### **CBI** need not seek state consent: SC

PIONEER NEWS SERVICE NEW DELHI

In a big win for Central Bureau of Investigation, the Supreme Court has said the CBI does not require the permission of State Governments to register an FIR against Central Government officials posted in the different jurisdictions of States. A bench comprising Justices CT Ravikumar and Rajesh Bindal on January 2 overturned the Andhra Pradesh High Court's order quashing the CBI investigations against two Central government

employees over corruption. CBI is governed by Delhi Special Police Establishment (DSPE) Act of 1946. According to this archaic Act, CBI needs "General Consent" from each States to start probe. Due to this provision, even in Central Government offices, CBI can't enter and many Opposition party ruled States denied "General denied Consent" to CBI, which is empowered to probe against corruption in Central

Government offices. "Irrespective of the place of posting, the aforesaid factual position would go onto show that they were Central g o v e r n m e n t employees/Central undertaking government employees and allegedly committed serious offence under PC Act, which is a central act," said the Order of the top court, giving free hand to CBI. The case stemmed from the

CBI FIRs against the Central employees Government

working in Andhra Pradesh They had challenged the CBI's jurisdiction in the Andhra Pradesh High Court, arguing the general consent granted to the CBI under the Delhi Special Police Establishment Act, 1946 (DSPE Act), by the undivided state of Andhra Pradesh did not automatically extend to the newly formed state of Andhra Pradesh post-

bifurcation. The High Court agreed with the accused, who were booked under the Prevention of Corruption Act, and quashed the FIRs insisting a fresh consent from Andhra Pradesh was required. Justice Ravikumar, who authored a 32-page judgment, differed with the High Court's interpretation, and ruled the latter had erred in asking for a fresh state consent for CBI's investigations.

The top court framed a question -- if the CBI State required the Government's consent to register an FIR against a Central Government employee under a Central Act simply because the employee worked within the territory of a State — as the central issue.

## Modi kicks off Delhi election campaign, Kejriwal reacts

### RAJESH KUMAR NEW DELHI

 $I_{infrastructure\ ahead\ of\ the}^{n\ a\ major\ push\ to}$ upcoming Assembly polls in Delhi, Prime Minister Narendra Modi on Friday sounded the poll bugle for the BJP by inaugurating developmental projects worth of Rs 4500 crore including Economically Weaker Section (EWS) flats at Ashok Vihar, Sarojini Nagar government quarters, World Trade centre and new DU campuses and college. With this, the PM Modi has launched his model against the Kejriwal's modelm putting aside doubts about who would would lead it. Winning Delhi is crucial for the BJP, which has now been out of power in the Capital for more than 25 years.

Taking a jibe at the Aam Aadmi Party (AAP) convenor Arvind Kejriwal without naming him, PM Modi said he could have built a Sheesh Mahal for himself but chose to prioritise the people. "Mai bhi koi 'sheeshmahal' bana

Rules, 2025. The public feedback can be submitted on mygov.in; the draft rules will be taken into consideration after February 18, the Ministry said in a notification on Friday.

Some of the salient features of the draft rules include greater consumer control over data; users can demand deletion of their data; companies should be more transparent with personal data; right for consumers to ask the reason why their data is being collected, and huge penalty of up to Rs 250 crore for data breach.

Once implemented, the Act will empower consumers with greater control over their data. Companies handling user data will be required to disclose the information they possess, enabling users to request its deletion or specify usage preferences. Additionally, consumers will have the right to demand details on the purpose of data collection, permissible uses, and the timeline for its deletion. The draft, titled "Digital

The regulations aim to address crucial aspects of data protection. These include how organizations must notify individuals about data collection, the framework for consent management, and safeguards for processing children's personal information.

The Digital Personal Data Protection Act, 2023 was passed by the Parliament in 2023. The draft rules, once finalised and notified, will come into force.

Commissioner of Police (Traffic), told PTI that the transgender traffic assistants are doing good and that there are no complaints or there is anything abnormal since they have been inducted about 10 days ago.

It will take some time for them to get professional acumen. They want to get integrated with society and do well, he said. It all began when CM Reddy asked officials in November to appoint transgender persons as traffic volunteers at high-traffic

areas in the city. During a meeting with officials, he said the services of transgenders should be utilised like home guards at traffic signals to prevent traffic violations. He told the officials to finalise a

While the CM on December 6, 2024, handed over 'enrolment papers' to the transgender persons who have been selected, they were formally inducted as traffic assistans on December 22. Hyderabad Police Commissioner C V Anand had earlier said transgenders face alienation even within their families and society. The state government had issued an order to inducting the transgenders as traffic assistants, he said.

According to him, about 100 transgenders had applied for the posts and 44 of them were shortlisted after a selection process, including physical tests, while 39 successfully completed

## Farmers Mahapanchayat Today: Dallewal NHAI Seeks Punjab Govt's Help to **Appeals for Massive Turnout at Khanauri**

#### PNS CHANDIGARH

 $F_{\text{Dallewal, who has been on}}^{\text{armer leader Jagjit Singh}}$ an indefinite hunger strike for 39 days now, on Friday made a heartfelt appeal to farmers and supporters across the nation to converge at the Khanauri border on January 4 (Saturday) for a massive Kisan Mahapanchayat.

The protest, located at the Punjab-Haryana border, is centered on the ongoing battle for a legal guarantee of Minimum Support Price (MSP) for crops, a demand that has sparked widespread unrest among farmers and their supporters. Dallewal's hunger strike, which has led to severe health complications, has become a symbol of the farmers' unyielding commitment to securing their rights.

In a passionate video message released on Friday, Dallewal urged farmers and individuals supporting the MSP cause to join the gathering at Khanauri, emphasizing the importance of unity and strength in the ongoing fight. "I want to see all of you at Khanauri on January 4. This struggle for MSP is a fight for our future, and your presence will send a powerful message," said Dallewal.

Despite his deteriorating health, Dallewal has remained resolute, rejecting medical aid and continuing his fast in an effort to draw attention to the

farmers' demands. His call for mass mobilization is aimed at amplifying the demand for a legal guarantee on MSP, which remains unresolved despite prolonged negotiations. The Kisan Mahapanchayat

is being organized under the banner of Samyukta Kisan Morcha (Non-Political) and Kisan Mazdoor Morcha, groups that have been at the forefront of ongoing farmer protests, dubbed as 'Delhi Chalo Andolan 2.0', since February 2023.

The protesters had earlier set up camps at Shambhu and Khanauri borders following their halted march to Delhi. The demand for MSP guarantees remains the central issue of contention between the farmers and the BJP-led Central Government. Despite attempts Punjab's Chief Minister Bhagwant Mann to persuade Dallewal to receive medical

help, the farmer leader has remained firm, with his health continuously monitored by a team of government doctors. Dallewal's appeal to farmers to gather at Khanauri comes

as the farmer leaders continue to resist attempts at negotia-tions through the Supreme Court's appointed High Power Committee. The Supreme Court, in its recent hearing, expressed concern over Dallewal's health but clarified

that it had not instructed the fasting leader to end his protest. The Central Government,

however, has so far shown little willingness to resolve the issue directly with the farmers, causing frustration among the protestors. Senior farmer leader Sarwan Singh Pandher has criticized the Centre's "stubborn attitude", demanding

direct talks with the Modi government. The protest's significance has grown, with the call for a nationwide response from farmers and political organi-

zations. In an important development, a meeting of the Samyukta Kisan Morcha (SKM) held in Ludhiana laid the groundwork for future actions.

