## INDIA DEFEATS AUSTRALIA

**PTI ■ DUBAI**  
Virat Kohli did not finish the chase for once but his measured 84-run knock steered India into their fifth Champions Trophy final with a clinical four-wicket win over an under-strength and profligate Australia in the first last-four clash here on Wednesday.

Player of the match Kohli (84) was the fulcrum of Indian batting as they scaled down 265 in 48.1 overs after Steve Smith (73) and Alex Carey (61) led the Aussies to 264. Now, India will await the winner of the second semi-final between South Africa and New Zealand at Lahore on Wednesday.

Kohli had wonderful support from Shreyas Iyer (45) with whom he realised 91 runs for the third wicket, and steadied the ship after the early departures of skipper Rohit Sharma (28) and Shubman Gill (9). Australia were weakened by

the absence of some of their premier stars, but India had not beaten them in the knockouts of an ICC tournament since the quarterfinal of the 2011 World Cup. However, Kohli was determined to correct that anomaly. The pitch used for the semifinal was fresh but much smoother than the ones on which the previous matches were played. Kohli does not need a second invitation to exploit such conditions and a near-perfect control helped him keep pace with the asking rate. Kohli's struggle point in an ODI innings is his inability to

## HC stays order directing FIR against Buch, five others

**PTI ■ MUMBAI**

The Bombay High Court on Tuesday stayed for four weeks a special court's order directing FIR against former Sebi chairperson Madhabi Puri Buch and five other officials for alleged stock market fraud and regulatory violations, noting it was passed mechanically. A single bench of Justice Shivkumar Dige said the special court order of March 1 also did not attribute any specific role to the accused in the matter. "After hearing all the parties concerned and after going through the order of the special court, it appears that the order is passed mechanically without going into details and without attributing any specific role to the applicants (Buch and others)," Justice Dige said. "Hence, the order is stayed till next date. Four weeks time is given to the complainant in the case (Sapan Shrivastava) to file his affidavit in reply to the petitions," the court said. The HC's judgement came on petitions filed by Buch, three current whole-time Sebi directors Ashwani Bhatia, Ananth Narayan G and Kamlesh Chandra Varshney, Bombay Stock Exchange's Managing Director and Chief Executive Officer Officer Sundararaman Ramamurthy and his former chairman and public interest director Pramod Agarwal.

## CBI nabs several rail officials in job racket

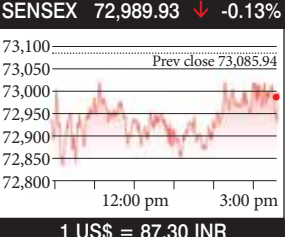

**PIONEER NEWS SERVICE ■ NEW DELHI**

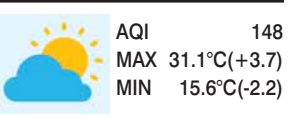

In a massive crackdown, the Central Bureau of Investigation (CBI) on Tuesday said it has arrested 26 railway officials including a senior divisional electrical engineer of East Central Railway for allegedly leaking papers of a departmental examination and seized ₹1.17 crore cash during its raids. The railway officials were arrested on Monday night for allegedly leaking papers of examination for the elevation to posts of chief loco pilot at Mughal Sarai, the agency said, adding the exam was to be conducted on Tuesday. Sources in the agency said that the examination has now been cancelled. The arrest has come just a fortnight after the central probe agency had arrested five railway officers, including two of the Indian Railway Personnel Service (IRPS) posted at the Vadodara Division, for alleged bribery in favouring candidates in departmental examination, officials said. "During the checks conducted by CBI, at three spots on the intervening night (March 3-4) at Mughal Sarai, a total of 17 candidates were found with photocopies of hand-written question papers," a CBI spokesperson said. All 17 departmental candidates who are presently working as loco pilots had allegedly paid money for the question paper and were caught red-handed with the copies during the raid, he

said. "Overall, 26 railway officials (including the 17 aspirants) have been arrested in this case so far," the spokesperson said in a statement. The agency has registered the FIR against a senior divisional electrical engineer (operations) who was given the responsibility for setting and preparing the question paper for the said examination. "He himself had written the questions in English and allegedly gave it to one loco pilot who in turn translated it into Hindi and further gave it to another official. The said official allegedly gave it to the candidates through few other railway employees," the spokesperson said. Accused senior divisional electrical engineer (operations) is among the arrested officials, he said. "Searches were conducted at eight locations which resulted in recovery of ₹1.17 crore in cash. The amount was reportedly collected from the candidates for leaking the question papers. "The hand-written question papers along with their photocopies were seized. These question papers have been tallied with the original question paper and were found to have matched," the spokesperson said. On February 19, 2025, CBI arrested 2008-batch IRPS officer Sunil Bishnoi posted as a senior divisional personnel officer in Vadodara, 2018-batch IRPS officer Ankush Wasan, posted as divisional personnel officer there, Deputy Chief Commercial Manager Sanjay Kumar Tiwari posted at Mumbai's Churchgate, Deputy Station Superintendent Neeraj Sinha and Nursing Superintendent Dinesh Kumar posted at Divisional Railway Hospital in Ahmedabad, officials said. The agency has also arrested Mukesh Meena in the case, they said. The federal probe agency seized 650 grams of gold and ₹5 lakh cash during its searches at 11 locations, including in Gujarat's Vadodara, a CBI spokesperson said.

## No Manusmriti-Baburnama in DU

**STAFF REPORTER ■ NEW DELHI**

Amid row over inclusion of 'Manusmriti' and 'Baburnama' in History syllabus, Delhi University's vice chancellor Professor Yogesh Singh on Tuesday clarified that there is no plan to introduce Manusmriti or Baburnama in any course or study material at the university. He stated that such subjects are neither under consideration nor will they be included in the future. "Baburnama is the autobiography of a tyrant. It has no relevance in the present time, and there is no need to teach it," Professor Singh said. He emphasised

that under the National Education Policy (NEP) 2020, DU is focusing on introducing new courses aligned with Indian traditions that will benefit the country and society. "We are working towards Viksit Bharat and designing study material that contributes to the vision of making India a developed nation by 2047," he added. This decision to incorporate Manusmriti and Tuzuk-i-Baburi (Baburnama), the memoirs of Mughal emperor Babur, in the syllabus has already been approved by the history department's Joint Committee of Courses. However, it has yet to be

cleared by DU's Academic Council and Executive Council, which are expected to discuss it in the coming weeks. This is not the first time Manusmriti has faced opposition at DU. A similar issue took place in July 2024 when Delhi University had found itself in trouble after the Faculty of Law suggested teaching the ancient Hindu legal text Manusmriti to the LLB students. The Faculty of Law had submitted a proposal to include the Hindu manuscript in unit 5 of an undergraduate programme which invited major criticism from a large section of teachers.

## Teen murders family over online gaming addiction

**PIONEER NEWS SERVICE ■ BHUBANESHWAR**

In a heart-wrenching incident, a 21-year-old college student bludgeoned his parents and sister to death in Odisha's Jagatsinghpur district on Tuesday morning as they were opposed to his addition to online games. Superintendent of Police Bhawani Sankar Udgata said the incident took place in Jayabada Sethi Sahi area under the Jagatsinghpur police station limits around 3 am as the student used stones or any other hard objects to smash the heads of his father, mother and sister.

A preliminary investigation revealed that accused Surjyakant Sethy was annoyed with his parents and sister for "opposing him playing online games on his mobile phone," Jagatsinghpur police station inspector-in-charge Prabhakar Sahu said. The deceased were identified as Prasant Sethy alias Kalia (65), his wife Kanaklata (62) and daughter Rosalin (25). "After the incident, Surjyakant Sethy hid near the village, and later he was arrested," the SP said. Udgata said the youth was suspected to have a mental problem. Local MLA Amarendra Das said the family members had once come to him over some

land dispute. Villagers claimed that Surjyakant admitted to them that he killed his parents. A police team led by the SP and a scientific team reached the spot and started an investigation, another officer said. The bodies were sent for post-mortem examinations, he added. In a separate incident, a 40-year-old man in Odisha's Mayurbhanj district beheaded his father on Tuesday after he refused to give him Rs 10 to buy gutkha. The accused went to a police station carrying the severed head to surrender him, a senior officer said. "The man

beheaded his 70-year-old father with a sharp weapon and surrendered at Chandua police station along with the severed head. His mother fled the spot. The murder took place following a heated exchange of words between the accused and his parents," police said. The deceased was identified as Baidhar Singh. Baripada SDO Pravat Mallick said, "The murder occurred over a petty issue. The accused became angry when his father refused to pay Rs 10 for 'gutkha', a tobacco product." The police reached the village along with a forensic team, and an investigation is underway, the officer said.

## Gujarat forms committee for UCC public input

**PNS ■ AHMEDABAD**

The high-level committee constituted by the Gujarat government to draft the Uniform Civil Code (UCC) will hold public consultations and focus on equal rights for women and care for children, its chairperson Justice (retired) Ranjana Desai said on Tuesday. The five-member UCC committee convened its first meeting in Gujarat at the state capital, where Justice Desai launched a web portal, www.Uccgujarat.in, to take suggestions regarding the UCC from the public, government agencies, NGOs, social groups, communities, religious organisations and political parties. "Our work starts today. The committee has been tasked with assessing the need for the UCC in Gujarat. We will come up with a draft after the exercise, and for that, we will hold public consultation," the ex-Supreme Court Justice said. She said public consultation is a vital part of the exercise, and two sub-committees have been formed — one for public consultation and another to prepare the draft. The committee met at the Gujarat Bhavan in Delhi last month. Justice Desai said, "We will focus more on equal rights to women and care for children. There should be equal rights for marriage and divorce. Marriages and divorces will have to be registered, but rituals of marriage are not to be disturbed."

## Maintain regular dialogue with parties: EC to states

**STAFF REPORTER ■ NEW DELHI**

Amid allegations of a cover-up on its part over electors having duplicate voter ID card numbers, the Election Commission (EC) on Tuesday asked all state Chief Electoral Officers (CEOs), District Election Officers (DEOs) and Electoral Registration Officers (EROs) to meet political parties regularly to resolve their issues according to procedure. The directions came at a two-day conference of state CEOs amid allegations by the Trinamool Congress (TMC) that voters in different states had identical voter card numbers. This is the first such conference held since new Chief Election Commissioner (CEC) Gyanesh Kumar assumed charge last month. CEC Kumar directed officials to be approachable and responsive to political parties. He added that all party meetings at all statutory levels be held regularly to

resolve any issues within the existing statutory framework by the concerned competent authority ie ERO or DEO or CEO. The issue wise action taken report by each CEO is to be submitted by March 31, 2025 to their concerned Deputy Election Commissioner (DEC)," a statement from the ECI reads. This is the first time that officials below the Chief Electoral Officer (CEO) levels have been called for such a meeting as the District Election Officers (DEOs) and Electoral Registration Officers (EROs) are also taking part. While CEOs are in-charge of the elections at the state levels, the DEOs are for districts and EROs is for the assembly constituency levels.

by ECI from time to time. "He directed officials to be approachable and responsive to political parties. He added that all party meetings at all statutory levels be held regularly to resolve any issues within the existing statutory framework by the concerned competent authority ie ERO or DEO or CEO. The issue wise action taken report by each CEO is to be submitted by March 31, 2025 to their concerned Deputy Election Commissioner (DEC)," a statement from the ECI reads. This is the first time that officials below the Chief Electoral Officer (CEO) levels have been called for such a meeting as the District Election Officers (DEOs) and Electoral Registration Officers (EROs) are also taking part. ## Calling someone 'miyan-tiyan', 'Pakistani' not offence: SC

**PIONEER NEWS SERVICE ■ NEW DELHI**

The Supreme Court held using terms such as "miyan-tiyan" and "Pakistani" was not an offence of hurting religious sentiments though made in poor taste. A bench of Justices BV Nagarathna and Satish Chandra Sharma therefore discharged a man in a criminal case filed by an Urdu translator and acting clerk Right to Information (RTI) in the sub-divisional office, Chas in Jharkhand. The February 11 court order said, "The appellant is

accused of hurting the religious feelings of the informant by calling him 'miyan-tiyan' and 'Pakistani'. Undoubtedly, the statements made are poor taste. However, it does not amount to hurting the religious sentiments of the informant. Hence, we are of the opinion that the appellant shall also be discharged under Section 298 IPC." Section 298 of IPC deals with words or gestures made with a deliberate intent to wound religious feelings. It came on record that accused, Hari Nandan Singh,

sought information under the RTI Act from additional collector-cum-first appellate authority, Bokaro, and the information was dispatched to him.

However, he filed an appeal before the appellate authority, allegedly after manipulating the documents sent to him by the office through the registered post and making false allegations of manipulation in the documents. The appellate authority directed the translator to personally serve the information to the appellant. On November 18, 2020, the informant, accompanied by the messenger of the sub-divisional office, Chas, went to the accused's home to hand over the information.

The accused initially refused to accept the documents but upon insistence by the informant, accepted it. It was alleged that he abused the informant while referring to his faith and used criminal force against him. The matter prompted the translator to an FIR registered against the accused. Following an investigation, the trial court ordered framing of charges against the accused also under Sections 353 (assault or criminal force on a public servant) and 504 (intentional insult) of IPC. The Jharkhand High Court

dismissed the accused's plea for quashing the proceedings. While hearing the man's plea against the high court order, the bench discharged him of the offence of intentional insult observing "no act on his part that could have provoked a breach of peace" apart from Section 353. "We set aside the order of the high court which has sustained the order of the trial court and consequently allow the application filed by the appellant and discharge the appellant from all the three offences alleged against him," it added.

# Bhagoria festival to be celebrated as a State-level event: CM

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav has stated that Bhagoria is a festival of joy, a moment to pause and immerse in the colors of spring. The government will ensure that the enthusiasm of Bhagoria remains intact. From this year onwards, Bhagoria will be celebrated as a state-level festival, and the Chief Minister himself will participate in the festivities. The government will provide assistance for the development of worship sites dedicated to tribal deities in smaller locations. Additionally, the Koraku Festival will also be celebrated. All upcoming festivals of the tribal community will be officially recognized and celebrated by the state government. Dr. Yadav made these significant announcements at the Tribal Devalok Mahotsav held at the

Chief Minister's residence on Tuesday. Yadav emphasized that the tribal community is a matter of pride for the state. Tribal heroes made immense sacrifices in the freedom struggle, never bowing before anyone. The government is committed to preserving the indigenous heritage of the tribal community, including their unique religious practices, customs, and traditions. Every necessary step will be taken to safeguard these cultural elements. The event commenced with the Bada Dev Poojan (Grand God Worship) and lamp-lighting ceremony, following tribal traditions. The Chief Minister, along with the gathered tribal brothers and sisters, raised the slogans "Jai Bada Dev" and "Jai Johar." Upon his arrival, tribal artists welcomed Dr. Yadav with traditional dance performances, accompanied by folk instru-

ments such as mandal drums. In return, Dr. Yadav showered flowers upon the attendees as a gesture of warm hospitality. Dr. Yadav highlighted that the Tribal Devalok Mahotsav is an occasion to honor tribal religious leaders. The Ojha, Patel, Pujara, Tadvi, Bhagat, Bhumka, Panda, and other spiritual heads who uphold tribal traditions will always be respected by the government. He praised the deep-rooted cultural unity within the tribal community, noting that their language reflects love and their worship expresses reverence for nature. He acknowledged the sacrifices made by tribal heroes in protecting water, forests, land, and dignity. Iconic figures such as Tantiya Mama, Rani Durgavati, Amar Shaheed Raghunath Shah, and Kunwar Shankar Shah are symbols of this proud heritage. The Chief Minister urged trib-

al communities to preserve their rich traditions, assuring them of government support. Recognizing the dedication of tribal dancers and musicians, the government announced financial incentives Rs 5,000 for every tribal dancer and musician, Rs 3,000 for all PESA Gram Panchayats for the conservation of tribal shrines, deities, and worship sites. During the event, the Chief Minister distributed cheques to the recipients on stage, reinforcing the government's commitment to tribal welfare. Yadav emphasized that the PESA Act has further empowered tribal communities by granting them more rights. The responsibility of implementing the Jal Jeevan Mission (Water Life Mission) has been given to Tribal Minister Smt. Sampatiya Uikay. Additionally, Dr. Kunwar Vijay Shah has

been appointed as the senior minister responsible for overseeing overall tribal welfare. Over 2.5 lakh forest rights certificates have been issued to tribal families, securing their land rights. The government will extend the Narmada River's water supply to all tribal regions. Farmers will receive permanent electricity connections for just Rs 5, starting with the Central Region Power Distribution Company and later expanding statewide. Solar pumps will be provided to all farmers within three years, allowing them to generate their own electricity for irrigation. Surplus electricity generated by farmers will be purchased by the government. Wheat farmers will receive Rs 2,600 per quintal, and paddy farmers will be given Rs 4,000 per hectare as an incentive for Kharif 2024-2025.

# Woman doing stunt on speeding bike on VIP road arrested

STAFF REPORTER ■ BHOPAL

Continuing their crackdown on reckless stunt riding and dangerous driving, Bhopal Police have arrested two individuals involved in a shocking incident on VIP Road. The duo, who were co-riders with a woman on a motorcycle, allegedly abused and threatened commuters while intoxicated on March 1. According to police officials, a complaint was lodged by Manish Lalwani on March 1, stating that the driver of motorcycle MP04-ZQ-1643 was speeding dangerously on VIP Road. The woman seated between two co-riders was making obscene gestures, while the other two verbally abused and threatened commuters, putting public safety at risk. Acting on the complaint, Koh-e-Fiza police

registered a case under Sections 281, 125, 296, 3(5) BNS, and 184 of the Motor Vehicles Act and launched an investigation. A joint operation by Koh-e-Fiza Police and Traffic Police Bhopal led to the seizure of the vehicle and the arrest of Hrithik Yadavvanshi and Sumit Kumar, who were caught performing dangerous stunts. The accused were sent to jail, and a letter has been sent to the Transport Department seeking cancellation of the driver's license. The woman involved in the incident is currently being traced. In a separate crackdown, TT Nagar Police confiscated a racing car being driven recklessly. Authorities found that the vehicle's original shape and color had been illegally modified. Strict action was taken against the driver involved in car stunts. Authorities had been receiving frequent complaints about bike

stunt riders and high-speed racing cars on Atal Path near Platinum Plaza. Responding to these concerns, police launched targeted actions to curb such illegal activities, ensuring public safety on city roads. On March 3, while patrolling Atal Path, police intercepted a yellow Honda Civic that was being driven recklessly from Jawahar Chowk towards Platinum Plaza. The vehicle was stopped by blocking it from both sides. A woman passenger objected to the police action and tried to influence the officers, following which a woman police officer was called to the scene. The TT Nagar police personnel present at the spot stopped the racing car, which was creating excessive noise due to its modified silencer, causing panic among passersby and the general public.

Upon checking the Honda Civic (MP 09 CA 4743), it was found that the driver, Mohsin Khan (27), did not have a valid license to operate the vehicle. After questioning, the woman traveling in the car was allowed to leave. A detailed inspection of the car revealed several illegal modifications, including a modified silencer, black film on all four windows, an unauthorized number plate, and an illegal change in the vehicle's original structure and color (from red to yellow) without prior approval. As a result, legal action was taken against the driver, Mohsin Khan, and the registered owner of the vehicle, Anas Alam of Koh-e-Fiza, under relevant sections of the Motor Vehicles Act. The car, valued at approximately ₹3 lakh, was seized, and an application for further legal proceedings will be presented in court.

# Pushendra Pal Singh's legacy honoured with academic discussion

STAFF REPORTER ■ BHOPAL

On the second death anniversary of media guru Pushendra Pal Singh on Tuesday, an academic discussion was held at Madhavrao Sapre Museum of Newspapers, where journalists and media professionals reflected on his legacy and shared insights on the evolving landscape of journalism and digital media. Senior business journalist and YouTuber Swati Kumari spoke about the challenges of building a successful YouTube career. She emphasized that young content creators must be patient and focus on quality rather than chasing viral trends. "Many are drawn to YouTube after seeing the glamorous lifestyle of top creators, but

the reality is different. Success takes time and consistent effort," she said. Swati, founder of the 'Be Wealthy' YouTube channel, advised aspiring creators to stay true to their values rather than following algorithms blindly. Padma Shri awardee and Sapre Museum founder Vijaydutt Sridhar highlighted Singh's unique approach to teaching. "He didn't just teach in classrooms; he took students into the field, making workshops, seminars, and discussions an essential part of learning," Sridhar said. He described Singh as a mentor who built strong personal bonds with his students. Senior television journalist

Anurag Dwary recalled how Pushendra was like a father figure to his students. Speaking on AI's role in journalism, he said, "AI can be a valuable tool, like an intern working 24/7, but creativity cannot depend entirely on it." Sports scribe Devendra Sahu stressed the importance of self-study and specialisation in journalism. He pointed out that while anchors and reporters are visible, newsroom success depends on many unseen contributors, including scriptwriters, researchers, producers, and technical teams. The discussion, organised by Singh's students, provided an opportunity for young journalists to reflect on the profession's challenges and future directions while paying tribute to a teacher who shaped many careers.

