Yogi seeks to ease temple tensions

CM invokes the 500-year wait, urging devotees and critics alike to allow time for investigations

PIONEER NEWS SERVICE
 ■ Ayodhya/Lucknow

Uttar Pradesh Chief Minister Yogi Adityanath expressed confidence that the Special Investigation Team (SIT) probe will reveal the truth into the alleged irregularities surrounding alleged misappropriation of donations at the Ram Temple in Ayodhya. He urged all parties to refrain from making unfounded comments that could harm devotees' sentiments.

"We waited for 500 years; now wait another 15 days," he stated. The CM's words carry historical significance, referencing the longstanding legal and social efforts preceding the temple's construction. The public's patience in awaiting the temple's completion is now being invoked to support a brief pause during the investigation.

The SIT is expected to thoroughly examine financial records and operational procedures to validate the allegations.

The controversy underscores the challenges faced by

Uttar Pradesh Chief Minister Yogi Adityanath offers prayers at the Shri Ram Janmabhoomi Mandir, in Ayodhya

PTI

religious organisations in large-scale public contributions. The episode highlights the necessity of ongoing vigilance and the adaptation of management systems to contemporary standards.

As developments unfold, cooperation between temple authorities and investigators will be crucial. The CM's appeal for restraint emphasises the importance of safeguarding devotees' sentiments from

unfounded speculation.

With the investigation underway, there is hope that clarity will emerge soon, allowing focus to return to the spiritual core of the Ram Temple.

Delhi HC backs Telegram block

PIONEER NEWS SERVICE
 ■ New Delhi

The Delhi High Court on Friday rejected Telegram app's plea challenging the Union Government's order to temporarily block access to it ahead of the National Eligibility-cum-Entrance Test (Undergraduate) (NEET-UG) 2026 re-examination. The HC upheld the Government's decision saying the step was not disproportionate and that the order was well-founded because the app can facilitate automated dissemination of large amounts of content.

An HC vacation bench of Justice Tejas Karia dealt with two questions. First, whether the Government order to block the app was vitiated by non-application of mind and whether blocking of the platform satisfied the requirement of proportionality.

Dismissing the petition, the HC answered both the questions in favour of the Union Government. The court, in its 39-page verdict, upheld the decision of the Ministry of Electronics and Information Technology (MeitY) under Section 69A of the Information of Technology Act to block an

MOCK DRILL BEFORE NEET

New Delhi: The Union Government has launched extensive preparations for the NEET UG-2026 re-examination on June 21, with the NTA conducting a nationwide mock drill on Saturday to test security and coordination mechanisms. The exercise, beginning at 9 am, will involve over 2.5 lakh security personnel across the country. More than 5,000 examination centres have been handed over to the NTA and will function

under a three-tier security system during the re-exam. According to officials, paramilitary forces will secure question papers and answer booklets, while CCTV surveillance, GPS-tracked transport, police escorts, Aadhaar-based biometric authentication and centralised monitoring will be used to prevent irregularities. A total of 6,669 observers have been deployed across 551 cities to oversee the examination.

DETAILED REPORT ON >> P6

entire application or platform to ensure a fair re-examination of NEET-UG on June 21.

"The measures adopted by Respondent No. 1 (the Centre) under the orders constitute the least restrictive

measure for achieving the stated objective... temporarily blocking public access to Telegram cannot be held to be disproportionate," the verdict said.

Punjab police deports Khalistani terror suspects

PRAMOD KUMAR SINGH
 ■ New Delhi/Chandigarh

Punjab Police, working closely with Central agencies and the Royal Malaysia Police (RMP), has successfully secured the deportation of two wanted operatives linked to the banned Khalistan Zindabad Force (KZF) from Malaysia. The suspects were detained at Delhi's Indira Gandhi International Airport upon arrival and transported to Punjab for investigation.

Gurwinder Singh of Ambala and Manjeet Singh of Patiala emerged as crucial nodes and financial conduits for a terror network based in Malaysia. According to

Suspects were detained at Delhi's IGI Airport upon arrival

WIKIMEDIA COMMONS

Director General of Police Gaurav Yadav, these individuals played a vital role in funneling terror funds through

offshore accounts to support operatives in Punjab, aiming to target vital infrastructure and stir unrest. Both suspects

appeared before a Patiala court on Thursday and were remanded to police custody for further interrogation.

This success follows a series of relentless efforts earlier this year to dismantle the same terror network. On 23 January 2026, an IED blast struck the Railway Freight Corridor near Sirhind in Fatehgarh Sahib district. Another attack was attempted on 27 April 2026, near Shambhu in Patiala. In a major crackdown, authorities arrested four suspects and seized a cache of weapons, including an RPG launcher, IEDs, RDX, grenades, and high-end pistols.

Multi-State fraud network of VPVV Techno under scrutiny after FBI tip

PIONEER NEWS SERVICE
 ■ New Delhi / Kochi

Cheated investors of Delhi head-quartered VPVV Techno Construction Pvt. Ltd has filed complaint to Delhi Police Commissioner to probe against the company for creating fake contracts with United States Government. The fraud by the VPVV and its promoters was tipped off to Indian agencies by FBI. The FBI found that the Nagpur registered company has printed "Q Clearance Bag", which is signed by US President from a printing Press in East Delhi area, along with many US documents. Kerala Police has identified Delhi-based businessmen Vijay Kasa and Venkita Venkat in fooling investors and printing fake US documents.

The Nagpur registered company VPVV Techno is working in many States and has allegedly duped over ₹700 crores from investors by showing fake US contracts to export weapons to Federal Army and Navy.

They even created fake documents about Indo-US trade agreement and US President's orders on

Picture of an event hosted by VPVV Techno Construction

COMPANY WEBSITE

weapon exports from India.

Kerala Police had recently registered four FIRs and arrested around 22 persons from Nagpur and Delhi including Vasant Vihar head-quartered company's promoters Venkita Venkat, Aqeel Ahammed and Rajan Malik. Recently, few accused got bail from Kerala High Court and another absconding promoter Hitesh Kumar known as 'Doctor Sahib' is facing a new case for using fake identity documents to get anticipatory bail from the High Court.

According to Kerala Police, the promoters

created fake Indo-Pacific trade deal Indo - US trade deal worth ₹83,000 crore and "Q Clearance Bag", which is signed by US President from a printing Press in East Delhi. The cheated investors have alleged that the promoters who got bail recently conducted a Press conference in Delhi on June 5 and claimed that Delhi Police Commissioner has given them clean chit. Meanwhile, cheated investors said that they will approach Kerala High Court seeking CBI probe.

US-IRAN TALKS HALT AS ISRAEL BURNS LEBANON

ERIN CUNNINGHAM/JON GAMBRELL/AAMER MADHANI
 ■ Jerusalem

Talks between the US and Iran were called off Friday after intense fighting between Israel and Hezbollah in southern Lebanon, officials said, raising questions about an initial agreement to end the war in Iran.

Israel and the militant group later agreed to a ceasefire, three officials said.

Word of the ceasefire came from two regional officials and a US official. The truce was mediated by Qatar, the US and Iran, the regional officials said. The three officials were not authorised to comment publicly and spoke on the condition of anonymity.

A Hezbollah official said mediators attempted to implement a new ceasefire and

An LNG carrier reaches Dahej Port in Ahmedabad, Gujarat

that an agreement could be announced soon, but he stopped short of confirming it was in place. The official spoke on condition of anonymity because he was not authorised to comment publicly on the matter.

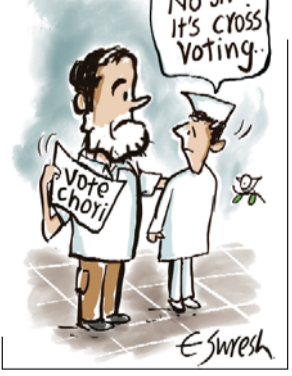

Israeli Prime Minister Benjamin Netanyahu's office did not immediately comment. Military spokesman Brig Gen. Effie Defrin said the military has not received different instructions from the Government. He said Israeli forces were operating in a "forward defence zone" and will continue doing so.

Iranian officials did not travel as planned to Switzerland, insisting that the fighting in Lebanon must stop before the talks can take place, according to three regional officials and a fourth person familiar with the matter who spoke on condition of anonymity to discuss sensitive conversations behind the scenes.

PIONEER IN SHORT

UDDHAV SIGNALS EXIT AS REBEL ROW GROWS

Shiv Sena (UBT) chief Uddhav Thackeray on Friday said he was ready to step down from party leadership if there was a lack of trust in him, amid a rebellion by six of his party's Lok Sabha MPs. Addressing the party's 60th foundation day event in Mumbai, Thackeray said he had led the organisation for over a decade and faced repeated political challenges and personal attacks. He, however, stressed he was not "hungry for power" and would be willing to relinquish the top post, provided the party did not fall into the hands of "traitors". "I would be happy if someone from within the party becomes president, but I will not allow it to go to thieves," he said, adding that he would not tolerate allegations against him.

The right to walk on a demarcated footpath is a fundamental right, the Supreme Court on Thursday ruled.

In a significant verdict, the top court held that this right shall have priority over motorised vehicles on demarcated paths and it forms part of the right to movement guaranteed under Article 19 (1) (d) and other fundamental rights including Article 21 (right to life and liberty).

A bench of justices PS Narasimha and AS Chandurkar held that a citizen's fundamental right to walk on a demarcated

footpath is primary and shall have priority over movement by motorised vehicles.

The declaration by the top court came in an unfortunate motor accident compensation case where a father lost his five-year-old son while taking him to school.

"The right to walk is a fundamental right under Part III of the Constitution. It is integral to the right to movement guaranteed under Article 19(1)(d), read with Article 19(1)(a), Article 19(1)(b), Article 19(1)(c) and Article 21 of the Constitution of India. The fundamental right to walk will take within its sweep the right to demarcated footpaths. These rights

President Murmu hails MP's lead in Sickle Cell elimination drive

PIONEER NEWS SERVICE
■ Khandwa

President Droupadi Murmu on Friday lauded Madhya Pradesh for its outstanding contribution to the National Sickle Cell Anaemia Elimination Mission and said the state has emerged as a model in the fight against one of India's most serious hereditary health challenges. Addressing the state-level World Sickle Cell Day programme at Omkareshwar in Khandwa district, the President described the event as a meaningful initiative aimed at tackling a critical healthcare issue affecting millions of people, particularly in tribal regions.

President Murmu inaugurated the programme by lighting the ceremonial lamp. Governor Mangubhai Patel and Chief Minister Mohan Yadav welcomed her at the event, which brought together public representatives, healthcare professionals, officials and community volunteers associated with the mission.

The President said it was encouraging to see that several key targets set under the National Sickle Cell Anaemia Elimination Mission, launched in 2023, had already been achieved ahead of schedule. She noted that the nationwide target of screening 70 million people, from newborns to individuals up to 40 years of age, had already been accomplished, making it one of the largest genetic disease screening programmes undertaken anywhere in the world.

Madhya Pradesh's contribution, Murmu said more than 12.5 million people in the state had been screened so far and that most of them had also received Genetic Counselling Cards. She said the achievement reflected the state government's commitment to improving healthcare access and awareness among vulnerable communities, especially tribal populations.

The President recalled that Prime Minister Narendra Modi launched the National Sickle Cell Anaemia Elimination Mission from Shahdol in Madhya Pradesh in 2023. She said the mission was designed not merely as a healthcare initiative but as a comprehensive programme combining tribal welfare, preventive healthcare, genetic awareness and behavioural change. The campaign is being implemented jointly by the Ministry of Health and Family Welfare and the Ministry of Tribal

Affairs, making it the first mission of its kind in the country. Murmu said scientific studies conducted by organisations including the Indian Council of Medical Research (ICMR), Tribal Health Research Institutes, AIIMS, the National Health Mission and the World Health Organization had highlighted the seriousness of the challenge. These studies indicated that around 20 to 25 million people in India may be carriers of the sickle cell gene, while millions are affected by the disease. Central India's tribal belt has been identified as one of the most affected regions.

She explained that the mission focuses on three major areas: large-scale awareness and pre-marital genetic counselling, comprehensive screening for early detection, and integrated healthcare management to ensure continuous treatment and support for affected individuals. According to the President, nearly 2.5 lakh patients suffering from sickle cell-related diseases and more than 20 lakh carriers have been identified across the country through extensive screening and digital monitoring.

The President also highlighted Madhya Pradesh's innovative efforts in expanding screening facilities to the Ayushman Arogya Mandir level. She noted that screening programmes for pregnant women, newborns and tribal populations had been strengthened significantly. During the "Swasth Nari, Sashakt Parivar Abhiyan" conducted last year, more than four lakh women were screened for sickle cell disease in the state. Large-scale screening of students is also being carried out, while Mobile Medical Units are reaching remote tribal areas to ensure no community is left behind.

Missing city boy located in Mathura

PIONEER NEWS SERVICE
■ Bhopal

A six-year-old boy who had gone missing from Bhopal four days ago was traced safely in Mathura, bringing relief to his family and police officials involved in the search operation.

The child, identified as Ansh Maina, a resident of Baipai Nagar in the Idgah Hills area, had disappeared near a private hospital in Lalghati, where his mother was admitted for treatment.

Following a complaint from family members, police launched an extensive search operation and formed six dedicated teams to trace the child. Investigators examined CCTV footage from across the city and analysed technical inputs to track his movements.

NEET candidate dies after falling from residential building

PIONEER NEWS SERVICE
■ Indore

An 18-year-old NEET aspirant died after falling from the third floor of a residential building in Indore late on Thursday night. The student, identified as Avantika Maurya, succumbed to her injuries during treatment at MY Hospital early Friday morning.

According to police, Avantika was living with her elder sister, Dr Sapna Maurya, in a private building in the Dhakad Colony area under Bhanwarkuan police station limits. Family members said she had been preparing for the National Eligibility-cum-Entrance Test (NEET) and had appeared for the examination three times but was unable to secure admission to an MBBS course.

Her father, Dr Banshil Maurya, a medical officer posted in Khargone district, told police that she had been under stress in recent months. Family members said she was particularly disturbed after the recent

cancellation of the NEET examination and had become increasingly withdrawn.

According to relatives, Avantika had been unusually quiet throughout Thursday and was responding to most questions with brief answers. At around 11.30 pm, she was speaking with a cousin on her mobile phone when she reportedly went towards the staircase leading to the terrace. Moments later, she fell from the building.

Residents rushed to the spot after hearing a loud noise and alerted police and emergency services. She was initially taken to a private hospital and later referred to MY Hospital, where she died during treatment at around 5 am on Friday.

Police said they are examining all aspects of the case, including the student's mobile phone, call records and circumstances surrounding the incident. Forensic experts have also visited the spot as part of the investigation.

Family members said Avantika had long aspired to become a doctor and remained determined to pursue an MBBS degree despite setbacks in the entrance examination. Police said further investigation is underway to establish the exact circumstances leading to the incident.

Investigators are also reviewing CCTV footage from the building and surrounding areas to reconstruct the sequence of events leading up to the fall. Statements of family members, relatives and other residents are being recorded as part of the inquiry.

The incident has once again highlighted the immense pressure faced by students preparing for competitive examinations. Authorities said the findings of the investigation and forensic analysis will help determine the exact circumstances surrounding the tragedy.

Weather turns pleasant, lightning strike proves fatal

PIONEER NEWS SERVICE
■ Bhopal

Widespread rainfall across several parts of Madhya Pradesh on Friday brought relief from the intense heat, leading to a noticeable drop in temperatures in many districts. However, the changing weather also turned tragic in Rajgarh district, where a lightning strike claimed the lives of two relatives.

The incident occurred near Gulkhedhi village in the Pachore area of Rajgarh district. The victims were identified as Vishnu Prasad Bhilala (45) and his nephew Ramdayal Bhilala (25). Local authorities said both died after being struck by lightning during adverse weather conditions.

According to the India Meteorological Department (IMD), Seoni recorded the lowest maximum tempera-

ture in the state at 34.2 degrees Celsius. Dhar registered 34.5 degrees, Pachmarhi 34.8 degrees and Shivpuri 35.2 degrees Celsius. Khajuraho remained the hottest city with a temperature of 42.4 degrees Celsius. Among the major cities, Bhopal recorded 37.3 degrees, Indore 35.1 degrees, Ujjain 36 degrees, Jabalpur 38.8 degrees and Gwalior 40 degrees Celsius.

While the rain brought relief in several areas, concerns over water availability for agriculture continued to grow. In Khargone district, more than 200 farmers staged a protest by parking bullock carts on the Khandwa-Baroda Highway and blocking traffic for nearly three hours. The farmers demanded the release of canal water for irrigation, arguing that inadequate rainfall had dried up the Veda, Kunda and Khark rivers, putting standing crops at risk. The protest ended after officials of the Narmada Valley Development Authority assured farmers that canal water would be released every six days to support irrigation needs. Traffic was restored after the assurance.

In another setback for farmers, strong winds and rain caused extensive damage to banana crops in Khadki village of Barwani district. Farmers Ambaram and Gangaram reported that around 1,500 banana plants spread across nine acres were flattened by the storm. The crop was reportedly ready for market and the farmers estimated losses of nearly Rs 36 lakh against an investment of about Rs 14 lakh. The shock of the losses reportedly affected Ambaram's health, leading to his admission to a local health centre. Agricultural experts have warned that delayed monsoon activity is affecting sowing operations for major

kharif crops, including soybean, urad, moong and tur. Senior scientists said at least 100 mm of rainfall is required to ensure adequate soil moisture for sowing. Farmers who have already sown soybean with insufficient rainfall risk losing their seeds if dry conditions persist.

Meteorologist Arun Sharma said a cyclonic circulation and three active trough systems over western Madhya Pradesh are influencing the current weather pattern. The department has forecast thunderstorms and rain in districts including Bhopal, Indore, Ujjain, Raisen, Sehore, Vidisha, Guna, Gwalior, Jabalpur, Chhindwara, Seoni, Sagar, Panna and Chhatrapur.

Meanwhile, districts such as Satna, Rewa, Maunjanj, Sidhi, Singrauli, Maihar, Katni, Umaria, Khandwa, Khargone and Jhabua are expected to continue experiencing hot and humid conditions.

Discounted car offer turns into Rs 17 lakh fraud

PIONEER NEWS SERVICE
■ Bhopal

A gas agency owner in Bhopal has alleged that an acquaintance duped him of Rs 17 lakh by promising to sell new cars at discounted prices and later took away the vehicles using duplicate keys.

The complaint was lodged at Talaiya police station by Mustaqeem Baig (57), a resident of Retghat and a gas agency operator. According to Baig, he knew the accused, Mohammad Faiz of Chhawani, who frequently visited his home and had earned his trust over the years.

Police said the accused allegedly convinced Baig to purchase three vehicles—a Thar, an XUV300 and a Scorpio—between January and March, claiming they were available at lower-than-market rates. Baig paid Rs 17 lakh for the vehicles, but the accused allegedly failed to provide the ownership documents, assuring him they would be handed over later.

The matter took a dramatic turn on the night of April 26 when the three vehicles were allegedly removed from outside Baig's residence. The complainant claimed that although

he possessed the original keys, the accused and his associates used duplicate keys to drive away the vehicles. The entire incident was reportedly captured on CCTV cameras installed outside the house.

During preliminary inquiries, it emerged that the vehicles may have been obtained from different cities under self-drive rental arrangements and were allegedly sold fraudulently as personal vehicles.

Baig has alleged that despite filing a complaint nearly two months ago, no concrete action has been taken against the accused. He further claimed that several other individuals may have been cheated using a similar modus operandi.

Talaiya police station in-charge Deepak Dhariya said the matter is under investigation. Since the transaction was carried out in cash and without formal documentation, police are verifying all aspects of the case before taking further action.

Police are also examining the ownership records and source of the vehicles to determine whether a larger fraud network involving self-drive rental cars is operating in the city.

NEET-UG centres under watch

PIONEER NEWS SERVICE
■ Bhopal

The Madhya Pradesh administration has made extensive preparations for the National Eligibility-cum-Entrance Test (NEET-UG) scheduled for June 21, with all examination centres placed under heightened security.

CCTV cameras and signal jammers are being installed at centres across the state to ensure a fair and transparent examination process. Large clocks will be placed outside examination venues, while doctors and medical teams will remain on standby to assist candidates in case of health emergencies.

In Bhopal, 13,774 candidates are expected to appear for the exam. District Collector Priyank Mishra reviewed preparations with 32 centre superintendents and directed officials to ensure clear display of centre names and locations to avoid confusion among students.

Police have been instructed to maintain smooth traffic flow and remove vehicles parked near centres. Special signboards will also be installed near metro construction zones.

SISTec conducts advanced cyber security workshop

PIONEER NEWS SERVICE
■ Bhopal

The Department of Computer Science Engineering – Cyber Security at NBA and NAAC-accredited Sagar Institute of Science and Technology (SISTec) successfully organized a three-day Cyber Security and Digital Forensics Workshop in association with the Indian Cyber Academy.

The workshop, titled Digital Forensics Workshop 2026, was the first initiative of its kind in Madhya Pradesh aimed at providing students with practical exposure to cybersecurity concepts and digital investigation techniques. Students from the Cyber Security, Computer Science, Information Technology and Electronics & Communication Engineering streams actively participated in the programme.

The workshop focused on bridging the gap between academic learning and industry requirements by offering hands-on training in key areas such as cyber security fundamentals, digital forensics, data recovery, evidence collection, malware analysis, threat hunting, incident response

and Security Operations Center (SOC) practices.

Participants were also introduced to a range of cybersecurity tools used for security monitoring, vulnerability assessment and digital investigations. The practical sessions enabled students to gain valuable insights into emerging cyber threats and modern investigative methodologies.

The training was conducted by Kuldeep Verma, a CISA and CHFI-certified Cyber Crime Investigator and Consultant, who shared his professional experience and real-world case studies from the field of cyber security and digital forensics.

The workshop concluded with the distribution of certificates to participants who successfully completed the programme.

Congratulations from the organizers and students, SISTec Group Director Dr Jyoti Deshmukh said the institute remains committed to providing quality education and industry-oriented learning opportunities. She emphasized that such initiatives play a crucial role in preparing students for the rapidly evolving digital landscape and strengthening their career prospects.

Five structures demolished

PIONEER NEWS SERVICE
■ Mhow

Authorities carried out a fresh anti-encroachment drive in Banda Basti on Thursday, removing the remaining illegal structures and reclaiming government land from encroachment.

The operation was conducted jointly by the Army, Defence Estates Department and Cantonment Board, with police personnel deployed to maintain law and order during the exercise.

Officials said the action targeted the remaining house and enclosure belonging to Nasir Khan and Salim Khan, which had been left standing after an earlier encroachment removal drive conducted in the area on June 15.

During Thursday's operation, a total of five structures were demolished, resulting in the clearance of approximately 3,608 square feet of encroached land. Authorities stated that the action was part of an ongoing effort to remove unauthorized constructions and protect government land from illegal occupation. The drive was carried out peacefully under official supervision, and the reclaimed land has now been restored to its original status.

Mahakal darshan leaves Chahal spiritually moved

PIONEER NEWS SERVICE
■ Ujjain

Indian cricketer Yuzvendra Chahal visited the revered Mahakaleshwar Temple in Ujjain early Friday morning and participated in the sacred Bhasma Aarti, seeking the blessings of Lord Mahakal.

The leg-spinner attended the pre-dawn ritual and spent nearly two hours in the Nandi Hall, witnessing the temple's iconic ceremony and offering prayers with deep devotion. Following the darshan, Chahal was welcomed by members of the Shri Mahakaleshwar Temple Management Committee.

Speaking to the media after the ceremony, Chahal described the experience as deeply spiritual and memorable. He said it was his first time attending the Bhasma Aarti and that the divine atmosphere left a lasting impression on him.

"This was my first experience of witnessing Baba Mahakal's Bhasma Aarti. It is a feeling that cannot be expressed in words," he said. Expressing gratitude for the opportunity to visit the temple, Chahal said he felt

blessed to seek the deity's blessings and hoped to return again in the future.

"Whenever Baba Mahakal calls me, I will come back to Ujjain," the cricketer said, reflecting on his spiritual connection with the sacred shrine.

The visit drew attention from devotees and cricket fans alike, with many gathering at the temple premises during the star cricketer's visit.

Temple authorities presented Chahal with a traditional shawl and a memento, marking his visit to one of the country's most revered jyotirlinga shrines.

CM announces new roads, flyover projects in Indore

PIONEER NEWS SERVICE
■ Ujjain

Chief Minister Mohan Yadav on Friday reiterated the Madhya Pradesh government's commitment to the holistic development of the state, stating that sustained efforts are being made to ensure progress across all sectors and regions.

Addressing a Bhoomi Pujan programme in Indore, he said the state government is focused on inclusive growth and improving the quality of life for citizens through enhanced infrastructure, public welfare initiatives and urban development projects.

The Chief Minister praised the Indore Municipal Corporation for its achievements in development and public service delivery, highlighting the city's success under flagship schemes such

as the Pradhan Mantri SVANidhi Yojana, Pradhan Mantri Awas Yojana and the Swachhata Abhiyan. He said Indore has earned national recognition for its innovative urban governance model and commitment to cleanliness and citizen welfare.

Referring to the 12 years of the Union Government under Prime Minister Narendra Modi, Yadav said India has witnessed unprecedented growth and development during this period. He noted that the number of medical colleges in the country has increased significantly, strengthening healthcare services and expanding opportunities for medical education. He added that development projects are being implemented across all 55 districts of Madhya Pradesh in sectors including education, health-care, infrastructure, employ-

ment and social welfare to ensure balanced regional growth.

During the programme, the Chief Minister remotely performed the Bhoomi Pujan and inaugurated a major road development project from Tulsī Nagar Puliya to Nipania, along with the construction of primary and internal sewer lines in Ward No. 37 of Zone No. 8.

The road project, being undertaken under the Chief Minister Infrastructure Development Scheme, involves an investment of Rs 13.26 crore, while the sewer line works are estimated at Rs 2.64 crore. The proposed road will be approximately 1.30 kilometres long and 30 metres wide, in accordance with the Indore Development Plan-2021.

Officials said the project includes the construction of a

cement concrete road, strengthening of sewer chambers, development of footpaths, shifting of electric lines and other supporting infrastructure works. Once completed, the project is expected to significantly improve connectivity and ease traffic movement in areas such as Tulsī Nagar, Nipania, Ankur Angan, Rajaram Avenue, Mahalaxmi Nagar and surrounding localities.

The Chief Minister also announced several new infrastructure initiatives aimed at strengthening the city's road network. These include the construction of an approximately 1.4-kilometre link road connecting Kanadia Road and Khajrana Road, as well as a proposed six-lane flyover from Eastern Ring Road to Robot Square at an estimated cost of around Rs 50 crore. He further stated that efforts would be

made to address issues related to the regularisation of illegal colonies through concrete policy measures.

As part of the event, beneficiaries under the Pradhan Mantri SVANidhi Yojana were also distributed to beneficiaries. Rahul Marmat and Jagdish Upadhyay received symbolic cheques of Rs 50,000 each under the scheme, which supports street vendors through access to affordable credit and financial inclusion.

Urban Development and Housing Minister Kailash Vijayvargiya, Water Resources Minister Tulsiram Silawat, Member of Parliament Shankar Lalwani, MLAs Mahendra Hardia, Madhu Verma, Ramesh Mendola and Sumit Mishra, along with senior administrative officials and public representatives, were present at the programme.

Ujjain strengthens water infrastructure ahead of Simhastha

PIONEER NEWS SERVICE
■ Ujjain

As preparations intensify for Simhastha Mahaparva 2028, the Madhya Pradesh government is accelerating work on the ambitious Hariyakhedi Water Augmentation Project to ensure a reliable and sustainable drinking water supply for both pilgrims and residents.

Being implemented by the Ujjain Municipal Corporation at an estimated cost of Rs 1,133.67 crore, the project is progressing under the guidance of Chief Minister Mohan Yadav. On Friday, Additional Chief Secretary Sanjay Dubey reviewed the ongoing works during a site inspection accompanied by Divisional Commissioner Ashish Singh, Collector Roshan Kumar Singh, Municipal Commissioner

Abhilash Mishra and other officials.

Expressing satisfaction with the pace of construction, Dubey said the project is expected to be completed within the targeted 24-month timeframe and will significantly strengthen the city's water infrastructure before the grand religious gathering in 2028.

Officials informed him that the scheme will draw water from the Selarkhedhi, Gambhir, Undasa and Sahebkhedi sources to meet Ujjain's growing demand and future requirements. Besides ensuring long-term water security, the project will improve supply efficiency through the replacement of ageing pipelines and expansion of the distribution network.

