# **GYANESH KUMAR LIKELY** TO BE NEW CEC OF INDIA

PIONEER NEWS SERVICE

**¬**he selection committee by Pin... Narendra headed Minister Modi, which met on Monday evening, is learnt to have recommended the name of the chief election commissioner to President Droupadi Murmu. Election Commissioner Gvanesh Kumar, a senior most official of the three member panel, is expected to take over from Rajiv Kumar as Chief Election Commissioner (CEC) of India. Kumar's term ends on February 18 on attaining the age of 65 years.

This comes after the Leader of Opposition Rahul Gandhi asking the government to adjourn the meeting to select the new chief election commissioner until the Supreme Court hears on February 19 a petition on the constitution of the selection panel. The Congress' statement came soon after a meeting of the three-member selection committee.

Besides Modi, Union Home Minister Amit Shah and Leader of the Opposition Rahul Gandhi are part of the panel which met here. Incumbent CEC Rajiv Kumar demits office on Tuesday on attaining the age of 65 years. Sources said the notification announcing the name of the next CEC could be issued "in the next few hours". The CEC's term can last up to six years from the date of appointment, though they must retire upon

turning sixty-five, regardless of whether their term has concluded.

This marks the first time a selection panel has been set up to appoint the head of the country's election watchdog. Earlier, there was no law passed by Parliament for the appointment of the CEC and ECs. The appointments were done by the President on the advice of the Prime Minister. Traditionally, the successor to the incumbent CEC has been the next senior-most Election Commissioner. Seniority was usually defined by who was appointed earlier to the Commission.

However, a new law on the appointment of the CEC and ECs came into force last year under which a search committee shortlists five names from among secretarylevel officers for consideration and finalisation by the prime minister-led panel. After Rajiv Kumar, Gyanesh Kumar is the

senior-most election commissioner. His tenure as Election Commissioner is until January 26, 2029. If Gyanesh Kumar is approved as the next CEC, a new EC could also be appointed to fill the vacancy created by his elevation.

This marks the first time a selection panel has been set up to appoint the head of the country's election watchdog. The Election Commission (EC) is a three-member body made up of one Chief Election Commissioner (CEC) and two Election Commissioners. Although all three election commissioners are equal, the CEC, like the Chief Justice of India, is the first among equals

According sources Congress leader Rahul Gandhi was learnt to have asked the government to defer its decision till the Supreme Court hearing on a petition challenging the composition of the selection panel.

## **Earthquake in Delhi causes panic and tremors**

 $R^{\text{esidents of Delhi-NCR and several}}_{\text{parts of northern India were jolted}}$ early Monday morning as strong tremors shook high-rise buildings, prompting many to rush outdoors. Residents were terrified by the loud sound while the tremors were felt as they watched their buildings shake for a few seconds which lasted for 35 seconds. According to the National Centre for Seismology (NCS), the earthquake, measuring 4.0 on the Richter scale, struck at 5:36 AM IST with its epicentre located within Delhi's Dhaula Kuan.

Prime Minister Narendra Modi took to social media to raise concerns and urged residents to stay alert for any aftershocks, "Tremors were felt in Delhi and nearby areas. Urging everyone to stay calm and follow safety precautions, staying alert for possible aftershocks. Authorities are keeping a close watch on the situation," he said. The Dhaula Kuan area, which has a lake nearby, has been experiencing low-magnitude quakes once every two to three years. It recorded an earthquake of magnitude 3.3 in 2015.

Soon after the tremor, the Ministry of Earth Sciences warned the people of Delhi and surrounding areas of a possible "aftershock" hours after the city was rocked by a low magnitude but strong earthquake. Union Earth Sciences minister Dr Jitendra Singh has asked the people of Delhi to stay calm and exercise safety precautions and preparedness for the aftershocks. Following the earthquake tremors felt this morning in and around Delhi at about 5:36 AM, the authorities are keeping a close watch and professional experts as well officials in the Ministry of Earth Sciences are constantly monitoring. However, it is advised to stay calm and exercise safety precautions and preparedness for possible aftershocks, if any. ## **SC** to hear Places of **Worship case in April**

**PIONEER NEWS SERVICE** ■ NEW DELHI

Expressing displeasure over filing pleas on the Places of Worship (Special Provisions) Act, the Supreme Court on Monday said a three-judge bench will hear in April the pending post-notice petitions related to the 1991 law which mandates the religious character of a place to be maintained as it existed on August 15, 1947, except in Ayodhya's Babri Masjid -Ram Mandir case. The top court, however, granted liberty to the petitioners like Samajwadi Party leader and Kairana MP Iqra Choudhary, who have filed the pleas recently and notices have not been issued on them, to file applications for intervention in pending ones by citing new legal grounds.

Dismissing fresh petitions, on which notices were not issued yet, a bench comprising Chief Justice Sanjiv Khanna and Justice Sanjay Kumar said, "The writ petitioners can file an (intervention) application raising new grounds." "We are constrained to pass this order after taking note of the number of fresh petitions filed. The pending writ petitions, which have no notices, stand dismissed with liberty to file an application raising additional grounds, if any. The new IA will only be allowed if there is any new point or new legal issue that has not been raised in the pending petitions," the bench said. "People keep on filing fresh petitions alleging that they have raised new grounds...It will become impossible for us to deal with the petitions besides whatever has already been filed," said CJI. The Bench then listed the batch of

petitions and cross ones pertaining to the 1991 law in the week commencing April 1 before a threejudge bench. Senior advocate Dushyant Dave agreed to the bench and said no fresh plea be allowed on the issue. Another senior advocate Vikas Singh, appearing for one of the old petitioners, raised the issue of nonfiling of the response by the Centre to the petitions and said the last opportunity be given to the government for this purpose. Earlier

## Pitroda's China comment sparks row

PIONEER NEWS SERVICE **NEW DELHI** 

Congress Indian Overseas leader Sam Pitroda courted another controversy with comments negating Chinese threat to India which brought him in line of fire by ruling BJP while Congress distanced itself from their celebrated leader.

The Congress leader, whose comments have been a frequent fodder for the BJP's attacks on the opposition party, is reported to have said that he does not understand the threat India faces from China, claiming that it is blown often out of proportion. Congress distanced itself from Pitroda's remarks, saying these are not the views of the party and that China remains Îndia's foremost external security and economic

challenge. Addressing conference, BJP national spokesperson and MP Sudhanshu Trivedi sought to draw a link between US-based Pitroda's remarks, USbased groups funding for "voter turnout" in India and the ruling party's charges against Congress MP Gaurav Gogoi for his alleged links to Pakistan.

Trivedi claimed that Pitroda's comments should not be seen in isolation as he recalled

Congress leader Rahul Gandhi's positive words in the past for China's growth story and the manner in which it tackled issues

unemployment. What Pitroda has said is a severe blow to India's prestige, diplomacy and sovereignty, he said, accusing the veteran Congress functionary of speaking as if it is India which is the aggressor in the conflict with China.

"All these things make clear the agenda of harming India. The 'mohabbat ki dukan' of the Congress is for anti-national forces be it George Soros or China," said Trivedi. The opposition party has nothing but a hateful agenda for India by pitting people against each other in the name of region, caste and language, he alleged. Pitroda, he said, has openly acknowledged the Congress agreement with China's ruling

reportedly views

expressed by Mr Sam Pitroda on China are most definitely NOT the views of the Indian National Congress," AICC general secretary, communications, Jairam Ramesh, said in a social

media post.

Another BJP spokesperson Tuhin Sinha said, "Those who ceded away 40,000 square km no threat from the Dragon.. No wonder Rahul Gandhi is in awe of China."

Pitroda's comments, Trivedi said, are an insult to Indian military and the sacrifices made by its personnel, invoking the Galwan clash in which 20 Indian Army personnel laid down their lives while an unspecified number of Chinese soldiers died too.

He said India wants good relations with every country, adding it will be, however, done by maintaining its prestige and security.

The BJP spokesperson also took up the issue of funding from the US-based ground into India for "voter turnout" and the ruling party's allegation against Congress MP Gaurav Gogoi for links to Pakistan to hit out at the opposition party.
Asserting that there is no

ground left for the Congress to defend itself, he, however, demanded that the opposition party must come out with a clarification.

### Rail minister promises action on Delhi stampede

**DEEPAK KUMAR JHA** NEW DELHI

Tn his first reaction, two days after Ithe tragic stampede at New Delhi Railway Station, which claimed 18 lives, Railway Minister Ashwini Vaishnaw while regretting the 'unfortunate' incident said that investigations are going on and responsibility shall be fixed.

Simultaneously, Vaishnaw who held a second round of meeting with Home Minister Amit Shah on Monday, said action will be against the principle of natural justice till the time the inquiry report comes. "I have maintained a principle of 'We Fail'. So far as action is concerned, we have not taken any action against any official as we are waiting for the

inquiry committee to give its report. This is in line with the principle of natural justice," Vaishnaw stated. On a question on the time frame for the committee to give its report, the railway minister said no time period has been fixed as it will put undue pressure on the committee members.

Sources said that the Railway Minister and top brass was not given the correct status of the un-fateful day till two hours after the it happened on platform 14-15 on Saturday around 9 pm. Well placed sources in Delhi

Division of Northern Railway said that top officers of the division, including DRM, for more than an hour, maintained that the chaos was

# **Snow delays Khelo India Winter Games**

**MOHIT KANDHARI JAMMU** 

In the absence of a thick blanket of snow at the famous Gulmarg Ski resort, the Jammu and Kashmir Sports Council Monday decided to postpone the 5th edition of the Khelo India Winter Games, initially set for February 22-25, 2025.

The Jammu and Kashmir Sports Council also announced that a new assessment will be conducted once snow conditions improve, after which a revised schedule will be announced. According to official sources in the Jammu and Kashmir Sports Council, around 300 athletes were set to compete in snow sports-ski mountaineering, alpine skiing,

snowboarding, and Nordic skiing-from February 22 to 25. "We have decided to postpone the event as key ski slopes lack sufficient snow," said Rauf Tramboo, president of the Winter Games Association of Kashmir. and Jammu Normally, the slopes receive seven to eight feet (about 2 meters) of snowfall, but this year's conditions have been unusually dry.