# 'Queens on the wheel' of MP Tourism sets off on an epic ride

STAFF REPORTER ■ BHOPAL

More than 25 women bikers from across the country have embarked on this thrilling 1,400-km journey that will cover several of Madhya Pradesh's most prominent tourist destinations. The itinerary includes stops at Sanchi and Chanderi on March 4, Gwalior on March 5-6, Mitawali, Padawali, Datia, and Orchha on March 7, and Khajuraho on March 8, coinciding with International Women's Day. The journey will then continue through Chhatarpur, Sagar, Sanchi, and Udayagiri on March 9, before passing through Bhopur and Bhimbetka and concluding at MPT Kerwa Resort in Bhopal on March 10, 2025. During the tour, the women bikers will explore historical and cultural landmarks, including the UNESCO-listed Sanchi Stupa, the ancient

caves of Udayagiri, and Pranpur village near Chanderi, recognized as India's first craft and handloom tourism village. In Orchha, they will engage in adventure activities such as rafting, Segway rides, kayaking, and a heritage walk while also experiencing Ladpura Khas, one of the best tourist villages. Their journey will take them to Gwalior, followed by visits to Mitawali, Padawali, and the Bateswar temple complex. They will also explore Datia Fort (Veer Singh Palace), attend the mesmerizing Light and Sound Show at the UNESCO World Heritage Site of Khajuraho, and visit the Adivart State Museum. Throughout the journey, the bikers will stay at MP Tourism's hotels and resorts. This year's Queens on the Wheel 2.0 edition features seven riders from Madhya Pradesh, with 18 others from cities including Nagpur,

Mumbai, Dehradun, Sambhaji Nagar, Bengaluru, Delhi, Rajasthan, Indore, Dewas, Bhopal, and Ujjain. The event aligns with the Safe Tourism for Women initiative, supported by the Nirbhaya Fund under the Ministry of Women and Child Development. The Paryatan Sakhis of Madhya Pradesh Tourism Board—trained under the Sangini Mahila Kalyan Samiti in Bhopal—extended a warm welcome to the bikers at the inauguration. With enthusiastic slogans like "Dil kholkar ghoomo" and "Hindustan ke dil mein aap safe hain" (Roam freely... You are safe in the heart of India), they cheered on the participants, setting the tone for an exciting and empowering journey. Similar grand receptions will be held at various destinations along the route, ensuring a memorable experience for the bikers. This initiative not only emphasizes women's safety in

tourism but also highlights the state's rich history, adventure tourism, and cultural experiences, positioning Madhya Pradesh as a leading destination for travelers seeking exploration, heritage, and adventure. Madhya Pradesh Tourism Department has launched the second edition of the women's biking event, "Queens on the Wheel," aimed at promoting adventure tourism, showcasing the state's cultural and natural heritage, and reinforcing Madhya Pradesh as a safe destination for women travelers. The event was flagged off today, Tuesday, March 4, 2025, from Wind & Waves, a unit of Madhya Pradesh Tourism in Bhopal. Dr. Ilaia Raja T, Secretary of the Tourism Department and Managing Director of MP Tourism Development Corporation, officially launched the tour by flagging off the participating women bikers.

# BHEL Bhopal celebrates National Safety Fortnight from March 4 to 17

STAFF REPORTER ■ BHOPAL

BHEL Bhopal celebrated the 54th National Safety Day on Tuesday on the theme of "Safety and Health - Essential for Developed India". Along with this, the Safety Fortnight from March 04 to 17 was inaugurated in BHEL Bhopal. Under this fortnight, various safety related activities will be conducted in the entire factory to reawaken the commitment of the employees towards safety and health. Presiding over the program, Executive Director of BHEL Bhopal, Shri S. M. Ramanathan administered the "Safety Oath" to all the employees and officers present through video conferencing with an appeal to work safely. Ramanathan said that we have to be aware and alert about the emergency situations around our workplace and by imbuing the spirit of safety, we have to reflect "safe behavior" in our every work. On this occasion, "Safety Messages" were also issued by Director (Human Resources), BHEL and Executive Director, BHEL Bhopal. General Managers and senior officers of BHEL Bhopal were also present in this program.

In the same series, to make all the employees aware, the department heads of the product group in all the manufacturing blocks of BHEL Bhopal administered the "safety oath" to all the employees and officers on the shop-floor as well. In other programs organized today, a mock drill was organized in the flammable store of the factory to review the preparations for an emergency situation. After the mock drill, all the involved departments - CISF, Fire, CRX, HSE department and union officials gathered at the assembly point where a detailed discussion was done on the possible improvements found during the mock drill. For safety awareness, "safety talks" at all the entry gates, "safety inspection", "safety training", "fire-fighting training", "safety walk" with the members of the Central Safety Committee, "safety talk" and more mock drills will be organized for the entire fortnight in the factory to review the preparations for disaster. Along with this, information related to the use of modern technology in safety training will also be provided. The above programs were organized under the aegis of the Department of Health Safety and Environmental Engineering.

# Govt ITI clerk caught accepting bribe

PNS ■ JABALPUR

The Special Police Establishment of Lokayukta Jabalpur team caught a clerk of Government ITI red handed while accepting a bribe of Rs. 5000 for preparing and paying the arrears amount of an employee. The team took the accused to Madhavnagar Circuit House, where a case was registered against him after the action. According to the information, Assistant Grade-3 posted in ITI, Sandeep Kumar, son of Ramcharan Barman, had demanded a bribe of Rs. 6000 from Anand Chaudhary, Training Officer in Government ITI Katni, for preparing and paying the arrears amount of Rs. 8.5 lakh for 10 years of salary increment after the probation period ended in the institute. The victim complained about the matter to the Lokayukta Superintendent of Police, Jabalpur. Anand signaled the team after giving the money. The Lokayukta team caught him on the spot with a bribe of Rs. 5000. The team took him to Madhavnagar Circuit House and took action against him under the sections of Prevention of Corruption Act.

# Probe reveals rape complaint by 15-year-old girl was to implicate RTI activist

STAFF REPORTER ■ BHOPAL

Bhopal Police have made a new revelation in the case of rape of a 15-year-old minor in the parking lot of Ravindra Bhavan in Bhopal. Shyamala Hills Police claims that the girl has made the allegation on the behalf of someone. On the other hand, Bhagwan Singh, who has been accused of rape, has described himself as an RTI activist. Bhagwan Singh released a video saying- 'I had complained about the rigging of BU University and Jayshree Gayatri Foods. Under a conspiracy, the girl has made a toolkit to trap him.' DCP Zone-2 of Bhopal Riyaz Iqbal said that the complainant party had gone to Mauganj Police on March 1 to register a complaint. After the complaint seemed suspicious, the police there sent them to Bhopal. Shyamala Hills Police of Bhopal recorded the girl's statements in the presence of counselors and it was also videographed. Iqbal said in her statement, the girl clearly said that she has made the allegation on the behalf of a person. The recording of the statements is safe with us. The case diary has been received, further action will be

taken after investigating all aspects. The Mauganj police have transferred the case to Shyamala Hills police station in Bhopal. ASP Mauganj Anurag Pandey said, after registering an FIR in Mauganj, the case diary has been transferred to Bhopal on Monday. Shyamala Hills police have started the investigation. According to the Mauganj police, the minor's father works as a labourer in Bhopal. During the Lokrang Mahotsav in Ravindra Bhavan, his acquaintance's shop was set up. The father said that the acquaintance had taken the daughter along for help. Bhagwan Singh came there. There was a huge crowd, he first seduced the daughter and then took her to the parking and raped her. The accused also threatened to kill the daughter. When the daughter's health deteriorated and she was taken to the doctor, the matter was revealed. When I reached Shyamala Hills police station, my pleas were not heard. After this, my daughter was sent to Mauganj, where a case was registered. Meanwhile, on Monday, a video of accused Bhagwan Singh surfaced.

# CM arranges airlifting of Kirti Pamo of Hyderabad

STAFF REPORTER ■ BHOPAL

Minister of State for Urban Development and Housing, Smt. Pratima Bagri, expressed gratitude to Chief Minister Mohan Yadav for arranging an air ambulance for Kirti Pamo, a Hyderabad resident who was seriously injured in a road accident at Amarpatan, Satna while returning from the Prayagraj Mahakumbh.

On Tuesday, before the Cabinet meeting at the Ministry, Minister Smt. Bagri presented a bouquet to Chief Minister Dr. Yadav as a token of appreciation. Notably, Kirti Pamo was undergoing treatment at a hospital in Satna. At the request of her family, Minister Bagri arranged a meeting between them and CM Dr. Yadav in Rampur Baghelan, where they requested assistance for airlifting Dr.

Pamo to Hyderabad for better treatment. Responding promptly, Yadav immediately directed the airlifting of Dr. Kirti Pamo from Satna to Hyderabad. As a result, a Fly Ola air ambulance reached Satna Airport at 1:30 PM on Monday. Minister Smt. Bagri, extending her best wishes for Pamo's speedy recovery, ensured that she and her family departed for Hyderabad in the air ambulance by 2:30 PM.

# GIS boosts confidence of small investors in MP and India: CM

STAFF REPORTER ■ BHOPAL

Chief Minister Mohan Yadav said that the Global Investors Summit in Bhopal, held under the guidance of Prime Minister Narendra Modi and Union Home Minister Amit Shah, has strengthened the confidence of not only India but also small investors and the people of the state. He expressed his gratitude to all foreign guests, including representatives from the UK, Germany, and Japan, as well as ministers, departmental officials, and the people of Madhya Pradesh. Chief Minister Dr. Yadav emphasized that with collective efforts, the state has reached a stronger position. During the summit, the Industry Department secured investments amounting to Rs 12.02

lakh crore, including Rs 5.72 lakh crore in renewable energy, Rs 3.22 lakh crore in mining and minerals, Rs 1.9 lakh crore in urban development, and Rs 1.74 lakh crore in the energy sector. To ensure the progress of these investments, the government will conduct regular reviews—every two months at the Chief Minister's level and every month by the Chief Secretary. Chief Minister Dr. Yadav made these remarks while addressing ministers before the Cabinet meeting. The meeting, chaired by the Chief Minister, commenced with the rendition of Vande Mataram. As a token of appreciation for the successful organization of the Global Investors Summit, the ministers presented a statue of Lord Ramlala to Chief Minister Dr. Yadav and congratulated him. He was

also felicitated with an Angavastram before the meeting held at Mantralaya. Chief Minister Yadav reaffirmed the state government's commitment to fulfilling all its promises. He announced that the support price for wheat has been set at Rs 2,600 per quintal this year, which includes a bonus of Rs 175 per quintal. This initiative will impose a financial burden of Rs 1,400

crore on the state government, with approximately 80 lakh metric tonnes of wheat expected to be procured. Chief Minister Dr. Yadav noted that farmers have responded positively to the announced support price, and wheat procurement will commence on March 15. Similarly, paddy cultivation in the state has covered 12.20 lakh hectares, benefiting 6.70 lakh farmers. To support paddy farmers, an incentive of Rs 4,000 per hectare will be provided for the Kharif year 2024, with an estimated expenditure of Rs 480 crore. Chief Minister Yadav announced that the 16th Finance Commission is visiting the state on Tuesday. On March 6, the commission will communicate with all ministers at the Kushabhau Thackeray

Auditorium. Additionally, the Commission members will meet representatives from corporations, district panchayats, and political parties. Chief Minister Dr. Yadav also stated that the Jai Ganga Jal Sanvardhan Abhiyan will be conducted from March 30 to June 30, focusing on large-scale enhancement of water structures across the state. He directed ministers to hold district-level meetings in their respective areas to ensure effective implementation of the campaign. Furthermore, he highlighted that Vikramotsav is being celebrated from February 26 to March 30. He urged ministers to oversee thorough preparations in their districts for the Gudi Padwa festival on March 30, ensuring it is celebrated with enthusiasm and zeal.

## Youth stabbed to death in Gandhi Nagar over petty dispute

STAFF REPORTER ■ BHOPAL

Tension gripped the Gandhi Nagar area late Monday night after a young man was brutally stabbed to death by three youths over a dispute, which, as per initial investigations, was linked to a girl. The incident, which occurred at 10:30 PM, sparked outrage among the victim's family and local residents, who gathered at the police station demanding the immediate arrest of the accused. Following the protest, the police registered an FIR and assured swift action, after which the demonstration was called off. The victim, Adnan Khan, a

two-wheeler automobile mechanic, was returning from a mosque after offering Namaz when he was attacked near the locality. According to his cousin, Mehboob Khan, they had both gone for prayers, but Adnan stepped out earlier. Moments later, Adnan's father's desperate screams alerted the family, and they rushed to the scene, only to find him lying in a pool of blood. Mehboob alleged that Raj Solanki, Lucky Solanki, and Shubham Solanki, all residents of the area, surrounded Adnan near the mosque. They first physically assaulted him with kicks and punches, before Raj Solanki

stabbed him in the stomach. Adnan was rushed to a nearby hospital, where doctors declared him dead on arrival. Additional DCP Malkit Singh confirmed that initial findings indicate the murder stemmed from an ongoing dispute involving a girl. Two police teams have been formed to track down the accused, with raids being conducted at all possible hideouts. Meanwhile, sources suggest that the police have already detained two of the accused and are currently interrogating them. An official statement is expected once the investigation is complete.

## CM Helpline complaints must be resolved in time limit: Singh

PNS ■ INDORE

Indore: Collector Ashish Singh has directed that the implementation of the CM Helpline should be made more effective in Indore district. He instructed all officers to ensure the timely resolution of applications received under the CM Helpline. Action will be taken against those who show negligence or indifference in handling these applications. The meeting regarding the disposal of time-limit letters (TL) was held today, chaired by Collector Ashish Singh. Chief Executive Officer of District Panchayat Siddharth Jain, Chief Executive Officer of Indore Development Authority R.P. Ahirwar, Additional Collector Roshan Rai, Rajendra Raghuvanshi,

Mrs. Nisha Damor, and other officers attended the meeting. In the meeting, Collector Singh emphasized that applications registered under the CM Helpline should be processed promptly, ensuring effective and positive disposal. He specifically highlighted the importance of adhering to time limits, stating that officers who fail to address applications within the given timeframe will face action. He urged all officers to review the CM Helpline applications daily, engage with applicants, and ensure their resolution on the same day. Additionally, he asked for improvements in handling applications over 50 days old. Collector Singh further instructed revenue officers to prioritize the resolution of revenue-related cases within

the set timelines. He also reviewed the ongoing anti-begging campaign, urging officers to intensify the efforts, particularly around religious sites during festivals. Immediate action should be taken if any cases of begging are found. Additionally, Collector Singh reviewed the progress of the ongoing rejuvenation of Chacha Nehru Bal Chikitsalaya and directed that the work be completed within the next fortnight. He also urged the acceleration of revenue arrears recovery, with strict action to be taken against defaulters, including the potential confiscation of property if dues are not settled. He reminded that the financial year's target must be achieved by the end of this month.

## UBI organises MSME Loan Mela

Jabalpur: Union Bank of India organized a Mega MSME Outreach Loan Mela here on Monday. The event witnessed the distribution of various MSME loans, government-sponsored scheme loans, and women self-help group (SHG) loans to beneficiaries. The Loan Mela was inaugurated by Madhya Pradesh Cabinet Minister Prahlad Singh Patel, who serves as the Minister for Panchayat and Rural Development. During the event, the minister personally handed over loan sanction letters to more than 100 beneficiaries, including women from self-help groups and recipients of MSME and government scheme loans. In a touching gesture, he stepped down from the stage to personally hand over a loan sanction letter to a differently-abled woman seated among the audience.

Senior officials of Union Bank of India, including Executive Director S. Ramasubramanian, General Manager Alok Kumar, Bhopal General Manager B.P. Das, and Jabalpur Deputy General Manager Shalaj Kumar Sinha, were present at the event. Minister Prahlad Singh Patel commended Union Bank of India for its dedicated efforts in supporting MSMEs, government-backed loan schemes, and self-help groups. Executive Director S. Ramasubramanian reaffirmed the bank's commitment to ensuring that government financial benefits reach the intended beneficiaries and contribute to societal development. The event marked a significant step in empowering small businesses and women entrepreneurs by providing them with financial support under various schemes.

## Cong alleges corruption in Kusum Farmer Solar Pump scheme

STAFF REPORTER ■ BHOPAL

The BJP-led government of Madhya Pradesh is promising to install 30 lakh solar pumps for farmers in three years, but meanwhile, 46,000 registered farmers in the state have been waiting for solar pumps since 2017. While talking to mediapersons here on Tuesday, MPCC Media in-charge Mukesh Nayak said between 2017 and 2019, 46,000 farmers applied for the solar pump scheme. Of these, 14,000 paid a registration fee of Rs 5,000, and many others paid additional amounts for specific pump capacities. However, only 2,200 farmers received their pumps, and the remaining applicants have been waiting for over six years. The government's extensive

promotion led to high farmer participation, but years later, many feel deceived. This disappointment has led to the Energy Development Corporation constantly finding new excuses to delay installations. Recently, with a Rs 15,000 crore solar pump tender being finalized, there are concerns about frequent changes to the terms, suggesting potential corruption linked to favored companies. The Energy Department issued a new tender on August 5, 2024, worth Rs 1,500 crore. Despite 57 contractors participating, the committee disqualified 32 of them based on the tender's conditions. However, on January 15, 2025, the department changed the terms to include these disqualified contractors, which raises suspicions about the

fairness of the process. Further, on February 16, 2025, 25 disqualified contractors had their bids approved. Under the new plan, 90% subsidy is being proposed, compared to the previous 30% from both the central and state governments. Meanwhile, the 46,000 farmers who registered earlier are still waiting. Despite paying in full, they are denied the promised solar pumps for irrigation and are burdened with high electricity bills for farming. This new tender process and the changes to the terms of the tender raise questions about the integrity of the Energy Development Corporation and the possibility of corruption. With each solar pump costing Rs 2.7 lakh, the scheme's huge budget leaves room for potential misuse of funds.

## Smart meters to show impact soon

Bhopal: Benefits of smart meters will only be fully realised if electricity personnel remain vigilant, said Managing Director of the Madhya Kshetra Vidut Vitran Company (MKVVCL) on Tuesday while noting that over one lakh smart meters have already been installed in the state capital. Singhal made these remarks while addressing a meeting of City Circle Bhopal officials at the company's headquarters on Tuesday. Present at the meeting were Chief General Manager Amritpal Singh, General Manager BBS Parihar, and additional general managers, managers, and junior managers from all four divisions. With summer approaching, Singhal emphasised the need for effective maintenance in the capital to ensure consumers do not face any difficulties. He stressed that maintenance should be carried out in a

way that guarantees uninterrupted power supply during the summer and monsoon seasons, with minimal tripping incidents. As March begins, revenue collection efforts are also being intensified. Singhal directed officials to disconnect the connections of defaulters effectively so that outstanding dues are deposited into the company's accounts. He also highlighted the need to recover pending amounts along with current bills to reduce overall technical and commercial losses. Billing efficiency and revenue collection must improve visibly, he said, urging officials to make every possible effort. He also announced that in April, after the financial year ends, the performance of electricity personnel in Bhopal will be reviewed. Future postings will be based on this evaluation, ensuring that those who perform well are rewarded.

## Afghani citizen missing from city

Bhopal: An Afghan national who came to the state capital for studies is missing for past 2 months. According to information received from Jagran Lake City University, Syed Rashid Sadat (24) was a student of the university till 2024. He had completed MA Journalism. After this, he wanted admission in the university for a Diploma in Photo, but due to visa extension, the university did not give further admission. He was living in Sagar Green Hills Amarnath Colony in Kolar. Police have registered a case for illegal stay after the visa expired. Locals told the police that Sadat has not been seen in the area since January. Investigation has revealed that his visa expired on March 25, 2024.

## Govindpura deaths underline city's need for better mental health services

STAFF REPORTER ■ BHOPAL

In a grim reminder of the city's missing mental health and emotional support systems, a weary 82-year-old man, exhausted from battling illness and caring for his mentally challenged daughter, killed her before taking his own life. The two corpses were discovered on Sunday. The tragic incident, which took place in the Shakti Nagar neighbourhood of Govindpura, exposes the deep gaps in mental health services, particularly for caregivers struggling with long-term responsibilities. Experts say that timely psychological support, counselling, and respite care could prevent such despair-driven actions. Clinical psychologist Dyutima Sharma, one of the founders of city-based mental health start-up Orange Owl, says that, prima facie, the elderly gentleman

appeared to be suffering from caregiver fatigue, loneliness, and loss of hope. She adds that such cases highlight the emotional burden on caregivers, who often have no structured support system to turn to. Sharma points out that while government agencies do provide mental health support, these initiatives often fail to reach those in need due to inadequate funding. As a result, vulnerable families are left to fend for themselves, unaware of available help. Without widespread awareness and easy access to professional counselling, she notes, many people silently endure emotional distress. The government has made efforts to enhance mental and emotional health services in the city, with specialised care available at AIIMS, Hamidia Hospital, and several other institutions, besides private services offered by professionals like

herself. Despite these efforts, the demand far outweighs the supply, making it difficult for many families to seek timely intervention. Sharma, who has been practising for nearly a decade, acknowledges the government's focus on mental health, citing the inclusion of Social Emotional Learning in the new education policy. Many parents, though, remain sceptical about such academic modules, despite their potential to foster emotional resilience from a young age. She concludes by saying that strengthening rehabilitation-driven care services could have easily averted the tragedy at Shakti Nagar. More accessible mental health facilities, she argues, could make a significant difference in preventing such cases in the future. As part of the United Nations' Sustainable Development Goals

(SDGs) for urban centres worldwide, Bhopal is committed to curbing unnatural deaths in the city. The steep climb in suicides, though, suggests that all may not be going to plan. While efforts have been made, gaps in outreach and accessibility continue to hinder progress. City residents say that better identification of vulnerable persons, regular counselling, community support groups, and emergency helplines could ease the emotional burden on families struggling to stay afloat in times of crisis. Without such assistance, many remain trapped in silent suffering, with no one to turn to when their resilience breaks. "They take extreme steps not to end life but to end the suffering and pain," says Sharma. She stresses that expanding mental health support systems should be a priority to prevent such tragedies.