A key component of the project is the construction of a

100 MLD (Million Litres per Day) Water Treatment Plant, along with an intake well, clarifloculator, filter house and an extensive pipeline system designed to enhance water delivery across the city.

During the visit, Dubey also reviewed the 'Amrit Rekha' digital monitoring portal, developed by PHE Department Assistant Engineer Shivam Dubey. The platform enables real-time monitoring of pipeline installation and overall project progress, helping authorities track execution more effectively.

The Additional Chief Secretary further inspected sewer network expansion works being carried out in Parshwanath Colony under the AMRUT 2.0 scheme. Officials said installation of a 200-mm diameter sewer pipeline is pro-

gressing as scheduled.

Senior engineers, consultants and contractor representatives briefed the visiting officials on construction milestones and assured that the project is moving ahead according to the planned timeline. Once completed, the Hariyakhedi Water Augmentation Project is expected to play a crucial role in meeting Ujjain's long-term drinking water needs while supporting the successful hosting of Simhastha 2028.

Officials said the project is being executed with a focus on sustainability and future urban expansion, ensuring uninterrupted water supply for decades to come. The upgraded infrastructure is also expected to improve service quality, reduce water losses and enhance overall civic amenities in Ujjain.

Habibganj cops nab thief

PIONEER NEWS SERVICE
■ Bhopal

Habibganj Police have solved two theft cases and arrested a habitual offender, recovering stolen property worth nearly Rs 2 lakh. The recovered items include an LED television, a laptop, silver ornaments and other valuables.

Police said one theft occurred at the residence of Ruchi Belvanshi in Shivaji Nagar while she was away attending a family wedding. In another case, a laptop was stolen from a room at Kalyani Working Women's Hostel. Acting on CCTV footage and informant inputs, police identified and arrested the accused. Further investigation is underway.

Row over Raja Bhoj remarks

Balaghat: Former Member of Parliament Kankar Munjare has been booked for allegedly hurting religious sentiments following his remarks related to Raja Bhoj, triggering protests by members of the Panwar community in Balaghat.

The controversy is linked to the naming of the Garra Overbridge after Raja Bhoj, a revered figure for the Panwar community. The overbridge was inaugurated on June 13.

According to CSP Mayank Tiwari, a case has been registered against Munjare under Section 299 of the Bharatiya Nyaya Sanhita (BNS) on the complaint of Panwar community district president Vishal Bisen. Police have initiated an investigation into the matter.

The dispute escalated after Munjare allegedly commented on the naming of the overbridge during an inspection visit and later shared a video on social media. Members of the Panwar community claimed that the remarks hurt their sentiments and were disrespectful towards Raja Bhoj.

In protest, community members organized a rally on Thursday and staged a demonstration outside Munjare's residence. Protesters also burned an effigy of the former MP and submitted a memorandum to the Superintendent of Police demanding legal action.

High Court issues notice in Pathak-linked case

PIONEER NEWS SERVICE
■ Jabalpur

The Madhya Pradesh High Court on Friday issued a notice to the state government in connection with a petition related to alleged defamatory remarks made by BJP MLA and industrialist Sanjay Pathak against a Katni-based arms dealer.

The matter came up for hearing before Justice Pramod Kumar Agrawal, who, after hearing the petitioner's submissions, directed the state government to file its response within two weeks. The next hearing in the case has been scheduled for July 6.

The petition was filed by Nazim Khan, an arms dealer from Katni, who has alleged that statements made by Pathak were baseless and had damaged his social reputation and public image.

According to the petition, Pathak had levelled several serious allegations against Khan, including claims that 14,000 cartridges were missing from his stock and accusations linking him to the illegal sale of firearms. Khan has contended that these allegations were false and defamatory.

The petitioner stated that he had earlier submitted a written complaint to the Katni

police seeking action over the remarks. However, after no action was taken, he approached the High Court for relief.

The case had previously come up before Justice Vishal Mishra, who recused himself from hearing the matter. Following the recusal, the case was assigned to the bench of Justice Pramod Kumar Agrawal.

With the High Court now issuing notice, the state government has been asked to place its stand on record before the next date of hearing. The matter is expected to be taken up again on July 6 after the response is filed.

Khandelwal supports 59 orphaned children

PIONEER NEWS SERVICE
■ Betul

BJP Madhya Pradesh president and MLA Hemant Khandelwal on Friday provided educational assistance to 59 children from 42 orphaned and underprivileged families under the "Vijay Seva Nyas" initiative in Betul.

At a programme held at Ramakrishna Bagiya, Khandelwal handed over fee cheques to principals and management of schools where the children are enrolled. In addition, each child was provided Rs 2,000 for educational materials and academic expenses.

The trust also extended financial assistance to guardians caring for the children. Caregivers of children studying in private schools received Rs 20,000 each, while families of children enrolled in government schools were provided Rs 10,000 each.

Addressing the gathering, Khandelwal said Vijay Seva Nyas, established in memory of former MP Vijay Kumar Khandelwal, is committed to supporting orphaned children through education and overall development. He said the trust not only bears the cost of

schooling but also works to ensure the children become self-reliant and secure meaningful employment or self-employment opportunities in the future.

Khandelwal said the initiative reflects the late leader's belief in politics as a medium of public service and social responsibility. He noted that the trust supported the education of 41 children in 2025, and the number has now increased to 59.

He also highlighted the trust's broader social initiatives in areas such as education, healthcare assistance, women's empowerment, employment generation and support for vulnerable families.

Khandelwal said the trust treats the children as members of an extended family and strives to provide them with opportunities for a better future. He added that along with funding education, efforts are being made to help guardians become financially self-reliant through employment and livelihood support.

Union Minister Durgadas Uike, MLAs Chandrasekhar Deshmukh, Mahendra Singh Chauhan and Yogesh Pandagre, along with district BJP president Sudhakar Pawar, also addressed the programme and appreciated the trust's contribution towards social welfare and child development.

Congress demands probe into tribal land deals

PIONEER NEWS SERVICE
■ Bhopal

Madhya Pradesh Congress Committee president Jitu Patwari has urged President Droupadi Murmu to order an investigation into the sale of tribal land and the permissions granted for such transactions in the state, alleging large-scale irregularities over the past several years.

Addressing a press conference in Bhopal, Patwari claimed that nearly three lakh acres of tribal land had been sold in Madhya Pradesh during the last seven to eight years. He alleged that individuals linked to BJP leaders, ministers, legislators and industrial groups had benefited from these transactions.

Patwari said that under existing laws, tribal land

cannot be directly purchased by non-tribal individuals without government approval. Referring to information allegedly obtained through a question raised in the Assembly, he claimed that around 1.26 lakh hectares of tribal land had changed hands during the period in question.

The Congress leader alleged that permissions for such land transactions were granted during the tenures of both former Chief Minister Shivraj Singh Chouhan and current Chief Minister Mohan Yadav. He called for a comprehensive review of all approvals and demanded that the facts be placed before the public.

Patwari said Congress would conduct a detailed review of tribal land transactions if it comes to power in the state in 2028 and take

action against those found responsible for irregularities. He also said efforts would be made to restore land to tribal families if any transactions were found to be illegal.

Commenting on the debate over the use of the term "Vanvasi" for tribal communities, Patwari supported President Murmu's reported objection to the terminology and said not all tribal communities should be referred to as forest dwellers. He accused the BJP and RSS of using the term for political reasons and said the President's views were in line with Congress's position on tribal rights.

Responding to recent remarks by Chief Minister Mohan Yadav against opposition leaders, Patwari said the government should answer questions raised by the opposition.

Ratlam Division hits new record

PIONEER NEWS SERVICE
■ Ratlam

The Ratlam Division of Western Railway has achieved a significant milestone in freight transportation by operating a record 70 crack freight trains in a single day on June 17, setting a new benchmark in operational efficiency.

The achievement surpasses the division's previous record of 66 crack trains, which was established on May 30 this year. According to Western Railway officials, crack trains accounted for 52.63 per cent of the total trains operated by the division on the day, marking the highest-ever share recorded in Ratlam Division's history.

Railway authorities attributed the accomplishment to the coordinated efforts of multiple departments, including

Operations, Commercial, Electrical, Mechanical, Signal and Telecommunications, and Engineering, along with the dedication of railway personnel working across the division.

Crack train operations are considered a key component of efficient freight management as they help maximise rail path utilisation, reduce crew requirements, minimise train detention and save operational time. These advantages contribute to faster and more efficient movement of goods across the railway network.

Officials said the milestone reflects the division's growing focus on improving freight capacity and operational efficiency to meet rising transportation demand across the Western Railway network.

Bhopal: Governor Mangubhai Patel has accepted the resignation of Barkatullah University Vice-Chancellor Prof. S.K. Jain with immediate effect. The Governor has nominated Prof. Vivek Sharma, Dean of the Faculty of Management at Barkatullah University.

CM, Union Minister to launch major projects in MP

PIONEER NEWS SERVICE
■ Indore

Madhya Pradesh is set to witness the launch of two major development initiatives on Saturday as Chief Minister Mohan Yadav and Union Minister for Housing and Urban Affairs Manohar Lal participate in a programme at Sanwer in Indore district. The event will mark a significant step towards strengthening housing infrastructure and road connectivity in the state.

During the programme, more than 42,000 eligible beneficiaries under the Pradhan Mantri Awas Yojana (Urban) will receive housing approvals worth over Rs 2,500 crore. In addition, more than 38,000 families will enter their newly constructed permanent homes, fulfilling the dream of home ownership for thousands of economically

weaker households.

The programme reflects the state government's commitment to Prime Minister Narendra Modi's vision of Viksit Bharat 2047 and the goal of providing dignified housing to every eligible family. Under the leadership of Chief Minister Mohan Yadav, the state has been accelerating efforts to ensure that no deserving family remains without a permanent home while simultaneously expanding infrastructure to support long-term economic growth.

A major highlight of the event will be the groundbreaking ceremony of the Indore-Ujjain Greenfield Four-Lane Project, a transformative infrastructure initiative being developed at an estimated cost of Rs 2,935 crore. The 48.10-kilometre high-speed corridor will be constructed by the Madhya Pradesh Road

Development Corporation under the Hybrid Annuity Model (40:60).

The Greenfield corridor is expected to significantly improve connectivity between Indore and Ujjain by reducing travel time and enhancing road safety. Designed as a modern high-speed route, the project will provide a faster, smoother and more efficient transportation link between the two major cities of the Malwa region.

Officials said the project will serve as a catalyst for industrial growth, trade, logistics, agricultural marketing and tourism. Improved connectivity is expected to attract fresh investment and create new economic opportunities across Indore, Ujjain and neighbouring districts.

The corridor is also expected to benefit millions of devo-

tees visiting Ujjain, home to the revered Mahakaleshwar Jyotirlinga. Easier and safer access to the city is likely to strengthen religious tourism and improve travel convenience for visitors from across India and abroad.

Keeping the needs of local residents and farmers in mind, the project includes the construction of 18 underpasses and 19 junction improvement works to ensure seamless local connectivity. Grade-separated interchanges will also be developed at the Western Ring Road and Ujjain-Badnawar Road intersections to facilitate uninterrupted traffic movement.

To enhance commuter safety, emergency response facilities including ambulances, cranes and patrolling vehicles will be stationed at toll plazas along the corridor.

Delhi Police probe Rs 2 crore extortion threat linked to Seoni

PIONEER NEWS SERVICE
■ Bhopal

A team of Delhi Police on Friday arrived in Seoni to investigate a case involving an alleged Rs 2 crore extortion demand made in the name of the Lawrence Bishnoi gang.

According to police, a Delhi-based businessman received a WhatsApp call from unidentified individuals claiming to be associates of the notorious gang and demanding money. During the investigation, technical analysis revealed that the mobile number used to make the threat was registered in Seoni district.

With the assistance of local police, Delhi Police traced the number to a

youth identified as Sunil Satnami. However, officials said no evidence has so far emerged linking him directly to the extortion attempt or any criminal activity.

Seoni Superintendent of Police Krishna Lalchandani said the youth's mobile phone has been seized for forensic examination. Investigators suspect the number may have been misused by criminals through fraudulent means.

Cyber experts are currently analysing call records and digital evidence to identify the actual perpetrators. Police noted that extortion threats through WhatsApp calls, internet-based communication and cloned numbers have increased in recent years, making investigations more complex.

HDFC BANK HDFC BANK LTD.

Govt will punish corruption, says Suvendu

PIONEER NEWS SERVICE
Kolkata

West Bengal Chief Minister Suvendu Adhikari on Friday appealed to people not to take the law into their own hands, asserting that his Government would act firmly against criminals and corrupt individuals.

Speaking to reporters at the state secretariat, he said public anger against corruption was understandable, but people should allow law enforcement agencies to perform their duties.

"I appeal to people not to barge into anyone's residence or take the law into their own hands. The administration is taking all necessary and strict

West Bengal Chief Minister Suvendu Adhikari flags off the Daud Se Dhyan event in Kolkata. PTI

measures against corruption," he said.

"The change in Government was brought about to establish the rule of law. People should have faith in the legal process,"

the chief minister added.

Adhikari's remarks came against the backdrop of the killing of BJP supporter Prasanta Dey in Howrah district's Bagnan area, where ten-

sions flared after villagers allegedly confronted local panchayat functionaries over corruption charges. Referring to the incident, the chief minister said an FIR had been lodged against the deputy head of a village panchayat and others on murder charges. Adhikari said the injured were undergoing treatment at SSKM Hospital and that eight people have been arrested based on a complaint lodged by Dey's wife. The panchayat is ruled by the TMC. "People had lodged a complaint against the deputy head of the panchayat over corruption charges. Police could have been given some more time to probe that."

"But people went to his house demanding the return

of money allegedly taken from them on the promise of securing benefits under various Government schemes, including a housing scheme. Thereafter, his associates and relatives allegedly attacked villagers, resulting in one death and serious injuries to five others," he said. The chief minister said the state Government handed over a cheque of Rs 4 lakh to the deceased's family on Friday.

"After formally lodging complaints against corrupt people and their activities, citizens can have faith in the police and the administration. We will take stringent action against the guilty in accordance with the law," Adhikari said.

Rahul Gandhi turns 56, wishes pour in from PM Modi, Congress leaders, allies

PIONEER NEWS SERVICE
New Delhi

Birthday wishes poured in for Congress leader Rahul Gandhi as he turned 56 on Friday, with party chief Mallikarjun Kharge hailing him for consistently championing the cause of the most vulnerable and marginalised through engagement with people and his courage in speaking truth to power. Prime Minister Narendra

Modi extended birthday greetings to Gandhi, wishing him good health and a long life. In a post on social media, Modi said, "Best wishes to the Leader of the Opposition in the Lok Sabha, Shri Rahul Gandhi ji, on his birthday. Praying for his good health and long life." Gandhi later thanked the prime minister for his wishes.

While a celebration was hosted at the Congress' 24, Akbar Road office with top

leaders of the party attending, workers in several other parts of the country organised community service activities and job fairs and also distributed fruits and sweets. Rahul Gandhi reached the Congress' 24, Akbar Road office, where he cut a birthday cake in the presence of Kharge and AICC general secretaries Priyanka Gandhi Vadra and K C Venugopal, senior leaders, party workers and supporters. Senior

Mallikarjun Kharge being offered a piece of cake by Rahul Gandhi during the 56th birthday celebrations at AICC headquarters, in New Delhi. PTI

leaders such as Sachin Pilot and Shashi Tharoor also greeted Gandhi at the party office. The Indian Youth Congress organised a job fair at Talkatora stadium to mark his birthday.

Gandhi, who is a former Congress president and the Leader of the Opposition in the Lok Sabha, received warm greetings from leaders of many INDIA bloc constituents with Samajwadi Party's Akhilesh Yadav, RJD's Tejashwi Yadav,

TMC's Abhishek Banerjee and NCP (SP)'s Supriya Sule, among others, extending wishes.

Tamil Nadu Chief Minister and TVK chief C Joseph Vijay also hailed Gandhi for raising his voice for the nation's progress, the preservation of democratic values and the welfare of people from all walks of life.

Greeting Gandhi on his birthday, Kharge said on social media, "Your unbridled dedication to the ideals

of the Constitution and your uncompromising fight for the unheard voices have inspired millions." "Through your tireless engagement with people and your courage in speaking truth to power, you have consistently championed the cause of the most vulnerable and marginalized. May you be blessed with good health, happiness, strength and a long life in service of the nation," the Congress president said.

Yogi seeks to ease temple tensions

The coming days will be pivotal as the SIT endeavours to uncover the facts. Meanwhile, the calls from Mishra and Adityanath reflect a shared commitment to the proper functioning of the temple administration and the preservation of its esteemed status in the public eye.

Mishra calls for temple management overhaul

Mishra also informed the media that these alleged irregularities pose not only a threat to devotees' faith but also an urgent warning regarding weaknesses within the temple's administrative framework. Mishra's remarks have refocused attention on the administrative aspects of the temple, which was established after a prolonged struggle and now functions as the centre of devotion.

The construction committee has overseen its development, and with the operational phase now underway, managing the influx of donations has become a critical responsibility. Failures in this area could undermine the institution's reputation among the faithful.

Devotees contribute to temples both as a religious duty and with the expectation that their offerings will be used for the upkeep of the temple and related charitable activities. Given the temple's popularity and the scale of contributions, ensuring transparency and integrity in handling funds is essential to maintaining public trust.

To manage contributions, religious institutions often employ a mix of traditional priests and administrative personnel. Balancing spiritual needs with fiscal responsibility requires clear guidelines and ongoing oversight.

The current controversy may lead to a reassessment of how these two aspects are integrated into the temple's management.

Delhi HC backs Telegram block

Referring to Section 69A of the IT Act, the HC said that the Union Government was empowered to block public access to any online information. "Section 69A of the IT Act empowers the Central Government, or any officer specially authorised by it in this behalf, to issue directions for blocking public access to any information generated, transmitted, received, stored, or hosted in any computer resource, where it is satisfied that such action is necessary or expedient in the interest of the sovereignty and integrity of India, defence of India, security of the State, friendly relations with foreign States, public order, or for preventing incitement to the commission of any cognizable offence relating thereto," the court held.

The bench referred to Section 69A of the IT Act and said that the Government was empowered to block public access to any online information. "Section 69A of the IT Act empowers the Central Government, or any officer specially authorised by it in this behalf, to issue directions for blocking public access to any information generated, transmitted, received, stored, or hosted in any computer resource, where it is satisfied that such action is necessary or expedient in the interest of the sovereignty and integrity of India, defence of India, security of the State, friendly relations with foreign States, public order, or for preventing incitement to the commission of any cognizable offence relating thereto," it said.

said that the Government was empowered to block public access to any online information.

The Government had directed that public access to Telegram app be blocked until June 22 and that the message-editing feature be disabled until June 30. It noted that Telegram permits the large-scale addition of users to channels and groups. "The platform architecture of Telegram is conducive to amplification and mass dissemination of content, enabling information to reach a substantial number of users within a short span of time. Consequently, any unlawful content, if circulated on Telegram, is capable

of being amplified rapidly and likely to give rise to a public order situation," the verdict said.

"Telegram also hosts an extensive bot ecosystem, which facilitates automated dissemination of content and other activities without human intervention. Further, the use of usernames in lieu of phone numbers enables concealment of user identifiers and facilitates the rapid dissemination of content, including content that may be illicit in nature," the court added.

Multi-State fraud network...

"During the Press conference, the above persons (promoters Venkat, Aqueel and Malik) stated that the Delhi Police Commissioner had given a clean chit to the company and that the allegations raised by victims and complainants were false. Such statements appear to be completely untrue, misleading, and calculated to create a false impression among investors and members of the public that the company has been officially exonerated by law enforcement authorities," alleged some investors who were cheated for more than ₹700 crore in investing in a shell firm VPVV Techno Construction.

"The materials available disclose allegations of a serious and organised fraud affecting a large number of investors across multiple States, involving the alleged misuse of the National Emblem of India, unauthorised use of symbols and insignia associated with Governmental authorities, and representations relating to defence and strategic projects purportedly connected with foreign Governments," said another investor in a detailed nine page complaint showing the fake claims of promoters photos with many Union Ministers and US Navy submarine training by the promoters.

The company's other directors Hitesh Kumar, known as Doctor Sahib and Rahul Rajeev Nair, Rajan Pradeep, Kumar Prabhakaran and Vinod Rama Warrior. Kumar is also in the police radar for cheating several investors by printing fake US documents.

The company promoters claimed that US Government has approved them as "principal developer" of defence equipment to be manufactured from India and exported to US. These directors have created a web of more than 15 benami companies, mostly registered in Nagpur, said Police, adding that these companies are operating in Jaypee Vasant Continental Hotel in Delhi.

US-Iran talks halt as Israel burns Lebanon

US Vice President JD Vance also postponed his trip.

Israel's military struck targets in southern and eastern Lebanon overnight, and Hezbollah reported intense fighting. Lebanon's Health Ministry said at least 21 people were killed, and Israel said four soldiers died.

The conflict between Israel and the Iran-backed militant group is the most precarious part of the Iran deal. Neither Israel nor the militant group signed the agreement - but it is supposed to end their fighting, and Iran has signalled its willingness to risk renewed war in the region for the sake of its interests in Lebanon and its most important regional ally.

The interim deal has halted hostilities in Iran and the Gulf and reopened the Strait of Hormuz, after Iranian attacks and threats all but stopped the flow of oil and natural gas through the waterway, creating a global energy crisis.

But future talks are supposed to bring about a permanent end to the conflict, including addressing how to restrict Iran's nuclear program - the core issue over which Israel and the US went to war on February 28.

The Israeli military said four soldiers, including a lieutenant colonel, were killed in an attack on a tank in a village near the southern Lebanese city of Nabatiyeh. An explosive drone attack wounded another five, it added.

Israel then launched multiple strikes against "Hezbollah infrastructure sites" in Nabatiyeh and other areas, according to a military statement,

FROM PAGE - 1

which accused the militant group of "blatant ceasefire violations."

Later, the military said it also struck targets in the Bekaa Valley in eastern Lebanon, with Lebanese media saying the village of Douris was hit.

"Israel will not tolerate attacks on our soldiers or on our territory, and it will exact a very heavy price from Hezbollah for these attacks," Netanyahu said in a statement.

Hezbollah acknowledged targeting Israeli tanks and said its attacks were in response to what it called Israel's own violation of the ceasefire. It said the attacks came after Israeli forces attempted to reach the northern side of Ali al-Taher hilltop, a strategic point that overlooks Nabatiyeh and that Israeli troops have been trying to capture.

In southern Lebanon, many were forced to flee their villages.

"The situation is lawless, we couldn't stay," said Mustafa Zain, who was with his six daughters in a pickup truck.

Beyond the fighting, Israel's occupation of large swaths of southern Lebanon is also a sticking point. Iran insists Israel must withdraw, but Netanyahu has said that forces would remain in a "security zone" of southern Lebanon as long as "Israel's security needs require it."

Israel's actions have created a rift between Israel and the US, with Trump becoming increasingly critical of his close ally Netanyahu, who is also facing increasing criticism at home. (AP)

SC declares right to walk on footpath a...

"The violation of the right to walk on demarcated footpaths will entitle the citizens to invoke constitutional and legal remedies against duty bearers for restitution and compensation. This remedy is independent of the remedies that are available under the Motor Vehicles Act, 1988," it said.

It directed the registry to send the judgement to the central ministries and law commission for initiating the necessary legal framework.

The top court said human beings have started walking long before wheels were put on the path and the primary right of movement under Article 19(1)(d) is the Fundamental Right to Walk, a right that precedes the right to move on wheels and this precious right must extend to guaranteeing access to safe and well demarcated footpath.

"The citizen's fundamental right to walk on a demarcated footpath is primary and shall have priority over movement by motorised vehicles," it said, adding that accidents like in the instant case continue to occur, perhaps they are inevitable till citizens restructure their rights regime as regards access to roads and recognise their correlative duties.

"Till then, we will continue to cope with these tragedies by routinely transforming them into FIRs and motor accidents claims," it said, while pointing out that it is rather strange that people failed to focus on recognizing and securing this "right to walk".

"It could also be elitism to start with, for machines with wheels were only for the rich, but as economies progressed and cheaper motor vehicles were introduced, the entire spectrum of motorised transportation dominated the roads, pushed aside the walkers to the extent that they are treated as a nuisance for the drivers who routinely run over the walkers and their footpaths. This should stop from now on as we declare the fundamental right to walk on demarcated footpaths alongside motorised roads," the bench underscored.

It further said that the Motor Vehicles Act, 1988, was not and has never been the statute that recognises the fundamental right to walk and in fact, the law has been an impediment and, in many ways, undermined the precious rights of walkers.

"The absence of safe and comfortable footpaths to walk on, and even when they exist, their subjugation to motor transport, has been a civilizational problem," it said, adding that all that the fundamental right to walk demands was a comfortable space for an easy and carefree walk. It highlighted that the Motor Vehicles Act was

built upon "vehicle" as the subject of the legislation, while "human" interests were incidental, which a motor vehicle must avoid violating - that's all, and no further.

"In its discourse, the right of a pedestrian is incidental; the mainstay of this legislation is the Motor Vehicle," it pointed out and said that the court must affirm and secure to citizens this fundamental right to walk on demarcated footpaths with clear articulation and declaration of such a right with the correlative duty to provision and maintain footpaths.

"If a road exists, there must then be a duty to ensure that a footpath is demarcated and maintained for the walkers. This is an enforceable duty. The fundamental right to walk on demarcated footpaths shall override the privilege of a motorised vehicle," it said.

The top court enhanced the motor accident claim compensation to Rs 11, 44,628 lakh payable to the father of the deceased child within two months and set aside the high court order reducing it.

It directed the registry to register the case with title "Re: Fundamental Right to Walk and Footpath" and impleaded the Centre through Ministries of Housing and Urban Affairs, Rural Development and Road Transport and Highways, as parties and sought the assistance of ASG KM Nataraj in the matter.

Punjab police departs Khalistani terror...

The deported operatives are believed to have served as overseas handlers, providing logistical and financial support to the module targeting India's vital freight corridors. Their capture could unlock crucial insights into funding routes and reveal other operatives operating from abroad. The Khalistan Zindabad Force (KZF) - a banned pro-separatist militant group in India and the EU - has long exploited diaspora networks for resources and ideological backing. Malaysia has increasingly become a hub for such clandestine activities, with terror modules establishing channels for finance and coordination. With the two operatives in custody, investigators are now mapping the entire financial and operational network, anticipating more arrests and recoveries as the investigation continues.

TMC seeks disqualification of rebel MPs

One MP passed away sometime ago and the seat remains vacant.

In a show of strength, Banerjee came to meet the Speaker accompanied by three Lok Sabha members - Saugata Roy, Kalyan Banerjee and Mahua Moitra and Rajya Sabha member Derek O'Brien.

Talking to the media after the meeting, Abhishek Banerjee said the rebel MPs, who have claimed to join the NCPI, should be disqualified from the membership of the House on the ground of leaving the party.

He also said their claims of 'merger' are not valid, and according to law, two-thirds of the entire party must merge with another party, not just individual legislators.

"Twenty people met the speaker and claimed they should be treated as a separate group. Later, we got to know those MPs claimed to have joined another party, NCPI; nobody has heard the name of this party. Even they had not heard the name of this party," Banerjee said, flanked by Roy, Kalyan Banerjee, Moitra, and O'Brien. He said the Tenth Schedule of the Constitution is clear: if a member voluntarily gives up membership of a party, he or she is disqualified as an MP.

"So if (they) have been elected on a symbol and (are) claiming after two years that they are joining a new party, their membership should go," he said.

Banerjee also said that the rule on two-thirds of the members merging with another party applies to the whole party, and not just the legislative party.

"Based on that, I, as the leader of Lok Sabha of TMC, have submitted 20 different disqualification petitions against those MPs," he said.

"If you have left your membership of the party, which many of you have spoken of, and this merger is invalid, both are enough to disqualify you from the membership of the House," he said.

Banerjee added that they also presented several court judgments related to the Tenth Schedule to the speaker.

"They are asking for separate sitting arrangement, electing a Lok Sabha leader, chief whip... This is not possible. You will first be disqualified," he said.

"If they have any integrity left, they should leave their posts," he said.

Lashing out at the MPs who switched sides, Banerjee said, "They sold their self-respect."

"Someone has to escape ED, CBI... Some are getting money, or being threatened..." he said adding that he has "concrete proof," and those who have objections with the claims can approach a court.

"They are joining hands with the BJP because they can't fight; there is no space for such people in Bengal politics," he said.