During the meeting, it was decided that another Mahapanchayat will be organized in Tohana and in Moga on January 9, where farmers will discuss the next steps regarding their demands.

Farmer leader Boota Singh emphasized the importance of unity among farmers, despite differences in ideological approaches. "While there may be differences in opinion, our goals are aligned. Farmers must stay united to ensure our demands are met," Singh remarked.

### End fast by accepting farmers' demands: Hooda

Former Haryana Chief Minister Bhupinder Singh Hooda said on Friday that the health of fasting farmer leader Jagjit Singh Dallewal "is criti-

cal and the BJP government should try to end the fast by accepting demands and giving up its stubborn attitude".

Talking to reporters, Hooda said that Dallewal's life "is precious for everyone because he's not fasting for personal interest but for the legitimate demands of the farmers". Farmers have been protesting at the Punjab-Haryana border in Khanauri, demanding a legal guarantee for a minimum support price for crops. Dallewal's indefinite hunger strike entered its 39th day.

Former Chief Minister Hooda said the demands of the farmers are completely legiti-mate and many years old. "The BJP itself had ended the farmer movement by promising the minimum support price (MSP). Farmers are reminding the government of its promise, he added.

"The Congress has been in favour of giving MSP to the under farmers the Swaminathan formula since the beginning. The BJP had also promised to double the income of farmers by implementing the Swaminathan report, but after coming to power, it forgot its promise and instead of doubling the income of farmers, it increased its cost manifold," he said.

Hooda added that apart from the Congress, no other party thinks about the interests of farmers, they only do politics in the name of farmers

### Ac uire and for Stalled Hi The delays are not confined

### PNS CHANDIGARH

The National Highways Authority of India (NHAI) has sought the Punjab Government's assistance in resolving land acquisition issues that have delayed 15 critical highway projects spanning 604 kilometers in the state. These projects are part of a larger initiative comprising 37 highway projects, covering a total length of 1,344 kilometers and involving an investment of over Rs 50,000 crore.

A major bottleneck is the flagship 'Delhi-Amritsar-Katra (DAK) Expressway', where work on three segments has stalled due to farmer protests. This expressway, a multi-state project extending 669 kilometers from Haryana's Jhajjar district to Jammu and Kashmir's Katra, includes a 295.51-kilometer stretch passing through Punjab. Despite acquiring significant portions of the required land, protests and disputes have hindered progress on smaller parcels of the expressway. In a recent letter to Punjab Chief Secretary KAP Sinha, the NHAI has urged the state to direct administrative and police authorities to provide the necessary support for securing possession of the remaining 103 kilometers of land. "Administrative and police assistance is crucial to ensure the execution of work on 15 stalled high-

to the DAK Expressway. Other affected projects include the 'Beas-Dera Baba Nanak Road', 'Amritsar-Una Highway', 'Amritsar Bypass", 'Abohar-Fazilka Road, and multiple bypasses and highways such as the Moga-Bajakhana, 'Ludhiana-Bathinda', and 'Ludhiana-Rupnagar' highways. While challenges persist, progress is evident in the construction of 22 highways covering 740 kilometers, which are now moving forward at full pace after overcoming initial land acquisition hurdles. Earlier, several projects had remained dormant due to resistance from farmers and delays in

securing possession of land. The NHAI faced significant challenges in Punjab, primarily due to protests and disputes over compensation. In the past, Union Minister of Road Transport and Highways Nitin Gadkari had issued a stern warning, threatening to withdraw stalled projects if the State Government failed to ensure the handover of acquired land. This spurred action from Punjab Chief Minister Bhagwant Mann, the then Chief Secretary Anurag Verma, and DGP Gaurav Yadav. Their concerted efforts, including negotiations with protesting farmers and enhanced compensation offers, resulted in over 94 percent of the acquired land being handed over.

However, the remaining parcels have proven more contentious. Farmer resistance continues to be a significant obstacle, with many citing inadequate compensation and concerns over

the impact on their livelihoods. The NHAI has also restructured its approach to certain terminated projects. For instance,

three major greenfield projects the 'Southern Ludhiana Bypass' 'Ludhiana-Rupnagar Highway', and 'Ludhiana-Bathinda Highway' - were initially halted under the Hybrid Annuity Model but are now set for re-tendering. NHAI officials remain optimistic about completing the stalled projects with the state's cooperation. The agency has emphasized that completing these projects is crucial not just for improving connectivity within Punjab but also for boosting the region's economic growth by linking it more effec-tively to neighboring states and key national corridors.

As discussions between NHAI and the Punjab Government continue, the resolution of land acquisition issues remained critical to unlocking the full potential of these transformative infrastructure projects.

blocked the Pathankot-Chamba National Highway for a few hours which disrupted vehicular movement. The protest was withdrawn when Superintendent of Police (SP) Abhishek Yadav assured them of stern action in the matter. Two of the accused police constables have been suspended and the third one will be arrested after he is discharged from the hospital, the SP said.

Haryana ovt to celebrate Savitribai P ule s Saini birt anniversary every year says C

### PNS CHANDIGARH

Haryana Chief Minister Nayab Singh Saini Friday made a slew of announcements to mark the birth anniversary of iconic social reformer Savitribai Phule including that the state government will now officially celebrate the day every year.

Saini also announced the state government will expedite the proposal to extend the metro line from Bahadurgarh to Asaudha. He also said the Bahadurgarh Municipal Council will be upgraded to a Municipal Corporation. He made the announcements at a programme in Bahadurgarh on the occasion of Savitribai Phule Jayanti. During the programme, the chief minister said Phule's birth anniversary will, from now on, be celebrated officially by the state government every year.

Saini said feasibility checks will be carried out to proceed with projects such as constructing an underpass at the railway crossing in the city, renovating roads in Bahadurgarh, developing a park on the vacant land adjacent to the old court, and establishing a "Vyayamshala" and "Yogshala" on a plot near the old bus stand.

Paying his tribute to Phule, Saini also said she was not only India's first woman teacher but also a beacon of women empowerment. Married to Jyotiba Phule, a revered social reformer himself, Savitribai Phule was considered by many as India's first woman teacher due to her pioneering work for educating women -- especially from

considered a taboo.

Saini further said Phule's vision inspires the Haryana government's women empowerment initiatives. The Government Women's College in Loharu, Bhiwani, has been renamed after Savitribai Phule. The government is committed to educating and empowering women and continuous efforts are being made toward this goal, he said. Despite facing numerous obstacles, she courageously established a girls' school in Pune, Maharashtra, in 1848, he said. Born on January 3, 1831 at

Naigaon in Satara district of Maharashtra, Savitribai married Jyotiba and moved to Pune with him. Her husband, fired by modern ideas and reformist zeal, taught her to read and write. Savitribai took a teachers' training course and became a qualified teacher in 1847. The couple then started a school for girls in Bhidewada in Pune city in 1848, and she became its first

teacher. The couple had to face tremendous harassment from conservative elements who found the idea of women' edu-

ernment colleges have been established, including 30 exclu-sively for girls, he said. Saini said that in January 2015, Prime

Saini said that the state government is committed to advancing development projects and the work on the International Horticulture Market in Ganaur is progressing rapidly.