## Residents demand removal of liquor shops

Bhopal: Upset over liquor vendors in their localities, residents from two city neighbourhoods reached the public hearing at the Collectorate office on Tuesday and sought immediate relocation of the shops. Residents of Panchsheel Nagar and Rajiv Nagar in Bhopal claim the shops have made their daily lives difficult, with intoxicated individuals frequently causing disturbances. In Panchsheel Nagar, residents complained that from 5 PM to 10 PM, groups of intoxicated individuals gather outside the liquor shop, consuming alcohol openly. This has created an unsafe environment, especially for children preparing for their annual exams. Despite repeated appeals for the shop's relocation, no action has been taken.

## PUBLIC NOTICE

Date 05-03-2025  
It is informed to the general public that my party, Aadhaar Housing Finance Limited Khandwa, Bearing Najul Block no. 52, Plot no. 76/1 Total area 720sq.ft. # India must adapt to new, emerging threats, develop solutions: Rajnath

Defence Minister Rajnath Singh visits an exhibition of products for internal security and disaster relief operations in New Delhi

**PIONEER NEWS SERVICE ■ NEW DELHI**

Defence Minister Rajnath Singh said on Tuesday that India's security apparatus must remain adaptive to emerging threats such as cyber and hybrid warfare as well as "space-based espionage". He said internal security is not just about managing conventional threats like terrorism, separatist movements, and left-wing extremism but it is also about preparing for unconventional threats that can destabilise the nation's economic and strategic interests. "The adversaries of today do not always come with traditional weapons; cyber-attacks, misinformation campaigns, and space-based espionage are emerging as new-age threats that require advanced solutions," he said. The defence minister was speaking at a conference on 'Advanced Technologies for Internal Security and Disaster Relief Operations' organised jointly by the Defence Research and Development Organisation (DRDO) and the Ministry of Home Affairs (MHA). In his address, Singh highlighted the growing complexities in global security and the increasing overlap between internal and external threats. "Security challenges in the modern world

are evolving rapidly, and the overlap between internal and external security is increasing," he said. "It is imperative that our institutions break silos and work collaboratively to ensure a strong, secure, and self-reliant India." The defence minister said India's national security must be viewed holistically, integrating efforts across different security agencies and leveraging the latest technological advancements. "The DRDO has played a pivotal role in enhancing India's defence capabilities, and its contributions to internal security are equally commendable," he said. "From small arms and bulletproof jackets to surveillance and communication systems, DRDO's innovations are empowering our security forces," he underlined. Singh urged DRDO and MHA to work together to create a common list of scalable products that can be jointly developed and deployed in a time-bound manner. "Our security forces require the best tools and technologies to remain ahead of the curve," he said. "It is encouraging to see DRDO's focus on modernisation, with products like small arms, surveillance equipment and drone systems either inducted or undergoing evaluation for deployment in inter-

nal security agencies," he highlighted. Singh recalled his tenure as the home minister, highlighting how the collaboration between security agencies and scientific institutions led to significant technological advancements. He cited examples of DRDO-developed technologies such as the corner shot weapon system, INSAS rifles, IED (Improvised Explosive Device) jammer vehicles and riot control vehicles, which were effectively integrated into the operations of Central Armed Police Forces. Singh also spoke about the importance of leveraging technology not just for security but also for disaster management and humanitarian relief. "The role of technology is not just in defence but also in ensuring peace and social welfare. Advanced systems like bulletproof jackets, drones, surveillance equipment and anti-drone technologies must be leveraged not only for security operations but also for disaster management and humanitarian relief," he said. Singh said the increasing frequency of natural calamities like cyclones, avalanches, earthquakes and cloud bursts underscored the critical need for advanced rescue tools. He mentioned that the use of tech-

nologies such as thermal imaging cameras, drone-based detection systems, and victim locating devices can significantly reduce casualties and damage. Referring to the recent avalanche at Mana in Uttarakhand, the defence minister lauded the use of advanced rescue equipment in saving lives and reducing the impact of the disaster. He said the impact of disasters can be minimised with the use of advanced technology. "Today, India is a prospering nation, and disaster management must become an integral part of our preparedness." It is not enough for security agencies and technology developers to take the lead; we must also educate the general public. Every citizen should know how to respond in times of crisis," he said. Singh also talked about varied security threats facing different regions of the country. "Security threats in India are not uniform. The issues faced in the Northeast due to insurgencies are different from those in Naxal-affected areas or border regions." "Similarly, urban security concerns are different from those in rural areas. We need to organise dedicated conferences that focus on region-specific challenges and solutions," he said.

## Muslims being discriminated: Mayawati

**PTI ■ LUCKNOW**

Bahujan Samaj Party chief Mayawati on Tuesday said the Centre and state governments should treat all religions equally but alleged that step-motherly treatment is being meted out to Muslims. In a post in Hindi on X, the former Uttar Pradesh chief minister said such discrimination can be detrimental to peace and harmony in the society, which is a matter of great concern.

"India is a secular country that respects all religions. In such a situation, the central and state governments should treat the followers of all religions equally without any bias, but the step-motherly treatment being

meted out to Muslims in religious matters is not justified," she said. "The rules and laws related to restrictions and exemptions regarding festivals of all religions should be implemented equally without any bias, which does not seem to be happening. It is natural for peace and mutual harmony in the society to deteriorate due to this, which is a matter of great concern. Governments must pay attention to this," she said in another post.

## Man held for extorting, threatening minor

**STAFF REPORTER ■ GURUGRAM**

Gurugram Police arrested an accused for allegedly extorting ₹80 Lakh from a 15-year-old girl by threatening to leak her objectionable photos on social media, which turned out to be morphed, police said. At least five other suspects have already been arrested in the matter, police said on Tuesday. The arrested accused was identified as Naveen Kumar (28), a resident of New Colony, Garhi Harsaru, Gurugram.

## SC seeks Telangana response on disqualification of turncoat MLAs

**PTI ■ NEW DELHI**

The Supreme Court on Tuesday sought Telangana government's response on pleas against the purported delay by the Assembly speaker to decide on the disqualification of BRS MLAs, who defected to Congress, saying a timely decision was key and there couldn't be a case of "operation successful but patient is dead". A bench comprising Justices BR Gavai and Augustine George Masih said the decision on pleas over the disqualification of the lawmakers "cannot go on till the end of the Assembly session". The court also issued notices to the office of the speaker of Telangana legislative assembly, the secretary of assembly and the Election Commission. Responses were also sought from MLAs Danam Nagender, Venkata Rao Tellam and Kadiyan Srihari who were directed to comply before the next hearing on March 25. "Every matter cannot be dealt with in a manner that the operation is successful but the patient is dead," Justice Gavai said. Senior advocate CA Sundaram, appearing for BRS

leader Padi Kaushik Reddy, said not taking a decision by the assembly speaker amounted to a failure in performing the constitutional mandate. Senior advocate Abhishek Singhvi opposed the submission and said a time frame couldn't be given to the speaker to decide the disqualification plea. He said on July 1, 2024, the plea for disqualification was filed with the assembly speaker and on July 9, a petition was filed in the Telangana High Court. "In a democracy, the process should not go on till the end of the term of the assembly and if it happens then what will happen to the democratic principles," Justice Gavai said. The court added, "People are not only interested in getting the law decided but also see how it affects them." The bench said when the case was first listed on January 31, it deferred the hearing to February 10 and asked senior advocate Mukul Rohatgi whether the assembly speaker would like to express the timeline within which he would decide the disqualification plea. Rohatgi said no such statement could be made on behalf of the

speaker, the bench observed. "Singhvi and Rohatgi state that no formal notice was there and thus no reply could be filed. Even though it is hyper technical we don't want it to be said that the case was decided against principles of natural justice. Hence we issue a notice returnable on March 25," the bench said. Telangana High Court registrar general was directed to ensure that notices were served. On February 10, the bench said in a democracy, rights of a party couldn't be permitted to be frustrated. It had asked as top what will be the "reasonable time" for Telangana Assembly speaker to decide pleas for disqualification of BRS MLAs. A high court division bench had said the state legislative assembly speaker must decide on the disqualification petitions against the three MLAs within a "reasonable time". One of the pleas challenged the November 2024 order of the Telangana High Court over the disqualification of three BRS MLAs, who joined the ruling Congress party in the state whereas another petition related to the remaining seven legislators who defected.

## Centre finalises plan to restore Aravalli range

**PIONEER NEWS SERVICE ■ NEW DELHI**

Centre has planned to restore degraded ecosystems and land across more than eight lakh hectares of reserved forest in the first phase of its ambitious Aravalli Green Wall project, which aims to create a green buffer around the Aravalli mountain range in northwest India. According to the detailed action plan for Aravalli restoration, the government is likely to spend an estimated ₹16,053 Crore in the first phase. Stretching 700 kilometres from Gujarat to Delhi, the Aravalli range acts as a natural barrier against desertification, preventing the expansion of the Thar desert and protecting cities such as Delhi, Jaipur and Gurugram. The Aravallis, India's oldest mountain range, are the source of important rivers such as the Chambal, Sabarmati and the Luni. Its forests, grasslands and wetlands support endangered plant and animal species. However, deforestation, min-

Congress President Mallikarjun Kharge with Karnataka Deputy Chief Minister DK Shivakumar in Bengaluru

## Government weakening RTI using data protection: Kharge

**PIONEER NEWS SERVICE ■ NEW DELHI**

Congress president Mallikarjun Kharge on Tuesday accused the Modi government of weakening the Right To Information (RTI) Act in the name of data protection and asserted that his party will keep fighting against the "dictatorial" regime to secure the rights of the people. Kharge asserted that the Congress will not let RTI weaken and will continue to raise its voice from the streets to Parliament. "On one hand, India has been topping the charts on Misinformation and Disinformation for the past years and on the other hand, the Modi government is bent

on weakening the Right To Information (RTI) Act implemented by the Congress-UPA by bringing in the Data Protection law," the Congress chief said in a statement. Whether it is information in the public sector like the list of ration cards, beneficiary labourers of MGNREGA, names of people involved in public welfare schemes, voter list in elections, or the names of scamster billionaires who fled abroad after taking loans from government banks - it is important for the public to have the names of all these in the public domain, he asserted. But now the Modi government is weakening the RTI in the name of Data Protection, due to which such names will no longer be made public, Kharge

claimed. The Right to Privacy is a fundamental right, and the Congress has fought for it, but when it comes to Public Welfare, the Right to Information is necessary, he asserted. The Right to Privacy was also taken care of in the RTI brought by the Congress, but this does not mean that the list of beneficiaries or the names of scamsters should not be made public, Kharge said. "The Congress party will not let RTI weaken, we have raised our voice for it earlier also, and will continue to raise our voice from the streets to the Parliament. We will keep fighting against this dictatorial government to secure the rights of the people!" the Congress chief said.

## ED arrests SDPI national president

**PIONEER NEWS SERVICE ■ NEW DELHI**

The Enforcement Directorate (ED) has arrested Social Democratic Party of India (SDPI) national president MK Faizy under the anti-money laundering law, official sources said on Tuesday. SDPI founded in 2009 and headquartered in Delhi, is alleged to be the political front of the now banned Popular Front of India (PFI). Faizy, according to the sources, was taken into custody on Monday night from the Delhi international airport under the Prevention of Money Laundering Act (PMLA). The ED had earlier called SDPI as the "political front" of PFI. The PFI was banned by the Union government in September, 2022 calling it an "unlawful association". Before the ban came, raids and enforcement action were conducted against the PFI by multiple probe agencies, including the ED, NIA and various state police forces. The SDPI, however, denies such a link and calls itself an independent outfit. Faizy is among the founder leaders of SDPI and was elected its national president in 2018. He is an Islamic scholar and a political observer who served as a Masjid Imam in the 1980s. The organisation, according to officials in the investigative agencies, has "strong" influence in various pockets of Kerala and Karnataka. The ED, as part of its probe against the PFI in 2022, had linked Faizy with a Kerala-based PFI leader named Abdul Razak BP who is alleged to have "transferred" ₹2 Lakh to the SDPI national president as part of the fund raising activities.

## SC seeks details from election panel on disqualification of political leaders

**PIONEER NEWS SERVICE ■ NEW DELHI**

In a significant development, the Supreme Court (SC) on Tuesday asked the Election Commission of India (ECI) to provide details of cases in which it had either removed or reduced the period of disqualification from electoral rolls of leaders post their conviction in criminal cases. A bench comprising Justices Dipankar Datta and Manmohan asked the poll panel to furnish within two weeks details of such cases in which it exercised its power under Section 11 of the Representation of People Act (RPA), 1951. Under the RPA, the period of disqualification from electoral politics post-conviction in criminal cases varies depending on the offence and sentence. In cases relating to imprisonment of two or more years, a person is disqualified from the date of conviction until six years after their release, even if they are out on bail or awaiting appeal. However, the ECI is empowered under Section 11 of the Act to remove or reduce the period of disqualification after recording the reasons. The bench said PIL petitioner Ashwini Upadhyay and others could file a rejoinder to the EC's response within two weeks after

the details were furnished by the poll panel. The 2016 PIL, filed through advocate Ashwani Dubey, sought a life ban on convicted politicians aside from the expeditious disposal of criminal cases against MPs and MLAs in the country. On being informed that a similar plea of NGO Lok Prahari was pending and being heard by another bench, Justice Datta referred the PIL of Upadhyay to the Chief Justice of India Sanjiv Khanna for clubbing them and listing them before one court. The bench said the matters should be listed expeditiously after the CJI passes an administrative order. During brief hearing, senior advocate Vijay Hansaria, assisting the bench as an amicus curiae, said the details of reduction or removal of disqualification of convicted politicians were not available and the same should be provided. Senior advocate Vikas Singh, appearing for the petitioner, said steps were needed to prevent criminalisation of politics and quoted the poll panel as saying that chargesheeted persons should be barred from entering into electoral politics. The ECI counsel said he had no difficulty in providing details of cases where the poll panel exercised its power to reduce or remove the period of disquali-

Pioneer Photos

fication and said the validity of Section 11 of the RPA was not under challenge in the present case. The Centre, however, opposed the PIL recently and said imposition of life ban on convicted politicians was solely within the domain of Parliament. In an affidavit, the Centre said the prayer amounted to re-writing of the statute or directing Parliament to frame a law in a particular manner which was wholly beyond the powers of judicial review. "The question whether a lifetime ban would be appropriate or not is a question that is solely within the domain of the par-

liament," the affidavit said. There was nothing inherently unconstitutional in limiting the effect of penalties by time and it was a settled principle of law that penalties were limited either by time or by quantum, it added. The apex court on February 10 sought responses of the Centre and the ECI on the challenge to the constitutional validity of Sections 8 and 9 of Representation of People Act. Outlining "criminalisation of politics" as a major issue, the bench asked how a person could return to Parliament after being convicted in a criminal case.

42 per cent (2.70 Million hectares) of land is degraded. Of the total degraded area, 81 per cent is in Rajasthan, 15.8 per cent in Gujarat, 1.7 per cent in Haryana and 1.6 per cent in Delhi, according to the action plan. Rajasthan's Udaipur district has the highest degraded area within the buffer zone (0.675 Million hectares), which is more than the combined degraded area of Haryana, Delhi and Gujarat (0.568 Million hectares). In the first phase of the project, 8,16,732 hectares of recorded forest area will be restored. This includes 3,010 hectares in Delhi, 5,677 hectares in Gujarat, 3,812 hectares in Haryana, and 99,952 hectares in Rajasthan. The total budget for this phase is ₹16,053 Crore. This initiative will be crucial in meeting India's climate goal of creating an additional carbon sink of 2.5 to 3 Billion tonnes of carbon dioxide equivalent and restoring 26 Million hectares of degraded land by 2030, according to the central government. Within this buffer zone, about

ing, livestock grazing and human encroachment are worsening desertification, damaging aquifers, drying up lakes and reducing the range's ability to sustain wildlife. To tackle these issues, the government launched the Aravalli Green Wall initiative in March 2023. The project aims to estab-

lish a five-kilometre-wide green belt buffer, covering 6.45 Million hectares across Gujarat, Rajasthan, Haryana and Delhi.

Within this buffer zone, about

# Activist blame administrative negligence for death in Uttarakhand avalanche

PIONEER NEWS SERVICE ■ DEHRADUN

Social activists have blamed the death of eight workers in an avalanche that hit a BRO camp at Mana in Uttarakhand's Chamoli district last week on "administrative negligence" and said the lives could have been saved had the authorities paid heed to a snowslide warning. They also blame "reckless construction" works in avalanche-prone areas for the rise in snowslide incidents. The Chandigarh-based Defence Geoinformatics Research Establishment (DGRE) issued an avalanche warning for a 24-hour period at 5 pm on February 27 for places located above the height of 2,400 metres such as Chamoli, Uttarkashi, Rudrapur, Pithoragarh and Bageshwar districts of Uttarakhand. The avalanche hit the Border Roads Organisation (BRO) camp in Chamoli between 5.30 am and 6 am on February 28, trapping 54 workers. While 46 of them were rescued alive, eight were found dead. Atul Sati, a social worker and the convener of

Rescue team members pose for group photos after the conclusion of Mana Rescue operations following an avalanche in Chamoli district PTI

Joshimath Bachao Sangharsh Samiti said "administrative negligence" led to the death of the eight workers. "There was an avalanche warning and authorities should have acted on time," he said. Following the incident, the Uttarakhand government issued an advisory for tourists staying in skiing destination Auli which has no history of avalanches, Sati said and alleged that it

looks like an attempt to divert people's attention from the state's failure. "When there was a warning and the authorities were aware that such a large number of workers were in Mana, why weren't they advised to move to safety?" asked another social activist. The weather office in Dehradun issued a yellow alert for February 27, two days in advance, predicting isolated heavy rain and snowfall in locations

situated at 3,500 metres and above. However, the State Emergency Operations Centre here alerted the district magistrates concerned on February 28 when the avalanche had already hit the camp. Over the last four years, two dwelling units of BRO workers have been destroyed by avalanches in the Chamoli district alone. An avalanche in April 2021 destroyed a settlement of workers in Niti Valley adjoining the Indo-Tibet border, killing as many labourers. Experts feel that the snowslides are a result of reckless construction being carried out in avalanche-prone areas. Renowned geologist MPS Bisht, an expert on weather movements in the Kedar Valley, said the entire area is vulnerable to avalanches that keep coming from the Nar Parvat. Construction activities are being carried out recklessly even in areas identified for vulnerability without thinking over the consequences, he said. "Disasters are the result of this."

# SP's Azmi's remark on Aurangzeb rock legislature, members demands his suspension

PIONEER NEWS SERVICE ■ MUMBAI

The issue of SP MLA Abu Asim Azmi's remarks eulogising Mughal emperor Aurangzeb rocked both houses of the Maharashtra legislature on Tuesday, with members of the ruling Mahayuti demanding his suspension and charging him with treason. Both the houses were adjourned over the issue. The development came on a day when the opposition Maha Vikas Aghadi planned to corner the government over the resignation of NCP minister Dhananjay Munde. As proceedings of both the houses began, the Mahayuti members started raising slogans seeking action against Azmi, who is the Samajwadi Party's state president. They claimed Azmi was a descendant of Aurangzeb, who tortured Maratha king Chhatrapati Sambhaji Maharaj and brutally killed him. Deputy Chief Minister and Shiv Sena head Eknath Shinde led the attack on Azmi both in the legislative council and assembly. In the council, the former CM said Azmi also made objectionable statements in

Members of the ruling Mahayuti stage a protest against Samajwadi Party MLA Abu Asim Azmi during the Budget session of Maharashtra Assembly in Mumbai PTI

the past against Maratha ruler Chhatrapati Shivaji Maharaj. "Abu Azmi is purposely insulting Chhatrapati Shivaji Maharaj and (his son) Sambhaji Maharaj's bravery and Aurangzeb's cruelty will give goosebumps to people," Shinde said in the council. Aurangzeb tortured Sambhaji Maharaj in an inhuman way. Abu Azmi referred to Aurangzeb as an able administrator who built temples but he razed Kashi Vishveshwar temple, Shinde said. The Mughal emperor not only killed Hindus but also people from other

religions, the deputy CM said. "Aurangzeb lost even after he won, but Sambhaji, through his bravery, won even after his sacrifice. He (Aurangzeb) is a demon. Even a true Muslim will not forgive the progeny of traitors. It is wrong to eulogise Aurangzeb," Shinde said. He also demanded that Azmi's membership of the legislative assembly be revoked. No one will tolerate the act of eulogising Aurangzeb, the Shiv Sena leader said. In the assembly, Shinde dubbed Azmi a "traitor" and said had no right to sit in the House.