"In the last seven days, I have received five summons... There have been two raids at my house, two raids at Mamata ji's house. They took Mamata ji's security. We don't want it either. What can one expect from the Government that unleashed bulldozers on the poor," he said.

Asked if he would also approach the court over the issue, he said that decision would be taken in due course of time.

"We have left it to the judgment and wisdom of the speaker. He has said he will listen to the other side again and call us once more. I hope the speaker of Lok Sabha will work as per the Constitution and not choke democracy," he said. The move comes after Birla invited the TMC Lok Sabha leader to present his views on the issue before a decision was made on a demand by 20 rebel TMC MPs to recognise them as a separate group following their merger with the NCPI. Banerjee also wrote to the speaker last week, urging him not to accord any recognition, status or facility to any group claiming to be a separate faction of the All India Trinamool Congress, contending that the Constitution and the anti-defection law do not permit the formation of a separate group within an existing political party.

If the speaker accepts the TMC rebels' plea, the NCPI will become the second-largest NDA constituent in the Lok Sabha, ahead of the Telugu Desam Party (TDP) that has 16 MPs and the Janata Dal (United), which has 12.

The BJP on its own has 239 members, excluding the speaker.

The NCPI was registered as a political party in January 2023, with its address listed in the Election Commission's (EC) records as a building in Sankrail in Howrah.

Former Lok Sabha secretary general and constitutional expert P D T Achary cited paragraph 4 of the 10th Schedule of the Constitution to underline that only a political party is allowed to merge with another party and just MPs or MLAs cannot merge.

Paragraph 4 of the 10th Schedule deals with the exception to disqualification in case of a merger. It says a member of a House will not be disqualified if the original political party to which he belonged merges with another political party and not less than two-thirds of the members of the legislature party concerned agree to such a merger.

Achary told PTI that if the leadership of a political party decides to merge with another political party, its MLAs and MPs have to agree on the merger, "but the MPs or MLAs alone cannot merge with another political party. This is the constitutional provision".

An EC official said the NCPI will have to "report" the new developments to the poll authority in due course and that there is "no tearing hurry" to inform the poll body.

A former EC official, who dealt with political parties in the poll panel, termed the TMC rebels' plan to merge with the NCPI an "innovation" that has no mention in either the anti-defection law or the Representation of the People Act.

PM Modi to visit West Bengal, Odisha

PIONEER NEWS SERVICE
New Delhi

Prime Minister Narendra Modi will visit West Bengal and Odisha on June 20-21 and participate in the 12th International Yoga Day celebrations in Kolkata before joining President Droupadi Murmu for offering prayers at the sacred groves Santhali Jahera and Ho Jahera in Mayurbhanj. Modi will also commission three ingeniously designed and built naval ships in Kolkata, the Prime Minister's Office (PMO) said in a statement.

He will inaugurate and lay the foundation stones of multiple development projects in West Bengal and attend with President Murmu a programme in Mayurbhanj marking the completion of two years of the BJP government in Odisha, it said.

On Saturday, Modi will participate in 'Paschimanga Divas' (West Bengal Day) celebrations at Tarakeswar in Hooghly district.

On Sunday morning, he will participate in the 12th International Yoga Day celebrations in Kolkata and address the gathering.

The theme of International Day of Yoga (IDY) 2026, 'Yoga for Healthy Ageing', highlights the role of yoga in promoting physical health, mental well-being, emotional resilience and active ageing, thereby contributing to an improved quality of life.

Since its inception in 2015, when the United Nations General Assembly (UNGA) adopted India's proposal to observe June 21 as IDY, PM Modi has led the celebrations from various locations, including New Delhi, Chandigarh, Lucknow, Mysuru, New York (UN Headquarters), Srinagar and Visakhapatnam. Later on Sunday,

Prime Minister Narendra Modi, centre, being greeted during an event under the Pradhan Mantri Viksit Bharat Rozgar Yojana (PM-VBRY), in New Delhi. Union Minister Mansukh Mandaviya and MoS Shobha Karandlaje are also seen.

Modi will commission three ingeniously designed and built naval ships — INS Dunagiri, INS Sanshodhak and INS Agray — at the Syama Prasad Mookerjee Port in Kolkata, the statement said.

During the 'Paschimanga Divas' celebration on Saturday, the PM will inaugurate and lay the foundation stones of multiple development projects. Spanning sectors of railways, agriculture, rural development, fisheries and animal husbandry, these initiatives will strengthen infrastructure, improve livelihoods, enhance farmer welfare and accelerate socio-economic development across the state, the statement said.

He will also release the 23rd instalment of the Pradhan Mantri Kisan Samman Nidhi (PM-KISAN).

Under this instalment, more than ₹18,880 crore will be transferred

directly into the bank accounts of over 9.44 crore farmers across the country, according to the statement.

In West Bengal alone, more than ₹900 crore will be credited to the accounts of more than 45 lakh beneficiaries, taking the cumulative disbursement under the scheme in the state to over ₹15,000 crore, the statement said.

This takes the total nationwide disbursement to over Rs 4.46 lakh crore since the launch of the scheme in 2019, it said.

Modi will also rollout several key central agricultural schemes in West Bengal. These schemes include Pradhan Mantri Fasal Bima Yojana (PMFBY), Agri Stack as part of the Digital Agriculture Mission, National Mission on Natural Farming, and Pradhan Mantri Dhan-Dhaanya Krishi Yojana.

During 2026-27, the PMFBY, the world's largest crop insurance scheme, aims to provide insurance coverage to nearly 50 lakh farmers across about 14 lakh hectares of agricultural land in West Bengal, protecting crops with an estimated insured value of around ₹28,140 crore while supporting farmers through substantial premium subsidy, according to the statement.

Modi will inaugurate the modernised and capacity expanded fishing harbour at Fraserganj in South 24 Parganas and the newly constructed Modern Fish Market at Sainthia, Birbhum.

These projects will strengthen fisheries infrastructure, improve post-harvest management and provide better marketing facilities for fish producers and traders.

The PM will also inaugurate the Regional Semen Production

Laboratory and Semen Bank for Goats at Haringhata in Nadia district.

He will inaugurate and lay the foundation stones of important railway projects worth around Rs 590 crore, the statement said.

These projects collectively represent a major step towards strengthening infrastructure, empowering farmers, enhancing livelihoods and creating new economic opportunities across West Bengal, it said.

During his visit to Odisha on Saturday, Modi will join the President in a few functions, making it a rare and significant moment for the state. Murmu and Modi will visit Pahadpur village in Mayurbhanj, where they will offer prayers at sacred groves Santhali Jahera and Ho Jahera and visit a skill centre and the Pahadpur school.

The visit will highlight the ongoing efforts to strengthen educational opportunities, skill development and socio-economic empowerment in tribal and rural regions. On Saturday afternoon, Murmu and Modi will participate in a programme at Rairangpur in Mayurbhanj, marking the completion of two years of the BJP government in Odisha.

Modi will inaugurate and lay foundation stones of various development projects worth over Rs 47,600 crore across key sectors, including energy, industrial infrastructure and road connectivity, at the programme and address the gathering.

The projects are expected to strengthen infrastructure, improve connectivity, enhance energy security and generate employment opportunities across Odisha, the statement said.

PRESENTING THEKUA TO SLOVAK SPEAKER HONOUR FOR BIHAR: CM

Chief Minister Samrat Choudhary on Friday praised Prime Minister Narendra Modi for gifting 'Thekua', a traditional Bihari dish, to the Speaker of Slovakia, Richard Rasi, and said that "it is a matter of pride and honour for the state". 'Thekua' is a traditional sweet snack from Bihar and Jharkhand, made using wheat flour, jaggery or sugar, fennel seeds, and ghee. It is a traditional prasad that is often made during Chhath puja. It is offered as a prasad during the Chhath puja. (PTI)

ANANT AMBANI VISITS RSS HEADQUARTERS IN NAGPUR

Industrialist Anant Ambani visited Rashtriya Swayamsevak Sangh (RSS) headquarters here on Friday and met the organisation's chief Mohan Bhagwat. According to sources, Ambani paid a courtesy visit to the RSS headquarters located in Mahal area of the city. Ambani also visited Dr Hedgewar Smruti Mandir premises in Reshimbagh area. It is a memorial of Dr Keshav Baliram Hedgewar, the founder of the RSS, and also serves as the final resting place for his successor M S Golwalkar. (PTI)

Defence Minister Rajnath Singh along with CM Devendra Fadnavis perform a ritual during the Bhoomi Pujan

Rajnath Singh lays foundation for Aluminium extrusion press in Nagpur

PIONEER NEWS SERVICE
New Delhi/Nagpur

Underlining the importance of self-reliance, Defence Minister Rajnath Singh on Friday said: "A nation capable of meeting its own requirements moves forward with the greatest confidence towards safeguarding its interests."

He made this assertion after performing the bhoomi puja for the state-of-the-art 10,000-Tons Aluminium Extrusion Press, along with Maharashtra Chief Minister Devendra Fadnavis, at Ordnance Factory Ambajhari, Nagpur, a unit of Yantra India Limited (YIL).

Rajnath said the Extrusion Press symbolises a shift in the country's approach from relying on imports to producing critical goods domestically. He described taking control of security-related necessities as imperative in the present geopolitical sce-

nario to remain future-ready.

The proposed press will be one of the most advanced facilities of its kind in the country. It will support the manufacture of large and complex aluminium alloy profiles required for defence systems and platforms, aerospace and aviation structures, missile programmes, railways and transportation sectors and other strategic industrial applications.

The project will help reduce dependence on imports of critical aluminium extrusions and strengthen the domestic supply chain, while supporting the future requirements in strategic sectors through indigenous production.

"This extrusion press addresses a crucial need. Modern fighter jets, missiles, and advanced space programmes require metals that are lightweight and strong, capable of withstanding even the most extreme

conditions. Such metals are produced through specialised processes. If the quality of the metal is superior, it will serve well in every situation," said the defence minister.

Highlighting the significant role of Made-in-India equipment in the success of Operation Sindoor, Rajnath stressed the need to increase the indigenous manufacturing of robust hardware to complement the bravery of defence forces personnel.

He underlined that thousands of crucial components constitute the true strength of big machines, and the extrusion press will go a long way in making the nation self-reliant in this critical domain.

The defence minister added that, today, while the nature of warfare is evolving and enemies are harder to detect, conventional warfare and its associated means remain just as relevant.

RS polls: CPI(ML) L seeks probe into cross-voting in Jharkhand

PIONEER NEWS SERVICE
Ranchi

The Jharkhand unit of the CPI(ML) Liberation on Friday wrote to Chief Minister Hemant Soren, seeking a probe into "cross-voting" during the Rajya Sabha polls that led to the defeat of Congress nominee Pranav Jha, a party leader said.

The JMM said the Rajya Sabha poll results will be reviewed within the Mahagathbandhan, and the reasons for not achieving the desired outcome will be examined. The CPI(ML) Liberation alleged that certain Congress leaders and ministers maintain close ties with "forces that promote corporate interests regarding Jharkhand's 'Jal, Jungle aur Jamin' (water, forests, and land)".

"We have written to the chief minister seeking a fair probe into the entire episode of Rajya Sabha polls and urged him to find out the Congress legislators involved in the conspiracy (to defeat the INDIA bloc candidate), which turned out to be a setback for the ruling alliance.

We also sought action against them," CPI(ML) Liberation state secretary Manoj Bhakt said during a press conference. Amid cross-voting, NDA-supported independent candidate Parimal Nathwani on Thursday won one of the two Rajya Sabha seats in Jharkhand, defeating the Congress's Pranav Jha, an official said.

Jharkhand Mukti Morcha candidate Baidyanath Ram was elected to the other seat.

The BJP-led NDA has 24 MLAs, four short of the minimum of 28 first-preference votes required in the 81-member assembly to secure a berth in the Rajya Sabha.

The INDIA bloc, including the JMM and the Congress, has 56 members in the House.

"Instead of taking the responsibility for its failure, the Congress is trying to evade accountability by levelling false allegations against its allies RJD and CPI(ML) Liberation," he said.

AICC in-charge of Jharkhand, K Raju, on Thursday, accused the Rashtriya Janata Dal and CPI(ML) Liberation of "betrayal".

"In accordance with the alliance's decision, both party MLAs voted in favour of the Congress candidate. After the voting, party representatives

also verified the ballot papers and found them to be in order," Bhakt said.

He said the Congress should make public the reality of its MLAs' voting and explain "why this political game, which put Jharkhand's reputation at stake, was played?"

JMM general secretary Vinod Pandey, in a statement, said all 34 of the party's MLAs cast their votes -- achieving 100 per cent turnout -- and voted in favour of both alliance candidates.

"Despite all efforts, the defeat of one of the alliance's candidates was not in line with expectations. So, the results will be reviewed and analysed to determine why the expected result was not achieved," Pandey said, adding that the aim is to overcome such weaknesses in future and strengthen the INDIA bloc in its political battle against the BJP.

Earlier, the RJD alleged that Congress should introspect before pointing fingers at others.

"The RJD and CPI(ML) Liberation are being defamed, while the Congress

itself failed to secure votes of its own MLAs in the election," Jharkhand minister and RJD leader Sanjay Prasad Yadav told reporters here on Friday.

Reacting to the development, Congress media in-charge Rakesh Sinha said in a press statement, "The personal remarks made against K Raju are not only unfortunate but also contrary to the spirit of the Mahagathbandhan."

He said they believe that if a party does not trust its own MLAs and leaders, it is not appropriate to vent its frustration on the Congress. Nathwani polled 28 votes while Jha bagged 20 votes.

Ram received 30 votes in the election, while three votes — two from the BJP and one from the Congress — were found invalid.

The INDIA bloc's 56 members comprise 34 of the JMM, 16 of the Congress, four from the RJD and two from CPI(ML) Liberation.

The NDA's 24 MLAs comprise 21 from the BJP and one each from the LJP (Ram Vilas), AJSU Party and the JD(U).

Sukhu orders land diversion plan for 2,183 roads in Himachal

PIONEER NEWS SERVICE
Shimla

Himachal Pradesh chief minister Sukhvinder Singh Sukhu on Friday directed that a comprehensive plan be prepared for land diversion across all 2,183 roads constructed without approval under the Forest Conservation Act (FCA), 1980. The action will be carried

out under the provisions of the Forest Rights Act, 2006, in accordance with the directions of the High Court of Himachal Pradesh.

Presiding over a meeting of the Forest department, he said many of these roads provide critical access to remote habitations and are important for emergency response, particularly in disaster-prone areas.

These roads were constructed before the FRA was implemented in 2006, and only 150 road cases were approved between 2016 and 2026.

Meanwhile, a public interest litigation was filed before the High Court regarding this matter, directing the department to process these cases under the FRA provisions.

Ready to quit as Shiv Sena (UBT) chief if workers don't trust me: Uddhav

PIONEER NEWS SERVICE
Mumbai

Amid a rebellion by six Lok Sabha MPs of his party, an emotional Shiv Sena (UBT) chief Uddhav Thackeray on Friday said he had not lost his resolve despite challenges and attacks, but was ready to quit his post if the party didn't have faith and trust in him.

In his first comments on the impending split in his party for the second time in four years, Thackeray said he has been leading the outfit for over a decade and given the persistent attacks on him, he was ready to quit the top Shiv Sena (UBT) post.

The former Maharashtra CM was addressing a gathering organised to mark the 60th foundation day of the Shiv Sena in Mumbai.

"I would be happy if someone from the party ranks becomes the next Shiv Sena president, but I will not let it pass on in the hands of thieves," an emotional Thackeray told his supporters. Thackeray said he hasn't wavered and remains steadfast to face all challenges. "But I don't want even a single Shiv Sainik pointing fingers at me, that's why I resigned as chief minister

(in 2022) and didn't continue as MLC (in 2026)," he said. The former CM said Shiv Sena (UBT) workers were not disheartened by the latest developments but were instead fired up, seeking to downplay the rebellion by six of the nine Lok Sabha MPs of his party.

He slammed the rebel MPs for claims that they feared the Shiv Sena (UBT) might merge with the Congress.

"If we didn't merge with the BJP despite being an ally for 30 years, how can we merge with the Congress. I fear the Maharashtra BJP might merge with the Shinde Sena," he remarked.

The Shiv Sena (UBT) leader hit out at his political opponents, who often criticise his style of functioning and alleged disconnect with workers and people.

Shivakumar pushes single-window system to boost coastal tourism investment

PIONEER NEWS SERVICE
Bengaluru

Karnataka Chief Minister DK Shivakumar on Friday said the state government would hold a Cabinet meeting in the coastal region, and directed officials to resolve technical issues affecting tourism and investment projects ahead of it.

Chairing a meeting on coastal tourism at Vidhana Soudha, he instructed officials to prepare a report within 15 to 20 days on technical obstacles arising from Coastal Regulation Zone (CRZ) norms and issues related to the Forest Department, identifying both problems and possible solutions.

Stressing the need to facilitate investments, the CM said, "We must create smooth and simple pathways for investors; depart-

Karnataka Chief Minister DK Shivakumar and others during a meeting over the ineligible beneficiaries and misuse of the five guarantees in Bengaluru

mental hurdles faced by entrepreneurs must be resolved."

He directed officials to promote the culture, traditions, customs and heritage of the coastal region

at the international level, while giving priority to employment generation and economic growth, the CM's office said in a statement.

According to officials, 45 projects

with an estimated investment of Rs 718.63 crore have been approved under the Karnataka Tourism Policy. These projects are expected to generate about 4,500 jobs.

The CM said employment generation should increase further. Noting that Karnataka has one of the country's longest coastlines, Shivakumar asked officials to explore tourism development opportunities in coastal areas without causing environmental damage.

The CM expressed support for introducing a single-window system to secure the various approvals required for development projects, ensuring that technical hurdles do not impede progress.

Officials told the meeting that coastal tourism has been identified as a special sector under the state's

tourism plans. Tourism zones and large-scale tourism projects are being planned, while coastal fairs, festivals and marketing initiatives will be promoted.

Shivakumar emphasised the need to provide incentives such as subsidies, interest subsidies and concessions to help achieve the government's objectives and attract investments. Actor and filmmaker Rishab Shetty, who was also part of the meeting, called for greater importance to be given to the arts and said coastal folk arts and music should be encouraged.

The actor said improved facilities for film shooting would benefit the film industries of Karnataka, Kerala and Goa. Industrialists who attended the meeting urged the CM to focus on the development of heli-tourism in the coastal region.

PM-VBRY has created over 70 lakh jobs, says PM Modi

PIONEER NEWS SERVICE
■ New Delhi

Pradhan Mantri Viksit Bharat Rozgar Yojana (PM-VBRY) has created over 70 lakh jobs across the country so far, Prime Minister Narendra Modi said on Friday as he transferred incentives worth ₹2,400 crore for 15 lakh first-time employees and their employers. The amount will be transferred to the beneficiaries through the direct benefit transfer.

Addressing the event, Modi said that when the Government, the youth and the industry work together, job creation grows multi-fold.

He informed that Pradhan Mantri Viksit Bharat Rozgar Yojana has created 70 lakh jobs and provided social security cover for the beneficiaries under the scheme. The Government encour-

ages those institutions or employers who generate new jobs, Modi said, adding that the Pradhan Mantri Viksit Bharat Rozgar Yojana forms a bridge between the youth and the industry for first-time job seekers. He said, "Through PM Viksit Bharat Rozgar Yojana, we are supporting employment generation, empowering youth and building a stronger workforce for the future."

The scheme is about empowering first-time employees and building a bridge between the youth and the industry, he stated. The aspirations, skills and potential of our youth shape the path to a Viksit Bharat, he said.

Modi further said that India's youth will be at the

forefront of driving global growth, innovation and entrepreneurship in the years to come.

In the 21st century, opportunities will belong to nations that nurture skilled talent, foster innovation and uphold the highest standards of quality, he said, adding that India has unprecedented capability in these three areas.

Under PM-VBRY, the Government has provided an outlay of ₹99,446 crore and targeted 3.5 crore job creation in two years.

Under the scheme, up to ₹15,000 is provided for first-time employees. Employers get up to ₹3,000 per month per new employee under the scheme.

To boost employment in the manufacturing sector, extended benefits are being provided for up to four years under the scheme.

PASSPORT DELIVERY NOW TRULY DEMOCRATISED: JAISHANKAR

The passport delivery process today has become "truly democratised", and this seamless service serves as an engine for a prosperous, globally connected and Viksit Bharat, External Affairs Minister S Jaishankar said on Friday. In his address at the Annual Regional Passport Officers' Conference, which also marked Passport Seva Divas, he said the annual passport issuance volume has surged to over 138 lakh in the financial year 2025-26, which reflects the "soaring aspiration" of India and its people. The external affairs minister said the passport service today has become "swift" and "accessible", while acquiring a passport was akin to a privilege earlier.

(PTI)

DEFENCE MINISTRY INKS ₹425 CR DEAL FOR NAVY GENERATORS

Ministry of Defence on Friday signed a contract with Bharat Forge Limited, Pune, for the acquisition of 12 sets of 1.25 MW Marine Gas Turbine Generators, with a minimum 60 per cent indigenous content, for the Indian Navy at a total cost of around Rs 425 crore.

Giving details, officials said the contract was inked under the Buy (Indian) category in the presence of Defence Secretary Rajesh Kumar Singh.

The project reinforces the Government's commitment to Atmanirbhar Bharat and Make-in-India by creating a robust domestic manufacturing ecosystem. It would enhance maritime self-reliance in critical strategic technologies and bolster the Indian Navy's operational readiness through indigenous production and end-to-end life-cycle support.

(PTI)

NIA arrests 10 accused in Manipur ethnic violence cases

PIONEER NEWS SERVICE
■ New Delhi

The National Investigation Agency (NIA) on Friday arrested 10 accused in six different cases of ethnic violence in Manipur.

In a coordinated operation with Manipur Police and the Central Reserve Police Force (CRPF), a joint multi-location search operation in the districts of Imphal East, Imphal West, Bishnupur, Churachandpur, Ukhrul, Chandel, and Pherzawl in the strife-torn north-eastern state led to the arrest of the accused.

Investigations in multiple cases revealed that the accused had played active roles in various incidents of violence during the period of ethnic unrest in Manipur, including attacks on security

forces, looting of arms and ammunition, and bank robberies, a statement issued by the NIA said. The operations, conducted on the basis of extensive intelligence, technical and field investigations by the NIA along with the state police and the central security agency, were focused on identifying and prosecut-

ing individuals, across communities, involved in criminal and terrorist activities in the state, it said.

The NIA expects the arrests to reveal significant information about the planning, execution, and support networks involved in the cases of violence, the statement said. The agency is also exam-

ining possible linkages between the various incidents, as well as the individuals and groups involved in the insurgency, it said.

More than 260 people have been killed and thousands rendered homeless in ethnic violence between Meiteis and Kuki-Zo groups since May 2023.

No leave for medical students during NEET exam: NMC

PIONEER NEWS SERVICE
■ New Delhi

The National Medical Commission has directed all medical colleges and institutions under its purview not to grant leave to students on June 20 and 21, except in exceptional circumstances, to support the fair conduct of the NEET-UG re-exam on Sunday.

The move comes in the backdrop of some instances when students of medical colleges were found to be involved in activities that could compromise the sanctity and integrity of the examination process, the Commission said in a notice issued on Thursday. The instruction has been issued in compliance with directions received from the Department of Higher Education under the Ministry of Education regarding the conduct of the medical entrance examination, it said.

The Commission also asked medical colleges to remain vigilant and sensitise students against involvement in any activities that could compromise the sanctity and integrity of the examination process.

"In the past, instances have come to notice where some students of medical colleges were found to be involved in activities that could compromise the sanctity and integrity of the examination process," the notice said.

"In view of this, and as a matter of general deterrence, all the medical colleges are hereby directed to remain vigilant and ensure that students are sensitised against any involvement in activities prejudicial to the conduct of the examination," it added.

TN Assembly unanimously resolves against Mokedatu Dam

PIONEER NEWS SERVICE
■ Chennai

The Tamil Nadu Assembly on Friday adopted a unanimous resolution against Karnataka's move to construct a dam across river Cauvery at Mokedatu, expressing support for all measures undertaken by the State Government on the issue.

Chief Minister C Joseph Vijay piloted the government resolution over the nearly 13 years long dispute with the neighbouring State, with the members of the opposition, including Leader of the

Opposition Udhayanidhi Stalin and AIADMK chief Edappadi K Palaniswami, backing the Government.

The Congress too supported the ruling TVK in the Assembly, taking a contradictory stand opposing the Karnataka Congress Government, which is keen on pursuing the balancing reservoir project.

Experts flag concerns over SC-appointed Aravalli panel

PIONEER NEWS SERVICE
■ New Delhi

Scientists, senior environmental and policy experts, and other stakeholders from across India have written to the Chief Justice of India (CJI), raising questions over the composition of the Supreme Court-appointed high-powered expert committee tasked with reviewing the Centre's report on the definition and delineation of the Aravalli hill range.

The letters, written on Thursday and Friday, seek changes to the committee's composition, citing concerns about its independence.

The committee, constituted under the Supreme Court's May 25 order, is headed by Kanchan Devi,

Director General of the Indian Council of Forestry Research and Education, and has been directed to submit

its report by August 31.

The other members of the panel are Dr Subhash Ashutosh, former director general of the Forest Survey of India; Dr Rajendra Kumar Sharma, former director of the Geological Survey of India; Brij Mohan Singh Rathore, former joint secretary in the Environment Ministry; and Professor Ashok K Bhatnagar, former head of the Department of Botany at Delhi University.

The court also appointed Professor Jagdish Krishnaswamy of the Indian Institute for Human Settlements, Bengaluru, and

Professor Laxmikant Sharma of the Central University of Haryana as special invitees whom the chairperson may associate with the committee's work, if required.

The Environment Ministry was directed to nominate an officer of the rank of director to serve as the panel's member secretary.

In one of the letters, environmentalist and social scientist, Dr Ravi Chopra, expressed doubts about the panel's ability to provide independent written opinions on the disputed issues, noting that almost all its members are serving or retired Government officials.

NTA to hold nationwide mock drill for NEET exam

PIONEER NEWS SERVICE
■ New Delhi

The Centre is not leaving anything to chance, and the National Testing Agency (NTA) will conduct a nationwide mock drill on Saturday as part of the preparations to ensure the NEET UG-2026 re-examination on Sunday, June 21, is conducted smoothly and securely.

The mock drill will begin at 9 AM and continue until late evening. More than 2.5 lakh security personnel are expected to participate in the

exercise across the country. All examination centres have already been handed over to the National Testing Agency (NTA). On the day of the examination, the centres will operate under a three-tier security system to prevent any irregularities.

According to officials, paramilitary forces will be responsible for the custody and security of question papers and answer booklets. More than 5,000 examination centres across the country will be monitored through CCTV surveillance

and security personnel deployed.

The nationwide mock drill is aimed at assessing preparedness, coordination among agencies, and the effectiveness of security measures ahead of the examination. Elaborate security arrangements are in place to ensure the examination is conducted smoothly for the 22.79 lakh candidates who would be appearing for the re-NEET. On Friday, the Government issued detailed advisories on where to track updates on the examination, and also listed the arrangements in place.

Himanta urges FM Sitharaman to raise northeast funding limits

TONY DAS
■ Guwahati

Assam Chief Minister Himanta Biswa Sarma on Friday urged Union Finance Minister Nirmala Sitharaman to allow the northeastern states to have access to enhanced funds through externally aided projects, citing "exceptional track record and honest implementation of schemes and projects" in the region.

He said that such projects, worth Rs 53,000 crore, are underway in Assam alone.

"On behalf of Assam and our sister states in the northeast, I made a passionate appeal to Finance Minister Nirmala Sitharaman to allow

our Governments access to enhanced limits through Externally Aided Projects (EAP), keeping in view our exceptional track record and honest implementation of schemes and projects," Sarma said on X.

After attending a seminar on 'Leveraging EAPs in North-Eastern States' in Shillong, he said that over the past few years, these projects, backed by multilateral financial agencies, have empowered Assam to initi-

ate multiple mega transformative projects, which were initially considered unviable due to the high cost of capital.

Currently, such projects worth Rs 53,000 crore are underway in Assam alone, in sectors such as building bridges and embankments, hospitals, robotics, mega power and infrastructure projects, Sarma said.

"Needless to say, Externally Aided Projects also bring in vibrant project management skills and global best practices into our Government machinery," he added.

Sarma maintained that the inaugural session of the seminar was "an excellent platform to improve

collaboration and planning in the implementation of such projects".

The Chief Minister's Office (CMO), in a post on social media, said Sarma highlighted the transformative growth of Assam.