Several parts of Jammu and Kashmir have already witnessed a sudden rise in the day temperature by 2 to 4 degrees Celsius. However, the weathermen have raised hopes by predicting a fresh spell of rain/snow in parts of Kashmir between February 19-20. According to the forecast, "Weather is expected to

remain generally cloudy with light to moderate rain/snow at many places from the 19th evening till the 20th of "The Plains of February". Kashmir & Jammu may receive light to moderate receive 4-8 inches of fresh Rain/Thunder with gusty snow". Jammu and Kashmir is

winds at a few places. Higher reaches of Chenab Valley & South Kashmir may receive moderate snowfall (6-10

inches) while higher reaches of

North & Central Kashmir may

witnessing prolonged winter dry spell with the Union Territory recording 79 percent rainfall deficit against the normal precipitation of 144 mm. In February so far, the UT has recorded just 29.8 mm rainfall as per official data. Baramulla has recorded a deficit between 70-79 percent this year. The dry spell has also taken a

toll on Kashmir's water bodies, with dozens of springs drying up, including one in the 17thcentury Mughal Garden in Achabal town, located south of Srinagar. Meanwhile, several parts of

Kashmir valley are already grappling with massive forest fires in the absence of adequate fire fighting measures in place.

### **UP** school named after war hero renamed, locals protest

**BISWAJEET BANERJEE** 

The name of Param Vir Chakra awardee Shaheed Veer Abdul Hamid was removed from the main entrance of a primary school in Dhamupur village, sparking protests from his family and locals. Following their objections, the martyr's name was restored-but only on an external wall, not the main gate, leading to further controversy.

The school, previously known as 'Shaheed Abdul Hamid Vidyalaya,' was Hamid Shri renamed Composite School' after a

recent repainting, according to officials. Jameel Ahmed, Hamid's grandson, stated that the name was erased during the repainting work four days ago. When the family raised objections, headmaster Ajay Kushwaha directed them to approach Basic Education Officer (BSA) Hemant Rao. Rao later assured the family

that Abdul Hamid's name had been inscribed on one of the school's external walls, but the entrance continued to bear only the new name. Dissatisfied with the response, the family lodged another complaint on Saturday, demanding that the martyr's name be reinstated at the entrance. Despite assurances from officials that the matter be addressed would immediately, as of Monday, the name remained missing from the main gate, leaving the family "deeply hurt." Abdul Hamid is revered for his bravery during the 1965

Indo-Pak war, where he single-handedly destroyed three Pakistani Patton tanks, forcing the enemy to retreat. His valor earned him India's highest military decoration, the Param Vir Chakra, awarded posthumously to his wife,

### MCD starts operation of 15 auto trippers to prevent garbage dumping in rivers

PNS DEHRADUN

The Municipal Corpora- ■ tion of Dehradun (MCD) started the operation of 15 electric garbage vehicles- auto trippers, on Monday, which will mainly operate in slums near Rispana and Bindal rivers to collect garbage. Dehradun mayor Saurabh Thapliyal and municipal commissioner Namami Bansal flagged off these auto trippers from the MCD premises on Monday. Thapliyal said that these trippers are movable waste stations which will be used to prevent the blatant dumping of garbage by locals in the rivers and other public

He said, "This initiative is a significant step towards the city's sanitation goals and will contribute to the MCD's Swachchh Survekshan efforts." Bansal also stated that these vehicles are being operated by MCD and not some private agencies. Due to this, nobody has to pay any charges to dump garbage via these moving stations. She further informed that MCD is also conducting a cleanliness

awareness campaign in the residential areas surrounding the Rispana river to raise awareness among people against garbage dumping in public places. "We are currently focussing on sensitising people about the blatant garbage dumping in public areas, especially in rivers.

The corporation will soon start taking action against guilty parties under relevant sections. We will also consider increasing the number of such auto trippers in the future to further strengthen the city's waste management system," Bansal added. Besides this, MCD has also launched a Swachchhata war room on Saturday to address garbagerelated complaints within an hour. Bansal said that the corporation has received a few complaints in the past two days. "People can complain to MCD at 18001804571 regarding sanitation related issues and the team will try their best to address it within an hour. The sanitation teams will also go on patrolling and report about such issues to the Swachchhata war room that will take necessary action within an hour," she added.

PNS DEHRADUN The Bharatiya Janata Party has initiated dis-

cussions on the panel of 104 mandals prepared by observers from six districts covering 20 Assembly constituencies as part of its organisational elections.

The BJP State media incharge Manveer Singh Chauhan said that a meeting was held at the party headquarters in Dehradun on Monday in the presence of BJP State president and

### **Champion refuses then** agrees to treatment in Doon

PNS ■ HARIDWAR

 ${f F}$ ormer Khanpur MLA Pranav Singh 'Champion' was referred to Dehradun by doctors in the Haridwar district hospital on Monday. Suffering from gastrointestinal issues since Saturday night while in judicial custody for firing at the camp office of Khanpur MLA Umesh Kumar on January 26, Singh first refused to undergo treatment in Dehradun then agreed to do so on Tuesday. Doctors diagnosed him with colitis and gastroenteritis after various medical tests earlier on Sunday and were awaiting further test results before deciding to refer him to a higher centre. PMS Dr Vijayesh Bharadwaj is supervising the medical team treating Singh. The doctors suggested AIIMS in Rishikesh for cardiac, liver and prostate tests on Sunday, to which he refused. He agreed to go to the Government Doon Medical College on Monday and was discharged from the district hospital. However, he returned soon after leaving for Dehradun.

#### **NIEPVD** opens seats for visually fit students in class XI

PNS DEHRADUN

 ${f T}$ o improve support for students with visual impairments, the National Institute for the Empowerment of Persons with Visual Disabilities (NIEPVD) has allocated 10 seats for visually fit students in the maths and science stream for the first time in class XI. Informing about this, the principal of NIEPVD Amit Sharma announced that the registration process for admissions within the institute has begun. This process commenced on February 10 and will end on March 15. For the first time, the NIEPVD has opened registration for students who are not visually impaired, in class XI for the maths and science stream, reserving a total of 20 seats— 10 for visually impaired students and 10 for visually fit students. The selection process for non-visually impaired students for class XI will take place after the board results are announced, he said. Sharma further said that the aim of reserving spots and facilitating admissions for non-visually impaired students in class XI is to address the recent emphasis on mathematics and science within the curriculum for this grade. However, visually impaired students often encounter challenges in laboratory settings and others. By including non-visually impaired students, it is hoped that they will provide assistance to their visually impaired peers. Ad ditionally, given that private school fees can be quite high, this initiative offers financial support to non-visually impaired students from economically disadvantaged backgrounds. Additionally, he said that the admission process has also begun for other classes. Specifically, 10 seats have been reserved for Bal Vatika, while for classes I, II, III, IV, V and IX, there are five, three, one, two, and 10 seats reserved, respectively. He emphasised that there are no available seats for classes V, VII and VIII. He stated that once the registration process for admissions is completed, the selection procedure for shortlisting students will begin. This selection will take place through an online test, he said.

#### **Employees seek invitation for** input on eighth pay commission

The president of the State Employees Joint Federation Arun Kumar Pandey along with its general secretary Shakti Prasad Bhatt met chief minister Pushkar Singh Dhami here on Monday. They demanded that an official letter be issued to invite suggestions from major employee organisations in the State concerning the eighth Pay Commission. Informing further about this, Pandey said that the Central government had recently sent a letter to the chief secretaries of 28 States on January 27, 2025, inviting suggestions for the eighth Pay Commission to be submitted by February 15, 2025. They highlighted that while Uttar Pradesh had invited suggestions from its major employee organisations, no such initiative has been taken in Uttarakhand.He further said that in light of this, they met and urged the CM to issue a similar official letter in Uttarakhand, inviting suggestions from employee organisations, which should then be forwarded to the Central government. Further, he said that they also expressed concern that the report from the committee established by the State government to address pay anomalies from the seventh Pay Commission has yet to be made public. As a result, many departments have not had their pay anomalies resolved. Pandey also informed the CM that personnel in the Excise department, despite being eligible, are facing reluctance from officers regarding the approval of ACP. The federation demanded that all relevant parties be directed to take action on these matters promptly, he said.

### Govt to appoint 439 assistant professors in medical colleges

The Medical Education department has started the process of appointment to 439 vacant posts of assistant professors in the government medical colleges of the State. Health minister Dhan Singh Rawat said that the State government has taken a decision to fill the vacant faculty positions in the medical colleges and the Medical Education department has sent recruitment requisition to the Medical Services Recruitment Board. He said that the board will soon release the advertisement and start the process of appointments. He informed that out of 439 posts, 218 are for general category while 112 will be kept reserved for scheduled caste, nine for scheduled tribes, 68 for other backward classes and 32 for the economically weaker sections. The minister said that the state government is committed to fill all the vacant posts of faculty members in the government medical colleges. He added that the Medical Education director has been asked to fill the promotion posts of professors and associate professors in the medical colleges of the State.

### requests opposition to play constructive role in session

PNS ■ DEHRADUN

Bharatiya Janata Party State president Mahendra Bhatt has expressed hope that this budget session of the Vidhan Sabha will witness the presentation of a development oriented budget in public interest. The opposition should also play a constructive role in the session, he said.

In his statement released to the media a day ahead of the the media a day ahead of the start of the Assembly budget session, the BJP State president and Rajya Sabha member opined that the State government under chief minister Pushkar Singh Dhami is undertaking historic efforts for the all round development of the State. This is evident of the State. This is evident

from the impressive economic statistics of the State, he said. The presentation of the budget at such a time is a cause for excitement and hopes that this budget will enable the State to rise further on the developmental index, Bhatt added.