He asked SP MLA Raees Shaikh to watch the recent Hindi film 'Chhaava', which has documented the bravery and sacrifice of Sambhaji Maharaj. "See the torture Sambhaji Maharaj endured for 40 days. Aurangzeb asked him to change his religion," he said. Praising Aurangzeb is an insult of the country's national heroes, Shinde said. Sambhaji Maharaj won 70 battles in nine years, he said, adding that Aurangzeb demolished temples and killed his own family. Industries Minister Uday Samant (Shiv Sena) reiterated the demand that Azmi be suspended from the House and be booked for treason. "We cannot tolerate praise of a person who harassed Chhatrapati Shivaji Maharaj and tortured Chhatrapati Sambhaji Maharaj," he said. Atul Bhatkalkar (BJP) demanded that Azmi be booked for treason and suspended from the assembly for the budget session. Shiv Sena minister Gulabrao Patil also demanded action against Azmi. Sudhir Mungantiwar (BJP) demanded that Aurangzeb's grave be demolished.

# Camera clash in Karnataka Assembly: Discrimination allegations stir proceedings

PIONEER NEWS SERVICE ■ BENGALURU

The Karnataka Legislative Assembly was briefly disrupted on Tuesday as the opposition BJP alleged discrimination, claiming that cameras covering the proceedings were not showing their party members when they spoke in the House. They pointed out that during the coverage, the cameras focused on the Speaker whenever opposition MLAs were speaking, whereas this was not the case when ruling party legislators or ministers took the floor. When the Leader of Opposition, R Ashoka, pressed for a discussion on the alleged irregularities in the Karnataka Public Service Commission (KPSC), his deputy Arvind Bellad pointed out to the Speaker that Ashoka was not being shown on television screens while speaking. He questioned whether there were instructions not to cover the opposition, saying, "The whole House is shown, the

Karnataka Deputy CM DK Shivakumar speaks during the Budget session of the Karnataka Assembly in Bengaluru PTI

ruling side and ministers are shown, even the Chair and the Speaker are shown. But when the Leader of the Opposition is speaking, he is not shown. He is speaking on an important issue, and people should know." Bellad also noted that this issue was raised during the Business Advisory Committee (BAC) meeting on Monday. Several BJP MLAs, including C C Patil and Sunil Kumar, supported his concerns. Speaker U T Khader attempted

to reassure them, suggesting that it could be a technical issue and promising to instruct officials to resolve it. Ashoka reiterated that the issue had been brought up in the BAC meeting and that even members of the media had pointed out that opposition protests were not being shown in the House. "Whoever is speaking at a given time should be shown. But instead, others are being focused on. This doesn't seem like a technical issue-it looks

like an instruction problem," he said. BJP MLA Basangouda Patil Yataln questioned whether there was a deliberate ban on showing opposition members. When Law and Parliamentary Affairs Minister H K Patil later stood to speak, he was immediately shown on TV. Pointing this out, opposition members accused the government of a deliberate "adjustment," alleging that only opposition leaders were being ignored. BJP MLAs, including Yataln, Sunil Kumar, C C Patil, Bellad, and Ashoka, insisted that the issue be resolved before proceedings continued. "If it's a technical issue, get it fixed immediately... Tighten the nuts and bolts," they told the Speaker. At this point, Minister Priyank Kharge interjected, alleging that the practice of not showing opposition speakers was first introduced in Parliament under BJP rule and later implemented in the Assembly by former Speaker Kageri during the BJP's tenure.

# Punjab police raid homes of farmer leaders ahead of protest

PIONEER NEWS SERVICE ■ CHANDIGARH

SKM leaders early morning "With such actions, the government cannot stifle the voice of farmers," Lakhohal said, adding, "We are fighting in support of various farmers' demands." He said police personnel are also deployed at his residence. "It is our right to hold protests. We warn the state government not to indulge in such police actions," Lakhohal said as he called upon farmers to reach Chandigarh in large numbers. BKU (Rajewal) vice president Mukesh Chander Sharma too claimed that police raided the residences of farmer leaders in the state. "Police raided my residence at 4 am," Sharma claimed, adding that he condemned the police action. Talks between the Punjab government and SKM leaders to discuss farmers' demands broke down midway on Monday, with farmer leaders claiming a

"livid" Mann "walked out of the meeting in a huff without any provocation". However, Mann had said his doors are always open for talks with the farmers but inconvenience and harassment of the public in the name of agitation should be avoided. The SKM, which had led the 2020 agitation against the now-repealed three farm laws, is demanding the withdrawal of the Centre's draft of the National Policy Framework on Agricultural Marketing, a legal guarantee to minimum support price as per the Swaminathan Commission report, implementing the state's agricultural policy and purchase of six crops at MSP by the state government. They are also demanding a law for debt settlement, ensuring canal water to every field, payment of sugarcane arrears and stopping "forcible" acquisition of land for the Bharatmala projects.

The Punjab government on Tuesday asked the protesting revenue officers to join back their duties or face suspension. The strict orders came a day after the Punjab Revenue Officers' association suspended the property registration work till March 7 in protest against the vigilance bureau action against some revenue officials in Ludhiana in a fraudulent land deal. They are also protesting against the vigilance bureau action on some revenue officers, saying such actions are "creating an atmosphere of fear". On Monday, the revenue officers had gone on a mass casual leave, affecting the property registration work thus causing inconvenience to people. Punjab Chief Minister Bhagwant Mann also lashed out at the revenue officers for not undertaking the property registration work. He said revenue officers are protesting against certain officials who were caught in a corruption case by the vigilance bureau. "There is a zero tolerance against corruption," Mann asserted. He said the protesting revenue officers should not remain under an impression that they could blackmail the government by suspending the work. Speaking to reporters in Kharar tehsil office in Mohali, Mann said the government has authorised other officers for property registration work in the state. "If they do not join back their duties, we will appoint new officers," he said, adding that an approval for recruiting new revenue officers will be given in the next Cabinet meeting.

# Yogi targets Opposition, calls Maha Kumbh testament to India's heritage

UP CM Yogi Adityanath speaks in the House during Budget session of state Assembly in Lucknow PTI

BISWAJEET BANERJEE ■ LUCKNOW

Uttar Pradesh Chief Minister Yogi Adityanath launched a sharp attack on the Samajwadi Party (SP) during the budget session, accusing the opposition of playing with India's faith. "You claim that our ideology is communal, but tell us, how can we be communal? We believe in 'Sabka Saath, Sabka Vikas' (inclusive development for all)," he asserted. Highlighting the success of Maha Kumbh 2025, CM Yogi described it as a crucial test for both the central and state governments, in which they emerged victorious. "The 45-day event left a remarkable imprint of India's heritage and development not just in the country but across the world. The Maha Kumbh was our biggest challenge, yet we successfully managed it. Over 330 Million devotees visited the event without a single criminal incident being reported," he stated. He further emphasised that this achievement was not just a spiritual milestone but also an economic boost, with expectations of contributing ₹3.5 Lakh Crore to the state's economy. CM Yogi also highlighted Uttar Pradesh's economic

progress over the years. "Despite being the largest state with abundant resources, the Gross State Domestic Product (GSDP) of Uttar Pradesh stood at only ₹12.75 Lakh Crore from 1950 to 2017. However, after the people placed their trust in Prime Minister Narendra Modi's policies in 2017, the state's GSDP has more than doubled and is expected to reach ₹27.51 Lakh Crore in 2024-25," he said. He added that Uttar Pradesh now holds a 9.2 per cent share in the national GDP, ranking second in the country. While India's GDP growth rate in 2023-24 was 9.6 per cent, Uttar Pradesh recorded a higher growth rate of 11.6 per cent. Emphasising Uttar Pradesh's leadership in the digital revolution, CM Yogi pointed out the rapid adoption of digital transactions. "In 2017-18, the state recorded 122.84 Crore digital transactions, which surged to 1,024.41 Crore by December 2024. Uttar Pradesh is now the leader in digital payments, with more than half of the transactions happening via UPI," he said. He attributed this success to better internet connectivity in rural areas, financial awareness, and the availability of banking infrastructure.

# Meerut-made cricket bats take center stage in ICC Champions trophy

BISWAJEET BANERJEE ■ MEERUT

As the ICC Champions Trophy unfolds, cricket bats crafted in Meerut are proving to be the weapon of choice for several top international players. Stars from India, England, South Africa, New Zealand, and Afghanistan are delivering powerful performances using these premium-quality bats, many of which are made from high-grade English willow. The ongoing tournament, being held in Pakistan and Dubai, has showcased the growing influence of Meerut's bat-making industry, with Group A and B leaders New Zealand and South Africa among the teams relying on them. Indian players like Hardik Pandya, KL Rahul, Axar Patel, Rishabh Pant, and Kuldeep

Yadav have all been spotted wielding bats from leading Meerut-based manufacturers such as SG, SS, and PR. Since the Covid-19 pandemic, the demand for cricket equipment from Meerut has witnessed a sharp rise, particularly in Asian and European markets. With the Champions Trophy in full swing, international cricketers like England's Jofra Archer, Liam Livingstone, and Mark Wood, along with Afghanistan's Hasmatullah Shahidi, Azmatullah Omarzai, Ibrahim Zadran, Rashid Khan, and Sadiqullah Atal, have been seen using Meerut-manufactured bats. This spike in popularity is also driving increased purchases ahead of the Indian Premier League (IPL). According to Mohd Rizwan, a senior official at SG, "The demand for cricket

equipment has multiplied post-pandemic. Orders have flooded in following the World Cup, with the Champions Trophy and IPL further fueling sales. Players often receive their gear either in their home countries or at training camps." The prominence of Meerut's sports equipment industry continues to grow, with companies such as SG, SS, PR, and Bhalla International strengthening the city's reputation in the global market. Anil Agarwal, Director at PR, highlighted this success, stating, "Meerut-made bats are dominating the Champions Trophy, demonstrating the craftsmanship and quality of our products. Organisations like the Indian Industries Association (IIA) are playing a crucial role in

supporting industry expansion." With surging demand, bat manufacturing in Meerut has become more technologically advanced. Traditionally, it took nearly two hours to craft a single bat, but modern machinery has reduced this to just 15 minutes. Factory operator Kshitij Agarwal explained, "Innovative machines now handle key tasks such as handle shaping, cleft cutting, pressing, rubbing, and threading. This automation has enhanced efficiency, increased production, and boosted overall profits." Inside the Craft of Bat Manufacturing Manoj Sharma, a bat factory manager, elaborated on the intricate process of bat-making. "We use wooden clefts, commonly known as 'bangar,'

as the primary material. The bat handle, an essential component, is typically made from Singaporean, Assam, or Andaman cane, with Singapore cane being the highest quality. Rubber inserts—usually two or three—are embedded within the handle to enhance grip and shock absorption. The standard bat dimensions include a height of 33.50 inches, a width of 4.25 inches, and a handle length of 11 inches, with a blade thickness between 35mm and 40mm." As Meerut's cricket bats continue to gain global recognition, their presence in the ICC Champions Trophy is a testament to the city's growing dominance in the sporting goods industry. With the IPL on the horizon, the demand for these expertly crafted bats is only expected to rise further.

# Mayawati ousts nephew Akash Anand from BSP amid party revamp

BISWAJEET BANERJEE ■ LUCKNOW

The Bahujan Samaj Party (BSP), once a dominant force in Uttar Pradesh, is experiencing a significant shift in leadership as party chief Mayawati looks to rejuvenate her party's fortunes. Recently, Mayawati made the bold decision to oust her nephew, Akash Anand, from all positions within the BSP, culminating in his expulsion. This unexpected move has sent ripples through the political scene. In its aftermath, figures like Rajya Sabha MP Ramji Gautam and Mayawati's brother, Anand Kumar, have emerged as key players in the party's restructuring, both appointed as national coordinators. This realignment signals a fresh direc-

Mayawati during meeting with party's senior office bearers and state presidents at the party office, in Lucknow PTI

tion for the BSP as it prepares for the 2027 Uttar Pradesh Assembly elections. Ramji Gautam, a trusted and low-key leader, has long been a loyal aide to Mayawati. His decades-long association with the BSP has earned him a reputation as a steadfast party

worker. His elevation is widely seen as a move to strengthen the party's core Dalit support base, while distancing itself from controversial or inexperienced elements. Rajiv Ranjan, an analyst, points out that Gautam's rise could help counter the perception

that the BSP is losing its grip on Uttar Pradesh's complex caste dynamics. "The BSP has faced challenges since 2014, with its Dalit-Muslim vote base splintering. Gautam is seen as a disciplined leader who can help reconnect with the party's traditional voters," he says. Once a formidable force in Uttar Pradesh, the BSP has seen a sharp decline in its electoral success in recent years. In the 2022 Assembly elections, the party secured just one seat. Even the 2019 Lok Sabha elections, which saw a marginal improvement with 10 seats, were mainly the result of an alliance with the Samajwadi Party (SP)—an alliance that quickly fell apart, leaving the BSP politically isolated. In the current political environment, the BJP

dominates Uttar Pradesh, while the SP is positioned as the leading opposition. The BSP, which once presented itself as a strong alternative for Dalit and backward-caste voters, has struggled to retain this base, with many former supporters now aligning with the BJP or SP. Who Is Ramji Gautam? Ramji Gautam, born on June 1, 1976, in Lakhimpur Kheri, hails from the Jatav community. He has been a dedicated member of the BSP since his early days and became known for his organisational skills, particularly in Banda district, where he served as the party's coordinator. His steady rise culminated in his appointment as the BSP's national vice president in 2018.

Mayawati has referred to him publicly as her "brother," underscoring their close working relationship. Gautam's new role as national coordinator puts him in a crucial position to help rebuild the party's structure and improve its electoral prospects. One of Gautam's key tasks will be to strengthen the BSP's grassroots presence, which has dwindled over time. Following another disappointing performance in the 2024 Lok Sabha elections, all eyes are now on the 2027 Assembly elections, where the BSP must recalibrate its strategy to regain relevance. Mayawati's decision to remove Akash Anand marks a clear message that she alone remains the unchallenged leader of the BSP.

PAPER WITH PASSION

## Securing the skies

With adversaries rapidly upgrading to next-generation aircraft, India must prioritise air combat readiness

The Indian Air Force (IAF) is at a critical juncture, balancing the need for rapid modernisation with self-sufficiency under the 'Aatmanirbhar Bharat' initiative. A recent report by the Empowered Committee for Capability Enhancement of the IAF, has identified key thrust areas and provided recommendations to address shortfalls and enhance the force's capabilities. The IAF is currently operating at 31 fighter squadrons, significantly below the sanctioned strength of 42 squadrons. The delays in the induction of the Light Combat Aircraft (LCA) Mk1A and the gradual phasing out of ageing Jaguar, MiG-29UPG, and Mirage-2000 present an urgent need for new acquisitions. The report underscores the necessity of accelerating the production of the LCA Mk1A, LCA Mk2, and the fifth-generation Advanced Medium Combat Aircraft (AMCA). Besides, the need for additional Airborne Early-Warning and Control (AEW&C) aircraft, mid-air refuelers, and advanced missile systems is crucial for operational capabilities. The committee has stressed the role of the private sector in complementing efforts by Defence PSUs and the DRDO to boost production capacity and efficiency in aerospace manufacturing. The slow pace of domestic fighter jet production has led to gaps in operational readiness, particularly when adversaries like China and Pakistan are rapidly modernising their air forces with fifth- and even sixth-generation aircraft.

The complex procurement process and lack of streamlined decision-making continue to delay critical acquisitions compromising the air strength. While progress has been made in indigenous defence production, there are still gaps in high-end technologies such as jet engine

development, advanced avionics, and stealth capabilities. The financial allocation for defence needs to align with modernisation goals, ensuring adequate funding for both indigenous projects and immediate acquisitions. Defence Minister Rajnath Singh has directed that the committee's recommendations be implemented in a structured and time-sensitive manner to prevent further delays. The government must ensure the timely execution of the AMCA program and increase HAL's production capacity to meet annual fighter jet requirements. Besides, a reformed procurement mechanism, reducing bureaucratic delays, is essential to fast-track approvals and acquisitions. Strengthening collaborations with global aerospace leaders to bring in advanced technology while setting up domestic manufacturing hubs will help accelerate modernisation. Encouraging private defence manufacturers through policy reforms, incentives, and infrastructure support will boost self-sufficiency in aerospace production. The recommendations underscore call for urgent action and need for addressing systemic challenges, and fostering innovation through private sector involvement. Indeed, India must achieve a combat-ready and self-sufficient air force capable of countering emerging threats. The need for a modern and highly efficient Air Force is more critical than ever.

# Russia China help Junta hold the fort

Myanmar's civil war sees resistance forces making major gains, yet the Junta retains key cities and economic hubs with China and Russia's backing

ASHOK K MEHTA

Last week, Home Minister Amit Shah held a review meeting of Manipur under the President's Rule and also discussed the trade routes to Myanmar with the border areas no longer under Junta's control. Myanmar's military has ruled the roost since 1962. Their fourth coup February 2021, is the longest but one which has met with the biggest resistance and for the first time, the Bmar (Burmese) joined the opposition which consists of Ethnic Armed Organisations (EAO), People's Defence Force (PDF) under National United Government (NUG), local militias and rebel groups all united in defeating the Junta.

Under Junta's rule organized crime of which it is beneficiary has risen phenomenally to USD 2bn in cyber scams and other frauds. Many Indians have been unsuspecting participants and victims. Never before has Resistance been so organized in its fight against the military; success has come without any unified command and what at best is coordinated operations like Three Brotherhood Alliance which launched Operation 1027 by three EAOs - TNLA, MNDAA, and AA. The last of these - the Arakan Army - is militarily the strongest and operates in the Rakhine province in the south while the other two EAOs operate in the northern Shan state. Codename 1027 denotes the launch date of the massive offensive in the north on October 27, 2023.

China plays a double role: supporting the Junta as well as some of the EAOs. Lately, there has been a policy shift - full support to the Junta. But Chinese pronouncements are deceptive; best to go by Chinese deeds, not words. On the ground, in the fourth year of the war, the Junta has lost considerable ground but is nowhere near being defeated. On the scale of conflict measurement, Junta holds 21 per cent of the territory which consists of the precious Irrawaddy heartland of Bmars and includes the new capital Naypidaw, Yangon and Mandalay, the two largest cities; and all sea ports and air bases. Only one seaport the India-operated Sittwe is under threat sur-

rounded by the Arakan Army. Two military command headquarters and two air bases in the north and south have been taken by Resistance forces. Some 145 of 350 townships are lost by Junta which has also lost all trade routes/posts on the borders with Bangladesh, India, China, and Thailand. Only one trade route Moosa, is with Junta. The Resistance controls 42 per cent territory with the remaining being No Man's Land. More importantly, 80 per cent of people especially Bmars support resistance while only 20 per cent are with Junta. During previous uprisings, Bmar always supported the Junta. Corruption is endemic, top down and has eroded Junta's military capabilities. It has led to defections and desertions with fighting battalions down to 100 men against the standard 600 soldiers. Some 167 battalions appear to have been lost, and weapons sold resulting in low morale and scant will to fight. Casualties are numerous on both sides but no figures have been released. Junta commanders have made false claims about facts on the ground. Some ghost units are on the Orbat. Most supply lines have been rendered unusable for reinforcements. All movement is by air and counter-attacks therefore also launched from air causing heavy casualties among the civilian population. The Resistance has been enriched

CHINA PLAYS A DOUBLE ROLE: SUPPORTING THE JUNTA AS WELL AS SOME OF THE EAOs. LATELY, THERE HAS BEEN A POLICY SHIFT-FULL SUPPORT TO THE JUNTA. BUT CHINESE PRONOUNCEMENTS ARE DECEPTIVE; BEST TO GO BY CHINESE DEEDS, NOT WORDS

by defectors who bring weapons and skills. Women now comprise 60 per cent of the force though they are mainly in support roles. In earlier uprisings, women constituted only 10 per cent. This time diaspora support is unprecedented and a significant factor. Recruitment to PDF has also risen with support being provided by external players. PDFs are called 'watermelons' green outside and red inside. While green is the colour of the uniform, red is the colour of the National League for Democracy flag. Despite the high morale and momentum of success, Resistance requires a new military strategy, another 1027. Resistance is expected to attack Junta's defence ordnance factories- their defence industrial base- near Mandalay and its loss will be a big blow to the military but still not enough to unhinge it. PDF has to reorganize into battalion/brigade formations under a command structure to be able to capture and hold ground and take strategic targets like airbases. China and Russia, two P5 members in the UNSC, are partners with No Limits but not military allies. Both support the Junta. Russia is now the key military supplier and since 2021, has provided equipment worth USD 406 mn. Junta supreme Senior General Min Aung Hlaing visited Russia last year ostensibly for a medical check-

up. Russia supplied six Su30 aircraft while six Burmese elephants were sent to Moscow. The Sukhois will significantly enhance aerial capability and cause additional civilian casualties. China remains the key stakeholder in Myanmar and is supporting the Junta as it has made major military and economic investments in Myanmar. It eyes the rich minerals, oil, gas and hydropower. Its gas pipeline from Kyaukphu seaport on the Andaman Sea to Kunming in Yunnan provides Beijing access to the Indian Ocean. Gas pipelines are being supplemented by road and railway arteries. Along with Coco Island given on lease, the China-Myanmar Economic Corridor constitutes an alternative route to China's Malacca dilemma. With 20,000 new recruits with Junta, Beijing has calculated that Resistance cannot defeat it. So Beijing-brokered cease-fires with EAOs in Kachin and Shan states and Kokang region in the north and also with MNDAA in January 2025. Beijing will also support Junta to hold elections in November 2025 giving it the fig-leaf of legitimacy. (The writer, a retired Major General, was Commander, IPKF South, Sri Lanka, and founder member of the Defence Planning Staff, currently the Integrated Defence Staff. The views are personal)

### LETTERS TO THE EDITOR

#### The Legacy of Sri Ramakrishna

The birth anniversary of Sri Ramakrishna, according to the Bengali lunar calendar, was celebrated on March 1 this year. Sri Ramakrishna urged us to liberate ourselves from religious dogma. He

famously said, "There are many doors to God's house... No matter which door you enter through, you get inside." He did not merely preach tolerance—he practiced it. Sri Ramakrishna followed the path of Islam for some time and adhered to its teachings. Later, he practiced Christianity for a brief period, demonstrating his belief in the idea that "Many opinions, many paths." Swami Vivekananda, his devoted disciple, once said, "Each human being embodies God. This is what I have learned from my Master, Sri Ramakrishna." His teachings serve as a powerful antidote to inhumanity, religious hatred, and untouchability—values that remain profoundly relevant today.