Sarma cited the successful completion of the EAP-funded Lower Kopili Hydroelectric Project in just three-and-a-half years. He also mentioned projects such as the Kumar Bhaskar Varma Setu in Guwahati and the ongoing Dhubri-Phulbari Bridge as examples of the state's strong development momentum and effective utilisation of Externally Aided Projects, the CMO said.

BJP dismisses Rahul's future PM prospects

BJP national spokesperson Sudhanshu Trivedi

PIONEER NEWS SERVICE
■ New Delhi

The BJP on Friday took a swipe at Congress leader Rahul Gandhi on his 56th birthday, dismissing projections of him as a future prime minister and asserting that a PM from the Nehru-Gandhi family is a "thing of the distant past".

The ruling party also said repeated attempts to reinvent Gandhi's image have failed to win public support and challenged the Congress leader to do serious work on the ground instead of engaging in "frivolous and mischievous" activities.

Addressing a press conference here, BJP national spokesperson Sudhanshu Trivedi said a member of the Nehru-Gandhi family has not occupied the post since Rajiv Gandhi.

"A prime minister from the Nehru-Gandhi family has become a thing of the distant past. The last prime minister from the Nehru-Gandhi family was the late Rajiv Gandhi. Since 1989, 37 years have passed," Trivedi said, when asked about Congress leaders projecting Gandhi as a future prime minister and his recent claim that the Government would fall within a year.

"Even today, if they are talking about Rahul Gandhi becoming prime minister in the future, he will have to do something serious on the ground instead of engaging in activities that are frivolous and mischievous," he added.

Replying sharply to Youth Congress workers celebrating Gandhi's 56th birthday by depicting him as Lord Parshuram, Trivedi said it should be left to the "wisdom of the people" to decide how the day should be observed.

"I think Pandit Jawaharlal Nehru's birthday used to be celebrated as Children's Day. I leave it to the wisdom of the people and viewers to decide what day Rahul Gandhi's birthday should be observed as," Trivedi said.

Youth Congress workers in Varanasi celebrated Leader of Opposition in the Lok Sabha Rahul Gandhi's 56th birthday with symbolic rituals, including pouring milk over his photograph in the Ganga River.

In the image used during the celebration, Gandhi was depicted as Lord Parshuram, holding an axe in one hand and a copy of the Constitution in the other.

Trivedi, a Rajya Sabha MP, said despite undergoing "dramatic" changes in style, body language and appearance in over a decade, Gandhi has continued to "lose his place in the hearts of the people".

Targeting the opposition alliance, Trivedi claimed that the INDIA bloc has lost relevance.

"I think the very existence of the INDIA (bloc) has become a subject for reflection. When Narendra Modi became prime minister, there was the UPA.

"Where is the UPA today? What is its actual status?" he said.

NSF slams Yoga Day order for hurting faith

PIONEER NEWS SERVICE
■ Kohima

The Naga Students' Federation (NSF) has expressed grave resentment and unequivocal opposition to a recent circular issued by the Directorate of School Education, Government of Nagaland, which directs educational institutions across the State to observe the 12th International Day of Yoga on June 21, 2026.

The student body has strongly objected to the scheduling of the event, pointing out that June 21 falls on a Sunday. The Federation viewed the directive as a blatant disregard for the religious sentiments and spiritual convictions of the Naga people, emphasising that Sunday occupies a sacred place in the Christian faith and is strictly devoted to worship, prayer, and fellowship.

In a joint statement, NSF President Mteising and Education Committee Convenor Pithungo Shitio asserted that institutionalising such activities on a Sunday violates the religious freedom guaranteed under Article 25 of the Indian Constitution. They added that the directive is inconsistent with Article 18 of the International Covenant on Civil and Political Rights

(ICCPR) and Article 18 of the Universal Declaration of Human Rights (UDHR).

"The Federation condemns in the strongest terms the unwarranted directive and calls upon the Directorate of School Education and the Government of Nagaland to immediately withdraw the notification," the statement read. The NSF cautioned the state Government against any attempt to coerce compliance under the guise of official instructions, warning that authorities would be held solely responsible for any untoward consequences.

Home ministry working with SC to cut case pendency: Amit Shah

PIONEER NEWS SERVICE
■ New Delhi

Union Home Minister Amit Shah on Friday said his ministry is "actively engaged" with the Supreme Court to work out a new system for reducing the pendency of cases in the apex court and high courts, and ensure timely justice for people.

Speaking at the inauguration of the All India Fingerprint Conference-2026, organised by the National Crime Records Bureau (NCRB), Shah stressed that police and forensic experts should accurately collect evidence from the crime scene and ensure that these are "not contaminated" to secure a fast and correct conviction. He also spoke about the three new criminal laws introduced

by the Modi Government to ensure timely justice.

"We identified the loopholes (in the old criminal laws), and 90 per cent of the law-based ones have been addressed. The Union home ministry is actively engaged with the Supreme Court for creating a new system to address volume-based delays in the high courts and the

Supreme Court," Shah said. He said the Government is "determined" to prevent delays in the criminal justice system.

Addressing police and forensic experts from across the country, the minister told them to file timely charge sheets, follow up with the prosecution, and pursue cases before the courts to ensure timely decisions.

Shah said converting information or data into intelligence is important and cited the example of the Mahabharata, where Lord Krishna played this role and ensured victory for the Pandavas against the numerically superior Kauravas.

He said all the data gathered from crime scenes should be analysed with the help of artificial intelligence (AI) and machine learning tools to find crime patterns so that not only can crimes be pre-empted, but criminals are also caught quickly.

The minister said that a modus operandi bureau, which he suggested creating within the NCRB four years ago, should now start working to study crime patterns, repeat offenders, and interstate and international criminal networks.

Govt to deploy area officers for VB-GRAM G rollout

PIONEER NEWS SERVICE
■ New Delhi

The Ministry of Rural Development will deploy more than 100 area officers across the country to assist states and Union territories ahead of the implementation of the VB-GRAM G Act from July 1, a statement said on Friday.

The officers will act as facilitators and resource persons during the rollout phase, working with State Governments, district administrations and field-level functionaries to support implementation, strengthen capacities, share best practices and address operational challenges, the ministry said. The move comes as preparations for the new rural employment framework gather pace. The ministry said an interim allocation of ₹95,692 crore has been approved as the

Centre's share for 2026-27, while 27 states and Union territories have already made budgetary provisions for implementing the Act.

Six states/UTs have notified their state schemes under the Viksit Bharat-Guarantee for Rozgar and Aajeevika Mission (Gramin) (VB-GRAM G) framework, it added. The area officers were briefed through an orientation programme covering the Act's key features, implementation framework, institutional arrangements,

technology-enabled governance systems and support mechanisms available for states and districts. The programme was chaired by Rural Development Secretary Rohit Kansal, while Joint Secretary Rohini R Bhajbhakare conducted the orientation.

The ministry said the VB-GRAM G Act seeks to transform rural employment by linking guaranteed wage employment with livelihood promotion, climate resilience, rural infrastruc-

ture creation and technology-based governance.

It will also use tools such as Viksit Gram Panchayat Plans (VGPPs) and GIS-based planning to support the vision of Viksit Bharat in 2047. As part of preparations, all states and UTs have been onboarded onto the DBT-SPARSH platform, nearly 93 per cent of active workers have completed e-KYC, and a face authentication-based attendance system has been rolled out nationwide, according to the ministry.

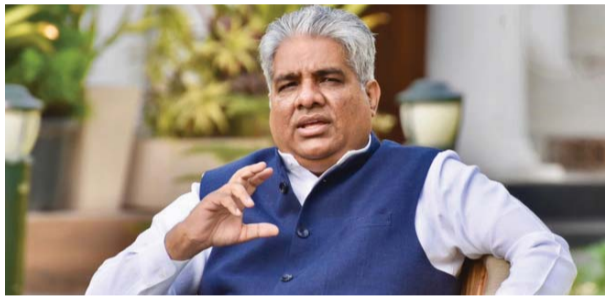

Minister Bhupender Yadav lauds Gujarat's Vidya Samiksha Kendra

PIONEER NEWS SERVICE
■ Gandhinagar

Union Minister for Environment, Forest and Climate Change Bhupender Yadav visited the Vidya Samiksha Kendra (Integrated Command and Control Centre for Schools) in Gandhinagar on Friday, describing the technology-driven education monitoring system as a model that could guide education reforms across India.

During his visit, Yadav reviewed the centre's large video wall and real-time data monitoring platform, which tracks the functioning of thousands of Government schools across Gujarat. Education Department officials demonstrated how the system monitors student attendance, teacher attendance, academic performance, midday meal implementation and other key indicators to support informed decision-making.

The minister said technology-backed monitoring can

play a significant role in improving the quality of education data for policy formulation. He noted that the platform can help identify the reasons behind student dropouts, enabling authorities to design targeted interventions to improve retention and learning outcomes.

Yadav also praised the centre's integrated dashboard, saying the Gujarat model has emerged as an example for other states seeking to modernise school governance. He expressed confidence that the Vidya Samiksha Kendra has the potential to become a

leading hub for technology-enabled education management in the country. The Union Minister also interacted with senior officials of the Education Department on initiatives such as Atal Tinkering Labs, STEM education and library development. He emphasised the need for scientific and technology-based assessment methods to strengthen students' reading skills, pronunciation and overall learning.

Bhupender Yadav Lauds Gujarat's Vidya Samiksha Kendra, Calls It a National Model for Technology-Driven School Education.

Chhattisgarh push to connect families with welfare schemes

PIONEER NEWS SERVICE
■ Raipur

The Chhattisgarh government has decided to launch a campaign aimed at taking good governance to every household and ensuring that all eligible families receive the benefits of welfare schemes, officials said on Friday.

The campaign, 'Sughar Chhattisgarh' (Beautiful Chhattisgarh), will be a large-scale saturation drive covering 31 major beneficiary-oriented schemes across 23 districts of the state, with the objective of strengthening their reach, effectiveness and transparency, an official statement said.

Chief Minister Vishnu Deo Sai said the foundation of a developed Chhattisgarh relies not only on infrastructure development, but also in ensuring effective and timely delivery of Government schemes to every family. "The Government's objective is

Chhattisgarh CM Vishnu Deo Sai

not merely to implement schemes, but to ensure that their positive outcomes are visible in the lives of all families," Sai said in the statement.

The government aims to establish a governance system in which citizens do not have to run from office to office to access benefits, but instead the administration proactively reaches out to eligible recipients and connects them with welfare programmes, he emphasised.

Gujarat clears ₹1,567-crore projects to create 1,200 jobs

PIONEER NEWS SERVICE
■ Rajkot

The Gujarat Government has approved incentive assistance for 15 large-scale industrial projects involving a combined investment of ₹1,567.18 crore under its Industrial Policy-2015. The approved projects are expected to generate around 1,238 employment opportunities across the State.

The approvals were granted during a meeting of the committee responsible for issuing Final Eligibility Certificates to large industries under the State's Incentive to Industries Scheme. The meeting was chaired by Deputy Chief Minister and Industries Minister Harsh Sanghavi.

The Industrial Policy-2015 was introduced to strengthen Gujarat's position as one of India's most preferred investment destinations while enhancing its competitiveness on the global

Gujarat Deputy Chief Minister and Industries Minister Harsh Sanghavi

industrial map through targeted incentives for new investments.

According to the State Government, the scheme has so far attracted investments worth ₹1,48,336.35 crore, resulting in nearly 1,65,053 direct jobs. Officials also noted that the policy has encouraged the growth of micro, small and medium enterprises (MSMEs), contributing to the development of a stronger industri-

al ecosystem across Gujarat. Among the projects approved in the latest meeting, the largest investment is a ₹999.82-crore chemical manufacturing project in Bharuch district. Other proposals include an automobile project worth ₹75.72 crore in Ahmedabad district, an automobile investment of ₹44.56 crore in Surendranagar district, and a ₹13-crore textile project in Gandhinagar district.

Govt attempting to create manufactured mandates: Pilot

PIONEER NEWS SERVICE
■ Jaipur

Congress leader Sachin Pilot on Friday accused the Centre of attempting to create a "manufactured mandate" to push its political agenda, saying that such efforts were an insult to people's verdict and contrary to democratic values.

Pilot, a Congress general secretary and former Rajasthan deputy chief minister, said the BJP had received a mandate to govern but not a two-thirds majority. "People gave the BJP a mandate to run the Government, but not a two-thirds majority. Attempting to artificially create such a mandate is against democratic values," he said in a statement. He alleged that efforts were being made to reintroduce the Delimitation Bill.

"Trying to bring back a Bill that had already fallen, through a 'manufactured mandate', is an attempt to fulfill a political agenda that the people have not endorsed," Pilot said.

He claimed that attempts to influence constitutional processes by "breaking political parties and shifting MPs" would not be accepted by people. Raising concerns over the delimitation process, Pilot said it must follow a defined constitutional framework.

"There is a laid-down constitutional process for delimitation. First, a census should be conducted, then a commission constituted, and only thereafter should the process move forward," he said.

Carrying out delimitation without following due procedure would be "unlawful, unethical and unconstitutional," he said, alleging that such moves were aimed at achieving political objectives.

CPI(M) demands reduction of fuel prices following US-Iran pact

PIONEER NEWS SERVICE
■ New Delhi

The Polit Bureau of the Communist Party of India (Marxist) on Friday urged the Central Government to take immediate steps to slash the prices of petrol, diesel, and gas, citing a drop in global oil prices following the signing of a Memorandum of Understanding (MoU) between the United States and Iran. In a press statement, the CPI(M) noted the

diplomatic breakthrough with optimism, stating that the agreement is expected to bring much-needed economic relief globally after the "unwarranted US-Israel aggression against Iran."

The party emphasised that with the US removing its blockade on Iranian vessels in the Strait of Hormuz and Iran allowing the safe passage of ships, global pressure on energy and fertiliser supplies would ease significantly. "Oil prices in the

energy markets have already seen a decline, and the Government of India should take immediate steps to

reduce the increased prices of gas, petrol, and diesel," the statement issued by the CPI(M) Central Committee

Office noted.

The party also demanded urgent measures to secure the availability of essential agricultural inputs, particularly urea, for domestic farmers. Slamming Western foreign policy, the left party asserted that the development demonstrates the "limits of imperialist aggression," pointing out that the US was compelled to lift sanctions, unfreeze assets, and agree to pay reparations due to growing global

public anger and widespread protests.

The CPI(M) further called on Israel to adhere to the UN Charter and desist from attacking Lebanon.

Turning its focus back to domestic foreign policy, the Polit Bureau stated that New Delhi must recognise the global public sentiment against Washington and Tel Aviv, demanding that the Indian Government immediately desist from aligning with them.

NCW asks states to make annual POSH audits mandatory

PIONEER NEWS SERVICE
■ New Delhi

The National Commission for Women (NCW) on Friday issued an advisory to all states and Union Territories, recommending mandatory annual POSH audits, and a host of measures to strengthen workplace safety and effective implementation of guidelines under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. The advisory has been sent to chief secretaries and directors general

of police of all states and UTs and has also been disseminated to district magistrates, senior superintendents of police and commissioners of police across the country for grassroots-level enforcement and accountability.

"A woman should never have to choose between her dignity and her livelihood. Every workplace must be a space of safety, respect and equal opportunity," NCW chairperson Vijaya Rahatkar

said. "Effective implementation of the POSH Act is not merely a legal obligation but a collective responsibility towards ensuring women's empowerment and participation in nation-building," she said.

In a statement, the commission said that the advisory seeks to ensure that every workplace, whether in the Government, private, organised or unorganised sector, strictly complies with provi-

sions of the Prevention of Sexual Harassment (of Women at Workplace) (POSH) Act and fosters a safe, inclusive and gender-sensitive working environment for women.

In a major step towards institutional accountability, the commission has advised all states and UTs to establish dedicated POSH monitoring cells or digital compliance dashboards to track implementation of the POSH Act,

the statement said. The states have also been urged to conduct periodic reviews at senior administrative levels, facilitate capacity-building, issue necessary guidance to establishments and district authorities, and ensure adherence to statutory obligations and judicial directions. The advisory recommends mandatory annual POSH audits for all establishments employing 10 or more persons.

the statement said.

The states have also been urged to conduct periodic reviews at senior administrative levels, facilitate capacity-building, issue necessary guidance to establishments and district authorities, and ensure adherence to statutory obligations and judicial directions. The advisory recommends mandatory annual POSH audits for all establishments employing 10 or more persons.

Stop State-backed corporate land grab: Bhumi Adhikar Andolan

PIONEER NEWS SERVICE
■ New Delhi

The Bhumi Adhikar Andolan (BAA) on Friday strongly condemned what it termed a "State-backed corporate land grab" unfolding across the country under the guise of development. The front alleged that crucial legal safeguards are being systematically diluted and bypassed to facilitate corporate accumulation at the cost of working-class settlements and indigenous communities.

According to data compiled by the collective, India is currently witnessing 1,092 ongoing land conflicts, impacting nearly 1.42 crore people and covering 47.7 lakh hectares of land. Over the past year alone, the BAA

recorded nearly 300 cases of aggressive land acquisition, evictions, demolitions, and displacement-related conflicts. "Bulldozer-led eviction drives across states have displaced at least 6,500 families, demolished more than 5,000 homes, and cleared at least 1,700 acres of land. 'Anti-

encroachment' has become a language to erase the poor, landless, forest dwellers, and minorities," the BAA statement signed by leaders including Hannan Mollah, Ulka Mahajan, and Prafulla Samantara noted.

The organisation highlighted massive land monetisa-

tion across sectors, noting that the National Highways Authority of India (NHAI) spent ₹16,476.83 crore on land acquisition in FY 2025-26 up to February 2026, while real estate developers acquired 3,093 acres across 149 transactions worth ₹54,818 crore in 2025.

Expressing grave concern over the Great Nicobar mega project, the BAA demanded an immediate halt to the plan. The project requires the diversion of over 130 sq km of rain-forest and Tribal Reserve land, threatening the Shompen PVTG and Nicobarese communities while risking the release of 4.3 million tonnes of carbon dioxide. The front further flagged extensive ecological and community disruptions across several states. In

Odisha, concerns were raised over the scale of the Jindal-POSCO steel project in Keonjhar, where the larger plan reportedly aims to acquire nearly 11,000 acres of multi-crop agricultural land against the publicly projected 2,024.66 acres. Meanwhile, in Assam and the wider North East, the BAA recorded 14 major cases of displacement, including the Goalpara eviction affecting 667 families and the corporate transfer of 1.53 lakh bighas in Karbi Anglong.

Unchecked resource extraction was also highlighted in Central India, where the proposed Kente Extension Coal Block in Chhattisgarh's Hasdeo Aranya involves the diversion of 1,742.6 hectares and

the felling of 4.5 lakh trees, while neighbouring Madhya Pradesh has seen over 60,000 acres of forest land diverted over five years. Additionally, agricultural lands are being rapidly urbanised in Haryana and Andhra Pradesh, with Gurugram facing the procurement of 17,358 acres from 36 villages, and Andhra Pradesh witnessing major restructuring for projects like the 601-acre Adani-Google AI Data Centre near Visakhapatnam.

The BAA further alarmed that the weakening of the Forest Rights Act (FRA) has left millions vulnerable. By May 2025, out of approximately 51 lakh FRA claims filed, 18.6 lakh claims were rejected and 7.5 lakh remained pending.

RPF DG reviews security for Amarnath Yatra in J&K

PIONEER NEWS SERVICE
■ Jammu

Ahead of the annual Amarnath Yatra, Director General of the Railway Protection Force (RPF) Sonali Mishra on Friday reviewed security arrangements at railway stations in Jammu and Kashmir's Kathua and stressed the need for enhanced coordination among all agencies.

The pilgrimage is scheduled to commence on July 3 via the twin routes - the traditional 48-km Nunwan-Pahalgam track in Anantnag district and the shorter 14-km Baltal route in Ganderbal district - and will conclude

on August 28 on the occasion of Raksha Bandhan. Mishra visited the railway station at Kathua and assessed preparedness for the forthcoming pilgrimage, which is scheduled to commence on July 3, the officials said.

Speaking to reporters, Mishra said a review of the security measures had been conducted, and arrangements were being further strengthened to ensure the safe movement of pilgrims.

Editor's TAKE

Rebuilding student trust after the paper leak crisis

Trust cannot be rebuilt overnight; it returns only when students see institutions acknowledge their failures and correct them transparently

For a generation that has grown up under the relentless pressure of competitive examinations, the recent spate of paper leaks has fractured something fragile: the belief that merit, not manipulation, decides who gets to become a doctor, an engineer or a civil servant.

When lakhs of students who have spent years preparing discover that a result can be bought or stolen, the damage extends beyond one exam cycle. It corrodes faith in the entire system of public examinations.

The pattern across recent controversies is depressingly familiar. Question papers have been printed and transported through poorly secured logistics chains, sometimes via private vendors with minimal accountability. Centres in remote towns have weak digital infrastructure, making real-time monitoring difficult. There is often a troubling gap between when a paper is finalised and when it is administered – a window long enough for leaks to occur and circulate on messaging apps.

Investigations, when they happen, are slow, fragmented across state and central agencies, and rarely result in swift, visible punishment. Most damagingly, the bodies conducting these exams have repeatedly responded with denial rather than transparency, eroding credibility further with every defensive press statement.

Gen Z's fury is not simply about a single exam gone wrong. It reflects a generation that has watched coaching-centre economics balloon, that has poured family savings into preparation, and that increasingly experiences exams as the only ladder of social mobility available to them. When that ladder appears rigged, the betrayal feels personal and systemic at once – amplified and accelerated by social media, which turns local grievances into national outrage within hours.

Rebuilding trust requires structural change, not just reassurance. First, examination bodies must adopt secure, encrypted digital question-delivery systems with decentralised, randomised paper sets, reducing the value of any single leak.

Second, an independent statutory authority - insulated from political and administrative pressure - should oversee high-stakes national exams, with clear accountability separate from the ministries that benefit politically from smooth exam conduct.

Third, the chain of custody for papers, from the printing press to the exam hall, needs forensic-level tracking, audited by external agencies, not self-certified.

Equally important is the speed and visibility of justice. Leak investigations must run on fixed timelines with public reporting, and those responsible – whether vendors, officials or examination staff – must face consequences that are seen, not just announced. Finally, students deserve a credible grievance and re-examination mechanism. Anything less leaves an entire generation rightly unconvinced.

When rules fail and lives perish

The tragic loss of lives in Delhi's Malviya Nagar fire demands a deeper examination of weakening accountability, persistent impunity for violations, and the urgent need to restore integrity, vigilance and commitment to public service

JS RAJPUT

A devastating fire broke out in the Malviya Nagar locality of South Delhi on June 3, 2026, claiming the lives of 21 people. The tragedy was not merely an accident; it was the consequence of a chain of failures by those entrusted with enforcing the law. Reports indicated that both the construction and the business operating there were unauthorised and illegal. It is difficult to believe that such an establishment could have functioned without the knowledge of the authorities responsible for approving constructions and issuing licences for hotels, restaurants and bed-and-breakfast facilities. Yet, as is often the case, no senior official responsible for monitoring and enforcement appears to have been suspended or arrested. Public confidence in official assurances has eroded to such an extent that many people are convinced that little will change. A few minor violators may face action, some illegal structures may be demolished, and then the status quo is likely to return. The mechanisms through which violations continue to flourish are, unfortunately, well understood by the public.

Occasionally, voices are raised lamenting the decline of the values once preached and practised by the freedom fighters under the leadership of Gandhi. These values-humility, honesty, integrity, compassion and accountability-were expected to guide governance after independence. Sadly, for many citizens, routine interactions with public institutions often reveal a different reality. Whether in municipal offices, revenue departments or police stations, people frequently encounter indifference, inefficiency and a lack of accountability. Can anyone entirely avoid attributing this situation to corruption? Citizens are familiar with the manner in which elected representatives and local authorities are often perceived on matters relating to illegal constructions and regulatory violations.

Reports from different parts of the country concerning commissions, cut-money practices and rent-seeking behaviour have further weakened public faith in governance and justice. The Malviya Nagar tragedy occurred at a time when the nation was already distressed by controversies surrounding examination systems, including the NEET paper leak, difficulties associated with Class XII examinations, technical glitches in CUET and other administrative failures. Although these incidents belong to different sectors, they often stem from similar causes: incompetence, negligence, lack of accountability and insufficient commitment to public welfare.

A HEALTHY DEMOCRACY CAN PROVIDE A BETTER LIFE FOR ALL CITIZENS, PARTICULARLY FOR YOUNG PEOPLE PURSUING EDUCATION AND EMPLOYMENT. HOWEVER, DEMOCRATIC INSTITUTIONS MUST FUNCTION SINCERELY IN BOTH LETTER AND SPIRIT. DEFICIENCIES IN GOVERNANCE, WHETHER ARISING FROM POLICY FAILURES OR ADMINISTRATIVE SHORTCOMINGS, MUST BE IDENTIFIED, STUDIED AND CORRECTED BY THOSE ENTRUSTED WITH PUBLIC AUTHORITY

The author is an educationist, a Padma Shri awardee, and works in religious unity and social cohesion

dailypioneer
jagmohansrajput
prof-j-s-rajput-7b99999

Whenever major fire accidents occur, investigations commonly reveal that mandatory safety equipment was either absent, outdated or non-functional. In many cases, fire safety certificates had expired long before the accident. Yet one rarely hears of meaningful penalties being imposed before tragedies occur. Preventive enforcement remains weak, while corrective action usually follows only after lives have been lost. The deeper concern is the gradual erosion of our moral and civic consciousness. Rampant lethargy, inefficiency and corruption reflect a declining sensitivity towards fellow citizens and the larger national interest. Public institutions exist to protect life and dignity, but their effectiveness ultimately depends on the character and commitment of those who operate them.

The demolition drives initiated after the Malviya Nagar incident appeared relatively orderly and considerate in their execution. They inevitably invite comparison with similar actions undertaken elsewhere, particularly in Uttar Pradesh. Regardless of one's opinion on such measures, they have generated intense public debate about the enforcement of law, unauthorised constructions, land encroachments and the role of government in protecting public interests.

Meaningful reform demands leaders with imagination, courage and a commitment to public welfare over personal gain. Equally vital is whether official training truly instils responsibility towards the weakest and most vulnerable. Where accountability is weak, illegal occupations of land and unauthorised constructions inevitably flourish. One does not need to look far to find examples of such violations. These structures are often visible reminders of administrative failure and the abdication of responsibility by those entrusted with enforcing the law. The Malviya Nagar fire is only one among many such tragedies that have occurred over the years. Yet meaningful reforms and lasting accountability remain elusive.

The public debate surrounding bulldozer action in Uttar Pradesh illustrates another

dimension of governance. Such actions attracted both strong support and sharp criticism. Supporters viewed them as decisive measures against land grabbers, criminal networks and illegal encroachments, while critics questioned their legality, fairness and implications for due process. Whatever one's position, the debate underscores the importance of ensuring that all enforcement actions remain firmly within constitutional and legal frameworks.

A healthy democracy can provide a better life for all citizens, particularly for young people pursuing education and employment. However, democratic institutions must function sincerely in both letter and spirit. Deficiencies in governance, whether arising from policy failures or administrative shortcomings, must be identified, studied and corrected by those entrusted with public authority. The wisdom expressed by Rajendra Prasad, President of the Constituent Assembly, remains profoundly relevant. Addressing the nation on November 26, 1949, he observed that the welfare of the country would ultimately depend not merely on the Constitution but on those who administer it. He warned that even the best Constitution could not succeed if those entrusted with implementing it lacked character and integrity. Conversely, capable and honest individuals could make even an imperfect system function effectively. They could innovate, inspire, learn more and be more pragmatic. The basic factors responsible for the Malviya Nagar tragedy and the NEET and CBSE failures are not much different, nor really distant. Essentially, these failures are rampant in public services across sectors. It creates a general impression among common

people that they can get away with the violation of any sanction, permission or approval. Recent systemic failures that have inflicted avoidable suffering on young students and their parents, or the fire that extinguished lives mercilessly, must necessarily serve as stern reminders that education must focus on nurturing empathy, integrity, responsibility, compassion and the spirit of respecting others. A value-based work culture could help develop men and women of character who would not blindly become slaves to 'maximum accumulation anyhow', but who recognise the limits of material accumulation and the importance of serving society.

Ultimately, institutions derive their strength and reputation from the character and commitment of the functionaries who lead and operate them. If India seeks to prevent tragedies such as the Malviya Nagar fire and strengthen public trust in governance, it must invest not only in better laws and regulations but also in nurturing honesty, accountability and ethical leadership. These values have long been central to India's civilisational ethos. Strengthening them remains one of the nation's most urgent tasks.