He said, T h e Assembly is the best platform for raising the voice of the people and the issues related to the public. All the members should make the best of this opportunity. We look forward to the m e m b e r s making the most of the session and indulging in a constructive debate on the bills tabled during this session. I also appeal to the opposition to play a constructive role in the conduct of the session," Bhatt said. Addressing the members of the opposition, the BJP State president appealed to them to set aside ideas influenced by political differences and participate in the discussion. Considering that the people of the State carefully observe the role of the treasury and opposition benches in the house, all are collectively responsible for enabling the constructive conduct of the house in public

#### CM directs officials to start work soon on elevated roads on Rispana & Bindal rivers

PNS DEHRADUN

Chief minister Pushkar Singh Dhami has directed officials to start work soon on the planned Rispana and Bindal elevated roads in Dehradun. He said that the Centre should be requested for assistance to link the Dehradun elevated corridor to the expressway, adding that work under the State sector should be started soon. He issued these directions while chairing a meeting with officials to review the project on Monday considering the city's rising population, vehicular traffic and tourist footfall along with the expected rise in congestion after opening of the Delhi-Dehradun expressway. An 11-kilometre long elevated road on Rispana riverbed and a 15-kilometre elevated road on the Bindal riverbed is to be constructed in the city. The public utilities including power lines, high tension lines and sewer lines are to be shifted out of the river area. Further, retaining walls will be constructed on both the banks along with flood protection works. Dhami directed all the linear departments to work in coordination while also telling them to make plans for other cities in the State considering the rising population and traffic. The output of all the development works should be visible on the ground and the quality and time bound execution of these works should also be ensured, he said. Dhami directed the chief secretary to regularly review projects including the Dehradun elevated roads, connectivity between Garhwal and Kumaon, Manaskhand Mandir Mala Mission and preparations for the coming Nanda Devi Raj Jat Yatra, adding that he too will do the same periodically.

## Ram mandir becomes third highest-earning religious shrine in India

A yodhya, the city of Lord Ram, is witnessing an unprecedented surge in the number of pilgrims and tourists, setting new records

The Ram Temple has now emerged as the third-highest revenue-generating religious shrine in India, surpassing famous temples like the Golden Temple, Vaishno Devi, and Shirdi Sai Baba Temple in annual earnings. Since the consecration of Ram Lalla on January 22, more than 130 Million devotees and tourists have visited Ayodhya. The temple's annual revenue has now crossed ₹700

Ayodhya's rapid transformation is playing a significant role in boosting not just the economy of Uttar Pradesh but also the nation's economy. Currently, the daily influx of devotees and tourists ranges between two to five lakh, creating challenges in providing seamless darshan and accommodation. The surge in visitors has propelled the Ram Temple into the list of India's top ten religious shrines in terms of donations, securing the third position.

A large number of devotees in Andhra Pradesh is expected offer donations in cash as well as gold and silver to the temple. According to Prof Vinod Srivastava, General Secretary of the Uttar Pradesh-Uttarakhand Economic Association, a study and estimation indicate that in the financial year 2024-25, the Tirupati Venkateswara Temple

to generate annual donations of approximately ₹1,500-1,650 Crore. The Sri Padmanabhaswamy Temple in

Kerala holds the second position, with an estimated annual collection of ₹750-850 Crore. The surge in pilgrims arriving in Ayodhya has also led to record-breaking donations. Following their holy dip at the the temple trust office, stated that the trust's ten donation Maha Kumbh in Prayagraj, milcounters are collectively receivlions of devotees have been ing contributions exceeding ₹10 Lakh per day. Estimates suggest flocking to the Ram Temple. On that in just one month of the Maha Kumbh, over ₹5 Crore an average day, around four lakh devotees offer prayers at the temple, a trend that has continhas been collected in donations, including offerings made in ued since Makar Sankranti Prakash Gupta, the in-charge of the six donation boxes placed

before Ram Lalla. "With the rising influx of devotees, Ayodhya is on its way to becoming one of India's most significant religious and tourist destinations, solidifying its status as a spiritual and economic powerhouse," Anil Mishra, Trustee of the Ram Janmabhoomi Nayas, said.

Dhami said he is always committed to the Akal Takht, the highest temporal seat of Sikhs. Referring to a February 13 Facebook post of Jathedar Raghbir Singh on the termination of services of Giani Harpreet Singh, Dhami said he wrote that removing the latter was "highly con-demnable" and "unfortunate". Dhami also said he has written to the Akal Takht Jathedar to relieve him from his position in the seven-member committee formed to supervise the new membership drive of the Shiromani Akali Dal (SAD).

On February 13, Giani Raghbir Singh in a Facebook post condemned the dismissal of services of Harpreet Singh as the jathedar of Takht Sri Damdama Sahib in Bathinda. In the post, he said Giani Harpreet Singh's removal was "highly condemnable" and "unfortunate" which will harm the independent exis-tence of the 'Takht Sahibs'. On December 10, the SGPC had dismissed the services of Giani Harpreet Singh as the jathedar of Takht Sri Damdama Sahib in Bathida. The decision was taken during an executive committee

meeting of the SGPC. The committee accepted a report by a three-member committee formed to probe the allegations against Giani Harpreet Singh in an 18-yearold domestic dispute matter.

The Bharatiya Janata Party (BJP) leadership said that if the Speaker would not withdraw his suspension then the party would boy-cott Chief Minister Mamata Banerjee's speech in the House. Banerjee is scheduled to deliver her speech on Tuesday.

"If there is no Opposition Leader in the House then, the BIP will boycott the Chief Minister," Adhikari said adding in that

at the gate of the Assembly. The other legislators who were suspended are Agnimitra Paul, Bankim Ghosh and Biswanath Karik. The Opposition Leader subsequently said that Karik was suspended though he was not present in the scene.

The Monday's fracas started after an adjournment motion brought by BJP MLA Agnimitra Paul to highlight the incidents of disruption of Sarswati Puja at many places in the State earlier this

After Paul read out her speech the BJP demanded discussion on the matter alleging at many places the organisers had received threats for organising Saraswati Puja and in some places either they even had to perform the Pujas with police protection after obtaining order from the Calcutta High Court.

When the Speaker disallowed the discussion the BJP MLAs descended in the well shouting slogans and they even tore off the minutes, inside sources said.

The Speaker subsequently suspended the four MLAs. This is the fourth time when Adhikari has been suspended. Referring to the disruption of

Sarswati Puja -which organised throughout the State every year on Basant Panchami day -Adhikari referred to how the students of the Jogesh Chandra Chaudhuri Law College in South Kolkata had to perform the Puja

with police protection which

was obtained through an order of the Calcutta High Court. A former Trinamool Congress Chatra Parishad leader Shabir Ali had allegedly threatened the students of JCCLC with dire con-

sequences if they performed the Puja inside the college leading the students to move the High Court seeking police protection. A similar situation allegedly occurred inside a school in South 24 Parganas where the headmaster of the school had to abandon the Puja after receiving threats from

the local toughies.
The BJP had been raising the issue for the past several days. A section of the TMC leadership however said that the faceoff in the JCCLC had no communal angle as it was an affair between the two groups of the party's students' arm.
"Shabir backed by

a local MP wanted to control the affairs of the Puja himself while the rival group backed by another TMC leader wanted to retain its sway this led to the faceoff," said a professor, adding "it is only about controlling the huge money that is raised from the Puja and has nothing to do with any communal angle. Meanwhile, the BJP is planning to take out processions against

the Speaker's order, sources said.

## **Heart-wrenching**

The New Delhi Railway Station stampede exposes administrative lapses and highlights the need for better crowd control

t is as heart-wrenching as it is unfortunate. The stampede at New Delhi Railway Station has shocked the Capital. At least 18 people, including five children, lost their ■ lives, and over a dozen sustained injuries in a horrific stampede at the Station on Saturday night. The tragedy unfolded on the foot-overbridges connecting platforms 14 and 15, as a sudden surge of passengers waiting to board trains for Prayagraj resulted in a deadly crush. The incident raises critical questions about mismanagement, infrastructural inadequacies and lapses in crowd control that led to the catastrophe. The primary trigger of the incident appears to be a confluence of factors, including excessive passenger load, misleading announcements and poor crowd management. The surge of pilgrims traveling to Prayagraj for the ongoing Maha Kumbh Mela significantly increased the footfall at the station. Reports indicate that around 1,500 general tickets were being sold every hour. Sources suggest that a wrong

announcement regarding a change of platforms may have led to confusion among passengers.

In the ensuing rush, some individuals slipped while descending the foot-overbridge stairs, triggering widespread panic. Besides, extended waiting periods for departing trains may have resulted in a bottleneck effect. While overcrowding was an expected challenge, poor planning and mismanagement turned it into a disaster. Given the predictable surge of passengers, railway authorities failed to deploy adequate personnel to regulate the movement of people. Despite previous incidents highlighting the risks of overcrowding, no significant upgrades had been made to ensure

smoother pedestrian movement. Moreover, the response from railway officials and security personnel was reportedly delayed. A more robust system to alert and manage surging crowds could have prevented the incident from escalating into a full-fledged disaster. Could this have been prevented? Surely. Deployment of additional railway police and personnel during peak travel periods could have averted the disaster. Besides, real-time monitoring of passenger density using surveillance cameras and Al-based crowd control systems could have definitely help in such a situations. This stampede must jolt the authorities from their deep slumber as this is not for the first time such a tragedy has happened. Expansion and widening of foot-overbridges to accommodate high passenger traffic must be done on priority. Clear and accurate digital signage to minimise confusion is also very important. Besides, there must be a system to cap the number of the general tickets issued per hour, especially during mega events, While accountability is being fixed, the focus must remain on implementing long-term solutions to prevent such tragedies in the future. The railway authorities must ensure that infrastructure, security and operational protocols are robust enough to handle high footfall scenarios safely.

# Delhi High Court reinstates

# fraud claims against Reliance

The Delhi High Court quashes an international arbitration award that had dismissed government claims of 'insidious fraud' and 'unjust enrichment' against Reliance Industries

he resounding victory of the Central Government's legal team, led by the Attorney General of India A.R. Venkatramani reinforced by the active participation of the eminent jurist and the former Attorney General of India KK Venugopal, under the astute administrative guidance of Union Petroleum & Natural Gas Minister Hardeep Singh Puri, in the Delhi High Court verdict against Mukesh Ambani's Reliance Industries Ltd. (RIL), has decisively dismantled allegations of favouritism levelled against the Modi government.

