rirat Kohli did not finish the chase for once but his measured 84-run knock steered India into their fifth Champions Trophy final with a clinical four-wicket win over an under-strength and profligate Australia in the first last-four clash here on Wednesday.

The Indian triumph ensures that the final of the eight-team competition will now be held here instead of Lahore, the original host of the marquee clash, as Rohit Sharma's men will not travel there owing to security concerns.

Player of the match Kohli (84) was the fulcrum of Indian batting as they scaled down 265 in 48.1 overs after Steve Smith (73) and Alex Carey (61)

winner of the second semifinal between South Africa and New Zealand at Lahore on Wednesday.

Kohli had wonderful support from Shreyas Iyer (45) with whom he realised 91 runs for the third wicket, and steadied the ship after the early departures of skipper Rohit Sharma (28) and Shubman Gill

### HC stays order directing FIR against Buch, five others

**PTI** ■ MUMBAI

The Bombay High Court on Tuesday stayed for four weeks a special court's order directing FIR against former Sebi chairperson Madhabi Puri Buch and five other officials for alleged stock market fraud and regulatory violations, noting it was passed mechanically.

A single bench of Justice Shivkumar Dige said the special court order of March 1 also did not attribute any specific role to the accused in the matter.

"After hearing all the parties concerned and after going through the order of the special court, it appears that the order is passed mechanically without going into details and without attributing any specific role to the applicants (Buch and others)," Justice Dige said.

"Hence, the order is stayed till next date. Four weeks time is given to the complainant in the case (Sapan Shrivastava) to file his affidavit in reply to the petitions," the court said.

The HC's judgement came on petitions filed by Buch, three current whole-time Sebi directors Ashwani Bhatia, Ananth Narayan G and Kamlesh Chandra\_Varshney, Bombay Stock Exchange's Managing Director and Chief Executive Officer Sundararaman Ramamurthy and its former chairman and public interest director

**CBI** nabs several rail

**NEW DELHI** 

In a massive crackdown, the Central Bureau of Agency (CBI) on Tuesday said it has arrested 26 railway officials including a senior divisional electrical engineer of East Cental Railway for allegedly leaking papers of departmental examination and seized ₹1.17 crore cash during its raids.

The railway officials were arrested on Monday night for allegedly leaking papers of examination for the elevation to posts of chief loco pilot at Mughal Sarai, the agency said, adding the exam was to be conducted on Tuesday. Sources in the agency said that the examination has now been cancelled.

The arrest has come just a fortnight after the central probe agency had arrested five railway officers, including two of the Indian Railway Personnel Service (IRPS) posted at the Vadodara Division, for alleged bribery in favouring candidates in departmental examination, officials said.

"During the checks conducted by CBI, at three spots on the intervening night (March 3-4) at Mughal Sarai, a total of 17 candidates were found with photocopies of hand-written question papers," a CBI spokesperson said. departmental 17

candidates who are presently working as loco pilots had allegedly paid money for the question paper and were caught red-handed with the copies during the raid, he

said. "Overall, 26 railway officials (including the 17 aspirants) have been arrested in this case so far," the spokesperson said in a statement. The agency has registered the

FIR against a senior divisional electrical engineer (operations) who was given the responsibility for setting and preparing the question paper for the examination. "He himself had written the questions in English and allegedly gave it to one loco pilot who in turn translated it into Hindi and further gave it to another official. The said official allegedly gave it to the candidates through few other railway employees," spokesperson said. Accused senior divisional

electrical engineer (operations) is among the arrested officials, he said. "Searches were conducted at eight locations which resulted in recovery of ₹1.17 crore in cash. The amount was reportedly collected from the candidates for leaking the question papers.

'The hand-written question papers along with their photocopies were seized. These question papers have been tallied with the original question paper and were found to have matched," the spokesperson said.

On February 19, 2025, CB arrested 2008-batch IRPS officer Sunil Bishnoi posted as a senior divisional personnel officer in Vadodara, 2018batch IRPS officer Ankush Wasan, posted as divisional personnel officer there Deputy Chief Commercial Manager Sanjay Kumar Tiwari posted at Mumbai's Churchgate, Deputy Station Superintendent Neeraj Sinha and Nursing Superintendent Dinesh Kumar posted at Divisional Railway Hospital in Ahmedabad, officials said The agency has also arrested Mukesh Meena in the case, they said. The federal probe agency

seized 650 grams of gold and ₹5 lakh cash during its searches at 11 locations, including in Gujarat's Vadodara. spokesperson said.

### **Gujarat forms** committee for **UCC** public input

PNS AHEMDABAD

The high-level committee constituted by the Gujarat government to draft the Uniform Civil Code (UCC) will hold public consultations and focus on equal rights for women and care for children its chairperson Justice (retired) Ranjana Desai said on Tuesday The five-member committee convened its first meeting in Gujarat at the state capital, where Justice Desai launched a web portal, www.Uccgujarat.In, to take suggestions regarding the UCC from the public, government agencies, NGOs, social groups, communities religious organisations and political parties.

"Our work starts today. The committee has been tasked with assessing the need for the UCC in Gujarat. We will come up with a draft after the exercise, and for that, we will hold public consultation," the ex Supreme Court Justice said. She said public consultation is a vital part of the exercise, and two sub-committees have been formed — one for public consultation and another to prepare the draft. The committee met at the Gujarat Bhavan in Delhi last month.

Justice Desai said, "We will focus more on equal rights to women and care for children. There should be equal rights for marriage and divorce. Marriages and divorces will have to be registered, but rituals of marriage are not to be disturbed.

This is the first time that officials below the Chief Electoral Officer (CEO) levels have been called for such a meeting as the District Election Officers (DEOs) and Electoral Registration Officers (EROs) are also taking part. While CEOs are in-charge of the elections at the state levels, the DEOs are for districts and EROs is for the assembly constituency levels.

### 'miyan-tiyan', 'Pakistani' not offence: SC **Calling someone**

PIONEER NEWS SERVICE **NEW DELHI** 

The Supreme Court has held using terms such as "miyan-tiyan" and "Pakistani" The Supreme Court has was not an offence of hurting religious sentiments though made in poor taste. A bench of Justices BV Nagarathna and Satish Chandra Sharma therefore discharged a man in a criminal case filed by an Urdu translator and acting clerk Right to Information (RTI) in the sub-divisional office, Chas in Jharkhand.

accused of hurting religious feelings of the informant by calling him 'miyan-tiyan' and 'Pakistani'. Undoubtedly, the statements made are poor taste. However, it does not amount to hurting the religious sentiments of the informant. Hence, we are of the opinion that the appellant shall also be discharged under Section 298

Section 298 of IPC deals with words or gestures made with a deliberate intent to wound religious feelings.

The February 11 court order It came on record that said, "The appellant is accused, Hari Nandan Singh,

RTI Act from additional information was dispatched collector-cum-first appellate to him.

However, he filed an appeal before the appellate authority, allegedly after manipulating the documents sent to him by the office through the registered post and making allegations manipulation in the documents.

The appellate authority directed the translator to personally serve the information to the appellant. On November 18, 2020, the informant, accompanied by the messenger of the subdivisional office, Chas, went to the accused's home to hand over the information.

The accused initially refused to accept the documents but upon insistence by informant, accepted it.

It was alleged that he abused

the informant while referring to his faith and used criminal force against him. The matter prompted the

translator to an FIR registered against the accused. Following an investigation, the trial court ordered framing of charges against the

accused also under Sections 353 (assault or criminal force on a public servant) and 504 (intentional insult) of IPC. The Jharkhand High Court

apart from Section 353. We set aside the order of the high court which has sustained the order of the trial court and consequently allow the application filed by the appellant and discharge the appellant from all the three offences alleged against him," it added.

dismissed the accused's plea

for quashing the proceedings. While hearing the man's plea

against the high court order,

the bench discharged him of the offence of intentional

insult observing "no act on his part that could have

provoked a breach of peace"

# **Punjab Farmers To Go Ahead With Protest at Chd Today Despite Detentions, CM's Warnings**

MONIKA MALIK CHANDIGARH

handigarh may witness a Cmassive farmer protest on Wednesday, even as the Punjab Government cracked down on leaders of various farmer unions in midnight raids, detaining them in large numbers. The police raided multiple locations across the State, placing farmer leaders under preventive custody in an attempt to thwart the demon-

Taking a tough stance, Chief Minister Bhagwant Mann made it clear that Punjab "won't be held for ransom", while vowing to maintain law and order. However, farmer leaders remain undeterred, insisting that they will reach Chandigarh with their tractors, irrespective of the hurdles. Meanwhile,

Chandigarh Police are on high alert, deploying 2,500 personnel and setting up barricades at key entry points to prevent a large-scale gathering. Opposition leaders, including Congress and Shiromani Akali Dal (SAD), have slammed the Aam Aadmi Party (AAP) led state government's actions, calling the mass arrests an assault on democratic rights.

The farmers, united under the banner of Samyukt Kisan Morcha (SKM) — a pan-India farmers' body — have placed 18 demands before the Punjab Government, including the implementation of Minimum Support Price (MSP) for six crops, loan waivers, full payment of pending dues with interest for sugarcane farmers, compensation for families of farmers who died during the 2020-21 agitation, and the formation of a sub-committee to facilitate communication between the government and

The inconclusive meeting between the state government and farmers on Monday ended on a tense note, with Chief Minister Mann walking out mid-way. Afterwards, the police teams launched sweeping raids across the State, picking up key leaders and sending a clear message that the government will not tolerate dis-

A senior police officer, requesting anonymity, confirmed that the raids were carried out after negotiations between the Chief Minister and farmer unions failed on Monday evening. "We mobilized the forces, and conducted raids to apprehend farmer leaders as per instructions," added the official.

Meanwhile, the farmer union leaders had anticipated a government crackdown in the lead-up to the protests and had taken precautions to evade "We know how this government reacts...We are expecting this...Most of us were not at home early in the morning when hundreds of police personnel arrived to detain us. It was a well-coordinated operation, but many leaders had already moved to undisclosed locations. While some members were taken into custody, several key figures managed to avoid the raids," said a union leader.

#### Midnight Raids and **Detentions Spark Anger**

The crackdown began late on Monday, with police teams fanning out across Punjab to detain farmer leaders. In Faridkot, the police arrested Komi Kisan Union state head Binder Singh Gollewala from his residence. In Ludhiana, BKU Ugrahan general secretary Ghaghar Singh was taken into custody. In Abohar, police raided the home of farmer leader Sukhjinder Singh Rajan at 4:30 am, prompting outrage from his family. "Are we criminals that police stormed into our house like this?" he questioned.