(ACB) to file FIR against the former SEBI Chairperson Madhabi Buch for alleged stock market fraud and regulatory violations, the case will likely have far-reaching implications for regulatory governance in India's financial markets. Whether this probe will uncover deeper systemic failures or simply remain a high-profile legal battle remains to be seen. However, the controversy surrounding SEBI's regulatory actions has already sparked enough concerns among investors and market participants. Analysts believe that such legal battles could impact investor confidence, especially among foreign institutional investors who rely on SEBI's oversight for market transparency. As the case unfolds, it remains to be seen how the investigation will impact SEBI's credibility and its approach to future regulatory enforcement. Importantly, the case as well raises serious questions about the central government's commitment to transparency and integrity on the functioning of the country's premier regulatory body for securities and commodity market.

**REIN IN SOCIAL MEDIA INFLUENCERS**  
Madam — In a recent ruling, the Supreme Court emphasized that individuals engaged in social media influencing or podcasting must uphold morality and decency in their content before broadcasting it. The Court stressed that such influencers must recognize their responsibility towards society. Creating humor through vulgar slang and offensive language does not contribute positively to society. Instead, it fosters a negative mindset, particularly in the younger generation (Gen Z). Striving to appear as a "cool dude" in front of an audience does not absolve influencers of their responsibilities as citizens. In his defense, Ranbir Allahabadia argued that his controversial statement was made purely in jest. Humor should not come at the expense of emotions or sensitivity. Instead, influencers should focus on fostering a respectful and thoughtful environment that contributes to a united society.

## RBI's Repo Rate cut: A golden opportunity for homebuyers

With the RBI lowering the repo rate by 25 basis points, home loan borrowers stand to benefit from reduced EMIs, making homeownership more affordable

ATUL MONGA

Any time is a good time when it comes to buying a home. However, the recent repo rate cuts signal a lowering of interest rates in the future, thus, hinting at a possibly more stable economy and increased scope for real-estate investment. Home buyers in India are wondering whether they should consider purchasing a home following the recent repo rate cuts by the Reserve Bank of India (RBI). The country's central bank recently lowered the repo rates by 25 bps from 6.5 per cent to 6.25 per cent. This marks the first rate cut in five years by the Monetary Policy Committee (MPC), which can result in significant savings for home loan borrowers.

for potential buyers. Let's illustrate this with an example. Suppose that you took a 20-year home loan of Rs 20 lakhs at an 8.75% interest rate. Your current monthly EMI would be somewhere around Rs 17,674. With the new rate, your monthly EMI drops to Rs 17,356, resulting in a total savings of Rs. 76,259. If you maintain your current EMI payments, you could pay off your loan 5

Borrowers might feel that the savings from reduced repo rates are minimal when it comes to monthly EMI outgoings. As the saying goes, "A penny saved is a penny earned," and even a small saving on EMIs could contribute to larger savings in the long term. Additionally, borrowers with strong credit scores can take advantage of competitive refinancing options. Since they are considered low-risk by lenders, they are most likely to secure lower interest rates on refinanced loans. **Win for the housing sector** The RBI aims to stimulate the economy by making home financing more accessible. This can lead to increased demand in the housing sector, especially in areas where property prices have been sharply increasing due to infrastructure development and improved amenities. The reduction in the cost of borrowing can help mitigate some pressure from skyrocketing housing. (The writer is CEO & Co-Founder, BASIC Home Loan; views are personal)

**A GLIMMER OF HOPE IN MANIPUR**  
Madam — The editorial, "A Fresh Start..." (March 4, 2025), presents a positive outlook on the surrender of illegal arms in Manipur. However, as noted in the editorial, this is likely only a fraction of the weapons still in the possession of warring groups. Despite this development, nothing substantial has been done to bring lasting peace to the state—except for the resignation of the Chief Minister, who was widely seen as responsible for the unfortunate turn of events. The 60,000 displaced individuals forced into the forests must be allowed to return to their homes and lead normal lives. For this to happen, the government must establish an impartial administration that earns the trust of all sections of society. Symbolic gestures alone will not suffice; all looted and illegal arms must be surrendered to achieve real progress. If both the state and central governments had been genuinely committed to fostering peaceful coexistence among the groups, the situation would not have deteriorated so severely for so long. Even after major incidents—including the looting of arms, around 250 murders, women being paraded nude, and places of worship being ransacked—the government's inefficacy remained glaringly evident. Yet, it took an inordinate amount of time to secure the Chief Minister's resignation. President's Rule alone cannot bring about meaningful change, as it operates under directives from the Home Ministry, which itself has been exposed for its lack of a clear strategy. True peace will return only when an impartial and competent administration takes charge. Unfortunately, neither the state nor the nation has a charismatic leader capable of inspiring a positive response from the people.  
A G Rajmohan | Chandigarh

**FORMER SEBI CHIEF IN TROUBLE**  
Madam—Apropos the front page news item, "Buch Booked", published on Mar. 3, this is my response. With a special court directing the Anti-Corruption Bureau

## FIRST COLUMN

### PURIFYING THE MIND, RESTORING THE EARTH

If we truly wish to combat pollution, we must first cleanse our thoughts and correct spiritual imbalance

RAJYOGI BRAHMA KUMAR NIKUNJ JI

Most of us are very much aware of the word 'Pollution', be it a child, a youngster or an old person. However one could not contemplate the reasons or source from which this dreadful monster called pollution occurs. Today, globally every country is facing consequences of pollution, contamination or abuse of air, water, food & even Space on a very large scale, but they are not able to find a foolproof solution to this dangerous threat to humanity. Although many institutions & regulatory bodies have been established.

Today a fast-developing country like India stands poised on a pinnacle of wealth and power, yet we Indians live in a land of vanishing beauty, increasing ugliness, shrinking open spaces, and an overall environment that is diminishing daily by pollution noise and blight. So where does this take us? Would there be a solution to control or tackle pollution problems & save humanity? Well!! The answer lies with the ones who are posing this question, i.e. we the humans, YES! Over the years, while discussing deeply about cause & effect of pollution, we smartly avoid looking at the actual problem that's deeply rooted in the mental sphere rather than the sphere of matter. If we look up the dictionary meaning of the word pollution, we may find something like 'to destroy purity of; to contaminate'. However, we humans are only aware of the material pollution in the branches of the polluted tree & we have disregarded the seed or root of 'thought pollution' which gave growth to that tree. So without destroying the root basis of pollution, the source can never be purified. It won't be an exaggeration to say that the problem of environmental pollution is actually due to the pollution of man's mind which is full of selfishness, jealousy, greed, anger, etc. The problem of ecological imbalance is due to our mental imbalance, and the disequilibrium in nature is due to disequilibrium in man's mind. Another fact that is generally

unknown or is little realised is that the vibrations from a polluted mind contaminate or corrupt the atmosphere; they make it tense and vicious. Most of us make a mistake by thinking that our thoughts are invisible & psychic and hence they can't do anything, but actually, thoughts have both hands and legs, because one can control one's hand to rob nothing, control one's legs to kick nobody, but one can scarcely control one's thought without thinking as thought is too deep to be expressed, too strong to be suppressed, too fast to be drawn back, hence he who will not command his thoughts, will soon lose command of his actions.

The wars struggles and quarrels of mankind are very often caused by this. Deep thinking would reveal that most of the present global problems are due to thought pollution, for this pollution destroys a person's sense of being impartial, considerate and cooperative and makes him callous, inimical, violent-prone and vicious. It influences economics, politics, commerce, business, even friendship and all relationships

The ultimate solution to this problem lies in realising the self and also our relationship with other human beings. Remember !! Great men are those who see that the spiritual force is much stronger than the material force. Hence without a spiritual orientation of the relationship between man and man, moral and spiritual values cannot be brought into play or be sustained, and, in the absence of these core values, no problem can be solved for a considerable length of time. It is, therefore, essential for all of us to understand the real and intrinsic nature behind the mask or the garment of the body to set the direction right. If this is not done, then possibly science without spirituality may dangerously lead mankind to a nuclear catastrophe population explosion or environmental upheaval. So, let us use the powerful weapon of spiritual wisdom to cleanse our souls from thought pollution & survive in harmony with nature & its elements without any kind of disturbance whatsoever.

# Unlocking Punjab's export potential

A S MITTAL

With targeted policy support, infrastructure investment and global market integration, Punjab can play a transformative role in India's trade success story

India has vast industrial and agricultural capabilities across 800 districts, yet 40% of its merchandise exports originate from only 10 districts. Gujarat dominates this landscape with five key contributors: Jamnagar, Surat, Ahmedabad, Bharuch, and Kachchh. The other significant players include Mumbai and Pune in Maharashtra, Bengaluru in Karnataka, Kanchipuram in Tamil Nadu, and NOIDA in Uttar Pradesh. Alarmingly, Punjab—home to a robust industrial base in textiles, bicycles, sports goods, engineering goods, tractors, agricultural implements and food processing—is conspicuously absent from this export powerhouse. The 'One District-One Product' (ODOP) initiative was introduced to rectify this imbalance, but meaningful progress has yet to materialise. If India is serious about reaching its ambitious target of \$1 trillion in exports by 2030, it must expand its export landscape beyond this handful of districts.

The next wave of growth will undoubtedly come from unlocking the potential of industrial hubs like Ludhiana, Jalandhar, Amritsar, Hoshiarpur and Mohali. These regions must receive robust, targeted policy support, a conducive environment and infrastructure development, and substantial financial support to enable Punjab's industries to compete with the country's top export-driven districts. India's Global Export Challenge India's share of global exports has stagnated for decades, hovering around 2% and currently at 1.8% as of 2024. Ranked 17th among the world's top exporters, India falls behind various developing nations like Mexico, which ranks 9th.

To achieve the goal of at least doubling India's merchandise export value from \$437 billion in FY 2023-24 to \$874 billion by FY 2030, a strategic overhaul is essential—one that prioritises the establishment of export hubs in underrepresented regions, particularly Punjab, entire of potential.

**The Imperative for a Decentralised Export Strategy**  
Punjab accounts for a mere 2% of India's total exports, but this share holds immense growth potential. To unlock this potential, the 'Districts as Export Hubs' initiative must go beyond paper & policy discussions and be actively and aggressively pursued. The government should prioritise transforming Punjab into a significant export player, leveraging the state's industrial cities, which are primed for expansion.

**Punjab's Key Districts with High Export Potential**

**Ludhiana:** The Unrivaled Textile and Bicycle Powerhouse Ludhiana dominates India's bicycle exports with an astounding 80% market share. However, India's presence in the global \$33.3 billion bicycle market is alarmingly low, standing at less than 1%, while China effortlessly commands 60%. Similarly, in the textiles, apparel, and hosiery sector—valued at \$1.7 trillion—India's share languishes at a mere 5%, compared to China's commanding 37%. With strategic branding, robust trade facilitation, and decisive policy support, Ludhiana is poised to become a global leader in these vital sectors.

**Jalandhar: The Untapped Giant in Sports Goods**

Exports Jalandhar produces an impressive 45% of India's sports goods and con-

**IF INDIA IS SERIOUS ABOUT REACHING ITS AMBITIOUS TARGET OF \$1 TRILLION IN EXPORTS BY 2030, IT MUST EXPAND ITS EXPORT LANDSCAPE BEYOND THIS HANDFUL OF DISTRICTS.**

tributes 75% of the country's sports-related exports. Yet, India holds a mere 0.56% share in the global sports goods market, valued at \$220.57 billion, while China captures a staggering 42.2%. Jalandhar must actively integrate into international supply chains to aggressively penetrate markets in the USA, UK, Brazil, Germany, Mexico, and South Africa.

**Hoshiarpur and Mohali:** The Manufacturing Titans Hoshiarpur and Mohali are home to one-third of India's Original Equipment Manufacturers (OEMs) and are the undisputed leaders in tractor exports. The global tractor market, valued at \$62.7 billion, is dominated by Germany with a 16% share, while India barely scrapes by with 2.2%. Mohali is also emerging as a significant tech and pharmaceutical hub, which is crucial for high-value exports that will fuel economic growth.

**Amritsar: The Strategic Gateway to Global Trade**

Amritsar, a historic trade hub, can leverage its advantageous proximity to the Wagah-Attari border to significantly enhance cross-border trade with Pakistan, Afghanistan, and Central Asia. By expanding trade policies, Punjab and northern India can assertively access high-demand markets in the Gulf, Turkey, and Europe. The International North-South Transport Corridor (INSTC) will further solidify Amritsar's role as a pivotal player in global trade.

**Basmati Export Zone:**

A Major Global Opportunity Punjab leads the charge by contributing 40% of India's basmati rice exports, which account for 65% of the global market. Amritsar, Tarn Taran and Gurdaspur must be developed into a dedicated Basmati Export Zone under the One District, One Product (ODOP) scheme. With the correct branding

and compliance, Punjab has the potential to tap into previously unexplored markets.

**Tackling Key Export Challenges Head-On**

**1. Infrastructure and Logistics:** Access to ports is strategically essential to any state when engaging in international trade, as landlocked regions face the comparative disadvantage of high trade costs and hindrances in the freedom of transit from the seas. Punjab's landlocked status must not be a hindrance. The Amritsar-Kolkata Industrial Corridor (AKIC) needs to be expedited to enhance dry ports and logistics hubs under the Trade Infrastructure for Exports Scheme (TIES). Introducing state-owned wagons will be a game-changer for bolstering Punjab's exports and addressing the freight burdens associated with shipping.

**2. Cost of Industrial Land:** Land prices in Ludhiana and Mohali are prohibitively high, ranging from Rs. 5-7 crore per acre, stifling expansion. Authorities must prioritise the allocation of vacant industrial plots in focal points and Panchayati Raj-owned land for industrial use to establish a viable industrial land bank.

**3. Global Market Compliance:** With 18% of India's exports directed toward the European Union (EU), Punjab's industries require substantial support to meet evolving international regulations, including the EU's carbon border adjustment mechanism and stringent deforestation laws.

**4. Leveraging Free Trade Agreements:** Many exporters in Tier-2 and Tier-3 cities are currently unaware of India's FTAs. Local chambers and business federations must launch aggressive awareness campaigns to maximise these agreements among entrepreneurs.

**5. Boosting MSMEs:** Punjab's micro, small, and medium enter-

prises (MSMEs) need targeted financial support and strong market linkages to thrive in global trade. District Export Promotion Councils (DEPCs) headed by respective deputy-commissioners (DCs) are underperforming as DCs are already overburdened with multiple administrative tasks, and dedicated senior officials to be assigned to formulate District Export Action Plans (DEAPs) to bolster MSMEs.

**6. Promoting Geographical Indications (GIs):**

Punjab's GI-tagged products, such as Basmati rice, Phulkari embroidery, Amritsari Papad, and Jalandhar sports goods, possess immense global potential. Establishing dedicated stalls at international airports and providing financial backing for branding will amplify their presence in international markets.

**Visit Bharat Demands Viksit Districts:** India's ambitious export targets can only be realised through a decisive, decentralised approach centred around its more districts. With Punjab's rich industrial and agricultural heritage, it is positioned to emerge as a key export powerhouse. By fortifying district industries, enhancing trade infrastructure, and driving global market integration, Punjab will play a crucial role in India's export-led growth narrative. For India to achieve a truly 'Viksit Bharat', its districts must assume a more prominent role in export activities. This strategic shift will reshape India's global trade landscape and ignite widespread economic development and employment generation.

# Unmasking the financial networks threatening national security

Illicit financial flows drive disruptive activities by foreign-backed dubious NGOs, influencing policies and protests that impact India's growth and development

India is at a pivotal moment in its history, reclaiming its status as a global leader. Our economic resilience, democratic foundation, and cultural unity have driven our progress, but hidden forces seek to undermine this advancement. This battle is not fought with conventional weapons but through financial manipulation, foreign influence, and strategic disruptions disguised as humanitarian aid, social activism, and policy advocacy.

Foreign-funded networks have infiltrated India's socio-political fabric, threatening our sovereignty from within. One major threat is illicit financial flows fueling disruptive activities in India. Nepal's recent grey listing by the Financial Action Task Force (FATF)

BINOD ANAND

highlights how money laundering networks in South Asia pose a significant security risk. Nepal has become a hub for financial irregularities, increasing the possibility of unregulated funds entering India through informal channels. This is not just an economic issue—it is a matter of national security, stability, and control over our developmental path. For years, foreign-backed

organizations such as USAID, DFID, Open Society Foundations, and the Ford Foundation have funneled substantial financial resources into India under the pretext of supporting human rights and social causes.

While genuine welfare efforts are welcome, evidence suggests that some of these funds have been strategically diverted to disrupt India's growth, create internal discord, and propagate anti-India narratives globally. A glaring example is the farmers' protests, which began as a movement for agrarian reforms but quickly escalated into a global propaganda campaign. Foreign lobbying groups, anti-India activists, and Khalistani supporters exploited the movement to mobilize protests, shape media

narratives, and turn a domestic issue into an international crisis. Financial audits have exposed a complex network of foreign funding behind this orchestration.

This raises the question—are these movements truly in India's interest, or are they calculated efforts to delay our growth? The infiltration of foreign narratives into India's civil society directly threatens our self-reliance and policy-making sovereignty. While India welcomes foreign investments aimed at development and genuine social progress, we cannot allow our policies, protests, or progress to be dictated by external forces with hidden agendas.

The FATF's decision to place Nepal on its grey list is a direct consequence of its weak finan-

cial regulations, unmonitored cross-border transactions, and insufficient anti-money laundering measures. These financial loopholes have created a shadow economy, facilitating illicit funding that could have serious implications for India's security. India shares a 1,751 km-long porous border with Nepal, allowing free movement of people and goods. While this has strengthened economic and cultural ties, it has also enabled smug-

gling, unaccounted money transfers, and potential terror financing. Intelligence agencies have flagged instances where hawala networks in Nepal were used to channel funds into India to support destabilizing activities.

One major concern is Nepal's financial exemption allowing investments in infrastructure without disclosing sources of funds, making it a conduit for dubious transactions. While FATF's grey listing does not impose sanctions, it signals global financial institutions that Nepal is vulnerable to illegal money transfers, potentially triggering reduced foreign investments and regional financial instability. Recognizing these threats, the Modi government has taken decisive action to curb foreign

interference. Over 20,700 NGOs have lost their FCRA (Foreign Contribution Regulation Act) licenses due to financial irregularities, undisclosed foreign funding sources, and misuse of contributions. The tightening of FEMA (Foreign Exchange Management Act) regulations ensures greater scrutiny of financial transactions linked to activism, political lobbying, and potential terror financing.

Collaboration with FATF, INTERPOL, and global security agencies has enhanced India's ability to track cross-border fund flows and dismantle illegal financial networks fueling unrest. Strengthening oversight on foreign-funded NGOs, think tanks, and advocacy groups to ensure full transparency and

accountability. Enhancing security measures along the Indo-Nepal border to curb illicit financial transactions and smuggling networks. Promoting domestic funding mechanisms to empower local organizations and grassroots initiatives, reducing reliance on external financial aid. Our civil society is strong enough to drive change through indigenous resources and a vision rooted in national interests. The need of the hour is self-reliance—strengthening grassroots organizations and building an Indian developmental model based on internal merit rather than foreign charity.

*(The writer is Secretary General, Confederation of NGOs of Rural India; views are personal)*

# China retaliates to Trump's tariffs

## Sanctions US firms, takes action in WTO

PTI ■ BEIJING

China on Tuesday retaliated against US President Donald Trump's imposition of a second round of 10 per cent tariffs on its export by slapping an additional 15 per cent tariff on American goods and initiated legal action against Washington at the WTO.

China stands ready to work with the US to address each other's concerns through dialogue and consultation. China will impose additional tariffs on some products imported from the United States, effective from March 10, the China's Customs Tariff Commission said Tuesday. An additional 15-per cent tariff will be imposed on imported chicken, wheat, corn and cotton originating from the US, it said in a statement.

