent form during the just-concluded 3-0 ODI series sweep against England, hitting a counter-attacking 36-ball 59 in the opener when India were 19/2 chasing 249 in Nagpur, and scoring 44 and 78 in the next two games. After the opening match, he created quite a stir by stating that he got into the side only after Virat Kohli had to sit out of the game because of a sore knee. This led to speculation that he would be dropped for Kohli in the next two games. "He was not supposed to be benched throughout the series. We wanted to give Yashasvi (Jaiswal) a go in the first game and see what he can bring on the table because he

was in (a) really good form in Australia," Gambhir said after the third and final match here on Wednesday. Iyer was preferred over Jaiswal eventually and Gambhir described him as an "important player" in the side. "I know that you cannot judge someone (Jaiswal) by one innings. But we always knew that Shreyas was going to be an important player for us. Sometimes when you've only got three games, you want to try and rotate your squad as well," the coach reasoned. "(And) when you have got Champions Trophy around the corner, you want to try and maximise these three games and try and give everyone an opportunity. But Shreyas was always in the scheme of things (and it is) good that he played all the three games," Gambhir added. The Champions Trophy gets underway on February 19 with India talking Bangladesh on February 20 in Dubai. **Harshit and Arshdeep will have to step up** Someone's missed opportunity is another person's golden chance,

believes Gambhir, who expects the likes of Harshit Rana and Arshdeep Singh to step up and fill the void created by pace talisman Jasprit Bumrah's injury-forced absence from the Champions Trophy. Bumrah, who played a decisive role in India's T20 World Cup win last year with 15 wickets including a vital spell in the final, has been ruled out of the eight-team event which begins on February 19 owing to a nagging back problem. "Someone missing out opportunity could be a great

Tuesday night. "I think guys have shown some really good signs. Harshit has come along really well. Arsh (Arshdeep) was really good today (Wednesday) as well. Obviously, you would always miss a bowler like Jasprit Bumrah," Gambhir said. "But then, it is always good to have someone like Mohammed Shami back with his experience and quality." When asked if Bumrah's absence will give opposition teams any psychological advantage over India, Gambhir said, "We can't help it." "If he's not available, he's not available. If he's injured, he's injured," Gambhir said. "Whether it's me, (or) whether it's the captain, we can't do much about it. We know that he's an important factor, but as I just mentioned, people like Harshit, Arsh (and) Mohammed Shami, all these guys will put their hand up." **Axar's elevation to No.5** Gambhir said the promotion of all-rounder Axar Patel at No 5 in the first two ODIs was largely to ensure a left-handed

batter in the mix. "That's the way cricket is meant to be played. I know a lot of people talk about it but that's the way we've got to play the game and that's the way cricket should be played," he said. "It's not about the batting order, it's about who can create what (kind of) impact. If you have the option of putting a quality left-hander in the middle, why won't you do that? Why would you want to have top five as right-handers?" he asked. Gambhir said he the only criteria for deciding the order is the impact assessment of a player, which he believes, cannot be done purely through statistics. "We don't look at averages and stats and all that stuff, we look at who can deliver more at that number and Axar has done fabulously well, (in) both the games he got the opportunity, (and) he delivered for us," he said. "I know there will always be people talking about it but I think that's the way we want to go in the future as well," he added.

Families not to travel with Team India for ICC Champions Trophy

PTI ■ NEW DELHI

Families will not be accompanying the Indian cricket players heading to Dubai on February 15 for the ICC Champions Trophy (CT) as the BCCI's new travel policy comes into effect for the first time with this tournament. The Indian team starts its campaign in Dubai against Bangladesh on February 20, followed by the marquee clash against arch-rivals Pakistan (February 23) and the final preliminary face-off with New Zealand on March 2. The Rohit Sharma-led squad will play its games in Dubai while the rest of the tournament unfolds from February 19 in Pakistan across three venues. Given that the duration of the tour is just over three weeks even if the final on March 9 is taken into consideration, the BCCI will not allow families to accompany the players. As per the new policy, families can be with players for a maximum of two weeks during a tour which is of 45 days or more. "If anything changes then it is different but as of now, the players are unlikely to be accompanied by their wives or partners for this tour. One of the senior players had enquired about it and he was told that the policy decision will be followed," a senior

BCCI source told PTI on conditions of anonymity. "Since the tour is of less than one month, families won't be accompanying the players. But if exceptions are made, I think that individual will have to bear the full expenses as BCCI won't be covering any cost," he added. The BCCI policy document states: "Players absent from India for more than 45 days during overseas tours can be joined by their partners and children (under 18) for one visit per series (format wise) of up to a two-week period. "Any deviation from this policy must be pre-approved by the coach, captain and GM Operations. Additional expenses outside the visitors' period will not be covered by the BCCI." However, families will be there with the team during the five-Test tour of England in June-July-August as the five-Test. The window for their two-week stay during the trip will be worked out later. The new rules were drafted after India's horror tour of Australia during which the team was outplayed 1-3, leading to speculation about lack of discipline and cohesion in the dressing room. **Rules already put into effect** The senior official said that most of the rules have already been enforced by the BCCI.