Yoga: A lifelong companion on the journey of ageing

SHARMILA DAS

2ND OPINION

As the world prepares to celebrate International Day of Yoga, this year's theme, "Yoga for Healthy Ageing", has sparked important conversations about wellness in later life. Images of elderly practitioners performing yoga postures with grace and confidence are inspiring, highlighting how the practice can help maintain strength, mobility and independence. Yet the theme also offers an opportunity to rethink a common misconception: ageing is not something that begins in old age.

It starts the moment life begins. From birth onwards, the human body is constantly changing. It grows, adapts, repairs itself and gradually moves through the different stages of life. Ageing is not a sudden event that arrives after retirement; it is a continuous process. The real challenge, therefore, is not avoiding ageing but learning how to support

our bodies and minds throughout that journey.

This is where yoga becomes truly valuable. Many people view yoga as a remedy for stress, stiffness, poor posture or declining health. While it certainly helps address these concerns, its deeper purpose lies in prevention. Yoga encourages us to care for our physical and mental well-being long before problems arise.

Movement is essential to healthy living. Children naturally bend, stretch, squat and balance without conscious effort. As adulthood progresses, however, modern lifestyles often replace movement with prolonged sitting, screen time and repetitive routines. Gradually, flexibility decreases, muscles weaken, posture suffers and balance becomes less reliable. These changes occur so slowly that they often go unnoticed until discomfort or fatigue begins affecting daily life. Yoga offers a simple yet effective way to counter this decline. Stretching practices help preserve flexibility, while mobility exercises keep joints healthy and functional. Strength-building postures support muscles and bones, allowing the body to remain capable and resilient over time. Balance-focused practices improve coordination and stability, reducing the likelihood of injuries as we age. Importantly, these benefits are not limited to senior citizens. A young professional spending hours at a desk may need them just as much as an older adult.

Breathing is another crucial element of healthy ageing. Though it accompanies us throughout life, we rarely pay

attention to it. The demands of modern living often encourage shallow, hurried breathing, which can contribute to stress, poor sleep and reduced energy. Yogic breathing techniques restore awareness to this vital process. A slow, steady breath helps calm the nervous system, supports mental clarity and promotes recovery and relaxation. The ability to regulate one's breath is a skill that benefits people at every age. Equally important is yoga's impact on mental well-being. Many fears associated with ageing stem from concerns about loss-loss of strength, appearance, independence or certainty. Yoga shifts the focus towards qualities that can continue to grow throughout life: awareness, patience, resilience, gratitude and inner balance. It teaches acceptance without passivity and growth without constant struggle. Ultimately, yoga is not merely a practice for old age; it is a practice for life. It requires no expensive equipment, exceptional flexibility or large amounts of time. Even a few minutes of mindful movement and conscious breathing each day can create lasting benefits. Like any worthwhile investment, small and consistent efforts accumulate over time. This International Yoga Day, let us see yoga not as a response to ageing, but as a lifelong companion that helps us move, breathe and live with greater balance. Ageing begins at birth, but so do strength and wisdom.

QUANTUM PROGRESS NEEDS STRONGER NATIONAL COMMITMENT

India's recent progress in quantum technology is encouraging and timely. To remain competitive in the post-AGI world, India must take a quantum leap forward. Having lagged far behind the United States and China in AI foundational technology, quantum computing may well be the next major frontier where India can establish leadership.

The Tata Institute of Fundamental Research (TIFR) has done commendable work in this field, and its ambition of making India self-reliant in quantum computing deserves recognition. Alongside the Central Government's National Quantum Mission, Andhra Pradesh Chief Minister N. Chandrababu Naidu also deserves credit for his vision in collaborating with IBM, a global

leader in quantum technology, and TCS to create a "Quantum Valley", much like Silicon Valley, as an epicentre for quantum-based innovation.

However, unlike in the US, Canada, China and Europe, India's private sector has shown limited seriousness towards this transformative technology. Companies like Reliance, Adani, Mahindra and major banks must step up and invest heavily. While the Government faces restraints in budget allocations, the Indian private sector should take the lead in herding in a new age of technological innovation.

Otherwise, India risks repeating its AI experience - forever catching up instead of leading. The time for a quantum leap is now.

LETTERS TO THE EDITOR

Challenges overshadow TVK's start

In its first month in power, Tamil Nadu Chief Minister C Joseph Vijay's TVK government has faced criticism from both the public and opposition over key issues such as law-and-order failures, unannounced power cuts, diluted farm loan waivers and the delay in implementing its promise of ₹ 2,500 monthly assistance for women.

Among these, the most serious concern has been the rise in sexual violence against girls and women, which has deeply shaken the State's reputation for safety. Opposition parties and citizens alike have criticised TVK's handling of the crisis.

Political observers have also pointed to TVK's waver-institutional structure and lack of administrative experience. Vijay may be a popular film star, but popularity alone cannot substitute governance. He does not yet appear to have a clear roadmap, while his close circle and ministerial team are not known for policy depth or administrative expertise.

This leaves him heavily dependent on bureaucracy, which is rarely ideal for an elected leader. One month may be too short for results, but it is enough to expect clarity and direction.

RANGANATHAN SIVAKUMAR | CHENNAI

Peace built on fragility

Calling this agreement a respite rather than a triumph is both honest and necessary. A fourteen-point memorandum, however detailed, cannot undo four months of devastation or erase years of mistrust. The provisions on down-blending enriched uranium under IAEA supervision and the sixty-day Hormuz passage are constructive steps. The retreat in oil prices from wartime highs to \$74-78 a barrel will also bring relief to energy-importing nations, including India.

What remains concerning is the structural fragility of the agreement. Reconstruction pledges worth \$300 billion remain, as rightly noted, a diplomatic abstraction until actual disbursement begins. Such pledges often lose momentum once initial enthusiasm fades.

More worrying is Netanyahu's admission that Israel does not fully align with Washington's approach, while reserving the right to continue military operations in Lebanon, Gaza and Syria. A framework that excludes Israel's core security concerns is incomplete by design.

The sixty-day negotiation period will be the real test. Markets have celebrated; now institutions and diplomats must turn this pause into lasting stability.

SWATHI SENTHILKUMAR | COIMBATORE

Blending teaching with technology

The article 'The silent burden of modern educators' rightly highlights the immense pressures borne by teachers. They are expected to meet the demands of parents, administrators, regulators and society while nurturing students and delivering measurable outcomes. Supporting teachers is essential if educational standards are to improve. However, the discussion overlooks the growing role of digital education. YouTube educators and EdTech platforms have become powerful tools that complement classroom teaching.

Millions of students now access lessons from excellent teachers, learn difficult concepts at their own pace and revisit topics whenever needed. This has been especially valuable for students in smaller towns and underserved regions. Ironically, online education is often dismissed or mocked.

Such criticism ignores the fact that technology has widened access to quality education far beyond conventional classrooms. Digital platforms cannot replace the mentorship, emotional support and human connection that teachers provide, but they can significantly improve learning outcomes. The real challenge is not choosing between teachers and technology, but creating a system where both work together.

The Aravalli green shield: India's living defence against the desert

The Aravalli Green Wall Project represents one of the country's most ambitious environmental projects. It seeks to revive an ancient ecological system that has protected north-western India for centuries. Its success, however, will depend on ensuring strong legal protection, scientific planning and active community participation

VIVEK SAXENA

Every year on 17 June, the world observes the UN Day to Combat Desertification and Drought under the UNCCD Convention - a reminder that healthy land is the quiet foundation of our food, our water, our biodiversity and our resilience to a changing climate. This year's theme, "Restore the Land. Unlock.", carries a hopeful message: restoring degraded landscapes is not merely an ecological duty but an investment in livelihoods, water security and a sustainable future.

The challenge is sobering. Nearly 40 per cent of the Earth's land is now degraded, affecting billions of lives and threatening economic and ecological stability. India faces its own pressures - declining groundwater, biodiversity loss, expanding aridity and growing climate variability. Yet India has also emerged as a global leader in land restoration, and one of its most ambitious efforts is unfolding along an ancient line of hills: the Aravalli Green Wall.

A green wall, or a green shield?

The phrase "green wall" entered the global vocabulary through Africa. Launched in 2007 by the African Union, the Great Green Wall set out to restore degraded land across the full width of the continent, stretching some 8,000 kilometres from Senegal on the Atlantic to Djibouti on the Horn of Africa. Originally conceived across eleven core Sahel countries and since expanded to many more, it aims to restore 100 million hectares of land, sequester 250 million tonnes of carbon and create 10 million green jobs by 2030.

Africa's experience taught the world an important lesson. A rigid line of planted trees marching across deserts could not survive on its own; the most enduring insight from the Sahel is that the initiative evolved from a tree-planting drive into a mosaic of activities - a comprehensive effort blending water harvesting, soil conservation, grasslands and community livelihoods. The "wall" was never really a wall. This is why, in spirit, we should understand these initiatives not as walls but as shields. The Aravalli Green Wall, properly understood, is India's green shield against the advancing desert - not a barrier of bricks, but a breathing, regenerating landscape.

Reviving an ancient ecological shield

Stretching across Gujarat, Rajasthan, Haryana and Delhi, the Aravalli Range is among the oldest mountain systems on Earth. For millennia, it has shielded the subcontinent from the eastward march of the Thar Desert while recharging aquifers, regulating local climate and sheltering rich biodiversity. Decades of deforestation, mining, encroachment and unsustainable land use have worn this shield thin - and the consequences reach far beyond the hills. Recognising this, Union Minister for Environment, Forest and Climate Change Bhupendra Yadav launched the Aravalli Green Wall Project in 2023, one of India's most ambitious landscape-restoration programmes, blending afforestation, watershed development, groundwater recharge, the revival of water bodies, dust-storm mitigation, carbon sequestration and community livelihoods.

The Aravalli Green Wall is the on-ground expression of a commitment India has made repeatedly at the highest global forums. Under the leadership of Prime Minister Narendra Modi, India has placed land restoration at the centre of its climate diplomacy. When India hosted the 14th Conference of Parties to the UN Convention to Combat Desertification (UNCCD COP14) in 2019, the Prime Minister raised India's ambition to restore degraded land from 21 million to 26 million hectares by 2030 - a pledge carried forward in the Delhi Declaration adopted at the close of that conference.

This sits within a wider arc of leadership: India's commitment to Land Degradation Neutrality and the Bonn Challenge; its pledge of net-zero emissions by 2070, announced at Glasgow; and Mission LIFE (Lifestyle for Environment), which the Prime Minister has championed from the G20 to the United Nations as a model for sustainable living. The Aravalli Green Wall translates these global commitments into restored watersheds, regenerated forests and revived water bodies on Indian soil.

If restoration rebuilds the shield, the law defends it - and here the judiciary has been a steadfast guardian of

The Pioneer SINCE 1865

THE ARAVALLI GREEN WALL STANDS AS A POWERFUL SYMBOL OF INDIA'S RESOLVE - A RESOLVE THAT MUST NOW BE MATCHED BY A DEFINITION STRONG ENOUGH TO HOLD THE LINE. REVIVING THE ARAVALLIS IS NOT ABOUT BUILDING A WALL OF TREES; IT IS ABOUT RESTORING, AND DEFENDING, AN ANCIENT LIVING SHIELD FOR THE GENERATIONS TO COME

The writer is an Indian Forest Service officer and former Country Representative of the International Union for Conservation of Nature

dailypioneer @dailypioneer The Pioneer

the Aravallis. The Supreme Court banned mining in Gurugram, Faridabad and Nuh as far back as 2009, and has intervened repeatedly against illegal mining and encroachment across the range. Yet a deeper problem persisted: the four Aravalli states followed inconsistent criteria for what even counts as an "Aravalli", leaving regulatory gaps that illegal mining exploited. To close those gaps, the Court constituted a committee in May 2024 to recommend a uniform definition. In November 2025, it accepted that committee's formulation - defining an Aravalli hill as a landform rising 100 metres or more above the local relief, and a range as two or more such hills within 500 metres - froze new mining leases and mandated a plan for sustainable mining.

The definition, however, drew sharp criticism: ecologists and citizen groups warned that a purely height-based threshold could exclude vast tracts of the range from protection, endangering groundwater recharge, biodiversity and the very desertification control the Aravallis exist to provide.

Responding to these concerns, the Supreme Court took suo motu cognisance, kept its November judgment and the committee's report in abeyance, and ordered a fresh, independent expert review. In June 2026, it constituted a high-powered committee headed by the Director General of the Indian Council of Forestry Research and Education (ICFRE) to re-examine the definition and demarcation, resolve the "critical ambiguities" in the earlier findings, and submit a comprehensive report by 31 August 2026. Much now rests on this committee. A definition is not a technicality; it draws the line between what is protected and what may be quarried. The expectation - shared by conservationists, scientists and administrators alike - is for a definition that is scientifically rigorous and map-verifiable, yet ecologically precautionary: one that protects not merely the tallest peaks but the connected system of foothills, valleys, recharge zones and ridgelines that make the Aravallis a functioning ecological barrier. Where the science is uncertain, the definition must err on the side of protection. Crucially, the legal boundary of the Aravallis and the restoration ambition of the Green Wall must speak to each other - for it makes little sense to plant a shield on one hand while leaving it legally exposed on the other.

The stakes are highest, and most immediate, for the National Capital Region. The Aravallis are the single most significant natural barrier shielding the NCR from the dust and aridity of the Thar. A healthy Aravalli landscape means cleaner air and fewer dust storms over Delhi and its satellite cities, recharged aquifers beneath one of the world's most water-stressed urban regions, and a cooler, more stable microclimate for tens of millions of residents. The environmental fate of the capital region is, quite literally, tied to the health of these ancient hills.

At the landscape scale, the case is just as compelling. Restoration knits together a continuous ecological corridor from Gujarat through Rajasthan and Haryana to Delhi - reconnecting fragmented wildlife habitats, stabilising watersheds across the basin, and rebuilding the resilience of all north-western India.

A people's shield

The Sahel's experience confirms a simple truth: where communities are excluded, walls crumble; where they are made stewards, shields endure. Through Mission LIFE, the Ek Ped Maa Ke Naam campaign and the Amrit Sarovar Mission, restoration in India has become a people's movement - the work of citizens, schools, civil society and the private sector as much as of government. Every restored hectare, every revived pond, and every nurtured tree adds a fibre to the living shield that guards our water, our biodiversity and our climate. As the world marks World Desertification and Drought Day 2026, the Aravalli Green Wall stands as a powerful symbol of India's resolve - a resolve that must now be matched by a definition strong enough to hold the line. Reviving the Aravallis is not about building a wall of trees; it is about restoring, and defending, an ancient living shield for the generations to come. The time to act is now - for the land, for the climate, and for the future.

Switzerland's ten million: What a ceiling cannot survive

ACHARYA PRASHANT

A referendum asks a society to do what a person is almost never asked about her own life: name a number and stop. Not a target, revised upward the moment reached, but a ceiling the system agrees in advance never to cross.

On June 14, Switzerland was asked to set one. The proposal, brought by the country's largest party, would have capped the permanent resident population at ten million by 2050, with tightening measures triggered earlier and the EU free movement agreement at risk if the cap

held too long. Turnout reached fifty-nine per cent. Nearly fifty-five per cent said no. It is easy to read this as a story about immigration, and at the level of posters and platforms that is what it was. Underneath sat a more interesting question, one the campaign never had to answer because the vote answered it by default: can a wealthy, secure nation set a limit for itself before crisis sets one for it? Switzerland was asked, and found it could not.

Switzerland's fertility rate sits around 1.5, below the 2.1 needed to hold a population steady. The population stood at about 9.1 million by end-2025, with the over-sixties now outnumbering the under-twenties; official projections put the figure at 10.5 million by 2055, almost all from migration. The number the proposal tried to hold was never the country's own; migration supplied nearly all the growth it was meant to stop.

Foreign nationals already make up twenty-seven per cent of residents, over a third of the workforce, with hundreds of thousands more crossing the border daily for work. The campaign cited gross arrival figures without mentioning the exits set against them; net migration, the figure that actually moves the population, is a fraction of that. A cap sounds simple, but in practice meant unwinding the agreement that lets Swiss firms hire across Europe, and with it the trade carrying nearly half of Swiss exports. The government itself had warned that holding to any fixed number would demand measures incompatible with the country's prosperity. It was an accurate description of the bill.

The housing pressure behind the campaign was real: Geneva's vacancy rate fell to 0.34 per cent, among the tightest in Europe. But the shortage is first a matter of construction, zoning and underinvestment, not headcount, and would have produced the same crisis at any population level. So when Swiss voters said no, they were mostly voting against a specific trigger, attached to a party leaning on fear of outsiders, in a year when severing ties to its largest market looked like self-harm.

The no was local, contingent, reasonable on its own terms. But notice what the reasonableness conceals. The question of where a stop might fall was never put to a clean test, because by the time it reached the ballot it had already been wired into every artery that would have to be cut before the question could be answered. The ceiling lost not to greed but to interdependence; the system had arranged itself so growth was the only answer compatible with everything else the country had built. Switzerland had been here before: in 2014 it narrowly voted to cap immigration, then quietly declined to enforce it, because the same agreements made enforcement cost more than the country would pay. The vote can say stop. The structure keeps moving.

Here the deeper pattern shows itself, and it has nothing to do with Switzerland alone. A person never produces a stable figure for enough. Ask someone with savings what amount would let him stop checking, and the number retreats as it is approached. The referendum makes visible that the same movement runs at civilisational scale, without anyone wanting more of anything. Switzerland holds roughly the third-highest income per head on earth, by any ordinary measure a society that has arrived. Yet holding a number, merely holding it, could not survive contact with the machinery of how the place runs. No voter had to be greedy for this: a national income figure has no terminal value past which a country may stop, neither does a trade relationship or a labour market, and together they form a structure with the exact signature of an ego that cannot say enough: permanent forward motion, no terminal state, no one whose task is to ask whether the motion still serves anyone.

The cruder reading says Switzerland is rich and wished to stay rich. The truer reading is stranger: the proposal could have been drafted by cleaner hands, and the verdict would likely have been the same, because it was laid down in decades of treaties and hiring practices, each rational alone, none asking what all of them together were for. A civilisation's reaching is dispersed across millions of decisions made by people not reaching for anything; it only loses anyone willing to own it. None of this makes the campaign innocent; trading in suspicion of outsiders answers for its own language. But the hostility to outsiders is a problem with an address. The inability to define enough has none, and that is why it outlives every election the louder problem loses. A Green parliamentarian, Sibel Arslan, observed that something shifted regardless of the result: capping a population now sits inside speakable policy in a way it did not before. A society can refuse a number and still be changed by having weighed one. A steadier-handed version of this vote might well pass. It would still not answer what this one raised, since passing a tighter mechanism is not the same as a system discovering a working sense of enough. Other wealthy nations should not mistake a different outcome for a different structure: not one keeps a stated population ceiling, and the absence of Switzerland's quarrel elsewhere is not evidence of a healthier relationship to limits. It only means the question has not yet been put plainly enough to compel one. The number Switzerland was asked to hold would have begun retreating the moment it was reached, the way it retreats from a man watching a balance. What the vote leaves behind is who, if anyone, still stands close enough to ask why the retreating never stops.

Why India's youth deserve a seat at the decision-making table

ABHINAV NARAYAN JHA

By all demographic measures, India is a young nation. Nearly 65 per cent of its population is below the age of 35, and the country's median age hovers around 28 years. Political leaders across party lines proudly refer to India's youth as its greatest asset, its demographic dividend, and the driving force of a rising global power. Yet, there is an uncomfortable reality that rarely finds space in political speeches: while young Indians dominate the population, they remain conspicuously absent from the institutions that make decisions on their behalf. India may be one of the youngest democracies in terms of population, but its Parliament and Legislative Assemblies tell a completely different story. The contradiction is glaring. According to available data from the 18th Lok Sabha elected in 2024, fewer than one in ten Members of Parliament are between 25 and 40 years of age. The average age of the House is approximately 56 years - one of the highest in independent India's history.

The question, therefore, is straightforward: how can a democracy claim to represent its people when its largest demographic group remains significantly underrepresented in its highest decision-making bodies? It is a question of democratic legit-

imacy. Historically, the situation was far more encouraging. In the first Lok Sabha constituted in 1952, nearly 30 per cent of MPs were aged 40 years or below. Seven decades later, despite India's youthful population growing substantially, youth representation in Parliament has sharply declined to around 10 per cent. Instead of becoming more inclusive and accessible, Indian politics appears to have become increasingly exclusive. Political parties across the ideological spectrum frequently celebrate young voters. Election campaigns are designed around social media outreach, youth conventions, campus interactions, digital engagement and promises of employment and opportunity. Every political party understands the electoral value of young voters. However, when it comes to distributing party tickets, leadership responsibilities and positions of influence, the enthusiasm for youth participation suddenly diminishes. Young Indians are encouraged to vote. But they are rarely encouraged to lead.

The barriers are both visible and invisible. Electoral politics increasingly demands substantial financial resources, extensive organisational networks and years of political patronage. For first-generation aspirants, the path is extraordinarily difficult. This brings us to another uncomfortable truth: dynastic politics. A significant proportion of younger politicians entering Parliament and Assemblies today belong to established political families. While many of these leaders are capable and deserving in their own right, their presence highlights a deeper structural issue.

For every young leader with a political surname, thousands of equally talented young Indians without such advantages remain excluded from the system. The result is a political ecosystem where youth representation exists, but genuine youth inclusion remains limited. Representation should mean creating opportunities for talented young Indians from diverse social, economic and regional backgrounds to participate in governance.

The implications of this democratic deficit are profound. The twenty-first century presents challenges fundamentally different from those faced by previous generations. Artificial intelligence, cyber security, climate change, digital governance, start-up ecosystems, gig-economy employment, mental health concerns, educational reforms and technological disruptions are shaping the lives of millions of young Indians. Yet the voices most directly affected by these issues remain insufficiently represented in legislative

discussions. A Parliament that lacks youth perspectives risks creating policies that are disconnected from contemporary realities. This does not mean experience is unimportant. Governance requires wisdom that often comes with experience. But democracy functions best when experience and innovation coexist. The challenge becomes even more evident at the state level.

Youth wings exist within almost every major political party, but they often function as mobilisation platforms rather than genuine leadership pipelines. Many young leaders spend years organising events, managing campaigns and mobilising supporters without receiving meaningful opportunities to contest elections. This creates frustration, disengagement and cynicism. When politics appears inaccessible, talented individuals increasingly look elsewhere. Entrepreneurs build start-ups. Professionals join corporations. Scholars enter academia. Few see electoral politics as a realistic avenue for public service.

The solution is not symbolic tokenism. The solution lies in structural reform. Political parties should voluntarily allocate a meaningful percentage of tickets to candidates below the age of 40. Internal party elections must become more transparent and merit-based. Campaign finance reforms should reduce the overwhelming financial barriers that discourage young entrants. Structured mentorship programmes should connect experienced legislators with emerging leaders.

Equally important is the creation of institutional pathways. Youth Parliaments, student legislatures, public policy fellowships and civic leader-

ship initiatives should not remain ceremonial exercises. They must become genuine training grounds that connect young citizens with real political opportunities. India, despite possessing one of the youngest populations globally, risks lagging behind if it fails to address this imbalance.

The responsibility does not rest solely with political parties. Young Indians themselves must move beyond political spectatorship. Democracy cannot be strengthened merely through social media commentary. It requires active participation, organisational engagement, public service and leadership. However, participation can flourish only when opportunities exist. The real question is whether India's political establishment is ready to trust them with it. For decades, political leaders have referred to young people as the future of India. That statement is no longer sufficient. India's youth are not simply the future. They are the present. They are taxpayers, entrepreneurs, innovators, students, professionals, farmers, workers and voters. They are shaping the country's economy, society and global reputation every day. Surely they deserve a greater role in shaping its laws as well. If India truly believes that its youth are its greatest strength, then the time has come to offer them not just a voice in election campaigns, but a seat in Parliament and Legislative Assemblies where the nation's future is ultimately decided.

Order Order

'Yoga Day participation not must for public servants'

The Calcutta High Court on Friday disposed of a petition by an employees' union questioning a West Bengal government order on participation in the International Yoga Day function, noting that the state clarified it is a general appeal to all public servants and not mandatory. Claiming that a memo issued by West Bengal's chief secretary called for mandatory participation in the celebration by all employees, the State Coordination Committee of West Bengal Government Employees, a Left-leaning organisation, challenged his authority to issue the directive. Disposing of the petition after receiving the government's stand from additional advocate general Billwadal Bhattacharya, Justice Amrita Sinha verbally observed, "This litigation was not required." The court noted that the written instruction by the West Bengal government mentions that the chief secretary's order "is a general appeal to all public servants to participate in the official function on the occasion of International Day of Yoga." It stated that the order is "not mandatory in nature and no punitive or coercive action was contemplated or incorporated in case of failure to attend due to personal reasons." (PTI)

Expedite decision on lawyer's plea on Bengal SIR: SC

The Supreme Court on Friday asked an appellate tribunal to expedite its decision on an appeal filed by an advocate challenging the deletion of his name from the voters' list after the Special Intensive Revision of electoral rolls in West Bengal. A bench of Chief Justice of India (CJI) Surya Kant and Justice V Mohana noted that the petitioner appeared to be a bona fide resident of West Bengal. The counsel appearing for the petitioner told the bench that the 75-year-old is an advocate for around five decades and he was a valid voter before the Special Intensive Revision (SIR) exercise was carried out in the state. "You (petitioner) appear to be a bona fide resident of West Bengal. You know the mechanism which we have created," the bench said. The counsel said the petitioner had filed an appeal before the appellate tribunal against the deletion of his name, but it had not been decided yet. The bench noted that the petitioner is stated to be an advocate in Murshidabad since 1977 and his name was deleted from the electoral rolls in the SIR exercise. It disposed of the plea while requesting the appellate tribunal to decide his appeal expeditiously and preferably within two months. Approximately 700 judicial officers from West Bengal and neighbouring Odisha and Jharkhand were deployed to deal with around 60 lakh claims and objections of those whose names were deleted from the voters' list during the SIR exercise. Later, at the direction of the top court, the chief justice of the Calcutta High Court set up 19 appellate tribunals headed by former high court chief justices and judges to decide appeals against deletion of names from the voters' list. (PTI)

SC dismisses probe into May 13 trust vote in TN Assembly

The Supreme Court on Friday dismissed a plea seeking probe into the alleged irregularities and corruption in the May 13 trust vote in the Tamil Nadu Legislative Assembly. A bench of Chief Justice Surya Kant and Justice V Mohana refused to entertain the plea, observing it was based upon "vague, wild and casual allegations" without any reliable material on record to substantiate the claim. On May 13, the C Joseph Vijay-led TVK government in Tamil Nadu crossed a major hurdle by comfortably winning the trust vote with the support of 25 rebel AIADMK MLAs amid a walkout by the DMK. Although the TVK on its own did not secure the majority in the 234-member Tamil Nadu Assembly, Vijay managed to get support from the Congress, VCK, CPI, CPI (M) and IUML to gather 120 MLAs and cross the 118 mark to form the government, an act seen as a demonstration of his political adaptability beyond his image as a popular actor. The Opposition made allegations of horse-trading that were rejected by Vijay. (PTI)

SC refuses urgent hearing on NEET-UG pleas

PIONEER NEWS SERVICE
New Delhi

The Supreme Court on Friday refused to accord urgent hearing on two separate pleas related to the NEET-UG 2026 re-test which is scheduled for June 21.

A bench of Chief Justice Surya Kant and Justice V Mohana said these petitions would be heard by a bench headed by Justice P S Narasimha in July when the apex court will resume normal functioning after the partial court working days.

"All NEET matters will go before Justice Narasimha's bench," the CJ said when one of the lawyers mentioned the matter for urgent listing.

On May 12, the National Testing Agency (NTA) had cancelled the National Eligibility-cum-Entrance Test (Undergraduate), or NEET-UG, held on May 3 for medical admissions amid allegations of paper leak.

The CBI is currently investigating the matter, and a re-test is scheduled for June 21.

Advocate Adeel Ahmed men-

tioned a separate petition filed by students and NEET-UG aspirants before the bench and sought urgent listing.

The top court said the plea would be heard by Justice Narasimha-led bench, which is already seized of petitions related to the exam.

The plea has sought a direction to the Centre and others to reconsider the feasibility of conducting the examination on June 21 after

taking into account the representations of aspirants.

It said the petitioners have collected and placed on record a compilation of representations received from aspirants belonging to multiple states and Union Territories across the country.

"The representations disclose a remarkable uniformity of concerns, including mental trauma, severe anxiety, uncertainty arising from

cancellation of the original examination, inadequate preparation time, apprehensions concerning examination integrity, clashes with other examinations, logistical difficulties and adverse effects on mental health," the plea said.