Sorghum, soybeans, pork, beef, aquatic products, fruits, vegetables and dairy products will be subject to an additional 10-per cent tariff. Additionally, China decided on Tuesday to add 10 US firms to the country's unreliable entity

list and take corresponding measures against them. They include a number of companies linked to defence and security besides AI, aviation, IT and "dual-use" items that carry both civilian and military applications.

Also, China has initiated legal action against the US under the World Trade Organisation (WTO) dispute settlement mechanism regarding the latter's latest tariff increase on Chinese products, the Ministry of Commerce said Tuesday. China's retaliatory actions followed after the US imposition of an additional 10-per cent tariff on products imported from China, effective from March 4.

The unilateral imposition of tariffs by the US undermines the multilateral trading system, increases the burden on American businesses and consumers, and erodes the foundation of China-US economic and trade cooperation, the commission said.

Trump's announcement of a second round of 10 per cent tariffs on Chinese exports to the US coincides with the opening of China's annual parliament session.

The twin sessions consisting of the Parliament, the National People's Congress and the advisory council, the China People's Political Consultative Conference (CPPCC) were opened on Tuesday. While NPC began with the

Gen Zhang Youxia, vice chairman of China's Central Military Commission attends the opening of the Chinese People's Political Consultative Conference held at the Great Hall of the People in Beijing, on Tuesday

customary press conference by its media spokesperson, the CPPCC held its opening session. The NPC will begin its session on Wednesday, during which Premier Li Qiang will submit the work report, which will include the annual budget. Trump's tariffs loomed large on

the parliament session as the US was one of the biggest importers of Chinese goods. Chinese exports to the US constitute nearly 15 per cent of China's global trade. In 2023, the trade between the US and China amounted to USD 575 billion. This includ-

ed USD 427.2 billion of China's exports to the US and USD 147.8 billion of American exports to China. Trump said his 10 per cent new tariffs on goods from China will come into force on Tuesday, the day the NPC opens its session.

Already, Chinese goods were hit by 10 per cent tariffs by Trump after he began his second tenure, demanding China to address US concerns over fentanyl, a potent opioid drug blamed for widespread drug addiction in the US.

During his election campaign, he threatened to slap 60 per cent tariffs. While retaliating, China, however, urged the US to work with it to resolve trade disputes through equal-footed consultation. Commenting on Trump's tariffs in his press briefing, Lou Qinqian, spokesperson of the NPC, said the US unilateral tariff move violated the WTO and disrupted the security and stability of global industrial and supply chains.

China stands ready to work with the US to address each other's concerns through dialogue and consultation on the basis of mutual respect, equality, reciprocity and mutual benefit, but "will never accept any act of pressuring or threatening," Lou said. "We will firmly defend our national sovereignty, security and development interests," he said.

# US tariffs on Canada, Mexico take effect

PTI ■ WASHINGTON

President Donald Trump's long-threatened tariffs against Canada and Mexico went into effect Tuesday, putting global markets on edge and setting up costly retaliations by the United States' North American allies.

Starting just past midnight, imports from Canada and Mexico are now to be taxed at 25 per cent, with Canadian energy products subject to 10 per cent import duties.

The 10 per cent tariff that Trump placed on Chinese imports in February was doubled to 20 per cent, and Beijing retaliated Tuesday with tariffs of up to 15 per cent on a wide array of US farm exports. It also expanded the number of US companies subject to export controls and other restrictions by about two dozen.

Canadian Prime Minister Justin Trudeau said his country would slap tariffs on more than USD 100 billion of American goods over the course of 21 days. Mexico didn't immediately detail any retaliatory measures.

The US president's moves raised fears of higher inflation and the prospect of a devastating trade war even as he promised the American public that taxes on imports are the easiest path to national prosperity. He has shown a willingness to buck the warnings of mainstream economists and put his own public approval on the line, believing that tariffs can fix what ails the country. "It's a very powerful weapon that politicians haven't used because they were either dishonest, stupid or paid off in some other form," Trump said Monday at the White House. "And now we're using them."

The Canada and Mexico tariffs were supposed to begin in February, but Trump agreed to a 30-day suspension to negotiate further with the two largest US trading partners.

The stated reason for the tariffs is to address drug trafficking and illegal immigration, and both countries say they've made progress on those issues. But Trump has also said the tariffs will only come down if the US trade imbalance closes,

a process unlikely to be settled on a political timeline.

The tariffs may be short-lived if the US economy suffers. But Trump could also impose more tariffs on the European Union, India, computer chips, autos and pharmaceutical drugs.

The American president has injected a disorienting volatility into the world economy, leaving it off balance as people wonder what he'll do next.

"It's chaotic, especially compared to the way we saw tariffs rolled out in the first (Trump) administration," said Michael House, co-chair of the international trade practice at the Perkins Coie law firm. "It's unpredictable. We don't know, in fact, what the president will do."

Democratic lawmakers were quick to criticize the tariffs, and even some Republican senators raised alarms.

Sen Susan Collins, R-Maine, said she's "very concerned" about the tariffs going into effect because of her state's proximity to Canada.

"Maine and Canada's economy are integrated," Collins said, explaining that much of the state's lobsters and blueberries are processed in Canada and then sent back to the US.

The world economy is now caught in the fog of what appears to be a trade war. Even after Trump announced Monday that the tariffs were going forward, Canadian officials were still in touch with their US counterparts.

"The dialogue will continue, but we are ready to respond," Canadian Defence Minister Bill Blair said in Ottawa as he went into a special Cabinet meeting on US-Canada relations. "There are still discussions taking place."

Shortly after Blair spoke, Trudeau said Canada would impose 25 per cent tariffs on USD 155 billion Canadian (USD 107 billion US) worth of American goods, starting with tariffs on USD 30 billion Canadian (USD 21 billion US) worth of goods immediately and on the remaining amount on American products in three weeks.

"Our tariffs will remain in place until the US trade action is withdrawn, and should US tariffs not cease, we are in active

and ongoing discussions with provinces and territories to pursue several non-tariff measures," Trudeau said.

The White House would like to see a drop in seizures of fentanyl inside the United States, not just on the northern and southern borders.

Administration officials say that seizures of fentanyl last month in everywhere from Louisiana to New Jersey had ties to foreign cartels.

Damon Pike, technical practice leader for customs and trade services at the tax and consulting firm BDO, suggested the responses of other countries could escalate trade tensions and possibly increase the economic pressure points.

"Canada has their list ready," Pike said. "The EU has their list ready. It's going to be tit for tat." The Trump administration has suggested inflation will not be as bad as economists claim, saying tariffs can motivate foreign companies to open factories in the United States.

On Monday, Trump announced that Taiwan Semiconductor Manufacturing Company, the computer chipmaker, would be investing USD 100 billion in domestic production. Still, it can take time to relocate factories spread across the world and train workers with the skills they need.

Greg Ahearn, president and CEO of The Toy Association, said the 20 per cent tariffs on Chinese goods will be "crippling" for the toy industry, as nearly 80 per cent of toys sold in the US are made in China. "There's a sophistication of manufacturing, of the tooling," he said. "There's a lot of handcrafting that is part of these toys that a lot of people don't understand ... the face painting, the face masks, the hair weaving, the hair braiding, the cut and sew for plush to get it to look just so. All of that are very high hands, skilled labour that has been passed through generations in the supply chain that exists with China."

For a president who has promised quick results, Ahearn added a note of caution about how quickly US factories could match their Chinese rivals. "That can't be replicated overnight," he said.

## Japan's Prince Hisahito says he'll balance royal duties, univ studies

PTI ■ TOKYO

Japan's Prince Hisahito, the second in line to the throne, has held a debut news conference, telling reporters he would try to balance official duties and his university studies and research about the dragonfly. Hisahito turned 18 last September, becoming the first male royal family member to reach adulthood in almost four decades in Japan. It was a significant development for a family that has ruled for more than a millennium but faces the same existential problems as the rest of the nation — a fast-aging, shrinking population.

The prince said he would follow the good examples of his uncle, Emperor Naruhito, and other elder members of the imperial family, while pursuing his university studies, beginning next month.

Speaking to reporters at the Akasaka Estate residence in Tokyo on Monday, Hisahito said he believes the role of the emperor as a symbolic figure is someone who "always thinks of the people and stays close to them".

Hisahito is second in line to Japan's Chrysanthemum Throne after his father, Crown Prince Akishino.

The prince, who turned 18 on Sept 6, is the youngest of the 16-member imperial family and one of only five men, including former Emperor Akihito. The 1947 Imperial House Law only allows a male to succeed to the throne.

Female royal members who marry commoners lose their royal status. Hisahito's older cousin, Princess Aiko — the only child of Naruhito and his wife Masako — is seen as the public's favourite, though the law for now bars her from becoming an empress, despite being in a direct line of descent.

Japan's conservative government wants to keep the royal succession male-only, though it is looking for a way to allow women to keep royal status if they marry commoners. Hisahito plans to study biology at the Tsukuba University near Tokyo, starting in April. He hopes to focus his studies on dragonflies.

Apart from researching dragonflies and other insects, Hisahito told reporters he is also interested in studying ways to protect insect populations in urban areas. His other interests lie in growing tomatoes and rice on the palace compound. Because Japanese royals have to stay away from politics, members of the Imperial Family tend to study biology, literature and arts. Naruhito's speciality is water transport while his father, Emperor Emeritus Akihito who abdicated in 2019, researches fish. Hisahito's father, Crown Prince Akishino, is an expert of chickens.

# China seeks to scale up ties with EU

Beijing (PTI): China seeks to scale up its ties with the European Union following the deepening divide between the US and the EU over ending the Ukraine war, particularly after President Donald Trump's stormy meeting with his Ukrainian counterpart Volodymyr Zelenskyy. China is willing to work with the 27-member EU against unilateralism, Lou Qinqian, the spokesperson of China's parliament, the National People's Congress (NPC), told a media briefing here on Tuesday.

"Over the past 50 years, facts have proven again and again that there are no fundamental clashes of interest or geopolitical

conflicts between China and Europe; rather, they are partners that contribute to each other's success," Lou said.

China wants to scale up its ties with the EU, which it regards as a lucrative market for Chinese products, particularly its AI-compatible e-vehicles and batteries. The EU has clamped hefty tariffs on Chinese e-vehicles to protect the indigenous models.

China is also looking to cash in on the sharp turnaround in strategic alliances after the recent disastrous meeting between Zelenskyy and Trump, casting a shadow over the close US-EU ties. The EU leaders rallied behind

Zelenskyy after his tempestuous meeting with Trump, following which he was asked to leave the White House.

The meeting videos were played up heavily by the state-run Chinese media outlets. "China-Europe relations are not targeted at, dependent on, nor subject to any third party," Lou said in a veiled reference to the US-EU ties.

The Trump-Zelenskyy fallout was a tricky moment for China as while pressuring Ukraine to settle for ending the war, the US President is also warming up to his Russian counterpart Vladimir Putin, a close ally of Chinese leader Xi Jinping. There is lingering concern in

Beijing over the emerging rapprochement between Trump and Putin over ending the Ukraine war. Xi and Putin share a close alliance built over the years to ward off threats from the US and its allies.

On March 1, Putin dispatched his top security official Sergei Shoigu to Beijing to brief Xi about Moscow's current talks with Washington to end the Ukraine war. In his talk with Shoigu, Xi has underlined the need to carry on the core spirit of governing China-Russia relations in the new era featuring lasting good-neighbourliness, comprehensive strategic coordination, and mutually beneficial cooperation for win-win results.

# Lebanon, S Arabia call for Israeli withdrawal

PTI ■ BEIRUT

Lebanon's president ended a visit to Saudi Arabia on Tuesday where he discussed regional affairs with the kingdom's crown prince after which both countries said Israeli troops should withdraw from south Lebanon and only the Lebanese state should have weapons.

The visit by Joseph Aoun, the first by a Lebanese head of state to the oil-rich kingdom in eight years, improves ties between the two countries that have been cold for years over Iran's influence in Lebanon.

Aoun visited Saudi Arabia several times when he was army commander, and many in Lebanon hope that his visit as president will open the way for lifting a ban on imports from Lebanon as well as allowing Saudi citizens to travel to Lebanon.

Aoun was received Monday night by Saudi Crown Prince Mohammed bin Salman at Yamama Palace in the capital, Riyadh, where they discussed the situation in Lebanon and boosting relations between the

two countries, according to the state-run Saudi Press Agency. Aoun's visit comes after the Iran-backed Hezbollah suffered severe blows during a 14-month war with Israel that left many of its top political and military officials dead and ended with a US-brokered ceasefire in late November.

Israel withdrew many of its troops from Lebanon in mid-February but left five posts inside Lebanon, which Lebanese officials have described as a violation of the ceasefire deal.

A joint statement issued after the summit said that only state institutions in Lebanon should have the right to have arms and that the Lebanese army should be supported. It added that Israel should withdraw from all parts of Lebanon.

Aoun last week told Saudi Arabia's Asharq News that Riyadh would reactivate a USD 3 billion package for the Lebanese army.

In 2016, Saudi Arabia announced it was halting deals aimed at equipping and supporting the Lebanese army and police forces in retaliation for

the tiny country's siding with Iran amid the Sunni kingdom's spat with the Shiite power.

The statement added that both sides agreed to study the obstacles that are facing the resumption of Lebanese imports to Saudi Arabia and measures needed to allow Saudi citizens to visit Lebanon again.

They also agreed that the Lebanese economy should come out of its historic crisis and that Beirut should implement reforms demanded by the international community.

It said Aoun invited the Saudi crown prince to visit Lebanon, adding that Crown Prince Mohammed welcomed the invitation.

Aoun was elected in January after more than two-year vacuum in the country's top post, while diplomat and former head of the International Criminal Court Nawaf Salam was named prime minister.

Both Aoun and Salam have said they will work on improving relations with Arab countries and implementing reforms. The election of Aoun and Salam was seen as major blow to Hezbollah.

# At least 3 Serbian lawmakers hurt as smoke bombs, flares thrown in parl

Belgrade (PTI): At least three lawmakers were injured on Tuesday, one of them seriously, after chaotic scenes in Serbia's parliament, during which smoke bombs and flares were thrown, further fuelling political tensions in the Balkan country. Lawmakers were scheduled to vote on a law that would increase funding for university education, but opposition parties said the ruling majority was also planning to approve dozens of other decisions.

They said this was illegal and that lawmakers should first confirm the resignation of Prime Minister Milos Vucevic and his government.

Chaos erupted about an hour after the parliamentary session started, with opposition lawmakers blowing whistles and holding up a banner reading "Serbia has risen so the regime would fall" Hundreds of opposition supporters rallied outside the parliament building during the session.

Video footages from the assembly hall showed a clash first between lawmakers and later flares and smoke bombs being

Medics carry a lawmaker injured after chaos erupted during a Serbia's parliament session in Belgrade, Serbia, on Tuesday

thrown. Serbian media said eggs and water bottles also were thrown. Officials later said three persons were injured in the disturbance.

Parliament speaker Ana Brnabic, who accused the opposition of being a "terrorist gang", said one of those injured was in a serious condition. The incident reflects a deep political crisis in Serbia where monthslong anti-corruption protests have rattled a populist government.

Vucevic resigned in January as the government faced protests over the collapse in November of a concrete train station canopy in the Serbia's north that killed 15 people and which critics blamed on rampant corruption. Parliament must confirm the prime minister's resignation for it to take effect.

A rise in education funding has been one of the demands by Serbia's protesting students who have been a key driving force behind almost daily street

protests that started after the November 1 canopy collapse in Novi Sad.

Opposition parties have insisted that the government has no authority to pass new laws. Leftist lawmaker Radomir Lazovic said the opposition was ready to support the passing of the student-requested education bill, but not the other decisions listed at the assembly agenda.

Lazovic said "we can only discuss the fall of the government". He said the only way out of the current crisis would be a transitional government that would create conditions for a free a fair election, a demand that the ruling populists have repeatedly rejected.

Serbia's increasingly authoritarian president Aleksandar Vucic and his ruling right-wing Serbian Progressive Party have imposed a firm grip on power in the past decades despite formally seeking European Union membership. Many in Serbia believe the fatal canopy collapse was the result of sloppy work and a disregard of safety regulations because of government corruption.

# Pope Francis no longer requires mechanical ventilation

PTI ■ ROME

Pope Francis had stabilised enough on Tuesday after two respiratory crises to be taken off noninvasive mechanical ventilation and resume receiving just high flows of supplemental oxygen via a nasal tube to help him breathe, the Vatican said.

Francis, 88, woke up and was resuming respiratory physiotherapy after sleeping through the night, the Vatican said. The Vatican said as of Tuesday morning, Francis no longer needed to wear the mechanical ventilation mask that covers his nose and mouth to pump oxygen into his lungs.

He had to resume using the mask on Monday after suffering two respiratory crises that

required doctors to extract "copious" amounts of mucus from his lungs.

Francis rested early Tuesday after he suffered further setbacks in his fight against double pneumonia: two new acute respiratory crises that required him to resume using noninvasive mechanical ventilation to breathe.

In its early Tuesday update, the Vatican said: "The pope slept through the night, now rest continues."

Francis suffered the two crises Monday. Doctors extracted "copious" amounts of mucus that had accumulated in his lungs, the Vatican said in a late update. They performed two bronchoscopies, in which a camera-tipped tube was sent into his airways with a sucker

at the tip to suction out fluid. The 88-year-old pope, who has chronic lung disease and had part of one lung removed as a young man, was put back on noninvasive mechanical ventilation: a mask that covers his nose and mouth and pumps oxygen into the lungs.

Francis remained alert, oriented and cooperated with medical personnel, the Vatican said. The prognosis remained guarded, meaning he was not out of danger.

Doctors didn't say if he remained in stable condition, though they referred to the crises in the past tense, suggesting they were over.

The crises were a new setback in what has become a more than two-week battle by the frail pope to overcome a com-

plex respiratory infection. The Vatican said the mucus that had accumulated in Francis' lungs was his body's reaction to the original pneumonia infection and not a new infection, given laboratory tests don't indicate any new bacteria.

Dr John Coleman, a pulmonary critical care doctor at Northwestern Medicine in Chicago, said the episodes were more concerning than the last one on Friday, in which Francis had a coughing fit, inhaled some vomit that then was put on the noninvasive mechanical ventilation for a day and then didn't need it anymore.

The use of bronchoscopies reflects a worrying level of mucus and phlegm in the lungs, Coleman said. "The fact

that they had to go in there and remove it manually is concerning, because it means that he is not clearing the secretions on his own," he said.

"He's taking little steps forward and then steps back," said Coleman, who is not involved in Francis' care.

Francis, who is not physically active, uses a wheelchair and is overweight, had been undergoing respiratory physiotherapy to try to improve his lung function. But the accumulation of the secretions in his lungs was a sign that he doesn't have the muscle tone to cough vigorously enough to expel the fluid. Doctors often use noninvasive ventilation to stave off an intubation, or the use of invasive mechanical ventilation. Francis has not been intubated

during this hospitalisation. It's not clear if he has provided any advance directives about the limits of his care if he declines or loses consciousness.

Catholic teaching holds that life must be defended from conception until natural death. It insists that chronically ill patients, including those in vegetative states, must receive "ordinary" care such as hydration and nutrition, but "extraordinary" or disproportionate care can be suspended if it is no longer beneficial or is only prolonging a precarious and painful life.

Francis articulated that in a 2017 speech to a meeting of the Vatican's bioethics think tank, the Pontifical Academy for Life. He said there was "no obligation to have recourse in

all circumstances to every possible remedy." He added: "It thus makes possible a decision that is morally qualified as withdrawal of overzealous treatment."

Archbishop Vincenzo Paglia, who heads the academy which helps articulate the Catholic Church's position on end-of-life care, said Francis is like any other Catholic and would follow church teaching if it came to that.

"Today the pope is giving us an extraordinary teaching on fragility," he told reporters Monday. "Today the pope, not through words but with his body, is reminding all of us, we elderly people to begin with, that we are all fragile and therefore we need to take care of each other."

EU ponders 800 bn euro plan to beef up defences

BID TO COUNTER POSSIBLE US DISENGAGEMENT

PTI ■ BRUSSELS

The chief of the European Union's executive on Tuesday proposed an 800 billion-euro (USD 841 billion) plan to beef up the defences of EU nations, aiming to lessen the impact of potential US disengagement and provide Ukraine with military muscle to negotiate with Russia following the freeze of US aid to the embattled nation.

member states to significantly increase their defense expenditures without triggering punishing rules aimed at keeping deficits from going too far into the red. It would help member states to spend on defense without being forced to cut into social spending purely to keep within EU rules.

Washington's move came just days after a disastrous Oval Office meeting in which Trump tore into Zelenskyy for what he perceived as insufficient gratitude for the more than USD 180 billion the US has appropriated for military aid and other assistance to Kyiv since the start of Russia's invasion on February 24, 2022.

Boost in defence spending coming amid China threats: Taiwan

Taipei (PTI): Taiwan's defence minister says the island is planning to boost military spending in the face of the "rapidly changing international situation and the escalating threats from adversaries."

Wellington Koo gave no figures but said President William Lai Ching-te was working with the ministry in consideration of enemy threats and urgent readiness needs, a reference to China's threats to invade the island, which it considers its own territory. Those would "increase the proportion of the defence budget in relation to GDP," Koo said, in comments Monday that were embargoed until Tuesday.

