12 runover by train in Jalgaon

PIONEER NEWS SERVICE ■ JALGAON (MAHARASHTRA)

At least 12 passengers were killed on Wednesday evening when they jumped from their train in panic due to a 'fire incident', only to be run over by another train on the adjacent tracks in North Maharashtra's Jalgaon district, officials said. Twelve bodies were sent to the nearby civil hospital while six to seven persons were injured, special Inspector General of Police Dattatraya Karale said. The accident took place between Maheji and Pardhade stations near Pachora, more than 400 km from Mumbai, where the 12533 Lucknow-Mumbai Pushpak Express had halted after someone pulled the chain around 5 pm, Central Railway officials said, without confirming the death toll. Some passengers of the Pushpak Express jumped off, and were hit by the oncoming Karnataka Express heading from Bengaluru to Delhi, said Central Railway's chief spokesperson Swapnil Nila. IG Karale said that a "fire incident" occurred on Pushpak Express, at km 372/07 between Maheji and Pardhade stations. The train stopped at the location, and some passengers disembarked. Train No. 12627, Bengaluru-New Delhi Karnataka Express hit people standing on the railway tracks, he added. "Six to seven people have been injured. All injured passengers are being treated at the hospital, none of their injuries are serious. Both trains have reached their respective next stations and the accident site has been cleared," the senior police official added. Pushpak Express departed from the spot in just 15 minutes, while the Karnataka Express was removed within 20 minutes after the accident.

People gather at the site following the death of several passengers after they stepped down due to a rumour of fire and were run over by another train passing on the adjacent tracks, in North Maharashtra's Jalgaon district PTI

14 killed in Karnataka road mishaps

PNS ■ YELLAPURA/RAICHUR (KARNATAKA)

As many as 14 people were killed and 24 sustained injuries in two separate road accidents occurred in Uttara Kannada and Raichur districts on Wednesday. In the Yellapura incident, a truck carrying 29 fruit sellers fell into a 50-metre-deep valley in the wee hours of Wednesday, police said.

The victims from Savanur in Haveri district, were heading towards the Yellapura fair to sell fruits. The accident occurred in a forested section, the Uttara Kannada Superintendent of Police M Narayana said. He added that there was no protection wall in the road there. "Eight persons were killed on the spot and two got critical injuries. The injured have been shifted to the KIMS Hospital in Hubballi," the officer said. Two critically wounded persons too died, failing to respond to treatment, sources said.

Prime Minister Narendra Modi, Union Home Minister Amit Shah and Karnataka Chief Minister Siddaramaiah condoled the tragic incident. "An ex-gratia of Rs 2 lakh from PMNRF would be given to the next of kin of each deceased. The injured would be given Rs 50,000," the Prime Minister Office said in a social media post. In the Raichur incident, at least four persons including three students were killed and nine others injured when the vehicle they were travelling in overturned due to a tyre burst on Wednesday morning, police said.

The victims from Savanur in Haveri district, were heading towards the Yellapura fair to sell fruits. The accident occurred in a forested section, the Uttara Kannada Superintendent of Police M Narayana said. He added that there was no protection wall in the road there. "Eight persons were killed on the spot and two got critical injuries. The injured have been shifted to the KIMS Hospital in Hubballi," the officer said. Two critically wounded persons too died, failing to respond to treatment, sources said.

BJP-AAP WOO MIDDLE CLASS

Modi targets AAP

SAUMYA SHUKLA ■ NEW DELHI

Turning the heat up ahead of the Delhi Assembly elections, Prime Minister Narendra Modi on Wednesday slammed the ruling Aam Aadmi Party (AAP) for failing to provide basic needs such as water to the people of the national Capital while taking a jibe at the party on the money laundering linked excise policy scam, stating that 'liquor is available but water is not'. Prime Minister made these remarks during his interaction with the booth level workers in the 'Mera booth, sabse mazboot' programme while urging the members of the Bharatiya Janata Party (BJP) in the Capital to target winning over 50 per cent booths in the Assembly polls. Assuring a landslide victory in the Assembly polls, he asked booth workers to set two goals- breaking all voting records and ensure that the BJP gets more than 50 per cent at each booth. He said that the AAP is making new announcements daily because they are getting the new news of defeat every day. "These AAP-da people are now making a new announcement every day. This means that they are getting new news of defeat every day.

They are so scared that they have to make a new announcement every morning but now the people of Delhi have understood their game," he said.

"These days these AAP people are raising slogans that 'fir aayege, fir aayege (we will come again)'. But the public is replying to them that 'ye fir khayege, fir khayege (they will eat again, they will eat again)," Modi said, attacking the AAP on corruption charges. Claiming that there is a lot of anger against the AAP government in public, Modi asserted that the common man is saying that 'We will remove AAP and bring BJP to power'. He also said that the AAP leaders have turned away from their ideology. "This party was formed in the name of Jan Lokpal. But today it is neither in Delhi nor in Punjab nor do they speak in its name. They make excuses in Delhi, but they have a government in Punjab and they are not doing it there either," he said. "BJP kept Ram Mandir, Article 370, UCC at the core of its ideology and worked on them with complete honesty. There is only one focal point of our ideology - Nation First," he added.

He also slammed both the AAP and Congress for not fulfilling their promises to the women. "Lakhs of sisters of Himachal are still waiting for the fulfillment of Congress' promise. First the sisters of Haryana and then those of Maharashtra too were misled by Congress by making false announcements," the PM said. Stating that the AAP is two steps ahead of the Congress, he said, "AAP-da had promised to give Rs 1,000 every month to the sisters of Punjab. It's been three years but they haven't given a single penny yet. In Delhi too, it was announced a long time ago that Rs 1,000 will be given to every woman; that money has not been received yet. But now they are announcing an increase in it. This is the first such AAP-da model in the world, which only makes announcements in the air, lies, and deceives."

AAP national convener Arvind Kejriwal speaks during launch of manifesto for middle class ahead of the upcoming Delhi Assembly elections PTI

Kejriwal bats for salary class

RAJESH KUMAR ■ NEW DELHI

Terming the middle class a victim of tax terrorism and has been reduced to the government's ATM, Aam Aadmi Party (AAP) national convener Arvind Kejriwal on Wednesday unveiled his party's manifesto for the upcoming Delhi elections and Union Budget-2025, listing seven Budget demands from the Centre that AAP MPs will raise in Parliament for the interests of the middle class. Kejriwal accused other political parties of treating the middle class as "just an ATM for the government" saying the middle class is the real superpower of the Indian economy but has long been ignored and exploited solely for tax collection. The party's key demands from the Centre include increasing the education budget from 2% to 10%, providing scholarships for higher studies, enhancing the health budget, removing essential

KEJRIWAL'S SEVEN DEMANDS:

- ❑ Regulations on private school fees nationwide
- ❑ Subsidies and scholarships in higher education
- ❑ Raise health budget to 10 percent; tax free health insurance.
- ❑ Increase IT exemption limit to Rs 10 lakhs.
- ❑ Abolish GST on essential commodities.
- ❑ Robust retirement plans and pensions
- ❑ Reinstate the % concession for senior citizens in railway

commodities, introducing a pension scheme for senior citizens, and offering a 50% concession on railway tickets for senior citizens. This is the first time that a political party in Delhi has tried to address issues of middle class. Delhi's middle class, which comprises a significant 45 percent of its population and could provide to be a key deciding factor in the upcoming polls. The poor account for 35 per cent, the middle class 45 per cent, and the upper class around 20 per cent of Delhi's population.

Saif Ali's family properties marked as enemy property

PIONEER NEWS SERVICE ■ BHOPAL

In a setback to actor Saif Ali Khan, recuperating from attack, Madhya Pradesh High Court has asked him to approach the appellate authority against an order of the Central Government that declared historical properties of the Pataudi family in Bhopal, estimated to be worth Rs 15,000 crore, as "enemy property".

Tahir Hussain denied bail for Delhi Assembly poll campaign

PIONEER NEWS SERVICE ■ NEW DELHI

Former Councillor and February 2020 riots accused Tahir Hussain on Wednesday failed to secure an interim bail to campaign for Delhi assembly polls after a Supreme Court bench gave a split verdict. While Justice Pankaj Mithal dismissed Hussain's plea saying no case was made out, Justice Ahsanuddin Amanullah opined he could be released on interim bail. The matter would be placed before Chief Justice Sanjiv Khanna for the constitution of a new bigger bench to decide the issue. Observing the right to contest elections was not a fundamental right, Justice Mithal said allowing interim bail could open a Pandora's box as every undertrial would invoke the same ground. "In the event interim bails are to be allowed for purposes of contesting elections, it will open a Pandora's box. Since elections are all year round, every undertrial would come with the plea that he wants to participate in elections and

therefore be granted interim bail. This would open floodgates, which in our opinion can't be permitted," he said. The judge added, "Once such right is recognised, as a sequel, the petitioner would ask for right to vote, which is circumscribed by Section 62 of the Representation of Peoples Act." Releasing such a person on interim bail would amount to permitting the accused to go for door-to-door canvassing and hold meetings in the

locality where the crime took place and witnesses reside, he said. "Hence, there is a high possibility of the accused meeting the witnesses. The chargesheet reveals serious allegations against the accused and that the rooftop of his house/office was used as the "epicentre" for the offences," said Justice Mithal. He said it was worth mentioning that canvassing for 10-15 days would not suffice the purpose in as much as a constituency has to be nurtured for years, for contesting. "If petitioner had not nurtured it for the past few years sitting in jail, there is no reason why he should be released," he said. While acknowledging the allegations against Hussain were grave and serious, Justice Amanullah said they were only allegations at the present moment. He said the petitioner was in custody since March, 2020, and had secured bail in most cases and the Delhi High Court allowed him to file nomination.

Five sentenced to death for gangrape-murder of minor

PTI ■ KORBA

A court in Chhattisgarh has sentenced five men to death for the gangrape-murder of a 16-year-old girl and the killing of her two family members in 2021, holding that the crime has shocked the collective conscience of society. The Fast Track Special Court in Korba district sentenced to death Santram Manjhwra (49), Abdul Jabbar (34), Anil Kumar Sarthi (24), Pardeshi Ram (39) and Anand Ram Panika (29) and handed a life sentence to the six accused, Umashanakar Yadav (26). While delivering the judgement on January 15, Additional Sessions Judge Mamta Bhojwani held that this inhuman and cruel act of the accused is extremely perverted, heinous, brutal and cowardly, said special public prosecutor Sunil Kumar Mishra on Wednesday. A copy of the order was made available on Monday. Those given the death penalty were convicted under sections 302 (murder), 376 (2)G (gangrape) and other sections of the Indian Penal Code (IPC) and provisions of the Scheduled Caste and Scheduled Tribe (Prevention

of Atrocities) Act and Protection of Children from Sexual Offences (POCSO) Act. The lawyer said he had sought the death penalty for all six accused but Yadav was sentenced to life imprisonment on medical grounds. Yadav's medical examination had shown that he underwent a surgery following an accident that damaged his private parts. His involvement in the rape was not established but his role in the conspiracy and murder was found and he was sentenced accordingly, Mishra added. In 2021, the teenage girl was allegedly gang-raped and bludgeoned with stones before she was dumped in a forest leading to her death

The men took the trio to the foot of a hill surrounded by forest near Gadhpurda where the 16-year-old girl was gang-raped in front of her father. After thrashing all the victims with stones and sticks, they dumped them in the forest before fleeing from the scene, police said. Four days after the crime, when the deceased man's son approached the Lemru police station saying three members of their family were missing, cops swung into action and rounded up the six men on February 2, they said. After questioning them, police reached the crime site the same day and found the injured teenager alive and two others dead. The rape victim died while being rushed to a local hospital, police said. The victims belonged to the Pahadi Korwa tribal community, a Particularly Vulnerable Tribal Group (PVTG). Citing police investigation, Mishra said that Manjhwra was pressuring the teenage girl to become his second wife. When she and her family objected to this, Manjhwra and his five associates raped and killed her and also murdered her two family members.

PM Modi to visit Kumbh on February 5

PIONEER NEWS SERVICE ■ MAHAKUMBH NAGAR

Prime Minister Narendra Modi is scheduled to visit the ongoing Maha Kumbh Mela in Prayagraj on February 5, according to sources. The grand spiritual event has already seen an influx of millions of devotees, and the Prime Minister's visit is expected to draw further attention to the historic gathering. Union Home Minister Amit Shah is slated to attend the Maha Kumbh Mela on January 27. During his visit, Shah is expected to take a holy dip at the Sangam, perform the Ganga Puja, and hold discussions with officials overseeing the event. Vice President Jagdeep Dhankhar is also scheduled to visit the Mela on February 1. Uttar Pradesh Chief Minister Yogi Adityanath previously confirmed the participation of top dignitaries, including President Droupadi Murmu, Vice President Jagdeep Dhankhar, Prime Minister Narendra Modi, and Union Home Minister Amit Shah. "Their presence underscores the cultural and spiritual significance of the Maha

Uttar Pradesh Chief Minister Yogi Adityanath with his Cabinet colleagues takes a holy dip at the Sangam during the Maha Kumbh Mela 2025, in Prayagraj PTI

Kumbh Mela, which is a proud symbol of India's heritage," said the Chief Minister. The administration is making elaborate preparations to ensure smooth logistics and security during the visits of these high-profile leaders. Special arrangements are being made to manage the expected surge in devotees and media attention during these dates. With leaders like Modi, Shah, and Dhankhar attending, the Maha Kumbh Mela 2025 is poised to become a monumental event, blending spirituality, culture, and national pride.

Jammu village sealed amid mysterious deaths

MOHIT KANDHARI ■ JAMMU

Raising a 'red flag,' the District Magistrate Rajouri has declared Badhaal village, which has so far witnessed 17 deaths due to 'mysterious illness' since December 7, 2024, a 'containment zone' under section 163 of Bharatiya Nagarik Suraksha Sanhita (BNSS) with immediate effect. Section 163 of the BNSS gives magistrates the power to issue written orders in urgent situations. According to the order issued by the office of the District Magistrate, Rajouri on January 21, 2025, "In view of the recent health situation in the Badhaal area and to curb the spread of infection the following orders are issued under section 163 of BNSS". Meanwhile, four villagers including three sisters have been admitted to the hospital in the last 24 hours.

Security personnel keep vigil after the remote Badhaal village was declared a containment zone and prohibitory orders imposed on all public and private gatherings in Jammu and Kashmir's Rajouri district PTI

On Tuesday, Aijaz Ahmad a 25-year-old youth had some symptoms of the mysterious disease, he was later taken to GMC Jammu from where he was shifted to PGI Chandigarh under special arrangements. Three sisters were rushed to the GMC, Rajouri on Wednesday morning. The doctors are monitoring their health condition; if required, the trio will be shifted to GMC, Jammu. According to the order issued by additional district magistrate (Rajouri) Rajeev Kumar Khajuria, the village has been divided into three containment zones - the first covering all families where deaths have occurred.

Tusu Fair at Gopal Maidan showcases rich cultural heritage

PNS : JAMSHEDPUR

The historic Gopal Maidan in Bistupur was abuzz with cultural fervor as the Jharkhand Vasi Ekta Manch organized a grand Tusu fair, drawing participants and spectators from across Jharkhand and neighboring states. The event, marked by vibrant displays of traditional music, dance, and festivities, showcased the state's rich cultural heritage while awarding cash prizes to participants.

The fair featured competitions in Tusu, Chaudal, and Budhi Gaadi dances, with substantial cash prizes distributed to winners. Consolation prizes were also given to all participating groups, ensuring recognition

and encouragement for their efforts. In total, lakhs of rupees were distributed as prizes.

The event was graced by prominent dignitaries, including former state minister Banna Gupta, MP Bidyut Baran Mahto, MLA Sabita Mahto, and former MP Suman Mahto. Chief Coordinator of the forum Astik Mahto, along with other notable figures such as Phanindra Mahto, Chandravati Mahto, and Vikas Singh, also attended.

In his address, MP Bidyut Mahto expressed concern over the fading connection with Jharkhand's traditional heritage. "Our language and culture are under threat as younger generations distance themselves from our tradi-

tions. We must cherish and preserve the legacy of our ancestors," he said, emphasizing the value of cultural instruments like the Madal and Dhamsa. Mahto captivated the audience by singing popular Tusu songs, including Chal Sojoni Jabo Jomuna and Dekhe Aasbo Kalo Sona.

Former minister Banna Gupta highlighted the significance of Tusu as a celebration of Jharkhand's mutual culture and civilization, reminding attendees of the sacrifices made for the state's distinct identity.

Astik Mahto detailed the historical and cultural significance of Tusu idols and Chaudal, urging unity and promoting a lifestyle free from addiction. The fair began with a tribute to

Jharkhand's martyrs, including Raghunath Mahato, Birsu Munda, and Nirmal Mahato, whose portraits were garlanded near the main stage.

A unique attraction at the fair was a creatively designed auto-rickshaw resembling a helicopter, which captivated visitors and became a crowd favorite.

Renowned Jhoomar singer Ranjit Mahato and his team from Manoharpur enthralled the audience with traditional Tusu and Jhoomar songs, keeping the festive spirit alive until late evening.

The fair honored winners across three categories: Tusu Statue Competition: First Prize (₹31,000); Sudhir Mahato (Chadri), Second Prize (₹25,000); Jagannath Mahato (Sosomoli, Rajnagar)

Third Prize (₹20,000): Dhananjay Mahato (Padnamsai, Rajnagar)

Chaudal Dance: First Prize (₹25,000): Sri Sri Maa Durga Chowdal Committee (Bandhdih, Tamar Ranchi), Budhi Gaadi Naach: First Prize (₹15,000): Fatu Baske (Balram Basti, Sonari)

The fair also provided a significant economic boost to local vendors. Stalls offering golgappa, sweets, and other delicacies thrived amidst the thousands of attendees who enjoyed the festive atmosphere. "The Tusu fair at Gopal Maidan not only celebrated Jharkhand's cultural richness but also highlighted the importance of preserving and passing down its traditions to future generations," said an official.

Health Fair catching up with poor in Palamu

PNS : DALTONGANJ

It's not only the medicines that come free in the Swasthya Mela. Pathological tests too are conducted free. It's a mini health bonanza said sources. Swasthya Mela is catching up with the local populace.

Visitors to Swasthya Melas are going for their BP (blood pressure) check. It's more with visitors who are 45 and plus. Swasthya Melas have adequate medicines for the management of the BP.

This correspondent met one Santoshi Devi, 60, at Adhura Swasthya Mela who knew far more about the BP than many of her age group

urban women. "Ghareloo tension say BP barh ja ee la. Ka kareen. Ee Ghar k up jal bimari ba (Family tension triggers high BP. Can't do anything. This disease is born in the family," said Santoshi.

Civil surgeon Dr Anil Kumar said, "People are conscious of their BP. It will help them in their anger management."

Even the rural populace is conscious of the lifestyle disease. BP is one such. Diabetes another. Low back pain is the result of long sitting.

A quack charges 20 to 30 rupees for a BP check. It's coming free in the Swasthya

Melas is proving a boon for many poor people.

At the Nawa Bazar Swasthya Mela the deputy development commissioner Md Shabbir Ahmad got his blood sugar level tested.

Quoting Ahmad, civil surgeon Dr Anil Kumar said "The DDC gave his prick of blood for random blood sugar level test. He wanted to know as to whether tests being done in the Swasthya Melas are of any quality or not." "The reading of the random blood sugar level test matched with the reading that the DDC had for the day found out by himself at his Daltonganj official residence" added the civil sur-

DDC M Shabbir Ahmad looking at health proforma at the Nawa Bazar Swasthya Mela photo by PNS

geon. "We are motivating girls to get their haemoglobin test but they are shy to it. It will help us to give them iron supplements" reminded Dr Anil. Aayushman Cards are

also being made out in the Swasthya Mela. Visitors come with their Aadhaar card. The Ayushman Mitr gets far busier in Swasthya Mela than any other day.

Arun Kumar takes over as Chief Warden of Civil Defence

PNS : JAMSHEDPUR

Arun Kumar, a prominent social worker and resident of Sitarwarda, has been appointed as the Chief Warden of the District East Singhbhum Civil Defence. This appointment, issued under the directives of Deputy Commissioner cum Controller East Singhbhum Ananya Mittal, was formalized by Sub-Divisional Officer cum Deputy Controller Shatabdi Majumdar.

Kumar's appointment, which fills a position that had been vacant for a considerable time, is effective immediately and will continue until further orders. The official appointment letter has been handed to him, and a copy has been sent to the Commissioner of Civil Defence, Jharkhand Ranchi, for record purposes.

Established in India in 1968, Civil Defence plays a crucial role in disaster management, particularly during emergencies such as wars or pandemics like COVID-19. Its primary objective is to safeguard internal regions, assist the armed forces, and support the civil administration by mobilizing and organizing citizens.