In Amritsar, multiple members of BKU Ugrahan — Punjab's largest farmer union were detained; while in Nawanshahr, around 15 farmer leaders were held in various police stations. Muktsar saw strong resistance from farmers when police attempted to detain local leaders, leading to a protest outside the Sadar Police Station. Farmers warned that if their detained colleagues were not released, the movement would escalate across

In Barnala, police detained BKU Kadian district president

Jagir Singh Chiniwal, BKU Ugrahan leader Hardeep Singh Talewal, Krantikari Kisan Union leader Manjeet Raj, and BKU Dakonda leader Jagjeer Singh Seera. In Patiala, farmer leaders from BKU Krantikari, BKU Lakhowal, and the Satnam Behru group were

Several other prominent leaders, including Ruldu Singh Mansa, Prem Singh Bhangu, and Paramdeep Singh Baidwan, were also taken into custody in Mohali and Chandigarh. In total, sources suggested that nearly 350 farmer leaders have been detained across the State, with numbers expected to rise.

#### Farmers' Defiant Stand: 'We'll Reach Chd, No Matter

Despite the large-scale detentions, SKM and other farmer unions remained resolute. BKU Ugrahan president Joginder Singh Ugrahan declared, "We will not back down. If we are stopped on the roads, we will sit right there and protest. The government can arrest us all, but the movement will continue.

Ugrahan claimed that massive raids "are underway to scuttle our protests, and over a dozen buses are waiting to round me and my supporters up...Let the Punjab Government do whatever it wants, but I warn them the protest will go ahead despite the police crackdown".

Ravinder Singh, an SKM leader from Patiala, echoed similar sentiments. "We will go to Chandigarh with our tractors. This is our constitutional right, and the Government cannot take that away from us,"

With tensions escalating, the Samyukt Kisan Morcha (Non-Political) faction, led by Jagjit Singh Dallewal, has also declared to intensify their ongoing protest at the Shambhu and Khanauri inter-state borders. Dallewal, who reached the 99th day of his hunger strike on Tuesday, will mark the 100th day of his fast on Wednesday. In solidarity, 101 farmers across Punjab will observe a one-day

Kisan Mazdoor Morcha convener Sarwan Singh Pandher, who is also leading the protests at Punjab-Haryana borders since over a year now, condemned the police crackdown, calling it an assault on democratic freedom. "Farmers seek to protest peacefully, yet

#### attempt to silence us," he said. Chd on High Alert: 2,500 **Cops Deployed**

the Punjab Government is

voices. We will resist any

Anticipating large crowds, Chandigarh Administration has ramped up security. Around 2,500 police personnel have been stationed across the city, and 12 special checkpoints have been set up at entry points. SHOs and DSPs have been assigned to monitor these barricades, ensuring that no farmer convoys enter the city. Senior police officials have confirmed that tear gas, water cannons, and riot control units are on standby. Drones will also be used to track farmer movements. "We will ensure that law and order is maintained," a senior police officer said.

### **Opposition Slams Govt**

Punjab's opposition parties also launched a scathing attack on the Mann-led State Government, accusing it of suppressing democratic protests. Punjab Congress president Amarinder Singh Raja Warring condemned the crackdown, calling it "an undeclared Emergency". He said: "This is an assault on democracy. The Bhagwant Mann government, instead of addressing farmers' concerns, is acting on Amit Shah's instructions to crush the protests.

Leader of Opposition (LoP) in Punjab Assembly Partap Singh Bajwa, accusing AAP of turning Punjab into a dictatorial state, said: that the Chief Minister's arrogance has reached a new height. "He first refused to listen to the farmers' issues and then resorted to excessive force to suppress their voices, which is absolutely against the basic principles of democracy," he said.

### **CM Justifies Detention: 'Punjab** Won't Be Held Hostage'

Tustifying the crackdown Chief Minister Mann said that repeated agitations are causing economic losses and inconvenience to the public, and farmers will not be allowed to hold the state for ransom. "Farmers cannot say they want talks and, at the same time, threaten to block roads and set up indefinite sit-ins. This will not be tolerated," Mann said, while arguing that most of the farmers' demands are linked to the Central Government and not under Punjab's jurisdiction.

Also justifying his walkout of a meeting with farmer leaders, Mann alleged that their insistence on continuing protests, even as negotiations were being sought, left no ground for negotiations from him. "I left the meeting as they were adamant about carrying on the protests of March 5. I told them that you cannot continue obstructing roads and rail tracks and still ope for the government to go on talking with you. Punjab is suffering because of these endless demonstrations. The state's economy is being hurt, and I will not allow Punjab to turn into a land of continuous protests," Mann declared.

The Chief Minister reaffirmed that while his government was prepared to listen, law and order cannot be bargained. "Day after day, they hold rail roko and sadak roko protests, disturbing the lives of common people and trade. This cannot continue indefinitely. No one should take my patience for weakness. If farmers believe that they can continue their protest and simultaneously hold negotiations with the government, then I do not see the point of talking," he said.

That was not all! Mann also asserted that a credit war is going amongst the various farmers unions who are trying to create anarchy by running a parallel government. "The government is always ready to resolve the issues pertaining to various sections of society through negotiations," he said. Mann added that he had asked the farmer unions to end

their agitation and follow a constructive solution instead of resorting to blockades and demonstrations. He further maintained, "I have been to the fields more than these leaders. I am a farmer's son. But blocking roads and stopping railways daily is not the solution."

Mann's comments have sparked further backlash from farmer unions, who accused him of abandoning the very people who brought him to power.

Former Deputy Chief Minister and SAD leader Sukhbir Singh Badal (SAD) also lashed out, calling the police raids "a shameful act". CM Mann should apologize to farmers instead of jailing them," said Sukhbir, adding that the AAP Government had once claimed to stand with farmers but was now treating them as criminals.

SAD's senior leader Bikram Singh Majithia, demanding immediate release of farmer leaders who had been arrested at Chief Minister's instance, asked Mann to apologize to the leaders for threatening and misbehaving with them during an official meeting on Monday. Asserting that it was the democratic right of farmers to ask questions from the chief minister they had elected to power, Majithia said: "Such an erratic and unstable behaviour is unbecoming of a Chief

Union Minister and BJP leader Ravneet Singh Bittu also criticized the mass arrests, stating that "Mann has turned Punjab into a police state".

With farmer unions unwilling to step back and the government determined to prevent any disruption, a major showdown is expected. The sheer scale of the arrests has only fueled the determination of farmer groups, who see this as an attempt to silence their

RECRUITMENT PROCESS FOR OVER 2000 POSTS TO BEGIN THROUGH HPRCA SOON: HIMACHAL CM

presiding over a meeting of Himachal Pradesh Rajya Chayan Aayog (HPRCA), Hamirpur on Tuesday, directed for immediate declaration of results for 660 posts of six post codes, as previously approved by the Cabinet. He also instructed HPRCA to commence the recruitment process for more than 2000 posts of various departments, boards and corporations immediately. These post codes include both those earlier advertised by the erstwhile Himachal Pradesh Staff Selection Commission and the newly received requisitions by the HPRCA. He directed the HPRCA to grant two years of upper age relaxation to those candidates who were unable to apply due to various reasons. Sukhu said that the present State Government is committed to offer transparent and merit based employment to the youth in the government sector. He assured that HPRCA would ensure transparent recruitment and computer based tests will be conducted and instructed to develop a one time registration module for the applicants by 20th March, 2025 to streamline the application process for the appli-

MP TEWARI MEETS UNION CIVIL AVIATION MINISTER

Chandigarh: City MP Manish Tewari on Tuesday met Union Civil Aviation Minister K Rammohan Naidu and demanded recognition of Shaheed-e-Azam Bhagat Singh International Airport as a 'Point of Call' (POC) for international airlines. Tewari said, "The Chandigarh International Airport located in Mohali, which is now called Shaheed-e-Azam Bhagat Singh International Airport, serves the states of Punjab, Haryana and Himachal Pradesh. A large number of people from these three states travel internationally for business as well as tourism purposes." He said that unfortunately Shaheed-e-Azam Bhagat Singh International Airport is not recognized as a 'Point of Call' (POC) for international airlines and hence it is not in the 'Bilateral Offer List', which is the first condition for foreign airlines to fly to and from Shaheed-e-Azam Bhagat Singh International Airport.

DRIVING SCHOOLS WILL BE ESTABLISHED IN EVERY

DISTRICT: HRY MINISTER

Haryana Energy, Transport and Labour Minister Anil Vij on Tuesday said that instructions have been given to establish driving schools in every district so that people, especially the youth, can understand all the rules and techniques of driving. This will reduce road accidents due to increased awareness. He also said that he has directed officers to strengthen the infrastructure of the Energy Department and in this series, a new 800 MW power plant is being set up in Yamunanagar and approval has been given for this. Similarly, old power wires/low load wires will also be replaced. Vij said, "Along with replacing old buses, the condition of bus stands will also be improved and modernized. Driving schools will be established in every district and instructions have been given to the officers to install an automatic washing machine system and automatic system for checking vehicle fitness in every district." Instructions have also been issued to officers to establish air-conditioned hospitals for workers in every district so that they can also get better health facilities.

### Cow vigilantes held for thrashing & throwing two persons in Canal

wo men were beaten up and thrown into a canal in Palwal A allegedly by some cow vigilantes, leading to the death of one of the victims. Palwal Police said that a case has been registered in the concerned Police Station and of the 11 accused in the case, five have been arrested.

According to police, the accused intercepted a truck in Palwal on February 22 on suspicion of cow smuggling. The truck was transporting cattle from Rajasthan to Lucknow when the driver lost his way in the dark of the night and passed through Palwal where the incident occurred, a police official said.

The bike-borne accused intercepted the truck driver and helper, beat them up badly and later threw them into a canal. "Truck driver Balkishan swam to safety but helper Sandeep's body was fished out from the canal on Sunday," Palwal Deputy Superintendent of Police (Crime) Manoj Verma said on Tuesday The arrested accused have been identified as Devraj, Nikhil, Naresh, Pawan and Pankaj hailing from Palwal, Gurugram and Nuh districts, the officer said, adding Sandeep's post-mortem revealed that he suffered multiple grievous injuries. The driver showed some documents related to the transportation of cows and these were being verified, the DSP said.

### Haryana Budget to be growth-oriented: CM Saini

Haryana Chief Minister Nayab Singh Saini on Tuesday said that the state budget for the year 2025-26 will be growth-oriented, with a special focus on sectors such as agriculture, education, health, sports, infrastructure, and women empowerment. Presiding over a meeting of

pre-budget consultations with the Administrative Secretaries of various departments in Panchkula, the Chief Minister said that several new initiatives focused on the welfare of all sections of society would be introduced in the upcoming budget. He sought suggestions from the Administrative Secretaries to be incorporated into the State Budget and emphasized the crucial role of Administrative Secretaries in the budget formulation process Saini said that the present

state government is working to improve the lives of people through various reforms. The state government has brought about a revolutionary change in governance over the past ten years, marking the most significant transformation in over a decade. As a result, citizens are now able to benefit from various government welfare schemes from the comfort of their homes, without the need for frequent visits to offices. He said that upon reaching the age of 60, people start receiving the old age allowance by sitting at home, benefiting senior citizens in a big way. He said that Haryana has emerged as a sports powerhouse and State players have proven their mettle at various national and international sports competitions, bringing glory to both the country and the state. He attributed this success to the hard work of the players and the state government's sports policy. Saini added that Haryana's sports policy is being widely appreciated across the country. The state government has supported the efforts of players by providing robust sports infrastructure and top-notch coaching facilities. Haryana has also taken signifi-

cant strides in the Health sector. The bed capacity of various government hospitals has been increased with test facilities and medicines available free of cost. He said that while fulfilling the promise made in the Sankalp Patra, the State present Government has started a dialysis facility to kidney patients free of cost in government hospitals across the State

The Chief Minister stated that he has been holding prebudget consultations with various groups to gather their suggestions for the upcoming budget. So far, he has met with industry associations, chartered accountants, agricultural scientists, FPOs, progressive farmers, startups, youth, women entrepreneurs, women representatives, self-help groups, Namo Drone Didi, and representatives from the textile industry, all with the aim of preparing an inclusive budget.