At the same time, in coordination with national security and foreign policy, the military will continue to deepen cooperation with the United States and other allied nations, expanding multilateral military exchanges to jointly uphold regional peace and stability," Koo said.

United States President Donald Trump has also demanded the self-governing island democracy that relies on the US for much of its cutting-edge weaponry, increase defence spending to up to 10 per cent of GDP, a proportion well above what the US or any of its major allies spend.

Investigators to question driver who rammed car into crowd in Germany

Mannheim (PTI): Investigators on Tuesday will question a driver who allegedly rammed a car into a crowd in the south-western German city of Mannheim, killing two people and injuring 11.

Mourners, including Sara Stefini, left flowers in the city's center on Tuesday to honour the victims. "It's where I live, the centre of my life," a tearful Stefini told dpa at the impromptu memorial. The suspect is a 40-year-old German man from the nearby state of Rhineland-Palatinate who was detained and is in a hospital after being injured, State Interior Minister Thomas Strobl of Baden-Wuerttemberg, which includes Mannheim, told dpa on Monday.

While the driver did not seem to be ideologically motivated, prosecutors said that the man, whose identity was not revealed in line with German privacy rules, has several previous convictions. He served a short prison sentence for assault more than 10 years ago, and was convicted for drunken driving. He had also been investigated for a hate speech offense on Facebook in 2018, for which he was fined, prosecutors said without giving further details.

Kim's sister threatens response to US carrier deployment in S Korea

PTI ■ SEOUL

The powerful sister of North Korean leader Kim Jong Un on Tuesday threatened to launch high-profile provocations in response to the arrival of a US aircraft carrier in South Korea and other US military activities, which she slammed as "confrontational hysteria of the US and its stooges".

Her statement suggests North Korea may test-launch intercontinental ballistic missiles designed to strike the mainland US or other powerful missiles that would target US military bases in the region, observers say. South Korea's Defence Ministry warned later it's ready to repel any provocations by North Korea based on a solid military alliance with the US.

Experts say Kim Jong Un won't likely embrace Trump's outreach anytime soon as he is now focusing on his support of Russia's war against Ukraine with supply of weapons and troops. They say Kim could consider returning to diplomacy with Trump when he thinks he cannot maintain his country's current booming cooperation with Russia.

# New model bilateral investment treaty tailored for global investment trends: CEA

PTI ■ NEW DELHI

Chief Economic Adviser V Anantha Nageswaran on Tuesday said the new model text for bilateral investment treaty (BIT) will be better aligned to the demands of a dynamic global investment environment, while safeguarding India's sovereign rights and regulatory space. Addressing a post Budget meeting 2025 on the theme of 'Making India Investment Friendly', he said the BIT framework is being revised to reflect modern challenges. Almost 10 years have passed since the last review of India's model BIT and since then, the global investment ecosystem and international jurisprudence have evolved significantly, he said. Nageswaran said investors now

seek stronger protection for their investments, especially in emerging economies, and this has necessitated an update of the model BIT to align it with international norms, while ensuring that the country remains an attractive investment destination, especially for medium enterprises. "The new model BIT therefore will be more attuned to the demands of a dynamic global investment environment. At the same time, we will reflect India's sovereign rights and the importance of regulatory space so that public policy priorities are not constrained by international legal obligations," Nageswaran said. Finance Minister Nirmala Sitharaman in her 2025-26 Budget speech said that to encourage sustained foreign

investment and in the spirit of 'first develop India', the current model BIT will be revamped and made more investor-friendly. The announcement assumes significance as only a few countries have accepted the existing model tax treaty, and most of the developed nations have expressed their reservations on the tax with regard to provisions like resolution of disputes. Nageswaran also said that foreign investment plays a crucial role in the economic growth and development, and "we are a current account deficit (CAD) country, so we need both portfolio and direct investments". The bilateral investment treaties provide a legal framework to protect foreign investments, especially for

small and medium enterprises, while offering safeguards like protection against expropriation and fair treatment. Last month, Sitharaman had said that going forward the bilateral investment treaties should capture national interest in relation to regulatory powers and strengthen the guidance for arbitrators in resolving disputes. She said the issues related to BIT are unique to the sovereign and hence BIT should be negotiated on a standalone basis rather than as a part of a Free Trade Agreement (FTA) agreement. India signed its first BIT with the United Kingdom in 1994 and most recently, two more bilateral investment treaties in 2024 with UAE and

Uzbekistan. "Initially, the BITs were focused on investor protection. Over time, many countries, including India, have realised the importance of balancing investor protection with state sovereignty. The goal is to safeguard national interest while encouraging foreign investment," he said adding it is a balancing act". Presently, India is negotiating a BIT with the United Kingdom (UK), Saudi Arabia, Qatar, and the European Union (EU). FDI inflows into India have crossed the \$1 Trillion milestone in the April 2000-September 2024 period, firmly establishing the country's reputation as a safe and key investment destination globally. Foreign investments are increasing in the country.

# Jio, AMD, Cisco and Nokia unite for Open Telecom AI platform

PTI ■ NEW DELHI

Jio Platforms has teamed up with proprietary technology companies AMD, Cisco, and Nokia to build an Open Telecom artificial intelligence (AI) Platform that is expected to enhance network security and efficiency, while reducing technology costs. The multi-domain intelligence framework will integrate artificial intelligence and automation into every layer of network operations, a joint statement said on Tuesday. "In collaboration with AMD, Cisco, and Nokia, Jio is advancing the Open Telecom AI Platform to transform networks into self-optimizing, customer-aware ecosystems. "This initiative goes beyond automation - it is about enabling AI-driven, autonomous networks that

adapt in real time, enhance user experiences, and create new service and revenue opportunities across the digital ecosystem," Reliance Jio, Group CEO, Mathew Oommen said in the statement. The AI platform will be a large language model (AI search engine) agnostic and utilise an open application interface to optimise its functionality and capabilities, the statement said. Nokia President and CEO, Pekka Lundmark said that the company possesses trusted technology leadership in multiple domains, including RAN, Core, fixed broadband, IP and optical transport. "The Telecom AI Platform will help Jio to optimise and monetise their network investments through enhanced performance, security, operational

efficiency, automation and greatly improved customer experience, all via the immense power of artificial intelligence," he said. The new Open Telecom AI Platform planned by Jio Platforms, AMD, Cisco, and Nokia will be built with Jio as the first customer, creating a replicable reference architecture and deployable solution for the broader global service provider industry. AMD chair and CEO Lisa Su said the company will leverage its portfolio of high-performance CPUs, GPUs, and adaptive computing solutions for the platform. Cisco, Chair and CEO, Chuck Robbins said that the collaboration with Jio Platforms Limited, AMD and Nokia harnesses the expertise of industry leaders to revolutionise networks with AI.

# Centre penalises Reliance for missed battery cell plant deadline

PTI ■ NEW DELHI

The government has slapped a penalty on a unit of Reliance Industries Limited for failing to meet the deadline for setting up a battery cell plant for which it was granted production-linked incentives, the firm said on Tuesday. In a stock exchange filing, Reliance said its step-down subsidiary, Reliance New Energy Battery Storage Ltd on March 3 received "a letter from the Ministry of Heavy Industries levying liquidated damages at the rate of 0.1 per cent of the performance security (₹50 Crore) for each day of delay from January 1, 2025." The penalty was for the "delay in achievement of milestone one under the programme agreement executed with MHI in connection with five GWh manufacturing capacity awarded under the Performance-Linked Incentive Scheme for Advanced Chemistry Cell," it said. The liquidated damages or penalty computed till March 3, 2025 was ₹3.1 Crore. "RNEBSL has requested for an extension of time for achievement of the said milestone one," it said. The firm, however, neither disclosed the reasons for the delay nor the new timelines for meeting the target. RNEBSL had in 2022 signed

an agreement to build 10 gigawatt-hour (GWh) battery capacity with production-linked incentives for an estimated \$400 Million. The contract was part of government initiatives to get domestic manufacturing for a new energy supply chain developed in India. Besides RNEBSL, Rajesh Exports and the unit of Ola Electric Mobility Ltd too had won bids to build the battery cell plants. Manufacturers were eligible for ₹181 Crore worth of production-linked incentives on meeting milestones for the project that sought to create a cumulative 30 GWh capacity of advanced chemistry cell battery storage. The firms winning the PLI were required to achieve a minimum 'committed capacity', along with local value addition of 25 per cent within two years of the agreement, and 50 per cent within five years. Reliance had previously indicated the second half of 2026 as the timeline to launch operations at its battery Gigafactory in Jamnagar, Gujarat. Initially, the plant is to concentrate on assembling Battery Energy Storage Systems (BESS) catering to utility-scale, residential, commercial, and mobility markets.

# Government seeks \$2.81 billion from Reliance, BP

PTI ■ NEW DELHI

The government has slapped a \$2.81 Billion (about ₹24,500 Crore) demand notice on Reliance Industries Limited and its partners, including BP Plc for gains made from producing and selling natural gas that may have migrated from neighbouring block of state-owned ONGC. This follows the Delhi High Court's decision on February 14, overturning an international arbitration tribunal ruling that held the duo not responsible for paying any compensation for the gas they produced and sold which had allegedly migrated from adjoining fields. "Consequent upon the Division Bench judgment, the Ministry of Petroleum and Natural Gas has raised a demand of \$2.81 Billion on the PSC contractors namely Reliance Industries Ltd, BP Exploration (Alpha) Ltd and NIKO (NECO) Limited," Reliance said in a stock exchange filing. Originally, Reliance held 60 per cent interest in Krishna Godavari basin deep-sea block KG-DWN-98/3 or KG-D6 while BP had 30 per cent and Canadian firm Niko held the remaining 10 per cent. Subsequently, Reliance and BP took over Niko's interest in the production sharing contract (PSC) and now hold 66.66 per cent and 33.33 per cent,

respectively. The government had in 2016 sought \$1.55 Billion from Reliance and its partners for the quantum of gas that had migrated to its block KG-D6 from adjoining fields of ONGC. Reliance contested the claims before an arbitral tribunal which in July 2018 upheld that it was not obliged to pay any compensation. The government filed an appeal and in May 2023, a single judge of Delhi High Court upheld the arbitration award, dismissing the government's appeal. A division bench of the Delhi High Court last month set aside the single judge order, ruling against Reliance and its partners. Reliance said the letter of demand was received by the company on March 3, 2025. "The company is legally advised that the Division Bench judgment and this provisional demand are unsustainable. The company is taking steps to challenge the judgment of the Division Bench of Hon'ble Delhi High Court," it said. "The company does not expect any liability on this account," it added. Reliance had previously said that it would appeal the decision in the Supreme Court. The dispute dates back to July 2013 when Oil and Natural Gas Corporation (ONGC)

suspected reservoir connectivity of its KG-DWN-98/2 (KG-D5) and G-4 blocks with that of Reliance's KG-D6. It felt that at least four wells that Reliance drilled on the borderline with KG-D5 may have drained out its resources as well. ONGC in May 2013 filed a writ in the Delhi High Court seeking compensation for the loss. On September 10, 2014, the Delhi High Court disposed-off ONGC's petition and directed the government to take a decision, after it received a report from an independent panel set up by ONGC and RIL. Global consultant DeGolyer and Mac Naughton (D and M) was appointed to carry out a third-party study. In its final report dated November 19, 2015, D and M concluded inter-alia that "the integrated analyses indicated connectivity and continuity of the reservoirs across the blocks operated by ONGC and Reliance." The report quantified the volume of gas migrated from Godavari PML and KG-DWN-98/2 to KG-DWN-98/3 block and respective production of gas from migrated volumes till March 31, 2015. After submission of the D&M report, the government constituted a single member committee on December 15, 2015, composed of former Chief Justice of Delhi

High Court Ajit Prakash Shah "to quantify the unfair enrichment" by Reliance. The committee concluded that the Government of India, and not ONGC, is entitled to claim restitution from Reliance for the unjust benefit it received and unfairly retained. ONGC has no locus standi to bring a tortious claim against Reliance for trespass or conversion since it does not have any ownership rights or possessory interest in the natural gas. All mineral resources are the property of the government of India. Using Shah's report, the government asked ONGC to step aside and took over the matter. The Ministry of Petroleum and Natural Gas (MoPNG) in a November 4, 2026 order sought disgorgement from Reliance and its partners, demanding \$1.47 Billion from the partners for producing in seven years ending March 31, 2016 about 338.332 million British thermal units of gas that had seeped or migrated from ONGC's blocks into their adjoining KG-D6 in the Bay of Bengal. After deducting \$71.71 Million royalty paid on the gas produced and adding an interest at the rate of LIBOR plus two per cent, totalling \$149.86 Million, a total demand of \$1.55 Billion was made on Reliance, BP and Niko. The government also pressed

Reliance to pay \$174.9 Million of additional profit petroleum after certain costs were disallowed because of KG-D6 output being lower than the target. Reliance and its partners on November 11, 2016, slapped an arbitration notice. In July 2018, the international arbitration tribunal rejected the government's claim. The three-member panel by a majority of 2-1 also awarded \$8.3 Million compensation to the three partners. The government challenged the arbitration award before a single bench of Delhi High Court, seeking it be set aside as it "strikes at the heart of the public policy and has given a premium to a contractor (Reliance) that has amassed vast wealth by committing an insidious fraud as well as criminal offence." Delhi High Court in May 2023 upheld the arbitration award saying "the view taken by the arbitral tribunal is most certainly a 'possible view', which calls for no interference." The government approached the division bench of the Delhi High Court against the single bench order. The division bench, comprising justices Rekha Palli and Saurabh Banerjee, on February 15 set aside a May 2023 single bench ruling that had upheld the 2018 arbitration award rejecting the government's claim.

# Belrise Industries, Paramesu Biotech get SEBI's nod for IPOs

PTI ■ NEW DELHI

Belrise Industries and Paramesu Biotech have received market regulator, Securities and Exchange Board of India's (SEBI) go ahead to raise funds totalling ₹2,750 Crore through Initial Public Offerings (IPOs), an update with the markets regulator showed on Tuesday. Individually, Belrise Industries and Paramesu Biotech are looking to mop-up ₹2,150 Crore and ₹600 Crore, respectively, through initial share-sales. SEBI received preliminary IPO documents from these firms in November, and issued its observations during February 25 to 28, the update showed. In SEBI's parlance, obtaining the observations means it's go-ahead to float the public issue. Meanwhile, SFC Environmental Technologies and Advanced Sys-tec withdrew their draft IPO papers on February 27 without giving a reason. The preliminary documents were filed between December and February. The withdrawals came amid a meltdown in the stock market. As for automotive component maker Belrise Industries, its ₹2,150 Crore IPO is entirely a fresh issue of equity shares with no Offer For Sale (OFS) component, according to the Draft Red Herring Prospectus (DRHP). The company intends to utilise proceeds worth ₹1,618 Crore for payment of debt. As of June 2024, the firm had a borrowing of ₹2,463 Crore in its books. Paramesu Biotech, a manufacturer of maize-based products, is looking to raise ₹520 Crore through fresh issue of shares and an OFS of shares to the tune of ₹80 Crore by promoter Unimark Business Solutions Private Ltd, the draft papers showed.

# Coca-Cola to sell north Gujarat bottling plant

PTI ■ NEW DELHI

Beverage major Coca-Cola is selling its bottling plant in the North Gujarat region to Kandhari Global Beverages. Though the company has not shared financial details, industry insiders have pegged the deal to be around ₹2,000 Crore, where Coca-Cola will transfer business from HCCBL, its bottling arm in India, to its bottling partner Kandhari Global Beverages. The Atlanta-headquartered beverage major is divesting assets globally by franchising regional operations to local partners as part of its asset-light business model. "We have reached an agreement to transfer the North Gujarat bottling operations currently being operated by Hindustan Coca-Cola Beverages Private Limited (HCCBL). Subject to regulatory approvals, the North

Gujarat business will be owned and operated by Kandhari Global Beverages Private Ltd," said an HCCBL spokesperson. This transfer will ensure that the right level of investments can be undertaken in all parts of the business while bringing scale and contiguity to the business, he added. After this sale, HCCBL will be left with 15 operational plants in India, where it produces beverages like Coca-Cola, Thums Up, Sprite, Minute Maid, Maaza, SmartWater, Kinley, Limca, and Fanta, among others. In the December quarter, Coca-Cola divested a 40 per cent stake in HCCBL to the Bhartiya family. Though the company has not disclosed the amount, some media reports have pegged it to be around ₹10,000 Crore. Earlier, in the March quarter of last year, it had franchised its

bottling operations to its existing bottlers in three key markets - Rajasthan, Bihar, Northeast, and parts of West Bengal to its existing bottlers, earning \$290 Million (around ₹2,420 Crore). Kandhari Global Beverages was one of the three existing bottlers to whom HCCBL had transferred bottling operations of the Rajasthan market. It already operates in parts of Delhi, Himachal Pradesh, Haryana, Punjab, Chandigarh, Jammu and Kashmir, and Ladakh. The two other existing partners were SLMG Beverages and Moon Beverages. India is the fifth largest market of the Atlanta-based cola company. HCCBL's revenue in FY24 was ₹14,021.54 Crore and recorded a net profit of ₹2,808.31 Crore, helped by the sale of bottling operations.

# SC orders Ideaforge directors to appear in drone hacking trial

PIONEER NEWS SERVICE ■ NEW DELHI

The Supreme Court (SC) has refused to quash the criminal proceedings against M/s Ideaforge Technology Limited, a prominent drone manufacturing company, in connection with allegations of criminal breach of trust, cheating and unauthorised software disabling of Unmanned Aerial Vehicles (UAVs). The SC Bench led by Justice JB Pardiwala and Justice R Mahadevan dismissed the quash petition upholding the order passed by the Madras High Court earlier this year. SC observed that there is a prima facie criminal case of cheating and ordered Ideaforge to appear before the trial court. The Court further refused the plea to exempt the

directors of Ideaforge from appearing in the trial court clearly showing their involvement in this criminal offence of hacking drones. M/s Ideaforge Technology Limited, headquartered in Navi Mumbai, had supplied 15 UAVs to a Customer for a total amount of ₹2,20,67,050. As per the final report filed by the Cyber Crime Police, Ideaforge hacked and disabled the drones with the malicious intent to damage the customer's business and reputation as the drones were deployed in crucial government projects worth around ₹70 Crore. A Complaint was filed by the customer before the Commissioner of Police, Chennai and FIR No 235 of 2023 dated August 31, 2023 was registered by the Cyber Crime Police. Initially,

Ideaforge filed a quash petition before the Madras High Court to quash the FIR, which was earlier dismissed by the Court on in November 2023. After the Final Report was filed, Ideaforge filed this present quash petition against the proceedings held vide before the Additional Chief Metropolitan Magistrate (ACMM) for CCB cases, Egmore. The final report was filed under sections 409 and 65 of IPC and Section 66 r/w 45 of IT Act, 2008 r/w 420 IPC against the Company Ideaforge Technology Limited, Directors, Ankit Mehta, Rahul Singh, Vipul Joshi and Executive Director Somil Gautam. On January 31, 2025, the Madras High Court further dismissed the quash petition on the chargesheet forcing

them to appear before the Supreme Court. A recent response from an agitated Ideaforge investor highlighted how the company fell after going for IPO in July 2023. Ideaforge reportedly received close to ₹240 Crore during the IPO and around ₹327 Crore were offered to the public. The shocking statistics pointed out by the investor show a meagre profit of ₹2 Crore in the third quarter followed by abundant losses of ₹12 Crore and ₹20 Crore in subsequent quarters. The Investors raised severe concerns over the unpredictability of the Ideaforge finances which could potentially lead to even bigger loss as per the trend followed by the Company subsequent to the IPO in 2023.