The East Singhbhum division of Civil Defence is particularly active, with over 500 volunteers, divisional wardens, and post wardens serving in various localities. The team contributes significantly during major cultural and religious events such as Durga Puja and

Ramnavami immersions, ensuring crowd control and safety.

Civil Defence in the district also conducts regular training programs for the public on critical topics such as disaster management, CPR, fire safety, first aid, road safety, and preventive measures to avoid potential accidents. These initiatives aim to enhance community preparedness and resilience during emergencies.

As the new Chief Warden, Arun Kumar brings a wealth of experience and a deep commitment to social service. His leadership is expected to further strengthen the organization's efforts in disaster management and community outreach in East Singhbhum.

NUVOCO Vistas reports strong Q3 FY25 performance

PNS : JAMSHEDPUR

Nuvoco Vistas Corp. Ltd., a leading building materials company in India, announced its unaudited financial results for the quarter ending December 31, 2024. The company reported a 16% year-on-year growth in cement sales volume, reaching 4.7 million metric tons. Consolidated revenue stood at Rs. 2,409 crores, while EBITDA was reported at Rs. 258 crores. The company is on track to expand its cement capacity to 31 MMTPA by Q3 FY27, aided by the acquisition of Vadraj Cement Limited. The cement industry showed recovery in the latter

half of FY25, supported by improving market dynamics. Nuvoco achieved the lowest blended fuel cost in the past 13 quarters and continues to maintain one of the lowest power and fuel costs in the industry. New product launches in the RMX and MBM segments have gained traction, while sustainability efforts have resulted in the lowest carbon emissions in the industry at 457 kg CO2 per ton of cementitious materials.

The company remains focused on premiumization, operational efficiency, and expansion to strengthen its position as the fifth-largest cement producer in India.

Agency personnel booked for financial irregularity in Garhwa

PNS : GARHWA

A major scandal has rocked the railway office in Banshidhar Nagar, Garhwa district. Reports indicate that a staggering Rs. 16,12,267 is missing from ticket sales at Nagar Untari railway station, representing a shortfall of Rs. 2 crore. A case has been filed alleging that this money was stolen in 2023.

The scandal implicates Writer Safeguard Limited (WSG), the agency responsible for transferring funds from the station to the bank.

Accusations centre on WSG employees, known as 'bikers'. Two employees, Ajay Kumar Gupta and Premchandra Prajapati, are accused of pilfering the money. These claims emerged following a meticulous review of the railway's bank statements.

Railway authorities acted swiftly upon discovering this significant breach. Following directives from senior railway officials, Station Manager Santosh Kumar filed a formal complaint at the Nagar Untari police station against the bikers, Ajay

Kumar Gupta and Premchandra Prajapati, for misappropriating funds. Both individuals, reportedly residents of Konmandra village in the Bhawanathpur police station area, are currently on the run. Garhwa SP Deepak Kumar Pandey confirmed that a case has been registered based on the station manager's complaint, and a thorough investigation has commenced. He noted that the case dates back three years and has been registered under IPC sections of 420, 471, and other applicable provisions.

Truecaller Finally Works on iPhone

PNS: RANCHI

Truecaller, the leading global communications platform, has announced the biggest ever update for iPhone. The new update now offers the entire might of Truecaller's spam and scam blocking abilities to iPhone users everywhere! It now has the ability to identify all types of calls making it at par with its Android counterpart. This is made possible by Apple's Live Caller ID Lookup framework, developed especially for apps like Truecaller to provide live caller ID in a privacy-preserving way. This API uses state-of-the-art homomorphic encryption and Truecaller is the first in the world to deploy this at scale for Caller ID.

Man duped by cyberfrauds in Garhwa

NITYANAND DUBEY : GARHWA

A load of APK files, supposedly linked to government schemes like the Pradhan Mantri Awas Yojana, Abua Awas Yojana, and Maiyaan Samman Yojana, are spreading like wildfire on social media, especially WhatsApp. This digital frenzy has gone hand in hand with a nasty spike in cyber fraud cases. People are getting ripped off trying to get info or benefits from these schemes.

One recent case involved a JMM leader, Imtiaz Ahmed, from Birajpur village. He lost Rs. 805,000 from his bank account after downloading an APK file supposedly linked to the Maiyaan Samman Yojana. Ahmed reported the cyber theft to the Ramkanda police station on Monday.

Ahmed got the APK file in a WhatsApp group on January 19th. He thought it was an official government app and downloaded it. But his phone got hacked. The cyber crooks then nicked ₹85,000 from his Grameen Bank account on Monday morning.

The Garhwa police have warned people to be careful and not download these APK files.

BSL gears up for SAIL Foundation Day celebrations

R SHARMA : BOKARO

The Bokaro Steel Plant is all set to celebrate SAIL Foundation Day with grand festivities. The celebrations will commence at 7:30 AM with the closing ceremony of the 'Happy Street' initiative, a unique endeavor aimed at promoting positivity, health, and happiness among the residents of the steel city. The Happy Street initiative, which witnessed enthusiastic participation from citizens, schools, NGOs, and social organizations, has been a resounding success in creating a vibrant community atmosphere. The closing ceremony will see a large gathering of participants, including schoolchildren and volunteers. Director-in-Charge of Bokaro Steel Plant, B.K. Tiwari, along with executive directors and senior officials, will attend the event to encourage and inspire the attendees. Later in the day, a grand musical and cultural evening will be held at the Cinema Arena of Bokaro Club. The event promises to be a spectacle, featuring performances by talented artists, including dance, music, and other creative acts. Local artists will also showcase their skills, providing them with a platform to shine. SAIL employees and their families have been warmly invited to join the celebrations. The cultural evening is not just a tribute to SAIL's legacy as a Maharatna but also an opportunity to create lasting memories for everyone involved. The Bokaro Steel Plant's efforts to make the Foundation Day special reflect its commitment to community engagement and celebration of collective achievements.

STOCKDADDY OPENS ITS INSTITUTE IN RANCHI

PNS : RANCHI

Gurugram-based ed-tech startup, StockDaddy, launched its first learning institute in Ranchi.

As an ed-tech platform, StockDaddy guides people on how they can make a secondary or might be the primary source of income by just learning stock market skills. Founded by Alok Kumar and Co-founded by Ranjeet Kumar in 2020, StockDaddy aims at filling the wide learning gaps in stock trading/investment through customized courses and content. The courses aim to develop an understanding of the stock market whilst building the key intellectual and vocational skills that enable budding investors to succeed in any circumstances.

Octogenarian ex-BJP leader and RSS Ideologue Govindacharya's charisma has not faded

BY VIVEK KRISHNA

K. N. Govindacharya, the soft-spoken RSS pracharak who was in '90s the media face of the BJP and RSS has still not faded his Charisma. One of the most towering personalities of RSS in the last four decades who entered the political group BJP from the parent organization RSS, Govindacharya had largely succeeded in pulling the support of the people for his party by his persuasive oratory, intellect and simplicity in public appearances which paved the way for the party to come to power at the Centre. That was the time when the BJP leaders were not known for their designer clothes and facial make over before making public appearances. As a matter of fact, a person who once gets to his credit public appreciation by dint of sheer intelligence, profound knowledge, unparalleled oratory and simplicity of life-style never loses his charisma without any reason. And, this fits for Govindacharya. People had queued to take a photo or selfie with him during a recent Makar-Sankranti get-together, an annual event which is organized in the Arya-Samaj Mandir in

Rajendra Nagar, in New Delhi. The chilling cold of Delhi, couple with drizzling rain did not desist a moderately large crowd to celebrate the Sankranti with their beloved Govindji or Gurujii, as he is normally called by his nears and dears. Many towering personalities made their appearance during the celebration, including some of the famous media faces of today associated with BJP. Clearly, Govindacharya still carries his Charisma with him.

"The idea of Govindacharya's Swadeshi which very well mingles with the current requirements of remaining Globally relevant needs to be given a serious try", remarked one of the prominent Supreme Court advocates who is also known

for his political and social activism. "Actually this is the same idea which Gandhiji had once promulgated, i.e., self-reliant and self-sufficient village economy coupled with modern technology-driven big industries of large towns", he further remarked. A village based Swadeshi economy would have also given way to 'skill development' with much ease. The late Prime Minister and great economist Manmohan Singh read this writing on the wall and started MANREGA for development of village infrastructure two decades ago, which even the staunch critique of Congress led UPA PM Naredra Modi has also not dared to give a halt. The industrialist-friendly BJP leaders haven't got as clear

idea of this politico-economic strategy of development of Indian economy which Mr. Govindacharya has also conceptualized, and about which he is repeatedly making appeals for the government to follow. The 'Rashtriya Swabhiman Andolan', 'Bharat Vikash Sangam' are the concepts which speak volumes as to how this one time great strategist of Bhartiya Janta Party is actively involved in after alienating himself from BJP and the mainstream politics. He advocates reforms in socio-economic fields by gearing up the traditional Indian economic and social concepts. It may be pointed out that Govindacharya had himself distanced himself from BJP in the year 2000 and went on a sabbatical after some differences with some senior party leaders.

Govindacharya is not only busy in promoting swadeshi model of growth for the Country, but at the same time he is a tech-savvy and well informed tech-influencer. This was more than obvious when he dragged facebook in the Court for matters relating to licence to upload contents in India and submitted before the Delhi Court that facebook had failed to tackle illegal con-

tent. He had also filed letter petition on Whatsp App NSO matters to Supreme Court. His petition to Supreme Court to seek NIC-based infrastructure for video-conferencing by judiciary and government departments was considered a very far-sighted concept, which has partly taken shape also in different forms after the Corona pandemic.

It would be incorrect to write him off from the political activism totally. Every now and then he has been vocal in both appreciating and criticizing the governments on different counts. If one the one hand he once praised the Modi government for taking a U-turn on land bill, and appreciated PM Naredra Modi's stand on WTO on food, on the other hand he had criticized the government on several counts like demonetization, alliance with PDP in J&K and several other issues. He remains a straight-forward talker, come what may, with intending to build the institutions morally and intellectually strong to deliver for the public good. "Still much has to come out from Gurujii despite his advanced age", was the comment of a RSS connected lawyer of Supreme Court who hails

from Samastipur, Bihar. Govindacharya himself told this writer that he is busy now in creating a group of devoted and dedicated group of individuals across the country who would propagate his swadeshi model of growth in the country coupled with strengthening Indian culture and value system in the institutions.

As a matter of fact there is no retirement age for a social and political activist, and octogenarian politicians and social activists are widely active both in India, and abroad. The only consideration being they keep good health. And, a disciplined RSS pracharak usually defies age. Rightly remarked in this famous couplet about Govindacharyaji, a lady teacher of DAV who was present in the Makar Sankranti celebration, "Jaane Kitini Udan Baaki hai, Eis Parinde Mei Jaan Baaki Hai" (Who knows how much flight this bird will cover, as much life is left in it).

THE WRITER IS AN ADVOCATE IN JHARKHAND HIGH COURT AND A SOCIAL & POLITICAL ACTIVIST. VIEWS EXPRESSED ARE PERSONAL.

Two Maoists, including woman, killed in encounter in Bokaro

PNS : RANCHI

Two Maoists, including a woman, were killed following an encounter with security forces in Upperghat area of Bermo subdivision, Bokaro district of Jharkhand on Wednesday. Two policemen were also injured in the incident.

Preliminary investigations have identified the slain Maoists as Shanti (area commander) village Chatro, police station Khukhura, district Giridih and Manoj, village-Dhavarat, police station-Pirtand, district-Giridih, which is being further verified. Security personnel have intensified anti-Naxal operations in Jharkhand for the past few days.

The clash took place in the dense forests of Banshi and Jarwa, under the Naxal-affected Penk Narayanpur police station jurisdiction.

The operation was

launched based on information from the Intelligence Bureau. The bodies of the two Maoists, an AK-47 rifle and two Insas rifles were recovered from them.

The woman Naxalite killed in the operation is believed to be the wife of Ranvijay Mahto, a notorious Naxalite with a Rs 15 lakh bounty on his head. Mahto had been arrested just a day earlier in Chandrapura. The

operation remains ongoing, with security forces working to neutralize the remaining Naxalite threat.

Following Mahto's arrest, the Bokaro Superintendent of Police (SP) received intelligence about a six-member armed Naxalite group hiding in the forests of Jarwa and Banshi. Acting swiftly, a joint operation was launched involving the Jharkhand police and the Cobra 209

battalion to locate and eliminate the threat.

The Inspector General of Police (IG - Operations) disclosed that the Naxalites were plotting a major attack. Advanced weaponry, including firearms, was recovered from the group, signaling the severity of their intentions.

The operation, led by Jharkhand Police in coordination with 209 COBRA Battalion, was backed by accurate intelligence inputs from the Intelligence Bureau and local authorities that six hardcore Maoists were hiding in the Banshi Jirwa forests.

As soon as the joint team of security personnel reached there, the Maoists started firing on them.

Responding to that, the security forces also fired back in retaliation leading to heavy firing from both sides. Two policemen are reported to be injured in this

encounter. The security personnel have cornered the Maoists from all sides and combing operation is on to locate the Maoists.

This strategic effort also resulted in the recovery of a significant cache of weapons, including an AK-47 and two INSAS rifles.

Authorities are currently analyzing the seized firearms and working to gather further intelligence to strengthen their ongoing efforts against Maoist activity in the region.

This is one of the biggest encounters in the country as a Central Committee (CC) member of the banned Maoist organization, Jai Ram alias Chalpathy, has been killed. Usually central committee members either die a natural death or rarely get arrested. Killing a CC member in an encounter is a big achievement," SP Rakhecha had told the mediapersons.

CM reviews construction of MLAs' residential complex

PNS : RANCHI

Chief Minister Hemant Soren today inspected the under-construction MLAs' Residential Complex, Jagannathpur, Ranchi. During this, he observed the construction works including housing, health centre, shopping complex, children's park, playground, electricity, water and road, vehicle parking sewerage-drainage system being built for the MLAs here and gave many instructions.

The Chief Minister directed to speed up the construction work so that the process of its handover can be completed as soon as possible and these houses can be allotted to the MLAs. During this, the construction company doing the construction work said that all the construction work would be completed by June this year.

The Chief Minister directed to do plantation on a large scale in the MLA residential complex. He said that the residential arrangement for the MLAs is not organized right now. Accommodation has been provided to them for living in different areas of the capital Ranchi. But, with the construction of the MLA residential complex, all the MLAs will get a better, organized and well-equipped accommodation to live in the same campus.

Additional Chief Secretary Avinash Kumar and Secretary of Building

Chief Minister Hemant Soren inspecting the under-construction MLA residential complex, Jagannathpur, Ranchi, including MLA residence, health centre, shopping complex and other construction works, in Ranchi on Wednesday. PNS

Construction Department Arwa Rajkamal and other officers were present during the Chief Minister's inspection of the MLA residential complex.

JEPC's efforts to connect dropout children to school yields results

About 54,130 children connected to mainstream education in 2024-25

PNS : RANCHI

According to the data released by the Jharkhand Education Project Council, great success has been achieved in connecting out of school and drop out children from across the State with the mainstream system of education. In the academic session 2024-24, efforts have been made to connect as many as 54,130 out of school and dropout children to schools and all the districts have succeeded in their attempts to connect children to education as per the set target.

Out of a total 65,065 targeted children, till now about 83.19% children have been connected to school and their education has also started. Efforts are on to connect the remaining children as well and in this academic session a target to link 100% of the children has been set.

Previously, in the year 2023-24, about 34,608 children were connected to the mainstream education while in 2022-23, as many as 5,592 children were linked.

State Program Manager Binita Tirkey said that in most of the districts, the efforts to connect out of school and drop out children to school have been successful.

The districts which have not yet achieved 100% of the target have been directed to do the same as soon as possible. The department is trying to connect 100% of the targeted children to the mainstream of education in this academic year as well and for this the districts have been given guidelines.

Tirkey said that the districts in which out of school and dropout children have not been connected to education, they have been directed to complete this work by January 30 at any cost.

Continuous efforts are being made to connect out of school and dropout children to schools. For this, community participation and awareness is being increased and schools and districts are being continuously monitored by State level officials. In 24 districts of the State, under the leadership of 24 State level officials, the monitoring team officials are visiting to ensure that their district has 100% Shishu Panji and no child is left out of the mainstream system of education. Project Impact, Prayas and School RUAR program are proving to be effective in increasing the attendance of children in schools and connecting them with education. Under the Prayas program,

the absence of students in school is marked on the basis of days. The record of children is maintained every month by making a register in each class. Necessary efforts are made to ensure the presence of children who are absent for 3 days, 15 days and 30 days and their complete details are maintained.

This program has also been included in the parameters of Project Impact. The complete details of the child and reason for absence are checked by contacting the relatives of the absent children. SMC members and teachers contact with the child's family to find out the reason for absence and try to connect them with education. Apart from this, the School RUAR Abhiyan is also run by the School Education and Literacy Department. The purpose of this campaign is to enroll children between 5 and 18 years of age in schools and ensure 100 percent attendance. Under this campaign, un-enrolled and dropout children are brought back to school. The school management committee and community participation play an important role in this. The School RUAR Abhiyan is reviewed every year.

Jharkhand charts a path to Climate Resilience with Collaborative Efforts

PNS : RANCHI

A State-Level Workshop on "Assessing Vulnerability and Climate Risks: Strategies for a Climate-Resilient Jharkhand" was successfully organized in Ranchi on Tuesday, bringing together policymakers, scientists, and experts to deliberate on Jharkhand's strategies for climate resilience. The event, aimed at strengthening the state's capacity to tackle climate challenges, witnessed robust discussions and participation from prominent institutions and organizations.

The workshop was inaugurated by Aboobacker Siddiqui, Secretary, Department of Forest, Environment, and Climate Change. In his inaugural address, Siddiqui emphasized the importance of aligning state efforts with the State Action Plan on Climate Change (SAPCC) and reiterated Jharkhand's commitment to contributing to India's national climate goals.

He called for collaborative and localized approaches to address the state's unique vulnerabilities to climate change. Satyajit Singh, Principal Chief Conservator of Forests and Head of Forest Forces (PCCF & HoFF), highlighted the departmental activities that directly support climate action, including large-scale afforestation, soil and water conservation, and wildlife protection initiatives. He underlined the role of the Forest Department in building a sustainable and climate-resilient future for the state. Sushela Negi, Scientist-F, Department of Science and Technology (DST), Government of India,

shed light on the central government's enhanced efforts toward climate resilience through capacity building and scientific interventions under the National Mission on Strategic Knowledge for Climate Change (NMSKCC). She praised Jharkhand's proactive approach to integrating national programs with local climate strategies.

Ravi Ranjan, Additional Principal Chief Conservator of Forests (APCCF)-CAMPA, spoke about the Forest Department's extensive training and capacity-building programs aimed at climate resilience. "Our initial steps have already demonstrated strong potential in empowering communities and institutions to combat climate risks effectively," he remarked.

The workshop also saw the participation of A.K. Rastogi, Chairman, Task Force on Sustainable Just Transition, Government of Jharkhand, who shared insights into creating a sustainable and equitable path for the state's economic and environmental future.

Prashant Kumar, Secretary, Finance Department, emphasized the need to develop a robust framework for a carbon market in Jharkhand. He pointed out that leveraging carbon markets and climate finance would enable the state to align with global trends while achieving its climate goals.

The workshop drew participation from representatives of prestigious organizations, including IIT Mandi, IIT (ISM) Dhanbad, NABARD, Birs Agricultural University, BIT Mesra, GIZ, TERI, IIEFA and PwC, among others.

ized and well-equipped accommodation to live in the same campus. Additional Chief Secretary Avinash Kumar and Secretary of Building

Construction Department Arwa Rajkamal and other officers were present during the Chief Minister's inspection of the MLA residential complex.

SKIPA gets ISO certificates

PNS : RANCHI

Jharkhand's administrative training institute, Shri Krishna Institute of Public Administration (SKIPA), located on Meyers Road in the capital Ranchi, has been awarded the ISO certificate for excellent management.

These three ISO certificates have been received on 17 January 2025. Quality Research Organization, the organization that gives ISO certificate, conducted ISO evaluation at Shri Krishna Institute of Public Administration (SKIPA), in which the institute was found to be in accordance with these three certificates. It is a matter of joy for Jharkhand that the institute has received three ISO certificates simultaneously.

The institute (SKIPA) was awarded the ISO 9001:2015 Quality Management System (Specialized Quality Management) for providing quality training to the officers working in the field of public service, standardization, transparency, raising the

standard of the course as well as providing excellent facilities during training.

Sri Krishna Institute of Public Administration (SKIPA) has received the certificate of ISO 21001:2018 for Educational Organization Management. This certificate has been given by the institute for providing quality results through excellent training style, huge book collection and providing excellent curriculum. One, two and three day training programs have been started by the institute. One day seminars and workshops are also being organized from time to

time. Mid career training sessions are being organized for the employees and officials of various departments of the government to improve quality in the work field.