Saini further said that the metro project from Bawana to Kundli has been approved, and work on it has already begun. Regarding the Rapid Rail, he highlighted the heavy vehicle traffic on NH-44 and stated that the work on Rapid Metro from Delhi to Panipat will also commence soon. The Chief Minister said that he is touring all assembly constituencies to thank the people of the state and added that he will visit Ganaur again. He also mentioned that he has instructed the officers to accelerate all development projects in the state.The Chief Minister said that not only was she India's first woman teacher, but also an independent personality and a trailblazer for women's rights. He said that Savitribai dedicated her life to women's education, widow remarriage, eradication of untouchability, and women's emancipation. # **Protests intensify in Bihar over BPSC exam** controversy, rail and road traffic disrupted

#### PTI PATNA

Protests intensified on Friday over the demand for cancellation of the recent Bihar PSC exam, as agitators disrupted rail and vehicular movement in Patna, while police stopped a few Left-lead-ing students' organisations from marching to the CM's residence

A day ahead of fresh tests for a select group of candidates, supporters also burnt tyres Independent MP Pappu on roads in Purnea and

Yadav led his supporters in blocking rail and road traffic in several areas of Patna as well as other parts of the state, including Araria, Purnea and Muzaffarpur, officials said. The protesters gathered at Sachiwalay Halt Railway Station and squatted on the

tracks for a brief period, causing a delay in the train movement, they said. Yadav's

Patna, the officials said. "The agitators stopped the Buxar-Fatuha passenger train at Sachivalaya Halt Station around 9 am. The train was stopped for 20 minutes," East Central Chief Public Railway Relation Officer Sarswati Chandra told PTI. Members some Left-leaning students' organisations also clashed with police upon being stopped from marching towards the chief

minister's residence in the state capital, the officials said. Meanwhile, Jan Suraaj founder Prashant Kishor continued with his fastunto-death that he began on Thursday to press the demand for cancellation of 70th Combined the Competitive Examination (CCE) conducted by the Public Bihar Service Commission (BPSC) on December 13. Mocking Kishor, Yadav likened the

former political strategist to Lal'.

"He is 'Natwar Lal', who sits on fast-unto-death in the evening after having lunch. Please don't talk about him," Yadav told reporters. The Independent MP, along with his supporters, also

took out a march from Sachiwalay Halt Railway Station to JP Golumber, where police stopped them from proceeding further.

## **America under attack**

A series of seemingly unrelated attacks highlight a troubling pattern of violence that has become a daily occurrence in the US

t is not a good beginning of the new year for the United States. The United States witnessed a series of attacks that shook it to core: a truck-ramming incident in New Orleans, a shooting incident in New York and a shooting spree in Las Vegas. These events, happening in quick succession, underscore an alarming pattern of violence that warrants deep analysis into their causes and potential implications. In New Orleans, a truck driven by Shamsud Din Jabbar plowed into a crowd, killing 15 and injuring 30. The truck, bearing an ISIS flag, was found to contain weapons and potential improvised explosive devices (IEDs). Jabbar was killed in a shootout with law enforcement and the FBI is treating the incident as an act of terrorism. Several people were injured after a mass shooting incident at the Amazura nightclub in Queens, New York late on Wednesday. Meanwhile, one person was killed and seven were wounded when a Tesla Cybertruck exploded outside a hotel belonging to US President-elect

Donald Trump in Las Vegas. Motives remain unclear, but early investigations point to ideological influences. The attacks share a few commonalities. All incidents targeted densely populated, high-profile locations to maximise casualties and media coverage.

In New Orleans and potentially Las Vegas, ideological motives appear central, with Jabbar's ISIS affiliations highlighting international terrorism's persistent threat. The use of a vehicle, explosives, and firearms demonstrates the adaptability of attackers, making prevention increasingly complex. The motivations behind these attacks stem from several inter-

secting factors. Jabbar's case exemplifies how individuals, even the US citizens, can become radicalised through extremist propaganda, facilitated by online networks. The New York incident is case in point of hazards of allowing free gun culture and resistance to any law on gun control. Early reports from Las Vegas suggest mental health challenges combined with ideological leanings may have fueled the attack, a trend increasingly observed in lone-wolf attackers. The growing threat of extremism, combined with unchecked emotions and easy access to firearms, continues to claim innocent lives. The implications of these attacks call for enhanced surveillance, with increased monitoring of online platforms and extremist networks. The gun control is the need of the hour. Though the US is divided on the gun control, it is high times at least some initial steps were taken in this direction. The recent spate of attacks underscores a volatile and evolving threat perception in the US. While law enforcement's swift action has mitigated further tragedy, addressing the root causes of such violence requires a multifaceted approach. From tackling radicalisation to bolstering community resilience, the nation must remain vigilant and united against the forces that seek to sow fear and division.

## Balancing dreams and parental aspirations: A dilemma for students

SANJAY CHANDRA

In a society deeply rooted in tradition and shaped by economic uncertainty, parents often tread cautiously when guiding their children's career paths

e tend to be overcautious when we guide our children in their professional choices. I realised this only after I had cajoled my children into studying sciences till their class 12. My rationale was that they could always switch to any other course for graduation, but the reverse was not possible. They are now happily pursuing their non-science professions, often ribbing me about how much better they could have done in their Board examinations had I not insisted. Many parents from my social circle still struggle to resolve the conundrum.

A senior colleague faced such a dilemma for his daughter two decades back. My daughters were by now happily pursuing their dreams. I freely dispensed my wisdom to let the young lady pursue whatever she wanted. He was contemplative for some time before agreeing. He remembered his school friend, the son of a famous medical doctor

### LETTERS TO THE EDITOR

### **ENSURE WORKERS' SAFETY**

Madam — This refers to the editorial, 'Save Priva' (January 3). It is indeed the responsibility of the Indian government to ensure the safety and security of millions of Indian nationals who choose to avail the employment opportunities extended in other countries. When the government is not able to provide employment in India, it is but natural that helpless people venture going abroad seeking livelihood means. Had the government provided jobs they would not have thought of going abroad. Therefore, the government should negotiate with the countries employing Indians to ensure the safety and security of the employees.

In case any of them are found guilty of any crime, they should be sent back to face legal proceedings in the home country. This is not new. In the case of Abu, the extradition is agreed to with the condition of not awarding him capital punishment. Above all, it is time to rethink awarding capital punishment. ### **SOLAR POWER FOR RESIDENTS**

Madam — It is an excellent initiative by the UT Administration of Chandigarh to provide solar plants to the residents of the City Beautiful' under the RESCO (Renewable Energy Service Company) scheme at no cost, inviting the tapping of solar energy and savings for every household. The sun is available in plenty in northern India, which will make the scheme very successful. This scheme needs to be promulgated rapidly in other cities of the nation too, with the initiative of the Union government, to benefit the maximum number of people.