He said that for the first time, suggestions have been invited from the state's citizens through an online portal, which has already received about 10,000 submissions. As part of this process, he also sought suggestions from MPs and MLAs of the state in a two-day pre-budget consultation held in Panchkula on March 3 and 4. He assured that the best suggestions from various stakeholders would be incorporated into the state's budget, which will serve the interests of Haryana's 2.80 crore citizens.

### Best suggestions from various stakeholders would be incorporated into State's

Addressing the State legislators on the concluding day of the two-day "Pre-Budget Consultation" meeting, Saini said that everyone provided valuable suggestions to help realize the vision of an inclusive budget. He expressed gratitude for the important suggestions shared by the Ministers and MLAs aimed at the welfare of the state and its people and said that all suggestions will be carefully considered and incorporated into the forthcoming state budget to further accelerate Haryana's continuous development. "Our goal is to present a budget that drives prosperity for every citizen of the state," he added.

The Chief Minister also encouraged MLAs to submit their suggestions in writing to ensure that all perspectives are captured. "We are committed to creating a budget that reflects the needs and aspirations of our people," he further added.

During the meeting, the key areas highlighted during the meeting included improvements in road infrastructure, sports facilities, water supply, electricity, transport, industrial development, the optimal utilization of government properties, promoting natural farming practices, eradicating the drug network, rehabilitating addicts, equitable irrigation water distribution, digitization of government departments, accommodation facility for officers, addressing cybercrime, capacity building, and traffic management. This year, the state government has launched another innovative initiative, allowing the citizens of the state to submit their budget suggestions online. To date, over 10,000 suggestions have been received from the public through

the online portal.

### Tehsildars Begin Returning to Work After CM's Stern Warning

Orders Suspensions, Replacement of 'Striking' **Revenue Officials** 

PNS CHANDIGARH

After a strong warning from Punjab Chief Minister Bhagwant Mann, a section of tehsildars across the state have started returning to work, defying the mass casual leave protest that began earlier this week. The protest, initiated by the Punjab Revenue Officers' Association, was called against the state Vigilance Department's crackdown on corruption within the revenue department. However, the government responded with swift and decisive measures, issuing an ultimatum to striking officials to return to duty by 5 pm or face immediate suspension.

The state's Additional Chief Secretary (Revenue) also directed the Deputy Commissioners to assign the responsibilities of absent officers to other officials, ensuring that public services remain unaffected.

the approached, reports emerged of tehsildars resuming their duties in districts such as Mohali, Sangrur, and Moga. However, many others continued their protest, prompting the government to take further action. The Chief Minister, in his statements and social media posts, made it clear that the government would not succumb to pressure tactics and that new appointments would be made if necessary to replace non-compliant officers. The crisis erupted after

the Punjab Vigilance Bureau arrested several revenue officials on charges of corruption. Among those apprehended was Tapa tehsildar Sukhcharan Singh Channi, who also serves as the president of the Punjab Revenue Officers' Association. The Bureau also booked Ludhiana West Sub-Registrar Jagsir Singh Saran, while Ranjit Singh of Jagraon and

Govt Takes Tough Stance, Lakhwinder Singh of Dera comply with orders. from service.

response, Association called for a statewide mass leave, suspending all property registration work until March 7, unless their arrested colleagues were given a clean chit. However, the state government saw this as an attempt to blackmail the administra-

Chief Minister Mann, speaking to the media during his whirlwind tour of Kharar, Banur and Zirakpur tehsils to get the work of registration started, slammed the striking officers, stating that their protest was an attempt to seek a "license for corruption". He declared that the AAP Government has a zero-tolerance policy for graft and would not allow anyone to hold the public hostage for personal

"If they think they can blackmail us into stopping vigilance inquiries, they are mistaken. They are welcome to continue their mass leave, but when they return, it will be the people who decide where and when they will be allowed to rejoin," Mann said.

The Government acted swiftly, directing revenue officials of other ranks — including naib tehsildars, kanungos, and PCS officers - to take over the duties of absent tehsildars and sub-registrars. In some cases, the administration even considered delegating the task of property registrations to school principals and headmasters, ensuring that no disruption occurs in land transactions.

In a move to personally monitor the situation, Mann made surprise visits to tehsil offices in Kharar, Banur, and Zirakpur. He interacted with the public to check whether they were facing any inconvenience due to the strike. Mann reiterated that his government would not bow to pressure and that strict disciplinary action would be taken against those who failed to

### **Securing the skies**

With adversaries rapidly upgrading to next-generation aircraft, India must priortise air combat readiness

The Indian Air Force (IAF) is at a critical juncture, balancing the need for rapid modernisation with self-sufficiency under the 'Aatmanirbhar Bharat' initiative. A recent report by the Empowered Committee for Capability Enhancement of the IAF, has identified key thrust areas and provided recommendations to address shortfalls and enhance the force's capabilities. The IAF is currently operating at 31 fighter squadrons, significantly below the sanctioned strength of 42 squadrons. The delays in the induction of the Light Combat Aircraft (LCA) Mk1A and the gradual phasing out of ageing Jaguar, MiG-29UPG, and Mirage-2000 present an urgent need for new acquisitions. The report underscores the necessity of accelerating the production of the LCA Mk1A, LCA Mk2, and the fifth-generation Advanced Medium Combat Aircraft (AMCA). Besides, the need for additional Airborne Early-Warning and Control (AEW&C) aircraft, mid-air refuelers, and advanced missile systems is crucial for operational capabilities. The committee has

stressed the role of the private sector in complementing efforts by Defence PSUs and the DRDO to boost production capacity and efficiency in aerospace manufacturing. The slow pace of domestic fighter jet production has led to gaps in operational readiness, particularly when adversaries like China and Pakistan are rapidly modernising their air forces with fifth- and even sixth-generation aircraft.

The complex procurement process and lack of streamlined decision-making continue to delay critical acquisitions compromising the air strength. While progress has been made in indigenous defence production, there are still gaps in high-end technologies such as jet engine

development, advanced avionics, and stealth capabilities. The financial allocation for defence needs to align with modernisation goals, ensuring adequate funding for both indigenous projects and immediate acquisitions. Defence Minister Rajnath Singh has directed that the committee's recommendations be implemented in a structured and time-sensitive manner to prevent further delays. The government must ensure the timely execution of the AMCA program and increase HAL's production capacity to meet annual fighter jet requirements. Besides, a reformed procurement mechanism, reducing bureaucratic delays, is essential to fast-track approvals and acquisitions. Strengthening collaborations with global aerospace leaders to bring in advanced technology while setting up domestic manufacturing hubs will help accelerate modernisation. Encouraging private defence manufacturers through policy reforms, incentives, and infrastructure support will boost selfsufficiency in aerospace production. The recommendations underscore call for urgent action and need for addressing systemic challenges, and fostering innovation through private sector involvement. Indeed, India must achieve a combat-ready and self-sufficient air force capable of countering emerging threats. The need for a modern and highly efficient Air Force is more critical than ever.

# Russia China help Junta hold the fort

Myanmar's civil war sees resistance forces making major gains, yet the Junta retains key cities and economic hubs with China and Russia's backing

ast week, Home Minister Amit Shah held a review meeting of Manipur under the President's Rule and also discussed the trade routes to Myanmar with the border areas no longer under Junta's control. Myanmarese Generals have ruled the roost since 1962. Their fourth coup February 2021, is the longest but one which has met with the biggest resistance and for the first time, the Bmar (Burmese) joined the opposition which consists of Ethnic Armed Organisations (EAO), People's Defence Force (PDF) under National United Government (NUG), local militias and rebel groups all united in defeating the Junta.

Under Junta's rule organized crime of which it is beneficiary has risen phenomenally to USD 2bn in cyber scams and other frauds. Many Indians have been unsuspecting participants and victims. Never before has Resistance been so organized in its fight against the military; success has come without any unified command and what at best is coordinated operations like Three Brotherhood Alliance which launched Operation 1027 by three EAOs - TNLA, MNDAA, and AA.

The last of these – the Arakan Army – is militarily the strongest and operates in the Rakhine province in the south while the other two EAOs operate in the northern Shan state. Codename 1027 denotes the launch date of the massive offensive in the north on October 27, 2023.

China plays a double role: supporting the Junta as well as some of the EAOs. Lately, there has been a policy shift - full support to the Junta. But Chinese pronouncements are deceptive; best to go by Chinese deeds, not words.On the ground, in the fourth year of the war, the Junta has lost considerable ground but is nowhere near being defeated. On the scale of conflict measurement, Junta holds 21 per cent of the territory which consists of the precious Irrawaddy heartland of Bmars and includes the new cap-Mandalay, the two largest cities; and all sea ports and air bases. Only one seaport the India-operated Sittwe is under threat sur-

LATELY, THERE HAS BEEN A **POLICY** SHIFT-FULL SUPPORT TO THE JUNTA. BUT **CHINESE PRONOUNCEMENTS** ARE DECEPTIVE; BEST TO GO BY CHINESE DEEDS, NOT WORDS

by defectors who bring weapons and skills. Women now comprise 60 per cent of the force though they are mainly in support roles. In earlier uprisings, women constituted only 10 per cent.

This time diaspora support is unprecedented and a signifi-cant factor. Recruitment to PDF has also risen with support being provided by external players. PDFs are called 'watermelons' green outside and red inside. While green is the colour of the uniform, red is the colour of the National League for Democracy flag. Despite the high morale and momentum of success, Resistance requires a new military strategy, another 1027. Resistance is expected to attack Junta's defence ordnance fac-tories- their defence industrial base- near Mandalay and its loss will be a big blow to the military but still not enough to unhinge it. PDF has to reorganize into bat-

under a command structure to be able to capture and hold ground and take strategic targets like airbases. China and Russia, two P5 members in the UNSC, are partners with No Limits but not military allies. Both support the Junta. Russia is now the key military supplier and since 2021, has ovided equipment worth USD 406 mn. Junta supremo Senior General Min Aung

Hlaing visited Russia last year

The Sukhois will significantly enhance aerial capability and cause additional civilian casualties. China remains the key stakeholder in Myanmar and is supporting the Junta as it has made major military and economic investments in Myanmar.