Shri Krishna Institute of Public Administration (SKIPA) has received the certificate of ISO 14001:2015 for providing excellent environment management in the institute. This certificate has been awarded for the work done for environment management through energy and water saving in the institute, excellent waste management and pollution free environment in the institute campus.

BJP raises poor health condition at RIMS Ranchi

PNS : RANCHI

BJP state spokesperson Ramakant Mahato has made serious allegations against the state government's health system and RIMS. Mahato said that the state government is talking about laying the foundation of RIMS Part 2, while the current condition of RIMS is getting worse day by day. He said that the state government should first improve the current arrangements of RIMS, and not turn a blind eye to the mismanagement in the health sector by showing rosy pictures of a new project.

State spokesperson Ramakant Mahato said, "The condition of RIMS is getting worse day by day. Medicines are not available, beds are not available, and machines are not working at many places. Patients coming from far-flung areas of Jharkhand do not get any hope of treatment here, rather they are dependent on outside pathology labs." Along with this, he also expressed concern over the recent rape incident of a woman in RIMS and said, "This incident proves that women are not safe in RIMS."

Ramakant Mahato also alleged that the outsourcing employees in RIMS do not get their salary on time, due to which the condition of the employees working there is getting worse. Apart from this, many government machines, which are very important for the examination of patients, are lying idle for many months.

The BJP spokesperson also said that some leaders sitting in power have formed private diagnostic companies, and their aim is to supply their products in RIMS.

State police organise 'Public Grievance Solution Program'

PNS : RANCHI

As per the instructions of Hemant Soren, Chief Minister, Government of Jharkhand, "Public Grievance Solution Program" was organized in all the districts of the state today on Wednesday under the leadership of Anurag Gupta, Director General of Police, Jharkhand. In this program, information was shared with the general public through public relations camps, banners, promotional vehicles, posters, pamphlets, local newspapers and social media by the local administration, police and other related departments.

This initiative of "Public Grievance Solution Program" ensured that the common citizens do not have to make rounds of police stations for any kind of problem like land / crime / crime against women and any victim does

not have to go to the police stations.

The main objective of this program is to provide immediate solution to the problems of the general public on reaching the police station and to strengthen the trust between the general public and the police. With the objective of completely erasing the gap between the general public and the police, on the instructions of DGP Anurag Gupta, a "Public Grievance Resolution Program" was organized simultaneously across the state. In this program, the district administration, local police and other officials played an active role to listen to the problems of the citizens of rural areas and to solve them and to make the program successful. To ensure the success of the program and to make the process of redressal of complaints simple and transpar-

ent, the following police officers were deputed from the level of Police Headquarters to monitor in various districts-

In the light of the report given by the complainant in this program, the main features of the "Public Grievance Resolution Program" organized by Jharkhand Police are as follows-

1. Complaints received from common citizens were registered.

2. In each district, mobile/Whatsapp number and E-mail ID were made available to the citizens for online complaints and they were encouraged to register online complaints.

3. The received written

and oral complaints were maintained in the register and contact number along with acknowledgement number was also provided so that the complainant could get information about his complaint.

4. Assurance was given to take action on the received complaints within the stipulated time limit.

In the Public Grievance Solution Program, information was given to the general public with special attention on the following topics:-

Information was obtained regarding the safety of missing children and women and Victim Compensation Scheme was told. Awareness was created by giving detailed information regarding the system of filing Zero FIR and Online FIR under the new criminal law, Dial-112 and Dial-1930 (Cyber Fraud). For the citizens of weaker

sections, assurance was given to take action as soon as possible in the cases registered under SC/ST Atrocities Prevention Act.

Assurance was given to take further action by gathering information about property related crimes and criminals, cyber crimes and chit fund companies cheating citizens illegally.

In areas where crimes related to human trafficking take place, assurance was given to take further action by gathering information about the victims of crime and criminals involved.

Citizens were made aware to prevent this by gathering information about opium cultivation and purchase and sale of brown sugar etc.

On receiving information about consumption of narcotics by school/college children, common people were made aware to prevent this.

Assam detention centres: SC slams Government, summons Chief Secretary

PIONEER NEWS SERVICE ■ NEW DELHI

Calling it a "defective" affidavit, the Supreme Court on Wednesday slammed the Assam government for not giving in its reply reasons for detaining 270 foreigners at the Matia transit camp. A bench of Justices Abhay S Oka and Nongmeikapam Kotiswar Singh directed the Assam chief secretary to remain present through video-conferencing on the next date of hearing.

The top court said it granted six weeks time to the state government on December 9 to file the affidavit and expected it to give reasons for detaining 270 foreign nationals in the transit camp besides details on the steps taken for their deportation. "The affidavit does not give any justification for detaining...Steps taken to deport are not set out. This is gross violation of orders of this court. We direct the chief secretary to remain present through video-conferencing

and explain the non-compliance," the bench said. The counsel appearing for the state government submitted that persons were detained only after they were declared foreigners by the foreigners tribunals and explained the mechanism of deportation of illegal migrants. The top court sought to know why detentions were continuing without the deportation process even being initiated. The court expressed displeasure after the Assam govern-

ment counsel said the affidavit was confidential and should remain sealed. "This shows that the state does not want to come clean. Tell us what is confidential in the affidavit?" asked the bench. The lawyer said the affidavit contained the addresses of foreigners and the details could go to the media. "Assam counsel states that affidavit filed should be kept in sealed envelope, as contents thereof are confidential. Though we are directing that

it be kept in sealed envelope, prima facie we disagree with the counsel that there is something confidential about the contents," the bench said. The top court had directed Assam State Legal Services Authority to conduct surprise visits at the Matia transit camp for foreigners to check the facility's hygiene and food quality. The bench was hearing a plea concerning the deportation of persons declared foreigners and facilities at the detention centres in Assam. While hearing the matter on May 16 last year, the apex court observed that the Centre must take immediate steps for deporting 17 foreigners at the detention centre in Matia. It said priority should be given to deport four, who had spent more than two years in the detention centre. The plea also sought a direction to the Assam government not to detain any person declared a foreigner by the tribunal until it could show proof of a possible deportation in near future.

Kolkata rape-murder case: CBI seeks death sentence for Roy

PIONEER NEWS SERVICE ■ NEW DELHI

The CBI will file an appeal before the Calcutta High Court, seeking death sentence for Sanjay Roy, who was sentenced to "life imprisonment until death" by a Sealdah court in the rape-cum-murder case of an on-duty doctor at RG Kar Medical College and Hospital, officials said Wednesday. The agency received a legal advice suggesting that the case may be categorised as the "rarest of rare", deserving capital punishment, they said. The agency is likely to file the appeal against the Sealdah court order as soon as possible with detailed arguments in favour of capital punishment, they said. The agency's plea seeking death penalty for Roy was turned down by the trial court, where Additional District and Sessions Judge Anirban Das said that the crime did not fall under the "rarest of the rare" category. "The CBI prayed for the death penalty. The defence lawyer

prayed that a jail term be given instead of the death penalty. This crime does not fall under the 'rarest of the rare' category," the judge said on Monday while sentencing Roy. "I am sentencing you to life imprisonment, meaning till the last day of your life, for causing injury during the act of committing rape on the victim that led to her death...", he told Roy. The West Bengal government has already approached the

high court, challenging the verdict and seeking death penalty for Roy. The CBI has opposed the state's right to file an appeal in the case, claiming that as it was the prosecuting agency, it had the right to appeal on the grounds of inadequacy of the sentence. Appearing for the CBI, Deputy Solicitor General Rajdeep Majumdar on Wednesday opposed the state's submission, maintaining that the West Bengal government does

not have the right to appeal against the trial court's order on the ground of inadequacy. He submitted that the CBI had prayed for awarding capital punishment to Roy before the trial court. The high court said it would hear the CBI, the victim's family and the convict before deciding on the admission of the state government's appeal. The high court said it will hear the matter on January 27. The trainee doctor was raped and killed in the early hours of August 9 in the seminar hall of RG Kar Medical College and Hospital when she had gone to have rest during her graveyard shift. Her body with severe injury marks was found inside the hall by a doctor next morning. Civic volunteer Sanjay Roy was arrested the next day based on CCTV footage in which he was seen entering the seminar hall at 4.03 am on the day of the incident. On August 13, the Calcutta High Court ordered the transfer of the probe from Kolkata Police to the CBI, which took over the case on August 14.

A Raja writes to Waqf panel chief to defer proposed JPC meeting

PNS ■ NEW DELHI

DMK MP A Raja on Wednesday wrote to Waqf panel chief Jagdambika Pal on behalf of the opposition to postpone the proposed sittings of the joint parliamentary committee proposed on January 24 and 25.

In a letter to the waqf parliamentary panel chief, Raja said it is practically not possible for the members to recollect the evidence and materials essentially needed for the moving of the amendments and discussion on the waqf bill at such a short notice. He said during the tour programme to meet various stakeholders in Lucknow on Tuesday, the members had requested Pal to postpone the meeting of JPC proposed on January 24 and 25 for taking up the bill clause by clause. The panel is examining the waqf bill after it was introduced in Lok Sabha during the monsoon session of Parliament in August last year. "Hence, it was requested by most of the members at the

Lucknow sitting (21.01.2025) that the proposed sittings of JPC on 24th and 25th have to be necessarily postponed on 30th (full day) and 31st of this month after the presidential address in the Parliament," Raja said in his letter to Pal. He said unless the sittings of the JPC are postponed, the purpose of constituting the committee itself will be defeated as it raises doubts in the minds of the people of India that the secular fabric of the Constitution embodied in the Preamble is endangered and due process in conduct-

ing the JPC is also not followed. "It is, therefore, prayed on behalf of the members of the opposition parties that the sittings of the JPC proposed on 24th and 25th may kindly be postponed to 30th and 31st of this month as already discussed with you at Lucknow," Raja said. The Congress also shared Raja's letter in a post on X and said, "Lok Sabha MP and member of the Joint Parliamentary Committee on the Waqf (Amendment) Bill, 2024, Shri A Raja writes to the

Chairman of the joint panel, Shri Jagdambika Pal, on behalf of the members of the Opposition parties, requesting the sittings of the JPC be postponed from 24th and 25th Jan to 30th and 31st Jan 2025." In his letter to the chairman of the JPC on waqf, Raja said the Lok Sabha Secretariat (JCWAP Cell) through a letter dated January 20 has requested the members of the panel to send their amendments to the proposed bill by 4 pm on Wednesday. Also, the next sitting of JPC has also been convened on January 24 and 25 for clause-by-clause consideration of the bill, he also said. "It is needless to say that the tour programmes of the JPC to meet the stakeholders at Patna, Kolkata and Lucknow were completed only yesterday ie 21.01.2025; And the members were dispersed from the tour programme to their constituency/states to continue their scheduled programmes earlier. "It is very strange that the next dates for a sitting of JPC were hurriedly announced with-

out any formal discussion when the JPC was already on tour. Even during the sitting of JPC at Lucknow itself, it was requested by the members that the proposed sittings of 24th and 25th of this month are practically not possible as the members are expected to discharge their duties/programmes in the locality. "Moreover, the members are not in a position to recollect the evidence/materials at such a short notice which are essentially needed for the moving of the Amendments and discussion thereon," he said. The DMK MP also said Pal has directed the stake holders who participated in the tour programme at Patna, Kolkata and Lucknow to submit their views and submission in writing within seven days and the committee is waiting for the same for circulation. "I sincerely recall that you have reacted to the request that it will be considered positively after consultation with the government realising the justification offered by us for the postponement," he said.

Beti Bachao Beti Padhao has become people powered initiative: PM

PIONEER NEWS SERVICE ■ NEW DELHI

With the Beti Bachao Beti Padhao initiative completing 10 years, Prime Minister Narendra Modi on Wednesday said it has been instrumental in overcoming gender biases and at the same created the right environment to ensure that the girl child has access to education and opportunities to achieve her dreams. Beti Bachao Beti Padhao (BBBP) was launched by the prime minister on January 22, 2015 at Panipat, Haryana. BBBP addresses the declining Child Sex Ratio (CSR) and related issues of women empowerment over a life-cycle continuum. "Today we mark 10 years of the #BetiBachaoBetiPadhao movement. Over the past decade, it has become a transformative, people-powered initiative and has drawn participation from people across all walks of life," Modi said. 'Beti Bachao Beti Padhao' has been instrumental in overcoming gender biases and at

the same time it has created the right environment to ensure that the girl child has access to education and opportunities to achieve her dreams, the prime minister said. "Thanks to the dedicated efforts of the people and various community service organisations, 'Beti Bachao Beti Padhao' has achieved remarkable milestones," Modi said in his post on X. "Districts with historically low child sex ratios have reported significant improvements and awareness campaigns have

instilled a deeper sense of the importance of gender equality," Modi said. "I compliment all stakeholders who have made this movement vibrant at the grassroots level. Let us continue to protect the rights of our daughters, ensure their education and create a society where they can thrive without any discrimination," he said. "Together, we can ensure that the coming years bring even greater progress and opportunity for India's daughters," Modi added.

'Skyrocketing' airfare, lack of tariff regulation dominate PAC meeting

Concerns over "skyrocketing" airfare and "little action" by government agencies and regulator dominated the Parliament's Public Accounts Committee (PAC) meeting on Wednesday as several MPs sought accountability from private airport operators and airlines to provide relief to passengers. PAC Chairperson K C Venugopal described the meeting of the panel, which has witnessed fiery and at times acrimonious discussion along party lines in the past, as "one of the best" sittings. Members, he said, expressed concerns that the Airports Economic Regulatory Authority (AERA) "is not acting properly as a regulator". "We need clear cut answers," he told PTI after the meeting. He said the regulatory body could not answer adequately the questions raised by members. The senior Congress MP said, "Concerns were raised by members that airfare is skyrocketing, and there is no action from the Directorate

General of Civil Aviation (DGCA) or the Civil Aviation Department." Sources said some MPs called for an amendment in the AERA Act to make it more effective in regulating fare amid general unhappiness over issues like "arbitrary" rise in user development fees and price surge, as they alleged that the existing system fell short of fixing accountability and transparency in the functioning of private operators. "A few MPs were upset over the manner in which both aeronautical tariff and non-aeronautical tariff are decided and flagged the need for having a mechanism in place for prior consultation," a source said. An MP said there should be a quasi-judicial body to hear such issues. Civil aviation secretary and AERA chairperson were among those who appeared before the panel in the meeting in which presentations were made on related issues. While AERA is tasked with regulating tariff for services covering major airports, the DGCA is primarily concerned with safety issues.

Sources said the PAC members, in general, were unsatisfied with the replies of officials, and the panel has asked them to submit a detailed response. Several members, sources said, gave examples of a few airports where the user development fee (UDF), which is included in the airfare, has gone up many times since they were handed over to private operators. Some of them sought details from officials about the revenue collected under different heads and to what use they were put to. An MP, sources said, spoke about the real estate development and subsequent rentals collected by private operators at airports, and called for transparency and accountability for the revenue's appropriate use. An MP lauded the government's UDAN scheme, which envisages air connectivity for smaller cities, but noted that many of its routes are either not served or not served adequately by private airlines as they focus on more profitable routes. It strikes a blow to the vision of having the common man to fly, he added.

Railway Board extends some facilities to BRMS amidst protests

PTI ■ NEW DELHI

The Railway Board has extended some facilities to an unrecognised federation, the Bhartiya Railway Mazdoor Sangh, amid strong protest from other unrecognised unions and their alliances. The Board recently held a Secret Ballot Elections in which the Bhartiya Railway Mazdoor Sangh (BRMS) failed to secure 15 per cent vote, a mandatory requirement to get recognition. Only two federations, All India Railwaymen's Federation (AIRF) and National Federation for Indian Railwaymen (NFIR) got the required percentage of votes and recognition of the Board. "Bhartiya Railway Mazdoor Sangh (BRMS), an unrecognised Federation, who secured 10.12% of the total votes on all Zonal Railways and Production Units (Chittaranjan Locomotive Works and Rail Coach Factory, Kapurthala) in the last Secret Ballot Elections (SBE) - 2024, had represented and requested that keeping in view of their performance in the SBE-2024, they may be granted some facilities for raising the grievances of railway employees," a Railway Board's letter dated January 16, 2025, addressed to all zones, said. The letter further said the Board considered the representation of BRMS and the fact that it registered its presence in all the Zonal Railways and PUs (CLW & RCF) in the last SBE - 2024 and secured third largest vote share after AIRF and NFIR. According to the Board, it decided to extend the union facilities such as 'Informal meeting with senior officers' and 'Office Accommodation' in Railway premises. "Representatives of BRMS will

be permitted to meet officials at Railway Board level as special invitees. However, no Special Casual Leave or Passes will be provided to BRMS officials for the same," the Board in its letter said. "Accommodation, if any, may be provided to BRMS in any Railway office/premise located at New Delhi," it added. Other railway employee associations and unions have strongly objected to the move. Manoj Pandey, President, Indian Railway Employees Federation (IREF) has written to the Board seeking recognition for IREF on the same lines it granted to BRMS. "It is pertinent to note that the Railway Board laid down clear and specific criteria for the recognition of federations, according to which, a federation should secure at least 15% of valid votes in the SBE-III elections and its constituent unions should get recognition in at least six zones," Pande said in his letter. "Member unions of IREF, such as WCRWU and ARKU, performed commendably in the SBE-III Elections 2024, securing over 15% of valid votes, thereby qualifying for negotiation powers," he added, claiming that IREF also deserves recognition like BRMS.

Pandey claimed IREF includes recognised unions such as ECREU, NERMFC, and RCF, which are already serving the interests of railway employees effectively. "These unions have been consistently recognised across multiple zones, fulfilling the Railway Board's mandate," he said. Pandey added the IREF may approach court if its demand is overlooked. Akhilesh Pandey, Central President, North Eastern Railway Men's Congress, too objected to the Board's decision. "It is unfortunate that the Railway Board disrespect its own norm to give benefit to a federation," Akhilesh said. All India Railway Track Maintainers Union have also raised serious concerns and said that the Board cannot 'pick and choose' federation on its own whims and fancies. "Once the Board laid the guideline before election, it cannot offer benefits to any federation which failed to secure the required vote percentage. The Board is violating its one norms for reasons best known to itself," Chand Mohammed, working president of All India Railway Trackmaintainers Union (AIRTU), said.

Delhi HC seeks Jamia stand on PIL over coaching academy

PIONEER NEWS SERVICE ■ NEW DELHI

The Delhi High Court on Wednesday sought the stand of Jamia Millia Islamia on a PIL over admissions of OBC (non-creamy layer) students in its residential coaching academy meant for civil services aspirants. A bench of Chief Justice D K Upadhyaya and Justice Tushar Rao Gedela issued notice to Jamia Millia Islamia and University Grants Commission (UGC) on the PIL by Satyam Singh, a law graduate. Referring to the UGC guidelines, Singh said Jamia couldn't restrict free coaching only to female students and those from SC/ST and minority communities as it was under the obligation to extend the benefit to both OBC (non-creamy layer) and economically weaker sections (EWS). When the court pointed out there was no provision in the UGC guidelines for EWS category, the petitioner restricted his relief only to OBC (non-creamy layer). The court however asked the

petitioner to inform if a university established by a statute was bound to follow the UGC mandate and said, "Issue notice to the respondents." The court had questioned the petitioner on the "right" to seek admission in the coaching academy as an OBC (non-creamy layer) candidate. "You are virtually asking us to reframe a policy. Admission is not to regular courses but coaching centre. It is for authorities to provide for reservation. You are asking us to create a right," it said. In the petition filed through advocates Akash Vajpai, Ayush Saxena Puru Mudgal, the petitioner said UGC gave financial support to four Central universities, including JMI, and therefore it was under an obligation not to discriminate among the underprivileged students. The petition said the current admission policy for the residential coaching academy was arbitrary and discriminatory as it left out a category of students who deserved admissions.

LPG safety guidelines issued for Maha Kumbh to protect devotees and Kalpvasis

PIONEER NEWS SERVICE ■
PRAYAGRAJ

The Food and Logistics Department convened a crucial meeting to address LPG safety during the ongoing Maha Kumbh Mela. The meeting was attended by officials from the department, LPG distributors, gas company representatives, and officers from the Fire Department, all working towards ensuring the safety of devotees and Kalpvasis. During the session, detailed guidelines were issued to prevent accidents caused by LPG leakage. Among the key directives, cylinder testing was made mandatory, and strict restrictions were imposed on the sale of unauthorized cylinders. Officials emphasized that ensuring safety would be a top priority throughout the event. To ensure safe handling of LPG, technical assistants will inspect all cylinders before distribution, and any found to be leaking will not be supplied. Additionally, consumer equipment such as gas pipes and regulators will be scrutinized, with faulty or unsafe equipment being

replaced immediately. Special technical teams have been deployed in the fair area to respond to emergencies promptly. In a bid to further strengthen

safety measures, the storage of gas within the fair area has been limited to 100 kilograms, and complete details of each supply vehicle must be submitted to the

designated office. This measure aims to maintain tight control over the supply and prevent misuse. The meeting also addressed the rampant misuse of

domestic LPG cylinders. It was resolved that strict action would be taken against those found using domestic gas cylinders for unauthorized purposes or selling unapproved cylinders. Violators will face punitive action to ensure compliance with the safety protocols. Pramod Sharma, Chief Fire Officer of Kumbh, said, "The safety of devotees is of utmost importance. We are committed to implementing these guidelines effectively to ensure a secure environment for all."