It will help in saving natural energy, a privilege available in abundance to only a few select countries. The government should ensure that benefits are given only to those holding authorised infrastructure duly registered to discourage further unauthorised constructions and ensure correct utilisation of government funds.

## **FIRSTCOLUMN**

### **OVERCOMING JEALOUSY AND POSSESSIVENESS**

In a world driven by competition and material aspirations, they become the silent tormentors

### RAVI VALLURI

he world has become exceedingly ruthless and is not populated by monks and sages. Renunciation today is seen as an act contemptibly performed by someone lacking in courage. Competition fuels the aspiration to launch territories and enlarge the area of dominance. Companies, countries and communities have all become wary of the material success of their 'competitors' and in the process compromise with their goals and objectives. Consequently, they resort to shortcuts to emerge triumphant and victorious. The attribute of jealousy arises in an individual when the mind is possessive of certain belonginas

They fail to appreciate it is primarily inadequacy and deficiency in the personality that triggers this kind of capricious and mercurial behaviour. Interestingly, envy in many also arises out of shortages. There can be a lack of aptitude, talent, resources, connections, opportunities or because of unfavourable outcomes. This engenders negative feelings towards perceived competitors, which culminates in jealousy and other negative feelings.Individuals subsumed by jealousy build walls of false security walls around their personalities.

Such minds feel cheery about their possessions. They attach importance to this property, clinging on to it. This could be a physical property, position, power and pelf, pleasure or sex. As per the Mahabharata, Karna was extremely jealous of Arjuna, which eventually proved to be his nemesis. Similarly, Dev Dutt remained extremely envious of his enlightened

cousin, Buddha, which only led to his downfall. The jealous and possessive mind is acquisitive by nature, taking both animate and inanimate objects for granted and getting attached to things, like an addiction to alcohol or marijuana.

Additionally, such a mind is perpetually petrified at the prospect of losing acquisitions. Fear in such minds harbours negative tendencies such as hatred, greed and ruthlessness. For instance, an artiste aspiring to be a lead artiste in a drama plays foul with a more talented actress becoming fearful and gripped with hatred and greed. Her ruthless mind kept conjuring tricks, trying to outsmart the second lead and in the bargain lost the plot. Jealous and envious minds have become laboratories of antagonism that spew hatred. How do we overcome attributes such as jealousy, envy, and possessiveness? At one end of the spectrum are organisations and authorities which need to take up this responsibility. This includes proper parenting, where children are brought up on ideals of inherent goodness, an effective educational system that imparts values as part of their pedagogy, governments that take up the responsibility of providing equal opportunities to the citizens and try to carve out an egalitarian system and a society that addresses the core issues of humaneness amongst its citizenry. Vasudeva Kutumbakam (or what is termed one world family) is the net result. The spiritual touch is an important colour in the rainbow of goodness. One can practice any faith, but we need to be tolerant of other peoples' points of view. Spirituality succeeds where religions draw the fault lines and wave red flags. Globalisation has made the world flat, but has resulted in an exponential increase in crass commercialisation and human minds have fallen prey to antipathetic traits such as jealousy, envy, attachments, entanglements, greed and possessiveness. The vicious tendencies of jealousy and possessiveness can be tackled by following the two-fold approach highlighted so that the chasm between individuals diminishes."Manifest plainness Embrace simplicity Reduce selfishness Have few desires."- Lao Tzu (The writer is the CEO of Chhattisgarh East Railway Ltd. and Chhattisgarh East West Railway Ltd. He is a faculty of the Art of Living; views are personal)

### ave you ever wondered why the world's most significant conflicts haven't often been about land or wealth, but about water-specifically, the narrow, strategic passages that govern the flow of global commerce? What if the true history of power isn't written in the conquest of continents, but in the manipulation of these invisible arteries that sustain entire civilisations? We've been conditioned to believe wars are fought over ideologies, reli-gions, or resources, but in reality, the greatest power struggles have always boiled down to one thing: who controls the waterways. In the Peloponnesian War (431-404 BCE), Athens fought for dominance over the Aegean Sea, while the Punic Wars (264–146 BCE) saw Rome and Carthage clash over Mediterranean trade routes. The Viking Invasions (8th-11th Century) leveraged rivers and coastal routes to expand across Europe. The Hundred Years' War (1337–1453) revolved around control of the English Channel, vital for military and trade

access. The Spanish Armada (1588) attempted to invade England via the Channel, only to fail, marking the rise of English naval power. The glo-Dutch Wars (1652–1674) pitted England against the Dutch for supremacy 1903. THIS WASN'T over global trade routes. The Opium Wars (1839-1860) saw Britain assert control over Chinese trade routes, while the Crimean War (1853-1856) focused on access to the Black Sea and key straits. History teaches us one undeniable truth: whoever controls the waters, controls the world. So, are today's tensions over waterways merely the latest chapter in an ongoing imperialist saga, where the West fights to preserve its dominance, regardless of the cost? Consider the Suez Canal, that artificial marvel that stitched together the Mediterranean and the Red Sea. To the naked eye, it may appear as nothing more than a lifeline for global trade, but dig deeper and you'll find it at the heart of Western exploitation. When the British seized control in 1882, under the convenient pretext of 'protecting their investments,' they didn't just shorten maritime routes; they solidified their chokehold on the world's shipping routes, ensuring that they would remain the dominant force in global com-

attempted to break this grip in 1956, his actions sparked the Suez Crisis, where Britain, France, and Israel launched a military intervention to maintain their control. As US Secretary of State John Foster Dulles famously quipped, "The United States will not tolerate the use of force to interfere with the free flow of commerce." And yet, isn't it glaringly obvious that this was never about commerce at all-it was about the West's attempt to secure its monopoly, at any cost?In the same vein, the Panama Canal stands THE PANAMA as a bold symbol of imperial manip-ulation. The US didn't merely 'build' CANAL EXISTS BECAUSE THE the canal-it stole it. The Panama Canal exists because **UNITED STATES** 

the United States orchestrated the disintegration of Colombian sover-eignty in 1903. This wasn't a ORCHESTRATED moment of engineering brilliance, THE but a calculated exercise in imperi-DISINTEGRATION alism. With the canal, the US secured its unchallenged control OF COLOMBIAN over the Atlantic and Pacific, guar-SOVEREIGNTY IN anteeing military and economic supremacy for the century to come. Even when Panamanian discontent festered, and the CIA's once-trust-A MOMENT OF ed ally Manuel Noriega threatened the established order, the United ENGINEERING States responded with military force BRILLIANCE, under the guise of 'fighting drug car-BUT A tels.' To the naive, it was a noble cause. ILATED To the cynical, it was a ruthless CALCULATED move to preserve a stranglehold over **EXERCISE IN** one of the world's most critical arteries. The canal may have technically been handed back to Panama in IMPERIALISM 1999, but let's not fool ourselvesit remains an essential tool of Western control, albeit one with a new face. Let's not forget the Strait of Hormuz, a sliver of water that handles a quarter of the world's oil. The British recognised its significance early on, securing their dominance over it through protectorate agreements in the 19th century. By the time of the Iran-Iraq War in the 1980s,

merce. When Egypt's Nasser Hormuz had become the beating heart of the global oil trade, and any attempt to disrupt its flow was met with swift intervention.