Russia supplied six Su30 air-

craft while six Burmese ele-

phants were sent to Moscow.

It eyes the rich minerals, oil, gas and hydropower. Its gas pipeline from Kyaukphu seat port on the Andaman Sea to Kunming in Yunnan provides Beijing access to the Indian Ocean. Gas pipelines are being supplemented by road and railway arteries. Along with Coco Ísland given on lease, the China-Myanmar Economic Corridor constitutes an alternative route to China's Malacca dilemma.

With 20,000 new recruits with Junta, Beijing has calculated that Resistance cannot defeat it. So Beijing-brokered cease-fires with EAOs in Kachin and Shan states and Kokang region in the north and also with MNDAA in January 2025. Beijing will also support Junta to hold elections in November 2025 giving it the fig-leaf of legitimacv.

### RBI's Repo Rate cut: A golden opportunity for homebuyers

With the RBI lowering the repo rate by 25 basis points, home loan borrowers stand to benefit from reduced EMIs, making homeownership more affordable

ny time is a good time when it comes **1** to buying a home. However, the recent repo rate cuts signal a lowering of interest rates in the future, thus, hinting at a possibly more stable economy and increased scope for real-estate investment. Home buyers in India are wondering whether they should consider purchasing a home following the recent repo rate cuts by the Reserve Bank of India (RBI).

The country's central bank recently lowered the repo rates by 25 bps from 6.5 per cent to 6.25 per cent. This marks the first rate cut

in five years by the Monetary Committee (MPC), which can result in significant savings for home loan borrowers.

#### Small and steady savings on EMIs Home loan applicants stand

to benefit from RBI's recent decision, as it will help them service loans at a lower cost.

This reduction in EMIs would also make homefor potential buyers. Let's illustrate this with an example. Suppose that you took a 20-year home loan of Rs 20 lakhs at an 8.75% interest rate. Your current monthly EMI would be somewhere around Rs

With the new rate, your monthly EMI drops to Rs 17,356, resulting in a total savings of Rs. 76,259.

If you maintain your current EMI payments, you ownership more affordable could pay off your loan 5

months earlier than originally planned. For those who are hesitant to enter the housing market due to high property prices and interest rates, this may be a good opportunity to take advantage of reduced borrowing costs. However, it is imperative to consider other factors such as market trends, location, and personal financial stability before making a decision.

Way to loan refinancing

Borrowers might feel that the savings from reduced repo rates are minimal when it comes to monthly EMI outgoings. As the saying goes, "A penny saved is a penny earned," and even a small saving on EMIs could contribute to larger savings in the long term. Additionally, borrowers with strong credit scores can take advantage of competitive refinance options. Since they are considered low-risk by lenders, they are most likely to secure lower interest rates on refinanced loans.

Win for the housing sector The RBI aims to stimulate the economy by making home financing more accessible. This can lead to increased demand in the housing sector, especially in areas where property prices have been sharply increasing due to infrastructure development and improved amenities. The reduction in the cost of borrowing can help mitigate some pressure from skyrocketing hous-

ing.

However, as noted in the editorial, this is likely only a fraction of the weapons still in the possession of warring groups. Despite this development, nothing substantial has been done to bring lasting peace to the state—except for the resignation of the Chief Minister, who was widely seen as responsible for the unfortunate turn of events. The 60,000 displaced individuals forced into the forests must be allowed to return to their homes and lead normal lives. If both the state and central governments had been genuinely committed to fostering peaceful coexistence among the groups, the situation would not have deteriorated so severely for so long. Even after major incidents—including the looting of arms, around 250 murders, women being paraded nude, and places of worship being ransacked—the government's inefficacy remained glaringly evident. Yet, it took an inordinate amount of time to secure the Chief Minister's resignation. President's Rule alone cannot bring about meaningful change, as it operates under directives from the Home Ministry, which itself has been exposed for its lack of a clear strategy. True peace will return only when an impartial and competent administration takes charge. Whether this probe will uncover deeper systemic failures or simply remain a high-profile legal battle remains to be seen. However, the controversy surrounding SEBI's regulatory actions has already sparked enough concerns among investors and market participants. Analysts believe that such legal battles could impact investor confidence, especially among foreign institutional investors who rely on SEBI's oversight for market transparency. As the case unfolds, it remains to be seen how the investigation will impact SEBI's credibility and its approach to future regulatory enforcement. #### **REIN IN SOCIAL MEDIA INFLUENCERS** Madam — In a recent ruling, the Supreme Court emphasized that individuals engaged in social media influencing or podcasting must uphold morality and decency in their content before broadcasting it. The Court stressed that such influencers must recognize their responsibility towards society. Creating humor through vulgar slang and offensive language does not contribute positively to society. Instead, it fosters a negative mindset, particularly in the younger generation (Gen Z). Striving to appear as a "cool dude" in front of an audience does not absolve influencers of their responsibilities as citizens. In his defense, Ranbir Allahabadia argued that his controversial statement was made purely in jest. Humor should not come at the expense of emotions or sensitivity. Instead, influencers should focus on fostering a respectful and thoughtful environment that contributes to a united society.

### **PURIFYING THE MIND, RESTORING THE EARTH**

If we truly wish to combat pollution, we must first cleanse our thoughts and correct spiritual imbalance

RAJYOGI BRAHMA KUMAR NIKUNJ JI

ost of us are very much aware of the word 'Pollution', be it a child, a youngster or an old person. However one could not contemplate the reasons or source from which this dreadful monster called pollution occurs. Today, globally every country is facing consequences of pollution, contamination or abuse of air, water, food & even Space on a very large scale, but they are not able to find a foolproof solution to this dangerous threat to humanity. Although many institutions & regulatory bodies have been established.

Today a fast-developing country like India stands poised on a pinnacle of wealth and power, yet we Indians live in a land of vanishing beauty, increasing ugliness, shrinking open spaces, and an overall environment that is diminishing daily by pollution noise and blight. So where does this take us? Would there be a solution to control or tackle pollution problems & save humanity? Well!! The answer lies with the ones who are posing this question, i.e. we the humans, YES! Over the years, while discussing deeply about cause & effect of pollution, we smartly avoid looking at the actual problem that's deeply rooted in the mental sphere rather than the sphere of matter. If we look up the dictionary meaning of the word pollution, we may find something like 'to destroy purity of; to contaminate'. However, we humans are only aware of the material pollution in the branches of the polluted tree & we have disregarded the seed or root of 'thought pollution' which gave growth to that tree. So without destroying the root basis of pollution, the source can never be purified. It won't be an exaggeration to say that the problem of environmental pollution is actually due to the pollution of man's mind which is full of selfishness, jealousy, greed, anger, etc. The problem of ecological imbalance is due to our mental imbalance, and the disequilibrium in nature is due to disequilibrium in man's mind. Another fact that is generally

unknown or is little realised is that the vibrations from a polluted mind contaminate or corrupt the atmosphere; they make it tense and vicious. Most of us make a mistake by thinking that our thoughts are invisible & psychic and hence they can't do anything, but actually, thoughts have both hands and legs, because one can control one's hand to rob nothing, control one's legs to kick nobody, but one can scarcely control one's thought without thinking as thought is too deep to be expressed, too strong to be suppressed, too fast to be drawn back, hence he who will not command his thoughts, will soon lose command of his actions.

The wars struggles and quarrels of mankind are very often caused by this. Deep thinking would reveal that most of the present global problems are due to thought pollution, for this pollution destroys a person's sense of being impartial, considerate and cooperative and makes him callous, inimical, violent-prone and vicious. It influences economics, politics, commerce, business, even friendship and all relationships

The ultimate solution to this problem lies in realising the self and also our relationship with other human beings. Remember !! Great men are those who see that the spiritual force is much stronger than the material force. Hence without a spiritual orientation of the relationship between man and man, moral and spiritual values cannot be brought into play or be sustained, and, in the absence of these core values, no problem can be solved for a considerable length of time. It is, therefore, essential for all of us to understand the real and intrinsic nature behind the mask or the garment of the body to set the direction right. If this is not done, then possibly science without spirituality may dangerously lead mankind to a nuclear catastrophe population explosion or environmental upheaval. So, let us use the powerful weapon of spiritual wisdom to cleanse our souls from thought pollution & survive in harmony with nature & its elements without any kind of disturbance whatsoever.

# Unlocking Punjab's export potential

With targeted policy support, infrastructure investment and global market integration, Punjab can play a transformative role in India's trade success story

ndia has vast industrial and agricultural capabilities across 800 districts, yet 40% of its merchandise exports originate from only 10 districts. Gujarat dominates this landscape with five key contributors: Jamnagar, Surat, Ahmedabad, Bharuch, and Kachchh. The other significant players include Mumbai and Pune in Maharashtra, Bengaluru in Karnataka, Kanchipuram in Tamil Nadu, and NOIDA in Uttar Pradesh. Alarmingly, Punjab home to a robust industrial base in textiles, bicycles, sports goods, engineering goods, tractors, agricultural implements and food processing—is conspicuously absent from this export powerhouse.

The 'One District-One Product' (ODOP) initiative was introduced to rectify this imbalance, but meaningful progress has yet to materialise. If India is serious about reaching its ambitious target of \$1 trillion in exports by 2030, it must expand its export landscape beyond this handful of

The next wave of growth will undoubtedly come from unlocking the potential of industrial hubs like Ludhiana, Jalandhar, Amritsar, Hoshiarpur and Mohali. These regions must receive robust, targeted policy support, a conducive environment and infrastructure development, and substantial financial support to enable Punjab's industries to compete with the

country's top export-driven districts. India's Global Export ChallengeIndia's share of global exports has stagnated for decades, hovering around 2% and currently at 1.8% as of 2024. Ranked 17th among the world's top exporters, India falls behind various developing nations like Mexico, which ranks 9th.

To achieve the goal of at least doubling India's merchandise export value from \$437 billion in FY 2023-24 to \$874 billion by FY 2030, a strategic overhaul is essential—one that prioritises the establishment of export hubs in underrepresented regions, particularly Punjab, entire of

The Imperative for a Decentralised **Export Strategy** 

Punjab accounts for a mere 2% of India's total exports, but this share holds immense growth potential. To unlock this potential, the 'Districts as Export Hubs' initiative must go beyond paper & policy discussions and be actively and aggressivepursuea. Ludhiana: The Unrivaled Textile and Bicycle Powerhouse Ludhiana dominates India's bicycle exports with an astounding 80% market share. However, India's presence in the global \$33.3 billion bicycle market is alarmingly low, standing at less than 1%, while China effortlessly commands 60%. Similarly, in the textiles, apparel, and hosiery sector—valued at \$1.7 trillion—India's share languishes at a mere 5%, compared to China's commanding 37%. With strategic branding, robust trade facilitation, and decisive policy support, Ludhiana is poised to become a global leader in these vital sectors.