It said the decision to conduct a fresh examination was not under challenge and the grievance of petitioners was confined to the "arbitrary and unreasonable fixation" of the re-test date without affording adequate preparation time to candidates.

The plea said abrupt cancellation of the original examination and the subsequent announcement of the re-test date resulted in widespread uncertainty and psychological distress amongst candidates.

It said the "atmosphere surrounding the re-examination has been marked by repeated circulation of alleged paper leak claims, purported leaked question papers, social media rumours and widespread misinformation, requiring repeated responses and clarifications from the authorities themselves".

"Public reports have highlighted

serious mental-health consequences amongst NEET aspirants following the cancellation and controversy surrounding the examination process, including reports of suicides by aspirants," the plea said. It has also sought a direction to the authorities to postpone and reschedule the re-NEET-UG 2026 examination after providing a reasonable preparation period to all affected candidates.

While hearing a batch of separate pleas related to NEET-UG 2026, the top court on May 29 stressed that the real problem relating to the medical entrance examination would not stop till "actual accountability arises".

Solicitor General Tushar Mehta had then told the apex court that the government was seriously concerned about the concerns of the youths and Prime Minister Narendra Modi was personally supervising the situation so that "there is no lacunae".

Mehta had also said that some new mechanisms have been put in place for the NEET-UG re-test scheduled for June 21.

SC bats for creation of young lawyers assistance fund to prevent brain drain

PIONEER NEWS SERVICE
New Delhi

Noting that young and bright advocates are deserting the profession due to financial hardships, the Supreme Court on Friday said a "Young Lawyers' Professional Assistance Fund" must be created to stop the "brain drain".

The apex court also took note of problems faced by women lawyers and said when they are required to spend substantial portions of their day within the court premises, availability of basic infrastructure necessary for their comfort, privacy, safety and professional functioning assumes utmost significance.

A bench of Chief Justice Surya Kant and Justice V Mohana issued notice to the Centre, all states and Union Territories and others seeking their responses on a plea which highlighted the financial challenges faced by young lawyers during the formative years of practice.

The plea filed by a group of women advocates also raised issue concerning the accessibility, inclusiveness and long-term sustainability of women lawyers in the legal profession.

The bench said the issue

concerning financial challenges faced by young lawyers is gender-neutral and also merits serious consideration. It said a young first-generation lawyer entering the Bar does not immediately inherit an office, a library, a stable clientele or a predictable source of income.

It said during this formative period, many junior advocates remain dependent on modest stipends paid by their seniors or in some places, by the local Bar associations, which are often insufficient to meet even their basic living expenses.

The top court said absence of a steady stream of clients and the limited remuneration available during these years tends to create extreme financial hardship.

"It is this period of turmoil that often compels capable

and promising young lawyers to abandon practice at the Bar altogether. We apprehend that such attrition may produce a form of professional brain drain, diminishing the ability of the Bar to attract and retain the young and meritorious," the bench said.

It said the challenge was particularly acute for first-generation lawyers and those belonging to economically and socially disadvantaged backgrounds.

"It thus seems to us that a Young Lawyers' Professional Assistance Fund must be created and should be established under the exclusive control of the jurisdictional high courts or an autonomous body constituted by the Union of India in consultation with the state governments," the bench said.

House help murder case: Accused doctor sent to two-day police custody

PIONEER NEWS SERVICE
New Delhi

A Delhi court on Friday sent a 50-year-old dermatologist, accused of killing his domestic help at his upscale south Delhi residence, to two days' police custody.

The doctor has admitted his guilt during interrogation, according to officials.

Judicial Magistrate Anurag Chhabra heard the Delhi Police plea seeking two-day custody of the accused and allowed it.

According to police, Dr Manish Gupta allegedly killed his domestic help, Meena, at his residence on Thursday morning by bludgeoning her with a cricket bat and stabbing her multiple times. He allegedly suspected her of practising black magic and held her responsible for persistent discord in his family.

Delhi Police sought Dr Gupta's custody, contending that they need to investigate if other people were also involved and to find new facts in the case.

Opposing the plea, defence counsel submitted before the court that the accused has been in police custody for the past 24 hours. "Everything has been seized by the police; he has been in police custody for

the last 24 hours. He is already suffering from depression, and he is a well-reputed doctor," he argued.

According to police, the accused is on antidepressants and allegedly attacked his 45-year-old domestic help on his terrace. He was found standing near the blood-soaked body when police arrived and allegedly confessed to the killing.

Police said the exact motive behind the murder at the doctor's Mount Kailash house is yet to be conclusively established, and all angles, including disputes within his family and his mental state, are being examined.

Police received a PCR call at around 11.36 am from a resident who reported that a woman had been murdered on the terrace of a neighbouring building and

was lying in a pool of blood. The accused was immediately apprehended and taken into custody. During preliminary questioning, he allegedly admitted that he had first assaulted Meena with a bat and then stabbed her with a knife. Police have seized both the bat and the knife from the spot.

However, investigators said the accused has claimed during questioning that he believed Meena practised black magic and that her presence in the house had disturbed peace within the family.

According to sources, the doctor had wanted to remove Meena from employment for the past two to three years, but his wife was opposed to the move. This reportedly became a recurring source of tension within the family.

Court issues summons to actor Allu Arjun, others

PIONEER NEWS SERVICE
Hyderabad

A city court has issued summons to top Telugu actor Allu Arjun and other accused to appear before it in person on June 22, in a case related to the death of a woman in a stampede during the premiere of 'Pushpa 2' at Sandhya theatre here.

The Hyderabad police had earlier filed a charge sheet against 23 persons in the court in connection with the case.

Following the charge sheet, filed on December 24, the court issued summons to all 23 accused, including Allu Arjun, directing them to appear before it on June 22. The theatre's owner, part-

ners, manager, lower-balcony in-charge and gatekeeper were named as accused No. 1 to 10 in the charge sheet, while Arjun has been named as accused No 11.

Allu Arjun was arrested after the 35-year-old woman died and her eight-year-old

son was injured in the stampede during the screening of 'Pushpa 2' at the theatre on December 4, 2024.

The stampede occurred as fans gathered to catch a glimpse of the actor during the 'Pushpa 2' premiere. Following the incident, the

city police registered a case against Allu Arjun, his security team and the theatre management under different sections of the Bharatiya Nyaya Sanhita (BNS) at the Chikkadpally station, based on a complaint lodged by the deceased woman's family.

Allu Arjun was arrested on December 13, 2024 in the case, and was released the next day after the Telangana High Court granted him interim bail. He was granted regular bail later.

Allu Arjun and the makers of 'Pushpa 2' had extended financial assistance to the family of the boy.

The Telangana government had also announced financial assistance to the family.

MP HC vacates stay on SSE-2025 main exam

PIONEER NEWS SERVICE
Jabalpur

The Madhya Pradesh High Court has vacated its interim stay on holding the main exam of the MPPSC State Services Examination (SSE)-2025.

This ends the year-long wait for around 4,000 candidates aspiring to become deputy collectors, deputy superintendents of police, tehsildars and other state positions. An official said they will now be able to take the main exam after clearing the preliminary test.

A division bench comprising Acting Chief Justice Vivek Ruisa and Justice Pradeep Mittal passed the order on Thursday while hearing a clutch of petitions challenging certain provisions and procedures related to the examination process.

The court, on April 2, 2025, had directed that the main exam of the State Services Examination should not be conducted without its permission. Senior advocate Rameshwar Thakur, appearing for the petitioners, submitted that since their pleas were unlikely to be disposed of in the immediate

future, the stay on the main examination should be lifted and the remaining legal issues could be heard separately at a later date.

Accepting the request, the division bench vacated the interim stay and permitted the Madhya Pradesh Public Service Commission (MPPSC) to conduct the main examination, Thakur said.

The petitioners have challenged, among other issues, the constitutional validity of rules relating to the non-disclosure of category-wise cut-off marks in the preliminary examination results of the SSE-2025.

The petitioners also questioned the alleged non-selection of meritorious reserved category candidates against unreserved posts and the non-migration of candidates who availed age relaxation and other concessions to the unreserved category, Thakur said.

During the proceedings, the MPPSC submitted category-wise cut-off marks to the court in a sealed cover but did not specifically respond to the issues raised in the petitions, he said.

The high court will next hear the matter on July 17.

Create enabling conditions for women lawyers: SC

PIONEER NEWS SERVICE
New Delhi

The Supreme Court on Friday stressed the need to create conditions that enable women advocates to discharge their professional responsibilities effectively, safely and on equal terms.

Taking note of issues raised in a plea that flagged the absence of adequately equipped ladies' Bar rooms and other essential facilities in most of the courts, tribunals and commissions across the country, the apex court said the concerns raised could not be brushed aside as a matter of mere convenience.

A bench of Chief Justice Surya Kant and Justice V Mohana said the legal profession has witnessed a steady and encouraging increase in the participation of women over the last few decades.

"However, the mere opening of doors alone cannot be a sufficient cause for celebration," the bench said.

"In order for their participation to be made meaningful, it must be accompanied by the creation of conditions that enable women advocates to discharge their professional responsibilities effectively, safely, and on equal terms," it said.

The top court said availability of adequately equipped

spaces for women professionals within the court complexes was one such indispensable condition.

The bench issued a notice to the Centre, all states and Union Territories and others, seeking their responses on the plea.

It said a court complex may simply appear to be a designated venue where legal proceedings are conducted, but those who live their lives in service of the law know it to be much more.

"It functions as a workplace where substantial portions of their professional lives are spent and, not infrequently, assumes the character of a second home," the bench said, while highlighting that most of the advocates spend long hours within these premises.

It said the absence of a designated area where such basic facilities are made available to women, disproportionately

impacts them and may, in certain cases, discourage them from continuing practice.

"The provision of such essential facilities prima facie bears a direct nexus with the fundamental guarantee of life and dignity under Article 21 of the Constitution," the bench said.

It said the expression 'life' under Article 21 has consistently received an expansive interpretation from the apex court and has been understood to encompass those conditions which enable an individual to live and work with dignity.

"When women advocates are required to spend substantial portions of their day within court premises, the availability of basic infrastructure necessary for their comfort, privacy, safety, and professional functioning assumes utmost significance," the bench said.

Jio board approves draft papers for IPO

PIONEER NEWS SERVICE
■ Mumbai

The board of Jio Platforms Ltd, the digital and telecommunications arm of Reliance Industries, approved filing draft papers for an initial public offering involving a fresh issue of up to 27 crore equity shares, RIL said on Friday.

Addressing the 49th annual shareholder meeting of Reliance, chairman and managing director Mukesh Ambani said the draft red herring prospectus (DRHP), approved by the board of Jio Platforms, will be filed with the Securities and Exchange Board of India (SEBI) on Friday. The proposed IPO

comprises a fresh issue of up to 27 crore shares with a face value of ₹10 each. The issue price will be determined through a book-building process in accordance with SEBI regulations.

Jio Platforms is a subsidiary of Reliance Industries and houses the group's telecommunications, digital services and technology businesses.

The company did not disclose the price band or the total size of the offering, which will depend on the final issue price and regulatory approvals.

Ambani called the Jio IPO the company's most significant value-creation event of the year, saying the listing

Reliance Industries Chairman Mukesh Ambani addressing the 49th Annual General Meeting (post-IPO) of Reliance Industries Limited in Mumbai. PTI

would unlock value for Reliance shareholders while offering new investors an opportunity to participate

in the company's growth. He said the IPO process is being led by his children — Akash, Isha and Anant —

who will spearhead the next phase of growth and value creation at Jio.

"The proposed listing of Jio will demonstrate to the world that India can build technology companies of global scale, global capability, and global value," Ambani said. The Jio IPO is described as "the most important value creation milestone this year", one that will "unlock great value for Reliance shareholders and offer an attractive investment opportunity to others".

Alongside the IPO announcement, five strategic priorities for Jio's next phase of expansion were outlined. The company plans to

accelerate the adoption of its JioTrue5G network, targeting migration of its entire subscriber base to 5G by 2030, while advancing India's role in the development of 6G standards.

Jio also aims to expand high-speed broadband access through JioAirFiber, its fixed wireless access service.

The company will continue its efforts to digitise small and medium-sized businesses through products such as JioPC, a cloud computing service delivered via a set-top box, and expand the use of artificial intelligence across consumer services, network operations and customer support.

Selloff in IT stocks; Sensex down 600 points

Stock market benchmark indices ended lower on Friday, snapping a five-day rally, with the Sensex declining 607 points and the Nifty falling to the 24,013.10 level, dragged by heavy selling in IT firms after global tech giant Accenture trimmed its full-year revenue growth guidance. Renewed geopolitical uncertainty over postponement of talks to finalise US-Iran peace deal in Switzerland also dampened investor sentiment. The 30-share BSE Sensex dropped 607.08 points, or 0.78 per cent, to settle at 76,802.90. During the day, it tanked 940.26 points, or 1.21 per cent, to 76,469.72. The 50-share NSE Nifty declined 154.90 points, or 0.64 per cent, to end at 24,013.10. The Sensex had jumped 3,577.43 points, or 4.84 per cent, in the last five trading sessions, and the Nifty climbed 1,006.4 points, or 4.34 per cent. Among the 30-share Sensex constituents, IT firms were the major losers. The BSE IT index dropped 3.57 per cent. Infosys dived 6.69 per cent, Tata Consultancy Services dropped 3.53 per cent, HCL Tech 2.74 per cent, and Tech Mahindra ended 2.45 per cent lower. HDFC Bank, Mahindra & Mahindra, Reliance Industries and Hindustan Unilever were also among the laggards. However, Eternal, Bharti Airtel, Power Grid and NTPC were among the winners. US Vice President JD Vance has postponed his visit to Switzerland to meet Iranian negotiators, with the White House citing logistical issues. The negotiations, aimed at resolving the technical aspects of the Memorandum of Understanding (MoU) signed by the US and Iran, were scheduled to take place in Switzerland on Friday. "Indian equity markets retreated after five consecutive sessions of gains, as investors booked profits amid renewed geopolitical uncertainty and sharp selling in IT stocks. Sentiment weakened following Accenture's cautious earnings outlook, while the postponement of scheduled US-Iran negotiations undermined expectations of a smooth progression in the broader peace process," Ponmudi R, CEO of Enrich Money, an online trading and wealth tech firm, said. (PTI)

Mukesh Ambani urges engineers to build Indian AI

PIONEER NEWS SERVICE
■ New Delhi

Reliance Industries' Chairman Mukesh Ambani on Friday placed the country's engineering talent at the centre of Jio's massive artificial intelligence push, calling on them to join forces to "build for India" as the Reliance Intelligence enters the next phase, of execution.

Asserting that India should not remain a mere consumer of AI built elsewhere, Ambani outlined Jio's next growth chapter that pivots heavily toward artificial intelligence. "I firmly believe that India should not be a mere consumer of AI created elsewhere. It must become a creator, adopter, and global leader in AI," Ambani said while speaking at Reliance Industries' 49th AGM.

He noted that Reliance Intelligence announced last year aimed to build a profitable AI infrastructure, platform, and services business serving consumers, enterprises, and governments at scale. "We set out with a clear vision, identified the focus areas, and

began building the right partnerships with Google, Meta, and NVIDIA. Now, we are entering the next phase — Execution," he said.

Jio delivered on its promise made a decade ago of providing broadband connectivity to everyone, everywhere, and Reliance Intelligence is now promising AI to everyone, everywhere, he said.

"And we shall deliver on this promise too," he added. Ambani attributed the success of the Jio revolution to courage, creativity, and commitment of thousands of young Indian

engineers who helped Jio in shattering the myth that the country could only import foreign technology.

"Before Jio, many believed that India could only import technology from the world. Our engineers proved otherwise. They built, tested, deployed, and operated technologies at an unprecedented scale," Ambani said.

Today, Jio is not just integrating technology, it is creating original technology. Reliance Intelligence offers an even bigger opportunity to young, promising engineers. "They will get to work on problems of national scale and impact. They will build and deploy technology for 1.5 billion Indians. They will create India-born innovation that the world can adopt," Ambani said. Inviting them to "come, build with us, and build for India," Ambani promised the scale, resources, and freedom to develop powerful, language-fluent, and affordable AI that empowers everyone from farmers to creators while actively driving productivity and job creation. "...Come, build with us. And build for India. Build AI that serves humanity; AI that is powerful, trusted, yet affordable; AI that is fluent in every Indian language; AI that empowers farmers, students, doctors, shopkeepers, workers, creators, and families... We will give you the scale, the resources, the freedom, and the responsibility to solve some of the most important challenges of our age," Ambani added.

Reliance eyes India's own satellite broadband network

PIONEER NEWS SERVICE
■ New Delhi

After taking the lead in the telecom services segment on the ground, IPO-bound Jio is now looking to step up its game in connectivity from the skies with indigenous communications satellites, Jio Platforms managing director Akash Ambani said on Friday.

At present, the satellite communications segment is dominated by foreign companies like Elon Musk-led Starlink and French service provider Eutelsat.

"Jio connected India on the ground. Now, we must connect India from the skies. There are still remotest villages, island communities, and border outposts where the Jio network cannot reach. For them, satellite connectivity will be the bridge to the rest of India. Jio is evaluating the development of a

sovereign Low Earth Orbit satellite constellation for India," Ambani said. While speaking at the 49th Annual General Meeting of Reliance Industries Limited, he said Jio is also partnering with a global constellation for leasing satellite capacity.

"We are also partnering with the leading global constellation providers by leasing satellite capacity, so that we can accelerate service availability while building our own long-term sovereign capability.

This dual approach will enable Jio to meet India's connectivity needs faster, while laying the foundation for the Indian satellite broadband platform of global scale," Ambani said.

Gold slumps ₹3,392 to ₹1.45 lakh on weak global trends

PIONEER NEWS SERVICE
■ New Delhi

Gold futures slumped ₹3,392 to ₹1.45 lakh per 10 grams on Friday, tracking weak global trends amid uncertainty over the implementation of a US-Iran peace agreement, which eroded demand for the precious metal.

On the Multi Commodity Exchange, the yellow metal for August delivery extended their losses for the second straight session, declining ₹3,392, or 2.27 per cent, to ₹1,45,917 per 10 grams in a business turnover of 9,099 lots. Analysts said the initial optimism over the US-Iran

peace agreement faded after high-level talks scheduled in Switzerland were called off, raising doubts over the implementation of measures aimed at ending hostilities and restoring oil flows through the Strait of Hormuz.

Switzerland's foreign ministry said talks scheduled for Friday to discuss the next phase of the agreement "have been postponed for the time being". According to reports, US Vice-President JD Vance had postponed a planned visit, while Iran's participation in discussions also remained uncertain.

These developments have left investors unconvinced

that the peace process will be implemented smoothly, analysts said. Gold prices faced downward pressure on Friday amid a stronger US dollar, which has contributed to this decline, Gaurav Garg,

Research Analyst at Lemonn Markets Desk, said. In the global markets, Comex gold futures for August contract declined \$95, or 2.24 per cent, at \$4,150.90 per ounce in New York.

SILVER FUTURES SINK 4 PERCENT

New Delhi: Silver futures tumbled by ₹8,766 to ₹2.28 lakh per kg on Friday as investors dumped precious metals amid uncertainty over the US-Iran peace agreement and a broader selloff in the global markets. On the Multi Commodity Exchange, the white metal for July delivery slumped by ₹8,766, or 4 per cent, to ₹2,28,806 per kilogram in a business turnover of 11,080 lots. The metal had suffered a steep correction in the previous session, plunging ₹14,235, or 5.7 per cent, to close at ₹2.37 lakh per kg from Wednesday's closing level of ₹2.51 lakh per kg. Analysts said optimism surrounding the US-Iran peace process faded after high-level talks scheduled in Switzerland were called off, raising doubts over the implementation of measures aimed at ending hostilities. US Vice President JD Vance postponed his visit to Switzerland. According to reports, no Iranian delegation had been confirmed, raising fresh questions about the timeline for restoring oil flows through the Strait of Hormuz. (PTI)

Bandhan Bank increases FCNR(B) deposit rates

Private sector lender Bandhan Bank on Friday said it has increased interest rates on Foreign Currency Non-Resident (Bank) [FCNR(B)] deposits for non-resident Indian customers. The bank will now offer an interest rate of 7.1 per cent on US dollar-denominated FCNR(B) deposits of USD 1 million and above for tenures ranging from 3 to 5 years, according to a company release. For deposits up to USD 1 million, the interest rate has increased to 7 per cent, the bank said in a release. "We are pleased to introduce this attractive FCNR(B) deposit offering for our NRI customers at a time when they are seeking stability and value in their overseas investments. This offering allows them to lock in competitive returns for a longer duration while effectively mitigating currency-related risks," said Rajinder Kumar Babbar, executive director and chief business officer of Bandhan Bank. The offering comes in the wake of the RBI's decision to introduce a USD-Rupee forex swap facility for banks on fresh FCNR(B) deposits mobilised for a minimum tenor of three years and up to five years. The central bank's move aims to encourage foreign currency inflows into the domestic banking system and ease pressure on liquidity. Bandhan Bank said the revised FCNR(B) rates provide NRIs an opportunity to lock in competitive returns over a medium- to long-term horizon while reducing exposure to currency fluctuations, particularly in the event of rupee depreciation. (PTI)

Mahindra Lifespaces buys Mumbai land for project

PIONEER NEWS SERVICE
■ New Delhi

Realty firm Mahindra Lifespace Developers has acquired a 15-acre land parcel in Mumbai to develop a housing project with an estimated revenue of ₹5,600 crore. In a regulatory filing on Friday, the company said the land parcel is located at Kandivali East, Mumbai.

The project has an estimated revenue potential of ₹5,600 crore and development potential of around 1.8 million square feet. The land

has been acquired through a competitive bidding process, the company said, but did not disclose the bid value.

India, Germany aim for energy independence

PIONEER NEWS SERVICE
■ New Delhi

India and Germany share a common challenge of reducing dependence on imported fossil fuels and increasing energy independence, said German Ambassador to India Philipp Ackermann.

He was speaking at the tenth edition of the GSDP Conversation Series under the theme 'Energy Security through Renewable Energies' on Thursday.

"India has made significant progress in renewable energy deployment, with renewable sources now con-

tributing around 26 per cent of electricity generation," he added.

The Indo-German Partnership for Green and Sustainable Development

address, Ackermann said renewable energy is no longer just a climate imperative but also an economic and strategic necessity. Renewables create a powerful trinity of climate action, economic opportunity, and energy security, he opined.

The GSDP partnership is particularly significant as India and Germany mark 75 years of diplomatic relations.

The longstanding bilateral development cooperation has evolved into a partnership addressing climate action and sustainable development for resilient economic growth.

India beauty market to hit \$39 billion by 2030: Report

PIONEER NEWS SERVICE
■ New Delhi

India's beauty and personal care (BPC) products market is projected to reach \$39 billion by 2030, driven by a fundamental shift in consumer behaviour, according to a report by e-commerce major Flipkart.

Once an aspirational segment, beauty is increasingly being viewed as a daily essential for self-care and identity rather than an occasional indulgence, the report said.

According to the 'Flipkart GlamUp Annual Beauty Trends Report 2026', the Indian beauty market, currently valued at approximately \$27 billion, is identified by

industry experts as one of the most attractive growth markets globally.

"India's beauty market is at an inflexion point. What was once an aspirational category has become a daily expression of self-care, confidence, and identity. The opportuni-

ty is significant. India's beauty market is valued at \$27 billion today and is expected to reach \$39 billion by 2030, making it one of the world's most attractive growth markets," Priyanka Bhargava, Senior Director of Brand Strategy & Insights at Flipkart,

said. The leading e-commerce platform noted that consumers purchase 12 beauty products every second on its website.

During the first quarter of the financial year 2025-26, the platform's BPC business recorded a 1.5x year-on-year growth in Gross Merchandise Value (GMV), while both orders and units in the category grew by 1.6x.

A significant portion of this growth was attributed to Gen Z consumers, who now account for more than half of BPC buyers on the platform.

The report further highlights the democratisation of beauty across the country, noting that two out of every three beauty-related search-

es originate from non-metro markets. Furthermore, almost one-third of BPC sales on the platform now come from Tier-2 and smaller towns.

This has led to the emergence of 'PIN code Beauty', a trend in which demand is shaped by hyperlocal factors such as regional climate, pollution levels, and water quality. For example, consumers in Bengaluru have shown a distinct need for hard-water scalp care, while those in Rajasthan frequently seek barrier repair and hydration products.

With a registered user base of more than 500 million, Flipkart's marketplace offers over 150 million products across 80+ categories.

India initiates anti-dumping probe against Chinese, Japanese chemicals

PIONEER NEWS SERVICE
■ New Delhi

India has initiated an anti-dumping probe against imports of a chemical, used in tyre and rubber products, from China and Japan, a commerce ministry notification said.

The investigation followed a complaint in this regard by Atul Ltd to the Directorate General of Trade Remedies (DGTR). The applicant has alleged that the cheap imports of 'Resorcinol' is significantly harming the domestic industry. "On the basis of the duly substanti-

ated application filed by the applicant and having satisfied itself, on the basis of the prima facie evidence submitted by the applicant, regarding dumping of the subject goods...the authority hereby initiates an anti-dumping

investigation," the DGTR's notification said.

In the probe, the directorate would determine the existence, degree and effect of the alleged dumping of the chemical exported from China and Japan.

FROM THE WORLD

NEPAL
Zoo closed over Bird flu

The Central Zoo in Jawalakhel in Nepal's Lalitpur district, the only zoo in the country, has been closed for at least two weeks from Saturday after the detection of bird flu in several birds and animals. Ganesh Koirala, the zoo's spokesperson, said several birds and animals have died from avian influenza, the Kathmandu Post newspaper reported. The National Trust for Nature Conservation, which manages the Central Zoo, announced the closure of the zoo on Friday until further notice. The bird flu test conducted on the carcasses of crows and pigeons found inside the sanctuary confirmed the fowl infection. Koirala said the virus was detected in egrets, owls and vultures housed at the zoo. It has also been confirmed in civets and leopard cats. He said around eight to 10 birds and animals have died in the outbreak.

SOUTH SUDAN
Vietnamese sent home

A Vietnamese national deported to South Sudan by the Trump administration under its controversial third-country deportation program was repatriated to Vietnam on Friday after spending more than a year in detention. South Sudan's Ministry of Foreign Affairs announced the repatriation of 44-year-old Tuan Phan at a press briefing on Friday. "We are grateful that while in our custody Mr. Phan was very disciplined, joyful, and importantly, he remained healthy," said spokesperson Agok Anyar. Phan and seven other men were sent to Africa in May 2025, rerouted first to a US military base in Djibouti after a federal judge blocked their deportation to South Sudan midflight, citing procedural irregularities. They arrived in Juba, South Sudan's Capital, aboard a military aircraft in July 2025 after a Supreme Court ruling greenlit their removal.

Israeli strikes kill 21 amid intense fighting in Lebanon

ASSOCIATED PRESS
Jerusalem

Talks between the US and Iran were called off on Friday after intense fighting between Israel and Hezbollah in southern Lebanon, three officials said, raising questions about a nascent agreement to end the war in Iran. Iranian officials didn't travel as planned to Switzerland, insisting that the fighting in Lebanon must stop before the talks can take place, according to the officials, who spoke on condition of anonymity to discuss the ongoing mediation to try to get the talks rescheduled. US Vice President JD Vance also cancelled his trip. Israel's military

Displaced family riding with their belongings in the back of a truck as they leaving southern Lebanon

struck targets in southern and eastern Lebanon overnight, and Hezbollah reported intense fighting. Lebanon's Health Ministry said at least 21 people were

killed, and Israel said four soldiers died. The conflict between Israel and Iran-backed Hezbollah is the most precarious part of the Iran deal. Neither Israel nor the

militant group signed the agreement - but it is supposed to end their fighting, and Iran has signaled its willingness to risk renewed war in the region for the sake of

its interests in Lebanon and its most important regional ally.

Mediators are now scrambling to reschedule the meetings, which were supposed to begin addressing how to restrict Iran's nuclear program - the core issue over which Israel and the US went to war on February 28.

The talks are also supposed to bring about a permanent end to the conflict. The interim deal has already reopened the Strait of Hormuz to international shipping, after Iranian attacks and threats all but stopped the flow of oil and natural gas through the waterway. A new Iranian authority charged with overseeing the strait issued guidance Friday calling

on ships to register with it even as transits are currently free - signalling Tehran's intent to likely start charging.

The Israeli military said strikes were ongoing on Friday after four of its soldiers, including a lieutenant colonel, were killed in an attack on a tank in a village near the southern Lebanese city of Nabatiyeh. An explosive drone attack wounded another five, it added.