This landmark ruling categorically refutes opposition claims that the government promotes select business houses, reaffirming its commitment to transparency, fairness, and the rule of law in corporate governance and policymaking. In a landmark judgment dated February 14, 2025, the Delhi High Court delivered a decisive verdict in the case of Union of India vs Reliance Industries Ltd. (RIL), addressing long-standing allegations of crony capitalism and favouritism towards major industrialists by the current government.

This 79-page judgment not only exonerates the government from accusations of bias but also underscores the integrity of India's judicial system and the competence of its political and legal leadership. Background of the Case The dispute centres around the Production Sharing Contract (PSC) executed between the Union of India and Reliance Industries Ltd. in 2000, about the exploration and extraction of natural gas in the Krishna-Godavari basin.

The Ministry of Petroleum and Natural Gas alleged that RIL had engaged in "unjust enrichment" by extracting and selling gas that had purportedly migrated from fields operated by the state-owned Oil and Natural Gas Corporation (ONGC) to RIL's adjacent block. The government sought compensation, contending that RIL's actions resulted in significant financial losses to the state excheier.Details of Juagementine Delhi High Court's single judge judgment in Union of India vs. Reliance Industries Ltd. examined ment, contractual breaches, and fraud against RIL, ultimately dismissing them due to a lack of concrete evidence.

The court upheld the findings of the international arbitration tribunal, reaffirming that RIL operated within the bounds of the Production Sharing Contract (PSC) and could not be held liable for natural gas migration beyond its control. However, the Division Bench of the Delhi High Court has quashed an arbitral award that had dismissed the Central government's claims against Reliance Industries Limited (RIL) and its foreign partners. The government had accused the conglomerate of "insidious fraud" and "unjust enrichment" amounting to over \$1.729 billion by allegedly extracting natural gas from deposits beyond its entitle-

The Bench, comprising Justices Rekha Palli and Saurabh Banerjee, overturned the ruling of a single judge, who had, in May 2022, set aside the Petroleum Ministry's allegations. The court determined that the international arbitration award dated July 24, 2018, which had favoured the KIL-lea consortium, was "contrary to public policy" in India. This decision marks a significant legal setback for the allegations of unjust enrich-RIL, as it reinstates the gov-

ernment's claims concerning unauthorised gas extraction. The ruling also strengthens the government's position in regulatory disputes within the oil and gas sector. With the arbitral award nullified, the matter may now proceed further in Indian courts, potentially leading to fresh legal battles over financial liabilities and resource allocation in the country's hydrocarbon sector. Beyond the legal nuances, the judgment serves as a crucial precedent for future contracts, emphasising the importance of precision in drafting and adherence to arbitration mechanisms for dispute resolution. It underscores the independence of the judiciary in adjudicating disputes involving powerful corporate entities and govern-ment bodies, dispelling claims

of crony capitalism. The case also highlights the competence of the central government's legal representation, particularly the diligence of Attorney General AR Venkatramani and Union Petroleum & Natural Gas Minister Hardeep Singh Puri in defending the government's stance. It further reflects the adysmally woeiui perior mance of the RIL legal team in defending the case. Furthermore, the ruling reassures investors about India's

commitment to the rule of law, ensuring that legal processes remain transparent and evidence-driven.

By challenging the political narrative favouritism towards industrialists, the judgment reinforces the integrity of India's governance, corporate regulations, and media responsibility in

shaping public discourse. Conclusion The Delhi High Court's latest judgment in Union of India vs Reliance Industries Ltd. is a testament to the robustness of India's legal system and its capacity to adjudicate highstakes disputes impartially. It dispels allegations of governmental bias towards prominent industrialists, affirming that decisions are grounded in evidence and legal merit. The ruling also underscores the importance of adhering to contractual obligations and the role of arbitration in resolving intri-

cate commercial conflicts. As

India continues to navigate its

path towards economic

growth, this judgment rein-

### India advances carbon market reforms following COP 29

ATUL AGRAWAL

India, already a leader in renewable energy, reinforced its commitment to climate action by proposing a unified carbon market

he 29th Conference of the Parties (COP 29) under the United Convention on Climate Change (UNFCCC) concluded in Baku, Azerbaijan, on November 24, 2024. While key expectations regarding climate finance remained unmet, significant progress was achieved in carbon market regulations. A landmark agreement on carbon trading rules was reached, aiming to accelerate climate action by enabling countries to meet their emission reduction goals efficiently and cost-effectively. Under its Nationally Determined Contributions (NDCs), the country initially aimed to reduce greenhouse gas (GHG) emission intensity by 33-35 per cent from 2005 levels by 2030, later revising this target to 45 per cent in 2022. India has launched multiple initiatives to combat climate change. On the supply side, renewable

energy generation helps mitigate carbon footprints, while demand-side initiatives like Perform-Achieve-Trade (PAT), star labeling, energy conservation building codes, and improved lighting solu-

tions further reinforce India's climate commitments. Existing frameworks, includ-Renewable Energy Certificates (RECs) and Energy Saving Certificates (ESCerts), serve as a foundation. These were introduced under the National Action Plan on Climate Change (NAPCC) in 2008 and have been successfully traded on Indian power exchanges.

RECs drive renewable energy adoption by allowing obligated entities to purchase either renewable energy or its certificates. One REC equates to 1 MWh of renewable energy generated from sources like solar, wind, hydro, and biogas. This system benefits both electricity generators and buyers, ensuring environ-

mental compliance. Similarly, ESCerts promote energy efficiency by enabling

industries to either enhance energy savings or buy corresponding certificates. One ESCert represents a

reduction of 1 million tonnes of oil equivalent energy. Currently, 13 key industrial sectors, including aluminum, cement, power distribution, and railways, participate in this program, covering nearly 50 per cent of India's primary energy consumption. Since their inception, RECs and ESCerts have driven significant emissions reductions, saving over 73 million tonnes of CO2 through REC trading and preventing 106 million tonnes of CO2 emissions via ESCerts. Recognising the need for a unified carbon market, India proposed a comprehensive system merging RECs and ESCerts into a single, internationally aligned framework. The regulatory foundation was set with the amendment of the Energy Conservation Act in January 2023, followed by the notification of the Carbon Credit Trading Scheme, 2023.

The scheme designates the Central Electricity Regulatory Commission as the market regulator and power designated energy-intensive exchanges as trading plat-

forms, while the Bureau of Energy Efficiency oversees compliance mechanisms. India's carbon market will consist of two segments: a compliance market and an offset market. The compliance market will impose emission caps on obligated entities, allowing overachievers to sell surplus carbon credits to underachievers. The offset market will enable voluntary participation by non-obligated entities aiming to reduce their carbon foot-

Carbon credit certificates will be traded through a regulated bidding process. The transition from existing REC and ESCert markets to a unified carbon trading system is expected to be seamless, given India's well-established power exchanges and transaction mechanisms. With this development, India moves closer to integrating its climate action efforts into global carbon markets, reinforcing its commitment to reducing emissions and achieving longterm sustainability goals.

#### **US CRITICISES EUROPEAN LEADERS** Madam — At the 61st Munich Security

Conference, American Vice President JD Vance left no stone unturned in reprimanding and threatening the European leaders. He has launched a monstrous attack on Europe, in which he has accused its leaders of failing to give free speech, restricting illegal migration, and living in fear of religious ideology. He has put the biggest threat to Europe's security on the European countries themselves. Along with this, he also said that the European countries do not pay the full price for their security. America will no longer provide security to Europe with closed eyes. This simply means that Donald Trump has indicated that if the NATO organisation has to be run, then it will have to be run on Trump's terms, or else America will leave that organisation.

America has also indicated that it wants to see Russia back in the G-7 countries' organisation. The White House has already announced that it will impose additional tariffs on goods imported from countries around the world. Now the rest of the world, especially the European Union, will have to decide without any delay how they will learn to live without America. Before America leaves NATO, the campaign to expel it will have to be intensified. Also, every possible help will have to be given to Ukraine to save it from the clutches of Russian terrorism. Because Trump is completely determined to hand over the reins of Úkraine to the Kremlin.

#### **MSMES MUST REINVENT TO SHINE**

Madam — The US's push for reciprocal tariffs, framed as a 'fair trade' corrective, has sent shockwaves through guest from which I was witnessing the global markets-but for India's MSMEs

### **FIRST COLUMN RAISING GEN ALPHA AND GEN BETA**

To ensure their well-being, parents must strike a balance between traditional values and modern approaches

he 21st century has introduced new challenges and opportunities in parenting. As we raise Generation Alpha (born 2012-2024) and Generation Beta (born 2025-2039), it is crucial to adapt parenting strategies to their digital upbringing, rapid technological advancements and changing societal norms.

Ensuring these children grow up healthy, happy, and disciplined requires a balance of traditional values and modern approaches. There is no denying that, unlike previous generations, Generation Alpha and Generation Beta are growing up with easy access to technology, which affects their lifestyle habits.

It is of utmost importance that parents/guardians take proactive steps to ensure their children's well-being such as providing balanced nutrition such as a diet rich in proteins, vitamins, and fibres while limiting processed foods and sugary snacks; reducing screen time and promoting physical activities such as cycling, swimming, and team sports to improve fitness and social skills; setting screenfree bedtime routines to ensure quality sleep, which is crucial for the cognitive and emotional development and encouraging children to spend time offline by engaging in hands-on activities like painting, gardening and DIY projects.

Not only these, but in an era of social media influence and fastpaced lifestyles, parents/guardians need to support their children by creating a strong emotional connection; encouraging resilience and a growth mindset; guiding them in reducing digital overload, and engaging them in mindful activities such as yoga, meditation, journaling, or simple relaxation exercises to help them cope with stress. Above all, what matters the most is the art of discipline. With instant gratification becoming a norm in the digital age,

parents/guardians must realise that these generations will grow up in an Al-driven world, requiring skills beyond academics. Parents/Guardians can help prepare them by encouraging critical thinking and creativity and providing problem-solving challenges, STEM activities, and artistic outlets along with proper guidance on responsible internet usage, cybersecurity, and online ethics followed by developing social skills in a hybrid world. Raising healthy, happy, and disciplined Gen Alpha and Gen Beta children requires a thoughtful blend of love, guidance, and adaptability.