With the correct branding micro, small, and medium enter-

and compliance, Punjab has the potential to tap into previously unexplored markets Tackling Key Export Challenges Head-On 1. Infrastructure and Logistics:

Access to ports is strategically essential to any state when engaging in international trade, as land-locked regions face the comparative disadvantage of high trade costs and hindrances in the freedom of transit from the seas. Punjab's landlocked status must not be a hindrance. The Amritsar-Kolkata Industrial Corridor (AKIC) needs to be expedited to enhance dry ports and logistics hubs under the Trade Infrastructure for Exports Scheme (TIES). Introducing state-owned wagons will be a game-changer for bolstering Punjab's exports and addressing the freight burdens asso-

ciated with shipping.

2. Cost of Industrial Land: Land prices in Ludhiana and Mohali are prohibitively high, ranging from Rs. 5-7 crore per acre, stifling expansion. Authorities must prioritise the allocation of vacant industrial plots in focal points and Panchayati Rajowned land for industrial use to establish a viable industrial land

3. Global Market Compliance: With 18% of India's exports directed toward the European Union (EU), Punjab's industries require substantial support to meet evolving international regulations, including the EU's carbon border adjustment mechanism and stringent deforestation laws.

bank

4. Leveraging Free Trade Agreements: Many exporters in Tier-2 and Tier-3 cities are currently unaware of India's FTAs. Local chambers and business federations must launch aggressive awareness campaigns to maximise these agreements among entrepreneurs.

prises (MSMEs) need targeted financial support and strong market linkages to thrive in global trade. District Export Promotion Councils(DEPCs) headed by respective deputy-commissioners (DCs) are underperforming as DCs are already overburdened with multiple administrative tasks, and dedicated senior officials to be assigned to formulate District Export Action Plans (DEAPs) to bolster MSMEs. 6. Promoting Geographical

**Indications (GIs):** Punjab's GI-tagged products, such as Basmati rice, Phulkari embroidery, Amritsari Papad, and Jalandhar sports goods, possess immense global potential. Establishing dedicated stalls at international airports and providing for a stall of the s ing financial backing for branding will amplify their presence in inter-

national markets.

Visit Bharat Demands Viksit Districts: India's ambitious export targets can only be realised through a decisive, decentralised approach centred around its more districts. With Punjab's rich industrial and agricultural heritage, it is positioned to emerge as a key export powerhouse. By fortifying district industries, enhancing trade infrastructure, and driving global market integration, Punjab will play a crucial role in India's export-led growth narrative.For India to achieve a truly 'Viksit Bharat', its districts must assume a more prominent role in export activities. This strategic shift will reshape India's global trade landscape and ignite widespread economic development and employment generation.

### Unmasking the financial networks threatening national security

Illicit financial flows drive disruptive activities by foreign-backed dubious NGOs, influencing policies and protests that impact India's growth and development

ndia is at a pivotal moment in its history, reclaiming its **⊥**status as a global leader. Our economic resilience democratic foundation, and cultural unity have driven our progress, but hidden forces seek to undermine this advancement. This battle is not fought with conventional weapons but through financial manipulation, foreign influence, and strategic disruptions disguised as humanitarian aid, social activism, and

policy advocacy. Foreign-funded networks have infiltrated India's socio-political fabric, threatening our sovereignty from within.One major threat is illicit financial flows fueling disruptive activities in India. Nepal's recent grey listing by the Financial Action Task Force (FATF)

highlights how money laundering networks in South Asia pose a significant security risk. Nepal has become a hub for financial irregularities, increasing the possibility of unregulated funds entering India through informal channels. This is not just an economic issue—it is a matter of national security, stability, and control over our developmental path.For years, foreign-backed mobilize protests, shape media

organizations such as USAID, DFID, Open Society Foundations, and the Ford Foundation have funneled substantial financial resources into India under the pretext of supporting human rights and social causes.

While genuine welfare efforts are welcome, evidence suggests that some of these funds have been strategically diverted to disrupt India's growth, create internal discord, and propagate anti-India narratives globally. A glaring example is the farmers' protests, which began as a movement for agrarian reforms but quickly escalated into a global propaganda campaign. Foreign lobbying groups, anti-India activists, and Khalistani supporters exploited the movement to

narratives, and turn a domestic issue into an international crisis. Financial audits have exposed a complex network of foreign funding behind this orchestration. This raises the question—are

these movements truly in India's interest, or are they calculated efforts to delay our growth? The infiltration of foreign narratives into India's civil society directly threatens our self-reliance and policymaking sovereignty. While India welcomes foreign investments aimed at development and genuine social progress, we cannot allow our policies, protests, or progress to be dictated by external forces with hidden agendas.

The FATF's decision to place Nepal on its grey list is a direct consequence of its weak finan-

cial regulations, unmonitored cross-border transactions, and insufficient anti-money laundering measures.

These financial loopholes have created a shadow economy, facilitating illicit funding that could have serious implica-tions for India's security.India shares a 1,751 km-long porous border with Nepal, allowing free movement of people and goods. While this has strengthened economic and cultural ties, it has also enabled smug-

gling, unaccounted money transfers, and potential terror financing. Intelligence agencies have flagged instances where hawala networks in Nepal were used to channel funds into India to support destabilizing activities.

One major concern is Nepal's financial exemption allowing investments in infrastructure without disclosing sources of funds, making it a conduit for dubious transactions. While FATF's grey listing does not impose sanctions, it signals global financial institutions that Nepal is vulnerable to illegal money transfers, potentialtriggering reduced foreign investments and regional financial instability.

Recognizing these threats, the Modi government has taken decisive action to curb foreign ensure full transparency and

interference.

Over 20,700 NGOs have lost their FCRA (Foreign Contribution Regulation Act) licenses due to financial irregularities, undisclosed foreign funding sources, and misuse of contributions. The tightening of FEMA (Foreign Exchange Management Act) regulations ensures greater scrutiny of financial transactions linked to activism, political lobbying, and potential terror financing. Collaboration with FATF, INTERPOL, and global security agencies has enhanced India's ability to track crossborder fund flows and dismantle illegal financial networks fueling unrest.

Strengthening oversight on foreign-funded NGOs, think tanks, and advocacy groups to

Enhancing security measures along the Indo-Nepal border to curb illicit financial transactions and smuggling networks. Promoting domestic funding mechanisms to empower local organizations and grassroots initiatives, reducing reliance on external financial aid. Our civil society is strong enough to drive change through indigenous resources and a vision rooted in national interests. The need of the hour is self-reliance-strengthening grassroots organizations and building an Indian developmental model based on internal merit rather than foreign

China on Tuesday retaliated against US President Donald Trump's imposition of a second round of 10 per cent tariffs on its export by slapping an additional 15 per cent tariff on American goods and initiated legal action against Washington at the WTO.

China stands ready to work with the US to address each other's concerns through dialogue and consultation China will impose additional

tariffs on some products imported from the United States, effective from March 10, the China's Customs Tariff Commission said Tuesday.

An additional 15-per cent tariff will be imposed on imported chicken, wheat, corn and cotton originating from the US, it said in a statement.

Sorghum, soybeans, pork, beef, aquatic products, fruits, vegetables and dairy products will be subject to an additional 10-per cent tariff.

Additionally, China decided on Tuesday to add 10 US firms to the country's unreliable entity

include a number of compa-nies linked to defence and security besides AI, aviation, IT and "dual-use" items that carry both civilian and military applications.

Also, China has initiated legal action against the US under the World Trade Organisation (WTO) dispute settlement mechanism regarding the latter's latest tariff increase on Chinese products, the Ministry of Commerce said Tuesday. China's retaliatory actions followed after the US imposition of an additional 10-per cent tariff on products imported from China, effective from

The unilateral imposition of tariffs by the US undermines the multilateral trading system, increases the burden on American businesses and consumers, and erodes the foundation of China-US economic and trade cooperation, the commission said.

Trump's announcement of a second round of 10 per cent tariffs on Chinese exports to the US coincides with the opening of China's annual parliament session.

The twin sessions consisting of the Parliament, the National People's Congress and the advisory council, the China People's Political Consultative Conference (CPPCC) were

While retaliating, China, however, urged the US to work with it to resolve trade disputes through equal-footed consultation. Starting just past midnight, imports from Canada and Mexico are now to be taxed at 25 per cent, with Canadian energy products subject to 10 per cent import duties.

The 10 per cent tariff that Trump placed on Chinese imports in February was doubled to 20 per cent, and Beijing retaliated Tuesday with tariffs of up to 15 per cent on a wide array of US farm exports.

It also expanded the number of US companies subject to export controls and other restrictions by about two dozen.

Canadian Prime Minister Justin Trudeau said his country would slap tariffs on more than USD 100 billion of American goods over the course of 21 days. Mexico didn't immediately detail any retaliatory measures

The US president's moves raised fears of higher inflation and the prospect of a devastating trade war even as he promised the American public that taxes on imports are the easiest path to national prosperity. He has shown a willingness to buck the warnings of mainstream economists and put his own public approval on the line, believing that tariffs can fix what ails the country. "It's a very powerful weapon that politicians haven't used because they were either dishonest, stupid or paid off in some other form," Trump said Monday at the White House.

"And now we're using them." The Canada and Mexico tariffs were supposed to begin in February, but Trump agreed to a 30-day suspension to negotiate further with the two largest US trading partners. The stated reason for the tar-

iffs is to address drug trafficking and illegal immigration, and both countries say they've made progress on those issues. But Trump has also said the tariffs will only come down if the US trade imbalance closes,

a process unlikely to be settled on a political timeline.

The tariffs may be short-lived if the US economy suffers. But Trump could also impose more tariffs on the European Union, India, computer chips, autos

and pharmaceutical drugs. The American president has injected a disorienting volatility into the world economy, leaving it off balance as people wonder what he'll do next.

"It's chaotic, especially compared to the way we saw tariffs rolled out in the first (Trump) administration," said Michael House, co-chair of the international trade practice at the Perkins Coie law firm. "It's unpredictable. We don't know, in fact, what the president will do." Democratic lawmakers were quick to criticize the tariffs, and even some Republican senators raised alarms.

Sen Susan Collins, R-Maine, said she's "very concerned" about the tariffs going into effect because of her state's proximity to Canada.

"Maine and Canada's economy are integrated," Collins said, explaining that much of the state's lobsters and blueberries are processed in Canada and then sent back to the US. The world economy is now

caught in the fog of what appears to be a trade war. Even after Trump announced Monday that the tariffs were going forward, Canadian officials were still in touch with their US counterparts.

"The dialogue will continue, but we are ready to respond," Canadian Defence Minister Bill Blair said in Ottawa as he went into a special Cabinet meeting on US-Canada relations. "There are still discussions taking place."

Shortly after Blair spoke, Trudeau said Canada would impose 25 per cent tariffs on USD 155 billion Canadian (USD 107 billion US) worth of American goods, starting with tariffs on USD 30 billion Canadian (USD 21 billion US) worth of goods immediately and on the remaining amount on American products in three weeks.