Israel then launched multiple strikes against "Hezbollah infrastructure sites" in Nabatiyeh and other areas, according to a military statement, which accused the militant group of "blatant ceasefire violations."

Later, the military said it also struck targets in the

Beqaa Valley in eastern Lebanon, with Lebanese media saying the village of Douris was hit.

"Israel will not tolerate attacks on our soldiers or on our territory, and it will exact a very heavy price from Hezbollah for these attacks," Netanyahu said in a statement Friday.

Hezbollah acknowledged targeting Israeli tanks and said its attacks were in response to what it called Israel's own violation of the ceasefire. It said the attacks came after Israeli forces attempted to reach the northern side of Ali al-Taher hilltop, a strategic point that overlooks Nabatiyeh and that Israeli troops have been trying to capture.

Pak delegation to attend funeral of Ali Khamenei

SAJJAD HUSSAIN
Islamabad

A Pakistani delegation will attend the funeral of Iranian supreme leader Ayatollah Ali Khamenei, who was assassinated in the US-Israeli strikes in February, Prime Minister Shehbaz Sharif announced on Friday. Addressing the National Assembly, Sharif said that he held a telephone call with Iranian President Masoud Peshkian on Thursday evening. During the call, Sharif said, the Iranian president repeatedly expressed his gratitude for standing by them in difficult times. Sharif said the Iranian president

asked him to attend the funeral of Ayatollah Khamenei on July 3-4. "I said, Pakistan's delegation will be present there, so we can tell the world how much respect we have for him in our hearts," Sharif told the lawmakers. He also boasted of Pakistan's role in the peace agreement signed between the US and Iran. (PTI)

Iran signals intent to charge ships for Hormuz transit

AGENCIES
Dubai/New Delhi

A new Iranian authority charged with overseeing the strait issued guidance Friday calling on ships to register with it even as transits are currently free - signalling Tehran's intent to likely start charging.

The notice came from the Persian Gulf Strait Authority, a new agency in the Islamic Republic. The reopening of the Strait of Hormuz marks the end of nearly four months of disruption that sent crude oil prices soaring and heightened concerns over global energy supplies.

The Strait opened after a Memorandum of Understanding, signed by US

President Donald Trump and his Iranian counterpart Masoud Peshkian to end the war, came into effect.

The Strait of Hormuz, a narrow waterway connecting the Persian Gulf with the Gulf of Oman, handles roughly 20 per cent of global energy

supplies in normal times. Shipping through the waterway was severely disrupted since February 28, when the US and Israel launched joint attacks on Iran.

Before the conflict, around 138 ships used to pass through the strait every day,

according to the Joint Maritime Information Centre.

At the height of the disruption, the number fell to a single digit. Tehran moved to shut the waterway soon after the US-Israeli bombing began, and Washington responded weeks later with a naval blockade of Iranian ports. The reopening of the Strait is expected to bring relief well beyond the region.

Commodity data firm Kpler estimates that a reopened strait could release roughly 93 million barrels of stranded non-Iranian crude from the Gulf, with a further 72 million barrels of Iranian crude - currently stuck on tankers west of Chabahar - freed up if Washington eases sanctions further. The impact of

the reopening is being felt well beyond West Asia.

A reopened route would allow exports to Europe and Asia to flow again without the costly detours that have pushed up freight and transport costs in recent months. For India, one of the world's largest energy importers, the development offers significant relief, but experts caution that the underlying vulnerabilities exposed by the crisis are far from resolved.

The Strait of Hormuz is the principal export route for Saudi Arabia, Iraq, Kuwait, the UAE and Qatar. With this Gulf chokepoint blocked, large volumes of crude queued up on tankers waiting for the waterway to clear.

Pak refutes Afghan Taliban's claim of targeting terrorist camps in border areas

SAJJAD HUSSAIN
Islamabad

Pakistan on Friday refuted the Afghan Taliban's claim of targeting terrorist camps of the Islamic State in the border areas of Khyber Pakhtunkhwa and Balochistan using rudimentary drones. "The claims are false as usual," the Ministry of Information said in a post on social media. "Terrorist camps, including that of Daesh (ISIS) and more than two dozen other terrorist organisations, are factually located, run and patronised from inside the territories under control of the Afghan Taliban regime," it added. The ministry, however, said

that one rudimentary drone of the Taliban regime intruded inside Pakistan airspace near Shinko, Khyber, which was "immediately identified and neutralised by the alert Air Defence system." Pakistan often blames

Afghanistan for allowing militants to use their soil for attacks against it. The development comes over a week after Pakistan carried out strikes on alleged terrorist hideouts along its border with Afghanistan. (PTI)

EU leaders squabble over outreach to Moscow

SAM MCNEIL
Brussels

European Union leaders have been unable to agree on setting up a back-channel with Moscow to ensure that the bloc's interests are protected should progress be made in negotiations to end Russia's war on Ukraine, some of them said on Friday.

European Council President Antonio Costa, who chaired their two-day summit, had directed his office to reach out to the Kremlin and proposed a senior official to make contact. Costa said his aim was not to mediate or set up a parallel negotiating track to the one led by the United States, which is making little progress. Debate has been swirling around Europe in

Antonio Costa

recent months about whether to appoint a mediator for talks with Russia to help get things moving again, but this has been largely rejected as many believe that Russian President Vladimir Putin would be unlikely to negotiate anyway.

Instead, the 27 EU countries have focused on concessions that Russia should make to secure peace.

Speaking to reporters, Czech Prime Minister Andrej Babis said the leaders had failed to resolve their differences over the approach overnight. "Europe is unable to agree even on whether there will be negotiations or who will lead them," he said. Irish Prime Minister Micheal Martin said that "opening up a channel is not a mistake in our view, and I trust Antonio Costa."

"What was very clear last evening is that any negotiations would have to be first and foremost between Ukraine and Russia, but there are no indications that Russia is coming to the table at all," he said. Putin has tried to cut out Europe and Kyiv from its negotiations with the United States over

Ukraine's future. But the Kremlin said Friday that it would be open for talks with Europe if it abandons its desire to talk to Moscow from the position of force.

"We are ready for contact, we were not the ones who initiated cutting such contacts, terminating them completely," said spokesperson Dmitry Peskov. "If forces emerge that realize the need to resume dialogue with Russia, not to lecturing it or, worse, to issue ultimatums ... then President Putin and the Russian side would certainly be open to it."

As the leaders left their meeting overnight, Belgian Prime Minister Bart De Wever joked that Costa would be the envoy to Moscow. (AP)

Nepal pushes diplomacy to restart tea exports

SHIISH B PRADHAN
Kathmandu

Nepal has taken diplomatic measures to resume the export of Nepalese tea to India that has been halted for some time.

As Indian authorities imposed strict rules to import Nepalese tea, tea producers in Nepal have suspended their production since Wednesday asking the government to take measures to clear obstacles on way to the export Nepalese tea to India.

"We have already taken diplomatic initiatives to resume export of Nepalese tea to India," Foreign Ministry spokesperson Lok Bahadur Paudel Chhetri said. "There has been continu-

ous coordination between the bodies concerned of Nepal and India regarding the matter," he pointed out. "The talks are heading towards positive direction and we are hopeful for early resolution to the problem,"

he added. On Thursday, a delegation from the Federation of Nepalese Chambers of Commerce and Industry (FNCCI) met Minister for Foreign Affairs Sishir Khanal and requested him to take initiatives to resolve

the problems surfaced in the export of Nepalese tea to India through diplomatic channel. A team led by FNCCI President Anjan Shrestha met the foreign minister and drew his attention towards the problem facing the Nepalese tea industry.

Nepalese tea producers are facing problem due to the new arrangements introduced by the Tea Board of India. Minister for Foreign Affairs Sishir Khanal assured the FNCCI delegation that the government was serious towards obstruction surfaced in the export of Nepalese tea and diplomatic efforts were underway with Indian side regarding this matter. "We have already initiated talks with Indian authorities to resolve issue." (PTI)

Congressman flags rising anti-India hate in US

SAGAR KULKARNI
Washington

Congressman Raja Krishnamoorthi has voiced concern on the increase in anti-India hate incidents in the US and urged Americans to stand against bigotry, prejudice and discrimination.

In a social media post on Thursday, the Democratic lawmaker cited an incident in Frisco city in Texas where a group of White supremacists shouted anti-India slogans and tore the Indian flag in front of City Hall.

"I want to sound the alarm on the rise of anti-Indian hate in the United States. Just a couple of weeks ago, in Frisco, Texas,

a group of white supremacists appeared in front of City Hall and said the following: they said, 'Go back to India, stop the Hindu takeover of Texas, and you will not replace us,'" said the Congressman from Illinois. He said hate has no place in the United States. (PTI)

Freed Israeli hostage Guy Gilboa-Dalal recounts sexual abuse in Gaza

ASSOCIATED PRESS
Jerusalem

An Israeli man who said he was sexually abused while he was held hostage in the Gaza Strip is hoping to use his voice to help empower victims who have suffered similar assaults, including in conflict zones, he said in remarks ahead of the International Day for the Elimination of Sexual Violence in Conflict.

Guy Gilboa-Dalal, 25, spent two years in captivity in Gaza after Palestinian militants abducted him and 250 others during the Hamas-led attacks in Israel on October 7, 2023.

"I feel like I have a mission to spread to the world, to use my voice and empower other victims of sexual assaults," he said Sunday in a conversation with Israel's first lady Michal Herzog in Jerusalem. "I want people who have been through those experiences to know that they're not alone."

The Associated Press does not typically identify people who say they have been sex-

ually assaulted unless they come forward publicly.

According to the United Nations, conflict-related sexual violence is on the rise worldwide, with cases more than doubling in 2025, as state and non-state actors increasingly use it as a tactic of war, torture and political repression.

In Israel and the Palestinian territories, the use of sexual violence as part of the conflict has become highly politicised since the October 7 attacks and the start of the war in Gaza.

Rights groups and the United Nations have investigated and documented cases beginning with allegations of widespread rape during the initial Hamas attacks. The UN also said last month that it has verified multiple incidents of conflict-related sexual violence, "including as a form of torture" perpetrated by Israeli military and security forces against Palestinian men and women in Gaza and the West Bank, charges Israel denies. (AP)

Indian envoy to China shows facilities available for Manasarovar pilgrims

PRESS TRUST OF INDIA
Beijing

Indian Ambassador to China Vikram Doraiswami, who recently visited Tibet to review arrangements for Indian pilgrims for Kailash Manasarovar Yatra, has posted a video explaining the facilities.

"Greetings, friends from India, pilgrims on the Kailash Manasarovar Yatra. This is from the Embassy of India in Beijing. We wish you a warm welcome in Yadong County, China," he said in the video taken in Yadong County of Tibet posted on the Indian Embassy website on Friday.

He said the pilgrims will be received by the Chinese Customs and Immigration authorities at Nathulla Pass entrance. After immigration formalities, they will be

taken by bus to Yadong County, which is a journey of about 35 to 40 minutes. A special facility was built at Yadong County for the Border market, which is to start sometime soon, he said. Doraiswami explained the amenities, such as restaurants and foreign currency exchange, and cautioned pilgrims about the cold climate. He also promised to post more videos to highlight the facilities at different places.

Doraiswami went to Lhasa last week on his first visit to the Tibet Autonomous Region to jointly review arrangements made by local government authorities for Indian pilgrims on the Kailash Manasarovar Yatra.

The pilgrims are scheduled to arrive later this month. Doraiswami took over as ambas-

sador early last month and has been interacting with the senior Chinese foreign ministry officials on the bilateral issues.

The pilgrimage, organised by the Ministry of External Affairs, was suspended initially in 2020 because of the COVID-19 pandemic and subsequently because of the military standoff between the two sides on the Line of Actual Control (LAC) in eastern Ladakh. It resumed in June last year after the first batch of Indian pilgrims arrived at Manasarovar Lake in Tibet after a five-year hiatus.

Resumption of the Kailash Manasarovar Yatra was the first initiative taken by both countries last year after the resumption of ties following the meeting between PM Modi and Chinese President Xi Jinping at Kazan in Russia in 2024.

India calls Pakistan a Frankenstein state at UN

PRESS TRUST OF INDIA
United Nations

India has slammed Pakistan at the United Nations, calling it a "Frankenstein State" that gets shocked when its "own monster bites back", as it accused Islamabad of "hosting, training and deploying" terrorists.

The remarks were made by Anupama Singh, First Secretary at India's Permanent Mission to the United Nations after Pakistan and the Organisation of Islamic Cooperation (OIC) raised the issue of Jammu and Kashmir during the Interactive Dialogue on the UN High Commissioner's annual report.

"India is compelled to exercise this right of reply in response to references made to it by Pakistan and the OIC. We categorically reject the baseless and malicious allegations made by Pakistan," Singh said.

The diplomat further said: "We also categorically reject

the references to Jammu and Kashmir made by the OIC... For the record, Jammu and Kashmir was, is, and will always remain an integral and inalienable part of India. The only unresolved issue is Pakistan's illegal occupation of Indian territories and their return." She also said that

Pakistan is a country whose sitting defence minister "boasts of hosting, training and deploying terrorists as state policy."

"This should surprise no one. An illegal illegitimate occupation can be sustained only through force," Singh said. "This is the

country with the sitting Defence Minister boasts of hosting, training, and deploying terrorists and state policy, and yet Pakistan calls itself a victim of terrorism."

The diplomat further said: "Indeed, a paradox which only Pakistan could sustain. It is a living example of a

PAK WRITES TO UNSC ON INDUS WATERS TREATY

Islamabad: Pakistan's Deputy Prime Minister Ishaq Dar has urged the UN Security Council to take notice of India's alleged violations of the Indus Waters Treaty (IWT).

The treaty, brokered by the World Bank in 1960, was suspended after the Pahalgam terror attack in April 2025 that killed 26 civilians. The treaty has governed the distribution and use of the Indus River and its tributaries between India and Pakistan since 1960. Pakistan's Permanent Representative

to the UN, Asim Iftikhar Ahmad, said that he delivered a letter from Dar to UNSC president Leonor Zalabata Torres to highlight Islamabad's concerns. In a post on X, Asim said that the letter "draws urgent attention of the UNSC" to two Indian infrastructure projects linked to the Chenab River.

"I also briefed the president of the UNSC on the overall situation in South Asia..." he said. Dar wrote a similar letter to the UNSC president in April. (PTI)

cated on goodwill and friendship," Singh said.

The decades-old treaty was suspended after the Pahalgam terror attack in April 2025 that killed 26 civilians. "It is equally undeniable that the treaty is now outdated. No technical arrangement can remain frozen in time while the world around it is transformed," the diplomat said. Singh also said that a treaty negotiated in 1960 cannot be treated as a perpetual entitlement "insulated from accountability, detached from present-day realities and untouched by the profound changes of the past few decades".

The Indus Waters Treaty, brokered by the World Bank, has governed the distribution and use of the Indus River and its tributaries between India and Pakistan since 1960. Singh added: "instead of coveting Indian territories, Pakistan would serve itself and its people far better by putting its own house in order."

Police charge a third suspect in Melbourne synagogue arson

ROD MCGUIRK
Melbourne

Police charged a third suspect on Friday with an arson attack on a Melbourne synagogue that was allegedly directed by Iran.

The 20-year-old man was one of three masked offenders who broke into the Adass Israel Synagogue, doused the interior with flammable liquid then set it alight in the early hours of December 6, 2024, a police statement alleged. The fire caused extensive damage to the synagogue and a worshipper sustained minor injuries.

The Victorian Joint Counter Terrorism Team, which brings together federal and state police with a spy agency, charged the man, who has not been named, with offenses including arson.

He was charged in a Melbourne jail where he was already being held in custody on unrelated offenses. Police declined to elaborate on those offenses. His co-accused Giovanni Lallu, 21, was arrested in July last year and another suspect, Younes Ali Younes, 20, was arrested a month later. (AP)

Burnham win sparks Labour leadership showdown fears

JILL LAWLESS
London

Labour's Andy Burnham, the current mayor of Greater Manchester, has won a special election for a seat in Parliament that puts him in a position to challenge embattled Prime Minister Keir Starmer for leadership of the country. Burnham decisively won the seat of Makerfield in northwest England over Rob Kenyon of the anti-immigration party Reform UK.

The victory announced early Friday cements the status of Burnham, a 56-year-old politician nicknamed the King of the North, as the top contender to replace Starmer as leader of the Labour Party and the country.

Burnham won almost 55 per cent of the 45,510 votes cast for a field of more than a dozen candidates, over 9,000 more than runner-up Kenyon. Burnham's victory speech left

no doubt that he wants to lead the country, and not just be one of the more than 400 Labour lawmakers in the 650-seat House of Commons.

"Everyone knows that politics isn't working," he said. "Everyone can feel that the country isn't where it should be. Tonight could, just could, be the turning point."

Starmer congratulated Burnham, writing on X that voters "chose Labour's campaign of hope and optimism over division and hate."

But he insisted he would fight attempts to oust him.

"Yes, I will run, I will stand," if there is a Labour leadership contest, Starmer said. "I've said repeatedly I'm not going to walk away from that."

Burnham has led Manchester since 2017, overseeing rapid regeneration for the city where the Industrial Revolution was forged. (AP)

Italy slams Trump over claims of Meloni begging for photo

NICOLE WINFIELD
Rome

The Italian Government on Friday slammed US President Donald Trump's claim that Premier Giorgia Meloni had "begged" for a photo with him during the recent G7 summit, a push-back that suggested the longtime US ally had had enough of Trump's boasting.

Italian Foreign Minister Antonio Tajani abruptly cancelled a planned trip to the United States this weekend, calling Trump's claims

"serious and offensive" toward Meloni and all of Italy.

For her part, Meloni posted a video calling Trump's claims "completely fabricated," which she concluded with: "Italy and I do not beg." Trump had made the comments in an interview broadcast Friday morning on the La7 network. The La7 correspondent had asked Trump about Ukraine, but Trump raised Meloni and the conversation turned to their meeting, caught on video, during the just-con-

cluded G7 meeting in Evianles-Bains, France. Meloni and Trump were filmed speaking at several points, including alone on a small sofa.

According to La7, Trump

mentioned the Indus Water Treaty with Pakistan, calling it "outdated."

"Our position on the Indus Water Treaty is well known. It defies logic that a state which exports terror as an instrument of policy continues to demand the privileges of cooperation predi-

said Meloni had "begged" him for a photo-op. Trump said he wasn't obliged to do it but that he felt sorry for her and agreed, La7 said. The broadcaster has a dubbed

version of the conversation online, not the original English audio.

In her video, Meloni said she was responding to Trump's claims because "certain things deserve an immediate response."

"Donald Trump's statements are completely fabricated. I am frankly stunned," she said. "I don't know why the president of the United States behaves this way toward his own allies. After all, this isn't the first time this has happened." (AP)

Indian jurist elected as judge of ITLOS

YOSHITA SINGH
United Nations

An eminent Indian jurist, Bimal Patel, has been elected as Judge of the International Tribunal of the Law of the Sea (ITLOS).

Patel is a Member of the UN International Law Commission, Chairman, Working Group Succession of States in respect of State Responsibility and Vice-Chancellor and Professor of Public International Law at Rashtriya Raksha University.

He is also a member of the National Security Advisory Board, National Security Council Secretariat, Prime Minister's Office

"Congratulations to Prof Dr Bimal N Patel for being elected as Judge of the International Tribunal of the Law of the Sea (ITLOS) in New York today. His

election takes forward India's enduring commitment to multilateralism and the Law of the Sea," the Permanent Mission of India to the UN said. (PTI)

India-UK FTA more than just about trade: Foreign Secretary Vikram Misri

ADITI KHANNA
Paris

The India-UK Free Trade Agreement (FTA) goes beyond just trade and technology to open many doors for the people in both countries, Foreign Secretary Vikram Misri has said.

Addressing the media on Thursday, Misri highlighted trade, technology, regional and international security as the key pillars of Prime Minister Narendra Modi's visit across a range of bilateral discussions on the sidelines of the G7 Summit in Evian. During a meeting with British Prime Minister Keir Starmer, both leaders announced July 15 as the

date for the Comprehensive Economic and Trade Partnership (CETA) to enter into force.

"The India-UK Comprehensive Economic and Trade Agreement, which was signed last year in the presence of the two Prime Ministers in the UK, will enter into force from July 15. So, a major development so far as bilateral relations with a major trading partner are concerned," Misri said.

He went on to highlight that the impact of CETA, which is expected to significantly boost annual bilateral trade from the current annual estimate of 48 billion pounds, will be felt on the

wider India-UK relationship.

"Now that a date for entry into force has been announced, I am sure that businesses on both sides have been gearing up for

some time to get into this," he told PTI. "The UK is one of our largest trading partners, an important technology partner. And this agreement is about more than just trade

and technology. It speaks to mobility between the two countries as well. And I think it will open very important doors for people in both countries," he said.

The Foreign Secretary noted that businesses in both countries have been "quite eager" to have the agreement enter into force at an early date so that they can roll out their expansion and growth plans.

Trade talks with the European Union (EU) also progressed during this week's visit, where Prime Minister Modi met jointly with both European Commission President Ursula von der Leyen and

European Council President Antonio Costa. The conclusion of negotiations towards an India-EU FTA took place earlier this year in New Delhi, with an agreement expected before the end of this year.

"This is something that came up in their meeting in Evian on the sidelines of the G7 meetings, and they once again reaffirmed their desire and instructed the respective teams to do whatever was necessary to make this signing happen before the end of the year," Misri told reporters. Prime Minister Modi concluded his tour of France on Thursday evening with an address to the Indian community in Paris. (PTI)

Dragon Boat festival preserves ancient Chinese traditions

MARIA TERESA HERNANDEZ
Beijing

The Dragon Boat Festival was celebrated Friday across mainland China, Hong Kong and Taiwan with colourful boat races, lion dances and other festivities.

The more than 2,000-year-old holiday is best known for its sporting events, but its origins are rooted in Chinese history and ancient beliefs about health, protection and harmony with nature.

"The Dragon Boat Festival is probably the richest and most diverse of all traditional Chinese festivals," said Tsinghua University's history professor Liu Xiaofeng.

"Across different regions, people developed a wide variety of traditions based

Competitors splash water on each other during the Aberdeen Dragon Boat Race to celebrate the Dragon Boat Festival in Hong Kong (AP)

on ideas connected to the summer solstice and the balance of yin and yang."

The festival is widely associated with the ancient poet Qu Yuan, who according to legend drowned himself more than 2,000 years ago. The tradition of dragon boat races was born from the

story that people raced out in boats to search for the poet and threw rice into the river so fish would not eat his body.

A three-day race in Beijing features men's, women's and mixed dragon boat races over distances of 100, 200 and 500 meters. Teams

from Beijing, Tianjin, Hebei, Shanxi and Guangdong will compete throughout the holiday weekend.

Guided by the thunderous beat of their drummers, crews pulled their paddles through the water in unison, each boat surging toward the finish line as spectators cheered them on.

Others watched the races at home as they enjoyed a traditional sticky rice treat known as "zongzi" with their families. Beijing's 2026 celebrations will continue through June 21 at the capital's Grand Canal.

"The competition helped strengthen our team spirit," said Li Maoshan, a participant in Friday's races. "It also gave us an opportunity to demonstrate the spirit of perseverance and hard work." (AP)

Children, teachers evacuated after fire breaks out in Tokyo

ASSOCIATED PRESS
Tokyo

A fire broke out at an elementary school in downtown Tokyo Friday, but all of about 300 students and teachers were evacuated or rescued, officials said.

The Tokyo Fire Department said the fire at the Takinogawa No. 3 Elementary School broke out near a music room on the top floor of the four-story building late morning Friday.

Firefighters rescued one teacher and several schoolchildren out of the building, with non-life-threatening injuries, the department said.

Television footage showed black smoke billowing out of windows on the fourth floor, as firefighters combated the

fire at the scene. Dozens of fire engines were deployed.

All others inside the building when the fire broke out had evacuated to a nearby park on their own and no one was left behind, officials said. The cause of the fire is still under investigation.

Cambodia's Supreme Court upholds Opposition leader's conviction, sparking outrage

SOPHENG CHEANG/DAVID RISING
Phnom Penh

Cambodia's Supreme Court on Friday upheld the incitement conviction of a prominent opposition politician while suspending the remainder of his sentence, keeping him out of prison but unable to practice politics for years and renewing questions about the Government's efforts to quash criticism.

The decision against Rong Chhun, a top adviser to the Nation Power Party, was met with anger by some 300 supporters from around the country who had gathered outside the Supreme Court complex in Phnom Penh.

"Even though he is not in prison, I'm saddened that his freedom has been restricted and he has become a sub-citizen, meaning he has no right to vote or participate in politics," said Nek Ratha, a 55-year-old from the capital.

"The verdict is hard for us to accept because he is not free, and he has done nothing wrong." The 56-year-old had been found guilty last year of

inciting social unrest after meeting with villagers displaced by Government construction projects, in what was widely seen as one of many legal moves taken by the Government of Prime Minister Hun Manet to stifle criticism.

Rong Chhun told his supporters the verdict was "completely unfair" and accused the court of following orders of the Government rather than the rule of law.

"If the powerful leader wants black, the court will paint it black for them," he said. "And if the powerful wants white, the court will paint it white for them."

Bryony Lau, deputy Asia director for Human Rights Watch, said the ruling demonstrates Cambodia's courts "lack of independence from the ruling party."

"Hun Manet's Government should stop using the courts to silence the political opposition and instead reopen space for parties and civil society groups to operate freely ahead of next year's election," she said. (AP)

VIT University climbs to 597 in QS 2027

PIONEER NEWS SERVICE
■ Vellore

VIT University has achieved a notable milestone by securing the 597th position in the prestigious QS World University Rankings 2027. The global higher education analysis firm, QS Quacquarelli Symonds, released the latest edition of its World University Rankings, evaluating more than 1,500 institutions worldwide across five key parameters: Research and Discovery, Learning Experience, Employability, International Engagement, and Sustainability. This year, VIT has demonstrated strong progress, advancing 94 positions from its previous ranking of 691 in 2026.

Commenting on the achievement, VIT Chancellor Dr G Viswanathan said, "In an intensely competitive global environment, VIT University's significant improvement in the QS World University Rankings is a matter of great pride." He added, "The university also excelled in the Sustainability category, securing the 352nd position worldwide and seventh place in India in the 2026 rankings. In the QS World University Rankings by Subject 2026 for Engineering and Technology, VIT is ranked 119th globally, and 6th rank among Indian institutions. Through innovation in teaching and groundbreaking advancements in research, VIT aims to break into the top 200 universities worldwide."

Transformation along India's frontiers

India's borders signify more than just geographical boundaries. They represent the front-line of the country's sovereignty and security and serve as the initial line of defence against external threats. In today's world, threats extend beyond conventional warfare and include illegal infiltration, transnational crime, and demographic shifts. Given these challenges, border management has emerged as an essential component of national security. In the past, India's border architecture suffered from neglect. Difficult terrain, inadequate connectivity, and limited technological integration often hampered the effective functioning of the security forces. Large stretches of the border were prone to infiltration and smuggling, while security operations were more reactive. However, over the last decade, there has been a funda-

mental shift in this approach. Under the leadership of Prime Minister Narendra Modi and Union Home Minister Amit Shah, border management has transformed into a central pillar of India's national security framework. The emphasis has now moved from mere guarding to comprehensive border management. The Ministry of Home Affairs' approach combines infrastructure, technology, intelligence, and institutional coordination. This shift has certainly been brought about by the government's political will and policies. Both Prime Minister Modi and Union Home Minister Amit Shah have repeatedly visited sensitive border regions. They have directly interacted with security personnel and the population.