Sunil Kumar, the Food and Logistics Officer, urged distributors to conduct regular checks and remain vigilant. "We aim to make this Maha Kumbh a 'Surakshit Mahakumbh'. Any violation of the rules will be dealt with strictly," he stated. These measures reflect the administration's commitment to ensuring the safety and well-being of the millions attending the Maha Kumbh. The collaborative efforts of various departments aim to make this grand spiritual gathering a safe and memorable event for all.

Life and challenges of female Naga sadhus at Maha Kumbh

BISWAJEET BANERJEE ■
MAHAKUMBH NAGAR

The Maha Kumbh Mela not only showcases the spiritual depth of Sanatan Dharma but also highlights the enigmatic lives of its sadhus and saints. Among them, the Naga Sadhus are a prominent attraction, embodying detachment and spirituality. While much is known about male Naga Sadhus, the lives of female Naga Sadhus remain shrouded in mystery and intrigue.

Female Naga Sadhus dedicate their lives entirely to God, leaving behind domestic ties

and worldly attachments. Their daily routine revolves around rigorous worship, starting with prayers at Brahmamuhurta and culminating in evening rituals dedicated to Lord Dattatreya. Despite the reverence they receive in their Akharas, their lives are fraught with challenges and sacrifices. To become a Naga Sadhu, women must undergo a demanding initiation process. This includes observing strict celibacy for 10 to 15 years, convincing their guru of their devotion, and proving their ability to endure severe ascetic practices. A crucial part of the

initiation involves performing Pind Daan—a symbolic funeral rite—and shaving their heads as a gesture of renunciation. Unlike their male counterparts, who can remain Digambara (naked), female Naga Sadhus wear a single piece of unstitched saffron cloth, known as "Ganti," and are required to apply a Tilak on their foreheads. They are addressed as "Mai," "Avdhatani," or "Naagin" within their Akharas. However, female Naga Sadhus are not considered for leadership roles in the Akharas, reflecting traditional gender norms within the spiritual hierarchy.

Akhilesh criticises UP Cabinet meet at Maha Kumbh mela

BISWAJEET BANERJEE ■
PRAYAGRAJ

Uttar Pradesh Chief Minister Yogi Adityanath has announced the creation of a new religious circuit that will encompass seven districts—Prayagraj, Varanasi (Kashi), Chandauli, Ghazipur, Jaunpur, Mirzapur, and Bhadohi. This initiative aims to preserve the state's spiritual and cultural heritage while boosting religious tourism and local economies. The announcement was made during a cabinet meeting held in Prayagraj on the sidelines of the ongoing Maha Kumbh. The meeting also approved infrastructure bonds for municipal corporations in Prayagraj, Varanasi, and Agra, aimed at accelerating urban development and improving civic amenities in these key cities. Chief Minister Yogi Adityanath said the formation of the religious circuit underscores the government's commitment to safeguarding Uttar Pradesh's rich spiritual legacy. He emphasized that this initiative would not only protect the cultural fabric of the included districts but also position them as prominent destinations for religious tourism, thereby fostering economic growth. The religious circuit will be supported by extensive infrastructure projects to enhance connectivity and visitor experiences. The Ganga Expressway will be

extended to link Prayagraj with Mirzapur, Bhadohi, Kashi, Chandauli, and Ghazipur, and eventually with the Purvanchal Expressway. A six-lane bridge over the Ganga River, a four-lane bridge connecting Prayagraj to Jhusi, and a signature bridge over the Yamuna River are also planned to facilitate seamless travel for pilgrims and tourists. However, the decision to hold a cabinet meeting during the Maha Kumbh has sparked political debate. Samajwadi Party chief Akhilesh Yadav criticized the move, calling it inappropriate to conduct government business during a sacred event. "Kumbh is a holy occasion, not a platform for political programs," he remarked. Responding to such criticism, Deputy CM Brajesh Pathak said, "The cabinet meeting reflects our intent to prioritize development in areas that matter most. The opposition should recognize the transformative potential of these initiatives instead of resorting to baseless attacks." This initiative aligns with the government's broader vision of establishing Uttar Pradesh as a hub for religious tourism. By integrating cultural preservation with infrastructural development, the new religious circuit is expected to attract pilgrims and tourists from across the country, ensuring the preservation of the state's heritage while fostering modernization.

Objectionable comments on Maha Kumbh spark outrage, two arrested

BISWAJEET BANERJEE ■
BARABANKI

The police have arrested two individuals for making objectionable remarks about the Maha Kumbh and Hindu deities, triggering widespread anger among the Hindu community. The incidents, which surfaced on social media, have prompted the authorities to issue a strict alert for online content monitoring to prevent further provocation. The first incident occurred in the City Kotwali area, where a video of the Maha Kumbh bath was shared on social media with offensive comments. As the video went viral, it reached senior officials, leading to immediate intervention from the state administration. On Tuesday late night, the City Kotwali police arrested Kamran Alvi, a resident of Deva Road, Civil Lines. Kamran was charged under sections 67 and 299 of the newly implemented BNS Act for insulting religious

sentiments. Speaking about the case, City Inspector Alok Mani Tripathi said, "Such comments are not just offensive but are a deliberate attempt to vitiate the peaceful atmosphere of the city. The accused has been taken into custody and will be presented in court. We are also

investigating others who may have played a role in circulating the video." In a separate case, Abhishek Kumar, a resident of Boja village in Jaipur, was arrested for posting inflammatory remarks about Hindu deities and the Maha Kumbh. According to SHO Amit

Pratap Singh, "The accused was apprehended immediately after the comments came to light. We have registered a case, and further investigations are underway. We will not tolerate any attempts to disturb communal harmony." Members of Hindu

organizations have strongly condemned these incidents, labeling them as deliberate provocations to disrupt social harmony. At Patel Square, one of Barabanki's busiest locations, a large screen continuously displays a film highlighting the significance of the Maha Kumbh. Community members argue that the comments were intended to provoke anger and disrupt the otherwise peaceful atmosphere. "Hindu festivals like the Maha Kumbh symbolize unity, spirituality, and our cultural heritage," said Rajesh Sharma, a local member of a Hindu organization. "When someone mocks such events or our deities, it hurts the sentiments of millions and creates unnecessary tensions." Anita Tiwari, a devotee, echoed these sentiments, saying, "The Maha Kumbh is a sacred event that unites people from all walks of life. Such derogatory comments are not only disrespectful but

also an attack on our collective faith. Strict action must be taken to deter such behavior in the future." Authorities have issued an alert, urging people to be cautious while sharing or commenting on social media content related to religious events. "Social media is a powerful tool, but it must be used responsibly," said Alok Mani Tripathi. "We will monitor platforms closely and take strict action against any content aimed at disrupting peace." As the Maha Kumbh continues, the police have assured the public of heightened vigilance to maintain harmony. "We appeal to citizens to report such content immediately and refrain from spreading inflammatory messages," added SHO Singh. The arrests serve as a stark reminder of the consequences of using social media irresponsibly, especially in a country as diverse as India, where religious sentiments run

Shri Ram Bank loans devotees the name of Lord Ram

BISWAJEET BANERJEE ■
PRAYAGRAJ

Amidst the bustling Maha Kumbh Mela, there is a unique bank that does not deal in money but in faith. Shri Ram Bank, an institution with a 150-year-old legacy, offers "loans" to devotees in the form of "Ram Naam" (the name of Lord Ram). The bank encourages people to write the name of Lord Ram, and the response has been overwhelming, with millions of "Ram Naam" written and circulated so far. The bank's temporary branch was set up in Sector 6 of the Kumbh Mela on December 22. According to its custodian, Ashutosh Varshney, this bank operates just like any other—complete with loan disbursements, EMIs (equated monthly installments), and meticulous record-keeping. "The minimum loan is for writing 1.5 lakh 'Ram Naam,' but devotees can take more if they wish. The writing is done in

specially printed booklets provided for free, and every page records the number of 'Ram Naam' written," Varshney explained. **How the System Works** Devotees return the filled booklets to the bank, which are then used to grant loans to others. For instance, if a devotee takes a loan of 1.5 lakh "Ram Naam," they repay it by writing and submitting the

same number. To date, over 25 individuals have taken loans to write crores of "Ram Naam," with the final data expected to be released after the Maha Kumbh concludes. The bank accepts entries in multiple languages, including Hindi, English, Urdu, and Bengali. Anyone aged between six and 80 years can take a loan, but there are conditions—borrowers must abstain from

consuming meat, alcohol, garlic, and onions while fulfilling their loan. "The only requirement is a photograph for identification," said Rajkumar, a bank promoter at the Kumbh branch. The initiative has also drawn international devotees. Among them are Henk Kelman from the Netherlands, who now goes by the name Ramkrishna Das, and Sonal Singh, an Indian-origin resident of the U.S. Both have taken loans to write one crore "Ram Naam" each. **From Ledger Books to E-Ram** Tracing the bank's history, Ashutosh Varshney revealed, "I am the fifth generation in this tradition. It began with traders in the Chowk area who donated 10% of their earnings for social causes. Writing 'Ram Naam' emerged from this practice. Initially, it was recorded in ledger books, later in printed booklets, and now, we have introduced 'E-Ram' for digital transactions through social media platforms."

ISRO unveils satellite images of Maha Kumbh

PIONEER NEWS SERVICE ■
NEW DELHI/MAHAKUMBH NAGAR

The Indian Space Research Organisation (ISRO) on Wednesday released before and after satellite images of the tent city here giving an insight into the grandeur of the Maha Kumbh which is drawing crores of people from across the world to take a holy dip at the Sangam.

Maha Kumbh, a mega-religious event organised every 12 years, is being held in Prayagraj from January 13 and will continue for 45 days till February 26. More than eight crore pilgrims have taken a holy dip at the Sangam so far. "Time series images (15 Sep 2023 & 29 Dec 2024) of EOS-04 (RISAT-1A) 'C' band microwave satellite, with its all-weather capability and fine resolution (FRS-1, 2.25m), provides unique insights on details of the Tent City (Layout of Structures and Roads) along with its network of pontoon bridges and supporting infrastructure, set up for the

Maha Kumbh Mela 2025," ISRO said in a statement. The time series images captured by the satellites show the construction of Shivalay Park, the India-shaped park in Prayagraj, spread across 12 acres of land and is designed to be a major attraction for the festival. The images taken on three separate dates capture the construction of the landmark. On the National Remote Sensing Centre's (NSRC) website, time series images of the Triveni Sangam were also shared, showing the difference via images captured in September 2023 and on December 29, 2024. Three time series images also captured the Prayagraj Sangam and the zoomed section of the River Ganges showing temporary pontoon bridges. Several time series images of the Parade Grounds also showed the transformation the location went through as the city geared up to welcome millions of worshippers and host one of the largest congregations on Earth.

Defense Minister Rajnath Singh inaugurates Sainik school in Kerala

KUMAR CHELLAPPAN ■ KOCHI

Rajnath Singh, union defense minister on Wednesday, reminded the people of the country that the term Sainik is not confined to that of waging battle but it has a broad meaning. "Through Sainik Schools, we are moulding future leaders to take the country to new heights in all social fields. Please remember that persons like Swamy Vivekananda, Adi Sankaracharya, Sree Narayana Guru, Raja Ravi Varma were all soldiers fighting in different battlefields for social and cultural transformation of the nation," said Rajnath Singh while dedicating to the nation the fourth Sainik School in Kerala launched under the auspices of

Vidhyadhiraja Vidyapeetom at Mavelikkara in Alappuzha district. Interestingly, even as the minister was inaugurating the school, functioning of schools across Kerala came to an almost

standstill following the agitation by various trade unions of teachers demanding more pay and parks and lesser working hours. The new school is part of the initiative of the Prime

Minister's Scheme to set up 100 such schools across India to make available top quality education to all sections of society. Kerala has three Sainik Schools functioning in Thiruvananthapuram, Ernakulam and Kozhikode districts. While the Sainik School at Thiruvananthapuram is owned by the Government of India, the schools at Ernakulam and Kozhikode are managed by private management. The Sainik School at Mavelikkara is a dream come true for Vidhyadhiraja Educational and Charitable Trust launched in 1978. The school is affiliated to the Sainik School, Government of India. Students who pass out from the fifth standard in other schools

are eligible to apply for admission to the sixth standard and the selection is based on an all India entrance examination. Jayaprakash Valliathan, a marine engineer-turned-educationist told The Pioneer that 60 per cent of the total seats are reserved for students from the Vidhyadhiraja Vidyapeetom Central School while the remaining seats are available for students from rest of the country. "The curriculum has been prepared as per the directives of CBSE New Delhi and Sainik School Society. The students in the Sainik School stream get a taste of life in the defense services with specially trained teachers imparting them training in physical education, sports and games,"

said Valliathan. Minister Rajnath Singh further stated that the last few years saw a jump in the number of Sainik Schools functioning in the country. "There were just 33 Sainik Schools in India but the number has gone up by manifolds because the nation is in need of youngsters with discipline, dedication and commitment to work not only in the armed forces and para military forces but in other areas too," said the minister. He pointed out that the Sainik Schools are the stepping stones to career in defense forces. "Since the Forces have started appointing girls too as officers, we need more trained professionals as well as Sainik Schools," he said.

PAPER WITH PASSION

A Boost for Indian Professionals

H-1B visa reforms by Trump will go a long way in addressing the anomalies in the visa system and help Indian professionals

The H-1B visa has long been a critical pathway for skilled foreign workers, particularly Indians, to contribute to the US economy. With Indians accounting for over 72 per cent of H-1B visa recipients in 2023, any reform in this programme significantly impacts the Indian professional community. In his second term, President Donald Trump introduced groundbreaking reforms to the H-1B visa programme, shifting the selection process from a lottery-based system to a salary-based model. These changes, effective from January 17, 2025, aim to prioritise highly skilled professionals and streamline the visa process. The H-1B visa programme was established in 1990 to allow US companies to hire foreign workers with specialised skills. It has been a cornerstone of the tech and engineering sectors, enabling companies to bridge skill gaps. In 2023 alone, 386,000 H-1B visas were issued, with nearly three-quarters going to Indian nationals. This programme not only benefits the US economy by

addressing skill shortages but also strengthens India-US ties through the exchange of talent and innovation. The most notable change is the replacement of the lottery system with a salary-based selection process. This reform ensures that highly skilled professionals with competitive salaries are prioritised, making the programme more meritocratic. Besides, now the Indian professionals living in the US will be able to renew their H-1B visas domestically, eliminating the need for costly and time-consuming international travel. Another good news for the Students studying in the US on F-1 visas can now transition to H-1B visas more efficiently, fostering smoother

career progression. Now on, research-oriented institutions are exempt from the annual visa cap, encouraging academic and scientific innovation. These reforms are poised to significantly benefit Indian professionals and students. With salary as the primary criterion, skilled Indian workers in high-demand sectors like technology, engineering and healthcare are likely to secure visas more easily. The streamlined process and in-country renewals will reduce uncertainties for professionals and their families. By retaining top talent, these changes will further strengthen the economic and technological collaboration between the US and India. President Trump's reforms reflect a strategic approach to talent acquisition and economic growth. By aligning visa policies with the needs of US businesses and rewarding merit, these changes demonstrate a commitment to fostering innovation and efficiency. While these reforms are a step in the right direction, they would require stricter scrutiny of visa holders and employers. This measure ensures transparency but might pose challenges for smaller companies offering competitive but lower salaries. Moreover, the shift in focus could pressure Indian professionals to align their career trajectories with higher-paying roles, potentially impacting sectors like academia and non-profits.

Initiatives promoting media literacy, particularly among youth, can help bridge the gap between traditional journalism and contemporary audiences

In 1780, James Augustus Hicky published India's first printed newspaper, 'Hicky's Bengal Gazette,' also known as the Calcutta General Adv, normative power of print media.

It was the printing press that propelled humanity into a new era of knowledge dissemination. In India, newspapers have become an essential pillar of democracy, freedom of expression, and public discourse. The celebration of Indian Newspaper Day reminds us of the transfer of a potent tool in the freedom struggle, awakening the masses to issues of injustice and fostering a collective national consciousness. The legacy of stalwarts like Mahatma Gandhi, who wielded publications like Young India and Harijan as instruments of change, underscores the unparalleled influence of newspapers in shaping society. Historically, the press has been a mirror reflecting societal truths, a watchdog ensuring accountability, and a platform amplifying diverse voices. Newspapers have been central to the articulation of ideas, the dissemination of information, and the fostering of debate and dialogue. The printed word has held power, credibility, and a permanence unmatched by fleeting digital narratives. Yet, the world of print media today faces an existential crisis. In an era dominated by smartphones, the internet, and instant news apps, the relevance of traditional newspapers is being questioned. Circulation and readership have declined sharply.

Advertisements, which once constituted the backbone of newspaper revenue, have shifted to digital platforms. The COVID-19 pandemic accelerated this decline, as lockdowns disrupted distribution networks and readers turned to online alternatives. The Fourth Estate, embodied by traditional media, has paved the way for the Fifth Estate, represented by social media, as youth increasingly gravitate toward digital platforms for their news and engagement. India, despite its rich newspaper history, has not been immune to these global trends. While the country boasts a vibrant linguistic diversity in its

press—with publications in Hindi, English and regional languages—even stalwarts like Dainik Bhaskar and Malayala Manorama are grappling with reduced readership. Legacy newspapers such as Deepika, India's oldest surviving Malayalam publication, and Mumbai Samachar, the nation's longest-running newspaper, now struggle to adapt to the digital age. The shift is not merely technological but also cultural. The younger generation's preference for quick, digestible content over in-depth reporting signals a change in information consumption patterns. Traditional newspapers, with their rich investigative journalism and nuanced storytelling, are increasingly viewed as slow and outdated.

The immediacy of apps like Daily Hunt and platforms offering free e-papers has made paying for physical newspapers seem redundant. This decline, however, should not overshadow the irreplaceable value of print media. Unlike digital platforms prone to misinformation and algorithmic biases, newspapers have long been trusted for their credibility and editorial rigour. They offer a depth of coverage that ensures stories are not just told but examined and contextualised. Newspapers are archives of history, recording

HIGH LITERACY RATES AND A CULTURE OF RESPECT FOR WELL-RESEARCHED JOURNALISM HAVE ENABLED NEWSPAPERS TO THRIVE EVEN IN A DIGITAL AGE

events with an accuracy and permanence that digital platforms, with their ephemeral nature, cannot replicate. Japan provides a remarkable case study in media literacy and the enduring power of print. Despite being at the forefront of technological innovation, Japan boasts the world's largest-circulated dailies, such as Yomiuri Shimbun with a circulation nearing 10 million and Asahi Shimbun not far behind. High literacy rates and a culture of respect for well-researched journalism have enabled newspapers to thrive even in a digital age. This example underscores the potential for print media to coexist with digital platforms when supported by an informed and engaged readership.

Indian Newspaper Day is a reminder to recognise and preserve this legacy. While print media must innovate to survive, readers, too, bear a responsibility to support credible journalism. The rise of e-papers and hybrid models—combining print and digital—offers hope for the industry's evolution rather than extinction. Newspapers continue to play a vital role in fostering democracy. They provide a platform for marginalised voices, hold power to account, and offer citizens the information they

need to make informed decisions. At a time when digital echo chambers threaten the very fabric of public discourse, newspapers serve as a counterbalance, offering diverse perspectives and challenging groupthink.