Parents/Guardians must embrace new-age parenting by integrating digital awareness with traditional values while fostering emotional resilience and self-discipline. By prioritising wellbeing, education and strong moral foundations, one can ensure these generations grow into responsible, fulfilled, and future-ready individ-

Also, by providing proper nutrition, encouraging physical and mental well-being, fostering social skills, and setting positive examples, parents/guardians can create an environment where children thrive for it is aptly said that a happy and healthy child is not just the result of luck but of consistent efforts, care, and understanding from those who nurture them. By promoting healthy habits, setting strong moral foundations, and nurturing adaptability, parents can equip their children for a fast-evolving world. Ultimately, a happy and well-rounded child is shaped not by chance, but by consistent love, guidance, and understanding

# Unlocking nature's secrets: A journey through India's forests

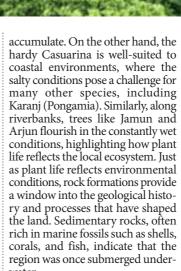

Nature is an open book, rich with stories waiting to be uncovered. There are intricate connections between land, life, and time, write BKP Sinha & Arvind Jha

ature, in its boundless complexity, holds countless wonders and mysteries. A walk through the forest offers a unique opportunity to engage deeply with the natural world, observing its intricate details and uncovering its hidden stories. Every tree, rock, and animal track contributes to the landscape's rich history, revealing the dynamic processes that have shaped it over time. The towering trees, with their rings cataloguing centuries of climatic shifts and environmental changes, stand as silent witnesses to the passage of time. A notice-able absence of middle-aged trees, for example, often points to a past forest fire. These fires, while natural and sometimes devastating, selectively eliminate younger trees while leaving behind older, more resilient ones. India, with its diverse ecosystems ranging from coastal regions to mountain valleys, offers a unique opportunity to observe the intricate relationships between flora, fauna, and their environment. Even the soil beneath our feet, a mosaic of organic matter, testifies to the endless cycle of life and decay that sustains the ecosystem. The contours of the land, the steepness of slopes, the presence of valleys and ridges – these are not mere accidents of geography. They are the fingerprints of geological forces, millennia in the making. The Himalayas, Western Ghats, and Vindhya ranges are iconic examples of such geological artistry, showcasing the dynamic processes that have shaped the nation's landscape and influenced its biodiversity. The forest is a timeless classroom, where nature's lessons unfold with every step. But to truly unlock these secrets, requires more than a casual glance; it demands a mindful approach and willingness to slow down and truly engage with our surroundings. As you walk through the forest, you'll notice the forest floor is covered with a thick layer of leaves, twigs, and decomposing organic matter.

This layer, known as the leaf litter, plays a crucial role in nutrient cycling and provides a habitat for many small creatures. The type and distribution of vegetation provide insights into the region's climate, soil conditions, and water availability. Lush rainforests, like those in the Western Ghats and Northeast India, thrive in areas with abundant rainfall. These verdant ecosystems boast a rich variety of plant species, from towering trees to intricate understory plants, each adapted to thrive in the humid, water-rich environment. This dense vegetation supports a wide range of wildlife, contributing to the region's biodiversity and ecological stability.

In contrast, the arid deserts of Rajasthan present a landscape where life has remarkably adapted to survive with minimal water. Vegetation here is sparse, but highly specialized, with species like cacti, acacias, and thorny bushes dominating the terrain. These species are equipped with unique adaptations, such as water-storing tissues and deep root systems, allowing them to conserve and access water efficiently and ensuring their survival in such harsh conditions.

The intimate relationship between plants and their environment becomes even more evident when observing specific species in particular areas. For instance, in floodplains, trees such as sycamore, Gular, and ash Gurjan thrive in fertile, wet conditions where water and nutrients

These rocks may also display ripple marks or mud cracks, further supporting the presence of ancient water bodies. For example, the fossil-rich Shivalik Hills provide a glimpse into prehistoric times, showcasing the variety of life forms that once thrived in the area. The types of sediment and their layer-KILOMETRES ing can also offer insights into past climate conditions, such as periods ACROSS of drought or heavy rainfall. For instance, fine-grained sediments suggest calm, shallow waters, while coarser sediments point to more

SUPPORTING Igneous rocks, formed from cooled magma, reveal the areas volcanic history, while metamorphic rocks provide evidence of the intense transformations that occur deep Conversely, granite-dominated areas, where rock breakdown leads to acidic soils, often develop wet-

> Soil colour offers further clues: Dark brown soil, rich in organic matter, supports diverse ecosystems; grey soil suggests wetter conditions; yellowish soil may indicate nutrient depletion. Dramatic shifts in soil colour often point to human influence. For example, in Karnataka and

Odisha, vibrant red and ochre hues reflect historical iron ore mining. In Rajasthan and Gujarat, white caps on the soil signal high salt levels from over-irrigation. Physical signs in the landscape—such as fissures or cracks in the soil—can indicate instability, caused by factors like erosion, seismic activity, or human

In hilly regions like the Western Ghats or Himalayas, slipping or bending tree bark may signal shifting ground, a clear indicator of potential soil movement. Recognizing these signs is crucial for the safety of campers and hikers. Water bodies, including rivers, lakes, and wetlands, are vital components of India's ecosystems and are deeply intertwined with the land's geology. Major rivers such as Ganges, Brahmaputra, and Godavari are true lifelines for the

The Ganges River, revered as sacred, flows over 2,500 kilometres across northern India, supporting numerous aquatic and terrestrial species. Its waters irrigate fields that feed millions, and it is a critical source of drinking water for countless communities. Similarly, the Brahmaputra River, originating rom the Tibetan Himaiayas, meanders through Northeast Índia, sustaining rich floodplain ecosystems and supplying water for agriculture and hydropower.

The Godavari, often called the Brahmaputra-Meghna delta and are a haven for Bengal tigers, crocodiles, birds, and other wildlife, while its mangroves protect the coastline from storms and floods. As we explore these natural habitats, subtle signs like paw prints, droppings, and other traces offer glimpses into animals' presence and activities.

Each animal leaves a distinct signature reflecting its unique anatomy with their stealthy grace, leave tracks showcasing the soft pads of their paws, devoid of sharp imprints of their retractable claws, hinting at their elusive nature. Rabbits, in contrast, leave bounding

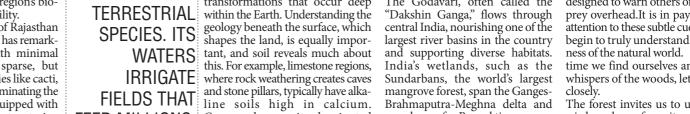

tracks with hind legs landing ahead of their forelegs, showcasing their hurried movements and vulnerability. Understanding these signs provides deeper insights into wildlife behaviour and habitat preferences. Like us, animals are drawn to places that offer the essentials of life: food, water, and shelter. A patch of trees followed by an open field and a water source, such as a lake or pond, indicates a popular spot for wildlife. However, animals in these areas are often cautious and aware

of their surroundings.
They possess an innate ability to detect and avoid human presence long before we notice them, typically only breaking cover to make a quick escape. Birds, in particular, use vocalizations to mark territory and alert others to predators.

For instance, the sudden flight of pigeons on a quiet woodland path can trigger a group warning system, notifying nearby animals—deer, rabbits, and foxes—of a potential threat. Similarly, a chorus of noisy ed defence against a predator, such as a crow mobbing an owl. Birds also emit sharp alarm calls, like the high-pitched "seet," specifically designed to warn others of a bird of prey overhead. It is in paying close attention to these subtle cues that we begin to truly understand the richness of the natural world. The next time we find ourselves amidst the whispers of the woods, let us listen

The forest invites us to unlock its wisdom, learn from its resilience, and contribute to its legacy. By embracing the profound lessons found within the diverse elements of the forest, we not only enrich our own lives but also ensure that this invaluable library remains open for generations to come.

≺he Indian economy has witnessed a significant push towards infrastructure, real estate and tourism, especially spiritual tourism especially in the 2025-26 Union Budget. The government's focus on urban redevelopment, affordable housing, and tourism-friendly policies has positioned India as a global hotspot for real estate and hospitality investments. Among the most prominent emerging trends is the rise of religious realty—an intersection of real estate, hospitality, and spiritual tourism, where projects are developed to cater to the growing number of pilgrims and faith-driven trav-

Additionally, the introduction of the Rs 15,000 crore SWAMIH Fund 2 for affordable and mid-income housing will fast-track stalled projects, ensuring homebuyers see the fruition of their investments. Simultaneously, India's hospisures—such as no income tax tality sector is poised for an both pilgrims and high-end

exponential rise, with 50 toptier tourist destinations being developed with state partnerships, reinforcing the nation's status as a must-visit destination for both spiritual and leisure travellers.

The Rise of Religious Realty: A New Era in Development India's spiritual destinations have long been major attractions for domestic and international tourists. However, what was once a fragmented market with limited infrastructure is now being transformed into a sophisticated segment within the hospitality and real estate industries. The religious tourism boom has led to a surge in demand for premium hotels, commercial complexes, and mixed-use developments that cater to travellers. The Solitaire Group has been at the forefront of this evolution. Recognising the immense potential in religious reality, it has strategically invested in prime pilgrimage destinations such as Ayodhya, Varanasi, Prayagraj, and Haridwar

Its flagship development in Ayodhya—a luxury Taj hotel in partnership with the Indian Hotels Company Limited (IHCL)—exemplifies its commitment to redefining spiritual tourism. The 300-key Taj Ayodhya, spanning 7.2 acres, will feature high-end villas, luxury accommodations, wellness facilities, and state-of-theart banqueting spaces to cater to both pilgrims and travellers seeking opulent experiences. Unlocking the Potential of Tier II and III Cities

growth in India is no longer limited to metro cities. Government-backed infrastructure projects, improved regional connectivity under the modified UDAN scheme, and growing investor interest are propelling the development of Tier II and III cities.

Cities with religious and cultural significance are seeing an influx of premium residential and commercial projects, as Master List (HML), ensuring

demand for quality real estate soars. The Solitaire Group has been a pioneer in this domain. Its developments in Prayagraj, including the city's first and largest township, are a testament to its vision of creating world-class urban spaces beyond metro hubs.