A defining feature of this new doctrine has been the unprecedented focus on border infrastructure. Faster connectivity to remote frontier regions has improved troop deployment, logistics management, and surveillance capabilities. Areas that were once difficult to access year-round are now increasingly integrated into the security grid. Alongside physical infrastructure, technology has become a force multiplier. Building on this technological push, Shah recently announced the rollout of a nationwide 'Smart Border' project. The initiative aims to establish a comprehensive security grid across nearly 6,000 kilometres of India's international borders. The objective is to detect threats before they materialise rather than respond after damage has been done. Moreover, illegal infiltration holds long-term implications that go beyond immediate law-and-order concerns. Unchecked migration, when sustained over decades, alters local demographic patterns. Shah has increasingly conveyed that every single illegal infiltrator living on India's soil will be identified, and those who compromise

the country's security will be shown the right path. One region where this is becoming evident is India's eastern border region. The India-Bangladesh border remains one of the most sensitive and dynamic border regions in the country. It necessitates continuous surveillance and security measures. The recent efforts by the BSF to secure unsecured stretches with fencing are yet another important step towards strengthening border integrity. Reflecting a broader understanding of national security and recognising the emerging realities, Shah announced the establishment of a 'High-Level Committee on Demographic Change.' The committee has been tasked to examine demographic trends through a strategic lens. Such an approach demonstrates a shift from crisis management to preventive governance. Security preparedness has received a major boost in the strategically vital Siliguri Corridor (Chicken's Neck). The recent transfer of approximately 120 acres of land to the BSF in this region by the West Bengal government will facilitate enhanced deployment and

infrastructure development, reinforcing security in the region. The transformation of the borders is also about the people who live there, as they are stakeholders in national security. PM Modi has made it clear that the villages located on India's borders are not the 'last villages,' but the 'first villages.' Through improved connectivity and development initiatives, the government has transformed border villages into vibrant centres of economic and strategic importance. Secure borders facilitate economic growth and legitimate movement while deterring unlawful activities. This is why border management is not just about securing India's territorial integrity but also about enabling its developmental aspirations. India's borders are being viewed as strategic assets that link security and development. This transformation aims to enhance the country's long-term stability, and national resilience in a rapidly changing geopolitical environment.

Akshay Kumar, Karan Johar unveil ₹100 crore fashion startup hunt as pitch to get rich returns bigger than ever

PIONEER NEWS SERVICE
■ Mumbai

Following a successful debut season that helped emerging fashion brands unlock funding, mentorship, and accelerated growth, the Fashion Entrepreneur Fund (FEF) has officially opened registrations for Pitch To Get Rich Season 2, India's first fashion-focused business reality show. In a newly launched campaign, Akshay Kumar and Karan Johar, as promoters of FEF, announced a massive ₹100 crore investment commitment for promising fashion businesses across India; marking a 150 per cent increase over Season 1 and making it one of the largest funding opportunities available to homegrown fashion entrepreneurs. More than just a reality show, Pitch To Get Rich has emerged as a launchpad for fashion founders looking to scale their businesses

through capital, mentorship, industry access, and strategic guidance. Season 1 demonstrated the impact of FEF's venture studio model, proving that fashion founders need more than just capital to scale. Through a combination of funding, mentorship, strategic guidance and industry access, participating brands achieved remarkable growth. Menswear label Banana Club crossed ₹105 crore in net revenue. Love Kiki recorded 227.6 per cent revenue growth while expanding into more than 10 cities and securing international orders from

Karan Johar, Gaurav Dalmia, Sonali Dugar, Manju Yagnik and Chairman Vagish Pathak, are now inviting the next generation of fashion entrepreneurs to take their shot at building India's next breakout fashion brand. From apparel, footwear, accessories and couture to sustainable fashion, D2C brands and emerging lifestyle businesses, founders with scalable ideas and strong growth potential are encouraged to apply. Commenting on the launch of Pitch To Get Rich Season 2, Akshay Kumar, Promoter & Investor, Fashion Entrepreneur Fund (FEF), said: "India's fashion entrepreneurs have the talent and ambition to build world-class brands. Through Pitch To Get Rich, we're creating opportunities for founders to access the capital, mentorship and support they need to scale. This ₹100 crore commitment is our investment in the future of Indian fashion."

Saudi Arabia. House of Armuse nearly tripled its average order value while expanding into menswear. DMO Dot scaled its presence across multiple retail outlets and international markets. Furthermore Stylox more than doubled its retail footprint from 25 to 58 outlets across India. These success stories highlight how FEF's hands-on approach helps entrepreneurs build stronger, more scalable and future-ready fashion businesses. Building on these success stories, Akshay Kumar, Ravi Jaipuria, Naveen Jindal,

SMPP partners with KNDS to manufacture advanced loitering munitions in India

PIONEER NEWS SERVICE
■ New Delhi

India's defence self-reliance, SMPP has signed a strategic teaming agreement with European land defence leader KNDS to locally manufacture state-of-the-art loitering munitions in India. The agreement, inked today at the Eurostatex 2025 Exhibition in Paris, combines technology transfer with indigenous production under the Atmanirbhar Bharat and Make in India initiatives. It aims to meet the Indian Army's urgent requirement for advanced precision strike systems capable of addressing modern battlefield challenges.

been validated in recent conflicts and will significantly strengthen the Indian Armed Forces' deep strike and precision engagement capabilities," the companies stated in a joint release. This latest collaboration builds on the teaming agreement signed in November 2025 for the KATANA@ 155 mm precision-guided artillery munition, reflecting growing Indo-European defence cooperation. SMPP, a leading Indian defence technology firm, specialises in ballistic protection, precision strike systems, drones, counter-drone solutions, and advanced ammunition. The company is focused on indigenous inno-

The partnership will cover the VELOCE and RODEUR loitering munition systems along with the ISTAR family of drones. These battle-proven platforms deliver highly effective "search-and-destroy" capability, allowing operators to locate, track, and neutralise high-value targets with exceptional accuracy. Equipped with a hybrid guidance system integrating multi-constellation GNSS and INS, the munitions ensure reliable performance across diverse terrains and contested environments. Their fire-and-forget mode further enhances operational flexibility in complex scenarios. "These systems have

Ujjivan SFB reports 27% drop in call drop-offs post cloud shift

PIONEER NEWS SERVICE
■ New Delhi

Ujjivan Small Finance Bank (SFB) on Friday announced a strategic overhaul of its customer-engagement infrastructure, reporting a 27 per cent reduction in call drop-offs and customer-satisfaction scores above 90 per cent after migrating from legacy systems to a cloud-based contact centre. The move signals a shift in the bank's approach to customer experience towards more integrated, data-driven engagement as banking increasingly adopts real-time, digital-first models. Serving more than 10

million customers across mass-market segments, Ujjivan has been scaling its engagement infrastructure to handle rising volumes and complexity. The cloud platform will unify voice and outreach channels, introduce self-service and IVR-led automation at scale, centralise customer journeys, and reduce manual processes and operational friction. The change mirrors a broader industry trend from on-premise and private-cloud setups to flexible cloud models. Ujjivan is building an intelligent IVR system with automation on the Genesys Cloud™ platform.

NHAI launches Rajasthan's 1st multi-lane, free flow tolling system at Daultapura toll plaza

PIONEER NEWS SERVICE
■ New Delhi

State-owned NHAI on Friday said it has launched Rajasthan's first multi-lane free flow (MLFF)-based tolling system at the Daultapura toll plaza on the Delhi-Jaipur section of NH-48. The MLFF framework introduces barrier-less tolling with minimal human intervention, enabling vehicles to pass through toll locations without stopping and ensuring seamless traffic flow. Following the launch at Daultapura, the statement said NHAI is also planning to transit toll plazas at Shahjahanpur and Manoharpur to MLFF system, making commuting on the busy Delhi-Jaipur section

seamless and barrier-free. The system integrates automatic number plate recognition (ANPR) technology with FASTag-based electronic toll collection to facilitate automated user fee collection with minimal human intervention. Earlier, NHAI launched

MLFF has helped commuters to save time, enhance fuel efficiency as well as reduce vehicular emission at the toll location, the statement said. For a seamless MLFF experience, National Highway users are required to maintain sufficient balance in their FASTag accounts. In case of scenarios such as insufficient FASTag balance, invalid or non-functional FASTag, users are issued an electronic notice (E-Notice) for non-payment of user fee. Such users are required to pay normal user fee within 72 hours of the E-Notice. In case of non-compliance after 72 hours, the user fee will be charged at twice the normal rate of the vehicle category.

Neymar ruled out of Brazil's second match due to injury

Neymar has been ruled out of Brazil's second World Cup match because of a lingering calf injury. The Brazilian soccer confederation said Thursday that Neymar wasn't going to travel with the rest of the squad for Friday's match against Haiti in Philadelphia.

"He will remain in New Jersey to optimise the final phase of his recovery process," the confederation said in a statement. The Brazilian confederation said the 34-year-old Santos player will continue his recovery at the facilities of the team's hotel. Neymar was back on the training field for the first time on Tuesday, doing physical conditioning exercises. He rejoined his teammates for parts of the session on Wednesday, being applauded by them after getting on the field. Neymar has yet to practice in fuller sessions with the rest of the team since reporting to Brazil's squad while nursing an injured right leg.

Looking to play in his fourth World Cup, Neymar had undergone tests on his right calf on Monday to determine the progress of the injury that he sustained while playing with Santos on May 17. The five-time World Cup champions began their tournament with a 1-1 draw against Morocco on Saturday in Group C. (AP)

South Africa keeps hopes alive with draw against Czech Republic

JAMES ROBSON ■ Atlanta

Teboho Mokoena started the game with tears in his eyes and finished it with a smile on his face after converting a second-half penalty in South Africa's 1-1 draw with the Czech Republic on Thursday at the World Cup.

Thapelo Maseko's long range shot late in the match caught the hand of Czech opponent Pavel Sulc in the area.

Mokoena, who was shown on camera with tears rolling down his cheeks during the pre-game national anthem, stepped up to the penalty spot and sent his shot low past Czech Republic goalkeeper Matej Kovar in the 83rd minute.

The South Africa midfielder said he was overwhelmed before kick off, thinking about his late grandfather.

"I know, wherever he is, he would be proud of me," Mokoena said. "I just felt his presence in that moment. I thought

if he was here, he would be proud of me because I know he believed in me when nobody believed in me." Michal Sadilek had given the Czechs the lead in the sixth minute at Mercedes-Benz Stadium. Alexandr Sojka played in Sadilek and he slid a shot past goalkeeper Ronwen Williams. Both teams lost their opening matches, and both knew another setback would seriously hinder their chances of reaching the round of 32.

South Africa faced some strong criticism following its 2-0 loss to co-host Mexico, which raised the prospect of the country extending its run of

never having advanced to the knockout phase of a World Cup - even as host in 2010.

"If we go on like that and if we can make another performance like today I think we have a chance to go in the second round," South Africa coach Hugo Broos said.

South Africa will next face South Korea on Wednesday in Group A, but will be without Mokoena, who is suspended after picking up his second yellow card of the tournament.

The Czechs lost to South Korea 2-1 in their opening match. (AP)

Iniyan emerges champion at Global Chess Festival

PRESS TRUST OF INDIA ■ Mumbai

Grandmaster Iniyan Pa lived up to his top billing, dominating proceedings from start to finish to emerge champion in the masters category of Global Chess Festival here on Friday.

Already in sight of the title after the penultimate round, the 24-year-old national champion settled for a quick draw against Ajay Santhosh Parvathareddy to claim the title in his debut appearance to pocket the winner's purse of ₹8 lakh. Nithin Babu clinched the Challenger Category and Madhvendra Pratap Sharma triumphed in the Junior Master Category.

Both Nithin and Madhvendra have directly qualified to play the Masters Category in the 10th season scheduled for next year.

The Erode-based GM Iniyan amassed 7.5 points to emerge

champion, maintaining an unbeaten stint while conceding only three draws. Boris Savchenko had to settle for a draw against Aakash Sharadchandra Dalvi and finished second with 6.5 points.

Babu, seeded sixth, defeated Ashirwad Swain in an intense battle on the top board of the Challenger section. Viresh Sharnarhi, who had been leading the event with a stupendous run of six wins from six matches, crashed to defeat in the last two rounds and finished 10th.

Nithin took home ₹3 lakhs and a trophy.

The 13-year-old Madhvendra Pratap Sharma, the top seed, also had the luxury of indulging in another quick draw against A Amanlal and tallied eight points for the title. Madhvendra earned ₹2 lakh and a trophy in the event touted as the richest prize money competition for kids in the world.

India eyes return of F1 by 2030: FMSCI president

Efforts are on to bring Formula 1 back to India by 2030, and a round of the World Rally Championship (WRC) and MotoGP by 2028, said FMSCI President Arindam Ghosh, after a meeting with the Sports Ministry in Delhi.

Earlier in March, Sports Minister Mansukh Mandaviya had made a push to revive Formula One in the country, holding a meeting with the Federation of Motor Sports Clubs of India (FMSCI) to discuss a framework that would create a "strong pipeline" of drivers and technicians.

Now, at the FMSCI Annual Awards function, Ghosh said "the meeting with Union Sports Minister Mansukh Mandaviya, Minister of State Raksha Khadse, senior officials and potential stakeholders in New Delhi, focused primarily on bringing F1, MotoGP and a round of the WRC to India." (PTI)

David propels Canada to its first World Cup win

ANNE M PETERSON ■ Vancouver

Jonathan David scored three goals and Canada won its first World Cup match while all but securing a spot in the knockout round with a 6-0 victory over Qatar on Thursday.

Qatar was reduced to nine players because of red cards in the chaotic match.

Cyle Larin scored his second goal of the tournament on a rebound in the 16th minute. David doubled the lead with a right-footed volley in the 29th, for his first goal in the run of play in more than a year.

Canada made it 3-0 in first-half stoppage time when David scored in a scramble in front of the net off a shot that caromed off the crossbar.

Nathan Saliba, who came in as a substitute for Kone, scored on a free kick in the 64th to make it 4-0. Mohamed Manai deflected a shot past his goalkeeper for an own goal in the 75th. David completed the

hat trick in stoppage time, joining Argentina's Lionel Messi as the only players with three goals in a match in this World Cup.

Qatar scored a stoppage-time goal to earn a surprising 1-1 draw with Group B favorite Switzerland in its opener. (AP)

Awer Mabil one of refugees playing in the World Cup

JANIE MCCAULEY ■ Alameda (US)

Awer Mabil's face quickly turned to pure joy. He beamed and fought his emotions, a reaction Australia's veteran forward hardly could have seen coming.

It had nothing to do with a soccer result, either. But rather a reflection that took him back to his tumultuous youth as a refugee and how some good fortune landed him in Australia for a new start in life.

Mabil looked into the audience during his media conference after training Tuesday and discovered a familiar face in David Basheer, the longtime commentator on Australia's SBS network who had just offered a question days ahead of the Soccerroos' World Cup matchup against the United States on Friday in Seattle.

"I grew up watching you," Mabil said, so taken aback that he asked Basheer to repeat himself. (AP)

Lionel Messi's family pleads for 'humanity'

DEBORA REY ■ Dallas

Lionel Messi's father is undergoing medical treatment for an undisclosed illness and his family asked the media for "humanity" on Thursday amid rumors about Jorge Messi's health while his son competes at the World Cup.

The family did not specify the illness that the 68-year-old Jorge Messi is suffering from.

"Jorge is going through a health situation," the Messi family said in a statement. "He is currently under medical observation, recovering and progressing favorably within his current condition." (AP)

Switzerland beats Bosnia-Herzegovina 4-1 at World Cup

GREG BEACHAM ■ Inglewood (US)

Substitute Johan Manzambi scored his first World Cup goal on an outstanding volley in the 74th minute, and Switzerland erupted late for a 4-1 victory over Bosnia-Herzegovina on Thursday.

Ruben Vargas scored in the 84th minute for the Swiss shortly after Tarik Muharemovic was sent off for a dangerous tackle, leaving Bosnia with 10 men.

Manzambi scored again in the 90th on a pass from Vargas, and captain Granit Xhaka converted from the penalty spot with the final kick of the game in stoppage time.

Ermin Mahmic scored in second-half injury time for Bosnia, which still has a legitimate chance of reaching the knockout stage of only its second World Cup after hanging with higher-ranked Switzerland deep into the second half.

Switzerland followed up its disappointing 1-1 draw with Qatar last week by largely dominating play against the momentum-laden Dragons, who were unbeaten in

German club Freiburg - and then Muharemovic's red card changed the match.

Manzambi scored three minutes after coming on for standout winger Dan Ndoye. Manzambi jumped and connected perfectly on Amar Memic's attempted clearing header, setting off a wild celebration in the nervous Swiss section of SoFi Stadium.

Bosnia was backed by a raucous cheering section with tens of thousands of fans in the crowd of 70,026 celebrating their nation's second World Cup appearance. The Dragons had less possession and fewer chances, yet every good moment was greeted by roars. (AP)

India to send 125-130 athletes to CWG: Iyer

PHILEM DIPAK SINGH ■ New Delhi

India will be represented by 125 to 130 athletes covering eight able-bodied and four para sports at the scaled-down Glasgow Commonwealth Games in July-August, Indian Olympic Association (IOA) CEO Raghuram Iyer said on Friday while asserting that the body would steer clear of any selection disputes.

The 2026 CWG - scheduled from July 23 to August 2 - will feature just 10 able-bodied and six para sports to ensure a cost-effective event. Glasgow stepped in as the host city after the Australian state of Victoria pulled out due to escalating costs.

"We will have a total of 125-130 participants, athletes. One third of the number of athletes will be the support staff," IOA CEO Raghuram Iyer told PTI.

"We will compete in eight able-bodied and four para sports," he said on the sidelines of the second edition of

the IOA Athletes Forum here.

The sports programme for the Glasgow CWG comprises athletics and para athletics, swimming and para swimming, 3x3 basketball and wheelchair 3x3 basketball, bowls and para bowls, boxing, track cycling and para track cycling, gymnastics, judo, netball, and weightlifting and para powerlifting.

The 2022 CWG in Birmingham had featured 19 able-bodied and eight para sports, and India had sent 208 athletes, winning 61 medals (22 gold, 16 silver, 23 bronze) to finish fourth in the final standings. The IOA is expected to announce the full contingent after June 23 which is the deadline for sending the list of participants to the Glasgow Games organisers.

"The teams have been selected. All the NSFs have sent us the names. The uniforms and the ceremonial dress (for the contingent members) are being planned. All the logistics are being planned," Iyer said. (PTI)

Macau Open: Ashmita storms into semifinals, Anmol out

PRESS TRUST OF INDIA ■ Macau

Indian shuttler Ashmita Chaliha continued her impressive comeback from injury, defeating Korea's Kim Min Sun in straight games to enter the women's singles semifinals, but compatriot Anmol Kharb bowed out after a quarterfinal defeat at the Macau Open Super 300 tournament here on Friday.

The 26-year-old from Assam, who returned to competition in May after a three-month injury layoff, took 37 minutes to see off world No.99 Kim 21-16 21-18 to continue her impressive run.

It is her first semifinal appearance in a BWF tour event this year. She had registered quarterfinal finishes at the China Masters Super 100 and Malaysia Masters super 500 events since returning to the court.

World No. 63 Ashmita, who had to undergo surgery and an extensive rehabilitation period after suffering

a medial meniscus tear in her right knee during the Korea Open, will now face Korea's Park Ga Eun for a place in the final.

In the other match, world No. 51 Anmol, however, failed to capitalise on a strong start, going down 21-14 15-21 13-21 to fourth seed Han Qian Xi, ranked 36th in the world, in a 60-minute clash.

Dominant Indian women eye Chile scalp en-route FIH Nations Cup final

PRESS TRUST OF INDIA ■ Auckland

Dominant so far in the tournament, a confident India will look to continue in the same vein and upstage a lower-ranked Chile in the semifinals of the FIH Nations Cup here on Saturday in their pursuit of reclaiming their place in the elite FIH Pro League.

India have literally muscled their way to the semifinals from Pool A with three wins from as many games, topping the group with nine points ahead of the USA. Hosts New Zealand, on the other hand, topped Pool B with an all-win record and will take on the USA in the other semifinal.

India are determined to win the FIH Nations Cup to earn their place back in next season's elite FIH Pro League, from which they were relegated last year. The Indian women's team was relegated from the elite FIH Pro League to the

second-tier FIH Hockey Nations Cup following its last-place finish in the 2024-25 season, after managing only 10 points from 16 matches.

The winner of the eight-nation FIH Nations Cup will progress to next year's FIH Pro League.

Going by rankings and current form, India will definitely start as favourites against Chile.

In red-hot form, India are currently ranked ninth in the world, while Chile are placed 13th, but rankings hardly matter in modern-day hockey. But going into the semifinal, India's chief coach Sjoerd Marjine should have a few concerns as his side had to dig deep to prevail over 17th-ranked Uruguay in their last pool match.

West Indies beats Scotland by 7 runs to stay unbeaten: T20 WC

EDDIE PELLASAP ■ Leeds

The West Indies overcame Scotland by seven runs and stayed unbeaten at the Women's Twenty20 World Cup after a madcap match at Headingley. Scotland needed 154 to win, a record chase, and was in it at 132-5 with two overs left. Then medium-pacer Aaliyah Alleyne came to the West Indies' rescue.

Fraser and Carter then gave Scotland a brilliant flying start to the chase.

She took three wickets in the 19th over, including Darcey Carter on 59. Scotland required 17 off the last over and was all out on the last ball for 146 on Thursday.

Only the West Indies and England were two for two in Group 2, with the top two making the semifinals.

Scotland had the West Indies on the ropes in both innings. Tight bowling and fielding reduced the West Indies to 124-6 after 18 overs.

But another veteran, Stafanie Taylor, who missed the West

Indies' opening win over defending champion New Zealand, rescued the batting effort. Her unbeaten 47 off 19 balls with 34 runs in boundaries lifted her side to a competitive 153-6 total. West

Indies added 29 off the last two overs, 26 by Taylor.

Katherine Fraser starred in the field for Scotland with two wickets, including bowling Hayley Matthews, a leaping catch on the boundary, and a run out of Shemaine Campbelle on 36.

Fraser and Carter then gave Scotland a brilliant flying start to the chase. But West Indies fought back with four wickets in 13 balls into the eighth over, and Scotland's run rate dropped below the required run rate for the first time. Carter injured her leg in the fourth over and was dropped on 19. Struggling to run, she didn't hit a boundary after the fifth over until the 18th. Scotland went nearly five overs without a boundary. But Scotland stayed in the game thanks to poor bowling and fielding. (AP)

Roadmap for 2027 World Cup is ongoing process: BCCI secretary

KUSHAN SARKAR ■ New Delhi

The deliberations on India's roadmap for the 2027 World Cup are "not meant for public consumption", BCCI secretary Devajit Saikia said in an interview to PTI, refusing to be drawn into any discussion on individual players and their much-speculated future in the team.

"There are regular conversations taking place. For that reason, we do not need any special session of interaction. This is an ongoing process," the secretary said, keeping all his cards close to his chest.

He maintained that he would not divulge any board room information. "I do not think I should disclose anything before the media or the public because these are strategic discussions. I am not authorised to speak about them before the media." "Secondly, these are matters that should remain within the boardroom."

BCCI to follow government diktat on Bangladesh: The Indian cricket team had postponed its white-ball tour of Bangladesh last year due to unrest in the neighbouring nation. (PTI)

Veterans Rohit Sharma and Virat Kohli dominate the chatter whenever there is any talk around the Indian team's 2027 global campaign but Saikia is categorical that "strategic discussions in the board room" are best left inside. While both former skippers are determined to play the mega-event, chairman of selectors Ajit Agarkar and head coach Gautam Gambhir have been non-committal on whether the squad will have space for the white-ball legends.

Asked if the BCCI has had any internal conversations on the matter, Saikia said all stakeholders are aligned in their views in what is essentially an ongoing process.

"We have a very well-knit team and a lot of experts. All stakeholders are taken on board," Saikia told PTI during an exclusive interaction.

"Whatever decisions that are made involve the cricket committee, the selectors and all other stakeholders, including the support staff, the head coach and the players concerned.

Shreyanka Patil ruled out with ankle injury

PRESS TRUST OF INDIA ■ Leeds

In a major blow to India, off-spinner Shreyanka Patil has been ruled out of the ongoing Women's T20 World Cup due to an ankle injury, with uncapped legspinner Prema Rawat named as her replacement.

The 23-year-old Patil sustained the injury during India's 95-run victory over the Netherlands here on Wednesday. The incident occurred in the final over of the Powerplay when Patil twisted her ankle while attempting to stop the ball.

She was seen clutching her right leg immediately with the team physio rushing onto the field. Unable to put any weight on the injured ankle, Patil was stretchered off after bowling just one delivery.

"The Event Technical Committee of the ICC Women's T20 World Cup 2026 has approved Prema Rawat as a replacement for Shreyanka Patil in the India squad," an ICC media release stated.

The 24-year-old Rawat earns her maiden call-up to the senior national team. She has featured in two seasons of the Women's Premier League, playing six matches for

Royal Challengers Bengaluru. Rawat was part of the India A squad scheduled to tour England for a six-match white-ball series begin-

ning with the first T20 in Northampton on Saturday.

She had also impressed at the Rising Stars Women's Asia Cup, claiming eight wickets at an economy rate of 4.27 as India A won the title.

The setback continues Patil's unfortunate run with injuries in recent years.

A broken finger in July 2024 ruled her out of that year's T20 World Cup. She subsequently battled shin splints in both legs before suffering a stress reaction in her wrist, making the latest injury another frustrating blow in an injury-plagued phase of her career.

Vaibhav can revive Test cricket: Srikanth

SUMAN RAY ■ Chennai

Teenage batting sensation Vaibhav Sooryavanshi could trigger a "revival of Test cricket" if he fulfils his potential in the longest format, said former India captain Krishnamachari Srikanth, urging fans and experts to stop over-analysing the youngster's performances.

Riding on his IPL exploits, Sooryavanshi has earned his maiden call-up in the Indian T20 set-up. The teenager has been picked for the seven-match tour of Ireland and England, comprising two games against Ireland and five against England, beginning in Belfast on June 26.

Srikanth said the 15-year-old possesses a rare ability to attract audiences and should be allowed to develop naturally without being burdened by expectations.

"What I like about

Vaibhav Sooryavanshi is he has an appetite to score runs and an appetite to dominate. At the same time, he could stay there and play also," Srikanth told PTI at his residence here. "If he progresses beyond T20 cricket to one-day cricket, and then to Test cricket, and if he clicks in Test cricket, which he will, I am sure then you will see a revival of Test cricket. (PTI)

Jaiswal, Rahul, Rana in focus

G UNNIKRISHNAN ■ Chennai

Along with a dominance-extending series clean sweep, India will eye substantial runs from KL Rahul and Yashasvi Jaiswal in the third and final ODI against Afghanistan here on Saturday. While Rahul's spot in the one-day squad has never really been in doubt, Jaiswal would welcome a heavy knock to stake his claim for a space in the already-crowded top-order. Jaiswal was brought back to the 50-over format for the first time since December 2025, and he was dismissed for 4 in the second match against the Afghans at Lucknow.

The left-hander had made an unbeaten 116 against South Africa at Visakhapatnam in his previous appearance but since then the return of Ishan Kishan has added one more contender to the top-

order positions. Kishan did no harm to his reputation with a hundred at Lucknow, and skipper Shubman Gill dropped himself to No. 3 to accommodate Jaiswal.

But once Virat Kohli returns to the side after recovering from his hamstring injury, the batting superstar is certain to occupy the No. 3 slot. It leaves Gill with no other option but to return to opening the innings alongside Rohit Sharma. With Kishan and Shreyas Iyer occupying the No. 4 and 5 respectively, Jaiswal needs to make use of the limited opportunities that come his way.

It's a tight and uncomfortable space for any batter, let alone for a hugely talented cricketer like Jaiswal but the team combination rigmarole is an all-consuming maze at this point.

It's also imperative for Jaiswal to score big because India's ODI squad to tour England for three matches will be announced soon, and another slip-up might just not be taken kindly by a ruthless and fast-moving selection panel headed by Ajit Agarkar.

Shreyas makes a good leader: Vysakh

G UNNIKRISHNAN ■ Chennai

Shreyas Iyer's maiden audition as India's full-time T20 skipper will take place in England next month, and his Punjab Kings teammate Vysakh Vijaykumar said the Mumbai cricketer's exceptional man management skills will stand him in good stead. Iyer was given the reins of the T20 squad after the Ajit Agarkar-led selection panel decided to move on from Suryakumar Yadav earlier this month.

"I think the way he treats everybody equally, that is the biggest thing because youngsters will be, obviously, under a lot of pressure. So, the way you handle them, speak to them, makes a lot of difference."

Vysakh told PTI.

"The IPL is a tough competition, and, you know, Indian players are the ones who are going to win the tournament for you. So, the way he handled all the Indian players, uncapped players, was calming and a lot of learnings (from it) for me and everyone, and it makes him a good leader," he added.

Vysakh, who joined PBKS ahead of IPL 2025, has played two seasons under Iyer, seeing from close quarters the evolution of him as a leader and batter. "From the first time that I have seen him in 2025, he has matured so much as a captain and player. Every day he is bringing new things on the table and every day he is eagerly wanting to try it out. "He has this fire and aura that he carries every time he goes into the field, as he wants to win it no matter what and the way he handles himself and the way he handles everybody in the team, it's such a pleasure," he said. The Karnataka pacer, who played 10 matches this season, said Iyer gave him ample opportunity to prove his mettle. (PTI)