"Our tariffs will remain in place until the US trade action is withdrawn, and should US and ongoing discussions with provinces and territories to pursue several non-tariff mea-

sures," Trudeau said. The White House would like to see a drop in seizures of fentanyl inside the United States,

not just on the northern and southern borders Administration officials say that seizures of fentanyl last month in everywhere from Louisiana to New Jersey had

ties to foreign cartels. Damon Pike, technical practice leader for customs and trade services at the tax and consulting firm BDO, suggested the responses of other countries could escalate trade tensions and possibly increase the eco-

nomic pressure points. 'Canada has their list ready," Pike said. "The EU has their list ready. It's going to be tit for tat. The Trump administration has suggested inflation will not be as bad as economists claim, saying tariffs can motivate foreign companies to open factories in the United States.

On Monday, Trump announced that Taiwan Semiconductor Manufacturing Company, the computer chip-maker, would be investing USD 100 billion in domestic production. Still, it can take time to relocate factories spread across the world and train workers with the skills they need. Greg Ahearn, president and CEO of The Toy Association,

said the 20 per cent tariffs on Chinese goods will be "crippling" for the toy industry, as nearly 80 per cent of toys sold in the US are made in China. There's a sophistication of manufacturing, of the tooling," he said. "There's a lot of handcrafting that is part of these toys that a lot of people don't understand ... the face painting, the face masks, the hair weaving, the hair braiding, the cut and sew for plush to get it to look just so. All of that are very high hands, skilled labour

For a president who has promised quick results, Ahearn added a note of caution about how quickly US factories could match their Chinese rivals. "That can't be replicated

### **Japan's Prince Hisahito says** he'll balance royal duties, univ studies

**PTI** ■ TOKYO

Tapan's Prince Hisahito, the second in line to the throne, has held a debut news conference, telling reporters he would try to balance official duties and his university studies and research about the dragonfly. Hisahito turned 18 last September, becoming the first male royal family member to reach adulthood in almost four decades in Japan. It was a significant development for a family that has ruled for more than a millennium but faces the same existential problems as the rest of the nation — a fastaging, shrinking population.
The prince said he would follow the good examples of his uncle, Emperor Naruhito, and other elder members of the imperial family, while pursuing ning next month.

Speaking to reporters at the Akasaka Estate residence in Tokyo on Monday, Hisahito said he believes the role of the emperor as a symbolic figure is someone who "always thinks of the people and stays close to

them Hisahito is second in line to Japan's Chrysanthemum Throne after his father, Crown Prince Akishino.

The prince, who turned 18 on Sept 6, is the youngest of the 16-member imperial family and one of only five men, including former Emperor Akihito. The 1947 Imperial House Law only allows a male to succeed to the throne. Female royal members who marry commoners lose their royal status.

Hisahito's older cousin Princess Aiko — the only child of Naruhito and his wife Masako — is seen as the public's favourite, though the law for now bars her from becoming an empress, despite being in a direct line of descent.

Japan's conservative government wants to keep the royal succession male-only, though it is looking for a way to allow women to keep royal status if they marry commoners. Hisahito plans to study biology at the Tsukuba University near Tokyo, starting in April. He hopes to focus his studies on dragonflies.

Apart from researching dragonflies and other insects, Hisahito told reporters he is also interested in studying ways to protect insect populations in urban areas. His other interests lie in growing tomatoes and rice on the palace compound. Because Japanese royals have to stay away from politics, members of the Imperial Family tend to study biology, literature and arts. Naruhito's specialty is water transport while his father, Emperor Emeritus Akihito who abdicated in 2019, researches fish. Hisahito's father, Crown Prince Akishino, is an expert of chickens.

### Lebanon, S Arabia call At least 3 Serbian lawmakers hurt as smoke bombs, flares thrown in parl

Belgrade (PTI): At least three Tuesday, one of them seriously, after chaotic scenes in Serbia's parliament, during which smoke bombs and flares were thrown, further fuelling political tensions in the Balkan country. Lawmakers were scheduled to vote on a law that would increase funding for university education, but opposition parties said the ruling majority was also planning to approve dozens of other deci-

They said this was illegal and that lawmakers should first confirm the resignation of Prime Minister Milos Vucevic

and his government. Chaos erupted about an hour after the parliamentary session started, with opposition lawmakers blowing whistles and holding up a banner reading "Serbia has risen so the regime would fall!" Hundreds of opposition supporters rallied outside the parliament building during the session.

Video footages from the assembly hall showed a clash first between lawmakers and later flares and smoke bombs being

thrown. Serbian media said eggs and water bottles also were thrown. Officials later said three persons were injured in the disturbance.

Parliament speaker Ana Brnabic, who accused the opposition of being a "terrorist gang", said one of those injured was in a serious condition. The incident reflects a deep political crisis in Serbia where monthslong anti-corruption protests have rattled a populist government.

Vucevic resigned in January as the government faced protests over the collapse in November of a concrete train station canopy in the Serbia's north that killed 15 people and which critics blamed on rampant corruption. Parliament must confirm the prime minister's resignation for it to take effect. A rise in education funding has been one of the demands by Serbia's protesting students who have been a key driving force behind almost daily street

Novi Sad. Opposition parties have insist-

ed that the government has no authority to pass new laws. Leftist lawmaker Radomir Lazovic said the opposition was ready to support the passing of the student-requested education bill, but not the other decisions listed at the

assembly agenda. Lazovic said "we can only discuss the fall of the government". He said the only way out of the current crisis would be a transitional government that would create conditions for a free a fair election, a demand that the ruling populists have repeatedlv rejected.

Serbia's increasingly authoritarian President Aleksandar Vucic and his ruling right-wing Serbian Progressive Party have imposed a firm grip on power in the past decades despite formally seeking European Union membership. Many in Serbia believe the fatal canopy collapse was the result of sloppy work and a disregard of safety regulations because of government corruption.

# Pope Francis no longer requires mechanical ventilation

Lebanon.

Dope Francis had stabilised enough on Tuesday after two respiratory crises to be taken off noninvasive mechanical ventilation and resume receiving just high flows of supplemental oxygen via a nasal tube to help him breathe, the Vatican said.

Francis, 88, woke up and was resuming respiratory physiotherapy after sleeping through the night, the Vatican said. The Vatican said as of Tuesday

morning, Francis no longer needed to wear the mechanical ventilation mask that covers his nose and mouth to pump oxygen into his lungs.

He had to resume using the mask on Monday after suffering two respiratory crises that

required doctors to extract copious" amounts of mucus from his lungs Francis rested early Tuesday

after he suffered further setbacks in his fight against double pneumonia: two new acute respiratory crises that required him to resume using noninvasive mechanical ventilation to breathe

In its early Tuesday update, the Vatican said: "The pope slept through the night, now rest continues.

Francis suffered the two crises Monday. Doctors extracted "copious" amounts of mucus that had accumulated in his lungs, the Vatican said in a late update. They performed two bronchoscopies, in which a camera-tipped tube was sent into his airways with a sucker

at the tip to suction out fluid. The 88-year-old pope, who has chronic lung disease and had part of one lung removed as a young man, was put back on noninvasive mechanical ventilation: a mask that covers his nose and mouth and pumps oxygen into the lungs. Francis remained alert, ori-

ented and cooperated with medical personnel, the Vatican said. The prognosis remained guarded, meaning he was not out of danger Doctors didn't say if he

remained in stable condition, though they referred to the crises in the past tense, suggesting they were over. The crises were a new setback

than two-week battle by the

The Vatican said the mucus

that had accumulated in Francis' lungs was his body's reaction to the original pneumonia infection and not a new infection, given laboratory tests don't indicate any new bacteria. Dr John Coleman, a pulmonary critical care doctor at Northwestern Medicine in Chicago, said the episodes were more concerning than the l ast one on Friday, in which Francis had a coughing fit, inhaled some vomit that needed to be extracted and then was put on the noninvasive mechanical ventilation for a day and then didn't need it anymore.

The use of bronchoscopies reflects a worrying level of mucus and phlegm in the lungs, Coleman said. "The fact Francis has not been intubated

that they had to go in there and remove it manually is concerning, because it means that he is not clearing the secretions on his own," he said.

"He's taking little steps forward and then steps back," said Coleman, who is not involved in Francis' care.

Francis, who is not physically active, uses a wheelchair and is overweight, had been undergoing respiratory physiotherapy to try to improve his lung function. But the accumulation of the secretions in his lungs was a sign that he doesn't have the muscle tone to cough vigorously enough to expel the fluid. Doctors often use noninvasive ventilation to stave off an intubation, or the use of invaed any advance directives about the limits of his care if he declines or loses consciousness. ## **EU ponders 800 bn euro** plan to beef up defences

### **BID TO COUNTER POSSIBLE US DISENGAGEMENT**

**PTI** BRUSSELS

The chief of the European Union's executive on Tuesday proposed an 800 billion-euro (USD 841 billion) plan to beef up the defences of EU nations, aiming to lessen the impact of potential US disengagement and provide Ukraine with military muscle to negotiate with Russia following the freeze of US aid to the embattled nation.

European Commission President Ursula von der Leyen said the massive "REARM Europe" package will be put to the 27 EU leaders. They are holding an emergency meeting in Brussels on Thursday following a week of increasing political uncertainty from Washington, where President Donald Trump questioned both his alliance to the continent and the defence of Ukraine.

"I do not need to describe the grave nature of the threats that we face," von der Leven said. Her plan had already been in the works before Trump's decision early Tuesday to pause military aid to Ukraine.

Key to the quandary of EU nations has been an unwillingness to spend much on defence over the past decades as they hid under the US nuclear umbrella and were hurt by a sluggish economy, which creates challenges for a quick ramp-up of such spending. It increasingly has left them on the world's diplomatic sidelines. **How it would work:** Most of the money Von der Leyen is talking about, would come from loosening the fiscal con-straints the EU puts on bud-getary spending to "allow

### Investigators to question driver who rammed car into crowd in Germany

Mannheim (PTI): Investigators on Tuesday will question a driver who allegedly rammed a cation of an extremist or religious background at the moment. The motivation could car into a crowd in the southwestern German city of Mannheim, killing two people and injuring 11. Andreas Stenger, head of the State Criminal Police Office, told German news agency dpa that police hope the interview with the perpetrator will lead to information about a motive for Monday's attack.

center on Tuesday to honour the victims. "It's where I live, the centre of my life," a tearful Stefini told dpa at the impromptu memorial. The suspect is a 40-year-old German man from the nearby state of Rhineland-Palatinate who was detained and is in a hospital after being injured, State Interior Minister Thomas Strobl of Baden-Wurttemberg, which includes Mannheim, told dpa on Monday.

Strobl later told reporters in Mannheim that "as far as the specific motivation of the crime is concerned, we have no indigious background at the moment. The motivation could rather be based in the person of the perpetrator himself." German police and prosecutors

said Monday at a joint news conference that the driver intentionally rammed his car into people and is being investigated for murder and attempted murder. Five of the 11 injured were seriously hurt. Police and prosecutors said the driver shot himself in the mouth when he was arrested and had to undergo medical

treatment at a hospital.