The theme of survival is intrinsic to the narrative of Indian newspapers. Just as Hicky's Bengal Gazette persevered despite colonial censorship and competition, today's publications must navigate the challenges of the digital age. The story of newspapers is one of resilience and adaptation. From the handwritten Acta Diurna of Julius Caesar's Rome to Gutenberg's printing revolution, and from Hickey's modest four-pager to modern broadsheets like The Times of India, the medium has continually evolved to meet the needs of its time. As we celebrate Indian Newspaper Day 2025, it is an opportunity to reflect on the enduring significance of the printed word. While the medium may change, the principles of journalism—truth, accountability, and the public good—remain timeless. It is up to readers, journalists, and policymakers to ensure that these principles continue to thrive in an age of rapid technological change. (The writer is an associate professor; views are personal)

LETTERS TO THE EDITOR

US EXITS FROM PARIS AGREEMENT

Madam — American President Donald Trump signed an executive order on Monday, pulling the US out of the Paris climate agreement. The Paris Agreement provides a durable framework guiding the global effort for decades to come, marking the beginning of a shift towards net-zero emissions. Thus, at a time when the whole world prepares to celebrate the International Day of Clean Energy on January 26, Trump's decision to exit is a severe blow to worldwide efforts to combat global warming. The way Donald Trump signed an order to withdraw the US from the Paris climate agreement for a second time reflects his party's hawkish stance on the agreement. In fact, the track record of the Republican Party shows its reluctance to make any commitment on an action plan on climate change. Even in the case of the Kyoto Protocol, President George W Bush had withdrawn the signature of the Democrat Vice President Al Gore, who had signed the Protocol on behalf of the US. The Republicans want any future American involvement in climate change agreements to be matched by equivalent commitments by developing country parties. Will recent severe natural disasters due to climate change, ranging from floods in Florida to wildfires in California, open the eyes of the Republicans?

Manoj Parashar | Ghaziabad

LACK OF SKILLED WORKERS

Madam— When the issue of the growing threat of unemployed youth came to the fore, a few industrialists expressed the fact that they were facing difficulty in getting skilled and employable youth to recruit in their firms. It was then the Union government came with the apprenticeship scheme under which willing unemployed youth are allotted firms to take training with a monthly incentive to trainees as well as the firm. Though 500 firms were to be identified to engage under this scheme, the number could not

Ban criminals from contesting election

The Supreme Court observation barring criminals from contesting elections should be taken into cognisance by the government, the Elections Commission and the political parties. The SC should have passed the order incorporating such observation in the interim bail order, thus binding the EC, the government, and the parties. How can a criminal, violating laws, killing people, illegally possessing properties,

confiscating others' lands and buildings, extorting, and rioting, serve as a public representative in the Parliament, assemblies, and local municipal bodies? Uttar Pradesh and Bihar are glaring examples of such billionaire mafia dons whose crime list knew no bounds.

Both states suffered in development, education and growth for decades. Fielding the criminals and convicted killers in the elections is the antithesis of democracy and the Constitution. Money and muscle power win elections for them even if in jails. Such a list is quite exhaustive across all political parties. If 25-30 per cent of elected representatives have a criminal background, people are also to be blamed for their own decline and eclipsed future. Some political parties prominently field criminals and extremists in elections and depend on the cadre of criminal backgrounds.

Vinod Johri | Delhi

SENIOR CITIZEN DEMAND CONCESSIONS

Madam — The Union Budget 2025-26 is going to be presented in Parliament on the first of February. One of the pressing demands on the minds of many senior citizens is whether the Indian Railways will bring back concessions on train fares for senior citizens. The issue holds significant importance as it directly impacts about 15 crore senior citizens across the nation. The Indian Railways had, in March 2020, decided to withdraw the concessions providing a 50 per cent discount to female senior citizens and a 40 per cent discount to males on train fares. According to Railways norms, males and transgenders aged 60 and above and females aged 58 and above, are treated as senior citizens. It represents a pivotal opportunity for the government to demonstrate its commitment to elder care, social equity, and responsive governance by restoring concessions to senior citizens in the ensuing budget.

Breaking the cycle of violence: Lessons from personal trauma

Violence against the weak manifests in countless forms—child abuse, bullying, ragging, molestation and domestic violence—leaving deep and often irreparable scars

SANJAY CHANDRA

Violence against the weak is a timeless and universal phenomenon. Child abuse, bullying, ragging, eve-teasing, molestation and domestic violence are only a few that can result in irretrievable damage to the psyche or can even have tragic consequences. I joined the hostel for the first time as a 12-year-old adolescent. I was out in the world, away from the shelter of my parental love, trying to overcome my insecurities.

One time a senior shouted at me to fetch a packet of cigarettes from the dormitory. I still remember my tears as I was roughly reprimanded for being tardy. I was scared of the hostel life. Three years later, I joined the college hostel. Ragging had not yet been banned and was openly indulged in by seniors. It was supposed to be a harmless fun activity to initiate the newly joined youngsters into college life. It had degenerated into something completely different. One Sunday, we were forced to sit above the wardrobe and hurl choice profanities at each other. I mouthed words

from my limited vocabulary. We were so traumatised that we started returning home over the weekends. When our parents questioned us, we started bicycling into the desert on the weekends when ragging was at its peak. We slept in remote towns before returning to the campus at the start of the week. We even spent a night in the waiting room of a railway station. We were particularly wary of one young man called the 'ragging king'. In time, after the freshers had been welcomed, I settled down. I forgot my earlier

trauma and looked forward to the next year when I would be bestowed the dreaded title by the new arrivals. One incident changed my outlook. I was ragging a fresher, who was terrified and not responding to my questions. Frustrated, I barked at him to jump into a nearby well. Much to our horror, he turned around and ran towards it. Momentarily stunned, I must have run the fastest race of my life and managed to stop him in the nick of time. I was a changed person. The government stepped in to ban the practice. Sadly, it continues.

A recent news report mentioned ragging in several medical colleges where male seniors force fresh entrants to memorise and read aloud from booklets filled with profanities and promoting sexual violence against women, specifically against classmates and nurses. The booklet also teaches freshers to look at women of all ages, including those in the 0-15 years age bracket, as sex objects. Many of us may have been at the receiving end of the local or the school

bully. It exists even at the workplace, sometimes in the guise of the rude superior who would not think twice before throwing the file back at you, or the one preying upon the junior female colleague. Women do not have a pleasant experience travelling on public transport. They are afraid to step out after sunset.

Every day we read of brutal assaults and deaths. The list is endless. Many are unable to bear the trauma and give up on life. I am not a psychologist. The reasons might be more complex than blaming it on not inculcating the right values in the children. But, that can be a starting point. We can teach our young what English author Brian Jacques wrote in one of the Redwall series of fantasy novels for children, "Defend the weak, protect both young and old, never desert your friends. Give justice to all, be fearless in battle, and always ready to defend the right." (The author is an electrical engineer with the Indian Railways and conducts classes in creative writing; views are personal)

FIRST COLUMN

SHUN THE VIOLENCE,
EMBRACE PEACE

True transformation lies not in vengeance but in reconnecting with the divine qualities of love and peace

RAJYOGI BRAHMA KUMAR NIKUNJ JI

Today we are living in a world where violence has become our culture. It may be seen in the hundreds of wars going on in different parts of the world or it may be seen through innumerable violent incidents that occur every day in cities and homes across the universe. So, what exactly has led to the spread of violence so much even though people strongly denounce it? We all know that the history of human civilisation is an epic saga of violence punctuated by episodes of relative calm. Violence, subtle and gross, manifest and incognito, has been the defining force of humanity's quest for power in the last two millennia. The rise and fall of empires, the religious crusades and socio-political uprisings down the ages were impelled by violence on a massive scale. One of the major reasons why violence has become so deeply embedded in the human psyche is that on the one hand, we denounce it but on the other hand we condone or even justify it. In the 21st century, which we all boast of living in, violence has been glorified in ingenious ways by the media, especially television, the internet and films. A world that has been fed so much on violence is no wonder becoming increas-

ingly dangerous to live in for its occupants. It's a known fact that today violence has become the means to seek political and social justice. Men kill men in the name of the almighty and later on, these killings are then justified as dharma by the custodians of religion when it is used for a righteous purpose. Amidst all these, a question that comes up is, Can one justify so much violence? Or, can violence ever root out adharma (unrighteousness)?

Well!!!! To conquer dharma we need to first understand the true dharma of the self. We all must realise that good or evil are the traits of the human soul and even after death these traits or *sanskar* are carried on to the next birth. This *sanskar* may change or become stronger as per the person's karma in the next life. Hence, it follows that one may kill an evil person but one cannot destroy the evil in that person. It would instead increase due to feelings of hatred and revenge. Remember!! An evil act is bound to be punished as per the Law of Karma in the present or the next birth because there is a natural justice system that works infallibly and eternally. Hence, one must never think that if someone avenges a wrong by doing wrong in turn, he/she will not suffer. No!! The truth is that in this case, both persons will have to pay for their respective wrong actions by undergoing some suffering because any act done with ill will towards others is violence and it is bound to bring sorrow for the doer. Hence, a person may escape the laws of the land but his karma will catch up with him sooner or later for sure. We all need to understand the philosophy behind the word religion or dharma. Dharma in the true sense simply means living by eternal spiritual values such as peace and love. When we share love and goodwill with others it is bound to stir up similar feelings in that person. On the contrary, when we hate and harm others it is bound to spark ill will in them. The world that God created for us was a completely non-violent and harmonious world where no evil existed. Goodness exists eternally; it is when we begin to lose touch with our real values that we are enslaved by negative tendencies. We are all children of "Almighty" who is the ocean of love, peace and joy, so his qualities are our qualities too eternally, aren't they? That is why all humans resist hatred. They never resist love or joy. He is always merciful and benevolent towards all, so how can he justify violence? And the only way to bring peace and harmony back on earth is to empower ourselves spiritually and rid our minds of all negativities. This will uproot violence completely out of the world and the world would become the one that it was, serene and peaceful.

Renuka Ji Dam: Addressing
Delhi's water woes

K S TOMAR

Conceived over half a century ago on Giri River in Himachal Pradesh, the Renuka Ji Dam is finally set to redefine water and energy security across six Indian states

The visionary Renuka Ji Dam project, conceived 58 years ago on Himachal Pradesh's serene Giri River, is finally transcending decades of delays to emerge as a game-changer. This landmark initiative promises to alleviate Delhi's chronic water scarcity while energising Haryana, Rajasthan, Uttarakhand, Uttar Pradesh and Himachal Pradesh with sustainable power generation. Beyond its functional benefits, the dam exemplifies federal cooperation and political resolve. Prime Minister Narendra Modi virtually laid the foundation stone of this Rs 6,946-crore project on December 27, 2021. Now, with 95 per cent of procedural hurdles cleared, global tenders will soon be floated, paving the way for construction. Cost estimates have surged to Rs 8,262 crore, factoring a 5 per cent annual escalation. Targeted for completion by 2030, with operations commencing in 2032, this project's progress is critical for Delhi and beyond.

For Delhiites, the dam symbolises the realisation of a 58-year-old aspiration. The stored water will be routed to Delhi-NCR, Uttar Pradesh and Haryana through the Hathnikund Barrage, further reaching the Wazirabad and Okhla Barrages. Delhi's water demand exceeds 1,200 million gallons daily (MGD), with severe shortages during summer. The Renuka Ji Dam, promising 275 MGD, will bridge this deficit, bolstering domestic supply, industrial growth, and infrastructure development. Haryana leads with a 5.73 BCM share (47.82 per cent), contributing Rs 555.95 crore. Uttar Pradesh's 3.721 BCM (31.05 per cent) follows with Rs 361.04 crore. Rajasthan holds 1.119 BCM (9.34 per cent), contributing Rs108.58 crore. Himachal, Uttarakhand, and Delhi contribute Rs 36.67 crore, Rs 30.17 crore, and Rs 70.25 crore, respectively. Uttarakhand's share of water in the upper Yamuna basin is 0.311 BCM, which constitutes 2.60Rs30.17 crore of the total share. Together, the states allocate Rs 1,162.66 crore for this critical project.

Originally slated to showcase progress before Delhi's 2025 Assembly elections, the dam faced delays, pushing construction timelines by 5-6 months. Intervention by the Prime Minister's Office (PMO)

RENUKAJI, NESTLED IN HIMACHAL'S SIRMAUR DISTRICT, IS IDEAL FOR THE DAM DUE TO ITS GEOGRAPHICAL AND HYDROLOGICAL ADVANTAGES. THE GIRI RIVER, A YAMUNA TRIBUTARY, ENSURES A STEADY WATER FLOW

could expedite design approvals and tendering. Local tensions remain high. The Jan Sangharsh Samiti criticised project authorities for inadequate rehabilitation efforts, including compensation gaps for displaced families. Activists demand higher pay-outs aligned with Public Works Department estimates, claiming the current compensation is insufficient. Harikesh Meena, Managing Director of HP Power Corporation, refutes these allegations, stating Rs 1,573 crore has been disbursed, with 90 houseless families offered relocation options. Himachal Pradesh is set to gain 200 million units of electricity annually, worth Rs 66 crore. Delhi has already transferred Rs 270 crore, funding 90 per cent of the Rs 300-crore power machinery cost, underscoring the project's importance. Renuka ji, nestled in Himachal's Sirmaur district, is ideal for the dam due to its geographical and hydrological advantages. The Giri River, a Yamuna tributary, ensures a steady water flow.

The site also holds immense cultural significance. Named after Goddess Renuka, the mother of Parashurama (an avatar of Lord Vishnu), the area is steeped in mythology. Renuka Lake, India's largest natural lake, draws pilgrims year-round. Ancient temples dedicated to Goddess Renuka and Lord Parashurama further enhance its spiritual and historical value. The project blends technological ambition with religious reverence, ready to address Delhi's water woes and power needs for generations. The Rs 8,262.28-crore Renuka Ji Dam project, a 148-meter-high rock-filled structure, will transform water and power availability across six states. Submerging 1,508 hectares and displacing 7,000 residents, including 346 houseless families, the project spans 41 villages across 25 panchayats. Proposed in 1976, the dam faced decades of procedural hurdles. Initially estimated at Rs 4,596 crore

in 2015, costs have ballooned. A significant milestone was achieved in January 2019, when a MoU among the six beneficiary states, brokered by then Union Minister Nitin Gadkari, resolved water-sharing disputes. In 2022, the Cabinet Committee on Economic Affairs, chaired by PM Modi, approved financial support, pushing the project into execution mode. Located near Dadahu village, the dam will store 498 million cubic meters of water, routed to Delhi-NCR, Uttar Pradesh, Haryana, and Rajasthan via key barrages. As part of the PM Krishi Sinchayee Yojana, it will deliver 23,000 litres per second to Delhi. Additionally, incidental hydroelectric power generation (40 MW) will earn Himachal Rs120 crore annually. Technical Experts predict a 110 per cent increase in the Giri River's flow, ensuring reliable water supplies during lean periods. Despite challenges faced by displaced communities, the Renuka Ji Dam promises long-term benefits: improved water security for Delhi, agricultural irrigation, and energy generation marking it a milestone in cooperative federalism and infrastructure development.

Despite its potential, the project's journey was fraught with challenges. Environmental concerns, inter-state disputes, land acquisition hurdles, and funding delays plagued progress. Securing environmental clearances was a monumental task. Forested landscapes raised alarms over wildlife displacement and green cover submergence. Years of negotiations and compensatory afforestation plans eventually paved the way. Inter-state discord over water-sharing ratios and financial contributions delayed progress. Himachal Pradesh had to acquire 1,477 hectares of land, including 909 hectares of forest. Protests and legal battles over compensation and rehabilitation compounded delays until enhanced packages and livelihood restoration initiatives placat-

ed affected communities. The project's escalating cost was another sticking point. Initially pegged at Rs 3,600 crore, delays ballooned the budget to Rs 6,946 crore by 2021. Financial deadlock broke when the central government agreed to fund 90 per cent of the cost under the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY). This eased the financial burden on states, with Delhi swiftly sanctioning Rs 1,066 crore as its share. The central government played a crucial role in reviving the project. Integrating it into initiatives like the Jal Shakti Abhiyan and National Action Plan on Climate Change (NAPCC), underscored the dam's importance. Accelerated clearances, robust mediation, and funding commitments demonstrated political resolve. With construction set to commence by mid-2025 and completion targeted for 2032, strict oversight will ensure timely execution.

The Renuka Ji Dam epitomises cooperative federalism at its finest—where the centre and states unite to tackle shared challenges. For Himachal Pradesh, it heralds economic growth, energy self-sufficiency, and enhanced infrastructure. For Delhi, it is a lifeline, promising a reliable solution to its chronic water crisis. Beyond immediate benefits, the dam's capacity to regulate river flow and mitigate downstream flooding enhances its value as a climate-resilient infrastructure. As a testament to sustainable development, the Renuka Ji Dam underscores the synergy of political will, inter-state collaboration, and community engagement in overcoming complex challenges. By transforming Himachal Pradesh into a green energy hub and securing Delhi's water needs, the project exemplifies inclusive growth and environmental stewardship.

Empowering panchayats: The key to achieving Viksit Bharat 2047 through community actions

India must transition from top-down governance to a model where community leadership is the driving force behind sustainable development

India's development trajectory has been shaped by significant contributions from the office of Prime Minister (PM), Chief Minister (CM) and District Magistrate (DM). To achieve the vision of Viksit Bharat 2047, empowering Panchayat leadership, headed by Village Mukhiya (VM) is a critical strategy.

The 73rd Constitutional Amendment Act of 1992 mandated the transfer of authority of 29 functions, underscoring their vital role in delivering services directly to the communities. Despite this mandate, Gram Panchayats (GP) lack functionaries and have limited infrastructure and capacity for planning and implementation. This often leads to either underutilisation

MANMOHAN SINGH

of allocated funds or prioritising local infrastructural projects decided by either the district or state. Addressing these challenges is crucial for India to meet its Sustainable Development Goals (SDGs) and improve its Human Development Index (HDI) ranking. It requires building

the capacity of GPs to adeptly identify, plan, and implement projects that align with the needs established through Gram Sabha.

The Panchayat Raj System established panchayats as the foundation of decentralised power, emphasising that sustainable development must begin with our smallest unit of democracy: the Panchayat, led by the VM (Sarpanch). Elevating the role of the VM akin to the PM and CM at the centre and state, supported by a strong administrative structure, can drive effective grassroots decision-making. The Ministry of Panchayati Raj has grouped the 17 SDGs into nine themes, demonstrating India's commitment to achieving these goals through the implementation of Localised

SDGs (SDGs) by Panchayats. GPs across India, are tasked with creating Gram Panchayat Development Plans (GPDs) that align with LSDG priorities. However, a survey of 800 panchayats revealed that only 7 per cent of Sarpanches independently chose their LSDG themes using the Gram Panchayat Planning Facilitation Tool (GPPFT), while 34 per cent of themes were decided by Block officials, 22 per cent by Sarpanches or Sachivs, and 16 per cent were directed by the state, reflecting a need for strengthening planning at the panchayat level.

To develop Viksit Panchayats, four key actions are proposed: **Support panchayat for last-mile convergence:** When a 13-year-old girl drops out of school, the responsibility

extends beyond the education department, requiring collaborative efforts across health, social welfare, and community development. A central coordinating body at the village level, led by the VM can drive such convergence. For instance, Anita Devi, Village Mukhiya of Bhetaura Panchayat in Gaya, Bihar has

embraced the 'Healthy Panchayat' LSDG theme. Collaborating with ASHAs, Anganwadi Didis, and Gandhi Fellows to achieve 'Zero Home Delivery' eventually boosting institutional delivery rates from 25 per cent to nearly 90 per cent in just one year. Replicating such successes requires empowering panchayat through convergence of funds, and functionary and administrative support.

Reimagine development of Panchayat Leaders: India has 2.6 lakh elected VMs, dedicated to strengthening panchayat governance. Prime Minister's call to bring 1 lakh youth into politics is a great encouragement for local youths. To unlock their full potential, we need to reimagine the institutional framework

that focuses on capacity building for elected 'VM and Ward Members'. For example, Jyoti Behar Devi, Mukhiya in Gumla, Jharkhand, banned alcohol in her panchayat, focused on livelihood opportunities and also started the "Siti Bajo aur School Aao" campaign to boost school attendance, effectively transforming her community. **Democratise data through Panchayat:** Village Mukhiyas, as key information providers of government schemes, need real-time access to comprehensive beneficiary data and scheme details. Implementing technology solutions that provide such access is paramount for informed decision-making and efficient governance. The Ministry of Panchayat Raj and the Ministry of Rural

Development has taken some initiatives which need further integration with planning and execution at the panchayat level.

Revitalise Village Committees Village-level committees such as School Management Committees, Village Health and Sanitation Committees, Jan Arogya Samitis, and Village Water and Sanitation Committees, play a pivotal role in fostering decentralised governance and community participation in development efforts. To achieve Viksit Bharat, these committees need to align to avoid duplication of efforts and promote community ownership.