Both sides sought to shut it down, understanding that control over Hormuz meant control over global energy. Yet, even today, with Iran flexing its military muscles, Western powers continue to police this waterway as though it were their birthright, ensuring that the oil flows uninterrupted, no matter the cost of human lives. Now, as the world shifts into a new era, the Northern Sea Route (NSR) is emerging as the

latest theatre of power. Stretching along Russia's Arctic coastline, this passageway promises to bypass traditional chokepoints like the Suez and Panama Canal, opening up a new frontier for global shipping. With the ice caps melting, climate change has inadvertently opened a new battlefield for dominance. The West, for all its talk of climate change solutions, is deeply uneasy about the NSR. For centuries, the Western maritime powers have been used to dictating global trade, yet now they face the challenge of a new route that cir-cumvents their long-held control.And then there are the Turkish Straits—where the promise of control has always been laced with deception. In World War I, the Entente powers offered Russia control over the straits in exchange for military support, only to revoke that promise after the Bolshevik Revolution. Since the Montreux Convention of 1936, Turkey has held sway over the straits, but with conditions that serve the interests of the West. These waters remain a hotbed of tension, especially now, as the Russia-NATO conflict forces us to re-evaluate the importance of these narrow waterways

line for Asia's maritime trade, and the silent battlefield of geopolitical manoeuvring. In the 16th century, the Portuguese recognised its importance as the gateway between the Indian Ocean and the Pacific, and later, the Dutch would follow. During World War II, Japan's occupation of Malaya underscored the strait's value, as it was the critical supply line for its imperial ambitions

Today, China's dominance of the strait has triggered an uneasy response from the United States, which seeks to counter China's growing influence in the Indo-Pacific region. The Malacca Strait is as vital as it is contested, and its importance will only increase as the world edges closer to a new era of Cold War. Donald Trump's reemergence as a political force serves as a blunt reminder that these conflicts are far from distant.

His comments on Greenland-a land abundant in resources and strategic significance-and on seizing Panama if needed, are not just idle musings. The United States thirst for the Arctic has always been driven by the same imperial instincts that have defined its foreign policy for over a century. His fixation on the Panama Canal reveals the same ambitions, albeit with more brash rhetoric. While many dismiss his comments as the reckless utterances of a man out of touch with the world's realities, those who know history understand that this is how empires operate: through calculated moves disguised as political theatrics. The bottom line is this: the manipulation of waterways remains an open secret, and the struggle for control is as intense as everwhether by the West or any power with imperialistic and hegemonic ambitions.

**ILANGAMUWA** 

Beyond the rhetoric of ideologies and resources, history reveals a stark reality: whoever commands the strategic arteries of global trade rules, the world

Yet, in all of these conflicts, one fact is clear: Western powers have never relinquished their thirst for control. Look at the Malacca Strait, the life-

Dalal Street ends 2024 on a bearish note: Rs 9.65 trillion investor wealth eroded

A focus on earnings growth and moderation in valuations will be critical for sustaining long-term market performance in 2025

cheer was evident as Dalal Street continued crashing in the last week of December leading to 2025, in the process eroding investors' wealth to the tune of Rs 9.65 trillion as Sensex tanked by 2,915 points. The bear run at a time when the market was already grappling with thin year-end volumes was made worse by a weakening rupee as it slid towards the 86-perdollar mark. This further dampened the appeal of Indian equities for foreign institutional investors (FIIs) leading to robust FII outflows. The prevalence of this phenomenon was worldwide with Japan's Nikkei 225, China's Shanghai Composite, Australia's ASX 200, Germany's DAX, France's

■ he absence of new year CAC 40 and NASDAQ Composite showing similar bearish sentiments. The cur-rent stock market meltdown is influenced by several factors

> markets are witnessing this trend particularly due to profit-taking, and tax-loss harvesting focussing on year-end tax strategies, giving a miss to the traditional 'Santa Claus rally'. Institutional and retail investors alike booked profits and rebalanced their portfolios, particularly in large-cap stocks which posted strong growth in 2024, leading to selling pressure across the board and a broad-based correction. As economic interlinkages of

Not only in India, but global

India with the world have deepened, so has the integra IT and manufacturing sectors year.

HIMA BINDU KOTA

tion with global stock markets. The uncertain global economic conditions, particularly in countries like the United States, coupled with fears of a global recession fuelled by weak manufacturing data from China, have dampened investor sentiment both worldwide and in India. A decline in the demand for Indian exports, mainly in the

further led to the market's downward spiral. Geopolitical tensions including regional wars, ambiguous crude oil prices and subsequent disruptions in supply chains have impacted the markets and sector-specific tragedies like the Jeju Air crash in South Korea contributed to the overall bearish sentiment. Weaker than expected third

quarterly results, particularly in the banking and consumer goods sector, dampened the confidence displayed by the markets due to the resilient first two quarters showed by the Indian economy. This reduced the conviction further as the banking and consumer goods sectors were considered growth engines since the beginning of the

Stock market valuations in India and around the globe were elevated in 2024.

In India, the higher valuations were fuelled by strong domestic economic growth and robust corporate earnings, leading to sustained investor confidence.

Several companies ranging across industries were trading at premium P/E ratios, like Infosys (28-30x); HUL (55x);

Zomato (10-12x) to name a few. However, since the question of sustaining the overvalued stocks in the backdrop of weak quarterly earnings is difficult, it led to the year-end market corrections that we are experiencing at the end of December 2024.

Although the aggressive monetary policy by the Reserve Bank of India was able to combat inflation during the year, high interest rates negatively affected the borrowing costs of businesses and retail investors.

This led to increased interest in investments in fixedincome securities instead of finding equity markets attractive. Foreign Institutional Investors (FIIs) who were attracted to the Indian growth

integral part also turned into net sellers in December 2024. A risk-averse stance and a strong USD value made emerging nations like India less attractive during the yearend, leading to capital out-flows, which in turn led to a weakening rupee again. Overall, the bearish stock market sentiment in December 2024 was a combination of year-end profit-taking strategies, global economic outlook, high stock valuation concerns, weak sectoral performance and outlook and several international events. However, all is not bleak. These fluctuations are a part of the larger economic cycle and the markets will see an upward cycle with a longterm focus on the funda-Bajaj Finance (40x); and story and wanted to be its mentals and relevant steps at

the policy level. The resilient Indian economy and its economic growth will be the key driver for renewed opportunities for growth and investment in 2025.

This economic growth will be supported by increased investments in infrastructure, boosting the manufacturing environment to improve the industrial output, a burgeoning middle class and a revival of the rural economy may increase the demand for automobiles, FMCG and consumer durables in 2025. In addition, India's rapidly growing digital economy will continue to support new-age companies and sectors.

## New Orleans inches | 30 killed by Israeli strikes in Gaza

### AP NEW ORLEANS

mix of law enforcement, Astreet performers and football fans has filled New Orleans' blocks as the city inches back to normalcy while mourning vic-tims of the deadly New Year's rampage in which an Army veteran ploughed a truck into revellers.

toward normalcy

The attack along Bourbon Street killed 14 people, along with the driver, Shamsud-Din Jabbar, who officials said was inspired by the Islamic State militant group. Jabbar was fatally shot in a firefight with police after steering his speeding truck around a barricade and ploughing into the crowd. About 30 people were injured.