While the driver did not seem to be ideologically motivated, prosecutors said that the man, whose identity was not revealed in line with German privacy rules, has several previous convictions. He served a short prison sentence for assault more than 10 years ago, and was convicted for drunken driving. He had also been investigated for a hate speech offense on Facebook in 2018, for which he was fined, prosecutors said without giving further details.

### Kim's sister threatens response to US carrier deployment in S Korea

The powerful sister of North Korean leader Kim Jong Un on Tuesday threat-ened to launch high-profile provocations in response to the arrival of a US aircraft carrier in South Korea and other US military activities, which she slammed as "confrontation hysteria of the US and its stooges".

The warning by Kim Yo Jong implies North Korea will likely ramp up weapons testing activities and maintain its confrontational posture against the US, though President Donald Trump has said he would reach out to Kim Jong Un to revive diplo-

In a statement carried by state media, Kim Yo Jong accused the US of clearly showing "its most hostile and confrontational will" to North Korea with the deployments of the USS Carl Vinson and other powerful US military assets and US-South Korean military drills this year.
"The DPRK is also planning

option for increasing the actions threatening the security of the enemy at the strategic level to cope with the fact that the deployment of US strategic assets in the Korean Peninsula has become a vicious habit and adversely affects the security of the DPRK," she said, using the acronym of North Korea's official name, the Democratic People's Republic of Korea. Her statement suggests North Korea may test-launch inter-

continental ballistic missiles designed to strike the mainland US or other powerful missiles that would target US military bases in the region, observers say. South Korea's Defence

Ministry warned later it's ready to repel any provocations by North Korea based on a solid military alliance with the US. A ministry statement called Kim Yo Jong's statement "sophistry" meant to justify its nuclear development and future provocations. On Sunday, the USS Carl

Vinson and its strike group arrived in South Korea, the latest temporary deployment

of a US strategic asset aimed at displaying the firmness of the US-South Korean military alliance in the face of North Korean threats and boosting interoperability of the allies combined assets. The US carrier's arrival came four days after North Korea conducted cruise missiles, its fourth missile test event this year. North Korea views arrivals of

such powerful US military assets in South Korea as major security threats and often responds with missile tests. North Korea hasn't directly responded to Trump's overture but alleged US-led hostilities against North Korea have intensified since the start of Trump's second term in January.

Experts say Kim Jong Un won't likely embrace Trump's outreach anytime soon as he is now focusing on his support of Russia's war against Ukraine with supply of weapons and troops. They say Kim could consider returning to diplomacy with Trump when he thinks he cannot maintain his country's current booming cooperation with Russia.

# New model bilateral investment treaty tailored for global investment trends: CEA

Thief Economic Adviser V CAnantha Nageswaran on Tuesday said the new model text for bilateral investment treaty (BIT) will be better aligned to the demands of a dynamic global investment environment, safeguarding India's sovereign

rights and regulatory space. Addressing a post Budget webinar 2025 on the theme of 'Making India Investment Friendly', he said the BIT framework is being revised to reflect modern challenges.

Almost 10 years have passed since the last review of India's model BIT and since then, the global investment ecosystem international jurisprudence have evolved significantly, he said.

Nageswaran said investors now

their investments, especially in emerging economies, and this has necessitated an update of the model BIT to align it with international norms, while ensuring that the country attractive investment destination, especially medium enterprises

"The new model BIT therefore will be more attuned to the demands of a dynamic global investment environment. At the same time, we will reflect India's sovereign rights and the importance of regulatory space so that public policy priorities are not constrained by international legal obligations," Nageswaran said.

Finance Minister Nirmala Sitharaman in her 2025-26 Budget speech said that to encourage sustained foreign

'first develop India', the current model BIT will be revamped and made more investorfriendly.

The announcement assumes significance as only a few countries have accepted the existing model tax treaty, and most of the developed nations expressed their reservations on the tax with regard to provisions like resolution of disputes.

Nageswaran also said that foreign investment plays a crucial role in the economic growth and development, and "we are a current account deficit (CAD) country, so we need both portfolio and direct investments".

The bilateral investment treaties provide a legal framework to protect foreign investments, especially for small and medium enterprises, while offering safeguards like protection against and expropriation treatment.

Last month, Sitharaman had said that going forward the bilateral investment treaties should capture national interest in relation to regulatory powers and strengthen the guidance for arbitrators resolving disputes.

She said the issues related to BIT are unique to the sovereign and hence BIT should be negotiated on a standalone basis rather than as a part of a Free Trade Agreement (FTA) agreement. India signed its first BIT with

the United Kingdom in 1994 and most recently, two more bilateral investment treaties in 2024 with UAE

"Initially, the BITs were focused on investor protection. Over time, many countries, including India, have realised the importance of balancing investor protection with state sovereignty. The goal is to safeguard national interest while encouraging foreign investment," he said adding "it is a balancing act".

Presently, India is negotiating a BIT with the United Kingdom (UK), Saudi Arabia, Qatar, and the European Union (EU).

FDI inflows into India have crossed the \$1 Trillion milestone in the April 2000-September 2024 period, firmly establishing the country's reputation as a safe and key destination investment

### Centre penalises Reliance for missed battery cell plant deadline

PTI ■ NEW DELHI

The government has slapped a penalty on a unit of Reliance Industries Limited for failing to meet the deadline for setting up a battery cell plant for which it was granted production-linked incentives, the firm said on Tuesday. In a stock exchange filing,

Reliance said its step-down subsidiary, Reliance New Energy Battery Storage Ltd on March 3 received "a letter from the Ministry of Heavy Industries levying liquidated damages at the rate of 0.1 per cent of the performance security (₹50 Crore) for each day of delay from January 1,

The penalty was for the "delay in achievement of milestone one under the programme agreement executed with MHI in connection with five GWh manufacturing Performance-Linked Incentive

Scheme Advanced Chemistry Cell," it said. The liquidated damages or penalty computed till March 3,

2025 was ₹3.1 Crore. "RNEBSL has requested for an extension of time for achievement of the said

milestone one," it said. The firm, however, neither disclosed the reasons for the delay nor the new timelines for

meeting the target. RNEBSL had in 2022 signed

an agreement to build 10 gigawatt-hour (GWh) battery capacity with productionlinked incentives for an

estimated \$400 Million. The contract was part of government initiatives to get domestic manufacturing for a new energy supply chain developed in India.

Besides RNEBSL, Rajesh Exports and the unit of Ola Electric Mobility Ltd too had won bids to build the battery cell plants.

Manufacturers were eligible for ₹181 Crore worth of production-linked incentives on meeting milestones for the project that sought to create a cumulative 30 GWh capacity of advanced chemistry cell battery storage.

The firms winning the PLI were required to achieve a 'committed capacity', along with local value addition of 25 per cent within two years of the agreement, and 50 per cent within five years.

had previously indicated the second half of 2026 as the timeline to launch operations at its battery Gigafactory in Jamnagar, Initially, the plant is to

concentrate on assembling Energy Storage Systems (BESS) catering to utility-scale, residential, commercial, and mobility Government seeks \$2.81 billion from Reliance, BP

The government has slapped a \$2.81 Billion (about ₹24,500 Crore) demand notice on Reliance Industries Limited and its partners, including BP Plc for gains made from producing and selling natural gas that may have migrated from neighbouring block of state-owned ONGC

This follows the Delhi High Court's decision on February overturning international arbitration tribunal ruling that held the duo not responsible for paying any compensation for the gas they produced and sold which had allegedly migrated from adjoining fields.

"Consequent upon the Division Bench judgment, the Ministry of Petroleum and Natural Gas has raised a demand of \$2.81 Billion on the PSC contractors namely Reliance Industries Ltd, BP Exploration (Alpha) Ltd and NIKO (NECO) Limited," Reliance said in a stock exchange filing. Originally, Reliance held 60 per

cent interest in Krishna Godavari basin deep-sea block KG-DWN-98/3 or KG-D6 while BP had 30 per cent and Canadian firm Niko held the remaining 10 per cent.

Subsequently, Reliance and BP took over Niko's interest in the production sharing contract (PSC) and now hold 66.66 per cent and 33.33 per cent,

The government had in 2016 sought \$1.55 Billion from Reliance and its partners for the quantum of gas that had migrated to its block KG-D6 from adjoining fields of ONGC.

Reliance contested the claims before an arbitral tribunal which in July 2018 upheld that it was not obliged to pay any compensation.

The government filed an appeal and in May 2023, a single judge of Delhi High Court upheld the arbitration award, dismissing the government's appeal. A division bench of the Delhi High Court last month set aside the single judge order, ruling against Reliance and its partners.

Reliance said the letter of demand was received by the company on March 3, 2025.

"The company is legally advised that the Division Bench judgment and this provisional demand are unsustainable. The company is taking steps to challenge the judgment of the Division Bench of Hon'ble Delhi High Court," it said. "The company does not expect

any liability on this account," it

Reliance had previously said that it would appeal the decision in the Supreme Court. The dispute dates back to July 2013 when Oil and Natural Gas Corporation

connectivity of its KG-DWN-98/2 (KG-D5) and G-4 blocks with that of Reliance's KG-D6. It felt that at least four wells that Reliance drilled on the borderline with KG-D5 may

On September 10, 2014, the Delhi High Court disposed-off ONGC's petition and directed the government to take a decision, after it received a report from an independent panel set up by ONGC and

Global consultant DeGolyer and Mac Naughton (D and M) was appointed to carry out a third-party study.

In its final report dated November 19, 2015, D and M concluded inter-alia that "the integrated analyses indicated connectivity and continuity of the reservoirs across the blocks operated by ONGC and Reliance.'

The report quantified the volume of gas migrated from Godavari PML and KG-DWN-98/2 to KG-DWN-98/3 block and respective production of gas from migrated volumes till March 31, 2015. After submission of the D&M report, the government constituted a single member committee on December 15, 2015, composed of former Chief Justice of Delhi The government also pressed

"to quantify the unfair enrichment" by Reliance.

The committee concluded that the Government of India, and not ONGC, is entitled to claim restitution from Reliance for the unjust benefit it received and unfairly retained. ONGC has no locus standi to

bring a tortious claim against Reliance for trespass or conversion since it does not have any ownership rights or possessory interest in the natural gas. All mineral resources are the property of the government of India. Using Shah's report, the government asked ONGC to

step aside and took over the The Ministry of Petroleum and

Natural Gas (MoPNG) in a November 4, 2026 order sought disgorgement from Reliance and its partners, demanding \$1.47 Billion from the partners for producing in seven years ending March 31, 2016 about 338.332 million British thermal units of gas that had seeped or migrated from ONGC's blocks into their adjoining KG-D6 in the Bay of Bengal.After deducting \$71.71 Million royalty paid on the gas produced and adding an interest at the rate of LIBOR plus two per cent, totalling \$149.86 Million, a total demand of \$1.55 Billion was made on Reliance, BP and

of additional profit petroleum after certain costs were disallowed because of KG-D6 output being lower than the

Reliance and its partners on November 11, 2016, slapped an arbitration notice. In July 2018, the international

arbitration tribunal rejected the government's claim. The threemember panel by a majority of 2-1 also awarded \$8.3 Million compensation to the three partners. The government challenged

the arbitration award before a single bench of Delhi High Court, seeking it be set aside as it "strikes at the heart of the public policy and has given a premium to a contractor (Reliance) that has amassed vast wealth by committing an insidious fraud as well criminal offence.