Through strategic land acquisitions and partnerships, the Group aims to bridge the infrastructure gap in smaller cities and deliver projects that enhance both living standards and economic prosperity.

Hospitality Meets Spiritual

India's push for religious and spiritual tourism has been backed by key government initiatives, including hotels in pilgrimage hubs being added to the Infrastructure Harmonised easier access to low-cost financing, streamlined e-visa services and visa fee waivers for select international tourists to encourage global arrivals, and MUDRA loans for homestays to support budget travel and rural tourism.

This structured approach to hospitality growth has enabled developers like the Solitaire Group to envision and execute projects that cater to a diverse range of travellers. The focus remains on integrating worldclass amenities into heritagerich locations while maintaining the cultural and spiritual essence of these sites.

# **Top Russian officials will hold talks** with US in Saudi Arabia on Tuesday

### Zelenskyy says Ukraine won't take part in talks this week as they would 'yield no results'

PTI MOSCOW

**¬**op Russian officials will hold talks with US counterparts on restoring ties, negotiating a peaceful settlement to the war in Ukraine and preparing a meeting between Russian President Vladimir Putin and US President Donald Trump, the Kremlin said Monday.

Kremlin spokesman Dmitry Peskov said that Russian Foreign Minister Sergey Lavrov and Putin's foreign affairs adviser Yuri Ushakov will fly to the Saudi capital later in the day to take part in the talks set for Tuesday. US Secretary of State Marco Rubio will lead the US

delegation. Trump's envoy Steve Witkoff told Fox News Sunday that he and national security adviser Mike Waltz also will take part in the talks.

Peskov said the talks will be primarily focused on "restoring the entire complex of US-Russian relations, as well as preparing possible talks on the Ukrainian settlement and organizing a meeting of the two presidents?

Speaking to journalists on a conference call from the United Arab Emirates on Monday, President Ukrainian Volodymyr Zelenskyy said his country won't take part in the talks this week, adding that they would "yield no results,"

given the absence of any Ukrainian officials. European governments have also demanded a role.

The talks follow last week's telephone call between Trump and Putin in which Trump said they "agreed to have our respective teams start negotiations immediately." The call upended years of US policy, ending the isolation of Moscow over its Feb. 24, 2022, invasion of Ukraine. After the call with Putin, Trump phoned Zelenskyy to inform him about their conversation.

Trump on Sunday told reporters that Zelenskyy "will be involved," but did not elaborate. Zelenskyy said he would travel to Turkey on Monday and to Saudi Arabia on Wednesday, but that his trip to the Arab nation was unrelated to planned US-Russia talks there on Tuesday. Andriy Yermak, a top

Zelenskyy adviser, said earlier Sunday there was no possibility of Ukrainian and Russian representatives meeting directly in the immediate future. In a Telegram post, Yermak said the Ukrainians weren't planning to do so "until we develop a plan" to end the war and bring about a "just peace." Speaking on Fox News Channel's "Sunday Morning Futures" program, Witkoff said he and Waltz will be "having

# Israel says drone strike kills Hamas chief in Lebanon

An Israeli drone strike in Southern Lebanon on Monday killed the head of the militant Hamas group in the country, Israel's military said. The strike came on the eve of the deadline for Israel's full withdrawal from southern Lebanon under the ceasefire agreement that ended the 14month war between Israel and Hezbollah.

The Israeli military said it killed Mohammad Shaheen, the head of Hamas' operations department in Lebanon. The army accused Shaheen of "recently planning terror attacks, directed and funded by Iran, from Lebanese territory against the citizens of the state of Israel.

Footage circulating online showed a car engulfed in flames. The strike occurred near a Lebanese army checkpoint and Sidon's municipal sports stadium.

The original withdrawal deadline was in late January, but under pressure from Israel, Lebanon agreed to extend it to February 18. It remains unclear whether Israeli troops will complete their withdrawal by Tuesday.

Since the ceasefire, Israel has continued airstrikes in southern and eastern Lebanon, saying it is targeting military sites containing missiles and combat equipment. Israel and Lebanon have exchanged accusations of violating the ceasefire agree-

## Dissanayake govt unveils first budget, projects 5 pc growth for Sri Lanka

**PTI** ■ COLOMBO

The Sri Lankan economy is expected to grow at 5 per cent in 2025, President Anura Dissanayake said Monday while presenting the budget for this year.

This is the first full-year budget presented by the National People's Power (NPP) govern-ment, which came to power in November last year.

Introducing the budget, Dissanayake said a budget is a "reflection of the government's approach to building the economy and overall pol-

He added that this year's budget intends to set a foundation of an economy where "all citizens are active participants, active stakeholders, and active beneficiaries," news portal Adaderana.lk reported. "We expect the 2025 eco-

nomic growth to be around 5 per cent," said Dissanayake, also the island nation's Finance Minister. He asserted that all fiscal

measures would be directed towards the commencement of repaying the external debt from 2028. ...Growth in non-debt creat-

ing inflows along with robust economic growth and a primary budget surplus of 2.3 per cent of GDP will ensure Sri Lanka is well placed to meet the gradual increase in debt service payments from 2028 onwards," the report quoted the president as say-

Last year, under then-president Ranil Wickremesinghe, Sri Lanka received capital grace periods on bilateral loan payments until 2028.

Dissanayake also said a budget deficit of 6.7 per cent of the GDP or SLR 2.2 trillion was expected in 2025, down from the previous year's 6.8 per cent. În line with the International

Monetary Fund (IMF) pro-

gramme targets, tax revenue

is expected to be increased to

15 per cent of the GDP in

2025, he said. Dissanayake said the government would prioritise digitising government services and would move towards a cashless economy.

Despite his pre-election statements to review the IMF programme of his predecessor Wickremesinghe, he has continued to steer the economy within the global lender's reforms. Since the IMF and Sri Lanka entered a USD 2.9 billion

bailout in March 2022, three tranches of over USD 330 million have been disbursed. The fourth tranche of the four-year facility is expected to be materialised soon after the IMF executive board's approval.

The president also announced a phased wage hike for state sector employees while presenting the budget.

'We propose to increase the minimum monthly basic salary from SLR 24,250 to 40,000 by 15,750. The current ad-hoc interim allowance and special allowance will be integrated into the basic salary giving a net increase of SLR 3,250 in the minimum salary, he said.

"Of the total net salary increase, SLR 5,000 and 30 per cent of the balance amount will be paid starting from April 2025, with the remaining 70 per cent being paid in equal portions beginning in January 2026 and January 2027," he said.

## Indian-origin leader fined for lying to parliamentary committee in Singapore

**PTI** ■ SINGAPORE

Singapore's Indian-origin Leader of the Opposition Pritam Singh was on Monday fined SGD 14,000 after a district court found him guilty on two counts of lying under oath to a parliamentary com-

Singh was fined a maximum of SGD 7,000 for each of his two charges.

Speaking to reporters after the hearing, the Leader of the Opposition said he will be running for the general election which is due in November this year.

The Constitution states that a sitting MP will lose his seat and be disqualified from standing for election if he is

jailed for at least one year, or fined at least SGD 10,000.

However, Elections Department confirmed on Monday that the sentence imposed on Singh does not reach the threshold to disqualify him as an

MP. It said disqualification is based on the sentence imposed for a single offence.

In a Facebook post, Singh said that he has instructed his legal team to file a notice of appeal and to look into the written judgment in closer detail.

Fielding questions from the media at the State Courts after the sentencing, Singh said that he intends to contest the upcoming General Election which is due November this

Deputy Principal District Judge Luke Tan convicted Singh on two charges of lying in the house relating to another lying case of a fellow former party mem-ber and MP

Raeesah Khan in

Singh, 48, was

found to have given false testimony to a parliamentary committee that was looking into the conduct of former Workers' Party MP Raeesah Khan, who had admitted to making up a story about accompanying a sexual assault victim to the police station. Singh is secretary-general of the opposition Workers' Party

and was convicted on Monday. "The court must send a message on the importance of giving truthful information

when under oath," the judge said in sentencing.

Judge Luke Tan agreed with both the prosecution and the defence that a jail term was not warranted in Singh's case. Singh was accused of willfully giving two false answers to the COP during its inquiry

into Khan's case on December 10 and December 15, 2021. He was charged with falsely testifying in two cases. On one occasion, he had said that after an August 8, 2021 meeting between him, Khan and WP leaders Sylvia Lim and Muhamad Faisal Abdul

Manap, he wanted Khan to clarify that she had lied in Parliament on August 3. On two other occasions, he

had said that during a meeting with Khan on October 3, 2021, he had asked her to come clean about her lie if the issue was brought up in the House on October 4, 2021.

# **Profit booking leading FIIs** to sell Indian equities: FM

Seeking to assuage concerns over Foreign Institutional Investors (FII) selling Indian equities lately, Finance Minister Nirmala Sitharaman on Monday attributed the action to profit booking.

Speaking to reporters in the financial capital, Sitharaman said the Indian economy is one where the investors are bagging better returns which leads to profit booking.

FIIs also go out when they are able to or in a position to book profits. Indian market today, Indian economy today, has an environment in investments are also yielding good returns and profit booking is also happening," she

It can be noted that FIIs have sold over ₹1.56 Lakh Crore of stocks since October last year, including nearly ₹1 Lakh Crore

sharp correction on the indices and wiping out investor wealth. Finance Secretary Tuhin Kanta Pandey said FIIs are not moving from one emerging market to other, and added that

like the one being witnessed right now, they tend to go back to the country of origin, which is mostly the US.

He also hinted that these shifts may be temporary, and added

in 2025 itself, which has led to a in times of global uncertainties that Indian markets are resilient. Explaining that apart from demand-supply issues, growth prospects also influence investor behavior, Pandey said India remains the fastest growing large economy and

that the recently announced Budget has a slew of growth-oriented measures. have faced global headwinds in the past, and will continue to face them. But I think India is in a strong position to handle it," he added. Ajay Seth, Secretary of the Department of Economic Affairs, dismissed any idea of a government interference in the market because of the heavy sell-offs, stating that such a move can be carried out only if there is any evidence of market failure, which is not the case at present. Seth said equities do not

function on government policies alone, and added that foreign investors go to developed or bigger markets in periods of uncertainties. . He said that while India has shown resilience when it comes

to world events in parts, it is not fully de-coupled either.