Authorities finished processing the scene Thursday morning, removing the last of the bodies. Bourbon Street — famous world wide for music, open-air drink-

AP DEIR AL-BALAH

t least 30 people, including Achildren, were killed in Gaza by Israeli strikes overnight and into Friday morning, said hospital staff, as air sirens sounded across Israel and stalled ceasefire talks were set to resume.

Staff at the Al Aqsa Martyrs hospital said more than a dozen women and children were killed in strikes that hit various places in Central Gaza, including Nuseirat, Zawaida, Maghazi and Deir al Balah. Dozens of people were also killed across the enclave the previous day, bringing the total of people killed in the past 24 hours to 56. Strikes Thursday hit Hamas security officers and an Israelideclared humanitarian zone. The Israeli army did not imme-

diately comment on the latest strikes, but says it only targets militants and blames Hamas

for civilian deaths.

Israelis also woke up to attacks early Friday morning. Israel said missiles were fired into the country from Yemen, which set off air raid sirens in Jerusalem and central Israel and sent people scrambling to shelters. There were no immediate reports of injuries or damage, though a faint explosion, likely either from the missile or from interceptors, could be heard in Jerusalem. Israel's army said a missile was intercepted.

As the attacks were underway, efforts at ceasefire negotiations were expected to resume Friday.

Prime Minister Israeli Benjamin Netanyahu's office said he had authorized a delegation from the Mossad intelligence agency, the Shin Bet internal security agency and the military to continue negotiations in Qatar.

### The delegation is leaving for Qatar on Friday. The US-led talks have repeat-

edly stalled during 15 months of war, which was sparked by Hamas-led militants' Oct. 7, 2023 attack into Israel. The militants killed some 1,200 people, mostly civilians, and abducted around 250.

inside Gaza, at least a third believed to be dead. Israel's offensive in retaliation

has killed over 45,500 batants in its tally.

Israel's military says it only tardense residential areas.

Around 100 hostages are still

Palestinians in Gaza, according to the territory's Health Ministry, which says women and children make up more than half the dead. The ministry does not distinguish between civilians and com-

gets militants and blames Hamas for civilian deaths because its fighters operate in

# India all out for 185 on day one of fifth Test against Australia

### PTI SYDNEY

**R** ohit Sharma "opted to rest" in the team's interest but the Resame old script unfolded on a new day for Indian batters as they surrendered meekly for a paltry 185 in the face of some hostile seam bowling from Australia on the opening day of the fifth and final Test here.

Virat Kohli (17 off 69 balls), whose form and technical weaknesses are also under the scanner, was for the seventh time dismissed in the corridor of uncertainty in the tour, a problem that seems incurable at the moment.

At stumps, Australia were 9 for 1 with stand-in skipper Jasprit Bumrah sending the woefully out-of-form Usman Khawaja (2) back in the hut.

Teenage sensation Sam Konstas was unbeaten at 7 after hitting Bumrah for a first-ball four. The 19-year-old also had an animated exchange with the Indian star

Bumrah opted to bat under overcast conditions and the ultra-defensive

approach by Indian batters only compounded their problems with Boland's (20 - 8 - 31 - 4)Scott immaculate length and tremendous

discipline leaving them in a disarray Mitchell Starc (18-5-49-3) and Pat Cummins (15.2-4-37-2) were equally relentless giving the Indians

no room for release shots. Rishabh Pant top-scored for the visitors with a 98-ball 40, going against his grain to battle it out, taking painful blows to his body in the process.

If Rohit's decision to "rest" was a forward thinking move, the persistence with Kohli is proving to be detrimental and the celebrated batter might just have one more Test innings left to save his place in the traditional format.

I wouldn't say it's a par score but still a competitive score," said Pant, admitting that the pitch is not easy to bat on.

If one takes away the second innings hundred at Perth out of his last 20 Test innings, Kohli has managed an average of 17.57

He could have been out off Boland's first delivery but tried to battle hard. However, it has always been that one moment in which his hands and the willow magnetically follow a delivery in the corridor of

uncertainty. Pant curbs natural instincts for a

session Having copped criticism from all quarters for his bizarre shot selection in Melbourne, Pant, for a change, copped body blows, trying to curb his natural game.

The big-hitter in him came out only on a couple of occasions with one of them fetching him a straight six off Beau Webster

Pant put his head down and endured nasty blows on his bicep, helmet and twice in the sensitive abdominal area. He and the dogged Ravindra Jadeja (26 off 95 balls) defended dourly as they added 48 off 151 deliveries for the fifth wicket.

Only 50 runs were scored in the second session and trying not to be adventurous proved counter-productive with most batters

website.

retreating in a shell letting Boland and company dictate the terms of play. Finally, Pant's patience ran out and one pull shot too many became his undoing.

India realised they haven't scored enough runs and lost a lot of wickets. The defensive tactic in the second session when the ball got old ended up costing them dearly.

There wasn't much swing on offer despite cloudy conditions but a decent grass cover ensured that Boland's back-of-length deliveries proved enough.

As far as Pant was concerned, the "honest conversations" with head coach Gautam Gambhir seemed to have worked with the southpaw respecting the game situation for most part.

If Pant was disciplined, Shubman Gill's judgement on the last delivery before lunch did cause trouble for India.

Dated: 28.11.2024

REGISTRAR

Gill (20 off 64 balls) did all the hard work for close to couple of hours before stepping out to Nathan Lyon on the last ball of the session only to be caught at first slip.

### We've probably seen Rohit Sharma for last time in Test cricket: Gavaskar, Shastri

### PTI SYDNEY

Former India cricketers Sunil Gavaskar and Ravi Shastri feel that the Boxing Day Test might have been Rohit Sharma's final appearance in Test cricket, following his bold call to rest himself for the series finale

that began here on Friday. The 37-year-old chose to sit out with the series on the line, having scored only 31 runs in five innings across three Tests. "I think it probably means that (if) India don't qualify for the WTC final, the Melbourne Test will be Rohit Sharma's last game," Gavaskar said during

the lunch break on day one. The WTC cycle will start with the England series, and the selectors would likely want someone available for the 2027 final. Whether India gets there or not is another matter, but that's is what the selection

ustralian batting great Ricky A<sup>ustralian</sup> batting great Kicky "surprised" by the Indian camp's wording around Rohit Sharma's absence from the fifth and final Test of the Border-Gavaskar Trophy but admitted that the move was on expected lines.

The match started here on Friday with the visitors eyeing a win to level the series and retain the trophy.

However, Jasprit Bumrah, who walked out for the toss, said Rohit has "opted to rest" from the Sydney Test.

"I think the reaction has been that they all sort of expected that it might happen," Ponting told The ICC Review. "The chat's been for the last couple of days that everyone expected that Rohit would not play this game, that Shubman Gill would come back in and that (Jasprit) Bumrah would probably take over the captaincy again and that's the way it's turned out."

Given the circumstances, Ponting was totally in agreement with the woefully out-of-form Rohit skipping the decider at SCG but the former Australia captain was surprised by the wording of the to opt out."

news that came from the India camp "I was very surprised when I heard the term 'opting out' coming into such an important game," Ponting said.