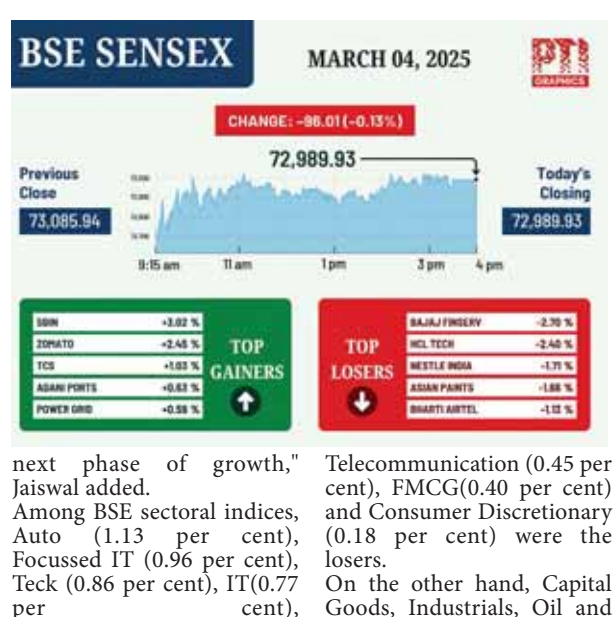

# Sensex sinks below 73,000 as global equity rout continues

PTI ■ MUMBAI

Falling for the third straight day, benchmark BSE Sensex declined by 96 points to close below the 73,000 mark on Tuesday amid global equity rout on tariff war worries and persistent foreign fund outflows. The 30-share BSE barometer closed at 72,989.93, down by 96.01 points or 0.13 per cent, as 18 of its components declined and 12 settled with gains. During the day, it dropped 452.4 points or 0.62 per cent to a low of 72,633.54 but recovered some of the losses in the second half. Extending the losses for the 10th straight session, the 50-share Nifty of NSE fell by

36.65 points or 0.17 per cent to close at 22,082.65. The index opened below the 22,000 level at 21,974.45 but managed to recover some losses later. From the Sensex pack, Bajaj Finserv, HCL Technologies, Nestle India, Asian Paints, Bharti Airtel, Sun Pharmaceuticals, Infosys, Maruti Suzuki India, Titan, Hindustan Unilever and Reliance Industries were among the laggards. On the other hand, State Bank of India, Zomato, Tata Consultancy Services, Adani Ports, Power Grid, Tata Steel and HDFC Bank were the gainers. Vinod Nair, head of research, Geojit Financial Services, "The domestic market exhibited a recovery from

today's lows but remained in negative territory due to adverse global cues related to escalating global trade tensions." "Weak global cues continue to weigh on sentiment, but selective buying is limiting the downside," Ajit Mishra - SVP, research, Religare Broking Limited said. Despite the market ended in the red zone, the BSE smallcap gauge climbed 1.28 per cent, and midcap index rose 0.08 per cent. Abhishek Jaiswal, Fund Manager at Jainavenue, said that the recent correction has effectively removed excess froth from valuations. "With the upcoming Q4 results, we anticipate renewed momentum, positioning small caps for the

Gas, Services, Energy, Commodities, Healthcare and Power were among the gainers. As many as 2,221 stocks advanced while 1,737 declined and 128 remain unchanged on the BSE. Meanwhile, the market capitalisation of BSE-listed firms rose by ₹1,06,388.96 Crore to ₹3,85,07,568.89 (\$4.1 Trillion). "Indian benchmark indices opened lower and continued to fall during the day, ending in negative territory on Tuesday amid continued FII selling and ongoing geopolitical tensions between Russia and Ukraine. "The market sentiments were dented due to concerns over a global trade war arising from the United States (US)

president's confirmation of a 25 per cent Tariff on Canada and Mexico and a 20 per cent tariff on Chinese imports over fentanyl issues," Ameya Ranadive, chartered market technician, CFTe, senior technical analyst, StoxBox, said. Devarsh Vakil, Head of Prime Research, HDFC Securities said, "The Nifty index fell for the tenth consecutive session, the longest losing run in 29 years. Out of the last 19 trading sessions, only one session has ended in positive territory." The US Has officially implemented a 25 per cent tariff on imports from Canada and Mexico, while Chinese goods now face a cumulative 20 per cent duty following an additional

10 percent levy. In a further escalation, reciprocal tariffs will kick in from April 2, intensifying concerns over trade disruptions and financial market instability, he added. In Asian markets, Tokyo, Hong Kong and Seoul were ended in red, while Shanghai in green territory. European markets were trading in the negative territory in the mid-session deals. The US markets ended lower on Monday. Meanwhile, global oil benchmark Brent crude dropped 1.37 per cent to \$70.64 a barrel. Foreign Institutional Investors (FIIs) offloaded equities worth ₹4,788.29 Crore on Monday, according to exchange data.

# Frimpong relishes 'intense' rivalry with Bayern Munich in Champions League

PTI ■ LEVERKUSEN (GERMANY)

Get ready for games four and five this season in one of the most dynamic rivalries in European soccer. Bayer Leverkusen heads to Bayern Munich in the Champions League round of 16 on Wednesday hoping to derail an otherwise successful first season for Bayern coach Vincent Kompany. "Of course this game's a big one, it's intense when we play each other," Leverkusen wing back Jeremie Frimpong told The Associated Press in a recent interview. Leverkusen and Bayern have already met three times this season. Leverkusen knocked Bayern out of the German Cup but two draws in the Bundesliga helped Bayern move closer to recovering the

Bundesliga title that Leverkusen won last season in a major upset. Less than three weeks have passed since their last encounter, a tense 0-0 draw in which Xabi Alonso's Leverkusen shut Bayern's forwards out of the game and

had plenty of chances to score but couldn't convert them. Might Frimpong and his teammates be sick of playing Bayern? Not at all, he insists. "It's Champions League, so we knew we were going to get someone difficult, and of

course it's nice that it's a German team again, Bayern Munich again. So everyone's excited," Frimpong said. Since he took over as Leverkusen coach two and a half years ago, Alonso has turned a struggling team into champions with a reputation for last-minute goals and being hard to beat. Alonso's personal record against Bayern is one that few coaches can boast — three wins and three draws for a total six games unbeaten in all competitions. Some of the coach's best moments in charge have come with tactical surprises against Bayern in big games. Still, Frimpong isn't putting much faith in that unbeaten streak. "It's nice to say, but for me personally, it's nothing," Frimpong said.

# Praggnanandhaa to take on Shankland in Prague Masters

PTI ■ PRAGUE (CZECH REPUBLIC)

With a career-high world ranking of No 8 as per the latest published list, Praggnanandhaa will take on American Sam Shankland in the sixth round of the Prague Masters after a rest day on Tuesday. Tied at the top spot with compatriot and friend Aravindh Chithambaram, Praggnanandhaa tried to break the defences of his fellow countryman for a long time but only ended up with a draw. The two are now on 3.5 points each out of a possible five. Aravindh was surprised after his second win in the tournament. "I don't know what's happening to me here," said Aravindh, who has also beaten top seed Wei Yi of China in the tournament. The Indian, who has arrived big time in to the elite circles, now will have to tackle the experienced Quang Leim Le of Vietnam in the next round. The two Indians are followed by a pack of four players having 2.5 points each. The most dangerous of the lot is Wei Yi who started with two losses in the first three rounds and then won two in a row to send warning signals to his competitors. Anish Giri and Quang Leim hold the dubious distinction of drawing all the five games thus far while Vincent Keymer has lost two, drawn one and won two out of his five games. Aravindh has been the pick of the tournament so far, as not many had given him a chance.

The former national champion has been working very hard and this is the first time he has got a real platform to showcase his real skill-set against the top GMs. Praggnanandhaa has been exceptional in his two victories thus far, against Keymer and Nguyen Thai Dai Van. But his white pieces are not necessarily giving him any serious advantage. It is well known that he makes up for it with his superior calculation skills, and much will depend on it especially against Shankland who also leaves no stone unturned in trying to carve out a niche for himself. Following the contest against Shankland, Praggnanandhaa will have white pieces against Quang Leim and Wei Yi while in the last round he is pitted against the super-solid Giri. For Aravindh, the road could be slightly easier as he has only the bottom field to compete against. In the seventh round, the Indian will play Giri, followed by David Navara of the Czech Republic before finally taking on Gurel

Ediz of Turkey in his last round. In the Challengers section, the lone Indian, Divya Deshmukh has got 1.5 points. She will try to gain some important rating points in the last four rounds, which will help her regain some confidence after the losses in the Tata Steel tournament earlier this month. Pairings (Round 6): Sam Shankland (USA, 2) vs R Praggnanandhaa (Ind, 3.5); Aravindh Chithambaram (Ind, 3.5) vs Quang Leim Le (Vie, 2.5); Wei Yi (Chn, 2.5) vs Gurel Ediz (Tur, 2); Nguyen Thai Dai Van (Cze, 2) vs David Navara (Cze, 2); Vincent Keymer (Ger, 2.5) vs Anish Giri (Ned, 2.5). Challengers: Finel Vaclav (Cze, 1.5) vs Divya Deshmukh (Ind, 1.5); Ivan Salgado Lopez (Esp, 3) vs Richard Stalmach (Cze, 2); Stamatis Kourkoulous-Arditis (Gre, 2) vs Nodirbek Yakubov (Uzb, 4); Jonas Buhl Bzerre (Den, 3.5) vs Marc'andria Maurizzi (Fra, 3); Nemes Jychym (Cze, 2) vs Ma Qun (Chn, 2.5).

# Uttarakhand, Chhatisgarh win in National Championship

PTI ■ PANCHKULA

Hockey Uttarakhand, Chhatisgarh and Hockey Chandigarh secured wins in their respective games of Division 'B' in the senior women national championship here on Tuesday. In the first match of the day, Hockey Uttarakhand defeated Telangana Hockey 1-0. Vartika Rawat (45') scored the only goal of the match for Hockey Uttarakhand to take the lead against Telangana Hockey. Chhatisgarh Hockey defeated Delhi Hockey 2-1 in a close game. Sonali (8') scored the first goal of the match for Delhi Hockey. In response, Leena Kosare (22') and Lahare Mamteshwari (43') scored two goals for Chhatisgarh Hockey to take the lead and secure their second win in the tournament. In the other matches, Hockey Chandigarh defeated Hockey Himachal 4-1. Sonu (30', 42') scored a brace whereas Raveena Rani (17') and Captain Rakhi (59') scored one goal each to take the total to four goals at the final whistle. On the other hand, Bhumika Chauhan (36') scored the consolation goal for Hockey Himachal. Later in the day, Hockey Andhra Pradesh will play against Le Puducherry Hockey and Hockey Arunachal will face off Hockey Jammu & Kashmir in Division 'C'.

# Vani ready for challenge from Sneha in fifth leg of Hero WPGT

PTI ■ GURUGRAM

Vani Kapoor, who grabbed the top honours in the fourth leg last month, will be looking to add another title as she tees up in the fifth leg of the Hero Women's Pro Golf Tour at the Classic Golf & Country Club here on Wednesday. The field of 38 players includes five amateurs and carries a prize purse of Rs.16 lakhs. The experienced Vani will be challenged by other established stars like Sneha Singh, who has already won twice this season and leads the Hero Order of Merit, Amandeep Drall, who is trying to find the form that once made her a contender on the Ladies European Tour, Gaurika Bishnoi and Ridhima Dilawari. Sneha and Ridhima shot 66 and 67 respectively in the final round of the previous leg to finish in the top three and signalled that they are finding their form at the right time. Many of the professionals are also using the Tour to sharpen their game ahead of the international schedules they have planned. The Indian pros have in recent years been travelling to South Africa, Australia, Europe and South East Asia for more exposure and a good number have been playing on the Ladies European Tour (LET) also. A bunch of young professionals, who have hit the Tour in the last few years and who have begun making a mark, are also in the field. They include Jasmine Shekar, who won multiple times in 2024, and Anvitha Narender, who has also tasted success. Sneha, who has won two of the four events held this season so far, leads the Order of Merit with Vani and Jasmine Shekar right behind her. The Classic Golf and Country Club has been a regular venue on the Tour, and the fifth leg will be the first of the two events to be staged in Gurugram this month. The sixth leg is also slated to be held in Gurugram at the DLF Golf and Country Club.

# Eyeing play-offs, Odisha FC meet Jamshedpur FC

PTI ■ JAMSHEDPUR

Odisha FC will play Jamshedpur FC in their Indian Super League match here on Wednesday, hoping to collect full points as the race for the last play-offs spot has gained steam. Jamshedpur FC have already qualified for the playoffs and are fourth in the table with 38 points from 22 games on the back of 12 wins and two draws. Odisha FC are preparing for their final league fixture, placed seventh with 30 points from 23 outings thus far. A win against Jamshedpur FC will see them reach 33 points.

If the sixth-placed Mumbai City FC lose both their remaining games, the Islanders will also be on 33 points at the end of the league phase. In that case, the equation will come down to goal difference, which still gives Odisha FC a lot to play for, with just one vacant playoff spot left now. Odisha FC's goal difference is six right now, better than Mumbai City FC (0). The Khalid Jamil-coached side will want form by their side going into the playoffs, since they have won and drawn twice each in their last five games. Odisha FC have failed to score in each of their last

two ISL matches, having gone on a longer goalless streak only twice before. Interestingly, they are the fourth-highest scoring team this season with 41 strikes to their name. Odisha FC have permitted opponents an average of 9.9 shots from inside the box per game since the start of 2025, with only Mohammedan SC (11.1) and Hyderabad FC (10.4) conceding more. They have kept the third-least clean sheets (4) in ISL 2024-25. Jamshedpur FC have played 46.1% of their passes forward in the current campaign, the second-highest share among all teams.

# Mannat positive ahead of Asia Pacific Amateurs in Vietnam

PTI ■ Da Nang (Vietnam)

Brimming with confidence after her recent performances, Mannat Brar is hopeful of making an impact as she leads the six-member Indian team at the 2025 Women's Amateur Asia-Pacific Golf Championships, the top-tier event for amateur golfers in the region. The 17-year-old Mannat, who is the reigning all India Ladies champion, hit the spotlight by becoming the first Indian to reach the semi-finals of the R&A Girls last year in Yorkshire. The other five players in the Indian Golf Union's squad are Zara Anand, Saanvi Somu, Heena Kang, Kashika Misra and Guntas Kaur Sandhu, all of whom have done well on the domestic IGU circuit. Of the six, Mannat with three previous starts at the

WAAP is the most experienced, while Saanvi Somu and Heena Kang were part of the Indian team last year in Thailand. Saanvi made the cut on her debut. Mannat, who finished third last week while playing in a pro event in India, said, "I have had a good year in 2024 and also in early 2025. Hopefully I can do better in WAAP also. "I want to stay as an amateur and experience some of the best courses in the world, before turning pro. I have played pro events in India and done well, and I will turn pro, but maybe after a couple of years. "The WAAP is easily the best events we in Asia get to play and the incentives are fantastic with starts at some of the Majors." The Indian team also has three WAAP debutants, with Zara Anand, who was a semi-finalist at the 2024 All

India Ladies and a finalist the year before in 2023, as the best ranked. She is just outside 400th in the world and right behind Mannat Brar in world rankings. Of the other two, Kashika Misra achieved one of her best results, winning the Northern India ladies late last year, where she finished

ahead of Mannat. Guntas Kaur Sandhu won the Maharashtra Ladies in a strong field that had Zara, Heena and Mannat. The best Indian result at the WAAP was T-9 by Anika Varma in 2021 and last year Avani Prashanth was T-10. Avani has since turned professional. Interestingly most of the

Indian amateur girls have also had a taste of pro competitions at the Hero Women's Pro Golf Tour in India. Saanvi has finished runner-up no less than four times, while Mannat, Zara and Heena have also produced good results. The WAAP, developed by The R&A and Asia-Pacific Golf Confederation, provides a pathway for Asia's elite female amateurs. The winner earns invitations to play in three major championships — the AIG Women's Open, the Amundi Evian Championship and The Chevron Championship — as well as elite championships such as the Hana Financial Group Championship, ISPS HANDA Women's Australian Open, the 122nd Women's Amateur Championship and the Augusta National Women's Amateur.

# Serena joins ownership group of Toronto Tempo, WNBA's 1st Canadian franchise

AP ■ NEW YORK

Serena Williams is joining the ownership group of the WNBA's first Canadian franchise, the Toronto Tempo, the team announced Monday. She will partner with Larry Tanenbaum, Chairman of Kilmer Sports Ventures for the Tempo, who will begin play in the 2026 season. "I am thrilled to announce my ownership role in the first Canadian WNBA team, the Toronto Tempo," said Williams. "This moment is not just about basketball; it is about showcasing the true value and potential of female athletes — I have always said that women's sports are an incredible investment opportunity. I am excited to partner with Larry and all of Canada in creating this new WNBA franchise and legacy." Williams, one of the greatest tennis players in

history, will play an active role in future jersey designs. She made her professional tennis debut at age 14 at a tournament in Canada in 1995, and her last event was the 2022 US Open. Williams won 23 Grand Slam singles titles — the most by a woman in the sport's Open era — plus another 14 major trophies in women's doubles alongside her older sister, Venus. "Serena is a champion," said Tempo President Teresa Resch. "She's the greatest athlete of all time, and her impact on this team and this country is going to be incredible. She's set the bar for women in sport, business and the world — and her commitment to using that success to create opportunities for other women is inspiring — we're thrilled to be marking the lead-up to International Women's Day with this announcement."

# Ad-hoc panel for boxing needed as BFI failed in 'fundamental' duties: Usha

PTI ■ NEW DELHI

Indian Olympic Association (IOA) chief P T Usha on Tuesday defended her decision to appoint an ad-hoc committee for boxing, saying the national federation failed to fulfil its "fundamental responsibilities" in the last one year and her action was necessary to "restore order and ensure proper governance". Her statement came in response to IOA vice president Gagan Narang's letter on February 28 in which the former Olympic bronze-

winner accused her of issuing "arbitrary" orders and undermining athletes' welfare. Usha's steadfast position is despite the Delhi High Court's stay on the IOA's order. The court issued notice, seeking IOA's response to a petition filed by the Boxing Federation of India (BFI). "...There is no truth in your (Narang) assertion that athletes are suffering due to this decision or any alleged arbitrary actions on my part. The decision to appoint an ad-hoc Committee was not

arbitrary but a necessary step to restore order, ensure proper governance, and prioritize athlete development," Usha said in her reply to Narang, who is also a member of the IOA's Executive Council. "The unfortunate reality is that BFI has failed in fulfilling its fundamental responsibilities, including conducting national championships in the last year. "With the 2026 Asian Games fast approaching, there has been little to no effort to identify fresh talent, select promising boxers, and

implement structured training programs to enhance India's medal prospects." Usha, who has been at loggerheads with the Executive Council members over several issues, accused them of showing "disproportionate preoccupation" with issues of "personal preferences" rather than the overall good of Indian sports. Narang wrote to her seeking a withdrawal of her "arbitrary" act of forming an ad-hoc committee to run the affairs of BFI. He had said that "due to such arbitrary order, our

athletes are suffering and we are getting a bad name domestically and internationally". On February 24, the IOA constituted a five-member ad-hoc committee to oversee the affairs of boxing in the country on the ground that the sport's national federation failed to hold elections on time. The BFI termed the IOA's decision as "illegal" and filed a petition in the Delhi High Court to quash the order. Narang also claimed that Usha's decision to form the ad-hoc committee to run BFI

was done "without consultation and/or approval of EC of IOA". He had urged Usha to recall the order and call an emergency meeting of EC to discuss various pressing matters. Hitting back at Narang, the IOA president said she has made several attempts over the past year to convene Executive Council meetings to discuss key issues. "Unfortunately, these efforts have been thwarted time and again by members — including yourself — who have consistently blocked

meaningful discussions," she alleged. "I struggle to recall any instance where the EC has actively engaged in discussions about improving athlete performance or implementing measures to enhance India's medal-winning potential. "The persistent reluctance to address these critical matters raises serious concerns about the priorities of some within the IOA," she said. The IOA has been a divided house ever since Usha appointed Raghuram Iyer as the CEO in January 2024.

# Dutch legend Taekema to work with Indian women dragflickers

PTI ■ NEW DELHI

India has roped in Dutch legend Taeke Taekema to work with the national women's hockey team dragflickers on a short-term basis till the 2028 Los Angeles Olympics. Taekema had conducted a seven-day camp from February 10 to 16 ahead of India's FIH Pro League campaign in Bhubaneswar last month, where the hosts competed against England, Germany, Netherlands, and Spain. The seven-day camp was attended by the likes of Deepika, Manisha Chauhan, Sonam, and Annu, along with a few junior players. The focus of the camp was on honing technical skills and improving dragkick accuracy under Taekema's guidance. Indian women's team chief

coach Harendra Singh said the camp has been very beneficial for the players and Taekema will continue to work with the side on a short-term basis till Los Angeles Games. "Taeke is one of the greatest legends in dragflicking, and I requested Hockey India to bring him in to help us improve in this area. He has been working with the team on refining technique and ensuring a smoother dragflicking process. "Dragflicking is a highly-specialised skill, and Taeke will continue to work with us in future camps as well," Harendra said. Harendra also acknowledged the improvements in Deepika's performance. "We've seen definite progress with Deepika, particularly during the recent Pro League matches. However, successful

penalty-corner conversions rely on three key components — the injector, stopper, and dragflicker. "Unfortunately, we faced some challenges with the injection and stopping during some matches, which affected our conversion rate. But Deepika's tactical approach is improving with each game," he said. Outlining his vision, the coach said his aim is to develop Deepika and Manisha into world-class flickers. "Our focus is to develop Deepika and Manisha into world-class dragflickers. Taeke's involvement will continue until the 2028 LA Olympics, and he will provide guidance to both the senior team and junior players as and when needed. "In modern hockey, dragflicking and goalkeeping are crucial, so we're committed to

preparing our players to compete at the highest level globally," Harendra concluded. Taekema, 45, was renowned for his penalty-corner precision during his playing days. Taekema, who netted 170 goals in 94 appearances for the Netherlands men's team over 11 years, is widely regarded as one of the world's most feared penalty corner specialists. He was the top scorer in numerous major international tournaments, including the 2002 and 2006 Champions Trophy, 2006 World Cup, 2008 Olympic Games, and 2010 FIH World Cup. He also served as the assistant coach for the China women's team from 2022 to 2024. Deepika too said she benefitted a lot from the camp. "Although it was just a week-long camp, it proved to be highly beneficial for

the home leg of the FIH Pro League. I focused on refining my footwork, shot release, and finishing, which gave me a clear understanding of the technical adjustments I needed to make," said Deepika, who netted two out of her three goals from penalty corners in the Pro League. "We concentrated on key technical areas like body positioning and stepping based on the type of shot we wanted to execute. This focus made a significant difference. Overall, it was an enriching experience. "Taekema was excellent in guiding us, and we started noticing improvements under his mentorship. He also shared his own experiences as a player, which helped us build mental resilience," she added.