"If you look at it, already no player can ask for a private vehicle to come for practice. All state units have been notified. Similarly once the players assembled in Kolkata (for the T20I series against England) and Nagpur (for the ODI series against the same side), the team has travelled together," he confirmed. The stars have also adhered to the new regulations of playing domestic cricket when they get time off from their international assignments. Accordingly, Rohit Sharma, Suryakumar Yadav, Yashasvi Jaiswal, and Shivam Dube turned up for Mumbai. Virat Kohli played his first game for Delhi in more than 12 years amid a lot of fanfare. So did Rishabh Pant while KL Rahul represented Karnataka. Ravindra Jadeja played for Saurashtra. **Personal staff to stay at different hotel** Restrictions have also been imposed on personal staff (managers, agents, chefs), who were accompanying the team and the coaching group earlier. Accordingly, the personal secretary of a member of the coaching staff, who was regularly seen staying at the team hotel, now stays at a different facility even though he has been seen at every venue during the England home series.

RCB names Rajat Patidar as captain for IPL 2025

PTI ■ BENGALURU

IPL franchise Royal Challengers Bengaluru on Thursday named Rajat Patidar as its captain for the upcoming season starting March 21, replacing South African Faf du Plessis who was released from the squad last year. Patidar was among RCB's retained players before the mega auction in November, 2024 and has the experience of leading Madhya Pradesh in the Syed Mushtaq Ali Trophy (T20) and the Vijay Hazare Trophy (ODI). The 31-year-old, who signed up with the franchise in 2022, guided Madhya Pradesh to the Syed Mushtaq Ali Trophy final where his side lost to Mumbai by five wickets last year. "Rajat has the simplicity, (he) cares about the people around him, we have closely seen how he has led Madhya Pradesh, we really liked it," RCB chief coach Andy Flower said at the franchise event to announce Patidar's elevation. The right-hander was also the second highest run-getter in the premier domestic T20 tournament, behind Ajinkya Rahane, scoring 428 from 10 matches at an average of 61 and a strike-rate of 186.08. Patidar takes over from du Plessis, who was released after captaining the team from 2022 to 2024. The 40-year-old South African will play for Delhi Capitals this season. Prior to the announcement on Thursday, there was some speculation about Virat Kohli returning as captain of the franchise. Kohli was the RCB captain from 2013 to 2021 and has a fine record though he

could not land them the title. The 36-year-old led RCB in 143 matches, the second longest stint as captain after the legendary Mahendra Singh Dhoni for Chennai Super Kings. He congratulated Patidar on the appointment. "Myself and the other team members will be right behind you, Rajat," Kohli said in a video statement shared by the franchise. "The way you have grown in this franchise and the way you have performed, you've made a place in the hearts of all RCB fans. This is very well deserved," he added. Kohli had a fine run as RCB captain, though he could not

land them the title. The 36-year-old led RCB in 143 matches, the second longest stint as captain after the legendary Mahendra Singh Dhoni for Chennai Super Kings. Under him, the team won 68 games, and logged 70 losses and four no-results. In 2016, Kohli had led the franchise to the IPL final, and made 973 runs, to date the highest for a batter in a single IPL season. In IPL 2024, Kohli was the top run-getter with 741 runs at a strike-rate of 154. The franchise conceded that Kohli's name was also discussed for the leadership role.

Three Pakistan players fined for breaching ICC Code of Conduct

PTI ■ KARACHI

International Cricket Council (ICC) has slapped Pakistan's Shaheen Afridi, Saud Shakeel and Kamran Ghulam with fines and a demerit point each for their belligerent behaviour during the tri-series match against South Africa here. Shaheen was fined 25 per cent of his match fee for breaching Article 2.12 of the Code, which pertains to "inappropriate physical contact with a Player, Player Support Personnel, Umpire, Match Referee or any other person (including a spectator) during an International Match." The incident occurred in the 28th over of South Africa's innings when Shaheen

deliberately obstructed batter Matthew Breetzke as he ran a single, resulting in physical contact and a heated exchange between the two players on Wednesday. The ICC had imposed a similar 20 percent match fees fine and one demerit point on Indian star Virat Kohli for barging into Australia's Sam Konstas during the Border Gavaskar Trophy series. Interestingly, while Kohli got a lot of flak for his action, Shaheen has hardly been criticised in Pakistan for his behaviour. The tall fast bowler admitted after the match that he had been trying to rile up and disturb Breetzke for a while in the match but once it was over everything was forgotten and both shook hands.

In another incident, Shakeel and substitute fielder Ghulam were fined 10 percent of their match fees for celebrating too closely to batter Temba Bavuma following his run-out in the 29th over. Both players were found guilty of breaching Article 2.5 of the Code, which relates to "using language, actions or gestures which disparage or which could provoke an aggressive reaction from a batter upon his/her dismissal during an International Match." The ICC ruled that Shakeel had intentionally blocked Breetzke's path when he was taking a single and Saud and Ghulam induced in the face celebrations when Bavuma was dismissed.