"We know he's been a great stalwart for Indian cricket over a long period of time. So the way that they've actually worded it, you can only take it on face value.

"We've got to believe what we're hearing coming out of the Indian camp, but being such a big game, knowing that they have to win this one to retain the trophy, it was an interesting time for one of their more experienced players

The 37-year-old white-ball great looked like a pale shadow of himself in the ongoing series Down Under, struggling to execute even his bread and butter shots including the trademark front foot pull.

During the customary pre-match warm-up session, Rohit was seen playing football with Virat Kohli, Rishabh Pant and Sarfaraz Khan, who along with Abhimanyu Easwaran will end the series without getting an international game.

Ponting did not say it in as many words but he very well understands that it could be the end of road for Rohit in the game's traditional format.

"You'd think it's probably a long way back for Rohit Sharma now in this format of the game," Ponting said.

'India don't play a Test match, I believe, until the middle or late June, which is a long way away when you're sort of coming to the back end of your career. 'I think he's been a terrific player for India so with those sort of guys, you wish them all the best and hope to see them back out there again, but as I said, I think it will be a long - and probably difficult road - back for him?

t every turn, the museum tells a story - one not just of artifacts, but of ideas that have lasted through time. This thought constantly comes to my mind as I walk through the calm halls of the Abhay Prabhavana Museum in Pune. As I move through the calm, serene halls, it's as if the museum itself transports me into the heart of India's spiritual history, inviting me to reflect on values that have stood the test of time. Located near the peaceful Indrayani River, the museum is not just a collection of objects, but a deep journey into Indian values, brought to life through Jain philosophy.

The Abhay Prabhavana Museum, hailed as one of the largest "Museums of Ideas," offers a unique experience. With its perfect blend of ancient wisdom and modern technology, it brings the teachings of Jainism to life. The museum stands as a tribute to the timeless values of compassion, non-violence and tolerance, which form the core of Jainism. Spearheaded by Mr. Abhay Firodia and the Amar Prerana Trust, the museum captures the essence of these principles, making them accessible to everyone.

As I journey from Pune to the museum, the road winds through hills and the city fades away. It feels like entering another world, one where nature, history and spirituality come together. The moment I set eyes on the museum, I am drawn to its striking modern architecture, set against the backdrop of tranquil nature. It's a visual representation of the museum's core: a living tribute to India's spiritual and cultural roots.

Covering 3.5 lakh square feet, the museum is divided into 30 galleries, each offering a deep dive into different aspects of Jain philosophy and culture. The exhibits go beyond showcasing objects; they tell immersive stories using modern technology. Audio-visuals, interactive kiosks and even virtual reality are used to engage visitors in a multi-sensory experience, making it feel like I am experiencing the teachings of Jainism firsthand.

One of the most wonder-inspiring features is the towering 60-feet statue of Rishabhdev, the first Tirthankar. Standing in a meditative pose, the statue symbolises the foundation of Indian civilisation. Murals at its base explore the contributions Rishabhdev made to Indian society, such as introducing agriculture, trade and professional skills. The statue is not just an artistic marvel but also a visual journey that connects the ancient wisdom of Jainism to the modern world. As I explore the galleries, the museum's message becomes clearer: Jainism's core principles - Ahimsa (non-violence), Aparigrah (non-possessiveness) and Anekantvad (acceptance of multiple perspectives) hold immense relevance today. These values have the potential to

address contemporary issues like environmental sustainability and social harmony. Walking through the exhibits, I find myself reflecting on how these teachings can guide us in our daily lives, encouraging me to adopt a mindset rooted in compassion, non-violence and understanding.

A visit to the Abhay Prabhavana Museum is incomplete without experiencing its

serene outdoor spaces. The museum offers a tranquil nature walk along the Indrayani River, spanning 8 hectares of beautifully landscaped grounds. As I walk, I'm surrounded by monumental modern sculptures and replicas of Jain monuments that blend seamlessly with nature. This open-air heritage walk is a perfect example of how the museum connects Jain philosophy with the natural

Chaturmukh Temple. The calm and spiritual atmosphere of this space encourages introspection and peace. In the tranquil Garden of the Revered, miniature trees dedicated to the 24 Tirthankars create a serene and contemplative environment. This peaceful setting adds another layer to the museum's ability to connect visitors with the timeless values of Jainism.

vivacity 11

The Abhay Prabhavana Museum is a place for everyone, not just those with an interest in Jain philosophy. It's a destination for anyone looking to understand the spiritual and cultural roots of India. The museum offers a rare chance to connect with the wisdom that has shaped Indian society for centuries, reminding us of the values of compassion, non-violence, and tolerance. The museum is a tribute to their dedication to preserving Jain teachings. After over ten years of research and collaboration, the museum has become a unique cultural landmark, continuing to inspire visitors with its powerful message.

Walking through the museum takes time and to fully understand its meaning, you need to immerse yourself in every path. The more time you spend here, the more you realise how much thought and care have gone into every detail. The lessons I've learned are more than just intellectual; they are deeply personal. As I leave, I feel a sense of peace that stays long after I've walked through the museum's doors. 'सुरदास जी के भक्ति में जो रंग है, वही रंग जीवन में बस जाता है। (Just like the devotion in Surdas Ji's poetry, it fills our lives with love and meaning)

n the soft glow of the spotlight, where music casts its magic and dance flows with the rhythm of devotion, the Sant Shiromani Surdas Mahotsav unfolded as a rare gem, shimmering with the glow of India's classical arts and spiritual heritage. It was an invitation to step into a world where time slows and the sacred words of Sant Surdas meet the expressions of dance and music.

The Geetanjali International Foundation proudly presented the 5th edition of the Sant Shiromani Surdas Mahotsav. This grand celebration paid tribute to the 16th-century Bhakti poet Sant Surdas, alloying Indian classical dance and music to showcase the spiritual and artistic heritage of the revered saint. As the opening notes of the tabla reverberated through the C.D. Deshmukh Auditorium, it was clear that the evening was destined to be something extraordinary. There's something deeply moving about watching dancers embody poetry, not just through their steps, but in their very being. This was evident from the moment Diksha Rawat and Karthika Unnikrishnan, disciples of the esteemed Vidushi Uma Dogra, took the stage. Kathak, often described as a dance of storytelling, was brought to life in the most vibrant and energetic

manner. With each swirl, each beat of the ghungroo, they seemed to move beyond just physical steps, offering a glimpse into the soul of Surdas's poetry, which itself was steeped in devotion and longing. And then came Rani Khanam, whose Kathak solo performance was nothing short of enchanting. The bhajan she performed, "सुंदर बदन सुख सदन श्याम को," translated into a visual display of grace, passion and beauty. One could almost see the words of Surdas materialise as her feet danced in rhythm, each step echoing the love and longing of a devotee gazing at Krishna. What struck the audience the most was the emotional charge she brought to her performance. It was as though she wasn't simply dancing, she was telling a story that resonated deeply with everyone present.