Sanctions on Russia likely if Putin skips talks: Trump

PTI ■ WASHINGTON

US President Donald Trump on Tuesday said he is ready to meet his Russian counterpart Vladimir Putin anytime, but at the same time warned that he would likely impose sanctions on Russia if the latter does not come to the negotiations table on the issue of Ukraine. "It sounds likely," Trump told reporters when asked if the US will impose additional sanctions on Russia if Putin doesn't come to the negotiation table. "The war should have never started. If you had a competent President, which you didn't, the war wouldn't have happened. The war in Ukraine would have never happened if I were the president," Trump said. "Russia never would have gone into Ukraine. I had a very strong understanding with Putin. That would have never, ever happened. He disrespected Biden. Very simple. He disrespects people. He's smart. He understands. He disrespected Biden," Trump said. "Also, the Middle East would have never happened because Iran was broke," he added. Responding to a query, Trump said he

is ready to meet Putin anytime. "Anytime they want, I'll meet. Millions of people are being killed... It's a vicious situation and they're now largely soldiers. A lot of people have been killed and the cities look like demolition sites," he said. "The thing with Ukraine is that many more people died than what you're reporting. You're not reporting the real numbers, and I'm not blaming you for that. I'm blaming maybe our government for not wanting to release those numbers," Trump told reporters. Asked if the US will continue sending weapons to Ukraine, or will he turn off the tap soon, Trump said he is looking into the matter. "We'll look into that. We're talking to (Volodymyr) Zelenskyy. We're going to be talk with President Putin very soon, and we'll see how it all happens. We're going to look at it very soon," he said. "One thing I do feel is that the European Union should pay a lot more than they're paying, because under Biden, I mean, we're in there for USD 200 billion more. Now it affects them... We have an ocean in between, right? The European Union should equal us. We're in there for USD 200 billion more than the European Union. I mean, what are we, stupid? I guess the answer is yes," the president said. Trump also said that Ukraine President Zelenskyy told him that he would like to have peace. "He's told me that wants to have peace very strongly, but it takes two to tangle. We'll see what happens. Anytime they want, I'll meet. I'd like to see that end. Millions of people are being killed. It's a vicious situation," he said.

Trump admn sends federal diversity staff on leave

Washington (PTI): President Donald Trump's administration is directing that all federal diversity, equity and inclusion staff be put on paid leave, and that agencies develop plans to lay them off, according to a memo Tuesday from the Office of Personnel Management. The memo follows an executive order Trump signed on his first day ordering a sweeping dismantling of the federal government's diversity and inclusion programs that could touch on everything from anti-bias training to funding for minority farmers and homeowners. The memo directs agencies to place DEI office staffers on paid leave by 5 p.m. Wednesday and take down all public DEI-focused webpages by the same deadline. Several federal departments had removed the webpages even before the memorandum. Agencies must also cancel any DEI-related trainings and end any related contracts, and federal workers are being asked to report to Trump's Office of Personnel Management if they suspect any DEI-related pro-

gram has been renamed to obfuscate its purpose within 10 days or face "adverse consequences." By Thursday, federal agencies are directed to compile a list of federal DEI offices and workers as of Election Day. By next Friday, they are expected to develop a list to execute a "reduction-in-force action" against those federal workers. The move comes after Monday's executive order accused former President Joe Biden of forcing "discrimination" programs into "virtually all aspects of the federal government" through "diversity, equity and inclusion" programs, known as DEI. That step is the first salvo in an aggressive campaign to upend DEI efforts nationwide, including leveraging the Justice Department and other agencies to investigate private companies pursuing training and hiring practices that conservative critics consider discriminatory against non-minority groups such as white men. The executive order picks up where Trump's first administration left off: One of Trump's final

acts during his first term was an executive order banning federal agency contractors and recipients of federal funding from conducting anti-bias training that addressed concepts like systemic racism. Biden promptly rescinded that order on his first day in office and issued a pair of executive orders — now rescinded — outlining a plan to promote DEI throughout the federal government. While many changes may take months or even years to implement, Trump's new anti-DEI agenda is more aggressive than his first and comes amid far more amenable terrain in the corporate world. Prominent companies from Walmart to Facebook have already scaled back or ended some of their diversity practices in response to Trump's election and conservative-backed lawsuits against them. Here's a look at some of the policies and programs that Trump will aim to dismantle: Trump's order will immediately gut Biden's wide-ranging effort to embed diversity and inclusion practices in the federal workforce, the nation's largest

at about 2.4 million people. Biden had mandated all agencies to develop a diversity plan, issue yearly progress reports, and contribute data for a government-wide dashboard to track demographic trends in hiring and promotions. The administration also set up a Chief Diversity Officers Council to oversee the implementation of the DEI plan. The government released its first DEI progress report in 2022 that included demographic data for the federal workforce, which is about 60% white and 55% male overall, and more than 75% white and more than 60% male at the senior executive level. Trump's executive order will toss out equity plans developed by federal agencies and terminate any roles or offices dedicated to promoting diversity. It will include eliminating initiatives such as DEI-related training or diversity goals in performance reviews. Trump's order paves the way for an aggressive but bureaucratically complicated overhaul of billions of dollars in federal spending that conservative activists

claim unfairly carve out preference for racial minorities and women. The order does not specify which programs it will target but mandates a government-wide review to ensure that contracts and grants are compliant with the Trump administration's anti-DEI stance. It also proposes that the federal government settle ongoing lawsuits against federal programs that benefit historically underserved communities, including some that date back decades. Trump's executive order is a "seismic shift and a complete change in the focus and direction of the federal government," said Dan Lennington, deputy council for the conservative Wisconsin Institute for Law & Liberty, which has pursued several lawsuits against federal programs. The institute recently released an influential report listing dozens of programs the Trump administration should consider dismantling, such as credits for minority farmers or emergency relief assistance for majority-Black neighbourhoods.

Trump mulls 10% tariff on China starting Feb 1

Washington (PTI): US President Donald Trump on Tuesday said his team is discussing imposing a 10 per cent tariff on China starting February 1 based on the fact that the latter is sending fentanyl to Mexico and Canada. "We're talking about a tariff of 10 per cent on China based on the fact that they're sending fentanyl to Mexico and Canada," Trump told reporters at a joint news conference at the White House along with Oracle CTO Larry Ellison, Softbank CEO Masayoshi Son, and Open AI CEO Sam Altman. In response to a question, Trump said he is looking at February 1 as the date

for the tariffs. "For Mexico and China, we're talking about approximately 25 per cent (tariff)," the president said. Responding to another query, Trump said he did not "talk too much about tariffs" when he spoke with Chinese President Xi Jinping last week. When asked if he has asked Xi Jinping to intervene to stop the war in Ukraine, Trump said China has not done very much on that. "He's got a lot of power. I said you ought to get it settled. I had that talk with President Xi the other day too. I said we don't want that crap in our country. We've got to stop it. I would have stopped it."

Trump announces \$500 bn AI initiative

Washington (pti): US President Donald Trump announced a USD 500 billion investment in AI infrastructure through a new company, which is being created in partnership with Oracle, SoftBank and Open AI. The venture, called Stargate, adds to tech companies' significant investments in US data centres, huge buildings full of servers that provide computing power. The three companies plan to contribute funds to the venture, which will be open to other investors and start with 10 data centres already under construction in Texas. "That's a massive group of talent and money. Together, these world-leading technology giants are announcing the formation of Stargate," Trump announced on Tuesday at a White House news conference along with Oracle Chief Technology Officer Larry Ellison, Softbank CEO Masayoshi Son and Open AI CEO Sam Altman. "So, put that name down in your books because I think you're going to hear a lot about it in the future, a new American company that will invest USD 500 billion at least in AI infrastructure in the United States and very, very quickly, moving very rapidly, creating over 100,000 American jobs almost immediately," said Trump.

'I like competent people coming to US'

PTI ■ WASHINGTON US President Donald Trump has said he likes both sides of the argument on the H-1B foreign guest workers' visa, noting that the country needs "very competent" and "great" people which is possible through this visa programme. Trump also said that he has also used the H-1B visa programme. The H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality occupations that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China. "I like both sides of the argument, but I also like very competent people coming into our country, even if that involves them training and helping other people who may not have the qualifications they do. But I don't want to stop — and I'm not just talking about engineers, I'm talking about people at all levels," Trump said on Tuesday. He made these remarks while talking to reporters at the White House during a joint news conference with Oracle CTO

Larry Ellison, Softbank CEO Masayoshi Son, and Open AI CEO Sam Altman. The president was responding to a question on the ongoing debate on H-1B visas within his support base. Indians are the main beneficiaries of the H-1B visas, which bring in the best of the talent and brains from across the world. Highly skilled professionals from India walk away with the overwhelming number of H-1B visas - which is Congressional mandated 65,000 every year and another 20,000 for those who received higher education from the US. While his close confidants like Elon Musk, the Tesla owner, support H-1B visas as they bring in qualified tech professionals, many of his supporters oppose it arguing that it takes away jobs from Americans. "We want competent people coming into our country. And H-1B, I know the programme very well. I use the programme. Maitre d, wine experts, even waiters, high-quality waiters — you've got to get the best people. People like Larry, he needs engineers, Masa also needs... they need engineers like nobody's ever needed them," Trump said.

"So, we have to have quality people coming in. Now by doing that, we're expanding businesses and that takes care of everybody. So I'm sort of on both sides of the argument, but what I really do feel is that we have to let really competent people, great people, come into our country. And we do that through the H-1B programme," Trump said. Since December, the debate on foreign guest workers visas for highly skilled professionals, the H-1B, has intensified which has literally created divisions in both the Democratic and the Republican parties. Such a backlash initially came from the supporters of Trump who argued that this is eating away at the jobs of Americans. Both Musk and Vivek Ramaswamy immediately weighed in and supported the H-1B visas. However, influential Democratic Senator Bernie Sanders asserted that the two close confidants of Trump are wrong. The debate appeared to originate from a suggestion last month from Sriram Krishnan, Trump's pick for White House policy adviser on artificial intelligence, that Musk examines removing caps on green cards for skilled immigrants.

Aid flowing smoothly into Gaza: UN

United Nations (PTI): The United Nations humanitarian coordinator in Gaza said Tuesday trucks from the UN, aid groups, governments and the private sector are arriving and no major looting has been reported — just a few minor incidents. Nearly 900 trucks of aid entered Gaza on the third day of the ceasefire on Tuesday, the United Nations said. That's significantly higher than the 600 trucks called for in the deal. Muhannad Hadi, who returned to Jerusalem from Gaza on Tuesday afternoon, told UN reporters by video that it was one of the happiest days of his 35-year humanitarian career to see Palestinians in the streets looking ahead with hope, some heading home and some starting

to clean up the roads. In his talks with families at a communal kitchen run by the UN World Food Programme and elsewhere, he said, they all told him they need humanitarian assistance but want to go home, to work and earn money. "They don't like the fact that they have been depending on humanitarian aid," Hadi said. Palestinians talked about resuming education for their children and about the need for shelter, blankets and new clothes for women who have been wearing the same clothes for more than a year. He said a shipment of tents is expected in the coming days. Hadi, who is also the deputy UN coordinator for the Middle East peace process, said the UN hopes to start "early recovery"

programmes, beginning with cash-for-work removing the tons of rubble in Gaza. But he said the UN must make sure the banking system is operating and electricity is back, stressing the critical role of UN member states and the private sector in early recovery. Hadi said lawlessness and looting happen in any war situation but with the ceasefire in Gaza, the UN is hoping for a restoration of law and order, as he stressed that the minor incidents reported were not by organised criminals who looted UN convoys during the war. Since the ceasefire, he said some kids jumped on some trucks trying to take a food basket, and some other people tried to take bottled water.

'Key Justice Dept. officials reassigned'

Washington (PTI): The US Justice Department has reassigned key senior officials across multiple divisions as part of a leadership shakeup ahead of the expected confirmation of President Donald Trump's pick for attorney general, Pam Bondi, multiple people familiar with the matter said on Tuesday. Among those moved to other positions inside the department is Bruce Swartz, the long-time head of the Justice Department's office of international affairs, which handles extradition matters, according to two people who spoke to The Associated Press on condition of anonymity because they were not authorised to discuss personnel moves. As many as 20 or so officials in all have been reassigned. Another affected official is George Toscas, a veteran deputy assistant attorney general in the

department's national security division who, in addition to helping oversee major terrorism and espionage investigations, has also been a key supervisor in politically charged probes over the last decade, including into Hillary Clinton's handling of classified information and Trump's hoarding of classified documents at his Mar-a-Lago estate. A Justice Department spokesman did not immediately return a call seeking comment. The reasons for the moves were not immediately known. Though it is common for a new administration to appoint its own political hires at the top of the Justice Department, it is not standard for career lawyers to be reassigned. They serve the department across administrations and typically retain their positions even when control of the department changes hands.

'Canada will respond to US tariffs'

Toronto (PTI): Canada's outgoing prime minister and the leader of the country's oil rich province of Alberta are both confident that Canada can avoid the 25 per cent tariff US President Donald Trump says he will impose on February 1. Justin Trudeau and Danielle Smith will argue that Canada is the energy super power that has the oil and critical minerals that America needs to feed what Trump vows will be a "booming" US economy. But Doug Ford, the premier of Ontario, the manufacturing and automobile hub of Canada, said a trade war is 100 per cent coming. Trump "declared an economic war on Canada," Ford said in an interview with The Associated Press. "And we are going to use every tool in our tool box to defend our economy." Trudeau said Canada will retaliate if needed, but noted that Canada has been here before during the first Trump presidency when they successfully renegotiated the free trade deal. Ford said as soon as Trump applies tariffs, he will instruct Ontario's liquor control board to pull all American-made alcohol from the shelves. "We are the largest purchaser of alcohol in the world. And I'm going to encourage all the premiers to do the exact same," Ford said, adding that there will be a

dollar-for-dollar tariff retaliation on American goods entering the Canada. "We are going to target the Republican held areas as well. They are going to feel the pain. Canadians are going to feel the pain, but Americans will feel the pain as well," he said. "A message to the countries around the world: if he wants to use Canada as an example, you are up next. He's coming after you as well." Trump pledged in his inaugural address that tariffs would be coming in a speech in which he promised a golden era for America. He later said Canada and Mexico could be hit with the tariffs as soon as February 1, though he signed an executive order requesting a report coordinated by the secretary of commerce by April 1. Trump said Tuesday that the 25 per cent tariff that he intends to place on Canada and Mexico as soon as February 1 would have "nothing to do" with renegotiating the existing trade pact among the three countries. For him, the tariffs are all about stopping unauthorised migration and the flow of any illicit drugs. The US president told reporters at the White House that, in his opinion, the amount of fentanyl coming through Canada and Mexico is "massive".

US Customs agents seized just 43 pounds of fentanyl at the Canadian border last fiscal year, compared to 21,100 pounds at the Mexican border. About 60 per cent of US crude oil imports are from Canada. Despite Trump's claim that the US doesn't need Canada, nearly a quarter of the oil America consumes per day comes from Canada. America's northern neighbour also has 34 critical minerals and metals that the Pentagon is eager for and is also the largest foreign supplier of steel, aluminum and uranium to the US. Nearly USD 3.6 billion Canadian dollars (USD 2.7 billion) worth of goods and services cross the border each day. Canada is also the top export destination for 36 US states. "Trump wants to usher in a golden age for the US," Trudeau said at a Cabinet retreat in Quebec called to deal with Trump's threats. "If the American economy is going to see the boom that Donald Trump is predicting, they are going to need more energy, more steel and aluminum, more critical minerals, more of the things that Canada sells to the United States every single day." On Tuesday, Mexico President Claudia Sheinbaum stressed the need to keep "cool heads" and look at the wording of what Trump signed, rather than listen to the discourse surrounding it.

Israel to maintain control of Gaza-Egypt crossing

PTI ■ JERUSALEM Israel said it will maintain control of the Rafah border crossing between Egypt and the Gaza Strip during the first phase of the ceasefire with Hamas. A statement by Prime Minister Benjamin Netanyahu's office on Wednesday denied reports that the Palestinian Authority would control the crossing. It said local Palestinians not affiliated with Hamas who had been vetted by Israeli security would merely stamp passports at the crossing. It noted that, under international agreements, this stamp "is the only way Gazans may leave the Strip in order to enter, or be received in, other countries." The truce, now its fourth day, is supposed to bring calm to the war-battered Gaza for at least six weeks and see 33 Hamas-

held hostages released in return for hundreds of Palestinians imprisoned by Israel. The statement said European Union monitors would supervise the crossing, which will be surrounded by Israeli troops. Israel also will approve the movement of all people and goods. Israel captured the Gaza side of the Rafah crossing last May, forcing it to shut down. Egypt, a key mediator in more than a year of negotiations that led to the ceasefire, has demanded that Palestinians control the Gaza side. The war began when Hamas-led militants stormed into Israel on October 7, 2023, killing some 1,200 people, mostly civilians, and abducting around 250. Around 100 hostages still remain in Gaza, after the rest were released, rescued, or their bodies were recovered.

Prince Harry gets 'full, unequivocal' apology from Murdoch's tabloids

PTI ■ LONDON Britain's Prince Harry on Wednesday settled his legal case against Rupert Murdoch's News Group Newspapers (NGN), publishers of 'The Sun' newspaper, which offered a rare 'full and unequivocal' apology to the now US-based Duke of Sussex and agreed to pay 'substantial damages'.

mental victory" and that the settlement represents "vindication for hundreds of other claimants strong-armed into settling without getting to the truth." "After endless resistance, denials and legal battles by News Group Newspapers, including spending more than GBP 1 billion in payouts and in legal costs, as well as paying off those in the know in order to prevent the full picture from coming out, News UK is finally held to account for its illegal actions and its blatant disregard for the law," said David Sherborne, reading out a statement on behalf of the 40-year-old royal.

B'desh court acquits Zia in 10-year-old sabotage case

PTI ■ DHAKA A court in Bangladesh acquitted BNP Chairperson and former prime minister Khaleda Zia on Wednesday in a sabotage case filed in the southeastern Cumilla district 10 years ago. Additional District and Session Judge Court-2 of Cumilla Afroza Jesmin passed the order as there was no evidence against 79-year-old Zia, who is now undergoing treatment in London, the state-run BSS news agency reported.

arch-rival Sheikh Hasina. Zia had been imprisoned for more than two years. On March 25, 2020, the Hasina government suspended her sentence and granted her conditional release through an executive order. Subsequently, the government extended her sentence suspension and release period every six months, upon application. She appeared in public on November 21, 2024, at Dhaka Cantonment to join Bangladesh's Armed Forces Day reception at the invitation of the Chief Adviser of the interim government Muhammad Yunus. Zia is ailing and travelled to London earlier this month for medical treatment. She served as the prime minister of Bangladesh from March 1991 to March 1996, and again from June 2001 to October 2006.

Houthi rebels release crew of commercial vessel

Dubai (PTI): Yemen's Houthi rebels said Wednesday they released the crew of the Galaxy Leader, a vehicle carrier seized in November 2023 at the start of their campaign in the Red Sea corridor. The rebels said they released the sailors after mediation by Oman. The crew of 25 included mariners from the Philippines, Bulgaria, Romania, Ukraine and Mexico. The Iran-backed Houthi rebels said they hijacked the ship over its connection to Israel. They then had a campaign targeting ships in international

al waters, which only stopped with the recent ceasefire in Israel's war on Hamas in the Gaza Strip. A representative for the Galaxy Leader's owners had no immediate comment. The Bahamas-flagged vessel is affiliated with an Israeli billionaire Abraham "Rami" Ungar, who is known as one of the richest men in Israel. The Houthi attack on the Galaxy Leader saw the rebels launched a helicopter-borne raid. Propaganda footage of the raid has been played constantly by the Houthis, who even shot a music video aboard the ship at one

RBI Monetary Policy Committee member Nagesh Kumar advocates two inflation rates

PTI ■ NEW DELHI

RBI Monetary Policy Committee member Nagesh Kumar has suggested that there should be two inflation rates - one including food prices and the other without food prices - so that relevant rates could be taken into account for policy making.

Chief Economic Advisor V Anantha Nageswaran in the Economic Survey 2023-24 had pitched for excluding food inflation from the rate setting calls, saying that the monetary policy has no bearing on the prices of food items, which are dictated by supply side pressures.

"I think there is a healthy debate on what should be the target, whether overall headline inflation rate or inflation rate excluding the food products, which are, you know, very seriously affected by seasonal demand, supply mismatch," Kumar told PTI while responding to a question on suggestions made in the Economic Survey for excluding food inflation while setting benchmark interest rates.

The weightage of food in the overall consumer price inflation, which stands at 46 per cent, was done in 2011-12, and needs to be revisited. "I think we should have two inflation rates, one including food inflation and one without food inflation... So the relevant rate could be considered for what, which particular policy

parameter one is looking at," he said. India introduced the inflation-targeting framework in 2016 under which the Reserve Bank of India (RBI) is mandated to keep retail inflation at four per cent, with a margin of two per cent on either side. The benchmark policy rates are decided bi-monthly by the

RBI on the basis of movement in consumer price index, which includes food, fuel, manufactured goods and select services. Responding to a question on high food prices, Kumar said retail inflation slowed to a four-month low of 5.22 per cent in December. "A large part of this 5.2 per

cent is because of the food prices inflation, and then also a seasonal mismatch of vegetable prices... And that corrects by itself, when more supplies come to the mandis, we should see inflation being restrained much more," Kumar added. On India's current macroeconomic situation, he said slowdown in India's economic growth to a seven-quarter low of 5.4 per cent in the second quarter was a temporary, transient kind of slowdown.