But there is little to separate the two sides. Both are evenlymatched in most departments but the Proteas look to be slightly ahead on the bowling front because of variety. The two teams have enough firepower in their batting line-ups and have quality fielders but the contest is expected to be decided by the spinners.

Although the pitches here are a bit on the slower side but they haven't spun as much as the surfaces in Dubai and it will be interesting to see how the spinners of both the teams fare.

The 44-run loss to India in their last group match notwithstanding, New Zealand will take confidence from their win over South Africa in the tri-series here last month.

Recently, New Zealand successfully chased 305 against South Africa here and then went on to win the tri-series, beating Pakistan in the final, and senior batter Tom Latham feels those experiences will hold them in good stead.

Yeah, the (South Africa) team that we played potentially will be slightly different, they had a lot of guys that that weren't in that side. They were still playing in their SAT20 back in South Africa so will be slightly different. "But I guess from our point of

view, we'll lean back on those experiences of Lahore in playing against South Africa," Latham had said.

"We'll do everything that we do leading up to a game. It's obvious-

Mumbai Indians will not face

ly going to be a reasonably quick turnaround, but it is what it is. And, we'll be looking forward to the challenge of a semifinal," he added referring to the hectic travel schedule. New Zealand were in Dubai on Sunday to play against India and headed to Lahore the next morning. Latham has been New Zealand's

best batter so far with 187 runs from three matches, but Kane Williamson's return to form with a classy 81 against India also augurs well for the Kiwis.

On the bowling front, Matt Henry stood out and is currently the highest wicket-taker with eight scalps and has good support from Will O'Rourke (six wickets). In skipper Mitchell Santner, Michael Bracewell, Rachin Ravindra, Glenn Phillips and Mark Chapman, New Zealand boast of a good spin attack. South Africa too are in red-hot

form. The Proteas have fielded one of their most prolific squads in the tournament and have all their bases covered

### South Africa has more class than NZ: Ponting

**PTI** ■ LAHORE

South Africa have a "bit more class and power" in their lineup, which makes them favourites in the Champions Trophy semifinal against New Zealand, feels Ricky Ponting, though the Australian great added that if someone like Kane Williamson comes to the party he could get the job done for the Black Caps.

New Zealand are coming into the knockouts on the back of a big defeat against India in Dubai, while South Africa are on a roll following their massive seven-wicket win against England in the group stage.While momentum could play a big role in the contest, Ponting said with a deep batting line-up, just like India, South Africa enjoy an edge.

"If I look at both the sides, I

think there's that little bit more

class in the South African line-

up. They bat deep. I think they

might have a little bit too

much power for New

Zealand," Pointing opined on ICC Review on Tuesday. "I'm actually going with South Africa (to win the contest) as much as I've praised New

Zealand," he added.

The former Australian captain added that New Zealand toporder batter Williamson will have to play a leading role in the contest as every team relies on its big players to guide

them in crunch games. "Williamson, I think, needs to make runs for them in this game. Every team needs their big players standing up in big moments. Big games mean big names. It doesn't get bigger than the Champions Trophy semifinals. And, Williamson is a big-game player, he will understand the enormity of his role going into the game and I won't be surprised if he gets the job done," Ponting said. Williamson, after hardly making any contribution against Pakistan (1) and

Bangladesh (5), struck a 120-

ball 81 against India in the

final group game, which would have given him some final confidence.

However, Ponting feels the likes of opener Ryan Rickelton, skipper Temba Bavuma, Aiden Markram, David Miller and Heinrich Klaasen could make things difficult for the Kiwis. (Klaasen) important because he is such a dangerous player of spin bowling. He's such a great, clean hitter of spin. He is important to the middle order but South Africa bat deep like India. And, with a world-class all-rounder like Marco Jansen obviously Markram, (Temba) Bavuma,

"I think Klaasen has been the No.1 T20 batter for long and if he brings that sort of stuff to the 50-over game. If he goes in around the 30-over mark and South Africa are 2-3 down, he can be then truly dangerous," he said.

PTI LEVERKUSEN (GERMANY)

Get ready for games four and five this season in one of the most dynamic rivalries in European soccer. Bayer Leverkusen heads to Bayern Munich in the Champions League round of 16 on Wednesday hoping to derail an otherwise successful first season for Bayern coach Vincent Kompany.

"Of course this game's a big one, it's intense when we play each other," Leverkusen wing back Jeremie Frimpong told The Associated Press in a recent interview.

Leverkusen and Bayern have already met three times this season. Leverkusen knocked Bayern out of the German Cup but two draws in the Bundesliga helped Bayern move closer to recovering the

Bundesliga Leverkusen won last season in a major upset. Less than three weeks have passed since their last encounter, a tense 0-0 draw in which Xabi Alonso's Leverkusen shut Bayern's forwards out of the game and

Alonso's personal record against Bayern is one that few coaches can boast — three wins and three draws for a total six games unbeaten in all competitions. Some of the coach's best moments in charge have come with surprises against tactical Bayern in big games.

Still, Frimpong isn't putting much faith in that unbeaten streak. "It's nice to say, but for me personally, it's nothing,'

It is well known that he makes up for it with his superior calculation skills, and much will depend on it especially against Shankland who also leaves no stone unturned in trying to carve out a niche for himself.

Following the contest against Shankland, Praggnanandhaa will have white pieces against Quang Leim and Wei Yi while in the last round he is pitted against the super-solid Giri. For Aravindh, the road could be slightly easier as he has only the bottom field to compete against. In the seventh round, the Indian will play Giri, followed by David Navara of the Czech Republic before finally taking on Gurel Ediz of Turkey in his last

round. In the Challengers section, the lone Indian, Divya Deshmukh has got 1.5 points. She will try to gain some important rating points in the last four rounds, which will help her regain some confidence after the losses in the Tata Steel tournament earlier this month.

Pairings (Round 6): Sam Shankland (USA, 2) vs R Praggnanandhaa (Ind, 3.5); Aravindh Chithambaram (Ind, 3.5) vs Quang Leim Le (Vie, 2.5); Wei Yi (Chn, 2.5) vs Gurel Ediz (Tur, 2); Nguyen Thai Dai Van (Cze, 2) vs David Navara (Cze, 2); Vincent Keymer (Ger, 2.5)vs Anish Giri (Ned, 2.5).

Challengers: Finel Vaclav (Cze, 1.5) vs Divya Deshmukh (Ind, 1.5); Ivan Divya Salgado Lopez (Esp, 3) vs Richard Stalmach (Cze, 2); Stamatis Kourkoulous-Arditis (Gre, 2) vs Nodirbek Yakubboev (Uzb, 4); Jonas Buhl Bzerre (Den, 3.5) vs Marc'andria Maurizzi (Fra, 3); Nemec Jychym (Cze, 2) vs Ma Qun (Chn, 2.5).

### Vani ready for challenge from Sneha in fifth leg of Hero WPGT

**PTI** ■ GURUGRAM

Vani Kapoor, who grabbed the top honours in the fourth leg last month, will be looking to add another title as she tees up in the fifth leg of the Hero Women's Pro Golf Tour at the Classic Golf & Country Club here on Wednesday.

The field of 38 players includes five amateurs and carries a prize purse of Rs.16 lakhs.

The experienced Vani will be challenged by other established stars like Sneha Singh, who has already won twice this season and leads the Hero Order of Merit, Amandeep Drall, who is trying to find the form that once made her a contender on the Ladies European Tour, Gaurika Bishnoi and Ridhima Dilawari.

Sneha and Ridhima shot 66 and 67 respectively in the final round of the previous leg to finish in the top three and signalled that they are finding their form at the right time. Many of the professionals are also using the Tour to sharpen their game ahead of the international schedules they have planned. The Indian pros have in recent years been travelling to South Africa, Australia, Europe and South East Asia for more exposure and a good number have been

playing on the Ladies European Tour (LET) also. A bunch of young professionals, who have hit the Tour in the last few years and who have begun making a mark, are also in the field They include Iasmine Shekar. who won multiple times in 2024, and Anvitha Narender, who has also tasted success. Sneha, who has won two of the four events held this season so far, leads the Order

The Classic Golf and Country Club has been a regular venue on the Tour, and the fifth leg will be the first of the two events to be staged in Gurugram this month. The sixth leg is also slated to be held in Gurugram at the DLF Golf and Country Club.

### Ad-hoc panel for boxing needed as BFI failed in 'fundamental' duties: Usha

PTI ■ NEW DELHI

 $I_{(IOA)}^{ndian}$  Olympic Association (IOA) chief P T Usha on Tuesday defended her decision appoint an ad-hoc committee for boxing, saying the national federation failed to fulfil its "fundamental responsibilities" in the last one year and her action was necessary to "restore order and ensure proper governance". Her statement came in response to IOA vice president Gagan Narang's letter on

February 28 in which the

former Olympic bronze-

winner accused her of issuing

"arbitrary" orders and undermining athletes' welfare. and Usha's steadfast position is despite the Delhi High Court's stay on the IOA's order. The court issued notice, seeking IOA's response to a petition filed by the Boxing Federation of India (BFI).

..There is no truth in your (Narang) assertion that athletes are suffering due to this decision or any alleged arbitrary actions on my part. The decision to appoint an adhoc Committee was not arbitrary but a necessary step to restore order, ensure proper governance, and prioritize athlete development," Usha

said in her reply to Narang, who is also a member of the IOA's Executive Council.

"The unfortunate reality is that BFI has failed in fulfilling its fundamental responsibilities, including conducting national championships in the last year. With the 2026 Asian Games fast approaching, there has been little to no effort to identify fresh talent, select promising boxers, implement structured training programs to enhance India's medal prospects.'

# Dutch legend Taekema to work with Indian women dragflickers

PTI ■ NEW DELHI

India has roped in Dutch legend Taeke Taekema to work with the national women's hockey team dragflickers on a short-term basis till the 2028 Los Angeles Olympics.

Taekema had conducted a seven-day camp from February 10 to 16 ahead of India's FIH Pro League campaign in Bhubaneswar last month, where the hosts competed against England, Germany, Netherlands, and

Spain. The seven-day camp was attended by the likes of Deepika, Manisha Sonam, and Chauhan, Annu, along with a few

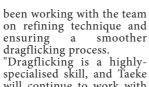

junior players. The focus of the camp was on honing technical skills and improving dragflick

guidance.

Indian women's team chief coach Harendra Singh said the camp has been very beneficial for the players and Taekema will continue to work with the side on a short-term basis till Los Angeles Games.

Taeke is one of the greatest legends in dragflicking, and I requested Hockey India to bring him in to help us improve in this area. He has conversion rate.