### Experts intrigued by inclusion of electoral bonds in Income Tax Bill

PTI ■ NEW DELHI

 $E^{\mathrm{xperts}}$  are intrigued by the new Income Tax Bill, 2025 retaining provisions related to electoral bonds, which were rendered unconstitutional by the Supreme Court last year, saying it could be because of legislative oversight or the government's intention to bring it back in some other

Electoral bonds have been mentioned in the new Income Tax Bill's Schedule VIII which deals with Income not to be included in the total income of political parties and electoral trusts'. In a judgement passed on February 15 last year, the Supreme Court had scrapped the Centre's electoral bonds scheme of anonymous political funding, calling it "unconstitutional" as it was "violative" of the right to freedom of speech and expression and right to Under the existing Income Tax Act, 1961, donations received from companies and individuals through electoral bonds are exempt in the hands of political parties.

The government has brought in a new Income Tax Bill to replace the 64-year old I-T Act. The 622-page Bill is a simplified version of the existing Act which has become complicated over the years because of over 4,000 amendments.

About the electoral bond related provisions in the new I-T Bill, AMRG and associates senior partner Rajat Mohan said the mention of electoral bond provisions in the new Income Tax Bill could be because of a legislative oversight, or a deliberate move to keep the door open for a modified version of the scheme in the future. "While the Supreme Court

had strong and justified grounds for striking down

through structured dialogue and expert consultations. The government still retains the legislative authority to reintroduce a donation political framework, provided it aligns with constitutional principles and ensures transparency in electoral funding," he said.

### Airtel completes landing of SEA-ME-WE-6 submarine cable

PTI NEW DELHI

Bharti Airtel on Monday said it has completed the landing of the new Southeast Asia-Middle East-West Europe-6 or SMW6 (SEA-ME-WE 6) submarine cable system

The company recently landed the SEA-ME-WE 6 cable in Mumbai on December 30,

"The cable landing, both in Mumbai and Chennai, will be fully integrated with Airtel's data centre arm, Nxtra by Airtel, at its large facilities in the respective cities with an aim to enable global hyperscalers and businesses in the country to seamlessly international access connectivity and data centre services," Bharti Airtel said in a release.

These cable landings were completed by SubCom, a leading supplier of subsea fibre optic cable data systems responsible for engineering, manufacture and installation of SEA-ME-WE-6. Cable landing stations connect submarine cable systems with land-based networks. According to the release, the

21,700 route kilometres (Rkm) submarine cable system connects India to Singapore and France (Marseille) crossing Egypt through terrestrial cables.

With this, Airtel has further enhanced its network presence with diversified capacity in the submarine cable system, globally.

Sharat Sinha, Director and CEO of Airtel Business, said this new investment and milestone would further improve the company's secure, diverse and scalable global network. "We are delighted to further

strengthen our global connectivity by landing one of strengthen the largest cable systems into facilities. complements our existing strength network 400,000Rkms across countries," Sinha said, adding that the move underlines Bharti Airtel's commitment to Digital address India's growing demand for global connectivity and data with additional routes, diversity

and capacity.
As a key member of the consortium of the SEA-ME-

WE-6 cable system, Airtel has invested in the core cable and has additionally co-built a private network of four Fiber Pairs between Singapore, Chennai and Mumbai. This cable system will bring a whopping 220 terabits per second (TBPs) of global capacity to India. Airtel's global network spans

five continents. The company has investments in 34 cables globally with some of the recent ones, including two Africa, Southeast Asia-Japan Cable 2 (SJC2) and Equiano. ## Rupee falls 16 paise against USD | Sensex, Nifty eke out gains in volatile session

PTI MIIMBAI

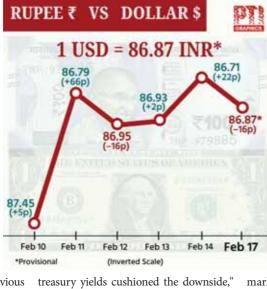

The rupee depreciated 16 paise I to close at 86.87 (provisional) against the US dollar on Monday, weighed down by significant foreign fund outflows and a recovery in the US dollar index from intraday lows.

Forex traders said the Indian rupee is trading with a negative bias as foreign banks went on a dollar-buying spree and importers scrambled to secure dollars, as they feared further depreciation amid global uncertainty. At the interbank foreign exchange,

the rupee opened at 86.70 and touched the high of 86.68 against the greenback during intraday. It also touched the low of 86.88 before ending the session at 86.87 (provisional) against the dollar, logging a loss of 16 paise from its previous

On Friday, the rupee extended its recovery and settled 21 paise higher at 86.71 against the US dollar. "Indian rupee declined today on a weak

tone in the domestic markets and a recovery in the US dollar index from intraday lows. However, weak tone in crude oil prices and a decline in US

said Anuj Choudhary - research analyst at Mirae Asset Sharekhan.

Traders may take cues from speeches by Federal Open Market Committee (FOMC) members.

"We expect the rupee to trade with negative bias amid weakness in the domestic equities and FII outflows. Overall strength in the US dollar may also

weigh on the rupee. However, any further decline in the US treasury yields or any further intervention by the RBI may support the rupee at lower levels," Choudhary added. Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 0.14 per cent higher at 106.85.

Brent crude, the global oil benchmark, rose 0.12 per cent to USD 74.83 per barrel in futures

In the domestic equity market, the 30-share BSE Sensex advanced 57.65 points, or 0.08 per cent, to settle at 75,996.86, while the Nifty rose 30.25 points, or 0.13 per cent, to 22,959.50 points.

# Liverpool continues its charge with a 2-1 win against Wolverhampton

iverpool continued its charge toward the Premier League

title with a 2-1 win against Wolverhampton. For Manchester United, it just keeps getting worse after a 1-0 loss at Tottenham.

The fortunes of England's two most successful teams could hardly be more contrasting. Victory for Liverpool saw the club

restore its seven-point lead over Arsenal at the top of the table and move ever closer to equaling Man United's record haul of 20 league

United, meanwhile, lost for the 12th time in the league this season and is 15th in the standings after James Maddison's first-half strike for Spurs.

It is turning out to be another miserable campaign for the club that dominated English soccer under former manager Alex Ferguson. That is a distant memory now, with United's wait to end its title drought set to extend to 12 years this season.

United has not been champion since Ferguson's final campaign in 2013. Ruben Amorim is the sixth permanent coach since then to be charged with the responsibility of restoring its supremacy, but his There could yet be a fourth

CLASH OF CLUBS IN CRISIS

This was Amorim's ninth defeat in 21 games in all competitions since taking over in November. He has only overseen four league wins in that time.

He already claimed in January that this could be the worst United team in the club's storied history and there is little sign of improvement.

Against a Spurs team that is also struggling in the wrong half of the table, Maddison's goal in the 13th minute at the Tottenham Hotspur Stadium was enough to settle this clash of clubs in crisis. ## momentum against German hockey

PTI BHUBANESWAR

Their campaign back on track after a jittery start, India will look to continue the winning momentum when they take on Paris Olympics silver medallist Germany in their next men's FIH Pro League match on Tuesday. India had a woeful start to their home leg matches of the

Pro League, losing 1-3 to Spain in their opener. But the hosts bounced back

strongly to tame Spain 2-0 in the return match on Sunday. With three points from two games, India are currently games, findia are currently sitting in eighth place in the standings and will be desperate to climb up the table. After a relatively off day

looked a completely different side on Sunday, dominating for most part of the match and scoring two field goals through Mandeep Singh (32nd minute) and Dilpreet Singh (39th) to pocket all three points.

While the strikers shone bright in the second game, India's chief coach Craig Fulton would be a bit concerned about penalty corner conversions. Despite winning seven

penalty corners across their two games, India failed to convert a single chance. In the absence of India captain Harmanpreet Singh, who was rested for the second

match, Hockey India League

on Saturday, the Indians star performer Jugraj Singh cut a sorry figure from set pieces.

The forwardline comprising Dilpreet , Mandeep and Sukhjeet Singh have each netted a goal for India so far in the team and will be in the tournament and will be looking to add to their tally

against Germany.
The Indian defence produced
a much-better display in the
second game, and were able to absorb pressure from the Spanish strikers.

Germany, who will be playing their first match of the India leg, are placed just above India in seventh place with four points from as many and will be games determined to turn their fortunes around

# India hope for Shami's wrist magic to reclaim Champions Trophy

**PTI** ■ BENGALURU

ohammed Shami's right hand has more sleight than a magician. A simple cock of his wrist can outfox the best batters in the world. But can he unlock the sorcery and help India reclaim the ICC Champions Trophy (CT) after 12 years?

The fans will certainly expect Shami to hit his strides straightaway in the marquee event because India's primary strike weapon Jasprit Bumrah has been ruled out due to an injury.

But there are multiple concerns as well about Shami's readiness for an event of this magnitude. India start Champions Trophy campaign on February 20 against Bangladesh in Dubai.

The 34-year-old is coming back from an injury. Even though he has played a few matches at various levels and formats since his re-entry into cricket late last year, delivering in a high-pressure tournament is an altogether different proposition.

Another reason for the trepidation surrounding Shami is the absence of Bumrah, his trusted ally in the last six years or so at the other end. In the Champions Trophy, Shami

is all set to partner Arshdeep Singh. But for all his skills and promise, Arshdeep is not yet at Bumrah's level.

the pioneer

So, can Shami drag the train forward all by himself?

Former India pacer Laxmipathy Balaji found no reason to believe otherwise.

"Actually, he had out-bowled Bumrah in the 2019 (50-over World Cup) and in the last World Cup (2023). Bumrah is the champion bowler across formats. But Shami has experience and, before Bumrah's arrival, it was Shami who carried India's attack all through," Balaji, now a reputed pace bowling coach, said.

Bumrah's unavailability makes it imperative for Shami to strike upfront consistently. underlined that factor.

"I think it's very important. If India has to do well, then Shami has to come good with the new ball. The kind of impact he can make in his first six overs with the new ball, it will play a crucial role for India.