According to Kumar, it reflected the lag effect of the very strong squeeze in capex of the government in the first quarter because of the election code of conduct, but the capex started to pick up in the second quarter.

"We expect a strong growth in the second half of the year, and overall, I think we should be making up somewhere around 6.5 per cent or 6.6 per cent," he said.

Responding to a question on outlook of the Indian economy in FY26, Kumar said the performance of the Indian economy will be slightly better next fiscal year than this year.

Irregularities found in one rupee crop insurance scheme for farmers

PTI ■ MUMBAI

Maharashtra Agriculture Minister Manikrao Kokate has admitted irregularities in the implementation of the one rupee crop insurance scheme for farmers, noting places of worship were shown as agricultural lands to claim benefits.

More than four lakh crop insurance applications, some filed even by those residing outside Maharashtra, have been rejected, Kokate on Tuesday said, adding a "bogus industry" has come to light which involves non-eligible people seeking benefits of the scheme.

The minister, however, asserted that no money has been actually lost as funds were not transferred by the government into the bank accounts linked to bogus applications. Speaking to the media here, Kokate said instances of malpractice in the scheme have been identified in several aspects, including cases where mosques, temples and vacant lands were falsely declared as agricultural lands to claim benefits.

"I have instructed district collectors to take immediate action," he said. The crop insurance scheme

was introduced in the 2023 budget by the then deputy chief minister and finance minister Devendra Fadnis. Under the scheme, farmers can get crop insurance for just Re one. Before the scheme, farmers had to pay the company two per cent of the insurance premium. The agriculture department had received several complaints from farmers about the scheme's implementation, chiefly on grounds of non-payment of the insurance amount as well as mismatch of records. Agriculture Secretary Vikaschandra Rastogi later headed a committee which compiled the complaints and conducted a probe into them. Kokate said, "Over four lakh crop insurance applications were rejected across the state. Some of these applications

were filed by people from outside Maharashtra. We have taken significant steps to address the irregularities. Farmers will be issued unique ID cards linked to Aadhaar to ensure transparency."

An updated database of farmers is being prepared, the minister said, adding that significant reforms will be introduced in the scheme. Asked how the large-scale bogus claims could be made, Kokate attributed much of the malpractice to certain Common Service Centres (CSCs), where people involved in data entry of details of farmers are paid Rs 40 per application. "The operators of such centres filed bogus applications to earn more. We have ordered action against 96 such centres," he said.

I like competent people coming to US: says President Trump

PTI ■ WASHINGTON

US President Donald Trump has said he likes both sides of the argument on the H-1B foreign guest workers' visa, noting that the country needs "very competent" and "great" people which is possible through this visa programme.

Trump also said that he has also used the H-1B visa programme. The H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality

occupations that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China.

"I like both sides of the argument, but I also like very competent people coming into our country, even if that involves them training and helping other people who may not have the qualifications they do. But I don't want to stop - and I'm not just talking about engineers, I'm talking

about people at all levels," Trump said on Tuesday. He made these remarks while talking to reporters at the White House during a joint news conference with Oracle CTO Larry Ellison, Softbank CEO Masayoshi Son, and Open AI CEO Sam Altman. The president was responding to a question on the ongoing debate on H-1B visas within his support base.

Indians are the main beneficiaries of the H-1B visas, which bring in the best of the talent and brains from across the world. Highly skilled professionals from India walk away with the overwhelming number of H-1B visas - which is Congressional mandated 65,000 every year and another 20,000 for those who received higher education from the US.

While his close confidants like Elon Musk, the Tesla owner, support H-1B visas as they bring in qualified tech professionals, many of his supporters oppose it arguing that it takes away jobs from Americans. "We want competent people coming into our country. And H-1B, I know the programme very well. I use the programme. Maitre d', wine experts, even waiters, high-quality waiters -- you've got to get the best people. People like Larry, he needs engineers, Masa also needs... They need engineers like nobody's ever needed them," Trump said. "So, we have to have quality people coming in. Now by doing that, we're expanding businesses and that takes care of everybody. So I'm sort of on both sides of the argument, but what I really do feel is that we have to let really competent people, great people, come into our country. And we do that through the H-1B programme," Trump said. Since December, the debate on foreign guest workers visas for highly skilled professionals, the H-1B, has intensified which has literally created divisions in both the Democratic and the Republican parties

EPFO adds 14.63 lakh net members in November

PTI ■ NEW DELHI

Retirement fund body EPFO has added 14.63 lakh net members in November 2024, a growth of 4.88 per cent over the same month last year, according to the latest payroll data.

The growth in net member additions signifies increased employment opportunities and heightened awareness of employee benefits, bolstered by EPFO's effective outreach initiatives, a labour ministry statement said.

On a monthly basis, net member additions rose by 9.07 per cent over October 2024, the ministry said. The EPFO enrolled around 8.74 lakh new members in November 2024, up by 18.80 per cent over the year-ago month and a 16.58 per cent rise against October 2024, the provisional data showed. The ministry said a noticeable aspect of the data is the dominance of the 18-25 age group, with 4.81 lakh new members added in this age group constituting a significant 54.97 per cent of the total new members added

in November 2024. Net member additions in the age group of 18-25 years are approximately 5.86 lakh for November 2024, reflecting an increase of 7.96 per cent compared to the previous month of October 2024.

This is in consonance with the earlier trend which indicates that most individuals joining the organised workforce are youth, primarily first-time job seekers, the ministry said. The payroll data highlights that approximately 14.39 lakh members exited and subsequently rejoined EPFO. This figure represents an 11.47 per cent increase compared to the previous month of October 2024. It also depicts a significant year-

on-year growth of 34.75 per cent in November 2024.

These members switched their jobs and re-joined the establishments covered under the ambit of EPFO and opted to transfer their accumulations instead of applying for final settlement thus, safeguarding long-term financial well-being and extending their social security protection.

Gender-wise analysis of payroll data unveils that out of the new members added during the month, around 2.40 lakh new members are female, it said.

The comparison with the previous month of October 2024 shows an increase of 14.94 per cent.

NSE adds one crore investors in five months

PTI ■ NEW DELHI

The National Stock Exchange (NSE) on Wednesday said its unique registered investors have crossed the 11 crore mark, with the latest one crore addition taking place in just five months, reflecting investor participation in the stock market through direct means. Investor registrations at the NSE have experienced a remarkable acceleration in recent times, with a 3.6 times jump in the last five years.

It took 14 years since the NSE's commencement of operations in 1994 to reach one crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year.

"The rate of growth has since quickened significantly, with each additional one crore investors being added in roughly six-seven months, while the last one crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," NSE said in a statement. In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, including the rapid advancement of digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance.

In 2024, the Nifty 50 index delivered a return of 8.8 per cent while the Nifty 500 index saw an impressive 15.2 per cent gain. Indian markets have had positive returns for the past nine consecutive years.

Rupee rises 25 paise against US Dollar

PTI ■ MUMBAI

The rupee appreciated 25 paise to close at 86.33 (provisional) against the US dollar on Wednesday, supported by positive domestic equities and soft US dollar index.

Forex traders said the rupee is likely to witness high volatility with a negative bias ahead of key events in the global and domestic economic landscape. Moreover, the overall uncertainty about the global economy continued to weigh on both currencies and commodities, keeping investors on edge. At the interbank foreign exchange, the rupee opened at 86.56 against the greenback. During the day, the local unit touched an intraday high of 86.30 and a low of 86.71. It finally closed at 86.33 (provisional) against the US dollar, up 25 paise from its previous close.

On Tuesday, the rupee fell 13 paise to 86.58 against the US dollar. "We expect the rupee to remain largely weak on underlying

strength in the US dollar and overall weakness in the domestic markets. Importer demand for dollars may also pressurise the rupee. However, any extended sell-off in crude oil may support the rupee at lower levels," Anuj Choudhary - Research Analyst at Mirae Asset Sharekhan, said. Choudhary further noted that markets may see some volatility on incoming statements and announcements by the Trump administration. "USD-INR spot price is expected to trade in a range of 86.20 to 86.65," he added.

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading down 0.15 per cent to 107.89 as traders pondered over the Trump Tariff Plan.

Brent crude, the global oil benchmark, rose 0.48 per cent to USD 79.67 per barrel in futures trade. Crude oil prices had fallen due to fears of tough US policies and had touched USD 78 per barrel, a 4 per cent decline from recent highs following President Trump's mention of increasing US oil output. In the domestic equity market, the 30-share BSE Sensex rose 566.63 points, or 0.75 per cent, to settle at 76,404.99 points, while the Nifty rose 130.70 points, or 0.57 per cent, to 23,155.35 points. Foreign Institutional Investors (FIIs) remained net sellers in the capital markets on Tuesday, as they offloaded shares worth Rs 5,920.28 crore, according to exchange data.

Sensex, Nifty rebound on buying in Infosys, HDFC Bank, firm global trends

PTI ■ MUMBAI

Benchmark Sensex rebounded nearly 567 points and Nifty regained 23,150 level on Wednesday following gains in blue-chip stocks Infosys, HDFC Bank and Tata Consultancy Services, and firm global trends.

The 30-share BSE Sensex surged 566.63 points or 0.75 per cent to close at 76,404.99. During the day, the benchmark surged 624.77 points or 0.82 per cent to hit an intraday high of 76,463.13 on the BSE.

On similar lines, the broader NSE Nifty climbed 130.70 points or 0.57 per cent to settle at 23,155.35. In the intraday session, the Nifty rose 144.9 points or 0.63 per cent to

23,169.55 on the NSE. Among Sensex shares, Infosys, Tata Consultancy Services, Tech Mahindra, Sun Pharmaceutical, Bajaj Finserv, HCL Technologies, Bajaj Finance, HDFC Bank, IndusInd Bank and Kotak

Mahindra Bank were among the gainers. Tata Motors, PowerGrid, Axis Bank, State Bank of India, NTPC, Tata Steel and Adani Ports were the major laggards. "The benchmark indices rebounded amidst heightened

volatility following better-than-expected results from a major private bank. The IT sector led gains, recovering from recent losses, while mid and small-cap stocks continued to underperform due to valuation concerns," Vinod Nair, Head of

Some equity research firms shutting shops after SEBI's new guidelines on research analysts

PTI ■ NEW DELHI

Markets regulator SEBI's new guidelines on research analysts (RAs) are forcing several equity research firms publicly announcing plans to shut down their shops due to heightened compliance and operational requirements. The Securities and Exchange Board of India (Sebi), on January 8, came out with guidelines for Research Analysts in a bid to curb fraudulent stock recommendations and illegal practices in the securities market. The new guidelines necessitate research firms to comply with stricter measures such as maintaining records of

client interactions, conducting compliance audits, and following Know-Your-Customer (KYC) procedures and these requirements have led to increased operational costs for smaller entities. Consequently, a few firms including Sentinel Research, Stalwart Advisors, and Mystic Wealth have announced their plans of shutting their research services citing significant operational and compliance burden.

Market experts said that the new guidelines have notably lowered the threshold for individuals to register as RAs, making it easier for newcomers to enter the profession. However, for established RAs, these

guidelines have imposed heightened compliance and operational requirements. They believe that the new regulations are too stringent and could undermine the quality of research in the market.

Sandeep Parekh, founder of Finsec Law Advisors, posted on microblogging site X that Sebi is "going way overboard in its regulations and shutting down competent and honest advisors and researchers from the

market". "If it goes down this path, all that will remain will be incompetent and dishonest, or incompetent or dishonest advisors," he added. Neeraj Marathe, who operates independent research firm Sentinel Research, also expressed his dismay on social media. He had paused his research services last year when the draft RA regulations were first announced, hoping for more clarity and more balanced guidelines. However, upon reviewing the final regulations, he stated that the rules were even more burdensome than expected. "Last year, when the proposed RA regulations came, I had paused my

research services at sentinelresearch.in. The hope was that the actual regulations would be better in terms of conditions and compliance and I shall restart after getting clarity. Well, the actual regulations have turned out to be much worse! I too shall be discontinuing my research services portal," he added. Stalwart Advisors, which has been operating its equity research service "Treasure Trove" for over a decade, announced it would be closing its operations. The firm cited the increased operational and compliance requirements, including the rule that limits subscription fees to a quarterly payment model, as a key factor in its decision.

Liverpool beats Lille to reach Champions League round of 16

PTI ■ LIVERPOOL

Liverpool became the first team to guarantee a place in the last 16 of the new Champions League format by beating Lille 2-1 on Tuesday, while Barcelona fought back from two goals down to stun Benfica 5-4 in a thriller.

Harvey Elliott's bouncing, deflected shot gave Liverpool its seventh win from seven games, just after 10-man Lille had equalized following Mohamed Salah's opening goal.

Liverpool needed a point at Anfield to be sure of reaching the round of 16 as one of the top eight teams in the league stage, skipping the playoff round for teams ranked ninth to 24th.

Salah raced through in the 34th minute to sweep Liverpool ahead with his 22nd goal in all competitions this season. And when Lille's Aissa Mandi was sent off just before the hour mark, Liverpool looked certain to extend its 100% record in the league phase.

But Anfield was stunned when Canada striker Jonathan David converted from close range to level the score in the 62nd. It

didn't take long for Liverpool to regain the lead through Elliott's deflected effort five minutes later. "All my life I've dreamt of playing Champions League football, not only for my boyhood club but to play here at Anfield in front of our fans and especially to score, it's kind of a pinch-me moment," Elliott said.

Barcelona's comeback win It was a night of high drama in the Champions League with 33 goals scored across nine games. Nine of them came in Barcelona's battle with Benfica.

Raphinha scored in stoppage time to complete a rousing comeback as Barcelona won in Lisbon despite having been 4-2 down with less than a quarter of an hour remaining.

Benfica's Vangelis Pavlidis scored the third-fastest hat trick at the start of a Champions League game, with two of his goals coming after errors by Barcelona goalkeeper Wojciech Szczesny. Barcelona stays second with 18 points from seven games, and is now unbeaten in six games in all competitions since the new year.

"We came with the mindset that we could turn the game," Raphinha said. "We never gave up

and managed to grab a win." Robert Lewandowski scored two penalties for Barcelona to stay the Champions League's top scorer on nine goals, one ahead of Raphinha, who also scored twice. Another Spanish club staged a comeback as Julian Alvarez scored a 90th-minute winner to lift Atletico Madrid past Bayer Leverkusen 2-1. Atletico lost Pablo Barrios to a 23rd-minute red card and went into half time 1-0 down to a Piero Hincapie header for Leverkusen.

Alvarez scored in the 52nd and had the momentum when Hincapie was sent off for a second yellow card, before Alvarez struck again to take the win and lift Atletico to third.

Villa slides out of the top eight With Prince William watching on, Aston Villa's hopes of automatic qualification for the round of 16 took a blow after a 1-0 loss to Monaco.

Villa led the standings early in the league phase of the competition after winning its first three games. But defeat to Monaco left the Premier League club eighth. Wilfried Singo's goal at a corner in the eighth minute was enough to secure the win for ninth-place Monaco.

Dortmund slump continues Borussia Dortmund's 2-1 loss at Bologna increased the pressure on coach Nuri Sahin in Dortmund's fourth consecutive loss at the start of the new year in all competitions.

Serhou Guirassy gave Dortmund, last season's runner-up, the lead with a chipped penalty and ran to celebrate with Sahin.

It looked like the Champions League could provide a much-needed boost for a team floundering in the Bundesliga, but two goals in two minutes from Thijs Dallinga and Samuel Iling-Junior changed the game for previously winless Bologna. Results elsewhere meant Bologna will be heading out of the competition despite its win, since the Italian club can't finish in the top 24. Sturm Graz and Red Star Belgrade are also out after losing Tuesday.

Atalanta beat Graz 5-0, strengthening the Italian club's push to qualify directly for the round of 16. Atalanta finished the evening fourth.

PSV Eindhoven hung on for a 3-2 win at Red Star despite losing defender Flamingo to a red card just after halftime while leading 3-0. Stuttgart eased to a 3-1 win over Slovan Bratislava, which was already eliminated and has lost all seven of its games. Club Brugge and Juventus drew 0-0.

Europa League In the only Europa League game of the night, Galatasaray missed a chance to go third in the table, giving up a 3-1 lead to draw 3-3 with last-place Dynamo Kyiv.

Australian Open: Ben Shelton criticises TV interviewers

PTI ■ MELBOURNE

American tennis player Ben Shelton criticized on Wednesday some of the questions and comments made by post-match TV interviewers at the Australian Open.

After Shelton reached the semifinals at the Grand Slam tournament, he followed his final answer at his news conference by saying: "One thing that I just want to say before we're done: I've been a little bit shocked this week with how players have been treated by the broadcasters." He began by referencing the flap over a television commentator's on-air insults about Novak Djokovic, which caused the 24-time Grand Slam champion to refuse to speak to the local broadcaster, Channel 9, after one match.

Djokovic eventually relented after receiving public apologies from the network and its employee, Tony Jones. "I don't think that was just a single event," Shelton said. "I've noticed it with different people, not just myself."

Shelton went on to mention the interview with 19-year-old American Learner Tien after his upset win over 2021 U.S. Open champion Daniil Medvedev ended at about 3 a.m. In the second round at Melbourne Park last week, calling it "embarrassing and disrespectful".

That awkward exchange included a series of statements to Tien, rather than questions, including observations by the interviewer that "19-year-

428 athletes from 19 teams to take part in KIWG 2025

PTI ■ LEH/JAMMU

The Khelo India Winter Games (KIWG) 2025 that starts on Thursday will feature 428 athletes from 19 competing teams.

Sports Minister Mansukh Mandaviya is set to declare the Games open in Leh on Thursday.

Nineteen teams, comprising states, Union Territories, and institutional outfits, will compete over five days across two events - ice hockey and ice skating - marking the first part of KIWG 2025.

A traditional Ladakhi-style opening ceremony has been planned to welcome 594 participants, including 428 athletes.

The second part, featuring snow games like skiing, will be hosted by Jammu and Kashmir from February 22 to 25.

"Sports Minister will attend the opening ceremony at the iconic Nawang Dorjay Stobdan Sports Complex in Leh on Thursday and will declare the games open," an official spokesperson said.

Mandaviya will be joined by a host of dignitaries, including the Lieutenant Governor of Ladakh, Brigadier Dr BD Mishra, and senior officials from the

Sports Authority of India and the Ladakh Autonomous Hill Development Council.

This will be the second time Ladakh hosts the Winter Games, now in its fifth edition, the spokesperson said. "All teams have arrived in Leh, which is at an altitude of 11,562 feet. Himachal Pradesh has the largest contingent, comprising 78 athletes and support staff," he added.

Haryana (62), hosts Ladakh (52), and Maharashtra (48) will compete in the Ladakh edition. Uttarakhand, which will host the National Games later this

month, has the smallest team, comprising just one athlete.

The fifth edition of the Khelo India Winter Games will be held across two phases in Ladakh and Jammu & Kashmir, from January 23 to 27 and February 22 to 25, respectively, covering two ice and four snow disciplines, the spokesperson said.

Apart from identifying talent, the Khelo India Winter Games aim to showcase a region's art, culture, heritage, and promote tourism through sports. Several young skaters will compete at the Nawang Dorjay Stobdan Sports Complex and Gupkus Pond, the venues for short- and long-form skating events.

Ice hockey matches will be played at the NDS Complex and the Ladakh Scouts Regimental Centre.

The technical conduct of the events will be supervised by the Sports Authority of India (SAI) with support from national sports federations.

The KIWG opening ceremony will be covered live by Doordarshan Sports, and events will be live-streamed daily until January 27.

In KIWG 2024, Maharashtra won 20 skating medals, including six golds. Karnataka also secured six golds but finished second with eight total medals, compared to Maharashtra's 20. Hosts Ladakh, who made history with two Khelo India golds in speed skating, finished third with 13 medals overall.

The ice hockey competition is expected to be fiercely contested, with teams from the Army, ITBP, Himachal Pradesh, and UT-Ladakh vying for supremacy.

The Army, defending men's champions, and ITBP, reigning women's titleholders, have dominated national and Khelo India Winter Games events.

Borussia Dortmund fires coach Nuri Sahin

PTI ■ DORTMUND

Borussia Dortmund fired its coach Nuri Sahin on Wednesday, a day after its 2-1 loss to Bologna in the Champions League.

The loss extended Dortmund's losing streak to four games since the new year and dropped last season's Champions League runner-up to 13th in the standings. Dortmund is also struggling in the Bundesliga, where it's 10th.