Equally captivating was Rama Vaidyanathan's Bharatanatyam performance. There's something inherently powerful about the way Bharatanatyam

communicates emotion. In her portrayal of the Nayika's yearning for Lord Vishnu, Vaidyanathan's expressions were a masterclass in silent storytelling. Her eyes, her hands, every angle of her body spoke volumes, capturing the delicate interplay of longing and love in a way that words could scarcely do justice. True dance is never just about physical movement, it's about the silent dialogue between the dancer and the audience, a dialogue that connects deeply and unspoken.

But what truly made the evening unforgettable was the duet between Rani Khanam and Rama Vaidyanathan. As they danced together, interpreting a playful poem by Sant Surdas, it was as if the very essence of Krishna's mischievous nature danced through them. Watching these two talented artists, each representing a different classical tradition, merge their energies was a moment of pure magic. The chemistry between them was visible and the playful interaction between Krishna and his devotees came to life through their expressions, perfectly capturing Surdas's wit and deep devotion. The performance left the audience reminded once again of the power of classical arts to evoke deep emotions and connect people to something greater than themselves. The Sant Shiromani Surdas Mahotsav was a celebration of a poet's legacy, of India's soul and its arts, an experience that connected everyone in attendance to something much larger than themselves.

*Tisions Unveiled*, an exhibition at the Open Palm Court, India Habitat Centre, is a vivid reminder of this power. From the moment you step inside, the space transforms into a sanctuary of colours, textures, and emotions, inviting visitors to pause and truly feel. Organised by Happy Strokes and curated by Dr Mandakini Devi, the exhibition presents 30 pieces that are as diverse in medium as they are in message. The works, ranging from the vivid energy of Flame of Himalaya to the intricate lines of Focus Series, are not just to be seen, they are to be experienced. Each artwork is an intimate exploration of identity, resilience, and emotional growth, speaking volumes about the deeply personal journeys of the artists. Highlights include the delicate Blooming Innocence, which captures the essence of youthful wonder and Joy in Her Arms, a tender portrayal of maternal love. The bold strokes of Grace in Motion convey the elegance of movement, while the subtle details in The Portrait of an Elderly Man evoke a quiet dignity. Pieces like Gulabo, with its vibrant palette and Beauty Within Series, rendered in acrylic, further showcase the versatility of artistic expression. Each work invites viewers into a different narrative, offering a fresh perspective with every glance. What makes this exhibition stand out is its

human touch. It doesn't aim to overwhelm with grandeur but instead creates an inviting atmosphere for quiet reflection. The curation reflects a keen understanding of art's ability to connect with its audience on an emotional level. Pieces like Dehleez and The Blue Ivy capture life's fleeting, fragile moments with raw honesty, making them especially striking.Interactive sessions, including art talks and workshops, add another layer to the experience. These events break down the often-intimidating barriers of the art world, encouraging visitors to engage directly with the themes on display. It's a refreshing approach, one that turns spectators into participants and deepens their connection to the art.

This exhibition isn't about showcasing perfection but about embracing the imperfect beauty of human experience. It's a poignant reminder that art is more than meaningful truths. just decoration, it's a bridge to understanding and introspection. Every

brushstroke, every line and every shadow carries the weight of stories untold and emotions unspoken. Visions Unveiled doesn't just leave an impression, it leaves you thinking about how art mirrors life in all its complexity. It's a show that resonates long after you've left the gallery, reminding us why creativity matters in an increasingly chaotic world. Through its thoughtfully curated works and sincere execution, it becomes a celebration of art as a reflection of humanity's most

# **EV** firms agree to end subsidy after existing subsidy regime ends: Goyal

### PTI 📕 NEW DELHI

ommerce and Industry Minister Piyush Goyal on Friday said the ric vehicle (EV) electric companies present in the meeting have unanimously agreed that they would no longer need subsidies once the existing subsidy regime ends

Stakeholders from the EV sector held deliberations with the minister here on issues pertaining to development of battery charging and swapping infrastructure.

The minister also said that companies are free to choose their own business models. Whether they prefer to

collaborate and share for battery resources swapping or sell vehicles with their own batteries, the decision is entirely up to them, he said.

"Everybody was unanimous in the room that once the existing subsidy regime comes to an end, none of them requires the subsidy to grow further...Each sector has one or the other model which makes it self-sustaining and does not call for further Goval subsidies? told reporters when asked about

the views of companies on subsidies

In a bid to woo global EV makers into the country, in March last year the government rolled out an electric vehicle policy, under which duty concessions were offered to companies setting up manufacturing units in the country with a minimum investment of USD 500 million.

The government has plans to install 10,763 public charging stations across the country under the FAME-II scheme. Under FAME-India Scheme phase-II, incentives are provided to buyers of electric vehicles in the form of an upfront reduction in the purchase price of electric vehicles.

There is another scheme - PM E-DRIVE - to support electric mobility through support for 14,028 e-buses, 2,05,392 electric three-wheelers (L5), 1,10,596 e-rickshaws and e-carts and 24,79,120 electric two-wheelers. EPFO rolls out centralised pension system in all regional offices

### PTI 📕 NEW DELHI

Retirement fund body EPFO has completed the Centralized Pension Payments System (CPPS) rollout in all its regional offices across the country that will benefit over

68 lakh pensioners, the labour ministry said on Friday. The CPPS is a paradigm shift from the existing pension disbursement system that is decentralised, decentralised, with each zonal/regional office of EPFO maintaining separate agreements with only 3-4 banks, the ministry explained

in a statement. Under CPPS, a beneficiary will be able to withdraw pension from any bank and there will be no need for to visit the bank for verification at the time of commencement of pension, and the amount will be immediately credited upon release, it stated.

The CPPS system January 2025 onwards will also ensure disbursement of pension throughout India without any need for transfer of pension payment orders (PPO) from one office to another even when the pensioner moves

from one location to another or changes his bank or branch, it said This will be a great relief to

pensioners who move to their hometown after retirement. The first pilot of CPPS was

completed in October last year in Karnal, Jammu, and Srinagar regional offices with the pension disbursement of about Rs 11 crore to more than 49,000 EPS pensioners, a ministry statement said.

### Zepto sets up new entity to shift to marketplace model

PTI NEW DELHI

Quick commerce company Zepto has set up a new entity Zepto Marketplace to rejig its operations from a B2B model to a marketplace model, according to people in the know.

Marketplace was Zepto registered in October 2024, and the company's operations will soon switch to the new model once the operational and regulatory nitty-gritty are sorted out, sources said.

A mail query sent to the company did not elicit any response

The shift, according to sources, will enable Zepto to have a greater hold on quality control and service. Zepto is also set to soon

"Thor"-a SaaS launch inventory management platform to further streamline operations, they added.

The development comes as Zepto prepares for a public listing within this year. Zepto's peers like Blinkit and Swiggy Instamart already follow a marketplace model.

Under the current structure, Zepto licenses its brand name and operations to three Geddit companies: Drogheria Convenience, Sellers and Commodum These three Groceries. companies purchase their stock from Kiranakart Technologies Pvt Ltd and sell it to end consumers via the Zepto platform. Kiranakart In

essence, Technologies is a B2B company that sources and buys products directly from brands and sells them to Geddit Convenience, Drogheria Sellers and Commodum Groceries, Zepto's three licensee companies.