"Old ball is anyway... It is a defensive game now. If he can make early inroads regularly that will give a huge booster to India,

But can he find his optimal and ideal running speed, because Shami's effectiveness totally depends on his rhythm.

Balaji thought it was not a task

"Since that (ankle) injury has happened, there was a little bit of slowness, maybe. It's natural. But there is nothing you can do about it. It's part of any sportsperson's

"He has the experience to get over it and he will do it as he bowls more. It's just about accepting the (physical) condition and continuing his best practices," he

However, Shami's duty will not be just restricted to taking wickets, as the senior bowler will also have to guide understudies like Arshdeep and Harshit Rana during the course of the Champions Trophy.
Balaji felt the body of work that Shami has built over the last 12 vears makes him an ideal candidate for it.

"Shami is the leader of the pack right now. I mean, he has been the leader of the pack for a long time now. If you see what Shami has done in 12 years of cricket and, especially, in Test cricket, it has been humongous.

"Now, if he starts striking with the new ball the confidence it gives to other bowlers will be huge," he

It could be a blessing for Shami that India is playing  $t\bar{h}eir$  matches in Dubai, a venue where pacers found appreciable help in the past. "He keeps attacking the stumps, a quality that is very critical in a place like Dubai, where batsmen may get a little bit more assistance," said Balaji.

How does Shami manage to be so effective with the new ball?

"Shami has one of the best wrist positions in the game, helping him bring all of his variations. See, conditions in Dubai will more or less be similar to India, so he just needs to follow his methods there," he added.

So, what are those methods?

'What Shami does is hit the seam and move the ball off the deck. It is dangerous as batsmen will not be able to guess easily which way the ball is going to move.

"It also brings into the equation the LBWs and clean bowled dismissals. The away movement ensures that slip cordon too will be in the mix," said Balaji.

"And he also bowls closer to the stumps, which allows him to explore those subtle angles. So, he will always be among the wickets," he added.

But Shami will have another reason to go full tilt in the Champions Trophy.

Despite achieving so much in his career, the Bengal man is yet to win a global trophy, the status brag for any cricketer. And already closer to the dog days of his career, Shami might not get another chance to do it either.

It might give him that extra dose of motivation to run in hard in Dubai heat, snap his wrists, before batsmen walk out with a confused stare at the splayed stumps.

## Geraint Thomas to retire from cycling

PTI ■ LONDON

Geraint Thomas, the former Tour de France champion who also won gold medals in track cycling for Great Britain at the Olympic Games in 2008 and '12, announced Monday that this will be his final year as a professional

Thomas, a loyal teammate with a tremendous appetite for victory who transformed into a leader in his own right over his almost two-decade career, said he will focus on the Tour this summer with Ineos Grenadiers.

Aged 38, Thomas told the BBC that he will ride in trained him as a British team support of the team's ambitions and "mar win a stage but just enjoy the race" that he won in 2018.

"Since I was a kid I dreamt of riding the Tour and being part of the Olympics and winning was obviously a dream as well, but to achieve that was just nuts," he told BBC Breakfast

"I think now the decision is official, you do start to reflect because when you're in it, it's just one thing after the next, year after year, so you don't really appreciate it. I guess at the time you enjoy it but I don't think you sit back and reflect and think, so there will be a bit of that this year."

For a long time, Thomas had a reputation as a party boy, always up for a few pints of beer while watching a rugby match. But his longevity at the highest level speaks about

dedication and balanced

lifestyle. "He is a true fighter," said Dave Brailsford, the man who masterminded Britain's successes at the Olympics and Tour de France.

Growing up on the outskirts of Cardiff, Wales, Thomas started bike racing at 10, and his exceptional qualities did not remain unnoticed for

"I first saw him when he was about 13 or 14 and he joined me at 17," recalled Rod Ellingworth,

performance director at Team Sky\_when Thomas won the Tour, who also coach.

You co he was just flying round the track, he was pretty good. As joined the junior program, you just knew he was going to be pretty talented."

Thomas's first successes came on the track. In 2006, he was the youngest member of the British pursuit team that competed at the world championships. In 2008, he won the Olympic gold medal alongside Bradley Wiggins. Four years later in London, with a second gold medal secured in the same event, Thomas left track cycling to

focus on road racing. Thomas had already showed immense skills on the road from winning the Paris-Roubaix junior race in 2004. His initial ambitions on the road were to perform at oneday classics, then he rode the

Danish Malewar's gritty 79 and opener Dhruv Shorey's attractive 74 made up for a gritty batting show by hosts Vidarbha as they reached 308 for 5 against defending champions Mumbai on the first day of their Ranji Trophy semi-final here on Monday. Karun Nair, who is back in

contention for a Test team berth, scored a chiselled 45 before he seemed distinctly unhappy with a caught behind decision of Shivam Dube's bowling although he had opted for DRS. While the two-time champions didn't have a big

Dube (2/35 in 9 overs) also had a couple wickets but one of them was more so because of a splendid one-handed diving catch by Suryakumar Yadav in the slip cordon. That Mumbai failed to make

more inroads was because the two new ball bowlers Shardul Thakur (0/57 in 14 Left-arm spinner Shams overs) and Mohit Avasthi Mulani (2/44 in 18 overs) (0/61 in 14 overs) were way was easily the best bowler on off the mark with both new

ball and second new ball at the fag end of the day.

The morning session belonged to Shorey, who capitalised on the half-volleys provided by Avasthi, who simply doesn't have the required pace to trouble batters if he doesn't get to swing the new ball.

As far as Shardul is concerned, he fed Shorey on the legs and got whipped. It was left-armer Royston who .got

aggression after lunch, dominating in his 51-run stand with Shorey. Shorey, who looked good for

a three-figure mark, was finally gone when Mulani got one to jump off length and it turned enough to carry the edge which Mumbai skipper Ajinkya Rahane gleefully accepted.

### Pakistani's Haris Rauf resumes bowling in nets

PTI KARACHI

Dakistan's injured fast bowler Haris Rauf said on Monday he has resumed bowling in the nets and was feeling comfortable, adding that it was up to the team management to decide on his selection for the Champions Trophy (CT) opener against New Zealand. 'Î have started doing exercises

a few days back and also resumed bowling since yesterday," Haris told reporters at the National Stadium. 'I am feeling comfortable and

my body is okay now the team management will decide about my playing in the opening match," he said.

Haris, who remains one of Pakistan's key fast bowlers with his express pace and ability to take wickets in the middle overs, sustained a muscular strain in his lower chest wall in the first match of the recently-held three-nation

## Kane Williamson joins Middlesex for 2025 season | Australian team arrives in

Former New Zealand captain Kane Williamson has signed a two-year contract with Middlesex Cricket to play in the T20 Blast and County Championship, while also captaining London Spirit in this year's edition of The Hundred.

Regarded as one of the greatest modernday batters, Williamson, who previously played for Gloucestershire (2011-2012) and Yorkshire (2013-2018), will be available for at least 10 of Middlesex's 14 T20 Blast group fixtures and a minimum of five County Championship matches in the second half of the season.

"I've played a bit of county cricket in the past, but not for a number of years now, so when this opportunity arose with Middlesex it was a really exciting prospect," Williamson, the all-time leading Test run-scorer for New Zealand, said in a release

To be able to play for Middlesex – a fine club with a rich heritage - is really exciting and something that I'm really looking forward to being a part of. To play at Lord's, the Home of Cricket – which is

one of my favourite grounds in the world for so many different reasons - is something I'm especially looking forward

'There's a good balance of youth and experience in the Middlesex squad, which is great, and I'm really excited to join up with the team, meet the players in the squad and helping out wherever I can." Williamson, who will make Lord's his home in 2025 from May through to the

end of September, has become one of the

first-ever direct signings for The Hundred.

London Spirit secured his services outside of the draft process, and he will lead the team under the guidance of newly appointed head coach Justin Langer.

Fraser Stewart, General Manager of London Spirit, said: "We're thrilled to have Kane on board for this summer. For us to be able to make a direct signing of this calibre is truly exciting for London Spirit, and I am sure that he will be looking forward to captaining our talented side?

A veteran captain in all formats for New Zealand, Williamson has accumulated over 18,000 international runs, including 47 centuries.

He boasts an impressive average of 54.88 in Tests, 49.65 in ODIs, and 33.44 in

Williamson is a familiar face in the world's top franchise leagues, having played for Gujarat Titans and Sunrisers Hyderabad in the IPL, Barbados Tridents in the Caribbean Premier League, and Durban's Super Giants in the South African T20

# **Pakistan for Champions Trophy**

**PTI** ■ LAHORE

The Australian cricket team arrived in Pakistan on Monday to participate in the upcoming ICC Champions Trophy. The tournament begins with a match between hosts Pakistan and New Zealand in Wednesday. Karachi on Pakistan are also the defending champions having won the last edition of the tournament in 2017 in the UK where they beat India in the title clash.

'The Australian cricket team has arrived in Lahore for the @ICC #ChampionsTrophy 2025! They will play their first match of the tournament on 22 February against England at the Gaddafi Stadium," the Pakistan Cricket Board (PCB) posted on X. The team landed in two separate groups. The first batch, which included captain Steve

Smith, coaches, and support staff, arrived from Colombo via Dubai. The second group, comprising 15 players and two additional members of the support staff, followed the same route and reached Lahore later

the same day. Like India, who will be playing all their matches in Dubai as per the hybrid model agreement, the Australian team will also not feature in any warm-up matches, as they were very recently involved in a twomatch ODI series against Sri

Lanka, which they lost 2-0. After their opener against traditional rivals England, Australia will play their second match against South Africa on February 25 at Rawalpindi Cricket Stadium, followed by a final group-stage outing against Afghanistan on February 28, again at Gaddafi Stadium.

### No success without failure, embrace hard work: Mary Kom, Lekhara, Suhas

**PTI** ■ NEW DELHI

There is no success without failure and perseverance always pays was the message from boxing great M C Mary Kom and Paralympic stars Avani Lekhara and Suhas Yathiraj when they offered stress-management tips to school students as part of Prime Minister Narendra Modi's 'Pariksha pe Charcha' initiative.

The three athletes also gave advice on overcoming failure, staying focused, and embracing challenges during the special session conducted annually since 2018 for students preparing for board examinations.