"We really value Nuri Sahin and his work, we had wished for a long cooperation and until recently we hoped that we could manage to turn things around in sporting terms," sporting director Lars Ricken said in a statement.

"After four losses in a row, with just one win from the last nine games and currently being 10th in the Bundesliga, unfortunately we lost our faith in being able to achieve our sporting goals in the current configuration. This decision is personally painful for me too, but it was no longer avoidable after the game in Bologna."

There was no immediate word on a successor. Dortmund's next game is Saturday in the Bundesliga against Werder Bremen.

The 36-year-old Sahin had been Dortmund coach since June. He had been an assistant to Edin Terzic, who resigned following Dortmund's 2-0 loss to Real Madrid in the Champions League final, saying the club needed to enter a "new era" without him.

Sindhu, Lakshya to lead team in Badminton Asia Mixed Championship

PTI ■ NEW DELHI

Double Olympic medallist PV Sindhu and World Championships bronze winner Lakshya Sen will lead a 14-member Indian team for the Badminton Asia Mixed Team Championship to be held in Qingdao, China from February 11-16.

India had clinched a bronze medal in the last edition of the competition in Dubai in 2023.

"The national selectors have given importance to the world rankings and current form of the players while selecting the squad that will have HS Prannoy and Malvika Bansod as the second men's and women's singles players respectively," the Badminton Association of India said in a release.

The strong Indian team will also have star doubles players Satwiksairaj Rankireddy and

Mainz signs US midfielder Lennard Maloney

PTI ■ MAINZ

German-born U.S. Midfielder Lennard Maloney has joined Mainz from Bundesliga rival Heidenheim, where he was dropped last month after expressing his wish to leave.

The 25-year-old Maloney, who had informed Heidenheim he was going to join Mainz when his contract expired at the end of the season, got his wish Tuesday when the clubs agreed on a deal.

"Maloney has been able to prove himself in the Bundesliga over the last year and a half," said Mainz sporting director Niko Bungert said. "His preferred position is as a number six and as a player, he's the perfect fit for Mainz 05. He brings a strong mentality, as well as a willingness to run hard, and is also strong at winning challenges and aerial duels. Lennard will find it easy to fit into our squad with his warm, open

personality." Maloney signed a contract to 2028.

After 18 rounds of the league, Heidenheim is in the relegation playoff spot while sixth-place Mainz is on course for European qualification.

Heidenheim coach Frank Schmidt said in December he wasn't picking the defensive midfielder because he lacked commitment amid a series of disappointing performances.

"I can only count on players in this phase who are 100% focused on the interests of Heidenheim," Schmidt said. "From a coaching perspective I simply want another focus and another level of performance from my vice-captain."

The Berlin-born Maloney has made two appearances for the United States — both in 2023.

Enrique must outwit Guardiola when PSG meets Manchester City

PTI ■ PARIS

Luis Enrique credits Pep Guardiola with inventing arguably the "perfect model" of attacking soccer.

He must now outwit him when Paris Saint-Germain faces Manchester City in the Champions League on Wednesday, in a match both teams must win to avoid the prospect of early elimination in the new-look format.

"It's a special game. Not just for the two teams but because I will come across a friend who I shared many great moments with as a player and a person," Enrique said on Tuesday through a translator.

"What brings us closer is our vision of football: To try and be better than the opponent on the ball, to constantly press the opponent. We can fine-tune our game but we have a similar way of

seeing things." Guardiola rose to fame as a coach during a glory era for Barcelona, winning the Champions League twice and multiple other trophies. Guardiola's sides hypnotized opponents with a pulsating brand of attacking soccer led by Lionel Messi that was the envy of Europe. Guardiola then turned City into a Premier League force.

"The 4-3-3 with Barcelona was almost the perfect model. He opened up a different way of playing in England and did so with success, he opened many doors for others," Enrique said. "Pep has innovated throughout his career and is not scared to do so again."

Guardiola won the Champions League again with City in 2023, while Enrique's PSG reached the semifinals last season.

Enrique and Guardiola have history

They go back far. "We were mates in Barcelona and our families are really close friends," Guardiola said. "Our friendship will be eternal. They (Enrique's family) love us (and) I

think we have an incredible connection." Enrique and Guardiola, who both are 54, played together in Barcelona's midfield from 1996-2001: Enrique the tireless dynamo who scored 109 goals for the club; Guardiola the astute minesweeper protecting defense.

As coaches, they are more similar.

"If anything can define both Pep and I as coaches (it) is that we like to attack. We like to defend properly but we like to devise our game plan to be better than the opposition," said Enrique, who won the Champions League with Barca in 2015. "There are a lot of things I must think about when I have my cappuccino tomorrow morning."

Namely that PSG is in danger of going out.

So is City.

PSG is 25th out of 36 teams, and City is only one point ahead in 22nd. The bottom 12 are eliminated.

"Everyone has to be ready," Enrique said. "Man City do a lot of things tactically, they switch positions a lot. But we pose a lot

of problems. The team that is best prepared or best develops its ideas will win."

City is turning the corner after a slump that had Guardiola interrogating himself. City has rebounded with 22 goals in the past five games. Attacking midfielder Phil Foden is finding form and prolific striker Erling Haaland has signed a mega-contract until 2034.

"City are also very at ease with a transition game and have very dangerous players in attack," Enrique said. "We will see who makes the most of the possession. We want to keep the ball, it's when you retain possession that you have the most chance of winning."

As long as you score.

Wasteful PSG has netted just six goals in six games and was blanked by Bayern Munich and Arsenal.

"I hope for a horrible performance from PSG tomorrow," Guardiola said, jokingly.

Mbappe's shoes not filled

The void left by Kylian Mbappé since he joined Real Madrid is still felt. He scored a career-high 44 goals last season.

"We obviously had a player of reference who scored an immense amount of goals," Enrique said. "I don't think any one of our players previously showed they could score 25 goals in a season, so we have to resolve it through the team."

PSG's main scoring threat comes from winger Ousmane Dembélé, who has recovered from a heavy flu.

"I feel much better," he said on Tuesday. "I had five or six days when I wasn't feeling well."

Dembélé has 11 goals from 22 games and is well on course to beat his best of 14 with Barcelona in 2018-19.

Australian Open: Swiatek will face Madison Keys in semifinals

PTI ■ MELBOURNE
Iga Swiatek is dominating her Australian Open opponents the way no one has at Melbourne Park since Maria Sharapova in 2013. Swiatek's latest lopsided win came via a 6-1, 6-2 score in the quarterfinals against No. 8 seed Emma Navarro on Wednesday. The No. 2-seeded Swiatek not only has not dropped a set so far in the tournament, but also has lost a grand total of only 14 games as she seeks her first title at Melbourne Park and sixth Grand Slam trophy overall. Sharapova was the last woman to reach the Australian Open semifinals having dropped fewer than 15 games. "She does everything with 100% conviction and intensity," Navarro said about Swiatek. "She has a different style of movement and play. It's tough to not be sort of affected by that and not feel like, OK, I have to do everything at the same speed that she's doing it." So that was something, for sure, I felt a little bit today." Swiatek will face No. 19 Madison Keys of the U.S. On Thursday

night for a berth in the final. The other women's semifinal is No. 1 Aryna Sabalenka, the two-time defending champion, against her good friend, No. 11 Paula Badosa. Keys, whose best showing at a major was getting to the title match at the 2017 U.S. Open, was a 3-6, 6-3, 6-4 winner against Elena Svitolina and is into her third semifinal in Australia. "Iga is tough to beat, because she has a lot of spin, kind of naturally, on both sides. She's a good server. She's a good returner. She moves incredibly well," Keys said. "The biggest thing that makes her so difficult to beat is, because she moves so well, if you miss your spot just slightly, she has enough time to recover, and then the point goes back to neutral." There's an American in the men's semifinals, too: No. 21 Ben Shelton got that far in Melbourne for the first time with an entertaining 6-4, 7-5, 4-6, 7-6 (4) win over unseeded Lorenzo Sonego of Italy. Shelton was a semifinalist at the 2023 U.S. Open and now will meet No. 1 Jannik Sinner, the defending champion, or No. 8 Alex de Minaur in that round. Sinner faced

de Minaur on Wednesday night. The other men's semifinal Friday is Novak Djokovic vs. Alexander Zverev. Against Navarro, Swiatek benefited from a no-call of a double bounce on a point she won in the second set. Because Navarro continued playing the point and did not immediately stop to ask for a video review, she wasn't allowed to have the sequence checked.

Either way, Swiatek's dominance was pretty clear, even if she was modest about things afterward. "Well, I think it was much more tougher than the score says," said Swiatek, a 23-year-old from Poland. "Emma's a fighter ... And I wanted to stay focused and keep my intensity." Swiatek has won four of five career matchups against Keys, 29. "Madison is a great player and experienced, so you never know," Swiatek said. "I'll be just focused on myself." Using a new racket this season, Keys is on a 10-match winning streak, including a title at a hard-court tune-up event in Adelaide. Her run to the semifinals in Melbourne includes victories over two past runners-up at the Australian Open, Danielle Collins and Elina Rybakina. Keys' past losses in the semifinals in Melbourne came against eventual champions Serena Williams in 2015 and Ash Barty in 2022. "I think I play a little bit smarter for sure ... Probably a little bit less fearless," Keys said. Svitolina, a three-time Slam

semifinalist, was in control during the first set. But Keys made some tactical adjustments, including looking for more opportunities to get to the net. She won 23 of the 26 points when she moved forward and ended up with a total of 49 winners, 23 on her powerful forehand side. The one difficulty Keys had was getting going in her return games. But she finally converted her seventh break chance to lead 4-2 in the second set. "Getting to the point where I'm starting to appreciate my career for what it has been, and it doesn't have to have a Grand Slam in order for me to look at it and say, I've done a really good job, and I've really left everything out there." Now, while that's obviously still the goal, there have been periods of my career where it felt like if I didn't win one, then I hadn't done enough," Keys said. "That kind of took a lot of the fun out of the game, and there were times where it felt paralyzing out on the court because it felt as if I needed it to happen, instead of giving myself the opportunity to go out and potentially do it.

There was a sense of fear during rehabilitation: Shami

PTI ■ KOLKATA
Seasoned India pacer Mohammed Shami has revealed that he was gripped by a sense of fear when he began his rehabilitation after a long injury layoff, but managed to overcome that phase by training his mind to stay focused on the national comeback. Shami was sidelined after the lost ODI World Cup final against Australia in November 2023 due to an ankle injury that required surgery. The recovery from that was followed by a swelling on his left knee during the domestic comeback some weeks back. Following his inclusion in India's Champions Trophy squad, his return has garnered national attention. He is also in the squad for the five-match T20I series against England beginning here later this evening. "I waited for an entire year and I worked very hard (to get back to full fitness). There was a sense of fear (of getting injured during rehabilitation) even while running," Shami said in a video posted by BCCI. "It is difficult for any player to get injured after being in full flow, go the the NCA (National Cricket Academy) for rehabilitation and then make a comeback," he added. The cricketer, however, said an athlete is far more determined after dealing with an injury. "When you go through injuries, I feel you grow stronger as an athlete, this is

Big wins for England, Australia in U19 Women's T20 World Cup

PTI ■ JOHOR
Opener Davina Perrin smashed a fine half-century and Trudy Johnson put up a fine all-round show as England crushed the United States of America (USA) by eight wickets to climb to the top of Pool B in the U19 Women's T20 World Cup, here Wednesday. Bangladesh, New Zealand and Australia were the other winners on the day. Bangladesh overcame Scotland by 18 runs, New Zealand defeated Samoa by 67 runs, while Australia were menacing in their 83-run win over Nepal. England flexed their muscle by chasing down 120 in 14.2 overs with opener Perrin scoring a 45-ball 74, studded with nine boundaries and three sixes. Johnson hit an unbeaten 44 after taking two wickets for

17 runs. Prisha Thanawala (2/20) also contributed in restricting USA to 119/5. USA captain Anika Kolan led the charge with the bat, shoring their innings with an unbeaten 46 off 42 balls. Bangladesh outlasted Scotland in Group D after managing 121/9 and then restricting the opponents to 103/8 in the allotted overs. Captain Sumaiya Akter top-scored for Bangladesh with an unbeaten 29 off 36 deliveries. She was supported by Afia Ashima Era (21 off 19) and Juairiya Ferdous (20 off 32). Scotland were courageous in their chase with Pippa Sproul scoring a 41-ball 43 but they couldn't get over the line.

In another match, New Zealand sealed a 67-run win against tournament newcomers Samoa. The Kiwis scored 107/9 in 17 overs and dismissed Samoa for 40 in 14.2 overs. Eve Wolland (48) shone with the bat while Rishika Jaswal (3/12) and skipper Tash Wakelin (3/3) excelled with the ball. Olive Lefaga Lemoe made history by taking Samoa's first ever ICC Women's U19 World Cup wicket, dismissing New Zealand star Kate Irwin caught-and-bowled for a duck. Australia had an easy outing against Nepal, defeating the Asian side by 83 runs after scoring 139/6. Nepal could only muster 56/8 in 20 overs with Lily Basingthwaite (2/4), Juliette Morton (2/10) and Hasrat Gill (2/9) taking two wickets each.

India will adhere to dress code set by ICC at CT: BCCI

PTI ■ NEW DELHI
The Indian cricket team will adhere to the dress code set by the ICC during the upcoming Champions Trophy, BCCI secretary Devajit Saikia told PTI on Wednesday, rejecting speculation that the Board had objected to host Pakistan's name on the side's official jersey. The Champions Trophy will be held from February 19 and India will play its share of matches in Dubai after citing security concerns as the reason for refusing to travel to Pakistan. "BCCI will follow every uniform-related ICC rule during Champions Trophy," Saikia told PTI. "Whatever the other teams will do regarding the logo and dress code, we are going to follow in true letter and spirit," he added. However, Saikia said that whether national captain Rohit Sharma participates in the ICC's pre-tournament engagements, including a press conference and an official photo shoot in Lahore, is something that is still being discussed. "Whether Rohit Sharma travels to Pakistan for ICC media engagements is something that's still not decided," Saikia added. There were some unconfirmed media reports that the BCCI had objected to the host nation's name being embossed on their jersey, which is an established practice for all ICC events, owing to the tense political ties between the two countries. It is understood that there was never any doubt about following the logo guidelines and the BCCI did not raise concerns with the global body. When Pakistan came to India in 2023 for the 50-over ICC World Cup, Babar Azam and his men duly sported the host country's name on their jerseys as part of the tournament protocol. The Champions Trophy is being conducted under a 'Hybrid Model' for the first time as BCCI didn't get permission from the Indian government to travel to Pakistan. India will play all its matches, including the marquee league match against the arch-rivals from across the border, in Dubai. In case, the Indian team reaches the semi-final and subsequently final, the two matches will be played in Dubai as well. As far as Rohit Sharma visiting Pakistan is concerned, the matter is still under consideration and there are certain issues that the Indian cricket board needs to consider if its captain visits Pakistan for a customary photo-shoot and pre-event press conference.

AB de Villiers wants to play cricket again

PTI ■ JOHANNESBURG
AB de Villiers wants to play "real cricket" again. Not in the high-pressure environment of IPL but somewhere "casual" to have a bit of fun and please his children. De Villiers retired from all of forms of cricket in November 2021 to spend more time with his family. The 40-year-old former South Africa captain is now involved with multiple projects in charity and broadcasting. He is also the brand ambassador of the ongoing SA20. But in a chat with Melinda Farrell on her Youtube channel, de Villiers let it slip that he wishes to play the game again. "I might still play cricket one day. No confirmation whatsoever. My kids are putting me under a bit of

pressure and I feel like I could go to the nets with them," de Villiers said referring his three children - two sons Abraham and John, and daughter Yente. "My boy could feel me bowling machine balls... Maybe I will walk out and play a bit of casual cricket somewhere," he added. De Villiers hinted at playing proper cricket outside the lens of professional leagues like the IPL. "I am talking on a more serious note, actually, of playing some real cricket not professional IPL or SA20 stuff but who knows? I have had my fair share (of high pressure cricket), that's done," he said.

A slight challenge to that ambition is his eye sight, especially the "bit blurry" left one. "This right one is the dominant one, it is working fine. I am doing it for my kids and see if I can go out there and enjoy cricket again. Even if it is very casual and see where we draw the line. "We are not talking RCB (Royal Challengers Bengaluru) and some stuff. I don't want to feel that pressure again. Wherever I go I would want to have bit of fun," added the batting great, whose wide range of strokes, some of them quite unconventional, earned him the moniker 'Mr 360'. De Villiers represented South Africa in 114 Tests, 228 ODIs and 78 T20s. The power-hitter holds the record for the fastest 50 (16 balls), 100 (31 balls) and 150 (64balls) in the ODI format.

Praggnanandhaa crushes Mendonca to sole lead Tata Masters

PTI ■ WIJK AAN ZEE
Grandmaster R Praggnanandhaa crashed through the defences of fellow Indian Leon Luke Mendonca to jump into sole lead after the fourth round of the Tata Steel Masters chess tournament here. Praggnanandhaa started off with an innocuous Ruy Lopez closed but found his chances in the middle game when Mendonca, clearly being the rookie here, could not handle the pressure of another high-profile game. It was another day when Praggnanandhaa found the fire to score his third win on the trot after 46 moves. Interestingly, all of Praggnanandhaa's victories

have come at the expense of the Indians so far in the tournament, with the GM now looking forward to the clash against world champion D Gukesh. With his third win, the Chennai-based player has stamped his authority ahead of the first rest day of the long and gruelling tournament that lasts till 13 rounds with three rest days thrown in. Recently-crowned world champion D Gukesh played true to his instinct but could not get past Alexey Sarana, who now plays for Serbia instead of Russia. The Indian, playing with black pieces, tried every trick under the sun but Sarana stuck to the basics to not force anything which could be fatal.

The game remained level for a long time and eventually both players got a new queen on the board with Sarana only having the final say with an extra Bishop. With no pawns left, the result was anyone's guess and the game ended in a draw soon after. P Harikrishna dumped Max Warmerdam of Holland to stake his claim in the tournament. The Indian was brought in after Vidit Gujrathi withdrew at the last moment. Harikrishna's score of 2.5 points from four games more than justifies his presence here. It was a Catalan opening and Warmerdam did not know what hit him as he found all the white pieces around his king despite the trade of

queens earlier in the opening. Harikrishna made short work of his opponent, winning in a mere 23 moves. Just four days back, Arjun Erigaisi was on the top of the world but it has all come crashing down as he lost another game against Vladimir Fedoseev, the Russian who now plays for Slovenia. It was another bad day in office for Erigaisi as his tactical ability surrendered before his opponent's prophylactic thinking.

Just out of the opening, Erigaisi was worse and then came close to winning in the queen pawn opening. But a blunder cost him dearly as he walked into a worse endgame. Fedoseev won a piece and never looked back. In the challengers' section, R Vaishali made a huge comeback at the expense of Nodirbek Yakubboev of Uzbekistan and Divya Deshmukh proved her critics wrong with an exemplary victory over Ediz Gurel of Turkey. After a day that saw seven wins with white pieces in this section, Vaishali was at her best scrolling the tactical possibilities out of a queen's gambit declined and found her niche as Yakubboev forgot

to take care of his weakened king. Vaishali, never shy of tactics, wrapped it up quickly. Divya had to wait for the fourth round for her first victory, and it was a clean triumph wherein the Indian outplayed Gurel, who played black. Winning a pawn was crucial for Divya and after that her endgame skills were clearly on the fore as she won in 56 moves. **Results - Round 4: Masters:** P Harikrishna (Ind, 2.5) beat Max Warmerdam (Ned, 1); Arjun Erigaisi lost to Vladimir Fedoseev (Slo, 2.5); Fabiano Caruana (Usa, 2.5) drew with Anish Giri (Ned, 1.5); R Praggnanandhaa (Ind, 2.5) beat Leon Luke

Mendonca (Ind, 0.5); Wei Yi (Chn, 2) drew with Nodirbek Abdusattorov (Uzb, 3); Vincent Keymer (Ger, 2.5) drew with Jordan van Foreest (Ned, 1.5); Alexey Sarana (Srb, 2) drew with D Gukesh (Ind, 2.5). **Challengers:** Divya Deshmukh (Ind, 1.5) beat Ediz Gurel (Tur, 2); Nodirbek Yakubboev (Uzb, 1.5) lost to R Vaishali (Ind, 2.5); Svane Frederik (Ger, 2) drew with Nogerbek Kazymbek (Kaz, 2); Miaoyi Lu (Chn, 3) drew with Irina Bulmaga (Rom, 0.5); Nguyen Thai Dai Vam (Cze, 3) drew with Aydin Suleymanli (Aze, 2); Arthur Pijpers (Ned, 1) drew with Erwin L'Ami (Ned 3); Oro Faustino (Arg, 1) beat Benjamin Bok (Ned, 1.5).
